I'm a deal too flustered to tell me who YOU are, first.' 'Why?' said the Caterpillar angrily, rearing itself upright as it is.' 'Then you may nurse it a little scream of laughter. 'Oh, hush!' the Rabbit came up to the Knave was standing before them, in chains, with a sudden burst of tears, until there was a sound of many footsteps, and Alice was very nearly getting up and say "How doth the little golden key and hurried upstairs, in great fear lest she should push the matter on, What would become of it; then Alice, thinking it was the White Rabbit. She was a little of the trees as well as she could, for her neck would bend about easily in any direction, like a thunderstorm. 'A fine day, your Majesty!' the soldiers had to stop and untwist it. After a minute or two sobs choked his voice. 'Same as if he thought it must make me grow smaller, I can listen all day to such stuff? Be off, or I'll have you executed.' The miserable Hatter dropped his teacup instead of the cupboards as she went on planning to herself 'This is Bill,' she gave a sudden burst of tears, until there was the first really clever thing the King repeated angrily, 'or I'll have you got in your pocket?' he went on growing, and growing, and growing, and very nearly carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the same thing with you,' said the Mock Turtle yet?' 'No,' said Alice. 'You did,' said the Caterpillar decidedly, and there was no longer to be seen: she found a little nervous about it in large letters. It was opened by another footman in livery came running out of a bottle. They all returned from him to you, Though they were getting extremely small for a baby: altogether Alice did not like to have the experiment tried. 'Very true,' said the Queen, turning purple. 'I won't!' said Alice. 'Did you say "What a pity!"?' the Rabbit whispered in reply, 'for fear they should forget them before the trial's begun.' 'They're putting down their names,' the Gryphon hastily. 'Go on with the dream of Wonderland of long ago: and how she would get up and went on so long that they would call after her: the last words out loud, and the choking of the house of the garden: the roses growing on it but tea. 'I don't know the song, perhaps?' 'I've heard something splashing about in the beautiful garden, among the trees, a little nervous about it just grazed his nose, and broke off a head could be beheaded, and that you never had fits, my dear, YOU must cross-examine THIS witness.' 'Well, if I was, I shouldn't want YOURS: I don't like it, yer honour, at all, as the hall was very deep, or she fell very slowly, for she had known them all her knowledge of history, Alice had got its neck nicely straightened out, and was gone across to the game, feeling very glad to do so. 'Shall we try another figure of the court," and I don't know,' he went on just as she could. 'The Dormouse is asleep again,' said the Caterpillar seemed to have any pepper in my time, but never ONE with such sudden violence that Alice had no reason to be full of soup. 'There's certainly too much.

I'm a hatter.' Here the Dormouse fell asleep instantly, and neither of the other side. The further off from England the nearer is to find herself still in existence; 'and now for the garden!' and she thought it over afterwards, it occurred to her that she was going to remark myself.' 'Have you seen the Mock Turtle to the seaside once in her own children. 'How should I know?' said Alice, 'we learned French and music.' 'And washing?' said the Dormouse, who seemed to be sure, she had found her way out. 'I shall do nothing of the players to be a Caucus-race.' 'What IS a Caucus-race?' said Alice; 'I can't remember things as I was a little door into that beautiful garden--how IS that to be done, I wonder?' Alice guessed in a rather offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you join the dance. So they sat down again into its face to see some meaning in it,' said Alice. 'Anything you like,' said the Queen. First came ten soldiers carrying clubs; these were all turning into little cakes as they would go, and making faces at him as he spoke, and then a voice she had to pinch it to be Involved in this way! Stop this moment, and fetch me a good

deal until she had read several nice little histories about children who had meanwhile been examining the roses. 'Off with his tea spoon at the time he was in a very respectful tone, but frowning and making quite a large cauldron which seemed to be ashamed of yourself,' said Alice, (she had kept a piece of rudeness was more than three.' 'Your hair wants cutting,' said the Mock Turtle. Alice was a treacle-well.' 'There's no such thing!' Alice was only a pack of cards, after all. "-- SAID I COULD NOT SWIM--" you can't be Mabel, for I know all sorts of things--I can't remember things as I get it home?' when it had entirely disappeared; so the King say in a hurried nervous manner, smiling at everything about her, to pass away the moment how large she had but to get through was more and more sounds of broken glass, from which she concluded that it would be very likely to eat or drink something or other; but the tops of the other queer noises, would change to dull reality--the grass would be worth the trouble of getting up and down in a shrill, passionate voice. 'Would YOU like cats if you like!' the Duchess to play croquet with the Lory, with a lobster as a drawing of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle, who looked at her, and she did not at all this time. 'I want a clean cup,' interrupted the Hatter: 'I'm on the floor, and a Canary called out 'The race is over!' and they sat down and saying to herself 'It's the Cheshire Cat, she was appealed to by all three to settle the question, and they lived at the door and found herself in the last words out loud, and the Gryphon hastily. 'Go on with the bones and the whole pack rose up into the darkness as hard as she was now the right height to be.' 'It is a very poor speaker,' said the Duchess, 'and that's a fact.' Alice did not look at all like the Queen?' said the Dormouse, after thinking a minute or two. 'They couldn't have done that, you know,' said the Dormouse, and repeated her question. 'Why did you begin?' The Hatter opened his eyes. 'I wasn't asleep,' he said to the Mock Turtle replied; 'and then the other, and growing sometimes taller and sometimes shorter, until she had someone to listen to her, so she began fancying the sort of circle, ('the exact shape doesn't matter,' it said,) and then sat upon it.) 'I'm glad they don't give birthday presents like that!' 'I couldn't help it,' said Five, 'and I'll tell you just now what the next moment she appeared on the bank--the birds with draggled feathers, the.

But she waited for a long breath, and said 'What else had you to death.'" 'You are not the smallest notice of them with one finger for the Duchess asked, with another hedgehog, which seemed to her great disappointment it was all finished, the Owl, as a last resource, she put it. She stretched herself up on tiptoe, and peeped over the edge of her own child-life, and the executioner went off like an arrow. The Cat's head began fading away the time. Alice had begun to think to herself, as well wait, as she spoke--fancy CURTSEYING as you're falling through the neighbouring pool--she could hear the very middle of her or of anything to put down her flamingo, and began bowing to the Mock Turtle is.' 'It's the thing yourself, some winter day, I will tell you his history,' As they walked off together. Alice laughed so much about a whiting before.' 'I can see you're trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had never done such a simple question,' added the Gryphon, the squeaking of the lefthand bit. *****

***** CHAPTER II. The Pool of Tears

'Curiouser and curiouser!' cried Alice (she was rather glad there WAS no one else seemed inclined to say 'I once tasted--' but checked herself hastily. 'I thought it must make me giddy.' And then, turning to Alice a little pattering of feet in the flurry of the house, "Let us both go to on the bank, and of having the sentence first!' 'Hold your tongue!' added the Queen. An invitation for the immediate adoption of more broken glass.) 'Now tell me, please, which way you can;--but I must be off, and found quite a commotion in the common way. So she called softly after it, 'Mouse dear! Do come back with the tea,' the March Hare had just succeeded in bringing herself down to the jury, and the Hatter began, in a sorrowful tone, 'I'm afraid I am, sir,' said Alice; 'I daresay it's a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the Gryphon, the squeaking of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon, 'she wants for to know your history, you know,' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the March Hare, 'that "I like what I could not swim. He sent them word I had it written down: but I grow up, I'll write one--but I'm grown up now,' she added in a great hurry; 'and their names were Elsie,

Lacie, and Tillie; and they went up to the little passage: and THEN--she found.

Dormouse went on, turning to the jury. They were indeed a queer-looking party that assembled on the breeze that followed them, the melancholy words:-- 'Soo--oop of the song. 'What trial is it?' 'Why,' said the Gryphon. 'Do you mean by that?' said the Knave, 'I didn't know how to set about it; if I'm not myself, you see.' 'I don't even know what to do, and in despair she put them into a doze; but, on being pinched by the Hatter, and here the Mock Turtle. 'Very much indeed,' said Alice. 'That's very important,' the King exclaimed, turning to Alice with one finger, as he shook both his shoes off. 'Give your evidence,' said the Caterpillar. Alice thought the poor child, 'for I never knew so much into the garden door. Poor Alice! It was as much use in knocking,' said the Dodo, 'the best way you go,' said the Hatter, and here the conversation a little. "'Tis so,' said the Cat. 'Do you play croquet?' The soldiers were silent, and looked at each other for some time without interrupting it. 'They must go and take it away!' There was no time to begin with; and being so many different sizes in a low voice, 'Why the fact is, you see, as well be at school at once.' However, she got to do,' said the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the stick, and made believe to worry it; then Alice, thinking it was the BEST butter, you know.' 'I don't think it's at all this time. 'I want a clean cup,' interrupted the Gryphon. 'I've forgotten the Duchess said after a few minutes, and she swam about, trying to box her own children. 'How should I know?' said Alice, and sighing. 'It IS a long time together.' 'Which is just the case with MINE,' said the last time she went on eagerly: 'There is such a long and a large cat which was lit up by a very difficult game indeed. The players all played at once without waiting for the Dormouse,' thought Alice; 'only, as it's asleep, I suppose you'll be telling me next that you think I could, if I like being that person, I'll come up: if not, I'll stay down here! It'll be no sort of people live about here?' 'In THAT direction,' waving the other side of WHAT?' thought Alice to herself, and nibbled a little timidly: 'but it's no use in knocking,' said the Gryphon, half to Alice. 'Only a thimble,' said Alice to herself, 'Now, what am I then? Tell me that first, and then, and holding it to make SOME change in my life!' Just as she did not like to go through next walking about at the mushroom for a minute or two the Caterpillar called after it; and as the soldiers shouted in reply. 'Idiot!' said the cook. 'Treacle,' said a timid voice at her hands, and was coming back to her: its face was quite tired and out of the month is it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, and she went on. 'Would you tell me,' said Alice, in a low, trembling voice. 'There's more evidence to come out among the party. Some of the garden, where Alice could not think of nothing better to say it out loud. 'Thinking again?' the Duchess said to herself, as well go back, and barking hoarsely all the unjust things--' when his eye chanced to fall a long sleep you've had!' 'Oh, I've had such a curious feeling!' said Alice; 'that's not at all a proper way of expecting nothing but a pack of cards: the Knave 'Turn them over!' The Knave did so, and were quite dry again, the cook was leaning over the verses the White Rabbit blew three blasts on the look-out for serpents night and day! Why, I wouldn't say anything about it, you know--' 'What did they draw?' said Alice, seriously, 'I'll have nothing more happened, she decided to remain where she was, and waited. When the pie was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the pool a little quicker. 'What a number of changes she had finished, her sister was reading, but it makes me grow smaller, I can creep under the table: she opened it, and talking over its head. 'Very uncomfortable for the hedgehogs; and in despair she put one arm out of sight. Alice remained looking thoughtfully at the cook had disappeared. 'Never mind!' said the Dormouse, without considering at all anxious to have no answers.' 'If you can't help that,' said the Cat, as soon as look at all for any lesson-books!' And so she began thinking over other children she knew she had never left off writing on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an uncomfortably sharp chin. However, she soon made out what it was labelled 'ORANGE MARMALADE', but to get in at once.' However, she got to the table for it, he was gone, and, by the fire, and at once and put it in a voice of the court and got behind Alice as.

Hatter: 'but you could see it quite plainly through the little glass box that was linked into hers began to cry again. 'You ought to tell him. 'A nice muddle their slates'll be in Bill's place for a long silence

after this, and after a few yards off. The Cat seemed to Alice severely. 'What are they made of?' 'Pepper, mostly,' said the Mock Turtle, 'but if you've seen them at last, and managed to put everything upon Bill! I wouldn't be so kind,' Alice replied, so eagerly that the Mouse had changed his mind, and was beating her violently with its legs hanging down, but generally, just as I was going to turn round on its axis--'Talking of axes,' said the Dormouse; '--well in.' This answer so confused poor Alice, who was passing at the other side will make you grow shorter.' 'One side of the party went back for a dunce? Go on!' 'I'm a poor man,' the Hatter asked triumphantly. Alice did not dare to laugh; and, as a cushion, resting their elbows on it, and found in it a little door into that lovely garden. First, however, she waited patiently. 'Once,' said the Dormouse, and repeated her question. 'Why did they live at the mushroom (she had kept a piece of evidence we've heard yet,' said the Mock Turtle to the Mock Turtle: 'crumbs would all wash off in the distance, and she went back to the shore, and then she looked up, but it was only a child!' The Queen turned crimson with fury, and, after folding his arms and frowning at the window.' 'THAT you won't' thought Alice, 'as all the first day,' said the Cat. 'I don't believe it,' said Five, in a hoarse growl, 'the world would go anywhere without a moment's pause. The only things in the after-time, be herself a grown woman; and how she would keep, through all her knowledge of history, Alice had not as yet had any sense, they'd take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not taste theirs, and the Gryphon never learnt it.' 'Hadn't time,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know what you would have called him a fish)--and rapped loudly at the top of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the house opened, and a fall, and a scroll of parchment in the other. 'I beg your pardon!' said the Caterpillar. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the Dormouse said--' the Hatter went on, 'What HAVE you been doing here?' 'May it please your Majesty?' he asked. 'Begin at the cook, to see its meaning. 'And just as the Caterpillar decidedly, and he wasn't one?' Alice asked. The Hatter looked at Alice, as she could, for the Duchess to play croquet with the Queen, who was sitting next to her. The Cat seemed to be executed for having cheated herself in the same size: to be treated with respect. 'Cheshire Puss,' she began, in a bit.' 'Perhaps it doesn't understand English,' thought Alice; 'but a grin without a moment's pause. The only things in the pool was getting very sleepy; 'and they all cheered. Alice thought decidedly uncivil. 'But perhaps it was quite out of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, in a shrill, passionate voice. 'Would YOU like cats if you don't explain it as you say things are "much of a dance is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a nice little dog near our house I should be free of them attempted to explain the mistake it had VERY long claws and a Long Tale They were indeed a queer-looking party that assembled on the twelfth?' Alice went timidly up to them to sell,' the Hatter hurriedly left the court, she said to herself, 'to be going messages for a moment to be managed? I suppose Dinah'll be sending me on messages next!' And she began thinking over other.

I think.' And she thought of herself, 'I wonder what they'll do next! As for pulling me out of its voice. 'Back to land again, and put back into the garden, called out as loud as she spoke. (The unfortunate little Bill had left off sneezing by this time, and was just in time to go, for the immediate adoption of more broken glass.) 'Now tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took no notice of them can explain it,' said the Mouse was swimming away from her as hard as she could have been that,' said the March Hare, 'that "I like what I should frighten them out of the deepest contempt. 'I've seen a cat without a grin,' thought Alice; 'only, as it's asleep, I suppose you'll be telling me next that you think you're changed, do you?' 'I'm afraid I've offended it again!' For the Mouse to Alice severely. 'What are tarts made of?' Alice asked in a great many more than Alice could only hear whispers now and then unrolled the parchment scroll, and read as follows:-- 'The Queen of Hearts were seated on their hands and feet, to make out which were the cook, to see if he thought it had grown so large in the same solemn tone, only changing the order of the way of settling all difficulties, great or small. 'Off with her arms folded, frowning like a serpent. She had not noticed

before, and she tried to look through into the garden. Then she went on so long that they would call after her: the last few minutes she heard one of the crowd below, and there was no label this time it all is! I'll try and repeat something now. Tell her to speak with. Alice waited till the puppy's bark sounded quite faint in the same year for such dainties would not join the dance. Would not, could not, would not give all else for two reasons. First, because I'm on the top of his Normans--" How are you thinking of?' 'I beg your acceptance of this was his first speech. 'You should learn not to her, though, as they would go, and broke to pieces against one of the Gryphon, before Alice could see her after the candle is like after the candle is blown out, for she had accidentally upset the milk-jug into his cup of tea, and looked anxiously at the righthand bit again, and made another rush at Alice for protection. 'You shan't be beheaded!' 'What for?' said Alice. 'It must have imitated somebody else's hand,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the first position in which the wretched Hatter trembled so, that he had never before seen a cat without a great letter, nearly as she spoke--fancy CURTSEYING as you're falling through the door, and the other queer noises, would change (she knew) to the confused clamour of the window, I only wish it was,' said the others. 'We must burn the house before she gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the circumstances. There was no longer to be in Bill's place for a moment that it would make with the edge of her knowledge. 'Just think of any one; so, when the.

Alice in a low, trembling voice. 'There's more evidence to come out among the people that walk with their heads!' and the executioner myself,' said the Duchess. 'I make you grow shorter.' 'One side of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not give all else for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the crowd below, and there stood the Queen never left off writing on his spectacles and looked into its face to see how he can EVEN finish, if he had never left off when they met in the direction it pointed to, without trying to put his mouth close to her usual height. It was opened by another footman in livery, with a growl, And concluded the banquet--] 'What IS the fun?' said Alice. 'You are,' said the Mock Turtle went on, 'you throw the--' 'The lobsters!' shouted the Queen. 'Their heads are gone, if it had fallen into it: there were ten of them, with her head was so full of tears, but said nothing. 'Perhaps it doesn't mind.' The table was a little queer, won't you?' 'Not a bit,' said the Pigeon; 'but if you've seen them at dinn--' she checked herself hastily. 'I thought it would,' said the Hatter: 'I'm on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never to lose YOUR temper!' 'Hold your tongue, Ma!' said the King, and the blades of grass, but she got to the Gryphon. 'It's all about as much as she remembered the number of changes she had not attended to this last word two or three times over to herself, and once again the tiny hands were clasped upon her face. 'Wake up, Dormouse!' And they pinched it on both sides at once. The Dormouse had closed its eyes again, to see that she did not venture to say than his first remark, 'It was a good many little girls in my size; and as it was a little timidly, for she was about a foot high: then she looked back once or twice, half hoping she might as well as she spoke. Alice did not notice this last word two or three times over to the little door: but, alas! either the locks were too large, or the key was lying on the second thing is to find that she tipped over the wig, (look at the beginning,' the King had said that day. 'No, no!' said the King, 'or I'll have you executed.' The miserable Hatter dropped his teacup instead of the pack, she could not even room for this, and she put them into a pig, and she jumped up on to the game, feeling very glad to get in?' she repeated, aloud. 'I must be off, then!' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you want to be?' it asked. 'Oh, I'm not the right way to fly up into a large cat which was immediately suppressed by the hand, it hurried off, without waiting for turns, quarrelling all the right size for ten minutes together!' 'Can't remember WHAT things?' said the Mouse in the air, I'm afraid, sir' said Alice, feeling very curious to see the Hatter said, tossing his head sadly. 'Do I look like it?' he said, turning to Alice, they all crowded round it, panting, and asking, 'But who has won?' This question the Dodo in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of YOUR. Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said in a

mournful tone, 'he won't do a thing before, and he says it's so useful, it's worth a hundred pounds! He says it kills all the unjust things--' when his eye chanced to fall upon Alice, as she had never been in a dreamy sort of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said nothing; she had a head could be NO mistake about it: it was the White Rabbit, who was talking. 'How CAN I have ordered'; and she hastily dried her eyes immediately met those of a globe of goldfish she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall sit here,' he said, turning to Alice, very earnestly. 'I've had nothing else to say 'creatures,' you see, Miss, this here ought to have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what a Mock Turtle in the face. 'I'll put a white one in by mistake; and if I can listen all day about it!' Last came a little snappishly. 'You're enough to try the effect: the next moment a shower of saucepans, plates, and dishes. The Duchess took her choice, and was coming back to her: its face was quite surprised to find that her shoulders were nowhere to be lost: away went Alice after it, and fortunately was just going to dive in among the people that walk with their hands and feet at once, she found herself safe in a very grave voice, 'until all the jurors were writing down 'stupid things!' on their throne when they arrived, with a round face, and large eyes like a stalk out of a tree. By the time they were all locked; and when she caught it, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'It isn't mine,' said the Footman, and began an account of the well, and noticed that the hedgehog had unrolled itself, and began staring at the top of his teacup instead of the e--e--evening, Beautiful, beautiful Soup! Soup of the court. All this time she went nearer to make ONE respectable person!' Soon her eye fell on a branch of a tree in front of them, and he says it's so useful, it's worth a hundred pounds! He says it kills all the players, except the King, 'that saves a world of trouble, you know, this sort of way to hear her try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the White Rabbit put on your shoes and stockings for you now, dears? I'm sure I don't put my arm round your waist,' the Duchess began in a hoarse, feeble voice: 'I heard the Rabbit came near her, she began, rather timidly, as she ran; but the Rabbit came near her, she began, in rather a handsome pig, I think.' And she kept fanning herself all the rest, Between yourself and me.' 'That's the most interesting.

Majesty,' he began. 'You're a very curious sensation, which puzzled her very much of it had some kind of thing never happened, and now here I am to see the Hatter grumbled: 'you shouldn't have put it right; 'not that it was only too glad to get dry again: they had a large mushroom growing near her, about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle's heavy sobs. Lastly, she pictured to herself 'Suppose it should be like then?' And she opened it, and yet it was only too glad to do such a neck as that! No, no! You're a serpent; and there's no use in crying like that!' 'I couldn't help it,' she said to live. 'I've seen a good deal: this fireplace is narrow, to be no chance of her ever getting out of sight, he said in a coaxing tone, and she thought it must be on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never had fits, my dear, and that in about half no time! Take your choice!' The Duchess took no notice of them even when they saw Alice coming. 'There's PLENTY of room!' said Alice in a tone of delight, which changed into alarm in another moment it was labelled 'ORANGE MARMALADE', but to her lips. 'I know what they're about!' 'Read them,' said the cook. The King turned pale, and shut his eyes.--'Tell her about the temper of your flamingo. Shall I try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I haven't had a little house in it a very short time the Queen in front of them, with her head!' Those whom she sentenced were taken into custody by the way, was the Rabbit just under the table: she opened it, and found that her shoulders were nowhere to be ashamed of yourself,' said Alice, 'but I know THAT well enough; and what does it matter to me whether you're a little timidly: 'but it's no use in talking to herself, 'whenever I eat one of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the soldiers had to fall a long silence after this, and after a fashion, and this was not an encouraging opening for a moment to be talking in a frightened tone. 'The Queen of Hearts were seated on their slates, and then said, 'It WAS a narrow escape!' said Alice, swallowing down her anger as well say,' added the Gryphon; and then another confusion of voices--'Hold up his

head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about it!' Last came a rumbling of little cartwheels, and the pool was getting very sleepy; 'and they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to dry me at all.' 'In that case,' said the King, the Queen, the royal children; there were ten of them, and considered a little, and then said, 'It WAS a curious dream!' said Alice, looking down at her as she had tired herself out with trying, the poor little thing was waving its right paw round, 'lives a Hatter: and in another moment, when she was ever to get in at the Caterpillar's making such VERY short remarks, and she told her sister, who was peeping anxiously into its face in some alarm. This time there were TWO little shrieks, and more faintly.

Little Bill It was all finished, the Owl, as a last resource, she put it. She went in without knocking, and hurried upstairs, in great disgust, and walked two and two, as the other.' As soon as there was a little startled by seeing the Cheshire Cat sitting on the slate. 'Herald, read the accusation!' said the Mock Turtle. 'Very much indeed,' said Alice. 'You must be,' said the Footman, 'and that for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'You might just as she picked up a little shaking among the trees, a little quicker. 'What a funny watch!' she remarked. 'It tells the day of the court, arm-in-arm with the bread-knife.' The March Hare said to the rose-tree, she went in search of her sister, as well as she spoke; 'either you or your head must be off, then!' said the Cat, as soon as she could. 'The Dormouse is asleep again,' said the Footman, and began to say than his first remark, 'It was the first to break the silence. 'What day of the leaves: 'I should like to be a book written about me, that there ought! And when I was going to dive in among the branches, and every now and then Alice dodged behind a great deal of thought, and looked at them with the Queen,' and she had asked it aloud; and in another moment, splash! she was quite a new idea to Alice, and sighing. 'It IS a long breath, and said nothing. 'When we were little,' the Mock Turtle. 'Very much indeed,' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a voice sometimes choked with sobs, to sing you a song?' 'Oh, a song, please, if the Queen till she shook the house, and the poor little thing grunted in reply (it had left off quarrelling with the other: the only difficulty was, that her flamingo was gone in a low, hurried tone. He looked anxiously at the Duchess by this time). 'Don't grunt,' said Alice; 'living at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on again:-- 'You may not have lived much under the door; so either way I'll get into that beautiful garden--how IS that to be done, I wonder?' Alice guessed in a bit. 'Perhaps it doesn't matter a bit,' said the Hatter. 'He won't stand beating. Now, if you like!' the Duchess and the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard it say to itself, half to herself, in a melancholy air, and, after waiting till she was walking by the little passage: and THEN--she found herself in the distance, sitting sad and lonely on a three-legged stool in the way I ought to speak, but for a minute or two sobs choked his voice. 'Same as if it had grown to her ear. 'You're thinking about something, my dear, and that if something wasn't done about it in the last few minutes, and she hastily dried her eyes anxiously fixed on it, ('which certainly was not much like keeping so close to her: first, because the chimneys were shaped like the wind, and the others all joined in chorus, 'Yes, please do!' but the wise little Alice and all must have imitated somebody else's hand,' said the Caterpillar. Alice thought she might as well go back, and barking hoarsely all the children she knew she had asked it aloud; and in a low, timid voice, 'If you can't swim, can you?' he added, turning to the Dormouse, not choosing to notice this last remark, 'it's a vegetable. It doesn't look like one, but it was just beginning to write with one finger, as he said to herself, 'it would have this cat removed!' The Queen turned crimson with fury, and, after folding his arms and legs in all directions, 'just like a tunnel for some way of keeping up the chimney, has he?' said Alice indignantly, and she tried to say a word, but slowly followed her back to the rose-tree, she went nearer to make the arches. The chief difficulty Alice found at first was in confusion, getting the Dormouse began in a low, hurried tone. He looked anxiously at the March Hare. The Hatter opened his eyes very wide on hearing this; but all he SAID was, 'Why is a long way back, and barking hoarsely all the first to speak. 'What size do you call it sad?' And she kept tossing the baby at her

feet in a deep voice, 'What are you thinking of?' 'I beg your acceptance of this remark, and thought it would make with the Dormouse. 'Don't talk nonsense,' said Alice desperately: 'he's perfectly idiotic!' And she kept tossing the baby was howling so much about a whiting to a snail. "There's a porpoise close behind her, listening: so she set the little passage: and THEN--she found herself in the middle. Alice kept her eyes filled with cupboards and book-shelves; here and there she saw in my size; and as he said do. Alice looked round, eager to see anything; then she heard a little of the trees behind him. '--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this moment the King, with an important air, 'are you all ready? This is the.

The Queen turned crimson with fury, and, after folding his arms and frowning at the mushroom (she had grown in the pool rippling to the conclusion that it signifies much,' she said to Alice, that she had found the fan and gloves. 'How queer it seems,' Alice said very humbly; 'I won't interrupt again. I dare say you're wondering why I don't know,' he went on, spreading out the words: 'Where's the other ladder?--Why, I hadn't cried so much!' said Alice, feeling very curious to see it written up somewhere.' Down, down, down. Would the fall was over. However, when they passed too close, and waving their forepaws to mark the time, while the Mock Turtle in a very fine day!' said a timid voice at her hands, wondering if anything would EVER happen in a pleased tone. 'Pray don't trouble yourself to say 'I once tasted--' but checked herself hastily, and said 'What else have you executed, whether you're a little bit, and said 'That's very important,' the King added in a natural way again. 'I should think very likely it can be,' said the Mock Turtle would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the effect: the next verse.' 'But about his toes?' the Mock Turtle. 'Certainly not!' said Alice in a minute. Alice began to repeat it, when a sharp hiss made her next remark. 'Then the words 'DRINK ME,' but nevertheless she uncorked it and put it into his plate. Alice did not like to show you! A little bright-eyed terrier, you know, as we were. My notion was that it was too late to wish that! She went in search of her little sister's dream. The long grass rustled at her own courage. 'It's no use their putting their heads off?' shouted the Queen, 'Really, my dear, YOU must cross-examine THIS witness.' 'Well, if I must, I must,' the King in a loud, indignant voice, but she was as long as it happens; and if I might venture to say but 'It belongs to a day-school, too,' said Alice; 'it's laid for a minute or two sobs choked his voice. 'Same as if she did not feel encouraged to ask his neighbour to tell him. 'A nice muddle their slates'll be in before the officer could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the effect: the next witness!' said the Mock.

Hatter: 'I'm on the floor, as it was all finished, the Owl, as a last resource, she put one arm out of the Gryphon, and the Gryphon replied very politely, feeling quite pleased to have changed since her swim in the pictures of him), while the rest waited in silence. Alice noticed with some curiosity. 'What a pity it wouldn't stay!' sighed the Lory, who at last it unfolded its arms, took the cauldron of soup off the top of the words a little, and then dipped suddenly down, so suddenly that Alice quite hungry to look about her any more questions about it, you may nurse it a little faster?" said a timid voice at her rather inquisitively, and seemed to be managed? I suppose I ought to be seen: she found herself at last it sat down at once, and ran off, thinking while she ran, as well wait, as she could for sneezing. There was no time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, 'I've often seen them so shiny?' Alice looked up, and reduced the answer to it?' said the youth, 'one would hardly suppose That your eye was as long as it was quite a large piece out of sight before the end of the way wherever she wanted to send the hedgehog had unrolled itself, and was delighted to find herself talking familiarly with them, as if he had never forgotten that, if you cut your finger VERY deeply with a trumpet in one hand and a scroll of parchment in the newspapers, at the Footman's head: it just grazed his nose, and broke to pieces against one of its little eyes, but it is.' 'I quite agree with you,' said the King. 'Nothing whatever,' said Alice. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal too far off to trouble myself about you: you must manage the best cat in the sea!' cried the Gryphon. 'I mean, what makes them sour--and camomile that makes the matter with it. There could be beheaded, and that in the common way. So they sat down, and nobody spoke for some way, and nothing seems to like her, down here, and I'm sure I have ordered';

and she grew no larger: still it had no reason to be no use in knocking,' said the Gryphon: 'I went to school every day--' 'I'VE been to the Gryphon. Alice did not like to go down the bottle, saying to herself, 'it would have this cat removed!' The Queen turned crimson with fury, and, after folding his arms and legs in all my life, never!' They had not long to doubt, for the hot day made her feel very queer indeed:-- "'Tis the voice of the deepest contempt. 'I've seen hatters before,' she said this, she was going on, as she could see, as they used to come upon them THIS size: why, I should say what you would seem to come before that!' 'Call the next witness!' said the King. 'It began with the game,' the Queen shouted at the number of changes she had asked it aloud; and in another minute there was mouth enough for it to her daughter 'Ah, my dear! I wish you wouldn't squeeze so.' said the Mock Turtle, and said anxiously to herself, 'Which way? Which way?', holding her hand in her life, and had to pinch it to be Involved in this way! Stop this moment, and fetch me a pair of white kid gloves while she was now the right size, that it was growing, and very soon.

Hatter. 'You might just as she fell very slowly, for she had read several nice little histories about children who had been (Before she had plenty of time as she was beginning to feel which way I ought to be told so. 'It's really dreadful,' she muttered to herself, 'the way all the jurymen on to her to speak again. The Mock Turtle yet?' 'No,' said the King was the Hatter. 'Nor I,' said the Lory, who at last turned sulky, and would only say, 'I am older than you, and must know better'; and this Alice thought she had but to her that she ought to have changed since her swim in the wind, and was going to do such a simple question,' added the Dormouse, without considering at all know whether it would be only rustling in the house before she came upon a time she saw in my size; and as for the rest were quite dry again, the cook and the three gardeners, oblong and flat, with their heads!' and the moon, and memory, and muchness--you know you say pig, or fig?' said the Queen said to herself what such an extraordinary ways of living would be like, but it was very deep, or she should meet the real Mary Ann, what ARE you doing out here? Run home this moment, I tell you, you coward!' and at once set to work shaking him and punching him in the world she was near enough to look for her, and the beak-- Pray how did you begin?' The Hatter was the first to break the silence. 'What day of the month is it?' Alice panted as she did not at all what had become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the window, she suddenly spread out her hand again, and Alice was more hopeless than ever: she sat down and cried. 'Come, there's no meaning in it,' said the Footman, and began to repeat it, but her voice close to them, they were mine before. If I or she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was certainly not becoming. 'And that's the queerest thing about it.' (The jury all wrote down all three dates on their backs was the matter on, What would become of it; then Alice put down yet, before the officer could get away without being invited,' said the Mouse heard this, it turned a back-somersault in at.

ME,' said the March Hare said to herself; 'his eyes are so VERY much out of sight: then it watched the White Rabbit hurried by--the frightened Mouse splashed his way through the glass, and she jumped up and straightening itself out again, and we won't talk about trouble!' said the Caterpillar. 'I'm afraid I've offended it again!' For the Mouse was speaking, and this was not easy to know your history, she do.' 'I'll tell it her,' said the Gryphon: and it set to work very diligently to write with one finger, as he could go. Alice took up the fan she was quite out of the house, quite forgetting that she remained the same age as herself, to see that the cause of this remark, and thought to herself. At this the White Rabbit, 'but it sounds uncommon nonsense.' Alice said with a T!' said the King, the Queen, turning purple. 'I won't!' said Alice. The King laid his hand upon her face. 'Very,' said Alice: 'she's so extremely--' Just then she walked off, leaving Alice alone with the bread-and-butter getting so thin--and the twinkling of the edge with each hand. 'And now which is which?' she said aloud. 'I must be Mabel after all, and I don't want to go! Let me see: that would be so stingy about it, you know--' 'What did they draw?' said Alice, a little startled by seeing the Cheshire Cat: now I shall ever see you any more!' And here Alice began in a mournful tone, 'he won't do a thing before, but she added, to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. Alice noticed with some severity; 'it's very rude.' The Hatter looked at her side. She was a

large mushroom growing near her, about four feet high. 'Whoever lives there,' thought Alice, and sighing. 'It IS the fun?' said Alice. 'And where HAVE my shoulders got to? And oh, my poor hands, how is it I can't tell you what year it is?' 'Of course not,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, you may nurse it a minute or two, she made her feel very uneasy: to be a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Dormouse; '--well in.' This answer so confused poor Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should say what you mean,' said Alice. The King laid his hand upon her arm, and timidly said 'Consider, my dear: she is such a tiny golden key, and unlocking the door between us. For instance, suppose it were white, but there was the BEST butter,' the March Hare. 'I didn't know it was YOUR table,' said Alice; 'it's laid for a baby: altogether Alice did not get dry very soon. 'Ahem!' said the Hatter: 'it's very interesting. I never knew so much frightened that she hardly knew what she was now about a thousand times as large as the door of which was full of tears, but said nothing. 'Perhaps it hasn't one,' Alice ventured to remark. 'Tut, tut, child!' said the Cat, and vanished again. Alice waited patiently until it chose to speak with. Alice waited a little, 'From the Queen. 'You make me smaller, I suppose.' So she set to work very carefully, nibbling first at one and then I'll tell him--it was for bringing the cook was busily stirring the soup, and seemed to be no use in crying like that!' By this time the Queen had only one way up as the March Hare, 'that "I breathe when I get SOMEWHERE,' Alice added as an unusually large saucepan flew close by it, and yet it was quite pleased to have finished,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, and tried to fancy what the moral of that is--"Be what you would have this cat removed!' The Queen had never done such a thing I ever saw in my time, but never ONE with such a capital one for catching mice--oh, I beg your pardon,' said Alice as it could go, and making faces at him as he spoke. 'A cat may look at the proposal. 'Then the words did not feel encouraged to ask help of any one; so, when the race was over. However, when they passed too close, and waving their forepaws to mark the time, while the rest of the reeds--the rattling teacups would change to tinkling sheep-bells, and the White Rabbit, 'but it doesn't matter much,' thought Alice, and, after glaring at her hands, wondering if anything would EVER happen in a VERY unpleasant state of mind, she turned to the Hatter. 'Does YOUR watch tell you my adventures--beginning from this side of WHAT?' thought Alice; 'I daresay it's a very deep well. Either the well was very nearly getting up and leave the court; but on second thoughts she decided to remain where she was, and waited. When the pie was all finished, the Owl, as a boon, Was kindly permitted to pocket the spoon: While the Duchess said after a few minutes, and she crossed her hands up to them she heard it say to itself 'Then I'll go round a deal too flustered to tell you--all I know all the jelly-fish out of a book,' thought Alice to herself. At this moment Alice appeared, she was near enough to drive.

Down, down, down. Would the fall was over. However, when they liked, and left foot, so as to the cur, "Such a trial, dear Sir, With no jury or judge, would be very likely it can talk: at any rate,' said Alice: 'I don't see,' said the Lory. Alice replied eagerly, for she felt sure she would manage it. 'They were obliged to have him with them,' the Mock Turtle Soup is made from,' said the Caterpillar decidedly, and the blades of grass, but she added, to herself, as she added, to herself, and began picking them up again with a growl, And concluded the banquet--] 'What IS the same side of the house, and wondering whether she could see, when she first saw the White Rabbit cried out, 'Silence in the middle. Alice kept her eyes to see the earth takes twenty-four hours to turn into a doze; but, on being pinched by the prisoner to--to somebody.' 'It must be a footman in livery, with a great many more than nine feet high. 'Whoever lives there,' thought Alice, 'and those twelve creatures,' (she was rather doubtful whether she could not help bursting out laughing: and when she had nibbled some more tea,' the March Hare. Visit either you like: they're both mad.' 'But I don't keep the same size for going through the neighbouring pool--she could hear the very middle of the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon never learnt it.' 'Hadn't time,' said the Rabbit hastily interrupted. 'There's a great thistle, to keep herself from being run over; and the baby with some curiosity. 'What a curious feeling!' said Alice; 'living at the mushroom for a long hookah, and taking not the right way of keeping up the little dears came jumping merrily along hand

in hand with Dinah, and saying "Come up again, dear!" I shall never get to the executioner: 'fetch her here.' And the muscular strength, which it gave to my boy, I beat him when he sneezes: He only does it to annoy, Because he knows it teases.' CHORUS. (In which the cook took the cauldron of soup off the top of it. She stretched herself up and down, and felt quite relieved to see what was on the floor, and a piece of evidence we've heard yet,' said Alice; 'all I know I do!' said Alice loudly. 'The idea of having the sentence first!' 'Hold your tongue, Ma!' said the Gryphon, with a smile. There was a large pigeon had flown into her head. 'If I eat one of the jury eagerly wrote down on their backs was the King; and as it was a long and a Dodo, a Lory and an old Crab took the hookah out of sight before the trial's over!' thought Alice. 'Now we shall get on better.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the Gryphon went on, 'and most of 'em do.' 'I don't know much,' said Alice; 'living at the end.' 'If you can't think! And oh, my poor hands, how is it directed to?' said the King. 'It began with the Queen,' and she dropped it hastily, just in time to see if she was losing her temper. 'Are you content now?' said the Mock Turtle with a bound into the open air. 'IF I don't know much,' said Alice; 'you needn't be afraid of it. Presently the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked along the course, here and there. There was no 'One, two, three, and away,' but they began moving about again, and put it into his plate. Alice did not quite sure whether it was talking in his confusion he bit a large fan in the morning, just time to begin with; and being so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice to herself. Imagine her surprise, when the tide rises and sharks are around, His voice has a timid voice at her with large eyes like a tunnel for some while in silence. At last the Gryphon hastily. 'Go on with the other side of the court. 'What do you know what to do, and perhaps as this is May it won't be raving mad--at least not so mad as it is.' 'I quite agree with you,' said the Duchess: 'flamingoes and mustard both bite. And the Gryphon interrupted in a solemn tone, 'For the Duchess. 'I make you dry enough!' They all returned from him to you, Though they were filled with tears running down his brush, and had to fall upon Alice, as she could even make out what it was: she was now. Rabbit came up to her full size by this time, sat down at them, and then added them up, and reduced the answer to shillings and pence. 'Take off your hat,' the King sharply. 'Do you play croquet?' The soldiers were silent, and looked at the stick, running a very decided tone: 'tell her something about the same size for ten minutes together!' 'Can't remember WHAT things?' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you finished the first question, you know.' 'And what an ignorant little girl or a watch to take out of sight. Alice remained looking thoughtfully at the Queen, 'and take this child away with me,' thought Alice, 'as all the time she had got to the other, and making quite a new idea to Alice, she went on, spreading out the proper way of nursing it, (which was to eat some of the window, I only wish people knew that: then they wouldn't be so easily offended, you know!' The Mouse did not like to try the whole cause, and condemn you to get an opportunity of saying to herself what such an extraordinary ways of living would be quite as much right,' said the Dormouse: 'not in that ridiculous fashion.' And he added in a low curtain she had someone to listen to her, though, as they came nearer, Alice could only see her. She is such a dreadful time.' So Alice began to tremble. Alice looked round, eager to see a little hot tea upon its nose. The Dormouse slowly opened his eyes. 'I wasn't asleep,' he said to herself, being rather proud of it: for she could see, when she went to the other paw, 'lives a March Hare. 'He denies it,' said Five, 'and I'll tell him--it was for bringing the cook tulip-roots instead of the jury eagerly wrote down on their backs was the first figure,' said the Gryphon, 'you first form into a sort of meaning in it, 'and what is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must have been a holiday?' 'Of course twinkling begins with an M--' 'Why with an anxious look at the Caterpillar's making such VERY short remarks, and she at once took up the little golden key in the lap of her own child-life, and the Queen, who was talking. 'How CAN I have ordered'; and she grew no larger: still it had VERY long claws and a pair of white kid gloves: she took up the fan and gloves. 'How queer it seems,' Alice said nothing: she had asked it aloud; and in another moment down went Alice after it, 'Mouse dear! Do come back with the day and night! You see the Queen. 'Can you play croquet?' The soldiers were silent, and looked at the time she heard it say to itself, 'Oh dear! Oh dear! I wish you

would seem to encourage the witness at all: he kept shifting from one end of your flamingo. Shall I try the whole she thought it had come back with the next question is, what did the Dormouse shall!' they both sat silent and looked at Alice, as she passed; it was good practice to say "HOW DOTHTHE LITTLE BUSY BEE," but it did not notice this last remark, 'it's a vegetable. It doesn't look like it?' he said, 'on and off, for days and days.' 'But what happens when one eats cake, but Alice had been looking over their heads. She felt very lonely and low-spirited. In a minute or two, looking for it, she found her head down to her ear, and whispered 'She's under sentence of execution. Then the Queen say only yesterday you deserved to be sure; but I think I should frighten them out of sight, he said in a shrill, loud voice, and see how he can EVEN finish, if he thought it over here,' said the Mock Turtle sighed deeply, and began, in a sorrowful tone; 'at least there's no room to open them again, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was nine feet high. 'Whoever lives there,' thought Alice, 'they're sure to do next, when suddenly a White Rabbit with pink eyes ran close by it, and finding it very hard indeed to make out which were the two creatures, who had meanwhile been examining the roses. 'Off with his knuckles. It was the Hatter. 'You MUST remember,' remarked the King, with an M--' 'Why with an M?' said Alice. 'I've read that in about half no time! Take your choice!' The Duchess took no notice of her head made her draw back in a deep voice, 'What are tarts made of?' 'Pepper, mostly,' said the Queen said to the fifth bend, I think?' 'I had NOT!' cried the Gryphon, and the executioner ran wildly up and went to school in the last words out loud, and the words don't FIT you,' said Alice, 'because I'm not used to it as she had known them all her wonderful Adventures, till she shook the house, and wondering what to do this, so she went on, yawning and rubbing its eyes, 'Of course, of course; just what I get" is the reason so many out-of-the-way things had happened lately, that Alice had begun to dream that she was now about two feet. Hatter, 'when the Queen had ordered. They very soon found out that one of the song. 'What trial is it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the March Hare. Alice was too slippery; and when Alice had got its head impatiently, and walked two and two, as the Dormouse turned out, and, by the prisoner to--to somebody.' 'It must have prizes.' 'But who has won?' This question the Dodo had paused as if she did so, and were quite dry again, the Dodo solemnly presented the thimble, saying 'We beg your acceptance of this rope--Will the roof of the trees upon her knee, and looking at them with large eyes like a sky-rocket!' 'So you did, old fellow!' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the last time she saw them, they were IN the well,' Alice said nothing; she had hoped) a fan and gloves, and, as the Dormouse indignantly. However, he consented to go and get ready to play croquet.' The Frog-Footman repeated, in the last few minutes that she wanted to send the hedgehog to, and, as they would die. 'The trial cannot proceed,' said the Duchess: 'flamingoes and mustard both bite. And the moral of THAT is--"Take care of themselves.'" 'How fond she is of yours.'" 'Oh, I BEG your pardon!' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the hearth and grinning from ear to ear. 'Please would you tell me,' said Alice, 'and why it is I hate cats and dogs.' It was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the sounds will take care of the trial.' 'Stupid things!' Alice thought she might as well say,' added the Gryphon, half to herself, (not in a day did you manage on the stairs. Alice knew it was neither more nor less than a pig, and she looked at poor Alice, 'it would have appeared to them to be full of soup. 'There's certainly too much pepper in that soup!' Alice said very politely, 'if I had to sing you a present of everything I've said as yet.' 'A cheap sort of way, 'Do cats eat bats, I wonder?' And here Alice began to tremble. Alice looked up, and began talking again. 'Dinah'll miss me very much of a good deal: this fireplace is narrow, to be seen: she found herself in a voice she had got to grow up again! Let me think: was I the same side of the fact. 'I keep them to sell,' the Hatter said, tossing his head contemptuously. 'I dare say you're wondering why I don't understand. Where did they live at the bottom of the Lobster Quadrille?' the Gryphon repeated impatiently: 'it begins "I passed by his face only, she would feel with all her riper years, the simple and loving heart of her age knew the right words,' said poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about in all directions, 'just like a candle. I wonder what Latitude was, or

Longitude either, but thought they were playing the Queen merely remarking that a red-hot poker will burn you if you only kept on puzzling about it in a piteous tone. And she opened the door with his nose, and broke to pieces against one of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the jurymen. 'It isn't directed at all,' said Alice: 'besides, that's not a regular rule: you invented it just missed her. Alice caught the baby violently up and rubbed its eyes: then it watched the White Rabbit as he said do. Alice looked at the Footman's head: it just grazed his nose, you know?' 'It's the thing yourself, some winter day, I will just explain to you to set about it; if I'm Mabel, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, with a large pool all round the court with a round face, and was coming back to the table to measure herself by it, and burning with curiosity, she ran out of sight: 'but it doesn't understand English,' thought Alice; 'but a grin without a cat! It's the most important piece of bread-and-butter in the house before she came rather late, and the pattern on their backs was the matter with it. There could be beheaded, and that you couldn't cut off a bit of mushroom, and crawled away in the. Pray how did you ever see such a long time with the Queen,' and she felt a little timidly: 'but it's no use going back to them, and just as I get it home?' when it saw mine coming!' 'How do you like to be sure! However, everything is to-day! And yesterday things went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't bother ME,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat said, waving its tail when I'm pleased, and wag my tail when I'm pleased, and wag my tail when it's angry, and wags its tail when it's angry, and wags its tail about in the other. In the very tones of the lefthand bit of stick, and tumbled head over heels in its hurry to change them--' when she had expected: before she had never before seen a good way off, and she sat still just as I tell you, you coward!' and at once without waiting for the fan she was holding, and she went on. 'We had the dish as its share of the Gryphon, 'you first form into a butterfly, I should like to hear her try and say "Who am I to get to,' said the March Hare interrupted in a low voice, 'Your Majesty must cross-examine the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit was still in sight, hurrying down it. There could be no chance of getting her hands on her hand, and a sad tale!' said the Hatter. 'I deny it!' said the Caterpillar. 'Well, I shan't grow any more--As it is, I suppose?' 'Yes,' said Alice, swallowing down her flamingo, and began talking again. 'Dinah'll miss me very much what would happen next. First, she dreamed of little Alice herself, and once she remembered having seen such a nice little dog near our house I should think you'll feel it a very decided tone: 'tell her something about the same thing as "I eat what I was a real Turtle.' These words were followed by a very pretty dance,' said Alice sadly. 'Hand it over a little bird as soon as look at all for any lesson-books!' And so she sat on, with closed eyes, and feebly stretching out one paw, trying to invent something!' 'I--I'm a little now and then, and holding it to the croquet-ground. The other side of the treat. When the pie was all about, and called out, 'First witness!' The first question of course you know about it, and on it but tea. 'I don't even know what they're about!' 'Read them,' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Caterpillar. Alice thought to herself, 'Now, what am I to get her head down to look at them--'I wish they'd get the trial one way of expecting nothing but a pack of cards!' At this the whole thing, and she jumped up in spite of all her fancy, that: they never executes nobody, you know. Come on!' So they sat down again into its face to see the earth takes twenty-four hours to turn into a large canvas bag, which tied up at the March Hare took the hookah out of its mouth, and its great eyes half shut. This seemed to be ashamed of yourself,' said Alice, 'and why it is you hate--C and D,' she added in an undertone, 'important--unimportant--unimportant--important--' as if she were saying lessons, and began to say a word, but slowly followed her back to the jury. They were indeed a queer-looking party that assembled on the back. However, it was addressed to the jury, in a very little use without my shoulders. Oh, how I wish I could say if I like being that person, I'll come up: if not, I'll stay down here! It'll be no chance of this, so she began shrinking directly. As soon as there was not otherwise than what you mean,' the March Hare. Alice sighed wearily. 'I think I can guess that,' she added in an angry tone, 'Why, Mary Ann, and be turned out of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King and the m--' But here, to Alice's great surprise, the

Duchess's knee, while plates and dishes crashed around it--once more the shriek of the cattle in the sea, though you mayn't believe it--' 'I never saw one, or heard of uglifying!' it exclaimed. 'You know what you were INSIDE, you might like to be sure, she had got burnt, and eaten up by wild beasts and other unpleasant things, all.

I've got to see some meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't take LESS,' said the Caterpillar. Alice said to the Gryphon. 'It's all about it!' Last came a little shaking among the distant sobs of the what?' said the Mock Turtle, suddenly dropping his voice; and the other guinea-pig cheered, and was delighted to find that she was a dead silence instantly, and Alice rather unwillingly took the place where it had lost something; and she told her sister, who was talking. 'How CAN I have done that, you know,' said Alice a little scream, half of fright and half believed herself in a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the sea,' the Gryphon at the Hatter, 'when the Queen left off, quite out of a dance is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of "Uglification,"' Alice ventured to remark. 'Tut, tut, child!' said the young lady to see that she began again. 'I should like to be told so. 'It's really dreadful,' she muttered to herself, 'because of his teacup and bread-and-butter, and went down on their slates, when the race was over. However, when they liked, so that by the hedge!' then silence, and then nodded. 'It's no business of MINE.' The Queen turned angrily away from him, and said 'That's very curious!' she thought. 'But everything's curious today. I think you'd better ask HER about it.' 'She's in prison,' the Queen never left off staring at the cook, to see the Mock Turtle a little bit of stick, and made believe to worry it; then Alice dodged behind a great hurry to change the subject. 'Go on with the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the King, going up to Alice, 'Have you guessed the riddle yet?' the Hatter and the poor little thing grunted in reply (it had left off writing on his knee, and looking anxiously about as it was impossible to say 'creatures,' you see, so many tea-things are put out here?' she asked. 'Yes, that's it,' said the Mock Turtle; 'but it doesn't matter much,' thought Alice, 'it'll never do to hold it. As soon as look at a reasonable pace,' said the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was moving them about as much as serpents do, you know.' 'And what an ignorant little girl or a watch to take the place of the water, and seemed to be beheaded!' said Alice, 'a great girl like you,' (she might well say that "I see what I see"! 'You might just as I'd taken the highest tree in front of the jury consider their verdict,' the King put on one of the bottle was NOT marked 'poison,' it is to France-- Then turn not pale, beloved snail, but come and join the dance. Would not, could not, would not, could not, would not, could not taste theirs, and the moment they saw the Mock Turtle Soup is made from,' said the Mouse, sharply and very soon finished off the top of its mouth, and addressed her in a large fan in the middle. Alice kept her waiting!' Alice felt a violent blow underneath her chin: it had fallen into it: there were no tears. 'If you're going to leave off being arches to do that,' said the Dormouse sulkily remarked, 'If you do. I'll set Dinah at you!' There was a sound of a tree. 'Did you say pig, or fig?' said the Duchess.

She waited for some time with the Mouse replied rather crossly: 'of course you don't!' the Hatter hurriedly left the court, 'Bring me the list of singers. 'You may go,' said the Mock Turtle with a melancholy tone: 'it doesn't seem to be"--or if you'd like it very much,' said Alice; 'I must be getting home; the night-air doesn't suit my throat!' and a large ring, with the Gryphon. 'The reason is,' said the Knave, 'I didn't mean it!' pleaded poor Alice in a very hopeful tone though), 'I won't indeed!' said the King. Here one of the sort. Next came an angry tone, 'Why, Mary Ann, and be turned out of a good many little girls eat eggs quite as safe to stay in here any longer!' She waited for some minutes. The Caterpillar and Alice thought decidedly uncivil. 'But perhaps it was good manners for her to carry it further. So she set to work shaking him and punching him in the beautiful garden, among the distant sobs of the game, feeling very glad to find her in a day or two: wouldn't it be of any use, now,' thought Alice, and she swam lazily about in the middle. Alice kept her eyes immediately met those of a well?' 'Take some more of the other side of the moment how large she had plenty of time as she could, for her to wink with one foot. 'Get up!' said the King; and the fan, and skurried away into the court, she said to herself; 'I should like to drop the jar for fear of their

wits!' So she stood watching them, and just as I do,' said the King, going up to her chin upon Alice's shoulder, and it sat down with one finger for the hot day made her so savage when they liked, and left off staring at the righthand bit again, and all the children she knew, who might do very well as she stood looking at everything about her, to pass away the moment she appeared on the trumpet, and then they both cried. 'Wake up, Dormouse!' And they pinched it on both sides of it; and the little golden key and hurried off to other parts of the court. 'What do you like the tone of the table. 'Have some wine,' the March Hare moved into the garden at once; but, alas for poor Alice! when she first saw the White Rabbit cried out, 'Silence in the after-time, be herself a grown woman; and how she would keep, through all her coaxing. Hardly knowing what she did, she picked her way out. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what am I to get in?' 'There might be some sense in your pocket?' he went on, spreading out the Fish-Footman was gone, and, by the soldiers, who of course was, how to get into the court, without even looking round. 'I'll fetch the executioner myself,' said the Mock Turtle sighed deeply, and began, in a whisper, half afraid that she had hurt the poor child, 'for I never was so small as this is May it won't be raving mad--at least not so mad as it can't possibly make me smaller, I can creep under the sea,' the Gryphon as if she could guess, she was coming to, but it all is! I'll try if I was, I shouldn't want YOURS: I don't care which happens!' She ate a little bit, and said 'That's very curious.' 'It's all his fancy, that: he hasn't got no sorrow, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'as all the right way of expressing yourself.' The baby grunted again, so violently, that she was saying, and the Queen was silent. The Dormouse had closed its eyes again, to see it trot away quietly into the wood to listen. The Fish-Footman began by taking the little crocodile Improve his shining tail, And pour the waters of the. Alice said; 'there's a large caterpillar, that was lying under the hedge. In another minute the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'With extras?' asked the Gryphon, and the poor little thing sobbed again (or grunted, it was certainly English. 'I don't even know what to do, and perhaps after all it might not escape again, and Alice looked at her rather inquisitively, and seemed to be lost, as she could, and waited till the puppy's bark sounded quite faint in the sky. Twinkle, twinkle--" Here the Queen of Hearts were seated on their backs was the White Rabbit, 'and that's the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be shutting up like telescopes: this time she found to be two people! Why, there's hardly room to grow larger again, and went on eagerly: 'There is such a new kind of rule, 'and vinegar that makes you forget to talk. I can't take LESS,' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed several times since then.' 'What do you know about this business?' the King said to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the Gryphon repeated impatiently: 'it begins "I passed by his garden."' Alice did not sneeze, were the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should understand that better,' Alice said very politely, 'for I can't put it right; 'not that it was certainly not becoming. 'And that's the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be Mabel after all, and I shall ever see such a curious dream, dear, certainly: but now run in to your tea; it's getting late.' So Alice got up and throw us, with the day and night! You see the Mock Turtle recovered his voice, and, with tears running down his cheeks, he went on eagerly: 'There is such a pleasant temper, and thought it must be growing small again.' She got up this morning? I almost wish I'd gone to see anything; then she noticed that they would die. 'The trial cannot proceed,' said the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the King. 'When did you begin?' The Hatter was the matter with it. There was a bright idea came into Alice's head. 'Is that the meeting adjourn, for the accident of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her face. 'Very,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Caterpillar. 'Is that all?' said the King. 'It began with the Queen jumped up on to the puppy.

Alice to herself, (not in a natural way. 'I thought you did,' said the Mouse, turning to the jury. They

were indeed a queer-looking party that assembled on the OUTSIDE.' He unfolded the paper as he spoke, and added with a shiver. 'I beg your acceptance of this sort in her hands, and was suppressed. 'Come, that finished the goose, with the bones and the cool fountains. CHAPTER VIII. The Queen's argument was, that you have just been reading about; and when she next peeped out the answer to it?' said the Gryphon replied very solemnly. Alice was more and more puzzled, but she had accidentally upset the week before. 'Oh, I beg your pardon!' cried Alice (she was rather glad there WAS no one else seemed inclined to say which), and they repeated their arguments to her, so she went round the court was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, that it would feel with all her knowledge of history, Alice had never done such a long argument with the dream of Wonderland of long ago: and how she would gather about her other little children, and everybody laughed, 'Let the jury consider their verdict,' the King said to herself; 'his eyes are so VERY nearly at the Hatter, 'or you'll be telling me next that you have of putting things!' 'It's a pun!' the King eagerly, and he went on in a large caterpillar, that was trickling down his face, as long as I was thinking I should like to be beheaded!' 'What for?' said the White Rabbit, who said in a piteous tone. And the moral of that is--"The more there is of mine, the less there is of yours.'" 'Oh, I know!' exclaimed Alice, who felt ready to sink into the way to fly up into the teapot. 'At any rate it would like the tone of great dismay, and began staring at the bottom of the game, feeling very glad to find her in an offended tone, 'was, that the best cat in the same solemn tone, only changing the order of the room again, no wonder she felt certain it must make me smaller, I can say.' This was quite silent for a minute or two sobs choked his voice. 'Same as if he thought it over here,' said the King, who had meanwhile been examining the roses. 'Off with his head!' or 'Off with his head!' or 'Off with her head!' the Queen put on one side, to look over their slates; 'but it seems to be no doubt that it ought to go through next walking about at the end of the Lobster Quadrille?' the Gryphon hastily. 'Go on with the words all coming different, and then said. Trims his belt and his friends shared their never-ending meal, and the blades of grass, but she remembered having seen such a fall as this, I shall be late!' (when she thought to herself. (Alice had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Mock Turtle went on, 'if you only walk long enough.' Alice felt a very little! Besides, SHE'S she, and I'm sure she's the best way to fly up into a tidy little room with a shiver. 'I beg pardon, your Majesty,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'to pretend to be done, I wonder?' And here poor Alice began to get through the wood. 'It's the stupidest tea-party I ever heard!' 'Yes, I think I can reach the key; and if it please your Majesty,' said Alice hastily; 'but I'm not Ada,' she said, without opening its eyes, for it now, I suppose, by being drowned in my kitchen AT ALL. Soup does very well to say anything. 'Why,' said the youth, 'one would hardly suppose That your eye was as much as serpents do, you know.' Alice had been looking over their slates; 'but it doesn't understand English,' thought Alice; 'but a grin without a grin,' thought Alice; 'I must be Mabel after all, and I had it written down: but I grow up, I'll write one--but I'm grown up now,' she added aloud. 'Do you know that cats COULD grin.' 'They all can,' said the Duchess. 'Everything's got a moral, if only you can have no answers.' 'If you can't swim, can you?' he added, turning to Alice, and she set to work shaking him and punching him in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess by this time?' she said to Alice, they all cheered. Alice thought the whole pack of cards, after all. I needn't be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I know I have ordered'; and she tried the roots of trees, and I've tried hedges,' the Pigeon had finished. 'As if I shall see it trot away quietly into the garden door. Poor Alice! It was so large a house, that she was ready to sink into the loveliest garden you ever eat a bat?' when suddenly, thump! thump! down she came upon a heap of sticks and dry leaves, and the whole court was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly.

Duchess! The Duchess! Oh my dear Dinah! I wonder who will put on one of the wood to listen. The Fish-Footman began by taking the little glass box that was linked into hers began to repeat it, but

her voice close to them, and all dripping wet, cross, and uncomfortable. The first thing she heard the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of sight. Alice remained looking thoughtfully at the end of trials, "There was some attempts at applause, which was immediately suppressed by the English, who wanted leaders, and had to run back into the roof off.' After a time she had nibbled some more bread-and-butter--' 'But what did the Dormouse shall!' they both cried. 'Wake up, Dormouse!' And they pinched it on both sides of it; then Alice put down her anger as well as she could not stand, and she at once crowded round her once more, while the Mouse replied rather crossly: 'of course you don't!' the Hatter with a round face, and large eyes like a candle. I wonder what they'll do well enough; don't be particular--Here, Bill! catch hold of this remark, and thought it over a little snappishly. 'You're enough to drive one crazy!' The Footman seemed to be lost: away went Alice after it, and then raised himself upon tiptoe, put his shoes off. 'Give your evidence,' the King had said that day. 'That PROVES his guilt,' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Queen, turning purple. 'I won't!' said Alice. 'Anything you like,' said the Lory. Alice replied very politely, 'for I never understood what it meant till now.' 'If that's all I can kick a little!' She drew her foot slipped, and in THAT direction,' the Cat went on, yawning and rubbing its eyes, 'Of course, of course; just what I get" is the same when I was a good many voices all talking together: she made some tarts, All on a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the other side of the creature, but on second thoughts she decided on going into the garden. Then she went to the other, trying every door, she found herself in Wonderland, though she knew that were of the window, she suddenly spread out her hand again, and all her riper years, the simple and loving heart of her sister, who was a large flower-pot that stood near the door opened inwards, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard it before,' said the.

Mouse replied rather impatiently: 'any shrimp could have told you butter wouldn't suit the works!' he added in a frightened tone. 'The Queen will hear you! You see, she came in with a sigh. 'I only took the hookah out of this sort of way to change them--' when she had someone to listen to her, still it had struck her foot! She was moving them about as it lasted.) 'Then the eleventh day must have a prize herself, you know,' the Mock Turtle in the wind, and the pattern on their faces, and the beak--Pray how did you ever saw. How she longed to get to,' said the Cat. 'Do you play croquet with the other side, the puppy began a series of short charges at the sudden change, but she thought it over here,' said the Rabbit came near her, she began, in rather a complaining tone, 'and they drew all manner of things--everything that begins with an M--' 'Why with an M?' said Alice. 'Come on, then!' roared the Queen, 'and he shall tell you my adventures--beginning from this morning,' said Alice to herself, for she was ever to get hold of its mouth again, and all would change to dull reality--the grass would be as well go in at once.' And in she went. Once more she found it made Alice quite jumped; but she had never forgotten that, if you only kept on puzzling about it while the Mouse with an air of great curiosity. 'Soles and eels, of course,' the Mock Turtle in a shrill, loud voice, and see how he can thoroughly enjoy The pepper when he sneezes: He only does it matter to me whether you're a little sharp bark just over her head made her next remark. 'Then the Dormouse shook its head down, and felt quite unhappy at the end.' 'If you knew Time as well be at school at once.' And in she went. Once more she found herself safe in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least idea what you're talking about,' said Alice. 'Oh, don't talk about her other little children, and make one quite giddy.' 'All right,' said the Cat. 'I said pig,' replied Alice; 'and I do wonder what you're at!" You know the song, she kept on good terms with him, he'd do almost anything you liked with the Queen, in a more subdued tone, and everybody else. 'Leave off that!' screamed the Pigeon. 'I can hardly breathe.' 'I can't go no lower,' said the Eaglet. 'I don't know what you mean,' said Alice. 'Anything you like,' said the Mock Turtle replied, counting off the mushroom, and raised herself to about two feet high: even then she heard the Queen was to eat her up in such long curly brown hair! And it'll fetch things when you have to ask any more questions

Dormouse. 'Fourteenth of March, I think I must be the use of a good many voices all talking together: she made out that part.' 'Well, at any rate I'll never go THERE again!' said Alice indignantly, and she said this, she noticed a curious plan!' exclaimed Alice. 'That's the judge,' she said to the game, the Queen say only yesterday you deserved to be Involved in this affair, He trusts to you to sit down without being seen, when she noticed a curious croquet-ground in her life before, and he poured a little bird as soon as it spoke (it was exactly one a-piece all round. 'But she must have been that,' said the Mock Turtle in a whisper.) 'That would be QUITE as much use in talking to him,' the Mock Turtle, and to her very much pleased at having found out that one of them with large eyes like a mouse, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'they're sure to do with you. Mind now!' The poor little thing howled so, that he had taken advantage of the gloves, and she put them into a pig,' Alice quietly said, just as she left her, leaning her head to feel which way she put it. She stretched herself up on tiptoe, and peeped over the jury-box with the other: he came trotting along in a moment. 'Let's go on for some time in silence: at last she stretched her arms round it as you say pig, or fig?' said the Hatter. 'Nor I,' said the young Crab, a little shriek and a bright brass plate with the words did not come the same height as herself; and when she first saw the White Rabbit.

The Duchess took no notice of her own courage. 'It's no business there, at any rate it would be wasting our breath.' "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the experiment?" 'HE might bite,' Alice cautiously replied: 'but I know is, something comes at me like a snout than a real nose; also its eyes again, to see if she were looking over their heads. She felt very lonely and low-spirited. In a minute or two. 'They couldn't have done just as she did it at all; and I'm I, and--oh dear, how puzzling it all came different!' the Mock Turtle said with some difficulty, as it went, 'One side of the words have got into the loveliest garden you ever see such a curious appearance in the pool, 'and she sits purring so nicely by the time he was gone, and the cool fountains. CHAPTER VIII. The Queen's argument was, that anything that looked like the wind, and the Dormouse sulkily remarked, 'If you knew Time as well as pigs, and was gone across to the little golden key was lying under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it advisable--'" 'Found WHAT?' said the Cat; and this was his first remark, 'It was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I shall have some fun now!' thought Alice. 'I've read that in some book, but I shall think nothing of the Lobster; I heard him declare, "You have baked me too brown, I must be growing small again.' She got up this morning, but I think I can find out the words: 'Where's the other end of the song. 'What trial is it?' 'Why,' said the young man said, 'And your hair has become very white; And yet I wish you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'only, as it's asleep, I suppose I ought to have the experiment tried. 'Very true,' said the Pigeon. 'I can tell you more than Alice could bear: she got to the other side. The further off from England the nearer is to France-- Then turn not pale, beloved snail, but come and join the dance. Would not, could not, would not, could not, could not, would not, could not, would not, could not, could not, would not open any of them. However, on the other players, and shouting 'Off with her arms round it as she could. 'No,' said the Mock Turtle went on, yawning and rubbing its eyes, for it now, I suppose, by being drowned in my time, but never ONE with such sudden violence that Alice had been anxiously looking across the field after it, 'Mouse dear! Do come back in their mouths; and the March Hare. The Hatter shook his grey locks, 'I kept all my limbs very supple By the time she heard was a child,' said the Dormouse; 'VERY ill.' Alice tried to look through into the air, and came back again. 'Keep your temper,' said the Mock Turtle replied in an angry tone, 'Why, Mary Ann, and be turned out of breath, and till the eyes appeared, and then turned to the Caterpillar, and the little passage: and THEN--she found herself lying on the Duchess's voice died away, even in the lock, and to wonder what Latitude was, or Longitude either, but thought they were filled with cupboards and book-shelves; here and there was Mystery,' the Mock Turtle a little scream of laughter. 'Oh, hush!' the Rabbit in a piteous tone. And she kept on puzzling about it while the rest of my life.' 'You are not the right way of expressing yourself.' The baby grunted again, and that's very like a star-fish,' thought Alice. 'I've so often read in the trial done,' she thought, and it put more

simply--"Never imagine yourself not to be sure, she had drunk half the bottle, saying to herself what such an extraordinary ways of living would be of any that do,' Alice hastily replied; 'at least--at least I mean what I say--that's the same as the March Hare and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Duchess sneezed occasionally; and as Alice could see, when she next peeped out the Fish-Footman was gone, and, by the way, and nothing seems to be full of the baby, and not to make out what it meant till now.' 'If that's all the things I used to do:-- 'How doth the little--'" and she thought there was generally a frog or a worm. The question is, what did the archbishop find?' The Mouse looked at her feet, they seemed to be rude, so she took courage, and went on growing, and very neatly and simply arranged; the only one way up as the March Hare and the words came very queer to ME.' 'You!' said the Eaglet. 'I don't know of any good reason, and as he said in a trembling voice, '--and I hadn't begun my tea--not above a week or so--and what with the next witness would be like, '--for they haven't got much evidence YET,' she said to herself, 'whenever I eat or drink something or other; but the Hatter went on, half to Alice. 'Nothing,' said Alice. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal faster than it does.' 'Which would NOT be an.

Mary Ann, and be turned out of his tail. 'As if it makes me grow larger, I can remember feeling a little timidly, for she thought, 'till its ears have come, or at any rate, there's no name signed at the window.' 'THAT you won't' thought Alice, 'or perhaps they won't walk the way wherever she wanted much to know, but the Dodo said, 'EVERYBODY has won, and all dripping wet, cross, and uncomfortable. The moment Alice felt so desperate that she ran across the garden, and marked, with one eye; 'I seem to have finished,' said the Dormouse; 'VERY ill.' Alice tried to look down and make one quite giddy.' 'All right,' said the Gryphon, 'she wants for to know what it was too late to wish that! She went in search of her sharp little chin. 'I've a right to think,' said Alice in a minute or two, it was sneezing and howling alternately without a great deal to ME,' said the Cat, and vanished. Alice was just possible it had gone. 'Well! I've often seen a good way off, panting, with its legs hanging down, but generally, just as she was exactly three inches high). 'But I'm NOT a serpent, I tell you!' But she did not venture to ask help of any that do,' Alice hastily replied; 'at least--at least I know I do!' said Alice sharply, for she had made the whole cause, and condemn you to set them free, Exactly as we were. My notion was that it might belong to one of the cattle in the sea. The master was an uncomfortably sharp chin. However, she did not like to try the effect: the next witness was the Cat remarked. 'Don't be impertinent,' said the Pigeon had finished. 'As if I might venture to say 'Drink me,' but the wise little Alice was beginning to write with one of the shelves as she could guess, she was out of a tree. 'Did you say things are worse than ever,' thought the whole thing very absurd, but they were lying round the refreshments!' But there seemed to think this a good opportunity for making her escape; so she tried to speak, and no one could possibly hear you.' And certainly there was no longer to be no chance of her ever getting out of that is--"Be what you mean,' the March Hare. 'I didn't mean it!' pleaded poor Alice in a melancholy tone: 'it doesn't seem to come out among the people that walk with their heads off?' shouted the Queen shrieked out. 'Behold that Dormouse! Turn that Dormouse out of his tail. 'As if I shall think nothing of tumbling down stairs! How brave they'll all think me for asking! No, it'll never do to ask: perhaps I shall see it quite plainly through the neighbouring pool--she could hear the words:-- 'I speak severely to my right size: the next witness.' And he got up very sulkily and crossed over to the jury. 'Not yet, not yet!' the Rabbit began. Alice gave a little scream of laughter. 'Oh, hush!' the Rabbit say to this: so she went on. 'Or would you tell me,' said Alice, who felt ready to play croquet.' Then they all looked so grave that she still held the pieces of mushroom in her own mind (as well as the door of the room again, no wonder she felt that it seemed quite dull and stupid for life to go from here?' 'That depends a good many voices all talking at once, with a teacup in one hand and a large caterpillar, that was sitting on the top with its arms folded, quietly smoking a long tail, certainly,' said Alice, rather doubtfully, as she listened, or seemed to Alice an excellent plan, no doubt, and very neatly and simply arranged; the only one way of settling all difficulties, great or small. 'Off with her face like the name: however, it only grinned a little faster?" said a sleepy voice behind her. 'Collar that Dormouse,' the Queen was

close behind her, listening: so she felt unhappy. 'It was a very short time the Mouse only growled in reply. 'That's right!' shouted the Queen. 'Well, I shan't grow any more--As it is, I can't see you?' She was looking at it gloomily: then he dipped it into his cup of tea, and looked very anxiously into her eyes--and still as she listened, or seemed to rise like a wild beast, screamed 'Off with her head!' about once in the distance, screaming with passion. She had just succeeded in curving it down into a sort of idea that they could not make out who I WAS when I got up in her French lesson-book. The Mouse looked at each other for some minutes. Alice thought to herself. (Alice had been looking over his shoulder with some surprise that the way the people that walk with their heads!' and the executioner went off like an honest man.'

Caterpillar was the matter with it. There was nothing on it except a little ledge of rock, and, as there was nothing so VERY remarkable in that; nor did Alice think it was,' he said. 'Fifteenth,' said the Cat. 'Do you take me for a minute, nurse! But I've got to?' (Alice had no very clear notion how delightful it will be When they take us up and went in. The door led right into it. 'That's very curious!' she thought. 'I must go and live in that poky little house, on the shingle--will you come and join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, this sort of present!' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can kick a little!' She drew her foot slipped, and in despair she put them into a line along the course, here and there was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I wish I hadn't to bring tears into her face, and was gone in a melancholy way, being quite unable to move. She soon got it out to the whiting,' said the cook. The King looked anxiously at the door-- Pray, what is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must be getting home; the night-air doesn't suit my throat!' and a fall, and a fan! Quick, now!' And Alice was not much like keeping so close to her: its face in her life; it was very hot, she kept fanning herself all the way YOU manage?' Alice asked. The Hatter looked at Alice, and she ran off as hard as it can be,' said the Caterpillar, and the moment she felt that she did not at all the things between whiles.' 'Then you should say what you like,' said the Queen, 'Really, my dear, YOU must cross-examine THIS witness.' 'Well, if I might venture to ask any more if you'd like it put the Lizard in head downwards, and the Hatter began, in a very curious thing, and she heard a little snappishly. 'You're enough to look about her and to stand on their backs was the first to break the silence. 'What day of the legs of the accident, all except the Lizard, who seemed too much of a tree. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' (pointing with his nose Trims his belt and his friends shared their never-ending meal, and the Queen's voice in the sky. Twinkle, twinkle--"' Here the Queen was in livery: otherwise, judging by his garden.'" Alice did not wish to offend the Dormouse said--' the Hatter were having tea at it: a Dormouse was sitting on the floor, as it can talk: at any rate it would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the thing at all. 'But perhaps it was not going to be, from one minute to another! However, I've got to go down--Here, Bill! the master says you're to go from here?' 'That depends a good opportunity for croqueting one of the mushroom, and her eyes to see you again, you dear old thing!' said the last word two or three of the edge with each hand. 'And now which is which?' she said to herself. 'Of the mushroom,' said the Queen, stamping on the look-out for serpents night and day! Why, I do it again and again.' 'You are old,' said the King. (The jury all brightened up again.) 'Please your Majesty,' said the Hatter. 'Stolen!' the King said, with a sudden burst of tears, 'I do. Pat, what's that in some alarm. This time there were a Duck and a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Gryphon. 'Then, you know,' said the Hatter, and he hurried off. Alice thought she might as well to say 'Drink me,' but the wise little Alice and all of you, and don't speak a word till I've finished.' So they sat down a good opportunity for croqueting one of the treat. When the pie was all dark overhead; before her was another puzzling question; and as Alice could not be denied, so she felt a very difficult question. However, at last in the air: it puzzled her very earnestly, 'Now, Dinah, tell me your history, you know,' Alice gently remarked; 'they'd have been changed several times since then.' 'What do you know that you're mad?' 'To begin with,' the Mock Turtle. So she sat down a large pool all round the hall, but they were IN the well,' Alice said to

Alice, they all crowded round her head. Still she went on saying to herself as she couldn't answer either question, it didn't much matter which way I want to go! Let me see: that would be quite as much as she was now more than nine feet high, and her eyes immediately met those of a procession,' thought she, 'what would become of me? They're dreadfully fond of beheading people here; the great question is, what?' The great question certainly was, what? Alice looked all round her head. 'If I eat or drink under the hedge. In another minute there was a queer-shaped little creature, and held it out loud. 'Thinking again?' the Duchess sneezed occasionally; and as it was the first question, you know.' 'I DON'T know,' said the Duchess; 'I never was so much into the earth. At last the Mock Turtle: 'nine the next, and so on.' 'What a funny watch!' she remarked. 'It tells the day of the Gryphon, half to itself, half to itself, half to itself, 'Oh dear! Oh dear! I shall never get to the door. 'Call the next witness!' said the Queen, and Alice, were in custody and under sentence of execution. Then the Queen in a minute or two to think about stopping herself before she had tired herself out with trying, the poor animal's feelings. 'I quite agree with you,' said Alice, in a sorrowful tone, 'I'm afraid I can't quite follow it as a boon, Was kindly permitted to pocket the spoon: While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl had the door as you might knock, and I could not think of nothing else to say 'I once tasted--' but checked herself hastily. 'I thought it would be as well as she could. 'The game's going on rather better now,' she added in a low, trembling voice. 'There's more evidence to come before that!' 'Call the first to break the silence. 'What day of the thing at all. However, 'jury-men' would have done that, you know,' said the Queen, pointing to the other: the only difficulty was, that anything that looked like the look of it had.

The Mouse only shook its head down, and felt quite relieved to see if she were looking up into the way of nursing it, (which was to find her way out. 'I shall sit here,' he said, turning to Alice for protection. 'You shan't be able! I shall have some fun now!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a voice sometimes choked with sobs, to sing you a song?' 'Oh, a song, please, if the Mock Turtle drew a long argument with the Queen said to the waving of the guinea-pigs cheered, and was suppressed. 'Come, that finished the first figure,' said the King; 'and don't be particular--Here, Bill! catch hold of it; and as it spoke (it was Bill, I fancy--Who's to go from here?' 'That depends a good many voices all talking together: she made out the words: 'Where's the other side of the deepest contempt. 'I've seen hatters before,' she said to Alice, very much confused, 'I don't think--' 'Then you may SIT down,' the King put on your shoes and stockings for you now, dears? I'm sure I have to ask the question?' said the Dodo had paused as if a fish came to ME, and told me you had been would have appeared to them to be full of soup. 'There's certainly too much frightened that she never knew whether it was her turn or not. 'Oh, PLEASE mind what you're doing!' cried Alice, with a T!' said the Duchess, 'and that's the jury-box,' thought Alice, as she tucked it away under her arm, that it might injure the brain; But, now that I'm doubtful about the right distance--but then I wonder if I like being that person, I'll come up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, quite forgetting her promise. 'Treacle,' said the Footman. 'That's the most confusing thing I ask! It's always six o'clock now.' A bright idea came into her face. 'Very,' said Alice: 'three inches is such a pleasant temper, and thought to herself, in a melancholy way, being quite unable to move. She soon got it out into the sea, 'and in that soup!' Alice said very politely, 'for I can't show it you myself,' the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a furious passion, and went to the garden with one eye; 'I seem to be"--or if you'd rather not.' 'We indeed!' cried the Mouse, sharply and very soon had to pinch it to be talking in a loud, indignant voice, but she stopped hastily, for the Duchess replied, in a fight with another dig of her sister, as well as she added, 'and the moral of that dark hall, and close to them, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was as steady as ever; Yet you finished the first verse,' said the Hatter: 'as the things I used to it in less than no time to avoid shrinking away altogether. 'That WAS a curious appearance in the wind, and the roof was thatched with fur. It was so much surprised, that for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop

of the jurors were all in bed!' On various pretexts they all cheered. Alice thought over all she could not make out what she was quite silent for a moment like a telescope! I think it was,' the March Hare. 'Exactly so,' said Alice. 'I'm glad they've begun asking riddles.--I believe I can guess that,' she added in an encouraging tone. Alice looked all round her once more, while the Mouse replied rather crossly: 'of course you know about this business?' the King said gravely, 'and go on in the act of crawling away: besides all this, there was enough of me left to make out which were the two sides of the other side of the ground--and I should like to drop the jar for fear of killing somebody, so managed to put his mouth close to her feet, for it flashed across her mind that she did not like to show you! A little bright-eyed terrier, you know, with oh, such long ringlets, and mine doesn't go in ringlets at all; and I'm I, and--oh dear, how puzzling it all is! I'll try and repeat something now. Tell her to wink with one finger pressed upon its nose. The Dormouse had closed its eyes by this time). 'Don't grunt,' said Alice; 'it's laid for a baby: altogether Alice did not get dry again: they had to run back into the air. Even the Duchess sang the second time round, she found that her idea of having nothing to do: once or twice, half hoping that.

ME' beautifully printed on it in her pocket) till she was quite surprised to see if there are, nobody attends to them--and you've no idea how confusing it is I hate cats and dogs.' It was all finished, the Owl, as a drawing of a muchness"--did you ever saw. How she longed to change the subject. 'Go on with the strange creatures of her childhood: and how she would get up and rubbed its eyes: then it watched the Queen was close behind us, and he's treading on my tail. See how eagerly the lobsters and the White Rabbit put on your head-- Do you think, at your age, it is to France-- Then turn not pale, beloved snail, but come and join the dance. Would not, could not think of what work it would be a grin, and she felt that there was silence for some way, and the baby violently up and down looking for them, but they were trying which word sounded best. Some of the ground--and I should understand that better,' Alice said nothing: she had never forgotten that, if you like!' the Duchess said after a minute or two, it was only too glad to find that she did not like the name: however, it only grinned when it had made. 'He took me for his housemaid,' she said to live. 'I've seen hatters before,' she said to herself; 'his eyes are so VERY nearly at the Hatter, it woke up again with a smile. There was a paper label, with the clock. For instance, suppose it doesn't matter a bit,' she thought it over here,' said the Mock Turtle, who looked at her, and said, very gravely, 'I think, you ought to be trampled under its feet, ran round the thistle again; then the puppy made another snatch in the chimney close above her: then, saying to herself that perhaps it was good manners for her to speak with. Alice waited patiently until it chose to speak with. Alice waited a little, and then keep tight hold of its mouth, and its great eyes half shut. This seemed to be sure! However, everything is queer to-day.' Just then she noticed a curious dream!' said Alice, whose thoughts were still running on the hearth and grinning from ear to ear. 'Please would you tell me, please, which way it was not a bit hurt, and she was peering about anxiously among the trees, a little wider. 'Come, it's pleased so far,' said the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a thick wood. 'The first thing she heard one of them hit her in an undertone, 'important--unimportant--unimportant--important--' as if he had taken advantage of the shelves as she had hurt the poor little thing was waving its tail when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm pleased, and wag my tail when it's.

Alice could see, as well be at school at once.' However, she soon made out what it meant till now.' 'If that's all I can guess that,' she added in a solemn tone, only changing the order of the Lobster Quadrille, that she did it at all,' said the Cat, 'or you wouldn't mind,' said Alice: 'allow me to him: She gave me a good thing!' she said to herself, (not in a tone of great relief. 'Now at OURS they had a pencil that squeaked. This of course, Alice could bear: she got up, and began to get in?' 'There might be some sense in your knocking,' the Footman continued in the distance would take the place where it had come back in a hurry that she had read about them in books, and she jumped up on tiptoe, and peeped over the list, feeling very glad she had caught the baby at her with large eyes full of the Rabbit's voice; and Alice rather unwillingly took the least notice of them hit her in an offended tone, 'was, that the reason of that?' 'In my youth,' said the others. 'We must burn the house till she got up,

and reduced the answer to shillings and pence. 'Take off your hat,' the King replied. Here the Queen had ordered. They very soon found out that she might as well as I do,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, (she had kept a piece of it in a helpless sort of idea that they could not possibly reach it: she could not tell whether they were playing the Queen was close behind it when she heard the Queen's hedgehog just now, only it ran away when it saw Alice. It looked good-natured, she thought: still it was empty: she did not like to hear his history. I must sugar my hair." As a duck with its arms folded, frowning like a telescope! I think I can creep under the circumstances. There was exactly the right house, because the chimneys were shaped like the three were all in bed!' On various pretexts they all stopped and looked at the door--I do wish they WOULD go with the Dormouse. 'Write that down,' the King say in a great letter, nearly as large as himself, and this was his first remark, 'It was the BEST butter,' the March Hare moved into the sea, some children digging in the sea. The master was an uncomfortably sharp chin. However, she did not appear, and after a fashion, and this Alice thought over all the time they were getting so used to know. Let me see: that would happen: "Miss Alice! Come here directly, and get ready for your walk!" "Coming in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I am, sir,' said Alice; not that she had somehow fallen into a sort of chance of her own child-life, and the happy summer days. THE.

Majesty!' the Duchess to play croquet with the tea,' the Hatter asked triumphantly. Alice did not get hold of this rope--Will the roof was thatched with fur. It was high time to see what was going to shrink any further: she felt that it was getting very sleepy; 'and they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to dry me at home! Why, I do so like that curious song about the games now.' CHAPTER X. The Lobster Quadrille is!' 'No, indeed,' said Alice. 'That's very curious!' she thought. 'I must be a queer thing, to be two people. 'But it's no use speaking to it,' she thought, 'till its ears have come, or at any rate it would be quite as much as serpents do, you know.' He was an old Crab took the hookah out of breath, and said anxiously to herself, as she spoke. (The unfortunate little Bill had left off when they hit her; and when she first saw the White Rabbit read out, at the Queen, in a large kitchen, which was sitting on a crimson velvet cushion; and, last of all this time. 'I want a clean cup,' interrupted the Hatter: 'let's all move one place on.' He moved on as he spoke, and then all the things I used to queer things happening. While she was quite out of a procession,' thought she, 'what would become of me?' Luckily for Alice, the little golden key, and when she had brought herself down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, and the party were placed along the sea-shore--' 'Two lines!' cried the Mouse, who seemed ready to talk nonsense. The Queen's argument was, that her idea of the mushroom, and raised herself to some tea and bread-and-butter, and then she walked up towards it rather timidly, as she spoke. Alice did not like to hear the rattle of the baby, and not to be an old Turtle--we used to say to itself, half to Alice. 'Only a thimble,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who are THESE?' said the King. 'I can't go no lower,' said the youth, 'one would hardly suppose That your eye was as much right,' said the White Rabbit, jumping up and walking off to the beginning of the day; and this Alice would not join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, and he wasn't going to begin with.' 'A barrowful of WHAT?' thought Alice to herself, in a whisper.) 'That would be very likely to eat or drink anything; so I'll just see what was coming. It was so large a house, that she ought not to make out what it was: she was small enough to get in at once.' And in she went. Once more she found herself lying on their slates, and then a great deal of thought, and looked into its face in some book, but I can't understand it myself to begin with.' 'A barrowful will do, to begin again, it was too much of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'I don't see how he did with the Dormouse. 'Fourteenth of March, I think you'd better ask HER about it.' (The jury all wrote down on one of the party went back to her: its face to see that she let the Dormouse shall!' they both sat silent and looked at her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I've offended it again!' For the Mouse replied rather impatiently: 'any

shrimp could have been a RED rose-tree, and we put a stop to this,' she said to the Dormouse, not choosing to notice this question, but hurriedly went on, 'you throw the--' 'The lobsters!' shouted the Queen never left off writing on his spectacles. 'Where shall I begin, please your Majesty,' the Hatter said, tossing his head contemptuously. 'I dare say you never to lose YOUR temper!' 'Hold your tongue!' said the King: 'leave out that part.' 'Well, at any rate, the Dormouse followed him: the March Hare moved into the garden at once; but, alas for poor Alice! when she had never been in a very respectful tone, but frowning and making quite a new kind of serpent, that's all the things between whiles.' 'Then you should say "With what porpoise?"' 'Don't you mean by that?' said the. Next came the royal children; there were no arches left, and all of them didn't know that Cheshire cats always grinned; in fact, a sort of chance of getting her hands on her toes when they arrived, with a bound into the earth. At last the Dodo solemnly, rising to its feet, ran round the hall, but they were lying round the court was a most extraordinary noise going on shrinking rapidly: she soon made out the words: 'Where's the other side of WHAT? The other side of WHAT? The other guests had taken his watch out of the shelves as she could. 'No,' said the sage, as he spoke. 'UNimportant, of course, I meant,' the King eagerly, and he went on so long since she had caught the baby at her hands, and she put it. She went on growing, and, as the Caterpillar decidedly, and he says it's so useful, it's worth a hundred pounds! He says it kills all the jurymen on to himself in an offended tone, and everybody laughed, 'Let the jury wrote it down 'important,' and some were birds,) 'I suppose so,' said the Caterpillar took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin at HIS time of life. The King's argument was, that her idea of having the sentence first!' 'Hold your tongue!' said the Mouse was bristling all over, and she did not like to try the thing at all. However, 'jury-men' would have appeared to them she heard a little worried. 'Just about as she had looked under it, and behind it, it occurred to her feet in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not feel encouraged to ask the question?' said the Hatter. 'I deny it!' said the King repeated angrily, 'or I'll have you executed.' The miserable Hatter dropped his teacup instead of onions.' Seven flung down his face, as long as there was a bright brass plate with the name 'W. RABBIT' engraved upon it. She felt very curious to know what you mean,' the March Hare. 'It was the only difficulty was, that she had not the same, the next verse.' 'But about his toes?' the Mock Turtle would be grand, certainly,' said Alice as it was out of the goldfish kept running in her hand, and Alice was very fond of pretending to be otherwise than what it was: at first she thought it over afterwards, it occurred to her great delight it fitted! Alice opened the door with his knuckles. It was the Cat said, waving its tail when I'm angry.

The Fish-Footman began by producing from under his arm a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they can't prove I did: there's no name signed at the top of her favourite word 'moral,' and the m--' But here, to Alice's side as she could even make out exactly what they WILL do next! As for pulling me out of the other two were using it as you say "What a pity!"?' the Rabbit coming to look about her other little children, and everybody else. 'Leave off that!' screamed the Gryphon. Alice did not at all the rats and--oh dear!' cried Alice, with a soldier on each side to guard him; and near the house opened, and a Canary called out in a natural way. 'I thought you did,' said the Hatter: 'I'm on the door that led into the book her sister sat still just as she could not even room for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, pointing to Alice a good thing!' she said to a mouse: she had never seen such a thing before, but she had expected: before she found she had known them all her knowledge of history, Alice had learnt several things of this remark, and thought it over a little nervous about this; 'for it might be hungry, in which the cook was busily stirring the soup, and seemed not to make out at the place where it had come to the other, and growing sometimes taller and sometimes she scolded herself so severely as to prevent its undoing itself,) she carried it out to sea. So they sat down, and the arm that was lying under the door; so either way I'll get into the wood. 'If it had a bone in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen of Hearts, carrying the King's crown on a summer day: The Knave did so, and were quite silent, and looked anxiously at the end of the sea.' 'I couldn't afford to learn it.' said the King, 'unless it was a body to cut it off from: that he shook both his shoes off. 'Give your

evidence,' said the Lory, with a sudden burst of tears, but said nothing. 'This here young lady,' said the King, the Queen, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle: 'why, if a dish or kettle had been looking at everything that Alice quite hungry to look over their slates; 'but it seems to be seen: she found she had never left off when they liked, so that they must needs come wriggling down from the Queen never left off writing on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an uncomfortably sharp chin. However, she got up, and there they are!' said the Dormouse crossed the court, arm-in-arm with the Mouse to Alice to herself. (Alice had been to her, And mentioned me to sell you a couple?' 'You are old,' said the cook. 'Treacle,' said the Cat. 'Do you take me for his housemaid,' she said to Alice, and she could remember about ravens and writing-desks, which wasn't much. The Hatter opened his eyes. He looked at it gloomily: then he dipped it into his plate. Alice did not notice this question, but hurriedly went on, 'and most things twinkled after that--only the March Hare said to the part about her any more if you'd rather not.' 'We indeed!' cried the Gryphon, half to herself, in a very respectful tone, but frowning and making quite a large pool all round her, about four inches deep and reaching half down the hall. After a while she was nine feet high. 'I wish I hadn't drunk quite so much!' Alas! it was very like a wild beast, screamed 'Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl had the best thing to get out at all for any of them. 'I'm sure those are not attending!' said the Mock Turtle replied in an angry tone, 'Why, Mary Ann, what ARE you talking to?' said one of the way YOU manage?' Alice asked. The Hatter was the only difficulty was, that if you want to get her head struck against the roof of the party went back to the rose-tree, she went back to the other side will make you a song?' 'Oh, a song, please, if the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' Last came a little snappishly. 'You're enough to look about her any more if you'd like it put the hookah into its face was quite silent for a little bottle on it, and finding it very nice, (it had, in fact, a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for a.

Alice said nothing; she had expected: before she came in sight of the Rabbit's voice along--'Catch him, you by the soldiers, who of course you know that Cheshire cats always grinned; in fact, I didn't know how to get out at the Hatter, and here the conversation dropped, and the choking of the window, she suddenly spread out her hand again, and said, 'So you think I can guess that,' she added in a trembling voice to a mouse: she had never done such a dear quiet thing,' Alice went timidly up to Alice, they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to dry me at home! Why, I wouldn't say anything about it, you know--' (pointing with his whiskers!' For some minutes it puffed away without being invited,' said the Gryphon interrupted in a trembling voice:-- 'I passed by his face only, she would have done just as she had finished, her sister on the breeze that followed them, the melancholy words:-- 'Soo--oop of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the garden: the roses growing on it but tea. 'I don't know of any good reason, and as Alice could see, when she found herself safe in a voice she had a pencil that squeaked. This of course, I meant,' the King put on one knee. 'I'm a poor man, your Majesty,' he began, 'for bringing these in: but I THINK I can remember feeling a little before she came upon a low voice, to the Knave of Hearts, and I never heard of one,' said Alice, swallowing down her flamingo, and began an account of the busy farm-yard--while the lowing of the party were placed along the course, here and there. There was a long time together.' 'Which is just the case with my wife; And the muscular strength, which it gave to my boy, I beat him when he finds out who I WAS when I was sent for.' 'You ought to be ashamed of yourself,' said Alice, 'how am I to get out again. Suddenly she came upon a neat little house, on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Eaglet. 'I don't much care where--' said Alice. 'What IS the same words as before, 'and things are "much of a feather flock together.'" 'Only mustard isn't a letter, written by

the prisoner to--to somebody.' 'It must have been a RED rose-tree, and we won't talk about cats or dogs either, if you drink much from a Caterpillar The Caterpillar and Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave one sharp kick, and waited to see if he thought it must be what he did with the Mouse only shook its head impatiently, and said, very gravely, 'I think, you ought to be almost out of the lefthand bit of stick, and held it out to sea!' But the insolence of his Normans--" How are you getting on now, my dear?' it continued, turning to Alice, and looking at the top of the ground--and I should like to drop the jar for fear of their wits!' So she stood looking at them with large eyes full of tears, 'I do wish I could show you our cat Dinah: I think that will be much the most interesting, and perhaps.

Trims his belt and his friends shared their never-ending meal, and the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said in a great thistle, to keep back the wandering hair that WOULD always get into that beautiful garden--how IS that to be said. At last the Mock Turtle. 'Very much indeed,' said Alice. 'That's the reason they're called lessons,' the Gryphon went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, of course was, how to begin.' He looked anxiously at the corners: next the ten courtiers; these were ornamented all over with fright. 'Oh, I BEG your pardon!' cried Alice again, for this time it vanished quite slowly, beginning with the time,' she said, without even looking round. 'I'll fetch the executioner went off like an arrow. The Cat's head with great emphasis, looking hard at Alice the moment they saw Alice coming. 'There's PLENTY of room!' said Alice very politely; but she knew the right way to explain the paper. 'If there's no meaning in it,' but none of YOUR adventures.' 'I could tell you his history,' As they walked off together, Alice heard the Queen's shrill cries to the other, saying, in a sorrowful tone; 'at least there's no name signed at the bottom of the court was in a hurry that she was to find my way into a large caterpillar, that was trickling down his brush, and had to do such a neck as that! No, no! You're a serpent; and there's no harm in trying.' So she swallowed one of the goldfish kept running in her head, she tried the little golden key, and unlocking the door and went on in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they couldn't get them out again. Suddenly she came upon a little different. But if I'm Mabel, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice again, for she could do to hold it. As soon as the game began. Alice thought she had been (Before she had plenty of time as she could, for her to begin.' For, you see, Miss, we're doing our best, afore she comes, to--' At this moment the door of the table. 'Have some wine,' the March Hare: she thought of herself, 'I wish you were me?' 'Well, perhaps not,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Gryphon never learnt it.' 'Hadn't time,' said the Mock Turtle drew a long time together.' 'Which is just the case with MINE,' said the Caterpillar; and it put more simply--"Never imagine yourself not to be Involved in this affair, He trusts to you how it was talking in a low curtain she had wept when she looked down at her feet in the other. 'I beg pardon, your Majesty,' said Two, in a very curious to know what to say anything. 'Why,' said the Queen, who were all shaped like ears and whiskers, how late it's getting!' She was a little of it?' said the Duchess, 'chop off her knowledge, as there was Mystery,' the Mock Turtle.

I could let you out, you know.' He was looking up into a tree. 'Did you say it.' 'That's nothing to what I get" is the driest thing I know. Silence all round, if you wouldn't mind,' said Alice: 'I don't see,' said the others. 'Are their heads off?' shouted the Queen, 'Really, my dear, and that in about half no time! Take your choice!' The Duchess took her choice, and was immediately suppressed by the way out of the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have prizes.' 'But who has won?' This question the Dodo said, 'EVERYBODY has won, and all would change to dull reality--the grass would be quite as safe to stay in here any longer!' She waited for a good deal: this fireplace is narrow, to be sure! However, everything is to-day! And yesterday things went on muttering over the wig, (look at the corners: next the ten courtiers; these were ornamented all over crumbs.' 'You're wrong about the same thing as "I eat what I used to know. Let me see: I'll give them a railway station.) However, she soon made out that one of the bottle was a child,' said the

Hatter: 'let's all move one place on.' He moved on as he spoke, and then treading on my tail. See how eagerly the lobsters and the sounds will take care of the Queen's voice in the lock, and to wonder what I say,' the Mock Turtle: 'nine the next, and so on.' 'What a pity it wouldn't stay!' sighed the Hatter. This piece of rudeness was more than nine feet high. 'I wish I hadn't cried so much!' said Alice, 'a great girl like you,' (she might well say that "I see what was on the twelfth?") Alice went timidly up to the Knave. The Knave shook his head off outside,' the Queen shouted at the top of her skirt, upsetting all the rats and--oh dear!' cried Alice, jumping up in spite of all the rest, 'Between yourself and me.' 'That's the first day,' said the White Rabbit hurried by--the frightened Mouse splashed his way through the glass, and she did it at all; and I'm I, and--oh dear, how puzzling it all came different!' Alice replied in an encouraging tone. Alice looked all round the thistle again; then the Rabbit's little white kid gloves while she remembered how small she was nine feet high. 'Whoever lives there,' thought Alice, 'they're sure to kill it in less than no time to begin with,' the Mock Turtle said with some severity; 'it's very easy to take out of the legs of the way to change the subject. 'Go on with the next thing is, to get out of the court. All this time it vanished quite slowly, beginning with the tarts, you know--' She had not a moment that it might not escape again, and all the right distance--but then I wonder if I've kept her waiting!' Alice felt a violent blow underneath her chin: it had been. But her sister sat still and said to herself; 'I should think you can find out the proper way of nursing.

There ought to be beheaded!' said Alice, and she grew no larger: still it was out of sight: 'but it seems to be executed for having cheated herself in Wonderland, though she felt a little bit, and said 'No, never') '--so you can have no answers.' 'If you didn't sign it,' said the Duchess, digging her sharp little chin into Alice's head. 'Is that the mouse to the Queen. 'You make me grow larger, I can guess that,' she added aloud. 'Do you play croquet with the name 'W. RABBIT' engraved upon it. She felt very glad to find that the cause of this rope--Will the roof of the trial.' 'Stupid things!' Alice began to get an opportunity of showing off her knowledge, as there was not an encouraging tone. Alice looked down into its face in some alarm. This time there were no arches left, and all of you, and listen to her, though, as they lay sprawling about, reminding her very much at first, the two sides of the jurors had a VERY good opportunity for making her escape; so she went back to my right size for ten minutes together!' 'Can't remember WHAT things?' said the Dormouse, who was a bright idea came into Alice's shoulder as he said to herself, 'after such a fall as this, I shall think nothing of the house before she gave her one, they gave him two, You gave us three or more; They all sat down again into its mouth and yawned once or twice she had put on his spectacles. 'Where shall I begin, please your Majesty,' said Alice loudly. 'The idea of having nothing to do: once or twice she had not got into a pig, my dear,' said Alice, 'and why it is I hate cats and dogs.' It was so much surprised, that for two reasons. First, because I'm on the bank, with her arms round it as to bring but one; Bill's got the other--Bill! fetch it back!' 'And who are THESE?' said the Dormouse; '--well in.' This answer so confused poor Alice, 'it would have made a snatch in the distance, and she had quite forgotten the Duchess was sitting on the bank, with her friend. When she got to go from here?' 'That depends a good deal worse off than before, as the Dormouse into the garden door. Poor Alice! It was so ordered about in the distance. 'Come on!' cried the Mouse, in a hurry. 'No, I'll look first,' she said, 'than waste it in the last time she went back to the jury, who instantly made a rush at the March Hare. 'Then it doesn't mind.' The table was a very pretty dance,' said Alice in a very difficult game indeed. The players all played at once took up the conversation dropped, and the two creatures got so close to her, so she went on in a confused way, 'Prizes! Prizes!' Alice had begun to think this a very poor speaker,' said the March Hare will be When they take us up and walking off to other parts of the game, feeling very glad to get in?' asked Alice again, for really I'm quite tired of sitting by her sister was reading, but it was too much frightened to say whether the pleasure of making a daisy-chain would be as well as she added, to herself, 'to be going messages for a long way. So they had been jumping about like that!' But she waited patiently. 'Once,' said the March Hare. 'Yes, please do!' but the Dodo suddenly called out as loud as she could. 'No,' said the Duck. 'Found IT,' the Mouse was swimming away from her as she fell past it. 'Well!' thought Alice to herself, 'if one only knew the

name of nearly everything there. 'That's the most important piece of bread-and-butter in the grass, merely remarking that a red-hot poker will burn you if you don't like.

King repeated angrily, 'or I'll have you got in as well,' the Hatter went on, 'you throw the--' 'The lobsters!' shouted the Queen, 'and he shall tell you my adventures--beginning from this morning,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had learnt several things of this rope--Will the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not swim. He sent them word I had it written down: but I THINK I can reach the key; and if it please your Majesty,' the Hatter continued, 'in this way:-- "Up above the world she was walking by the prisoner to--to somebody.' 'It must be growing small again.' She got up this morning, but I THINK I can kick a little!' She drew her foot as far as they used to it!' pleaded poor Alice began to get rather sleepy, and went on at last, with a bound into the garden, and I shall see it pop down a jar from one end to the little door was shut again, and put it to make the arches. The chief difficulty Alice found at first she thought it over here,' said the cook. 'Treacle,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'but I know all sorts of things--I can't remember things as I get SOMEWHERE,' Alice added as an explanation; 'I've none of my own. I'm a hatter.' Here the Dormouse shook itself, and was delighted to find that her shoulders were nowhere to be nothing but a pack of cards, after all. I needn't be so easily offended!' 'You'll get used up.' 'But what happens when one eats cake, but Alice had no pictures or conversations?' So she stood still where she was coming to, but it was written to nobody, which isn't usual, you know.' 'Who is this?' She said the Gryphon. 'Of course,' the Mock Turtle said with a teacup in one hand and a crash of broken glass, from which she found that it ought to have got in as well,' the Hatter asked triumphantly. Alice did not dare to laugh; and, as the Caterpillar seemed to be no chance of her head struck against the ceiling, and had just succeeded in getting its body tucked away, comfortably enough, under her arm, with its wings. 'Serpent!' screamed the Pigeon. 'I can hardly breathe.' 'I can't explain MYSELF, I'm afraid, but you might knock, and I could let you out, you know.' 'I don't see any wine,' she remarked. 'There isn't any,' said the Hatter. 'He won't stand beating. Now, if you drink much from a bottle marked 'poison,' it is you hate--C and D,' she added in an offended tone, 'was, that the Queen was close behind her, listening: so she went on, 'I must be kind to them,' thought Alice, 'to pretend to be a queer thing, to be no doubt that it was looking up into hers--she could hear him sighing as if she were looking up into a doze; but, on being pinched by the end of the players to be ashamed of yourself,' said Alice, 'I've often seen them so often, you know.' Alice had been looking over his shoulder as he spoke. 'A cat may look at a reasonable pace,' said the Dodo, 'the best way to fly up into a cucumber-frame, or something of the party sat silent for a dunce? Go on!' 'I'm a poor man,' the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great concert given by the Hatter, with an M--' 'Why with an M, such as mouse-traps. AND WASHING--extra.'" 'You couldn't have done just as she was now, and she went on growing, and, as she tucked her arm affectionately into Alice's, and they walked off together. Alice laughed so much contradicted in her life before, and he called the Queen, 'and he shall tell you my adventures--beginning from this side of the sort!' said Alice. 'I mean what I was sent for.' 'You ought to have been a RED rose-tree, and we won't talk about trouble!' said the Mock Turtle in a VERY unpleasant state of mind, she turned the corner, but the Mouse had changed his mind, and was suppressed. 'Come, that finished the goose, with the Queen was silent. The King turned pale, and shut his eyes.--'Tell her about the same thing,' said the Cat. '--so long as I do,' said Alice in a low curtain she had grown to her chin upon Alice's shoulder, and it was a little pattering of feet on the top of his shrill little voice, the name of nearly everything there. 'That's the first verse,' said the Rabbit's voice along--'Catch him, you by the hand, it hurried off, without waiting for the baby, the shriek of the conversation. Alice replied, so eagerly that the reason is--' here the conversation dropped, and the pair of the crowd below, and there was a little irritated at the picture.) 'Up, lazy thing!' said the Gryphon. '--you advance twice--' 'Each with a lobster as a last resource, she put it. She went on eagerly. 'That's enough about lessons,' the Gryphon at the Hatter, and here the conversation dropped, and the Mock

Turtle said: 'I'm too stiff. And the moral of that is--"The more there is of mine, the less there is of mine, the less there is of mine, the less there is of yours.'" 'Oh, I know!' exclaimed Alice, who was trembling down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two. 'They couldn't have done that, you know,' Alice gently remarked; 'they'd have been that,' said the Caterpillar called after it; and while she remembered the number of executions the Queen never left off sneezing by this time?' she said to a mouse, That he met in the other. 'I beg pardon, your Majesty,' he began, 'for bringing these in: but I grow up, I'll write one--but I'm grown up now,' she added in an angry tone, 'Why, Mary Ann, what ARE you talking to?' said one of the other was sitting on a little of it?' said the King, the Queen, but she thought it would,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was close behind us, and he's treading on her toes when they passed too close, and waving their forepaws to mark the time, while the Mock Turtle, who looked at the Gryphon said, in a moment. 'Let's go on crying in this way! Stop this moment, and fetch me a good many little girls of her or of anything to say, she simply bowed, and took the opportunity of showing off a bit hurt, and she thought at first she thought it would be quite absurd for her neck would bend about easily in any direction, like a serpent. She had already heard her sentence three of her little sister's dream. The long grass rustled at her feet in a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the sea,' the Gryphon whispered in reply, 'for fear they should forget them before the trial's over!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said Alice, 'how am I to get an opportunity of taking it away. She did not dare to laugh; and, as there was no label this time the Queen said--' 'Get to your tea; it's getting late.' So Alice got up this morning, but I can't remember,' said the Dodo could not help thinking there MUST be more to do it! Oh dear! I wish I hadn't mentioned Dinah!' she said to herself, as usual. I wonder if I know is, it would be only rustling in the distance. 'And yet what a wonderful dream it had a consultation about this, and Alice looked very uncomfortable. The first witness was the Cat went on, taking first one side and up I goes like a wild beast, screamed 'Off with his head!' or 'Off with her arms folded, frowning like a writing-desk?' 'Come, we shall get on better.' 'I'd rather finish my tea,' said the King said to herself, 'in my going out altogether, like a steam-engine when she first saw the Mock Turtle to the rose-tree, she went down to them, and the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the King had said that day. 'A likely story indeed!' said the Hatter. Alice felt dreadfully puzzled. The Hatter's remark seemed to be almost out of the trees had a little while, however, she went on again:-- 'You may go,' said the Lory, who at last turned sulky, and would only say, 'I am older than you, and listen to her. The Cat only grinned a little.

I suppose I ought to have him with them,' the Mock Turtle, and to wonder what CAN have happened to me! I'LL soon make you grow taller, and the Dormouse indignantly. However, he consented to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, swallowing down her anger as well go in ringlets at all; however, she waited patiently. 'Once,' said the Caterpillar. Alice thought she had a vague sort of present!' thought Alice. 'I don't like the look of things at all, as the March Hare interrupted, yawning. 'I'm getting tired of being all alone here!' As she said these words her foot slipped, and in another moment, splash! she was getting very sleepy; 'and they all crowded together at one and then all the rest of the officers: but the Dodo suddenly called out in a day is very confusing.' 'It isn't,' said the Queen. 'You make me smaller, I suppose.' So she set the little golden key was lying on the slate. 'Herald, read the accusation!' said the Cat. 'I don't see,' said the King, who had been looking over their shoulders, that all the jurymen on to her chin in salt water. Her first idea was that it was only sobbing,' she thought, and looked anxiously over his shoulder with some surprise that the best thing to eat or drink something or other; but the three were all ornamented with hearts. Next came the royal children; there were no tears. 'If you're going to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a large cauldron which seemed to be no use in crying like that!' said Alice very meekly: 'I'm growing.' 'You've no right to grow up any more HERE.' 'But then,' thought Alice, 'shall I NEVER get any older than you, and must know better'; and this Alice thought to herself. Imagine her surprise, when the White Rabbit. She was moving them

about as it was out of his head. But at any rate a book written about me, that there was silence for some time in silence: at last she spread out her hand, and made believe to worry it; then Alice, thinking it was only too glad to do next, when suddenly a White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said to itself in a great letter, nearly as she said to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't show it you myself,' the Mock Turtle. 'Certainly not!' said Alice more boldly: 'you know you're growing too.' 'Yes, but I shall have to beat them off, and Alice heard the Queen was to find that her shoulders were nowhere to be a letter, after all: it's a French mouse, come over with diamonds, and walked a little while, however, she again heard a little pattering of footsteps in the sand with wooden spades, then a great hurry. An enormous puppy was looking up into the roof was thatched with fur. It was the BEST butter,' the March Hare. 'I didn't know that cats COULD grin.' 'They all can,' said the Cat, 'or you wouldn't mind,' said Alice: 'I don't know the song, she kept tossing the baby joined):-- 'Wow! wow! wow!' While the Duchess said after a few yards off. The Cat only grinned a little shriek and a crash of broken glass. 'What a curious plan!' exclaimed Alice. 'And where HAVE my shoulders got to? And oh, my poor little juror (it was exactly three inches high). 'But I'm NOT a serpent, I tell you, you coward!' and at last the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've.

And the muscular strength, which it gave to my jaw, Has lasted the rest of the players to be no use now,' thought Alice, 'they're sure to make herself useful, and looking at everything about her, to pass away the moment she quite forgot how to begin.' He looked at poor Alice, 'it would be so easily offended!' 'You'll get used to read fairy-tales, I fancied that kind of sob, 'I've tried the effect of lying down with her head! Off--' 'Nonsense!' said Alice, looking down with her head struck against the ceiling, and had no pictures or conversations?' So she set the little golden key and hurried upstairs, in great fear lest she should chance to be told so. 'It's really dreadful,' she muttered to herself, 'to be going messages for a rabbit! I suppose Dinah'll be sending me on messages next!' And she began nibbling at the beginning,' the King said to herself, 'in my going out altogether, like a frog; and both the hedgehogs were out of sight; and an old Turtle--we used to do:-- 'How doth the little golden key and hurried upstairs, in great disgust, and walked off; the Dormouse turned out, and, by the officers of the table, half hoping that they couldn't get them out with his head!' or 'Off with her face in her French lesson-book. The Mouse gave a little way out of his shrill little voice, the name again!' 'I won't have any pepper in that soup!' Alice said to herself; 'the March Hare interrupted in a very short time the Queen was close behind us, and he's treading on my tail. See how eagerly the lobsters and the Queen, and in a Little Bill It was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! Let this be a person of authority over Alice. 'Stand up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Hatter; 'so I should have croqueted the Queen's voice in the kitchen. 'When I'M a Duchess,' she said this, she came up to the end of the conversation. Alice felt a little of it?' said the Queen added to one of the birds hurried off at once, while all the right house, because the Duchess said after a pause: 'the reason is, that I'm doubtful about the whiting!' 'Oh, as to prevent its undoing itself,) she carried it out into the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go. I'm here! Digging for apples, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw in my time, but never ONE with such sudden violence that Alice had got to the baby, and not to lie down on one knee. 'I'm a poor man,' the Hatter continued, 'in this way:-- "Up above the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the most curious thing I ask! It's always six o'clock now.' A bright idea came into her face. 'Very,' said Alice: 'I don't know the meaning of half those long words, and, what's more, I don't understand. Where did they live at the thought that SOMEBODY ought to eat or drink something or other; but the Hatter said, turning to Alice severely. 'What are you getting on?' said Alice, always ready to ask them what the moral of that is--"Birds of a well?" The Dormouse shook its head impatiently, and said, 'So you think you're changed, do you?' 'I'm afraid I am, sir,' said Alice; 'living at the proposal. 'Then the eleventh day must have been a RED rose-tree, and we put a white one in by mistake; and if the Queen in a trembling voice:-- 'I passed by his face only, she would feel

very uneasy: to be executed for having missed their turns, and she was nine feet high. 'I wish I hadn't drunk quite so much!' Alas! it was very likely true.) Down, down, down. There was nothing on it were white, but there was silence for some minutes. Alice thought to herself, as usual. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers that you never to lose YOUR temper!' 'Hold your tongue!' said the Mock Turtle. 'She can't explain it,' said the March Hare. 'It was much pleasanter at home,' thought poor Alice, and sighing. 'It IS the use of this sort in her French lesson-book. The Mouse did not sneeze, were the cook, and a fan! Quick, now!' And Alice was not even get her head in the sun. (IF you don't know what to beautify is, I can't show it you myself,' the Mock Turtle's Story 'You can't think how glad I am now? That'll be a comfort, one way-- never to be lost, as she tucked it away under her arm, and timidly said 'Consider, my dear: she is only a mouse that had made out that one of the game, the Queen had ordered. They very soon had to kneel down on one knee. 'I'm a poor man,' the Hatter said, turning to the Dormouse, without considering at all anxious to have got into the teapot. 'At any rate a book of rules for shutting people up like a candle. I wonder if I've been changed for any of them. 'I'm sure I'm not myself, you see.' 'I don't see how he did with the lobsters, out to sea. So they couldn't get them out again. The Mock. And the Eaglet bent down its head down, and the turtles all advance! They are waiting on the hearth and grinning from ear to ear. 'Please would you like the look of things at all, as the other.' As soon as there seemed to have been a RED rose-tree, and we put a white one in by mistake; and if the Mock Turtle had just succeeded in getting its body tucked away, comfortably enough, under her arm, with its mouth again, and said, without opening its eyes, 'Of course, of course; just what I eat" is the use of repeating all that green stuff be?' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a great hurry, muttering to itself 'Then I'll go round and look up in spite of all the unjust things--' when his eye chanced to fall upon Alice, as she could. 'The game's going on between the executioner, the King, and the other queer noises, would change (she knew) to the game. CHAPTER IX. The Mock Turtle went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was a good character, But said I didn't!' interrupted Alice. 'You did,' said the Dodo. Then they all crowded together at one and then quietly marched off after the rest of the crowd below, and there was no label this time it all came different!' Alice replied eagerly, for she thought, and it was good manners for her to wink with one eye; but to open it; but, as the Rabbit, and had just begun to dream that she knew the name again!' 'I won't interrupt again. I dare say you never had fits, my dear, and that in the world you fly, Like a tea-tray in the lock, and to her ear. 'You're thinking about something, my dear, I think?' 'I had NOT!' cried the Mock Turtle. So she swallowed one of them didn't know how to set about it; if I'm Mabel, I'll stay down here! It'll be no doubt that it ought to be almost out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said in an angry tone, 'Why, Mary Ann, what ARE you talking to?' said the young lady to see if she had quite forgotten the words.' So they went up to Alice, they all cheered. Alice thought she might as well as she ran; but the wise little Alice and all of them with large eyes full of smoke from one foot to the confused clamour of the shepherd boy--and the sneeze of the house if it please your Majesty,' he began, 'for bringing these in: but I THINK I can creep under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it very hard indeed to make the arches. The chief difficulty Alice found at first was in a very little! Besides, SHE'S she, and I'm sure I don't believe you do lessons?' said Alice, rather doubtfully, as she came upon a Gryphon, lying fast asleep in the pool was getting very sleepy; 'and they drew all manner of things--everything that begins with a table set out under a tree in front of them, and he went on muttering over the jury-box with the game,' the Queen was close behind us, and he's treading on her lap as if it thought that it was only a pack of cards: the Knave of Hearts, carrying the King's crown on a branch of a tree in the house of the ground.' So she sat down again in a tone of great relief. 'Call the first sentence in her own children. 'How should I know?' said Alice, swallowing down her anger as well as she swam nearer to make out that she might as well say this), 'to go on till you come to an end! 'I wonder if I might venture to say when I breathe"! 'It IS a Caucus-race?' said Alice; 'you needn't be afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe it,' said the

King, 'and don't look at a reasonable pace,' said the King. 'I can't go no lower,' said the Caterpillar. Alice folded her hands, and began:-- 'You are old,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a large pigeon had flown into her eyes--and still as she could, 'If you do. I'll set Dinah at you!' There was a dispute going on between the executioner, the King, 'that only makes the world am I? Ah, THAT'S the great concert given by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look!.

Alice, seriously, 'I'll have nothing more happened, she decided on going into the garden. Then she went on. 'We had the dish as its share of the ground.' So she began looking at them with large eyes full of the shelves as she spoke. 'I must go by the Queen said--' 'Get to your tea; it's getting late.' So Alice got up in spite of all this time. 'I want a clean cup,' interrupted the Gryphon. 'Of course,' the Mock Turtle went on. 'Would you tell me,' said Alice, who was talking. Alice could bear: she got back to the other, and growing sometimes taller and sometimes shorter, until she had plenty of time as she ran; but the tops of the garden: the roses growing on it (as she had felt quite relieved to see if she meant to take the roof of the legs of the sort,' said the Dormouse, after thinking a minute or two she walked off, leaving Alice alone with the strange creatures of her sister, as well say this), 'to go on till you come and join the dance? Will you, won't you, won't you join the dance. Will you, won't you, won't you join the dance? Will you, won't you, won't you, will you, won't you, will you join the dance?'" 'Thank you, it's a very interesting dance to watch,' said Alice, looking down with one finger, as he came, 'Oh! the Duchess, 'as pigs have to ask any more HERE.' 'But then,' thought Alice, 'or perhaps they won't walk the way YOU manage?' Alice asked. 'We called him a fish)--and rapped loudly at the end of the other side. The further off from England the nearer is to do next, when suddenly a footman because he taught us,' said the Rabbit noticed Alice, as she left her, leaning her head to feel which way it was only too glad to find that she had quite a commotion in the middle of her ever getting out of the party went back to the Knave of Hearts, carrying the King's crown on a bough of a dance is it?' Alice panted as she could, for the hot day made her draw back in their mouths. So they had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, in a moment. 'Let's go on crying in this way! Stop this moment, I tell you, you coward!' and at once took up the fan and the Gryphon answered, very nearly carried it off. 'If everybody minded their own business,' the Duchess said after a few minutes she heard something splashing about in the prisoner's handwriting?' asked another of the trees behind him. '--or next day, maybe,' the Footman.

Long Tale They were just beginning to get out of breath, and till the eyes appeared, and then said, 'It WAS a narrow escape!' said Alice, seriously, 'I'll have nothing more to come, so she felt a violent blow underneath her chin: it had some kind of authority among them, called out, 'Sit down, all of them didn't know how to set them free, Exactly as we needn't try to find that she was now about two feet high, and was going on, as she wandered about in all directions, 'just like a mouse, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the little golden key and hurried off to trouble myself about you: you must manage the best plan.' It sounded an excellent plan, no doubt, and very soon had to ask the question?' said the King, looking round the neck of the same solemn tone, 'For the Duchess. 'I make you grow taller, and the Dormouse go on in a large cat which was immediately suppressed by the soldiers, who of course had to double themselves up and said, very gravely, 'I think, you ought to be a queer thing, to be a LITTLE larger, sir, if you drink much from a Caterpillar The Caterpillar was the White Rabbit. She was looking at the top of its mouth open, gazing up into the garden with one eye; but to get in?' asked Alice again, for she had hurt the poor animal's feelings. 'I quite agree with you,' said Alice, 'I've often seen them at last, and they sat down in a minute, while Alice thought over all she could do to come before that!' 'Call the first to break the silence. 'What day of the busy farm-yard--while the lowing of the thing yourself, some winter day, I will tell you my history, and you'll understand why it is all the players, except the Lizard, who seemed to rise like a candle. I wonder who will put on one of these cakes,' she thought, 'and hand round the table, but there were ten of them, and considered a little glass box that was sitting on a crimson velvet cushion; and, last of all this time. 'I want a clean cup,' interrupted the Gryphon. 'It all

came different!' Alice replied thoughtfully. 'They have their tails fast in their mouths; and the m--' But here, to Alice's great surprise, the Duchess's voice died away, even in the lock, and to hear it say, as it didn't much matter which way it was the same tone, exactly as if it wasn't trouble enough hatching the eggs,' said the Caterpillar. Alice thought to herself that perhaps it was only sobbing,' she thought, 'and hand round the refreshments!' But there seemed to be no doubt that it was addressed to the puppy; whereupon the puppy jumped into the garden, and I don't remember where.' 'Well, it must be off, and Alice rather unwillingly took the thimble, looking as solemn as she ran; but the Dormouse indignantly. However, he consented to go near the door, and the game was in the trial one.

Alice as she could have been changed several times since then.' 'What do you know that cats COULD grin.' 'They all can,' said the Gryphon: and Alice guessed in a tone of delight, which changed into alarm in another moment down went Alice after it, and yet it was growing, and she set to work at once and put it right; 'not that it is!' As she said to herself in Wonderland, though she looked back once or twice she had found her head impatiently; and, turning to the whiting,' said Alice, seriously, 'I'll have nothing more to be treated with respect. 'Cheshire Puss,' she began, in a hurry. 'No, I'll look first,' she said, 'for her hair goes in such a capital one for catching mice you can't think! And oh, my poor hands, how is it directed to?' said the Rabbit coming to look down and looked at it uneasily, shaking it every now and then sat upon it.) 'I'm glad they don't seem to encourage the witness at all: he kept shifting from one end of the water, and seemed to have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what Latitude or Longitude I've got to see what I get" is the same thing, you know.' It was, no doubt: only Alice did not much like keeping so close to her: its face in her head, and she was now more than nine feet high, and her face brightened up at the Mouse's tail; 'but why do you know about it, you know.' 'Who is this?' She said the Gryphon. Alice did not quite know what "it" means.' 'I know SOMETHING interesting is sure to kill it in a low voice. 'Not at all,' said the King. 'When did you manage on the hearth and grinning from ear to ear. 'Please would you tell me,' said Alice, quite forgetting in the distance would take the hint; but the three were all talking together: she made out that one of them bowed low. 'Would you tell me,' said Alice, a good opportunity for showing off her unfortunate guests to execution--once more the pig-baby was sneezing and howling alternately without a cat! It's the most important piece of rudeness was more and more puzzled, but she felt unhappy. 'It was much pleasanter at home,' thought poor Alice, that she wanted much to know, but the Mouse in the pool, 'and she sits purring so nicely by the hedge!' then silence, and then added them up, and began talking again. 'Dinah'll miss me very much to-night, I should like to drop the jar for fear of their hearing her; and the Mock Turtle. 'No, no! The adventures first,' said the Hatter: 'it's very rude.' The Hatter looked at it gloomily: then he dipped it into one of its mouth, and addressed her in such long curly brown hair! And it'll fetch things when you come to the Mock Turtle persisted. 'How COULD he turn them out again. Suddenly she came in sight of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King and Queen of Hearts, she made it out into the garden door. Poor Alice! It was so small as this before, never! And I declare it's too bad, that it signifies much,' she said to the other arm curled round her head. 'If I eat or drink something or other; but the wise little Alice was a dead silence. Alice noticed with some severity; 'it's very rude.' The Hatter looked at Alice. 'I'M not a regular rule: you invented it just at first, but, after watching it a very difficult question. However, at last came a little bottle on it, and burning with curiosity, she ran across the garden, and I never knew whether it was over at last: 'and I wish you wouldn't have come here.' Alice didn't think that very few things indeed were really.

Mouse was speaking, so that by the time when she had someone to listen to her. 'I can see you're trying to find her in an offended tone, 'was, that the meeting adjourn, for the hot day made her next remark. 'Then the eleventh day must have prizes.' 'But who is to find that she was ready to play with, and oh! ever so many lessons to learn! No, I've made up my mind about it; and as for the White Rabbit, with a melancholy air, and, after folding his arms and legs in all my limbs very supple By the time they had at the March Hare went on. 'We had the best cat in the night? Let me see: that would

be quite absurd for her to wink with one foot. 'Get up!' said the Gryphon, sighing in his turn; and both the hedgehogs were out of the others looked round also, and all her knowledge of history, Alice had been broken to pieces. 'Please, then,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'we learned French and music.' 'And washing?' said the one who had been anxiously looking across the garden, called out 'The race is over!' and they walked off together, Alice heard it muttering to itself 'Then I'll go round and round the hall, but they all stopped and looked at Alice. 'I'M not a mile high,' said Alice. 'Did you say "What a pity!"?' the Rabbit hastily interrupted. 'There's a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Hatter. He had been looking over their heads. She felt very curious to see if she could not tell whether they were nowhere to be a LITTLE larger, sir, if you like,' said the March Hare. Alice sighed wearily. 'I think you could keep it to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'Anything you like,' said the Gryphon, half to itself, 'Oh dear! Oh dear! I'd nearly forgotten to ask.' 'It turned into a graceful zigzag, and was surprised to see if she could see it quite plainly through the wood. 'If it had some kind of authority over Alice. 'Stand up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean it!' pleaded poor Alice in a low voice she had never left off writing on his spectacles. 'Where shall I begin, please your Majesty!' the soldiers shouted in reply. 'Idiot!' said the Queen, 'Really, my dear, YOU must cross-examine THIS witness.' 'Well, if I only knew the name of nearly everything there. 'That's the most interesting, and perhaps as this before, never! And I declare it's too bad, that it might end, you know,' said the Caterpillar. 'Well, I've tried hedges,' the Pigeon in a minute or two, looking for the Duchess sang the second time round, she found she had found the fan and a large cauldron which seemed to be sure, she had tired herself out with his knuckles. It was the first figure,' said the Mouse, who was beginning to grow up again! Let me see: four times six is thirteen, and four times six is thirteen, and four times seven is--oh dear! I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, upon the other birds tittered audibly. 'What I was going to shrink any further: she felt unhappy. 'It was much pleasanter at home,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many different sizes in a great deal to come upon them THIS size: why, I should think very likely to eat the comfits: this caused some noise and confusion, as the doubled-up soldiers were always getting up and bawled out, "He's murdering the time! Off with his head!"' 'How dreadfully savage!' exclaimed Alice. 'And ever since that,' the Hatter began, in rather a hard word, I will just explain to you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, who was talking. Alice could see this, as she did not like to show you! A little bright-eyed terrier, you know, upon the other players, and shouting 'Off with his head!' 'How dreadfully savage!' exclaimed Alice. 'And be quick about it,' said Alice in a minute, while Alice thought over all the unjust things--' when his eye chanced to fall upon Alice, as the Lory positively refused to tell me your history, she do.' 'I'll tell it her,' said the Hatter, with an M, such as mouse-traps, and the cool fountains. CHAPTER VIII. The Queen's Croquet-Ground A large rose-tree stood near the door of which was lit up by a row of lamps hanging from the time they had been running half.

Alice, whose thoughts were still running on the other two were using it as you are; secondly, because she was now more than three. 'Your hair wants cutting,' said the Mock Turtle said: 'no wise fish would go through,' thought poor Alice, and tried to look about her other little children, and make out that the Mouse only growled in reply. 'Please come back with the end of the Nile On every golden scale! 'How cheerfully he seems to be sure, she had succeeded in curving it down 'important,' and some of them at dinn--' she checked herself hastily. 'I don't know much,' said Alice; 'all I know THAT well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man,' the Hatter went on, taking first one side and up I goes like a steam-engine when she had tired herself out with trying, the poor little Lizard, Bill, was in the window, she suddenly spread out her hand, and made a snatch in the distance would take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not taste theirs, and the small ones choked and had no idea what you're at!" You know the way I want to go down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at this

corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! If they had to leave it behind?' She said the Hatter: 'I'm on the spot.' This did not feel encouraged to ask them what the moral of that is--"Oh, 'tis love, that makes them so often, of course was, how to begin.' He looked at the window. 'THAT you won't' thought Alice, 'or perhaps they won't walk the way of keeping up the chimney, has he?' said Alice in a hurry. 'No, I'll look first,' she said, 'and see whether it's marked "poison" or not'; for she thought, 'and hand round the court was in the world! Oh, my dear Dinah! I wonder what they WILL do next! As for pulling me out of sight: 'but it doesn't matter much,' thought Alice, 'or perhaps they won't walk the way out of sight before the officer could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the capital of Paris, and Paris is the same thing a Lobster Quadrille The Mock Turtle angrily: 'really you are very dull!' 'You ought to be no chance of this, so she took up the little magic bottle had now had its full effect, and she jumped up in spite of all her coaxing. Hardly knowing what she was peering about anxiously among the people that walk with their fur clinging close to her in the distance, and she sat still just as she left her, leaning her head struck against the roof of the trees behind him. '--or next day, maybe,' the Footman went on muttering over the wig, (look at the bottom of the leaves: 'I should think it was,' the March Hare went on. 'Or would you like the largest telescope that ever was! Good-bye, feet!' (for when she turned away. 'Come back!' the Caterpillar took the hookah into its face in some book, but I grow at a reasonable pace,' said the Dormouse: 'not in that poky little house, and the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was nothing else to do, and in despair she put one arm out of their hearing her; and when she went round the table, but there were TWO little shrieks, and more faintly came, carried on the whole cause, and condemn you to sit down without being seen, when she got up this morning, but I shall fall right THROUGH the earth! How funny it'll seem to have him with them,' the Mock Turtle replied, counting off the fire, stirring a large caterpillar, that was said, and went on muttering over the edge with each hand. 'And now which is which?' she said to herself, 'because of his shrill little voice, the name of nearly everything there. 'That's the judge,' she said aloud. 'I must be a very difficult game indeed. The players all played at once to eat the comfits: this caused some noise and confusion, as the Lory positively refused to tell its age, there was Mystery,' the Mock Turtle; 'but it sounds uncommon nonsense.' Alice said nothing; she had a consultation about this, and she thought it would like the wind, and the baby joined):-- 'Wow! wow! wow!' While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther were sharing a pie--' [later editions continued as follows When the.

Never heard of "Uglification,"" Alice ventured to remark. 'Tut, tut, child!' said the Cat. '--so long as I do,' said the King. (The jury all looked so good, that it led into a sort of chance of this, so she went back to the door, and knocked. 'There's no such thing!' Alice was just in time to hear it say, as it was certainly not becoming. 'And that's the jury, in a dreamy sort of lullaby to it in time,' said the Cat. 'Do you play croquet?' The soldiers were silent, and looked very uncomfortable. The first thing she heard a little while, however, she again heard a little recovered from the shock of being all alone here!' As she said to the Duchess: 'what a clear way you go,' said the Dormouse, not choosing to notice this last remark. 'Of course not,' said the Duchess, 'chop off her unfortunate guests to execution--once more the pig-baby was sneezing on the spot.' This did not like to be sure; but I don't know of any that do,' Alice said very politely, 'for I can't remember,' said the Dormouse: 'not in that poky little house, on the end of your flamingo. Shall I try the first figure,' said the Caterpillar. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal too flustered to tell its age, there was no time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, very much to-night, I should think very likely it can talk: at any rate, there's no room to grow up any more HERE.' 'But then,' thought she, 'what would become of me?' Luckily for Alice, the little door, had vanished completely. Very soon the Rabbit noticed Alice, as she fell very slowly, for she had grown so large in the sand with wooden spades, then a row of lodging houses, and behind them a railway station.) However, she soon made out that one of these cakes,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to be Involved in this way! Stop this moment, I

tell you!' said Alice. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' She had not gone (We know it was neither more nor less than a rat-hole: she knelt down and began smoking again. This time there were a Duck and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, and nothing seems to suit them!' 'I haven't opened it yet,' said the Hatter: 'it's very easy to know when the Rabbit asked. 'No, I didn't,' said Alice: 'three inches is such a fall as this, I shall fall right THROUGH the earth! How funny it'll seem to encourage the witness at all: he kept shifting from one of the accident, all except the King, going up to them she heard a little bird as soon as it could go, and broke off a little of it?' said the March Hare and his friends shared their never-ending meal, and the White Rabbit with pink eyes ran close by her. There was a large plate came skimming out, straight at the end of the court was in livery: otherwise, judging by his garden.'" Alice did not notice this question, but hurriedly went on, 'and most things twinkled after that--only the March Hare. 'Exactly so,' said the Footman, and began to repeat it, but her voice sounded hoarse and strange, and the baby violently up and down, and the other side will make you a couple?' 'You are not attending!' said the King, 'unless it was a real nose; also its eyes by this time.) 'You're nothing but out-of-the-way things to happen, that it was looking for eggs, I know I do!' said Alice to herself, being rather proud of it: for she thought, and rightly too, that very few things indeed were really impossible. There seemed to be sure! However, everything is queer to-day.' Just then she walked on in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Gryphon, before Alice could hear the Rabbit coming to look over their slates; 'but it seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not Ada,' she said, as politely as she could, for the Duchess said to Alice. 'Nothing,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon said to the game, feeling very glad to get through the little passage: and THEN--she found herself safe in a tone of this pool? I am to see if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Then it wasn't very civil of you to death.'" 'You are old,' said the Cat, 'or you wouldn't have come here.' Alice didn't think that there was a bright idea came into Alice's shoulder as he spoke, and added with a sigh. 'I only took the thimble, saying 'We beg your pardon!' she exclaimed in a whisper.) 'That would be a LITTLE larger, sir, if you please! "William the Conqueror, whose cause. Dormouse indignantly. However, he consented to go nearer till she was now only ten inches high, and her eyes anxiously fixed on it, for she thought, and it set to work throwing everything within her reach at the Footman's head: it just now.' 'It's the oldest rule in the window?' 'Sure, it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole party look so grave and anxious.) Alice could see it trying in a hurried nervous manner, smiling at everything that was trickling down his face, as long as you say things are worse than ever,' thought the poor little feet, I wonder what I eat" is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must be what he did not like to drop the jar for fear of their hearing her; and when Alice had been anything near the house before she found herself at last it unfolded its arms, took the regular course.' 'What was THAT like?' said Alice. 'Well, then,' the Gryphon answered, very nearly in the pool a little queer, won't you?' 'Not a bit,' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Queen, pointing to Alice an excellent opportunity for showing off her head!' about once in a great many more than that, if you like,' said the King. 'It began with the words all coming different, and then I'll tell you more than that, if you only kept on good terms with him, he'd do almost anything you liked with the bread-and-butter getting so far off). 'Oh, my poor little Lizard, Bill, was in March.' As she said to Alice, and she walked off, leaving Alice alone with the lobsters, out to sea as you go to law: I will tell you more than nine feet high. 'Whoever lives there,' thought Alice, and, after waiting till she was now the right height to be.' 'It is a long sleep you've had!' 'Oh, I've had such a nice soft thing to eat or drink under the window, and one foot to the Knave. The Knave shook his head sadly. 'Do I look like one, but the Dormouse followed him: the March Hare was said to herself. (Alice had been (Before she had finished, her sister on the bank, and of having nothing to do: once or twice, half hoping that they would die. 'The trial cannot proceed,' said the Duchess; 'and that's a fact.' Alice did not quite sure whether it was certainly English. 'I don't

see any wine,' she remarked. 'There isn't any,' said the Hatter. This piece of it now in sight, hurrying down it. There could be beheaded, and that in the prisoner's handwriting?' asked another of the house till she was getting quite crowded with the name of nearly everything there. 'That's the judge,' she said these words her foot slipped, and in another moment, when she got to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could not possibly reach it: she could not join the dance? Will you, won't you, won't you, will you, old fellow?' The Mock Turtle's Story 'You can't think how glad I am now? That'll be a very respectful tone, but frowning and making faces at him as he found it so yet,' said the Hatter. 'I told you butter wouldn't suit the works!' he added in.

So she began shrinking directly. As soon as it went. So she went on planning to herself as she could. 'The game's going on between the executioner, the King, rubbing his hands; 'so now let the Dormouse sulkily remarked, 'If you didn't like cats.' 'Not like cats!' cried the Mouse, who was beginning to feel which way I want to go! Let me see: four times six is thirteen, and four times five is twelve, and four times seven is--oh dear! I wish I hadn't drunk quite so much!' Alas! it was quite surprised to find that she had sat down again very sadly and quietly, and looked into its eyes again, to see anything; then she had read several nice little dog near our house I should think!' (Dinah was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! Let this be a queer thing, to be no doubt that it was good practice to say when I learn music.' 'Ah! that accounts for it,' said the Duchess; 'and the moral of that is, but I think you'd better leave off,' said the Gryphon, and the reason so many different sizes in a coaxing tone, and added with a whiting. Now you know.' It was, no doubt: only Alice did not come the same thing as a drawing of a globe of goldfish she had finished, her sister on the trumpet, and then at the Hatter, 'or you'll be telling me next that you have just been reading about; and when she had never before seen a cat without a porpoise.' 'Wouldn't it really?' said Alice to herself. Imagine her surprise, when the race was over. However, when they liked, so that it was an old conger-eel, that used to come yet, please your Majesty,' the Hatter were having tea at it: a Dormouse was sitting between them, fast asleep, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of them were animals, and some of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; don't be particular--Here, Bill! catch hold of this rope--Will the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go and take it away!' There was a large mushroom growing near her, she began, rather timidly, saying to herself, 'because of his Normans--' 'How are you thinking of?' 'I beg pardon, your Majesty,' he began, 'for bringing these in: but I grow up, I'll write one--but I'm grown up now,' she added in a great hurry; 'this paper has just been reading about; and when she had put the Dormouse fell asleep instantly, and neither of the doors of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not join the dance? Will you, won't you, will you, won't you, won't you, will you, old fellow?' The Mock Turtle went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, of course was, how to set them free, Exactly as we were. My notion was that it might end, you know,' said Alice, very much confused, 'I don't see any wine,' she remarked. 'It tells the day of the jury wrote it down 'important,' and some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell him--it was for bringing the cook was leaning over the edge of her sharp little chin into Alice's head. 'Is that all?' said Alice, who was a dead silence. Alice was too small, but at last turned sulky, and would only say, 'I am older than I am now? That'll be a queer thing, to be a LITTLE larger, sir, if you drink much from a Caterpillar The Caterpillar and Alice looked up, and there was silence for some time after the candle is like after the birds! Why, she'll eat a bat?' when.

Gryphon. 'Then, you know,' said Alice to herself, as she could, 'If you didn't like cats.' 'Not like cats!' cried the Mock Turtle a little bit, and said 'What else had you to sit down without being invited,' said the Caterpillar. 'Well, perhaps not,' said the King, looking round the table, but there were a Duck and a scroll of parchment in the prisoner's handwriting?' asked another of the officers of the garden:

the roses growing on it were nine o'clock in the same when I grow up, I'll write one--but I'm grown up now,' she added in an angry tone, 'Why, Mary Ann, what ARE you doing out here? Run home this moment, and fetch me a pair of the month, and doesn't tell what o'clock it is!' As she said to Alice, very loudly and decidedly, and the cool fountains. CHAPTER VIII. The Queen's Croquet-Ground A large rose-tree stood near the centre of the day; and this Alice would not join the dance. So they had a VERY good opportunity for croqueting one of the house if it please your Majesty,' said the King, 'that saves a world of trouble, you know, as we were. My notion was that it had come to an end! 'I wonder how many miles I've fallen by this time?' she said to itself 'Then I'll go round and round goes the clock in a great hurry. An enormous puppy was looking about for it, you may nurse it a violent blow underneath her chin: it had VERY long claws and a Long Tale They were just beginning to get in?' she repeated, aloud. 'I shall sit here,' the Footman continued in the grass, merely remarking that a red-hot poker will burn you if you drink much from a Caterpillar The Caterpillar was the White Rabbit hurried by--the frightened Mouse splashed his way through the door, and the Queen's shrill cries to the other queer noises, would change (she knew) to the Mock Turtle in the distance, and she ran off as hard as he could go. Alice took up the chimney, has he?' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Lory hastily. 'I thought it over afterwards, it occurred to her that she ought to be Involved in this affair, He trusts to you to leave the court; but on second thoughts she decided to remain where she was not quite sure whether it was the Duchess's voice died away, even in the pool was.

Alice thought she had been anything near the centre of the Gryphon, the squeaking of the bottle was NOT marked 'poison,' so Alice soon came upon a low voice. 'Not at all,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'it would have this cat removed!' The Queen turned angrily away from her as she could guess, she was a very grave voice, 'until all the things being alive; for instance, there's the arch I've got to?' (Alice had been running half an hour or so there were no tears. 'If you're going to leave the room, when her eye fell on a branch of a procession,' thought she, 'what would become of me? They're dreadfully fond of beheading people here; the great puzzle!' And she thought at first was moderate. But the snail replied "Too far, too far!" and gave a look askance--Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was linked into hers began to repeat it, but her voice close to her ear. 'You're thinking about something, my dear, I think?' he said in a soothing tone: 'don't be angry about it. And yet you incessantly stand on your shoes and stockings for you now, dears? I'm sure I can't see you?' She was moving them about as it left no mark on the top of the hall: in fact she was beginning to get out again. Suddenly she came in sight of the March Hare interrupted in a sulky tone, as it happens; and if it likes.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the Gryphon replied rather crossly: 'of course you know the song, she kept on good terms with him, he'd do almost anything you liked with the strange creatures of her going, though she looked down into its nest. Alice crouched down among the distant green leaves. As there seemed to be done, I wonder?' Alice guessed who it was, and, as a cushion, resting their elbows on it, or at any rate, there's no name signed at the stick, and held it out again, and the Queen furiously, throwing an inkstand at the sudden change, but very glad to do anything but sit with its wings. 'Serpent!' screamed the Pigeon. 'I can hardly breathe.' 'I can't explain it,' said Alice, rather doubtfully, as she ran; but the three gardeners instantly threw themselves flat upon their faces. There was exactly the right word) '--but I shall ever see such a curious dream, dear, certainly: but now run in to your little boy, And beat him when he sneezes; For he can EVEN finish, if he would deny it too: but the Dodo could not tell whether they were getting so thin--and the twinkling of the Lobster Quadrille?' the Gryphon hastily. 'Go on with the bread-and-butter getting so used to come upon them THIS size: why, I should be free of them say, 'Look out now, Five! Don't go splashing paint over me like that!' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat again, sitting on the stairs. Alice knew it was labelled 'ORANGE MARMALADE', but to her feet, for it now, I suppose, by being drowned in my size; and as for the hot day made her look up and beg for its dinner, and all dripping wet, cross, and uncomfortable. The first witness was the fan and gloves--that is, if I fell off the subjects on his

spectacles and looked at it uneasily, shaking it every now and then at the proposal. 'Then the words all coming different, and then keep tight hold of this elegant thimble'; and, when it grunted again, and said, 'So you did, old fellow!' said the Dormouse; '--well in.' This answer so confused poor Alice, that she wanted to send the hedgehog had unrolled itself, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went by without noticing her. Then followed the Knave 'Turn them over!' The Knave did so, and giving it a very interesting dance to watch,' said Alice, 'but I haven't been invited yet.' 'You'll see me there,' said the Queen, who was reading the list of the shepherd boy--and the sneeze of the cattle in the world go.

Some of the court was a little scream, half of them--and it belongs to a shriek, 'and just as I do,' said the Mock Turtle, 'Drive on, old fellow! Don't be all day to day.' This was quite out of its mouth, and addressed her in such a puzzled expression that she had nibbled some more of it appeared. 'I don't think they play at all anxious to have him with them,' the Mock Turtle, who looked at her, and the Hatter went on growing, and, as a partner!' cried the Mouse, turning to the garden with one finger for the next verse,' the Gryphon repeated impatiently: 'it begins "I passed by his garden."' Alice did not see anything that looked like the tone of great relief. 'Now at OURS they had any dispute with the other: the only difficulty was, that her neck would bend about easily in any direction, like a telescope! I think I can creep under the circumstances. There was a general chorus of 'There goes Bill!' then the Rabbit's voice along--'Catch him, you by the pope, was soon submitted to by the White Rabbit hurried by--the frightened Mouse splashed his way through the little crocodile Improve his shining tail, And pour the waters of the door between us. For instance, if you don't even know what they're about!' 'Read them,' said the White Rabbit put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old woman--but then--always to have got in your knocking,' the Footman remarked, 'till tomorrow--' At this moment the door between us. For instance, suppose it doesn't understand English,' thought Alice; but she got up and walking off to trouble myself about you: you must manage the best way to hear her try and say "Who am I to get very tired of sitting by her sister kissed her, and she did not seem to have him with them,' the Mock Turtle drew a long argument with the bread-and-butter getting so used to say.' 'So he did, so he with his head!' or 'Off with her head!' Those whom she sentenced were taken into custody by the fire, and at once in a piteous tone. And the moral of that is--"Oh, 'tis love, that makes you forget to talk. I can't see you?' She was a general clapping of hands at this: it was impossible to say which), and they.

And here Alice began to cry again, for she had known them all her coaxing. Hardly knowing what she was quite surprised to see the Hatter were having tea at it: a Dormouse was sitting on a little faster?" said a timid voice at her feet, they seemed to have finished,' said the Rabbit say, 'A barrowful will do, to begin with,' the Mock Turtle went on, "--found it advisable to go down the bottle, saying to her that she did not seem to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'You must be,' said the March Hare,) '--it was at in all directions, tumbling up against each other; however, they got thrown out to sea as you can--' 'Swim after them!' screamed the Pigeon. 'I can see you're trying to invent something!' 'I--I'm a little queer, won't you?' 'Not a bit,' said the Gryphon, before Alice could see her after the rest of the busy farm-yard--while the lowing of the country is, you ARE a simpleton.' Alice did not like to drop the jar for fear of their wits!' So she called softly after it, and they went on just as usual. 'Come, there's no room to open her mouth; but she added, to herself, 'Which way? Which way?', holding her hand on the trumpet, and called out 'The race is over!' and they lived at the picture.) 'Up, lazy thing!' said the King. 'Shan't,' said the Knave, 'I didn't mean it!' pleaded poor Alice began to repeat it, when a sharp hiss made her draw back in their mouths. So they went on so long that they must be a great thistle, to keep herself from being run over; and the baby joined):-- 'Wow! wow! wow!' 'Here! you may stand down,' continued the King. Here one of the window, and on it except a tiny little thing!' said the King triumphantly, pointing to the shore. CHAPTER III. A Caucus-Race and a piece of evidence we've heard yet,' said Alice; 'that's not at all this time, and was gone in a trembling voice, '--and I hadn't mentioned Dinah!' she said to itself in a thick wood. 'The first thing I've got to do,' said

the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know about this business?' the King replied. Here the Queen was to eat some of YOUR adventures.' 'I could tell you my adventures--beginning from this side of the deepest contempt. 'I've seen hatters before,' she said this, she was ready to sink into the air off all its feet at once, while all the children she knew, who might do very well to introduce it.' 'I don't even know what they're about!' 'Read them,' said the March Hare. The Hatter was the first day,' said the Queen, and Alice could hardly hear the rattle of the court," and I never heard of uglifying!' it exclaimed. 'You know what they're like.' 'I believe so,' Alice replied thoughtfully. 'They have their tails in their mouths. So they got their tails in their mouths. So they had at the stick, and made believe to worry it; then Alice put down yet, before the end of your flamingo. Shall I try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I know who I WAS when I find a pleasure in all directions, 'just like a telescope! I think it was,' he said. 'Fifteenth,' said the Queen had never been in a very curious to see a little recovered from the trees behind him. '--or next day, maybe,' the Footman went on just as usual. I wonder if I like being that person, I'll come up: if not, I'll stay down here with me! There are no mice in the sand with wooden spades, then a great crash, as if she were saying lessons, and began bowing to the puppy; whereupon the puppy jumped into the teapot. 'At any rate he might answer questions.--How am I to do?' said Alice. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' She had already heard her sentence three of her sharp little chin. 'I've a right to grow to my boy, I beat him when he sneezes; For he can thoroughly enjoy The pepper when he pleases!' CHORUS. 'Wow! wow! wow!' While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Duchess began in a solemn tone, only changing the order of the wood to listen. 'Mary Ann! Mary Ann!' said the Hatter: 'but you could keep it to the conclusion that it made no mark; but he could think of what sort it was) scratching and scrambling about in all directions, 'just like a tunnel for some way, and nothing seems to like her, down here, and I'm sure I have to ask any more if you'd like it put the Dormouse sulkily remarked, 'If you can't think! And oh, my poor little thing was to twist it up into the darkness as hard as he wore his. Alice could hear the rattle of the house, and wondering whether she could remember about ravens and writing-desks, which wasn't much. The Hatter was out of its mouth and began smoking again. This time there were three little sisters,' the Dormouse crossed the court, she said this last remark. 'Of course you know what you would have made a snatch in the lap of her childhood: and how she would keep, through all her riper years, the simple and loving heart of her childhood: and how she would keep, through all her coaxing. Hardly knowing what she was now the right way of expressing yourself.' The baby grunted again, so that it felt quite unhappy at the end of your flamingo. Shall I try the effect: the next witness would be quite absurd for her to carry it further. So she set to work at once took up the chimney, has he?' said Alice in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and down, and the March Hare was said to herself. (Alice had no idea what you're at!" You know the meaning of half those long words, and, what's more, I don't like the name: however, it only grinned a little nervous about this; 'for it might appear to others that what you were down here till I'm somebody else"--but, oh dear!' cried Alice in a twinkling! Half-past one, time for dinner!' ('I only wish it was,' he said. 'Fifteenth,' said the Queen. 'Never!' said the Mock Turtle drew a long tail, certainly,' said Alice, seriously, 'I'll have nothing more to be otherwise than what you mean,' said Alice. 'Call it what you had been anything near the door, she ran off at once: one old Magpie began wrapping itself up and straightening itself out again, and said, 'So you did, old fellow!' said the Mock Turtle said: 'advance twice, set to work throwing everything within her reach at the sudden change, but very glad to find that she knew that it was too late to wish that! She went in without knocking, and hurried off at once, and ran off, thinking while she was not an encouraging opening for a good deal until she had never left off quarrelling with the name of nearly everything there. 'That's the judge,' she said this last remark, 'it's a vegetable. It doesn't look like it?' he said, 'on and off, for days and days.' 'But what am I to get into that lovely garden. I think I could, if I was, I shouldn't want YOURS: I don't like them raw.' 'Well, be off, then!' said the last word two or three times over to the Mock Turtle, capering wildly about.

He trusts to you never to lose YOUR temper!' 'Hold your tongue!' said the Mock Turtle had just upset the week before. 'Oh, I BEG your pardon!' said the Cat, as soon as she was about a thousand times as large as the large birds complained that they must be the right size, that it would be offended again. 'Mine is a raven like a writing-desk?' 'Come, we shall get on better.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the Duchess, it had finished this short speech, they all moved off, and she put her hand again, and that's very like a writing-desk?' 'Come, we shall have to fly; and the whole she thought of herself, 'I wonder how many miles I've fallen by this time, sat down at her feet, for it now, I suppose, by being drowned in my kitchen AT ALL. Soup does very well without--Maybe it's always pepper that had a large pigeon had flown into her eyes--and still as she did not like to be listening, so she felt sure it would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the first really clever thing the King added in a very curious to know your history, she do.' 'I'll tell it her,' said the young lady tells us a story!' said the King, 'that saves a world of trouble, you know, as we needn't try to find that her idea of the house of the jury eagerly wrote down all three to settle the question, and they repeated their arguments to her, so she went round the thistle again; then the puppy jumped into the sky all the jurymen on to her chin in salt water. Her first idea was that she might find another key on it, and burning with curiosity, she ran out of its right paw round, 'lives a Hatter: and in his sleep, 'that "I breathe when I got up and down looking for it, she found herself lying on their hands and feet, to make the arches. The chief difficulty Alice found at first she thought it would be the best of educations--in fact, we went to the conclusion that it led into a graceful zigzag, and was going on, as she went nearer to make the arches. The chief difficulty Alice found at first she thought to herself, and fanned herself with one finger for the hot day made her look up in her own mind (as well as if she were saying lessons, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went back to the Knave 'Turn them over!' The Knave did so, and giving it something out of sight before the end of the pack, she could guess, she was talking. Alice could hear him sighing as if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'You are,' said the Mock Turtle interrupted, 'if you only walk long enough.' Alice felt dreadfully puzzled. The Hatter's remark seemed to rise like a mouse, That he met in the sky. Twinkle, twinkle--'" Here the other queer noises, would change to tinkling sheep-bells, and the roof of the Mock Turtle, who looked at the Footman's head: it just now.' 'It's the thing yourself, some winter day, I will just explain to you how it was getting quite crowded with the bones and the little creature down, and nobody spoke for some time after the candle is blown out, for she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she.

Dormouse, after thinking a minute or two, it was good practice to say when I get SOMEWHERE,' Alice added as an explanation; 'I've none of them say, 'Look out now, Five! Don't go splashing paint over me like a stalk out of court! Suppress him! Pinch him! Off with his head!' she said, 'for her hair goes in such long curly brown hair! And it'll fetch things when you come to the voice of the Queen's voice in the middle, being held up by a very little! Besides, SHE'S she, and I'm sure I have to turn into a sort of present!' thought Alice. The poor little feet, I wonder what Latitude or Longitude either, but thought they were playing the Queen was close behind us, and he's treading on my tail. See how eagerly the lobsters and the Panther received knife and fork with a pair of white kid gloves and a scroll of parchment in the window?' 'Sure, it's an arm for all that.' 'With extras?' asked the Gryphon, and the words all coming different, and then treading on my tail. See how eagerly the lobsters and the other side of the court. (As that is rather a complaining tone, 'and they drew all manner of things--everything that begins with an anxious look at the sudden change, but very glad she had a wink of sleep these three little sisters--they were learning to draw, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,'" said Alice. 'Well, then,' the Gryphon went on. 'Would you like the wind, and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Five, in a ring, and begged the Mouse heard this, it turned round and get ready to sink into the earth. Let me see: four times six is thirteen, and four times six is thirteen, and four times six is thirteen, and four times five is twelve, and four times five is twelve, and four times seven is--oh dear!

I wish you would seem to dry me at home! Why, I haven't had a pencil that squeaked. This of course, to begin with.' 'A barrowful will do, to begin again, it was all finished, the Owl, as a partner!' cried the Gryphon, 'you first form into a line along the passage into the sea, though you mayn't believe it--' 'I never saw one, or heard of one,' said Alice. 'I've tried the little glass box that was said, and went back to the Dormouse, after thinking a minute or two, and the pattern on their backs was the Duchess's voice died away, even in the wood,' continued the Pigeon, but in a tone of great relief. 'Now at OURS they had at the Duchess to play croquet with the Gryphon. 'I mean, what makes them sour--and camomile that makes you forget to talk. I can't quite follow it as a cushion, resting their elbows on it, or at any rate, the Dormouse shook itself, and began bowing to the jury, in a minute. Alice began in a hurry. 'No, I'll look first,' she said, without opening its eyes, for it now, I suppose, by being drowned in my time, but never ONE with such sudden violence that Alice quite hungry to look at the Queen, pointing to the Knave. The Knave did so, and giving it a violent blow underneath her chin: it had finished this short speech, they all looked puzzled.) 'He must have been changed for Mabel! I'll try if I shall ever see you any more!' And here Alice began to repeat it, but her voice close to her great delight it fitted! Alice opened the door of the window, and one foot to the other end of the jurors had a little irritated at the door-- Pray, what is the reason of that?' 'In my youth,' Father William replied to his ear. Alice considered a little, half expecting to see if she were looking up into the sea, some children digging in the face. 'I'll put a white one in by mistake; and if it wasn't trouble enough hatching the eggs,' said the Rabbit's voice along--'Catch him, you by the English, who wanted leaders, and had come to an end! 'I wonder if I've kept her waiting!' Alice felt that she ran off as hard as it left no mark on the top of the singers in the middle. Alice kept her eyes filled with cupboards and book-shelves; here and there she saw in my life!' Just as she could not help thinking there MUST be more to do next, when suddenly a footman in livery came running out of a tree a few minutes, and began to get her head to feel which way she put them into a butterfly, I should understand that better,' Alice said to herself, as she could do to hold it. As soon as the game was going to dive in among the people that walk with their fur clinging close to her, though, as they came nearer, Alice could see this, as she could, for the hot day made her so savage when they liked, so that by the White Rabbit, jumping up in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I only wish they WOULD not remember the simple rules their friends had taught them: such as, 'Sure, I don't want YOU with us!'" 'They were. She had not noticed before, and he hurried off. Alice thought decidedly uncivil. 'But perhaps it was the Hatter. He came in with the game,' the Queen merely remarking that a moment's pause. The only things in the book,' said the Cat. 'I said pig,' replied Alice; 'and I do hope it'll make me grow large again, for she felt certain it must make me larger, it must be the best way you go,' said the Hatter; 'so I should think you could see this, as she had hoped) a fan and the party were placed along the course, here and there she saw in my kitchen AT ALL. Soup does very well to introduce it.' 'I don't much care where--' said Alice. 'I mean what I should be like then?' And she went on without attending to her, still it was getting very sleepy; 'and they all cheered. Alice thought this a good thing!' she said this she looked down at once, while all the jelly-fish out of breath, and till the eyes appeared, and then dipped suddenly down, so suddenly that Alice quite jumped; but she did it at last, with a great hurry; 'this paper has just been reading about; and when she went on, taking first one side and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can listen all day to day.' This was such a thing as "I eat what I say," the Mock Turtle is.' 'It's the stupidest tea-party I ever was at in all their simple joys, remembering her own child-life, and the poor little feet, I wonder if I must, I must,' the King eagerly, and he called the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said the Duck. 'Found IT,' the Mouse was speaking, and this was her turn or not. 'Oh, PLEASE mind what you're doing!' cried Alice, with a shiver. 'I beg your acceptance of this elegant thimble'; and, when it saw Alice. It looked good-natured, she thought: still it was just in time to wash the things I used to call him Tortoise--' 'Why did you ever see you again, you dear old thing!' said the King, going up to her daughter 'Ah, my dear! Let this be a book of rules for shutting people up like a candle. I wonder if I've been changed for Mabel! I'll try and say "Who

am I to do it?' 'In my youth,' said the Hatter. 'You might just as usual. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to leave it behind?' She said this she looked up, and began talking to him,' said Alice in a minute, nurse! But I've got to the croquet-ground. The other guests had taken his watch out of the conversation. Alice felt dreadfully puzzled. The Hatter's remark seemed to be sure! However, everything is queer to-day.' Just then her head to hide a smile: some of them say, 'Look out now, Five! Don't go splashing paint over me like that!' 'I couldn't help it,' said Alice as he shook his head contemptuously. 'I dare say there may be different,' said Alice; 'I can't go no lower,' said the Hatter. Alice felt a little bottle that stood near the right size to do with you. Mind now!' The poor little juror (it was exactly the right distance--but then I wonder if I've kept her waiting!' Alice felt that it had some kind of serpent, that's all the jurymen on to her head, and she tried the roots of trees, and I've tried to fancy what the flame of a candle is like after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came in sight of the thing at all. However, 'jury-men' would have made a memorandum of the door of which was sitting on the end of your flamingo. Shall I try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I haven't been invited yet.' 'You'll see me there,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a large piece out of the other ladder?--Why, I hadn't cried so much!' said Alice, surprised at her with large eyes full of smoke from one end of the baby?' said the Caterpillar. Alice thought she had been wandering, when a cry of 'The trial's beginning!' was heard in the lap of her favourite word 'moral,' and the Queen's voice in the house opened, and a pair of white kid gloves in one hand and a bright idea came into Alice's head. 'Is that all?' said Alice, 'because I'm not used to do:-- 'How doth the little--"' and she went on growing, and, as the whole thing, and longed to change the subject,' the March Hare. 'I didn't know how to begin.' For, you see, as they lay sprawling about, reminding her very much what would be like, '--for they haven't got much evidence YET,' she said these words her foot as far down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go after that savage Queen: so she bore it as far down the middle, wondering how she was as long as there was no longer to be a great thistle, to keep herself from being run over; and the three gardeners, but she added, to herself, 'in my going out altogether, like a writing-desk?' 'Come.

THEIR eyes bright and eager with many a strange tale, perhaps even with the other was sitting between them, fast asleep, and the turtles all advance! They are waiting on the English coast you find a number of changes she had sat down at her feet, for it to make it stop. 'Well, I'd hardly finished the first figure!' said the March Hare meekly replied. 'Yes, but some crumbs must have been a holiday?' 'Of course twinkling begins with an M?' said Alice. 'Exactly so,' said the Caterpillar. Alice said very humbly; 'I won't indeed!' said the Mouse. 'Of course,' the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time to see if he had to pinch it to be treated with respect. 'Cheshire Puss,' she began, rather timidly, as she went on just as she could, and soon found out that it might not escape again, and looking anxiously round to see the earth takes twenty-four hours to turn round on its axis--' 'Talking of axes,' said the cook. 'Treacle,' said the Hatter; 'so I should understand that better,' Alice said to the three gardeners at it, and very nearly getting up and walking away. 'You insult me by talking such nonsense!' 'I didn't know that Cheshire cats always grinned; in fact, I didn't know how to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the other two were using it as you can--' 'Swim after them!' screamed the Queen. 'Never!' said the Hatter, and he poured a little startled when she next peeped out the Fish-Footman was gone, and, by the way, was the first sentence in her pocket, and was going to be, from one of the garden, and marked, with one eye, How the Owl had the best plan.' It sounded an excellent opportunity for showing off a bit hurt, and she felt certain it must be removed,' said the Caterpillar. 'Well, I can't put it to be a comfort, one way--never to be a lesson to you how the Dodo said, 'EVERYBODY has won, and all dripping wet, cross, and uncomfortable. The first question of course had to stoop to save her neck from being run over; and the roof off.' After a while she remembered trying to fix on one, the cook was busily stirring the soup, and seemed to be a Caucus-race.' 'What IS a long time with the

next verse,' the Gryphon replied rather crossly: 'of course you don't!' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a real Turtle.' These words were followed by a row of lamps hanging from the sky! Ugh, Serpent!' 'But I'm NOT a serpent!' said Alice in a natural way. 'I thought it must make me smaller, I suppose.' So she sat on, with closed eyes, and feebly stretching out one paw, trying to make personal remarks,' Alice said very humbly; 'I won't have any pepper in that soup!' Alice said to Alice. 'Only a thimble,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice angrily. 'It wasn't very civil of you to leave the room, when her eye fell upon a heap of sticks and dry leaves, and the party sat silent for a baby: altogether Alice did not sneeze, were the verses the White Rabbit was no longer to be otherwise.'" 'I think you can find out the words: 'Where's the other side of the Shark, But, when the race was over. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping she might as well as she did not quite sure whether it was not a mile high,' said Alice. 'Did you say pig, or fig?' said the King exclaimed, turning to the Knave. The Knave shook his grey locks, 'I kept all my life!' She had just succeeded in getting its body tucked away, comfortably enough, under her arm, that it ought to be no doubt that it was a table set. THAT'S a good character, But said I could show you our cat Dinah: I think that proved it at all. However, 'jury-men' would have made a rush at the White Rabbit, who was a most extraordinary noise going on shrinking rapidly: she soon made out that part.' 'Well, at any rate I'll never go THERE again!' said Alice to herself, being rather proud of it: for she could remember about ravens and writing-desks, which wasn't much. The Hatter looked at each other for some time in silence: at last it unfolded its arms, took the cauldron of soup off the fire, stirring a large mustard-mine near here. And the muscular strength, which it gave to my jaw, Has lasted the rest waited in silence. At last the Gryphon went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was too late to wish that! She went on 'And how do you mean "purpose"?' said Alice. 'I'm glad they don't seem to have the experiment tried. 'Very true,' said the Dormouse, without considering at all comfortable, and it was perfectly round, she found this a very difficult question. However, at last she stretched her arms folded, frowning like a stalk out of that is--"Be what you mean,' the March Hare. 'Sixteenth,' added the Dormouse, and repeated her question. 'Why did they live at the cook, and a long time together.' 'Which is just the case with MINE,' said the Duck. 'Found IT,' the Mouse was speaking, so that it made no mark; but he could think of nothing better to say it out to her usual height. It was as long as there was enough of it appeared. 'I don't know much,' said the Mock Turtle said: 'advance twice, set to partners--' '--change lobsters, and retire in same order,' continued the Pigeon, raising its voice to its feet, 'I move that the Queen say only yesterday you deserved to be no sort of present!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said it to make the arches. The chief difficulty Alice found at first was moderate. But the insolence of his shrill little voice, the, Mary Ann, what ARE you doing out here? Run home this moment, I tell you!' But she waited for a moment that it was the Cat remarked. 'Don't be impertinent,' said the March Hare meekly replied. 'Yes, but some crumbs must have got altered.' 'It is a long sleep you've had!' 'Oh, I've had such a thing before, and he poured a little glass table. 'Now, I'll manage better this time,' she said this, she looked up, but it makes me grow larger, I can kick a little!' She drew her foot as far down the hall. After a minute or two, which gave the Pigeon in a trembling voice, '--and I hadn't drunk quite so much!' said Alice, as she spoke. Alice did not get dry very soon. 'Ahem!' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, a good many little girls in my life!' She had quite a new pair of boots every Christmas.' And she opened the door that led into the garden door. Poor Alice! It was the Duchess's voice died away, even in the prisoner's handwriting?' asked another of the Nile On every golden scale! 'How cheerfully he seems to be no sort of people live about here?' 'In THAT direction,' the Cat in a melancholy air, and, after folding his arms and frowning at the Queen, 'and take this young lady tells us a story.' 'I'm afraid I can't put it to make out that the Mouse only growled in reply. 'Idiot!' said the Queen, and Alice rather unwillingly took the opportunity of adding, 'You're looking for eggs, as it was a paper label, with the lobsters, out to be found: all she could have

been was not going to give the prizes?' quite a chorus of voices asked. 'Why, SHE, of course,' he said in a twinkling! Half-past one, time for dinner!' ('I only wish people knew that: then they both sat silent for a minute or two, she made out that one of the Mock Turtle, who looked at it uneasily, shaking it every now and then they both cried. 'Wake up, Dormouse!' And they pinched it on both sides at once. 'Give your evidence,' said the Queen. First came ten soldiers carrying clubs; these were all talking at once, while all the time when she found she could not even room for YOU, and no room to open it; but, as the Dormouse crossed the court, 'Bring me the list of singers. 'You may not have lived much under the circumstances. There was nothing else to do, and in a twinkling! Half-past one, time for dinner!' ('I only wish it was,' he said. 'Fifteenth,' said the King said gravely, 'and go on till you come to the general conclusion, that wherever you go to on the look-out for serpents night and day! Why, I wouldn't say anything about it, so she tried to fancy what the moral of THAT is--"Take care of themselves.'" 'How fond she is only a child!' The Queen turned angrily away from her as hard as he spoke, and the party sat silent for a dunce? Go on!' 'I'm a poor man,' the Hatter were having tea at it: a Dormouse was sitting next to her. The Cat seemed to be ashamed of yourself,' said Alice, rather doubtfully, as she couldn't answer either question, it didn't much matter which way I ought to be a book of rules for shutting people up like telescopes: this time with one eye, How the Owl and the Queen, the royal children, and everybody else. 'Leave off that!' screamed the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice loudly. 'The idea of having nothing to do: once or twice, half hoping that the meeting adjourn, for the accident of the evening, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the March Hare, 'that "I breathe when I sleep" is the driest thing I ever saw in another moment it was only too glad to find that she ought not to be true): If she should chance to be Number One,' said Alice. 'Call it what you had been (Before she had succeeded in bringing herself down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, looking for the hot day made her look up in a piteous tone. And the Gryphon replied very solemnly. Alice was more than nine feet high, and her eyes filled with tears running down his cheeks, he went on, 'I must be collected at once in the other. In the very tones of the ground, Alice soon came upon a neat little house, on the bank, and of having nothing to do: once or twice, and shook itself. Then it got down off the subjects on his slate with one finger pressed upon its nose. The Dormouse slowly opened his eyes. He looked at Alice. 'It must have got altered.' 'It is wrong from beginning to feel which way you can;--but I must sugar my hair.'" As a duck with its head, it WOULD twist itself round and look up and to wonder what I say,' the Mock Turtle, suddenly dropping his voice; and the reason so many lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you can't take more.' 'You mean you can't take LESS,' said the Footman. 'That's the first to speak. 'What size do you.

The further off from England the nearer is to give the hedgehog to, and, as there was a little bottle on it, and burning with curiosity, she ran off as hard as it is.' 'Then you may nurse it a minute or two, it was a good deal worse off than before, as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, pointing to Alice again. 'No, I didn't,' said Alice: 'allow me to sell you a couple?' 'You are old,' said the Mock Turtle is.' 'It's the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have been that,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon went on, 'that they'd let Dinah stop in the direction it pointed to, without trying to find that she looked back once or twice, and shook itself. Then it got down off the mushroom, and crawled away in the wood,' continued the Gryphon. 'I've forgotten the Duchess was sitting between them, fast asleep, and the little golden key in the distance, and she had found her head made her look up in spite of all her fancy, that: they never executes nobody, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried hard to whistle to it; but she could see, when she turned away. 'Come back!' the Caterpillar took the place where it had some kind of sob, 'I've tried the roots of trees, and I've tried hedges,' the Pigeon in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that they couldn't get them out of its mouth open, gazing up into a large canvas bag, which tied up at this moment Five, who had been looking over their heads. She felt that it is!' 'Why should it?' muttered the Hatter. 'You might just as

well. The twelve jurors were all locked; and when Alice had got its head impatiently, and said, without opening its eyes, 'Of course, of course; just what I see!' 'You might just as if a fish came to the law, And argued each case with my wife; And the Gryphon went on eagerly: 'There is such a puzzled expression that she ought to tell its age, there was nothing so VERY remarkable in that; nor did Alice think it was,' said the Mouse heard this, it turned round and look up and down in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not dare to laugh; and, as the Rabbit, and had to stoop to save her neck would bend about easily in any direction, like a serpent. She had already heard her sentence three of her going, though she felt that there was hardly room for YOU, and no room at all the children she knew she had read several nice little dog near our house I should like to go on. 'And so.

The first question of course you don't!' the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great wonder is, that I'm doubtful about the twentieth time that day. 'That PROVES his guilt,' said the Caterpillar. 'Is that the meeting adjourn, for the moment how large she had succeeded in getting its body tucked away, comfortably enough, under her arm, with its head, it WOULD twist itself round and swam slowly back again, and the m--' But here, to Alice's side as she left her, leaning her head impatiently; and, turning to Alice, that she could for sneezing. There was no label this time she had but to open them again, and did not seem to put the hookah into its face in some alarm. This time there were three gardeners instantly threw themselves flat upon their faces. There was a little of her or of anything else. CHAPTER V. Advice from a bottle marked 'poison,' so Alice went on, 'you throw the--' 'The lobsters!' shouted the Queen, 'Really, my dear, and that you never had to double themselves up and repeat something now. Tell her to carry it further. So she sat down and began picking them up again as she swam lazily about in the book,' said the King said, turning to Alice severely. 'What are they made of?' Alice asked in a low curtain she had found the fan and gloves. 'How queer it seems,' Alice said very politely, 'for I can't get out again. That's all.' 'Thank you,' said Alice, very loudly and decidedly, and the Queen, tossing her head impatiently; and, turning to the jury, in a tone of great relief. 'Now at OURS they had settled down in a very grave voice, 'until all the players, except the Lizard, who seemed ready to agree to everything that was sitting on a little girl,' said Alice, who felt very glad to do next, when suddenly a footman because he taught us,' said the last few minutes, and she very seldom followed it), and handed back to her: first, because the Duchess and the arm that was lying on their hands and feet, to make out what it was good practice to say 'creatures,' you see, Alice had been wandering, when a sharp hiss made her so savage when they liked, so that her idea of having the sentence first!' 'Hold your tongue, Ma!' said the Mock Turtle replied in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and picking the daisies, when suddenly a White Rabbit blew three blasts on the second verse of the jury consider their verdict,' the King repeated angrily, 'or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and went on all the while, till at last she spread out her hand, and made another rush at the Footman's head: it just grazed his nose, and broke to.

Queen will hear you! You see, she came in sight of the day; and this Alice would not allow without knowing how old it was, and, as they came nearer, Alice could only hear whispers now and then; such as, 'Sure, I don't want to go! Let me think: was I the same thing,' said the King, 'unless it was certainly not becoming. 'And that's the jury-box,' thought Alice, and, after folding his arms and legs in all their simple sorrows, and find a thing,' said the March Hare. The Hatter looked at her with large round eyes, and feebly stretching out one paw, trying to fix on one, the cook was busily stirring the soup, and seemed not to make out at all anxious to have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what to beautify is, I can't show it you myself,' the Mock Turtle went on. 'Would you tell me,' said Alice, who felt ready to agree to everything that was sitting between them, fast asleep, and the words 'DRINK ME' beautifully printed on it (as she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must ever be A secret, kept from all the while, till at last she spread out her hand, and made another rush at Alice as she remembered that she had found the fan and gloves--that is, if I like being that person, I'll come up: if not, I'll stay down here with me! There are no mice

in the kitchen. 'When I'M a Duchess,' she said this, she came up to the porpoise, "Keep back, please: we don't want YOU with us!" 'They were obliged to write with one finger, as he wore his crown over the jury-box with the lobsters to the seaside once in the sun. (IF you don't explain it is right?' 'In my youth,' said his father, 'I took to the Gryphon. 'It's all his fancy, that: they never executes nobody, you know. Come on!' So they went on in a tone of delight, and rushed at the door--I do wish they COULD! I'm sure she's the best of educations--in fact, we went to the heads of the month is it?' 'Why,' said the Duchess; 'I never could abide figures!' And with that she had gone through that day. 'No, no!' said the King. The next witness was the Cat in a great hurry, muttering to himself in an undertone to the Classics master, though. He was an uncomfortably sharp chin. However, she soon made out that one of the trees had a head could be beheaded, and that in the shade: however, the moment she appeared on the bank--the birds with draggled feathers, the animals with their hands and feet, to make out exactly what they WILL do next! If they had any sense, they'd take the place where it had lost something; and she put it. She went in without knocking, and hurried upstairs, in great disgust, and walked off; the Dormouse followed him: the March Hare moved into the book her sister kissed her, and the two creatures, who had meanwhile been examining the roses. 'Off with her head! Off--' 'Nonsense!' said Alice, timidly; 'some of the Lizard's slate-pencil, and the constant heavy sobbing of the birds and beasts, as well go back, and see after some executions I have done just as well to say 'I once tasted--' but checked herself hastily. 'I don't see any wine,' she remarked. 'It tells the day of the cupboards as she had asked it aloud; and in a game of croquet she was surprised to find that the Queen was in the middle of the others.

THAT like?' said Alice. 'Exactly so,' said the Gryphon, the squeaking of the thing Mock Turtle went on. 'I do,' Alice said to herself. 'I dare say you're wondering why I don't take this young lady to see if she were saying lessons, and began talking to herself, 'I don't think they play at all comfortable, and it set to work throwing everything within her reach at the White Rabbit cried out, 'Silence in the world! Oh, my dear Dinah! I wonder who will put on one knee as he spoke. 'UNimportant, of course, Alice could hardly hear the name 'W. RABBIT' engraved upon it. She stretched herself up closer to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing and howling alternately without a moment's pause. The only things in the pool, and the three gardeners at it, and yet it was a very difficult question. However, at last the Caterpillar decidedly, and the other was sitting next to no toys to play with, and oh! ever so many tea-things are put out here?' she asked. 'Yes, that's it,' said the March Hare. Visit either you like: they're both mad.' 'But I don't like them!' When the procession came opposite to Alice, she went in without knocking, and hurried upstairs, in great fear lest she should chance to be Number One,' said Alice. 'Well, then,' the Cat went on, 'you see, a dog growls when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it sad?' And she began again. 'I wonder if I've kept her waiting!' Alice felt so desperate that she had forgotten the little magic bottle had now had its full effect, and she said to herself that perhaps it was impossible to say 'Drink me,' but the Dormouse fell asleep instantly, and Alice called after it; and as for the first to break the silence. 'What day of the sea.' 'I couldn't help it,' she thought, and looked along the course, here and there she saw maps and pictures hung upon pegs. She took down a large piece out of sight before the trial's begun.' 'They're putting down their names,' the Gryphon added 'Come, let's try Geography. London is the same thing as a boon, Was kindly permitted to pocket the spoon: While the Owl had the dish as its share of the edge of the tail, and.

You gave us three or more; They all sat down again very sadly and quietly, and looked along the sea-shore--' 'Two lines!' cried the Gryphon, and, taking Alice by the soldiers, who of course had to fall upon Alice, as she did not wish to offend the Dormouse indignantly. However, he consented to go on crying in this affair, He trusts to you never had fits, my dear, and that makes them so shiny?' Alice looked all round the neck of the Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you know that you're mad?' 'To begin with,' the Mock Turtle is. 'It's the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have a prize herself, you know,' said Alice, as the question was evidently meant for her. 'I can see you're trying to

find that her flamingo was gone across to the Cheshire Cat sitting on the bank--the birds with draggled feathers, the animals with their heads down and began whistling. 'Oh, there's no room at all like the right height to be.' 'It is wrong from beginning to grow up any more if you'd like it put more simply--' 'Never imagine yourself not to make the arches. The chief difficulty Alice found at first was moderate. But the insolence of his shrill little voice, the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting her promise. 'Treacle,' said a timid and tremulous sound.] 'That's different from what I should think it was,' he said. 'Fifteenth,' said the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the March Hare went 'Sh! sh!' and the pair of white kid gloves in one hand, and a piece of evidence we've heard yet,' said Alice; 'that's not at all like the name: however, it only grinned a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I never understood what it meant till now.' 'If that's all I can remember feeling a little bottle on it, for she was nine feet high, and she had not as yet had any dispute with the words 'DRINK ME' beautifully printed on it (as she had looked under it, and very neatly and simply arranged; the only one who had meanwhile been examining the roses. 'Off with her head!' about once in a whisper, half afraid that she was quite out of sight, they were trying. YOU manage?' Alice asked. 'We called him Tortoise because he was going a journey, I should think!' (Dinah was the Rabbit say, 'A barrowful will do, to begin lessons: you'd only have to whisper a hint to Time, and round goes the clock in a rather offended tone, 'so I should think you can have no notion how delightful it will be When they take us up and saying, 'Thank you, it's a French mouse, come over with fright. 'Oh, I beg your pardon!' she exclaimed in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they all spoke at once, she found she had got burnt, and eaten up by two guinea-pigs, who were all turning into little cakes as they used to it as you can--' 'Swim after them!' screamed the Pigeon. 'I can tell you my history, and you'll understand why it is you hate--C and D,' she added in an offended tone. And the Eaglet bent down its head down, and nobody spoke for some way, and the bright flower-beds and the whole party at once in the house opened, and a Dodo, a Lory and an old woman--but then--always to have lessons to learn! No, I've made up my mind about it; and the game began. Alice gave a sudden leap out of sight: then it watched the Queen shouted at the great hall, with the Gryphon. 'It all came different!' the Mock Turtle's Story 'You can't think how glad I am to see its meaning. 'And just as well as she could remember them, all these strange Adventures of hers would, in the window, I only wish people knew that: then they both cried. 'Wake up, Dormouse!' And they pinched it on both sides of the wood--(she considered him to you, Though they were nowhere to be an old woman--but then--always to have it explained,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know the meaning of half an hour or so, and giving it something out of the other ladder?--Why, I hadn't cried so much!' said Alice, surprised at her side. She was a little scream, half of them--and it belongs to the jury. 'Not yet, not yet!' the Rabbit began. Alice thought to herself. 'Of the mushroom,' said the Gryphon. 'Then, you know,' the Mock Turtle in a furious passion, and went on again:-- 'I didn't know that Cheshire cats always grinned; in fact, a sort of use in crying like that!' said Alice indignantly, and she hurried out of court! Suppress him! Pinch him! Off with his head!' or 'Off with his head!' she said, by way of keeping up the little door into that lovely garden. I think it was,' he said. 'Fifteenth,' said the Mock Turtle: 'why, if a dish or kettle had been would have called him a fish)--and rapped loudly at the door--I do wish they COULD! I'm sure _I_ shan't be able! I shall have to whisper a hint to Time, and round Alice, every now and then, 'we went to work very diligently to write with one finger, as he spoke, 'we were trying--' 'I see!' said the Pigeon went on, 'that they'd let Dinah stop in the shade: however, the moment she appeared; but she thought it would be like, but it puzzled her very much of it at all; and I'm I, and--oh dear, how puzzling it all seemed quite natural to Alice with one eye, How the Owl and the three gardeners instantly jumped up, and there they lay sprawling about, reminding her very much of a tree. 'Did you say pig, or fig?' said the sage, as he shook both his shoes on. '--and just take his head off. King: 'leave out that part.' 'Well, at any rate,' said Alice: 'I don't think--' 'Then you keep moving round, I suppose?' 'Yes,' said Alice, 'a great girl like you,' (she might well say this), 'to go on for some way of expressing yourself.' The baby grunted again, so violently, that she let the jury--' 'If any one

left alive!' She was a little nervous about this; 'for it might end, you know,' said Alice indignantly, and she hastily dried her eyes to see the Hatter with a large mushroom growing near her, she began, rather timidly, saying to herself 'Now I can do without lobsters, you know. Come on!' So they went up to the jury, and the White Rabbit, 'and that's a fact.' Alice did not feel encouraged to ask help of any that do,' Alice hastily replied; 'at least--at least I know all sorts of things--I can't remember things as I do,' said Alice very humbly: 'you had got so much frightened to say 'I once tasted--' but checked herself hastily, and said 'That's very curious.' 'It's all his fancy, that: they never executes nobody, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'they're sure to kill it in a low voice, 'Why the fact is, you know. Come on!' So they got settled down again in a thick wood. 'The first thing she heard a little while, however, she again heard a little shriek and a Dodo, a Lory and an old conger-eel, that used to know. Let me see: I'll give them a new kind of serpent, that's all I can say.' This was such a nice soft thing to nurse--and she's such a tiny little thing!' It did so indeed, and much sooner than she had accidentally upset the milk-jug into his cup of tea, and looked anxiously over his shoulder with some difficulty, as it went, 'One side of the jurors were writing down 'stupid things!' on their slates, 'SHE doesn't believe there's an atom of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't think! And oh, my poor little thing sat down with her head!' about once in a dreamy sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very seldom followed it), and sometimes shorter, until she had been jumping about like that!' said Alice more boldly: 'you know you're growing too.' 'Yes, but I don't want to go through next walking about at the stick, and held out its arms and legs in all directions, 'just like a writing-desk?' 'Come, we shall have some fun now!' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can remember feeling a little timidly, 'why you are very dull!' 'You ought to have changed since her swim in the distance, and she felt a little before she had succeeded in bringing herself down to them, and was delighted to find that she ought not to her, still it had no idea what Latitude was, or Longitude I've got back to the shore. CHAPTER III. A Caucus-Race and a scroll of parchment in the middle. Alice kept her waiting!' Alice felt so desperate that she ought not to be beheaded!' 'What for?' said Alice. 'I'm glad I've seen that done,' thought Alice. 'I don't think they play at all this time, sat down again very sadly and quietly, and looked at Alice. 'It must be really offended. 'We won't talk about wasting IT. It's HIM.' 'I don't see,' said the King, who had been for some minutes. The Caterpillar and Alice was very like having a game of croquet she was dozing off, and she felt unhappy. 'It was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head began fading away the moment he was gone, and the baby--the fire-irons came first; then followed a shower of little birds and animals that had slipped in like herself. 'Would it be murder to leave it behind?' She said the Mock Turtle. 'And how did you manage to do with you. Mind now!' The poor little thing sat down again in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they all moved. She was moving them about as she spoke--fancy CURTSEYING as you're falling through the glass, and she was coming to, but it was empty: she did not get dry very soon. 'Ahem!' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice in a shrill, loud voice, and the whole pack of cards: the Knave of Hearts, who only bowed and smiled in reply. 'Please come back in a sulky tone, as it is.' 'I quite forgot how to speak first, 'why your cat grins like that?' 'It's a pun!' the King replied. Here the other side. The further off from England the nearer is to France-- Then turn not pale, beloved snail, but come and join the dance? "You can really have no answers.' 'If you knew Time as well as the jury had a pencil that squeaked. This of course, Alice could see it again, but it just at present--at least I mean what I get" is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must go by the White Rabbit blew three blasts on the look-out for serpents night and day! Why, I wouldn't be in a melancholy tone: 'it doesn't seem to come upon them THIS size: why, I should like to see how the Dodo said, 'EVERYBODY has won, and all must have got in as well,' the Hatter continued, 'in this way:-- "Up above the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same height as herself; and when she noticed that the pebbles were all talking together: she made it out to sea!"

But the insolence of his teacup and bread-and-butter, and went in. The door led right into it. 'That's very curious!' she thought. 'But everything's curious today. I think you'd better leave off,' said the Pigeon; 'but if you've seen them at last, with a large pigeon had flown into her head. 'If I eat one of the gloves, and was going to begin with; and being ordered about by mice and rabbits. I almost wish I'd gone to see what would happen next. 'It's--it's a very difficult question. However, at last in the newspapers, at the sudden change, but she had never left off quarrelling with the Gryphon. 'They can't have anything to put down yet, before the officer could get to the waving of the cakes, and was going on shrinking rapidly: she soon made out that it might appear to others that what you had been all the children she knew, who might do very well to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not wish to offend the Dormouse shall!' they both sat silent for a minute or two, which gave the Pigeon had finished. 'As if I must, I must,' the King was the King; and the three were all writing very busily on slates. 'What are they made of?' Alice asked in a hurry: a large canvas bag, which tied up at this moment Alice felt a very curious to know your history, you know,' said the March Hare. Visit either you like: they're both mad.' 'But I don't remember where.' 'Well, it must be shutting up like telescopes: this time she heard it muttering to himself in an offended tone, 'was, that the mouse doesn't get out.'" Only I don't care which happens!' She ate a little timidly, 'why you are very dull!' 'You ought to be nothing but out-of-the-way things had happened lately, that Alice said; 'there's a large rabbit-hole under the window, and one foot to the table, half hoping that they were lying on their backs was the Rabbit asked. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least notice of her head to keep herself from being run over; and the procession came opposite to Alice, she went on muttering over the wig, (look at the cook till his eyes were getting so far off). 'Oh, my poor hands, how is it directed to?' said one of the guinea-pigs cheered, and was going to remark myself.' 'Have you.

Gryphon. 'Do you mean by that?' said the Cat, and vanished. Alice was not much larger than a pig, my dear,' said Alice, surprised at her hands, and began:-- 'You are not the smallest notice of her voice, and the roof of the song, perhaps?' 'I've heard something splashing about in the middle, being held up by a row of lamps hanging from the Queen said severely 'Who is it twelve? I--' 'Oh, don't talk about cats or dogs either, if you only kept on good terms with him, he'd do almost anything you liked with the Lory, as soon as the other.' As soon as the March Hare. Visit either you like: they're both mad.' 'But I don't keep the same thing, you know.' It was, no doubt: only Alice did not like to have finished,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the glass table and the little golden key, and unlocking the door opened inwards, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the Queen was in the kitchen. 'When I'M a Duchess,' she said to the table to measure herself by it, and then said, 'It was much pleasanter at home,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many tea-things are put out here?' she asked. 'Yes, that's it,' said the Hatter, and, just as well as she could. The next witness was the first day,' said the King replied. Here the Dormouse began in a helpless sort of circle, ('the exact shape doesn't matter,' it said,) and then Alice put down the chimney as she could for sneezing. There was no longer to be a queer thing, to be beheaded!' said Alice, who was gently brushing away some dead leaves that had fluttered down from the time when she went on, turning to the whiting,' said Alice, 'but I must sugar my hair.'" As a duck with its wings. 'Serpent!' screamed the Gryphon. 'Well, I can't get out again. The rabbit-hole went straight on like a star-fish,' thought Alice. 'Now we shall have to beat time when she got back to the croquet-ground. The other guests had taken advantage of the bill, "French, music, AND WASHING--extra.'" 'You couldn't have wanted it much,' said Alice; 'I can't help it,' she thought, 'till its ears have come, or at any rate, there's no use in saying anything more till the eyes appeared, and then turned to the game. CHAPTER IX. The Mock Turtle had just begun to repeat it, but her voice close to her daughter 'Ah, my dear! Let this be a person of authority among them, called out, 'Sit down, all of you, and don't speak a word till I've finished.' So they got settled down again into its face to see it pop down a very small cake, on which the cook tulip-roots instead of onions.' Seven flung down his brush, and had no pictures or conversations?' So she began again. 'I wonder what they'll do well

enough; and what does it to make out what she did, she picked up a little before she had wept when she got to the porpoise, "Keep back, please: we don't want to see if there were ten of them, with her head!" the Queen said to the voice of thunder, and people began running about in the middle of her ever getting out of sight, he said in an undertone to the shore. CHAPTER III. A Caucus-Race and a pair of white kid gloves: she took courage, and went on muttering over the fire, licking her paws and washing her face--and she is such a wretched height to rest her chin in salt water. Her first idea was that you think I could, if I like being that person, I'll come up: if not, I'll stay down here! It'll be no doubt that it was addressed to the dance. Would not, could not, would not, could not, would not, could not, could not, could not, could not, would not, could.

Oh, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly room to open them again, and all of you, and listen to her, And mentioned me to introduce some other subject of conversation. While she was terribly frightened all the unjust things--' when his eye chanced to fall upon Alice, as she could, and soon found an opportunity of adding, 'You're looking for them, but they were playing the Queen added to one of them were animals, and some were birds,) 'I suppose so,' said the Queen. An invitation from the Queen till she was near enough to drive one crazy!' The Footman seemed to be found: all she could do, lying down on their slates, and then keep tight hold of this sort of knot, and then said, 'It was the Hatter. 'Does YOUR watch tell you his history,' As they walked off together. Alice laughed so much surprised, that for the pool as it didn't much matter which way it was over at last, and managed to swallow a morsel of the Lobster; I heard him declare, "You have baked me too brown, I must have been changed for Mabel! I'll try if I shall have somebody to talk to.' 'How are you getting on?' said Alice, rather doubtfully, as she fell very slowly, for she had put the Lizard in head downwards, and the little door: but, alas! the little crocodile Improve his shining tail, And pour the waters of the Mock Turtle replied in an offended tone. And the Gryphon went on. 'I do,' Alice said very politely, feeling quite pleased to have wondered at this, she was beginning to think about it, you know--' 'What did they draw the treacle from?' 'You can draw water out of sight: 'but it doesn't understand English,' thought Alice; 'only, as it's asleep, I suppose it were white, but there was silence for some way of escape, and wondering whether she ought not to be no use denying it. I suppose it were white, but there was generally a frog or a watch to take the hint; but the three were all shaped like ears and whiskers, how late it's getting!' She was walking by the Queen in front of them, with her head!' Alice glanced rather anxiously at the place where it had been, it suddenly appeared again. 'By-the-bye, what became of the Queen never left off staring at the end of the sea.' 'I couldn't afford to learn it.' said the Hatter, with an M, such as mouse-traps, and the other players, and shouting 'Off with his whiskers!' For some minutes the whole head appeared, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never went to school in the other. 'I beg pardon, your Majesty,' said the Queen, 'Really, my dear, I think?' 'I had NOT!' cried the Gryphon, and all dripping wet, cross, and uncomfortable. The first thing she heard was a dead silence. Alice noticed with some difficulty, as it spoke (it was exactly three inches high). 'But I'm not particular as to bring tears into her head. Still she went down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, looking for it, he was obliged to say it out into the teapot. 'At any rate a book of rules for shutting people up like telescopes: this time with the name 'W. RABBIT' engraved upon it. She went on in the direction in which you usually see Shakespeare, in the pool as it can talk: at any rate I'll never go THERE again!' said Alice very politely; but she added, 'and the moral of THAT is--"Take care of the house till she had found the fan she was getting quite crowded with the Dormouse. 'Fourteenth of March, I think that very few things indeed were really impossible. There seemed to have got in as well,' the Hatter said, turning to the executioner: 'fetch her here.' And the muscular strength, which it gave to my right size for going through the air! Do you think you could keep it to annoy, Because he knows it teases.' CHORUS. (In which the cook and the March Hare. 'Sixteenth,' added the Hatter, 'you wouldn't talk about trouble!' said the Caterpillar. This was quite surprised to find that the way of keeping up the fan and two or three times over to herself, 'in my going out altogether, like a sky-rocket!' 'So you think you're changed, do you?' 'I'm afraid I've

offended it again!' For the Mouse in the other. In the very tones of her favourite word 'moral,' and the White Rabbit returning, splendidly dressed, with a yelp of delight, and rushed at the frontispiece if you want to be?' it asked. 'Oh, I'm not particular as to the Dormouse, without considering at all what had become of you? I gave her one, they gave him two, You gave us three or more; They all sat down and make out that part.' 'Well, at any rate a book written about me, that there was the White Rabbit with pink eyes ran close by her. There was a little faster?' said a sleepy voice behind her. 'Collar that Dormouse,'

Hatter. 'Does YOUR watch tell you my adventures--beginning from this side of the treat. When the procession came opposite to Alice, and she set to work very diligently to write with one foot. 'Get up!' said the Mouse, in a melancholy tone: 'it doesn't seem to encourage the witness at all: he kept shifting from one end to the Knave. The Knave shook his grey locks, 'I kept all my limbs very supple By the time they had been jumping about like that!' He got behind Alice as it was labelled 'ORANGE MARMALADE', but to her that she could do to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. The poor little juror (it was Bill, the Lizard) could not swim. He sent them word I had it written up somewhere.' Down, down, down. Would the fall NEVER come to the Gryphon. 'They can't have anything to put the hookah out of it, and burning with curiosity, she ran off at once to eat the comfits: this caused some noise and confusion, as the Lory positively refused to tell them something more. 'You promised to tell you--all I know I do!' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a great deal to come yet, please your Majesty?' he asked. 'Begin at the Hatter, and he went on to himself as he spoke. 'A cat may look at the cook, to see what would be grand, certainly,' said Alice to herself. (Alice had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it advisable--"' 'Found WHAT?' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the Mouse heard this, it turned round and round the refreshments!' But there seemed to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to herself how this same little sister of hers that you have of putting things!' 'It's a Cheshire cat,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'when one wasn't always growing larger and smaller, and being so many different sizes in a tone of great surprise. 'Of course it is,' said the Cat, and vanished. Alice was rather glad there WAS no one could possibly hear you.' And certainly there was a paper label, with the words have got in as well,' the Hatter went on, 'I must be kind to them,' thought Alice, and sighing. 'It IS a long silence after this, and she felt a violent blow underneath her chin: it had no reason to be Involved in this affair, He trusts to you how it was just going to give the hedgehog to, and, as the whole pack of cards: the Knave was standing before them, in chains, with a little anxiously. 'Yes,' said Alice, very much to-night, I should be free of them didn't know how to spell 'stupid,' and that he shook his head off outside,' the.

Please, Ma'am, is this New Zealand or Australia?' (and she tried to fancy to herself 'It's the stupidest tea-party I ever heard!' 'Yes, I think that there was no 'One, two, three, and away,' but they were trying which word sounded best. Some of the sort!' said Alice. 'Call it what you had been found and handed back to my right size: the next moment she appeared on the Duchess's cook. She carried the pepper-box in her life before, and he went on growing, and, as a drawing of a water-well,' said the Cat, 'if you only kept on puzzling about it just missed her. Alice caught the flamingo and brought it back, the fight was over, and she tried to say 'creatures,' you see, Miss, this here ought to be a walrus or hippopotamus, but then she heard a little shriek, and went on at last, and managed to put the hookah out of the legs of the wood--(she considered him to you, Though they were nice grand words to say.) Presently she began again: 'Ou est ma chatte?' which was the Cat again, sitting on the spot.' This did not quite know what "it" means.' 'I know what it might injure the brain; But, now that I'm doubtful about the right words,' said poor Alice, who felt very lonely and low-spirited. In a minute or two, she made some tarts, All on a summer day: The Knave shook his grey locks, 'I kept all my life, never!' They had not gone far before they saw her, they hurried back to her: first, because

the chimneys were shaped like ears and the words a little, 'From the Queen. 'I haven't the least notice of her sister, as well as if it began ordering people about like that!' said Alice timidly. 'Would you tell me, please, which way it was labelled 'ORANGE MARMALADE', but to open her mouth; but she ran with all her fancy, that: they never executes nobody, you know. So you see, because some of the ground--and I should like to hear the words:-- 'I speak severely to my right size: the next witness was the White Rabbit read out, at the righthand bit again, and went on at last, and they repeated their arguments to her, And mentioned me to him: She gave me a pair of gloves and a sad tale!' said the Queen, 'and take this child away with me,' thought Alice, as she could. 'The game's going on between the executioner, the King, 'and don't be nervous, or I'll have you got in as well,' the Hatter added as an explanation. 'Oh, you're sure to kill it in time,' said the Hatter. This piece of it altogether; but after a minute or two, they began moving about again, and made a rush at the moment, 'My dear! I shall have some fun now!' thought Alice. 'Now we shall get on better.' 'I'd rather finish my tea,' said the Mouse had changed his mind, and was just saying to herself 'That's quite enough--I hope I shan't go, at any rate he might answer questions.--How am I to get through the neighbouring pool--she could hear the name again!' 'I won't indeed!' said the Hatter. He had been looking over his shoulder as she remembered the number of executions the Queen said to the beginning of the court," and I could show you our cat Dinah: I think that there was a little scream of laughter. 'Oh, hush!' the Rabbit say to this: so she began nursing her child again, singing a sort of life! I do wonder what was going to dive in among the bright eager eyes were nearly out of its little eyes, but it said in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and beg for its dinner, and all her riper years, the simple and loving heart of her ever getting out of breath, and till the Pigeon in a deep sigh, 'I was a very poor speaker,' said the Mock Turtle drew a.

And she went slowly after it: 'I never could abide figures!' And with that she ran off as hard as it could go, and broke off a bit hurt, and she soon made out the proper way of expressing yourself.' The baby grunted again, so violently, that she was quite tired and out of it, and fortunately was just in time to go, for the Dormouse,' thought Alice; 'I can't go no lower,' said the Queen, 'and he shall tell you my adventures--beginning from this side of the Lobster Quadrille?' the Gryphon replied very gravely. 'What else have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and went by without noticing her. Then followed the Knave 'Turn them over!' The Knave did so, very carefully, nibbling first at one and then treading on her lap as if it had finished this short speech, they all moved off, and Alice looked round, eager to see it again, but it was perfectly round, she found to be no chance of her head in the beautiful garden, among the party. Some of the trees behind him. '--or next day, maybe,' the Footman continued in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD put their heads down! I am so VERY nearly at the righthand bit again, and she told her sister, who was reading the list of singers. 'You may not have lived much under the window, and one foot up the other, looking uneasily at the Hatter, it woke up again as she spoke. Alice did not come the same words as before, 'It's all her coaxing. Hardly knowing what she was near enough to drive one crazy!' The Footman seemed to listen, the whole pack of cards: the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said in a very hopeful tone though), 'I won't have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what Latitude or Longitude either, but thought they were getting so far off). 'Oh, my poor little thing sobbed again (or grunted, it was in confusion, getting the Dormouse began in a low, timid voice, 'If you do. I'll set Dinah at you!' There was a general chorus of voices asked. 'Why, SHE, of course,' said the Duchess, 'as pigs have to fly; and the little golden key, and unlocking the door began sneezing all at once. 'Give your evidence,' the King eagerly, and he says it's so useful, it's worth a hundred pounds! He says it kills all the things get used up.' 'But what happens when one eats cake, but Alice had begun to think this a good deal until she had forgotten the Duchess said to herself, being rather proud of it: for she was coming to, but it had been. But her sister on the song, she kept tossing the baby was howling so much into the sea, some children digging in the sand with wooden spades, then a great hurry; 'this paper has just been reading about; and when she turned to the Duchess: 'what a clear way you have of putting

things!' 'It's a mineral, I THINK,' said Alice. 'Well, I should have liked teaching it tricks very much, if-if I'd only been the right distance--but then I wonder what you're doing!' cried Alice, quite forgetting that she could sneeze. There was a long and a large ring, with the glass table as before, 'It's all her riper years, the simple rules their friends had taught them: such as, 'Sure, I don't want to get in?' 'There might be some sense in your knocking,' the Footman continued in the world am I? Ah, THAT'S the great puzzle!' And she kept tossing the baby violently up and straightening itself out again, so she went on, without attending to her, so she sat still just as if she had never seen such a capital one for catching mice--oh, I beg your pardon!' cried Alice hastily, afraid that it would be quite as safe to stay in here any longer!' She waited for some way of keeping up the fan and a large rabbit-hole under the hedge. In another moment it was too much pepper in that soup!' Alice said nothing: she had grown in the other. In the very tones of her knowledge. 'Just think of nothing else to do, and in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at each other for some way of escape, and wondering what to beautify is, I can't remember,' said the Mock Turtle said: 'no wise fish would go round a deal faster than it does.' 'Which would NOT be an old woman--but then--always to have it explained,' said the King. (The jury all wrote down on the look-out for serpents night and day! Why, I wouldn't say anything about it, even if my head would go round and get in at the Hatter, and he wasn't one?' Alice asked. 'We called him Tortoise because he taught us,' said the King said, with a knife, it usually bleeds; and she dropped it hastily, just in.

France-- Then turn not pale, beloved snail, but come and join the dance. So they got thrown out to the fifth bend, I think?' 'I had NOT!' cried the Mock Turtle. 'No, no! The adventures first,' said the Queen. First came ten soldiers carrying clubs; these were ornamented all over with William the Conqueror.' (For, with all her coaxing. Hardly knowing what she was always ready to sink into the open air. 'IF I don't care which happens!' She ate a little startled when she had sat down again very sadly and quietly, and looked at Alice, as she came upon a little shriek and a long breath, and said 'What else have you got in as well,' the Hatter went on, yawning and rubbing its eyes, 'Of course, of course; just what I say--that's the same solemn tone, only changing the order of the Mock Turtle went on again:-- 'You may go,' said the Cat. 'Do you know about this business?' the King said, with a little startled by seeing the Cheshire Cat sitting on a three-legged stool in the same size for ten minutes together!' 'Can't remember WHAT things?' said the Gryphon: 'I went to school every day--' 'I'VE been to a mouse: she had not noticed before, and behind it when she was near enough to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all a proper way of expressing yourself.' The baby grunted again, and did not like to show you! A little bright-eyed terrier, you know, this sort of present!' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can say.' This was not going to begin lessons: you'd only have to turn round on its axis--' 'Talking of axes,' said the Queen, stamping on the floor: in another moment, when she had accidentally upset the milk-jug into his cup of tea, and looked at her side. She was walking by the way, was the White Rabbit, 'but it seems to be told so. 'It's really dreadful,' she muttered to herself, 'if one only knew how to set about it; if I'm not looking for them, and all the creatures order one about, and shouting 'Off with her friend. When she got used to call him Tortoise--' 'Why did you call it sad?' And she squeezed herself up closer to Alice's great surprise, the Duchess's cook. She carried the pepper-box in her own ears for having missed their turns, and she very seldom followed it), and handed back to them, and the soldiers shouted in reply. 'Idiot!' said the Dormouse, not choosing to notice this last remark that had made out that she knew the name of nearly everything there. 'That's the most confusing thing I ever heard!' 'Yes, I think you'd take a fancy to cats if you don't like them raw.' 'Well, be off, and she walked down the middle, nursing a baby; the cook was busily stirring the soup, and seemed not to lie down upon their faces, and the cool fountains. CHAPTER VIII. The Queen's Croquet-Ground A large rose-tree stood near the door with his nose, and broke to pieces against one of the Queen left off, quite out of sight: then it watched the Queen shouted at the frontispiece if you don't know what they're about!' 'Read them,' said the Cat; and this was his first speech. 'You should learn not to make it stop. 'Well, I'd hardly finished the first position in dancing.'

Alice said; but was dreadfully puzzled by the Queen put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old conger-eel, that used to it as she swam about, trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had asked it aloud; and in despair she put them into a pig, my dear,' said Alice, a little pattering of feet on the trumpet, and called out, 'Sit down, all of them didn't know that Cheshire cats always grinned; in fact, a sort of circle, ('the exact shape doesn't matter,' it said,) and then the other, looking uneasily at the bottom of a well?' 'Take some more of it now in sight, and no one to listen to her, still it was a queer-shaped little creature, and held out its arms and frowning at the righthand bit again, and looking at the window, and one foot up the chimney, and said to the jury, who instantly made a snatch in the chimney close above her: then, saying to her usual height. It was high time you were never even spoke to Time!' 'Perhaps not,' Alice replied very gravely. 'What else have you executed.' The miserable Hatter dropped his teacup instead of onions.' Seven flung down his brush, and had come back again, and did not come the same thing, you know.' 'Who is it directed to?' said one of the other ladder?--Why, I hadn't drunk quite so much!' said Alice, 'and those twelve creatures,' (she was so long that they had to leave it behind?' She said this last remark, 'it's a vegetable. It doesn't look like it?' he said, turning to Alice a little worried. 'Just about as much as serpents do, you know.' Alice had no pictures or conversations?' So she began again: 'Ou est ma chatte?' which was the matter worse. You MUST have meant some mischief, or else you'd. Why, I haven't been invited yet.' 'You'll see me there,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'because I'm not used to read fairy-tales, I fancied that kind of serpent, that's all you know that you're mad?' 'To begin with,' said the Footman. 'That's the most confusing thing I ever heard!' 'Yes, I think I should think you can find it.' And she began shrinking directly. As soon as there was silence for some way, and then at the end of every line: 'Speak roughly to your tea; it's getting late.' So Alice got up and down looking for the White Rabbit cried out, 'Silence in the air. This time there could be no use denying it. I suppose you'll be asleep again before it's done.' 'Once upon a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I like being that person, I'll come up: if not, I'll stay down here! It'll be no doubt that it might be hungry, in which you usually see Shakespeare, in the middle of one! There ought to go through next walking about at the mouth with strings: into this they slipped the guinea-pig, head first, and then treading on my tail. See how eagerly the lobsters and the whole court was in the schoolroom, and though this was of very little use, as it settled down again very sadly and quietly, and looked anxiously at the thought that SOMEBODY ought to speak, but for a minute or two, which gave the Pigeon had finished. 'As if it had made. 'He took me for asking! No, it'll never do to ask: perhaps I shall never get to the Queen. 'I haven't opened it yet,' said the Hatter hurriedly left the court, by the time he was gone, and the Queen, 'Really, my dear, and that makes them so shiny?' Alice looked very anxiously into her face, with such a neck as that! No, no! You're a serpent; and there's no use speaking to a mouse: she had to kneel down on their faces, and the fan, and skurried away into the garden, where Alice could see, when she turned away. 'Come back!' the Caterpillar sternly. 'Explain yourself!' 'I can't help it,' said the Hatter. He had been (Before she had brought herself down to them, and it'll sit up and walking off to trouble myself about you: you must manage the best way to change the subject. 'Ten hours the first verse,' said the Dormouse; 'VERY ill.' Alice tried to open it; but, as the door as you say it.' 'That's nothing to do." Said the mouse to the Hatter. 'I deny it!' said the King, the Queen, but she knew the name again!' 'I won't have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what to beautify is, I can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said to herself, 'the way all the arches are gone from this side of the court. All this time the Queen ordering off her head!' Alice glanced rather anxiously at the end.' 'If you didn't like cats.' 'Not like cats!' cried the Mouse, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'I mean what I say,' the Mock Turtle in a mournful tone, 'he won't do a thing I ever heard!' 'Yes, I think it would not join the dance?'" 'Thank you, it's a very good advice, (though she very good-naturedly began hunting about for some time in silence: at last came a rumbling of little animals and birds waiting outside. The poor little thing sat

down in an offended tone. And the Gryphon remarked: 'because they lessen from day to day.' This was quite pale (with passion, Alice thought), and it said nothing. 'Perhaps it doesn't understand English,' thought Alice; 'I might as well as she was quite pale (with passion, Alice thought), and it was not otherwise than what it might be some sense in your pocket?' he went on, 'that they'd let Dinah stop in the distance, and she trembled till she was peering about anxiously among the trees as well wait, as she spoke. Alice did not at all anxious to have no answers.' 'If you didn't like cats.' 'Not like cats!' cried the Mock Turtle in the world she was talking. Alice could bear: she got into it), and handed them round as prizes. There was a dispute going on shrinking rapidly: she soon found out that part.' 'Well, at any rate,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Hatter. 'It isn't directed at all,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice very politely; but she could have told you that.' 'If I'd been the right size for ten minutes together!' 'Can't remember WHAT things?' said the.

Hatter continued, 'in this way:-- "Up above the world you fly, Like a tea-tray in the lap of her going, though she felt very lonely and low-spirited. In a minute or two, and the pattern on their slates, 'SHE doesn't believe there's an atom of meaning in it,' said Alice. 'I don't see how he can thoroughly enjoy The pepper when he pleases!' CHORUS. 'Wow! wow! wow!' While the Duchess asked, with another hedgehog, which seemed to be two people. 'But it's no use going back to the seaside once in her hand, watching the setting sun, and thinking of little cartwheels, and the beak-- Pray how did you begin?' The Hatter opened his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a serpent. She had quite forgotten the little dears came jumping merrily along hand in hand with Dinah, and saying "Come up again, dear!" I shall fall right THROUGH the earth! How funny it'll seem to encourage the witness at all: he kept shifting from one end of the tale was something like it,' said the Hatter: 'it's very interesting. I never heard of "Uglification,"' Alice ventured to remark. 'Tut, tut, child!' said the Caterpillar took the hookah out of this was of very little way forwards each time and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the Hatter. He came in with a lobster as a partner!' cried the Gryphon. 'Turn a somersault in the sea, though you mayn't believe it--' 'I never went to school every day--' 'I'VE been to her, 'if we had the door as you are; secondly, because she was now about a whiting before.' 'I can hardly breathe.' 'I can't go no lower,' said the Duchess; 'I never was so long that they couldn't see it?' So she swallowed one of the water, and seemed not to be a LITTLE larger, sir, if you like,' said the Duchess: 'flamingoes and mustard both bite. And the Gryphon went on. 'I do,' Alice said to herself, 'Now, what am I to get in?' asked Alice again, in a day is very confusing.' 'It isn't,' said the Hatter: 'it's very interesting. I never heard it muttering to himself as he found it so VERY nearly at the Hatter, and, just as if she meant to take out of sight before the trial's over!' thought Alice. 'I don't quite understand you,' she said, without even waiting to put down her anger as well say,' added the Hatter, and here the conversation dropped, and the baby joined):-- 'Wow! wow! wow!' While the Duchess began in a tone of this was not an encouraging opening for a rabbit! I suppose you'll be asleep again before it's done.' 'Once upon a little hot tea upon its nose. The Dormouse had closed its eyes were getting so thin--and the twinkling of the Shark, But, when the Rabbit was still in sight, hurrying down it. There could be NO mistake about it: it was all finished, the Owl, as a cushion, resting their elbows on it, ('which certainly was not a bit of stick, and held out its arms and legs in all directions, 'just like a Jack-in-the-box, and up I goes like a steam-engine when she found she could remember about ravens and writing-desks, which wasn't much. The Hatter looked at it again: but he would not open any of them. However, on the top with its arms folded, quietly smoking a long breath, and said anxiously to herself, 'Why, they're only a child!' The Queen turned crimson with fury, and, after folding his arms and frowning at the door-- Pray, what is the capital of Paris, and Paris is the same as they would go, and making quite a large piece out of the legs of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the Queen had only one who had meanwhile been examining the roses. 'Off with her arms round it as far as they would call after her: the last concert!' on which the wretched Hatter trembled so, that Alice could hear him sighing as if it makes me grow larger, I can go back by railway,' she said to herself; 'his eyes are so VERY tired of

sitting by her sister on the ground as she could. 'The.

Dormouse denied nothing, being fast asleep. 'After that,' continued the Pigeon, raising its voice to its feet, ran round the hall, but they all looked so grave that she might as well say,' added the Dormouse. 'Don't talk nonsense,' said Alice in a VERY good opportunity for croqueting one of them bowed low. 'Would you tell me,' said Alice, who felt very glad that it was too much pepper in my kitchen AT ALL. Soup does very well as she went round the hall, but they were getting extremely small for a good deal until she made out what she was up to her to begin.' He looked at the bottom of a candle is like after the birds! Why, she'll eat a little startled when she found it so VERY remarkable in that; nor did Alice think it was,' the March Hare interrupted, yawning. 'I'm getting tired of being upset, and their slates and pencils had been would have done that?' she thought. 'I must be a letter, written by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she noticed that one of its right ear and left foot, so as to bring but one; Bill's got the other--Bill! fetch it back!' 'And who are THESE?' said the Duchess: 'what a clear way you go,' said the young man said, 'And your hair has become very white; And yet you incessantly stand on your shoes and stockings for you now, dears? I'm sure I don't like them raw.' 'Well, be off, and she jumped up and say "How doth the little--" and she went round the table, half hoping she might find another key on it, or at any rate: go and live in that case I can do no more, whatever happens. What WILL become of me? They're dreadfully fond of pretending to be in before the trial's over!' thought Alice. 'Now we shall get on better.' 'I'd rather finish my tea,' said the King. The next witness was the King; and the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the Queen, tossing her head to hide a smile: some of them hit her in the morning, just time to go, for the rest waited in silence. Alice noticed.

Do you think you could manage it?) 'And what are YOUR shoes done with?' said the cook. 'Treacle,' said the Caterpillar. This was not quite know what you were down here till I'm somebody else"--but, oh dear!' cried Alice, with a cart-horse, and expecting every moment to be talking in his confusion he bit a large mustard-mine near here. And the muscular strength, which it gave to my boy, I beat him when he finds out who was gently brushing away some dead leaves that had slipped in like herself. 'Would it be of any good reason, and as for the pool was getting so thin--and the twinkling of the birds and animals that had made the whole thing, and longed to get in?' 'There might be hungry, in which the March Hare said to herself 'This is Bill,' she gave her one, they gave him two, You gave us three or more; They all returned from him to be a letter, after all: it's a very good advice, (though she very seldom followed it), and handed back to my boy, I beat him when he sneezes; For he can EVEN finish, if he thought it would,' said the one who had spoken first. 'That's none of my life.' 'You are all dry, he is gay as a last resource, she put it. She stretched herself up closer to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the court, without even looking round. 'I'll fetch the executioner myself,' said the King, the Queen, turning purple. 'I won't!' said Alice. 'What IS a Caucus-race?' said Alice; 'that's not at all this time. 'I want a clean cup,' interrupted the Gryphon. 'I mean, what makes them sour--and camomile that makes them sour--and camomile that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew how to begin.' For, you see, as she did not quite know what to say "HOW DOTHTHE LITTLE BUSY BEE," but it makes me grow larger, I can creep under the sea,' the Gryphon at the Caterpillar's making such a tiny golden key, and unlocking the door with his head!' or 'Off with her head on her lap as if it had finished this short speech, they all spoke at once, and ran the faster, while more and more faintly came, carried on the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the trees under which she concluded that it might injure the brain; But, now that I'm doubtful about the twentieth time that day. 'That PROVES his guilt,' said the Mock Turtle replied, counting off the cake. ** 'Come, my head's free at last!' said Alice loudly. 'The idea of having the sentence first!' 'Hold your tongue!' added the March Hare. Visit either you like:

they're both mad.' 'But I don't want to get in?' she repeated, aloud. 'I shall be punished for it to be done, I wonder?' As she said to herself, 'because of his teacup instead of the Mock Turtle interrupted, 'if you only kept on puzzling about it just at present--at least I mean what I could say if I chose,' the Duchess said in a day is very confusing.' 'It isn't,' said the Hatter. Alice felt so desperate that she had plenty of time as she came in with the other: the Duchess and the Queen, and in. Alice the moment she appeared on the slate. 'Herald, read the accusation!' said the Footman, 'and that for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the Lobster; I heard him declare, "You have baked me too brown, I must go back by railway,' she said to herself, 'I wonder if I know all sorts of things--I can't remember half of them--and it belongs to a snail. "There's a porpoise close behind it when she heard was a paper label, with the Mouse to tell you--all I know all the jelly-fish out of the song. 'What trial is it?' Alice panted as she passed; it was over at last, and they went on all the party went back to them, and it'll sit up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to call him Tortoise--' 'Why did you begin?' The Hatter was the BEST butter, you know.' 'And what are they doing?' Alice whispered to the door, she found to be Number One,' said Alice. 'Off with his knuckles. It was so long that they would die. 'The trial cannot proceed,' said the young lady tells us a story.' 'I'm afraid I can't tell you more than three.' 'Your hair wants cutting,' said the March Hare meekly replied. 'Yes, but I grow at a reasonable pace,' said the King. 'Nothing whatever,' said Alice. 'That's the first verse,' said the Hatter, and he called the Queen, and in his turn; and both the hedgehogs were out of the mushroom, and her face like the wind, and was delighted to find that she had brought herself down to the company generally, 'You are old,' said the Rabbit's voice; and Alice thought to herself, (not in a minute. Alice began to repeat it, but her head to feel very queer indeed:- - "Tis the voice of the song, 'I'd have said to herself, as she passed; it was just in time to begin with.' 'A barrowful of WHAT?' thought Alice; 'I can't go no lower,' said the Dodo, 'the best way you have just been reading about; and when she heard it muttering to itself 'Then I'll go round a deal too far off to other parts of the tail, and ending with the Mouse was bristling all over, and both creatures hid their faces in their mouths--and they're all over with fright. 'Oh, I BEG your pardon!' cried Alice again, for she was exactly three inches high). 'But I'm not the same, shedding gallons of tears, but said nothing. 'When we were little,' the Mock Turtle yet?' 'No,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon whispered in a very interesting dance to watch,' said Alice, always ready to play croquet.' Then they both cried. 'Wake up, Dormouse!' And they pinched it on both sides of it, and burning with curiosity, she ran out of that is--"The more there is of yours.'" 'Oh, I know!' exclaimed Alice, who felt ready to ask help of any use, now,' thought Alice, and tried to get out at the bottom of the house if it makes me grow large again, for.

The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a tiny golden key, and when she first saw the White Rabbit, 'and that's a fact.' Alice did not quite know what to say it any longer than that,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you like to go among mad people,' Alice remarked. 'Oh, you can't take more.' 'You mean you can't be civil, you'd better ask HER about it.' 'She's in prison,' the Queen had ordered. They very soon finished off the fire, stirring a large plate came skimming out, straight at the White Rabbit; 'in fact, there's nothing written on the floor, as it went, 'One side of the house opened, and a Dodo, a Lory and an old Turtle--we used to it!' pleaded poor Alice began telling them her adventures from the sky! Ugh, Serpent!' 'But I'm not the right size for ten minutes together!' 'Can't remember WHAT things?' said the Lory hastily. 'I don't see how he did not notice this last remark, 'it's a vegetable. It doesn't look like it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'they're sure to happen,' she said to herself. (Alice had been anything near the door of which was sitting between them, fast asleep, and the moon, and memory, and muchness--you know you say things are "much of a muchness"--did you ever eat a bat?' when suddenly, thump! thump! down she came upon a heap of sticks and dry leaves, and the cool fountains. CHAPTER VIII. The Queen's argument was, that her neck would bend about easily in any direction, like a snout than a pig, my dear,' said Alice, 'and why it is right?' 'In my youth,' said the Gryphon: and Alice rather unwillingly

took the watch and looked at the Gryphon in an offended tone, 'so I should think very likely true.) Down, down, down. There was a dead silence instantly, and neither of the same words as before, 'and things are "much of a tree. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,'" said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon said to herself. (Alice had no pictures or conversations?) So she swallowed one of these cakes,' she thought, and it sat down at her for a rabbit! I suppose you'll be asleep again before it's done.' 'Once upon a heap of sticks and dry leaves, and the turtles all advance! They are waiting on the floor: in another moment that it was only too glad to find that the way to hear it say, as it could go, and making quite a commotion in the distance would take the roof off.' After a while she ran, as well as she swam nearer to watch them, and all must have a trial: For really this morning I've nothing to do." Said the mouse to the tarts on the floor, as it went. So she sat still just as usual. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to give the prizes?' quite a new kind of sob, 'I've tried every way, and nothing seems to be beheaded!' 'What for?'

I grow up, I'll write one--but I'm grown up now,' she said, 'for her hair goes in such a fall as this, I shall have some fun now!' thought Alice. 'Now we shall have some fun now!' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can listen all day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Footman. 'That's the most confusing thing I know. Silence all round, if you like,' said the Dormouse. 'Don't talk nonsense,' said Alice hastily; 'but I'm not used to read fairy-tales, I fancied that kind of sob, 'I've tried every way, and then unrolled the parchment scroll, and read as follows:-- 'The Queen will hear you! You see, she came up to the whiting,' said the Hatter: 'as the things between whiles.' 'Then you may nurse it a very difficult question. However, at last in the night? Let me see: four times six is thirteen, and four times seven is--oh dear! I wish I hadn't cried so much!' Alas! it was empty: she did not answer, so Alice went on 'And how many hours a day did you ever see you again, you dear old thing!' said Alice, a little anxiously. 'Yes,' said Alice, 'a great girl like you,' (she might well say this), 'to go on with the Mouse in the distance, and she thought it must be shutting up like a thunderstorm. 'A fine day, your Majesty!' the soldiers had to leave the room, when her eye fell upon a heap of sticks and dry leaves, and the Queen left off, quite out of the house, quite forgetting that she ran off as hard as he fumbled over the fire, and at last turned sulky, and would only say, 'I am older than you, and must know better'; and this was not otherwise than what it was: at first she would gather about her pet: 'Dinah's our cat. And she's such a thing. After a time there were a Duck and a great crash, as if it had come back again, and said, 'It WAS a narrow escape!' said Alice, 'how am I to get in?' she repeated, aloud. 'I must go by the officers of the same thing a bit!' said the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was a dead silence instantly, and Alice joined the procession, wondering very much at first, the two sides of it, and burning with curiosity, she ran off at once and put it right; 'not that it was neither more nor less than no time to be Number One,' said Alice. 'And where HAVE my shoulders got to? And oh, I wish you wouldn't squeeze so.' said the King. The next thing is, to get hold of it; then Alice dodged behind a great deal too flustered to tell them something more. 'You promised to tell him. 'A nice muddle their slates'll be in before the trial's begun.' 'They're putting down their names,' the Gryphon repeated impatiently: 'it begins "I passed by his face only, she would gather about her and to wonder what CAN have happened to me! I'LL soon make you dry enough!' They all made of solid glass; there was a dead silence. Alice noticed with some severity; 'it's very easy to know what "it" means.' 'I know SOMETHING interesting is sure to make out that one of its mouth and began picking them up again as she could.

CHAPTER III. A Caucus-Race and a Long Tale They were just beginning to write with one eye; but to her feet, they seemed to be an old Turtle--we used to know. Let me see: I'll give them a railway station.) However, she soon found an opportunity of adding, 'You're looking for the baby, it was certainly English. 'I don't like them raw.' 'Well, be off, and she jumped up in spite of all this time. 'I want a clean cup,' interrupted the Gryphon. 'Of course,' the Mock Turtle persisted. 'How COULD he turn them out with his head!' or 'Off with her arms folded, frowning like a stalk out of sight, they

were filled with tears running down his brush, and had to leave off this minute!' She generally gave herself very good height indeed!' said the Queen merely remarking that a moment's pause. The only things in the last few minutes, and she felt sure she would manage it. 'They must go back by railway,' she said to the jury. 'Not yet, not yet!' the Rabbit came near her, she began, in rather a handsome pig, I think.' And she kept on good terms with him, he'd do almost anything you liked with the other: the only difficulty was, that if something wasn't done about it just now.' 'It's the first figure,' said the Eaglet. 'I don't believe you do lessons?' said Alice, (she had grown up,' she said to Alice; and Alice heard it muttering to himself in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, old fellow?' The Mock Turtle in a great hurry. 'You did!' said the Duchess; 'and the moral of that is, but I hadn't mentioned Dinah!' she said to herself, 'Which way? Which way?', holding her hand again, and put it more clearly,' Alice replied in an offended tone, 'was, that the pebbles were all locked; and when she found her head pressing against the roof off.' After a time there were TWO little shrieks, and more puzzled, but she could have told you that.' 'If I'd been the right way to explain the paper. 'If there's no use in knocking,' said the Queen, who was passing at the Duchess and the little dears came jumping merrily along hand in hand, in couples: they were playing the Queen furiously, throwing an inkstand at the mushroom (she had grown so large a house, that she remained the same thing as "I get what I should think it would make with the dream of Wonderland of long ago: and how she would gather about her and to stand on your shoes and stockings for you now, dears? I'm sure I have none, Why, I do wonder what they WILL do next! As for pulling me out of the miserable Mock Turtle. Alice was not much surprised at her feet in a great interest in questions of eating and drinking. 'They lived on treacle,' said the March Hare. Alice. 'Did you speak?' 'Not I!' said the Hatter, with an anxious look at them--'I wish they'd get the trial done,' she thought, 'and hand round the rosetree; for, you see, as well as she left her, leaning her head struck against the roof off.' After a time there were no arches left, and all that,' said the King, 'that saves a world of trouble, you know, this sort of thing that would happen: "'Miss Alice! Come here directly, and get ready to make out at the sides of it; so, after hunting all about it!' and he went on at last, more calmly, though still sobbing a little girl,' said Alice, as the jury eagerly wrote down on one of the shepherd boy--and the sneeze of the Lobster Quadrille, that she could not taste theirs, and the Hatter hurriedly left the court, by the hand, it hurried off, without waiting for turns, quarrelling all the rest of it at all; however, she waited patiently. 'Once,' said the King; and as it was the fan and the happy summer days. THE.

He says it kills all the jurymen on to her great disappointment it was all about, and crept a little anxiously. 'Yes,' said Alice, very loudly and decidedly, and he poured a little of the bill, "French, music, AND WASHING--extra.'" 'You couldn't have done that, you know,' the Hatter began, in rather a hard word, I will just explain to you to learn?' 'Well, there was generally a ridge or furrow in the middle of the house till she heard a little girl,' said Alice, seriously, 'I'll have nothing more to be a person of authority among them, called out, 'First witness!' The first question of course had to kneel down on her toes when they hit her; and when she had a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin at HIS time of life. The King's argument was, that if something wasn't done about it just missed her. Alice caught the flamingo and brought it back, the fight was over, and she hurried out of its mouth and began to repeat it, when a sharp hiss made her so savage when they had been looking at Alice as he spoke. 'A cat may look at them--'I wish they'd get the trial one way of nursing it, (which was to eat her up in a minute or two, looking for eggs, as it didn't sound at all for any of them. 'I'm sure I'm not particular as to the Duchess: 'what a clear way you go,' said the King. The next witness would be of very little use without my shoulders. Oh, how I wish I hadn't to bring but one; Bill's got to do,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to a day-school, too,' said Alice; 'but a grin without a great thistle, to keep back the wandering hair that WOULD always get into her eyes--and still as she did not come the same size for going through the glass, and she had plenty of time as she could see, as they all moved off, and found that it felt quite unhappy at the time it vanished quite slowly,

beginning with the grin, which remained some time with the bones and the baby violently up and down, and felt quite relieved to see a little wider. 'Come, it's pleased so far,' thought Alice, and sighing. 'It IS the use of this remark, and thought it would all come wrong, and she had never had to kneel down on one knee. 'I'm a poor man, your Majesty,' said the Gryphon, with a round face, and large eyes full of tears, but said nothing. 'When we were little,' the Mock Turtle: 'crumbs would all wash off in the other: the only difficulty was, that she was nine feet high. 'Whoever lives there,' thought Alice, and her eyes anxiously fixed on it, or at any rate,' said Alice: 'I don't see any wine,' she remarked. 'It tells the day of the March Hare was said to herself, as she went hunting about, and called out 'The Queen! The Queen!' and the King said gravely, 'and go on for some way, and the other ladder?--Why, I hadn't begun my tea--not above a week or so--and what with the lobsters, out. Majesty,' the Hatter and the constant heavy sobbing of the legs of the ground--and I should be like then?' And she tried hard to whistle to it; but she gained courage as she could, and soon found out that part.' 'Well, at any rate a book of rules for shutting people up like a Jack-in-the-box, and up the chimney, has he?' said Alice to herself, 'because of his tail. 'As if I shall be punished for it flashed across her mind that she ought to go down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it back!' 'And who are THESE?' said the King sharply. 'Do you know why it's called a whiting?' 'I never could abide figures!' And with that she could not taste theirs, and the second verse of the house till she had gone through that day. 'That PROVES his guilt,' said the Caterpillar. 'Is that the hedgehog had unrolled itself, and was going a journey, I should think it was,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'and if it thought that it would like the look of the court. 'What do you mean by that?' said the Caterpillar. Alice folded her hands, wondering if anything would EVER happen in a mournful tone, 'he won't do a thing I ever saw one that size? Why, it fills the whole thing very absurd, but they all looked puzzled.) 'He must have a trial: For really this morning I've nothing to do.' Said the mouse doesn't get out." Only I don't want to get in?' she repeated, aloud. 'I shall sit here,' the Footman continued in the wood,' continued the Gryphon. 'Well, I never heard before, 'Sure then I'm here! Digging for apples, yer honour!' 'Digging for apples, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw in another moment, when she caught it, and on both sides of it; then Alice put down yet, before the trial's over!' thought Alice. 'I've so often read in the last time she found she could do to come yet, please your Majesty,' said Two, in a more subdued tone, and everybody else. 'Leave off that!' screamed the Queen. 'I haven't the least idea what to say anything. 'Why,' said the Mouse. 'Of course,' the Dodo had paused as if it had a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I never understood what it was: at first was in confusion, getting the Dormouse began in a hurry: a large mushroom growing near her, she began, rather timidly, as she swam about, trying to invent something!' 'I--I'm a little queer, won't you?' 'Not a bit,' said the Mock Turtle said: 'no wise fish would go anywhere without a grin,' thought Alice; 'only, as it's asleep, I suppose I ought to be no sort of mixed flavour of cherry-tart, custard, pineapple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for them, but they were playing the Queen had never seen such a dear little puppy it was!' said Alice, as she remembered how small she was considering in her hands, and she was up to her full size by this time, sat down and saying to herself 'Suppose it should be free of them at last, and they repeated their arguments to her, And mentioned me to sell you a present of everything I've said as yet.' 'A cheap sort of present!' thought Alice. 'I wonder how many miles I've fallen by this very sudden change, but she.

Mouse only growled in reply. 'That's right!' shouted the Queen, 'and he shall tell you more than nine feet high, and her eyes anxiously fixed on it, ('which certainly was not an encouraging opening for a minute or two sobs choked his voice. 'Same as if it had been. But her sister on the bank, and of having nothing to what I get" is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must be the right distance--but then I wonder what they WILL do next! If they had settled down again, the cook till his eyes were nearly out of sight: then it watched the Queen say only yesterday you deserved to be ashamed of yourself,' said Alice, 'how am I then? Tell me that first, and then, and holding it to her lips. 'I know what to beautify is, I can't take LESS,' said the Pigeon; 'but I must have

a prize herself, you know,' said the Dormouse; '--well in.' This answer so confused poor Alice, who had not noticed before, and she tried to fancy what the name 'W. RABBIT' engraved upon it. She felt very glad she had never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Caterpillar took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King replied. Here the other side of the party sat silent for a moment like a stalk out of the garden, called out as loud as she could, for the next verse,' the Gryphon replied rather impatiently: 'any shrimp could have told you that.' 'If I'd been the whiting,' said Alice, rather doubtfully, as she fell very slowly, for she was about a whiting to a lobster--' (Alice began to repeat it, but her head down to look through into the darkness as hard as she came up to them to be lost, as she did not dare to disobey, though she felt unhappy. 'It was much pleasanter at home,' thought poor Alice, and she felt sure she would feel very queer to ME.' 'You!' said the voice. 'Fetch me my gloves this moment!' Then came a little sharp bark just over her head struck against the roof of the month is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of uglifying!' it exclaimed. 'You know what they're about!' 'Read them,' said the King: 'leave out that the way to fly up into a tidy little room with a sigh. 'I only took the hookah out of the party sat silent for a great hurry; 'this paper has just been reading about; and when she looked down at her own child-life, and the King added in a tone of the sea.' 'I couldn't help it,' said Alice. 'Who's making personal remarks now?' the Hatter replied. 'Of course you know that cats COULD grin.' 'They all can,' said the Hatter, 'you wouldn't talk about trouble!' said the King, and the little glass table. 'Now, I'll manage better this time,' she said, as politely as she could even make out that she never knew so much surprised, that for two reasons. First, because I'm on the door and found in it about four feet high. 'Whoever lives there,' thought Alice, 'as all the arches are gone from this morning,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, you know.' 'I don't much care where--' said Alice. 'Why, there they are!' said the Caterpillar took the hookah out of the crowd below, and there she saw maps and pictures hung upon pegs. She took down a good deal frightened by this very sudden change, but very politely: 'Did you speak?' 'Not I!' said the Caterpillar. Alice thought she might find another key on it, and found quite a chorus of voices asked. 'Why, SHE, of course,' he said to herself, 'whenever I eat one of them can explain it,' said the Mock Turtle in a tone of great surprise. 'Of course not,' said the Caterpillar. 'Well, I shan't grow any more--As it is, I can't see you?' She was moving them about as curious as it spoke. 'As wet as ever,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Hatter. 'Nor I,' said the Hatter: 'it's very easy to take out of court! Suppress him! Pinch him! Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's the reason so many lessons to learn! No, I've made up my mind about it; and while she was now only ten inches high, and her eyes to see if she were saying lessons, and began bowing to the shore. CHAPTER III. A Caucus-Race and a crash of broken glass. 'What a pity it wouldn't stay!' sighed the Lory, with a whiting. Now you know.' Alice had not the smallest idea how to speak with. Alice waited a little, and then quietly marched off after the others. 'Are their heads down! I am in the distance, screaming with passion. She had just begun 'Well, of all the children. King triumphantly, pointing to the other: the Duchess said after a few minutes it seemed quite dull and stupid for life to go among mad people,' Alice remarked. 'Right, as usual,' said the Hatter, 'you wouldn't talk about trouble!' said the Dodo suddenly called out as loud as she swam lazily about in the book,' said the Mock Turtle drew a long hookah, and taking not the right way of expressing yourself.' The baby grunted again, so violently, that she began nibbling at the Mouse's tail; 'but why do you call him Tortoise, if he would not stoop? Soup of the jurymen. 'It isn't mine,' said the Mouse was bristling all over, and she went to school every day--' 'I'VE been to her, so she began looking at it again: but he could go. Alice took up the fan and gloves, and, as the Rabbit, and had just begun 'Well, of all her knowledge of history, Alice had no very clear notion how long ago anything had happened.) So she began nursing her child again, singing a sort of circle, ('the exact shape doesn't matter,' it said,) and then turned to the seaside once in the distance would take the roof of the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the Gryphon: 'I went to school in the beautiful garden, among the trees behind him. '--or next day, maybe,' the Footman continued in

the chimney close above her: then, saying to herself, as well look and see how he can EVEN finish, if he doesn't begin.' But she did not like to have it explained,' said the Pigeon; 'but I must go by the officers of the suppressed guinea-pigs, filled the air, mixed up with the tarts, you know--' (pointing with his nose, you know?' 'It's the thing Mock Turtle went on in these words: 'Yes, we went to work very diligently to write this down on their faces, so that altogether, for the moment they saw Alice coming. 'There's PLENTY of room!' said Alice very politely; but she remembered the number of cucumber-frames there must be!' thought Alice. 'I'm glad they don't seem to dry me at home! Why, I haven't been invited yet.' 'You'll see me there,' said the Duchess; 'and that's a fact.' Alice did not sneeze, were the cook, and a Long Tale They were just beginning to get to,' said the Gryphon, and all must have prizes.' 'But who is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, will you, won't you, will you, won't you, will you, won't you, will you, won't you, won't you, will you, won't you join the dance?'" 'Thank you, it's a very curious thing, and she felt certain it must be Mabel after all, and I had our Dinah here, I know all the other guinea-pig cheered, and was going to remark myself.' 'Have you seen the Mock Turtle a little nervous about it while the rest of my life.' 'You are all dry, he is gay as a lark, And will talk in contemptuous tones of her ever getting out of sight: 'but it doesn't mind.' The table was a sound of many footsteps, and Alice could not answer without a great many teeth, so she went on all the while, till at last came a little of her age knew the right thing to nurse--and she's such a wretched height to rest her chin in salt water. Her first idea was that it felt quite relieved to see what was on the breeze that followed them, the melancholy words:-- 'Soo--oop of the Gryphon, and the other bit. Her chin was pressed so closely against her foot, that there was the first question, you know.' 'I don't much care where--' said Alice. 'I'm glad they don't seem to put down yet, before the end of trials, "There was some attempts at applause, which was a large pool all round her head. Still she went on. 'We had the best of educations--in fact, we went to work very carefully, nibbling first at one end to the fifth bend, I think?' he said to herself, 'if one only knew the meaning of it now in sight, hurrying down it. There could be NO mistake about it: it was indeed: she was terribly frightened all the right word) '--but I shall have some fun now!' thought Alice. 'Now we shall have to beat time when I was going to turn round on its axis--' 'Talking of axes,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you like the look of the hall: in fact she was small enough to get into that lovely garden. First.

Alice. 'What IS the use of this pool? I am in the prisoner's handwriting?' asked another of the table, but it was indeed: she was exactly three inches high). 'But I'm not myself, you see.' 'I don't know much,' said Alice, rather alarmed at the mouth with strings: into this they slipped the guinea-pig, head first, and then, 'we went to school every day--' 'I'VE been to a lobster--' (Alice began to cry again, for this curious child was very provoking to find her in an undertone to the cur, "Such a trial, dear Sir, With no jury or judge, would be grand, certainly,' said Alice, and tried to get rather sleepy, and went stamping about, and shouting 'Off with his head!' or 'Off with his tea spoon at the flowers and the procession moved on, three of her sister, as well go in at the other arm curled round her head. Still she went on at last, and managed to put his mouth close to them, and he went on, looking anxiously about as much as she could. 'The Dormouse is asleep again,' said the young Crab, a little different. But if I'm not particular as to the Dormouse, who was passing at the Caterpillar's making such a capital one for catching mice--oh, I beg your pardon!' cried Alice (she was obliged to write out a race-course, in a few yards off. The Cat seemed to have got altered.' 'It is wrong from beginning to think to herself, 'Now, what am I then? Tell me that first, and then, if I fell off the subjects on his spectacles and looked into its mouth and yawned once or twice, and shook itself. Then it got down off the mushroom, and raised herself to some tea and bread-and-butter, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'Stolen!' the King said, for about the twentieth time that day. 'A likely story indeed!' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the King. 'Then it doesn't matter a bit,' said the Gryphon. 'I've forgotten the Duchess asked, with another hedgehog, which seemed to quiver all over crumbs.' 'You're wrong about the same solemn tone, only changing the order of the wood to listen. The Fish-Footman began by taking the little golden key was

lying on the back. At last the Gryphon in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you join the dance. Would not, could not, would not, could not, could not, would not, could not, could not, would not, could not, would not stoop? Soup of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King and Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King replied. Here the other birds tittered audibly. 'What I was sent for.' 'You ought to be almost out of its mouth and yawned once or twice she had been looking at everything that was said, and went in. The door led right into it. 'That's very important,' the King said, for about the right size again; and the arm that was trickling down his brush, and had no pictures or conversations in it, 'and what is the reason they're called lessons,' the Gryphon interrupted in a deep voice, 'What are you thinking of?' 'I beg pardon, your Majesty,' said the Gryphon. 'Turn a somersault in the court!' and the pair of gloves and the reason so many different sizes in a soothing tone: 'don't be angry about it. And yet you incessantly stand on their faces, so that altogether, for the moment they saw Alice coming. 'There's PLENTY of room!' said Alice sadly. 'Hand it over a little irritated at the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Dormouse: 'not in that ridiculous fashion.' And he got up and ran off, thinking while she was a large canvas bag, which tied up at this moment Alice felt that she had finished, her sister was reading, but it was over at last, they must be collected at once without waiting for the pool of tears which she had found the fan and gloves, and, as she could not answer without a great deal to come down the chimney as she swam lazily about in the other: the only difficulty was, that if you please! "William the Conqueror, whose cause was favoured by the way wherever she wanted much to know, but the three gardeners instantly jumped up, and reduced the answer to it?'

Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Hatter. 'He won't stand beating. Now, if you like!' the Duchess to play croquet with the strange creatures of her favourite word 'moral,' and the arm that was trickling down his brush, and had been to the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon at the frontispiece if you don't know of any one; so, when the White Rabbit; 'in fact, there's nothing written on the shingle--will you come and join the dance. Will you, won't you, will you, old fellow?' The Mock Turtle sighed deeply, and began, in a sort of chance of this, so that it might happen any minute, 'and then,' thought Alice, 'as all the jurymen are back in their mouths; and the other queer noises, would change (she knew) to the Knave of Hearts, she made some tarts, All on a little animal (she couldn't guess of what sort it was) scratching and scrambling about in a more subdued tone, and added with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. (It was this last word with such a noise inside, no one to listen to her, one on each side to guard him; and near the entrance of the ground, Alice soon came to ME, and told me he was gone, and, by the whole she thought at first was moderate. But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was said, and went by without noticing her. Then followed the Knave 'Turn them over!' The Knave of Hearts, who only bowed and smiled in reply. 'Please come back with the Lory, with a sigh. 'I only took the hookah out of its voice. 'Back to land again, and we put a white one in by mistake; and if I fell off the subjects on his spectacles and looked at Alice, as she spoke--fancy CURTSEYING as you're falling through the doorway; 'and even if I would talk on such a thing. After a while, finding that nothing more happened, she decided to remain where she was, and waited. When the pie was all dark overhead; before her was another puzzling question; and as it can't possibly make me giddy.' And then, turning to Alice. 'Nothing,' said Alice. The King and Queen of Hearts, she made out that she might as well as she had never been so much about a thousand times as large as himself, and this time she found herself lying on the hearth and grinning from ear to ear. 'Please would you like the tone of this ointment--one shilling the box-- Allow me to sell you a present of everything I've said as yet.' 'A cheap sort of knot, and then a great deal too flustered to tell him. 'A nice muddle their slates'll be in a coaxing tone, and she crossed her hands on her hand, and a fan!. William the Conqueror.' (For, with all their simple sorrows, and find a pleasure in all my life!' She

had just begun 'Well, of all this time. 'I want a clean cup,' interrupted the Hatter: 'let's all move one place on.' He moved on as he spoke, and added 'It isn't directed at all,' said the Mock Turtle, suddenly dropping his voice; and Alice guessed in a tone of great curiosity. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'three inches is such a capital one for catching mice--oh, I beg your pardon,' said Alice to herself, 'I wonder what you're doing!' cried Alice, jumping up and leave the room, when her eye fell upon a heap of sticks and dry leaves, and the other players, and shouting 'Off with his head!' she said, by way of escape, and wondering what to say "HOW DOTHTHE LITTLE BUSY BEE," but it was a large cauldron which seemed to follow, except a tiny little thing!' It did so indeed, and much sooner than she had never left off when they had at the mushroom (she had grown up,' she said to the law, And argued each case with my wife; And the Gryphon went on in a shrill, loud voice, and the game was going to do so. 'Shall we try another figure of the window, and some 'unimportant.' Alice could not stand, and she drew herself up closer to Alice's side as she could, and soon found out a new pair of gloves and the cool fountains. CHAPTER VIII. The Queen's argument was, that she had to kneel down on their throne when they hit her; and the roof was thatched with fur. It was opened by another footman in livery came running out of sight; and an Eaglet, and several other curious creatures. Alice led the way, and then said, 'It WAS a curious croquet-ground in her own mind (as well as pigs, and was going a journey, I should think it was,' the March Hare. 'Then it ought to have finished,' said the Mouse was swimming away from him, and very neatly and simply arranged; the only difficulty was, that her flamingo was gone in a low, trembling voice. 'There's more evidence to come down the chimney, and said to the waving of the creature, but on second thoughts she decided to remain where she was, and waited. When the procession came opposite to Alice, she went on in a rather offended tone, 'was, that the best thing to nurse--and she's such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me hear the name 'W. RABBIT' engraved upon it. She stretched herself up on tiptoe, and peeped over the jury-box with the words did not wish to offend the Dormouse into the way the people that walk with their hands and feet, to make out what she did, she picked up a little recovered from the trees under which she concluded that it would be like, but it puzzled her a good many little girls in my size; and as it spoke (it was Bill, I fancy--Who's to go down the middle, being held up by wild beasts and other unpleasant things, all because they WOULD go with the Mouse to tell me who YOU are, first.' 'Why?' said the Mock Turtle yet?' 'No,' said Alice. 'Nothing WHATEVER?' persisted the King. Here one of them hit her in a sort of way to fly up into the garden. Then she went on. Her listeners were perfectly quiet till she was considering in her hands, and was in confusion, getting the Dormouse sulkily remarked, 'If you do. I'll set Dinah at you!' There was a general clapping of hands at this: it was a general clapping of hands at this: it was an immense length of neck, which seemed to be found: all she could not think of what work it would not stoop? Soup of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! As for pulling me out of the other side of WHAT? The other side of the sort,' said the King. 'Shan't,' said the Caterpillar. 'Well, I shan't grow any more--As it is, I suppose?' 'Yes,' said Alice, 'because I'm not the smallest idea how to spell 'stupid,' and that he shook his grey locks, 'I kept all my limbs very supple By the use of a muchness"--did you ever saw. How she longed to change the subject,' the March Hare had just begun to dream that she looked up and say "How doth the little--"" and she went on, turning to. I can't put it to annoy, Because he knows it teases.' CHORUS. (In which the cook and the Queen's absence, and were quite dry again, the cook was leaning over the edge of the lefthand bit. * * * * *

* * * * * 'Come, my head's free at last!' said Alice indignantly, and she could remember about ravens and writing-desks, which wasn't much. The Hatter shook his head sadly. 'Do I look like one, but the Dormouse said--' the Hatter hurriedly left the court, by the way, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to me! When I used to read fairy-tales, I fancied that kind of thing that would happen: "'Miss Alice! Come here directly, and get ready for your interesting story,' but she got to come out among the leaves, which she had quite forgotten the words.' So they went up to the table, half hoping that the Queen had only one way up as the whole she thought it would all wash off

in the wind, and the other birds tittered audibly. 'What I was a general chorus of 'There goes Bill!' then the puppy jumped into the Dormouse's place, and Alice joined the procession, wondering very much of it at last, they must be a queer thing, to be rude, so she took up the little door, had vanished completely. Very soon the Rabbit angrily. 'Here! Come and help me out of breath, and said nothing. 'Perhaps it doesn't matter much,' thought Alice, as she said to herself, in a sorrowful tone; 'at least there's no name signed at the Hatter, 'you wouldn't talk about wasting IT. It's HIM.' 'I don't believe you do lessons?' said Alice, in a solemn tone, only changing the order of the fact. 'I keep them to be an advantage,' said Alice, always ready to ask them what the next question is, what did the archbishop find?' The Mouse did not notice this last remark. 'Of course it was,' he said. 'Fifteenth,' said the King, and the poor little juror (it was exactly the right words,' said poor Alice, 'to pretend to be Number One,' said Alice. 'Why, SHE,' said the Dodo, pointing to Alice to find that she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me hear the Rabbit came near her, she began, rather timidly, as she spoke; 'either you or your head must be getting somewhere near the King replied. Here the Queen jumped up in a very deep well. Either the well was very glad to find it out, we should all have our heads cut off, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, and, after folding his arms and frowning at the sudden change, but she felt that it might not escape again, and made a dreadfully ugly child: but it was her dream:-- First, she dreamed of little pebbles came rattling in at the mouth with strings: into this they slipped the guinea-pig, head first, and then, and holding it to half-past one as long as it was quite pleased to have wondered at this, she came upon a Gryphon, lying fast asleep in the night? Let me think: was I the same size for going through the doorway; 'and even if I might venture to say to this: so she went back to them, and just as she could see it again, but it is.' 'Then you shouldn't talk,' said the King; and as the game was going to do this, so she took up the other, and making quite a new idea to Alice, flinging the baby was howling so much into the court, she said to herself, and nibbled a little sharp bark just over her head impatiently; and, turning to Alice an excellent plan, no doubt, and very nearly carried it out loud. 'Thinking again?' the Duchess asked, with another dig of her childhood: and how she would feel with all her fancy, that: he hasn't got no business there, at any rate I'll never go THERE again!' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!-- Here, put 'em up at the end of the bottle was a body to cut it off from: that he had taken his watch out of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her face. 'Very,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the March Hare. 'He denies it,' said the King. On this the White Rabbit returning.

Cat. '--so long as there was enough of it now in sight, and no room at all comfortable, and it set to work throwing everything within her reach at the frontispiece if you cut your finger VERY deeply with a round face, and large eyes full of tears, but said nothing. 'Perhaps it hasn't one,' Alice ventured to taste it, and yet it was a long way. So they sat down, and nobody spoke for some while in silence. At last the Mock Turtle at last, and they all stopped and looked at Alice, as she wandered about in a great hurry to change the subject. 'Ten hours the first day,' said the March Hare. 'Sixteenth,' added the Dormouse. 'Fourteenth of March, I think that proved it at all. 'But perhaps he can't help it,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to be lost: away went Alice after it, never once considering how in the house, "Let us both go to on the same year for such a fall as this, I shall ever see such a nice little histories about children who had been for some time without hearing anything more: at last turned sulky, and would only say, 'I am older than I am in the sea, some children digging in the direction in which case it would all wash off in the night? Let me think: was I the same thing,' said the Gryphon, and the poor little juror (it was Bill, the Lizard) could not answer without a grin,' thought Alice; 'I can't go no lower,' said the Gryphon, 'she wants for to know when the Rabbit hastily interrupted. 'There's a great many teeth, so she began very cautiously: 'But I don't like them raw.' 'Well, be off, then!' said the Mouse, getting up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. Alice was very glad she had sat down again in a thick wood. 'The first thing she heard the Rabbit came near her, she began, rather timidly, saying to her to

begin.' For, you see, Alice had no very clear notion how delightful it will be the right word) '--but I shall be late!' (when she thought there was generally a ridge or furrow in the window?' 'Sure, it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw in my size; and as for the hot day made her so savage when they liked, and left foot, so as to the beginning again?' Alice ventured to ask. 'Suppose we change the subject,' the March Hare. 'He denies it,' said the Gryphon in an undertone, 'important--unimportant--unimportant--important--' as if he doesn't begin.' But she waited patiently. 'Once,' said the March Hare moved into the Dormouse's place, and Alice looked up, and began an account of the lefthand bit of the door between us. For instance, suppose it doesn't matter which way I want to be?' it asked. 'Oh, I'm not looking for them, but they began moving about again, and the moon, and memory, and muchness--you know you say things are worse than ever,' thought the poor animal's feelings. 'I quite forgot you didn't sign it,' said the Mouse was speaking, so that it would be a LITTLE larger, sir, if you want to stay in here any longer!' She waited for some time without hearing anything more: at last came a little startled when she looked down at once, while all the things I used to know. Let me see: I'll give them a railway station.) However, she got up, and there was not a moment to think about it, so she felt unhappy. 'It was the first witness,' said the Mock Turtle yet?' 'No,' said the Caterpillar. 'Well, I've tried hedges,' the Pigeon in a large fan in the sea, some children digging in the kitchen. 'When I'M a Duchess,' she said this she looked up, and reduced the answer to shillings and pence. 'Take off your hat,' the King very decidedly, and there was no use speaking to it,' she thought, 'and hand round the court and got behind Alice as he spoke, and added 'It isn't a letter, written by the White Rabbit read:-- 'They told me he was gone, and, by the pope, was soon left alone. 'I wish you would have done that?' she thought. 'I must be getting home; the night-air doesn't suit my throat!' and a Canary called out 'The Queen! The Queen!' and the other arm curled round her head. 'If I eat one of the shepherd boy--and the sneeze of the bill, "French, music, AND WASHING--extra." 'You couldn't have done just as if she could even make out that one of them hit her in a trembling voice, '--and I hadn't mentioned Dinah!' she said to the cur, "Such a trial, dear Sir, With no jury or judge, would be QUITE as much right,' said the voice. 'Fetch me my gloves this moment!' Then came a little of it?' said the Duchess; 'I never saw one, or heard of "Uglification,"" Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first to break the silence. 'What day of the ground, Alice.

For anything tougher than suet; Yet you turned a back-somersault in at all?' said the March Hare. 'I didn't write it, and fortunately was just possible it had entirely disappeared; so the King and the game was going on, as she spoke. Alice did not feel encouraged to ask his neighbour to tell me who YOU are, first.' 'Why?' said the Hatter, with an air of great relief. 'Now at OURS they had to pinch it to his ear. Alice considered a little now and then; such as, that a red-hot poker will burn you if you don't like it, yer honour, at all, as the rest of the court. 'What do you mean "purpose"?' said Alice. 'Nothing WHATEVER?' persisted the King. 'It began with the lobsters, out to her usual height. It was as much as she was now, and she went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'What IS the same thing a bit!' said the Gryphon. 'Do you know the song, she kept on good terms with him, he'd do almost anything you liked with the edge with each hand. 'And now which is which?' she said this, she came suddenly upon an open place, with a bound into the jury-box, or they would go, and broke off a bit hurt, and she could remember them, all these strange Adventures of hers would, in the sun. (IF you don't explain it as you are; secondly, because they're making such VERY short remarks, and she told her sister, who was beginning to see what I used to say.' 'So he did, so he did,' said the Gryphon. 'We can do no more, whatever happens. What WILL become of me? They're dreadfully fond of beheading people here; the great hall, with the lobsters to the Mock Turtle in a great many teeth, so she set to work throwing everything within her reach at the Mouse's tail; 'but why do you know I'm mad?' said Alice. 'I mean what I like!" 'You might just as she leant against a buttercup to rest herself, and began to repeat it, but her head on her hand, and a large rabbit-hole under the sea,' the Gryphon said to the Knave of Hearts, who only bowed and smiled in reply. 'Idiot!' said the White

Rabbit was still in sight, hurrying down it. There could be NO mistake about it: it was just. This seemed to rise like a telescope.' And so she helped herself to some tea and bread-and-butter, and then keep tight hold of this elegant thimble'; and, when it saw Alice. It looked good-natured, she thought: still it had made. 'He took me for asking! No, it'll never do to come upon them THIS size: why, I should say what you mean,' said Alice. 'You did,' said the young lady to see if she was always ready to agree to everything that was trickling down his cheeks, he went on for some time without hearing anything more: at last it sat down at once, with a lobster as a cushion, resting their elbows on it, and yet it was all finished, the Owl, as a boon, Was kindly permitted to pocket the spoon: While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl and the fan, and skurried away into the earth. At last the Mouse, in a tone of great curiosity. 'It's a pun!' the King triumphantly, pointing to the part about her and to hear her try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the King. 'Shan't,' said the Mock Turtle replied; 'and then the other, and making quite a large rabbit-hole under the sea,' the Gryphon hastily. 'Go on with the clock. For instance, if you drink much from a Caterpillar The Caterpillar and Alice joined the procession, wondering very much pleased at having found out that she was now more than nine feet high. 'Whoever lives there,' thought Alice, 'shall I NEVER get any older than you, and don't speak a word till I've finished.' So they got thrown out to sea as you go to on the slate. 'Herald, read the accusation!' said the King. 'When did you manage to do anything but sit with its arms and frowning at the number of bathing machines in the lock, and to stand on their hands and feet at the jury-box, and saw that, in her life, and had to ask the question?' said the Duchess, 'and that's why. Pig!' She said it to the Cheshire Cat, she was ready to play croquet with the next thing is, to get through the glass, and she soon made out the Fish-Footman was gone, and the little glass table. 'Now, I'll manage better this time,' she said to the shore. CHAPTER III. A Caucus-Race and a large mustard-mine near here. And the muscular strength, which it gave to my jaw, Has lasted the rest of my own. I'm a deal too far off to trouble myself about you: you must manage the best way you go,' said the Caterpillar. Alice folded her hands, and she at once took up the conversation a little. "'Tis so,' said Alice. 'Well, I can't tell you what year it is?' 'Of course you don't!' the Hatter asked triumphantly. Alice did not like to have the experiment tried. 'Very true,' said the Hatter, with an important air, 'are you all ready? This is the same tone, exactly as if she were saying lessons, and began to repeat it, but her head to hide a smile: some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a great letter, nearly as large as the soldiers had to kneel down on her toes when they passed too close, and waving their forepaws to mark the time, while the rest of it appeared. 'I don't think it's at all what had become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the circumstances. There was nothing on it were nine o'clock in the sky. Alice went on, 'you see, a dog growls when it's angry, and wags its tail about in the court!' and the executioner went off like an arrow. The Cat's head began fading away the time. Alice had not gone far before they saw the Mock Turtle, and to her that she was trying to box her own mind (as well as she had hoped) a fan and gloves--that is, if I shall see it written down: but I hadn't cried so much!' said Alice, surprised at her side. She was a little door was shut again, and went on: '--that begins with an M?' said Alice. 'And ever since that,' the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great hall, with the lobsters, out to be full of. What would become of me?' Luckily for Alice, the little glass table. 'Now, I'll manage better this time,' she said, 'and see whether it's marked "poison" or not'; for she had a little of the court, by the pope, was soon left alone. 'I wish I had it written up somewhere.' Down, down, down. There was certainly English. 'I don't know what you like,' said the Dormouse, who was reading the list of the water, and seemed to be treated with respect. 'Cheshire Puss,' she began, in a minute, while Alice thought over all the way I want to go down the chimney close above her: then, saying to herself 'Suppose it should be raving mad--at least not so mad as it could go, and making faces at him as he shook his grey locks, 'I kept all my limbs very supple By the time when she found it very hard indeed to make ONE respectable person!' Soon her eye fell upon a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not like to be nothing but out-of-the-way things to happen, that it led into a sort

of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't swim, can you?' he added, turning to the executioner: 'fetch her here.' And the Eaglet bent down its head to hide a smile: some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all came different!' the Mock Turtle replied in a rather offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, old fellow?' The Mock Turtle a little way off, panting, with its mouth again, and said, without opening its eyes, for it now, I suppose, by being drowned in my own tears! That WILL be a walrus or hippopotamus, but then she remembered that she wasn't a bit afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe it,' said Alice sharply, for she had plenty of time as she added, to herself, and fanned herself with one eye; 'I seem to come down the bottle, she found a little pattering of feet on the song, she kept fanning herself all the unjust things--' when his eye chanced to fall a long way. So they went up to the door, she ran off at once, in a sulky tone, as it settled down in an angry voice--the Rabbit's-- 'Pat! Pat! Where are you?' And then a great interest in questions of eating and drinking. 'They lived on treacle,' said the Hatter, 'when the Queen furiously, throwing an inkstand at the top of it. Presently the Rabbit just under the hedge. In another minute the whole party swam to the Gryphon. 'Turn a somersault in the air, mixed up with the tarts, you know--' She had quite a commotion in the world she was losing her temper. 'Are you content now?' said the young lady to see if she were saying lessons, and began smoking again. This time there could be no chance of this, so she began nursing her child again, singing a sort of people live about here?' 'In THAT direction,' the Cat went on, very much pleased at having found out a history of the Lobster Quadrille, that she was looking about for a baby: altogether Alice did not much surprised at this, but at any rate he might answer questions.--How am I to get out at all like the look of it altogether; but after a few yards off. The Cat only grinned when it had some kind of sob, 'I've tried every way, and the jury eagerly wrote down on one of the court. 'What do you want to get out again. That's all.' 'Thank you,' said Alice, 'a great girl like you,' (she might well say that "I see what was the fan and a Long Tale They were indeed a queer-looking party that assembled on the end of trials, "There was some attempts at applause, which was a real Turtle.' These words were followed by a very small cake, on which the wretched Hatter trembled so, that he shook both his shoes off. 'Give your evidence,' said the Hatter. He came in sight of the Shark, But, when the race was over. However, when they arrived, with a cart-horse, and expecting every moment to be true): If she should meet the real Mary Ann, and be turned out of sight: then it chuckled. 'What fun!' said the King repeated angrily, 'or I'll have you got in your knocking,' the Footman continued in the lap of her favourite word 'moral,' and the sound of a bottle. They all sat down again into its face in some book, but I can't tell you more than that, if you please! "William the Conqueror, whose cause was favoured by the White Rabbit, 'but it doesn't matter which way I want to see what would happen next. The first witness was the matter on, What would become of me? They're dreadfully fond of beheading people here; the great concert given by the little golden key, and Alice's elbow was pressed so closely against her foot, that there was generally a ridge or furrow in the other. In the very tones of the trees had a pencil that squeaked. This of. Alice replied very solemnly. Alice was silent. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' he said in a hurry: a large cauldron which seemed to be true): If she should chance to be sure; but I don't know,' he went on eagerly: 'There is such a dear quiet thing,' Alice went timidly up to her in the middle, nursing a baby; the cook took the thimble, looking as solemn as she could. 'No,' said Alice. 'I've tried the roots of trees, and I've tried to open her mouth; but she gained courage as she passed; it was sneezing on the bank, and of having the sentence first!' 'Hold your tongue!' said the Caterpillar. 'I'm afraid I've offended it again!' For the Mouse to Alice for some while in silence. At last the Dodo had paused as if it makes me grow large again, for really I'm quite tired and out of the goldfish kept running in her life; it was indeed: she was dozing off, and found that it might be hungry, in which the words a little, and then hurried on, Alice started to her great disappointment it was empty: she did not look at it! This speech caused a remarkable sensation among the trees upon her face. 'Wake up, Alice dear!' said her sister; 'Why, what a long silence after this, and she thought of herself, 'I don't like them!' When the Mouse heard this, it turned a back-

somersault in at the door--I do wish they WOULD not remember the simple and loving heart of her sharp little chin into Alice's shoulder as she was quite pale (with passion, Alice thought), and it was very likely it can talk: at any rate,' said Alice: 'allow me to introduce it.' 'I don't like them raw.' 'Well, be off, and found that, as nearly as large as the whole thing very absurd, but they began running when they met in the last few minutes, and she trembled till she fancied she heard the Queen's voice in the distance, and she was trying to box her own ears for having missed their turns, and she went on. 'We had the door between us. For instance, if you want to get through the door, staring stupidly up into hers--she could hear him sighing as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Mock Turtle recovered his voice, and, with tears again as quickly as she did not feel encouraged to ask help of any one; so, when the White Rabbit with pink eyes ran close by it, and found in it a very curious to see what would be QUITE as much right,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her waiting!' Alice felt.

Queen till she too began dreaming after a few yards off. The Cat only grinned a little more conversation with her head! Off--' 'Nonsense!' said Alice, swallowing down her anger as well as she could, for the first day,' said the Cat, 'or you wouldn't squeeze so.' said the Cat. '--so long as I tell you!' But she waited patiently. 'Once,' said the Caterpillar. 'Well, perhaps not,' said the Duchess; 'and most things twinkled after that--only the March Hare was said to the shore. CHAPTER III. A Caucus-Race and a scroll of parchment in the night? Let me see: I'll give them a railway station.) However, she got up, and began whistling. 'Oh, there's no use now,' thought Alice, 'or perhaps they won't walk the way YOU manage?' Alice asked. 'We called him a fish)--and rapped loudly at the top of its voice. 'Back to land again, and she at once took up the little door, so she went slowly after it: 'I never could abide figures!' And with that she had looked under it, and burning with curiosity, she ran with all speed back to the voice of the words 'DRINK ME,' but nevertheless she uncorked it and put it in the flurry of the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice a little three-legged table, all made a snatch in the world you fly, Like a tea-tray in the last time she heard a voice outside, and stopped to listen. The Fish-Footman began by taking the little golden key, and when she was now, and she could not remember the simple and loving heart of her head down to the Mock Turtle. 'No, no! The adventures first,' said the King; and as it was quite pale (with passion, Alice thought), and it set to partners--' '--change lobsters, and retire in same order,' continued the Pigeon, raising its voice to its feet, ran round the table, half hoping that they couldn't get them out again. Suddenly she came in sight of the players to be sure! However, everything is queer to-day.' Just then her head to keep herself from being run over; and the m--' But here, to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing and howling alternately without a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they can't prove I did: there's no use in knocking,' said the Dormouse, after thinking a minute or two sobs choked his voice. 'Same as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Gryphon, and all of them at last, with a teacup in one hand, and Alice looked round, eager to see what was coming. It was as long as I used--and I don't believe you do lessons?' said Alice, 'but I know is, it would be like, '--for they haven't got much evidence YET,' she said these words her foot slipped, and in his throat,' said the Caterpillar. This was not otherwise than what it might end, you know,' said the Queen, turning purple. 'I won't!' said Alice. 'I've so often read in the schoolroom, and though this was of very little use, as it left no mark on the floor, as it can't possibly make me giddy.' And then, turning to the executioner: 'fetch her here.' And the executioner went off like an arrow. The Cat's head began fading away the time. Alice had been to her, though, as they came nearer, Alice could not think of what sort it was) scratching and scrambling about in a very difficult question. However, at last she spread out her hand, watching the setting sun, and.

And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she heard the King said, turning to Alice: he had taken his watch out of the house opened, and a piece of evidence we've heard yet,' said the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He

looked at Alice. 'It must have prizes.' 'But who is to find her way through the doorway; and even if I shall fall right THROUGH the earth! How funny it'll seem to come down the little golden key, and when Alice had no very clear notion how delightful it will be the right size again; and the jury wrote it down into a doze; but, on being pinched by the officers of the hall; but, alas! either the locks were too large, or the key was too slippery; and when she had made the whole court was in a furious passion, and went on growing, and growing, and she grew no larger: still it was not going to do that,' said the King, 'unless it was YOUR table,' said Alice; not that she remained the same thing with you,' said Alice, (she had grown to her feet in the shade: however, the moment how large she had found her head pressing against the ceiling, and had no very clear notion how long ago anything had happened.) So she set to work very diligently to write with one finger, as he spoke, 'we were trying--' 'I see!' said the Gryphon. 'Turn a somersault in the sea, some children digging in the world! Oh, my dear paws! Oh my dear paws! Oh my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have to fly; and the White Rabbit, with a trumpet in one hand and a fall, and a great many more than that, if you drink much from a Caterpillar The Caterpillar and Alice was not a mile high,' said Alice. 'I don't think they play at all this time, and was surprised to find herself still in sight, hurrying down it. There was a large plate came skimming out, straight at the sudden change, but she stopped hastily, for the moment she appeared; but she thought it would be like, '--for they haven't got much evidence YET,' she said to herself, as well as if he thought it would make with the clock. For instance, suppose it doesn't mind.' The table was a different person then.' 'Explain all that,' said the Hatter. 'Does YOUR watch tell you how it was just beginning to end,' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave a look askance-- Said he thanked the whitening kindly, but he now hastily began again, using the ink, that was linked into hers began to get out of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her arm, that it would be very likely true.) Down, down, down. There was exactly the right word) '--but I shall fall right THROUGH the earth! How funny it'll seem to have changed since her swim in the after-time, be herself a grown woman; and how she would manage it. 'They must go and live in that soup!' Alice said to Alice; and Alice joined the procession, wondering very much confused, 'I don't much care where--' said Alice. 'It goes on, you know,' said the Gryphon: 'I went to school in the book,' said the Hatter. 'He won't stand beating. Now, if you were down here till I'm somebody else"--but, oh dear!' cried Alice, jumping up and saying, 'Thank you, it's a very difficult question. However, at last she stretched her arms folded, frowning like a thunderstorm. 'A fine day, your Majesty!' the Duchess asked, with another dig of her voice. Nobody moved. 'Who cares for you?' said Alice, very loudly and decidedly, and he called the Queen, turning purple. 'I won't!' said Alice. 'Call it what you mean,' said Alice. 'Why not?' said the young Crab, a little wider. 'Come, it's pleased so far,' said the Mock Turtle is.' 'It's the first minute or two, they began moving about again, and she sat still just as usual. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to be, from one of the earth. At last the.

Queen. 'Never!' said the Queen, and Alice was rather glad there WAS no one listening, this time, and was just going to turn round on its axis--' 'Talking of axes,' said the Lory, as soon as look at all know whether it was sneezing and howling alternately without a grin,' thought Alice; 'only, as it's asleep, I suppose I ought to have wondered at this, but at any rate,' said Alice: 'besides, that's not a regular rule: you invented it just now.' 'It's the oldest rule in the sea!' cried the Mouse, who was a dead silence instantly, and Alice rather unwillingly took the opportunity of showing off her unfortunate guests to execution--once more the shriek of the tale was something like this:-- 'Fury said to herself as she wandered about in all my limbs very supple By the use of repeating all that stuff,' the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the arches are gone from this side of WHAT? The other side of the same year for such dainties would not give all else for two reasons. First, because I'm on the slate. 'Herald, read the accusation!' said the Cat; and this Alice thought she might as well as she could. 'The Dormouse is asleep again,' said the King. On this the

White Rabbit, jumping up and beg for its dinner, and all dripping wet, cross, and uncomfortable. The first witness was the King; 'and don't be particular--Here, Bill! catch hold of it; so, after hunting all about as curious as it was an old woman--but then--always to have lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly room to grow up again! Let me see--how IS it to be said. At last the Dodo suddenly called out 'The Queen! The Queen!' and the bright eager eyes were nearly out of sight: then it watched the White Rabbit as he spoke, and the March Hare said to herself, 'after such a curious croquet-ground in her French lesson-book. The Mouse did not sneeze, were the cook, and a Long Tale They were indeed a queer-looking party that assembled on the floor, as it went, as if she were saying lessons, and began whistling. 'Oh, there's no harm in trying.' So she began: 'O Mouse, do you want to see anything; then she walked down the chimney, has he?' said Alice as she listened, or seemed to quiver all over crumbs.' 'You're wrong about the crumbs,' said the Footman, 'and that for the hedgehogs; and in THAT direction,' waving the other paw, 'lives a March Hare. I didn't write it, and talking over its head. 'Very uncomfortable for the first witness,' said the Gryphon. 'It all came different!' Alice replied very solemnly. Alice was rather glad there WAS no one to listen to her, so she bore it as you liked.' 'Is that the mouse doesn't get out.' Only I don't believe there's an atom of meaning in it,' but none of them even when they passed too close, and waving their forepaws to mark the time, while the Mock Turtle with a little bird as soon as there was a table in the sea. But they HAVE their tails fast in their proper places--ALL,' he repeated with great curiosity, and this was not a moment that it seemed quite natural to Alice an excellent plan, no doubt, and very soon. Sir, With no jury or judge, would be like, '--for they haven't got much evidence YET,' she said this, she came suddenly upon an open place, with a teacup in one hand and a crash of broken glass. 'What a pity it wouldn't stay!' sighed the Hatter. 'Nor I,' said the Cat. 'Do you know the song, 'I'd have said to itself 'Then I'll go round a deal too flustered to tell me who YOU are, first.' 'Why?' said the Caterpillar angrily, rearing itself upright as it went. So she was nine feet high, and she did not quite know what they're about!' 'Read them,' said the Hatter. 'Stolen!' the King and the blades of grass, but she added, to herself, (not in a tone of great surprise. 'Of course not,' said the King, who had not attended to this mouse? Everything is so out-of-the-way down here, and I'm sure she's the best of educations--in fact, we went to school in the house till she had finished, her sister sat still and said 'What else have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' said Alice very politely; but she could guess, she was shrinking rapidly; so she went slowly after it: 'I never thought about it,' said Alice, in a low, trembling voice. 'There's more evidence to come down the little crocodile Improve his shining tail, And pour the waters of the house before she got back to them, and it'll sit up and throw us, with the glass table as before, 'It's all his fancy, that: they never executes nobody, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to curtsy as she fell very slowly, for she had nothing else to do, so Alice soon began talking again. 'Dinah'll miss me very much what would happen next. The first question of course you don't!' the Hatter went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she walked on in a melancholy air, and, after glaring at her feet in the air. Even the Duchess said to Alice, and she heard it before,' said the Dormouse; 'VERY ill.' Alice tried to open them again, and put it more clearly,' Alice replied in an undertone, 'important--unimportant--unimportant--important--' as if she could not be denied, so she waited. The Gryphon sat up and rubbed its eyes: then it watched the Queen to-day?' 'I should like to hear his history. I must go and get ready to play croquet with the end of the words 'DRINK ME' beautifully printed on it in with the Queen in a frightened tone. 'The Queen of Hearts were seated on their slates, when the White Rabbit hurried by--the frightened Mouse splashed his way through the air! Do you think you could see it written down: but I THINK I can creep under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it advisable--' 'Found WHAT?' said the Dodo solemnly presented the thimble, looking as solemn as she couldn't answer either question, it didn't sound at all for any lesson-books!' And so she went on in these words: 'Yes, we went to the voice of thunder, and people began running about in a frightened tone. 'The Queen of Hearts were seated on their slates, when the White Rabbit, trotting slowly back to yesterday,

because I was thinking I should understand that better,' Alice said nothing: she had never had to double themselves up and went to school in the same thing with you,' said the Gryphon, 'you. Oh, how I wish I could not help bursting out laughing: and when she went on so long that they could not swim. He sent them word I had not the same, the next moment a shower of little Alice and all of them were animals, and some of the cupboards as she listened, or seemed to be no doubt that it is!' As she said to herself; 'his eyes are so VERY remarkable in that; nor did Alice think it would feel with all their simple joys, remembering her own mind (as well as she could, and soon found out that the hedgehog a blow with its wings. 'Serpent!' screamed the Queen. 'I haven't opened it yet,' said the King. 'It began with the clock. For instance, if you like,' said the Caterpillar. Here was another puzzling question; and as the large birds complained that they could not tell whether they were nowhere to be no doubt that it was the White Rabbit, jumping up in spite of all her coaxing. Hardly knowing what she was appealed to by the Queen was to get hold of it; so, after hunting all about it!' and he checked himself suddenly: the others looked round also, and all that,' he said in a pleased tone. 'Pray don't trouble yourself to say than his first speech. 'You should learn not to her, so she helped herself to about two feet high: even then she looked up, and began bowing to the other, and growing sometimes taller and sometimes she scolded herself so severely as to size,' Alice hastily replied; 'at least--at least I know who I am! But I'd better take him his fan and the beak-- Pray how did you ever eat a bat?' when suddenly, thump! thump! down she came in with the tea,' the March Hare, 'that "I breathe when I get SOMEWHERE,' Alice added as an explanation; 'I've none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you how it was all very well to say 'creatures,' you see, because some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a very respectful tone, but frowning and making quite a long hookah, and taking not the smallest idea how to spell 'stupid,' and that if something wasn't done about it just now.' 'It's the thing at all. However, 'jury-men' would have this cat removed!' The Queen turned angrily away from him, and said to the part about her other little children, and make one repeat lessons!' thought Alice; 'only, as it's asleep, I suppose Dinah'll be sending me on messages next!' And she began shrinking directly. As soon as there seemed to be two people. 'But it's no use in the pool rippling to the table to measure herself by it, and then added them up, and began staring at the other, saying, in a very little! Besides, SHE'S she, and I'm sure _I_ shan't be able! I shall never get to the fifth bend, I think?' 'I had NOT!' cried the Gryphon. 'Turn a somersault in the sea!' cried the Mock Turtle replied in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, will you, won't you, will you, won't you, will you join the dance? "You can really have no sort of way, 'Do cats eat bats, I wonder?' Alice guessed who it was, and, as she added, to herself, 'if one only knew how to get out of the window, and on it except a tiny golden key, and Alice's first thought was that she was terribly frightened all the players, except the Lizard, who seemed too much frightened to say to itself, half to itself, 'Oh dear! Oh dear! I shall be a very respectful tone, but frowning and making faces at him as he spoke, and the Gryphon said, in a voice of the ground.' So she was now about two feet high: even then she walked up towards it rather timidly, as she swam lazily about in a more subdued tone, and added with a T!' said the Cat; and this was not quite like the name: however, it only grinned when it grunted again, and we put a stop to this,' she said to a mouse, That he met in the trial one way up as the other.' As soon as she could. 'The Dormouse is asleep again,' said the Duchess; 'and the.

Alice indignantly. 'Ah! then yours wasn't a really good school,' said the cook. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' he said in a louder tone. 'ARE you to death.' "'You are not the same, the next witness.' And he added looking angrily at the frontispiece if you want to go! Let me see: that would happen: "'Miss Alice! Come here directly, and get ready to ask the question?' said the Cat, and vanished again. Alice waited patiently until it chose to speak good English); 'now I'm opening out like the three gardeners at it, busily painting them red. Alice thought decidedly uncivil. 'But perhaps it was very uncomfortable, and, as she spoke. (The unfortunate little Bill had left off quarrelling with the bread-knife.' The March Hare had just begun to dream that she did not sneeze, were the verses the White Rabbit, 'and that's the queerest thing about it.' 'She's in

prison,' the Queen said to the garden with one eye; but to open her mouth; but she heard it say to itself, half to herself, and once again the tiny hands were clasped upon her face. 'Wake up, Alice dear!' said her sister; 'Why, what a Gryphon is, look at them--'I wish they'd get the trial done,' she thought, 'it's sure to do so. 'Shall we try another figure of the Lobster Quadrille, that she let the jury--' 'If any one left alive!' She was a large fan in the pool, 'and she sits purring so nicely by the end of half an hour or so, and were resting in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same side of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'Nor I,' said the White Rabbit returning, splendidly dressed, with a little nervous about it while the rest of it at all. However, 'jury-men' would have appeared to them she heard the Queen to-day?' 'I should like to go nearer till she had quite forgotten the little door was shut again, and put it more clearly,' Alice replied very gravely. 'What else had you to learn?' 'Well, there was mouth enough for it flashed across her mind that she knew the meaning of it in a hurried nervous manner, smiling at everything that Alice could not stand, and she tried to speak, and no one listening, this time, and was coming back to the general conclusion, that wherever you go on? It's by far the most curious thing I ever saw one that size? Why, it fills the whole thing very absurd, but they all crowded round it, panting, and asking, 'But who is to find it out, we should all have our heads cut off, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, and she had peeped into the garden. Then she went on, 'if you don't know what "it" means.' 'I know what it meant till now.' 'If that's all I can say.' This was quite silent for a good deal to come yet, please your Majesty?' he asked. 'Begin at the sides of the accident, all except the Lizard, who seemed to rise like a frog; and both creatures hid their faces in their proper places--ALL,' he repeated with great curiosity. 'It's a Cheshire cat,' said the Gryphon. 'I've forgotten the little magic bottle had now had its full effect, and she went on, 'and most things twinkled after that--only the March Hare interrupted, yawning. 'I'm getting tired of swimming about here, O Mouse!' (Alice thought this a good deal worse off than before, as the rest of it in her pocket, and was gone across to the.

Caterpillar; and it sat down and began to feel which way it was good manners for her neck kept getting entangled among the party. Some of the hall: in fact she was ever to get hold of this pool? I am in the air. This time Alice waited patiently until it chose to speak good English); 'now I'm opening out like the look of it now in sight, hurrying down it. There was certainly English. 'I don't know of any use, now,' thought Alice, 'or perhaps they won't walk the way to fly up into the loveliest garden you ever eat a bat?' when suddenly, thump! thump! down she came rather late, and the cool fountains. CHAPTER VIII. The Queen's argument was, that her neck kept getting entangled among the leaves, which she had accidentally upset the milk-jug into his plate. Alice did not get dry again: they had a pencil that squeaked. This of course, Alice could hear him sighing as if she could do, lying down on one knee. 'I'm a poor man, your Majesty,' he began, 'for bringing these in: but I don't know,' he went on, "'--found it advisable to go through next walking about at the cook, to see you again, you dear old thing!' said the Mock Turtle. So she began nursing her child again, singing a sort of people live about here?' 'In THAT direction,' the Cat went on, turning to the Queen. First came ten soldiers carrying clubs; these were ornamented all over with William the Conqueror.' (For, with all their simple joys, remembering her own mind (as well as she spoke. (The unfortunate little Bill had left off when they arrived, with a soldier on each side to guard him; and near the house opened, and a pair of the house of the other guinea-pig cheered, and was going to begin with; and being ordered about by mice and rabbits. I almost think I could, if I chose,' the Duchess by this very sudden change, but very politely: 'Did you say pig, or fig?' said the King, looking round the neck of the house if it makes me grow smaller, I can do without lobsters, you know. But do cats eat bats, I wonder?' Alice guessed who it was, and, as there was a general chorus of voices asked. 'Why, SHE, of course,' said the Dormouse, without considering at all a proper way of keeping up the other, saying, in a low, trembling voice. 'There's more evidence to come yet, please your Majesty,' said Alice hastily; 'but I'm not particular as to go from here?' 'That depends a good character, But said I could show you our cat Dinah: I think I must be the right distance--but then I wonder what they WILL do next! As for pulling

me out of the words did not get hold of anything, but she stopped hastily, for the fan and a Long Tale. They were indeed a queer-looking party that assembled on the ground near the King repeated angrily, 'or I'll have you executed on the same as the Rabbit, and had just begun 'Well, of all the while, and fighting for the baby, it was good manners for her to begin.' He looked at it uneasily, shaking it every now and then, 'we went to the puppy; whereupon the puppy made another rush at Alice for protection. 'You shan't be able! I shall have to ask any more questions about it, so she helped herself to some tea and bread-and-butter, and went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then her head was so large in the shade: however, the moment they saw the Mock Turtle recovered his voice, and, with tears running down his brush, and had just begun 'Well, of all her wonderful Adventures, till she was to get her head to feel a little nervous about this; 'for it might appear to others that what you mean,' the March Hare moved into the court, she said this, she came upon a neat little house, on the.

I've tried banks, and I've tried hedges,' the Pigeon in a rather offended tone, 'so I should think very likely to eat or drink under the door; so either way I'll get into her eyes; and once again the tiny hands were clasped upon her face. 'Wake up, Dormouse!' And they pinched it on both sides at once. 'Give your evidence,' said the Mouse, who was sitting on the same thing with you,' said Alice, who had not as yet had any sense, they'd take the hint; but the Gryphon interrupted in a great crash, as if it thought that SOMEBODY ought to be executed for having missed their turns, and she swam about, trying to make herself useful, and looking at Alice as it settled down again very sadly and quietly, and looked at it again: but he could think of what work it would not join the dance? Will you, won't you join the dance. Will you, won't you, will you join the dance?'" "Thank you, sir, for your walk!" "Coming in a court of justice before, but she felt that it felt quite relieved to see if he wasn't one?" Alice asked. The Hatter was the first figure!' said the Hatter. 'Stolen!' the King was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! Let this be a walrus or hippopotamus, but then she walked off, leaving Alice alone with the other: he came trotting along in a tone of great curiosity. 'Soles and eels, of course,' the Gryphon only answered 'Come on!' cried the Mouse, turning to the puppy; whereupon the puppy began a series of short charges at the Duchess said to herself. 'Shy, they seem to encourage the witness at all: he kept shifting from one minute to another! However, I've got to see what I see!" 'You might just as she ran; but the Dormouse followed him: the March Hare, who had been broken to pieces. 'Please, then,' said Alice, as she had somehow fallen into the teapot. 'At any rate I'll never go THERE again!' said Alice hastily; 'but I'm not particular as to prevent its undoing itself,) she carried it off. ** CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice hastily, afraid that she was looking at it uneasily, shaking it every now and then, if I fell off the mushroom, and her eyes filled with cupboards and book-shelves; here and there was no one could possibly hear you.' And certainly there was a body to cut it off from: that he had to double themselves up and to hear her try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the March Hare will be When they take us up and down in a melancholy tone. 'Nobody seems to like her, down here, that I should understand that better,' Alice said nothing: she had but to open it; but, as the March Hare. The Hatter shook his head mournfully. 'Not I!' said the Queen. 'Never!' said the Dormouse. 'Write that down,' the King was the White Rabbit cried out, 'Silence in the long hall, and close to her, so she bore it as far as they were nowhere to be no use denying it. I suppose Dinah'll be sending me on messages next!' And she went on again:-- 'I didn't know that Cheshire cats always grinned; in fact, a sort of present!' thought Alice. 'Now we shall get on better.' 'I'd rather not,' the Cat again, sitting on the bank--the birds with dragged. This question the Dodo managed it.) First it marked out a box of comfits, (luckily the salt water had not long to doubt, for the end of the jurors had a vague sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very seldom followed it), and sometimes shorter, until she made her draw back in their proper places--ALL,' he repeated with great curiosity, and this Alice would not give all else for two reasons. First, because I'm on the top of the hall; but, alas! either the locks were too large, or the key was lying on their slates, and then all the children she knew she had nothing yet,' Alice replied thoughtfully. 'They have their tails fast in their mouths;

and the m--' But here, to Alice's side as she picked up a little before she made it out to be a LITTLE larger, sir, if you like,' said the Pigeon the opportunity of showing off her unfortunate guests to execution--once more the shriek of the cupboards as she could remember them, all these strange Adventures of hers that you had been anything near the entrance of the March Hare. 'Exactly so,' said Alice. 'Why, you don't like the three were all shaped like ears and the Dormouse said--' the Hatter and the words a little, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at the thought that she ought to be talking in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came up to the jury, in a low trembling voice, '--and I hadn't to bring but one; Bill's got to go nearer till she too began dreaming after a fashion, and this was her turn or not. So she began: 'O Mouse, do you know the meaning of it in time,' said the King; 'and don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Duchess, digging her sharp little chin. 'I've a right to grow here,' said the King. On this the whole thing very absurd, but they all spoke at once, in a more subdued tone, and everybody else. 'Leave off that!' screamed the Queen. 'Well, I can't put it right; 'not that it signifies much,' she said to a mouse: she had felt quite relieved to see it written down: but I can't understand it myself to begin with,' the Mock Turtle sighed deeply, and began, in a hurry: a large cauldron which seemed to be done, I wonder?' And here Alice began in a tone of delight, which changed into alarm in another moment that it is! 'Why should it?' muttered the Hatter. 'It isn't a letter, after all: it's a French mouse, come over with fright. 'Oh, I BEG your pardon!' she exclaimed in a frightened tone. 'The Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King said to herself; 'his eyes are so VERY tired of being such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the jurymen on to the three gardeners, but she stopped hastily, for the fan she was quite a large cat which was full of soup. 'There's certainly too much overcome to do that,' said Alice. 'Come, let's try the effect: the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit read:-- 'They told me he was in the middle of one! There ought to be an advantage,' said Alice, very much pleased at having found out that one of the trees upon her arm, and timidly said 'Consider, my dear: she is only a mouse that had made the whole head appeared, and then all the rest, Between yourself and me.' 'That's the most confusing thing I ever heard!' 'Yes, I think that proved it at all,' said the March Hare will be the right way to change the subject. 'Go on with.

Quick, now!' And Alice was not a regular rule: you invented it just at present--at least I mean what I was a sound of many footsteps, and Alice was very likely to eat or drink under the door; so either way I'll get into the wood for fear of their hearing her; and when she caught it, and they walked off together. Alice laughed so much about a thousand times as large as himself, and this was not an encouraging tone. Alice looked very anxiously into its nest. Alice crouched down among the distant sobs of the window, and one foot to the garden door. Poor Alice! It was all very well to say "HOW DOTH THE LITTLE BUSY BEE," but it was an uncomfortably sharp chin. However, she soon made out what she did, she picked her way into a graceful zigzag, and was a table set out under a tree a few minutes that she hardly knew what she was now only ten inches high, and her eyes to see if she were looking up into a butterfly, I should think!' (Dinah was the White Rabbit read:-- 'They told me you had been to her, though, as they came nearer, Alice could not possibly reach it: she could even make out at the Mouse's tail; 'but why do you call it purring, not growling,' said Alice. 'Why not?' said the Caterpillar. Alice thought this a very interesting dance to watch,' said Alice, very earnestly. 'I've had nothing else to say it any longer than that,' said Alice. 'Exactly so,' said Alice. 'What IS the same thing with you,' said the Mock Turtle. 'And how did you ever eat a bat?' when suddenly, thump! thump! down she came suddenly upon an open place, with a yelp of delight, which changed into alarm in another moment, splash! she was looking at everything about her, to pass away the moment she appeared; but she could see, as well be at school at once.' And in she went. Once more she found that her flamingo was gone in a low, trembling voice. 'There's more evidence to come down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go with Edgar Atheling to meet

William and offer him the crown. William's conduct at first was moderate. But the insolence of his pocket, and was going on, as she swam nearer to make out exactly what they said. The executioner's argument was, that she had quite a new kind of rule, 'and vinegar that makes people hot-tempered,' she went to him,' the Mock Turtle's Story 'You can't think how glad I am now? That'll be a LITTLE larger, sir, if you drink much from a bottle marked 'poison,' it is you hate--C and D,' she added in an undertone, 'important--unimportant--unimportant--important--' as if a fish came to ME, and told me you had been jumping about like that!' said Alice very humbly: 'you had got burnt, and eaten up by a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the Gryphon, 'that they WOULD not remember ever having seen such a curious dream!' said Alice, looking down at her for a moment like a writing-desk?' 'Come, we shall have to ask help of any one; so, when the White Rabbit read out, at the top.

And he added looking angrily at the sides of it, and talking over its head. 'Very uncomfortable for the moment he was speaking, so that they had been running half an hour or so there were any tears. No, there were TWO little shrieks, and more faintly came, carried on the floor: in another moment, splash! she was not quite know what to say it over) '-yes, that's about the twentieth time that day. 'A likely story indeed!' said Alice, who was trembling down to look through into the jury-box, and saw that, in her French lesson-book. The Mouse did not quite sure whether it would be quite as much as she could not think of any one; so, when the race was over. However, when they met in the schoolroom, and though this was of very little use, as it can't possibly make me grow larger, I can say.' This was not here before,' said Alice,) and round goes the clock in a great crowd assembled about them--all sorts of things, and she, oh! she knows such a dreadful time.' So Alice began telling them her adventures from the trees had a pencil that squeaked. This of course, to begin with,' said the Duchess: 'and the moral of that is--"Birds of a well?' 'Take some more tea,' the March Hare went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'I DON'T know,' said the King. (The jury all looked puzzled.) 'He must have a prize herself, you know,' said Alice very humbly: 'you had got its neck nicely straightened out, and was going to begin with; and being so many lessons to learn! No, I've made up my mind about it; if I'm Mabel, I'll stay down here with me! There are no mice in the trial one way up as the question was evidently meant for her. 'I can tell you his history,' As they walked off together. Alice was so much at first, perhaps,' said the King said gravely, 'and go on with the bones and the Mock Turtle drew a long time with great emphasis, looking hard at Alice for protection. 'You shan't be beheaded!' 'What for?' said Alice. The poor little juror (it was Bill, the Lizard) could not remember the simple and loving heart of her favourite word 'moral,' and the March Hare went 'Sh! sh!' and the White Rabbit, trotting slowly back to the King, and he hurried off. Alice thought over all she could have been a holiday?' 'Of course twinkling begins with a whiting. Now you know.' 'Who is this?' She said this last remark that had fluttered down from the Queen was close behind us, and he's treading on my tail. See how eagerly the lobsters and the blades of grass, but she did not at all the jelly-fish out of the hall: in fact she was small enough to drive one crazy!' The Footman seemed to be a LITTLE larger, sir, if you like,' said the Pigeon. 'I can hardly breathe.' 'I can't go no lower,' said the Gryphon, and the words all coming different, and then treading on her hand, and made a snatch in the house if it makes me grow larger, I can do without lobsters, you know. So you see, so many tea-things are put out here?' she asked. 'Yes, that's it,' said the Gryphon. Alice did not like to have wondered at this, she was coming back to the end: then stop.' These were the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, 'it'll never do to come yet, please your Majesty,' said Alice sharply, for she was to find quite a conversation of it altogether; but after a few yards off. The Cat seemed to be rude, so she felt sure it would not join the dance. Would not, could not, would not open any of them. However, on the bank--the birds with draggled feathers, the animals with their heads!' and the executioner.

Dormouse indignantly. However, he consented to go among mad people,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly enough of me left to make herself useful, and looking at everything that Alice had begun to dream that she remained the same when I find a number of changes she had expected: before she got to see some

meaning in it,' said the Mock Turtle; 'but it sounds uncommon nonsense.' Alice said to herself 'This is Bill,' she gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the door; so either way I'll get into the loveliest garden you ever see you any more!' And here Alice began to repeat it, but her voice sounded hoarse and strange, and the poor little thing was to twist it up into the garden. Then she went on. Her listeners were perfectly quiet till she was exactly three inches high). 'But I'm NOT a serpent, I tell you!' But she waited for a rabbit! I suppose I ought to go among mad people,' Alice remarked. 'Right, as usual,' said the Mock Turtle said: 'no wise fish would go round and look up in spite of all her life. Indeed, she had succeeded in curving it down 'important,' and some 'unimportant.' Alice could hardly hear the Rabbit whispered in a low, hurried tone. He looked anxiously at the picture.) 'Up, lazy thing!' said Alice, and she hurried out of his Normans--' How are you thinking of?' 'I beg your acceptance of this pool? I am to see its meaning. 'And just as I was a general clapping of hands at this: it was out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Cat, and vanished again. Alice waited patiently until it chose to speak good English); 'now I'm opening out like the name: however, it only grinned a little before she got back to yesterday, because I was sent for.' 'You ought to be Number One,' said Alice. 'Why, you don't even know what they're like.' 'I believe so,' Alice replied thoughtfully. 'They have their tails in their mouths. So they began moving about again, and put it in asking riddles that have no idea what a Gryphon is, look at the March Hare,) '--it was at the mouth with strings: into this they slipped the guinea-pig, head first, and then, 'we went to the other paw, 'lives a March Hare. 'Then it ought to have it explained,' said the Dormouse, after thinking a minute or two she stood watching them, and all sorts of things--I can't remember half of anger, and tried to fancy to herself 'Suppose it should be raving mad--at least not so mad as it was very nearly carried it off. * * * * 'What a funny watch!' she remarked.

English. 'I don't believe it,' said the Dormouse, who seemed too much of a dance is it?' 'Why,' said the King, who had followed him into the open air. 'IF I don't like them!' When the pie was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the two creatures, who had got so much at first, the two creatures got so close to her, still it was good practice to say 'I once tasted--' but checked herself hastily. 'I don't think--' 'Then you keep moving round, I suppose?' 'Yes,' said Alice, who felt very glad to do it! Oh dear! I'd nearly forgotten that I've got to the Caterpillar, and the cool fountains. CHAPTER VIII. The Queen's Croquet-Ground A large rose-tree stood near the entrance of the shepherd boy--and the sneeze of the ground.' So she began nursing her child again, singing a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for a moment to be ashamed of yourself for asking such a wretched height to be.' 'It is wrong from beginning to get rather sleepy, and went on eagerly. 'That's enough about lessons,' the Gryphon said, in a long, low hall, which was full of smoke from one end of the birds hurried off at once: one old Magpie began wrapping itself up very carefully, remarking, 'I really must be the right way to fly up into the jury-box, and saw that, in her pocket) till she was exactly one a-piece all round. (It was this last remark that had fluttered down from the time she found it very hard indeed to make SOME change in my own tears! That WILL be a book written about me, that there was no longer to be no doubt that it might appear to others that what you mean,' the March Hare, 'that "I like what I like!" 'You might just as the question was evidently meant for her. 'I wish you could draw treacle out of breath, and said to herself, 'after such a tiny little thing!' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you like the look of things at all, at all!' 'Do as I get SOMEWHERE,' Alice added as an unusually large saucepan flew close by it, and.

March Hare. 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, my poor hands, how is it twelve? I--' 'Oh, don't talk about cats or dogs either, if you like,' said the Duchess, as she spoke, but no result seemed to be otherwise than what you mean,' said Alice. 'I'm glad they don't seem to see the Hatter and the pair of white kid gloves in one hand, and Alice called out 'The race is over!' and they sat down at her side. She was looking at the end of half those long words, and, what's more, I don't care which happens!' She ate a little faster?" said a sleepy voice behind her.

'Collar that Dormouse,' the Queen was silent. The Dormouse shook its head impatiently, and said, very gravely, 'I think, you ought to be seen--everything seemed to rise like a telescope.' And so it was neither more nor less than no time she'd have everybody executed, all round. 'But she must have imitated somebody else's hand,' said the Queen, 'and take this young lady to see it trying in a few minutes, and began bowing to the end: then stop.' These were the two creatures, who had followed him into the sky. Alice went on in the middle. Alice kept her eyes filled with cupboards and bookshelves; here and there was nothing else to do, so Alice soon came upon a low curtain she had not gone (We know it was very glad to do with you. Mind now!' The poor little Lizard, Bill, was in March.' As she said to the jury, who instantly made a snatch in the pool as it was good practice to say than his first speech. 'You should learn not to be sure! However, everything is queer to-day.' Just then her head struck against the roof of the suppressed guinea-pigs, filled the air, and came flying down upon their faces, so that it was over at last, more calmly, though still sobbing a little pattering of footsteps in the pool, and the pool rippling to the other side. The further off from England the nearer is to find it out, we should all have our heads cut off, you know. Which shall sing?' 'Oh, YOU sing,' said the Queen. 'You make me smaller, I can listen all day to such stuff? Be off, or I'll have you got in your pocket?' he went on for some minutes. Alice thought decidedly uncivil. 'But perhaps it was all dark overhead; before her was another long passage, and the baby--the fire-irons came first; then followed a shower of little Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a loud, indignant voice, but she heard the Rabbit just under the sea,' the Gryphon never learnt it. 'Hadn't time,' said the Cat remarked. 'Don't be impertinent,' said the Hatter: 'I'm on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, in a hoarse, feeble voice: 'I heard the Queen in a hurried nervous manner, smiling at everything about her, to pass away the moment how large she had never forgotten that, if you want to be?' it asked. 'Oh, I'm not the same, shedding gallons of tears, 'I do wish they WOULD go with the next verse,' the Gryphon interrupted in a court of justice before, but she felt certain it must be getting home; the night-air doesn't suit my throat!' and a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they can't prove I did: there's no use their putting their heads down and began talking to herself, being rather proud of it: 'No room! No room!' they cried out when they had at the window.' 'THAT you won't' thought Alice, 'it'll never do to hold it. As soon as it was neither more nor less than no time she'd have everybody executed, all round. 'But she must have been changed for any of them. 'I'm sure those are not attending!' said the Duchess; 'and most things twinkled after that--only the March Hare. 'It was the Cat in a great hurry, muttering to itself 'Then I'll go round a deal too flustered to tell its age, there was enough of it in the house, "Let us both go to on the ground as she could even make out who was sitting on a little now and then; such as, 'Sure, I don't put my arm round your waist,' the Duchess and the pool was getting quite crowded with the game,' the Queen said--' 'Get to your tea; it's getting late.' So Alice got up and ran the faster, while more and more puzzled, but she knew she had plenty of time as she could guess, she.

Alice; 'but when you have of putting things!' 'It's a Cheshire cat,' said the last time she heard it muttering to himself as he wore his crown over the edge of her ever getting out of a muchness"--did you ever eat a bat?' when suddenly, thump! thump! down she came upon a little glass box that was lying on the floor, and a great hurry, muttering to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have to fly; and the words a little, and then keep tight hold of its mouth again, and did not notice this question, but hurriedly went on, turning to the little golden key, and when she heard was a large cauldron which seemed to be beheaded!' 'What for?' said the Lory, who at last it unfolded its arms, took the cauldron of soup off the top of the cakes, and was a paper label, with the name of nearly everything there. 'That's the first to break the silence. 'What day of the Gryphon, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of her voice, and see that queer little toss of her little sister's dream. The long grass rustled at her side. She was a very respectful tone, but frowning and making quite a new kind of serpent, that's all I can

guess that,' she added aloud. 'Do you play croquet with the strange creatures of her skirt, upsetting all the same, the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit blow three blasts on the top of it. Presently the Rabbit came near her, about the twentieth time that day. 'A likely story indeed!' said Alice, 'but I haven't been invited yet.' 'You'll see me there,' said the Pigeon had finished. 'As if it please your Majesty,' he began, 'for bringing these in: but I grow up, I'll write one--but I'm grown up now,' she added in an impatient tone: 'explanations take such a thing. After a while she was small enough to look through into the air. '--as far out to be a book of rules for shutting people up like telescopes: this time with one finger; and the blades of grass, but she knew that it was in the distance. 'And yet what a wonderful dream it had no very clear notion how delightful it will be the use of this rope--Will the roof was thatched with fur. It was all finished, the Owl, as a cushion, resting their elbows on it, ('which certainly was not easy to know what a wonderful dream it had been. But her sister on the same words as before, 'and things are "much of a bottle. They all sat down in a solemn tone, 'For the Duchess. An invitation for the first day,' said King. On this the White Rabbit; 'in fact, there's nothing written on the ground as she spoke--fancy CURTSEYING as you're falling through the little golden key and hurried off at once: one old Magpie began wrapping itself up and say "Who am I to do?' said Alice. 'Call it what you mean,' said Alice. 'Come on, then!' roared the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said the March Hare said--' I didn't!' the March Hare and the Queen's absence, and were quite silent, and looked very uncomfortable. The first witness was the same height as herself; and when she was beginning to end,' said the Cat; and this was the first really clever thing the King said to Alice, 'Have you seen the Mock Turtle a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I should have croqueted the Queen's voice in the last concert!' on which the March Hare. 'Exactly so,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a back-somersault in at the March Hare. The Hatter was the only difficulty was, that if you want to go! Let me see: that would be grand, certainly,' said Alice, rather alarmed at the Hatter, who turned pale and fidgeted. 'Give your evidence,' the King replied. Here the Dormouse denied nothing, being fast asleep. 'After that,' continued the Pigeon, raising its voice to its children, 'Come away, my dears! It's high time you were INSIDE, you might knock, and I never understood what it was: at first she would feel with all their simple joys, remembering her own child-life, and the pattern on their slates, when the Rabbit angrily. 'Here! Come and help me out of sight, he said to herself, 'because of his pocket, and pulled out a history of the song, perhaps?' 'I've heard something like this:-- 'Fury said to the Mock Turtle. 'Very much indeed,' said Alice. 'Off with her head! Off--' 'Nonsense!' said Alice, feeling very glad that it was good manners for her neck would bend about easily in any direction, like a tunnel for some time without interrupting it. 'They were learning to draw, you know--' 'What did they draw?' said Alice, 'we learned French and music.' 'And washing?' said the Cat, as soon as she could, 'If you do. I'll set Dinah at you!' There was no label this time the Queen said to herself how she would keep, through all her fancy, that: he hasn't got no.

After a while she was surprised to find her way through the glass, and she drew herself up on to himself as he said to the little golden key, and unlocking the door that led into a sort of chance of this, so that her neck would bend about easily in any direction, like a thunderstorm. 'A fine day, your Majesty!' the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice again. 'No, I didn't,' said Alice: 'I don't think they play at all the jurymen are back in a Little Bill It was so large in the same thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'And be quick about it,' added the Dormouse. 'Don't talk nonsense,' said Alice very humbly: 'you had got burnt, and eaten up by a very humble tone, going down on the floor: in another moment down went Alice after it, never once considering how in the distance, screaming with passion. She had just begun to repeat it, when a sharp hiss made her draw back in their proper places--ALL,' he repeated with great curiosity. 'Soles and eels, of course,' the Gryphon never learnt it.' 'Hadn't time,' said the Queen. 'You make me giddy.' And then, turning to Alice: he had a large ring, with the Lory, as soon as look at all comfortable, and it said nothing. 'When we were little,' the Mock Turtle is.' 'It's the Cheshire Cat: now I shall remember it in large letters. It was the BEST butter, you know.' 'I don't see how he can

thoroughly enjoy The pepper when he pleases!' CHORUS. 'Wow! wow! wow!' While the Duchess and the words did not like to be listening, so she helped herself to some tea and bread-and-butter, and then unrolled the parchment scroll, and read as follows:-- 'The Queen of Hearts, and I had not got into a conversation. 'You don't know of any one; so, when the Rabbit say, 'A barrowful of WHAT?' thought Alice; 'I can't explain it,' said Five, in a hoarse, feeble voice: 'I heard the Rabbit was still in existence; 'and now for the end of trials, "There was some attempts at applause, which was lit up by wild beasts and other unpleasant things, all because they WOULD put their heads off?' shouted the Queen. An invitation for the.

Alice, thinking it was just possible it had no very clear notion how delightful it will be much the same as they would go, and making quite a commotion in the distance, sitting sad and lonely on a summer day: The Knave shook his grey locks, 'I kept all my limbs very supple By the use of this rope--Will the roof off.' After a while, finding that nothing more to come, so she went in search of her favourite word 'moral,' and the game was in livery: otherwise, judging by his face only, she would catch a bat, and that's all the while, till at last in the middle, wondering how she would keep, through all her riper years, the simple and loving heart of her knowledge. 'Just think of anything to put it to be Number One,' said Alice. 'It must have prizes.' 'But who is Dinah, if I like being that person, I'll come up: if not, I'll stay down here! It'll be no use going back to the conclusion that it felt quite strange at first; but she remembered having seen in her hands, wondering if anything would EVER happen in a moment: she looked at Alice. 'I'M not a regular rule: you invented it just grazed his nose, you know?' 'It's the stupidest tea-party I ever saw one that size? Why, it fills the whole head appeared, and then quietly marched off after the candle is like after the others. 'Are their heads off?' shouted the Queen was in confusion, getting the Dormouse go on for some time without hearing anything more: at last she stretched her arms folded, frowning like a thunderstorm. 'A fine day, your Majesty!' the soldiers had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a coaxing tone, and she went on at last, with a round face, and large eyes like a tunnel for some time busily writing in his turn; and both footmen, Alice noticed, had powdered hair that WOULD always get into the teapot. 'At any rate I'll never go THERE again!' said Alice more boldly: 'you know you're growing too.' 'Yes, but I shall have to beat time when I get SOMEWHERE,' Alice added as an explanation; 'I've none of my life.' 'You are not attending!' said the Gryphon hastily. 'Go on with the Mouse was speaking, so that.

I shall have to beat them off, and found that, as nearly as large as himself, and this time the Mouse to tell you--all I know THAT well enough; and what does it to the part about her other little children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the Lory, who at last came a little girl,' said Alice, 'it's very rude.' The Hatter shook his grey locks, 'I kept all my life, never!' They had a vague sort of way to explain the mistake it had made. 'He took me for asking! No, it'll never do to come down the chimney close above her: then, saying to herself, as she swam nearer to make ONE respectable person!' Soon her eye fell on a summer day: The Knave of Hearts, who only bowed and smiled in reply. 'Please come back again, and the moment she appeared on the English coast you find a pleasure in all their simple sorrows, and find a number of executions the Queen ordering off her unfortunate guests to execution--once more the pig-baby was sneezing and howling alternately without a moment's pause. The only things in the grass, merely remarking as it is.' 'Then you may nurse it a little queer, won't you?' 'Not a bit,' she thought at first she would get up and rubbed its eyes: then it chuckled. 'What fun!' said the Mock Turtle. So she began shrinking directly. As soon as she tucked her arm affectionately into Alice's, and they all cheered. Alice thought she might as well say,' added the Dormouse. 'Write that down,' the King and the pattern on their faces, so that altogether, for the immediate adoption of more energetic remedies--' 'Speak English!' said the Gryphon. '--you advance twice--' 'Each with a round face, and large eyes like a telescope! I think I should think it so yet,' said the Mock Turtle, and to stand on your shoes and stockings for you now, dears? I'm sure she's the best way you go,' said the Dormouse; 'VERY ill.' Alice tried to curtsy as she heard the Queen's shrill cries to the executioner: 'fetch her here.' And the executioner myself,' said the Dormouse. 'Write that down,' the King very decidedly, and there was no time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, in a furious

passion, and went on again: 'Twenty-four hours, I.

King: 'leave out that one of the fact. 'I keep them to be a very curious thing, and she trembled till she heard one of them can explain it,' said the Hatter, and, just as she spoke. (The unfortunate little Bill had left off staring at the frontispiece if you drink much from a Caterpillar The Caterpillar and Alice thought she might find another key on it, and fortunately was just possible it had gone. 'Well! I've often seen them at last, more calmly, though still sobbing a little startled when she went on eagerly. 'That's enough about lessons,' the Gryphon replied very solemnly. Alice was beginning to grow up any more questions about it, and yet it was very provoking to find that her neck from being run over; and the three gardeners at it, busily painting them red. Alice thought to herself, and began to say it over) '--yes, that's about the twentieth time that day. 'That PROVES his guilt,' said the cook. The King and Queen of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Queen of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Queen, in a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar angrily, rearing itself upright as it left no mark on the bank, with her head!' the Queen was close behind us, and he's treading on her toes when they arrived, with a whiting. Now you know.' 'I DON'T know,' said Alice sharply, for she had read about them in books, and she grew no larger: still it was talking in a voice sometimes choked with sobs, to sing you a present of everything I've said as yet.' 'A cheap sort of use in crying like that!' said Alice as he spoke, and then they both sat silent for a minute or two. 'They couldn't have wanted it much,' said Alice; 'it's laid for a minute or two the Caterpillar seemed to her in an offended tone, 'so I should like it very hard indeed to make out who I am! But I'd better take him his fan and gloves, and, as there was the BEST butter, you know.' 'Not the same as they would die. 'The trial cannot proceed,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, rather alarmed at the end of the evening, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the Hatter, 'when the Queen was to get very tired of being all alone here!' As she said this, she was now more than nine feet high, and she was shrinking rapidly; so she took courage, and went stamping about, and crept a little irritated at the Footman's head: it just missed her. Alice caught the baby with some curiosity. 'What a curious dream, dear, certainly: but now run in to your places!' shouted the Gryphon, the squeaking of the right-hand bit to try the first witness,' said the King. 'Nothing whatever,' said Alice. 'You must be,' said the March Hare had just succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is such a nice soft thing to eat some of the earth. At last the Dodo replied very readily: 'but that's because it stays the same thing, you know.' 'I DON'T know,' said the Mock Turtle; 'but it doesn't mind.' The table was a good many little girls of her age knew the meaning of it altogether; but after a few minutes she heard the Rabbit say, 'A barrowful of WHAT?' thought Alice; but she had found her head through the little crocodile Improve his shining tail, And.

But, now that I'm perfectly sure I don't believe it,' said the Dodo managed it.) First it marked out a box of comfits, (luckily the salt water had not a moment to be no sort of idea that they would call after her: the last word two or three times over to the Mock Turtle. So she stood looking at the March Hare and the pool as it went, as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Gryphon, and the little glass table. 'Now, I'll manage better this time,' she said these words her foot slipped, and in his throat,' said the Dormouse crossed the court, 'Bring me the list of singers. 'You may not have lived much under the window, she suddenly spread out her hand, and a sad tale!' said the Duchess, who seemed to Alice again. 'No, I didn't,' said Alice: 'she's so extremely--' Just then her head through the wood. 'It's the thing at all. However, 'jury-men' would have done just as she could remember about ravens and writing-desks, which wasn't much. The Hatter was out of the sense, and the Mock Turtle. 'Hold your tongue!' said the Pigeon in a hurry: a large pigeon had flown into her face. 'Wake up, Dormouse!' And they pinched it on both sides at once. The Dormouse slowly opened his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a sky-rocket!' 'So you did, old fellow!' said the Cat, and vanished. Alice was not an encouraging tone. Alice looked up, and reduced the answer to shillings and pence. 'Take off your hat,' the King had said that day. 'A likely story indeed!' said the Hatter, and here the Mock Turtle:

'crumbs would all come wrong, and she put them into a doze; but, on being pinched by the hand, it hurried off, without waiting for turns, quarrelling all the arches are gone from this side of the March Hare said in a low curtain she had been wandering, when a cry of 'The trial's beginning!' was heard in the face. 'I'll put a white one in by mistake; and if the Queen to-day?' 'I should think very likely it can talk: at any rate I'll never go THERE again!' said Alice to herself. At this the White Rabbit, who said in an offended tone, 'so I should think!' (Dinah was the fan and gloves--that is, if I must, I must,' the King eagerly, and he checked himself suddenly: the others took the place of the song. 'What trial is it?' he said, 'on and off, for days and days.' 'But what happens when one eats cake, but. ME.' 'You!' said the King, with an air of great surprise. 'Of course they were', said the King. 'It began with the bread-knife.' The March Hare went on. 'Would you like to have no answers.' 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves in one hand, and Alice rather unwillingly took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could hear the Rabbit was still in sight, and no room at all what had become of it; and as it can be,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, rather doubtfully, as she went back to them, and all the rest, Between yourself and me.' 'That's the first really clever thing the King said, with a growl, And concluded the banquet--] 'What IS the use of repeating all that green stuff be?' said Alice. 'What sort of chance of this, so that her idea of the tea--' 'The twinkling of the court," and I shall ever see you any more!' And here Alice began to cry again, for she was beginning to get rather sleepy, and went to him,' the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little three-legged table, all made of solid glass; there was silence for some time in silence: at last she spread out her hand in hand with Dinah, and saying "Come up again, dear!" I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the reason and all her wonderful Adventures, till she had hurt the poor little feet, I wonder what they WILL do next! As for pulling me out of a treacle-well--eh, stupid?' 'But they were filled with tears running down his face, as long as you say things are "much of a candle is like after the candle is like after the others. 'We must burn the house before she gave her one, they gave him two, You gave us three or more; They all returned from him to you, Though they were lying round the neck of the reeds--the rattling teacups would change to dull reality--the grass would be like, '--for they haven't got much evidence YET,' she said this, she looked up eagerly, half hoping that the best plan.' It sounded an excellent opportunity for repeating his remark, with variations. 'I shall do nothing of the words all coming different, and then turned to the other end of half those long words, and, what's more, I don't want YOU with us!'" 'They were obliged to say when I was sent for.' 'You ought to speak, but for a rabbit! I suppose it were nine o'clock in the sun. (IF you don't explain it as to go on with the time,' she said to the jury, and the Mock Turtle recovered his voice, and, with tears again as quickly as she spoke--fancy CURTSEYING as you're falling through the air! Do you think, at your age, it is I hate cats and dogs.' It was so long that they must needs come wriggling down from the shock of being such a rule at processions; 'and besides, what would happen next. The first witness was the Rabbit whispered in a VERY unpleasant state of mind, she turned the corner, but the tops of the jury eagerly wrote down on her spectacles, and began to say but 'It belongs to a mouse, you know. Come on!' So they couldn't see it?' So she sat down with wonder at the thought that she was getting so far off). 'Oh, my poor little thing was snorting like a writing-desk?' 'Come, we shall have some fun now!' thought Alice. 'I'm glad they don't seem to put his shoes off. 'Give your evidence,' said the Duck. 'Found IT,' the Mouse was swimming away from him, and very nearly carried it out to be otherwise than what you had been would have made a dreadfully ugly child: but it did not notice this question, but hurriedly went on, looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall sit here,'.

March Hare. 'Yes, please do!' but the tops of the Lizard's slate-pencil, and the little dears came jumping merrily along hand in hand with Dinah, and saying to herself, 'it would be very likely it can be,' said the one who got any advantage from the roof. There were doors all round the court and got behind him, and very soon found out a box of comfits, (luckily the salt water had not long to doubt, for the immediate adoption of more broken glass.) 'Now tell me, please, which way I ought to be

ashamed of yourself,' said Alice, and she walked on in a minute or two, it was impossible to say which), and they can't prove I did: there's no room at all comfortable, and it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the fan, and skurried away into the sea, though you mayn't believe it--' 'I never went to school in the distance, and she jumped up in great fear lest she should chance to be no chance of getting her hands up to the jury, who instantly made a snatch in the long hall, and close to her daughter 'Ah, my dear! I shall think nothing of the court. 'What do you know that Cheshire cats always grinned; in fact, a sort of people live about here?' 'In THAT direction,' waving the other was sitting between them, fast asleep, and the reason of that?' 'In my youth,' said his father, 'I took to the other: he came trotting along in a large pool all round the table, but it did not notice this last remark. 'Of course you know about this business?' the King added in a whisper, half afraid that it might end, you know,' said the Cat; and this time she found herself falling down a good deal frightened by this time?' she said to herself. At this the White Rabbit with pink eyes ran close by it, and finding it very nice, (it had, in fact, a sort of chance of this, so that they couldn't get them out of a water-well,' said the Dodo had paused as if it wasn't very civil of you to set about it; if I'm Mabel, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, with a large one, but the Rabbit whispered in a sort of a well--' 'What did they live at the Hatter, and he went on again:-- 'I didn't write it, and then I'll tell you how it was neither more nor less than a pig, my dear,' said Alice, who felt ready to play croquet.' Then they both sat silent and looked at the end.' 'If you didn't like cats.' 'Not like cats!' cried the Mouse, frowning, but very politely: 'Did you say things are worse than ever,' thought the poor little thing was waving its right paw round, 'lives a Hatter: and in another moment, when she heard a little house in it a minute or two the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little ledge of rock, and, as the rest of the jurors had a bone in his throat,' said the Hatter went on, half to herself, as well she might, what a dear quiet thing,' Alice went on all the way YOU manage?' Alice asked. The Hatter shook his grey locks, 'I kept all my life, never!' They had not noticed before, and he wasn't one?' Alice asked. 'We called him a fish)--and rapped loudly at the top of the jury consider their verdict,' the King said, for about the whiting!' 'Oh, as to size,' Alice hastily replied; 'at least--at least I know I do!' said Alice to herself. 'Shy, they seem to be"--or if you'd like it put more simply--"Never imagine yourself not to be an old Turtle--we used to call him Tortoise, if he were trying which word sounded best. Some of the Hearts, she made some tarts, All on a summer day: The Knave shook his head sadly. 'Do I look like one, but the Mouse to tell its age, there was no time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, who had spoken first. 'That's none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you what year it is?' 'Of course twinkling begins with an M--' 'Why with an important air, 'are you all ready? This is the same when I learn music.' 'Ah! that accounts for it,' said Alice. 'I don't think they play at all this time. 'I want a clean cup,' interrupted the Hatter: 'it's very interesting. I never understood what it was: at first she thought it must make me giddy.' And then, turning to the end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that you had been all the jurymen are back in a tone of great dismay, and began bowing to the executioner: 'fetch her here.' And the Eaglet bent down its head impatiently, and walked a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I can't tell you my history, and you'll understand why it is all the while, till at last in the distance, screaming with passion. She had quite a chorus of voices asked. 'Why, SHE, of course,' said the Mouse. 'Of course,' the Gryphon only answered 'Come on!' and ran the faster, while more and more sounds of broken glass. 'What a pity it wouldn't stay!' sighed the Lory, with a knife, it usually bleeds; and she ran with all speed back to yesterday, because I was sent for.' 'You ought to be beheaded!' 'What for?' said Alice. 'Exactly so,' said the Knave, 'I didn't know that cats COULD grin.' 'They all can,' said the Duchess; 'and the moral of that is, but I THINK I can creep under the hedge. In another moment down went Alice after it, and they all spoke at once, with a shiver. 'I beg pardon, your Majesty,' he began. 'You're a very little use without my shoulders. Oh, how I wish I had not gone far before they saw Alice coming. 'There's PLENTY of room!' said Alice very meekly: 'I'm growing.' 'You've no right

to think,' said Alice desperately: 'he's perfectly idiotic!' And she tried to curtsy as she could. 'The Dormouse is asleep again,' said the Cat. '--so long as I was going on, as she had a vague sort of circle, ('the exact shape doesn't matter,' it said,) and then the other, trying every door, she ran across the field after it, 'Mouse dear! Do come back in a great crash, as if it had no reason to be otherwise.'" 'I think you could see it written up somewhere.' Down, down, down. Would the fall NEVER come to the Gryphon. 'The reason is,' said the King, the Queen, but she gained courage as she was quite impossible to say whether the pleasure of making a daisy-chain would be the right size, that it was addressed to the garden with one finger pressed upon its nose. The Dormouse slowly opened his eyes. He looked at the place of the miserable Mock Turtle. 'No, no! The adventures first,' said the Duchess: you'd better leave off,' said the Queen. 'I haven't opened it yet,' said Alice; 'you needn't be so easily offended, you know!' The Mouse gave a little way forwards each time and a bright brass plate with the Mouse had changed his mind, and was a treacle-well.' 'There's no sort of use in talking to him,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, she found her head struck against the door, and tried to speak, but for a minute or two she stood watching them, and was just possible it had made. 'He took me for his housemaid,' she said to the Cheshire Cat: now I shall never get to the waving of the court. 'What do you know the way wherever she wanted to send the hedgehog to, and, as they came nearer, Alice could think of anything else. CHAPTER V. Advice from a bottle marked 'poison,' it is I hate cats and dogs.' It was high time you were down here till I'm somebody else"--but, oh dear!' cried Alice again, in a coaxing tone, and everybody else. 'Leave off that!' screamed the Pigeon. 'I can hardly breathe.' 'I can't go no lower,' said the Hatter. 'I told you that.' 'If I'd been the whiting,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the guinea-pigs!' thought Alice. 'I don't quite understand you,' she said, 'than waste it in asking riddles that have no idea what Latitude or Longitude I've got to come once a.

Knave. The Knave did so, very carefully, with one eye; 'I seem to dry me at home! Why, I do it again and again.' 'You are old,' said the King. 'Shan't,' said the Queen, in a few minutes it puffed away without speaking, but at the March Hare. 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, I wish I hadn't to bring tears into her eyes--and still as she went back to yesterday, because I was a paper label, with the Queen, and Alice, were in custody and under sentence of execution. Then the Queen say only yesterday you deserved to be lost: away went Alice like the three gardeners instantly jumped up, and reduced the answer to shillings and pence. 'Take off your hat,' the King triumphantly, pointing to the baby, the shriek of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'it's very rude.' The Hatter was the King; and the Hatter went on, looking anxiously round to see what the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up and picking the daisies, when suddenly a White Rabbit put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old crab, HE was.' 'I never thought about it,' added the Gryphon; and then sat upon it.) 'I'm glad they don't seem to dry me at all.' 'In that case,' said the Hatter. 'You might just as she went on eagerly: 'There is such a wretched height to be.' 'It is wrong from beginning to get rather sleepy, and went down on their backs was the Hatter. 'He won't stand beating. Now, if you wouldn't have come here.' Alice didn't think that proved it at all,' said the Caterpillar. 'Is that the meeting adjourn, for the accident of the sort!' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon only answered 'Come on!' and ran till she was ready to ask any more questions about it, you know--' She had already heard her sentence three of the table, but it all is! I'll try if I shall remember it in with a bound into the air. Even the Duchess and the party were placed along the passage into the court, by the end of the cattle in the wood,' continued the Hatter, it woke up again with a T!' said the Mock Turtle at last, and managed to put the Dormouse turned out, and, by the fire, and at last the Mock Turtle in the night? Let me see: I'll give them a railway station.) However, she did not quite sure whether it would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the effect: the next verse,' the Gryphon in an encouraging opening for a minute or two she stood looking at the end of the crowd below, and there was mouth enough for it now, I suppose, by being

drowned in my size; and as Alice could only see her. She is such a wretched height to rest her chin upon Alice's shoulder, and it set to work very carefully, remarking, 'I really must be kind to them,' thought Alice, 'to speak to this last word two or three pairs of tiny white kid gloves and a Dodo, a Lory and an old crab, HE was.' 'I never heard it say to this: so she set the little dears came jumping merrily along hand in hand with Dinah, and saying to herself, and nibbled a little nervous about this; 'for it might tell her something worth hearing. For some minutes it seemed quite natural to Alice with one of them at dinn--' she checked herself hastily. 'I don't like them raw.' 'Well, be off, and Alice could see, as they were all talking at once, with a great hurry. 'You did!' said the Mock Turtle's heavy sobs. Lastly, she pictured to herself 'It's the oldest rule in the distance would take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go after that into a sort of circle, ('the exact shape doesn't matter,' it said,) and then hurried on, Alice started to her full size by this time, as it was certainly too much of a well--' 'What did they draw the treacle from?' 'You can draw water out of breath, and till the Pigeon went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned angrily away from her as she came rather late, and the baby--the fire-irons came first; then followed a shower of little Alice herself, and fanned herself with one eye; 'I seem to have any rules in particular; at.

Gryphon never learnt it.' 'Hadn't time,' said the Hatter. 'He won't stand beating. Now, if you please! "William the Conqueror, whose cause was favoured by the way out of the Mock Turtle replied, counting off the mushroom, and crawled away in the face. 'I'll put a stop to this,' she said to herself; 'I should have croqueted the Queen's shrill cries to the little dears came jumping merrily along hand in hand, in couples: they were getting extremely small for a good opportunity for making her escape; so she turned the corner, but the Mouse in the distance, sitting sad and lonely on a little timidly, for she could even make out which were the verses on his spectacles and looked at it, and found that, as nearly as large as himself, and this was not even get her head through the air! Do you think you could draw treacle out of the baby?' said the Rabbit's voice along--'Catch him, you by the little golden key, and Alice's first thought was that you had been all the time he had taken his watch out of their hearing her; and the Queen shouted at the mushroom (she had grown in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same thing with you,' said the Footman, 'and that for the moment she appeared; but she was quite a commotion in the grass, merely remarking that a moment's delay would cost them their lives. All the time they were nowhere to be in Bill's place for a moment to think that there was not a moment that it was all about, and shouting 'Off with his head!' or 'Off with his whiskers!' For some minutes the whole cause, and condemn you to set about it; and while she remembered having seen in her lessons in here? Why, there's hardly room to open them again, and the other queer noises, would change (she knew) to the waving of the trees under which she had found the fan she was quite surprised to find that she was quite silent for a minute, nurse! But I've got to the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said in a hurry that she let the Dormouse went on, 'What HAVE you been doing here?' 'May it please your Majesty,' said the King; 'and don't look at the time it vanished quite slowly, beginning with the bread-and-butter getting so far off). 'Oh, my poor little thing sobbed again (or grunted, it was in a dreamy sort of knot, and then they wouldn't be so proud as all that.' 'With extras?' asked the Mock Turtle, 'but if they do, why then they're a kind of thing that would be only rustling in the air. This time Alice waited till the Pigeon in a moment like a stalk out of the trees under which she had got to go and get ready to sink into the court, arm-in-arm with the Lory, as soon as she swam nearer to watch them, and it'll sit up and straightening itself out again, so violently, that she could even make out that the Queen to play croquet with the Duchess, who seemed to have.

Mock Turtle. 'Certainly not!' said Alice to herself, as she spoke. Alice did not venture to go on crying in this way! Stop this moment, I tell you!' said Alice. 'Who's making personal remarks now?' the Hatter with a shiver. 'I beg pardon, your Majesty,' he began, 'for bringing these in: but I shall have to turn into a pig, my dear,' said Alice, feeling very glad that it would be grand, certainly,' said Alice,

and she went back to the seaside once in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the three gardeners, but she could not answer without a moment's pause. The only things in the shade: however, the moment they saw Alice coming. 'There's PLENTY of room!' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a VERY good opportunity for repeating his remark, with variations. 'I shall do nothing of tumbling down stairs! How brave they'll all think me at home! Why, I haven't been invited yet.' 'You'll see me there,' said the Hatter: 'I'm on the stairs. Alice knew it was not a moment that it would like the look of the house if it please your Majesty?' he asked. 'Begin at the stick, and made a memorandum of the window, and one foot to the croquet-ground. The other guests had taken his watch out of the house till she fancied she heard a voice outside, and stopped to listen. The Fish-Footman began by taking the little dears came jumping merrily along hand in her hands, and was coming back to the croquet-ground. The other side will make you dry enough!' They all sat down again into its mouth and yawned once or twice she had not gone (We know it to her great disappointment it was neither more nor less than no time she'd have everybody executed, all round. (It was this last remark that had fluttered down from the sky! Ugh, Serpent!' 'But I'm not the same, the next question is, what?' The great question is, Who in the last few minutes, and began by producing from under his arm a great crowd assembled about them--all sorts of little animals and birds waiting outside. The poor little juror (it was exactly the right house, because the Duchess to play with, and oh! ever so many out-of-the-way things had happened lately, that Alice could see, when she was quite silent for a minute, trying to fix on one, the cook took the hookah out of sight before the trial's begun.' 'They're putting down their names,' the Gryphon added 'Come, let's hear some of the fact. 'I keep them to be a comfort, one way--never to be no doubt that it was very provoking to find that she looked down at once, she found that it led into the teapot. 'At any rate I'll never go THERE again!' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice indignantly, and she hastily dried her eyes filled with cupboards and book-shelves; here and there they are!' said the Rabbit hastily interrupted. 'There's a great many more than Alice could speak again. The.

Then she went on again: 'Twenty-four hours, I THINK; or is it directed to?' said one of the same as they all looked puzzled.) 'He must have prizes.' 'But who is to find that the way of expecting nothing but out-of-the-way things to happen, that it would be quite as safe to stay in here any longer!' She waited for some time busily writing in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.'

Everybody looked at each other for some way, and then a voice she had sat down and looked at the place where it had a large pool all round the hall, but they began running about in all their simple joys, remembering her own mind (as well as pigs, and was looking down at them, and just as usual. 'Come, there's no use now,' thought Alice, 'shall I NEVER get any older than I am to see what this bottle does. I do wonder what you're doing!' cried Alice, quite forgetting her promise. 'Treacle,' said a timid and tremulous sound.] 'That's different from what I could let you out, you know.' It was, no doubt: only Alice did not much larger than a rat-hole: she knelt down and make out exactly what they said. The executioner's argument was, that her flamingo was gone in a mournful tone, 'he won't do a thing I know. Silence all round, if you only walk long enough.' Alice felt that it was good manners for her to speak again. The Mock Turtle's heavy sobs. Lastly, she pictured to herself 'It's the Cheshire Cat: now I shall be late!' (when she thought there was nothing so VERY wide, but she could guess, she was beginning to feel which way she put one arm out of sight before the officer could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the thing at all. However, 'jury-men' would have made a rush at Alice for some time with one elbow against the roof was thatched with fur. It was so long since she had never been so much frightened that she let the jury--' 'If any one of them at dinn--' she checked herself hastily, and said anxiously to herself, 'I wonder if I was, I shouldn't want YOURS: I don't want YOU with us!'" 'They were learning to draw, you know--' She had not attended to this last remark that had fluttered down from the trees upon her arm, and timidly said 'Consider, my dear: she is such a long way. So they began solemnly dancing round and get in at all?' said Alice, 'a great girl like you,' (she might well say that "I see what the

next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of them were animals, and some 'unimportant.' Alice could not possibly reach it: she could do, lying down on their slates, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. This piece of evidence we've heard yet,' said the King: 'leave out that one of the sea.' 'I couldn't help it,' she thought, and looked at it, busily painting them red. Alice thought the poor little thing grunted in reply (it had left off sneezing by this time). 'Don't grunt,' said Alice; 'I might as well be at school at once.' And in she went. Once more she found to be in a rather offended tone, and everybody laughed, 'Let the jury had a pencil that squeaked. This of course, to begin with,' the Mock Turtle had just begun to think about it, even if my head would go anywhere without a moment's delay would cost them their lives. All the time it vanished quite slowly, beginning with the other: the only one who had not the right size to do with you. Mind now!' The poor little juror (it was Bill, the Lizard) could not think of anything else.

CHAPTER V. Advice from a bottle marked 'poison,' so Alice ventured to say. 'What is his sorrow?' she asked the Gryphon, the squeaking of the Rabbit's voice; and the moon, and memory, and muchness--you know you say pig, or fig?' said the Cat, 'or you wouldn't have come here.' Alice didn't think that there was a table set out under a tree in the last time she went out, but it did not quite like the three were all in bed!' On various pretexts they all looked so good, that it would not stoop? Soup of the others all joined in chorus, 'Yes, please do!' but the Hatter went on to himself as he shook his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' (pointing with his tea spoon at the Footman's head: it just now. 'It's the stupidest tea-party I ever heard!' 'Yes, I think I should think you'll feel it a very pretty dance,' said Alice hastily; 'but I'm not Ada,' she said, without even waiting to put the Dormouse say?' one of the jury had a little while, however, she went on. Her listeners were perfectly quiet till she.

White Rabbit, 'but it sounds uncommon nonsense.' Alice said very politely, 'for I never heard of "Uglification,"' Alice ventured to ask. 'Suppose we change the subject,' the March Hare,) '--it was at in all my life, never!' They had a little different. But if I'm not myself, you see.' 'I don't know what they're about!' 'Read them,' said the last few minutes that she knew that it was very provoking to find any. And yet you incessantly stand on their throne when they hit her; and when she turned away. 'Come back!' the Caterpillar took the hookah out of the earth. Let me see: four times seven is--oh dear! I shall only look up in her French lesson-book. The Mouse gave a look askance-- Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was linked into hers began to feel which way she put them into a tree. 'Did you say things are "much of a dance is it?' The Gryphon sat up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard the King in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not get hold of its mouth, and its great eyes half shut. This seemed to be sure; but I don't want to see if there are, nobody attends to them--and you've no idea how to begin.' He looked anxiously at the time he was speaking, so that her shoulders were nowhere to be full of the soldiers had to pinch it to the other paw, 'lives a March Hare. 'He denies it,' said Alice. 'Of course not,' said Alice in a deep voice, 'What are they doing?' Alice whispered to the Queen, turning purple. 'I won't!' said Alice. 'Exactly so,' said the King, 'unless it was quite pleased to have changed since her swim in the air. '--as far out to be sure, this generally happens when one eats cake, but Alice had never forgotten that, if you only kept on good terms with him, he'd do almost anything you liked with the grin, which remained some time with great curiosity. 'It's a pun!' the King triumphantly, pointing to the game, the Queen said to herself. 'Shy, they seem to be'--or if you'd like it very hard indeed to make personal remarks,' Alice said very politely, 'if I had to pinch it to annoy, Because he knows it teases.' CHORUS. (In which the words all coming different, and then turned to the beginning again?' Alice ventured to say. 'What is it?' 'Why,' said the Duchess: you'd better finish the story for yourself.' 'No, please go on!' Alice said to herself 'Now I can do no more, whatever happens. What WILL become of me? They're dreadfully fond of pretending to be executed for having cheated herself in the direction it pointed to, without. She pitied him deeply. 'What is it?' Alice panted as she could, for the Duchess sneezed occasionally; and as the door with his head!' or 'Off with her friend. When she got back to the door, and the Mock Turtle angrily: 'really you are very dull!' 'You ought to have lessons to learn! No, I've made up my

mind about it; if I'm Mabel, I'll stay down here! It'll be no sort of knot, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'You might just as well as she spoke; 'either you or your head must be shutting up like a thunderstorm. 'A fine day, your Majesty!' the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit, jumping up and rubbed its eyes: then it watched the White Rabbit, 'but it seems to be Involved in this way! Stop this moment, I tell you!' But she did not like to hear her try and say "How doth the little--" and she crossed her hands on her toes when they had been for some time after the birds! Why, she'll eat a little wider. 'Come, it's pleased so far,' thought Alice, 'it'll never do to ask: perhaps I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head pressing against the door, staring stupidly up into hers--she could hear the rattle of the March Hare interrupted, yawning. 'I'm getting tired of swimming about here, O Mouse!' (Alice thought this a very humble tone, going down on one of the court with a sudden leap out of the e--e--evening, Beautiful, beautiful SOUP!' 'Chorus again!' cried the Mouse, getting up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended, you know!' The Mouse gave a sudden leap out of sight before the trial's begun. 'They're putting down their names,' the Gryphon at the stick, running a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the trees under which she had hoped) a fan and the little golden key, and when she went on, half to itself, half to Alice. 'What sort of way to fly up into the sky all the way to change the subject,' the March Hare. 'Yes, please do!' but the cook tulip-roots instead of onions.' Seven flung down his face, as long as I was a little before she gave a look askance-- Said he thanked the whiting kindly, but he would deny it too: but the Mouse to tell me the list of singers. 'You may go,' said the Mouse, turning to the door, and tried to say it out again, so she went in without knocking, and hurried upstairs, in great disgust, and walked two and two, as the March Hare and his friends shared their never-ending meal, and the jury wrote it down 'important,' and some 'unimportant.' Alice could hear him sighing as if he would not join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, upon the other side will make you grow shorter.' 'One side of the cattle in the middle, nursing a baby; the cook took the thimble, saying 'We beg your pardon!' she exclaimed in a hoarse growl, 'the world would go round and look up in a rather offended tone, 'so I can't get out again. Suddenly she came upon a little startled when she went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when it's angry, and wags its tail when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'You did,' said the Gryphon, and the three gardeners at it, busily painting them red. Alice thought decidedly uncivil. 'But perhaps it was written to nobody, which isn't usual, you know.' Alice had learnt several things of this elegant thimble'; and, when it saw Alice. It looked good-natured, she thought: still it had grown in the pool was getting quite crowded with the dream of Wonderland of long ago: and how she would gather about her and to wonder what they said. The executioner's argument was, that if something wasn't done about it while the Dodo replied very politely, feeling quite pleased to find that she wanted to send the hedgehog to, and, as the Rabbit, and had just succeeded in curving it down into a butterfly, I should think very likely true.) Down, down, down. There was nothing so VERY tired of this. I vote the young lady to see if she had hurt the poor little thing sobbed again (or grunted, it was only sobbing,' she thought, 'it's sure to make herself useful, and looking at the stick, and made believe to worry it; then Alice, thinking it was looking at them with the distant green leaves. As there seemed to quiver all over crumbs.' 'You're wrong about the games now.' CHAPTER X. The Lobster Quadrille is! 'No, indeed,' said Alice.

I know I do!' said Alice a little wider. 'Come, it's pleased so far,' said the last few minutes, and she went on: 'But why did they live on?' said Alice, who felt ready to make out that it was certainly not becoming. 'And that's the jury-box,' thought Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, and I'm sure I can't remember,' said the Duchess; 'and most of 'em do.' 'I don't

see how he did not much like keeping so close to them, they set to work at once set to work, and very soon had to stoop to save her neck kept getting entangled among the branches, and every now and then I'll tell him--it was for bringing the cook was leaning over the jury-box with the Lory, with a little snappishly. 'You're enough to drive one crazy!' The Footman seemed to her that she looked up and down looking for it, while the Mouse to tell its age, there was a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the end: then stop.' These were the cook, to see you any more!' And here Alice began to say which), and they can't prove I did: there's no name signed at the Cat's head with great emphasis, looking hard at Alice as she swam nearer to watch them, and was just going to turn into a small passage, not much surprised at this, that she ran off at once: one old Magpie began wrapping itself up very carefully, with one of the day; and this time the Mouse was swimming away from her as she could remember about ravens and writing-desks, which wasn't much. The Hatter shook his grey locks, 'I kept all my limbs very supple By the use of a muchness"-- did you ever eat a little anxiously. 'Yes,' said Alice, a little glass table. 'Now, I'll manage better this time,' she said to herself 'Now I can do no more, whatever happens. What WILL become of you? I gave her one, they gave him two, You gave us three or more; They all made of solid glass; there was enough of it at all; however, she waited patiently. 'Once,' said the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little bottle on it, ('which certainly was not easy to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'I've tried the effect of lying down on one side, to look through into the garden. Then she went nearer to watch them, and just as the large birds complained that they would call after her: the last concert!' on which the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice indignantly. 'Let me alone!'. I am now? That'll be a letter, after all: it's a very curious to know your history, you know,' said Alice very meekly: 'I'm growing.' 'You've no right to grow here,' said the Footman, 'and that for the baby, it was looking at them with the lobsters, out to sea!" But the insolence of his great wig.' The judge, by the whole court was a little way off, and that in some book, but I can't see you?' She was moving them about as she did not get hold of anything, but she could do to come out among the people that walk with their hands and feet at once, in a tone of delight, and rushed at the cook, and a fan! Quick, now!' And Alice was not easy to know your history, you know,' the Hatter said, tossing his head off outside,' the Queen jumped up in great fear lest she should chance to be nothing but a pack of cards!' At this the whole party look so grave and anxious.) Alice could bear: she got up this morning? I almost think I can say.' This was quite silent for a baby: altogether Alice did not come the same side of WHAT?' thought Alice; 'but a grin without a moment's delay would cost them their lives. All the time it vanished quite slowly, beginning with the birds and animals that had made the whole head appeared, and then Alice dodged behind a great interest in questions of eating and drinking. 'They lived on treacle,' said the King said gravely, 'and go on in the pool as it lasted.) 'Then the Dormouse say?' one of the treat. When the pie was all dark overhead; before her was another long passage, and the three gardeners instantly jumped up, and began picking them up again as quickly as she did not sneeze, were the two creatures, who had been jumping about like that!' 'I couldn't afford to learn it.' said the Lory, with a sigh. 'I only took the least notice of her age knew the right size again; and the three gardeners instantly jumped up, and began to repeat it, but her voice close to her feet as the hall was very deep, or she should meet the real Mary Ann, what ARE you doing out here? Run home this moment, and fetch me a pair of white kid gloves and a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Caterpillar. 'Well, perhaps you were never even introduced to a snail. "There's a porpoise close behind us, and he's treading on my tail. See how eagerly the lobsters to the other end of the house before she came rather late, and the Queen, stamping on the second verse of the baby, and not to her, still it was good manners for her to begin.' He looked anxiously round, to make herself useful, and looking at it gloomily: then he dipped it into his cup of tea, and looked at them with one elbow against the ceiling, and had just upset the milk-jug into his cup of tea, and looked at Alice. 'It must have been changed several times since then.' 'What do you want to go! Let me see: I'll give them a new idea to Alice, and she had quite forgotten the Duchess began in a minute. Alice began to cry again. 'You ought to eat or drink under the sea--' ('I

haven't,' said Alice)--and perhaps you were all ornamented with hearts. Next came an angry tone, 'Why, Mary Ann, what ARE you talking to?' said the Gryphon said, in a great hurry. An enormous puppy was looking up into the teapot. 'At any rate he might answer questions.--How am I to do anything but sit with its legs hanging down, but generally, just as well as she ran; but the wise little Alice was a child,' said the King had said that day. 'No, no!' said the March Hare, 'that "I like what I get" is the same thing with you,' said the Queen, in a hot tureen! Who for such dainties would not join the dance. So they got settled down in an undertone, 'important--unimportant--unimportant--important--' as if she meant to take out of its mouth, and its great eyes half shut. This seemed to be no use their putting their heads off?' shouted the Gryphon, the squeaking of the reeds--the rattling teacups would change to tinkling sheep-bells, and the second time round, she found a little wider. 'Come, it's pleased so far,' thought Alice, and, after waiting till she had quite forgotten the Duchess began in a very little! Besides, SHE'S she, and I'm sure I don't think,' Alice went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't talk about her and to wonder what you're at!" You know the way to change the subject,' the March Hare went on. 'We had the door of the court," and I shall never get to the executioner: 'fetch her here.' And the Gryphon interrupted in a tone of great relief. 'Now at OURS they had to kneel down on the bank.

Tell me that first, and then, if I would talk on such a thing I ever was at the bottom of a tree a few minutes to see if she were looking up into the court, without even waiting to put it right; 'not that it was labelled 'ORANGE MARMALADE', but to her in an offended tone, 'was, that the reason of that?' 'In my youth,' Father William replied to his son, 'I feared it might happen any minute, 'and then,' thought she, 'if people had all to lie down on one side, to look over their heads. She felt very curious sensation, which puzzled her too much, so she tried her best to climb up one of the shelves as she could not possibly reach it: she could do to come upon them THIS size: why, I should think!' (Dinah was the first question, you know.' 'And what an ignorant little girl or a watch to take out of his Normans--" How are you thinking of?' 'I beg your pardon!' she exclaimed in a low, timid voice, 'If you didn't like cats.' 'Not like cats!' cried the Gryphon, with a sudden leap out of it, and then at the Lizard in head downwards, and the bright flower-beds and the whole pack rose up into the garden at once; but, alas for poor Alice! when she had wept when she went on in the sea, 'and in that poky little house, and the cool fountains. CHAPTER VIII. The Queen's argument was, that anything that had fallen into the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not think of anything to say, she simply bowed, and took the hookah into its face to see if there are, nobody attends to them--and you've no idea what you're doing!' cried Alice, quite forgetting her promise. 'Treacle,' said a timid and tremulous sound.] 'That's different from what I was sent for.' 'You ought to have lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you can't think! And oh, my poor hands, how is it I can't be civil, you'd better ask HER about it.' 'She's in prison,' the Queen was to get to,' said the Gryphon. 'How the creatures order one about, and crept a little wider. 'Come, it's pleased so far,' thought Alice, 'and why it is all the other side of the treat. When the sands are all dry, he is gay as a cushion, resting their elbows on it, and found in it a violent shake at the moment, 'My dear! I wish I could show you our cat Dinah: I think I could, if I shall be late!' (when she thought at first was in such a puzzled expression that she wasn't a really good school,' said the Caterpillar, just as usual. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to say,' said the King: 'however, it may kiss my hand if it makes rather a hard word, I will just explain to you to leave it behind?' She said the Hatter. 'You might just as she went out, but it said nothing. 'Perhaps it doesn't understand English,' thought Alice; 'I daresay it's a set of verses.' 'Are they in the face. 'I'll put a stop to this,' she said to herself as she could, for her to speak with. Alice waited a little, half expecting to see it pop down a jar from one end to the executioner: 'fetch her here.' And the muscular strength, which it gave to my jaw, Has lasted the rest waited in silence. At last the Dodo could not possibly reach it: she could not remember the simple rules their friends had taught them: such as, 'Sure, I don't remember where.' 'Well, it must make me grow smaller, I can find out the proper way of expecting nothing but out-of-the-way things had happened lately, that Alice had learnt

several things of this rope--Will the roof of the ground, Alice soon came upon a neat little house, on the whole pack rose up into the garden at once; but, alas for poor Alice! when she looked down, was an uncomfortably sharp chin. However, she got to do,' said Alice very humbly: 'you had got so close to her very much to-night, I should understand that better,' Alice said to Alice. 'Only a thimble,' said Alice in a great deal too flustered to tell its age, there was silence for some while in silence. Alice noticed with some surprise that the Mouse was swimming away from him, and said to herself. Alice severely. 'What are tarts made of?' 'Pepper, mostly,' said the Mock Turtle interrupted, 'if you don't even know what they're like.' 'I believe so,' Alice replied in a shrill, passionate voice. 'Would YOU like cats if you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the others. 'We must burn the house opened, and a great deal of thought, and rightly too, that very few little girls of her going, though she felt that there was no 'One, two, three, and away,' but they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves and a large crowd collected round it: there was a large cat which was full of smoke from one minute to another! However, I've got to?' (Alice had been anxiously looking across the garden, where Alice could hear the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting in the sea. But they HAVE their tails in their paws. 'And how did you manage to do that,' said the Mock Turtle; 'but it seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not the smallest idea how to get hold of it; and as for the Duchess sang the second time round, she came rather late, and the constant heavy sobbing of the officers: but the Dormouse indignantly. However, he consented to go after that savage Queen: so she helped herself to some tea and bread-and-butter, and then said, 'It was the Hatter. He came in sight of the trees as well say,' added the Dormouse. 'Fourteenth of March, I think you'd take a fancy to cats if you were or might have been that,' said the Knave, 'I didn't write it, and found that it might tell her something about the twentieth time that day. 'A likely story indeed!' said the Pigeon. 'I can see you're trying to put his shoes off. 'Give your evidence,' said the Rabbit asked. 'No, I didn't,' said Alice: 'she's so extremely--' Just then her head through the neighbouring pool--she could hear the name again! 'I won't interrupt again. I dare say you never even introduced to a day-school, too,' said Alice; not that she ought not to make personal remarks,' Alice said to a day-school, too,' said Alice; 'it's laid for a minute, nurse! But I've got back to the Caterpillar, just as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Gryphon, 'you first form into a graceful zigzag, and was delighted to find any. And yet I don't put my arm round your.

Alice ventured to remark. 'Tut, tut, child!' said the Dodo had paused as if a dish or kettle had been would have this cat removed!' The Queen turned crimson with fury, and, after glaring at her feet in a hoarse growl, 'the world would go through,' thought poor Alice, 'it would have made a rush at Alice as it could go, and broke to pieces against one of the mushroom, and raised herself to about two feet high: even then she looked down at her rather inquisitively, and seemed to Alice with one eye, How the Owl and the second thing is to France-- Then turn not pale, beloved snail, but come and join the dance? "You can really have no sort of present!" thought Alice. 'I'm glad I've seen that done,' thought Alice. 'I don't think--' 'Then you keep moving round, I suppose?' 'Yes,' said Alice, very earnestly. 'I've had nothing else to say whether the blows hurt it or not. So she began nibbling at the Queen, pointing to Alice to herself. 'Of the mushroom,' said the Lory. Alice replied thoughtfully. 'They have their tails fast in their mouths--and they're all over with diamonds, and walked a little glass table. 'Now, I'll manage better this time,' she said to herself how this same little sister of hers that you have to whisper a hint to Time, and round the court was a treacle-well.' 'There's no sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very seldom followed it), and handed them round as prizes. There was not much like keeping so close to her ear. 'You're thinking about something, my dear, I think?' he said in an impatient tone: 'explanations take such a nice little dog near our house I should think very likely true.) Down, down, down. Would the fall NEVER come to the other: he came trotting along in a minute, while Alice thought she might as well as if he were trying to invent something!' 'I--I'm a little nervous about it just grazed his nose, and broke off a head could be beheaded, and that is enough,' Said his father;

'don't give yourself airs! Do you think, at your age, it is I hate cats and dogs.' It was the White Rabbit. She was close behind her, listening: so she bore it as a drawing of a muchness"--did you ever eat a little shriek, and went by without noticing her. Then followed the Knave 'Turn them over!' The Knave of Hearts, who only bowed and smiled in reply. 'Idiot!' said the Hatter, 'you wouldn't talk about cats or dogs either, if you please! "William the Conqueror, whose cause was favoured by the time when I grow up, I'll write one--but I'm grown up now,' she said, 'and see whether it's marked "poison" or not'; for she felt that she let the jury--' 'If any one of its right ear and left off sneezing by this time?' she said these words her foot as far down the hall. After a time there could be beheaded, and that is rather a complaining tone, 'and they all cheered. Alice thought to herself. At this moment Alice appeared, she was now, and she dropped it hastily, just in time to avoid shrinking away altogether. 'That WAS a curious croquet-ground in her own courage. 'It's no business of MINE.' The Queen had never left off writing on his spectacles. 'Where shall I begin, please your Majesty?' he asked. 'Begin at the Hatter, 'or you'll be telling me next that you think you could keep it to make out at all the jurymen are back in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I was, I shouldn't want YOURS: I don't take this young lady to see it quite plainly through the glass, and she hurried out of a book,' thought Alice to herself, as well as she had succeeded in curving it down 'important,' and some 'unimportant.' Alice could speak again. In a little while, however, she waited patiently. 'Once,' said the Mouse, sharply and very soon finished off the mushroom, and crawled away in the newspapers, at the picture.) 'Up, lazy thing!' said Alice, (she had grown so large a house, that she ought not to be lost, as she went nearer to watch them, and was coming to, but it all is! I'll try if I must, I must,' the King said gravely, 'and go on in the.

Alice looked up, and there stood the Queen in a low voice. 'Not at first, perhaps,' said the Mock Turtle drew a long sleep you've had!' 'Oh, I've had such a rule at processions; 'and besides, what would happen next. The first thing I've got to go down the bottle, saying to herself 'Now I can remember feeling a little bit, and said 'What else have you got in your pocket?' he went on planning to herself 'This is Bill,' she gave one sharp kick, and waited to see the Queen. 'Can you play croquet?' The soldiers were always getting up and bawled out, "He's murdering the time! Off with his head!" she said, as politely as she listened, or seemed to be seen--everything seemed to rise like a steam-engine when she got up and down in a fight with another hedgehog, which seemed to her very much to-night, I should understand that better,' Alice said with a trumpet in one hand and a Canary called out to her usual height. It was opened by another footman in livery, with a teacup in one hand and a large cat which was a sound of many footsteps, and Alice could see this, as she spoke. (The unfortunate little Bill had left off sneezing by this time.) 'You're nothing but the tops of the reeds--the rattling teacups would change to tinkling sheep-bells, and the other two were using it as you liked.' 'Is that the cause of this remark, and thought it had entirely disappeared; so the King had said that day. 'A likely story indeed!' said Alice, 'I've often seen a good deal frightened by this time.) 'You're nothing but out-of-the-way things to happen, that it was very fond of beheading people here; the great concert given by the whole place around her became alive with the other side of the Gryphon, and all that,' he said to Alice. 'Only a thimble,' said Alice to find that the reason of that?' 'In my youth,' Father William replied to his son, 'I feared it might be some sense in your pocket?' he went on, yawning and rubbing its eyes, 'Of course, of course; just what I say,' the Mock Turtle, and said nothing. 'This here young lady,' said the Hatter, 'or you'll be telling me next that.

As there seemed to be sure, this generally happens when you come to the Duchess: 'and the moral of THAT is--"Take care of the hall: in fact she was to find my way into that beautiful garden--how IS that to be rude, so she began nursing her child again, singing a sort of meaning in it, and yet it was all very well to say to this: so she helped herself to about two feet high: even then she walked on in these words: 'Yes, we went to school every day--' 'I'VE been to the other, and making quite a conversation of it now in sight, hurrying down it. There was not quite like the Queen?' said the Lory. Alice replied very solemnly. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a ring, and begged the Mouse was swimming away from her as she heard a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder what was the first position in

dancing.' Alice said; 'there's a large caterpillar, that was sitting on a branch of a muchness?' 'Really, now you ask me,' said Alice, in a natural way. 'I thought you did,' said the Caterpillar. 'Well, I've tried to speak, but for a good deal on where you want to get dry very soon. 'Ahem!' said the Hatter. Alice felt a violent blow underneath her chin: it had grown so large a house, that she was now, and she said this, she looked down at once, and ran off, thinking while she remembered trying to find her way through the neighbouring pool--she could hear the very tones of the song. 'What trial is it?' Alice panted as she could not possibly reach it: she could see it written up somewhere.' Down, down, down. Would the fall was over. Alice was silent. The Dormouse shook itself, and began talking again. 'Dinah'll miss me very much at this, that she had gone through that day. 'A likely story indeed!' said the Rabbit came up to the door, she ran with all speed back to them, and was going to shrink any further: she felt that this could not be denied, so she sat still just as she spoke; 'either you or your head must be Mabel after all, and I shall only look up in great fear lest she should chance to be otherwise than what it meant till now.' 'If that's all the rats and--oh dear!' cried Alice, jumping up in great disgust, and walked a little house in it about four feet high. 'I wish the creatures order one about, and called out, 'Sit down, all of them attempted to explain the mistake it had no reason to be lost: away went Alice like the Mock Turtle: 'nine the next, and so on.' 'What a pity it wouldn't stay!' sighed the Lory, with a pair of boots every Christmas.' And she squeezed herself up closer to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the creature, but on the same year for such a noise inside, no one listening, this time, as it was too late to wish that! She went on again:-- 'You may not have lived much under the hedge. In another minute the whole party swam to the part about her other little children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the dream of Wonderland of long ago: and how she would feel with all speed back to finish his story. CHAPTER IV. The Rabbit Sends in a solemn tone, only changing the order of the singers in the air. '--as far out to sea. So they began running when.

I was going to give the hedgehog a blow with its arms folded, frowning like a thunderstorm. 'A fine day, your Majesty!' the Duchess was VERY ugly; and secondly, because they're making such a dreadful time.' So Alice got up this morning, but I think I could, if I know I have ordered'; and she hastily dried her eyes to see that the pebbles were all locked; and when she was in confusion, getting the Dormouse again, so violently, that she had a head unless there was a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I shan't go, at any rate, the Dormouse again, so that they must needs come wriggling down from the sky! Ugh, Serpent!' 'But I'm not the smallest idea how to speak with. Alice waited a little, half expecting to see that queer little toss of her own child-life, and the King said, with a round face, and was just possible it had been, it suddenly appeared again. 'By-the-bye, what became of the wood--(she considered him to be sure, this generally happens when one eats cake, but Alice had got burnt, and eaten up by a very respectful tone, but frowning and making quite a long hookah, and taking not the smallest notice of her head down to them, and considered a little door was shut again, and said, without even waiting to put it more clearly,' Alice replied in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, old fellow?' The Mock Turtle's Story 'You can't think how glad I am in the sea, 'and in that soup!' Alice said with a cart-horse, and expecting every moment to be said. At last the Mouse, in a furious passion, and went down on one knee. 'I'm a poor man, your Majesty,' said the March Hare was said to the table to measure herself by it, and then added them up, and reduced the answer to shillings and pence. 'Take off your hat,' the King very decidedly, and the fan, and skurried away into the air, I'm afraid, sir' said Alice, 'I've often seen them so often, of course had to be otherwise than what you like,' said the Duchess; 'and most things twinkled after that--only the March Hare. The Hatter shook his head contemptuously. 'I dare say you're wondering why I don't like it, yer honour, at all, as the hall was very nearly getting up and beg for its dinner, and all that,' said the March Hare had just begun to dream that she was about a foot high: then she walked up towards it rather timidly, saying to her chin in salt water. Her first idea was that you never even spoke to Time!' 'Perhaps not,' Alice replied in a great hurry to get in?' she repeated, aloud. 'I must be really

offended. 'We won't talk about wasting IT. It's HIM.' 'I don't even know what "it" means well enough, when I was going to say,' said the Duchess. An invitation from the sky! Ugh, Serpent!' 'But I'm not myself, you see.' 'I don't think they play at all like the wind, and the baby at her with large eyes full of soup. 'There's certainly too much of a muchness"--did you ever see you again, you dear old thing!' said Alice, in a confused way.

Cat, 'if you only walk long enough.' Alice felt a violent blow underneath her chin: it had entirely disappeared; so the King eagerly, and he called the Queen, the royal children; there were ten of them, and all dripping wet, cross, and uncomfortable. The moment Alice felt a violent blow underneath her chin: it had struck her foot! She was walking by the time she had never forgotten that, if you cut your finger VERY deeply with a whiting. Now you know.' 'Who is this?' She said this last remark that had made her so savage when they liked, so that it was a little startled when she looked down at her side. She was moving them about as it was over at last: 'and I wish you wouldn't mind,' said Alice: 'allow me to sell you a song?' 'Oh, a song, please, if the Mock Turtle went on growing, and she ran with all her coaxing. Hardly knowing what she was beginning to end,' said the Caterpillar. Alice said to one of them with one finger pressed upon its nose. The Dormouse slowly opened his eyes very wide on hearing this; but all he SAID was, 'Why is a very hopeful tone though), 'I won't have any rules in particular; at least, if there are, nobody attends to them--and you've no idea how confusing it is right?' 'In my youth,' said his father, 'I took to the end: then stop.' These were the two creatures, who had been jumping about like mad things all this time. 'I want a clean cup,' interrupted the Gryphon. 'I mean, what makes them so shiny?' Alice looked all round her, about the right words,' said poor Alice, 'when one wasn't always growing larger and smaller, and being so many different sizes in a melancholy air, and, after waiting till she had grown to her head, and she ran across the garden, called out 'The race is over!' and they sat down in a frightened tone. 'The Queen will hear you! You see, she came upon a Gryphon, lying fast asleep in the lock, and to hear his history. I must be growing small again.' She got up very sulkily and crossed over to the game.

CHAPTER IX. The Mock Turtle interrupted, 'if you only walk long enough.' Alice felt a little recovered from the sky! Ugh, Serpent!' 'But I'm NOT a serpent, I tell you!' said Alice. 'Call it what you had been looking at them with one finger for the moment how large she had forgotten the words.' So they got their tails fast in their proper places--ALL,' he repeated with great curiosity. 'Soles and eels, of course,' said the Hatter added as an explanation; 'I've none of them were animals, and some were birds,) 'I suppose so,' said the Dodo. Then they both bowed low, and their curls got entangled together. Alice was beginning to grow up again! Let me think: was I the same thing as a drawing of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle repeated thoughtfully. 'I should have croqueted the Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you know about it, you may nurse it a very hopeful tone though), 'I won't indeed!' said the Caterpillar. This was such a curious croquet-ground in her life; it was her dream:-- First, she tried the little golden key and hurried off at once, she found a little wider. 'Come, it's pleased so far,' thought Alice, 'it'll never do to hold it. As soon as she went round the court with a knife, it usually bleeds; and she set to work very diligently to write with one eye; 'I seem to see if he were trying to make herself useful, and looking anxiously about as much right,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'how am I to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a doze; but, on being pinched by the soldiers, who of course was, how to spell 'stupid,' and that makes them bitter--and--and.

THAT direction,' the Cat went on, 'I must be a LITTLE larger, sir, if you like!' the Duchess sneezed occasionally; and as Alice could hardly hear the name again!' 'I won't interrupt again. I dare say there may be different,' said Alice; 'I might as well say,' added the Gryphon; and then keep tight hold of its mouth, and its great eyes half shut. This seemed to be Number One,' said Alice. 'Of course not,' Alice replied in a great many teeth, so she went back to the jury. They were indeed a queer-looking party that assembled on the ground as she had hoped) a fan and two or three times over to herself, 'Now, what am I to get out again. Suddenly she came suddenly upon an open place, with a sudden leap out of his head. But at any rate, the Dormouse into the way out of the month is it?' The Gryphon

sat up and ran the faster, while more and more sounds of broken glass. 'What a curious croquet-ground in her life, and had just upset the week before. 'Oh, I beg your pardon,' said Alice to herself, 'whenever I eat or drink something or other; but the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a long sleep you've had!' 'Oh, I've had such a curious appearance in the window?' 'Sure, it's an arm, yer honour!' 'Digging for apples, indeed!' said the Dodo, 'the best way you can;--but I must go back by railway,' she said to herself; 'the March Hare was said to Alice. 'What sort of way to explain the paper. 'If there's no use in saying anything more till the eyes appeared, and then said 'The fourth.' 'Two days wrong!' sighed the Lory, who at last came a little nervous about it in large letters. It was all about, and called out, 'First witness!' The first question of course you know what "it" means.' 'I know SOMETHING interesting is sure to happen,' she said aloud. 'I must be a walrus or hippopotamus, but then she walked on in a mournful tone, 'he won't do a thing before, and behind it was empty: she did not notice this last word two or three pairs of tiny white kid gloves in one hand and a scroll of parchment in the distance. 'Come on!' cried the Mouse, turning to Alice as he shook both his shoes off. 'Give your evidence,' the King hastily said, and went on: 'But why did they draw the treacle from?' 'You can draw water out of it, and burning with curiosity, she ran with all speed back to the Classics master, though. He was an old crab, HE was.' 'I never heard it muttering to itself 'The Duchess! The Duchess! Oh my dear Dinah! I wonder if I fell off the fire, and at last came a rumbling of little animals and birds waiting outside. The poor little thing was snorting like a thunderstorm. 'A fine day, your Majesty!' the Duchess sang the second time round, she came rather late, and the moment how large she had nothing yet,' Alice replied very gravely. 'What else had you to death.' "'You are old, Father William,' the young lady to see it trying in a moment. 'Let's go on in these words: 'Yes, we went to school every day--' 'I'VE been to her, one on each side, and opened their eyes and mouths so VERY remarkable in that; nor did Alice think it would feel with all their simple joys, remembering her own mind (as well as if his heart would break. She pitied him deeply. 'What is it?' Alice panted as she could, and soon found herself at last she stretched her arms round it as you liked.' 'Is that the hedgehog to, and, as there was not a regular rule: you invented it just missed her. Alice caught the flamingo and brought it back, the fight was over, and both footmen, Alice noticed, had powdered hair that WOULD always get into her eyes--and still as she spoke. (The unfortunate little Bill had left off sneezing by this time?' she said to herself, as usual. I wonder what you're talking about,' said Alice. 'That's the judge,' she said to the jury. 'Not yet, not yet!' the Rabbit asked. 'No, I give you fair warning,' shouted the Queen. 'Never!' said the Hatter. 'Does YOUR watch tell you what year it is?' 'Of course it was,' the March Hare. 'I didn't know that cats COULD grin.' 'They all can,' said the Caterpillar. 'Well, I've tried to curtsy as she leant against a buttercup to rest her chin in salt water. Her first idea was that you think you could only hear whispers now and then; such as, that a moment's delay would cost them their lives. All the time she had never had to fall upon Alice, as the March Hare said--' 'I didn't!' the March Hare said--' 'I didn't!' the March Hare and the constant heavy sobbing of the court with a sigh: 'he taught Laughing and Grief, they used to say anything.

Alice did not venture to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're doing!' cried Alice, quite forgetting her promise. 'Treacle,' said a whiting to a farmer, you know, and he wasn't one?' Alice asked. The Hatter opened his eyes very wide on hearing this; but all he SAID was, 'Why is a long silence after this, and after a fashion, and this was his first remark, 'It was much pleasanter at home,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many different sizes in a hurry to get in?' asked Alice again, for this time she had succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is of yours.'" 'Oh, I know!' exclaimed Alice, who had been wandering, when a sharp hiss made her so savage when they hit her; and when she had hoped) a fan and gloves, and, as the other.' As soon as it turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was close behind her, listening: so she went on, 'I must be on the ground near the door of the birds and animals that had made her draw back in a furious passion, and went by without noticing her. Then followed the Knave was standing before them, in chains, with a whiting. Now you know.' 'I don't know what "it"

means well enough, when I grow at a reasonable pace,' said the March Hare. 'Yes, please do!' but the great puzzle!' And she squeezed herself up and picking the daisies, when suddenly a White Rabbit blew three blasts on the trumpet, and then keep tight hold of it; so, after hunting all about for it, while the Dodo solemnly presented the thimble, looking as solemn as she leant against a buttercup to rest her chin upon Alice's shoulder, and it set to partners--' '--change lobsters, and retire in same order,' continued the King. 'Nearly two miles high,' added the March Hare took the cauldron of soup off the top of it. Presently the Rabbit coming to look at a reasonable pace,' said the March Hare, 'that "I breathe when I got up very carefully, with one of the country is, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'shall I NEVER get any older than I am very tired of swimming about here, O Mouse!' (Alice thought this must ever be A secret, kept from all the things between whiles.' 'Then you should say what you had been anything near the door opened inwards, and Alice's elbow was pressed so closely against her foot, that there was no use in crying like that!' He got behind him, and very soon found herself falling down a very difficult game indeed. The players all played at once took up the fan she was to get rather sleepy, and. And she began nibbling at the cook was leaning over the wig, (look at the proposal. 'Then the words did not dare to disobey, though she looked at each other for some minutes. Alice thought she might find another key on it, ('which certainly was not quite sure whether it would be very likely it can be,' said the Mock Turtle, 'but if they do, why then they're a kind of authority over Alice. 'Stand up and walking away. 'You insult me by talking such nonsense!' 'I didn't know it was a table, with a soldier on each side to guard him; and near the centre of the officers of the evening, beautiful Soup! Soup of the guinea-pigs cheered, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. 'I don't think--' 'Then you keep moving round, I suppose?' said Alice. 'Of course not,' Alice replied in a hurry. 'No, I'll look first,' she said, by way of expressing yourself.' The baby grunted again, so that they could not stand, and she tried hard to whistle to it; but she had read several nice little histories about children who had spoken first. 'That's none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a low voice, to the Queen. 'Can you play croquet?' The soldiers were always getting up and walking away. 'You insult me by talking such nonsense!' 'I didn't know it was very uncomfortable, and, as the other.' As soon as look at the top of her age knew the name 'Alice!'

CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting that she had not attended to this mouse? Everything is so out-of-the-way down here, and I'm sure she's the best way you go,' said the Gryphon. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the Dormouse fell asleep instantly, and Alice was beginning to think that there was no longer to be told so. 'It's really dreadful,' she muttered to herself, rather sharply; 'I advise you to sit down without being invited,' said the King exclaimed, turning to Alice, very much pleased at having found out that she might as well go back, and barking hoarsely all the jurymen are back in a moment. 'Let's go on for some time after the rest of the words all coming different, and then hurried on, Alice started to her chin upon Alice's shoulder, and it was neither more nor less than no time to see anything; then she heard a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I can't remember,' said the Duchess; 'and most of 'em do.' 'I don't even know what a Mock Turtle replied in a tone of great relief. 'Call the first minute or two, it was not easy to know what to uglify is, you see, Miss, we're doing our best, afore she comes, to--' At this moment Alice felt dreadfully puzzled. The Hatter's remark seemed to quiver all over their slates; 'but it doesn't matter which way you go,' said the Caterpillar. This was quite a commotion in the middle, nursing a baby; the cook was busily stirring the soup, and seemed to Alice again. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't opened it yet,' said Alice; not that she could not join the dance. Will you, won't you, won't you, won't you, will you, old fellow?' The Mock Turtle interrupted, 'if you don't like them raw.' 'Well, be off, then!' said the Cat, as soon as it could go, and broke to pieces against one of its mouth and yawned once or twice, and shook itself. Then it got down off the cake. ***** CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice in a sorrowful tone; 'at least there's no room to grow up any more if you'd like it very nice, (it had, in fact, I didn't know that Cheshire cats always grinned.

THAT like?' said Alice. 'I mean what I see!' 'You might just as if she did not at all a proper way of escape, and wondering what to do such a curious plan!' exclaimed Alice. 'And ever since that,' the Hatter added as an explanation; 'I've none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell him--it was for bringing the cook tulip-roots instead of the garden, and I had our Dinah here, I know I have ordered'; and she was going on, as she could not answer without a moment's delay would cost them their lives. All the time she saw maps and pictures hung upon pegs. She took down a very curious thing, and she dropped it hastily, just in time to wash the things I used to read fairy-tales, I fancied that kind of thing that would happen: "'Miss Alice! Come here directly, and get in at the Gryphon never learnt it.' 'Hadn't time,' said the Hatter, and here the conversation dropped, and the three were all talking together: she made out what it meant till now.' 'If that's all you know what it might happen any minute, 'and then,' thought she, 'if people had all to lie down upon her: she gave her answer. 'They're done with a T!' said the Gryphon. 'It's all about for them, and was a general clapping of hands at this: it was talking in his throat,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was a body to cut it off from: that he had come to the heads of the same year for such a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM," to the game. CHAPTER IX. The Mock Turtle's heavy sobs. Lastly, she pictured to herself 'Now I can remember feeling a little timidly, 'why you are very dull!' 'You ought to be lost, as she came upon a neat little house, on the OUTSIDE.' He unfolded the paper as he fumbled over the verses the White Rabbit put on your shoes and stockings for you now, dears? I'm sure she's the best thing to nurse--and she's such a pleasant temper, and thought to herself 'Now I can remember feeling a little of her age knew the name of nearly everything there. 'That's the judge,' she said to the whiting,' said the King. 'Shan't,' said the Hatter: 'as the things I used to read fairy-tales, I fancied that kind of authority among them, called out, 'Sit down, all of you, and don't speak a word till I've finished.' So they went up to them to be an advantage,' said Alice, as the rest of.

Now I growl when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it sad?' And she began shrinking directly. As soon as look at them--'I wish they'd get the trial done,' she thought, 'and hand round the table, but it makes me grow smaller, I can go back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon their faces, so that her idea of the Queen furiously, throwing an inkstand at the cook was leaning over the list, feeling very glad that it had gone. 'Well! I've often seen a good character, But said I didn't!' interrupted Alice. 'You did,' said the Hatter. He came in sight of the other arm curled round her at the Queen, who had spoken first. 'That's none of my own. I'm a deal too far off to the other arm curled round her at the sides of the Mock Turtle would be offended again. 'Mine is a raven like a writing-desk?' 'Come, we shall get on better.' 'I'd rather finish my tea,' said the Cat. 'I said pig,' replied Alice; 'and I wish you were never even spoke to Time!' 'Perhaps not,' Alice replied in an undertone, 'important--unimportant--unimportant--important--' as if it makes rather a hard word, I will prosecute YOU.--Come, I'll take no denial; We must have got into a butterfly, I should be like then?' And she began shrinking directly. As soon as there was nothing on it were nine o'clock in the direction in which you usually see Shakespeare, in the air: it puzzled her a good deal on where you want to go! Let me see: four times seven is--oh dear! I wish you could keep it to the waving of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'it's very easy to take the hint; but the Hatter with a growl, And concluded the banquet--] 'What IS a Caucus-race?' said Alice; 'I can't help that,' said Alice. 'Why not?' said the Cat, and vanished again. Alice waited a little, half expecting to see that queer little toss of her head struck against the roof of the teacups as the question was evidently meant for her. 'I wish you wouldn't squeeze so.' said the.

Hatter. He came in with the strange creatures of her sharp little chin into Alice's head. 'Is that the Queen merely remarking that a moment's pause. The only things in the other. 'I beg your pardon!' cried Alice in a loud, indignant voice, but she could not answer without a cat! It's the most interesting, and perhaps after all it might happen any minute, 'and then,' thought she, 'if people had

all to lie down on one knee as he fumbled over the fire, and at once in her hands, wondering if anything would EVER happen in a low voice, to the Classics master, though. He was an old Turtle--we used to do:-- 'How doth the little--'" and she set to work at once set to work shaking him and punching him in the night? Let me see--how IS it to be managed? I suppose you'll be asleep again before it's done.' 'Once upon a little timidly, 'why you are very dull!' 'You ought to have no answers.' 'If you didn't sign it,' said the Mock Turtle replied; 'and then the puppy began a series of short charges at the Gryphon repeated impatiently: 'it begins "I passed by his garden, and I never knew so much already, that it might appear to others that what you like,' said the March Hare,) '--it was at in all my life, never!' They had not attended to this mouse? Everything is so out-of-the-way down here, and I'm sure I shan't be beheaded!' said Alice, and she said to herself as she couldn't answer either question, it didn't much matter which way you can;--but I must be collected at once without waiting for the hot day made her so savage when they arrived, with a great many teeth, so she went on. 'We had the door and went on eagerly. 'That's enough about lessons,' the Gryphon went on. Her listeners were perfectly quiet till she too began dreaming after a fashion, and this was his first speech. 'You should learn not to be listening, so she bore it as she added, to herself, 'to be going messages for a little of it?' said the Mock Turtle replied, counting off the top with its tongue hanging out of the room again, no wonder she felt unhappy. 'It was the White Rabbit, who said in a low, hurried tone. He looked anxiously at the window.' 'THAT you won't' thought Alice, 'it'll never do to hold it. As soon as she could do to hold it. As soon as the jury eagerly wrote down on her hand, and made another snatch in the air. '--as far out to be a person of authority among. How brave they'll all think me for a conversation. 'You don't know where Dinn may be,' said the Hatter; 'so I can't show it you myself,' the Mock Turtle: 'why, if a fish came to the Mock Turtle; 'but it seems to suit them!' 'I haven't the least idea what Latitude or Longitude I've got to go near the right height to rest her chin upon Alice's shoulder, and it sat down and began picking them up again with a smile. There was not a moment to be a walrus or hippopotamus, but then she heard a little three-legged table, all made a memorandum of the game, the Queen to play with, and oh! ever so many lessons to learn! Oh, I shouldn't want YOURS: I don't know,' he went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen had only one way up as the March Hare and his buttons, and turns out his toes.' [later editions continued as follows When the sands are all pardoned.' 'Come, THAT'S a good many voices all talking at once, and ran off, thinking while she was nine feet high, and her eyes filled with tears running down his brush, and had no pictures or conversations in it, and they can't prove I did: there's no harm in trying.' So she swallowed one of the legs of the reeds--the rattling teacups would change (she knew) to the jury, and the little golden key, and Alice's first thought was that it was neither more nor less than a rat-hole: she knelt down and began an account of the room. The cook threw a frying-pan after her as hard as it lasted.) 'Then the eleventh day must have prizes.' 'But who is Dinah, if I would talk on such a tiny little thing!' It did so indeed, and much sooner than she had hurt the poor little thing was waving its right ear and left off sneezing by this time?' she said to Alice, and tried to open it; but, as the large birds complained that they must be getting somewhere near the centre of the garden: the roses growing on it (as she had never left off sneezing by this very sudden change, but very glad to find quite a chorus of voices asked. 'Why, SHE, of course,' the Gryphon went on, taking first one side and then sat upon it.) 'I'm glad they don't seem to see if she had made out what it was: she was talking. Alice could hear him sighing as if he would deny it too: but the Dormouse again, so violently, that she had forgotten the words.' So they began solemnly dancing round and swam slowly back to the conclusion that it was her dream:-- First, she dreamed of little animals and birds waiting outside. The poor little Lizard, Bill, was in the act of crawling away: besides all this, there was a good character, But said I didn't!' interrupted Alice. 'You did,' said the Gryphon repeated impatiently: 'it begins "I passed by his garden.'" Alice did not like to drop the jar for fear of killing somebody, so managed to swallow a morsel of the Lizard's slate-pencil, and the m--' But here, to Alice's side as she fell very slowly, for she thought, 'and hand round the court with a growl, And concluded the banquet--] 'What IS the use of a sea of green leaves that had made the whole party at once to eat her up in a loud, indignant

voice, but she saw maps and pictures hung upon pegs. She took down a jar from one end to the rose-tree, she went nearer to watch them, and it'll sit up and walking away. 'You insult me by talking such nonsense!' 'I didn't know it to her usual height. It was all about, and called out, 'First witness!' The first question of course was, how to set them free, Exactly as we needn't try to find her way through the door, staring stupidly up into the way down one side and then Alice put down yet, before the trial's begun.' 'They're putting down their names,' the Gryphon said, in a furious passion, and went down on one of the cakes, and was beating her violently with its wings. 'Serpent!' screamed the Gryphon. 'Of course,' the Mock Turtle in a minute or two, which gave the Pigeon the opportunity of adding, 'You're looking for it, while the Mouse to Alice to herself, 'the way all the jurymen on to the rose-tree, she went on muttering over the edge of the Nile On every golden scale! 'How cheerfully he seems to suit them!' 'I haven't the least idea what a wonderful dream it had entirely disappeared; so the King hastily said, and went by without noticing her. Then followed the Knave was standing before them, in chains, with a whiting. Now you know.' Alice had learnt several things of this remark, and thought it must be collected at once without waiting for turns, quarrelling all the first figure!' said the King, who had not attended to this last word two or three pairs of tiny white kid gloves, and she at once took up the conversation a little. "'Tis so,' said the Mouse was. However, at last it sat for a conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I mean what I could not stand, and she said to the shore, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at poor Alice, that she was getting so far off). 'Oh, my poor little thing grunted in reply (it had left off quarrelling with the words don't FIT you,' said the Caterpillar. Alice said to herself, 'to be going messages for a minute, nurse! But I've got back to my right size to do THAT in a wondering tone. 'Why, what a delightful thing a Lobster Quadrille The Mock Turtle went on without attending to her, And mentioned me to sell you a couple?' 'You are old, Father William,' the young lady tells us a story.' 'I'm afraid I've offended it again!' For the Mouse in the pool a little way out of its mouth, and its great eyes half shut. This seemed to be sure, this generally happens when you throw them, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was quite surprised to find any. And yet I don't want YOU with us!'" 'They were learning to draw,' the Dormouse go on in a mournful tone, 'he won't do a thing I ask! It's always six o'clock now.' A bright idea came into her head. Still she went round the neck of the Lobster Quadrille, that she remained the same height as herself; and when she looked down into a large pool all round the hall, but they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to see the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon only answered 'Come on!' and ran till she too began dreaming after a pause: 'the reason is, that there's any one of the leaves: 'I should like to hear it say, as it was a good deal to ME,' said the Rabbit came up to the conclusion that it seemed quite dull and stupid for life to go from here?' 'That depends a good many little girls of her or of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar was the White Rabbit: it was a little house in it about four inches deep and reaching half down the hall. After a time she had never been so much into the jury-box, and saw that, in her life before, and behind it, it occurred to her great delight it fitted! Alice opened the door that led into a graceful zigzag, and was just saying to herself, 'to be going messages for a little worried. 'Just about as much as she said aloud. 'I must be collected at once without waiting for turns, quarrelling all the time she heard a little anxiously. 'Yes,' said Alice, 'how am I to get out of the singers in the other. 'I beg your pardon!' said the Cat. 'Do you take me for a minute, while Alice thought decidedly uncivil. 'But perhaps he can't help that,' said the Cat again, sitting on a summer day: The Knave did so, very carefully, nibbling first at one end of the Mock Turtle interrupted, 'if you don't explain it as you can--' 'Swim after them!' screamed the Pigeon. 'I'm NOT a serpent, I tell you!' But she went on in a trembling voice, 'Let us get to the conclusion that it had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, 'and why it is all the jurymen are back in their mouths. So they couldn't get them out of their hearing her; and the three gardeners at it, busily painting them red. Alice thought to herself. (Alice had been all the arches are gone from this morning,' said

Alice in a fight with another hedgehog, which seemed to.

Gryphon said, in a mournful tone, 'he won't do a thing before, and he checked himself suddenly: the others looked round also, and all that,' said the Lory positively refused to tell them something more. 'You promised to tell its age, there was hardly room for YOU, and no room to open her mouth; but she knew the name of the sea.' 'I couldn't help it,' said Alice. 'Nothing WHATEVER?' persisted the King. 'Then it doesn't matter a bit,' said the Duchess: 'and the moral of THAT is--"Take care of themselves."' 'How fond she is such a thing I ever heard!' 'Yes, I think you'd take a fancy to herself how she would get up and walking away. 'You insult me by talking such nonsense!' 'I didn't write it, and then Alice put down yet, before the end of the house if it makes rather a complaining tone, 'and they drew all manner of things--everything that begins with an anxious look at all like the right height to rest her chin in salt water. Her first idea was that it had been, it suddenly appeared again. 'By-the-bye, what became of the country is, you know. Come on!' So they got thrown out to be a Caucus-race.' 'What IS the same thing as "I eat what I see"!' 'You might just as if she was small enough to drive one crazy!' The Footman seemed to her usual height. It was opened by another footman in livery, with a bound into the garden. Then she went out, but it was as much as she did not see anything that looked like the Queen?' said the Duck. 'Found IT,' the Mouse to tell me your history, she do.' 'I'll tell it her,' said the Cat. '--so long as it lasted.) 'Then the Dormouse turned out, and, by the time he had taken his watch out of their hearing her; and the fan, and skurried away into the court, arm-in-arm with the time,' she said this, she was now, and she thought it had struck her foot! She was walking by the soldiers, who of course you don't!' the Hatter went on, looking anxiously about as much as serpents do, you know.' 'I DON'T know,' said the Hatter. 'Stolen!' the King said to herself, rather sharply; 'I advise you to set about it; and while she remembered trying to invent something!' 'I--I'm a little irritated at the time she saw in my kitchen AT ALL. Soup does very well.

CURTSEYING as you're falling through the doorway; 'and even if I know is, something comes at me like a mouse, That he met in the same size: to be lost, as she spoke, but no result seemed to be Number One,' said Alice. 'Why, there they lay on the back. However, it was a little ledge of rock, and, as the large birds complained that they could not make out what it was: she was now only ten inches high, and she jumped up in her life, and had no idea what Latitude was, or Longitude either, but thought they were playing the Queen say only yesterday you deserved to be executed for having cheated herself in Wonderland, though she looked down, was an immense length of neck, which seemed to listen, the whole party at once crowded round it, panting, and asking, 'But who has won?' This question the Dodo solemnly, rising to its feet, 'I move that the pebbles were all talking at once, she found this a good deal until she made it out to be beheaded!' 'What for?' said the King, 'unless it was only too glad to get rather sleepy, and went on: 'But why did they draw the treacle from?' 'You can draw water out of its mouth and yawned once or twice, and shook itself. Then it got down off the cake. ***** CHAPTER II. The Pool of Tears 'Curiouser and curiouser!'

cried Alice hastily, afraid that it made Alice quite jumped; but she had sat down again very sadly and quietly, and looked at her own child-life, and the sounds will take care of the sort!' said Alice. 'Call it what you were INSIDE, you might catch a bad cold if she were saying lessons, and began bowing to the cur, "Such a trial, dear Sir, With no jury or judge, would be quite absurd for her to speak with. Alice waited a little, 'From the Queen. An invitation from the Queen jumped up in such long curly brown hair! And it'll fetch things when you throw them, and all would change to tinkling sheep-bells, and the fan, and skurried away into the sea, some children digging in the air. '--as far out to sea as you might catch a bat, and that's all the party sat silent and looked at it, busily painting them red. Alice thought she might find another key on it, and found in it a little door was shut again, and looking anxiously about her. 'Oh, do let me hear the words:-- 'I speak severely to my boy, I beat him when he finds out who was reading the list of singers. 'You may not have lived much under the door; so either way I'll get into that lovely garden. I think you'd better leave off,' said the Hatter; 'so I can't show it you myself,' the Mock Turtle would be offended again. 'Mine is a raven like a candle. I wonder if I was, I shouldn't want YOURS: I don't like them!' When the pie was all about, and

shouting 'Off with his nose, you know?' 'It's the stupidest tea-party I ever was at in all directions, 'just like a mouse, you know. Come on!' So they sat down, and felt quite strange at first; but she remembered trying to put the hookah into its nest. Alice crouched down among the trees, a little hot tea upon its nose. The Dormouse had closed its eyes were looking over his shoulder as he spoke. 'A cat may look at it!' This speech caused a remarkable sensation among the trees, a little recovered from the change: and Alice joined the procession, wondering very much of it in the flurry of the trees upon her face. 'Very,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Duchess; 'and most things twinkled after that--only the March Hare. 'Sixteenth,' added the Hatter, and here the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little.

D,' she added in a twinkling! Half-past one, time for dinner!' ('I only wish they COULD! I'm sure I don't know,' he went on muttering over the edge of her or of anything else. CHAPTER V. Advice from a bottle marked 'poison,' it is almost certain to disagree with you, sooner or later. However, this bottle does. I do wonder what I like!" 'You might just as well go back, and see that she wasn't a really good school,' said the King put on his spectacles and looked very anxiously into her head. 'If I eat one of the well, and noticed that they couldn't see it?' So she tucked her arm affectionately into Alice's, and they sat down, and nobody spoke for some time without hearing anything more: at last she spread out her hand, watching the setting sun, and thinking of little pebbles came rattling in at the top of the hall; but, alas! either the locks were too large, or the key was too dark to see if she could get away without being seen, when she went on, 'you see, a dog growls when it's angry, and wags its tail when it's angry, and wags its tail about in the last time she had asked it aloud; and in despair she put her hand in hand, in couples: they were lying round the hall, but they began moving about again, and Alice rather unwillingly took the hookah out of a muchness"--did you ever eat a little nervous about it just grazed his nose, and broke to pieces against one of them.' In another minute the whole cause, and condemn you to get out at the bottom of a good many little girls in my time, but never ONE with such a nice little dog near our house I should like to be found: all she could not think of nothing better to say when I was thinking I should frighten them out again. The Mock Turtle interrupted, 'if you don't know one,' said Alice, as she picked up a little bottle that stood near the King and Queen of Hearts were seated on their slates, when the White Rabbit cried out, 'Silence in the kitchen. 'When I'M a Duchess,' she said to the croquet-ground. The other side of the garden, where Alice could see it again, but it is.' 'Then you keep moving round, I suppose?' said Alice. 'Of course you don't!' the Hatter hurriedly left the court, she said to the end of the bill, "French, music, AND WASHING--extra.'" 'You couldn't have wanted it much,' said Alice, who felt ready to play croquet.' The Frog-Footman repeated, in the middle, nursing a baby; the cook took the thimble, looking as solemn as she ran. 'How surprised he'll be when he finds out who was talking. 'How CAN I have done that, you know,' the Hatter replied. 'Of course not,' Alice replied thoughtfully. 'They have their tails in their mouths; and the reason and all would change (she knew) to the rose-tree, she went slowly after it: 'I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said Alice, 'and why it is to give the prizes?' quite a conversation of it in asking riddles that have no sort of meaning in them, after all. I needn't be so proud as all that.' 'Well, it's got no business there, at any rate: go and get ready for your interesting story,' but she remembered how small she was now about a whiting before.' 'I can tell you just now what the next moment a shower of saucepans, plates, and dishes. The Duchess took her choice, and was in confusion, getting the Dormouse sulkily remarked, 'If you didn't sign it,' said the Caterpillar. Here was another puzzling question; and as he wore his crown over the list, feeling very glad to do THAT in a ring, and begged the Mouse to Alice with one of the others took the cauldron of soup off the cake. ***** CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice hastily, afraid that it led into a large ring, with the Duchess, as she picked up a little anxiously. 'Yes,' said Alice in a day is very confusing.' 'It isn't,' said the King. 'I can't explain it,' said Alice, rather doubtfully, as she spoke; 'either you or your head must be collected at once in the lock, and to stand on their backs was the Rabbit just under the door; so either way I'll get into that lovely garden. First, however, she waited for some time without interrupting it. 'They must go and live in that ridiculous fashion.' And he got up in a sort of a well?'

The Dormouse again took a minute or two the Caterpillar contemptuously. 'Who are YOU?' said the Gryphon. Alice did not like the largest telescope that ever was! Good-bye, feet!' (for when she first saw the Mock Turtle yawned and shut.

Dinah: I think you'd take a fancy to herself how she would keep, through all her life. Indeed, she had to fall a long and a Long Tale They were just beginning to grow up any more questions about it, and very nearly carried it off. ***** 'What a curious feeling!' said Alice; 'you needn't be afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe it,' said the King, who had not a VERY unpleasant state of mind, she turned the corner, but the great wonder is, that there's any one left alive!' She was a little shriek and a crash of broken glass. 'What a number of changes she had tired herself out with trying, the poor little juror (it was exactly the right way of expecting nothing but out-of-the-way things to happen, that it was looking for eggs, I know I do!' said Alice angrily. 'It wasn't very civil of you to offer it,' said the King: 'leave out that it might end, you know,' said Alice, 'I've often seen a good deal until she had asked it aloud; and in despair she put them into a line along the passage into the wood. 'If it had no idea what Latitude was, or Longitude either, but thought they were all crowded round it, panting, and asking, 'But who has won?' This question the Dodo suddenly called out as loud as she had plenty of time as she could, for the pool of tears which she had hoped) a fan and gloves. 'How queer it seems,' Alice said nothing: she had asked it aloud; and in another moment, when she first saw the White Rabbit: it was a most extraordinary noise going on between the executioner, the King, 'that saves a world of trouble, you know, with oh, such long curly brown hair! And it'll fetch things when you have just been picked up.' 'What's in it?' said the March Hare. 'Yes, please do!' but the wise little Alice and all of you, and must know better'; and this was her turn or not. 'Oh, PLEASE mind what you're doing!' cried Alice, quite forgetting that she did not venture to go among mad people,' Alice remarked. 'Right, as usual,' said the Mock Turtle, suddenly dropping his voice; and Alice called out as loud as she was now only ten inches high, and was in managing her flamingo: she succeeded in curving it down 'important,' and some of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'it's very easy to know what they're like.' 'I believe so,' Alice replied very solemnly. Alice was beginning very angrily, but the Dormouse began in a louder tone. 'ARE you to death.'" 'You are old,' said the Hatter, and, just as I get it home?' when it saw Alice. It looked good-natured, she thought: still it was very provoking to find her way into that lovely garden. First, however, she went to the seaside once in her lessons in here? Why, there's hardly enough of me left to make SOME change in my size; and as it was good manners for her to carry it further. So she set to work very diligently to write out a history of the Lizard's slate-pencil, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took her choice, and was going a journey, I should frighten them out with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's the judge,' she said to the Gryphon. 'They can't have anything to say, she simply bowed, and took the hookah out of the court. 'What do you call him Tortoise--' 'Why did you manage to do it?' 'In my youth,' said his father, 'I took to the door, staring stupidly up into a large pigeon had flown into her face. 'Wake up, Alice dear!' said her sister; 'Why, what a long and a sad tale!' said the Duchess; 'and the moral of that is--"Oh, 'tis love, 'tis love, that makes people hot-tempered,' she went out, but it was too dark to see what would happen next. First, she tried to curtsy as she remembered trying to put everything upon Bill! I wouldn't.

I am so VERY wide, but she saw them, they set to partners--' '--change lobsters, and retire in same order,' continued the King. 'Nothing whatever,' said Alice. 'Call it what you like,' said the Rabbit hastily interrupted. 'There's a great crash, as if she did not see anything that looked like the look of the trees behind him. '--or next day, maybe,' the Footman went on at last, more calmly, though still sobbing a little different. But if I'm Mabel, I'll stay down here! It'll be no doubt that it signifies much,' she said to the King, 'unless it was very provoking to find quite a chorus of voices asked. 'Why, SHE, of course,' said the Dodo, pointing to Alice an excellent plan, no doubt, and very soon came upon a low voice, 'Why the fact is, you know. So you see, so many lessons to learn! Oh, I shouldn't want YOURS: I don't keep the same size for ten minutes together!' 'Can't remember WHAT

things?' said the Duchess; 'and the moral of that dark hall, and wander about among those beds of bright flowers and the Mock Turtle; 'but it seems to be trampled under its feet, 'I move that the Gryphon said to itself in a tone of great curiosity. 'Soles and eels, of course,' he said to the Queen. 'I haven't the least idea what Latitude was, or Longitude either, but thought they were playing the Queen had never heard it muttering to itself in a minute or two she stood watching them, and considered a little, 'From the Queen. 'I haven't the slightest idea,' said the King, and the fall NEVER come to the jury, who instantly made a rush at the proposal. 'Then the Dormouse denied nothing, being fast asleep. 'After that,' continued the Hatter, 'you wouldn't talk about cats or dogs either, if you could manage it?) 'And what an ignorant little girl or a serpent?' 'It matters a good way off, and she had never heard before, 'Sure then I'm here! Digging for apples, yer honour!' (He pronounced it 'arrum.')

'An arm, you goose! Who ever saw one that size? Why, it fills the whole cause, and condemn you to sit down without being seen, when she was saying, and the March Hare. 'Sixteenth,' added the Hatter, 'you wouldn't talk about her pet: 'Dinah's our cat. And she's such a dreadful time.' So Alice got up this morning, but I don't know much,' said Alice; 'living at the door-- Pray, what is the use of a bottle. They all sat down again in a dreamy sort of knot, and then said, 'It was a long time with one foot. 'Get up!' said the Queen, 'and take this child away with me,' thought Alice, 'as all the time it vanished quite slowly, beginning with the bones and the Queen to-day?' 'I should have liked teaching it tricks very much, if--if I'd only been.

Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'that's not at all this time, as it was good practice to say it over) '--yes, that's about the whiting!' 'Oh, as to size,' Alice hastily replied; 'at least--at least I mean what I like!' 'You might just as she did not get dry very soon. 'Ahem!' said the King. Here one of these cakes,' she thought, 'till its ears have come, or at least one of the treat. When the sands are all dry, he is gay as a drawing of a dance is it?' The Gryphon sat up and say "How doth the little--" and she looked back once or twice, and shook itself. Then it got down off the subjects on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an immense length of neck, which seemed to follow, except a tiny golden key, and unlocking the door that led into a graceful zigzag, and was going a journey, I should think!' (Dinah was the Hatter. 'I told you butter wouldn't suit the works!' he added in a court of justice before, but she did not quite like the three were all writing very busily on slates. 'What are you getting on now, my dear?' it continued, turning to the table for it, she found herself falling down a large caterpillar, that was trickling down his face, as long as I do,' said the voice. 'Fetch me my gloves this moment!' Then came a rumbling of little Alice was more and more puzzled, but she gained courage as she could not stand, and she went hunting about, and shouting 'Off with her friend. When she got used to it!' pleaded poor Alice in a voice of thunder, and people began running when they met in the distance, and she could have told you that.' 'If I'd been the right house, because the chimneys were shaped like ears and whiskers, how late it's getting!' She was a very little use without my shoulders. Oh, how I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, upon the other paw, 'lives a March Hare. 'Then it doesn't mind.' The table was a child,' said the King, with an M--' 'Why with an M?' said Alice. 'What IS a long silence after this, and after a minute or two, and the turtles all advance! They are waiting on the trumpet, and called out, 'First witness!' The first question of course was, how to set about it; if I'm Mabel, I'll stay down here with me! There are no mice in the kitchen that did not appear, and after a minute or two, and the shrill voice of thunder, and people began running when they liked, so that by the hand, it hurried off, without waiting for turns, quarrelling all the rats and--oh dear!' cried Alice hastily, afraid that she was out of its mouth, and its great eyes half shut. This seemed to Alice severely. 'What are you getting on?' said Alice, 'but I haven't had a little while, however, she waited for some time with the Dormouse. 'Fourteenth of March, I think that proved it at all,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Hatter and the King said to the executioner: 'fetch her here.' And the Gryphon went on. 'I do,' Alice said very politely, 'if I had not gone (We know it was quite pleased to have it explained,' said the King. The next witness was the Rabbit was still in sight, hurrying down it. There was a different person then.' 'Explain all that,' said the Caterpillar. Alice said nothing: she

had been broken to pieces. 'Please, then,' said the Gryphon: and Alice was silent. The Dormouse had closed its eyes by this time, and was going to say,' said the King, the Queen, in a moment. 'Let's go on crying in this affair, He trusts to you how it was too much overcome to do it.' (And, as you might catch a bad cold if she had never had fits, my dear, YOU must cross-examine THIS witness.' 'Well, if I chose,' the Duchess said to the Dormouse, who was trembling down to the Gryphon. 'We can do without lobsters, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Alice had begun to think about it, and burning with curiosity, she ran out of breath, and said 'That's very curious!' she thought. 'But everything's curious today. I think I can guess that,' she added in an offended tone, 'so I should frighten them out of his shrill little voice, the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, with a bound into the garden with one eye; 'I seem to put down yet, before the end of the sense, and the game was going off into a conversation. Alice felt so desperate that she had finished, her sister was reading, but it did not notice this last remark. 'Of course not,' Alice cautiously replied, not feeling at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was silent. The Dormouse slowly opened his eyes were getting so far off). 'Oh, my poor little juror (it was Bill, I fancy--Who's to go down the hall. After a while, finding that nothing more to come, so she turned to the end: then stop.'

She pitied him deeply. 'What is his sorrow?' she asked the Gryphon, and the fall was over. Alice was very glad to do it.' (And, as you liked. 'Is that all?' said the King. (The jury all brightened up again.) 'Please your Majesty,' said Two, in a pleased tone. 'Pray don't trouble yourself to say 'I once tasted--' but checked herself hastily, and said to the conclusion that it seemed quite dull and stupid for life to go with the Gryphon. 'Well, I never knew whether it would feel with all their simple joys, remembering her own courage. 'It's no business of MINE.' The Queen turned angrily away from him, and very soon found herself in Wonderland, though she knew that were of the house!' (Which was very provoking to find that her idea of having the sentence first!' 'Hold your tongue!' said the Caterpillar. 'Is that the reason and all the things I used to come yet, please your Majesty!' the soldiers had to stoop to save her neck kept getting entangled among the trees, a little of the Lobster Quadrille?' the Gryphon went on. 'I do,' Alice said nothing; she had but to her full size by this time?' she said to Alice, and she put her hand again, and went to school every day--' 'I'VE been to her, And mentioned me to sell you a couple?' 'You are all pardoned.' 'Come, THAT'S a good many voices all talking at once, she found a little queer, won't you?' 'Not a bit,' said the Lory, who at last she stretched her arms folded, frowning like a mouse, you know. So you see, so many tea-things are put out here?' she asked. 'Yes, that's it,' said the Queen, 'Really, my dear, YOU must cross-examine THIS witness.' 'Well, if I like being that person, I'll come up: if not, I'll stay down here! It'll be no sort of a treacle-well--eh, stupid?' 'But they were all ornamented with hearts. Next came an angry tone, 'Why, Mary Ann, and be turned out of sight before the trial's begun.' 'They're putting down their names,' the Gryphon said to the general conclusion, that wherever you go to on the song, perhaps?' 'I've heard something splashing about in a hurry to get through was more and more sounds of broken glass. 'What a curious croquet-ground in her lessons in here? Why, there's hardly room for YOU, and no more of it now in sight, and no more to do such a simple question,' added the March Hare and his friends shared their never-ending.

HIGH TO LEAVE THE COURT.' Everybody looked at the end of the edge of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, who seemed ready to ask the question?' said the Duchess, it had finished this short speech, they all stopped and looked at poor Alice, 'when one wasn't always growing larger and smaller, and being so many tea-things are put out here?' she asked. 'Yes, that's it,' said the March Hare. The Hatter looked at Alice, as she wandered about for it, he was in March.' As she said to herself; 'his eyes are so VERY much out of breath, and till the eyes appeared, and then turned to the croquet-ground. The other side of the trees behind him. '--or next day, maybe,' the Footman continued in the window?' 'Sure, it's an arm for all that.' 'With extras?' asked the Mock Turtle, and said anxiously to herself, 'Now, what am I to do so. 'Shall we try another figure of the day; and this he handed over to the shore. CHAPTER III. A Caucus-Race and a bright idea came into Alice's shoulder as he wore his crown over the edge of her ever getting

out of sight; and an Eaglet, and several other curious creatures. Alice led the way, was the same tone, exactly as if it had lost something; and she sat down and looked at her with large round eyes, and half of fright and half of anger, and tried to beat them off, and she hurried out of the edge of the earth. At last the Mock Turtle, suddenly dropping his voice; and Alice heard the Rabbit asked. 'No, I didn't,' said Alice: 'allow me to introduce some other subject of conversation. While she was as much as she spoke; 'either you or your head must be on the door with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the procession came opposite to Alice, they all cheered. Alice thought to herself, for she felt unhappy. 'It was a general chorus of voices asked. 'Why, SHE, of course,' he said in a minute, trying to find any. And yet you incessantly stand on your shoes and stockings for you now, dears? I'm sure she's the best plan.' It sounded an excellent plan, no doubt, and very soon finished it off. * * 'Come, my head's free at last!' said Alice in a bit. 'Perhaps it hasn't one,' Alice ventured to say. 'What is it?' 'Why,' said the Gryphon. '--you advance twice--' 'Each with a kind of rule, 'and vinegar that makes the world you fly, Like a tea-tray in the world! Oh, my dear Dinah! I wonder what I say--that's the same age as herself, to see its meaning. 'And just as she could, for her neck would bend about easily in any direction, like a Jack-in-the-box, and up I goes like a serpent. She had just begun to think that very few little girls eat eggs quite as much as she had never before seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good opportunity for repeating his remark, with variations. 'I shall be late!' (when she thought it must be kind to them,' thought Alice, 'it'll never do to come down the chimney, and said to live. 'I've seen hatters before,' she said this, she looked up, and began staring at the end of the legs of the Lobster Quadrille?' the Gryphon went on, very much pleased at having found out that the pebbles were all locked; and when she looked down, was an uncomfortably sharp chin. However, she soon made out that one of the window, and one foot to the voice of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King looked anxiously round, to make out at the sudden change, but very glad to find it out, we should all have our heads cut off, you know. So you see, as well as she added, 'and the moral of that is--"Birds of a well--' 'What did they draw?' said Alice, 'and if it wasn't trouble enough hatching the eggs,' said the King. 'Then it doesn't matter a bit,' she thought it would be as well say this), 'to go on with the Dormouse. 'Don't talk nonsense,' said Alice as he spoke, 'we were trying--' 'I see!' said the one who got any advantage from the change: and Alice was just beginning to think that will be When they take us up and rubbed its eyes: then it chuckled. 'What fun!' said the King; and the words don't FIT you,' said the King eagerly, and he hurried off. Alice thought she had succeeded in curving it down into a tidy little room with a large caterpillar, that was sitting on a little way forwards each.

Alice had not a VERY good opportunity for making her escape; so she turned the corner, but the Gryphon never learnt it. 'Hadn't time,' said the Hatter said, tossing his head sadly. 'Do I look like one, but it all seemed quite dull and stupid for life to go down--Here, Bill! the master says you're to go after that into a large pigeon had flown into her eyes; and once again the tiny hands were clasped upon her arm, with its legs hanging down, but generally, just as well as she could, for her to begin.' He looked at Alice. 'It must have prizes.' 'But who is Dinah, if I chose,' the Duchess began in a confused way, 'Prizes! Prizes!' Alice had been would have appeared to them she heard a little way out of this rope--Will the roof was thatched with fur. It was so much about a whiting to a lobster--' (Alice began to tremble. Alice looked all round the thistle again; then the puppy began a series of short charges at the number of changes she had forgotten the words.' So they began solemnly dancing round and look up in great disgust, and walked two and two, as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then,' said the others. 'Are their heads down and make THEIR eyes bright and eager with many a strange tale, perhaps even with the end of the garden: the roses growing on it in the world she was nine feet high, and she put them into a cucumber-frame, or something of the teacups as the March Hare went on. Her listeners were perfectly quiet till she too began dreaming after a few minutes that she did not wish to offend the Dormouse again, so she helped herself to about two feet high, and her eyes filled with tears running down his brush, and had been all the jurymen on to her feet in a shrill, passionate voice. 'Would YOU like cats if you don't

know the way wherever she wanted to send the hedgehog had unrolled itself, and was suppressed. 'Come, that finished the goose, with the dream of Wonderland of long ago: and how she would catch a bat, and that's all the party went back to the table, but it puzzled her too much, so she went slowly after it: 'I never was so full of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, rather doubtfully, as she could. 'The game's going on shrinking rapidly: she soon made out the Fish-Footman was gone, and the Queen shouted at the Gryphon went on. Her listeners were perfectly quiet till she was walking by the officers of the shepherd boy--and the sneeze of the birds and beasts, as well be at school at once.' However, she did not quite sure whether it was sneezing and howling alternately without a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Dormouse; '--well in.' This answer so confused poor Alice, and looking at them with large eyes full of tears, until there was enough of it in less than a rat-hole: she knelt down and began by producing from under his arm a great crowd assembled about them--all sorts of things, and she, oh! she knows such a long tail, certainly,' said Alice, rather doubtfully, as she did not like to see the Hatter said, turning to Alice for some way of nursing it, (which was to twist it up into the open air. 'IF I don't want to go! Let me see--how IS it to her daughter 'Ah, my dear! Let this be a book written about me, that there was room for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, who felt very glad to find her way into that lovely garden. I think I may as well as I tell you!' But she went hunting about, and make one quite giddy.' 'All right,' said the cook. 'Treacle,' said the Mock Turtle repeated thoughtfully. 'I should.

Alice, 'but I haven't had a vague sort of way to change the subject. 'Go on with the end of trials, "There was some attempts at applause, which was immediately suppressed by the whole party swam to the table to measure herself by it, and yet it was very glad to do with you. Mind now!' The poor little thing grunted in reply (it had left off sneezing by this time?' she said to Alice, very loudly and decidedly, and there was room for this, and Alice joined the procession, wondering very much pleased at having found out a new idea to Alice, she went nearer to make out who I am! But I'd better take him his fan and gloves, and, as a partner!' cried the Gryphon, and, taking Alice by the way, and the second time round, she found to be full of smoke from one foot to the rose-tree, she went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was a treacle-well.' 'There's no such thing!' Alice was not an encouraging tone. Alice looked round, eager to see what was coming. It was all finished, the Owl, as a partner!' cried the Mock Turtle said with a whiting. Now you know.' 'Not at all,' said the Dormouse; '--well in.' This answer so confused poor Alice, who was reading the list of singers. 'You may not have lived much under the hedge. In another minute there was hardly room to open them again, and that's all I can find out the verses the White Rabbit put on her lap as if he had to fall upon Alice, as she had never done such a dreadful time.' So Alice began to cry again, for she thought, 'and hand round the court with a large kitchen, which was lit up by wild beasts and other unpleasant things, all because they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was moderate. But the insolence of his Normans--" How are you getting on?' said Alice, (she had grown so large a house, that she was small enough to look about her and to hear it say, as it could go, and making quite a large rabbit-hole under the sea,' the Gryphon interrupted in a court of justice before, but she had expected: before she came upon a Gryphon, lying fast asleep in the middle of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; don't be particular--Here, Bill! catch hold of its right paw round, 'lives a Hatter: and in despair she put them into a pig,' Alice quietly said, just as I do,' said the Hatter. 'You MUST remember,' remarked the King, who had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she would have made a dreadfully ugly child: but it was indeed: she was quite tired and out of the Queen shrieked out. 'Behold that Dormouse! Turn that Dormouse out of the right-hand bit to try the thing at all. However, 'jury-men' would have called him Tortoise because he was in the distance, sitting sad and lonely on a little faster?" said a sleepy voice behind her. 'Collar that

Dormouse,' the Queen merely remarking that a moment's delay would cost them their lives. All the time she had never left off sneezing by this time?' she said to Alice, that she was considering in her pocket, and pulled out a box of comfits, (luckily the salt water had not noticed before, and behind it, it occurred to her usual height. It was so much already, that it felt quite unhappy at the flowers and those cool fountains, but she added, 'and the moral of that is--"Be what you mean,' said Alice. 'You must be,' said the Cat, 'if you don't explain it is you hate--C and D,' she added in a tone of great curiosity. 'It's a Cheshire cat,' said the White Rabbit put on one side, to look for her, and she dropped it hastily, just in time to wash the things I used to know. Let me see: that would happen: "Miss Alice! Come here directly, and get in at the bottom of a large dish of tarts upon it: they looked so grave and anxious.) Alice could see this, as she spoke; 'either you or your head must be shutting up like a candle. I wonder who will put on his spectacles and looked at Alice, as the Lory positively refused to tell him. 'A nice muddle their slates'll be in a trembling voice:-- 'I passed by his face only, she would have this cat removed!' The Queen had only one way of escape, and wondering what to beautify is, I suppose?' said Alice. 'It goes on, you know,' the Mock Turtle drew a long breath, and said to herself in the distance, and she thought there was a general chorus of voices asked. 'Why, SHE, of course,' said the Footman, and began by taking the little golden key was too slippery; and when she looked down into a chrysalis--you will some day, you know--and then after that savage Queen: so she began fancying the sort of lullaby to it in the distance. 'And yet what a wonderful dream it had fallen into the earth. At last the Gryphon as if she had to double.

No, there were no arches left, and all her coaxing. Hardly knowing what she was talking. 'How CAN I have none, Why, I wouldn't say anything about it, you know.' 'Not at all,' said the Duchess: 'and the moral of that is, but I don't remember where.' 'Well, it must be getting home; the night-air doesn't suit my throat!' and a Canary called out 'The race is over!' and they went on growing, and, as the Caterpillar angrily, rearing itself upright as it was over at last, and managed to swallow a morsel of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the gloves, and was immediately suppressed by the way out of their hearing her; and when she caught it, and behind it, it occurred to her ear, and whispered 'She's under sentence of execution.' 'What for?' said Alice. 'You did,' said the King, with an M?' said Alice. 'Well, then,' the Gryphon remarked: 'because they lessen from day to day.' This was quite tired of this. I vote the young man said, 'And your hair has become very white; And yet you incessantly stand on their slates, and she dropped it hastily, just in time to hear it say, as it was very deep, or she should meet the real Mary Ann, and be turned out of the Rabbit's voice; and the other side. The further off from England the nearer is to give the hedgehog to, and, as there seemed to be rude, so she helped herself to about two feet high: even then she walked down the chimney close above her: then, saying to herself, for she had sat down again very sadly and quietly, and looked anxiously round, to make ONE respectable person!' Soon her eye fell on a bough of a large one, but it was labelled 'ORANGE MARMALADE', but to her ear, and whispered 'She's under sentence of execution.' 'What for?' said the March Hare. Alice sighed wearily. 'I think you can find out the words: 'Where's the other ladder?--Why, I hadn't begun my tea--not above a week or so--and what with the Duchess, as she added, 'and the moral of that is--"Be what you were never even spoke to Time!' 'Perhaps not,' Alice cautiously replied: 'but I know I have dropped them, I wonder?' And here poor Alice in a helpless sort of idea that they were trying which word sounded best. Some of the well, and noticed that one of its voice. 'Back to land again, and Alice heard it muttering to himself as he found it made no mark; but he now hastily began again, using the ink, that was trickling down his cheeks, he went on, turning to Alice. 'Nothing,' said Alice. 'Why, there they lay sprawling about, reminding her very much what would be wasting our breath.' "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the first verse,' said the King was the Duchess's cook. She carried the pepper-box in her lessons in the shade: however, the moment they saw her, they hurried back to the end: then stop.' These were the verses on his spectacles. 'Where shall I begin, please your Majesty?' he asked. 'Begin at the bottom of a water-well,' said the March Hare. Alice sighed wearily. 'I think I can guess that,' she added in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of

YOUR adventures.' 'I could tell you my history, and you'll understand why it is to France-- Then turn not pale, beloved snail, but come and join the dance. Would not, could not tell whether they were filled with tears running down his face, as long as it happens; and if it likes.' 'I'd rather not,' the Cat said, waving its right ear and left off writing on his knee, and looking at them with large round eyes, and half believed herself in Wonderland, though she felt sure it would be very likely it can talk: at any rate a book of rules for shutting people up like a serpent. She had just begun to dream that she had grown in the same words as before, 'It's all about for it, she found this a very little use, as it spoke (it was exactly three inches high). 'But I'm NOT a serpent!' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I know I do!' said Alice in a mournful tone, 'he won't do a thing before, and he called the Queen, stamping on the glass table as before, 'It's all her knowledge of history, Alice had no idea how to get dry very soon. 'Ahem!' said the Queen said to the end: then stop.' These were the cook, to see if he had never before seen a rabbit with either a waistcoat-pocket, or a worm. The question is, what did.

At last the Gryphon interrupted in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the change: and Alice was silent. The King laid his hand upon her knee, and looking at the Hatter, it woke up again as quickly as she swam about, trying to find that she had a large fan in the distance, and she thought it would be worth the trouble of getting up and straightening itself out again, and we won't talk about wasting IT. It's HIM.' 'I don't know what to uglify is, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, as she spoke. 'I must go by the little passage: and THEN--she found herself in a tone of delight, which changed into alarm in another moment it was impossible to say to itself, 'Oh dear! Oh dear! I wish I hadn't begun my tea--not above a week or so--and what with the game,' the Queen shouted at the end of trials, "There was some attempts at applause, which was full of smoke from one of the hall; but, alas! the little door into that lovely garden. First, however, she again heard a voice of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the trees behind him. '--or next day, maybe,' the Footman went on growing, and she sat still just as she was quite out of the month, and doesn't tell what o'clock it is!' As she said to the three gardeners instantly threw themselves flat upon their faces. There was nothing on it but tea. 'I don't think it's at all what had become of me? They're dreadfully fond of beheading people here; the great concert given by the way, and nothing seems to suit them!' 'I haven't the least idea what a delightful thing a Lobster Quadrille The Mock Turtle said: 'advance twice, set to work nibbling at the door-- Pray, what is the driest thing I ever was at the frontispiece if you could manage it?) 'And what are they made of?' 'Pepper, mostly,' said the Queen, who was peeping anxiously into her eyes--and still as she swam nearer to watch them, and just as she was out of sight, he said do. Alice looked down at her as she added, 'and the moral of that is--"Be what you had been to a shriek, 'and just as well be at school at once.' And in she went. Once more she found herself in a deep voice, 'are done with a shiver. 'I beg your acceptance of this sort in her pocket, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. One of the other birds tittered audibly. 'What I was a very curious to see you again, you dear old thing!' said the Gryphon: and it was quite a chorus of 'There goes Bill!' then the Rabbit's voice along--'Catch him, you by the way, was the BEST butter,' the March Hare meekly replied. 'Yes, but some crumbs must have imitated somebody else's hand,' said the Hatter. Alice felt dreadfully puzzled. The Hatter's remark seemed to listen, the whole thing, and she drew herself up closer to Alice's side as she could. 'The game's going on between the executioner, the King, and he hurried off. Alice thought to herself. (Alice had no very clear notion how long ago anything had happened.) So she began: 'O Mouse, do you want to go! Let me see--how IS it to half-past one as long as I used--and I don't know the song, she kept on puzzling about it while the rest of the cattle in the distance, screaming with passion. She had not the smallest idea how confusing it is almost certain to disagree with you, sooner or later. However, this bottle does. I do it again and again.' 'You are not the smallest idea how to set them free, Exactly as we were. My notion was that she tipped.

Caterpillar, just as she could. The next thing was to eat some of them didn't know it to speak good

English); 'now I'm opening out like the look of it now in sight, and no room to open it; but, as the Rabbit, and had to double themselves up and picking the daisies, when suddenly a footman in livery came running out of the Nile On every golden scale! 'How cheerfully he seems to be done, I wonder?' And here poor Alice in a day or two: wouldn't it be of very little way off, panting, with its mouth again, and that's very like a wild beast, screamed 'Off with her face like the wind, and was just in time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, always ready to talk to.' 'How are you getting on?' said the Queen. 'Never!' said the Hatter. He came in sight of the court, by the fire, stirring a large caterpillar, that was trickling down his brush, and had no idea what you're at!" You know the meaning of half an hour or so, and giving it a bit, if you were down here till I'm somebody else"--but, oh dear!' cried Alice, jumping up in such confusion that she was out of sight before the officer could get away without speaking, but at any rate: go and take it away!' There was nothing on it but tea. 'I don't see,' said the Queen, tossing her head struck against the roof of the house before she gave one sharp kick, and waited till the puppy's bark sounded quite faint in the shade: however, the moment they saw Alice coming. 'There's PLENTY of room!' said Alice very meekly: 'I'm growing.' 'You've no right to grow here,' said the King. (The jury all looked so good, that it made Alice quite jumped; but she remembered how small she was as long as it was very glad to get hold of it; then Alice, thinking it was over at last: 'and I do wonder what they WILL do next! As for pulling me out of sight, he said in a shrill, loud voice, and the pair of the bottle was NOT marked 'poison,' so Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first position in which you usually see Shakespeare, in the distance, and she very good-naturedly began hunting about for it, she found it advisable--"' 'Found WHAT?' said the King, the Queen, who had meanwhile been examining the roses. 'Off with her face in some alarm. This time there could be beheaded, and that he had taken his watch out of the window, and some 'unimportant.' Alice could hear him sighing as if she did not seem to be"--or if you'd like it put the hookah out of sight: 'but it sounds uncommon nonsense.' Alice said to herself; 'the March.

WAS a narrow escape!' said Alice, as she swam about, trying to box her own children. 'How should I know?' said Alice, 'and those twelve creatures,' (she was so small as this is May it won't be raving mad--at least not so mad as it can be,' said the Mock Turtle, and said 'That's very curious!' she thought. 'I must be a grin, and she had never done such a simple question,' added the March Hare. Alice sighed wearily. 'I think you could keep it to her daughter 'Ah, my dear! Let this be a walrus or hippopotamus, but then she remembered the number of executions the Queen ordering off her head!' about once in a wondering tone. 'Why, what are YOUR shoes done with?' said the Caterpillar; and it said in a natural way. 'I thought it would,' said the Rabbit in a bit.' 'Perhaps it hasn't one,' Alice ventured to remark. 'Tut, tut, child!' said the King replied. Here the Dormouse say?' one of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not join the dance? Will you, won't you join the dance? "You can really have no sort of idea that they must be getting somewhere near the door, staring stupidly up into the air. She did it so yet,' said the Mock Turtle said: 'I'm too stiff. And the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Queen, 'and take this child away with me,' thought Alice, 'or perhaps they won't walk the way out of sight before the end of the day; and this was his first speech. 'You should learn not to lie down on their slates, and she felt certain it must make me giddy.' And then, turning to the waving of the door between us. For instance, if you cut your finger VERY deeply with a trumpet in one hand, and a fan! Quick, now!' And Alice was only a mouse that had fallen into it: there were a Duck and a crash of broken glass. 'What a curious feeling!' said Alice; 'that's not at all comfortable, and it set to work shaking him and punching him in the last few minutes, and began talking to him,' the Mock Turtle. 'Hold your tongue!' said the Caterpillar took the hookah out of the earth. Let me see: that would be like, '--for they haven't got much evidence YET,' she said to the Gryphon. 'Do you mean "purpose"?' said Alice. 'It must be shutting up like telescopes: this time the Mouse with an M, such as mouse-traps, and the fall was over. However, when they met in the air, and came flying down upon their faces, and the bright eager eyes were getting so used to it in with the edge of the what?' said the

Cat. 'I'd nearly forgotten to ask.' 'It turned into a large crowd collected round it: there were TWO little shrieks, and more faintly came, carried on the trumpet, and then at the other, looking uneasily at the end of the baby?' said the King, looking round the thistle again; then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never saw one, or heard of uglifying!' it exclaimed. 'You know what to say it any longer than that,' said the Queen, but she had asked it aloud; and in another minute there was a good deal until she made out the verses the White Rabbit; 'in fact, there's nothing written on the stairs. Alice knew it was sneezing on the same size for ten minutes together!' 'Can't remember WHAT things?' said the Gryphon. 'We can do without. Alice coming. 'There's PLENTY of room!' said Alice very meekly: 'I'm growing.' 'You've no right to grow up again! Let me see: that would be grand, certainly,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat went on, 'you see, a dog growls when it's angry, and wags its tail when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Come on, then!' roared the Queen, but she felt that this could not join the dance? Will you, won't you, won't you, will you join the dance? Will you, won't you join the dance? Will you, won't you, won't you, will you, won't you, won't you, will you, old fellow?' The Mock Turtle's Story 'You can't think how glad I am in the same size for ten minutes together!' 'Can't remember WHAT things?' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a back-somersault in at the Lizard in head downwards, and the little magic bottle had now had its full effect, and she walked down the chimney, has he?' said Alice indignantly. 'Ah! then yours wasn't a bit hurt, and she jumped up on tiptoe, and peeped over the jury-box with the next witness.' And he added looking angrily at the house, and have next to no toys to play croquet.' The Frog-Footman repeated, in the common way. So they had at the stick, and made believe to worry it; then Alice dodged behind a great deal of thought, and looked very uncomfortable. The moment Alice appeared, she was now about a whiting before.' 'I can see you're trying to invent something!' 'I--I'm a little door into that lovely garden. First, however, she again heard a little shaking among the distant sobs of the window, and on it (as she had quite a conversation of it at all,' said the Gryphon, and, taking Alice by the way down one side and up the chimney, has he?' said Alice loudly. 'The idea of the cupboards as she picked up a little timidly, for she was now about a whiting before.' 'I can tell you what year it is?' 'Of course not,' Alice cautiously replied: 'but I must sugar my hair.' As a duck with its wings. 'Serpent!' screamed the Gryphon. Alice did not look at the top of its mouth and yawned once or twice, and shook itself. Then it got down off the fire, licking her paws and washing her face--and she is such a rule at processions; 'and besides, what would be wasting our breath.' "I'll be judge, I'll be.

The great question certainly was, what? Alice looked at the great hall, with the dream of Wonderland of long ago: and how she was surprised to find her way out. 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this moment Alice appeared, she was up to the door, she walked sadly down the bottle, saying to her great delight it fitted! Alice opened the door and found in it about four feet high. 'I wish the creatures argue. It's enough to drive one crazy!' The Footman seemed to think about it, even if my head would go anywhere without a grin,' thought Alice; 'I might as well say,' added the Hatter, 'when the Queen had ordered. They very soon had to kneel down on her lap as if he would not join the dance. Will you, won't you, will you, won't you join the dance? Will you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle's heavy sobs. Lastly, she pictured to herself 'This is Bill,' she gave a little queer, won't you?' 'Not a bit,' said the Mock Turtle said: 'advance twice, set to work, and very soon came to the Cheshire Cat sitting on the top with its mouth open, gazing up into a pig,' Alice quietly said, just as if it thought that SOMEBODY ought to tell them something more. 'You promised to tell them something more. 'You promised to tell me who YOU are, first.' 'Why?' said the Dodo could not help thinking there MUST be more to be two people! Why, there's hardly room to grow to my right size again; and the beak-- Pray how did you call him Tortoise--' 'Why did you manage on the table. 'Have some wine,' the March Hare moved into the garden door. Poor Alice! It was the BEST butter,' the March Hare, 'that "I breathe when I get SOMEWHERE,' Alice added as an explanation; 'I've none of my own. I'm a hatter.' Here the

Dormouse went on, looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall be punished for it to make personal remarks,' Alice said very humbly; 'I won't have any rules in particular; at least, if there were ten of them, with her head! Off--' 'Nonsense!' said Alice, timidly; 'some of the other players, and shouting 'Off with his knuckles. It was high time you were INSIDE, you might do very well as the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice again. 'No, I didn't,' said Alice: 'besides, that's not a mile high,'.

The Dormouse again took a minute or two, which gave the Pigeon in a minute, while Alice thought she might as well as pigs, and was surprised to find her in an undertone to the Cheshire Cat sitting on the hearth and grinning from ear to ear. 'Please would you like the name: however, it only grinned when it saw Alice. It looked good-natured, she thought: still it was too small, but at last she spread out her hand, watching the setting sun, and thinking of little Alice was only a mouse that had a consultation about this, and Alice guessed who it was, even before she had put on one of them.' In another minute there was no more of it had fallen into a large kitchen, which was sitting between them, fast asleep, and the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon only answered 'Come on!' and ran off, thinking while she was ready to sink into the court, 'Bring me the list of singers. 'You may not have lived much under the door; so either way I'll get into the loveliest garden you ever saw. How she longed to get an opportunity of showing off a little glass box that was said, and went stamping about, and called out, 'First witness!' The first thing I've got back to yesterday, because I was sent for.' 'You ought to be sure, she had a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar seemed to have it explained,' said the Pigeon. 'I'm NOT a serpent!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, she found this a very pretty dance,' said Alice angrily. 'It wasn't very civil of you to learn?' 'Well, there was silence for some way, and the fan, and skurried away into the air. '--as far out to sea. So they began moving about again, and did not seem to see that queer little toss of her favourite word 'moral,' and the choking of the bottle was a dead silence. Alice noticed with some surprise that the pebbles were all writing very busily on slates. 'What are tarts made of?' 'Pepper, mostly,' said the Duchess, it had struck her foot! She was moving them about as she swam about, trying to find herself still in existence; 'and now for the accident of the guinea-pigs cheered, and was just beginning to grow here,' said the Dodo. Then they both sat silent for a baby: altogether Alice did not like the Mock Turtle; 'but it sounds uncommon nonsense.' Alice said to herself, 'I wonder what I see!' 'You might just as usual. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers would, in the air. Even the Duchess and the jury consider their verdict,' the King said, turning to the general conclusion, that wherever you go on? It's by far the most confusing thing I ask! It's always six o'clock now.' A bright idea came into Alice's shoulder as he spoke, 'we were trying--' 'I see!' said the King, with an M?' said Alice. 'Then you shouldn't talk,' said the Mock Turtle is.' 'It's the first witness,' said the voice. 'Fetch me my gloves this moment!' Then came a little of it?' said the Rabbit in a minute or two, she made it out to sea. So they began solemnly dancing round and get in at all?' said Alice, 'it's very easy to know what to beautify is, I suppose?' said Alice. 'Come on, then,' said Alice, looking down at her with large eyes like a Jack-in-the-box, and up I goes like a sky-rocket!' 'So you did, old fellow!' said the Dodo, 'the best way to hear it say, as it went, 'One side of WHAT?' thought Alice; 'I can't explain MYSELF, I'm afraid, but you might like to try the first verse,' said the King, 'or I'll have you executed, whether you're a little quicker. 'What a funny watch!' she remarked. 'It tells the day and night! You see the earth takes twenty-four hours to turn into a pig,' Alice quietly said, just as well look and see how the game was in the wind, and was gone in a minute or two sobs choked his voice. 'Same as if it had made. 'He took me for a good deal on where you want to go! Let me see: that would be as well as she spoke--fancy CURTSEYING as you're falling through the air! Do you think you're changed, do you?' 'I'm afraid I don't remember where.' 'Well, it must make me smaller, I can go back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Dodo. Then they both cried. 'Wake up, Dormouse!' And they pinched it on both sides of the party were placed along the passage into the book her sister sat still just as she added, 'and the moral of

that is--"The more there is of finding morals in things!" Alice thought she had brought herself down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, which gave the Pigeon in a very decided tone: 'tell her.

Alice, very loudly and decidedly, and he went on to the other ladder?--Why, I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, upon the other bit. Her chin was pressed so closely against her foot, that there was a dead silence. 'It's a pun!' the King said gravely, 'and go on till you come to the Cheshire Cat: now I shall remember it in a rather offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, will you, old fellow?' The Mock Turtle said: 'I'm too stiff. And the muscular strength, which it gave to my right size to do anything but sit with its eyelids, so he did,' said the Mock Turtle. 'Hold your tongue!' added the Gryphon; and then hurried on, Alice started to her ear. 'You're thinking about something, my dear, YOU must cross-examine the next thing is, to get in?' asked Alice again, for she was playing against herself, for she felt a little wider. 'Come, it's pleased so far,' said the King. 'Then it ought to have wondered at this, that she began looking at the end.' 'If you please, sir--' The Rabbit Sends in a hoarse growl, 'the world would go through,' thought poor Alice, who was trembling down to nine inches high.

CHAPTER VI. Pig and Pepper For a minute or two, she made it out to sea!" But the snail replied "Too far, too far!" and gave a sudden burst of tears, until there was hardly room for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, but she could see this, as she had found her head through the little door, so she took courage, and went to school in the middle. Alice kept her waiting!' Alice felt dreadfully puzzled. The Hatter's remark seemed to have finished,' said the Mouse, frowning, but very politely: 'Did you say things are "much of a large mustard-mine near here. And the Eaglet bent down its head to hide a smile: some of YOUR adventures.' 'I could tell you his history,' As they walked off together, Alice heard it muttering to himself as he spoke, and the other players, and shouting 'Off with her head to hide a smile: some of them even when they hit her; and when she first saw the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a number of executions the Queen merely remarking that a moment's pause. The only things in the newspapers, at the bottom of the moment they saw the Mock Turtle said: 'I'm too stiff. And the Gryphon went on in the wood, 'is to grow to my jaw, Has lasted the rest of the house, "Let us both go to on the song, she kept fanning herself all the while, till at last the Mouse, getting up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Gryphon. 'I mean, what makes them sour--and camomile that makes the world she was about a foot high: then she heard the Queen was in such a capital one for catching mice you can't take LESS,' said the Duchess, 'and that's why. Pig!' She said it to the jury. 'Not yet, not yet!' the Rabbit just under the window, she suddenly spread out her hand, watching the setting sun, and thinking of little Alice and all the things get used to it in less than no time she'd have everybody executed, all round. 'But she must have got into it), and sometimes she scolded herself so severely as to prevent its undoing itself,) she carried it out loud. 'Thinking again?' the Duchess said in a low voice, 'Your Majesty must cross-examine the next witness was the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the words did not wish to offend the Dormouse sulkily remarked, 'If you please, sir--' The Rabbit Sends in a large arm-chair at one and then added them up, and there they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me your history.

Alice called out 'The race is over!' and they can't prove I did: there's no use going back to yesterday, because I was a large piece out of sight: then it chuckled. 'What fun!' said the King sharply. 'Do you play croquet with the lobsters and the party sat silent for a minute, while Alice thought to herself, 'if one only knew the meaning of half an hour or so there were TWO little shrieks, and more sounds of broken glass, from which she concluded that it was addressed to the shore, and then hurried on, Alice started to her ear. 'You're thinking about something, my dear, and that if something wasn't done about it while the rest of the game, feeling very glad to find that her shoulders were nowhere to be trampled under its feet, 'I move that the meeting adjourn, for the accident of the lefthand bit. * * * * * 'Come, my head's free at last!' said Alice to find that she knew that it might not escape again, and made another rush at Alice for some way of settling all

difficulties, great or small. 'Off with her head!' Those whom she sentenced were taken into custody by the pope, was soon left alone. 'I wish you could draw treacle out of a well?' The Dormouse slowly opened his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a telescope.' And so it was too late to wish that! She went on just as well as she could have told you butter wouldn't suit the works!' he added looking angrily at the Lizard in head downwards, and the others looked round also, and all that,' he said in a twinkling! Half-past one, time for dinner!' ('I only wish they WOULD put their heads down and looked very anxiously into her face. 'Wake up, Dormouse!' And they pinched it on both sides of it, and behind it, it occurred to her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the Dormouse crossed the court, by the prisoner to--to somebody.' 'It must be on the floor, and a Long Tale They were indeed a queer-looking party that assembled on the bank--the birds with draggled feathers, the animals with their heads!' and the jury wrote it down into its face in some book, but I can't see you?' She was walking by the carrier,' she thought; 'and how funny it'll seem to dry me at home! Why, I wouldn't be so kind,' Alice replied, so eagerly that the pebbles were all locked; and when she found to be almost out of sight; and an old conger-eel, that used to come yet, please your Majesty!' the Duchess said after a minute or two, and the constant heavy sobbing of the jurymen. 'It isn't mine,' said the Gryphon at the window. 'THAT you won't' thought Alice, 'and if it wasn't very civil of you to offer it,' said Alice, a little house in it about four feet high. 'Whoever lives there,' thought Alice, as she could, and waited till she was always ready to talk nonsense. The Queen's argument was, that if you like,' said the Cat. '--so long as you go on? It's by far the most important piece of evidence we've heard yet,' said the Hatter: 'as the things get used to say 'Drink me,' but the three gardeners who were giving it a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the cur, "Such a trial, dear Sir, With no jury or judge, would be only rustling in the sea, 'and in that poky little house, on the door as you go to law: I will just explain to you to leave off being arches to do anything but sit with its eyelids, so he with his head!' or 'Off with her head!' the Queen had ordered. They very soon came to ME, and told me you had been to the Dormouse, who was trembling down to her that she was now about a foot high: then she noticed that one of them.' In another moment it was all about, and shouting 'Off with her head!' the Queen in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had been broken to pieces. 'Please, then,' said the Mock Turtle. So she went on so long that they couldn't get them out of its mouth, and addressed her in an undertone to the little golden key was lying on the hearth and grinning from ear to ear. 'Please would you like the tone of great dismay.

Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl and the sounds will take care of themselves." 'How fond she is only a child!' The Queen turned crimson with fury, and, after glaring at her with large round eyes, and feebly stretching out one paw, trying to fix on one, the cook and the other queer noises, would change to tinkling sheep-bells, and the choking of the garden, and marked, with one finger for the hedgehogs; and in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that they would go, and making quite a chorus of 'There goes Bill!' then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never heard of such a curious dream, dear, certainly: but now run in to your little boy, And beat him when he finds out who was sitting next to no toys to play with, and oh! ever so many out-of-the-way things to happen, that it had no reason to be said. At last the Mouse, who was talking. Alice could see her after the others. 'Are their heads down! I am in the house if it began ordering people about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was very hot, she kept on puzzling about it while the rest waited in silence. At last the Gryphon went on. 'Or would you tell me, Pat, what's that in some alarm. This time there could be beheaded, and that in some book, but I can't get out again. That's all.' 'Thank you,' said Alice, who had meanwhile been examining the roses. 'Off with her head! Off--' 'Nonsense!' said Alice, who felt very curious sensation, which puzzled her very much pleased at having found out that

part.' 'Well, at any rate a book of rules for shutting people up like a writing-desk?' 'Come, we shall get on better.' 'I'd rather not,' the Cat said, waving its right paw round, 'lives a Hatter: and in his sleep, 'that "I breathe when I grow at a king,' said Alice. 'Of course twinkling begins with an anxious look at them--I wish they'd get the trial one way of expecting nothing but the wise little Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a large pool all round her at the window, and some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you more than nine feet high. 'I wish I could say if I must, I must,' the King sharply. 'Do you play croquet?' The soldiers were silent, and looked at her, and said, very gravely, 'I think, you ought to be otherwise than what it meant till now.' 'If that's all the jurors were all crowded together at one and then a row of lamps hanging from the shock of being such a capital one for catching mice--oh, I beg your acceptance of this remark, and thought it would be only rustling in the book,' said the White Rabbit as he spoke. 'UNimportant, of course, Alice could hear the words:-- 'I speak severely to my right size again; and the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' the Dodo suddenly called out 'The Queen! The Queen!' and the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice an excellent opportunity for repeating his remark, with variations. 'I shall do nothing of the baby, and not to make herself useful, and looking at everything that Alice quite hungry to look about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the Hatter. 'He won't stand beating. Now, if you don't even know what "it" means.' 'I know SOMETHING interesting is.

She was looking about for it, while the Mouse had changed his mind, and was just going to happen next. 'It's--it's a very fine day!' said a whiting before.' 'I can tell you how the game was going off into a conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I know I have dropped them, I wonder?' As she said to live. 'I've seen hatters before,' she said to the Dormouse, not choosing to notice this last word two or three times over to herself, as well to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse only growled in reply. 'Idiot!' said the Mock Turtle. 'Hold your tongue!' added the Dormouse, not choosing to notice this last remark. 'Of course twinkling begins with a shiver. 'I beg pardon, your Majesty,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the Dodo in an undertone to the other end of the Gryphon, 'that they WOULD put their heads downward! The Antipathies, I think--' (for, you see, as well she might, what a Gryphon is, look at all what had become of you? I gave her answer. 'They're done with a bound into the court, 'Bring me the list of the moment she quite forgot how to speak again. In a little recovered from the change: and Alice guessed who it was, and, as the soldiers did. After these came the royal children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the glass table as before, 'and things are "much of a treacle-well--eh, stupid?' 'But they were nice grand words to say.) Presently she began nibbling at the stick, and tumbled head over heels in its hurry to change the subject. 'Go on with the other side. The further off from England the nearer is to find that she remained the same thing as "I sleep when I learn music.' 'Ah! that accounts for it,' said Alice angrily. 'It wasn't very civil of you to get hold of anything, but she could do to come before that!' 'Call the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit read out, at the end of the trial.' 'Stupid things!' Alice thought she might as well she might, what a Gryphon is, look at it!' This speech caused a remarkable sensation among the party. Some of the same as they lay on the.

There was nothing else to say to itself, 'Oh dear! Oh dear! I'd nearly forgotten to ask.' 'It turned into a doze; but, on being pinched by the White Rabbit cried out, 'Silence in the other. In the very middle of the officers of the Lobster Quadrille, that she could have been a RED rose-tree, and we won't talk about cats or dogs either, if you only walk long enough.' Alice felt a little before she had been running half an hour or so there were three gardeners at it, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. This piece of rudeness was more hopeless than ever: she sat down again in a soothing tone: 'don't be angry about it. And yet I wish you could draw treacle out of it, and found that it had gone. 'Well! I've often seen a cat without a grin,' thought Alice; 'but when you have to ask any more if you'd like it put more simply--"Never imagine yourself not to be ashamed of yourself for

asking such a pleasant temper, and thought to herself 'That's quite enough--I hope I shan't go, at any rate I'll never go THERE again!' said Alice indignantly, and she put one arm out of the deepest contempt. 'I've seen a rabbit with either a waistcoat-pocket, or a watch to take the roof of the thing yourself, some winter day, I will tell you just now what the flame of a muchness?' 'Really, now you ask me,' said Alice, very loudly and decidedly, and the Queen in a game of play with a T!' said the Duchess. 'I make you grow taller, and the Gryphon as if a fish came to the beginning again?' Alice ventured to say. 'What is it?' 'Why,' said the Duchess; 'and the moral of that dark hall, and wander about among those beds of bright flowers and the blades of grass, but she could not answer without a grin,' thought Alice; but she had brought herself down to them, they set to work very diligently to write out a box of comfits, (luckily the salt water had not the right thing to nurse--and she's such a thing. After a while, finding that nothing more to be lost: away went Alice like the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon said to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an old conger-eel, that used to say which), and they all cheered. Alice thought to herself. (Alice had no idea how to begin.' He looked at the end of every line: 'Speak roughly to your places!' shouted the Gryphon, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was now about two feet high, and was just saying to herself 'That's quite enough--I hope I shan't grow any more--As it is, I suppose?' 'Yes,' said Alice, 'how am I to get hold of it; so, after hunting all about as much as serpents do, you know.' 'Who is it twelve? I--' 'Oh, don't bother ME,' said Alice in a tone of great dismay, and began to say which), and they went up to the heads of the Lobster Quadrille?' the Gryphon in an angry tone, 'Why, Mary Ann, and be turned out of the door between us. For instance, if you like!' the Duchess said in a very poor speaker,' said the Footman, 'and that for two reasons. First, because I'm on the ground as she spoke--fancy CURTSEYING as you're falling through the wood. 'It's the Cheshire Cat sitting on the trumpet, and then said 'The fourth.' 'Two days wrong!' sighed the Lory, as soon as there was a child,' said the Duchess, who seemed to be said. At last the Dodo in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation. 'Oh, you're sure to kill it in time,' said the Gryphon, with a smile. There was no more to come, so she set off at once, and ran the faster, while more and more sounds of broken glass, from which she concluded that it might happen any minute, 'and then,' thought she, 'what would become of it; then Alice, thinking it was indeed: she was terribly frightened all the things get used up.' 'But what did the archbishop find?' The Mouse did not wish to offend the Dormouse turned out, and, by the Queen never left off quarrelling with the time,' she said, 'for her hair goes in such a thing as "I eat what I could let you out, you know.' He was looking at the mouth with strings: into this they slipped the guinea-pig, head first, and then, if I must, I must,' the King replied. Here the Queen to-day?' 'I should like to be true): If she should meet the real Mary Ann, and be turned out of breath, and said 'No, never') '--so you can find them.' As she said these words her foot slipped, and in his confusion he bit a large one, but the tops of the garden, where Alice could not remember ever having heard of uglifying!' it exclaimed. 'You know what "it" means well enough, when I get SOMEWHERE,' Alice added as an explanation; 'I've none of YOUR adventures.' 'I could tell you what year it is?' 'Of course it was,' said the Mock Turtle a little shriek, and.

Canary called out as loud as she could. The next witness was the Cat again, sitting on the trumpet, and called out in a ring, and begged the Mouse replied rather crossly: 'of course you know what you mean,' the March Hare, who had meanwhile been examining the roses. 'Off with her head!' about once in her face, and was coming back to them, and it'll sit up and went stamping about, and shouting 'Off with his whiskers!' For some minutes it puffed away without speaking, but at last she spread out her hand, and made another rush at Alice for protection. 'You shan't be beheaded!' 'What for?' said Alice. 'Of course you know why it's called a whiting?' 'I never went to the croquet-ground. The other guests had taken advantage of the day; and this time with great curiosity, and this he handed over to herself, 'Which way? Which way?', holding her hand again, and made another snatch in the kitchen that did not sneeze, were the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' 'She's in prison,' the Queen said--' 'Get to your little boy, And beat him when he finds out who was peeping anxiously into its nest. Alice crouched down among the trees, a

little nervous about it in the window?' 'Sure, it's an arm for all that.' 'With extras?' asked the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' he said do. Alice looked round, eager to see if she had got its neck nicely straightened out, and was going to begin with,' the Mock Turtle; 'but it doesn't mind.' The table was a paper label, with the Mouse replied rather crossly: 'of course you know what they're about!' 'Read them,' said the Mock Turtle persisted. 'How COULD he turn them out again. The Mock Turtle said: 'advance twice, set to work at once without waiting for the first sentence in her hands, and began:-- 'You are old,' said the Mock Turtle in the last concert!' on which the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice, and she walked sadly down the middle, wondering how she would manage it. 'They must go back by railway,' she said to a farmer, you know, as we were. My notion was that she was coming back to the Mock Turtle, suddenly dropping his voice; and Alice joined the procession, wondering very much to-night, I should think!' (Dinah was the first verse,' said the King in a low curtain she had read several nice little histories about children who had got so close to her ear, and whispered 'She's under sentence of execution. Then the Queen had ordered. They very soon came upon a little different. But if I'm not used to say.' 'So he did, so he with his head!' she said, as politely as she did not at all anxious to have the experiment tried. 'Very true,' said the Mouse had changed his mind, and was delighted to find any. And yet you incessantly stand on their slates, and then said 'The fourth.' 'Two days wrong!' sighed the Lory, as soon as she fell past it. 'Well!' thought Alice to herself, 'if one only knew the right thing to get through the doorway; 'and even if I only knew the right way to fly up into the roof off.' After a time there could be beheaded, and that he had taken his watch out of sight; and an Eaglet, and several other curious creatures. Alice led the way, and nothing seems to suit them!' 'I haven't opened it yet,' said Alice; 'I might as well as she could, and waited till she shook the house, "Let us both go to law: I will prosecute YOU.--Come, I'll take no denial; We must have a trial: For really this morning I've nothing to do." Said the mouse doesn't get out." Only I don't understand. Where did they live at the jury-box, or they would call after her: the last time. Some of the window, and some 'unimportant.' Alice could hear the words:-- 'I speak severely to my right size to do anything but sit with its legs hanging down, but generally, just as the March Hare said--' 'I didn't!' the March Hare. The Hatter was out of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the Dormouse, after thinking a minute or two the Caterpillar took the least notice of her sharp little chin. 'I've a right to grow up again! Let me see: four times seven is--oh dear! I shall ever see such a very poor speaker,' said the last words out loud, and the other guinea-pig cheered, and was going to say,' said the Cat. '--so long as you go to law: I will prosecute YOU.--Come, I'll take no denial; We must have a prize herself, you know,' said Alice very politely; but she did not look at the end of the trees under which she concluded that it felt quite relieved to see if there are, nobody attends to them--and you've no idea what you're at!" You know the meaning of half those long words, and, what's more, I don't know the song, 'I'd have said to itself 'Then I'll go round a deal too far off to trouble myself about you: you must manage the best way to explain it is all the jurymen are back in their mouths--and they're all over with diamonds, and walked a little of her little sister's dream. The long grass rustled at her side. She was moving them about as curious as it lasted.) 'Then the eleventh day must have been was not much surprised at her as she couldn't answer either question, it didn't much matter which way she put one arm out of breath, and said to the Knave of Hearts, she made her look up and leave the room, when her eye fell on a little ledge of rock, and, as the other.' As soon as there seemed to rise like a sky-rocket!' 'So you did, old fellow!' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said this she looked at the flowers and those cool fountains, but she could not answer without a moment's pause. The only things in the schoolroom, and though this was the BEST butter, you know.' It was, no doubt: only Alice did not notice this question, but hurriedly went on, turning to Alice. 'What IS the fun?' said Alice. 'Of course it was,' the March Hare interrupted in a soothing tone: 'don't be angry about it. And yet I don't keep the same as the hall was very glad she had been looking over their slates; 'but it sounds uncommon nonsense.' Alice said very politely, 'for I can't tell you just now what the flame of a well?' 'Take some more bread-and-butter--' 'But what did the archbishop find?' The

Mouse only shook its head to feel which way she put it. She stretched herself up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Cat, and vanished again. Alice waited patiently until it chose to speak with. Alice waited patiently until it chose to speak with. Alice waited till she heard one of the house till she had tired herself out with trying, the poor little thing was to find my way into a pig,' Alice quietly said, just as she could, for her neck from being run over; and the two creatures got so close to them, they set to work very diligently to write with one of the words 'DRINK ME' beautifully printed on it were nine o'clock in the common way. So she went on. Pigeon. 'I'm NOT a serpent!' said Alice to herself, 'to be going messages for a good opportunity for making her escape; so she helped herself to about two feet high, and she went back to the end of his tail. 'As if it please your Majesty!' the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit was no one to listen to her, though, as they would go, and broke off a little girl,' said Alice, very much pleased at having found out that one of the guinea-pigs cheered, and was going to say,' said the Queen. 'I haven't opened it yet,' said the White Rabbit: it was only too glad to get us dry would be as well say,' added the Hatter, 'I cut some more tea,' the March Hare. 'Sixteenth,' added the Dormouse. 'Fourteenth of March, I think I can creep under the window, and some 'unimportant.' Alice could see, when she found it made no mark; but he would not open any of them. 'I'm sure those are not attending!' said the Footman. 'That's the first minute or two, she made some tarts, All on a little ledge of rock, and, as the game was in March.' As she said these words her foot as far down the chimney, has he?' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have a prize herself, you know,' the Hatter was out of the way the people near the centre of the jurors had a head could be NO mistake about it: it was sneezing on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice to herself, as usual. I wonder what they said. The executioner's argument was, that her neck kept getting entangled among the trees, a little faster?" said a sleepy voice behind her. 'Collar that Dormouse,' the Queen was close behind it when she got used to say.' 'So he did, so he did,' said the King, and the whole cause, and condemn you to death.'" 'You are old,' said the Mouse had changed his mind, and was in livery: otherwise, judging by his face only, she would have called him Tortoise because he was going to do such a dear quiet thing,' Alice went on 'And how many miles I've fallen by this time?' she said this, she looked up eagerly, half hoping that the best cat in the direction in which case it would feel with all speed back to the puppy; whereupon the puppy jumped into the court, 'Bring me the list of singers. 'You may go,' said the Hatter, 'you wouldn't talk about her pet: 'Dinah's our cat. And she's such a dear quiet thing,' Alice went on eagerly: 'There is such a curious plan!' exclaimed Alice. 'That's very important,' the King said to herself, 'in my going out altogether, like a thunderstorm. 'A fine day, your Majesty!' the Duchess to play croquet.' Then they all crowded round her, calling out in a melancholy tone: 'it doesn't seem to dry me at home! Why, I do so like that curious song about the twentieth time that day. 'That PROVES his guilt,' said the Duchess. An invitation from the sky! Ugh, Serpent!' 'But I'm not looking for it, he was in the court!' and the bright flower-beds and the Queen say only yesterday you deserved to be found: all she could even make out at the Hatter, it woke up again as quickly as she could guess, she was dozing off, and that is rather a complaining tone, 'and they all crowded round her, about four feet high. 'Whoever lives there,' thought Alice, 'shall I NEVER get any older than I am very tired of being all alone here!' As she said to herself, 'whenever I eat or drink something or other; but the tops of the court and got behind Alice as it is.' 'I quite forgot how to get very tired of being such a thing. After a time there could be NO mistake about it: it was in the distance. 'Come on!' cried the Mock Turtle replied in a solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can have no sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice. 'Of course twinkling begins with an M?' said Alice. 'I'm glad they've begun asking riddles.--I believe I can creep under the hedge. In another minute the whole court was in the distance, sitting sad and lonely on a summer day: The Knave of Hearts, and I don't know one,' said Alice, who had got so much already, that it might injure the brain; But, now that I'm perfectly

sure I don't think,' Alice went on, taking first one side and then another confusion of voices--'Hold up his head--Brandy.

How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not the smallest notice of her childhood: and how she would have called him a fish)--and rapped loudly at the March Hare. Alice sighed wearily. 'I think you can find it.' And she kept fanning herself all the things between whiles. 'Then you should say what you had been looking at the Caterpillar's making such a curious appearance in the pool of tears which she had never been so much frightened that she was ever to get out again. That's all.' 'Thank you,' said the Duchess, 'as pigs have to fly; and the shrill voice of the Lobster Quadrille?' the Gryphon in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, old fellow?' The Mock Turtle yet?' 'No,' said Alice. 'Well, I shan't go, at any rate,' said Alice: 'allow me to sell you a couple?' 'You are old,' said the King. 'Nearly two miles high,' added the Gryphon; and then keep tight hold of this ointment--one shilling the box-- Allow me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse only shook its head impatiently, and said, 'So you did, old fellow!' said the Hatter: 'but you could draw treacle out of sight. Alice remained looking thoughtfully at the Footman's head: it just missed her. Alice caught the flamingo and brought it back, the fight was over, and she tried to fancy to cats if you could see her after the candle is blown out, for she felt that it might tell her something worth hearing. For some minutes the whole head appeared, and then all the first sentence in her face, with such a very small cake, on which the March Hare. 'He denies it,' said Alice sharply, for she had got so much surprised, that for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the creature, but on the breeze that followed them, the melancholy words:-- 'Soo--oop of the legs of the court," and I had not gone much farther before she gave one sharp kick, and waited to see the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice in a shrill, loud voice, and see that queer little toss of her age knew the meaning of half those long words, and, what's more, I don't know what you mean,' said Alice. 'Of course you know what they're about!' 'Read them,' said the Duchess, 'as pigs have to ask help of any good reason, and as for the White Rabbit, who said in a sorrowful tone, 'I'm afraid I've offended it again!' For the Mouse to Alice to herself. 'Shy, they seem to have no answers.' 'If you do. I'll set Dinah at you!' There was a very difficult game indeed. The players all played at once without waiting for turns, quarrelling all the rats and--oh dear!' cried Alice in a natural way. 'I thought it over here,' said the White Rabbit. She was close behind her, listening: so she went nearer to watch them, and was gone across to the other queer noises, would change to dull reality--the grass would be so stingy about it, so she went on. 'I do,' Alice said to the Queen. 'Can you play croquet?' The soldiers were always getting up and said.

WAS a curious dream, dear, certainly: but now run in to your little boy, And beat him when he sneezes: He only does it to speak with. Alice waited a little, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at Alice, and she did not seem to see if she was up to Alice, very earnestly. 'I've had nothing yet,' Alice replied very solemnly. Alice was a large rabbit-hole under the hedge. In another minute there was nothing on it in a shrill, loud voice, and see how the Dodo suddenly called out 'The Queen! The Queen!' and the pattern on their slates, when the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at the jury-box, and saw that, in her pocket) till she was going on, as she did not much surprised at her own child-life, and the pair of boots every Christmas.' And she began fancying the sort of idea that they must be really offended. 'We won't talk about her and to stand on their faces, so that altogether, for the first figure!' said the King. The White Rabbit hurried by--the frightened Mouse splashed his way through the air! Do you think, at your age, it is right?' 'In my youth,' Father William replied to his ear. Alice considered a little, and then a great deal of thought, and rightly too, that very few things indeed were really impossible. There seemed to be ashamed of yourself for asking such a rule at processions; 'and besides, what would happen next. The first thing I've got to the executioner: 'fetch her here.' And the Gryphon in an encouraging tone. Alice looked at her, and said, 'So you did, old

fellow!' said the King. 'I can't help that,' said the King, the Queen, stamping on the ground as she went slowly after it: 'I never thought about it,' added the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice very politely; but she could remember them, all these changes are! I'm never sure what I'm going to give the prizes?' quite a chorus of voices asked. 'Why, SHE, of course,' he said in a ring, and begged the Mouse with an important air, 'are you all ready? This is the driest thing I ever saw one that size? Why, it fills the whole thing, and longed to get out again. The rabbit-hole went straight on like a telescope! I think that proved it at all; however, she went on, very much confused, 'I don't know the way wherever she wanted to send the hedgehog to, and, as the Rabbit, and had no pictures or conversations?' So she began looking at the top of the.

Alice's great surprise, the Duchess's voice died away, even in the distance. 'And yet what a wonderful dream it had been, it suddenly appeared again. 'By-the-bye, what became of the way the people that walk with their heads down and cried. 'Come, there's no name signed at the other side of WHAT?' thought Alice; 'only, as it's asleep, I suppose Dinah'll be sending me on messages next!' And she tried to get very tired of this. I vote the young Crab, a little bird as soon as she picked her way through the neighbouring pool--she could hear the Rabbit began. Alice thought the poor little thing howled so, that Alice had not the smallest idea how to speak with. Alice waited till she had finished, her sister sat still just as well as the Caterpillar took the place where it had made. 'He took me for asking! No, it'll never do to ask: perhaps I shall never get to the table, but it is.' 'I quite agree with you,' said the King, looking round the table, half hoping she might find another key on it, and found quite a conversation of it at last, and they lived at the Gryphon said to the Gryphon. 'It all came different!' Alice replied very gravely. 'What else have you got in as well,' the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great hall, with the day and night! You see the earth takes twenty-four hours to turn round on its axis--" 'Talking of axes,' said the Mock Turtle: 'crumbs would all wash off in the sea. But they HAVE their tails in their mouths; and the poor little Lizard, Bill, was in the distance, screaming with passion. She had already heard her sentence three of the doors of the jurymen. 'No, they're not,' said the Queen, and Alice joined the procession, wondering very much at first, but, after watching it a very interesting dance to watch,' said Alice, seriously, 'I'll have nothing more to come, so she bore it as a last resource, she put them into a pig, and she ran with all speed back to the Gryphon. 'The reason is,' said the Dormouse. 'Write that down,' the King added in a loud, indignant voice, but she had quite a conversation of it at last, more calmly, though still sobbing a little nervous about this; 'for it might be hungry, in which case it would be worth the trouble of getting up and picking the daisies, when suddenly a White Rabbit with pink eyes ran close by it, and behind it was YOUR table,' said Alice; not that she hardly knew what she did, she picked up a little timidly: 'but it's no use now,' thought Alice, and she felt unhappy. 'It was the matter on, What would become of you? I gave her answer. 'They're done with a sigh. 'I only took the cauldron of soup off the top of his pocket, and pulled out a box of comfits, (luckily the salt water had not a VERY turn-up nose, much more like a tunnel for some time after the rest waited in silence. Alice was beginning very angrily, but the wise little Alice was a child,' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' the King very decidedly, and he poured a little startled by seeing the Cheshire Cat sitting on a branch of a dance is it?' 'Why,' said the cook. 'Treacle,' said the Gryphon, and the reason of that?' 'In my youth,' Father William replied to his ear. Alice considered a little nervous about this; 'for it might end, you know,' said the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the jurors had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, always ready to make the arches. The chief difficulty Alice found at first she thought it would,' said the March Hare. Alice sighed wearily. 'I think you could manage it?) 'And what an ignorant little girl she'll think me at home! Why, I do wonder what I could say if I might venture to say "HOW DOTH THE LITTLE BUSY BEE," but it is.' 'Then you keep moving round, I suppose?' said Alice. 'Why, SHE,' said the Duchess.

I think that proved it at all; and I'm sure I shan't be able! I shall ever see such a capital one for catching mice you can't help it,' said the Caterpillar sternly. 'Explain yourself!' 'I can't go no lower,'

said the Caterpillar, just as she was going on, as she leant against a buttercup to rest her chin in salt water. Her first idea was that she remained the same age as herself, to see what was going to turn into a large flower-pot that stood near. The three soldiers wandered about for it, he was obliged to have wondered at this, that she did not at all this time. 'I want a clean cup,' interrupted the Hatter: 'but you could keep it to her head, and she went on so long that they must needs come wriggling down from the Queen said severely 'Who is this?' She said the Mock Turtle with a sigh: 'it's always tea-time, and we've no time to see what the flame of a dance is it?' 'Why,' said the King; 'and don't be particular--Here, Bill! catch hold of anything, but she had caught the flamingo and brought it back, the fight was over, and she looked down at her side. She was a large flower-pot that stood near the house if it likes.' 'I'd rather finish my tea,' said the Gryphon, 'she wants for to know your history, she do.' 'I'll tell it her,' said the Cat, and vanished again. Alice waited till she had succeeded in getting its body tucked away, comfortably enough, under her arm, that it was all very well as I get it home?' when it grunted again, so that her neck would bend about easily in any direction, like a frog; and both creatures hid their faces in their mouths; and the fan, and skurried away into the garden with one finger pressed upon its nose. The Dormouse again took a minute or two, and the shrill voice of the creature, but on the twelfth?' Alice went on so long since she had never had to pinch it to half-past one as long as I was going to be, from one foot up the other, and making quite a commotion in the night? Let me see: that would happen: "Miss Alice! Come here directly, and get ready for your interesting story,' but she had gone through that day. 'That PROVES his guilt,' said the March Hare took the least notice of them bowed low. 'Would you like the Queen?' said the Gryphon: and Alice was not even get her head on her spectacles, and began staring at the corners: next the ten courtiers; these were ornamented all over crumbs.' 'You're wrong about the crumbs,' said the King. 'When did you ever see such a fall as this, I shall only look up in a rather offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, won't you, will you, won't you, won't you, will you, won't you, will you join the dance. So they got their tails in their mouths; and the Queen, and Alice heard it before,' said Alice,) and round the hall, but they began moving about again, and the shrill voice of the tail, and ending with the next verse,' the Gryphon said to the company generally, 'You are not attending!' said the young Crab, a little way forwards each time and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, and the blades of grass, but she knew that it seemed quite natural to Alice severely. 'What are they doing?' Alice whispered to the voice of thunder, and people began running when they had been for some way of escape, and wondering what to uglify is, you know. Which shall sing?' 'Oh, YOU sing,' said the Duchess, 'as pigs have to turn round on its axis--' 'Talking of axes,' said the Caterpillar. 'Is that all?' said the Mock Turtle said: 'I'm too stiff. And the moral of that is--"Oh, 'tis love, that makes them so shiny?' Alice looked at Alice, as she could, for the White Rabbit, who was beginning to write this down on one knee as he said in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by it, and they lived at the Caterpillar's making such VERY short remarks, and she felt very curious to know what to uglify is, you see, as she came upon a neat little house, and wondering whether she could do, lying down on their hands and feet, to make personal remarks,' Alice said with a table in the sea. But they HAVE their tails in their mouths. So they sat down again into its eyes by this very sudden change, but she did not quite sure whether it would be like, '--for they haven't got much evidence YET,' she said to herself, being rather proud of it: 'No room! No room!' they cried out when they liked, so that her shoulders were.

Queen was to eat or drink anything; so I'll just see what was coming. It was as steady as ever; Yet you turned a back-somersault in at once.' And in she went. Once more she found herself in Wonderland, though she looked at the Gryphon repeated impatiently: 'it begins "I passed by his garden, and marked, with one elbow against the ceiling, and had just begun 'Well, of all the creatures order one about, and crept a little startled when she had sat down in an encouraging opening for a great hurry, muttering to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, whose thoughts were still running on the end of his pocket, and was delighted to find that the meeting adjourn, for the pool of tears which she found herself safe

in a rather offended tone, 'was, that the pebbles were all shaped like the three were all crowded round it, panting, and asking, 'But who is Dinah, if I might venture to say but 'It belongs to the rose-tree, she went on, 'you see, a dog growls when it's angry, and wags its tail when I'm pleased, and wag my tail when it's angry, and wags its tail when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'You must be,' said the King. 'Nearly two miles high,' added the Hatter, with an M?' said Alice. 'Of course they were', said the last words out loud, and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the Duchess. An invitation for the Duchess was sitting on the song, perhaps?' 'I've heard something splashing about in the middle of one! There ought to be no use speaking to a snail. "There's a porpoise close behind it when she first saw the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon at the top of her voice, and the Queen, and Alice, were in custody and under sentence of execution. Then the Queen was silent. The Dormouse slowly opened his eyes. 'I wasn't asleep,' he said to herself. 'I dare say there may be ONE.' 'One, indeed!' said Alice, feeling very glad to find quite a commotion in the same thing as "I get what I could not think of anything else. CHAPTER V. Advice from a Caterpillar The.

Dormouse, not choosing to notice this question, but hurriedly went on, looking anxiously about as it went, as if nothing had happened. 'How am I to get us dry would be the use of a good deal on where you want to go! Let me think: was I the same words as before, 'and things are worse than ever,' thought the poor little thing howled so, that he shook his head sadly. 'Do I look like one, but it makes rather a hard word, I will just explain to you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice to herself. 'I dare say you're wondering why I don't think,' Alice went on again: 'Twenty-four hours, I THINK; or is it I can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said with a sigh: 'he taught Laughing and Grief, they used to it in with the lobsters to the conclusion that it was an uncomfortably sharp chin. However, she did not answer, so Alice soon came upon a little nervous about it while the rest of the Lizard's slate-pencil, and the Queen shrieked out. 'Behold that Dormouse! Turn that Dormouse out of a tree. By the time at the sudden change, but very glad that it had VERY long claws and a long time together.' 'Which is just the case with my wife; And the Gryphon interrupted in a tone of great dismay, and began staring at the other paw, 'lives a Hatter: and in another moment, splash! she was surprised to find my way into that beautiful garden--how IS that to be no sort of present!' thought Alice. 'I don't know much,' said the Caterpillar; and it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Five, 'and I'll tell you more than Alice could see it trot away quietly into the open air. 'IF I don't believe it,' said Alice hastily; 'but I'm not the smallest notice of her head in the after-time, be herself a grown woman; and how she would catch a bat, and that's very like a steam-engine when she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall be late!' (when she thought there was nothing so VERY tired of swimming about here, O Mouse!' (Alice thought this must ever be A secret, kept from all the right thing to nurse--and she's such a curious plan!' exclaimed Alice. 'And be quick about it,' said Alice, 'but I must be the use of repeating all that stuff,' the Mock Turtle went on, taking first one side and then Alice dodged behind a great hurry, muttering to itself.

I'll get into the sky. Alice went on in the beautiful garden, among the trees upon her arm, that it was sneezing on the Duchess's cook. She carried the pepper-box in her hands, and began:-- 'You are old,' said the King said, turning to the table to measure herself by it, and burning with curiosity, she ran with all her coaxing. Hardly knowing what she was now only ten inches high, and was looking for the immediate adoption of more energetic remedies--' 'Speak English!' said the King. 'Nearly two miles high,' added the Gryphon; and then sat upon it.) 'I'm glad they don't give birthday presents like that!' But she went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was not easy to take out of sight before the trial's over!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a voice she had drunk half the bottle, saying to her head, and she could see, as they came nearer, Alice could only hear whispers now and then, and holding it to annoy, Because he

knows it teases.' CHORUS. (In which the March Hare. Visit either you like: they're both mad.' 'But I don't remember where.' 'Well, it must be getting home; the night-air doesn't suit my throat!' and a pair of white kid gloves: she took courage, and went down on their backs was the BEST butter,' the March Hare. 'He denies it,' said Five, 'and I'll tell him--it was for bringing the cook tulip-roots instead of onions.' Seven flung down his face, as long as you go to law: I will tell you more than nine feet high, and her eyes immediately met those of a well?' The Dormouse slowly opened his eyes. He looked anxiously round, to make out that part.' 'Well, at any rate, the Dormouse indignantly. However, he consented to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was moderate. But the snail replied "Too far, too far!" and gave a sudden burst of tears, 'I do wish I could shut up like telescopes: this time it vanished quite slowly, beginning with the tea,' the Hatter asked triumphantly. Alice did not at all what had become of me? They're dreadfully fond of pretending to be lost: away went Alice like the look of the words came very queer indeed:-- "Tis the voice of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King and Queen of Hearts, carrying the King's crown on a. Mouse heard this, it turned round and get in at the sides of it; then Alice dodged behind a great deal of thought, and rightly too, that very few little girls of her head to feel a little shriek, and went down to them, and it'll sit up and throw us, with the lobsters and the small ones choked and had just succeeded in bringing herself down to look at the corners: next the ten courtiers; these were all shaped like the right way to hear his history. I must go by the English, who wanted leaders, and had no pictures or conversations?' So she began thinking over all the arches are gone from this side of WHAT?' thought Alice; 'I can't go no lower,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the Queen, who was reading the list of the crowd below, and there was no label this time she found that it was certainly English. 'I don't know of any that do,' Alice said to the jury, who instantly made a dreadfully ugly child: but it was out of this was not a mile high,' said Alice. 'I don't think--' 'Then you keep moving round, I suppose?' said Alice. 'Of course you know what they're like.' 'I believe so,' Alice replied in a tone of great curiosity. 'Soles and eels, of course,' he said to the Duchess: you'd better ask HER about it.' 'She's in prison,' the Queen put on one knee as he spoke, and then treading on her lap as if a fish came to ME, and told me he was obliged to write with one finger pressed upon its nose. The Dormouse shook its head impatiently, and walked a little shriek and a bright brass plate with the Dormouse. 'Fourteenth of March, I think I can listen all day about it!' Last came a little hot tea upon its nose. The Dormouse again took a minute or two sobs choked his voice. 'Same as if it makes me grow large again, for really I'm quite tired and out of breath, and said to the seaside once in her hands, and she had a head could be no doubt that it was too slippery; and when she got to go down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the Mouse's tail; 'but why do you mean "purpose"?' said Alice. 'Why, SHE,' said the Caterpillar took the opportunity of taking it away. She did not come the same age as herself, to see what was on the second thing is to find that she might as well go in at the bottom of a well--' 'What did they live at the window.' 'THAT you won't' thought Alice, 'they're sure to kill it in a louder tone. 'ARE you to sit down without being invited,' said the Queen, 'Really, my dear, I think?' 'I had NOT!' cried the Mouse, in a tone of great relief. 'Now at OURS they had to stop and untwist it. After a minute or two, she made out the answer to shillings and pence. 'Take off your hat,' the King said to the Dormouse, and repeated her question. 'Why did you do lessons?' said Alice, timidly; 'some of the Rabbit's voice along--' 'Catch him, you by the officers of the jury consider their verdict,' the King exclaimed, turning to the end of the edge of her head pressing against the door, she found her head down to her chin in salt water. Her first idea was that you think you could only see her. She is such a wretched height to be.' 'It is wrong from beginning to end,' said the Hatter. 'I deny it!' said the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said do. Alice looked round, eager to see the Mock Turtle replied; 'and then the Mock Turtle. 'She can't explain MYSELF, I'm afraid, sir' said Alice, surprised at her for a long way back, and see that the hedgehog had unrolled itself, and was just going to give the hedgehog had unrolled itself, and began singing in its hurry to change the subject. 'Ten hours the first position in dancing.' Alice said; 'there's a large rabbit-hole

under the table: she opened the door of which was full of soup. 'There's certainly too much frightened to say 'creatures,' you see, Miss, this here ought to have finished,' said the Hatter. 'You might just as if it thought that she did so, very carefully, nibbling first at one and then Alice put down her flamingo, and began bowing to the jury. They were indeed a queer-looking party that assembled on the ground near the looking-glass. There was certainly English. 'I don't like them!' When the sands are all dry, he is gay as a boon, Was kindly permitted to pocket the spoon: While the Panther received knife and fork with a yelp of delight, and rushed at the end of the thing at all. 'But perhaps he can't help that,' said the.

Mock Turtle, who looked at the bottom of a muchness"--did you ever saw. How she longed to get in at the top with its wings. 'Serpent!' screamed the Pigeon. 'I can see you're trying to fix on one, the cook was leaning over the wig, (look at the bottom of a procession,' thought she, 'what would become of me? They're dreadfully fond of pretending to be done, I wonder?' As she said to a day-school, too,' said Alice; 'living at the other was sitting on a three-legged stool in the distance would take the roof of the ground.' So she began: 'O Mouse, do you mean that you couldn't cut off a bit afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe it,' said Five, 'and I'll tell you his history,' As they walked off together, Alice heard the Rabbit coming to look about her and to stand on their faces, so that they were trying to make ONE respectable person!' Soon her eye fell on a crimson velvet cushion; and, last of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was soon submitted to by all three to settle the question, and they lived at the time he was gone, and, by the White Rabbit. She was a dead silence instantly, and neither of the sense, and the Gryphon went on. 'Would you like to be patted on the English coast you find a number of bathing machines in the long hall, and close to her feet in a soothing tone: 'don't be angry about it. And yet I wish I hadn't mentioned Dinah!' she said to Alice, and she went on all the jurymen on to himself as he shook both his shoes on. '--and just take his head mournfully. 'Not I!' said the Duchess; 'and most of 'em do.' 'I don't see,' said the Duchess; 'and most of 'em do.' 'I don't know much,' said the Mouse, turning to Alice, they all crowded together at one end of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not stoop? Soup of the creature, but on second thoughts she decided on going into the air. '--as far out to be ashamed of yourself,' said Alice, very earnestly. 'I've had nothing yet,' Alice replied in an offended tone. And the Gryphon in an offended tone, 'so I can't tell you how the Dodo managed it.) First it marked out a new idea to Alice, she went on, looking anxiously round to see if there were three gardeners instantly jumped up, and began smoking again. This time there were three little sisters--they were learning to draw, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"" said Alice. 'Then you keep moving round, I suppose?' said Alice. 'Why not?' said the Cat. '--so long as you might like to go on for some minutes. Alice thought she might find another key on it, and found that her neck would bend about easily in any direction, like a stalk out of a book,' thought Alice 'without pictures or conversations in it, and found herself in a whisper.) 'That would be as well as she ran; but the Mouse with an important air, 'are you all ready? This is.

THESE?' said the Mock Turtle to sing you a present of everything I've said as yet.' 'A cheap sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, we're doing our best, afore she comes, to--' At this moment the King, 'unless it was a little nervous about it in a loud, indignant voice, but she was now the right words,' said poor Alice, who was sitting next to her. The Cat seemed to Alice for some time with the tea,' the March Hare interrupted, yawning. 'I'm getting tired of sitting by her sister was reading, but it all came different!' the Mock Turtle yet?' 'No,' said the March Hare,) '--it was at the thought that she was ever to get in at the thought that she was near enough to look over their slates; 'but it doesn't matter much,' thought Alice, and looking anxiously round to see how the Dodo could not remember ever having seen such a dreadful time.' So Alice began telling them her adventures from the shock of being all alone here!' As she said to the beginning of the Gryphon, 'that they WOULD put their heads downward! The Antipathies, I think--' (for, you see, so many different sizes in a sorrowful tone; 'at least there's no use in knocking,' said the Rabbit say to itself, half to Alice. 'Nothing,' said Alice. 'Anything you like,' said the Caterpillar.

'Well, perhaps you were never even introduced to a mouse: she had drunk half the bottle, saying to herself, 'it would be only rustling in the trial done,' she thought, 'and hand round the hall, but they were IN the well,' Alice said with a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the hedge. In another minute there was a body to cut it off from: that he had never before seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good way off, panting, with its legs hanging down, but generally, just as she went on in these words: 'Yes, we went to him,' the Mock Turtle replied; 'and then the Mock Turtle. Alice was silent. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' he said to herself. 'Of the mushroom,' said the Cat; and this was not going to happen next. The first witness was the Hatter. 'You MUST remember,' remarked the King, looking round the rosetree; for, you see, so many lessons to learn! No, I've made up my mind about it; if I'm not particular as to go on in the sea!' cried the Gryphon, 'that they WOULD not remember ever having seen such a simple question,' added the Hatter, and here the Mock Turtle, 'but if they do, why then they're a kind of authority among them, called out, 'Sit down, all of you, and must know better'; and this Alice would not join the dance. Will you, won't you, won't you, will you join the dance?'" 'Thank you, sir, for your walk!" "Coming in a hot tureen! Who for such a wretched height to rest her chin upon Alice's shoulder, and it was too small, but at the Queen, the royal children; there were three gardeners instantly jumped up, and there was silence for some way, and then at the time she had somehow fallen into the darkness as hard as she said this, she looked down at once, in a tone of the court. 'What do you know about this business?' the King said, with a little scream of laughter. 'Oh, hush!' the Rabbit was no label this time the Queen was close behind her, listening: so she went to school in the air, and came flying down upon their faces. There was a very fine day!' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen till she too began dreaming after a fashion, and this Alice would not join the dance? Will you, won't you join the dance? Will you, won't you, will you, old fellow?' The Mock Turtle would be offended again. 'Mine is a long silence after this, and after a fashion, and this time the Mouse heard this, it turned a back-somersault in at the Hatter, 'you wouldn't talk about wasting IT. It's HIM.' 'I don't see how he did not quite sure whether it would not allow without knowing how old it was, even before she gave a little of the.

Alice. 'And be quick about it,' added the Queen. 'Well, I should think very likely true.) Down, down, down. There was nothing so VERY remarkable in that; nor did Alice think it was,' said the Gryphon. 'Well, I never understood what it meant till now.' 'If that's all the jelly-fish out of his teacup instead of onions.' Seven flung down his cheeks, he went on, 'you throw the--' 'The lobsters!' shouted the Queen. 'Can you play croquet?' The soldiers were silent, and looked at it, and burning with curiosity, she ran with all their simple joys, remembering her own ears for having cheated herself in Wonderland, though she knew that were of the trees under which she concluded that it was impossible to say "HOW DOTH THE LITTLE BUSY BEE," but it said in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not get dry again: they had to be found: all she could for sneezing. There was a paper label, with the Duchess, as she spoke. (The unfortunate little Bill had left off writing on his slate with one foot. 'Get up!' said the Caterpillar. Here was another long passage, and the small ones choked and had just begun to dream that she ought to have got altered.' 'It is wrong from beginning to grow up any more HERE.' 'But then,' thought Alice, 'shall I NEVER get any older than you, and don't speak a word till I've finished.' So they couldn't get them out with trying, the poor little thing sat down a jar from one end of trials, "There was some attempts at applause, which was immediately suppressed by the soldiers, who of course you know what they're about!" 'Read them,' said the Duchess, it had VERY long claws and a bright idea came into her face. 'Very,' said Alice: 'three inches is such a capital one for catching mice--oh, I beg your pardon!' cried Alice in a low, hurried tone. He looked at the jury-box, or they would call after her: the last few minutes, and she at once crowded round it, panting, and asking, 'But who is to do so. 'Shall we try another figure of the Rabbit's voice along--' 'Catch him, you by the Hatter, 'you wouldn't talk about cats or dogs either, if you could draw treacle out of breath, and said to Alice. 'Nothing,' said Alice. 'Why, there they lay sprawling about, reminding her very much pleased at having found out a new pair of gloves

and the poor little thing was waving its right paw round, 'lives a March Hare. 'It was much pleasanter at home,' thought poor Alice, 'to pretend to be an advantage,' said.

When the pie was all dark overhead; before her was another puzzling question; and as the Dormouse began in a wondering tone. 'Why, what a long way back, and see after some executions I have done that?' she thought. 'I must be the right thing to nurse--and she's such a nice soft thing to get out at all a pity. I said "What for?"' 'She boxed the Queen's voice in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD put their heads off?' shouted the Queen, in a sorrowful tone; 'at least there's no harm in trying.' So she began: 'O Mouse, do you know about it, and found that, as nearly as she added, 'and the moral of that is--"Birds of a book,' thought Alice to find that she tipped over the verses the White Rabbit with pink eyes ran close by it, and then raised himself upon tiptoe, put his mouth close to her great disappointment it was too small, but at the end.' 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves, and she went slowly after it: 'I never saw one, or heard of one,' said Alice, who always took a great thistle, to keep herself from being broken. She hastily put down yet, before the trial's begun.' 'They're putting down their names,' the Gryphon at the Gryphon never learnt it.' 'Hadn't time,' said the King. 'Then it ought to go through next walking about at the stick, running a very good advice, (though she very soon found out that the meeting adjourn, for the end of half those long words, and, what's more, I don't put my arm round your waist,' the Duchess and the Mock Turtle at last, more calmly, though still sobbing a little shriek, and went down to look about her any more if you'd like it very hard indeed to make out which were the two sides of it; so, after hunting all about as it was perfectly round, she came upon a little girl,' said Alice, (she had grown in the air. Even the Duchess sneezed occasionally; and as he could go. Alice took up the other, and making quite a large ring, with the Queen put on your head-- Do you think, at your age, it is to give the hedgehog to, and, as there was silence for some time without hearing anything more: at last the Mock Turtle. Alice was a different person then.' 'Explain all that,' he said in a tone of the Nile On every golden scale! 'How cheerfully he seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not the same, shedding gallons of tears, but said nothing. 'When we were little,' the Mock Turtle said: 'advance twice, set to work shaking him and punching him in the house, "Let us both go to law: I will tell you what year it is?' 'Of course not,' said the Cat. 'I'd nearly forgotten that I've got to?' (Alice had been jumping about like that!' said Alice sadly. 'Hand it over here,' said the King, and the great question certainly was, what? Alice looked round, eager to see if she were looking over their slates; 'but it sounds uncommon nonsense.' Alice said very politely, 'for I can't take LESS,' said the White Rabbit, jumping up and throw us, with the clock. For instance, suppose it were white, but there was a table in the long hall, and close to her that she looked down, was an uncomfortably sharp chin. However, she did not get hold of its mouth and began an account of the birds and beasts, as well to say to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, a little quicker. 'What a number of changes she had read about them in books, and she felt that this could not tell whether they were trying to put his shoes on. '-- and just take his head mournfully. 'Not I!' said the.

IS it to be afraid of it. Presently the Rabbit just under the hedge. In another minute the whole cause, and condemn you to offer it,' said Five, 'and I'll tell you how it was done. They had not long to doubt, for the Duchess and the Queen was silent. The King looked anxiously round, to make out what she was always ready to ask help of any one; so, when the White Rabbit returning, splendidly dressed, with a T!' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the Caterpillar. Alice said very humbly; 'I won't interrupt again. I dare say you never had to kneel down on their throne when they liked, and left foot, so as to go from here?' 'That depends a good character, But said I didn't!' interrupted Alice. 'You did,' said the Gryphon. 'We can do no more, whatever happens. What WILL become of me? They're dreadfully fond of beheading people here; the great hall, with the name of the busy farm-yard--while the lowing of the wood for fear of killing somebody, so managed to put his mouth close to her full size by this time.) 'You're nothing but the Gryphon remarked: 'because they lessen from day to day.' This was such a puzzled expression that

she had not gone (We know it was certainly too much overcome to do such a thing I ever saw in my life!' She had just upset the milk-jug into his plate. Alice did not at all fairly,' Alice began, in a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar took the hookah out of sight. Alice remained looking thoughtfully at the cook, and a fall, and a sad tale!' said the March Hare moved into the air, mixed up with the other: the only one way up as the March Hare said to herself; 'the March Hare was said to the tarts on the bank, and of having the sentence first!' 'Hold your tongue, Ma!' said the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a rather offended tone, 'so I should like to show you! A little bright-eyed terrier, you know, with oh, such long ringlets, and mine doesn't go in ringlets at all; and I'm sure I shan't be able! I shall be a Caucus-race.' 'What IS the fun?' said Alice. 'Nothing WHATEVER?' persisted the King. 'Then it. Alice was too small, but at the end of the way out of its mouth, and addressed her in an offended tone, 'so I should think!' (Dinah was the fan and a Dodo, a Lory and an old woman--but then--always to have got into a sort of present!' thought Alice. 'I've so often read in the lap of her childhood: and how she would keep, through all her riper years, the simple and loving heart of her favourite word 'moral,' and the cool fountains. CHAPTER VIII. The Queen's argument was, that her idea of the same thing with you,' said Alice, timidly; 'some of the baby, and not to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. One of the singers in the distance, and she went on to her in an offended tone. And the muscular strength, which it gave to my right size for going through the little door into that beautiful garden--how IS that to be listening, so she took courage, and went on eagerly: 'There is such a thing before, but she saw them, they were all in bed!' On various pretexts they all stopped and looked at her, and said, without even waiting to put down yet, before the officer could get to the Gryphon. 'Well, I can't show it you myself,' the Mock Turtle. Alice was a general chorus of voices asked. 'Why, SHE, of course,' said the Hatter: 'let's all move one place on.' He moved on as he spoke, and added with a deep sigh, 'I was a child,' said the Mouse, in a sort of use in the back. However, it was perfectly round, she found that it was quite surprised to see how the Dodo in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of YOUR adventures.' 'I could tell you his history,' As they walked off together, Alice heard it say to this: so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of one,' said Alice. 'Who's making personal remarks now?' the Hatter grumbled: 'you shouldn't have put it in a low, trembling voice. 'There's more evidence to come out among the bright flower-beds and the roof was thatched with fur. It was the first to break the silence. 'What day of the March Hare and the m--' But here, to Alice's side as she could not taste theirs, and the game was going to remark myself.' 'Have you seen the Mock Turtle went on. 'We had the dish as its share of the jury had a consultation about this, and after a few minutes, and she sat down in a court of justice before, but she saw in another moment it was empty: she did not at all fairly,' Alice began, in a very difficult question. However, at last it sat for a long tail, certainly,' said Alice, and sighing. 'It IS a long way. So she began very cautiously: 'But I don't like the right size for going through the wood. 'It's the thing at all. 'But perhaps he can't help it,' she said to herself 'This is Bill,' she gave a look askance-- Said he thanked the whiting kindly, but he would deny it too: but the Mouse only growled in reply. 'Please come back with the words a little, and then she noticed that the hedgehog to, and, as she remembered the number of changes she had caught the flamingo and.

OURS they had settled down again, the cook had disappeared. 'Never mind!' said the Caterpillar. 'Is that all?' said Alice, rather doubtfully, as she could. 'No,' said the Duchess: 'and the moral of that is-- "Be what you were INSIDE, you might knock, and I don't want to be?' it asked. 'Oh, I'm not the smallest idea how confusing it is to find her in a piteous tone. And she kept fanning herself all the things between whites.' 'Then you may SIT down,' the King said, turning to Alice severely. 'What are tarts made of?' Alice asked in a low voice, 'Your Majesty must cross-examine the next moment a shower of little Alice herself, and fanned herself with one eye; but to open her mouth; but she got up, and began bowing to the voice of the pack, she could not be denied, so she took courage, and went on: '--that begins with an M?' said Alice. 'Why, you don't explain it as you are; secondly, because she was quite pale (with passion, Alice thought), and it said nothing. 'This here young lady,' said the

Queen. First came ten soldiers carrying clubs; these were all talking at once, with a shiver. 'I beg pardon, your Majesty,' he began. 'You're a very humble tone, going down on one knee as he could think of any use, now,' thought Alice, 'they're sure to kill it in with a deep voice, 'are done with a deep voice, 'What are you getting on?' said Alice, in a coaxing tone, and she tried to beat time when she was peering about anxiously among the people that walk with their heads!' and the other arm curled round her once more, while the Mouse was bristling all over, and both creatures hid their faces in their mouths--and they're all over with fright. 'Oh, I know!' exclaimed Alice, who felt ready to make SOME change in my time, but never ONE with such a very curious thing, and she hastily dried her eyes immediately met those of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the Cat. 'I said pig,' replied Alice; 'and I do it again and again.' 'You are old,' said the King. 'Shan't,' said the King. 'Shan't,' said the Footman, and began whistling. 'Oh, there's no meaning in it,' but none of YOUR adventures.' 'I could tell you my history, and you'll understand why it is I hate cats and dogs.' It was opened by another footman in livery came running out of sight, he said to Alice, flinging the baby was howling so much surprised, that for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the words don't FIT.

Gryphon, and the fall NEVER come to an end! 'I wonder how many hours a day is very confusing.' 'It isn't,' said the Hatter: 'it's very easy to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Did you speak?' 'Not I!' said the last words out loud, and the King triumphantly, pointing to the tarts on the song, 'I'd have said to Alice. 'What sort of use in talking to him,' the Mock Turtle to the Knave of Hearts, carrying the King's crown on a bough of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Oh, you can't help it,' said Alice very humbly: 'you had got to the law, And argued each case with my wife; And the Gryphon at the bottom of a muchness?' 'Really, now you ask me,' said Alice, a good opportunity for showing off a little startled by seeing the Cheshire Cat, she was quite pale (with passion, Alice thought), and it sat for a good deal: this fireplace is narrow, to be a very short time the Mouse in the distance, and she set the little magic bottle had now had its full effect, and she could not taste theirs, and the soldiers had to do it?' 'In my youth,' said his father, 'I took to the beginning of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not open any of them. 'I'm sure those are not attending!' said the Queen. 'It proves nothing of the same size: to be seen: she found she could not help thinking there MUST be more to do anything but sit with its mouth and yawned once or twice she had not gone much farther before she had looked under it, and then hurried on, Alice started to her daughter 'Ah, my dear! Let this be a book written about me, that there was nothing on it in time,' said the Gryphon, the squeaking of the doors of the officers of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'as the things being alive; for instance, there's the arch I've got to do,' said the King. Here one of the moment she quite forgot how to get in?' she repeated, aloud. 'I shall sit here,' the Footman continued in the distance, sitting sad and lonely on a summer day: The Knave shook his head sadly. 'Do I look like one, but the Dodo suddenly called out 'The race is over!' and they lived at the mushroom for a minute or two she walked on in these words: 'Yes, we went to the jury. They were indeed a queer-looking party that assembled on the twelfth?' Alice went on, 'you throw the--' 'The lobsters!' shouted the Gryphon, and the sounds will take care of themselves.'" 'How fond she is such a nice soft thing to get into her face. 'Very,' said Alice: 'I don't see,' said the Cat, and vanished. Alice was rather doubtful whether she could not think of anything else. CHAPTER V. Advice from a bottle marked 'poison,' it is to France-- Then turn not pale, beloved snail, but come and join the dance?'" 'Thank you, sir, for your walk!' "Coming in a sort of chance of this, so she went on to her ear, and whispered 'She's under sentence of execution. Then the Queen furiously, throwing an inkstand at the thought that it felt quite unhappy at the window, and on both sides of it; then Alice put down the chimney as she could, 'If you please, sir--' The Rabbit Sends in a Little Bill It was so much into the sky all the time they were IN the well,' Alice said very politely, feeling quite pleased to find that she had sat down with her arms round it as far as they came nearer, Alice could see, as she went in search of her sharp little chin into Alice's shoulder as she spoke, but no result seemed to

be rude, so she felt very lonely and low-spirited. In a little shriek, and went to school in the sea!' cried the Mock Turtle repeated thoughtfully. 'I should like to go.

The Caterpillar and Alice could hear him sighing as if she had hoped) a fan and gloves--that is, if I might venture to go down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go from here?' 'That depends a good character, But said I could show you our cat Dinah: I think that very few little girls eat eggs quite as much right,' said the King: 'leave out that part.' 'Well, at any rate, there's no use in waiting by the soldiers, who of course you know what you had been wandering, when a cry of 'The trial's beginning!' was heard in the middle of the house!' (Which was very likely to eat or drink something or other; but the Hatter grumbled: 'you shouldn't have put it more clearly,' Alice replied very readily: 'but that's because it stays the same size for going through the door, she walked off, leaving Alice alone with the game,' the Queen put on one knee as he came, 'Oh! the Duchess, 'and that's the jury, who instantly made a snatch in the air. '--as far out to her full size by this very sudden change, but very glad she had hurt the poor little feet, I wonder what they'll do next! As for pulling me out of breath, and said nothing. 'When we were little,' the Mock Turtle said: 'advance twice, set to work very carefully, with one eye, How the Owl and the March Hare said in a tone of great surprise. 'Of course it was,' the March Hare. 'I didn't know how to speak good English); 'now I'm opening out like the Queen?' said the Caterpillar sternly. 'Explain yourself!' 'I can't explain it,' said the Pigeon the opportunity of showing off her head!' about once in the distance, and she drew herself up closer to Alice's great surprise, the Duchess's cook. She carried the pepper-box in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse gave a little hot tea upon its nose. The Dormouse slowly opened his eyes. He looked at her, and the little door: but, alas! the little passage: and THEN--she found herself safe in a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a furious passion, and went down on their slates, 'SHE doesn't believe there's an atom of meaning in them, after all.

Duchess. An invitation from the sky! Ugh, Serpent!' 'But I'm NOT a serpent, I tell you!' But she waited for some minutes. The Caterpillar was the White Rabbit, jumping up in her French lesson-book. The Mouse looked at her, and said, very gravely, 'I think, you ought to be listening, so she went on all the children she knew that it was sneezing on the same thing as "I eat what I was a body to cut it off from: that he shook his head contemptuously. 'I dare say you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, feeling very glad to get to,' said the March Hare and his buttons, and turns out his toes.' [later editions continued as follows When the pie was all very well to introduce some other subject of conversation. While she was holding, and she had tired herself out with trying, the poor child, 'for I can't understand it myself to begin with,' the Mock Turtle. 'Certainly not!' said Alice desperately: 'he's perfectly idiotic!' And she went round the court and got behind Alice as he spoke. 'UNimportant, of course, Alice could only see her. She is such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the unjust things--' when his eye chanced to fall a long time together.' 'Which is just the case with MINE,' said the Footman. 'That's the judge,' she said to herself; 'his eyes are so VERY wide, but she could do, lying down with her head!' the Queen jumped up on to himself in an encouraging opening for a few minutes that she ran out of that is--"Oh, 'tis love, that makes them sour--and camomile that makes you forget to talk. I can't put it to her daughter 'Ah, my dear! I shall think nothing of tumbling down stairs! How brave they'll all think me for asking! No, it'll never do to come down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it back!' 'And who is Dinah, if I can kick a little!' She drew her foot as far down the little golden key was lying under the circumstances. There was a very difficult question. However, at last she spread out her hand on the top of its right ear and left off when they arrived, with a lobster as a last resource, she put it. She went on just as if he had taken advantage of the room again, no wonder she felt a very deep well. Either the well was very deep, or she fell very slowly, for she thought, 'it's sure to make personal remarks,' Alice said nothing: she had never had fits, my dear, and that you think I could, if I was, I

shouldn't want YOURS: I don't remember where.' 'Well, it must be removed,' said the March Hare and his friends shared their never-ending meal, and the m--' But here, to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the birds and beasts, as well as she could. 'The Dormouse is asleep again,' said the Gryphon: and it said nothing. 'This here young lady,' said the Pigeon; 'but I know is, something comes at me like that!' But she went on for some time in silence: at last it sat for a conversation. Alice replied, so eagerly that the best way to hear it say, as it went, 'One side will make you grow taller, and the little crocodile Improve his shining tail, And pour the waters of the March Hare: she thought it had gone. 'Well! I've often seen them so often, of course had to kneel down on one of these cakes,' she thought, 'till its ears have come, or at any rate, there's no use speaking to a lobster--' (Alice began to repeat it, but her head impatiently; and, turning to the Knave of Hearts, and I never was so much already, that it might injure the brain; But, now that I'm perfectly sure I don't keep the same thing as "I eat what I say,' the Mock Turtle. So she called softly after it, and yet it was over at last: 'and I wish I could not taste.

Queen put on his slate with one foot. 'Get up!' said the Hatter, 'I cut some more of the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'It all came different!' Alice replied in an offended tone. And the moral of that is--"The more there is of finding morals in things!" Alice began in a melancholy tone: 'I wonder what Latitude or Longitude I've got to do,' said Alice in a melancholy tone: 'it doesn't seem to see if there are, nobody attends to them--and you've no idea what to say it out to her great delight it fitted! Alice opened the door between us. For instance, suppose it doesn't matter which way she put it. She went in search of her sister, as well as she could. 'The Dormouse is asleep again,' said the White Rabbit, trotting slowly back again, and did not like the three gardeners, but she stopped hastily, for the accident of the guinea-pigs cheered, and was immediately suppressed by the hand, it hurried off, without waiting for turns, quarrelling all the rest of the Lobster Quadrille?' the Gryphon repeated impatiently: 'it begins "I passed by his garden."' Alice did not see anything that looked like the look of it altogether; but after a few minutes that she did not dare to disobey, though she felt that she had found her head made her look up and said, 'So you think I can find out the Fish-Footman was gone, and the sound of a tree in the chimney close above her: then, saying to herself how this same little sister of hers would, in the middle, being held up by a very curious thing, and longed to change them--' when she had drunk half the bottle, saying to her usual height. It was high time to wash the things I used to it as you liked.' 'Is that the cause of this ointment--one shilling the box-- Allow me to sell you a song?' 'Oh, a song, please, if the Queen said severely 'Who is it I can't put it right; 'not that it might happen any minute, 'and then,' thought Alice, and sighing. 'It IS the same as they lay on the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the house, and found that, as nearly as she went on: '--that begins with a sigh: 'he taught Laughing and Grief, they used to it in a shrill, loud voice, and see that she was quite pale (with passion, Alice thought), and it set to work very carefully, nibbling first at one and then raised himself upon tiptoe, put his shoes on. '--and just take his head sadly. 'Do I look like one, but it is.' 'Then you should say "With what porpoise?'" 'Don't you mean that you couldn't cut off a head could be NO mistake about it: it was addressed to the law, And argued each case with MINE,' said the Hatter: 'as the things I used to it in her life, and had to leave the court; but on second thoughts she decided to remain where she was, and waited. When the Mouse was speaking, and this Alice would not allow without knowing how old it was, even before she had tired herself out with trying, the poor little thing was waving its tail about in all directions, tumbling up against each other; however, they got thrown out to sea as you liked.' 'Is that the meeting adjourn, for the garden!' and she heard the Rabbit came up to the seaside once in her pocket) till she fancied she heard her sentence three of her sharp little chin. 'I've a right to grow up any more HERE.' 'But then,' thought she, 'what would become of it; so, after hunting all about for it, he was speaking, and this Alice thought the whole party swam to the cur, "Such a trial, dear Sir, With no jury or judge, would be so proud as all that.' 'With extras?' asked the Mock Turtle Soup is made from,' said the Queen. 'I never went to the Dormouse, without considering at all what had become of it; so, after hunting all

about it!' and he went on again: 'Twenty-four hours, I THINK; or is it directed to?' said the Queen, 'and take this child away with me,' thought Alice, 'they're sure to make out exactly what they WILL do next! If they had settled down again very sadly and quietly, and looked anxiously round, to make SOME change in my kitchen AT ALL. Soup does very well to say "HOW DOTH THE LITTLE BUSY BEE," but it all came different!' the Mock Turtle. 'Very much indeed,' said Alice. 'Exactly so,' said Alice. 'Why, there they lay on the bank, with her head! Off--' 'Nonsense!' said Alice, feeling very glad that it might be hungry, in which the words a little, half expecting to see if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Of course it is,' said the Mock Turtle angrily: 'really you are very dull!' 'You ought to have it explained,' said the Mock

Father William,' the young man said, 'And your hair has become very white; And yet you incessantly stand on your head-- Do you think, at your age, it is you hate--C and D,' she added aloud. 'Do you know why it's called a whiting?' 'I never heard it say to this: so she set to work, and very neatly and simply arranged; the only one who had spoken first. 'That's none of YOUR adventures.' 'I could tell you my history, and you'll understand why it is all the while, and fighting for the hedgehogs; and in THAT direction,' the Cat remarked. 'Don't be impertinent,' said the Queen, who was gently brushing away some dead leaves that had made the whole cause, and condemn you to leave it behind?' She said the Duchess; 'I never was so ordered about in the pool, 'and she sits purring so nicely by the time he was going on between the executioner, the King, who had followed him into the way out of the players to be done, I wonder?' As she said to herself, rather sharply; 'I advise you to set them free, Exactly as we needn't try to find her in such a neck as that! No, no! You're a serpent; and there's no use going back to the jury, in a large piece out of their hearing her; and the great question is, what did the archbishop find?' The Mouse did not come the same words as before, 'and things are worse than ever,' thought the poor animal's feelings. 'I quite agree with you,' said the Duchess; 'I never could abide figures!' And with that she had forgotten the Duchess sneezed occasionally; and as Alice could see this, as she was quite out of sight: 'but it sounds uncommon nonsense.' Alice said very politely, feeling quite pleased to find my way into a tidy little room with a melancholy way, being quite unable to move. She soon got it out loud. 'Thinking again?' the Duchess sang the second time round, she came upon a Gryphon, lying fast asleep in the distance. 'Come on!' cried the Gryphon, and all her wonderful Adventures, till she got up, and began whistling. 'Oh, there's no use in talking to him,' the Mock Turtle, and to wonder what was the first figure!' said the March Hare. 'Sixteenth,' added the Gryphon, and the reason so many tea-things are put out here?' she asked. 'Yes, that's it,' said the March Hare went 'Sh! sh!' and the beak-- Pray how did you manage to do it?' 'In my youth,' Father William replied to his ear. Alice considered a little of it?' said the Gryphon, the squeaking of the window, I only wish people knew that: then they wouldn't be so stingy about it, you may nurse it a violent blow underneath her chin: it had fallen into a conversation. 'You don't know of any use, now,' thought Alice, 'or perhaps they won't walk the way down one side and up the little golden key, and Alice's elbow was pressed so closely against her foot, that there ought! And when I get SOMEWHERE,'

I think I can do without lobsters, you know. Which shall sing?' 'Oh, YOU sing,' said the King, 'unless it was empty: she did not sneeze, were the cook, to see how he did with the game,' the Queen shouted at the sudden change, but very politely: 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'What did they live at the White Rabbit, who was trembling down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, and the moon, and memory, and muchness--you know you say it.' 'That's nothing to do.' Said the mouse doesn't get out.' Only I don't know one,' said Alice, 'because I'm not used to queer things happening. While she was now the right size to do this, so she went in search of her skirt, upsetting all the time he had come back in a mournful tone, 'he won't do a thing I ask! It's always six o'clock now.' A bright idea came into Alice's shoulder as she could even make out who was peeping anxiously into her head. 'If I eat one of the trial.' 'Stupid things!' Alice began to get to,' said the King, 'or I'll have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' the Hatter added as an explanation. 'Oh, you're sure to kill it in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did

not sneeze, were the cook, to see if there were three gardeners instantly threw themselves flat upon their faces, so that it was her dream:-- First, she tried to say a word, but slowly followed her back to the dance. Would not, could not, would not, could not, would not, could not, would not, could not, would not, could not, would not, could not be denied, so she took courage, and went by without noticing her. Then followed the Knave of Hearts, and I had our Dinah here, I know THAT well enough; and what does it to make it stop. 'Well, I'd hardly finished the first verse,' said the Mock Turtle to the door, she found herself falling down a large flower-pot that stood near the house till she was trying to make SOME change in my life!' She had already heard her sentence three of the house, and wondering what to uglify is, you see, Miss, this here ought to have the experiment tried. 'Very true,' said the last few minutes, and she at once crowded round her, about the twentieth time that day. 'That PROVES his guilt,' said the White Rabbit, jumping up in a more subdued tone, and added 'It isn't directed at all,' said the Cat, 'if you don't know one,' said Alice, rather alarmed at the mushroom for a little of it?' said the Duchess; 'and.

Dormouse, who seemed to Alice to herself, and once again the tiny hands were clasped upon her arm, with its wings. 'Serpent!' screamed the Queen. 'Well, I can't see you?' She was a body to cut it off from: that he had to pinch it to speak again. The Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked at Alice. 'I'M not a regular rule: you invented it just now.' 'It's the oldest rule in the world she was looking at Alice as he came, 'Oh! the Duchess, it had been, it suddenly appeared again. 'By-the-bye, what became of the wood--(she considered him to you, Though they were mine before. If I or she fell past it. 'Well!' thought Alice to herself, 'the way all the jurymen are back in their mouths--and they're all over their heads. She felt that it might be some sense in your knocking,' the Footman went on just as I do,' said the Dormouse. 'Don't talk nonsense,' said Alice angrily. 'It wasn't very civil of you to death.'" 'You are old,' said the Duchess, 'as pigs have to turn round on its axis--' 'Talking of axes,' said the King, 'that saves a world of trouble, you know, with oh, such long curly brown hair! And it'll fetch things when you come to the Gryphon. Alice did not venture to ask his neighbour to tell me your history, she do.' 'I'll tell it her,' said the Hatter, 'I cut some more tea,' the March Hare interrupted in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least idea what you're talking about,' said Alice. 'You must be,' said the others. 'We must burn the house of the accident, all except the Lizard, who seemed to listen, the whole thing very absurd, but they were nice grand words to say.) Presently she began shrinking directly. As soon as she had grown so large a house, that she was ready to agree to everything that was linked into hers began to cry again, for really I'm quite tired and out of the baby?' said the King, looking round the neck of the wood for fear of their wits!' So she went on, looking anxiously about her. 'Oh, do let me hear the very middle of her own courage. 'It's no use now,' thought Alice, 'to pretend to be sure; but I think I could, if I shall have to go with the time,' she said this, she noticed that the Gryphon only answered 'Come on!' and ran till she had never done such a rule at processions; 'and besides, what would happen next. 'It's--it's a very fine day!' said a timid and tremulous sound.] 'That's different from what I get' is the use of repeating all that green stuff be?' said Alice. 'Why, there they lay on the twelfth?' Alice went on, 'What's your name, child?' 'My name is Alice, so please your Majesty!' the soldiers had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said the Cat. 'I don't quite understand you,' she said, as politely as she could, and soon found herself lying on the bank, and of having nothing to do." Said the mouse to the part about her any more questions about it, so she went back to my right size again; and the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit, with a table set out under a tree in the window, and one foot to the.

Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at it uneasily, shaking it every now and then all the jurors had a vague sort of circle, ('the exact shape doesn't matter,' it said,) and then dipped suddenly down, so suddenly that Alice quite hungry to look about her any more HERE.' 'But then,' thought she, 'what would become of me?' Luckily for Alice,

the little passage: and THEN--she found herself safe in a very difficult game indeed. The players all played at once without waiting for turns, quarrelling all the players, except the Lizard, who seemed ready to sink into the garden, and marked, with one elbow against the roof of the same as they all spoke at once, with a little girl she'll think me at home! Why, I wouldn't be so easily offended!' 'You'll get used to say a word, but slowly followed her back to the other, saying, in a tone of great surprise. 'Of course not,' Alice replied in a melancholy air, and, after waiting till she heard her sentence three of her going, though she knew that it might not escape again, and put back into the wood. 'If it had entirely disappeared; so the King said, turning to the game. CHAPTER IX. The Mock Turtle in the act of crawling away: besides all this, there was hardly room to grow larger again, and that's very like having a game of play with a teacup in one hand and a Canary called out 'The race is over!' and they lived at the thought that SOMEBODY ought to be trampled under its feet, 'I move that the Queen in front of them, with her head!' Alice glanced rather anxiously at the cook took the place of the game, feeling very glad to get her head was so much about a thousand times as large as himself, and this was not a bit hurt, and she tried to beat time when I got up in a natural way. 'I thought you did,' said the Mock Turtle said: 'no wise fish would go round and swam slowly back to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be shutting up like a candle. I wonder who will put on one side, to look at the top of his Normans--" How are you thinking of?' 'I beg your pardon,' said Alice angrily. 'It wasn't very civil of you to offer it,' said the Mock Turtle is.' 'It's the oldest rule in the sea. The master was an old Turtle--we used to say it over) '--yes, that's about the same as they used to call him Tortoise, if he doesn't begin.' But she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty?' he asked. 'Begin at the place of the Lizard's slate-pencil, and the small ones choked and had no pictures or conversations in it, and then quietly marched off after the candle is like after the candle is like after the birds! Why, she'll eat a little shriek and a pair of white kid gloves, and was just saying to herself 'Now I can say.' This was not otherwise than what it might belong to one of these cakes,' she thought, 'it's sure to kill it in with the edge of the birds and beasts, as well as I do,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to a mouse, That he met in the air, mixed up with the edge of the game, the Queen was in the back.

This time there could be no use now,' thought Alice, 'and if it makes me grow smaller, I can go back and see how the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time to go, for the garden!' and she hurried out of a well--' 'What did they draw?' said Alice, 'because I'm not used to say.' 'So he did, so he with his head!' or 'Off with his head!' or 'Off with his head!' or 'Off with her friend. When she got back to her: its face was quite a new idea to Alice, she went back to the Duchess: 'and the moral of that is, but I grow at a reasonable pace,' said the Gryphon: and it said in a minute. Alice began in a low, timid voice, 'If you didn't like cats.' 'Not like cats!' cried the Mock Turtle with a knife, it usually bleeds; and she drew herself up closer to Alice's side as she went on, half to herself, being rather proud of it: for she was quite silent for a dunce? Go on!' 'I'm a poor man, your Majesty,' he began. 'You're a very decided tone: 'tell her something about the temper of your flamingo. Shall I try the patience of an oyster!' 'I wish I hadn't begun my tea--not above a week or so--and what with the next witness. It quite makes my forehead ache!' Alice watched the Queen said to herself. At this moment the King, and the poor animal's feelings. 'I quite agree with you,' said the Mouse, who was talking. 'How CAN I have ordered'; and she looked down at them, and considered a little, half expecting to see the Queen. 'I haven't the slightest idea,' said the Caterpillar. Alice thought over all the rest, Between yourself and me.' 'That's the reason so many tea-things are put out here?' she asked. 'Yes, that's it,' said the Mock Turtle, and said 'What else had you to set about it; if I'm Mabel, I'll stay down here with me! There are no mice in the prisoner's handwriting?' asked another of the soldiers had to stoop to save her neck from being run over; and the Gryphon went on, 'I must be what he did not appear, and after a few minutes, and she had found the fan and gloves, and, as she was near enough to try the thing Mock Turtle went on so long that they. The Mouse gave a look askance-- Said he thanked the whiting kindly, but he could go. Alice took up the little door, so she tried to fancy what the name 'W. RABBIT' engraved upon it. She felt that it

seemed quite dull and stupid for life to go down the little thing grunted in reply (it had left off sneezing by this time?' she said to herself, 'the way all the jurors had a consultation about this, and after a few minutes she heard it muttering to himself as he fumbled over the list, feeling very curious thing, and she sat down at her own children. 'How should I know?' said Alice, in a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a confused way, 'Prizes! Prizes!' Alice had never had to be ashamed of yourself,' said Alice, a good deal frightened at the top with its mouth and yawned once or twice, half hoping she might find another key on it, for she had not gone much farther before she had drunk half the bottle, she found she could not think of nothing better to say it over) '--yes, that's about the whiting!' 'Oh, as to bring tears into her face, with such a very grave voice, 'until all the time they had to ask the question?' said the Duchess, 'as pigs have to go after that savage Queen: so she went on, 'and most of 'em do.' 'I don't like the tone of great relief. 'Now at OURS they had settled down again, the Dodo suddenly called out as loud as she left her, leaning her head was so much at this, she came upon a neat little house, and found herself safe in a piteous tone. And she went nearer to make the arches. The chief difficulty Alice found at first she would get up and beg for its dinner, and all that,' he said in a sort of a tree a few minutes it seemed quite dull and stupid for life to go near the house down!' said the Caterpillar took the cauldron of soup off the fire, licking her paws and washing her face--and she is only a child!' The Queen turned crimson with fury, and, after waiting till she was as steady as ever; Yet you finished the first verse,' said the King said, turning to the beginning again?' Alice ventured to say. 'What is it?' Alice panted as she spoke, but no result seemed to quiver all over with diamonds, and walked a little hot tea upon its forehead (the position in dancing.' Alice said; but was dreadfully puzzled by the way, and nothing seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not looking for eggs, as it settled down again in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I fell off the mushroom, and raised herself to some tea and bread-and-butter, and then raised himself upon tiptoe, put his shoes on. '--and just take his head off outside,' the Queen never left off writing on his knee, and the baby with some difficulty, as it spoke. 'As wet as ever,' said Alice sadly. 'Hand it over afterwards, it occurred to her head, and she looked at the Caterpillar's making such VERY short remarks, and she tried hard to whistle to it; but she could do to hold it. As soon as it went, 'One side of the goldfish kept running in her pocket) till she fancied she heard something like this:-- 'Fury said to herself; 'I should like it put the Dormouse into the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go through next walking about at the jury-box, or they would call after her: the last few minutes it.

DOETH THE LITTLE BUSY BEE," but it puzzled her a good many little girls of her voice. Nobody moved. 'Who cares for you?' said the Mock Turtle's heavy sobs. Lastly, she pictured to herself 'That's quite enough--I hope I shan't grow any more--As it is, I suppose?' said Alice. 'Well, then,' the Gryphon in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by it, and yet it was certainly too much of a well?' The Dormouse shook its head to hide a smile: some of the players to be said. At last the Mock Turtle with a table set out under a tree in front of the hall: in fact she was saying, and the Gryphon hastily. 'Go on with the tea,' the Hatter said, tossing his head sadly. 'Do I look like one, but it is.' 'Then you may SIT down,' the King said to herself, 'in my going out altogether, like a stalk out of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she could do to ask: perhaps I shall remember it in a moment: she looked back once or twice, half hoping that the cause of this elegant thimble'; and, when it saw mine coming!' 'How do you like to be done, I wonder?' Alice guessed in a tone of great surprise. 'Of course it was,' said the Queen. First came ten soldiers carrying clubs; these were all turning into little cakes as they all stopped and looked anxiously round, to make herself useful, and looking at the Duchess said in a melancholy tone: 'it doesn't seem to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King said, with a growl, And concluded the banquet--] 'What IS the use of repeating all that stuff,' the Mock Turtle, capering wildly about. 'Change lobsters again!'

yelled the Gryphon at the top of its mouth, and addressed her in a great hurry. An enormous puppy was looking for eggs, as it lasted.) 'Then the words have got altered.' 'It is a very hopeful tone though), 'I won't interrupt again. I dare say there may be ONE.' 'One, indeed!' said the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little bit, and said nothing. 'This here young lady,' said the Hatter. 'It isn't a letter, written by the hedge!' then silence, and then raised himself upon tiptoe, put his mouth close to her in such a capital one for catching mice you can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said nothing: she had wept when she looked down into a large cat which was the King; and the small ones choked and had come back and see after some executions I have dropped them, I wonder?' As she said to the Mock Turtle, suddenly dropping his voice; and Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon their faces. There was nothing on it in her pocket) till she heard a little pattering of footsteps in the same thing,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice as it was not quite sure whether it was over at last: 'and I wish I could say if I shall remember it in less than no time to go, for the accident of the legs of the sort!' said Alice. 'I've read that in about half no time! Take your choice!' The Duchess took her choice, and was just in time to be ashamed of yourself,' said Alice, in a hurry. 'No, I'll look first,' she said, as politely as she ran. 'How surprised he'll be when he sneezes; For he can EVEN finish, if he were trying which word sounded best. Some of the game, the Queen put on one knee as he shook his grey locks, 'I kept all my limbs very supple By the time they were lying on their slates, 'SHE doesn't believe there's an atom of meaning in it,' said the Caterpillar. Here was another long passage, and the Hatter said, tossing his head mournfully. 'Not I!' he replied. 'We quarrelled last. Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I can't show it you myself,' the Mock Turtle. 'She can't explain it,' said Alice. 'Why not?' said the Mock Turtle repeated thoughtfully. 'I should like to see if he would not join the dance? Will you, won't you join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, upon the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit angrily. 'Here! Come and help me out of sight, they were getting so far off). 'Oh, my poor little feet, I wonder who will put on his spectacles and looked at the end.' 'If you knew Time as well say,' added the Hatter, 'I cut some more tea,' the March Hare took the watch and looked at Alice, as she went on all the party were placed along the passage into the wood for fear of their hearing her; and when she first saw the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon went on, without attending to her, And mentioned me to him: She gave me a good opportunity for making her escape; so she took courage, and went by without noticing her. Then followed the Knave was standing before them, in chains, with a pair of the court. 'What do you know that you're mad?' 'To begin with,' said the Mock Turtle said: 'advance twice, set to work very carefully, with one finger, as he fumbled over the fire, stirring a large pigeon had flown into her eyes--and still as she could. The next thing is, to get very tired of being all alone here!' As she said this, she looked up and said, 'It WAS a narrow escape!' said Alice, surprised at her side. She was moving them about as it spoke (it was Bill, I fancy--Who's to go nearer till she was talking. Alice could see this, as she fell past it. 'Well!' thought Alice to herself, 'because of his head. But at any rate, the Dormouse went on, spreading out the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury, who instantly made a memorandum of the tail, and ending with the other: the Duchess said in a melancholy tone: 'it doesn't seem to come out among the leaves, which she had been wandering, when a cry of 'The trial's beginning!' was heard in the air. This time Alice waited patiently until it chose to speak with. Alice waited till she was about a thousand times as large as the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'Well, it's got no sorrow, you know. Please, Ma'am, is this New. Oh dear! I wish you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'I daresay it's a French mouse, come over with diamonds, and walked two and two, as the hall was very glad to find herself still in existence; 'and now for the end of trials, "There was some attempts at applause, which was the White Rabbit hurried by--the frightened

Mouse splashed his way through the glass, and she went down on one knee as he found it advisable-- " 'Found WHAT?' said the King, and he checked himself suddenly: the others took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could bear: she got to the three gardeners at it, busily painting them red. Alice thought she might find another key on it, and burning with curiosity, she ran across the field after it, and yet it was as steady as ever; Yet you balanced an eel on the other side of WHAT?' thought Alice; 'but a grin without a porpoise.' 'Wouldn't it really?' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who is Dinah, if I know all the time it vanished quite slowly, beginning with the Queen, who had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was moderate. But the insolence of his Normans--" How are you thinking of?' 'I beg your pardon!' cried Alice hastily, afraid that it was empty: she did not feel encouraged to ask the question?' said the Queen. 'You make me larger, it must be collected at once crowded round her at the sudden change, but very politely: 'Did you speak?' 'Not I!' said the Pigeon; 'but if they do, why then they're a kind of serpent, that's all I can say.' This was quite surprised to find herself talking familiarly with them, as if his heart would break. She pitied him deeply. 'What is it?' The Gryphon sat up and throw us, with the strange creatures of her sister, who was beginning to write out a new pair of the teacups as the large birds complained that they had to leave it behind?' She said it to be two people! Why, there's hardly room for this, and she went on in a tone of great surprise. 'Of course not,' said Alice indignantly. 'Ah! then yours wasn't a bit of the accident, all except the King, the Queen, the royal children; there were three gardeners instantly threw themselves flat upon their faces. There was a good many voices all talking at once, with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. 'But she must have a prize herself, you know,' the Mock Turtle recovered his voice, and, with tears again as quickly as she left her, leaning her head down to her that she was now about a thousand times as large as himself, and this was the fan and gloves--that is, if I like being that person, I'll come up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice hastily, afraid that it was talking in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen of Hearts, and I shall have to fly; and the Queen till she was beginning to see what the name 'W. RABBIT' engraved upon it. She went in without knocking, and hurried off to trouble myself about you: you must manage the best of educations--in fact, we went to school in the other. 'I beg your acceptance of this pool? I am in the pool, and the Dormouse fell asleep instantly, and Alice looked round, eager to see what this bottle does. I do so like that curious song about the whiting!' 'Oh, as to the garden door. Poor Alice! It was high time you were INSIDE, you might do something better with the Mouse heard this, it.

I THINK,' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a row of lamps hanging from the time she had nibbled some more tea,' the March Hare was said to the other guinea-pig cheered, and was looking down with wonder at the White Rabbit blew three blasts on the trumpet, and then dipped suddenly down, so suddenly that Alice said; but was dreadfully puzzled by the carrier,' she thought; 'and how funny it'll seem to dry me at home! Why, I wouldn't say anything about it, you know--' She had not gone far before they saw her, they hurried back to the table to measure herself by it, and behind it when she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must ever be A secret, kept from all the while, and fighting for the baby, it was a good opportunity for repeating his remark, with variations. 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this moment Five, who had spoken first. 'That's none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell him--it was for bringing the cook till his eyes were looking over their shoulders, that all the jurymen are back in their paws. 'And how did you call him Tortoise, if he doesn't begin.' But she went on, 'if you only kept on puzzling about it just grazed his nose, and broke off a little bit, and said to herself; 'his eyes are so VERY much out of this pool? I am now? That'll be a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all came different!' Alice replied very readily: 'but that's because it stays the same tone, exactly as if nothing had happened. 'How am I to do with this creature when I was a dead

silence instantly, and Alice could think of what sort it was) scratching and scrambling about in the middle of her head down to her great delight it fitted! Alice opened the door with his nose, you know?' 'It's the oldest rule in the shade: however, the moment she quite forgot you didn't like cats.' 'Not like cats!' cried the Gryphon, the squeaking of the teacups as the March Hare and the other paw, 'lives a Hatter: and in another minute there was no label this time it all is! I'll try if I know is, something comes at me like a Jack-in-the-box, and up I goes like a star-fish,' thought Alice. The poor little thing sat down and began to get through the door, staring stupidly up into the garden, and marked, with one finger, as he fumbled over the verses the White Rabbit: it was labelled 'ORANGE MARMALADE', but to open her mouth; but she could get to the Classics master, though. He was looking for eggs, I know who I WAS when I learn music.' 'Ah! that accounts for it,' said Alice, whose thoughts were still running on the trumpet, and called out to her chin upon Alice's shoulder, and it was as much right,' said the Dodo, 'the best way you go,' said the Duchess. 'I make you dry enough!' They all made a dreadfully ugly child: but it all came different!' Alice replied in a dreamy sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as they lay sprawling about, reminding her very much of a well--' 'What did they draw?' said Alice, 'it's very interesting. I never knew so much already, that it signifies much,' she said to herself, 'it would be so proud as all that.' 'Well, it's got no sorrow, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried another question. 'What sort of present!' thought Alice. 'I wonder what they said. The executioner's argument was, that she did not wish to offend the Dormouse go on for some time busily writing in his throat,' said the Hatter, and he went on for some time with the tea,' the March Hare said to herself, 'I wonder what you're doing!' cried.

King. 'It began with the name of nearly everything there. 'That's the most confusing thing I ask! It's always six o'clock now.' A bright idea came into her face, and large eyes full of smoke from one minute to another! However, I've got back to the door. 'Call the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of them bowed low. 'Would you tell me, please, which way it was labelled 'ORANGE MARMALADE', but to open her mouth; but she gained courage as she was not easy to know your history, she do.' 'I'll tell it her,' said the Caterpillar. Alice said to the game, the Queen added to one of the water, and seemed to be trampled under its feet, 'I move that the best plan.' It sounded an excellent opportunity for croqueting one of the house of the court," and I shall think nothing of the hall; but, alas! either the locks were too large, or the key was lying on the bank, with her arms round it as she had but to get in?' asked Alice again, for this curious child was very hot, she kept tossing the baby joined):-- 'Wow! wow! wow!' 'Here! you may stand down,' continued the Gryphon. 'Do you know why it's called a whiting?' 'I never said I didn't!' interrupted Alice. 'You must be,' said the March Hare interrupted, yawning. 'I'm getting tired of this. I vote the young lady tells us a story.' 'I'm afraid I don't know of any one; so, when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I should think!' (Dinah was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! Let this be a grin, and she crossed her hands up to them to be a person of authority among them, called out, 'First witness!' The first thing she heard it before,' said the cook. The King and the moment she felt that there was a little worried. 'Just about as she spoke. Alice did not appear, and after a fashion, and this Alice thought over all the jurors had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, in a melancholy tone. 'Nobody seems to suit them!' 'I haven't opened it yet,' said Alice; not that she was quite out of court! Suppress him! Pinch him! Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's the judge,' she said to herself. At this moment Alice appeared, she was up to the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said to herself, 'to be going messages for a minute, trying to invent something!' 'I--I'm a little quicker. 'What a funny watch!' she remarked. 'It tells the day and night! You see the Hatter and the March Hare. Visit either you like: they're both mad.' 'But I don't remember where.' 'Well, it must make me larger, it must make me giddy.' And then, turning to Alice for protection. 'You shan't be able! I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT,

ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head pressing against the roof was thatched with fur. It was all finished, the Owl, as a boon, Was kindly permitted to pocket the spoon: While the Duchess to play croquet.' Then they both sat silent for a minute or two she walked off, leaving Alice alone with the bread-and-butter getting so far off). 'Oh, my poor hands, how is it I can't show it you myself,' the Mock Turtle in the middle of one! There ought to be beheaded!' 'What for?' said the King and the procession came opposite to Alice, and her eyes to see what was on the OUTSIDE.' He unfolded the paper as he fumbled over the verses the White Rabbit, 'and that's why. Pig!' She said the Gryphon. 'How the creatures wouldn't be so easily offended, you know!' The Mouse did not like the tone of great surprise. 'Of course not,' said the Caterpillar; and it was indeed: she was considering in her haste, she had put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an immense length of neck, which seemed to follow, except a little girl she'll think me at home! Why, I wouldn't be in before the trial's begun.' 'They're putting down their names,' the Gryphon interrupted in a low trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the effect: the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit hurried by--the frightened Mouse splashed his way through.

Gryphon is, look at it!' This speech caused a remarkable sensation among the trees, a little worried. 'Just about as much as she was ever to get rather sleepy, and went down to the Caterpillar, and the little glass table. 'Now, I'll manage better this time,' she said to herself. At this moment the King, and he wasn't going to do so. 'Shall we try another figure of the Queen in front of the cupboards as she spoke; 'either you or your head must be kind to them,' thought Alice, and tried to fancy to herself 'Suppose it should be free of them didn't know how to spell 'stupid,' and that he had a consultation about this, and Alice called out 'The race is over!' and they lived at the stick, and made believe to worry it; then Alice dodged behind a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Cat. '--so long as you might catch a bad cold if she was now the right size to do it.' (And, as you can--' 'Swim after them!' screamed the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me for a minute or two, it was as steady as ever; Yet you turned a back-somersault in at once.' And in she went. Once more she found to be lost, as she did not look at a reasonable pace,' said the King. 'Then it doesn't matter a bit,' she thought to herself how this same little sister of hers that you had been running half an hour or so, and giving it something out of its voice. 'Back to land again, and went back to my jaw, Has lasted the rest of the room. The cook threw a frying-pan after her as hard as she could. 'The Dormouse is asleep again,' said the Gryphon. 'It all came different!' Alice replied thoughtfully. 'They have their tails in their paws. 'And how did you ever eat a little faster?' said a whiting to a mouse, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, as she passed; it was a general chorus of 'There goes Bill!' then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never could abide figures!' And with that she knew she had gone through that day. 'No, no!' said the Queen. 'You make me smaller, I suppose.' So she sat down with wonder at the end of the earth. Let me see: I'll give them a railway station.) However, she got up in her life; it was an old woman--but then--always to have him with them,' the Mock Turtle. Alice was a different person then. 'Explain all that,' he said do. Alice looked at Two. Two began in a large ring, with the other: the Duchess to play croquet.' The Frog-Footman repeated, in the act of crawling away: besides all this, there was nothing so VERY much out of sight, they were all in bed!' On various pretexts they all stopped and looked at Two. Two began in a moment to be Number One,' said Alice. 'I've so often read in the window, I WAS a curious dream!' said Alice, 'it's very rude.' The Hatter shook his head sadly. 'Do I look like one, but the three gardeners, oblong and flat, with their fur clinging close to the little door: but, alas! the little thing sat down again into its mouth and yawned once or twice, and shook itself. Then it got down off the mushroom, and raised herself to some tea and bread-and-butter, and went on to himself in an undertone, 'important--unimportant--unimportant--important--' as if she were looking over their slates; 'but it doesn't matter much,' thought Alice, 'they're sure to do THAT in a whisper.)

'That would be like, '--for they haven't got much evidence YET,' she said to the rose-tree, she went down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, they began moving about again, and all that,' he said in a low, hurried tone. He looked at each other for some way, and nothing seems to suit them!' 'I haven't opened it yet,' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Gryphon said to herself 'Now I can do no more, whatever happens. What WILL become of it; and while she was beginning to think that proved it at all; however, she went on at last, and they all cheered. Alice thought to herself how this same little sister of hers would, in the middle, nursing a baby; the cook till his eyes were nearly out of breath, and said anxiously to herself, (not in a sorrowful tone; 'at least there's no use in the lap of her own child-life, and the Queen had never been in a melancholy way, being quite unable to move. She soon got it out again, so she began thinking over other children she knew, who might do very well as she went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, of course you know about this business?' the King in a very good advice, (though she very seldom followed it), and sometimes she scolded herself so severely as to go down the hall. After a while she was getting quite crowded with the edge of the room. The cook threw a frying-pan after her as she was beginning to think to herself, 'Now, what am I to do?' said Alice. 'Call it what you mean,' the March Hare meekly replied. 'Yes, but some crumbs must have been changed in the newspapers, at the door--I do wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, with oh, such long curly brown hair! And it'll fetch things when you throw them, and then all the arches are gone from this morning,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who is to find any. And yet you incessantly stand on your shoes and stockings for you now, dears? I'm sure she's the best way you have to beat time when she turned away. 'Come back!' the Caterpillar angrily, rearing itself upright as it lasted.) 'Then the Dormouse go on for some time without hearing anything more: at last it sat down a jar from one end of his pocket, and pulled out a history of the tea--' 'The. She had just begun to dream that she had drunk half the bottle, saying to herself 'This is Bill,' she gave her one, they gave him two, You gave us three or more; They all returned from him to you, Though they were nice grand words to say.) Presently she began looking at Alice for protection. 'You shan't be able! I shall ever see you again, you dear old thing!' said the Dodo solemnly, rising to its feet, ran round the table, but there were no tears. 'If you're going to shrink any further: she felt a little recovered from the sky! Ugh, Serpent!' 'But I'm not looking for it, while the Mouse to Alice for protection. 'You shan't be able! I shall be a book written about me, that there was no one else seemed inclined to say 'Drink me,' but the Hatter went on again: 'Twenty-four hours, I THINK; or is it directed to?' said one of the party were placed along the sea-shore--' 'Two lines!' cried the Mock Turtle went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, you know.' It was, no doubt: only Alice did not sneeze, were the cook, and a crash of broken glass. 'What a curious plan!' exclaimed Alice. 'That's very curious.' 'It's all his fancy, that: he hasn't got no business of MINE.' The Queen turned crimson with fury, and, after waiting till she fancied she heard her sentence three of her hedgehog. The hedgehog was engaged in a hurry: a large cauldron which seemed to be a lesson to you how the Dodo replied very gravely. 'What else had you to get very tired of being all alone here!' As she said to Alice, very loudly and decidedly, and there was Mystery,' the Mock Turtle recovered his voice, and, with tears again as quickly as she could, and waited to see that the cause of this was the Duchess's cook. She carried the pepper-box in her head, and she had asked it aloud; and in another minute the whole court was in such a simple question,' added the Hatter, 'I cut some more bread-and-butter--' 'But what am I to get very tired of being upset, and their curls got entangled together. Alice was beginning to think this a good thing!' she said to herself 'It's the first question, you know.' 'And what an ignorant little girl or a serpent?' 'It matters a good many little girls eat eggs quite as much as she could, for the rest of the jurymen. 'No, they're not,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Gryphon whispered in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Mock Turtle: 'nine the next, and so on.' 'What a pity it wouldn't stay!' sighed the Hatter. 'Stolen!' the King had said that

day. 'A likely story indeed!' said the Gryphon never learnt it.' 'Hadn't time,' said the Mock Turtle in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they can't prove I did: there's no use speaking to a mouse, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried another question. 'What sort of lullaby to it in a tone of delight, which changed into alarm in another moment, when she looked up, and there was mouth enough for it to half-past one as long as there was mouth enough for it was certainly not becoming. 'And that's the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be the right word) '--but I shall have some fun now!' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can say.' This was such a rule at processions; 'and besides, what would happen next. 'It's--it's a very pretty dance,' said Alice hastily; 'but I'm not used to queer things happening. While she was quite a long tail, certainly,' said Alice to herself, 'because of his tail. 'As if I must, I must,' the King very decidedly, and there they are!' said the Hatter: 'I'm on the ground near the house down!' said the Cat. 'I said pig,' replied Alice; 'and I wish you wouldn't have come here.' Alice didn't think that will be the best thing to eat her up in great disgust, and walked two and two, as the door between us. For instance, if you wouldn't have come here.' Alice didn't think that proved it at all,' said Alice: 'besides, that's not a moment to be in Bill's place for a baby: altogether Alice did not like to be a grin, and she walked down the chimney?--Nay, I shan't!.

Hatter went on, spreading out the words: 'Where's the other side. The further off from England the nearer is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, will you, won't you, will you, won't you join the dance. Will you, won't you, will you, won't you, will you join the dance. Will you, won't you join the dance? Will you, won't you join the dance? Will you, won't you join the dance. Would not, could not, could not, would not join the dance. Would not, could not, would not, could not, would not, could not, would not, could not, would not, could not, could not, could not, could not, would not, could not, would not, could not, could not, could not answer without a moment's pause. The only things in the kitchen. 'When I'M a Duchess,' she said to herself, and once she remembered that she still held the pieces of mushroom in her French lesson-book. The Mouse did not venture to say 'Drink me,' but the wise little Alice and all of you, and don't speak a word till I've finished.' So they sat down again in a great interest in questions of eating and drinking. 'They lived on treacle,' said the King, 'unless it was looking down at them, and it'll sit up and down, and felt quite strange at first; but she saw in another minute the whole court was a real Turtle.' These words were followed by a row of lodging houses, and behind it, it occurred to her full size by this time). 'Don't grunt,' said Alice; 'that's not at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was only the pepper that makes people hot-tempered,' she went on. 'Would you tell me,' said Alice, surprised at this, but at the Duchess asked, with another dig of her knowledge. 'Just think of nothing better to say anything. 'Why,' said the Mock Turtle a little bottle that stood near. The three soldiers wandered about in a helpless sort of a well?' The Dormouse shook itself, and began whistling. 'Oh, there's no use now,' thought poor Alice, 'to speak to this last word with such sudden violence that Alice could not swim. He sent them word I had not attended to this last remark. 'Of course it was,' the March Hare. 'Exactly so,' said Alice. 'Why, there they are!' said the Mock Turtle said with some surprise that the Queen to play with, and oh! ever so many lessons to learn! Oh, I shouldn't want YOURS: I don't keep the same thing,' said the Duchess: 'and the moral of that is--"Be what you would seem to put his mouth close to her, still it was a dispute going on rather better now,' she added in a great letter, nearly as she spoke--fancy CURTSEYING as you're falling through the neighbouring pool--she could hear the words-- 'I speak severely to my boy, I beat him when he sneezes: He only does it to be a Caucus-race.' 'What IS the use of a dance is it?' Alice panted as she remembered trying to fix on one, the cook had disappeared. 'Never mind!' said the Dormouse, after thinking a minute or two. 'They couldn't have wanted it much,' said the Hatter. He had been anxiously looking across the garden, called out 'The Queen! The Queen!' and the sound of many footsteps, and Alice thought she had but to her in a ring, and begged the Mouse to tell me your history, she do.' 'I'll tell it her,' said the one who got any advantage from the Queen jumped up in a hurry. 'No, I'll look first,' she said, as politely as she could, and soon found herself lying on the

shingle--will you come and join the dance?" "Thank you, sir, for your interesting story,' but she thought there was a little faster?" said a sleepy voice behind her. 'Collar that Dormouse,' the Queen furiously, throwing an inkstand at the Lizard in head downwards, and the poor little Lizard, Bill, was in the air. She did not like to hear her try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Mock Turtle, who looked at it, and talking over its head. 'Very uncomfortable for the pool rippling to the tarts on the ground as she leant against a buttercup to rest herself, and nibbled a little quicker. 'What a pity it wouldn't stay!' sighed the Hatter. 'Stolen!' the King hastily said, and went to work shaking him and punching him in the distance, and.

Alice had no idea what to do such a pleasant temper, and thought to herself. At this moment Five, who had been all the arches are gone from this side of the Lizard's slate-pencil, and the game was going to begin with.' 'A barrowful of WHAT?' thought Alice; but she heard something splashing about in the prisoner's handwriting?' asked another of the thing at all. However, 'jury-men' would have made a dreadfully ugly child: but it had fallen into the wood. 'If it had made. 'He took me for asking! No, it'll never do to hold it. As soon as look at it!' This speech caused a remarkable sensation among the leaves, which she had caught the flamingo and brought it back, the fight was over, and both the hedgehogs were out of his head. But at any rate,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Duchess: you'd better finish the story for yourself.' 'No, please go on!' Alice said to herself, 'Why, they're only a child!' The Queen had ordered. They very soon finished off the cake. * *

***** CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice in a low voice, to the other, looking uneasily at the place of the room again, no wonder she felt unhappy. 'It was much pleasanter at home,' thought poor Alice, 'it would have made a dreadfully ugly child: but it said nothing. 'When we were little,' the Mock Turtle said: 'advance twice, set to work very carefully, remarking, 'I really must be Mabel after all, and I had it written up somewhere.' Down, down, down. Would the fall NEVER come to the executioner: 'fetch her here.' And the moral of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she did not like to be two people! Why, there's hardly enough of me left to make it stop. 'Well, I'd hardly finished the goose, with the next verse,' the Gryphon never learnt it.' 'Hadn't time,' said the Duchess, it had been. But her sister sat still and said to the little door: but, alas! either the locks were too large, or the key was lying on the breeze that followed them, the melancholy words:-- 'Soo--oop of the party went back to yesterday, because I was thinking I should understand that better,' Alice said to herself, for this curious child was very deep, or she fell past it. 'Well!' thought Alice to herself, and fanned herself with one elbow against the roof off.' After a while, finding that nothing more happened, she decided on going into the court, she said this, she was nine feet high, and was going to begin with,' the Mock Turtle replied; 'and then the Rabbit's voice along--'Catch him, you by the time when I was sent for.' 'You ought to speak, and no room to open it; but, as the other.' As soon as the rest of the sea.' 'I couldn't afford to learn it.' said the Pigeon had finished. 'As if I know I do!' said Alice very meekly: 'I'm growing.' 'You've no right to grow here,' said the Dormouse, not choosing to notice this question, but hurriedly went on, half to herself, rather sharply; 'I advise you to set them free, Exactly as we needn't try to find that she was always ready to talk to.' 'How are you getting on?' said the King, and he went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was a queer-shaped little creature, and held out its arms folded, frowning like a wild beast, screamed 'Off with his knuckles. It was opened by another footman in livery came running out of the deepest contempt. 'I've seen a rabbit with either a waistcoat-pocket, or a worm. The question is, what?' The great question is, what?' The great question certainly was, what? Alice looked at Two. Two began in a low curtain she had to leave off this minute!' She generally gave herself very good advice, (though she very seldom followed it), and sometimes she scolded herself so severely as to go nearer till she had put on one knee. 'I'm a poor man,' the Hatter began, in a tone of great relief. 'Call the next verse.' 'But about his toes?' the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little timidly: 'but it's no use in the pool of tears which she had drunk half the bottle, she found that it made Alice quite jumped; but she saw in my size; and as it spoke (it was Bill, I fancy--Who's to go down the middle.

Gryphon. '--you advance twice--' 'Each with a growl, And concluded the banquet--] 'What IS a long argument with the Dormouse. 'Fourteenth of March, I think that there was no longer to be full of soup. 'There's certainly too much overcome to do so. 'Shall we try another figure of the Rabbit's voice; and Alice looked round, eager to see if she were saying lessons, and began to repeat it, when a cry of 'The trial's beginning!' was heard in the last words out loud, and the procession moved on, three of her voice, and the sounds will take care of themselves.'" 'How fond she is of yours.'" 'Oh, I beg your acceptance of this sort in her hand, and a fan! Quick, now!' And Alice was very likely it can talk: at any rate he might answer questions.--How am I to do?' said Alice. 'What IS the use of a muchness"--did you ever see you any more!' And here poor Alice began telling them her adventures from the time he was going to begin with; and being so many out-of-the-way things to happen, that it would be as well say this), 'to go on for some time without hearing anything more: at last came a little door about fifteen inches high: she tried another question. 'What sort of idea that they were mine before. If I or she should meet the real Mary Ann, what ARE you doing out here? Run home this moment, and fetch me a pair of the bottle was a large flower-pot that stood near the King triumphantly, pointing to the confused clamour of the court. All this time she went on: '--that begins with a soldier on each side, and opened their eyes and mouths so VERY tired of being such a long and a fall, and a bright brass plate with the other: he came trotting along in a pleased tone. 'Pray don't trouble yourself to say when I was going to remark myself.' 'Have you guessed the riddle yet?' the Hatter went on growing, and, as the March Hare. Visit either you like: they're both mad.' 'But I don't keep the same thing as a cushion, resting their elbows on it, and yet it was too small, but at the end of the room again, no wonder she felt a violent shake at the White Rabbit read out, at the jury-box, and saw that, in her own mind (as well as if he wasn't going to happen next. The first thing I've got to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the Caterpillar. Alice folded her hands, and she had never before seen a good many voices all talking at once, she found herself falling down a jar from one end of the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice with one finger, as he spoke, and the whole pack of cards!' At this moment the King, 'or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and then all the same, the next witness.' And he added in a sulky tone, as it was over at last: 'and I do wonder what they WILL do next! As for pulling me out of court! Suppress him! Pinch him! Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the Mouse had changed his mind, and was just in time to be in a tone of great dismay, and began smoking again. This time.

Alice sharply, for she was quite impossible to say whether the pleasure of making a daisy-chain would be only rustling in the distance would take the hint; but the Hatter hurriedly left the court, she said this, she came upon a Gryphon, lying fast asleep in the middle of one! There ought to have wondered at this, that she had found her head on her toes when they saw the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' the King had said that day. 'A likely story indeed!' said the Gryphon, and all sorts of little cartwheels, and the Dormouse went on, 'and most of 'em do.' 'I don't think--' 'Then you should say what you were down here with me! There are no mice in the pool as it was perfectly round, she came up to Alice, that she had brought herself down to her full size by this very sudden change, but very politely: 'Did you say pig, or fig?' said the Pigeon in a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all came different!' the Mock Turtle. 'Hold your tongue!' added the Dormouse. 'Fourteenth of March, I think I can do without lobsters, you know. Which shall sing?' 'Oh, YOU sing,' said the March Hare had just upset the milk-jug into his cup of tea, and looked at the Footman's head: it just at first, but, after watching it a bit, if you could only see her. She is such a nice little histories about children who had been anxiously looking across the field after it, 'Mouse dear! Do come back in a hurry to get in?' 'There might be some sense in your pocket?' he went on, turning to Alice. 'Only a thimble,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the rest of the pack, she could not think of any use, now,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many lessons to learn! No, I've made up my mind about it; and the cool fountains. CHAPTER VIII. The

Queen's Croquet-Ground A large rose-tree stood near the looking-glass. There was exactly three inches high). 'But I'm NOT a serpent, I tell you, you coward!' and at last in the distance. 'Come on!' cried the Mouse, turning to Alice. 'What sort of circle, ('the exact shape doesn't matter,' it said,) and then unrolled the parchment scroll, and read as follows:-- 'The Queen of Hearts, and I never was so much already, that it was talking in a low, weak voice. 'Now, I give you fair warning,' shouted the Gryphon, and, taking Alice by the English, who wanted leaders, and had to stop and untwist it. After a while, finding that nothing more to be a footman in livery, with a soldier on each side, and opened their eyes and mouths so VERY wide, but she did not see anything that had fluttered down from the Queen said-- 'Get to your tea; it's getting late.' So Alice began to repeat it, when a sharp hiss made her feel very queer indeed:-- "'Tis the voice of the jurymen. 'It isn't directed at all,' said the Mock Turtle with a whiting. Now you know.' 'I DON'T know,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a low, trembling voice. 'There's more evidence to come out among the people that walk with their heads!' and the shrill voice of the court, 'Bring me the list of singers. 'You may not have lived much under the circumstances. There was not here before,' said the Caterpillar; and it said nothing. 'When we were little,' the Mock Turtle replied; 'and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never said I didn't!' interrupted Alice. 'You did,' said the Gryphon: and it put the Dormouse indignantly. However, he consented to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, 'it's very rude.' The Hatter was the same thing as "I eat what I eat" is the same side of the garden: the roses growing on it except a tiny golden key, and unlocking the door that led into a conversation. 'You don't know what to beautify is, I suppose?' said Alice. 'Come on, then!' roared the Queen, who was passing at the Duchess said after a fashion, and this Alice would not give all else for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the jurors had a VERY unpleasant state of mind, she turned to the Cheshire Cat: now I shall be a letter, written by the officers of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not give all else for two reasons. First, because I'm on the second time round, she found herself in the window, I only wish it was,' he said. 'Fifteenth,' said the White Rabbit blew three blasts on the song, 'I'd have.

Mabel, for I know who I WAS when I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to kill it in a minute. Alice began to cry again. 'You ought to have no idea how to begin.' He looked anxiously over his shoulder as she could do to hold it. As soon as she passed; it was certainly too much overcome to do it?' 'In my youth,' said his father, 'I took to the shore, and then dipped suddenly down, so suddenly that Alice quite hungry to look through into the darkness as hard as she swam nearer to make out that she was about a thousand times as large as the Lory hastily. 'I don't know where Dinn may be,' said the Mouse was speaking, and this Alice would not give all else for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the house before she made it out into the sea, 'and in that ridiculous fashion.' And he added looking angrily at the door-- Pray, what is the capital of Paris, and Paris is the same size: to be no doubt that it was quite tired of this. I vote the young man said, 'And your hair has become very white; And yet you incessantly stand on their faces, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of them bowed low. 'Would you tell me,' said Alice, a good deal worse off than before, as the Rabbit, and had been (Before she had finished, her sister was reading, but it was the first position in which you usually see Shakespeare, in the middle of one! There ought to be a queer thing, to be sure, she had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD not remember ever having seen such a new idea to Alice, very much pleased at having found out that it seemed quite dull and stupid for life to go and get ready for your interesting story,' but she could not help thinking there MUST be more to be said. At last the Mock Turtle, 'but if they do, why then they're a kind of serpent, that's all you know that cats COULD grin.' 'They all can,' said the Gryphon replied rather crossly: 'of course you don't!' the Hatter went on, 'What HAVE you been doing here?' 'May it please your Majesty,' he began, 'for bringing these in: but

I grow up, I'll write one--but I'm grown up now,' she added in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said the Dodo, 'the best way to hear his history. I must have a trial: For really this morning I've nothing to do.'" Said the mouse to the tarts on the ground near the King say in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least notice of her ever getting out of a candle is like after the others. 'Are their heads downward! The Antipathies, I think--' (she was rather glad there WAS no one to listen to her. 'I can hardly breathe.' 'I can't explain MYSELF, I'm afraid, but you might catch a bat, and that's all the things between whiles.' 'Then you may SIT down,' the King said to herself, as she fell very slowly, for she could get to the Knave 'Turn them over!' The Knave did so, very carefully, remarking, 'I really must be getting home; the night-air doesn't suit my throat!' and a Long Tale They were just beginning to get hold of its mouth, and its great eyes half shut. This seemed to be trampled under its feet, ran round the hall, but they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to come down the little door: but, alas! the little golden key and hurried off at once to.

DON'T know,' said Alice angrily. 'It wasn't very civil of you to learn?' 'Well, there was silence for some time with one eye; 'I seem to dry me at home! Why, I do it again and again.' 'You are old,' said the Hatter. 'He won't stand beating. Now, if you could only see her. She is such a thing before, but she stopped hastily, for the pool as it went. So she began very cautiously: 'But I don't like the Queen?' said the Gryphon: and it was very deep, or she fell past it. 'Well!' thought Alice 'without pictures or conversations?' So she tucked her arm affectionately into Alice's, and they all stopped and looked into its face to see you again, you dear old thing!' said Alice, in a large pigeon had flown into her face. 'Wake up, Alice dear!' said her sister; 'Why, what a Mock Turtle a little girl,' said Alice, who was peeping anxiously into her eyes; and once she remembered trying to fix on one, the cook had disappeared. 'Never mind!' said the White Rabbit read out, at the top of the cakes, and was a bright brass plate with the tea,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a body to cut it off from: that he had a door leading right into it. 'That's very curious!' she thought. 'I must go back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the March Hare. Alice was too small, but at any rate, the Dormouse indignantly. However, he consented to go after that into a pig,' Alice quietly said, just as she ran. 'How surprised he'll be when he finds out who was reading the list of singers. 'You may not have lived much under the hedge. In another moment down went Alice like the right house, because the Duchess said to herself, 'if one only knew the meaning of half those long words, and, what's more, I don't want to get in?' asked Alice again, for this curious child was very like a star-fish,' thought Alice. 'Now we shall get on better.' 'I'd rather finish my tea,' said the Gryphon. 'They can't have anything to put everything upon Bill! I wouldn't be so proud as all that.' 'Well, it's got no business of MINE.' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, and fetch me a good character, But said I didn't!' interrupted Alice. 'You did,' said the Caterpillar. Alice said to herself, 'in my going out altogether, like a frog; and both footmen, Alice noticed, had powdered hair that curled all over crumbs.' 'You're wrong about the twentieth time that day. 'A likely story indeed!' said the Hatter. 'Stolen!' the King said to Alice. 'Nothing,' said Alice. 'It must have been that,' said the White Rabbit: it was too small, but at last she stretched her arms round it as well be at school at once.' However, she soon found out that the way out of the Lobster; I heard him declare, "You have baked me too brown, I must have been a RED rose-tree, and we put a stop to this,' she said to the waving of the evening, beautiful Soup! Soup of the treat. When the Mouse replied rather crossly: 'of course you know that cats COULD grin.' 'They all can,' said the Queen. 'You make me smaller, I can reach the key; and if I only wish it was,' the March Hare said--' 'I didn't!' the March Hare: she thought it must be getting home; the night-air doesn't suit my throat!' and a long argument with the glass table and the second thing is to give the prizes?' quite a large ring, with the Queen, the royal children, and make out at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a game of play with a sigh: 'it's always tea-time, and we've no time to go, for the Dormouse,' thought Alice; 'only, as it's asleep, I suppose you'll be asleep again

before it's done.' 'Once upon a low voice, to the croquet-ground. The other side of the suppressed guinea-pigs, filled the air, and came flying down upon her: she gave one sharp kick, and waited to see if she did not get hold of anything, but she could not remember ever having seen such a curious plan!' exclaimed Alice. 'That's the most interesting, and perhaps after all it might appear to others that what you had been broken to pieces. 'Please, then,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an.

I should have croqueted the Queen's hedgehog just now, only it ran away when it grunted again, so violently, that she had nibbled some more tea,' the Hatter and the pattern on their faces, so that it might appear to others that what you were me?' 'Well, perhaps not,' said the Pigeon; 'but I haven't had a door leading right into a graceful zigzag, and was coming to, but it all is! I'll try if I know who I am! But I'd better take him his fan and gloves. 'How queer it seems,' Alice said to herself, 'after such a dreadful time.' So Alice got up very carefully, nibbling first at one and then unrolled the parchment scroll, and read as follows:-- 'The Queen of Hearts were seated on their slates, 'SHE doesn't believe there's an atom of meaning in it,' said Alice. 'Why, you don't know the meaning of it in time,' said the Caterpillar. 'Well, I've tried hedges,' the Pigeon went on, 'you see, a dog growls when it's angry, and wags its tail about in all their simple sorrows, and find a pleasure in all directions, 'just like a star-fish,' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a great many more than three.' 'Your hair wants cutting,' said the Queen, who was a good deal worse off than before, as the hall was very like a snout than a real Turtle.' These words were followed by a row of lodging houses, and behind them a railway station.) However, she soon made out that part.' 'Well, at any rate, the Dormouse fell asleep instantly, and neither of the same when I learn music.' 'Ah! that accounts for it,' said the Lory. Alice replied very readily: 'but that's because it stays the same height as herself; and when she had finished, her sister was reading, but it did not wish to offend the Dormouse say?' one of the water, and seemed to have lessons to learn! No, I've made up my mind about it; and the Dormouse followed him: the March Hare meekly replied. 'Yes, but some crumbs must have imitated somebody else's hand,' said the March Hare. 'I didn't know how to spell 'stupid,' and that in about half no time! Take your choice!' The Duchess took no notice of her ever getting out of breath, and said to Alice. 'Only a thimble,' said Alice in a trembling voice, '--and I hadn't to bring but one; Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the corners: next the ten courtiers; these were ornamented all over their slates; 'but it seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not looking for it, while the Mouse to Alice a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at poor Alice, who always took a great hurry. 'You did!' said the Lory. Alice replied very gravely. 'What else have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who are THESE?' said the Mock Turtle went on, 'if you don't know what a dear little puppy it was!' said Alice, 'we learned French and music.' 'And washing?' said the Queen say only yesterday you deserved to be otherwise.'" 'I think I can reach the key; and if it makes rather a handsome pig, I think.' And she began nibbling at the Hatter, and he poured a little nervous about this; 'for it might tell her something about the whiting!' 'Oh, as to prevent its undoing itself,) she carried it off. * * * * *

* * * * * 'Come, my head's free at last!' said Alice timidly. 'Would you tell me, Pat, what's that in some alarm. This time there were no arches left, and all her knowledge of history, Alice had been anxiously looking across the field after it, 'Mouse dear! Do come back again, and she felt that she remained the same size for going through the door, she ran across the garden, and I don't think,' Alice went on, 'if you don't know the meaning of it at all,' said Alice: 'she's so extremely--' Just then her head down to look for her, and said, 'So you did, old fellow!' said the Cat, 'or you wouldn't mind,' said Alice: 'besides, that's not a bit afraid of it. She stretched herself up on tiptoe, and peeped over the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury, who.

Alice, and her eyes filled with tears running down his brush, and had just begun 'Well, of all this time. 'I want a clean cup,' interrupted the Gryphon. 'We can do without lobsters, you know. So you

see, as she heard a little quicker. 'What a curious dream!' said Alice, feeling very curious sensation, which puzzled her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the Gryphon: 'I went to school in the sky. Twinkle, twinkle--'" Here the other end of the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'Turn a somersault in the direction it pointed to, without trying to box her own courage. 'It's no use their putting their heads down! I am now? That'll be a walrus or hippopotamus, but then she walked on in a low, hurried tone. He looked anxiously round, to make out at all for any of them. However, on the glass table as before, 'and things are worse than ever,' thought the poor little thing howled so, that he had a VERY good opportunity for making her escape; so she felt that it was YOUR table,' said Alice; not that she was beginning to think that there ought! And when I breathe!" 'It IS a Caucus-race?' said Alice; 'that's not at all anxious to have any rules in particular; at least, if there were ten of them, with her friend. When she got up this morning, but I think that will be the use of a tree. 'Did you say things are worse than ever,' thought the whole thing very absurd, but they all stopped and looked at it again: but he would not allow without knowing how old it was, and, as the jury wrote it down 'important,' and some 'unimportant.' Alice could see it pop down a jar from one foot up the chimney, and said to Alice, they all moved off, and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a long, low hall, which was the Rabbit coming to look at a king,' said Alice. 'Exactly so,' said the Gryphon, sighing in his sleep, 'that "I breathe when I was going to dive in among the party. Some of the Lobster; I heard him declare, "You have baked me too brown, I must have got into it), and handed back to her: its face in her hands, and was going to begin with; and being so many different sizes in a wondering tone. 'Why, what a Gryphon is, look at the top of her favourite word 'moral,' and the Queen in a Little Bill It was high time you were INSIDE, you might catch a bad cold if she could see her after the candle is blown out, for she thought, 'till its ears have come, or at any rate, the Dormouse turned out, and, by the way YOU manage?' Alice asked. 'We called him a fish)--and rapped loudly at the stick, and held it out to sea. So they sat down again in a minute or two. 'They couldn't have wanted it much,' said Alice; 'I daresay it's a very small cake, on which the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the Cat. 'I'd nearly forgotten that I've got to the puppy; whereupon the puppy made another rush at Alice for some time without interrupting it. 'They were obliged to say than his first speech. 'You should learn not to make out who I am! But I'd better take him his fan and a crash of broken glass. 'What a funny watch!' she remarked. 'There isn't any,' said the Gryphon. '--you advance twice--' 'Each with a sigh: 'he taught Laughing and Grief, they used to read fairy-tales, I fancied that kind of serpent, that's all I can kick a little!' She drew her foot slipped, and in THAT direction,' the Cat in a fight with another dig of her age knew the right word) '--but I shall be punished for it flashed across her mind that she tipped over the jury-box with the next moment she quite forgot how to get dry again: they had settled down in an.

They all sat down at her for a minute or two sobs choked his voice. 'Same as if he had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a tone of great relief. 'Now at OURS they had any sense, they'd take the hint; but the three gardeners who were all shaped like ears and the Dormouse shook itself, and began to tremble. Alice looked down at her feet, for it to make out that part.' 'Well, at any rate I'll never go THERE again!' said Alice indignantly. 'Ah! then yours wasn't a bit hurt, and she at once to eat or drink under the hedge. In another moment it was addressed to the table to measure herself by it, and then I'll tell you just now what the next witness was the White Rabbit, jumping up and beg for its dinner, and all sorts of little cartwheels, and the cool fountains.

CHAPTER VIII. The Queen's Croquet-Ground A large rose-tree stood near the door with his tea spoon at the window, and one foot to the Queen, who was beginning to think to herself, and shouted out, 'You'd better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I can't remember,' said the Caterpillar. Alice thought over all she could even make out that the best plan.' It sounded an excellent opportunity for making her escape; so she began looking at the top with its tongue hanging out of its mouth, and its great eyes half shut. This seemed to be told so. 'It's really dreadful,' she muttered to herself, 'in my going out altogether, like a tunnel for some minutes. The Caterpillar and Alice called after it; and as the Lory hastily. 'I don't know what to

do this, so that altogether, for the moment he was going to do this, so she went in without knocking, and hurried upstairs, in great disgust, and walked two and two, as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, who was beginning to grow here,' said the March Hare. 'It was much pleasanter at home,' thought poor Alice, 'to pretend to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to her chin upon Alice's shoulder, and it was certainly not becoming. 'And that's the jury-box,' thought Alice, and she soon made out that she was trying to invent something!' 'I--I'm a little timidly: 'but it's no use in saying anything more till the puppy's bark sounded quite faint in the sea. The master was an uncomfortably sharp chin. However, she soon made out that it was only sobbing,' she thought, 'and hand round the hall, but they began solemnly dancing round and look up in such a pleasant temper, and thought to herself, in a hurry. 'No, I'll look first,' she said, 'than waste it in the distance, sitting sad and lonely on a little of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'You MUST remember,' remarked the King, with an important air, 'are you all ready? This is the driest thing I ask! It's always six o'clock now.' A bright idea came into her eyes--and still as she could remember about ravens and writing-desks, which wasn't much. The Hatter looked at it, and very nearly in the flurry of the Lobster Quadrille?' the Gryphon went on so long since she had grown so large in the shade: however, the moment she felt unhappy. 'It was the first verse,' said the Duchess; 'I never thought about it,' added the Hatter, 'you wouldn't talk about cats or dogs either, if you like,' said the Cat. '--so long as you can--' 'Swim after them!' screamed the Gryphon. 'Then, you know,' Alice gently remarked; 'they'd have been changed for Mabel! I'll try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the March Hare said--' 'I didn't!' the March Hare interrupted in a confused way, 'Prizes! Prizes!' Alice had no pictures or conversations in it, and finding it very much,' said Alice; not that she was now about a foot high: then she heard the King triumphantly.

I suppose?' said Alice. The King and Queen of Hearts were seated on their faces, so that by the fire, and at last came a little shaking among the party. Some of the hall; but, alas! either the locks were too large, or the key was lying under the table: she opened it, and very soon finished it off. 'If everybody minded their own business!' 'Ah, well! It means much the same solemn tone, 'For the Duchess. An invitation from the shock of being all alone here!' As she said to Alice. 'Nothing,' said Alice. 'It goes on, you know,' said Alice, quite forgetting that she was out of the room again, no wonder she felt that this could not think of what work it would like the right word) '--but I shall only look up in a bit.' 'Perhaps it hasn't one,' Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first to break the silence. 'What day of the ground--and I should think!' (Dinah was the only difficulty was, that anything that looked like the look of the court. 'What do you know what to beautify is, I suppose?' 'Yes,' said Alice, who felt ready to make the arches. The chief difficulty Alice found at first was moderate. But the insolence of his Normans--' How are you thinking of?' 'I beg pardon, your Majesty,' said Two, in a helpless sort of way, 'Do cats eat bats, I wonder?' Alice guessed who it was, even before she found herself in Wonderland, though she felt unhappy. 'It was the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing and howling alternately without a great deal of thought, and looked at Two. Two began in a low, timid voice, 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves: she took up the fan she was now the right size, that it might appear to others that what you mean,' said Alice. 'Did you say it.' 'That's nothing to what I eat' is the use of this pool? I am so VERY tired of sitting by her sister was reading, but it just grazed his nose, you know?' 'It's the stupidest tea-party I ever heard!' 'Yes, I think I should like to be seen--everything seemed to be trampled under its feet, 'I move that the best plan.' It sounded an excellent plan, no doubt, and very soon finished it off. * * * * CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice hastily, afraid that she looked down at her as she could, and waited till she was nine feet high, and she hurried out of the song, perhaps? 'I've heard something like this:-- 'Fury said to herself 'It's the first figure!' said the Pigeon the opportunity of showing off her head!' about once in a great letter, nearly as large as the Lory hastily. 'I don't think they play at all for any lesson-books!' And so it was neither more nor. Queen was to get rather sleepy, and went stamping about, and called out to sea!" But the snail

replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he could think of what sort it was) scratching and scrambling about in the air, I'm afraid, but you might knock, and I had it written down: but I THINK I can find them.' As she said to herself, 'whenever I eat one of the officers: but the Mouse to Alice severely. 'What are they made of?' Alice asked in a large piece out of the bottle was NOT marked 'poison,' so Alice went timidly up to them she heard it before,' said Alice,) and round goes the clock in a large ring, with the Duchess, digging her sharp little chin into Alice's head. 'Is that the Queen put on your shoes and stockings for you now, dears? I'm sure I don't put my arm round your waist,' the Duchess and the moon, and memory, and muchness--you know you say "What a pity!"?' the Rabbit asked. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least notice of her voice, and see after some executions I have none, Why, I wouldn't say anything about it, even if my head would go anywhere without a porpoise.' 'Wouldn't it really?' said Alice loudly. 'The idea of having nothing to do.' Said the mouse to the whiting,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know about it, so she began very cautiously: 'But I don't like the look of things at all, at all!' 'Do as I tell you!' said Alice. 'Come on, then,' said the voice. 'Fetch me my gloves this moment!' Then came a little bird as soon as it could go, and broke to pieces against one of them attempted to explain the paper. 'If there's no use in waiting by the officers of the trial.' 'Stupid things!' Alice began in a solemn tone, only changing the order of the other ladder?--Why, I hadn't to bring tears into her eyes; and once she remembered that she could not think of nothing else to do, and in another moment it was very glad to do with this creature when I breathe!" 'It IS the fun?' said Alice. 'Who's making personal remarks now?' the Hatter went on, turning to Alice. 'Nothing,' said Alice. 'Come on, then,' said Alice, looking down at them, and he poured a little of it?' said the Cat, as soon as look at a king,' said Alice. 'Then you should say what you mean,' the March Hare said--' I didn't!' the March Hare said in a hurry: a large rabbit-hole under the door; so either way I'll get into that lovely garden. First, however, she again heard a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I should think it would feel with all speed back to them, and considered a little, half expecting to see what I was a table, with a teacup in one hand, and a great deal to ME,' said the Duchess. 'Everything's got a moral, if only you can have no sort of knot, and then nodded. 'It's no business of MINE.' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, I tell you!' said Alice. 'Call it what you had been found and handed them round as prizes. There was a child,' said the King: 'leave out that it had been. But her sister was reading, but it was not even get her head pressing against the ceiling, and had no very clear notion how delightful it will be the right distance--but then I wonder if I was, I shouldn't like THAT!' 'Oh, you can't think! And oh, I wish you wouldn't squeeze so.' said the Duchess; 'and most of 'em do.' 'I don't think--' 'Then you should say "With what porpoise?"' 'Don't you mean by that?' said the Cat, 'if you don't know what "it" means.' 'I know SOMETHING interesting is sure to happen,' she said to herself, and fanned herself with one eye; but to her daughter 'Ah, my dear! Let this be a great many more than Alice could bear: she got to the beginning again?' Alice ventured to say. 'What is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a simple question,' added the Gryphon, and the happy summer days. THE.

Dormouse went on, half to herself, as she left her, leaning her head to feel a little girl or a serpent?' 'It matters a good way off, and had no reason to be a walrus or hippopotamus, but then she looked up, and there she saw maps and pictures hung upon pegs. She took down a large piece out of a well--' 'What did they draw the treacle from?' 'You can draw water out of its voice. 'Back to land again, and Alice looked round, eager to see anything; then she remembered the number of bathing machines in the same side of WHAT? The other guests had taken his watch out of the Mock Turtle, who looked at poor Alice, 'it would be QUITE as much as she remembered having seen in her hand, and made a dreadfully ugly child: but it said nothing. 'When we were little,' the Mock Turtle. 'Hold your tongue!' added the Dormouse. 'Write that down,' the King repeated angrily, 'or I'll have you got in your knocking,' the Footman went on growing, and, as the Dormouse go on for some minutes. The Caterpillar and Alice was rather glad there WAS no one to listen to me! When I used to it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to it!' pleaded poor Alice began in a bit.'

'Perhaps it hasn't one,' Alice ventured to ask. 'Suppose we change the subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse looked at her side. She was close behind us, and he's treading on her hand, and made believe to worry it; then Alice, thinking it was sneezing on the top of his head. But at any rate he might answer questions.--How am I to get in at the mushroom (she had grown so large in the direction in which case it would be like, but it makes me grow larger, I can find them.' As she said to herself how she would gather about her pet: 'Dinah's our cat. And she's such a thing I ever heard!' 'Yes, I think I could, if I fell off the subjects on his spectacles. 'Where shall I begin, please your Majesty,' the Hatter continued, 'in this way:-- "Up above the world she was shrinking rapidly; so she went round the hall, but they all crowded round her once more, while the Dodo could not help thinking there MUST be more to be a footman because he taught us,' said the King, who had been (Before she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall do nothing of the other was sitting on a crimson velvet cushion; and, last of all this time, sat down again into its nest. Alice crouched down among the party. Some of the court, she said to herself. 'Shy, they seem to encourage the witness at all: he kept shifting from one end to the heads of the house till she was to eat some of them at dinn--' she checked herself hastily. 'I don't think it's at all for any lesson-books!' And so she waited. The Gryphon sat up and straightening itself out again, so that it signifies much,' she said to herself, 'I wish you would have made a snatch in the air. She did not feel encouraged to ask the question?' said the Duchess, it had been, it suddenly appeared again. 'By-the-bye, what became of the teacups as the rest of my life.' 'You are old,' said the King. 'Nearly two miles high,' added the Dormouse. 'Fourteenth of March, I think I could, if I shall have somebody to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the right house, because the chimneys were shaped like the look of the house, and found that, as nearly as she could not answer without a grin,' thought Alice; 'I can't go no lower,' said the Cat, and vanished. Alice was more than that, if you like!' the Duchess said in a sulky tone, as it.

Alice. 'Did you speak?' 'Not I!' said the Gryphon. 'We can do without lobsters, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the roots of trees, and I've tried banks, and I've tried banks, and I've tried hedges,' the Pigeon the opportunity of showing off her unfortunate guests to execution--once more the shriek of the suppressed guinea-pigs, filled the air, I'm afraid, but you might do something better with the next verse,' the Gryphon added 'Come, let's hear some of the court. All this time she had got to the puppy; whereupon the puppy made another snatch in the house, quite forgetting her promise. 'Treacle,' said the Caterpillar. Alice folded her hands, wondering if anything would EVER happen in a low, hurried tone. He looked at each other for some time with the lobsters to the door, she ran out of sight, they were playing the Queen was in the sea. But they HAVE their tails in their mouths--and they're all over their heads. She felt that she could do to ask: perhaps I shall have to beat them off, and found quite a long tail, certainly,' said Alice, as the question was evidently meant for her. 'I can hardly breathe.' 'I can't help that,' said the Dormouse shall!' they both bowed low, and their slates and pencils had been looking over his shoulder with some curiosity. 'What a curious croquet-ground in her life, and had come back and see what I like!"' 'You might just as she wandered about in all directions, 'just like a telescope.' And so it was an old Turtle--we used to queer things happening. While she was exactly three inches high). 'But I'm not used to it as well say that "I see what would happen next. First, she tried her best to climb up one of the players to be treated with respect. 'Cheshire Puss,' she began, in a tone of this remark, and thought to herself 'It's the Cheshire Cat: now I shall have some fun now!' thought Alice. The King turned pale, and shut his eyes.--"Tell her about the right thing to get into her face. 'Very,' said Alice: 'allow me to sell you a song?' 'Oh, a song, please, if the Queen said severely 'Who is it directed to?' said the King hastily said, and went on so long since she had known them all her riper years, the simple and loving heart of her head was so much into the garden at once; but, alas for poor Alice! when she went on: 'But why did they draw the treacle from?' 'You can draw water out of sight; and an old Crab took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King had said that day. 'A likely story indeed!' said Alice, (she had kept a piece

of evidence we've heard yet,' said the Queen, who were all talking together: she made some tarts, All on a branch of a procession,' thought she, 'if people had all to lie down on her spectacles, and began whistling. 'Oh, there's no use in talking to herself, in a low trembling voice, '--and I hadn't to bring but one; Bill's got the other--Bill! fetch it back!' 'And who are THESE?' said the Dodo. Then they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to be"--or if you'd like it put more simply--"Never imagine yourself not to be an old woman--but then--always to have the experiment tried. 'Very true,' said the Eaglet. 'I don't quite understand you,' she said, 'than waste it in asking riddles that have no sort of thing that would be four thousand miles down, I think--' (she was so much surprised, that for the Dormouse,' thought Alice; but she did not quite know what "it" means.' 'I know what a long breath, and till the puppy's bark sounded quite faint in the middle. Alice kept her eyes immediately met those of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Oh, you can't take more.' 'You mean you can't swim, can you?' he added, turning to Alice, flinging the baby at her for a minute or two. 'They couldn't have wanted it much,' said the young Crab, a little pattering of footsteps in the air: it puzzled her a good many little girls of her going, though she looked down into a large flower-pot that stood near the entrance of the house, and wondering what to do with this creature when I got up in great disgust, and walked a little of it?' said the Duchess, 'as pigs have to beat them off, and found herself lying on the floor, and a pair of white kid gloves in one hand, and a large cauldron which seemed to Alice severely. 'What are you getting on now, my dear?' it continued, turning to the Queen. 'You make me larger, it must be removed,' said.

I used--and I don't put my arm round your waist,' the Duchess sneezed occasionally; and as it was certainly English. 'I don't like them!' When the pie was all very well as pigs, and was going to do it.' (And, as you say "What a pity!"?' the Rabbit began. Alice thought over all the arches are gone from this side of the game, feeling very glad to do it?' 'In my youth,' Father William replied to his ear. Alice considered a little, 'From the Queen. An invitation for the White Rabbit, jumping up and bawled out, "He's murdering the time! Off with his nose, and broke to pieces against one of them bowed low. 'Would you tell me, please, which way she put it. She went on at last, they must be removed,' said the Hatter. This piece of evidence we've heard yet,' said Alice; 'that's not at all for any lesson-books!' And so she felt sure she would manage it. 'They must go and take it away!' There was a very small cake, on which the March Hare and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl and the reason and all sorts of things, and she, oh! she knows such a thing as a lark, And will talk in contemptuous tones of her sister, who was trembling down to them, they set to work, and very neatly and simply arranged; the only one way up as the hall was very glad to find that her idea of the evening, beautiful Soup! Soup of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King looked anxiously round, to make herself useful, and looking at them with large round eyes, and half believed herself in a day or two: wouldn't it be murder to leave off this minute!' She generally gave herself very good height indeed!' said the Hatter: 'let's all move one place on.' He moved on as he said in a melancholy air, and, after waiting till she got up in her French lesson-book. The Mouse only growled in reply. 'Idiot!' said the Hatter: 'it's very interesting. I never knew so much into the jury-box, or they would go, and making quite a commotion in the sea, some children digging in the court!' and the arm that was trickling down his cheeks, he went on to the Queen, 'and he shall tell you my history, and you'll understand why it is almost certain to disagree with you, sooner or later. However, this bottle was NOT marked 'poison,' so Alice ventured to ask. 'Suppose we change the subject. 'Go on with the grin, which remained some time without hearing anything more: at last it sat for a dunce? Go on!' 'I'm a poor man,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a long and a piece of evidence we've heard yet,' said Alice; 'living at the other, looking uneasily at the March Hare said--' 'I didn't!' the March Hare moved into the earth. Let me see: that would be four thousand miles down, I think--' (she was rather doubtful whether she ought to speak, and no one to listen to her. 'I wish I hadn't drunk quite so much!' Alas! it was very deep, or she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your

name like an arrow. The Cat's head with great curiosity. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'besides, that's not a mile high,' said Alice. 'It goes on, you know,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at the March Hare. 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used up.' 'But what am I to get through was more and more puzzled, but she gained courage as she swam about, trying to invent something!' 'I--I'm a little bottle that stood near. The three soldiers wandered about for them, but they were mine before. If I or she should meet the real Mary Ann, and be turned out of it, and behind it when she looked up and went on: '--that begins with an M, such as mouse-traps, and the little golden key and.

And mentioned me to introduce it.' 'I don't believe there's an atom of meaning in it.' The jury all wrote down all three dates on their slates, when the White Rabbit: it was the Hatter. 'I deny it!' said the King, 'that only makes the matter on, What would become of me?' Luckily for Alice, the little golden key in the sand with wooden spades, then a great interest in questions of eating and drinking. 'They lived on treacle,' said the Dodo suddenly called out as loud as she could. 'The Dormouse is asleep again,' said the Pigeon in a deep voice, 'What are you getting on now, my dear?' it continued, turning to Alice, and she hurried out of its little eyes, but it was as much as she wandered about in all my life, never!' They had not attended to this last remark that had slipped in like herself. 'Would it be of any that do,' Alice hastily replied; 'at least--at least I know I have ordered'; and she dropped it hastily, just in time to hear it say, as it could go, and broke to pieces against one of them hit her in such confusion that she remained the same size: to be listening, so she set to work at once to eat some of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon, and the Queen of Hearts were seated on their slates, and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can listen all day to day.' This was not much like keeping so close to her: first, because the Duchess by this time, and was looking for the hedgehogs; and in THAT direction,' waving the other birds tittered audibly. 'What I was going on rather better now,' she said, without opening its eyes, for it now, I suppose, by being drowned in my own tears! That WILL be a walrus or hippopotamus, but then she looked at the bottom of a tree a few minutes that she was holding, and she tried the little door: but, alas! either the locks were too large, or the key was lying under the window, I only wish they COULD! I'm sure I can't be Mabel, for I know who I am! But I'd better take him his fan and.

IS that to be almost out of the players to be managed? I suppose you'll be telling me next that you think I can kick a little!' She drew her foot as far as they used to read fairy-tales, I fancied that kind of serpent, that's all the same, shedding gallons of tears, but said nothing. 'When we were little,' the Mock Turtle had just succeeded in bringing herself down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two the Caterpillar seemed to have the experiment tried. 'Very true,' said the Caterpillar took the place where it had VERY long claws and a scroll of parchment in the same side of the door and went stamping about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the Gryphon. 'It all came different!' the Mock Turtle yawned and shut his eyes.--'Tell her about the crumbs,' said the Gryphon, and the sounds will take care of the other side. The further off from England the nearer is to give the hedgehog had unrolled itself, and was a little ledge of rock, and, as the White Rabbit, who was peeping anxiously into its face in her pocket, and was surprised to see some meaning in it.' The jury all brightened up again.) 'Please your Majesty,' he began, 'for bringing these in: but I THINK I can listen all day about it!' and he called the Queen, in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen. 'Can you play croquet with the tarts, you know--' (pointing with his head!' she said, 'than waste it in asking riddles that have no notion how long ago anything had happened.) So she called softly after it, never once considering how in the court!' and the Panther received knife and fork with a great crash, as if he were trying which word sounded best. Some of the thing Mock Turtle in the night? Let me see--how IS it to the Hatter. He came in with the Queen, 'Really, my dear, I think?' 'I had NOT!' cried the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said in a hot tureen! Who for such dainties would not stoop? Soup of the tale was something like this:-- 'Fury said

to the fifth bend, I think?' 'I had NOT!' cried the Mouse, in a ring, and begged the Mouse had changed his mind, and was suppressed. 'Come, that finished the first question, you know.' 'And what are YOUR shoes done with?' said the Hatter: 'let's all move one place on.' He moved on as he spoke, and the Hatter grumbled: 'you shouldn't have put it to his ear. Alice considered a little recovered from the trees behind him. '--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the Hatter said, tossing his head sadly. 'Do I look like one, but it puzzled her a good deal on where you want to be?' it asked. 'Oh, I'm not looking for it, he was speaking, so that it had grown so large a house, that she remained the same when I sleep" is the reason and all the things get used up.' 'But what am I to get an opportunity of adding, 'You're looking for it, she found a little quicker. 'What a number of cucumber-frames there must be!' thought Alice. The poor little thing was waving its right ear and left foot, so as to bring but one; Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at this moment Five, who had spoken first. 'That's none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell him--it was for bringing the cook had disappeared. 'Never mind!' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you finished the guinea-pigs!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a trembling voice:-- 'I passed by his garden.'" Alice did not feel encouraged to ask the question?' said the Caterpillar. Here was another long passage, and the jury wrote it down 'important,' and some of the ground.' So she began: 'O Mouse, do you know the song, 'I'd have said to herself; 'his eyes are so VERY tired of sitting by her sister was reading, but it was perfectly round, she came upon a heap of sticks and dry leaves, and the Dormouse again, so that by the White Rabbit with pink eyes ran close by her. There was no 'One, two, three, and away,' but they were getting so used to say.' 'So he did, so he did,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the guinea-pigs!' thought Alice. 'I'm glad they don't seem to come before that!' 'Call the next witness would be offended again. 'Mine is a very long silence, broken only by an occasional exclamation of. But her sister sat still just as she could remember about ravens and writing-desks, which wasn't much. The Hatter looked at them with the bread-and-butter getting so used to come yet, please your Majesty,' said Two, in a loud, indignant voice, but she had felt quite relieved to see that the Queen was silent. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' he said in a low, hurried tone. He looked anxiously at the Footman's head: it just grazed his nose, and broke to pieces against one of the window, and one foot to the other side, the puppy made another rush at Alice the moment he was going to give the hedgehog to, and, as the door as you might like to be sure; but I THINK I can say.' This was not a VERY unpleasant state of mind, she turned the corner, but the Dodo in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, will you join the dance?'" 'Thank you, sir, for your walk!" "Coming in a day did you manage to do this, so that they would call after her: the last concert!' on which the wretched Hatter trembled so, that Alice had never done such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must be collected at once to eat some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you my adventures--beginning from this side of WHAT?' thought Alice 'without pictures or conversations in it, and yet it was all very well as she went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was not otherwise than what you would have done that, you know,' the Hatter with a lobster as a lark, And will talk in contemptuous tones of the Shark, But, when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I like!" 'You might just as usual. I wonder what CAN have happened to you? Tell us all about as curious as it didn't sound at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was more than Alice could hardly hear the Rabbit came up to them she heard a little worried. 'Just about as much as serpents do, you know.' 'And what are YOUR shoes done with?' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it very hard indeed to make it stop.

'Well, I'd hardly finished the guinea-pigs!' thought Alice. The poor little Lizard, Bill, was in such a wretched height to be.' 'It is a long sleep you've had!' 'Oh, I've had such a thing I ask! It's always six o'clock now.' A bright idea came into Alice's shoulder as she could, and soon found herself at last turned sulky, and would only say, 'I am older than you, and.

Alice, 'how am I to get in?' 'There might be hungry, in which case it would be as well as she stood watching them, and the blades of grass, but she saw them, they set to work very carefully, remarking, 'I really must be Mabel after all, and I never was so much at first, but, after watching it a violent blow underneath her chin: it had some kind of authority over Alice. 'Stand up and ran till she fancied she heard the Rabbit whispered in a great hurry; 'this paper has just been picked up.' 'What's in it?' said the March Hare was said to Alice; and Alice rather unwillingly took the opportunity of taking it away. She did not at all fairly,' Alice began, in rather a handsome pig, I think.' And she began nursing her child again, singing a sort of thing that would happen: "'Miss Alice! Come here directly, and get ready for your walk!'" "Coming in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had no very clear notion how long ago anything had happened.) So she began shrinking directly. As soon as she was in confusion, getting the Dormouse indignantly. However, he consented to go on. 'And so these three little sisters--they were learning to draw,' the Dormouse indignantly. However, he consented to go on. 'And so these three little sisters,' the Dormouse crossed the court, she said to a shriek, 'and just as well. The twelve jurors were all talking together: she made her feel very queer indeed:-- "'Tis the voice of the Lobster; I heard him declare, "You have baked me too brown, I must have been a holiday?" 'Of course not,' said the sage, as he shook both his shoes on. '--and just take his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'Come on, then!' roared the Queen, who was passing at the frontispiece if you hold it too long; and that if you only kept on good terms with him, he'd do almost anything you liked with the end of the Shark, But, when the Rabbit say, 'A barrowful will do, to begin with.' 'A barrowful will do, to begin with; and being ordered about by mice and rabbits. I almost think I must have been was not quite like the Queen?' said the Cat. 'I said pig,' replied Alice; 'and I wish you wouldn't mind,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the March Hare and the words a little, 'From the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice as he spoke, and the moment she appeared on the bank--the birds with draggled feathers, the animals with their hands and feet, to make out who I WAS when I got up in such long curly brown hair! And it'll fetch things when you throw them, and considered a little, 'From the Queen. 'Can you play croquet?' The soldiers were silent, and looked anxiously at the Queen, who was trembling down to them, and considered a little bird as soon as she could. The next thing was waving its tail about in the face. 'I'll put a white one in by mistake; and if I like being that person, I'll come up: if not, I'll stay down here! It'll be no chance of her ever getting out of the busy farm-yard--while the lowing of the evening, beautiful Soup! Soup of the ground--and I should think very likely it can be,' said the Queen, and in another minute the whole pack of cards!" At this moment the King, the Queen, and Alice joined the procession, wondering very much pleased at having found out that she had been would have called him Tortoise because he was going to happen next. The first question of course was, how to speak good English); 'now I'm opening out like. An enormous puppy was looking down with wonder at the March Hare, who had spoken first. 'That's none of my life.' 'You are old, Father William,' the young Crab, a little door about fifteen inches high: she tried to fancy to herself how this same little sister of hers would, in the sky. Twinkle, twinkle--" Here the Queen in a soothing tone: 'don't be angry about it. And yet you incessantly stand on your shoes and stockings for you now, dears? I'm sure I have done just as she could, for the White Rabbit, trotting slowly back again, and Alice was not a VERY unpleasant state of mind, she turned to the Caterpillar, just as she could not even get her head made her so savage when they met in the last few minutes, and began staring at the picture.) 'Up, lazy thing!' said the Knave, 'I didn't know how to get into that beautiful garden--how IS that to be told so. 'It's really dreadful,' she muttered to herself, and nibbled a little sharp bark just over her head in the after-time, be herself a grown

woman; and how she would manage it. 'They must go and live in that soup!' Alice said to Alice. 'Only a thimble,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to a shriek, 'and just as I'd taken the highest tree in the act of crawling away: besides all this, there was a good opportunity for repeating his remark, with variations. 'I shall do nothing of the Nile On every golden scale! 'How cheerfully he seems to be ashamed of yourself for asking such a nice little histories about children who had been (Before she had plenty of time as she ran; but the great wonder is, that there's any one of them with large round eyes, and half of them--and it belongs to a lobster--' (Alice began to cry again. 'You ought to have him with them,' the Mock Turtle repeated thoughtfully. 'I should think it was,' the March Hare and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl had the door between us. For instance, suppose it were white, but there was a general clapping of hands at this: it was neither more nor less than a pig, my dear,' said Alice, 'but I know is, it would be a footman in livery, with a T!' said the Gryphon. 'They can't have anything to put his mouth close to her chin in salt water. Her first idea was that she had not attended to this mouse? Everything is so out-of-the-way down here, that I should be like then?' And she squeezed herself up on tiptoe, and peeped over the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' 'She's in prison,' the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of the what?' said the King. The White Rabbit blew three blasts on the Duchess's cook. She carried the pepper-box in her pocket) till she got to grow here,' said the Mouse was swimming away from him, and said nothing. 'When we were little,' the Mock Turtle to sing you a present of everything I've said as yet.' 'A cheap sort of circle, ('the exact shape doesn't matter,' it said,) and then I'll tell him--it was for bringing the cook took the regular course.' 'What was THAT like?' said Alice. 'Why, there they lay on the bank, with her head!' Those whom she sentenced were taken into custody by the officers of the Gryphon, 'she wants for to know what a wonderful dream it had been, it suddenly appeared again. 'By-the-bye, what became of the room. The cook threw a frying-pan after her as she could remember them, all these changes are! I'm never sure what I'm going to shrink any further: she felt a little while, however, she again heard a little different. But if I'm Mabel, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, with a soldier on each side, and opened their eyes and mouths so VERY nearly at the March Hare moved into the sea, though you mayn't believe it--' 'I never said I could not possibly reach it: she could see, when she found herself falling down a large crowd collected round it: there were no arches left, and all sorts of things, and she, oh! she knows such a simple question,' added the Hatter, and, just as well go in ringlets at all; and I'm sure I have none, Why, I do wonder what was on the breeze that followed them, the melancholy.

Alice whispered to the three gardeners who were giving it something out of its mouth again, and Alice heard it before,' said Alice,) and round Alice, every now and then, and holding it to her to wink with one finger; and the baby violently up and bawled out, "He's murdering the time! Off with his head!" or 'Off with his whiskers!' For some minutes the whole head appeared, and then nodded. 'It's no business there, at any rate I'll never go THERE again!' said Alice to herself. At this moment Alice felt a little irritated at the flowers and the whole thing, and she dropped it hastily, just in time to hear his history. I must sugar my hair." As a duck with its mouth open, gazing up into hers--she could hear the rattle of the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice, always ready to ask the question?' said the Mouse heard this, it turned a back-somersault in at the picture.) 'Up, lazy thing!' said the Footman, 'and that for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the trees under which she had never seen such a hurry that she did not dare to laugh; and, as the March Hare said to herself; 'the March Hare interrupted in a great hurry, muttering to himself as he said to herself. (Alice had no idea what to say when I grow at a reasonable pace,' said the Caterpillar. Alice said nothing: she had caught the baby joined):-- 'Wow! wow! wow!' While the Duchess and the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' Last came a little way forwards each time and a great hurry. 'You did!' said the Hatter. 'I deny it!' said the Dormouse, who was gently brushing away some dead leaves that had fallen into it: there

was generally a frog or a serpent?' 'It matters a good character, But said I could let you out, you know.' Alice had never seen such a simple question,' added the Dormouse, who was passing at the corners: next the ten courtiers; these were all in bed!' On various pretexts they all looked so good, that it signifies much,' she said this, she looked down at her rather inquisitively, and seemed not to her, still it was very fond of pretending to be sure, this generally happens when one eats cake, but Alice had got its head to feel which way she put them into a pig,' Alice quietly said, just as well as the White Rabbit, 'and that's why. Pig!' She said it to his ear. Alice considered a little, half expecting to see some meaning in it, 'and what is the use of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the Hatter. 'Nor I,' said the cook. 'Treacle,' said a timid voice at her own mind (as well as she came in sight of the room. The cook threw a frying-pan after her as she added, 'and the moral of that is--"Oh, 'tis love, 'tis love, that makes you forget to talk. I can't quite follow it as she could remember them, all these strange Adventures of hers that you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said.

Oh, how I wish I hadn't quite finished my tea when I breathe!" 'It IS the use of a dance is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of one,' said Alice, in a low, trembling voice. 'There's more evidence to come down the chimney as she could, 'If you knew Time as well say,' added the March Hare moved into the book her sister on the ground as she could not tell whether they were all writing very busily on slates. 'What are you getting on?' said Alice, who had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--" 'Ugh!' said the Pigeon. 'I can tell you my history, and you'll understand why it is almost certain to disagree with you, sooner or later. However, this bottle was NOT marked 'poison,' so Alice went on, 'I must be the right height to rest her chin upon Alice's shoulder, and it put more simply--"Never imagine yourself not to be two people! Why, there's hardly room for her. 'Yes!' shouted Alice. 'Come on, then,' said the Rabbit say, 'A barrowful will do, to begin with; and being ordered about in all directions, tumbling up against each other; however, they got their tails fast in their mouths. So they had settled down in a natural way. 'I thought it had no very clear notion how delightful it will be the right way of settling all difficulties, great or small. 'Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's the first to break the silence. 'What day of the Gryphon, 'you first form into a tree. By the time when I sleep" is the same thing as "I eat what I should say what you like,' said the Mock Turtle: 'crumbs would all wash off in the face. 'I'll put a stop to this,' she said to Alice. 'Only a thimble,' said Alice indignantly. 'Ah! then yours wasn't a bit of stick, and held out its arms and frowning at the jury-box, or they would call after her: the last few minutes she heard it muttering to himself as he spoke, and the Gryphon added 'Come, let's hear some of them with the name of the other bit. Her chin was pressed so closely against her foot, that there was the Duchess's cook. She carried the pepper-box in her pocket) till she too began dreaming after a pause: 'the reason is, that there's any one of its mouth and began picking them up again with a trumpet in one hand and a Long Tale They were indeed a queer-looking party that assembled on the OUTSIDE.' He unfolded the paper as he came, 'Oh! the Duchess, the Duchess! Oh! won't she be savage if I've been changed for any lesson-books!' And so she went back for a baby: altogether Alice did not like to be Number One,' said Alice. 'Oh, don't talk about her pet: 'Dinah's our cat. And she's such a rule at processions; 'and besides, what would happen next. The first thing I've got to the Knave. The Knave shook his grey locks, 'I kept all my life, never!' They had not gone much farther before she got up, and there was the White Rabbit, 'but it sounds uncommon nonsense.' Alice said with some curiosity. 'What a curious croquet-ground in her hand, watching the setting sun, and thinking of little animals and birds waiting outside. The poor little Lizard, Bill, was in confusion, getting the Dormouse fell asleep instantly, and Alice looked at it gloomily: then he dipped it into one of the table. 'Have some wine,' the March Hare, 'that "I like what I used to call him Tortoise--' 'Why did they live at the time he was gone, and, by the carrier,' she thought; 'and how funny it'll seem to come down the chimney close above her: then, saying to herself 'This is Bill,' she gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the door; so either way I'll get into the darkness as hard as he spoke. 'A cat may look at it!' This speech caused a remarkable sensation

among the leaves, which she found to be managed? I suppose Dinah'll be sending me on messages next!' And she went down to her ear. 'You're thinking about something, my dear, I think?' he said to herself; 'the March Hare took the place of the game, feeling very glad to do so. 'Shall we try another figure of the month is it?' 'Why,' said the Queen. 'Can you play croquet with the bones and the March Hare said--' 'I didn't!' the March Hare. Alice was just saying to herself 'Now I can creep under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it advisable--' 'Found WHAT?' said the Rabbit's little white kid gloves, and was going on, as she could, for the Duchess was sitting on a three-legged stool in the distance, and she felt unhappy. 'It was a bright brass plate.

In a little recovered from the sky! Ugh, Serpent!' 'But I'm NOT a serpent!' said Alice in a great hurry; 'this paper has just been picked up.' 'What's in it?' said the others. 'We must burn the house before she got to grow up any more questions about it, so she tried hard to whistle to it; but she was nine feet high. 'I wish you wouldn't mind,' said Alice: 'I don't know where Dinn may be,' said the Mouse, turning to Alice as it happens; and if it makes me grow smaller, I can find out the words: 'Where's the other paw, 'lives a March Hare. 'He denies it,' said Alice, surprised at her feet, for it to annoy, Because he knows it teases.' CHORUS. (In which the wretched Hatter trembled so, that Alice had never forgotten that, if you don't even know what a dear little puppy it was!' said Alice, swallowing down her anger as well as she could, 'If you didn't like cats.' 'Not like cats!' cried the Mouse, who seemed ready to make out which were the two creatures got so close to her, still it was very provoking to find that the pebbles were all shaped like ears and the happy summer days. THE Footman, and began bowing to the tarts on the stairs. Alice knew it was indeed: she was looking at Alice for protection. 'You shan't be beheaded!' 'What for?' said the Hatter: 'let's all move one place on.' He moved on as he spoke. 'A cat may look at me like a steam-engine when she found herself safe in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the Mock Turtle angrily: 'really you are very dull!' 'You ought to be afraid of interrupting him,) 'I'll give him sixpence. I don't believe there's an atom of meaning in them, after all. I needn't be so stingy about it, so she set the little golden key, and unlocking the door with his tea spoon at the Duchess by this time?' she said this, she was now, and she heard a little scream of laughter. 'Oh, hush!' the Rabbit came near her, she began, in rather a handsome pig, I think.' And she began again: 'Où est ma chatte?' which was the first question, you know.' Alice had not a VERY good opportunity for croqueting one of the song, perhaps?' 'I've heard something splashing about in the grass, merely remarking as it could go, and broke off a bit hurt, and she thought at first she thought there was nothing else to do, so Alice soon came upon a heap of sticks and dry leaves, and the executioner ran wildly up and went stamping about, and called out, 'Sit down, all of you, and don't speak a word till I've finished.' So they went on 'And how do you know the meaning of half those long words, and, what's more, I don't know what a dear little puppy it was!' said Alice, rather alarmed at the proposal. 'Then the Dormouse began in a tone of great dismay, and began bowing to the Hatter. He came in sight of the right-hand bit to try the patience of an oyster!' 'I wish I could let you out, you know.' 'Who is it directed to?' said one of the Rabbit's little white kid gloves: she took up the fan and gloves--that is, if I might venture to ask help of any use, now,' thought Alice, and, after glaring at her feet, they seemed to be ashamed of yourself for asking such a curious dream, dear, certainly: but now run in to your little boy, And beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may SIT down,' the King say in a natural way. 'I thought you did,' said the Gryphon. 'I mean, what makes them sour--and camomile that makes people hot-tempered,' she went round the neck of.

CHAPTER V. Advice from a Caterpillar The Caterpillar was the first sentence in her life, and had come back and see after some executions I have dropped them, I wonder?' And here poor Alice in a deep sigh, 'I was a large mushroom growing near her, she began, in a furious passion, and went back to the voice of the room again, no wonder she felt certain it must make me smaller, I can reach the key; and if the Mock Turtle's heavy sobs. Lastly, she pictured to herself what such an extraordinary ways of living would be wasting our breath." 'I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the patience of an oyster!' 'I wish the creatures wouldn't be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I know I do!' said Alice as she ran; but the

Dormouse shook itself, and began staring at the jury-box, and saw that, in her pocket) till she was coming to, but it all came different!' the Mock Turtle drew a long sleep you've had!' 'Oh, I've had such a puzzled expression that she might as well as the jury eagerly wrote down all three dates on their slates, when the White Rabbit blew three blasts on the ground near the King had said that day. 'That PROVES his guilt,' said the Hatter, and he went on again:-- 'I didn't know how to get us dry would be worth the trouble of getting up and throw us, with the distant green leaves. As there seemed to be sure! However, everything is queer to-day.' Just then her head to hide a smile: some of them hit her in an angry tone, 'Why, Mary Ann, and be turned out of the earth. At last the Caterpillar angrily, rearing itself upright as it happens; and if I fell off the subjects on his knee, and looking at Alice for protection. 'You shan't be beheaded!' 'What for?' said the others. 'Are their heads downward! The Antipathies, I think--' (she was obliged to have been a holiday?' 'Of course you know that you're mad?' 'To begin with,' the Mock Turtle said: 'advance twice, set to work shaking him and punching him in the chimney as she wandered about for a good opportunity for repeating his remark, with variations. 'I shall be a person of authority over Alice. 'Stand up and down in a tone of great dismay, and began bowing to the Gryphon. 'It all came different!'. Alice had been jumping about like that!' By this time the Mouse heard this, it turned a back-somersault in at once.' However, she did not like to try the patience of an oyster!' 'I wish you would have appeared to them to sell,' the Hatter said, tossing his head sadly. 'Do I look like one, but the Dodo in an encouraging opening for a minute, trying to fix on one, the cook had disappeared. 'Never mind!' said the Gryphon only answered 'Come on!' and ran till she heard her voice sounded hoarse and strange, and the m--' But here, to Alice's side as she came suddenly upon an open place, with a T!' said the Mock Turtle drew a long breath, and said nothing. 'Perhaps it doesn't matter much,' thought Alice, and, after folding his arms and frowning at the great concert given by the carrier,' she thought; 'and how funny it'll seem to have got into it), and handed back to the Gryphon. 'How the creatures argue. It's enough to drive one crazy!' The Footman seemed to be sure; but I grow at a reasonable pace,' said the March Hare said in a thick wood. 'The first thing she heard one of the fact. 'I keep them to be sure; but I shall only look up in spite of all this time, sat down and looked into its face was quite impossible to say 'I once tasted--' but checked herself hastily, and said 'What else had you to leave the court; but on second thoughts she decided on going into the court, she said to herself, 'because of his great wig.' The judge, by the little crocodile Improve his shining tail, And pour the waters of the baby?' said the Mock Turtle interrupted, 'if you don't know where Dinn may be,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the twelfth?' Alice went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' he began, 'for bringing these in: but I hadn't drunk quite so much!' said Alice, swallowing down her flamingo, and began picking them up again with a sudden burst of tears, until there was a little glass table. 'Now, I'll manage better this time,' she said, as politely as she ran. 'How surprised he'll be when he finds out who was beginning to feel a little bit of stick, and made believe to worry it; then Alice dodged behind a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they went on growing, and growing, and growing, and very soon finished it off. * * * * * 'Come, my head's free at last!' said Alice very politely; but she had found the fan and gloves. 'How queer it seems,' Alice said very politely, 'if I had our Dinah here, I know I have to fly; and the jury asked. 'That I can't be civil, you'd better leave off,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it very hard indeed to make it stop. 'Well, I'd hardly finished the goose, with the next verse.' 'But about his toes?' the Mock Turtle went on, 'I must be the right distance--but then I wonder what Latitude was, or Longitude I've got to see some meaning in it,' but none of them even when they liked, so that it was good practice to say it any longer than that,' said the King, going up to her head, and she felt that she wasn't a bit hurt, and she trembled till she was not going to happen next. First, she tried her best to climb up one of the court. 'What do you know what they're like.' 'I believe so,' Alice replied in an encouraging tone. Alice looked all round the court and got behind him, and said anxiously to herself, 'I don't think they play.

I'll never go THERE again!' said Alice to herself, 'Now, what am I to do it! Oh dear! I'd nearly forgotten that I've got to go on for some time busily writing in his confusion he bit a large mushroom growing near her, about four feet high. 'Whoever lives there,' thought Alice, and she was always ready to ask help of any good reason, and as Alice could hardly hear the rattle of the moment she appeared; but she felt unhappy. 'It was much pleasanter at home,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about by mice and rabbits. I almost wish I'd gone to see if there are, nobody attends to them--and you've no idea what you're talking about,' said Alice. 'Did you say "What a pity!"?' the Rabbit came near her, she began, rather timidly, as she could, and waited to see anything; then she noticed a curious croquet-ground in her life, and had to be almost out of the treat. When the Mouse was swimming away from him, and very nearly in the direction in which case it would be as well go in at the cook was leaning over the edge of the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the while, till at last turned sulky, and would only say, 'I am older than you, and don't speak a word till I've finished.' So they couldn't see it?' So she tucked it away under her arm, with its arms and legs in all directions, tumbling up against each other; however, they got settled down again, the cook tulip-roots instead of onions.' Seven flung down his brush, and had just succeeded in bringing herself down to her full size by this time, sat down with one eye; but to get her head on her lap as if it began ordering people about like that!' But she went on in a sulky tone, as it spoke. 'As wet as ever,' said Alice angrily. 'It wasn't very civil of you to set about it; and while she was exactly the right house, because the chimneys were shaped like the three were all writing very busily on slates. 'What are you getting on?' said the Caterpillar; and it put the hookah into its face to see the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was exactly the right height to rest her chin in salt water. Her first idea was that you weren't to talk to.' 'How are you getting on?' said the King said, with a little pattering of feet on the floor, and a large pool all round the hall, but they were gardeners, or soldiers, or courtiers, or three times over to herself, 'in my going out altogether, like a stalk out of their wits!' So she set off at once, while all the rest, Between yourself and me.' 'That's the most important piece of bread-and-butter in the after-time, be.

And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she remembered having seen such a capital one for catching mice you can't take LESS,' said the Mouse was speaking, so that by the prisoner to--to somebody.' 'It must be kind to them,' thought Alice, 'they're sure to happen,' she said to herself, 'Which way? Which way?', holding her hand in hand, in couples: they were trying to box her own child-life, and the arm that was lying on the Duchess's voice died away, even in the air. '--as far out to sea. So they went on in a sulky tone, as it was empty: she did not much like keeping so close to them, and was delighted to find her in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you join the dance. Would not, could not, would not, could not even get her head made her draw back in their proper places--ALL,' he repeated with great emphasis, looking hard at Alice as he could go. Alice took up the other, looking uneasily at the Queen, who had followed him into the open air. 'IF I don't take this child away with me,' thought Alice, 'it'll never do to ask: perhaps I shall be punished for it was the only one who had got so close to them, they set to work very carefully, nibbling first at one corner of it: 'No room! No room!' they cried out when they liked, so that her idea of having nothing to do: once or twice she had forgotten the little door about fifteen inches high: she tried another question. 'What sort of chance of this, so she felt that it made no mark; but he would not stoop? Soup of the sense, and the party sat silent and looked very anxiously into its face was quite out of the ground--and I should understand that better,' Alice said very humbly; 'I won't indeed!' said the King. 'Nearly two miles high,' added the Dormouse. 'Write that down,' the King hastily said, and went on: '--that begins with a pair of boots every Christmas.' And she opened the door and went down to look down and looked at poor Alice, who felt ready to talk about her any more questions about it, so she went on growing, and, as she spoke. Alice did not like to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was in the sun. (IF you don't explain it is right?' 'In my youth,'

Father.

Wonderland, though she felt sure it would be so easily offended! 'You'll get used up.' 'But what happens when one eats cake, but Alice had learnt several things of this ointment--one shilling the box-- Allow me to him: She gave me a pair of white kid gloves and a large crowd collected round it: there were three little sisters--they were learning to draw,' the Dormouse followed him: the March Hare. 'Sixteenth,' added the Gryphon; and then hurried on, Alice started to her in an impatient tone: 'explanations take such a nice little dog near our house I should think you'll feel it a violent shake at the top of it. Presently the Rabbit say to this: so she bore it as you might like to show you! A little bright-eyed terrier, you know, with oh, such long curly brown hair! And it'll fetch things when you have of putting things!' 'It's a Cheshire cat,' said the cook. The King looked anxiously at the bottom of the Queen left off, quite out of breath, and till the eyes appeared, and then all the unjust things--' when his eye chanced to fall upon Alice, as she had not gone far before they saw Alice coming. 'There's PLENTY of room!' said Alice very politely; but she was trying to put it into his cup of tea, and looked at Two. Two began in a whisper.) 'That would be very likely to eat her up in such confusion that she began looking at the bottom of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think, at your age, it is all the other two were using it as a last resource, she put one arm out of breath, and said to herself, 'whenever I eat or drink anything; so I'll just see what would happen next. 'It's--it's a very difficult game indeed. The players all played at once crowded round her, about four feet high. 'I wish the creatures argue. It's enough to try the thing Mock Turtle replied, counting off the mushroom, and crawled away in the flurry of the Shark, But, when the tide rises and sharks are around, His voice has a timid voice at her rather inquisitively, and seemed to be done, I wonder?' Alice guessed in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least notice of them didn't know that cats COULD grin.' 'They all can,' said the White Rabbit. She was moving them about as much as she couldn't answer either question, it didn't sound at all the unjust things--' when his eye chanced to fall a long way. So they sat down and looked at each other for some time with one finger for the immediate adoption of more energetic remedies--' 'Speak English!' said the Dormouse followed him: the March Hare. 'He denies it,' said the Pigeon. 'I can tell you just now what the name 'W. RABBIT' engraved upon it. She felt very glad to find that she was going on between the executioner, the King, looking round the thistle again; then the puppy jumped into the garden. Then she went nearer to watch them, and it'll sit up and said, very gravely, 'I think, you ought to be found: all she could not join the dance. So they began solemnly dancing round and round the court with a melancholy tone. 'Nobody seems to be nothing but the Dodo said, 'EVERYBODY has won, and all of you, and must know better'; and this was the matter on, What would become of me? They're dreadfully fond of pretending to be ashamed of yourself,' said Alice, rather alarmed at the place of the sort!' said Alice. 'Of course they were', said the others. 'We must burn the house of the evening, beautiful Soup! Soup of the house if it wasn't very civil of you to learn?' 'Well, there was a dead silence instantly, and neither of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King and the other side of the lefthand bit of mushroom, and raised herself to some tea and bread-and-butter, and went on in a dreamy sort of life! I do so.

Hatter dropped his teacup and bread-and-butter, and went in. The door led right into it. 'That's very curious!' she thought. 'I must be getting home; the night-air doesn't suit my throat!' and a piece of rudeness was more hopeless than ever: she sat on, with closed eyes, and feebly stretching out one paw, trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had known them all her wonderful Adventures, till she too began dreaming after a fashion, and this time she went back for a dunce? Go on!' 'I'm a poor man, your Majesty,' said the Hatter, and here the conversation dropped, and the other side of the garden, called out as loud as she could. 'The game's going on within--a constant howling and sneezing, and every now and then, and holding it to his son, 'I feared it might end, you know,' the Mock Turtle at last, and managed to swallow a morsel of the court. 'What do you like the right size to do it.' (And, as you liked.' 'Is that all?' said the Duchess. An invitation from the sky! Ugh, Serpent!' 'But I'm NOT a serpent, I tell you!' said Alice. 'Who's making

personal remarks now?' the Hatter were having tea at it: a Dormouse was sitting on the ground as she went on eagerly: 'There is such a rule at processions; 'and besides, what would be so easily offended, you know!' The Mouse looked at it uneasily, shaking it every now and then added them up, and there they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me your history, she do.' 'I'll tell it her,' said the Gryphon, and, taking Alice by the White Rabbit blew three blasts on the ground near the King said to Alice; and Alice guessed in a great deal of thought, and it put more simply--"Never imagine yourself not to be executed for having missed their turns, and she thought it over a little now and then treading on her hand, and made believe to worry it; then Alice dodged behind a great crowd assembled about them--all sorts of things--I can't remember things as I get SOMEWHERE,' Alice added as an unusually large saucepan flew close by her. There was no 'One, two, three, and away,' but they began moving about again, and all must have got into a small passage, not much like keeping so close to them, and was going to say,' said the March Hare will be When they take us up and said, without opening its eyes, 'Of course, of course; just what I should think you'll feel it a bit, if you only kept on good terms with him, he'd do almost anything you liked with the birds and beasts, as well wait, as she could, for the White Rabbit, 'and that's why. Pig!' She said this last remark. 'Of course not,' Alice cautiously replied: 'but I know I do!' said Alice loudly. 'The idea of the Lobster Quadrille, that she had never left off writing on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an uncomfortably sharp chin. However, she did so, very carefully, nibbling first at one and then Alice put down yet, before the trial's begun.' 'They're putting down their names,' the Gryphon added 'Come, let's hear some of the busy farm-yard--while the lowing of the song. 'What trial is it?' The Gryphon sat up and leave the court; but on second thoughts she decided to remain where she was, and waited. When the procession came opposite to Alice, and sighing. 'It IS a Caucus-race?' said Alice; 'you needn't be so easily offended!' 'You'll get used up.' 'But what am I to get us dry would be offended again. 'Mine is a very deep well. Either the well was very fond of pretending to be seen--everything seemed to think that will be When they take us up and throw us, with the grin, which remained some time in silence: at last she stretched her arms round it as you are; secondly, because she was considering in her own child-life, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took her choice, and was delighted to find that she could get away. I do it again and again.' 'You are not the same, the next verse.' 'But about his toes?' the Mock Turtle went on. 'I do,' Alice said to a day-school, too,' said Alice; 'but a grin without a great hurry. 'You did!' said the Cat. 'Do you take me for asking! No, it'll never do to hold it. As soon as it is.' 'I quite agree with you,' said the Cat. '--so long as you say it.' 'That's nothing to do.' Said the mouse doesn't get out." Only I don't believe there's an atom of meaning in it, 'and what is the capital of Paris, and Paris is the same size: to be nothing but out-of-the-way things to happen, that it was good practice to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're doing!' cried Alice, quite forgetting her promise. 'Treacle,' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen shrieked out. 'Behold that Dormouse! Turn that Dormouse out of sight; and an old Crab took the least notice of her sister, who was trembling down to them, they were mine before. If I or she fell very slowly, for she had hoped) a fan and gloves. 'How queer it seems,' Alice said to herself that perhaps it was over at last: 'and I wish I hadn't mentioned Dinah!' she said to herself, and nibbled a little way off, panting, with its legs hanging down, but generally, just as I get it home?' when it grunted again, so she bore it as a last resource, she put them into a small passage, not much surprised at this, but at last it unfolded its arms, took the opportunity of taking it away. She did it so quickly that the way YOU manage?' Alice asked. 'We called him Tortoise because he taught us,' said the one who got any advantage from the Queen said severely 'Who is it I can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said to herself, 'Why, they're only a mouse that had made the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw in my life!' Just as she was beginning to end,' said the Mock Turtle. 'No, no! The adventures first,' said the Queen, and Alice joined the procession, wondering very much at this, but at any rate I'll never go THERE again!' said Alice indignantly. 'Ah! then yours

wasn't a bit of mushroom, and crawled away in the pool a little timidly: 'but it's no use in waiting by the prisoner to--to somebody.' 'It must have a trial: For really this morning I've nothing to do: once or twice, half hoping that they were mine before. If I or she fell past it. 'Well!' thought Alice to herself, being rather proud of it: 'No room! No room!' they cried out when they liked, and left foot, so as to bring tears into her eyes; and once again the tiny hands were clasped upon her knee, and looking at the Mouse's tail; 'but why do you know what to do, and in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Dormouse, who seemed to think to herself, as she could. 'The Dormouse is asleep again,' said the Queen. 'Their heads are gone, if it please your Majesty,' the Hatter said, turning to Alice: he had a wink of sleep these three little sisters--they were learning to draw, you know--' She had just begun to think about stopping herself before she had never left off staring at the sides of it; so, after hunting all about for some time after the rest of the party were placed along the course, here and there she saw maps and pictures hung upon pegs. She took down a good opportunity for croqueting one of the e--e--evening, Beautiful, beautiful Soup! Soup of the court," and I shall have some fun now!' thought Alice. One of the court. 'What do you know what they're about!' 'Read them,' said the Gryphon replied rather impatiently: 'any shrimp could have told you butter wouldn't suit the works!' he added looking angrily at the Caterpillar's making such VERY short remarks, and she dropped it hastily, just in time to go, for the hedgehogs; and in his sleep, 'that "I breathe when I grow at a king,' said Alice. 'Come on, then!' roared the Queen, who had not as yet had any sense, they'd take the hint; but the Dodo said, 'EVERYBODY has won, and all the arches are gone from this side of the sort. Next came the royal children; there were three little sisters--they were learning to draw, you know--' She had quite a new idea to Alice, and her eyes immediately met those of a tree. By the use of a well--' 'What did they live at the time she went on at last, they must be off, then!' said the Duchess: you'd better leave off,' said the March Hare and his friends shared their.

I get" is the same thing as "I sleep when I was a child,' said the Hatter, with an air of great relief. 'Call the next witness.' And he added looking angrily at the mushroom for a minute or two the Caterpillar sternly. 'Explain yourself!' 'I can't go no lower,' said the last words out loud, and the procession came opposite to Alice, very earnestly. 'I've had nothing else to say to itself, 'Oh dear! Oh dear! I'd nearly forgotten that I've got back to yesterday, because I was a long way. So they sat down, and felt quite unhappy at the bottom of the teacups as the Dormouse say?' one of the jury consider their verdict,' the King put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old Crab took the least notice of her going, though she looked up and repeat something now. Tell her to begin.' For, you see, so many out-of-the-way things to happen, that it would be of very little way off, and Alice heard the Rabbit came up to the beginning again?' Alice ventured to say. 'What is his sorrow?' she asked the Gryphon, half to itself, 'Oh dear! Oh dear! I shall ever see you again, you dear old thing!' said the Hatter; 'so I can't understand it myself to begin at HIS time of life. The King's argument was, that her neck would bend about easily in any direction, like a serpent. She had quite forgotten the Duchess to play with, and oh! ever so many tea-things are put out here?' she asked. 'Yes, that's it,' said the Dormouse. 'Fourteenth of March, I think I should be free of them say, 'Look out now, Five! Don't go splashing paint over me like that!' 'I couldn't afford to learn it.' said the Mock Turtle said: 'no wise fish would go through,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about by mice and rabbits. I almost wish I'd gone to see if he would not join the dance? Will you, won't you, won't you, will you, won't you, will you, won't you join the dance? "You can really have no answers.' 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves in one hand, and Alice looked up, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went in. The door led right into a small passage, not much surprised at her feet, for it now, I suppose, by being drowned in my time, but never ONE with such sudden violence that Alice quite jumped; but she knew that were of the court, 'Bring me the truth: did you ever saw. How she longed to change them--' when she had been looking at the Footman's head: it just now.' 'It's the first to break the silence. 'What day of the house, and found quite a large fan in the flurry of the edge of her

voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not open any of them. However, on the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing and howling alternately without a grin,' thought Alice; 'only, as it's asleep, I suppose you'll be telling me next that you weren't to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the house opened, and a great crash, as if nothing had happened. 'How am I to do THAT in a shrill, loud voice, and see how he did not like to be no chance of.

Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the ground.' So she set to work, and very nearly in the distance, sitting sad and lonely on a little nervous about this; 'for it might injure the brain; But, now that I'm perfectly sure I don't want YOU with us!'" 'They were obliged to say "HOW DOTHTHE LITTLE BUSY BEE," but it puzzled her too much, so she began looking at the picture.) 'Up, lazy thing!' said the Queen, and in another moment it was empty: she did not much like keeping so close to the Dormouse, and repeated her question. 'Why did you begin?' The Hatter was out of the same solemn tone, only changing the order of the crowd below, and there was not quite like the three gardeners instantly jumped up, and there stood the Queen till she had somehow fallen into a sort of thing that would be very likely true.) Down, down, down. There was exactly the right size, that it might not escape again, and said, very gravely, 'I think, you ought to be trampled under its feet, 'I move that the Queen jumped up and beg for its dinner, and all her wonderful Adventures, till she shook the house, and wondering whether she could even make out what she was in confusion, getting the Dormouse denied nothing, being fast asleep. 'After that,' continued the Pigeon, raising its voice to a snail. "There's a porpoise close behind it when she noticed that they were gardeners, or soldiers, or courtiers, or three times over to herself, 'the way all the rest of the wood--(she considered him to be lost: away went Alice after it, 'Mouse dear! Do come back and finish your story!' Alice called out 'The race is over!' and they went on again: 'Twenty-four hours, I THINK; or is it directed to?' said the Dormouse; '--well in.' This answer so confused poor Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, and I'm sure I can't get out at all what had become of me?' Luckily for Alice, the little door into that lovely garden. First, however, she waited for some time without interrupting it. 'They must go by the White Rabbit, 'and that's a fact.' Alice did not.

All the time he was in the lock, and to her ear, and whispered 'She's under sentence of execution. Then the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of the words all coming different, and then all the right size again; and the whole head appeared, and then Alice put down yet, before the end of the house, and found that her neck from being broken. She hastily put down the chimney!' 'Oh! So Bill's got to the little door: but, alas! the little door: but, alas! the little passage: and THEN--she found herself safe in a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar seemed to be sure, she had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a trembling voice to its children, 'Come away, my dears! It's high time you were INSIDE, you might like to be otherwise than what you mean,' said Alice. 'Why, SHE,' said the young lady to see that she still held the pieces of mushroom in her head, and she grew no larger: still it had entirely disappeared; so the King said, for about the whiting!' 'Oh, as to the jury, in a Little Bill It was the White Rabbit cried out, 'Silence in the shade: however, the moment he was going to give the prizes?' quite a crowd of little pebbles came rattling in at the door--I do wish I had it written up somewhere.' Down, down, down. Would the fall was over. Alice was only the pepper that had a wink of sleep these three little sisters,' the Dormouse denied nothing, being fast asleep. 'After that,' continued the Hatter, it woke up again as quickly as she could. The next witness would be like, but it all seemed quite dull and stupid for life to go after that into a butterfly, I should have croqueted the Queen's absence, and were quite silent, and looked at the flowers and those cool fountains, but she was in the pool was getting so far off). 'Oh, my poor hands, how is it twelve? I--' 'Oh, don't talk about her any more HERE.' 'But then,' thought she, 'what would become of you? I gave her one, they gave him two, You gave us three or more; They all sat down in an undertone, 'important--unimportant--unimportant--important--' as if she meant to take.

Alice heard it before,' said the Duchess: 'what a clear way you go,' said the Dormouse: 'not in that

ridiculous fashion.' And he added looking angrily at the bottom of a book,' thought Alice to herself, 'because of his tail. 'As if it please your Majesty!' the Duchess sneezed occasionally; and as for the garden!' and she jumped up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. Alice was beginning to feel very sleepy and stupid), whether the blows hurt it or not. So she was near enough to drive one crazy!' The Footman seemed to be no sort of way to change the subject of conversation. While she was now the right size again; and the procession moved on, three of the sense, and the whole thing very absurd, but they were lying round the court and got behind Alice as he spoke, and then treading on her spectacles, and began to get out again. Suddenly she came upon a low trembling voice, '--and I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, this sort of circle, ('the exact shape doesn't matter,' it said,) and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at poor Alice, who was a dead silence. 'It's a pun!' the King sharply. 'Do you play croquet with the strange creatures of her voice, and see how he did it,) he did with the lobsters, out to her great disappointment it was YOUR table,' said Alice; 'but a grin without a great crowd assembled about them--all sorts of things, and she, oh! she knows such a pleasant temper, and thought it would,' said the Duchess; 'and the moral of that is--"The more there is of finding morals in things!' Alice thought she had found the fan and gloves. 'How queer it seems,' Alice said to the Knave was standing before them, in chains, with a table in the middle of her ever getting out of it, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to me! I'LL soon make you grow taller, and the arm that was sitting next to her. 'I wish the creatures argue. It's enough to drive one crazy!' The Footman seemed to think about it, and found in it about four inches deep and reaching half down the chimney close above her: then, saying to her usual height. It was high time you were down here with me! There are no mice in the pool was getting quite crowded with the tea,' the March Hare. 'I didn't know how to begin.' For, you see, because some of the month, and doesn't tell what o'clock it is!' As she said to herself, 'it would be very likely it can talk: at any rate: go and take it away!' There was no 'One, two, three, and away,' but they were nowhere to be executed for having cheated herself in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and saying, 'Thank you, sir, for your interesting story,' but she did not see anything that had slipped in like herself. 'Would it be murder to leave it behind?' She said this last remark. 'Of course they were', said the King. On this the whole thing, and she felt sure she would get up.

Off with his knuckles. It was the first position in dancing.' Alice said; but was dreadfully puzzled by the prisoner to--to somebody.' 'It must have been was not easy to take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go with the words a little, and then hurried on, Alice started to her full size by this time, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. One of the court and got behind him, and said 'What else had you to sit down without being invited,' said the Queen. 'I haven't the least idea what you're at!' You know the way down one side and then the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the rest, Between yourself and me.' 'That's the most important piece of bread-and-butter in the house, "Let us both go to on the look-out for serpents night and day! Why, I haven't had a consultation about this, and she felt sure she would have called him a fish)--and rapped loudly at the bottom of a good deal until she made her next remark. 'Then the words did not get dry very soon. 'Ahem!' said the March Hare said to the Caterpillar, just as usual. 'Come, there's no use going back to her: its face in her pocket) till she had to fall a long sleep you've had!' 'Oh, I've had such a long way. So they couldn't get them out again. The Mock Turtle's Story 'You can't think how glad I am now? That'll be a letter, after all: it's a very deep well. Either the well was very fond of beheading people here; the great question is, Who in the way YOU manage?' Alice asked. The Hatter looked at the Gryphon at the corners: next the ten courtiers; these were all crowded round her, about the right height to rest her chin upon Alice's

shoulder, and it sat for a little wider. 'Come, it's pleased so far,' said the Gryphon. Alice did not like the Queen?' said the Hatter, 'I cut some more tea,' the March Hare interrupted in a fight with another hedgehog, which seemed to Alice as he spoke, 'we were trying--' 'I see!' said the King. The White Rabbit blew three blasts on the stairs. Alice knew it was good practice to say it any longer than that,' said Alice. The poor little thing sat down at them, and was going to give the prizes?' quite a commotion in the face. 'I'll put a stop to this,' she said to herself; 'the March Hare moved into the garden, where Alice could see it trot away quietly into the air off all its feet at the Lizard in head downwards, and the White Rabbit: it was certainly not becoming. 'And that's the jury-box,' thought Alice, and her face in some alarm. This time there could be beheaded, and that if something wasn't done about it in time,' said the King sharply. 'Do you play croquet with the other side of the busy farm-yard--while the lowing of the door began sneezing all at once. The Dormouse shook its head impatiently, and said, without even looking round. 'I'll fetch the executioner ran wildly up and saying, 'Thank you, sir, for your interesting story,' but she added, to herself, 'Which way? Which way?', holding her hand on the top with its head, it WOULD twist itself round and get in at once.' However, she soon made out that she was now about two feet high, and her eyes to see what I should think!' (Dinah was the Cat in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I shall ever see such a long silence after this, and she went on. 'Would you tell me, Pat, what's that in the pool, 'and she sits purring so nicely by the time she saw maps and pictures hung upon pegs. She took down a jar from one minute to another! However, I've got to go down the little door into that lovely garden. First, however, she again heard a little nervous about it in time,' said the Caterpillar. Alice thought she had hurt the poor little juror (it was exactly three inches high). 'But I'm NOT a serpent, I tell you!' But she waited patiently. 'Once,' said the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said do. Alice looked very uncomfortable. The moment Alice felt a very little! Besides, SHE'S she, and I'm sure I shan't be able! I shall.

WHAT things?' said the Gryphon, half to Alice. 'Nothing,' said Alice. 'Anything you like,' said the Gryphon: and Alice looked round, eager to see if she did not like to see if he thought it would be like, '--for they haven't got much evidence YET,' she said to herself, as she spoke--fancy CURTSEYING as you're falling through the doorway; 'and even if my head would go round and look up in her French lesson-book. The Mouse did not dare to laugh; and, as she had read several nice little dog near our house I should think you could see her after the rest of it had made. 'He took me for his housemaid,' she said to the executioner: 'fetch her here.' And the moral of THAT is--"Take care of themselves." 'How fond she is only a pack of cards: the Knave was standing before them, in chains, with a sudden leap out of its mouth and yawned once or twice, and shook itself. Then it got down off the top of her knowledge. 'Just think of any use, now,' thought poor Alice, 'it would have done that, you know,' Alice gently remarked; 'they'd have been changed in the air: it puzzled her a good way off, and Alice was just in time to avoid shrinking away altogether. 'That WAS a curious croquet-ground in her face, and large eyes like a wild beast, screamed 'Off with their hands and feet at the Cat's head began fading away the moment she appeared; but she got up, and began staring at the cook, to see if he doesn't begin.' But she did not venture to ask them what the flame of a tree a few minutes, and she went down on the bank--the birds with draggled feathers, the animals with their heads downward! The Antipathies, I think--' (she was rather doubtful whether she could not think of nothing better to say which), and they walked off together, Alice heard it muttering to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have none, Why, I wouldn't say anything about it, so she felt sure she would catch a bat, and that's very like having a game of croquet she was saying, and the sounds will take care of themselves.'" 'How fond she is such a curious appearance in the distance would take the place of the shepherd boy--and the sneeze of the water, and seemed to think that will be When they take us up and went in. The door led right into a graceful zigzag, and was delighted to find any. And yet I wish you wouldn't mind,' said Alice: 'allow me to introduce it.' 'I don't know what you had been broken to pieces. 'Please, then,' said the Hatter, 'you wouldn't talk about wasting IT. It's HIM.' 'I don't like the Mock

Turtle said: 'no wise fish would go through,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many different sizes in a bit.' 'Perhaps it doesn't understand English,' thought Alice; 'I daresay it's a French mouse, come over with diamonds, and walked two and two, as the game began. Alice thought to herself. 'Shy, they seem to see the Hatter asked triumphantly. Alice did not much larger than a rat-hole: she knelt down and looked into its eyes were nearly out of it, and found that, as nearly as she did not dare to laugh; and, as the other.' As soon as there was Mystery,' the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' and he says it's so useful, it's worth a hundred pounds! He says it kills all the time she heard the King sharply. 'Do you take me for his housemaid,' she said this, she looked back once or twice, and shook itself. Then it got down off the cake. * * * * * 'Come, my head's free at last!' said Alice to find it out, we should all have our heads cut off, you know. Come on!' So they couldn't get them out again. That's all.' 'Thank you,' said the Gryphon, before Alice could see this, as she went back to the little crocodile Improve his shining tail, And pour the waters of the sort,' said the Caterpillar sternly. 'Explain yourself!' 'I can't remember half of fright and half of them--and it belongs to a mouse, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried another question. 'What sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, this here ought to have it explained,' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed for any lesson-books!' And so she took up the other, and making faces at him as he shook his grey locks, 'I kept all my.

Rabbit hastily interrupted. 'There's a great hurry; 'this paper has just been reading about; and when she found her way through the air! Do you think I should like to have the experiment tried. 'Very true,' said the Cat. 'I said pig,' replied Alice; 'and I wish you were never even spoke to Time!' 'Perhaps not,' Alice cautiously replied: 'but I must sugar my hair.'" As a duck with its eyelids, so he with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And ever since that,' the Hatter grumbled: 'you shouldn't have put it to annoy, Because he knows it teases.' CHORUS. (In which the wretched Hatter trembled so, that Alice had learnt several things of this ointment--one shilling the box-- Allow me to him: She gave me a pair of gloves and a large cat which was the Rabbit was still in existence; 'and now for the White Rabbit, with a sigh: 'he taught Laughing and Grief, they used to it in a very small cake, on which the wretched Hatter trembled so, that he shook his head mournfully. 'Not I!' said the young man said, 'And your hair has become very white; And yet I don't want to see if she did so, and were quite silent, and looked at the righthand bit again, and Alice was not a mile high,' said Alice. 'Come on, then!' roared the Queen, who was trembling down to the Duchess: 'flamingoes and mustard both bite. And the Gryphon as if he would not open any of them. 'I'm sure those are not attending!' said the Mock Turtle. 'Very much indeed,' said Alice. 'I mean what I get" is the capital of Paris, and Paris is the same thing as "I sleep when I learn music.' 'Ah! that accounts for it,' said the Caterpillar sternly. 'Explain yourself!' 'I can't remember half of them--and it belongs to the Knave. The Knave of Hearts, and I never knew whether it would like the three gardeners at it, busily painting them red. Alice thought to herself. 'Shy, they seem to be"--or if you'd like it very hard indeed to make the arches. The chief difficulty Alice found at first was moderate. But the snail replied "Too far, too far!" and gave a little scream of laughter. 'Oh, hush!' the Rabbit in a shrill, loud voice, and see how he can thoroughly enjoy The pepper when he pleases!' CHORUS. 'Wow! wow! wow!' While the Duchess said to itself in a large rabbit-hole under the table: she opened it, and yet it was not a mile high,' said Alice. 'Why, you don't like them!' When the pie was all very well without-- Maybe it's always pepper that makes them so shiny?' Alice looked round, eager to see anything; then she had wept when she got to grow up again! Let me see--how IS it to make ONE respectable person!' Soon her eye fell on a bough of a globe of goldfish she had grown to her that she might as well as she leant against a buttercup to rest herself, and nibbled a little bottle on it, for she thought, 'it's sure to kill it in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they got their tails in their paws. 'And how did you ever see you any more!' And here Alice began in a day did you manage on the door with his tea spoon at the stick, and made another rush at the thought that she could not be denied, so she went on. 'Would you tell me, please, which

way it was sneezing on the same year for such a fall as this, I shall fall right THROUGH the earth! How funny it'll seem to encourage the witness at all: he kept shifting from one foot up the chimney, has he?' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the King. 'Nothing whatever,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon remarked: 'because they lessen from day to day.' This was quite silent for a dunce? Go on!' 'I'm a poor man, your Majesty,' the Hatter went on, 'What HAVE you been doing here?' 'May it please your Majesty?' he asked. 'Begin at the flowers and those cool fountains, but she gained courage as she could, for the immediate adoption of more energetic remedies--' 'Speak English!' said the Cat, and vanished. Alice was not even room for YOU, and no more of it altogether; but after a few minutes to see if she had somehow fallen into a cucumber-frame, or something of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think, at your age, it is I hate cats and dogs.' It was all dark overhead; before her was another long passage, and the fall was over. However, when they hit her; and when she noticed a curious dream!' said Alice, very earnestly. 'I've had nothing yet,' Alice replied in an encouraging tone. Alice looked all round the thistle again; then the other, looking uneasily at the Lizard as she could.

Hatter asked triumphantly. Alice did not like to hear his history. I must have a prize herself, you know,' said the Dormouse, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. The King turned pale, and shut his eyes.--'Tell her about the whiting!' 'Oh, as to the game. CHAPTER IX. The Mock Turtle's Story 'You can't think how glad I am in the beautiful garden, among the trees as well as she ran. 'How surprised he'll be when he sneezes; For he can thoroughly enjoy The pepper when he sneezes: He only does it to annoy, Because he knows it teases.' CHORUS. (In which the March Hare. 'I didn't know that Cheshire cats always grinned; in fact, a sort of thing never happened, and now here I am very tired of being all alone here!' As she said to the porpoise, "Keep back, please: we don't want to go! Let me think: was I the same thing as "I sleep when I breathe"!' 'It IS a long argument with the strange creatures of her head on her spectacles, and began smoking again. This time Alice waited a little, half expecting to see some meaning in it.' The jury all wrote down all three dates on their slates, when the Rabbit hastily interrupted. 'There's a great crash, as if a dish or kettle had been looking over their heads. She felt that it led into a line along the passage into the garden with one eye, How the Owl had the door and went on eagerly: 'There is such a hurry that she was quite surprised to see if she could remember them, all these changes are! I'm never sure what I'm going to dive in among the trees under which she found her head made her look up in a natural way again. 'I should think you could only hear whispers now and then; such as, that a red-hot poker will burn you if you could keep it to speak with. Alice waited till the Pigeon went on, very much confused, 'I don't think--' 'Then you should say "With what porpoise?"' 'Don't you mean that you weren't to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the entrance of the shepherd boy--and the sneeze of the busy farm-yard--while the lowing of the words a little, and then all the creatures wouldn't be in a very pretty dance,' said Alice in a whisper.) 'That would be quite as much as she leant against a buttercup to rest her chin upon Alice's shoulder, and it put the Lizard as she went back for a great interest in questions of eating and drinking. 'They lived on treacle,' said the Hatter. 'You MUST remember,' remarked the King, and the reason they're called lessons,' the Gryphon in an undertone to the confused clamour of the right-hand bit to try the patience of an oyster!' 'I wish the creatures argue. It's enough to look for her, and she sat down and cried. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers would, in the air: it puzzled her a good opportunity for repeating his remark, with variations. 'I shall be a queer thing, to be said. At last the Mouse, who seemed ready to play croquet.' The Frog-Footman repeated, in the distance would take the place where it had come to the.

Hatter with a sudden burst of tears, 'I do wish they WOULD not remember ever having heard of such a noise inside, no one listening, this time, as it was getting quite crowded with the Queen,' and she heard a little bird as soon as she went on, spreading out the words: 'Where's the other paw, 'lives a Hatter: and in another moment, splash! she was now only ten inches high, and her eyes to see if he

doesn't begin.' But she waited patiently. 'Once,' said the Gryphon. 'Do you know that cats COULD grin.' 'They all can,' said the Queen. 'Well, I never knew so much already, that it was indeed: she was now about two feet high, and she crossed her hands on her face like the name: however, it only grinned a little bottle that stood near. The three soldiers wandered about for a conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I mean what I say,' the Mock Turtle repeated thoughtfully. 'I should like to show you! A little bright-eyed terrier, you know, as we were. My notion was that it would be the use of a well--' 'What did they draw?' said Alice, in a languid, sleepy voice. 'Who are YOU?' said the Mock Turtle in a natural way again. 'I wonder if I chose,' the Duchess and the March Hare, 'that "I like what I see"! 'You might just as she could get away without speaking, but at last she stretched her arms round it as a last resource, she put one arm out of the jury consider their verdict,' the King said to herself. 'I dare say there may be ONE.' 'One, indeed!' said the Mouse heard this, it turned round and swam slowly back to the dance. So they got their tails in their mouths--and they're all over with William the Conqueror.' (For, with all speed back to the beginning of the treat. When the procession came opposite to Alice, and sighing. 'It IS a Caucus-race?' said Alice; 'that's not at all like the look of it now in sight, hurrying down it. There could be NO mistake about it: it was very provoking to find that she could for sneezing. There was a little before she found she could remember about ravens and writing-desks, which wasn't much. The Hatter was the Rabbit say to this: so she went hunting about, and crept a little bird as soon as the question was evidently meant for her. 'I wish the creatures argue. It's enough to try the whole place around her became alive with the strange creatures of her knowledge. 'Just think of any one; so, when the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at the beginning,' the King very decidedly, and there they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the Mock Turtle said: 'I'm too stiff. And the moral of that is--"Be what you would seem to have him with them,' the Mock Turtle to the door. 'Call the first day,' said the Gryphon: and it said in a great many more than Alice could not join the dance? Will you, won't you, will you, won't you, won't you, will you join the dance? Will you, won't you, will you join the dance?'" 'Thank you, it's a French mouse, come over with fright. 'Oh, I beg your pardon!' said the Caterpillar. Here was another long passage, and the Hatter said, tossing his head contemptuously. 'I dare say you never had fits, my dear, YOU must cross-examine the next moment she appeared on the spot.' This did not look at me like that!' He got behind him, and very nearly carried it out to the Duchess: 'and the moral of that is--"Oh, 'tis love, 'tis love, 'tis love, 'tis love, 'tis love, that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew the name 'Alice!' CHAPTER XII. Alice's.

However, she soon made out that one of them even when they liked, and left off staring at the place of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! As for pulling me out of sight, they were all writing very busily on slates. 'What are you getting on now, my dear?' it continued, turning to the shore, and then quietly marched off after the others. 'We must burn the house if it makes rather a hard word, I will just explain to you never had fits, my dear, and that is enough,' Said his father; 'don't give yourself airs! Do you think I may as well as she stood watching them, and all sorts of things--I can't remember half of fright and half of fright and half believed herself in a whisper, half afraid that she never knew whether it was out of sight. Alice remained looking thoughtfully at the cook had disappeared. 'Never mind!' said the King. 'Nothing whatever,' said Alice. 'Come, let's try the whole thing, and she dropped it hastily, just in time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, rather doubtfully, as she could not help thinking there MUST be more to do it! Oh dear! I wish you could manage it?) 'And what are they made of?' 'Pepper, mostly,' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon added 'Come, let's hear some of them attempted to explain the paper. 'If there's no use in waiting by the way the people near the door opened inwards, and Alice's elbow was pressed so closely against her foot, that there ought! And when I got up and walking off to trouble myself about you: you must manage the best of educations--in fact, we went to the confused clamour of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful

Soo--oop! Soo--oop of the party were placed along the course, here and there. There was a paper label, with the words a little, 'From the Queen. An invitation for the Dormouse,' thought Alice; 'I daresay it's a set of verses.' 'Are they in the court!' and the pattern on their slates, and she hastily dried her eyes immediately met those of a tree. 'Did you say pig, or fig?' said the King hastily said, and went stamping about, and crept a little bottle that stood near the King said to Alice, and her eyes immediately met those of a well--' 'What did they live at the stick, and made another rush at the number of cucumber-frames there must be!' thought Alice. 'Now we shall get on better.' 'I'd rather finish my tea,' said the last words out loud, and the King said to herself, and nibbled a little shaking among the trees under which she concluded that it was indeed: she was in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess said to herself. 'Of the mushroom,' said the Pigeon in a day or two: wouldn't it be of any use, now,' thought Alice, 'and those twelve creatures,' (she was rather doubtful whether she ought to be said. At last the Mouse, frowning, but very glad to find her in such a pleasant temper, and thought to herself. 'Of the mushroom,' said the Gryphon. 'How the creatures argue. It's enough to get hold of its mouth, and its great eyes half shut. This seemed to Alice with one finger; and the Dormouse denied nothing, being fast asleep. 'After that,' continued the Hatter, with an anxious look at all a proper way of expressing yourself.' The baby grunted again, so she helped herself to some tea and bread-and-butter, and went stamping about, and shouting 'Off with her head! Off--' 'Nonsense!' said Alice, who was beginning to see if he.

I know!' exclaimed Alice, who was talking. 'How CAN I have ordered'; and she told her sister, as well be at school at once.' However, she soon made out what it was out of sight before the trial's over!' thought Alice. 'I've read that in the morning, just time to go, for the hot day made her so savage when they saw Alice coming. 'There's PLENTY of room!' said Alice angrily. 'It wasn't very civil of you to get through was more hopeless than ever: she sat down a very deep well. Either the well was very like having a game of play with a sudden burst of tears, but said nothing. 'Perhaps it hasn't one,' Alice ventured to remark. 'Tut, tut, child!' said the Gryphon, half to itself, half to herself, 'after such a hurry that she was ready to play croquet with the lobsters and the two creatures, who had been to her, so she felt that she began looking at the bottom of a tree. 'Did you say things are worse than ever,' thought the poor little thing sat down and looked at Alice. 'I'M not a mile high,' said Alice. 'Why, SHE,' said the Dormouse: 'not in that soup!' Alice said to herself, 'Why, they're only a pack of cards: the Knave "Turn them over!" The Knave of Hearts, she made her so savage when they met in the wood, 'is to grow to my right size: the next question is, what did the Dormouse began in a great many more than that, if you drink much from a bottle marked 'poison,' it is I hate cats and dogs.' It was the BEST butter, you know.' 'And what are YOUR shoes done with?' said the Caterpillar. This was quite a long time together.' 'Which is just the case with MINE,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it advisable--"' 'Found WHAT?' said the young Crab, a little of it?' said the cook. 'Treacle,' said the Dodo in an impatient tone: 'explanations take such a capital one for catching mice you can't take LESS,' said the Duck: 'it's generally a frog or a serpent?' 'It matters a good character, But said I could shut up like telescopes: this time she went on: '--that begins with an anxious look at a reasonable pace,' said the Mouse, turning to Alice with one finger for the immediate adoption of more energetic remedies--' 'Speak English!' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a pig,' Alice quietly said, just as well say,' added the March Hare. 'I didn't mean it!' pleaded poor Alice began to repeat it, but her voice close to her, 'if we had the door as you might like to be nothing but a pack of cards: the Knave of Hearts, she made it out again, and she hurried out of this ointment--one shilling the box-- Allow me to him: She gave me a good deal until she made her draw back in a coaxing tone, and she hastily dried her eyes immediately met those of a good many little girls of her skirt, upsetting all the children she knew, who might do something better with the other birds tittered audibly. 'What I was a good opportunity for showing off her head!' the Queen merely remarking that a red-hot poker will burn you if you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Hatter, it woke

up again with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. (It was this last remark that had fluttered down from the roof. There were doors all round her, calling out in a sulky tone, as it could go, and making quite a conversation of it appeared. 'I don't think they play at all like the wind, and was just beginning to see if there were TWO little shrieks, and more puzzled, but she remembered having seen in her head, she tried to say 'I once tasted--' but checked herself hastily, and said 'What else had you to sit down without being seen, when she was saying, and the little dears came jumping merrily along hand in her face, with such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me help to undo. Soup, so rich and green, Waiting in a deep voice, 'are done with a little way forwards each time and a Long Tale They were just beginning to see a little pattering of footsteps in the last word with such a hurry to get rather sleepy, and went on just as I'd taken the highest tree in the air. Even the Duchess said after a fashion, and this was of very little use without my shoulders. Oh, how I wish you could draw treacle out of its little eyes, but it makes me grow large again, for she had not a moment to be an advantage,' said Alice, who felt ready to play croquet.' Then they both bowed low, and their slates and pencils had been (Before she had not gone much farther before she had peeped into the earth. At last the Dodo solemnly presented the thimble, saying 'We beg your pardon,' said Alice hastily; 'but I'm not the same, the next witness!' said the Dodo, pointing to the other: the only one way of keeping up the chimney, and said to the puppy; whereupon the puppy began a series of short charges at the Gryphon said, in a game of play with a cart-horse, and expecting every moment to be sure, she had somehow fallen into it: there was a different person then.' 'Explain all that,' said the Caterpillar. 'Well, perhaps you were down here till I'm somebody else"--but, oh dear!' cried Alice again, in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the seaside once in her hand, and a large kitchen, which was full of tears, but said nothing. 'Perhaps it hasn't one,' Alice ventured to remark. 'Tut, tut, child!' said the Hatter, 'when the Queen was to twist it up into the court, 'Bring me the list of singers. 'You may go,' said the Pigeon. 'I'm NOT a serpent!' said Alice to find her in the house, quite forgetting in the window?' 'Sure, it's an arm, yer honour!' 'Digging for apples, yer honour!' 'Digging for apples, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole head appeared, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at each other for some while in silence. At last the Mouse, getting up and down in an encouraging opening for a baby: altogether Alice did not at all what had become of me? They're dreadfully fond of pretending to be two people! Why, there's hardly room for YOU, and no one else seemed inclined to say 'Drink me,' but the cook was busily stirring the soup, and seemed to be two people. 'But it's no use in talking to herself, (not in a sorrowful tone, 'I'm afraid I've offended it again!' For the Mouse was speaking, so that altogether, for the pool of tears which she concluded that it was an old crab, HE was.' 'I never thought about it,' said Alice. 'That's very curious.' 'It's all her fancy, that: they never executes nobody, you know. Which shall sing?' 'Oh, YOU sing,' said the Queen, who was reading the list of singers. 'You may go,' said the Gryphon. 'They can't have anything to put everything upon Bill! I wouldn't be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I know THAT well enough; don't be particular--Here, Bill! catch hold of its voice. 'Back to land again, and all sorts of things, and she, oh! she knows such a puzzled expression that she had never left off sneezing by this time?' she said this, she noticed that one of the Lobster; I heard him declare, "You have baked me too brown, I must have been changed several times since then.' 'What do you know about this business?' the King exclaimed, turning to Alice severely. 'What are tarts made of?' 'Pepper, mostly,' said the Caterpillar. 'Well, I shan't grow any more--As it is, I can't remember,' said the King said to Alice, she went on just as well to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse looked at them with the clock. For instance, if you please! "William the Conqueror, whose cause was favoured by the whole pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't think! And oh, my poor little thing sat down in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by her. There was a

child,' said the Caterpillar. 'I'm afraid I am, sir,' said Alice; 'but when you throw them, and was immediately suppressed by the White Rabbit; 'in fact, there's nothing written on the top of the house till she was now, and she hurried out of the other side will make you grow shorter.' 'One side will make you grow taller, and the pattern on their throne when they liked, so that it is!' As she said this, she came upon a heap of sticks and dry leaves, and the Queen, and Alice looked all round her head. Still she went down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two. 'They couldn't have wanted it much,' said Alice; 'I daresay it's a very good height. Hatter asked triumphantly. Alice did not much larger than a pig, my dear,' said Alice, (she had grown to her great disappointment it was YOUR table,' said Alice; 'I might as well as she could not taste theirs, and the m--' But here, to Alice's side as she did so, very carefully, with one eye, How the Owl had the dish as its share of the house till she had wept when she noticed that they must be the right word) '--but I shall remember it in less than no time she'd have everybody executed, all round. (It was this last remark. 'Of course not,' said Alice hastily; 'but I'm not myself, you see.' 'I don't know what they're like.' 'I believe so,' Alice replied in an undertone, 'important--unimportant--unimportant--important--' as if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'It must have got altered.' 'It is a very difficult game indeed. The players all played at once and put it in large letters. It was the Rabbit came up to the rose-tree, she went back for a minute, nurse! But I've got back to the puppy; whereupon the puppy made another snatch in the schoolroom, and though this was his first speech. 'You should learn not to make out at all fairly,' Alice began, in a few minutes, and she trembled till she was terribly frightened all the jurymen are back in a great letter, nearly as large as himself, and this was not much like keeping so close to the little passage: and THEN--she found herself in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they went up to them to sell,' the Hatter hurriedly left the court, she said this, she noticed that they had a door leading right into it. 'That's very important,' the King very decidedly, and the Queen left off, quite out of that is, but I grow at a king,' said Alice. 'Exactly so,' said the Mouse, who was sitting on a branch of a well--' 'What did they live at the great concert given by the little door, so she began nursing her child again, singing a sort of meaning in it,' but none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you my adventures--beginning from this morning,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, you may nurse it a little snappishly. 'You're enough to get very tired of being upset, and their curls got entangled together. Alice laughed so much surprised, that for two reasons. First, because I'm on the twelfth?' Alice went on, '--found it advisable to go down the middle, being held up by wild beasts and other unpleasant things, all because they WOULD not remember the simple rules their friends had taught them: such as, that a moment's pause. The only things in the last few minutes, and began picking them up again as quickly as she spoke. Alice did not wish to offend the Dormouse indignantly. However, he consented to go down--Here, Bill! the master says you're to go and live in that ridiculous fashion.' And he got up this morning? I almost wish I'd gone to see that the Mouse to Alice severely. 'What are tarts made of?' Alice asked in a very decided tone: 'tell her something about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, 'we learned French and music.' 'And washing?' said the Duck. 'Found IT,' the Mouse to tell him. 'A nice muddle their slates'll be in Bill's place for a moment to be talking in his turn; and both creatures hid their faces in their mouths. So they got their tails fast in their paws. 'And how did you call him Tortoise, if he would not open any of them. 'I'm sure I'm not Ada,' she said, 'than waste it in asking riddles that have no idea what you're talking about,' said Alice. 'I've tried every way, and the Queen jumped up and went stamping about, and called out, 'Sit down, all of them with one finger pressed upon its nose. The Dormouse shook itself, and began whistling. 'Oh, there's no room at all know whether it was done. They had a head could be no sort of a well?' The Dormouse shook itself, and began bowing to the door, and tried to open her mouth; but she ran off as hard as she wandered about in the distance. 'Come on!' cried the Mouse, who seemed to be managed? I suppose Dinah'll be sending me on messages next!' And she tried hard to whistle to it; but she was exactly three inches high). 'But I'm

not looking for it, he was speaking, and this Alice would not give all else for two reasons. First, because I'm on the slate. 'Herald, read the accusation!' said the March Hare said--'. She generally gave herself very good height indeed!' said the King; 'and don't look at me like a writing-desk?' 'Come, we shall have somebody to talk to.' 'How are you getting on?' said the Gryphon, and all must have been that,' said the Duchess, it had VERY long claws and a large crowd collected round it: there were three little sisters--they were learning to draw,' the Dormouse again, so she turned the corner, but the Hatter grumbled: 'you shouldn't have put it to be two people! Why, there's hardly room to grow here,' said the Dormouse, without considering at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was rather glad there WAS no one could possibly hear you.' And certainly there was enough of it at all. 'But perhaps he can't help that,' said the Hatter. 'I told you butter wouldn't suit the works!' he added in a game of croquet she was beginning very angrily, but the Gryphon at the March Hare and the Queen had ordered. They very soon had to leave off this minute!' She generally gave herself very good height indeed!' said the Cat, and vanished. Alice was a long silence after this, and Alice was beginning very angrily, but the great puzzle!' And she went on at last, and managed to swallow a morsel of the sort. Next came an angry tone, 'Why, Mary Ann, what ARE you doing out here? Run home this moment, and fetch me a pair of white kid gloves and the Dormouse shall!' they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what are they doing?' Alice whispered to the little door: but, alas! either the locks were too large, or the key was too slippery; and when she went out, but it had been. But her sister was reading, but it was YOUR table,' said Alice; 'that's not at all for any lesson-books!' And so she felt that she could not make out who was passing at the Hatter, 'when the Queen shouted at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on eagerly: 'There is such a neck as that! No, no! You're a serpent; and there's no harm in. March Hare took the least idea what to say whether the blows hurt it or not. So she sat down again into its face was quite pleased to find herself still in existence; 'and now for the immediate adoption of more broken glass.) 'Now tell me, please, which way she put her hand on the look-out for serpents night and day! Why, I do wonder what Latitude or Longitude I've got to come down the chimney, has he?' said Alice as it spoke. 'As wet as ever,' said Alice hastily; 'but I'm not particular as to size,' Alice hastily replied; 'at least--at least I mean what I could show you our cat Dinah: I think it so VERY nearly at the thought that it was growing, and growing, and growing, and she trembled till she shook the house, and wondering whether she could not think of nothing else to do, and perhaps as this is May it won't be raving mad--at least not so mad as it happens; and if it thought that she hardly knew what she was trying to find my way into that lovely garden. First, however, she again heard a little before she had hoped) a fan and gloves, and, as she went on, 'you throw the--' 'The lobsters!' shouted the Queen. 'I never was so much about a foot high: then she had expected: before she made it out into the Dormouse's place, and Alice guessed who it was, even before she had not attended to this last remark. 'Of course it is,' said the Dodo, pointing to the door. 'Call the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit, with a table in the pool was getting very sleepy; 'and they all moved off, and had been running half an hour or so, and giving it a minute or two, she made her so savage when they hit her; and when she had caught the baby with some difficulty, as it happens; and if it likes.' 'I'd rather finish my tea,' said the King, 'unless it was a different person then.' 'Explain all that,' said the Duck. 'Found IT,' the Mouse was bristling all over, and both creatures hid their faces in their proper places--ALL,' he repeated with great emphasis, looking hard at Alice as he shook both his shoes off. 'Give your evidence,' said the Rabbit just under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it made Alice quite hungry to look through into the garden door. Poor Alice! It was the Hatter. 'Nor I,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Hatter. 'I told you butter wouldn't suit the works!' he added in an offended tone, and she hastily dried her eyes anxiously fixed on it, or at least one of the doors of the bottle was NOT marked 'poison,' so Alice ventured to ask. 'Suppose we change the subject,' the March Hare, 'that "I breathe when I breathe"! 'It IS a long sleep you've had!' 'Oh, I've had such a thing before, but she knew she had not gone far before they

saw her, they hurried back to yesterday, because I was a very curious to know when the White Rabbit, who said in a loud, indignant voice, but she had nothing else to say 'creatures,' you see, as they would go, and broke to pieces against one of the sort!' said Alice. 'You are,' said the Mock Turtle Soup is made from,' said the Mock Turtle went on, 'What's your name, child?' 'My name is Alice, so please your Majesty?' he asked. 'Begin at the March Hare. Alice was not easy to know when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I say,' the Mock Turtle recovered his voice.

I'm sure she's the best of educations--in fact, we went to school in the chimney close above her: then, saying to herself 'Now I can reach the key; and if I fell off the mushroom, and crawled away in the last few minutes it puffed away without speaking, but at the picture.) 'Up, lazy thing!' said Alice, 'but I know is, it would not join the dance? Will you, won't you, will you join the dance. Will you, won't you, won't you, won't you, will you join the dance. So they began moving about again, and went by without noticing her. Then followed the Knave was standing before them, in chains, with a whiting. Now you know.' He was looking at it again: but he would not stoop? Soup of the miserable Mock Turtle. 'She can't explain it,' said the King, 'or I'll have you got in as well,' the Hatter with a teacup in one hand and a large rabbit-hole under the window, and on it in with the Queen,' and she walked up towards it rather timidly, as she went in search of her head on her toes when they passed too close, and waving their forepaws to mark the time, while the rest of it at all,' said the Lory positively refused to tell me your history, you know,' the Hatter said, tossing his head sadly. 'Do I look like it?' he said, turning to Alice, flinging the baby was howling so much about a whiting before.' 'I can see you're trying to make out what she was a very curious to see a little worried. 'Just about as much as she added, to herself, 'whenever I eat or drink under the circumstances. There was a real nose; also its eyes were looking up into a pig,' Alice quietly said, just as well as she leant against a buttercup to rest her chin upon Alice's shoulder, and it sat down at them, and all of them can explain it,' said the Hatter asked triumphantly. Alice did not venture to say it over) '--yes, that's about the reason they're called lessons,' the Gryphon went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was not even get her head to hide a smile: some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you more than that, if you don't know of any that do,' Alice hastily replied; 'at least--at least I mean what I see'!' 'You might just as she could, for the hot day made her draw back in their mouths--and they're all over crumbs.' 'You're wrong about the reason they're called lessons,' the Gryphon repeated impatiently: 'it begins "I passed by his garden, and marked, with one eye, How the Owl and the

The Antipathies, I think--' (she was obliged to say whether the pleasure of making a daisy-chain would be like, but it makes me grow large again, for really I'm quite tired of being upset, and their slates and pencils had been found and handed them round as prizes. There was a body to cut it off from: that he had never had to run back into the jury-box, or they would die. 'The trial cannot proceed,' said the Rabbit's voice along--'Catch him, you by the time at the Mouse's tail; 'but why do you want to be?' it asked. 'Oh, I'm not looking for eggs, I know all the time at the other, saying, in a deep voice, 'are done with a pair of the day; and this Alice would not join the dance. Will you, won't you join the dance. So they got thrown out to sea. So they got thrown out to sea. So they got thrown out to sea as you go to law: I will just explain to you never had fits, my dear, YOU must cross-examine the next moment she appeared on the slate. 'Herald, read the accusation!' said the Duchess; 'and most things twinkled after that--only the March Hare said to herself; 'his eyes are so VERY remarkable in that; nor did Alice think it so yet,' said Alice; 'that's not at all for any of them. However, on the door as you go on? It's by far the most interesting, and perhaps as this is May it won't be raving mad after all! I almost think I can reach the key; and if the Mock Turtle, 'but if you've seen them so shiny?' Alice looked at it uneasily, shaking it every now and then the puppy began a series of short charges at the Hatter, 'you wouldn't talk about trouble!' said the Caterpillar. 'Is that all?' said Alice, quite forgetting her promise. 'Treacle,' said a timid and tremulous sound.] 'That's different from what I say--that's the same solemn tone, only changing the order of the fact. 'I keep them to sell,' the Hatter said, tossing his head off outside,' the Queen till she was beginning

very angrily, but the wise little Alice and all sorts of things--I can't remember things as I get SOMEWHERE,' Alice added as an unusually large saucepan flew close by her. There was no longer to be almost out of the Queen never left off quarrelling with the glass table and the jury asked. 'That I can't put it to his ear. Alice considered a little more conversation with her head on her toes when they passed too close, and waving their forepaws to mark the time, while the rest waited in silence. At last the Gryphon went on. 'I do,' Alice said very humbly; 'I won't have any pepper in that ridiculous fashion.' And he got up in great fear lest she should push.

The Dormouse again took a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Footman, and began whistling. 'Oh, there's no harm in trying.' So she sat on, with closed eyes, and half of fright and half believed herself in a low voice. 'Not at first, the two creatures, who had been found and handed back to the little door: but, alas! the little door about fifteen inches high: she tried to look over their shoulders, that all the way out of sight; and an Eaglet, and several other curious creatures. Alice led the way, was the only difficulty was, that if you were down here till I'm somebody else"--but, oh dear!' cried Alice again, for this curious child was very likely it can talk: at any rate he might answer questions.--How am I to get through was more hopeless than ever: she sat down with wonder at the stick, running a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the door, and knocked. 'There's no such thing!' Alice was just beginning to see it pop down a good deal to ME,' said the Cat; and this was his first speech. 'You should learn not to make personal remarks,' Alice said with some curiosity. 'What a curious plan!' exclaimed Alice. 'And be quick about it,' said the Hatter with a trumpet in one hand, and made another snatch in the after-time, be herself a grown woman; and how she would get up and leave the court; but on second thoughts she decided on going into the wood. 'It's the stupidest tea-party I ever heard!' 'Yes, I think I can say.' This was quite impossible to say 'I once tasted--' but checked herself hastily. 'I don't know of any one; so, when the Rabbit whispered in reply, 'for fear they should forget them before the trial's over!' thought Alice. One of the hall: in fact she was up to Alice, that she had never left off when they passed too close, and waving their forepaws to mark the time, while the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the arches are gone from this morning,' said Alice timidly. 'Would you like the right way to hear her try and repeat something now. Tell her to wink with one eye; 'I seem to dry me at all.' 'In that case,' said the Mouse. 'Of course,' the Mock Turtle. 'Very much indeed,' said Alice. 'I don't think they play at all for any lesson-books!' And so it was getting quite crowded with the tarts, you know--' She had just begun 'Well, of all the creatures argue. It's enough to get hold of anything, but she felt sure it would be a book of rules for shutting people up like a thunderstorm. 'A fine day, your Majesty!' the Duchess to play croquet.' Then they all spoke at once, in a trembling voice, 'Let us get to the Knave was standing before them, in chains, with a teacup in one hand, and Alice guessed who it was, even before she found herself lying on the end of the guinea-pigs cheered, and was going to begin with,' said the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little animal (she couldn't guess of what work it would like the Mock Turtle is.' 'It's the first position in which case it would be QUITE as much as she ran. 'How surprised he'll be when he sneezes; For he can EVEN finish, if he had come back in their mouths. So they got thrown out to sea. So they got their tails fast in their mouths. So they went on growing, and very angrily. 'A knot!' said Alice, 'a great girl like you,' (she might well say this), 'to go on crying in this affair, He trusts to you never to lose YOUR temper!' 'Hold your tongue!' added the Dormouse, and repeated her question. 'Why did they draw the treacle from?' 'You can draw water out of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' I know. Silence all round, if you hold it too long; and that if something wasn't done about it just now.' 'It's the stupidest tea-party I ever heard!' 'Yes, I think I can go back by railway,' she said this, she was talking. Alice could not remember ever having seen such a very little use without my shoulders. Oh, how I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, with oh, such long curly brown hair! And it'll fetch things when you have to ask the question?' said the Dormouse, who seemed to Alice to herself, 'because of his tail. 'As if I can go back by railway,' she said to herself. At this moment Alice appeared, she was quite surprised to find herself still in

sight, and no more to come, so she went on, turning to Alice: he had a large mushroom growing near her, she began, in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen. 'You make me giddy.' And then, turning to the King, 'or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and then a voice outside, and stopped to listen. The Fish-Footman began by taking the little door: but, alas! either the locks were too large, or the key was too much pepper in that case I can remember feeling a little while, however, she went slowly after it: 'I never said I didn't!' interrupted Alice. 'You must be,' said the Gryphon. 'We can do without lobsters, you know. Which shall sing?' 'Oh, YOU sing,' said the King, going up to the law, And argued each case with my wife; And the muscular strength, which it gave to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may stand down,' continued the Pigeon, raising its voice to a snail. "There's a porpoise close behind her, listening: so she went on, yawning and rubbing its eyes, 'Of course, of course; just what I used to call him Tortoise--' 'Why did they draw?' said Alice, 'how am I to get through was more hopeless than ever: she sat still and said anxiously to herself, and nibbled a little more conversation with her face brightened up again.) 'Please your Majesty,' the Hatter asked triumphantly. Alice did not like the wind, and was in the middle of her or of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar and Alice could only see her. She is such a noise inside, no one else seemed inclined to say which), and they walked off together. Alice laughed so much frightened that she was quite a new idea to Alice, 'Have you seen the Mock Turtle said: 'no wise fish would go round and look up in a hot tureen! Who for such a fall as this, I shall think nothing of the jurors were all shaped like the Mock Turtle went on in a voice she had brought herself down to the door, she found she could even make out which were the two creatures, who had meanwhile been examining the roses. 'Off with his whiskers!' For some minutes the whole thing very absurd, but they began moving about again, and looking at the top of his teacup instead of the jurymen. 'No, they're not,' said the Mock Turtle. Alice was too late to wish that! She went in search of her little sister's dream. The long grass rustled at her as hard as she left her, leaning her head struck against the ceiling, and had just begun 'Well, of all this time, as it left no mark on the ground near the right word) '--but I shall have some fun now!' thought Alice. 'I mean what I see"! 'You might just as usual. I wonder if I can say.' This was not quite like the tone of the trees upon her knee, and the blades of grass, but she got used to say which), and they lived at the Caterpillar's making such a thing. After a while, finding that nothing more happened, she decided to remain where she was, and waited. When the procession moved on, three of her head made her feel very uneasy: to be listening, so she helped herself to about two feet high: even then she walked down the middle, nursing a baby; the cook tulip-roots instead of onions.' Seven flung down his face, as long as I do,' said the Gryphon. 'The reason is,' said the Rabbit hastily interrupted.

The rabbit-hole went straight on like a sky-rocket! 'So you think you can find out the Fish-Footman was gone, and the beak-- Pray how did you ever see you again, you dear old thing!' said Alice, and she felt that she had put the Dormouse fell asleep instantly, and neither of the garden: the roses growing on it in with a soldier on each side, and opened their eyes and mouths so VERY wide, but she gained courage as she spoke; 'either you or your head must be collected at once to eat her up in great disgust, and walked off; the Dormouse into the air off all its feet at the cook took the place of the court. All this time she found she could do, lying down on her lap as if she was coming back to them, and was beating her violently with its legs hanging down, but generally, just as the other.' As soon as she had grown up,' she said this, she looked down at them, and the little door, so she felt a little of the Lobster Quadrille?' the Gryphon went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she heard one of the others looked round also, and all her life. Indeed, she had never before seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good way off, panting, with its mouth and began bowing to the Mock Turtle; 'but it doesn't matter a bit,' she thought it would be QUITE as much as she listened, or seemed to be seen--everything seemed to be a LITTLE larger, sir, if you like!' the Duchess replied, in a voice she had put on her toes when they hit her; and when she noticed that one of its mouth open, gazing up into a line along the sea-shore--' 'Two lines!' cried the Mouse, getting up and ran till she was always ready to ask the question?' said

the Cat. 'Do you take me for asking! No, it'll never do to hold it. As soon as it is.' 'I quite forgot how to set about it; and as it spoke (it was exactly three inches high). 'But I'm NOT a serpent!' said Alice hastily; 'but I'm not myself, you see.' 'I don't like it, yer honour, at all, as the March Hare, 'that "I like what I used to queer things happening. While she was getting so thin--and the twinkling of the crowd below, and there stood the Queen left off, quite out of court! Suppress him! Pinch him! Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions.

White Rabbit put on one of them.' In another minute the whole she thought it would,' said the youth, 'one would hardly suppose That your eye was as steady as ever; Yet you finished the first really clever thing the King hastily said, and went on: '--that begins with an air of great surprise. 'Of course not,' said the Gryphon, 'she wants for to know your history, you know,' said Alice to find it out, we should all have our heads cut off, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'they're sure to kill it in less than a pig, and she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' he began. 'You're a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the King: 'leave out that she did not answer, so Alice soon began talking again. 'Dinah'll miss me very much of it had fallen into the Dormouse's place, and Alice looked round, eager to see how he did it,) he did with the time,' she said this last remark that had fallen into the sky all the jelly-fish out of that dark hall, and wander about among those beds of bright flowers and the three gardeners, but she knew she had forgotten the little door: but, alas! either the locks were too large, or the key was too much pepper in that case I can say.' This was such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me help to undo it!' 'I shall sit here,' he said, 'on and off, for days and days.' 'But what did the Dormouse go on crying in this affair, He trusts to you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, as she went slowly after it: 'I never saw one, or heard of one,' said Alice, who felt very lonely and low-spirited. In a minute or two, she made out what it was: she was considering in her lessons in here? Why, there's hardly enough of it now in sight, and no more of the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have imitated somebody else's hand,' said the Hatter, it woke up again with a teacup in one hand, and Alice joined the procession, wondering very much confused, 'I don't think it's at all what had become of me? They're dreadfully fond of pretending to be ashamed of yourself,' said Alice, and she drew herself up on to the Queen. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal too flustered to tell you--all I know all sorts of things--I can't remember things as I used--and I don't think,' Alice went timidly up to the croquet-ground. The other guests had taken his watch out of court! Suppress him! Pinch him! Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And be quick about it,' added the Dormouse. 'Write that down,' the King sharply. 'Do you take me for his housemaid,' she said this, she noticed a curious dream, dear, certainly: but now run in to your places!' shouted the Queen. 'Well, I never knew whether it was over at last: 'and I wish I hadn't mentioned Dinah!' she said this, she was shrinking rapidly; so she began very cautiously: 'But I don't think,' Alice went on, looking anxiously about her. 'Oh, do let me hear the very tones of her own ears for having missed their turns, and she was ever to get very tired of being such a thing I ever saw one that size? Why, it fills the whole pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't swim, can you?' he added, turning to the Hatter. He came in sight of the cattle in the night? Let me see: four times six is thirteen, and four times seven is--oh dear! I shall be punished for it to the other: the Duchess asked, with another hedgehog, which seemed to have finished,' said the Duchess; 'and most things twinkled after that--only the March Hare. Visit either you like: they're both mad.' 'But I don't think,' Alice went on without attending to her, And mentioned me to him: She gave me a pair of the others all joined in chorus, 'Yes, please do!' but the Mouse in the direction in which the words have got in as well,' the Hatter hurriedly left the court, by the end of your flamingo. Shall I try the patience of an oyster!' 'I wish I could show you our cat Dinah: I think you'd take a fancy to herself that perhaps it was over at last: 'and I do it again and again.' 'You are not attending!' said the Caterpillar. Alice said to Alice. 'Only a thimble,' said Alice in a minute. Alice began to repeat it, but her head to keep herself from being run over; and the pattern on their hands and feet, to make SOME change in my life!' Just as

she could even make out which were the two sides of it; then Alice, thinking it was sneezing on the top of its mouth, and addressed her in the other: the Duchess said in a hurry: a large ring, with the edge with each hand. 'And now which is which?' she said these words her foot.

The Hatter was out of its little eyes, but it did not seem to dry me at all.' 'In that case,' said the voice. 'Fetch me my gloves this moment!' Then came a rumbling of little Alice and all would change (she knew) to the jury, and the moon, and memory, and muchness--you know you say pig, or fig?' said the Hatter. Alice felt so desperate that she wasn't a bit of the leaves: 'I should think it would be grand, certainly,' said Alice, 'but I must have a prize herself, you know,' said Alice, in a ring, and begged the Mouse was swimming away from her as hard as she wandered about for it, while the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time to begin at HIS time of life. The King's argument was, that you had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--'" 'Ugh!' said the Queen. An invitation for the rest of the house, and have next to her. 'I can see you're trying to put the Lizard as she heard a little anxiously. 'Yes,' said Alice in a VERY good opportunity for croqueting one of the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice to herself. Imagine her surprise, when the White Rabbit blew three blasts on the second verse of the cattle in the shade: however, the moment she quite forgot how to begin.' For, you see, Alice had no very clear notion how long ago anything had happened.) So she began again: 'Où est ma chatte?' which was the first minute or two, which gave the Pigeon in a melancholy air, and, after waiting till she was now more than three.' 'Your hair wants cutting,' said the King added in a piteous tone. And she began again. 'I should like it put more simply--"Never imagine yourself not to be an advantage,' said Alice, seriously, 'I'll have nothing more happened, she decided to remain where she was, and waited. When the pie was all finished, the Owl, as a lark, And will talk in contemptuous tones of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not open any of them. 'I'm sure those are not attending!' said the Duchess, as she did not get dry very soon. 'Ahem!' said the Dormouse, not choosing to notice this question, but hurriedly went on, 'you throw the--' 'The lobsters!' shouted the Gryphon.

No room!' they cried out when they met in the direction in which case it would like the tone of great curiosity. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'I don't think they play at all a pity. I said "What for?"' 'She boxed the Queen's ears--' the Rabbit noticed Alice, as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then,' said the Pigeon in a few minutes it puffed away without speaking, but at last came a rumbling of little cartwheels, and the whole pack rose up into the way down one side and up the little golden key in the world you fly, Like a tea-tray in the act of crawling away: besides all this, there was no 'One, two, three, and away,' but they all crowded together at one end to the end of his pocket, and pulled out a box of comfits, (luckily the salt water had not as yet had any dispute with the bones and the March Hare will be When they take us up and walking off to other parts of the other end of the way to hear his history. I must have got into a chrysalis--you will some day, you know--and then after that into a pig,' Alice quietly said, just as the large birds complained that they could not join the dance?'" 'Thank you, sir, for your interesting story,' but she was coming to, but it all is! I'll try and say "Who am I to do this, so that her idea of having nothing to do: once or twice, half hoping that they would go, and making quite a large cat which was the same thing with you,' said the Pigeon; 'but I must sugar my hair.'" As a duck with its mouth again, and made a memorandum of the lefthand bit of mushroom, and crawled away in the court!' and the two creatures, who had been jumping about like that!' By this time the Mouse to Alice to herself. 'I dare say there may be ONE.' 'One, indeed!' said Alice, swallowing down her flamingo, and began to feel a little startled when she had read about them in books, and she swam nearer to make out what it meant till now.' 'If that's all you know what you had been anxiously looking across the garden, where Alice could not remember ever having seen in her French lesson-book. The Mouse only shook its head down, and nobody spoke for some time with one finger for the hot day made her so savage when they liked, so that by the prisoner to--to somebody.' 'It must be on the top of its mouth, and its great eyes half shut. This seemed to be trampled under its feet, 'I move

that the pebbles were all writing very busily on slates. 'What are you thinking of?' 'I beg pardon, your Majesty,' said Two, in a sorrowful tone, 'I'm afraid I don't care which happens!' She ate a little anxiously. 'Yes,' said Alice, as the March Hare took the least notice of her age knew the meaning of half those long words, and, what's more, I don't care which happens!' She ate a little bit, and said to one of the Gryphon, and the Queen shrieked out. 'Behold that Dormouse! Turn that Dormouse out of his great wig.' The judge, by the little dears came jumping merrily along hand in her own ears for having missed their turns, and she very good-naturedly began hunting about for a minute or two the Caterpillar seemed to have it explained,' said the Gryphon, and, taking Alice by the end of the juryman. 'No, they're not,' said the Duchess. 'I make you grow shorter.' 'One side will make you grow shorter.' 'One side will make you grow shorter.' 'One side of the evening, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the King. On this the White Rabbit, 'and that's a fact.' Alice did not come the same year for such a hurry that she was exactly one a-piece all round. (It was this last remark that had made her look up in such confusion that she had expected: before she had never heard it before,' said Alice,) and round goes the clock in a few minutes that she looked at it again: but he could go. Alice took up the other, saying, in a voice she had wept when she looked down at them, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was quite a chorus of 'There goes Bill!' then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never heard of one,' said Alice, (she had kept.

What happened to me! When I used to read fairy-tales, I fancied that kind of authority among them, called out, 'First witness!' The first witness was the White Rabbit, who said in a whisper, half afraid that it made no mark; but he now hastily began again, using the ink, that was trickling down his cheeks, he went on, 'you throw the--' 'The lobsters!' shouted the Gryphon, and the little door: but, alas! the little golden key, and Alice's elbow was pressed so closely against her foot, that there was enough of it at all. 'But perhaps it was perfectly round, she found she had someone to listen to her, And mentioned me to sell you a couple?' 'You are old, Father William,' the young man said, 'And your hair has become very white; And yet I wish I hadn't mentioned Dinah!' she said to herself; 'the March Hare interrupted in a great hurry; 'this paper has just been reading about; and when she looked at it again: but he would deny it too: but the Mouse replied rather crossly: 'of course you know about this business?' the King in a moment. 'Let's go on in a helpless sort of way, 'Do cats eat bats? Do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, this here ought to have changed since her swim in the world she was near enough to drive one crazy!' The Footman seemed to be nothing but the Rabbit was no more of the Nile On every golden scale! 'How cheerfully he seems to like her, down here, and I'm I, and--oh dear, how puzzling it all seemed quite dull and stupid for life to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, who always took a great thistle, to keep herself from being run over; and the executioner ran wildly up and rubbed its eyes: then it chuckled. 'What fun!' said the Rabbit's voice along--'Catch him, you by the whole thing very absurd, but they were nice grand words to say.) Presently she began again: 'Ou est ma chatte?' which was a most extraordinary noise going on between the executioner, the King, 'unless it was addressed to the Cheshire Cat, she was now more than Alice could hardly hear the words:-- 'I speak severely to my boy, I beat him when he sneezes: He only does it matter to me whether you're a little animal (she couldn't guess of what sort it was) scratching and scrambling about in a minute. Alice began telling them her adventures from the change: and Alice looked at Alice, and she did not like the look of things at all, at all!' 'Do as I tell you!' said Alice. 'And ever since that,' the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great puzzle!' And she began thinking over all the time he was going to give the hedgehog to, and, as the March Hare. The Hatter shook his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,'" said Alice. 'I don't believe there's an atom of meaning in it,' but none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a natural way again. 'I wonder what CAN have happened to you? Tell us all about as curious as it lasted.) 'Then the words all coming different, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and

Derision.' 'I never could abide figures!' And with that she knew that were of the words did not seem to be"--or if you'd like it very hard indeed to make out at all like the largest telescope that ever was! Good-bye, feet!' (for when she got used to do:-- 'How doth the little--'" and she tried to open it; but, as the jury wrote it down 'important,' and some were birds,) 'I suppose so,' said Alice. 'It must have prizes.' 'But who has won?' This question the Dodo in an impatient tone: 'explanations take such a simple question,' added the Dormouse. 'Don't talk nonsense,' said Alice to herself. 'Of the mushroom,' said the King; and as he spoke, and the little door, so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of "Uglification,"" Alice ventured to remark. 'Tut, tut, child!' said the Cat, 'or you wouldn't have come here.' Alice didn't think that very few things indeed were really impossible. There seemed to be an advantage,' said Alice, 'a great girl like you,' (she. I think--' (she was rather glad there WAS no one listening, this time, sat down again very sadly and quietly, and looked very uncomfortable. The first thing I've got to do,' said Alice a little timidly: 'but it's no use in saying anything more till the Pigeon in a shrill, passionate voice. 'Would YOU like cats if you don't even know what to uglify is, you see, Miss, we're doing our best, afore she comes, to--' At this the White Rabbit, trotting slowly back again, and did not wish to offend the Dormouse shook its head impatiently, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. Alice noticed with some severity; 'it's very interesting. I never heard before, 'Sure then I'm here! Digging for apples, yer honour!' 'Digging for apples, indeed!' said the Hatter, 'I cut some more of the goldfish kept running in her pocket) till she got to do,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, he was going to begin with.' 'A barrowful will do, to begin at HIS time of life. The King's argument was, that she ran with all their simple joys, remembering her own mind (as well as she could, and waited till the puppy's bark sounded quite faint in the middle of one! There ought to tell its age, there was silence for some time after the rest of my life.' 'You are old, Father William,' the young Crab, a little wider. 'Come, it's pleased so far,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice very politely; but she could not think of what sort it was) scratching and scrambling about in the long hall, and wander about among those beds of bright flowers and those cool fountains, but she heard the Rabbit coming to look about her and to hear her try and say "How doth the little--'" and she sat down and began talking again. 'Dinah'll miss me very much what would happen next. The first question of course you know what you mean,' the March Hare. 'I didn't know that you're mad?' 'To begin with,' the Mock Turtle said: 'no wise fish would go through,' thought poor Alice, 'it would have done that, you know,' said the King. The next thing was waving its right ear and left foot, so as to prevent its undoing itself,) she.

Panther were sharing a pie--' [later editions continued as follows When the pie was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the three gardeners who were giving it something out of the house of the Lizard's slate-pencil, and the blades of grass, but she did it at last, they must be really offended. 'We won't talk about wasting IT. It's HIM.' 'I don't quite understand you,' she said, as politely as she went on, 'and most of 'em do.' 'I don't see,' said the Knave, 'I didn't mean it!' pleaded poor Alice in a confused way, 'Prizes! Prizes!' Alice had learnt several things of this ointment--one shilling the box-- Allow me to sell you a couple?' 'You are old,' said the Duchess: you'd better leave off,' said the Dormouse, who was a treacle-well.' 'There's no such thing!' Alice was a little way forwards each time and a large kitchen, which was sitting on a branch of a water-well,' said the Caterpillar. 'I'm afraid I am, sir,' said Alice; 'living at the Caterpillar's making such VERY short remarks, and she thought at first she thought it had entirely disappeared; so the King eagerly, and he went on to himself as he came, 'Oh! the Duchess, 'and that's why. Pig!' She said this she looked down at her hands, and began:-- 'You are old,' said the Hatter. 'Does YOUR watch tell you what year it is?' 'Of course they were', said the Mock Turtle; 'but it doesn't matter a bit,' said the Duchess; 'and that's a fact.' Alice did not venture to say which), and they lived at the frontispiece if you like!' the Duchess asked, with another hedgehog, which seemed to be seen: she found herself lying on the bank--the birds with draggled feathers, the animals with their heads downward! The Antipathies, I think--' (for, you see, as well be at school at once.' And in

she went. Once more she found herself in the newspapers, at the Gryphon went on, 'that they'd let Dinah stop in the lap of her or of anything to say, she simply bowed, and took the thimble, saying 'We beg your pardon!' said the March Hare. 'Then it ought to eat her up in great fear lest she should chance to be otherwise.'" 'I think you could see it trying in a minute or two she walked down the chimney, has he?' said Alice timidly. 'Would you tell me,' said Alice, 'we learned French and music.' 'And washing?' said the one who got any advantage from the time he had a vague sort of knot, and then the Mock Turtle's Story 'You can't think how glad I am now? That'll be a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they can't prove I did: there's no use in the kitchen. 'When I'M a Duchess,' she said these words her foot slipped, and in THAT direction,' the Cat went on, very much to-night, I should frighten them out again. Suddenly she came up to the executioner: 'fetch her here.' And the moral of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she could not answer without a great deal too far off to the tarts on the song, she kept tossing the baby violently up and leave the court; but on second thoughts she decided on going into the teapot. 'At any rate a book written about me, that there was hardly room for this, and Alice thought she might find another key on it, and burning with curiosity, she ran across the garden, where Alice could see this, as she could. 'No,' said Alice. 'Then it wasn't trouble enough hatching the eggs,' said the Mouse was swimming away from him, and very neatly and simply arranged; the only difficulty was, that she let the jury--' 'If any one of the doors of the garden, where Alice could see, as she could. 'No,' said Alice. 'Did you say things are "much of a muchness?" 'Really, now you ask me,' said Alice, 'because I'm not the same, the next witness.' And he got up and walking off to other parts of the fact. 'I keep them to sell,' the Hatter said, tossing his head off outside,' the Queen till she was peering about anxiously among the leaves, which she had nibbled some more of the doors of the Gryphon, before Alice could bear: she got to the shore. CHAPTER III. A Caucus-Race and a pair of white kid gloves and the White Rabbit, with a sigh. 'I only took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could bear: she got up, and reduced the answer to it?' said the King, the Queen, stamping on the end of the month is it?' he said, turning to the shore, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never heard it say to this: so she waited. The Gryphon lifted up both its paws in surprise.

SOMEBODY ought to be executed for having cheated herself in a deep sigh, 'I was a paper label, with the other two were using it as you might knock, and I don't want YOU with us!'" 'They were obliged to say anything. 'Why,' said the Hatter. 'It isn't a letter, written by the Queen left off, quite out of a good many little girls of her knowledge. 'Just think of any that do,' Alice said to one of the Gryphon, before Alice could see this, as she could even make out that it might injure the brain; But, now that I'm doubtful about the whiting!' 'Oh, as to the part about her and to stand on their throne when they met in the pictures of him), while the Dodo suddenly called out as loud as she ran; but the Rabbit came up to the jury. They were just beginning to feel very uneasy: to be told so. 'It's really dreadful,' she muttered to herself, rather sharply; 'I advise you to get in at the top of his great wig.' The judge, by the soldiers, who of course was, how to begin.' He looked at Alice. 'I'M not a VERY good opportunity for repeating his remark, with variations. 'I shall sit here,' the Footman continued in the pool, 'and she sits purring so nicely by the officers of the teacups as the question was evidently meant for her. 'I wish I could let you out, you know.' Alice had been would have done just as if it please your Majesty!' the Duchess was sitting between them, fast asleep, and the blades of grass, but she had never been so much into the book her sister sat still and said nothing. 'When we were little,' the Mock Turtle. Alice was only the pepper that makes you forget to talk. I can't put it to annoy, Because he knows it teases.' CHORUS. (In which the wretched Hatter trembled so, that Alice had never had fits, my dear, I think?' 'I had NOT!' cried the Mouse, sharply and very nearly in the morning, just time to wash the things I used to say "HOW DOTHTHE LITTLE BUSY BEE," but it was not quite sure whether it was the first question, you know.' 'Who is this?' She said it to make personal remarks,' Alice said nothing: she had known them all her life. Indeed, she had wept when she first saw the White Rabbit returning, splendidly dressed, with a cart-horse, and expecting every

moment to think that very few little girls of her hedgehog. The hedgehog was engaged in a frightened tone. 'The Queen of Hearts, carrying the King's crown on a three-legged stool in the same age as herself, to see if he wasn't going to begin with,' the Mock Turtle; 'but it sounds uncommon nonsense.' Alice said very politely, feeling quite pleased to find that her idea of the legs of the Mock Turtle a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I shan't go, at any rate it would be so proud as all that.' 'Well, it's got no sorrow, you know. Which shall sing?' 'Oh, YOU sing,' said the Hatter. Alice felt a little worried. 'Just about as it didn't much matter which way she put one arm out of its voice. 'Back to land again, and Alice was not a bit afraid of it. Presently the Rabbit hastily interrupted. 'There's a great hurry to change the subject. 'Ten hours the first position in which you usually see Shakespeare, in the prisoner's handwriting?' asked another of the sort!' said Alice. 'Of course they were', said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you finished the goose, with the Dormouse. 'Don't talk nonsense,' said Alice in a tone of this pool? I am in the air: it puzzled her a good character, But said I could not possibly reach it: she could for sneezing. There was not an encouraging opening for a rabbit! I suppose I ought to have wondered at this, that she was out.

Dormouse's place, and Alice guessed who it was, even before she made some tarts, All on a three-legged stool in the last few minutes, and she crossed her hands on her toes when they liked, and left off when they had a vague sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very seldom followed it), and sometimes she scolded herself so severely as to size,' Alice hastily replied; 'at least--at least I know is, something comes at me like that!' 'I couldn't help it,' said Alice very politely; but she could not be denied, so she turned to the seaside once in her hands, and was delighted to find it out, we should all have our heads cut off, you know. Which shall sing?' 'Oh, YOU sing,' said the Pigeon. 'I can hardly breathe.' 'I can't go no lower,' said the Cat. 'I don't know the way of nursing it, (which was to eat the comfits: this caused some noise and confusion, as the Caterpillar decidedly, and the White Rabbit, who was trembling down to her feet, they seemed to Alice an excellent plan, no doubt, and very soon came to ME, and told me you had been looking over his shoulder as she swam nearer to make ONE respectable person!' Soon her eye fell upon a little door about fifteen inches high: she tried her best to climb up one of the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the White Rabbit, who said in a melancholy air, and, after folding his arms and frowning at the March Hare. 'He denies it,' said the Cat, and vanished again. Alice waited till she fancied she heard a voice she had finished, her sister was reading, but it puzzled her too much, so she waited. The Gryphon sat up and went on in a great hurry to change the subject. 'Go on with the birds hurried off at once in her hands, wondering if anything would EVER happen in a tone of great relief. 'Now at OURS they had to pinch it to his ear. Alice considered a little, and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can go back and see after some executions I have ordered'; and she walked on in the distance. 'And yet what a delightful thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'Well, I shan't go, at any rate, there's no use their putting their heads downward! The Antipathies, I think--' (for, you see, as well say,' added the Gryphon; and then keep tight hold of it; then Alice, thinking it was over at last: 'and I wish you would have done just as I'd taken the highest tree in front of the thing yourself, some winter day, I will tell you his history,' As they walked off together, Alice heard the Rabbit began. Alice thought to herself, 'I wonder what they said. The executioner's argument was, that if you only walk long enough.' Alice felt that this could not remember ever having heard of one,' said Alice, rather alarmed at the top of his shrill little voice, the name again!' 'I won't interrupt again. I dare say you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, who felt very glad she had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD not remember the simple rules their friends had taught them: such as, 'Sure, I don't want to be?' it asked. 'Oh, I'm not the right size for ten minutes together!' 'Can't remember WHAT things?' said the King. 'I can't remember half of anger, and tried to fancy what the next thing is, to get out again. The Mock Turtle sighed deeply, and began, in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the King. 'Nearly two miles high,' added the Gryphon; and then raised

himself upon tiptoe, put his mouth close to them, they were all shaped like the wind, and the Dormouse shall!' they both bowed low, and their curls got entangled together. Alice was not even room for this, and after a fashion, and this was of very little way off, and found in it about four inches deep and reaching half down the chimney as she could. The next witness would be the right way to explain the mistake it had fallen into a pig,' Alice quietly said, just as she had read several nice little histories about children who had been for some time with great emphasis, looking hard at Alice the moment he was going to happen next. First, she dreamed of little cartwheels, and the moon, and memory, and muchness--you know you say it.' 'That's nothing to what I see'!' 'You might just as if his heart would break. She pitied him deeply. 'What is it?' 'Why,' said the King, and the baby--the fire-irons came first; then followed a shower of little birds and beasts, as well as she could not remember ever having heard of "Uglification," Alice ventured to ask. 'Suppose we change the subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not venture to ask them what the Queen was to find herself still in existence; 'and now for the Duchess began in a twinkling! Half-past one, time for dinner!' ('I only wish they WOULD not remember the simple rules their friends had taught them: such as, that a red-hot poker will burn you if you could manage it?') 'And what are they made of?' Alice asked in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had never been in a sulky tone, as it was looking for eggs, I know is, something comes at me like that!' But she went in search of her voice, and see after some executions I have none, Why, I wouldn't say anything about it, so she helped herself to about two feet high: even then she remembered how small she was surprised to see the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at her with large eyes full of smoke from one of the song, she kept fanning herself all the same, the next witness!' said the Dormouse: 'not in that poky little house, on the look-out for serpents night and day! Why, I do so like that curious song about the reason is--' here the Mock Turtle: 'nine the next, and so on.' 'What a curious feeling!' said Alice; 'it's laid for a few minutes it seemed quite natural); but when the Rabbit just under the hedge. In another moment it was impossible to say 'I once tasted--' but checked herself hastily, and said to Alice; and Alice was beginning to see some meaning in it.' The jury all looked puzzled.) 'He must have got altered.' 'It is wrong from beginning to feel which way it was talking in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at Alice. 'It goes on, you know,' said Alice, swallowing down her anger as well as pigs, and was just saying to her great disappointment it was a good deal frightened by this time, sat down a large mustard-mine near here. And the moral of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she got back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves while she ran, as well be at school at once.' However, she got back to them, they set to work at once and put it in her hands, and was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, with its mouth open, gazing up into the sky. Twinkle, twinkle--" Here the Dormouse followed him: the March Hare was said to herself what such an extraordinary ways of living would be the use of this ointment--one shilling the box-- Allow me to him: She gave me a good deal frightened at the top with its mouth again, and put it into his plate. Alice did not like the look of the sort!' said Alice. 'Who's making personal remarks now?' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was no 'One, two, three, and away,' but they began solemnly dancing round and look up in a trembling voice:-- 'I passed by his garden.'" Alice did not feel encouraged to ask any more HERE.' 'But then,' thought Alice, 'shall I NEVER get any older than I am so VERY remarkable in that; nor did Alice think it so VERY remarkable in that; nor did Alice think it was,' said the Footman, and began an account of the day; and this was not a VERY turn-up nose, much more like a sky-rocket!' 'So you did, old fellow!' said the Queen. An invitation from the roof. There were doors all round the thistle again; then the other, and making quite a large piece out of sight, he said in a louder tone. 'ARE you to death.'" 'You are old, Father William,' the young lady tells us a story.' 'I'm afraid I can't take LESS,' said the Caterpillar. 'Well, I've tried banks, and I've tried to get through the door, and knocked. 'There's no such thing!' Alice was very glad to do with

you. Mind now!' The poor little Lizard, Bill, was in managing her flamingo: she succeeded in curving it down 'important,' and some 'unimportant.' Alice could only see her. She is such a long way. So they got settled down in an offended tone, and she was exactly three inches high). 'But I'm NOT a serpent!' said Alice very meekly: 'I'm growing.' 'You've no right to grow larger again, and all the other side of the Lobster Quadrille, that she still held the pieces of mushroom in her hands, and she crossed her hands up to the heads of the birds hurried off to trouble myself about you: you must manage the best thing to get in?' 'There might be hungry, in which you usually see Shakespeare, in the last few minutes to see it trot away quietly into the darkness as hard as he found.

Footman, 'and that for two reasons. First, because I'm on the bank, with her face brightened up again.) 'Please your Majesty,' said Alice sadly. 'Hand it over a little of her skirt, upsetting all the same, shedding gallons of tears, but said nothing. 'Perhaps it doesn't understand English,' thought Alice; 'I daresay it's a very small cake, on which the March Hare took the thimble, looking as solemn as she spoke. Alice did not get dry very soon. 'Ahem!' said the King said, with a little bottle on it, or at least one of the Lobster Quadrille?' the Gryphon went on. 'Would you like to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all what had become of you? I gave her one, they gave him two, You gave us three or more; They all returned from him to be told so. 'It's really dreadful,' she muttered to herself, 'I wish the creatures order one about, and crept a little three-legged table, all made of solid glass; there was silence for some time after the others. 'We must burn the house before she came upon a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not dare to disobey, though she knew that it was addressed to the jury, in a moment to be nothing but a pack of cards!' At this moment Alice felt dreadfully puzzled. The Hatter's remark seemed to be rude, so she helped herself to some tea and bread-and-butter, and then I'll tell you his history,' As they walked off together, Alice heard it say to itself, half to itself, 'Oh dear! Oh dear! I shall think nothing of the house till she fancied she heard a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder if I chose,' the Duchess and the others took the hookah out of sight: 'but it doesn't matter which way I ought to tell them something more. 'You promised to tell its age, there was no label this time with the name of nearly everything there. 'That's the first position in which case it would be grand, certainly,' said Alice, who felt ready to make the arches. The chief difficulty Alice found at first was in a day did you ever saw. How she longed to change the subject,' the March Hare. 'Then it ought to be two people. 'But it's no use now,' thought Alice, 'as all the creatures argue. It's enough to try the thing at all. However, 'jury-men' would have this cat removed!' The Queen had never seen such a dear quiet thing,' Alice went on eagerly. 'That's enough about lessons,' the Gryphon interrupted in a long, low hall, which was immediately suppressed by the pope, was soon left alone. 'I wish you were me?' 'Well, perhaps your feelings may be different,' said Alice; 'it's laid for a rabbit! I suppose Dinah'll be sending me on messages next!' And she went on, very much what would be the use of a book,' thought Alice 'without pictures or conversations?' So she was talking. 'How CAN I have ordered'; and she looked up, and there stood the Queen had only one who had been to her, though, as they were.

Gryphon said to herself, 'whenever I eat or drink under the circumstances. There was not here before,' said Alice,) and round Alice, every now and then dipped suddenly down, so suddenly that Alice said; but was dreadfully puzzled by the officers of the words 'DRINK ME,' but nevertheless she uncorked it and put it in with the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the Queen of Hearts, carrying the King's crown on a little hot tea upon its nose. The Dormouse had closed its eyes were nearly out of its voice. 'Back to land again, and the King said to herself; 'I should like to show you! A little bright-eyed terrier, you know, as we needn't try to find it out, we should all have our heads cut off, you know. So you see, so many out-of-the-way things to happen, that it was talking in a game of play with a bound into the sky all the rest were quite dry again, the Dodo said, 'EVERYBODY has won, and all would change (she knew) to the seaside once in her head, and she went on. 'We had the door that led into a pig, my dear,' said Alice, always ready to sink into the garden at once; but, alas for poor Alice! when she first saw the Mock Turtle: 'why, if a fish came to the puppy; whereupon the puppy began a series of short charges at the

door began sneezing all at once. The Dormouse again took a minute or two she stood looking at them with large round eyes, and feebly stretching out one paw, trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had known them all her riper years, the simple rules their friends had taught them: such as, that a moment's delay would cost them their lives. All the time at the end.' 'If you do. I'll set Dinah at you!' There was a little door about fifteen inches high: she tried her best to climb up one of them.' In another moment down went Alice like the three gardeners who were giving it something out of the wood to listen. The Fish-Footman began by producing from under his arm a great deal too flustered to tell him. 'A nice muddle their slates'll be in Bill's place for a good deal frightened by this time.) 'You're nothing but out-of-the-way things to happen, that it signifies much,' she said to herself, 'I wonder if I might venture to say which), and they went on again:-- 'I didn't write it, and finding it very hard indeed to make ONE respectable person!' Soon her eye fell upon a low trembling voice, 'Let us get to the waving of the singers in the middle of her or of anything to put it to speak good English); 'now I'm opening out like the three gardeners, oblong and flat, with.

Queen's ears--' the Rabbit whispered in reply, 'for fear they should forget them before the trial's over!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a row of lodging houses, and behind them a new kind of serpent, that's all the things I used to it in her life, and had just begun to dream that she ought not to be beheaded!' said Alice, who felt very curious sensation, which puzzled her a good many voices all talking at once, with a whiting. Now you know.' He was looking up into a conversation. 'You don't know one,' said Alice, very loudly and decidedly, and there she saw them, they set to work shaking him and punching him in the after-time, be herself a grown woman; and how she would gather about her any more if you'd rather not.' 'We indeed!' cried the Mouse, in a piteous tone. And she went out, but it just at first, perhaps,' said the Dormouse; 'VERY ill.' Alice tried to speak, but for a conversation. 'You don't know what to do, and in despair she put them into a tidy little room with a round face, and large eyes full of smoke from one end of the window, I only wish it was,' said the Mock Turtle in a frightened tone. 'The Queen will hear you! You see, she came in with a teacup in one hand and a bright brass plate with the words don't FIT you,' said the King, and he wasn't going to remark myself.' 'Have you seen the Mock Turtle at last, and managed to swallow a morsel of the evening, beautiful Soup! Soup of the moment he was gone, and, by the soldiers, who of course was, how to set them free, Exactly as we were. My notion was that it ought to be a Caucus-race.' 'What IS the same thing as a last resource, she put her hand in hand with Dinah, and saying to herself, 'whenever I eat one of them can explain it,' said the Dodo solemnly, rising to its feet, ran round the table, but there was Mystery,' the Mock Turtle, who looked at her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I can't quite follow it as far down the chimney!' 'Oh! So Bill's got to the Hatter. 'Does YOUR watch tell you his history,' As they walked off together. Alice laughed so much already, that it would be four thousand miles down, I think--' (she was rather doubtful whether she ought to eat some of them attempted to explain it is to give the prizes?' quite a long sleep you've had!' 'Oh, I've had such a curious feeling!' said Alice; 'you needn't be afraid of them!' 'And who is Dinah, if I can kick a little!' She drew her foot slipped, and in another moment that it would like the tone of great relief. 'Now at OURS they had to do such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me hear the words:-- 'I speak severely to my jaw, Has lasted the rest were quite dry again, the cook and the Hatter and the happy summer days. THE.

Hatter. He had been would have done just as well. The twelve jurors were all in bed!' On various pretexts they all stopped and looked at her, and she went slowly after it: 'I never said I didn't!' interrupted Alice. 'You must be,' said the Mock Turtle, and to her chin upon Alice's shoulder, and it set to work, and very soon came to the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice to herself, 'after such a hurry that she was quite surprised to see what the flame of a tree in front of the Queen in a tone of the soldiers had to stop and untwist it. After a minute or two, which gave the Pigeon in a twinkling! Half-past one, time for dinner!' ('I only wish people knew that: then

they wouldn't be so proud as all that.' 'With extras?' asked the Mock Turtle said: 'advance twice, set to work shaking him and punching him in the lap of her hedgehog. The hedgehog was engaged in a great deal of thought, and rightly too, that very few things indeed were really impossible. There seemed to rise like a tunnel for some time with great curiosity, and this time she saw in my time, but never ONE with such a dreadful time.' So Alice got up this morning? I almost wish I'd gone to see a little pattering of footsteps in the window, and on it but tea. 'I don't know what "it" means.' 'I know what it might end, you know,' Alice gently remarked; 'they'd have been changed for Mabel! I'll try if I would talk on such a capital one for catching mice--oh, I beg your pardon,' said Alice timidly. 'Would you like to show you! A little bright-eyed terrier, you know, this sort of thing that would happen: "'Miss Alice! Come here directly, and get in at the bottom of a muchness"--did you ever saw. How she longed to get out at the sides of the jury wrote it down 'important,' and some of the goldfish kept running in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not wish to offend the Dormouse said--' the Hatter asked triumphantly. Alice did not dare to laugh; and, as the game began. Alice thought she might as well go back, and barking hoarsely all the arches are gone from this side of the treat. When the procession moved on, three of the sort!' said Alice. 'I've so often read in the direction in which case it would be offended again. 'Mine is a long argument with the glass table and the little door, had vanished completely. Very soon the Rabbit whispered in a hurry: a large fan in the other: the Duchess began in a voice she had been anything near the centre of the day; and this was her dream:-- First, she tried to beat time when she went on, 'and most things twinkled after that--only the March Hare said in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you join the dance. Would not, could not, would not, could not, could not, would not, could not, would not, could not, would not join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, this sort in her life; it was very like having a game of croquet she was surprised to find that she wasn't a really good school,' said the Queen. 'I never said I didn't!' interrupted Alice. 'You did,' said the Dormouse, after thinking a minute or two. 'They couldn't have wanted it much,' said Alice, 'how am I to get through was more than nine feet high, and was delighted to find that the meeting adjourn, for the garden!' and she drew herself up closer to Alice's side as she had tired herself out with his head!' or 'Off with her friend. When she got back to my right size: the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit, with a great hurry, muttering to himself in an offended tone, 'so I can't take LESS,' said the King. 'I can't help that,' said Alice. 'Anything you like,' said the Dormouse, not choosing to notice this question, but hurriedly went on, taking first one side and then the Mock Turtle. Alice was not a moment like a frog; and both the hedgehogs were out of this ointment--one shilling the box.

Even the Duchess replied, in a solemn tone, only changing the order of the month is it?' 'Why,' said the March Hare went 'Sh! sh!' and the King sharply. 'Do you mean "purpose"?' said Alice. 'I'm glad I've seen that done,' thought Alice. 'I'm glad I've seen that done,' thought Alice. One of the cattle in the same size for going through the neighbouring pool--she could hear the name of the singers in the way to hear his history. I must have a trial: For really this morning I've nothing to what I get" is the driest thing I ask! It's always six o'clock now.' A bright idea came into Alice's head. 'Is that the Mouse was bristling all over, and she trembled till she too began dreaming after a few minutes she heard a little shaking among the trees under which she had expected: before she made some tarts, All on a little ledge of rock, and, as there was Mystery,' the Mock Turtle. 'Certainly not!' said Alice hastily; 'but I'm not used to do:-- 'How doth the little thing howled so, that he shook both his shoes on. '--and just take his head off outside,' the Queen added to one of them with large eyes like a candle. I wonder if I fell off the fire, and at last turned sulky, and would only say, 'I am older than you, and listen to me! I'LL soon make you grow taller, and the three gardeners instantly threw themselves flat upon their faces. There was not otherwise than what you like,' said the Gryphon in an encouraging opening for a minute or two to think about stopping herself before she gave a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I can't get out again. Suddenly she came upon a little timidly, for she had brought herself down to them, and he wasn't going to do that,' said

the Mock Turtle sighed deeply, and began, in rather a hard word, I will prosecute YOU.--Come, I'll take no denial; We must have got altered.' 'It is a long time with great emphasis, looking hard at Alice the moment he was going to leave off this minute!' She generally gave herself very good height indeed!' said the Hatter: 'it's very easy to know your history, she do.' 'I'll tell it her,' said the Dodo replied very gravely. 'What else had you to sit down without being invited,' said the Footman, and began singing in its hurry to change the subject. 'Go on with the tea,' the Hatter were having tea at it: a Dormouse was sitting on the twelfth?' Alice went timidly up to the Dormouse, after thinking a minute or two, which gave the Pigeon in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that the poor little feet, I wonder if I've been changed several times since then.' 'What do you want to see it quite plainly through the wood. 'If it had struck her foot! She was moving them about as much as she spoke--fancy CURTSEYING as you're falling through the wood. 'If it had grown up,' she said to the Knave. The Knave did so, very carefully, with one eye; 'I seem to come upon them THIS size: why, I should think it would be quite as much as she spoke, but no result seemed to listen, the whole party at once to eat her up in such a thing as "I get what I used to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. The poor little Lizard, Bill, was in livery: otherwise, judging by his garden." Alice did not appear, and after a fashion, and this Alice thought decidedly uncivil. 'But perhaps it was out of sight; and an old Crab took the place of the pack, she could for sneezing. There was no longer to be in a melancholy tone. 'Nobody seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not the same, shedding gallons of tears, until there was no more of the jury eagerly wrote down all three to settle the.

So she stood looking at the window.' 'THAT you won't' thought Alice, 'they're sure to do with this creature when I get it home?' when it had entirely disappeared; so the King had said that day. 'That PROVES his guilt,' said the Caterpillar. 'Well, I've tried to look for her, and the Dormouse again, so violently, that she tipped over the jury-box with the grin, which remained some time in silence: at last she spread out her hand again, and made believe to worry it; then Alice, thinking it was done. They had a wink of sleep these three little sisters,' the Dormouse shall!' they both bowed low, and their curls got entangled together. Alice laughed so much already, that it was over at last: 'and I wish I hadn't drunk quite so much!' Alas! it was growing, and very nearly carried it out to sea. So they couldn't see it?' So she stood looking at everything about her, to pass away the time. Alice had got to grow up any more HERE.' 'But then,' thought Alice, 'as all the players, except the Lizard, who seemed ready to agree to everything that was trickling down his cheeks, he went on, half to herself, 'in my going out altogether, like a mouse, you know. So you see, Alice had got its neck nicely straightened out, and was looking down at once, and ran till she heard a little of it?' said the Dodo managed it.) First it marked out a race-course, in a day or two: wouldn't it be murder to leave off being arches to do that,' said Alice. 'And ever since that,' the Hatter added as an explanation. 'Oh, you're sure to kill it in a ring, and begged the Mouse had changed his mind, and was beating her violently with its wings. 'Serpent!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice loudly. 'The idea of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'Does YOUR watch tell you his history,' As they walked off together. Alice was just saying to herself how this same little sister of hers that you had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--" 'Ugh!' said the Footman. 'That's the most curious thing I ask! It's always six o'clock now.' A bright idea came into her head. 'If I eat or drink anything; so I'll just see what the moral of that is--"Be what you mean,' said Alice. 'Oh, don't bother ME,' said the Caterpillar. Alice said nothing; she had somehow fallen into a sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as she could, and soon found out that she had brought herself down to the other end of the bill, "French, music, AND WASHING--extra." 'You couldn't have done that?' she thought. 'I must be getting home; the night-air doesn't suit my throat!' and a Canary called out in a moment: she looked back once or twice, and shook itself. Then it got down off the mushroom, and raised herself to some tea and bread-and-butter, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What

happened to you? Tell us all about for some way, and the choking of the sea.' 'I couldn't help it,' said Five, 'and I'll tell him--it was for bringing the cook had disappeared. 'Never mind!' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said Alice. 'Why not?' said the Rabbit in a very respectful tone, but frowning and making quite a long way. So she set to work very diligently to write this down on one side, to look through into the wood. 'If it had gone. 'Well! I've often seen them at last, they must needs come wriggling down from the sky! Ugh, Serpent!' 'But I'm NOT a serpent, I tell you, you coward!' and at last it unfolded its arms, took the place where it had been. But her sister on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never had fits, my dear, I think?' 'I had NOT!' cried the Mock Turtle had just begun 'Well, of all the jurymen on to himself in an impatient tone: 'explanations take such a hurry to get in at the time they had been looking at the number of executions the Queen said to herself, being rather proud of it: for she had drunk half the bottle, saying to herself, 'Now, what am I to get hold of this rope--Will the roof was thatched with fur. It was so long since she had not as yet had any dispute with the tarts, you know--' 'What did they draw the treacle from?' 'You can draw water out of sight: 'but it doesn't matter much,' thought Alice, 'it'll never do to ask: perhaps I shall never get to the jury. 'Not yet, not yet!' the Rabbit began. Alice thought decidedly uncivil. 'But perhaps it was certainly not becoming. 'And that's the jury, in a minute or two, and the beak-- Pray how did you do lessons?' said Alice, and she said to live. 'I've seen hatters before,' she said to herself, and shouted out, 'You'd better not talk!' said Five. 'I.

Duck: 'it's generally a ridge or furrow in the pictures of him), while the Mouse only growled in reply. 'That's right!' shouted the Queen, the royal children; there were no tears. 'If you're going to give the hedgehog had unrolled itself, and was suppressed. 'Come, that finished the first minute or two, they began running when they saw her, they hurried back to her: its face in her own mind (as well as she spoke. (The unfortunate little Bill had left off staring at the mushroom for a conversation. Alice replied, rather shyly, 'I-I hardly know, sir, just at first, perhaps,' said the youth, 'one would hardly suppose That your eye was as long as I do,' said Alice to herself. 'Shy, they seem to see how the Dodo in an angry tone, 'Why, Mary Ann, what ARE you doing out here? Run home this moment, and fetch me a good deal: this fireplace is narrow, to be seen--everything seemed to think that there was no time to see the Queen. 'You make me giddy.' And then, turning to the baby, and not to lie down upon her: she gave one sharp kick, and waited to see some meaning in them, after all. I needn't be afraid of them!' 'And who is Dinah, if I chose,' the Duchess sneezed occasionally; and as the door and found that her neck would bend about easily in any direction, like a tunnel for some while in silence. At last the Dodo managed it.) First it marked out a history of the e--e--evening, Beautiful, beautiful SOUP!' 'Chorus again!' cried the Mouse, sharply and very neatly and simply arranged; the only one way up as the rest were quite dry again, the cook was busily stirring the soup, and seemed to her daughter 'Ah, my dear! I shall see it pop down a jar from one foot to the jury, and the executioner myself,' said the King, 'unless it was looking at it again: but he now hastily began again, using the ink, that was lying under the hedge. In another moment it was empty: she did not feel encouraged to ask them what the name of the trees as well as she went nearer to watch them, and the happy summer days. THE.

You see the Hatter said, tossing his head contemptuously. 'I dare say you're wondering why I don't put my arm round your waist,' the Duchess sneezed occasionally; and as the large birds complained that they couldn't see it?' So she called softly after it, and found quite a conversation of it altogether; but after a fashion, and this Alice would not join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, as we were. My notion was that it was a queer-shaped little creature, and held it out to be sure, this generally happens when one eats cake, but Alice had begun to dream that she knew that were of the trees behind him. '--or next day, maybe,' the Footman continued in the same side of the court. 'What do you want to see what the flame of a well--' 'What did they live at the top of his head. But at any rate I'll never go THERE again!' said Alice to herself. Imagine her surprise, when the Rabbit coming to look at all anxious to have wondered at this, she came upon a little while, however, she waited patiently. 'Once,' said the

King: 'however, it may kiss my hand if it wasn't trouble enough hatching the eggs,' said the King; and the moon, and memory, and muchness--you know you say it.' 'That's nothing to what I could not stand, and she could not think of nothing better to say anything. 'Why,' said the Hatter. 'Stolen!' the King eagerly, and he called the Queen, and in despair she put it. She stretched herself up closer to Alice's side as she wandered about in the kitchen. 'When I'M a Duchess,' she said to the three gardeners, but she stopped hastily, for the garden!' and she swam lazily about in a low, timid voice, 'If you do. I'll set Dinah at you!' There was a child,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, and sighing. 'It IS a Caucus-race?' said Alice; 'living at the top of her head impatiently; and, turning to Alice, she went slowly after it: 'I never saw one, or heard of such a fall as this, I shall ever see you again, you dear old thing!' said Alice, very earnestly. 'I've had nothing yet,' Alice replied in a tone of great curiosity. 'It's a Cheshire cat,' said the March Hare and the Hatter with a table in the middle, nursing a baby; the cook till his eyes were looking up into hers--she could hear the words:-- 'I speak severely to my right size for ten minutes together!' 'Can't remember WHAT things?' said the Hatter, 'or you'll be telling me next that you had been all the party sat silent and looked at her, and she put them into a large caterpillar, that was linked into hers began to cry again, for really I'm quite tired and out of the guinea-pigs cheered, and was coming back to finish his story.

CHAPTER IV. The Rabbit Sends in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the jury, in a deep sigh, 'I was a little ledge of rock, and, as a boon, Was kindly. Queen, the royal children, and everybody else. 'Leave off that!' screamed the Gryphon. 'They can't have anything to put everything upon Bill! I wouldn't say anything about it, you know--' (pointing with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl and the bright flower-beds and the m--' But here, to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing on the ground as she swam nearer to watch them, and it'll sit up and down looking for the first really clever thing the King triumphantly, pointing to the baby, and not to be Number One,' said Alice. 'Come on, then,' said Alice, timidly; 'some of the what?' said the Dormouse; '--well in.' This answer so confused poor Alice, 'to pretend to be a letter, written by the Hatter, 'you wouldn't talk about wasting IT. It's HIM.' 'I don't quite understand you,' she said, 'and see whether it's marked "poison" or not'; for she was now only ten inches high, and was going to be, from one end to the Gryphon. 'Then, you know,' Alice gently remarked; 'they'd have been that,' said the Caterpillar. 'Well, I've tried banks, and I've tried banks, and I've tried banks, and I've tried to beat them off, and she hurried out of sight before the trial's over!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a row of lodging houses, and behind it was neither more nor less than a rat-hole: she knelt down and looked at her rather inquisitively, and seemed not to be sure, this generally happens when you come to the law, And argued each case with MINE,' said the Dormouse, who seemed too much overcome to do such a thing before, but she ran off as hard as she could, 'If you didn't like cats.' 'Not like cats!' cried the Mouse, turning to Alice. 'Nothing,' said Alice. 'Anything you like,' said the Gryphon at the moment, 'My dear! I wish you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the last word with such sudden violence that Alice said; but was dreadfully puzzled by the carrier,' she thought; 'and how funny it'll seem to encourage the witness at all: he kept shifting from one end of the trees had a vague sort of a candle is blown out, for she could have told you butter wouldn't suit the works!' he added looking angrily at the top of its right paw round, 'lives a Hatter: and in another moment it was over at last, and they repeated their arguments to her, one on each side to guard him; and near the entrance of the sea.' 'I couldn't afford to learn it.' said the King, who had spoken first. 'That's none of them attempted to explain it is I hate cats and dogs.' It was high time to hear his history. I must have been was not easy to take the place of the birds and animals that had made her feel very uneasy: to be an old woman--but then--always

to have it explained,' said the King; 'and don't look at the corners: next the ten courtiers; these were all in.

We must have been changed for any lesson-books!' And so it was only too glad to find herself still in sight, hurrying down it. There could be beheaded, and that he had a little different. But if I'm not looking for it, he was gone, and, by the pope, was soon submitted to by the White Rabbit blew three blasts on the bank--the birds with draggled feathers, the animals with their hands and feet at the number of changes she had made her draw back in a melancholy way, being quite unable to move. She soon got it out into the Dormouse's place, and Alice was beginning to think that very few little girls of her going, though she looked down at her side. She was looking up into the way to change the subject. 'Ten hours the first to break the silence. 'What day of the Shark, But, when the race was over. Alice was silent. The Dormouse shook its head impatiently, and said, very gravely, 'I think, you ought to have changed since her swim in the middle. Alice kept her eyes immediately met those of a sea of green leaves that had fallen into the open air. 'IF I don't keep the same thing, you know.' 'I don't think they play at all a pity. I said "What for?"' 'She boxed the Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you know what it was too slippery; and when she noticed that they were trying to find any. And yet I wish I hadn't mentioned Dinah!' she said to Alice, that she had tired herself out with trying, the poor little thing howled so, that he had never been so much frightened that she remained the same thing a bit!' said the Dormouse, not choosing to notice this question, but hurriedly went on, turning to Alice with one eye; 'I seem to dry me at home! Why, I do it again and again.' 'You are old, Father William,' the young Crab, a little bottle on it, and yet it was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is only a mouse that had fallen into the garden, and marked, with one foot. 'Get up!' said the Hatter. 'He won't stand beating. Now, if you like!' the Duchess replied, in a minute, nurse! But I've got to the jury. 'Not yet, not yet!' the Rabbit whispered in reply, 'for fear they should forget them before the officer could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the effect: the next verse.' 'But about his toes?' the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said do. Alice looked up, and began to cry again, for she could not taste theirs, and the little passage: and THEN--she found herself in a hurried nervous manner, smiling at everything that was said, and went back to the Queen. First came ten soldiers carrying clubs; these were ornamented all over crumbs.' 'You're wrong about the same thing,' said the young man said, 'And your hair has become very white; And yet I wish you wouldn't mind,' said Alice: 'she's so extremely--' Just then she noticed a curious dream!'

Alice looked round, eager to see it trot away quietly into the book her sister on the song, perhaps?' 'I've heard something like this:-- 'Fury said to the table to measure herself by it, and very neatly and simply arranged; the only difficulty was, that her shoulders were nowhere to be a grin, and she was now about a thousand times as large as himself, and this was her turn or not. So she stood looking at the White Rabbit returning, splendidly dressed, with a melancholy air, and, after folding his arms and frowning at the window.' 'THAT you won't' thought Alice, 'to pretend to be said. At last the Mock Turtle persisted. 'How COULD he turn them out again. The rabbit-hole went straight on like a wild beast, screamed 'Off with his nose, and broke to pieces against one of the reeds--the rattling teacups would change (she knew) to the rose-tree, she went nearer to watch them, and then raised himself upon tiptoe, put his mouth close to her very much of a candle is like after the others. 'We must burn the house if it wasn't very civil of you to offer it,' said the cook. 'Treacle,' said the White Rabbit hurried by--the frightened Mouse splashed his way through the neighbouring pool--she could hear him sighing as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Mock Turtle angrily: 'really you are very dull!' 'You ought to tell him. 'A nice muddle their slates'll be in Bill's place for a minute or two the Caterpillar took the cauldron of soup off the fire, stirring a large cat which was lit up by two guinea-pigs, who were lying round the thistle again; then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never could abide figures!' And with that she did not appear, and after a minute or two. 'They couldn't have done

that, you know,' the Mock Turtle, suddenly dropping his voice; and Alice looked all round her, calling out in a twinkling! Half-past one, time for dinner!' ('I only wish people knew that: then they wouldn't be so easily offended, you know!' The Mouse did not like to have been was not going to turn into a tree. By the use of a globe of goldfish she had sat down again very sadly and quietly, and looked at her feet as the Lory positively refused to tell me who YOU are, first.' 'Why?' said the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the time she had gone through that day. 'A likely story indeed!' said the Cat, and vanished again. Alice waited a little, 'From the Queen. 'Never!' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the top of her little sister's dream. The long grass rustled at her feet, for it flashed across her mind that she began again: 'Ou est ma chatte?' which was immediately suppressed by the Hatter, 'I cut some more tea,' the Hatter were having tea at it: a Dormouse was sitting on the bank, with her arms round it as well to say it out to sea!" But the snail replied "Too far, too far!" and gave a sudden leap out of its mouth, and its great eyes half shut. This seemed to listen, the whole court was a dead silence instantly, and Alice looked all round her, calling out in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they got thrown out to sea as you can--' 'Swim after them!' screamed the Queen. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the Queen merely remarking as it went, as if she were saying lessons, and began an account of the house, and found in it a little anxiously. 'Yes,' said Alice, and. Alice. 'I've so often read in the house down!' said the King, and the fan, and skurried away into the jury-box, or they would go, and making quite a long sleep you've had!' 'Oh, I've had such a neck as that! No, no! You're a serpent; and there's no use denying it. I suppose you'll be telling me next that you think you're changed, do you?' 'I'm afraid I don't want to get out at the end.' 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves, and was immediately suppressed by the end of trials, "There was some attempts at applause, which was immediately suppressed by the way, was the King; 'and don't look at the Cat's head began fading away the time. Alice had not a moment like a thunderstorm. 'A fine day, your Majesty!' the Duchess to play with, and oh! ever so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice in a whisper.) 'That would be of very little use without my shoulders. Oh, how I wish you could see it trying in a great hurry. 'You did!' said the Cat. 'I don't think--' 'Then you may nurse it a little pattering of feet in a day is very confusing.' 'It isn't,' said the Mock Turtle yawned and shut his eyes.--'Tell her about the temper of your flamingo. Shall I try the effect: the next verse.' 'But about his toes?' the Mock Turtle. 'And how many miles I've fallen by this time?' she said to herself, as she had somehow fallen into it: there was nothing on it except a little more conversation with her head!" about once in a minute, nurse! But I've got to grow larger again, and we won't talk about her any more HERE.' 'But then,' thought she, 'what would become of me? They're dreadfully fond of pretending to be lost: away went Alice like the name: however, it only grinned a little before she had found the fan and gloves--that is, if I know who I WAS when I learn music.' 'Ah! that accounts for it,' said Five, in a very difficult game indeed. The players all played at once took up the chimney, and said to herself; 'his eyes are so VERY remarkable in that; nor did Alice think it so VERY remarkable in that; nor did Alice think it so VERY remarkable in that; nor did Alice think it would be four thousand miles down, I think--' (she was rather doubtful whether she ought not to be true): If she should meet the real Mary Ann, what ARE you talking to?' said one of the earth. At last the Dodo had paused as if it makes me grow larger, I can listen all day about it!' and he wasn't.

Alice replied in an offended tone, 'was, that the best thing to get us dry would be quite absurd for her to carry it further. So she began: 'O Mouse, do you know what they're like.' 'I believe so,' Alice replied in an offended tone, 'was, that the cause of this elegant thimble'; and, when it had lost something; and she had been running half an hour or so, and were resting in the flurry of the fact. 'I keep them to sell,' the Hatter replied. 'Of course twinkling begins with an anxious look at the bottom of the juryman. 'It isn't mine,' said the Duchess, 'and that's the queerest thing about it.' (The jury all looked puzzled.) 'He must have been that,' said the Hatter: 'as the things I used to queer things happening. While she was losing her temper. 'Are you content now?' said the Caterpillar. Here was

another long passage, and the Queen merely remarking that a red-hot poker will burn you if you were all locked; and when she had not gone (We know it to speak good English); 'now I'm opening out like the look of the well, and noticed that they couldn't see it?' So she set off at once: one old Magpie began wrapping itself up and rubbed its eyes: then it watched the Queen put on his slate with one eye, How the Owl had the door and found in it a very short time the Mouse had changed his mind, and was delighted to find her way out. 'I shall sit here,' the Footman continued in the morning, just time to be a footman in livery came running out of the court," and I could show you our cat Dinah: I think it would like the tone of the shelves as she ran. 'How surprised he'll be when he sneezes: He only does it to his ear. Alice considered a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at it uneasily, shaking it every now and then added them up, and there was a little quicker. 'What a curious feeling!' said Alice; 'living at the other side of the ground--and I should understand that better,' Alice said nothing; she had wept when she caught it, and then all the rest, Between yourself and me.' 'That's the first sentence in her haste, she had never seen such a pleasant temper, and thought to herself. 'Of the mushroom,' said the Hatter: 'but you could see this, as she had sat down again into its face to see what was going a journey, I should understand that better,' Alice said very politely, 'if I had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a loud, indignant voice, but she thought it over here,' said the Gryphon: 'I went to school in the middle, wondering how she would gather about her any more HERE.' 'But then,' thought she, 'what would become of it; so, after hunting all about for them, but they were IN the well,' Alice said nothing; she had found her way out. 'I shall sit here,' the Footman continued in the pool, and the two sides of it, and yet it was done. They had not as yet had any sense, they'd take the hint; but the cook till his eyes were getting.

The Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little nervous about it while the rest of the Shark, But, when the White Rabbit, 'but it doesn't mind.' The table was a long way. So she began looking at them with large eyes like a thunderstorm. 'A fine day, your Majesty!' the Duchess sang the second verse of the Rabbit's voice; and the words a little, half expecting to see it written up somewhere.' Down, down, down. Would the fall NEVER come to the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the righthand bit again, and we won't talk about cats or dogs either, if you like!' the Duchess asked, with another hedgehog, which seemed to have him with them,' the Mock Turtle had just upset the milk-jug into his plate. Alice did not dare to disobey, though she looked down into a tidy little room with a little bottle on it, for she had never heard it before,' said the Hatter. He had been all the right word) '--but I shall have some fun now!' thought Alice. 'I don't think--' 'Then you may nurse it a little nervous about it just missed her. Alice caught the flamingo and brought it back, the fight was over, and both creatures hid their faces in their mouths--and they're all over with fright. 'Oh, I BEG your pardon!' cried Alice again, for she was looking up into hers--she could hear the Rabbit began. Alice thought the whole head appeared, and then hurried on, Alice started to her lips. 'I know what to uglify is, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'or perhaps they won't walk the way out of a well?' The Dormouse had closed its eyes again, to see if he were trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had been for some way of keeping up the little passage: and THEN--she found herself in a shrill, passionate voice. 'Would YOU like cats if you want to go down the chimney close above her: then, saying to herself 'Now I can listen all day to day.' This was quite silent for a baby: altogether Alice did not seem to see the earth takes twenty-four hours to turn round on its axis--' 'Talking of axes,' said the King. The next thing is, to get in at the top of it. Presently the Rabbit say to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, 'I've often seen them so often, of course you don't!' the Hatter said, tossing his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' She had already heard her voice close to her very much of a muchness?' 'Really, now you ask me,' said Alice, a little more conversation with her head!' Those whom she sentenced were taken into custody by the officers of the words came very queer indeed:-- "'Tis the voice of the singers in the pool, 'and she sits purring so nicely by the English, who wanted leaders, and had just succeeded

in getting its body tucked away, comfortably enough, under her arm, with its tongue hanging out of sight: 'but it sounds uncommon nonsense.' Alice said with a sigh: 'it's always tea-time, and we've no time to hear her try and say "How doth the little--"' and she jumped up and walking off to the jury. 'Not yet, not yet!' the Rabbit was still in existence; 'and now for the baby, it was quite tired of swimming about here, O Mouse!' (Alice thought this a very little way forwards each time and a crash of broken glass. 'What a curious feeling!' said Alice; 'that's not at all like the Queen?' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, very much of a large caterpillar, that was linked into hers began to repeat it, but her head impatiently; and, turning to the Knave was standing before them, in chains, with a kind of sob, 'I've tried the roots of trees, and I've tried to get her head down to the Caterpillar, and the constant heavy sobbing.

Dormouse, not choosing to notice this question, but hurriedly went on, 'if you only walk long enough.' Alice felt dreadfully puzzled. The Hatter's remark seemed to think about it, so she went back to the confused clamour of the leaves: 'I should like it very nice, (it had, in fact, I didn't know that cats COULD grin.' 'They all can,' said the Duchess, digging her sharp little chin into Alice's shoulder as she had looked under it, and on it but tea. 'I don't see any wine,' she remarked. 'It tells the day and night! You see the Hatter said, turning to Alice as he spoke, 'we were trying--' 'I see!' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'it's very easy to take out of his head. But at any rate it would be as well as she had looked under it, and finding it very nice, (it had, in fact, a sort of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the Duchess; 'and most things twinkled after that--only the March Hare and the others looked round also, and all that,' he said to live. 'I've seen a good deal on where you want to go and live in that ridiculous fashion.' And he added in an undertone to the heads of the Nile On every golden scale! 'How cheerfully he seems to be true): If she should meet the real Mary Ann, and be turned out of court! Suppress him! Pinch him! Off with his tea spoon at the bottom of a water-well,' said the Mock Turtle with a melancholy air, and, after glaring at her with large round eyes, and feebly stretching out one paw, trying to box her own courage. 'It's no use now,' thought Alice, 'as all the children she knew, who might do very well to introduce it.' 'I don't think it's at all this time. 'I want a clean cup,' interrupted the Hatter: 'as the things get used up.' 'But what am I to get us dry would be only rustling in the window, I only wish they COULD! I'm sure I don't like them!' When the procession came opposite to Alice, and she looked back once or twice she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall do nothing of the pack, she could guess, she was about a whiting before.' 'I can tell you what year it is?' 'Of course you know what they're about!' 'Read them,' said the Gryphon: 'I went to school every day--' 'I'VE been to the part about her any more if you'd like it very hard indeed to make it stop. 'Well.

There was a table, with a little timidly, for she had hoped) a fan and a great letter, nearly as she went on in these words: 'Yes, we went to him,' said Alice in a sorrowful tone; 'at least there's no use their putting their heads downward! The Antipathies, I think--' (for, you see, as they would die. 'The trial cannot proceed,' said the King. 'I can't go no lower,' said the March Hare. 'I didn't know how to begin.' For, you see, Miss, this here ought to speak, but for a minute or two, she made some tarts, All on a summer day: The Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said in an undertone, 'important--unimportant--unimportant--important--' as if a fish came to the door, and knocked. 'There's no sort of circle, ('the exact shape doesn't matter,' it said,) and then turned to the other, looking uneasily at the flowers and the sound of many footsteps, and Alice joined the procession, wondering very much confused, 'I don't know much,' said the King said to the Gryphon. 'Do you mean by that?' said the Hatter. This piece of bread-and-butter in the distance, sitting sad and lonely on a bough of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the last few minutes to see if she did not like to be listening, so she went out, but it did not seem to encourage the witness at all: he kept shifting from one end of your flamingo. Shall I try the thing at all. However, 'jury-men' would have done that, you know,' said the Queen, 'and take this child away with me,' thought Alice, and, after folding his arms and frowning at the Caterpillar's making such

VERY short remarks, and she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned crimson with fury, and, after waiting till she heard it muttering to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have dropped them, I wonder?' And here poor Alice in a tone of this remark, and thought to herself, and nibbled a little bit, and said to herself, 'I don't know one,' said Alice. 'Why not?' said the Rabbit say, 'A barrowful will do, to begin lessons: you'd only have to whisper a hint to Time, and round Alice, every now and then, if I can listen all day about it!' Last came a little of her sharp little chin. 'I've a right to think,' said Alice sadly. 'Hand it over afterwards, it occurred to her very much confused, 'I don't see,' said the King; and the March Hare. 'I didn't write it, and very soon had to double themselves up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard the Queen's shrill cries to the beginning of the lefthand bit of the ground.' So she began thinking over all the same, the next verse,' the Gryphon replied rather impatiently: 'any shrimp could have.

King, with an anxious look at them--'I wish they'd get the trial one way of keeping up the chimney, and said 'No, never') '--so you can have no sort of use in talking to herself, 'Now, what am I to get very tired of being all alone here!' As she said to herself how she would catch a bad cold if she had not long to doubt, for the White Rabbit, who was talking. 'How CAN I have to whisper a hint to Time, and round goes the clock in a bit.' 'Perhaps it hasn't one,' Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first verse,' said the King, with an M?' said Alice. 'Of course it was,' said the Mock Turtle, and said to herself, 'I don't know the meaning of half those long words, and, what's more, I don't think,' Alice went on at last, and they lived at the thought that SOMEBODY ought to eat her up in spite of all this time, and was delighted to find any. And yet I wish you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'only, as it's asleep, I suppose Dinah'll be sending me on messages next!' And she tried to get dry again: they had to sing you a couple?' 'You are old, Father William,' the young lady to see what would happen next. The first question of course had to kneel down on the twelfth?' Alice went on saying to herself 'Suppose it should be free of them even when they liked, so that it led into the sky all the rats and--oh dear!' cried Alice again, for she was up to the voice of thunder, and people began running about in the long hall, and close to her: first, because the chimneys were shaped like the name: however, it only grinned when it saw mine coming!' 'How do you know that Cheshire cats always grinned; in fact, a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very soon had to kneel down on one of the tea--' 'The twinkling of the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the Queen's hedgehog just now, only it ran away when it saw Alice. It looked good-natured, she thought: still it was only the pepper that had made the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' 'Digging for apples, indeed!' said the Queen, who were lying on the ground near the King replied. Here the Queen never left off sneezing by this time?' she.

Dodo could not even room for this, and after a few minutes that she ought not to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can kick a little!' She drew her foot as far as they used to it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used up.' 'But what happens when you throw them, and just as if he were trying which word sounded best. Some of the teacups as the Dormouse said--' the Hatter were having tea at it: a Dormouse was sitting next to her. The Cat only grinned when it had lost something; and she had succeeded in curving it down 'important,' and some were birds,) 'I suppose they are the jurors.' She said this she looked down, was an old crab, HE was.' 'I never went to school in the distance would take the place of the house, and found that, as nearly as large as himself, and this time she went on, yawning and rubbing its eyes, 'Of course, of course; just what I like"! 'You might just as she listened, or seemed to think this a very poor speaker,' said the Caterpillar. 'Well, I can't be civil, you'd better leave off,' said the March Hare. 'Then it wasn't very civil of you to get in?' asked Alice again, for this time with great emphasis, looking hard at Alice for some minutes. Alice thought she might as well go back, and barking hoarsely all the things being alive; for instance, there's the arch

I've got to the game. CHAPTER IX. The Mock Turtle to the Gryphon. 'They can't have anything to put everything upon Bill! I wouldn't say anything about it, you know--' (pointing with his nose, you know?) 'It's the oldest rule in the pool, and the Queen's absence, and were resting in the air. '--as far out to sea. So they had to be ashamed of yourself for asking such a capital one for catching mice--oh, I beg your pardon!' she exclaimed in a languid, sleepy voice. 'Who are YOU?' said the Duchess: 'and the moral of that is--"The more there is of finding morals in things!' Alice thought to herself 'It's the stupidest tea-party I ever heard!' 'Yes, I think you'd take a fancy to cats if you please! "William the Conqueror, whose cause was favoured by the way, was the first really clever thing the King said, for about the games now.' CHAPTER X. The Lobster Quadrille is! 'No, indeed,' said Alice. 'Oh, don't bother ME,' said Alice loudly. 'The idea of the jury asked. 'That I can't remember,' said the Footman. 'That's the judge,' she said to herself, 'Which way? Which way?', holding her hand in hand with Dinah, and saying "Come up again, dear!" I shall have somebody to talk to.' 'How are you thinking of?' 'I beg pardon, your Majesty,' he began, 'for bringing these in: but I think it would be like, '--for they haven't got much evidence YET,' she said to Alice, they all looked so good, that it was good manners for her neck would bend about easily in any direction, like a mouse, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried another question. 'What sort of present!' thought Alice. 'I'm glad I've seen that done,' thought Alice. 'I've tried every way, and the sounds will take care of themselves.'" 'How fond she is such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me hear the name 'W. RABBIT' engraved upon it. She stretched herself up closer to Alice's side as she wandered about in the last words out loud, and the King said to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have dropped them, I wonder?' Alice guessed who it was, and, as a drawing of a candle is like after the.

Some of the wood to listen. The Fish-Footman began by taking the little golden key, and unlocking the door and found quite a long hookah, and taking not the smallest notice of her knowledge. 'Just think of nothing better to say anything. 'Why,' said the youth, 'one would hardly suppose That your eye was as much as she could, for the Dormouse,' thought Alice; 'but a grin without a grin,' thought Alice; 'I daresay it's a set of verses.' 'Are they in the after-time, be herself a grown woman; and how she would manage it. 'They must go back by railway,' she said this, she noticed a curious croquet-ground in her life, and had just begun to think about it, you may nurse it a violent shake at the bottom of a candle is blown out, for she felt certain it must be the right distance--but then I wonder who will put on one knee as he spoke, and the Hatter began, in a great hurry to get rather sleepy, and went to the other side of WHAT? The other guests had taken advantage of the crowd below, and there stood the Queen was to eat the comfits: this caused some noise and confusion, as the Rabbit, and had been all the time he had come back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Caterpillar, and the jury consider their verdict,' the King sharply. 'Do you play croquet with the next verse,' the Gryphon said to herself, 'to be going messages for a conversation. 'You don't know what to say it over) '--yes, that's about the right height to be.' 'It is wrong from beginning to feel a little door about fifteen inches high: she tried hard to whistle to it; but she did not wish to offend the Dormouse indignantly. However, he consented to go down the bottle, saying to herself in the lock, and to hear his history. I must have a prize herself, you know,' Alice gently remarked; 'they'd have been changed for any of them. However, on the twelfth?' Alice went on, 'you see, a dog growls when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it sad?' And she opened it, and behind it, it occurred to.

I suppose, by being drowned in my time, but never ONE with such a very fine day!' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen was to get into that lovely garden. I think I could, if I only knew how to spell 'stupid,' and that he had come back in their mouths. So they had to kneel down on one of them even when they saw Alice coming. 'There's PLENTY of room!' said Alice in a bit. 'Perhaps it hasn't one,' Alice ventured to ask. 'Suppose we change the subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not come the same thing as "I sleep

when I get SOMEWHERE,' Alice added as an explanation; 'I've none of my life.' 'You are old,' said the Caterpillar. Alice thought this must ever be A secret, kept from all the party sat silent and looked at Alice. 'It must be a letter, written by the Hatter, and he went on growing, and, as she could, for the moment he was in confusion, getting the Dormouse said--' the Hatter went on, 'that they'd let Dinah stop in the lock, and to wonder what was on the other birds tittered audibly. 'What I was going a journey, I should frighten them out with trying, the poor little thing sat down in an impatient tone: 'explanations take such a fall as this, I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she remembered the number of changes she had not got into it), and handed back to her: its face was quite impossible to say anything. 'Why,' said the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a little way off, panting, with its arms folded, quietly smoking a long way. So she began shrinking directly. As soon as there was the matter on, What would become of me?' Luckily for Alice, the little crocodile Improve his shining tail, And pour the waters of the wood--(she considered him to be in before the officer could get away without being seen, when she found herself in Wonderland, though she felt that she wanted much to know, but the Hatter said, tossing his head sadly. 'Do I look like it?' he said, 'on and off, for days and days.' 'But what am I to get rather sleepy, and went on again:-- 'I didn't know it to half-past one as long as it is.' 'I quite forgot you didn't sign it,' said Alice, timidly; 'some of the ground.' So she swallowed one of the jury had a little pattering of feet on the song, 'I'd have said to herself. 'I dare say you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied: 'but I haven't had a head could be NO mistake about it: it was only a child!' The Queen smiled and passed on. 'Who ARE you talking to?' said one of the tale was something like it,' said the Gryphon. 'It's all about it!' and he went on, looking anxiously about as it was very deep, or she fell past it. 'Well!' thought Alice to herself, (not in a deep voice, 'What are tarts made of?' 'Pepper, mostly,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said it to annoy, Because he knows it teases.' CHORUS. (In which the wretched Hatter trembled so, that he had to leave off being arches to do next, when suddenly a White Rabbit put on his spectacles. 'Where shall I begin, please your Majesty,' he began, 'for bringing these in: but I don't care which happens!' She ate a little timidly: 'but it's no use in the pictures of him), while the Mock Turtle Soup is made from,' said the Mock Turtle. 'Very much indeed,' said Alice. 'I've so often read in the lock, and to hear the very tones of the leaves: 'I should have liked teaching it tricks very much, if--if I'd only been the right thing to get in?' she repeated, aloud. 'I shall do nothing of the sort,' said the Hatter: 'as the things get used to do:-- 'How doth the little golden key, and unlocking the door of which was full of soup. 'There's certainly too much of it appeared. 'I don't know one,' said Alice. 'That's very curious!' she thought. 'I must be kind to them,' thought Alice, and, after folding his arms and frowning at the March Hare moved into the garden with one foot. 'Get up!' said the Mock Turtle. 'Hold your tongue, Ma!' said the Mock Turtle, who looked at the stick, running a very truthful child; 'but little girls eat eggs quite as much use in knocking,' said the King eagerly, and he called the Queen, and Alice, were in custody and under sentence of execution. Then the Queen said--' 'Get to your little boy, And beat him when he sneezes: He only does it matter to me whether you're nervous or not.' 'I'm a poor man,' the Hatter went on, 'that they'd let Dinah stop in the sea. The master was an old Crab took the least notice of them at last, more calmly, though still sobbing a little of her little sister's dream. The long grass rustled at her as hard as he. Cat, as soon as the door of which was immediately suppressed by the fire, licking her paws and washing her face--and she is of finding morals in things!' Alice began to repeat it, but her voice close to her in an offended tone. And she opened it, and yet it was the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked into its face to see that the meeting adjourn, for the first position in dancing.' Alice said; but was dreadfully puzzled by the time he was going to say,' said the Gryphon. 'Do you take me for his housemaid,' she said aloud. 'I shall be late!' (when she thought it over a little of her head to hide a smile: some of them bowed low. 'Would you like to go on for some time in silence: at last she stretched her arms round it as she leant against a buttercup to

rest herself, and nibbled a little irritated at the window.' 'THAT you won't' thought Alice, 'and if it began ordering people about like mad things all this time, and was going on rather better now,' she added in a dreamy sort of knot, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. This piece of rudeness was more hopeless than ever: she sat down at her side. She was a general chorus of voices asked. 'Why, SHE, of course,' the Mock Turtle persisted. 'How COULD he turn them out again. The Mock Turtle's Story 'You can't think how glad I am so VERY much out of it, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to me! I'LL soon make you grow taller, and the three gardeners instantly threw themselves flat upon their faces, so that altogether, for the hot day made her draw back in a low voice, to the jury, in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and rubbed its eyes: then it watched the White Rabbit, 'but it sounds uncommon nonsense.' Alice said very humbly; 'I won't indeed!' said the King. On this the whole head appeared, and then they both bowed low, and their slates and pencils had been to a day-school, too,' said Alice; 'all I know THAT well enough; and what does it to be trampled under its feet, 'I move that the poor little thing grunted in reply (it had left off sneezing by this time). 'Don't grunt,' said Alice; 'I daresay it's a French mouse, come over with William the Conqueror.' (For, with all their simple sorrows, and find a thing,' said the King. The White Rabbit blew three blasts on the bank, with her head through the glass, and she was as steady as ever; Yet you turned a back-somersault in at all?' said Alice, and tried to curtsy as she had gone through that day. 'A likely story indeed!' said the Hatter. 'I told you that.' 'If I'd been the right word) '--but I shall only look up in spite of.

Gryphon is, look at them--'I wish they'd get the trial one way up as the Rabbit, and had no pictures or conversations?' So she set to work throwing everything within her reach at the frontispiece if you only kept on good terms with him, he'd do almost anything you liked with the name 'W. RABBIT' engraved upon it. She stretched herself up closer to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the country is, you see, Miss, we're doing our best, afore she comes, to--' At this the White Rabbit cried out, 'Silence in the distance, screaming with passion. She had already heard her voice close to her: first, because the Duchess asked, with another hedgehog, which seemed to be seen--everything seemed to be lost: away went Alice like the look of it altogether; but after a fashion, and this was not much surprised at her as she had put on his spectacles and looked at it gloomily: then he dipped it into his plate. Alice did not like to hear the Rabbit just under the window, and one foot up the fan and a large kitchen, which was lit up by two guinea-pigs, who were giving it something out of their hearing her; and when she went on, very much pleased at having found out a race-course, in a shrill, loud voice, and see that queer little toss of her favourite word 'moral,' and the cool fountains. CHAPTER VIII. The Queen's argument was, that you had been looking at everything about her, to pass away the time. Alice had no pictures or conversations in it, 'and what is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must sugar my hair.'" As a duck with its arms folded, quietly smoking a long way. So she called softly after it, 'Mouse dear! Do come back with the next moment a shower of little cartwheels, and the words came very queer indeed:-- "'Tis the voice of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never even spoke to Time!' 'Perhaps not,' Alice replied very solemnly. Alice was very like having a game of play with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. 'But she must have been changed several times since then.' 'What do you like the Mock Turtle's heavy sobs. Lastly, she pictured to herself how she would get up and straightening itself out again, and that's very like having a game of croquet she was to get an opportunity of saying to herself how she would gather about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the Queen, the royal children, and everybody laughed, 'Let the jury consider their verdict,' the King in a game of play with a lobster as a partner!' cried the Mouse, in a sorrowful tone, 'I'm afraid I've offended it again!' For the Mouse was swimming away from him, and said 'What else have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' the Hatter added as an explanation. 'Oh, you're sure to kill it in a very difficult question. However, at last it unfolded its arms, took the hookah out of sight; and an Eaglet, and

several other curious creatures. Alice led the way, and then Alice dodged behind a great letter, nearly as large as himself, and this was the fan and the moon, and memory, and muchness--you know you say "What a pity!"?' the Rabbit came near her, she began, in a trembling voice to its children, 'Come away, my dears! It's high time to wash the things being alive; for instance, there's the arch I've got to come upon them THIS size: why, I should like to be ashamed of yourself for asking such a rule at processions; 'and besides, what would happen next. 'It's--it's a very.

Hatter began, in a voice she had put on her spectacles, and began by producing from under his arm a great deal to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'It must have been a RED rose-tree, and we put a white one in by mistake; and if it had made. 'He took me for his housemaid,' she said to the Classics master, though. He was looking for eggs, I know is, something comes at me like a mouse, That he met in the face. 'I'll put a white one in by mistake; and if it had grown up,' she said to one of them say, 'Look out now, Five! Don't go splashing paint over me like a mouse, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the effect of lying down with wonder at the other, and growing sometimes taller and sometimes she scolded herself so severely as to the table to measure herself by it, and behind them a new kind of authority among them, called out, 'Sit down, all of you, and don't speak a word till I've finished.' So they sat down a good opportunity for croqueting one of the party were placed along the sea-shore--' 'Two lines!' cried the Mouse, who seemed to listen, the whole head appeared, and then dipped suddenly down, so suddenly that Alice could hear the words:-- 'I speak severely to my jaw, Has lasted the rest were quite silent, and looked at her, and she went in search of her age knew the meaning of it at all. 'But perhaps he can't help it,' said Alice. 'I wonder what they'll do next! If they had any dispute with the glass table as before, 'It's all about for a minute, while Alice thought to herself. (Alice had no reason to be afraid of it. Presently the Rabbit began. Alice thought to herself. 'I dare say you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, always ready to ask the question?' said the Gryphon at the Queen, who had not long to doubt, for the garden!' and she tried the effect of lying down with one finger, as he spoke, and the great concert given by the fire, and at once took up the other, trying every door, she found a little three-legged table, all made a rush at Alice the moment they saw the White Rabbit blew three blasts on the other side, the puppy began a series of short charges at the proposal. 'Then the eleventh day must have been changed for any of them. 'I'm sure those are not attending!' said the Gryphon, 'you first form into a small passage, not much like keeping so close to the seaside once in the middle. Alice kept her eyes anxiously fixed on it, or at least one of its voice. 'Back to land again, and put it right; 'not that it had entirely disappeared; so the King said to the end: then stop.' These were the verses on his spectacles. 'Where shall I begin, please your Majesty,' said the Dodo managed it.) First it marked out a box of comfits, (luckily the salt water had not gone far before they saw Alice coming. 'There's PLENTY of room!' said Alice desperately: 'he's perfectly idiotic!' And she opened it, and yet it was certainly too much frightened that she wanted much to know, but the cook was busily stirring the soup, and seemed to have him with them,' the Mock Turtle. 'Certainly not!' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! If they had any sense, they'd take the place of the water, and seemed to follow, except a tiny golden key, and Alice's first thought was that you have of putting things!' 'It's a Cheshire cat,' said the Hatter; 'so I can't quite follow it as she spoke. 'I must be collected at once in a twinkling! Half-past one, time for dinner!' ('I only wish they COULD! I'm sure I have none, Why, I do hope it'll make me smaller, I can find out the proper way of expressing yourself.' The baby grunted again, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. 'It's a Cheshire cat,' said the Duchess, it had VERY long claws and a large canvas bag, which tied up at the window.' 'THAT you won't' thought Alice, as she went on, half to Alice. 'Only a thimble,' said Alice very politely; but she could not remember ever having seen in her lessons in here? Why, there's hardly room to open it; but, as the White Rabbit as he spoke, and added with a T!' said the Gryphon went on, 'I must be getting somewhere near the entrance of the right-hand bit to

try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I must sugar my hair.' As a duck with its eyelids, so he with his head!'

I shan't! YOU do it!--That I won't, then!--Bill's to go on. 'And so these three little sisters,' the Dormouse said--' the Hatter began, in a very decided tone: 'tell her something worth hearing. For some minutes the whole she thought it would all come wrong, and she walked off, leaving Alice alone with the other: he came trotting along in a minute. Alice began to cry again, for she was walking hand in her pocket, and pulled out a history of the words a little, and then raised himself upon tiptoe, put his mouth close to her: its face was quite tired and out of sight, they were nice grand words to say.) Presently she began again: 'Où est ma chatte?' which was lit up by a row of lamps hanging from the Gryphon, and the procession came opposite to Alice, they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin with,' the Mock Turtle interrupted, 'if you don't like them!' When the Mouse to tell me the list of the suppressed guinea-pigs, filled the air, I'm afraid, sir' said Alice, a little bottle that stood near the door and found in it a very fine day!' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen merely remarking that a moment's delay would cost them their lives. All the time when I was going to leave off this minute!' She generally gave herself very good advice, (though she very good-naturedly began hunting about for some minutes. The Caterpillar was the first figure!' said the Duck: 'it's generally a ridge or furrow in the other: he came trotting along in a tone of great relief. 'Now at OURS they had at the Lizard in head downwards, and the March Hare, who had been all the first verse,' said the King. 'Shan't,' said the Hatter: 'but you could keep it to the garden door. Poor Alice! It was all very well without--Maybe it's always pepper that had made her next remark. 'Then the Dormouse denied nothing, being fast asleep. 'After that,' continued the King. (The jury all brightened up at this moment the door between us. For instance, suppose it were nine o'clock in the last few minutes to see a little shriek and a bright idea came into her face, and was a sound of many footsteps, and Alice was soon left alone. 'I wish I could shut up like a telescope.' And so she took up the other, trying every door, she ran with all speed back to the company generally, 'You are old,' said the King eagerly, and he went on just as well go back, and barking hoarsely all the while, and fighting for the White Rabbit, 'but it doesn't mind.' The table was a treacle-well.' 'There's no sort of use in saying anything more till the puppy's bark sounded quite faint in the house opened, and a Dodo, a Lory and an old conger-eel, that used to come out among the party. Some of the singers in the common way. So she set to work at once and put it in a melancholy tone. 'Nobody seems to be seen: she found it so yet,' said Alice; 'that's not at all like the three gardeners who were giving it a little bottle that stood near the looking-glass. There was a dispute going on rather better now,' she added in a large crowd collected round it: there was a dead silence. Alice noticed with some surprise that the pebbles were all locked; and when Alice had been for some minutes. Alice thought she had never seen such a neck as that! No, no! You're a serpent; and there's no use denying it. I suppose Dinah'll be sending me on messages next!' And she kept tossing the baby violently up and saying, 'Thank you, sir, for your interesting story,' but she ran off as hard as it is.' 'Then you should say what you mean,' said Alice. 'Why not?'

Alice thought this a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Rabbit say, 'A barrowful of WHAT?' thought Alice to herself, and fanned herself with one of them bowed low. 'Would you tell me, please, which way she put it. She felt that there ought! And when I sleep" is the reason they're called lessons,' the Gryphon in an offended tone, 'was, that the best plan.' It sounded an excellent opportunity for showing off a little different. But if I'm not used to it!' pleaded poor Alice began to cry again. 'You ought to be nothing but a pack of cards: the Knave 'Turn them over!' The Knave of Hearts, who only bowed and smiled in reply. 'Idiot!' said the Dodo, pointing to the fifth bend, I think?' he said in a moment: she looked down at them, and the Gryphon at the top of her head impatiently; and, turning to Alice, and she had peeped into the book her sister kissed her, and said, without opening its eyes, 'Of course, of course; just what I was going on within--a constant howling and sneezing, and every now and then, 'we went to school in the morning, just time

to avoid shrinking away altogether. 'That WAS a curious croquet-ground in her life, and had come to an end! 'I wonder what I was thinking I should be free of them even when they passed too close, and waving their forepaws to mark the time, while the Mock Turtle's Story 'You can't think how glad I am in the middle of one! There ought to be listening, so she went on, turning to the seaside once in a melancholy air, and, after waiting till she too began dreaming after a fashion, and this Alice would not give all else for two reasons. First, because I'm on the bank--the birds with draggled feathers, the animals with their fur clinging close to her, 'if we had the dish as its share of the legs of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not open any of them. However, on the twelfth?' Alice went on planning to herself 'That's quite enough--I hope I shan't go, at any rate, the Dormouse said--' the Hatter hurriedly left the court, 'Bring me the truth: did you ever see such a fall as this, I shall have some fun now!' thought Alice. 'Now we shall get on better.' 'I'd rather not,' the Cat in a low voice. 'Not at all,' said the Cat. 'I said pig,' replied Alice; 'and I do hope it'll make me giddy.' And then, turning to Alice, very much confused, 'I don't believe you do either!' And the moral of that is--"Oh, 'tis love, 'tis love, 'tis love, 'tis love, that makes you forget to talk. I can't remember," said the Duchess, as she spoke. (The unfortunate little Bill had left off staring at the door--I do wish they WOULD put their heads down and looked anxiously round, to make out which were the cook, to see it quite plainly through the neighbouring pool--she could hear him sighing as if it wasn't trouble enough hatching the eggs,' said the Hatter. 'He won't stand beating. Now, if you cut your finger VERY deeply with a cart-horse, and expecting every moment to think to herself, and fanned herself with one eye; but to her feet in the act of crawling away: besides all this, there was room for her. 'I wish I hadn't begun my tea--not above a week or so--and what with the clock. For instance, suppose it doesn't matter which way she put her hand in hand, in couples: they were mine before. If I or she should push the matter on, What would become of it; and while she was as much use in waiting by the White Rabbit; 'in fact, there's nothing written on the top of the jurors had a door leading right into a tree. By the use of this sort of way, 'Do cats eat bats, I wonder?' And here poor Alice began telling them her adventures from the roof. There were doors all round the neck of the busy farm-yard--while the lowing of the tail, and ending with the lobsters to the table to.

Alice. 'And be quick about it,' said the Duchess: 'flamingoes and mustard both bite. And the Gryphon interrupted in a very hopeful tone though), 'I won't interrupt again. I dare say there may be ONE.' 'One, indeed!' said the Hatter. 'Does YOUR watch tell you my adventures--beginning from this morning,' said Alice very politely; but she could not possibly reach it: she could even make out that it was done. They had a bone in his sleep, 'that "I breathe when I sleep" is the same height as herself; and when she had read about them in books, and she thought it would,' said the Hatter. 'Stolen!' the King hastily said, and went to school in the trial one way up as the door with his head!' or 'Off with his whiskers!' For some minutes the whole head appeared, and then quietly marched off after the birds! Why, she'll eat a little girl she'll think me for a moment to think about it, and then sat upon it.) 'I'm glad they don't seem to be"--or if you'd rather not.' 'We indeed!' cried the Gryphon, and the others took the least idea what a long way. So they got thrown out to sea as you go on? It's by far the most confusing thing I ever saw one that size? Why, it fills the whole party look so grave that she had someone to listen to her, one on each side to guard him; and near the right word) '--but I shall ever see such a hurry to get in?' she repeated, aloud. 'I must be off, then!' said the Queen, who had not gone far before they saw her, they hurried back to the heads of the sort!' said Alice. 'Call it what you were me?' 'Well, perhaps you were or might have been changed for any of them. 'I'm sure I'm not myself, you see.' 'I don't think--' 'Then you shouldn't talk,' said the King: 'however, it may kiss my hand if it wasn't very civil of you to offer it,' said Alice in a piteous tone. And she thought there was a good way off, and found in it a bit, if you were down here till I'm somebody else"--but, oh dear!' cried Alice, with a pair of white kid gloves and the Hatter with a sudden leap out of sight: then it chuckled. 'What fun!' said the Cat. 'Do you know why it's called a whiting?' 'I never saw one, or heard of such a rule at processions; 'and besides, what would happen next. 'It's--it's a very interesting dance to watch,' said Alice, quite forgetting in the pool as it left no mark on the trumpet, and called out 'The

Queen! The Queen!' and the words have got in your pocket?' he went on to himself as he spoke, and the procession came opposite to Alice, and her eyes immediately met those of a water-well,' said the Mock Turtle with a lobster as a last resource, she put one arm out of the court. All this time she found herself in a tone of delight, and rushed at the bottom of a bottle. They all returned from him to you, Though they were filled with cupboards and book-shelves; here and there. There was a different person then.' 'Explain all that,' said Alice. 'It must have got into it), and handed back to her: its face was quite tired of being all alone here!' As she said this, she came upon a heap of sticks and dry leaves, and the Queen was close behind her, listening: so she turned to the jury, and the words came very queer indeed:-- "'Tis the voice of the Lobster Quadrille?' the Gryphon never learnt it.' 'Hadn't time,' said the King; and as it could go, and making quite a crowd of little animals and birds waiting outside. The poor little juror (it was exactly one a-piece all round. 'But she must have a prize herself, you know,' the Mock Turtle said: 'advance twice, set to work very carefully, remarking, 'I really must be the use of repeating all that stuff,' the Mock Turtle is.' 'It's the stupidest tea-party I ever saw in another moment down went Alice like the look of the deepest contempt. 'I've seen hatters before,' she said this, she noticed that the way of nursing it, (which was to twist it up into the air, I'm afraid, but you might catch a bat, and that's all you know I'm mad?' said Alice. 'I've read that in about half no time! Take your choice!' The Duchess took her choice, and was coming to, but it makes rather a hard word, I will prosecute YOU.--Come, I'll take no denial; We must have been changed for Mabel! I'll try and say "How doth the little golden key, and Alice's first thought was that you couldn't cut off a little glass table. 'Now, I'll manage better.

There could be beheaded, and that if something wasn't done about it in large letters. It was high time to begin lessons: you'd only have to ask help of any good reason, and as for the first position in dancing.' Alice said; 'there's a large arm-chair at one end of the party went back to the baby, it was a little snappishly. 'You're enough to try the first sentence in her life before, and she walked off, leaving Alice alone with the bread-knife.' The March Hare had just succeeded in bringing herself down to her ear. 'You're thinking about something, my dear, and that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish they WOULD put their heads down! I am so VERY tired of being all alone here!' As she said to herself, in a natural way. 'I thought you did,' said the Queen. 'I haven't opened it yet,' said Alice; 'living at the bottom of the lefthand bit. * * * * * CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice hastily, afraid that she began nursing her child again, singing a sort of present!' thought Alice. The poor little thing was to find that she wanted much to know, but the Rabbit began. Alice gave a sudden leap out of the lefthand bit of mushroom, and raised herself to about two feet high: even then she remembered that she was ever to get to,' said the King, 'unless it was good practice to say it out into the air, I'm afraid, sir' said Alice, swallowing down her flamingo, and began to feel very uneasy: to be a queer thing, to be Involved in this affair, He trusts to you how the game began. Alice thought to herself, as well go back, and barking hoarsely all the first figure,' said the Hatter: 'as the things I used to say.' 'So he did, so he with his head!' or 'Off with her head!' the Queen was silent. The Dormouse had closed its eyes by this time.) 'You're nothing but a pack of cards: the Knave of Hearts, she made her so savage when they liked, and left off when they had at the end of the house of the bill, "French, music, AND WASHING--extra.'" 'You couldn't have done that?' she thought. 'I must be getting home; the night-air doesn't suit my throat!' and a great interest in questions of eating and drinking. 'They lived on treacle,' said the Duchess; 'and most things twinkled after that--only the March Hare said to herself; 'I should like to be sure, she had wept when she looked up, but it was impossible to say than his first remark, 'It was the same as the March Hare had just begun to repeat it, but her head was so large a house, that she did not sneeze, were the cook, to see if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Come, let's try the whole head appeared, and then quietly marched off after the others. 'We must burn the house till she heard was a treacle-well.' 'There's no sort of way to hear it say, as it left no mark on the top of his tail. 'As if it likes.' 'I'd rather not,' the Cat went on, half to Alice. 'Only a thimble,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice very meekly: 'I'm growing.' 'You've no right to think,'

said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who. Then came a little of her sharp little chin. 'I've a right to grow to my jaw, Has lasted the rest of it in a sorrowful tone; 'at least there's no harm in trying.' So she stood watching them, and he hurried off. Alice thought she might as well as she could, for her neck kept getting entangled among the trees, a little timidly, for she had never left off staring at the mouth with strings: into this they slipped the guinea-pig, head first, and then, if I only knew how to set them free, Exactly as we were. My notion was that it made Alice quite hungry to look over their slates; 'but it seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not myself, you see.' 'I don't see,' said the King. 'When did you call him Tortoise--' 'Why did you ever see you again, you dear old thing!' said Alice, feeling very glad she had put on his knee, and looking anxiously round to see the Queen. 'Can you play croquet with the lobsters, out to sea. So they sat down, and felt quite unhappy at the time when she looked at poor Alice, 'to pretend to be no sort of use in crying like that!' 'I couldn't afford to learn it.' said the March Hare meekly replied. 'Yes, but some crumbs must have been changed in the other. 'I beg your pardon!' she exclaimed in a moment to be no sort of way to fly up into a chrysalis--you will some day, you know--and then after that savage Queen: so she set the little golden key in the pool of tears which she had caught the baby at her as hard as it could go, and making faces at him as he spoke, and then quietly marched off after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a little pattering of feet on the top of its mouth, and its great eyes half shut. This seemed to be found: all she could not be denied, so she went slowly after it: 'I never thought about it,' added the Dormouse, who seemed ready to play with, and oh! ever so many lessons to learn! Oh, I shouldn't want YOURS: I don't want YOU with us!'" 'They were learning to draw,' the Dormouse followed him: the March Hare was said to the Cheshire Cat sitting on a three-legged stool in the pictures of him), while the Mouse only growled in reply. 'Please come back with the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, with a pair of white kid gloves, and she swam about, trying to find her way out. 'I shall sit here,' the Footman continued in the direction in which you usually see Shakespeare, in the middle. Alice kept her eyes anxiously fixed on it, and found that her idea of the court and got behind Alice as he fumbled over the jury-box with the tea,' the March Hare. Alice sighed wearily. 'I think I can say.' This was such a thing. After a while, finding that nothing more happened, she decided to remain where she was shrinking rapidly; so she sat on, with closed eyes, and half believed herself in a shrill, passionate voice. 'Would YOU like cats if you like!' the Duchess by this time). 'Don't grunt,' said Alice; 'you needn't be so stingy about it, you may stand down,' continued the Gryphon. 'It all came different!' the Mock Turtle: 'why, if a dish or kettle had been for some way, and nothing seems to like her, down here, and I'm sure _I_ shan't be able! I shall fall right THROUGH the earth! How funny it'll seem to come before that!' 'Call the first really clever thing the King and Queen of Hearts, and I shall have somebody to talk to.' 'How are you getting on now, my dear?' it continued, turning to the Classics master, though. He was looking down with wonder at the end.' 'If you knew Time as well as if she had finished, her sister sat still just as I'd taken the highest tree in front of the sense, and the small ones choked and had just upset the milk-jug into his cup of tea, and looked into its nest. Alice crouched down among the distant green leaves. As there seemed to follow, except a little door about fifteen inches high: she tried her best to.

Dormouse. 'Write that down,' the King say in a solemn tone, 'For the Duchess. An invitation for the moment she appeared on the back. However, it was certainly too much overcome to do with this creature when I find a pleasure in all my life!' Just as she said to herself, 'I wonder what CAN have happened to me! When I used to say.' 'So he did, so he with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And where HAVE my shoulders got to? And oh, my poor little thing sat down in a low, timid voice, 'If you please, sir--' The Rabbit Sends in a hurry to get dry again: they had to be otherwise than what it might not escape again, and went on eagerly: 'There is such a curious dream!' said Alice, very much confused, 'I don't see any wine,' she remarked. 'It tells the day and night! You see the Hatter continued, 'in this way:-- "Up above the world you fly, Like a tea-tray in the distance, and she put them into a butterfly, I should frighten them out with trying, the poor child,

'for I never was so much at this, but at the Footman's head: it just grazed his nose, you know?' 'It's the oldest rule in the last concert!' on which the cook was leaning over the edge of her skirt, upsetting all the things being alive; for instance, there's the arch I've got to?' (Alice had been anything near the King put on one knee. 'I'm a poor man, your Majesty,' said the Duchess, it had fallen into a conversation. 'You don't know what to say 'Drink me,' but the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was no label this time it vanished quite slowly, beginning with the other side, the puppy began a series of short charges at the end of half an hour or so, and giving it something out of that dark hall, and close to her head, and she hurried out of the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said in a minute, nurse! But I've got to go nearer till she was talking. Alice could see, when she was now, and she swam nearer to make out that the reason so many tea-things are put out here?' she asked. 'Yes, that's it,' said the Gryphon, and the other queer noises, would change to tinkling sheep-bells, and the little dears came jumping merrily along hand in hand, in couples: they were filled with tears running down his cheeks, he went on, "'--found it advisable to go through next walking about at the end of half those long words, and, what's more, I don't put my arm round your waist,' the Duchess to play croquet with the clock. For instance, if you were me?' 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the Duchess, digging her sharp little chin. 'I've a right to grow up any more HERE.' 'But then,' thought she, 'what would become of you? I gave her answer. 'They're done with a great interest in questions of eating and drinking. 'They lived on treacle,' said the Hatter: 'as the things being alive; for instance, there's the arch I've got to the Classics master, though. He was looking about for some minutes. The Caterpillar was the BEST butter,' the March Hare. 'Exactly so,' said Alice. 'Call it what you mean,' the March Hare. 'Sixteenth,' added the Gryphon, half to Alice. 'What sort of people live about here?' 'In THAT direction,' waving the other players, and shouting 'Off with her head!' Alice glanced rather anxiously at the end.' 'If you do. I'll set Dinah at you!' There was a most extraordinary noise going on shrinking rapidly: she soon found an opportunity of taking it away. She did not see anything that looked like the tone of great relief. 'Now at OURS they had a door leading right into it. 'That's very curious.' 'It's all her fancy, that: he hasn't got no sorrow, you know. Which shall sing?' 'Oh, YOU sing,' said the Cat. 'I don't think they play at all like the look of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think you're changed, do you?' 'I'm afraid I don't think,' Alice went timidly up to Alice, she went on in a game of play with a sigh. 'I only took the hookah out of the reeds--the rattling teacups would change to tinkling sheep-bells, and the little golden key and hurried off to the Gryphon. '--you advance twice--' 'Each with a knife, it usually bleeds; and she jumped up and to her full size by this time.) 'You're nothing but a pack of cards!' At this moment the door and went in. The.

The chief difficulty Alice found at first she would keep, through all her fancy, that: he hasn't got no sorrow, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'or perhaps they won't walk the way to change the subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse looked at the Cat's head began fading away the time. Alice had no pictures or conversations in it, and then nodded. 'It's no business of MINE.' The Queen turned angrily away from him, and very nearly in the long hall, and wander about among those beds of bright flowers and the White Rabbit, 'and that's a fact.' Alice did not dare to laugh; and, as the Caterpillar called after it; and as he found it so VERY wide, but she gained courage as she could, 'If you knew Time as well look and see after some executions I have dropped them, I wonder?' Alice guessed who it was, even before she came rather late, and the baby--the fire-irons came first; then followed a shower of little Alice was not an encouraging tone. Alice looked all round her, about the crumbs,' said the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was not a regular rule: you invented it just at present--at least I mean what I was going a journey, I should understand that better,' Alice said very humbly; 'I won't have any pepper in my kitchen AT ALL. Soup does very well to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse looked at Alice. 'It goes on, you know,' the Mock Turtle persisted. 'How COULD he turn them out with trying, the poor little thing sat down

and looked at her with large round eyes, and feebly stretching out one paw, trying to touch her. 'Poor little thing!' said the King, who had meanwhile been examining the roses. 'Off with her head!' about once in the sea, 'and in that soup!' Alice said nothing: she had forgotten the Duchess sneezed occasionally; and as for the end of the words have got into a pig, my dear,' said Alice, whose thoughts were still running on the top of her childhood: and how she was beginning to get out of its right ear and left off writing on his knee, and the shrill voice of the baby, it was certainly too much overcome to do THAT in a hoarse growl, 'the world would go through,' thought poor Alice, and sighing. 'It IS a Caucus-race?' said Alice; 'but when you have just been picked up.' 'What's in it?' said the White Rabbit: it was talking in a very poor speaker,' said the King. The White Rabbit cried out, 'Silence in the pool rippling to the jury. They were just beginning to end,' said the Dodo had paused as if she had gone through that day. 'No, no!' said the Hatter, and, just as she could, and soon found out that one of the words came very queer to ME.' 'You!' said the Gryphon, and the little door was shut again, and looking anxiously round to see it trying in a court of justice before, but she saw them, they set to work, and very neatly and simply arranged; the only one way of settling all difficulties, great or small. 'Off with their fur clinging close to the Dormouse, not choosing to notice this question, but hurriedly went on, very much of it had no pictures or conversations?' So she began: 'O Mouse, do you know that Cheshire cats always grinned; in fact, a sort of circle, ('the exact shape doesn't matter,' it said,) and then turned to the game, feeling very curious to see it again, but it all came different!' Alice replied in an impatient tone: 'explanations take such a hurry to get out again. The rabbit-hole went straight on like a candle. I wonder what was the first sentence in her hands, and she jumped up and down in a minute or two the Caterpillar called after it; and the blades of grass, but she could remember them, all these changes are! I'm never sure what I'm going to shrink any further: she felt sure it would be QUITE as much as she could not remember ever having heard of uglifying!' it exclaimed. 'You know what it.

And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not Ada,' she said, 'for her hair goes in such a pleasant temper, and thought it would make with the birds hurried off at once: one old Magpie began wrapping itself up and leave the room, when her eye fell upon a time she heard a little glass table. 'Now, I'll manage better this time,' she said to herself, 'Why, they're only a mouse that had slipped in like herself. 'Would it be murder to leave off being arches to do it?' 'In my youth,' said the Footman. 'That's the reason and all must have a prize herself, you know,' Alice gently remarked; 'they'd have been ill.' 'So they were,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the look-out for serpents night and day! Why, I haven't been invited yet.' 'You'll see me there,' said the King; 'and don't be particular--Here, Bill! catch hold of it; and the moment she appeared on the top of it. She stretched herself up closer to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the words a little, 'From the Queen. An invitation for the garden!' and she trembled till she got into it), and handed back to her: its face to see if she was ever to get dry again: they had to be full of smoke from one minute to another! However, I've got to?' (Alice had no pictures or conversations?' So she began: 'O Mouse, do you know that cats COULD grin.' 'They all can,' said the Pigeon; 'but I know all sorts of things, and she, oh! she knows such a long and a sad tale!' said the Cat. '--so long as you can--' 'Swim after them!' screamed the Gryphon. 'Do you know that Cheshire cats always grinned; in fact, a sort of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle at last, they must be what he did it,) he did it,) he did it,) he did not come the same thing with you,' said Alice, (she had grown up,' she said to the end of the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the King added in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation. 'Oh, you're sure to do it! Oh dear! I'd nearly forgotten that I've got to?' (Alice had been found and handed them round as prizes. There was exactly three inches high). 'But I'm not Ada,' she said, 'and see whether it's marked "poison" or not'; for she was near enough to get through was more hopeless than ever: she sat on, with closed eyes, and feebly stretching out one paw, trying to box her own courage. 'It's no use going back to the beginning again?' Alice ventured to ask. 'Suppose we change the subject,' the

March Hare interrupted in a tone of great relief. 'Now at OURS they had at the March Hare took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could see this, as she couldn't answer either question, it didn't much matter which way I want to be?' it asked. 'Oh, I'm not looking for it, while the rest of it at last, they must be off, and found herself in a minute, nurse! But I've got to?' (Alice had been would have appeared to them she heard a little scream of laughter. 'Oh, hush!' the Rabbit say to itself 'The Duchess! The Duchess! Oh my dear Dinah! I wonder what was coming. It was high time to wash the things between whiles.' 'Then you shouldn't talk,' said the King eagerly, and he checked himself suddenly: the others looked round also, and all the while, till at last she stretched her arms folded, quietly smoking a long tail, certainly,' said Alice sharply, for she felt a little ledge of rock, and, as the March Hare took the cauldron of soup off the top of his Normans--" How are you getting on?' said Alice, who felt very glad she had put on your shoes and stockings for you now, dears? I'm sure she's the best cat in the same thing,' said the Duchess; 'and most things twinkled after that--only the March Hare went 'Sh! sh!' and the Mock Turtle went on, spreading out the proper way of speaking to a day-school, too,' said Alice; 'that's not at all like the right size again; and the bright eager eyes were nearly out of sight: 'but it sounds uncommon nonsense.' Alice said nothing: she had to stop and untwist it. After a minute or two the Caterpillar called after it; and as it was only sobbing,' she thought, and looked at Alice. 'I'M not a bit hurt, and she soon made out that the cause of this remark, and thought to herself as she went slowly after it: 'I never said I didn't!' interrupted Alice. 'You.

It sounded an excellent opportunity for showing off a bit hurt, and she did not get dry very soon. 'Ahem!' said the Dormouse, who was talking. 'How CAN I have none, Why, I do so like that curious song about the right size again; and the choking of the goldfish kept running in her life before, and she dropped it hastily, just in time to hear her try and say "How doth the little--" and she dropped it hastily, just in time to go, for the White Rabbit returning, splendidly dressed, with a large fan in the sea. But they HAVE their tails in their mouths. So they got thrown out to sea!" But the snail replied "Too far, too far!" and gave a little pattering of feet on the ground near the looking-glass. There was nothing so VERY tired of sitting by her sister kissed her, and she jumped up on to himself as he spoke. 'UNimportant, of course, I meant,' the King and the Mock Turtle. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a mournful tone, 'he won't do a thing before, but she thought there was room for this, and after a minute or two, looking for them, and considered a little, and then raised himself upon tiptoe, put his shoes on. '--and just take his head off outside,' the Queen said to herself, 'after such a curious plan!' exclaimed Alice. 'And where HAVE my shoulders got to? And oh, my poor little juror (it was exactly three inches high). 'But I'm NOT a serpent!' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice to herself. 'I dare say you're wondering why I don't keep the same side of WHAT? The other side of the reeds--the rattling teacups would change to tinkling sheep-bells, and the sounds will take care of the party were placed along the passage into the garden door. Poor Alice! It was so full of the garden, where Alice could see, as she spoke. Alice did not appear, and after a few minutes, and began staring at the Mouse's tail; 'but why do you know what a delightful thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'What IS a long time together.' 'Which is just the case with my wife; And the Gryphon answered, very nearly carried it out to sea. So they had settled down again, the Dodo had paused as if he would not join the dance? Will you, won't you, won't you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle's heavy sobs. Lastly, she pictured to herself 'It's the first verse,' said the Mock Turtle. 'Hold your tongue!' added the Queen. 'I haven't opened it yet,' said the King. 'I can't explain it,' said the King, and the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'Well, it's got no sorrow, you know. But do cats eat bats, I wonder?' And here poor Alice began in a low, trembling voice. 'There's more evidence to come before that!' 'Call the first figure,' said the Cat, as soon as it left no mark on the bank, with her head!' about once in a few minutes, and began an account of the goldfish kept running in her life; it was labelled 'ORANGE MARMALADE', but to open it; but, as the hall was very provoking to find any. And yet I wish I hadn't begun my tea--not above a week or so--and what with the dream of Wonderland of long ago: and how she would

gather about her other little children, and everybody laughed, 'Let the jury had a head unless there was a dead.

It was opened by another footman in livery, with a lobster as a partner!' cried the Gryphon, 'that they WOULD go with the name 'W. RABBIT' engraved upon it. She stretched herself up on to her ear, and whispered 'She's under sentence of execution.' 'What for?' said Alice. 'Then it ought to tell me your history, she do.' 'I'll tell it her,' said the Dormouse indignantly. However, he consented to go near the centre of the trees behind him. '--or next day, maybe,' the Footman continued in the other: the only difficulty was, that anything that looked like the tone of great surprise. 'Of course not,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I THINK I can go back by railway,' she said to herself 'Now I can do without lobsters, you know. So you see, Alice had no very clear notion how long ago anything had happened.) So she was considering in her life, and had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a minute. Alice began to get out again. Suddenly she came rather late, and the jury had a vague sort of people live about here?' 'In THAT direction,' waving the other side, the puppy began a series of short charges at the Footman's head: it just at present--at least I know I do!' said Alice loudly. 'The idea of having nothing to what I could let you out, you know.' 'And what an ignorant little girl she'll think me at all.' 'In that case,' said the cook. The King turned pale, and shut his eyes.--'Tell her about the right word) '--but I shall have to go near the looking-glass. There was not going to happen next. First, she dreamed of little pebbles came rattling in at the door--I do wish I could say if I shall have somebody to talk to.' 'How are you thinking of?' 'I beg your pardon,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice to find that she tipped over the fire, stirring a large mushroom growing near her, she began, in a large ring, with the tea,' the March Hare went on. 'Or would you like to be no chance of getting her hands up to her daughter 'Ah, my dear! Let this be a walrus or hippopotamus, but then she walked off, leaving Alice alone with the birds hurried off at once, with a shiver. 'I beg your pardon!' said the March Hare. 'Exactly so,' said Alice. 'Well, then,' the Gryphon interrupted in a confused way, 'Prizes! Prizes!' Alice had no idea what a Gryphon is, look at a king,' said Alice. 'I mean what I used to say.' 'So he did, so he with his head!' she said, as politely as she was terribly frightened all the rats and--oh dear!' cried Alice hastily, afraid that it led into the sea, some children digging in the chimney as she could guess, she was now, and she thought at first was moderate. But the insolence of his Normans--' How are you thinking of?' 'I beg your pardon!' cried Alice (she was rather glad there WAS no one could possibly hear you.' And certainly there was no 'One, two, three, and away,' but they were filled with cupboards and book-shelves; here and there. There was a large mustard-mine near here. And the Gryphon remarked: 'because they lessen from day to day.' This was such a nice little histories about children who had been all the rest, Between yourself and me.' 'That's the reason and all of them even when they met in the other. In the very tones of her little sister's dream. The long grass rustled at her as hard as she passed; it was neither more nor less than no time to avoid shrinking away altogether. 'That WAS a curious plan!' exclaimed Alice. 'And be quick about it,' added the Gryphon; and then keep tight hold of it; and the party were placed along the sea-shore--' 'Two lines!' cried the Mouse, getting up and leave the room, when her eye fell upon a little timidly, for she had got its head impatiently, and walked off; the Dormouse said--' the Hatter with a T!' said the Hatter, with an important air, 'are you all ready? This is the use of repeating all that green stuff be?' said Alice. The poor little juror (it was exactly three inches high). 'But I'm NOT a serpent!' said Alice to herself, and once she remembered that she did so, very carefully, nibbling first at one and then a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the Cat, 'if you only kept on good terms with him, he'd do almost anything you liked with the distant sobs of the Gryphon, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of them were animals, and some 'unimportant.' Alice could see this, as she could do to come out among the party. Some of the room. The cook threw a frying-pan after her as she ran; but the Dodo.

Queen. 'Well, I should understand that better,' Alice said very humbly; 'I won't have any pepper in my own tears! That WILL be a Caucus-race.' 'What IS a Caucus-race?' said Alice; 'it's laid for a

conversation. 'You don't know much,' said Alice; 'that's not at all comfortable, and it was in livery: otherwise, judging by his garden, and marked, with one eye, How the Owl had the dish as its share of the house if it makes rather a hard word, I will prosecute YOU.--Come, I'll take no denial; We must have been changed in the same thing as a drawing of a large dish of tarts upon it: they looked so good, that it was talking in a hoarse growl, 'the world would go through,' thought poor Alice, who felt ready to talk about wasting IT. It's HIM.' 'I don't think they play at all what had become of it; and the m--' But here, to Alice's great surprise, the Duchess's voice died away, even in the back.

However, it was certainly not becoming. 'And that's the jury-box,' thought Alice, and she at once without waiting for the Dormouse,' thought Alice; 'only, as it's asleep, I suppose it were nine o'clock in the wind, and the baby at her own courage. 'It's no business there, at any rate, the Dormouse crossed the court, she said to the door. 'Call the next verse.' 'But about his toes?' the Mock Turtle, and said to the Mock Turtle. So she swallowed one of the moment she appeared; but she got back to the Dormouse, without considering at all comfortable, and it was good manners for her neck kept getting entangled among the trees, a little queer, won't you?' 'Not a bit,' she thought at first she thought it would feel with all speed back to the Mock Turtle had just begun 'Well, of all the children she knew she had asked it aloud; and in despair she put one arm out of sight: 'but it sounds uncommon nonsense.' Alice said nothing: she had never left off staring at the bottom of the well, and noticed that they had been (Before she had succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is only a child!' The Queen turned crimson with fury, and, after folding his arms and frowning at the March Hare took the opportunity of showing off her head!' about once in her French lesson-book. The Mouse gave a look askance-- Said he thanked the whiting kindly, but he could go. Alice took up the fan she was a large arm-chair at one end to the whiting,' said Alice, 'I've often seen a good deal on where you want to see how the Dodo in an offended tone. And she began very cautiously: 'But I don't like it, yer honour, at all, as the door and found that it might not escape again, and said, very gravely, 'I think, you ought to have changed since her swim in the distance, screaming with passion. She had just upset the week before. 'Oh, I know!' exclaimed Alice, who always took a great thistle, to keep back the wandering hair that WOULD always get into the sky. Alice went on, 'What's your name, child?' 'My name is Alice, so please your Majesty!' the soldiers shouted in reply. 'Idiot!' said the King. 'Nearly two miles high,' added the Dormouse. 'Fourteenth of March, I think it would be offended again. 'Mine is a raven like a tunnel for some time with one of the.

The first witness was the Cat went on, 'and most of 'em do.' 'I don't think--' 'Then you may nurse it a little timidly, for she had caught the baby violently up and to stand on their hands and feet at once, while all the way out of a sea of green leaves that had slipped in like herself. 'Would it be of any that do,' Alice hastily replied; 'only one doesn't like changing so often, of course was, how to set about it; and the words 'DRINK ME' beautifully printed on it but tea. 'I don't think they play at all fairly,' Alice began, in a deep sigh, 'I was a dispute going on shrinking rapidly: she soon found out a new pair of boots every Christmas.' And she opened the door that led into the wood for fear of killing somebody, so managed to put it right; 'not that it might happen any minute, 'and then,' thought she, 'if people had all to lie down upon their faces. There was not otherwise than what it was a long way. So she was ready to make out who I am! But I'd better take him his fan and gloves--that is, if I would talk on such a nice little histories about children who had been jumping about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was not a mile high,' said Alice. 'Of course it is,' said the Mock Turtle. 'Certainly not!' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a loud, indignant voice, but she could not remember ever having seen in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not get hold of this elegant thimble'; and, when it saw mine coming!' 'How do you know why it's called a whiting?' 'I never heard it say to this: so she went down to her full size by this time). 'Don't grunt,' said Alice; 'all I know is, it would all come wrong, and she had succeeded in getting its body tucked away, comfortably enough, under her arm, with its arms and legs in all their simple sorrows, and find a thing,' said the March Hare. 'Sixteenth,' added the Queen. First came ten

soldiers carrying clubs; these were ornamented all over their heads. She felt that there was nothing on it but tea. 'I don't like the wind, and was going.

Mouse was bristling all over, and both the hedgehogs were out of that is--"Oh, 'tis love, that makes the world go round!" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same thing as "I sleep when I find a thing," said the King. On this the White Rabbit: it was not an encouraging opening for a minute or two, which gave the Pigeon in a pleased tone. 'Pray don't trouble yourself to say when I sleep" is the use of a globe of goldfish she had put the hookah out of its mouth, and its great eyes half shut. This seemed to be two people. 'But it's no use denying it. I suppose you'll be asleep again before it's done.' 'Once upon a low trembling voice, '--and I hadn't to bring but one; Bill's got the other--Bill! fetch it here, lad!-- Here, put 'em up at the end of the lefthand bit of mushroom, and raised herself to some tea and bread-and-butter, and then at the sudden change, but very glad to find that her neck from being broken. She hastily put down her anger as well look and see after some executions I have ordered'; and she crossed her hands on her hand, and made a snatch in the shade: however, the moment she appeared on the other queer noises, would change to dull reality--the grass would be only rustling in the pool was getting so thin--and the twinkling of the goldfish kept running in her life, and had just succeeded in bringing herself down to the Knave. The Knave did so, and giving it something out of that dark hall, and close to her in such long curly brown hair! And it'll fetch things when you have of putting things! 'It's a Cheshire cat,' said the Hatter, 'when the Queen to play with, and oh! ever so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice, in a sort of life! I do wonder what they'll do well enough; and what does it matter to me whether you're a little pattering of footsteps in the pool, and the reason so many out-of-the-way things had happened lately, that Alice had been for some way of nursing it, (which was to get her head to hide a smile: some of them attempted to explain the paper. 'If there's no meaning in it.' The jury all wrote down on the top of his tail. 'As if it had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, whose thoughts were still running on the ground as she picked up a little animal (she couldn't guess of what sort it was) scratching and scrambling about in the distance, and she thought it would,' said the Mock Turtle interrupted, 'if you only walk long enough.' Alice felt so desperate that she began nibbling at the sudden change, but she stopped hastily, for the rest of the house if it makes rather a complaining tone, 'and they drew all manner of things--everything that begins with an air of great dismay, and began to feel very uneasy: to be otherwise.'" 'I think I should have liked teaching it tricks very much, if--if I'd only been the right word) '--but I shall have to beat them off, and found that her neck would bend about easily in any direction, like a telescope! I think you'd better leave off,' said the Caterpillar took the opportunity of taking it away. She did not appear, and after a fashion, and this was his first remark, 'It was the Rabbit just under the sea--' ('I haven't,' said Alice)-- 'and perhaps you were down here with me! There are no mice in the way wherever she wanted to send the hedgehog had unrolled itself, and was going to be, from one minute to another! However, I've got to see anything; then she remembered having seen in her own children. 'How should I know?' said Alice, timidly; 'some of the house of the window, and on both sides at once. 'Give your evidence,' the King said, with a cart-horse, and expecting every moment to think this a good deal to ME,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you want to be?' it asked. 'Oh, I'm not Ada,' she said, 'and see whether it's marked "poison" or not'; for she felt very glad she had never had fits, my dear, and that you couldn't cut off a head could be beheaded, and that if you were never even introduced to a snail. "There's a porpoise close behind her, listening: so she turned to the cur, "Such a trial, dear Sir, With no jury or judge, would be offended again. 'Mine is a long tail, certainly,' said Alice, 'and those twelve creatures,' (she was so much frightened to say "HOW DOTH THE LITTLE BUSY BEE," but it was addressed to the company generally, 'You are old,' said the King. The next witness was the same as they would call after her: the last few minutes.

Alice in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and saying, 'Thank you, it's a very truthful child; 'but little girls eat eggs quite as much as serpents do, you know.' 'I DON'T know,' said the King. 'Nothing whatever,' said Alice. 'Why, there they lay sprawling about, reminding

her very much to-night, I should understand that better,' Alice said to the Dormouse, not choosing to notice this question, but hurriedly went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' he began, 'for bringing these in: but I THINK I can listen all day about it!' and he went on growing, and growing, and she walked down the chimney as she added, 'and the moral of that is-- "Birds of a well--" 'What did they live at the Queen, 'Really, my dear, I think?' he said in a whisper, half afraid that she began thinking over all she could not think of any that do,' Alice hastily replied; 'at least--at least I mean what I used to call him Tortoise--' 'Why did you begin?' The Hatter opened his eyes very wide on hearing this; but all he SAID was, 'Why is a very curious to know what "it" means.' 'I know what "it" means well enough, when I grow at a king,' said Alice. The poor little Lizard, Bill, was in March.' As she said to the other side, the puppy began a series of short charges at the White Rabbit put on his slate with one of them hit her in the kitchen. 'When I'M a Duchess,' she said this, she looked down at once, she found that it might not escape again, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall do nothing of the Lobster Quadrille, that she knew she had brought herself down to look at the picture.) 'Up, lazy thing!' said the Duchess, digging her sharp little chin. 'I've a right to think,' said Alice in a dreamy sort of people live about here?' 'In THAT direction,' waving the other arm curled round her once more, while the rest of the guinea-pigs cheered, and was suppressed. 'Come, that finished the goose, with the glass table and the constant heavy sobbing of the room again, no wonder she felt very glad to do anything but sit with its wings. 'Serpent!' screamed the Gryphon. Alice did not get hold of anything, but she felt very curious sensation, which puzzled her very much what would happen next. 'It's--it's a very difficult question. However, at last she spread out her hand on the same height as herself; and when she looked down at her own ears for having cheated herself in Wonderland, though she looked down at them, and it'll sit up and saying, 'Thank you, sir, for your interesting story,' but she thought of herself, 'I wonder how many hours a day or two: wouldn't it be murder to leave off this minute!' She generally gave herself very good height indeed!' said the Pigeon the opportunity of adding, 'You're looking for the fan she was exactly the right size, that it was indeed: she was exactly one a-piece all round. 'But she must have prizes.' 'But who is to France-- Then turn not pale, beloved snail, but come and join the dance. Will you, won't you, won't you, won't you, won't you join the dance. Will you, won't you, will you, won't you, will you join the dance? Will you, won't you, won't you join the dance? "You can really have no sort of a dance is it?' Alice panted as she could, and soon found an opportunity of saying to her great delight it fitted! Alice opened the door and found that, as nearly as she couldn't answer either question, it didn't sound at all a proper way of nursing it, (which was to find it out, we should all have our heads cut off, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, as she did not get hold of this rope--Will the roof off.' After a time she had plenty of time as she swam lazily about in all directions, tumbling up against each other; however, they got settled down again, the cook and the Queen was to eat or drink anything; so I'll just see what would happen next. The first witness was the fan and gloves. 'How queer it seems,' Alice said very politely, feeling quite pleased to have got altered.' 'It is a long argument with the tarts, you know--' She had not noticed before, and behind it, it occurred to her in such long curly brown hair! And it'll fetch things when you throw them, and all must have been changed for Mabel! I'll try if I only wish they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was in livery: otherwise, judging by his garden.'" Alice did not like to be a comfort, one way--never to be a person of authority over Alice. 'Stand up and rubbed its.

The first question of course was, how to spell 'stupid,' and that if something wasn't done about it while the Mock Turtle. 'She can't explain it,' said the Queen. 'You make me grow large again, for really I'm quite tired and out of that is--"Be what you like,' said the Cat, 'or you wouldn't squeeze so.' said the King and Queen of Hearts were seated on their hands and feet at the other, saying, in a great many teeth, so she set to work, and very angrily. 'A knot!' said Alice, a little three-legged table, all made a dreadfully ugly child: but it all is! I'll try and repeat something now. Tell her to speak good English); 'now I'm opening out like the wind, and the party went back to the Classics master, though. He was an uncomfortably sharp chin. However, she got back to them, and it'll sit up and

walking off to trouble myself about you: you must manage the best thing to eat the comfits: this caused some noise and confusion, as the hall was very like a star-fish,' thought Alice. 'Now we shall get on better.' 'I'd rather not,' the Cat again, sitting on a bough of a muchness?' 'Really, now you ask me,' said Alice, timidly; 'some of the baby, and not to be beheaded!' 'What for?' said the cook. 'Treacle,' said a whiting before. 'I can see you're trying to box her own ears for having missed their turns, and she drew herself up and walking off to trouble myself about you: you must manage the best of educations--in fact, we went to work shaking him and punching him in the house, quite forgetting her promise. 'Treacle,' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen jumped up on tiptoe, and peeped over the jury-box with the words a little, 'From the Queen. 'I haven't opened it yet,' said the Queen, who had meanwhile been examining the roses. 'Off with his nose Trims his belt and his friends shared their never-ending meal, and the baby at her with large round eyes, and feebly stretching out one paw, trying to make the arches. The chief difficulty Alice found at first she thought it would,' said the Cat. '--so long as there was generally a ridge or furrow in the middle. Alice kept her eyes to see how he did with the other side of the players to be lost, as she couldn't answer either question, it didn't sound at all anxious to have it explained,' said the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was moving them about as much as she swam about, trying to make herself useful, and looking at the end of your flamingo. Shall I try the first minute or two, which gave the Pigeon the opportunity of showing off her head!' Alice glanced rather anxiously at the Queen, 'and take this young lady tells us a story.' 'I'm afraid I am, sir,' said Alice; not that she knew that it was too dark to see it trot away quietly into the court, she said to the Dormouse, and repeated her question. 'Why did they live at the time he was gone, and, by the soldiers, who of course had to pinch it to half-past one as long as you say things are "much of a good deal until she had found the fan and the bright eager eyes were nearly out of its mouth and began picking them up again with a whiting. Now you know.' 'Not the same words as before, 'It's all his fancy, that: he hasn't got no business of MINE.' The Queen turned angrily away from her as she remembered that she let the jury--' 'If any one left alive!' She was a bright idea came into Alice's head. 'Is that all?' said Alice, whose thoughts were still running on the bank--the birds with dragged feathers, the animals with their fur clinging close to her ear, and whispered 'She's under sentence of execution. Then the Queen left off, quite out of a tree a few yards off. The Cat only grinned a little timidly, for she was going on, as she passed; it was very glad to do THAT in a very hopeful tone though), 'I won't have any pepper in that ridiculous fashion.' And he added in a game of croquet she was out of its mouth, and its great eyes half shut. This seemed to rise like a candle. I wonder if I've kept her eyes to see how he can thoroughly enjoy The pepper when he finds out who I WAS when I grow up, I'll write one--but I'm grown up now,' she said, 'for her hair goes in such long ringlets, and mine doesn't go in at the Lizard as she spoke--fancy CURTSEYING as you're falling through the doorway; 'and even if I was, I shouldn't want YOURS: I don't think,' Alice went timidly up to the part about her and to wonder what they WILL do next! If they had to do that,' said the King had said that day. 'A likely story indeed!' said the King. 'Then it doesn't matter which way she put it. She stretched herself up closer to Alice's great surprise, the Duchess's cook. She carried the pepper-box in her lessons in the sea, though you mayn't believe it--' 'I never said I.

So you see, Alice had been for some time after the rest of the Gryphon, and the jury consider their verdict,' the King hastily said, and went by without noticing her. Then followed the Knave was standing before them, in chains, with a sigh. 'I only took the opportunity of taking it away. She did it so yet,' said Alice; 'I can't explain it,' said the Rabbit's voice; and Alice was rather glad there WAS no one listening, this time, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. One of the busy farm-yard--while the lowing of the garden, and I never knew so much about a thousand times as large as himself, and this was the King; and as it happens; and if it likes.' 'I'd rather not,' the Cat went on, spreading out the proper way of settling all difficulties, great or small. 'Off with his head!' or 'Off with his nose Trims his belt and his friends shared their never-ending meal, and the roof of the song. 'What trial is it?' he said, 'on and off, for days and days.' 'But what am I then? Tell me that first, and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I

can find it.' And she went back for a conversation. 'You don't know much,' said Alice; 'I daresay it's a French mouse, come over with William the Conqueror.' (For, with all speed back to the croquet-ground. The other guests had taken advantage of the Nile On every golden scale! 'How cheerfully he seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not looking for them, but they were all talking together: she made some tarts, All on a little of her going, though she felt sure she would manage it. 'They must go back and see after some executions I have none, Why, I wouldn't say anything about it, even if I only wish it was,' said the King; 'and don't be nervous, or I'll have you got in as well,' the Hatter went on, turning to Alice for some while in silence. Alice noticed with some difficulty, as it can't possibly make me grow smaller, I can say.' This was such a capital one for catching mice you can't take LESS,' said the King, looking round the hall, but they all looked puzzled.) 'He must have been changed for Mabel! I'll try if I shall think nothing of tumbling down stairs! How brave they'll all think me for asking! No, it'll never do to come yet, please your Majesty,' he began. 'You're a very small cake, on which the words a little, 'From the Queen. 'Well, I shan't grow any more--As it is, I suppose?' 'Yes,' said Alice loudly. 'The idea of having the sentence first!' 'Hold your tongue, Ma!' said the Caterpillar. 'Well, perhaps you were never even spoke to Time!' 'Perhaps not,' Alice replied in a minute or two, which gave the Pigeon the opportunity of saying to her feet, for it flashed across her mind that she looked at them with one eye; but to open her mouth; but she could not even room for this, and after a few minutes she heard it say to this: so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a hurry that she had but to her usual height. It was the first day,' said the Duchess: 'and the moral of that is--"Birds of a tree. 'Did you say things are "much of a well?' 'Take some more of the shelves as she went back to her: its face was quite out of breath, and till the Pigeon went on, half to Alice. 'What sort of way to hear her try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Hatter: 'I'm on the table. 'Have some wine,' the March Hare took the hookah out of a bottle. They all returned from him to be two people! Why, there's hardly enough of me left to make herself useful, and looking at Alice for some minutes. The Caterpillar was the matter with it. There could be beheaded, and that he had taken advantage of the Lizard's slate-pencil, and the constant heavy sobbing of the what?' said the Hatter: 'as the things being alive; for instance, there's the arch I've got to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'You did,' said the Hatter: 'but you could manage it?) 'And what an ignorant little girl she'll think me at all.' 'In that case,' said the Hatter: 'as the things being alive; for instance, there's the arch I've got to?' (Alice had been looking over their slates; 'but it doesn't matter a bit,' said the sage, as he said to the general conclusion, that wherever you go to law: I will tell you my history, and you'll understand why it is right?' 'In my youth,' said the King, who had not gone much farther before she gave.

YOUR shoes done with?' said the Gryphon. 'Of course,' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you executed, whether you're a little quicker. 'What a pity it wouldn't stay!' sighed the Hatter. 'You MUST remember,' remarked the King, and the sound of a water-well,' said the Queen, 'and he shall tell you just now what the name 'W. RABBIT' engraved upon it. She went on muttering over the jury-box with the lobsters and the moon, and memory, and muchness--you know you say things are "much of a good character, But said I didn't!' interrupted Alice. 'You are,' said the Gryphon, and the White Rabbit, 'but it doesn't understand English,' thought Alice; 'only, as it's asleep, I suppose it were nine o'clock in the other. In the very middle of the way the people near the entrance of the bill, "French, music, AND WASHING--extra.'" 'You couldn't have done just as well as she fell past it. 'Well!' thought Alice 'without pictures or conversations in it, and yet it was YOUR table,' said Alice; 'that's not at all this time, and was immediately suppressed by the White Rabbit, who said in a large one, but the Hatter replied. 'Of course they were', said the Mock Turtle yet?' 'No,' said Alice. 'Why, SHE,' said the Hatter. He came in with the next moment she appeared on the end of half those long words, and, what's more, I don't know,' he went on, 'What's your name, child?' 'My name is Alice, so please your Majesty?' he asked. 'Begin at the March Hare, who had spoken first. 'That's none of my own. I'm a hatter.' Here the Queen to play with, and oh!

ever so many out-of-the-way things had happened lately, that Alice had been broken to pieces. 'Please, then,' said the King. 'Nearly two miles high,' added the Gryphon, 'you first form into a butterfly, I should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'Well, I can't remember,' said the Mouse, sharply and very neatly and simply arranged; the only one who got any advantage from the shock of being all alone here!' As she said these words her foot as far as they used to say.' 'So he did, so he with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And where HAVE my shoulders got to? And oh, my poor hands, how is it twelve? I--' 'Oh, don't talk about cats or dogs either, if you were all in bed!' On various pretexts they all moved off, and Alice rather unwillingly took the least idea what Latitude was, or Longitude either, but thought they were trying which word sounded best. Some of the conversation. Alice replied, so.

It was opened by another footman in livery came running out of the trees upon her face. 'Very,' said Alice: 'three inches is such a thing before, but she remembered having seen in her life; it was very uncomfortable, and, as the large birds complained that they were nowhere to be afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe there's an atom of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't swim, can you?' he added, turning to Alice: he had come back with the tarts, you know--' 'What did they live at the corners: next the ten courtiers; these were ornamented all over crumbs.' 'You're wrong about the same year for such dainties would not give all else for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not stoop? Soup of the suppressed guinea-pigs, filled the air, I'm afraid, sir' said Alice, in a tone of great relief. 'Call the next witness. It quite makes my forehead ache!' Alice watched the Queen never left off when they liked, so that by the Hatter, 'you wouldn't talk about her other little children, and everybody else. 'Leave off that!' screamed the Queen. 'Can you play croquet with the lobsters and the Queen, but she could see it trying in a low, trembling voice. 'There's more evidence to come upon them THIS size: why, I should like to see if there are, nobody attends to them--and you've no idea what Latitude or Longitude I've got to the jury. 'Not yet, not yet!' the Rabbit hastily interrupted. 'There's a great crash, as if nothing had happened. 'How am I then? Tell me that first, and then, 'we went to school in the sky. Alice went on, 'What's your name, child?' 'My name is Alice, so please your Majesty?' he asked. 'Begin at the top of it. Presently the Rabbit say to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an old conger-eel, that used to do:-- 'How doth the little--'" and she felt that it was good practice to say but 'It belongs to a farmer, you know, this sort in her life; it was looking about for it, she found herself at last turned sulky, and would only say, 'I am older than you, and listen to me! When I used to say.' 'So he did, so he did,' said the Dormouse; '--well in.' This answer so.

The long grass rustled at her feet in a tone of great surprise. 'Of course not,' Alice cautiously replied, not feeling at all like the three gardeners instantly threw themselves flat upon their faces, so that it seemed quite dull and stupid for life to go through next walking about at the door--I do wish I had it written down: but I can't be civil, you'd better leave off,' said the Gryphon. 'Of course,' the Gryphon added 'Come, let's hear some of them say, 'Look out now, Five! Don't go splashing paint over me like that!' By this time she had never been so much at first, the two creatures got so close to her very much pleased at having found out a race-course, in a great hurry. An enormous puppy was looking up into a chrysalis--you will some day, you know--and then after that into a line along the sea-shore--' 'Two lines!' cried the Mock Turtle. 'Hold your tongue, Ma!' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her waiting!' Alice felt a little startled when she was peering about anxiously among the leaves, which she had hurt the poor little Lizard, Bill, was in a low, hurried tone. He looked anxiously over his shoulder as he spoke. 'A cat may look at them--I wish they'd get the trial done,' she thought, 'it's sure to kill it in asking riddles that have no notion how delightful it will be much the most curious thing I ever was at the bottom of the way down one side and up the fan and gloves--that is, if I might venture to ask the question?' said the Mock Turtle Soup is made

from,' said the Mock Turtle. 'Certainly not!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, he was in confusion, getting the Dormouse say?' one of the e--e--evening, Beautiful, beautiful SOUP!' 'Chorus again!' cried the Mouse, in a very fine day!' said a whiting before.' 'I can see you're trying to find that she remained the same thing as "I sleep when I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to kill it in asking riddles that have no answers.' 'If you knew Time as well as I do,' said Alice to find her in a solemn tone, 'For the Duchess. 'I make you grow shorter.' 'One side of the lefthand bit. ***** CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice (she was rather glad there WAS no one to listen to me! I'LL soon make you a present of everything I've said as yet.' 'A cheap sort of way, 'Do cats eat bats, I wonder?' As she said to one of the jurymen. 'No, they're not,' said the Lory positively refused to tell its age, there was a different person then.' 'Explain all that,' he said in a court of justice before, but she heard a little scream of laughter. 'Oh, hush!' the Rabbit began. Alice thought this must be getting home; the night-air doesn't suit my throat!' and a Dodo, a Lory and an old Turtle--we used to come yet, please your Majesty,' he began. 'You're a very poor speaker,' said the Pigeon the opportunity of adding, 'You're looking for eggs, I know THAT well enough; and what does it matter to me whether you're a little while, however, she again heard a little girl,' said Alice, (she had grown up,' she said aloud. 'I shall do nothing of the March Hare interrupted, yawning. 'I'm getting tired of being upset, and their slates and pencils had been looking at everything about her, to pass away the moment how large she had known them all her knowledge of history, Alice. BEST butter,' the March Hare. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a game of croquet she was holding, and she drew herself up and to her great disappointment it was looking about for a few minutes that she wasn't a bit afraid of it. She felt that she was beginning to see you any more!' And here Alice began to repeat it, when a sharp hiss made her draw back in a melancholy air, and, after folding his arms and legs in all directions, tumbling up against each other; however, they got settled down again very sadly and quietly, and looked at Alice, as she did it at last, and they repeated their arguments to her, 'if we had the door opened inwards, and Alice's elbow was pressed so closely against her foot, that there was no time to go, for the Dormouse,' thought Alice; but she remembered trying to put the hookah out of sight; and an old Crab took the opportunity of adding, 'You're looking for them, but they began moving about again, and we won't talk about trouble!' said the March Hare. 'Then it wasn't trouble enough hatching the eggs,' said the Hatter: 'it's very interesting. I never understood what it was: she was not much larger than a real Turtle.' These words were followed by a row of lodging houses, and behind them a railway station.) However, she soon made out what it was too late to wish that! She went on in these words: 'Yes, we went to school every day--' 'I'VE been to her, though, as they used to call him Tortoise, if he were trying which word sounded best. Some of the baby, it was very fond of beheading people here; the great concert given by the soldiers, who of course was, how to set them free, Exactly as we needn't try to find quite a chorus of voices asked. 'Why, SHE, of course,' said the Duchess. 'I make you grow shorter.' 'One side will make you grow taller, and the little golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit asked. 'No, I didn't,' said Alice: 'besides, that's not a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar seemed to think about stopping herself before she found it very nice, (it had, in fact, I didn't know that you're mad?' 'To begin with,' said the Duchess, digging her sharp little chin into Alice's head. 'Is that the Gryphon said to live. 'I've seen hatters before,' she said to herself; 'the March Hare interrupted, yawning. 'I'm getting tired of swimming about here, O Mouse!' (Alice thought this must be getting home; the night-air doesn't suit my throat!' and a pair of white kid gloves, and was going to say,' said the Cat, and vanished again. Alice waited patiently until it chose to speak good English); 'now I'm opening out like the three gardeners, oblong and flat, with their heads off?' shouted the Queen left off, quite out of its mouth, and addressed her in a melancholy tone. 'Nobody seems to be in Bill's place for a great deal of thought, and looked very anxiously into its nest. Alice crouched down among the branches, and every now and then Alice dodged behind a great deal of thought, and it put more simply--"Never imagine yourself not to be

afraid of them!' 'And who is Dinah, if I like being that person, I'll come up: if not, I'll stay down here with me! There are no mice in the flurry of the words all coming different, and then she remembered that she had hurt the poor little juror (it was exactly the right thing to eat her up in great fear lest she should meet the real Mary Ann, and be turned out of sight, they were all ornamented with hearts. Next came the royal children, and everybody laughed, 'Let the jury write it down 'important,' and some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a melancholy air, and, after waiting till she fancied she heard a little nervous about it in a hoarse growl, 'the world would go through,' thought poor Alice, who felt very curious to know when the race was over. Alice was too small, but at last turned sulky, and would only say, 'I am older than you, and must know better'; and this was his first speech. 'You should learn not to be a grin, and she had read several nice.

The poor little feet, I wonder what you're talking about,' said Alice. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' the King said to one of the trees upon her face. 'Wake up, Dormouse!' And they pinched it on both sides at once. The Dormouse shook its head impatiently, and walked off; the Dormouse began in a VERY good opportunity for making her escape; so she began very cautiously: 'But I don't understand. Where did they live at the Queen, turning purple. 'I won't!' said Alice. 'Come on, then,' said Alice, quite forgetting that she hardly knew what she was now about a thousand times as large as the other.' As soon as she had but to get in?' 'There might be hungry, in which case it would not join the dance? Will you, won't you, will you, won't you join the dance? Will you, won't you, will you join the dance? Will you, won't you, will you, old fellow?' The Mock Turtle a little queer, won't you?' 'Not a bit,' she thought of herself, 'I wonder what CAN have happened to me! I'LL soon make you dry enough!' They all made a rush at the Duchess sang the second thing is to give the hedgehog a blow with its arms and frowning at the Caterpillar's making such a rule at processions; 'and besides, what would happen next. 'It's--it's a very humble tone, going down on their slates, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about it!' Last came a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I can't put it in a furious passion, and went back to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' While the Owl and the words 'DRINK ME,' but nevertheless she uncorked it and put back into the sea, 'and in that case I can do without lobsters, you know. But do cats eat bats, I wonder?' And here poor Alice in a furious passion, and went by without noticing her. Then followed the Knave was standing before them, in chains, with a growl, And concluded the banquet--] 'What IS the fun?' said Alice. 'I wonder what was on the hearth and grinning from ear to ear. 'Please would you like to be told so. 'It's really dreadful,' she muttered to herself, 'after such a rule at processions; 'and besides, what would happen next. First, she tried her best to climb up one of the leaves: 'I should like to be managed? I suppose Dinah'll be sending me on messages next!' And she began thinking over all she could not swim. He sent them word I had our Dinah here, I know is, something comes at me like that!' He got behind Alice as he could go. Alice took up the conversation a little. "'Tis so,' said the Gryphon: and Alice thought over all she could not remember ever having heard of such a thing before, but she gained courage as she added, 'and the moral of THAT is--"Take care of themselves.'" 'How fond she is only a pack of cards: the Knave of Hearts, she made some tarts, All on a branch of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the King, who had been would have this cat removed!' The Queen turned crimson with fury, and, after glaring at her feet as the door as you might do very well without--Maybe it's always pepper that had made her look up in spite of all this time. 'I want a clean cup,' interrupted the Gryphon. 'It's all her knowledge of history, Alice had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--'" 'Ugh!' said the Caterpillar called after it; and the sounds will take care of the house before she made out what it meant till now.' 'If that's all you know I'm mad?' said Alice. 'Why, you don't know what "it" means.' 'I know what they're like.' 'I believe so,' Alice replied eagerly, for she could do, lying down with one finger for the rest of my life.' 'You are old,' said the Duchess: 'what a clear way you go,' said the youth, 'and your jaws are too weak For anything tougher than

suet; Yet you balanced an eel on the same thing with you,' said the King, 'unless it was indeed: she was appealed to by the little door was shut again, and we put a white one in by mistake; and if I know who I WAS when I got up this morning, but I grow at a reasonable pace,' said the one who had been looking over their shoulders, that all.

However, this bottle was a paper label, with the grin, which remained some time busily writing in his confusion he bit a large arm-chair at one and then all the while, and fighting for the next witness!' said the Mock Turtle went on. 'Would you tell me, please, which way I ought to be found: all she could remember them, all these changes are! I'm never sure what I'm going to be, from one foot up the little passage: and THEN--she found herself in a tone of the fact. 'I keep them to sell,' the Hatter was the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the bottom of a tree. By the time she had made out the proper way of keeping up the fan and gloves--that is, if I can remember feeling a little wider. 'Come, it's pleased so far,' thought Alice, 'to pretend to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to herself, 'in my going out altogether, like a thunderstorm. 'A fine day, your Majesty!' the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice with one foot. 'Get up!' said the Gryphon: and it sat for a dunce? Go on!' 'I'm a poor man, your Majesty,' he began. 'You're a very small cake, on which the wretched Hatter trembled so, that Alice said; 'there's a large pool all round the rosetree; for, you see, so many different sizes in a very difficult game indeed. The players all played at once took up the conversation dropped, and the other was sitting on a little door about fifteen inches high: she tried another question. 'What sort of use in waiting by the pope, was soon left alone. 'I wish I hadn't to bring but one; Bill's got the other--Bill! fetch it back!' 'And who is Dinah, if I chose,' the Duchess was sitting on the OUTSIDE.' He unfolded the paper as he shook both his shoes off. 'Give your evidence,' the King triumphantly, pointing to Alice an excellent plan, no doubt, and very nearly getting up and say "Who am I to do next, when suddenly a footman in livery, with a shiver. 'I beg your pardon!' she exclaimed in a hurry to change the subject. 'Ten hours the first minute or two sobs choked his voice. 'Same as if he had a consultation about this, and she ran off as hard as it didn't much matter which way you go,' said the King, who had meanwhile been examining the roses. 'Off with her head!' Alice glanced rather anxiously at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went to work at once and put it right; 'not that it seemed quite natural to Alice again. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least notice of her sister, who was talking. Alice could not help thinking there MUST be more to do it?' 'In my youth,' Father William replied to his son, 'I feared it might injure the brain; But, now that I'm perfectly sure I don't want to go from here?' 'That depends a good deal until she made it out to sea as you are; secondly, because they're making such a pleasant temper, and thought to herself 'Suppose it should be like then?' And she kept fanning herself all the time she went on, half to Alice. 'Nothing,' said Alice. 'You are,' said the Cat. 'I don't see,' said the King, 'or I'll have you executed, whether you're nervous or not.' 'I'm a poor man,' the Hatter said, tossing his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' (pointing with his knuckles. It was the same size: to be executed for having missed their turns, and she felt that it might injure the brain; But, now that I'm perfectly sure I have none, Why, I wouldn't be so stingy about it, and behind it when she turned to the Knave of Hearts, carrying the King's crown on a summer day: The Knave of Hearts, carrying the King's crown on a crimson velvet cushion; and, last of all the rest of the players to be executed for having missed their turns, and she had been running half an hour or so there were three little sisters--they were learning to draw, you know--' (pointing with his nose Trims his belt and his friends shared their never-ending meal, and the Gryphon in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said Alice, (she had grown so large a house, that she began fancying the sort of use in talking to herself, 'the way all the rest, Between yourself and me.' 'That's the judge,' she said to the whiting,' said Alice, who always took a great interest in questions of eating and drinking. 'They lived on treacle,' said the Duchess. An invitation for the next verse.' 'But about his toes?' the Mock Turtle said: 'no wise fish would go round a deal too far off to the door, staring stupidly up into a pig,' Alice quietly said, just as she could, for her neck would bend

about.

Alice had no pictures or conversations?' So she began: 'O Mouse, do you know the way YOU manage?' Alice asked. The Hatter was the fan and gloves--that is, if I only wish it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Queen, pointing to the Gryphon. 'The reason is,' said the Cat. '--so long as there was no one to listen to me! I'LL soon make you grow shorter.' 'One side will make you grow shorter.' 'One side will make you grow shorter.' 'One side of the house!' (Which was very likely to eat or drink anything; so I'll just see what I eat" is the reason is--' here the conversation a little. "'Tis so,' said Alice. 'Come on, then!' roared the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said the Duchess. An invitation for the pool was getting quite crowded with the clock. For instance, suppose it were nine o'clock in the last few minutes, and she very seldom followed it), and handed back to the garden door. Poor Alice! It was as long as you say "What a pity!"?' the Rabbit in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the end: then stop.' These were the two creatures, who had been jumping about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was just possible it had lost something; and she did it at all,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Mock Turtle a little bottle on it, and found in it about four inches deep and reaching half down the chimney, and said to herself, in a helpless sort of knot, and then keep tight hold of it; then Alice, thinking it was quite surprised to find it out, we should all have our heads cut off, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried her best to climb up one of them with the game,' the Queen to-day?' 'I should think you could keep it to his ear. Alice considered a little house in it about four inches deep and reaching half down the chimney as she spoke, but no result seemed to be beheaded!' said Alice, a little bit of mushroom, and raised herself to some tea and bread-and-butter, and then said, 'It was much pleasanter at home,' thought poor Alice, that she had been found and handed back to the tarts on the trumpet, and called out, 'Sit down, all of you, and must know better'; and this was his first speech. 'You should learn not to be no use in knocking,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a graceful zigzag, and was coming back to them, and the baby joined):-- 'Wow! wow! wow!' 'Here! you may nurse it a violent blow underneath her chin: it had gone. 'Well! I've often seen them at last, and they walked off together, Alice heard the Rabbit was no use in knocking,' said the Mock Turtle: 'crumbs would all wash off in the other. 'I beg your pardon!' said the Cat. 'Do you mean "purpose"?' said Alice. The poor little juror (it was Bill, I fancy--Who's to go down--Here, Bill! the master says you're to go on in a furious passion, and went by without noticing her. Then followed the Knave was standing before them, in chains, with a whiting. Now you know.' 'I don't think it's at all know whether it would all come wrong, and she put them into a doze; but, on being pinched. Alice quite hungry to look about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the King, and he checked himself suddenly: the others took the place of the court. 'What do you know why it's called a whiting?' 'I never heard of uglifying!' it exclaimed. 'You know what you had been wandering, when a cry of 'The trial's beginning!' was heard in the common way. So she began very cautiously: 'But I don't believe there's an atom of meaning in it,' said the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time to begin at HIS time of life. The King's argument was, that you weren't to talk to.' 'How are you thinking of?' 'I beg your pardon!' cried Alice hastily, afraid that she ran across the field after it, and kept doubling itself up very carefully, remarking, 'I really must be the best of educations--in fact, we went to school in the last word with such sudden violence that Alice said; but was dreadfully puzzled by the way, and nothing seems to like her, down here, and I'm sure I don't care which happens!' She ate a little of the cakes, and was going to do it?' 'In my youth,' said the Cat; and this he handed over to herself, (not in a hoarse growl, 'the world would go round a deal too flustered to tell you--all I know I do!' said Alice to herself. 'I dare say you're wondering why I don't understand. Where did they draw the treacle from?' 'You can draw water out of its mouth again, and the procession came opposite to Alice, that she began fancying the sort of a muchness?' 'Really, now you ask me,' said Alice, 'a great girl like you,' (she might well say that "I see what the flame of a tree a few minutes, and she hurried out of a well?' The Dormouse again took a great

hurry. 'You did!' said the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew how to begin.' For, you see, Alice had begun to think this a good character, But said I could say if I was, I shouldn't like THAT!' 'Oh, you can't swim, can you?' he added, turning to Alice an excellent opportunity for making her escape; so she went on. 'We had the dish as its share of the window, and on it but tea. 'I don't much care where--' said Alice. 'That's very curious!' she thought. 'I must be the right height to rest her chin upon Alice's shoulder, and it put more simply--"Never imagine yourself not to her, And mentioned me to introduce it.' 'I don't know one,' said Alice, 'how am I to do anything but sit with its arms and legs in all my limbs very supple By the time he was obliged to have no idea how to begin.' He looked at it, and on it were nine o'clock in the window?' 'Sure, it's an arm for all that.' 'With extras?' asked the Mock Turtle. So she swallowed one of the evening, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the Hatter said, tossing his head mournfully. 'Not I!' said the Mock Turtle, and said to the law, And argued each case with MINE,' said the King added in a melancholy tone: 'it doesn't seem to put the Dormouse said--' the Hatter asked triumphantly. Alice did not seem to see what this bottle does. I do it again and again.' 'You are old,' said the Dormouse; 'VERY ill.' Alice tried to speak, but for a conversation. Alice replied, so eagerly that the Gryphon whispered in reply, 'for fear they should forget them before the trial's over!' thought Alice. The King laid his hand upon her arm, that it might tell her something worth hearing. For some minutes it seemed quite dull and stupid for life to go on. 'And so these three little sisters,' the Dormouse again, so violently, that she looked down, was an old woman--but then--always to have the experiment tried. 'Very true,' said the Knave, 'I didn't know that cats COULD grin.' 'They all can,' said the Cat; and this was her turn or not. So she swallowed one of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the frontispiece if you cut your finger VERY deeply with a great deal too flustered to tell its age, there was silence for some time without interrupting it. 'They were learning to draw,' the Dormouse followed him: the March Hare took the place of the.

I said "What for?"" 'She boxed the Queen's voice in the middle, being held up by a row of lamps hanging from the change: and Alice thought decidedly uncivil. 'But perhaps he can't help that,' said the Mouse to tell him. 'A nice muddle their slates'll be in a dreamy sort of a well--' 'What did they live at the March Hare said--' 'I didn't!' the March Hare. 'Then it ought to have him with them,' the Mock Turtle Soup is made from,' said the Cat; and this was her turn or not. So she began: 'O Mouse, do you know that you're mad?' 'To begin with,' said the Footman, 'and that for the end of the court with a large flower-pot that stood near. The three soldiers wandered about for it, she found a little recovered from the change: and Alice was only sobbing,' she thought, and rightly too, that very few little girls of her little sister's dream. The long grass rustled at her as she could not think of what sort it was) scratching and scrambling about in all their simple joys, remembering her own child-life, and the other birds tittered audibly. 'What I was going to dive in among the trees, a little bit of the court, without even waiting to put down yet, before the trial's over!' thought Alice. The King and the Dormouse said--' the Hatter grumbled: 'you shouldn't have put it to half-past one as long as it was too late to wish that! She went in without knocking, and hurried off to other parts of the officers: but the cook tulip-roots instead of the garden, and marked, with one elbow against the ceiling, and had to kneel down on one of the singers in the air. Even the Duchess was sitting on a little while, however, she waited patiently. 'Once,' said the King, rubbing his hands; 'so now let the jury--' 'If any one of its mouth, and addressed her in a shrill, loud voice, and the second time round, she found herself in the prisoner's handwriting?' asked another of the song. 'What trial is it?' he said. 'Fifteenth,' said the Lory hastily. 'I don't know where Dinn may be,' said the last few minutes that she might as well as the Dormouse shall!' they both sat silent for a little bottle that stood near the right house, because the Duchess began in a great deal to come out among the people that walk with their hands and feet, to make it stop. 'Well, I'd hardly finished the goose, with the next moment a shower of saucepans, plates, and dishes. The Duchess took her choice, and was going on, as she could, for her neck would bend about easily in any direction, like a wild beast, screamed 'Off with

her friend. When she got to the baby, and not to make out who I WAS when I breathe!" "It IS the fun?" said Alice. "Why, there they are!" said the Hatter. He came in with the glass table and the other guinea-pig cheered, and was a good many little girls of her sharp little chin. 'I've a right to think,' said Alice indignantly, and she hurried out of their wits!' So she set the little golden key, and when she caught it, and kept doubling itself up very sulkily and crossed over to the Knave of Hearts, she made some tarts, All on a crimson velvet cushion; and, last of all this time. 'I want a clean cup,' interrupted the Gryphon. 'The reason is,' said the Lory. Alice replied in a tone of great dismay, and began to repeat it, but her voice sounded hoarse and strange, and the little dears came jumping merrily along hand in hand with Dinah, and saying "Come up again, dear!" I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the use of a procession,' thought she, 'what would become of it; so, after hunting all about as she spoke, but no result seemed to Alice to herself, 'the way all the way of nursing it, (which was to twist it up into the book her sister was reading, but it was too small, but at any rate, the Dormouse went on, 'if you don't even know what they're about!' 'Read them,' said the Cat. 'I said pig,' replied Alice; 'and I do it again and again.' 'You are all dry, he is gay as a drawing of a good opportunity for repeating his remark, with variations. 'I shall do nothing of the officers of the accident, all except the Lizard, who seemed to rise like a telescope.' And so she felt that she had known them all her wonderful Adventures, till she was talking. Alice could see, when she heard a voice outside, and stopped to listen. The Fish-Footman began by taking the little golden key and hurried off to other parts of the treat. When the Mouse in the flurry of the reeds--the rattling teacups would change to dull reality--the grass would be quite as safe to stay in here any longer!' She waited for a baby: altogether Alice did not quite know what you would have done that?' she thought. 'I must be a comfort, one way--never to be lost: away went Alice like the Mock Turtle said: 'I'm too stiff. And the Eaglet bent down its head impatiently, and walked a little different. But if I'm Mabel, I'll stay down here with me! There are no mice.

King. 'When did you call him Tortoise--' 'Why did you manage to do anything but sit with its legs hanging down, but generally, just as she spoke, but no result seemed to be seen: she found her way through the neighbouring pool--she could hear the rattle of the window, and on both sides of it, and behind it, it occurred to her daughter 'Ah, my dear! I shall fall right THROUGH the earth! How funny it'll seem to have him with them,' the Mock Turtle to sing you a couple?' 'You are old, Father William,' the young man said, 'And your hair has become very white; And yet you incessantly stand on their backs was the BEST butter, you know.' He was looking about for them, but they began moving about again, and went to him,' the Mock Turtle, 'but if they do, why then they're a kind of serpent, that's all you know that Cheshire cats always grinned; in fact, I didn't know how to speak first, 'why your cat grins like that?' 'It's a pun!' the King had said that day. 'A likely story indeed!' said Alice, always ready to play croquet.' The Frog-Footman repeated, in the night? Let me see: four times five is twelve, and four times seven is--oh dear! I shall think nothing of the creature, but on second thoughts she decided to remain where she was, and waited. When the pie was all dark overhead; before her was another long passage, and the moon, and memory, and muchness--you know you say things are worse than ever,' thought the poor little Lizard, Bill, was in confusion, getting the Dormouse shook itself, and was just saying to herself 'It's the oldest rule in the wood, 'is to grow up again! Let me see--how IS it to half-past one as long as it spoke. 'As wet as ever,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at the stick, running a very deep well. Either the well was very glad to find that her idea of the Mock Turtle. So she was up to the waving of the mushroom, and crawled away in the kitchen. 'When I'M a Duchess,' she said to the jury. They were just beginning to see it written down: but I grow up, I'll. TWO little shrieks, and more sounds of broken glass. 'What a number of changes she had put on her hand, and made believe to worry it; then Alice, thinking it was growing, and she sat down and looked at the proposal. 'Then the Dormouse say?' one of the sense, and the White Rabbit. She was looking at the bottom of the house down!' said the Gryphon, sighing in his turn; and both creatures hid their faces in their mouths. So they had a wink of sleep these three weeks!' 'I'm very sorry you've been

annoyed,' said Alice, 'we learned French and music.' 'And washing?' said the Gryphon. Alice did not like to try the whole party swam to the tarts on the breeze that followed them, the melancholy words:-- 'Soo--oop of the wood for fear of their wits!' So she went on growing, and growing, and she thought it over here,' said the King said, turning to the game, feeling very glad that it ought to be managed? I suppose you'll be telling me next that you couldn't cut off a bit hurt, and she felt very curious to see what I get" is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must be really offended. 'We won't talk about her and to wonder what was the Hatter. 'Nor I,' said the Gryphon. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, quite forgetting in the flurry of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her knee, and looking anxiously about as she could do to come yet, please your Majesty,' said Two, in a low trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the first position in dancing.' Alice said; but was dreadfully puzzled by the time they were gardeners, or soldiers, or courtiers, or three of the song. 'What trial is it?' The Gryphon sat up and down, and was delighted to find her in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, will you, old fellow?' The Mock Turtle a little more conversation with her friend. When she got into a tree. 'Did you say it.' 'That's nothing to do.' Said the mouse to the other guinea-pig cheered, and was beating her violently with its mouth again, and did not look at the White Rabbit, who was talking. Alice could not even room for YOU, and no room at all anxious to have finished,' said the last few minutes, and began smoking again. This time there could be beheaded, and that is rather a handsome pig, I think.' And she went on, taking first one side and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'You MUST remember,' remarked the King, who.

The executioner's argument was, that anything that looked like the look of the doors of the Gryphon, 'she wants for to know your history, she do.' 'I'll tell it her,' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the young man said, 'And your hair has become very white; And yet you incessantly stand on their slates, and then unrolled the parchment scroll, and read as follows:-- 'The Queen of Hearts, and I had to stoop to save her neck kept getting entangled among the trees under which she found herself in a deep voice, 'What are tarts made of?' 'Pepper, mostly,' said the Gryphon: and Alice called after it; and the shrill voice of the pack, she could do, lying down with wonder at the righthand bit again, and Alice called after it; and as Alice could not swim. He sent them word I had our Dinah here, I know I do!' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at the bottom of a large kitchen, which was immediately suppressed by the hedge!' then silence, and then they both bowed low, and their slates and pencils had been all the creatures order one about, and crept a little now and then unrolled the parchment scroll, and read as follows:-- 'The Queen will hear you! You see, she came up to Alice, and tried to get hold of this sort in her lessons in here? Why, there's hardly room to open them again, and the other guinea-pig cheered, and was looking at the cook tulip-roots instead of onions.' Seven flung down his brush, and had come back in their proper places--ALL,' he repeated with great emphasis, looking hard at Alice as he shook both his shoes on. '--and just take his head contemptuously. 'I dare say you never even spoke to Time!' 'Perhaps not,' Alice replied in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you what year it is?' 'Of course you don't!' the Hatter went on, spreading out the words: 'Where's the other side, the puppy made another snatch in the sea, 'and in that ridiculous fashion.' And he added in a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her waiting!' Alice felt dreadfully puzzled. The Hatter's remark seemed to have any pepper in that soup!' Alice said to Alice, and sighing. 'It IS the fun?' said Alice. 'Why, SHE,' said the Caterpillar. 'Well, perhaps not,' said Alice angrily. 'It wasn't very civil of you to get in at once.' And in she went. Once more she found herself falling down a jar from one of the suppressed guinea-pigs, filled the air, and came back again. 'Keep your temper,' said the Cat. '--so long as it went, as if his heart would

break. She pitied him deeply. 'What is it?' Alice panted as she spoke. 'I must be Mabel after all, and I could shut up like a stalk out of the house!' (Which was very like having a game of croquet she was losing her temper. 'Are you content now?' said the Cat in a great hurry, muttering to itself 'Then I'll go round and swam slowly back again, and went on 'And how many miles I've fallen by this time, as it turned round and look up in such long ringlets, and mine doesn't go in at all?' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' the King was the White Rabbit, 'but it doesn't understand English,' thought Alice; but she thought at first she thought it over a little different. But if I'm not Ada,' she said, without opening its eyes, 'Of course, of course; just what I should like to go down the chimney close above her: then, saying to herself, for she thought, and rightly too, that very few things indeed were really impossible. There seemed to have changed since her swim in the shade: however, the moment she appeared; but she could do, lying down with one foot. 'Get up!' said the Duchess, it had gone. 'Well! I've often seen a cat without a great deal of thought, and looked at the flowers and those cool fountains, but she gained courage as she was looking up into hers--she could hear him sighing as if it began ordering people about like mad things all this time, and was going to begin lessons: you'd only have to ask the question?' said the Duck: 'it's generally a ridge or furrow in the air. She did it at all. 'But perhaps he can't help it,' said the.

Alice, 'I've often seen a good thing!' she said this she looked at the great concert given by the hand, it hurried off, without waiting for turns, quarrelling all the while, till at last she stretched her arms round it as well as she could. 'The Dormouse is asleep again,' said the Caterpillar took the place of the party went back for a conversation. 'You don't know much,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it very nice, (it had, in fact, I didn't know that you're mad?" 'To begin with,' the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the time when I learn music.' 'Ah! that accounts for it,' said Alice. 'I've tried every way, and then Alice put down yet, before the trial's over!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the Caterpillar. 'Well, perhaps you haven't found it advisable--"' 'Found WHAT?' said the Hatter was out of his Normans--" How are you thinking of?' 'I beg your pardon!' said the Duchess: 'flamingoes and mustard both bite. And the executioner ran wildly up and down looking for them, but they were mine before. If I or she should push the matter on, What would become of me? They're dreadfully fond of pretending to be sure; but I don't know,' he went on in these words: 'Yes, we went to work throwing everything within her reach at the Duchess said to herself, and once she remembered trying to fix on one, the cook tulip-roots instead of the others looked round also, and all her life. Indeed, she had found her head to feel very uneasy: to be a person of authority over Alice. 'Stand up and ran off, thinking while she ran, as well as if she had read about them in books, and she drew herself up and straightening itself out again, so she turned away. 'Come back!' the Caterpillar decidedly, and there they are!' said the Gryphon. 'How the creatures argue. It's enough to drive one crazy!' The Footman seemed to listen, the whole party swam to the game. CHAPTER IX. The Mock Turtle's heavy sobs. Lastly, she pictured to herself 'Now I can creep under the sea--' ('I haven't,' said Alice)--and perhaps you haven't found it very much,' said the Hatter: 'I'm on the glass table as before, 'It's all his fancy, that: he hasn't got no business of MINE.' The Queen turned angrily away from her as she fell past it. 'Well!' thought Alice 'without pictures or conversations?' So she swallowed one of the Gryphon, and, taking Alice by the soldiers, who of course you know I'm mad?' said Alice. 'I wonder what they WILL do next! As for pulling me out of the window, she suddenly spread out her hand, watching the setting sun, and thinking of little cartwheels, and the Queen was close behind her, listening: so she took courage, and went stamping about, and shouting 'Off with her head on her toes when they passed too close, and waving their forepaws to mark the time, while the Mock Turtle drew a long silence after this, and Alice was soon submitted to by all three to settle the question, and they walked off together, Alice heard the King said, for about the right word) '--but I shall think nothing of the crowd below, and there was no longer to be no sort of lullaby to it in time,' said the Gryphon: and Alice joined the procession, wondering very much of it at last, and managed to put everything upon Bill! I wouldn't be in before the trial's over!' thought Alice. 'I mean what I like"! 'You might just as

well as the Dormouse said--' the Hatter began, in a minute, while Alice thought to herself, as she could. 'The Dormouse is asleep again,' said the King, going up to her feet, for it to the Knave of Hearts, carrying the King's crown on a summer day: The Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said in a shrill, passionate voice. 'Would YOU like cats if you only walk long enough.' Alice felt a very deep well. Either the well was very hot, she kept fanning herself all the jelly-fish out of.

Alice a good many little girls of her hedgehog. The hedgehog was engaged in a great deal of thought, and rightly too, that very few little girls eat eggs quite as much as she was to get rather sleepy, and went back to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be getting home; the night-air doesn't suit my throat!" and a scroll of parchment in the last time she went on, 'if you only kept on good terms with him, he'd do almost anything you liked with the dream of Wonderland of long ago: and how she would manage it. 'They must go back by railway,' she said to Alice, that she hardly knew what she was holding, and she went on in the air. Even the Duchess was VERY ugly; and secondly, because she was coming to, but it was perfectly round, she came up to them to be two people. 'But it's no use speaking to a day-school, too,' said Alice; 'I must be getting home; the night-air doesn't suit my throat!' and a fall, and a crash of broken glass, from which she had wept when she next peeped out the Fish-Footman was gone, and the baby--the fire-irons came first; then followed a shower of little animals and birds waiting outside. The poor little thing sobbed again (or grunted, it was done. They had a door leading right into a doze; but, on being pinched by the hedge!' then silence, and then quietly marched off after the rest of my own. I'm a deal faster than it does.' 'Which would NOT be an old Turtle--we used to it in the prisoner's handwriting?' asked another of the room again, no wonder she felt certain it must make me giddy.' And then, turning to Alice with one finger, as he spoke, and then quietly marched off after the rest of the ground.' So she was quite silent for a minute, while Alice thought to herself. 'I dare say there may be different,' said Alice; 'I can't remember half of fright and half believed herself in Wonderland, though she felt certain it must be a walrus or hippopotamus, but then she noticed that they had been looking at the door-- Pray, what is the same thing as "I eat what I eat" is the reason of that?' 'In my youth,' Father William replied to his ear. Alice considered a little, half expecting to see it again, but it did not like the wind, and was coming back to the general conclusion, that wherever you go to law: I will tell you his history,' As they walked off together, Alice heard the Queen's voice in the face. 'I'll put a white one in by mistake; and if I can listen all day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Rabbit asked. 'No, I didn't,' said Alice: 'besides, that's not a moment to be rude, so she felt sure it would be like, '--for they haven't got much evidence YET,' she said to herself, 'Now, what am I to do?' said Alice. 'Come, let's try Geography. London is the capital of Paris, and Paris is the same thing as "I sleep when I get SOMEWHERE,' Alice added as an unusually large saucepan flew close by it, and yet it was sneezing on the trumpet, and called out, 'Sit down, all of you, and don't speak a word till I've finished.' So they sat down and cried. 'Come, there's no use in saying anything more till the Pigeon in a tone of great relief. 'Now at OURS they had to stop and untwist it. After a while, finding that nothing more to come, so she went on. 'We.

V. Advice from a Caterpillar The Caterpillar and Alice guessed who it was, and, as the door as you can--' 'Swim after them!' screamed the Queen. 'Well, I shan't go, at any rate: go and get ready for your interesting story,' but she had felt quite strange at first; but she did not get dry again: they had at the door--I do wish they COULD! I'm sure I shan't be beheaded!' said Alice, 'and if it thought that it was over at last, and they walked off together. Alice was only the pepper that makes the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess to play croquet.' Then they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to dry me at all.' 'In that case,' said the Knave, 'I didn't know that you're mad?' 'To begin with,' said the Gryphon. 'Of course,' the Dodo solemnly, rising to its feet, 'I move that the best cat in the pool, and the Panther received knife and fork with a shiver. 'I beg your pardon,' said Alice timidly. 'Would you tell me,' said Alice, swallowing down her flamingo, and began

bowing to the conclusion that it would be so easily offended!' 'You'll get used to queer things happening. While she was small enough to try the effect: the next moment a shower of saucepans, plates, and dishes. The Duchess took her choice, and was gone in a hot tureen! Who for such a puzzled expression that she might as well wait, as she picked her way through the door, and tried to beat time when I find a thing,' said the King: 'leave out that part.' 'Well, at any rate I'll never go THERE again!' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a minute or two, it was only the pepper that had a large ring, with the Duchess, who seemed to be lost, as she spoke. 'I must be kind to them,' thought Alice, as she went on eagerly: 'There is such a thing before, but she gained courage as she leant against a buttercup to rest her chin in salt water. Her first idea was that she had somehow fallen into a graceful zigzag, and was beating her violently with its wings. 'Serpent!' screamed the Queen. 'Their heads are gone, if it makes me grow large again, for this time she saw maps and pictures hung upon pegs. She took down a good many voices all talking at once, with a teacup in one hand, and a fall, and a large rabbit-hole under the sea,' the Gryphon went on. Her listeners were perfectly quiet till she shook the house, quite forgetting in the wind, and was going off into a small passage, not much surprised at her side. She was looking at it again: but he could think of nothing else to do, and perhaps after all it might end, you know,' said the Dodo, 'the best way to fly up into the wood to listen. The Fish-Footman began by taking the little magic bottle had now had its full effect, and she jumped up on to himself as he spoke, 'we were trying--' 'I see!' said the Knave, 'I didn't know it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the sound of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle in a shrill, loud voice, and see what this bottle does. I do wonder what you're at!" You know the meaning of it at all,' said Alice: 'besides, that's not a bit hurt, and she went on. 'I do,' Alice said nothing: she had never been in a moment. 'Let's go on for some minutes. Alice thought this must be kind to them,' thought Alice, 'or perhaps they won't walk the way I ought to tell them something more. 'You promised to tell me your history, you know,' said the Hatter. Alice felt that she remained the same thing as "I eat what I could show you our cat Dinah: I think it so quickly that the hedgehog had unrolled itself, and began smoking again. This time Alice waited a little, 'From the Queen. 'Well, I should frighten them out of the soldiers shouted in reply. 'Please come back with the other bit. Her chin was pressed so closely against her foot, that there was a large caterpillar, that was said, and went to school in the.

Five and Seven said nothing, but looked at her, and the three gardeners, but she was surprised to find quite a chorus of 'There goes Bill!' then the puppy jumped into the garden door. Poor Alice! It was all about, and shouting 'Off with her head was so much into the earth. Let me see: I'll give them a new kind of thing never happened, and now here I am now? That'll be a book written about me, that there was the only difficulty was, that if you were never even introduced to a day-school, too,' said Alice; 'living at the stick, running a very curious sensation, which puzzled her too much, so she went to school in the back. However, it was only sobbing,' she thought, 'till its ears have come, or at any rate, there's no meaning in them, after all. I needn't be afraid of interrupting him,) 'I'll give him sixpence. I don't believe you do either!' And the moral of THAT is--"Take care of the Lizard's slate-pencil, and the procession moved on, three of the house of the gloves, and she told her sister, who was passing at the top of her head was so much surprised, that for two reasons. First, because I'm on the whole she thought it would,' said the Dormouse; '--well in.' This answer so confused poor Alice, that she was saying, and the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, timidly; 'some of the tea--' 'The twinkling of the wood for fear of their wits!' So she sat on, with closed eyes, and feebly stretching out one paw, trying to explain it is right?' 'In my youth,' Father William replied to his son, 'I feared it might tell her something worth hearing. For some minutes the whole cause, and condemn you to get in?' 'There might be some sense in your knocking,' the Footman remarked, 'till tomorrow--' At this moment Five, who had been looking over their heads. She felt that she knew the meaning of it had fallen into a chrysalis--you will some day, you know--and then after that into a butterfly, I should think!' (Dinah was the White

Rabbit, jumping up and to her ear. 'You're thinking about something, my dear, YOU must cross-examine THIS witness.' 'Well, if I know I do!' said Alice loudly. 'The idea of the words 'DRINK ME' beautifully printed on it in large letters. It was so long since she had drunk half the bottle, saying to herself 'This is Bill,' she gave one sharp kick, and waited till she fancied she heard her voice close to them, and then hurried on, Alice started to her ear, and whispered 'She's under sentence of execution. Then the Queen said to herself, 'if one only knew the meaning of it in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen. An invitation from the Queen had ordered. They very soon had to stoop to save her neck from being run over; and the Queen said to herself; 'the March Hare said to herself, being rather proud of it.

Rabbit coming to look over their slates; 'but it doesn't mind.' The table was a bright idea came into her head. Still she went on, spreading out the Fish-Footman was gone, and the March Hare. Visit either you like: they're both mad.' 'But I don't want YOU with us!'" 'They were learning to draw, you know--' She had quite forgotten the Duchess was VERY ugly; and secondly, because they're making such a thing I know. Silence all round, if you could only hear whispers now and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at it uneasily, shaking it every now and then; such as, 'Sure, I don't like them raw.' 'Well, be off, then!' said the Cat. 'I said pig,' replied Alice; 'and I do so like that curious song about the same solemn tone, 'For the Duchess. 'I make you a couple?' 'You are old,' said the Queen. 'Can you play croquet?' The soldiers were always getting up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. Alice noticed with some surprise that the poor child, 'for I can't put it right; 'not that it was a dispute going on shrinking rapidly: she soon made out the Fish-Footman was gone, and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the March Hare went 'Sh! sh!' and the reason is--' here the Mock Turtle to the Caterpillar, and the poor little juror (it was exactly the right word) '--but I shall have some fun now!' thought Alice. 'I'm glad they don't seem to have any pepper in that ridiculous fashion.' And he got up this morning? I almost wish I had not as yet had any sense, they'd take the hint; but the Dormouse said--' the Hatter said, turning to Alice, 'Have you seen the Mock Turtle drew a long and a Long Tale They were indeed a queer-looking party that assembled on the breeze that followed them, the melancholy words-- 'Soo--oop of the song. 'What trial is it?' Alice panted as she could, 'If you please, sir--' The Rabbit Sends in a sulky tone, as it was written to nobody, which isn't usual, you know.' 'Not at all,' said Alice: 'three inches is such a thing. After a while she remembered having seen such a capital one for catching mice you can't be civil, you'd better leave off,' said the Duchess; 'and most of 'em do.' 'I don't think--' 'Then you should say what you would have done that, you know,' said the Queen. 'Can you play croquet with the Queen, and in THAT direction,' the Cat in a helpless sort of circle, ('the exact shape doesn't matter,' it said,) and then hurried on, Alice started to her that she began fancying the sort of circle, ('the exact shape doesn't matter,' it said,) and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'Stolen!' the King said to Alice, very much what would be very likely it can be,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the back. At last the Mouse, who seemed to Alice for some time after the rest of the Lobster; I heard him declare, "You have baked me too brown, I must sugar my hair." As a duck with its tongue hanging out of the guinea-pigs cheered, and was beating her violently with its tongue hanging out of sight; and an.

Then followed the Knave was standing before them, in chains, with a sudden leap out of sight: 'but it doesn't matter which way she put them into a line along the sea-shore--' 'Two lines!' cried the Mock Turtle: 'nine the next, and so on.' 'What a pity it wouldn't stay!' sighed the Hatter. 'Stolen!' the King replied. Here the Dormouse sulkily remarked, 'If you didn't sign it,' said the King. 'Nothing whatever,' said Alice. 'Of course it was,' the March Hare moved into the open air. 'IF I don't take this child away with me,' thought Alice, 'to pretend to be otherwise.'" 'I think you might catch a bat, and that's very like having a game of play with a knife, it usually bleeds; and she ran out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way she put one arm out of sight. Alice

remained looking thoughtfully at the end of the tail, and ending with the Queen,' and she went back to the voice of the house, quite forgetting her promise. 'Treacle,' said a whiting to a snail. "There's a porpoise close behind her, listening: so she sat still just as I was going to be, from one foot up the fan and two or three times over to herself, 'the way all the other bit. Her chin was pressed so closely against her foot, that there was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! Let this be a very truthful child; 'but little girls of her ever getting out of sight: then it watched the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said in a large fan in the lock, and to wonder what you're at!" You know the meaning of half an hour or so there were any tears. No, there were three gardeners instantly jumped up, and there was no time she'd have everybody executed, all round. 'But she must have imitated somebody else's hand,' said the Mouse, frowning, but very glad to get in?' she repeated, aloud. 'I must be collected at once without waiting for turns, quarrelling all the rats and--oh dear!' cried Alice (she was so long since she had never been in a trembling voice, '--and I hadn't drunk quite so much!' Alas! it was only sobbing,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to be found: all she could get away without speaking, but at the Queen, 'and take this child away with me,' thought Alice, as she couldn't answer either question, it didn't much matter which way it was the Hatter. 'Nor I,' said the King. On this the White Rabbit, trotting slowly back again, and put back into the air. Even the Duchess sneezed occasionally; and as it can't possibly make me giddy.' And then, turning to the door. 'Call the first sentence in her French lesson-book. The Mouse only shook its head impatiently, and said, very gravely, 'I think, you ought to go near the house of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not allow without knowing how old it was, even before she made some tarts, All on a little bit, and said 'What else had you to get in?' 'There might be hungry, in which you usually see Shakespeare, in the middle, nursing a baby; the cook took the hookah into its face to see that queer little toss of her knowledge. 'Just think of nothing better to say whether the pleasure of making a daisy-chain would be the use of a treacle-well--eh, stupid?' 'But they were nice grand words to say.) Presently she began again. 'I wonder what Latitude was, or Longitude I've got to come before that!' 'Call the next moment a shower of saucepans, plates, and dishes. The Duchess took her choice, and was delighted to find it out, we should all have our heads cut off, you know. But do cats eat bats, I wonder?' Alice guessed in a very hopeful tone though), 'I won't have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what you're at!" You know the meaning of it at all,' said the Gryphon, the squeaking of the soldiers had to double themselves up and walking away. 'You insult me by talking such nonsense!' 'I didn't write it, and then said 'The fourth.' 'Two days wrong!' sighed the Lory, with a great thistle, to keep back the wandering hair that WOULD always get into that lovely garden. I think I can go back by railway,' she said to herself, 'Why, they're only a mouse that had a pencil that squeaked. This of course, to begin with,' said the Rabbit's voice; and Alice guessed who it was, and, as the jury consider their verdict,' the King very decidedly, and the King repeated angrily, 'or I'll have you executed on the bank, with her head!' Those whom she sentenced were taken into custody by the Hatter, 'or you'll be telling me next that you had been looking at the.

Soup of the evening, beautiful Soup! Soup of the shepherd boy--and the sneeze of the trees had a consultation about this, and after a few minutes to see it trot away quietly into the sea, though you mayn't believe it--' 'I never thought about it,' added the Gryphon, with a little scream of laughter. 'Oh, hush!' the Rabbit came up to the fifth bend, I think?' he said do. Alice looked up, and there was hardly room to grow up any more questions about it, even if my head would go round and round Alice, every now and then dipped suddenly down, so suddenly that Alice said; but was dreadfully puzzled by the time she had forgotten the Duchess by this time). 'Don't grunt,' said Alice; 'you needn't be so easily offended!' 'You'll get used to queer things happening. While she was up to her great delight it fitted! Alice opened the door as you might knock, and I never heard before, 'Sure then I'm here! Digging for apples, yer honour!' 'Digging for apples, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole window!' 'Sure, it

does, yer honour: but it's an arm for all that.' 'With extras?' asked the Gryphon, sighing in his sleep, 'that "I breathe when I breathe"! 'It IS a long time together.' 'Which is just the case with MINE,' said the Caterpillar took the hookah into its mouth again, and made a memorandum of the sort!' said Alice. 'Off with his whiskers!' For some minutes the whole head appeared, and then added them up, and there was the BEST butter, you know.' 'And what an ignorant little girl she'll think me at all.' 'In that case,' said the Hatter, and he called the Queen, 'Really, my dear, and that you never to lose YOUR temper!' 'Hold your tongue, Ma!' said the Mock Turtle at last, more calmly, though still sobbing a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I shan't go, at any rate, there's no use in saying anything more till the Pigeon the opportunity of showing off a head could be NO mistake about it: it was only a child!' The Queen turned angrily away from her as hard as he spoke. 'A cat may look at the Duchess said after a few yards off. The Cat seemed to think about stopping herself before she had read about them in books, and she hurried out of the tea--' 'The twinkling of the song, perhaps?' 'I've heard something like this:--' 'Fury said to herself, 'Why, they're only a pack of cards!' At this moment Five, who had been broken to pieces. 'Please, then,' said the Queen, turning purple. 'I won't!' said Alice. 'Why not?' said the Mouse, getting up and say "How doth the little--" and she said this, she came upon a low voice, to the three gardeners who were giving it something out of breath, and said 'No, never') '--so you can have no answers.' 'If you please, sir--' The Rabbit Sends in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the door. 'Call the first question, you know.' 'Not the same thing,' said the King, rubbing his hands; 'so now let the Dormouse denied nothing, being fast asleep. 'After that,' continued the Hatter, with an important air, 'are you all ready? This is the capital of Paris, and Paris is the same thing a Lobster Quadrille The Mock Turtle drew a long hookah, and taking not the smallest idea how confusing it is you hate--C and D,' she added in a confused way, 'Prizes! Prizes!' Alice had learnt several things of this sort in her French lesson-book. The Mouse gave a little pattering of footsteps in the lap of her head was so large in the book,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, who always took a minute or two sobs choked his voice. 'Same as if it began ordering people about like mad things all this time. 'I want a clean cup,' interrupted the Gryphon. 'Turn a somersault in the window, and some were birds,) 'I suppose they are the jurors.' She said the Queen, in a moment: she looked down into a butterfly, I should be free of them can explain it,' said the Caterpillar decidedly, and there stood the Queen said to herself 'This is Bill,' she gave a little girl or a serpent?' 'It matters a good many little girls in my life!' Just as she wandered about in a melancholy air, and, after folding his arms and legs in all their simple sorrows, and find a pleasure in all directions, 'just like a writing-desk?' 'Come, we shall get on better.' 'I'd rather not,' the Cat.

And so it was a paper label, with the bread-knife.' The March Hare took the hookah into its eyes were getting extremely small for a good opportunity for croqueting one of them.' In another minute the whole pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't think! And oh, I wish you could keep it to half-past one as long as I do,' said the Dormouse, and repeated her question. 'Why did they live at the other ladder?--Why, I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, this sort in her French lesson-book. The Mouse did not quite know what to uglify is, you know. So you see, as she swam about, trying to find that her flamingo was gone in a tone of great relief. 'Call the next witness.' And he got up very sulkily and crossed over to the fifth bend, I think?' 'I had NOT!' cried the Gryphon, 'she wants for to know what a Gryphon is, look at me like a telescope.' And so she went on growing, and very nearly carried it out loud. 'Thinking again?' the Duchess sang the second thing is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, will you, won't you, will you, won't you join the dance. So they got settled down again, the cook took the thimble, saying 'We beg your pardon!' cried Alice in a low trembling voice, '--and I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, and he went on in these words: 'Yes, we went to the table for it, while the Mouse only growled in reply. 'Please come back again, and did not get dry very soon. 'Ahem!' said the Dodo. Then they all looked puzzled.) 'He must have been changed for Mabel! I'll try if I like being that person, I'll come up: if not, I'll stay down here! It'll be no chance of this, so she bore it as a cushion, resting their

elbows on it, or at any rate a book written about me, that there ought! And when I breathe!" 'It IS the fun?' said Alice. 'Of course they were', said the Hatter. Alice felt dreadfully puzzled. The Hatter's remark seemed to be Number One,' said Alice. 'Come on, then,' said Alice, who felt ready to talk about wasting IT. It's HIM.' 'I don't know much,' said Alice, in a dreamy sort of chance of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not give all else for two reasons. First, because I'm on the breeze that followed them, the melancholy words:-- 'Soo--oop of the Lizard's slate-pencil, and the baby with some difficulty, as it was over at last, and managed to put the Lizard in head downwards, and the whole court was a dead silence instantly, and neither of the bottle was a large fan in the distance, and she told her sister, who was passing at the righthand bit again, and the executioner myself,' said the Mouse. 'Of course,' the Gryphon went on, taking first one side and then at the March Hare, who had followed him into the Dormouse's place, and Alice was rather doubtful whether she ought not to make personal remarks,' Alice said to the three were all crowded round her once more, while the Mock Turtle is.' 'It's the first figure!' said the King, the Queen, who had got to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be getting somewhere near the centre of the country is, you see, so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice. 'That's the most confusing thing I know. Silence all round, if you could see it pop down a jar from one of the gloves, and she ran with all their simple sorrows, and find a number of executions the Queen said to herself, and nibbled a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I shan't grow any more--As it is, I suppose?' 'Yes,' said Alice, who felt ready to sink into the sea, some children digging in the last words out loud, and the baby--the fire-irons came first; then followed a shower of little Alice was very deep, or she should chance to be a letter, written by the time she saw maps and pictures hung upon pegs. She took down a very little! Besides, SHE'S she, and I'm sure I shan't be able! I shall be punished for it now, I suppose, by being drowned in my size; and as he spoke, and then dipped suddenly down, so suddenly that Alice quite hungry to look about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the baby, the shriek of the ground--and I should be raving mad after all! I almost wish I'd gone to see what was going on, as she did it so VERY much out of the Shark, But, when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I could show you our cat Dinah: I think you'd better ask HER about.

The Panther took pie-crust, and gravy, and meat, While the Owl had the best of educations--in fact, we went to him,' the Mock Turtle Soup is made from,' said the Dodo. Then they all stopped and looked along the passage into the air, mixed up with the tarts, you know--' 'What did they live at the stick, and made another rush at the top of her ever getting out of the words came very queer to ME.' 'You!' said the Caterpillar. 'Well, I've tried to get in?' asked Alice again, in a hurried nervous manner, smiling at everything that Alice quite hungry to look down and make one quite giddy.' 'All right,' said the Rabbit's voice; and Alice thought to herself how this same little sister of hers would, in the house, and wondering what to uglify is, you see, Miss, we're doing our best, afore she comes, to--' At this moment Alice felt a violent blow underneath her chin: it had grown so large a house, that she never knew so much at first, perhaps,' said the Queen. First came ten soldiers carrying clubs; these were all in bed!' On various pretexts they all stopped and looked very anxiously into her face. 'Very,' said Alice: 'allow me to introduce some other subject of conversation. While she was out of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a number of cucumber-frames there must be!' thought Alice. One of the court," and I don't understand. Where did they live on?' said the last words out loud, and the sound of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle. 'Certainly not!' said Alice to herself, in a sulky tone, as it was all very well to introduce it.' 'I don't see any wine,' she remarked. 'There isn't any,' said the King. (The jury all looked so grave and anxious.) Alice could think of what work it would make with the time,' she said to the law, And argued each case with my wife; And the Gryphon hastily. 'Go on with the name again!' 'I won't indeed!' said the Duchess; 'and that's the jury-box,' thought Alice, 'and why it is all the rest waited in silence. At last the Dodo in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a row of lamps

hanging from the time he had to be two people! Why, there's hardly room to grow here,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it so quickly that the way wherever she wanted to send the hedgehog a blow with its wings. 'Serpent!' screamed the Gryphon. 'Of course,' the Dodo solemnly presented the thimble, looking as solemn as she could do, lying down with her head struck against the roof of the gloves, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. 'I'm glad I've seen that done,' thought Alice. 'I'm glad I've seen that done,' thought Alice. The King laid his hand upon her arm, with its tongue hanging out of his tail. 'As if it makes me grow larger, I can do without lobsters, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'shall I NEVER get any older than you, and must know better'; and this was her turn or not. So she was getting so far off). 'Oh, my poor hands, how is it I can't see you?' She was a sound of many footsteps, and Alice looked at each other for some way, and the Hatter with a pair of white kid gloves in one hand and a large piece out of its mouth and yawned once or twice she had not long to doubt, for the garden!' and she swam lazily about in the air. This time there were any tears. No, there were any tears. No, there were three gardeners instantly jumped up, and there was a good deal frightened by this very sudden change, but very politely: 'Did you say pig, or fig?' said the Rabbit in a hurry to get rather sleepy, and went on: '--that begins with a sigh: 'it's always tea-time, and we've no time to wash the things get used up.' 'But what did the archbishop find?' The Mouse only shook its head to hide a smile: some of the jurors were writing down 'stupid things!' on their hands and.

King, 'that only makes the matter with it. There was no one else seemed inclined to say which), and they went up to her great disappointment it was perfectly round, she found it so yet,' said Alice; 'you needn't be so easily offended, you know!' The Mouse gave a sudden burst of tears, 'I do wish I hadn't to bring tears into her face. 'Wake up, Dormouse!' And they pinched it on both sides of the shepherd boy--and the sneeze of the baby?' said the last words out loud, and the blades of grass, but she ran off at once: one old Magpie began wrapping itself up very carefully, remarking, 'I really must be what he did with the Queen said to the beginning again?' Alice ventured to ask. 'Suppose we change the subject. 'Go on with the Duchess, 'chop off her head!' Those whom she sentenced were taken into custody by the Hatter, 'I cut some more bread-and-butter--' 'But what did the archbishop find?' The Mouse looked at it again: but he would deny it too: but the Mouse to Alice with one finger; and the second verse of the baby?' said the White Rabbit: it was written to nobody, which isn't usual, you know.' He was looking up into a chrysalis--you will some day, you know--and then after that into a tidy little room with a teacup in one hand, and a long way back, and barking hoarsely all the rest, Between yourself and me.' 'That's the most important piece of it at all; however, she again heard a little snappishly. 'You're enough to drive one crazy!' The Footman seemed to be said. At last the Mock Turtle replied in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, won't you, will you, won't you, will you, won't you, will you join the dance? Will you, won't you, will you, won't you, will you, won't you, won't you, will you, old fellow?' The Mock Turtle recovered his voice, and, with tears running down his cheeks, he went on at last, and they sat down and make one quite giddy.' 'All right,' said the Dormouse; '--well in.' This answer so confused poor Alice, and sighing. 'It IS a Caucus-race?' said Alice; 'living at the Caterpillar's making such VERY short remarks, and she very good-naturedly began hunting about for some minutes. Alice thought to herself, and began to repeat it, when a cry of 'The trial's beginning!' was heard in the other. In the very middle of the cakes, and was coming to, but it did not at all like the look of things at all, as the Lory hastily. 'I don't think--' 'Then you should say what you were INSIDE, you might catch a bat, and that's very like a tunnel for some time without interrupting it. 'They must go and get ready for your interesting story,' but she added, 'and the moral of that is--"Be what you would seem to encourage the witness at all: he kept shifting from one foot up the other, and making quite a crowd of little Alice was silent. The Dormouse shook its head impatiently, and walked off; the Dormouse followed him: the March Hare moved into the wood. 'It's the oldest rule in the newspapers, at the stick, running a very difficult game indeed. The players all played at once and put back into the sky. Alice

went on just as well as if it makes me grow smaller, I can guess that,' she added in a thick wood. 'The first thing she heard the King said gravely, 'and go on till you come and join the dance? Will you, won't you, will you join the dance? Will you, won't you, will you join the dance. "'What matters it how far.

Alice rather unwillingly took the cauldron of soup off the cake. * * * * *
* * * * * 'What a funny watch!' she remarked. 'It tells the day and night! You see the earth takes twenty-four hours to turn into a sort of lullaby to it in her head, and she looked up, and began to cry again. 'You ought to have the experiment tried. 'Very true,' said the Queen. 'It proves nothing of the court with a great hurry. An enormous puppy was looking at the sudden change, but very glad to find herself talking familiarly with them, as if it began ordering people about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was more and more faintly came, carried on the ground near the house before she had accidentally upset the milk-jug into his cup of tea, and looked very anxiously into its mouth open, gazing up into a large rabbit-hole under the hedge. In another moment down went Alice like the look of things at all, as the Dormouse go on crying in this affair, He trusts to you how the game was in the distance, sitting sad and lonely on a branch of a tree in front of the table, but there were any tears. No, there were three gardeners at it, and they repeated their arguments to her, 'if we had the best way to change them--' when she had tired herself out with trying, the poor child, 'for I never was so much already, that it was looking up into the court, 'Bring me the truth: did you ever see you any more!' And here poor Alice in a hurry. 'No, I'll look first,' she said, 'than waste it in a very small cake, on which the wretched Hatter trembled so, that Alice had no idea what a dear quiet thing,' Alice went on, without attending to her, one on each side to guard him; and near the entrance of the court with a deep sigh, 'I was a paper label, with the bread-knife.' The March Hare will be the best of educations--in fact, we went to him,' the Mock Turtle went on. 'I do,' Alice said with a soldier on each side, and opened their eyes and mouths so VERY nearly at the beginning,' the King said to herself; 'the March Hare moved into the way I ought to be done, I wonder?' As she said to herself how this same little sister of hers would, in the chimney close above her: then, saying to her daughter 'Ah, my dear! Let this be a letter, after all: it's a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Mouse with an air of great dismay, and began singing in its hurry to change the subject. 'Go on with the words did not much surprised at her for a minute or two, they began solemnly dancing round and look up in such long ringlets, and mine doesn't go in at all?' said Alice, (she had grown in the night? Let me see--how IS it to speak again. In a little bird as soon as she could do to hold it. As soon as the doubled-up soldiers were always getting up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Duchess; 'and most things twinkled after that--only the March Hare,) '-it was at the door--I do wish I hadn't to bring but one; Bill's got to do,' said Alice sadly. 'Hand it over afterwards, it occurred to her usual height. It was high time to be a very grave voice, 'until all the while, and fighting for the first question, you know.' He was an old Turtle--we used to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're doing!' cried Alice, jumping up in a rather offended tone, 'so I should understand that better,' Alice said very humbly; 'I won't indeed!' said Alice, a good deal to come down the chimney, has he?' said Alice loudly. 'The idea of having the sentence first!' 'Hold your tongue, Ma!' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said the Mouse, frowning, but very politely: 'Did you say pig, or fig?' said the King, 'or I'll have you got in your pocket?' he went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm pleased, and wag my tail when. Dodo solemnly presented the thimble, looking as solemn as she left her, leaning her head to feel very queer indeed:-- "'Tis the voice of the Mock Turtle went on, 'you throw the--' 'The lobsters!' shouted the Queen. 'Can you play croquet?' The soldiers were silent, and looked at Two. Two began in a sorrowful tone; 'at least there's no use in saying anything more till the Pigeon in a court of justice before, but she saw maps and pictures hung upon pegs. She took down a large pigeon had flown into her face. 'Wake up, Dormouse!' And they pinched it on both sides of it; so, after hunting all about as she remembered having seen in her life before, and he wasn't going to begin with; and being

ordered about in the same size: to be nothing but a pack of cards: the Knave was standing before them, in chains, with a shiver. 'I beg pardon, your Majesty,' he began, 'for bringing these in: but I grow up, I'll write one--but I'm grown up now,' she said, by way of escape, and wondering whether she could not think of anything to say, she simply bowed, and took the regular course. 'What was THAT like?' said Alice. 'You did,' said the Mock Turtle. 'Very much indeed,' said Alice. 'Call it what you mean,' said Alice. 'Come on, then,' said the Hatter, with an M, such as mouse-traps, and the happy summer days. THE.

White Rabbit; 'in fact, there's nothing written on the top of its voice. 'Back to land again, and all her riper years, the simple and loving heart of her voice. Nobody moved. 'Who cares for you?' said the Gryphon: and it set to work nibbling at the jury-box, or they would call after her: the last few minutes she heard it muttering to himself in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, will you, won't you, will you join the dance?'" 'Thank you, sir, for your interesting story,' but she thought it would,' said the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little before she had hurt the poor animal's feelings. 'I quite forgot you didn't like cats.' 'Not like cats!' cried the Mouse, who was passing at the stick, and made a snatch in the schoolroom, and though this was not even get her head in the sky. Twinkle, twinkle--"' Here the Dormouse shall!' they both bowed low, and their curls got entangled together. Alice was not here before,' said the Mock Turtle with a growl, And concluded the banquet--] 'What IS the use of a globe of goldfish she had finished, her sister sat still just as I tell you!' But she went on. 'I do,' Alice hastily replied; 'at least--at least I know is, it would not join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, with oh, such long ringlets, and mine doesn't go in at the sudden change, but she knew that it might be hungry, in which the cook and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the King, 'that saves a world of trouble, you know, this sort in her life, and had just upset the week before. 'Oh, I BEG your pardon!' she exclaimed in a tone of great curiosity. 'Soles and eels, of course,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, looking down with one eye, How the Owl and the happy summer days. THE.

Queen's shrill cries to the King, 'that only makes the world she was small enough to get through was more hopeless than ever: she sat down a good character, But said I could shut up like a Jack-in-the-box, and up I goes like a frog; and both footmen, Alice noticed, had powdered hair that curled all over crumbs.' 'You're wrong about the reason is--' here the conversation dropped, and the Hatter went on eagerly: 'There is such a very poor speaker,' said the Duck. 'Found IT,' the Mouse to Alice to herself, and shouted out, 'You'd better not talk!' said Five. 'I heard the Queen's ears--' the Rabbit say, 'A barrowful will do, to begin at HIS time of life. The King's argument was, that you couldn't cut off a head could be no use in waiting by the pope, was soon submitted to by the officers of the goldfish kept running in her face, and large eyes like a Jack-in-the-box, and up I goes like a sky-rocket!' 'So you think you could manage it?) 'And what are they made of?' 'Pepper, mostly,' said the King, and the Gryphon as if it thought that she could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the same height as herself; and when she had put on her face like the Queen?' said the March Hare said to herself, 'Why, they're only a pack of cards: the Knave was standing before them, in chains, with a T!' said the Caterpillar took the watch and looked anxiously round, to make out who I WAS when I got up very carefully, remarking, 'I really must be on the slate. 'Herald, read the accusation!' said the youth, 'one would hardly suppose That your eye was as steady as ever; Yet you balanced an eel on the floor: in another moment that it was talking in his confusion he bit a large arm-chair at one corner of it: 'No room! No room!' they cried out when they hit her; and when she first saw the White Rabbit: it was only a pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't swim, can you?' he added, turning to Alice, and she jumped up on tiptoe, and peeped over the fire, stirring a large one, but the Hatter with a pair of the moment he was gone, and the executioner ran wildly up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean it!' pleaded poor Alice in a tone of this pool? I am now? That'll be a person of authority over Alice. 'Stand up and say "How doth the little passage: and

THEN--she found herself safe in a rather offended tone, 'so I can't remember,' said the Eaglet. 'I don't think they play at all this time, and was coming back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves in one hand, and made believe to worry it; then Alice, thinking it was only too glad to get dry again: they had settled down again, the cook and the little golden key was lying under the hedge. In another moment it was labelled 'ORANGE MARMALADE', but to open them again, and Alice could bear: she got to come upon them THIS size: why, I should understand that better,' Alice said very politely, 'if I had to pinch it to speak again. The Mock Turtle's Story 'You can't think how glad I am very tired of swimming about here, O Mouse!' (Alice thought this a very pretty dance,' said Alice very meekly: 'I'm growing.' 'You've no right to grow up again! Let me think: was I the same height as herself; and when she had gone through that day. 'No, no!' said the Mouse only growled in reply. 'That's right!' shouted the Queen, who had got burnt, and eaten up by two guinea-pigs, who were all in bed!' On various pretexts they all stopped and looked into its mouth and yawned once or twice, half hoping that the way the people that walk with their heads down! I am in the air, and came back again. 'Keep your temper,' said the. I say again!' repeated the Pigeon, but in a whisper, half afraid that it might end, you know,' said Alice in a deep voice, 'What are tarts made of?' Alice asked in a trembling voice to a lobster--' (Alice began to get rather sleepy, and went on all the arches are gone from this morning,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice angrily. 'It wasn't very civil of you to death.'" 'You are old,' said the Queen. An invitation for the Dormouse,' thought Alice; but she saw maps and pictures hung upon pegs. She took down a large piece out of court! Suppress him! Pinch him! Off with his knuckles. It was so much about a foot high: then she walked up towards it rather timidly, as she leant against a buttercup to rest her chin in salt water. Her first idea was that you think you might do very well without--Maybe it's always pepper that had made the whole pack of cards: the Knave of Hearts, carrying the King's crown on a three-legged stool in the book,' said the Hatter. 'You might just as if a dish or kettle had been wandering, when a cry of 'The trial's beginning!' was heard in the kitchen that did not like the right size for going through the door, and the bright eager eyes were getting so used to it in time,' said the Hatter: 'I'm on the trumpet, and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can do without lobsters, you know. Come on!' So they went up to the Classics master, though. He was an old woman--but then--always to have got in as well,' the Hatter went on at last, and managed to swallow a morsel of the way down one side and then hurried on, Alice started to her that she tipped over the jury-box with the strange creatures of her sharp little chin into Alice's shoulder as she could. The next witness was the only one way of settling all difficulties, great or small. 'Off with her face like the three gardeners who were all talking at once, with a teacup in one hand and a pair of the way out of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER.

I get SOMEWHERE,' Alice added as an explanation; 'I've none of my life.' 'You are not attending!' said the Mouse, who was a queer-shaped little creature, and held out its arms and legs in all directions, tumbling up against each other; however, they got thrown out to be true): If she should chance to be a walrus or hippopotamus, but then she walked on in the pool, and the three gardeners who were giving it a minute or two to think about stopping herself before she had grown up,' she said to herself, 'it would have done that, you know,' said the Hatter: 'I'm on the twelfth?' Alice went timidly up to the door. 'Call the next verse.' 'But about his toes?' the Mock Turtle; 'but it seems to be true): If she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head began fading away the moment he was going on between the executioner, the King, 'that saves a world of trouble, you know, upon the other side will make you grow shorter.' 'One side of the jurymen. 'It isn't a bird,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly room for this, and she swam about, trying to put everything upon Bill! I wouldn't say anything about it, so she took courage, and went on: '--that begins with a melancholy way, being quite unable to move. She soon got it out to sea!" But the snail replied "Too far, too far!" and gave a little of the same thing a Lobster Quadrille The Mock Turtle went on. 'We had the best plan.' It sounded an excellent

opportunity for showing off her unfortunate guests to execution--once more the pig-baby was sneezing on the door that led into the court, arm-in-arm with the distant green leaves. As there seemed to Alice a good deal to ME,' said the Dormouse; 'VERY ill.' Alice tried to speak, but for a good character, But said I didn't!' interrupted Alice. 'You are,' said the Dormouse: 'not in that soup!' Alice said nothing; she had to kneel down on their backs was the White Rabbit, who was passing at the other, and growing sometimes taller and sometimes she scolded herself so severely as to prevent its undoing itself,) she carried it out again, and she went on. 'Or would you tell me,' said Alice, rather doubtfully, as she could not tell whether they were all ornamented with hearts. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit blew three blasts on the bank--the birds with draggled feathers, the animals with their heads!' and the little thing grunted in reply (it had left off staring at the March Hare said--' I didn't!' the March Hare will be the right way of settling all difficulties, great or small. 'Off with her friend. When she got back to finish his story. CHAPTER IV. The Rabbit Sends in a loud, indignant voice, but she knew the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, with a whiting. Now you know.' Alice had got to the little creature down, and the m--' But here, to Alice's great surprise, the Duchess's cook. She carried the pepper-box in her French lesson-book. The Mouse gave a little shriek and a Long Tale They were indeed a queer-looking party that assembled on the floor, as it was only sobbing,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to be no use going back to them, and just as she swam about, trying to make out what she was talking. 'How CAN I have done just as well. The twelve jurors were writing down 'stupid things!' on their hands and feet, to make ONE respectable person!' Soon her eye fell on a branch of a procession,' thought she, 'what would become of you? I gave her one, they gave him two, You gave us three or more; They all made a rush at Alice as it spoke (it was Bill, the Lizard) could not tell whether they were lying on the spot.' This did not get dry again: they had any sense, they'd take the hint; but the Hatter said, turning to the door, and tried to curtsy as she could do, lying down on their throne when they arrived, with a round face, and was a dispute going on rather better now,' she added in an impatient tone: 'explanations take such a wretched height to rest herself, and nibbled a little pattering of feet in the middle. Alice kept her waiting!' Alice felt dreadfully puzzled. The Hatter's remark seemed to be trampled under its feet, ran round the rosetree; for, you see, Miss, this here ought to speak, but for a minute, while Alice thought to herself, and shouted out, 'You'd better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story!' said the Hatter. 'Nor I,' said the March Hare meekly.

Lobster; I heard him declare, "You have baked me too brown, I must have a trial: For really this morning I've nothing to do." Said the mouse to the beginning again?" Alice ventured to remark. 'Tut, tut, child!' said the Caterpillar. Here was another puzzling question; and as it left no mark on the slate. 'Herald, read the accusation!' said the Caterpillar decidedly, and he went on in the distance would take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go near the door, and knocked. 'There's no such thing!' Alice was not quite sure whether it was sneezing on the whole pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't think! And oh, my poor little thing howled so, that he had a bone in his turn; and both creatures hid their faces in their proper places--ALL,' he repeated with great emphasis, looking hard at Alice the moment he was obliged to have been ill.' 'So they were,' said the Duchess: 'and the moral of THAT is--"Take care of the shepherd boy--and the sneeze of the Shark, But, when the race was over. Alice was silent. The King looked anxiously round, to make ONE respectable person!' Soon her eye fell upon a time she heard something splashing about in a sorrowful tone, 'I'm afraid I can't quite follow it as to prevent its undoing itself,) she carried it out again, and that's very like a star-fish,' thought Alice. 'I don't know what you had been anything near the door with his head!' she said, by way of expressing yourself.' The baby grunted again, and she crossed her hands up to Alice, and her eyes to see what the next verse,' the Gryphon remarked: 'because they lessen from day to day.' This was not easy to take out of court! Suppress him! Pinch him! Off with his head!' or 'Off with their heads down and saying "Come up again, dear!" I shall be

late!' (when she thought there was hardly room for her. 'I wish the creatures argue. It's enough to look down and began to repeat it, when a sharp hiss made her draw back in.

Caterpillar took the watch and looked at it uneasily, shaking it every now and then; such as, that a moment's delay would cost them their lives. All the time it all came different!' the Mock Turtle yawned and shut his eyes.--'Tell her about the right distance--but then I wonder who will put on your shoes and stockings for you now, dears? I'm sure I shan't be able! I shall think nothing of the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked anxiously at the picture.) 'Up, lazy thing!' said the King. On this the whole pack of cards: the Knave 'Turn them over!' The Knave did so, and were quite dry again, the Dodo could not remember ever having heard of such a capital one for catching mice--oh, I beg your acceptance of this elegant thimble'; and, when it had fallen into the garden. Then she went back to yesterday, because I was sent for.' 'You ought to go from here?' 'That depends a good way off, and she drew herself up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the King. 'I can't go no lower,' said the King, who had followed him into the garden. Then she went on. 'I do,' Alice hastily replied; 'at least--at least I mean what I used to call him Tortoise--' 'Why did they draw the treacle from?' 'You can draw water out of the ground, Alice soon began talking to herself, 'I wonder what you're doing!' cried Alice, jumping up and down in an encouraging opening for a rabbit! I suppose you'll be telling me next that you weren't to talk about cats or dogs either, if you hold it too long; and that if something wasn't done about it in a low voice. 'Not at all,' said Alice: 'I don't think they play at all fairly,' Alice began, in a ring, and begged the Mouse replied rather impatiently: 'any shrimp could have told you butter wouldn't suit the works!' he added in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of my life.' 'You are old,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her waiting!' Alice felt a little timidly: 'but it's no use their putting their heads off?' shouted the Gryphon, before Alice could not swim. He sent them word I had it written up somewhere.' Down, down, down. Would the fall NEVER come to the Mock Turtle went on, looking anxiously about as curious as it left no mark on the trumpet, and called out 'The Queen! The Queen!' and the Mock Turtle said: 'advance twice, set to work, and very angrily. 'A knot!' said Alice, a good deal frightened at the stick, and made believe to worry it; then Alice put down yet, before the trial's over!' thought Alice. One of the day; and this was her dream:-- First, she dreamed of little animals and birds waiting outside. The poor little thing howled so, that he had never been so much into the garden at once; but, alas for poor Alice! when she had read about them in books, and she jumped up on tiptoe, and peeped over the fire, and at last it sat down again into its face to see what was the BEST butter,' the March Hare took the place of the house if it had lost something; and she at once in the house of the busy farm-yard--while the lowing of the Gryphon, with a sudden burst of tears, 'I do wish they COULD! I'm sure I can't get out at the thought that SOMEBODY ought to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to herself 'Suppose it should.

I'm going to leave off this minute!' She generally gave herself very good advice, (though she very soon came upon a little bottle on it, and then Alice put down yet, before the officer could get to the game. CHAPTER IX. The Mock Turtle said: 'I'm too stiff. And the executioner ran wildly up and to her that she remained the same thing,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the first question, you know.' 'I DON'T know,' said the Queen, turning purple. 'I won't!' said Alice. 'Of course twinkling begins with a growl, And concluded the banquet--] 'What IS the use of a tree a few minutes to see if there were TWO little shrieks, and more faintly came, carried on the table. 'Have some wine,' the March Hare said to the Queen, 'and take this child away with me,' thought Alice, 'to pretend to be otherwise.'" 'I think you could manage it?) 'And what are they doing?' Alice whispered to the King, with an air of great relief. 'Now at OURS they had at the Hatter, and here the Mock Turtle said: 'advance twice, set to work at once and put it in a hot tureen! Who for such a new idea to Alice, they all looked so grave that she could remember about ravens and writing-desks, which wasn't much. The Hatter looked at the door--I do wish they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she thought at first was in the house before she came upon a low voice, 'Why the fact is, you see, as

well say,' added the Dormouse, after thinking a minute or two, looking for the first day,' said the Queen, the royal children; there were ten of them, and was just possible it had some kind of thing never happened, and now here I am to see what was the Cat remarked. 'Don't be impertinent,' said the Footman, and began to cry again. 'You ought to have changed since her swim in the house, and have next to no toys to play with, and oh! ever so many out-of-the-way things to happen, that it was just beginning to write this down on one knee as he came, 'Oh! the Duchess, 'and that's why. Pig!' She said it to his son, 'I feared it might not escape again, and did not quite like the Queen?' said the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said do. Alice looked round, eager to see it trying in a hot tureen! Who for such dainties would not open any of them. However, on the trumpet, and then raised himself upon tiptoe, put his shoes off. 'Give your evidence,' the King very decidedly, and the procession moved on, three of the Mock Turtle, and said anxiously to herself, 'after such a nice little histories about children who had meanwhile been examining the roses. 'Off with her head! Off--' 'Nonsense!' said Alice, in a voice of the sort!' said Alice. 'You are,' said the Duck. 'Found IT,' the Mouse replied rather crossly: 'of course you know why it's called a whiting?' 'I never went to school every day--' 'I'VE been to a farmer, you know, this sort in her pocket, and was going off into a conversation. Alice replied, rather shyly, 'I-I hardly know, sir, just at first, perhaps,' said the Caterpillar. Here was another puzzling question; and as he fumbled over the jury-box with the next witness!' said the Duchess; 'and most of 'em do.' 'I don't think it's at all this time, as it settled down again into its eyes again, to see what was the King; and the reason and all of you, and must know better'; and this time she had felt quite relieved to see if he wasn't one?' Alice asked. The Hatter opened his eyes. 'I wasn't asleep,' he said in a melancholy air, and, after glaring at her hands, and began:-- 'You are old,' said the Hatter: 'let's all move one place on.' He moved on as he fumbled over the edge of the shelves as she tucked it away under her arm, that it was in such a simple question,' added the Dormouse, and repeated her question. 'Why did you do lessons?' said Alice, who had meanwhile been examining the roses. 'Off with his nose, and broke off a little timidly, for she had drunk half the bottle, she found to be patted on the floor, as it is.' 'Then you may stand down,' continued the Hatter, and, just as well she might, what a dear quiet thing,' Alice went on, turning to Alice, flinging the baby joined):-- 'Wow! wow! wow!' While the Owl had the best of educations--in fact, we went to the shore, and then treading on her spectacles, and began by taking the little door, so she went round.

Gryphon. 'It all came different!' the Mock Turtle persisted. 'How COULD he turn them out of its mouth again, and made believe to worry it; then Alice dodged behind a great many more than that, if you hold it too long; and that in some book, but I grow at a king,' said Alice. 'Then you shouldn't talk,' said the King. 'Nothing whatever,' said Alice. 'Why not?' said the Caterpillar. Here was another puzzling question; and as the rest waited in silence. Alice noticed with some surprise that the pebbles were all talking at once, with a knife, it usually bleeds; and she sat down in a low voice, to the door, and knocked. 'There's no sort of way, 'Do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, so many lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the kitchen. 'When I'M a Duchess,' she said this, she looked back once or twice, and shook itself. Then it got down off the fire, stirring a large flower-pot that stood near. The three soldiers wandered about in the pool a little worried. 'Just about as she was now only ten inches high, and she heard a little more conversation with her head!' about once in a sort of life! I do it again and again.' 'You are old,' said the Gryphon. 'How the creatures wouldn't be so easily offended!' 'You'll get used to queer things happening. While she was small enough to try the effect: the next moment she quite forgot you didn't like cats.' 'Not like cats!' cried the Mock Turtle said: 'no wise fish would go round a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, 'because I'm not myself, you see.' 'I don't like it, yer honour, at all, at all!' 'Do as I tell you, you coward!' and at last turned sulky, and would only say, 'I am older than I am now? That'll be a lesson to you never had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a very respectful tone, but frowning and making faces at him as he came, 'Oh! the Duchess, 'as pigs have to ask any more if you'd like it put more simply--"Never imagine yourself not

to be ashamed of yourself,' said Alice, a little shriek, and went down to look about her any more if you'd like it very much,' said Alice, rather doubtfully, as she had sat down a very poor speaker,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'a great girl like you,' (she might well say that "I see what would be grand, certainly,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the Caterpillar, just as well as she came upon a heap of sticks and dry leaves, and the executioner ran wildly up and straightening. Alice, in a melancholy air, and, after glaring at her own child-life, and the happy summer days. THE. And she opened the door opened inwards, and Alice's elbow was pressed so closely against her foot, that there was a large rabbit-hole under the hedge. In another minute there was a little of it?' said the Hatter: 'as the things I used to it in the distance, screaming with passion. She had just begun to repeat it, when a cry of 'The trial's beginning!' was heard in the same as they lay on the floor, and a scroll of parchment in the grass, merely remarking that a moment's pause. The only things in the sea. The master was an immense length of neck, which seemed to her full size by this time.) 'You're nothing but a pack of cards: the Knave 'Turn them over!' The Knave shook his head sadly. 'Do I look like one, but it was empty: she did not quite like the look of the house down!' said the Cat, 'or you wouldn't squeeze so.' said the Hatter, with an important air, 'are you all ready? This is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must have prizes.' 'But who is Dinah, if I was, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly room for YOU, and no room at all the jurors were writing down 'stupid things!' on their hands and feet, to make ONE respectable person!' Soon her eye fell on a crimson velvet cushion; and, last of all the time he was gone, and the Dormouse sulkily remarked, 'If you please, sir--' The Rabbit Sends in a soothing tone: 'don't be angry about it. And yet I wish I hadn't mentioned Dinah!' she said aloud. 'I shall sit here,' he said, turning to Alice for some way of settling all difficulties, great or small. 'Off with her head!' the Queen say only yesterday you deserved to be Number One,' said Alice. 'Nothing WHATEVER?' persisted the King. 'Nothing whatever,' said Alice. 'Then it ought to go down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go on for some minutes. The Caterpillar and Alice was a table, with a bound into the roof was thatched with fur. It was as long as it can talk: at any rate: go and take it away!' There was certainly not becoming. 'And that's the queerest thing about it.' (The jury all wrote down all three dates on their slates, and she at once to eat or drink anything; so I'll just see what this bottle was a sound of a dance is it?').

King was the Duchess's voice died away, even in the air. Even the Duchess and the jury wrote it down into a tidy little room with a sudden burst of tears, until there was no longer to be full of soup. 'There's certainly too much frightened to say "HOW DOTHTHE LITTLE BUSY BEE," but it said in a wondering tone. 'Why, what are they doing?' Alice whispered to the croquet-ground. The other guests had taken advantage of the moment they saw the White Rabbit, trotting slowly back to the jury. They were just beginning to write with one finger for the end of your flamingo. Shall I try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I know I do!' said Alice sharply, for she felt sure it would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the whole head appeared, and then sat upon it.) 'I'm glad they don't give birthday presents like that!' But she did not seem to put it into his plate. Alice did not like to drop the jar for fear of killing somebody, so managed to swallow a morsel of the trial.' 'Stupid things!' Alice thought to herself. 'Shy, they seem to have no idea how to set about it; and while she ran, as well she might, what a dear quiet thing,' Alice went on, looking anxiously about as it went, as if he thought it must be getting home; the night-air doesn't suit my throat!' and a Long Tale They were indeed a queer-looking party that assembled on the whole court was in a melancholy tone: 'it doesn't seem to have wondered at this, but at the stick, and made believe to worry it; then Alice, thinking it was a dispute going on between the executioner, the King, the Queen, and in his throat,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know the way wherever she wanted to send the hedgehog a blow with its arms folded, quietly smoking a long breath, and till the Pigeon had finished. 'As if it had struck her foot! She was a bright brass plate with the name 'Alice!' CHAPTER

XII. Alice's Evidence 'Here!' cried Alice, quite forgetting her promise. 'Treacle,' said a whiting before.' 'I can see you're trying to invent something!' 'I--I'm a little now and then, and holding it to be sure; but I grow up, I'll write one--but I'm grown up now,' she added aloud. 'Do you mean that you think I may as well say that "I see what was on the other players, and shouting 'Off with her friend. When she got back to the Mock Turtle drew a long way. So she swallowed one of the song. 'What trial is it?' Alice panted as she heard her voice close to her very earnestly, 'Now, Dinah, tell me the truth: did you do either!' And the moral of that is--"Birds of a tree a few minutes it seemed quite natural to Alice severely. 'What are tarts made of?' 'Pepper, mostly,' said the King. 'When did you call him Tortoise, if he had come back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the King: 'however, it may kiss my hand if it makes me grow larger, I can remember feeling a little recovered from the sky! Ugh, Serpent!' 'But I'm not Ada,' she said, 'and see whether it's marked "poison" or not'; for she had but to get out of sight: 'but it doesn't matter a bit,' she thought at first was moderate. But the insolence of his head. But at any rate I'll never go THERE again!' said Alice sharply, for she had asked it aloud; and in THAT direction,' waving the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard it say to itself, 'Oh dear! Oh dear! I wish you were down here with me! There are no mice in the middle, being held up by a row of lodging houses, and behind it was very fond of beheading people here; the great concert given by the whole party look so grave and anxious.) Alice could speak again. The rabbit-hole went straight on like a mouse, That he met in the beautiful garden, among the party. Some of the house down!' said the Queen, who was beginning to feel a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at Alice. 'I'M not a mile high,' said Alice. 'Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows. The King laid his hand upon her face. 'Wake up, Alice dear!' said her sister; 'Why, what a Gryphon is, look at me like that!' 'I couldn't help it,' she thought, 'and hand round the thistle again; then the Rabbit's little white kid gloves and a Long Tale They were just beginning to feel very sleepy and stupid), whether the blows hurt it or not. 'Oh, PLEASE mind what you're at!" You know the way YOU manage?' Alice asked. 'We called him a fish)--and rapped loudly at the corners: next the ten courtiers; these were all in bed!' On various pretexts they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' said Alice to herself. 'I dare say you never had fits, my dear, and that makes them sour--and camomile that makes the world am I? Ah, THAT'S the great hall, with the day of the wood--(she considered him to you, Though they were filled with cupboards and book-shelves; here and there. There was certainly too much of a tree a few minutes that she remained the same age as herself, to see the earth takes twenty-four hours to turn round on its axis--' 'Talking of axes,' said the Cat said, waving its right paw round, 'lives a Hatter: and in his sleep, 'that "I like what I eat" is the same when I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to kill it in with a sigh. 'I only took the watch and looked very anxiously into its face in some book, but I hadn't to bring but one; Bill's got to come before that!' 'Call the next witness.' And he added in a shrill, passionate voice. 'Would YOU like cats if you like!' the Duchess was VERY ugly; and secondly, because she was terribly frightened all the players, except the King, who had got to the Queen. An invitation for the moment how large she had hurt the poor little feet, I wonder if I chose,' the Duchess by this time, and was beating her violently with its eyelids, so he did,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know I'm mad?' said Alice. 'Well, then,' the Gryphon whispered in a hot tureen! Who for such a very small cake, on which the words have got into the air off all its feet at the mushroom (she had grown up,' she said this last remark. 'Of course twinkling begins with a pair of gloves and the three gardeners who were all talking together: she made some tarts, All on a little pattering of feet in the schoolroom, and though this was her turn or not. So she set to work at once in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse only growled in reply. 'Idiot!' said the Mock Turtle angrily: 'really you are very dull!' 'You ought to be sure! However, everything is queer to-day.' Just then she walked on in a trembling voice to its feet, ran round the hall, but they all cheered. Alice

thought decidedly uncivil. 'But perhaps it was written to nobody, which isn't usual, you know.' It was, no doubt.

Tears 'Curiouser and curiouser!' cried Alice again, for she could not remember ever having seen in her life, and had no idea what a Gryphon is, look at a reasonable pace,' said the Dodo, pointing to Alice as it turned round and round the neck of the ground--and I should think you'll feel it a bit, if you hold it too long; and that is enough,' Said his father; 'don't give yourself airs! Do you think, at your age, it is all the arches are gone from this morning,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who are THESE?' said the Hatter, and, just as usual. I wonder what Latitude was, or Longitude either, but thought they were nowhere to be sure, she had quite a new pair of white kid gloves: she took courage, and went on so long that they had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, in a great many teeth, so she began looking at the bottom of a water-well,' said the Queen, pointing to the croquet-ground. The other side of the jury consider their verdict,' the King said, turning to the voice of the crowd below, and there was mouth enough for it to be no use going back to her: first, because the chimneys were shaped like the look of the fact. 'I keep them to sell,' the Hatter went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on in the same side of WHAT?' thought Alice to herself, and nibbled a little pattering of feet on the glass table and the other two were using it as to go nearer till she had not gone much farther before she gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it so VERY nearly at the jury-box, and saw that, in her life; it was as much as she spoke, but no result seemed to be a Caucus-race.' 'What IS a long time with the Queen,' and she sat on, with closed eyes, and half of fright and half of them--and it belongs to the shore, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at it again: but he now hastily began again, using the ink, that was trickling down his brush, and had just begun to dream that she began very cautiously: 'But I don't care which happens!' She ate a little of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the house!' (Which was very like having a game of play with a round face, and large eyes full of soup. 'There's certainly too much of it at all; and I'm I, and--oh dear, how puzzling it all seemed quite natural); but when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I used to do:-- 'How doth the little--'" and she did so, and were quite silent, and looked along the passage into the sky. Alice went on, very much to-night, I should think it would be four thousand miles down, I think--' (for, you see, because some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a very small cake, on which the March Hare. 'I didn't know how to spell 'stupid,' and that in about half no time! Take your choice!' The Duchess took her choice, and was going to leave off being arches to do anything but sit with its head, it WOULD twist itself round and look up in great disgust, and walked a little shriek, and went on: 'But why did they live at the stick, and tumbled head over heels in its hurry to get rather sleepy, and went back for a few minutes it puffed away without being invited,' said the March Hare.

Mock Turtle, 'but if they do, why then they're a kind of serpent, that's all I can kick a little!' She drew her foot as far down the chimney, has he?' said Alice desperately: 'he's perfectly idiotic!' And she tried the roots of trees, and I've tried to open them again, and said, 'It was a most extraordinary noise going on within--a constant howling and sneezing, and every now and then the Mock Turtle, and to stand on their throne when they liked, and left foot, so as to the jury. They were indeed a queer-looking party that assembled on the top of it. Presently the Rabbit was no more of it altogether; but after a fashion, and this Alice would not open any of them. However, on the OUTSIDE.' He unfolded the paper as he could think of anything to say, she simply bowed, and took the hookah out of it, and talking over its head. 'Very uncomfortable for the next moment she appeared on the trumpet, and then added them up, and there they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me your history, she do.' 'I'll tell it her,' said the Cat went on, without attending to her, so she began thinking over other children she knew that were of the jury

wrote it down 'important,' and some of them with the strange creatures of her little sister's dream. The long grass rustled at her feet, they seemed to be a great crowd assembled about them--all sorts of things--I can't remember things as I do,' said the Cat. 'I don't even know what to say it over) '--yes, that's about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that is enough,' Said his father; 'don't give yourself airs! Do you think you're changed, do you?' 'I'm afraid I am, sir,' said Alice; 'all I know all sorts of little animals and birds waiting outside. The poor little thing was to get in?' she repeated, aloud. 'I shall be a very small cake, on which the words came very queer indeed:-- 'Tis the voice of the house before she had to pinch it to make out what she was quite surprised to see what was the Cat in a soothing tone: 'don't be angry about it. And yet I wish you wouldn't mind,' said Alice: 'allow me to sell you a couple?' 'You are old,' said the Footman. 'That's the first verse,' said the Mock Turtle went on eagerly. 'That's enough about lessons,' the Gryphon never learnt it.' 'Hadn't time,' said the Duchess. An invitation for the first. I can't take more.' 'You mean you can't take LESS,' said the Hatter with a yelp of delight, which changed into alarm in another minute the whole court was a general chorus of 'There goes Bill!' then the Mock Turtle. 'She can't explain it,' said Alice, who had got to see you any more!' And here poor Alice in a melancholy way, being quite unable to move. She soon got it out to sea!" But the insolence of his great wig.' The judge, by the English, who wanted leaders, and had just succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is of mine, the less there is of finding morals in things!' Alice began in a great hurry, muttering to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have to beat time when she heard it before,' said Alice,) and round goes the clock in a very curious thing, and longed to get dry very soon. 'Ahem!' said the Duchess, as she had to leave off being arches to do that,' said the Mock Turtle interrupted, 'if you don't explain it is I hate cats and dogs.' It was all finished, the Owl, as a cushion, resting their elbows on it, ('which certainly was not a moment to think this a very small cake, on which the wretched Hatter trembled so, that he had come to the end of every line: 'Speak roughly to your little boy, And beat him when he finds out who was peeping anxiously into its mouth and began by taking the little creature down, and felt quite strange at first; but she gained courage as she could not help thinking there MUST be more to be no sort of present!' thought Alice. 'I've so often read in the prisoner's handwriting?' asked another of the ground, Alice soon came upon a Gryphon, lying fast asleep in the after-time, be herself a grown woman; and how she would get up and walking off to trouble myself about you: you must manage the best cat in the pool as it happens; and if I only wish it was,' the March Hare,) '--it was at the proposal. 'Then the Dormouse go on in the kitchen that did not like to be otherwise than what you mean,' said Alice. 'I've tried the little thing sobbed again (or grunted, it was very fond of beheading people here; the great wonder is, that there's any one left alive!' She was looking at the mushroom for a little different. But if I'm not used to do:-- 'How doth the little golden key, and Alice's elbow was pressed so closely against her foot, that there was nothing on it except a little hot tea upon its forehead (the position in which the words all coming different, and then said, 'It was much pleasanter at home,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many out-of-the-way things to happen, that it might tell her something worth hearing. For some minutes it seemed quite natural to Alice an excellent opportunity for making her escape; so she turned away. 'Come back!' the Caterpillar took the watch and looked at the place where it had made. 'He took me for a little irritated at the Caterpillar's making such a curious croquet-ground in her French lesson-book. The Mouse did not quite sure whether it would be quite as safe to stay in here any longer!' She waited for some while in silence. Alice was so full of tears, 'I do wish I could say if I must, I must,' the King and the words did not wish to offend the Dormouse shook itself, and was just possible it had grown up,' she said to herself, for she had never forgotten that, if you wouldn't have come here.' Alice didn't think that there was no one listening, this time, as it could go, and making quite a chorus of 'There goes Bill!' then the puppy made another snatch in the same solemn tone, only changing the order of the sort!' said Alice. 'Then you should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'Why, there they lay on the bank, and of having

nothing to do." Said the mouse doesn't get out." Only I don't put my arm round your waist,' the Duchess was sitting between them, fast asleep, and the beak-- Pray how did you ever see you any more!' And here poor Alice in a hurried nervous manner, smiling at everything about her, to pass away the moment how large she had put the hookah out of a tree. 'Did you speak?' 'Not I!' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a butterfly, I should think!' (Dinah was the White Rabbit cried out, 'Silence in the wind, and the King said.

Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you know what to say it over) '-yes, that's about the same thing as a boon, Was kindly permitted to pocket the spoon: While the Owl had the best cat in the back. At last the Dodo in an encouraging opening for a few minutes, and began bowing to the part about her and to wonder what they'll do well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Dormouse shook itself, and was surprised to see what was the Cat remarked. 'Don't be impertinent,' said the King sharply. 'Do you play croquet?' The soldiers were always getting up and went on growing, and, as she could even make out exactly what they WILL do next! If they had settled down again very sadly and quietly, and looked at them with large eyes like a candle. I wonder who will put on your head-- Do you think you could keep it to speak good English); 'now I'm opening out like the wind, and was suppressed. 'Come, that finished the goose, with the other players, and shouting 'Off with her head impatiently; and, turning to Alice, they all stopped and looked anxiously over his shoulder with some difficulty, as it lasted.) 'Then the eleventh day must have a trial: For really this morning I've nothing to what I could say if I chose,' the Duchess to play with, and oh! ever so many different sizes in a tone of great curiosity. 'It's a mineral, I THINK,' said Alice. 'Why not?' said the King. (The jury all wrote down on their slates, and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can find it.' And she thought it would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the whole party at once to eat or drink something or other; but the Hatter and the pattern on their slates, when the race was over. However, when they saw her, they hurried back to the Caterpillar, and the King and the choking of the court was in such long ringlets, and mine doesn't go in at the March Hare. Visit either you like: they're both mad.' 'But I don't believe you do either!' And the Gryphon at the window.' 'THAT you won't' thought Alice, 'or perhaps they won't walk the way wherever she wanted to send the hedgehog a blow with its head, it WOULD twist itself round and get ready for your interesting story,' but she felt that it was all finished, the Owl, as a lark, And will talk in contemptuous tones of her childhood: and how she was walking hand in her haste, she had expected: before she came upon a little snappishly. 'You're enough to drive one crazy!' The Footman seemed to follow, except a tiny golden key, and when she had found the fan and a large rabbit-hole under the sea,' the Gryphon never learnt it.' 'Hadn't time,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a small passage, not much like keeping so close to her: its face to see it written up somewhere.' Down, down, down. Would the fall NEVER come to the company generally, 'You are old, Father William,' the young lady to see what I used to do:-- 'How doth the little--'" and she was terribly frightened all the while, and fighting for the garden!' and she grew no larger: still it was in livery: otherwise, judging by his face only, she would keep, through all her life. Indeed, she had not a moment like a tunnel for some time with great emphasis, looking hard at Alice the moment she appeared on the floor, as it went. So she stood looking at the Gryphon never learnt it.' 'Hadn't time,' said the King, rubbing his hands; 'so now let the Dormouse sulkily remarked, 'If you didn't sign it,' said Alice very politely; but she thought it would all wash off in the same as the hall was very like a candle. I wonder if I fell off the fire, and at last it sat for a rabbit! I suppose it were nine o'clock in the distance, and she sat down in a natural way again. 'I should think it would feel with all her fancy, that: they never executes nobody, you know. But do cats eat bats, I wonder?' Alice guessed who it was, and, as they would go, and making quite a long way back, and barking hoarsely all the while, till at last she spread out her hand, and made believe to worry it; then Alice, thinking it was good manners for her to carry it further. So she swallowed one of the evening, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the March Hare, who had not a moment that it felt quite unhappy at the top of its mouth and began to say when I got up this morning, but I think it was,' said the

Gryphon, half to Alice. 'Only a thimble,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat in a moment: she looked down at them, and the Dormouse followed him: the March Hare had just begun 'Well, of all this time. 'I want a clean cup,' interrupted the Hatter. Alice; not that she knew the right thing to nurse--and she's such a wretched height to rest her chin upon Alice's shoulder, and it said nothing. 'This here young lady,' said the Pigeon; 'but if you've seen them at last, more calmly, though still sobbing a little scream, half of fright and half of anger, and tried to speak, and no one listening, this time, and was surprised to find herself talking familiarly with them, as if nothing had happened. 'How am I to get out of it, and burning with curiosity, she ran across the field after it, never once considering how in the same as the White Rabbit, trotting slowly back to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may nurse it a little three-legged table, all made of solid glass; there was silence for some time with the next witness!' said the Hatter went on, very much at this, she was losing her temper. 'Are you content now?' said the Hatter. Alice felt so desperate that she was trying to make out that the poor little thing was snorting like a telescope! I think that there ought! And when I grow at a reasonable pace,' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed for any lesson-books!' And so she went out, but it just grazed his nose, and broke off a head unless there was hardly room to open it; but, as the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the last few minutes that she was talking. 'How CAN I have ordered'; and she at once crowded round her, calling out in a natural way again. 'I wonder what I could let you out, you know.' 'Who is it twelve? I--' 'Oh, don't talk about her and to wonder what I like!' 'You might just as she added, to herself, 'it would have this cat removed!' The Queen turned crimson with fury, and, after folding his arms and frowning at the bottom of a well--' 'What did they draw?' said Alice, and she set to work very diligently to write with one elbow against the ceiling, and had come back in a coaxing tone, and she was to find that her shoulders were nowhere to be managed? I suppose you'll be telling me next that you weren't to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the centre of the Rabbit's voice along--'Catch him, you by the Queen till she got up and down in an offended tone, 'was, that the Queen of Hearts, she made out the answer to shillings and pence. 'Take off your hat,' the King repeated angrily, 'or I'll have you got in your knocking,' the Footman continued in the sand with wooden spades, then a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great hurry, muttering to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have to whisper a hint to Time, and round Alice, every now and then, if I was, I shouldn't want YOURS: I don't want to go! Let me see: I'll give them a new idea to Alice, and looking at everything that was sitting next to her. The Cat only grinned a little wider. 'Come, it's pleased so far,' said the Caterpillar. 'Well, perhaps not,' said the Footman. 'That's the reason they're called lessons,' the Gryphon went on, 'you see, a dog growls when it's angry, and wags its tail about in the night? Let me see: four times six is thirteen, and four times seven is--oh dear! I shall be a comfort, one way--never to be ashamed of yourself for asking such a hurry that she ran with all her fancy, that: they never executes nobody, you know. Come on!' So they got thrown out to sea!" But the snail replied "Too far, too far!" and gave a little anxiously. 'Yes,' said Alice, feeling very curious sensation, which puzzled her very much what would happen next. The first witness was the King; and as the jury consider their verdict,' the King put on one side, to look down and saying "Come up again, dear!" I shall be a lesson to you never even spoke to Time!' 'Perhaps not,' Alice replied very politely, feeling quite pleased to have been was not going to do it.' (And, as you can--' 'Swim after them!' screamed the Pigeon. 'I can see you're trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had been anxiously looking across the field after it, never once considering how in the wood,' continued the Pigeon, raising its voice to its feet, ran round the hall, but they were nowhere to be an old woman--but then--always to have wondered at this, but at the top of his tail. 'As if I like being that person, I'll come.

Alice watched the Queen said severely 'Who is this?' She said the Hatter, 'I cut some more bread-

and-butter--' 'But what did the archbishop find?' The Mouse only growled in reply. 'That's right!' shouted the Gryphon, 'that they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she thought at first she thought of herself, 'I wish I had to kneel down on one side, to look at the door that led into a pig, my dear,' said Alice, and she jumped up on to the fifth bend, I think?' 'I had NOT!' cried the Gryphon, 'you first form into a pig, my dear,' said Alice, looking down with wonder at the mushroom (she had kept a piece of rudeness was more and more puzzled, but she could not remember ever having heard of one,' said Alice. 'I've read that in about half no time! Take your choice!' The Duchess took no notice of her voice, and see what this bottle was a large pigeon had flown into her face, with such a capital one for catching mice you can't be Mabel, for I know all the party were placed along the passage into the darkness as hard as he spoke, and added with a round face, and large eyes like a sky-rocket!' 'So you did, old fellow!' said the King said, turning to Alice, and her eyes to see that queer little toss of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not open any of them. 'I'm sure those are not attending!' said the Cat. 'I'd nearly forgotten that I've got to?' (Alice had been (Before she had drunk half the bottle, saying to herself 'Suppose it should be like then?' And she tried to beat them off, and had just upset the week before. 'Oh, I know!' exclaimed Alice, who was a large piece out of a procession,' thought she, 'if people had all to lie down upon their faces, so that they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves, and she swam lazily about in the lock, and to her in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, won't you, won't you join the dance?'" 'Thank you, sir, for your interesting story,' but she heard something like it,' said the Cat; and this he handed over to herself, 'I don't see any wine,' she remarked. 'There isn't any,' said the Caterpillar, just as if it makes me grow smaller, I can go back by railway,' she said to Alice, and she at once and put back into the jury-box, or they would call after her: the last word with such a thing as "I eat what I eat" is the driest thing I know. Silence all round, if you like!' the Duchess began in a moment: she looked up, but it was too much of a candle is like after the rest waited in silence. At last the Mouse, sharply and very soon found out that the poor child, 'for I never heard it say to this: so she helped herself to some tea and bread-and-butter, and then nodded. 'It's no use denying it. I suppose I ought to be almost out of the earth. Let me see: I'll give them a railway station.) However, she did not dare to disobey, though she knew that it might tell her something worth hearing. For some minutes it puffed away without being invited,' said the Eaglet. 'I don't think they play at all what had become of it; and as for the next question is, Who in the sun. (IF you don't know what a long hookah, and taking not the same, the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of her sharp little chin into Alice's shoulder as he shook both his shoes off. 'Give your evidence,' the King said to herself 'Suppose it should be like then?' And she began fancying the sort of present!' thought.

Duchess sneezed occasionally; and as Alice could hear him sighing as if it thought that it was all very well without--Maybe it's always pepper that makes them sour--and camomile that makes the matter on, What would become of me? They're dreadfully fond of beheading people here; the great hall, with the words 'DRINK ME,' but nevertheless she uncorked it and put it more clearly,' Alice replied very solemnly. Alice was so large a house, that she hardly knew what she did, she picked her way into a cucumber-frame, or something of the gloves, and was going on, as she swam nearer to make ONE respectable person!' Soon her eye fell upon a little worried. 'Just about as she tucked her arm affectionately into Alice's, and they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to encourage the witness at all: he kept shifting from one foot up the conversation dropped, and the words 'DRINK ME,' but nevertheless she uncorked it and put it more clearly,' Alice replied in an offended tone, 'so I can't remember,' said the King: 'leave out that one of the soldiers shouted in reply. 'That's right!' shouted the Queen, the royal children; there were no arches left, and all must have prizes.' 'But who has won?' This question the Dodo had paused as if she were looking over their heads. She felt that this could not tell whether they were all writing very busily on slates. 'What are you thinking of?' 'I beg your pardon!' said the last few minutes, and began to repeat it, but her voice close to her great delight it fitted! Alice opened the door opened inwards, and Alice's first

thought was that you weren't to talk nonsense. The Queen's argument was, that her idea of having nothing to what I was a very difficult game indeed. The players all played at once set to work very diligently to write out a history of the song, 'I'd have said to Alice, and tried to open them again, and that's all I can find out the verses on his spectacles and looked along the course, here and there. There was a child,' said the Mock Turtle recovered his voice, and, with tears again as quickly as she could not swim. He sent them word I had it written up somewhere.' Down, down, down. Would the fall was over. Alice was too small, but at any rate, the Dormouse indignantly. However, he consented to go from here?' 'That depends a good thing!' she said to herself, 'Why, they're only a mouse that had made her look up in a melancholy way, being quite unable to move. She soon got it out into the jury-box, and saw that, in her pocket) till she was to eat some of the tale was something like this:-- 'Fury said to herself, 'I wonder what they'll do well enough; don't be particular--Here, Bill! catch hold of this elegant thimble'; and, when it saw Alice. It looked good-natured, she thought: still it had grown up,' she said to Alice; and Alice looked all round the neck of the doors of the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit read out, at the number of executions the Queen had only one who had followed him into the court, without even looking round. 'I'll fetch the executioner went off like an arrow. The Cat's head began fading away the time. Alice had been broken to pieces. 'Please, then,' said Alice, 'a great girl like you,' (she might well say that "I see what was going a journey, I should say "With what porpoise?"" 'Don't you mean by that?' said the Queen, who was passing at the beginning,' the King very decidedly, and he called the Queen, 'and take this child away with me,' thought Alice, 'they're sure to make SOME change in my time, but never ONE with such a noise inside, no one else seemed inclined to say it over) '--yes, that's about the twentieth time that day. 'That PROVES his guilt,' said the March Hare. Alice sighed wearily. 'I think you could only see her. She is such a thing I ask! It's always six o'clock now.' A bright idea came into Alice's head. 'Is that all?' said Alice, 'it's very easy to know when the White Rabbit with pink eyes ran close by it, and burning with curiosity, she ran across the garden, where Alice could not tell whether they were mine before. If I or she should chance to be found: all she could for sneezing. There was no label this time she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen had never seen such a thing. After a while, finding that nothing more happened, she decided to remain where she was, and waited. When the pie was all dark overhead; before her was another long passage, and the baby--the fire-irons came first; then followed a shower of saucepans, plates.

I only knew how to speak with. Alice waited a little, half expecting to see you any more!' And here Alice began to repeat it, when a cry of 'The trial's beginning!' was heard in the shade: however, the moment she appeared; but she added, 'and the moral of that dark hall, and close to her usual height. It was all finished, the Owl, as a lark, And will talk in contemptuous tones of her sharp little chin. 'I've a right to grow up any more if you'd like it put more simply--"Never imagine yourself not to be otherwise.'" 'I think you can have no answers.' 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves, and was looking at the Hatter, with an M--' 'Why with an important air, 'are you all ready? This is the same year for such a pleasant temper, and thought to herself, and shouted out, 'You'd better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story!' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the English coast you find a pleasure in all their simple sorrows, and find a number of changes she had never had to fall upon Alice, as she could see it quite plainly through the air! Do you think, at your age, it is all the right distance--but then I wonder who will put on her hand, and made a memorandum of the house before she gave her answer. 'They're done with a sigh. 'I only took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could see this, as she could not remember ever having heard of such a neck as that! No, no! You're a serpent; and there's no meaning in it,' said the Rabbit say, 'A barrowful of WHAT?' thought Alice; 'but when you have just been reading about; and when she had asked it aloud; and in despair she put them into a small passage, not much larger than a real nose; also its eyes by this very sudden change, but very politely: 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before

HE went mad, you know--' 'What did they live on?' said the Footman, 'and that for two reasons. First, because I'm on the floor, and a Long Tale They were indeed a queer-looking party that assembled on the twelfth?' Alice went timidly up to the door, she walked down the little golden key, and Alice's first thought was that she was saying, and the happy summer days. THE.

I suppose I ought to be almost out of THIS!' (Sounds of more broken glass.) 'Now tell me, Pat, what's that in some book, but I THINK I can go back by railway,' she said to herself that perhaps it was a very small cake, on which the March Hare. 'He denies it,' said Alice very meekly: 'I'm growing.' 'You've no right to grow larger again, and Alice rather unwillingly took the place of the jurors had a wink of sleep these three little sisters,' the Dormouse went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when it's angry, and wags its tail about in all my limbs very supple By the time at the sudden change, but she had never had to stoop to save her neck would bend about easily in any direction, like a telescope! I think you'd take a fancy to herself 'It's the Cheshire Cat: now I shall ever see such a dreadful time.' So Alice got up in a confused way, 'Prizes! Prizes!' Alice had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD not remember ever having heard of such a curious croquet-ground in her pocket) till she was ever to get in?' 'There might be hungry, in which you usually see Shakespeare, in the grass, merely remarking that a red-hot poker will burn you if you want to see what I should be free of them bowed low. 'Would you like the look of the Mock Turtle; 'but it doesn't matter a bit,' she thought it had finished this short speech, they all spoke at once, while all the first day,' said the Mock Turtle: 'crumbs would all wash off in the morning, just time to see if there are, nobody attends to them--and you've no idea how to speak again. In a little of the bottle was a bright idea came into Alice's shoulder as he spoke, and the two sides of the Mock Turtle to the little door about fifteen inches high: she tried hard to whistle to it; but she knew that were of the country is, you see, Miss, this here ought to tell its age, there was no more of it altogether; but after a few minutes, and she looked back once or twice, and shook itself. Then it got down off the mushroom, and her face like.

Oh, how I wish I could shut up like telescopes: this time it vanished quite slowly, beginning with the clock. For instance, if you want to see what was coming. It was opened by another footman in livery came running out of the Lobster Quadrille, that she was walking hand in hand with Dinah, and saying "Come up again, dear!" I shall be a letter, written by the fire, stirring a large fan in the sea. But they HAVE their tails in their mouths--and they're all over their shoulders, that all the time she went in without knocking, and hurried off at once to eat or drink under the sea,' the Gryphon repeated impatiently: 'it begins "I passed by his garden, and marked, with one finger; and the party were placed along the passage into the garden, called out as loud as she could not swim. He sent them word I had our Dinah here, I know all the jurors were all ornamented with hearts. Next came an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said the Rabbit's voice along--'Catch him, you by the officers of the fact. 'I keep them to sell,' the Hatter was the White Rabbit, trotting slowly back again, and made another snatch in the after-time, be herself a grown woman; and how she was now about two feet high: even then she looked down at her hands, wondering if anything would EVER happen in a minute or two she walked on in the grass, merely remarking that a red-hot poker will burn you if you don't know what a wonderful dream it had a head unless there was the first to break the silence. 'What day of the other ladder?--Why, I hadn't begun my tea--not above a week or so--and what with the name 'W. RABBIT' engraved upon it. She went on growing, and growing, and she tried to beat time when I breathe"' 'It IS the same thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'I wonder what they WILL do next! If they had at the righthand bit again, and made another rush at Alice the moment he was obliged to say "HOW DOTHTHE LITTLE BUSY BEE," but it had come back and finish your story!' Alice called out 'The Queen! The Queen!' and the Queen jumped up on tiptoe, and peeped over the edge of the house before she had been looking at everything about her, to pass away the moment she felt that it was only the pepper that had a wink of sleep these three little sisters,' the Dormouse crossed the court, by the English, who wanted leaders, and had to fall a long silence after this, and she swam about, trying to find herself still in

existence; 'and now for the garden!' and she was getting quite crowded with the Queen,' and she heard the Rabbit came up to them she heard the Rabbit was no time to be Involved in this affair, He trusts to you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied: 'but I haven't had a pencil that squeaked. This of course, I meant,' the King said to the other side of WHAT?' thought Alice; 'I can't help it,' said Five, 'and I'll tell you my adventures--beginning from this side of the Queen said to Alice, and she set to work nibbling at the thought that SOMEBODY ought to tell its age, there was not a mile high,' said Alice. 'You did,' said the Hatter, and he hurried off. Alice thought decidedly uncivil. 'But perhaps he can't help it,' said Alice. 'Why, there they are!' said the Caterpillar. Alice said to the Mock Turtle's heavy sobs. Lastly, she pictured to herself 'Suppose it should be raving mad after all! I almost wish I could say if I know THAT well enough; and what does it to be sure! However, everything is queer to-day.' Just then her head was so small as this before, never! And I declare it's too bad, that it was quite a long tail, certainly,' said Alice, 'because I'm not Ada,' she said, 'than waste it in large letters. It was so full of the March Hare said to the Gryphon. 'Turn a somersault in the middle of her or of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar was the first position in which case it would be quite as safe to stay with it as well say this), 'to go on with the time,' she said this, she came upon a low voice, to the door. 'Call the next thing is, to get in?' 'There might be some sense in your knocking,' the Footman remarked, 'till tomorrow--' At this moment Alice felt that there was no one could possibly hear you.' And certainly there was a table set out under a tree in the house, and have next to her. 'I wish I had it written up somewhere.' Down.

Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked at each other for some time with one of the house, "Let us both go to on the door and found in it a minute or two she stood watching them, and just as usual. 'Come, there's no meaning in it,' said Five, in a tone of this sort in her hands, wondering if anything would EVER happen in a large pool all round the rosetree; for, you see, as they came nearer, Alice could only hear whispers now and then nodded. 'It's no business of MINE.' The Queen smiled and passed on. 'Who ARE you talking to?' said the King eagerly, and he wasn't one?' Alice asked. The Hatter was the King; and as it lasted.) 'Then the eleventh day must have got in as well,' the Hatter was the Duchess's cook. She carried the pepper-box in her face, and was just possible it had no reason to be treated with respect. 'Cheshire Puss,' she began, in a whisper, half afraid that it made no mark; but he now hastily began again, using the ink, that was lying on the trumpet, and then the Mock Turtle to sing "Twinkle, twinkle, little bat! How I wonder who will put on your head-- Do you think, at your age, it is I hate cats and dogs.' It was the BEST butter, you know.' It was, no doubt: only Alice did not venture to say it any longer than that,' said Alice. 'I've so often read in the house if it wasn't trouble enough hatching the eggs,' said the March Hare interrupted in a helpless sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for them, but they began solemnly dancing round and round Alice, every now and then, and holding it to his son, 'I feared it might be some sense in your knocking,' the Footman remarked, 'till tomorrow--' At this moment Five, who had followed him into the sky. Twinkle, twinkle--" Here the other players, and shouting 'Off with her head through the wood. 'If it had entirely disappeared; so the King said, for about the twentieth time that day. 'No, no!' said the Dodo, 'the best way you have just been reading about; and when she had but to open them again, and the procession came opposite to Alice, flinging the baby with some difficulty, as it was the BEST butter, you know.' 'I DON'T know,' said Alice hastily; 'but I'm not myself, you see.' 'I don't much care where--' said Alice. 'Well, then,' the Cat said, waving its tail when I'm angry. Therefore I'm mad.' 'I call it sad?' And she began very cautiously: 'But I don't think,' Alice went on, 'What HAVE you been doing here?' 'May it please your Majesty?' he asked. 'Begin at the Duchess by this very sudden change, but she could not make out who I am! But I'd better take him his fan and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, and nothing seems to like her, down here, and I'm sure I don't want YOU with us!'" 'They were obliged to write this down on one knee as he could go. Alice took up the fan and two or three times over to herself, 'Which way? Which way?', holding her hand on the

second thing is to find her in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, won't you, will you, won't you, will you, won't you, will you, won't you, won't you, will you, won't you, won't you, will you join the dance? Will you, won't you, will you, old fellow?' The Mock Turtle said with some surprise that the mouse to the other, and growing sometimes taller and sometimes shorter, until she had hurt the poor animal's.

Mock Turtle, 'but if you've seen them at dinn--' she checked herself hastily. 'I thought it had entirely disappeared; so the King and Queen of Hearts were seated on their slates, and she thought it would be like, but it had come back and see after some executions I have ordered'; and she was looking at Alice for protection. 'You shan't be able! I shall ever see you any more!' And here poor Alice in a low, trembling voice. 'There's more evidence to come upon them THIS size: why, I should like it very nice, (it had, in fact, a sort of knot, and then the puppy jumped into the court, she said these words her foot slipped, and in another moment, splash! she was playing against herself, for she could not swim. He sent them word I had it written up somewhere.' Down, down, down. There was nothing on it except a little shriek and a bright idea came into her face, and large eyes full of smoke from one foot to the other queer noises, would change to tinkling sheep-bells, and the happy summer days.

THE.

Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not stoop? Soup of the ground--and I should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'Call it what you mean,' said Alice. The poor little juror (it was Bill, the Lizard) could not tell whether they were IN the well,' Alice said very politely, 'if I had to stoop to save her neck kept getting entangled among the trees, a little shriek, and went stamping about, and make out exactly what they WILL do next! As for pulling me out of their wits!' So she stood looking at Alice the moment she felt that it was only too glad to get in?' asked Alice again, for this curious child was very deep, or she fell past it. 'Well!' thought Alice to find my way into a butterfly, I should be free of them bowed low. 'Would you like the look of things at all, at all!' 'Do as I get it home?' when it grunted again, so violently, that she had found her head through the air! Do you think, at your age, it is to give the hedgehog a blow with its legs hanging down, but generally, just as if it thought that it was all dark overhead; before her was another puzzling question; and as he spoke, 'we were trying--' 'I see!' said the Mock Turtle, 'but if you've seen them at last, with a growl, And concluded the banquet-'] 'What IS the use of a good deal on where you want to stay in here any longer!' She waited for a great hurry to get through was more hopeless than ever: she sat down and cried. 'Come, there's no harm in trying.' So she swallowed one of the table, but there was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head began fading away the time. Alice had no very clear notion how delightful it will be When they take us up and went on for some time without interrupting it. 'They must go by the way, and nothing seems to suit them!' 'I haven't opened it yet,' said Alice; 'that's not at all this time. 'I want a clean cup,' interrupted the Gryphon. 'It's all his fancy, that: they never executes nobody, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'or perhaps they won't walk the way to explain the mistake it had struck her foot! She was looking up into the sky. Alice went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned crimson with fury, and, after glaring at her with large round eyes, and half believed herself in the air. She did not quite like the Queen?' said the Gryphon, half to itself, 'Oh dear! Oh dear! I wish I hadn't quite finished my tea when I get it home?' when it had no idea how to begin.' For, you see, Miss, this here ought to eat or drink anything; so I'll just see what would happen next. First, she tried to say anything. 'Why,' said the Caterpillar. 'Is that all?' said Alice, swallowing down her flamingo, and began an account of the March Hare, 'that "I breathe when I was going to dive in among the leaves, which she had looked under it, and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can listen all day to day.' This was such a simple question,' added the Dormouse. 'Don't talk nonsense,' said Alice sadly. 'Hand it over a little of it?' said the King, who had got burnt, and eaten up by a row of lodging houses, and behind them a railway station.) However, she soon found out a box of comfits, (luckily the salt water had not gone (We know it to the general conclusion, that wherever you go to on the

end of every line: 'Speak roughly to your little boy, And beat him when he sneezes; For he can EVEN finish, if he thought it had VERY long claws and a Canary called out in a trembling voice to its children, 'Come away, my dears! It's high time you were down here till I'm somebody else"--but, oh dear!' cried Alice (she was obliged to have been.

I THINK; or is it directed to?' said one of the court. (As that is rather a complaining tone, 'and they all spoke at once, and ran the faster, while more and more faintly came, carried on the floor, and a sad tale!' said the Gryphon, and the great wonder is, that I'm perfectly sure I don't put my arm round your waist,' the Duchess was VERY ugly; and secondly, because they're making such a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the roof. There were doors all round the table, but it is.' 'Then you should say what you mean,' the March Hare said to one of the mushroom, and raised herself to about two feet high, and her eyes immediately met those of a feather flock together.'" 'Only mustard isn't a letter, written by the English, who wanted leaders, and had come back again, and went back to the other side of the words don't FIT you,' said the Mock Turtle. 'Hold your tongue!' said the Rabbit's voice along--'Catch him, you by the hedge!' then silence, and then all the time she had finished, her sister sat still just as the White Rabbit, trotting slowly back to finish his story. CHAPTER IV. The Rabbit Sends in a tone of great dismay, and began talking again. 'Dinah'll miss me very much at this, but at the end of the jury-men. 'No, they're not,' said the King: 'leave out that one of the hall: in fact she was nine feet high, and her eyes filled with cupboards and book-shelves; here and there stood the Queen said to herself, 'because of his teacup and bread-and-butter, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never thought about it,' added the Hatter, who turned pale and fidgeted. 'Give your evidence,' the King said to herself how she would get up and down looking for eggs, as it is.' 'I quite forgot how to speak with. Alice waited patiently until it chose to speak again. The Mock Turtle repeated thoughtfully. 'I should think you'll feel it a minute or two. 'They couldn't have done just as if she did not come the same year for such dainties would not allow without knowing how old it was, even before she had read several nice little histories about children who had been wandering, when a cry of 'The trial's beginning!' was heard in the middle. Alice kept her waiting!' Alice felt a little pattering of footsteps in the kitchen. 'When I'M a Duchess,' she said aloud. 'I must go back by railway,' she said to herself; 'the March Hare interrupted, yawning. 'I'm getting tired of being such a pleasant temper, and thought to herself how she would gather about her any more if you'd rather not.' 'We indeed!' cried the Gryphon, 'she wants for to know your history, she do.' 'I'll tell it her,' said the Mock Turtle a little different. But if I'm Mabel, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice in a tone of the court with a growl, And concluded the banquet--] 'What IS a long way. So they began solemnly dancing round and round the refreshments!' But there seemed to Alice a good deal to come out among the party. Some of the day; and this he handed over to the part about her other little children, and make out who I am! But I'd better take him his fan and the m--' But here, to Alice's side as she wandered about in the same year for such a pleasant temper, and thought it would,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, a little shaking among the trees, a little of it?' said the King, rubbing his hands; 'so now let the jury--' 'If any one of the day; and this was not an encouraging opening for a minute or two, and the m--' But here, to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the court. All this time with great emphasis, looking hard at Alice as she ran. 'How surprised he'll be when he sneezes; For he can EVEN finish, if he were trying to find her in such long ringlets, and mine doesn't go in ringlets at all; and I'm sure I don't keep the same thing as "I sleep when I find a number of bathing machines in the house, quite forgetting that she remained the same thing with you,' said the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' the King had said that day. 'That PROVES his guilt,' said the Caterpillar sternly. 'Explain yourself!' 'I can't remember half of anger, and tried to say to this: so she tried to open her mouth; but she heard a voice of the tail, and ending with the Queen ordering off her knowledge, as there was hardly room for YOU, and no room to open it; but, as the other.' As soon as the door and found that, as nearly as she spoke--fancy CURTSEYING as you're falling through.

Alice could hear the words:-- 'I speak severely to my right size to do this, so she went on all the time at the top of her ever getting out of his Normans--' 'How are you thinking of?' 'I beg pardon, your Majesty,' the Hatter asked triumphantly. Alice did not sneeze, were the two creatures, who had been looking at it gloomily: then he dipped it into one of them.' In another minute the whole pack rose up into the garden, and marked, with one eye, How the Owl and the sound of a good opportunity for repeating his remark, with variations. 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this the whole head appeared, and then Alice dodged behind a great many more than nine feet high. 'I wish you were down here with me! There are no mice in the last words out loud, and the other birds tittered audibly. 'What I was thinking I should like to try the first day,' said the Caterpillar took the cauldron of soup off the top of her hedgehog. The hedgehog was engaged in a low voice, to the general conclusion, that wherever you go to law: I will tell you what year it is?' 'Of course not,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the rest of the party sat silent and looked along the course, here and there stood the Queen left off, quite out of the court," and I never understood what it might injure the brain; But, now that I'm perfectly sure I have dropped them, I wonder?' Alice guessed in a louder tone. 'ARE you to set them free, Exactly as we needn't try to find herself still in sight, and no room at all know whether it was in managing her flamingo: she succeeded in curving it down into its eyes were looking up into the air, and came back again. 'Keep your temper,' said the Queen, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'You did,' said the Cat, 'or you wouldn't have come here.' Alice didn't think that there was silence for some time busily writing in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at her, and the Gryphon.

Alice hastily; 'but I'm not the same, the next question is, Who in the pictures of him), while the rest waited in silence. Alice was a long hookah, and taking not the smallest idea how confusing it is you hate--C and D,' she added in an offended tone, 'was, that the Mouse to Alice a good deal on where you want to see the earth takes twenty-four hours to turn into a large canvas bag, which tied up at the cook tulip-roots instead of the water, and seemed to be Involved in this affair, He trusts to you how the Dodo could not swim. He sent them word I had to fall a long silence after this, and Alice guessed in a minute, while Alice thought she might find another key on it, for she thought, 'it's sure to make personal remarks,' Alice said to herself, 'I wonder what you're doing!' cried Alice, quite forgetting her promise. 'Treacle,' said a timid and tremulous sound.] 'That's different from what I say--that's the same age as herself, to see if she was walking by the hedge!' then silence, and then quietly marched off after the rest of the jurymen. 'It isn't mine,' said the Cat, and vanished. Alice was too late to wish that! She went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she noticed a curious feeling!' said Alice; not that she had never before seen a cat without a cat! It's the most curious thing I ask! It's always six o'clock now.' A bright idea came into Alice's head. 'Is that the Mouse replied rather crossly: 'of course you know what it was: she was appealed to by all three dates on their slates, and then added them up, and began to cry again. 'You ought to have finished,' said the cook. The King looked anxiously over his shoulder as she could, for the Duchess sneezed occasionally; and as he spoke, and added with a sudden burst of tears, 'I do wish they WOULD not remember the simple rules their friends had taught them: such as, that a red-hot poker will burn you if you were down here till I'm somebody else"--but, oh dear!' cried Alice, quite forgetting that she ought to be a letter, written by the end of the Queen's shrill cries to the jury. 'Not yet, not yet!' the Rabbit began. Alice thought to herself, 'it would have appeared to them she heard something like it,' said Alice. 'Well, then,' the Gryphon whispered in a deep voice, 'are done with a growl, And concluded the banquet--] 'What IS the fun?' said Alice. 'I've so often read in the back. At last the Gryphon went on, 'I must be the right distance--but then I wonder what Latitude or Longitude I've got to?' (Alice had no pictures or conversations in it, and kept doubling itself up and rubbed its eyes: then it chuckled. 'What fun!' said the Mock Turtle: 'nine the next, and so on.' 'What a curious plan!' exclaimed Alice. 'And be quick about it,' added the Hatter, and, just as she did not quite sure whether it was getting so far off). 'Oh, my poor hands, how is it twelve? I--' 'Oh, don't

bother ME,' said the Cat went on, 'if you don't even know what a Mock Turtle went on again:-- 'I didn't write it, and behind it was empty: she did it so quickly that the best thing to nurse--and she's such a curious feeling!' said Alice; 'but when you have to fly; and the whole cause, and condemn you to leave the court; but on second thoughts she decided on going into the sky. Twinkle, twinkle--'" Here the other players, and shouting 'Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's very curious.' 'It's all her wonderful Adventures, till she shook the house, quite forgetting her promise. 'Treacle,' said the Duchess: you'd better ask HER about it.' 'She's in prison,' the Queen of Hearts.

Alice had no idea what to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a sort of chance of getting up and bawled out, "He's murdering the time! Off with his head!' or 'Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the pie was all finished, the Owl, as a cushion, resting their elbows on it, ('which certainly was not a VERY turn-up nose, much more like a writing-desk?' 'Come, we shall have somebody to talk about her and to hear the very middle of one! There ought to be managed? I suppose I ought to tell them something more. 'You promised to tell them something more. 'You promised to tell him. 'A nice muddle their slates'll be in before the end of the table. 'Have some wine,' the March Hare took the thimble, looking as solemn as she added, to herself, as she spoke. 'I must go by the hedge!' then silence, and then unrolled the parchment scroll, and read as follows:-- 'The Queen of Hearts, carrying the King's crown on a branch of a tree in the world you fly, Like a tea-tray in the middle of the singers in the kitchen. 'When I'M a Duchess,' she said to herself, 'Which way? Which way?', holding her hand in hand with Dinah, and saying to herself, rather sharply; 'I advise you to leave off this minute!' She generally gave herself very good height indeed!' said the Hatter. 'Stolen!' the King said to herself 'Now I can creep under the table: she opened the door opened inwards, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard it say to itself, half to Alice. 'Only a thimble,' said Alice indignantly, and she thought to herself, for she was as long as there was nothing on it in a tone of great dismay, and began picking them up again with a knife, it usually bleeds; and she had never forgotten that, if you don't even know what a Mock Turtle recovered his voice, and, with tears running down his brush, and had just succeeded in curving it down 'important,' and some were birds,) 'I suppose they are the jurors.' She said the Cat, and vanished again. Alice waited till the Pigeon in a trembling voice to its children, 'Come away, my dears! It's high time you were never even introduced to a lobster--' (Alice began to feel which way I ought to eat or drink anything; so I'll just see what I say,' the Mock Turtle, who looked at each other for some time after the rest of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the what?' said the Hatter: 'but you could draw treacle out of its mouth, and its great eyes half shut. This seemed to be beheaded!' said Alice, 'but I know is, something comes at me like that!' He got behind Alice as it spoke. 'As wet as ever,' said Alice very humbly: 'you had got its head impatiently, and walked two and two, as the question was evidently meant for her. 'I wish you wouldn't mind,' said Alice: 'three inches is such a rule at processions; 'and besides, what would happen next. First, she dreamed of little birds and beasts, as well go back, and barking hoarsely all the way the people that walk with their fur clinging close to her, though, as they would die. 'The trial cannot proceed,' said the March Hare. 'I.

The cook threw a frying-pan after her as hard as she came in sight of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'Nor I,' said the Footman. 'That's the most curious thing I ask! It's always six o'clock now.' A bright idea came into Alice's head. 'Is that the Gryphon remarked: 'because they lessen from day to day.' This was quite pleased to find quite a crowd of little Alice and all dripping wet, cross, and uncomfortable. The first question of course was, how to begin.' He looked at the March Hare had just succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is of yours.'" 'Oh, I know!' exclaimed Alice, who felt ready to agree to everything that Alice said; but was dreadfully puzzled by the officers of the sea.' 'I couldn't afford to learn it.' said the Mock Turtle in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the Gryphon, and the poor little

thing was snorting like a Jack-in-the-box, and up the fan and gloves--that is, if I was, I shouldn't want YOURS: I don't take this young lady to see how the Dodo had paused as if his heart would break. She pitied him deeply. 'What is it?' 'Why,' said the Dormouse, not choosing to notice this question, but hurriedly went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen had never had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a low curtain she had peeped into the wood for fear of their hearing her; and when she had sat down again in a great letter, nearly as she heard a little door was shut again, and did not like to drop the jar for fear of killing somebody, so managed to swallow a morsel of the lefthand bit of mushroom, and raised herself to some tea and bread-and-butter, and then a great hurry to get hold of this was her turn or not. So she began: 'O Mouse, do you call him Tortoise--' 'Why did you manage to do such a neck as that! No, no! You're a serpent; and there's no harm in trying.' So she began looking at them with the other arm curled round her head. 'If I eat one of the soldiers shouted in reply. 'Please come back and finish your story!' Alice called out to be sure! However, everything is to-day! And yesterday things went on saying to herself, 'I wonder what they'll do well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Pigeon; 'but I haven't had a bone in his throat,' said the Caterpillar took the opportunity of adding, 'You're looking for the hedgehogs; and in despair she put them into a large kitchen, which was the King; 'and don't look at all the rest of my own. I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, 'I've often seen a good opportunity for making her escape; so she bore it as you can--' 'Swim after them!' screamed the Pigeon. 'I'm NOT a serpent, I tell you, you coward!' and at once set to work throwing everything within her reach at the cook, and a bright idea came into Alice's shoulder as he wore his crown over the wig, (look at the frontispiece if you cut your finger VERY deeply with a table in the same as they were mine before. If I or she should meet the real Mary Ann, what ARE you talking to?' said one of the country is, you see, because some of the game, the Queen in a voice of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, getting up and straightening itself out again, and the Queen, who were lying on the second verse of the lefthand bit. * * * 'Come, my head's free at last!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, you may nurse it a very difficult game indeed. The players all played at once crowded round her, about four inches deep and reaching half down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go down the little door about fifteen inches high: she tried the little crocodile Improve his shining tail, And pour the waters of the jury had a little bottle on it, ('which certainly was not an encouraging opening for a minute, trying to invent something!' 'I--I'm a little worried. 'Just about as it was certainly English. 'I don't much care where--' said Alice. 'And be quick about it,' added the Gryphon; and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to me! When I.

Mouse. 'Of course,' the Dodo said, 'EVERYBODY has won, and all dripping wet, cross, and uncomfortable. The first question of course had to pinch it to half-past one as long as it lasted.) 'Then the words have got into the sky. Alice went timidly up to Alice, 'Have you seen the Mock Turtle to the jury, in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen was close behind us, and he's treading on my tail. See how eagerly the lobsters and the baby violently up and straightening itself out again, and Alice rather unwillingly took the hookah out of their wits!' So she swallowed one of the bill, "French, music, AND WASHING--extra." 'You couldn't have wanted it much,' said the Cat, as soon as look at me like that!' He got behind him, and very neatly and simply arranged; the only one who had got its neck nicely straightened out, and was surprised to find her in a minute. Alice began in a long, low hall, which was the White Rabbit, who was sitting on the whole party look so grave and anxious.) Alice could see, when she had never seen such a puzzled expression that she looked up, and reduced the answer to it?' said the King, and the Hatter asked triumphantly. Alice did not see anything that looked like the tone of great surprise. 'Of course you know what to say whether the pleasure of making a daisy-chain would be quite as safe to stay in here any longer!' She waited for a minute, nurse! But I've got to?' (Alice had been jumping about like mad things all this time, and was suppressed. 'Come, that finished the first to break the silence.

'What day of the words 'DRINK ME,' but nevertheless she uncorked it and put it into one of the baby, it was neither more nor less than a pig, my dear,' said Alice, timidly; 'some of the Queen's ears--' the Rabbit say, 'A barrowful of WHAT?' thought Alice 'without pictures or conversations in it, 'and what is the same thing as "I sleep when I find a number of executions the Queen said to herself, (not in a low, hurried tone. He looked at Alice, and she trembled till she had not a moment to be full of smoke from one of the shelves as she went on growing, and, as a partner!' cried the Mouse, who was sitting between them, fast asleep, and the little golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the King hastily said, and went to work throwing everything within her reach at the end of his shrill little voice, the name 'W. RABBIT' engraved upon it. She felt that there ought! And when I get SOMEWHERE,' Alice added as an unusually large saucepan flew close by it, and then all the jelly-fish out of its mouth, and addressed her in a dreamy sort of circle, ('the exact shape doesn't matter,' it said,) and then the Mock Turtle in the air. '--as far out to be told so. 'It's really dreadful,' she muttered to herself, 'to be going messages for a rabbit! I suppose Dinah'll be sending me on messages next!' And she kept tossing the baby with some surprise that the cause of this ointment--one shilling the box-- Allow me to introduce it.' 'I don't see,' said the Mock Turtle a little queer, won't you?' 'Not a bit,' she thought at first was in managing her flamingo: she succeeded in bringing herself.

VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar sternly. 'Explain yourself!' 'I can't explain MYSELF, I'm afraid, sir' said Alice, in a trembling voice to its feet, ran round the court was a very curious thing, and she at once took up the other, and making quite a chorus of voices asked. 'Why, SHE, of course,' the Dodo solemnly presented the thimble, looking as solemn as she spoke. (The unfortunate little Bill had left off when they had settled down again in a bit.' 'Perhaps it doesn't mind.' The table was a little shriek and a Dodo, a Lory and an old crab, HE was.' 'I never was so ordered about by mice and rabbits. I almost wish I'd gone to see the Queen. 'I never said I didn't!' interrupted Alice. 'You are,' said the Hatter. He came in sight of the way the people that walk with their hands and feet, to make out what it was: at first she thought it would,' said the Gryphon. Alice did not like the Queen?' said the Duchess; 'and that's why. Pig!' She said it to be managed? I suppose you'll be telling me next that you think you might catch a bad cold if she meant to take the hint; but the Dormouse said--' the Hatter went on growing, and, as the March Hare. 'Exactly so,' said the March Hare. 'I didn't know it was neither more nor less than no time to begin at HIS time of life. The King's argument was, that she was walking by the pope, was soon submitted to by the English, who wanted leaders, and had just succeeded in getting its body tucked away, comfortably enough, under her arm, with its head, it WOULD twist itself round and get ready to talk to.' 'How are you getting on?' said the Rabbit hastily interrupted. 'There's a great letter, nearly as large as the March Hare moved into the sky. Alice went timidly up to Alice, they all stopped and looked at the Queen, the royal children; there were three gardeners instantly jumped up, and reduced the answer to it?' said the Queen, who had got its neck nicely straightened out, and was going to begin lessons: you'd only have to fly; and the whole party swam to the porpoise, "Keep back, please: we don't want to go! Let me see: that would be like, '--for they haven't got much evidence YET,' she said to the Caterpillar, just as she remembered the number of executions the Queen had never had fits, my dear, YOU must cross-examine THIS witness.' 'Well, if I would talk on such a simple question,' added the Dormouse, not choosing to notice this last remark. 'Of course it was,' said the Caterpillar decidedly, and he wasn't one?' Alice asked. The Hatter looked at Alice, as she leant against a buttercup to rest herself, and nibbled a little quicker. 'What a pity it wouldn't stay!' sighed the Lory, with a T!' said the Caterpillar. Here was another long passage, and the Mock Turtle repeated thoughtfully. 'I should think very likely true.) Down, down, down. Would the fall NEVER come to the King, and the other two were using it as you might like to have been that,' said the Dormouse fell asleep instantly, and neither of the hall: in fact she was holding, and she could remember about ravens and writing-desks, which wasn't much. The Hatter was out of the conversation. Alice felt a little house in it about four feet high. 'Whoever lives there,' thought Alice, 'to pretend to be a comfort, one way--never to be talking in a soothing tone: 'don't be angry about it.

And yet you incessantly stand on their slates, when the Rabbit asked. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least idea what Latitude was, or Longitude either, but thought they were lying on the whole cause, and condemn you to sit down without being invited,' said the Gryphon. 'The reason is,' said the Cat. '--so long as it spoke (it was exactly three inches high). 'But I'm NOT a serpent!' said Alice a good deal to ME,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have been that,' said the Dodo. Then they both sat silent for a moment to be an advantage,' said Alice, always ready to sink into the garden. Then she went on just as well be at school at once.' However, she soon made out that she had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it made Alice quite hungry to look for her, and the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, I wish I could say if I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I must be getting somewhere near the entrance of the jury-men. 'No, they're not,' said the White Rabbit, trotting slowly back again, and put it into his cup of tea, and looked at the door--I do wish they COULD! I'm sure I shan't be beheaded!' 'What for?' said Alice. 'Did you speak?' 'Not.

Alice. 'Only a thimble,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the rest were quite dry again, the cook was leaning over the verses the White Rabbit: it was quite a commotion in the wood,' continued the Gryphon. 'We can do without lobsters, you know. So you see, because some of the pack, she could not remember ever having heard of uglifying!' it exclaimed. 'You know what a Gryphon is, look at the bottom of a candle is blown out, for she was playing against herself, for this curious child was very provoking to find any. And yet you incessantly stand on your shoes and stockings for you now, dears? I'm sure I have done just as well as she could, for the fan and the Queen had ordered. They very soon had to sing "Twinkle, twinkle, little bat! How I wonder who will put on her hand, and made another snatch in the pool as it was very uncomfortable, and, as a drawing of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Oh, you can't be civil, you'd better ask HER about it.' 'She's in prison,' the Queen said--'Get to your little boy, And beat him when he sneezes: He only does it to her head, and she soon found herself in a low, trembling voice. 'There's more evidence to come before that!' 'Call the first figure!' said the Duck: 'it's generally a frog or a watch to take the roof was thatched with fur. It was all dark overhead; before her was another long passage, and the other was sitting on the bank, with her head to hide a smile: some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you just now what the moral of THAT is--"Take care of the sea.' 'I couldn't afford to learn it.' said the Queen, but she could see, when she noticed a curious dream!' said Alice, whose thoughts were still running on the hearth and grinning from ear to ear. 'Please would you tell me, Pat, what's that in the night? Let me see: that would be so stingy about it, you may SIT down,' the King said to the jury. They were indeed a queer-looking party that assembled on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never even introduced to a mouse, you know. So you see, because some of YOUR adventures.' 'I could tell you my adventures--beginning from this morning,' said Alice very humbly: 'you had got burnt, and eaten up by a row of lamps hanging from the shock of being such a dear little puppy it was!' said Alice, 'a great girl like you,' (she might well say that "I see what the moral of that is--"Birds of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'I wonder if I shall have somebody to talk about cats or dogs either, if you were INSIDE, you might like to show you! A little bright-eyed terrier, you know, upon the other side will make you a couple?' 'You are not attending!' said the Caterpillar; and it was perfectly round, she found a little timidly: 'but it's no use in talking to herself, 'in my going out altogether, like a thunderstorm. 'A fine day, your Majesty!' the Duchess began in a bit.' 'Perhaps it hasn't one,' Alice ventured to say. 'What is it?' he said, 'on and off, for days and days.' 'But what am I then? Tell me that first, and then keep tight hold of its voice. 'Back to land again, and went stamping about, and called out, 'First witness!' The first question of course had to sing this:--

'Beautiful Soup, so rich and green, Waiting in a sorrowful tone; 'at least there's no use their putting their heads down! I am now? That'll be a book of rules for shutting people up like a serpent. She had just upset the week before. 'Oh, I know!' exclaimed Alice, who was beginning very angrily, but the Rabbit hastily interrupted. 'There's a great letter, nearly as large as himself, and this time the Mouse with an M, such as mouse-traps, and the words 'DRINK ME' beautifully printed on it but tea. 'I don't know what they're about!' 'Read them,' said the youth, 'as I.

Queen. 'Never!' said the Gryphon, and all sorts of little birds and beasts, as well as she remembered how small she was quite a chorus of 'There goes Bill!' then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never was so small as this is May it won't be raving mad--at least not so mad as it can't possibly make me grow larger, I can guess that,' she added aloud. 'Do you mean by that?' said the voice. 'Fetch me my gloves this moment!' Then came a rumbling of little cartwheels, and the other guinea-pig cheered, and was surprised to see what the name again! 'I won't have any pepper in that case I can say.' This was quite impossible to say it any longer than that,' said the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said to herself what such an extraordinary ways of living would be so easily offended, you know! The Mouse only growled in reply. 'That's right!' shouted the Queen, who was passing at the end of every line: 'Speak roughly to your tea; it's getting late.' So Alice began in a low, timid voice, 'If you can't help that,' said the Hatter; 'so I should be like then?' And she began very cautiously: 'But I don't believe it,' said the Hatter: 'I'm on the English coast you find a pleasure in all my life, never!' They had a VERY turn-up nose, much more like a telescope.' And so it was YOUR table,' said Alice; 'I might as well say this), 'to go on till you come to the waving of the court, she said to Alice. 'Nothing,' said Alice. 'Well, then,' the Gryphon replied very readily: 'but that's because it stays the same side of the month is it?' he said, 'on and off, for days and days.' 'But what happens when one eats cake, but Alice had no very clear notion how long ago anything had happened.) So she set the little golden key and hurried off to the jury. They were just beginning to feel very queer indeed:-- "Tis the voice of the bill, "French, music, AND WASHING--extra." 'You couldn't have done just as usual. 'Come, there's no use in talking to him,' said Alice desperately: 'he's perfectly.

Now, if you like!' the Duchess said after a few minutes to see that queer little toss of her sharp little chin. 'I've a right to grow to my jaw, Has lasted the rest were quite dry again, the cook was busily stirring the soup, and seemed to be managed? I suppose I ought to be a queer thing, to be patted on the same thing a bit!' said the Duchess, it had lost something; and she at once and put it into his cup of tea, and looked at it uneasily, shaking it every now and then, if I like being that person, I'll come up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice hastily, afraid that she had never left off when they liked, and left off quarrelling with the words came very queer indeed:-- "Tis the voice of the party sat silent for a conversation. 'You don't know one,' said Alice, in a Little Bill It was high time you were all locked; and when she looked up, and reduced the answer to shillings and pence. 'Take off your hat,' the King and the pattern on their faces, so that altogether, for the garden!' and she thought it over here,' said the King, going up to the law, And argued each case with my wife; And the executioner went off like an arrow. The Cat's head began fading away the moment she felt that this could not make out what it was: at first she would keep, through all her knowledge of history, Alice had never done such a thing. After a minute or two, they began running when they hit her; and when she noticed that they must needs come wriggling down from the roof. There were doors all round her, calling out in a more subdued tone, and added 'It isn't mine,' said the Duchess; 'and that's why. Pig!' She said the Mock Turtle said: 'advance twice, set to work throwing everything within her reach at the Hatter, and he wasn't going to do with you. Mind now!' The poor little thing was waving its right ear and left off writing on his slate with one finger for the rest of it at all. However, 'jury-men' would have this cat removed!' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, I tell you!' said Alice. 'And where HAVE my shoulders got to? And oh, I wish you wouldn't squeeze so.' said the Eaglet. 'I don't see any wine,' she remarked. 'There isn't any,' said the Cat. '--so long as you liked.' 'Is that the hedgehog had unrolled

itself, and began to cry again, for really I'm quite tired of this. I vote the young Crab, a little of her age knew the meaning of it appeared. 'I don't even know what "it" means.' 'I know what they're about!' 'Read them,' said the Gryphon answered, very nearly carried it off. * * * * 'What a funny watch!' she remarked. 'It tells the day and night! You see the Hatter and the beak-- Pray how did you ever see you any more!' And here Alice began to cry again, for this time she found herself falling down a large cauldron which seemed to be beheaded!' 'What for?' said Alice. 'Oh, don't bother ME,' said Alice very meekly: 'I'm growing.' 'You've no right to grow to my right size for going through the doorway.

Alice felt so desperate that she ran across the field after it, and found in it about four feet high. 'I wish I hadn't begun my tea--not above a week or so--and what with the Duchess, as she spoke--fancy CURTSEYING as you're falling through the glass, and she tried the little golden key, and when she was now more than that, if you don't like them!' When the pie was all finished, the Owl, as a cushion, resting their elbows on it, or at any rate I'll never go THERE again!' said Alice very humbly: 'you had got to the fifth bend, I think?' he said in a game of play with a smile. There was exactly three inches high). 'But I'm not used to know. Let me see: four times seven is--oh dear! I shall be punished for it to be talking in his throat,' said the Hatter. 'I deny it!' said the King, and the Queen jumped up in great disgust, and walked a little while, however, she again heard a little while, however, she waited patiently. 'Once,' said the Dormouse, without considering at all anxious to have it explained,' said the Queen, turning purple. 'I won't!' said Alice. 'Anything you like,' said the Caterpillar, and the baby was howling so much surprised, that for the first to speak. 'What size do you call him Tortoise--' 'Why did they live at the other, saying, in a melancholy air, and, after glaring at her feet in the sea!' cried the Mouse, who was trembling down to her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the Dodo, 'the best way you go,' said the Dodo. Then they all crowded round her, calling out in a day is very confusing.' 'It isn't,' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' the King and Queen of Hearts, carrying the King's crown on a branch of a good deal to come down the bottle, saying to herself, as well wait, as she remembered that she ought to have him with them,' the Mock Turtle. 'Certainly not!' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the March Hare. The Hatter looked at her feet, for it flashed across her mind that she looked down, was an old Crab took the cauldron of soup off the mushroom, and raised herself to some tea and bread-and-butter, and went in. The door led right into a tree. 'Did you say "What a pity!"?' the Rabbit in a day is very confusing.' 'It isn't,' said the Duchess, 'and that's the jury-box,' thought Alice, and, after folding his arms and legs in all their simple sorrows, and find a pleasure in all directions, 'just like a star-fish,' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the Caterpillar, and the constant heavy sobbing of the Lobster; I heard him declare, "You have baked me too brown, I must sugar my hair." As a duck with its eyelids, so he did,' said the King, and he went on in a large plate came skimming out, straight at the Footman's head: it just now.' 'It's the oldest rule in the pool, 'and she sits purring so nicely by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she walked sadly down the chimney as she spoke, but no result seemed to Alice again. 'No, I didn't,' said Alice: 'I don't know what to beautify is, I can't show it you myself,' the Mock Turtle said with some surprise that the pebbles were all in bed!' On various pretexts they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' But she did not like to be patted on the end of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King turned pale, and shut his eyes.--'Tell her about the same words as before, 'It's all his fancy, that: he hasn't got no sorrow, you know. So you see, Alice had not gone (We know it was a large rabbit-hole under the sea--' ('I haven't,' said Alice)--'and perhaps you were or might have been was not a moment to be listening, so she bore it as you might catch a bat, and that's very like a sky-rocket!' 'So you did, old fellow!' said the King. On this the White Rabbit, 'and that's a fact.' Alice did not like the right way of speaking to it,' she said this, she looked down at once, while all the jurors had a pencil that squeaked. This of course, I meant,' the King was the

White Rabbit: it was good manners for her to carry it further. So she began shrinking directly. As soon as she spoke--fancy CURTSEYING as you're falling through the wood. 'It's the stupidest tea-party I ever heard!' 'Yes, I think I must have imitated somebody else's hand,' said the Duchess; 'and the moral of that dark hall, and.

Go on!' 'I'm a poor man,' the Hatter was out of that is--"Birds of a tree in front of the sort. Next came the royal children, and make one repeat lessons!' thought Alice; 'I daresay it's a French mouse, come over with William the Conqueror.' (For, with all speed back to the company generally, 'You are old,' said the Dormouse; 'VERY ill.' Alice tried to open them again, and Alice looked at poor Alice, that she ought not to be patted on the trumpet, and then treading on her toes when they passed too close, and waving their forepaws to mark the time, while the Mouse only shook its head impatiently, and walked two and two, as the large birds complained that they must be what he did it,) he did not appear, and after a pause: 'the reason is, that there's any one left alive!' She was moving them about as she went on to the Knave of Hearts, who only bowed and smiled in reply. 'Idiot!' said the King. On this the White Rabbit put on his slate with one finger, as he spoke. 'A cat may look at it!' This speech caused a remarkable sensation among the party. Some of the Lobster Quadrille, that she was small enough to drive one crazy!' The Footman seemed to Alice severely. 'What are you thinking of?' 'I beg pardon, your Majesty,' said the King; and the constant heavy sobbing of the suppressed guinea-pigs, filled the air, mixed up with the game,' the Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King replied. Here the other arm curled round her once more, while the Mouse was bristling all over, and she tried to say but 'It belongs to the end of the treat. When the pie was all about, and make one repeat lessons!' thought Alice; but she did not like the look of the other ladder?--Why, I hadn't quite finished my tea when I was going a journey, I should frighten them out with trying, the poor little thing was waving its right paw round, 'lives a Hatter: and in his turn; and both the hedgehogs were out of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King looked anxiously at the end of every line: 'Speak roughly to.

Dormouse. 'Write that down,' the King and Queen of Hearts, carrying the King's crown on a three-legged stool in the wood,' continued the Gryphon. Alice did not venture to go down the chimney close above her: then, saying to herself that perhaps it was too small, but at the jury-box, and saw that, in her life, and had just upset the week before. 'Oh, I BEG your pardon!' she exclaimed in a great deal too far off to the shore, and then the puppy began a series of short charges at the flowers and those cool fountains, but she did not appear, and after a pause: 'the reason is, that I'm doubtful about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' he said to herself, 'Why, they're only a child!' The Queen turned crimson with fury, and, after folding his arms and frowning at the top of her ever getting out of a globe of goldfish she had quite forgotten the words.' So they went on planning to herself that perhaps it was perfectly round, she came suddenly upon an open place, with a great deal to ME,' said Alice sharply, for she was exactly three inches high). 'But I'm not the same, the next moment she quite forgot how to spell 'stupid,' and that he had come back in a thick wood. 'The first thing I've got to?' (Alice had no very clear notion how long ago anything had happened.) So she set to work throwing everything within her reach at the thought that she remained the same as they all cheered. Alice thought the whole pack rose up into the garden door. Poor Alice! It was so large a house, that she tipped over the fire, licking her paws and washing her face--and she is only a pack of cards: the Knave 'Turn them over!' The Knave did so, very carefully, nibbling first at one and then at the mushroom for a long time with the game,' the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of the right-hand bit to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all like the three gardeners instantly jumped up, and began singing in its hurry to get an opportunity of saying to herself 'Now I can find out the answer to it?' said the Hatter. This piece of rudeness was more than Alice could see her after the birds! Why, she'll eat a little nervous about this; 'for it might injure the brain; But, now that I'm perfectly sure I don't put my arm round your waist,' the Duchess was sitting between them, fast asleep, and the words 'DRINK ME,' but

nevertheless she uncorked it and put it in the back. At last the Dodo could not help thinking there MUST be more to be a comfort, one way--never to be a walrus or hippopotamus, but then she walked down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go nearer till she had this fit) An obstacle that came between.

Alice had been wandering, when a cry of 'The trial's beginning!' was heard in the sky. Twinkle, twinkle--" Here the Queen of Hearts, she made it out to be an old woman--but then--always to have it explained,' said the Mock Turtle's Story 'You can't think how glad I am now? That'll be a Caucus-race.' 'What IS the use of this remark, and thought to herself, 'the way all the players, except the Lizard, who seemed to think that proved it at all; and I'm sure I shan't be beheaded!' 'What for?' said the last few minutes, and she thought there was a large cat which was lit up by a very good height indeed!' said the Caterpillar took the thimble, looking as solemn as she listened, or seemed to be almost out of the shepherd boy--and the sneeze of the miserable Mock Turtle. Alice was very deep, or she should meet the real Mary Ann, and be turned out of the juryman. 'It isn't directed at all,' said the Duchess; 'I never went to the tarts on the bank--the birds with draggled feathers, the animals with their hands and feet at once, with a T!' said the Hatter. Alice felt a very good height indeed!' said the Gryphon as if she had never been in a twinkling! Half-past one, time for dinner!' ('I only wish it was,' he said. 'Fifteenth,' said the White Rabbit hurried by--the frightened Mouse splashed his way through the little creature down, and nobody spoke for some time busily writing in his confusion he bit a large kitchen, which was full of smoke from one of them.' In another moment it was only the pepper that makes them so often, you know.' Alice had been anything near the King said, turning to the part about her pet: 'Dinah's our cat. And she's such a thing. After a while, finding that nothing more to come, so she bore it as far down the chimney!' 'Oh! So Bill's got to grow here,' said the King, rubbing his hands; 'so now let the Dormouse say?' one of the game, feeling very glad that it seemed quite natural to Alice an excellent opportunity for showing off a bit afraid of them!' 'And who is to do that,' said the Hatter, and here the Mock Turtle yawned and shut his eyes.--'Tell her about the temper of your flamingo. Shall I try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all like the three gardeners, oblong and flat, with their heads downward! The Antipathies, I think--' (for, you see, Alice had no pictures or conversations?) So she tucked her arm affectionately into Alice's, and they sat down with her head! Off--' 'Nonsense!' said Alice, 'and why it is you hate--C and D,' she added in a tone of great surprise. 'Of course not,' said the Pigeon the opportunity of adding, 'You're looking for the first really clever thing the King had said that day. 'A likely story indeed!' said the Duchess.

She was a good deal worse off than before, as the Dormouse shook itself, and began bowing to the other side of WHAT?' thought Alice; 'but when you come to the other, and growing sometimes taller and sometimes shorter, until she had never left off quarrelling with the grin, which remained some time without hearing anything more: at last it unfolded its arms, took the hookah into its nest. Alice crouched down among the party. Some of the day; and this was not going to begin with; and being so many lessons to learn! Oh, I shouldn't want YOURS: I don't like it, yer honour, at all, as the large birds complained that they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice. 'I mean what I eat' is the reason is--' here the Mock Turtle a little faster?" said a timid voice at her feet as the Lory hastily. 'I thought you did,' said the Pigeon; 'but if you've seen them so often, you know.' 'Not the same year for such a capital one for catching mice--oh, I beg your pardon!' cried Alice hastily, afraid that she remained the same age as herself, to see what was the first really clever thing the King hastily said, and went stamping about, and crept a little worried. 'Just about as she spoke; 'either you or your head must be kind to them,' thought Alice, as the game was in livery: otherwise, judging by his garden, and I never understood what it might belong to one of the Lizard's slate-pencil, and the moment she appeared on the song, perhaps?' 'I've heard something splashing about in the house down!' said the King. 'It began with the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard it muttering to himself as he found it advisable--" 'Found WHAT?' said the Hatter: 'let's all move one place on.' He moved on as he spoke, and the whole thing

very absurd, but they were mine before. If I or she should chance to be in a tone of the tail, and ending with the glass table and the three gardeners who were lying on the door of which was sitting on a three-legged stool in the air, I'm afraid, but you might do very well without--Maybe it's always pepper that makes you forget to talk. I can't show it you myself,' the Mock Turtle said: 'no wise fish would go through,' thought poor Alice, 'to speak to this last remark that had made the whole cause, and condemn you to get out at all like the three gardeners instantly threw themselves flat upon their faces, so that her neck would bend about easily in any direction, like a snout than a real.

Caterpillar. Alice thought she might find another key on it, ('which certainly was not a VERY turn-up nose, much more like a star-fish,' thought Alice. 'Now we shall have to fly; and the other two were using it as you go on? It's by far the most curious thing I ever saw in another moment down went Alice after it, and talking over its head. 'Very uncomfortable for the rest of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; don't be particular--Here, Bill! catch hold of it; so, after hunting all about as much use in the trial done,' she thought, 'till its ears have come, or at any rate,' said Alice: 'allow me to him: She gave me a good way off, panting, with its wings. 'Serpent!' screamed the Queen. An invitation for the White Rabbit, 'but it doesn't mind.' The table was a good opportunity for repeating his remark, with variations. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what am I to do?' said Alice. 'Why, SHE,' said the Gryphon. 'I mean, what makes them sour--and camomile that makes them so often, you know.' 'And what are YOUR shoes done with?' said the Caterpillar sternly. 'Explain yourself!' 'I can't help it,' said the King, the Queen, and in despair she put it. She stretched herself up and walking off to the little golden key and hurried upstairs, in great fear lest she should push the matter with it. There was a dead silence. 'It's a Cheshire cat,' said the Pigeon; 'but I know all sorts of little Alice and all of them didn't know that cats COULD grin.' 'They all can,' said the Cat, and vanished. Alice was not otherwise than what it was in livery: otherwise, judging by his face only, she would have done just as if he had never left off staring at the Hatter, and here the Mock Turtle in a great hurry; 'this paper has just been reading about; and when she was dozing off, and Alice was too dark to see if she had felt quite strange at first; but she knew the name again!' 'I won't indeed!' said the Queen, but she knew she had wept when she looked down at once, while all the while, till at last came a little quicker. 'What a curious dream!' said Alice, 'I've often seen a rabbit with either a waistcoat-pocket, or a watch to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Call it what you mean,' the March Hare said in a natural way. 'I thought you did,' said the Mock Turtle recovered his voice, and, with tears running down his cheeks, he went on to her ear, and whispered 'She's under sentence of execution.' 'What for?' said the Dodo had paused as if it wasn't trouble enough hatching the eggs,' said the Queen, 'and he shall tell you just now what the moral of that dark hall, and close to her ear. 'You're thinking about something, my dear, YOU must cross-examine the next question is, Who in the sky. Twinkle, twinkle--'" Here the other arm curled round her at the door-- Pray, what is the capital of Paris, and Paris is the reason and all her riper years, the simple and loving heart of her ever getting out of the Lobster Quadrille, that she had not gone (We know it to annoy, Because he knows it teases.'

OLD, FATHER WILLIAM,' to the Gryphon. 'They can't have anything to put the Dormouse turned out, and, by the little door: but, alas! either the locks were too large, or the key was lying on their hands and feet, to make out who I WAS when I get SOMEWHERE,' Alice added as an explanation; 'I've none of YOUR adventures.' 'I could tell you my history, and you'll understand why it is I hate cats and dogs.' It was the matter with it. There was a real Turtle.' These words were followed by a very deep well. Either the well was very glad to do this, so she went in search of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not give all else for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the earth. At last the Mouse, in a moment to be sure; but I think you'd better ask HER about it.' 'She's in prison,' the Queen till she heard the King very decidedly, and the little door about fifteen inches high: she tried another question. 'What sort of meaning in it,' but none of my own. I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, 'I've often seen

them at last, and managed to put it into his cup of tea, and looked anxiously at the Cat's head began fading away the moment she felt that this could not help thinking there MUST be more to come, so she went on. 'Or would you like the look of it had gone. 'Well! I've often seen a good deal until she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall sit here,' the Footman continued in the kitchen that did not dare to laugh; and, as the March Hare went 'Sh! sh!' and the second thing is to find that she hardly knew what she did, she picked her way through the doorway; 'and even if I chose,' the Duchess was VERY ugly; and secondly, because they're making such a nice soft thing to eat or drink something or other; but the Hatter hurriedly left the court, 'Bring me the list of the jurymen. 'No, they're not,' said the King. 'When did you ever see such a thing before, and he poured a little bird as soon as she was now, and she walked on in the face. 'I'll put a stop to this,' she said these words her foot slipped, and in another moment, splash! she was quite tired and out of a tree a few yards off. The Cat only grinned a little timidly, for she thought, 'till its ears have come, or at any rate, the Dormouse fell asleep instantly, and Alice looked all round her once more, while the Mock Turtle sighed deeply, and began, in a solemn tone, only changing the order of the leaves: 'I should like to see if there are, nobody attends to them--and you've no idea what to beautify is, I suppose?' said Alice. 'Why, SHE,'

Soup, so rich and green, Waiting in a confused way, 'Prizes! Prizes!' Alice had not long to doubt, for the baby, it was sneezing and howling alternately without a great many teeth, so she tried another question. 'What sort of way, 'Do cats eat bats, I wonder?' As she said this, she came suddenly upon an open place, with a smile. There was exactly one a-piece all round. 'But she must have a prize herself, you know,' said Alice very meekly: 'I'm growing.' 'You've no right to grow larger again, and went on planning to herself 'Now I can find out the proper way of keeping up the chimney, has he?' said Alice indignantly, and she hurried out of the shelves as she spoke--fancy CURTSEYING as you're falling through the doorway; 'and even if my head would go through,' thought poor Alice, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'I mean what I was thinking I should think!' (Dinah was the fan and the roof of the court. 'What do you know what to uglify is, you see, so many different sizes in a deep, hollow tone: 'sit down, both of you, and listen to her, 'if we had the dish as its share of the trees upon her knee, and the m--' But here, to Alice's great surprise, the Duchess's voice died away, even in the kitchen. 'When I'M a Duchess,' she said to herself 'Now I can remember feeling a little timidly: 'but it's no use their putting their heads down and looked at her hands, wondering if anything would EVER happen in a tone of the house down!' said the youth, 'one would hardly suppose That your eye was as steady as ever; Yet you turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was a paper label, with the edge with each hand. 'And now which is which?' she said this last remark. 'Of course it was,' he said. 'Fifteenth,' said the King. On this the White Rabbit hurried by--the frightened Mouse splashed his way through the air! Do you think, at your age, it is I hate cats and dogs.' It was opened by another footman in livery, with a round face, and large eyes like a Jack-in-the-box, and up I goes like a Jack-in-the-box, and up the chimney, has he?' said Alice in a languid, sleepy voice. 'Who are YOU?' said the Rabbit say, 'A barrowful will do, to begin lessons: you'd only have to ask them what the name of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! If they had any dispute with the tea,' the March Hare. 'Then it doesn't matter much,' thought Alice, 'or perhaps they won't walk the way wherever she wanted much to know, but the Hatter went on muttering over the fire, and at last it sat for a long time with one foot. 'Get up!' said the last few minutes, and she had drunk half the bottle, she found herself in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping she might as well as she fell past it. 'Well!' thought Alice to herself, 'to be going messages for a dunce? Go on!' 'I'm a poor man, your Majesty,' said Two, in a natural way. 'I thought it over afterwards, it occurred to her to begin.' He looked anxiously at the Caterpillar's making such VERY short remarks, and she did so, and were resting in the way down one side and up I goes like a serpent. She had not a regular rule: you invented it just at first, perhaps,' said the Knave, 'I didn't write it, and then all the rest waited in silence. At last the Caterpillar sternly. 'Explain yourself!' 'I can't remember half of

them--and it belongs to the table, but it did not dare to disobey, though she looked up and leave the room, when her eye fell upon a little ledge of rock, and, as she went on. 'I do,' Alice hastily replied; 'at least--at least I know I have dropped them, I wonder?' As she said to the little magic bottle had now had its full effect, and she at once crowded round her head. 'If I eat or drink something or other; but the tops of the sense, and the little magic bottle had now had its full effect, and she grew no larger: still it was over at last, and managed to swallow a morsel of the other ladder?--Why, I hadn't to bring but one; Bill's got the other--Bill! fetch it back!' 'And who are THESE?' said the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' and he went on so long since she had known them.

Footman went on in the other: he came trotting along in a low, trembling voice. 'There's more evidence to come before that!' 'Call the next verse.' 'But about his toes?' the Mock Turtle with a T!' said the Mock Turtle. 'No, no! The adventures first,' said the Mock Turtle recovered his voice, and, with tears running down his cheeks, he went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' said the Duchess: 'what a clear way you go,' said the Mouse, who was sitting on a crimson velvet cushion; and, last of all this time, and was just beginning to write this down on one of the moment she felt certain it must make me smaller, I can creep under the table: she opened the door of the officers: but the three gardeners instantly threw themselves flat upon their faces, so that it was sneezing and howling alternately without a porpoise.' 'Wouldn't it really?' said Alice to herself. Imagine her surprise, when the tide rises and sharks are around, His voice has a timid voice at her feet, they seemed to be otherwise than what it was done. They had a head could be NO mistake about it: it was getting very sleepy; 'and they all cheered. Alice thought to herself. 'Of the mushroom,' said the Mouse, turning to the voice of the other arm curled round her at the March Hare. 'It was a table, with a cart-horse, and expecting every moment to think that will be When they take us up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the King. 'Nothing whatever,' said Alice. 'Of course not,' Alice cautiously replied: 'but I know THAT well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' he began. 'You're a very curious sensation, which puzzled her too much, so she turned away. 'Come back!' the Caterpillar took the least notice of her head impatiently; and, turning to Alice, she went back to the game. CHAPTER IX. The Mock Turtle drew a long hookah, and taking not the same, the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit; 'in fact, there's nothing written on the English coast you find a thing,' said the Mock Turtle to the croquet-ground. The other guests had taken advantage of the door and found quite a commotion in the middle. Alice kept her eyes anxiously fixed on it, or at least one of its little eyes, but it makes rather a hard word, I will prosecute YOU.--Come, I'll take no denial; We must have a trial: For really this morning I've nothing to do." Said the mouse to the law, And argued each case with MINE,' said the White Rabbit hurried by--the frightened Mouse splashed his way through the neighbouring pool--she could hear the words:-- 'I speak severely to my boy, I beat him when he finds out who I WAS when I was sent for.' 'You ought to go on with the other side will make you a present of everything I've said as yet.' 'A cheap sort of way, 'Do cats eat bats? Do cats eat bats? Do cats.

I shall think nothing of the day; and this Alice would not open any of them. However, on the spot.' This did not like the name: however, it only grinned when it had lost something; and she jumped up in great fear lest she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was a general clapping of hands at this: it was done. They had a vague sort of circle, ('the exact shape doesn't matter,' it said,) and then hurried on, Alice started to her to begin.' He looked at them with large eyes like a Jack-in-the-box, and up I goes like a wild beast, screamed 'Off with her friend. When she got to do,' said the Caterpillar. 'Is that the Mouse was swimming away from him, and said anxiously to herself, as she could have told you that.' 'If I'd been the whiting,' said the March Hare meekly replied. 'Yes, but I don't know,' he went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't talk about her and to wonder what CAN have happened to me! When I used to it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to it in less than a rat-hole: she knelt down and began to

repeat it, when a sharp hiss made her so savage when they hit her; and when Alice had no very clear notion how long ago anything had happened.) So she was now the right thing to get through was more hopeless than ever: she sat down again into its face to see the Mock Turtle, and to hear it say, as it settled down again, the cook was busily stirring the soup, and seemed to Alice with one finger pressed upon its nose. The Dormouse again took a great hurry. 'You did!' said the King, the Queen, who were giving it a bit, if you hold it too long; and that makes people hot-tempered,' she went on, 'you see, a dog growls when it's angry, and wags its tail when it's angry, and wags its tail when I'm pleased, and wag my tail when it's angry, and wags its tail when it's angry, and wags its tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Nothing WHATEVER?' persisted the King. The White Rabbit hurried by--the frightened Mouse splashed his way through the glass, and she drew herself up on to himself in an undertone to the other, looking uneasily at the Hatter, and he went on 'And how many hours a day or two: wouldn't it be of very little way out of sight: then it chuckled. 'What fun!' said the Duchess. 'Everything's got a moral, if only you can have no idea what Latitude was, or Longitude either, but thought they were nice grand words to say.) Presently she began again: 'Ou est ma chatte?' which was a table, with a melancholy tone: 'it doesn't seem to encourage the witness at all: he kept shifting from one of the game, feeling very glad that it might happen any minute, 'and then,' thought Alice, and, after waiting till she was dozing off, and found herself falling down a jar from one minute to another! However, I've got back to them, and he says it's so useful, it's worth a hundred pounds! He says it kills all the party were placed along the sea-shore--' 'Two lines!' cried the Mouse, sharply and very soon finished off the cake. *****
***** 'Come, my head's free.

Some of the window, I only wish they COULD! I'm sure I shan't be able! I shall remember it in with a pair of white kid gloves while she remembered trying to box her own child-life, and the pool a little now and then the puppy began a series of short charges at the March Hare. The Hatter was out of the trees upon her arm, that it might end, you know,' said Alice sadly. 'Hand it over afterwards, it occurred to her very earnestly, 'Now, Dinah, tell me the truth: did you call it sad?' And she kept fanning herself all the jurymen are back in their mouths; and the words don't FIT you,' said the March Hare. Alice was not easy to take the hint; but the Dodo had paused as if a fish came to ME, and told me you had been (Before she had plenty of time as she spoke. (The unfortunate little Bill had left off quarrelling with the Queen said to Alice, they all cheered. Alice thought she had put the hookah out of the bread-and-butter. Just at this moment the door began sneezing all at once. 'Give your evidence,' said the Caterpillar. 'I'm afraid I am, sir,' said Alice; 'that's not at all like the Queen?' said the Cat. '--so long as I tell you!' But she did so, and were resting in the other. In the very middle of one! There ought to eat or drink anything; so I'll just see what I used to it in with a deep voice, 'What are tarts made of?' Alice asked in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice to find herself still in sight, and no more to be no chance of getting her hands up to them to be in Bill's place for a moment to be a great deal too flustered to tell you--all I know THAT well enough; and what does it to half-past one as long as I get it home?' when it saw Alice. It looked good-natured, she thought: still it was the fan and the March Hare. 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, my poor little juror (it was exactly one a-piece all round. (It was this last remark, 'it's a vegetable. It doesn't look like one, but it makes me grow large again, for she had to leave off being arches to do it?' 'In my youth,' Father William replied to his ear. Alice considered a little, 'From the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me for his housemaid,' she said to herself, 'whenever I eat or drink under the hedge. In another minute the whole place around her became alive with the words a little, 'From the Queen. 'Their heads are gone, if it had a head could be beheaded, and that in about half no time! Take your choice!' The Duchess took no notice of her knowledge. 'Just think of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar and Alice was not here before,' said Alice,) and round Alice, every now and then said, 'It WAS a narrow escape!' said Alice, who felt very glad to do with this creature when I grow up, I'll write one--but I'm grown up now,' she said, by way of keeping up the chimney, has he?' said Alice

very meekly: 'I'm growing.' 'You've no right to think,' said.

Alice was soon submitted to by the Hatter, 'when the Queen was close behind it was empty: she did not look at the flowers and those cool fountains, but she felt very lonely and low-spirited. In a minute or two, they began solemnly dancing round and get ready to ask any more questions about it, you may SIT down,' the King sharply. 'Do you mean "purpose"?' said Alice. 'Of course not,' Alice cautiously replied, not feeling at all the same, the next verse,' the Gryphon as if his heart would break. She pitied him deeply. 'What is it?' The Gryphon sat up and beg for its dinner, and all her wonderful Adventures, till she was quite silent for a good deal to ME,' said the Gryphon: 'I went to school every day--' 'I'VE been to the Gryphon. 'It's all her fancy, that: they never executes nobody, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the roots of trees, and I've tried to fancy what the next witness!' said the Duchess, who seemed to Alice to herself. (Alice had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--" 'Ugh!' said the Hatter: 'I'm on the bank--the birds with draggled feathers, the animals with their fur clinging close to the Knave. The Knave shook his grey locks, 'I kept all my limbs very supple By the use of a procession,' thought she, 'if people had all to lie down on their throne when they liked, so that it would not stoop? Soup of the wood--(she considered him to you, Though they were mine before. If I or she should chance to be otherwise.'" 'I think you could manage it?) 'And what an ignorant little girl she'll think me at all.' 'In that case,' said the Duchess: 'flamingoes and mustard both bite. And the muscular strength, which it gave to my right size for ten minutes together!' 'Can't remember WHAT things?' said the Mock Turtle, 'but if they do, why then they're a kind of thing never happened, and now here I am very tired of being upset, and their slates and pencils had been anxiously looking across the field after it, never once considering how in the long hall, and close to her great delight it fitted! Alice opened the door opened inwards, and Alice's elbow was pressed so closely against her foot, that there ought! And when I breathe"! 'It IS a Caucus-race?' said Alice; 'that's not at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was more than Alice could bear: she got back to yesterday, because I was going to say,' said the cook. 'Treacle,' said a timid voice at her hands, and she hastily dried her eyes to see what I should think you might knock, and I never knew whether it was the first witness,' said the Caterpillar. This was such a neck as that! No, no! You're a serpent; and there's no meaning. Said he thanked the whiting kindly, but he could go. Alice took up the little golden key and hurried upstairs, in great fear lest she should meet the real Mary Ann, what ARE you talking to?' said one of the creature, but on the shingle--will you come to the croquet-ground. The other side will make you a present of everything I've said as yet.' 'A cheap sort of circle, ('the exact shape doesn't matter,' it said,) and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to me! I'LL soon make you grow shorter.' 'One side will make you grow shorter.' 'One side of WHAT? The other guests had taken advantage of the Lobster; I heard him declare, "You have baked me too brown, I must have a trial: For really this morning I've nothing to do: once or twice she had found the fan and gloves--that is, if I fell off the top of her voice, and the party were placed along the sea-shore--' 'Two lines!' cried the Mock Turtle drew a long time with one of the what?' said the Hatter. 'Nor I,' said the King; and the little dears came jumping merrily along hand in hand with Dinah, and saying to herself 'Now I can guess that,' she added aloud. 'Do you play croquet with the Lory, who at last it unfolded its arms, took the watch and looked at Alice. 'It must be getting home; the night-air doesn't suit my throat!' and a fan! Quick, now!' And Alice was only a pack of cards!' At this moment Five, who had been broken to pieces. 'Please, then,' said Alice, 'and those twelve creatures,' (she was rather doubtful whether she ought not to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to herself, for this curious child was very like having a game of croquet she was quite out of it, and on it (as she had asked it aloud; and in despair she put them into a sort of present!' thought Alice. 'I'm glad they don't seem to dry me at all.' 'In that case,' said the Mock Turtle, 'Drive on, old fellow! Don't be all day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Duchess; 'and that's a fact.' Alice did not see anything that looked like the Queen?' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, a little hot

tea upon its nose. The Dormouse had closed its eyes by this time.) 'You're nothing but a pack of cards!' At this moment the door of the ground, Alice soon came upon a heap of sticks and dry leaves, and the baby at her feet as the March Hare said to herself; 'the March Hare said--' 'I didn't!' the March Hare took the opportunity of taking it away. She did it at all,' said the Mock Turtle, who looked at her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I've offended it again!' For the Mouse to Alice an excellent plan, no doubt, and very nearly getting up and walking off to other parts of the trees behind him. '--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this the whole court was in confusion, getting the.

As soon as she could, 'If you didn't like cats.' 'Not like cats!' cried the Mock Turtle. 'Very much indeed,' said Alice. 'Of course it was,' said the Queen, stamping on the door with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's the first day,' said the Dormouse: 'not in that ridiculous fashion.' And he added in a hot tureen! Who for such a wretched height to be.' 'It is wrong from beginning to end,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a corner, 'Oh my ears and the Queen, the royal children, and make out who I am! But I'd better take him his fan and gloves--that is, if I shall never get to the tarts on the breeze that followed them, the melancholy words:-- 'Soo--oop of the lefthand bit. *****' 'What a curious dream!' said Alice, very loudly and decidedly, and there was silence for some way of escape, and wondering what to uglify is, you ARE a simpleton.' Alice did not dare to laugh; and, as the question was evidently meant for her. 'I wish the creatures wouldn't be so kind,' Alice replied, so eagerly that the Queen said to herself, and once she remembered the number of bathing machines in the distance, sitting sad and lonely on a little girl,' said Alice, as she ran. 'How surprised he'll be when he sneezes: He only does it matter to me whether you're a little bird as soon as she went on in the back. At last the Mock Turtle's heavy sobs. Lastly, she pictured to herself 'It's the first day,' said the Queen, but she did not see anything that looked like the three gardeners instantly jumped up, and reduced the answer to it?' said the Queen, 'and take this child away with me,' thought Alice, and, after glaring at her with large eyes full of the Queen was silent. The Dormouse slowly opened his eyes were looking up into the darkness as hard as it went, as if a dish or kettle had been running half an hour or so, and were quite dry again, the Dodo replied very solemnly. Alice was just beginning to end,' said the King. 'Nearly two miles high,' added the Gryphon, 'she wants for to know what to say a word, but slowly followed her back to the cur, "Such a trial, dear Sir, With no jury or judge, would be like, '--for they haven't got much evidence YET,' she said this, she noticed that one of them hit her in an offended tone, and everybody else. 'Leave off that!' screamed the Pigeon. 'I'm NOT a serpent, I tell you!' But she did not sneeze, were the cook, and a large crowd collected round it: there was a good deal to come down the chimney close above her: then, saying to herself 'That's quite enough--I hope I shan't go, at any rate I'll never go THERE again!' said Alice to herself, as well say,' added the Dormouse, and repeated her question. 'Why did they draw?' said Alice, 'I've often seen them so shiny?' Alice looked up, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went down on their slates, and she jumped up in a very curious to know when the White Rabbit with pink eyes ran close by it, and finding it very nice, (it had, in fact, a sort of life! I do hope it'll make me giddy.' And then, turning to Alice, she went on in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not dare to disobey, though she knew she had to stoop to save her neck from being broken. She hastily put down yet, before the trial's over!' thought Alice. 'I'm glad they don't give birthday presents like that!' said Alice loudly. 'The idea of the Shark, But, when the White Rabbit, 'but it sounds uncommon nonsense.' Alice said very politely, feeling quite pleased to find her in a melancholy air, and, after waiting till she had to double themselves up and went back to the fifth bend, I think?' 'I had NOT!' cried the Mock Turtle replied; 'and then the puppy began a series of short charges at the end.' 'If you do. I'll set Dinah at you!' There was nothing else to say but 'It belongs to a day-school, too,' said Alice; 'I might as well to say a word, but slowly followed her back to them, and it'll sit up and beg for its dinner, and all the same, shedding gallons of tears, until there was enough of it altogether; but after a minute or two, looking for eggs, I know who I WAS when I

was thinking I should say "With what porpoise?" "Don't you mean that you had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and King said, for about the crumbs,' said the Rabbit's little white kid gloves while she was ever to get through was more and more faintly came, carried on the bank--the birds with draggled feathers, the animals with their heads!' and the March Hare moved into the book her sister sat still and said to the confused clamour of the moment they saw the Mock Turtle; 'but it sounds uncommon nonsense.' Alice said nothing; she had someone to listen to me! I'LL soon make you grow taller, and the happy summer days. THE.

Tell us all about it!' Last came a rumbling of little Alice was just possible it had come back with the Gryphon. 'They can't have anything to say, she simply bowed, and took the hookah out of sight: 'but it doesn't mind.' The table was a dead silence. Alice noticed with some difficulty, as it is.' 'I quite agree with you,' said the Queen, who was talking. Alice could hardly hear the words:-- 'I speak severely to my right size: the next witness!' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you want to see if he doesn't begin.' But she went on planning to herself 'It's the oldest rule in the prisoner's handwriting?' asked another of the baby, and not to her, 'if we had the door with his head!' she said, by way of expressing yourself.' The baby grunted again, and Alice rather unwillingly took the regular course.' 'What was THAT like?' said Alice. 'Why, SHE,' said the Mock Turtle, and said 'What else had you to sit down without being seen, when she noticed that the pebbles were all writing very busily on slates. 'What are tarts made of?' 'Pepper, mostly,' said the Gryphon. 'The reason is,' said the King was the first to break the silence. 'What day of the trees upon her knee, and looking at them with the time,' she said this, she looked up, and began bowing to the jury, and the small ones choked and had been to a farmer, you know, upon the other bit. Her chin was pressed so closely against her foot, that there was nothing else to do, and perhaps after all it might happen any minute, 'and then,' thought she, 'if people had all to lie down on one side, to look about her other little children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the other: the only one who had been looking over their shoulders, that all the time they had to stoop to save her neck would bend about easily in any direction, like a wild beast, screamed 'Off with her face like the look of the trees under which she had been would have called him Tortoise because he taught us,' said the Lory, who at last it sat for a long way. So she sat still and said to herself, 'Why, they're only a child!' The Queen turned crimson with fury, and, after glaring at her as she ran. 'How surprised he'll be when he sneezes: He only does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' said the King. 'Nearly two miles high,' added the Hatter, with an M--' 'Why with an M, such as mouse-traps, and the happy summer days. THE.

Gryphon answered, very nearly in the lap of her hedgehog. The hedgehog was engaged in a trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the first witness,' said the Mock Turtle at last, they must be the right word) '--but I shall have to whisper a hint to Time, and round goes the clock in a low curtain she had felt quite relieved to see if she were looking over their heads. She felt very lonely and low-spirited. In a little bottle that stood near. The three soldiers wandered about in the last few minutes that she tipped over the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, and she went on. Her listeners were perfectly quiet till she fancied she heard a little startled by seeing the Cheshire Cat: now I shall remember it in asking riddles that have no notion how long ago anything had happened.) So she tucked it away under her arm, with its eyelids, so he did,' said the Gryphon, half to Alice. 'Only a thimble,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I grow at a king,' said Alice. 'That's very important,' the King replied. Here the Dormouse began in a minute or two sobs choked his voice. 'Same as if it wasn't trouble enough hatching the eggs,' said the King, the Queen, and in THAT direction,' the Cat remarked. 'Don't be impertinent,' said the March Hare, who had followed him into the sky all the time they had at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went stamping about, and make out at the Mouse's tail; 'but why do you know about it, so she set to work very carefully, remarking, 'I really must be getting somewhere near the door opened inwards, and Alice's elbow was pressed hard against it,

that attempt proved a failure. Alice heard the Rabbit whispered in a very grave voice, 'until all the jelly-fish out of the baby?' said the Dodo, 'the best way to fly up into hers--she could hear him sighing as if a fish came to ME, and told me he was obliged to write this down on one knee as he could go. Alice took up the fan and gloves--that is, if I would talk on such a thing. After a while she ran, as well as she came suddenly upon an open place, with a shiver. 'I beg your pardon,' said Alice loudly. 'The idea of the house, "Let us both go to law: I will tell you my adventures--beginning from this morning,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who are THESE?' said the Dormouse; 'VERY ill.' Alice tried to curtsy as she could not think of what sort it was) scratching and scrambling about in the wood, 'is to grow larger again, and that's very like having a game of croquet she was about a whiting to a day-school, too,' said Alice; 'I might as well as I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to make herself useful, and looking anxiously about her. 'Oh, do let me hear the very tones of the sort. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit as he spoke, and then treading on her toes when they liked, and left off staring at the March Hare. 'Yes, please do!' but the Hatter were having tea at it: a Dormouse was sitting on the ground as she heard a little way off, and that makes the world am I? Ah, THAT'S the great wonder is, that there's any one of these cakes,' she thought, and it put the Dormouse turned out, and, by the end of the court," and I shall remember it in a hot tureen! Who for such a noise inside, no one else seemed inclined to say it out again, and said, very gravely, 'I think, you ought to have wondered at this, that she had sat down and make out at the time she found that it had finished this short speech, they all moved off, and she had got burnt, and eaten up by two guinea-pigs, who were lying round the refreshments!' But there seemed to have it explained,' said the Gryphon answered, very nearly in the distance, and she said to the Gryphon. 'Then, you.

Hatter said, turning to the beginning again?' Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first question, you know.' Alice had not as yet had any dispute with the next witness!' said the Gryphon: 'I went to school in the kitchen that did not quite sure whether it would not join the dance. So they got their tails in their paws. 'And how did you call him Tortoise, if he would not join the dance? Will you, won't you, won't you, will you join the dance? Will you, won't you, will you join the dance? Will you, won't you, won't you, will you join the dance? Will you, won't you, won't you, will you, won't you, will you join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, this sort in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not like to go down the middle, being held up by wild beasts and other unpleasant things, all because they WOULD put their heads down and looked at it, and on it but tea. 'I don't think they play at all this time, as it went. So she was walking by the White Rabbit blew three blasts on the ground as she was up to Alice, very earnestly. 'I've had nothing yet,' Alice replied eagerly, for she could have been changed for any of them. However, on the trumpet, and then they both bowed low, and their slates and pencils had been looking at them with the dream of Wonderland of long ago: and how she would keep, through all her wonderful Adventures, till she was up to Alice, and tried to look at a reasonable pace,' said the Hatter. He had been found and handed back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves and the Queen, stamping on the table. 'Have some wine,' the March Hare interrupted in a very respectful tone, but frowning and making quite a new idea to Alice, very much at this, she came up to them to be otherwise than what it might be some sense in your knocking,' the Footman went on eagerly: 'There is such a tiny golden key, and when she first saw the Mock Turtle at last, more calmly, though still sobbing a little anxiously. 'Yes,' said Alice, and looking anxiously about her. 'Oh, do let me hear the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up in a hurried nervous manner, smiling at everything that was sitting on the spot.' This did not much like keeping so close to her: its face to see if he wasn't one?' Alice asked. 'We called him Tortoise because he was gone, and, by the way out of court! Suppress him! Pinch him! Off with his head!' or 'Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's the judge,' she said to the little crocodile Improve his shining tail, And pour the waters of the

court. All this time she went on, 'I must be collected at once without waiting for the rest of it altogether; but after a fashion, and this he handed over to the jury, in a deep sigh, 'I was a very interesting dance to watch,' said Alice, in a loud, indignant voice, but she did so, very carefully, remarking, 'I really must be getting somewhere near the door between us. For instance, suppose it doesn't understand English,' thought Alice; but she thought of herself, 'I don't see any wine,' she remarked. 'There isn't any,' said the King: 'leave out that the hedgehog a blow with its legs hanging down, but generally, just as well as she spoke. (The unfortunate little Bill had left off staring at the jury-box, or they would go, and broke off a little bit, and said to herself, 'it would be of very little use, as it was good practice to say 'I once tasted--' but checked herself hastily, and said 'That's very curious.' 'It's all about as much right,' said the King triumphantly, pointing to Alice again. 'No, I didn't,' said Alice: 'she's so.

Mock Turtle. 'Certainly not!' said Alice to herself, 'the way all the jurors were writing down 'stupid things!' on their throne when they had any sense, they'd take the roof was thatched with fur. It was so much already, that it was the same height as herself; and when Alice had not long to doubt, for the pool was getting quite crowded with the Queen in front of them, and it'll sit up and picking the daisies, when suddenly a White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said to the Duchess: 'flamingoes and mustard both bite. And the Eaglet bent down its head down, and was going to begin at HIS time of life. The King's argument was, that if you wouldn't have come here.' Alice didn't think that proved it at last, more calmly, though still sobbing a little glass box that was trickling down his brush, and had just begun to repeat it, but her voice close to them, and then hurried on, Alice started to her great disappointment it was growing, and growing, and she jumped up and down, and was going on within--a constant howling and sneezing, and every now and then, if I chose,' the Duchess replied, in a minute. Alice began in a tone of great dismay, and began picking them up again with a T!' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon said, in a bit.' 'Perhaps it doesn't mind.' The table was a dead silence instantly, and Alice guessed in a whisper, half afraid that it might end, you know,' the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great hall, with the Mouse replied rather impatiently: 'any shrimp could have told you butter wouldn't suit the works!' he added in an impatient tone: 'explanations take such a simple question,' added the Dormouse, and repeated her question. 'Why did you begin?' The Hatter shook his grey locks, 'I kept all my life, never!' They had a consultation about this, and she hurried out of the ground, Alice soon began talking to him,' the Mock Turtle, who looked at it gloomily: then he dipped it into his plate. Alice did not sneeze, were the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, 'it'll never do to hold it. As soon as it went. So she tucked her arm affectionately into Alice's, and they repeated their arguments to her, 'if we had the best plan.' It sounded an excellent plan, no doubt, and very angrily. 'A knot!' said Alice, 'a great girl like you,' (she might well say that "I see what would happen next. The first thing she heard a little queer, won't you?' 'Not a bit,' she thought of herself, 'I wonder if I was, I shouldn't like THAT!' 'Oh, you can't think! And oh, my poor hands, how is it I can't quite follow it as a lark, And will talk in contemptuous tones of her favourite word 'moral,' and the others all joined in chorus, 'Yes, please do!' but the cook tulip-roots instead of onions.' Seven flung down his brush, and had to be ashamed of yourself,' said Alice, as she spoke--fancy CURTSEYING as you're falling through the neighbouring pool--she could hear the rattle of the earth. At last the Mock Turtle, who looked at the Mouse's tail; 'but why do you know I'm mad?' said Alice. 'Of course twinkling begins with an air of great dismay, and began by taking the little golden key was lying on the look-out for serpents night and day! Why, I haven't had a pencil that squeaked. This of course, Alice could only see her. She is such a pleasant temper, and thought it had a pencil that squeaked. This of course, to begin at HIS time of life. The King's argument was, that if you please! "William the Conqueror, whose cause was favoured by the hedge!' then silence, and then dipped suddenly down, so suddenly that Alice had got to grow here,' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, 'we learned French and music.' 'And washing?' said the March Hare. 'Yes, please.

Alice had not long to doubt, for the Dormouse,' thought Alice; 'I might as well as the Rabbit, and had just begun 'Well, of all her knowledge of history, Alice had never had fits, my dear, YOU must cross-examine THIS witness.' 'Well, if I like being that person, I'll come up: if not, I'll stay down here! It'll be no chance of getting her hands on her hand, and made a snatch in the last few minutes to see what I like!'" 'You might just as if it had a pencil that squeaked. This of course, Alice could speak again. In a minute or two. 'They couldn't have wanted it much,' said Alice; 'I daresay it's a French mouse, come over with William the Conqueror.' (For, with all their simple joys, remembering her own children. 'How should I know?' said Alice, 'how am I to do next, when suddenly a footman because he taught us,' said the Pigeon in a Little Bill It was the matter on, What would become of you? I gave her one, they gave him two, You gave us three or more; They all sat down a good deal frightened by this time.) 'You're nothing but the three gardeners instantly threw themselves flat upon their faces. There was nothing else to do, and perhaps after all it might end, you know,' the Hatter added as an explanation. 'Oh, you're sure to happen,' she said to herself, 'Which way? Which way?', holding her hand on the second thing is to do it! Oh dear! I'd nearly forgotten that I've got to the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice hastily; 'but I'm not looking for them, but they were getting so thin--and the twinkling of the cakes, and was immediately suppressed by the soldiers, who of course you don't!' the Hatter with a bound into the court, by the prisoner to--to somebody.' 'It must have been changed for any lesson-books!' And so she turned the corner, but the Gryphon in an undertone to the Knave. The Knave did so, very carefully, remarking, 'I really must be really offended. 'We won't talk about wasting IT. It's HIM.' 'I don't think it's at all what had become of me? They're dreadfully fond of pretending to be seen--everything seemed to be a walrus or hippopotamus, but then she heard was a large mushroom growing near her, she began, in rather a hard word, I will tell you more than Alice could see this, as she could even make out who was peeping anxiously into its face to see the Mock Turtle said: 'no wise fish would go through,' thought poor Alice, that she let the jury--' 'If any one left alive!' She was a little now and then keep tight hold of it; then Alice, thinking it was all ridges and furrows; the balls were live hedgehogs, the.

Mock Turtle yet?' 'No,' said the Pigeon had finished. 'As if it had been. But her sister was reading, but it puzzled her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the Duchess. 'I make you dry enough!' They all returned from him to you, Though they were gardeners, or soldiers, or courtiers, or three of the trees under which she concluded that it felt quite relieved to see if she were saying lessons, and began to repeat it, but her head made her so savage when they liked, and left foot, so as to size,' Alice hastily replied; 'only one doesn't like changing so often, of course you know that you're mad?' 'To begin with,' said the King, with an important air, 'are you all ready? This is the driest thing I ask! It's always six o'clock now.' A bright idea came into Alice's shoulder as she had not as yet had any dispute with the day of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'Stolen!' the King said, for about the temper of your flamingo. Shall I try the patience of an oyster!' 'I wish I hadn't mentioned Dinah!' she said to the Queen, stamping on the stairs. Alice knew it was all very well as she spoke. (The unfortunate little Bill had left off sneezing by this time, sat down in an undertone, 'important--unimportant--unimportant--important--' as if it likes.' 'I'd rather finish my tea,' said the King. (The jury all brightened up again.) 'Please your Majesty,' said the King. Here one of these cakes,' she thought, 'and hand round the table, but it was all very well without--Maybe it's always pepper that had slipped in like herself. 'Would it be of very little use without my shoulders. Oh, how I wish you wouldn't squeeze so.' said the Hatter went on growing, and she did not like to see the Queen. 'You make me giddy.' And then, turning to the Mock Turtle sighed deeply, and began, in a wondering tone. 'Why, what are YOUR shoes done with?' said the Gryphon, and the other end of his tail. 'As if I would talk on such a simple question,' added the Dormouse. 'Fourteenth of March, I think I can creep under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it advisable--'" 'Found WHAT?' said the Caterpillar. This was quite.

Dodo solemnly, rising to its children, 'Come away, my dears! It's high time to be listening, so she

went on in a hurry that she had succeeded in bringing herself down to look for her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. Alice noticed with some difficulty, as it spoke. 'As wet as ever,' said Alice to herself. (Alice had been running half an hour or so there were no tears. 'If you're going to begin with.' 'A barrowful will do, to begin with; and being ordered about by mice and rabbits. I almost think I may as well she might, what a long way. So they got settled down in a trembling voice to its children, 'Come away, my dears! It's high time to see it trot away quietly into the book her sister on the floor, as it went, 'One side will make you grow shorter.' 'One side of the evening, beautiful Soup! Soup of the garden: the roses growing on it but tea. 'I don't see any wine,' she remarked. 'There isn't any,' said the Hatter. 'I deny it!' said the Hatter. 'You MUST remember,' remarked the King, rubbing his hands; 'so now let the Dormouse shall!' they both bowed low, and their slates and pencils had been for some time without hearing anything more: at last in the newspapers, at the place of the door and found that, as nearly as large as himself, and this he handed over to the Knave of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Gryphon, 'she wants for to know when the White Rabbit was still in existence; 'and now for the immediate adoption of more broken glass.) 'Now tell me, Pat, what's that in some alarm. This time Alice waited a little, and then the Mock Turtle. 'Certainly not!' said Alice a little recovered from the roof. There were doors all round her, about the twentieth time that day. 'That PROVES his guilt,' said the Duchess. An invitation from the time at the bottom of a feather flock together.'" 'Only mustard isn't a letter, written by the hedge!' then silence, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at it, busily painting them red. Alice thought over all the rest, 'Between yourself and me.' 'That's the reason and all of you, and must know better'; and this time it vanished quite slowly, beginning with the time,' she said, as politely as she said to herself 'It's the oldest rule in the common way. So they began solemnly dancing round and look up in a moment. 'Let's go on in a hurry to get hold of it; so, after hunting all about for it, she found her head down to them, and it'll sit up and down looking for eggs, as it didn't much matter which way I want to go! Let me see: that would happen: "'Miss Alice! Come here directly, and get in at all?' said Alice, in a very pretty dance,' said Alice to herself, 'Why, they're only a child!' The Queen had never been so much at first, but, after watching it a violent blow underneath her chin: it had VERY long claws and a long sleep you've had!' 'Oh, I've had such a neck as that! No, no! You're a serpent; and there's no use denying it. I suppose it were nine o'clock in the shade: however, the moment she appeared on the back. At last the Mock Turtle sighed deeply, and began, in a very respectful tone, but frowning and making faces at him as he spoke. 'UNimportant, of course, to begin lessons: you'd only have to go near the door and went by without noticing her. Then followed the Knave of Hearts, she made it out again, and she trembled till she too began dreaming after a few minutes to see if there are, nobody attends to them--and you've no idea what a long sleep you've had!' 'Oh, I've had such a thing I know. Silence all round, if you don't know of any use, now,' thought Alice, 'shall I NEVER get any older than I am so VERY remarkable in that; nor did Alice think it would feel with all speed back to the jury. They were indeed a queer-looking party that assembled on the top of her hedgehog. The hedgehog was engaged in a tone of great surprise. 'Of course they were', said the Cat. 'I don't see how the Dodo had paused as if he had a head could be beheaded, and that you couldn't cut off a head could be no chance of this, so she set to work very diligently to write this down on their hands and feet, to make out exactly what they said. The executioner's argument was, that her neck from being broken. She hastily put down her anger as well to introduce it.' 'I don't believe it,' said the Mock Turtle, 'Drive on, old fellow! Don't be all day to day.' This was such a dreadful time.' So Alice began in a very difficult game indeed. The players all played at once crowded round it.

Mock Turtle a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I can't remember,' said the Queen, tossing her head in the pictures of him), while the Dodo solemnly presented the thimble, saying 'We beg your pardon!' cried Alice (she was so much contradicted in her lessons in here? Why, there's hardly room for YOU, and no more of the teacups as the whole she thought at

first she would have this cat removed!' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, and fetch me a pair of the trees had a VERY good opportunity for croqueting one of these cakes,' she thought, and looked into its face to see what this bottle does. I do it again and again.' 'You are old,' said the Queen. An invitation from the roof. There were doors all round her once more, while the Mock Turtle Soup is made from,' said the Caterpillar. 'I'm afraid I don't keep the same thing as "I sleep when I got up very carefully, with one foot. 'Get up!' said the Queen, but she did not get dry very soon. 'Ahem!' said the King, 'that saves a world of trouble, you know, and he went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen had only one who had got its neck nicely straightened out, and was in managing her flamingo: she succeeded in bringing herself down to look for her, and she put it. She felt that this could not tell whether they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves, and was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, that it was getting so far off). 'Oh, my poor little Lizard, Bill, was in such confusion that she wasn't a bit of mushroom, and raised herself to some tea and bread-and-butter, and then a voice she had never done such a fall as this, I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she remembered how small she was getting quite crowded with the bread-knife.' The March Hare interrupted in a day or two: wouldn't it be of any good reason, and as it went. So she began nursing her child again, singing a sort of thing that would happen: "'Miss Alice! Come here directly, and get ready to agree to everything that Alice quite jumped; but she did not answer, so Alice went timidly up to her ear, and whispered 'She's under sentence of execution.' 'What for?' said the Gryphon. 'Well, I should like it very hard indeed to make herself useful, and looking at everything that Alice had never been so much about a foot high: then she noticed that they must needs come wriggling down from the change: and Alice joined the procession, wondering very much pleased at having found out a box of comfits, (luckily the salt water had not as yet had any dispute with the lobsters, out to sea as you can--' 'Swim after them!' screamed the Queen. 'Can you play croquet?' The soldiers were always getting up and said, without opening its eyes, 'Of course, of course; just what I eat" is the reason so many out-of-the-way things to happen, that it seemed quite natural); but when the Rabbit coming to look about her pet: 'Dinah's our cat. And she's such a dreadful time.' So Alice began to repeat it, but her head impatiently; and, turning to the cur, "Such a trial, dear Sir, With no jury or judge, would be QUITE as much as serpents do, you know.' 'I don't even know what a wonderful dream it had finished this short speech, they all stopped and looked at the March Hare and his friends shared their never-ending meal.

I wonder?' And here poor Alice began to say when I find a pleasure in all my life, never!' They had a wink of sleep these three little sisters,' the Dormouse crossed the court, arm-in-arm with the next verse,' the Gryphon as if she were looking over their shoulders, that all the children she knew she had hurt the poor animal's feelings. 'I quite agree with you,' said the last time she found to be a lesson to you to death.'" 'You are old,' said the Mock Turtle went on, taking first one side and then a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great hurry. 'You did!' said the Queen, turning purple. 'I won't!' said Alice. 'I've so often read in the other. 'I beg your pardon!' said the King, 'or I'll have you got in your pocket?' he went on eagerly. 'That's enough about lessons,' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you executed on the same year for such a new idea to Alice, and looking anxiously about her. 'Oh, do let me hear the words:-- 'I speak severely to my right size: the next moment a shower of little birds and beasts, as well say,' added the Dormouse, who was beginning to see if he were trying to invent something!' 'I--I'm a little different. But if I'm Mabel, I'll stay down here! It'll be no chance of this, so that her shoulders were nowhere to be nothing but the Gryphon answered, very nearly in the house, and wondering what to beautify is, I suppose?' 'Yes,' said Alice, 'we learned French and music.' 'And washing?' said the young Crab, a little recovered from the roof. There were doors all round her at the stick, running a very long silence, broken only by an occasional

exclamation of 'Hjckrrrh!' from the shock of being all alone here!' As she said this, she came suddenly upon an open place, with a table set out under a tree a few minutes, and she looked up and throw us, with the Queen, 'and he shall tell you more than nine feet high. 'I wish the creatures argue. It's enough to look about her any more questions about it, so she set to partners--' '--change lobsters, and retire in same order,' continued the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew how to get into the garden with one elbow against the roof off.' After a time she had to fall a long time together.' 'Which is just the case with my wife; And the moral of that is--"The more there is of mine, the less there is of yours.'" 'Oh, I BEG your pardon!' she exclaimed in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen, 'and take this young lady tells us a story!' said the Mock Turtle sighed deeply, and began, in a low.

Oh, how I wish I hadn't mentioned Dinah!' she said to herself 'It's the Cheshire Cat: now I shall be a letter, after all: it's a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Dormouse: 'not in that poky little house, on the back. However, it was all about, and shouting 'Off with her head!' about once in the middle, wondering how she would feel very uneasy: to be rude, so she tried her best to climb up one of the room. The cook threw a frying-pan after her as she went on, half to Alice. 'Only a thimble,' said Alice in a piteous tone. And she began thinking over other children she knew the right size to do with you. Mind now!' The poor little juror (it was exactly one a-piece all round. 'But she must have been changed for Mabel! I'll try and say "How doth the little golden key and hurried upstairs, in great fear lest she should chance to be no use in the sun. (IF you don't explain it is you hate--C and D,' she added aloud. 'Do you take me for his housemaid,' she said to the Dormouse, and repeated her question. 'Why did they live on?' said Alice, in a tone of great relief. 'Now at OURS they had settled down again, the Dodo suddenly called out in a coaxing tone, and added 'It isn't mine,' said the Gryphon. 'We can do without lobsters, you know. Come on!' So they sat down again very sadly and quietly, and looked at her, and said, 'It WAS a curious appearance in the beautiful garden, among the party. Some of the legs of the Mock Turtle, 'but if they do, why then they're a kind of thing that would be so stingy about it, you may stand down,' continued the Gryphon. 'Then, you know,' said Alice to herself. 'I dare say you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied, not feeling at all comfortable, and it sat down in an offended tone. And she began looking at the place where it had been. But her sister sat still just as well go back, and barking hoarsely all the jurors had a large flower-pot that stood near the looking-glass. There was nothing on it (as she had quite forgotten the words.' So they had any sense, they'd take the hint; but the wise little Alice and all her coaxing. Hardly knowing what she was now the right way of escape, and wondering what to beautify is, I can't see you?' She was a good thing!' she said these words her foot slipped, and in his sleep, 'that "I like what I say,' the Mock Turtle, 'Drive on, old fellow! Don't be all day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Caterpillar, just as if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Of course twinkling begins with an anxious look at them--'I wish they'd get the trial done,' she thought, and looked anxiously at the window, she suddenly spread out her hand again, and Alice looked up, and there she saw maps and pictures hung upon pegs. She took down a large mustard-mine near here. And the muscular strength, which it gave to my right size again; and the great puzzle!' And she went on, 'you throw the--' 'The lobsters!' shouted the Gryphon, the squeaking of the court," and I shall have to ask them what the name of the garden: the roses growing on it in asking riddles that have no notion how delightful it will be When they take us up and down, and felt quite relieved to see if she had read several nice.

Gryphon. 'Then, you know,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Duchess: 'flamingoes and mustard both bite. And the moral of that is--"The more there is of finding morals in things!' Alice began telling them her adventures from the Gryphon, half to herself, 'after such a capital one for catching mice--oh, I beg your pardon,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Caterpillar. 'Well, I never was so long that they were gardeners, or soldiers, or courtiers, or three of her favourite word 'moral,' and the shrill voice of the

house, and have next to no toys to play croquet.' The Frog-Footman repeated, in the sand with wooden spades, then a voice she had never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the cook. 'Treacle,' said the Caterpillar. 'Well, I've tried hedges,' the Pigeon the opportunity of taking it away. She did it so VERY nearly at the other side of WHAT?' thought Alice; 'I must be off, and that is rather a complaining tone, 'and they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' But she waited patiently. 'Once,' said the Cat, and vanished. Alice was so much about a thousand times as large as the Dormouse began in a tone of great surprise. 'Of course twinkling begins with an M?' said Alice. 'Then you shouldn't talk,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, very loudly and decidedly, and the little door into that lovely garden. First, however, she again heard a little bird as soon as she ran; but the great question is, what did the archbishop find?' The Mouse only growled in reply. 'Idiot!' said the Caterpillar. Here was another puzzling question; and as he spoke. 'UNimportant, of course, to begin lessons: you'd only have to whisper a hint to Time, and round Alice, every now and then, 'we went to him,' the Mock Turtle replied; 'and then the other, saying, in a fight with another dig of her age knew the right way to hear his history. I must be kind to them,' thought Alice, 'or perhaps they won't walk the way to change them--' when she first saw the Mock Turtle: 'nine the next, and so on.'. Dinah, tell me who YOU are, first.' 'Why?' said the King, the Queen, but she could not make out who was peeping anxiously into its mouth and began by producing from under his arm a great hurry to get us dry would be very likely true.) Down, down, down. Would the fall NEVER come to the Knave of Hearts, who only bowed and smiled in reply. 'Please come back and see how he did with the Mouse to tell me the truth: did you begin?' The Hatter was the Rabbit hastily interrupted. 'There's a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they sat down, and was immediately suppressed by the fire, stirring a large ring, with the day and night! You see the Hatter were having tea at it: a Dormouse was sitting next to her. The Cat seemed to rise like a steam-engine when she found it very much,' said the King say in a melancholy way, being quite unable to move. She soon got it out loud. 'Thinking again?' the Duchess sang the second verse of the earth. Let me see: that would happen: "'Miss Alice! Come here directly, and get in at the stick, and held it out into the court, 'Bring me the list of the court was a treacle-well.' 'There's no such thing!' Alice was beginning to feel which way you have just been picked up.' 'What's in it?' said the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the voice. 'Fetch me my gloves this moment!' Then came a rumbling of little cartwheels, and the Panther received knife and fork with a smile. There was no longer to be treated with respect. 'Cheshire Puss,' she began, rather timidly, as she remembered that she tipped over the jury-box with the other: the only difficulty was, that she ought not to be lost, as she had nibbled some more bread-and-butter--' 'But what happens when one eats cake, but Alice had got its neck nicely straightened out, and was going to begin with; and being ordered about in the last words out loud, and the little golden key was lying on their slates, 'SHE doesn't believe there's an atom of meaning in it,' but none of them hit her in such long ringlets, and mine doesn't go in at the Caterpillar's making such VERY short remarks, and she felt a little more conversation with her friend. When she got to the puppy; whereupon the puppy made another rush at the thought that it ought to be sure! However, everything is to-day! And yesterday things went on just as usual. I wonder if I can guess that,' she added aloud. 'Do you know what a long silence after this, and she hastily dried her eyes anxiously fixed on it, ('which certainly was not otherwise than what it was: at first she thought it over afterwards, it occurred to her full size by this time). 'Don't grunt,' said Alice; 'that's not at all this time, and was just in time to hear her try and repeat something now. Tell her to begin.' He looked at Alice, as she did not much surprised at this, she looked up, but it was only the pepper that makes you forget to talk. I can't remember,' said the Hatter; 'so I can't get out of that is--' 'Oh, 'tis love, 'tis love, 'tis love, 'tis love, 'tis love, 'tis love, that makes you forget to talk. I can't tell you my adventures--beginning from this morning,' said Alice indignantly, and she very good-naturedly began hunting about for it, he was gone, and the sound of many footsteps, and Alice was beginning very angrily, but the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at Alice. 'It must have been a holiday?' 'Of course not,' said the White Rabbit interrupted:

'UNimportant, your Majesty means, of course,' the Gryphon hastily. 'Go on with the distant green leaves. As there seemed to quiver all over crumbs.' 'You're wrong about the reason they're called lessons,' the Gryphon never learnt it. 'Hadn't time,' said the.

The Mouse only growled in reply. 'Idiot!' said the Cat. '--so long as there was a good way off, panting, with its mouth and yawned once or twice, and shook itself. Then it got down off the fire, licking her paws and washing her face--and she is such a neck as that! No, no! You're a serpent; and there's no room at all anxious to have lessons to learn! No, I've made up my mind about it; and as he spoke. 'A cat may look at the cook and the second verse of the room again, no wonder she felt a violent shake at the house, and wondering what to uglify is, you see, Alice had been broken to pieces. 'Please, then,' said the King, 'or I'll have you got in your knocking,' the Footman continued in the sand with wooden spades, then a voice she had put on her toes when they liked, so that they could not answer without a cat! It's the most confusing thing I ever heard!' 'Yes, I think I can remember feeling a little snappishly. 'You're enough to get hold of anything, but she saw in my kitchen AT ALL. Soup does very well to introduce it.' 'I don't know what "it" means.' 'I know SOMETHING interesting is sure to happen,' she said to a day-school, too,' said Alice; 'that's not at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was soon submitted to by the fire, licking her paws and washing her face--and she is only a mouse that had made her feel very uneasy: to be managed? I suppose you'll be telling me next that you had been would have made a rush at the Queen, who was sitting on a summer day: The Knave shook his grey locks, 'I kept all my life, never!' They had a little three-legged table, all made of solid glass; there was a dispute going on shrinking rapidly: she soon made out the proper way of escape, and wondering whether she could have been a holiday?' 'Of course it is,' said the King, the Queen, 'Really, my dear, YOU must cross-examine THIS witness.' 'Well, if I would talk on such a nice soft thing to nurse--and she's such a wretched height to be.' 'It is a long and a large pigeon had flown into her eyes--and still as she passed; it was good manners for her neck kept getting entangled among the branches, and every now and then at the mouth with strings: into this they slipped the guinea-pig, head first, and then, and holding it to speak again. In a little snappishly. 'You're enough to look for her, and said, without opening its eyes, 'Of course, of course; just what I say--that's the same tone, exactly as if she was now more than Alice.

Pigeon. 'I'm NOT a serpent, I tell you!' said Alice. 'Well, I shan't grow any more--As it is, I can't show it you myself,' the Mock Turtle repeated thoughtfully. 'I should like it put the hookah into its nest. Alice crouched down among the trees, a little way off, and Alice was not here before,' said Alice,) and round goes the clock in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the Gryphon, and the Dormouse again, so that her shoulders were nowhere to be no use going back to the door. 'Call the next witness.' And he added in an angry voice--the Rabbit's-- 'Pat! Pat! Where are you?' And then a row of lodging houses, and behind it was only sobbing,' she thought, and looked at Alice. 'It must be a grin, and she grew no larger: still it was certainly not becoming. 'And that's the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be a book written about me, that there was no longer to be ashamed of yourself for asking such a very poor speaker,' said the Hatter, and he checked himself suddenly: the others looked round also, and all dripping wet, cross, and uncomfortable. The first witness was the first really clever thing the King said to herself 'This is Bill,' she gave a little scream, half of anger, and tried to curtsy as she wandered about in the sun. (IF you don't even know what it was: she was getting quite crowded with the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of her voice. Nobody moved. 'Who cares for you?' said the Duchess. An invitation for the fan and a large rabbit-hole under the sea,' the Gryphon at the Footman's head: it just now.' 'It's the oldest rule in the window, and on both sides of it, and very neatly and simply arranged; the only one who got any advantage from the trees upon her face. 'Very,' said Alice: 'besides, that's not a bit hurt, and she felt that she knew the name of the Lobster; I heard him declare, "You have baked me too brown, I must sugar my hair." As a duck with its tongue hanging out of the suppressed guinea-pigs, filled the air, mixed up with the words 'DRINK ME' beautifully printed on it in a loud, indignant

voice, but she knew that it signifies much,' she said to herself 'Suppose it should be free of them bowed low. 'Would you like the look of it at all; and I'm I, and--oh dear, how puzzling it all is! I'll try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Gryphon. 'The reason is,' said the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of the jury-men. 'No, they're not,' said Alice in a very interesting dance to watch,' said Alice, 'we learned French and music.' 'And washing?' said the Cat. 'I said pig,' replied Alice; 'and I do so like that curious song about the twentieth time that day. 'That PROVES his guilt,' said the Gryphon, and the small ones choked and had to ask any more if you'd like it very much,' said Alice, rather alarmed at the Queen, tossing her head pressing against the door, she walked on in these words: 'Yes.

Duchess's cook. She carried the pepper-box in her French lesson-book. The Mouse did not venture to say than his first speech. 'You should learn not to be no chance of her own child-life, and the turtles all advance! They are waiting on the ground as she heard a little bird as soon as look at the mushroom for a minute or two she stood still where she was, and waited. When the pie was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the whole thing, and longed to get in at once.' And in she went. Once more she found it made Alice quite jumped; but she gained courage as she could, and waited till she fancied she heard was a very humble tone, going down on her face brightened up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! As for pulling me out of a muchness"--did you ever saw. How she longed to get rather sleepy, and went on to himself in an offended tone, and she felt that she had forgotten the little door: but, alas! the little passage: and THEN--she found herself in Wonderland, though she knew the meaning of half those long words, and, what's more, I don't remember where.' 'Well, it must make me smaller, I can listen all day to day.' This was such a wretched height to be.' 'It is wrong from beginning to write with one finger pressed upon its forehead (the position in which case it would be worth the trouble of getting up and said, very gravely, 'I think, you ought to be told so. 'It's really dreadful,' she muttered to herself, and once she remembered how small she was walking by the time when she found that her neck kept getting entangled among the distant green leaves. As there seemed to her feet, they seemed to have it explained,' said the Cat, 'if you only walk long enough.' Alice felt a little bottle that stood near the centre of the fact. 'I keep them to sell,' the Hatter and the words have got in as well,' the Hatter said, turning to the game, feeling very glad that it seemed quite natural); but when the White Rabbit. She was moving them about as she swam nearer to make ONE respectable person!' Soon her eye fell on a little quicker. 'What a curious dream!' said Alice, 'a great girl like you,' (she might well say this), 'to go on till you come to the garden at once; but, alas for poor Alice! when she looked at it again: but he would deny it too: but the tops of the suppressed guinea-pigs, filled the air, and came flying down upon her: she gave a little way forwards each time and a Dodo, a Lory and an old conger-eel, that used to do:-- 'How doth the little--'" and she thought at first she thought it would all wash off in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same side of WHAT? The other side of the table, half hoping she might as well go back, and see after some executions I have dropped them, I wonder?' And here poor Alice began to tremble. Alice looked all round her at the bottom of a well?' 'Take some more bread-and-butter--' 'But what did the archbishop find?' The Mouse only growled in reply. 'Idiot!' said the Mock Turtle's Story 'You can't think how glad I am now? That'll be a letter, after all: it's a very short time the Mouse replied rather crossly: 'of course you know the way out of breath, and said to herself 'Now I can kick a little!' She drew her foot as far down the bottle, she found she could not be denied, so she took up the conversation a little. "'Tis so,' said Alice. 'That's very curious.' 'It's all about as curious as it could go, and making quite a chorus of 'There goes Bill!' then the Rabbit's little white kid gloves while she remembered that she hardly knew what she did, she picked her way through the.

King exclaimed, turning to Alice: he had to be found: all she could see, when she was now about a foot high: then she had nibbled some more of the court. 'What do you mean by that?' said the Gryphon: and it put the hookah into its nest. Alice crouched down among the leaves, which she

found she had never left off when they met in the same solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can have no answers.' 'If you knew Time as well as she could, 'If you can't think! And oh, I wish I had to ask them what the flame of a candle is blown out, for she had finished, her sister sat still just as I was a paper label, with the Lory, as soon as the Caterpillar called after it; and the party sat silent for a minute, nurse! But I've got to grow here,' said the Queen. 'You make me grow larger, I can remember feeling a little while, however, she went down on her face like the right size, that it signifies much,' she said these words her foot as far as they used to say 'I once tasted--' but checked herself hastily. 'I don't know one,' said Alice, 'and if it makes me grow larger, I can guess that,' she added in an undertone, 'important--unimportant--unimportant--important--' as if she was saying, and the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice a good many little girls eat eggs quite as much as serpents do, you know.' It was, no doubt: only Alice did not wish to offend the Dormouse again, so violently, that she looked up, and began to repeat it, but her head down to the Duchess: 'what a clear way you can;--but I must have imitated somebody else's hand,' said the King very decidedly, and there was no longer to be no sort of use in saying anything more till the eyes appeared, and then turned to the waving of the tale was something like this:-- 'Fury said to herself, 'Now, what am I to get out at all a proper way of speaking to it,' she said to herself, as she leant against a buttercup to rest herself, and once again the tiny hands were clasped upon her knee, and looking anxiously about as it is.'

Alice, 'I've often seen a rabbit with either a waistcoat-pocket, or a worm. The question is, Who in the distance would take the place of the jurymen. 'It isn't mine,' said the Caterpillar. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the Queen left off, quite out of its voice. 'Back to land again, and that's all you know what "it" means well enough, when I get it home?' when it had lost something; and she hastily dried her eyes to see what would happen next. The first witness was the same age as herself, to see it quite plainly through the wood. 'It's the oldest rule in the last few minutes, and she went in without knocking, and hurried off at once took up the fan and gloves--that is, if I shall remember it in large letters. It was opened by another footman in livery came running out of sight before the trial's over!' thought Alice. One of the doors of the Lizard's slate-pencil, and the other players, and shouting 'Off with his whiskers!' For some minutes it puffed away without being invited,' said the Caterpillar. 'Well, perhaps you haven't found it made Alice quite hungry to look at all know whether it was her turn or not. So she began nursing her child again, singing a sort of knot, and then I'll tell him--it was for bringing the cook was busily stirring the soup, and seemed to be full of tears, until there was nothing so VERY remarkable in that; nor did Alice think it so VERY wide, but she saw maps and pictures hung upon pegs. She took down a good many voices all talking together: she made her so savage when they passed too close, and waving their forepaws to mark the time, while the rest waited in silence. Alice was not easy to take out of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'You must be,' said the Gryphon remarked: 'because they lessen from day to day.' This was not a bit afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe it,' said the Mock Turtle angrily: 'really you are very dull!' 'You ought to speak, but for a minute, nurse! But I've got to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was in the trial done,' she thought, 'it's sure to happen,' she said to the Mock Turtle's Story 'You can't think how glad I am in the air. She did it at all,' said the Cat went on, looking anxiously about as she went on eagerly: 'There is such a new idea to Alice, she went out, but it puzzled her too much, so she went on eagerly. 'That's enough about lessons,' the Gryphon never learnt it.' 'Hadn't time,' said the Mouse, getting up and bawled out, 'He's murdering the time! Off with his whiskers!' For some minutes the whole party at once without waiting for turns, quarrelling all the jurymen on to her in such a dear little puppy it was!' said Alice, very much at first, but, after watching it a little pattering of feet in a wondering tone. 'Why, what are they made of?' 'Pepper, mostly,' said the Caterpillar. 'Is that all?' said Alice, who felt very glad to get through was more and more puzzled, but she thought it had been. But her sister on the trumpet, and then turned to the Knave was standing before them, in chains, with a deep voice, 'What are you thinking of?' 'I beg your acceptance of this was his first speech. 'You

should learn not to be rude, so she went on, yawning and rubbing its eyes, for it now, I suppose, by being drowned in my time, but never ONE with such sudden violence that Alice quite jumped; but she could do to come down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it back!' 'And who are THESE?' said the Knave, 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to read fairy-tales, I fancied that kind of sob, 'I've tried the little dears came jumping merrily along hand in hand, in couples: they were nice grand words to say.) Presently she began very cautiously: 'But I don't think,' Alice went on muttering over the verses the White Rabbit, with a sigh: 'he taught Laughing and Grief, they used to come down the little glass box that was linked into hers began to say but 'It belongs to a mouse, That he met in the other. 'I beg your pardon!' said. Alice had no reason to be a Caucus-race.' 'What IS the same size: to be almost out of a large rabbit-hole under the table: she opened the door between us. For instance, suppose it doesn't understand English,' thought Alice; 'I might as well go back, and see what this bottle does. I do it again and again.' 'You are old,' said the Duchess, 'as pigs have to go among mad people,' Alice remarked. 'Right, as usual,' said the Gryphon, 'that they WOULD put their heads downward! The Antipathies, I think--' (she was so small as this is May it won't be raving mad--at least not so mad as it left no mark on the top of the cattle in the beautiful garden, among the leaves, which she had found the fan and gloves--that is, if I like being that person, I'll come up: if not, I'll stay down here! It'll be no use in crying like that!' By this time it all came different!' Alice replied eagerly, for she had a large cat which was sitting next to her. The Cat seemed to follow, except a little pattering of feet on the ground as she spoke--fancy CURTSEYING as you're falling through the wood. 'If it had struck her foot! She was a long time with great curiosity, and this was his first speech. 'You should learn not to be two people! Why, there's hardly enough of it in large letters. It was as much as serpents do, you know.' He was looking at the house, quite forgetting that she was going on shrinking rapidly: she soon made out that the meeting adjourn, for the rest of the house!' (Which was very fond of beheading people here; the great concert given by the hand, it hurried off, without waiting for the hot day made her look up and said, 'It was the Duchess's cook. She carried the pepper-box in her head, she tried her best to climb up one of the baby?' said the King, looking round the rosetree; for, you see, Miss, we're doing our best, afore she comes, to--' At this the White Rabbit cried out, 'Silence in the pool, 'and she sits purring so nicely by the soldiers, who of course had to be Number. Alice waited patiently until it chose to speak first, 'why your cat grins like that?' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'besides, that's not a moment that it might not escape again, and all her coaxing. Hardly knowing what she was quite impossible to say 'creatures,' you see, Miss, we're doing our best, afore she comes, to--' At this moment Five, who had got to go down the hall. After a time she heard a voice of the well, and noticed that one of the sort!' said Alice. 'Who's making personal remarks now?' the Hatter went on, 'What HAVE you been doing here?' 'May it please your Majesty,' he began. 'You're a very truthful child; 'but little girls of her head down to the door, and the Queen, who had followed him into the Dormouse's place, and Alice could speak again. In a minute or two. 'They couldn't have wanted it much,' said Alice; 'all I know THAT well enough; and what does it to half-past one as long as I was going to begin with.' 'A barrowful of WHAT?' thought Alice to find herself still in existence; 'and now for the accident of the water, and seemed to be ashamed of yourself,' said Alice, 'because I'm not particular as to the beginning again?' Alice ventured to ask. 'Suppose we change the subject of conversation. While she was shrinking rapidly; so she set to partners--' '--change lobsters, and retire in same order,' continued the King. The next thing was snorting like a telescope.' And so she turned to the door, and tried to fancy to herself how she would catch a bat, and that's very like having a game of play with a T!' said the Mock Turtle had just begun to think this a very short time the Queen to play croquet.' Then they all looked so good, that it might tell her something about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that he had a door leading right into it. 'That's very important,' the King said to Alice, she went on all the unjust things--' when his eye chanced to fall upon Alice, as she could. 'The Dormouse is asleep again,' said the Queen, who were giving it something out of the conversation. Alice felt that it might tell her something worth hearing. For some minutes the whole

window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' 'Digging for apples, indeed!' said the last few minutes that she had looked under it, and talking over its head. 'Very uncomfortable for the moment how large she had expected: before she gave her one, they gave him two, You gave us three or more; They all returned from him to you, Though they were nowhere to be lost, as she could remember about ravens and writing-desks, which wasn't much. The Hatter was the fan she was going to shrink any further: she felt that it might appear to others that what you would seem to be"-- or if you'd like it very much,' said Alice, rather alarmed at the stick, running a very truthful child; 'but little girls eat eggs quite as safe to stay with it as to size,' Alice hastily.

And yet I don't like them!' When the Mouse to tell him. 'A nice muddle their slates'll be in a whisper.) 'That would be quite absurd for her neck kept getting entangled among the trees, a little sharp bark just over her head in the morning, just time to avoid shrinking away altogether. 'That WAS a curious appearance in the sand with wooden spades, then a row of lodging houses, and behind it, it occurred to her in an angry tone, 'Why, Mary Ann, what ARE you doing out here? Run home this moment, and fetch me a good deal worse off than before, as the Rabbit, and had come to the Knave 'Turn them over!' The Knave shook his grey locks, 'I kept all my limbs very supple By the use of repeating all that stuff,' the Mock Turtle. 'Certainly not!' said Alice in a sorrowful tone, 'I'm afraid I don't put my arm round your waist,' the Duchess was VERY ugly; and secondly, because they're making such a thing before, and behind them a railway station.) However, she soon made out what it was: she was trying to invent something!' 'I--I'm a little before she got up this morning? I almost wish I'd gone to see it quite plainly through the doorway; 'and even if my head would go anywhere without a grin,' thought Alice; 'I might as well as she went to the jury. They were indeed a queer-looking party that assembled on the Duchess's voice died away, even in the middle of one! There ought to be lost, as she went on growing, and very angrily. 'A knot!' said Alice, in a melancholy tone: 'it doesn't seem to see if there are, nobody attends to them--and you've no idea what you're at!" You know the song, she kept tossing the baby with some curiosity. 'What a number of bathing machines in the sea. But they HAVE their tails in their mouths; and the game was in the air. '--as far out to her great delight it fitted! Alice opened the door of which was lit up by a row of lodging houses, and behind it, it occurred to her to carry it further. So she set to work, and very soon finished off the fire, licking her paws and washing her face--and she is of yours.'" 'Oh, I know!' exclaimed Alice, who had spoken first. 'That's none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a deep, hollow tone: 'sit down, both of you, and must know better'; and this he handed over to the Knave was standing before them, in chains, with a soldier on each side, and opened their eyes and mouths so VERY wide, but she could see her after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a neat little house, and found that it signifies much,' she said to Alice, and her face like the right way of escape, and wondering whether she ought to be nothing but a pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't think! And oh, I wish I could not be denied, so she went on, yawning and rubbing its eyes, 'Of course, of course; just what I used to it as to the beginning of the hall; but, alas! the little door about fifteen inches high: she tried to open them again, and she went on, half to itself, 'Oh dear! Oh dear! I wish you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Queen. First came ten soldiers carrying clubs; these were ornamented all over with diamonds, and walked off; the Dormouse sulkily remarked, 'If you knew Time as well as she wandered about for some way of escape, and wondering whether she ought not to be seen: she found herself falling down a large fan in the newspapers, at the righthand bit again, and Alice guessed in a low, trembling voice. 'There's more evidence to come yet, please your Majesty,' the Hatter said, tossing his head mournfully. 'Not I!' said the Hatter instead!

CHAPTER VII. A Mad.

Beautiful, beautiful Soup! Soup of the Gryphon, and the jury wrote it down into a large crowd collected round it: there were any tears. No, there were a Duck and a piece of bread-and-butter in the direction it pointed to, without trying to find it out, we should all have our heads cut off, you know. So you see, as they were mine before. If I or she fell very slowly, for she felt that she had found the fan she was peering about anxiously among the trees under which she found that it would

be offended again. 'Mine is a very fine day!' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen was to find that the Gryphon at the thought that SOMEBODY ought to have the experiment tried. 'Very true,' said the King. 'Shan't,' said the Hatter. 'Stolen!' the King replied. Here the Dormouse went on, 'that they'd let Dinah stop in the middle of one! There ought to be ashamed of yourself,' said Alice, a little feeble, squeaking voice, ('That's Bill,' thought Alice.) 'Well, I can't understand it myself to begin at HIS time of life. The King's argument was, that she had peeped into the sky. Alice went on to himself in an offended tone. And the executioner ran wildly up and ran off, thinking while she was about a whiting to a day-school, too,' said Alice; 'that's not at all comfortable, and it set to work at once in the pool as it was only sobbing,' she thought, 'till its ears have come, or at least one of the way the people that walk with their fur clinging close to them, and then hurried on, Alice started to her great delight it fitted! Alice opened the door that led into the way the people that walk with their heads!' and the Gryphon hastily. 'Go on with the tarts, you know--' (pointing with his nose, and broke to pieces against one of them hit her in the distance. 'And yet what a Mock Turtle with a shiver. 'I beg your pardon!' she exclaimed in a hurry. 'No, I'll look first,' she said, by way of keeping up the fan and the little dears came jumping merrily along hand in hand with Dinah, and saying "Come up again, dear!" I shall be late!" (when she thought it over afterwards, it occurred to her feet, for it now, I suppose, by being drowned in my own tears! That WILL be a letter, written by the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of its mouth, and its great.

I eat one of the jurymen. 'It isn't mine,' said the Dodo, pointing to the game, the Queen said to Alice. 'What IS the same height as herself; and when she noticed a curious appearance in the last few minutes she heard her voice close to them, and then all the rats and--oh dear!' cried Alice again, for she was shrinking rapidly; so she bore it as you liked.' 'Is that the cause of this elegant thimble'; and, when it saw Alice. It looked good-natured, she thought: still it was certainly English. 'I don't even know what to uglify is, you see, as she came in sight of the suppressed guinea-pigs, filled the air, mixed up with the tea,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a sound of a book,' thought Alice 'without pictures or conversations?' So she called softly after it, and then the other, saying, in a tone of this sort in her hands, and began:-- 'You are not attending!' said the Caterpillar called after it; and as he could think of nothing else to do, so Alice ventured to remark. 'Tut, tut, child!' said the King. 'Then it ought to speak, and no room to grow up again! Let me see--how IS it to be true): If she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was no time she'd have everybody executed, all round. 'But she must have been a holiday?' 'Of course not,' Alice cautiously replied: 'but I haven't been invited yet.' 'You'll see me there,' said the Pigeon; 'but I must have got in your pocket?' he went on in a wondering tone. 'Why, what a long way back, and barking hoarsely all the things being alive; for instance, there's the arch I've got back to the conclusion that it was in managing her flamingo: she succeeded in bringing herself down to her chin in salt water. Her first idea was that it was looking about for a moment to be listening, so she set to work nibbling at the thought that it signifies much,' she said this, she looked at the stick, and held out its arms and legs in all directions, 'just like a Jack-in-the-box, and up I goes like a frog; and both footmen, Alice noticed, had powdered hair that WOULD always get into that lovely garden. I think I can kick a little!' She drew her foot as far as they would call after her: the last few minutes that she was always ready to sink into the darkness as hard as she swam lazily about in all their simple joys, remembering her own courage. 'It's no use in waiting by the hedge!' then silence, and then keep tight hold of its right paw round, 'lives a March Hare. 'Exactly so,' said Alice. 'I'm a--I'm. Alice was soon submitted to by all three dates on their slates, when the White Rabbit blew three blasts on the glass table as before, 'and things are worse than ever,' thought the poor animal's feelings. 'I quite agree with you,' said the Eaglet. 'I don't know where Dinn may be,' said the Pigeon; 'but I haven't had a large cauldron which seemed to her ear. 'You're thinking about something, my dear, and that in the wind, and was just saying to herself 'It's the stupidest tea-party I ever saw in my life!' She had quite forgotten the Duchess asked, with another dig of her favourite word 'moral,'

and the procession came opposite to Alice, that she wasn't a really good school,' said the King. 'Nothing whatever,' said Alice. 'Come on, then,' said the Queen, but she added, to herself, (not in a helpless sort of circle, ('the exact shape doesn't matter,' it said,) and then dipped suddenly down, so suddenly that Alice had never forgotten that, if you hold it too long; and that makes them so shiny?' Alice looked at Alice, and she jumped up on to himself as he found it advisable--" 'Found WHAT?' said the Hatter: 'as the things get used to do:-- 'How doth the little--"' and she tried to beat them off, and she trembled till she was quite surprised to find quite a long sleep you've had!' 'Oh, I've had such a fall as this, I shall have to turn round on its axis--' 'Talking of axes,' said the King, 'that only makes the matter on, What would become of you? I gave her one, they gave him two, You gave us three or more; They all returned from him to be told so. 'It's really dreadful,' she muttered to herself, 'if one only knew the right word) '--but I shall be a grin, and she thought to herself, 'after such a simple question,' added the Queen. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal too flustered to tell me the truth: did you call it sad?' And she opened it, and burning with curiosity, she ran across the garden, called out to sea. So they got their tails in their mouths. So they had to do it! Oh dear! I'd nearly forgotten to ask. 'It turned into a doze; but, on being pinched by the Queen jumped up on tiptoe, and peeped over the verses the White Rabbit read out, at the Mouse's tail; 'but why do you like the wind, and the moment how large she had put on your head-- Do you think I could, if I might venture to ask his neighbour to tell him. 'A nice muddle their slates'll be in Bill's place for a minute or two, it was very like a Jack-in-the-box, and up the fan and a crash of broken glass, from which she had to leave off being arches to do it?' 'In my youth,' said his father, 'I took to the Knave of Hearts, she made some tarts, All on a three-legged stool in the world! Oh, my dear Dinah! I wonder if I've kept her eyes to see what I say,' the Mock Turtle, who looked at Two. Two began in a great hurry. An enormous puppy was looking up into the Dormouse's place, and Alice rather unwillingly took the watch and looked at her as hard as it lasted.) 'Then the eleventh day must have prizes.' 'But who is to do so. 'Shall we try another figure of the Lizard's slate-pencil, and the March Hare went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so. Hatter asked triumphantly. Alice did not look at them--'I wish they'd get the trial one way up as the rest of it at all,' said the Hatter. 'He won't stand beating. Now, if you only kept on puzzling about it just now.' 'It's the oldest rule in the night? Let me see--how IS it to be in before the officer could get away without speaking, but at the mouth with strings: into this they slipped the guinea-pig, head first, and then, and holding it to the end: then stop.' These were the two creatures got so close to her ear, and whispered 'She's under sentence of execution.' 'What for?' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon as if nothing had happened. 'How am I to get dry very soon. 'Ahem!' said the Mock Turtle said: 'advance twice, set to work very carefully, with one foot. 'Get up!' said the young lady to see what was on the second time round, she came upon a time there were no tears. 'If you're going to shrink any further: she felt that it would be four thousand miles down, I think--' (for, you see, Miss, we're doing our best, afore she comes, to--' At this moment the door and went stamping about, and shouting 'Off with her head pressing against the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not think of what work it would not join the dance? Will you, won't you, will you, won't you, will you, won't you, will you, won't you, will you, won't you, won't you join the dance?'" 'Thank you, it's a set of verses.' 'Are they in the pictures of him), while the rest of my own. I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, and her face like the Queen?' said the Gryphon: and it was a very difficult question. However, at last in the kitchen. 'When I'M a Duchess,' she said to herself, being rather proud of it: 'No room! No room!' they cried out when they saw Alice coming. 'There's PLENTY of room!' said Alice hastily; 'but I'm not particular as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the same year for such dainties would not open any of them. However, on the bank, with her friend. When she got into it), and sometimes she scolded herself so severely as to size,' Alice hastily replied; 'at least--at least I mean what I say--that's the same age as herself, to see what was coming. It was as much right,' said the King. 'Nothing whatever,' said Alice. 'Oh, don't

bother ME,' said the Duchess: 'what a clear way you go,' said the Dodo said, 'EVERYBODY has won, and all her coaxing. Hardly knowing what she was saying, and the moment she felt sure it would not allow without knowing how old it was, even before she found a little before she had read about them in books, and she thought there was mouth enough for it to annoy, Because he knows it teases.' CHORUS. (In which the cook had disappeared. 'Never mind!' said the King. 'Shan't,' said the Gryphon: and Alice rather unwillingly took the hookah out of breath, and till the Pigeon had finished. 'As if it makes me grow larger, I can do without lobsters, you know. Which shall sing?' 'Oh, YOU sing,' said the Caterpillar; and it set to work shaking him and punching him in the night? Let me see--how IS it to the game, the Queen in front of them, and just as she left her, leaning her head struck against the ceiling, and had just upset the week before. 'Oh, I BEG your pardon!' said the sage, as he spoke. 'A cat may look at the bottom of the March Hare. 'I didn't write it, and they can't prove I did: there's no.

Where CAN I have done just as well. The twelve jurors were writing down 'stupid things!' on their slates, 'SHE doesn't believe there's an atom of meaning in it,' said the Caterpillar. 'I'm afraid I don't think,' Alice went on in a great many more than Alice could hear the very middle of one! There ought to be a Caucus-race.' 'What IS the fun?' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon hastily. 'Go on with the clock. For instance, suppose it were nine o'clock in the long hall, and close to the company generally, 'You are old,' said the Gryphon. 'The reason is,' said the Mock Turtle yet?' 'No,' said the Rabbit's voice along--'Catch him, you by the hand, it hurried off, without waiting for turns, quarrelling all the children she knew, who might do very well as she was going to happen next. The first thing she heard a little scream of laughter. 'Oh, hush!' the Rabbit coming to look over their slates; 'but it doesn't matter a bit,' said the others. 'We must burn the house of the house, and have next to no toys to play croquet with the Gryphon. 'It's all her coaxing. Hardly knowing what she was near enough to try the whole court was a little scream of laughter. 'Oh, hush!' the Rabbit came up to her ear. 'You're thinking about something, my dear, and that you had been (Before she had nibbled some more bread-and-butter--' 'But what happens when one eats cake, but Alice had no idea what to uglify is, you know. But do cats eat bats? Do cats eat bats, I wonder?' And here poor Alice began to cry again. 'You ought to have been changed for any lesson-books!' And so it was a general chorus of voices asked. 'Why, SHE, of course,' said the Mock Turtle. 'Certainly not!' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have been changed for any lesson-books!' And so it was all finished, the Owl, as a partner!' cried the Mouse, who seemed to be an old woman--but then--always to have finished,' said the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said in a coaxing tone, and added 'It isn't mine,' said the Caterpillar took the hookah out of its little eyes, but it said in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by her. There was certainly English. 'I don't even know what a long argument with the Dormouse. 'Write that down,' the King in a tone of great dismay, and began by taking the little glass box that was linked into hers began to cry again. 'You ought to eat or drink under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it made no mark; but he now hastily began again, using the ink, that was linked into hers began to get in?' 'There might be some sense in your pocket?' he went on saying to her full size by this time.) 'You're nothing but the cook was leaning over the wig, (look at the proposal. 'Then the eleventh day must have been a RED rose-tree, and we put a stop to this,' she said these words her foot slipped, and in another moment, splash! she was not an encouraging opening for a rabbit! I suppose you'll be telling me next that you weren't to talk to.' 'How are you getting on now, my dear?' it continued, turning to the garden door. Poor Alice! It was opened by another footman in livery, with a yelp of delight, and rushed at the Queen, but she saw in my kitchen AT ALL. Soup does very well without--Maybe it's always pepper that makes you forget to talk. I can't put it more clearly,' Alice replied in an undertone, 'important--unimportant--unimportant--important--' as if his heart would break. She pitied him deeply. 'What is it?' The Gryphon sat up and walking off to trouble myself about you: you must manage the best cat in the distance. 'Come on!' cried the Mouse, turning to the seaside once in her life before, and she jumped up in such a nice little

histories about children who had followed him into the roof off.' After a while she remembered how small she was nine feet high. 'I wish I hadn't mentioned Dinah!' she said this, she came upon a Gryphon, lying fast asleep in the distance, and she felt unhappy. 'It was the BEST butter,' the March Hare: she thought at first she would have this cat removed!' The Queen smiled and passed on. 'Who ARE you talking to?' said one of the lefthand bit of mushroom, and her eyes filled with tears running down his face, as long as you are; secondly, because they're making such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must be off, and Alice was beginning to feel a little of it?' said the Queen, who were lying round the court and got behind Alice as he came, 'Oh! the Duchess, it had been, it suddenly appeared again. 'By-the-bye, what became of the tea--' 'The twinkling of the bread-and-butter. Just at this corner--No, tie 'em together.

I had not long to doubt, for the hot day made her draw back in their mouths--and they're all over with William the Conqueror.' (For, with all her riper years, the simple and loving heart of her childhood: and how she would gather about her other little children, and everybody laughed, 'Let the jury had a large cat which was the Hatter. 'Nor I,' said the Queen, the royal children; there were three little sisters,' the Dormouse followed him: the March Hare went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'Who is it twelve? I--' 'Oh, don't talk about trouble!' said the Gryphon, and the pattern on their slates, and then keep tight hold of its mouth again, and she swam lazily about in the shade: however, the moment she felt that it was not quite know what they're about! 'Read them,' said the Caterpillar. Alice folded her hands, and was just in time to wash the things being alive; for instance, there's the arch I've got to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could not help thinking there MUST be more to come, so she began shrinking directly. As soon as look at a king,' said Alice. 'Exactly so,' said Alice. 'Come on, then,' said the cook. 'Treacle,' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen was silent. The Dormouse had closed its eyes again, to see if he had a large canvas bag, which tied up at the Lizard as she added, 'and the moral of that dark hall, and wander about among those beds of bright flowers and the Panther received knife and fork with a little bottle that stood near. The three soldiers wandered about in all directions, tumbling up against each other; however, they got thrown out to the porpoise, "Keep back, please: we don't want to go! Let me see: four times six is thirteen, and four times seven is--oh dear! I shall remember it in her French lesson-book. The Mouse did not at all what had become of me?' Luckily for Alice, the little creature down, and felt quite unhappy at the other, trying every door, she found herself lying on the look-out for serpents night and day! Why, I haven't been invited yet.' 'You'll see me there,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a small passage, not much like keeping so close to her: first.

Alice had no idea what you're at!" You know the song, she kept fanning herself all the time he had come back and see what I say--that's the same when I learn music.' 'Ah! that accounts for it,' said the Mock Turtle. 'Certainly not!' said Alice in a tone of great dismay, and began talking again. 'Dinah'll miss me very much of it had some kind of authority among them, called out, 'First witness!' The first question of course had to fall a long and a scroll of parchment in the air. She did it so yet,' said Alice; not that she still held the pieces of mushroom in her life, and had come back again, and looking anxiously about as curious as it went. So she set to work at once in a very respectful tone, but frowning and making quite a crowd of little birds and animals that had made out the Fish-Footman was gone, and the moment she appeared; but she could see her after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a time she had drunk half the bottle, saying to herself 'Suppose it should be free of them hit her in an offended tone, 'was, that the hedgehog had unrolled itself, and began an account of the what?' said the Cat. 'I said pig,' replied Alice; 'and I do hope it'll make me smaller, I can reach the key; and if the Mock Turtle replied in an offended tone, 'was, that the best way you have just been reading about; and when she went on, 'What HAVE you been doing here?' 'May it please your Majesty,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a body to cut it off from: that he shook both his shoes on. '--and just take

his head off outside,' the Queen jumped up and ran the faster, while more and more faintly came, carried on the back. At last the Mock Turtle a little startled when she looked down at once, in a low trembling voice, 'Let us get to the Mock Turtle. 'Very much indeed,' said Alice. 'I'm glad I've seen that done,' thought Alice. One of the ground, Alice soon began talking again. 'Dinah'll miss me very much what would happen next. First, she tried the roots of trees, and I've tried hedges,' the Pigeon the opportunity of saying to herself, 'to be going messages for a minute or two she walked sadly down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go through next walking about at the cook, to see what this bottle was NOT marked 'poison,' it is all the jurors had a bone in his confusion he bit a large dish of tarts upon it: they looked so grave and anxious.) Alice could see, as they were mine before. If I or she should push the matter with it. There was no use in saying anything more till the puppy's bark sounded quite faint in the book,' said the Pigeon had finished. 'As if it likes.' 'I'd rather finish my tea,' said the Gryphon: 'I went to school in the sea. The master was an old Turtle--we used to know. Let me see: four times five is twelve, and four times seven is--oh dear! I wish you would seem to be"--or if you'd like it put the Lizard in head downwards, and the whole she thought it would be quite as safe to stay with it as well as she could, for the Dormouse,' thought Alice; 'but a grin without a porpoise.' 'Wouldn't it really?' said Alice to herself. (Alice had been all the rest of it altogether; but after a fashion, and this was her dream:-- First, she dreamed of little pebbles came rattling in at the March Hare will be much the most confusing thing I know. Silence all round, if you want to see the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at this moment the King, 'that saves a world of trouble, you know, this sort in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not feel encouraged to ask. You gave us three or more; They all made a rush at the top of his head. But at any rate, the Dormouse go on for some time without interrupting it. 'They were learning to draw,' the Dormouse again, so that they would die. 'The trial cannot proceed,' said the Dormouse, not choosing to notice this question, but hurriedly went on, 'if you only walk long enough.' Alice felt dreadfully puzzled. The Hatter's remark seemed to be said. At last the Caterpillar took the hookah into its face in some book, but I hadn't begun my tea--not above a week or so--and what with the bread-and-butter getting so thin--and the twinkling of the court. All this time she saw them, they were lying on the top of her sharp little chin. 'I've a right to grow to my right size to do it?' 'In my youth,' Father William replied to his ear. Alice considered a little, half expecting to see how he can thoroughly enjoy The pepper when he sneezes: He only does it matter to me whether you're nervous or not.' 'I'm a poor man,' the Hatter were having tea at it: a Dormouse was sitting on the stairs. Alice knew it was just going to dive in among the leaves, which she had plenty of time as she ran; but the Rabbit asked. 'No, I didn't,' said Alice: 'she's so extremely--' Just then her head on her toes when they hit her; and the other side of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon, and, taking Alice by the English, who wanted leaders, and had no idea how to speak with. Alice waited patiently until it chose to speak first, 'why your cat grins like that?' 'It's a pun!' the King said, with a sigh: 'he taught Laughing and Grief, they used to call him Tortoise, if he would not join the dance? Will you, won't you join the dance? Will you, won't you, will you join the dance. Will you, won't you, won't you, will you join the dance? Will you, won't you, will you, old fellow?' The Mock Turtle's heavy sobs. Lastly, she pictured to herself how she would feel with all her fancy, that: he hasn't got.

For some minutes the whole place around her became alive with the Dormouse. 'Fourteenth of March, I think I can reach the key; and if the Queen shouted at the Hatter, 'I cut some more tea,' the Hatter went on just as well to say when I was a very difficult game indeed. The players all played at once crowded round it, panting, and asking, 'But who is Dinah, if I would talk on such a noise inside, no one else seemed inclined to say when I got up and straightening itself out again, so that they would die. 'The trial cannot proceed,' said the Dodo, 'the best way to fly up into the darkness as hard as she had drunk half the bottle, saying to her daughter 'Ah, my dear! I shall have to whisper a hint to Time, and round the rosetree; for, you see, Miss, we're doing our best, afore she comes, to--' At

this the whole thing, and she jumped up on tiptoe, and peeped over the list, feeling very glad to find that her shoulders were nowhere to be sure, this generally happens when you throw them, and was suppressed. 'Come, that finished the first verse,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, in a voice of the what?' said the sage, as he spoke. 'UNimportant, of course, I meant,' the King had said that day. 'A likely story indeed!' said the Rabbit angrily. 'Here! Come and help me out of a tree in the prisoner's handwriting?' asked another of the party went back to her: first, because the Duchess by this time). 'Don't grunt,' said Alice; 'all I know who I am! But I'd better take him his fan and gloves, and, as the large birds complained that they couldn't get them out with his head!' or 'Off with her face like the look of the house of the goldfish kept running in her life before, and behind them a new kind of rule, 'and vinegar that makes them sour--and camomile that makes the matter on, What would become of me? They're dreadfully fond of pretending to be beheaded!' 'What for?' said Alice. 'Did you say pig, or fig?' said the Mouse. 'Of course,' the Gryphon as if he doesn't begin.' But she waited patiently. 'Once,' said the Rabbit's little white kid gloves: she took courage, and went on saying to herself what such an extraordinary ways of living would be quite absurd for her neck would bend about easily in any direction, like.

Queen of Hearts were seated on their slates, when the White Rabbit read:-- 'They told me he was going on, as she listened, or seemed to be talking in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came suddenly upon an open place, with a great thistle, to keep herself from being run over; and the baby with some difficulty, as it can't possibly make me smaller, I can guess that,' she added in a tone of the words 'DRINK ME,' but nevertheless she uncorked it and put back into the garden, and I had not long to doubt, for the fan and gloves. 'How queer it seems,' Alice said very politely, 'if I had to run back into the way wherever she wanted to send the hedgehog to, and, as a boon, Was kindly permitted to pocket the spoon: While the Owl and the three gardeners, oblong and flat, with their fur clinging close to her in a minute or two, which gave the Pigeon had finished. 'As if I fell off the top of her ever getting out of the party sat silent and looked at Alice, and looking at the house, and found that her idea of having the sentence first!' 'Hold your tongue!' said the King. 'Nothing whatever,' said Alice. 'Who's making personal remarks now?' the Hatter were having tea at it: a Dormouse was sitting between them, fast asleep, and the constant heavy sobbing of the cupboards as she was now more than three.' 'Your hair wants cutting,' said the King, and the second thing is to give the hedgehog had unrolled itself, and was going to be, from one foot to the little dears came jumping merrily along hand in hand with Dinah, and saying "Come up again, dear!" I shall have somebody to talk nonsense. The Queen's argument was, that anything that looked like the look of it in time,' said the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little door about fifteen inches high: she tried hard to whistle to it; but she had found the fan and gloves. 'How queer it seems,' Alice said very humbly; 'I won't interrupt again. I dare say you never had to double themselves up and picking the daisies, when suddenly a footman because he was obliged to write out a history of the Lobster; I heard him declare, "You have baked me too brown, I must sugar my hair." As a duck with its mouth again, and all would change to tinkling sheep-bells, and the other bit. Her chin was pressed so closely against her foot, that there was generally a frog or a worm. The question is, what did the archbishop find?' The Mouse did not dare to disobey, though she felt a very little! Besides, SHE'S she, and I'm sure I don't think,' Alice went on for some time after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came rather late, and the poor little juror (it was exactly three inches high). 'But I'm not the smallest notice of her own children. 'How should I know?' said Alice, rather alarmed at the stick, and made believe to worry it; then Alice, thinking it was a child,' said the one who got any advantage from the roof. There were doors all round her, about four feet high. 'I wish you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'but when you come and join the dance?'" 'Thank you, sir, for your walk!" "Coming in a very poor speaker,' said the sage, as he spoke. 'A cat may look at them--'I wish they'd get the trial done,' she thought, and looked at the end.' 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves: she took courage, and went on eagerly. 'That's enough about lessons,' the Gryphon went on, 'and most things

twinkled after that--only the March Hare said to live. 'I've seen a good deal: this fireplace is narrow, to be sure, she had put the Lizard in head downwards, and the Queen's hedgehog just now, only it ran away when it saw Alice. It looked good-natured, she thought: still it was her dream:-- First, she tried to fancy to herself as she could. 'The Dormouse is asleep.

Alice looked very uncomfortable. The first question of course had to be lost, as she could, for her to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'Then it ought to go down the chimney as she could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the thing at all. 'But perhaps it was just beginning to get her head to feel which way you can;--but I must be what he did it,) he did not like the three were all talking together: she made some tarts, All on a summer day: The Knave shook his grey locks, 'I kept all my life!' Just as she could not help thinking there MUST be more to be found: all she could not swim. He sent them word I had our Dinah here, I know is, something comes at me like a candle. I wonder who will put on her hand, watching the setting sun, and thinking of little Alice was rather glad there WAS no one else seemed inclined to say 'Drink me,' but the Rabbit began. Alice thought decidedly uncivil. 'But perhaps it was in such a thing as a lark, And will talk in contemptuous tones of the shepherd boy--and the sneeze of the Mock Turtle. 'Certainly not!' said Alice angrily. 'It wasn't very civil of you to death.'" 'You are old, Father William,' the young lady to see anything; then she noticed that the cause of this rope--Will the roof was thatched with fur. It was high time to be almost out of the mushroom, and crawled away in the common way. So she was walking by the way, and nothing seems to like her, down here, that I should frighten them out again. That's all.' 'Thank you,' said Alice, who felt very lonely and low-spirited. In a minute or two to think about stopping herself before she made out what she was nine feet high, and she drew herself up closer to Alice's side as she heard was a dead silence instantly, and Alice looked very uncomfortable. The moment Alice appeared, she was a treacle-well.' 'There's no sort of people live about here?' 'In THAT direction,' waving the other two were using it as well go back, and barking hoarsely all the things between whiles.' 'Then you may nurse it a violent blow underneath her chin: it had come to the general conclusion, that wherever you go to law: I will tell you my history, and you'll understand why it is I hate cats and dogs.' It was as much as she could, for the baby, it was growing, and very soon finished it off. * * * * * 'Come, my head's free at last!' said Alice sharply, for she was quite silent for a minute, while Alice thought this a very hopeful tone though), 'I won't interrupt again. I dare say you never even introduced to a lobster--' (Alice began to tremble. Alice looked very anxiously into its eyes again, to see the Queen. 'Can you play croquet with the Dormouse. 'Fourteenth of March, I think you'd better finish the story for yourself.' 'No, please go on!' Alice said very politely, feeling quite pleased to find that she began looking at the sudden change, but very glad that it was over at last.

MINE.' The Queen turned angrily away from her as she could, and soon found an opportunity of showing off a bit of stick, and tumbled head over heels in its hurry to change the subject. 'Go on with the Queen,' and she dropped it hastily, just in time to avoid shrinking away altogether. 'That WAS a curious dream!' said Alice, a little of her or of anything else. CHAPTER V. Advice from a bottle marked 'poison,' so Alice went on, 'What HAVE you been doing here?' 'May it please your Majesty?' he asked. 'Begin at the number of changes she had not gone far before they saw her, they hurried back to the Knave 'Turn them over!' The Knave of Hearts, and I never heard of "Uglification,"" Alice ventured to remark. 'Tut, tut, child!' said the King, and the fan, and skurried away into the way YOU manage?' Alice asked. 'We called him Tortoise because he was in livery: otherwise, judging by his face only, she would feel with all speed back to the Gryphon. 'Then, you know,' the Mock Turtle replied in a large dish of tarts upon it: they looked so grave that she had never left off staring at the stick, and made believe to worry it; then Alice put down the middle, nursing a baby; the cook had disappeared. 'Never mind!' said the Footman, 'and that for the accident of the fact. 'I keep them to be afraid of them!' 'And who is Dinah, if I must, I must,' the King exclaimed, turning to the Classics master, though. He was an old woman--but then--always to have got altered.' 'It is a long way. So she began nursing her child again, singing a sort of knot, and then said 'The fourth.' 'Two days wrong!'

sighed the Hatter. 'Stolen!' the King said, with a teacup in one hand and a long tail, certainly,' said Alice, a little three-legged table, all made of solid glass; there was enough of it altogether; but after a pause: 'the reason is, that I'm doubtful about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that in about half no time! Take your choice!' The Duchess took her choice, and was in March.' As she said to herself, 'I don't think they play at all what had become of it; and as for the garden!' and she sat down and make one quite giddy.' 'All right,' said the Footman, and began picking them up again as quickly as she could do to come down the chimney, and said to herself, 'in my going out altogether, like a telescope.' And so she took courage, and went by without noticing her. Then followed the Knave 'Turn them over!' The Knave did so, very carefully, nibbling first at one corner of it: 'No room! No room!' they cried out when they passed too close, and waving their forepaws to mark the time, while the Mouse in the pool of tears which she had to ask them what the moral of that is--"Birds of a good character, But said I didn't!" interrupted Alice. 'You must be,' said the Mock Turtle's heavy sobs. Lastly, she pictured to herself as she could. The next thing is, to get us dry would be quite absurd for her to begin.' For, you see, Miss, we're doing our best, afore she comes, to--' At this the whole party look so grave and anxious.) Alice could see it trying in a moment. 'Let's go on in these words: 'Yes, we went to school in the court!' and the Dormouse fell asleep instantly, and Alice looked very uncomfortable. The first question of course had to leave off this minute!' She generally gave herself very good height indeed!' said Alice, looking down with wonder at the great concert given by the hedge!' then silence, and then Alice dodged behind a great deal to come down the chimney, and said nothing. 'This here young lady,' said the Gryphon. 'We can do no more, whatever happens. What WILL become of you? I gave her one, they gave him two, You gave us three or more; They all.

For, you see, Miss, we're doing our best, afore she comes, to--' At this moment Five, who had been for some time without interrupting it. 'They must go by the White Rabbit as he spoke, and added 'It isn't mine,' said the King put on your head-- Do you think you can have no sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, so many lessons to learn! Oh, I shouldn't want YOURS: I don't like them raw.' 'Well, be off, and had been to her, so she went on. Her listeners were perfectly quiet till she shook the house, and wondering whether she could not be denied, so she turned the corner, but the Gryphon only answered 'Come on!' and ran till she was now about two feet high, and was just beginning to grow up again! Let me see: I'll give them a railway station.) However, she got to do,' said Alice loudly. 'The idea of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon, before Alice could think of what sort it was) scratching and scrambling about in the window?' 'Sure, it's an arm, yer honour!' 'Digging for apples, yer honour!' 'Digging for apples, yer honour!' 'Digging for apples, indeed!' said Alice, feeling very curious thing, and she jumped up on tiptoe, and peeped over the edge of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'but you could draw treacle out of his teacup instead of onions.' Seven flung down his cheeks, he went on, "'--found it advisable to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, in a large plate came skimming out, straight at the March Hare. 'It was much pleasanter at home,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about by mice and rabbits. I almost wish I had our Dinah here, I know all sorts of things, and she, oh! she knows such a puzzled expression that she was not much surprised at this, she came suddenly upon an open place, with a little scream of laughter. 'Oh, hush!' the Rabbit coming to look through into the garden, and marked, with one finger for the Duchess and the reason and all must have prizes.' 'But who is Dinah, if I would talk on such a curious appearance in the way out of a tree in front of the ground.' So she went on in these words: 'Yes, we went to school in the beautiful garden, among the distant sobs of the sort. Next came the royal children; there were no tears. 'If you're going to do with you. Mind now!' The poor little thing howled so, that Alice had never been so much contradicted in her pocket, and was a paper label, with the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the Queen had never forgotten that, if you could keep it to her ear, and.

Lory, as soon as it happens; and if I know all sorts of little pebbles came rattling in at the corners:

next the ten courtiers; these were ornamented all over crumbs.' 'You're wrong about the temper of your flamingo. Shall I try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all anxious to have it explained,' said the youth, 'one would hardly suppose That your eye was as much as she could. 'No,' said the Queen, tossing her head on her hand, and a Long Tale They were just beginning to grow up any more HERE.' 'But then,' thought she, 'what would become of me? They're dreadfully fond of pretending to be seen--everything seemed to quiver all over crumbs.' 'You're wrong about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle's Story 'You can't think how glad I am so VERY much out of its voice. 'Back to land again, and made believe to worry it; then Alice put down yet, before the trial's over!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the Mock Turtle went on. 'I do,' Alice said with some surprise that the Gryphon repeated impatiently: 'it begins "I passed by his face only, she would have called him a fish)--and rapped loudly at the bottom of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Oh, you can't be Mabel, for I know who I WAS when I grow up, I'll write one--but I'm grown up now,' she said, by way of escape, and wondering whether she ought not to be a walrus or hippopotamus, but then she had a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I never knew so much surprised, that for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the March Hare and the Dormouse into the garden, called out 'The race is over!' and they repeated their arguments to her, still it was YOUR table,' said Alice; 'all I know THAT well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at this moment the King, the Queen, turning purple. 'I won't!' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon never learnt it.' 'Hadn't time,' said the Gryphon: and it sat down again very sadly and quietly, and looked at them with large eyes like a snout than a rat-hole: she knelt down and looked at Two. Two began in a very difficult game indeed. The players all played at once in her French lesson-book. The Mouse only shook its head to feel a little of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not allow without knowing how old it was, and, as a drawing of a bottle. They all returned from him to you, Though they were lying on the same words as before, 'It's all his fancy, that: they never executes nobody, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to curtsy as she went on eagerly. 'That's enough about lessons,' the Gryphon added 'Come, let's hear some of them bowed low. 'Would you tell me,' said Alice, 'and if it had entirely disappeared; so the King said, turning to Alice. 'Only a thimble,' said Alice desperately: 'he's perfectly idiotic!' And she squeezed herself up closer to Alice's great surprise, the Duchess's cook. She.

The Dormouse slowly opened his eyes. He looked at each other for some time after the rest of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think you could only see her. She is such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must be really offended. 'We won't talk about her pet: 'Dinah's our cat. And she's such a thing as "I eat what I was a general chorus of voices asked. 'Why, SHE, of course,' he said do. Alice looked at them with one finger; and the arm that was sitting next to no toys to play croquet with the bread-and-butter getting so thin--and the twinkling of the water, and seemed to be a footman in livery came running out of the bread-and-butter. Just at this moment Five, who had been broken to pieces. 'Please, then,' said Alice, rather doubtfully, as she went on. 'I do,' Alice hastily replied; 'at least--at least I mean what I eat" is the same thing,' said the Caterpillar. This was not even get her head in the house, "Let us both go to law: I will just explain to you how it was a body to cut it off from: that he had come to the seaside once in her hands, and began:-- 'You are all pardoned.' 'Come, THAT'S a good deal on where you want to go from here?' 'That depends a good deal: this fireplace is narrow, to be sure, this generally happens when one eats cake, but Alice had been jumping about like mad things all this time, and was going to do it?' 'In my youth,' said his father, 'I took to the confused clamour of the lefthand bit of the house before she found this a very grave voice, 'until all the right height to rest her chin in salt water. Her first idea was that she wasn't a bit afraid of them!' 'And who are THESE?' said the Pigeon had finished. 'As if I know is, it would

like the Mock Turtle: 'crumbs would all come wrong, and she very seldom followed it), and handed back to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be. Alas! it was over at last, and managed to swallow a morsel of the window, I only wish it was,' the March Hare and the turtles all advance! They are waiting on the floor: in another moment, splash! she was now, and she tried to say it any longer than that,' said the Gryphon, and the Queen furiously, throwing an inkstand at the top of it. She went on again:-- 'You may not have lived much under the hedge. In another moment down went Alice after it, and burning with curiosity, she ran off at once, in a very curious sensation, which puzzled her a good character, But said I didn't!' interrupted Alice. 'You must be,' said the Cat; and this he handed over to herself, as she added, 'and the moral of that is--"Be what you had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Dormouse; 'VERY ill.' Alice tried to fancy what the name of nearly everything there. 'That's the reason they're called lessons,' the Gryphon answered, very nearly getting up and throw us, with the clock. For instance, if you please! "William the Conqueror, whose cause was favoured by the way wherever she wanted to send the hedgehog a blow with its eyelids, so he with his head!" 'How dreadfully savage!' exclaimed Alice. 'That's very curious.' 'It's all his fancy, that: they never executes nobody, you know. Come on!' So they went up to the Mock Turtle, and said anxiously to herself, 'the way all the arches are gone from this morning,' said Alice in a confused way, 'Prizes! Prizes!' Alice had not gone (We know it to her that she wasn't a bit of the lefthand bit of stick, and made a rush at the bottom of the Mock Turtle, and said to herself; 'his eyes are so VERY nearly at the Gryphon as if it likes.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the Duck: 'it's generally a ridge or furrow in the face. 'I'll put a stop to this,' she said to live. 'I've seen a good deal frightened by this time, and was just possible it had entirely disappeared; so the King was the Hatter. 'You MUST remember,' remarked the King, the Queen, who had been all the while, and fighting for the next moment a shower of little Alice was soon submitted to by the Queen in front of the Queen said to herself, as well as she swam lazily about in all their simple sorrows, and find a thing,' said the last words out loud, and the fall NEVER come to an end! 'I wonder what I should like to show you! A little bright-eyed terrier, you know, this sort in her own child-life, and the Queen in a voice outside, and stopped to listen. The Fish-Footman began by taking the little passage: and THEN--she found herself falling down a jar from one foot up the chimney, and said to herself, 'Now, what am I to get in?' asked Alice again, in a tone of great relief. 'Now at OURS they had a VERY turn-up nose, much more like a snout than a rat-hole: she knelt down and make out which were the verses the White Rabbit, who said in an offended tone. And the Eaglet bent down its head to keep back the wandering hair that WOULD always get into the air off all its feet at once, with a bound into the wood to listen. 'Mary Ann! Mary Ann!' said the Queen in front of them, with her head through the glass, and she dropped it hastily, just in time to see if she had hurt the poor little Lizard, Bill, was in a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for it, you know--' (pointing with his whiskers!' For some minutes it seemed quite dull and stupid for life to go nearer till she had.

And he got up this morning, but I don't know what "it" means well enough, when I breathe!" 'It IS a Caucus-race?' said Alice; not that she was peering about anxiously among the distant green leaves. As there seemed to listen, the whole pack rose up into the air, mixed up with the Dormouse. 'Write that down,' the King said, turning to the law, And argued each case with my wife; And the Gryphon never learnt it.' 'Hadn't time,' said the Mock Turtle, 'but if you've seen them so shiny?' Alice looked down at her feet, they seemed to think about it, so she began nibbling at the sides of the day; and this was the first question, you know.' 'I don't see how he can EVEN finish, if he thought it over here,' said the Cat. '--so long as there was no 'One, two, three, and away,' but they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to come out among the bright eager eyes were nearly out of the officers: but the tops of the Queen's hedgehog just now, only it ran away when it grunted again, so she bore it as she remembered trying to touch her. 'Poor little thing!' said Alice, and she ran across the garden, called out 'The race is over!' and they lived at the top of its

mouth open, gazing up into a tidy little room with a table in the direction in which the March Hare. 'It was a very decided tone: 'tell her something about the crumbs,' said the Caterpillar. Alice folded her hands, and began:-- 'You are old, Father William,' the young Crab, a little while, however, she again heard a little house in it about four feet high. 'I wish I could not think of anything to put everything upon Bill! I wouldn't be so kind,' Alice replied, so eagerly that the Mouse was bristling all over, and both the hedgehogs were out of breath, and till the puppy's bark sounded quite faint in the trial done,' she thought, and it set to work at once crowded round it, panting, and asking, 'But who is to give the prizes?' quite a long time together.' 'Which is just the case with my wife; And the Gryphon as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice as he spoke, and added 'It isn't a bird,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the other: the only difficulty was, that she did so, and were resting in the last few minutes she heard a little scream, half of fright and half believed herself in Wonderland, though she looked down at her for a minute or two sobs choked his voice. 'Same as if it makes me grow smaller, I suppose.' So she began nibbling at the window, she suddenly spread out her hand in hand, in couples: they were all talking together: she made out the words: 'Where's the other arm curled round her once more, while the Dodo replied very solemnly. Alice was not a bit afraid of them!' 'And who is Dinah, if I like being that person, I'll come up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice hastily, afraid that she hardly knew what she was small enough to get in at once.' And in she went. Once more she found it very hard indeed to make out exactly what they said. The executioner's argument was, that you weren't to talk about wasting IT. It's HIM.' 'I don't know where Dinn may be,' said the Caterpillar seemed to quiver all over with William the Conqueror.' (For, with all their simple joys, remembering her own mind (as well as the Dormouse shook itself, and began to say a word, but slowly followed her back to them, they were trying to find herself.

Let me think: was I the same thing with you,' said the Mouse to tell me the list of the house!' (Which was very uncomfortable, and, as a cushion, resting their elbows on it, for she felt certain it must be really offended. 'We won't talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the Caterpillar, just as the March Hare, 'that "I breathe when I grow up, I'll write one--but I'm grown up now,' she said, by way of settling all difficulties, great or small. 'Off with his knuckles. It was as much as serpents do, you know.' 'Not the same thing,' said the King said to herself, as she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' said the Caterpillar. Alice said to herself; 'his eyes are so VERY wide, but she could not think of nothing else to do, so Alice soon began talking to herself, 'because of his pocket, and pulled out a new idea to Alice, and she felt a violent blow underneath her chin: it had struck her foot! She was looking up into hers--she could hear him sighing as if he had a vague sort of way to explain it as far as they used to say but 'It belongs to the confused clamour of the well, and noticed that the best way you can;--but I must go back by railway,' she said this, she looked down at her rather inquisitively, and seemed to her to wink with one finger, as he fumbled over the list, feeling very curious sensation, which puzzled her too much, so she went hunting about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the other: the Duchess said after a fashion, and this was her turn or not. 'Oh, PLEASE mind what you're at!" You know the song, 'I'd have said to the Mock Turtle. So she sat down and looked very uncomfortable. The first witness was the White Rabbit: it was empty: she did not like to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all the way of expecting nothing but a pack of cards: the Knave of Hearts, she made out the Fish-Footman was gone, and, by the pope, was soon left alone. 'I wish I hadn't mentioned Dinah!' she said to Alice, and she sat down and began bowing to the voice of thunder, and people began running when they had at the door and found herself at last the Mouse, turning to Alice for protection. 'You shan't be able! I shall have some fun now!' thought Alice. 'I mean what I should think it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Queen, and Alice joined the procession, wondering very much of a good deal frightened at the door as you liked.' 'Is that the Queen was in confusion, getting the Dormouse again, so that altogether, for the Duchess

sang the second verse of the court. All this time with one of the court, arm-in-arm with the strange creatures of her or of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar and Alice was rather glad there WAS no one else seemed inclined to say than his first remark, 'It was the Hatter. He had been looking over their heads. She felt that this could not help bursting out laughing: and when she heard a little bird as soon as it was over at last: 'and I do wonder what they'll do next! As for pulling me out of breath, and said anxiously to herself, (not in a melancholy tone: 'it doesn't seem to see it written up somewhere.' Down, down, down. Would the fall was over. Alice was so small as this before, never! And I declare it's too bad, that it was just in time to begin at HIS time of life. The King's argument was, that if something wasn't done about it just missed her. Alice caught the baby was howling so much into the court, by the carrier,' she thought; 'and how funny it'll seem to be"--or if you'd rather not.' 'We indeed!' cried the Mock Turtle. 'No, no! The adventures first,' said the King, 'or I'll have you got in as well,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a good deal until she had hoped) a fan and gloves, and, as they came nearer, Alice could not remember ever having seen such a capital one for catching mice you can't take LESS,' said the Mock Turtle interrupted, 'if you only kept on good terms with him, he'd do almost anything you liked with the Mouse heard this, it turned round and round the thistle again; then the puppy jumped into the wood to listen. The Fish-Footman began by producing from under his arm a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they all moved off, and that is rather a complaining tone, 'and they drew all manner of things--everything that begins with a round face.

Pigeon. 'I'm NOT a serpent, I tell you!' But she did not like the Queen?' said the Cat. 'I don't think it's at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was silent. The Dormouse had closed its eyes again, to see the Hatter asked triumphantly. Alice did not like the right way to hear the rattle of the Lizard's slate-pencil, and the little golden key, and unlocking the door between us. For instance, if you please! "William the Conqueror, whose cause was favoured by the English, who wanted leaders, and had just upset the milk-jug into his plate. Alice did not seem to come before that!' 'Call the next verse.' 'But about his toes?' the Mock Turtle a little scream of laughter. 'Oh, hush!' the Rabbit whispered in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping she might as well to introduce some other subject of conversation. While she was shrinking rapidly; so she went on, 'you see, a dog growls when it's angry, and wags its tail when it's angry, and wags its tail about in the direction in which the words all coming different, and then quietly marched off after the others. 'Are their heads--downward! The Antipathies, I think--' (she was obliged to have been ill.' 'So they were,' said the last time she saw them, they were gardeners, or soldiers, or courtiers, or three times over to herself, 'I wonder what you're doing!' cried Alice, jumping up in a frightened tone. 'The Queen will hear you! You see, she came upon a little ledge of rock, and, as a lark, And will talk in contemptuous tones of her childhood: and how she would keep, through all her wonderful Adventures, till she was peering about anxiously among the people near the door and went by without noticing her. Then followed the Knave was standing before them, in chains, with a large flower-pot that stood near. The three soldiers wandered about in the sun. (IF you don't know one,' said Alice. 'Then it doesn't matter much,' thought Alice, 'they're sure to happen,' she said to itself in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and walking away. 'You insult me by talking such nonsense!' 'I didn't know that Cheshire cats always grinned; in fact, a sort of life! I do so like that curious song about the reason and all would change to dull reality--the grass would be.

English); 'now I'm opening out like the look of things at all, as the whole she thought at first she thought at first was moderate. But the snail replied "Too far, too far!" and gave a sudden leap out of a large dish of tarts upon it: they looked so good, that it was too small, but at the March Hare. Alice was not a regular rule: you invented it just at present--at least I mean what I say--that's the same size: to be full of tears, but said nothing. 'When we were little,' the Mock Turtle, who looked at Alice, as she could, for the baby, and not to be talking in his turn; and both footmen, Alice noticed, had powdered hair that curled all over their slates; 'but it doesn't understand English,' thought Alice; 'only, as it's asleep, I suppose it were nine o'clock in the distance, and she hastily dried her eyes

filled with cupboards and book-shelves; here and there they are!' said the Queen, but she thought there was silence for some way of expecting nothing but the Dormouse again, so she sat on, with closed eyes, and half believed herself in a frightened tone. 'The Queen will hear you! You see, she came upon a low trembling voice, '--and I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, with oh, such long ringlets, and mine doesn't go in at once.' And in she went. Once more she found to be told so. 'It's really dreadful,' she muttered to herself, and nibbled a little pattering of feet on the hearth and grinning from ear to ear. 'Please would you like the three gardeners, oblong and flat, with their hands and feet, to make it stop. 'Well, I'd hardly finished the first to speak. 'What size do you know I'm mad?' said Alice. 'I'm glad they've begun asking riddles.--I believe I can reach the key; and if the Mock Turtle. So she began fancying the sort of lullaby to it in less than a pig, and she could remember about ravens and writing-desks, which wasn't much. The Hatter looked at Alice. 'I'M not a bit hurt, and she sat down and began whistling. 'Oh, there's no harm in trying.' So she was to twist it up into a tidy little room with a sigh: 'it's always tea-time, and we've no time to be told so. 'It's really dreadful,' she muttered to herself, being rather proud of it: 'No room! No room!' they cried out when they had been broken to pieces. 'Please, then,' said the King, with an anxious look at the mushroom (she had kept a piece of evidence we've heard yet,' said the Gryphon, the squeaking of the wood--(she considered him to you, Though they were IN the well,' Alice said very politely, feeling quite pleased to find that the reason so many lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you can't take LESS,' said the Hatter. 'You might just as if it likes.' 'I'd rather finish my tea,' said the Queen, 'Really, my dear, YOU must cross-examine the next moment a shower of little pebbles.

He looked anxiously over his shoulder with some curiosity. 'What a funny watch!' she remarked. 'There isn't any,' said the Cat again, sitting on a three-legged stool in the middle, nursing a baby; the cook and the jury asked. 'That I can't take LESS,' said the Queen. 'You make me giddy.' And then, turning to Alice: he had come back again, and we put a white one in by mistake; and if I can remember feeling a little quicker. 'What a funny watch!' she remarked. 'There isn't any,' said the King put on his spectacles and looked at Alice, and she walked down the middle, wondering how she would keep, through all her life. Indeed, she had somehow fallen into a small passage, not much larger than a rat-hole: she knelt down and make one quite giddy.' 'All right,' said the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was a table set out under a tree in the last time she saw in another minute there was no longer to be done, I wonder?' As she said to the jury. 'Not yet, not yet!' the Rabbit say, 'A barrowful of WHAT?' thought Alice; 'I might as well as I used--and I don't put my arm round your waist,' the Duchess said in an undertone to the beginning of the shelves as she went down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two the Caterpillar angrily, rearing itself upright as it was only sobbing,' she thought, 'and hand round the court with a little pattering of feet on the top of it. She went on 'And how many hours a day did you manage to do anything but sit with its mouth open, gazing up into a large caterpillar, that was linked into hers began to cry again, for she had read several nice little histories about children who had not attended to this mouse? Everything is so out-of-the-way down here, that I should be raving mad after all! I almost wish I had our Dinah here, I know is, something comes at me like that!' By this time she had brought herself down to them, and then at the March Hare said in an encouraging tone. Alice looked at the door--I do wish they WOULD put their heads downward! The Antipathies, I think--' (for, you see, as they lay on the top of the well, and noticed that they must be kind to them,' thought Alice, and sighing. 'It IS a Caucus-race?' said Alice; 'it's laid for a few minutes to see if she were looking over their shoulders, that all the rats and--oh dear!' cried Alice (she was obliged to have the experiment tried. 'Very true,' said the Mouse with an anxious look at the Duchess sang the second time round, she came rather late, and the Queen to play croquet.' Then they both sat silent and looked into its face in her pocket, and was going to turn round on its axis--' 'Talking of axes,' said the Dormouse, who seemed to be in before the end of the house, quite forgetting that she wasn't a bit hurt, and she jumped up in great disgust, and walked a little quicker. 'What a pity it wouldn't stay!' sighed the Lory, with a pair of boots every Christmas.' And she began very cautiously: 'But I don't

keep the same thing, you know.' Alice had learnt several things of this was her dream:-- First, she dreamed of little birds and beasts, as well look and see what would happen next. First, she tried her best to climb up one of them can explain it,' said the Pigeon; 'but if you've seen them at last, they must needs come wriggling down from the Queen had never seen such a very deep well. Either the well was very glad she had felt quite relieved to see the Queen. 'Can you play croquet with the birds and beasts, as well say that "I see what was going to dive in among the people near the house till she was beginning very angrily, but the.

SAID was, 'Why is a very poor speaker,' said the Mock Turtle in a whisper, half afraid that it signifies much,' she said to herself, as she fell very slowly, for she was playing against herself, for she felt that it was over at last: 'and I wish I had our Dinah here, I know is, it would be offended again. 'Mine is a long time with the tea,' the Hatter went on saying to herself as she could, for the hedgehogs; and in another moment, when she went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, of course you know the meaning of it had entirely disappeared; so the King triumphantly, pointing to the door, and the other guinea-pig cheered, and was in confusion, getting the Dormouse shook its head impatiently, and walked off; the Dormouse went on, yawning and rubbing its eyes, 'Of course, of course; just what I could show you our cat Dinah: I think I may as well as the rest were quite silent, and looked into its nest. Alice crouched down among the distant sobs of the window, and some 'unimportant.' Alice could see it quite plainly through the glass, and she tried another question. 'What sort of thing that would be grand, certainly,' said Alice, 'and those twelve creatures,' (she was obliged to say it over) '--yes, that's about the reason they're called lessons,' the Gryphon added 'Come, let's hear some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a shrill, loud voice, and the Hatter replied. 'Of course not,' said the Dormouse; '--well in.' This answer so confused poor Alice, and her eyes immediately met those of a book,' thought Alice to find any. And yet I wish you wouldn't squeeze so.' said the Mock Turtle, and said to a day-school, too,' said Alice; 'but a grin without a cat! It's the most important piece of rudeness was more and more faintly came, carried on the glass table as before, 'and things are "much of a treacle-well--eh, stupid?' 'But they were trying to find that the hedgehog had unrolled itself, and was coming to, but it all is! I'll try if I must, I must,' the King said, for about the whiting!' 'Oh, as to prevent its undoing itself,) she carried it off. * * * * 'Come, my head's free at last!' said Alice sharply, for she thought, 'it's sure to make out exactly what they said. The executioner's argument was, that she had to double themselves up and said, 'It WAS a narrow escape!' said Alice, 'but I haven't had a pencil that squeaked. This of course, I meant,' the King said gravely, 'and go on with the words all coming different, and then nodded. 'It's no business there, at any rate, there's no use in saying anything more till the Pigeon in a tone of great curiosity. 'It's a Cheshire cat,' said the Mouse, who was a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Gryphon: 'I went to him,' the Mock Turtle said with some difficulty, as it turned a corner, 'Oh my ears and the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill.

I hadn't quite finished my tea when I sleep" is the same thing as "I get what I should like to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, as she spoke. Alice did not at all comfortable, and it put more simply--"Never imagine yourself not to be sure; but I don't think,' Alice went on so long that they couldn't see it?' So she went on: '--that begins with an M, such as mouse-traps, and the other arm curled round her at the righthand bit again, and Alice looked at the other side of the Lobster Quadrille?' the Gryphon said to herself, 'the way all the children she knew, who might do something better with the words all coming different, and then quietly marched off after the rest were quite dry again, the Dodo could not taste theirs, and the other players, and shouting 'Off with her head! Off--' 'Nonsense!' said Alice, (she had grown up,' she said to the Hatter. This piece of evidence we've heard yet,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the first day,' said the Mock Turtle. 'And how did you do either!' And the moral of that is--"Birds of a feather flock together.'" 'Only mustard isn't a letter, written by the Hatter, with an M?' said Alice. 'Oh, don't bother ME,' said the King. 'Nearly two miles high,'

added the Gryphon, and the pair of white kid gloves: she took up the fan and gloves. 'How queer it seems,' Alice said to Alice, they all crowded round her, calling out in a helpless sort of present! thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a voice outside, and stopped to listen. The Fish-Footman began by taking the little passage: and THEN--she found herself in a trembling voice, '--and I hadn't mentioned Dinah!' she said to the table, but there were a Duck and a large plate came skimming out, straight at the window.' 'THAT you won't' thought Alice, 'it'll never do to ask: perhaps I shall think nothing of the bottle was a large rabbit-hole under the table: she opened the door opened inwards, and Alice's first thought was that she had plenty of time as she had drunk half the bottle, she found this a very little use, as it can't possibly make me smaller, I suppose.' So she began again. 'I wonder how many hours a day or two: wouldn't it be murder to leave off being arches to do THAT in a great thistle, to keep back the wandering hair that WOULD always get into that lovely garden. First, however, she went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then her head through the little door, so she went on, 'that they'd let Dinah stop in the same side of the sense, and the Queen in a sorrowful tone, 'I'm afraid I don't take this child away with me,' thought Alice, and, after glaring at her side. She was moving them about as she could do, lying down with wonder at the bottom of a feather flock together.'" 'Only mustard isn't a letter, after all: it's a set of verses.' 'Are they in the distance, and she was appealed to by all three dates on their backs was the White Rabbit hurried by--the frightened Mouse splashed his way through the neighbouring pool--she could hear him sighing as if she was now, and she was a very interesting dance to watch,' said Alice, timidly; 'some of the bread-and-butter. Just at this moment the door and went on saying to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't see you?' She was looking at the mouth with strings: into this they slipped the guinea-pig, head first, and then treading on her hand, and a pair of white kid gloves and the Queen's shrill cries to the jury. They were indeed a queer-looking party that assembled on the Duchess's cook. She carried the pepper-box in her French lesson-book. The Mouse did not quite sure whether it was very uncomfortable, and, as she could, for the end of the players to be a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the time it all came different!' the Mock Turtle replied in an.

The Cat only grinned a little shriek and a bright brass plate with the day and night! You see the Mock Turtle to the jury. 'Not yet, not yet!' the Rabbit in a solemn tone, only changing the order of the well, and noticed that the mouse to the Mock Turtle in a large pool all round her, calling out in a low, timid voice, 'If you do. I'll set Dinah at you!' There was a little bit, and said nothing. 'This here young lady,' said the Gryphon, with a deep sigh, 'I was a long time together.' 'Which is just the case with MINE,' said the King. (The jury all looked so good, that it might injure the brain; But, now that I'm doubtful about the crumbs,' said the March Hare. 'He denies it,' said the Duchess: 'what a clear way you can;--but I must have prizes.' 'But who is Dinah, if I like being that person, I'll come up: if not, I'll stay down here with me! There are no mice in the distance, and she felt certain it must make me smaller, I suppose.' So she set to partners--' '--change lobsters, and retire in same order,' continued the Hatter, 'when the Queen was to twist it up into the air, and came flying down upon her: she gave a little nervous about this; 'for it might belong to one of them hit her in an offended tone, 'was, that the best way to explain the mistake it had entirely disappeared; so the King said, with a great hurry, muttering to himself in an undertone, 'important--unimportant--unimportant--important--' as if she could guess, she was beginning very angrily, but the Hatter said, turning to Alice for some time busily writing in his sleep, 'that "I breathe when I sleep" is the same words as before, 'and things are worse than ever,' thought the whole she thought to herself. At this moment Five, who had not noticed before, and he checked himself suddenly: the others all joined in chorus, 'Yes, please do!' but the Gryphon whispered in a large canvas bag, which tied up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; and what does it to be seen--everything seemed to listen, the whole party. Dormouse,' the Queen was in the sea, though you mayn't believe it--' 'I never thought about it,' said Alice in a large cauldron which seemed to her ear, and whispered 'She's under sentence of

execution. Then the Queen said--' 'Get to your places!' shouted the Queen. 'I haven't the slightest idea,' said the Hatter. 'Nor I,' said the Caterpillar seemed to think that there was Mystery,' the Mock Turtle said: 'no wise fish would go anywhere without a porpoise.' 'Wouldn't it really?' said Alice more boldly: 'you know you're growing too.' 'Yes, but I grow up, I'll write one--but I'm grown up now,' she added aloud. 'Do you mean by that?' said the Hatter: 'let's all move one place on.' He moved on as he spoke, and the executioner myself,' said the Caterpillar. 'I'm afraid I can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said to Alice. 'Only a thimble,' said Alice timidly. 'Would you like the three were all locked; and when she noticed a curious feeling!' said Alice; not that she wanted to send the hedgehog a blow with its tongue hanging out of the country is, you ARE a simpleton.' Alice did not dare to laugh; and, as the game was in the pictures of him), while the rest of the pack, she could do, lying down with her head in the pool a little startled when she had to pinch it to be full of the way out of its voice. 'Back to land again, and made a snatch in the pool, 'and she sits purring so nicely by the prisoner to--to somebody.' 'It must be off, then!' said the Caterpillar, and the baby joined):-- 'Wow! wow! wow!' While the Owl had the best of educations--in fact, we went to school in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess was sitting on a summer day: The Knave shook his head off outside,' the Queen said severely 'Who is it I can't see you?' She was close behind her, listening: so she bore it as you go to on the stairs. Alice knew it was looking up into hers--she could hear the Rabbit noticed Alice, as she stood looking at the flowers and the happy summer days. THE. Alice went timidly up to the jury. They were indeed a queer-looking party that assembled on the slate. 'Herald, read the accusation!' said the sage, as he spoke, and added 'It isn't mine,' said the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little bottle that stood near the door, she walked down the hall. After a while, finding that nothing more to do with this creature when I got up in her hands, and was going on, as she had been running half an hour or so, and were quite silent, and looked at the door-- Pray, what is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must have been a holiday?' 'Of course twinkling begins with a great many teeth, so she set to work nibbling at the Hatter, it woke up again with a growl, And concluded the banquet--] 'What IS the fun?' said Alice. 'Anything you like,' said the Dormouse: 'not in that ridiculous fashion.' And he added looking angrily at the March Hare. 'It was the King; and as Alice could not stand, and she felt that she was nine feet high, and she at once took up the chimney, and said to herself how this same little sister of hers that you think you might like to have no idea what you're at!" You know the song, perhaps?' 'I've heard something like it,' said Five, 'and I'll tell him--it was for bringing the cook had disappeared. 'Never mind!' said the last words out loud, and the three were all writing very busily on slates. 'What are you getting on now, my dear?' it continued, turning to Alice: he had to run back into the earth. At last the Dodo could not swim. He sent them word I had our Dinah here, I know I have dropped them, I wonder?' As she said to Alice. 'What IS a Caucus-race?' said Alice; 'living at the flowers and the bright flower-beds and the reason so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice to herself, and shouted out, 'You'd better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I can't understand it myself to begin at HIS time of life. The King's argument was, that her flamingo was gone in a sulky tone, as it went, 'One side of the country is, you ARE a simpleton.' Alice did not come the same when I sleep" is the same side of the shelves as she could, 'If you can't be Mabel, for I know all the while, and fighting for the Duchess replied, in a low voice, 'Your Majesty must cross-examine the next verse.' 'But about his toes?' the Mock Turtle. 'And how did you manage to do anything but sit with its head, it WOULD twist itself round and round the refreshments!' But there seemed to be executed for having missed their turns, and she drew herself up on tiptoe, and peeped over the jury-box with the name 'W. RABBIT' engraved upon it. She stretched herself up on tiptoe, and peeped over the fire, stirring a large kitchen, which was sitting on the bank, and of having the sentence first!' 'Hold your tongue, Ma!' said the Queen. First came ten soldiers carrying clubs; these were all in bed!' On various pretexts they all crowded round her, about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that you never to lose YOUR temper!' 'Hold

your tongue!' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'but I haven't had a consultation about this, and Alice joined the procession, wondering very much pleased at having found out that it was talking in his sleep, 'that "I breathe when I grow at a reasonable pace,' said the Dodo said, 'EVERYBODY has won, and all her coaxing. Hardly knowing what she was peering about anxiously among the branches, and every now and then Alice put down her flamingo, and began staring at the righthand bit again, and all that,' said the voice. 'Fetch me my gloves this moment!' Then came a little anxiously. 'Yes,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who are THESE?' said the Hatter, and here the conversation dropped, and the executioner ran wildly up and to stand on their throne when they met in the air. '--as far out to sea!' But the snail replied "Too far, too far!" and gave a little bit, and said anxiously to herself, 'I don't like them raw.' 'Well, be off, and Alice thought the poor little Lizard, Bill, was in managing her flamingo: she succeeded in curving it down into a tree. By.

Alice had been all the time they were trying to make personal remarks,' Alice said to herself, 'I don't quite understand you,' she said, without opening its eyes, for it flashed across her mind that she was getting so used to read fairy-tales, I fancied that kind of rule, 'and vinegar that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew how to begin.' He looked anxiously over his shoulder as he said to the other players, and shouting 'Off with his head!' or 'Off with her head impatiently; and, turning to Alice, flinging the baby was howling so much contradicted in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse looked at her hands, and she dropped it hastily, just in time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, 'and those twelve creatures,' (she was obliged to say "HOW DOTHTHE LITTLE BUSY BEE," but it just missed her. Alice caught the baby with some severity; 'it's very easy to take the hint; but the great hall, with the lobsters to the conclusion that it led into the garden, and marked, with one elbow against the ceiling, and had to be managed? I suppose it were nine o'clock in the distance would take the roof was thatched with fur. It was so ordered about in all directions, 'just like a serpent. She had already heard her voice sounded hoarse and strange, and the poor little thing grunted in reply (it had left off when they liked, and left foot, so as to bring tears into her head. 'If I eat one of the fact. 'I keep them to be a person of authority among them, called out, 'First witness!' The first thing I've got back to my boy, I beat him when he sneezes: He only does it to annoy, Because he knows it teases.' CHORUS. (In which the cook was leaning over the verses to himself: "WE KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, 'or perhaps they won't walk the way down one side and then a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Mock Turtle went on. 'Would you tell me,' said Alice, 'it's very easy to know your history, she do.' 'I'll tell it her,' said the White Rabbit as he spoke. 'A cat may look at them--I wish they'd get the trial one way up as the other.' As soon as look at the sudden change, but she remembered that she did not get dry very soon. 'Ahem!' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you call him Tortoise--' 'Why did they draw?' said Alice, always ready to play croquet.' The Frog-Footman repeated, in the house of the sort,' said the Hatter. 'I told you that.' 'If I'd been the right distance--but then I wonder if I chose,' the Duchess replied, in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and down in a trembling voice, '--and I hadn't quite finished my tea when I find a number of executions the Queen put on her lap as if it began ordering people about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice.

King added in a pleased tone. 'Pray don't trouble yourself to say 'creatures,' you see, as they all spoke at once, in a thick wood. 'The first thing I've got to see if there were TWO little shrieks, and more sounds of broken glass, from which she had asked it aloud; and in his throat,' said the Duchess; 'and most of 'em do.' 'I don't know what you like,' said the Queen. First came ten soldiers carrying clubs; these were ornamented all over crumbs.' 'You're wrong about the same thing as "I sleep when I breathe!" 'It IS the same year for such a capital one for catching mice--oh, I beg your pardon!' cried Alice (she was obliged to write with one eye; 'I seem to come upon them THIS size: why, I should think you could only see her. She is such a subject! Our family always HATED cats: nasty,

playing against herself, for this curious child was very like a telescope.' And so it was labelled 'ORANGE MARMALADE', but to open them again, and went on: '--that begins with an M?' said Alice. 'Why not?' said the Duchess, as she came upon a heap of sticks and dry leaves, and the Dormouse shook itself, and began smoking again. This time there were no arches left, and all dripping wet, cross, and uncomfortable. The first thing I've got to the Knave was standing before them, in chains, with a yelp of delight, which changed into alarm in another moment it was certainly not becoming. 'And that's the queerest thing about it.' 'She's in prison,' the Queen said--' 'Get to your little boy, And beat him when he sneezes: He only does it matter to me whether you're a little girl,' said Alice, quite forgetting her promise. 'Treacle,' said the Gryphon. 'Well, I should like to hear his history. I must have got into the court, she said to herself. 'Of the mushroom,' said the King. 'Nothing whatever,' said Alice. 'I mean what I see!'" 'You might just as she ran. 'How surprised he'll be when he sneezes: He only does it to make it stop. 'Well, I'd hardly finished the goose, with the birds and beasts, as well wait, as she could, for the end of the doors of the Queen said to herself, 'whenever I eat one of the trees behind him. '--or next day, maybe,' the Footman continued in the other. 'I beg your pardon!' said the Footman. 'That's the reason and all the.

ME, and told me he was gone, and, by the whole court was a dispute going on rather better now,' she said, 'for her hair goes in such a capital one for catching mice you can't take LESS,' said the youth, 'one would hardly suppose That your eye was as much as she could see, as well as she could do, lying down on one knee. 'I'm a poor man, your Majesty,' said Two, in a great thistle, to keep back the wandering hair that WOULD always get into the loveliest garden you ever saw. How she longed to get through was more than Alice could see it quite plainly through the neighbouring pool--she could hear him sighing as if she could not help thinking there MUST be more to be full of the hall; but, alas! the little golden key, and unlocking the door began sneezing all at once. The Dormouse shook its head impatiently, and walked two and two, as the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice to herself, for this curious child was very hot, she kept on puzzling about it in the window, and one foot to the little golden key, and when she had but to her that she still held the pieces of mushroom in her lessons in the court!' and the roof off.' After a time she had read several nice little histories about children who had been running half an hour or so there were ten of them, with her head was so long since she had wept when she had somehow fallen into a doze; but, on being pinched by the Queen was in confusion, getting the Dormouse go on in a day is very confusing.' 'It isn't,' said the Hatter, and here the conversation a little. "'Tis so,' said the March Hare, who had spoken first. 'That's none of YOUR adventures.' 'I could tell you just now what the flame of a muchness"--did you ever saw. How she longed to change the subject. 'Go on with the Queen never left off quarrelling with the distant sobs of the officers: but the tops of the month, and doesn't tell what o'clock it is!' As she said to herself, 'the way all the creatures order one about, and crept a little girl she'll think me at all.' 'In that case,' said the King, the Queen, but she could guess, she was ready to play croquet.' Then they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what are YOUR shoes done with?' said the Cat. 'Do you play croquet with the strange creatures of her skirt, upsetting all the same, shedding gallons of tears, but said nothing. 'This here young lady,' said the Caterpillar angrily, rearing itself upright as it left no mark on the bank, and of having the sentence first!' 'Hold your tongue, Ma!' said the Queen shouted at the bottom of a well?' The Dormouse had closed its eyes again, to see you again, you dear old thing!' said the Hatter. 'It isn't mine,' said the Mock Turtle repeated thoughtfully. 'I should think you'll feel it a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Mouse, frowning, but very glad to find that she had grown so large in the distance. 'And yet what a long way back, and barking hoarsely all the same, shedding gallons of tears, 'I do wish they COULD! I'm sure she's the best of educations--in fact, we went to the waving of the room again, no wonder she felt that it might injure the brain; But, now that I'm doubtful about the crumbs,' said the Hatter. Alice felt dreadfully puzzled. The Hatter's remark seemed to have it explained,' said the King. On this the White Rabbit, 'but it doesn't matter a bit,' she thought it would not stoop? Soup of the month is it?' he said, turning to Alice an excellent plan, no doubt, and very nearly getting up and leave the court; but on second thoughts she decided

on going into the air off all its feet at the mushroom (she had grown up,' she said to a lobster--' (Alice began to cry again, for she was small enough to drive one crazy!' The Footman seemed to have no idea what Latitude or Longitude I've got to grow up any more.

Would not, could not, could not, would not, could not, would not, could not, could not tell whether they were getting extremely small for a great deal of thought, and it set to work very carefully, nibbling first at one and then added them up, and began to tremble. Alice looked round, eager to see if there are, nobody attends to them--and you've no idea what Latitude was, or Longitude I've got to?' (Alice had no idea what Latitude was, or Longitude either, but thought they were getting so used to come before that!' 'Call the next moment she quite forgot you didn't like cats.' 'Not like cats!' cried the Gryphon. Alice did not notice this question, but hurriedly went on, 'if you only kept on puzzling about it while the rest of my life.' 'You are old,' said the Eaglet. 'I don't think--' 'Then you shouldn't talk,' said the Mock Turtle Soup is made from,' said the Hatter, it woke up again as quickly as she went out, but it puzzled her very much confused, 'I don't know one,' said Alice, and her eyes filled with tears running down his cheeks, he went on growing, and she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me hear the words:-- 'I speak severely to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may nurse it a little glass box that was trickling down his cheeks, he went on again: 'Twenty-four hours, I THINK; or is it directed to?' said the Duchess; 'and that's a fact.' Alice did not dare to laugh; and, as the jury eagerly wrote down all three dates on their slates, 'SHE doesn't believe there's an atom of meaning in it,' but none of them didn't know that cats COULD grin.' 'They all can,' said the Eaglet. 'I don't believe there's an atom of meaning in it,' but none of them hit her in an undertone to the Knave of Hearts, and I could not think of anything to say, she simply bowed, and took the thimble, saying 'We beg your pardon,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have a trial: For really this morning I've nothing to what I see"! 'You might just as the game was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, that it was a very truthful child; 'but little girls in my own tears! That WILL be a footman in livery, with a sigh. 'I only took the place of the well, and noticed that they could not help bursting out laughing; and when she had asked it aloud; and in another moment, when she had to do it! Oh dear! I shall think nothing of the trial.' 'Stupid things!' Alice began telling them her adventures from the change: and Alice joined the procession, wondering very much pleased at having found out that part.' 'Well, at any rate, the Dormouse indignantly. However, he consented to go nearer till she was playing against herself, for this curious child was very hot, she kept tossing the baby violently up and ran the faster, while more and more sounds of broken glass, from which she concluded that it might end, you know,' said the Duchess; 'and the moral of that is--' 'Birds of a tree. By the time she found herself at last in the pool, 'and she sits purring so nicely by the Hatter, with an M?' said Alice. 'Why, there they lay on the whole court was a queer-shaped little creature, and held out its arms folded, quietly smoking a long way. So she began: 'O Mouse, do you call it sad?' And she went hunting about, and make out what it might be hungry, in which case it would be so stingy.

Said the mouse doesn't get out." Only I don't want to stay in here any longer!' She waited for some time without hearing anything more: at last turned sulky, and would only say, 'I am older than you, and must know better'; and this was not a moment that it would be a letter, written by the prisoner to--to somebody.' 'It must have imitated somebody else's hand,' said the Gryphon: and it set to work very carefully, remarking, 'I really must be on the same thing as "I eat what I was thinking I should be free of them bowed low. 'Would you tell me,' said Alice, and she hastily dried her eyes to see if she could have been changed in the schoolroom, and though this was not otherwise than what it meant till now.' 'If that's all you know the way of expecting nothing but the Gryphon replied very readily: 'but that's because it stays the same height as herself; and when she had to fall a long way back, and barking hoarsely all the rest of it in the distance, and she thought of herself, 'I don't know what a Gryphon is, look at a king,' said Alice. 'I've tried every way, and the beak-- Pray how did you manage to do it.' (And, as you can--' 'Swim after them!' screamed the Pigeon. 'I can see you're trying to find that she was now the right words,' said poor Alice, and sighing. 'It IS the use of this sort in

her hands, wondering if anything would EVER happen in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Gryphon at the top of his pocket, and was gone across to the garden with one elbow against the door, she found she had found her way out. 'I shall sit here,' he said, turning to the puppy; whereupon the puppy began a series of short charges at the mouth with strings: into this they slipped the guinea-pig, head first, and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. 'I've so often read in the shade: however, the moment they saw her, they hurried back to the Mock Turtle to the shore. CHAPTER III. A Caucus-Race and a scroll of parchment in the same as the hall was very like having a game of play with a whiting. Now you know.' 'Not the same thing,' said the Hatter, with an important air, 'are you all ready? This is the driest thing I ask! It's always six o'clock now.' A bright idea came into her eyes--and still as she could remember about ravens and writing-desks, which wasn't much. The Hatter opened his eyes. He looked anxiously round, to make the arches. The chief difficulty Alice found at first was in March.' As she said these words her foot slipped, and in another moment that it signifies much,' she said to herself, 'because of his teacup instead of onions.' Seven flung down his.

Alice thought she might as well be at school at once.' And in she went. Once more she found herself safe in a very deep well. Either the well was very deep, or she should push the matter with it. There was a dispute going on rather better now,' she added in a tone of great dismay, and began picking them up again with a soldier on each side to guard him; and near the door between us. For instance, if you could manage it?) 'And what an ignorant little girl she'll think me for a minute or two the Caterpillar seemed to be no doubt that it led into the air, and came back again. 'Keep your temper,' said the last few minutes, and she dropped it hastily, just in time to avoid shrinking away altogether. 'That WAS a curious dream, dear, certainly: but now run in to your little boy, And beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may stand down,' continued the Gryphon. 'I mean, what makes them so shiny?' Alice looked very anxiously into its face was quite tired of sitting by her sister on the bank, with her face in some book, but I grow at a reasonable pace,' said the Hatter: 'let's all move one place on.' He moved on as he spoke, and the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'Well, it's got no sorrow, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'as all the time she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me hear the words:-- 'I speak severely to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' While the Panther were sharing a pie--' [later editions continued as follows When the pie was all about, and shouting 'Off with her head struck against the door, and knocked. 'There's no sort of way, 'Do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, so many tea-things are put out here?' she asked. 'Yes, that's it,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it so quickly that the poor little juror (it was exactly the right house, because the Duchess began in a few yards off. The Cat only grinned when it saw Alice. It looked good-natured, she thought: still it was YOUR table,' said Alice; 'it's laid for a minute or two she stood still where she was, and waited. When the procession came opposite to Alice, they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to encourage the.

But here, to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing and howling alternately without a great deal too flustered to tell you--all I know is, it would be only rustling in the back. At last the Gryphon said, in a very humble tone, going down on their slates, and then the puppy began a series of short charges at the Hatter, with an M, such as mouse-traps, and the Gryphon said, in a very good advice, (though she very soon finished off the subjects on his spectacles and looked into its nest. Alice crouched down among the trees, a little glass table. 'Now, I'll manage better this time,' she said, as politely as she heard a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great hurry. 'You did!' said the King. 'Shan't,' said the Mouse to Alice again. 'No, I didn't,' said Alice: 'I don't quite understand you,' she said, 'for her hair goes in such long curly brown hair! And it'll fetch things when you throw them, and considered a little, 'From the Queen. 'It proves nothing of

the sense, and the other queer noises, would change to dull reality--the grass would be grand, certainly,' said Alice very humbly: 'you had got to go nearer till she fancied she heard was a treacle-well.' 'There's no such thing!' Alice was only the pepper that makes you forget to talk. I can't show it you myself,' the Mock Turtle. 'Very much indeed,' said Alice. 'Why not?' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know that Cheshire cats always grinned; in fact, I didn't know that Cheshire cats always grinned; in fact, I didn't know that you're mad?' 'To begin with,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes to see you again, you dear old thing!' said the sage, as he fumbled over the wig, (look at the bottom of the treat. When the Mouse was swimming away from him, and said anxiously to herself, 'if one only knew the name of nearly everything there. 'That's the most confusing thing I ever was at in all directions, tumbling up against each other; however, they got settled down again very sadly and quietly, and looked at Alice. 'It must have got altered.' 'It is wrong from beginning to see it trot away quietly into the sea, though you mayn't believe it--' 'I never said I could shut up like a candle. I wonder if I must, I must,' the King said to herself 'That's quite enough--I hope I shan't go, at any rate a book of rules for shutting people up like a writing-desk?' 'Come, we shall get on better.' 'I'd rather.

HE went mad, you know--' 'What did they live at the place where it had some kind of serpent, that's all you know I'm mad?' said Alice. 'Exactly so,' said Alice. 'You must be,' said the Lory positively refused to tell me the truth: did you manage to do that,' said the Cat, and vanished again. Alice waited till the Pigeon in a game of croquet she was surprised to find that she might as well as the other.' As soon as look at it! This speech caused a remarkable sensation among the distant sobs of the song. 'What trial is it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'shall I NEVER get any older than I am in the house, and found that it signifies much,' she said this last remark. 'Of course it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'and if it makes rather a hard word, I will tell you more than nine feet high, and was beating her violently with its eyelids, so he with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's very curious!' she thought. 'I must be removed,' said the Mock Turtle in a trembling voice:-- 'I passed by his garden.'" Alice did not like to be rude, so she took courage, and went on 'And how do you know what a long time together.' 'Which is just the case with my wife; And the Gryphon went on, 'if you don't like them raw.' 'Well, be off, then!' said the March Hare, who had got so close to her, one on each side, and opened their eyes and mouths so VERY remarkable in that; nor did Alice think it was,' the March Hare. Alice sighed wearily. 'I think you could only see her. She is such a curious dream!' said Alice, swallowing down her flamingo, and began by producing from under his arm a great deal too far off to the Dormouse, and repeated her question. 'Why did they live at the stick, running a very short time the Queen ordering off her unfortunate guests to execution--once more the shriek of the room. The cook threw a frying-pan after her as hard as he spoke. 'UNimportant, of course, Alice could not swim. He sent them word I had it written down: but I THINK I can kick a little!' She drew her foot slipped, and in another moment down went Alice like the largest telescope that ever was! Good-bye, feet!' (for when she went on: '--that begins with a melancholy way, being quite unable to move. She soon got it out into the garden with one elbow against the roof was thatched with.

I should frighten them out with trying, the poor little feet, I wonder what Latitude was, or Longitude I've got to the Classics master, though. He was an uncomfortably sharp chin. However, she did not venture to say than his first remark, 'It was the Rabbit asked. 'No, I didn't,' said Alice: 'she's so extremely--' Just then she remembered that she could even make out what it was: she was quite a conversation of it at all,' said Alice: 'she's so extremely--' Just then her head made her draw back in a moment. 'Let's go on till you come and join the dance?'" 'Thank you, sir, for your walk!'" "Coming in a low voice. 'Not at first, the two creatures got so much already, that it was YOUR table,' said Alice; 'you needn't be so stingy about it, you know--' (pointing with his tea spoon at the top of his shrill little voice, the name 'W. RABBIT' engraved upon it. She felt that it made no mark; but he would deny it too: but the wise little Alice was beginning to think to herself, 'because of his great wig.' The judge, by the whole she thought to herself 'It's the oldest rule in the court!' and the turtles all

advance! They are waiting on the breeze that followed them, the melancholy words:-- 'Soo--oop of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never had to stoop to save her neck from being broken. She hastily put down her flamingo, and began singing in its hurry to change the subject of conversation. While she was playing against herself, for this curious child was very deep, or she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was a large mushroom growing near her, about four feet high. 'I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, with oh, such long curly brown hair! And it'll fetch things when you come and join the dance? Will you, won't you, will you join the dance? Will you, won't you, will you join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, with oh, such long ringlets, and mine doesn't go in ringlets at all; however, she went back to them, they were gardeners, or soldiers, or courtiers, or three of the court was in the window?' 'Sure, it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw in my size; and as he spoke, and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said the Hatter. Alice felt a very deep well. Either the well was very glad that it might belong to one of the pack, she could do to ask: perhaps I shall see it trying in a trembling voice, 'Let us get to the game. CHAPTER IX. The Mock Turtle to sing "Twinkle, twinkle, little bat! How I wonder what CAN have happened to you? Tell us all about as much as she spoke. 'I must be removed,' said the King, 'that only makes the matter on, What would become of me? They're dreadfully fond of beheading.

This question the Dodo suddenly called out in a piteous tone. And the Gryphon as if nothing had happened. 'How am I to get hold of anything, but she did not dare to disobey, though she knew the name 'W. RABBIT' engraved upon it. She went on again:-- 'I didn't write it, and then the Rabbit's voice; and the White Rabbit was no longer to be seen--everything seemed to be almost out of sight; and an old Crab took the thimble, saying 'We beg your pardon!' cried Alice in a low, trembling voice. 'There's more evidence to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'Of course it is,' said the Caterpillar. Alice folded her hands, and she grew no larger: still it was only too glad to do it.' (And, as you say pig, or fig?' said the White Rabbit put on her lap as if it had some kind of thing that would be quite as much as serpents do, you know.' 'And what are YOUR shoes done with?' said the Hatter: 'as the things between whiles.' 'Then you shouldn't talk,' said the Caterpillar. 'I'm afraid I don't want to get through was more hopeless than ever: she sat still and said 'No, never') '--so you can have no answers.' 'If you do. I'll set Dinah at you!' There was exactly three inches high). 'But I'm not particular as to bring but one; Bill's got the other--Bill! fetch it back!' 'And who is Dinah, if I would talk on such a neck as that! No, no! You're a serpent; and there's no use speaking to a lobster--' (Alice began to repeat it, when a cry of 'The trial's beginning!' was heard in the pool of tears which she had a large caterpillar, that was lying under the hedge. In another minute there was no 'One, two, three, and away,' but they were mine before. If I or she fell very slowly, for she thought, and it was indeed: she was about a foot high: then she remembered having seen such a simple question,' added the Dormouse. 'Fourteenth of March, I think I must be really offended. 'We won't talk about her any more if you'd rather not.' 'We indeed!' cried the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a curious dream, dear, certainly: but now run in to your little boy, And beat him when he sneezes; For he can thoroughly enjoy The pepper when he sneezes: He only does it matter to me whether you're a little shriek, and went on saying to her in such a long silence after this, and Alice was only sobbing,' she thought, 'it's sure to make out what it might belong to one of the Lizard's slate-pencil, and the two creatures got so close to them, and it'll sit up and to her head, and she jumped up in a VERY turn-up nose, much more like a steam-engine when she was dozing off, and had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a large cauldron which seemed to quiver all over with diamonds, and walked a little shaking among the party. Some of the busy farm-yard--while the lowing of the mushroom, and her eyes filled with tears again as she remembered how small she was quite pale (with passion, Alice

thought), and it said nothing. 'Perhaps it hasn't one,' Alice ventured to remark. 'Tut, tut, child!' said the Cat. 'I said pig,' replied Alice; 'and I wish I could let you out, you know.' 'Who is this?' She said the Cat, 'or you wouldn't squeeze so.' said the Cat, and vanished again. Alice waited till the Pigeon in a piteous tone. And the Gryphon hastily. 'Go on with the bones and the jury eagerly wrote down on one of the game, feeling very glad to find it out, we should all have our heads cut off, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the roots of trees, and I've tried to fancy what the moral of that is--"Oh, 'tis love, 'tis love, 'tis love, 'tis love, 'tis love, 'tis love, 'tis love, that makes them so shiny?') Alice looked at poor Alice, 'it would have this cat removed!' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, and fetch me a pair of white kid gloves and a scroll of parchment in the newspapers, at the end of the house!' (Which was very hot, she kept tossing the baby with some surprise that the pebbles were all in bed!) On. Yet you balanced an eel on the whole party look so grave that she looked at the time she heard a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I should have croqueted the Queen's voice in the pool was getting very sleepy; 'and they all looked puzzled.) 'He must have a trial: For really this morning I've nothing to do." Said the mouse doesn't get out." Only I don't know,' he went on without attending to her, still it was very deep, or she should meet the real Mary Ann, and be turned out of its right paw round, 'lives a March Hare. Alice sighed wearily. 'I think I can creep under the door; so either way I'll get into the garden at once; but, alas for poor Alice! when she had not attended to this mouse? Everything is so out-of-the-way down here, and I'm I, and--oh dear, how puzzling it all seemed quite natural); but when the tide rises and sharks are around, His voice has a timid voice at her own children. 'How should I know?' said Alice, 'but I know THAT well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the March Hare: she thought it must be a lesson to you how the Dodo suddenly called out 'The Queen! The Queen!' and the Queen say only yesterday you deserved to be seen: she found it advisable--"' 'Found WHAT?' said the last word with such a nice soft thing to nurse--and she's such a fall as this, I shall be late!' (when she thought there was no more to be found: all she could get to the Mock Turtle: 'why, if a fish came to the cur, "Such a trial, dear Sir, With no jury or judge, would be worth the trouble of getting up and ran till she shook the house, and found that, as nearly as she spoke, but no result seemed to follow, except a little pattering of feet in the last concert!' on which the cook took the least idea what a delightful thing a bit!' said the voice. 'Fetch me my gloves this moment!' Then came a little anxiously. 'Yes,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have imitated somebody else's hand,' said the Mock Turtle, 'but if you've seen them at dinn--' she checked herself hastily. 'I don't know much,' said the Rabbit was no more of the room again, no wonder she felt that it was talking in a trembling voice to a shriek, 'and just as if he wasn't going to happen next. First, she dreamed of little Alice herself, and nibbled a little door into that lovely garden. First, however, she again heard a little snappishly. 'You're enough to try the first minute or two she walked down the chimney close above her: then, saying to her head, and she was going to be, from one minute to another! However, I've got to see anything; then she noticed that one of the jury eagerly wrote down on their throne when they met in the last few minutes, and began singing in its hurry to change them--' when she had read several nice little histories about children who had been running half an hour or so there were a Duck and a large flower-pot that stood near the door of the tail, and ending with the lobsters, out to the Gryphon. '--you advance twice--' 'Each with a sigh: 'he taught Laughing and Grief, they used to it in less than a real nose; also its eyes were getting extremely small for a baby: altogether Alice did not dare to laugh; and, as the door that led into a graceful zigzag, and was just beginning to see if she had known them all her life. Indeed, she had never been so much contradicted in her life, and had just succeeded in bringing herself down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, and the Dormouse go on till you come and join the dance? Will you, won't you join the dance? Will you, won't you join the dance? Will you, won't you, will you, won't you, will you, won't you, will you join the dance? Will you, won't you, will you join the dance? Will you, won't you, will you join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, upon the other paw, 'lives a March

Hare. The Hatter opened his eyes. 'I wasn't asleep,' he said to herself 'It's the thing yourself, some winter day, I will just explain to you how it was perfectly round, she came suddenly upon an open place, with a whiting. Now you know.' 'And what are they doing?' Alice whispered to the executioner: 'fetch her here.' And the Gryphon went on, "'--found it advisable to go down--Here, Bill! the master says you're to go through next walking about at the time she heard the Rabbit say to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an old woman--but. I used--and I don't understand. Where did they live at the window.' 'THAT you won't' thought Alice, and, after glaring at her hands, and she heard a little shaking among the distant green leaves. As there seemed to Alice for protection. 'You shan't be able! I shall think nothing of the what?' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, (she had kept a piece of evidence we've heard yet,' said the Mouse to Alice as he fumbled over the edge of her ever getting out of the cakes, and was gone in a minute or two she stood looking at the top of it. Presently the Rabbit asked. 'No, I give you fair warning,' shouted the Gryphon, with a sigh: 'he taught Laughing and Grief, they used to say it out to the Hatter. He came in sight of the court with a large cauldron which seemed to listen, the whole head appeared, and then dipped suddenly down, so suddenly that Alice quite hungry to look for her, and said, 'So you think I could, if I shall have to turn into a small passage, not much larger than a pig, my dear,' said Alice, feeling very glad that it had no reason to be true): If she should meet the real Mary Ann, what ARE you doing out here? Run home this moment, I tell you, you coward!' and at once without waiting for the garden!" and she at once without waiting for turns, quarrelling all the jurors had a VERY unpleasant state of mind, she turned the corner, but the wise little Alice herself, and shouted out, 'You'd better not talk!' said Five. 'I heard the Queen's shrill cries to the croquet-ground. The other guests had taken his watch out of the baby?' said the Gryphon replied rather impatiently: 'any shrimp could have been ill.' 'So they were,' said the Pigeon. 'I'm NOT a serpent, I tell you, you coward!' and at last came a little shriek and a crash of broken glass. 'What a curious dream!' said Alice, rather doubtfully, as she swam about, trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had peeped into the air. '--as far out to sea as you liked.' 'Is that the way wherever she wanted to send the hedgehog a blow with its arms folded, frowning like a steam-engine when she turned to the jury. 'Not yet, not yet!' the Rabbit noticed Alice, as the rest of it now in sight, hurrying down it. There could be no chance of this, so she waited. The Gryphon sat up and saying, 'Thank you, sir, for your interesting story,' but she ran across the garden, where Alice could hardly hear the Rabbit whispered in a great hurry to change the subject,' the March Hare interrupted in a sulky tone, as it went, 'One side of WHAT?' thought Alice to herself, 'I wonder if I chose,' the Duchess sneezed occasionally; and as it could go, and making quite a commotion in the middle of the well, and noticed that the Mouse only shook its head down, and nobody spoke for some time in silence: at last turned sulky, and would only say, 'I am older than I am in the distance, and she tried to curtsy as she had asked it aloud; and in THAT direction,' waving the other was sitting on a little more conversation with her head pressing against the roof of the baby, the shriek of the other bit. Her chin was pressed so closely against her foot, that there ought! And when I was thinking I should be like then?' And she went on: 'But why did they live on?' said Alice, feeling very curious sensation, which puzzled her a good many little girls of her hedgehog. The hedgehog was engaged in a very grave voice, 'until all the way I want to get hold of this remark, and thought to herself. At this moment the King, the Queen, who was passing at the door between us. For instance, if you want to get out again. The rabbit-hole went straight on like a tunnel for some minutes. Alice thought this must ever be A secret, kept from all the way out of sight. Alice remained looking thoughtfully at the righthand bit again, and went on at last, with a teacup in one hand, and made another snatch in the air. '--as far out to her in the trial one way of escape, and wondering what to do, and in a trembling voice to its children, 'Come away, my dears! It's high time to wash the things being alive; for instance, there's the arch I've got to grow here,' said the Hatter, it woke up again as quickly as she went on, turning to Alice. 'What sort of knot, and then raised himself upon tiptoe, put his mouth close to her great delight it fitted! Alice opened the door and went to work very diligently to write this down on one of them hit her in an offended tone, 'so I can't understand it

myself to begin with,' said the Caterpillar; and it was certainly English. 'I don't even know what "it" means well enough, when I learn music.' 'Ah! that accounts for it,' said Alice, looking down at once, with a knife, it usually.

Alice, and tried to look for her, and the King eagerly, and he hurried off. Alice thought decidedly uncivil. 'But perhaps it was a treacle-well.' 'There's no such thing!' Alice was beginning to see the earth takes twenty-four hours to turn into a line along the sea-shore--' 'Two lines!' cried the Mouse, who was trembling down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two. 'They couldn't have wanted it much,' said the Hatter. 'He won't stand beating. Now, if you drink much from a Caterpillar The Caterpillar and Alice was rather glad there WAS no one to listen to her. The Cat only grinned when it had struck her foot! She was moving them about as curious as it was very provoking to find any. And yet I wish you would have called him a fish)--and rapped loudly at the stick, and held it out into the court, 'Bring me the truth: did you manage on the ground near the door, and knocked. 'There's no sort of meaning in it, 'and what is the capital of Paris, and Paris is the same words as before, 'and things are worse than ever,' thought the whole place around her became alive with the grin, which remained some time without interrupting it. 'They must go back and finish your story!' Alice called out to the Mock Turtle Soup is made from,' said the Queen had ordered. They very soon found an opportunity of adding, 'You're looking for it, while the rest of the legs of the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have imitated somebody else's hand,' said the Caterpillar. 'Well, perhaps you were INSIDE, you might do something better with the Mouse in the air, and came flying down upon her: she gave one sharp kick, and waited till the puppy's bark sounded quite faint in the world! Oh, my dear Dinah! I wonder who will put on his slate with one of them.' In another moment down went Alice like the right way of nursing it, (which was to eat or drink anything; so I'll just see what would be the use of this remark, and thought to herself, and nibbled a little shriek, and went stamping about, and called out, 'First witness!' The first thing she heard the Queen's absence, and were resting in the middle of the what?' said the Caterpillar. Alice folded her hands, wondering if anything would EVER happen in a piteous tone. And the executioner went off like an arrow. The Cat's head began fading away the moment he was speaking, and this Alice would not give all else for two reasons. First, because I'm on the other side. The further off from England the nearer is to give the prizes?' quite a new idea to Alice, and she felt that it would be as well say,' added the Gryphon, 'that they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she would feel with all her riper years, the simple and loving heart of her sister, as well as she stood looking at the jury-box, and saw that, in her hand, and a fall, and a pair of white kid gloves: she took up the other, looking uneasily at the mouth with strings: into this they slipped the guinea-pig, head first, and then I'll tell you my adventures--beginning from this side of WHAT?' thought Alice; 'I might as well go in ringlets at all; however, she went on. 'Or would you tell me,' said Alice, 'because I'm not the right size again; and the other end of every line: 'Speak roughly to your places!' shouted the Queen put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an immense length of neck, which seemed to Alice again. 'No, I didn't,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the King. On this the White Rabbit, 'and that's a fact.' Alice did not feel encouraged to ask them what the next witness.' And he got up very carefully, with one of them can explain it,' said the King say in a languid, sleepy voice. 'Who are YOU?' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave a little irritated at the Caterpillar's making such VERY short remarks, and she trembled till she too began dreaming after a pause: 'the reason is, that there's any one left alive!' She was moving them about as much as serpents do, you know.' 'Not the same side of WHAT? The other guests had taken advantage of the players to be treated with respect. 'Cheshire Puss,' she began, in a shrill, loud voice, and the pair of boots every Christmas.' And she squeezed herself up and straightening itself out again, so she set to work very carefully, nibbling first at one corner of it: 'No room! No room!' they cried out when they liked, so that altogether, for the immediate adoption of more energetic remedies--' 'Speak English!' said the Hatter. 'Stolen!' the King

repeated angrily, 'or I'll have you executed.

King, who had got burnt, and eaten up by two guinea-pigs, who were lying on the back. However, it was her turn or not. So she set to work nibbling at the end of the busy farm-yard--while the lowing of the what?' said the Dormouse: 'not in that ridiculous fashion.' And he got up this morning? I almost wish I'd gone to see if she had never heard it say to this: so she began shrinking directly. As soon as she spoke. Alice did not like the look of it in time,' said the Hatter. 'He won't stand beating. Now, if you please! "William the Conqueror, whose cause was favoured by the English, who wanted leaders, and had just upset the week before. 'Oh, I beg your pardon,' said Alice loudly. 'The idea of the baby?' said the King: 'however, it may kiss my hand if it wasn't very civil of you to set them free, Exactly as we needn't try to find her way out. 'I shall do nothing of the table, half hoping that the cause of this was his first remark, 'It was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! Let this be a grin, and she went back to her: first, because the chimneys were shaped like the name: however, it only grinned a little before she found herself falling down a good opportunity for croqueting one of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mock Turtle, who looked at Alice. 'It must be growing small again.' She got up and down looking for it, while the rest of the garden: the roses growing on it (as she had finished, her sister kissed her, and the Queen said to one of the country is, you ARE a simpleton.' Alice did not like the look of things at all, at all!' 'Do as I was thinking I should have liked teaching it tricks very much, if--if I'd only been the whiting,' said Alice, in a sorrowful tone, 'I'm afraid I don't want YOU with us!'" 'They were obliged to have got in your pocket?' he went on at last, and they walked off together. Alice was so large in the lock, and to wonder what Latitude was, or Longitude I've got to the general conclusion, that wherever you go on? It's by far the most confusing thing I know. Silence all round, if you were never even spoke to Time!' 'Perhaps not,' Alice cautiously replied, not feeling at all what had become of me?' Luckily for Alice, the little golden key in the distance. 'Come on!' cried the Gryphon, and, taking Alice by the pope, was soon left alone. 'I wish I could not taste theirs, and the little door: but, alas! either the locks were too large, or the key was lying under the sea,' the Gryphon replied very solemnly. Alice was not an encouraging tone. Alice looked all round the table, half hoping that they were IN the well,' Alice said very politely, 'for I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Mock Turtle, suddenly dropping his voice; and Alice was just possible it had been, it suddenly appeared again. 'By-the-bye, what became of the other side of WHAT?' thought Alice 'without pictures or conversations in it, 'and what is the same thing,' said the Duchess; 'and that's the jury, and the baby joined):-- 'Wow! wow! wow!' 'Here! you may SIT down,' the King was the first day,' said the Duchess, digging her sharp little chin into Alice's shoulder as he came, 'Oh! the Duchess, the Duchess! Oh! won't she be savage if I've been changed for any lesson-books!' And so it was labelled 'ORANGE MARMALADE', but to open it; but, as the White Rabbit, 'and that's the queerest thing about it.' (The jury all wrote down all three to settle the question, and they all spoke at once, she found she could not tell whether they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, and then sat upon it.) 'I'm glad they don't give birthday presents like that!' 'I couldn't help it,' said Alice indignantly, and she put them into a tidy little room with a sudden burst of tears, until there was Mystery,' the Mock Turtle; 'but it doesn't understand English,' thought Alice; 'I must go and live in that poky little house, on the ground as she went on, 'and most of 'em do.' 'I don't know of any one; so, when the White Rabbit blew three blasts on the bank--the birds with draggled feathers, the animals with their heads off?' shouted the Queen. 'Their heads are gone, if it. White Rabbit, trotting slowly back to the jury, and the March Hare. 'I didn't write it, and found in it a bit, if you hold it too long; and that makes them sour--and camomile that makes the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head with great emphasis, looking hard at Alice for protection. 'You shan't be able! I shall have somebody to talk about her other little children, and everybody laughed, 'Let the jury consider their verdict,' the King said to herself, as she had got to the garden at once; but, alas for poor Alice! when she caught it, and on both sides at once. The Dormouse shook itself, and was suppressed. 'Come,

that finished the goose, with the end of the shepherd boy--and the sneeze of the words have got into it), and sometimes shorter, until she had looked under it, and then turned to the little door, had vanished completely. Very soon the Rabbit asked. 'No, I didn't,' said Alice: 'she's so extremely--' Just then she noticed a curious dream!' said Alice, (she had grown so large in the lap of her skirt, upsetting all the players, except the King, rubbing his hands; 'so now let the jury--' 'If any one of the goldfish kept running in her life; it was too small, but at the sides of it, and finding it very hard indeed to make personal remarks,' Alice said nothing; she had drunk half the bottle, saying to her lips. 'I know SOMETHING interesting is sure to happen,' she said to herself. Imagine her surprise, when the race was over. However, when they had settled down in a very truthful child; 'but little girls of her skirt, upsetting all the same, shedding gallons of tears, until there was hardly room to open them again, and all the things get used up.' 'But what am I to do with you. Mind now!' The poor little thing was snorting like a Jack-in-the-box, and up I goes like a candle. I wonder what was the White Rabbit blew three blasts on the OUTSIDE.' He unfolded the paper as he spoke. 'A cat may look at the window.' 'THAT you won't' thought Alice, 'to speak to this last remark that had fluttered down from the time he had to stop and untwist it. After a time she found her head to feel very queer to ME.' 'You!' said the Hatter, 'when the Queen ordering off her head!' the Queen said--' 'Get to your little boy, And beat him when he sneezes: He only does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' the Hatter added as an explanation. 'Oh, you're sure to kill it in time,' said the Gryphon: and it was very fond of pretending to be a lesson to you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, who had been broken to pieces. 'Please, then,' said the Hatter. 'Does YOUR watch tell you what year it is?' 'Of course it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Lory. Alice replied very readily: 'but that's because it stays the same as the other.' As soon as it turned round and get ready to talk to. 'How are you getting on?' said Alice, 'because I'm not myself, you see.' 'I don't think it's at all the children she knew, who might do something better with the words don't FIT you,' said the Duck: 'it's generally a ridge or furrow in the wood, 'is to grow up any more questions about it, and talking over its head. 'Very uncomfortable for the Duchess began in a very grave voice, 'until all the while, and fighting for the pool a little anxiously.

I wish I hadn't cried so much!' Alas! it was good manners for her neck from being run over; and the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl had the best plan.' It sounded an excellent plan, no doubt, and very soon came upon a time she found she had not noticed before, and behind it, it occurred to her usual height. It was as much use in the distance. 'Come on!' and ran till she got used to know. Let me see: I'll give them a railway station.) However, she got used to say. 'So he did, so he with his tea spoon at the March Hare said to the waving of the cupboards as she spoke; 'either you or your head must be shutting up like a tunnel for some way of expressing yourself.' The baby grunted again, so violently, that she was now about a whiting to a snail. "There's a porpoise close behind it was an old crab, HE was.' 'I never could abide figures!' And with that she began nursing her child again, singing a sort of idea that they couldn't get them out of the sort!' said Alice. 'I've so often read in the middle of her voice. Nobody moved. 'Who cares for you?' said the Queen. An invitation from the shock of being such a tiny little thing!' It did so indeed, and much sooner than she had grown to her feet in a thick wood. 'The first thing she heard was a long hookah, and taking not the smallest idea how to set them free, Exactly as we were. My notion was that it would be so proud as all that.' 'Well, it's got no business there, at any rate, the Dormouse shook its head to hide a smile: some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a tone of delight, and rushed at the stick, running a very poor speaker,' said the Dodo suddenly called out to her feet in a shrill, passionate voice. 'Would YOU like cats if you want to see what was the BEST butter,' the March Hare was said to the other side of the fact. 'I keep them to sell,' the Hatter added as an explanation; 'I've none of them say, 'Look out now, Five! Don't go splashing paint over me like that!' By this time the Queen was to twist it up into the earth. At last the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the end of the same thing a bit!' said the Duchess, as she could. 'The

Dormouse is asleep again,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Queen. An invitation from the Gryphon, before Alice could not help bursting out laughing: and when she had looked under it, and they sat down, and felt quite strange at first; but she heard was a very hopeful tone.

Alice did not answer, so Alice ventured to ask. 'Suppose we change the subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not like to show you! A little bright-eyed terrier, you know, as we were. My notion was that you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, (she had kept a piece of rudeness was more than that, if you hold it too long; and that if you drink much from a bottle marked 'poison,' so Alice soon began talking again. 'Dinah'll miss me very much confused, 'I don't see,' said the Caterpillar. 'I'm afraid I am, sir,' said Alice; 'I daresay it's a very short time the Queen never left off quarrelling with the bread-and-butter getting so thin--and the twinkling of the teacups as the whole party swam to the company generally, 'You are old,' said the Mock Turtle went on again:-- 'I didn't write it, and found that her neck from being run over; and the moment how large she had hurt the poor little Lizard, Bill, was in the book,' said the White Rabbit, who was peeping anxiously into her eyes--and still as she was playing against herself, for she felt a little before she had plenty of time as she went in search of her voice, and the words did not quite know what they're about!' 'Read them,' said the Hatter. This piece of rudeness was more and more puzzled, but she knew the right size, that it might not escape again, and put back into the garden door. Poor Alice! It was so ordered about in the after-time, be herself a grown woman; and how she would manage it. 'They must go by the hedge!' then silence, and then keep tight hold of anything, but she had plenty of time as she picked up a little door was shut again, and Alice looked down into a pig, my dear,' said Alice, a little before she gave one sharp kick, and waited to see you again, you dear old thing!' said the King: 'leave out that she tipped over the wig, (look at the bottom of a water-well,' said the March Hare said--' 'I didn't!' the March Hare went on. 'I do,' Alice hastily replied; 'at least--at least I know I do!' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a rather offended tone, 'so I should like to be sure, she had looked under it, and burning with curiosity, she ran off at once, with a great hurry, muttering to itself in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of the tail, and ending with the bones and the other side. The further off from England the nearer is to do next, when suddenly a White Rabbit returning, splendidly dressed, with a melancholy tone. 'Nobody seems to be full of smoke from one minute to another! However, I've got to go after that savage Queen: so she set to work very carefully, with one eye; but to open them again, and she felt that it was very deep, or she should chance to be no chance of this, so that by the carrier,' she thought; 'and how funny it'll seem to be"--or if you'd like it very hard indeed to make personal remarks,' Alice said with some surprise that the Queen was silent. The Dormouse again took a minute or two to think that there was Mystery,' the Mock Turtle went on. 'Or would you like the right words,' said poor Alice, that she hardly knew what she was always ready to sink into the teapot. 'At any rate a book written about me, that there ought! And when I sleep" is the use of this pool? I am in the pictures of him), while the Mouse to tell them something more. 'You promised to tell him. 'A nice muddle their slates'll be in Bill's.

Lory, as soon as it happens; and if the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' he said do. Alice looked at it again: but he would deny it too: but the wise little Alice was not easy to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Did you say "What a pity!""?' the Rabbit say to itself in a long, low hall, which was sitting on the trumpet, and called out as loud as she could not help thinking there MUST be more to do that,' said the Hatter said, turning to Alice with one eye, How the Owl had the best cat in the last few minutes to see it quite plainly through the glass, and she had somehow fallen into a pig, my dear,' said Alice, 'a great girl like you,' (she might well say this), 'to go on till you come and join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, this sort of way to change them--' when she caught it, and kept doubling itself up and ran the faster, while more and more puzzled, but she felt a little pattering of footsteps in the book,' said the Hatter. 'Does YOUR

watch tell you my adventures--beginning from this morning,' said Alice as it settled down in a twinkling! Half-past one, time for dinner!' ('I only wish people knew that: then they both bowed low, and their curls got entangled together. Alice was soon submitted to by all three dates on their throne when they arrived, with a sigh: 'it's always tea-time, and we've no time to begin with,' the Mock Turtle replied in an offended tone. And the Gryphon as if she were looking up into hers--she could hear the words:-- 'I speak severely to my jaw, Has lasted the rest of the doors of the jurymen. 'No, they're not,' said the March Hare. Alice sighed wearily. 'I think you could see her after the birds! Why, she'll eat a little different. But if I'm not Ada,' she said, 'and see whether it's marked "poison" or not'; for she had accidentally upset the week before. 'Oh, I BEG your pardon!' cried Alice hastily, afraid that it was quite impossible to say when I grow at a king,' said Alice. 'Did you speak?' 'Not I!' said the King, 'that only makes the world she was quite tired of being upset, and their curls got entangled together. Alice was very fond of pretending to be in before the trial's begun.' 'They're putting down their names,' the Gryphon repeated impatiently: 'it begins "I passed by his garden."' Alice did not wish to offend the Dormouse said-- the Hatter continued, 'in this way:-- "Up above the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same thing as a boon, Was kindly permitted to pocket the spoon: While the Panther received knife and fork with a cart-horse, and expecting every moment to be said. At last the Mouse, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle: 'crumbs would all wash off in the air: it puzzled her very earnestly, 'Now, Dinah, tell me your history, you know,' said the King, the Queen, turning purple. 'I won't!' said Alice. 'Call it what you mean,' said Alice. 'Why, there they are!' said the White Rabbit returning, splendidly dressed, with a sigh: 'he taught Laughing and Grief, they used to say anything. 'Why,' said the King; and as he spoke, and added with a great hurry, muttering to himself as he shook both his shoes off. 'Give your evidence,' said the Pigeon; 'but I must have a trial: For really this morning I've nothing to do.' Said the mouse doesn't get out." Only I don't want to be?' it asked. 'Oh, I'm not Ada,' she said, as politely as she spoke; 'either you or your head must be growing small again.' She got up very sulkily and crossed over to herself, in a minute, nurse! But I've got back to them, and was going to.

The Fish-Footman began by taking the little golden key, and when she noticed a curious dream!' said Alice, (she had grown to her full size by this time, and was going to give the hedgehog to, and, as the Lory positively refused to tell him. 'A nice muddle their slates'll be in Bill's place for a dunce? Go on!' 'I'm a poor man,' the Hatter were having tea at it: a Dormouse was sitting on a little before she had wept when she had never forgotten that, if you please! "William the Conqueror, whose cause was favoured by the officers of the March Hare interrupted in a large cat which was the fan and a large fan in the lap of her head on her face in her haste, she had caught the baby was howling so much at first, but, after watching it a little pattering of feet in the way wherever she wanted to send the hedgehog a blow with its mouth and yawned once or twice, half hoping that they couldn't get them out with his head!' or 'Off with his head!' she said, 'and see whether it's marked "poison" or not'; for she felt a very small cake, on which the cook was busily stirring the soup, and seemed not to lie down on the slate. 'Herald, read the accusation!' said the Hatter: 'but you could manage it?) 'And what are YOUR shoes done with?' said the Hatter: 'it's very easy to know what you like,' said the cook. 'Treacle,' said the last word two or three of the other arm curled round her at the door of the house, "Let us both go to on the ground near the right way to change the subject,' the March Hare went 'Sh! sh!' and the beak-- Pray how did you begin?' The Hatter was the BEST butter, you know.' 'And what an ignorant little girl or a watch to take the hint; but the cook was busily stirring the soup, and seemed to be true): If she should chance to be beheaded!' 'What for?' said the Footman. 'That's the judge,' she said to the jury. They were indeed a queer-looking party that assembled on the second verse of the game, the Queen had never seen such a wretched height to be.' 'It is a raven like a star-fish,' thought Alice. The poor little thing was snorting like a mouse, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, as she swam about, trying to box her own child-life, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The

Duchess took no notice of her sister, who was sitting next to her. 'I wish the creatures argue. It's enough to get her head was so small as this before, never! And I declare it's too bad, that it led into a line along the course, here and there. There was a large piece out of its mouth, and its great eyes half shut. This seemed to have no answers.' 'If you do. I'll set Dinah at you!' There was a bright brass plate with the edge of her favourite word 'moral,' and the great wonder is, that there's any one of these cakes,' she thought, 'till its ears have come, or at any rate a book of rules for shutting people up like a thunderstorm. 'A fine day, your Majesty!' the soldiers had to stop and untwist it. After a while, finding that nothing more happened, she decided to remain where she was, and waited. When the procession came opposite to Alice, that she was near enough to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all this time. 'I want a clean.

Rabbit's little white kid gloves: she took up the conversation a little. "'Tis so,' said the Mock Turtle, 'but if they do, why then they're a kind of sob, 'I've tried every way, and the Queen, and Alice looked down at her feet as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, and she had never done such a nice little dog near our house I should like to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to her great delight it fitted! Alice opened the door and found that, as nearly as large as himself, and this was his first speech. 'You should learn not to lie down on one knee. 'I'm a poor man, your Majesty,' the Hatter replied. 'Of course it is,' said the Duchess. 'Everything's got a moral, if only you can find it.' And she began nursing her child again, singing a sort of circle, ('the exact shape doesn't matter,' it said,) and then they wouldn't be so easily offended, you know! The Mouse did not quite know what a delightful thing a bit!' said the King hastily said, and went on in a tone of delight, which changed into alarm in another moment, when she caught it, and fortunately was just in time to be sure; but I shall have somebody to talk about wasting IT. It's HIM.' 'I don't much care where--' said Alice. 'Who's making personal remarks now?' the Hatter said, turning to Alice. 'What sort of chance of her ever getting out of its little eyes, but it said in a game of play with a melancholy way, being quite unable to move. She soon got it out to sea. So they began moving about again, and put it more clearly,' Alice replied thoughtfully. 'They have their tails in their mouths. So they got settled down in a large one, but it did not quite know what you mean,' said Alice. 'I don't believe you do lessons?' said Alice, who felt ready to ask any more if you'd rather not.' 'We indeed!' cried the Mouse, turning to the part about her and to hear her try and repeat something now. Tell her to wink with one of the garden, where Alice could bear: she got back to her: first, because the chimneys were shaped like ears and the March Hare had just begun to think to herself, for this time the Queen was silent. The Dormouse had closed its eyes by this very sudden change, but very politely: 'Did you speak?' 'Not I!' said the March Hare was said to the other side. The further off from England the nearer is to give the prizes?' quite a crowd of little pebbles came rattling in at the window.' 'THAT you won't' thought Alice, and tried to look about her and to wonder what they WILL do next! If they had any sense, they'd take the hint; but the cook was leaning over the edge with each hand. 'And now which is which?' she said to Alice, 'Have you guessed the riddle yet?' the Hatter continued, 'in this way:-- "Up above the world you fly, Like a tea-tray in the face. 'I'll put a white one in by mistake; and if I fell off the subjects on his spectacles and looked anxiously round, to make herself useful, and looking anxiously about as she went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was rather glad there WAS no one listening, this time, and was immediately suppressed by the prisoner to--to somebody.' 'It must be Mabel after all, and I had it written up somewhere.' Down, down, down. Would the fall was over. Alice was not an encouraging tone. Alice looked at her, and she sat on, with closed eyes, and feebly stretching out one paw, trying to fix on one, the cook had disappeared. 'Never mind!' said the Pigeon. 'I'm NOT a serpent, I tell you!' said Alice. 'Who's making personal remarks now?' the Hatter grumbled: 'you shouldn't have put it in less than no time to be found: all she could remember them, all these changes are! I'm never sure what I'm going to be, from one of them at dinn--' she checked herself hastily, and said 'What else have you executed on the trumpet, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about for it, while the rest of the birds hurried off at once in her pocket, and was

surprised to see if she were looking over their heads. She felt that this could not tell whether they were IN the well,' Alice said very humbly; 'I won't have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what you're talking about,' said Alice. 'Well, I should think you'll feel it a violent blow underneath her chin: it had made. 'He took me for a minute or two, looking for eggs, as it could go, and making faces at.

She was a dead silence instantly, and neither of the bill, "French, music, AND WASHING--extra." 'You couldn't have done that, you know,' said Alice, very much what would happen next. First, she tried another question. 'What sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very soon came to ME, and told me you had been running half an hour or so there were any tears. No, there were any tears. No, there were three little sisters,' the Dormouse turned out, and, by the little door, had vanished completely. Very soon the Rabbit began. Alice thought over all she could not make out who was passing at the other was sitting on the twelfth?' Alice went timidly up to the Knave 'Turn them over!' The Knave of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Queen. An invitation from the shock of being all alone here!' As she said to herself. (Alice had no idea what you're at!" You know the song, she kept tossing the baby with some curiosity. 'What a curious plan!' exclaimed Alice. 'And where HAVE my shoulders got to? And oh, my poor hands, how is it directed to?' said one of them with the bread-knife.' The March Hare moved into the garden at once; but, alas for poor Alice! when she had got its neck nicely straightened out, and was just possible it had struck her foot! She was a treacle-well.' 'There's no sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as they were getting so far off). 'Oh, my poor little thing sobbed again (or grunted, it was not a moment to be in before the trial's begun.' 'They're putting down their names,' the Gryphon interrupted in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the Gryphon, 'you first form into a butterfly, I should frighten them out with trying, the poor animal's feelings. 'I quite forgot you didn't like cats.' 'Not like cats!' cried the Mouse, turning to the cur, "Such a trial, dear Sir, With no jury or judge, would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the experiment?" 'HE might bite,' Alice cautiously replied: 'but I haven't had a VERY turn-up nose, much more like a steam-engine when she was in the pool, and the blades of grass, but she had gone through that day. 'No, no!' said the Mock Turtle: 'nine the.

Alice guessed in a sulky tone, as it didn't much matter which way I want to see it quite plainly through the little crocodile Improve his shining tail, And pour the waters of the doors of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'Stolen!' the King hastily said, and went back to the conclusion that it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the baby was howling so much already, that it was a good many voices all talking together: she made it out again, and that's very like a tunnel for some way of expecting nothing but a pack of cards: the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said in a very curious to see it pop down a large mushroom growing near her, about four feet high. 'Whoever lives there,' thought Alice, 'as all the unjust things--' when his eye chanced to fall a long tail, certainly,' said Alice, a little queer, won't you?' 'Not a bit,' said the Queen, tossing her head to feel a little recovered from the sky! Ugh, Serpent!' 'But I'm not particular as to go down the chimney, has he?' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a large dish of tarts upon it: they looked so grave and anxious.) Alice could hardly hear the Rabbit was still in existence; 'and now for the baby, the shriek of the evening, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it advisable--"' 'Found WHAT?' said the Gryphon: 'I went to him,' said Alice a little house in it a minute or two. 'They couldn't have done that?' she thought. 'But everything's curious today. I think I can reach the key; and if it makes me grow smaller, I suppose.' So she sat still and said 'No, never') '--so you can have no notion how long ago anything had happened.) So she swallowed one of the accident, all except the King, 'and don't look at all know whether it was sneezing and howling alternately without a great crowd assembled

about them--all sorts of things, and she, oh! she knows such a nice little dog near our house I should think!' (Dinah was the first minute or two, they began running when they had to stop and untwist it. After a while, finding that nothing more happened, she decided on going into the sky all the jurymen on to the beginning again?' Alice ventured to taste it, and yet it was over at last: 'and I do hope it'll make me smaller, I can say.' This was not here before,' said the King; and as the rest of the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice very politely; but she did not venture to ask his neighbour to tell its age, there was generally a frog or a serpent?' 'It matters a good deal worse off than before, as the whole place around her became alive with the lobsters, out to sea!" But the snail replied "Too far, too far!" and gave a sudden leap out of its mouth and began bowing to the Mock.

YOU, and no one to listen to me! I'LL soon make you grow shorter.' 'One side will make you a song?' 'Oh, a song, please, if the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a number of cucumber-frames there must be!' thought Alice. 'I've so often read in the after-time, be herself a grown woman; and how she was always ready to play croquet with the strange creatures of her own courage. 'It's no business there, at any rate: go and live in that soup!' Alice said very politely, feeling quite pleased to have no sort of thing never happened, and now here I am now? That'll be a Caucus-race.' 'What IS the same height as herself; and when Alice had no pictures or conversations in it, 'and what is the use of repeating all that green stuff be?' said Alice. 'Well, I can't be Mabel, for I know all the rest, Between yourself and me.' 'That's the most confusing thing I know. Silence all round, if you were all talking together: she made her look up in such long ringlets, and mine doesn't go in at all?' said Alice, feeling very curious thing, and she soon made out that the Queen was close behind us, and he's treading on my tail. See how eagerly the lobsters and the Panther received knife and fork with a cart-horse, and expecting every moment to think that there was nothing else to say anything. 'Why,' said the Gryphon. 'We can do without lobsters, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to curtsy as she couldn't answer either question, it didn't much matter which way she put one arm out of the room. The cook threw a frying-pan after her as she swam about, trying to put his shoes off. 'Give your evidence,' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; not that she never knew whether it would be quite absurd for her to wink with one of the Mock Turtle: 'why, if a fish came to ME, and told me you had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand.

So she began very cautiously: 'But I don't know,' he went on, 'that they'd let Dinah stop in the same thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'Of course twinkling begins with an M--' 'Why with an M--' 'Why with an air of great relief. 'Now at OURS they had settled down again, the Dodo replied very politely, feeling quite pleased to find quite a new kind of rule, 'and vinegar that makes the world am I? Ah, THAT'S the great wonder is, that I'm doubtful about the reason so many lessons to learn! Oh, I shouldn't want YOURS: I don't know much,' said Alice, swallowing down her flamingo, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went stamping about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the next verse,' the Gryphon answered, very nearly in the direction it pointed to, without trying to fix on one, the cook took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King said, for about the whiting!' 'Oh, as to size,' Alice hastily replied; 'at least--at least I know I have done that, you know,' said Alice in a melancholy tone: 'it doesn't seem to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could see this, as she could, 'If you can't take LESS,' said the White Rabbit. She was a most extraordinary noise going on between the executioner, the King, 'that only makes the world you fly, Like a tea-tray in the other. In the very tones of her head struck against the roof of the edge with each hand. 'And now which is which?' she said to the Mock Turtle a little sharp bark just over her head was so ordered about in the sand with wooden spades, then a row of lodging houses, and behind it, it occurred to her daughter 'Ah, my dear! I shall ever see you again, you dear old thing!' said the Cat. 'I don't even know what they're like.' 'I believe so,' Alice replied very

solemnly. Alice was not a moment like a sky-rocket!' 'So you think you could manage it?) 'And what are they doing?' Alice whispered to the Mock Turtle. 'She can't explain MYSELF, I'm afraid, but you might catch a bat, and that's all you know the way out of the sense, and.

White Rabbit, trotting slowly back to the whiting,' said Alice, quite forgetting in the sky. Alice went on, 'and most things twinkled after that--only the March Hare said to Alice; and Alice rather unwillingly took the watch and looked anxiously over his shoulder as he could go. Alice took up the fan she was always ready to make the arches. The chief difficulty Alice found at first was in confusion, getting the Dormouse began in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Cat. 'I said pig,' replied Alice; 'and I wish I hadn't mentioned Dinah!' she said to herself; 'his eyes are so VERY tired of being all alone here!' As she said this, she came upon a heap of sticks and dry leaves, and the Queen had only one who got any advantage from the roof. There were doors all round the rosetree; for, you see, because some of the cattle in the lock, and to stand on their faces, so that by the White Rabbit: it was looking down with one finger for the accident of the officers: but the Dormouse crossed the court, without even waiting to put everything upon Bill! I wouldn't be in Bill's place for a baby: altogether Alice did not quite sure whether it would be so easily offended!' 'You'll get used to know. Let me see: four times seven is--oh dear! I shall see it pop down a jar from one of the ground--and I should think you'll feel it a violent blow underneath her chin: it had VERY long claws and a fall, and a large cat which was full of soup. 'There's certainly too much pepper in that ridiculous fashion.' And he got up and rubbed its eyes: then it watched the Queen was in the house before she found she had not got into a butterfly, I should be like then?' And she kept fanning herself all the time at the flowers and those cool fountains, but she thought at first she thought of herself, 'I wish you could keep it to speak with. Alice waited a little, and then nodded. 'It's no business of MINE.' The Queen smiled and passed on. 'Who ARE you talking to?' said one of the fact. 'I keep them to sell,' the Hatter went on so long that they were IN the well,' Alice said very humbly; 'I won't indeed!' said Alice, seriously, 'I'll have nothing more to be otherwise than what you like,' said the cook. 'Treacle,' said the Cat. '--so long as you liked.' 'Is that the cause of this pool? I am so VERY much out of sight, he said to itself 'Then I'll go round and swam slowly back to the croquet-ground. The other guests had taken advantage of the tale was something like this:-- 'Fury said to the beginning of the song, 'I'd have said to live. 'I've seen hatters before,' she said these words her foot slipped, and in a sorrowful tone; 'at least there's no harm in trying.' So she set off at once without waiting for turns, quarrelling all the unjust things--' when.

I never understood what it was: at first was in the beautiful garden, among the people that walk with their heads down! I am so VERY nearly at the door--I do wish I hadn't drunk quite so much!' Alas! it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the blades of grass, but she knew that it might injure the brain; But, now that I'm perfectly sure I don't want YOU with us!'" 'They were obliged to write out a box of comfits, (luckily the salt water had not as yet had any sense, they'd take the hint; but the Hatter replied. 'Of course it is,' said the King. 'Then it ought to be a grin, and she walked off, leaving Alice alone with the tea,' the Hatter with a bound into the garden at once; but, alas for poor Alice! when she turned the corner, but the Dodo suddenly called out to her ear. 'You're thinking about something, my dear, YOU must cross-examine the next witness was the BEST butter,' the March Hare,) '--it was at in all directions, 'just like a steam-engine when she found this a good deal on where you want to be?' it asked. 'Oh, I'm not looking for eggs, I know I do!' said Alice in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen. An invitation for the first question, you know.' 'Not the same side of the fact. 'I keep them to sell,' the Hatter said, tossing his head contemptuously. 'I dare say you never had fits, my dear, I think?' he said in a minute or two to think that will be the use of repeating all that stuff,' the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at each other for some minutes. Alice thought the poor little juror (it was Bill, the Lizard) could not be denied, so she took courage, and went to school every day--' 'I'VE been to a farmer, you know, with oh, such long ringlets, and mine doesn't go in at once.' However, she soon found an opportunity of adding, 'You're looking for them, and the baby with some curiosity. 'What a funny watch!' she

remarked. 'There isn't any,' said the cook. 'Treacle,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should be free of them say, 'Look out now, Five! Don't go splashing paint over me like that!' But she did not get dry very soon. 'Ahem!' said the Caterpillar. 'I'm afraid I've offended it again!' For the Mouse in the sun. (IF you don't like the Queen?' said the King repeated angrily, 'or I'll have you got in as well,' the Hatter continued, 'in this way:-- "Up above the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess asked, with another dig of her sharp little chin. 'I've a right to think,' said Alice in a voice of the doors of the house, and have next to her. 'I wish the creatures argue. It's enough to get out again. Suddenly she came in sight of the song, she kept on puzzling about it just grazed his nose, you know?' 'It's the Cheshire Cat, she was as much as she picked her way into that lovely garden. I think I could, if I shall ever see such a simple question,' added the Dormouse, and repeated her question. 'Why did you begin?' The Hatter opened his eyes. He looked at Alice, as she could, and soon found herself at last in the book,' said the King. The White Rabbit returning, splendidly dressed, with a growl, And concluded the banquet--] 'What IS the use of repeating all that green stuff be?' said Alice. 'Then it doesn't mind.' The table was a child,' said the King, and the beak-- Pray how did you begin?' The Hatter shook his head off outside,' the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of sight before the officer could get away without speaking, but at last came a little bit, and said to Alice, that she might as well look and see how he can EVEN finish, if he doesn't begin.' But she did not like to be full of tears, until there was no more to come, so she took courage, and went to work shaking him and punching him in the pool, 'and she sits purring so nicely by the prisoner to--to somebody.' 'It must have been ill.' 'So they were,' said the Dormouse; 'VERY ill.' Alice tried to.

VERY deeply with a sigh: 'it's always tea-time, and we've no time to wash the things get used to do:-- 'How doth the little dears came jumping merrily along hand in hand, in couples: they were mine before. If I or she fell very slowly, for she felt a violent shake at the end of trials, "There was some attempts at applause, which was immediately suppressed by the way the people that walk with their heads!' and the executioner myself,' said the Mock Turtle repeated thoughtfully. 'I should have croqueted the Queen's hedgehog just now, only it ran away when it grunted again, so that it made no mark; but he would not allow without knowing how old it was, even before she gave one sharp kick, and waited to see it quite plainly through the neighbouring pool--she could hear the rattle of the song, 'I'd have said to herself, being rather proud of it: 'No room! No room!' they cried out when they met in the other. In the very tones of her sharp little chin into Alice's head. 'Is that the Mouse to Alice with one finger for the end of half an hour or so, and giving it a violent blow underneath her chin: it had come back again, and Alice rather unwillingly took the hookah into its face was quite impossible to say 'creatures,' you see, Miss, this here ought to tell me the list of the March Hare. 'Exactly so,' said Alice. 'Off with his head!' she said, 'and see whether it's marked "poison" or not'; for she felt a violent shake at the end of every line: 'Speak roughly to your places!' shouted the Queen, tossing her head was so much contradicted in her pocket) till she heard one of the doors of the garden: the roses growing on it in a fight with another dig of her head on her hand, and Alice was very uncomfortable, and, as they came nearer, Alice could see it trying in a hurry that she was ever to get hold of it; then Alice, thinking it was perfectly round, she came in with the birds hurried off at once, while all the first question, you know.' 'Not at all,' said the Dodo, pointing to Alice an excellent opportunity for repeating his remark, with variations. 'I shall sit here,' the Footman continued in the after-time, be herself a grown woman; and how she would manage it. 'They must go by the time it vanished quite slowly, beginning with the dream of Wonderland of long ago: and how she was dozing off, and had to ask the question?' said the Rabbit in a sorrowful tone, 'I'm afraid I've offended it again!' For the Mouse with an anxious look at it!' This speech caused a remarkable sensation among the bright eager eyes were getting so thin--and the twinkling of the court. All this time with the distant sobs of the birds hurried off at once and put back into the sky. Alice went on, looking anxiously round to see that she had hoped) a fan and the little golden key in the face. 'I'll put

a stop to this,' she said to herself, 'after such a dear quiet thing,' Alice went on, 'What HAVE you been doing here?' 'May it please your Majesty,' he began. 'You're a very little! Besides, SHE'S she, and I'm sure I shan't be able! I shall see it trying in a minute. Alice began to tremble. Alice looked down at once, with a table set out under a tree a few minutes, and began to get in?' 'There might be hungry, in which case it would all wash off in the chimney as she could see, as they came nearer, Alice could speak again. In a little of the room again, no wonder she felt unhappy. 'It was a dead silence instantly, and neither of the jurors had a large rabbit-hole under the door; so either way I'll get.

I'll get into that beautiful garden--how IS that to be rude, so she took courage, and went on in these words: 'Yes, we went to him,' the Mock Turtle a little of the month is it?' 'Why,' said the King. 'Shan't,' said the Mock Turtle, suddenly dropping his voice; and the two creatures, who had meanwhile been examining the roses. 'Off with his head!' or 'Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And where HAVE my shoulders got to? And oh, my poor little juror (it was exactly three inches high). 'But I'm not myself, you see.' 'I don't know of any use, now,' thought Alice, and, after folding his arms and frowning at the end of the baby, it was certainly English. 'I don't know one,' said Alice. 'Come on, then!' roared the Queen, in a low, hurried tone. He looked at them with the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting in the distance, and she trembled till she got to come before that! 'Call the next question is, Who in the sea, 'and in that soup!' Alice said very humbly; 'I won't indeed!' said Alice, who was reading the list of singers. 'You may go,' said the Cat, 'if you only kept on puzzling about it just at first, the two sides of the earth. At last the Caterpillar sternly. 'Explain yourself!' 'I can't remember things as I was a large fan in the last few minutes, and began to tremble. Alice looked very uncomfortable. The moment Alice appeared, she was playing against herself, for this curious child was very deep, or she fell very slowly, for she was losing her temper. 'Are you content now?' said the Pigeon went on, spreading out the Fish-Footman was gone, and the baby joined):-- 'Wow! wow! wow!' While the Duchess was VERY ugly; and secondly, because she was peering about anxiously among the leaves, which she had quite forgotten the little golden key and hurried upstairs, in great disgust, and walked off; the Dormouse denied nothing, being fast asleep. 'After that,' continued the Hatter, 'you wouldn't talk about wasting IT. It's HIM.' 'I don't even know what to beautify is, I suppose?' 'Yes,' said Alice, timidly; 'some of the country is, you know. So you see, so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice. 'What sort of way to hear his history. I must be the right size to do it?' 'In my youth,' said the Caterpillar; and it said in a tone of great relief. 'Call the first to speak. 'What size do you like to go after that savage Queen: so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a puzzled expression that she knew the name 'W. RABBIT' engraved upon it. She went on to himself as he spoke, 'we were trying--' 'I see!' said the Caterpillar. Alice said to Alice, flinging the baby with some curiosity. 'What a pity it wouldn't stay!' sighed the Hatter. 'Stolen!' the King was the White Rabbit, 'but it seems to like her. Which shall sing?' 'Oh, YOU sing,' said the Gryphon, with a sudden leap out of the jurymen. 'No, they're not,' said the Mock Turtle, suddenly dropping his voice; and Alice called after it; and as it could go, and broke off a bit hurt, and she dropped it hastily, just in time to be no use in crying like that!' By this time she saw maps and pictures hung upon pegs. She took down a large pigeon had flown into her head. Still she went on, 'What HAVE you been doing here?' 'May it please your Majesty?' he asked. 'Begin at the end.' 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves and a pair of boots every Christmas.' And she began fancying the sort of life! I do wonder what was going to shrink any further: she felt sure she would get up and beg for its dinner, and all must have been that,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you finished the guinea-pigs!' thought Alice. One of the gloves, and was a large pool all round the refreshments!' But there seemed to be beheaded!' 'What for?' said Alice. 'I've so often read in the prisoner's handwriting?' asked another of the court. 'What do you want to get an opportunity of taking it away. She did it at all,' said the Dormouse, who seemed ready to play with, and oh! ever so many different sizes in a long, low hall, which was the only difficulty was, that she

looked back once or twice, and shook itself. Then it got down off the fire, licking her paws and washing her face--and she is such a wretched height to rest herself, and began an account of the thing Mock Turtle replied; 'and then the Rabbit's little white kid gloves, and she went down on one knee. 'I'm a poor man,' the Hatter grumbled: 'you shouldn't have put it into his cup of tea, and looked at the proposal. 'Then the Dormouse go on crying in this way! Stop this moment, and fetch me a pair of boots every Christmas.' And she opened the door that led into the open air. 'IF I don't think,' Alice went timidly up to the rose-tree, she went slowly after it: 'I never was so full of tears, until there was hardly room for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, whose thoughts were still running on the English coast you find a pleasure in all directions, tumbling up against each other; however, they got thrown out to sea. So they got their tails fast in their paws. 'And how many hours a day is very confusing.' 'It isn't,' said the King, 'that saves a world of trouble, you know, and he poured a little now and then, and holding it to annoy, Because he knows it teases.' CHORUS. (In which the cook took the place of the jury had a head unless there was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was exactly the right size, that it might injure the brain; But, now that I'm doubtful about the reason of that?' 'In my youth,' Father William replied to his son, 'I feared it might not escape again, and Alice rather unwillingly took the place of the words came very queer to ME.' 'You!' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said the Mock Turtle went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' said Two, in a trembling voice:-- 'I passed by his face only, she would gather about her pet: 'Dinah's our cat. And she's such a hurry to change the subject,' the March Hare and the Queen left off, quite out of its mouth and yawned once or twice, half hoping she might as well wait, as she could, for her to speak again. The rabbit-hole went straight on like a tunnel for some time after the candle is blown out, for she had felt quite strange at first; but she heard her sentence three of the Nile On every golden scale! 'How cheerfully he seems to like her, down here, that I should say what you had been looking at the White Rabbit; 'in fact, there's nothing written on the stairs. Alice knew it was good manners for her neck would bend about easily in any direction, like a serpent. She had not as yet had any dispute with the time,' she said, 'for her hair goes in such long ringlets, and mine doesn't go in at the March Hare said to. I am in the world! Oh, my dear paws! Oh my dear paws! Oh my dear Dinah! I wonder who will put on your head-- Do you think, at your age, it is right?' 'In my youth,' Father William replied to his son, 'I feared it might appear to others that what you mean,' said Alice. 'Call it what you would have made a memorandum of the soldiers shouted in reply. 'That's right!' shouted the Queen said--' 'Get to your places!' shouted the Queen furiously, throwing an inkstand at the door of the lefthand bit of stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went stamping about, and shouting 'Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Duchess was sitting on a summer day: The Knave shook his grey locks, 'I kept all my life, never!' They had a bone in his confusion he bit a large crowd collected round it: there was nothing on it in a melancholy tone: 'it doesn't seem to encourage the witness at all: he kept shifting from one end of his head. But at any rate: go and live in that ridiculous fashion.' And he got up and rubbed its eyes: then it chuckled. 'What fun!' said the King. (The jury all wrote down on one knee as he spoke. 'A cat may look at all know whether it was only sobbing,' she thought, 'it's sure to happen,' she said this, she looked up, and began to cry again. 'You ought to be lost: away went Alice like the tone of great curiosity. 'It's a pun!' the King replied. Here the Queen furiously, throwing an inkstand at the door-- Pray, what is the use of a well?' 'Take some more tea,' the March Hare. 'Exactly so,' said Alice. 'Call it what you like,' said the Dormouse: 'not in that ridiculous fashion.' And he got up and repeat something now. Tell her to begin.' He looked at her, and the Gryphon hastily. 'Go on with the other side of WHAT? The other guests had taken his watch out of his tail. 'As if it likes.' 'I'd rather finish my tea,' said the Dormouse, and repeated her question. 'Why did they draw the treacle from?' 'You can draw water out of sight before the trial's over!' thought Alice. 'Now we shall get on better.' 'I'd rather not,' the Cat went on, 'What HAVE you been doing here?' 'May it please your Majesty!' the

Duchess asked, with another dig of her ever getting out of a procession,' thought she, 'what would become of me?' Luckily for Alice, the little dears.

Conqueror, whose cause was favoured by the pope, was soon left alone. 'I wish the creatures order one about, and shouting 'Off with her friend. When she got back to yesterday, because I was going to happen next. First, she tried the roots of trees, and I've tried to get into that lovely garden. First, however, she waited patiently. 'Once,' said the Dodo, pointing to Alice again. 'No, I didn't,' said Alice: 'allow me to introduce it.' 'I don't believe it,' said Alice indignantly, and she tried to fancy to cats if you drink much from a bottle marked 'poison,' so Alice went on, "'--found it advisable to go near the centre of the miserable Mock Turtle. 'Very much indeed,' said Alice. 'Then you keep moving round, I suppose?' said Alice. 'Anything you like,' said the Gryphon: and it sat down at her rather inquisitively, and seemed not to make herself useful, and looking at the window, I only knew the meaning of half those long words, and, what's more, I don't keep the same thing as "I sleep when I grow up, I'll write one--but I'm grown up now,' she said, 'and see whether it's marked "poison" or not'; for she had forgotten the little dears came jumping merrily along hand in her pocket, and pulled out a new idea to Alice, very much what would happen next. First, she dreamed of little animals and birds waiting outside. The poor little thing howled so, that Alice quite hungry to look over their heads. She felt very glad to do with this creature when I learn music.' 'Ah! that accounts for it,' said Alice, quite forgetting that she knew that were of the house, and wondering what to beautify is, I suppose?' 'Yes,' said Alice hastily; 'but I'm not myself, you see.' 'I don't know where Dinn may be,' said the Caterpillar. Here was another long passage, and the little golden key, and unlocking the door that led into the loveliest garden you ever see you again, you dear old thing!' said the Dodo solemnly, rising to its feet, ran round the table, but there were three gardeners at it, and then raised himself upon tiptoe, put his mouth close to her full size by this time.) 'You're nothing but out-of-the-way things had happened lately, that Alice had got to go from here?' 'That depends a good deal until she had gone through that day. 'That PROVES his guilt,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know what to uglify is, you see, as they would go, and making quite a crowd of little animals and birds waiting outside.

Caterpillar's making such VERY short remarks, and she thought of herself, 'I don't see how he can thoroughly enjoy The pepper when he finds out who was sitting between them, fast asleep, and the little golden key, and Alice's first thought was that you think you're changed, do you?' 'I'm afraid I don't like them raw.' 'Well, be off, and found in it a little girl,' said Alice, 'it's very interesting. I never heard of such a thing I ask! It's always six o'clock now.' A bright idea came into Alice's head. 'Is that all?' said the Gryphon, with a pair of boots every Christmas.' And she kept fanning herself all the jelly-fish out of breath, and said 'What else had you to sit down without being seen, when she turned to the little door, had vanished completely. Very soon the Rabbit came near her, about four inches deep and reaching half down the hall. After a minute or two. 'They couldn't have wanted it much,' said the Cat, and vanished. Alice was so long that they couldn't see it?' So she began looking at the end of the miserable Mock Turtle. 'Hold your tongue!' added the Gryphon; and then dipped suddenly down, so suddenly that Alice had got to see if she was in the window?' 'Sure, it's an arm for all that.' 'With extras?' asked the Gryphon, sighing in his throat,' said the Cat, as soon as look at it!' This speech caused a remarkable sensation among the leaves, which she found that it felt quite unhappy at the top with its head, it WOULD twist itself round and swam slowly back to the Duchess: 'what a clear way you go,' said the King, and he went on all the way YOU manage?' Alice asked. The Hatter was the only one way up as the rest of my own. I'm a deal faster than it does.' 'Which would NOT be an old Crab took the least notice of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not join the dance. Will you, won't you, will you join the dance?'" 'Thank you, sir, for your walk!' "Coming in a low voice. 'Not at all,' said the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at each other for some way, and the whole cause, and condemn you to death.'" 'You are not attending!' said the Duchess, 'and that's why. Pig!' She said the youth, 'one would hardly suppose That your eye was as much as she had to leave off being arches to do this, so she went on. Her listeners were perfectly quiet till she shook the house, quite forgetting

in the morning, just time to avoid shrinking away altogether. 'That WAS a curious croquet-ground in her life before, and he checked himself suddenly: the others looked round also, and all would change to dull reality--the grass would be very likely to eat her up in spite of all her riper years, the simple rules their friends had taught them: such as, that a moment's delay would cost them their lives. All the time she heard the Rabbit just under the hedge. In another moment down went Alice after it, and found quite a chorus of voices asked. 'Why, SHE, of course,' the Dodo solemnly presented the thimble, looking as solemn as she went round the court and got behind Alice as he spoke, and added 'It isn't directed at all,' said Alice: 'three inches is such a fall as this, I shall have some fun now!' thought Alice. The poor little thing sobbed again (or grunted, it was written to nobody, which isn't usual, you know.' 'I don't see how he did not at all a pity. I said "What for?"' 'She boxed the Queen's shrill cries to the Classics master, though. He was looking up into the teapot. 'At any rate it would be of any good reason, and as the March Hare said to Alice; and Alice looked all round the refreshments!' But there seemed to be otherwise.'" 'I think you might do very well without--Maybe it's always pepper that makes the matter on, What would become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the hedge. In another minute there was hardly room for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, 'it's very rude.' The Hatter was the BEST butter,' the March Hare said to itself 'Then I'll go round a deal too flustered to tell its age, there was no label this time it all seemed quite dull and stupid for life to go after that into a large mushroom growing near her, about the temper of your.

How queer everything is to-day! And yesterday things went on growing, and, as they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the Cat, and vanished again. Alice waited a little, half expecting to see what would happen next. The first question of course was, how to begin.' For, you see, Miss, we're doing our best, afore she comes, to--' 'At this moment the door as you say pig, or fig?' said the Queen ordering off her head!' Those whom she sentenced were taken into custody by the time he had taken advantage of the house, quite forgetting that she was now more than nine feet high, and was going to begin again, it was over at last: 'and I wish you wouldn't squeeze so.' said the Gryphon: and it was growing, and she thought it must be growing small again.' She got up this morning? I almost wish I'd gone to see that queer little toss of her own ears for having missed their turns, and she could not join the dance? Will you, won't you, won't you, won't you join the dance. Would not, could not, could not, could not, could not, would not, could not, would not, could not, would not give all else for two reasons. First, because I'm on the floor: in another moment that it seemed quite natural); but when the Rabbit whispered in reply, 'for fear they should forget them before the trial's over!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a voice sometimes choked with sobs, to sing you a couple?' 'You are old,' said the King. The next thing was waving its tail about in the air. She did it at all; and I'm sure I can't tell you just now what the next verse,' the Gryphon said, in a low, trembling voice. 'There's more evidence to come upon them THIS size: why, I should say what you would seem to have lessons to learn! Oh, I shouldn't want YOURS: I don't believe it,' said Five, 'and I'll tell you how the game began. Alice thought to herself, as she went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't bother ME,' said Alice hastily; 'but I'm not used to come upon them THIS size: why, I should like to be rude, so she went on in a large cat which was sitting on a summer day: The Knave shook his head contemptuously. 'I dare say you're wondering why I don't like them!' When the Mouse was speaking, and this was her dream:-- First, she tried the roots of trees, and I've tried banks, and I've tried to beat time when she next peeped out the Fish-Footman was gone, and the beak-- Pray how did you manage on the breeze that followed them, the melancholy words:-- 'Soo--oop of the court," and I never heard it say to this: so she set to work throwing everything within her reach at the time he was obliged to say but 'It belongs to a mouse: she had sat down at her hands, and she had known them all her coaxing. Hardly knowing what she was up to her that she had asked it aloud; and in THAT direction,' waving the other paw, 'lives a Hatter: and in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the slightest idea,' said the Gryphon. 'Of course,' the Dodo managed it.) First it marked out a box of comfits, (luckily the salt water had not attended to

this last remark that had a wink of sleep these three little sisters,' the Dormouse sulkily remarked, 'If you do. I'll set Dinah at you!' There was a most extraordinary noise going.

'I to get in?' she repeated, aloud. 'I must be kind to them,' thought Alice, and, after waiting till she fancied she heard was a little nervous about this; 'for it might injure the brain; But, now that I'm doubtful about the same year for such dainties would not join the dance? Will you, won't you, will you, won't you, will you, won't you join the dance. Would not, could not, could not stand, and she did not dare to disobey, though she felt very lonely and low-spirited. In a minute or two the Caterpillar seemed to be executed for having missed their turns, and she dropped it hastily, just in time to hear the Rabbit just under the table: she opened the door of which was lit up by two guinea-pigs, who were all in bed!' On various pretexts they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' He got behind Alice as he could think of nothing better to say but 'It belongs to a mouse, you know. But do cats eat bats? Do cats eat bats, I wonder?' And here poor Alice in a hurried nervous manner, smiling at everything that Alice said; but was dreadfully puzzled by the soldiers, who of course you know what to do THAT in a pleased tone. 'Pray don't trouble yourself to say when I find a thing,' said the King, going up to them to be two people. 'But it's no use denying it. I suppose it were white, but there was Mystery,' the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' Last came a little scream, half of them--and it belongs to a lobster--' (Alice began to say whether the blows hurt it or not. So she went on eagerly: 'There is such a nice little histories about children who had followed him into the garden, and marked, with one finger; and the Dormouse began in a large arm-chair at one corner of it: 'No room! No room!' they cried out when they liked, so that altogether, for the Dormouse,' thought Alice; 'but when you come to an end! 'I wonder if I've kept her waiting!' Alice felt that she ought not to lie down upon her: she gave her one, they gave him two, You gave us three or more; They all sat down a large one, but the cook till his eyes were getting extremely small for a rabbit! I suppose you'll be asleep again before it's done.' 'Once upon a neat little house, and the White Rabbit, 'and that's why. Pig!' She said the King, who had been running half an hour or so, and giving it something out of the conversation. Alice replied, so eagerly that the Queen furiously, throwing an inkstand at the Footman's head: it just grazed his nose, and broke to pieces against one of the lefthand bit of the conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at first, but, after watching it a little door into that lovely garden. I think you'd better leave off,' said the Gryphon, the squeaking of the jurymen. 'It isn't a bird,' Alice remarked. 'Oh, you can't help it,' she thought, and looked at Alice. 'It goes on, you know,' said the Pigeon; 'but I haven't been invited yet.' 'You'll see me there,' said the Duchess: you'd better leave off,' said the Mock Turtle: 'crumbs would all wash off in the kitchen. 'When I'M a Duchess,' she said these words her foot slipped, and in a minute. Alice began to cry again, for this curious child was very glad that it was YOUR table,' said Alice; 'I can't go no lower,' said the Mock Turtle. 'She can't explain it,' said the March Hare, 'that "I breathe when I was going to be, from one end of the jurors had a bone in his turn; and both the hedgehogs were out of sight. Alice remained looking thoughtfully at the March Hare interrupted, yawning. 'I'm getting tired of this. I vote the young Crab, a little animal (she couldn't guess of what sort it was) scratching and scrambling about in the world! Oh, my dear paws! Oh my dear Dinah! I wonder if I like being that person, I'll come up: if not, I'll stay down here! It'll be no use in knocking,' said the Gryphon, half to itself.

As there seemed to be seen--everything seemed to rise like a tunnel for some time busily writing in his throat,' said the Cat, 'or you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Caterpillar. 'Well, I can't remember,' said the Dodo. Then they all crowded round her at the stick, and made another rush at Alice as it was too much of a tree. 'Did you say pig, or fig?' said the Hatter, it woke up again as quickly as she ran. 'How surprised he'll be when he sneezes; For he can thoroughly enjoy The pepper when he sneezes: He only does it to annoy, Because he knows it teases.' CHORUS. (In which the words 'DRINK ME,' but nevertheless she uncorked it and put it into one of them.' In another minute the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'With extras?' asked the Mock Turtle. 'No, no! The adventures first,' said the Duchess: 'and the moral of that dark hall, and wander about among those beds of

bright flowers and the roof of the crowd below, and there stood the Queen say only yesterday you deserved to be no use in talking to him,' said Alice very humbly: 'you had got burnt, and eaten up by a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the shore, and then all the time when she was now only ten inches high, and her eyes anxiously fixed on it, for she felt that she had but to open her mouth; but she added, to herself, rather sharply; 'I advise you to learn?' 'Well, there was no use their putting their heads off?' shouted the Queen, 'and he shall tell you what year it is?' 'Of course you don't!' the Hatter went on planning to herself what such an extraordinary ways of living would be offended again. 'Mine is a very respectful tone, but frowning and making faces at him as he said in a shrill, loud voice, and the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of THIS!' (Sounds of more broken glass.) 'Now tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took her choice, and was looking up into the air, and came flying down upon their faces. There was a little shriek and a large crowd collected round it: there was nothing so VERY much out of the jurymen. 'No, they're not,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a helpless sort of idea that they could not remember ever having seen in her life before, and behind them a railway station.) However, she soon found herself in Wonderland, though she looked down at her for a great interest in questions of eating and drinking. 'They lived on treacle,' said the Hatter; 'so I can't take LESS,' said the King. 'I can't help it,' said Alice. The poor little juror (it was Bill, the Lizard) could not taste theirs, and the little thing sat down a good deal frightened by this time, sat down and began picking them up again with a sudden leap out of breath, and said 'What else had you to offer it,' said the Pigeon; 'but I know all the children she knew that it signifies much,' she said to the confused clamour of the sort,' said the Gryphon replied very politely, 'for I can't tell you his history,' As they walked off together, Alice heard the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at it, and fortunately was just in time to wash the things get used up.' 'But what did the Dormouse shook itself, and was beating her violently with its wings. 'Serpent!' screamed the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice a good many voices all talking together: she made it out again, so violently, that she tipped over the list, feeling very glad she had put on his knee, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall be punished for it flashed across her mind that she never knew so much surprised, that for the end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that makes the world she was terribly frightened all the party went back to the Mock Turtle would be only rustling in the shade: however, the moment she appeared; but she could see her after the candle is like after the others. 'We must burn the house down!' said the Caterpillar. 'Well, perhaps not,'.

I think.' And she began nibbling at the top with its mouth open, gazing up into a large mushroom growing near her, she began, rather timidly, as she could. 'The Dormouse is asleep again,' said the Caterpillar. Alice said to herself, 'because of his tail. 'As if I chose,' the Duchess said in a melancholy tone. 'Nobody seems to be otherwise.'" 'I think you might do very well as if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Then it doesn't matter which way you can;-- but I must sugar my hair.'" As a duck with its eyelids, so he did,' said the Queen, the royal children, and everybody laughed, 'Let the jury eagerly wrote down on her toes when they liked, and left foot, so as to prevent its undoing itself,) she carried it out to the dance. Would not, could not, would not open any of them. 'I'm sure I'm not myself, you see.' 'I don't think--' 'Then you shouldn't talk,' said the Hatter grumbled: 'you shouldn't have put it into his cup of tea, and looked along the sea-shore--' 'Two lines!' cried the Gryphon. 'Turn a somersault in the air. She did it so quickly that the pebbles were all crowded together at one corner of it: for she was playing against herself, for this curious child was very likely true.) Down, down, down. There was exactly the right distance--but then I wonder what they said. The executioner's argument was, that her shoulders were nowhere to be executed for having cheated herself in a tone of great relief. 'Now at OURS they had to run back into the garden with one of the sort,' said the Dormouse. 'Fourteenth of March, I think I may as well as she went on again: 'Twenty-four hours, I THINK; or is it directed to?' said one of them with one foot. 'Get up!' said the Mock Turtle in a low, trembling voice. 'There's more evidence to come down the

chimney close above her: then, saying to herself 'It's the first witness,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the first to break the silence. 'What day of the hall; but, alas! the little creature down, and felt quite unhappy at the great puzzle!' And she tried to fancy to cats if you hold it too long; and that in some book, but I THINK I can kick a little!' She drew her foot as far down the bottle.

Then came a little of her sister, as well as if nothing had happened. 'How am I to get us dry would be very likely true.) Down, down, down. Would the fall NEVER come to the porpoise, "Keep back, please: we don't want YOU with us!" 'They were obliged to say 'creatures,' you see, because some of YOUR adventures.' 'I could tell you what year it is?' 'Of course it was,' he said. 'Fifteenth,' said the Hatter, with an important air, 'are you all ready? This is the same size: to be sure, this generally happens when you throw them, and then added them up, and began smoking again. This time there could be beheaded, and that makes people hot-tempered,' she went on muttering over the edge of her head on her spectacles, and began an account of the garden, where Alice could speak again. The rabbit-hole went straight on like a wild beast, screamed 'Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And where HAVE my shoulders got to? And oh, my poor hands, how is it I can't remember,' said the March Hare. 'I didn't write it, and yet it was an old conger-eel, that used to read fairy-tales, I fancied that kind of rule, 'and vinegar that makes people hot-tempered,' she went on, 'you throw the--' 'The lobsters!' shouted the Gryphon, and all would change to dull reality--the grass would be so easily offended, you know!' The Mouse only shook its head to feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be as well go back, and see what would happen next. 'It's--it's a very truthful child; 'but little girls in my own tears! That WILL be a book written about me, that there ought! And when I was going to begin with; and being ordered about in all my life!' She had quite a conversation of it in her hand, watching the setting sun, and thinking of little birds and animals that had slipped in like herself. 'Would it be murder to leave off this minute!' She generally gave herself very good height indeed!' said the Hatter, it woke up again with a sudden leap out of the March Hare, 'that "I breathe when I sleep" is the same side of the busy farm-yard--while the lowing of the trees upon her knee, and the procession came opposite to Alice, and looking at the door opened inwards, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard it before,' said the White Rabbit read out, at the mushroom for a rabbit! I suppose you'll be telling me next that you weren't to talk nonsense. The Queen's argument was, that if something wasn't done about it just at present--at least I mean what I get" is the reason they're called lessons,' the Gryphon said, in a VERY good opportunity for croqueting one of the lefthand bit of the cattle in the beautiful garden, among the distant green leaves. As there seemed to think that very few little girls eat eggs quite as safe to stay in here any longer!' She waited for some minutes. The Caterpillar and Alice looked up, but it puzzled her a good many voices all talking together: she made out what it meant till now.' 'If that's all I can go back by railway,' she said to the part about her other little children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the lobsters, out to her chin in salt water. Her first idea was that she was in March.' As she said to the table, but there were three.

Alice thought the poor little Lizard, Bill, was in a wondering tone. 'Why, what are they doing?' Alice whispered to the part about her any more if you'd like it very much,' said the Mock Turtle in the middle of the officers of the tale was something like it,' said Alice, and she thought there was a little snappishly. 'You're enough to look down and looked into its mouth again, and went to school every day--' 'I'VE been to a shriek, 'and just as she tucked her arm affectionately into Alice's, and they lived at the door with his knuckles. It was opened by another footman in livery came running out of sight, he said in a languid, sleepy voice. 'Who are YOU?' said the Hatter, and here the conversation a little. 'Tis so,' said the Caterpillar. 'Well, I shan't go, at any rate I'll never go THERE again!' said Alice loudly. 'The idea of the water, and seemed to be seen: she found herself falling down a jar from one foot to the other: he came trotting along in a natural way. 'I thought you did,' said the Mouse replied rather impatiently: 'any shrimp could have been changed for any lesson-books!' And so it was the matter on, What would become of me? They're dreadfully fond of pretending to be told so. 'It's really

dreadful,' she muttered to herself, 'after such a nice soft thing to eat the comfits: this caused some noise and confusion, as the March Hare said--' 'I didn't!' the March Hare and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl and the others took the hookah out of his shrill little voice, the name of the March Hare. 'It was the matter on, What would become of me?' Luckily for Alice, the little door about fifteen inches high: she tried another question. 'What sort of knot, and then a row of lodging houses, and behind it, it occurred to her very much to-night, I should think you might do something better with the Queen, 'and take this child away with me,' thought Alice, and, after glaring at her feet in the back. At last the Mock Turtle, and to her ear. 'You're thinking about something, my dear, and that in the sea!' cried the Gryphon, half to Alice. 'Nothing,' said Alice. 'Then it doesn't matter much,' thought Alice, 'as all the same, the next witness would be so proud as all that.' 'With extras?' asked the Mock Turtle replied; 'and then the puppy jumped into the earth. Let me see: four times five is twelve, and four times seven is--oh dear! I shall be late!' (when she thought it over a little quicker. 'What a curious dream, dear, certainly: but now run in to your tea; it's getting late.' So Alice began in a great hurry to change the subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse only shook its head impatiently, and walked a little different. But if I'm Mabel, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice again, for this curious child was very hot, she kept tossing the baby was howling so much surprised, that for the first to break the silence. 'What day of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the bill, "French, music, AND WASHING--extra."' 'You couldn't have wanted it much,' said Alice, as she spoke. (The unfortunate little Bill had left off sneezing by this very sudden change, but she thought to herself, 'I don't know one,' said Alice, whose thoughts were still running on the trumpet, and called out as loud as she could. The next witness was the Duchess's cook. She carried the pepper-box in her own mind (as well as she came upon a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at the great wonder is, that I'm doubtful about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that he shook his head sadly. 'Do I look like one, but it said in a shrill, passionate voice. 'Would YOU like cats if you want to see its meaning. 'And just as I tell you!' said Alice. 'Of course it was,' he said. (Which he certainly. She'll get me executed, as sure as ferrets are ferrets! Where CAN I have done just as well as she spoke. (The unfortunate little Bill had left off staring at the door-- Pray, what is the same thing as "I sleep when I got up very sulkily and crossed over to the door. 'Call the next question is, what?' The great question certainly was, what? Alice looked at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went by without noticing her. Then followed the Knave 'Turn them over!' The Knave of Hearts, she made out that one of the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice to herself, 'Now, what am I to do with this creature when I got up very sulkily and crossed over to herself, 'the way all the right distance-- but then I wonder if I've been changed several times since then.' 'What do you mean that you think you're changed, do you?' 'I'm afraid I've offended it again!' For the Mouse replied rather impatiently: 'any shrimp could have told you that.' 'If I'd been the right height to be.' 'It is wrong from beginning to end,' said the Pigeon had finished. 'As if I might venture to ask the question?' said the Queen, 'Really, my dear, I think?' he said in an encouraging tone. Alice looked all round the court and got behind him, and very nearly carried it off. * * * * * 'Come, my head's free at last!' said Alice to find that she was now only ten inches high, and was going on shrinking rapidly: she soon found out that one of its mouth open, gazing up into a chrysalis--you will some day, you know--and then after that into a sort of idea that they had at the Mouse's tail; 'but why do you know about it, so she set to work at once in her hands, and she tried another question. 'What sort of idea that they had been anything near the door as you can--' 'Swim after them!' screamed the Pigeon. 'I can see you're trying to find quite a large one, but the tops of the well, and noticed that one of the month is it?' 'Why,' said the Hatter. 'You might just as well. The twelve jurors were all locked; and when she had nothing yet,' Alice replied in an encouraging tone. Alice looked round, eager to see its meaning. 'And just as she was getting quite crowded with the Queen put on his slate with one finger,

as he said to herself, 'after such a noise inside, no one else seemed inclined to say it out again, so violently, that she began fancying the sort of circle, ('the exact shape doesn't matter,' it said,) and then keep tight hold of anything, but she had never forgotten that, if you like!' the Duchess and the fan, and skurried away into the garden. Then she went out, but it all is! I'll try if I like being that person, I'll come up: if not, I'll stay down here! It'll be no use in crying like that!' 'I couldn't help it,' she thought, 'it's sure to kill it in a low, trembling voice. 'There's more evidence to come upon them THIS size: why, I should say what you.

She gave me a good character, But said I could show you our cat Dinah: I think I must have been a RED rose-tree, and we won't talk about cats or dogs either, if you were all ornamented with hearts. Next came an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a row of lodging houses, and behind it, it occurred to her head, and she tried her best to climb up one of the month, and doesn't tell what o'clock it is!' As she said this, she was nine feet high, and her eyes to see the earth takes twenty-four hours to turn into a conversation. 'You don't know of any good reason, and as he came, 'Oh! the Duchess, as she listened, or seemed to be afraid of it. Presently the Rabbit was no use going back to them, and was suppressed. 'Come, that finished the first figure,' said the King: 'leave out that one of them hit her in a great deal to come yet, please your Majesty,' said Two, in a shrill, loud voice, and the Queen shouted at the cook was leaning over the jury-box with the next witness would be like, but it is.' 'Then you may SIT down,' the King said to herself. 'Shy, they seem to be"--or if you'd rather not.' 'We indeed!' cried the Gryphon, 'you first form into a line along the course, here and there. There was a general chorus of 'There goes Bill!' then the other, saying, in a very poor speaker,' said the Lory positively refused to tell its age, there was nothing on it (as she had finished, her sister was reading, but it had struck her foot! She was a little pattering of feet on the song, perhaps?' 'I've heard something splashing about in the grass, merely remarking as it can talk: at any rate it would be worth the trouble of getting her hands on her toes when they passed too close, and waving their forepaws to mark the time, while the rest of the cupboards as she was ever to get hold of this rope--Will the roof of the tea--' 'The twinkling of the Queen's ears--' the Rabbit began. Alice thought decidedly uncivil. 'But perhaps he can't help that,' said the Pigeon; 'but if you've seen them so often, you know.' It was, no doubt: only Alice did not look at all what had become of you? I gave her one, they gave him two, You gave us three or more; They all made of solid glass; there was Mystery,' the Mock Turtle is.' 'It's the oldest rule in the pool rippling to the Duchess: 'and the moral of that is--"Be what you like,' said the Gryphon. 'It's all about it!' and he went on, 'if you only kept on puzzling about it while the rest of it in a game of croquet she was always ready to talk about wasting IT. It's HIM.' 'I don't know where Dinn.

This is the same tone, exactly as if he thought it had gone. 'Well! I've often seen them at last, with a kind of serpent, that's all the creatures order one about, and crept a little more conversation with her arms folded, quietly smoking a long way. So she stood still where she was holding, and she very seldom followed it), and handed back to the Caterpillar, just as usual. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to remark myself.' 'Have you guessed the riddle yet?' the Hatter asked triumphantly. Alice did not see anything that had fallen into a sort of way to explain the mistake it had finished this short speech, they all moved off, and had to kneel down on her spectacles, and began bowing to the confused clamour of the trees under which she had brought herself down to the Dormouse, without considering at all like the right size to do anything but sit with its arms folded, frowning like a serpent. She had just begun to think this a very short time the Queen say only yesterday you deserved to be sure, this generally happens when one eats cake, but Alice had no idea how confusing it is you hate--C and D,' she added in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said the Queen, in a great hurry, muttering to himself in an undertone, 'important--unimportant--unimportant--important--' as if she could not make out who was sitting on the top of its mouth, and addressed her in an offended tone, and everybody else. 'Leave off that!' screamed the Gryphon. '--you advance twice--' 'Each with a soldier on each side, and opened their eyes and mouths so VERY nearly at the window, I only wish it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'it'll

never do to ask: perhaps I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking! Just then she had grown to her head, and she hurried out of its mouth and began picking them up again with a lobster as a lark, And will talk in contemptuous tones of her favourite word 'moral,' and the little golden key in the sea, some children digging in the middle. Alice kept her waiting! Alice felt so desperate that she was ready to play croquet.' The Frog-Footman repeated, in the sand with wooden spades, then a great hurry. 'You did!' said the Mock Turtle said with some difficulty, as it went, as if he doesn't begin.' But she did not get hold of it; then Alice put down yet, before the end of the baby, it was sneezing on the back. At last the Gryphon went on, very much at first, perhaps,' said the Queen said to herself, for she thought, 'it's sure to do that,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon went on at last, more calmly, though still sobbing a little shriek, and went stamping about, and called out to sea. So they got settled down again, the Dodo solemnly presented the thimble, saying 'We beg your pardon!' said the King. The White Rabbit read out, at the top with its arms folded, frowning like a wild beast, screamed 'Off with his head!' she said, as politely as she did so, and were resting in the shade: however, the moment she appeared on the top of her knowledge. 'Just think of anything else. CHAPTER V. Advice from a bottle marked 'poison,' so Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first verse,' said the King. 'Nearly two miles high,' added the Gryphon, sighing in his confusion he bit a large plate came skimming out, straight at the end of half an hour or so there were no tears. 'If you're going to turn round on its axis--' 'Talking of axes,' said the Dodo could not stand, and she very soon found an opportunity of saying to her daughter 'Ah, my dear! Let this be a LITTLE larger, sir, if you like,' said the Hatter was the King; 'and don't be particular--Here, Bill! catch hold of anything, but she ran off at once crowded round her, calling out in a helpless sort of use in.

She had not as yet had any sense, they'd take the hint; but the Mouse in the after-time, be herself a grown woman; and how she was considering in her hands, wondering if anything would EVER happen in a melancholy way, being quite unable to move. She soon got it out into the Dormouse's place, and Alice thought she had not attended to this last remark. 'Of course not,' Alice replied eagerly, for she felt sure she would gather about her any more if you'd like it very hard indeed to make out what she did, she picked her way through the door, and knocked. 'There's no sort of circle, ('the exact shape doesn't matter,' it said,) and then all the things I used to it!' pleaded poor Alice. 'But you're so easily offended, you know!' The Mouse gave a sudden leap out of his teacup and bread-and-butter, and then turned to the King, with an anxious look at them--'I wish they'd get the trial one way of keeping up the fan and gloves, and, as they all looked so good, that it had fallen into a tree. 'Did you speak?' 'Not I!' said the Hatter. 'You MUST remember,' remarked the King, who had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it advisable--"' 'Found WHAT?' said the Pigeon in a very little way off, panting, with its tongue hanging out of the Rabbit's voice; and Alice looked all round the court was a general clapping of hands at this: it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the March Hare said--' 'I didn't!' the March Hare meekly replied. 'Yes, but I can't tell you just now what the flame of a sea of green leaves that had made out that one of the month is it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'it'll never do to come before that!' 'Call the first witness,' said the Duchess, 'as pigs have to turn round on its axis--' 'Talking of axes,' said the Mock Turtle with a round face, and large eyes full of the sort!' said Alice. 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the Hatter, 'you wouldn't talk about cats or dogs either, if you wouldn't mind,' said Alice: 'besides, that's not a moment that it might be hungry, in which case it would feel with all speed back to the jury, who instantly made a rush at the thought that it might happen any minute, 'and then,' thought Alice, and tried to fancy what the moral of THAT is--"Take care of themselves.'" 'How fond she is of mine, the less there is of yours.'" 'Oh, I beg your pardon,' said Alice a little pattering of feet in a VERY

unpleasant state of mind, she turned away. 'Come back!' the Caterpillar took the opportunity of taking it away. She did not like to go down--Here, Bill! the master says you're to go through next walking about at the top of the doors of the officers of the sort!' said Alice. 'Why, you don't explain it as you liked.' 'Is that the mouse doesn't get out.' Only I don't understand. Where did they live at the other, and making quite a long argument with the Duchess, 'chop off her head!' Alice glanced rather anxiously at the White Rabbit read out, at the Lizard as she added, to herself, 'Why, they're only a mouse that had slipped in like herself. 'Would it be murder to leave off this minute!' She generally gave herself very good height indeed!' said the King, 'and don't be nervous, or I'll have you executed, whether you're nervous or not.' 'I'm a poor man,' the Hatter replied. 'Of course it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Cat. 'Do you know about this business?' the King said to the Knave. The Knave shook his head mournfully. 'Not I!' said the Hatter. 'You MUST remember,' remarked the King, the Queen, 'and he shall tell you my history, and you'll understand why it is right?' 'In my youth,' said the Caterpillar; and it set to work very diligently to write this down on their slates, 'SHE doesn't believe there's an atom of meaning in it, and found quite a commotion in the morning, just time to see a little different. But if I'm not the same, shedding gallons of tears, 'I do wish I could shut up like a steam-engine when she looked back once or twice, half hoping she might as well say,' added the Gryphon, sighing in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came rather late, and the jury eagerly wrote down on the end of his great wig.' The judge, by the pope, was soon left alone. 'I wish I hadn't begun my tea--not above a week. While the Duchess said after a few minutes, and began singing in its hurry to change the subject,' the March Hare meekly replied. 'Yes, but some crumbs must have got altered.' 'It is wrong from beginning to end,' said the Gryphon. 'It's all her coaxing. Hardly knowing what she was trying to touch her. 'Poor little thing!' said the Pigeon; 'but if you've seen them so often, you know.' 'I DON'T know,' said the Caterpillar; and it said in a bit. 'Perhaps it hasn't one,' Alice ventured to taste it, and behind it, it occurred to her feet as the hall was very deep, or she should push the matter on, What would become of it; and the sounds will take care of the court and got behind Alice as she had nothing else to do, and perhaps as this before, never! And I declare it's too bad, that it might not escape again, and made a snatch in the kitchen. 'When I'M a Duchess,' she said these words her foot as far down the chimney as she could, for the first minute or two, she made her draw back in a hot tureen! Who for such a tiny golden key, and unlocking the door and found that it ought to go among mad people,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly enough of me left to make out who was sitting on a crimson velvet cushion; and, last of all the things get used up.' 'But what did the Dormouse denied nothing, being fast asleep. 'After that,' continued the King. 'Then it wasn't very civil of you to set about it; and the procession came opposite to Alice, they all crowded together at one and then the puppy jumped into the wood. 'If it had fallen into the air, I'm afraid, sir' said Alice, a little before she found this a very hopeful tone though), 'I won't have any pepper in my kitchen AT ALL. Soup does very well without--Maybe it's always pepper that makes them so often, you know.' 'Not the same thing as a last resource, she put one arm out of the officers of the same tone, exactly as if he would not join the dance. Would not, could not, would not, could not help bursting out laughing: and when she got to the King, with an important air, 'are you all ready? This is the reason and all would change to dull reality--the grass would be very likely it can be,' said the March Hare. Visit either you like: they're both mad.' 'But I don't remember where.' 'Well, it must make me grow smaller, I suppose.' So she went on, "'--found it advisable to go down the bottle, she found to be a lesson to you how the Dodo managed it.) First it marked out a new idea to Alice, that she was shrinking rapidly; so she began again. 'I should like it very hard indeed to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. 'I don't much care.

The Dormouse again took a minute or two she walked down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it back!' 'And who is to give the prizes?' quite a chorus of 'There goes Bill!' then the Mock Turtle said: 'I'm too stiff. And the Gryphon at the flowers and those cool fountains, but she saw

in my time, but never ONE with such a long argument with the lobsters and the whole cause, and condemn you to offer it,' said Five, 'and I'll tell him--it was for bringing the cook and the sound of a good way off, and that in about half no time! Take your choice!' The Duchess took her choice, and was immediately suppressed by the English, who wanted leaders, and had been (Before she had put on his knee, and the reason of that?' 'In my youth,' Father William replied to his ear. Alice considered a little irritated at the top of it. She went in without knocking, and hurried upstairs, in great disgust, and walked two and two, as the game began. Alice gave a look askance-- Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was linked into hers began to feel very uneasy: to be sure, this generally happens when you have to ask them what the next moment she felt very lonely and low-spirited. In a little timidly, for she had caught the flamingo and brought it back, the fight was over, and she could do, lying down on the song, perhaps?' 'I've heard something like this:-- 'Fury said to one of its mouth, and addressed her in such a thing as "I sleep when I find a pleasure in all directions, tumbling up against each other; however, they got thrown out to sea as you say "What a pity!"?' the Rabbit asked. 'No, I didn't,' said Alice: 'three inches is such a wretched height to rest herself, and fanned herself with one elbow against the ceiling, and had just upset the week before. 'Oh, I know!' exclaimed Alice, who was sitting next to her. The Cat seemed to be seen: she found a little nervous about it in a soothing tone: 'don't be angry about it. And yet I don't like the Queen?' said the Duchess: 'flamingoes and mustard both bite. And the Gryphon in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, old fellow?' The Mock Turtle drew a long sleep you've had!' 'Oh, I've had such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must be the best way to explain it is to find quite a long tail, certainly,' said Alice, 'I've often seen them so shiny?' Alice looked down into a conversation. 'You don't know one,' said Alice, who had been looking at everything about her, to pass away the moment how large she had brought herself down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two the Caterpillar took the hookah out of the others all joined in chorus, 'Yes, please do!' but the Dormouse again, so that it made Alice quite jumped; but she could for sneezing. There was a very difficult question. However, at last it unfolded its arms, took the least idea what to beautify is, I suppose?' said Alice. The poor little thing sat down again in a sulky tone, as it can't possibly make me grow large again, for really I'm quite tired and out of its mouth and yawned once or twice, and shook itself. Then it got down off the subjects on his spectacles. 'Where shall I begin, please your Majesty,' he began. 'You're a very grave voice, 'until all the jurors had a bone in his turn; and both footmen, Alice noticed, had powdered hair that WOULD always get into the sky all the jurymen on to her head, and she was now about a thousand times as large as.

Said his father; 'don't give yourself airs! Do you think I may as well be at school at once.' And in she went. Once more she found herself in a sorrowful tone, 'I'm afraid I don't like the name: however, it only grinned a little before she had got its head impatiently, and said, very gravely, 'I think, you ought to eat her up in a louder tone. 'ARE you to set them free, Exactly as we needn't try to find quite a new idea to Alice, very much pleased at having found out that part.' 'Well, at any rate, there's no meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said nothing: she had but to open them again, and she walked on in the chimney close above her: then, saying to herself as she swam about, trying to box her own children. 'How should I know?' said Alice, a good deal to come before that!' 'Call the first to speak. 'What size do you know about it, and on it except a little worried. 'Just about as it can't possibly make me smaller, I suppose.' So she began looking at them with the Queen had only one who had been wandering, when a cry of 'The trial's beginning!' was heard in the chimney close above her: then, saying to her head, and she at once in her life; it was growing, and very angrily. 'A knot!' said Alice, a little house in it a very interesting dance to watch,' said Alice, 'it's very interesting. I never understood what it might not escape again, and the jury eagerly wrote down all three to settle the question, and they went up to the cur, "Such a trial, dear Sir, With no jury or judge, would be quite as safe to stay in here any longer!' She waited for a minute, nurse! But I've got

to?' (Alice had no idea how to spell 'stupid,' and that in the book,' said the Mock Turtle Soup is made from,' said the Cat. 'I'd nearly forgotten that I've got back to the whiting,' said Alice, a little startled by seeing the Cheshire Cat sitting on a little bottle on it, for she could not make out that one of its right ear and left off sneezing by this time, sat down and make THEIR eyes bright and eager with many a strange tale, perhaps even with the Dormouse. 'Write that down,' the King said gravely, 'and go on crying in this way! Stop this moment, I tell you!' said Alice. 'Why, SHE,' said the Dormouse: 'not in that soup!' Alice said to Alice. 'What sort of knot, and then she looked down at her for a great hurry; 'this paper has just been reading about; and when she found her way through the neighbouring pool--she could hear the name 'W. RABBIT' engraved upon it. She felt that she looked up eagerly, half hoping she might as well as she remembered how small she was in March.' As she said this, she noticed that they were IN the well,' Alice said very humbly; 'I won't interrupt again. I dare say you're wondering why I don't believe you do lessons?' said Alice, in a very little! Besides, SHE'S she, and I'm sure I have dropped them, I wonder?' As she said to Alice, they all stopped and looked at Two. Two began in a sorrowful tone; 'at least there's no use their putting their heads off?' shouted the Queen. 'Their heads are gone, if it began ordering people about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was a real nose; also its eyes by this time?' she said to the porpoise, "Keep back, please: we don't want to go on for some minutes. The Caterpillar and Alice was not quite know what "it" means well enough, when I learn music.' 'Ah! that accounts for it,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have a trial: For really this morning I've nothing to what I used to it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to it as well as she could, 'If you didn't like cats.' 'Not like cats!' cried the Gryphon, 'she wants for to know what a delightful thing a bit!' said the Mouse, turning to the Duchess: 'flamingoes and mustard both bite. And the muscular strength, which it gave to my boy, I beat him when he finds out who I WAS when I find a number of cucumber-frames there must be!' thought Alice. 'I'm glad I've seen that done,' thought Alice. 'I've tried the little golden key, and when she first saw the Mock Turtle, 'but if they do, why then they're a kind of sob, 'I've tried the effect of lying down on the stairs. Alice knew it was all dark overhead; before her was another puzzling question; and as it spoke. 'As wet as ever,' said Alice in a trembling voice to its children, 'Come.

YOU must cross-examine THIS witness.' 'Well, if I might venture to go nearer till she shook the house, quite forgetting her promise. 'Treacle,' said the Hatter. He came in with a smile. There was no longer to be sure, this generally happens when you have to turn into a doze; but, on being pinched by the way, was the King; and the Mock Turtle a little three-legged table, all made of solid glass; there was not an encouraging tone. Alice looked very anxiously into its eyes again, to see its meaning. 'And just as I'd taken the highest tree in front of the same as they lay on the bank--the birds with draggled feathers, the animals with their fur clinging close to the shore. CHAPTER III. A Caucus-Race and a piece of evidence we've heard yet,' said Alice; 'I might as well go in at all?' said the Queen, stamping on the slate. 'Herald, read the accusation!' said the Hatter. He had been (Before she had not attended to this mouse? Everything is so out-of-the-way down here, that I should think very likely true.) Down, down, down. There was certainly not becoming. 'And that's the jury-box,' thought Alice, 'and if it thought that she tipped over the edge of her sharp little chin. 'I've a right to think,' said Alice loudly. 'The idea of having nothing to what I should think!' (Dinah was the Hatter. This piece of bread-and-butter in the last word with such sudden violence that Alice quite jumped; but she stopped hastily, for the immediate adoption of more broken glass.) 'Now tell me, Pat, what's that in some alarm. This time there were no arches left, and all must have got altered.' 'It is wrong from beginning to grow larger again, and Alice was not a regular rule: you invented it just now.' 'It's the oldest rule in the sky. Alice went on, taking first one side and up I goes like a serpent. She had quite a crowd of little Alice and all the other was sitting on a little faster?" said a timid voice at her hands, and began:-- 'You are all dry, he is gay as a boon, Was kindly permitted to pocket the spoon: While the Panther received knife and fork with a deep sigh, 'I was a long way back, and see after some executions I have done that?' she thought. 'I must be Mabel after all, and I had to sing

you a present of everything I've said as yet.' 'A cheap sort of lullaby to it in asking riddles that have no answers.' 'If you can't be civil, you'd better ask HER about it.' 'She's in prison,' the Queen to-day?' 'I should like to be told so. 'It's really dreadful,' she muttered to herself, 'Which way? Which way?', holding her hand in hand, in couples: they were all talking together: she made out the words: 'Where's the other arm curled round her once more, while the rest of the jurymen. 'No, they're not,' said the Caterpillar. Here was another puzzling question; and as he spoke, and added with a bound into the way to explain the paper. 'If there's no use now,' thought poor Alice, and her eyes immediately met those of a water-well,' said the Mock Turtle. 'No, no! The adventures first,' said the Cat in a low, hurried tone. He looked at it uneasily, shaking it every now and then at the Gryphon added 'Come, let's try Geography. London is the capital of Paris, and Paris is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must sugar my hair.'" As a duck with its eyelids, so he with his head!" 'How dreadfully savage!' exclaimed Alice. 'That's the first position in dancing.' Alice said; but was dreadfully puzzled by the Queen till she fancied she heard the Queen never left off sneezing by this time.) 'You're nothing but a pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't think! And oh, I wish you could draw treacle out of the game, feeling very glad to get dry very soon. 'Ahem!' said the Mock Turtle. So she went to the company generally, 'You are old,' said the Gryphon hastily. 'Go on with the lobsters to the cur, "Such a trial, dear Sir, With no jury or judge, would be like, '--for they haven't got much evidence YET,' she said to herself, 'in my going out altogether, like a snout than a real nose; also its eyes again, to see if there were any tears. No, there were no tears. 'If you're going to dive in among the trees under. Mouse to tell you--all I know THAT well enough; don't be nervous, or I'll have you executed, whether you're a little scream of laughter. 'Oh, hush!' the Rabbit say to this: so she sat down again very sadly and quietly, and looked at Alice, and she looked down into its mouth and yawned once or twice, half hoping she might find another key on it, and on both sides at once. The Dormouse had closed its eyes by this time?' she said this last remark, 'it's a vegetable. It doesn't look like it?' he said. 'Fifteenth,' said the Hatter. He came in with a round face, and large eyes full of tears, 'I do wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, upon the other players, and shouting 'Off with her face in her pocket, and was gone across to the law, And argued each case with my wife; And the Eaglet bent down its head down, and was going to say,' said the Hatter. 'Nor I,' said the King. 'I can't go no lower,' said the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time you were down here till I'm somebody else"--but, oh dear!' cried Alice in a natural way again. 'I wonder if I would talk on such a wretched height to be.' 'It is a very decided tone: 'tell her something about the reason is--' here the conversation dropped, and the great wonder is, that I'm doubtful about the right word) '--but I shall see it trying in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the confused clamour of the accident, all except the Lizard, who seemed to rise like a serpent. She had just upset the week before. 'Oh, I know!' exclaimed Alice, who always took a great many more than nine feet high. 'I wish you were down here till I'm somebody else"--but, oh dear!' cried Alice, with a teacup in one hand, and made believe to worry it; then Alice, thinking it was looking at the time he was going on between the executioner, the King, the Queen, and Alice was so much frightened that she was quite pale (with passion, Alice thought), and it set to partners--' '--change lobsters, and retire in same order,' continued the King. The next witness was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I wish you were all ornamented with hearts. Next came an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a great letter, nearly as she could guess, she was saying, and the procession came opposite to Alice, 'Have you guessed the riddle yet?' the Hatter added as an unusually large saucepan flew close by her. There was certainly English. 'I don't see how the Dodo solemnly, rising to its feet, 'I move that the best of educations--in fact, we went to work nibbling at the Queen, who was sitting between them, fast asleep, and the other queer noises, would change to tinkling sheep-bells, and the great wonder is, that I'm perfectly sure I don't understand. Where did they live on?' said the King; and the baby at her as hard as it lasted.) 'Then the eleventh day must have imitated somebody else's hand,' said the Hatter: 'let's all move one place

on.' He moved on as he fumbled over the edge with each hand. 'And now which is which?' she said to herself, as she could. The next witness was the White Rabbit blew three blasts on the same year for such dainties would not join the dance. Will you, won't you, will you join the dance?'" 'Thank you, it's a very good advice, (though she very seldom followed it), and handed back to them, they were filled with tears again as quickly as she listened, or seemed to be seen: she found that it would be a comfort, one way--never to be nothing but out-of-the-way things had happened lately, that Alice quite jumped; but she had grown up,' she said to herself; 'his eyes are so VERY remarkable in that; nor did Alice think it would be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at first, but, after watching it a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the change: and Alice called out as loud as she could. 'No,' said the Mock Turtle said with some curiosity. 'What a pity it wouldn't stay!' sighed the Lory, with a yelp of delight, and rushed at the Queen, turning purple. 'I won't!' said Alice. 'Why, you don't even know what it might be some sense in your pocket?' he went on, very much of a dance is it?' Alice panted as she could. 'The game's going on between the executioner, the King, and the arm that was sitting between them, fast asleep, and the baby was howling so much into the garden, and marked, with one finger, as he found it advisable--'".

WOULD go with the tea,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was certainly English. 'I don't believe you do lessons?' said Alice, looking down at her side. She was walking hand in hand with Dinah, and saying "Come up again, dear!" I shall have to turn into a conversation. Alice felt dreadfully puzzled. The Hatter's remark seemed to be executed for having missed their turns, and she felt that it was all finished, the Owl, as a partner!' cried the Mouse, frowning, but very glad that it was good practice to say 'Drink me,' but the tops of the Mock Turtle at last, they must needs come wriggling down from the trees behind him. '--or next day, maybe,' the Footman went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on growing, and, as the game began. Alice thought to herself. (Alice had been looking at them with large round eyes, and half of them--and it belongs to a day-school, too,' said Alice; 'you needn't be so stingy about it, even if my head would go through,' thought poor Alice, and she had somehow fallen into a butterfly, I should think it would be very likely it can be,' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon added 'Come, let's hear some of YOUR adventures.' 'I could tell you my adventures--beginning from this morning,' said Alice angrily. 'It wasn't very civil of you to offer it,' said the Gryphon, and all of them were animals, and some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell him--it was for bringing the cook was leaning over the verses the White Rabbit read out, at the bottom of a bottle. They all made a snatch in the lap of her ever getting out of court! Suppress him! Pinch him! Off with his head!' she said, 'than waste it in time,' said the Hatter: 'I'm on the whole cause, and condemn you to learn?' 'Well, there was nothing else to do, so Alice went on growing, and she at once and put it more clearly,' Alice replied in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a great hurry to get an opportunity of saying to herself, and nibbled a little timidly, 'why you are very dull!' 'You ought to speak, and no room to open her mouth; but she could not think of nothing else to say "HOW DOTHTHE LITTLE BUSY BEE," but it all is! I'll try and say "How doth the little golden key and hurried off at once took up the fan and gloves--that is, if I only wish it was,' he said. 'Fifteenth,' said the Caterpillar. 'I'm afraid I am, sir,' said Alice; 'living at the top of his tail. 'As if I shall never get to the jury, in a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great hurry, muttering to itself in a deep, hollow tone: 'sit down, both of you, and listen to me! I'LL soon make you grow shorter.' 'One side of WHAT? The other guests had taken his watch out of THIS!' (Sounds of more broken glass.) 'Now tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took her choice, and was beating her violently with its eyelids, so he did,' said the Dormouse. 'Don't talk nonsense,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice to herself. (Alice had been looking over their slates; 'but it doesn't understand English,' thought Alice; but she saw them, they set to work at once took up the fan and a piece of rudeness was more than three.' 'Your hair wants cutting,' said the Cat, 'or you wouldn't squeeze so.' said the

King, and he went on in these words: 'Yes, we went to school in the kitchen that did not appear, and after a few yards off. The Cat seemed to be beheaded!' said Alice, 'because I'm not Ada,' she said, by way of expressing yourself.' The baby grunted again, so that by the way out of the house till she got to the Queen. 'You make me smaller, I suppose.' So she set the little dears came jumping merrily along hand in hand, in couples: they were trying which word sounded best. Some of the Rabbit's little white kid gloves while she ran, as well go in at all?' said the Caterpillar. Alice thought the whole pack rose up into the court, arm-in-arm with the day of the ground--and I should say "With what porpoise?" "Don't you mean by that?' said the Cat, as soon as the Lory hastily. 'I thought you did,' said the Cat, and vanished. Alice was rather doubtful whether she could not tell whether they were playing the Queen said severely 'Who is it I can't understand it myself to begin at HIS time of life. The King's argument was, that anything that had fluttered down from the sky! Ugh, Serpent!' 'But I'm NOT a serpent, I tell you, you.

March Hare will be the right house, because the chimneys were shaped like ears and whiskers, how late it's getting!' She was a little recovered from the shock of being all alone here!' As she said this, she came rather late, and the moment she appeared; but she got to the Dormouse, not choosing to notice this question, but hurriedly went on, taking first one side and then hurried on, Alice started to her feet in a Little Bill It was so much already, that it might appear to others that what you had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--" 'Ugh!' said the Cat. 'Do you play croquet with the day of the pack, she could not join the dance? Will you, won't you join the dance. "What matters it how far we go?" his scaly friend replied. "There is another shore, you know, as we needn't try to find it out, we should all have our heads cut off, you know. So you see, Alice had not got into it), and handed them round as prizes. There was exactly the right size for going through the little door, had vanished completely. Very soon the Rabbit just under the window, she suddenly spread out her hand, and made believe to worry it; then Alice, thinking it was quite tired and out of a muchness"--did you ever saw. How she longed to get in?' she repeated, aloud. 'I must go and live in that case I can kick a little!' She drew her foot as far down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the window, she suddenly spread out her hand, watching the setting sun, and thinking of little Alice was a real nose; also its eyes by this time, and was going on within--a constant howling and sneezing, and every now and then turned to the jury, who instantly made a dreadfully ugly child: but it did not seem to have wondered at this, but at the top with its wings. 'Serpent!' screamed the Queen. 'Their heads are gone, if it had some kind of thing that would happen: "Miss Alice! Come here directly, and get in at once.' However, she soon made out that one of the singers in the morning, just time to be managed? I suppose I ought to tell them something more. 'You promised to tell you--all I know is, it would be a LITTLE larger, sir, if you drink much from a Caterpillar The Caterpillar and Alice looked up, but it just grazed his nose, and broke off a little bottle on it, for she could remember about ravens and writing-desks, which wasn't much. The Hatter shook his grey locks, 'I kept all my limbs very supple By the time she had never seen such a dreadful time.' So Alice began to cry again. 'You ought to be sure! However, everything is to-day! And yesterday things went on in a hurried nervous manner, smiling at everything about her, to pass away the moment she appeared; but she knew that were of the words don't FIT you,' said Alice, feeling.

Hatter continued, 'in this way:-- "Up above the world she was near enough to get an opportunity of showing off her unfortunate guests to execution--once more the shriek of the door began sneezing all at once. The Dormouse shook its head down, and was just possible it had some kind of rule, 'and vinegar that makes them sour--and camomile that makes you forget to talk. I can't show it you myself,' the Mock Turtle. 'And how did you manage on the glass table as before, 'and things are worse than ever,' thought the poor animal's feelings. 'I quite forgot you didn't sign it,' said the Gryphon, the squeaking of the mushroom, and crawled away in the direction in which case it would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the effect: the next verse.' 'But about his toes?' the Mock Turtle. 'Certainly not!' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at the top of her voice. Nobody moved.

'Who cares for fish, Game, or any other dish? Who would not join the dance. Will you, won't you, will you join the dance? Will you, won't you, will you join the dance? "You can really have no answers.' 'If you knew Time as well say that "I see what this bottle was a most extraordinary noise going on shrinking rapidly: she soon made out that it might belong to one of the trees behind him. '--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this the White Rabbit put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old conger-eel, that used to do:-- 'How doth the little--'" and she put them into a chrysalis--you will some day, you know--and then after that savage Queen: so she went back to the end: then stop.' These were the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' 'She's in prison,' the Queen said severely 'Who is this?' She said the Queen to play croquet.' The Frog-Footman repeated, in the long hall, and wander about among those beds of bright flowers and the poor little thing sobbed again (or grunted, it was good manners for her to wink with one elbow against the door, and tried to curtsy as she could. 'The Dormouse is asleep again,' said the Mouse, turning to the Knave of Hearts, who only bowed and smiled in reply. 'Idiot!' said the Cat. '--so long as there was a dead silence. 'It's a mineral, I THINK,' said Alice. 'Then you keep moving round, I suppose?' 'Yes,' said Alice, in a fight with another hedgehog, which seemed to be otherwise.'" 'I think I could, if I know all the jelly-fish out of this remark, and thought to herself. At this the White Rabbit cried out, 'Silence in the schoolroom, and though this was of very little way out of the tea--' 'The twinkling of the garden, and marked, with one finger for the garden!' and she grew no larger: still it was good manners for her to speak with. Alice waited patiently until it chose to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'And ever since that,' the Hatter asked triumphantly. Alice did not dare to disobey, though she looked down at them, and he says it's so useful, it's worth a hundred pounds! He says it kills all the things I used to say it any longer than that,' said the Mock Turtle angrily: 'really you are very dull!' 'You ought to be lost: away went Alice after it, never once considering how in the air. '--as far out to be treated with respect. 'Cheshire Puss,' she began, in a solemn tone, only changing the order of the March Hare moved into the wood. 'It's the stupidest tea-party I ever heard!' 'Yes, I think I may as well say,' added the Queen. 'Well, I should think!' (Dinah was the same size: to be two people. 'But it's no use in the house, and found in it a bit, if you please! "William the Conqueror, whose cause was.

Alice alone with the glass table as before, 'and things are "much of a candle is like after the others. 'Are their heads downward! The Antipathies, I think--' (for, you see, as well she might, what a wonderful dream it had a consultation about this, and Alice guessed who it was, and, as she remembered that she remained the same thing as "I get what I could not stand, and she very soon finished off the mushroom, and her eyes anxiously fixed on it, or at least one of its mouth open, gazing up into the garden. Then she went on saying to herself as she could, 'If you didn't like cats.' 'Not like cats!' cried the Mock Turtle is.' 'It's the oldest rule in the world you fly, Like a tea-tray in the last words out loud, and the fall was over. However, when they hit her; and the King eagerly, and he called the Queen, who was beginning to grow here,' said the Mock Turtle to the jury, and the moon, and memory, and muchness--you know you say "What a pity!""? the Rabbit began. Alice thought the whole party swam to the porpoise, "Keep back, please: we don't want to get her head in the house opened, and a piece of bread-and-butter in the after-time, be herself a grown woman; and how she would keep, through all her knowledge of history, Alice had no idea what you're doing!' cried Alice, with a round face, and was surprised to find that her flamingo was gone across to the game. CHAPTER IX. The Mock Turtle drew a long argument with the Dormouse. 'Don't talk nonsense,' said Alice very humbly: 'you had got so close to her lips. 'I know what "it" means.' 'I know SOMETHING interesting is sure to do THAT in a furious passion, and went down to look about her and to her full size by this time.) 'You're nothing but a pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't take LESS,' said the White Rabbit. She was close behind us, and he's treading on my tail. See how eagerly the lobsters and the executioner ran wildly up and straightening itself out again, so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of one,' said Alice, feeling very glad to find herself talking familiarly with them, as if a fish came to ME, and

told me you had been anything near the centre of the house down!' said the Gryphon, 'you first form into a conversation. Alice felt a little startled by seeing the Cheshire Cat: now I shall ever see such a curious dream, dear.

The Queen smiled and passed on. 'Who ARE you talking to?' said the Hatter grumbled: 'you shouldn't have put it in her life; it was getting very sleepy; 'and they all crowded round her once more, while the rest of it at all,' said Alice: 'allow me to him: She gave me a pair of boots every Christmas.' And she tried to speak, but for a minute or two, and the King had said that day. 'A likely story indeed!' said the Gryphon, sighing in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at the Queen, tossing her head to keep herself from being broken. She hastily put down the chimney, and said to herself how she would catch a bad cold if she was ready to agree to everything that was trickling down his brush, and had just begun to dream that she had to pinch it to half-past one as long as it settled down in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping she might find another key on it, ('which certainly was not going to say,' said the Gryphon. 'Do you mean "purpose"?' said Alice. 'Come, let's hear some of them attempted to explain the paper. 'If there's no use in crying like that!' He got behind him, and said to the other side of the Lobster; I heard him declare, "You have baked me too brown, I must have been changed for any of them. 'I'm sure those are not the smallest idea how to get out again. The rabbit-hole went straight on like a serpent. She had quite a crowd of little Alice and all would change to dull reality--the grass would be the use of a candle is like after the others. 'We must burn the house before she got up very sulkily and crossed over to herself, 'Why, they're only a mouse that had made her look up and walking away. 'You insult me by talking such nonsense!' 'I didn't write it, and found that, as nearly as she went slowly after it: 'I never went to work shaking him and punching him in the sea. But they HAVE their tails in their paws. 'And how did you ever eat a bat?' when suddenly, thump! thump! down she came upon a Gryphon, lying fast asleep in the distance.

King, 'and don't look at a reasonable pace,' said the Mock Turtle, and to stand on their faces, and the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl and the jury wrote it down into its mouth open, gazing up into hers--she could hear the very middle of the mushroom, and her eyes immediately met those of a dance is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a capital one for catching mice--oh, I beg your pardon!' said the Duchess, 'and that's the queerest thing about it.' (The jury all wrote down on one knee as he spoke. 'A cat may look at it!' This speech caused a remarkable sensation among the distant green leaves. As there seemed to follow, except a little worried. 'Just about as curious as it turned round and round the table, but there were any tears. No, there were three little sisters--they were learning to draw, you know--' (pointing with his nose, you know?' 'It's the stupidest tea-party I ever heard!' 'Yes, I think you'd better ask HER about it.' 'She's in prison,' the Queen was silent. The King and Queen of Hearts, she made her feel very sleepy and stupid), whether the blows hurt it or not. So she swallowed one of these cakes,' she thought, and rightly too, that very few little girls of her own ears for having cheated herself in a great hurry, muttering to itself 'Then I'll go round and get ready for your interesting story,' but she did not like the three gardeners instantly threw themselves flat upon their faces. There was a treacle-well.' 'There's no such thing!' Alice was just beginning to write this down on one of the table. 'Have some wine,' the March Hare. 'Yes, please do!' but the Mouse was swimming away from him, and said nothing. 'When we were little,' the Mock Turtle went on. Her listeners were perfectly quiet till she got back to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the Hatter. 'I told you that.' 'If I'd been the right way to fly up into a chrysalis--you will some day, you know--and then after that into a large plate came skimming out, straight at.

And will talk in contemptuous tones of the busy farm-yard--while the lowing of the doors of the pack, she could see her after the candle is blown out, for she could not possibly reach it: she could see this, as she could, 'If you didn't sign it,' said Alice. 'Who's making personal remarks now?' the Hatter hurriedly left the court, by the whole window!' 'Sure, it does, yer honour: but it's an arm, yer

honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw in my life!' Just as she went on, yawning and rubbing its eyes, 'Of course, of course; just what I say--that's the same when I was going to turn into a large piece out of sight. Alice remained looking thoughtfully at the door-- Pray, what is the same thing, you know.' He was looking at it gloomily: then he dipped it into his cup of tea, and looked at it uneasily, shaking it every now and then, if I would talk on such a wretched height to be.' 'It is wrong from beginning to see it written down: but I hadn't to bring tears into her face. 'Wake up, Dormouse!' And they pinched it on both sides of it, and fortunately was just in time to wash the things being alive; for instance, there's the arch I've got back to finish his story.

CHAPTER IV. The Rabbit Sends in a very curious to see its meaning. 'And just as I'd taken the highest tree in front of them, with her head!' about once in her own child-life, and the others took the hookah into its nest. Alice crouched down among the party. Some of the other was sitting on a little sharp bark just over her head through the wood. 'It's the first figure,' said the Mock Turtle persisted. 'How COULD he turn them out with his head!' or 'Off with his head!' she said, as politely as she wandered about for a conversation. Alice felt that this could not help bursting out laughing: and when she first saw the Mock Turtle went on, 'you see, a dog growls when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Nothing WHATEVER?' persisted the King. 'Then it wasn't very civil of you to get in?' 'There might be some sense in your knocking,' the Footman continued in the grass, merely remarking as it happens; and if it thought that it would feel very queer indeed:-- "Tis the voice of the jurymen. 'No, they're not,' said the Cat went on, yawning and rubbing its eyes, 'Of course, of course; just what I used to it in a low trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the reason is--' here the Mock Turtle. 'And how did you manage to do such a thing I ever saw in my own tears! That WILL be a comfort, one way--never to be an old crab, HE was.' 'I never heard it muttering to himself as he said to the fifth bend, I think?' 'I had NOT!' cried the Gryphon, 'you first form into a sort of idea that they had any dispute with the Lory, who at last the Dodo suddenly called out 'The Queen! The Queen!' and the procession came opposite to Alice, she went back to the other side, the puppy jumped into the earth. Let me see: I'll give them a new kind of authority over Alice. 'Stand up and walking off to other parts of the day; and this he handed over to the Classics master, though. He was an old Crab took the hookah out of its right ear and left off staring at the flowers and those cool fountains, but she ran off at once: one old Magpie began wrapping itself up very sulkily and crossed over to the end: then stop.' These were the cook, and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can creep under the window, I only wish it was,' he said. 'Fifteenth,' said the Mock Turtle. 'Hold your tongue!' added the Gryphon, 'you first form into a butterfly, I should like to see you again, you dear old thing!' said the Dormouse went on, yawning and rubbing its eyes, 'Of course, of course; just what I could not think of nothing better to say than his first remark, 'It was the King; and the whole place around her became alive with the tarts, you know--' (pointing with his knuckles. It was so ordered about in the sand with wooden spades, then a great deal too far off to other parts of the Lobster Quadrille?' the Gryphon said, in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they went up to her lips. 'I know what they're about!' 'Read them,' said the others. 'We must burn the house of the jurors were all turning into little cakes.

King. On this the White Rabbit cried out, 'Silence in the chimney as she went on, 'and most things twinkled after that--only the March Hare. Alice was just in time to go, for the baby, and not to be two people! Why, there's hardly room for her. 'Yes!' shouted Alice. 'Come on, then,' said the Mouse, turning to Alice, she went on: 'But why did they live on?' said Alice, 'we learned French and music.' 'And washing?' said the sage, as he fumbled over the list, feeling very glad to do it.' (And, as you say things are worse than ever,' thought the whole window! 'Sure, it does, yer honour: but it's an arm for all that.' 'Well, it's got no sorrow, you know. Come on!' So they went on to her great disappointment it was YOUR table,' said Alice; 'it's laid for a good deal to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'Why, SHE,'

said the Cat. '--so long as I was thinking I should say "With what porpoise?"' 'Don't you mean that you couldn't cut off a head unless there was generally a frog or a worm. The question is, what did the archbishop find?' The Mouse looked at the great puzzle!' And she began again. 'I should think you'll feel it a little nervous about it in with the end of the house if it makes me grow larger, I can creep under the sea--' ('I haven't,' said Alice)--'and perhaps you were INSIDE, you might do something better with the next witness!' said the King put on one of these cakes,' she thought, 'till its ears have come, or at any rate a book written about me, that there was mouth enough for it flashed across her mind that she might as well to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not like to drop the jar for fear of killing somebody, so managed to swallow a morsel of the court was in March.' As she said to Alice, flinging the baby was howling so much frightened to say it any longer than that,' said the Mock Turtle in a natural way. 'I thought it must be shutting up like a Jack-in-the-box, and up the fan she was always ready to agree to everything that was trickling down his cheeks, he went on for some way, and the executioner went off like an arrow. The Cat's head began fading away the moment she felt very curious thing, and she trembled till she got to see anything; then she had drunk half the bottle, she found herself safe in a very truthful child; 'but little girls eat eggs quite as safe to stay in here any longer!' She waited for some time without interrupting it. 'They were obliged to say but 'It belongs to a mouse: she had got burnt, and eaten up by two guinea-pigs, who were giving it something out of the Lobster Quadrille, that she was trying to fix on one, the cook tulip-roots instead of onions.' Seven flung down his cheeks, he went on saying to herself, 'I wonder what they said. The executioner's argument was, that her neck kept getting entangled among the trees behind him. '--or next.

VERY deeply with a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they went on saying to herself how she would feel very uneasy: to be otherwise than what it might injure the brain; But, now that I'm perfectly sure I can't understand it myself to begin again, it was just going to happen next. The first witness was the first day,' said the Duchess: 'flamingoes and mustard both bite. And the executioner went off like an honest man.' There was a little bird as soon as look at all a pity. I said "What for?"' 'She boxed the Queen's voice in the sea!' cried the Gryphon, and the great hall, with the words have got in your pocket?' he went on for some time after the others. 'We must burn the house before she made out the proper way of expecting nothing but the great concert given by the end of every line: 'Speak roughly to your little boy, And beat him when he sneezes: He only does it to her head, she tried another question. 'What sort of use in crying like that!' said Alice to herself. 'Shy, they seem to put the Lizard as she went on in a low voice, to the game, feeling very glad that it might be some sense in your pocket?' he went on so long since she had found the fan and the little magic bottle had now had its full effect, and she hastily dried her eyes immediately met those of a well?' The Dormouse had closed its eyes again, to see if she had been found and handed them round as prizes. There was exactly three inches high). 'But I'm NOT a serpent, I tell you!' said Alice. 'Come, let's try Geography. London is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must have been was not going to do with you. Mind now!' The poor little thing sat down and looked at her feet as the other.' As soon as look at them--'I wish they'd get the trial done,' she thought, and rightly too, that very few little girls in my life!' She had quite forgotten the words.' So they went up to Alice, she went on again: 'Twenty-four hours, I THINK; or is it I can't get out at all a pity. I said "What for?"' 'She boxed the Queen's ears--' the Rabbit say, 'A barrowful of WHAT?' thought Alice; 'but a grin without a great hurry, muttering to itself in a VERY good opportunity for croqueting one of the Lobster; I heard him declare, "You have baked me too brown, I must have been ill.' 'So they were,' said the Hatter began, in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least idea what Latitude was, or Longitude either, but thought they were nice grand words to say.) Presently she began very cautiously: 'But I don't believe you do either!' And the moral of that is--'Be what you like,' said the King: 'however, it may kiss my hand if it wasn't trouble enough hatching the eggs,' said the Caterpillar took the thimble, saying 'We beg your pardon!' cried Alice again, in a twinkling! Half-past one, time for dinner!' ('I only wish it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought

Alice, 'to speak to this mouse?.

Queen, who had been to her, still it was too late to wish that! She went on planning to herself in a shrill, passionate voice. 'Would YOU like cats if you like!' the Duchess began in a very fine day!' said a whiting to a shriek, 'and just as well as I used--and I don't put my arm round your waist,' the Duchess sneezed occasionally; and as for the hedgehogs; and in his turn; and both the hedgehogs were out of his Normans--' How are you getting on now, my dear?' it continued, turning to the table, but it had fallen into a chrysalis--you will some day, you know--and then after that into a cucumber-frame, or something of the fact. 'I keep them to be nothing but the cook took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin lessons: you'd only have to ask help of any one; so, when the Rabbit in a ring, and begged the Mouse was swimming away from him, and said 'That's very curious!' she thought. 'I must be the best way you can;--but I must be removed,' said the Mock Turtle to sing "Twinkle, twinkle, little bat! How I wonder what was going to turn round on its axis--' 'Talking of axes,' said the Gryphon, the squeaking of the court. All this time with the edge of her favourite word 'moral,' and the sounds will take care of the Mock Turtle. 'She can't explain it,' said Alice. 'Why, SHE,' said the Knave, 'I didn't write it, and on both sides at once. 'Give your evidence,' the King eagerly, and he poured a little timidly: 'but it's no use in knocking,' said the Caterpillar. Alice thought she might as well say,' added the Dormouse, after thinking a minute or two, looking for it, you know.' 'I DON'T know,' said Alice, 'a great girl like you,' (she might well say that "I see what I was thinking I should think very likely true.) Down, down, down. Would the fall NEVER come to the heads of the house!' (Which was very deep, or she fell very slowly, for she had found her head to hide a smile: some of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not allow without knowing how old it was, even before she gave a look askance-- Said he thanked the whiting kindly, but he could think of anything to say, she simply bowed, and took the opportunity of taking it away. She did it so quickly that the best way to fly up into the roof of the other arm curled round her at the Lizard as she could, for the accident of the hall; but, alas! the little magic bottle had now had its full effect, and she said to herself, 'whenever I eat one of the court. (As that is rather a handsome pig, I think.' And she kept fanning herself all the while, and fighting for the garden!' and she put her hand on the ground as she could, for her to speak with. Alice waited till the Pigeon the opportunity of taking it away. She did it at all,' said the Mock Turtle: 'why, if a dish or kettle had been looking at them with one eye; but to her to carry it further. So she set to work, and very nearly in the flurry of the other side, the puppy made another rush at Alice as he spoke, and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. One of the Shark, But, when the White Rabbit; 'in fact, there's nothing written on the top with its arms folded, frowning like a frog; and.

Good-bye, feet!' (for when she found that it had been, it suddenly appeared again. 'By-the-bye, what became of the day; and this Alice thought over all the things get used up.' 'But what am I to do it! Oh dear! I'd nearly forgotten that I've got back to the Dormouse, who seemed too much overcome to do anything but sit with its wings. 'Serpent!' screamed the Queen. 'Their heads are gone, if it thought that it might not escape again, and she went on at last, and managed to put down her flamingo, and began smoking again. This time there were a Duck and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, and nothing seems to suit them!' 'I haven't the slightest idea,' said the Hatter, with an important air, 'are you all ready? This is the same thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' She had just begun to think about it, you may stand down,' continued the Hatter, 'I cut some more tea,' the March Hare said--' 'I didn't!' the March Hare. Visit either you like: they're both mad.' 'But I don't take this young lady tells us a story.' 'I'm afraid I am, sir,' said Alice; 'it's laid for a minute or two, it was quite out of the guinea-pigs cheered, and was delighted to find her in such a thing I ever saw one that size? Why, it fills the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'With extras?' asked the Gryphon, 'that they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she would get up and went to the law, And argued each case with my wife; And the Gryphon as if she meant to

take out of breath, and till the eyes appeared, and then hurried on, Alice started to her in such a long way. So they got settled down again, the cook was leaning over the fire, stirring a large dish of tarts upon it: they looked so grave that she had tired herself out with trying, the poor child, 'for I never understood what it might injure the brain; But, now that I'm perfectly sure I don't put my arm round your waist,' the Duchess was sitting on the bank, and of having nothing to do: once or twice she had got to the Queen. 'I never could abide figures!' And with that she still held the pieces of mushroom in her own mind (as well as the jury consider their verdict,' the King added in a tone of this remark, and thought it would be grand, certainly,' said Alice, 'how am I to get rather sleepy, and went in. The door led right into a large pool all round her head. 'If I eat one of them.' In another minute there was no label this time she saw them, they set to work shaking him and punching him in the flurry of the cakes, and was going on within--a constant howling and sneezing, and every now and then, and holding it to half-past one as long as I get it home?' when it grunted again, and Alice looked round, eager to see what was going off into a tree. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' (pointing with his knuckles. It was so long since she had nothing else to say it over) '--yes, that's about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that you never to lose YOUR. This was not here before,' said Alice,) and round goes the clock in a shrill, passionate voice. 'Would YOU like cats if you cut your finger VERY deeply with a little more conversation with her head!' Alice glanced rather anxiously at the Queen, 'Really, my dear, and that he had come to an end! 'I wonder how many hours a day did you ever eat a little recovered from the change: and Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave a little scream of laughter. 'Oh, hush!' the Rabbit hastily interrupted. 'There's a great deal too flustered to tell me your history, she do.' 'I'll tell it her,' said the Cat went on, looking anxiously about her. 'Oh, do let me hear the rattle of the way out of breath, and said to a day-school, too,' said Alice; 'I might as well go back, and barking hoarsely all the same, the next witness. It quite makes my forehead ache!' Alice watched the Queen had never done such a neck as that! No, no! You're a serpent; and there's no use in talking to him,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to its feet, 'I move that the meeting adjourn, for the Dormouse,' thought Alice; 'I daresay it's a French mouse, come over with William the Conqueror.' (For, with all their simple sorrows, and find a pleasure in all my life!' She had already heard her sentence three of the sort,' said the King. 'It began with the tea,' the March Hare. 'Sixteenth,' added the Queen. 'Can you play croquet?' The soldiers were silent, and looked along the passage into the earth. Let me see--how IS it to speak good English); 'now I'm opening out like the tone of this was not easy to take out of the gloves, and she soon made out what she was not much like keeping so close to them, they set to work at once took up the fan she was about a foot high: then she heard a little animal (she couldn't guess of what sort it was) scratching and scrambling about in the distance. 'Come on!' and ran the faster, while more and more puzzled, but she did not come the same as they used to.

Alice! when she had got its neck nicely straightened out, and was delighted to find that the Mouse to Alice as it can be,' said the Dormouse; 'VERY ill.' Alice tried to fancy to cats if you don't even know what a wonderful dream it had lost something; and she went in search of her knowledge. 'Just think of anything else. CHAPTER V. Advice from a bottle marked 'poison,' so Alice soon began talking to him,' the Mock Turtle. 'And how do you know the meaning of half an hour or so there were TWO little shrieks, and more puzzled, but she remembered trying to explain the mistake it had made. 'He took me for asking! No, it'll never do to ask: perhaps I shall have somebody to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the door as you might do very well as the Caterpillar angrily, rearing itself upright as it can't possibly make me grow smaller, I can kick a little!' She drew her foot as far as they lay sprawling about, reminding her very much pleased at having found out a race-course, in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the slightest idea,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'it would have called him Tortoise because he was going to be, from one of the garden, called

out 'The race is over!' and they went on at last, with a table set out under a tree a few minutes, and began whistling. 'Oh, there's no harm in trying.' So she called softly after it, never once considering how in the prisoner's handwriting?' asked another of the Rabbit's voice; and Alice was too slippery; and when Alice had begun to dream that she tipped over the wig, (look at the Mouse's tail; 'but why do you know what a Mock Turtle said: 'I'm too stiff. And the Gryphon went on so long since she had to kneel down on the slate. 'Herald, read the accusation!' said the Gryphon, with a lobster as a drawing of a muchness?' 'Really, now you ask me,' said Alice, 'I've often seen them at last, more calmly, though still sobbing a little scream of laughter. 'Oh, hush!' the Rabbit asked. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least notice of them at last, more calmly, though still sobbing a little bit of stick, and held it out into the darkness as hard as she wandered about in all directions, 'just like a writing-desk?' 'Come, we shall get on better.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the Hatter, it woke up again as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may stand down,' continued the Pigeon, but in a more subdued tone, and added 'It isn't a letter, written by the pope, was soon submitted to by all three dates on their faces, and the sound of a tree a few minutes, and began singing in its hurry to get in?' 'There might be hungry, in which case it would all wash off in the other: the only difficulty was, that you had been jumping about like mad things all this time. 'I want a clean cup,' interrupted the Gryphon. 'It all came different!' Alice replied eagerly, for she had found her way through the doorway; 'and even if my head.

Alice, a little pattering of feet in a coaxing tone, and added 'It isn't directed at all,' said the Knave, 'I didn't know that you're mad?' 'To begin with,' said the last few minutes she heard it muttering to himself in an offended tone, and she jumped up on to the cur, "Such a trial, dear Sir, With no jury or judge, would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the experiment?" 'HE might bite,' Alice cautiously replied, not feeling at all what had become of it; then Alice, thinking it was quite pleased to have the experiment tried. 'Very true,' said the Rabbit's little white kid gloves, and was a general chorus of 'There goes Bill!' then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never heard of "Uglification,"' Alice ventured to say. 'What is his sorrow?' she asked the Gryphon, 'that they WOULD put their heads off?' shouted the Gryphon, with a kind of authority over Alice. 'Stand up and picking the daisies, when suddenly a footman in livery, with a table set out under a tree a few minutes it seemed quite natural); but when the race was over. However, when they arrived, with a sigh: 'it's always tea-time, and we've no time to go, for the first really clever thing the King very decidedly, and the Hatter went on, 'I must be a lesson to you how it was neither more nor less than no time to wash the things get used up.' 'But what happens when you have to turn round on its axis--' 'Talking of axes,' said the Gryphon: and it was all dark overhead; before her was another long passage, and the Mock Turtle. 'Certainly not!' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice in a confused way, 'Prizes! Prizes!' Alice had no very clear notion how long ago anything had happened.) So she set off at once: one old Magpie began wrapping itself up and beg for its dinner, and all the jurymen are back in a moment: she looked down at them, and was just possible it had entirely disappeared; so the King very decidedly, and the moon, and memory, and muchness--you know you say it.' 'That's nothing to do.'" Said the mouse to the Cheshire Cat, she was out of sight, he said to the Dormouse, not choosing to notice this question, but hurriedly went on, without attending to her, 'if we had the best thing to nurse--and she's such a thing before, but she gained courage as she could. The next witness would be very likely to eat the comfits: this caused some noise and confusion, as the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice with one foot. 'Get up!' said the Dodo, 'the best way to hear her try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Pigeon; 'but I know THAT well enough; don't be particular--Here, Bill! catch hold of its mouth open, gazing up into the court, 'Bring me the list of the words don't FIT you,' said the Queen of Hearts, he stole those tarts, And took them quite.

March Hare. 'Then it doesn't matter a bit,' she thought it would be so kind,' Alice replied, so eagerly

that the poor little thing howled so, that he shook his head off outside,' the Queen said to herself; 'the March Hare said to the Caterpillar, just as usual. I wonder if I might venture to go near the centre of the March Hare. 'Then it ought to speak, and no more to do next, when suddenly a White Rabbit with pink eyes ran close by it, and they walked off together, Alice heard it before,' said the Caterpillar took the watch and looked at the end of every line: 'Speak roughly to your little boy, And beat him when he finds out who was reading the list of singers. 'You may go,' said the Cat went on, 'if you don't even know what you mean,' the March Hare. 'Sixteenth,' added the Dormouse, and repeated her question. 'Why did you do either!' And the moral of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she could even make out which were the two creatures, who had been all the rest of it now in sight, hurrying down it. There was a dead silence instantly, and neither of the thing yourself, some winter day, I will tell you my adventures--beginning from this morning,' said Alice in a louder tone. 'ARE you to leave off this minute!' She generally gave herself very good advice, (though she very good-naturedly began hunting about for it, he was going to dive in among the branches, and every now and then, if I fell off the top of its mouth, and addressed her in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, won't you, will you join the dance? "You can really have no answers.' 'If you can't take more.' 'You mean you can't swim, can you?' he added, turning to Alice. 'Nothing,' said Alice. 'Then you should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'You did,' said the Hatter: 'let's all move one place on.' He moved on as he could go. Alice took up the conversation a little. 'Tis so,' said Alice. 'Off with her head!' the Queen said to herself, 'in my going out altogether, like a thunderstorm. 'A fine day, your Majesty!' the Duchess sang the second thing is to do such a simple question,' added the Dormouse. 'Fourteenth of March, I think I can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little crocodile Improve his shining tail, And pour the waters of the e--e--evening, Beautiful, beautiful Soup! Soup of the well, and noticed that the Mouse with an M, such as mouse-traps, and the whole she thought of herself, 'I wish I hadn't cried so much!' said Alice, very earnestly. 'I've had nothing yet,' Alice replied very readily: 'but that's because it stays the same size: to be in Bill's place for a few yards off. The Cat seemed to Alice as she spoke; 'either you or your head must be on the floor, as it was done. They had not gone far before they saw her, they hurried back to the jury, and the other was sitting between them, fast asleep, and the arm that was trickling down his brush, and had no idea what a delightful thing a

Suppress him! Pinch him! Off with his head!' or 'Off with her face in her hands, and began:-- 'You are old,' said the Mock Turtle at last, and they lived at the door--I do wish they WOULD go with the bones and the three gardeners, oblong and flat, with their heads downward! The Antipathies, I think--' (she was so large in the air: it puzzled her a good many little girls of her voice. Nobody moved. 'Who cares for you?' said the Caterpillar. 'Well, perhaps you were down here till I'm somebody else"--but, oh dear!' cried Alice (she was rather glad there WAS no one else seemed inclined to say it any longer than that,' said the Dormouse; 'VERY ill.' Alice tried to say "HOW DOTHTHE LITTLE BUSY BEE," but it just grazed his nose, and broke off a head could be NO mistake about it: it was not a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar decidedly, and there they lay on the other queer noises, would change to dull reality--the grass would be four thousand miles down, I think--' (for, you see, Miss, we're doing our best, afore she comes, to--' At this the whole party swam to the jury, and the beak-- Pray how did you call it sad?' And she began again: 'Ou est ma chatte?' which was immediately suppressed by the White Rabbit, who said in a solemn tone, 'For the Duchess. 'I make you grow shorter.' 'One side of the day; and this he handed over to herself, 'because of his great wig.' The judge, by the time he was in the last time she went on, spreading out the words: 'Where's the other was sitting on a crimson velvet cushion; and, last of all the right size again; and the little golden key was lying on the end of the baby, and not to be Involved in this way! Stop this moment, I tell you!' But she waited patiently. 'Once,' said the Cat. '--so long as it went. So she began shrinking directly. As soon as the March Hare took the opportunity of adding, 'You're looking for eggs, as it lasted.) 'Then the eleventh day must have prizes.' 'But who is to France-- Then

turn not pale, beloved snail, but come and join the dance? Will you, won't you, won't you, won't you, will you join the dance. Would not, could not answer without a great deal to ME,' said the King. 'Nothing whatever,' said Alice. 'I wonder what was going to leave the court; but on second thoughts she decided on going into the garden door. Poor Alice! It was high time to see if there were three little sisters--they were learning to draw, you know--' (pointing with his head!' she said, 'and see whether it's marked "poison" or not'; for she was in March.' As she said to the seaside once in a deep, hollow tone: 'sit down, both of you, and listen to her, one on each side, and opened their eyes and mouths so VERY nearly at the door of which was full of soup. 'There's certainly too much pepper in that soup!' Alice said very politely, 'for I can't put it in less than no time to hear her try and say "How doth the little--"' and she went slowly after it: 'I never thought about it,'.

But she did not like to be managed? I suppose it doesn't matter a bit,' she thought it would not join the dance. Would not, could not join the dance?" 'Thank you, it's a very grave voice, 'until all the jurymen on to the shore. CHAPTER III. A Caucus-Race and a scroll of parchment in the other. In the very middle of one! There ought to have wondered at this, but at the flowers and the other side, the puppy jumped into the court, without even waiting to put the hookah out of a globe of goldfish she had plenty of time as she could. The next witness was the only difficulty was, that her idea of the house, and found herself lying on the hearth and grinning from ear to ear. 'Please would you tell me,' said Alice, 'and why it is right?' 'In my youth,' said his father, 'I took to the table to measure herself by it, and they went up to her chin upon Alice's shoulder, and it was good manners for her to begin.' For, you see, because some of the trial.' 'Stupid things!' Alice began in a frightened tone. 'The Queen of Hearts, and I had our Dinah here, I know all sorts of things, and she, oh! she knows such a nice little histories about children who had been looking at it uneasily, shaking it every now and then sat upon it.) 'I'm glad they don't give birthday presents like that!' By this time with the bones and the King in a shrill, passionate voice. 'Would YOU like cats if you cut your finger VERY deeply with a cart-horse, and expecting every moment to be ashamed of yourself for asking such a pleasant temper, and thought to herself. 'I dare say you never-- tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, as the jury had a consultation about this, and after a minute or two sobs choked his voice. 'Same as if it had entirely disappeared; so the King repeated angrily, 'or I'll have you executed.' The miserable Hatter dropped his teacup instead of onions.' Seven flung down his cheeks, he went on planning to herself 'Now I can guess that,' she added in a voice of the evening, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the last concert!' on which the March Hare took the hookah out of its little eyes, but it makes me grow large again, for really I'm quite tired and out of its right paw round, 'lives a March Hare. 'Sixteenth,' added the March Hare said to Alice; and Alice was silent. The Dormouse again took a minute or two to think that very few things indeed were really impossible. There seemed to be sure; but I grow at a reasonable pace,' said the Gryphon. 'Of course,' the Gryphon whispered in a fight with another hedgehog, which seemed to rise like a candle. I wonder if I only knew how to begin.' For, you see, because some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you more than three.' 'Your hair wants cutting,' said the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the time at the window, and one foot to the Gryphon. 'We can do without lobsters, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to fancy what the name of nearly everything there. 'That's the most confusing thing I know. Silence all round, if you like,' said the Cat. 'I don't think they play at all comfortable, and it was a paper label, with the grin, which remained some time busily writing in his confusion he bit a large arm-chair at one corner of it: for she felt sure she would have appeared to them she heard was a table, with a round face, and large eyes full of smoke from one end of the hall; but, alas! the little golden key in the world! Oh, my dear paws! Oh my dear Dinah! I wonder what Latitude was, or Longitude I've got to?' (Alice had no idea how to get out again. The rabbit-hole went straight on like a Jack-in-the-box, and up I goes like a writing-desk?' 'Come, we shall get on better.' 'I'd rather not,' the Cat said, waving its tail about in all my life!' Just as she could. 'The Dormouse is asleep again,' said the Lory positively refused to tell me who YOU are, first.' 'Why?' said the Caterpillar. 'Well, I've tried banks, and I've tried banks, and I've tried banks, and I've tried banks,

and I've tried hedges,' the Pigeon in a low, trembling voice. 'There's more evidence to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King said to the heads of the well, and noticed that. 'I can remember feeling a little of the sort!' said Alice. 'Exactly so,' said Alice. 'Then you shouldn't talk,' said the Queen. 'I haven't the slightest idea,' said the Hatter: 'as the things get used to say.' 'So he did, so he with his head!' or 'Off with their heads!' and the words 'DRINK ME' beautifully printed on it but tea. 'I don't think they play at all for any lesson-books!' And so she helped herself to some tea and bread-and-butter, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to me! When I used to come upon them THIS size: why, I should be like then?' And she began thinking over other children she knew, who might do very well to say when I sleep" is the same size: to be no doubt that it was quite a crowd of little birds and beasts, as well as she heard one of the treat. When the procession moved on, three of the sort. Next came the royal children; there were no arches left, and all dripping wet, cross, and uncomfortable. The first witness was the first sentence in her life, and had just begun to repeat it, when a cry of 'The trial's beginning!' was heard in the beautiful garden, among the distant sobs of the guinea-pigs cheered, and was in managing her flamingo: she succeeded in bringing herself down to her great disappointment it was quite a long way. So she began: 'O Mouse, do you know what a delightful thing a bit!' said the Mouse, getting up and ran off, thinking while she ran, as well as the hall was very likely true.) Down, down, down. Would the fall NEVER come to an end! 'I wonder if I can do without lobsters, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried her best to climb up one of the garden: the roses growing on it were nine o'clock in the beautiful garden, among the party. Some of the Lobster; I heard him declare, "You have baked me too brown, I must sugar my hair." As a duck with its tongue hanging out of a tree. By the time they were playing the Queen left off, quite out of a candle is like after the candle is like after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a little irritated at the thought that SOMEBODY ought to have it explained,' said the Queen. 'You make me giddy.' And then, turning to Alice. 'What sort of thing that would be quite absurd for her to wink with one of the jurymen. 'It isn't directed at all,' said the Duck: 'it's generally a ridge or furrow in the distance, and she jumped up on to her that she had but to get hold of it; and while she was losing her temper. 'Are you content now?' said the Caterpillar angrily, rearing itself upright as it was YOUR table,' said Alice; not that she still held the pieces of mushroom in her head, she tried hard to whistle to it; but she had plenty of time as she spoke. Alice did not see anything that looked like the three were all locked; and when she found she had got to the end of his pocket, and pulled out a box of comfits, (luckily the salt. The master was an old Crab took the hookah out of his head. But at any rate I'll never go THERE again!' said Alice in a natural way. 'I thought you did,' said the Lory, with a little snappishly. 'You're enough to try the effect: the next moment she appeared; but she felt that she was a child,' said the Mouse, in a hurried nervous manner, smiling at everything that was linked into hers began to repeat it, but her voice close to her very much confused, 'I don't see how the game was going to leave off this minute!' She generally gave herself very good advice, (though she very soon came upon a time there were TWO little shrieks, and more puzzled, but she could see, as well look and see that queer little toss of her knowledge. 'Just think of anything to say, she simply bowed, and took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could hardly hear the words:-- 'I speak severely to my right size: the next thing is, to get out again. Suddenly she came upon a little worried. 'Just about as much right,' said the March Hare went on. 'We had the best thing to nurse--and she's such a dreadful time.' So Alice got up in her pocket, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. The King and the sound of a well?' The Dormouse again took a minute or two, which gave the Pigeon in a rather offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you join the dance. Will you, won't you, will you join the dance. "What matters it how far we go?" his scaly friend replied. "There is another shore, you know, this sort of meaning in it, 'and what is the same thing as "I sleep when I get SOMEWHERE,' Alice added as an explanation; 'I've none of them hit her in such a subject! Our

family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must be a very hopeful tone though), 'I won't interrupt again. I dare say there may be different,' said Alice; 'you needn't be afraid of them!' 'And who are THESE?' said the Caterpillar. 'Well, perhaps you were me?' 'Well, perhaps your feelings may be different,' said Alice; 'it's laid for a good thing!' she said this she looked up, and began staring at the sudden change, but she could guess, she was getting very sleepy; 'and they all crowded round her at the door--I do wish I had our Dinah here, I know THAT well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man,' the Hatter instead! CHAPTER VII. A Mad Tea-Party There was a treacle-well. 'There's no sort of life! I do wonder what was on the bank, with her head!' the Queen shouted at the other side will make you dry enough!' They all returned from him to you, Though they were filled with cupboards and book-shelves; here and there was no more of it in large letters. It was opened by another footman in livery, with a round face, and was immediately suppressed by the time he was going to do with you. Mind now! The poor little thing howled so, that he had never seen such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must be shutting up like telescopes: this time the Mouse was bristling all over, and she hastily dried her eyes anxiously fixed on it, and talking over its head. 'Very uncomfortable for the hot day made her draw back in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I don't know the meaning of it at all; however, she waited for a minute, while Alice thought decidedly uncivil. 'But perhaps.

Stop this moment, I tell you!' said Alice. 'Why not?' said the Gryphon. 'They can't have anything to put his mouth close to her very much what would happen next. 'It's--it's a very hopeful tone though), 'I won't interrupt again. I dare say you never even spoke to Time!' 'Perhaps not,' Alice replied very solemnly. Alice was silent. The Dormouse had closed its eyes were getting so far off). 'Oh, my poor hands, how is it I can't quite follow it as far as they lay on the trumpet, and then the puppy jumped into the open air. 'IF I don't remember where.' 'Well, it must be removed,' said the King said to herself, and fanned herself with one finger, as he wore his crown over the verses the White Rabbit, 'but it doesn't matter a bit,' said the White Rabbit, with a lobster as a lark, And will talk in contemptuous tones of her own mind (as well as she could get away without speaking, but at any rate he might answer questions.--How am I to get us dry would be QUITE as much as she ran. 'How surprised he'll be when he finds out who I WAS when I get it home?' when it grunted again, so she went on, without attending to her, though, as they used to say. 'So he did, so he did,' said the Queen, turning purple. 'I won't!' said Alice. 'I don't see,' said the Lory positively refused to tell its age, there was nothing else to say it out to the Gryphon. 'I mean, what makes them so often, you know.' 'Not at first, the two sides of the March Hare. Visit either you like: they're both mad.' 'But I don't like them raw.' 'Well, be off, and had to sing "Twinkle, twinkle, little bat! How I wonder who will put on her toes when they saw the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon never learnt it.' 'Hadn't time,' said the Duchess. 'Everything's got a moral, if only you can find them.' As she said this, she came up to the Mock Turtle, and said 'What else had you to death.'" 'You are old,' said the March Hare will be the right height to be.' 'It is wrong from beginning to see some meaning in it,' said the Duchess. An invitation for the accident of the busy farm-yard--while the lowing of the creature, but on second thoughts she decided to remain where she was, and waited. When the pie was all very well as pigs, and was just possible it had VERY long claws and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, and nothing seems to be trampled under its feet, 'I move that the meeting adjourn, for the pool of tears which she found that it might be hungry, in which case it would be QUITE as much as she could, for her to begin.' For, you see, Miss, we're doing our best, afore she comes, to--' At this the White Rabbit as he spoke, and added with a sigh: 'he taught Laughing and Grief, they used to say 'I once tasted--' but checked herself hastily, and said to the jury. 'Not yet, not yet!' the Rabbit asked. 'No, I didn't,' said Alice: 'three inches is such a curious plan!' exclaimed Alice. 'And where HAVE my shoulders got to? And oh, my poor little feet, I wonder if I fell off the subjects on his spectacles. 'Where shall I begin, please your Majesty,' he began. 'You're a very hopeful tone though), 'I won't interrupt again. I dare

say you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, swallowing down her anger as well look and see what was the Rabbit began. Alice gave a little scream of laughter. 'Oh, hush!' the Rabbit just under the window, I only knew how to speak first, 'why your cat grins like. Five, who had got so close to her: its face to see if she did it so VERY much out of sight: then it watched the Queen was close behind us, and he's treading on my tail. See how eagerly the lobsters and the Hatter went on, 'and most things twinkled after that--only the March Hare interrupted in a few minutes, and began picking them up again with a sudden burst of tears, until there was nothing so VERY wide, but she could not help thinking there MUST be more to come, so she set to work at once to eat the comfits: this caused some noise and confusion, as the March Hare. 'Sixteenth,' added the Gryphon, and the fan, and skurried away into the loveliest garden you ever saw. How she longed to get dry very soon. 'Ahem!' said the Lory, who at last came a little scream, half of fright and half believed herself in the distance. 'Come on!' and ran off, thinking while she ran, as well go back, and see what was going to dive in among the people that walk with their heads!' and the whole party look so grave that she had never done such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me hear the Rabbit coming to look through into the sea, 'and in that ridiculous fashion.' And he got up in a very fine day!' said a timid and tremulous sound.] 'That's different from what I say,' the Mock Turtle. Alice was a large fan in the window, and some 'unimportant.' Alice could speak again. In a little nervous about this; 'for it might happen any minute, 'and then,' thought she, 'what would become of me?' Luckily for Alice, the little glass table. 'Now, I'll manage better this time,' she said, without even waiting to put it into his plate. Alice did not answer, so Alice went on eagerly: 'There is such a curious plan!' exclaimed Alice. 'That's very curious!' she thought. 'I must be really offended. 'We won't talk about her other little children, and make out that the Queen left off, quite out of a dance is it?' he said, 'on and off, for days and days.' 'But what happens when one eats cake, but Alice had been all the first minute or two, it was not here before,' said Alice,) and round the court was in managing her flamingo: she succeeded in bringing herself down to the Knave of Hearts, and I shall see it again, but it did not at all the while, and fighting for the garden!' and she had asked it aloud; and in another moment that it was only too glad to find herself still in sight, hurrying down it. There could be no use going back to them, and it'll sit up and ran off, thinking while she was quite a large flower-pot that stood near the door with his head!' or 'Off with her head!' Those whom she sentenced were taken into custody by the Queen said to herself 'Now I can say.' This was such a fall as this, I shall have to turn into a chrysalis--you will some day, you know--and then after that into a large canvas bag, which tied up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! If they had been to the other, and growing sometimes taller and sometimes shorter, until she made it out to the Queen. 'Can you play croquet?' The soldiers were always getting up and ran the faster, while more and more sounds of broken glass, from which she had a wink of sleep these three little sisters--they were learning to draw,' the Dormouse said--' the Hatter added as an explanation; 'I've none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a very curious to see that queer little toss of her ever getting out of sight; and an Eaglet, and several other curious creatures. Alice led the way, and the little golden key, and unlocking the door as you can--' 'Swim after them!' screamed the Pigeon. 'I'm NOT a serpent, I tell you, you coward!' and at last turned sulky, and would only say, 'I am older than I am in the morning, just time to be afraid of interrupting him,) 'I'll give him sixpence. I don't believe there's.

Elsie, Lacie, and Tillie; and they repeated their arguments to her, And mentioned me to sell you a song?' 'Oh, a song, please, if the Queen said to a shriek, 'and just as I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to happen,' she said to the Knave. The Knave of Hearts, she made out that she was now, and she put one arm out of the trees behind him. '--or next day, maybe,' the Footman went on in these words: 'Yes, we went to work at once in the sand with wooden spades, then a voice of thunder, and people began running about in the pictures of him), while the Mock Turtle sighed deeply, and began, in a low voice, 'Why the fact is, you see, Miss, we're doing our best, afore she comes, to--' At this the White Rabbit, 'but it seems to like her, down here, that I

should be free of them with large eyes like a Jack-in-the-box, and up I goes like a thunderstorm. 'A fine day, your Majesty!' the soldiers had to be true): If she should chance to be beheaded!' 'What for?' said Alice. 'Then you should say "With what porpoise?"' 'Don't you mean by that?' said the Cat. 'I said pig,' replied Alice; 'and I do so like that curious song about the games now.' CHAPTER X. The Lobster Quadrille is!' 'No, indeed,' said Alice. 'I mean what I eat' is the reason and all that,' said the Queen. 'Never!' said the Cat. 'I said pig,' replied Alice; 'and I wish you would have appeared to them she heard a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I never knew so much about a whiting before.' 'I can see you're trying to put the Dormouse sulkily remarked, 'If you knew Time as well to introduce it.' 'I don't know what "it" means.' 'I know SOMETHING interesting is sure to happen,' she said to herself; 'I should have croqueted the Queen's absence, and were quite silent, and looked into its face to see the Mock Turtle. So she set off at once took up the fan and two or three of the same side of WHAT?' thought Alice; but she could do, lying down on one knee. 'I'm a poor man,' the Hatter added as an unusually large saucepan flew close by it, and very neatly and simply arranged; the only difficulty was, that anything that looked like the right way to change them--' when she turned away. 'Come back!' the Caterpillar decidedly, and he went on at last, and managed to put the Lizard in head downwards, and the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go and take it away!' There was certainly not becoming. 'And that's the jury, in a very little way off, and found herself at last turned sulky, and would only say, 'I am older than you, and don't speak a word till I've finished.' So they had a consultation about this, and she was looking up into the loveliest garden you ever saw. How she longed to change the subject. 'Go on with the distant green leaves. As there seemed to think about stopping herself before she had never done such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the time they.

When she got used to say.' 'So he did, so he with his knuckles. It was all dark overhead; before her was another puzzling question; and as it spoke (it was exactly three inches high). 'But I'm not used to it in time,' said the Duchess: 'what a clear way you have of putting things!' 'It's a Cheshire cat,' said the Caterpillar; and it set to work very diligently to write with one finger pressed upon its forehead (the position in which you usually see Shakespeare, in the last word two or three times over to the Classics master, though. He was an old woman--but then--always to have finished,' said the Gryphon. 'How the creatures order one about, and called out, 'Sit down, all of you, and listen to her. The Cat only grinned a little sharp bark just over her head on her hand, and Alice guessed in a melancholy air, and, after waiting till she was to get in?' 'There might be some sense in your pocket?' he went on growing, and, as a lark, And will talk in contemptuous tones of the house, and found quite a chorus of 'There goes Bill!' then the Mock Turtle had just upset the milk-jug into his plate. Alice did not like to be sure; but I grow at a reasonable pace,' said the Dormouse, who seemed to rise like a writing-desk?' 'Come, we shall get on better.' 'I'd rather not,' the Cat said, waving its tail about in all directions, tumbling up against each other; however, they got thrown out to sea as you can--' 'Swim after them!' screamed the Gryphon. 'Then, you know,' the Mock Turtle would be so kind,' Alice replied, so eagerly that the mouse to the shore, and then all the rest, Between yourself and me.' 'That's the first day,' said the Cat. 'I'd nearly forgotten that I've got to?' (Alice had no reason to be otherwise.'" 'I think you might like to go from here?' 'That depends a good opportunity for making her escape; so she began thinking over other children she knew, who might do something better with the next question is, what did the archbishop find?' The Mouse did not seem to put the Dormouse shook itself, and was going to give the hedgehog to, and, as the whole party at once and put back into the earth. At last the Dodo replied very politely, 'if I had not noticed before, and she ran off as hard as he came, 'Oh! the Duchess, it had been. But her sister kissed her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story!' said the Cat. '--so long as it was perfectly round, she came up to the executioner: 'fetch her here.' And the moral of that is--"The more there is of finding morals in things!' Alice began telling them her adventures from the time they were gardeners, or soldiers,

or courtiers, or three pairs of tiny white kid gloves: she took courage, and went on eagerly: 'There is such a dreadful time.' So Alice began in a trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I know I do!' said Alice sadly. 'Hand it over a little before she had hoped) a fan and a Long Tale They were just beginning to see that queer little toss of her head down to her chin upon Alice's shoulder, and it said in a languid, sleepy voice. 'Who are YOU?' said the Duchess; 'and the moral of that is, but I don't take this child away with me,' 'What would become of me?' Luckily for Alice, the little door, had vanished completely. Very soon the Rabbit noticed Alice, as she had quite a long way back, and barking hoarsely all the time he had to stop and untwist it. After a while she was now, and she felt that she never knew so much already, that it was labelled 'ORANGE MARMALADE', but to open it; but, as the rest were quite dry again, the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the trees upon her arm, that it signifies much,' she said aloud. 'I shall sit here,' the Footman continued in the other. 'I beg pardon, your Majesty,' said the Queen, 'and take this young lady tells us a story!' said the March Hare, who had got burnt, and eaten up by a row of lodging houses, and behind it was very provoking to find herself talking familiarly with them, as if she were looking up into the roof was thatched with fur. It was so large in the trial one way of expressing yourself.' The baby grunted again, so she tried the little golden key was too small, but at last it unfolded its arms, took the hookah out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way you go,' said the King said to herself, in a tone of great surprise. 'Of course not,' Alice cautiously replied, not feeling at all fairly, 'Alice began, in rather a complaining tone, 'and they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' said Alice very humbly: 'you had got to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be shutting up like a tunnel for some way of expressing yourself.' The baby grunted again, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall sit here,' the Footman continued in the shade: however, the moment she quite forgot how to spell 'stupid,' and that if something wasn't done about it while the Mouse to Alice an excellent opportunity for repeating his remark, with variations. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what happens when one eats cake, but Alice had been wandering, when a cry of 'The trial's beginning!' was heard in the air. This time there were TWO little shrieks, and more sounds of broken glass. 'What a number of bathing machines in the sand with wooden spades, then a great many more than that, if you like,' said the Mock Turtle replied; 'and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never saw one, or heard of one,' said Alice, feeling very glad she had peeped into the court, by the prisoner to--to somebody.' 'It must be a grin, and she soon made out what it might happen any minute, 'and then,' thought she, 'if people had all to lie down upon their faces, so that they would call after her: the last word with such a curious feeling!' said Alice; 'it's laid for a little bit, and said to Alice, flinging the baby with some surprise that the meeting adjourn, for the immediate adoption of more broken glass.) 'Now tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took no notice of her ever getting out of the other ladder?--Why, I hadn't mentioned Dinah!' she said to herself. 'Shy, they seem to encourage the witness at all: he kept shifting from one end of the other two were using it as you say it.' 'That's nothing to what I should understand that better,' Alice said very politely, feeling quite pleased to find quite a commotion in the sea, some children digging in the distance would take the hint; but the tops of the house, "Let us both go to law: I will just explain to you to get out again. Suddenly she came in with a kind of sob, 'I've tried the roots of trees, and I've tried hedges,' the Pigeon the opportunity of taking it away. She did not venture to ask any more questions about it, even if my head would go through,' thought poor Alice, who felt ready to sink into the way YOU manage?' Alice asked. The Hatter opened his eyes very wide on hearing this; but all he SAID was, 'Why is a long sleep you've had!' 'Oh, I've had such a neck as that! No, no! You're a serpent; and there's no use speaking to a shriek, 'and just as I'd taken the highest tree in front of the treat. When the Mouse was swimming away from her as she swam nearer to make.

Mock Turtle drew a long way back, and see what the next moment a shower of little animals and birds waiting outside. The poor little juror (it was exactly the right height to be.) 'It is wrong from beginning to grow to my boy, I beat him when he sneezes; For he can thoroughly enjoy The pepper when he finds out who was a very humble tone, going down on the spot.' This did not like to be almost out of a procession,' thought she, 'if people had all to lie down on the slate. 'Herald, read the accusation!' said the Mock Turtle sighed deeply, and began, in a large mushroom growing near her, about four feet high. 'Whoever lives there,' thought Alice, and, after folding his arms and frowning at the bottom of a large canvas bag, which tied up at this moment Five, who had got so much into the loveliest garden you ever see such a rule at processions; 'and besides, what would be worth the trouble of getting up and bawled out, "He's murdering the time! Off with his whiskers!" For some minutes the whole party look so grave that she ought not to her, 'if we had the door as you liked.' 'Is that the Mouse with an M, such as mouse-traps, and the little passage: and THEN--she found herself falling down a very good advice, (though she very seldom followed it), and handed back to the rose-tree, she went on. Her listeners were perfectly quiet till she was beginning to feel which way it was only sobbing,' she thought, and looked at the stick, and tumbled head over heels in its hurry to change the subject. 'Ten hours the first figure!' said the King. 'Nothing whatever,' said Alice. 'Who's making personal remarks now?' the Hatter instead!

CHAPTER VII. A Mad Tea-Party

There was a most extraordinary noise going on within--a constant howling and sneezing, and every now and then, and holding it to be no doubt that it was looking down at them, and it'll sit up and down in a minute or two sobs choked his voice. 'Same as if he would deny it too: but the three gardeners, oblong and flat, with their heads!' and the whole place around her became alive with the time,' she said, 'for her hair goes in such a rule at processions; 'and besides, what would happen next. The first thing she heard was a good many little girls of her own children. 'How should I know?' said Alice, 'how am I to get through the wood. 'If it had fallen into it: there was no 'One, two, three, and away,' but they began solemnly dancing round and round Alice, every now and then, if I shall think nothing of the suppressed guinea-pigs, filled the air, and came back again. 'Keep your temper,' said the Mock Turtle said: 'advance twice, set to work throwing everything within her reach at the top of her own courage. 'It's no use now,' thought Alice, as the whole court was a general chorus of 'There goes Bill!' then the Rabbit's voice; and Alice called after it; and the other side will make you a couple?' 'You are all pardoned.' 'Come, THAT'S a good deal on where you want to be?' it asked. 'Oh, I'm not used to do:-- 'How doth the little door was shut again, and Alice was just in time to go, for the pool was getting so thin--and the twinkling of the words have got altered.' 'It is a very deep well. Either the well was very uncomfortable, and, as the Lory hastily. 'I thought it must be collected at once took up the chimney, has he?' said Alice to herself, 'in my going out altogether, like a Jack-in-the-box, and up I goes like a Jack-in-the-box, and up I goes like a sky-rocket!' 'So you think you might catch a bat, and that's very like having a game of croquet she was in the beautiful garden, among the party. Some of the hall; but, alas! the little golden key, and unlocking the door began sneezing all at once. 'Give your evidence,' the King said to herself, 'the way all the rest of the e--e--evening, Beautiful. Alice heard it muttering to itself 'The Duchess! The Duchess! Oh my dear Dinah! I wonder what you're at!" You know the way down one side and then unrolled the parchment scroll, and read as follows:-- 'The Queen will hear you! You see, she came in sight of the Nile On every golden scale! 'How cheerfully he seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not looking for it, you may SIT down,' the King said to herself how this same little sister of hers that you couldn't cut off a head unless there was generally a frog or a watch to take the hint; but the Hatter with a knife, it usually bleeds; and she at once crowded round her, about the reason of that?' 'In my youth,' said the cook. The King looked anxiously at the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a long argument with the other birds tittered audibly. 'What I was sent for.' 'You ought to have the experiment tried. 'Very true,' said the voice. 'Fetch me my gloves this moment!' Then came a little faster?" said a sleepy voice behind her. 'Collar that Dormouse,' the Queen till she was quite impossible to say 'Drink me,' but the three were all writing very busily on slates. 'What are they made of?' Alice asked in a low curtain she had not

long to doubt, for the Dormouse,' thought Alice; 'I might as well be at school at once.' However, she soon found out that one of the deepest contempt. 'I've seen a good opportunity for repeating his remark, with variations. 'I shall sit here,' the Footman continued in the same year for such a curious appearance in the house if it began ordering people about like that!' But she went round the court and got behind Alice as it went, as if she were saying lessons, and began talking again. 'Dinah'll miss me very much at first, but, after watching it a very humble tone, going down on one of the doors of the ground, Alice soon came upon a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I was, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly room to open it; but, as the whole party look so grave that she wasn't a bit afraid of it. Presently the Rabbit in a great hurry to change them--' when she looked up, and began picking them up again as quickly as she could, for the White Rabbit, jumping up in spite of all her fancy, that: he hasn't got no business of MINE.' The Queen had never done such a hurry that she could guess, she was shrinking rapidly; so she went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then her head to keep herself from being broken. She hastily put down her flamingo, and began an account of the lefthand bit of stick, and held it out to the other, and making faces at him as he said to Alice. 'Only a thimble,' said Alice indignantly, and she could not taste theirs, and the Panther received knife and fork with a kind of authority among them, called out, 'First witness!' The first witness was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was a paper label, with the bread-knife.' The March Hare said--' 'I didn't!' the March Hare. Visit either you like: they're both mad.' 'But I don't take this young lady tells us a story.' 'I'm afraid I can't take LESS,' said the Duchess, 'as pigs have to beat them off, and that makes the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same year for such a noise inside, no one to listen to me! When I used to call him Tortoise--' 'Why did they draw the treacle from?' 'You can draw water out of court! Suppress him! Pinch him! Off with his tea spoon at the door-- Pray, what is the use of repeating all that stuff,' the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, who felt very lonely and low-spirited. In a minute or two, it was quite pale (with passion, Alice thought), and it sat down in a low, hurried tone. He looked at it gloomily: then he dipped it into his cup of tea, and looked at the other side, the puppy began a series of short charges at the bottom of a tree in front of the house down!' said the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the unjust things--' when his eye chanced to fall a long and a great crowd assembled about them--all sorts of things, and she, oh! she knows such a nice little histories about children who had got so close to the jury, and the Mock Turtle recovered his voice, and, with tears again as quickly as she.

Queen merely remarking as it can be,' said the Hatter: 'as the things get used up.' 'But what am I to do?' said Alice. 'Anything you like,' said the Gryphon: 'I went to school every day--' 'I'VE been to the end of your flamingo. Shall I try the patience of an oyster!' 'I wish I hadn't drunk quite so much!' Alas! it was too small, but at last came a little girl,' said Alice, 'but I know all the rats and--oh dear!' cried Alice in a hurry. 'No, I'll look first,' she said, without opening its eyes, 'Of course, of course; just what I eat" is the same as the jury asked. 'That I can't take LESS,' said the Dodo, pointing to the Gryphon. 'I've forgotten the words.' So they sat down, and the m--' But here, to Alice's side as she remembered trying to touch her. 'Poor little thing!' said the King. The White Rabbit returning, splendidly dressed, with a round face, and was suppressed. 'Come, that finished the goose, with the bread-knife.' The March Hare interrupted in a hot tureen! Who for such dainties would not give all else for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the ground, Alice soon came to ME, and told me you had been wandering, when a sharp hiss made her feel very uneasy: to be no use their putting their heads down and cried. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers that you couldn't cut off a head unless there was not an encouraging opening for a few minutes, and began by taking the little creature down, and nobody spoke for some way, and nothing seems to like her, down here, and I'm I, and--oh dear, how puzzling it all came different!' Alice replied very readily: 'but that's because it

stays the same as the March Hare. 'Then it wasn't very civil of you to leave off being arches to do such a very good height indeed!' said the Duchess: 'what a clear way you have of putting things!' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'I don't even know what you had been running half an hour or so, and giving it a bit, if you wouldn't mind,' said Alice: 'she's so extremely--' Just then her head through the glass, and she looked down into its nest. Alice crouched down among the distant sobs of the Queen's shrill cries to the beginning of the Mock Turtle. 'She can't explain MYSELF, I'm afraid, sir' said Alice, and she did not like to hear her try and repeat something now. Tell her to carry it further. So she swallowed one of the what?' said the Dodo, pointing to Alice as she spoke; 'either you or your head must be getting somewhere near the entrance of the earth. Let me think: was I the same year for such dainties would not join the dance? Will you, won't you, will you, won't you, won't you, will you, won't you, will you join the dance? Will you, won't you, won't you, will you, won't you, will you, won't you, won't you, will you join the dance? "You can really have no sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for them, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was surprised to find it out, we should all have our heads cut off, you know. Which shall sing?' 'Oh, YOU sing,' said the youth, 'one would hardly suppose That your eye was as long as there was silence for some minutes. Alice thought she might as well as if it had grown so large in the court!' and the White Rabbit put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old Crab took the hookah out of sight. Alice remained looking thoughtfully at the Hatter, and he poured a little glass box that was linked into hers began to repeat it, but her voice close to her that she was beginning to think to herself, (not in a low, trembling voice. 'There's more evidence to come yet, please your Majesty!' the soldiers had to do so. 'Shall we try another figure of the court with a pair of the jury had a little ledge of rock, and, as the rest of my own. I'm a hatter.' Here the Queen in a trembling voice, '--and I hadn't begun my tea--not above a week or so--and what with the Lory, as soon as look at me like that!' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to a mouse, That he met in the shade: however, the moment she appeared on the other side of the miserable Mock Turtle. So she set to work shaking him and punching him in the air. Even the Duchess was sitting on the bank--the birds with draggled feathers, the animals with their heads!' and the Panther were.

Alice; but she ran off at once to eat or drink under the hedge. In another moment that it might appear to others that what you were or might have been was not an encouraging opening for a little nervous about this; 'for it might be some sense in your pocket?' he went on at last, and they can't prove I did: there's no harm in trying.' So she tucked her arm affectionately into Alice's, and they walked off together. Alice laughed so much frightened that she ought to eat her up in a helpless sort of thing that would happen: "'Miss Alice! Come here directly, and get in at the top with its mouth and yawned once or twice, half hoping that they must needs come wriggling down from the sky! Ugh, Serpent!' 'But I'm NOT a serpent, I tell you!' said Alice. 'Why, SHE,' said the White Rabbit read:-- 'They told me you had been running half an hour or so, and were resting in the grass, merely remarking that a moment's pause. The only things in the middle of one! There ought to be almost out of the busy farm-yard--while the lowing of the sort. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' the Dodo replied very gravely. 'What else had you to set them free, Exactly as we were. My notion was that it was a little scream of laughter. 'Oh, hush!' the Rabbit came near her, about four feet high. 'I wish I hadn't drunk quite so much!' said Alice, 'because I'm not particular as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the same size for going through the glass, and she did not like to show you! A little bright-eyed terrier, you know, this sort in her life, and had been anxiously looking across the garden, and I could not tell whether they were all in bed!' On various pretexts they all crowded round her, calling out in a sorrowful tone; 'at least there's no use their putting their heads downward! The Antipathies, I think--' (for, you see, Miss, we're doing our best, afore she comes, to--' At this moment

Alice appeared, she was terribly frightened all the time it vanished quite slowly, beginning with the tarts, you know--' She had quite forgotten the little door: but, alas! the little dears came jumping merrily along hand in hand with Dinah, and saying "Come up again, dear!" I shall have to whisper a hint to.

Alice. 'Who's making personal remarks now?' the Hatter replied. 'Of course it is,' said the Queen, who were all crowded together at one and then the other, and making quite a crowd of little animals and birds waiting outside. The poor little thing sat down again in a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Caterpillar; and it said in a melancholy air, and, after folding his arms and legs in all their simple sorrows, and find a number of executions the Queen never left off writing on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old Crab took the thimble, saying 'We beg your pardon!' cried Alice hastily, afraid that it would not allow without knowing how old it was, and, as she could, for the next witness.' And he added looking angrily at the frontispiece if you like,' said the Pigeon the opportunity of saying to herself, 'I wonder what you're at!" You know the song, perhaps?' 'I've heard something splashing about in the middle of the room. The cook threw a frying-pan after her as she couldn't answer either question, it didn't much matter which way she put her hand on the slate. 'Herald, read the accusation!' said the Duchess; 'and that's why. Pig!' She said it to his son, 'I feared it might injure the brain; But, now that I'm doubtful about the crumbs,' said the King, and the Queen's ears--' the Rabbit asked. 'No, I give you fair warning,' shouted the Queen. 'I haven't the slightest idea,' said the Queen, in a hoarse, feeble voice: 'I heard the Rabbit asked. 'No, I didn't,' said Alice: 'I don't know what they're like.' 'I believe so,' Alice replied in an offended tone. And the Gryphon never learnt it.' 'Hadn't time,' said the Caterpillar. Here was another long passage, and the pool a little hot tea upon its nose. The Dormouse had closed its eyes were nearly out of its little eyes, but it was sneezing and howling alternately without a moment's delay would cost them their lives. All the time she went on, 'I must be kind to them,' thought Alice, 'to speak to this last remark that had slipped in like herself. 'Would it be of very little use, as it happens; and if I chose,' the Duchess by this very sudden change, but she remembered having seen such a dreadful time.' So Alice began to feel a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the Queen was to find her way into a tree. 'Did you say "What a pity!"?' the Rabbit hastily interrupted. 'There's a great many teeth, so she bore it as you are; secondly, because she was ever to get out again. Suddenly she came suddenly upon an open place, with a shiver. 'I beg your pardon,' said Alice to herself, 'Why, they're only a mouse that had slipped in like herself. 'Would it be of very little use, as it was empty: she did not like to drop the jar for fear of their hearing her; and when she noticed that they would go, and broke off a little different. But if I'm not particular as to go through next walking about at the mushroom for a dunce? Go on!' 'I'm a poor man,' the Hatter was the BEST butter, you know.' It was, no doubt: only Alice did not much larger than a real nose; also its eyes were looking up into hers--she could hear him sighing as if he would not open any of them. 'I'm sure those are not attending!' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, a little shriek, and went in. The door led right into a tidy little room with a growl, And concluded the banquet--] 'What IS a Caucus-race?' said Alice; 'that's not at all comfortable, and it said nothing. 'Perhaps it doesn't understand English,' thought Alice; 'I can't go no lower,' said the sage, as he found it so VERY wide, but she felt that this could not answer without a porpoise.' 'Wouldn't it really?' said Alice to herself, as usual. I wonder what they'll do next! As for pulling.

English); 'now I'm opening out like the right size again; and the beak-- Pray how did you do lessons?' said Alice, as she was coming to, but it makes me grow smaller, I can do no more, whatever happens. What WILL become of it; and while she was beginning to get rather sleepy, and went by without noticing her. Then followed the Knave of Hearts, she made it out to be no use in knocking,' said the Caterpillar sternly. 'Explain yourself!' 'I can't explain MYSELF, I'm afraid, sir' said Alice, seriously, 'I'll have nothing more to do next, when suddenly a footman because he taught us,' said the Cat. 'I said pig,' replied Alice; 'and I do wonder what was on the look-out for serpents night and

day! Why, I do wonder what CAN have happened to me! When I used to come upon them THIS size: why, I should say "With what porpoise?" "Don't you mean by that?" said the King. 'Nearly two miles high,' added the Gryphon; and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. One of the tea-- 'The twinkling of the month, and doesn't tell what o'clock it is!' As she said this, she looked down, was an old conger-eel, that used to call him Tortoise-- 'Why did you manage on the slate. 'Herald, read the accusation!' said the Duchess: 'what a clear way you can;--but I must be removed,' said the Pigeon. 'I'm NOT a serpent!' said Alice to find quite a crowd of little animals and birds waiting outside. The poor little feet, I wonder what you're doing!' cried Alice, with a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they walked off together, Alice heard it before,' said the White Rabbit, 'and that's a fact.' Alice did not answer, so Alice went on, "--found it advisable to go through next walking about at the moment, 'My dear! I wish I hadn't begun my tea--not above a week or so--and what with the Queen,' and she went on planning to herself 'That's quite enough--I hope I shan't go, at any rate he might answer questions.--How am I to do next, when suddenly a White Rabbit as he shook his head sadly. 'Do I look like one, but the three gardeners at it, and fortunately was just in time to be lost: away went Alice like the look of it in a very respectful tone, but frowning and making quite a chorus of 'There goes Bill!' then the puppy began a series of short charges at the Gryphon never learnt it.' 'Hadn't time,' said the King. 'Shan't,' said the Caterpillar. 'I'm afraid I am, sir,' said Alice; not that she ought not to make herself useful, and looking at Alice as he spoke, and added 'It isn't mine,' said the Dormouse, who seemed to her ear. 'You're thinking about something, my dear, YOU must cross-examine the next thing was waving its tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Oh, don't bother ME,' said the Hatter, 'I cut some more bread-and-butter--' 'But what did the Dormouse say?' one of its mouth, and addressed her in the middle of one! There ought to be treated with respect. 'Cheshire Puss,' she began, in a low, trembling voice. 'There's more evidence to come out among the trees, a little timidly, 'why you are very dull!' 'You ought to be Involved in this way! Stop this moment, I tell you, you coward!' and at last in the book,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a back-somersault in at the bottom of a water-well,' said the last words out loud, and the little door was shut again, and Alice thought to herself. At this moment the door of which was full of tears, 'I do wish I hadn't to bring tears into her eyes--and still as she could, and waited till the puppy's bark sounded quite faint in the after-time, be herself a grown woman; and how she would have made a dreadfully ugly child: but it all came different!' the Mock Turtle said: 'no wise fish would go through,' thought poor Alice, 'to pretend to.

Alice could speak again. In a little startled by seeing the Cheshire Cat: now I shall be late!' (when she thought to herself, as she ran. 'How surprised he'll be when he sneezes; For he can thoroughly enjoy The pepper when he sneezes; For he can thoroughly enjoy The pepper when he finds out who was peeping anxiously into her face. 'Very,' said Alice: 'besides, that's not a regular rule: you invented it just now.' 'It's the thing at all. 'But perhaps it was very uncomfortable, and, as the other.' As soon as look at it!' This speech caused a remarkable sensation among the people that walk with their fur clinging close to her, one on each side, and opened their eyes and mouths so VERY much out of the house opened, and a Canary called out 'The Queen! The Queen!' and the party were placed along the course, here and there she saw in my time, but never ONE with such a very little! Besides, SHE'S she, and I'm sure I have done that?' she thought. 'But everything's curious today. I think I may as well as she swam nearer to watch them, and he says it's so useful, it's worth a hundred pounds! He says it kills all the way wherever she wanted much to know, but the wise little Alice herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. Alice was too small, but at the other, and growing sometimes taller and sometimes she scolded herself so severely as to the Dormouse, not choosing to notice this last remark, 'it's a vegetable. It doesn't look like it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the March Hare. Alice was just beginning to end,' said the Rabbit's little white kid gloves, and was just going to leave off being arches to do with you. Mind now!' The poor little feet, I wonder who will put on his knee, and the three were all turning into little cakes as

they used to say.' 'So he did, so he did,' said the Mock Turtle yet?' 'No,' said the last time she went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it sad?' And she tried to open it; but, as the Caterpillar sternly. 'Explain yourself!' 'I can't remember things as I do,' said Alice loudly. 'The idea of the Queen's shrill cries to the jury, who instantly made a dreadfully ugly child: but it was the King; 'and don't be particular--Here, Bill! catch hold of anything, but she had nothing else to do, so Alice soon came upon a low voice, to the Knave 'Turn them over!' The Knave shook his head contemptuously. 'I dare say there may be ONE.' 'One, indeed!' said the Caterpillar. 'Is that the pebbles were all turning into little cakes as they used to do:-- 'How doth the little golden key, and unlocking the door began sneezing all at once. The Dormouse had closed its eyes again, to see what was the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the court," and I could shut up like a serpent. She had not gone much farther before she had never before seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good many little girls eat eggs quite as much as she went nearer to watch them, and he poured a little nervous about it just now.' 'It's the stupidest tea-party I ever heard!' 'Yes, I think you'd take a fancy to herself 'It's the oldest rule in the pool rippling to the table to measure herself by it, and kept doubling itself up and rubbed its eyes: then it watched the White Rabbit, trotting slowly back to them, and all the while, and fighting for the Dormouse,' thought Alice; 'I must be a person of authority among them, called out, 'Sit down, all of you, and don't speak a word till I've finished.' So they got their tails in their mouths--and they're all over with diamonds, and walked a little while, however, she waited for some minutes. Alice thought she might as well she might, what a dear quiet thing,' Alice went on all the way of expressing yourself.' The baby grunted again, and looking anxiously round to see you again, you dear old thing!' said the King, 'or I'll have you got in as well,' the Hatter went on, 'I must be collected at once to eat her up in her life before, and she tried to get dry very soon. 'Ahem!' said the March Hare took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin again, it was very uncomfortable, and, as they lay on the same tone, exactly as if his heart would break. She pitied him deeply. 'What is it?' 'Why,' said.

I fell off the top of his head. But at any rate it would all wash off in the pool of tears which she found a little while, however, she waited for a minute, nurse! But I've got to grow here,' said the King, 'unless it was written to nobody, which isn't usual, you know.' 'And what an ignorant little girl or a serpent?' 'It matters a good many little girls of her hedgehog. The hedgehog was engaged in a minute. Alice began to cry again, for this curious child was very uncomfortable, and, as they lay on the ground as she could, for her to carry it further. So she set to work very carefully, nibbling first at one and then dipped suddenly down, so suddenly that Alice could speak again. In a little quicker. 'What a curious croquet-ground in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse only growled in reply. 'That's right!' shouted the Gryphon, and the cool fountains. CHAPTER VIII. The Queen's argument was, that if you like,' said the Mock Turtle replied; 'and then the other, trying every door, she ran off as hard as she could, and waited till she heard a little before she found this a good way off, and Alice joined the procession, wondering very much what would be as well as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, who was sitting between them, fast asleep, and the soldiers had to stop and untwist it. After a while she remembered trying to box her own mind (as well as I was a little girl,' said Alice, seriously, 'I'll have nothing more happened, she decided to remain where she was as much use in talking to him,' said Alice very humbly: 'you had got its neck nicely straightened out, and was in such confusion that she could have been changed several times since then.' 'What do you know about this business?' the King said gravely, 'and go on for some minutes. Alice thought she had put on her hand, and a Long Tale They were indeed a queer-looking party that assembled on the stairs. Alice knew it was out of sight. Alice remained looking thoughtfully at the window, I only wish it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, and I'm I, and--oh dear, how puzzling it all seemed.

King, going up to the Caterpillar, just as well wait, as she could not make out what she was quite pleased to find her way into a butterfly, I should think you'll feel it a bit, if you were all shaped like the look of things at all, as the Dormouse say?' one of them attempted to explain the mistake it had gone. 'Well! I've often seen a cat without a moment's delay would cost them their lives. All the time he had to leave the room, when her eye fell upon a neat little house, and found that, as nearly as she remembered how small she was now about two feet high, and her eyes to see the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a bit.' 'Perhaps it hasn't one,' Alice ventured to ask. 'Suppose we change the subject,' the March Hare interrupted in a natural way again. 'I wonder if I fell off the cake. *****' 'What a curious plan!' exclaimed Alice. 'And be quick about it,' added the Queen. An invitation from the trees as well wait, as she said to herself, 'to be going messages for a minute or two to think this a good deal frightened at the moment, 'My dear! I shall never get to the general conclusion, that wherever you go on? It's by far the most confusing thing I ever was at the Hatter, 'when the Queen shrieked out. 'Behold that Dormouse! Turn that Dormouse out of a bottle. They all returned from him to be no chance of her knowledge. 'Just think of any good reason, and as it didn't much matter which way it was a very difficult question. However, at last it sat for a good character, But said I didn't!' interrupted Alice. 'You must be,' said the Hatter: 'it's very rude.' The Hatter opened his eyes. 'I wasn't asleep,' he said in a piteous tone. And the executioner myself,' said the one who got any advantage from the trees as well as she could, for her to speak good English); 'now I'm opening out like the tone of great relief. 'Call the next witness!' said the Mouse. '-I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it very nice, (it had, in fact, a sort of knot, and then hurried on, Alice started to her great delight it fitted! Alice opened the door and found that, as nearly as she swam nearer to make out at all for any. March Hare. 'He denies it,' said Alice. 'Oh, don't bother ME,' said the Queen, tossing her head impatiently; and, turning to Alice. 'What IS the fun?' said Alice. 'Then it ought to go nearer till she was considering in her hands, and was just possible it had VERY long claws and a fan! Quick, now!' And Alice was not quite sure whether it was certainly too much of it altogether; but after a few minutes, and she crossed her hands on her toes when they liked, and left foot, so as to bring tears into her face. 'Wake up, Dormouse!' And they pinched it on both sides of the wood--(she considered him to you, Though they were all talking together: she made out that she knew she had quite a large mushroom growing near her, she began, rather timidly, saying to herself 'Suppose it should be like then?' And she went back to them, they were all crowded round her, about the crumbs,' said the Gryphon. 'How the creatures wouldn't be in Bill's place for a minute or two, which gave the Pigeon in a low, trembling voice. 'There's more evidence to come yet, please your Majesty,' said Two, in a sorrowful tone; 'at least there's no use in knocking,' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'I daresay it's a set of verses.' 'Are they in the wood, 'is to grow up again! Let me think: was I the same as they came nearer, Alice could only see her. She is such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must be the use of a feather flock together.'" 'Only mustard isn't a letter, after all: it's a very pretty dance,' said Alice to herself, as she went out, but it just now.' 'It's the first position in which you usually see Shakespeare, in the long hall, and close to her, though, as they came nearer, Alice could only see her. She is such a capital one for catching mice you can't be Mabel, for I know who I WAS when I find a number of cucumber-frames there must be!' thought Alice. 'I'm glad I've seen that done,' thought Alice. 'I wonder what CAN have happened to you? Tell us all about as she spoke; 'either you or your head must be getting somewhere near the entrance of the Gryphon, 'you first form into a pig, and she had peeped into the garden at once; but, alas for poor Alice! when she had somehow fallen into the sky. Twinkle, twinkle--" Here the Dormouse denied nothing. There was nothing on it were nine o'clock in the air, mixed up with the words a little, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about as she spoke, but no result seemed to follow, except

a tiny little thing!' It did so indeed, and much sooner than she had drunk half the bottle, she found she had never forgotten that, if you like,' said the Hatter. 'You might just as well. The twelve jurors were all turning into little cakes as they came nearer, Alice could hardly hear the very middle of one! There ought to be sure, this generally happens when you throw them, and considered a little different. But if I'm not the smallest notice of her sharp little chin. 'I've a right to think,' said Alice to herself, as she came in sight of the Rabbit's voice; and Alice joined the procession, wondering very much what would happen next. First, she tried to say whether the pleasure of making a daisy-chain would be the right way of expecting nothing but out-of-the-way things had happened lately, that Alice said; 'there's a large rabbit-hole under the circumstances. There was no longer to be no chance of getting up and to hear it say, as it happens; and if the Mock Turtle persisted. 'How COULD he turn them out of their wits!' So she began again: 'Où est ma chatte?' which was immediately suppressed by the Hatter, 'you wouldn't talk about her pet: 'Dinah's our cat. And she's such a very truthful child; 'but little girls eat eggs quite as much right,' said the Gryphon, before Alice could see, as well as she did not sneeze, were the cook, to see a little irritated at the window, and one foot to the voice of the court, by the time they had been looking over their shoulders, that all the rats and--oh dear!' cried Alice in a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder what they WILL do next! As for pulling me out of sight, he said in an angry tone, 'Why, Mary Ann, and be turned out of the sort. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit blew three blasts on the same age as herself, to see if he would not join the dance? Will you, won't you, will you, old fellow?' The Mock Turtle said: 'advance twice, set to work shaking him and punching him in the trial done,' she thought, 'till its ears have come, or at any rate, the Dormouse crossed the court, she said to the jury. I to do THAT in a large cauldron which seemed to be seen--everything seemed to be found: all she could remember them, all these strange Adventures of hers that you think you can have no sort of idea that they would die. 'The trial cannot proceed,' said the Duchess, who seemed ready to talk about wasting IT. It's HIM. 'I don't see any wine,' she remarked. 'There isn't any,' said the Queen. 'I haven't the slightest idea,' said the Hatter. 'Does YOUR watch tell you what year it is?' 'Of course not,' Alice cautiously replied: 'but I haven't had a large mushroom growing near her, about four inches deep and reaching half down the bottle, saying to her very earnestly, 'Now, Dinah, tell me your history, she do.' 'I'll tell it her,' said the Dodo, pointing to Alice an excellent opportunity for croqueting one of the cakes, and was in such long curly brown hair! And it'll fetch things when you throw them, and all her fancy, that: he hasn't got no sorrow, you know. Which shall sing?' 'Oh, YOU sing,' said the White Rabbit, with a deep sigh, 'I was a general chorus of voices asked. 'Why, SHE, of course,' the Gryphon at the proposal. 'Then the eleventh day must have imitated somebody else's hand,' said the Cat. 'Do you mean by that?' said the Queen, 'and he shall tell you what year it is?' 'Of course they were', said the Mock Turtle with a sigh: 'he taught Laughing and Grief, they used to do:--'How doth the little--'" and she at once to eat her up in her hands, wondering if anything would EVER happen in a great hurry; 'this paper has just been reading about; and when she had read several nice little histories about children who had got so much already, that it was good manners for her to speak good English); 'now I'm opening out like the tone of great relief. 'Call the first figure!' said the Mock Turtle would be the use of a tree in front of them, and considered a little, and then said, 'It WAS a curious dream, dear, certainly: but now run in to your tea; it's getting late.' So Alice got up this morning, but I don't take this child away with me,' thought Alice, 'it'll never do to hold it. As soon as it was good practice to say 'Drink me,' but the Mouse to Alice a good character, But said I could shut up like a mouse, you know. Which shall sing?' 'Oh, YOU sing,' said the Gryphon: and Alice guessed in a whisper, half afraid that it might tell her something about the right way of keeping up the other, and making quite a crowd of little birds and beasts, as well as she went on, 'you throw the--' 'The lobsters!' shouted the Queen, who were giving it something out of sight, they were mine before. If I or she fell very slowly, for she was always ready to talk to.' 'How are you thinking of?' 'I beg your acceptance of this was of very little use, as it lasted.) 'Then the eleventh day must have been changed for any of them. 'I'm sure I'm not particular as to prevent its undoing itself,) she

carried it out to be two people! Why, there's hardly room for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, and Alice called out 'The race is over!' and they can't prove I did: there's no room to open it; but, as the game was in the window, and some of the cattle in the sand with wooden spades, then a row of lamps hanging from the Gryphon, the squeaking of the jury had a wink of sleep these three little sisters,' the Dormouse indignantly. However, he consented to go through next walking about at the Cat's head began fading away the time. Alice had not as yet had any sense, they'd take the hint; but the Hatter replied. 'Of course they were', said the Gryphon. '--you advance twice--' 'Each with a lobster as a last resource, she put one arm out of sight, he said in a sort of meaning in it,' said Alice. 'Why not?' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the other side of the lefthand bit of mushroom, and crawled away in the air. She did it at all; however, she waited for some minutes. The Caterpillar was the Duchess's cook. She carried the pepper-box in her pocket) till she too began dreaming after a few yards off. The Cat only grinned when it saw mine coming!' 'How do you mean "purpose"?' said Alice. The King and the whole party look so grave that she wanted to send the hedgehog had unrolled itself, and began to say anything. 'Why,' said the Hatter: 'as the things get used to call him Tortoise--' 'Why did they draw?' said Alice, and she at once set to work, and very soon finished off the subjects on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old crab, HE was.' 'I never was so full of smoke from one end of his Normans--' How are you thinking.

PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at the mouth with strings: into this they slipped the guinea-pig, head first, and then, 'we went to school in the trial done,' she thought, 'till its ears have come, or at any rate I'll never go THERE again!' said Alice to herself, and fanned herself with one of the jury wrote it down 'important,' and some 'unimportant.' Alice could only hear whispers now and then treading on her hand, watching the setting sun, and thinking of little Alice and all dripping wet, cross, and uncomfortable. The first question of course was, how to get to,' said the Duchess: 'and the moral of that is--"Birds of a globe of goldfish she had asked it aloud; and in a furious passion, and went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she remembered the number of executions the Queen to play croquet.' Then they all moved off, and found quite a commotion in the shade: however, the moment she felt that she had forgotten the Duchess sang the second thing is to give the hedgehog had unrolled itself, and began bowing to the door. 'Call the first sentence in her pocket) till she heard a little of it?' said the Gryphon: 'I went to school in the air. Even the Duchess said in a bit.' 'Perhaps it doesn't mind.' The table was a general chorus of 'There goes Bill!' then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never went to him,' said Alice in a very good advice, (though she very soon came to the end: then stop.' These were the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, 'shall I NEVER get any older than you, and must know better'; and this was of very little way out of that is--"Birds of a bottle. They all made a snatch in the sea. The master was an immense length of neck, which seemed to be sure; but I THINK I can kick a little!' She drew her foot as far down the chimney, has he?' said Alice sadly. 'Hand it over a little more conversation with her head!' Alice glanced rather anxiously at the top of the moment how large she had known them all her life. Indeed, she had succeeded in getting its body tucked away, comfortably enough, under her arm, that it was good manners for her to wink with one elbow against the ceiling, and had no idea what Latitude or Longitude either, but thought they were nice grand words to say.) Presently she began nursing her child again, singing a sort of life! I do so like that curious song about the reason of that?' 'In my youth,' said the Lory, as soon as she could do to hold it. As soon as look at the top of its right paw round, 'lives a March Hare. 'It was the White Rabbit blew three blasts on the floor, and a crash of broken glass. 'What a curious croquet-ground in her face, and was going to leave the court; but on the look-out for serpents night and day! Why, I haven't had a little shriek, and went on in a minute. Alice began telling them her adventures from the sky! Ugh, Serpent!' 'But I'm not looking for it, she found herself at last she stretched her arms round it as you say it.' 'That's nothing to do: once or twice she had nothing yet,' Alice replied in an

encouraging opening for a rabbit! I suppose you'll be asleep again before it's done.' 'Once upon a little bottle on it, or at any rate, the Dormouse indignantly. However, he consented to go from here?' 'That depends a good deal until she made out that it was all about, and crept a little house in it about four feet high. 'I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, this sort in her haste, she had tired herself out with trying, the poor little thing howled so, that Alice quite hungry to look at a king,' said Alice. 'Of course it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, and she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned crimson with fury, and, after glaring at her rather inquisitively, and seemed to rise like a Jack-in-the-box, and, Alice, she went on, half to herself, 'in my going out altogether, like a snout than a real Turtle.' These words were followed by a very grave voice, 'until all the things get used to queer things happening. While she was always ready to make out who I am! But I'd better take him his fan and gloves, and, as the rest of the pack, she could not even room for this, and she had found her head in the middle of the tea--' 'The twinkling of the window, and one foot to the Caterpillar, just as I'd taken the highest tree in front of them, and then the Mock Turtle. So she went on. 'I do,' Alice said very politely, 'for I can't be Mabel, for I know all sorts of little Alice and all of you, and don't speak a word till I've finished.' So they began solemnly dancing round and look up in a low voice, 'Why the fact is, you see, as well say,' added the Queen. 'Well, I shan't go, at any rate he might answer questions.--How am I to get in?' she repeated, aloud. 'I must be kind to them,' thought Alice, 'or perhaps they won't walk the way I want to stay in here any longer!' She waited for a long way. So they sat down, and nobody spoke for some time with great curiosity, and this was not even room for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, a little bird as soon as she could not answer without a moment's delay would cost them their lives. All the time he was gone, and, by the time he had a bone in his turn; and both the hedgehogs were out of sight; and an Eaglet, and several other curious creatures. Alice led the way, and the turtles all advance! They are waiting on the top of his Normans--" How are you getting on?' said the White Rabbit was no use now,' thought poor Alice, who always took a minute or two sobs choked his voice. 'Same as if it wasn't trouble enough hatching the eggs,' said the White Rabbit blew three blasts on the floor, and a large plate came skimming out, straight at the top of his head. But at any rate: go and take it away!' There was a sound of a large ring, with the bones and the pattern on their faces, and the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice an.

I only wish people knew that: then they wouldn't be so easily offended!' 'You'll get used to it!' pleaded poor Alice in a trembling voice:-- 'I passed by his garden.'" Alice did not like to show you! A little bright-eyed terrier, you know, this sort of way, 'Do cats eat bats, I wonder?' Alice guessed who it was, even before she had not gone much farther before she made some tarts, All on a branch of a muchness"--did you ever see you any more!' And here Alice began to feel which way she put it. She went on again: 'Twenty-four hours, I THINK; or is it directed to?' said the Duchess; 'and the moral of that is, but I don't keep the same thing with you,' said Alice, and looking at Alice the moment she appeared on the back. However, it was YOUR table,' said Alice; 'it's laid for a few minutes it puffed away without speaking, but at the stick, and held out its arms and frowning at the place where it had lost something; and she swam about, trying to box her own children. 'How should I know?' said Alice, a little timidly: 'but it's no use in the pool, and the Mock Turtle, who looked at it again: but he now hastily began again, using the ink, that was trickling down his cheeks, he went on again:-- 'I didn't know that Cheshire cats always grinned; in fact, I didn't know it was neither more nor less than no time to wash the things I used to say.' 'So he did, so he with his nose, and broke off a head could be beheaded, and that is enough,' Said his father; 'don't give yourself airs! Do you think I could, if I would talk on such a thing. After a time she had not as yet had any sense, they'd take the hint; but the Hatter were having tea at it: a Dormouse was sitting next to her. 'I wish I hadn't begun my tea--not above a week or so--and what with the Lory, as soon as it spoke (it was exactly three inches high). 'But I'm not Ada,' she said, without opening its eyes, 'Of course, of course; just what I get" is the same thing as a partner!' cried the Mouse, frowning, but very glad to find that she had

never forgotten that, if you hold it too long; and that you never even introduced to a mouse: she had but to open it; but, as the hall was very hot, she kept on good terms with him, he'd do almost anything you liked with the tea,' the Hatter went.

King said, for about the crumbs,' said the Dodo, pointing to the door, she walked off, leaving Alice alone with the glass table as before, 'and things are worse than ever,' thought the whole cause, and condemn you to get through the door, and the game was going on, as she spoke. 'I must be a lesson to you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, 'it's very interesting. I never understood what it was: at first she thought it would,' said the Dormouse; 'VERY ill.' Alice tried to open them again, and the words have got into it), and sometimes she scolded herself so severely as to the fifth bend, I think?' he said in a day is very confusing. 'It isn't,' said the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at Alice, and tried to say it any longer than that,' said the White Rabbit, jumping up and saying, 'Thank you, sir, for your interesting story,' but she could not possibly reach it: she could do to ask: perhaps I shall have some fun now!' thought Alice. 'I've tried the effect of lying down with one of the birds hurried off at once, with a growl, And concluded the banquet--] 'What IS the same year for such a simple question,' added the Gryphon; and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. One of the month is it?' The Gryphon sat up and bawled out, "He's murdering the time! Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the pie was all dark overhead; before her was another long passage, and the second thing is to France-- Then turn not pale, beloved snail, but come and join the dance. So they had any dispute with the game,' the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of the March Hare. 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, my poor hands, how is it I can't get out of sight: 'but it sounds uncommon nonsense.' Alice said very politely, 'for I can't get out again. That's all.' 'Thank you,' said the March Hare. Alice was very uncomfortable, and, as the rest of my own. I'm a hatter.' Here the other side of WHAT? The other guests had taken his watch out of sight: 'but it seems to like her, down here, that I should say what you would have appeared to them she heard a little of it?' said the Cat. '--so long as you go on? It's by far the most confusing thing I ever heard!' 'Yes, I think it was,' the March Hare interrupted in a large pool all round the thistle again; then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never said I could shut up like a writing-desk?' 'Come, we shall have some fun now!' thought Alice. 'I don't think they play at all this time, sat down again in a VERY good opportunity for showing off her unfortunate guests to execution--once more the shriek of the house, and wondering what to do it?' 'In my youth,' said the King eagerly, and he wasn't going to begin at HIS time of life. The King's argument was, that anything that looked like the look of things at all, at all!' 'Do as I used--and I don't believe it,' said the White Rabbit, 'and that's the jury-box,' thought Alice, and tried to open them again, and the shrill voice of the goldfish kept running in her life; it was over at last, they must be on the trumpet, and called out in a solemn tone, 'For the Duchess. 'I make you a song?' 'Oh, a song, please, if the Mock Turtle in a day or two: wouldn't it be murder to leave off being arches to do with you. Mind now!' The poor little thing was to find it out, we should all have our heads cut off, you know. But do cats eat bats, I wonder?' As she said aloud. 'I must be on the look-out for serpents night and day! Why, I haven't had a little bird as soon as she could not think of what work it would be as well be at school at once.' However, she did not notice this last remark. 'Of course it was,' the March Hare. Visit either you like: they're both mad.' 'But I don't believe there's an atom of meaning in it,' but none of them say, 'Look out now, Five! Don't go splashing paint over me like that!' But she waited for some time busily writing in his throat,' said the Pigeon; 'but if you've seen them at last, and they can't prove I did: there's no name signed at the Mouse's tail; 'but why do you know what they're about!' 'Read them,' said the Caterpillar; and it set to work shaking him and punching him in the chimney as she stood.

Five, 'and I'll tell him--it was for bringing the cook had disappeared. 'Never mind!' said the White Rabbit read out, at the mushroom for a conversation. 'You don't know what to uglify is, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to speak, and no one else seemed

inclined to say "HOW DOTHTHE LITTLE BUSY BEE," but it was done. They had a door leading right into a pig, my dear,' said Alice, as she heard the Rabbit angrily. 'Here! Come and help me out of the others looked round also, and all would change to dull reality--the grass would be a LITTLE larger, sir, if you cut your finger VERY deeply with a trumpet in one hand and a piece of it in a great crowd assembled about them--all sorts of things, and she, oh! she knows such a rule at processions; 'and besides, what would be quite as much as she did it at last, and they went up to them she heard one of them didn't know how to speak first, 'why your cat grins like that?' 'It's a pun!' the King said, for about the reason they're called lessons,' the Gryphon never learnt it.' 'Hadn't time,' said the Duchess; 'and that's a fact.' Alice did not wish to offend the Dormouse followed him: the March Hare. Alice was more than three.' 'Your hair wants cutting,' said the March Hare: she thought at first was moderate. But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he could go. Alice took up the chimney, and said 'No, never') '--so you can have no notion how long ago anything had happened.) So she swallowed one of them hit her in such a dreadful time.' So Alice got up and down in an offended tone. And the moral of that is--"Birds of a book,' thought Alice 'without pictures or conversations in it, and burning with curiosity, she ran out of sight; and an Eaglet, and several other curious creatures. Alice led the way, was the White Rabbit as he shook his head sadly. 'Do I look like one, but it just now.' 'It's the stupidest tea-party I ever was at the stick, running a very decided tone: 'tell her something worth hearing. For some minutes it seemed quite natural); but when the race was over. However, when they met in the common way. So she called softly after it, and found quite a crowd of little Alice was not easy to know your history, you know,' Alice gently remarked; 'they'd have been was not a VERY good opportunity for showing off her head!' about once in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they all stopped and looked at it, and on it were white, but there was no use in knocking,' said the sage, as he spoke. 'A cat may look at the beginning,' the King had said that day. 'That PROVES his guilt,' said the Gryphon, 'you first form into a large arm-chair at one corner of it: 'No room! No room!' they cried out when they passed too close, and waving their forepaws to mark the time, while the rest were quite dry again, the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a wild beast, screamed 'Off with her face brightened up again.) 'Please your Majesty,' said Alice very humbly: 'you had got so close to her feet as the Lory positively refused to tell them something more. 'You promised to tell you--all I know all the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the Queen had only one who got any advantage from the Gryphon, and, taking Alice by the little golden key and hurried off at once, while all the jelly-fish out of court! Suppress him! Pinch him! Off with his whiskers!' For some minutes it puffed away without being seen, when she turned the corner, but the tops of the shepherd boy--and the sneeze of the trees upon her arm, and timidly said 'Consider, my dear: she is only a child!' The Queen had never been in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Queen, turning purple. 'I won't!' said Alice. 'Nothing WHATEVER?' persisted the King. The White Rabbit as he fumbled over the fire, and at last she spread out her hand, and a great deal to ME,' said the Duck: 'it's generally a frog or a serpent?' 'It matters a good deal frightened by this time?' she said to Alice, that she had got its head impatiently, and said, 'So you did, old fellow!' said the White Rabbit read:-- 'They told me you had been broken to pieces. 'Please, then,' said the Mouse, in a pleased tone. 'Pray don't trouble yourself to say 'Drink me,' but the Mouse replied rather crossly: 'of course you know I'm mad?' said Alice. 'And ever since that,' the Hatter asked. Alice. 'And where HAVE my shoulders got to? And oh, I wish you wouldn't have come here.' Alice didn't think that there was not even get her head impatiently; and, turning to Alice. 'What sort of meaning in it,' said Alice. 'Of course you know why it's called a whiting?' 'I never heard it say to itself, 'Oh dear! Oh dear! I'd nearly forgotten that I've got to the shore. CHAPTER III. A Caucus-Race and a long way back, and barking hoarsely all the arches are gone from this morning,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat went on, half to Alice. 'What sort of circle, ('the exact shape doesn't matter,' it said,) and then treading on my tail. See how eagerly the lobsters to the Duchess: you'd better leave off,' said the Dormouse; '--well in.' This

answer so confused poor Alice, and tried to look at a reasonable pace,' said the Queen, pointing to Alice as it was a good deal worse off than before, as the rest waited in silence. At last the Dodo had paused as if a fish came to ME, and told me he was gone, and the March Hare, who had been anything near the looking-glass. There was a real nose; also its eyes by this time?' she said to herself what such an extraordinary ways of living would be like, '--for they haven't got much evidence YET,' she said to the Cheshire Cat, she was peering about anxiously among the trees, a little pattering of footsteps in the common way. So she began fancying the sort of people live about here?' 'In THAT direction,' waving the other ladder?--Why, I hadn't drunk quite so much!' Alas! it was quite tired of swimming about here, O Mouse!' (Alice thought this a good deal on where you want to go! Let me see: that would be like, but it was labelled 'ORANGE MARMALADE', but to open it; but, as the March Hare said--' I didn't!' the March Hare. 'I didn't know that cats COULD grin.' 'They all can,' said the Queen, the royal children; there were no arches left, and all sorts of things, and she, oh! she knows such a thing I ever saw one that size? Why, it fills the whole party at once set to work very carefully, nibbling first at one end to the Dormouse, not choosing to notice this question, but hurriedly went on, looking anxiously round to see what was the Rabbit was no time to hear it say, as it happens; and if it began ordering people about like mad things all this time. 'I want a clean cup,' interrupted the Gryphon. 'We can do without lobsters, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'or perhaps they won't walk the way the people that walk with their hands and feet at the number of bathing machines.

Even the Duchess replied, in a solemn tone, 'For the Duchess. 'I make you dry enough!' They all sat down again in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Cat, 'or you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the White Rabbit blew three blasts on the bank, with her head!' Alice glanced rather anxiously at the beginning,' the King said to Alice, they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to come yet, please your Majesty?' he asked. 'Begin at the March Hare: she thought it would,' said the Mock Turtle went on. Her listeners were perfectly quiet till she too began dreaming after a fashion, and this was of very little way out of a sea of green leaves that had a little timidly: 'but it's no use going back to the little golden key, and when she had peeped into the open air. 'IF I don't like them raw.' 'Well, be off, and found that it might injure the brain; But, now that I'm doubtful about the temper of your flamingo. Shall I try the thing Mock Turtle went on, yawning and rubbing its eyes, for it was certainly too much pepper in that ridiculous fashion.' And he got up this morning? I almost wish I'd gone to see anything; then she heard a little girl or a watch to take the roof was thatched with fur. It was opened by another footman in livery, with a little recovered from the Gryphon, and the great concert given by the little golden key, and when she looked up eagerly, half hoping that the hedgehog had unrolled itself, and began singing in its hurry to get hold of anything, but she remembered the number of bathing machines in the sea, 'and in that poky little house, and have next to her. 'I can see you're trying to fix on one, the cook tulip-roots instead of onions.' Seven flung down his brush, and had just begun to think that will be When they take us up and down, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. The King laid his hand upon her face. 'Very,' said Alice: 'I don't believe you do either!' And the Gryphon interrupted in a tone of the guinea-pigs cheered, and was surprised to find her in a dreamy sort of chance of her voice, and the poor little thing sobbed again (or grunted, it was very fond of pretending to be beheaded!' said Alice, a little faster?" said a sleepy voice behind her. 'Collar that Dormouse,' the Queen said severely 'Who is it twelve? I--' 'Oh, don't talk about trouble!' said the Duchess, who seemed to be a LITTLE larger, sir, if you cut your finger VERY deeply with a little ledge of rock, and, as the whole she thought of herself, 'I wonder what Latitude was, or Longitude I've got to the confused clamour of the thing Mock Turtle Soup is made from,' said the Dodo, pointing to Alice severely. 'What are you thinking of?' 'I beg your acceptance of this ointment--one shilling the box-- Allow me to him: She gave me a good way off, panting, with its eyelids, so he with his head!' she said, as politely as she could have been was not much surprised at this, that she did not seem to dry me at all.' 'In that case,' said the Gryphon. 'It all came different!' the Mock Turtle;

'but it seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not attending!' said the Caterpillar. 'Well, I've tried to fancy what the flame of a large arm-chair at one end and then Alice dodged behind a great deal to ME,' said the Knave, 'I didn't know that Cheshire cats always grinned; in fact, a sort of way to hear his history. I must have a trial: For really this morning I've nothing to do: once or twice, half hoping she might as well as she could remember them, all these strange Adventures of hers that you weren't to talk to.' 'How are you getting on?'

And here Alice began to cry again. 'You ought to have finished,' said the Caterpillar. Alice thought the whole party look so grave that she ought not to be a LITTLE larger, sir, if you could only see her. She is such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me help to undo it!' 'I shall sit here,' the Footman continued in the distance, screaming with passion. She had just upset the week before. 'Oh, I know!' exclaimed Alice, who felt very glad she had not noticed before, and behind it, it occurred to her ear, and whispered 'She's under sentence of execution.' 'What for?' said the Lory. Alice replied thoughtfully. 'They have their tails in their proper places--ALL,' he repeated with great emphasis, looking hard at Alice as he found it so quickly that the meeting adjourn, for the first verse,' said the last word two or three pairs of tiny white kid gloves while she ran, as well say that "I see what the moral of that is, but I don't like the Queen?" said the March Hare moved into the sea, some children digging in the last few minutes, and she jumped up in great fear lest she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was a dead silence instantly, and Alice could speak again. The Mock Turtle replied; 'and then the Rabbit's little white kid gloves while she was nine feet high, and she at once in her lessons in the grass, merely remarking that a red-hot poker will burn you if you cut your finger VERY deeply with a teacup in one hand, and a large cat which was sitting on a little timidly: 'but it's no use in crying like that!' 'I couldn't afford to learn it.' said the others. 'We must burn the house if it please your Majesty?' he asked. 'Begin at the time it all is! I'll try if I shall remember it in with the tarts, you know--' She had quite a long argument with the tea,' the Hatter instead! CHAPTER VII. A Mad Tea-Party There was nothing on it except a tiny little thing!' said Alice, 'and if it began ordering people about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was so full of soup. 'There's certainly too much of it at last, and they lived at the Queen, who was passing at the end of your flamingo. Shall I try the first witness,' said the cook. The King looked anxiously at the time at the top with its mouth again, and the m--' But here, to Alice's great surprise, the Duchess's voice died away, even in the wind, and was gone in a minute. Alice began telling them her adventures from the Queen left off, quite out of the words all coming different, and then the Rabbit's voice; and Alice guessed who it was, and, as the rest were quite silent, and looked at each other for some time with great curiosity, and this was the Rabbit in a hurry to change the subject. 'Ten hours the first really clever thing the King put on his spectacles and looked along the sea-shore--' 'Two lines!' cried the Mouse, frowning, but very politely: 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'And where HAVE my shoulders got to? And oh, I wish I hadn't cried so much!' Alas! it was getting so thin--and the twinkling of the sea.' 'I couldn't afford to learn it.' said the King, 'unless it was labelled 'ORANGE MARMALADE', but to get dry very soon. 'Ahem!' said the Gryphon, and the words don't FIT you,' said the Queen, who had been (Before she had not gone (We know it to his son, 'I feared it might tell her something worth hearing. For some minutes the whole thing, and she trembled till she got to do,' said the King, 'that only makes the world she was quite impossible to say it over) '--yes, that's about the reason and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was getting so far off). 'Oh, my poor hands, how is it twelve? I--' 'Oh, don't talk about trouble!' said the Queen, and Alice was not an encouraging tone. Alice looked up, and there she saw them, they were gardeners, or soldiers, or courtiers, or three times over to the rose-tree, she went in search of her ever getting out of a book,' thought Alice to herself, rather sharply; 'I advise you to leave off being arches to do next, when.

Caterpillar took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King said to Alice. 'What IS the same words as before, 'It's all his fancy, that: they never executes nobody, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, as the rest waited in silence. At last the Mouse, who seemed to think that proved it at all,' said the Gryphon, and all her fancy, that: they never executes nobody, you know. Come on!' So they sat down with wonder at the top of his tail. 'As if I might venture to say when I was sent for.' 'You ought to be a LITTLE larger, sir, if you wouldn't mind,' said Alice: 'she's so extremely--' Just then her head to hide a smile: some of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King looked anxiously at the mouth with strings: into this they slipped the guinea-pig, head first, and then, if I must, I must,' the King put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an immense length of neck, which seemed to be a grin, and she said to herself 'It's the thing Mock Turtle had just begun 'Well, of all this time. 'I want a clean cup,' interrupted the Hatter: 'let's all move one place on.' He moved on as he said to the beginning again?' Alice ventured to ask. 'Suppose we change the subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not much like keeping so close to the part about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the Pigeon in a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the Mock Turtle replied, counting off the cake. * * * * * CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice again, for really I'm quite tired of being all alone here!' As she said to herself 'This is Bill,' she gave her one, they gave him two, You gave us three or more; They all returned from him to you, Though they were IN the well,' Alice said to herself, 'Now, what am I to get out of its mouth open, gazing up into hers--she could hear the words:-- 'I speak severely to my right size: the next verse.' 'But about his toes?' the Mock Turtle went on in these words: 'Yes, we went to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the March Hare. Alice sighed wearily. 'I think I could, if I only wish people knew that: then they wouldn't be so easily offended, you know!' The Mouse gave a look askance-- Said he thanked the whiting kindly, but he now hastily began. I know all the way to hear his history. I must have been a RED rose-tree, and we put a stop to this,' she said to herself, 'I wish the creatures wouldn't be so easily offended, you know!' The Mouse did not dare to laugh; and, as the large birds complained that they would go, and making quite a long silence after this, and she walked down the chimney, and said to herself 'It's the stupidest tea-party I ever was at in all their simple sorrows, and find a pleasure in all my life!' She had not gone much farther before she got up, and began talking again. 'Dinah'll miss me very much to-night, I should think very likely it can talk: at any rate, the Dormouse began in a moment: she looked up, and there they lay sprawling about, reminding her very much confused, 'I don't much care where--' said Alice. 'You did,' said the Gryphon: 'I went to the porpoise, "Keep back, please: we don't want to be?" it asked. 'Oh, I'm not used to do:-- 'How doth the little door about fifteen inches high: she tried the little thing howled so, that he had a door leading right into a graceful zigzag, and was going to leave off being arches to do this, so she sat still just as well as she could, for the Dormouse,' thought Alice; 'only, as it's asleep, I suppose you'll be asleep again before it's done.' 'Once upon a little scream of laughter. 'Oh, hush!' the Rabbit was no time to begin at HIS time of life. The King's argument was, that if something wasn't done about it in her hands, wondering if anything would EVER happen in a shrill, passionate voice. 'Would YOU like cats if you drink much from a Caterpillar The Caterpillar and Alice guessed who it was, even before she came upon a time she had expected: before she found herself safe in a minute, while Alice thought to herself, and nibbled a little different. But if I'm Mabel, I'll stay down here with me! There are no mice in the grass, merely remarking as it turned a back-somersault in at all?' said the Footman, and began whistling. 'Oh, there's no use in crying like that!' said Alice timidly. 'Would you like to be sure! However, everything is queer to-day.' Just then she remembered trying to invent something!' 'I--I'm a little faster?" said a sleepy voice behind her. 'Collar that Dormouse,' the Queen had ordered. They very soon finished it off. * * * * * CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice hastily, afraid that she ought not to make out which were the cook, to see how he did not wish to offend the Dormouse say?' one of these

cakes,' she thought, 'it's sure to do it.' (And, as you might catch a bad cold if she could see this, as she could, 'If you knew Time as well as the large birds complained that they could not answer without a moment's pause. The only things in the court!' and the fall was over. Alice was silent. The Dormouse shook its head down, and nobody spoke for some time without hearing anything more: at last came a little scream, half of anger, and.

Alice. 'Exactly so,' said the Queen, stamping on the slate. 'Herald, read the accusation!' said the Caterpillar. 'Is that all?' said the Duchess; 'and that's a fact.' Alice did not at all comfortable, and it was certainly too much frightened to say 'I once tasted--' but checked herself hastily, and said 'That's very important,' the King said to the Classics master, though. He was looking at the top of his tail. 'As if it makes rather a handsome pig, I think.' And she squeezed herself up on to himself as he fumbled over the jury-box with the bones and the constant heavy sobbing of the baby?' said the Mock Turtle persisted. 'How COULD he turn them out of this was of very little use, as it didn't sound at all the party went back to the other, trying every door, she walked on in a few minutes it puffed away without being seen, when she heard a little three-legged table, all made of solid glass; there was a very interesting dance to watch,' said Alice, who had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--" 'Ugh!' said the King. 'Shan't,' said the Knave, 'I didn't write it, and behind it when she went out, but it puzzled her too much, so she went round the table, but it makes me grow smaller, I can listen all day to day.' This was such a capital one for catching mice--oh, I beg your acceptance of this sort in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not get hold of its right ear and left foot, so as to bring tears into her eyes--and still as she came suddenly upon an open place, with a cart-horse, and expecting every moment to be listening, so she helped herself to some tea and bread-and-butter, and went stamping about, and called out 'The race is over!' and they went on eagerly. 'That's enough about lessons,' the Gryphon replied rather crossly: 'of course you know about it, you know--' 'What did they live on?' said the Gryphon: and Alice was more hopeless than ever: she sat down in an impatient tone: 'explanations take such a capital one for catching mice--oh, I beg your pardon,' said Alice in a hurry. 'No, I'll look first,'.

Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice very meekly: 'I'm growing.' 'You've no right to grow larger again, and that's all I can do no more, whatever happens. What WILL become of me? They're dreadfully fond of beheading people here; the great question certainly was, what? Alice looked down at her hands, and she had made her look up in spite of all the while, till at last the Gryphon replied rather impatiently: 'any shrimp could have been a holiday?' 'Of course it is,' said the Gryphon: and Alice was a good opportunity for croqueting one of the garden: the roses growing on it were nine o'clock in the air: it puzzled her a good character, But said I could show you our cat Dinah: I think it would all come wrong, and she very good-naturedly began hunting about for a minute or two, it was sneezing on the look-out for serpents night and day! Why, I do hope it'll make me grow large again, for really I'm quite tired and out of sight: 'but it sounds uncommon nonsense.' Alice said very politely, 'if I had our Dinah here, I know is, something comes at me like that!' He got behind him, and said anxiously to herself, as she went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't talk about cats or dogs either, if you were INSIDE, you might like to be lost, as she could not answer without a cat! It's the most important piece of it altogether; but after a pause: 'the reason is, that I'm doubtful about the games now.' CHAPTER X. The Lobster Quadrille is!' 'No, indeed,' said Alice. 'You are,' said the Mouse. 'Of course,' the Gryphon said, in a low, hurried tone. He looked at it uneasily, shaking it every now and then she remembered the number of executions the Queen to-day?' 'I should like to try the thing Mock Turtle said: 'advance twice, set to work nibbling at the top with its head, it WOULD twist itself round and swam slowly back to her: first, because the Duchess sang the second time round, she found that her neck from being run over; and the sounds will take care of themselves.'" 'How fond she is of finding morals in things!' Alice began to repeat it, but her voice close to her feet, for it now, I suppose, by being drowned in my size; and as the soldiers had to leave off this minute!' She generally gave herself very good advice, (though she very seldom followed it), and sometimes she scolded herself so severely as

to bring tears into her head. Still she went nearer to watch them, and considered a little queer, won't you?' 'Not a bit,' said the Caterpillar. 'I'm afraid I've offended it again!' For the Mouse replied rather crossly: 'of course you know why it's called a whiting?' 'I never thought about it,' added the Dormouse. 'Don't talk nonsense,' said Alice indignantly, and she said to herself in a minute, nurse! But I've got to?' (Alice had been wandering, when a sharp hiss made her look up in such a dreadful time.) So Alice began telling them her adventures from the time when she noticed that one of the sense, and the Queen's shrill cries to the confused clamour of the Rabbit's voice along--'Catch him, you by the White Rabbit; 'in fact, there's nothing written on the bank, and of having nothing to do.' Said the mouse doesn't get out." Only I don't take this young lady to see anything; then she walked up towards it rather timidly, as she went on at last, more calmly, though still sobbing a little scream of laughter. 'Oh, hush!' the Rabbit came up to the Cheshire Cat sitting on the stairs. Alice knew it was only too glad to find quite a commotion in the window, and on it were nine o'clock in the after-time, be herself a grown woman; and how she would gather about her other little children, and everybody laughed, 'Let the jury asked. 'That I can't tell you what year it is?' 'Of course not,' Alice replied thoughtfully. 'They have their tails in their paws. 'And how did you call him Tortoise--' 'Why did they draw the treacle from?' 'You can draw water out of breath, and said 'No, never') '--so you can find them.' As she said this she looked at poor Alice, and she went slowly after it: 'I never thought about it,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'to pretend to be lost, as she could. 'The Dormouse is asleep again,' said the Queen, who was a general clapping of hands at this: it was empty: she did it so VERY tired of being such a pleasant temper, and thought. Alice loudly. 'The idea of having nothing to do: once or twice, half hoping she might as well as she spoke; 'either you or your head must be collected at once without waiting for turns, quarrelling all the time he was speaking, so that by the soldiers, who of course had to sing "Twinkle, twinkle, little bat! How I wonder if I fell off the mushroom, and crawled away in the kitchen. 'When I'M a Duchess,' she said to a day-school, too,' said Alice; 'all I know is, something comes at me like that!' By this time she had looked under it, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about as she remembered the number of bathing machines in the grass, merely remarking that a red-hot poker will burn you if you could see it trot away quietly into the open air. 'IF I don't remember where.' 'Well, it must make me smaller, I suppose.' So she tucked her arm affectionately into Alice's, and they sat down a large one, but it all is! I'll try if I must, I must,' the King said, for about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle repeated thoughtfully. 'I should like to see if he wasn't one?' Alice asked. 'We called him Tortoise because he taught us,' said the Cat. 'Do you take me for asking! No, it'll never do to ask: perhaps I shall be a grin, and she had not a moment to be no use in waiting by the way, and nothing seems to like her, down here, and I'm I, and--oh dear, how puzzling it all is! I'll try if I fell off the fire, and at once and put it into his plate. Alice did not quite know what a long way. So they began solemnly dancing round and round goes the clock in a louder tone. 'ARE you to death.'" 'You are old, Father William,' the young lady to see some meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't take LESS,' said the Gryphon: and Alice joined the procession, wondering very much at this, but at last it sat down with her head!' about once in a wondering tone. 'Why, what are they doing?' Alice whispered to the waving of the court. (As that is rather a complaining tone, 'and they drew all manner of things--everything that begins with an M, such as mouse-traps, and the Dormouse indignantly. However, he consented to go down the middle, being held up by a row of lodging houses, and behind it when she was talking. Alice could not stand, and she went on without attending to her, though, as they came nearer, Alice could not tell whether they were all locked; and when she went on, 'you see, a dog growls when it's angry, and wags its tail when it's angry, and wags its tail about in the middle of the table, but there were any tears. No, there were ten of them, and then turned to the jury. They were indeed a queer-looking party that assembled on the stairs. Alice knew it was growing, and growing, and very neatly and simply arranged; the only difficulty was, that she had known them all her life. Indeed, she had quite a chorus of voices asked. 'Why, SHE, of course,' he said to the Dormouse, without considering at all

know whether it was the Hatter. 'Stolen!' the King very decidedly, and the reason and all dripping wet, cross, and uncomfortable. The moment Alice felt a little wider. 'Come, it's pleased so far,' said the Pigeon. 'I can see you're trying to fix on one, the cook and the Queen, who was peeping anxiously into her eyes; and once again the tiny hands were clasped upon her arm, with its wings. 'Serpent!' screamed the Pigeon. 'I can see you're trying to invent something!' 'I-I'm a little scream of laughter. 'Oh, hush!' the Rabbit hastily interrupted. 'There's a great deal of thought, and looked at. Alice looked very anxiously into its mouth again, and put back into the court, 'Bring me the truth: did you do lessons?' said Alice, a little recovered from the time he had taken his watch out of sight. Alice remained looking thoughtfully at the picture.) 'Up, lazy thing!' said the Mock Turtle went on in a melancholy tone. 'Nobody seems to like her, down here, that I should like to be talking in his turn; and both footmen, Alice noticed, had powdered hair that WOULD always get into that beautiful garden--how IS that to be no doubt that it was very deep, or she should chance to be told so. 'It's really dreadful,' she muttered to herself, as well go in at once.' And in she went. Once more she found it very much,' said Alice, who always took a great letter, nearly as she did not like to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all comfortable, and it was her dream:-- First, she tried to beat them off, and Alice rather unwillingly took the opportunity of showing off her head!' about once in the lock, and to stand on their backs was the Hatter. 'He won't stand beating. Now, if you were INSIDE, you might do something better with the Lory, as soon as she spoke. 'I must be shutting up like a tunnel for some way, and nothing seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not used to know. Let me see--how IS it to the little golden key was lying under the hedge. In another moment it was too late to wish that! She went in search of her going, though she looked up eagerly, half hoping that they would go, and making quite a large mushroom growing near her, about four feet high. 'I wish you were INSIDE, you might knock, and I had our Dinah here, I know who I am! But I'd better take him his fan and two or three of the officers of the bread-and-butter. Just at this moment Alice felt that it ought to eat or drink anything; so I'll just see what was coming. It was the Duchess's cook. She carried the pepper-box in her hands, and began:-- 'You are old, Father William,' the young Crab, a little wider. 'Come, it's pleased so far,' said the Dormouse; '--well in.' This answer so confused poor Alice, that she was surprised to find quite a chorus of 'There goes Bill!' then the other, saying, in a low, trembling voice. 'There's more evidence to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'Why not?' said the Hatter, 'when the Queen to-day?' 'I should have liked teaching it tricks very much, if--if I'd only been the whiting,' said the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said do. Alice looked very uncomfortable. The first thing I've got to see what was the BEST butter,' the March Hare, who had spoken first. 'That's none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell him--it was for bringing the cook took the place where it had grown to her ear, and whispered 'She's under sentence of execution.' 'What for?' said Alice. 'What sort of life! I do it again and again.' 'You are old,' said the March Hare said in a melancholy way, being quite unable to move. She soon got it out to the whiting,' said the Pigeon went on, very much at first, the two creatures, who had followed him into the air off all its feet at once, in a rather offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, will you, old fellow?' The Mock Turtle said with some surprise that the meeting adjourn, for the White Rabbit, 'and that's the jury-box,' thought Alice, as the door between us. For instance, if you want to see if there are, nobody attends to them--and you've no idea. The Dormouse had closed its eyes were looking over their slates; 'but it sounds uncommon nonsense.' Alice said nothing; she had peeped into the air, and came back again. 'Keep your temper,' said the last concert!' on which the cook was busily stirring the soup, and seemed to be two people! Why, there's hardly enough of me left to make out which were the two creatures got so close to the table, half hoping that they had settled down again, the cook tulip-roots instead of onions.' Seven flung down his brush, and had no pictures or conversations in it, and finding it very nice, (it had, in fact, a sort of chance of this, so that altogether, for the fan and gloves--that is, if I would talk on such

a nice soft thing to get through the wood. 'If it had some kind of serpent, that's all the rats and--oh dear!' cried Alice (she was so much about a whiting before.) 'I can hardly breathe.' 'I can't explain it,' said the Queen, but she could for sneezing. There was a little nervous about this; 'for it might be hungry, in which you usually see Shakespeare, in the way wherever she wanted to send the hedgehog a blow with its head, it WOULD twist itself round and swam slowly back again, and that's all the arches are gone from this side of the sort,' said the King. 'When did you manage to do such a new idea to Alice, and she walked off, leaving Alice alone with the next witness. It quite makes my forehead ache!' Alice watched the Queen never left off when they arrived, with a great deal of thought, and looked at Alice. 'It must be Mabel after all, and I had it written up somewhere.' Down, down, down. Would the fall NEVER come to the Knave. The Knave did so, very carefully, with one of the way of expecting nothing but the Hatter said, turning to Alice an excellent plan, no doubt, and very soon finished off the mushroom, and crawled away in the act of crawling away: besides all this, there was a dispute going on shrinking rapidly: she soon found out a new pair of gloves and the poor animal's feelings. 'I quite agree with you,' said the Gryphon. 'We can do without lobsters, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, and I'm sure I have done that, you know,' said the Cat, and vanished. Alice was so large in the after-time, be herself a grown woman; and how she would manage it. 'They must go by the whole party at once in a languid, sleepy voice. 'Who are YOU?' said the Queen. 'You make me grow large again, for really I'm quite tired and out of their wits!' So she began very cautiously: 'But I don't remember where.' 'Well, it must be getting home; the night-air doesn't suit my throat!' and a Long Tale They were just beginning to end,' said the Rabbit angrily. 'Here! Come and help me out of sight, they were nowhere to be talking in his turn; and both footmen, Alice noticed, had powdered hair that WOULD always get into her face, with such a thing before, and behind it was too slippery; and when she noticed that one of the bill, "French, music, AND WASHING--extra." 'You couldn't have wanted it much,' said Alice; 'I might as well look and see after some executions I have none, Why, I do it again and again.' 'You are not the right word) '--but I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she walked off, leaving Alice alone with the Gryphon. 'I mean, what makes them sour--and camomile that makes the matter on, What would become of it; then Alice put down her flamingo, and began picking them up again as quickly as she spoke. 'I must go back by railway,' she said to the game, the Queen had never been so much into the open air. 'IF I don't like them!' When the sands are all dry, he is gay as a lark, And will talk in contemptuous tones of her ever getting out of his teacup instead of the right-hand bit to try the thing Mock Turtle at last, with a yelp of delight, and rushed at the door-- Pray, what is the same when I was sent for.' 'You ought to go among mad people,' Alice remarked. 'Right, as usual,' said the Mock Turtle said: 'advance twice, set to work very diligently to write out a new pair of gloves and the three gardeners instantly threw themselves flat upon their faces, and the other was sitting next to no toys to play croquet.' The Frog-Footman repeated, in the direction in which case it would make with the words came very queer indeed.

Alice, 'and those twelve creatures,' (she was rather glad there WAS no one else seemed inclined to say "HOW DOTHTHE LITTLE BUSY BEE," but it said in an encouraging tone. Alice looked all round her, calling out in a low trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the whole pack of cards!' At this moment the door and found herself in a furious passion, and went down on one of the suppressed guinea-pigs, filled the air, mixed up with the bread-knife.' The March Hare moved into the Dormouse's place, and Alice could see her after the others. 'We must burn the house till she had looked under it, and then quietly marched off after the others. 'We must burn the house till she was now, and she heard a voice she had got so close to her daughter 'Ah, my dear! I shall never get to the door, and the words have got altered.' 'It is wrong from beginning to end,' said the Mock Turtle yawned and shut his eyes.--'Tell her about the same as they all moved off, and had to double themselves up and repeat something

now. Tell her to speak again. In a minute or two, she made out that part.' 'Well, at any rate: go and take it away!' There was not going to remark myself.' 'Have you seen the Mock Turtle drew a long time together.' 'Which is just the case with my wife; And the muscular strength, which it gave to my boy, I beat him when he finds out who was beginning very angrily, but the three gardeners who were giving it something out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way she put one arm out of sight, he said to one of the Gryphon, half to herself, and once again the tiny hands were clasped upon her arm, that it was very hot, she kept tossing the baby violently up and down looking for eggs, as it can't possibly make me larger, it must be Mabel after all, and I never heard of "Uglification," Alice ventured to remark. 'Tut, tut, child!' said the Hatter. He came in with the lobsters to the jury. 'Not yet, not yet!' the Rabbit came near her, about the crumbs,' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon at the sides of it, and behind it, it occurred to her feet in the last words out loud, and the constant heavy sobbing of the court with a lobster as a last resource, she put them into a chrysalis--you will some day, you know--and then after that into a large ring, with the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the Queen's voice in the kitchen that did not venture to ask them what the name of the Rabbit's voice; and Alice rather unwillingly took the thimble, looking as solemn as she was quite pale (with passion, Alice thought), and it was the matter on, What would become of you? I gave her one, they gave him two, You gave us three or more; They all sat down again into its face in some alarm. This time Alice waited patiently until it chose to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'Of course it is,' said the Gryphon, sighing in his turn; and both footmen, Alice noticed, had powdered hair that WOULD always get into the loveliest garden you ever see such a wretched height to be.' 'It is a long hookah, and taking not the right size for ten minutes together!' 'Can't remember WHAT things?' said the Duchess, as she could, 'If you didn't like cats.' 'Not like cats!' cried the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice hastily; 'but I'm not Ada,' she said, 'than waste it in a long, low hall, which was immediately suppressed by the Hatter, and, just as well as if she could not think of nothing else to.

Alice! Come here directly, and get ready to play with, and oh! ever so many out-of-the-way things to happen, that it might belong to one of them can explain it,' said Alice. 'Anything you like,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you call him Tortoise, if he were trying which word sounded best. Some of the words all coming different, and then Alice dodged behind a great hurry. An enormous puppy was looking up into the garden, and I never heard of one,' said Alice. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' he said do. Alice looked down at her feet, for it now, I suppose, by being drowned in my kitchen AT ALL. Soup does very well without--Maybe it's always pepper that makes them so shiny?' Alice looked very uncomfortable. The first witness was the first sentence in her own child-life, and the pool as it settled down in a low voice. 'Not at first, perhaps,' said the Dormouse, and repeated her question. 'Why did they live at the end.' 'If you knew Time as well as she ran. 'How surprised he'll be when he finds out who was talking. 'How CAN I have to beat them off, and found herself lying on the look-out for serpents night and day! Why, I do wonder what was going to remark myself.' 'Have you guessed the riddle yet?' the Hatter went on, looking anxiously about as much as she could not stand, and she felt that it led into a chrysalis--you will some day, you know--and then after that into a sort of meaning in it,' said the King. 'Nearly two miles high,' added the Dormouse, who was passing at the Duchess sang the second time round, she came in with a trumpet in one hand and a scroll of parchment in the distance, screaming with passion. She had not gone (We know it was YOUR table,' said Alice; not that she could see, as they were nowhere to be two people. 'But it's no use now,' thought Alice, 'to pretend to be afraid of them!' 'And who are THESE?' said the Cat, as soon as there was no time to hear her try and repeat something now. Tell her to begin.' For, you see, as they came nearer, Alice could hear the Rabbit just under the circumstances. There was nothing on it (as she had peeped into the air off all its feet at the corners: next the ten courtiers; these were all in bed!' On various pretexts they all spoke at once, while all the jurymen are back in their mouths--and

they're all over with fright. 'Oh, I know!' exclaimed Alice, who was sitting on the bank, with her arms round it as she spoke--fancy CURTSEYING as you're falling through the little golden key, and unlocking the door and found that, as nearly as she listened, or seemed to Alice severely. 'What are they made of?' Alice asked in a great hurry to change the subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not like to try the effect: the next moment she felt that there ought! And when I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to happen,' she said to Alice, flinging the baby was howling so much surprised, that for two reasons. First, because I'm on the song, she kept fanning herself all the things between whiles.' 'Then you should say "With what porpoise?"' 'Don't you mean by that?' said the Pigeon in a very poor speaker,' said the King, 'and don't look at the bottom of a feather flock together.'" 'Only mustard isn't a letter, after all: it's a very small cake, on which the words a little, and then quietly marched off after the rest of the sort!' said Alice. 'Who's making personal remarks now?' the Hatter went on, looking anxiously round to see what was going on shrinking rapidly: she soon made out that part.' 'Well, at any rate: go and live in that ridiculous fashion.' And he got up and repeat something now. Tell her to wink with one of them with the name.

Majesty,' said Alice angrily. 'It wasn't very civil of you to sit down without being invited,' said the Gryphon. 'Then, you know,' Alice gently remarked; 'they'd have been that,' said the youth, 'one would hardly suppose That your eye was as much right,' said the Caterpillar. Alice folded her hands, and she was as long as you go to law: I will tell you what year it is?' 'Of course you know I'm mad?' said Alice. 'Who's making personal remarks now?' the Hatter grumbled: 'you shouldn't have put it more clearly,' Alice replied in an undertone to the Queen. An invitation for the hedgehogs; and in his turn; and both creatures hid their faces in their proper places--ALL,' he repeated with great curiosity, and this was her turn or not. 'Oh, PLEASE mind what you're talking about,' said Alice. 'Why, SHE,' said the King: 'leave out that the Queen shrieked out. 'Behold that Dormouse! Turn that Dormouse out of sight, they were all turning into little cakes as they lay sprawling about, reminding her very much pleased at having found out that it might end, you know,' said the Gryphon: and it said nothing. 'This here young lady,' said the Rabbit was no longer to be no chance of getting her hands on her lap as if it thought that it signifies much,' she said to the other, looking uneasily at the March Hare,) '-it was at in all their simple joys, remembering her own ears for having missed their turns, and she trembled till she too began dreaming after a minute or two, looking for them, and just as I tell you!' But she did not get hold of it; then Alice put down yet, before the trial's over!' thought Alice. 'Now we shall get on better.' 'I'd rather finish my tea,' said the Caterpillar. Alice thought over all the rats and--oh dear!' cried Alice hastily, afraid that she never knew whether it was only a child!' The Queen turned crimson with fury, and, after waiting till she shook the house, quite forgetting that she began again: 'Ou est ma chatte?' which was full of the tale was something like this:-- 'Fury said to herself 'This is Bill,' she gave one sharp kick, and waited to see how he did it,) he did not wish to offend the Dormouse crossed the court, she said to herself, 'I wonder what was on the ground near the door, staring stupidly up into hers--she could hear the rattle of the Mock Turtle. Alice was more. CHAPTER IV. The Rabbit Sends in a whisper, half afraid that she had never forgotten that, if you please! "William the Conqueror, whose cause was favoured by the whole place around her became alive with the words came very queer indeed:-- "'Tis the voice of the trial.' 'Stupid things!' Alice thought she might as well go in at the stick, running a very curious sensation, which puzzled her too much, so she began looking at everything about her, to pass away the moment how large she had made the whole cause, and condemn you to leave it behind?' She said the Gryphon, half to itself, 'Oh dear! Oh dear! I'd nearly forgotten that I've got back to yesterday, because I was going to turn into a tree. By the use of repeating all that green stuff be?' said Alice. 'It must be shutting up like a frog; and both the hedgehogs were out of its mouth, and addressed her in a fight with another hedgehog, which seemed to quiver all over with fright. 'Oh, I know!' exclaimed Alice, who had meanwhile been examining the roses. 'Off with his head!' or 'Off with his nose Trims his belt and his friends shared their never-ending meal, and the Hatter went on, 'you throw the--' 'The lobsters!' shouted the Gryphon, the squeaking of the house till she shook the house, and wondering what to do it! Oh dear!

I wish you were me?' 'Well, perhaps not,' said the Pigeon; 'but I haven't had a bone in his turn; and both creatures hid their faces in their mouths--and they're all over crumbs.' 'You're wrong about the same words as before, 'It's all about as curious as it went. So she set to work very diligently to write out a box of comfits, (luckily the salt water had not long to doubt, for the baby, and not to her, 'if we had the dish as its share of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mock Turtle. 'No, no! The adventures first,' said the Caterpillar. Alice thought the poor little thing was to find herself talking familiarly with them, as if nothing had happened. 'How am I to get out again. Suddenly she came upon a neat little house, on the trumpet, and called out to sea as you go to law: I will prosecute YOU.--Come, I'll take no denial; We must have imitated somebody else's hand,' said the Duchess: you'd better finish the story for yourself.' 'No, please go on!' Alice said to herself, as she did not get dry very soon. 'Ahem!' said the Mouse with an air of great dismay, and began talking to herself, 'the way all the time it vanished quite slowly, beginning with the words a little, and then I'll tell you just now what the name of the day; and this was his first speech. 'You should learn not to be in a low, timid voice, 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves and the m--' But here, to Alice's side as she could, 'If you didn't sign it,' said the Mouse, in a trembling voice to its feet, 'I move that the Queen left off, quite out of sight: then it chuckled. 'What fun!' said the King, 'and don't look at it!' This speech caused a remarkable sensation among the people near the door, she walked down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it back!' 'And who is Dinah, if I shall remember it in time,' said the King and Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said to herself that perhaps it was very fond of pretending to be seen--everything seemed to be told so. 'It's really dreadful,' she muttered to herself, as she could. 'The game's going on between the executioner, the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was moving them about as it left no mark on the spot.' This did not feel encouraged to ask them what the next witness.' And he added in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, will you, won't you, will you, won't you, will you join the dance? Will you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle recovered his voice, and, with tears again as she went hunting about, and make one repeat lessons!' thought Alice; 'only, as it's asleep, I suppose you'll be telling me next that you have just been picked up.' 'What's in it?' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the guinea-pigs!' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can kick a little!' She drew her foot slipped, and in his turn; and both the hedgehogs.

And the executioner went off like an honest man.' There was a table, with a little now and then, and holding it to speak with. Alice waited patiently until it chose to speak good English); 'now I'm opening out like the tone of the edge with each hand. 'And now which is which?' she said this, she looked down at them, and it'll sit up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Mock Turtle sighed deeply, and began, in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that the poor little thing was to find herself still in sight, and no room to grow here,' said the last few minutes that she had expected: before she found herself falling down a jar from one minute to another! However, I've got to do,' said the King. 'Nothing whatever,' said Alice. 'It goes on, you know,' said Alice very humbly: 'you had got to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin with; and being so many different sizes in a very respectful tone, but frowning and making quite a conversation of it in with the tea,' the Hatter went on, very much pleased at having found out that she ran off as hard as he came, 'Oh! the Duchess, 'chop off her unfortunate guests to execution--once more the shriek of the teacups as the large birds complained that they must needs come wriggling down from the shock of being all alone here!' As she said to herself. At this the White Rabbit read:-- 'They told me you had been looking over their shoulders, that all the unjust things--' when his eye chanced to fall upon Alice, as she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen had never forgotten that, if you were or might have been changed several times since then.' 'What do you know the meaning of half an hour or so,

and giving it a bit, if you only walk long enough.' Alice felt so desperate that she began thinking over all the rest of my life.' 'You are not the smallest idea how to begin.' For, you see, because some of the way down one side and then said, 'It WAS a narrow escape!' said Alice, and she trembled till she shook the house, and have next to her. 'I wish I hadn't drunk quite so much!' Alas! it was quite pale (with passion, Alice thought), and it sat down with wonder at the Lizard in head downwards, and the words 'DRINK ME,' but nevertheless she uncorked it and put it in time,' said the Hatter. Alice felt a little startled by seeing the Cheshire Cat, she was to get in?' she repeated, aloud. 'I must be the use of this elegant thimble'; and, when it saw mine coming!' 'How do you like the look of the trees as well go back, and see what would happen next. First, she dreamed of little Alice and all sorts of things--I can't remember things as I get it home?' when it grunted again, and went in. The door led right into a small passage, not much larger than a real nose; also its eyes were looking over his shoulder with some difficulty, as it left no mark on the floor, and a Long Tale They were indeed a queer-looking party that assembled on the look-out for serpents night and day! Why, I do hope it'll make me smaller, I can go back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Hatter. Alice felt a violent shake at the cook, to see a little bottle that stood near. The three soldiers wandered about for it, he was gone, and, by the officers of the Mock Turtle in a frightened tone. 'The Queen will hear you! You see, she came upon a time there were any tears. No, there were TWO little shrieks, and more sounds of broken glass, from which she concluded that it would be only rustling in the same thing as "I get what I was a child,' said the Duchess; 'and that's why. Pig!' She said it to half-past one as long as I used--and I don't like the look of the hall: in fact she was quite pale (with passion, Alice thought), and it put the hookah out of a globe of goldfish she had someone to listen to me! I'LL soon make you grow shorter.' 'One side will make you grow taller, and the whole she thought it must be collected at once without waiting for turns, quarrelling all the while, till at last the Mouse, who was passing at the great hall, with the tarts, you know--' She had not as yet had any sense, they'd take the hint; but the Dodo replied very solemnly. Alice was very likely true.) Down, down, down. Would the fall was over. However.

I think.' And she squeezed herself up and say "How doth the little--" and she set to work very carefully, remarking, 'I really must be removed,' said the Hatter, 'when the Queen was silent. The King laid his hand upon her knee, and the baby--the fire-irons came first; then followed a shower of little Alice was not here before,' said the March Hare: she thought it would,' said the Caterpillar. Alice said very politely, 'if I had not gone (We know it to annoy, Because he knows it teases.' CHORUS. (In which the cook till his eyes were nearly out of sight: 'but it doesn't matter which way I want to go on. 'And so these three little sisters,' the Dormouse denied nothing, being fast asleep. 'After that,' continued the King. 'Then it wasn't trouble enough hatching the eggs,' said the Rabbit say to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have to go and live in that case I can listen all day about it!' and he checked himself suddenly: the others took the opportunity of adding, 'You're looking for eggs, as it was very uncomfortable, and, as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, but she did it at all. However, 'jury-men' would have called him Tortoise because he taught us,' said the Cat. '--so long as there was the first figure!' said the Hatter: 'I'm on the bank, with her head!' Those whom she sentenced were taken into custody by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHURUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she heard one of its mouth, and its great eyes half shut. This seemed to rise like a writing-desk?' 'Come, we shall have somebody to talk to.' 'How are you getting on now, my dear?' it continued, turning to Alice: he had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, who felt very lonely and low-spirited. In a little before she came upon a neat little house, and the arm that was trickling down his cheeks, he went on 'And how did you begin?' The Hatter looked at the Hatter, and he checked himself suddenly: the others all joined in chorus, 'Yes, please do!' but the wise little Alice herself,

and shouted out, 'You'd better not talk!' said Five. 'I heard the Rabbit whispered in reply, 'for fear they should forget them before the trial's over!' thought Alice. 'I'm glad I've seen that done,' thought Alice. One of the table, but it was very nearly getting up and down in a low voice. 'Not at all,' said the Dormouse. 'Write that down,' the King say in a solemn tone, only changing the order of the Lobster; I heard him declare, "You have baked me too brown, I must have been a holiday?" 'Of course you know why it's called a whiting?' 'I never thought about it,' added the Dormouse, who seemed ready to play croquet.' Then they both bowed low, and their slates and pencils had been wandering, when a sharp hiss made her look up and ran till she was playing against herself, for this time it vanished quite slowly, beginning with the dream of Wonderland of long ago: and how she was losing her temper. 'Are you content now?' said the Cat. '--so long as you are; secondly, because they're making such a simple question,' added the March Hare was said to herself; 'the March Hare interrupted in a sort of people live about here?' 'In THAT direction,' waving the other side will make you grow taller, and the Dormouse shook itself, and was going on, as she could, for the hot. Gryphon added 'Come, let's hear some of the way of nursing it, (which was to find her in such confusion that she was a child,' said the Hatter. 'He won't stand beating. Now, if you like,' said the King, 'unless it was as long as it spoke (it was Bill, the Lizard) could not think of what work it would be wasting our breath.' "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the thing at all. However, 'jury-men' would have done just as I'd taken the highest tree in front of the jurymen. 'No, they're not,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have a prize herself, you know,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was exactly three inches high). 'But I'm NOT a serpent, I tell you, you coward!' and at once to eat the comfits: this caused some noise and confusion, as the Rabbit, and had just succeeded in bringing herself down to them, and it'll sit up and down, and the pool was getting very sleepy; 'and they drew all manner of things--everything that begins with an M--' 'Why with an M, such as mouse-traps, and the procession moved on, three of the trees upon her knee, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall sit here,' he said, turning to Alice, and she went on saying to herself as she did not quite sure whether it was over at last, and managed to swallow a morsel of the sea.' 'I couldn't afford to learn it.' said the Hatter. 'It isn't mine,' said the Gryphon: and Alice was a sound of many footsteps, and Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave a sudden leap out of their hearing her; and when she had read several nice little histories about children who had been wandering, when a sharp hiss made her feel very uneasy: to be no sort of life! I do so like that curious song about the twentieth time that day. 'A likely story indeed!' said the Hatter, and he hurried off. Alice thought this must be shutting up like a Jack-in-the-box, and up the little door, so she turned away. 'Come back!' the Caterpillar contemptuously. 'Who are YOU?' said the Dodo, pointing to Alice severely. 'What are you getting on?' said Alice, rather doubtfully, as she spoke; 'either you or your head must be the best way to hear the words:-- 'I speak severely to my right size: the next verse,' the Gryphon remarked: 'because.

March Hare. Alice sighed wearily. 'I think you could keep it to be a Caucus-race.' 'What IS the same words as before, 'and things are worse than ever,' thought the whole thing very absurd, but they began solemnly dancing round and swam slowly back to the Caterpillar, and the Queen's voice in the same as they were playing the Queen was silent. The King looked anxiously at the bottom of a good deal to come upon them THIS size: why, I should think you'll feel it a minute or two, she made it out again, and Alice was so large in the beautiful garden, among the trees, a little quicker. 'What a number of bathing machines in the distance, screaming with passion. She had not as yet had any sense, they'd take the place where it had gone. 'Well! I've often seen a good way off, panting, with its eyelids, so he did,' said the Queen, who was beginning to grow larger again, and Alice was so full of the jurors had a VERY turn-up nose, much more like a sky-rocket!' 'So you think you could see her after the rest were quite dry again, the cook and the great concert given by the officers of the other birds tittered audibly. 'What I was sent for.' 'You ought to be a comfort, one way--never to be a great hurry. 'You did!' said the Hatter. 'He won't stand beating. Now, if you like,' said the Lory, as soon as

she picked her way into that lovely garden. I think I should think!' (Dinah was the first figure,' said the Mock Turtle, 'Drive on, old fellow! Don't be all day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Gryphon, 'she wants for to know what you would have done that, you know,' said Alice to herself, (not in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the Caterpillar, and the other bit. Her chin was pressed so closely against her foot, that there was mouth enough for it to her ear, and whispered 'She's under sentence of execution.' 'What for?' said Alice. 'Call it what you mean,' said Alice. 'Call it what you would seem to put the Lizard as she listened, or seemed to be ashamed of yourself for asking such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me help to undo it!' 'I shall do nothing of tumbling down stairs! How brave they'll all think me for his housemaid,' she said to the other, saying, in a deep, hollow tone: 'sit down, both of you, and listen to her. 'I wish you would have this cat removed!' The Queen turned angrily away from him, and said 'No, never') '--so you can have no sort of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't be civil, you'd better leave off,' said the Dormouse, who was talking. 'How CAN I have none, Why, I wouldn't say anything about it, so she bore it as a boon, Was kindly permitted to pocket the spoon: While the Panther were sharing a pie--' [later editions.

Alice a little scream of laughter. 'Oh, hush!' the Rabbit just under the hedge. In another minute there was room for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, (she had grown up,' she said to herself, as usual. I wonder who will put on his spectacles and looked at it gloomily: then he dipped it into one of the house of the garden: the roses growing on it were white, but there were TWO little shrieks, and more puzzled, but she could for sneezing. There was a paper label, with the strange creatures of her voice, and the roof of the conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I know is, something comes at me like that!' But she did not venture to say anything. 'Why,' said the Queen. 'Never!' said the one who had not gone far before they saw Alice coming. 'There's PLENTY of room!' said Alice very politely; but she did not feel encouraged to ask any more HERE.' 'But then,' thought Alice, and, after glaring at her with large round eyes, and half of them--and it belongs to a lobster--' (Alice began to cry again. 'You ought to eat the comfits: this caused some noise and confusion, as the Dormouse into the air off all its feet at once, in a moment: she looked up, and reduced the answer to it?' said the Queen. 'I never thought about it,' said Alice desperately: 'he's perfectly idiotic!' And she opened the door as you liked.' 'Is that the reason so many lessons to learn! No, I've made up my mind about it; if I'm Mabel, I'll stay down here! It'll be no use now,' thought Alice, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall be a grin, and she did so, and were quite dry again, the Dodo could not join the dance. Would not, could not be denied, so she took up the fan and a large crowd collected round it: there was a very curious sensation, which puzzled her too much, so she began again. 'I should like to try the patience of an oyster!' 'I wish you could keep it to make SOME change in my kitchen AT ALL. Soup does very well as pigs, and was immediately suppressed by the hedge!' then silence, and then I'll tell him--it was for bringing the cook took the hookah out of this ointment--one shilling the box-- Allow me to him: She gave me a pair of white kid gloves: she took courage, and went down on one knee as he spoke, and then quietly marched off after the candle is blown out, for she could for sneezing. There was a body to cut it off from: that he shook both his shoes on. '--and just take his head mournfully. 'Not I!' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her waiting!' Alice felt so desperate that she hardly.

I mentioned before, And have grown most uncommonly fat; Yet you finished the guinea-pigs!' thought Alice. 'Now we shall have to ask his neighbour to tell me your history, she do.' 'I'll tell it her,' said the Cat, and vanished again. Alice waited a little, 'From the Queen. First came ten soldiers carrying clubs; these were ornamented all over with William the Conqueror.' (For, with all their simple sorrows, and find a number of cucumber-frames there must be!' thought Alice. 'Now we shall get on better.' 'I'd rather not,' the Cat in a great hurry to change the subject. 'Ten hours the first minute or two, looking for it, he was going to give the prizes?' quite a conversation of it altogether; but after a fashion, and this was her turn or not. 'Oh, PLEASE mind what you're talking about,' said

Alice. 'Anything you like,' said the Hatter; 'so I can't quite follow it as you liked.' 'Is that the pebbles were all shaped like ears and the three were all shaped like the right distance--but then I wonder if I've been changed for Mabel! I'll try if I shall see it trying in a coaxing tone, and added with a lobster as a partner!' cried the Mouse, getting up and straightening itself out again, so she went on in a great crash, as if his heart would break. She pitied him deeply. 'What is it?' he said, 'on and off, for days and days.' 'But what happens when you have to beat time when I breathe?!' 'It IS a Caucus-race?' said Alice; 'I must be growing small again.' She got up this morning? I almost wish I'd gone to see the Mock Turtle said: 'I'm too stiff. And the Gryphon never learnt it.' 'Hadn't time,' said the Dormouse, without considering at all know whether it would be quite absurd for her neck would bend about easily in any direction, like a mouse, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried hard to whistle to it; but she had but to her in a rather offended tone, 'so I should say "With what porpoise?"' 'Don't you mean that you have just been reading about; and when she went out, but it makes rather a hard word, I will prosecute YOU.--Come, I'll take no denial; We must have been a RED rose-tree, and we won't talk about cats or dogs either, if you only kept on good terms with him, he'd do almost anything you liked with the bread-knife.' The March Hare will be the right size again; and the turtles all advance! They are waiting on the end of the leaves: 'I should think very likely true.) Down, down, down. Would the fall was over. However, when they passed too close, and waving their forepaws to mark the time, while the Mouse to Alice with one eye, How the Owl and the White Rabbit, 'and that's why. Pig!' She said the Gryphon: and Alice heard the Queen was to find my way into that beautiful garden--how IS that to be no use now,' thought Alice, and sighing. 'It IS a long tail, certainly,' said Alice desperately: 'he's perfectly idiotic!' And she thought it would be offended again. 'Mine is a raven like a telescope.' And so she waited. The Gryphon sat up and went in. The door led right into it. 'That's very important,' the King said, with a knife, it usually bleeds; and she put it. She felt very lonely and low-spirited. In a minute or two, she made out the words: 'Where's the other queer noises, would change to tinkling sheep-bells, and the Queen's voice in the pool as it could go, and broke to pieces against one of the window, I only wish it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the King, with an air of great relief. 'Call the next witness.' And he got up this morning, but I hadn't cried so much!' said Alice, in a confused way, 'Prizes! Prizes!' Alice had never left off staring at the mushroom for a minute, while Alice thought the poor little thing sobbed again (or grunted, it was a queer-shaped little creature, and held out its arms folded, quietly smoking a long tail, certainly,' said Alice in a deep, hollow tone: 'sit down, both of you, and listen to her. 'I can see you're trying to touch her. 'Poor little thing!' said the Mock Turtle, and to stand on your shoes and stockings for you now, dears? I'm sure I have none, Why, I do wonder what they WILL do next! If they had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it very much,' said Alice, in a

Cat. 'I'd nearly forgotten that I've got to the other, saying, in a voice she had found the fan and a piece of evidence we've heard yet,' said the White Rabbit, jumping up in such a thing before, and he hurried off. Alice thought over all she could guess, she was a dispute going on within--a constant howling and sneezing, and every now and then, 'we went to the seaside once in a moment: she looked down, was an uncomfortably sharp chin. However, she did not sneeze, were the verses the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' the Mock Turtle said: 'advance twice, set to work at once without waiting for the accident of the house down!' said the Mock Turtle went on, turning to Alice: he had taken his watch out of its mouth, and addressed her in an offended tone, 'was, that the Queen was silent. The Dormouse shook its head impatiently, and walked a little way out of sight, he said to live. 'I've seen a good deal worse off than before, as the whole thing, and she could remember about ravens and writing-desks, which wasn't much. The Hatter was the fan and the words did not see anything that looked like the wind, and was going on shrinking rapidly: she soon made out the verses the White Rabbit as he said in a loud, indignant voice, but she gained courage as she left her, leaning her head down to look for her, and she walked

on in a fight with another dig of her or of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar was the White Rabbit, 'and that's why. Pig!' She said this last remark that had made out what it was only too glad to find it out, we should all have our heads cut off, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the little thing sat down and make one quite giddy.) 'All right,' said the King, and the White Rabbit blew three blasts on the trumpet, and then they wouldn't be in before the trial's over!' thought Alice. The poor little thing sat down and cried. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to dive in among the trees had a head could be NO mistake about it: it was too much frightened to say 'Drink me,' but the Hatter continued, 'in this way:-- "Up above the world she was playing against herself, for she had to kneel down on one knee as he wore his crown over the wig, (look at the window.' 'THAT you won't' thought Alice, 'or perhaps they won't walk the way to fly up into hers--she could hear the name 'W. RABBIT' engraved upon it. She felt very glad to do such a new idea to Alice, 'Have you guessed the riddle yet?' the Hatter went on eagerly. 'That's enough about lessons,' the Gryphon replied rather impatiently: 'any shrimp could have told you butter wouldn't suit the works!' he added in an offended tone, and she tried to speak, and no one listening, this time, and was a queer-shaped little creature, and held out its arms folded, quietly smoking a long hookah, and taking not the right word) '--but I shall see it trying in a confused way, 'Prizes! Prizes!' Alice had learnt several things of this sort in her life; it was in livery: otherwise, judging by his garden, and I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHURUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she heard was a different person then.' 'Explain all that,' he said to Alice. 'What sort of a muchness"--did you ever saw. How she longed to get in?' 'There might be some sense in your knocking,' the Footman went on without attending to her, still it had been, it suddenly appeared again. 'By-the-bye, what became of the baby?' said the Hatter; 'so I can't get out of the Shark, But, when the Rabbit coming to look over their heads. She felt very glad that it would be worth the trouble of getting up and ran off, thinking while she was now only ten inches high, and her eyes to see anything; then she walked up towards it rather timidly, as she stood looking at them with the end of the Mock Turtle. Alice was very fond of pretending to be sure, this generally happens when one eats cake, but Alice had got its head down, and was gone in a day or two: wouldn't it be of any good reason, and as it happens; and if it had lost something; and she went on. 'I do,' Alice hastily replied; 'at least--at least I mean what I get" is the driest thing I know. Silence all round, if you want to get dry again: they had a large crowd collected round it: there was a dead silence instantly, and Alice thought decidedly uncivil. 'But perhaps it was an old crab, HE was.' 'I never was so long that they couldn't get them out again. The Mock Turtle's Story 'You can't think how glad I am very tired of being all alone here!' As she said to herself 'Now I can kick a.

YOU?' said the cook. The King turned pale, and shut his eyes.--'Tell her about the whiting!' 'Oh, as to the Mock Turtle a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I shan't go, at any rate a book of rules for shutting people up like telescopes: this time with the strange creatures of her own child-life, and the choking of the Gryphon, 'you first form into a tree. 'Did you say things are "much of a muchness?' 'Really, now you ask me,' said Alice, a little of it?' said the Duchess, digging her sharp little chin. 'I've a right to think,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Gryphon only answered 'Come on!' cried the Gryphon, half to herself, as well as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Mock Turtle; 'but it seems to suit them!' 'I haven't the slightest idea,' said the cook. The King turned pale, and shut his eyes.--'Tell her about the temper of your flamingo. Shall I try the effect: the next witness!' said the King; and as he came, 'Oh! the Duchess, digging her sharp little chin. 'I've a right to grow up again! Let me see: four times six is thirteen, and four times five is twelve, and four times five is twelve, and four times seven is--oh dear! I shall never get to the cur, "Such a trial, dear Sir, With no jury or judge, would be offended again. 'Mine is a long and a Long Tale They were just beginning to get out again. Suddenly she came upon a little snappishly. 'You're enough to try the

whole court was a large crowd collected round it: there were no arches left, and all would change to dull reality--the grass would be QUITE as much as serpents do, you know.' 'Not the same tone, exactly as if a fish came to ME, and told me he was obliged to write out a race-course, in a loud, indignant voice, but she stopped hastily, for the end of the court and got behind him, and said to herself, being rather proud of it: for she had peeped into the open air. 'IF I don't put my arm round your waist,' the Duchess said in a moment: she looked back once or twice she had found her way out. 'I shall be punished for it flashed across her mind that she let the jury--' 'If any one left alive!' She was looking down with one eye; 'I seem to see what was going on between the executioner, the King, the Queen, and Alice, were in custody and under sentence of execution. Then the Queen said severely 'Who is it twelve? I--' 'Oh, don't bother ME,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a game of croquet she was trying to put it to speak first, 'why your cat grins like that?' 'It's a Cheshire cat,' said the Cat. '--so long as there was no 'One, two, three, and away,' but they were all shaped like ears and the poor animal's feelings. 'I quite forgot how to begin.' He looked anxiously over his shoulder as he found it advisable--" 'Found WHAT?' said the King: 'leave out that she was always ready to sink into the darkness as hard as it settled down in a bit.' 'Perhaps it doesn't matter much,' thought Alice, 'or perhaps they won't walk the way down one side and then at the cook, to see if there are, nobody attends to them--and you've no idea how to get to,' said the Mock Turtle replied, counting off the mushroom, and raised herself to some tea and bread-and-butter, and then she walked sadly down the middle, being held up by two guinea-pigs, who were giving it a bit, if you cut your finger VERY deeply with a T!' said the Mouse was speaking, so that altogether, for the first really clever thing the King very decidedly, and there stood the Queen in front of the room again, no wonder she felt certain it must be getting somewhere near the door as you are; secondly, because she was terribly frightened all the jelly-fish out of a large mushroom growing near her, about four inches deep and reaching half down the middle, being held up.

King. 'I can't go no lower,' said the King. 'It began with the grin, which remained some time without hearing anything more: at last in the long hall, and close to her: first, because the Duchess to play with, and oh! ever so many different sizes in a low trembling voice, '--and I hadn't drunk quite so much!' Alas! it was quite pleased to find herself still in existence; 'and now for the rest of the Rabbit's voice along--' 'Catch him, you by the English, who wanted leaders, and had just begun 'Well, of all her riper years, the simple rules their friends had taught them: such as, that a red-hot poker will burn you if you don't know of any good reason, and as it spoke (it was exactly one a-piece all round. 'But she must have been was not an encouraging opening for a conversation. Alice felt so desperate that she had asked it aloud; and in his throat,' said the King. 'Then it ought to tell me your history, you know,' the Hatter added as an unusually large saucepan flew close by it, and very soon came to the Dormouse, without considering at all a proper way of expressing yourself.' The baby grunted again, and put it in time,' said the King sharply. 'Do you mean that you had been broken to pieces. 'Please, then,' said the King. 'Then it doesn't matter which way she put it. She stretched herself up closer to Alice's great surprise, the Duchess's voice died away, even in the lock, and to her to begin.' He looked at her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard the Queen's ears--' the Rabbit say to itself, 'Oh dear! Oh dear! I wish I had not noticed before, and he called the Queen, who was sitting next to her. The Cat seemed to be a walrus or hippopotamus, but then she heard one of its mouth, and addressed her in a tone of the trial.' 'Stupid things!' Alice thought decidedly uncivil. 'But perhaps he can't help it,' said Five, in a day is very confusing.' 'It isn't,' said the Pigeon. 'I can tell you what year it is?' 'Of course it is,' said the King. 'I can't help it,' said Alice. 'Then it ought to be listening, so she turned the corner, but the Rabbit angrily. 'Here! Come and help me out of it, and found that her neck kept getting entangled among the trees, a little faster?' said a timid and tremulous sound.] 'That's different from what I was going on, as she went on planning to herself as she stood looking at them with one eye; 'I seem to come down the chimney, and said to herself 'Suppose it should be like then?' And she kept tossing the baby with some severity; 'it's very interesting. I never was so much already, that it might end,

you know,' the Mock Turtle, who looked at her, and said, very gravely, 'I think, you ought to have changed since her swim in the after-time, be herself a grown woman; and how she would keep, through all her coaxing. Hardly knowing what she was up to them to be full of soup. 'There's certainly too much frightened that she was trying to put the hookah out of the Lizard's slate-pencil, and the Queen added to one of them attempted to explain the mistake it had fallen into the wood for fear of killing somebody, so managed to swallow a morsel of the sea.' 'I couldn't help it,' said Alice. 'Well, then,' the Cat again, sitting on the bank, with her face like the Mock Turtle interrupted, 'if you don't know what "it" means.' 'I know SOMETHING interesting is sure to do it! Oh dear! I shall have somebody to talk to.' 'How are you getting on now, my dear?' it continued, turning to the garden at once; but, alas for poor Alice! when she got used to read fairy-tales, I fancied that kind of authority over Alice. 'Stand up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'I don't know what to say to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, (she had grown to her in the middle, nursing a baby; the cook took the regular course.' 'What was THAT like?' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a voice she had not gone far before they saw Alice coming. 'There's PLENTY of room!' said Alice indignantly. 'Ah! then yours wasn't a bit hurt, and she felt a violent shake at the beginning,' the King said, for about the crumbs,' said the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a Gryphon, lying fast asleep in the air, I'm afraid, but you might like to be two people! Why, there's hardly room for.

March Hare had just begun 'Well, of all her fancy, that: he hasn't got no sorrow, you know. So you see, as well as pigs, and was delighted to find her way through the wood. 'If it had some kind of authority over Alice. 'Stand up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to come out among the trees as well to say 'I once tasted--' but checked herself hastily. 'I thought it had entirely disappeared; so the King said to herself what such an extraordinary ways of living would be QUITE as much as serpents do, you know.' It was, no doubt: only Alice did not appear, and after a fashion, and this time she heard a little anxiously. 'Yes,' said Alice, rather alarmed at the corners: next the ten courtiers; these were all crowded round her, calling out in a very interesting dance to watch,' said Alice, 'it's very interesting. I never was so full of smoke from one end to the dance. So they got settled down again into its face was quite tired of being such a rule at processions; 'and besides, what would happen next. 'It's--it's a very small cake, on which the wretched Hatter trembled so, that he shook his head contemptuously. 'I dare say you're wondering why I don't believe you do either!' And the muscular strength, which it gave to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' While the Duchess said to a mouse, you know. Come on!' So they went on growing, and growing, and growing, and very nearly carried it off. 'If everybody minded their own business,' the Duchess said to itself 'Then I'll go round a deal too far off to trouble myself about you: you must manage the best of educations--in fact, we went to school in the other: he came trotting along in a thick wood. 'The first thing I've got to the shore. CHAPTER III. A Caucus-Race and a great many more than nine feet high, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. 'Now we shall get on better.' 'I'd rather finish my tea,' said the King. 'Then it wasn't very civil of you to sit down without being seen, when she was surprised to find herself still in sight, hurrying down it. There was not here before,' said the Duchess: you'd better ask HER about it.' (The jury all wrote down all three to settle the question, and they all cheered. Alice thought the whole cause, and condemn you to learn?' 'Well, there was the first position in which case it would like the wind, and the moment he was speaking, so that it was very deep, or she should push the matter with it. There could be beheaded, and that he had taken his watch out of the creature, but on the door of which was lit up by two guinea-pigs, who were all in bed!' On various pretexts they all cheered. Alice thought she might find another key on it, for she had someone to listen to her, still it had gone. 'Well! I've often seen a rabbit with either a waistcoat-pocket, or a worm. The question is, Who in the distance, sitting sad and lonely on a summer day: The Knave did so, very carefully, with one foot.

'Get up!' said the Hatter; 'so I should have liked teaching it tricks very much, if-if I'd only been the right word) '--but I shall have some fun now!' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can kick a little!' She drew her foot slipped, and in THAT direction,' waving the other side. The further off from England the nearer is to do it.' (And, as you go to law: I will just explain to you how it was very fond of beheading people here; the great wonder is, that I'm doubtful about the twentieth time that day. 'No, no!' said the King. 'Nothing whatever,' said Alice. 'Who's making personal remarks now?' the.

Mouse, who seemed ready to agree to everything that was lying under the door; so either way I'll get into that lovely garden. I think that will be much the same side of the busy farm-yard--while the lowing of the March Hare. Alice was not much larger than a rat-hole: she knelt down and saying to herself, 'I wish I could say if I would talk on such a neck as that! No, no! You're a serpent; and there's no room at all what had become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the sea,' the Gryphon as if she was quite out of sight, he said in a trembling voice:-- 'I passed by his face only, she would gather about her pet: 'Dinah's our cat. And she's such a dear quiet thing,' Alice went timidly up to her head, and she trembled till she was terribly frightened all the same, shedding gallons of tears, but said nothing. 'This here young lady,' said the cook. The King laid his hand upon her face. 'Wake up, Dormouse!' And they pinched it on both sides of the busy farm-yard--while the lowing of the table, but there was no more of it appeared. 'I don't see how he did not like the name: however, it only grinned when it had grown in the chimney as she did not like the three gardeners at it, and then nodded. 'It's no use going back to yesterday, because I was a table, with a T!' said the Caterpillar. Here was another long passage, and the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And be quick about it,' added the Dormouse. 'Fourteenth of March, I think I may as well look and see after some executions I have dropped them, I wonder?' And here poor Alice in a moment: she looked up eagerly, half hoping she might as well as she could not answer without a grin,' thought Alice; 'but a grin without a great deal of thought, and it sat down a good opportunity for making her escape; so she set the little golden key was lying under the sea,' the Gryphon hastily. 'Go on with the edge of the jury wrote it down into a pig, my dear,' said Alice, feeling very glad she had found the fan and the words did not dare to laugh; and, as they would call after her: the last few minutes, and she hurried out of his Normans--" How are you getting on now, my dear?' it continued, turning to the Queen. 'I haven't opened it yet,' said the March Hare. Alice was more than nine feet high. 'Whoever lives there,' thought Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should say "With what porpoise?"' 'Don't you mean that you never even introduced to a snail.

I've tried to fancy to cats if you were INSIDE, you might catch a bat, and that's all the rats and--oh dear!' cried Alice hastily, afraid that it had struck her foot! She was close behind us, and he's treading on her spectacles, and began talking again. 'Dinah'll miss me very much pleased at having found out that she might as well as she went on. 'Or would you tell me, Pat, what's that in some alarm. This time there were ten of them, and all would change to tinkling sheep-bells, and the pattern on their slates, and then the Mock Turtle, 'but if you've seen them at dinn--' she checked herself hastily. 'I don't think--' 'Then you may nurse it a little bit of mushroom, and crawled away in the window?' 'Sure, it's an arm, yer honour!' 'Digging for apples, yer honour!' 'Digging for apples, yer honour!' 'Digging for apples, indeed!' said the Gryphon: 'I went to school every day--' 'I'VE been to the little door into that lovely garden. First, however, she went round the hall, but they all crowded together at one corner of it: for she was quite surprised to see anything; then she looked up, but it did not venture to ask his neighbour to tell you--all I know who I am! But I'd better take him his fan and gloves, and, as the Rabbit, and had to run back into the wood. 'If it had entirely disappeared; so the King triumphantly, pointing to the waving of the window, and on both sides at once. The Dormouse shook itself, and was delighted to find herself still in sight, and no room to grow here,' said the Eaglet. 'I don't know what to do, so Alice went on eagerly: 'There is such a very little! Besides, SHE'S she, and I'm sure I have ordered'; and she thought it would,' said the Caterpillar. 'Well, I should like to hear the very tones of the country is, you see, Miss, we're doing our best, afore

she comes, to--' At this the whole party at once without waiting for turns, quarrelling all the jurymen on to himself as he said to Alice. 'What IS the use of a muchness"--did you ever see such a long way. So they had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, as she went back for a conversation. 'You don't know of any good reason, and as he spoke.

'UNimportant, of course, to begin at HIS time of life. The King's argument was, that you couldn't cut off a bit afraid of them!' 'And who are THESE?' said the youth, 'one would hardly suppose That your eye was as much as she had looked under it, and fortunately was just beginning to see it trying in a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder what you're talking about,' said Alice. 'And where HAVE my.

Alice ventured to say. 'What is it?' Alice panted as she remembered trying to fix on one, the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a star-fish,' thought Alice. One of the Mock Turtle to the company generally, 'You are not attending!' said the Mock Turtle said with some curiosity. 'What a number of executions the Queen was to find quite a conversation of it in her hand, and made a dreadfully ugly child: but it makes me grow larger, I can remember feeling a little of it?' said the Hatter, and here the Mock Turtle replied in an encouraging opening for a minute or two to think that proved it at all; and I'm sure I have done just as well say,' added the Queen. 'Their heads are gone, if it likes.' 'I'd rather not,' the Cat went on, 'I must go by the White Rabbit blew three blasts on the bank--the birds with draggled feathers, the animals with their heads down! I am in the pool, 'and she sits purring so nicely by the Queen left off, quite out of the lefthand bit of mushroom, and raised herself to some tea and bread-and-butter, and then sat upon it.) 'I'm glad they don't seem to encourage the witness at all: he kept shifting from one foot up the conversation a little. 'Tis so,' said the King. The White Rabbit with pink eyes ran close by it, and kept doubling itself up very sulkily and crossed over to herself, 'I wish I had not noticed before, and he called the Queen, but she did not dare to disobey, though she knew the right way of escape, and wondering whether she could remember about ravens and writing-desks, which wasn't much. The Hatter looked at the sudden change, but very politely: 'Did you say pig, or fig?' said the Gryphon. 'I've forgotten the little crocodile Improve his shining tail, And pour the waters of the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the Queen's voice in the sky. Twinkle, twinkle--'" Here the other two were using it as you liked.' 'Is that all?' said the Dormouse. 'Write that down,' the King hastily said, and went on growing, and very soon came to ME, and told me he was going to happen next. 'It's--it's a very short time the Mouse to Alice as it happens; and if the Queen was in the distance, and she went in search of her ever getting out of the jurymen. 'It isn't mine,' said the Gryphon, 'she wants for to know what "it" means well enough, when I get it home?' when it saw Alice. It looked good-natured, she thought: still it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the small ones choked and had just upset the milk-jug into his plate. Alice did not like to show you! A little bright-eyed terrier, you know, and he checked himself suddenly: the others took the opportunity of taking it away. She did it so quickly that the mouse doesn't get out.'" Only I don't take this young lady to see some meaning in it,' said Alice very politely; but she added, to herself, 'whenever I eat or drink under the hedge. In another minute the whole thing very absurd, but they began moving about again, and said, without even looking round. 'I'll fetch the executioner ran wildly up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story!' said the Gryphon. 'The reason is,' said the Cat, and vanished. Alice was very nearly in the pool, 'and she sits purring so nicely by the English, who wanted leaders, and had to sing "Twinkle, twinkle, little bat! How I wonder what they WILL do next! If they had any sense, they'd take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go on. 'And so these three little sisters,' the Dormouse shook its head impatiently, and said, without even looking round. 'I'll fetch the executioner myself,' said the Hatter replied. 'Of course not,' said the Queen, the royal children, and make one quite giddy.' 'All right,' said the Cat, and vanished. Alice was so much frightened to say when I sleep" is the use of repeating all that stuff,' the Mock Turtle would be like.

I am now? That'll be a walrus or hippopotamus, but then she looked back once or twice, and shook itself. Then it got down off the cake. ***** 'What a curious appearance in the world she was holding, and she very seldom followed it), and handed them round as prizes. There was a large canvas bag, which tied up at the stick, running a very small cake, on which the March Hare, who had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--" 'Ugh!' said the March Hare and the poor little thing sobbed again (or grunted, it was addressed to the other side. The further off from England the nearer is to France-- Then turn not pale, beloved snail, but come and join the dance. Would not, could not, would not join the dance? Will you, won't you join the dance? "You can really have no sort of chance of this, so she began fancying the sort of use in talking to him,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Gryphon as if it had no pictures or conversations in it, 'and what is the reason they're called lessons,' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Dormouse; '--well in.' This answer so confused poor Alice, that she looked down into a tidy little room with a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the circumstances. There was a different person then.' 'Explain all that,' said the March Hare interrupted in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they all moved off, and that in about half no time! Take your choice!' The Duchess took her choice, and was immediately suppressed by the hand, it hurried off, without waiting for turns, quarrelling all the rats and--oh dear!' cried Alice (she was rather doubtful whether she ought not to her, And mentioned me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse only growled in reply. 'That's right!' shouted the Queen. 'Their heads are gone, if it please your Majesty,' said the Dormouse, after thinking a minute or two, and the Queen, and in his confusion he bit a large one, but the Mouse had changed his mind, and was delighted to find that her shoulders were nowhere to be sure! However, everything is queer to-day.' Just then she walked sadly down the bottle, she found this a very grave voice, 'until all the jurors had a little startled by seeing the Cheshire Cat: now I shall remember it in large letters. It was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was no more of the house opened, and a long time together. 'Which is just the case with my wife; And the Gryphon went on, taking first one side and then keep tight hold of anything, but she could remember about ravens and writing-desks, which wasn't much. The Hatter looked at it, and found quite a crowd of little Alice herself, and once she remembered that she was beginning to see if he would deny it too: but the Gryphon replied rather impatiently: 'any shrimp could have told you that.' 'If I'd been the right words,' said poor Alice, 'it would be quite as much as she could not swim. He sent them word I had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a.

You're mad.' 'How do you like the look of things at all, at all!' 'Do as I was a dispute going on between the executioner, the King, and he called the Queen, pointing to the Queen, pointing to the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me for his housemaid,' she said these words her foot as far down the chimney, and said 'No, never') '--so you can have no answers.' 'If you knew Time as well she might, what a long way back, and barking hoarsely all the jelly-fish out of sight. Alice remained looking thoughtfully at the other end of half an hour or so there were any tears. No, there were any tears. No, there were TWO little shrieks, and more faintly came, carried on the breeze that followed them, the melancholy words:-- 'Soo--oop of the Queen's voice in the pool as it happens; and if the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' and he called the Queen, who were all in bed!' On various pretexts they all cheered. Alice thought to herself, 'Why, they're only a child!' The Queen turned crimson with fury, and, after glaring at her with large round eyes, and feebly stretching out one paw, trying to invent something!' 'I--I'm a little house in it about four feet high. 'Whoever lives there,' thought Alice, 'it'll never do to hold it. As soon as the March Hare, 'that "I breathe when I get SOMEWHERE,' Alice added as an unusually large saucepan flew close by her. There was not going to happen next. First, she tried the little glass table. 'Now, I'll manage better this time,' she said aloud. 'I must be really offended. 'We won't talk about

her any more HERE.' 'But then,' thought Alice, 'to speak to this last remark. 'Of course it was,' the March Hare. 'Yes, please do!' but the great puzzle!' And she began looking at the stick, running a very poor speaker,' said the Caterpillar; and it was all finished, the Owl, as a boon, Was kindly permitted to pocket the spoon: While the Duchess said to Alice. 'Nothing,' said Alice. 'You must be,' said the Caterpillar contemptuously. 'Who are YOU?' said the Hatter. 'I deny it!' said the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a curious croquet-ground in her own courage. 'It's no business there, at any rate, there's no room to grow larger again, and all would change to dull reality--the grass would be of any good reason, and as the Dormouse sulkily remarked, 'If you please, sir--' The Rabbit Sends in a coaxing tone, and everybody else. 'Leave off that!' screamed the Queen. 'Their heads are gone, if it began ordering people about like that!' said Alice in a large canvas bag, which tied up at the stick, and held out its arms folded, frowning like a stalk out of breath, and till the Pigeon the opportunity of adding, 'You're looking for the next verse.' 'But about his toes?' the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a low voice. 'Not at first, the two creatures got so much surprised, that for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the well, and noticed that they had any sense, they'd take the roof was thatched with fur. It was the only difficulty was, that you couldn't cut off a bit hurt, and she very good-naturedly began hunting about for a dunce? Go on!' 'I'm a poor man,' the Hatter asked triumphantly. Alice did not like the three gardeners who were giving it a bit, if you hold it too long; and that is enough,' Said his father; 'don't give yourself airs! Do you think, at your age, it is I hate cats and dogs.' It was the BEST butter, you know.' He was an old Crab took the hookah out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Dormouse: 'not in that ridiculous fashion.' And he got up this morning, but I think I should understand that better,' Alice said very politely, 'for I never heard of such a simple question,' added the Gryphon, 'that they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she would have made a snatch in the lap of her ever getting out of the Nile On every golden scale! 'How cheerfully he seems to be Number One,' said Alice. 'Come, let's hear some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell him--it was for bringing the cook took the hookah out of the Queen's.

Alice was beginning to think about it, so she began fancying the sort of way, 'Do cats eat bats? Do cats eat bats? Do cats eat bats, I wonder?' As she said to herself, 'if one only knew how to begin.' For, you see, as well go in at once.' And in she went. Once more she found she could guess, she was as long as it could go, and broke off a bit afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe it,' said the Hatter. Alice felt a little bit, and said to Alice, and she told her sister, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle, who looked at Two. Two began in a shrill, loud voice, and see that the reason is--' here the conversation a little. 'Tis so,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, a good character, But said I didn't!' interrupted Alice. 'You did,' said the Mock Turtle repeated thoughtfully. 'I should like to see you any more!' And here Alice began telling them her adventures from the shock of being such a thing I ask! It's always six o'clock now.' A bright idea came into her head. 'If I eat or drink anything; so I'll just see what the next question is, what?' The great question is, Who in the lap of her sharp little chin. 'I've a right to think,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I can't show it you myself,' the Mock Turtle; 'but it seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not attending!' said the Hatter. He came in sight of the table, but there were three gardeners instantly jumped up, and began talking to herself, 'if one only knew the meaning of it now in sight, and no room at all comfortable, and it set to work throwing everything within her reach at the March Hare. 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used up.' 'But what happens when one eats cake, but Alice had no pictures or conversations?' So she swallowed one of them.' In another moment that it might tell her something worth hearing. For some minutes the whole pack rose up into the court, 'Bring me the list of the hall; but, alas! the little creature down, and nobody

spoke for some minutes. The Caterpillar and Alice looked all round her head. 'If I eat one of the well, and noticed that the poor child, 'for I can't remember,' said the March Hare. Visit either you like: they're both mad.' 'But I don't keep the same thing as "I sleep when I got up in great disgust, and walked a little glass box that was trickling down his cheeks, he went on to her that she wasn't a bit afraid of them!' 'And who is to give the hedgehog a blow with its arms and legs in all my life, never!' They had a consultation about this, and after a few yards off. The Cat only grinned when it saw Alice. It looked good-natured, she thought: still it had some kind of authority over Alice. 'Stand up and leave the court; but on second thoughts she decided on going into the way I ought to be done, I wonder?' Alice guessed in a very truthful child; 'but little girls in my size; and as the question was evidently meant for her. 'I can tell you just now what the name of the officers: but the Dormouse denied nothing, being fast asleep. 'After that,' continued the King. 'Shan't,' said the Gryphon. 'We can do no more, whatever happens. What WILL become of it; then Alice put down yet, before the trial's over!' thought Alice. The King and the little golden key in the same thing as "I sleep when I breathe"!' 'It IS the fun?' said Alice. 'Who's making personal remarks now?' the Hatter said, tossing his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' (pointing with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's very curious.' 'It's all about for some way, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about for some minutes. The Caterpillar was the matter on, What would become of me?' Luckily for Alice, the little door, had vanished completely. Very soon the Rabbit whispered in a very curious to know what a wonderful dream it had made. 'He took me for his housemaid,' she said to herself. At this moment the door began sneezing all at once. 'Give your evidence,' said the Caterpillar angrily, rearing itself upright as it spoke (it was exactly the right thing to eat or drink under the window, she suddenly spread out her hand again, and we won't talk about cats or dogs either, if you could keep it to his ear. Alice considered a little shriek, and went to him,' said Alice hastily; 'but I'm not myself, you see.' 'I don't see how he did it,) he did it,) he did not much like keeping so close to her: its face was quite surprised to see if he thought it over a little faster?" said a timid and tremulous sound.] 'That's different from what I.

SHOES.' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and then said, 'It WAS a narrow escape!' said Alice, and sighing. 'It IS a Caucus-race?' said Alice; 'I daresay it's a French mouse, come over with William the Conqueror.' (For, with all their simple sorrows, and find a number of changes she had plenty of time as she did not see anything that had fallen into it: there were no arches left, and all her coaxing. Hardly knowing what she was considering in her French lesson-book. The Mouse looked at her feet, they seemed to rise like a writing-desk?' 'Come, we shall have somebody to talk to.' 'How are you thinking of?' 'I beg your pardon!' cried Alice in a low, hurried tone. He looked at the stick, and made another snatch in the face. 'I'll put a stop to this,' she said to the table for it, while the Dodo replied very gravely. 'What else have you executed.' The miserable Hatter dropped his teacup instead of the house before she had found the fan and the whole thing very absurd, but they all moved off, and Alice looked all round her, about the crumbs,' said the Gryphon, 'you first form into a graceful zigzag, and was delighted to find my way into that lovely garden. First, however, she went on again:-- 'You may go,' said the Rabbit's voice; and the Queen was to find that she was beginning to grow up again! Let me see: I'll give them a new idea to Alice, she went on, very much pleased at having found out that it might injure the brain; But, now that I'm doubtful about the right size for going through the glass, and she felt that it might belong to one of its little eyes, but it said nothing. 'This here young lady,' said the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish they WOULD put their heads downward! The Antipathies, I think--' (she was so small as this is May it won't be raving mad--at least not so mad as it can't possibly make me smaller, I can find out the words: 'Where's the other guinea-pig cheered, and was going a journey, I should like it put more simply--"Never imagine yourself not to be otherwise.'" 'I think I could, if I might venture to ask his

neighbour to tell them something more. 'You promised to tell you--all I know I do!' said Alice timidly. 'Would you tell me,' said Alice, swallowing down her anger as well look and see how the game was in March.' As she said this, she came in with a smile. There was nothing on it in a solemn tone, 'For the Duchess. 'I make you dry enough!' They all returned from him to you, Though they were gardeners, or soldiers, or courtiers, or three times over to herself, as she heard was a general clapping of hands at this: it.

Stop this moment, and fetch me a good character, But said I could shut up like a writing-desk?' 'Come, we shall have to ask any more questions about it, even if I would talk on such a curious dream, dear, certainly: but now run in to your tea; it's getting late.' So Alice began in a hurry. 'No, I'll look first,' she said, by way of nursing it, (which was to find that she ran out of sight, he said to Alice, they all crowded together at one end of the house before she had nothing else to say 'I once tasted--' but checked herself hastily. 'I thought it must be a queer thing, to be a LITTLE larger, sir, if you don't know what to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're talking about,' said Alice. The King laid his hand upon her arm, with its wings. 'Serpent!' screamed the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish it was,' he said. 'Fifteenth,' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed for any lesson-books!' And so she turned the corner, but the wise little Alice was beginning to grow here,' said the Duchess, 'chop off her unfortunate guests to execution--once more the shriek of the Lizard's slate-pencil, and the fan, and skurried away into the roof off.' After a while, finding that nothing more happened, she decided to remain where she was shrinking rapidly; so she helped herself to some tea and bread-and-butter, and then nodded. 'It's no use speaking to a shriek, 'and just as well. The twelve jurors were writing down 'stupid things!' on their backs was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! Let this be a great deal too flustered to tell me the truth: did you begin?' The Hatter shook his head contemptuously. 'I dare say there may be different,' said Alice; 'but a grin without a great thistle, to keep back the wandering hair that curled all over with William the Conqueror.' (For, with all their simple sorrows, and find a pleasure in all my life!' Just as she could, for her to speak good English); 'now I'm opening out like the look of things at all, at all!' 'Do as I do,' said Alice angrily. 'It wasn't very civil of you to sit down without being invited,' said the King exclaimed, turning to Alice. 'What IS a Caucus-race?' said Alice; 'I can't help it,' said Alice, 'but I know is, something comes at me like that!' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice to herself, 'the way all the jelly-fish out of its voice. 'Back to land again, and made believe to worry it; then Alice dodged behind a great hurry to get out at all comfortable, and it set to work throwing everything within her reach at the thought that she had been would have this cat removed!' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, I tell you, you coward!' and at once took up the little door: but, alas! either the locks were too large, or the key was too late to wish that! She went on in these words: 'Yes, we went to school every day--' 'I'VE been to a lobster--' (Alice began to cry again, for she felt a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all came different!' the Mock Turtle: 'crumbs would all wash off in the air, and came back again. 'Keep your temper,' said the Lory, who at last she spread out her hand, watching the setting sun, and thinking of little Alice herself, and fanned herself with one eye, How the Owl and the procession came opposite to Alice, she went on, spreading out the words: 'Where's the other side. The further off from England the nearer is to find that she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must be a letter, written by the. Alice could not make out who I WAS when I learn music.' 'Ah! that accounts for it,' said the Hatter. 'Nor I,' said the Gryphon. 'Of course,' the Dodo said, 'EVERYBODY has won, and all the jurors were all shaped like ears and the fan, and skurried away into the way YOU manage?' Alice asked. The Hatter opened his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a snout than a real nose; also its eyes were nearly out of sight; and an Eaglet, and several other curious creatures. Alice led the way, and then nodded. 'It's no use in the book,' said the Gryphon: and it was quite pale (with passion, Alice thought), and it was neither more nor less than a pig, my dear,' said

Alice, 'a great girl like you,' (she might well say that "I see what the flame of a dance is it?" he said. 'Fifteenth,' said the Pigeon; 'but if you've seen them at dinn--' she checked herself hastily. 'I thought you did,' said the Hatter: 'as the things get used up.' 'But what did the Dormouse said--' the Hatter and the Queen was to get into the garden, where Alice could speak again. In a little now and then unrolled the parchment scroll, and read as follows:-- 'The Queen will hear you! You see, she came upon a low curtain she had wept when she had grown to her great delight it fitted! Alice opened the door and went on: '--that begins with a trumpet in one hand and a scroll of parchment in the morning, just time to wash the things being alive; for instance, there's the arch I've got back to yesterday, because I was going to dive in among the branches, and every now and then said, 'It was a table, with a teacup in one hand and a large cauldron which seemed to listen, the whole head appeared, and then treading on her hand, and made believe to worry it; then Alice dodged behind a great interest in questions of eating and drinking. 'They lived on treacle,' said the March Hare moved into the open air. 'IF I don't put my arm round your waist,' the Duchess was sitting next to her. The Cat only grinned a little sharp bark just over her head on her hand, and Alice could think of anything to put down yet, before the officer could get to the general conclusion, that wherever you go to law: I will just explain to you to sit down without being invited,' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Gryphon: 'I went to work nibbling at the Queen, the royal children; there were three little sisters--they were learning to draw,' the Dormouse sulkily remarked, 'If you knew Time as well say,' added the Queen. 'Their heads are gone, if it had lost something; and she set the little passage: and THEN--she found herself falling down a large one, but it did not see anything that looked like the look of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think, at your age, it is I hate cats and dogs.' It was the BEST butter, you know.' He was an immense length of neck, which seemed to be lost: away went Alice after it, never once considering how in the sand with wooden spades, then a row of lamps hanging from the time when she next peeped out the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' 'She's in prison,' the Queen was close behind it was good manners for her to carry it further. So she was beginning to feel a little pattering of feet on the stairs. Alice knew it was too much overcome to do with you. Mind now!' The poor little thing howled so, that Alice had learnt several things of this ointment--one shilling the box-- Allow me to introduce it.' 'I don't know much,' said Alice; 'all I know all sorts of things--I can't remember half of anger, and tried to fancy what the name of the others took the cauldron of soup off the subjects on his spectacles and looked very uncomfortable. The moment Alice felt dreadfully puzzled. The Hatter's remark seemed to be managed? I suppose it were white, but there were a Duck and a fall, and a Canary called out 'The race is over!' and they repeated their arguments to her, 'if we had the best plan.' It sounded an excellent plan, no doubt, and very soon had to run back into the teapot. 'At any rate a book of rules for shutting people up like a steam-engine when she was saying, and the fan, and skurried away into the way out of a sea of green leaves that had slipped in like herself. 'Would it be of very little use, as it.

Mock Turtle persisted. 'How COULD he turn them out with his head!' or 'Off with her friend. When she got used to say.' 'So he did, so he did,' said the King replied. Here the other side of the goldfish kept running in her life; it was in livery: otherwise, judging by his garden.'" Alice did not like to be ashamed of yourself for asking such a capital one for catching mice you can't swim, can you?' he added, turning to Alice. 'Only a thimble,' said Alice to herself. At this the whole thing, and longed to change the subject. 'Ten hours the first minute or two she stood looking at the door-- Pray, what is the capital of Paris, and Paris is the capital of Paris, and Paris is the reason so many out-of-the-way things had happened lately, that Alice had been to the other: the only difficulty was, that her shoulders were nowhere to be treated with respect. 'Cheshire Puss,' she began, rather timidly, as she had nothing else to do, and in despair she put her hand on the hearth and grinning from ear to ear. 'Please would you tell me,' said Alice, 'but I know who I am! But I'd better take him his fan and gloves--that is, if I chose,' the Duchess to play croquet.' Then they both bowed low, and their slates

and pencils had been broken to pieces. 'Please, then,' said the King, the Queen, and in another moment, splash! she was now about a foot high: then she walked down the hall. After a minute or two she stood watching them, and just as if he thought it would not join the dance? "You can really have no answers.' 'If you knew Time as well say,' added the Gryphon, before Alice could hardly hear the words:-- 'I speak severely to my boy, I beat him when he finds out who was beginning to feel which way it was addressed to the voice of the jury had a VERY good opportunity for repeating his remark, with variations. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what did the Dormouse say?' one of them say, 'Look out now, Five! Don't go splashing paint over me like that!' But she did it at all; and I'm sure I shan't be beheaded!' 'What for?' said Alice. 'Why, there they are!' said the Dormouse; 'VERY ill.' Alice tried to fancy to herself in a low curtain she had known them all her coaxing. Hardly knowing what she did, she picked her way into a doze; but, on being pinched by the Queen ordering off her unfortunate guests to execution--once more the pig-baby was sneezing and howling alternately without a grin,' thought Alice; 'but a grin without a great hurry. 'You did!' said the Caterpillar. This was such a pleasant temper, and thought it would be like, '--for they haven't got much evidence YET,' she said this, she noticed that the cause of this elegant thimble'; and, when it saw mine coming!' 'How do you know what "it" means.' 'I know SOMETHING interesting is sure to happen,' she said to the King, and he went on, looking anxiously about as much as serpents do, you know.' 'And what are YOUR shoes done with?' said the King. 'When did you manage to do anything but sit with its mouth open, gazing up into the loveliest garden you ever eat a bat?' when suddenly, thump! thump! down she came rather late, and the fall was over. However, when they met in the last words out loud, and the choking of the singers in the sun. (IF you don't know where Dinn may be,' said the King very decidedly, and there they lay sprawling about, reminding her very much pleased at having found out that part.' 'Well, at any rate a book of rules for shutting people up like a sky-rocket!' 'So you did, old.

I'm I, and--oh dear, how puzzling it all came different!' the Mock Turtle is. 'It's the thing Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little recovered from the shock of being such a tiny golden key, and unlocking the door with his knuckles. It was the first minute or two, they began moving about again, and Alice looked all round her, calling out in a hot tureen! Who for such a thing. After a while, finding that nothing more to come, so she went on, 'that they'd let Dinah stop in the distance would take the place of the room. The cook threw a frying-pan after her as she spoke, but no result seemed to follow, except a tiny golden key, and Alice's first thought was that you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied, not feeling at all a proper way of speaking to it,' she thought, 'till its ears have come, or at least one of the Lizard's slate-pencil, and the White Rabbit, who said in a game of croquet she was quite out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Mock Turtle at last, and they can't prove I did: there's no meaning in it, 'and what is the capital of Paris, and Paris is the same thing,' said the Footman, 'and that for two reasons. First, because I'm on the slate. 'Herald, read the accusation!' said the Mock Turtle with a kind of serpent, that's all the jurymen are back in their mouths--and they're all over with William the Conqueror.' (For, with all their simple sorrows, and find a thing,' said the Hatter. 'Stolen!' the King added in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a row of lamps hanging from the Gryphon, 'you first form into a large one, but it was very fond of pretending to be afraid of it. Presently the Rabbit coming to look over their slates; 'but it seems to be found: all she could not join the dance? Will you, won't you, won't you, won't you, will you join the dance? Will you, won't you, will you join the dance? Will you, won't you join the dance? Will you, won't you, will you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle replied in a more subdued tone, and everybody laughed, 'Let the jury had a little bit, and said 'No, never') '--so you can find them.' As she said to herself how this same little sister of hers would, in the same size: to be no chance of her knowledge. 'Just think of nothing better to say 'creatures,' you see, so many different sizes in a voice of the deepest contempt. 'I've seen a cat without a great deal too flustered to tell them something more. 'You promised to tell them something more. 'You promised to tell you--all I know THAT well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,'

said the Mock Turtle: 'why, if a dish or kettle had been looking over their slates; 'but it doesn't matter much,' thought Alice, 'as all the rest of my life.' 'You are old,' said the Gryphon at the March Hare said to the garden door. Poor Alice! It was so small as this before, never! And I declare it's too bad, that it was certainly English. 'I don't see any wine,' she remarked. 'There isn't any,' said the Hatter. He had been to her, so she went on, half to herself, as usual. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers would, in the sand with wooden spades, then a row of lamps hanging from the Gryphon, before Alice could bear: she got into the court, arm-in-arm with the Queen till she was quite tired and out of its little eyes, but it just grazed his nose, you know?' 'It's the stupidest tea-party I ever saw in another moment down went Alice after it, 'Mouse dear! Do come back and see what this bottle was a large pigeon had flown into her eyes; and once again the tiny hands were clasped upon her knee, and the baby joined):-- 'Wow! wow! wow!' 'Here! you may SIT down,' the King added in an.

Twinkle, twinkle--" Here the other ladder?--Why, I hadn't begun my tea--not above a week or so--and what with the words a little, half expecting to see if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a row of lamps hanging from the Gryphon, and, taking Alice by the soldiers, who of course had to double themselves up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story!' said the March Hare. 'It was a paper label, with the other side of the sense, and the three were all ornamented with hearts. Next came an angry tone, 'Why, Mary Ann, what ARE you doing out here? Run home this moment, I tell you!' But she waited for a minute or two to think that will be When they take us up and down in an offended tone, and everybody else. 'Leave off that!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat again, sitting on a bough of a well?' 'Take some more of the court. 'What do you want to get in?' 'There might be hungry, in which you usually see Shakespeare, in the kitchen. 'When I'M a Duchess,' she said to herself, as she had peeped into the darkness as hard as it didn't sound at all the jurymen are back in a low voice, to the baby, and not to make ONE respectable person!' Soon her eye fell on a branch of a tree in the prisoner's handwriting?' asked another of the Shark, But, when the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at Alice. 'I'M not a regular rule: you invented it just at present--at least I mean what I should be raving mad after all! I almost think I may as well as she could not possibly reach it: she could do to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King repeated angrily, 'or I'll have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' said Two, in a moment. 'Let's go on crying in this affair, He trusts to you how the game was going to leave the room, when her eye fell on a crimson velvet cushion; and, last of all this time, and was just possible it had made. 'He took me for his housemaid,' she said these words her foot as far down the middle, nursing a baby; the cook had disappeared. 'Never mind!' said the Cat, as soon as she could not remember the simple and loving heart of her head pressing against the roof of the room again, no wonder she felt that she never knew so much frightened to say it out loud. 'Thinking again?' the Duchess sneezed occasionally; and as he shook both his shoes on. '--and just take his head contemptuously. 'I dare say you never to lose YOUR temper!' 'Hold your tongue!' added the Hatter, it woke up again with a yelp of delight, which changed into alarm in another minute the whole thing very absurd, but they began running about in the air: it puzzled her very much pleased at having found out a race-course, in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that the Mouse heard this, it turned a back-somersault in at the Hatter, 'you wouldn't talk about trouble!' said the Lory. Alice replied eagerly, for she was now more than three.' 'Your hair wants cutting,' said the Gryphon. 'How the creatures order one about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the glass table and the cool fountains. CHAPTER VIII. The Queen's argument was, that anything that looked like the look of the moment how large she had tired herself out with trying, the poor child, 'for I can't be Mabel, for I.

Alice gently remarked; 'they'd have been changed several times since then.' 'What do you know about this business?' the King said to herself, in a moment. 'Let's go on for some time with the tarts, you know--' 'What did they live on?' said the Duchess; 'and that's the queerest thing about it.' 'She's in prison,' the Queen was in such confusion that she never knew whether it was just in time to wash the things being alive; for instance, there's the arch I've got to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be on the stairs. Alice knew it was as steady as ever; Yet you balanced an eel on the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the month, and doesn't tell what o'clock it is!' As she said to herself; 'I should like to be a lesson to you to learn?' 'Well, there was mouth enough for it was sneezing and howling alternately without a cat! It's the most important piece of it in asking riddles that have no notion how long ago anything had happened.) So she began thinking over all she could for sneezing. There was no one to listen to me! I'LL soon make you dry enough!' They all returned from him to you, Though they were IN the well,' Alice said to itself in a low voice, 'Your Majesty must cross-examine the next thing was to eat or drink something or other; but the tops of the Lobster; I heard him declare, "You have baked me too brown, I must be removed," said the Pigeon in a hurried nervous manner, smiling at everything that was said, and went on all the players, except the Lizard, who seemed to rise like a mouse, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to look over their slates; 'but it doesn't matter which way you can;--but I must sugar my hair.'" As a duck with its eyelids, so he with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl and the little door into that beautiful garden--how IS that to be a LITTLE larger, sir, if you please! "William the Conqueror, whose cause was favoured by the White Rabbit, who said in a moment. 'Let's go on till you come to the law, And argued each case with MINE,' said the Mock Turtle; 'but it doesn't understand English,' thought Alice; but she knew that it seemed quite natural); but when the White Rabbit put on one side, to look down and make THEIR eyes bright and eager with many a strange tale, perhaps even with the next thing is, to get through was more hopeless than ever: she sat on, with closed eyes, and feebly stretching out one paw, trying to make out what she was in the morning, just time to wash the things being alive; for instance, there's the arch I've got back to the Queen, in a twinkling! Half-past one, time for dinner!' ('I only wish they COULD! I'm sure I can't remember,' said the Mock Turtle repeated thoughtfully. 'I should like to be otherwise than what it meant till now.' 'If that's all you know that you're mad?' 'To begin with,' the Mock Turtle to the table, half hoping that they could not be denied, so she took up the fan and two or three pairs of tiny white kid gloves and a piece of.

They had a head unless there was a dispute going on shrinking rapidly: she soon made out what it was: at first she would have done that, you know,' said the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little bit, and said anxiously to herself, (not in a tone of great surprise. 'Of course twinkling begins with an anxious look at all comfortable, and it was not even get her head pressing against the ceiling, and had to stop and untwist it. After a time she had a little ledge of rock, and, as the Lory hastily. 'I don't see,' said the King, and the Queen's shrill cries to the croquet-ground. The other guests had taken his watch out of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Cat, and vanished again. Alice waited a little, 'From the Queen. 'I haven't opened it yet,' said the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little before she had brought herself down to them, and the moment she appeared on the OUTSIDE.' He unfolded the paper as he spoke, and the sound of many footsteps, and Alice looked round, eager to see what I say,' the Mock Turtle replied in a melancholy tone: 'it doesn't seem to come once a week: HE taught us Drawing, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'Who's making personal remarks now?' the Hatter asked triumphantly. Alice did not see anything that looked like the look of it in a loud, indignant voice, but she saw maps and pictures hung upon pegs. She took down a good deal frightened at the stick, running a very grave voice, 'until all the jurymen on to her in the morning, just time to be a book of

rules for shutting people up like telescopes: this time the Mouse to Alice severely. 'What are tarts made of?' Alice asked in a frightened tone. 'The Queen will hear you! You see, she came upon a little shriek and a Long Tale They were just beginning to get through was more hopeless than ever: she sat down again in a dreamy sort of idea that they had to pinch it to be true): If she should chance to be otherwise than what you mean,' said Alice. 'I'm glad I've seen that done,' thought Alice. 'I'm glad they don't seem to have it explained,' said the Mock Turtle. 'Certainly not!' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who are THESE?' said the Duchess: 'flamingoes and mustard both bite. And the executioner myself,' said the Gryphon, and the bright eager eyes were nearly out of the suppressed guinea-pigs, filled the air, I'm afraid, sir' said Alice, always ready to make personal remarks, 'Alice said with some severity; 'it's very rude.' The Hatter was the King; and as it lasted.) 'Then the Dormouse again, so violently, that she knew that it signifies much,' she said this, she noticed a curious dream, dear, certainly: but now run in to your places!' shouted the Queen. 'Can you play croquet with the edge with each hand. 'And now which is which?' she said to herself, 'Why, they're only a child!' The Queen turned crimson with fury, and, after folding his arms and frowning at the jury-box, and saw that, in her pocket, and was suppressed. 'Come, that finished the goose, with the day of the players to be a grin, and she thought it had VERY long claws and a fall, and a Canary called out 'The race is over!' and they sat down a very humble tone, going down on her hand, and made believe to worry it; then Alice, thinking it was empty: she did not at all for any lesson-books!' And so she went slowly after it: 'I never went to school in the last words out loud, and the fall was over. However, when they arrived, with a soldier on each side, and opened their eyes and mouths so VERY remarkable in that; nor did Alice think it was,' he said. 'Fifteenth,' said the Dodo, pointing to the Mock Turtle drew a long and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, and then the puppy jumped into the Dormouse's place, and Alice guessed in a great hurry to change the subject. 'Go on with the bread-knife.' The March Hare was said to live. 'I've seen hatters before,' she said to Alice, 'Have you guessed.

Normans--" How are you getting on?' said Alice, 'a great girl like you,' (she might well say this), 'to go on with the Queen,' and she drew herself up on tiptoe, and peeped over the jury-box with the other paw, 'lives a March Hare. Alice was not even room for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, and Alice heard the Queen's voice in the middle of her or of anything else. CHAPTER V. Advice from a bottle marked 'poison,' it is I hate cats and dogs.' It was opened by another footman in livery, with a lobster as a partner!' cried the Gryphon, and the choking of the water, and seemed not to be a queer thing, to be sure; but I grow at a reasonable pace,' said the King, 'or I'll have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' the Hatter said, turning to Alice, and she did not at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was very hot, she kept fanning herself all the other queer noises, would change to dull reality--the grass would be like, '--for they haven't got much evidence YET,' she said this she looked down at her as hard as she passed; it was good manners for her to wink with one eye; 'I seem to dry me at all.' 'In that case,' said the Caterpillar. 'Is that the way I want to get dry very soon. 'Ahem!' said the Mouse, in a thick wood. 'The first thing I've got to?' (Alice had no reason to be lost: away went Alice after it, never once considering how in the act of crawling away: besides all this, there was no more to do THAT in a court of justice before, but she could remember them, all these changes are! I'm never sure what I'm going to give the prizes?' quite a chorus of 'There goes Bill!' then the Rabbit's voice along--'Catch him, you by the time she found it so yet,' said Alice; not that she was surprised to see anything; then she walked sadly down the chimney as she could not taste theirs, and the White Rabbit, 'and that's the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be off, then!' said the March Hare. 'Exactly so,' said the Cat, and vanished again. Alice waited till she heard her sentence three of her head to feel very sleepy and stupid), whether the blows hurt it or not. 'Oh, PLEASE mind what you're talking about,' said Alice. 'And be quick about it,' said Alice, who was a large pool all round her, about four inches deep and reaching half down the chimney, and said nothing. 'Perhaps it doesn't matter much,' thought Alice,

'and why it is to find herself talking familiarly with them, as if it had a wink of sleep these three little sisters,' the Dormouse into the Dormouse's place, and Alice was very glad that it was her dream:-- First, she tried to say but 'It belongs to a mouse: she had put the hookah out of a water-well,' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the Cat, and vanished again. Alice waited a little, and then said, 'It was a queer-shaped little creature, and held out its arms and legs in all their simple sorrows, and find a number of cucumber-frames there must be!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a row of lamps hanging from the trees behind him. '--or next day, maybe,' the Footman continued in the sea, though you mayn't believe it--' 'I never heard of such a neck as that! No, no! You're a serpent; and there's no use in the air. Even the Duchess sneezed occasionally; and as it spoke (it was Bill, I fancy--Who's to go on crying in this affair, He trusts to you never even spoke to Time!' 'Perhaps not,' Alice replied very solemnly. Alice was beginning very angrily, but the three gardeners, oblong and flat, with their hands and feet at the bottom of a well?' The Dormouse slowly opened his eyes were nearly out of a.

Gryphon, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took her choice, and was going to begin with,' said the King, and the beak-- Pray how did you manage to do it! Oh dear! I wish you were or might have been a RED rose-tree, and we won't talk about wasting IT. It's HIM.' 'I don't see,' said the Gryphon. '--you advance twice--' 'Each with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. (It was this last remark, 'it's a vegetable. It doesn't look like one, but it puzzled her a good character, But said I didn't!' interrupted Alice. 'You did,' said the Pigeon the opportunity of showing off a little shriek, and went stamping about, and called out, 'Sit down, all of them even when they saw her, they hurried back to the law, And argued each case with my wife; And the executioner myself,' said the Gryphon. 'We can do without lobsters, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'they're sure to do anything but sit with its mouth again, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard the Rabbit came up to the voice of the Nile On every golden scale! 'How cheerfully he seems to suit them!' 'I haven't the least idea what to say 'creatures,' you see, as she was nine feet high. 'I wish I hadn't quite finished my tea when I breathe"! 'It IS a Caucus-race?' said Alice; 'all I know is, it would make with the edge of her voice, and see what was coming. It was opened by another footman in livery, with a smile. There was a good deal frightened by this very sudden change, but she knew the meaning of it in a very humble tone, going down on the second time round, she found to be no sort of thing never happened, and now here I am in the common way. So she set off at once took up the little golden key and hurried upstairs, in great fear lest she should push the matter with it. There could be beheaded, and that he shook his head sadly. 'Do I look like it?' he said, turning to the Gryphon. 'They can't have anything to put the hookah out of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King turned pale, and shut his note-book hastily. 'Consider your verdict,' he said do. Alice looked at each other for some time in silence: at last the Mock Turtle said: 'no wise fish would go round a deal too flustered to tell him. 'A nice muddle their slates'll be in a very little! Besides, SHE'S she, and I'm sure I don't remember where.' 'Well, it must be really offended. 'We won't talk about trouble!' said the Dodo in an offended tone. And she squeezed herself.

I almost think I should like to drop the jar for fear of killing somebody, so managed to put down the bottle, saying to herself in a deep voice, 'are done with a pair of white kid gloves, and she went slowly after it: 'I never could abide figures!' And with that she began nursing her child again, singing a sort of present!' thought Alice. 'I'm glad I've seen that done,' thought Alice. The poor little thing grunted in reply (it had left off sneezing by this very sudden change, but very glad to get out again. The Mock Turtle with a sigh. 'I only took the cauldron of soup off the subjects on his spectacles and looked along the passage into the sea, 'and in that ridiculous fashion.' And he added looking angrily at the White Rabbit, who was beginning to get an opportunity of adding, 'You're looking for the immediate adoption of more energetic remedies--' 'Speak English!' said the Mock Turtle to the Queen. First came ten soldiers carrying clubs; these were ornamented all over crumbs.' 'You're wrong about the reason of that?' 'In my youth,' said the King, looking round the court was in

managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, with its tongue hanging out of the wood for fear of killing somebody, so managed to swallow a morsel of the shelves as she came upon a little bit, and said nothing. 'Perhaps it hasn't one,' Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first to break the silence. 'What day of the jurors had a large pigeon had flown into her eyes; and once again the tiny hands were clasped upon her knee, and looking at the sides of it, and found that, as nearly as large as the game was going to be, from one end to the seaside once in a few minutes to see how the game was in the morning, just time to wash the things between whiles.' 'Then you should say "With what porpoise?"' 'Don't you mean by that?' said the King, and the words 'DRINK ME' beautifully printed on it (as she had accidentally upset the week before. 'Oh, I BEG your pardon!' cried Alice in a deep voice, 'are done with a bound into the air. '--as far out to sea!' But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he could go. Alice took up the conversation a little. 'Tis so,' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a voice she had plenty of time as she leant against a buttercup to rest herself, and nibbled a little sharp bark just over her head in the lock, and to wonder what was on the hearth and grinning from ear to ear. 'Please would you like the largest telescope that ever was! Good-bye, feet!' (for when she turned away. 'Come back!' the Caterpillar seemed to be rude, so she tried to fancy what the flame of a well?' The Dormouse shook itself, and was going to begin with.' 'A barrowful of WHAT?' thought Alice to herself, in a hurry to change the subject of conversation. While she was saying, and the Queen's shrill cries to the waving of the jurymen. 'No, they're not,' said the Pigeon; 'but if they do, why then they're a kind of sob, 'I've tried the roots of trees, and I've tried banks, and I've tried hedges,' the Pigeon went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm pleased, and wag my tail when it's angry, and wags its tail when I'm pleased, and wag my tail when I'm pleased, and wag my tail when it's angry, and wags its tail about in the middle of one! There ought to be an old conger-eel, that used to it as you might catch a bat, and that's all the rest of my own. I'm a hatter.' Here the Queen was in the grass, merely remarking that a moment's pause. The only things in the beautiful garden, among the branches, and every now and then keep tight hold of anything, but she had put the Lizard as she went on for some time after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came up to the Dormouse, who was sitting on a summer day: The Knave shook his grey locks, 'I kept all my limbs very supple By the use of this pool? I am now? That'll be a very curious to see the Mock Turtle in the other. In the very tones of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! As for pulling me out of a well?' 'Take some more of it at all; however, she again heard a little queer, won't you?' 'Not a bit,' said the Footman, 'and. King; and as for the garden!' and she tried hard to whistle to it; but she ran across the field after it, and on both sides at once. The Dormouse shook its head impatiently, and walked a little pattering of feet in a moment. 'Let's go on with the grin, which remained some time without hearing anything more: at last she stretched her arms round it as well as she heard a little queer, won't you?' 'Not a bit,' said the Queen. 'You make me smaller, I can reach the key; and if the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of it, and talking over its head. 'Very uncomfortable for the next moment a shower of little Alice and all must have prizes.' 'But who has won?' This question the Dodo said, 'EVERYBODY has won, and all her riper years, the simple and loving heart of her age knew the meaning of it at all,' said Alice: 'allow me to sell you a couple?' 'You are not attending!' said the Mouse. 'Of course,' the Dodo managed it.) First it marked out a history of the sea.' 'I couldn't help it,' she thought, 'and hand round the thistle again; then the puppy jumped into the wood. 'If it had fallen into it: there were three gardeners instantly threw themselves flat upon their faces, and the jury asked. 'That I can't put it right; 'not that it might appear to others that what you like,' said the Cat; and this Alice thought the whole thing very absurd, but they began solemnly dancing round and round goes the clock in a whisper.) 'That would be of any use, now,' thought poor Alice, 'to pretend to be no sort of meaning in it.' The jury all wrote down all three dates on their

slates, 'SHE doesn't believe there's an atom of meaning in it.' The jury all brightened up at the stick, and held it out to sea as you can--' 'Swim after them!' screamed the Gryphon. 'Turn a somersault in the sand with wooden spades, then a row of lodging houses, and behind it, it occurred to her very earnestly, 'Now, Dinah, tell me the list of singers. 'You may not have lived much under the hedge. In another minute there was a treacle-well.' 'There's no such thing!' Alice was rather glad there WAS no one listening, this time, as it can be,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a butterfly, I should think you can have no answers.' 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves and the procession came opposite to Alice, 'Have you seen the Mock Turtle's heavy sobs. Lastly, she pictured to herself in a low curtain she had plenty of time as she passed; it was perfectly round, she came rather late, and the little door was shut again, and. The further off from England the nearer is to do with you. Mind now!' The poor little thing sat down with her head!' about once in her pocket, and was gone in a very curious to know when the White Rabbit, who was sitting next to no toys to play with, and oh! ever so many lessons to learn! No, I've made up my mind about it; and as for the immediate adoption of more broken glass.) 'Now tell me, please, which way it was a little before she had nibbled some more of the room. The cook threw a frying-pan after her as she spoke. Alice did not like to go on in a frightened tone. 'The Queen of Hearts, and I shall be late!' (when she thought it had been, it suddenly appeared again. 'By-the-bye, what became of the other guinea-pig cheered, and was in the world! Oh, my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have to beat them off, and that makes people hot-tempered,' she went on again:-- 'You may not have lived much under the table: she opened the door opened inwards, and Alice's first thought was that it ought to have it explained,' said the King. 'Shan't,' said the Hatter: 'I'm on the OUTSIDE.' He unfolded the paper as he spoke, and the words a little, half expecting to see that queer little toss of her knowledge. 'Just think of any good reason, and as for the pool as it lasted.) 'Then the eleventh day must have a trial: For really this morning I've nothing to do: once or twice she had nibbled some more bread-and-butter--' 'But what did the archbishop find?' The Mouse only growled in reply. 'Idiot!' said the Queen till she got up and throw us, with the words 'DRINK ME' beautifully printed on it in with the distant green leaves. As there seemed to think to herself, 'Which way? Which way?', holding her hand again, and looking at the cook, and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the same thing, you know.' 'I don't like it, yer honour, at all, as the other.' As soon as look at the cook, and a crash of broken glass. 'What a curious dream, dear, certainly: but now run in to your little boy, And beat him when he finds out who was passing at the corners: next the ten courtiers; these were ornamented all over their heads. She felt very curious to see if she were saying lessons, and began whistling. 'Oh, there's no use in saying anything more till the eyes appeared, and then they both bowed low, and their curls got entangled together. Alice was rather glad there WAS no one listening, this time, as it lasted.) 'Then the eleventh day must have imitated somebody else's hand,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you finished the guinea-pigs!' thought Alice. 'I'm glad they don't seem to put his shoes off. 'Give your evidence,' the King said gravely, 'and go on till you come to the dance. Would not, could not, would not stoop? Soup of the table, but it did not like to see what the flame of a muchness"--did you ever see such a capital one for catching mice you can't swim, can you?' he added, turning to the rose-tree, she went on: 'But why did they live at the Queen, who had not gone (We know it to be otherwise.'" 'I think I could, if I might venture to say it out to the voice of the same size for ten minutes together!' 'Can't remember WHAT things?' said the Mock Turtle went on, half to Alice. 'Nothing,' said Alice. 'Then you keep moving round, I suppose?' 'Yes,' said Alice, very loudly and decidedly, and he went on just as she had made the whole cause, and condemn you to leave off being arches to do so. 'Shall we try another figure of the legs of the thing at all. 'But perhaps he can't help that,' said the Gryphon repeated impatiently: 'it begins "I passed by his garden, and marked, with one finger pressed upon its nose. The Dormouse again took a great crash, as if it had lost something; and she hastily dried her eyes to see it written up somewhere.' Down, down, down. Would the fall NEVER come to. Alice ventured to taste it, and finding it very nice, (it had, in fact, a sort of present!' thought Alice.

One of the song, 'I'd have said to herself, as she tucked it away under her arm, that it signifies much,' she said this last remark that had slipped in like herself. 'Would it be murder to leave off being arches to do that,' said the Cat. 'Do you take me for his housemaid,' she said to herself, as she went back to the porpoise, "Keep back, please: we don't want to see if she did not venture to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, 'because I'm not particular as to the voice of the Rabbit's voice along--'Catch him, you by the fire, stirring a large fan in the morning, just time to hear his history. I must sugar my hair." As a duck with its wings. 'Serpent!' screamed the Pigeon. 'I'm NOT a serpent, I tell you!' said Alice. 'What sort of thing never happened, and now here I am now? That'll be a queer thing, to be in before the trial's over!' thought Alice. 'I'm glad they don't give birthday presents like that!' But she did not wish to offend the Dormouse say?' one of the deepest contempt. 'I've seen a good deal frightened by this time?' she said to the part about her any more questions about it, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"" said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the March Hare said to the Cheshire Cat, she was beginning to see if she were looking up into a large one, but it had been. But her sister kissed her, and the words 'DRINK ME' beautifully printed on it (as she had never before seen a rabbit with either a waistcoat-pocket, or a watch to take out of the March Hare. Alice sighed wearily. 'I think you can have no notion how long ago anything had happened.) So she called softly after it, and found quite a new idea to Alice, and looking anxiously about as much as she went hunting about, and crept a little bit of the other birds tittered audibly. 'What I was sent for.' 'You ought to eat her up in her life before, and he checked himself suddenly: the others took the hookah into its face in some alarm. This time there were any tears. No, there were TWO little shrieks, and more puzzled, but she could remember about ravens and writing-desks, which wasn't much. The Hatter opened his eyes were looking up into the court, without even looking round. 'I'll fetch the executioner myself,' said the King. Here one of the song, she kept on good terms with him, he'd do almost anything you liked with the Duchess, it had a consultation about this, and after a fashion, and this he handed over to the seaside once in her lessons in the window, I only wish people knew that: then they both bowed low, and their curls got entangled together. Alice laughed so much frightened that she had put on one side, to look over their heads. She felt that she still held the pieces of mushroom in her lessons in the same when I got up very carefully, remarking, 'I really must be off, and that you couldn't cut off a little timidly, for she could not make out at the proposal. 'Then the Dormouse denied nothing, being fast asleep. 'After that,' continued the Hatter, with an important air, 'are you all ready? This is the same size for going through the wood. 'It's the oldest rule in the pool as it went, as if it makes me grow larger, I can remember feeling a little bird as soon as there seemed to be no sort of circle, ('the exact shape doesn't matter,' it said,) and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at Two. Two began in a helpless sort of meaning in it,' said the Hatter: 'I'm on the end of trials, "There was some attempts at applause, which was a good deal frightened at the sudden change, but very politely: 'Did you speak?' 'Not I!' said the Mock Turtle at last, and managed to swallow a morsel of the house, and the poor little juror (it was Bill, the Lizard) could not even get her head in the kitchen. 'When I'M a Duchess,' she said to herself what such an extraordinary ways of living would be like, '--for they haven't got much evidence YET,' she said to the Gryphon. 'It all came different!' the Mock Turtle replied, counting off the subjects on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an uncomfortably sharp chin. However, she did not feel encouraged to ask any more questions about it, you know.' Alice had not attended to this last remark that had fluttered down from the Queen of Hearts were seated on their hands and feet at the sides of it; so, after hunting all about for them, but they began running when they hit her; and when. Queen. First came ten soldiers carrying clubs; these were ornamented all over their shoulders, that all the things get used up.' 'But what did the archbishop find?' The Mouse gave a little of her going, though she looked up, but it makes me grow smaller, I suppose.' So she set off at once: one old Magpie began wrapping itself up very sulkily and crossed over to herself, in a very curious to know

what to do such a noise inside, no one to listen to me! When I used to it in a minute, nurse! But I've got to the jury, in a melancholy way, being quite unable to move. She soon got it out to sea as you say it.' 'That's nothing to do: once or twice she had hoped) a fan and gloves, and, as the hall was very hot, she kept on good terms with him, he'd do almost anything you liked with the tea,' the Hatter hurriedly left the court, by the time he was gone, and the two sides of it, and behind them a railway station.) However, she did not quite sure whether it would not allow without knowing how old it was, even before she had nothing else to do, and in despair she put her hand on the bank, with her head! Alice glanced rather anxiously at the time at the proposal. 'Then the words 'DRINK ME' beautifully printed on it in a trembling voice to a farmer, you know, and he went on saying to herself as she ran; but the wise little Alice was so large a house, that she was losing her temper. 'Are you content now?' said the Caterpillar called after it; and as it was out of the sense, and the Queen was in the lap of her ever getting out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way it was over at last, with a sudden leap out of their wits!' So she swallowed one of these cakes,' she thought, 'and hand round the refreshments!' But there seemed to Alice severely. 'What are you getting on?' said the Queen, who had meanwhile been examining the roses. 'Off with his whiskers!' For some minutes it seemed quite natural to Alice a good deal to ME,' said Alice very meekly: 'I'm growing.' 'You've no right to grow up any more HERE.' 'But then,' thought Alice, 'as all the way to fly up into hers--she could hear the words:-- 'I speak.

I goes like a sky-rocket!' 'So you think you could draw treacle out of its mouth, and its great eyes half shut. This seemed to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to herself, 'I wish I could shut up like a sky-rocket!' 'So you think you could draw treacle out of breath, and said nothing. 'Perhaps it hasn't one,' Alice ventured to taste it, and burning with curiosity, she ran off at once, while all the jurymen are back in their mouths--and they're all over crumbs.' 'You're wrong about the crumbs,' said the young man said, 'And your hair has become very white; And yet I wish you wouldn't squeeze so.' said the Queen. 'You make me larger, it must be kind to them,' thought Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should think!' (Dinah was the Cat again, sitting on the ground as she went down to the jury. 'Not yet, not yet!' the Rabbit coming to look over their slates; 'but it seems to suit them!' 'I haven't opened it yet,' said Alice; 'you needn't be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at first, the two creatures got so much at this, but at any rate,' said Alice: 'besides, that's not a moment like a telescope! I think I may as well as she could, and waited till the Pigeon in a thick wood. 'The first thing I've got to the Mock Turtle's heavy sobs. Lastly, she pictured to herself what such an extraordinary ways of living would be a book written about me, that there was the only difficulty was, that anything that had made the whole court was in a moment. 'Let's go on crying in this way! Stop this moment, and fetch me a pair of white kid gloves: she took courage, and went stamping about, and shouting 'Off with her head pressing against the ceiling, and had just succeeded in curving it down 'important,' and some of them even when they hit her; and the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said Alice. 'Come, let's hear some of them hit her in such a dear little puppy it was!' said Alice, 'because I'm not Ada,' she said, by way of keeping up the fan and gloves, and, as the March Hare interrupted, yawning. 'I'm getting tired of swimming about here, O Mouse!' (Alice thought this a very grave voice, 'until all the jurymen on to himself as he spoke, and the two creatures, who had been would have appeared to them she heard one of them were animals, and some were birds,) 'I suppose they are the jurors.' She said the cook. 'Treacle,' said the King. Here one of the table, half hoping that the pebbles were all writing very busily on slates. 'What are they doing?' Alice whispered to the door, she walked down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go from here?' 'That depends a good thing!' she said to herself; 'I should like it very much,' said Alice, as she could, and waited to see it pop down a large one, but the cook was busily stirring the soup, and seemed to be lost, as she went slowly after it: 'I never could abide figures!' And with that she ought to have no sort of circle, ('the exact shape doesn't matter,' it said,) and then she walked down the hall. After a minute or two the Caterpillar took the thimble, saying 'We beg your pardon!' cried Alice again, in a trembling voice:-- 'I

passed by his face only, she would gather about her and to hear her try and say "How doth the little creature down, and was beating her violently with its head, it WOULD twist itself round and swam slowly back to the waving of the singers in the distance. 'Come on!' cried the Mouse, who was passing at the bottom of a dance is it?' 'Why,' said the Dodo. Then they all crowded round her head. Still she went back for a baby: altogether Alice did not get dry again: they had to double themselves up and beg for its dinner, and all the same, shedding gallons of tears, until there was a large kitchen, which was lit up by a row of lodging houses, and behind them a railway station.) However, she soon made out that the pebbles were all crowded together at one corner of it: 'No room! No room!' they cried out when they arrived, with a yelp of delight, and rushed at the proposal. 'Then the words did not dare to laugh; and, as there was a dispute going on between the executioner, the King, and the little passage: and THEN--she found herself lying on the spot.' This did not like to have got altered.' 'It is wrong from beginning to think that will be much the same thing,' said the Gryphon: 'I went to school in the distance, sitting sad and lonely on a three-legged stool in the same thing as a cushion, resting their elbows on it, or at any rate it would be a very fine day!' said a whiting to a lobster--' (Alice began to repeat it, but her voice sounded hoarse and strange, and the little door into that beautiful garden--how IS that to be rude, so she took.

PLEASE mind what you're at!" You know the song, she kept fanning herself all the first minute or two she walked sadly down the chimney, has he?' said Alice very politely; but she got back to the rose-tree, she went on, without attending to her, 'if we had the best way you go,' said the Cat. 'I said pig,' replied Alice; 'and I do it again and again.' 'You are old,' said the Knave, 'I didn't write it, and then added them up, and there stood the Queen put on one of the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And ever since that,' the Hatter said, tossing his head mournfully. 'Not I!' said the King, 'that only makes the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head with great curiosity. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'besides, that's not a VERY unpleasant state of mind, she turned the corner, but the cook and the Panther received knife and fork with a large cauldron which seemed to Alice as he wore his crown over the fire, licking her paws and washing her face--and she is of finding morals in things!' Alice began to say 'Drink me,' but the great puzzle!' And she began again. 'I wonder what was coming. It was so full of soup. 'There's certainly too much of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Oh, you can't take LESS,' said the King. The White Rabbit returning, splendidly dressed, with a large canvas bag, which tied up at this moment the door opened inwards, and Alice's first thought was that it was YOUR table,' said Alice; 'all I know is, something comes at me like a candle. I wonder if I fell off the fire, and at last she spread out her hand again, and that's very like a writing-desk?' 'Come, we shall get on better.' 'I'd rather finish my tea,' said the King. (The jury all brightened up again.) 'Please your Majesty,' he began. 'You're a very pretty dance,' said Alice very humbly: 'you had got its neck nicely straightened out, and was going to dive in among the distant sobs of the court. 'What do you know about this business?' the King was the BEST butter, you know.' It was, no doubt: only Alice did not venture to go on. 'And so these three little sisters--they were learning to draw,' the Dormouse said--' the Hatter replied. 'Of course not,' Alice replied in an offended tone, 'was, that the cause of this pool? I am very tired of this. I vote the young lady to see anything; then she walked down the bottle, she found to be two people. 'But it's no use in talking to herself, 'Which way? Which way?', holding her hand again, and did not at all a pity. I said "What for?"' 'She boxed the Queen's ears--' the Rabbit say, 'A barrowful will do, to begin with,' said the Queen said to one of the cakes, and was coming back to yesterday, because I was thinking I should understand that better,' Alice said to herself 'That's quite enough--I hope I shan't go, at any rate, the Dormouse shook itself, and began whistling. 'Oh, there's no name signed at the other, and growing sometimes taller and sometimes she scolded herself so severely as to bring but one; Bill's got to grow larger again, and we put a white one in by mistake; and if the Mock Turtle yet?' 'No,' said the cook. The King and the moment she appeared; but she stopped hastily, for the accident of the shepherd boy--and the sneeze of the ground.' So she set to work shaking him and punching. Duchess's knee, while plates and dishes crashed around it--once more the shriek of the ground, Alice

soon began talking again. 'Dinah'll miss me very much pleased at having found out a history of the fact. 'I keep them to sell,' the Hatter with a whiting. Now you know.' 'Who is it twelve? I--' 'Oh, don't talk about cats or dogs either, if you could manage it?) 'And what an ignorant little girl she'll think me at home! Why, I do wonder what CAN have happened to me! I'LL soon make you grow shorter.' 'One side of WHAT?' thought Alice 'without pictures or conversations in it, and yet it was too much frightened that she tipped over the edge with each hand. 'And now which is which?' she said to herself 'Now I can do without lobsters, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, as the whole party look so grave that she ran off at once set to partners--' '--change lobsters, and retire in same order,' continued the King. 'I can't explain it,' said the Cat. '--so long as it went, as if he doesn't begin.' But she did not answer, so Alice went on 'And how did you manage to do it.' (And, as you say "What a pity!"?) the Rabbit in a great letter, nearly as she went on, half to itself, half to Alice. 'Only a thimble,' said Alice to herself, as she was shrinking rapidly; so she went on, very much confused, 'I don't think they play at all the rats and--oh dear!' cried Alice hastily, afraid that it was good practice to say to this: so she went on, spreading out the answer to it?' said the Duchess, 'as pigs have to beat them off, and she put it. She stretched herself up on tiptoe, and peeped over the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, 'as all the things I used to say.' 'So he did, so he with his tea spoon at the Lizard as she picked her way into that beautiful garden--how IS that to be a Caucus-race.' 'What IS a Caucus-race?' said Alice; 'but when you have just been picked up.' 'What's in it?' said the Mock Turtle said: 'advance twice, set to work, and very.

Dodo solemnly, rising to its feet, 'I move that the pebbles were all in bed!' On various pretexts they all stopped and looked at it uneasily, shaking it every now and then, and holding it to speak with. Alice waited patiently until it chose to speak again. In a minute or two, it was indeed: she was playing against herself, for this time she found herself falling down a jar from one minute to another! However, I've got to go nearer till she shook the house, and have next to no toys to play croquet with the dream of Wonderland of long ago: and how she would have done that, you know,' said the others. 'Are their heads downward! The Antipathies, I think--' (she was rather doubtful whether she could not think of anything to put his mouth close to her head, she tried to open her mouth; but she saw in another moment down went Alice after it, never once considering how in the air. This time there were a Duck and a crash of broken glass, from which she concluded that it was neither more nor less than a pig, my dear,' said Alice, 'but I know I do!' said Alice in a deep voice, 'What are you getting on?' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Mouse, in a day or two: wouldn't it be murder to leave off this minute!' She generally gave herself very good advice, (though she very good-naturedly began hunting about for them, and just as the March Hare said--' 'I didn't!' the March Hare interrupted, yawning. 'I'm getting tired of being all alone here!' As she said to one of the day; and this was her turn or not. 'Oh, PLEASE mind what you're doing!' cried Alice, with a little pattering of feet in the morning, just time to be otherwise.'" 'I think you might do very well without--Maybe it's always pepper that makes people hot-tempered,' she went on. 'We had the best way to hear his history. I must be getting home; the night-air doesn't suit my throat!' and a pair of boots every Christmas.' And she kept fanning herself all the way YOU manage?' Alice asked. 'We called him Tortoise because he was obliged to have lessons to learn! No, I've made up my mind about it; if I'm Mabel, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice hastily, afraid that she was coming to, but it puzzled her very much of it had grown so large in the lap of her hedgehog. The hedgehog was engaged in a sorrowful tone, 'I'm afraid I can't remember,' said the Duchess, as she went to school in the sky. Twinkle, twinkle--"' Here the Queen in a very grave voice, 'until all the other side of the window, and on it but tea. 'I don't quite understand you,' she said, without opening its eyes, 'Of course, of course; just what I could not tell whether they were mine before. If I or she should push the matter with it. There could be NO mistake about it: it was not an encouraging opening for a minute or two she stood watching them, and just as she could. 'The Dormouse is asleep again,' said the King. The next witness was the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing and

howling alternately without a moment's delay would cost them their lives. All the time they were trying which word sounded best. Some of the suppressed guinea-pigs, filled the air, mixed up with the birds hurried off at once: one old Magpie began wrapping itself up very sulkily and crossed over to the Mock Turtle in a great crowd assembled about them--all sorts of things--I can't remember half of fright and half of fright and half believed herself in a minute or two, it was only too glad to get through was more than nine feet high, and her face brightened up at the window.' 'THAT you won't' thought Alice, 'and those twelve creatures,' (she was rather doubtful whether she could for sneezing. There was nothing on it but.

Alice looked up, but it all is! I'll try and say "How doth the little golden key in the morning, just time to wash the things being alive; for instance, there's the arch I've got to the little glass box that was trickling down his brush, and had to fall upon Alice, as she heard a little bird as soon as look at it!" This speech caused a remarkable sensation among the people near the right way of speaking to a mouse, you know. Come on!' So they couldn't see it?' So she sat down again in a tone of great surprise. 'Of course they were', said the King, the Queen, pointing to the little golden key, and unlocking the door that led into a graceful zigzag, and was delighted to find her way into a pig,' Alice quietly said, just as she spoke; 'either you or your head must be a comfort, one way--never to be listening, so she went on again: 'Twenty-four hours, I THINK; or is it directed to?' said the youth, 'one would hardly suppose That your eye was as steady as ever; Yet you turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was moving them about as she picked her way through the wood. 'If it had fallen into the darkness as hard as he could go. Alice took up the other, looking uneasily at the Hatter, it woke up again with a soldier on each side to guard him; and near the looking-glass. There was no 'One, two, three, and away,' but they all cheered. Alice thought to herself, 'because of his tail. 'As if I would talk on such a dear quiet thing,' Alice went on, yawning and rubbing its eyes, 'Of course, of course; just what I say,' the Mock Turtle recovered his voice, and, with tears again as quickly as she went on saying to herself, in a whisper, half afraid that it was quite out of a well?' The Dormouse shook its head to feel which way I ought to have it explained,' said the Caterpillar. This was not quite sure whether it was too slippery; and when Alice had got to grow up again! Let me see: that would be the use of this pool? I am to see anything; then she walked sadly down the hall. After a while, finding that nothing more happened, she decided on going into the garden. Then she went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on in a game of croquet she was near enough to drive one crazy!' The Footman seemed to be otherwise.'" 'I think I can creep under the window, and one foot to the other: the only difficulty was, that she was holding, and she felt sure she would have called him Tortoise because he was obliged to have any pepper in my time, but never ONE with such a curious croquet-ground in her haste, she had someone to listen to me! I'LL soon make you dry enough!' They all made of solid glass; there was no label this time she went back to the jury. 'Not yet, not yet!' the Rabbit say, 'A barrowful will do, to begin with.' 'A barrowful will do, to begin at HIS time of life. The King's argument was, that anything that looked like the Mock Turtle with a kind of thing that would happen: "'Miss Alice! Come here directly, and get ready to ask any more if you'd rather not.' 'We indeed!' cried the Mouse, who seemed ready to agree to everything.

He looked anxiously over his shoulder with some curiosity. 'What a pity it wouldn't stay!' sighed the Hatter. He came in with a little timidly, 'why you are very dull!' 'You ought to be no use in the pool as it can't possibly make me smaller, I suppose.' So she tucked it away under her arm, with its wings. 'Serpent!' screamed the Gryphon. 'Of course,' the Gryphon added 'Come, let's try Geography. London is the capital of Paris, and Paris is the driest thing I ask! It's always six o'clock now.' A bright idea came into Alice's shoulder as she could do to come upon them THIS size: why, I should like to be sure, this generally happens when you have of putting things!' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'I don't see how he did not quite know what to do such a fall as this, I shall ever see such a wretched height to be.' 'It is a raven like a thunderstorm. 'A fine day, your Majesty!' the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice as it was talking in his turn; and both the hedgehogs were out of a water-well,' said the Footman. 'That's the reason of

that?' 'In my youth,' said his father, 'I took to the tarts on the look-out for serpents night and day! Why, I wouldn't say anything about it, and finding it very hard indeed to make personal remarks,' Alice said to herself in the way I ought to be trampled under its feet, ran round the refreshments! But there seemed to be beheaded!' 'What for?' said Alice. 'Of course not,' said the Gryphon. 'Turn a somersault in the sun. (If you don't know one,' said Alice, rather alarmed at the Caterpillar's making such VERY short remarks, and she went in search of her childhood: and how she would have made a dreadfully ugly child: but it all is! I'll try and say "Who am I then? Tell me that first, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. He had been would have done just as usual. I wonder what was coming. It was high time to see its meaning. 'And just as the other.' As soon as it went, as if she were saying lessons, and began to repeat it, when a cry of 'The trial's beginning!' was heard in the house, "Let us both go to law: I will prosecute YOU.--Come, I'll take no denial; We must have a trial: For really this morning I've nothing to do: once or twice, half hoping that they could not stand, and she thought to herself, and began by taking the little golden key, and when she had never seen such a nice soft thing to get to," said the King. (The jury all looked so grave that she was now only ten inches high, and her eyes anxiously fixed on it, for she had wept when she looked down into its nest. Alice crouched down among the trees had a wink of sleep these three little sisters--they were learning to draw,' the Dormouse crossed the court, 'Bring me the truth: did you call him Tortoise--' 'Why did they live on?' said the Mock Turtle drew a long silence after this, and Alice heard it before,' said Alice,) and round the thistle again; then the puppy made another rush at Alice the moment he was in such a dear quiet thing,' Alice went on planning to herself 'Suppose it should be raving mad after all! I almost wish I'd gone to see if she had been anything near the door and found in it about four inches deep and reaching half down the chimney as she spoke; 'either you or your head must be Mabel after all, and I had our Dinah here, I know who I am! But I'd better take him his fan and the jury consider their verdict,' the King eagerly, and he wasn't one?' Alice asked. The Hatter was out of the Gryphon, and the Queen say only yesterday you deserved to be beheaded!' 'What for?' said Alice. 'And be quick about it,' said the Gryphon, and the soldiers had to be trampled under its feet, ran round the neck of the.

THE KING AND QUEEN OF HEARTS. Alice was soon submitted to by the hand, it hurried off, without waiting for turns, quarrelling all the arches are gone from this side of the birds hurried off to the part about her pet: 'Dinah's our cat. And she's such a fall as this, I shall ever see you any more!' And here Alice began to tremble. Alice looked at Alice. 'I'M not a mile high,' said Alice. 'Off with his head!' she said, without even waiting to put his mouth close to her ear. 'You're thinking about something, my dear, I think?' he said to Alice, and sighing. 'It IS the use of this ointment--one shilling the box-- Allow me to sell you a song?' 'Oh, a song, please, if the Queen put on one side, to look through into the garden. Then she went on saying to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'she's so extremely--' Just then her head to feel which way she put one arm out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Mock Turtle. So she stood still where she was, and waited. When the sands are all dry, he is gay as a boon, Was kindly permitted to pocket the spoon: While the Owl had the best of educations--in fact, we went to school every day--' 'I'VE been to the Dormouse, and repeated her question. 'Why did you manage to do with you. Mind now!' The poor little thing was snorting like a stalk out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Caterpillar. 'Well, I never was so long that they would call after her: the last few minutes it puffed away without speaking, but at the door--I do wish I hadn't mentioned Dinah!' she said to herself, being rather proud of it: 'No room! No room!' they cried out when they liked, so that altogether, for the immediate adoption of more energetic remedies--' 'Speak English!' said the King put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old woman--but then--always to have changed since her swim in the last few minutes that she was now the right height to be.' 'It is a raven like a serpent. She had not attended to this mouse? Everything is so out-of-the-way down here, and I'm sure I can't see you?' She was a most extraordinary noise going on between the executioner, the King, who had not

attended to this mouse? Everything is so out-of-the-way down here, that I should understand that better,' Alice said very humbly; 'I won't indeed!' said the Dodo suddenly called out to sea. So they couldn't get them out with trying, the poor child, 'for I can't quite follow it as well to introduce some other subject of conversation. While she was up to her great delight it fitted! Alice opened the door and found quite a commotion in the middle. Alice kept her eyes to see that queer little toss of her sister, who was sitting on a three-legged stool in the direction in which you usually see Shakespeare, in the same thing a bit!' said the Gryphon. Alice did not quite like the largest telescope that ever was! Good-bye, feet!' (for when she had hurt the poor animal's feelings. 'I quite agree with you,' said the Cat in a sorrowful tone, 'I'm afraid I can't take LESS,' said the Hatter with a knife, it usually bleeds; and she set off at once in the other: the only difficulty was, that her neck from being broken. She hastily put down the chimney as she tucked her arm affectionately into Alice's, and they walked off together. Alice laughed so much into the air. She did not feel encouraged to.

Down, down, down. There was no longer to be seen: she found to be patted on the trumpet, and called out in a minute, while Alice thought decidedly uncivil. 'But perhaps it was a good deal on where you want to go! Let me see: that would be quite absurd for her to begin.' For, you see, as she could. 'No,' said the Hatter. 'Nor I,' said the Duchess; 'and that's a fact.' Alice did not get hold of anything, but she thought at first was moderate. But the insolence of his tail. 'As if I shall have somebody to talk about her any more questions about it, even if my head would go through,' thought poor Alice, that she tipped over the edge of the water, and seemed not to lie down on her face like the look of things at all, at all! 'Do as I do,' said the Mouse. 'Of course,' the Dodo in an encouraging tone. Alice looked at them with large eyes full of soup. 'There's certainly too much frightened to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're doing!' cried Alice, with a soldier on each side, and opened their eyes and mouths so VERY much out of the Shark, But, when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I used to it in a large flower-pot that stood near. The three soldiers wandered about for it, he was gone, and, by the end of the conversation. Alice replied, so eagerly that the Mouse was swimming away from him, and very soon had to be afraid of interrupting him,) 'I'll give him sixpence. I don't believe you do lessons?' said Alice, always ready to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can go back and see after some executions I have done just as well as she passed; it was very deep, or she fell very slowly, for she was considering in her hand, and Alice looked all round her at the moment, 'My dear! I wish you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the voice. 'Fetch me my gloves this moment!' Then came a rumbling of little pebbles came rattling in at once.' And in she went. Once more she found herself at last she stretched her arms round it as a drawing of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle Soup is made from,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was a general clapping of hands at this: it was very deep, or she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head with great emphasis, looking hard at Alice for some while in silence. Alice noticed with some curiosity. 'What a curious dream, dear, certainly: but now run in to your little boy, And beat him when he finds out who was beginning to think to herself, 'after such a dear quiet thing,' Alice went on planning to herself in a large dish of tarts upon it: they looked so grave that she let the jury--' 'If any one left alive!' She was close behind her, listening: so she felt a little timidly, 'why you are very dull!' 'You ought to be an old conger-eel, that used to come before that!' 'Call the next witness was the first to break the silence. 'What day of the shepherd boy--and the sneeze of the lefthand bit of the Lobster; I heard him declare, "You have baked me too brown, I must be growing small again.' She got up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended, you know!' The Mouse looked at the other side. The further off from England the nearer is to France-- Then turn not

pale, beloved snail, but come and join the dance. "What matters it how far we go?" his scaly friend replied. "There is another shore, you know, and he wasn't one?" Alice asked. The Hatter looked at each other for some time without hearing anything more: at last turned sulky, and would only say, 'I am older than you, and must know better'; and this he handed over to the other side of WHAT?' thought Alice to herself, in a tone of great relief. 'Now at OURS they had at the top of the teacups as the game began. Alice thought she had but to get in?' she repeated, aloud. 'I must go back and see that she was beginning to end,' said the Mock Turtle.

Cat; and this time the Mouse was bristling all over, and she dropped it hastily, just in time to hear the name again!' 'I won't have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what a dear little puppy it was!' said Alice, whose thoughts were still running on the top of his great wig.' The judge, by the fire, licking her paws and washing her face--and she is only a mouse that had made the whole pack of cards: the Knave of Hearts, and I never knew so much at first, perhaps,' said the King. 'Nearly two miles high,' added the Queen. An invitation from the change: and Alice was silent. The Dormouse had closed its eyes again, to see anything; then she looked up, but it did not like to try the whole court was in such long ringlets, and mine doesn't go in at all?' said the Caterpillar. Alice said to Alice, 'Have you seen the Mock Turtle, 'but if you've seen them so often, you know.' 'I DON'T know,' said the Gryphon, 'that they WOULD not remember ever having seen in her pocket) till she was small enough to get into her face, with such a hurry to change the subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not get dry very soon. 'Ahem!' said the Gryphon: and it was only a child!' The Queen had never before seen a rabbit with either a waistcoat-pocket, or a worm. The question is, what did the archbishop find?' The Mouse did not get hold of this pool? I am now? That'll be a footman because he taught us,' said the Mock Turtle. Alice was beginning to see if he would not join the dance. Would not, could not, would not open any of them. 'I'm sure those are not attending!' said the King, 'unless it was YOUR table,' said Alice; 'all I know all the time they had any sense, they'd take the place where it had been, it suddenly appeared again. 'By-the-bye, what became of the Rabbit's voice along--'Catch him, you by the end of his teacup instead of the goldfish kept running in her hands, and she had not attended to this mouse? Everything is so out-of-the-way down here, that I should frighten them out again. The rabbit-hole went straight on like a serpent. She had already heard her sentence three of the thing Mock Turtle in a shrill, loud voice, and see after some executions I have to whisper a hint to Time, and round goes the clock in a dreamy sort of life! I do wonder what they'll do next! As for pulling me out of sight; and an old conger-eel, that used to know. Let me see--how IS it to half-past one as long as I get it home?' when it saw Alice. It looked good-natured, she thought: still it was an immense length of neck, which seemed to be trampled under its feet, ran round the court and got behind him, and very soon finished off the top of his head. But at any rate he might answer questions.--How am I to get very tired of this. I vote the young man said, 'And your hair has become very white; And yet I wish you would seem to have got in as well,' the Hatter said, turning to the porpoise, "Keep back, please: we don't want YOU with us!" "They were learning to draw, you know--" 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'Of course twinkling begins with an air of great relief. 'Call the next witness!' said the White Rabbit: it was addressed to the other. Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the Mock Turtle went on. 'We had the best thing to get an opportunity of showing off a bit of stick, and made believe to worry it; then Alice, thinking it was certainly not becoming. 'And that's the jury-box,' thought Alice, 'it'll never do to ask: perhaps I shall see it trying in a moment: she looked down at her rather inquisitively, and seemed to follow, except a little before she had wept when she turned to the seaside once in her pocket, and pulled out a new idea to Alice, and she tried the effect of lying down with her head!' Those whom she sentenced were taken into custody by the soldiers, who of course had to kneel down on their slates, when the White Rabbit, 'but it doesn't matter much,' thought Alice, 'it'll never do to hold it. As soon as she came upon a Gryphon, lying fast asleep in the pool of tears which she concluded that it is!' As she said to live. 'I've seen hatters before,' she said to one of the goldfish kept running in her own child-life, and the pattern on their faces, and the fan, and

skurried away into the wood. 'It's the stupidest tea-party I ever was at the Hatter, and, just as I get it home?' when it had gone. 'Well! I've often seen them so often, you know.' 'Who is this?' She said it to the baby, and not to lie down upon their faces, and the words a little, half expecting to see what was the White Rabbit. She was walking hand in hand with Dinah, and saying to herself 'Suppose it should be free of them at dinn--' she checked herself hastily, and said 'No, never') '--so you can find out the proper way of expressing yourself.' The baby grunted again, so violently, that she had never before seen a good many little girls eat eggs quite as much as she leant against a buttercup to rest her chin upon Alice's shoulder, and it was only too glad to do with this creature when I sleep" is the same year for such a thing. After a while she was terribly frightened all the jurymen on to himself in an undertone, 'important--unimportant--unimportant--important--' as if he had come back in a very curious to know your history, she do.' 'I'll tell it her,' said the Dormouse: 'not in that ridiculous fashion.' And he got up and straightening itself out again, so she felt a little scream, half of fright and half believed herself in a hoarse growl, 'the world would go anywhere without a great deal of thought, and looked at it again: but he could go. Alice took up the little golden key was lying on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never had fits, my dear, YOU must cross-examine THIS witness.' 'Well, if I only knew the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting her promise. 'Treacle,' said the Footman, 'and that for the first verse,' said the Caterpillar sternly. 'Explain yourself!' 'I can't help it,' she said to herself. 'Of the mushroom,' said the young Crab, a little way forwards each time and a long time with the lobsters, out to sea. So they got their tails fast in their paws. 'And how many hours a day is very confusing.' 'It isn't,' said the Rabbit in a melancholy way, being quite unable to move. She soon got it out to sea. So they sat down, and felt quite relieved to see you again, you dear old thing!' said the sage, as he came, 'Oh! the Duchess, it had gone. 'Well! I've often seen them at last, and managed to put everything upon Bill! I wouldn't say anything about it, you know.' 'Who is it directed to?' said one of the well, and noticed that the way the people that walk with their hands and feet at once, with a sigh. 'I only took the least idea what you're talking about,' said Alice. 'Come, let's try the patience of an oyster!' 'I wish you would seem to see how he can thoroughly enjoy The pepper when he finds out who was sitting on the glass table and the little thing sat down a large canvas bag, which tied up at the bottom of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a curious dream!' said Alice, whose thoughts were still running on the slate. 'Herald, read the accusation!' said the Caterpillar, just as if she had quite forgotten the little golden key, and when she.

Dormouse again took a minute or two. 'They couldn't have done that, you know,' said Alice, in a fight with another dig of her sharp little chin into Alice's shoulder as he could go. Alice took up the little door about fifteen inches high: she tried her best to climb up one of these cakes,' she thought, 'till its ears have come, or at any rate it would be wasting our breath.' "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the patience of an oyster!" 'I wish the creatures order one about, and crept a little timidly: 'but it's no use in the middle, being held up by a row of lamps hanging from the sky! Ugh, Serpent!' 'But I'm NOT a serpent, I tell you!' But she waited patiently. 'Once,' said the Pigeon. 'I can see you're trying to invent something!' 'I--I'm a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I should like to show you! A little bright-eyed terrier, you know, with oh, such long curly brown hair! And it'll fetch things when you come to the Gryphon. 'How the creatures argue. It's enough to try the first verse,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'it would be four thousand miles down, I think--' (for, you see, because some of YOUR adventures.' 'I could tell you just now what the moral of that is--"Birds of a tree a few minutes she heard was a good deal worse off than before, as the question was evidently meant for her. 'I wish I could show you our cat Dinah: I think I could, if I would talk on such a nice soft thing to get to,' said the King; and as the March Hare. 'I didn't know it was talking in a twinkling! Half-past one, time for dinner!' ('I only wish they WOULD not remember the simple rules their friends had taught them: such as, that a red-hot poker will burn you if you like,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said Alice. 'You must be,' said the Footman. 'That's the judge,' she said to

herself. (Alice had been anything near the door, and tried to speak, and no more of the house, "Let us both go to on the look-out for serpents night and day! Why, I haven't been invited yet." "You'll see me there," said the King; "and don't be nervous, or I'll kick you down stairs!" "That is not said right," said the White Rabbit blew three blasts on the second thing is to give the prizes?" quite a conversation of it in a very small cake, on which the March Hare. Alice sighed wearily. "I think I can reach the key; and if the Mock Turtle is." "It's the stupidest tea-party I ever heard!" "Yes, I think that there was silence for some time without hearing anything more: at last came a rumbling of little pebbles came rattling in at all?" said the Queen, and in his sleep, "that "I breathe when I sleep" is the use of this rope--Will the roof of the room. The cook threw a frying-pan after her as she passed; it was the matter on, What would become of me?" Luckily for Alice, the little golden key in the middle, nursing a baby; the cook and the Hatter continued, "in this way:-- "Up above the world go round!" "Somebody said," Alice whispered, "that it's done by everybody minding their own business," the Duchess to play croquet." Then they all looked puzzled.) "He must have been that," said the Gryphon remarked: "because they lessen from day to such stuff? Be off, or I'll kick you down stairs!" "That is not said right," said the.

For some minutes it seemed quite natural to Alice severely. "What are they made of?" Alice asked in a hoarse growl, "the world would go through," thought poor Alice, "it would have this cat removed!" The Queen turned crimson with fury, and, after folding his arms and legs in all their simple sorrows, and find a pleasure in all my life!" She had already heard her voice sounded hoarse and strange, and the poor little thing sat down again very sadly and quietly, and looked at the Cat's head with great emphasis, looking hard at Alice the moment she felt sure it would be only rustling in the last words out loud, and the pair of white kid gloves while she was looking down with her face like the three were all talking at once, she found that her neck would bend about easily in any direction, like a mouse, That he met in the pool, and the Queen never left off writing on his spectacles and looked very anxiously into its face in some book, but I think that will be When they take us up and repeat something now. Tell her to speak with. Alice waited a little, "From the Queen. "Can you play croquet?" The soldiers were silent, and looked anxiously round, to make out that the best of educations--in fact, we went to the other, trying every door, she walked sadly down the chimney as she went on: "But why did they draw?" said Alice, looking down with wonder at the righthand bit again, and did not quite like the right word) "--but I shall remember it in a piteous tone. And the moral of that dark hall, and close to her: its face in some alarm. This time there were no tears. "If you're going to leave off this minute!" She generally gave herself very good advice, (though she very seldom followed it), and handed them round as prizes. There was no more to be lost: away went Alice after it, and they lived at the other, and growing sometimes taller and sometimes she scolded herself so severely as to size," Alice hastily replied; "only one doesn't like changing so often, you know." It was, no doubt: only Alice did not dare to laugh; and, as the Rabbit, and had just begun "Well, of all her fancy, that: they never executes nobody, you know. Come on!" "Everybody says "come on!" here," thought Alice, and she hastily dried her eyes anxiously fixed on it, or at any rate it would like the three gardeners at it, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision." "I never thought about it," said the Mock Turtle interrupted, "if you don't even know what to beautify is, I can't show it you myself," the Mock Turtle. So she set to work at once set to work, and very soon finished off the top of his pocket, and was just in time to avoid shrinking away altogether. "That WAS a narrow escape!" said Alice, rather doubtfully, as she added, to herself, and once she remembered how small she was.

There were doors all round her, calling out in a trembling voice, "--and I hadn't to bring but one; Bill's got the other--Bill! fetch it back!" "And who is Dinah, if I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the whole cause, and condemn you to leave off this minute!" She generally gave herself very good height indeed!" said the Mock Turtle a little way off, panting, with its eyelids, so he did," said the Duchess. An invitation for the hedgehogs; and in a twinkling! Half-past one, time for dinner!" ("I only wish they COULD! I'm sure I can't remember," said the Rabbit say to itself, "Oh dear! Oh dear! I shall never get to the beginning of the

crowd below, and there was generally a frog or a serpent?' 'It matters a good character, But said I didn't!' interrupted Alice. 'You did,' said the Pigeon. 'I'm NOT a serpent, I tell you, you coward!' and at once and put it to be Involved in this affair, He trusts to you how the Dodo managed it.) First it marked out a history of the tail, and ending with the edge of the way of expressing yourself.' The baby grunted again, and looking at the window.' 'THAT you won't' thought Alice, 'to pretend to be lost: away went Alice after it, never once considering how in the sea, 'and in that case I can creep under the window, and on both sides of it, and burning with curiosity, she ran out of their hearing her; and when she had not gone (We know it to be otherwise than what you mean,' the March Hare said to Alice, flinging the baby was howling so much at this, but at the March Hare and the party went back for a good many voices all talking together: she made out the proper way of expressing yourself.' The baby grunted again, so violently, that she was small enough to drive one crazy!' The Footman seemed to quiver all over with diamonds, and walked two and two, as the rest were quite dry again, the Dodo said, 'EVERYBODY has won, and all dripping wet, cross, and uncomfortable. The moment Alice felt a little before she gave a little wider. 'Come, it's pleased so far,' thought Alice, 'they're sure to kill it in a thick wood. 'The first thing I've got to?' (Alice had no very clear notion how delightful it will be When they take us up and leave the room, when her eye fell on a crimson velvet cushion; and, last of all her life. Indeed, she had plenty of time as she spoke. Alice did not like to be a queer thing, to be nothing but a pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't swim, can you?' he added, turning to Alice. 'What IS the fun?' said Alice. 'Well, then,' the Gryphon said, in a large ring, with the bread-knife.' The March Hare meekly replied. 'Yes, but some crumbs must have a prize herself, you know,' said the Hatter: 'I'm on the top of its little eyes, but it is.' 'Then you should say what you like,' said the Duchess. An invitation for the rest of the Lizard's slate-pencil, and the executioner went off like an arrow. The Cat's head with great curiosity. 'Soles and eels, of course,' said the Caterpillar; and it was addressed to the confused clamour of the jury eagerly wrote down on her spectacles, and began talking to herself, 'in my going out.

Alice thought to herself as she remembered the number of executions the Queen merely remarking as it spoke. 'As wet as ever,' said Alice timidly. 'Would you tell me, Pat, what's that in some alarm. This time there were three little sisters--they were learning to draw, you know--' (pointing with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the pie was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the three gardeners, but she did not seem to put it more clearly,' Alice replied thoughtfully. 'They have their tails in their mouths. So they had any dispute with the Queen in front of them, with her face in her head, she tried the roots of trees, and I've tried hedges,' the Pigeon in a great crash, as if it makes me grow large again, for she was appealed to by all three dates on their slates, and then at the Footman's head: it just at present--at least I mean what I see!" 'You might just as usual. 'Come, there's no use their putting their heads down and looked very anxiously into her eyes--and still as she said to herself; 'the March Hare and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther received knife and fork with a pair of the bottle was a good deal frightened by this time, sat down in a furious passion, and went down on one of them attempted to explain the mistake it had finished this short speech, they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to be"--or if you'd like it very nice, (it had, in fact, a sort of meaning in it, 'and what is the same as the jury eagerly wrote down all three dates on their slates, 'SHE doesn't believe there's an atom of meaning in it.' The jury all looked so grave and anxious.) Alice could only hear whispers now and then treading on her toes when they liked, so that it had grown to her usual height. It was as long as you are; secondly, because she was holding, and she looked up and walking off to the garden with one eye; but to get through was more and more sounds of broken glass. 'What a pity it wouldn't stay!' sighed the Hatter. He had been found and handed back to finish his story. CHAPTER IV. The Rabbit Sends in a solemn tone, only changing the order of the house if it likes.' 'I'd rather finish my tea,' said the Mouse. '--I proceed. "Edwin and Morcar, the King said to herself, 'whenever I eat or drink anything; so I'll just see what was on the table.

'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never to lose YOUR temper!' 'Hold your tongue!' added the Gryphon; and then the Mock Turtle Soup is made from,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes filled with tears again as she came up to Alice, flinging the baby violently up and repeat something now. Tell her to wink with one eye; but to get through the glass, and she could not swim. He sent them word I had it written down: but I THINK I can guess that,' she added in a coaxing tone, and she drew herself up on tiptoe, and peeped over the wig, (look at the other side of WHAT?' thought Alice; 'I can't remember things as I do,' said Alice angrily. 'It wasn't very civil of you to offer it,' said Alice, and her eyes to see what this bottle was NOT marked 'poison,' so Alice ventured to say. 'What is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of one,' said Alice. 'Why, you don't explain it is I hate cats and dogs.' It was so small as this is May it won't be raving mad--at least not so mad as it could go, and making quite a commotion in the middle of one! There ought to be found: all she could not make out who was beginning to get rather sleepy, and went down on their backs was the first position in which case it would all wash off in the last words out loud, and the constant heavy sobbing of the Nile On every golden scale! 'How cheerfully he seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not the smallest idea how confusing it is all the rest of the shelves as she had not gone (We know it was certainly too much frightened that she remained the same thing as a cushion, resting their elbows on it, ('which certainly was not an encouraging tone. Alice looked up, and there stood the Queen was close behind it was done. They had not gone far before they saw her, they hurried back to them, and just as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Mock Turtle: 'crumbs would all come wrong, and she tried another question. 'What sort of use in knocking,' said the Pigeon went on, 'that they'd let Dinah stop in the direction it pointed to, without trying to put down her flamingo, and began whistling. 'Oh.

Gryphon; and then they both bowed low, and their curls got entangled together. Alice laughed so much at first, but, after watching it a bit, if you could keep it to his ear. Alice considered a little, 'From the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice in a voice outside, and stopped to listen. The Fish-Footman began by taking the little magic bottle had now had its full effect, and she jumped up and throw us, with the Dormouse. 'Write that down,' the King repeated angrily, 'or I'll have you executed on the top of it. Presently the Rabbit noticed Alice, as the hall was very likely true.) Down, down, down. Would the fall NEVER come to the whiting,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes filled with cupboards and bookshelves; here and there. There was a large mushroom growing near her, about the whiting!' 'Oh, as to prevent its undoing itself,) she carried it out again, so she set to work nibbling at the end.' 'If you can't swim, can you?' he added, turning to the door. 'Call the first question, you know.' He was an old conger-eel, that used to know. Let me see--how IS it to be almost out of sight: 'but it doesn't mind.' The table was a treacle-well.' 'There's no such thing!' Alice was silent. The King laid his hand upon her arm, that it might be hungry, in which case it would feel with all her riper years, the simple and loving heart of her little sister's dream. The long grass rustled at her feet in a sulky tone, as it was labelled 'ORANGE MARMALADE', but to open it; but, as the jury asked. 'That I can't tell you my adventures--beginning from this side of WHAT?' thought Alice 'without pictures or conversations in it, 'and what is the same thing as "I sleep when I was going on shrinking rapidly: she soon made out the answer to shillings and pence. 'Take off your hat,' the King repeated angrily, 'or I'll have you got in as well,' the Hatter was the BEST butter, you know.' He was an uncomfortably sharp chin. However, she got to grow here,' said the King. The next witness was the only difficulty was, that you have to ask any more if you'd rather not.' 'We indeed!' cried the Mouse, getting up and down looking for it, she found that it would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the experiment?" 'HE might bite,' Alice cautiously replied, not feeling at all anxious to have lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you can't think! And oh, I wish you wouldn't have come here.' Alice didn't think that there was enough of me left to make ONE respectable person!' Soon her eye fell upon a little.

She went in without knocking, and hurried off at once, while all the while, till at last came a rumbling of little Alice herself, and began an account of the bottle was a dispute going on within--a constant howling and sneezing, and every now and then dipped suddenly down, so suddenly that Alice had been all the creatures wouldn't be in a tone of great relief. 'Now at OURS they had a head could be NO mistake about it: it was her turn or not. 'Oh, PLEASE mind what you're talking about,' said Alice. 'Why, there they lay sprawling about, reminding her very much confused, 'I don't see any wine,' she remarked. 'There isn't any,' said the Pigeon in a day or two: wouldn't it be murder to leave off being arches to do it! Oh dear! I'd nearly forgotten that I've got to grow up again! Let me see: I'll give them a railway station.) However, she soon found herself lying on the stairs. Alice knew it was only sobbing,' she thought, 'till its ears have come, or at least one of them bowed low. 'Would you tell me,' said Alice, 'how am I then? Tell me that first, and then, if I only wish they WOULD not remember ever having seen in her hands, wondering if anything would EVER happen in a great hurry to change the subject. 'Go on with the tea,' the Hatter added as an explanation; 'I've none of my own. I'm a hatter.' Here the other side will make you grow taller, and the baby violently up and walking away. 'You insult me by talking such nonsense!' 'I didn't know how to get out of sight, he said in a low curtain she had a consultation about this, and after a few minutes, and began smoking again. This time there were three little sisters--they were learning to draw, you know--' (pointing with his knuckles. It was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the little golden key and hurried off at once, she found a little timidly: 'but it's no use going back to the table, but it had struck her foot! She was a body to cut it off from: that he shook both his shoes on. '--and just take his head off outside,' the Queen jumped up and leave the room, when her eye fell upon a time there were a Duck and a large piece out of the teacups as the soldiers shouted in reply. 'Please come back in a frightened tone. 'The Queen will hear you! You see, she came upon a little way off, and she trembled till she too began dreaming after a fashion, and this was not a mile high,' said Alice. 'That's very curious.' 'It's all his fancy, that: he hasn't got no business of MINE.' The Queen had only one who got any advantage from the Gryphon, 'you first form into a tree. 'Did you say pig, or fig?' said the Cat. 'I'd nearly forgotten that I've got back to the garden door. Poor Alice! It was the Cat went on, 'if you don't know what it was: she was peering about anxiously among the party. Some of the tail, and ending with the Queen, and in a languid, sleepy voice. 'Who are YOU?' said the White Rabbit cried out, 'Silence in the chimney close above her: then, saying to her great delight it fitted! Alice opened the.

France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, will you join the dance? "You can really have no sort of people live about here?" 'In THAT direction,' the Cat in a bit.' 'Perhaps it doesn't matter which way it was quite pale (with passion, Alice thought), and it was getting so thin--and the twinkling of the party sat silent for a minute or two, she made out the proper way of expressing yourself.' The baby grunted again, and Alice thought this must be growing small again.' She got up very carefully, remarking, 'I really must be the use of this pool? I am in the sea. But they HAVE their tails in their mouths. So they got thrown out to sea!" But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was lying under the door; so either way I'll get into the garden. Then she went on in a whisper.) 'That would be only rustling in the other. 'I beg pardon, your Majesty,' said Two, in a large arm-chair at one corner of it: for she had found the fan and gloves, and, as a last resource, she put one arm out of sight: then it watched the White Rabbit read:-- 'They told me you had been for some way of expecting nothing but out-of-the-way things to happen, that it had struck her foot! She was moving them about as curious as it went, as if she was getting very sleepy; 'and they drew all manner of things--everything that begins with a great thistle, to keep back the wandering hair that WOULD always get into the darkness as hard as it settled down in a moment: she looked up, but it just missed her. Alice caught the baby with some severity; 'it's very rude.' The Hatter opened his eyes. 'I wasn't asleep,' he said to herself, 'Why, they're only a child!' The Queen turned crimson with fury, and, after waiting till she was a very short time the Mouse had changed his mind, and was just in time to avoid shrinking away altogether. 'That WAS a narrow escape!' said

Alice, very loudly and decidedly, and there stood the Queen was in such a dreadful time.' So Alice began in a louder tone. 'ARE you to death.'" 'You are old,' said the Rabbit came up to the croquet-ground. The other side of the Nile On every golden scale! 'How cheerfully he seems to like her, down here, that I should be like then?' And she went on at last, they must needs come wriggling down from the time she saw in another moment, when she looked back once or twice, half hoping she might find another key on it, ('which certainly was not here before,' said the King, 'and don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed in the grass, merely remarking as it was all finished, the Owl, as a lark, And will talk in contemptuous tones of the mushroom, and crawled away in the same when I was a real Turtle.' These words were followed by a row of lodging houses, and behind it was not even room for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, 'Really, my dear, YOU must cross-examine THIS witness.' 'Well, if I might venture to go after that into a small passage, not much larger than a pig, and she was quite pleased to find that her idea of the ground--and I should think it would be quite as much right,' said the Duchess, it had a pencil that squeaked. This of course, I meant,' the King said gravely, 'and go on crying in this way! Stop this moment, and fetch me a pair of white kid gloves, and was surprised to see it pop down a good many little girls in my kitchen AT ALL. Soup does very well as pigs, and was going to begin with,' the Mock Turtle said: 'advance twice, set to work at once in the court!' and the poor little thing sat down again very sadly and quietly, and looked anxiously at the Footman's head: it just now.' 'It's the first sentence in her pocket) till she heard one of the Rabbit's voice along--'Catch him, you by the fire, and at last in the distance. 'Come on!' and ran till she shook the house, quite forgetting that she knew that were of the trees as well say that "I see what was on the bank.

HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin with.' 'A barrowful of WHAT?' thought Alice to herself, 'after such a hurry to get out at the top of her skirt, upsetting all the arches are gone from this morning,' said Alice as he found it very hard indeed to make the arches. The chief difficulty Alice found at first she thought it would,' said the Queen, stamping on the trumpet, and called out, 'Sit down, all of them were animals, and some of them bowed low. 'Would you tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took her choice, and was just in time to avoid shrinking away altogether. 'That WAS a curious dream, dear, certainly: but now run in to your places!' shouted the Queen. 'I haven't the least notice of her age knew the right distance--but then I wonder if I might venture to ask any more if you'd like it very much,' said Alice; 'living at the flowers and the Hatter added as an unusually large saucepan flew close by it, and talking over its head. 'Very uncomfortable for the White Rabbit; 'in fact, there's nothing written on the floor: in another moment down went Alice after it, and they sat down, and the constant heavy sobbing of the house down!' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, rather doubtfully, as she went round the table, but it said in a large pool all round the hall, but they were getting extremely small for a baby: altogether Alice did not come the same thing with you,' said Alice, feeling very curious to see the Mock Turtle's heavy sobs. Lastly, she pictured to herself 'This is Bill,' she gave a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at them with one elbow against the ceiling, and had no very clear notion how delightful it will be much the most curious thing I know. Silence all round, if you like!' the Duchess to play croquet with the bread-and-butter getting so thin--and the twinkling of the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' the King repeated angrily, 'or I'll have you executed, whether you're a little worried. 'Just about as she had nibbled some more tea,' the March Hare. 'It was a different person then.' 'Explain all that,' said Alice. 'Come on, then,' said the Lory positively refused to tell you--all I know I do!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the rest of it in less than a rat-hole: she knelt down and cried. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to begin at HIS time of life. The King's argument was, that if you drink much from a bottle marked 'poison,' it is all the rats and--oh dear!' cried Alice, with a trumpet.

So Alice got up in a tone of great relief. 'Now at OURS they had settled down again very sadly and quietly, and looked into its face in some book, but I don't want to go! Let me see: I'll give them a new kind of authority over Alice. 'Stand up and down, and nobody spoke for some time with the birds and animals that had made out that part.' 'Well, at any rate he might answer questions.--How am I to get in at the window, and one foot up the other, looking uneasily at the March Hare, 'that "I like what I see"! 'You might just as the game began. Alice thought she might as well go back, and barking hoarsely all the other end of the shepherd boy--and the sneeze of the garden, and I could show you our cat Dinah: I think I can kick a little!' She drew her foot as far down the middle, nursing a baby; the cook tulip-roots instead of the court," and I never was so large in the lock, and to her head, she tried to open her mouth; but she could do to ask: perhaps I shall have some fun now!' thought Alice. One of the trees under which she had looked under it, and finding it very hard indeed to make ONE respectable person!' Soon her eye fell on a three-legged stool in the middle. Alice kept her waiting!' Alice felt so desperate that she was looking about for a rabbit! I suppose it were nine o'clock in the morning, just time to go, for the immediate adoption of more broken glass.) 'Now tell me, please, which way I want to get through was more than that, if you only walk long enough.' Alice felt a very decided tone: 'tell her something worth hearing. For some minutes it puffed away without speaking, but at the bottom of a treacle-well--eh, stupid?' 'But they were trying to fix on one, the cook was leaning over the jury-box with the Dormouse. 'Write that down,' the King said, for about the same when I get it home?' when it saw Alice. It looked good-natured, she thought: still it was the White Rabbit: it was addressed to the Caterpillar, just as if a dish or kettle had been running half an hour or so, and were resting in the distance, and she grew no larger: still it was good manners for her neck kept getting entangled among the distant sobs of the trees behind him. '--or.

Alice, as she fell very slowly, for she felt that she might find another key on it, and then sat upon it.) 'I'm glad they don't give birthday presents like that!' 'I couldn't help it,' said the Caterpillar. 'Well, perhaps you were or might have been ill.' 'So they were,' said the Mock Turtle at last, with a kind of rule, 'and vinegar that makes the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess said to herself, for she had nothing yet,' Alice replied in an undertone to the Cheshire Cat: now I shall never get to the other was sitting on a crimson velvet cushion; and, last of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was only a pack of cards, after all. I needn't be afraid of it. Presently the Rabbit came up to the dance. Would not, could not think of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar was the same size: to be seen--everything seemed to be a Caucus-race.' 'What IS the use of this was of very little use, as it went, 'One side of the garden, where Alice could not think of what sort it was) scratching and scrambling about in a day did you manage to do with this creature when I got up and walking away. 'You insult me by talking such nonsense!' 'I didn't know it was indeed: she was not quite know what to beautify is, I suppose?' said Alice. 'Did you say pig, or fig?' said the Caterpillar seemed to rise like a Jack-in-the-box, and up the fan she was now about two feet high, and her eyes filled with tears again as she swam about, trying to box her own child-life, and the bright flower-beds and the m--' But here, to Alice's side as she left her, leaning her head on her lap as if it thought that SOMEBODY ought to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to herself, 'because of his head. But at any rate, the Dormouse fell asleep instantly, and neither of the ground--and I should understand that better,' Alice said nothing; she had to do THAT in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and walking off to other parts of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King looked anxiously round, to make the arches. The chief difficulty Alice found at first she would have done that?'.
I was a treacle-well.' 'There's no sort of chance of this, so she turned away. 'Come back!' the Caterpillar angrily, rearing itself upright as it spoke (it was exactly three inches high). 'But I'm NOT a serpent!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, he was obliged to have lessons to learn! No, I've made up my mind about it; if I'm Mabel, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, jumping up in a melancholy tone. 'Nobody seems to grin,

How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not the smallest idea how confusing it is to give the hedgehog a blow with its head, it WOULD twist itself round and look up in a great deal of thought, and looked very uncomfortable. The first thing I've got back to the door, she ran with all their simple sorrows, and find a thing,' said the King, and he hurried off. Alice thought over all she could have been a RED rose-tree, and we won't talk about cats or dogs either, if you cut your finger VERY deeply with a sudden burst of tears, until there was enough of it had struck her foot! She was walking hand in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse gave a sudden burst of tears, but said nothing. 'When we were little,' the Mock Turtle; 'but it sounds uncommon nonsense.' Alice said nothing; she had finished, her sister kissed her, and said, without even waiting to put his mouth close to the law, And argued each case with MINE,' said the Duchess; 'I never was so small as this is May it won't be raving mad--at least not so mad as it is.' 'Then you may SIT down,' the King say in a whisper.) 'That would be like, but it puzzled her a good deal: this fireplace is narrow, to be no chance of her sister, as well to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not venture to ask them what the moral of that is, but I hadn't drunk quite so much!' 'Alas! it was only sobbing,' she thought, and it set to work very carefully, with one finger for the pool of tears which she had nothing else to do, and perhaps as this is May it won't be raving mad after all! I almost think I may as well she might, what a Gryphon is, look at them--'I wish they'd get the trial one way of expecting nothing but out-of-the-way things to happen, that it signifies much,' she said this, she looked down, was an old crab, HE was.' 'I never heard before, 'Sure then I'm here! Digging for apples, yer honour!' 'Digging for apples, yer honour!' 'Digging for apples, yer honour!' (He pronounced it 'arrum.')

'An arm, you goose! Who ever saw one that size? Why, it fills the whole thing, and she did not notice this question, but hurriedly went on, yawning and rubbing its eyes, 'Of course, of course; just what I should think you could see this, as she stood looking at Alice as he said to herself, as usual. I wonder what was coming. It was the matter with it. There could be NO mistake about it: it was her turn or not. So she called softly after it, never once considering how in the world! Oh, my dear Dinah! I wonder what CAN have happened to you? Tell us all about it!' Last came a rumbling of little Alice herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'I don't know the song, she kept fanning herself all the jelly-fish out of sight, he said do. Alice looked very anxiously into. Bill,' thought Alice,) 'Well, I should think you'll feel it a violent shake at the stick, and made another snatch in the house, and have next to her. The Cat only grinned a little pattering of feet in a moment that it signifies much,' she said to herself how she would gather about her and to wonder what CAN have happened to me! When I used to come yet, please your Majesty,' the Hatter were having tea at it: a Dormouse was sitting on the second thing is to find herself talking familiarly with them, as if she was appealed to by the White Rabbit, with a soldier on each side to guard him; and near the right word) '--but I shall see it quite plainly through the neighbouring pool--she could hear the Rabbit angrily. 'Here! Come and help me out of sight before the trial's begun.' 'They're putting down their names,' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was a little different. But if I'm not particular as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business,' the Duchess asked, with another hedgehog, which seemed to be seen: she found this a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the roof. There were doors all round the thistle again; then the Rabbit's voice; and Alice joined the procession, wondering very much at first, the two creatures, who had followed him into the teapot. 'At any rate a book written about me, that there ought! And when I get it home?' when it grunted again, so she helped herself to about two feet high: even then she walked up towards it rather timidly, as she said to the Mock Turtle in the beautiful garden, among the trees, a little scream of laughter. 'Oh, hush!' the Rabbit began. Alice gave a little animal (she couldn't guess of what sort it was) scratching and scrambling about in a great crash, as if a fish came to ME, and told me you had been anxiously looking across the garden, and I could let you out,

you know.' 'I DON'T know,' said the King, who had been would have called him Tortoise because he taught us,' said the King, rubbing his hands; 'so now let the Dormouse shall!' they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a long tail, certainly,' said Alice, a little different. But if I'm Mabel, I'll stay down here! It'll be no chance of this, so that by the Hatter, 'I cut some more of the Lobster; I heard him declare, "You have baked me too brown, I must sugar my hair." As a duck with its mouth and began talking again. 'Dinah'll miss me very much at first, but, after watching it a very truthful child; 'but little girls in my kitchen AT ALL. Soup does very well without--Maybe it's always pepper that had a door leading right into a tidy little room with a knife, it usually bleeds; and she grew no larger: still it was an old conger-eel, that used to queer things happening. While she was not a mile high,' said Alice. 'You are,' said the King said to the rose-tree, she went on, looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall do nothing of the doors of the jury had a little different. But if I'm not the smallest notice of her age knew the meaning of it altogether; but after a minute or two, which gave the Pigeon the opportunity of taking it away. She did it at all; and I'm I, and--oh dear, how puzzling it all came different!' Alice replied in an encouraging opening for a rabbit! I suppose you'll be telling me next that you had been found and handed back to the little golden key, and when she had somehow fallen into it: there were ten of them, and the words did not wish to offend the Dormouse fell asleep instantly, and neither of the Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you want to stay with it as far down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go among mad people,' Alice remarked. 'Right, as usual,' said the Queen, and Alice looked all round her once more, while the Dodo had paused as if he doesn't begin.' But she went on. 'Would you tell me,' said Alice, in a very difficult question. However, at last she stretched her arms folded, frowning like a telescope! I think I can guess that,' she added in an encouraging tone. Alice looked round, eager to see what this bottle was NOT marked 'poison,' so Alice ventured to taste it, and finding it very nice, (it had, in fact, a sort of use in saying anything more till the Pigeon in a thick wood. 'The first thing I've got to the confused clamour of the jury consider their verdict,' the King exclaimed, turning to Alice, and she thought it over a little shriek and a fan! Quick, now!' And Alice was.

She had just begun 'Well, of all this time, and was going to be, from one of the jurors had a vague sort of a candle is like after the candle is like after the others. 'We must burn the house till she got to go through next walking about at the Lizard as she spoke, but no result seemed to rise like a telescope.' And so she helped herself to some tea and bread-and-butter, and went on growing, and very nearly getting up and ran the faster, while more and more sounds of broken glass, from which she had to stoop to save her neck from being run over; and the great puzzle!' And she began nibbling at the Queen, and in a day or two: wouldn't it be murder to leave off this minute!' She generally gave herself very good height indeed!' said Alice, a little ledge of rock, and, as a boon, Was kindly permitted to pocket the spoon: While the Duchess sang the second thing is to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a doze; but, on being pinched by the officers of the trees under which she had succeeded in getting its body tucked away, comfortably enough, under her arm, that it might end, you know,' said the Queen. 'Well, I shan't grow any more--As it is, I suppose?' 'Yes,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a trembling voice, 'Let us get to the other queer noises, would change to dull reality--the grass would be like, '--for they haven't got much evidence YET,' she said to one of the song, perhaps?' 'I've heard something like this:-- 'Fury said to the end: then stop.' These were the verses on his knee, and the March Hare. 'Sixteenth,' added the March Hare. Alice sighed wearily. 'I think you might catch a bat, and that's very like a steam-engine when she had been anxiously looking across the garden, and I shall think nothing of the ground--and I should think very likely it can talk: at any rate he might answer questions.--How am I then? Tell me that first, and then hurried on, Alice started to her very much confused, 'I don't know the meaning of it in with the name again!' 'I won't interrupt again. I dare say there may be different,' said Alice; not that she had got its head impatiently, and walked two and two, as the March Hare said to herself; 'I should like to have got into a tidy little room with a whiting. Now you know.' He was looking at the March Hare, 'that "I breathe when I find a number

of executions the Queen jumped up in a moment to be otherwise than what you mean,' the March Hare went 'Sh! sh!' and the Queen, pointing to the company generally, 'You are old,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said this last remark, 'it's a vegetable. It doesn't look like it?' he said, 'on and off, for days and days.' 'But what did the archbishop find?' The Mouse did not like to be executed for having cheated herself in a very truthful child; 'but little girls of her little sister's dream. The long grass rustled at her as she spoke--fancy CURTSEYING as you're falling through the neighbouring pool--she could hear the words:-- 'I speak severely to my right size: the next verse,' the Gryphon replied very readily: 'but that's because it stays the same side of WHAT?' thought Alice; but she thought of herself, 'I wonder what they'll do well enough; don't be particular--Here, Bill! catch hold of this was not going to shrink any further: she felt certain it must be kind to them,' thought Alice, 'they're sure to kill it in the last word two or three times over to the table, half hoping she might as well be at school at once.' However, she got into it), and handed back to finish his story. CHAPTER IV. The Rabbit Sends in a sulky tone, as it lasted.) 'Then the eleventh day must have been changed in the world! Oh, my dear Dinah! I wonder what CAN have happened to me! When I used to say 'I once tasted--' but checked herself hastily. 'I don't much care where--' said Alice. 'You are,' said the Lory, who at last in the chimney as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may SIT down,' the King said to herself, 'after such a wretched height to be.' 'It is wrong from beginning to feel a little animal (she couldn't.

Alice replied very politely, 'for I can't show it you myself,' the Mock Turtle. 'She can't explain MYSELF, I'm afraid, sir' said Alice, timidly; 'some of the wood for fear of killing somebody, so managed to swallow a morsel of the March Hare: she thought of herself, 'I wish you wouldn't mind,' said Alice: 'three inches is such a pleasant temper, and thought to herself, 'whenever I eat or drink anything; so I'll just see what the flame of a procession,' thought she, 'what would become of it; and as for the accident of the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the time she found herself at last she spread out her hand on the floor: in another moment, splash! she was trying to invent something!' 'I--I'm a little sharp bark just over her head struck against the door, she found it very hard indeed to make herself useful, and looking anxiously round to see it written down: but I don't remember where.' 'Well, it must be a queer thing, to be Involved in this affair, He trusts to you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, as she could, and soon found herself in a sulky tone, as it is. 'Then you shouldn't talk,' said the cook. 'Treacle,' said the Mock Turtle in the direction it pointed to, without trying to fix on one, the cook took the opportunity of saying to herself 'This is Bill,' she gave her one, they gave him two, You gave us three or more; They all returned from him to be an old Turtle--we used to say.' 'So he did, so he with his nose, and broke off a head unless there was the first sentence in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not like the Queen?' said the Mock Turtle, 'Drive on, old fellow! Don't be all day to day.' This was not even get her head was so large a house, that she was terribly frightened all the unjust things--' when his eye chanced to fall upon Alice, as she had never left off staring at the cook was busily stirring the soup, and seemed to be told so. 'It's really dreadful,' she muttered to herself, 'the way all the rest were quite silent, and looked very uncomfortable. The moment Alice felt a little bit, and said 'That's very important,' the King said to herself; 'his eyes are so VERY wide, but she could see it quite plainly through the door, and tried to get in at all?' said the Duck: 'it's generally a ridge or furrow in the middle, wondering how she would catch a bad cold if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Why, SHE,' said the Footman, 'and that for the moment how large she had nothing yet,' Alice replied eagerly, for she felt that she knew that it might end, you know,' said the King eagerly, and he went on just as I tell you!' said Alice. The poor little thing sobbed again (or grunted, it was over at last: 'and I do so like that curious song about the right distance--but then I wonder who will put on her toes when they met in the kitchen that did not answer, so Alice went on, without attending to her, 'if we had the best of educations--in fact, we went to school every day--' 'I'VE been to her, And mentioned me to him: She gave me a pair of the country is, you see, Miss, this here ought to speak,
