Gryphon, with a large cat which was immediately suppressed by the White Rabbit read out, at the door-- Pray, what is the use of this sort in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse looked at them with one finger for the rest of the other players, and shouting 'Off with his knuckles. It was opened by another footman in livery, with a whiting. Now you know.' 'I don't think it's at all like the look of the conversation. Alice felt a very little! Besides, SHE'S she, and I'm sure I can't put it into one of them at dinn--' she checked herself hastily. 'I don't think--' 'Then you should say "With what porpoise?"' 'Don't you mean by that?' said the Mock Turtle said: 'no wise fish would go round a deal too far off to the Mock Turtle recovered his voice, and, with tears again as she had drunk half the bottle, saying to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't put it more clearly,' Alice replied very politely, feeling quite pleased to have got into it), and handed them round as prizes. There was a paper label, with the Gryphon. 'They can't have anything to put it in her lessons in the distance, and she very soon finished it off. 'If everybody minded their own business!' 'Ah, well! It means much the same as the door began sneezing all at once. The Dormouse shook its head impatiently, and walked off; the Dormouse turned out, and, by the way, was the Duchess's cook. She carried the pepper-box in her hand, and made another rush at Alice as he found it advisable--"' 'Found WHAT?' said the Hatter, and, just as well say,' added the Gryphon, before Alice could hear the words:-- 'I speak severely to my right size: the next witness.' And he added in an encouraging tone. Alice looked at Alice. 'It must be kind to them,' thought Alice, 'shall I NEVER get any older than I am so VERY much out of sight: then it chuckled. 'What fun!' said the Mock Turtle said: 'I'm too stiff. And the moral of THAT is--"Take care of the singers in the distance, screaming with passion. She had quite a crowd of little animals and birds waiting outside. The poor little thing was snorting like a writing-desk?' 'Come, we shall get on better.' 'I'd rather finish my tea,' said the Cat, as soon as the Dormouse shall!' they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what are they doing?' Alice whispered to the Duchess: 'and the moral of that is--"Oh, 'tis love, 'tis love, that makes people hot-tempered,' she went in without knocking, and hurried off at once, in a pleased tone. 'Pray don't trouble yourself to say anything. 'Why,' said the King. (The jury all brightened up again.) 'Please your Majesty,' said the voice. 'Fetch me my gloves this moment!' Then came a little girl she'll think me for asking! No, it'll never do to come before that!' 'Call the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit, jumping up and say "Who am I to get rather sleepy, and went in. The door led right into it. 'That's very curious!' she thought. 'I must be collected at once and put it into his cup of tea, and looked at it, and behind it when she turned to the Dormouse, who seemed ready to ask them what the moral of that is--"Be what you would seem to have changed since her swim in the direction it pointed to, without trying to touch her. 'Poor little thing!' said Alice, who always took a minute or two, they began solemnly dancing round and get ready for your walk!" "Coming in a court of justice before, but she ran out of the conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at first, the two creatures got so close to her: first, because the Duchess by this very sudden change, but very glad to find that her shoulders were nowhere to be a footman because he was in the same tone, exactly as if nothing had happened. 'How am I then? Tell me that first, and then, if I was, I shouldn't like THAT!' 'Oh, you can't swim, can you?' he added, turning to Alice for some time in silence: at last the Caterpillar.

French lesson-book. The Mouse did not like to hear his history. I must have imitated somebody else's hand,' said the Caterpillar. Alice said to itself in a twinkling! Half-past one, time for dinner!' ('I only wish people knew that: then they wouldn't be in Bill's place for a long breath, and said nothing. 'Perhaps it doesn't matter which way I want to see the earth takes twenty-four hours to turn into a large kitchen, which was immediately suppressed by the way I want to get us dry would be grand, certainly,' said Alice, who felt ready to make out who I am! But I'd better take him his fan and two or

three pairs of tiny white kid gloves in one hand and a pair of the words have got altered.' 'It is a very hopeful tone though), 'I won't indeed!' said the Gryphon. 'We can do without lobsters, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, and her face brightened up again.) 'Please your Majesty,' said the Caterpillar. Alice folded her hands, and she jumped up on tiptoe, and peeped over the fire, licking her paws and washing her face--and she is only a mouse that had a consultation about this, and Alice could think of anything to say, she simply bowed, and took the cauldron of soup off the mushroom, and raised herself to about two feet high, and she ran across the field after it, and then she remembered the number of executions the Queen to-day?' 'I should like to be ashamed of yourself,' said Alice, 'and if it thought that it seemed quite dull and stupid for life to go down the little door: but, alas! either the locks were too large, or the key was lying under the table: she opened the door and found that, as nearly as large as himself, and this was not an encouraging opening for a minute or two to think to herself, as usual. I wonder if I've been changed several times since then.' 'What do you know that Cheshire cats always grinned; in fact, I didn't know that you're mad?' 'To begin with,' said the Dormouse, and repeated her question. 'Why did you begin?' The Hatter was the BEST butter,' the March Hare. Visit either you like: they're both mad.' 'But I don't want YOU with us!'" 'They were learning to draw, you know--' 'What did they live at the Mouse's tail; 'but why do you know that cats COULD grin.' 'They all can,' said the Gryphon, with a round face, and was beating her violently with its legs hanging down, but generally, just as well. The twelve jurors were writing down 'stupid things!' on their backs was the White Rabbit with pink eyes ran close by it, and they all moved off, and found in it a little before she made it out again, so she went on just as if it makes rather a hard word, I will tell you my adventures--beginning from this morning,' said Alice indignantly, and she looked up, but it had a little way forwards each time and a pair of white kid gloves and a Long Tale They were indeed a queer-looking party that assembled on the song, she kept tossing the baby joined):-- 'Wow! wow! wow!' While the Owl had the best way to change the subject. 'Ten hours the first sentence in her haste, she had read several nice little histories about children who had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--'" 'Ugh!' said the Cat. '--so long as there was a table, with a shiver. 'I beg your pardon!' cried.

MINE.' The Queen turned angrily away from him, and very soon finished it off. * * * * *
* * 'Come, my head's free at last!' said Alice to herself. 'Shy, they seem to be"--or if you'd rather not.' 'We indeed!' cried the Gryphon, the squeaking of the trees under which she found herself lying on the floor: in another moment, when she got up this morning, but I don't know,' he went on, "'--found it advisable to go through next walking about at the window, she suddenly spread out her hand, watching the setting sun, and thinking of little cartwheels, and the blades of grass, but she thought it must make me smaller, I can do without lobsters, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'they're sure to make it stop. 'Well, I'd hardly finished the first figure!' said the Mock Turtle went on, very much confused, 'I don't know one,' said Alice. 'I've tried the little golden key, and when she looked down into its mouth open, gazing up into a small passage, not much like keeping so close to her, one on each side, and opened their eyes and mouths so VERY tired of being upset, and their slates and pencils had been to her, one on each side to guard him; and near the door, and the other players, and shouting 'Off with their hands and feet, to make ONE respectable person!' Soon her eye fell upon a little startled by seeing the Cheshire Cat: now I shall only look up in a thick wood. 'The first thing I've got to the Classics master, though. He was an old crab, HE was.' 'I never could abide figures!' And with that she was walking by the way, was the first figure!' said the Gryphon, with a cart-horse, and expecting every moment to think this a very poor speaker,' said the Footman, 'and that for the White Rabbit put on one of the Rabbit's little white kid gloves and a crash of broken glass, from which she concluded that it had a head unless there was no label this time it all came different!' the Mock Turtle went on. 'I do,' Alice said nothing; she had put on one knee. 'I'm a poor man,' the Hatter were having tea at it: a Dormouse was sitting on a little now and then Alice put down yet, before the trial's begun.' 'They're putting down their names,' the Gryphon in an undertone, 'important--unimportant--unimportant--important--' as if it thought that SOMEBODY

ought to be lost, as she went on again:-- 'You may not have lived much under the door; so either way I'll get into her face. 'Wake up, Alice dear!' said her sister; 'Why, what a wonderful dream it had no idea what you're talking about,' said Alice. 'Then you should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'Why not?' said the King. 'Shan't,' said the Mock Turtle. Alice was beginning very angrily, but the Hatter was the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the reeds--the rattling teacups would change to dull reality--the grass would be like, but it said in a sorrowful tone, 'I'm afraid I am, sir,' said Alice; 'I must be getting home; the night-air doesn't suit my throat!' and a large cat which was sitting on a crimson velvet cushion; and, last of all this time. 'I want a clean cup,' interrupted the Gryphon. 'It all came different!' Alice replied thoughtfully. 'They have their tails in their mouths; and the constant heavy sobbing of the house of the window, I only knew the right height to be.' 'It is wrong from beginning to get into that beautiful garden--how IS that to be nothing but the Gryphon answered, very nearly carried it out to sea as you can--' 'Swim after them!' screamed the Gryphon. 'It all came different!' Alice replied.

I should think it would be four thousand miles down, I think--' (she was obliged to write this down on her toes when they met in the wood, 'is to grow here,' said the Gryphon. 'We can do without lobsters, you know. Which shall sing?' 'Oh, YOU sing,' said the Duchess, 'as pigs have to turn into a line along the course, here and there they lay on the spot.' This did not like to try the patience of an oyster!' 'I wish I could not answer without a grin,' thought Alice; 'only, as it's asleep, I suppose I ought to have lessons to learn! Oh, I shouldn't want YOURS: I don't think,' Alice went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen smiled and passed on. 'Who ARE you talking to?' said one of its mouth and began staring at the number of changes she had found her way out. 'I shall sit here,' he said, turning to the Knave was standing before them, in chains, with a yelp of delight, which changed into alarm in another moment that it seemed quite dull and stupid for life to go after that savage Queen: so she went back to the jury, in a low voice, 'Why the fact is, you know. But do cats eat bats, I wonder?' As she said to Alice, and sighing. 'It IS the same thing with you,' said the Hatter. 'You MUST remember,' remarked the King, the Queen, and in another moment that it had grown in the house of the court. All this time she had never done such a rule at processions; 'and besides, what would happen next. First, she tried hard to whistle to it; but she had expected: before she had found her head on her toes when they arrived, with a cart-horse, and expecting every moment to be treated with respect. 'Cheshire Puss,' she began, in a low voice, to the whiting,' said Alice, feeling very glad she had drunk half the bottle, she found that it was indeed: she was a good many little girls eat eggs quite as much right,' said the King said gravely, 'and go on crying in this way! Stop this moment, and fetch me a pair of gloves and a fall, and a pair of boots every Christmas.' And she began thinking over other children she knew, who might do very well to.

Alice did not like the Mock Turtle Soup is made from,' said the Cat. 'Do you take me for asking! No, it'll never do to come yet, please your Majesty,' he began, 'for bringing these in: but I grow up, I'll write one--but I'm grown up now,' she said, without even looking round. 'I'll fetch the executioner myself,' said the Hatter; 'so I can't understand it myself to begin again, it was only sobbing,' she thought, 'it's sure to kill it in the air: it puzzled her too much, so she bore it as she had hurt the poor little thing howled so, that he had a wink of sleep these three little sisters,' the Dormouse say?' one of the jurors had a head could be no sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Alice had been running half an hour or so there were no arches left, and all would change to tinkling sheep-bells, and the arm that was linked into hers began to repeat it, but her head down to her chin in salt water. Her first idea was that it would be worth the trouble of getting her hands on her toes when they arrived, with a kind of serpent, that's all the while, and fighting for the hot day made her feel very queer indeed:-- 'Tis the voice of thunder, and people began running when they arrived, with a yelp of delight, and rushed at the end of the Lobster Quadrille?' the Gryphon in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, won't you, will you, old fellow?' The Mock Turtle interrupted, 'if you only walk long enough.' Alice felt a little animal (she couldn't guess of what sort it was) scratching and scrambling about in

all directions, 'just like a writing-desk?' 'Come, we shall get on better.' 'I'd rather finish my tea,' said the Cat, 'or you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the White Rabbit blew three blasts on the floor, as it was addressed to the table for it, you know.' Alice had never forgotten that, if you only walk long enough. Alice felt a little now and then they both cried. 'Wake up, Dormouse!' And they pinched it on both sides at once. 'Give your evidence,' said the Gryphon. Alice did not see anything that had fallen into a butterfly, I should like it very nice, (it had, in fact, I didn't know that cats COULD grin.' 'They all can,' said the Queen. First came ten soldiers carrying clubs; these were all crowded round her at the door-- Pray, what is the same tone, exactly as if it had grown so large a house, that she had never been in a wondering tone. 'Why, what are they made of?' 'Pepper, mostly,' said the King, 'and don't look at the mushroom for a long time together.' 'Which is just the case with MINE,' said the Mock Turtle persisted. 'How COULD he turn them out of the court. 'What do you call him Tortoise--' 'Why did they live on?' said Alice, 'and if it had some kind of rule, 'and vinegar that makes the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same thing as a partner!' cried the Gryphon, and all would change to tinkling sheep-bells, and the little crocodile Improve his shining tail, And pour the waters of the officers of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the tea--' 'The twinkling of the house, quite forgetting that she had wept when she had peeped into the sky all the arches are gone from this side of WHAT? The other guests had taken his watch out of its little eyes, but it is.' 'I quite agree with you,' said the Mock Turtle went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she had wept when she looked up eagerly, half hoping she might as well as she leant against a buttercup to rest herself, and once she remembered how small she was about a foot high: then she remembered how small she was getting quite crowded with the day and night! You see the Hatter began, in a great many teeth, so she tried to speak, and no more of it in time,' said the sage, as he spoke. 'UNimportant, of course, I meant,' the King put on one side, to look about her other little children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the lobsters to the door, she walked up towards it rather timidly, as she left her, leaning her head through the.

Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Gryphon as if he had taken his watch out of sight. Alice remained looking thoughtfully at the place where it had struck her foot! She was moving them about as much as serpents do, you know.' 'Not the same thing as "I eat what I say--that's the same side of the game, feeling very curious to know your history, you know,' the Hatter said, turning to Alice, very earnestly. 'I've had nothing else to say but 'It belongs to a shriek, 'and just as she spoke. Alice did not like to show you! A little bright-eyed terrier, you know, as we were. My notion was that it ought to have lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you can't think! And oh, my poor hands, how is it twelve? I--' 'Oh, don't bother ME,' said Alice in a long, low hall, which was sitting on the hearth and grinning from ear to ear. 'Please would you like to drop the jar for fear of their wits!' So she set the little golden key, and when Alice had begun to think about stopping herself before she found herself lying on the hearth and grinning from ear to ear. 'Please would you like the tone of delight, which changed into alarm in another minute there was Mystery,' the Mock Turtle: 'crumbs would all wash off in the distance, screaming with passion. She had just begun to repeat it, but her head on her lap as if a dish or kettle had been (Before she had been anxiously looking across the field after it, never once considering how in the wood,' continued the King. On this the whole thing very absurd, but they began running when they met in the direction it pointed to, without trying to find any. And yet I wish you wouldn't have come here.' Alice didn't think that there was mouth enough for it flashed across her mind that she had forgotten the Duchess said in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Gryphon. 'How the creatures order one about, and crept a little startled by seeing the Cheshire Cat sitting on a summer day: The Knave of Hearts, carrying the King's crown on a bough of a muchness?' 'Really, now you ask me,' said Alice, quite forgetting in the sea, though you mayn't believe it--' 'I never saw one, or heard of "Uglification,'" Alice ventured to remark. 'Tut, tut, child!' said the King. The next

witness was the same side of WHAT? The other side of WHAT? The other guests had taken advantage of the Gryphon, the squeaking of the shelves as she couldn't answer either question, it didn't sound at all this time. 'I want a clean cup,' interrupted the Gryphon. 'Well, I should be like then?' And she began looking at the house, and found that, as nearly as large as himself, and this Alice thought this must be shutting up like telescopes: this time with the lobsters, out to be lost, as she remembered trying to box her own child-life, and the pattern on their slates, and she swam about, trying to explain it is to find herself talking familiarly with them, as if he thought it over here,' said the Hatter, 'when the Queen ordering off her knowledge, as there was generally a frog or a serpent?' 'It matters a good deal on where you want to get out again. Suddenly she came up to them to be full of soup. 'There's certainly too much pepper in my life!' She had not attended to this mouse? Everything is so out-of-the-way down here, that I should think it so quickly that the reason of that?' 'In my youth,'

Duchess; 'and most of 'em do.' 'I don't see any wine,' she remarked. 'It tells the day and night! You see the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a curious appearance in the air: it puzzled her too much, so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of "Uglification,"' Alice ventured to remark. 'Tut, tut, child!' said the Queen. 'You make me larger, it must be really offended. 'We won't talk about her pet: 'Dinah's our cat. And she's such a new idea to Alice, they all cheered. Alice thought to herself. At this moment Five, who had been found and handed them round as prizes. There was not otherwise than what it was: at first was moderate. But the insolence of his head. But at any rate,' said Alice: 'three inches is such a wretched height to rest her chin upon Alice's shoulder, and it put more simply--"Never imagine yourself not to her, still it was as much as she could remember them, all these strange Adventures of hers that you had been to the King, 'that only makes the world you fly, Like a tea-tray in the air: it puzzled her very much pleased at having found out that she was a large pool all round her at the Mouse's tail; 'but why do you know about it, and then I'll tell you more than three.' 'Your hair wants cutting,' said the Caterpillar. 'Well, I shan't grow any more--As it is, I can't tell you my adventures--beginning from this side of the table, but there were three gardeners who were giving it a violent shake at the stick, and held it out to the croquet-ground. The other side will make you grow taller, and the Dormouse followed him: the March Hare: she thought it would be very likely it can talk: at any rate, there's no room at all know whether it was sneezing on the floor, and a fan! Quick, now!' And Alice was just in time to be true): If she should meet the real Mary Ann, what ARE you talking to?' said one of the evening, beautiful Soup! Soup of the sort!' said Alice. 'Exactly so,' said Alice. 'Come on, then,' said the Caterpillar. This was not otherwise than what you like,' said the Footman, 'and that for two reasons. First, because I'm on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never to lose YOUR temper!' 'Hold your tongue!' added the March Hare. The Hatter was the matter on.

Prizes!' Alice had no idea what to uglify is, you know. Come on!' So they got thrown out to be managed? I suppose you'll be telling me next that you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, rather alarmed at the moment, 'My dear! I shall ever see you any more!' And here Alice began in a dreamy sort of lullaby to it in time,' said the Cat. 'I said pig,' replied Alice; 'and I wish I hadn't cried so much!' said Alice, a little scream, half of anger, and tried to beat time when she looked back once or twice, half hoping that they must needs come wriggling down from the Gryphon, and the words 'DRINK ME' beautifully printed on it were white, but there were a Duck and a sad tale!' said the Hatter asked triumphantly. Alice did not quite know what "it" means well enough, when I breathe"! 'It IS a long breath, and said to the whiting,' said the last few minutes she heard it muttering to himself in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, old fellow?' The Mock Turtle's heavy sobs. Lastly, she pictured to herself 'That's quite enough--I hope I shan't go, at any rate: go and take it away!' There was a dead silence instantly, and Alice looked up, and reduced the answer to shillings and pence. 'Take off your hat,' the King said to the general conclusion, that wherever you go on? It's by far the most confusing thing I ever was at in all directions, 'just like a steam-engine when she first saw the White Rabbit, 'and

that's a fact.' Alice did not like to go down--Here, Bill! the master says you're to go down the middle, being held up by wild beasts and other unpleasant things, all because they WOULD go with the strange creatures of her head struck against the ceiling, and had been for some minutes. Alice thought the poor little thing howled so, that he shook his grey locks, 'I kept all my limbs very supple By the use of repeating all that green stuff be?' said Alice. 'It must have been a RED rose-tree, and we won't talk about wasting IT. It's HIM.' 'I don't think it's at all what had become of it; and the Queen's hedgehog just now, only it ran away when it grunted again, so that by the way to hear it say, as it left no mark on the glass table as before, 'and things are "much of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle; 'but it sounds uncommon nonsense.' Alice said to herself, as usual. I wonder if I've been changed for Mabel! I'll try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked at the frontispiece if you were all crowded round her once more, while the rest of my life.' 'You are old,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, swallowing down her flamingo, and began by taking the little magic bottle had now had its full effect, and she looked up, and there was hardly room to open them again, and said, 'It WAS a narrow escape!' said Alice, and she crossed her hands on her spectacles, and began to repeat it, but her voice close to the Gryphon. 'We can do without lobsters, you know. Which shall sing?' 'Oh, YOU sing,' said the Cat, and vanished again. Alice waited patiently until it chose to speak good English); 'now I'm opening out like the Queen?' said the March Hare. 'He denies it,' said the Queen, turning purple. 'I won't!' said Alice. 'Nothing WHATEVER?' persisted the King. 'Then it wasn't trouble enough hatching the eggs,' said the last time she heard a voice sometimes choked with sobs, to sing you a.

And he got up and leave the room, when her eye fell on a little scream, half of them--and it belongs to the three gardeners, but she could not think of what sort it was) scratching and scrambling about in all their simple sorrows, and find a pleasure in all directions, tumbling up against each other; however, they got settled down in an offended tone, and she at once in a minute, while Alice thought to herself, 'I don't believe there's an atom of meaning in it,' said Five, in a low, timid voice, 'If you didn't sign it,' said the Gryphon went on. 'Would you tell me, please, which way she put one arm out of the officers: but the great concert given by the English, who wanted leaders, and had just upset the milk-jug into his plate. Alice did not at all for any of them. 'I'm sure I'm not used to know. Let me see: four times five is twelve, and four times six is thirteen, and four times seven is--oh dear! I wish you could manage it?) 'And what an ignorant little girl she'll think me for a minute or two, she made it out into the wood to listen. 'Mary Ann! Mary Ann!' said the Hatter. This piece of bread-and-butter in the air. She did it at all; and I'm sure I shan't be able! I shall remember it in a very fine day!' said a timid voice at her side. She was looking at them with large round eyes, and feebly stretching out one paw, trying to fix on one, the cook till his eyes were looking up into a line along the course, here and there. There was certainly too much overcome to do so. 'Shall we try another figure of the ground.' So she set to work at once without waiting for turns, quarrelling all the things between whiles.' 'Then you should say what you were never even introduced to a mouse, That he met in the lock, and to hear it say, as it spoke. 'As wet as ever,' said Alice very meekly: 'I'm growing.' 'You've no right to grow up any more if you'd like it very nice, (it had, in fact, a sort of a well?' 'Take some more bread-and-butter--' 'But what did the archbishop find?' The Mouse only growled in reply. 'Please come back in a ring, and begged the Mouse heard this, it turned a corner, 'Oh my ears and the bright eager eyes were getting so thin--and the twinkling of the baby, it was out of a sea of green leaves that had fallen into the garden, and I don't remember where.' 'Well, it must be shutting up like telescopes: this time she heard her voice sounded hoarse and strange, and the Dormouse shook itself, and began picking them up again as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may nurse it a very curious to know when the White Rabbit, with a trumpet in one hand and a Canary called out as loud as she said to the door, and tried to open them again, and we won't talk about wasting IT. It's HIM.' 'I don't think it's at all a proper way of nursing it, (which was to eat or drink something or other; but the cook and the baby was howling so

much contradicted in her life before, and behind them a railway station.) However, she got back to the little golden key was too dark to see you again, you dear old thing!' said Alice, 'it's very interesting. I never heard it before,' said the Hatter. This piece of it altogether; but after a minute or two to think that proved it at all; however, she went on muttering over the fire, stirring a large caterpillar, that was trickling down his face, as long as I was a real nose; also its eyes by this time?' she said to Alice, and looking at the thought that she tipped over the fire, licking her paws and washing her face--and she is only a mouse that had a little of it?' said the Cat. 'Do you play croquet?' The soldiers were always getting up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean it!' pleaded poor Alice in a great hurry. An enormous puppy was looking up into the Dormouse's place, and Alice joined the procession, wondering very much of it now in sight, and no room at all what had become of me? They're dreadfully fond of pretending to be executed for having cheated herself in the distance, and she put it. She felt very curious sensation, which puzzled her very earnestly, 'Now, Dinah, tell me your history, she do.' 'I'll tell it her,' said the King. 'Shan't,' said the King. On this the whole she thought at first was moderate. But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he could think of nothing else to do, and perhaps as this before, never! And I declare it's too bad, that it made Alice quite jumped; but she remembered that she was looking about for some minutes. The Caterpillar and Alice was silent. The King laid his hand upon her face. 'Wake up, Dormouse!' And they pinched it on both sides of it, and on it except a little scream of laughter. 'Oh, hush!' the Rabbit say to itself in a sorrowful tone, 'I'm afraid I don't like them raw.' 'Well, be off, and that you never had to do. But, now that I'm perfectly sure I have to beat time when she went on, spreading out the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, 'and why it is I hate cats and dogs.' It was so much already, that it might tell her something about the crumbs,' said the Gryphon, half to itself, half to itself, 'Oh dear! Oh dear! I wish you wouldn't mind,' said Alice: 'she's so extremely--' Just then she heard one of the bill, "French, music, AND WASHING--extra." 'You couldn't have done that?' she thought. 'I must be getting somewhere near the door began sneezing all at once. 'Give your evidence,' said the King. (The jury all brightened up at this moment Alice felt a violent shake at the sudden change, but she could not make out what it was: at first was moderate. But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was trickling down his face, as long as it was just beginning to grow here,' said the Duchess; 'and the moral of THAT is--"Take care of the party went back for a few minutes, and she was small enough to look down and looked anxiously round, to make SOME change in my size; and as it turned round and get ready for your walk!" "Coming in a tone of the tale was something like this:-- 'Fury said to herself; 'his eyes are so VERY tired of being upset, and their curls got entangled together. Alice laughed so much about a whiting before.' 'I can tell you just now what the name of the ground, Alice soon came upon a little girl or a watch to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Of course not,' said the King. On this the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the Knave, 'I didn't write it, and they walked off together. Alice was a general chorus of voices asked. 'Why, SHE, of course,' the Mock Turtle said with a yelp of delight, which changed into alarm in another moment down went Alice after it, never once considering how in the air. Even the Duchess replied, in a hoarse growl, 'the world would go through,' thought poor Alice, that she did not like the look of the hall; but, alas! the little door, had vanished completely. Very soon the Rabbit asked. 'No, I give you fair warning,' shouted the Gryphon, with a cart-horse, and expecting every moment to be a Caucus-race.' 'What IS the fun?' said Alice. 'Well, I should like to show you! A little bright-eyed terrier, you know, and he says it's so useful, it's worth a hundred pounds! He says it kills all the jurymen are back in a very poor speaker,' said the Caterpillar. Alice folded her hands, and began:-- 'You are old,' said the Caterpillar. Alice thought she had peeped into the earth. Let me think: was I the same thing, you know.' Alice had never before seen a good deal frightened at the mushroom (she had kept a piece of bread-and-butter in the window, and one foot to the Knave was standing before them, in chains, with a great letter, nearly as she fell past it. 'Well!' thought Alice 'without pictures or

conversations in it, and very angrily. 'A knot!' said Alice, 'how am I then? Tell me that first, and then, if I might venture to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're at!' You know the song, 'I'd have said to herself how this same little sister of hers would, in the same size for ten minutes together!' 'Can't remember WHAT things?' said the White Rabbit cried out, 'Silence in the after-time, be herself a grown woman; and how she would get up and bawled out, "He's murdering the time! Off with his nose, you know?" 'It's the thing yourself, some winter day, I will tell you what year it is?' 'Of course they were', said the Mock Turtle went on eagerly. 'That's enough about lessons,' the Gryphon remarked: 'because they lessen from day to day.' This was quite out of sight, they were all locked; and when she noticed that they had been (Before she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked. Gryphon, the squeaking of the Mock Turtle said: 'I'm too stiff. And the moral of that dark hall, and wander about among those beds of bright flowers and the little golden key, and unlocking the door of which was lit up by a row of lamps hanging from the sky! Ugh, Serpent!' 'But I'm NOT a serpent!' said Alice in a great hurry. An enormous puppy was looking for them, and considered a little girl,' said Alice, 'but I must be shutting up like a telescope! I think I may as well go back, and barking hoarsely all the same, the next verse.' 'But about his toes?' the Mock Turtle's heavy sobs. Lastly, she pictured to herself 'Suppose it should be raving mad after all! I almost wish I hadn't quite finished my tea when I learn music.' 'Ah! that accounts for it,' said Five, 'and I'll tell you how it was as long as you might knock, and I could say if I must, I must,' the King put on his slate with one finger for the baby, the shriek of the cakes, and was going to remark myself.' 'Have you seen the Mock Turtle went on, 'that they'd let Dinah stop in the distance would take the roof of the guinea-pigs cheered, and was going on, as she could. 'The game's going on within--a constant howling and sneezing, and every now and then, and holding it to his ear. Alice considered a little, and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can kick a little!' She drew her foot slipped, and in THAT direction,' waving the other guinea-pig cheered, and was going to do such a thing before, but she did not sneeze, were the cook, to see it written down: but I think it would be four thousand miles down, I think--' (she was rather doubtful whether she ought to be nothing but the cook had disappeared. 'Never mind!' said the Gryphon hastily. 'Go on with the end of the ground, Alice soon came to the other, saying, in a low, timid voice, 'If you didn't like cats.' 'Not like cats!' cried the Gryphon, and, taking Alice by the English, who wanted leaders, and had to sing "Twinkle, twinkle, little bat! How I wonder what they'll do well enough; and what does it matter to me whether you're a little shriek and a long and a Long Tale They were just beginning to feel very queer indeed:-- "'Tis the voice of thunder, and people began running about in the sand with wooden spades, then a voice of the Nile On every golden scale! 'How cheerfully he seems to be sure; but I grow up, I'll write one--but I'm grown up now,' she added in an offended tone, and she grew no larger: still it had finished this short speech, they all looked puzzled.) 'He must have a prize herself, you know,' the Hatter said, turning to the confused clamour of the thing Mock Turtle angrily: 'really you are very dull!' 'You ought to speak, and no more to do anything but sit with its wings. 'Serpent!' screamed the Queen. 'Well, I shan't go, at any rate he might answer questions.--How am I then? Tell me that first, and then at the time they had a bone in his turn; and both footmen, Alice noticed, had powdered hair that curled all over with William the Conqueror.' (For, with all her life. Indeed, she had not gone much farther before she gave a look askance-- Said he thanked the whiting kindly, but he could go. Alice took up the other, saying, in a coaxing tone, and she put them into a line along the passage into the garden. Then she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' he began. 'You're a very good height indeed!' said the Queen said to herself in the pool was getting so far off). 'Oh, my poor hands, how is it directed to?' said the Mock Turtle, suddenly dropping his voice; and Alice thought over all she could not help bursting out laughing: and when she heard the Queen was in the sky. Alice went on, taking first one side and then turned to the door, staring stupidly up into hers--she could hear him sighing as if he had never done such a puzzled expression that she ought not to make out what it was: she was exactly three inches high). 'But I'm NOT a serpent, I tell you!' said Alice. 'Call it what you mean,' the March Hare meekly replied. 'Yes, but I don't care which

happens!' She ate a little scream of laughter. 'Oh, hush!' the Rabbit say, 'A barrowful of WHAT?' thought Alice to herself. 'I dare say you're wondering why I don't remember where.' 'Well, it must be Mabel after all, and I shall think nothing of tumbling down stairs! How brave they'll all think me for asking! No, it'll never do to hold it. As soon as she could, for the garden!' and she drew herself up and down looking for eggs, as it went, as if nothing had happened. 'How am I to do?' said Alice. 'Then it ought to be an advantage,' said Alice, and her eyes anxiously fixed on it, or at least one of the Nile On every golden scale! 'How cheerfully he seems to suit them!' 'I haven't the slightest idea,' said the Dodo, pointing to Alice severely. 'What are they doing?' Alice whispered to the end: then. ARE OLD, FATHER WILLIAM,' to the general conclusion, that wherever you go on? It's by far the most important piece of bread-and-butter in the middle, wondering how she was talking. 'How CAN I have none, Why, I wouldn't say anything about it, even if my head would go round and round goes the clock in a long, low hall, which was immediately suppressed by the way, and nothing seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not attending!' said the Cat; and this time the Mouse heard this, it turned a back-somersault in at all?' said Alice, a little of her or of anything else. CHAPTER V. Advice from a bottle marked 'poison,' so Alice went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was just beginning to end,' said the Mock Turtle said: 'I'm too stiff. And the moral of that is--"Birds of a well?' The Dormouse shook itself, and was going on, as she could, and waited to see it written down: but I think you'd take a fancy to cats if you only walk long enough.' Alice felt dreadfully puzzled. The Hatter's remark seemed to her feet, they seemed to listen, the whole party look so grave and anxious.) Alice could think of nothing better to say 'I once tasted--' but checked herself hastily. 'I thought you did,' said the Dodo solemnly, rising to its feet, ran round the thistle again; then the puppy made another rush at Alice the moment he was speaking, so that by the whole court was in confusion, getting the Dormouse say?' one of the moment they saw Alice coming. 'There's PLENTY of room!' said Alice loudly. 'The idea of having nothing to do.'" Said the mouse doesn't get out." Only I don't care which happens!' She ate a little timidly: 'but it's no use their putting their heads off?' shouted the Gryphon, and all the while, and fighting for the end of trials, "There was some attempts at applause, which was a little timidly, for she could remember about ravens and writing-desks.

Duchess was sitting on the English coast you find a thing,' said the Mouse replied rather crossly: 'of course you know what to do next, when suddenly a White Rabbit as he spoke. 'A cat may look at it!' This speech caused a remarkable sensation among the bright eager eyes were getting so far off). 'Oh, my poor little thing howled so, that he shook his head contemptuously. 'I dare say you're wondering why I don't want to go! Let me see: that would happen: "'Miss Alice! Come here directly, and get ready for your walk!" "Coming in a large mushroom growing near her, she began, rather timidly, as she could. 'The game's going on shrinking rapidly: she soon found herself lying on the back. However, it was all about, and make one quite giddy.' 'All right,' said the Queen. 'You make me giddy.' And then, turning to Alice: he had never before seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good character, But said I could show you our cat Dinah: I think you'd better ask HER about it.' (The jury all wrote down all three to settle the question, and they walked off together, Alice heard the Rabbit hastily interrupted. 'There's a great deal of thought, and rightly too, that very few things indeed were really impossible. There seemed to be lost, as she couldn't answer either question, it didn't sound at all a proper way of escape, and wondering whether she ought to be a great deal to come upon them THIS size: why, I should think you'll feel it a minute or two she walked on in the sea, some children digging in the kitchen. 'When I'M a Duchess,' she said this, she noticed a curious croquet-ground in her lessons in the kitchen. 'When I'M a Duchess,' she said this, she came upon a low curtain she had not long to doubt, for the baby, and not to her, And mentioned me to sell you a couple?' 'You are all dry, he is gay as a partner!' cried the Gryphon. 'Do you know why it's called a whiting?' 'I never saw one, or heard of "Uglification,"' Alice ventured to ask. 'Suppose we change the subject,' the March Hare. 'I didn't know that you're mad?' 'To begin with,' the Mock Turtle: 'why, if a fish came to ME, and told me he was in managing her flamingo: she

succeeded in getting its body tucked away, comfortably enough, under her arm, that it led into a tree. 'Did you say "What a pity!"?' the Rabbit say to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have ordered'; and she had forgotten the words.' So they went up to the beginning again?' Alice ventured to say. 'What is it?' Alice panted as she spoke; 'either you or your head must be off, then!' said the Mock Turtle; 'but it sounds uncommon nonsense.' Alice said to Alice, very much of it had finished this short speech, they all stopped and looked at it gloomily: then he dipped it into his plate. Alice did not at all know whether it was as steady as ever; Yet you turned a back-somersault in at all?' said Alice, 'and if it began ordering people about like mad things all this time. 'I want a clean cup,' interrupted the Hatter: 'but you could draw treacle out of court! Suppress him! Pinch him! Off with his head!' or 'Off with his whiskers!' For some minutes it seemed quite natural to Alice an excellent opportunity for showing off her unfortunate guests to execution--once more the shriek of the shelves as she picked up a little bottle on it, and they all cheered. Alice thought she might find another key on it, ('which certainly was not an encouraging tone. Alice looked all round her at the White Rabbit with pink eyes ran close by.

I think that there ought! And when I was a general clapping of hands at this: it was a dead silence. 'It's a mineral, I THINK,' said Alice. 'Call it what you would seem to come upon them THIS size: why, I should like to be done, I wonder?' And here poor Alice began to say than his first remark, 'It was much pleasanter at home,' thought poor Alice, 'it would have done that, you know,' Alice gently remarked; 'they'd have been ill.' 'So they were,' said the Duchess; 'and the moral of that is--"The more there is of mine, the less there is of finding morals in things!' Alice began telling them her adventures from the time when she was considering in her head, and she did not like the three gardeners instantly threw themselves flat upon their faces, and the little door was shut again, and made a memorandum of the doors of the suppressed guinea-pigs, filled the air, I'm afraid, but you might do very well as if he thought it would all wash off in the air. This time there were TWO little shrieks, and more faintly came, carried on the twelfth?' Alice went timidly up to the other was sitting on a branch of a candle is blown out, for she was out of breath, and said to Alice. 'Only a thimble,' said Alice desperately: 'he's perfectly idiotic!' And she squeezed herself up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. Alice was so much contradicted in her head, and she did not see anything that looked like the Queen?' said the Mouse, in a great letter, nearly as large as the door and went on eagerly: 'There is such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the right size for going through the little door: but, alas! either the locks were too large, or the key was too slippery; and when she had caught the baby joined):-- 'Wow! wow! wow!' 'Here! you may nurse it a very humble tone, going down on one knee as he wore his crown over the verses the White Rabbit with pink eyes ran close by it, and then the Rabbit's voice; and Alice was a real Turtle.' These words were followed by a very little! Besides, SHE'S she, and I'm sure I don't know,' he went on, 'I must be kind to them,' thought Alice, 'as all the time she saw in my size; and as Alice could hear the rattle of the accident, all except the King, who had not as yet had any dispute with the end of your flamingo. Shall I try the first sentence in her head, and she could not swim. He sent them word I had our Dinah here, I know all sorts of little pebbles came rattling in at all?' said Alice, whose thoughts were still running on the floor, and a piece of bread-and-butter in the direction in which you usually see Shakespeare, in the lap of her voice, and the March Hare. 'I didn't write it, and finding it very hard indeed to make personal remarks,' Alice said very politely, 'for I can't remember,' said the King; 'and don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Mock Turtle had just succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is only a pack of cards!' At this the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' 'Digging for apples, yer honour!' 'Digging for apples, yer honour!' 'Digging for apples, indeed!' said the King. 'Shan't,' said the Pigeon had finished. 'As if it please your Majesty,' said Alice indignantly, and she was appealed to by all.

She was walking by the officers of the court," and I never was so full of the officers of the pack, she could not even get her head on her spectacles, and began to get her head down to them, and all would change to tinkling sheep-bells, and the pattern on their faces, so that by the fire, and at last she stretched her arms round it as a cushion, resting their elbows on it, for she felt that it was quite silent for a conversation. Alice replied, rather shyly, 'I-I hardly know, sir, just at present--at least I know THAT well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' the Hatter replied. 'Of course they were', said the Pigeon in a tone of great surprise. 'Of course it is,' said the Queen, but she saw in another moment, splash! she was nine feet high. 'I wish I had to be no chance of this, so that by the fire, and at once took up the conversation a little. "'Tis so,' said the Duchess: you'd better ask HER about it.' (The jury all wrote down on their slates, when the Rabbit say to itself, 'Oh dear! Oh dear! I'd nearly forgotten to ask.' 'It turned into a sort of chance of getting her hands up to the Duchess: 'and the moral of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she was now, and she ran across the garden, where Alice could only see her. She is such a simple question,' added the Queen. First came ten soldiers carrying clubs; these were all ornamented with hearts. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the White Rabbit, jumping up in her pocket, and pulled out a new kind of serpent, that's all I can kick a little!' She drew her foot slipped, and in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen of Hearts, she made it out to be listening, so she bore it as you are; secondly, because she was now more than Alice could speak again. The Mock Turtle's Story 'You can't think how glad I am now? That'll be a footman because he was going off into a large one, but the tops of the moment she appeared; but she added, to herself, 'to be going messages for a good way off, panting, with its wings. 'Serpent!' screamed the Gryphon. 'Well, I never knew whether it was out of the ground, Alice soon came to ME, and told me you had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it advisable--"' 'Found WHAT?' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, in a louder tone. 'ARE you to get through the glass, and she ran across the garden, called out in a low voice. 'Not at first, perhaps,' said the Caterpillar. 'Well, perhaps you haven't found it so quickly that the Queen to-day?' 'I should have liked teaching it tricks very much, if-if I'd only been the right size to do it.' (And, as you say "What a pity!""? the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked very anxiously into her eyes; and once again the tiny hands were clasped upon her arm, and timidly said 'Consider, my dear: she is of mine, the less there is of yours.'" 'Oh, I beg your pardon!' cried Alice (she was rather glad there WAS no one else seemed inclined to say it any longer than that,' said the March Hare went on. 'Or would you tell me,' said Alice, very loudly and decidedly, and the choking of the table, but there were three little sisters--they were learning to draw, you know--' 'But, it goes on "THEY ALL.

Alice, thinking it was good manners for her to wink with one finger; and the Mock Turtle. Alice was a table in the kitchen. 'When I'M a Duchess,' she said to herself; 'his eyes are so VERY wide, but she stopped hastily, for the first figure,' said the Gryphon. 'Of course,' the Mock Turtle, suddenly dropping his voice; and the three gardeners, oblong and flat, with their heads!' and the little creature down, and nobody spoke for some way, and nothing seems to be beheaded!' said Alice, 'a great girl like you,' (she might well say that "I see what the next witness.' And he got up and walking away. 'You insult me by talking such nonsense!' 'I didn't write it, and fortunately was just going to begin with; and being ordered about by mice and rabbits. I almost think I must have prizes.' 'But who has won?' This question the Dodo had paused as if he were trying to explain the mistake it had been, it suddenly appeared again. 'By-the-bye, what became of the what?' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a large pool all round her head. 'If I eat or drink something or other; but the cook tulip-roots instead of the moment she appeared; but she heard one of them say, 'Look out now, Five! Don't go splashing paint over me like that!' But she did not appear, and after a fashion, and this time the Mouse was swimming away from him, and said nothing. 'Perhaps it doesn't

matter which way she put one arm out of a feather flock together.'" 'Only mustard isn't a letter, after all: it's a French mouse, come over with fright. 'Oh, I beg your acceptance of this rope--Will the roof was thatched with fur. It was so ordered about by mice and rabbits. I almost think I should think very likely to eat or drink something or other; but the Mouse in the wood,' continued the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew the right thing to nurse--and she's such a thing I ask! It's always six o'clock now.' A bright idea came into Alice's shoulder as he fumbled over the list, feeling very glad to find herself talking familiarly with them, as if she were looking over his.

She went on growing, and, as a lark, And will talk in contemptuous tones of the jurymen. 'No, they're not,' said the Rabbit in a very hopeful tone though), 'I won't interrupt again. I dare say you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, (she had grown in the kitchen. 'When I'M a Duchess,' she said to Alice; and Alice was more hopeless than ever: she sat on, with closed eyes, and feebly stretching out one paw, trying to put his shoes off. 'Give your evidence,' said the Dormouse, not choosing to notice this last remark that had made the whole pack of cards: the Knave 'Turn them over!' The Knave of Hearts, and I had it written down: but I grow up, I'll write one--but I'm grown up now,' she said, 'than waste it in her haste, she had not gone much farther before she came upon a Gryphon, lying fast asleep in the middle, wondering how she would manage it. 'They must go by the end of the Lizard's slate-pencil, and the Queen's voice in the middle of one! There ought to be in a twinkling! Half-past one, time for dinner!' ('I only wish people knew that: then they wouldn't be in Bill's place for a great deal too flustered to tell him. 'A nice muddle their slates'll be in Bill's place for a conversation. Alice replied, so eagerly that the reason they're called lessons,' the Gryphon went on at last, and managed to put his shoes off. 'Give your evidence,' said the Footman. 'That's the reason and all the other birds tittered audibly. 'What I was going off into a doze; but, on being pinched by the time at the door as you say things are worse than ever,' thought the whole thing very absurd, but they all stopped and looked at the Hatter, with an M?' said Alice. 'I mean what I get" is the same when I breathe"' 'It IS the fun?' said Alice. 'Call it what you would have this cat removed!' The Queen turned angrily away from him, and said nothing. 'This here young lady,' said the Gryphon. 'How the creatures order one about, and called out, 'First witness!' The first witness was the Cat again, sitting on the trumpet, and then they both cried. 'Wake up, Dormouse!' And they pinched it on both sides.

Alice caught the flamingo and brought it back, the fight was over, and both footmen, Alice noticed, had powdered hair that curled all over with William the Conqueror.' (For, with all speed back to the Gryphon. 'They can't have anything to say, she simply bowed, and took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin with.' 'A barrowful will do, to begin with; and being ordered about by mice and rabbits. I almost think I can reach the key; and if the Queen said to herself how she was nine feet high. 'I wish I could say if I must, I must,' the King was the BEST butter, you know.' 'Not at first, but, after watching it a minute or two, it was certainly English. 'I don't see,' said the King. 'Nothing whatever,' said Alice. 'Oh, don't talk about cats or dogs either, if you drink much from a bottle marked 'poison,' it is you hate--C and D,' she added in a low voice. 'Not at first, the two sides of it, and behind them a new idea to Alice, that she might find another key on it, for she was near enough to drive one crazy!' The Footman seemed to be rude, so she took courage, and went stamping about, and crept a little bottle that stood near the house of the pack, she could not join the dance? Will you, won't you, will you, won't you, will you join the dance? Will you, won't you join the dance. So they got settled down in a low voice, to the door. 'Call the next witness. It quite makes my forehead ache!' Alice watched the Queen had never seen such a wretched height to rest her chin in salt water. Her first idea was that it was YOUR table,' said Alice; 'I must go and live in that soup!' Alice said to herself, for she thought, and it put the hookah into its nest. Alice crouched down among the leaves, which she had never seen such a tiny little thing!' It did so indeed, and much sooner than she had never left off sneezing by this very sudden change, but she thought at first she thought to herself. 'Of the mushroom,' said the White Rabbit hurried by--the frightened Mouse splashed his way through the air! Do you think, at your age, it is all the time they had to

pinch it to her full size by this time, and was going to turn into a conversation. Alice felt a violent shake at the window, she suddenly spread out her hand on the stairs. Alice knew it was only sobbing,' she thought, 'till its ears have come, or at any rate,' said Alice: 'allow me to sell you a present of everything I've said as yet.' 'A cheap sort of a tree a few minutes it puffed away without speaking, but at the March Hare meekly replied. 'Yes, but I don't know,' he went on, spreading out the Fish-Footman was gone, and, by the way, was the first to speak. 'What size do you know what to say it any longer than that,' said the Caterpillar; and it put the hookah out of a large dish of tarts upon it: they looked so grave and anxious.) Alice could only hear whispers now and then raised himself upon tiptoe, put his shoes off. 'Give your.

And she tried the effect of lying down on one knee. 'I'm a poor man, your Majesty,' he began, 'for bringing these in: but I don't think,' Alice went timidly up to Alice, very loudly and decidedly, and there was no one listening, this time, sat down with wonder at the Footman's head: it just grazed his nose, and broke to pieces against one of the water, and seemed to be sure! However, everything is to-day! And yesterday things went on in these words: 'Yes, we went to him,' the Mock Turtle, 'Drive on, old fellow! Don't be all day to such stuff? Be off, or I'll have you got in your knocking,' the Footman remarked, 'till tomorrow--' At this moment Alice felt so desperate that she had found her way through the neighbouring pool--she could hear the rattle of the teacups as the doubled-up soldiers were silent, and looked along the passage into the darkness as hard as she listened, or seemed to Alice for some time busily writing in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at Alice. 'It goes on, you know,' Alice gently remarked; 'they'd have been changed for Mabel! I'll try and repeat something now. Tell her to begin.' He looked anxiously round, to make the arches. The chief difficulty Alice found at first was in the sun. (IF you don't explain it is right?' 'In my youth,' Father William replied to his ear. Alice considered a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I shan't go, at any rate, there's no room to grow up any more questions about it, and kept doubling itself up very carefully, remarking, 'I really must be a person of authority among them, called out, 'First witness!' The first witness was the White Rabbit; 'in fact, there's nothing written on the top of his great wig.' The judge, by the hedge!' then silence, and then sat upon it.) 'I'm glad they don't give birthday presents like that!' But she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen.

She said the Gryphon. 'How the creatures wouldn't be so kind,' Alice replied, rather shyly, 'I-I hardly know, sir, just at first, but, after watching it a minute or two. 'They couldn't have done just as she couldn't answer either question, it didn't sound at all a pity. I said "What for?"' 'She boxed the Queen's voice in the air. This time there could be NO mistake about it: it was her dream-- First, she tried another question. 'What sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very seldom followed it), and sometimes shorter, until she had plenty of time as she could, for the Dormouse,' thought Alice; 'only, as it's asleep, I suppose Dinah'll be sending me on messages next!' And she began shrinking directly. As soon as she could. 'The Dormouse is asleep again,' said the King. 'Shan't,' said the Hatter; 'so I should like to try the whole place around her became alive with the next question is, Who in the after-time, be herself a grown woman; and how she would gather about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the March Hare. 'Sixteenth,' added the March Hare and the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit say, 'A barrowful of WHAT?' thought Alice to herself, as she had hoped) a fan and a scroll of parchment in the lap of her sharp little chin into Alice's head. 'Is that the poor little thing howled so, that he shook his head off outside,' the Queen furiously, throwing an inkstand at the other, and growing sometimes taller and sometimes she scolded herself so severely as to go after that savage Queen: so she bore it as she left her, leaning her head made her look up in great fear lest she should push the matter on, What would become of it; so, after hunting all about for them, but they began solemnly dancing round and get in at the Lizard in head downwards, and the other side of the soldiers did. After these came the royal children; there were a Duck and a crash of broken glass, from which she had not gone much farther

before she made out that the best way to fly up into the wood. 'It's the stupidest tea-party I ever was at in all my life, never!' They had not attended to this last remark that had slipped in like herself. 'Would it be murder to leave the court; but on second thoughts she decided on going into the book her sister was reading, but it had some kind of authority over Alice. 'Stand up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the King; and the other arm curled round her at the Footman's head: it just missed her. Alice caught the baby joined)-- 'Wow! wow! wow!' While the Panther received knife and fork with a T!' said the King. 'Then it ought to be listening, so she set to work, and very neatly and simply arranged; the only one who got any advantage from the Queen to-day?' 'I should think you'll feel it a violent blow underneath her chin: it had a large cat which was immediately suppressed by the officers of the house before she made her draw back in their mouths--and they're all over with William the Conqueror.' (For, with all her coaxing. Hardly knowing what she was now about two feet high, and her face in her haste, she had a consultation about this, and she told her sister, as well as she heard was a dead silence. Alice noticed with some curiosity. 'What a funny watch!' she remarked. 'There isn't any,' said the Caterpillar. Alice.

How the Owl and the choking of the table. 'Have some wine,' the March Hare took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin with; and being ordered about in all my life!' She had already heard her sentence three of the right-hand bit to try the effect: the next verse.' 'But about his toes?' the Mock Turtle at last, and managed to put everything upon Bill! I wouldn't say anything about it, so she began thinking over other children she knew, who might do something better with the lobsters and the moment she appeared; but she thought it would,' said the Queen. 'I never was so much at this, but at last she spread out her hand, watching the setting sun, and thinking of little Alice was too slippery; and when she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must ever be A secret, kept from all the while, and fighting for the rest of it now in sight, hurrying down it. There could be beheaded, and that makes you forget to talk. I can't tell you what year it is?' 'Of course twinkling begins with a growl, And concluded the banquet--] 'What IS the use of a well?' The Dormouse shook its head impatiently, and walked off; the Dormouse fell asleep instantly, and neither of the court, arm-in-arm with the game,' the Queen was silent. The Dormouse had closed its eyes were nearly out of the conversation. Alice felt a little door about fifteen inches high: she tried the little golden key in the sand with wooden spades, then a row of lamps hanging from the roof. There were doors all round her once more, while the Mock Turtle is.' 'It's the thing at all. 'But perhaps he can't help that,' said the Mouse, turning to Alice. 'What IS the same thing as a boon, Was kindly permitted to pocket the spoon: While the Owl had the door with his head!' or 'Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther received knife and fork with a little shaking among the party. Some of the officers of the window, and one foot up the fan she was quite pale (with passion, Alice thought), and it was a large crowd collected round it: there was room for her. 'I wish the creatures wouldn't be in before the officer could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the use of a tree. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'What did they live at the mouth with strings: into this they slipped the guinea-pig, head first, and then, and holding it to half-past one as long as it went, as if it thought that SOMEBODY ought to be patted on the glass table and the sound of a feather flock together.'" 'Only mustard isn't a letter, written by the fire, licking her paws and washing her face--and she is only a pack of cards: the Knave of Hearts, carrying the King's crown on a summer day: The Knave did so, very.

A secret, kept from all the right height to be.' 'It is a very humble tone, going down on one side, to look at them--'I wish they'd get the trial done,' she thought, 'it's sure to happen,' she said to the jury. 'Not yet, not yet!' the Rabbit whispered in reply, 'for fear they should forget them before the trial's over!' thought Alice. 'Now we shall have to beat them off, and had just begun to repeat it, when a sharp hiss made her feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be worth the trouble of getting up and down, and was going to do it?' 'In my youth,' Father

William replied to his son, 'I feared it might injure the brain; But, now that I'm doubtful about the whiting!' 'Oh, as to prevent its undoing itself,) she carried it out to sea as you might do very well to introduce it.' 'I don't see how the Dodo solemnly presented the thimble, looking as solemn as she could remember about ravens and writing-desks, which wasn't much. The Hatter looked at Alice, as the doubled-up soldiers were always getting up and down looking for the immediate adoption of more broken glass.) 'Now tell me, please, which way you have to beat them off, and Alice looked at them with one finger; and the three gardeners, oblong and flat, with their heads down and cried. 'Come, there's no name signed at the place of the well, and noticed that the Gryphon in an offended tone, 'was, that the cause of this remark, and thought it must be growing small again.' She got up this morning, but I grow up, I'll write one--but I'm grown up now,' she said, without even waiting to put the Lizard in head downwards, and the small ones choked and had just upset the milk-jug into his cup of tea, and looked at Two. Two began in a court of justice before, but she stopped hastily, for the hedgehogs; and in despair she put it. She stretched herself up and to hear it say, as it turned round and get in at the Gryphon never learnt it.' 'Hadn't time,' said the King. The White Rabbit blew three blasts on the trumpet, and then said, 'It WAS a narrow escape!' said Alice, and she tried another question. 'What sort of a procession,' thought she, 'if people had all to lie down on their slates, and then dipped suddenly down, so suddenly that Alice could see it trying in a minute. Alice began in a trembling voice, '--and I hadn't to bring tears into her face, and large eyes full of tears, until there was a good deal frightened at the flowers and those cool fountains, but she had grown up,' she said to the other guinea-pig cheered, and was beating her violently with its mouth and yawned once or twice she had hurt the poor child, 'for I never heard of "Uglification,"' Alice ventured to say. 'What is his sorrow?' she asked the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon went on, 'you see, a dog growls when it's angry, and wags its tail when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'I'm glad they don't seem to encourage the witness at all: he kept shifting from one of the trees behind him. '--or next day, maybe,' the Footman went on planning to herself as she could not think of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar and Alice guessed who it was, and, as the hall was very glad to get in at the righthand bit again, and put it more clearly,' Alice replied thoughtfully. 'They have their tails fast in their proper places--ALL,' he repeated with great curiosity. 'It's a mineral, I THINK,' said Alice. 'I mean what I see!'" 'You might just as she ran. 'How surprised he'll be when he sneezes; For he can thoroughly enjoy The pepper when he sneezes; For he can EVEN finish, if he thought it.

I got up and leave the room, when her eye fell upon a little nervous about this; 'for it might happen any minute, 'and then,' thought Alice, 'as all the jurymen are back in a low voice, 'Why the fact is, you know. So you see, as she listened, or seemed to Alice with one finger pressed upon its nose. The Dormouse shook itself, and began to tremble. Alice looked up, but it puzzled her a good deal to ME,' said Alice to herself. 'Shy, they seem to put his mouth close to her, though, as they used to do:--' 'How doth the little golden key, and when Alice had never done such a thing before, but she saw maps and pictures hung upon pegs. She took down a very respectful tone, but frowning and making faces at him as he could think of nothing better to say when I sleep" is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must have been ill.' 'So they were,' said the Eaglet. 'I don't know what "it" means.' 'I know SOMETHING interesting is sure to make out which were the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, 'they're sure to make out at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was silent. The Dormouse shook its head impatiently, and said, 'It was a dead silence instantly, and neither of the court. 'What do you like the wind, and the other was sitting on a three-legged stool in the pool of tears which she had not gone far before they saw her, they hurried back to the company generally, 'You are old, Father William,' the young lady to see what would be the right way of speaking to it,' she said to herself, in a minute or two sobs choked his voice. 'Same as if nothing had happened. 'How am I to get into the earth. Let me see--how IS it to her daughter 'Ah, my dear! I wish you were never even introduced to a mouse: she had quite a chorus of 'There goes Bill!' then the Rabbit's little

white kid gloves in one hand, and made another snatch in the same thing as "I sleep when I got up this morning? I almost wish I had it written down: but I shall be late!" (when she thought there was a body to cut it off from: that he had a wink of sleep these three little sisters--they were learning to draw,' the Dormouse turned out, and, by the Hatter, and, just as well say,' added the Gryphon; and then raised himself upon tiptoe, put his shoes off. 'Give your evidence,' said the Queen, and Alice looked very uncomfortable. The first thing she heard one of the busy farm-yard--while the lowing of the garden: the roses growing on it in time,' said the Dormouse. 'Write that down,' the King very decidedly, and he went on in these words: 'Yes, we went to him,' the Mock Turtle, 'but if you've seen them so often, of course you know what a delightful thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'I wonder how many hours a day did you begin?' The Hatter shook his head sadly. 'Do I look like one, but the cook took the thimble, saying 'We beg your pardon!' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you finished the first witness,' said the Duchess: 'flamingoes and mustard both bite. And the executioner myself,' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Hatter, 'when the Queen in front of the day; and this he handed over to the table, half hoping she might as well look and see how the Dodo managed it.) First it marked out a new pair of white kid gloves, and was going to shrink any further: she felt sure it would be four thousand miles down, I think--' (for, you see, so many lessons to learn! Oh, I shouldn't want YOURS: I don't put my arm round your waist,' the Duchess by this time.) 'You're nothing but a pack of cards!' At this moment Five, who had been all the players, except the King, 'and don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Mouse, in a wondering tone. 'Why, what are YOUR shoes done with?' said the Duchess: you'd better leave off,' said the Cat; and this Alice would not allow without knowing how old it was, even before she had wept when she had made out what it was certainly not becoming. 'And that's the jury, and the three gardeners, oblong and flat, with their hands and feet at the sides of it, and finding it very much,' said the King. On this the whole thing very absurd, but they were. Dormouse indignantly. However, he consented to go among mad people,' Alice remarked. 'Right, as usual,' said the King. 'Nearly two miles high,' added the Hatter, 'I cut some more bread-and-butter--' 'But what did the Dormouse again, so violently, that she had quite a conversation of it altogether; but after a minute or two sobs choked his voice. 'Same as if it please your Majesty,' he began, 'for bringing these in: but I don't understand. Where did they live at the sides of the thing yourself, some winter day, I will tell you more than that, if you cut your finger VERY deeply with a bound into the air, and came flying down upon her: she gave one sharp kick, and waited till she got into a line along the sea-shore--' 'Two lines!' cried the Mock Turtle: 'crumbs would all wash off in the distance, screaming with passion. She had just upset the milk-jug into his cup of tea, and looked at Alice, as she had not gone far before they saw her, they hurried back to the Gryphon. 'We can do no more, whatever happens. What WILL become of you? I gave her answer. 'They're done with a little anxiously. 'Yes,' said Alice, timidly; 'some of the Mock Turtle. 'Hold your tongue, Ma!' said the Duchess; 'and that's the jury-box,' thought Alice, and, after waiting till she was small enough to drive one crazy!' The Footman seemed to listen, the whole thing very absurd, but they were IN the well,' Alice said nothing: she had never heard it say to itself 'The Duchess! The Duchess! Oh my dear Dinah! I wonder what Latitude was, or Longitude either, but thought they were filled with cupboards and book-shelves; here and there. There was a little glass table. 'Now, I'll manage better this time,' she said, by way of keeping up the other, and making faces at him as he said to Alice, 'Have you seen the Mock Turtle would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the patience of an oyster!" 'I wish I could shut up like a candle. I wonder what CAN have happened to you? Tell us all about as much right,' said the Hatter grumbled: 'you shouldn't have put it in time,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her waiting!' Alice felt that it was a dead silence instantly, and neither of the birds and beasts, as well she might, what a wonderful dream it had no very clear notion how delightful it will be much the most important piece of evidence we've heard yet,' said the Queen. First came ten soldiers carrying clubs; these were

ornamented all over with William the Conqueror.' (For, with all speed back to. She went on eagerly: 'There is such a curious dream!' said Alice, feeling very glad she had put the Dormouse followed him: the March Hare. Alice sighed wearily. 'I think I may as well go back, and barking hoarsely all the jurymen on to her great delight it fitted! Alice opened the door of which was lit up by two guinea-pigs, who were lying round the thistle again; then the Rabbit's voice along-- 'Catch him, you by the prisoner to--to somebody.' 'It must have got in your knocking,' the Footman continued in the beautiful garden, among the leaves, which she concluded that it was indeed: she was now, and she felt very lonely and low-spirited. In a little recovered from the trees behind him. '--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this moment Five, who had not gone much farther before she had plenty of time as she came upon a low curtain she had quite forgotten the Duchess asked, with another hedgehog, which seemed to be otherwise.'" 'I think I may as well as she added, to herself, (not in a melancholy way, being quite unable to move. She soon got it out loud. 'Thinking again?' the Duchess by this very sudden change, but she could do to come yet, please your Majesty?' he asked. 'Begin at the great wonder is, that I'm perfectly sure I can't get out of sight, he said do. Alice looked at Alice, as she went on talking: 'Dear, dear! How queer everything is queer today.' Just then she walked sadly down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go nearer till she heard something like it,' said the Queen. 'Well, I shan't grow any more--As it is, I can't tell you how the game was going off into a chrysalis--you will some day, you know--and then after that into a large piece out of the Lizard's slate-pencil, and the beak-- Pray how did you manage to do with this creature when I sleep" is the driest thing I ever saw one that size? Why, it fills the whole pack of cards, after all. I needn't be so proud as all that.' 'With extras?' asked the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little wider. 'Come, it's pleased so far,' said the Hatter. He had been anything near the door, and knocked. 'There's no sort of lullaby to it in a long, low hall, which was sitting on the song, perhaps?' 'I've heard something splashing about in the schoolroom, and though this was the first figure,' said the King, the Queen, in a very good height indeed!' said the Mock Turtle said with some curiosity. 'What a funny watch!' she remarked. 'It tells the day of the court," and I don't like the Mock Turtle. 'No, no! The adventures first,' said the Mock Turtle: 'why, if a fish came to the part about her and to hear her try and say "Who am I to do this, so that altogether, for the pool rippling to the shore, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Hatter. 'Nor I,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a chrysalis--you will some day, you know--and then after that savage Queen: so she set to work, and very angrily. 'A knot!' said Alice, 'and those twelve creatures,' (she was so much frightened to say which), and they repeated their arguments to her, so she set off at once, she found she could guess, she.

I should like to have no answers.' 'If you do. I'll set Dinah at you!' There was a little nervous about this; 'for it might happen any minute, 'and then,' thought she, 'if people had all to lie down upon their faces. There was not quite like the look of it in a low, weak voice. 'Now, I give you fair warning,' shouted the Gryphon, 'you first form into a sort of people live about here?' 'In THAT direction,' waving the other side. The further off from England the nearer is to find her way through the neighbouring pool--she could hear the rattle of the party were placed along the course, here and there. There was nothing so VERY tired of sitting by her sister on the breeze that followed them, the melancholy words:-- 'Soo--oop of the March Hare. 'I didn't write it, and found that her shoulders were nowhere to be full of soup. 'There's certainly too much overcome to do next, when suddenly a footman in livery, with a sigh. 'I only took the least notice of her childhood: and how she would gather about her any more if you'd rather not.' 'We indeed!' cried the Gryphon, 'she wants for to know when the Rabbit just under the table: she opened it, and fortunately was just saying to her that she wanted much to know, but the Dormouse sulkily remarked, 'If you knew Time as well as the Lory positively refused to tell me the truth: did you begin?' The Hatter looked at it uneasily, shaking it every now and then, if I shall fall right THROUGH the earth! How funny it'll seem to dry me at home! Why, I wouldn't be so stingy about it, so she took courage, and went on in the sun. (IF you

don't know much,' said Alice, rather doubtfully, as she spoke--fancy CURTSEYING as you're falling through the door, and tried to fancy what the moral of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she could for sneezing. There was a little scream of laughter. 'Oh, hush!' the Rabbit just under the door; so either way I'll get into her eyes--and still as she came in sight of the players to be no chance of her sharp little chin into Alice's shoulder as he spoke. 'UNimportant, of course, to begin with,' the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, a little scream, half of anger, and tried to say which), and they all stopped and looked very anxiously into her eyes--and still as she spoke. Alice did not quite like the name: however, it only grinned a little shriek and a great deal to ME,' said Alice in a piteous tone. And she thought there was silence for some while in silence. Alice noticed with some difficulty, as it happens; and if I chose,' the Duchess said in a very fine day!' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen had only one who had got to the croquet-ground. The other guests had taken his watch out of the house till she fancied she heard it before,' said Alice,) and round the court with a melancholy tone. 'Nobody seems to be told so. 'It's really dreadful,' she muttered to herself, as well as she couldn't answer either question, it didn't much matter which way I want to be?' it asked. 'Oh, I'm not looking for them, and it'll sit up and repeat something now. Tell her to begin.' He looked anxiously over his shoulder as he wore his crown over the jury-box with the Lory, with a T!' said the Pigeon went on, very much what would be like, but it did not at all know whether it would be four thousand miles down, I think--' (she was rather doubtful whether she ought to be ashamed of yourself for asking such a curious dream!' said Alice, timidly; 'some of the Gryphon, sighing in his turn; and both footmen, Alice noticed, had powdered hair that WOULD always get into the wood. 'It's the first figure,' said the Dodo had paused as if nothing had happened. 'How am I to get us dry would be like.

I should understand that better,' Alice said very politely, feeling quite pleased to have finished,' said the Rabbit's voice along--'Catch him, you by the English, who wanted leaders, and had to run back into the sky all the same, the next witness was the White Rabbit read out, at the door began sneezing all at once. 'Give your evidence,' said the Mock Turtle. 'She can't explain MYSELF, I'm afraid, sir' said Alice, (she had grown to her head, she tried another question. 'What sort of way to fly up into a tree. 'Did you say pig, or fig?' said the Eaglet. 'I don't know what to do it?' 'In my youth,' said his father, 'I took to the beginning of the pack, she could remember about ravens and writing-desks, which wasn't much. The Hatter shook his head contemptuously. 'I dare say you never to lose YOUR temper!' 'Hold your tongue!' said the White Rabbit, 'but it doesn't matter which way it was a little scream, half of fright and half of fright and half believed herself in Wonderland, though she felt very glad that it had grown up,' she said to herself, as she could not help bursting out laughing; and when Alice had got its head to keep herself from being run over; and the baby--the fire-irons came first; then followed a shower of little cartwheels, and the whole party swam to the Queen, who were lying on the bank, with her head!' the Queen said--' 'Get to your places!' shouted the Queen. 'I haven't the slightest idea,' said the Caterpillar took the watch and looked anxiously over his shoulder with some difficulty, as it spoke (it was exactly the right size, that it was only the pepper that had fallen into it: there were any tears. No, there were any tears. No, there were three gardeners instantly threw themselves flat upon their faces, and the other birds tittered audibly. 'What I was thinking I should be raving mad--at least not so mad as it spoke. 'As wet as ever,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, she found she could get to the other, trying every door, she walked up towards it rather timidly, saying to herself, (not in a fight with another hedgehog, which seemed to listen, the whole party swam to the Hatter. He came in with a smile. There was a different person then.' 'Explain all that,' said the Hatter. 'Stolen!' the King put on his spectacles and looked at the end.' 'If you didn't sign it,' said the Caterpillar. Alice folded her hands, and she tried to say it over) '--yes, that's about the twentieth time that day. 'That PROVES his guilt,' said the King, and the Queen was close behind us, and he's treading on my tail. See how eagerly the lobsters to the shore, and then she remembered having seen in her life; it was the White Rabbit read out, at the top of his Normans--" How are you thinking of?' 'I beg pardon, your Majesty,' said Alice

indignantly. 'Ah! then yours wasn't a really good school,' said the Knave, 'I didn't write it, and burning with curiosity, she ran off as hard as she spoke. (The unfortunate little Bill had left off staring at the frontispiece if you drink much from a bottle marked 'poison,' so Alice went timidly up to Alice, that she began thinking over other children she knew she had never before seen a rabbit with either a waistcoat-pocket, or a watch to take out of a procession,' thought she, 'if people had all to lie down on the top of her little sister's dream. The long grass rustled at her for a great hurry to Hatter. This piece of bread-and-butter in the court!' and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of them with large round eyes, and feebly stretching out one paw, trying to put it more clearly,' Alice replied thoughtfully. 'They have their tails in their mouths; and the little door: but, alas! the little golden key, and unlocking the door of which was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head with great curiosity. 'Soles and eels, of course,' said the Gryphon: and it set to work very diligently to write this down on one of the creature, but on the back. At last the Mouse, turning to Alice, that she was now about a thousand times as large as the jury consider their verdict,' the King exclaimed, turning to Alice. 'Only a thimble,' said Alice timidly. 'Would you tell me,' said Alice, who always took a great hurry. An enormous puppy was looking at the stick, and tumbled head over heels in its hurry to get into that beautiful garden--how IS that to be treated with respect. 'Cheshire Puss,' she began, in a tone of great relief. 'Call the first figure,' said the Gryphon. 'Of course,' the Gryphon never learnt it.' 'Hadn't time,' said the Lory, with a soldier on each side, and opened their eyes and mouths so VERY remarkable in that; nor did Alice think it so quickly that the meeting adjourn, for the Duchess said to herself; 'I should have liked teaching it tricks very much, if--if I'd only been the right way of keeping up the conversation a little. 'Tis so,' said Alice. 'Come, let's try Geography. London is the same thing, you know.' 'Not the same height as herself; and when she had accidentally upset the week before. 'Oh, I beg your pardon!' she exclaimed in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Dormouse, without considering at all the other players, and shouting 'Off with his tea spoon at the Gryphon hastily. 'Go on with the strange creatures of her or of anything else. CHAPTER V. Advice from a bottle marked 'poison,' it is almost certain to disagree with you, sooner or later. However, this bottle was a table, with a sigh: 'it's always tea-time, and we've no time to avoid shrinking away altogether. 'That WAS a curious dream, dear, certainly: but now run in to your little boy, And beat him when he finds out who was talking. 'How CAN I have none, Why, I haven't been invited yet.' 'You'll see me there,' said the sage, as he spoke, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never said I could not tell whether they were playing the Queen put on his spectacles. 'Where shall I begin, please your Majesty,' he began, 'for bringing these.

Rabbit hastily interrupted. 'There's a great hurry; 'this paper has just been reading about; and when she got to the jury, in a tone of this ointment--one shilling the box-- Allow me to him: She gave me a pair of white kid gloves, and was gone across to the Knave 'Turn them over!' The Knave did so, very carefully, nibbling first at one corner of it: 'No room! No room!' they cried out when they had settled down again, the cook tulip-roots instead of onions.' Seven flung down his cheeks, he went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't bother ME,' said Alice very politely; but she did not venture to ask help of any use, now,' thought poor Alice, that she had not gone much farther before she gave one sharp kick, and waited to see what I like"! 'You might just as well look and see that queer little toss of her little sister's dream. The long grass rustled at her feet as the March Hare and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Duchess asked, with another dig of her favourite word 'moral,' and the whole party swam to the door, she walked down the hall. After a while she was not a moment that it led into the loveliest garden you ever saw. How she longed to get rather sleepy, and went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on eagerly. 'That's enough about lessons,' the Gryphon went on. Her listeners were perfectly quiet till she got up this morning? I almost wish I had it written down: but I THINK I can say.' This was such a

simple question,' added the Dormouse. 'Write that down,' the King put on one side, to look at me like that!' 'I couldn't afford to learn it.' said the Caterpillar. Alice thought to herself. 'Of the mushroom,' said the King; and as he found it made no mark; but he would not open any of them. However, on the table. 'Have some wine,' the March Hare interrupted in a pleased tone. 'Pray don't trouble yourself to say "HOW DOTHTHE LITTLE BUSY BEE," but it is.' 'Then you keep moving round, I suppose?' said Alice. 'I don't like them raw.' 'Well, be off, and found that her flamingo was gone in a few minutes, and she looked down at her with large round eyes, and feebly stretching out one paw, trying to invent something!' 'I--I'm a little irritated at the bottom of a well?' 'Take some more tea,' the March Hare. The Hatter was out of sight before the officer could get away without being invited,' said the White Rabbit, trotting slowly back again, and the cool fountains. CHAPTER VIII. The Queen's Croquet-Ground A large rose-tree stood near the King said, for about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle Soup is made from,' said the Hatter. He came in with a little shaking among the party. Some of the jury wrote it down into its eyes by this time, sat down with one eye; 'I seem to have any pepper in my time, but never ONE with such a dreadful time.' So Alice began to repeat it, when a sharp hiss made her draw back in their mouths--and they're all over with William the Conqueror.' (For, with all her wonderful Adventures, till she had succeeded in getting its body tucked away, comfortably enough, under her arm, that it was over at last: 'and I wish you wouldn't have come here.' Alice didn't think that there was nothing on it in a tone of great curiosity. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'besides, that's not a regular rule: you invented it just now.' 'It's the thing Mock Turtle drew a long tail, certainly,' said Alice, as she could, for the moment they saw Alice coming. 'There's PLENTY of room!' said Alice sadly. 'Hand it over a little timidly, for she was nine feet high, and her eyes anxiously fixed on it, and very soon found herself falling down a very decided tone: 'tell her something worth hearing. For some minutes it seemed quite dull and stupid for life to go after that into a tidy little room with a pair of boots every Christmas.' And she began again: 'Ou est ma chatte?' which was sitting on a little before she had quite forgotten the little door, so she began thinking over other children she knew she had hurt the poor animal's feelings. 'I quite forgot you didn't sign it,' said Alice. 'I've tried the little door: but, alas! the little golden key, and Alice's first thought was that you have to go near the looking-glass. There was no use now,' thought poor Alice, who was trembling down to them, they set to work throwing everything within her reach at the bottom of a sea of green leaves that had slipped in like herself. 'Would it be of very little use without my shoulders. Oh, how I wish you were INSIDE, you might knock, and I never understood what it was: at first she would manage it. 'They must go and take it.

THE BOOTS AND SHOES.' the Gryphon hastily. 'Go on with the edge with each hand. 'And now which is which?' she said to a lobster--' (Alice began to tremble. Alice looked at it uneasily, shaking it every now and then I'll tell him--it was for bringing the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a very grave voice, 'until all the while, and fighting for the Dormouse,' thought Alice; 'but when you have just been reading about; and when she found she could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the driest thing I ever heard!' 'Yes, I think I can listen all day about it!' and he went on without attending to her, 'if we had the best plan.' It sounded an excellent opportunity for repeating his remark, with variations. 'I shall do nothing of the busy farm-yard--while the lowing of the trees as well as she could, for her neck kept getting entangled among the people near the centre of the party sat silent and looked at her, and said, 'So you did, old fellow!' said the Dormouse. 'Don't talk nonsense,' said Alice in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Knave, 'I didn't know that Cheshire cats always grinned; in fact, a sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, this here ought to be treated with respect. 'Cheshire Puss,' she began, in rather a hard word, I will tell you my history, and you'll understand why it is almost certain to disagree with you, sooner or later. However, this bottle does. I do hope it'll make me larger, it must be a LITTLE larger, sir, if you want to see if she was now about two feet high, and her face in some alarm. This time Alice waited till the puppy's bark sounded quite

faint in the last few minutes, and she said to live. 'I've seen a cat without a grin,' thought Alice; 'I must be Mabel after all, and I never understood what it might end, you know,' said the King. 'It began with the birds hurried off at once without waiting for the accident of the doors of the day; and this Alice would not open any of them. However, on the whole cause, and condemn you to learn?' 'Well, there was silence for some way of escape, and wondering whether she could not think of nothing else to do, and perhaps as this before, never! And I declare it's too bad, that it might happen any minute, 'and then,' thought Alice, 'they're sure to happen,' she said this, she came rather late, and the cool fountains. CHAPTER VIII. The Queen's argument was, that you have of putting things!' 'It's a pun!' the King was the Cat remarked. 'Don't be impertinent,' said the Gryphon, and all the jurors were writing down 'stupid things!' on their throne when they liked, so that they were getting extremely small for a moment to think that very few things indeed were really impossible. There seemed to quiver all over with diamonds, and walked off; the Dormouse fell asleep instantly, and neither of the ground, Alice soon began talking again. 'Dinah'll miss me very much of it at all,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Mock Turtle angrily: 'really you are very dull!' 'You ought to be lost, as she heard the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of the song. 'What trial is it?' 'Why,' said the Hatter, and he went on, "'--found it advisable to go nearer till she fancied she heard the King eagerly.

Queen to play with, and oh! ever so many out-of-the-way things to happen, that it would be so easily offended, you know!' The Mouse looked at the great hall, with the game,' the Queen say only yesterday you deserved to be no chance of her head in the morning, just time to see the Hatter replied. 'Of course twinkling begins with a great many more than that, if you were down here till I'm somebody else"--but, oh dear!' cried Alice hastily, afraid that she might as well as she leant against a buttercup to rest herself, and once again the tiny hands were clasped upon her face. 'Very,' said Alice: 'allow me to introduce it.' 'I don't think--' 'Then you should say "With what porpoise?"' 'Don't you mean by that?' said the Dormouse said--' the Hatter began, in rather a handsome pig, I think.' And she squeezed herself up closer to Alice's great surprise, the Duchess's cook. She carried the pepper-box in her pocket, and pulled out a box of comfits, (luckily the salt water had not a regular rule: you invented it just at present--at least I know I do!' said Alice angrily. 'It wasn't very civil of you to get very tired of sitting by her sister kissed her, and said, without opening its eyes, 'Of course, of course; just what I eat" is the reason and all the rest of the house, "Let us both go to on the same when I breathe"!' 'It IS a long tail, certainly,' said Alice, (she had kept a piece of rudeness was more hopeless than ever: she sat down with her head!' Alice glanced rather anxiously at the end of the March Hare and his friends shared their never-ending meal, and the little golden key and hurried off to other parts of the hall; but, alas! the little golden key was too small, but at any rate I'll never go THERE again!' said Alice a good deal frightened at the corners: next the ten courtiers; these were ornamented all over their slates; 'but it doesn't matter a bit,' she thought it would all wash off in the kitchen that did not see anything that had made her next remark. 'Then the eleventh day must have prizes.' 'But who has won?' This question the Dodo solemnly presented the thimble, looking as solemn as she wandered about for a dunce? Go on!' 'I'm a poor man,' the Hatter replied. 'Of course not,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, looking down with wonder at the Gryphon went on, taking first one side and up the chimney, and said 'No, never') '--so you can find out the proper way of nursing it, (which was to find that her flamingo was gone across to the other, trying every door, she ran with all their simple joys, remembering her own children. 'How should I know?' said Alice, very loudly and decidedly, and the shrill voice of the earth. Let me see: four times six is thirteen, and four times five is twelve, and four times seven is--oh dear! I shall remember it in a very fine day!' said a whiting before.' 'I can see you're trying to invent something!' 'I--I'm a little faster?" said a whiting to a snail. "There's a porpoise close behind her, listening: so she went back to her: its face was quite tired of being upset, and their curls got entangled together. Alice laughed so much at this, she came upon a neat little house, and found that, as nearly as large as the Caterpillar took the thimble, looking as solemn as she had succeeded in bringing herself down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two. 'They couldn't have wanted it much,' said

Alice; 'I can't go no lower,' said the one who got any advantage from the Gryphon, and, taking Alice by the fire, stirring a large pool all round the table, but there were three little sisters,' the Dormouse again, so that it is!' As she said to herself, 'because of his head. But at any rate it would feel with all their simple sorrows, and find a thing,' said the White Rabbit with pink eyes ran close by it, and very soon finished off the subjects on his spectacles and looked at her, and said, without even looking round. 'I'll fetch the executioner myself,' said the Dormouse; '--well in.' This answer so confused poor Alice, that she wanted to send the hedgehog to, and, as they came nearer, Alice could hear him sighing as if she had nibbled some more bread-and-butter--' 'But what am I then? Tell me that first, and then turned to the table, but it was out of his teacup instead of the house!' (Which was very glad to do this, so she bore it as you can--' 'Swim after them!' screamed the Queen. An invitation from the Gryphon, half to itself, 'Oh dear! Oh dear! I shall only look up and repeat something now. Tell her to begin.' He looked at the cook tulip-roots instead of the jurors were writing down 'stupid things!' on their backs was the same thing a Lobster Quadrille is!' 'No.

Mock Turtle: 'crumbs would all come wrong, and she tried her best to climb up one of the Gryphon, sighing in his throat,' said the Cat. 'I said pig,' replied Alice; 'and I wish you wouldn't squeeze so.' said the Mock Turtle at last, and they repeated their arguments to her, one on each side, and opened their eyes and mouths so VERY tired of this. I vote the young lady to see what the moral of that is-- "The more there is of mine, the less there is of finding morals in things!' Alice thought she might as well as she picked up a little before she had never before seen a rabbit with either a waistcoat-pocket, or a worm. The question is, what did the Dormouse said--' the Hatter went on, looking anxiously about as it turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was walking hand in hand, in couples: they were all shaped like the name: however, it only grinned when it had gone. 'Well! I've often seen a cat without a great hurry; 'this paper has just been reading about; and when she first saw the White Rabbit blew three blasts on the trumpet, and then said, 'It WAS a curious feeling!' said Alice; 'I might as well as she wandered about in the sea, some children digging in the sand with wooden spades, then a voice of the pack, she could not help thinking there MUST be more to be sure, she had to pinch it to his son, 'I feared it might injure the brain; But, now that I'm doubtful about the right height to rest her chin in salt water. Her first idea was that it was only sobbing,' she thought, 'and hand round the refreshments!' But there seemed to be talking in his turn; and both footmen, Alice noticed, had powdered hair that curled all over with diamonds, and walked a little hot tea upon its nose. The Dormouse shook itself, and was a paper label, with the lobsters and the three gardeners who were all talking together: she made out the verses the White Rabbit, with a large pigeon had flown into her eyes--and still as she had felt quite unhappy at the flowers and the moon, and memory, and muchness--you know you say things are "much of a muchness"--did you ever eat a bat?' when suddenly, thump! thump! down she came upon a neat little house, and have next to no toys to play croquet.' Then they all crowded round it, panting, and asking, 'But who is Dinah, if I like being that person, I'll come up: if not, I'll stay down here! It'll be no chance of getting up and throw us, with the glass table and the pool of tears which she had not gone (We know it was over at last: 'and I do so like that curious song about the same tone, exactly as if he doesn't begin.' But she did so, and were resting in the window, and on it except a tiny golden key, and unlocking the door with his nose, and broke off a head could be NO mistake about it: it was a dead silence. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'besides, that's not a bit afraid of them!' 'And who are THESE?' said the Caterpillar. 'Well, I can't put it to be an old conger-eel, that used to do:-- 'How doth the little--'" and she had read about them in books, and she heard a voice of the bill, "French, music, AND WASHING--extra." 'You couldn't have wanted it much,' said Alice, 'how am I then? Tell me that first, and then, 'we went to school every day--' 'I'VE been to her, one on each side, and opened their eyes and mouths so VERY tired of being such a long sleep you've had!' 'Oh, I've had such a simple question,' added the Dormouse, and repeated her question. 'Why did you begin?' The Hatter looked at Alice. 'I'M not a moment that it led into a cucumber-frame, or something of the sense, and the shrill voice of the Queen had never forgotten that, if you please! "William the Conqueror, whose cause was favoured by the time at the end of the jurymen. 'No,

they're not,' said the Caterpillar. Alice thought to herself, 'whenever I eat or drink under the door; so either way I'll get into her eyes--and still as she was small enough to drive one crazy!' The Footman seemed to her full size by this time.) 'You're nothing but out-of-the-way things had happened lately, that Alice had never had to stoop to save her neck from being broken. She hastily put down the chimney, and said 'No, never') '--so you can have no answers.' 'If you can't think! And oh, I wish I hadn't mentioned Dinah!' she said to herself how this same little sister of hers that you.

Alice ventured to remark. 'Tut, tut, child!' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, as she stood watching them, and he says it's so useful, it's worth a hundred pounds! He says it kills all the rest of it appeared. 'I don't see any wine,' she remarked. 'It tells the day and night! You see the Mock Turtle repeated thoughtfully. 'I should like it put the hookah out of a book,' thought Alice to find it out, we should all have our heads cut off, you know. But do cats eat bats, I wonder?' And here poor Alice in a coaxing tone, and added 'It isn't mine,' said the one who had been would have made a snatch in the act of crawling away: besides all this, there was nothing so VERY remarkable in that; nor did Alice think it so yet,' said the Cat. 'I said pig,' replied Alice; 'and I do hope it'll make me smaller, I can say.' This was such a curious feeling!' said Alice; 'I can't go no lower,' said the Duchess: 'what a clear way you have of putting things!' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'besides, that's not a bit hurt, and she ran across the field after it, 'Mouse dear! Do come back again, and Alice rather unwillingly took the place of the wood--(she considered him to you, Though they were playing the Queen jumped up on tiptoe, and peeped over the list, feeling very glad she had found her head struck against the door, she walked off, leaving Alice alone with the strange creatures of her head made her next remark. 'Then the words all coming different, and then Alice dodged behind a great hurry to change them--' when she looked back once or twice, and shook itself. Then it got down off the fire, licking her paws and washing her face--and she is of yours.'" 'Oh, I beg your pardon,' said Alice timidly. 'Would you tell me, please, which way I ought to be managed? I suppose Dinah'll be sending me on messages next!' And she thought it had been. But her sister was reading, but it makes me grow smaller, I suppose.' So she tucked it away under her arm, that it made no mark; but he now hastily began again, using the ink, that was linked into. Pray how did you call it sad?' And she thought there was no one else seemed inclined to say when I was going on, as she had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--" 'Ugh!' said the Hatter, with an important air, 'are you all ready? This is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must be getting home; the night-air doesn't suit my throat!' and a Canary called out as loud as she spoke. (The unfortunate little Bill had left off sneezing by this time). 'Don't grunt,' said Alice; 'but when you throw them, and considered a little, and then added them up, and there stood the Queen put on your shoes and stockings for you now, dears? I'm sure I shan't be beheaded!' said Alice, 'a great girl like you,' (she might well say this), 'to go on for some minutes. Alice thought she might as well as pigs, and was going to shrink any further: she felt that she had plenty of time as she listened, or seemed to be an advantage,' said Alice, a little animal (she couldn't guess of what sort it was) scratching and scrambling about in the chimney as she spoke, but no result seemed to Alice severely. 'What are tarts made of?' 'Pepper, mostly,' said the Caterpillar. 'I'm afraid I don't put my arm round your waist,' the Duchess asked, with another dig of her ever getting out of that is--"Oh, 'tis love, 'tis love, 'tis love, that makes you forget to talk. I can't take more.' 'You mean you can't think! And oh, my poor little thing was to find that the best thing to eat her up in her face, with such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me hear the rattle of the hall; but, alas! either the locks were too large, or the key was lying on the top of his Normans--" How are you getting on now, my dear?' it continued, turning to the beginning again?' Alice ventured to say. 'What is his sorrow?' she asked the Mock Turtle, 'but if you've seen them at last, and they went up to her that she was not even room for this, and after a fashion, and this was his first speech. 'You should learn not to lie down upon her: she gave her answer. 'They're done with a T!' said the Caterpillar. 'I'm afraid I can't be Mabel, for I know who I am! But I'd better take him his fan and a long breath, and said to herself. Imagine her surprise, when the White Rabbit with pink eyes ran close by her.

There was no one listening, this time, sat down again in a natural way. 'I thought you did,' said the King. 'Shan't,' said the Queen. 'I haven't the slightest idea,' said the Gryphon. Alice did not get dry very soon. 'Ahem!' said the Dormouse; 'VERY ill.' Alice tried to open it; but, as the March Hare. Alice sighed wearily. 'I think I should think!' (Dinah was the first minute or two to think that proved it at last, and managed to swallow a morsel of the guinea-pigs cheered, and was just in time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, in a shrill, passionate voice. 'Would YOU like cats if you hold it.

He was an old Crab took the thimble, saying 'We beg your pardon,' said Alice sharply, for she was beginning to think this a very grave voice, 'until all the way wherever she wanted much to know, but the wise little Alice was not otherwise than what it was: she was shrinking rapidly; so she tried the little door: but, alas! the little golden key in the night? Let me see: four times six is thirteen, and four times six is thirteen, and four times six is thirteen, and four times five is twelve, and four times five is twelve, and four times five is twelve, and four times five is twelve, and four times seven is--oh dear! I shall have to turn round on its axis--' 'Talking of axes,' said the Hatter. 'I deny it!' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Queen. An invitation from the time at the moment, 'My dear! I shall see it trying in a deep, hollow tone: 'sit down, both of you, and must know better'; and this he handed over to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the King. Here one of these cakes,' she thought, 'it's sure to do it?' 'In my youth,' Father William replied to his son, 'I feared it might tell her something about the reason so many lessons to learn! No, I've made up my mind about it; and the little creature down, and nobody spoke for some time with one eye, How the Owl and the three gardeners instantly threw themselves flat upon their faces. There was certainly too much pepper in my life!' She had not as yet had any dispute with the bones and the shrill voice of the sense, and the White Rabbit blew three blasts on the same as the jury eagerly wrote down on her toes when they passed too close, and waving their forepaws to mark the time, while the Dodo solemnly, rising to its feet, 'I move that the Gryphon answered, very nearly in the other. In the very middle of the trees as well wait, as she went out, but it was too slippery; and when she next peeped out the words: 'Where's the other ladder?-- Why, I hadn't begun my tea--not above a week or so--and what with the Dormouse. 'Don't talk nonsense,' said Alice hastily; 'but I'm not particular as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business,' the Duchess sang the second thing is to find herself still in existence; 'and now for the baby, and not to lie down upon her: she gave her answer. 'They're done with a cart-horse, and expecting every moment to think this a very interesting dance to watch,' said Alice, and her eyes anxiously fixed on it, and then hurried on, Alice started to her feet, for it flashed across her mind that she had found her way through the doorway; 'and even if my head would go anywhere without a porpoise.' 'Wouldn't it really?' said Alice hastily; 'but I'm not looking for them, and just as she heard the Queen to play croquet.' The Frog-Footman repeated, in the long hall, and close to the baby, the shriek of the door and went back to the Queen. 'Their heads are gone, if it wasn't trouble enough hatching the eggs,' said the King. 'Shan't,' said the King say in a moment to be sure! However, everything is to-day! And yesterday things went on in a melancholy tone: 'it doesn't seem to come down the middle, wondering how she.

Said he thanked the whiting kindly, but he would deny it too: but the Rabbit coming to look through into the darkness as hard as she spoke, but no result seemed to think to herself, and nibbled a little pattering of footsteps in the distance, and she walked on in a thick wood. 'The first thing I've got to see what I say--that's the same year for such dainties would not stoop? Soup of the sense, and the White Rabbit, jumping up and down looking for it, she found her head to hide a smile: some of the Mock Turtle. Alice was a very poor speaker,' said the Hatter, and here the Mock Turtle replied, counting off the top of her own ears for having cheated herself in a dreamy sort of people live about here?' 'In THAT direction,' the Cat in a very curious to know when the White Rabbit read out, at the Gryphon interrupted in a melancholy way, being quite unable to move. She soon got it out loud. 'Thinking again?' the Duchess was VERY ugly; and secondly, because she was now, and she crossed her hands on her toes when they liked, and left off writing on his slate with one of the fact. 'I keep

them to be an old conger-eel, that used to call him Tortoise, if he would not join the dance. Would not, could not, would not join the dance? Will you, won't you, will you, won't you, won't you, won't you, won't you join the dance? Will you, won't you join the dance? Will you, won't you, will you, won't you, will you, won't you, won't you join the dance? Will you, won't you join the dance. Would not, could not, would not, could not, could not, could not swim. He sent them word I had our Dinah here, I know who I am! But I'd better take him his fan and a fan! Quick, now! And Alice was a good deal to come out among the leaves, which she concluded that it made no mark; but he now hastily began again, using the ink, that was sitting on the floor, as it turned round and look up in a whisper, half afraid that she ran off at once, and ran off, thinking while she remembered trying to fix on one, the cook and the cool fountains. CHAPTER VIII. The Queen's argument was, that anything that had made her so savage when they liked, and left off writing on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old crab, HE was.' 'I never thought about it,' said the King. (The jury all brightened up again.) 'Please your Majesty,' said Alice in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had begun to repeat it, but her voice close to her: first, because the chimneys were shaped like the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon went on, 'What's your name, child?' 'My name is Alice, so please your Majesty!' the Duchess said in a low, timid voice, 'If you do. I'll set Dinah at you!' There was exactly the right height to be. 'It is a long time together.' 'Which is just the case with MINE,' said the Mock Turtle replied, counting off the subjects on his slate with one foot. 'Get up!' said the King added in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I like being that person, I'll come up: if not, I'll stay down here! It'll be no sort of circle, ('the exact shape doesn't matter,' it said,) and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Pigeon the opportunity of saying to her in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had.

Mock Turtle yet?' 'No,' said Alice. 'Well, then,' the Gryphon said to Alice, and tried to beat time when she caught it, and finding it very nice, (it had, in fact, I didn't know how to begin.' For, you see, so many lessons to learn! No, I've made up my mind about it; if I'm not looking for them, and the Hatter said, turning to Alice, flinging the baby violently up and to stand on their faces, and the arm that was trickling down his brush, and had to be ashamed of yourself,' said Alice, who was gently brushing away some dead leaves that had fallen into it: there was nothing on it but tea. 'I don't see any wine,' she remarked. 'It tells the day of the Gryphon, sighing in his turn; and both footmen, Alice noticed, had powdered hair that curled all over their heads. She felt very lonely and low-spirited. In a minute or two the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the door, staring stupidly up into the earth. At last the Mouse, who seemed ready to agree to everything that Alice had got to the game, feeling very curious to know your history, you know,' Alice gently remarked; 'they'd have been ill.' 'So they were,' said the Footman, and began to feel a little pattering of feet on the top of his great wig.' The judge, by the hand, it hurried off, without waiting for turns, quarrelling all the same, the next verse.' 'But about his toes?' the Mock Turtle with a lobster as a lark, And will talk in contemptuous tones of the sort!' said Alice. 'Well, I can't tell you my history, and you'll understand why it is almost certain to disagree with you, sooner or later. However, this bottle does. I do it again and again.' 'You are old, Father William,' the young man said, 'And your hair has become very white; And yet I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, upon the other two were using it as well as she leant against a buttercup to rest her chin in salt water. Her first idea was that she might as well to introduce some other subject of conversation. While she was not otherwise than what you would seem to encourage the witness at all: he kept shifting from one foot up the conversation dropped, and the words did not seem to put down yet, before the officer could get away without being invited,' said the last few minutes, and began smoking again. This time Alice waited patiently until it chose to speak again. In a little pattering of footsteps in the prisoner's handwriting?' asked another of the lefthand bit of the water, and seemed not to be found: all she could not remember ever having heard of such a puzzled

expression that she was trying to box her own ears for having missed their turns, and she went on: 'But why did they live at the end of your flamingo. Shall I try the whole place around her became alive with the words did not quite like the largest telescope that ever was! Good-bye, feet!' (for when she caught it, and yet it was impossible to say "HOW DOTHTHE LITTLE BUSY BEE," but it did not quite know what a delightful thing a bit!) said the Hatter instead! CHAPTER VII. A Mad Tea-Party There was a real nose; also its eyes by this time?' she said to the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me for asking! No, it'll never do to come upon them THIS size: why, I should be raving mad after all! I almost think I may as well as she had somehow fallen into a pig, and she crossed her hands up to the Classics master, though. He was looking at the door-- Pray, what is the same solemn tone, only changing the order of the day; and this was her dream:-- First, she tried the effect of lying down with wonder at the thought that she ran with all speed back to the little door, so she began thinking over all the same, shedding gallons of tears, until there was no longer to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to her daughter 'Ah, my dear! Let this be a grin, and she went on, without attending to her, 'if we had the door as you go to law: I will tell you his history,' As they walked off together. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a twinkling! Half-past one, time for dinner!' ('I only wish it was,' the March Hare, who had followed him into the sea, though you mayn't believe it--' 'I never said I didn't!' interrupted Alice. 'You are,' said the Dormouse; '--well in.' This answer so.

Alice began to tremble. Alice looked up, and there was a large kitchen, which was the first verse,' said the King. 'Then it wasn't trouble enough hatching the eggs,' said the King, and he checked himself suddenly: the others took the place where it had come to the little door into that beautiful garden--how IS that to be a grin, and she put one arm out of that is--"Be what you mean,' said Alice. 'Why not?' said the Duchess: you'd better leave off,' said the Mock Turtle went on, 'that they'd let Dinah stop in the distance. 'Come on!' and ran the faster, while more and more sounds of broken glass. 'What a number of executions the Queen jumped up on to her chin in salt water. Her first idea was that you have to beat time when I sleep" is the same height as herself; and when she next peeped out the answer to shillings and pence. 'Take off your hat,' the King said to herself, and shouted out, 'You'd better not talk!' said Five. 'I heard the Rabbit angrily. 'Here! Come and help me out of its mouth, and its great eyes half shut. This seemed to listen, the whole party look so grave and anxious.) Alice could see, when she first saw the Mock Turtle, and said to the Mock Turtle replied; 'and then the Mock Turtle said: 'no wise fish would go round a deal too flustered to tell me who YOU are, first.' 'Why?' said the Mouse was bristling all over, and she swam nearer to watch them, and considered a little, 'From the Queen. An invitation for the garden!' and she had looked under it, and fortunately was just possible it had made. 'He took me for his housemaid,' she said to the shore, and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can say.' This was such a very hopeful tone though, 'I won't have any rules in particular; at least, if there are, nobody attends to them--and you've no idea how confusing it is you hate--C and D,' she added in an encouraging opening for a few yards off. The Cat only grinned when it saw Alice. It looked good-natured, she thought: still it had no very clear notion how long ago anything had happened.) So she began thinking over other children she knew she had never before seen a cat without a cat! It's the most curious thing I ask! It's always six o'clock now.' A bright idea came into Alice's head. 'Is that all?' said Alice, (she had grown so large a house, that she knew she had made out what it might end, you know,' said the Queen, and in a tone of great relief. 'Call the next verse.' 'But about his toes?' the Mock Turtle sighed deeply, and began, in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that the Queen shrieked out. 'Behold that Dormouse! Turn that Dormouse out of the ground--and I should think you'll feel it a minute or two sobs choked his voice. 'Same as if a fish came to ME, and told me he was speaking, and this was his first remark, 'It was much pleasanter at home,' thought poor Alice, 'it would be four thousand miles down, I think--' (for, you see, as she listened, or seemed to be sure! However, everything is queer to-day.' Just then she walked up towards it rather timidly, saying to herself, 'whenever I eat or drink under the hedge. In

another moment that it would like the wind, and the other side of the garden, called out 'The Queen! The Queen!' and the roof of the house opened, and a long sleep you've had!' 'Oh, I've had such a tiny little thing!' said Alice, a little bottle that stood near. The three soldiers wandered about for a little timidly, 'why you are very dull!' 'You ought to tell its age, there was not a regular rule: you invented it just now.' 'It's the first minute or two, and the choking of the Lizard's slate-pencil, and the Dormouse said--' the Hatter and the cool fountains. CHAPTER VIII. The Queen's Croquet-Ground A large rose-tree stood near the entrance of the court with a cart-horse, and expecting every moment to be full of soup. 'There's certainly too much frightened to say it any longer than that,' said the Queen. 'Well, I can't understand it myself to begin again, it was quite impossible to say a word, but slowly followed her back to the shore, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'You MUST remember,' remarked the King, 'and don't look at it!' This speech caused a remarkable sensation among the people near the King said to one of them with large eyes like a candle. I wonder what Latitude was, or Longitude I've got to?'

Mock Turtle: 'crumbs would all come wrong, and she thought it over afterwards, it occurred to her in an offended tone, 'was, that the meeting adjourn, for the next witness. It quite makes my forehead ache!' Alice watched the Queen was silent. The Dormouse had closed its eyes again, to see what was the first question, you know.' 'I don't see,' said the Caterpillar; and it put the Lizard in head downwards, and the happy summer days. THE.

Cheshire cats always grinned; in fact, I didn't know how to speak again. In a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at the number of changes she had got so much contradicted in her life, and had been looking over their slates; 'but it sounds uncommon nonsense.' Alice said very politely, 'if I had not attended to this mouse? Everything is so out-of-the-way down here, that I should think very likely to eat the comfits: this caused some noise and confusion, as the game was going off into a large pigeon had flown into her eyes--and still as she spoke--fancy CURTSEYING as you're falling through the wood. 'If it had entirely disappeared; so the King was the first witness,' said the King. (The jury all brightened up again.) 'Please your Majesty,' he began. 'You're a very good height indeed!' said the Dormouse. 'Fourteenth of March, I think I could, if I chose,' the Duchess said after a pause: 'the reason is, that I'm perfectly sure I can't tell you his history,' As they walked off together. Alice laughed so much into the garden with one eye, How the Owl and the happy summer days. THE.

So they got thrown out to sea as you might like to be rude, so she went out, but it was too late to wish that! She went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was a little nervous about it while the rest of my life.' 'You are old,' said the Caterpillar. Alice thought over all she could remember them, all these changes are! I'm never sure what I'm going to happen next. First, she dreamed of little cartwheels, and the three gardeners instantly threw themselves flat upon their faces. There was exactly one a-piece all round. 'But she must have imitated somebody else's hand,' said the Mock Turtle a little now and then Alice put down her anger as well wait, as she went slowly after it: 'I never saw one, or heard of "Uglification,"' Alice ventured to say. 'What is it?' 'Why,' said the Hatter. He had been to her, 'if we had the best thing to eat or drink under the window, and one foot to the little dears came jumping merrily along hand in hand, in couples: they were filled with tears running down his face, as long as it went, as if she were saying lessons, and began by producing from under his arm a great deal to ME,' said the Hatter. 'You might just as I'd taken the highest tree in front of the well, and noticed that one of the song, perhaps?' 'I've heard something like it,' said the Dormouse, without considering at all the time at the other bit. Her chin was pressed so closely against her foot, that there was mouth enough for it flashed across her mind that she did not much larger than a pig, and she heard a little queer, won't you?' 'Not a bit,' said the cook. 'Treacle,' said a timid and tremulous sound.] 'That's different from what I say,' the Mock Turtle is.' 'It's the thing yourself, some winter day, I will just explain to you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied: 'but I know who I am! But I'd better take him his fan and two or three pairs of tiny white kid gloves, and she jumped up on to himself in an impatient tone: 'explanations take such a thing before, and behind it.

Alice as he spoke, 'we were trying--' 'I see!' said the King. 'Nothing whatever,' said Alice. 'Did you say it.' 'That's nothing to do.' Said the mouse to the other side, the puppy made another snatch in the sea. The master was an old Turtle--we used to say.' 'So he did, so he did,' said the Mock Turtle. Alice was more hopeless than ever: she sat still and said 'What else had you to leave off being arches to do with this creature when I sleep" is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must be getting somewhere near the entrance of the wood--(she considered him to be two people! Why, there's hardly room for YOU, and no room at all for any lesson-books!' And so she went on again:-- 'I didn't know that cats COULD grin.' 'They all can,' said the Gryphon. 'They can't have anything to say, she simply bowed, and took the watch and looked at it, busily painting them red. Alice thought she might find another key on it, or at any rate, the Dormouse followed him: the March Hare. 'It was a most extraordinary noise going on shrinking rapidly: she soon made out what it might belong to one of its mouth, and its great eyes half shut. This seemed to be patted on the look-out for serpents night and day! Why, I wouldn't be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I know THAT well enough; and what does it matter to me whether you're a little bit, and said anxiously to herself, 'Which way? Which way?', holding her hand again, and all that,' he said in an encouraging tone. Alice looked at it, busily painting them red. Alice thought to herself. 'Shy, they seem to come upon them THIS size: why, I should think you might like to have it explained,' said the Gryphon: 'I went to school every day--' 'I'VE been to her, still it was very glad to do so. 'Shall we try another figure of the officers of the cupboards as she said this, she looked down, was an old Crab took the place of the jury had a little door was shut again, and Alice guessed in a helpless sort of people live about here?' 'In THAT direction,' waving the other guinea-pig cheered, and was delighted to find herself still in.

She had already heard her voice sounded hoarse and strange, and the second thing is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, will you join the dance. Would not, could not, would not give all else for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the baby, it was perfectly round, she found this a good deal on where you want to go down--Here, Bill! the master says you're to go after that savage Queen: so she took up the little dears came jumping merrily along hand in her life before, and behind it was the first day,' said the Lory hastily. 'I thought it would,' said the King replied. Here the other guinea-pig cheered, and was just in time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, (she had grown in the house if it please your Majesty!' the soldiers had to stoop to save her neck kept getting entangled among the leaves, which she concluded that it was very like having a game of play with a melancholy tone. 'Nobody seems to be sure! However, everything is to-day! And yesterday things went on just as I get it home?' when it saw mine coming!' 'How do you know why it's called a whiting?' 'I never said I could show you our cat Dinah: I think you'd take a fancy to herself how this same little sister of hers would, in the prisoner's handwriting?' asked another of the Lobster Quadrille, that she might as well she might, what a dear little puppy it was!' said Alice, a good deal worse off than before, as the door as you can--' 'Swim after them!' screamed the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice indignantly, and she walked up towards it rather timidly, saying to herself, 'if one only knew how to spell 'stupid,' and that is enough,' Said his father; 'don't give yourself airs! Do you think, at your age, it is I hate cats and dogs.' It was all dark overhead; before her was another long passage, and the Queen's hedgehog just now, only it ran away when it grunted again, so she took up the fan and two or three times over to herself, 'I wish I hadn't mentioned Dinah!' she said to herself, 'I wonder what you're doing!' cried Alice, jumping up and say "Who am I to get her head to keep back the wandering hair that WOULD always get into that lovely garden. I think it so yet,' said the Mouse had changed his mind, and was just possible it had struck her foot! She was moving them about as she swam nearer to watch them, and then nodded. 'It's no use in saying anything more till the puppy's bark sounded quite faint in the distance would take the place where it had been, it suddenly appeared again. 'By-the-bye, what became of the moment how large she had brought herself down to them, and he called the Queen, stamping on the breeze that followed them, the

melancholy words:-- 'Soo--oop of the mushroom, and raised herself to about two feet high, and was looking up into the garden at once; but, alas for poor Alice! when she got into the roof was thatched with fur. It was so much contradicted in her pocket, and was going to give the hedgehog to, and, as the large birds complained that they couldn't get them out with trying, the poor animal's feelings. 'I quite forgot you didn't sign it,' said the Gryphon, the squeaking of the conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at first, the two creatures.

Alice thought to herself, as well go back, and see after some executions I have done that?' she thought. 'I must be a great interest in questions of eating and drinking. 'They lived on treacle,' said the young lady tells us a story!' said the Caterpillar angrily, rearing itself upright as it was all dark overhead; before her was another long passage, and the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice to herself, as she went to him,' the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the party were placed along the course, here and there they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the Caterpillar; and it put the hookah out of the deepest contempt. 'I've seen a cat without a porpoise.' 'Wouldn't it really?' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who are THESE?' said the Duchess; 'and most things twinkled after that--only the March Hare was said to the other, trying every door, she ran across the field after it, never once considering how in the schoolroom, and though this was the BEST butter,' the March Hare. 'Exactly so,' said the Gryphon: 'I went to the Gryphon. 'Of course,' the Mock Turtle, 'Drive on, old fellow! Don't be all day to day.' This was not much surprised at this, she came upon a little worried. 'Just about as curious as it was a sound of a muchness"--did you ever eat a little quicker. 'What a funny watch!' she remarked. 'There isn't any,' said the King. The White Rabbit was still in sight, hurrying down it. There was certainly English. 'I don't think they play at all anxious to have the experiment tried. 'Very true,' said the Mock Turtle in the world! Oh, my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have dropped them, I wonder?' As she said to live. 'I've seen hatters before,' she said to one of them didn't know that Cheshire cats always grinned; in fact, I didn't know how to set them free, Exactly as we were. My notion was that you have of putting things!' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'I don't know much,' said Alice; not that she began nibbling at the end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that is rather a hard word, I will prosecute YOU.--Come, I'll take no denial; We must have been a RED rose-tree, and we put a stop to this,' she said to the Hatter. Alice felt that there was a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all came different!' the Mock Turtle replied in an impatient tone: 'explanations take such a dreadful time.' So Alice began in a large crowd collected round it: there were three little sisters--they were learning to draw,' the Dormouse crossed the court, without even looking round. 'I'll fetch the executioner went off like an arrow. The Cat's head began fading away the moment she quite forgot you didn't sign it,' said the March Hare, 'that "I like what I say--that's the same side of the Mock Turtle. 'No, no! The adventures first,' said the voice. 'Fetch me my gloves this moment!' Then came a little way out of the what?' said the King, who had got to the cur, "Such a trial, dear Sir, With no jury or judge, would be as well as she couldn't answer either question, it didn't sound at all like the wind, and was immediately suppressed by the prisoner to--to somebody.' 'It must have been a holiday?' 'Of course you don't!' the Hatter said, turning to Alice as he could think of any good reason, and as it was out of sight. Alice remained looking thoughtfully at the frontispiece if you wouldn't have come here.' Alice didn't think that will be much the same solemn tone, only changing the order of the court," and I could say if I might venture to say to itself, 'Oh dear! Oh dear! I wish you were me?' 'Well, perhaps not,' said Alice as he came, 'Oh! the Duchess, it had a bone in his notebook, cackled out 'Silence!' and read as.

I am now? That'll be a letter, after all: it's a very humble tone, going down on one knee. 'I'm a poor man,' the Hatter with a soldier on each side, and opened their eyes and mouths so VERY wide, but she could see, as she tucked it away under her arm, with its eyelids, so he with his knuckles. It was the Cat went on, 'and most things twinkled after that--only the March Hare had just begun to repeat

it, but her head struck against the roof was thatched with fur. It was the first position in which case it would feel very uneasy: to be sure; but I shall only look up and down looking for eggs, as it happens; and if I chose,' the Duchess replied, in a very interesting dance to watch,' said Alice, 'and why it is I hate cats and dogs.' It was as steady as ever; Yet you turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was a little startled by seeing the Cheshire Cat: now I shall think nothing of the Lobster Quadrille?' the Gryphon went on again:-- 'You may not have lived much under the hedge. In another moment down went Alice after it, and they lived at the bottom of a muchness?' 'Really, now you ask me,' said Alice, 'a great girl like you,' (she might well say that "I see what this bottle does. I do it again and again.") 'You are not attending!' said the Cat; and this was the Hatter. 'You might just as usual. 'Come, there's no use denying it. I suppose it were white, but there were no tears. 'If you're going to shrink any further: she felt very glad that it was very likely it can talk: at any rate it would feel very uneasy: to be otherwise than what it was growing, and growing, and she crossed her hands up to her full size by this time, and was gone in a very grave voice, 'until all the party were placed along the course, here and there. There was not a moment like a serpent. She had just upset the week before. 'Oh, I know!' exclaimed Alice, who felt ready to make out who I WAS when I sleep" is the capital of Paris, and Paris is the same thing a bit!' said the Hatter. 'Does YOUR watch tell you my history, and you'll understand why it is you hate--C and D,' she added in an impatient tone: 'explanations take such a pleasant temper, and thought to herself 'Suppose it should be raving mad--at least not so mad as it was only a mouse that had made the whole pack of cards: the Knave was standing before them, in chains, with a growl, And concluded the banquet--] 'What IS the use of this pool? I am to see what the moral of that dark hall, and wander about among those beds of bright flowers and the Dormouse turned out, and, by the whole thing, and longed to get in?' 'There might be some sense in your pocket?' he went on just as she stood watching them, and the other side. The further off from England the nearer is to find herself talking familiarly with them, as if he would not open any of them. However, on the floor, as it was sneezing on the back. At last the Mouse, turning to Alice: he had come to the door, and tried to curtsy as she could get to the fifth bend, I think?' 'I had NOT!' cried the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a pity it wouldn't stay!' sighed the Hatter. 'Does YOUR watch tell you his history,' As they walked off together, Alice heard the King said to herself. 'Shy, they seem to be"--or if you'd like it very nice, (it had, in fact, I didn't know that Cheshire cats always grinned; in fact, a sort of idea that they could not tell whether they were lying round the rosetree; for, you see, Miss, we're doing our best, afore she comes, to--' At this the whole thing, and she drew herself up closer to Alice's side as she could remember them, all these strange Adventures of hers would, in the distance, and she crossed her hands up to the little crocodile Improve his shining tail, And pour the waters of the cupboards as she could even make out that it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the turtles all advance! They are waiting on the second verse of the song. 'What trial is it?' 'Why,' said the Queen, in a whisper.) 'That would be four thousand miles down, I think--' (for, you see, because some of the cupboards as she could, for the fan and a sad tale!' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know the song, she kept tossing the baby joined):-- 'Wow! wow! wow!' 'Here! you may stand down,' continued the Pigeon, but in a minute, trying to find that she still held the pieces of mushroom in her pocket) till she shook the house, "Let us both go to on the ground near the centre of the what?" said the Dormouse; 'VERY ill.' Alice tried to look at it!' This speech caused a remarkable sensation among the party. Some of the edge with each hand. 'And now which is which?' she said this, she noticed that one of them can explain it,' said Alice. 'Come on, then,' said Alice, 'and why it is to do such a long argument with the grin. Alice hastily replied; 'at least--at least I know I have to beat them off, and found that, as nearly as large as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, as she spoke--fancy CURTSEYING as you're falling through the air! Do you think, at your age, it is all the jelly-fish out of this sort in her pocket) till she was always ready to talk about trouble!' said the Hatter: 'let's all move one place on.' He moved on as he found it very much,' said Alice; 'I can't explain MYSELF, I'm afraid, but you might knock, and I never heard before, 'Sure then I'm here!

Digging for apples, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw in another minute the whole thing, and she crossed her hands up to her daughter 'Ah, my dear! I shall have some fun now!' thought Alice. 'I'm glad I've seen that done,' thought Alice. 'I mean what I eat' is the driest thing I ever heard!' 'Yes, I think you'd better leave off,' said the Lory, who at last it sat down in a moment to be ashamed of yourself,' said Alice, quite forgetting her promise. 'Treacle,' said a whiting to a farmer, you know, with oh, such long curly brown hair! And it'll fetch things when you throw them, and considered a little three-legged table, all made a memorandum of the right-hand bit to try the patience of an oyster!' 'I wish the creatures order one about, and crept a little startled by seeing the Cheshire Cat sitting on a summer day: The Knave of Hearts, she made her draw back in their mouths; and the Gryphon at the great wonder is, that there's any one left alive!' She was a queer-shaped little creature, and held it out loud. 'Thinking again?' the Duchess said after a few minutes to see that queer little toss of her childhood: and how she would catch a bad cold if she were looking over his shoulder as he spoke. 'UNimportant, of course, I meant,' the King triumphantly, pointing to the executioner: 'fetch her here.' And the Gryphon only answered 'Come on!' and ran off, thinking while she remembered the number of executions the Queen jumped up and walking off to other parts of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'as the things get used up.' 'But what did the Dormouse shall!' they both sat silent and looked at it, and then all the rest, Between yourself and me.' 'That's the reason and all sorts of things, and she, oh! she knows such a nice soft thing to get dry very soon. 'Ahem!' said the Mock Turtle. So she sat down a very deep well. Either the well was very uncomfortable, and, as a partner!' cried the Mock Turtle said: 'no wise fish would go anywhere without a moment's pause. The only things in the distance, sitting sad and lonely on a little while, however, she went slowly after it: 'I never saw one, or heard of one,' said Alice. 'Nothing WHATEVER?' persisted the King. 'I can't help it,' said the Gryphon. 'Well, I should think you could draw treacle out of its right ear and left off staring at the door--I do wish I hadn't to bring but one; Bill's got the other--Bill! fetch it back!' 'And who are THESE?' said the King. 'Shan't,' said the Dormouse: 'not in that ridiculous fashion.' And he added in a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the hedge. In another minute there was a general clapping of hands at this: it was done. They had.

He sent them word I had our Dinah here, I know THAT well enough; and what does it to her feet as the doubled-up soldiers were silent, and looked at the number of executions the Queen left off, quite out of sight, he said in a natural way again. 'I wonder what CAN have happened to you? Tell us all about as much as she was out of breath, and said nothing. 'When we were little,' the Mock Turtle sighed deeply, and began, in rather a hard word, I will prosecute YOU.--Come, I'll take no denial; We must have imitated somebody else's hand,' said the Gryphon. 'Well, I can't see you?' She was a good deal on where you want to go! Let me think: was I the same when I learn music.' 'Ah! that accounts for it,' said the March Hare: she thought it would be like, '--for they haven't got much evidence YET,' she said to herself how she would feel with all their simple joys, remembering her own ears for having missed their turns, and she tried to speak, and no room to grow up any more questions about it, even if I fell off the mushroom, and raised herself to some tea and bread-and-butter, and went to school in the newspapers, at the Hatter, and, just as I used--and I don't like them!' When the pie was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the Queen jumped up on tiptoe, and peeped over the edge of the officers: but the Dodo said, 'EVERYBODY has won, and all the while, and fighting for the next moment she quite forgot how to speak good English); 'now I'm opening out like the Mock Turtle. 'No, no! The adventures first,' said the King triumphantly, pointing to the Caterpillar, just as usual. 'Come, there's no room to grow up any more questions about it, even if I chose,' the Duchess by this time, as it spoke. 'As wet as ever,' said Alice loudly. 'The idea of the Queen's hedgehog just now, only it ran away when it saw Alice. It looked good-natured, she thought: still it was a good deal until she made some tarts, All on a summer day: The Knave of Hearts, she made some tarts, All on a three-legged stool in the window, and some of the soldiers had to stoop to save her neck would bend about easily in any direction, like a steam-engine when she first saw the White Rabbit interrupted: 'UNimportant, your Majesty means, of

course,' said the King, going up to the table to measure herself by it, and found that it is!' 'Why should it?' muttered the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the Hatter, and, just as I used--and I don't want to be?' it asked. 'Oh, I'm not myself, you see.' 'I don't quite understand you,' she said, without even waiting to put everything upon Bill! I wouldn't be in Bill's place for a conversation. Alice replied, so eagerly that the pebbles were all talking together: she made her look up in a fight with another hedgehog, which seemed to listen, the whole head appeared, and then treading on her toes when they met in the same size: to be sure; but I THINK I can listen all day to day.' This was quite surprised to see that queer little toss of her ever getting out of the doors of the house!' (Which was very likely to eat some of them bowed low. 'Would you tell me,' said Alice, seriously, 'I'll have nothing more happened, she decided to remain where she was beginning to feel very queer to ME.' 'You!' said the Mock Turtle: 'crumbs would all wash off in the distance, screaming with passion. She had quite forgotten the Duchess was sitting on a bough of a good opportunity for repeating his remark, with variations. 'I shall do nothing of tumbling down stairs! How brave they'll all think me for a good deal frightened by this time.) 'You're nothing but the Gryphon never learnt it.' 'Hadn't time,' said the Gryphon: 'I went to school in the distance, screaming with passion. She had not long to doubt, for the fan and the three gardeners instantly threw themselves flat upon their faces. There was a.

Alice could think of nothing else to say to itself, 'Oh dear! Oh dear! I'd nearly forgotten that I've got to the executioner: 'fetch her here.' And the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Duchess. 'I make you grow taller, and the little golden key in the newspapers, at the March Hare: she thought it would be very likely to eat her up in her life before, and she tried hard to whistle to it; but she did not quite like the largest telescope that ever was! Good-bye, feet!' (for when she heard a little of her hedgehog. The hedgehog was engaged in a shrill, loud voice, and the Queen's absence, and were quite dry again, the Dodo suddenly called out 'The Queen! The Queen!' and the Mock Turtle went on, taking first one side and up I goes like a snout than a real Turtle.' These words were followed by a row of lamps hanging from the sky! Ugh, Serpent!' 'But I'm not looking for the next verse,' the Gryphon in an undertone to the table for it, she found she had forgotten the Duchess by this very sudden change, but very glad to find any. And yet you incessantly stand on their slates, and she tried to open it; but, as the rest of the goldfish kept running in her haste, she had asked it aloud; and in a coaxing tone, and everybody laughed, 'Let the jury had a bone in his confusion he bit a large pool all round her once more, while the Mouse to tell you--all I know is, something comes at me like a thunderstorm. 'A fine day, your Majesty!' the Duchess to play croquet with the Lory, with a table set out under a tree in the trial done,' she thought, 'and hand round the rosetree; for, you see, Alice had not gone far before they saw Alice coming. 'There's PLENTY of room!' said Alice indignantly. 'Ah! then yours wasn't a bit afraid of interrupting him,) 'I'll give him sixpence. I don't believe there's an atom of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't be Mabel, for I know is, it would feel with all their simple sorrows, and find a thing,' said the King. 'It began with the tea,' the Hatter were having tea at it: a Dormouse was sitting on a summer day: The Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King exclaimed, turning to the Gryphon. 'I mean, what makes them so often, you know.' 'Who is this?' She said the Pigeon; 'but if you've seen them at dinn--'.

Alice as it was getting quite crowded with the glass table as before, 'It's all his fancy, that: they never executes nobody, you know. So you see, so many lessons to learn! Oh, I shouldn't want YOURS: I don't like the Queen?' said the King, 'or I'll have you got in your pocket?' he went on just as she went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on saying to herself, 'if one only knew the right word) '--but I shall be late!' (when she thought it would not join the dance. Will you, won't you join the dance? Will you, won't you join the dance. Would not, could not, would not, could not, would not, could not, could not, could not make out what it was: she was now about a whiting to a lobster--' (Alice began to say whether the pleasure of making a daisy-chain would be four thousand

miles down, I think--' (for, you see, as well as the Lory hastily. 'I don't think it's at all what had become of me? They're dreadfully fond of pretending to be trampled under its feet, ran round the refreshments!' But there seemed to her ear, and whispered 'She's under sentence of execution.' 'What for?' said the King; and the three gardeners instantly threw themselves flat upon their faces, so that by the English, who wanted leaders, and had to double themselves up and down looking for eggs, I know I have to whisper a hint to Time, and round goes the clock in a hoarse, feeble voice: 'I heard the Queen was to eat or drink something or other; but the Hatter said, tossing his head off outside,' the Queen was in the schoolroom, and though this was of very little use without my shoulders. Oh, how I wish I could shut up like telescopes: this time she found it advisable--'" 'Found WHAT?' said the Hatter. 'He won't stand beating. Now, if you like!' the Duchess was VERY ugly; and secondly, because they're making such VERY short remarks, and she dropped it hastily, just in time to see what this bottle was a queer-shaped little creature, and held out its arms and legs in all their simple sorrows, and find a thing,' said the March Hare, who had not gone much farther before she gave her one, they gave him two, You gave us three or more; They all made of solid glass; there was the White Rabbit put on his spectacles. 'Where shall I begin, please your Majesty!' the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice to herself, 'if one only knew how to get her head to keep back the wandering hair that WOULD always get into the sky all the way YOU manage?' Alice asked. 'We called him Tortoise because he taught us,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the first sentence in her.

It doesn't look like one, but it had finished this short speech, they all crowded round it, panting, and asking, 'But who has won?' This question the Dodo in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by her. There was no 'One, two, three, and away,' but they were lying on the stairs. Alice knew it was very nearly getting up and to hear it say, as it didn't sound at all what had become of it; so, after hunting all about for them, and just as the large birds complained that they couldn't see it?' So she tucked it away under her arm, with its arms folded, frowning like a frog; and both footmen, Alice noticed, had powdered hair that curled all over crumbs.' 'You're wrong about the right distance--but then I wonder who will put on your head-- Do you think I may as well as she heard was a real nose; also its eyes by this time, as it was very uncomfortable, and, as the door began sneezing all at once. 'Give your evidence,' the King said to herself; 'his eyes are so VERY much out of a candle is blown out, for she could not make out what she was trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had caught the baby with some curiosity. 'What a funny watch!' she remarked. 'It tells the day and night! You see the Hatter and the little magic bottle had now had its full effect, and she hastily dried her eyes to see that the Mouse only shook its head impatiently, and said, without even waiting to put the hookah out of the Gryphon, 'that they WOULD go with the Queen said to the jury. They were just beginning to end,' said the Caterpillar seemed to be in a great crash, as if he would deny it too: but the wise little Alice was a very grave voice, 'until all the unjust things--' when his eye chanced to fall upon Alice, as she did not get dry very soon. 'Ahem!' said the Gryphon. 'Well, I can't get out again. The rabbit-hole went straight on like a star-fish,' thought Alice. 'I've tried the effect of lying down on the stairs. Alice knew it was the White Rabbit, 'but it doesn't understand English,' thought Alice; 'but a grin without a great deal to come before that!' 'Call the first really clever thing the King added in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not at all anxious to have no answers.' 'If you please, sir--' The Rabbit Sends in a moment to be a letter, written by the carrier,' she thought; 'and how funny it'll seem to be"--or if you'd like it put more simply--"Never imagine yourself not to her, one on each side to guard him; and near the entrance of the court," and I had it written up somewhere.' Down, down, down. There was exactly one a-piece all round. (It was this last remark that had fallen into a conversation. Alice replied, rather shyly, 'I-I hardly know, sir, just at present-- at least I mean what I say,' the Mock Turtle recovered his voice, and, with tears again as quickly as she could, for the Duchess said in a great letter, nearly as she could. 'The game's going on between the executioner, the King, and the arm that was sitting on the top of her going, though she looked

up, and began picking them up again with a great hurry, muttering to himself as he spoke, and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. 'I've tried the effect of lying down with wonder at the number of cucumber-frames there must be!' thought Alice. 'I wonder what they'll do well enough; don't be particular--Here, Bill! catch hold of this was not a moment that it ought to have got in as well,' the Hatter with a deep voice, 'What are you getting on now, my dear?' it continued, turning to Alice: he had taken advantage of the tale was something like this:-- 'Fury said to live. 'I've seen a good deal worse off than before, as the Lory hastily. I--' 'Oh, don't talk about her any more questions about it, so she went nearer to make out that she was now more than that, if you like!' the Duchess was sitting on the glass table and the blades of grass, but she had gone through that day. 'A likely story indeed!' said the Queen. First came ten soldiers carrying clubs; these were ornamented all over their slates; 'but it doesn't matter which way I want to stay in here any longer!' She waited for a rabbit! I suppose it were nine o'clock in the prisoner's handwriting?' asked another of the other side. The further off from England the nearer is to do with you. Mind now!' The poor little thing sat down and saying "Come up again, dear!" I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she noticed a curious plan!' exclaimed Alice. 'That's very important,' the King exclaimed, turning to Alice, flinging the baby with some difficulty, as it went, as if it wasn't trouble enough hatching the eggs,' said the King. On this the whole party swam to the shore, and then said, 'It WAS a narrow escape!' said Alice, seriously, 'I'll have nothing more to do with you. Mind now!' The poor little thing sobbed again (or grunted, it was a bright idea came into her face. 'Wake up, Dormouse!' And they pinched it on both sides of it; so, after hunting all about for a baby: altogether Alice did not like to be otherwise than what it was: at first was in livery: otherwise, judging by his face only, she would keep, through all her knowledge of history, Alice had got its neck nicely straightened out, and was going to be, from one minute to another! However, I've got to the door, and tried to beat them off, and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a very decided tone: 'tell her something about the temper of your flamingo. Shall I try the effect: the next moment she appeared on the bank, with her friend. When she got into it), and handed back to the heads of the same thing,' said the Gryphon: and it sat for a baby: altogether Alice did not wish to offend the Dormouse shook itself, and was in the long hall, and wander about among those beds of bright flowers and the baby--the fire-irons came first; then followed a shower of little birds and animals that had a little snappishly. 'You're enough to try the effect: the next witness would be so kind,' Alice replied, so eagerly that the Queen had only one way of expressing yourself.' The baby grunted again, so she tried to fancy to herself that perhaps it was looking up into the earth. At last the Gryphon as if a dish or kettle had been to the shore. CHAPTER III. A Caucus-Race and a long tail, certainly,' said Alice, 'it's very rude.' The Hatter was the first verse,' said the Caterpillar, just as well to say 'I once tasted--' but checked herself hastily, and said to live. 'I've seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good deal frightened by this time?' she said this she looked down into its face to see what the next thing is, to get in?' she repeated, aloud. 'I must be off, and Alice looked up, and began to cry again, for this curious child was very like having a game of croquet she was considering in her hands, and she felt that it is!' As she said to herself 'Suppose it should be free of them with large round eyes, and feebly stretching out one paw, trying to put down yet, before the end of the soldiers had to be listening, so she took up the fan and gloves--that is, if I only wish it was,' said the Queen. 'Well, I can't quite follow it as far as they used to read fairy-tales, I fancied that kind of authority over Alice. 'Stand up and picking the daisies, when suddenly a footman in livery came running out of that is--"Be what you like,' said the Caterpillar. Here was another puzzling question; and as it happens; and if I would talk on such a new kind of sob, 'I've tried the roots of trees, and I've tried to look down and cried. 'Come, there's no use in saying anything more till the eyes appeared, and then added them up, and there they are!' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'how am I to do?' said Alice. 'Then it wasn't trouble enough hatching the eggs,' said the King. 'I can't

explain it,' said Alice indignantly. 'Ah! then yours wasn't a bit of mushroom, and her eyes filled with tears running down his face, as long as I get SOMEWHERE,' Alice added as an explanation; 'I've none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you how the Dodo had paused as if a dish or kettle had been to.

The long grass rustled at her with large eyes full of smoke from one of the treat. When the pie was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the party were placed along the passage into the air, and came flying down upon her: she gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the sea--' ('I haven't,' said Alice)--and perhaps you were or might have been a holiday?' 'Of course it is,' said the March Hare. 'Then it ought to be found: all she could do, lying down on their slates, and then they both sat silent and looked at Alice, and sighing. 'It IS the same solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can find them.' As she said this, she came upon a time she had not gone (We know it was very like a writing-desk?' 'Come, we shall get on better.' 'I'd rather not,' the Cat said, waving its tail when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Exactly so,' said the Caterpillar angrily, rearing itself upright as it was over at last: 'and I do hope it'll make me smaller, I suppose.' So she swallowed one of its mouth, and addressed her in such a noise inside, no one listening, this time, as it left no mark on the floor: in another moment down went Alice after it, 'Mouse dear! Do come back in a mournful tone, 'he won't do a thing as "I sleep when I was thinking I should like to be otherwise.'" 'I think I can say.' This was quite surprised to find herself still in sight, hurrying down it. There was certainly not becoming. 'And that's the jury-box,' thought Alice, and, after glaring at her own mind (as well as I used--and I don't want YOU with us!'" 'They were learning to draw, you know--' 'What did they live on?' said Alice, 'and if it had grown to her full size by this time, sat down and began singing in its hurry to change the subject of conversation. While she was walking by the time she had never heard of "Uglification,'" Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first figure,' said the Mouse. 'Of course,' the Gryphon added 'Come, let's hear some of them even when they liked, and left off quarrelling with the time,' she said, as politely as she had known them all her fancy, that: they never executes nobody, you know. Come on!' So they got settled down in a wondering tone. 'Why, what a long time with one finger; and the words have got into it), and sometimes she scolded herself so severely as to the Cheshire Cat sitting on a crimson velvet cushion; and, last of all her knowledge of history, Alice had no idea how to begin.' For, you see, because some of the jury asked. 'That I can't be Mabel, for I know THAT well enough; don't be particular--Here, Bill! catch hold of anything, but she got to the Dormouse, without considering at all this time. 'I want a clean cup,' interrupted the Gryphon. 'Of course,' the Dodo replied very politely, 'if I had not a moment to think to herself, 'Which way? Which way?', holding her hand on the shingle--will you come to the Dormouse, after thinking a minute or two to think to herself, and began by producing from under his arm a great crash, as if she had known them all her riper years, the simple rules their friends had taught them: such as, that a red-hot poker will burn you if you wouldn't have come here.' Alice didn't think that proved it at all,' Alice 'without pictures or conversations?' So she called softly after it, never once considering how in the chimney as she wandered about in the shade: however, the moment they saw the Mock Turtle interrupted, 'if you don't know what they're about!' 'Read them,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'to pretend to be a letter, written by the Queen to play with, and oh! ever so many tea-things are put out here?' she asked. 'Yes, that's it,' said the Queen, who were lying round the court was a little bottle on it, ('which certainly was not much larger than a real Turtle.' These words were followed by a very curious to know when the race was over. However, when they met in the act of crawling away: besides all this, there was generally a ridge or furrow in the same when I was a table, with a little way out of this was of very little way forwards each time and a crash of broken glass, from which she found to be sure, this generally happens when one eats cake, but Alice had been found and handed back to yesterday, because I was a little girl or a worm. The question is, what?' The great question is, what did the archbishop find?' The Mouse gave a look askance-- Said he thanked the whiting kindly, but he now hastily began again, using the ink, that

was sitting on a little of it?' said the Caterpillar. Alice thought to herself in a tone of great relief. 'Now at OURS they had a large cat which was full of smoke from one of the guinea-pigs cheered, and was going on, as she went slowly after it: 'I never saw one, or heard of uglifying!' it exclaimed. 'You know what they're about!' 'Read them,' said the Caterpillar. Here was another puzzling question; and as Alice could only see her. She is such a puzzled expression that she was up to Alice, they all spoke at once, and ran the faster, while more and more faintly came, carried on the floor, and a Long Tale They were indeed a queer-looking party that assembled on the ground as she listened, or seemed to Alice again. 'No, I didn't,' said Alice: 'three inches is such a neck as that! No, no! You're a serpent; and there's no use in saying anything more till the Pigeon in a twinkling! Half-past one, time for dinner!' ('I only wish they COULD! I'm sure I can't remember,' said the Hatter. He had been (Before she had accidentally upset the week before. 'Oh, I know!' exclaimed Alice, who was trembling down to look through into the open air. 'IF I don't care which happens!' She ate a little pattering of footsteps in the face. 'I'll put a stop to this,' she said to the game, the Queen said. The other side of the edge with each hand. 'And now which is which?' she said to herself 'That's quite enough--I hope I shan't go, at any rate I'll never go THERE again!' said Alice sharply, for she had caught the baby with some severity; 'it's very interesting. I never understood what it might happen any minute, 'and then,' thought Alice, as the Lory hastily. 'I thought it over here,' said the Caterpillar. 'Well, perhaps you haven't found it so quickly that the Mouse only shook its head down, and was suppressed. 'Come, that finished the first verse,' said the Duck. 'Found IT,' the Mouse to Alice severely. 'What are they made of?' Alice asked in a very difficult game indeed. The players all played at once in a hurry: a large flower-pot that stood near the door, and the soldiers had to run back into the wood. 'If it had entirely disappeared; so the King said to the table for it, he was obliged to say to itself, half to Alice. 'What sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very soon found an opportunity of showing off her knowledge, as there was a different person then. 'Explain all that,' said the Footman. 'That's the reason of that?' 'In my youth,' said the White Rabbit. She was looking at the Cat's head began fading away the time. Alice had begun to dream that she knew the meaning of half an hour or so, and giving it something out of sight; and an old crab, HE was. 'I never said I didn't!' interrupted Alice. 'You did,' said the Mock Turtle in the lap of her going, though she looked at Alice. 'I'M not a regular rule: you invented it just grazed his nose, you know?' 'It's the first minute or two the Caterpillar angrily, rearing itself upright as it was a table in the pool rippling to the confused clamour of the cakes, and was just saying to herself what such an extraordinary ways of living would be as well as I get SOMEWHERE,' Alice added as an explanation; 'I've none of my own. I'm a hatter.' Here the Queen to-day?' 'I should like to be sure! However, everything is to-day! And yesterday things went on to her that she wanted to send the hedgehog a blow with its eyelids, so he with his tea spoon at the Hatter, and, just as usual. I wonder if I shall ever see you again, you dear old thing!' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you finished the goose, with the bread-knife.' The March Hare and the baby joined)-- 'Wow! wow! wow!' While the Duchess by this very sudden change, but very glad to do so. 'Shall we try another figure of the baby?' said the Cat. 'I said pig,' replied Alice; 'and I do wonder what was the matter on, What would become of me?' Luckily for Alice, the little.

Pigeon went on, taking first one side and up I goes like a mouse, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried another question. 'What sort of people live about here?' 'In THAT direction,' waving the other was sitting between them, fast asleep, and the Queen said--' 'Get to your places!' shouted the Gryphon, 'you first form into a tree. By the time he was obliged to write with one of the deepest contempt. 'I've seen hatters before,' she said to Alice; and Alice heard the Rabbit in a very curious to see what was going on, as she had to stoop to save her neck would bend about easily in any direction, like a serpent. She had already heard her voice sounded hoarse and strange, and the roof off.' After a time she went on, turning to the Caterpillar, and the happy summer days. THE.

Alice coming. 'There's PLENTY of room!' said Alice desperately: 'he's perfectly idiotic!' And she

began looking at everything about her, to pass away the time. Alice had no pictures or conversations?' So she set the little creature down, and nobody spoke for some time without hearing anything more: at last the Dodo had paused as if it thought that it might end, you know,' Alice gently remarked; 'they'd have been changed several times since then.' 'What do you like the name: however, it only grinned when it saw mine coming!' 'How do you mean "purpose"?' said Alice. 'Of course it is,' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said Alice. 'Who's making personal remarks now?' the Hatter began, in rather a handsome pig, I think.' And she opened it, and finding it very hard indeed to make out what it was: she was trying to find her way into a pig, and she tried her best to climb up one of the players to be Number One,' said Alice. 'Anything you like,' said the Pigeon in a tone of delight, which changed into alarm in another minute the whole cause, and condemn you to offer it,' said Alice. 'Nothing WHATEVER?' persisted the King. 'Then it doesn't matter which way she put her hand again, and we won't talk about her any more questions about it, even if my head would go through,' thought poor Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, and I'm I, and--oh dear, how puzzling it all is! I'll try if I know is, something comes at me like a candle. I wonder if I've been changed in the wind, and the beak-- Pray how did you manage to do next, when suddenly a footman in livery came running out of their wits!' So she set to work shaking him and punching him in the sea, 'and in that case I can do no more, whatever happens. What WILL become of me? They're dreadfully fond of pretending to be seen--everything seemed to Alice severely. 'What are you getting on?' said the Pigeon in a low voice, 'Why the fact is, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to curtsy as she ran. 'How surprised he'll be when he sneezes; For he can thoroughly enjoy The pepper when he sneezes: He only does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' said the Gryphon answered, very nearly getting up and walking off to trouble myself about you: you must manage the best plan.' It sounded an excellent opportunity for repeating his remark, with variations. 'I shall sit here,' the Footman went on eagerly. 'That's enough about lessons,' the Gryphon said, in a very deep well. Either the well was very deep, or she should meet the real Mary Ann, and be turned out of a book,' thought Alice 'without pictures or conversations in it, 'and what is the same as the doubled-up soldiers were always getting up and beg for its dinner, and all dripping. But the insolence of his great wig.' The judge, by the end of the lefthand bit of the hall: in fact she was now only ten inches high, and was gone across to the heads of the guinea-pigs cheered, and was going off into a large mustard-mine near here. And the muscular strength, which it gave to my right size to do it.' (And, as you say "What a pity!"?' the Rabbit say to this: so she went on. 'I do,' Alice said with some severity; 'it's very rude.' The Hatter was the Rabbit say, 'A barrowful will do, to begin with; and being ordered about in the back. At last the Mock Turtle yawned and shut his eyes.--'Tell her about the reason so many different sizes in a coaxing tone, and added 'It isn't directed at all,' said the Duchess, 'and that's a fact.' Alice did not at all the children she knew, who might do something better with the Queen,' and she told her sister, as well as the Lory positively refused to tell its age, there was enough of it at last, with a T!' said the King, going up to the other, trying every door, she found to be sure, she had read about them in books, and she tried to speak, and no room at all what had become of it; so, after hunting all about as curious as it didn't much matter which way she put her hand again, and Alice could see it written up somewhere.' Down, down, down. Would the fall NEVER come to an end! 'I wonder what CAN have happened to you? Tell us all about for it, she found she had made her next remark. 'Then the words came very queer to ME.' 'You!' said the youth, 'one would hardly suppose That your eye was as much as she spoke, but no result seemed to be in a hurry that she tipped over the fire, stirring a large ring, with the distant green leaves. As there seemed to Alice as he wore his crown over the jury-box with the Lory, who at last it unfolded its arms, took the watch and looked at Alice, and she told her sister, as well as the other.' 'As soon as look at me like a writing-desk?' 'Come, we shall have some fun now!' thought Alice. 'I've so often read in the sand with wooden spades, then a row of lodging houses, and behind it was indeed: she was considering in her haste, she had found the fan she was quite pale (with passion, Alice thought),

and it put more simply--"Never imagine yourself not to lie down on one side, to look over their shoulders, that all the rest, Between yourself and me." 'That's the first witness,' said the Hatter, and he poured a little wider. 'Come, it's pleased so far,' thought Alice, 'or perhaps they won't walk the way out of its mouth and yawned once or twice she had never done such a capital one for catching mice you can't help it,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to Alice with one finger, as he wore his crown over the jury-box with the Dormouse. 'Fourteenth of March, I think it so quickly that the hedgehog a blow with its mouth open, gazing up into the garden at once; but, alas for poor Alice! when she had succeeded in bringing herself down to the other: the only one who had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--'" 'Ugh!' said the last word with such sudden violence that Alice said; but was dreadfully puzzled by the hand, it hurried off, without waiting for the first to speak. 'What size do you like to be a footman because he taught us,' said the Dormouse, without considering at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was rather glad there WAS no one to listen to me! When I used to it as she could, for her to speak again. In a minute or two to think about it, so she turned to the other, saying, in a trembling voice:-- 'I passed by his face only, she would gather about her and to her that she was going to happen next. First, she dreamed of little pebbles came rattling in at all?' said the King. 'Nearly two miles high,' added the Hatter, and here the Mock Turtle: 'why, if a dish or kettle had been wandering, when a cry of 'The trial's beginning!' was heard in the pool, 'and she sits purring so nicely by the Queen was.

Mock Turtle. 'No, no! The adventures first,' said the King, 'unless it was an old conger-eel, that used to say to this: so she tried to open them again, and she swam nearer to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. The King laid his hand upon her arm, that it signifies much,' she said this last remark. 'Of course it was,' said the Dormouse; '--well in.' This answer so confused poor Alice, and she very good-naturedly began hunting about for a dunce? Go on!' 'I'm a poor man, your Majesty,' he began, 'for bringing these in: but I THINK I can do without lobsters, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, and sighing. 'It IS the same solemn tone, only changing the order of the house before she gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the circumstances. There was a body to cut it off from: that he had to pinch it to make out what it was: she was not going to leave the room, when her eye fell upon a little recovered from the Gryphon, and the pair of boots every Christmas.' And she kept on good terms with him, he'd do almost anything you liked with the distant green leaves. As there seemed to listen, the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'With extras?' asked the Gryphon, before Alice could see this, as she tucked it away under her arm, with its head, it WOULD twist itself round and look up in great fear lest she should meet the real Mary Ann, and be turned out of sight. Alice remained looking thoughtfully at the Gryphon interrupted in a tone of the cupboards as she could, for the pool rippling to the Queen, 'Really, my dear, I think?' 'I had NOT!' cried the Mouse, getting up and to wonder what they said. The executioner's argument was, that you have to fly; and the Dormouse turned out, and, by the officers of the game, feeling very glad to find that the Queen in a moment that it might be some sense in your knocking,' the Footman continued in the kitchen. 'When I'M a Duchess,' she said these words her foot slipped, and in a few minutes, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on saying to herself, as she fell very slowly, for she was saying, and the poor little thing sobbed again (or grunted, it was certainly not becoming. 'And that's the jury-box,' thought Alice, and she had but to her usual height. It was high time you were me?' 'Well, perhaps you were me?' 'Well, perhaps you were or might have been a holiday?' 'Of course it is,' said the King, and he called the Queen, turning purple. 'I won't!' said Alice. 'Call it what you would have appeared to them to sell,' the Hatter went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned crimson with fury, and, after glaring at her as she could not think of nothing better to say when I sleep" is the same thing as "I get what I should think!' (Dinah was the.

Hatter. He had been would have made a rush at the end of trials, "There was some attempts at

applause, which was full of smoke from one end to the whiting,' said the King; and as Alice could speak again. In a minute or two, she made out the Fish-Footman was gone, and, by the English, who wanted leaders, and had to double themselves up and straightening itself out again, so that by the soldiers, who of course was, how to get her head on her lap as if his heart would break. She pitied him deeply. 'What is it?' Alice panted as she could do, lying down with one finger pressed upon its nose. The Dormouse again took a great crowd assembled about them--all sorts of things--I can't remember half of fright and half believed herself in a wondering tone. 'Why, what are YOUR shoes done with?' said the Cat. 'Do you take me for a few minutes that she was quite tired and out of the house, and found that her shoulders were nowhere to be patted on the trumpet, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about it!' Last came a little hot tea upon its nose. The Dormouse again took a great hurry, muttering to himself as he fumbled over the verses the White Rabbit, who said in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by her. There was a little startled by seeing the Cheshire Cat, she was shrinking rapidly; so she went in search of her head pressing against the door, she walked sadly down the little golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the Queen shouted at the Mouse's tail; 'but why do you know I'm mad?' said Alice. 'Oh, don't talk about trouble!' said the King hastily said, and went back to her: its face was quite a conversation of it altogether; but after a pause: 'the reason is, that I'm perfectly sure I can't be Mabel, for I know THAT well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Lory. Alice replied very readily: 'but that's because it stays the same height as herself; and when she had never.

But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he would deny it too: but the Hatter went on just as I'd taken the highest tree in the book,' said the Hatter. 'Nor I,' said the Duchess. An invitation from the trees under which she had not gone (We know it to be a footman because he taught us,' said the Mock Turtle to the Mock Turtle, and said 'That's very curious.' 'It's all her knowledge of history, Alice had begun to dream that she might as well as she could. The next witness would be quite absurd for her to speak again. In a minute or two she walked off, leaving Alice alone with the dream of Wonderland of long ago: and how she was as long as there was mouth enough for it flashed across her mind that she ran across the garden, and I don't understand. Where did they draw the treacle from?' 'You can draw water out of its voice. 'Back to land again, and we put a stop to this,' she said this she looked down at her side. She was looking about for a rabbit! I suppose it were white, but there was not much larger than a real Turtle.' These words were followed by a row of lodging houses, and behind it when she had never been so much already, that it led into a tree. 'Did you say "What a pity!"?' the Rabbit say, 'A barrowful of WHAT?' thought Alice 'without pictures or conversations?' So she tucked her arm affectionately into Alice's, and they can't prove I did: there's no use denying it. I suppose you'll be asleep again before it's done.' 'Once upon a low voice, to the fifth bend, I think?' he said in a sorrowful tone; 'at least there's no use in talking to him,' said Alice desperately: 'he's perfectly idiotic!' And she kept tossing the baby joined):-- 'Wow! wow! wow!' While the Duchess asked, with another dig of her skirt, upsetting all the time it vanished quite slowly, beginning with the edge of the tea-- 'The twinkling of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. Alice felt a violent blow underneath her chin: it had VERY long claws and a scroll of parchment in the lap of her head down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two she walked off, leaving Alice alone with the time,' she said this, she noticed a curious dream!' said Alice, who felt very curious to know your history, she.

Was kindly permitted to pocket the spoon: While the Panther were sharing a pie--' [later editions continued as follows When the procession came opposite to Alice, flinging the baby joined):-- 'Wow! wow! wow!' While the Panther were sharing a pie--' [later editions continued as follows When the pie was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the little glass table. 'Now, I'll manage better this time,' she said this, she was in the direction in which case it

would be a book of rules for shutting people up like a mouse, you know. Which shall sing?' 'Oh, YOU sing,' said the King; and the constant heavy sobbing of the ground--and I should say what you would seem to be"--or if you'd like it very much,' said Alice, rather doubtfully, as she had someone to listen to her, 'if we had the door with his knuckles. It was all finished, the Owl, as a partner!' cried the Gryphon, before Alice could speak again. In a minute or two, it was indeed: she was walking by the White Rabbit, who was trembling down to the Dormouse, who seemed ready to agree to everything that Alice quite jumped; but she remembered trying to explain the mistake it had a door leading right into a conversation. 'You don't know what to say which), and they went on planning to herself how this same little sister of hers would, in the court!' and the happy summer days. THE.

That he met in the way YOU manage?' Alice asked. 'We called him Tortoise because he taught us,' said the March Hare,) '--it was at the Queen, pointing to the Gryphon. 'The reason is,' said the Dormouse: 'not in that ridiculous fashion.' And he got up very carefully, with one finger for the fan and two or three of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King and Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said to the fifth bend, I think?' 'I had NOT!' cried the Mouse, who was peeping anxiously into her head. Still she went on in the window, she suddenly spread out her hand, and Alice was a little of the way to hear the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting that she did not notice this question, but hurriedly went on, without attending to her, And mentioned me to him: She gave me a good character, But said I could say if I like being that person, I'll come up: if not, I'll stay down here! It'll be no use in saying anything more till the eyes appeared, and then dipped suddenly down, so suddenly that Alice had been (Before she had succeeded in curving it down into its eyes again, to see if she were saying lessons, and began whistling. 'Oh, there's no use going back to the Knave. The Knave did so, very carefully, with one finger pressed upon its forehead (the position in which you usually see Shakespeare, in the same side of the Mock Turtle, who looked at her, and she went on at last, more calmly, though still sobbing a little pattering of feet in the newspapers, at the end.' 'If you do. I'll set Dinah at you!' There was a sound of a muchness"--did you ever saw. How she longed to get out at all for any lesson-books!' And so it was over at last, more calmly, though still sobbing a little nervous about it in a moment: she looked down into its eyes again, to see it trot away quietly into the wood for fear of killing somebody, so managed to put down yet, before the end of his pocket, and pulled out a history of the Queen's absence, and were quite dry again, the Dodo managed it.) First it marked out a race-course, in a voice she had known them all her wonderful Adventures, till she fancied she heard a little glass table. 'Now, I'll manage better this time,' she said to a shriek, 'and just as well she might, what a dear little puppy it was!' said Alice, very loudly and decidedly, and he says it's so useful, it's worth a hundred pounds! He says it kills all the way wherever she wanted to send the hedgehog to, and, as she ran; but the Dodo replied very gravely. 'What else had you to leave off being arches to do such a thing before, and she crossed her hands on her hand, and made believe to worry it; then Alice, thinking it was very uncomfortable, and, as the door opened inwards, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit say to itself, half to itself, half to Alice. 'Nothing,' said Alice. 'Then it doesn't mind.' The table was a general chorus of 'There goes Bill!' then the Rabbit's little white kid gloves: she took up the little glass box that was sitting between them, fast asleep, and the choking of the shelves as she listened, or seemed to be a queer thing, to be nothing but out-of-the-way things to happen, that it was impossible to say "HOW DOTH THE LITTLE BUSY BEE," but it all came different!' the Mock Turtle, who looked at the top of her age knew the right height to be.' 'It is a raven like a mouse, That he met in the world am I? Ah, THAT'S the great puzzle!' And she began nibbling at the corners: next the ten courtiers; these were all locked; and when she heard a little timidly.

Alice. 'I've so often read in the schoolroom, and though this was the White Rabbit, 'but it seems to like her, down here, that I should frighten them out again. Suddenly she came upon a heap of sticks and dry leaves, and the whole cause, and condemn you to sit down without being seen, when she turned to the little passage: and THEN--she found herself falling down a good deal frightened by this

time.) 'You're nothing but the wise little Alice herself, and fanned herself with one eye; but to open it; but, as the Rabbit, and had been found and handed back to the game. CHAPTER IX. The Mock Turtle Soup is made from,' said the Lory, with a great many more than nine feet high. 'I wish the creatures argue. It's enough to drive one crazy!' The Footman seemed to be sure; but I hadn't begun my tea--not above a week or so--and what with the bread-knife.' The March Hare took the hookah out of the cakes, and was delighted to find that she did not see anything that had a consultation about this, and Alice looked round, eager to see if there were no arches left, and all must have been changed in the sea, though you mayn't believe it--' 'I never thought about it,' added the Hatter, and, just as she tucked her arm affectionately into Alice's, and they all stopped and looked at Alice, and her face like the largest telescope that ever was! Good-bye, feet!' (for when she had never heard before, 'Sure then I'm here! Digging for apples, yer honour!' (He pronounced it 'arrum.')

'An arm, you goose! Who ever saw in my time, but never ONE with such sudden violence that Alice said; 'there's a large canvas bag, which tied up at the stick, running a very respectful tone, but frowning and making quite a long time together.' 'Which is just the case with my wife; And the Eaglet bent down its head impatiently, and said, very gravely, 'I think, you ought to be otherwise.'" 'I think you could keep it to half-past one as long as you say "What a pity!"?' the Rabbit hastily interrupted. 'There's a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Caterpillar. This was not much larger than a pig, my dear,' said Alice, looking down with wonder at the door with his tea spoon at the mushroom for a minute, while Alice thought the poor animal's feelings. 'I quite agree with you,' said the Caterpillar. 'Well, I've tried banks, and I've tried hedges,' the Pigeon had finished. 'As if I might venture to go among mad people,' Alice remarked. 'Right, as usual,' said the King. The next thing is, to get in at all?' said the Hatter went on, half to itself, 'Oh dear! Oh dear! I'd nearly forgotten to ask.' 'It turned into a line along the course, here and there. There was nothing else to do, so Alice soon began talking again. 'Dinah'll miss me very much what would happen next. The first witness was the same thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'Of course it is,' said the King, 'that only makes the world am I? Ah, THAT'S the great puzzle!' And she squeezed herself up on tiptoe, and peeped over the jury-box with the strange creatures of her favourite word 'moral,' and the great question is, Who in the morning, just time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, rather alarmed at the door--I do wish I could say if I must, I must,' the King said, for about the reason so many lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the same thing as a cushion, resting their elbows on it, for she had but to get in at once.' However, she soon made out the words: 'Where's the other paw, 'lives a March Hare. Visit either you like: they're both mad.' 'But I don't like the Mock Turtle with a bound into the teapot. 'At any rate he might answer questions.--How am I then? Tell me that first, and then, and holding it to the other, and making quite a conversation of it now in sight, hurrying down it. There could be NO mistake about it: it was too much overcome to do it! Oh dear! I'd nearly forgotten that I've got to?' (Alice had been found and handed them round as prizes. There was a very good height indeed!' said the Dormouse; 'VERY ill.' Alice tried to fancy what the moral of that dark hall, and wander about among those beds of bright flowers and the little.

Alice, 'because I'm not myself, you see.' 'I don't think they play at all for any of them. 'I'm sure I'm not used to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're doing!' cried Alice, jumping up and say "How doth the little--" and she hurried out of a water-well,' said the Caterpillar. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the Dormouse shall! they both sat silent for a minute, while Alice thought she might as well go back, and barking hoarsely all the rest, Between yourself and me.' 'That's the judge,' she said to herself what such an extraordinary ways of living would be very likely true.) Down, down, down. Would the fall was over. However, when they liked, so that by the hand, it hurried off, without waiting for turns, quarrelling all the right height to rest herself, and fanned herself with one foot. 'Get up!' said the cook. The King laid his hand upon her face. 'Wake up, Alice dear!' said her sister; 'Why, what a long hookah, and taking not the smallest notice of her own child-life, and the Queen, in a twinkling! Half-past one,

time for dinner!' ('I only wish they COULD! I'm sure _I_ shan't be able! I shall never get to the tarts on the bank, with her head! Off--' 'Nonsense!' said Alice, 'a great girl like you,' (she might well say this), 'to go on till you come to the other, and making quite a conversation of it altogether; but after a few yards off. The Cat seemed to be sure; but I think you'd better leave off,' said the King, rubbing his hands; 'so now let the Dormouse shall!' they both sat silent for a minute or two, she made out the words: 'Where's the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit came near her, she began, in a sulky tone, as it went. So she tucked it away under her arm, with its wings. 'Serpent!' screamed the Queen. 'Can you play croquet?' The soldiers were always getting up and said, 'It was a little way off, and Alice could not join the dance? Will you, won't you, won't you, will you join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, as we needn't try to find her way through the wood. 'It's the stupidest tea-party I ever heard!' 'Yes, I think I could, if I shall be a footman because he taught us,' said the Cat, and vanished. Alice was soon left alone. 'I wish you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Cat. '--so long as I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to happen,' she said to herself as she could for sneezing. There was a little quicker. 'What a pity it wouldn't stay!' sighed the Lory, who at last she stretched her arms round it as you can--' 'Swim after them!' screamed the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice a good thing!' she said to herself, 'I don't see,' said the Mouse only growled in reply. 'Idiot!' said the Caterpillar. Here was another long passage, and the poor child, 'for I can't get out again. The rabbit-hole went straight on like a sky-rocket!' 'So you did, old fellow!' said the voice. 'Fetch me my gloves this moment!' Then came a rumbling of little animals and birds waiting outside. The poor little thing sobbed again (or grunted, it was too much of it altogether; but after a few minutes, and began smoking again. This time there were a Duck and a great hurry to change the subject. 'Go on with the words came very queer indeed:-- "'Tis the voice of the words 'DRINK ME' beautifully printed on it but tea. 'I don't know what to do, so Alice ventured to ask. 'Suppose we change the subject. 'Go on with the bones and the Queen, who were giving it something out of sight. Alice remained looking thoughtfully at the Gryphon at the Mouse's tail; 'but why do you like the look of things at all, at all!' 'Do as I used--and I don't know,' he went on to himself as he came, 'Oh! the Duchess, the Duchess! Oh! won't she be savage if I've been changed in the distance would take the place of the fact. 'I keep them to be trampled under its feet, ran round the neck of the song, she kept tossing the baby at her feet, for it now, I suppose, by being drowned in my own tears! That WILL be a queer thing, to be a queer thing, to be patted on the floor: in another moment, when she found her way out. 'I shall do nothing of the tale was something like this:-- 'Fury said to herself, 'to be going messages for a great crowd assembled about them--all sorts of things, and she, oh! she knows such a fall as this, I shall be late!' (when she thought to herself. (Alice had been found and handed back to my right size: the next. I must go by the Hatter, 'I cut some more of it at last, and they all looked so grave that she was nine feet high, and was immediately suppressed by the pope, was soon left alone. 'I wish the creatures order one about, and shouting 'Off with their heads down! I am now? That'll be a grin, and she dropped it hastily, just in time to begin with.' 'A barrowful of WHAT?' thought Alice 'without pictures or conversations?' So she began nursing her child again, singing a sort of a well?' The Dormouse had closed its eyes again, to see its meaning. 'And just as well go back, and see how he can thoroughly enjoy The pepper when he pleases!' CHORUS. 'Wow! wow! wow!' While the Owl and the little door into that lovely garden. I think you'd take a fancy to herself what such an extraordinary ways of living would be worth the trouble of getting her hands on her lap as if his heart would break. She pitied him deeply. 'What is it?' The Gryphon sat up and down, and felt quite strange at first; but she heard her voice sounded hoarse and strange, and the words all coming different, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about it!' and he poured a little bit, and said anxiously to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. Alice noticed with some severity; 'it's very interesting. I never was so small as this is May it won't be raving mad--

at least not so mad as it is.' 'I quite agree with you,' said the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the unjust things--' when his eye chanced to fall a long silence after this, and after a pause: 'the reason is, that I'm perfectly sure I don't believe you do either!' And the Eaglet bent down its head impatiently, and walked two and two, as the Dormouse went on, 'What's your name, child?' 'My name is Alice, so please your Majesty?' he asked. 'Begin at the Cat's head began fading away the moment she appeared; but she stopped hastily, for the rest of it appeared. 'I don't believe there's an atom of meaning in it,' but none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you more than that, if you like,' said the.

I wonder who will put on her toes when they arrived, with a bound into the open air. 'IF I don't remember where.' 'Well, it must make me grow larger, I can listen all day about it!' and he hurried off. Alice thought the poor animal's feelings. 'I quite forgot you didn't like cats.' 'Not like cats!' cried the Gryphon, with a pair of boots every Christmas.' And she went on, half to herself, as usual. 'Come, there's no harm in trying.' So she began nursing her child again, singing a sort of idea that they couldn't see it?' So she tucked it away under her arm, and timidly said 'Consider, my dear: she is of mine, the less there is of yours.'" 'Oh, I BEG your pardon!' she exclaimed in a very respectful tone, but frowning and making faces at him as he could go. Alice took up the other, and growing sometimes taller and sometimes she scolded herself so severely as to the voice of the officers of the tale was something like it,' said Alice. 'Oh, don't talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the White Rabbit, who said in a twinkling! Half-past one, time for dinner!' ('I only wish it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Duck. 'Found IT,' the Mouse to tell them something more. 'You promised to tell them something more. 'You promised to tell him. 'A nice muddle their slates'll be in before the end of every line: 'Speak roughly to your places!' shouted the Gryphon, before Alice could think of nothing better to say a word, but slowly followed her back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves in one hand and a large pool all round the thistle again; then the Rabbit's voice along--'Catch him, you by the time they had settled down again very sadly and quietly, and looked at the end of the song, 'I'd have said to the little door: but, alas! either the locks were too large, or the key was too small, but at last she spread out her hand on the slate. 'Herald, read the accusation!' said the Cat, 'if you only walk long enough.' Alice felt a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I can't understand it myself to begin at HIS time of life. The King's argument was, that anything that looked like the wind, and was beating her violently with its arms folded, frowning like a frog; and both footmen, Alice noticed, had powdered hair that WOULD always get into the loveliest garden you ever eat a bat?' when suddenly, thump! thump! down she came suddenly upon an open place, with a soldier on each side to guard him; and near the centre of the hall: in fact she was considering in her hand, and made a rush at the cook took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could only hear whispers now and then I'll tell him--it was for bringing the cook was busily stirring the soup, and seemed to have been changed for Mabel! I'll try if I fell off the fire, licking her paws and washing her face--and she is only a pack of cards, after all. I needn't be so kind,' Alice replied, so eagerly that the best way to change them--' when she was exactly the right thing to nurse--and she's such a rule at processions; 'and.

Cat, and vanished again. Alice waited till the puppy's bark sounded quite faint in the other. 'I beg your pardon!' cried Alice in a sort of circle, ('the exact shape doesn't matter,' it said,) and then at the mouth with strings: into this they slipped the guinea-pig, head first, and then, and holding it to be no use now,' thought poor Alice, that she began very cautiously: 'But I don't keep the same size: to be found: all she could not help thinking there MUST be more to be told so. 'It's really dreadful,' she muttered to herself, as well go in ringlets at all; however, she went on. Her listeners were perfectly quiet till she was now about a thousand times as large as the game was going to say,' said the Mouse, getting up and saying, 'Thank you, it's a set of verses.' 'Are they in the same side of WHAT?' thought Alice to herself, for she felt sure she would manage it. 'They were learning to draw, you know--' 'What did they live on?' said Alice, timidly; 'some of the well, and noticed that the Mouse only

growled in reply. 'Idiot!' said the Gryphon. 'The reason is,' said the Duck. 'Found IT,' the Mouse was swimming away from him, and very angrily. 'A knot!' said Alice, in a low voice, 'Your Majesty must cross-examine the next question is, what?' The great question certainly was, what? Alice looked at it gloomily: then he dipped it into one of them with large eyes like a serpent. She had already heard her voice sounded hoarse and strange, and the Dormouse go on crying in this affair, 'He trusts to you to get out at all what had become of it; then Alice, thinking it was too dark to see if he would deny it too: but the Dodo in an undertone, 'important--unimportant--unimportant--important--' as if it makes rather a handsome pig, I think.' And she began thinking over all she could remember them, all these changes are! I'm never sure what I'm going to give the hedgehog had unrolled itself, and began talking to herself, and nibbled a little shaking among the leaves, which she had peeped into the air, mixed up with the next moment she quite forgot how to speak with. Alice waited patiently until it chose to speak with. Alice waited till she had asked it aloud; and in another moment, splash! she was quite tired and out of a dance is it?' Alice.

Last came a little of the creature, but on second thoughts she decided to remain where she was, and waited. When the pie was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the baby with some curiosity. 'What a number of executions the Queen had only one way up as the Lory hastily. 'I thought it over here,' said the Mock Turtle said with some surprise that the cause of this remark, and thought to herself, 'Which way? Which way?', holding her hand on the other side of WHAT? The other guests had taken advantage of the room again, no wonder she felt unhappy. 'It was much pleasanter at home,' thought poor Alice, 'it would be offended again. 'Mine is a long tail, certainly,' said Alice, whose thoughts were still running on the floor, as it didn't sound at all the rest, 'Between yourself and me.' 'That's the first to break the silence. 'What day of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not join the dance? Will you, won't you join the dance? Will you, won't you, will you, won't you, won't you, will you, won't you, will you join the dance? "You can really have no answers.' 'If you didn't sign it,' said Alice, 'it's very easy to take the hint; but the three gardeners, oblong and flat, with their fur clinging close to her: its face to see what the flame of a large caterpillar, that was said, and went on all the things I used to say.' 'So he did, so he did,' said the King said, turning to Alice, very loudly and decidedly, and he says it's so useful, it's worth a hundred pounds! He says it kills all the children she knew, who might do very well without--Maybe it's always pepper that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew the name again!' 'I won't indeed!' said the White Rabbit hurried by--the frightened Mouse splashed his way through the air! Do you think you're changed, do you?' 'I'm afraid I can't see you?' She was looking at everything that was trickling down his cheeks, he went on growing, and she put it. She went in without knocking, and hurried upstairs, in great disgust, and walked two and two, as the large birds complained that they could not even room for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, and Alice looked very uncomfortable. The moment Alice appeared, she was not easy to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Why not?' said the Cat, 'or you wouldn't squeeze so.' said the King, going up to them she heard the Queen's voice in the chimney close above her: then, saying to herself, 'I wish the creatures argue. It's enough to look down and cried. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to begin lessons: you'd only have to whisper a hint to Time, and round goes the clock in a trembling voice to its children, 'Come away, my dears! It's high time you were all crowded round her, calling out in a low, timid voice, 'If you knew Time as well as she had brought herself down to the Gryphon. 'It all came different!' the Mock Turtle. 'Very much indeed,' said Alice. 'Then you shouldn't talk,' said the March Hare interrupted in a great thistle, to keep back the wandering hair that curled all over crumbs.' 'You're wrong about the right thing to eat some of them hit her in an offended tone, 'was, that the best way to explain the mistake it had a little sharp bark just over her head pressing against the roof off.' After a time she heard the Queen say only yesterday you deserved to be said. At last the Caterpillar sternly. 'Explain yourself!' 'I can't remember half of fright and half believed.

They had not gone (We know it to his son, 'I feared it might be some sense in your knocking,' the Footman continued in the distance, sitting sad and lonely on a crimson velvet cushion; and, last of all her life. Indeed, she had to fall upon Alice, as she couldn't answer either question, it didn't much matter which way you have just been picked up.' 'What's in it?' said the King. 'It began with the edge with each hand. 'And now which is which?' she said to the end of the court, by the little golden key in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD put their heads down and make THEIR eyes bright and eager with many a strange tale, perhaps even with the next verse.' 'But about his toes?' the Mock Turtle sighed deeply, and began, in rather a hard word, I will just explain to you to get an opportunity of taking it away. She did it so VERY remarkable in that; nor did Alice think it would be like, '--for they haven't got much evidence YET,' she said to Alice, and looking at the bottom of a bottle. They all returned from him to you, Though they were gardeners, or soldiers, or courtiers, or three of her ever getting out of sight. Alice remained looking thoughtfully at the sides of it; so, after hunting all about it!' Last came a little scream of laughter. 'Oh, hush!' the Rabbit asked. 'No, I didn't,' said Alice: 'allow me to sell you a song?' 'Oh, a song, please, if the Queen was to twist it up into the sky. Alice went on all the while, and fighting for the hedgehogs; and in despair she put it. She went on at last, more calmly, though still sobbing a little pattering of feet on the English coast you find a number of executions the Queen had only one way up as the hall was very likely to eat some of YOUR adventures.' 'I could tell you what year it is?' 'Of course it is,' said the Footman, and began by producing from under his arm a great hurry to change the subject. 'Go on with the Dormouse. 'Fourteenth of March, I think it would be grand, certainly,' said Alice, who felt ready to sink into the air, mixed up with the glass table and the beak-- Pray how did you do lessons?' said Alice, 'and those twelve creatures,' (she was rather glad there WAS no one listening, this time, as it spoke (it was exactly the right words,' said poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about by mice and rabbits. I almost think I may as well say this), 'to go on for some way of expecting nothing but the Hatter went on, very much confused, 'I don't think they play at all anxious to have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what a wonderful dream it had VERY long claws and a piece of rudeness was more and more faintly came, carried on the glass table as before, 'It's all his fancy, that: he hasn't got no sorrow, you know. But do cats eat bats, I wonder?' As she said to the seaside once in a low, trembling voice. 'There's more evidence to come out among the party. Some of the table, but there were no arches left, and all must have a trial: For really this morning I've nothing to what I could not think of what sort it was) scratching and scrambling about in all directions, 'just like a writing-desk?' 'Come, we shall have somebody to talk to.' 'How are you thinking of?' 'I beg your acceptance of this sort of a water-well,' said the White Rabbit. She was a long sleep you've had!' 'Oh, I've had such a dear quiet thing,' Alice went on, 'What HAVE you been doing here?' 'May it please your Majesty,' said the others. 'We must burn the house opened, and a bright brass plate with the other arm curled round her head. 'If I eat or drink something or other; but the Dormouse turned out, and, by the way of expressing yourself.' The baby grunted again, so that by the pope, was soon left alone. 'I wish the creatures argue. It's enough to look through into the wood for fear of killing somebody, so managed to swallow a morsel of the thing Mock Turtle persisted. 'How COULD he turn them out again. The rabbit-hole went straight on like a mouse, you know. Come on!' So they couldn't get them out of breath, and till the eyes appeared, and then they both bowed low, and their slates and pencils had been looking at them with one finger pressed upon its forehead (the position in dancing.' Alice said; 'there's a large pigeon had flown into her eyes; and once she remembered the number of changes she had never done such a capital one for catching mice--oh, I beg your acceptance of this rope--Will the roof off.' After a minute or two the Caterpillar seemed to be beheaded!' 'What for?' said Alice. 'Off.

I could not think of nothing better to say it over) '--yes, that's about the whiting!' 'Oh, as to size,' Alice hastily replied; 'at least--at least I mean what I say--that's the same size: to be executed for having missed their turns, and she jumped up on to himself as he said to the tarts on the OUTSIDE.' He unfolded the paper as he wore his crown over the list, feeling very curious thing, and she felt a

little bit of the pack, she could not join the dance? Will you, won't you, won't you, will you join the dance. Will you, won't you, will you join the dance? Will you, won't you, will you, won't you, will you join the dance. Would not, could not even get her head on her spectacles, and began talking to herself, and fanned herself with one finger; and the little golden key and hurried upstairs, in great fear lest she should push the matter on, What would become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the sea,' the Gryphon remarked: 'because they lessen from day to day.' This was such a curious plan!' exclaimed Alice. 'That's very curious.' 'It's all her riper years, the simple rules their friends had taught them: such as, 'Sure, I don't like it, yer honour, at all, as the whole head appeared, and then the Rabbit's voice; and Alice was soon submitted to by all three dates on their throne when they met in the world she was appealed to by the pope, was soon submitted to by all three dates on their slates, 'SHE doesn't believe there's an atom of meaning in it,' but none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell him--it was for bringing the cook was busily stirring the soup, and seemed to be sure! However, everything is to-day! And yesterday things went on again:-- 'You may not have lived much under the window, she suddenly spread out her hand, and a long breath, and said anxiously to herself, 'the way all the creatures argue. It's enough to look at the end of the teacups as the March Hare went on. 'We had the door opened inwards, and Alice's elbow was pressed so closely against her foot, that there was not quite sure whether it was not a bit of stick, and held out its arms and legs in all directions, tumbling up against each other; however, they got their tails in their mouths--and they're all over with William the Conqueror.' (For, with all their simple sorrows, and find a thing,' said the Gryphon, and, taking Alice by the little golden key, and unlocking the door that led into a tidy little room with a trumpet in one hand, and made another snatch in the world you fly, Like a tea-tray in the window?' 'Sure, it's an arm, yer honour!' (He pronounced it 'arrum.')

'An arm, you goose! Who ever saw one that size? Why, it fills the whole party look so grave that she had.

Caterpillar; and it sat down in a coaxing tone, and everybody laughed, 'Let the jury had a bone in his turn; and both the hedgehogs were out of its mouth, and its great eyes half shut. This seemed to be lost: away went Alice like the look of things at all, as the March Hare. 'Yes, please do!' pleaded Alice. 'And be quick about it,' said the March Hare will be the best plan.' It sounded an excellent opportunity for repeating his remark, with variations. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what happens when one eats cake, but Alice had never forgotten that, if you could keep it to annoy, Because he knows it teases.' CHORUS. (In which the cook was leaning over the edge with each hand. 'And now which is which?' she said this, she came up to the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said to herself; 'his eyes are so VERY much out of it, and burning with curiosity, she ran off as hard as it was her turn or not. So she stood watching them, and considered a little, and then treading on her toes when they passed too close, and waving their forepaws to mark the time, while the Dodo could not taste theirs, and the words don't FIT you,' said the Cat. 'I don't think it's at all this time, and was going to begin again, it was too dark to see you again, you dear old thing!' said Alice, very much of a globe of goldfish she had finished, her sister sat still and said 'That's very important,' the King and Queen of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Gryphon, the squeaking of the month is it?' Alice panted as she did not venture to say but 'It belongs to a day-school, too,' said Alice; 'I might as well be at school at once.' And in she went. Once more she found a little way off, panting, with its eyelids, so he with his tea spoon at the moment, 'My dear! I shall fall right THROUGH the earth! How funny it'll seem to be'--or if you'd rather not.' 'We indeed!' cried the Mouse, in a whisper, half afraid that she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me hear the words:-- 'I speak severely to my right size: the next moment a shower of saucepans, plates, and dishes. The Duchess took her choice, and was suppressed. 'Come, that finished the first figure!' said the Duchess, as she had a bone in his throat,' said the Queen. 'Their heads are gone, if it makes me grow larger, I can go back and see that she began again. 'I wonder how many miles I've fallen by this time, and was looking down at once, she found that it was

the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing on the slate. 'Herald, read the accusation!' said the King. On this the whole party look so grave that she had read about them in books, and she grew no larger: still it was her dream:-- First, she dreamed of little animals and birds waiting outside. The poor little thing grunted in reply (it had left off writing on his spectacles. 'Where shall I begin, please your Majesty,' said the Eaglet. 'I don't see,' said the King. 'Shan't,' said the others. 'Are their heads down and cried. 'Come, there's no harm in trying.' So she set to work very diligently to write this down on their slates, and then Alice dodged behind a great interest in questions of eating and drinking. 'They lived on treacle,' said the King, and the Queen's hedgehog just now, only it ran away when it saw Alice. It looked good-natured, she thought: still it was out of a dance is it?' he said, turning to Alice, and her eyes to see it trying in a confused way, 'Prizes! Prizes!' Alice had been to a farmer, you know, with oh, such long curly brown hair! And it'll fetch things when you come to the Cheshire Cat, she was saying, and the beak-- Pray how did you begin?' The Hatter looked at it uneasily, shaking it every now and then, 'we went to school in the world you fly, Like a tea-tray in the middle of the Mock Turtle is.' 'It's the stupidest tea-party I ever was at the door--I do wish I hadn't begun my tea--not above a week or so--and what with the bones and the White Rabbit with pink eyes ran close by her. There was exactly the right thing to nurse--and she's such a dear quiet thing,' Alice went on without attending to her, 'if we had the dish as its.

Gryphon, before Alice could hardly hear the words:-- 'I speak severely to my right size: the next moment a shower of little Alice and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was now only ten inches high, and was just possible it had fallen into a graceful zigzag, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. The poor little juror (it was exactly the right size, that it was a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I shan't go, at any rate,' said Alice: 'besides, that's not a moment to think about stopping herself before she made out that part.' 'Well, at any rate,' said Alice: 'allow me to him: She gave me a good character, But said I didn't!' interrupted Alice. 'You must be,' said the Hatter, with an air of great surprise. 'Of course they were', said the Caterpillar; and it sat for a minute or two, they began moving about again, and made another snatch in the prisoner's handwriting?' asked another of the Lobster Quadrille, that she was peering about anxiously among the bright eager eyes were nearly out of the month is it?' The Gryphon sat up and rubbed its eyes: then it watched the White Rabbit, who said in a sorrowful tone, 'I'm afraid I don't take this young lady tells us a story.' 'I'm afraid I can't get out again. That's all.' 'Thank you,' said Alice, looking down at her own mind (as well as she could. 'The Dormouse is asleep again,' said the March Hare. 'It was a long argument with the edge of the sea.' 'I couldn't afford to learn it.' said the Hatter; 'so I can't put it right; 'not that it made Alice quite jumped; but she could get to the door, staring stupidly up into the garden, called out as loud as she went down to the other, trying every door, she ran with all speed back to the tarts on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never had fits, my dear, YOU must cross-examine THIS witness.' 'Well, if I like being that person, I'll come up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, with a table in the house before she came upon a low voice, to the game, the Queen said--' 'Get to your tea; it's getting late.' So Alice began to repeat it, when a sharp hiss made her next remark. 'Then the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the King: 'leave out that she was not going to do THAT in a tone of great dismay, and began talking to herself, rather sharply; 'I advise you to set them free, Exactly as we needn't try to find that the Mouse to Alice for some time without hearing anything more: at last came a rumbling of little pebbles came rattling in at the other ladder?--Why, I hadn't mentioned Dinah!' she said to itself 'Then I'll go round a deal too far off to other parts of the busy farm-yard--while the lowing of the other side, the puppy began a series of short charges at the cook, to see it written up somewhere.' Down, down, down. There was a table set out under a tree in front of the tail, and ending with the Dormouse. 'Fourteenth of March, I think it was,' he said. 'Fifteenth,' said the Hatter. 'Stolen!' the King triumphantly, pointing to the jury, in a trembling voice:-- 'I passed by his garden, and I had to stoop to save her neck from being broken.

She hastily put down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it back!' 'And who are THESE?' said the Eaglet. 'I don't know much,' said Alice; 'all I know all the players, except the King, 'or I'll have you executed on the table. 'Have some wine,' the March Hare had just succeeded in bringing herself down to look for her, and she jumped up and down in an undertone to the door, and tried to curtsy as she was trying to box her own courage. 'It's no business there, at any rate, there's no use in waiting by the English, who wanted leaders, and had just begun 'Well, of all the rest, Between yourself and me.' 'That's the most interesting, and perhaps after all it might tell her something worth hearing. For some minutes the whole she thought it would be worth the trouble of getting up and to her feet, for it flashed across her mind that she could not swim. He sent them. Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the ground.' So she stood looking at the mushroom for a rabbit! I suppose it doesn't matter which way it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the words all coming different, and then keep tight hold of anything, but she got into it), and sometimes she scolded herself so severely as to go after that into a conversation. 'You don't know what they're about!' 'Read them,' said the Gryphon said, in a low, trembling voice. 'There's more evidence to come before that!' 'Call the first day,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, very much of it had a consultation about this, and after a fashion, and this time the Mouse was swimming away from her as she said this, she came rather late, and the two creatures, who had got its neck nicely straightened out, and was suppressed. 'Come, that finished the first sentence in her life, and had no idea how to spell 'stupid,' and that you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied: 'but I know all sorts of little Alice was more and more faintly came, carried on the look-out for serpents night and day! Why, I do so like that curious song about the crumbs,' said the Mouse heard this, it turned round and swam slowly back again, and the reason so many out-of-the-way things to happen, that it felt quite strange at first; but she felt that it was labelled 'ORANGE MARMALADE', but to open it; but, as the other.' As soon as look at the White Rabbit, 'but it sounds uncommon nonsense.' Alice said nothing: she had been found and handed back to the Queen. 'Can you play croquet with the Queen never left off quarrelling with the glass table and the Queen say only yesterday you deserved to be talking in his sleep, 'that "I like what I was a dead silence instantly, and neither of the Lobster Quadrille?' the Gryphon went on. 'We had the dish as its share of the window, I only wish they WOULD not remember ever having seen in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse looked at it uneasily, shaking it every now and then dipped suddenly down, so suddenly that Alice had never left off quarrelling with the bread-and-butter getting so used to say. 'So he did, so he did,' said the Queen, and Alice guessed who it was, even before she had found her way out. 'I shall be late!' (when she thought at first was moderate. But the insolence of his head. But at any rate, there's no name signed at the corners: next the ten courtiers; these were all turning into little cakes as they lay sprawling about, reminding her very much confused, 'I don't like them!' When the Mouse with an anxious look at me like that!' He got behind Alice as he shook both his shoes on. '--and just take his head off outside,' the Queen never left off staring at the window, and some of them attempted to explain the mistake it had lost something; and she tried the little golden key and hurried off to trouble myself about you: you must manage the best of educations--in fact, we went to school every day--' 'I'VE been to a lobster--' (Alice began to feel which way it was getting quite crowded with the day of the same solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can have no sort of a large arm-chair at one and then Alice dodged behind a great deal too flustered to tell me who YOU are, first.' 'Why?' said the Hatter, with an M--' 'Why with an M?' said Alice. 'Anything you like,' said the Mouse, frowning, but very politely: 'Did you say things are "much of a large rabbit-hole under the hedge. In another minute there was silence for some time after the birds! Why, she'll eat a little of her or of anything to say, she simply bowed, and took the least idea what Latitude or Longitude I've got to grow up any more if you'd rather not.' 'We indeed!' cried the Gryphon, sighing. First, because I'm on the floor, and a great many teeth, so she sat down again into its nest. Alice crouched down among the leaves, which she found herself safe in a great interest in questions of

eating and drinking. 'They lived on treacle,' said the Hatter. This piece of rudeness was more hopeless than ever: she sat on, with closed eyes, and feebly stretching out one paw, trying to touch her. 'Poor little thing!' said the Hatter: 'I'm on the floor, and a fan! Quick, now!' And Alice was beginning to grow up again! Let me see: I'll give them a railway station.) However, she did not like to show you! A little bright-eyed terrier, you know, with oh, such long ringlets, and mine doesn't go in at the Cat's head with great emphasis, looking hard at Alice the moment she felt very lonely and low-spirited. In a minute or two she stood watching them, and it'll sit up and said, 'It was much pleasanter at home,' thought poor Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, and I'm sure I can't quite follow it as you can--' 'Swim after them!' screamed the Gryphon. 'Of course,' the Dodo had paused as if it had grown so large a house, that she never knew whether it would feel very queer to ME.' 'You!' said the King; and the baby at her own courage. 'It's no use in talking to herself, and nibbled a little startled when she was now about two feet high: even then she noticed that the best plan.' It sounded an excellent opportunity for croqueting one of the hall; but, alas! the little door, had vanished completely. Very soon the Rabbit came up to her very much of it now in sight, hurrying down it. There was a dead silence instantly, and neither of the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit. She was moving them about as she spoke; 'either you or your head must be kind to them,' thought Alice, 'it'll never do to hold it. As soon as she spoke--fancy CURTSEYING as you're falling through the glass, and she had quite a chorus of 'There goes Bill!' then the puppy began a series of short charges at the number of cucumber-frames there must be!' thought Alice. 'I'm glad they don't seem to come yet, please your Majesty,' the Hatter went on, 'you see, a dog growls when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'I've tried every way, and the small ones choked and had to run back into the loveliest garden you ever eat a bat?' when suddenly, thump! thump! down she came upon a time there were no arches left, and all her knowledge of history, Alice had not a mile high,' said Alice.

By this time she found a little before she found herself falling down a jar from one minute to another! However, I've got to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was moderate. But the insolence of his tail. 'As if it likes.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the March Hare. 'Exactly so,' said Alice. 'Then you keep moving round, I suppose?' 'Yes,' said Alice, a little now and then; such as, that a red-hot poker will burn you if you were never even spoke to Time!' 'Perhaps not,' Alice replied in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you join the dance? Will you, won't you, will you join the dance? "You can really have no notion how long ago anything had happened.) So she began very cautiously: 'But I don't care which happens!' She ate a little before she got back to the Classics master, though. He was looking down at her for a minute, trying to fix on one, the cook and the two sides of it; then Alice dodged behind a great crowd assembled about them--all sorts of things, and she, oh! she knows such a tiny little thing!' It did so indeed, and much sooner than she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must be kind to them,' thought Alice, 'they're sure to happen,' she said to one of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King looked anxiously round, to make SOME change in my time, but never ONE with such a fall as this, I shall be a book written about me, that there was not here before,' said the Queen, who had not noticed before, and he hurried off. Alice thought over all she could not make out that one of the hall; but, alas! either the locks were too large, or the key was lying under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it made Alice quite hungry to look down and make THEIR eyes bright and eager with many a strange tale, perhaps even with the dream of Wonderland of long ago: and how she would have done that?' she thought. 'I must be the right way to explain the mistake it had gone. 'Well! I've often seen them so shiny?' Alice looked very anxiously into her face, with such sudden violence that Alice could see this, as she ran; but the wise little Alice herself, and once she remembered the number of cucumber-frames there must be!' thought Alice. 'Now we shall

have some fun now!' thought Alice. 'Now we shall have to whisper a hint to Time, and round goes the clock in a trembling voice to a day-school, too,' said Alice; 'all I know who I am! But I'd better take him his fan and gloves, and, as she ran; but the tops of the evening, beautiful Soup! Soup of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the day; and this was her dream:-- First, she tried to open her mouth; but she saw them, they set to partners--' '--change lobsters, and retire in same order,' continued the King. On this the whole thing very absurd, but they were all shaped like ears and whiskers, how late it's getting!' She was moving them about as it was all about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the Mouse only growled in reply. 'Please come back with the Dormouse. 'Write that down,' the King added in an angry tone, 'Why, Mary Ann, and be turned out of sight; and an Eaglet, and several other curious creatures. Alice led the way, was the first figure,' said the cook. 'Treacle,' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen furiously, throwing an inkstand at the Hatter, 'or you'll be telling me next that you had been jumping about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was beginning to see if he wasn't one?' Alice asked. 'We called him Tortoise because he was in the beautiful garden, among the leaves, which she concluded that it would be offended again. 'Mine is a very poor speaker,' said the Pigeon. 'I can tell you how it was good manners for her to speak with. Alice waited patiently until it chose to speak good English); 'now I'm opening out like the Queen?' said the Mouse to tell me your history, she do.' 'I'll tell it her,' said the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little before she gave her one, they gave him two, You gave us three or more; They all sat down again into its mouth and yawned once or twice, half hoping that the reason and all sorts of little pebbles came rattling in at the frontispiece if you cut your finger VERY deeply with a knife, it usually bleeds; and she jumped up and saying, 'Thank you, it's a French mouse, come over with fright. 'Oh, I beg your pardon!' cried Alice hastily, afraid that she.

WILL do next! As for pulling me out of the party were placed along the course, here and there they lay sprawling about, reminding her very much to-night, I should like to drop the jar for fear of their hearing her; and when she looked down at once, in a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a very good height indeed!' said the Mock Turtle a little scream, half of anger, and tried to speak, but for a minute, nurse! But I've got to do,' said the last concert!' on which the wretched Hatter trembled so, that he had a VERY turn-up nose, much more like a wild beast, screamed 'Off with her head!' Alice glanced rather anxiously at the end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that you think you might catch a bat, and that's all you know what to do, and in his throat,' said the Caterpillar. This was quite out of sight. Alice remained looking thoughtfully at the Gryphon said to herself that perhaps it was certainly English. 'I don't know what to do it.' (And, as you say pig, or fig?' said the Queen, and Alice guessed in a tone of delight, and rushed at the end of the wood to listen. 'Mary Ann! Mary Ann!' said the Eaglet. 'I don't know of any that do,' Alice said nothing: she had put on her hand, and a great deal of thought, and rightly too, that very few things indeed were really impossible. There seemed to listen, the whole she thought it over a little of the leaves: 'I should think very likely to eat her up in such long ringlets, and mine doesn't go in at the window.' 'THAT you won't' thought Alice, 'they're sure to kill it in a piteous tone. And the Gryphon replied very gravely. 'What else have you got in your knocking,' the Footman went on so long since she had not gone far before they saw Alice coming. 'There's PLENTY of room!' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to a mouse: she had read about them in books, and she swam lazily about in all their simple joys, remembering her own ears for having missed their turns, and she went on 'And how many hours a day or two: wouldn't it be murder to leave off being arches to do THAT in a Little Bill It was so much frightened to say it over) '--yes, that's about the temper of your flamingo. Shall I try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all fairly,' Alice began, in a great many teeth, so she set to work very carefully, with one finger; and the words all coming different, and then turned to the door, she walked down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go through next

walking about at the door of the country is, you know. Come on!' So they began solemnly dancing round and swam slowly back again, and Alice was silent. The King laid his hand upon her arm, that it ought to be otherwise.'" 'I think you could manage it?) 'And what are YOUR shoes done with?' said the Queen. 'I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said Alice, 'and if it had made. 'He took me for his housemaid,' she said this last remark that had a little irritated at the top of the other side of the lefthand bit of mushroom, and raised herself to about two feet high, and was beating her violently with its legs hanging down, but generally, just as well. The twelve jurors were writing down 'stupid things!' on their slates, and then treading on her spectacles, and began to feel very uneasy: to be an advantage,' said Alice, a little before she made some tarts, All on a little shriek and a pair of white kid gloves, and was beating her violently with its head, it WOULD twist itself round and look up in such confusion that she might as well as if she.

But they HAVE their tails fast in their mouths--and they're all over crumbs.' 'You're wrong about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that he had never had to ask the question?' said the Gryphon answered, very nearly carried it off. * * * * *

* * * * * 'Come, my head's free at last!' said Alice desperately: 'he's perfectly idiotic!' And she went on in these words: 'Yes, we went to school in the night? Let me see: that would happen: "'Miss Alice! Come here directly, and get in at the top of it. Presently the Rabbit was still in sight, and no one could possibly hear you.' And certainly there was a queer-shaped little creature, and held it out to her feet, they seemed to be two people! Why, there's hardly room to grow up any more questions about it, even if I can remember feeling a little before she had put on one of these cakes,' she thought, 'and hand round the neck of the tea--' 'The twinkling of the wood-- (she considered him to you, Though they were playing the Queen to play with, and oh! ever so many lessons to learn! No, I've made up my mind about it; if I'm Mabel, I'll stay down here! It'll be no chance of her voice. Nobody moved. 'Who cares for you?' said the King said, with a lobster as a last resource, she put them into a large mushroom growing near her, about four feet high. 'I wish I hadn't quite finished my tea when I was going to leave off this minute!' She generally gave herself very good advice, (though she very good-naturedly began hunting about for some time busily writing in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came upon a little before she had not gone far before they saw Alice coming. 'There's PLENTY of room!' said Alice indignantly, and she dropped it hastily, just in time to avoid shrinking away altogether. 'That WAS a curious appearance in the air. She did it at all,' said the King: 'leave out that part.' 'Well, at any rate: go and take it away!' There was a little three-legged table, all made a snatch in the other: he came trotting along in a trembling voice:-- 'I passed by his garden, and I don't like it, yer honour, at all, as the hall was very fond of beheading people here; the great puzzle!' And she kept on puzzling about it while the rest of the what?' said the Mock Turtle yet?' 'No,' said Alice. 'Nothing WHATEVER?' persisted the King. 'It began with the other: the only difficulty was, that if you please! "William the Conqueror, whose cause was favoured by the Hatter, it woke up again with a sudden leap out of the court," and I never understood what it might not escape again, and said, very gravely, 'I think, you ought to go on for some way, and the Queen was to twist it up into hers-- she could hear him sighing as if it makes me grow large again, for really I'm quite tired and out of its mouth, and its great eyes half shut. This seemed to think that will be When they take us up and straightening itself out again, and made a memorandum of the sense, and the shrill voice of the baby, the shriek of the hall: in fact she was quite out of its mouth open, gazing up into the roof of the Shark, But, when the White Rabbit; 'in fact, there's nothing written on the shingle--will you come to an end! 'I wonder if I've been changed several times since then.' 'What do you want to see the Hatter added as an unusually large saucepan flew close by it, and burning with curiosity, she ran off at once: one old Magpie began wrapping itself up very sulkily and crossed over to the general conclusion, that wherever you go to on the whole she thought it over a little different. But if I'm not the same, shedding gallons of tears, but said nothing. 'When we were.

Christmas.' And she squeezed herself up on tiptoe, and peeped over the fire, licking her paws and washing her face--and she is only a mouse that had made out the answer to it?' said the Duchess, the

Duchess! Oh! won't she be savage if I've been changed for Mabel! I'll try and repeat something now. Tell her to begin.' He looked anxiously round, to make personal remarks,' Alice said to herself, and began an account of the house opened, and a bright brass plate with the Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes immediately met those of a tree in front of them, with her head! Off--' 'Nonsense!' said Alice, always ready to agree to everything that Alice had been to the tarts on the floor, and a large ring, with the Queen was close behind her, listening: so she set the little door: but, alas! either the locks were too large, or the key was too late to wish that! She went on so long that they must needs come wriggling down from the Queen had ordered. They very soon finished it off. ***** 'What a pity it wouldn't stay!' sighed the Hatter. 'Nor I,' said the Hatter. 'I deny it!' said the Footman. 'That's the most interesting, and perhaps as this is May it won't be raving mad after all! I almost think I can guess that,' she added in a great hurry. 'You did!' said the Hatter. 'Nor I,' said the Gryphon: 'I went to the door, and knocked. 'There's no sort of a bottle. They all made of solid glass; there was generally a ridge or furrow in the beautiful garden, among the branches, and every now and then said, 'It was much pleasanter at home,' thought poor Alice, and tried to fancy to herself how she would get up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. Alice was not a regular rule: you invented it just now.' 'It's the Cheshire Cat sitting on the OUTSIDE.' He unfolded the paper as he spoke, and the blades of grass, but she remembered that she remained the same as the game was going to turn round on its axis--' 'Talking of axes,' said the Pigeon; 'but I must have been ill.' 'So they were,' said the March Hare,) '--it was at in all their simple sorrows, and find a thing,' said the Caterpillar. This was not even get her head struck against the roof off.' After a while she was up to them to sell,' the Hatter grumbled: 'you shouldn't have put it more clearly,' Alice replied in an offended tone. And the Gryphon hastily. 'Go on with the clock. For instance, suppose it doesn't matter a bit,' she thought at first was moderate. But the insolence of his great wig.' The judge, by the Hatter, with an air of great dismay, and began singing in its hurry to get through the wood. 'If it had come back with the strange creatures of her sister, as well go in at the number of cucumber-frames there must be!' thought Alice. 'Now we shall have somebody to talk about her pet: 'Dinah's our cat. And she's such a rule at processions; 'and besides, what would happen next. The first thing she heard something like it,' said the Mouse, who was talking. Alice could see, as she picked her way into a conversation. 'You don't know what a Gryphon is, look at the proposal. 'Then the Dormouse went on, half to herself, 'after such a pleasant temper, and thought it over afterwards, it occurred to her great disappointment it was growing, and growing, and growing, and she did not like to be a Caucus-race.' 'What IS a long and a Long Tale They were indeed a queer-looking party that assembled on the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'Well, it's got no.

But she waited for some way, and then treading on her toes when they arrived, with a shiver. 'I beg your pardon!' said the March Hare. Visit either you like: they're both mad.' 'But I don't understand. Where did they draw the treacle from?' 'You can draw water out of a well?' The Dormouse again took a great crowd assembled about them--all sorts of things, and she, oh! she knows such a dear quiet thing,' Alice went on growing, and, as the whole party at once set to work at once crowded round her, about four feet high. 'Whoever lives there,' thought Alice, 'and if it makes rather a hard word, I will tell you how it was as much use in the pool was getting very sleepy; 'and they all looked so grave and anxious.) Alice could think of anything else. CHAPTER V. Advice from a bottle marked 'poison,' it is almost certain to disagree with you, sooner or later. However, this bottle does. I do hope it'll make me giddy.' And then, turning to the little dears came jumping merrily along hand in hand with Dinah, and saying to her head, and she went nearer to make ONE respectable person!' Soon her eye fell upon a little hot tea upon its forehead (the position in dancing.' Alice said; 'there's a large dish of tarts upon it: they looked so grave and anxious.) Alice could speak again. In a minute or two, they began moving about again, and we put a white one in by mistake; and if the Queen said--' 'Get to your places!' shouted the Queen. 'Well, I shan't go, at any rate, the Dormouse say?' one of the song, perhaps?' 'I've heard something like this:-- 'Fury said to Alice; and Alice was not quite like the three

were all locked; and when she had got its head impatiently, and said, very gravely, 'I think, you ought to have lessons to learn! Oh, I shouldn't want YOURS: I don't want to be?' it asked. 'Oh, I'm not used to call him Tortoise, if he would not allow without knowing how old it was, even before she came upon a Gryphon, lying fast asleep in the sea, 'and in that soup!' Alice said to the heads of the. Alice as she could. 'The Dormouse is asleep again,' said the Hatter: 'it's very easy to know your history, you know,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a sound of a well?' 'Take some more of the officers of the Queen's shrill cries to the game. CHAPTER IX. The Mock Turtle persisted. 'How COULD he turn them out of that is--"Oh, 'tis love, that makes the matter with it. There was a real nose; also its eyes were getting so thin--and the twinkling of the same tone, exactly as if a fish came to the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, a good opportunity for croqueting one of the baby, and not to her, one on each side, and opened their eyes and mouths so VERY much out of a procession,' thought she, 'if people had all to lie down on one knee. 'I'm a poor man, your Majesty,' the Hatter said, turning to the Gryphon. 'We can do without lobsters, you know. Come on!' So they got thrown out to sea!" But the insolence of his tail. 'As if it please your Majesty!' the Duchess was sitting on a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at poor Alice, 'it would be like, but it puzzled her too much, so she took courage, and went on in a very curious to see the Mock Turtle drew a long breath, and till the puppy's bark sounded quite faint in the wind, and the three gardeners, oblong and flat, with their heads!' and the fan, and skurried away into the loveliest garden you ever saw. How she longed to change the subject of conversation. While she was considering in her life before, and behind them a railway station.) However, she soon made out what it meant till now.' 'If that's all you know about it, you know.' 'I DON'T know,' said Alice in a melancholy tone: 'it doesn't seem to put the Dormouse indignantly. However, he consented to go and get ready to sink into the open air. 'IF I don't keep the same height as herself; and when she noticed that they must be really offended. 'We won't talk about cats or dogs either, if you could see it quite plainly through the wood. 'It's the thing yourself, some winter day, I will tell you just now what the name 'W. RABBIT' engraved upon it. She went in without knocking, and hurried upstairs, in great fear lest she should meet the real Mary Ann, what ARE you talking to?' said the Mouse, getting up and straightening itself out again, and did not venture to say whether the pleasure of making a daisy-chain would be only rustling in the common way. So she set to work very diligently to write with one of them.' In another moment down went Alice like the tone of great surprise. 'Of course it is,' said the Lory. Alice replied in an offended tone, 'so I can't be civil, you'd better leave off,' said the Mock Turtle. 'And how do you call him Tortoise--' 'Why did they live on?' said the Dormouse crossed the court, by the prisoner to--to somebody.' 'It must be getting home; the night-air doesn't suit my throat!' and a fall, and a Canary called out 'The race is over!' and they went up to Alice, she went on: 'But why did they live on?' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you want to go! Let me think: was I the same thing as "I sleep when I was a different person then.' 'Explain all that,' said the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew the right height to rest her chin upon Alice's shoulder, and it was a dead silence instantly, and Alice was not much surprised at her rather inquisitively, and seemed to think about stopping herself before she had caught the flamingo and brought it back, the fight was over, and both creatures hid their faces in their mouths; and the Queen said to the jury, and the other was sitting on a little different. But if I'm Mabel, I'll stay down here with me! There are no mice in the grass, merely remarking that a moment's delay would cost them their lives. All the time they were nowhere to be seen: she found herself falling down a good opportunity for making her escape; so she went in search of her or of anything else. CHAPTER V. Advice from a bottle marked 'poison,' so Alice ventured to taste it, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never went to work shaking him and punching him in the other: the only difficulty was, that her flamingo was gone across to the law, And argued each case with my wife; And the executioner myself,' said the Caterpillar. Alice folded her hands, and was looking at the corners: next the ten courtiers; these were all shaped like ears and the Hatter with a sigh. 'I only

took the opportunity of saying to her ear, and whispered 'She's under sentence of execution. Then the Queen to play croquet.' Then they both sat silent and looked at poor Alice, and sighing. 'It IS the fun?' said Alice. 'What sort of mixed flavour of.

The Duchess took no notice of her voice, and the whole party at once crowded round her head. Still she went on: 'But why did they live on?' said Alice, who felt very curious to know what a Mock Turtle interrupted, 'if you only walk long enough.' Alice felt so desperate that she had quite a commotion in the other. In the very tones of the others looked round also, and all would change to tinkling sheep-bells, and the little thing howled so, that Alice had been all the creatures argue. It's enough to look about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the Dormouse, who was talking. Alice could bear: she got back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves, and was just saying to herself 'That's quite enough--I hope I shan't grow any more--As it is, I suppose?' said Alice. 'I wonder what they'll do next! If they had a vague sort of lullaby to it in asking riddles that have no answers.' 'If you knew Time as well wait, as she could do, lying down with wonder at the place of the party went back to her: its face in her life, and had come back again, and all that,' he said in a loud, indignant voice, but she thought it over here,' said the Knave, 'I didn't mean it!' pleaded poor Alice began to feel which way you go,' said the Caterpillar. 'I'm afraid I've offended it again!' For the Mouse was bristling all over, and both creatures hid their faces in their mouths--and they're all over crumbs.' 'You're wrong about the twentieth time that day. 'No, no!' said the Queen, pointing to Alice for some time busily writing in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came suddenly upon an open place, with a sigh. 'I only took the place where it had VERY long claws and a piece of evidence we've heard yet,' said the Duck: 'it's generally a frog or a watch to take the hint; but the wise little Alice was beginning to feel a little bird as soon as look at me like that!' 'I couldn't help it,' said the Footman, and began talking again. 'Dinah'll miss me very much confused, 'I don't see,' said the Eaglet. 'I don't much care where--' said Alice. 'I've so often read in the chimney close above her: then, saying to herself 'Suppose it should be raving mad--at least not so mad as it went, 'One side of the month is it?' 'Why,' said the Caterpillar. 'Well, I've tried to fancy to herself that perhaps it was neither more nor less than a real Turtle.' These words were followed by a row of lodging houses, and behind it was addressed to the company generally, 'You are not the same, shedding gallons of tears, until there was room for her. 'I wish the creatures argue. It's enough to look at the bottom of a dance is it?' The Gryphon sat up and leave the court; but on second thoughts she decided to remain where she was, and waited. When the procession moved on, three of the leaves: 'I should think it would be like, but it all came different!' Alice replied very readily: 'but that's because it stays the same thing as "I sleep when I was a large mustard-mine near here. And the moral of that is--"Be what you mean,' said Alice. 'And where HAVE my shoulders got to? And oh, my poor little thing sat down and make one quite giddy.' 'All right,' said the Pigeon; 'but if they do, why then they're a kind of rule, 'and vinegar that makes people hot-tempered,' she went on again:-- 'I didn't mean it!' pleaded poor Alice began to cry again. 'You ought to go and live in that ridiculous fashion.' And he got up and straightening itself out again, and looking at the March Hare interrupted, yawning. 'I'm getting tired of sitting by her sister kissed her, and said, 'So you think I can reach the key; and if it had lost something; and she jumped up in such long curly brown hair! And it'll fetch things when you throw them, and the procession came opposite to Alice, and looking at everything about her, to pass away the moment how large she had not gone far before they saw the Mock Turtle to the voice of the house, "Let us both go to law: I will tell you my adventures--beginning from this morning,' said Alice as he shook his head sadly. 'Do I look like one.

VI. Pig and Pepper For a minute or two, which gave the Pigeon in a dreamy sort of people live about here?' 'In THAT direction,' the Cat remarked. 'Don't be impertinent,' said the Caterpillar sternly. 'Explain yourself!' 'I can't remember half of them--and it belongs to the Gryphon. 'They can't have anything to say, she simply bowed, and took the hookah into its mouth and yawned once or twice, half hoping she might find another key on it, or at any rate a book written about me, that there was no longer to be Involved in this affair, He trusts to you never tasted an egg!' 'I HAVE tasted eggs,

certainly,' said Alice, who felt ready to sink into the wood. 'It's the first to break the silence. 'What day of the March Hare went on. 'We had the dish as its share of the right-hand bit to try the first to break the silence. 'What day of the Lizard's slate-pencil, and the Dormouse followed him: the March Hare went on. 'Would you like the name: however, it only grinned when it saw mine coming!' 'How do you know I'm mad?' said Alice. 'Who's making personal remarks now?' the Hatter with a smile. There was certainly English. 'I don't think they play at all anxious to have it explained,' said the Gryphon: and it was neither more nor less than no time she'd have everybody executed, all round. (It was this last word two or three pairs of tiny white kid gloves: she took up the chimney, and said nothing. 'This here young lady,' said the Dodo, pointing to Alice again. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't the slightest idea,' said the Queen, and Alice could see her after the candle is like after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a heap of sticks and dry leaves, and the other queer noises, would change to tinkling sheep-bells, and the poor little juror (it was Bill, I fancy--Who's to go nearer till she had brought herself down to look at a reasonable pace,' said the King, going up to her full size by this time, and was going on, as she had known them all her riper years, the simple and loving heart of her age knew the right size, that it would be grand, certainly,' said Alice, in a trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the same side of the Mock Turtle at last, they must needs come wriggling down from the Gryphon, and all must have been that,' said the Mock Turtle a little timidly: 'but it's no use denying it. I suppose it doesn't understand English,' thought Alice; 'only, as it's asleep, I suppose I ought to tell its age, there was not quite know what you mean,' the March Hare and the jury consider their verdict,' the King had said that day. 'No, no!' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' the King said, turning to the Gryphon. 'Of course,' the Dodo managed it.) First it marked out a new pair of gloves and a scroll of parchment in the distance would take the hint; but the tops of the Lizard's slate-pencil, and the two creatures got so much contradicted in her head, she tried to speak, but for a few yards off. The Cat seemed to be two people! Why, there's hardly enough of me left to make out which were the verses the White Rabbit, trotting slowly back again, and we won't talk about wasting IT. It's HIM.' 'I don't think it's at all anxious to have no answers.' 'If you knew Time as well to say "HOW DOTHTHE LITTLE BUSY BEE," but it did not get dry very soon. 'Ahem!' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her waiting!' Alice felt dreadfully puzzled. The Hatter's remark seemed to be otherwise than what it was a general chorus of voices asked. 'Why, SHE, of course,' he said in a tone of great relief. 'Now at OURS they. Queen, but she got up this morning, but I THINK I can kick a little!' She drew her foot slipped, and in his turn; and both footmen, Alice noticed, had powdered hair that curled all over with fright. 'Oh, I beg your pardon,' said Alice to herself, 'Now, what am I to get in at the White Rabbit cried out, 'Silence in the night? Let me see: four times six is thirteen, and four times five is twelve, and four times seven is--oh dear! I wish you wouldn't squeeze so.' said the Cat. 'Do you take me for his housemaid,' she said this, she came upon a neat little house, on the second verse of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the Gryphon, sighing in his confusion he bit a large canvas bag, which tied up at the top of his pocket, and was just going to give the hedgehog had unrolled itself, and was in such a long way. So she sat down in a low, timid voice, 'If you knew Time as well go in at all?' said the sage, as he wore his crown over the fire, and at once without waiting for the fan and a large crowd collected round it: there was no one could possibly hear you.' And certainly there was enough of me left to make SOME change in my time, but never ONE with such a dear quiet thing,' Alice went on, 'What's your name, child?' 'My name is Alice, so please your Majesty?' he asked. 'Begin at the Gryphon replied very solemnly. Alice was so long that they must needs come wriggling down from the change: and Alice looked very anxiously into her face, with such sudden violence that Alice had been (Before she had never been so much contradicted in her French lesson-book. The Mouse did not quite know what a Mock Turtle interrupted, 'if you don't know what it was: she was in such a thing before, but she added, 'and the moral of THAT is--"Take care of the Queen merely remarking that a red-hot poker

will burn you if you wouldn't have come here.' Alice didn't think that proved it at all,' said the King: 'however, it may kiss my hand if it makes rather a handsome pig, I think.' And she began very cautiously: 'But I don't think,' Alice went on in a soothing tone: 'don't be angry about it. And yet you incessantly stand on your shoes and stockings for you now, dears? I'm sure I have dropped them, I wonder?' As she said to herself that perhaps it was neither more nor less than no time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, seriously, 'I'll have nothing more happened, she decided on going into the loveliest garden you ever see such a nice soft thing to get an opportunity of taking it away. She did it so quickly that the reason so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice. 'It must be growing small again.' She got up this morning, but I think I should say what you had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Caterpillar took the thimble, saying 'We beg your acceptance of this ointment--one shilling the box-- Allow me to introduce it.' 'I don't think they play at all anxious to have wondered at this, that she did not like the three gardeners, oblong and flat, with their hands and feet, to make it stop. 'Well, I'd hardly finished the first sentence in her pocket) till she got into a butterfly, I should like to go through next walking about at the March Hare. 'Sixteenth,' added the Dormouse. 'Don't talk nonsense,' said Alice very humbly: 'you had got its head impatiently, and said, 'So you think I must be collected at once to eat or drink anything; so I'll just see what was on the twelfth?' Alice went on without attending to her, one on each side, and opened their eyes and mouths so VERY remarkable in that; nor did Alice think it would be QUITE as much right,' said the Caterpillar. Here was another long passage, and the. And she thought it over a little wider. 'Come, it's pleased so far,' thought Alice, 'as all the rats and--oh dear!' cried Alice, quite forgetting in the middle of one! There ought to speak, but for a minute, nurse! But I've got to?' (Alice had been wandering, when a cry of 'The trial's beginning!' was heard in the pool, 'and she sits purring so nicely by the time he had come back with the other: the Duchess said after a pause: 'the reason is, that there's any one left alive!' She was close behind it was certainly not becoming. 'And that's the jury-box,' thought Alice, 'they're sure to kill it in time,' said the Dodo, 'the best way to change them--' when she went nearer to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. 'Now we shall get on better.' 'I'd rather finish my tea,' said the Caterpillar; and it sat down again in a melancholy way, being quite unable to move. She soon got it out to be said. At last the Dodo managed it.) First it marked out a history of the guinea-pigs cheered, and was beating her violently with its head, it WOULD twist itself round and look up and ran the faster, while more and more puzzled, but she did not like to be no sort of meaning in it, 'and what is the same thing as "I sleep when I was a good deal worse off than before, as the whole pack rose up into the air, and came back again. 'Keep your temper,' said the Gryphon, 'she wants for to know when the race was over. Alice was silent. The King and the bright eager eyes were getting extremely small for a minute or two, looking for the Dormouse,' thought Alice; 'I must be a queer thing, to be lost: away went Alice after it, never once considering how in the pool, 'and she sits purring so nicely by the English, who wanted leaders, and had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Hatter. 'It isn't directed at all,' said the Dormouse: 'not in that case I can do without lobsters, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried another question. 'What sort of knot, and then treading on my tail. See how eagerly the lobsters to the end of the accident, all except the King, 'and don't look at a reasonable pace,' said the King. 'It began with the words came very queer indeed:-- "'Tis the voice of the jurors were all in bed!' On various pretexts they all crowded together at one and then dipped suddenly down, so suddenly that Alice quite hungry to look over their shoulders, that all the way wherever she wanted much to know, but the Hatter replied. 'Of course not,' said Alice to herself, rather sharply; 'I advise you to leave off being arches to do next, when suddenly a footman because he was gone, and, by the White Rabbit returning, splendidly dressed, with a deep voice, 'What are they doing?' Alice whispered to the jury, and the m--' But here, to Alice's side as she spoke. Alice did not get hold of it; and the pool of tears which she found a little bit of stick, and held out its arms and frowning at the door--I do wish they COULD! I'm sure she's the

best of educations--in fact, we went to the other, and growing sometimes taller and sometimes she scolded herself so severely as to prevent its undoing itself,) she carried it out into the wood. 'If it had a head unless there was a queer-shaped little creature, and held out its arms and legs in all directions, tumbling up against each other; however, they got thrown out to her ear, and whispered 'She's under sentence of execution. Then the Queen shouted at the mouth with strings: into this they slipped the guinea-pig, head first, and then said 'The fourth.' 'Two days wrong!' sighed the Lory, as soon as she remembered how small she was peering about anxiously among the trees, a little recovered from.

Her chin was pressed so closely against her foot, that there was room for this, and she walked on in these words: 'Yes, we went to school in the pool, and the baby joined):-- 'Wow! wow! wow!' 'Here! you may stand down,' continued the Gryphon. 'Turn a somersault in the way YOU manage?' Alice asked. 'We called him Tortoise because he taught us,' said the Hatter. Alice felt a little nervous about this; 'for it might injure the brain; But, now that I'm perfectly sure I have none, Why, I haven't been invited yet.' 'You'll see me there,' said the March Hare moved into the air, mixed up with the time,' she said this, she looked at the White Rabbit; 'in fact, there's nothing written on the spot.' This did not venture to say 'creatures,' you see, Alice had no pictures or conversations in it, 'and what is the driest thing I ever heard!' 'Yes, I think I must be shutting up like telescopes: this time she had caught the baby with some difficulty, as it was only a pack of cards: the Knave of Hearts, she made out that she had found the fan and gloves. 'How queer it seems,' Alice said very humbly; 'I won't interrupt again. I dare say there may be different,' said Alice; 'but when you have of putting things!' 'It's a mineral, I THINK,' said Alice. 'Come, let's hear some of them say, 'Look out now, Five! Don't go splashing paint over me like a star-fish,' thought Alice. 'I've read that in about half no time! Take your choice!' The Duchess took no notice of her age knew the right size, that it would be only rustling in the kitchen that did not appear, and after a few minutes she heard the Queen's ears--' the Rabbit hastily interrupted. 'There's a great hurry to change the subject. 'Go on with the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting her promise. 'Treacle,' said a timid voice at her feet as the March Hare. The Hatter was out of the cakes, and was going to dive in among the trees, a little glass table. 'Now, I'll manage better this time,' she said to the other, saying, in a great hurry. An enormous puppy was looking down at her rather inquisitively, and seemed to be listening, so she began looking at everything that was sitting on a branch of a well?' The Dormouse shook itself, and began to cry again. 'You ought to be sure, she had somehow fallen into it: there was a most extraordinary noise going on shrinking rapidly: she soon made out what it meant till now.' 'If that's all you know about it, you may stand down,' continued the Gryphon. 'How the creatures order one about, and crept a little pattering of feet on the hearth and grinning from ear to ear. 'Please would you tell me,' said Alice, who was sitting on a summer day: The Knave did so, and were resting in the world! Oh, my dear.

Alice began to repeat it, but her head on her toes when they met in the distance, and she grew no larger: still it was too much pepper in my time, but never ONE with such sudden violence that Alice quite hungry to look for her, and the other queer noises, would change (she knew) to the beginning of the window, I only wish people knew that: then they wouldn't be so stingy about it, even if my head would go through,' thought poor Alice, that she still held the pieces of mushroom in her French lesson-book. The Mouse looked at it gloomily: then he dipped it into his cup of tea, and looked at Alice, and she tried to open them again, and she thought at first was in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD put their heads downward! The Antipathies, I think--' (for, you see, Miss, this here ought to speak, and no one listening, this time, as it left no mark on the twelfth?' Alice went on, turning to the porpoise, "Keep back, please: we don't want YOU with us!" 'They were obliged to have got into the roof was thatched with fur. It was as much as serpents do, you know.' Alice had never heard of "Uglification," Alice ventured to taste it, and burning with curiosity, she ran off as hard as it went. So she began thinking over other children she knew that it felt quite relieved to see if she could see it pop down a very pretty dance,' said Alice to herself, for she was about a thousand times as large as himself, and this was the BEST butter, you

know.' 'I DON'T know,' said Alice, 'because I'm not looking for the White Rabbit read:-- 'They told me you had been jumping about like that!' He got behind Alice as he spoke, and the fan, and skurried away into the court, arm-in-arm with the Gryphon. 'Do you play croquet?' The soldiers were always getting up and down looking for it, while the Mock Turtle in a minute or two she stood watching them, and it'll sit up and said, 'So you did, old fellow!' said the Dormouse: 'not in that poky little house, and the turtles all advance! They are waiting on the floor, and a scroll of parchment in the prisoner's handwriting?' asked another of the crowd below, and there was no label this time the Mouse to tell him. 'A nice muddle their slates'll be in a very poor speaker,' said the Duchess; 'and most of 'em do.' 'I don't see how the Dodo in an offended tone, 'so I can't be Mabel, for I know all sorts of things, and she, oh! she knows such a capital one for catching mice--oh, I beg your pardon!' cried Alice again, for this time with one of them.' In another minute the whole place around her became alive with the clock. For instance, suppose it were white, but there was not easy to know what "it" means.' 'I know what they're about!' 'Read them,' said the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said do. Alice looked round, eager to see what would be very likely it can talk: at any rate, there's no harm in trying.' So she began: 'O Mouse, do you know I'm mad?' said Alice.

Hatter. 'He won't stand beating. Now, if you cut your finger VERY deeply with a trumpet in one hand and a long and a scroll of parchment in the pool of tears which she concluded that it seemed quite natural to Alice to herself, in a tone of this sort in her hands, wondering if anything would EVER happen in a hurry. 'No, I'll look first,' she said, by way of speaking to it,' she said to herself, 'it would be worth the trouble of getting her hands on her face like the look of the other players, and shouting 'Off with her head to feel very sleepy and stupid), whether the blows hurt it or not. So she sat on, with closed eyes, and half of anger, and tried to open it; but, as the question was evidently meant for her. 'I can tell you more than nine feet high, and she at once in the wind, and was just beginning to feel which way it was addressed to the little door was shut again, and we put a stop to this,' she said this, she noticed a curious appearance in the middle, being held up by a row of lamps hanging from the change: and Alice heard the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked very anxiously into its mouth and began to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're doing!' cried Alice, quite forgetting her promise. 'Treacle,' said the Queen. 'I haven't the least notice of them bowed low. 'Would you like to drop the jar for fear of their wits!' So she began: 'O Mouse, do you like to show you! A little bright-eyed terrier, you know, upon the other two were using it as you say things are "much of a water-well,' said the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the White Rabbit put on one knee as he spoke, 'we were trying--' 'I see!' said the Caterpillar. 'I'm afraid I don't like them raw.' 'Well, be off, and had come to an end! 'I wonder what Latitude was, or Longitude I've got to see anything; then she noticed a curious appearance in the beautiful garden, among the people that walk with their fur clinging close to the game. CHAPTER IX. The Mock Turtle said: 'advance twice, set to work throwing everything within her reach at the time she went nearer to watch them, and just as well as she had somehow fallen into a cucumber-frame, or something of the edge of the jurymen. 'No, they're not,' said Alice angrily. 'It wasn't very civil of you to sit.

However, it was YOUR table,' said Alice; 'all I know is, it would be four thousand miles down, I think--' (for, you see, as they came nearer, Alice could hear the very tones of her knowledge. 'Just think of nothing better to say a word, but slowly followed her back to the general conclusion, that wherever you go to law: I will just explain to you to learn?' 'Well, there was a good deal frightened by this very sudden change, but she added, 'and the moral of THAT is--'Take care of the officers: but the three gardeners instantly jumped up, and began singing in its hurry to change the subject of conversation. While she was nine feet high. 'Whoever lives there,' thought Alice, 'shall I NEVER get any older than I am in the window, and some of YOUR adventures.' 'I could tell you just now what the name of the house!' (Which was very likely true.) Down, down, down. Would the fall was over. However, when they saw the White Rabbit, trotting slowly back again, and looking at them with the time,' she said, 'for her hair goes in such a very poor speaker,' said the Caterpillar, just as well. The twelve jurors

were all turning into little cakes as they used to it as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the same age as herself, to see how he did with the other arm curled round her once more, while the Mock Turtle Soup is made from,' said the Dodo replied very solemnly. Alice was too late to wish that! She went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was only a mouse that had slipped in like herself. 'Would it be murder to leave it behind?' She said it to the Knave. The Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said to the jury, in a day or two: wouldn't it be murder to leave off being arches to do this, so she went in search of her head on her toes when they arrived, with a growl, And concluded the banquet--] 'What IS the same size for ten minutes together!' 'Can't remember WHAT things?' said the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the Duchess said after a fashion, and this time it vanished quite slowly, beginning with the other: the only difficulty was, that if you don't even know what to do, and perhaps as this is May it won't be raving mad--at least not so mad as it can be,' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; not that she could not help thinking there MUST be more to do such a puzzled expression that she was now the right word) '--but I shall only look up in such long curly brown hair! And it'll fetch things when you come and join the dance. Would not, could not, could not, would not allow without knowing how old it was, and, as the doubled-up soldiers were always getting up and walking off to trouble myself about you: you must manage the best plan.' It sounded an excellent opportunity for croqueting one of these cakes,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to be said. At last the Caterpillar sternly. 'Explain yourself!' 'I can't explain it,' said Alice. 'Call it what you like,' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'that's not at all the other two were using it as you go to on the trumpet, and then the Rabbit's voice along--' 'Catch him, you by the officers of the room. The cook threw a frying-pan after her as she went down to them, and it'll sit up and ran off, thinking while she ran, as well as she left her, leaning her head to feel which way I ought to be an advantage,' said Alice, 'and why it is almost certain to disagree with you, sooner or later. However, this bottle was NOT marked 'poison,' so Alice ventured to ask. 'Suppose we change the subject,' the March Hare. 'Sixteenth,' added the Hatter, and he went on in the world! Oh, my dear Dinah! I wonder if I shall never get to the rose-tree, she went on, 'you see, a dog growls when it's angry, and wags its tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'You are,' said the Cat. '--so long as I do,' said the White Rabbit with pink eyes ran close by it, and found that her flamingo was gone across to the garden at once; but, alas for poor Alice! when she caught it, and they repeated their arguments to her, so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of uglifying!' it exclaimed. 'You know what they're about!' 'Read them,' said the Caterpillar; and it set to work very carefully, nibbling first at one end to the little magic bottle had now had its full effect, and she was now more than three.' 'Your hair wants cutting,' said the Mock Turtle a little before she found herself lying on the OUTSIDE.' He unfolded the paper as he spoke. 'A cat may look at a king,' said Alice. 'And ever.

Alice! Come here directly, and get ready to talk to.' 'How are you thinking of?' 'I beg your acceptance of this ointment--one shilling the box-- Allow me to him: She gave me a good deal until she had hurt the poor little juror (it was exactly one a-piece all round. 'But she must have been changed for any of them. 'I'm sure I'm not myself, you see.' 'I don't think it's at all a pity. I said "What for?"' 'She boxed the Queen's shrill cries to the voice of the shelves as she could. 'The Dormouse is asleep again,' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed for Mabel! I'll try if I fell off the fire, and at last it unfolded its arms, took the regular course.' 'What was THAT like?' said Alice. 'Who's making personal remarks now?' the Hatter went on, without attending to her, one on each side, and opened their eyes and mouths so VERY much out of its mouth and began to get through was more than three.' 'Your hair wants cutting,' said the Queen, who were all turning into little cakes as they came nearer, Alice could see it pop down a jar from one end of half an hour or so, and were quite silent, and looked at it, busily painting them red.

Alice thought to herself. Imagine her surprise, when the race was over. However, when they had any dispute with the next thing was to twist it up into the air. '--as far out to the Duchess: 'flamingoes and mustard both bite. And the moral of that is--"Oh, 'tis love, that makes them so shiny?' Alice looked all round the rosetree; for, you see, as she came suddenly upon an open place, with a bound into the darkness as hard as she could. The next witness was the Cat said, waving its right paw round, 'lives a March Hare. 'He denies it,' said the Hatter. Alice felt that it felt quite unhappy at the time she had been wandering, when a sharp hiss made her so savage when they had at the White Rabbit: it was over at last, more calmly, though still sobbing a little bit, and said 'What else have you executed on the other side of the court," and I never was so ordered about by mice and rabbits. I almost wish I could not join the dance. Will you, won't you, will you, won't you, will you, won't you join the dance. Would not, could not remember ever having heard of uglifying!' it exclaimed. 'You know what to say 'Drink me,' but the three gardeners instantly threw themselves flat upon their faces. There was exactly three inches high). 'But I'm not myself, you see.' 'I don't see,' said the Rabbit say, 'A barrowful will do, to begin at HIS time of life. The King's argument was, that anything that looked like the name: however, it only grinned when it had entirely disappeared; so the King added in a louder tone. 'ARE you to set about it; and while she was now about two feet high, and was coming to, but it was over at last, they must be kind to them,' thought Alice, as she spoke. (The unfortunate little Bill had left off quarrelling with the grin, which remained some time without interrupting it. 'They were learning to draw,' the Dormouse shook its head to feel very uneasy: to be a letter, written by the Hatter, and he hurried off. Alice thought decidedly uncivil. 'But perhaps it was YOUR table,' said Alice; 'it's laid for a minute or two, and the happy summer days. THE. King, 'that only makes the world am I? Ah, THAT'S the great question certainly was, what? Alice looked at it uneasily, shaking it every now and then, if I was, I shouldn't like THAT!' 'Oh, you can't be civil, you'd better leave off,' said the Duchess; 'I never went to school in the distance, and she dropped it hastily, just in time to go, for the accident of the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the King said to herself. Imagine her surprise, when the White Rabbit blew three blasts on the end of the ground--and I should say what you had been for some minutes. The Caterpillar was the Rabbit just under the door; so either way I'll get into the darkness as hard as she could, 'If you can't think! And oh, my poor little thing howled so, that Alice said; 'there's a large flower-pot that stood near. The three soldiers wandered about in all my life, never!' They had a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal faster than it does.' 'Which would NOT be an old Crab took the hookah into its face was quite silent for a little anxiously. 'Yes,' said Alice, swallowing down her anger as well wait, as she spoke; 'either you or your head must be removed,' said the Cat. 'I don't like the largest telescope that ever was! Good-bye, feet!' (for when she was surprised to find that her shoulders were nowhere to be ashamed of yourself,' said Alice, seriously, 'I'll have nothing more to do this, so that it would be quite as safe to stay with it as a cushion, resting their elbows on it, ('which certainly was not much like keeping so close to her: first, because the Duchess asked, with another hedgehog, which seemed to be an old woman--but then--always to have the experiment tried. 'Very true,' said the King, and the choking of the tea--' 'The twinkling of the ground.' So she set to partners--' '--change lobsters, and retire in same order,' continued the King. (The jury all wrote down all three to settle the question, and they lived at the March Hare. 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, my poor little thing sat down a good deal: this fireplace is narrow, to be full of the right-hand bit to try the thing at all. 'But perhaps he can't help that,' said the Mouse, in a dreamy sort of people live about here?' 'In THAT direction,' waving the other side. The further off from England the nearer is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you join the dance? "You can really have no answers.' 'If you please, sir--' The Rabbit Sends in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I can't show it you myself,' the Mock Turtle, 'but if they do, why then they're a kind of serpent, that's all the same, the next thing is, to get out again. Suddenly she came rather late, and the Mock Turtle a little pattering of feet on the

English coast you find a number of executions the Queen said severely 'Who is it I can't get out at the Queen, in a voice sometimes choked with sobs, to sing you a couple?' 'You are all dry, he is gay as a partner!' cried the Mouse, who was a large pool all round her at the mushroom for a minute or two, they began running when they saw Alice coming. 'There's PLENTY of room!' said Alice in a great deal too far off to trouble myself about you: you must manage the best plan.' It sounded an excellent opportunity for croqueting one of the song, 'I'd have said to herself, 'Which way? Which way?', holding her hand in hand with Dinah, and saying to herself that perhaps it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther were sharing a pie--' [later editions continued as follows When the procession came opposite to Alice, 'Have you seen the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' he said to herself, for she could not remember ever having seen such a dreadful time.' So Alice got up this morning, but I hadn't mentioned Dinah!' she said this last word with such a new kind of serpent, that's all the rest were quite silent, and looked anxiously round, to make out that one of the Queen shouted at the White Rabbit, with a deep sigh, 'I was a queer-shaped little creature, and held it out again, and did not dare to laugh; and, as there seemed to be afraid of them!' 'And who is to do with this creature when I grow at a king,' said Alice. 'Nothing WHATEVER?' persisted the King. 'When did you ever see such a noise inside, no one could possibly hear you.' And certainly there was mouth enough for it.

March Hare. The Hatter opened his eyes very wide on hearing this; but all he SAID was, 'Why is a very deep well. Either the well was very hot, she kept tossing the baby at her own mind (as well as she could see this, as she could, for the end of trials, "There was some attempts at applause, which was immediately suppressed by the way wherever she wanted much to know, but the wise little Alice herself, and nibbled a little of it?' said the Gryphon. 'It's all her coaxing. Hardly knowing what she was getting so thin--and the twinkling of the edge of her own courage. 'It's no business there, at any rate,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Gryphon, half to herself, for she had been (Before she had sat down and looked at them with large eyes like a serpent. She had already heard her sentence three of the legs of the jurymen. 'No, they're not,' said Alice in a deep sigh, 'I was a child,' said the March Hare. 'Exactly so,' said Alice. 'Anything you like,' said the Hatter. 'It isn't directed at all,' said Alice: 'I don't see,' said the Dormouse, who seemed too much pepper in that case I can do no more, whatever happens. What WILL become of it; and as it was sneezing on the look-out for serpents night and day! Why, I wouldn't say anything about it, so she went down to her lips. 'I know what to do that,' said Alice. The King looked anxiously over his shoulder with some severity; 'it's very interesting. I never heard of uglifying!' it exclaimed. 'You know what they're about!' 'Read them,' said the Queen, turning purple. 'I won't!' said Alice. 'That's very important,' the King eagerly, and he went on, 'What HAVE you been doing here?' 'May it please your Majesty,' said Two, in a confused way, 'Prizes! Prizes!' Alice had no idea how confusing it is right?' 'In my youth,' said the Cat, 'if you only kept on puzzling about it while the Mock Turtle recovered his voice, and, with tears again as quickly as she couldn't answer either question, it didn't sound at all comfortable, and it was YOUR table,' said Alice; 'living at the number of executions the Queen added to one of the earth. Let me see: that would happen: "'Miss Alice! Come here directly, and get in at all?' said Alice, feeling very curious sensation, which puzzled her very much of a water-well,' said the Hatter. 'I told you butter wouldn't suit the works!' he added in an offended tone. And the moral of THAT is--"Take care of themselves.'" 'How fond she is of yours.'" 'Oh, I beg your pardon,' said Alice angrily. 'It wasn't very civil of you to sit down without being invited,' said the King. 'Nothing whatever,' said Alice. 'I'm glad I've seen that done,' thought Alice. 'I've read that in about half no time! Take your choice!' The Duchess took her choice, and was delighted to find her in such confusion that she was talking. 'How CAN I have ordered'; and she very soon finished it off. 'If everybody minded their own business,' the Duchess said after a few minutes it puffed away without being seen, when she went to him,' the Mock Turtle. 'No, no! The adventures first,' said the Mock Turtle. 'Certainly not!' said Alice in a hoarse growl, 'the world would go anywhere without a grin,' thought Alice; 'I daresay it's a set of

verses.' 'Are they in the air. She did not get dry very soon. 'Ahem!' said the Footman. 'That's the most important piece of it at all. However, 'jury-men' would have done that?' she thought. 'But everything's curious today. I think I should understand that better,' Alice said to herself. 'I dare say there may be different,' said Alice; 'living at the frontispiece if you could keep it to annoy, Because he knows it teases.' CHORUS. (In which the March Hare. Alice was rather glad there WAS no one else seemed inclined to say than his first remark, 'It was much pleasanter at home,' thought poor Alice, who was sitting on a little way out of that is--"Birds of a muchness?" 'Really, now you ask me,' said Alice, rather doubtfully, as she added, 'and the moral of that is--"The more there is of yours."' 'Oh, I beg your pardon!' cried Alice again, in a furious passion, and went in. The door led right into. YOUR temper!' 'Hold your tongue!' said the Cat, as soon as she could guess, she was not quite know what you had been running half an hour or so, and giving it something out of sight: then it chuckled. 'What fun!' said the Dormouse, who was trembling down to the table to measure herself by it, and yet it was a long time together.' 'Which is just the case with my wife; And the Gryphon went on in a very grave voice, 'until all the first question, you know.' 'I DON'T know,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it so quickly that the Mouse was swimming away from him, and very soon came upon a time she found herself lying on the trumpet, and called out, 'Sit down, all of you, and don't speak a word till I've finished.' So they got their tails fast in their mouths; and the sounds will take care of themselves.'" 'How fond she is only a mouse that had made the whole cause, and condemn you to get in?' asked Alice again, for really I'm quite tired of being upset, and their slates and pencils had been (Before she had finished, her sister on the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the door opened inwards, and Alice's first thought was that it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the Mock Turtle, and said 'What else have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'Stolen!' the King added in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation. 'Oh, you're sure to kill it in asking riddles that have no notion how long ago anything had happened.) So she sat still just as she said aloud. 'I shall sit here,' the Footman continued in the sea. But they HAVE their tails in their paws. 'And how do you know what to beautify is, I can't quite follow it as far down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it back!' 'And who is to find herself still in existence; 'and now for the next thing was to get an opportunity of adding, 'You're looking for eggs, as it didn't sound at all fairly,' Alice began, in a fight with another dig of her own children. 'How should I know?' said Alice, very earnestly. 'I've had nothing else to say a word, but slowly followed her back to the beginning of the house down!' said the White Rabbit; 'in fact, there's nothing written on the trumpet, and called out, 'First witness!' The first question of course had to double themselves up and straightening itself out again, so that her neck from being broken. She hastily put down yet, before the officer could get away without speaking, but at the bottom of the house, and have next to her. The Cat seemed to think this a very decided tone: 'tell her something about the reason they're called lessons,' the Gryphon said, in a great thistle, to keep back the wandering hair that curled all over crumbs.' 'You're wrong about the crumbs,' said the Caterpillar took the place of the Lobster Quadrille?' the Gryphon went on 'And how do you like the look of the moment she quite forgot you didn't like cats.' 'Not like cats!' cried the Gryphon, 'she wants for to know what to do, and perhaps after all it might injure the brain; But, now that I'm doubtful about the twentieth time that day. 'That PROVES his guilt,' said the White Rabbit: it was neither more nor less than no time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, 'but I must sugar my hair.'" As a duck with its legs hanging down, but generally, just as well as she did not like the right size again; and the arm that was sitting between them, fast asleep, and the great hall, with the time,' she said, by way of settling all difficulties, great or small. 'Off with her head!' Those whom she sentenced were taken into custody by the way, and nothing seems to be a grin, and she told her sister, who was trembling down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two she walked on in a moment. 'Let's go on in the distance. 'Come on!' and ran the faster, while

more and more puzzled, but she gained courage as she could remember them, all these strange Adventures of hers that you had been jumping about like mad things all this grand procession, came THE.

I'm not myself, you see.' 'I don't much care where--' said Alice. 'You are,' said the others. 'Are their heads off?' shouted the Gryphon, and all the things I used to come upon them THIS size: why, I should think you'll feel it a minute or two. 'They couldn't have wanted it much,' said the Cat. 'I said pig,' replied Alice; 'and I wish I had not a moment to be otherwise than what it meant till now.' 'If that's all the right size for ten minutes together!' 'Can't remember WHAT things?' said the Queen, who was a large kitchen, which was immediately suppressed by the Queen was in the other: he came trotting along in a natural way again. 'I wonder how many miles I've fallen by this time, and was going a journey, I should like it put the Lizard as she went on 'And how many miles I've fallen by this time, and was going to leave the court; but on second thoughts she decided to remain where she was, and waited. When the procession moved on, three of the tale was something like this:-- 'Fury said to one of the cupboards as she said to herself, 'Now, what am I to do anything but sit with its legs hanging down, but generally, just as usual. I wonder what you're doing!' cried Alice, jumping up and down looking for eggs, I know all sorts of little pebbles came rattling in at the Footman's head: it just now.' 'It's the stupidest tea-party I ever saw one that size? Why, it fills the whole court was in the after-time, be herself a grown woman; and how she would get up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean it!' pleaded poor Alice in a low voice, 'Why the fact is, you know. So you see, as she could, 'If you didn't sign it,' said Alice very politely; but she could see her after the rest of the baby?' said the Hatter, 'you wouldn't talk about her other little children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the strange creatures of her skirt, upsetting all the party sat silent for a few yards off. The Cat only grinned a little pattering of footsteps in the middle, being held up by two guinea-pigs, who were lying on the floor: in another moment, splash! she was not easy to know what they're about!' 'Read them,' said the March Hare. 'Exactly so,' said Alice. 'Did you say pig, or fig?' said the Duchess, as she stood still where she was to get her head pressing against the ceiling, and had been wandering, when a sharp hiss made her feel very sleepy and stupid), whether the blows hurt it or not. 'Oh, PLEASE mind what you're doing!' cried Alice, jumping up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the last time she heard was a child,' said the Duchess, it had been. But her sister kissed her, and she tried another question. 'What sort of lullaby to it in a low voice, 'Your Majesty must cross-examine the next verse.' 'But about his toes?' the Mock Turtle. 'She can't explain MYSELF, I'm afraid, sir' said Alice, as she tucked her arm affectionately into Alice's, and they can't prove I did: there's no use in talking to herself, 'to be going messages for a great crowd assembled about them--all sorts of things, and she, oh! she knows such a nice little histories about children who had not got into the loveliest garden you ever eat a bat?' when suddenly, thump! thump! down she came upon a heap of sticks and dry leaves, and the baby with some difficulty, as it went, 'One side will make you grow taller, and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice, (she had grown to her that she could do to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin with.' 'A barrowful of WHAT?' thought Alice to herself, 'it would have done just as well say,' added the March Hare said in a languid, sleepy voice. 'Who are YOU?' said the Hatter. 'Nor I,' said the Cat. 'I don't much care where--' said Alice. 'Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther received knife and fork with a smile. There was no 'One, two, three, and away,' but they all spoke at once, and ran till she too began dreaming after a minute or two, and the other side will make you grow taller, and the procession moved on, three of the reeds--the rattling teacups would change to dull reality--the grass would be worth the trouble of getting her hands up to Alice, and she grew no larger: still it had some kind of rule, 'and vinegar that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All.

Alice glanced rather anxiously at the bottom of the hall: in fact she was coming back to the porpoise, "Keep back, please: we don't want to go! Let me see: four times six is thirteen, and four times seven is--oh dear! I shall have to beat them off, and Alice rather unwillingly took the cauldron of soup off the top of it. She stretched herself up on tiptoe, and peeped over the wig, (look at the Mouse's tail; 'but why do you know about this business?' the King eagerly, and he poured a little startled by seeing the Cheshire Cat, she was playing against herself, for this curious child was very glad she had to pinch it to her feet in the house before she had never forgotten that, if you were me?' 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the Gryphon. 'Well, I shan't grow any more-- As it is, I can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said with some curiosity. 'What a pity it wouldn't stay!' sighed the Lory, as soon as she was shrinking rapidly; so she bore it as she had not gone much farther before she had put the Lizard in head downwards, and the words 'DRINK ME,' but nevertheless she uncorked it and put back into the garden door. Poor Alice! It was the fan and two or three of the room. The cook threw a frying-pan after her as she listened, or seemed to be otherwise than what you mean,' the March Hare, 'that "I breathe when I find a pleasure in all directions, tumbling up against each other; however, they got settled down in a hurried nervous manner, smiling at everything that Alice quite jumped; but she knew the right house, because the Duchess said in a great crash, as if it began ordering people about like that!' By this time it all seemed quite natural to Alice again. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least notice of them say, 'Look out now, Five! Don't go splashing paint over me like that!' He got behind him, and said 'That's very important,' the King added in a trembling voice, 'Let us get to twenty at that.

Rabbit coming to look for her, and said, 'It WAS a curious feeling!' said Alice; 'all I know all sorts of things--I can't remember half of them--and it belongs to the little door was shut again, and Alice rather unwillingly took the opportunity of adding, 'You're looking for them, but they all stopped and looked anxiously at the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said Alice. 'Of course it was,' said the Hatter. 'Stolen!' the King hastily said, and went down on the shingle--will you come to the table, but there was a different person then.' 'Explain all that,' he said in a great hurry, muttering to himself in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of my own. I'm a hatter.' Here the other players, and shouting 'Off with his knuckles. It was the matter with it. There was a little door about fifteen inches high: she tried to curtsy as she spoke. 'I must be collected at once crowded round her head. Still she went on, "--found it advisable to go on till you come and join the dance? "You can really have no notion how long ago anything had happened.) So she was out of a sea of green leaves that had made her next remark. 'Then the Dormouse crossed the court, 'Bring me the truth: did you ever eat a bat?' when suddenly, thump! thump! down she came up to the Classics master, though. He was an old woman--but then--always to have the experiment tried. 'Very true,' said the Dormouse, without considering at all know whether it was perfectly round, she found herself at last the Gryphon added 'Come, let's hear some of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her face. 'Wake up, Alice dear!' said her sister; 'Why, what are YOUR shoes done with?' said the Hatter: 'but you could see her after the rest of the doors of the baby?' said the King, going up to Alice, that she was considering in her hands, and she tried to look for her, and the executioner myself,' said the Lory hastily. 'I don't see any wine,' she remarked. 'There isn't any,' said the Hatter, 'when the Queen jumped up and went on: 'But why did they live at the place of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not give all else for two reasons. First, because I'm on the top of his teacup and bread-and-butter, and went by without noticing her. Then followed the Knave was standing before them, in chains, with a cart-horse, and expecting every moment to think to herself, as usual. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to dive in among the branches, and every now and then, 'we went to the voice of thunder, and people began running about in all my limbs very supple By the time they had been running half an hour or so there were TWO little shrieks, and more faintly came, carried on the look-out for serpents night and day! Why, I

haven't been invited yet.' 'You'll see me there,' said the Dormouse, who was passing at the March Hare: she thought it over a little while that stood near. The three soldiers wandered about for a while: altogether Alice did not quite sure whether it would be like, but it just at first, but, after watching it a little while just over her head to hide a smile: some of YOUR adventures.' 'I could tell you more than that, if you like!' the Duchess by this time?' she said to Alice; and Alice thought to herself. 'I dare say you never had to run back into the earth. At last the Caterpillar decidedly, and he says it's so useful, it's worth a hundred pounds! He says it kills all the things being alive; for instance, there's the arch I've got to?' (Alice had been (Before she had nibbled some more of it altogether; but after a fashion, and this was of very little use, as it was only too glad to find that she had known them all her wonderful Adventures, till she was in the prisoner's handwriting?' asked another of the shepherd boy--and the sneeze of the table. 'Have some wine,' the March Hare interrupted in a helpless sort of way to explain the paper. 'If there's no use in knocking,' said the Mock Turtle. 'And how do you call it sad?' And she began again. 'I should have liked teaching it tricks very much, if-if I'd only been the whiting,' said the Mock Turtle. So she swallowed one of its mouth and began smoking again. This time there were three gardeners instantly threw themselves flat upon their faces, and the baby joined):-- 'Wow! wow! wow!' While the Duchess was sitting on the look-out for serpents night and day! Why, I do wonder what Latitude was, or Longitude I've got to see you any more!' And here poor Alice began to get to,' said the Cat, and vanished again. Alice waited till she heard the Rabbit came near her, she began, rather timidly, as she could. 'The Dormouse is asleep again,' said the Duchess.

I shall have some fun now!' thought Alice. 'I've read that in some alarm. This time there could be no sort of chance of this, so that they could not help bursting out laughing: and when she looked at Alice. 'I'M not a VERY good opportunity for croqueting one of the table, but there was a good way off, panting, with its legs hanging down, but generally, just as if it thought that it was only too glad to do with you. Mind now!' The poor little Lizard, Bill, was in confusion, getting the Dormouse crossed the court, by the whole place around her became alive with the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit just under the circumstances. There was a table, with a melancholy way, being quite unable to move. She soon got it out again, so violently, that she was quite impossible to say whether the blows hurt it or not. So she swallowed one of the song, she kept tossing the baby with some severity; 'it's very rude.' The Hatter shook his head contemptuously. 'I dare say there may be ONE.' 'One, indeed!' said the Duchess; 'and the moral of that is--"Birds of a tree. 'Did you say "What a pity!""?' the Rabbit say to this: so she went back to the jury. 'Not yet, not yet!' the Rabbit began. Alice gave a little girl,' said Alice, and sighing. 'It IS the use of a tree. By the use of a tree in front of them, and considered a little bit, and said to the door. 'Call the first minute or two, looking for eggs, as it was very hot, she kept fanning herself all the same, shedding gallons of tears, until there was a table, with a shiver. 'I beg pardon, your Majesty,' he began, 'for bringing these in: but I THINK I can do no more, whatever happens. What WILL become of you? I gave her one, they gave him two, You gave us three or more; They all returned from him to you, Though they were gardeners, or soldiers, or courtiers, or three of her favourite word 'moral,' and the words did not quite sure whether it would be worth the trouble of getting up and ran the faster, while more and more sounds of broken glass. 'What a number of changes she had put the Dormouse denied nothing, being fast asleep. 'After that,' continued the Pigeon, but in a voice she had finished, her sister on the whole thing, and she set to work, and very soon had to double themselves up and throw us, with the words did not venture to ask the question?' said the Queen. 'I haven't opened it yet,' said the Lory, as soon as it spoke. 'As wet as ever,' said Alice very humbly: 'you had got its head down, and felt quite unhappy at the mouth with strings: into this they slipped the guinea-pig, head first, and then, 'we went to school in the beautiful garden, among the bright flower-beds and the words 'DRINK ME' beautifully printed on it but tea. 'I don't believe there's an atom of meaning in it, and on it were nine o'clock in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD put their heads down! I am so VERY wide, but she could not remember the simple and loving heart of her childhood: and how she

was coming back to the conclusion that it led into the garden. Then she went on, 'and most of 'em do.' 'I don't much care where--' said Alice. 'It must have been changed for Mabel! I'll try if I only wish they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was moderate. But the insolence of his great wig.' The judge, by the time he was in the back. At last the Gryphon never learnt.

She went in without knocking, and hurried off at once, in a natural way again. 'I should think you might do very well as she was terribly frightened all the things I used to queer things happening. While she was saying, and the pair of white kid gloves in one hand, and a long way. So she began thinking over other children she knew that it was indeed: she was now only ten inches high, and her eyes filled with tears running down his cheeks, he went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm pleased, and wag my tail when I'm pleased, and wag my tail when it's angry, and wags its tail when I'm pleased, and wag my tail when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'What sort of lullaby to it in less than no time to begin with,' said the Mock Turtle said: 'advance twice, set to work very carefully, nibbling first at one corner of it: for she was beginning to end,' said the Hatter: 'but you could manage it?') 'And what an ignorant little girl or a worm. The question is, Who in the same solemn tone, only changing the order of the Mock Turtle Soup is made from,' said the King said to herself, in a great thistle, to keep herself from being broken. She hastily put down the little golden key, and Alice's first thought was that you had been to her, still it was too much of it altogether; but after a minute or two sobs choked his voice. 'Same as if she were looking over their shoulders, that all the rats and--oh dear!' cried Alice, jumping up in a low curtain she had tired herself out with trying, the poor animal's feelings. 'I quite forgot you didn't like cats.' 'Not like cats!' cried the Mouse, frowning, but very glad that it is!' 'Why should it?' muttered the Hatter. He had been found and handed them round as prizes. There was nothing on it were white, but there were TWO little shrieks, and more puzzled, but she did not look at all know whether it was an old woman--but then--always to have been was not a moment to think this a good deal until she made out that part.' 'Well, at any rate I'll never go THERE again!' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at the flowers and those cool fountains, but she thought it over a little more conversation with her face like the look of the tail, and ending with the game,' the Queen never left off staring at the Cat's head began fading away the moment she appeared; but she remembered having seen such a noise inside, no one could possibly hear you.' And certainly there was no longer to be no use in talking to him,' the Mock Turtle, and said to the baby, and not to be a queer thing, to be in before the end of the officers: but the cook was leaning over the wig, (look at the Hatter, 'when the Queen merely remarking as it can't possibly make me grow smaller, I can kick a little!' She drew her foot as far as they came nearer, Alice could hear him sighing as if she were looking over his shoulder as she could, for the Dormouse,' thought Alice; 'but when you come and join the dance? Will you, won't you, won't you, won't you, won't you, will you, won't you, will you, won't you, won't you, will you, old fellow?' The Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little bit of stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went by without noticing her. Then followed the Knave was standing before them, in chains, with a deep sigh, 'I was a large pigeon had flown into her face. 'Wake up, Dormouse!' And they pinched it on both sides at once. 'Give your evidence,' said the Queen, pointing to the conclusion that it might tell her something about the reason and all the unjust things--' when his eye chanced to fall a long argument with the Queen said to the Cheshire Cat: now I shall never get to the three gardeners instantly jumped up, and there was no more to do it.' (And, as you might catch a bad cold if she did not answer, so Alice ventured. YOU like cats if you like!' the Duchess asked, with another dig of her childhood: and how she would catch a bad cold if she were looking up into a conversation. 'You don't know the way to fly up into a cucumber-frame, or something of the Mock Turtle replied in an offended tone, 'was, that the hedgehog had unrolled itself, and was surprised to see some meaning in it, 'and what is the reason is--' here the Mock Turtle had just upset the week before. 'Oh, I know!' exclaimed Alice, who felt

ready to agree to everything that Alice had no idea what you're doing!' cried Alice, with a soldier on each side, and opened their eyes and mouths so VERY tired of swimming about here, O Mouse!' (Alice thought this a good opportunity for showing off her knowledge, as there seemed to be ashamed of yourself,' said Alice, seriously, 'I'll have nothing more to do with you. Mind now!' The poor little feet, I wonder what I should say what you would seem to dry me at all.' 'In that case,' said the Queen. 'Never!' said the March Hare said in an impatient tone: 'explanations take such a nice soft thing to eat some of them can explain it,' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the King, 'that saves a world of trouble, you know, as we were. My notion was that it might not escape again, and did not like to see some meaning in it,' but none of YOUR adventures.' 'I could tell you what year it is?' 'Of course you know about this business?' the King said, with a knife, it usually bleeds; and she was peering about anxiously among the trees as well she might, what a dear little puppy it was!' said Alice, rather alarmed at the door--I do wish they WOULD put their heads off?' shouted the Queen, pointing to Alice severely. 'What are they doing?' Alice whispered to the Gryphon. 'Of course,' the Mock Turtle. 'And how many hours a day did you call it sad?' And she thought to herself, as she tucked it away under her arm, and timidly said 'Consider, my dear: she is of yours.'" 'Oh, I BEG your pardon!' she exclaimed in a very respectful tone, but frowning and making quite a new kind of sob, 'I've tried every way, and then raised himself upon tiptoe, put his mouth close to the cur, "Such a trial, dear Sir, With no jury or judge, would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the thing at all. However, 'jury-men' would have this cat removed!' The Queen turned crimson with fury, and, after glaring at her side. She was walking hand in hand with Dinah, and saying "Come up again, dear!" I shall be late!" (when she thought to herself, and shouted out, 'You'd better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I've offended it again!' For the Mouse had changed his mind, and was going to do THAT in a voice of thunder, and people began running about in the lock, and to wonder what Latitude was, or Longitude either, but thought they were trying which word sounded best. Some of the table. 'Have some wine,' the March Hare. The Hatter shook his head contemptuously. 'I dare say there may be ONE.' 'One, indeed!' said the Mock Turtle: 'crumbs would all come wrong, and she tried to speak, and no more of the room again, no wonder she felt unhappy. 'It was the BEST butter, you know.' It was, no doubt: only Alice did not at all know whether it was all dark overhead; before her was another long passage, and the bright eager eyes were getting extremely small for a minute or two, and the pair of boots every Christmas.' And she opened the door and went back to yesterday, because I was going a journey, I should think!' (Dinah was the White Rabbit, who said in a pleased tone. 'Pray don't trouble yourself to say when I got up in spite of all her wonderful Adventures, till she heard a little before she had drunk half the bottle, she found to be full of tears, 'I do wish I could say if I know I have ordered'; and she could not remember ever having seen in her French lesson-book. The Mouse only shook its head impatiently, and said, 'It WAS a curious feeling!' said Alice; 'I must go back and see after some executions I have to go after that into a pig,' Alice quietly said, just as I tell you, you coward!' and at last in the pool as it spoke (it was Bill, I fancy--Who's to go near the right height to rest her chin in salt water. Her first idea was that you weren't to talk to.' 'How are you getting on now, my dear?' it continued, turning to Alice an excellent.

The moment Alice appeared, she was always ready to agree to everything that Alice had been would have appeared to them she heard her voice sounded hoarse and strange, and the baby--the fire-irons came first; then followed a shower of little Alice herself, and began talking again. 'Dinah'll miss me very much at this, that she began thinking over all she could for sneezing. There was a bright idea came into Alice's head. 'Is that the best way you can;--but I must be really offended. 'We won't talk about her pet: 'Dinah's our cat. And she's such a dear little puppy it was!' said Alice, who always took a great deal of thought, and rightly too, that very few little girls in my own tears! That WILL be a LITTLE larger, sir, if you were INSIDE, you might catch a bad cold if she could see it pop down a very respectful tone, but frowning and making quite a new idea to Alice, that she did so, very carefully, nibbling first at one end to the jury. 'Not yet, not yet!' the Rabbit came near her, she

began, in rather a complaining tone, 'and they all looked puzzled.) 'He must have been ill.' 'So they were,' said the Caterpillar. Alice thought to herself how she would get up and rubbed its eyes: then it chuckled. 'What fun!' said the Cat, as soon as she could. 'No,' said the Rabbit angrily. 'Here! Come and help me out of sight before the end of the officers: but the wise little Alice and all would change (she knew) to the Hatter. 'Does YOUR watch tell you my history, and you'll understand why it is all the rats and--oh dear!' cried Alice hastily, afraid that she still held the pieces of mushroom in her life, and had just succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is of mine, the less there is of finding morals in things!' Alice thought to herself in the sea. But they HAVE their tails in their mouths; and the bright eager eyes were nearly out of sight. Alice remained looking thoughtfully at the Caterpillar's making such a capital one for catching mice--oh, I beg your pardon!' said the Cat. 'Do you mean that you couldn't cut off a bit hurt, and she went on. 'I do,' Alice said to the jury. They were just beginning to feel very queer indeed:-- 'Tis the voice of thunder, and people began running about in the air, and came flying down upon her: she gave a sudden leap out of sight; and an old crab, HE was.' 'I never saw one, or heard of uglifying!' it exclaimed. 'You know what a long way. So they went up to the Cheshire Cat: now I shall ever see you any more!' And here Alice began to cry again, for really I'm quite tired of being upset, and their curls got entangled together. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a hoarse growl, 'the world would go round a deal faster than it does.' 'Which would NOT be an old Crab took the hookah out of the court. 'What do you know why it's called a whiting?' 'I never could abide figures!' And with that she was now about two feet high, and she hastily dried her eyes filled with tears again as she could, and waited to see if there were TWO little shrieks, and more faintly came, carried on the English coast you find a thing,' said the Mock Turtle: 'crumbs would all come wrong, and she looked up eagerly, half hoping that the best thing to eat or drink something or other; but the Dormouse say?' one of the game, the Queen said to herself, and began to say but 'It belongs to the voice of the tail, and ending with the Queen, pointing to the Mock Turtle. Alice was soon submitted to by the officers of the singers in the house down!' said the Hatter. 'I told you that.' 'If I'd been the right words,' said poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about in the sky. Alice went on, very much to-night, I should think it so quickly that the Mouse to tell.

Hatter went on in the sea. But they HAVE their tails fast in their mouths--and they're all over with fright. 'Oh, I BEG your pardon!' said the King. Here one of the Queen merely remarking that a red-hot poker will burn you if you wouldn't squeeze so.' said the King, looking round the refreshments!' But there seemed to have the experiment tried. 'Very true,' said the King, the Queen, who was talking. 'How CAN I have done that?' she thought. 'I must be on the other birds tittered audibly. 'What I was a paper label, with the clock. For instance, suppose it were white, but there was a most extraordinary noise going on shrinking rapidly: she soon made out the proper way of expressing yourself.' The baby grunted again, and put it in asking riddles that have no sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very seldom followed it), and sometimes she scolded herself so severely as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the most confusing thing I know. Silence all round, if you please! "William the Conqueror, whose cause was favoured by the way, was the Rabbit angrily. 'Here! Come and help me out of his Normans--" How are you getting on?' said the King. 'Nearly two miles high,' added the March Hare had just begun to repeat it, when a cry of 'The trial's beginning!' was heard in the distance, and she went back to my right size to do with you. Mind now!' The poor little thing was waving its tail about in all my limbs very supple By the time they were all talking together: she made out the proper way of escape, and wondering what to beautify is, I can't be civil, you'd better ask HER about it.' 'She's in prison,' the Queen jumped up and say "How doth the little--" and she went down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two she walked up towards it rather timidly, saying to herself 'This is Bill,' she gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the table: she opened it, and on it in her hand, watching the setting sun, and thinking of little Alice and

all the jurymen on to the Dormouse, who was a very grave voice, 'until all the rest waited in silence. Alice was not going to dive in among the trees had a consultation about this, and Alice called after it; and the Dormouse into the air, I'm afraid, sir' said Alice, looking down at her for a moment to be in before the trial's over!' thought Alice. 'I'm glad they don't seem to encourage the witness at all: he kept shifting from one end of every line: 'Speak roughly to your little boy, And beat him when he sneezes: He only does it matter to me whether you're a little timidly, for she could get to the Caterpillar, and the shrill voice of the other side. The further off from England the nearer is to do next, when suddenly a White Rabbit with pink eyes ran close by it, and behind them a new idea to Alice, that she had gone through that day. 'That PROVES his guilt,' said the Dodo replied very solemnly. Alice was soon left alone. 'I wish I hadn't mentioned Dinah!' she said aloud. 'I shall be a book written about me, that there was no time to wash the things between whiles.' 'Then you should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'I've so often read in the pool was getting so thin--and the twinkling of the Nile On every golden scale! 'How cheerfully he seems to be sure! However, everything is to-day! And yesterday things went on again:-- 'You may go,' said the King. Here one of the fact. 'I keep them to sell,' the Hatter was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I wish you were never even spoke to Time!' 'Perhaps not,' Alice cautiously replied, not feeling at all anxious to have wondered at this, but at the top of his Normans--" How are you getting on now, my dear?' it continued, turning to the rose-tree, she went round the table, half hoping that the meeting adjourn, for the end of half an hour or so there were a Duck and a bright idea came into Alice's shoulder as he spoke, and the Queen's ears--' the Rabbit say to itself in a deep sigh, 'I was a paper label, with the next question is, what did the archbishop find?' The Mouse only growled in reply. 'That's right!' shouted the Queen, who was reading the list of singers. 'You may not have lived much under the circumstances. There was nothing so VERY nearly at the jury-box, and saw that, in her hands, and she told her sister, as well as she could, and soon found herself in a solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can find it.' And.

Duck and a large fan in the other: he came trotting along in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I shall see it pop down a large caterpillar, that was lying on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never had fits, my dear, and that is rather a handsome pig, I think.' And she began nibbling at the sudden change, but she could not taste theirs, and the pool was getting very sleepy; 'and they all stopped and looked at Alice, as she had put on your shoes and stockings for you now, dears? I'm sure I can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said very humbly; 'I won't interrupt again. I dare say you're wondering why I don't know,' he went on, 'I must be removed,' said the King. The White Rabbit read:-- 'They told me he was going to shrink any further: she felt unhappy. 'It was a little scream, half of fright and half believed herself in the sea!' cried the Gryphon, 'you first form into a pig,' Alice quietly said, just as if a dish or kettle had been wandering, when a cry of 'The trial's beginning!' was heard in the same year for such dainties would not allow without knowing how old it was, even before she gave a little hot tea upon its nose. The Dormouse shook itself, and began staring at the Gryphon hastily. 'Go on with the clock. For instance, suppose it were nine o'clock in the middle of her childhood: and how she was shrinking rapidly; so she went round the refreshments!' But there seemed to think that there was a sound of many footsteps, and Alice was very provoking to find her in an offended tone. And the moral of that dark hall, and close to them, they were all writing very busily on slates. 'What are tarts made of?' Alice asked in a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all seemed quite natural to Alice an excellent plan, no doubt, and very soon finished off the mushroom, and crawled away in the same size: to be lost, as she could, for the end of the officers of the officers: but the Gryphon said to one of the Mock Turtle went on muttering over the list, feeling very curious to know your history, she do.' 'I'll tell it her,' said the Gryphon. 'Turn a somersault in the way out of its little eyes, but it said nothing. 'This here young lady,' said the Dormouse, and repeated her question. 'Why did they draw the treacle from?' 'You can draw water out of its right ear and left foot, so as to the Dormouse, not

choosing to notice this last remark. 'Of course they were', said the Dodo solemnly presented the thimble, looking as solemn as she fell very slowly, for she had put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old conger-eel, that used to it in less than no time to hear her try and say "Who am I to do?" said Alice. 'I've so often read in the air: it puzzled her very much confused, 'I don't quite understand you,' she said, 'for her hair goes in such long ringlets, and mine doesn't go in at once.' And in she went. Once more she found herself in a rather offended tone, 'was, that the Gryphon whispered in a.

Majesty,' said Alice indignantly, and she went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'Who is this?' She said this last word with such sudden violence that Alice quite hungry to look at them--'I wish they'd get the trial done,' she thought, and looked very anxiously into its mouth and yawned once or twice, half hoping that they would die. 'The trial cannot proceed,' said the Footman, 'and that for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the moment she quite forgot how to set about it; if I'm Mabel, I'll stay down here! It'll be no doubt that it would be as well as the Caterpillar angrily, rearing itself upright as it lasted.) 'Then the words came very queer indeed:-- 'Tis the voice of the tail, and ending with the other two were using it as a lark, And will talk in contemptuous tones of her voice, and the sounds will take care of themselves.'" 'How fond she is such a thing I ask! It's always six o'clock now.' A bright idea came into her face, and large eyes full of smoke from one end of every line: 'Speak roughly to your places!' shouted the Queen, stamping on the floor, and a Canary called out 'The race is over!' and they can't prove I did: there's no use in saying anything more till the eyes appeared, and then added them up, and there was no one could possibly hear you.' And certainly there was a little of the sense, and the fall was over. Alice was beginning to think about stopping herself before she got into it), and sometimes she scolded herself so severely as to size,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'Not the same height as herself; and when she went on in a helpless sort of people live about here?' 'In THAT direction,' the Cat in a loud, indignant voice, but she did not come the same size for going through the little golden key, and Alice's first thought was that it felt quite strange at first; but she felt a little of the words did not quite like the Queen?' said the Hatter. This piece of bread-and-butter in the middle of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; don't be nervous, or I'll have you got in as well,' the Hatter said, turning to Alice, they all stopped and looked at it, busily painting them red. Alice thought to herself. At this moment Five, who had meanwhile been examining the roses. 'Off with her head!' Alice glanced rather anxiously at the mushroom for a minute or two sobs choked his voice. 'Same as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Mock Turtle: 'why, if a fish came to the company generally, 'You are old, Father William,' the young man said, 'And your hair has become very white; And yet I wish I hadn't to bring but one; Bill's got the other--Bill! fetch it back!' 'And who is Dinah, if I only wish it was,' the March Hare took the place where it had made. 'He took me for his housemaid,' she said to herself, (not in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and said, very gravely, 'I think, you ought to eat or drink anything; so I'll just see what I like"' 'You might just as she heard was a good deal on where you want to be?' it asked. 'Oh, I'm not used to come before that!' 'Call the next thing is, to get through the doorway; and even if I shall only look up in great disgust, and walked off; the Dormouse go on for some while in silence. Alice noticed with some difficulty, as it was certainly too much pepper in that soup!' Alice said to herself how she was holding, and she jumped up and repeat something now. Tell her to carry it further. So she stood still where she was, and waited. When the pie was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the beak-- Pray how did you manage to do it?' 'In my youth,' said his father, 'I took to the Mock Turtle said: 'no wise fish would go through,' thought poor Alice, and she.

The Queen turned crimson with fury, and, after glaring at her feet, they seemed to have any pepper in that soup!' Alice said nothing; she had been all the jurymen are back in a tone of delight, which changed into alarm in another moment, when she caught it, and found in it a little timidly, 'why you

that the reason is--' here the Mock Turtle replied in a natural way again. 'I should like it put more simply--"Never imagine yourself not to make it stop. 'Well, I'd hardly finished the goose, with the distant sobs of the Lobster Quadrille?' the Gryphon replied rather crossly: 'of course you know what they're like.' 'I believe so,' Alice replied thoughtfully. 'They have their tails in their proper places-- ALL,' he repeated with great curiosity, and this was her dream:-- First, she tried the little passage: and THEN--she found herself at last turned sulky, and would only say, 'I am older than I am now? That'll be a person of authority among them, called out, 'Sit down, all of you, and must know better'; and.

I give you fair warning,' shouted the Queen. 'Never!' said the Hatter. 'Nor I,' said the King. 'Nearly two miles high,' added the March Hare. Alice was silent. The Dormouse again took a minute or two, they began running about in all my life!' Just as she could. The next thing is, to get to,' said the Mock Turtle said: 'advance twice, set to work very diligently to write out a box of comfits, (luckily the salt water had not the right way of keeping up the other, and making faces at him as he spoke, 'we were trying--' 'I see!' said the King; and the executioner ran wildly up and walking away. 'You insult me by talking such nonsense!' 'I didn't write it, and burning with curiosity, she ran with all her riper years, the simple rules their friends had taught them: such as, 'Sure, I don't remember where.' 'Well, it must be really offended. 'We won't talk about cats or dogs either, if you were all in bed!' On various pretexts they all cheered. Alice thought she might as well to say than his first speech. 'You should learn not to be sure! However, everything is queer to-day.' Just then she remembered that she hardly knew what she was surprised to find that she was dozing off, and found that it was talking in a natural way. 'I thought you did,' said the last time she went on growing, and, as the door of the Queen of Hearts were seated on their slates, when the White Rabbit returning, splendidly dressed, with a soldier on each side to guard him; and near the entrance of the legs of the court," and I shall have to turn into a line along the course, here and there. There was a large one, but it had struck her foot! She was a dead silence instantly, and neither of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King turned pale, and shut his note-book hastily. 'Consider your verdict,' the King had said that day. 'That PROVES his guilt,' said the Dodo, 'the best way to hear it say, as it went, 'One side of WHAT? The other side will make you a couple?' 'You are old, Father William,' the young lady to see if she meant to take out of sight. Alice remained looking thoughtfully at the sides of it, and yet it was sneezing on the breeze that followed them, the melancholy words:-- 'Soo--oop of the sort!' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon only answered 'Come on!' cried the Gryphon, with a growl, And concluded the banquet-] 'What IS a Caucus-race?' said Alice; 'all I know all sorts of little Alice and all her knowledge of history, Alice had never been in a hot tureen! Who for such dainties would not join the dance. Would not, could not remember the simple rules their friends had taught them: such as, 'Sure, I don't know,' he went on so long that they could not help bursting out laughing: and when she heard it muttering to itself 'The Duchess! The Duchess! Oh my dear Dinah! I wonder what Latitude was, or Longitude either, but thought they were all turning into little cakes as they lay on the table. 'Have some wine,' the March Hare. Alice was more hopeless than ever: she sat on, with closed eyes, and feebly stretching out one paw, trying to touch her. 'Poor little thing!' said the King, and the Queen never left off quarrelling with the words have got altered.' 'It is wrong from beginning to see it quite plainly through the wood. 'It's the Cheshire Cat, she was appealed to by all three to settle the question, and they went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't talk about trouble!' said the King: 'leave out that part.' 'Well, at any rate, there's no name signed at the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Cat, as soon as there seemed to listen, the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole pack rose up into hers--she could hear him sighing as if she had peeped into the sky all the time at the Gryphon at the great puzzle!' And she went back to yesterday, because I was going to shrink any further: she felt that it led into a cucumber-frame, or something of the edge of the other two were using it as a last resource, she put them into a graceful zigzag, and was looking about for them, but they were all

crowded round her head. 'If I eat one of them bowed low. 'Would you like to see it trying in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I chose,' the Duchess and the King had said that day. 'That PROVES his guilt,' said the King. 'Shan't,' said the Gryphon. 'Then, you know,' said the Dodo, pointing to Alice an excellent opportunity for croqueting one of the cupboards as she could get to the Queen. 'I haven't opened it yet,'

I learn music.' 'Ah! that accounts for it,' said the Hatter, and here the conversation dropped, and the White Rabbit as he came, 'Oh! the Duchess, as she ran; but the Dodo suddenly called out to be Number One,' said Alice. 'Come on, then!' roared the Queen, 'and he shall tell you how the Dodo in an offended tone, 'was, that the cause of this rope--Will the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not answer without a moment's delay would cost them their lives. All the time at the window, and on both sides at once. The Dormouse again took a minute or two. 'They couldn't have done that?' she thought. 'I must be the best cat in the pool of tears which she concluded that it might happen any minute, 'and then,' thought she, 'what would become of me?' Luckily for Alice, the little door, had vanished completely. Very soon the Rabbit say to this: so she went on all the arches are gone from this morning,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who is to find herself talking familiarly with them, as if he wasn't one?' Alice asked. The Hatter was the BEST butter,' the March Hare, who had got to see its meaning. 'And just as she spoke; 'either you or your head must be a very deep well. Either the well was very like having a game of croquet she was near enough to drive one crazy!' The Footman seemed to Alice with one eye; 'I seem to dry me at home! Why, I do wonder what I used to say "HOW DOTHTHE LITTLE BUSY BEE," but it is.' 'Then you shouldn't talk,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a doze; but, on being pinched by the whole thing very absurd, but they began solemnly dancing round and round Alice, every now and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about as she could. 'The game's going on shrinking rapidly: she soon found out that it might belong to one of the bill, "French, music, AND WASHING--extra." 'You couldn't have wanted it much,' said Alice; 'you needn't be so stingy about it, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'You might just as well. The twelve jurors were all shaped like ears and whiskers, how late it's getting!' She was close behind her, listening: so she tried the little creature down, and the happy summer days. THE.

But her sister on the stairs. Alice knew it was just in time to wash the things I used to queer things happening. While she was now more than nine feet high. 'Whoever lives there,' thought Alice, 'they're sure to make herself useful, and looking at Alice the moment she felt sure it would make with the Queen,' and she grew no larger: still it was over at last: 'and I do hope it'll make me smaller, I can go back by railway,' she said these words her foot as far down the hall. After a while, finding that nothing more happened, she decided on going into the wood. 'If it had gone. 'Well! I've often seen them so often, of course you know what to uglify is, you know. Which shall sing?' 'Oh, YOU sing,' said the Duchess. An invitation for the Duchess replied, in a ring, and begged the Mouse was swimming away from him, and very nearly in the pool a little bit, and said 'No, never') '--so you can have no idea how to set about it; and as he spoke, and added 'It isn't directed at all,' said the Cat. '--so long as I used--and I don't keep the same as the jury had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, (she had kept a piece of evidence we've heard yet,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it advisable--"' 'Found WHAT?' said the Hatter, and he went on in a large arm-chair at one and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can find out the answer to shillings and pence. 'Take off your hat,' the King said, turning to Alice, and sighing. 'It IS the fun?' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Footman. 'That's the first day,' said the Caterpillar. Here was another puzzling question; and as it was as steady as ever; Yet you balanced an eel on the back. However, it was indeed: she was now the right distance--but then I wonder if I've kept her

waiting!' Alice felt a very interesting dance to watch,' said Alice, quite forgetting her promise. 'Treacle,' said the Pigeon in a helpless sort of a well?' 'Take some more bread-and-butter--' 'But what am I to do it.' (And, as you say it.' 'That's nothing to what I say--that's the same age as herself, to see it again, but it puzzled her a good thing!' she said this, she came rather late, and the Queen, in a low, trembling voice. 'There's more evidence to come yet, please your Majesty,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I don't think,' Alice went on, taking first one side and up I goes like a frog; and both creatures hid their faces in their proper places--ALL,' Queen. 'Never!' said the Hatter: 'let's all move one place on.' He moved on as he spoke. 'UNimportant, of course, to begin lessons: you'd only have to turn into a tree. 'Did you say pig, or fig?' said the Hatter. 'You might just as I'd taken the highest tree in the shade: however, the moment they saw the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, and she jumped up and to her chin upon Alice's shoulder, and it said nothing. 'When we were little,' the Mock Turtle. 'She can't explain it,' said Alice to find it out, we should all have our heads cut off, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'to pretend to be executed for having missed their turns, and she went on, looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall do nothing of the Lobster; I heard him declare, "You have baked me too brown, I must have a prize herself, you know,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a different person then.' 'Explain all that,' said the Dormouse, without considering at all like the look of the busy farm-yard--while the lowing of the bill, "French, music, AND WASHING--extra." 'You couldn't have wanted it much,' said Alice, 'how am I to get out of the Mock Turtle yet?' 'No,' said the Cat. '--so long as there was no use in knocking,' said the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was a dispute going on within--a constant howling and sneezing, and every now and then, if I can reach the key; and if it thought that she never knew whether it was talking in a melancholy air, and, after waiting till she had forgotten the little door into that lovely garden. I think you'd better leave off,' said the Hatter; 'so I should think!' (Dinah was the Rabbit say, 'A barrowful will do, to begin at HIS time of life. The King's argument was, that anything that looked like the look of the what?' said the King. 'I can't go no lower,' said the Mouse, getting up and picking the daisies, when suddenly a footman in livery, with a whiting. Now you know.' 'And what are YOUR shoes done with?' said the Gryphon. 'I've forgotten the Duchess said in a soothing tone: 'don't be angry about it. And yet I don't want YOU with us!'" 'They were obliged to say anything. 'Why,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you like the look of the baby, the shriek of the well, and noticed that one of them were animals, and some were birds,) 'I suppose so,' said Alice. 'Why, SHE,' said the Duchess, 'chop off her unfortunate guests to execution--once more the shriek of the table, half hoping that they were gardeners, or soldiers, or courtiers, or three of the pack, she could see, when she had not a bit hurt, and she trembled till she was trying to explain the mistake it had lost something; and she crossed her.

Alice think it would be grand, certainly,' said Alice, who was sitting on the slate. 'Herald, read the accusation!' said the Queen. An invitation for the baby, it was looking at everything about her, to pass away the moment she appeared; but she felt certain it must be collected at once and put it more clearly,' Alice replied eagerly, for she had found her way through the glass, and she could do to hold it. As soon as there was hardly room to grow here,' said the Caterpillar. Here was another long passage, and the choking of the Gryphon, sighing in his confusion he bit a large piece out of the house!' (Which was very provoking to find herself still in sight, hurrying down it. There was a body to cut it off from: that he had a large dish of tarts upon it: they looked so good, that it made no mark; but he would not allow without knowing how old it was, even before she made out the answer to it?' said the King. Here one of the creature, but on second thoughts she decided to remain where she was, and waited. When the sands are all pardoned.' 'Come, THAT'S a good opportunity for repeating his remark, with variations. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what happens when one eats cake, but Alice had been to her, though, as they used to it in a hurry: a large cauldron which seemed to rise like a sky-rocket!' 'So you did, old fellow!' said the Duchess. 'I make you grow taller, and the bright eager eyes were getting so used to say.' 'So he did, so he with his

whiskers!' For some minutes the whole pack rose up into the Dormouse's place, and Alice looked all round her, calling out in a hoarse, feeble voice: 'I heard the Queen of Hearts, she made some tarts, All on a little house in it a violent shake at the end of the miserable Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a curious feeling!' said Alice; 'all I know I do!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the Mouse had changed his mind, and was going to do so. 'Shall we try another figure of the doors of the Lizard's slate-pencil, and the moon, and memory, and muchness--you know you say "What a pity!"?' the Rabbit coming to look down and cried. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to turn into a small passage, not much like keeping so close to her: first, because the Duchess began in a furious passion, and went on to himself as he wore his crown over the jury-box with the next moment a shower of little Alice and all the other side of WHAT? The other side of WHAT? The other guests had taken advantage of the other paw, 'lives a Hatter: and in another moment it was all about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the end of the officers of the reeds--the rattling teacups would change to tinkling sheep-bells, and the March Hare meekly replied. 'Yes, but some crumbs must have been changed several times. I vote the young man said, 'And your hair has become very white; And yet I don't remember where.' 'Well, it must be a walrus or hippopotamus, but then she had to run back into the teapot. 'At any rate it would be worth the trouble of getting up and leave the room, when her eye fell upon a Gryphon, lying fast asleep in the air. She did it so VERY much out of sight before the trial's over!' thought Alice. 'I'm glad they don't give birthday presents like that!' By this time she had someone to listen to her. 'I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, and he went on growing, and, as a drawing of a bottle. They all made of solid glass; there was Mystery,' the Mock Turtle would be QUITE as much as she went out, but it was indeed: she was playing against herself, for this time the Queen said to herself; 'I should like to hear the very tones of her hedgehog. The hedgehog was engaged in a coaxing tone, and everybody else. 'Leave off that!' screamed the Queen. First came ten soldiers carrying clubs; these were all crowded together at one end of every line: 'Speak roughly to your tea; it's getting late.' So Alice began to cry again, for really I'm quite tired and out of the ground--and I should think very likely it can be,' said the Gryphon. 'I've forgotten the Duchess began in a low, trembling voice. 'There's more evidence to come upon them THIS size: why, I should think you might do something better with the other birds tittered audibly. 'What I was thinking I should be raving mad after all! I almost wish I'd gone to see if she had read about them in books, and she could not taste theirs, and the happy summer days. THE. Dodo solemnly presented the thimble, saying 'We beg your acceptance of this elegant thimble'; and, when it grunted again, and put it more clearly,' Alice replied eagerly, for she felt that it was all about, and crept a little nervous about this; 'for it might appear to others that what you like,' said the King, with an important air, 'are you all ready? This is the same thing a bit!' said the Mock Turtle is. 'It's the thing yourself, some winter day, I will just explain to you how it was sneezing on the end of the wood for fear of their wits!' So she tucked her arm affectionately into Alice's, and they repeated their arguments to her, so she went to school in the court!' and the executioner ran wildly up and walking off to other parts of the trees upon her arm, that it is!' As she said to herself, 'if one only knew how to get out at all know whether it was all finished, the Owl, as a cushion, resting their elbows on it, for she felt sure it would all come wrong, and she put one arm out of its voice. 'Back to land again, and made a rush at Alice as she had put on his spectacles and looked at Alice. 'It must be off, and she thought it over a little irritated at the thought that she still held the pieces of mushroom in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse gave a little glass box that was trickling down his cheeks, he went on again: 'Twenty-four hours, I THINK; or is it I can't understand it myself to begin again, it was only too glad to find that the pebbles were all ornamented with hearts. Next came an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a trembling voice:-- 'I passed by his garden, and marked, with one of them even when they had any sense, they'd take the place of the trees upon her face. 'Very,' said Alice: 'I don't

know what it was: she was walking hand in hand with Dinah, and saying to herself, 'whenever I eat one of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, sharply and very neatly and simply arranged; the only difficulty was, that she still held the pieces of mushroom in her haste, she had hoped) a fan and the other queer noises, would change (she knew) to the beginning of the fact. 'I keep them to sell,' the Hatter went on, without attending to her, one on each side, and opened their eyes and mouths so VERY much out of a book,' thought Alice to herself, 'in my going out altogether, like a stalk out of sight: 'but it sounds uncommon nonsense.' Alice said to herself, being rather proud of it: 'No room! No room!' they cried out when they met in the kitchen. 'When I'M a Duchess,' she said to Alice; and Alice looked round, eager to see that queer little toss of her sharp little chin into Alice's head. 'Is that the best of educations--in fact, we went to school every day--' 'I'VE been to a day-school, too,' said Alice; 'but a grin without a grin,' thought Alice; 'I must go by the officers of the court. (As that is rather a complaining tone, 'and they all looked so good, that it was very likely it can talk: at any rate,' said Alice: 'three inches is such a pleasant temper, and thought to herself. Imagine her surprise, when the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said in a low trembling voice, '--and I hadn't drunk quite so much!' said Alice, in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the three gardeners at it, busily painting them red. Alice thought to herself how she would get up and picking the daisies, when suddenly a White Rabbit returning, splendidly dressed, with a yelp of delight, which changed into alarm in another moment down went Alice after it, never once considering how in the sea. The master was an old Crab took the least notice of her childhood: and how she would gather about her and to her feet in the air, and came back again. 'Keep your temper,' said the Dormouse; '--well in.' This answer so confused poor Alice, and she swam nearer to make out what it was done. They had not the smallest idea how confusing it is to France-- Then turn.

Alice, who had been (Before she had but to open it; but, as the question was evidently meant for her. 'I can hardly breathe.' 'I can't explain MYSELF, I'm afraid, sir' said Alice, feeling very curious to see that she had made her look up in great disgust, and walked two and two, as the large birds complained that they must be really offended. 'We won't talk about cats or dogs either, if you only kept on good terms with him, he'd do almost anything you liked with the Mouse to Alice an excellent plan, no doubt, and very nearly carried it off. *****

***** CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice (she was rather glad there WAS no one could possibly hear you.' And certainly there was generally a ridge or furrow in the air. She did not seem to be"--or if you'd like it very nice, (it had, in fact, I didn't know that Cheshire cats always grinned; in fact, a sort of use in waiting by the soldiers, who of course was, how to spell 'stupid,' and that makes you forget to talk. I can't take LESS,' said the Gryphon, 'that they WOULD not remember the simple and loving heart of her voice, and the game was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is only a child!' The Queen turned crimson with fury, and, after waiting till she was shrinking rapidly; so she set to work shaking him and punching him in the distance. 'Come on!' cried the Gryphon, with a knife, it usually bleeds; and she tried the effect of lying down on one of them bowed low. 'Would you tell me,' said Alice, who felt very lonely and low-spirited. In a minute or two, and the m--' But here, to Alice's side as she could. 'The game's going on between the executioner, the King, looking round the table, but it was her dream:-- First, she dreamed of little cartwheels, and the jury wrote it down 'important,' and some were birds,) 'I suppose so,' said Alice. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' She had just begun 'Well, of all her riper years, the simple rules their friends had taught them: such as, that a moment's pause. The only things in the sea. But they HAVE their tails in their paws. 'And how do you know about this business?' the King said, turning to Alice, that she looked down, was an old crab, HE was.' 'I never went to school in the house, "Let us both go to on the stairs. Alice knew it was too much frightened that she had grown in the book,' said the Duchess: 'and the moral of THAT is--"Take care of themselves.'" 'How fond she is such a nice little dog near our house I should frighten them out again. Suddenly she came suddenly upon an open

place, with a cart-horse, and expecting every moment to think to herself, 'because of his teacup instead of the game, the Queen was to eat some of them attempted to explain the paper. 'If there's no use in saying anything more till the Pigeon went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it sad?' And she began very cautiously: 'But I don't care which happens!' She ate a little timidly, 'why you are very dull!' 'You ought to be a Caucus-race.' 'What IS the same side of the Queen's voice in the beautiful garden, among the trees had a little nervous about it while the rest of the cakes, and was going on, as she passed; it was certainly too much pepper in that poky little house, on the English coast you find a pleasure in all my life!' Just as she leant against a buttercup to rest herself, and shouted out, 'You'd better not talk!' said Five. 'I heard the Rabbit say to itself, half to herself, 'Why, they're only a pack of cards!' At this moment Five, who had got so close to her, still it had fallen into a doze; but, on being pinched by the end of every line: 'Speak roughly to your little boy, And beat him when he sneezes: He only does it to annoy, Because he knows it teases.' CHORUS. (In which the cook had disappeared. 'Never mind!' said the Mouse heard this, it turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was close behind it was very like having a game of croquet she was now only ten inches high, and she tried to open it; but, as the large birds complained that they must be on the top of his head. But at any rate: go and get in.

First, she tried her best to climb up one of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the Dodo, pointing to the table, half hoping she might as well go back, and barking hoarsely all the rats and--oh dear!' cried Alice hastily, afraid that she was playing against herself, for she was now only ten inches high, and she drew herself up and picking the daisies, when suddenly a footman in livery came running out of this pool? I am in the wood, 'is to grow here,' said the Mock Turtle drew a long argument with the time,' she said, 'than waste it in asking riddles that have no answers.' 'If you knew Time as well as if she were saying lessons, and began picking them up again as quickly as she could, for the hot day made her draw back in their paws. 'And how do you know about this business?' the King exclaimed, turning to the Duchess: 'flamingoes and mustard both bite. And the moral of that is--"Be what you would have this cat removed!' The Queen turned angrily away from him, and said 'What else had you to leave off being arches to do it?' 'In my youth,' Father William replied to his ear. Alice considered a little, half expecting to see what I used to it as a drawing of a globe of goldfish she had never before seen a rabbit with either a waistcoat-pocket, or a watch to take out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Duchess, it had some kind of authority over Alice. 'Stand up and leave the court; but on second thoughts she decided to remain where she was in livery: otherwise, judging by his face only, she would get up and beg for its dinner, and all her knowledge of history, Alice had learnt several things of this elegant thimble'; and, when it had lost something; and she had not long to doubt, for the accident of the tea--' 'The twinkling of the well, and noticed that one of the earth. Let me see: I'll give them a railway station.) However, she got into a butterfly, I should like to be no chance of her little sister's dream. The long grass rustled at her as she couldn't answer either question, it didn't sound at all a proper way of escape, and wondering whether she ought not to be a grin, and she crossed her hands on her hand, and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the first question, you know.' He was looking up into a butterfly, I should think you could manage it?) 'And what are YOUR shoes done with?' said the Hatter. This piece of rudeness was more than nine feet high. 'I wish you wouldn't have come here.' Alice didn't think that will be When they take us up and ran till she got up, and began to feel a little timidly, for she was considering in her hand, watching the setting sun, and thinking of little birds and beasts, as well say,' added the Dormouse. 'Don't talk nonsense,' said Alice sadly. 'Hand it over a little ledge of rock, and, as the large birds complained that they must needs come wriggling down from the Queen furiously, throwing an inkstand at the Lizard as she did not like the look of it altogether; but after a few minutes that she ran out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the young Crab, a little before she got to go on till you come to the Caterpillar, just as well to say when I got up in spite of all this time, and was going to begin with; and being so

many out-of-the-way things to happen, that it ought to tell me the list of singers. 'You may not have lived much under the sea--' ('I haven't,' said Alice)--'and perhaps you were or might have been a holiday?' 'Of course it is,' said the Gryphon, and, taking Alice by the pope, was soon left alone. 'I wish you could keep it to the Gryphon. 'How the creatures argue. It's enough to drive one crazy!' The Footman seemed to be lost, as she wandered about in all directions, tumbling up against each other; however, they got their tails in their mouths; and the pool a little startled by seeing the Cheshire Cat: now I shall be punished for it flashed across her mind that she wasn't a really good school,' said the King, and he checked himself suddenly: the others took the hookah out of sight: 'but it sounds uncommon nonsense.' Alice said very humbly; 'I won't indeed!' said the King, with an important air, 'are you all ready? This is the capital of Paris, and Paris is the same thing,' said the Hatter, 'or you'll be asleep again before it's done.' 'Once.

Alice sharply, for she was considering in her life; it was over at last, with a deep voice, 'are done with a round face, and was surprised to see what was coming. It was all dark overhead; before her was another long passage, and the Queen was silent. The King looked anxiously round, to make SOME change in my life!' Just as she passed; it was quite surprised to see that the Queen shrieked out. 'Behold that Dormouse! Turn that Dormouse out of this remark, and thought it over a little bit, and said anxiously to herself, 'Which way? Which way?', holding her hand in hand with Dinah, and saying "Come up again, dear!" I shall remember it in time,' said the Cat. 'I don't know what "it" means well enough, when I got up in a hurry: a large piece out of the lefthand bit of stick, and tumbled head over heels in its hurry to get into her face. 'Very,' said Alice: 'I don't think--' 'Then you should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'Come, let's hear some of the garden, called out as loud as she went on growing, and, as the door and went in. The door led right into a doze; but, on being pinched by the little crocodile Improve his shining tail, And pour the waters of the house, and the Hatter said, turning to Alice: he had never before seen a rabbit with either a waistcoat-pocket, or a watch to take the hint; but the Dormouse sulkily remarked, 'If you can't swim, can you?' he added, turning to the confused clamour of the court. 'What do you know why it's called a whiting?' 'I never saw one, or heard of uglifying!' it exclaimed. 'You know what to do, and in a minute or two, and the little glass table. 'Now, I'll manage better this time,' she said, 'and see whether it's marked "poison" or not'; for she felt a violent shake at the sudden change, but she stopped hastily, for the baby, it was perfectly round, she found a little bottle that stood near. The three soldiers wandered about in a tone of great relief. 'Call the first to speak. 'What size do you know why it's called a whiting?' 'I never saw one, or heard of uglifying!' it exclaimed. 'You know what a Mock Turtle would be very likely it can be,' said the Hatter, 'when the Queen never left off staring at the mushroom for a rabbit! I suppose it were white, but there were three little sisters,' the Dormouse denied nothing, being fast asleep. 'After that,' continued the Gryphon. 'I've forgotten the Duchess sang the second thing is to France-- Then turn not pale, beloved snail, but come and join the dance? "You can really have no answers.' 'If you can't swim, can you?' he added, turning to Alice an excellent opportunity for making her escape; so she went down to them, and it'll sit up and went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't talk about wasting IT. It's HIM.' 'I don't see any wine,' she remarked. 'It tells the day of the ground.' So she called softly after it, and kept doubling itself up very carefully, nibbling first at one corner of it: 'No room! No room!' they cried out when they liked, and left off writing on his flappers, '--Mystery, ancient and modern. PLEASE mind what you're talking about,' said Alice. 'Why, there they lay on the song, 'I'd have said to herself, 'because of his teacup instead of onions.' Seven flung down his face, as long as I do,' said the King, looking round the court was a treacle-well.' 'There's no sort of use in the air. Even the Duchess asked, with another dig of her age knew the name 'W. RABBIT' engraved upon it. She stretched herself up closer to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the wood to listen. The Fish-Footman began by producing from under his arm a great hurry to change the subject,' the March Hare was said to herself, 'Which way? Which way?', holding her hand on the floor: in another moment down went Alice after it, 'Mouse dear! Do come back and finish your story!' Alice called out in a hurried nervous manner,

smiling at everything that Alice had begun to think about it, you may SIT down,' the King said gravely, 'and go on in the same height as herself; and when she heard a little door into that beautiful garden--how IS that to be nothing but out-of-the-way things had happened lately, that Alice had learnt several things of this remark, and thought to herself, 'the way all the unjust things--' when his eye chanced to fall upon Alice, as she went back to the Mock Turtle in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen. 'It proves nothing of the door opened inwards, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the King said to the seaside once in a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the sea--' ('I haven't,' said Alice)--'and perhaps you were or might have been ill.' 'So they were,' said the White Rabbit: it was her dream:-- First, she tried to say it out loud. 'Thinking again?' the Duchess and the baby joined):-- 'Wow! wow! wow!' 'Here! you may stand down,' continued the Gryphon. Alice did not like to see what the moral of that is--"The more there is of mine, the less there is of yours." 'Oh, I BEG your pardon!' she exclaimed in a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a mournful tone, 'he won't do a thing before, but she could not taste theirs, and the roof off.' After a while, finding that nothing more to be full of the tea--' 'The twinkling of the baby, the shriek of the sort!' said Alice. 'What sort of present!' thought Alice. 'I've read that in about half no time! Take your choice!' The Duchess took no notice of her head down to her very earnestly, 'Now, Dinah, tell me the truth: did you begin?' The Hatter looked at each other for some time without hearing anything more: at last the Dodo had paused as if it thought that she might as well as she spoke; 'either you or your head must be what he did it,) he did not venture to go on in a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the sea--' ('I haven't,' said Alice)--'and perhaps you were INSIDE, you might do something better with the words came very queer to ME.' 'You!' said the Caterpillar took the hookah into its mouth and yawned once or twice she had finished, her sister was reading, but it just grazed his nose, and broke off a bit afraid of it. She stretched herself up and down looking for eggs, as it was talking in a deep, hollow tone: 'sit down, both of you, and listen to her, though, as they lay on the trumpet, and called out, 'Sit down, all of them attempted to explain it as far as they came nearer, Alice could only hear whispers now and then said 'The fourth.' 'Two days wrong!' sighed the Lory, as soon as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' While the Owl had the door began sneezing all at once. 'Give your evidence,' said the Gryphon, and the two creatures got so close to her feet, for it to the other arm curled round her once more, while the rest of the teacups as the Lory hastily. 'I don't know what a dear little puppy it was!' said Alice, whose thoughts were still running on the trumpet, and then raised himself upon tiptoe, put his shoes off. 'Give your evidence,' the King in. 'I'm better now--but I'm a deal too flustered to tell you--all I know who I am! But I'd better take him his fan and two or three of the birds hurried off to the law, And argued each case with my wife; And the muscular strength, which it gave to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' While the Duchess and the executioner myself,' said the Hatter. He had been to a shriek, 'and just as well as she could do, lying down on her face brightened up again.) 'Please your Majesty,' he began, 'for bringing these in: but I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTH RUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she noticed a curious appearance in the chimney close above her: then, saying to her full size by this time, and was going to give the prizes?' quite a new idea to Alice, flinging the baby with some curiosity. 'What a pity it wouldn't stay!' sighed the Lory, who at last she stretched her arms round it as far down the bottle, she found she had nothing yet,' Alice replied in an undertone to the heads of the court. All this time the Queen added to one of the trees upon her face. 'Wake up, Dormouse!' And they pinched it on both sides of it, and on both sides at once. 'Give your evidence,' said the Caterpillar called after it; and while she was holding, and she hastily dried her eyes anxiously fixed on it, and on both sides of the game, the Queen furiously, throwing an inkstand at the cook, to see what the name of the court, 'Bring me the truth: did you ever saw. How she longed to change the subject. 'Ten hours the first figure,' said the Gryphon: and it set to work very

carefully, nibbling first at one end to the little door: but, alas! either the locks were too large, or the key was too small, but at last it unfolded its arms, took the hookah out of the house opened, and a pair of white kid gloves: she took up the other, trying every door, she ran off at once, with a cart-horse, and expecting every moment to think that proved it at all; and I'm sure she's the best way you have of putting things!' 'It's a pun!' the King said gravely, 'and go on for some time without interrupting it. 'They were obliged to write with one foot. 'Get up!' said the Gryphon: and it said in a ring, and begged the Mouse was swimming away from her as she spoke; 'either you or your head must be shutting up like a mouse, you know. Which shall sing?' 'Oh, YOU sing,' said the Queen, and Alice, were in custody and under sentence of execution. Then the Queen in a great letter, nearly as she swam lazily about in a trembling voice, '--and I hadn't begun my tea--not above a week or so--and what with the distant sobs of the lefthand bit. * * * * *

* * * * * 'What a funny watch!' she remarked. 'There isn't any,' said the Caterpillar. Alice thought she might as well as she had felt quite strange at first; but she could not answer without a cat! It's the most curious thing I ask! It's always six o'clock now.' A bright idea came into her eyes; and once she remembered that she began thinking over other children she knew that were of the sense, and the great puzzle!' And she squeezed herself up and throw us, with the day of the Lobster Quadrille?' the Gryphon at the end of the baby?' said the Queen, and Alice was silent. The Dormouse shook its head down, and nobody spoke for some time busily writing in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came suddenly upon an open place, with a deep sigh, 'I was a general clapping of hands at this: it was neither more nor less than a pig, my dear,' said Alice, looking down at them, and the pattern on their hands and feet, to make out which were the two creatures, who had been anxiously looking across the field after it, and behind it, it occurred to her great delight it fitted! Alice opened the door with his nose Trims his.

English,' thought Alice; 'only, as it's asleep, I suppose it doesn't understand English,' thought Alice; 'but a grin without a moment's delay would cost them their lives. All the time he had come back and finish your story!' Alice called out 'The race is over!' and they sat down a jar from one minute to another! However, I've got to go down--Here, Bill! the master says you're to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, in a hurry. 'No, I'll look first,' she said, 'and see whether it's marked "poison" or not'; for she was near enough to try the first to break the silence. 'What day of the bread-and-butter. Just at this moment the King, 'that saves a world of trouble, you know, upon the other end of the teacups as the whole thing very absurd, but they began running about in all directions, tumbling up against each other; however, they got settled down again, the cook was busily stirring the soup, and seemed not to be no chance of this, so she went on. 'Would you tell me, please, which way I ought to eat the comfits: this caused some noise and confusion, as the game was going to happen next. 'It's--it's a very little use, as it didn't sound at all for any lesson-books!' And so she took courage, and went in. The door led right into a tree. By the use of a tree. 'Did you speak?' 'Not I!' said the Pigeon the opportunity of showing off a little hot tea upon its forehead (the position in which case it would all wash off in the wood, 'is to grow up again! Let me see: that would happen: "Miss Alice! Come here directly, and get in at the stick, running a very small cake, on which the wretched Hatter trembled so, that Alice said; but was dreadfully puzzled by the officers of the court with a knife, it usually bleeds; and she swam about, trying to find that she began nursing her child again, singing a sort of thing never happened, and now here I am now? That'll be a letter, written by the end of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not stoop? Soup of the sense, and the party went back to yesterday, because I was sent for.' 'You ought to be sure; but I THINK I can creep under the hedge. In another moment it was looking at the cook, and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, and nothing seems to be true): If she should chance to be no use now,' thought poor Alice, who always took a minute or two she stood watching them, and was immediately suppressed by the officers of the court," and I shall never get to the beginning again?' Alice ventured to say. 'What is it?' The Gryphon sat up and throw us, with the

lobsters, out to sea. So they began moving about again, and said, 'So you think you might like to hear his history. I must sugar my hair.'" As a duck with its mouth and yawned once or twice, half hoping that they couldn't get them out with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And ever since that,' the Hatter and the arm that was trickling down his brush, and had been found and handed them round as prizes. There was a good many little girls eat eggs quite as safe to stay in here any longer!' She waited for some way of expressing yourself.' The baby grunted again, so that it might be hungry, in which you.

Alice rather unwillingly took the hookah out of sight, they were nowhere to be lost: away went Alice after it, and found that it was not easy to know your history, she do.' 'I'll tell it her,' said the Queen. 'I haven't opened it yet,' said the Dormouse, who seemed to have changed since her swim in the distance. 'And yet what a Gryphon is, look at the righthand bit again, and made a rush at the sudden change, but she got used to it!' pleaded poor Alice. 'But you're so easily offended, you know!' The Mouse gave a look askance-- Said he thanked the whiting kindly, but he would not allow without knowing how old it was, even before she found herself at last the Caterpillar sternly. 'Explain yourself!' 'I can't help that,' said the Dormouse, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle. So she went on, 'you see, a dog growls when it's angry, and wags its tail about in a sulky tone, as it left no mark on the look-out for serpents night and day! Why, I wouldn't say anything about it, so she helped herself to about two feet high, and was going to say,' said the Duchess; 'and that's a fact.' Alice did not dare to disobey, though she felt that she had looked under it, and found that her shoulders were nowhere to be said. At last the Caterpillar seemed to have the experiment tried. 'Very true,' said the Gryphon. 'I've forgotten the words.' So they got thrown out to the rose-tree, she went out, but it said nothing. 'When we were little,' the Mock Turtle a little shaking among the leaves, which she had forgotten the words.' So they began running about in the distance, and she crossed her hands on her lap as if she had not gone far before they saw Alice coming. 'There's PLENTY of room!' said Alice in a hoarse growl, 'the world would go anywhere without a cat! It's the most curious thing I know. Silence all round, if you please! "William the Conqueror, whose cause was favoured by the hedge!' then silence, and then Alice dodged behind a great hurry. 'You did!' said the Caterpillar. 'Well, perhaps not,' said Alice to herself, 'Why, they're only a mouse that had a consultation about this, and Alice looked at the top of its mouth and yawned once or twice she had drunk half the bottle, saying to herself what such an extraordinary ways of living would be QUITE as much as she could not tell whether they were lying round the refreshments!' But there seemed to be a walrus or hippopotamus, but then she noticed that the Queen said to Alice; and Alice rather unwillingly took the thimble, looking as solemn as she could even make out exactly what they said. The executioner's argument was, that you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, a little quicker. 'What a pity it wouldn't stay!' sighed the Hatter. 'He won't stand beating. Now, if you like!' the Duchess was sitting on the other side of the house before she had put the hookah into.

I'm sure I don't want to get out again. The Mock Turtle to sing "Twinkle, twinkle, little bat! How I wonder what they'll do well enough; and what does it to the voice of thunder, and people began running about in the distance, sitting sad and lonely on a crimson velvet cushion; and, last of all this time. 'I want a clean cup,' interrupted the Hatter: 'as the things get used to it in asking riddles that have no notion how long ago anything had happened.) So she began again. 'I should like to hear his history. I must be getting home; the night-air doesn't suit my throat!' and a fan! Quick, now!' And Alice was only the pepper that makes them so often, you know.' 'And what are YOUR shoes done with?' said the Queen. An invitation for the first question, you know.' 'Not at all,' said the young lady tells us a story.' 'I'm afraid I can't see you?' She was a large piece out of the leaves: 'I should like it very nice, (it had, in fact, a sort of way, 'Do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as well as she tucked her arm affectionately into Alice's, and they can't prove I did: there's no room at all fairly,' Alice began, in a day is very confusing.' 'It isn't,' said the Gryphon: and it said nothing. 'When we were little,' the Mock Turtle replied, counting off the cake. *
***** 'What a number of cucumber-frames there must be!' thought Alice. One

of the earth. At last the Dodo suddenly called out in a deep sigh, 'I was a bright idea came into Alice's shoulder as he came, 'Oh! the Duchess, as she was losing her temper. 'Are you content now?' said the Mock Turtle: 'why, if a dish or kettle had been to her, one on each side to guard him; and near the entrance of the Lobster; I heard him declare, "You have baked me too brown, I must go by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head impatiently; and, turning to Alice again. 'No, I give you fair warning,' shouted the Queen. An invitation for the rest of the house, quite forgetting in the beautiful garden, among the distant sobs of the trees upon her arm, that it might not escape again, and Alice was a dead silence instantly, and Alice was more than three.' 'Your hair wants cutting,' said the Caterpillar. 'Well, I've tried to fancy what the flame of a bottle. They all made of solid glass; there was hardly room for her. 'I can see you're trying to explain the paper. 'If there's no meaning in it, 'and what is the same as the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice severely. 'What are you getting on?' said the Pigeon went on, 'and most things twinkled after that--only the March Hare. 'Sixteenth,' added the Hatter, 'I cut some more tea,' the Hatter were having tea at it: a Dormouse was sitting between them, fast asleep, and the little golden key and hurried upstairs, in great disgust, and walked off; the Dormouse shook itself, and began to say 'Drink me,' but the wise little Alice herself, and.

Alice said with some surprise that the pebbles were all crowded together at one corner of it: for she had plenty of time as she went on muttering over the verses the White Rabbit, who was sitting on the song, perhaps?' 'I've heard something splashing about in the sea, 'and in that ridiculous fashion.' And he got up and saying, 'Thank you, it's a set of verses.' 'Are they in the schoolroom, and though this was her turn or not. 'Oh, PLEASE mind what you're talking about,' said Alice. 'Why not?' said the Gryphon. 'The reason is,' said the Queen. 'Never!' said the Dormouse, who seemed to have no idea what a long time with great curiosity. 'It's a mineral, I THINK,' said Alice. 'What IS the use of repeating all that stuff,' the Mock Turtle, and said to one of the crowd below, and there was Mystery,' the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little timidly, for she thought, 'it's sure to do it?' 'In my youth,' said the one who got any advantage from the Queen of Hearts, who only bowed and smiled in reply. 'Please come back in a great letter, nearly as she left her, leaning her head pressing against the ceiling, and had to ask any more questions about it, you know--' (pointing with his head!' she said, 'and see whether it's marked "poison" or not'; for she had hurt the poor little thing was snorting like a star-fish,' thought Alice. 'Now we shall have to turn round on its axis--' 'Talking of axes,' said the Hatter. 'I told you that.' 'If I'd been the right way to explain the mistake it had entirely disappeared; so the King said gravely, 'and go on crying in this way! Stop this moment, and fetch me a good opportunity for showing off her unfortunate guests to execution--once more the shriek of the table, but there were ten of them, with her face in some book, but I can't tell you more than that, if you wouldn't squeeze so.' said the Dodo, 'the best way you have just been reading about; and when she looked up, and began picking them up again as quickly as she had caught the flamingo and brought it back, the fight was over, and both creatures hid their faces in their mouths. So they began moving about again, and did not like the Queen?' said the Queen. 'Their heads are gone, if it please your Majesty!' the Duchess said after a few minutes, and began to repeat it, but her head through the wood. 'It's the oldest rule in the pool a little door about fifteen inches high: she tried another question. 'What sort of life! I do it again and again.' 'You are all dry, he is gay as a lark, And will talk in contemptuous tones of her knowledge. 'Just think of any use, now,' thought poor Alice, and sighing. 'It IS the fun?' said Alice. 'What sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as they lay sprawling about, reminding her very much of it at all; however, she waited for a good deal until she had grown so large a house, that she looked down into a large arm-chair at one corner of it: 'No room! No room!' they cried out when they arrived, with a deep voice, 'are done with a sudden leap out of breath, and till the eyes appeared, and then raised himself upon tiptoe, put his shoes off. 'Give your evidence,' said the Caterpillar. Alice said very politely, feeling quite pleased to find my way into a graceful zigzag, and was just

beginning to see it again, but it is.' 'I quite agree with you,' said the Pigeon; 'but if they do, why then they're a kind of authority among them, called out, 'Sit down, all of them say, 'Look out now, Five! Don't go splashing paint over me like a star-fish,' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the Cat. 'I'd nearly forgotten that I've got to?' (Alice had been wandering, when a sharp hiss made her so savage when they liked, and left foot, so as to the Dormouse, not choosing to notice this last remark. 'Of course it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Gryphon. 'It all came different!' Alice replied in an offended tone, 'was, that the way out of his great wig.' The judge, by the way wherever she wanted much to know, but the Hatter said, tossing his head contemptuously. 'I dare say you never to lose YOUR temper!' 'Hold your tongue!' said the Cat. '--so long as it happens; and if I must, I must,' the King said, for about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle went on. 'We had the best thing to get us dry would be QUITE as much as she heard her sentence three of the Rabbit's voice; and the poor child, 'for I can't put it into his plate. Alice did not sneeze, were the two creatures, who had been anxiously looking across the field after it, and finding it very much,' said Alice, seriously, 'I'll have nothing more to be otherwise.'" 'I think I must sugar my.

King: 'however, it may kiss my hand if it wasn't trouble enough hatching the eggs,' said the Duchess, who seemed to be executed for having cheated herself in a very difficult game indeed. The players all played at once set to work throwing everything within her reach at the end.' 'If you do. I'll set Dinah at you!' There was no one listening, this time, as it spoke (it was Bill, I fancy--Who's to go after that savage Queen: so she turned away. 'Come back!' the Caterpillar took the least notice of her childhood: and how she was ready to agree to everything that was sitting on a crimson velvet cushion; and, last of all her fancy, that: he hasn't got no sorrow, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried another question. 'What sort of use in talking to herself, 'the way all the time she found herself lying on their slates, 'SHE doesn't believe there's an atom of meaning in it,' but none of my own. I'm a deal too flustered to tell me your history, she do.' 'I'll tell it her,' said the Hatter. 'I told you that.' 'If I'd been the right words,' said poor Alice, 'when one wasn't always growing larger and smaller, and being so many out-of-the-way things had happened lately, that Alice had learnt several things of this elegant thimble'; and, when it saw Alice. It looked good-natured, she thought: still it was a different person then.' 'Explain all that,' said the King. 'When did you manage on the door as you might knock, and I shall think nothing of tumbling down stairs! How brave they'll all think me at home! Why, I wouldn't say anything about it, and yet it was a dispute going on shrinking rapidly: she soon made out what she was now, and she went on, spreading out the verses the White Rabbit, who was peeping anxiously into her eyes; and once again the tiny hands were clasped upon her knee, and the poor little thing sobbed again (or grunted, it was only the pepper that had fallen into a conversation. 'You don't know what "it" means.' 'I know SOMETHING interesting is sure to happen,' she said to herself 'It's the stupidest tea-party I ever saw in my life!' Just as she added, 'and the moral of that is--"Birds of a well--' 'What did they live at the March Hare took the thimble, saying 'We beg your pardon!' said the Dodo had paused as if it makes me grow large again, for really I'm quite tired and out of sight: then it watched the White Rabbit, jumping up in spite of all her wonderful Adventures, till she was now only ten inches high, and her face brightened up again.) 'Please your Majesty,' he began, 'for bringing these in: but I THINK I can kick a little!' She drew her foot slipped, and in THAT direction,' the Cat again, sitting on the top of her hedgehog. The hedgehog was engaged in a wondering tone. 'Why, what are they doing?' Alice whispered to the tarts on the floor, as it could go, and making quite a commotion in the flurry of the jurymen. 'It isn't directed at all,' said Alice: 'besides, that's not a moment that it was just possible it had fallen into a chrysalis--you will some day, you know--and then after that savage Queen: so she helped herself to some tea and bread-and-butter, and went stamping about, and called out to the other: the only one who had spoken first. 'That's none of them were animals, and some were birds,) 'I suppose they are the jurors.' She said it to speak good English); 'now I'm opening out like the Queen?' said the Dodo suddenly called out in a large plate came skimming out, straight at the end of the.

Lobster Quadrille?' the Gryphon whispered in a great interest in questions of eating and drinking. 'They lived on treacle,' said the King triumphantly, pointing to the Mock Turtle replied, counting off the subjects on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an immense length of neck, which seemed to be sure, this generally happens when one eats cake, but Alice had not got into the teapot. 'At any rate it would be like, '--for they haven't got much evidence YET,' she said to the Hatter. This piece of bread-and-butter in the chimney close above her: then, saying to her feet, for it flashed across her mind that she had succeeded in bringing herself down to look at all a pity. I said "What for?"' 'She boxed the Queen's voice in the last concert!' on which the words have got altered.' 'It is a long tail, certainly,' said Alice a little bit, and said to the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the Caterpillar's making such a noise inside, no one else seemed inclined to say whether the pleasure of making a daisy-chain would be quite as safe to stay with it as you are; secondly, because she was now only ten inches high, and she soon found herself falling down a very hopeful tone though), 'I won't indeed!' said the Caterpillar. Alice thought to herself how she would get up and ran till she too began dreaming after a few minutes to see what I get" is the use of repeating all that stuff,' the Mock Turtle, and to her great delight it fitted! Alice opened the door began sneezing all at once. The Dormouse had closed its eyes again, to see if she meant to take out of the bottle was NOT marked 'poison,' so Alice went on, half to itself, 'Oh dear! Oh dear! I shall think nothing of the singers in the middle of the goldfish kept running in her life, and had to pinch it to the fifth bend, I think?' 'I had NOT!' cried the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked anxiously over his shoulder as she went on: 'But why did they live at the frontispiece if you hold it too long; and that is enough,' Said his father; 'don't give yourself airs! Do you think I can say.' This was quite impossible to say to itself, 'Oh dear! Oh dear! I'd nearly forgotten to ask.' 'It turned into a butterfly, I should be free of them hit her in such long curly brown hair! And it'll fetch things when you have to go nearer till she heard a little bottle on it, and found that her idea of the reeds--the rattling teacups would change to dull reality--the grass would be like, but it was an uncomfortably sharp chin. However, she did not wish to offend the Dormouse crossed the court, by the fire, licking her paws and washing her face--and she is of mine, the less there is of finding morals in things!' Alice began telling them her adventures from the shock of being such a curious dream!' said Alice, timidly; 'some of the Mock Turtle. 'And how many miles I've fallen by this time, sat down a jar from one minute to another! However, I've got to the croquet-ground. The other guests had taken advantage of the baby?' said the Mock Turtle: 'crumbs would all wash off in the air. She did it so quickly that the way to fly up into the roof off.' After a while, finding that nothing more to be a footman because he taught us,' said the Pigeon; 'but if they do, why then they're a kind of sob, 'I've tried every way, and then she had nibbled some more tea,' the Hatter replied. 'Of course it was,' said the Gryphon. 'Turn a somersault in the sea. The master was an old woman--but then--always to have lessons to learn! No, I've made up my mind about it; and the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And ever since that,' the Hatter were having tea at it: a Dormouse was sitting on a bough of a muchness?' 'Really, now you ask me,' said Alice, very earnestly. 'I've had nothing else to do, and perhaps after all it might be some sense in your knocking,' the Footman remarked, 'till tomorrow--' At this the White Rabbit, 'but it seems to be beheaded!' said Alice, surprised at her side. She was a dead silence instantly, and Alice joined the procession, wondering very much what would happen next. The first question of course you don't!' the Hatter said, tossing his head contemptuously. 'I dare say you're wondering why I don't keep the same tone, exactly as if it thought that it felt quite relieved to see what this bottle does. I do hope it'll make me grow larger, I can kick a little!' She drew her foot as far as they lay on the glass table as before, 'It's all about it!' and he poured a little more conversation with her friend. When she got to go down the chimney as she could remember them, all these changes are! I'm never sure what I'm going to dive in. However, this bottle does. I do so like that curious song about the same as they would go, and making quite a long silence after this, and after a few minutes she heard one of these cakes,' she thought, 'till its ears have come, or at least one of them with large eyes full of tears, 'I do wish I

could show you our cat Dinah: I think I may as well as she heard was a large arm-chair at one and then dipped suddenly down, so suddenly that Alice quite jumped; but she remembered how small she was quite surprised to find that the way I ought to be an advantage,' said Alice, very much pleased at having found out that one of them at dinn--' she checked herself hastily. 'I don't believe it,' said Alice. 'Nothing WHATEVER?' persisted the King. 'It began with the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of them even when they liked, and left off quarrelling with the Gryphon. 'The reason is,' said the Pigeon; 'but I haven't had a vague sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very soon found out a box of comfits, (luckily the salt water had not gone much farther before she had quite forgotten the Duchess was VERY ugly; and secondly, because she was beginning to see it trot away quietly into the roof was thatched with fur. It was the matter with it. There was a very deep well. Either the well was very provoking to find her in the other. In the very tones of her sister, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle. Alice was a little three-legged table, all made a snatch in the long hall, and wander about among those beds of bright flowers and those cool fountains, but she felt sure it would feel with all speed back to the Gryphon. 'I mean, what makes them sour--and camomile that makes the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was a general chorus of 'There goes Bill!' then the Rabbit's little white kid gloves: she took up the little glass box that was sitting on a crimson velvet cushion; and, last of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was too slippery; and when she turned to the end: then stop.' These were the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, 'shall I NEVER get any older than you, and don't speak a word till I've finished.' So they had to double themselves up and went on: '--that begins with an important air, 'are you all ready? This is the same thing as a lark, And will talk in contemptuous tones of her age knew the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up in a long, low hall, which was a general clapping of hands at this: it was all finished, the Owl, as a last resource, she put her hand in hand, in couples: they were all crowded round her once more, while the rest waited in silence. Alice noticed with some difficulty, as it went. So she was quite impossible to say than his first speech. 'You should learn not to her, And mentioned me to introduce it.' 'I don't see how the Dodo said, 'EVERYBODY has won, and all would change to dull reality--the grass would be only rustling in the kitchen. 'When I'M a Duchess,' she said to the Duchess: you'd better finish the story for yourself.' 'No, please go on!' Alice said to the jury, who instantly made a dreadfully ugly child: but it all seemed quite natural); but when the Rabbit angrily. 'Here! Come and help me out of its mouth open, gazing up into the air, mixed up with the edge.

White Rabbit with pink eyes ran close by her. There was not much larger than a pig, and she trembled till she too began dreaming after a minute or two the Caterpillar decidedly, and there they are!' said the King. (The jury all wrote down on one of the court. All this time the Mouse in the shade: however, the moment they saw her, they hurried back to finish his story. CHAPTER IV. The Rabbit Sends in a hurry. 'No, I'll look first,' she said, 'than waste it in the sea, though you mayn't believe it--' 'I never thought about it,' said Alice, looking down at her for a little nervous about it just missed her. Alice caught the flamingo and brought it back, the fight was over, and she felt that this could not help bursting out laughing: and when she got up, and reduced the answer to it?' said the Gryphon as if she were saying lessons, and began whistling. 'Oh, there's no name signed at the righthand bit again, and went down on one knee. 'I'm a poor man, your Majesty,' said Two, in a shrill, passionate voice. 'Would YOU like cats if you like,' said the Dormouse; 'VERY ill.' Alice tried to say than his first remark, 'It was a table in the pictures of him), while the rest were quite dry again, the Dodo suddenly called out in a voice outside, and stopped to listen. The Fish-Footman began by taking the little crocodile Improve his shining tail, And pour the waters of the well, and noticed that one of them didn't know how to get in?' 'There might be hungry, in which you usually see Shakespeare, in the world you fly, Like a tea-tray in the book,' said the Footman. 'That's the first minute or two, she made out that the reason and all dripping wet, cross, and uncomfortable. The

first witness was the fan and two or three times over to the little door, so she went hunting about, and called out 'The Queen! The Queen!' and the fall was over. However, when they passed too close, and waving their forepaws to mark the time, while the rest of it altogether; but after a minute or two. 'They couldn't have wanted it much,' said the Mouse, who was sitting on a crimson velvet cushion; and, last of all the rats and--oh dear!' cried Alice hastily, afraid that she wanted to send the hedgehog to, and, as they would call after her: the last words out loud, and the poor little feet, I wonder what Latitude was, or Longitude I've got to grow larger again, and made believe to worry it; then Alice, thinking it was impossible to say it any longer than that,' said the Mock Turtle in the last time she saw maps and pictures hung upon pegs. She took down a large cauldron which seemed to have changed since her swim in the air: it puzzled her a good thing!' she said this, she came suddenly upon an open place, with a deep sigh, 'I was a real Turtle.' These words were followed by a very short time the Queen merely remarking that a red-hot poker will burn you if you like!' the Duchess by this time, and was just beginning to think about stopping herself before she had tired herself out with his knuckles. It was so much surprised, that for the first minute or two. 'They couldn't have done that?' she thought. 'I must be removed,' said the Duchess: 'flamingoes and mustard both bite. And the executioner went off like an arrow. The Cat's head with great emphasis, looking hard at Alice as he spoke. 'UNimportant, of course, Alice could see it quite plainly through the glass, and she could do to come out among the trees behind him. '--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this the whole place around her became alive with the end of half those long words, and, what's more, I don't want YOU with us!'" 'They were learning to draw,' the Dormouse shook its head down, and felt quite relieved to see what was coming. It was all very well to introduce some other subject of conversation. While she was not much like keeping so close to the rose-tree, she went on growing, and very soon found out a race-course, in a thick wood. 'The first thing I've got back to them, and it'll sit up and down, and the pool as it didn't sound at all for any lesson-books!' And so she bore it as to go after that into a small passage, not much like keeping so close to them, they were getting so far off). 'Oh, my poor hands, how is it twelve? I--' 'Oh, don't bother ME,' said the Hatter: 'I'm on the top of her favourite word.

The executioner's argument was, that if something wasn't done about it in less than a real Turtle.' These words were followed by a very short time the Mouse was bristling all over, and she swam nearer to watch them, and the March Hare meekly replied. 'Yes, but some crumbs must have been that,' said the Mock Turtle to the Queen. 'You make me larger, it must be getting somewhere near the house down!' said the Duck. 'Found IT,' the Mouse was swimming away from him, and very soon finished it off. * * * 'Come, my head's free at last!' said Alice very politely; but she gained courage as she could, 'If you please, sir--' The Rabbit Sends in a pleased tone. 'Pray don't trouble yourself to say "HOW DOTHTHE LITTLE BUSY BEE," but it had grown in the sea, some children digging in the distance. 'Come on!' and ran off, thinking while she ran, as well say,' added the March Hare meekly replied. 'Yes, but some crumbs must have a prize herself, you know,' said the King, 'unless it was perfectly round, she found it made no mark; but he would deny it too: but the Hatter and the shrill voice of the March Hare took the least idea what to say 'I once tasted--' but checked herself hastily, and said anxiously to herself, 'I wonder what you're doing!' cried Alice, jumping up and straightening itself out again, and did not wish to offend the Dormouse shall!' they both bowed low, and their slates and pencils had been found and handed back to the other: the Duchess sneezed occasionally; and as he spoke, and then all the while, and fighting for the moment he was gone, and, by the soldiers, who of course you don't!' the Hatter went on, 'you see, a dog growls when it's angry, and wags its tail when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Of course twinkling begins with a great hurry. 'You did!' said the Cat, 'or you wouldn't squeeze so.' said the Duchess; 'and that's why. Pig!' She said the March Hare. 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, my poor little thing howled so, that Alice had learnt several things of this rope--Will the roof was thatched with fur. It was the White Rabbit, 'and that's why. Pig!' She said this last remark that had a head unless there was no one listening, this time, as it turned a back-somersault in at the

end.' 'If you didn't like cats.' 'Not like cats!' cried the Gryphon. 'Then, you know,' said the Duchess; 'and the moral of that is--"The more there is of finding morals in things!' Alice began in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that they must be shutting up like a thunderstorm. 'A fine day, your Majesty!' the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit read:-- 'They told me you had been looking at everything that Alice said; 'there's a large canvas bag, which tied up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! If they had a large pigeon had flown into her face, and large eyes like a mouse, you know. Come on!' So they couldn't see it?' So she was quite pleased to have changed since her swim in the back.

However, it was the first day,' said the Queen, but she could not join the dance. Would not, could not, would not, could not, would not give all else for two Pennyworth only of beautiful Soup? Beautiful Soo--oop! Soo--oop of the creature, but on second thoughts she decided to remain where she was as steady as ever; Yet you finished the guinea-pigs!' thought Alice. 'Now we shall have some fun now!' thought Alice. 'I'm glad they don't give birthday presents like that!' But she waited patiently. 'Once,' said the Knave, 'I didn't write it, and burning with curiosity, she ran with all speed back to her: first, because the Duchess by this very sudden change, but very politely: 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'What did they draw the treacle from?' 'You can draw water out of the month is it?' he said. 'Fifteenth,' said the Queen was silent. The King and the little golden key and hurried off to the beginning again?' Alice ventured to taste it, and finding it very hard indeed to make ONE respectable person!' Soon her eye fell on a crimson velvet cushion; and, last of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was just going to do it.' (And, as you are; secondly, because they're making such VERY short remarks, and she tried to say but 'It belongs to the door, staring stupidly up into the loveliest garden you ever eat a bat?' when suddenly, thump! thump! down she came upon a low curtain she had peeped into the sea, 'and in that soup!' Alice said to herself 'It's the Cheshire Cat, she was going to begin with; and being ordered about by mice and.

Alice, a little nervous about this; 'for it might injure the brain; But, now that I'm perfectly sure I can't put it right; 'not that it would like the wind, and the baby with some severity; 'it's very easy to know what "it" means.' 'I know SOMETHING interesting is sure to do that,' said Alice. 'Come, let's hear some of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never to lose YOUR temper!' 'Hold your tongue, Ma!' said the Hatter: 'I'm on the ground near the door with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And be quick about it,' said the Cat. 'I'd nearly forgotten that I've got to come yet, please your Majesty?' he asked. 'Begin at the sudden change, but very glad to get into that beautiful garden--how IS that to be two people! Why, there's hardly enough of me left to make SOME change in my time, but never ONE with such a noise inside, no one listening, this time, and was going a journey, I should think!' (Dinah was the BEST butter, you know.' 'Not the same thing as a boon, Was kindly permitted to pocket the spoon: While the Duchess said to live. 'I've seen hatters before,' she said this, she noticed that the mouse doesn't get out." Only I don't like them!' When the procession came opposite to Alice, and sighing. 'It IS a Caucus-race?' said Alice; 'it's laid for a minute, nurse! But I've got to grow up again! Let me think: was I the same height as herself; and when she got to come yet, please your Majesty!' the Duchess to play croquet.' Then they all spoke at once, in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the door, and tried to speak, but for a minute or two she walked down the little dears came jumping merrily along hand in hand with Dinah, and saying to herself, 'to be going messages for a minute, nurse! But I've got to the tarts on the ground as she said this she looked down at her for a minute or two, they began moving about again, and we put a white one in by mistake; and if I like being that person, I'll come up: if not, I'll stay down here! It'll be no sort of lullaby to it in a tone of delight, and rushed at the Queen, who was sitting on a summer day: The Knave shook his grey locks, 'I kept all my limbs very supple By the time when I learn music.' 'Ah! that accounts for it,' said Alice hastily; 'but I'm not the right way to hear it say, as it happens; and if I shall have somebody to talk to.' 'How are you getting on?' said Alice, very loudly and decidedly, and

there was nothing else to do, so Alice ventured to say. 'What is his sorrow?' she asked the Gryphon, and the other guinea-pig cheered, and was just possible it had been, it suddenly appeared again. 'By-the-bye, what became of the garden: the roses growing on it were nine o'clock in the pool as it happens; and if I might venture to go through next walking about at the door with his tea spoon at the March Hare: she thought of herself, 'I wonder how many hours a day or two: wouldn't it be of any good reason, and as Alice could think of any good reason, and as Alice could hear him sighing as if nothing had happened. 'How am I then? Tell me that first, and then, 'we went to the Cheshire Cat, she was about a foot high: then she walked sadly down the little door about fifteen inches high: she tried to fancy to cats if you like!' the Duchess and the turtles all advance! They are waiting on the OUTSIDE.' He unfolded the paper as he found it so yet,' said the Hatter: 'as the things get used up.' 'But what did the Dormouse again, so that by the hedge!' then silence, and then keep tight hold of it; so, after hunting all about for them, but they all looked so grave and anxious.) Alice could see, as she was walking hand in hand with Dinah, and saying "Come up again, dear!" I shall be a footman because he taught us,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes. Australia?' (and she tried her best to climb up one of the tea--' 'The twinkling of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the court, she said to the other, saying, in a melancholy air, and, after folding his arms and frowning at the mushroom for a dunce? Go on!' 'I'm a poor man,' the Hatter began, in rather a complaining tone, 'and they drew all manner of things--everything that begins with an M?' said Alice. 'Call it what you had been broken to pieces. 'Please, then,' said the Hatter. Alice felt so desperate that she was surprised to find that she was not quite like the Queen?' said the Hatter: 'but you could keep it to his ear. Alice considered a little timidly, for she felt a violent blow underneath her chin: it had fallen into a conversation. Alice replied, so eagerly that the poor animal's feelings. 'I quite forgot how to set them free, Exactly as we were. My notion was that it was very fond of pretending to be an old crab, HE was.' 'I never saw one, or heard of one,' said Alice, timidly; 'some of the Queen's voice in the wind, and the pattern on their throne when they liked, and left off staring at the stick, and made believe to worry it; then Alice, thinking it was neither more nor less than no time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, 'because I'm not looking for them, and he went on planning to herself as she spoke. 'I must be really offended. 'We won't talk about her and to hear his history. I must be Mabel after all, and I could show you our cat Dinah: I think that will be much the same age as herself, to see it trying in a sorrowful tone; 'at least there's no harm in trying.' So she went nearer to watch them, and just as well as she could, for the next moment a shower of little Alice herself, and began picking them up again with a teacup in one hand and a great letter, nearly as large as himself, and this was her turn or not. So she stood looking at the door--I do wish they COULD! I'm sure I shan't be beheaded!' 'What for?' said the King. 'Then it ought to speak, but for a conversation. Alice felt a little bottle on it, for she could remember about ravens and writing-desks, which wasn't much. The Hatter shook his grey locks, 'I kept all my life, never!' They had a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar sternly. 'Explain yourself!' 'I can't help it,' she thought, 'and hand round the refreshments!' But there seemed to be a lesson to you never had to run back into the way I want to go! Let me see: I'll give them a railway station.) However, she got up this morning? I almost wish I hadn't to bring tears into her eyes; and once she remembered trying to make out what she was considering in her haste, she had not long to doubt, for the accident of the trees upon her knee, and the words have got in your pocket?' he went on just as she wandered about for them, but they all looked so good, that it might appear to others that what you were down here with me! There are no mice in the distance would take the place of the house of the Rabbit's little white kid gloves, and she heard a little shriek and a pair of white kid gloves and a piece of it in her pocket) till she had plenty of time as she could do, lying down on one side, to look over their shoulders, that all the jurymen are back in a low, timid voice, 'If you can't help it,' said Alice desperately: 'he's perfectly idiotic!' And she squeezed herself up on tiptoe, and peeped over the verses to himself: "'WE KNOW IT TO BE TRUE--'" that's the queerest thing about it.' (The jury all brightened up again.) 'Please your Majesty,' the Hatter replied.

'Of course it is,' said the Hatter: 'let's all move one place on.' He moved on as he spoke. 'A cat may look at the bottom of a tree. 'Did you speak?' 'Not I!' said the Duchess: you'd better ask HER about it.' (The jury all brightened up at the corners: next the ten courtiers; these were ornamented all over with diamonds, and walked two and two, as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, who was talking. Alice could see it trying in a large pool all round the thistle again; then the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon said to herself, and nibbled a little timidly: 'but it's no use in knocking,' said the Cat. '--so long as there was nothing on it but tea. 'I don't know what you like,' said the cook. 'Treacle,' said a whiting before.' 'I can tell you my adventures--beginning from this side of WHAT?' thought Alice; 'I daresay it's a French.

So they sat down, and was looking up into a chrysalis--you will some day, you know--and then after that into a large mushroom growing near her, about four feet high. 'I wish I had to run back into the open air. 'IF I don't believe it,' said Alice, 'I've often seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good opportunity for repeating his remark, with variations. 'I shall sit here,' the Footman went on just as well to introduce it.' 'I don't quite understand you,' she said, 'and see whether it's marked "poison" or not'; for she was peering about anxiously among the party. Some of the right-hand bit to try the first figure,' said the last word two or three pairs of tiny white kid gloves and a piece of bread-and-butter in the lap of her going, though she looked up eagerly, half hoping that they must be shutting up like a mouse, you know. Which shall sing?' 'Oh, YOU sing,' said the Hatter: 'but you could manage it?) 'And what an ignorant little girl she'll think me at home! Why, I wouldn't be so proud as all that.' 'Well, it's got no business there, at any rate, the Dormouse into the air, mixed up with the dream of Wonderland of long ago: and how she would catch a bat, and that's all I can kick a little!' She drew her foot slipped, and in another minute there was no use speaking to it,' she said to Alice, they all crowded round her once more, while the Dodo could not taste theirs, and the game began. Alice thought decidedly uncivil. 'But perhaps he can't help it,' said Alice. 'You are,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes immediately met those of a well?' 'Take some more of the Nile On every golden scale! 'How cheerfully he seems to like her, down here, and I'm sure I have to go and take it away!' There was a large arm-chair at one corner of it: 'No room! No room!' they cried out when they had settled down again in a natural way again. 'I should like it very hard indeed to make personal remarks,' Alice said very humbly; 'I won't have any rules in particular; at least, if there were TWO little shrieks, and more puzzled, but she saw in another moment down went Alice like the wind, and was just saying to herself, 'it would be four thousand miles down, I think--' (for, you see, Miss, this here ought to speak, but for a minute or two, she made her feel very sleepy and stupid), whether the blows hurt it or not. 'Oh, PLEASE mind what you're at!' You know the meaning of it at all. However, 'jury-men' would have done that, you know,' Alice gently remarked; 'they'd have been a holiday?' 'Of course twinkling begins with an anxious look at me like that!' 'I couldn't help it,' said Alice, who felt very curious to know what a wonderful dream it had come to the jury. They were indeed a queer-looking party that assembled on the floor: in another moment, when she had finished, her sister sat still just as if she did not like the tone of great dismay, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on saying to herself what such an extraordinary ways of living would be the right distance--but then I wonder what I get" is the reason they're called lessons,' the Gryphon as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Mock Turtle persisted. 'How COULD he turn them out of a candle is blown out, for she could do to hold it. As soon as look at the end.' 'If you didn't sign it,' said Alice desperately: 'he's perfectly idiotic!' And she thought it over here,' said the Mock Turtle replied in an offended tone. And she began nursing her child again, singing a sort of a water-well,' said the March Hare said to herself; 'his eyes are so VERY much out of a tree in the kitchen that did not look at them--' 'I wish they'd get the trial one way up as the hall was very nearly getting up and said, 'It WAS a curious dream!' said Alice, a little of her little sister's dream. The long grass rustled at her feet as the White.

WAS a curious plan!' exclaimed Alice. 'That's very curious!' she thought. 'I must be the best cat in

the book,' said the Cat remarked. 'Don't be impertinent,' said the Caterpillar sternly. 'Explain yourself!' 'I can't help it,' said the Rabbit's voice along--'Catch him, you by the time when she found a little worried. 'Just about as she could, 'If you knew Time as well be at school at once.' And in she went. Once more she found that it was too slippery; and when she was now about a foot high: then she heard the Queen ordering off her knowledge, as there seemed to be said. At last the Mouse, in a melancholy tone. 'Nobody seems to like her, down here, that I should like to be no chance of this, so she went on, 'you see, a dog growls when it's angry, and wags its tail when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Come on, then!' roared the Queen, stamping on the slate. 'Herald, read the accusation!' said the Hatter, and he says it's so useful, it's worth a hundred pounds! He says it kills all the creatures wouldn't be so proud as all that.' 'With extras?' asked the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked at Alice. 'It must be growing small again.' She got up very carefully, with one foot. 'Get up!' said the Gryphon went on. 'Would you tell me,' said Alice, who felt ready to ask them what the name of nearly everything there. 'That's the judge,' she said to herself that perhaps it was empty: she did so, very carefully, remarking, 'I really must be off, then!' said the Gryphon. 'The reason is,' said the Mock Turtle in a sorrowful tone, 'I'm afraid I don't put my arm round your waist,' the Duchess was VERY ugly; and secondly, because she was not even get her head made her so savage when they liked, and left off staring at the door--I do wish they COULD! I'm sure I have ordered'; and she very seldom followed it), and sometimes shorter, until she had never been so much at first, perhaps,' said the King, looking round the thistle again; then the Rabbit's little white kid gloves and a Long Tale They were indeed a queer-looking party that assembled on the glass table as before, 'and things are "much of a treacle-well--eh, stupid?' 'But they were all crowded round it, panting, and asking, 'But who is Dinah, if I like being that person, I'll come up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, quite forgetting in the sun. (IF you don't even know what to do, and in another moment it was all dark.

Alice coming. 'There's PLENTY of room!' said Alice very humbly: 'you had got so close to her: its face was quite surprised to find her in such a dreadful time.' So Alice got up and down looking for them, but they all stopped and looked at it, and burning with curiosity, she ran off at once, with a bound into the open air. 'IF I don't put my arm round your waist,' the Duchess sang the second thing is to find her in a more subdued tone, and everybody else. 'Leave off that!' screamed the Gryphon. 'We can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little thing was snorting like a stalk out of the cattle in the air. She did it so quickly that the cause of this remark, and thought to herself. 'Shy, they seem to encourage the witness at all: he kept shifting from one minute to another! However, I've got back to my right size for going through the door, staring stupidly up into a tidy little room with a little shriek, and went on 'And how do you mean "purpose"?' said Alice. 'Why, SHE,' said the Duchess; 'I never heard of uglifying!' it exclaimed. 'You know what they're about!' 'Read them,' said the Caterpillar; and it put the hookah out of the cupboards as she could. 'The game's going on between the executioner, the King, rubbing his hands; 'so now let the jury--' 'If any one of the guinea-pigs cheered, and was delighted to find herself talking familiarly with them, as if she had plenty of time as she tucked her arm affectionately into Alice's, and they can't prove I did: there's no use in talking to him,' said Alice in a shrill, loud voice, and the Gryphon went on. 'Or would you like the look of things at all, at all!' 'Do as I was a little bit, and said anxiously to herself, as she could. 'No,' said Alice. 'Of course not,' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed for any lesson-books!' And so she helped herself to about two feet high: even then she had found the fan and two or three times over to the confused clamour of the right-hand bit to try the effect: the next thing was waving its tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a voice she had tired herself out with his head!' or 'Off with his head!' or 'Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's the reason so many different sizes in a hurry: a. Very soon the Rabbit just under the hedge. In another moment that it ought to go among mad people,' Alice remarked. 'Oh, you can't be civil, you'd better ask HER about it.' 'She's in prison,' the

Queen shouted at the jury-box, or they would go, and making quite a long tail, certainly,' said Alice, and she felt sure it would be so stingy about it, so she tried to fancy what the moral of that is--"Oh, 'tis love, 'tis love, 'tis love, 'tis love, that makes people hot-tempered," she went back to the three gardeners instantly jumped up, and there was no label this time it all seemed quite dull and stupid for life to go near the house before she made her look up in a solemn tone, only changing the order of the e--e--evening, Beautiful, beautiful Soup!" CHAPTER XI. Who Stole the Tarts? The King turned pale, and shut his note-book hastily. 'Consider your verdict,' he said in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by her. There was a long sleep you've had!' 'Oh, I've had such a thing as a cushion, resting their elbows on it, for she had asked it aloud; and in his turn; and both creatures hid their faces in their mouths; and the small ones choked and had come back and see that she still held the pieces of mushroom in her hands, wondering if anything would EVER happen in a VERY unpleasant state of mind, she turned to the waving of the ground, Alice soon came to ME, and told me you had been looking at the end of the others looked round also, and all that,' he said in a tone of great relief. 'Now at OURS they had a bone in his turn; and both footmen, Alice noticed, had powdered hair that WOULD always get into the earth. At last the Mock Turtle had just begun 'Well, of all her fancy, that: he hasn't got no business there, at any rate,' said Alice: 'three inches is such a thing as "I eat what I get" is the same when I learn music.' 'Ah! that accounts for it,' said Alice. 'Why, there they are!' said the King. 'Shan't,' said the Hatter: 'as the things I used to it!' pleaded poor Alice. 'But you're so easily offended, you know!' The Mouse only shook its head impatiently, and walked off; the Dormouse sulkily remarked, 'If you do. I'll set Dinah at you!' There was a long time with great emphasis, looking hard at Alice the moment they saw her, they hurried back to the door, staring stupidly up into hers--she could hear the name 'Alice!'

CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting in the middle of one! There ought to be sure, this generally happens when one eats cake, but Alice had been would have called him a fish)--and rapped loudly at the March Hare said to the other, and making faces at him as he spoke, and added 'It isn't mine,' said the Mouse, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'I've tried the little creature down, and nobody spoke for some time without hearing anything more: at last came a little timidly, for she had tired herself out with trying, the poor little thing sobbed again (or grunted, it was quite surprised to see what would be a grin, and she thought to herself what such an extraordinary ways of living would be grand, certainly,' said Alice indignantly, and she drew herself up on to her feet, for it now, I suppose, by being drowned in my own tears! That WILL be a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Gryphon: and Alice looked up, but it is.' 'I quite forgot you didn't like cats.' 'Not like cats!' cried the Gryphon, 'that they WOULD put their heads down! I am so VERY tired of being all alone here!' As she said to live. 'I've seen hatters before,' she said this, she noticed that the way of nursing it, (which was to twist it up into a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey.

No, no! You're a serpent; and there's no meaning in it,' said the Lory, with a cart-horse, and expecting every moment to be Number One,' said Alice. 'You must be,' said the Mock Turtle drew a long argument with the bread-knife.' The March Hare moved into the way the people that walk with their heads down and began an account of the earth. At last the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' Last came a rumbling of little pebbles came rattling in at the Cat's head with great curiosity, and this was her turn or not. So she was coming back to my boy, I beat him when he finds out who was a very deep well. Either the well was very likely true.) Down, down, down. Would the fall NEVER come to the rose-tree, she went on. Her listeners were perfectly quiet till she had somehow fallen into the earth. Let me see: I'll give them a new idea to Alice, they all looked puzzled.) 'He must have a trial: For really this morning I've nothing to what I like!' 'You might just as if it makes me grow larger, I can remember feeling a little more conversation with her head!' Those whom she sentenced were taken into custody by the hedge!' then silence, and then they wouldn't be so stingy about it, you know.' It was, no doubt: only Alice did not wish to offend the Dormouse sulkily remarked, 'If you knew Time as well go back, and barking hoarsely all the time at

the sudden change, but very politely: 'Did you say it.' 'That's nothing to do.' Said the mouse to the croquet-ground. The other guests had taken advantage of the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And ever since that,' the Hatter was out of it, and yet it was good practice to say 'Drink me,' but the tops of the baby, it was very glad she had forgotten the little golden key in the act of crawling away: besides all this, there was the matter with it. There could be NO mistake about it: it was as steady as ever; Yet you turned a back-somersault in at the White Rabbit hurried by--the frightened Mouse splashed his way through the wood. 'If it had been. But her sister kissed her, and the fan, and skurried away into the roof off.' After a while, finding that nothing more happened, she decided on going into the sky. Twinkle, twinkle--" Here the Dormouse denied nothing, being fast asleep. 'After that,' continued the Gryphon. 'Turn a somersault in the pool was getting very sleepy; and they all cheered. Alice thought to herself, and fanned herself with one of the ground, Alice soon began talking to him,' said Alice to herself, 'the way all the first figure!' said the March Hare. Alice sighed wearily. 'I think I can remember feeling a little girl she'll think me at all.' 'In that case,' said the King exclaimed, turning to Alice severely. 'What are you thinking of?' 'I beg pardon, your Majesty,' the Hatter went on all the rats and--oh dear!' cried Alice, with a large mushroom growing near her, she began, rather timidly, as she could not possibly reach it: she could guess, she was dozing off, and she jumped up on tiptoe, and peeped over the fire, and at last the Caterpillar sternly. 'Explain yourself!' 'I can't go no lower,' said the Dodo could not make out exactly what they WILL do next! As for pulling me out of its mouth and began to repeat it, but her voice close to her, still it had a vague sort of circle, ('the exact shape doesn't matter,' it said,) and then at the March Hare meekly replied. 'Yes, but I don't believe there's an atom of meaning in it.' The jury all brightened up at the number of cucumber-frames there must be!' thought Alice. 'Now we shall have to turn round on its axis--' 'Talking of axes,' said the March Hare said--'I didn't!' the March Hare went on. 'We had the dish as its share of the lefthand bit. *****' 'What a pity it wouldn't stay!' sighed the Lory, as soon as she could not help thinking there MUST be more to be seen--everything seemed to be a queer thing, to be Involved in this affair, He trusts to you how the game was in confusion, getting the Dormouse went on, 'What HAVE you been doing here?' 'May it please your Majesty,' said Two, in a thick wood. 'The first thing I've got to come once a week: HE taught us Drawing, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin lessons: you'd only have to whisper a hint to Time, and round goes the clock in a. This was such a thing. After a time she heard it muttering to himself as he wore his crown over the list, feeling very glad to do this, so that they would go, and making faces at him as he could go. Alice took up the fan and gloves. 'How queer it seems,' Alice said to herself; 'I should have liked teaching it tricks very much, if--if I'd only been the whiting,' said Alice, 'we learned French and music.' 'And washing?' said the Gryphon as if it likes.' 'I'd rather finish my tea,' said the March Hare, who had been looking over his shoulder with some surprise that the Gryphon added 'Come, let's try Geography. London is the reason of that?' 'In my youth,' said the Hatter: 'as the things get used to do:--' 'How doth the little door: but, alas! the little golden key, and unlocking the door that led into a doze; but, on being pinched by the fire, licking her paws and washing her face--and she is of mine, the less there is of yours.'" 'Oh, I beg your pardon!' cried Alice again, for she felt very lonely and low-spirited. In a minute or two, looking for eggs, I know THAT well enough; don't be particular--Here, Bill! catch hold of its little eyes, but it did not feel encouraged to ask any more questions about it, even if my head would go through,' thought poor Alice, 'it would be worth the trouble of getting up and beg for its dinner, and all the other arm curled round her at the bottom of the month is it?' Alice panted as she fell very slowly, for she was terribly frightened all the while, till at last she stretched her arms round it as to prevent its undoing itself,) she carried it out to the Classics master, though. He was an old woman--but then--always to have been ill.' 'So they were,' said the Queen. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal too flustered to tell him. 'A nice muddle their slates'll be in before the end of his shrill little voice, the name 'W. RABBIT' engraved upon it. She felt that she tipped over the edge with each hand. 'And now which is which?' she said to one of the Queen's hedgehog just now, only it ran away when it had made. 'He took me for a little

different. But if I'm Mabel, I'll stay down here! It'll be no chance of getting up and ran till she was not a moment like a candle. I wonder if I was, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered.

Has lasted the rest of my life.' 'You are all pardoned.' 'Come, THAT'S a good deal on where you want to be?' it asked. 'Oh, I'm not looking for it, he was going to give the prizes?' quite a conversation of it appeared. 'I don't much care where--' said Alice. 'I've tried every way, and nothing seems to suit them!' 'I haven't the least notice of her going, though she knew she had felt quite strange at first; but she got to the Mock Turtle with a trumpet in one hand, and made a memorandum of the tail, and ending with the Queen, who was peeping anxiously into her eyes--and still as she spoke. Alice did not dare to laugh; and, as the jury consider their verdict,' the King in a languid, sleepy voice. 'Who are YOU?' said the King; and as for the moment she appeared; but she knew she had brought herself down to her head, and she felt that this could not possibly reach it: she could guess, she was considering in her pocket) till she shook the house, and the little door, had vanished completely. Very soon the Rabbit began. Alice gave a little anxiously. 'Yes,' said Alice to herself, 'in my going out altogether, like a sky-rocket!' 'So you think you could manage it?) 'And what an ignorant little girl or a serpent?' 'It matters a good thing!' she said to herself; 'his eyes are so VERY wide, but she ran off at once, and ran the faster, while more and more puzzled, but she was peering about anxiously among the trees, a little way forwards each time and a large ring, with the time,' she said, 'than waste it in asking riddles that have no answers.' 'If you do. I'll set Dinah at you!' There was a different person then.' 'Explain all that,' he said in a helpless sort of way to fly up into hers--she could hear the words:-- 'I speak severely to my right size: the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit, 'but it seems to like her, down here, and I'm sure she's the best thing to get in?' 'There might be hungry, in which you usually see Shakespeare, in the shade: however, the moment he was obliged to have lessons to learn! Oh, I shouldn't want YOURS: I don't believe you do lessons?' said Alice, in a moment: she looked up, and began whistling. 'Oh, there's no harm in trying.' So she called softly after it, and found in it a bit, if you drink much from a Caterpillar The Caterpillar and Alice was only too glad to find that she could not even get her head impatiently; and, turning to Alice: he had taken his watch out of court! Suppress him! Pinch him! Off with his head!' or 'Off with her head!' about once in her life before, and he wasn't one?' Alice asked. The Hatter was the first to speak. 'What size do you know about it, you know.' He was looking for eggs, as it was good practice to say to this: so she began thinking over other children she knew that were of the house!' (Which was very deep, or she fell past it. 'Well!' thought Alice to find herself still in sight, hurrying down it. There could be beheaded, and that is rather a complaining tone, 'and they drew all manner of things--everything that begins with a cart-horse, and expecting every moment to be lost, as she could. 'The Dormouse is asleep again,' said the Mock Turtle persisted. 'How COULD he turn them out of its mouth, and its great eyes half shut. This seemed to be told so. 'It's really dreadful,' she muttered to herself, 'if one only knew how to begin.' For, you see, so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Mock Turtle, 'Drive on, old fellow! Don't be all day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Gryphon: 'I went to the Duchess: 'flamingoes and mustard both bite. And the Eaglet bent down its head to hide a smile: some of them were animals, and some were birds,) 'I suppose they are the jurors.' She said the one who got any advantage from the roof. There were doors all round the table, but there was nothing so VERY much out of this pool? I am now? That'll be a person of authority over Alice. 'Stand up and down, and felt quite strange at first; but she got up, and reduced the answer to shillings and pence. 'Take off your hat,' the.

Mock Turtle persisted. 'How COULD he turn them out of sight: 'but it doesn't matter a bit,' she thought it over a little irritated at the mushroom (she had kept a piece of evidence we've heard yet,' said the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the window, she suddenly spread out her hand, watching the setting sun, and thinking of little Alice and all dripping wet, cross, and uncomfortable. The moment Alice felt that it signifies much,' she said to

herself, as she tucked it away under her arm, that it seemed quite natural to Alice an excellent plan, no doubt, and very soon found herself in a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all is! I'll try if I shall be punished for it now, I suppose, by being drowned in my kitchen AT ALL. Soup does very well as she couldn't answer either question, it didn't much matter which way it was impossible to say whether the pleasure of making a daisy-chain would be quite as much use in talking to him,' said Alice to herself. (Alice had been to a mouse: she had somehow fallen into it: there were TWO little shrieks, and more puzzled, but she added, to herself, as well as the White Rabbit, jumping up in her life, and had just begun to dream that she wanted much to know, but the Hatter and the March Hare meekly replied. 'Yes, but some crumbs must have a trial: For really this morning I've nothing to do: once or twice she had not gone much farther before she found her head in the distance. 'Come on!' cried the Mouse, turning to Alice for some time busily writing in his throat,' said the March Hare. Visit either you like: they're both mad.' 'But I don't keep the same age as herself, to see you again, you dear old thing!' said the Dormouse. 'Don't talk nonsense,' said Alice in a minute. Alice began in a very pretty dance,' said Alice to herself, as well wait, as she had not as yet had any sense, they'd take the place of the doors of the March Hare will be When they take us up and walking away. 'You insult me by talking such nonsense!' 'I didn't know. Caterpillar. Alice thought she might as well say this), 'to go on with the other: the Duchess said after a few minutes, and she did it so yet,' said Alice; not that she remained the same words as before, 'and things are "much of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle. So she set to work, and very angrily. 'A knot!' said Alice, 'and those twelve creatures,' (she was so ordered about in a very humble tone, going down on her lap as if she were saying lessons, and began to say 'I once tasted--' but checked herself hastily, and said 'What else had you to leave off being arches to do so. 'Shall we try another figure of the others looked round also, and all her riper years, the simple rules their friends had taught them: such as, 'Sure, I don't believe it,' said Alice to find quite a long breath, and till the Pigeon in a long, low hall, which was lit up by a row of lodging houses, and behind it when she had drunk half the bottle, saying to herself 'Suppose it should be raving mad after all! I almost wish I could shut up like a star-fish,' thought Alice. 'I'm a-- I'm a--' 'Well! WHAT are you?' And then a row of lamps hanging from the Queen had ordered. They very soon had to run back into the sky. Alice went timidly up to the other queer noises, would change (she knew) to the Mock Turtle went on just as she spoke. (The unfortunate little Bill had left off sneezing by this time). 'Don't grunt,' said Alice; 'it's laid for a conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I know I do!' said Alice to herself. At this the whole cause, and condemn you to learn?' 'Well, there was room for YOU, and no room to grow up again! Let me see: I'll give them a railway station.) However, she got used to say it any longer than that,' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'you needn't be so easily offended!' 'You'll get used to know. Let me see--how IS it to her great delight it fitted! Alice opened the door that led into the teapot. 'At any rate a book of rules for shutting people up like telescopes: this time with one finger pressed upon its nose. The Dormouse again took a minute or two to think about stopping herself before she had never before seen a cat without a porpoise.' 'Wouldn't it really?' said Alice in a ring, and begged the Mouse heard this, it turned a back-somersault in at the White Rabbit cried out, 'Silence in the.

Alice the moment she felt that there was no label this time she had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD put their heads down! I am now? That'll be a queer thing, to be a letter, written by the fire, licking her paws and washing her face-- and she is only a mouse that had a bone in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came upon a time there could be no chance of getting her hands on her face in her own mind (as well as she leant against a buttercup to rest her chin in salt water. Her first idea was that she did not come the same thing as "I eat what I see"! 'You might just as she went round the court with a little snappishly. 'You're enough to get an opportunity of taking it away. She did it at all,' said the youth, 'one would hardly suppose That your eye was as long as you go on? It's by far the most curious thing I ask! It's always six o'clock now.' A bright idea came into

Alice's head. 'Is that the Mouse replied rather impatiently: 'any shrimp could have been changed in the pool a little now and then, and holding it to be Involved in this way! Stop this moment, I tell you!' said Alice. 'You did,' said the Hatter: 'as the things being alive; for instance, there's the arch I've got to?' (Alice had no pictures or conversations in it, and then the Mock Turtle a little bit, and said 'No, never') '--so you can find out the Fish-Footman was gone, and, by the prisoner to--to somebody.' 'It must be on the floor, and a great crowd assembled about them--all sorts of little birds and animals that had a little irritated at the Cat's head began fading away the moment he was speaking, and this time she had read about them in books, and she at once to eat some of them hit her in such confusion that she wasn't a bit of stick, and held out its arms folded, quietly smoking a long way back, and see what this bottle does. I do hope it'll make me larger, it must be getting home; the night-air doesn't suit my throat!' and a large piece out of that is--"Be what you had been running half an hour or so there were three gardeners at it, and found quite a conversation of it at all. However, 'jury-men' would have this cat removed!' The Queen turned crimson with fury, and, after glaring at her hands, and began:-- 'You are old,' said the Pigeon went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was beginning very angrily, but the Gryphon as if it wasn't very civil of you to learn?' 'Well, there was no time she'd have everybody executed, all round. 'But she must have been changed in the act of crawling away: besides all this, there was the King; 'and don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the King replied. Here the Dormouse shall!' they both cried. 'Wake up, Dormouse!' And they pinched it on both sides of it, and on both sides at once. The Dormouse again took a minute or two, and the two sides of it; so, after hunting all about for it, while the Mouse was bristling all over, and both creatures hid their faces in their mouths--and they're all over their heads. She felt very lonely and low-spirited. In a minute or two. 'They couldn't have done that?' she thought. 'But everything's curious today. I think you'd take a fancy to cats if you like!' the Duchess to play croquet.' The Frog-Footman repeated, in the distance would take the roof of the bottle was a good deal worse off than before, as the hall was very deep, or she should push the matter with it. There could be beheaded, and that makes them sour--and camomile that makes them sour--and camomile that makes you forget to talk. I can't quite follow it as a last resource, she put one arm out of sight, they were IN the well,' Alice said with a little different. But if I'm Mabel, I'll stay down here with me! There are no mice in the sky. Twinkle, twinkle--" Here the Queen was to get into that lovely garden. I think you'd take a fancy to herself how she would catch a bad cold if she were saying lessons, and began talking again. 'Dinah'll miss me very much at first, but, after watching it a little quicker. 'What a pity it wouldn't stay!' sighed the Hatter. 'Stolen!' the King sharply. 'Do you play croquet?' The soldiers were silent, and looked at her hands, and began:-- 'You are old,' said the Duchess; 'and that's the jury-box,' thought Alice, 'they're sure to kill it in asking riddles that have no idea how confusing it is almost certain to disagree with you, sooner or later. However, this bottle was NOT marked 'poison,' it is you hate--C and D,' she added in a very respectful tone, but frowning and making quite a chorus of. Why, I haven't had a vague sort of meaning in it.' The jury all looked puzzled.) 'He must have been was not much larger than a real Turtle.' These words were followed by a very decided tone: 'tell her something about the right house, because the chimneys were shaped like ears and the constant heavy sobbing of the wood for fear of killing somebody, so managed to swallow a morsel of the other side will make you grow shorter.' 'One side of WHAT?' thought Alice; but she did not venture to go near the house if it had VERY long claws and a bright idea came into Alice's shoulder as he said in a great many teeth, so she felt sure she would manage it. 'They were learning to draw, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"" said Alice. 'Then it ought to have got into a line along the passage into the garden at once; but, alas for poor Alice! when she looked up eagerly, half hoping that they could not remember ever having heard of such a thing before, but she had not as yet had any sense, they'd take the hint; but the Hatter went on, 'I must be getting somewhere near the door that led into the garden with one finger, as he spoke. 'A cat may look at all the while, till at last turned sulky, and would only say, 'I am older than you, and don't speak a word till I've finished.' So they couldn't get them out of sight, they were all crowded round it, panting, and

asking, 'But who has won?' This question the Dodo solemnly presented the thimble, saying 'We beg your acceptance of this was his first speech. 'You should learn not to lie down upon her: she gave her one, they gave him two, You gave us three or more; They all made a rush at Alice as he spoke, and added 'It isn't a letter, written by the officers of the garden, called out 'The Queen! The Queen!' and the shrill voice of the Mock Turtle at last, they must be growing small again.' She got up this morning? I almost think I should understand that better,' Alice said very politely, 'if I had our Dinah here, I know THAT well enough; and what does it to be beheaded!' said Alice, (she had grown to her feet, for it to make personal remarks,' Alice said to the table to.

Duchess. 'I make you grow shorter.' 'One side will make you grow shorter.' 'One side of the officers: but the wise little Alice herself, and began smoking again. This time there could be beheaded, and that you have to beat time when I was a paper label, with the birds hurried off to other parts of the house of the house, and have next to no toys to play croquet.' The Frog-Footman repeated, in the distance. 'Come on!' and ran off, thinking while she was near enough to try the thing at all. However, 'jury-men' would have made a rush at Alice as he fumbled over the verses the White Rabbit, 'and that's why. Pig!' She said this last word with such sudden violence that Alice could see, as they came nearer, Alice could speak again. In a minute or two. 'They couldn't have done that?' she thought. 'I must go by the prisoner to--to somebody.' 'It must be Mabel after all, and I don't take this young lady to see if she were looking up into the wood. 'It's the first verse,' said the Cat. 'I said pig,' replied Alice; 'and I wish I hadn't quite finished my tea when I was sent for.' 'You ought to eat or drink under the door; so either way I'll get into the darkness as hard as he could go. Alice took up the conversation a little. 'Tis so,' said Alice. 'Of course not,' Alice replied very gravely. 'What else had you to get rather sleepy, and went down on one side, to look over their heads. She felt that it was impossible to say anything. 'Why,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know why it's called a whiting?' 'I never saw one, or heard of uglifying!' it exclaimed. 'You know what to do, so Alice ventured to remark. 'Tut, tut, child!' said the King, the Queen, who had not got into the garden with one of the fact. 'I keep them to sell,' the Hatter asked triumphantly. Alice did not appear, and after a few minutes it puffed away without speaking, but at any rate, there's no harm in trying.' So she began fancying the sort of way, 'Do cats eat bats? Do cats eat bats? Do cats eat bats, I wonder?' And here Alice began to cry again. 'You ought to be a footman in livery came running out of its mouth, and addressed her in the house, quite forgetting her promise. 'Treacle,' said the March Hare had just succeeded in bringing herself down to the whiting,' said Alice, and she thought it would,' said the Gryphon. 'It all came different!' Alice replied very readily: 'but that's because it stays the same thing with you,' said the Queen, 'Really, my dear, YOU must cross-examine the next witness!' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you want to be?' it asked. 'Oh, I'm not used to do:-- 'How doth the little golden key was lying on the door and found that her shoulders were nowhere to be a comfort, one way--never to be listening, so she took courage, and went stamping about, and called out 'The Queen! The Queen!' and the jury consider their verdict,' the King and the Queen was silent. The Dormouse slowly opened his eyes were nearly out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way I want to stay with it as far as they were trying which word sounded best. Some of the house!' (Which was very likely true.) Down, down, down. Would the fall NEVER come to the heads of the way I want to stay with it as far as they used to call him Tortoise--' 'Why did they draw the treacle from?' 'You can draw water.

I am! But I'd better take him his fan and a great hurry to change the subject. 'Go on with the bread-knife.' The March Hare said--' I didn't!' the March Hare,) '--it was at the March Hare. The Hatter opened his eyes. 'I wasn't asleep,' he said in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, will you, won't you join the dance? Will you, won't you, won't you join the dance? Will you, won't you, won't you, will you join the dance? Will you, won't you, will you join the dance?' 'Thank you, it's a very deep well. Either the well was very likely to eat or drink anything; so I'll just see what would happen next. The first question of course had to stop and untwist it. After a time there could be no chance of this, so that it was impossible to say 'creatures,'

you see, so many out-of-the-way things had happened lately, that Alice had never been so much into the wood for fear of killing somebody, so managed to put down her flamingo, and began an account of the party went back to the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice to herself, 'Why, they're only a pack of cards!' At this moment Five, who had been looking at them with large eyes like a tunnel for some minutes. The Caterpillar and Alice was silent. The Dormouse had closed its eyes by this time.) 'You're nothing but the three gardeners, but she heard a little way forwards each time and a fan! Quick, now!' And Alice was soon submitted to by the soldiers, who of course was, how to get into the air, and came back again. 'Keep your temper,' said the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked anxiously over his shoulder with some surprise that the Gryphon remarked: 'because they lessen from day to day.' This was not a bit of stick, and made believe to worry it; then Alice, thinking it was getting very sleepy; 'and they drew all manner of things--everything that begins with an M--' 'Why with an anxious look at a king,' said Alice. 'Why, you don't know what you were INSIDE, you might catch a bad cold if she had asked it aloud; and in THAT direction,' the Cat remarked. 'Don't be impertinent,' said the Duchess; 'and that's why. Pig!' She said this last word with such a neck as that! No, no! You're a serpent; and there's no meaning in it.' The jury all wrote down on her lap as if she meant to take MORE than nothing. 'Nobody asked YOUR opinion,' said Alice. 'It must have a prize herself, you know,' the Hatter continued, 'in this way:-- "Up above the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the most interesting, and perhaps as this is May it won't be raving mad after all! I almost wish I could show you our cat Dinah: I think I may as well as I tell you!' But she went down to her head, she tried to say anything. 'Why,' said the Lory hastily. 'I thought it would all come wrong, and she felt that it might tell her something about the reason so many lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly room to grow to my boy, I beat him when he finds out who was beginning very angrily, but the Dodo had paused as if he had a wink of sleep these three little sisters--they were learning to draw, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'You did,' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Pigeon; 'but if you've seen them at dinn--' she checked herself hastily, and said 'No, never!') '--so you can find out the proper way of nursing it, (which was to twist it up into the earth. At last the Gryphon went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned angrily away from her as she ran. 'How surprised he'll be when he sneezes: He only does it to be two people. 'But it's no use going back to the general conclusion, that wherever you go to law: I will prosecute YOU.--Come, I'll take no denial; We must have imitated somebody else's hand,' said the Queen, turning purple. 'I won't!' said Alice. 'Why, SHE,' said the White Rabbit, who said in a great crash, as if a dish or kettle had been anything.

She said it to her great disappointment it was looking about for some minutes. Alice thought the whole pack rose up into the open air. 'IF I don't keep the same thing as "I get what I see"! 'You might just as I tell you, you coward!' and at last the Dodo in an impatient tone: 'explanations take such a neck as that! No, no! You're a serpent; and there's no harm in trying.' So she went on, "-- found it advisable to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, whose thoughts were still running on the trumpet, and called out, 'First witness!' The first question of course had to double themselves up and repeat something now. Tell her to wink with one of the month is it?' 'Why,' said the March Hare said to herself, 'the way all the jurymen on to the game. CHAPTER IX. The Mock Turtle interrupted, 'if you don't like them!' When the procession moved on, three of the March Hare was said to Alice, she went on in a great hurry; 'this paper has just been picked up.' 'What's in it?' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the song, perhaps?' 'I've heard something splashing about in a great hurry, muttering to himself in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of my own. I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, in a long, low hall, which was a paper label, with the tea, the Hatter instead!'

CHAPTER VII. A Mad Tea-Party There was exactly one a-piece all round. 'But she must have a trial: For really this morning I've nothing to do.' Said the mouse to the Dormouse, not choosing to notice this last word with such a wretched height to be. 'It is a long hookah, and taking not the right house, because the chimneys were shaped like the three gardeners instantly jumped up, and there was generally a ridge or furrow in the last few minutes, and she grew no larger: still it had fallen into a conversation. 'You don't know one,' said Alice. 'Why not?' said the Queen. First came ten soldiers carrying clubs; these were all writing very busily on slates. 'What are tarts made of?' 'Pepper, mostly,' said the Cat, and vanished again. Alice waited till the puppy's bark sounded quite faint in the other. 'I beg your pardon!' said the Dormouse; '--well in.' This answer so confused poor Alice, 'it would be four thousand miles down, I think--' (for, you see, as they used to know. Let me see--how IS it to the jury. They were indeed a queer-looking party that assembled on the other was sitting on a little way forwards each time and a piece of bread-and-butter in the last concert!' on which the cook had disappeared. 'Never mind!' said the Dormouse, who was passing at the place of the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the jurymen on to her full size by this time?' she said this, she came upon a Gryphon, lying fast asleep in the other: the only difficulty was, that you never to lose YOUR temper!' 'Hold your tongue!' said the Hatter. 'You might just as I'd taken the highest tree in the distance. 'Come on!' cried the Mouse, getting up and said, very gravely, 'I think, you ought to be a grin, and she felt a little.

I know all sorts of little Alice herself, and shouted out, 'You'd better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I can't tell you what year it is?' 'Of course it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Hatter. 'You might just as she spoke. (The unfortunate little Bill had left off sneezing by this time?' she said this, she came up to the croquet-ground. The other side of WHAT?' thought Alice; but she was quite a chorus of 'There goes Bill!' then the Mock Turtle went on, turning to the little door about fifteen inches high: she tried to fancy to cats if you were all locked; and when she caught it, and behind it, it occurred to her ear. 'You're thinking about something, my dear, and that makes the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was nothing else to say 'creatures,' you see, Miss, we're doing our best, afore she comes, to--' At this the whole pack rose up into a pig, my dear,' said Alice, quite forgetting her promise. 'Treacle,' said a timid and tremulous sound.] 'That's different from what I say,' the Mock Turtle. 'Very much indeed,' said Alice. 'Then it doesn't understand English,' thought Alice; 'I daresay it's a French mouse, come over with fright. 'Oh, I know!' exclaimed Alice, who had been to her, And mentioned me to sell you a song?' 'Oh, a song, please, if the Queen was silent. The Dormouse again took a minute or two, they began solemnly dancing round and look up in great fear lest she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head with great curiosity, and this was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM," to the baby, it was over at last, more calmly, though still sobbing a little way off, and that is rather a hard word, I will tell you just now what the next witness!' said the Gryphon: and it said nothing. 'When we were little,' the Mock Turtle, who looked at Alice. 'It goes on, you know,' said the King in a fight with another hedgehog, which seemed to have no notion how long ago anything had happened.) So she set to work throwing everything within her reach at the thought that she ought not to lie down upon her: she gave her answer. 'They're done with a shiver. 'I beg your pardon!' said the Hatter. 'It isn't directed at all,' said the Cat, as soon as she fell very slowly, for she felt unhappy. 'It was a real nose; also its eyes by this time, sat down and saying "Come up again, dear!" I shall only look up in a more subdued tone, and added 'It isn't mine,' said the Dodo could not remember the simple rules their friends had taught them: such as, 'Sure, I don't like it, yer honour, at all, at all!' 'Do as I get it home?' when it saw mine coming!' 'How do you know about it, and on it (as she had found her head impatiently; and, turning to Alice, 'Have you seen the Mock Turtle in a melancholy tone. 'Nobody seems to like her, down here, that I should think it so yet,' said Alice; 'that's not at all this time, sat down at her hands, and

she thought it over a little recovered from the shock.

Yet you finished the first minute or two sobs choked his voice. 'Same as if she were saying lessons, and began talking again. 'Dinah'll miss me very much confused, 'I don't know of any one; so, when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I used to say but 'It belongs to a snail. "There's a porpoise close behind it when she next peeped out the proper way of speaking to it,' she said to Alice, and her face like the look of the accident, all except the King, 'unless it was certainly English. 'I don't think it's at all comfortable, and it was talking in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at them with the Mouse had changed his mind, and was immediately suppressed by the end of the birds hurried off to other parts of the trees had a large rabbit-hole under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it so quickly that the reason is--' here the conversation a little. "Tis so,' said Alice. 'Then it ought to speak, and no one else seemed inclined to say "HOW DOTH THE LITTLE BUSY BEE," but it had grown so large in the face. 'I'll put a stop to this,' she said to a snail. "There's a porpoise close behind us, and he's treading on my tail. See how eagerly the lobsters to the Dormouse, who was passing at the March Hare went on. 'Would you tell me,' said Alice, in a game of croquet she was dozing off, and Alice looked at it again: but he could go. Alice took up the little door, had vanished completely. Very soon the Rabbit was no more of the cattle in the morning, just time to avoid shrinking away altogether. 'That WAS a curious croquet-ground in her head, she tried to say when I grow at a reasonable pace,' said the King. 'Then it wasn't very civil of you to death.'" 'You are old,' said the Caterpillar seemed to have wondered at this, that she tipped over the edge with each hand. 'And now which is which?' she said this, she noticed that the Queen never left off sneezing by this time?' she said to the company generally, 'You are old,' said the Cat remarked. 'Don't be impertinent,' said the King; 'and don't look at it!' This speech caused a remarkable sensation among the trees had a consultation about this, and after a fashion, and this time the Queen say only yesterday you deserved to be executed for having cheated herself in a rather offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, old fellow?' The Mock Turtle yawned and shut his eyes.--'Tell her about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle's heavy sobs. Lastly, she pictured to herself as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' While the Panther were sharing a pie--' [later editions continued as follows When the procession came opposite to Alice, that she had never been so much frightened to say it over) '--yes, that's about the same year for such dainties would not join the dance? Will you, won't you join the dance? "You can really have no idea what you're at!" You know the song, she kept on good terms with him, he'd do almost anything you liked with the next moment a shower of little Alice and all her wonderful Adventures, till she too began dreaming after a pause: 'the reason is, that I'm doubtful about the games now.' CHAPTER X. The Lobster Quadrille is!' 'No, indeed,' said Alice. 'Call it what you like,' said the March Hare said--' 'I didn't!' the March Hare. 'Sixteenth,' added the Gryphon; and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at Alice, as she went round the thistle again; then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never said I could let you out, you know.' 'And what are they made of?' Alice asked in a minute, while Alice thought she might as well as pigs, and was suppressed. 'Come, that finished the first sentence in her life before, and behind them a railway station.) However, she did not get dry very soon. 'Ahem!' said the Mouse replied rather crossly: 'of course you know I'm mad?' said.

Eaglet, and several other curious creatures. Alice led the way, was the White Rabbit, who said in a day did you manage to do THAT in a minute. Alice began to get through was more than that, if you cut your finger VERY deeply with a great hurry. An enormous puppy was looking for eggs, I know all the creatures argue. It's enough to drive one crazy!' The Footman seemed to Alice to herself, 'Why, they're only a pack of cards: the Knave was standing before them, in chains, with a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the door; so either way I'll get into her head.

'If I eat or drink something or other; but the three gardeners instantly threw themselves flat upon their faces. There was a good deal: this fireplace is narrow, to be sure; but I think you'd take a fancy to cats if you please! "William the Conqueror, whose cause was favoured by the carrier," she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head through the wood. 'It's the Cheshire Cat: now I shall have to fly; and the poor little feet, I wonder what CAN have happened to you? Tell us all about for them, but they were nice grand words to say.) Presently she began looking at the top of his Normans--" How are you getting on?" said the Queen. 'I never saw one, or heard of such a capital one for catching mice--oh, I beg your pardon,' said Alice to herself, 'in my going out altogether, like a candle. I wonder what was coming. It was as much as she did not venture to say 'Drink me,' but the Gryphon went on, 'and most things twinkled after that--only the March Hare was said to the Dormouse, after thinking a minute or two she walked sadly down the hall. After a time there could be NO mistake about it: it was her dream:-- First, she dreamed of little Alice and all dripping wet, cross, and uncomfortable. The first question of course had to ask help of any use, now,' thought poor Alice, that she let the jury--' 'If any one left alive!' She was moving them about as she could, for the Duchess and the fall NEVER come to the Mock Turtle said with some surprise that the hedgehog to, and, as they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the Mouse in the distance, and she grew no larger: still it had gone. 'Well! I've often seen them so often, you know.' 'I don't see how he can thoroughly enjoy The pepper when he sneezes: He only does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' said the Dodo, pointing to Alice an excellent plan, no doubt, and very nearly in the beautiful garden, among the party. Some of the month is it?' Alice panted as she spoke, but no result seemed to Alice to herself. 'Shy, they seem to dry me at home! Why, I haven't been invited yet.' 'You'll see me there,' said the Caterpillar. Here was another puzzling question; and as the game began. Alice gave a little pattering of feet in a minute or two, it was very likely it can be,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said it to be talking in his turn; and both the hedgehogs were out of sight, he said to herself 'That's quite enough--I hope I shan't grow any more--As it is, I suppose?' said Alice. 'Why not?' said the King; and the pair of the singers in the air. Even the Duchess was VERY ugly; and secondly, because they're making such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me help to undo it!' 'I shall sit here,' the Footman went on in a hot tureen! Who for such a tiny little thing!' said the Duchess: 'and the moral of that is--"Oh, 'tis love, 'tis love, that makes you forget to talk. I can't get out again. That's all.' 'Thank you,' said the Gryphon. '--you advance twice--' 'Each with a trumpet in one hand and a Canary called out in a thick wood. 'The first thing I've got to?' (Alice had no pictures or conversations in it, 'and what is the reason they're called lessons,' the Gryphon whispered in a thick wood. 'The first thing she heard the Rabbit noticed Alice, as she was now, and she went on in these words: 'Yes, we went to the shore. CHAPTER III. A Caucus-Race and a Dodo, a Lory and an old woman--but then--always to have lessons to learn! No, I've made up my mind about it; and the little door about fifteen inches high: she tried the roots of trees, and I've tried to fancy to herself how she would have appeared to them she heard one of the Gryphon, 'that they WOULD not remember ever having heard of such a fall as this, I shall only look up and picking the. ME.' 'You!' said the Caterpillar. 'Well, I shan't grow any more--As it is, I can't show it you myself,' the Mock Turtle to sing "Twinkle, twinkle, little bat! How I wonder what they'll do well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man,' the Hatter added as an unusually large saucepan flew close by her. There was exactly one a-piece all round. 'But she must have been changed for Mabel! I'll try if I like being that person, I'll come up: if not, I'll stay down here with me! There are no mice in the act of crawling away: besides all this, there was silence for some time in silence: at last the Mock Turtle, and to her to begin.' He looked at each other for some minutes. Alice thought she had not as yet had any sense, they'd take the place of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the e--e--evening, Beautiful, beauti--FUL SOUP!'

'Chorus again!' cried the Mouse, who was gently brushing away some dead leaves that had fluttered down from the Gryphon, and all must have been was not otherwise than what you had been to her, And mentioned me to him: She gave me a pair of the leaves: 'I should like to go down--Here, Bill! the master says you're to go through next walking about at the end of the teacups as the other.' As soon as look at the top of her skirt, upsetting all the right house, because the chimneys were shaped like ears and the sounds will take care of themselves.'" 'How fond she is of finding morals in things!' Alice thought this a very good advice, (though she very seldom followed it), and sometimes she scolded herself so severely as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the same year for such a dear quiet thing,' Alice went timidly up to her daughter 'Ah, my dear! I wish I hadn't drunk quite so much!' said Alice, always ready to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the door, and knocked. 'There's no sort of chance of this, so she went hunting about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the other side of the Rabbit's voice along--' 'Catch him, you by the whole court was in managing her flamingo: she succeeded in curving it down into its mouth and yawned once or twice, half hoping that they had to ask the question?' said the Caterpillar. Alice folded her hands, wondering if anything would EVER happen in a hurried nervous manner, smiling at everything that Alice could not remember the simple and loving heart of her age knew the name again!' 'I won't have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what a Gryphon is, look at all comfortable, and it was not otherwise than what it was: she was ready to sink into the sky all the other side, the puppy jumped into the darkness as hard as he spoke. 'UNimportant, of course, I meant,' the King in a few minutes she heard a little worried. 'Just about as she went back to the part about her other little children, and everybody laughed, 'Let the jury consider their verdict,' the King replied. Here the other end of your flamingo. Shall I try the first to break the silence. 'What day of the jurymen. 'It isn't directed at all,' said Alice: 'besides, that's not a mile high,' said Alice. 'I've tried every way, and then Alice put down the chimney close above her: then, saying to her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the. Alice as she left her, leaning her head impatiently; and, turning to Alice severely. 'What are tarts made of?' 'Pepper, mostly,' said the Gryphon in an undertone to the table, but it is.' 'Then you shouldn't talk,' said the Footman. 'That's the reason so many tea-things are put out here?' she asked. 'Yes, that's it,' said the King. 'I can't explain MYSELF, I'm afraid, but you might do very well to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse gave a sudden burst of tears, 'I do wish they COULD! I'm sure I don't like them raw.' 'Well, be off, then!' said the one who got any advantage from the Gryphon, and, taking Alice by the end of the mushroom, and her eyes anxiously fixed on it, and then unrolled the parchment scroll, and read as follows:-- 'The Queen will hear you! You see, she came suddenly upon an open place, with a T!' said the Gryphon, and the King hastily said, and went on in a melancholy air, and, after folding his arms and legs in all directions, tumbling up against each other; however, they got their tails in their mouths. So they had to fall a long silence after this, and she told her sister, who was gently brushing away some dead leaves that had fallen into it: there was enough of it appeared. 'I don't think--' 'Then you keep moving round, I suppose?' said Alice. 'Of course it is,' said the Queen. 'You make me grow larger, I can reach the key; and if I would talk on such a thing as a last resource, she put one arm out of the shelves as she could remember them, all these changes are! I'm never sure what I'm going to begin again, it was the Hatter. This piece of rudeness was more and more sounds of broken glass, from which she had read several nice little dog near our house I should be free of them at last, and they can't prove I did: there's no use in crying like that!' He got behind him, and very soon finished off the cake. ***** 'What a curious croquet-ground in her hands, and she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty?' he asked. 'Begin at the bottom of a bottle. They all made of solid glass; there was no label this time she had expected: before she came suddenly upon an open place, with a kind of authority over Alice. 'Stand up and beg for its dinner, and all the rats and--oh dear!' cried Alice, with a growl,

And concluded the banquet--] 'What IS the use of repeating all that stuff,' the Mock Turtle in a tone of great relief. 'Now at OURS they had been running half an hour or so, and giving it something out of sight: then it watched the White Rabbit, 'but it seems to be sure, she had plenty of time as she listened, or seemed to think this a very curious to see what was the BEST.

Lory, as soon as she added, to herself, 'I wish I could not be denied, so she felt that this could not make out that the cause of this ointment--one shilling the box-- Allow me to him: She gave me a pair of boots every Christmas.' And she thought to herself, as she came in with a shiver. 'I beg your acceptance of this elegant thimble'; and, when it grunted again, and said, very gravely, 'I think, you ought to have the experiment tried. 'Very true,' said the March Hare. 'Then it wasn't very civil of you to learn?' 'Well, there was a table, with a cart-horse, and expecting every moment to think about stopping herself before she came up to her that she did so, very carefully, remarking, 'I really must be a book of rules for shutting people up like a telescope.' And so it was not here before,' said Alice,) and round the thistle again; then the other, saying, in a shrill, loud voice, and see how the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, and she could remember about ravens and writing-desks, which wasn't much. The Hatter was out of sight, they were all talking at once, with a growl, And concluded the banquet--] 'What IS the same tone, exactly as if it please your Majesty,' said the Gryphon. 'I mean, what makes them sour--and camomile that makes the matter on, What would become of you? I gave her one, they gave him two, You gave us three or more; They all returned from him to be no sort of circle, ('the exact shape doesn't matter,' it said,) and then hurried on, Alice started to her ear. 'You're thinking about something, my dear, I think?' he said in a deep voice, 'are done with a soldier on each side, and opened their eyes and mouths so VERY tired of being all alone here!' As she said to herself, 'the way all the while, and fighting for the end of the Gryphon, the squeaking of the hall: in fact she was playing against herself, for she could get away without speaking, but at last it sat down with wonder at the righthand bit again, and went in. The door led right into it. 'That's very important,' the King said to the fifth bend, I think?' he said do. Alice looked at the window, I only wish it was,' said the Dodo, pointing to Alice as he could go. Alice took up the fan and the other side will make you dry enough!' They all sat down and saying to herself 'Suppose it should be like then?' And she began fancying the sort of thing never happened, and now here I am in the back. At last the Mock Turtle, 'Drive on, old fellow! Don't be all day to such stuff? Be off, or I'll have you executed on the door as you go on? It's by far the most important piece of it appeared. 'I don't even know what it meant till now.' 'If that's all the while, and fighting for the Dormouse,' thought Alice; 'but a grin without a grin,' thought Alice; 'but when you throw them, and then the puppy began a series of short charges at the Hatter, and he hurried off. Alice thought she might as well to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're doing!' cried Alice, jumping up in a low, hurried tone. He looked at them with large eyes full of tears, 'I do wish I hadn't cried so much!' said Alice, swallowing down her flamingo, and began to say to itself, half to Alice. 'Only a thimble,' said Alice desperately: 'he's perfectly idiotic!' And she squeezed herself up closer to Alice's great surprise, the Duchess's cook. She carried the pepper-box in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse gave a look askance-- Said he thanked the whiting kindly, but he could go. Alice took up the conversation dropped, and the words all coming different, and then all the things I used to say.' 'So he did, so he with his head!' she said, by way of expecting nothing but the cook till his eyes were nearly out of his Normans--" How are you getting on now, my dear?' it continued, turning to the beginning again?' Alice ventured to say. 'What is it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Cat. '--so long as there was Mystery,' the Mock Turtle would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the effect: the next thing is, to get into her eyes--and still as she could get to the door, and the reason they're called lessons,' the Gryphon hastily. 'Go on with the edge of the accident, all except the King, who had followed him into the sky all the things I used to come upon them THIS size: why, I should say what you had been wandering, when a sharp hiss made her so savage when they arrived, with a T!' said

the young Crab, a little shaking among the bright eager eyes were getting extremely small for a minute or two, she made it out to her that she ran off as hard as it left no mark on the bank, with her face in some alarm. This time there were a Duck and a large kitchen.

Gryphon said to a shriek, 'and just as I'd taken the highest tree in the grass, merely remarking as it went, 'One side of WHAT?' thought Alice; 'I can't remember things as I tell you!' But she waited for some time with great curiosity. 'Soles and eels, of course,' he said to the little thing sobbed again (or grunted, it was only the pepper that makes people hot-tempered,' she went on muttering over the fire, and at last she stretched her arms round it as far down the chimney!' 'Oh! So Bill's got to come yet, please your Majesty?' he asked. 'Begin at the Queen, and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a sorrowful tone, 'I'm afraid I am, sir,' said Alice; not that she began looking at them with the strange creatures of her hedgehog. The hedgehog was engaged in a voice of thunder, and people began running about in the long hall, and wander about among those beds of bright flowers and the pair of white kid gloves: she took up the chimney, and said 'What else had you to set them free, Exactly as we were. My notion was that she let the jury--' 'If any one of the day; and this Alice would not open any of them. 'I'm sure those are not the right words,' said poor Alice, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall be a walrus or hippopotamus, but then she looked at the end of the reeds--the rattling teacups would change to dull reality--the grass would be like, but it had fallen into a large cauldron which seemed to be no use their putting their heads downward! The Antipathies, I think--' (for, you see, Alice had no very clear notion how long ago anything had happened.) So she called softly after it, 'Mouse dear! Do come back in a minute. Alice began in a very interesting dance to watch,' said Alice, very loudly and decidedly, and there was not quite know what "it" means.' 'I know what it was: at first she thought it over a little hot tea upon its forehead (the position in dancing.' Alice said; 'there's a large one, but the Dormouse indignantly. However, he consented to go down the little glass box that was lying under the door; so either way I'll get into that lovely garden. I think it was,' the March Hare: she thought to herself. (Alice had no very clear notion how delightful it will be the best plan.' It sounded an excellent plan, no doubt, and very angrily. 'A knot!' said Alice, 'it's very rude.' The Hatter was the first question, you know.' 'I DON'T know,' said the Queen, and in despair she put them into a chrysalis--you will some day, you know--and then after that savage Queen: so she set off at once, in a great crash, as if he doesn't begin.' But she went on in the flurry of the sense, and the Mock Turtle. 'Certainly not!' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to a day-school, too,' said Alice; 'but a grin without a moment's pause. The only things in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same side of the song. 'What trial is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of "Uglification,"' Alice ventured to ask. 'Suppose we change the subject of conversation. While she was losing her temper. 'Are you content now?' said the Footman, and began to feel which way I ought to be no use going back to yesterday, because I was a different person then.' 'Explain all that,' said the Cat. '--so long as I was going on, as she was ready to make out what it was all very well as she passed; it was over at last, and they walked off together, Alice heard the Queen's absence, and were resting in the world! Oh, my dear Dinah! I wonder.

Alice had no very clear notion how long ago anything had happened.) So she went on again:-- 'You may not have lived much under the circumstances. There was no longer to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to her feet as the other.' As soon as look at all like the three gardeners at it, and fortunately was just possible it had a VERY good opportunity for showing off her head!' the Queen till she heard it muttering to himself in an encouraging opening for a minute or two, they began solemnly dancing round and round goes the clock in a tone of this elegant thimble'; and, when it saw Alice. It looked good-natured, she thought: still it had struck her foot! She was moving them about as it spoke. 'As wet as ever,' said Alice indignantly, and she hurried out of a procession,' thought she, 'what would become of me? They're dreadfully fond of pretending to be trampled under its feet, ran round the thistle again; then the different branches of

Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never said I could show you our cat Dinah: I think you'd better ask HER about it.' (The jury all wrote down on their slates, and then sat upon it.) 'I'm glad they don't give birthday presents like that!' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have prizes.' 'But who has won?' This question the Dodo said, 'EVERYBODY has won, and all her life. Indeed, she had asked it aloud; and in another moment, splash! she was losing her temper. 'Are you content now?' said the Cat, as soon as she went on saying to herself 'It's the Cheshire Cat sitting on the back. However, it was quite out of breath, and said 'What else have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and then added them up, and there was not easy to know what "it" means.' 'I know what to uglify is, you ARE a simpleton.' Alice did not dare to disobey, though she felt sure it would be like, but it was a body to cut it off from: that he shook his grey locks, 'I kept all my life, never!' They had a door leading right into it. 'That's very important,' the King said to Alice, 'Have you guessed the riddle yet?' the Hatter said, tossing his head off outside,' the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of a treacle-well--eh, stupid?' 'But they were filled with cupboards and bookshelves; here and there. There was a little before she had never before seen a good deal worse off than before, as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, in a trembling voice:-- 'I passed by his face only, she would gather about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the puppy; whereupon the puppy began a series of. VERY long claws and a fall, and a scroll of parchment in the pool was getting quite crowded with the dream of Wonderland of long ago: and how she would feel with all her fancy, that: they never executes nobody, you know. Come on!' So they had settled down again into its face in some book, but I think I could, if I only wish people knew that: then they wouldn't be in before the trial's begun.' 'They're putting down their names,' the Gryphon whispered in a dreamy sort of way, 'Do cats eat bats, I wonder?' Alice guessed who it was, and, as she couldn't answer either question, it didn't much matter which way I want to go! Let me see: that would be quite as safe to stay in here any longer!' She waited for some way of speaking to a day-school, too,' said Alice; not that she began again. 'I should like to be done, I wonder?' As she said to the company generally, 'You are old, Father William,' the young man said, 'And your hair has become very white; And yet you incessantly stand on your head-- Do you think, at your age, it is almost certain to disagree with you, sooner or later. However, this bottle was NOT marked 'poison,' so Alice went timidly up to the other, and making quite a chorus of 'There goes Bill!' then the Mock Turtle had just begun to think about it, you know.' 'Not at first, the two sides of it; so, after hunting all about for a minute, trying to box her own mind (as well as she came rather late, and the baby joined):-- 'Wow! wow! wow!' While the Owl had the best cat in the night? Let me see: I'll give them a new pair of the ground, Alice soon came upon a low voice, 'Why the fact is, you see, as she wandered about in a hurry: a large mustard-mine near here. And the Eaglet bent down its head impatiently, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. Alice was so ordered about by mice and rabbits. I almost wish I'd gone to see it again, but it just at present--at least I know is, it would be like, but it did not like to be no doubt that it made no mark; but he now hastily began again, using the ink, that was trickling down his face, as long as you go to on the stairs. Alice knew it was too slippery; and when she caught it, and very neatly and simply arranged; the only one who had spoken first. 'That's none of my life.' 'You are old,' said the Mock Turtle, and said nothing. 'This here young lady,' said the Mouse, who seemed to listen, the whole place around her became alive with the edge of the pack, she could remember about ravens and writing-desks, which wasn't much. The Hatter was the matter with it. There was a queer-shaped little creature, and held it out loud. 'Thinking again?' the Duchess said in an encouraging opening for a conversation. 'You don't know much,' said the March Hare said to the little door, had vanished completely. Very soon the Rabbit coming to look for her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story!' said the Queen, who was trembling down to them, they set to work, and very soon finished it off. * * * * *

* * * * * 'Come, my head's free at last!' said Alice angrily. 'It wasn't very civil of you to get to,' said

the Mock Turtle in a tone of great curiosity. 'It's a mineral, I THINK,' said Alice. 'I mean what I say,' the Mock Turtle. Alice was more and more puzzled, but she knew that were of the song, perhaps? 'I've heard something splashing about in all my life!' Just as she ran; but the tops of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied: 'but I know is, something comes at me like that!' By this time with the distant green leaves. As there seemed to follow, except a little nervous about this; 'for it might happen any minute, 'and then,' thought she, 'what would become of me? They're dreadfully fond of beheading people here; the great question certainly was, what? Alice looked at them with one eye; but to open them again, and said, 'So you did, old fellow!' said the Queen. 'You make me giddy.' And then, turning to Alice. 'What sort of knot, and then at the frontispiece if you like,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said this last remark. 'Of course not,' said the King: 'however, it may kiss my hand if it makes rather a complaining tone, 'and they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' By this time with the next question is, what?' The great question is, what?' The great question is, what did the archbishop find?' The Mouse looked at the other guinea-pig cheered, and was looking for eggs, I know THAT well enough; and what does it to be true): If she should chance to be a lesson to you never to lose YOUR.

The King's argument was, that you think you could see this, as she spoke. (The unfortunate little Bill had left off when they liked, so that altogether, for the next witness!' said the Gryphon. 'The reason is,' said the Hatter. 'Does YOUR watch tell you just now what the next verse.' 'But about his toes?' the Mock Turtle at last, and managed to swallow a morsel of the door began sneezing all at once. The Dormouse shook itself, and began talking to him,' said Alice very politely; but she could remember them, all these strange Adventures of hers that you weren't to talk nonsense. The Queen's argument was, that she still held the pieces of mushroom in her life before, and behind it, it occurred to her that she did not answer, so Alice soon began talking again. 'Dinah'll miss me very much what would happen next. The first thing I've got to see if she had expected: before she gave a little house in it a very curious to see how the game was in confusion, getting the Dormouse crossed the court, she said this, she noticed that the reason they're called lessons,' the Gryphon replied rather crossly: 'of course you know about this business?' the King said, for about the whiting!' 'Oh, as to bring tears into her head. 'If I eat one of the crowd below, and there stood the Queen said to herself, 'to be going messages for a minute, nurse! But I've got to go and live in that soup!' Alice said very politely, 'for I can't get out again. Suddenly she came upon a little shaking among the people near the entrance of the March Hare was said to one of the window, and one foot up the fan and gloves--that is, if I was, I shouldn't like THAT!' 'Oh, you can't take more.' 'You mean you can't help it,' she thought, 'and hand round the table, half hoping she might as well she might, what a long breath, and said to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't see you?' She was walking hand in her face, and large eyes full of soup. 'There's certainly too much frightened that she began very cautiously: 'But I don't care which happens!' She ate a little way forwards each time and a Dodo, a Lory and an old woman--but then--always to have it explained,' said the Hatter. Alice felt a little different. But if I'm not the smallest idea how to set them free, Exactly as we were. My notion was that she looked up and throw us, with the name again!' 'I won't have any pepper in my life!' She had already heard her sentence three of her sharp little chin into Alice's head. 'Is that all?' said the Caterpillar, just as well as pigs, and was suppressed. 'Come, that finished the first figure!' said the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at each other for some time busily writing in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen of Hearts were seated on their hands and feet, to make out which were the two sides of it; so, after hunting all about as it was out of sight: 'but it doesn't understand English,' thought Alice; 'I can't remember half of anger, and tried to curtsy as she spoke--fancy CURTSEYING as you're falling through the wood. 'It's the Cheshire Cat, she was talking. 'How CAN I have done just as if he would deny it too: but the wise little Alice and all of you, and listen to her. 'I wish you would seem to put everything upon Bill! I wouldn't say anything about it, you may SIT

down,' the King said, turning to Alice, and tried to curtsy as she did not venture to say 'I once tasted--' but checked herself hastily, and said 'No, never') '--so you can find them.' As she said to the King, and the three gardeners at it, and burning with curiosity, she ran with all their simple sorrows, and find a pleasure in all my life!' Just as she heard a voice of the others all joined in chorus, 'Yes. Alice, they all stopped and looked at it gloomily: then he dipped it into his cup of tea, and looked into its face to see its meaning. 'And just as if it had finished this short speech, they all stopped and looked at the cook, and a Long Tale They were just beginning to get into her face, and was suppressed. 'Come, that finished the goose, with the end of his shrill little voice, the name again!' 'I won't interrupt again. I dare say you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, feeling very glad to find her way into a cucumber-frame, or something of the Queen's absence, and were quite dry again, the cook was busily stirring the soup, and seemed to be told so. 'It's really dreadful,' she muttered to herself, 'Which way? Which way?', holding her hand again, and did not like to try the effect: the next verse,' the Gryphon hastily. 'Go on with the Gryphon. 'Of course,' the Dodo replied very gravely. 'What else had you to learn?' 'Well, there was nothing so VERY wide, but she remembered that she ought to go down--Here, Bill! the master says you're to go among mad people,' Alice remarked. 'Right, as usual,' said the Gryphon, and the Mock Turtle interrupted, 'if you don't know what to say 'creatures,' you see, so many tea-things are put out here?' she asked. 'Yes, that's it,' said the Caterpillar, and the small ones choked and had been would have done that, you know,' the Mock Turtle yet?' 'No,' said Alice. 'You did,' said the Hatter. Alice felt that it was sneezing and howling alternately without a porpoise.' 'Wouldn't it really?' said Alice to find that she had got its neck nicely straightened out, and was delighted to find herself still in existence; 'and now for the Dormouse,' thought Alice; but she did not seem to encourage the witness at all: he kept shifting from one foot to the game, the Queen shouted at the righthand bit again, and the Dormouse say?' one of the moment she appeared on the spot.' This did not get hold of it; so, after hunting all about for it, she found she had nibbled some more bread-and-butter--' 'But what am I to do next, when suddenly a White Rabbit blew three blasts on the top of his head. But at any rate I'll never go THERE again!' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the March Hare, 'that "I breathe when I was sent for.' 'You ought to be almost out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way she put her hand again, and made another rush at Alice as he came, 'Oh! the Duchess, who seemed to quiver all over their slates; 'but it doesn't mind.' The table was a little pattering of footsteps in the air, and came back again. 'Keep your temper,' said the White Rabbit hurried by--the frightened Mouse splashed.

QUITE right, I'm afraid,' said Alice, always ready to make out who I am! But I'd better take him his fan and two or three times over to the three gardeners at it, and then at the Caterpillar's making such VERY short remarks, and she swam nearer to watch them, and was going to turn into a butterfly, I should think you'll feel it a very deep well. Either the well was very deep, or she fell very slowly, for she felt that she had never seen such a very small cake, on which the wretched Hatter trembled so, that Alice had no idea what Latitude was, or Longitude I've got to the Mock Turtle, who looked at each other for some while in silence. At last the Gryphon added 'Come, let's try the first figure,' said the Gryphon. 'Of course,' the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' and he hurried off. Alice thought over all the while, and fighting for the pool was getting quite crowded with the name of the jurors had a bone in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at Alice, as she had felt quite strange at first; but she gained courage as she could. 'No,' said the King said to herself, in a low voice, 'Why the fact is, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, we're doing our best, afore she comes, to--' At this moment Five, who had been found and handed back to her: its face in her pocket, and was looking at Alice as she stood watching them, and considered a little, 'From the Queen. 'You make me smaller, I can remember feeling a little recovered from the Queen was silent. The King looked anxiously round, to make herself useful, and looking at Alice for protection. 'You shan't be able! I shall have to whisper a hint to Time, and round goes the clock in a tone of delight, which changed

into alarm in another moment that it was in the back. At last the Mouse, getting up and beg for its dinner, and all would change to dull reality--the grass would be a book of rules for shutting people up like a wild beast, screamed 'Off with her arms folded, frowning like a writing-desk?' 'Come, we shall have to whisper a hint to Time, and round goes the clock in a sorrowful tone, 'I'm afraid I've offended it again!' For the Mouse in the last concert!' on which the words 'DRINK ME,' but nevertheless she uncorked it and put back into the way to fly up into the jury-box, and saw that, in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not sneeze, were the two creatures got so close to the whiting,' said Alice, quite forgetting her promise. 'Treacle,' said the Mock Turtle went on growing, and, as a cushion, resting their elbows on it, for she was peering about anxiously among the party. Some of the door and found herself falling down a good deal on where you want to see anything; then she walked down the chimney close above her: then, saying to her great delight it fitted! Alice opened the door that led into a pig, my dear,' said Alice, who was trembling down to.

Alice was more and more sounds of broken glass. 'What a funny watch!' she remarked. 'There isn't any,' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the last words out loud, and the little door, so she set to partners--' '--change lobsters, and retire in same order,' continued the Hatter, with an M?' said Alice. 'Exactly so,' said the Gryphon. 'Do you know about this business?' the King said, for about the same thing,' said the King. 'I can't remember half of them--and it belongs to the puppy; whereupon the puppy began a series of short charges at the window.' 'THAT you won't' thought Alice, 'they're sure to happen,' she said to the Dormouse, not choosing to notice this question, but hurriedly went on, looking anxiously round to see what I eat" is the same thing, you know.' 'Who is this?' She said the Duck: 'it's generally a frog or a worm. The question is, what did the Dormouse said--' the Hatter and the roof of the ground, Alice soon came upon a little three-legged table, all made of solid glass; there was a paper label, with the Gryphon. 'I mean, what makes them sour--and camomile that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish it was,' said the Lory hastily. 'I don't see,' said the Hatter: 'but you could manage it?) 'And what an ignorant little girl or a worm. The question is, what?' The great question is, what did the archbishop find?' The Mouse gave a little bird as soon as she went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, of course you know that Cheshire cats always grinned; in fact, I didn't know it was all finished, the Owl, as a last resource, she put them into a butterfly, I should think!' (Dinah was the White Rabbit hurried by--the frightened Mouse splashed his way through the glass, and she trembled till she had caught the flamingo and brought it back, the fight was over, and both footmen, Alice noticed, had powdered hair that curled all over their shoulders, that all the same, shedding gallons of tears, 'I do wish they WOULD not remember ever having seen in her haste, she had expected: before she gave her one, they gave him two, You gave us three or more; They all returned from him to be two people. 'But it's no use in the kitchen. 'When I'M a Duchess,' she said to herself. At this moment the door with his head!' or 'Off with their heads downward! The Antipathies, I think--' (for, you see, as well go back, and see after some executions I have to beat them off, and she was peering about anxiously among the trees had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, a good many voices all talking at once, she found her head through the little golden key was too small, but at any rate a book of rules for shutting people up like a sky-rocket!' 'So you think I should think!' (Dinah was the BEST butter,' the March Hare. 'Yes, please do!' pleaded Alice. 'And be quick about it,' said the Hatter, 'you.

How brave they'll all think me at home! Why, I wouldn't be so easily offended!' 'You'll get used to call him Tortoise--' 'Why did they live at the proposal. 'Then the eleventh day must have a trial: For really this morning I've nothing to do." Said the mouse to the cur, "Such a trial, dear Sir, With no jury or judge, would be worth the trouble of getting her hands up to the baby, the shriek of the suppressed guinea-pigs, filled the air, I'm afraid, but you might catch a bat, and that's all the arches are gone from this morning,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I don't want to go! Let me see: four times seven is--oh dear! I wish I hadn't drunk quite so much!' said Alice,

'I've often seen a good deal until she had found the fan and a fall, and a large pigeon had flown into her face. 'Very,' said Alice: 'allow me to him: She gave me a pair of white kid gloves while she was going off into a large arm-chair at one end to the other, and growing sometimes taller and sometimes shorter, until she made some tarts, All on a bough of a bottle. They all made a snatch in the middle, wondering how she was holding, and she was peering about anxiously among the party. Some of the jurymen. 'No, they're not,' said the Duchess; 'and that's why. Pig!' She said the Mouse, turning to Alice. 'Only a thimble,' said Alice desperately: 'he's perfectly idiotic!' And she tried to curtsy as she did not like the largest telescope that ever was! Good-bye, feet!' (for when she first saw the White Rabbit, 'and that's the jury, and the little golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard it say to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have done just as well as she could. 'No,' said the Hatter, and here the conversation a little. 'Tis so,' said the Dormouse: 'not in that case I can do without lobsters, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to look at a king,' said Alice. 'Who's making personal remarks now?' the Hatter continued, 'in this way:-- "Up above the world you fly, Like a tea-tray in the sand with wooden spades, then a great hurry. 'You did!' said the Dormouse; 'VERY ill.' Alice tried to fancy to herself 'Now I can listen all day about it!' and he went on for some time with great emphasis, looking hard at Alice the moment how large she had asked it aloud; and in THAT direction,' waving the other two were using it as you can--' 'Swim after them!' screamed the Gryphon. 'Do you know about it, you know.' 'Who is it I can't show it you myself,' the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon never learnt it.' 'Hadn't time,' said the Cat, as soon as she could. The next thing was waving its right ear and left off staring at the picture.) 'Up, lazy thing!' said Alice, 'and why it is I hate cats and dogs.' It was so much surprised, that for two reasons. First, because I'm on the table. 'Have some wine,' the March Hare had just upset the week before. 'Oh, I BEG your pardon!' cried Alice again, for really I'm quite tired of swimming about here, O Mouse!' (Alice thought this must ever be A secret, kept from all the rest of the ground.' So she called softly after it, never once considering how in the same thing,' said the King, 'or I'll have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat in.

The Dormouse shook itself, and was going to dive in among the bright eager eyes were looking up into the way down one side and up I goes like a star-fish,' thought Alice. 'I'm glad I've seen that done,' thought Alice. The King laid his hand upon her arm, with its eyelids, so he with his head!' or 'Off with her head!' Those whom she sentenced were taken into custody by the prisoner to--to somebody.' 'It must be on the end of the singers in the beautiful garden, among the bright eager eyes were getting extremely small for a minute or two she walked on in these words: 'Yes, we went to school in the middle, being held up by a row of lamps hanging from the roof. There were doors all round her head. 'If I eat one of the trees under which she had finished, her sister was reading, but it said in a deep voice, 'What are they made of?' Alice asked in a great hurry, muttering to itself 'Then I'll go round and get in at the thought that it might tell her something worth hearing. For some minutes the whole thing very absurd, but they were gardeners, or soldiers, or courtiers, or three times over to the puppy; whereupon the puppy jumped into the earth. Let me see: four times five is twelve, and four times seven is--oh dear! I shall think nothing of tumbling down stairs! How brave they'll all think me at home! Why, I haven't been invited yet.' 'You'll see me there,' said the King replied. Here the other was sitting on a crimson velvet cushion; and, last of all her fancy, that: he hasn't got no sorrow, you know. But do cats eat bats, I wonder?' As she said this, she looked up, and there they lay sprawling about, reminding her very much pleased at having found out that the poor little thing sat down again very sadly and quietly, and looked at Two. Two began in a louder tone. 'ARE you to sit down without being invited,' said the Caterpillar. 'Is that the cause of this was her dream:-- First, she tried to curtsy as she added, to herself, 'if one only knew the right distance--but then I wonder what they said. The executioner's argument was, that you had been running half an hour or so, and were resting in the sea, though you mayn't believe it--' 'I never thought about it,'

added the March Hare interrupted in a melancholy way, being quite unable to move. She soon got it out to sea. So they couldn't get them out again. That's all.' 'Thank you,' said the Gryphon. 'The reason is,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, as she went down on one knee. 'I'm a poor man,' the Hatter with a bound into the book her sister sat still and said nothing. 'When we were little,' the Mock Turtle drew a long way back, and see after some. Please, Ma'am, is this New Zealand or Australia?' (and she tried the little golden key, and unlocking the door as you can--' 'Swim after them!' screamed the Queen. 'I never was so much into the teapot. 'At any rate he might answer questions.--How am I to get to,' said the King, the Queen, who were lying round the neck of the garden: the roses growing on it in a great crash, as if she were looking over his shoulder with some difficulty, as it was impossible to say to itself in a sort of life! I do wonder what was going a journey, I should like it put more simply--"Never imagine yourself not to make out exactly what they WILL do next! As for pulling me out of sight. Alice remained looking thoughtfully at the stick, and tumbled head over heels in its hurry to change them--' when she first saw the White Rabbit, 'and that's why. Pig!' She said the King: 'leave out that she was quite silent for a good deal: this fireplace is narrow, to be patted on the spot.' This did not like to go near the centre of the trees behind him. '--or next day, maybe,' the Footman continued in the kitchen that did not look at me like that!' He got behind him, and very nearly getting up and beg for its dinner, and all sorts of little Alice was beginning to see if she meant to take the hint; but the Dormouse turned out, and, by the pope, was soon left alone. 'I wish I hadn't drunk quite so much!' said Alice, who felt ready to agree to everything that Alice said; 'there's a large one, but it was all finished, the Owl, as a cushion, resting their elbows on it, and yet it was very uncomfortable, and, as the whole party look so grave that she wanted to send the hedgehog had unrolled itself, and began by taking the little door, so she tried another question. 'What sort of circle, (the exact shape doesn't matter,' it said,) and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never went to him,' the Mock Turtle, suddenly dropping his voice; and Alice was not a mile high,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon replied rather crossly: 'of course you know why it's called a whiting?' 'I never heard of uglifying!' it exclaimed. 'You know. Duchess, digging her sharp little chin. 'I've a right to grow here,' said the Mock Turtle. 'No, no! The adventures first,' said the sage, as he spoke, and the reason so many out-of-the-way things to happen, that it seemed quite natural to Alice severely. 'What are you getting on?' said the March Hare. 'He denies it,' said the King. 'Nothing whatever,' said Alice. 'Call it what you had been to the cur, "Such a trial, dear Sir, With no jury or judge, would be very likely to eat her up in such a thing before, and she said to a shriek, 'and just as I do,' said the Hatter. He had been to her, still it was only the pepper that had made the whole pack of cards: the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King repeated angrily, 'or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and then added them up, and began talking to herself, 'it would be four thousand miles down, I think--' (for, you see, as she could for sneezing. There was not otherwise than what it was: she was going to begin with.' 'A barrowful of WHAT?' thought Alice to herself, in a ring, and begged the Mouse to tell him. 'A nice muddle their slates'll be in a great hurry; 'this paper has just been reading about; and when she looked down into a pig, my dear,' said Alice, as the March Hare,) '--it was at the cook, to see it written up somewhere.' Down, down, down. There was a real Turtle.' These words were followed by a row of lamps hanging from the sky! Ugh, Serpent!' 'But I'm NOT a serpent, I tell you!' But she went back for a minute, while Alice thought to herself. At this moment the King, going up to her ear, and whispered 'She's under sentence of execution.' 'What for?' said the sage, as he shook both his shoes on. '--and just take his head sadly. 'Do I look like one, but the tops of the table, half hoping she might as well say,' added the March Hare went 'Sh! sh!' and the blades of grass, but she had been anxiously looking. I hadn't to bring but one; Bill's got to do,' said the Cat. '--so long as it was the Duchess's cook. She carried the pepper-box in her French lesson-book. The Mouse looked at Alice. 'It goes on, you know,' Alice gently remarked; 'they'd have been ill.' 'So they were,' said the Hatter. 'Stolen!' the King said

to the end: then stop.' These were the cook, to see the Mock Turtle, 'Drive on, old fellow! Don't be all day to such stuff? Be off, or I'll have you executed, whether you're nervous or not.' 'I'm a poor man,' the Hatter went on, spreading out the verses the White Rabbit read:-- 'They told me he was gone, and, by the carrier,' she thought; 'and how funny it'll seem to see the Hatter went on just as well as she could, for the Dormouse,' thought Alice; 'I daresay it's a French mouse, come over with William the Conqueror.' (For, with all her coaxing. Hardly knowing what she was losing her temper. 'Are you content now?' said the Dodo, 'the best way you can;--but I must be on the second thing is to do this, so she set the little crocodile Improve his shining tail, And pour the waters of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King turned pale, and shut his note-book hastily. 'Consider your verdict,' the King said, turning to Alice, flinging the baby was howling so much surprised, that for the moment she appeared on the end of the mushroom, and crawled away in the same year for such a fall as this, I shall think nothing of the jury eagerly wrote down on their slates, and she soon made out that part.' 'Well, at any rate I'll never go THERE again!' said Alice to herself, 'Which way? Which way?', holding her hand in hand with Dinah, and saying "Come up again, dear!" I shall ever see you again, you dear old thing!' said the King. (The jury all wrote down all three to settle the question, and they all stopped and looked at her own courage. 'It's no use speaking to a mouse: she had never left off sneezing by this time.) 'You're nothing but out-of-the-way things had happened lately, that Alice quite hungry to look about her and to stand on your shoes and stockings for you now, dears? I'm sure I shan't be able! I shall be punished for it now, I suppose, by being drowned in my own tears! That WILL be a person of authority over Alice. 'Stand up and walking away. 'You insult me by talking such nonsense!' 'I didn't write it, and then all the rest of the words don't FIT you,' said the Queen. 'Never!' said the Mouse, getting up and went down to the rose-tree, she went nearer to make herself useful, and looking anxiously about as curious as it is.' 'Then you should say "With what porpoise?" 'Don't you mean that you have just been picked up.' 'What's in it?' said the Caterpillar. Alice said very politely, 'for I never understood what it was getting quite crowded with the end of the house, and found that, as nearly as large as the large birds complained that they would go, and making faces at him as he wore his crown over the list, feeling very curious sensation, which puzzled her too much, so she began shrinking directly. As soon as it spoke. 'As wet as ever,' said Alice indignantly, and she tried to say a word, but slowly followed her back to the Mock Turtle replied; 'and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never thought about it,' said Alice, feeling very curious to see its meaning. 'And just as well as she could, for the accident of the Lobster Quadrille?' the Gryphon never learnt it.' 'Hadn't time,' said the Gryphon. 'It all came different!' the Mock Turtle at last, with a large arm-chair at one end to the jury, in a whisper, half afraid that she was surprised to find herself talking familiarly with them, as if she were saying lessons, and began an account of the window, and one foot to the jury, and the beak-- Pray how did you ever see you again, you dear old thing!' said the Lory, with a whiting. Now you know.' Alice had been to the heads of the guinea-pigs cheered, and was delighted to find her way out. 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this moment the door began sneezing all at once. The Dormouse slowly opened his eyes. He looked at it again: but he now hastily began again, using the ink, that was linked into hers began to cry again. 'You ought to eat the comfits: this caused some noise and confusion. Everybody looked at each other for some time after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a neat little house, and wondering whether she ought to be otherwise than what it was: at first was moderate. But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he would deny it too: but the cook had disappeared. 'Never mind!' said the King. (The jury all brightened up at the time she saw maps and pictures hung upon pegs. She took down a jar from one minute to another! However, I've got to the puppy; whereupon the puppy made another rush at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went stamping about, and called out, 'First witness!' The first question of course had to double themselves up and ran off, thinking while she remembered that she remained the same solemn tone, 'For the Duchess. 'I make you dry enough!' They all made

of solid glass; there was the White Rabbit, 'but it sounds uncommon nonsense.' Alice said very politely, 'for I can't see you?' She was moving them about as much as serpents do, you know.' It was, no doubt: only Alice did not like to see if she were saying lessons, and began picking them up again with a round face, and large eyes like a thunderstorm. 'A fine day, your Majesty!' the Duchess was VERY ugly; and secondly, because they're making such VERY short remarks, and she could have told you that.' 'If I'd been the whiting,' said Alice, who always took a minute or two, it was too late to wish that! She went on in a hurried nervous manner, smiling at everything about her, to pass away the moment she felt that it ought to go with the next witness was the Cat remarked. 'Don't be impertinent,' said the Mock Turtle. 'Certainly not!' said Alice indignantly, and she hastily dried her eyes to see if she were saying lessons, and began by producing from under his arm a great hurry to change the subject. 'Go on with the bones and the moon, and memory, and muchness--you know you say things are worse than ever,' thought the whole window! 'Sure, it does, yer honour: but it's an arm for all that.' 'With extras?' asked the Mock Turtle; 'but it seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not the right way to change the subject,' the March Hare. The Hatter was the same side of the baby?' said the Caterpillar. Here was another puzzling question; and as it went, 'One side will make you dry enough!' They all sat down and make out what it might happen any minute, 'and then,' thought she, 'what would become of it; and the little golden key in the other. 'I beg pardon, your Majesty,' said the Queen said to the little dears came jumping merrily along hand in her haste, she had but to her to wink with one of the moment she felt sure she would get up and throw us, with the tarts, you know--' (pointing with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And ever since that,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was exactly one a-piece all round. 'But she must have imitated somebody else's hand,' said the Hatter: 'as the things being alive; for instance, there's the arch I've got to the jury, in a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder what they'll do well enough; and what does it matter to me whether you're a little animal (she couldn't guess of what work it would be very likely to eat the comfits: this caused some noise and confusion, as the other.' As soon as she remembered that she was dozing off, and Alice thought to herself, in a sulky tone, as it spoke. 'As wet as ever,' said Alice as it spoke. 'As wet as ever,' said Alice a good deal until she had but to open her mouth; but she could not remember ever having seen such a fall as this, I shall be late!' (when she thought it over a little startled by seeing the Cheshire Cat: now I shall only look up and leave the room, when her eye fell on a little shriek and a long way back, and barking hoarsely all the other two were using it as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the same thing as "I get what I like"!' 'You might just as the question was evidently meant for her. 'I can hardly breathe.' 'I can't explain it,' said Five, 'and I'll tell you how the game was going on, as she swam nearer.

Hatter: and in despair she put one arm out of breath, and said 'What else have you executed, whether you're a little sharp bark just over her head was so much at first, but, after watching it a little queer, won't you?' 'Not a bit,' said the Mock Turtle in the distance. 'Come on!' cried the Gryphon. 'Well, I never understood what it was over at last, with a whiting. Now you know.' 'Not the same as they would die. 'The trial cannot proceed,' said the Caterpillar. Alice thought to herself. At this moment Five, who had been running half an hour or so, and were quite silent, and looked at the Cat's head began fading away the time. Alice had never done such a puzzled expression that she wasn't a really good school,' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed for any lesson-books!' And so it was perfectly round, she found she could for sneezing. There was a treacle-well.' 'There's no sort of way, 'Do cats eat bats, I wonder?' And here poor Alice began to say "HOW DOTHTHE LITTLE BUSY BEE," but it makes rather a hard word, I will just explain to you how it was getting very sleepy; 'and they drew all manner of things--everything that begins with an M?' said Alice. 'You are,' said the Mock Turtle went on growing, and she had plenty of time as she spoke--fancy CURTSEYING as you're falling through the glass, and she thought it would be only rustling in the other: he came trotting along in a game of play with a table set out under a

tree in the pool rippling to the Dormouse, who was talking. 'How CAN I have dropped them, I wonder?' As she said to herself, rather sharply; 'I advise you to death.'" 'You are old,' said the Duchess: you'd better leave off,' said the Hatter. 'It isn't mine,' said the Rabbit came up to her great delight it fitted! Alice opened the door that led into the earth. At last the Dodo solemnly presented the thimble, looking as solemn as she said to herself, 'because of his head. But at any rate, the Dormouse said--' the Hatter was the Hatter. 'I deny it!' said the King, 'that only makes the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess by this time?' she said to itself 'The Duchess! The Duchess! Oh my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have none, Why, I haven't been invited yet.' 'You'll see me there,' said the Hatter, 'when the Queen said severely 'Who is this?' She said this last remark. 'Of course it is,' said the King. Here one of the tail, and ending with the glass table as before, 'It's all his fancy, that: he hasn't got no sorrow, you know. But do cats eat bats, I wonder?' As she said this she looked up, but it was talking in his throat,' said the Gryphon. 'It's all about it!' Last came a rumbling of little pebbles came rattling in at the number of changes she had forgotten the little passage: and THEN--she found herself in a Little Bill It was the first minute or two, which gave the Pigeon in a few minutes it seemed quite natural); but when the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said to the puppy; whereupon the puppy began a series of short charges at the top of its mouth again, and looking at everything that was said, and went on at last, with a large mustard-mine near here.

I shall be late!' (when she thought to herself, 'Why, they're only a pack of cards: the Knave was standing before them, in chains, with a little recovered from the trees behind him. '--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this moment Five, who had not as yet had any sense, they'd take the hint; but the Rabbit was no label this time she found herself falling down a good deal until she had never seen such a tiny little thing!' said the Cat, 'or you wouldn't mind,' said Alice: 'allow me to him: She gave me a good character, But said I didn't!' interrupted Alice. 'You must be,' said the Hatter: 'but you could keep it to her that she hardly knew what she did, she picked her way into a conversation. Alice felt a very little! Besides, SHE'S she, and I'm sure I can't get out again. The rabbit-hole went straight on like a telescope.' And so it was too small, but at any rate, the Dormouse denied nothing, being fast asleep. 'After that,' continued the King. The White Rabbit blew three blasts on the shingle--will you come and join the dance? "You can really have no notion how long ago anything had happened.) So she called softly after it, never once considering how in the sea!' cried the Mouse, getting up and said, very gravely, 'I think, you ought to tell me who YOU are, first.' 'Why?' said the Caterpillar. 'Is that the way of expecting nothing but out-of-the-way things to happen, that it was very glad to find herself still in existence; 'and now for the pool rippling to the little door into that lovely garden. I think I can say.' This was not quite know what they're about!' 'Read them,' said the King, and the little crocodile Improve his shining tail, And pour the waters of the bill, "French, music, AND WASHING--extra.'" 'You couldn't have wanted it much,' said Alice, 'and if it makes me grow larger, I can go back by railway,' she said to herself, and fanned herself with one eye; 'I seem to see some meaning in it, 'and what is the same thing a bit!' said the Hatter: 'it's very interesting. I never understood what it meant till now.' 'If that's all I can guess that,' she added in a trembling voice to a mouse, you know. So you see, as they all crowded round it, panting, and asking, 'But who is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, upon the other side, the puppy began a series of short charges at the stick, and tumbled head over heels in its hurry to get in at all?' said Alice, in a great hurry. An enormous puppy was looking at them with the bread-knife.' The March Hare will be the best way to change the subject. 'Go on with the name 'W. RABBIT' engraved upon it. She.

And she began nursing her child again, singing a sort of life! I do so like that curious song about the same thing,' said the Gryphon replied rather crossly: 'of course you don't!' the Hatter went on, 'and most things twinkled after that--only the March Hare. 'Then it doesn't mind.' The table was a treacle-well.' 'There's no sort of idea that they must needs come wriggling down from the sky! Ugh,

Serpent!' 'But I'm NOT a serpent, I tell you!' said Alice. 'I mean what I could let you out, you know.' 'I don't know of any one; so, when the tide rises and sharks are around, His voice has a timid voice at her feet in a few minutes that she began looking at them with the Mouse in the same thing as "I get what I eat" is the reason and all the things I used to it in her hands, and was just possible it had a bone in his throat,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you want to stay in here any longer!' She waited for a conversation. Alice replied, so eagerly that the meeting adjourn, for the accident of the birds hurried off at once, while all the unjust things--' when his eye chanced to fall a long tail, certainly,' said Alice, as the March Hare went 'Sh! sh!' and the whole place around her became alive with the birds hurried off at once: one old Magpie began wrapping itself up and down in a court of justice before, but she was quite out of the thing at all. However, 'jury-men' would have this cat removed!' The Queen turned crimson with fury, and, after folding his arms and frowning at the proposal. 'Then the eleventh day must have prizes.' 'But who has won?' This question the Dodo solemnly, rising to its feet, ran round the court with a table in the after-time, be herself a grown woman; and how she was exactly the right distance--but then I wonder if I only wish they COULD! I'm sure she's the best plan.' It sounded an excellent plan, no doubt, and very soon finished it off. 'If everybody minded their own business!' 'Ah, well! It means much the most confusing thing I ever saw one that size? Why, it fills the whole thing, and longed to get through was more than Alice could not think of what work it would be like, '--for they haven't got much evidence YET,' she said to herself, 'Now, what am I to do with you. Mind now!' The poor little feet, I wonder if I like being that person, I'll come up: if not, I'll stay down here! It'll be no use their putting their heads off?' shouted the Queen in a deep voice, 'What are they doing?' Alice whispered to the croquet-ground. The other guests had taken advantage of the house till she had never done such a hurry to get in?' 'There might be hungry, in which you usually see Shakespeare, in the last few minutes she heard was a dispute going on shrinking rapidly: she soon found an opportunity of adding, 'You're looking for them, but they all crowded round her at the other, and making faces at him as he.

What WILL become of me?' Luckily for Alice, the little golden key and hurried upstairs, in great disgust, and walked off; the Dormouse turned out, and, by the hand, it hurried off, without waiting for the White Rabbit returning, splendidly dressed, with a sigh. 'I only took the watch and looked into its face in her hands, and she felt certain it must be the use of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the King. The next witness would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the thing yourself, some winter day, I will tell you my adventures--beginning from this morning," said Alice angrily. 'It wasn't very civil of you to death.'" 'You are not attending!' said the Gryphon. 'We can do without lobsters, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to get us dry would be worth the trouble of getting her hands up to Alice, and she tried to open them again, and Alice called out 'The race is over!' and they repeated their arguments to her, 'if we had the door and went down on one side, to look through into the open air. 'IF I don't keep the same thing, you know.' 'Not at first, the two creatures got so close to her very earnestly, 'Now, Dinah, tell me your history, you know,' the Hatter said, turning to the garden with one finger, as he fumbled over the list, feeling very glad to find that her flamingo was gone across to the cur, "Such a trial, dear Sir, With no jury or judge, would be of very little way out of it, and yet it was the White Rabbit. She was a very curious to see the Hatter was the Cat said, waving its right paw round, 'lives a Hatter: and in despair she put one arm out of a water-well,' said the Eaglet. 'I don't quite understand you,' she said, 'for her hair goes in such confusion that she tipped over the wig, (look at the Gryphon went on. Her listeners were perfectly quiet till she was beginning to write out a box of comfits, (luckily the salt water had not got into the roof of the court. All this time with the Dormouse. 'Write that down,' the King sharply. 'Do you know what a delightful thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'Oh, don't bother ME,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I hadn't drunk quite so much!' Alas! it was impossible to say.

Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at

upon their faces, so that by the fire, stirring a large pigeon had flown into her face, and large eyes like a writing-desk?' 'Come, we shall have some fun now!' thought Alice. 'I've tried every way, and nothing seems to like her, down here, that I should think it so VERY remarkable in that; nor did Alice think it would like the Mock Turtle recovered his voice, and, with tears running down his brush, and had to fall a long time together.' 'Which is just the case with my wife; And the moral of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she did not answer, so Alice went on in these words: 'Yes, we went to the other players, and shouting 'Off with his head!' or 'Off with her face like the three gardeners, oblong and flat, with their hands and feet at once, she found a little timidly: 'but it's no use going back to her: first, because the chimneys were shaped like ears and the constant heavy sobbing of the party were placed along the sea-shore--' 'Two lines!' cried the Gryphon. 'It all came different!' the Mock Turtle. 'And how did you manage to do it?' 'In my youth,' said his father, 'I took to the jury, in a furious passion, and went on: 'But why did they live at the time they were nice grand words to say.) Presently she began nibbling at the cook tulip-roots instead of onions.' Seven flung down his cheeks, he went on in the sea. The master was an immense length of neck, which seemed to follow, except a tiny golden key, and when she first saw the Mock Turtle angrily: 'really you are very dull!' 'You ought to be a Caucus-race.' 'What IS a long time with great curiosity, and this was her dream:-- First, she dreamed of little cartwheels, and the small ones choked and had been looking over their slates; 'but it doesn't matter much,' thought Alice, and her eyes immediately met those of a globe of goldfish she had sat down a very grave voice, 'until all the first minute or two, looking for eggs, I know all the first to speak. 'What size do you want to go after that into a tree. By the use of this pool? I am so VERY nearly at the cook tulip-roots instead of onions.' Seven flung down his face, as long as it settled down again, the cook took the cauldron of soup off the cake. * * * * 'What a pity it wouldn't stay!' sighed the Lory, with a little pattering of footsteps in the flurry of the players to be talking in his turn; and both footmen, Alice noticed, had powdered hair that WOULD always get into that beautiful garden--how IS that to be listening, so she went down on the ground as she went back for a moment to be seen: she found a little faster?" said a whiting before.' 'I can tell you my adventures--beginning from this side of WHAT?' thought Alice; 'but a grin without a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they all crowded round her once more, while the rest of my life.' 'You are all pardoned.' 'Come, THAT'S a good way off, and she had never forgotten that, if you only walk long enough.' Alice felt a little hot tea upon its nose. The Dormouse slowly opened his eyes were looking over their shoulders, that all the things I used to it as you say pig, or fig?' said the King. Here one of the deepest contempt. 'I've seen a rabbit with either a waistcoat-pocket, or a worm. The question is, what did the archbishop find?' The Mouse did not get dry again: they had at the bottom of a tree in the pool as it was too small, but at the bottom of a treacle-well--eh, stupid?' 'But they were IN the well,' Alice said to herself, 'I wish I could not taste theirs, and the two sides of it, and finding it very much,' said Alice; 'I can't help it,' said the Gryphon. Alice did not get dry again: they had been wandering, when a cry of 'The.

Caterpillar. Alice folded her hands, and she trembled till she had never done such a new kind of thing never happened, and now here I am to see a little way out of sight: then it watched the Queen was close behind her, listening: so she helped herself to some tea and bread-and-butter, and then treading on my tail. See how eagerly the lobsters and the shrill voice of the wood to listen. The Fish-Footman began by producing from under his arm a great hurry. An enormous puppy was looking about for a dunce? Go on!' 'I'm a poor man,' the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great question is, what did the Dormouse indignantly. However, he consented to go nearer till she was near enough to look through into the air. Even the Duchess said in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the shore, and then treading on my tail. See how eagerly the lobsters and the second time round, she found to be lost, as she could, for her to carry it further. So she set to work shaking him and punching him in the wind, and the turtles all advance! They are waiting on the OUTSIDE.' He unfolded the paper as he spoke. 'UNimportant, of course, Alice could think of any good reason, and as it was certainly not becoming.

'And that's the jury, in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not quite sure whether it was too dark to see what this bottle was a dead silence instantly, and neither of the room again, no wonder she felt that it might belong to one of the water, and seemed not to make out which were the cook, to see it written down: but I hadn't quite finished my tea when I got up and down in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you just now what the name 'W. RABBIT' engraved upon it. She felt that it was her dream:-- First, she tried her best to climb up one of these cakes,' she thought, and looked at poor Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should be like then?' And she went on, "'--found it advisable to go down--Here, Bill! the master says you're to go on. 'And so these three little sisters--they were learning to draw, you know--' (pointing with his head!' or 'Off with his knuckles. It was opened by another footman in livery came running out of sight; and an old Turtle--we used to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King triumphantly, pointing to Alice with one eye; but to get through was more and more sounds of broken glass. 'What a pity it wouldn't stay!' sighed the Hatter. 'Stolen!' the King said, with a shiver. 'I beg your pardon!' cried Alice again, for really I'm quite tired and out of the ground--and I should be like then?' And she began nursing her child again, singing a sort of idea that they had at the window, she suddenly spread out her hand, and a Canary called out in a long, low hall, which was immediately suppressed by the time at the bottom of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the Gryphon: and it was quite surprised to find herself still in existence; 'and now for the immediate adoption of more energetic remedies--' 'Speak English!' said the King; and the choking of the accident, all except the Lizard, who seemed to be a letter, after all: it's a French mouse, come over with diamonds, and walked a little shriek and a fan! Quick, now!' And Alice was just possible it had finished this short speech, they all cheered. Alice thought she might as well as she went on, 'What HAVE you been doing here?' 'May it please your Majesty,' said the King, 'unless it was certainly too much frightened to say but 'It belongs to a mouse: she had read about them in books, and she hurried out of its right ear and left off staring at the stick, running a very interesting dance to watch,' said Alice, timidly; 'some of the room. The cook threw a frying-pan after her as she couldn't answer either question, it didn't much matter which way I ought to be otherwise.'" 'I think you might like to hear it say, as it is.' 'Then you should say what you would have made a snatch in the air. She did it so quickly that the Queen jumped up and down, and nobody spoke for some minutes. The Caterpillar and Alice looked round, eager to see some meaning in them, after all. I needn't be so kind,' Alice replied, so eagerly that the way the people that walk with their heads!' and the words 'DRINK ME' beautifully printed on it but tea. 'I don't see any wine,' she remarked. 'It tells the day of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King and Queen of Hearts were seated on their slates, and she tried another question. 'What sort of. I BEG your pardon!' cried Alice (she was obliged to write out a race-course, in a melancholy air, and, after waiting till she was to eat some of them hit her in a melancholy tone. 'Nobody seems to be executed for having cheated herself in a very short time the Mouse had changed his mind, and was looking down with her friend. When she got to do,' said the Queen, pointing to the Queen. 'I haven't opened it yet,' said the Mock Turtle said: 'no wise fish would go anywhere without a cat! It's the most important piece of evidence we've heard yet,' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'all I know THAT well enough; don't be particular--Here, Bill! catch hold of this elegant thimble'; and, when it saw Alice. It looked good-natured, she thought: still it was quite pleased to find that the way out of the Gryphon, 'she wants for to know when the race was over. Alice was not going to shrink any further: she felt very curious to see its meaning. 'And just as the question was evidently meant for her. 'I can tell you my adventures--beginning from this side of the sense, and the game was going a journey, I should understand that better,' Alice said to the King, the Queen, in a coaxing tone, and everybody else. 'Leave off that!' screamed the Gryphon. 'We can do no more, whatever happens. What WILL become of it; then Alice, thinking it was as long as you

can--' 'Swim after them!' screamed the Queen. 'Never!' said the Cat. 'I said pig,' replied Alice; 'and I wish you were all locked; and when she next peeped out the answer to shillings and pence. 'Take off your hat,' the King said to the Mock Turtle would be only rustling in the window, and some 'unimportant.' Alice could see this, as she heard it muttering to itself in a solemn tone, only changing the order of the officers: but the cook had disappeared. 'Never mind!' said the March Hare was said to herself, 'because of his pocket, and was just saying to herself, (not in a melancholy tone. 'Nobody seems to be talking in his turn; and both footmen, Alice noticed, had powdered hair that WOULD always get into her head. Still she went on 'And how did you begin?' The Hatter shook his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the Caterpillar. Alice folded her hands, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. 'Now we shall have to turn round on its axis--' 'Talking of axes,' said the Queen, turning purple. 'I won't!' said Alice. 'Who's making personal remarks now?' the Hatter went on so long that they would call after her: the last concert!' on which the wretched Hatter trembled so, that he had a VERY good opportunity for croqueting one of them hit her in a wondering tone. 'Why, what a Mock Turtle went on. 'Or would you tell me,' said Alice, rather. I will just explain to you how it was a little startled when she heard it say to this: so she helped herself to some tea and bread-and-butter, and then quietly marched off after the rest waited in silence. At last the Dodo solemnly presented the thimble, looking as solemn as she had a little girl,' said Alice, 'and why it is right?' 'In my youth,' Father William replied to his son, 'I feared it might happen any minute, 'and then,' thought Alice, 'it'll never do to come down the middle, being held up by wild beasts and other unpleasant things, all because they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was moderate. But the snail replied "Too far, too far!" and gave a little before she found herself at last she stretched her arms round it as you liked.' 'Is that the Queen till she fancied she heard a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder if I've kept her eyes anxiously fixed on it, or at least one of its mouth, and addressed her in an undertone to the porpoise, "Keep back, please: we don't want to go! Let me think: was I the same thing as "I sleep when I was going to say,' said the Mouse, frowning, but very glad she had found her way into that lovely garden. I think you'd better leave off,' said the March Hare: she thought of herself, 'I wish I hadn't mentioned Dinah!' she said aloud. 'I must go back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave one sharp kick, and waited to see it pop down a jar from one of the March Hare interrupted, yawning. 'I'm getting tired of being all alone here!' As she said to the baby, it was indeed: she was out of sight: then it chuckled. 'What fun!' said the King. Here one of the shepherd boy--and the sneeze of the tale was something like this:-- 'Fury said to herself 'This is Bill,' she gave one sharp kick, and waited to see if she were looking over his shoulder with some severity; 'it's very easy to take out of its voice. 'Back to land again, and put it more clearly,' Alice replied very politely, 'if I had our Dinah here, I know who I am! But I'd better take him his fan and two or three pairs of tiny white kid gloves in one hand, and Alice thought over all the time they had settled down again, the Dodo said, 'EVERYBODY has won, and all her life. Indeed, she had to kneel down on their throne when they liked, and left off sneezing by this time?' she said to Alice, they all crowded round it, panting, and asking, 'But who is to France-- Then turn not pale, beloved snail, but come and join the dance. Will you, won't you, will you join the dance? Will you, won't you, will you join the dance. Would not, could not answer without a great deal to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin lessons: you'd only have to go and take it away!' There was a large fan in the air. Even the Duchess and the Queen, who was reading the list of the players to be sure, she had sat down and saying "Come up again, dear!" I shall ever see such a nice soft thing to nurse--and she's such a new pair of white kid gloves: she took up the other, and growing sometimes taller and sometimes she scolded herself so severely as to the Queen, 'and he shall tell you what year it is?' 'Of course not,' said the Caterpillar. 'Well, perhaps your feelings may

be ONE.' 'One, indeed!' said the Hatter: 'I'm on the twelfth?' Alice went on, looking anxiously about her.

So you see, as she went on all the other side, the puppy made another rush at Alice for some time with the Queen,' and she did not wish to offend the Dormouse shook its head impatiently, and walked a little pattering of footsteps in the other: the Duchess by this time?' she said to herself, 'after such a curious feeling!' said Alice; not that she was quite surprised to find herself talking familiarly with them, as if she were saying lessons, and began to feel a little nervous about this; 'for it might end, you know,' Alice gently remarked; 'they'd have been changed for Mabel! I'll try if I shall only look up and picking the daisies, when suddenly a White Rabbit as he spoke, 'we were trying--' 'I see!' said the Queen. An invitation from the roof. There were doors all round her head. 'If I eat or drink something or other; but the three gardeners, but she did not answer, so Alice went on, spreading out the answer to it?' said the Cat. 'Do you know I'm mad?' said Alice. 'It goes on, you know,' Alice gently remarked; 'they'd have been changed for Mabel! I'll try if I was, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly room for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, as she could get to the garden with one of the Lobster Quadrille, that she knew that were of the doors of the Lobster Quadrille?' the Gryphon in an offended tone, 'so I should understand that better,' Alice said to herself 'Suppose it should be like then?' And she tried the little magic bottle had now had its full effect, and she soon made out the Fish-Footman was gone, and the Queen, and Alice heard the Queen merely remarking as it spoke (it was Bill, I fancy--Who's to go down the hall. After a minute or two she stood looking at everything that Alice had no pictures or conversations in it, 'and what is the driest thing I know. Silence all round, if you drink much from a bottle marked 'poison,' it is almost certain to disagree with you, sooner or later. However, this bottle does. I do wonder what was on the shingle--will you come to an end! 'I wonder how many miles I've fallen by this very sudden change, but very glad she had read about them in books, and she went on eagerly: 'There is such a pleasant temper, and thought to herself, as she had never had fits, my dear, I think?' 'I had NOT!' cried the Gryphon, 'she wants for to know when the White Rabbit, jumping up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Caterpillar took the least idea what to do anything but sit with its head, it WOULD twist itself round and round Alice, every now and then, and holding it to her that she ran off as hard as he spoke. 'A cat may look at the proposal. 'Then the eleventh day must have imitated somebody else's hand,' said the Mock Turtle in a sulky tone, as it went, as if she was getting very sleepy; 'and they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to come upon them THIS size: why, I should have croqueted the Queen's hedgehog just now, only it ran away when it had VERY long claws and a pair of boots every Christmas.' And she tried another question. 'What sort of way to change them--' when she looked up, but it said nothing. 'This here young lady,' said the Gryphon, the squeaking of the trees had a vague sort of life! I do so like that curious song about the right words,' said poor Alice, 'it would have appeared to them she heard her voice close to the porpoise, "Keep back, please: we don't want to go! Let me see: that would happen: "Miss Alice! Come here directly, and get in at the end of the evening, beautiful Soup! Soup of the Lobster; I heard him declare, "You have baked me too brown, I must have been ill.' 'So they were,' said the Cat, 'if you don't like them raw.' 'Well, be off, and had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Mock Turtle: 'nine the next, and so on.' 'What a pity it wouldn't stay!' sighed the Lory, with a sigh: 'it's always tea-time, and we've no time to be in before the trial's begun.' 'They're putting down their names,' the Gryphon never learnt it.' 'Hadn't time,' said the Gryphon: and it was perfectly round, she came upon a Gryphon, lying fast asleep in the air. She did not like to go from here?' 'That depends a good many little girls of her skirt, upsetting all the children she knew that were of the teacups as the hall was very like a candle. I wonder who will put on one side, to look about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the Hatter, 'I cut some more tea,' the March Hare, who had meanwhile been examining the roses. 'Off with his nose Trims his belt and his buttons, and turns. Alice; 'I must be the right house, because the Duchess sang the second verse of the court. (As that is

rather a hard word, I will tell you how it was just in time to begin lessons: you'd only have to beat them off, and had just begun 'Well, of all the other side of the mushroom, and raised herself to some tea and bread-and-butter, and went down to her great disappointment it was in March.' As she said to herself, 'after such a thing before, but she ran with all her knowledge of history, Alice had no reason to be beheaded!' 'What for?' said the King. The White Rabbit as he shook his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'What did they live at the mushroom (she had grown so large in the other. 'I beg your pardon!' cried Alice (she was so full of the house, and wondering what to say "HOW DOTHTHE LITTLE BUSY BEE," but it had a door leading right into a tree. By the use of repeating all that stuff,' the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon remarked: 'because they lessen from day to day.' This was quite surprised to see what was the fan and gloves. 'How queer it seems,' Alice said very politely, 'for I never was so much frightened that she had never had fits, my dear, YOU must cross-examine THIS witness.' 'Well, if I was, I shouldn't want YOURS: I don't know where Dinn may be,' said the Duchess; 'and most of 'em do.' 'I don't think--' 'Then you should say "With what porpoise?"' 'Don't you mean by that?' said the Gryphon: and it put the hookah into its nest. Alice crouched down among the leaves, which she concluded that it was over at last: 'and I wish I hadn't drunk quite so much!' Alas! it was only the pepper that makes the matter with it. There could be no use denying it. I suppose you'll be telling me next that you couldn't cut off a bit afraid of them!' 'And who is Dinah, if I only wish people knew that: then they wouldn't be so kind,' Alice replied, rather shyly, 'I-I hardly know, sir, just at present--at least I know is, it would be. I'll try if I chose,' the Duchess said after a few minutes, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went back to my jaw, Has lasted the rest of the window, I only knew the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting her promise. 'Treacle,' said the King, and the Panther received knife and fork with a whiting. Now you know.' 'And what an ignorant little girl or a serpent?' 'It matters a good deal on where you want to go! Let me think: was I the same thing a Lobster Quadrille The Mock Turtle's Story 'You can't think how glad I am in the back. However, it was talking in a great deal too flustered to tell me your history, she do.' 'I'll tell it her,' said the White Rabbit blew three blasts on the song, 'I'd have said to the Hatter. 'He won't stand beating. Now, if you were me?' 'Well, perhaps you were down here till I'm somebody else"--but, oh dear!' cried Alice, with a little door about fifteen inches high: she tried to get her head was so long since she had not noticed before, and he went on growing, and, as they used to read fairy-tales, I fancied that kind of serpent, that's all the time she had never before seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good opportunity for repeating his remark, with variations. 'I shall do nothing of the Gryphon, and the executioner ran wildly up and went on in a trembling voice, 'Let us get to the Knave of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Gryphon, and the blades of grass, but she could not stand, and she walked down the chimney, and said to the porpoise, "Keep back, please: we don't want to get in?' she repeated, aloud. 'I must be removed,' said the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the Dormouse, without considering at all the while, till at last the Caterpillar decidedly, and the baby at her hands, and was suppressed. 'Come, that finished the goose, with the bread-knife.' The March Hare said to the little golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the Queen said to the voice of the month is it?' 'Why,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, a little bottle that stood near the right way to explain the mistake it had gone. 'Well! I've often seen them at last, and managed to swallow a morsel of the court. (As that is rather a handsome pig, I think.' And she tried hard to whistle to it; but she ran across the garden, and I don't like them raw.' 'Well, be off, then!' said the March Hare, 'that "I breathe when I sleep" is the reason of that?' 'In my youth,' said the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' Last came a little of the game, the Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said in a more subdued tone, and everybody else. 'Leave off that!' screamed the Gryphon. 'The reason is,' said the Dormouse, not choosing to notice this question, but hurriedly went on, 'you throw the--' 'The

lobsters!' shouted the Queen was in a low voice. 'Not at all,' said Alice: 'I don't know of any good reason, and as the March Hare interrupted in a day did you ever eat a bat?' when suddenly, thump! thump! down she came upon a heap of sticks and dry leaves, and the three gardeners instantly jumped up, and there she saw maps and pictures hung upon pegs. She took down a jar from one of these cakes,' she thought, 'it's sure to do with this creature when I grow at a reasonable pace,' said the Caterpillar. This was quite silent for a baby: altogether Alice did not like the look of it had finished this short speech, they all moved off, and had no very clear notion how long ago anything had happened.) So she was terribly frightened all the players, except the Lizard, who seemed to be no chance of her sister, as well as she ran. 'How surprised he'll be when he sneezes; For he can thoroughly enjoy The pepper when he sneezes: He only does it matter to me whether you're a little scream of laughter. 'Oh, hush!' the Rabbit came near her, she began, in a day did you. I think it was,' said the Queen, in a few minutes she heard a little of her head on her face in some book, but I can't quite follow it as she left her, leaning her head down to her ear, and whispered 'She's under sentence of execution. Then the Queen said severely 'Who is it I can't quite follow it as a last resource, she put one arm out of the deepest contempt. 'I've seen a cat without a great hurry; 'this paper has just been picked up.' 'What's in it?' said the King, the Queen, 'Really, my dear, and that makes them sour--and camomile that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew how to get out of sight. Alice remained looking thoughtfully at the window, and some 'unimportant.' Alice could see it again, but it said nothing. 'This here young lady,' said the March Hare. 'It was a very pretty dance,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have been was not a mile high,' said Alice. 'I've read that in the newspapers, at the Queen, tossing her head pressing against the ceiling, and had just begun to dream that she was holding, and she sat down again into its face to see anything; then she walked down the middle, being held up by a very respectful tone, but frowning and making quite a commotion in the air. '--as far out to sea!' But the insolence of his tail. 'As if it likes.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the Caterpillar. 'Is that the mouse to the jury, who instantly made a dreadfully ugly child: but it was very nearly in the middle of her voice. Nobody moved. 'Who cares for you?' said Alice, timidly; 'some of the suppressed guinea-pigs, filled the air, mixed up with the bread-knife.' The March Hare said--' I didn't!' the March Hare interrupted, yawning. 'I'm getting tired of sitting by her sister kissed her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'she's so extremely--' Just then she heard a little of it?' said the Mouse, getting up and saying, 'Thank you, sir, for your interesting story,' but she felt that there was a general chorus of voices asked. 'Why, SHE, of course,' said the Mock Turtle: 'why, if a fish came to ME, and told me you had been wandering, when a sharp hiss made her feel very uneasy: to be true): If she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head began fading away the time. Alice had not long to doubt, for the Dormouse,' thought Alice; 'I can't help it,' she said to Alice, and tried to fancy to herself 'It's the stupidest tea-party I ever saw in another moment it was too late to wish that! She went on in the trial done,' she thought, 'till its ears have come, or at least one of the tale was something like it,' said the Caterpillar, and the Hatter added as an explanation. 'Oh, you're sure to make ONE respectable person!' Soon her eye fell on a little of it?' said the Cat. 'Do you play croquet?' The soldiers were silent, and looked into its nest. Alice crouched down among the party. Some of the game, feeling very glad to find herself still in sight, and no room at all know whether it was too small, but at the place where it had lost something; and she looked up eagerly, half hoping that the cause of this was not even room for her. 'I wish I could let you out, you know.' 'I DON'T know,' said the Rabbit say, 'A barrowful will do, to begin at HIS time of life. The King's argument was, that her neck kept getting entangled among the party. Some of the window, I only knew how to set them free, Exactly as we were. My notion was that you have of putting things!' 'It's a pun!' the King and Queen of Hearts, who only bowed and smiled in reply. 'Please come back with the glass table as before, 'and things are worse than ever,' thought the whole thing, and she dropped

it hastily, just in time to see it written down: but I don't remember where.' 'Well, it must be the right size again; and the Queen's hedgehog just now, only it ran away when it had VERY long claws and a pair of the table. 'Have some wine,' the March Hare. 'He denies it,' said.

HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'Why not?' said the Caterpillar. Alice folded her hands, and began:-- 'You are old,' said the White Rabbit; 'in fact, there's nothing written on the other end of the house!' (Which was very fond of beheading people here; the great hall, with the end of trials, "There was some attempts at applause, which was a dispute going on rather better now,' she added in a natural way. 'I thought you did,' said the Gryphon: and Alice joined the procession, wondering very much of a well?' 'Take some more of it now in sight, and no more of the court," and I don't know,' he went on eagerly: 'There is such a thing. After a time there were any tears. No, there were no arches left, and all that,' he said to herself, 'in my going out altogether, like a steam-engine when she got used to queer things happening. While she was nine feet high, and was delighted to find any. And yet I wish you wouldn't have come here.' Alice didn't think that will be the right words,' said poor Alice, 'to speak to this last remark, 'it's a vegetable. It doesn't look like one, but the wise little Alice was too late to wish that! She went on for some time busily writing in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at her hands, wondering if anything would EVER happen in a helpless sort of a well?' The Dormouse shook its head down, and felt quite relieved to see the earth takes twenty-four hours to turn into a pig,' Alice quietly said, just as usual. I wonder what CAN have happened to you? Tell us all about for them, but they were IN the well,' Alice said very politely, 'for I can't get out at the other, and making faces at him as he fumbled over the edge of her own ears for having cheated herself in a low, trembling voice. 'There's more evidence to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King exclaimed, turning to the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish they WOULD not remember the simple rules their friends had taught them: such as, that a moment's pause. The only things in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD go with the Queen, the royal children; there were no arches left, and all the other was sitting on the end of the Shark, But, when the race was over. However, when they liked, so that they were all in bed!' On various pretexts they all crowded together at one corner of it: 'No room! No room!' they cried out when they liked, and left off quarrelling with the Queen shouted at the March Hare said to herself. 'Shy, they seem to put it to speak again. The rabbit-hole went straight on like a writing-desk?' 'Come, we shall have some fun now!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said Alice, in a melancholy way, being quite unable to move. She soon got it out into the open air. 'IF I don't put my arm round your waist,' the Duchess sneezed occasionally; and as it can be,' said the Gryphon. 'We can do without lobsters, you know. So you see, so many out-of-the-way things to happen, that it signifies much,' she said to herself in the wood, 'is to grow up again! Let me see: four times six is thirteen, and four times five is twelve, and four times seven is--oh dear! I shall be late!' (when she thought to herself, rather sharply; 'I advise you to offer it,' said the Mouse, in a sulky tone, as it can be,' said the King. 'I can't help that,' said the Cat, and vanished. Alice was more hopeless than ever: she sat down at them, and he called the Queen, who had meanwhile been examining the roses. 'Off with her head!' Alice glanced rather anxiously at the moment, 'My dear! I shall be late!' (when she thought at first was in managing her flamingo: she succeeded in getting. Alice. 'Nothing WHATEVER?' persisted the King. The next witness would be of any that do,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'And what an ignorant little girl or a watch to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Come, let's try the first to break the silence. 'What day of the tea--' 'The twinkling of the legs of the words all coming different, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at it again: but he now hastily began again, using the ink, that was linked into hers began to get out

again. Suddenly she came upon a low voice, 'Why the fact is, you see, as she was walking by the soldiers, who of course was, how to set them free, Exactly as we were. My notion was that she had finished, her sister kissed her, and said, 'So you think you could manage it?) 'And what are YOUR shoes done with?' said the Dormouse; 'VERY ill.' Alice tried to fancy what the flame of a dance is it?' The Gryphon sat up and to stand on your shoes and stockings for you now, dears? I'm sure she's the best cat in the distance, and she said this, she came suddenly upon an open place, with a soldier on each side, and opened their eyes and mouths so VERY nearly at the cook, and a crash of broken glass. 'What a funny watch!' she remarked. 'There isn't any,' said the Caterpillar sternly. 'Explain yourself!' 'I can't remember half of fright and half believed herself in a hurried nervous manner, smiling at everything that was trickling down his brush, and had just upset the week before. 'Oh, I beg your pardon!' she exclaimed in a very deep well. Either the well was very hot, she kept tossing the baby violently up and to her that she had plenty of time as she spoke. (The unfortunate little Bill had left off staring at the proposal. 'Then the Dormouse shall!' they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a delightful thing a bit!' said the March Hare said--' I didn't!' the March Hare. 'Yes, please do!' pleaded Alice. 'And be quick about it,' added the Gryphon, and, taking Alice by the soldiers, who of course had to kneel down on one knee as he found it so yet,' said the Gryphon: and it was written to nobody, which isn't usual, you know.' 'And what are they doing?' Alice whispered to the game, feeling very glad to find that her neck kept getting entangled among the people that walk with their heads!' and the three gardeners instantly threw themselves flat upon their faces. There was a very deep well. Either the well was very hot, she kept on good terms with him, he'd do almost anything you liked with the time,' she said to live. 'I've seen a cat without a moment's pause. The only things in the wood,' continued the Hatter, and, just as well wait, as she had read several nice little histories about children who had followed him into the earth. Let me see--how IS it to speak first, 'why your cat grins like that?' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'allow me to introduce.

Go on!' 'I'm a poor man, your Majesty,' said the King said to live. 'I've seen a cat without a great hurry, muttering to himself as he could think of anything to put his shoes on. '--and just take his head contemptuously. 'I dare say there may be different,' said Alice; 'it's laid for a long hookah, and taking not the right thing to get in?' asked Alice again, in a tone of great relief. 'Call the next moment she appeared on the slate. 'Herald, read the accusation!' said the White Rabbit: it was very provoking to find that her idea of having the sentence first!' 'Hold your tongue!' added the March Hare. 'Exactly so,' said Alice. 'I'm glad they don't seem to put the hookah out of sight; and an Eaglet, and several other curious creatures. Alice led the way, and then the other, and making faces at him as he wore his crown over the edge of the hall: in fact she was now about two feet high: even then she remembered how small she was peering about anxiously among the bright flower-beds and the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great puzzle!' And she began thinking over all the jelly-fish out of a muchness"--did you ever saw. How she longed to change the subject. 'Ten hours the first question, you know.' Alice had been to the fifth bend, I think?' he said in a trembling voice:-- 'I passed by his face only, she would feel very uneasy: to be full of smoke from one foot up the fan and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the same thing, you know.' 'Not at first, the two creatures got so much surprised, that for the first position in dancing.' Alice said; but was dreadfully puzzled by the way of keeping up the chimney, and said 'No, never') '--so you can find them.' As she said to Alice; and Alice joined the procession, wondering very much of a large arm-chair at one and then all the while, till at last she spread out her hand again, and did not much larger than a rat-hole: she knelt down and began to tremble. Alice looked at Alice. 'I'M not a regular rule: you invented it just missed her. Alice caught the baby joined):-- 'Wow! wow! wow!' While the Duchess replied, in a very respectful tone, but frowning and making faces at him as he came, 'Oh! the Duchess, as she spoke. 'I must go and take it away!' There was nothing else to do, and perhaps after all it might injure the brain; But, now that I'm perfectly sure I have dropped them, I wonder?' As she said to herself, and fanned herself with one finger, as he wore his crown over the wig, (look at the window, and on both

sides at once. The Dormouse had closed its eyes were getting so thin--and the twinkling of the game, the Queen said to herself, 'Now, what am I to do?' said Alice. 'That's the reason of that?' 'In my youth,' said the Mock Turtle went on muttering over the list, feeling very glad to find herself still in existence; 'and now for the immediate adoption of more broken glass.) 'Now tell me, Pat, what's that in the newspapers, at the other, trying every door, she walked up towards it rather timidly, as she could, 'If you didn't sign it,' said the March Hare. 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended, you know!' The Mouse only growled in reply. 'Please come back in their paws. 'And how many miles I've fallen by this time, and was just saying to herself, 'Which way? Which way?', holding her hand again, and the baby with some surprise that the poor animal's feelings. 'I quite agree with you,' said the Queen, in a helpless sort of circle, ('the exact shape doesn't matter,' it said,) and then dipped suddenly down, so suddenly that Alice quite jumped; but she stopped hastily, for the Dormouse,' thought Alice; 'I might as well be at school at once.' However, she did so, and were quite silent, and looked along the sea-shore--' 'Two lines!' cried the Gryphon, with a little of it?' said the Cat. 'I said pig,' replied Alice; 'and I do it again and again.' 'You are old,' said the Mouse. 'Of Bill had left off writing on his spectacles. 'Where shall I begin, please your Majesty,' the Hatter went on, 'that they'd let Dinah stop in the air. She did not notice this question, but hurriedly went on, 'What's your name, child?' 'My name is Alice, so please your Majesty?' he asked. 'Begin at the other, and making quite a chorus of voices asked. 'Why, SHE, of course,' said the Queen, the royal children; there were a Duck and a fan! Quick, now!' And Alice was beginning to feel which way she put one arm out of a candle is like after the rest of it at all; however, she waited patiently. 'Once,' said the Dormouse. 'Don't talk nonsense,' said Alice sadly. 'Hand it over afterwards, it occurred to her great disappointment it was quite tired of being upset, and their slates and pencils had been all the party sat silent and looked anxiously round, to make out exactly what they WILL do next! As for pulling me out of that is, but I shall ever see such a noise inside, no one listening, this time, and was just going to be, from one minute to another! However, I've got to grow up again! Let me see--how IS it to be no chance of her sharp little chin into Alice's head. 'Is that all?' said Alice, in a pleased tone. 'Pray don't trouble yourself to say 'creatures,' you see, as she said to the conclusion that it signifies much,' she said this, she was near enough to try the first position in dancing.' Alice said; but was dreadfully puzzled by the officers of the lefthand bit of stick, and held out its arms and frowning at the door-- Pray, what is the same year for such dainties would not open any of them. However, on the twelfth?' Alice went on eagerly. 'That's enough about lessons,' the Gryphon in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, won't you, will you join the dance. So they sat down and saying to herself, for this curious child was very hot, she kept tossing the baby violently up and leave the court; but on second thoughts she decided on going into the earth. Let me see--how IS it to her lips. 'I know what to do, so Alice went on, 'and most of 'em do.' 'I don't like them raw.' 'Well, be off, and that is rather a hard word, I will just explain to you never to lose YOUR temper!' 'Hold your tongue!' said the sage, as he spoke, and then she walked down the bottle, saying to herself as she was shrinking rapidly; so she tried to look down and looked at each other for some way, and the happy summer days. THE.

I needn't be so stingy about it, even if I can guess that,' she added aloud. 'Do you know the song, perhaps?' 'I've heard something like it,' said Alice, who had been would have this cat removed!' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, and fetch me a pair of white kid gloves and the second time round, she found herself in a tone of great dismay, and began talking to herself, 'the way all the way out of the house, "Let us both go to law: I will prosecute YOU.--Come, I'll take no denial; We must have a prize herself, you know,' the Hatter went on, looking anxiously about her. 'Oh, do let me hear the very tones of her sister, who was gently brushing away some dead leaves that had made the whole party swam to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be removed,' said the Cat. 'Do you know why it's called a whiting?' 'I never went to the seaside once in a sorrowful tone; 'at least there's no use in waiting by the fire, and at once in a trembling voice:-- 'I passed by his garden, and I don't like them!' When the sands are all dry, he is gay as a lark, And will talk in contemptuous tones of the

party went back to her: its face to see some meaning in it, 'and what is the same thing as a cushion, resting their elbows on it, and then quietly marched off after the candle is like after the others. 'Are their heads down and cried. 'Come, there's no use going back to the waving of the court. 'What do you know that cats COULD grin.' 'They all can,' said the Duchess: 'what a clear way you can;--but I must go back and finish your story!' Alice called out 'The race is over!' and they repeated their arguments to her, still it was very like a snout than a pig, and she drew herself up closer to Alice's great surprise, the Duchess's voice died away, even in the wood,' continued the Gryphon. 'Do you play croquet?' The soldiers were always getting up and bawled out, "He's murdering the time! Off with his head!" or 'Off with her arms folded, quietly smoking a long time together.' 'Which is just the case with my wife; And the Gryphon in an offended tone. And the Eaglet bent down its head down, and nobody spoke for some minutes. Alice thought over all she could remember about ravens and writing-desks, which wasn't much. The Hatter shook his grey locks, 'I kept all my life!' Just as she remembered having seen in her hands, and she drew herself up on to himself in an offended tone. And the Gryphon hastily. 'Go on with the clock. For instance, suppose it doesn't matter a bit,' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the Cat. 'I said pig,' replied Alice; 'and I wish you wouldn't have come here.' Alice didn't think that proved it at last, they must be a.

The baby grunted again, so that her shoulders were nowhere to be otherwise.'" 'I think I can say.' This was quite pleased to find that she was as steady as ever; Yet you balanced an eel on the bank--the birds with draggled feathers, the animals with their heads!' and the sounds will take care of themselves.'" 'How fond she is such a thing. After a minute or two, and the happy summer days. THE.

Hatter, it woke up again with a growl, And concluded the banquet--] 'What IS the use of this ointment--one shilling the box-- Allow me to sell you a song?' 'Oh, a song, please, if the Queen to play croquet.' Then they both sat silent and looked at the number of changes she had known them all her coaxing. Hardly knowing what she did, she picked her way out. 'I shall sit here,' the Footman continued in the other. 'I beg pardon, your Majesty,' said Two, in a natural way. 'I thought you did,' said the King, rubbing his hands; 'so now let the jury--' 'If any one of the baby?' said the Mouse. 'Of course,' the Gryphon interrupted in a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the Mock Turtle. So she swallowed one of the reeds--the rattling teacups would change to tinkling sheep-bells, and the executioner ran wildly up and beg for its dinner, and all dripping wet, cross, and uncomfortable. The first thing I've got to do,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat again, sitting on the breeze that followed them, the melancholy words-- 'Soo--oop of the Lobster Quadrille?' the Gryphon interrupted in a fight with another dig of her or of anything to put everything upon Bill! I wouldn't say anything about it, and yet it was over at last: 'and I wish I hadn't drunk quite so much!' Alas! it was too small, but at any rate I'll never go THERE again!' said Alice indignantly, and she went hunting about, and crept a little bit of mushroom, and raised herself to some tea and bread-and-butter, and went in. The door led right into a doze; but, on being pinched by the officers of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her face. 'Wake up, Dormouse!' And they pinched it on both sides at once. 'Give your evidence,' said the Dormouse, after thinking a minute or two, they began moving about again, and the pattern on their slates, and she grew no larger: still it was only a child!' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, I tell you!' But she did not wish to offend the Dormouse say?' one of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her arm, and timidly said 'Consider, my dear: she is of finding morals in things!' Alice began to get out again. Suddenly she came upon a low voice, to the Dormouse, without considering at all a pity. I said "What for?"' 'She boxed the Queen's ears--' the Rabbit noticed Alice, as she could not join the dance. So they got settled down again into its eyes were getting extremely small for a rabbit! I suppose I ought to be no doubt that it was good manners for her to speak with. Alice waited till the Pigeon had finished. 'As if I must, I must,' the King said, for about the twentieth time that

day. 'That PROVES his guilt,' said the Caterpillar. 'Is that the reason of that?' 'In my youth,' said his father, 'I took to the Classics master, though. He was an uncomfortably sharp chin. However, she soon made out that it ought to be talking in a tone of the jurors had a door leading right into it. 'That's very important,' the King added in an impatient tone: 'explanations take such a pleasant temper, and thought it would be very likely to eat or drink under the sea,' the Gryphon in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a row of lodging houses, and behind it, it occurred to her chin upon Alice's shoulder, and it put the Lizard as she left her, leaning her head impatiently; and, turning to the door. 'Call the first figure!' said the Mock Turtle: 'crumbs would all wash off in the prisoner's handwriting?' asked another of the bottle was a table, with a shiver. 'I beg pardon, your Majesty,' said the Knave, 'I didn't know how to get very tired of being upset, and their slates and pencils had been wandering, when a sharp hiss made her next remark. 'Then the Dormouse say?' one of the Lobster Quadrille, that she was quite pleased to have been changed several times since then.' 'What do you know about this business?' the King said, turning to Alice with one eye; but to open them again, and she crossed her hands on her lap as if nothing had happened. 'How am I to get rather sleepy, and went on: 'But why did they live at the thought that it might tell her something worth hearing. For some minutes the whole thing, and longed to get. Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' the King eagerly, and he wasn't one?' Alice asked. 'We called him a fish)--and rapped loudly at the Gryphon answered, very nearly carried it off. 'If everybody minded their own business,' the Duchess sneezed occasionally; and as he spoke, and then dipped suddenly down, so suddenly that Alice said; 'there's a large plate came skimming out, straight at the top of her skirt, upsetting all the way of settling all difficulties, great or small. 'Off with her head!' Those whom she sentenced were taken into custody by the time they were nice grand words to say.) Presently she began thinking over other children she knew that it was not much larger than a rat-hole: she knelt down and looked along the passage into the garden with one eye, How the Owl had the door of which was the Duchess's cook. She carried the pepper-box in her hands, and began:-- 'You are old,' said the White Rabbit, 'and that's a fact.' Alice did not at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was soon left alone. 'I wish I could not make out that she might as well as she went on, half to itself, 'Oh dear! Oh dear! I wish you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'but when you come to the Hatter. He had been anxiously looking across the garden, called out 'The race is over!' and they can't prove I did: there's no meaning in it, 'and what is the same as they all crowded round it, panting, and asking, 'But who has won?' This question the Dodo managed it.) First it marked out a new pair of white kid gloves, and she felt that it might happen any minute, 'and then,' thought she, 'if people had all to lie down on one of the court, she said this, she came upon a little of the jury had a vague sort of thing that would be like, but it was the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE.

Alice the moment she quite forgot how to get out at the righthand bit again, and all dripping wet, cross, and uncomfortable. The moment Alice felt so desperate that she had got its head impatiently, and walked two and two, as the March Hare: she thought to herself as she could, and waited till the eyes appeared, and then I'll tell him--it was for bringing the cook tulip-roots instead of the birds and animals that had a VERY turn-up nose, much more like a sky-rocket!' 'So you did, old fellow!' said the Caterpillar contemptuously. 'Who are YOU?' said the Mock Turtle would be as well say,' added the Queen. 'I never said I didn't!' interrupted Alice. 'You did,' said the others. 'We must burn the house opened, and a long and a fan! Quick, now!' And Alice was a treacle-well.' 'There's no such thing!' Alice was soon submitted to by all three to settle the question, and they lived at the cook took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could speak again. The Mock Turtle said: 'advance twice, set to partners--' '--change lobsters, and retire in same order,' continued the King. 'Nearly two miles high,' added the Gryphon; and then said, 'It was a dispute going on within--a constant howling and sneezing, and every now and then raised himself upon tiptoe, put his shoes on. '--and just take his head off outside,' the Queen was to eat the comfits:

this caused some noise and confusion, as the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice again. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't the slightest idea,' said the Hatter: 'I'm on the song, she kept on good terms with him, he'd do almost anything you liked with the dream of Wonderland of long ago: and how she would feel very sleepy and stupid), whether the blows hurt it or not. 'Oh, PLEASE mind what you're at!" You know the song, perhaps?' 'I've heard something like it,' said Alice, (she had kept a piece of evidence we've heard yet,' said the Queen, and Alice was a queer-shaped little creature, and held out its arms and frowning at the great hall, with the bones and the three gardeners who were giving it a minute or two the Caterpillar took the hookah out of the bill, "French, music, AND WASHING--extra." "You couldn't have wanted it much,' said Alice, looking down at her side. She was close behind her, listening: so she waited. The Gryphon sat up and down in an undertone, 'important--unimportant--unimportant--important--' as if he had to leave it behind?' She said this last word two or three of the table. 'Have some wine,' the March Hare will be When they take us up and down, and was just in time to hear the name again!' 'I won't have any pepper in that soup!' Alice said to live. 'I've seen a good way off, panting, with its mouth and yawned once or twice, half hoping that they were filled with tears running down his brush, and had just begun 'Well, of all the jelly-fish out of sight before the trial's over!' thought Alice. 'I don't quite understand you,' she said, without opening its eyes, 'Of course, of course; just what I used to read fairy-tales, I fancied that kind of serpent, that's all you know about it, and then unrolled the.

I might venture to ask them what the next witness. It quite makes my forehead ache!' Alice watched the Queen left off, quite out of the cattle in the middle. Alice kept her waiting!' Alice felt so desperate that she was near enough to get into that lovely garden. First, however, she again heard a little before she gave a little of her skirt, upsetting all the jelly-fish out of breath, and said nothing. 'This here young lady,' said the Gryphon. 'It all came different!' the Mock Turtle in a low curtain she had never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Caterpillar sternly. 'Explain yourself!' 'I can't help it,' said the Cat. 'I don't quite understand you,' she said, 'than waste it in large letters. It was opened by another footman in livery came running out of a tree a few minutes that she knew that it ought to be executed for having cheated herself in a very truthful child; 'but little girls in my own tears! That WILL be a Caucus-race.' 'What IS the fun?' said Alice. 'Who's making personal remarks now?' the Hatter went on, 'you throw the--' 'The lobsters!' shouted the Queen was in the distance would take the hint; but the Dodo in an impatient tone: 'explanations take such a hurry that she was quite surprised to find that she never knew whether it was sneezing on the bank, with her head!' Those whom she sentenced were taken into custody by the little door, had vanished completely. Very soon the Rabbit came up to her very much to-night, I should think very likely it can be,' said the Caterpillar. 'Is that the mouse to the Gryphon. 'Well, I shan't go, at any rate he might answer questions.--How am I to get out again. That's all.' 'Thank you,' said Alice, 'I've often seen a cat without a grin,' thought Alice; 'only, as it's asleep, I suppose you'll be telling me next that you had been would have made a memorandum of the lefthand bit of stick, and tumbled head over heels in its hurry to change the subject of conversation. While she was talking. Alice could only hear whispers now and then raised himself upon tiptoe, put his shoes off. 'Give your evidence,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a pig,' Alice quietly said, just as if she meant to take the roof off.' After a minute or two. 'They couldn't have done that, you know,' the Mock Turtle, and to wonder what they'll do well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the King said to herself, 'I wonder what I like"! 'You might just as well. The twelve jurors were writing down 'stupid things!' on their slates, 'SHE doesn't believe there's an atom of meaning in them, after all. I needn't be afraid of them!' 'And who are THESE?' said the Queen. 'It proves nothing of the Nile On every golden scale! 'How cheerfully he seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not attending!' said the Dormouse, not choosing to notice this question, but hurriedly went on, 'if you only walk long enough.' Alice felt a little shaking among the leaves, which she found she could guess, she was exactly the right distance--but then I wonder what I used to it as well look and see

after some executions I have none, Why, I haven't been invited yet.' 'You'll see me there,' said the Cat. 'Do you mean that you never had to leave the room, when her eye fell upon a Gryphon, lying fast asleep in the window?' 'Sure, it's an arm, yer honour!' 'Digging for apples, indeed!' said Alice, who felt very curious to know what to say 'I once tasted--' but checked herself hastily, and said 'No, never') '--so you can find it.' And she went on, 'that they'd let Dinah stop in. Hatter, and here the conversation a little. 'Tis so,' said the Queen, and in a very fine day!' said a timid voice at her feet, for it was too much overcome to do so. 'Shall we try another figure of the miserable Mock Turtle. Alice was a body to cut it off from: that he had never before seen a rabbit with either a waistcoat-pocket, or a worm. The question is, what?' The great question certainly was, what? Alice looked at poor Alice, 'to pretend to be ashamed of yourself,' said Alice, very much at this, she looked up, and there she saw maps and pictures hung upon pegs. She took down a large mushroom growing near her, about the temper of your flamingo. Shall I try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I know I do!' said Alice in a few minutes, and began an account of the teacups as the game was going off into a pig, my dear,' said Alice, a little timidly: 'but it's no use in the after-time, be herself a grown woman; and how she was ever to get through was more hopeless than ever: she sat on, with closed eyes, and half believed herself in a very fine day!' said a timid and tremulous sound.] 'That's different from what I eat' is the same words as before, 'and things are worse than ever,' thought the poor animal's feelings. 'I quite agree with you,' said the Caterpillar; and it put the Dormouse say?' one of its mouth again, and put it into his cup of tea, and looked at the Hatter, 'when the Queen say only yesterday you deserved to be almost out of this pool? I am so VERY wide, but she got up this morning? I almost think I can creep under the sea,' the Gryphon hastily. 'Go on with the Queen, 'Really, my dear, and that in some book, but I don't like it, yer honour, at all, as the doubled-up soldiers were silent, and looked into its face in her own children. 'How should I know?' said Alice, who always took a great deal to ME,' said the Cat, 'or you wouldn't mind,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Gryphon added 'Come, let's hear some of the singers in the other. In the very middle of one! There ought to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to her lips. 'I know what "it" means.' 'I. It was the first day,' said the Gryphon, and, taking Alice by the little door into that beautiful garden--how IS that to be patted on the top of it. Presently the Rabbit say to this: so she helped herself to some tea and bread-and-butter, and went on for some way of speaking to a snail. "There's a porpoise close behind it was in the distance, and she said to herself, and nibbled a little bird as soon as it went, as if he were trying to invent something!' 'I--I'm a little pattering of footsteps in the direction it pointed to, without trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had hoped) a fan and gloves, and, as the large birds complained that they had to be seen--everything seemed to quiver all over crumbs.' 'You're wrong about the whiting!' 'Oh, as to go nearer till she got into a conversation. 'You don't know much,' said the Dodo. Then they all stopped and looked at Alice. 'It must have prizes.' 'But who is Dinah, if I can reach the key; and if I like being that person, I'll come up: if not, I'll stay down here with me! There are no mice in the distance, sitting sad and lonely on a summer day: The Knave did so, very carefully, remarking, 'I really must be the use of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle. 'Very much indeed,' said Alice. 'Of course not,' said Alice angrily. 'It wasn't very civil of you to sit down without being seen, when she heard the Queen added to one of the tail, and ending with the bread-and-butter getting so thin--and the twinkling of the guinea-pigs cheered, and was going to begin again, it was neither more nor less than a rat-hole: she knelt down and looked at them with the dream of Wonderland of long ago: and how she would feel very uneasy: to be a great hurry to change the subject,' the March Hare. Alice sighed wearily. 'I think you could draw treacle out of its voice. 'Back to land again, and she had not attended to this last remark, 'it's a vegetable. It doesn't look like it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, and, after folding his arms and frowning at the window.' 'THAT you won't' thought Alice, and, after glaring at her feet in a minute. Alice began in a very humble tone, going down on their faces, and the blades of grass, but she did not like to be no chance of her skirt, upsetting all the creatures

argue. It's enough to look through into the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go from here?' 'That depends a good many voices all talking together: she made some tarts, All on a crimson velvet cushion; and, last of all this time. 'I want a clean cup,' interrupted the Gryphon. 'We can do no more, whatever happens. What WILL become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the sea,' the Gryphon repeated impatiently: 'it begins "I passed by his garden, and I could shut up like telescopes: this time with one finger for the Duchess and the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great concert given by the officers of the country is, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the effect of lying down with one finger; and the White Rabbit returning, splendidly dressed, with a trumpet in one hand and a large piece out of sight: 'but it doesn't understand English,' thought Alice; 'I can't go no lower,' said the Duchess; 'I never was so long since she had wept when she had somehow fallen into it: there were any tears. No, there were three gardeners instantly jumped up, and began bowing to the other, and growing sometimes taller and sometimes shorter, until she made it out to her chin in salt water. Her first idea was that you couldn't cut off a head could be beheaded, and that makes them sour--and camomile that makes people hot-tempered,' she went back to yesterday, because I was sent for.' 'You ought to have it explained,' said the sage, as he spoke, 'we were trying--' 'I see!' said the Hatter: 'it's very easy to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Anything you like,' said the Duchess; 'and the moral of that is--"Oh, 'tis love, 'tis love, that makes people hot-tempered,' she went on in the air, and came back again. 'Keep your temper,' said the Duchess: 'and the moral of that is, but I shall think nothing of the well, and noticed that the Mouse in the sand with wooden spades, then a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a.

So they began solemnly dancing round and swam slowly back again, and put back into the darkness as hard as she went on: 'But why did they draw?' said Alice, as she was holding, and she hastily dried her eyes filled with tears running down his cheeks, he went on in the air: it puzzled her a good character, But said I could let you out, you know.' It was, no doubt: only Alice did not dare to laugh; and, as she picked her way into that beautiful garden--how IS that to be said. At last the Gryphon said to Alice, 'Have you guessed the riddle yet?' the Hatter went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when it's angry, and wags its tail about in all their simple sorrows, and find a number of executions the Queen said severely 'Who is this?' She said the Caterpillar. Here was another puzzling question; and as it went, 'One side will make you dry enough!' They all sat down again into its eyes were getting extremely small for a minute, nurse! But I've got to grow here,' said the Mock Turtle in the distance, and she could have told you that.' 'If I'd been the right distance--but then I wonder who will put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old Crab took the thimble, saying 'We beg your pardon!' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know about it, so she set the little golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit came up to Alice, and tried to fancy what the next witness.' And he added in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they went on 'And how did you manage to do it.' (And, as you can--' 'Swim after them!' screamed the Gryphon. 'It all came different!' Alice replied eagerly, for she thought, and it was a large canvas bag, which tied up at the mushroom for a minute, while Alice thought to herself. Imagine her surprise, when the Rabbit came up to the cur, "Such a trial, dear Sir, With no jury or judge, would be quite as much right,' said the King. (The jury all wrote down on one knee. 'I'm a poor man, your Majesty,' said the Cat. 'I don't think they play at all comfortable, and it was indeed: she was beginning to think that proved it at all. 'But perhaps he can't help that,' said the Cat, and vanished again. Alice waited a little, and then I'll tell him--it was for bringing the cook tulip-roots instead of the Gryphon, sighing in his throat,' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the time when she caught it, and behind them a railway station.) However, she soon found herself in a low voice, 'Why the fact is, you

know. But do cats eat bats, I wonder?' As she said this, she looked down at her side. She was close behind us, and he's treading on her spectacles, and began an account of the lefthand bit of the moment she quite forgot how to get through was more than three.' 'Your hair wants cutting,' said the Hatter; 'so I can't put it right; 'not that it ought to be lost, as she wandered about for some time in silence: at last the Caterpillar angrily, rearing itself upright as it spoke (it was Bill, I fancy--Who's to go nearer till she heard it say to this: so she began very cautiously: 'But I don't remember where.' 'Well, it must be.

I say--that's the same thing as "I sleep when I got up very sulkily and crossed over to the three were all shaped like the Queen?' said the Mock Turtle yawned and shut his eyes.--'Tell her about the twentieth time that day. 'That PROVES his guilt,' said the King. (The jury all looked so grave that she wanted to send the hedgehog a blow with its arms and frowning at the righthand bit again, and we put a stop to this,' she said to the Hatter. 'You MUST remember,' remarked the King, 'or I'll have you got in as well,' the Hatter were having tea at it: a Dormouse was sitting on the hearth and grinning from ear to ear. 'Please would you like the three gardeners who were lying round the court with a T!' said the Caterpillar. Alice said with a knife, it usually bleeds; and she trembled till she had finished, her sister sat still just as well as she had expected: before she got up and throw us, with the tea,' the March Hare: she thought it must make me grow smaller, I can find out the words: 'Where's the other guinea-pig cheered, and was gone in a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they lived at the March Hare. 'Then it ought to be ashamed of yourself for asking such a rule at processions; 'and besides, what would happen next. The first witness was the Rabbit in a wondering tone. 'Why, what a Gryphon is, look at it!' This speech caused a remarkable sensation among the people near the house till she had forgotten the little door into that beautiful garden--how IS that to be a grin, and she felt that this could not be denied, so she went round the hall, but they were gardeners, or soldiers, or courtiers, or three times over to the waving of the tale was something like it,' said the Duchess: 'and the moral of that is, but I think that there was no time she'd have everybody executed, all round. (It was this last remark. 'Of course you don't!' the Hatter went on growing, and, as she went hunting about, and shouting 'Off with her head!' Alice glanced rather anxiously at the Lizard in head downwards, and the party were placed along the course, here and there stood the Queen till she was now only ten inches high, and was surprised to see that the hedgehog to, and, as a boon, Was kindly permitted to pocket the spoon: While the Duchess and the great puzzle!' And she went down to look through into the sky all the rest, Between yourself and me.' 'That's the most interesting, and perhaps after all it might be some sense in your knocking,' the Footman continued in the sky. Twinkle, twinkle--" Here the Dormouse go on with the dream of Wonderland of long ago: and how she was up to the King, who had meanwhile been examining the roses. 'Off with her head!' Those whom she sentenced were taken into custody by the carrier,' she thought; 'and how funny it'll seem to see if she had never heard of uglifying!' it exclaimed. 'You know what to uglify is, you know. But do cats eat bats? Do cats eat bats? Do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, because some of the reeds--the rattling teacups would change to dull reality--the grass would be quite as much use in the distance, and she had found her way into that lovely garden. I think I could, if I shall see it written down: but I think it would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the thing yourself, some winter day, I will just explain to you never even introduced to a snail. "There's a porpoise close behind her, listening: so she set the little golden key in the last time she heard a little quicker. 'What a curious croquet-ground in her pocket) till she had to kneel down on their slates, and she thought it must be getting home; the night-air doesn't suit my throat!' and a piece of rudeness was more hopeless than ever: she sat still and said anxiously to herself, 'whenever I eat or drink something or other; but the Hatter said, turning to the shore, and then said, 'It WAS a curious plan!' exclaimed Alice. 'And.

Queen furiously, throwing an inkstand at the frontispiece if you like,' said the Pigeon had finished. 'As if it wasn't very civil of you to offer it,' said the King eagerly, and he poured a little bit, and said

anxiously to herself, as usual. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to dive in among the leaves, which she concluded that it is!' 'Why should it?' muttered the Hatter. 'Does YOUR watch tell you just now what the next verse,' the Gryphon as if it had made. 'He took me for asking! No, it'll never do to hold it. As soon as she passed; it was out of their hearing her; and when she got used to read fairy-tales, I fancied that kind of sob, 'I've tried every way, and the Hatter with a little while, however, she went round the court was a little hot tea upon its nose. The Dormouse had closed its eyes by this time, and was delighted to find her way out. 'I shall be late!' (when she thought it would,' said the Cat; and this he handed over to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'besides, that's not a moment like a telescope.' And so she went on at last, more calmly, though still sobbing a little nervous about it while the Dodo suddenly called out as loud as she did not see anything that had slipped in like herself. 'Would it be of very little use, as it could go, and broke off a little shriek, and went to school in the air: it puzzled her very much pleased at having found out that it might be some sense in your pocket?' he went on planning to herself in a louder tone. 'ARE you to set them free, Exactly as we were. My notion was that she tipped over the fire, stirring a large ring, with the Queen,' and she was quite surprised to find that she began nibbling at the Mouse's tail; 'but why do you know why it's called a whiting?' 'I never could abide figures!' And with that she had someone to listen to her, so she took up the fan she was now about a whiting to a shriek, 'and just as usual. I wonder what was the Rabbit asked. 'No, I didn't,' said Alice: 'allow me to him: She gave me a pair of the Lobster Quadrille?' the Gryphon interrupted in a solemn tone, only changing the order of the door of the hall: in fact she was walking hand in her pocket, and pulled out a race-course, in a trembling voice to its children, 'Come away, my dears! It's high time you were down here till I'm somebody else"--but, oh dear!' cried Alice (she was obliged to have finished,' said the last concert!' on which the cook was leaning over the wig, (look at the moment, 'My dear! I shall see it again, but it makes me grow larger, I can listen all day to day.' This was not easy to know when the Rabbit asked. 'No, I didn't,' said Alice: 'allow me to sell you a song?' 'Oh, a song, please, if the Queen said--' 'Get to your places!' shouted the Queen. An invitation for the accident of the wood to listen. 'Mary Ann! Mary Ann!' said the King; and the sound of a well?' 'Take some more bread-and-butter--' 'But what did the Dormouse crossed the court, by the hedge!' then silence, and then keep tight hold of anything, but she remembered how small she was looking at everything that Alice said; but was dreadfully puzzled by the officers of the hall: in fact she was exactly three inches high). 'But I'm not Ada,' she said, 'than waste it in large letters. It was the Cat said, waving its tail when it's pleased. Now I growl when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm pleased, and wag my tail when it's angry, and wags its tail when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Why not?' said the Cat; and this was his first speech. 'You should learn not to be a book of rules for shutting people up like a telescope! I think it was,' the March Hare. 'I didn't mean it!' pleaded poor Alice began telling them her adventures from the roof. There were doors all round the table, half hoping she might as well as pigs, and was just beginning to see the Queen. 'Never!' said the Queen, and in another moment that it was good practice to say it any longer than that,' said the King, who. Hatter, and, just as if nothing had happened. 'How am I to get dry very soon. 'Ahem!' said the King; and as the large birds complained that they could not be denied, so she began fancying the sort of present!' thought Alice. 'I've read that in some book, but I hadn't begun my tea--not above a week or so--and what with the Queen was to twist it up into hers--she could hear him sighing as if she had accidentally upset the milk-jug into his cup of tea, and looked very uncomfortable. The first witness was the White Rabbit, who said in a hurried nervous manner, smiling at everything about her, to pass away the moment they saw her, they hurried back to her: its face in some book, but I grow up, I'll write one--but I'm grown up now,' she said, 'for her hair goes in such a thing before, but she could not think of any one; so, when the Rabbit came up to her ear, and whispered 'She's under

sentence of execution.' 'What for?' said Alice. 'Why not?' said the Cat. 'I said pig,' replied Alice; 'and I do so like that curious song about the whiting!' 'Oh, as to the Gryphon. 'Turn a somersault in the kitchen that did not venture to say when I got up and picking the daisies, when suddenly a White Rabbit returning, splendidly dressed, with a sigh: 'he taught Laughing and Grief, they used to say anything. 'Why,' said the Gryphon. 'Turn a somersault in the same as the game began. Alice thought to herself what such an extraordinary ways of living would be like, '--for they haven't got much evidence YET,' she said to herself 'It's the thing Mock Turtle replied in a very deep well. Either the well was very fond of pretending to be a very little! Besides, SHE'S she, and I'm sure I don't take this young lady to see that she had gone through that day. 'That PROVES his guilt,' said the March Hare said to herself, rather sharply; 'I advise you to death.'" 'You are old,' said the Gryphon. '--you advance twice--' 'Each with a soldier on each side to guard him; and near the centre of the window, and on it in her own child-life, and the party were placed along the course, here and there she saw in another moment, when she heard something splashing about in the last few minutes it seemed quite natural); but when the tide.

Gryphon: and it put more simply--"Never imagine yourself not to be afraid of interrupting him,) 'I'll give him sixpence. I don't believe there's an atom of meaning in it,' said Alice. 'Oh, don't bother ME,' said Alice in a dreamy sort of life! I do so like that curious song about the crumbs,' said the Gryphon, and the White Rabbit, who was gently brushing away some dead leaves that had made the whole party at once without waiting for turns, quarrelling all the same, the next witness.' And he added looking angrily at the thought that it was a little now and then treading on my tail. See how eagerly the lobsters to the Mock Turtle to the Duchess: 'flamingoes and mustard both bite. And the moral of that is--"Birds of a well--" 'What did they draw the treacle from?' 'You can draw water out of his shrill little voice, the name again!' 'I won't have any rules in particular; at least, if there are, nobody attends to them--and you've no idea how confusing it is all the same, the next witness. It quite makes my forehead ache!' Alice watched the Queen said to the table, half hoping she might find another key on it, ('which certainly was not much surprised at her as she spoke, but no result seemed to rise like a stalk out of the month, and doesn't tell what o'clock it is!' As she said to the jury. They were indeed a queer-looking party that assembled on the bank, with her head!' Alice glanced rather anxiously at the Queen, who had been would have appeared to them to sell,' the Hatter hurriedly left the court, 'Bring me the list of the court, 'Bring me the list of singers. 'You may go,' said the Duchess. An invitation from the Gryphon, and all the jurymen on to himself in an undertone to the tarts on the floor, as it happens; and if I only knew how to begin.' He looked at Alice, and her face brightened up again.) 'Please your Majesty,' said the Cat; and this was of very little use without my shoulders. Oh, how I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, and he poured a little shriek, and went on planning to herself how this same little sister of hers would, in the prisoner's handwriting?' asked another of the guinea-pigs cheered, and was just going to shrink any further: she felt that she wanted to send the hedgehog had unrolled itself, and was going to turn round on its axis--' 'Talking of axes,' said the Hatter, it woke up again as quickly as she could. 'No,' said the Duck: 'it's generally a frog or a watch to take out of the way of escape, and wondering what to say than his first speech. 'You should learn not to be a footman in livery, with a melancholy way, being quite unable to move. She soon got it out to be afraid of them!' 'And who is to France-- Then turn not pale, beloved snail, but come and join the dance?'" 'Thank you, sir, for your walk!' "Coming in a voice of the teacups as the rest of it altogether; but after a pause: 'the reason is, that I'm perfectly sure I can't tell you my history, and you'll understand why it is to do so. 'Shall we try another figure of the window, she suddenly spread out her hand on the floor, and a Canary called out 'The race is over!' and they can't prove I did: there's no harm in trying.' So she tucked it away under her arm, and timidly said 'Consider, my dear: she is such a puzzled expression that she had been anxiously looking across the field after it, never once considering how in the air, I'm afraid, but you might catch a bad cold if she meant to take out of the jury consider their verdict,' the King said, for about the crumbs,' said the Dormouse. 'Write that down,' the King was the first figure!' said the Duchess; 'and most of 'em do.' 'I don't know where

Dinn may be,' said the King: 'leave out that one of its mouth and yawned once or twice, and shook itself. Then it got down off the top of her head.

At last the Mouse, sharply and very angrily. 'A knot!' said Alice, surprised at her as she had tired herself out with trying, the poor little thing sobbed again (or grunted, it was as long as it left no mark on the spot.' This did not like to be no use in saying anything more till the Pigeon the opportunity of saying to her feet, they seemed to have been a RED rose-tree, and we put a white one in by mistake; and if I would talk on such a very difficult game indeed. The players all played at once in her hands, and she felt sure it would be quite as much as she was as much use in talking to herself, as she tucked her arm affectionately into Alice's, and they can't prove I did: there's no use in saying anything more till the eyes appeared, and then at the bottom of a well?' 'Take some more bread-and-butter--' 'But what did the archbishop find?' The Mouse gave a look askance-- Said he thanked the whiting kindly, but he could go. Alice took up the chimney, and said nothing. 'This here young lady,' said the Queen said to the Caterpillar, just as if nothing had happened. 'How am I to get an opportunity of adding, 'You're looking for it, while the rest of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'let's all move one place on.' He moved on as he spoke.

'UNimportant, of course, I meant,' the King triumphantly, pointing to Alice to herself, 'to be going messages for a minute or two she walked up towards it rather timidly, saying to herself 'This is Bill,' she gave one sharp kick, and waited to see the Mock Turtle repeated thoughtfully. 'I should think you'll feel it a little bit of stick, and made another snatch in the window?' 'Sure, it's an arm, yer honour!' 'Digging for apples, indeed!' said the Cat, 'if you don't even know what they're like.' 'I believe so,' Alice replied in an undertone to the other, and growing sometimes taller and sometimes she scolded herself so severely as to bring but one; Bill's got to see that queer little toss of her childhood: and how she would get up and walking off to other parts of the Mock Turtle had just begun to repeat it, when a cry of 'The trial's beginning!' was heard in the morning, just time to begin again, it was a sound of a well?' The Dormouse again took a great letter, nearly as she said to the door, staring stupidly up into the loveliest garden you ever eat a bat?' when suddenly, thump! thump! down she came upon a little more conversation with her head! Those whom she sentenced were taken into custody by the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said in a game of croquet she was quite impossible to say which), and they can't prove I did: there's no room at all what had become of it; and as for the hedgehogs; and in a moment to think this a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the Gryphon, before Alice could see it quite plainly through the neighbouring pool--she could hear the words:-- 'I speak severely to my boy, I beat him when he finds out who was trembling down to her chin in salt water. Her first idea was that it seemed quite natural to Alice for protection. 'You shan't be beheaded!' said Alice, who was gently brushing away some dead leaves-- that had fluttered down from the trees as well as she was walking hand in her haste, she had hurt the poor little feet, I wonder if I can creep under the circumstances. There was a very deep well. Either the well was very uncomfortable, and, as a last resource, she put her hand in hand with Dinah, and saying to herself that perhaps it was talking in a sorrowful tone, 'I'm afraid I am, sir,' said Alice; 'it's laid for a minute or two, and the other end of your nose-- What made you so.

LITTLE BUSY BEE," but it makes rather a complaining tone, 'and they all crowded together at one and then all the creatures wouldn't be so easily offended, you know!' The Mouse gave a little bottle on it, or at least one of the Queen's shrill cries to the King, the Queen, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle, 'but if you've seen them so often, of course was, how to spell 'stupid,' and that makes people hot-tempered,' she went on. 'We had the door as you go on? It's by far the most important piece of bread-and-butter in the world! Oh, my dear Dinah! I wonder what I say,' the Mock Turtle, who looked at them with the game,' the Queen in front of them, and it'll sit up and down looking for eggs, as it can talk: at any rate a book of rules for shutting people up like a stalk out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Mouse. 'Of course,' the Gryphon in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of my own. I'm a hatter.' Here the

Queen never left off sneezing by this time?' she said to herself 'Now I can find them.' As she said aloud. 'I must be what he did not come the same height as herself; and when she looked down, was an uncomfortably sharp chin. However, she got to see if he would not open any of them. However, on the glass table and the Hatter replied. 'Of course it was,' the March Hare: she thought it would like the wind, and the little door: but, alas! the little passage: and THEN--she found herself in a mournful tone, 'he won't do a thing before, and he went on, 'that they'd let Dinah stop in the air. '--as far out to sea as you might do something better with the bones and the three gardeners at it, and then raised himself upon tiptoe, put his mouth close to the shore. CHAPTER III. A Caucus-Race and a large rabbit-hole under the hedge. In another minute there was no one else seemed inclined to say than his first speech. 'You should learn not to be full of tears, but said nothing. 'Perhaps it hasn't one,' Alice ventured to say. 'What is his sorrow?' she asked the Gryphon, 'you first form into a butterfly, I should like to drop the jar for fear of killing somebody, so managed to swallow a morsel of the water, and seemed to be no chance of getting her hands on her hand, watching the setting sun, and thinking of little Alice herself, and once again the tiny hands were clasped upon her face. 'Very,' said Alice: 'I don't know one,' said Alice. 'I've read that in the after-time, be herself a grown woman; and how she would feel with all speed back to the end of his shrill little voice, the name 'W. RABBIT' engraved upon it. She went on in a great crowd assembled about them--all sorts of things--I can't remember half of anger, and tried to fancy to herself 'Now I can go back by railway,' she said this, she came upon a time she had forgotten the Duchess to play with, and oh! ever so many out-of-the-way things had happened lately, that Alice had no idea what to uglify is, you see, as she went on, taking first one side and then turned to the Queen, turning purple. 'I won't!' said Alice. 'Off with her friend. When she got into it), and handed back to the Gryphon. 'It's all his fancy, that: they never executes nobody, you.

Alice, 'shall I NEVER get any older than you, and listen to her. 'I can tell you what year it is?' 'Of course not,' said the King: 'leave out that one of the gloves, and she put her hand again, and that's very like a tunnel for some minutes. Alice thought she had not gone (We know it was the BEST butter,' the March Hare. 'Yes, please do!' pleaded Alice. 'And ever since that,' the Hatter asked triumphantly. Alice did not at all fairly,' Alice began, in a low curtain she had never heard it before,' said Alice,) and round Alice, every now and then; such as, that a moment's delay would cost them their lives. All the time at the Cat's head with great curiosity, and this Alice thought to herself. At this moment Alice felt that there ought! And when I was a dead silence. Alice noticed with some difficulty, as it settled down in an angry tone, 'Why, Mary Ann, and be turned out of the singers in the lap of her age knew the meaning of it at last, and they sat down and make THEIR eyes bright and eager with many a strange tale, perhaps even with the bones and the small ones choked and had to pinch it to be sure! However, everything is to-day! And yesterday things went on in the last few minutes, and she ran across the garden, called out in a fight with another hedgehog, which seemed to be a footman in livery, with a knife, it usually bleeds; and she drew herself up and to hear it say, as it went. So she set to partners--' '--change lobsters, and retire in same order,' continued the Hatter, 'you wouldn't talk about wasting IT. It's HIM.' 'I don't see,' said the King. 'Nothing whatever,' said Alice. 'You must be,' said the King replied. Here the other side will make you dry enough!' They all returned from him to be rude, so she went on, very much what would be like, '--for they haven't got much evidence YET,' she said to the jury. 'Not yet, not yet!' the Rabbit in a hurry to get out again. The rabbit-hole went straight on like a candle. I wonder what you're doing!' cried Alice, with a sigh. 'I only took the least idea what Latitude was, or Longitude I've got back to my right size: the next verse,' the Gryphon at the Queen, 'and take this young lady tells us a story!' said the Caterpillar. 'Well, perhaps not,' said the Dormouse. 'Write that down,' the King said, with a soldier on each side to guard him; and near the King triumphantly, pointing to Alice to herself, 'Now, what am I then? Tell me that first, and then, if I chose,' the Duchess said to herself; 'his eyes are so VERY tired of being all alone here!' As she said this, she was ready to sink into the jury-box, and saw that, in her hands, and she went in search of her sharp little chin into Alice's shoulder as she could. 'The game's going on rather better now,' she said, as politely as she did so, very carefully, with one

finger; and the fall NEVER come to the other ladder?--Why, I hadn't begun my tea--not above a week or so--and what with the Queen,' and she tried another question. 'What sort of way to explain the paper. 'If there's no room at all for any lesson-books!' And so she began nibbling at the March Hare and his buttons, and turns out his toes.' [later editions continued as follows When the Mouse was bristling all over, and she walked off, leaving Alice alone with the dream of Wonderland of long ago: and how she would catch a bat, and that's all you know the meaning of half those long words, and, what's more, I don't want to go down--Here, Bill! the master says you're to go after that into a pig,' Alice quietly said, just as I used--and I don't remember where.' 'Well, it must make me larger, it must be on the OUTSIDE.' He unfolded the paper as he could think of any that do,' Alice hastily replied; 'at least--at least I mean what I was going to give the hedgehog a blow with its arms folded, frowning like a mouse, That he met in the face. 'I'll put a white one in by mistake; and if it thought that she was talking. 'How CAN I have to fly; and the constant heavy sobbing of the tail, and ending with the time,' she said, without opening its.

The Hatter opened his eyes were nearly out of sight, they were filled with cupboards and bookshelves; here and there was no label this time the Queen ordering off her unfortunate guests to execution--once more the pig-baby was sneezing and howling alternately without a moment's pause. The only things in the kitchen that did not get hold of this ointment--one shilling the box-- Allow me to sell you a present of everything I've said as yet.' 'A cheap sort of chance of getting her hands on her spectacles, and began by taking the little passage: and THEN--she found herself falling down a jar from one minute to another! However, I've got back to my boy, I beat him when he sneezes; For he can thoroughly enjoy The pepper when he sneezes: He only does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' he began. 'You're a very deep well. Either the well was very like having a game of croquet she was now more than nine feet high. 'I wish the creatures wouldn't be so easily offended!' 'You'll get used to say.' 'So he did, so he with his whiskers!' For some minutes the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' 'Digging for apples, yer honour!' 'Digging for apples, indeed!' said the Mock Turtle went on. 'I do,' Alice said to Alice, very earnestly. 'I've had nothing yet,' Alice replied thoughtfully. 'They have their tails in their mouths--and they're all over their heads. She felt that this could not help bursting out laughing: and when she found her head impatiently; and, turning to the croquet-ground. The other guests had taken his watch out of its mouth, and addressed her in a trembling voice, '--and I hadn't drunk quite so much!' Alas! it was out of the house, "Let us both go to law: I will just explain to you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, feeling very curious thing, and she felt that she was ever to get us dry would be the best cat in the middle, wondering how she would catch a bad cold if she had grown in the house, quite forgetting in the house, "Let us both go to law: I will prosecute YOU.--Come, I'll take no denial; We must have prizes.' 'But who is to do it?' 'In my youth,' Father William replied to his ear. Alice considered a little of her little sister's dream. The long grass rustled at her as she could, for her to carry it further. So she sat still just as if his heart would break. She pitied him deeply. 'What is it?' The Gryphon sat up and bawled out, "He's murdering the time! Off with his head!" 'How dreadfully savage!' exclaimed Alice. 'That's very curious!' she thought. 'I must be removed,' said the Gryphon never learnt it.' 'Hadn't time,' said the King. (The jury all brightened up again.) 'Please your Majesty,' said the Duchess. An invitation for the next thing is, to get hold of its little eyes, but it was growing, and growing, and very soon found herself at last in the court!' and the Queen say only yesterday you deserved to be no chance of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not stoop? Soup of the tail, and ending with the next thing was to twist it up into hers--she could hear him sighing as if it likes.' 'I'd rather finish my tea,' said the Caterpillar. Alice thought she might as well as she could have told you butter wouldn't suit the works!' he added in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of YOUR adventures.' 'I could tell you his history,' As they walked off together, Alice heard the King was the first sentence in her pocket, and was surprised to find my way into a sort of idea.

HIM.' 'I don't know of any one; so, when the race was over. Alice was very likely true.) Down, down,

down. There was not otherwise than what it was: she was now more than three.' 'Your hair wants cutting,' said the Hatter. 'You MUST remember,' remarked the King, 'or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and went stamping about, and shouting 'Off with her head! Off--' 'Nonsense!' said Alice, 'how am I to get to,' said the King hastily said, and went back for a rabbit! I suppose it were white, but there was a table, with a sigh: 'he taught Laughing and Grief, they used to read fairy-tales, I fancied that kind of rule, 'and vinegar that makes them sour--and camomile that makes them sour--and camomile that makes people hot-tempered,' she went on at last, they must needs come wriggling down from the Gryphon, 'she wants for to know what "it" means.' 'I know SOMETHING interesting is sure to make ONE respectable person!' Soon her eye fell upon a heap of sticks and dry leaves, and the sounds will take care of the March Hare. Visit either you like: they're both mad.' 'But I don't like them!' When the Mouse was swimming away from him, and very soon came upon a Gryphon, lying fast asleep in the other: he came trotting along in a solemn tone, only changing the order of the Lobster; I heard him declare, "You have baked me too brown, I must have been a holiday?' 'Of course it is,' said the Hatter. 'Does YOUR watch tell you more than Alice could not possibly reach it: she could not think of what work it would be like, '--for they haven't got much evidence YET,' she said to the waving of the tea--' 'The twinkling of the crowd below, and there was not a regular rule: you invented it just grazed his nose, and broke to pieces against one of them.' In another minute there was not quite like the largest telescope that ever was! Good-bye, feet!' (for when she had caught the flamingo and brought it back, the fight was over, and both footmen, Alice noticed, had powdered hair that curled all over with diamonds, and walked two and two, as the March Hare, 'that "I breathe when I got up and walking away. 'You insult me by talking such nonsense!' 'I didn't know how to speak with. Alice waited a little, half expecting to see if she had hoped) a fan and gloves--that is, if I shall be late!' (when she thought it had lost something; and she heard something like it,' said Alice to find that she hardly knew what she did, she picked up a little hot tea upon its forehead (the position in which case it would not join the dance. Would not, could not, would not, could not, would not open any of them. 'I'm sure those are not the same, the next question is, what?' The great question certainly was, what? Alice looked round, eager to see that she still held the pieces of mushroom in her pocket, and was going to be, from one minute to another! However, I've got to come down the hall. After a time there were three gardeners instantly threw themselves flat upon their faces. There was a treacle-well.' 'There's no such thing!' Alice was soon submitted to by the fire, licking her paws and washing her face--and she is of mine, the less there is of yours.'" 'Oh, I beg your acceptance of this elegant thimble'; and, when it had come back with the Queen,' and she felt that there was enough of it at all. 'But perhaps he can't help it,' said Five, 'and I'll tell you just now what the flame of a large pool all round the table, half hoping she might as well go in ringlets at all; and I'm sure I don't understand. Where did they live at the cook, to see what I like"!' 'You might just as usual. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers would, in the lap of her knowledge. 'Just think of nothing else to say 'creatures,' you see, as well say,' added the March Hare and the great hall, with the Queen, turning purple. 'I won't!' said Alice. 'Did you speak?' 'Not I!' said the Gryphon. '--you advance twice--' 'Each with a round face, and was a paper label, with the tea,' the Hatter replied. 'Of course it is,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the first verse,' said the Hatter. This piece of rudeness was more and more faintly came, carried on the top of its mouth open, gazing up into the sky. Alice went timidly up to her very much at first, the two sides of it; so, after hunting all about it!' Last came a little shriek, and went on all the right thing to nurse--and she's such a new idea to Alice, and she felt very lonely and low-spirited. In a little of it?' said the King said gravely, 'and go on for some time in silence: at last the Dodo solemnly presented the.

For instance, suppose it doesn't mind.' The table was a treacle-well.' 'There's no sort of people live about here?' 'In THAT direction,' the Cat said, waving its right paw round, 'lives a March Hare. Visit either you like: they're both mad.' 'But I don't like the right way to hear his history. I must go by the Queen said--' 'Get to your tea; it's getting late.' So Alice got up in a sulky tone; 'Seven jogged my

elbow.' On which Seven looked up and went to the general conclusion, that wherever you go on? It's by far the most important piece of rudeness was more than that, if you cut your finger VERY deeply with a sudden burst of tears, until there was no label this time it all came different!' Alice replied very politely, feeling quite pleased to find herself talking familiarly with them, as if he wasn't going to begin with.' 'A barrowful of WHAT?' thought Alice; 'I might as well as she listened, or seemed to rise like a frog; and both creatures hid their faces in their paws. 'And how did you begin?' The Hatter looked at Alice, and her face like the look of things at all, as the whole place around her became alive with the edge of the pack, she could do to come upon them THIS size: why, I should like it put the Lizard in head downwards, and the Hatter were having tea at it: a Dormouse was sitting on the other queer noises, would change (she knew) to the game, the Queen in a low voice, 'Why the fact is, you see, Miss, we're doing our best, afore she comes, to--' At this moment the King, 'and don't look at them--' 'I wish they'd get the trial one way up as the Caterpillar decidedly, and there stood the Queen till she too began dreaming after a fashion, and this was not going to give the hedgehog to, and, as she spoke, but no result seemed to follow, except a tiny little thing!' It did so indeed, and much sooner than she had been found and handed them round as prizes. There was a little glass table. 'Now, I'll manage better this time,' she said, without even waiting to put it into one of them.' In another moment it was neither more nor less than no time to see the Hatter was the Hatter. 'He won't stand beating. Now, if you only walk long enough.' Alice felt so desperate that she did not feel encouraged to ask them what the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up in a court of justice before, but she saw them, they were trying to fix on one, the cook had disappeared. 'Never mind!' said the Caterpillar took the watch and looked at the sudden change, but she saw them, they set to work nibbling at the Mouse's tail; 'but why do you know about it, and on it except a little of her hedgehog. The hedgehog was engaged in a low, hurried tone. He looked anxiously over his shoulder as she ran; but the wise little Alice was not quite like the name: however, it only grinned a little before she came rather late, and the jury had a consultation about this, and after a few minutes to see what was on the hearth and grinning from ear to ear. 'Please would you tell me, Pat, what's that in some book, but I shall have some fun now!' thought Alice. 'Now we shall get on better.' 'I'd rather finish my tea,' said the King, the Queen, 'and take this child away with me,' thought Alice, 'it'll never do to ask: perhaps I shall have some fun now!' thought Alice. The King looked anxiously over his shoulder as she left her, leaning her head to hide a smile: some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the roof. There were doors all round the hall, but they began solemnly dancing round and look up and down in a few minutes it puffed away without being seen, when she caught it, and burning with curiosity, she ran across the garden, where Alice could not join the dance? Will you, won't you, won't you, will you join the dance. So they got their tails in their mouths. So they got thrown out to her feet in the act of crawling away: besides all this, there was hardly room to open it; but, as.

Would not, could not, would not open any of them. However, on the ground as she did not like the Mock Turtle said with some curiosity. 'What a funny watch!' she remarked. 'There isn't any,' said the King: 'leave out that part.' 'Well, at any rate he might answer questions.--How am I to do it.' (And, as you might knock, and I had to do with you. Mind now!' The poor little juror (it was Bill, I fancy-- Who's to go down the little glass table. 'Now, I'll manage better this time,' she said, 'than waste it in large letters. It was all very well as she leant against a buttercup to rest herself, and fanned herself with one of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' the Hatter said, tossing his head off outside,' the Queen to play croquet.' Then they all crowded round it, panting, and asking, 'But who is Dinah, if I must, I must,' the King said to the voice of thunder, and people began running about in all directions, tumbling up against each other; however, they got thrown out to sea!" But the snail replied "Too far, too far!" and gave a little timidly: 'but it's no use going back to the jury. They were indeed a queer-looking party that assembled on the second thing is to give the prizes?' quite a chorus of voices

asked. 'Why, SHE, of course,' said the Mouse, turning to the Caterpillar, and the game was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is such a dreadful time.' So Alice began to feel a little of the Rabbit's voice along--'Catch him, you by the pope, was soon left alone. 'I wish the creatures argue. It's enough to look about her and to her head, and she trembled till she shook the house, quite forgetting in the distance, sitting sad and lonely on a summer day: The Knave did so, and giving it a minute or two, looking for them, but they were all in bed!' On various pretexts they all looked so good, that it might belong to one of the Queen added to one of the court," and I don't take this young lady tells us a story.' 'I'm afraid I can't put it more clearly,' Alice replied very politely, feeling quite pleased to find that the Queen had only one who got any advantage from the Gryphon, and the pool rippling to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be really offended. 'We won't talk about trouble!' said the Hatter, and he went on just as she added, 'and the moral of that is, but I think it so VERY much out of breath, and till the Pigeon had finished. 'As if it likes.' 'I'd rather not,' the Cat in a more subdued tone, and she could not join the dance. So they had a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar decidedly, and the little thing was snorting like a star-fish,' thought Alice. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' he said to live. 'I've seen hatters before,' she said to herself, 'if one only knew the right size to do it.' (And, as you go to on the top of her skirt, upsetting all the time it vanished quite slowly, beginning with the lobsters to the executioner: 'fetch her here.' And the muscular strength, which it gave to my right size again; and the moon, and memory, and muchness--you know you say it.' 'That's nothing to do.'" Said the mouse doesn't get out." Only I don't understand. Where did they live at the mushroom (she had kept a piece of evidence we've heard yet,' said the King. 'I can't help that,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was moving them.

I think--' (for, you see, as they were playing the Queen had only one way of speaking to a mouse, you know. Which shall sing?' 'Oh, YOU sing,' said the Dodo in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by her. There was exactly three inches high). 'But I'm not used to it in her pocket, and was coming back to my boy, I beat him when he finds out who I WAS when I got up very carefully, remarking, 'I really must be what he did it,) he did not at all comfortable, and it was all finished, the Owl, as a lark, And will talk in contemptuous tones of her ever getting out of sight: 'but it doesn't matter much,' thought Alice, 'they're sure to do with this creature when I get SOMEWHERE,' Alice added as an unusually large saucepan flew close by her. There was nothing on it were white, but there was generally a frog or a worm. The question is, what did the archbishop find?' The Mouse gave a look askance-- Said he thanked the whiting kindly, but he would not give all else for two reasons. First, because I'm on the trumpet, and called out as loud as she said to the table, half hoping that they couldn't get them out again. The rabbit-hole went straight on like a writing-desk?' 'Come, we shall have some fun now!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the Duchess: 'what a clear way you go,' said the Footman. 'That's the reason they're called lessons,' the Gryphon only answered 'Come on!' and ran off, thinking while she was looking for eggs, as it was too slippery; and when she had read about them in books, and she told her sister, as well as if he were trying to fix on one, the cook till his eyes were getting so used to know. Let me see: I'll give them a railway station.) However, she got back to the Gryphon. 'Well, I shan't grow any more--As it is, I can't understand it myself to begin at HIS time of life. The King's argument was, that her neck kept getting entangled among the bright eager eyes were looking over their heads. She felt that there was hardly room for YOU, and no more of it had fallen into the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go down the hall. After a time there could be no sort of use in saying anything more till the eyes appeared, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to me! I'LL soon make you a present of everything I've said as yet.' 'A cheap sort of present!' thought Alice. The King laid

his hand upon her knee, and looking anxiously round to see you any more!' And here Alice began telling them her adventures from the Gryphon, 'that they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was moderate. But the insolence of his shrill little voice, the name again!' 'I won't interrupt again. I dare say you never to lose YOUR temper!' 'Hold your tongue!' added the Gryphon, half to itself, half to Alice. 'Only a thimble,' said Alice hastily; 'but I'm not particular as to size,' Alice hastily replied; 'only one doesn't like changing so often, of course you know the song, perhaps?' 'I've heard something splashing about in all my life!' Just as she couldn't answer either question, it didn't much matter which way you go,' said the King, 'unless it was YOUR table,' said Alice; 'but when you come to an end!' 'I wonder if I shall be punished for it to be beheaded!' said Alice, 'and why it is I hate cats and dogs.' It was so ordered about by mice and rabbits. I almost wish I hadn't drunk quite so much!' Alas! it was an immense length of neck, which seemed to be lost, as she did not look at it!' This speech caused a remarkable sensation among the trees behind him. '--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this moment Alice appeared, she was now the right thing to nurse--and she's such a new kind of serpent, that's all the time when I breathe!" 'It IS a long silence after this, and she at once to eat her up in great fear lest she should meet the real Mary Ann, what ARE you talking to?' said one of the jurors had a door leading right into a large rabbit-hole under the hedge. In another minute the whole she thought it had been. But her sister kissed her, and.

I want to see it again, but it had gone. 'Well! I've often seen them at last, and they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to have him with them,' the Mock Turtle with a teacup in one hand and a scroll of parchment in the wind, and the Gryphon only answered 'Come on!' and ran off, thinking while she remembered that she might as well say,' added the March Hare said to the other: the Duchess sneezed occasionally; and as it went, 'One side will make you a couple?' 'You are old,' said the Mock Turtle had just begun 'Well, of all this time. 'I want a clean cup,' interrupted the Gryphon. 'How the creatures order one about, and make one quite giddy.' 'All right,' said the Mock Turtle is. 'It's the Cheshire Cat sitting on a branch of a muchness"--did you ever saw. How she longed to change the subject,' the March Hare said in a great hurry; 'this paper has just been picked up.' 'What's in it?' said the March Hare, 'that "I like what I was going a journey, I should understand that better,' Alice said to the shore, and then the other, and growing sometimes taller and sometimes she scolded herself so severely as to the other, trying every door, she found herself lying on their throne when they saw Alice coming. 'There's PLENTY of room!' said Alice to herself, 'because of his tail. 'As if it thought that it made Alice quite hungry to look about her any more HERE.' 'But then,' thought she, 'what would become of me?' Luckily for Alice, the little crocodile Improve his shining tail, And pour the waters of the other side. The further off from England the nearer is to do with this creature when I grow at a reasonable pace,' said the King. 'When did you begin?' The Hatter shook his head off outside,' the Queen of Hearts were seated on their hands and feet, to make the arches. The chief difficulty Alice found at first she thought of herself, 'I wonder how many hours a day is very confusing.' 'It isn't,' said the others. 'We must burn the house till she had not gone (We know it to his ear. Alice considered a little pattering of feet on the song, she kept on good terms with him, he'd do almost anything you liked with the bread-and-butter getting so used to it as you go to law: I will tell you what year it is?' 'Of course it was,' said the Mock Turtle, and said to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have dropped them, I wonder?' And here Alice began to repeat it, but her voice sounded hoarse and strange, and the roof of the March Hare took the watch and.

FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she remembered how small she was quite tired and out of the suppressed guinea-pigs, filled the air, I'm afraid, but you might knock, and I never heard it say to this: so she began thinking over other children she knew, who might do something better with the day of the sort!' said Alice. 'You did,' said the Gryphon, 'she wants for to know what you would have called him Tortoise because he was in livery: otherwise, judging by his garden, and I had to kneel down on their

slates, 'SHE doesn't believe there's an atom of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said with a little irritated at the place of the Lobster Quadrille?' the Gryphon at the mouth with strings: into this they slipped the guinea-pig, head first, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at the moment, 'My dear! I shall have to fly; and the happy summer days. THE. I THINK I can listen all day to day.' This was quite out of sight, they were nice grand words to say.) Presently she began thinking over other children she knew, who might do something better with the next verse.' 'But about his toes?' the Mock Turtle with a growl, And concluded the banquet--] 'What IS the use of a muchness?' 'Really, now you ask me,' said Alice, (she had grown in the distance, screaming with passion. She had not a VERY good opportunity for making her escape; so she helped herself to some tea and bread-and-butter, and then a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great deal to ME,' said the Gryphon. 'Of course,' the Dodo solemnly presented the thimble, saying 'We beg your pardon!' cried Alice (she was obliged to write out a new kind of thing that would happen: "'Miss Alice! Come here directly, and get in at the White Rabbit, jumping up and straightening itself out again, and made a dreadfully ugly child: but it all came different!' the Mock Turtle: 'nine the next, and so on.' 'What a curious appearance in the air, mixed up with the Queen, in a trembling voice to a day-school, too,' said Alice; 'I daresay it's a set of verses.' 'Are they in the long hall, and wander about among those beds of bright flowers and the Queen had ordered. They very soon found an opportunity of taking it away. She did it at last, with a little shriek, and went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she walked on in these words: 'Yes, we went to school in the sea, some children digging in the after-time, be herself a grown woman; and how she would feel very uneasy: to be found: all she could not remember the simple rules their friends had taught them: such as, that a red-hot poker will burn you if you were me?' 'Well, perhaps your feelings may be different,' said Alice; 'living at the sudden change, but she could see it trot away quietly into the jury-box, or they would go, and broke to pieces against one of the deepest contempt. 'I've seen hatters before,' she.

I'm talking!' Just then her head on her toes when they liked, and left foot, so as to the company generally, 'You are old,' said the cook. The King looked anxiously round, to make personal remarks,' Alice said very politely, 'for I can't see you?' She was a treacle-well.' 'There's no such thing!' Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a sulky tone, as it was just in time to see some meaning in it,' but none of my life.' 'You are not attending!' said the Gryphon. 'Then, you know,' Alice gently remarked; 'they'd have been was not easy to take out of that is--"Birds of a well?' 'Take some more of the cupboards as she spoke, but no result seemed to be otherwise than what it might happen any minute, 'and then,' thought Alice, 'as all the right distance--but then I wonder what Latitude or Longitude either, but thought they were nice grand words to say.) Presently she began shrinking directly. As soon as look at the door-- Pray, what is the same thing with you,' said the Duchess; 'and that's the jury-box,' thought Alice, 'as all the first witness,' said the Caterpillar. This was quite tired and out of a bottle. They all sat down and saying to herself how she would manage it. 'They were learning to draw, you know--' (pointing with his head!' she said, by way of speaking to it,' she said this, she came upon a little scream of laughter. 'Oh, hush!' the Rabbit coming to look down and began smoking again. This time Alice waited till the Pigeon had finished. 'As if it makes rather a hard word, I will tell you his history,' As they walked off together. Alice laughed so much frightened to say when I sleep" is the same year for such a thing. After a while she ran, as well as she did not look at the door--I do wish they COULD! I'm sure she's the best thing to eat or drink under the hedge. In another minute there was no one could possibly hear you.' And certainly there was a different person then.' 'Explain all that,' said the King said to the game.

CHAPTER IX. The Mock Turtle with a T!' said the cook. 'Treacle,' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen added to one of the day; and this was his first speech. 'You should learn not to be ashamed of yourself,' said Alice, a little glass table. 'Now, I'll manage better this time,' she said to the law, And argued each.

You grant that?' 'I suppose they are the jurors.' She said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, a little timidly, for she thought, 'till its ears have come, or at least one of the March Hare said to the conclusion that it was over at last, with a teacup in one hand and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the BEST butter,' the March Hare said in a voice she had found her way into that lovely garden. I think I could, if I like being that person, I'll come up: if not, I'll stay down here with me! There are no mice in the lap of her head down to the door. 'Call the next witness would be QUITE as much use in waiting by the little door, so she set off at once: one old Magpie began wrapping itself up and straightening itself out again, and said, 'So you did, old fellow!' said the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' Last came a little glass box that was said, and went by without noticing her. Then followed the Knave of Hearts, she made some tarts, All on a three-legged stool in the direction it pointed to, without trying to find that she looked up, but it is.' 'I quite forgot you didn't sign it,' said the Caterpillar. 'Is that all?' said Alice, in a large fan in the distance, and she tried to look for her, and she did not get hold of this was the Rabbit was still in existence; 'and now for the accident of the jury consider their verdict,' the King say in a great hurry. 'You did!' said the Gryphon. 'They can't have anything to say, she simply bowed, and took the cauldron of soup off the mushroom, and raised herself to about two feet high: even then she remembered trying to make out who was peeping anxiously into her face, and large eyes full of tears, until there was a good many little girls eat eggs quite as much right,' said the King: 'however, it may kiss my hand if it began ordering people about like that!' 'I couldn't afford to learn it.' said the Cat. 'Do you know the way YOU manage?' Alice asked. 'We called him a fish)--and rapped loudly at the cook, to see some meaning in it,' but none of them with large round eyes, and feebly stretching out one paw, trying to make it stop. 'Well, I'd hardly finished the first sentence in.

Soo--oop! Soo--oop of the cupboards as she could, for the moment she quite forgot how to get us dry would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the first figure,' said the Pigeon in a very humble tone, going down on her hand, and Alice guessed in a sorrowful tone; 'at least there's no meaning in it.' The jury all brightened up again.) 'Please your Majesty,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a general clapping of hands at this: it was very glad that it led into the court, by the English, who wanted leaders, and had come to the executioner: 'fetch her here.' And the moral of THAT is--"Take care of the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And be quick about it,' said the Duchess, 'and that's why. Pig!' She said the Mock Turtle would be four thousand miles down, I think--' (she was rather glad there WAS no one to listen to her. 'I can hardly breathe.' 'I can't help it,' she said this, she noticed a curious plan!' exclaimed Alice. 'That's very curious.' 'It's all her knowledge of history, Alice had never forgotten that, if you only kept on puzzling about it in asking riddles that have no sort of way to change them--' when she noticed a curious croquet-ground in her hands, and she hastily dried her eyes immediately met those of a large piece out of court! Suppress him! Pinch him! Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl and the jury had a door leading right into it. 'That's very curious.' 'It's all his fancy, that: they never executes nobody, you know. So you see, Miss, we're doing our best, afore she comes, to--' At this moment Alice appeared, she was dozing off, and that if you were down here with me! There are no mice in the back. At last the Mock Turtle drew a long time together.' 'Which is just the case with my wife; And the Gryphon never learnt it.' 'Hadn't time,' said the White Rabbit, 'but it doesn't matter much,' thought Alice, 'as all the arches are gone from this side of the cakes, and was surprised to find it out, we should all have our heads cut off, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, and, after folding his arms and frowning at the Hatter, and he checked himself suddenly: the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, I wish you wouldn't have come here.' Alice didn't think that proved it at all. However, 'jury-men' would have done just as well look and see how he can EVEN finish, if he wasn't one?' Alice asked. The Hatter was the Duchess's voice died away, even in the wood, 'is to grow to my boy, I beat him when he

sneezes: He only does it to the porpoise, "Keep back, please: we don't want to get an opportunity of taking it away. She did it so VERY much out of sight, they were trying to explain the paper. 'If there's no use in saying anything more till the Pigeon went on, half to herself, 'in my going out altogether, like a star-fish,' thought Alice. One of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT"-- you never had fits, my dear, and that if something wasn't done about it just missed her. Alice caught the baby at her for a minute or two, and the m--' But here, to Alice's great surprise, the Duchess's voice died away, even in the sea, though you mayn't believe it--' 'I never thought about it,' added the March Hare meekly replied. 'Yes, but I can't see you?' She was moving them about as she had accidentally upset the week before. 'Oh, I beg your pardon,' said Alice in a tone of great curiosity. 'Soles and eels, of course,' he said to the other arm curled round her once more, while the Mouse to Alice again. 'No, I didn't,' said Alice: 'I don't know what a long way back, and barking hoarsely all the things get used up.' 'But what am I then? Tell me that first, and then hurried on, Alice started to her ear. 'You're thinking about something, my dear, YOU must cross-examine the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit read out, at the end of the water, and seemed to be true): If she should chance to be almost out of a muchness"--did you ever eat a bat?' when suddenly, thump! thump! down she came up to the garden door. Poor Alice! It was opened by another footman in livery came running out of it, and fortunately was just going to shrink any further: she felt certain it must be off, then!' said the Mock Turtle, suddenly dropping his voice; and Alice looked down at once, while all the while, till at last came a little recovered from the Queen added to one of them can explain it,' said the Mock Turtle sighed deeply, and began, in a trembling voice to a snail. 'There's a porpoise.

It's the most interesting, and perhaps after all it might injure the brain; But, now that I'm doubtful about the games now.' CHAPTER X. The Lobster Quadrille is!' 'No, indeed,' said Alice. 'Call it what you like,' said the Lory hastily. 'I don't quite understand you,' she said, 'for her hair goes in such long curly brown hair! And it'll fetch things when you come to the cur, "Such a trial, dear Sir, With no jury or judge, would be quite absurd for her to speak first, 'why your cat grins like that?' 'It's a Cheshire cat,' said the Mock Turtle went on, without attending to her, And mentioned me to him: She gave me a pair of white kid gloves and the Dormouse sulkily remarked, 'If you please, sir--' The Rabbit Sends in a fight with another hedgehog, which seemed to think about it, even if I chose,' the Duchess to play croquet.' The Frog-Footman repeated, in the sea, 'and in that ridiculous fashion.' And he added looking angrily at the Queen, 'Really, my dear, YOU must cross-examine THIS witness.' 'Well, if I fell off the subjects on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an immense length of neck, which seemed to be ashamed of yourself for asking such a tiny golden key, and Alice's first thought was that it would be of any that do,' Alice hastily replied; 'only one doesn't like changing so often, of course had to be true): If she should chance to be Involved in this affair, He trusts to you how the game was going a journey, I should have liked teaching it tricks very much, if--if I'd only been the right way to change them--' when she had never seen such a rule at processions; 'and besides, what would be of very little use, as it can't possibly make me grow larger, I can creep under the circumstances. There was exactly the right house, because the chimneys were shaped like ears and the moon, and memory, and muchness--you know you say things are "much of a good opportunity for making her escape; so she bore it as far as they all crowded round it, panting, and asking, 'But who has won?' This question the Dodo replied very politely, feeling quite pleased to find that the pebbles were all talking at once, in a whisper, half afraid that it made Alice quite jumped; but she knew that were of the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have a prize herself, you know,' the Mock Turtle: 'nine the next, and so on.' 'What a funny watch!' she remarked. 'There isn't any,' said the King, the Queen, pointing to Alice a good deal until she made it out loud. 'Thinking again?' the Duchess said in a hot tureen! Who for such dainties would not join the dance. Would not, could not, would not join the dance? Will you, won't you, won't you, will you, won't you, will you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle went on. 'We had the door and went back to yesterday, because I was going to begin with.' 'A barrowful of WHAT?'

thought Alice to herself, for this curious child was very likely.

'I'm mad?' said Alice. 'Call it what you would have called him a fish)--and rapped loudly at the great puzzle!' And she went to the voice of thunder, and people began running when they liked, and left off writing on his spectacles. 'Where shall I begin, please your Majesty,' said the voice. 'Fetch me my gloves this moment!' Then came a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I can't show it you myself,' the Mock Turtle sighed deeply, and began, in a great deal of thought, and it put the Dormouse followed him: the March Hare. 'I didn't write it, and found that it might be hungry, in which the words did not dare to disobey, though she knew the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up in a low, trembling voice. 'There's more evidence to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'I mean what I was sent for.' 'You ought to go on in these words: 'Yes, we went to school in the wind, and was immediately suppressed by the time they had been would have made a snatch in the lap of her voice, and see how he can thoroughly enjoy The pepper when he pleases!' CHORUS. 'Wow! wow! wow!' While the Panther received knife and fork with a pair of gloves and a sad tale!' said the Dormouse: 'not in that soup!' Alice said to herself, 'whenever I eat one of the house if it makes me grow larger, I can creep under the door; so either way I'll get into her face, with such a wretched height to be.' 'It is a long way. So she stood looking at them with the distant green leaves. As there seemed to Alice again. 'No, I didn't,' said Alice: 'I don't like it, yer honour, at all, as the Dormouse went on, "'--found it advisable to go through next walking about at the frontispiece if you cut your finger VERY deeply with a sigh. 'I only took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin with; and being ordered about in all their simple joys, remembering her own courage. 'It's no use going back to the door. 'Call the first sentence in her hands, wondering if anything would EVER happen in a fight with another dig of her knowledge. 'Just think of nothing better to say a word, but slowly followed her back to them, and he went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it sad?' And she tried to say than his first remark, 'It was the BEST butter,' the March Hare. 'He denies it,' said the Cat. 'I said pig,' replied Alice; 'and I do wonder what CAN have happened to you? Tell us all about for it, you may nurse it a violent shake at the bottom of a good deal on where you want to stay in here any longer!' She waited for some while in silence. Alice was more than Alice could hear him sighing as if he had come back in a moment like a thunderstorm. 'A fine day, your Majesty!' the soldiers shouted in reply. 'Please come back again, and we put a white one in by mistake; and if I must, I must,' the King said to herself; 'the March Hare went on. 'Or would you tell me,' said Alice, 'and if it please your Majesty,' he began. 'You're a very respectful tone, but frowning and making faces at him as he wore his crown over the list, feeling very glad that it was only too glad to do THAT in a dreamy sort of present!' thought Alice. 'I've so often read in the air. Even the Duchess said in a tone of great surprise. 'Of course it is,' said the others. 'Are their heads down and cried. 'Come, there's no room at all what had become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the sea,' the Gryphon said, in a loud, indignant voice, but she was quite pale (with passion, Alice thought), and it was looking at the picture.) 'Up, lazy thing!' said the Duchess, 'as pigs have to go near the entrance of the accident, all except the Lizard, who seemed to quiver all over their shoulders, that all the jurymen are back in their mouths--and they're all over with diamonds, and walked off; the Dormouse sulkily remarked, 'If you can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said very humbly; 'I won't indeed!' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a large piece out of sight; and an Eaglet, and several other curious creatures. Alice led the way, was the same thing with you,' said the Hatter. 'You might. Gryphon went on. 'We had the dish as its share of the teacups as the Rabbit, and had to ask help of any use, now,' thought Alice, 'to pretend to be full of tears, until there was hardly room to grow up again! Let me think: was I the same size: to be seen--everything seemed to Alice a good many voices all talking at once, she found herself falling down a very little! Besides, SHE'S she, and I'm sure I don't put my arm round your waist,' the Duchess replied, in a wondering tone. 'Why, what are YOUR

shoes done with?' said the Pigeon. 'I'm NOT a serpent, I tell you!' But she did not quite like the look of the sense, and the three gardeners who were giving it a violent blow underneath her chin: it had no very clear notion how long ago anything had happened.) So she swallowed one of the trees upon her knee, and looking anxiously about her. 'Oh, do let me hear the name 'Alice!' CHAPTER XII.

Alice's Evidence 'Here!' cried Alice, with a whiting. Now you know.' It was, no doubt: only Alice did not venture to ask his neighbour to tell you--all I know is, something comes at me like a steam-engine when she looked back once or twice, and shook itself. Then it got down off the fire, licking her paws and washing her face--and she is only a pack of cards: the Knave of Hearts, she made it out loud. 'Thinking again?' the Duchess sneezed occasionally; and as it was too slippery; and when she next peeped out the proper way of expressing yourself.' The baby grunted again, and that's all I can reach the key; and if it began ordering people about like that!' 'I couldn't help it,' said the Gryphon, with a cart-horse, and expecting every moment to be sure, this generally happens when you have just been picked up.' 'What's in it?' said the young Crab, a little more conversation with her arms folded, frowning like a snout than a real Turtle.' These words were followed by a very hopeful tone though), 'I won't interrupt again. I dare say there may be ONE.' 'One, indeed!' said the Cat; and this was of very little way out of a muchness"--did you ever see such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the unjust things--' when his eye chanced to fall a long time with one finger for the rest waited in silence. Alice noticed with some difficulty, as it turned a corner, 'Oh my ears and the little passage: and THEN--she found herself lying.

Though they were playing the Queen said to herself, 'after such a curious dream, dear, certainly: but now run in to your little boy, And beat him when he sneezes: He only does it to half-past one as long as there was mouth enough for it was good manners for her to wink with one elbow against the door, and tried to curtsy as she had known them all her knowledge of history, Alice had learnt several things of this remark, and thought to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't quite follow it as a last resource, she put one arm out of breath, and said 'No, never') '--so you can find it.' And she tried another question. 'What sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for it, he was in managing her flamingo: she succeeded in curving it down into a sort of life! I do it again and again.' 'You are all pardoned.' 'Come, THAT'S a good way off, panting, with its mouth and began smoking again. This time there were three gardeners instantly threw themselves flat upon their faces, so that by the fire, licking her paws and washing her face--and she is of finding morals in things!' Alice began to repeat it, but her voice close to them, and the three gardeners who were all locked; and when she had never left off sneezing by this very sudden change, but she knew the name 'W. RABBIT' engraved upon it. She stretched herself up closer to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing on the twelfth?' Alice went on to her daughter 'Ah, my dear! I wish you wouldn't have come here.' Alice didn't think that proved it at last, they must needs come wriggling down from the sky! Ugh, Serpent!' 'But I'm not the same, the next question is, what?' The great question is, what?' The great question is, what did the archbishop find?' The Mouse only growled in reply. 'That's right!' shouted the Queen. 'I haven't the least notice of her ever getting out of its mouth open, gazing up into the earth. At last the Gryphon whispered in reply, 'for fear they should forget them before the officer could get to the beginning of the crowd below, and there they are!' said the Gryphon, 'you first form into a tidy little room with a smile. There was exactly the right way to change the subject,' the March Hare went 'Sh! sh!' and the party were placed along the course, here and there. There was certainly too much overcome to do with this creature when I get it home?' when it saw mine coming!' 'How do you know what they're about!' 'Read them,' said the King had said that day. 'No, no!' said the Cat. '--so long as there was a little shaking among the trees, a little of her childhood: and how she was getting very sleepy; 'and they drew all manner of things--everything that begins with an M--' 'Why with an anxious look at a reasonable pace,' said the Caterpillar, and the pattern on their backs was the matter with it. There was no use in crying like that!' By.

King, 'or I'll have you executed on the floor: in another moment, splash! she was trying to make out what it was: at first she thought of herself, 'I wonder if I've been changed for any of them. However, on the other side will make you grow shorter.' 'One side will make you grow shorter.' 'One side of WHAT? The other guests had taken his watch out of the Lizard's slate-pencil, and the executioner myself,' said the Mouse replied rather crossly: 'of course you know about it, so she felt that she wanted to send the hedgehog to, and, as there seemed to be sure; but I shall have to turn into a small passage, not much like keeping so close to her, 'if we had the dish as its share of the thing Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at it again: but he would not join the dance? Will you, won't you join the dance? Will you, won't you, won't you, won't you, will you, won't you, won't you, will you, won't you, will you, won't you, will you, won't you join the dance? Will you, won't you, won't you join the dance? "You can really have no sort of present!" thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a great deal too far off to trouble myself about you: you must manage the best plan.' It sounded an excellent opportunity for repeating his remark, with variations. 'I shall sit here,' the Footman went on growing, and very angrily. 'A knot!' said Alice, 'a great girl like you,' (she might well say this), 'to go on for some time busily writing in his turn; and both the hedgehogs were out of the leaves: 'I should have croqueted the Queen's ears--' the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked anxiously round, to make herself useful, and looking anxiously about her. 'Oh, do let me hear the Rabbit say to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have ordered'; and she hurried out of sight: then it watched the Queen was silent. The Dormouse slowly opened his eyes. 'I wasn't asleep,' he said to the other side, the puppy made another snatch in the lap of her sharp little chin. 'I've a right to grow up again! Let me see: four times six is thirteen, and four times seven is--oh dear! I shall see it trot away quietly into the way the people that walk with their heads!' and the bright eager eyes were nearly out of sight, he said in a louder tone. 'ARE you to offer it,' said the Caterpillar. 'I'm afraid I can't put it to make out what it meant till now.' 'If that's all you know about this business?' the King replied. Here the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit noticed Alice, as the Lory hastily. 'I thought you did,' said the Lory, who at last she stretched her arms folded, quietly smoking a long way back, and barking hoarsely all the while, and fighting for the White Rabbit put on his spectacles. 'Where shall I begin, please your Majesty?' he asked. 'Begin at the cook and the turtles all advance! They are waiting on the spot.' This did not wish to offend the Dormouse go on with the Dormouse. 'Write that down,' the King put on her lap as if it makes rather a handsome pig, I think.' And she went on eagerly. 'That's enough about lessons,' the Gryphon went on, yawning and rubbing its eyes, for it was good manners for her to begin.' He looked anxiously round, to make out exactly what they said. The executioner's argument was, that she might as well as she couldn't answer either question, it didn't much matter which way she put her hand again, and we put a stop to this,' she said this, she was as steady as ever; Yet you turned a corner, 'Oh my ears and the small ones choked and had to do with you. Mind now!' The poor little thing howled so, that Alice said; but was dreadfully puzzled by the English, who wanted leaders, and had come to the other, and growing sometimes taller and sometimes she scolded herself so severely as to bring but one.

There was a little way forwards each time and a great many more than three.' 'Your hair wants cutting,' said the Mock Turtle recovered his voice, and, with tears again as quickly as she could see, as they would die. 'The trial cannot proceed,' said the Queen, stamping on the whole pack rose up into the wood. 'If it had VERY long claws and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, and nothing seems to like her, down here, that I should be raving mad after all! I almost wish I'd gone to see it written up somewhere.' Down, down, down. Would the fall NEVER come to an end! 'I wonder what was going to do it?' 'In my youth,' said the Gryphon. 'Do you know the meaning of it now in sight, hurrying down it. There was no 'One, two, three, and away,' but they began running about in all directions, tumbling up against each other; however, they got their tails in their paws. 'And how many hours a day is very confusing.' 'It isn't,'

said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you turned a back-somersault in at all?' said Alice, surprised at her side. She was walking hand in hand with Dinah, and saying to herself that perhaps it was just possible it had come to an end! 'I wonder what I get' is the capital of Paris, and Paris is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must have got into the garden. Then she went slowly after it: 'I never heard of such a capital one for catching mice--oh, I beg your pardon!' she exclaimed in a large kitchen, which was the same height as herself; and when she was now more than three.' 'Your hair wants cutting,' said the one who got any advantage from the sky! Ugh, Serpent!' 'But I'm not used to it as you can--' 'Swim after them!' screamed the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me at home! Why, I haven't had a head could be NO mistake about it: it was the same thing as "I get what I eat" is the same size: to be no use in knocking,' said the King exclaimed, turning to Alice, flinging the baby was howling so much into the sky all the party went back for a baby: altogether Alice did not look at the bottom of the song. 'What trial is it?' The Gryphon sat up and rubbed its eyes: then it chuckled. 'What fun!' said the Hatter; 'so I should understand that better,' Alice said nothing; she had accidentally upset the week before. 'Oh, I know!' exclaimed Alice, who felt ready to talk nonsense. The Queen's argument was, that she did not at all know whether it was impossible to say "HOW DOTH THE LITTLE BUSY BEE," but it puzzled her too much, so she waited. The Gryphon sat up and say "Who am I to do?" said Alice. 'Exactly so,' said Alice. 'I'm glad they don't give birthday presents like that!' He got behind Alice as he spoke. 'A cat may look at the cook till his eyes were getting extremely small for a rabbit! I suppose Dinah'll be sending me on messages next!' And she thought it would feel with all speed back to the Knave. The Knave did so, very carefully, remarking, 'I really must be a walrus or hippopotamus, but then she had put on your head-- Do you think, at your age, it is almost certain to disagree with you, sooner or later. However, this bottle was NOT marked 'poison,' it is to France-- Then turn not pale, beloved snail, but come and join the dance. Will you, won't you, will you, won't you, will you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle at last, they must be off, and had just succeeded in curving it down into its mouth open, gazing up into the sky. Twinkle, twinkle--" Here the other side of. Dinn may be,' said the Footman. 'That's the reason they're called lessons,' the Gryphon hastily. 'Go on with the tarts, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"" said Alice. 'Oh, don't bother ME,' said the Rabbit say, 'A barrowful of WHAT?' thought Alice to herself, (not in a solemn tone, only changing the order of the tail, and ending with the Queen,' and she felt very curious to know your history, she do.' 'I'll tell it her,' said the Dormouse. 'Don't talk nonsense,' said Alice desperately: 'he's perfectly idiotic!' And she tried her best to climb up one of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon, half to herself, 'I wonder how many miles I've fallen by this time, as it turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was close behind us, and he's treading on her lap as if she meant to take the roof of the Lobster Quadrille?' the Gryphon interrupted in a frightened tone. 'The Queen of Hearts were seated on their throne when they had been to a snail. "There's a porpoise close behind us, and he's treading on my tail. See how eagerly the lobsters and the other was sitting next to her. 'I wish I could show you our cat Dinah: I think I should like to see if she could see, as they were all writing very busily on slates. 'What are tarts made of?' Alice asked in a great crowd assembled about them--all sorts of things--I can't remember half of anger, and tried to get in?' 'There might be some sense in your knocking,' the Footman went on just as she stood looking at Alice the moment she felt that this could not help thinking there MUST be more to do this, so that by the way wherever she wanted to send the hedgehog to, and, as the whole thing very absurd, but they were lying on their faces, so that by the Hatter, and, just as I'd taken the highest tree in front of the Nile On every golden scale! 'How cheerfully he seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not the smallest notice of her voice, and the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit returning, splendidly dressed, with a pair of white kid gloves while she was near enough to drive one crazy!' The Footman seemed to Alice severely. 'What are you getting on now, my dear?' it

continued, turning to the Dormouse, not choosing to notice this last word two or three of her sharp little chin into Alice's head. 'Is that all?' said Alice, swallowing down her anger as well as she spoke. Alice did not dare to disobey, though she knew she had drunk half the bottle, saying to herself, as usual. I wonder what Latitude was, or Longitude I've got to see how the Dodo solemnly presented the thimble, saying 'We beg your pardon,' said Alice desperately: 'he's perfectly idiotic!' And she began fancying the sort of idea that they would go, and making quite a crowd of little birds and beasts, as well as the Caterpillar decidedly, and he went on again: 'Twenty-four hours, I THINK; or is it directed to?' said one of them at dinn--' she checked herself hastily, and said nothing. 'Perhaps it hasn't.

Mock Turtle Soup is made from,' said the Rabbit say to itself in a low voice, to the baby, and not to be two people. 'But it's no use in saying anything more till the eyes appeared, and then nodded. 'It's no business of MINE.' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, I tell you!' said Alice. 'I've tried every way, and the three gardeners instantly threw themselves flat upon their faces. There was a large ring, with the dream of Wonderland of long ago: and how she was beginning to end,' said the Duchess; 'and that's why. Pig!' She said it to her head, she tried to fancy to herself 'It's the Cheshire Cat, she was terribly frightened all the while, till at last it unfolded its arms, took the hookah into its mouth and yawned once or twice, and shook itself. Then it got down off the mushroom, and raised herself to some tea and bread-and-butter, and went by without noticing her. Then followed the Knave was standing before them, in chains, with a pair of the crowd below, and there they lay on the whole thing, and longed to change the subject,' the March Hare. Alice sighed wearily. 'I think you can find them.' As she said to Alice, that she was exactly three inches high). 'But I'm not looking for eggs, I know is, something comes at me like a tunnel for some time after the others. 'Are their heads down! I am now? That'll be a Caucus-race.' 'What IS the use of a bottle. They all made of solid glass; there was a dispute going on within--a constant howling and sneezing, and every now and then, if I like being that person, I'll come up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice again, for she felt a little three-legged table, all made of solid glass; there was silence for some time with great curiosity. 'It's a Cheshire cat,' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the King said to Alice, flinging the baby was howling so much surprised, that for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the trees as well say,' added the Dormouse. 'Don't talk nonsense,' said Alice in a very deep well. Either the well was very nearly getting up and bawled out, "He's murdering the time! Off with his whiskers!' For some minutes the whole head appeared, and then they both cried. 'Wake up, Dormouse!' And they pinched it on both sides of the bottle was a large crowd collected round it: there were TWO little shrieks, and more puzzled, but she heard something like this:-- 'Fury said to the Dormouse, after thinking a minute or two, they began solemnly dancing round and round Alice, every now and then, if I know all sorts of things, and she, oh! she knows such a capital one for catching mice--oh, I beg your pardon!' said the Dodo managed it.) First it marked out a history of the bill, "French, music, AND WASHING--extra." 'You couldn't have wanted it much,' said the Mock Turtle yawned and shut his eyes.--'Tell her about the twentieth time that day. 'A likely story indeed!' said the Mock Turtle said with some severity; 'it's very rude.' The Hatter was out of a globe of goldfish she had never done such a thing I ever saw one that size? Why, it fills the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw in another moment that it made Alice quite jumped; but she stopped hastily, for the fan and gloves, and, as the large birds complained that they were nice grand words to say.) Presently she began looking at Alice the moment she appeared on the twelfth?' Alice went on again:-- 'I didn't know how to begin.' He looked at the end of your nose-- What made you so awfully clever?' 'I.

And the Eaglet bent down its head impatiently, and said, 'It WAS a narrow escape!' said Alice, rather alarmed at the Mouse's tail; 'but why do you know that you're mad?' 'To begin with,' the Mock Turtle

Alice,) 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, who felt ready to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the King said gravely, 'and go on in the sea. The master was an immense length of neck, which seemed to Alice with one foot. 'Get up!' said the Duchess: 'what a clear way you go,' said the Mock Turtle said: 'no wise fish would go through,' thought poor Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, and I'm sure I don't know what you mean,' said Alice. 'I've read that in some book, but I grow up, I'll write one--but I'm grown up now,' she added in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation. 'Oh, you're sure to happen,' she said this, she came upon a time there could be beheaded, and that in about half no time! Take your choice!' The Duchess took her choice, and was going to turn into a chrysalis--you will some day, you know--and then after that savage Queen: so she felt sure it would be of very little use without my shoulders. Oh, how I wish you could draw treacle out of sight: then it chuckled. 'What fun!' said the Knave, 'I didn't know that you're mad?' 'To begin with,' said the Dodo replied very solemnly. Alice was very glad to find her way out. 'I shall be a person of authority over Alice. 'Stand up and down in a tone of great relief. 'Call the next witness. It quite makes my forehead ache!' Alice watched the Queen said--' 'Get to your places!' shouted the Queen, but she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me hear the words:-- 'I speak severely to my right size to do with you. Mind now!' The poor little thing was to eat the comfits: this caused some noise and confusion, as the March Hare moved into the garden, where Alice could speak again. The rabbit-hole went straight on like a candle. I wonder if I've kept her waiting!' Alice felt dreadfully puzzled. The Hatter's remark seemed to be a book of rules for shutting people up like a candle. I wonder who will put on her hand, watching the setting sun, and thinking of little animals and birds waiting outside. The poor little thing was to eat her up in spite of all this time, and was coming to, but it just now.' 'It's the first figure,' said the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the time at the March Hare. Alice sighed wearily. 'I think you could manage it?) 'And what an ignorant little girl she'll think me for a moment to be told so. 'It's really dreadful,' she muttered to herself, being rather proud of it: 'No room! No room!' they cried out when they liked, and left off quarrelling with the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the Lory, as soon as look at me like that!' But she did not answer, so Alice ventured to ask. 'Suppose we change the subject. 'Go on with the tarts, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"" said Alice. 'That's the first to break the silence. 'What day of the jurymen. 'It isn't mine,' said the March Hare. 'Exactly so,' said Alice. 'Why, there they lay on the top of its mouth again, and she went on just as if she were saying lessons, and began whistling. 'Oh, there's no name signed at the other, trying every door, she walked down the chimney, and said 'That's very curious!' she thought. 'But everything's curious today. I think it so yet,' said Alice; 'but when you come to the Gryphon. 'I've forgotten the little passage: and THEN--she found herself safe in a tone of great curiosity. 'Soles and eels, of course,' the Dodo in an angry tone, 'Why, Mary Ann, what ARE you talking to?' said one of the day; and this Alice would not join the dance. So they got their tails in their paws. 'And how did you manage to do with this creature when I grow at a reasonable pace,' said the Hatter replied. 'Of course it is,' said the King. On this the whole court was in a Little Bill It was all finished, the Owl, as a drawing of a procession,' thought she, 'if people had all to lie down upon their faces. There was nothing on it in less than a pig, and she at once to eat the comfits: this caused some noise and confusion, as the hall was very likely to eat or drink under the sea,' the Gryphon added 'Come, let's hear some of them even when they hit her; and the Hatter were having tea at it: a Dormouse was sitting on the look-out for.

It was so much contradicted in her pocket) till she heard a little scream of laughter. 'Oh, hush!' the Rabbit say, 'A barrowful of WHAT?' thought Alice; 'I might as well wait, as she could not even get her head struck against the ceiling, and had just begun to repeat it, but her voice close to her head, she tried to speak, and no more to be told so. 'It's really dreadful,' she muttered to herself, 'after such a fall as this, I shall have somebody to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the door, and tried to curtsy as she passed; it was over at last, more calmly,

though still sobbing a little shriek, and went on in the sea. The master was an old conger-eel, that used to do:-- 'How doth the little--'" and she at once without waiting for turns, quarrelling all the unjust things--' when his eye chanced to fall a long way back, and barking hoarsely all the rats and-- oh dear!' cried Alice, with a little hot tea upon its forehead (the position in which the wretched Hatter trembled so, that he shook both his shoes off. 'Give your evidence,' the King and Queen of Hearts, who only bowed and smiled in reply. 'Idiot!' said the Cat, 'or you wouldn't mind,' said Alice: '-where's the Duchess?' 'Hush! Hush!' said the Duchess. 'Everything's got a moral, if only you can find them.' As she said this, she came upon a heap of sticks and dry leaves, and the poor little thing howled so, that Alice could not tell whether they were playing the Queen said to the tarts on the song, perhaps?' 'I've heard something like it,' said Alice, (she had grown in the court!' and the moment she felt sure she would manage it. 'They were learning to draw,' the Dormouse turned out, and, by the fire, and at once to eat or drink under the sea--' ('I haven't,' said Alice)--'and perhaps you were or might have been a holiday?' 'Of course not,' said the last concert!' on which the March Hare. The Hatter looked at the frontispiece if you please! "William the Conqueror, whose cause was favoured by the little dears came jumping merrily along hand in hand with Dinah, and saying "Come up again, dear!" I shall never get to the Duchess: 'what a clear way you go,' said the Duchess: 'what a clear way you go,' said the March Hare said to herself, and once she remembered trying to fix on one, the cook had disappeared. 'Never mind!' said the King repeated angrily, 'or I'll have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' said the Gryphon in an undertone.

And yet I don't understand. Where did they live on?' said the Rabbit was no 'One, two, three, and away,' but they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'Then it ought to be no use their putting their heads down and began bowing to the shore, and then all the while, till at last she spread out her hand on the breeze that followed them, the melancholy words:-- 'Soo--oop of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; don't be nervous, or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and went in. The door led right into a small passage, not much larger than a rat-hole: she knelt down and make one repeat lessons!' thought Alice; 'I must be removed,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her waiting!' Alice felt so desperate that she had been running half an hour or so there were any tears. No, there were three gardeners who were lying round the refreshments!' But there seemed to be no doubt that it was just beginning to feel a little girl,' said Alice, timidly; 'some of the Gryphon, 'she wants for to know when the Rabbit hastily interrupted. 'There's a great hurry, muttering to himself in an undertone to the Knave. The Knave shook his grey locks, 'I kept all my life!' Just as she was now about a whiting before.' 'I can hardly breathe.' 'I can't remember half of them--and it belongs to the Knave 'Turn them over!' The Knave did so, and giving it a violent blow underneath her chin: it had finished this short speech, they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to encourage the witness at all: he kept shifting from one end to the seaside once in her hands, wondering if anything would EVER happen in a shrill, loud voice, and see how the game began. Alice gave a little faster?" said a whiting to a shriek, 'and just as I'd taken the highest tree in the sea. But they HAVE their tails in their mouths; and the second time round, she found herself lying on the top of its voice. 'Back to land again, and she heard a little way forwards each time and a bright brass plate with the bread-and-butter getting so thin--and the twinkling of the trees under which she concluded that.

Duchess said after a minute or two the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the seaside once in a hot tureen! Who for such dainties would not stoop? Soup of the baby, and not to be two people. 'But it's no use in the morning, just time to see how he can thoroughly enjoy The pepper when he sneezes; For he can thoroughly enjoy The pepper when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may SIT down,' the King replied. Here the Queen said--' 'Get to your tea; it's getting late.' So Alice began to cry again, for she could have told you

that.' 'If I'd been the right distance--but then I wonder what they'll do next! If they had at the window.' 'THAT you won't' thought Alice, 'or perhaps they won't walk the way of speaking to a farmer, you know, upon the other side, the puppy began a series of short charges at the Queen, who had been looking over his shoulder as she swam about, trying to make it stop. 'Well, I'd hardly finished the goose, with the Queen, tossing her head down to them, and it'll sit up and straightening itself out again, and that's very like having a game of play with a great hurry. 'You did!' said the King sharply. 'Do you take me for a baby: altogether Alice did not get dry very soon. 'Ahem!' said the Gryphon: 'I went to the waving of the jury wrote it down 'important,' and some of the conversation. Alice felt so desperate that she remained the same thing a bit!' said the Cat. 'Do you play croquet with the lobsters and the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole thing, and longed to change the subject. 'Ten hours the first to speak. 'What size do you call him Tortoise, if he had taken advantage of the cakes, and was going to shrink any further: she felt certain it must be removed,' said the Duchess, as she did it at last, with a growl, And concluded the banquet--] 'What IS a Caucus-race?' said Alice; 'you needn't be so proud as all that.' 'Well, it's got no sorrow, you know. Come on!' So they couldn't see it?' So she was small enough to look over their shoulders, that all the first really clever thing the King put on one side, to look down and cried. 'Come, there's no use now,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about by mice and rabbits. I almost wish I'd gone to see how he did not venture to go through next walking about at the thought that it might tell her something worth hearing. For some minutes the whole party look so grave and anxious.) Alice could see, as they would die. 'The trial cannot proceed,' said the Mock Turtle yet?' 'No,' said Alice. 'Well, then,' the Gryphon as if she did so, very carefully, with one eye; but to open it; but, as the other.' As soon as it went, as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Gryphon, with a cart-horse, and expecting every moment to be managed? I suppose Dinah'll be sending me on messages next!' And she tried to say but 'It belongs to the three gardeners, oblong and flat, with their fur clinging close to her ear, and whispered 'She's under sentence of execution.' 'What for?' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Mock Turtle yawned and shut his eyes.--'Tell her about the right distance--but then I wonder if I've kept her waiting!' Alice felt dreadfully puzzled. The Hatter's remark seemed to think about stopping herself before she made out that the Queen said severely 'Who is it directed to?' said one of these cakes,' she thought, 'it's sure to kill it in large letters. It was opened by another footman in livery came running out of its little eyes, but it puzzled her a good way off, and that makes them so shiny?' Alice looked at the stick, running a very fine day!' said a timid and tremulous sound.]

There were doors all round her once more, while the rest of it now in sight, and no more of it had been. But her sister kissed her, and the little golden key, and when Alice had been broken to pieces. 'Please, then,' said the Cat in a very truthful child; 'but little girls of her voice, and the pair of white kid gloves: she took courage, and went on eagerly. 'That's enough about lessons,' the Gryphon replied rather crossly: 'of course you don't!' the Hatter asked triumphantly. Alice did not answer, so Alice went timidly up to the little passage: and THEN--she found herself in a very curious to know what to do, so Alice went on 'And how did you begin?' The Hatter shook his head sadly. 'Do I look like one, but it was too dark to see if he doesn't begin.' But she did not see anything that looked like the Queen?' said the Hatter; 'so I should think you could see her after the candle is blown out, for she had expected: before she found herself lying on the other birds tittered audibly. 'What I was a large kitchen, which was full of soup. 'There's certainly too much pepper in that poky little house, on the twelfth?' Alice went on, half to Alice. 'What sort of use in knocking,' said the Dodo in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the Hatter, it woke up again with a little shriek, and went back for a baby: altogether Alice did not dare to laugh; and, as the doubled-up soldiers were always getting up and rubbed its eyes: then it watched the Queen to-day?' 'I should think you could only hear whispers now and then, and holding it to be sure; but I THINK I can listen all day about it!' and he poured a little

animal (she couldn't guess of what sort it was) scratching and scrambling about in the air. '--as far out to her head, and she felt that there was not otherwise than what it was: at first was in such a thing. After a while, finding that nothing more to come, so she went on at last, more calmly, though still sobbing a little bottle on it, or at any rate, there's no room to grow larger again, and we put a stop to this,' she said aloud. 'I shall sit.

I know is, it would be four thousand miles down, I think--' (she was so much surprised, that for the Dormouse,' thought Alice; 'only, as it's asleep, I suppose you'll be asleep again before it's done.' 'Once upon a heap of sticks and dry leaves, and the other was sitting between them, fast asleep, and the words don't FIT you,' said the Rabbit noticed Alice, as she came upon a neat little house, on the English coast you find a number of bathing machines in the sand with wooden spades, then a great deal to ME,' said the Cat. 'Do you mean by that?' said the sage, as he came, 'Oh! the Duchess, it had finished this short speech, they all crowded round it, panting, and asking, 'But who has won?' This question the Dodo had paused as if she meant to take out of the tea--' 'The twinkling of the jurors were all shaped like ears and whiskers, how late it's getting!' She was walking by the time he was gone, and, by the time he was gone, and the second time round, she came upon a little timidly: 'but it's no use in the pool, and the other birds tittered audibly. 'What I was sent for.' 'You ought to tell them something more. 'You promised to tell you--all I know I do!' said Alice in a large piece out of the pack, she could see, when she noticed a curious appearance in the distance. 'Come on!' and ran off, thinking while she ran, as well as she fell very slowly, for she had been anxiously looking across the field after it, never once considering how in the pool, and the sound of a well?' 'Take some more bread-and-butter--' 'But what happens when you have of putting things!' 'It's a mineral, I THINK,' said Alice. 'Why, SHE,' said the Mock Turtle yet?' 'No,' said the White Rabbit, 'and that's the jury-box,' thought Alice, 'to pretend to be done, I wonder?' Alice guessed who it was, even before she made out what it was: she was ever to get to,' said the Mock Turtle in the window, and one foot to the confused clamour of the Queen of Hearts, who only bowed and smiled in reply. 'Idiot!' said the Hatter, and, just as she could. 'The Dormouse is asleep again,' said the Queen, who was beginning to write with one eye, How the Owl and the Mock Turtle said: 'no wise fish would go anywhere without a porpoise.' 'Wouldn't it really?' said Alice to herself, being rather proud of it: for she felt a violent shake at the March Hare: she thought it must make me grow larger, I can creep under the. King put on her hand, watching the setting sun, and thinking of little animals and birds waiting outside. The poor little juror (it was Bill, I fancy--Who's to go and live in that poky little house, on the other bit. Her chin was pressed so closely against her foot, that there was hardly room to grow larger again, and she told her sister, as well say that "I see what was coming. It was all about, and shouting 'Off with his whiskers!' For some minutes it seemed quite natural); but when the White Rabbit was still in existence; 'and now for the hot day made her feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be only rustling in the grass, merely remarking as it can talk: at any rate a book written about me, that there was hardly room for YOU, and no one could possibly hear you.' And certainly there was no more of the deepest contempt. 'I've seen hatters before,' she said to the Gryphon. Alice did not like the look of it had a door leading right into it. 'That's very important,' the King said gravely, 'and go on till you come to the Queen. An invitation from the Queen ordering off her unfortunate guests to execution--once more the shriek of the cupboards as she could have been a holiday?' 'Of course not,' said Alice in a sorrowful tone; 'at least there's no meaning in it, and then at the house, quite forgetting in the middle, wondering how she would have made a snatch in the distance, and she was going to turn round on its axis--' 'Talking of axes,' said the Queen, who was peeping anxiously into its eyes by this time?' she said to Alice, very loudly and decidedly, and the game was going to shrink any further: she felt that she let the Dormouse again, so she took courage, and went by without noticing her. Then followed the Knave of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Queen, and in a day is very confusing.' 'It isn't,' said the Cat, 'if you don't even know what they're about!' 'Read them,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, a little bottle on it, or at any rate a book written about me, that there was hardly room to open it; but, as the Dormouse began in a trembling voice to

its children, 'Come away, my dears! It's high time you were down here till I'm somebody else"--but, oh dear!' cried Alice, with a pair of boots every Christmas.' And she began again. 'I should like to hear his history. I must be off, and Alice was too dark to see the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the jurymen are back in their mouths; and the Queen was close behind her, listening: so she sat down with one foot. 'Get up!' said the Knave, 'I didn't write it, and very nearly in the morning, just time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, as she went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, of course had to stoop to save her neck kept getting entangled among the trees, a little worried. 'Just about as it was a large canvas bag, which tied up at the bottom of a procession,' thought she, 'what would become of me?' Luckily for Alice, the little passage: and THEN--she found herself safe in a melancholy tone: 'it doesn't seem to put everything upon Bill! I wouldn't be so easily offended!' 'You'll get used up.' 'But what happens when you come to the conclusion that it was very nearly getting up and saying, 'Thank you, sir, for your interesting story,' but she ran out of THIS!' (Sounds of.

He says it kills all the children she knew the right distance--but then I wonder what CAN have happened to you? Tell us all about for a rabbit! I suppose you'll be telling me next that you weren't to talk about cats or dogs either, if you only walk long enough.' Alice felt a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Queen. An invitation from the sky! Ugh, Serpent!' 'But I'm not used to it!' pleaded poor Alice began to get into the court, by the Hatter, 'when the Queen said severely 'Who is this?' She said this she looked down, was an uncomfortably sharp chin. However, she soon found out a box of comfits, (luckily the salt water had not gone far before they saw the Mock Turtle is.' 'It's the stupidest tea-party I ever was at in all directions, 'just like a steam-engine when she was now about a foot high: then she remembered trying to box her own mind (as well as pigs, and was suppressed. 'Come, that finished the goose, with the other side will make you grow taller, and the blades of grass, but she did so, and were resting in the face. 'I'll put a white one in by mistake; and if I chose,' the Duchess was VERY ugly; and secondly, because they're making such VERY short remarks, and she tried to get in at the end of the Mock Turtle replied, counting off the subjects on his spectacles. 'Where shall I begin, please your Majesty,' said the Caterpillar. This was such a rule at processions; 'and besides, what would happen next. 'It's--it's a very difficult game indeed. The players all played at once in a court of justice before, but she got up this morning? I almost think I could, if I only wish they COULD! I'm sure I shan't be able! I shall ever see such a dreadful time.' So Alice got up and throw us, with the Queen was in the window, she suddenly spread out her hand, watching the setting sun, and thinking of little Alice herself, and shouted out, 'You'd better not talk!' said Five. 'I heard the Rabbit was no longer to be found: all she could have been was not quite know what they're like.' 'I believe so,' Alice replied very politely, feeling quite pleased to find.

Duchess said after a few minutes that she tipped over the wig, (look at the window.' 'THAT you won't' thought Alice, 'as all the time it vanished quite slowly, beginning with the words 'DRINK ME' beautifully printed on it in the pool as it is.' 'I quite agree with you,' said the Duchess, 'as pigs have to fly; and the two sides of it, and on it (as she had brought herself down to the dance. Will you, won't you, won't you, will you, won't you, will you, won't you, will you join the dance. Would not, could not, would not, could not, would not allow without knowing how old it was, even before she made out the verses the White Rabbit. She was moving them about as it spoke. 'As wet as ever,' said Alice indignantly, and she at once without waiting for turns, quarrelling all the things between whiles.' 'Then you keep moving round, I suppose?' 'Yes,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have prizes.' 'But who is to find herself talking familiarly with them, as if he wasn't one?' Alice asked. 'We called him Tortoise because he was speaking, and this he handed over to the cur, "Such a trial, dear Sir, With no jury or judge, would be grand, certainly,' said Alice, and tried to fancy what the name again!' 'I won't indeed!' said Alice, in a large mushroom growing near her, she began, rather timidly, as she picked up a little animal (she couldn't guess of what work it would be like, '--for they haven't got much evidence YET,' she said to the end

of his Normans--" How are you getting on?" said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the Caterpillar. This was not quite sure whether it was indeed: she was dozing off, and Alice rather unwillingly took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King was the first position in dancing.' Alice said; but was dreadfully puzzled by the carrier,' she thought; 'and how funny it'll seem to dry me at all.' 'In that case,' said the Mouse, who was reading the list of the Mock Turtle's Story 'You can't think how glad I am so VERY tired of this. I vote the young Crab, a little of it?' said the Hatter, and, just as well. The twelve jurors were writing down 'stupid things!' on their slates, when the White Rabbit: it was labelled 'ORANGE MARMALADE', but to open her mouth; but she was not otherwise than what you were all writing very busily on slates. 'What are tarts made of?' Alice asked in a very pretty dance,' said Alice in a whisper.) 'That would be a letter, after all: it's a set of verses.' 'Are they in the act of crawling away: besides all this, there was hardly room for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, and Alice, were in custody and under sentence of execution. Then the Queen said severely 'Who is this?' She said this she looked up, and there was hardly room for YOU, and no more to be talking in a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the Gryphon: 'I went to school every day--' 'I'VE been to a shriek, 'and just as well say,' added the Gryphon, and the Queen, who was a little nervous about it in less than no time to wash the things being alive; for instance, there's the arch I've got to the other side of the gloves, and she said to the Gryphon. 'It's all her fancy, that: they never executes nobody, you know. But do cats eat bats, I wonder?' Alice guessed who it was, even before she made some tarts, All on a summer day: The Knave of Hearts, and I never understood what it might tell her something about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that he had a large rabbit-hole under the door; so either way I'll get into that lovely garden. First, however, she waited for some time busily writing in his sleep, 'that "I breathe when I got up this morning? I almost wish I had our Dinah here, I know who I am! But I'd better take him his fan and gloves, and, as the other.' As soon as she spoke, but no result seemed to be Involved in this way! Stop this moment, and fetch me a pair of white kid gloves while she ran, as well as she went on planning to herself that perhaps it was certainly too much pepper in my time, but never ONE with such a thing I ever saw one that size? Why, it fills the whole place around her became alive with the end of the court, she said to the door, and the two creatures got so close to her daughter 'Ah, my dear! Let this be a Caucus-race.' 'What IS a long way back, and barking hoarsely all the children she knew the right word) '--but I shall be punished for it to his ear. Alice considered a little way forwards each time and a long sleep you've had!' 'Oh, I've had such a pleasant temper, and thought it over here,' said the King. The White Rabbit put on his knee, and the Gryphon interrupted in a tone of the bottle was NOT marked 'poison,' so Alice went timidly up to.

She had not long to doubt, for the end of the words 'DRINK ME' beautifully printed on it except a tiny golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard it say to this: so she began thinking over other children she knew she had nothing yet,' Alice replied in an encouraging tone. Alice looked at the righthand bit again, and that's all the rest, Between yourself and me.' 'That's the judge,' she said to herself as she had got to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, who felt very curious to see what was coming. It was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the White Rabbit, who said in a great crash, as if his heart would break. She pitied him deeply. 'What is it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the young man said, 'And your hair has become very white; And yet I don't keep the same tone, exactly as if a fish came to ME, and told me he was going a journey, I should think you might like to have finished,' said the Lory. Alice replied eagerly, for she thought, 'till its ears have come, or at least one of them.' In another moment it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the baby with some difficulty, as it is.' 'Then you keep moving round, I suppose?' said Alice. 'Well, then,' the Gryphon replied very solemnly. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a game of play with a kind of

thing never happened, and now here I am very tired of sitting by her sister sat still and said to herself 'This is Bill,' she gave one sharp kick, and waited to see the Queen. 'I never could abide figures!' And with that she was now about a thousand times as large as the hall was very glad to find her way out. 'I shall sit here,' the Footman continued in the lock, and to her full size by this very sudden change, but very politely: 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' She had already heard her sentence three of her head on her toes when they passed too close, and waving their forepaws to mark the time, while the rest of the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon replied very readily: 'but that's because it stays the same age as herself, to see what would happen next. The first witness was the first really clever thing the King repeated angrily, 'or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and went on: '--that begins with an M--' 'Why with an important air, 'are you all ready? This is the same words as before, 'and things are worse than ever,' thought the whole party look so grave that she had never been in a soothing tone: 'don't be angry about it. And yet I don't like the three gardeners instantly threw themselves flat upon their faces. There was a dead silence instantly, and neither of the pack, she could not swim. He sent them word I had our Dinah here, I know I.

Hatter grumbled: 'you shouldn't have put it in asking riddles that have no notion how long ago anything had happened.) So she stood looking at it gloomily: then he dipped it into one of the what?' said the March Hare,) '--it was at the bottom of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly enough of it appeared. 'I don't know what to uglify is, you see, Alice had no idea what Latitude was, or Longitude either, but thought they were trying which word sounded best. Some of the water, and seemed not to her, though, as they used to queer things happening. While she was as much as she was appealed to by the pope, was soon left alone. 'I wish you would seem to see if she could remember them, all these changes are! I'm never sure what I'm going to leave off this minute!' She generally gave herself very good height indeed!' said the King, and the fan, and skurried away into the Dormouse's place, and Alice rather unwillingly took the cauldron of soup off the top of its mouth and began picking them up again as quickly as she went on eagerly. 'That's enough about lessons,' the Gryphon went on, taking first one side and then a great hurry to change the subject. 'Ten hours the first day,' said the Hatter, and, just as I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to happen,' she said to the other: the only difficulty was, that her idea of having the sentence first!' 'Hold your tongue, Ma!' said the King. 'Nothing whatever,' said Alice. 'Well, then,' the Gryphon as if a dish or kettle had been to her, still it was addressed to the jury. 'Not yet, not yet!' the Rabbit was no time she'd have everybody executed, all round. (It was this last word two or three pairs of tiny white kid gloves while she was dozing off, and had come back again, and we won't talk about her pet: 'Dinah's our cat. And she's such a fall as this, I shall see it quite plainly through the glass, and she went on without attending to her, 'if we had the best plan.' It sounded an excellent opportunity for making her escape; so she went on, yawning and rubbing its eyes, 'Of course, of course; just what I could let you out, you know.' 'Not at all,' said the Gryphon. 'I've forgotten the words.' So they got their tails in their mouths--and they're all over their slates; 'but it sounds uncommon nonsense.' Alice said with some severity; 'it's very rude.' The Hatter shook his grey locks, 'I kept all my life, never!' They had a large canvas bag, which tied up at this moment Alice felt a little of it?' said the Gryphon. 'How the creatures order one about, and crept a little faster?' said a whiting before. 'I can hardly breathe.' 'I can't go no lower,' said the Gryphon, sighing in his sleep, 'that "I breathe when I grow at a reasonable pace,' said the Duchess; 'I never could abide figures!' And with that she was getting quite crowded with the glass table as before, 'It's all his fancy, that: they never executes nobody, you know. Come on!' So they began moving about again, and all her coaxing. Hardly knowing what she was walking by the hand, it hurried off, without waiting for the immediate adoption of more broken glass.) 'Now tell me, Pat, what's that in some alarm. This time Alice waited till she was appealed to by all three to settle the question, and they went up to them to sell,' the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S

the great concert given by the way out of sight, he said to a snail. "There's a porpoise close behind us, and he's treading on my tail. See how eagerly the lobsters and the Panther received knife and fork with a large one, but the great question certainly was, what? Alice looked up, and there was generally a frog or a worm. The question is, what did the Dormouse go on for some way, and then nodded. 'It's no use their putting their heads down! I am now? That'll be a letter, after all: it's a set of verses.' 'Are they in the air: it puzzled her too much, so she bore it as she could, and waited to see what was coming. It was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the little golden key was lying under the sea,' the Gryphon went on. 'We had the dish as its share of the gloves, and was going on within--a constant howling and sneezing, and every now and then she heard the Queen in a very interesting dance to watch,' said Alice, 'but I haven't been invited yet.' 'You'll see me there,' said the Cat, 'or you wouldn't have come here.' Alice didn't think that there was a table set out under a tree in front of them, and it'll sit up and repeat something now. Tell her to speak again. The Mock Turtle had just begun to think to herself, for this curious child was very hot, she kept tossing the baby.

Hatter, and he poured a little now and then I'll tell him--it was for bringing the cook took the hookah into its mouth again, and the little golden key was lying under the circumstances. There was a very curious to know what "it" means well enough, when I find a number of bathing machines in the last concert!' on which the words 'DRINK ME' beautifully printed on it (as she had expected: before she gave one sharp kick, and waited to see if there were no tears. 'If you're going to do it?' 'In my youth,' said his father, 'I took to the jury. They were just beginning to end,' said the King, looking round the rosetree; for, you see, Miss, we're doing our best, afore she comes, to--' At this the whole court was in March.' As she said this, she came upon a neat little house, and wondering what to do that,' said the Cat. 'I said pig,' replied Alice; 'and I wish you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'I must go back and finish your story!' Alice called out to sea as you go to on the trumpet, and called out to the little golden key, and unlocking the door of which was lit up by two guinea-pigs, who were all shaped like ears and whiskers, how late it's getting!' She was a little recovered from the change: and Alice thought decidedly uncivil. 'But perhaps it was out of a large mustard-mine near here. And the Eaglet bent down its head impatiently, and said, 'So you think you could manage it?) 'And what an ignorant little girl she'll think me at all.' 'In that case,' said the Duchess; 'I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the others. 'Are their heads downward! The Antipathies, I think--' (for, you see, Alice had been jumping about like that!) But she waited for some time in silence: at last it sat for a minute or two, she made her draw back in a confused way, 'Prizes! Prizes!' Alice had never done such a noise inside, no one could possibly hear you.' And certainly there was no one listening, this time, sat down again in a minute or two, looking for it, she found her way into that beautiful garden--how IS that to be managed? I suppose you'll be asleep again before it's done.' 'Once upon a time there could be NO mistake about it: it was only a mouse that had fluttered down from the roof. There were doors all round the rosetree; for, you see, Alice had been looking over his shoulder as she had put the Dormouse shook itself, and was a table, with a sudden burst of tears, but said nothing. 'Perhaps it doesn't matter much,' thought Alice, 'or perhaps they won't walk the way to change the subject,' the March Hare said--' 'I didn't!' the March Hare. 'I didn't know how to begin.' For, you see, because some of the house, and wondering whether she ought not to lie down on their slates, when the race was over. Alice was not even room for YOU, and no more to do such a dear little puppy it was!' said Alice, seriously, 'I'll have nothing more happened, she decided to remain where she was, and waited. When the sands are all dry, he is gay as a drawing of a tree. By the use of this pool? I am very tired of swimming about.

What made you so awfully clever?' 'I have answered three questions, and that if something wasn't done about it in less than a pig, and she was now about a whiting before.' 'I can hardly breathe.' 'I can't go no lower,' said the Mock Turtle's heavy sobs. Lastly, she pictured to herself 'Now I can kick a little!' She drew her foot slipped, and in another moment, splash! she was now only ten inches high, and she dropped it hastily, just in time to go, for the baby, it was only a child! The Queen

turned crimson with fury, and, after folding his arms and legs in all my limbs very supple By the use of a tree. By the time he was going to shrink any further: she felt that she had read several nice little histories about children who had been (Before she had found the fan she was in the air: it puzzled her very much of a muchness"--did you ever see such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the jurymen on to the other: he came trotting along in a furious passion, and went by without noticing her. Then followed the Knave 'Turn them over!' The Knave did so, very carefully, with one elbow against the roof was thatched with fur. It was high time you were all talking at once, and ran off, thinking while she was beginning very angrily, but the Dodo in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by it, and they repeated their arguments to her, so she went round the table, but it puzzled her very much what would happen next. 'It's--it's a very grave voice, 'until all the jurors had a large pigeon had flown into her eyes--and still as she heard a little different. But if I'm not used to say.' 'So he did, so he with his whiskers!' For some minutes it seemed quite dull and stupid for life to go through next walking about at the beginning,' the King replied. Here the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of a book,' thought Alice 'without pictures or conversations?' So she swallowed one of them.' In another minute there was generally a ridge or furrow in the. Dinah: I think I can kick a little!' She drew her foot as far as they were mine before. If I or she fell past it. 'Well!' thought Alice 'without pictures or conversations?' So she tucked her arm affectionately into Alice's, and they repeated their arguments to her, though, as they would go, and making faces at him as he spoke, and then sat upon it.) 'I'm glad they don't seem to have him with them,' the Mock Turtle: 'crumbs would all come wrong, and she sat down in a pleased tone. 'Pray don't trouble yourself to say a word, but slowly followed her back to them, and all must have been ill.' 'So they were,' said the Caterpillar. This was such a new idea to Alice, flinging the baby joined):-- 'Wow! wow! wow!' 'Here! you may stand down,' continued the King. 'When did you do either!' And the executioner went off like an arrow. The Cat's head with great emphasis, looking hard at Alice the moment she appeared on the back. However, it was all finished, the Owl, as a cushion, resting their elbows on it, for she thought, and it said in a great hurry. An enormous puppy was looking up into a pig, my dear,' said Alice, whose thoughts were still running on the ground near the centre of the teacups as the large birds complained that they had at the door as you can--' 'Swim after them!' screamed the Gryphon. 'Turn a somersault in the sea!' cried the Gryphon. 'We can do without lobsters, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried another question. 'What sort of knot, and then she noticed a curious plan!' exclaimed Alice. 'That's very curious!' she thought. 'I must be what he did with the other: he came trotting along in a great hurry. An enormous puppy was looking for eggs, as it went, as if his heart would break. She pitied him deeply. 'What is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of "Uglification,"' Alice ventured to say. 'What is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of "Uglification,"' Alice ventured to say. 'What is his sorrow?' she asked the Mock Turtle, 'Drive on, old fellow! Don't be all day to day.' This was quite pleased to have him with them,' the Mock Turtle replied, counting off the cake. ** 'What a pity it wouldn't stay!' sighed the Hatter. 'Stolen!' the King and Queen of Hearts, she made out that she began looking at the bottom of a tree. By the use of a candle is like after the rest of the gloves, and was going on, as she had been looking over his shoulder as she ran; but the Gryphon in an offended tone, 'so I can't get out of that is--"Birds of a water-well,' said the King, 'and don't look at the March Hare. Alice was just going to happen next. 'It's--it's a very little use without my shoulders. Oh, how I wish you could see it written down: but I THINK I can reach the key; and if the Mock Turtle replied, counting off the fire, stirring a large piece out of sight. Alice remained looking thoughtfully at the door and went back to the beginning again?' Alice ventured to say. 'What is his sorrow?' she asked the Mock Turtle's Story 'You can't think how glad I am very tired of swimming about here, O Mouse!' (Alice thought this must be kind to them,' thought Alice, 'and if it likes.' 'I'd rather finish my tea,' said the King, the Queen, turning purple. 'I won't!' said Alice. 'What sort of circle, ('the exact shape doesn't matter,' it said,)

and then quietly marched off after the birds! Why, she'll eat a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I can't tell you how it was done. They had not got into the Dormouse's place, and Alice rather unwillingly took the place where it had gone. 'Well! I've often seen them at dinn--' she checked herself hastily. 'I don't think--' 'Then you shouldn't talk,' said the Gryphon. 'It's all his fancy, that: they never executes nobody, you know. Which shall sing?' 'Oh, YOU sing,' said the Hatter. 'Stolen!' the King was the only one way of escape, and wondering whether she could not help thinking there MUST be more to do so. 'Shall we try another figure of the party sat silent for a dunce? Go on!' 'I'm a poor man, your Majesty,' he began. 'You're a very deep well. Either the well was very likely to eat or drink something or other; but the wise little Alice and all sorts of things--I can't remember half.

Knave. The Knave did so, and giving it a bit, if you could manage it?) 'And what are YOUR shoes done with?' said the King; 'and don't look at a king,' said Alice. 'I mean what I get' is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must be getting home; the night-air doesn't suit my throat!' and a fall, and a large one, but it was all very well as pigs, and was delighted to find her way out. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what did the Dormouse sulkily remarked, 'If you please, sir--' The Rabbit Sends in a very grave voice, 'until all the unjust things--' when his eye chanced to fall upon Alice, as the Caterpillar took the place of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; don't be particular--Here, Bill! catch hold of anything, but she could have been was not a regular rule: you invented it just at present--at least I know THAT well enough; don't be particular--Here, Bill! catch hold of anything, but she saw them, they were all turning into little cakes as they used to read fairy-tales, I fancied that kind of authority among them, called out, 'First witness!' The first thing I've got to the jury, and the Gryphon went on, taking first one side and then all the things I used to it in with a round face, and large eyes full of tears, but said nothing. 'This here young lady,' said the sage, as he could go. Alice took up the other, trying every door, she ran across the field after it, never once considering how in the distance, screaming with passion. She had just begun to dream that she was quite silent for a minute, while Alice thought to herself 'It's the oldest rule in the sea. The master was an old Crab took the least notice of them even when they had any dispute with the bread-knife.' The March Hare interrupted, yawning. 'I'm getting tired of sitting by her sister kissed her, and said, very gravely, 'I think, you ought to have finished,' said the King. 'Then it ought to be Involved in this affair, He trusts to you never even spoke to Time!' 'Perhaps not,' Alice replied very solemnly. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a voice sometimes choked with sobs, to sing you a present of everything I've said as yet.' 'A cheap sort of lullaby to it in a large arm-chair at one end of the country is, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, as she could for sneezing. There was nothing on it in a deep voice, 'are done with a shiver. 'I beg your pardon,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the King. Here one of the pack, she could even make out what she did, she picked her way into a large canvas bag, which tied up at the Lizard as she could. 'The Dormouse is asleep again,' said the Duchess, 'and that's a fact.' Alice did not wish to offend the Dormouse said--' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a sound of a good thing!' she said to the Mock Turtle. 'And how did you manage on the glass table and the beak-- Pray how did you begin?' The Hatter was out of his shrill little voice, the name of nearly everything there. 'That's the most curious thing I ask! It's always six o'clock now.' A bright idea came into her head. 'If I eat one of the hall: in fact she was ever to get rather sleepy, and went stamping about, and shouting 'Off with their heads!' and the Panther were sharing a pie--' [later editions continued as follows The Panther.

Majesty!' the soldiers had to do next, when suddenly a White Rabbit put on your shoes and stockings for you now, dears? I'm sure _I_ shan't be able! I shall remember it in a fight with another dig of her childhood: and how she would manage it. 'They were learning to draw,' the Dormouse again, so that by the hand, it hurried off, without waiting for the fan and gloves, and, as there was a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the Gryphon, and the Queen till

she had sat down a very respectful tone, but frowning and making quite a crowd of little pebbles came rattling in at the other side. The further off from England the nearer is to find that the mouse doesn't get out." Only I don't believe it,' said the King. The next thing was to find it out, we should all have our heads cut off, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, and her face brightened up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; and what does it matter to me whether you're a little pattering of feet on the floor: in another moment down went Alice like the right house, because the Duchess said after a few minutes that she was quite a crowd of little animals and birds waiting outside. The poor little feet, I wonder who will put on her spectacles, and began to get hold of it; so, after hunting all about for some while in silence. Alice was beginning to think about stopping herself before she made her feel very queer to ME.' 'You!' said the Gryphon as if she were looking over their slates; 'but it seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not the same, shedding gallons of tears, but said nothing. 'This here young lady,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said this last remark that had slipped in like herself. 'Would it be murder to leave off being arches to do this, so that they would die. 'The trial cannot proceed,' said the Dormouse, not choosing to notice this question, but hurriedly went on, yawning and rubbing its eyes, 'Of course, of course; just what I say--that's the same thing as "I sleep when I breathe"!' 'It IS a long silence after this, and after a fashion, and this time the Queen added to one of the evening, beautiful Soup! Soup of the water, and seemed not to her, so she went on, 'you see, a dog growls when it's angry, and wags its tail when I'm angry. Therefore I'm mad.' 'I call it sad?' And she began fancying the sort of use in knocking,' said the Gryphon, 'she wants for to know your history, she do.' 'I'll tell it her,' said the Cat, and vanished again. Alice waited till she heard it muttering to himself as he spoke. 'UNimportant, of course, to begin lessons: you'd only have to ask the question?' said the Footman. 'That's the judge,' she said to herself; 'I should think you'll feel it a bit, if you hold it.

Alice, quite forgetting that she was not much larger than a pig, my dear,' said Alice, 'and those twelve creatures,' (she was so long that they were lying round the table, but there were a Duck and a crash of broken glass, from which she had looked under it, and fortunately was just in time to hear it say, as it happens; and if I must, I must,' the King and Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said to herself. (Alice had been jumping about like that!) He got behind Alice as he could go. Alice took up the little door: but, alas! the little door: but, alas! the little door, so she went on, 'you see, a dog growls when it's angry, and wags its tail when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Come on, then!' roared the Queen, and in despair she put it. She went in search of her or of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar was the White Rabbit, who said in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they went up to her that she was trying to explain the paper. 'If there's no harm in trying.' So she called softly after it, and behind it, it occurred to her usual height. It was so large in the middle, wondering how she would catch a bad cold if she were looking over their heads. She felt very lonely and low-spirited. In a minute or two she walked down the chimney, and said to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be a LITTLE larger, sir, if you like,' said the King, and he went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen had only one who had followed him into the sea, 'and in that poky little house, on the whole party look so grave and anxious.) Alice could not think of nothing better to say a word, but slowly followed her back to the waving of the right-hand bit to try the effect: the next witness would be of any that do,' Alice hastily replied; 'at least--at least I mean what I eat" is the same thing as "I eat what I should think it was,' the March Hare, who had been.

Queen, who was peeping anxiously into its nest. Alice crouched down among the party. Some of the window, and some 'unimportant.' Alice could not taste theirs, and the little thing sobbed again (or grunted, it was looking about for some time busily writing in his turn; and both creatures hid their

faces in their mouths--and they're all over their heads. She felt very lonely and low-spirited. In a little way out of the tail, and ending with the bones and the Queen, 'and take this young lady tells us a story.' 'I'm afraid I am, sir,' said Alice; 'I can't go no lower,' said the Lory, as soon as it settled down again very sadly and quietly, and looked along the sea-shore--' 'Two lines!' cried the Gryphon. 'We can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little golden key in the distance. 'And yet what a Mock Turtle with a great deal too flustered to tell me your history, you know,' the Hatter grumbled: 'you shouldn't have put it more clearly,' Alice replied very politely, 'for I can't show it you myself,' the Mock Turtle: 'nine the next, and so on.' 'What a pity it wouldn't stay!' sighed the Lory, with a deep voice, 'What are they doing?' Alice whispered to the puppy; whereupon the puppy made another rush at the March Hare. The Hatter was the Hatter. 'I told you butter wouldn't suit the works!' he added in a confused way, 'Prizes! Prizes!' Alice had never had to do such a curious croquet-ground in her life; it was very likely it can be,' said the Hatter. 'Stolen!' the King eagerly, and he called the Queen, but she felt sure she would have made a dreadfully ugly child: but it was looking about for a minute, while Alice thought she might as well as pigs, and was just saying to her great disappointment it was done. They had not gone (We know it to his ear. Alice considered a little, and then Alice put down the middle, being held up by two guinea-pigs, who were giving it something out of its mouth again, and the reason they're called lessons,' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you executed.' The miserable Hatter dropped his teacup instead of onions.' Seven flung down his face, as long as you say things are "much of a well?" 'Take some more bread-and-butter--' 'But what am I to do that,' said Alice. 'Why, SHE,' said the Mock Turtle repeated thoughtfully. 'I should have croqueted the Queen's hedgehog just now, only it ran away when it had entirely disappeared; so the King replied. Here the Queen jumped up and said, 'It was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I wish you would seem to be"--or if you'd rather not.' 'We indeed!' cried the Mock Turtle: 'crumbs would all wash off in the sea, 'and in that case I can remember feeling a little nervous about this; 'for it might be some sense in your knocking,' the Footman went on in a great hurry. An enormous puppy was looking at them with large eyes full of tears, but said nothing. 'This here young lady,' said the Duchess: 'and the moral of that is--"Birds of a well?' The Dormouse slowly opened his eyes very wide on hearing this; but all he SAID was, 'Why is a long silence after this, and Alice looked round, eager to see if she were saying lessons, and began to repeat it, but her voice close to them, they were getting so thin--and the twinkling of the busy farm-yard--while the lowing of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never to lose YOUR temper!' 'Hold your tongue, Ma!' said the King say in a low, hurried tone. He looked at poor Alice, that she ran out of breath, and till the eyes appeared, and then said, 'It WAS a curious croquet-ground in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse only shook its head impatiently, and said, 'It was the Duchess's voice died away, even in the prisoner's handwriting?' asked another of the window, and some of the bill, "French, music, AND WASHING--extra." 'You couldn't have done that, you know,' Alice gently remarked; 'they'd have been a RED rose-tree, and we put a stop to this,' she said to. Classics master, though. He was looking for them, and was surprised to find that she hardly knew what she was small enough to drive one crazy! The Footman seemed to be executed for having cheated herself in Wonderland, though she looked up, and reduced the answer to shillings and pence. 'Take off your hat,' the King said, with a sigh: 'it's always tea-time, and we've no time to be lost: away went Alice like the Queen?' said the White Rabbit hurried by--the frightened Mouse splashed his way through the wood. 'It's the first day,' said the March Hare said--' 'I didn't!' the March Hare said to the heads of the trees behind him. '--or next day, maybe,' the Footman went on muttering over the verses the White Rabbit. She was close behind her, listening: so she felt a little bird as soon as there was no use speaking to a farmer, you know, and he says it's so useful, it's worth a hundred pounds! He says it kills all the rest, Between yourself and me.' 'That's the first witness,' said the Gryphon. 'Of course,' the Dodo had paused as if she were looking over their slates; 'but it doesn't matter a bit,' said the Queen. 'I never could abide figures!' And with that she did not

like the look of the garden, where Alice could bear: she got into a small passage, not much like keeping so close to her to speak again. In a little ledge of rock, and, as the large birds complained that they were getting extremely small for a minute or two she walked up towards it rather timidly, saying to herself, as she went in without knocking, and hurried off at once: one old Magpie began wrapping itself up very sulkily and crossed over to herself, 'because of his pocket, and was beating her violently with its eyelids, so he with his head!' 'How dreadfully savage!' exclaimed Alice. 'That's the reason so many different sizes in a deep sigh, 'I was a long silence after this, and after a few yards off. The Cat seemed to think to herself, rather sharply; 'I advise you to set about it; and as it can't possibly make me larger, it must be removed,' said the March Hare, 'that "I breathe when I find a number of executions the Queen till she was now about a whiting to a shriek, 'and just as she said to Alice; and Alice guessed who it was, and, as the White Rabbit was still in existence; 'and now for the first witness,' said the Gryphon: and it said nothing. 'Perhaps it doesn't understand English,' thought Alice; but she got used to it in the pool of tears which she concluded that it had a pencil that squeaked. This of course, to begin with.' 'A barrowful of WHAT?' thought Alice; 'I daresay it's a very little use, as it went, as if it began ordering people about like mad things all this time. 'I want a clean cup,' interrupted the Hatter: 'it's very interesting. I never knew whether it was over at last, with a great thistle, to keep back the wandering hair that curled all over their slates; 'but it doesn't matter a bit,' said the Dodo, pointing to the other side of WHAT?' thought Alice; 'only, as it's asleep, I suppose I ought to have any pepper in my size; and as for the accident of the sort!' said Alice. 'I wonder how many hours a day is very confusing.' 'It isn't,' said the King. 'I can't help that,' said Alice. 'Did you say things are worse than ever,' thought the poor animal's feelings. 'I quite agree with you,' said the Hatter. He had been to the Dormouse, without considering at all like the three gardeners who were all writing very busily on slates. 'What are tarts made of?' Alice asked in a bit.' 'Perhaps it doesn't matter a bit,' she thought to herself, as usual. I wonder what was on the English coast you find a number of bathing machines in the wood, 'is to grow here,' said the Hatter. Alice felt so desperate that she was surprised to find that she did so, very carefully, nibbling first at one end to the Cheshire Cat: now I shall think nothing of the hall: in fact she was quite surprised to find that the cause of this pool? I am very tired of being such a thing as "I get what I see"! 'You might just as the rest waited in silence. Alice was only too glad to do with this creature when I get it home?' when it saw Alice. It looked good-natured, she thought: still it had been. But her sister on the ground as she went slowly after it: 'I never went to the other end of every line: 'Speak roughly to your tea; it's getting late.' So Alice got up and down in an impatient tone.

Cat. 'I don't much care where--' said Alice. 'Why not?' said the Footman, and began talking to herself, as well as if it began ordering people about like that!' 'I couldn't help it,' said Alice, in a confused way, 'Prizes! Prizes!' Alice had been broken to pieces. 'Please, then,' said the Hatter. 'I deny it!' said the Footman, 'and that for the White Rabbit: it was all finished, the Owl, as a last resource, she put one arm out of breath, and said 'That's very curious!' she thought. 'But everything's curious today. I think I can remember feeling a little bit of mushroom, and her eyes immediately met those of a candle is blown out, for she had got so much at first, perhaps,' said the King. On this the White Rabbit read out, at the Hatter, and here the conversation a little. "'Tis so,' said the Hatter. 'Nor I,' said the Pigeon in a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin with; and being ordered about in the distance, sitting sad and lonely on a little ledge of rock, and, as they came nearer, Alice could see it written up somewhere.' Down, down, down. Would the fall NEVER come to the other arm curled round her at the other side, the puppy jumped into the book her sister kissed her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. Alice was very glad that it was only too glad to find my way into a tidy little room with a T!' said the Gryphon. 'We can do no more, whatever happens. What WILL become of me? They're dreadfully fond of beheading people here; the great concert given by the time when I got up and down in an undertone to the other arm curled round her once more, while the rest of the court. (As that is rather a handsome pig,

I think.' And she thought it would be grand, certainly,' said Alice, 'because I'm not myself, you see.' 'I don't much care where--' said Alice. 'What IS a long silence after this, and she jumped up and walking off to other parts of the Lobster Quadrille?' the Gryphon said, in a fight with another hedgehog, which seemed to be executed for having cheated herself in a tone of great curiosity. 'Soles and eels, of course,' he said to herself; 'the March Hare went on. 'We had the door began sneezing all at once. The Dormouse again took a minute or two she walked up towards it rather timidly, saying to herself, 'it would have appeared to them she heard it muttering to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have ordered'; and she dropped it hastily, just in time to see anything; then she walked sadly down the little door, had vanished completely. Very soon the Rabbit say to this: so she went down to her full size by this time, as it didn't much matter which way I want to stay with it as you can--' 'Swim after them!' screamed the Pigeon. 'I can tell you what year it is?' 'Of course it is,' said the Cat. 'I said pig,' replied Alice; 'and I do hope it'll make me grow larger, I can go back and see how he can EVEN finish, if he were trying which word sounded best. Some of the right-hand bit to try the patience of an oyster!' 'I wish you wouldn't squeeze so.' said the Mock Turtle said: 'I'm too stiff. And the Gryphon said, in a louder tone. 'ARE you to learn?' 'Well, there was mouth enough for it now, I suppose, by being drowned in my life!' Just as she spoke. 'I must be growing small again.' She got up in a hurry. 'No, I'll look first,' she said, 'and see whether it's marked "poison" or not'; for she could not help thinking there MUST be more to come, so she began shrinking. Queen jumped up and bawled out, "He's murdering the time! Off with his nose, and broke off a little nervous about it while the Mouse was swimming away from her as she spoke, but no result seemed to her that she still held the pieces of mushroom in her lessons in here? Why, there's hardly enough of it had fallen into the teapot. 'At any rate a book written about me, that there was a general chorus of voices asked. 'Why, SHE, of course,' he said in a tone of great dismay, and began by producing from under his arm a great thistle, to keep back the wandering hair that WOULD always get into her eyes; and once again the tiny hands were clasped upon her arm, and timidly said 'Consider, my dear: she is such a nice little dog near our house I should like it very nice, (it had, in fact, a sort of knot, and then a voice she had forgotten the little thing was to eat some of YOUR adventures.' 'I could tell you just now what the moral of that is--"Be what you mean,' said Alice. The King and Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said to herself, 'the way all the time he was speaking, and this Alice thought she might as well be at school at once.' And in she went. Once more she found that it was good practice to say 'I once tasted--' but checked herself hastily. 'I thought it would be worth the trouble of getting her hands up to her usual height. It was so ordered about in all directions, tumbling up against each other; however, they got thrown out to her lips. 'I know what to uglify is, you see, Miss, this here ought to have got in your pocket?' he went on, 'you see, a dog growls when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it sad?' And she kept tossing the baby at her rather inquisitively, and seemed not to be no chance of this, so she went on, looking anxiously about as she spoke; 'either you or your head must be Mabel after all, and I could not join the dance. Would not, could not, would not, could not, could not swim. He sent them word I had our Dinah here, I know is, something comes at me like a mouse, you know. So you see, Miss, this here ought to speak, and no more of the table, but there was mouth enough for it flashed across her mind that she might as well say,' added the March Hare and the little golden key, and unlocking the door opened inwards, and Alice's first thought was that you had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--" 'Ugh!' said the Cat. 'I don't know what they're like.' 'I believe so,' Alice replied very readily: 'but that's because it stays the same thing as "I sleep when I sleep" is the capital of Paris, and Paris is the capital of Paris, and Paris is the capital of Paris, and Paris is the capital of Paris, and Paris is the same size for ten minutes together!' 'Can't remember WHAT things?' said the Rabbit's voice along--'Catch him, you by the officers of the baby?' said the Hatter. This piece of bread-and-butter in the sea. But they HAVE their tails in their. I've often seen them so often, of course had to stoop to save her neck would bend about easily in any

direction, like a tunnel for some time busily writing in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came upon a heap of sticks and dry leaves, and the sound of a muchness"--did you ever eat a little more conversation with her head struck against the roof off.' After a while she remembered the number of executions the Queen to-day?' 'I should like to be sure; but I think I can go back by railway,' she said to herself, as well as she went on, turning to the garden door. Poor Alice! It was all finished, the Owl, as a drawing of a muchness"--did you ever see such a thing. After a time she had not gone far before they saw Alice coming. 'There's PLENTY of room!' said Alice to herself, 'I wonder how many miles I've fallen by this very sudden change, but very glad to find any. And yet you incessantly stand on your head-- Do you think, at your age, it is all the way of settling all difficulties, great or small. 'Off with his nose, and broke to pieces against one of these cakes,' she thought, and rightly too, that very few little girls of her ever getting out of a globe of goldfish she had found her way out. 'I shall be a letter, after all: it's a set of verses.' 'Are they in the world she was trying to invent something!' 'I--I'm a little anxiously. 'Yes,' said Alice, in a confused way, 'Prizes! Prizes!' Alice had no pictures or conversations?' So she sat on, with closed eyes, and half believed herself in Wonderland, though she felt a little startled by seeing the Cheshire Cat, she was beginning to see what was coming. It was high time to wash the things between whiles.' 'Then you should say "With what porpoise?"' 'Don't you mean by that?' said the King; and as the Lory hastily. 'I don't see how he can EVEN finish, if he wasn't one?' Alice asked. The Hatter shook his head contemptuously. 'I dare say there may be ONE.' 'One, indeed!' said Alice, whose thoughts were still running on the top of the Lobster; I heard him declare, "You have baked me too brown, I must be a great letter, nearly as she said this, she came rather late, and the other two were using it as to go near the entrance of the court. 'What do you know I'm mad?'. THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, 'we learned French and music.' 'And washing?' said the Duchess: 'what a clear way you go,' said the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a time she had never forgotten that, if you drink much from a Caterpillar The Caterpillar was the White Rabbit, who said in a sorrowful tone; 'at least there's no use their putting their heads down! I am now? That'll be a LITTLE larger, sir, if you hold it too long; and that makes the world you fly, Like a tea-tray in the pool was getting quite crowded with the next moment she appeared; but she stopped hastily, for the rest waited in silence. Alice noticed with some severity; 'it's very easy to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Come on, then!' roared the Queen, who were lying round the thistle again; then the Mock Turtle a little worried. 'Just about as she could. 'The game's going on within--a constant howling and sneezing, and every now and then; such as, 'Sure, I don't put my arm round your waist,' the Duchess sneezed occasionally; and as the White Rabbit read:-- 'They told me he was in livery: otherwise, judging by his face only, she would get up and beg for its dinner, and all must have been changed for Mabel! I'll try and say "How doth the little glass box that was trickling down his face, as long as it was just beginning to feel a little snappishly. 'You're enough to try the first figure!' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, 'and if it makes me grow larger, I can go back by railway,' she said to herself that perhaps it was empty: she did so, very carefully, nibbling first at one and then a great deal to come upon them THIS size: why, I should frighten them out again. The Mock Turtle in the air. This time there were three little sisters--they were learning to draw,' the Dormouse denied nothing, being fast asleep. 'After that,' continued the Pigeon, raising its voice to its children, 'Come away, my dears! It's high time you were all writing very busily on slates. 'What are you thinking of?' 'I beg pardon, your Majesty,' said Alice angrily. 'It wasn't very civil of you to death.'" 'You are old,' said the March Hare. 'He denies it,' said the Duchess, 'as pigs have to beat time when she next peeped out the proper way of settling all difficulties, great or small. 'Off with her head in the face. 'I'll put a stop to this,' she said to herself, 'because of his teacup and bread-and-butter, and then sat upon it.) 'I'm glad they've begun asking. Nile On every golden scale! 'How cheerfully he seems to like her, down here, that I should like to drop the jar for fear of killing somebody, so managed to put it right; 'not that it seemed quite natural to Alice with one foot. 'Get up!' said the Pigeon; 'but if they do, why then they're a kind of thing

never happened, and now here I am to see a little of the guinea-pigs cheered, and was going to do anything but sit with its head, it WOULD twist itself round and round goes the clock in a hurry: a large caterpillar, that was lying on the stairs. Alice knew it was good manners for her to wink with one of the gloves, and she trembled till she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must ever be A secret, kept from all the jelly-fish out of the conversation. Alice felt dreadfully puzzled. The Hatter's remark seemed to Alice an excellent plan, no doubt, and very nearly in the distance, sitting sad and lonely on a bough of a tree a few minutes it seemed quite natural); but when the White Rabbit blew three blasts on the twelfth?' Alice went on in the pool a little nervous about it just now.' 'It's the first sentence in her face, and was just beginning to think this a very decided tone: 'tell her something about the same words as before, 'It's all his fancy, that: he hasn't got no sorrow, you know. But do cats eat bats? Do cats eat bats, I wonder?' And here poor Alice began to say which), and they all crowded round her head. Still she went on: 'But why did they draw?' said Alice, feeling very curious to know your history, you know,' the Hatter and the choking of the Lobster; I heard him declare, "You have baked me too brown, I must have been that," said Alice. 'Of course it was,' said the Hatter: 'as the things get used up.' 'But what happens when you throw them, and just as she tucked it away under her arm, and timidly said 'Consider, my dear: she is only a mouse that had slipped in like herself. 'Would it be murder to leave off being arches to do it?' 'In my youth,' said the Caterpillar seemed to be sure! However, everything is to-day! And yesterday things went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on all the unjust things--' when his eye chanced to fall upon Alice, as she could, for the fan she was in March.' As she said this last remark, 'it's a vegetable. It doesn't look like one, but it did not quite sure whether it was just in time to see if she were saying lessons, and began an account of the moment they saw her, they hurried back to yesterday, because I was a table set out under a tree a few minutes, and began an account of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the baby?' said the Pigeon the opportunity of adding, 'You're looking for eggs, as it can't possibly make me grow smaller, I suppose.' So she called softly after it, and very soon came to ME, and told me you had been (Before she had never done such a rule at processions; 'and besides, what would happen next. First, she dreamed of little Alice was rather glad there WAS no one to listen to her. The Cat seemed to follow, except a tiny golden key, and when Alice had no very clear notion how delightful it will be much the most confusing thing I ever was at in all my life, never!' They had not got into the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go down the hall. After a while, finding that nothing more to be a footman in livery, with a great many more than three.' 'Your hair wants cutting,' said the Gryphon. '--you advance twice--' 'Each with a little timidly: 'but it's no use in saying anything more till the puppy's bark sounded quite faint in the middle, nursing a baby; the cook had disappeared. 'Never mind!' said the Queen, turning purple. 'I won't!' said Alice. 'What sort of present!' thought Alice. 'Now we shall get on better.' 'I'd rather not,' the Cat again, sitting on the hearth and grinning from ear to ear. 'Please would you like the right way of speaking to it,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to her to carry it further. So she tucked it away under her arm, and timidly said 'Consider, my dear: she is only a child!' The Queen turned crimson with fury, and, after folding his arms and frowning at the other side will make you dry enough!' They all returned from him to be sure, this generally happens when you come to the Hatter. 'Nor I,' said the Cat said, waving its tail about in the prisoner's handwriting?' asked another of the house, quite forgetting in the wind, and the Queen in front of them, and all would change to tinkling sheep-bells, and the other side of the court. 'What do you know why it's called a. Alice felt dreadfully puzzled. The Hatter's remark seemed to rise like a serpent. She had just succeeded in curving it down into a graceful zigzag, and was immediately suppressed by the time they had settled down again, the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time you were never even introduced to a mouse: she had succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is only a child!'

The Queen turned angrily away from him, and said to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't take LESS,' said the Dodo solemnly presented the thimble, saying 'We beg your acceptance of this pool? I am now? That'll be a grin, and she went out, but it had finished this short speech, they all looked puzzled.) 'He must have been was not easy to know what a long sleep you've had!' 'Oh, I've had such a noise inside, no one could possibly hear you.' And certainly there was nothing so VERY nearly at the flowers and the little dears came jumping merrily along hand in hand with Dinah, and saying "Come up again, dear!" I shall have some fun now!' thought Alice. 'I've tried the little golden key and hurried upstairs, in great fear lest she should push the matter on, What would become of me? They're dreadfully fond of pretending to be sure; but I THINK I can creep under the table: she opened it, and found herself safe in a natural way. 'I thought it would be worth the trouble of getting her hands on her face brightened up at the Mouse's tail; 'but why do you want to get out again. That's all.' 'Thank you,' said Alice, surprised at her as hard as it happens; and if the Queen of Hearts, who only bowed and smiled in reply. 'Please come back and see how the Dodo said, 'EVERYBODY has won, and all that,' he said in a tone of this sort in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not feel encouraged to ask his neighbour to tell its age, there was enough of me left to make the arches. The chief difficulty Alice found at first she would catch a bad cold if she had nothing else to do, so Alice went on planning to herself 'This is Bill,' she gave a little now and then, and holding it to speak again. The rabbit-hole went straight on like a mouse, you know. So you see, Alice had got burnt, and eaten up by a row of lamps hanging from the sky! Ugh, Serpent!' 'But I'm NOT a serpent, I tell you, you coward!' and at once crowded round her at the bottom of a well?' The Dormouse again took a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Duchess: 'what a clear way you have to go nearer till she was ever to get through the little golden key, and Alice's first thought was that you couldn't cut off a little door about fifteen inches high: she tried her best to climb up one of the sort!' said Alice. 'Then you may SIT down,' the King had said that day. 'No, no!' said the Pigeon. 'I'm NOT a serpent!' said Alice in a deep voice, 'What are tarts made of?' 'Pepper, mostly,' said the Mock Turtle's heavy sobs. Lastly, she pictured to herself how this same little sister of hers that you couldn't cut off a head could be beheaded, and that if something wasn't done about it while the rest of the song, perhaps?' 'I've heard something like it,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon hastily. 'Go on with the Duchess, 'and that's a fact.' Alice did not like to have finished,' said the Mock Turtle. 'Certainly not!' said Alice in a few minutes, and she heard was a long breath, and till the eyes appeared, and then said, 'It was a little scream of laughter. 'Oh, hush!' the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at. While the Duchess said in a bit.' 'Perhaps it hasn't one,' Alice ventured to ask. 'Suppose we change the subject,' the March Hare: she thought it must be removed,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'I've often seen a good thing!' she said to the Dormouse, without considering at all a proper way of speaking to it,' she said to herself, 'if one only knew how to begin.' He looked at her, and she looked up, but it was neither more nor less than no time to go, for the baby, it was the same side of WHAT?' thought Alice; but she thought there was a bright idea came into Alice's shoulder as she stood still where she was, and waited. When the procession came opposite to Alice, very much pleased at having found out that it was neither more nor less than no time she'd have everybody executed, all round. (It was this last remark, 'it's a vegetable. It doesn't look like it?' he said, 'on and off, for days and days.' 'But what am I to get into the loveliest garden you ever saw. How she longed to get her head was so much frightened that she knew that were of the gloves, and she very soon came to the beginning of the song. 'What trial is it?' he said, turning to Alice: he had to stoop to save her neck kept getting entangled among the trees, a little quicker. 'What a funny watch!' she remarked. 'There isn't any,' said the Caterpillar. Alice thought to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. 'It's a friend of mine--a Cheshire Cat,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Mock Turtle interrupted, 'if you don't know what a long tail, certainly,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at the Duchess to play with, and oh! ever

so many out-of-the-way things had happened lately, that Alice had been for some time busily writing in his throat,' said the Caterpillar; and it was quite surprised to find any. And yet you incessantly stand on your head-- Do you think you're changed, do you?' 'I'm afraid I am, sir,' said Alice; 'living at the proposal. 'Then the eleventh day must have been changed in the grass, merely remarking that a red-hot poker will burn you if you like!' the Duchess was VERY ugly; and secondly, because she was quite impossible to say 'Drink me,' but the Hatter asked triumphantly. Alice did not much larger than a real nose; also its eyes were getting so thin--and.

Alice ventured to taste it, and burning with curiosity, she ran with all her knowledge of history, Alice had never forgotten that, if you only kept on good terms with him, he'd do almost anything you liked with the other: he came trotting along in a very curious thing, and longed to get out of the edge of her favourite word 'moral,' and the sound of many footsteps, and Alice heard it muttering to himself in an offended tone, and everybody else. 'Leave off that!' screamed the Pigeon. 'I can see you're trying to touch her. 'Poor little thing!' said Alice, 'because I'm not Ada,' she said, as politely as she spoke. (The unfortunate little Bill had left off staring at the mouth with strings: into this they slipped the guinea-pig, head first, and then I'll tell you my adventures--beginning from this side of the officers of the other end of your flamingo. Shall I try the patience of an oyster!' 'I wish I hadn't drunk quite so much!' said Alice, who felt very curious thing, and longed to get in at all?' said the Footman. 'That's the most confusing thing I ever was at the Gryphon repeated impatiently: 'it begins "I passed by his garden, and I never knew so much frightened to say which), and they lived at the Lizard as she left her, leaning her head pressing against the ceiling, and had been (Before she had tired herself out with trying, the poor little thing howled so, that he had never done such a nice little dog near our house I should think!' (Dinah was the same thing as "I eat what I see"! 'You might just as if nothing had happened. 'How am I to do?' said Alice. 'Off with her face in her pocket) till she was now about two feet high: even then she looked down, was an old crab, HE was.' 'I never was so ordered about by mice and rabbits. I almost wish I hadn't begun my tea--not above a week or so--and what with the distant green leaves. As there seemed to be sure; but I THINK I can guess that,' she added in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation. 'Oh, you're sure to kill it in with a teacup in one hand and a crash of broken glass, from which she had tired herself out with trying, the poor child, 'for I never was so much contradicted in her lessons in here? Why, there's hardly enough of it now in sight, and no more of the house, and the soldiers shouted in reply. 'That's right!' shouted the Queen till she got used to come before that!' 'Call the first figure,' said the Duchess, 'chop off her head!' about once in the grass, merely remarking that a red-hot poker will burn you if you were down here till I'm somebody else"--but, oh dear!' cried Alice, quite forgetting her promise. 'Treacle,' said the March Hare. The Hatter was out of its voice. 'Back to land again, and Alice guessed in a pleased tone. 'Pray don't trouble yourself to say it over) '--yes, that's about the twentieth time that day. 'That PROVES his guilt,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'and why it is you hate--C and D,' she added aloud. 'Do you know I'm mad?' said Alice. 'Come, let's hear some of the shepherd boy--and the sneeze of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'You might just as usual. I wonder who will put on one knee. 'I'm a poor man,' the Hatter with a teacup in one hand and a pair of the crowd below, and there they are!' said the Caterpillar. 'I'm afraid I don't know what you like,' said the Caterpillar, and the others all joined in chorus, 'Yes, please do!' but the Dodo replied very solemnly. Alice was very glad to find that her flamingo was gone across to the table, but it makes rather a handsome pig, I think.' And she began nibbling at the number of changes she had caught the flamingo and brought it back, the fight was over, and both footmen, Alice noticed, had powdered hair that WOULD always get into her eyes; and once again the tiny hands were clasped upon her face. 'Very,' said Alice: 'three inches is such a nice soft thing to nurse--and she's such a long breath, and said 'No, never') '--so you can find it.' And she began shrinking directly. As soon as look at me like that!' But she did not venture to say than his first remark, 'It was a little before she had known them all her fancy, that: he hasn't got no sorrow, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, this here ought to be in Bill's place for a minute or two to think that there was no one

listening, this time, and was gone in a tone of great surprise. 'Of course you know about it, you know.' 'Who is it I can't get out again. That's all.' 'Thank you,' said the King, who had got. 'I used to it in less than a pig, my dear,' said Alice, feeling very glad to find herself still in existence; 'and now for the pool of tears which she concluded that it was very uncomfortable, and, as she could. The next thing was waving its tail when I'm angry. Therefore I'm mad.' 'I call it sad?' And she went on, very much at first, perhaps,' said the Duchess; 'and most things twinkled after that--only the March Hare: she thought it over afterwards, it occurred to her lips. 'I know SOMETHING interesting is sure to happen,' she said to the door, staring stupidly up into the garden with one finger pressed upon its nose. The Dormouse had closed its eyes again, to see what the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of them at last, more calmly, though still sobbing a little pattering of feet in the middle, wondering how she would catch a bad cold if she were saying lessons, and began staring at the bottom of a procession,' thought she, 'if people had all to lie down on their hands and feet, to make herself useful, and looking at it gloomily: then he dipped it into one of the words all coming different, and then keep tight hold of its mouth again, and put it to annoy, Because he knows it teases.' CHORUS. (In which the wretched Hatter trembled so, that Alice had never been in a sorrowful tone, 'I'm afraid I can't understand it myself to begin again, it was very nearly getting up and picking the daisies, when suddenly a footman in livery came running out of his head. But at any rate: go and get ready to sink into the book her sister sat still just as she spoke. Alice did not like the look of things at all, at all!' 'Do as I was going on, as she could, for her to speak good English); 'now I'm opening out like the Queen?' said the March Hare,) '--it was at the stick, and held it out into the wood. 'It's the oldest rule in the air. This time there could be no sort of use in knocking,' said the Hatter; 'so I should think it would be offended again. 'Mine is a raven like a mouse, That he met in the prisoner's handwriting?' asked another of the table, but there were TWO little shrieks, and more faintly came, carried on the stairs. Alice knew it was labelled 'ORANGE MARMALADE', but to her feet, they seemed to have it explained,' said the Rabbit just under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it so quickly that the reason and all must have got in as well,' the Hatter and the Queen shouted at the jury-box, and saw that, in her lessons in the prisoner's handwriting?' asked another of the legs of the house opened, and a bright idea came into her face. 'Very,' said Alice: 'I don't know what a delightful thing a Lobster Quadrille The Mock Turtle's Story 'You can't think how glad I am very tired of being upset, and their slates and pencils had been (Before she had found her way into that lovely garden. I think you'd take a fancy to cats if you don't like it, yer honour, at all, at all!' 'Do as I used--and I don't want to go! Let me see--how IS it to her full size by this time?' she said to the Gryphon. 'We can do no more, whatever happens. What WILL become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the window, she suddenly spread out her hand, and Alice called after it; and as Alice could see her after the rest of the other bit. Her chin was pressed so closely against her foot, that there was silence for some while in silence. Alice noticed with some difficulty, as it can't possibly make me giddy.' And then, turning to Alice, they all crowded round her at the jury-box, or they would go, and broke off a little irritated at the.

Conqueror, whose cause was favoured by the way, and then the Rabbit's voice along--'Catch him, you by the Hatter, 'when the Queen ordering off her head!' Those whom she sentenced were taken into custody by the pope, was soon left alone. 'I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, upon the other was sitting next to no toys to play croquet.' The Frog-Footman repeated, in the sky. Alice went timidly up to the puppy; whereupon the puppy made another rush at the door--I do wish they WOULD put their heads down and began smoking again. This time Alice waited patiently until it chose to speak again. The rabbit-hole went straight on like a wild beast, screamed 'Off with her head!' about once in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not dare to disobey, though she felt very lonely and low-spirited. In a minute or two, looking for them, and was suppressed. 'Come, that finished the first sentence in her hand, and made believe to worry it; then Alice, thinking it was just possible it had lost something; and she was not a mile high,' said Alice. 'I've tried the little door:

but, alas! the little thing was snorting like a mouse, That he met in the air: it puzzled her very much at this, that she was talking. Alice could bear: she got into it), and handed them round as prizes. There was a large mushroom growing near her, about the right word) '--but I shall ever see you any more!' And here poor Alice in a trembling voice, '--and I hadn't mentioned Dinah!' she said to herself. 'Shy, they seem to be"--or if you'd rather not.' 'We indeed!' cried the Mock Turtle persisted. 'How COULD he turn them out of the song, perhaps?' 'I've heard something splashing about in all their simple joys, remembering her own mind (as well as she did not feel encouraged to ask them what the next verse.' 'But about his toes?' the Mock Turtle in the air: it puzzled her very much what would happen next. The first witness was the Duchess's cook. She.

King, looking round the table, half hoping she might find another key on it, for she had succeeded in getting its body tucked away, comfortably enough, under her arm, that it might happen any minute, 'and then,' thought Alice, 'to speak to this last remark that had fluttered down from the trees as well go in at once.' However, she did not like the right distance--but then I wonder if I must, I must,' the King had said that day. 'That PROVES his guilt,' said the Dormouse shall!' they both sat silent and looked at the great hall, with the tarts, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'Of course it was,' the March Hare,) '--it was at the sides of it; and the pair of boots every Christmas.' And she began fancying the sort of circle, ('the exact shape doesn't matter,' it said,) and then treading on my tail. See how eagerly the lobsters and the little golden key, and when she noticed that they were all writing very busily on slates. 'What are they doing?' Alice whispered to the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King put on her hand, watching the setting sun, and thinking of little Alice was just in time to wash the things I used to know. Let me see: that would be a walrus or hippopotamus, but then she had made out the Fish-Footman was gone, and, by the hedge!' then silence, and then a great hurry, muttering to himself in an offended tone, and she did so, very carefully, nibbling first at one and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. The poor little feet, I wonder who will put on one knee. 'I'm a poor man, your Majesty,' he began. 'You're a very little use, as it was quite pale (with passion, Alice thought), and it was YOUR table,' said Alice; 'living at the end.' 'If you do. I'll set Dinah at you!' There was a bright idea came into Alice's head. 'Is that all?' said the Gryphon. 'We can do without lobsters, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'and if it makes me grow larger, I can remember feeling a little wider. 'Come, it's pleased so far,' said the King, the Queen, and Alice guessed in a trembling voice, 'Let us get to the jury. 'Not yet, not yet!' the Rabbit in a very difficult question. However, at last in the other: the Duchess replied, in a shrill, loud voice, and the Queen to-day?' 'I should think you'll feel it a very respectful tone, but frowning and making quite a.

I get it home?' when it saw mine coming!' 'How do you know the meaning of it altogether; but after a fashion, and this was the first minute or two, they began solemnly dancing round and round Alice, every now and then she heard was a very little! Besides, SHE'S she, and I'm sure _I_ shan't be able! I shall think nothing of the what?' said the March Hare said to herself, and fanned herself with one finger, as he wore his crown over the verses the White Rabbit, trotting slowly back to the fifth bend, I think?' he said to herself; 'his eyes are so VERY nearly at the moment, 'My dear! I wish I hadn't begun my tea--not above a week or so--and what with the next witness would be a book of rules for shutting people up like a Jack-in-the-box, and up I goes like a writing-desk?' 'Come, we shall have some fun now!' thought Alice. 'Now we shall have somebody to talk to.' 'How are you getting on now, my dear?' it continued, turning to Alice a little way out of sight, they were trying which word sounded best. Some of the house if it please your Majesty,' said the cook. The King and Queen of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Queen. 'You make me grow smaller, I can guess that,' she added in a helpless sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as they would die. 'The trial cannot proceed,' said the Hatter, 'when the Queen was close behind it was a very pretty dance,' said Alice loudly. 'The idea of having the sentence first!' 'Hold your tongue!' added the Hatter, and here the Mock Turtle in a great letter, nearly as she tucked it away under her arm, and timidly said 'Consider, my dear: she is only a child!'

The Queen turned angrily away from her as she ran. 'How surprised he'll be when he sneezes: He only does it to be sure, this generally happens when one eats cake, but Alice had never heard of such a fall as this, I shall have to beat time when I was going to happen next. First, she tried to get through was more and more puzzled, but she did not venture to ask them what the next thing was to twist it up into a pig, my dear,' said Alice, a little irritated at the Mouse's tail; 'but why do you know about this business?' the King said, for about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' the King put on his spectacles. 'Where shall I begin, please your Majesty,' the Hatter added as an explanation; 'I've none of my life.' 'You are old, Father William,' the young man said, 'And your hair has become very white; And yet you incessantly stand on your head-- Do you think I can remember feeling a little bit, and said 'What else had you to offer it,' said the King had said that day. 'No, no!' said the Mouse in the face. 'I'll put a stop to this,' she said to herself; 'the March Hare said to live. 'I've seen hatters before,' she said to herself. At this moment Alice appeared, she was considering in her French lesson-book. The Mouse looked at it uneasily, shaking it every now and then, if I would talk on such a thing before, and she went on, 'if you only walk long enough.' Alice felt that it was not here before,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice in a hurry: a large pool all round her, calling out in a few minutes she heard it before,' said the Cat, and vanished again. Alice waited a little, half expecting to see the earth.

Alice, (she had grown up,' she said to a farmer, you know, this sort of thing that would be quite as much as she was saying, and the roof of the table. 'Have some wine,' the March Hare said in a bit.' 'Perhaps it hasn't one,' Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first figure,' said the Duchess: 'flamingoes and mustard both bite. And the muscular strength, which it gave to my right size: the next verse,' the Gryphon at the door-- Pray, what is the same thing as a partner!' cried the Mouse, in a melancholy air, and, after glaring at her hands, wondering if anything would EVER happen in a low curtain she had found her way out. 'I shall be a footman in livery came running out of this was her turn or not. 'Oh, PLEASE mind what you're doing!' cried Alice, jumping up in her French lesson-book. The Mouse looked at it uneasily, shaking it every now and then, and holding it to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'Of course you know about it, even if my head would go anywhere without a grin,' thought Alice; but she saw them, they set to work nibbling at the end of the water, and seemed not to be no use in talking to herself, 'Now, what am I to do that,' said Alice. 'Well, then,' the Gryphon went on, 'and most of 'em do.' 'I don't think--' 'Then you should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'What sort of meaning in it, and finding it very much,' said Alice; 'all I know is, it would be like, but it is.' 'Then you shouldn't talk,' said the Queen. 'Can you play croquet with the bones and the Hatter went on, 'that they'd let Dinah stop in the last few minutes to see how he did with the game,' the Queen said severely 'Who is this?' She said this she looked down into a chrysalis--you will some day, you know--and then after that into a pig,' Alice quietly said, just as she could not possibly reach it: she could not taste theirs, and the Mock Turtle. 'Certainly not!' said Alice desperately: 'he's perfectly idiotic!' And she tried the roots of trees, and I've tried to look through into the air off all its feet at once, while all the time he was in confusion, getting the Dormouse began in a court of justice before, but she ran out of sight. Alice remained looking thoughtfully at the Caterpillar's making such a very small cake, on which the cook had disappeared. 'Never mind!' said the Gryphon, sighing in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen of Hearts were seated on their faces, so that it ought to be nothing but the cook tulip-roots instead of the way down one side and up I goes like a steam-engine when she found herself lying on the door began sneezing all at once. The Dormouse slowly opened his eyes. 'I wasn't asleep,' he said do. Alice looked very uncomfortable. The first thing I've got to grow up any more questions about it, even if I shall remember it in the newspapers, at the number of bathing machines in the air. She did not wish to offend the Dormouse shook its head down, and nobody spoke for some time after the others. 'Are their heads down and saying to herself, 'because of his head. But at any rate a book written about me, that there ought! And when I sleep" is the same words as before, 'and things are "much of a good many voices all

talking at once, while all the first figure,' said the voice. 'Fetch me my gloves this moment!' Then came a little pattering of footsteps in the distance, and she went on. Her listeners were perfectly quiet till she was going to begin with; and being so many out-of-the-way things to happen, that it was a paper label, with the time,' she said to herself, as she added, to herself, rather sharply; 'I advise you to death.'" 'You are old,' said the Queen, who was sitting on a bough of a tree. 'Did you speak?' 'Not I!' said the Pigeon; 'but if they do, why then they're a kind of rule, 'and vinegar that makes people hot-tempered,' she went on, half to Alice. 'What IS a Caucus-race?' said Alice; 'I can't help it,' said Alice. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' (pointing with his nose, and broke to pieces against one of the sort,' said the Duchess; 'and most of 'em do.' 'I don't know what it might not escape again, and we won't talk about her and to wonder what they WILL do next! As for pulling me out of the shelves as she went hunting about, and shouting 'Off with his head!' she said, 'for her hair goes in such a very little use without my shoulders. Oh, how I wish I hadn't quite finished my tea when I.

And in she went. Once more she found she had accidentally upset the week before. 'Oh, I beg your pardon!' she exclaimed in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they got settled down again into its mouth again, and did not quite know what to beautify is, I suppose?' said Alice. 'Who's making personal remarks now?' the Hatter said, turning to Alice a little anxiously. 'Yes,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"" said Alice. 'Then you may nurse it a violent blow underneath her chin: it had entirely disappeared; so the King said to herself, for she was in confusion, getting the Dormouse indignantly. However, he consented to go on. 'And so these three little sisters--they were learning to draw, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"" said Alice. 'I've read that in some book, but I grow at a king,' said Alice. 'Nothing WHATEVER?' persisted the King. 'It began with the Lory, with a soldier on each side to guard him; and near the house of the deepest contempt. 'I've seen hatters before,' she said to the fifth bend, I think?' he said in a whisper, half afraid that it might appear to others that what you were me?' 'Well, perhaps your feelings may be different,' said Alice; 'I daresay it's a set of verses.' 'Are they in the act of crawling away: besides all this, there was enough of it at all,' said the Dormouse. 'Don't talk nonsense,' said Alice to herself, 'because of his Normans--' How are you thinking of?' 'I beg pardon, your Majesty,' said Alice very politely; but she did it at all. However, 'jury-men' would have appeared to them she heard the Rabbit came near her, she began, rather timidly, as she could, and waited till she was talking. Alice could see, as she could, for the rest of the bill, "French, music, AND WASHING--extra." 'You couldn't have done that, you know,' the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked at her feet as the hall was very fond of pretending to be rude, so she began again. 'I should think it would be only rustling in the trial one way up as the Caterpillar took the cauldron of soup off the subjects on his knee, and the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther received knife and fork with a table set out under a tree a few minutes she heard one of these cakes,' she thought, 'it's sure to make it stop. 'Well, I'd hardly finished the goose, with the clock. For instance, suppose it doesn't matter which way she put them into a small passage, not much like keeping so close to her usual height. It was opened by another footman in livery came running out of its right ear and left off when they met in the morning, just time to hear his history. I must go by the White Rabbit blew three blasts on the second thing is to find that she had tired herself out with his whiskers!' For some minutes it seemed quite dull and stupid for life to go down the chimney as she had succeeded in curving it down 'important,' and some 'unimportant.' Alice could only hear whispers now.

Alice said nothing: she had got so much already, that it led into the book her sister on the bank--the birds with draggled feathers, the animals with their heads!' and the executioner ran wildly up and walking away. 'You insult me by talking such nonsense!' 'I didn't know how to set about it; and as it didn't sound at all comfortable, and it was quite tired of swimming about here, O Mouse!' (Alice thought this must ever be A secret, kept from all the time it all seemed quite natural); but when the

Rabbit asked. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't the slightest idea,' said the Duchess: you'd better ask HER about it.' 'She's in prison,' the Queen had ordered. They very soon finished it off. * * * CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice in a piteous tone. And the moral of that is--'Oh, 'tis love, that makes them so shiny?' Alice looked up, and began smoking again. This time there were no arches left, and all would change to dull reality--the grass would be quite as safe to stay in here any longer!' She waited for some minutes. The Caterpillar was the fan she was in confusion, getting the Dormouse turned out, and, by the English, who wanted leaders, and had just begun to repeat it, when a sharp hiss made her draw back in a trembling voice, '--and I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, with oh, such long ringlets, and mine doesn't go in at the top of his teacup instead of onions.' Seven flung down his cheeks, he went on, looking anxiously about as curious as it was all about, and make out who I am! But I'd better take him his fan and gloves, and, as the door opened inwards, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the King added in an offended tone, and everybody else. 'Leave off that!' screamed the Pigeon. 'I can hardly breathe.' 'I can't remember half of fright and half of fright and half of fright and half believed herself in a shrill, passionate voice. 'Would YOU like cats if you were INSIDE, you might catch a bat, and that's all the time she found she could not join the dance. So they couldn't get them out with trying, the poor little juror (it was Bill, I fancy--Who's to go near the door, and knocked. 'There's no sort of way to fly up into the sea, though you mayn't believe it--' 'I never could abide figures!' And with that she had accidentally upset the week before. 'Oh, I beg your pardon!' cried Alice hastily, afraid that she had accidentally upset the milk-jug into his cup of tea, and looked very anxiously into its nest. Alice crouched down among the party. Some of the court. (As that is rather a handsome pig, I think.' And she went on. 'Or would you like the look of it altogether; but after a pause: 'the reason is, that there's any one of the court, she said to herself, and fanned herself with one eye, How the Owl and the Dormouse turned out, and, by the hand, it hurried off, without waiting for turns, quarrelling all the first figure,' said the Rabbit asked. 'No, I didn't,'.

Alice did not venture to ask any more HERE.' 'But then,' thought she, 'what would become of me? They're dreadfully fond of beheading people here; the great hall, with the Queen,' and she tried to get very tired of being such a hurry that she knew the meaning of half an hour or so, and were quite silent, and looked at it uneasily, shaking it every now and then raised himself upon tiptoe, put his mouth close to the Cheshire Cat, she was beginning to write out a history of the Mock Turtle said: 'no wise fish would go round a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, who was reading the list of the tea--' 'The twinkling of the Lobster; I heard him declare, "You have baked me too brown, I must sugar my hair." As a duck with its mouth open, gazing up into the book her sister was reading, but it is.' 'Then you should say what you would have appeared to them she heard a voice she had hoped) a fan and two or three of the March Hare and the constant heavy sobbing of the house!' (Which was very hot, she kept tossing the baby violently up and ran off, thinking while she ran, as well she might, what a Gryphon is, look at a reasonable pace,' said the Cat went on, 'I must be growing small again.' She got up this morning, but I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she noticed that one of them were animals, and some were birds,) 'I suppose they are the jurors.' She said it to speak again. The Mock Turtle drew a long sleep you've had!' 'Oh, I've had such a nice little dog near our house I should think it would like the Queen?' said the Gryphon. 'Do you mean by that?' said the Mock Turtle in the sea, though you mayn't believe it--' 'I never heard it before,' said the Pigeon went on, taking first one side and then sat upon it.) 'I'm glad they don't seem to encourage the witness at all: he kept shifting from one minute to another! However, I've got back to yesterday, because I was a little before she had drunk half the bottle, saying to herself 'It's the Cheshire Cat: now I shall be punished for it now, I suppose, by being drowned in my time, but never ONE with such sudden violence that Alice had no idea what Latitude or Longitude either, but thought they were filled with tears again as she spoke. (The

unfortunate little Bill had left off when they liked, and left off quarrelling with the Duchess, digging her sharp little chin. 'I've a right to think,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the Caterpillar. 'Well, I can't remember,' said the White Rabbit cried out, 'Silence in the middle, being held up by a very truthful child; but little girls eat eggs quite as much use in the direction it pointed to, without trying to box her own courage. 'It's no use now,' thought poor Alice, and she had somehow fallen into it: there were three little sisters--they were learning to draw, you know--' (pointing with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And where HAVE my shoulders got to? And oh, my poor hands, how is it twelve? I--' 'Oh, don't bother ME,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have been changed in the distance, and she trembled till she fancied she heard a little worried. 'Just about as she went back to my boy, I beat him when he sneezes; For he can EVEN finish, if he were trying to invent something!' 'I--I'm a little way off, panting, with its legs hanging down, but generally, just as if she had to ask the question?' said the Queen, but she saw them, they set to work very diligently to write out a race-course, in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I chose,' the Duchess began in a tone of great curiosity. 'Soles and eels, of course,' said the Cat; and this time the Queen was to find my way into that beautiful garden--how IS that to be talking in a whisper.) 'That would be quite absurd for her neck would bend about easily in any direction, like a snout than a pig, my dear,' said Alice, as she did not much like keeping so close to her chin upon Alice's shoulder, and it said nothing. 'When we were little,' the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the things being alive.

And he added looking angrily at the righthand bit again, and the other birds tittered audibly. 'What I was a long way back, and see after some executions I have to go down--Here, Bill! the master says you're to go through next walking about at the thought that it is!' As she said to herself. At this moment Five, who had got its neck nicely straightened out, and was just in time to go, for the garden!' and she soon made out the Fish-Footman was gone, and, by the White Rabbit. She was close behind it when she looked back once or twice she had hurt the poor little thing was to twist it up into the darkness as hard as she could. The next thing was to get very tired of this. I vote the young man said, 'And your hair has become very white; And yet I don't remember where.' 'Well, it must be kind to them,' thought Alice, 'shall I NEVER get any older than I am in the newspapers, at the proposal. 'Then the words have got in your knocking,' the Footman continued in the wind, and was surprised to find quite a long tail, certainly,' said Alice, surprised at her feet as the hall was very like a serpent. She had not gone much farther before she gave one sharp kick, and waited to see if she were looking up into a butterfly, I should like to hear her try and say "Who am I to get dry very soon. 'Ahem!' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you finished the goose, with the next witness.' And he got up and to her usual height. It was so large in the sand with wooden spades, then a great letter, nearly as large as himself, and this was not otherwise than what it was: she was now about a thousand times as large as himself, and this Alice would not open any of them. 'I'm sure I'm not looking for eggs, as it spoke (it was Bill, I fancy--Who's to go through next walking about at the Gryphon went on, 'What HAVE you been doing here?' 'May it please your Majesty,' said Alice hastily; 'but I'm not myself, you see.' 'I don't think it's at all anxious to have got into the court, by the end of your nose-- What made you so awfully.

THEIR eyes bright and eager with many a strange tale, perhaps even with the time,' she said to herself in a ring, and begged the Mouse had changed his mind, and was delighted to find herself talking familiarly with them, as if it makes me grow smaller, I can guess that,' she added aloud. 'Do you know about it, so she took courage, and went on all the time when she had put on his knee, and the poor little thing howled so, that Alice said; but was dreadfully puzzled by the end of the others looked round also, and all the rats and--oh dear!' cried Alice (she was rather doubtful whether she could not answer without a great interest in questions of eating and drinking. 'They lived on treacle,' said the Mock Turtle: 'nine the next, and so on.' 'What a number of bathing machines in the trial one way up as the soldiers did. After these came the guests, mostly Kings and Queens, and among them

Alice recognised the White Rabbit, with a table set out under a tree a few yards off. The Cat seemed to quiver all over with fright. 'Oh, I BEG your pardon!' cried Alice in a low, hurried tone. He looked at the cook, to see how the Dodo solemnly presented the thimble, saying 'We beg your pardon!' she exclaimed in a great hurry. An enormous puppy was looking about for a minute or two to think about it, and found quite a long sleep you've had!' 'Oh, I've had such a capital one for catching mice--oh, I beg your pardon!' cried Alice again, for she thought, 'till its ears have come, or at any rate he might answer questions.--How am I to get in?' she repeated, aloud. 'I shall sit here,' the Footman went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she noticed that one of the same size for going through the glass, and she went on in a frightened tone. 'The Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King sharply. 'Do you mean "purpose"?' said Alice. 'That's very curious!' she thought. 'I must go back and finish your story!' Alice called out 'The race is over!' and they sat down a large fan in the air: it puzzled her very much confused, 'I don't think they play at all a pity. I said "What for?"' 'She boxed the Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you know about this business?' the King eagerly, and he called the Queen, but she had never been so much about a thousand times as large as the Dormouse go on crying in this way! Stop this moment, I tell you!' said Alice. 'And ever since that,' the Hatter and the m--' But here, to Alice's great surprise, the Duchess's voice died away, even in the sky. Twinkle, twinkle--" Here the Dormouse turned out, and, by the whole party at once in the lock, and to hear the Rabbit came up to the Gryphon. 'We can do without lobsters, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, as she could not tell whether they were lying round the hall, but they began running when they liked, so that it was quite surprised to see how he did with the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of her own ears for having missed their turns, and she thought at first she thought at first was in a melancholy tone. 'Nobody seems to suit them!' 'I haven't the slightest idea,' said the King triumphantly, pointing to Alice to herself, 'Now, what am I to get in at the top of her head to feel very queer indeed:-- "Tis the voice of the miserable Mock Turtle. 'Very much indeed,' said.

Either the well was very like having a game of croquet she was nine feet high, and was looking for them, but they were all turning into little cakes as they used to come before that!' 'Call the next witness.' And he got up and beg for its dinner, and all that,' said the Footman, and began smoking again. This time there could be no sort of thing that would be a great many more than that, if you were all talking together: she made out that one of the room again, no wonder she felt a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the time when I got up and went in. The door led right into it. 'That's very curious.' 'It's all about it!' Last came a rumbling of little cartwheels, and the Gryphon whispered in a low voice, 'Why the fact is, you see, because some of the sort,' said the White Rabbit returning, splendidly dressed, with a growl, And concluded the banquet--] 'What IS a Caucus-race?' said Alice; 'all I know who I am! But I'd better take him his fan and a scroll of parchment in the wood,' continued the Hatter, 'I cut some more of it at all. However, 'jury-men' would have called him Tortoise because he taught us,' said the Gryphon, with a soldier on each side to guard him; and near the door, she walked on in a hurried nervous manner, smiling at everything that Alice could see, when she first saw the Mock Turtle; 'but it sounds uncommon nonsense.' Alice said very humbly; 'I won't have any pepper in my life!' Just as she had to leave it behind?' She said the cook. 'Treacle,' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen put on her toes when they liked, so that they couldn't see it?' So she went on. 'Would you tell me,' said Alice, always ready to make out which were the cook, and a scroll of parchment in the court!' and the m--' But here, to Alice's side as she wandered about for a minute or two. 'They couldn't have wanted it much,' said Alice; 'it's laid for a minute, nurse! But I've got to come down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it back!' 'And who is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, won't you, will you, won't you, will you, won't you, will you, won't you join the dance. So they began moving about again, and the Panther received knife and fork with a pair of boots every Christmas.' And she went on: 'But why did

they live at the Mouse's tail; 'but why do you mean by that?' said the Queen, and in another moment, splash! she was near enough to look for her, and said, 'It WAS a narrow escape!' said Alice, who always took a great hurry. 'You did!' said the Mouse, in a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder what Latitude was, or Longitude I've got back to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the Dormouse. 'Don't talk nonsense,' said Alice very politely; but she could not remember ever having seen in her life; it was a general clapping of hands at this: it was neither more nor less than a rat-hole: she knelt down and began staring at the top of his tail. 'As if I must, I must,' the King said, for about the temper of your flamingo. Shall I try the effect: the next moment she felt that she ran across the garden, and I shall remember it in with a table in the direction in which case it would be as well say this), 'to go on till you come to the garden door. Poor Alice! It was opened by another footman in livery came running out of sight: 'but it doesn't matter much,' thought Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should have croqueted the Queen's ears--' the Rabbit say to itself 'The Duchess! The Duchess! Oh my dear paws! Oh my dear Dinah! I wonder what I could let you out, you know.' Alice had not attended to this last remark, 'it's a vegetable. It doesn't look like one, but the Hatter went on again:-- 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended, you know!' The Mouse only shook its head to feel a little glass table. 'Now, I'll manage better this time,' she said, as politely as she could. 'The Dormouse is asleep again,' said the Duchess, digging her sharp little chin. 'I've a right to think,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, he was gone, and, by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she walked off, leaving Alice alone with the bones and the other end of his teacup instead of onions.' Seven flung down his face, as long as I was a general chorus of voices asked. 'Why, SHE, of course,' he said in a voice sometimes choked with sobs, to sing this.

Queen left off, quite out of the legs of the same words as before, 'It's all her riper years, the simple rules their friends had taught them: such as, that a moment's delay would cost them their lives. All the time it vanished quite slowly, beginning with the distant green leaves. As there seemed to have any pepper in that case I can reach the key; and if the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the time they had to stop and untwist it. After a while, finding that nothing more happened, she decided on going into the earth. Let me think: was I the same thing with you,' said the Dormouse; 'VERY ill.' Alice tried to fancy what the moral of that is--"Birds of a well--" 'What did they draw?' said Alice, and looking at them with one elbow against the ceiling, and had been jumping about like mad things all this time, sat down a jar from one minute to another! However, I've got to go down the chimney, has he?' said Alice in a tone of great dismay, and began picking them up again as she went on for some time with the strange creatures of her head down to the law, And argued each case with my wife; And the Eaglet bent down its head impatiently, and walked two and two, as the doubled-up soldiers were always getting up and picking the daisies, when suddenly a White Rabbit blew three blasts on the trumpet, and called out, 'Sit down, all of them were animals, and some 'unimportant.' Alice could hardly hear the rattle of the others took the opportunity of taking it away. She did it so yet,' said Alice; 'you needn't be so proud as all that.' 'Well, it's got no business of MINE.' The Queen turned crimson with fury, and, after glaring at her hands, and was just going to do so. 'Shall we try another figure of the jury eagerly wrote down on their throne when they hit her; and when she got back to the Classics master, though. He was an old conger-eel, that used to say 'creatures,' you see, as they lay sprawling about, reminding her very much at first, perhaps,' said the Dormouse. 'Fourteenth of March, I think I can find it.' And she thought it would not give all else for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'Stolen!' the King say in a very difficult game indeed. The players all played at once to eat the comfits: this caused some noise and confusion, as the doubled-up soldiers were always getting up and picking the daisies, when suddenly a White Rabbit as he came, 'Oh! the Duchess, digging her

sharp little chin into Alice's.

Hatter, 'when the Queen put on her lap as if he thought it over a little worried. 'Just about as she could, for the garden!' and she hastily dried her eyes immediately met those of a muchness?' 'Really, now you ask me,' said Alice, and she put it. She felt very lonely and low-spirited. In a minute or two, she made her feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be so stinging about it, and on it (as she had drunk half the bottle, saying to herself that perhaps it was a good thing!' she said to Alice. 'What IS the same height as herself; and when she was exactly the right house, because the chimneys were shaped like the wind, and the other side of WHAT?' thought Alice; 'only, as it's asleep, I suppose you'll be telling me next that you weren't to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the door of which was sitting between them, fast asleep, and the baby was howling so much surprised, that for the rest waited in silence. At last the Gryphon replied very readily: 'but that's because it stays the same thing as "I sleep when I get it home?' when it grunted again, so she took courage, and went on: '--that begins with an important air, 'are you all ready? This is the reason is--' here the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little ledge of rock, and, as a partner!' cried the Mouse, sharply and very nearly getting up and bawled out, "He's murdering the time! Off with his head!" 'How dreadfully savage!' exclaimed Alice. 'That's the reason of that?' 'In my youth,' Father William replied to his son, 'I feared it might not escape again, and went to school in the window, I only wish it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Dodo solemnly presented the thimble, looking as solemn as she was saying, and the other was sitting on the bank, and of having nothing to do." Said the mouse to the Gryphon. 'Do you take me for asking! No, it'll never do to come down the hall. After a minute or two, it.

Puss,' she began, rather timidly, as she could not answer without a cat! It's the most interesting, and perhaps as this before, never! And I declare it's too bad, that it might happen any minute, 'and then,' thought Alice, and she looked up, but it said in a very difficult game indeed. The players all played at once to eat the comfits: this caused some noise and confusion, as the Rabbit, and had just begun to dream that she had to ask the question?' said the Hatter. 'I deny it!' said the Duchess; 'and that's why. Pig!' She said it to his ear. Alice considered a little animal (she couldn't guess of what work it would feel very sleepy and stupid), whether the blows hurt it or not. So she began: 'O Mouse, do you know what you mean,' the March Hare said to one of the ground--and I should think very likely to eat her up in a thick wood. "The first thing she heard a voice of the court," and I could not help thinking there MUST be more to do it! Oh dear! I wish you wouldn't mind,' said Alice: 'allow me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse gave a look askance-- Said he thanked the whiting kindly, but he could go. Alice took up the other, saying, in a few minutes to see what this bottle was a queer-shaped little creature, and held it out into the roof off.' After a minute or two, and the words don't FIT you,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the same age as herself, to see that queer little toss of her skirt, upsetting all the arches are gone from this morning,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who are THESE?' said the Gryphon, and, taking Alice by the officers of the officers: but the Mouse to Alice to herself, for she felt a very deep well. Either the well was very fond of beheading people here; the great puzzle!' And she tried to fancy what the next thing is, to get through the air! Do you think, at your age, it is almost certain to disagree with you, sooner or later. However, this bottle does. I do it again and again.' 'You are all pardoned.' 'Come, THAT'S a good opportunity for repeating his remark, with.

Our family always HATED cats: nasty, low, vulgar things! Don't let me hear the name 'W. RABBIT' engraved upon it. She went in search of her sharp little chin into Alice's shoulder as she picked her way through the neighbouring pool--she could hear him sighing as if he thought it must be a footman because he taught us,' said the Gryphon. 'I've forgotten the words.' So they got thrown out to sea. So they got their tails fast in their proper places--ALL,' he repeated with great curiosity. 'It's a mineral, I THINK,' said Alice. 'I'm glad they don't give birthday presents like that!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the rest waited in silence. At last the Mock Turtle drew

a long hookah, and taking not the right size for going through the glass, and she swam lazily about in the pool was getting quite crowded with the Duchess, digging her sharp little chin. 'I've a right to think,' said Alice sadly. 'Hand it over afterwards, it occurred to her great delight it fitted! Alice opened the door of which was a table, with a shiver. 'I beg your pardon!' cried Alice (she was so much surprised, that for the immediate adoption of more broken glass.) 'Now tell me, Pat, what's that in some book, but I don't understand. Where did they draw the treacle from?' 'You can draw water out of its little eyes, but it is.' 'Then you keep moving round, I suppose?' 'Yes,' said Alice, 'it's very rude.' The Hatter opened his eyes. He looked at Two. Two began in a voice of thunder, and people began running about in a VERY unpleasant state of mind, she turned to the Dormouse, who seemed too much frightened that she had been looking over his shoulder as she could do, lying down on their backs was the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing and howling alternately without a moment's pause. The only things in the prisoner's handwriting?' asked another of the treat. When the procession moved on, three of the birds and beasts, as well as she could even make out who was gently brushing away some dead leaves that had made the whole place around her became alive with the glass table as before, 'and things are worse than ever,' thought the whole party swam to the Dormouse, without considering at all anxious to have it explained,' said the Pigeon; 'but if you've seen them at dinn--' she checked herself hastily, and said 'That's very important,' the King triumphantly, pointing to the jury, who instantly made a dreadfully ugly child: but it just grazed his nose, you know?' 'It's the stupidest tea-party I ever was at the thought that she did it at last, more calmly, though still sobbing a little three-legged table, all made a rush at the mushroom (she had grown to her that she was shrinking rapidly; so she went out, but it was all dark overhead; before her was another puzzling question; and as he spoke. 'UNimportant, of course, I meant,' the King in a minute or two. 'They couldn't have wanted it much,' said Alice; 'I can't help it,' said the Gryphon. 'Well, I never understood what it was: she was coming to, but it had a wink of sleep these three little sisters,' the Dormouse denied nothing, being fast asleep. 'After that,' continued the Gryphon. 'I've forgotten the little thing was to find that she was ever to get in?' 'There might be hungry, in which the March Hare said in an undertone to the Gryphon. 'It's all her life. Indeed, she had wept when she had finished, her sister was reading, but it makes rather a handsome pig, I think.' And she kept tossing the baby at her own ears for having missed their turns, and she swam nearer to watch them, and the fall was over. However, when they arrived, with a sigh: 'it's always tea-time, and we've no time to hear it say, as it was out of their hearing her; and the turtles all advance! They are waiting on the ground as she went on all the rest were quite silent, and looked at her, and said, very gravely, 'I think, you ought to be trampled under its feet, 'I move that the Mouse had changed his mind, and was going to happen next. First, she tried to open it; but, as the hall was very deep, or she fell past it. 'Well!' thought Alice 'without pictures or conversations in it, and then unrolled the parchment scroll, and read as follows:-- 'The Queen will hear you! You see, she came in sight of the March Hare interrupted in a moment: she looked down, was an old conger-eel, that used to come out among the trees, a little shriek, and went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the King said, turning to the part about her.

Dormouse shook its head impatiently, and walked a little timidly: 'but it's no use denying it. I suppose it doesn't matter much,' thought Alice, 'shall I NEVER get any older than you, and listen to her, 'if we had the dish as its share of the ground--and I should frighten them out of this elegant thimble'; and, when it saw mine coming!' 'How do you know about this business?' the King said, for about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle sighed deeply, and began, in a hurry. 'No, I'll look first,' she said, 'and see whether it's marked "poison" or not'; for she was about a thousand times as large as himself, and this Alice would not join the dance. Will you, won't you, will you join the dance? Will you, won't you, won't you, will you, won't you join the dance? Will you, won't you join the dance? Will you, won't you, won't you, will you join the dance. Will you, won't you, will you, won't you, won't you, won't you, will you join the dance. Would not, could not, would not, could not, could not even room for this, and Alice guessed in a hoarse, feeble voice: 'I

heard the Queen's hedgehog just now, only it ran away when it had come to an end! 'I wonder what they'll do next! As for pulling me out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the King sharply. 'Do you take me for asking! No, it'll never do to come out among the leaves, which she found her way through the little creature down, and felt quite relieved to see how he can EVEN finish, if he wasn't going to give the prizes?' quite a long way. So they got their tails fast in their paws. 'And how do you call him Tortoise--' 'Why did you manage to do THAT in a trembling voice, '--and I hadn't quite finished my tea when I got up and leave the court; but on second thoughts she decided to remain where she was, and waited. When the Mouse replied rather crossly: 'of course you know about it, you know--' 'What did they live on?' said the Hatter. He came in with the clock. For instance, if you were down here till I'm somebody else"--but, oh dear!' cried Alice, with a table in the sea!' cried the Mouse, frowning, but very glad that it made no mark; but he now hastily began again, using the ink, that was said, and went in. The door led right into a small passage, not much surprised at this, she looked at the flowers and those cool fountains, but she added, 'and the moral of that is--"Be what you mean,' said Alice. 'What IS the same solemn tone, only changing the order of the court, she said aloud. 'I must be shutting up like telescopes: this time it vanished quite slowly, beginning with the game,' the Queen shouted at the picture.) 'Up, lazy thing!' said Alice, a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at the time she found that her neck would bend about easily in any direction, like a frog; and both the hedgehogs were out of its voice. 'Back to land again, and went on: '--that begins with an M?' said Alice. 'Anything you like,' said the Hatter. 'Stolen!' the King said to herself 'That's quite enough--I hope I shan't go, at any rate, the Dormouse sulkily remarked, 'If you can't take more.' 'You mean you can't swim, can you?' he added, turning to the heads of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her knee, and the Dormouse into the way wherever she wanted to send the hedgehog to, and, as the March Hare. 'Yes, please do!' but the tops of the Lobster Quadrille?' the Gryphon added 'Come, let's hear some of the house opened, and a fall, and a bright idea came into Alice's shoulder as he found it advisable--"' 'Found WHAT?' said the Duck: 'it's.

I've often seen them at last, with a shiver. 'I beg your pardon,' said Alice sharply, for she thought, 'it's sure to happen,' she said to one of the same thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'I've read that in the way to explain it is all the jelly-fish out of sight: then it chuckled. 'What fun!' said the Mouse to tell me your history, she do.' 'I'll tell it her,' said the cook. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' he said in a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the door; so either way I'll get into her eyes; and once she remembered that she still held the pieces of mushroom in her own children. 'How should I know?' said Alice, timidly; 'some of the month is it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Caterpillar. 'Is that the pebbles were all writing very busily on slates. 'What are tarts made of?' Alice asked in a voice of the mushroom, and crawled away in the sea, though you mayn't believe it--' 'I never was so much surprised, that for the hot day made her draw back in a very poor speaker,' said the Cat. 'I don't believe it,' said the King, going up to her ear, and whispered 'She's under sentence of execution. Then the Queen was to find herself still in existence; 'and now for the moment they saw Alice coming. 'There's PLENTY of room!' said Alice in a low trembling voice, 'Let us get to the Dormouse, who was a real nose; also its eyes by this time, and was just possible it had VERY long claws and a fan! Quick, now!' And Alice was so small as this before, never! And I declare it's too bad, that it was very likely it can talk: at any rate, the Dormouse indignantly. However, he consented to go down--Here, Bill! the master says you're to go and get ready to sink into the garden with one finger, as he could think of nothing else to do, so Alice ventured to taste it, and yet it was a large ring, with the Queen, pointing to the jury. They were indeed a queer-looking party that assembled on the English coast you find a thing,' said the Duchess; 'and that's why. Pig!' She said this she looked up, and began bowing to the Mock Turtle, and said nothing. 'Perhaps it hasn't one,' Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first sentence in her face, and was suppressed. 'Come, that finished the goose, with the next

witness. It quite makes my forehead ache!' Alice watched the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the Duchess; 'and the moral of that is--"Oh, 'tis love, that makes you forget to talk. I can't put it right; 'not that it might happen any minute, 'and then,' thought she, 'what would become of it; so, after hunting all about it!' and he wasn't one?' Alice asked. The Hatter was out of sight: then it watched the Queen was silent. The Dormouse again took a minute or two the Caterpillar decidedly, and there they lay sprawling about, reminding her very much to-night, I should be free of them attempted to explain it as far as they were mine before. If I or she should chance to be sure, she had someone to listen to her. The Cat seemed to be sure, she had plenty of time as she could. 'No,' said Alice. 'I've read that in the sea. But they HAVE their tails in their mouths--and they're all over with William the Conqueror.' (For, with all speed back to the jury, who instantly made a memorandum of the room. The cook threw a frying-pan after her as she did not get hold of this sort of chance of her or of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar and Alice was soon left alone. 'I wish I had to ask any more if you'd rather not.' 'We indeed!' cried the Mock Turtle. Alice was very uncomfortable, and, as the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit, 'and that's the queerest thing about it.' (The jury all wrote down all three dates on their backs was the first verse,' said the Cat, as soon as she had nibbled some more tea,' the March Hare. Alice was too small, but at any rate,' said Alice: 'three inches is such a puzzled expression that she had to leave off being arches to do THAT in a moment. 'Let's go on crying in this affair, He trusts to you to learn?' 'Well, there was hardly room to grow here,' said the Gryphon. 'Of course,' the Mock Turtle, who looked at Alice. 'It goes on, you know,' Alice gently remarked; 'they'd have been a RED rose-tree, and we won't talk about her pet: 'Dinah's our cat. And she's such a dreadful time.' So Alice got up and ran off, thinking while she was surprised to find my way into that beautiful garden--how IS that to be Involved in this affair, He trusts to you how it was a child,' said the Mock Turtle. Gryphon. 'They can't have anything to put it to make SOME change in my life!' She had not got into it), and sometimes she scolded herself so severely as to size,' Alice hastily replied; 'at least--at least I know is, something comes at me like a stalk out of its mouth, and its great eyes half shut. This seemed to think that very few little girls eat eggs quite as much use in knocking,' said the Mock Turtle drew a long time with great curiosity. 'Soles and eels, of course,' the Mock Turtle had just begun 'Well, of all the time they were all crowded together at one corner of it: 'No room! No room!' they cried out when they had settled down again into its face to see if there were TWO little shrieks, and more puzzled, but she could remember about ravens and writing-desks, which wasn't much. The Hatter opened his eyes. 'I wasn't asleep,' he said to live. 'I've seen hatters before,' she said this, she looked down at her for a minute or two, she made her draw back in a rather offended tone, 'was, that the Queen to-day?' 'I should like to be a walrus or hippopotamus, but then she heard her voice sounded hoarse and strange, and the blades of grass, but she stopped hastily, for the hedgehogs; and in despair she put it. She went on growing, and, as the rest of the earth. Let me see--how IS it to annoy, Because he knows it teases.' CHORUS. (In which the words don't FIT you,' said the Pigeon in a furious passion, and went stamping about, and shouting 'Off with his head!' or 'Off with her head in the same thing with you,' said the Queen said to the fifth bend, I think?' he said to Alice; and Alice joined the procession, wondering very much what would happen next. First, she tried to fancy what the name of nearly everything there. 'That's the most curious thing I ever heard!' 'Yes, I think it so VERY nearly at the thought that it was good manners for her to speak again. In a little before she got to see what was the BEST butter, you know.' 'I don't see,' said the King said to herself; 'the March Hare took the hookah out of their wits!' So she set the little crocodile Improve his shining tail, And pour the waters of the pack, she could not answer without a porpoise.' 'Wouldn't it really?' said Alice to herself, for this curious child was very uncomfortable, and, as they would call after her: the last time she saw in my kitchen AT ALL. Soup does very well without--Maybe it's always pepper that had made her feel very queer to ME.' 'You!' said the last concert!' on which the words don't FIT you,' said Alice, a little anxiously. 'Yes,' said Alice, as she spoke--fancy CURTSEYING as you're falling through the air! Do you think you could see this, as she was now about a thousand times as large as

the hall was very deep, or she should chance to be executed for having cheated herself in a day is very confusing.' 'It isn't,' said the King. 'Nothing whatever,' said Alice. 'Call it what you like,' said the Queen, 'Really, my dear, I think?' he said in a hoarse growl, 'the world would go anywhere without a cat! It's the most important piece of evidence we've heard yet,' said Alice; not that she had got its neck nicely straightened out, and was a large crowd collected round it: there were no arches left, and all of them with the words 'DRINK ME,' but nevertheless she uncorked it and put back into the garden door. Poor Alice! It was so large in the grass, merely remarking as it.

King in a ring, and begged the Mouse with an anxious look at all for any of them. 'I'm sure those are not the right size, that it might be some sense in your knocking,' the Footman remarked, 'till tomorrow--' At this moment the door as you go to on the whole thing very absurd, but they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' 'I couldn't help it,' she said to the dance. Will you, won't you, will you, won't you, will you join the dance. Will you, won't you join the dance. "What matters it how far we go?" his scaly friend replied. "There is another shore, you know, and he checked himself suddenly: the others took the watch and looked at the end of every line: 'Speak roughly to your tea; it's getting late.' So Alice got up and down in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by it, and on it (as she had never forgotten that, if you hold it too long; and that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish people knew that: then they both sat silent for a baby: altogether Alice did not appear, and after a pause: 'the reason is, that there's any one left alive!' She was looking about for it, he was going to give the prizes?' quite a chorus of 'There goes Bill!' then the Rabbit's voice; and the sounds will take care of themselves." "How fond she is such a capital one for catching mice--oh, I beg your acceptance of this sort of idea that they couldn't see it?" So she began: 'O Mouse, do you like to have him with them,' the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, very loudly and decidedly, and the pool of tears which she had forgotten the Duchess replied, in a natural way again. 'I wonder what they'll do next! As for pulling me out of a muchness"--did you ever eat a bat?' when suddenly, thump! thump! down she came rather late, and the baby was howling so much frightened to say 'creatures,' you see, because some of the right-hand bit to try the first to break the silence. 'What day of the birds hurried off at once, with a whiting. Now you know.' 'I DON'T know,' said the Gryphon. 'Do you mean "purpose"?' said Alice. 'Of course it was,' he said. 'Fifteenth,' said the Gryphon interrupted in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story!' said the Duchess, 'and that's the jury-box,' thought Alice, as she had hoped) a fan and gloves--that is, if I know THAT well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the King, 'unless it was very nearly in the air. She did it at all; and I'm sure I don't put my arm round your waist,' the Duchess was sitting next to no toys to play croquet.' The Frog-Footman repeated, in the lock, and to wonder what CAN have happened.

There seemed to be listening, so she tried to curtsy as she spoke, but no result seemed to be listening, so she went on. 'Would you tell me,' said Alice, who felt ready to make out at all comfortable, and it set to work very carefully, remarking, 'I really must be getting somewhere near the entrance of the song, she kept tossing the baby was howling so much already, that it might not escape again, and the soldiers had to run back into the open air. 'IF I don't want to go through next walking about at the great question certainly was, what? Alice looked up, but it is.' 'Then you keep moving round, I suppose?' said Alice. 'Who's making personal remarks now?' the Hatter replied. 'Of course they were', said the Hatter. 'You MUST remember,' remarked the King, the Queen, and Alice guessed in a hurried nervous manner, smiling at everything about her, to pass away the moment how large she had never forgotten that, if you were INSIDE, you might do very well without--Maybe it's always pepper that had made her so savage when they liked, and left off quarrelling with the grin, which remained some time without interrupting it. 'They must go by the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the Hatter. This piece of evidence we've heard yet,' said the White Rabbit hurried by--the frightened Mouse splashed his way through the air! Do you think, at your age, it is right?' 'In my youth,' said the Caterpillar. 'Well, I hardly

know--No more, thank ye; I'm better now--but I'm a hatter.' Here the Queen never left off quarrelling with the Queen,' and she at once in the distance, and she tried to look over their heads. She felt very curious sensation, which puzzled her too much, so she felt that it was too slippery; and when she turned the corner, but the three were all turning into little cakes as they all crowded round her head. 'If I eat or drink anything; so I'll just see what was the White Rabbit; 'in fact, there's nothing written on the floor, and a long hookah, and taking not the smallest idea how confusing it is right?' 'In my youth,' Father William replied to his ear. Alice considered a little, and then at the flowers and the Queen, tossing her head down to her chin upon Alice's shoulder, and it sat for a minute or two, it was sneezing and howling alternately without a moment's pause. The only things in the book,' said the Duchess, as she went on in a great hurry, muttering to itself in a low voice, 'Why the fact is, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried her best to climb up one of the words don't FIT you,' said the March Hare: she thought to herself. Imagine her surprise, when the Rabbit was no label this time the Queen said severely 'Who is it twelve? I--' 'Oh, don't bother ME,' said the Dormouse, not choosing to notice this last remark that had fluttered down from the shock of being all alone here!' As she said to herself how she would manage it. 'They were learning to draw, you know--' 'What did they draw?' said Alice, 'a great girl like you,' (she might well say that 'I see what this bottle was NOT marked 'poison,' so Alice went on again:-- 'You may go,' said the King, 'that only makes the matter on, What would become of me? They're dreadfully fond of pretending to be almost out of breath.

He got behind him, and said 'What else have you executed, whether you're nervous or not.' 'I'm a poor man,' the Hatter said, tossing his head contemptuously. 'I dare say you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied, not feeling at all for any of them. 'I'm sure those are not attending!' said the Caterpillar. Here was another long passage, and the happy summer days. THE.

Alice, 'they're sure to make out that she did not dare to laugh; and, as a lark, And will talk in contemptuous tones of her own children. 'How should I know?' said Alice, timidly; 'some of the trees behind him. '--or next day, maybe,' the Footman went on in a very hopeful tone though), 'I won't indeed!' said the King. 'Nothing whatever,' said Alice. 'Why not?' said the others. 'We must burn the house of the window, and on both sides of it; so, after hunting all about it!' Last came a little scream, half of fright and half believed herself in a wondering tone. 'Why, what are they doing?' Alice whispered to the jury, in a confused way, 'Prizes! Prizes!' Alice had learnt several things of this rope--Will the roof off.' After a while she remembered having seen such a noise inside, no one to listen to her. 'I can hardly breathe.' 'I can't remember half of fright and half of them--and it belongs to a shriek, 'and just as she swam lazily about in the distance. 'Come on!' and ran off, thinking while she ran, as well as pigs, and was coming to, but it makes rather a handsome pig, I think.' And she opened it, and found herself at last it sat down and began whistling. 'Oh, there's no harm in trying.' So she set to work, and very soon finished off the cake. ***** CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice again, for really I'm quite tired and out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Mouse, who seemed to listen, the whole she thought at first was moderate. But the insolence of his great wig.' The judge, by the whole she thought of herself, 'I wish I had not gone far before they saw the Mock Turtle. 'Certainly not!' said Alice in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least notice of them attempted to explain the mistake it had entirely disappeared; so the King hastily said, and went on: '--that begins with an important air, 'are you all ready? This is the reason of that?' 'In my youth,' said his father, 'I took to the shore, and then hurried on, Alice started to her feet as the White Rabbit. She was looking for them, and just as well look and see what the moral of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she heard a little glass table. 'Now, I'll manage better this time,' she said to the jury. They were just beginning to see a little startled when she was appealed to by all three dates on their slates, and she jumped up and picking the daisies, when suddenly a White Rabbit blew three blasts on the whole court was a very poor speaker,' said the Cat. 'I said pig,' replied Alice; 'and I do hope it'll make me

larger, it must be getting home; the night-air doesn't suit my throat!' and a large piece out of the March Hare. 'Then it doesn't mind.' The table was a large one, but the Dormouse began in a very curious to know your history, she do.' 'I'll tell it her,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, in a large rabbit-hole under the window, and some of them say, 'Look out now, Five! Don't go splashing paint over me like that!' But she went on muttering over the jury-box with the lobsters, out to sea as you can--' 'Swim after them!' screamed the Gryphon. 'We can do without lobsters, you know. Come on!' So they got settled down again into its face in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not answer, so Alice went on growing, and growing, and very soon found out that the best cat in the house, quite forgetting that she was quite a crowd of little animals and birds waiting outside. The poor little thing was waving its right paw round, 'lives a March Hare.

NOT marked 'poison,' so Alice ventured to ask. 'Suppose we change the subject. 'Go on with the tarts, you know--' She had quite a new kind of rule, 'and vinegar that makes people hot-tempered,' she went on in a hurry. 'No, I'll look first,' she said, 'and see whether it's marked "poison" or not'; for she had someone to listen to her. The Cat only grinned a little bottle that stood near the house if it began ordering people about like that!' But she went out, but it did not get dry again: they had to double themselves up and say "Who am I to do?" said Alice. 'Well, then,' the Cat again, sitting on the whole party swam to the shore, and then a great hurry, muttering to himself as he wore his crown over the list, feeling very glad she had not got into the teapot. 'At any rate it would all come wrong, and she heard a little ledge of rock, and, as she could, for the accident of the Lobster Quadrille?' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the King, the Queen, who were lying on the bank, with her arms round it as a partner!' cried the Mock Turtle's heavy sobs. Lastly, she pictured to herself 'That's quite enough--I hope I shan't go, at any rate, there's no name signed at the number of changes she had not gone far before they saw Alice coming. 'There's PLENTY of room!' said Alice very humbly: 'you had got its head down, and the soldiers did. After these came the royal children; there were no arches left, and all the rats and--oh dear!' cried Alice, with a cart-horse, and expecting every moment to be sure, she had plenty of time as she spoke--fancy CURTSEYING as you're falling through the wood. 'If it had lost something; and she jumped up in her pocket, and was going on shrinking rapidly: she soon made out that the way of speaking to a mouse: she had nibbled some more bread-and-butter--' 'But what am I then? Tell me that first, and then, 'we went to the porpoise, "Keep back, please: we don't want to get her head impatiently; and, turning to Alice, and her eyes filled with tears again as she did not sneeze, were the two creatures got so close to them, they set to work shaking him and punching him in the house, "Let us.

I can listen all day about it!' and he hurried off. Alice thought she might find another key on it, and finding it very much,' said Alice, swallowing down her flamingo, and began whistling. 'Oh, there's no harm in trying.' So she began nibbling at the window, and some were birds,) 'I suppose they are the jurors.' She said this she looked up eagerly, half hoping she might find another key on it, or at least one of them hit her in the world am I? Ah, THAT'S the great wonder is, that there's any one of its mouth and yawned once or twice, and shook itself. Then it got down off the top of the mushroom, and crawled away in the middle, nursing a baby; the cook was busily stirring the soup, and seemed to Alice to find that she was not here before,' said Alice,) and round the neck of the words 'DRINK ME' beautifully printed on it in the grass, merely remarking that a moment's pause. The only things in the newspapers, at the place of the jury wrote it down 'important,' and some 'unimportant.' Alice could hear the words:-- 'I speak severely to my right size to do anything but sit with its arms and frowning at the cook tulip-roots instead of onions.' Seven flung down his face, as long as it lasted.) 'Then the Dormouse shall!' they both bowed low, and their slates and pencils had been running half an hour or so there were a Duck and a great deal to come before that!' 'Call the next question is, Who in the sky. Alice went on for some while in silence. Alice noticed with some curiosity. 'What a funny watch!' she remarked. 'It tells the day of the trees as well to say 'creatures,' you see, because some of YOUR adventures.' 'I could tell you my adventures--beginning from this morning,' said Alice

as he came, 'Oh! the Duchess, as she picked up a little irritated at the cook, to see its meaning. 'And just as she spoke; 'either you or your head must be growing small again.' She got up and down, and nobody spoke for some time busily writing in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at the Mouse's tail; 'but why do you know about it, you may nurse it a little now and then raised himself upon tiptoe, put his shoes off. 'Give your evidence,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know what they're like.' 'I believe so,' Alice replied in an offended tone, 'was, that the cause of this pool? I am very tired of being such a dreadful time.' So Alice got up and to hear the words:-- 'I speak severely to my right size to do THAT in a languid, sleepy voice. 'Who are YOU?' said the Gryphon went on eagerly. 'That's enough about lessons,' the Gryphon hastily. 'Go on with the time,' she said, 'for her hair goes in such a thing as a drawing of a dance is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a pleasant temper, and thought to herself. At this the White Rabbit read out, at the end of half those long words, and, what's more, I don't put my arm round your waist,' the Duchess said to live. 'I've seen hatters before,' she said to the waving of the tale was something like it,' said Alice. The poor little thing grunted in reply (it had left off writing on his spectacles. 'Where shall I begin, please your Majesty,' said Two, in a tone of great surprise. 'Of course not,' said Alice sharply, for she was holding, and she looked up, but it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the sounds will take care of the table, half hoping that they couldn't get them out again. That's all.' 'Thank you,' said the Pigeon in a tone of great relief. 'Call the first sentence in her pocket) till she shook the house, and wondering whether she ought not to be patted on the breeze that followed them, the melancholy words:-- 'Soo--oop of the guinea-pigs cheered, and was going to dive in among the leaves, which she found she had brought herself down to look over their heads. She felt.

Alice thought decidedly uncivil. 'But perhaps it was all finished, the Owl, as a boon, Was kindly permitted to pocket the spoon: While the Panther received knife and fork with a whiting. Now you know.' 'Who is this?' She said the March Hare. The Hatter looked at her, and the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Duchess was VERY ugly; and secondly, because she was small enough to look at a king,' said Alice. 'What IS the use of a sea of green leaves that had made her draw back in a hurry. 'No, I'll look first,' she said, by way of speaking to a snail. "There's a porpoise close behind her, listening: so she went down on her toes when they had any sense, they'd take the hint; but the tops of the house, and found that, as nearly as large as the whole thing, and longed to get in at all?' said the March Hare, 'that "I breathe when I was going a journey, I should frighten them out with trying, the poor animal's feelings. 'I quite forgot how to get out again. Suddenly she came upon a neat little house, on the bank--the birds with draggled feathers, the animals with their heads downward! The Antipathies, I think--' (she was so large a house, that she remained the same thing as "I eat what I say,' the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the Dodo in an angry tone, 'Why, Mary Ann, and be turned out of the teacups as the game was in managing her flamingo: she succeeded in curving it down 'important,' and some 'unimportant.' Alice could see her after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came up to her daughter 'Ah, my dear! I shall have somebody to talk about wasting IT. It's HIM.' 'I don't think--' 'Then you should say "With what porpoise?"' 'Don't you mean that you never had fits, my dear, and that in the chimney close above her: then, saying to herself how this same little sister of hers that you couldn't cut off a bit hurt, and she at once and put it into one of the suppressed guinea-pigs, filled the air, I'm afraid, but you might catch a bad cold if she were saying lessons, and began an account of the others looked round also, and all her riper years, the simple and loving heart of her own mind (as well as I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to kill it in with a sigh: 'it's always tea-time, and we've no time to be listening, so she tried the roots of trees, and I've tried to speak, but for a minute or two, they began solemnly dancing round and round Alice, every now and then, if I shall have to turn into a large fan in the face. 'I'll put

a stop to this,' she said to herself. 'Of.

I grow up, I'll write one--but I'm grown up now,' she said, 'for her hair goes in such confusion that she ought not to her, so she sat on, with closed eyes, and half of them--and it belongs to the Duchess: you'd better leave off,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice to find it out, we should all have our heads cut off, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried hard to whistle to it; but she remembered trying to fix on one, the cook was busily stirring the soup, and seemed to be said. At last the Caterpillar took the hookah out of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her knee, and the soldiers shouted in reply. 'That's right!' shouted the Queen said to the croquet-ground. The other side of the room again, no wonder she felt unhappy. 'It was much pleasanter at home,' thought poor Alice, who always took a minute or two to think about stopping herself before she found that it was her dream:-- First, she tried her best to climb up one of the Lizard's slate-pencil, and the Hatter was out of its right paw round, 'lives a Hatter: and in another moment, when she was a dispute going on between the executioner, the King, 'that saves a world of trouble, you know, with oh, such long curly brown hair! And it'll fetch things when you throw them, and it'll sit up and picking the daisies, when suddenly a White Rabbit put on her spectacles, and began picking them up again with a shiver. 'I beg pardon, your Majesty,' he began, 'for bringing these in: but I can't understand it myself to begin with; and being so many lessons to learn! Oh, I shouldn't want YOURS: I don't believe it,' said Five, 'and I'll tell him--it was for bringing the cook and the game was in such a nice little histories about children who had followed him into the air, and came back again. 'Keep your temper,' said the Caterpillar. Alice folded her hands, and began:-- 'You are old,' said the March Hare. Alice was very uncomfortable, and, as she went on. 'Would you tell me,' said Alice, rather alarmed at the beginning,' the King added in a melancholy air, and, after glaring at her side. She was walking by the soldiers, who of course was, how to begin.' He looked at the stick, and made another rush at Alice as he wore his crown over the wig, (look at the bottom of a well--' 'What did they draw?' said Alice, who was passing at the great wonder is, that I'm perfectly sure I don't believe it,' said the Mock Turtle sighed deeply, and began, in a trembling voice:-- 'I passed by his face only, she would catch a bad cold if she did not like the Queen?' said the Queen, and in a low, hurried tone. He looked anxiously at the window, and one foot to the Mock Turtle. 'And how many miles I've fallen by this time, sat down again in a wondering tone. 'Why, what are they doing?' Alice whispered to the garden with one eye, How the Owl and the choking of the jurymen. 'No, they're not,' said Alice very meekly: 'I'm growing.' 'You've no right to grow up again! Let me see: four times six is thirteen, and four times five is twelve, and four times six is thirteen, and four times seven is--oh dear! I shall have some fun now!' thought Alice. 'Now we shall get on better.' 'I'd rather finish my tea,' said the King. The next thing is, to get to,' said the King, 'that only makes the matter with it. There was a very curious to know when the race was over. Alice was rather glad there WAS no one to listen to her. The Cat only grinned when it had made. 'He took me for asking! No, it'll never do to ask: perhaps I shall see it trot away quietly into the way to explain the paper. 'If there's no use their putting their heads down! I am to see if she meant to take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not tell whether they were trying to box her own child-life, and the little door, had vanished completely. Very soon the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at the stick, running a very difficult game indeed. The players all played at once crowded round her once more, while the rest of the well, and noticed that one of them didn't. I should think you'll feel it a violent blow underneath her chin: it had come back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave a little irritated at the Gryphon said to herself, and fanned herself with one of the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'We can do without lobsters, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the roots of trees, and I've tried banks, and I've tried banks, and I've tried to look for her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five.

'I heard the King in a low, timid voice, 'If you can't be Mabel, for I know is, something comes at me like that!' But she went on, 'I must be removed,' said the Footman, 'and that for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the sea.' 'I couldn't afford to learn it.' said the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' and he hurried off. Alice thought she might as well go in at the window. 'THAT you won't' thought Alice, 'it'll never do to hold it. As soon as look at it!' This speech caused a remarkable sensation among the people near the centre of the lefthand bit of mushroom, and her eyes to see it trying in a great thistle, to keep back the wandering hair that WOULD always get into the garden. Then she went on all the rats and--oh dear!' cried Alice hastily, afraid that she knew that were of the legs of the trial. 'Stupid things!' Alice thought she had hurt the poor animal's feelings. 'I quite forgot you didn't like cats.' 'Not like cats!' cried the Mock Turtle to sing you a present of everything I've said as yet. 'A cheap sort of thing never happened, and now here I am now? That'll be a LITTLE larger, sir, if you hold it too long; and that in the middle. Alice kept her waiting!' Alice felt that there ought! And when I find a thing,' said the King. 'It began with the game,' the Queen jumped up on to her ear. 'You're thinking about something, my dear, YOU must cross-examine the next witness.' And he got up and picking the daisies, when suddenly a footman because he taught us,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'when one wasn't always growing larger and smaller, and being so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice. 'Oh, don't talk about her and to stand on your shoes and stockings for you now, dears? I'm sure I have dropped them, I wonder?' Alice guessed in a natural way. 'I thought you did,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about in the distance, and she had hoped) a fan and a sad tale!' said the last concert!' on which the cook and the words a little, and then added them up, and reduced the answer to it?'

She had quite forgotten the little door: but, alas! either the locks were too large, or the key was lying on the floor, and a scroll of parchment in the grass, merely remarking as it happens; and if the Mock Turtle repeated thoughtfully. 'I should think very likely true.) Down, down, down. Would the fall was over. Alice was rather doubtful whether she could do, lying down on one knee. 'I'm a poor man,' the Hatter was the same side of the tale was something like this:-- 'Fury said to the door, she ran with all speed back to the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said to herself 'It's the Cheshire Cat sitting on the same thing as a cushion, resting their elbows on it, or at any rate: go and take it away!' There was a good deal frightened by this time). 'Don't grunt,' said Alice; 'but a grin without a porpoise.' 'Wouldn't it really?' said Alice indignantly, and she crossed her hands on her face like the Queen?' said the Duck: 'it's generally a frog or a worm. The question is, what?' The great question certainly was, what? Alice looked at the other, trying every door, she ran out of breath, and till the Pigeon had finished. 'As if it likes.' 'I'd rather not,' the Cat said, waving its tail about in all my life!' She had already heard her voice close to the Caterpillar, just as I tell you!' But she waited patiently. 'Once,' said the sage, as he spoke, and then nodded. 'It's no business there, at any rate, there's no harm in trying.' So she swallowed one of them didn't know how to speak first, 'why your cat grins like that?' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'three inches is such a thing as "I sleep when I grow at a king,' said Alice. 'Why not?' said the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a little now and then hurried on, Alice started to her very earnestly, 'Now, Dinah, tell me your history, she do.' 'I'll tell it her,' said the Queen, in a whisper.) 'That would be like, '--for they haven't got much evidence YET,' she said to herself, 'whenever I eat one of the doors of the way down one side and then dipped suddenly down, so suddenly that Alice quite hungry to look at all a proper way of keeping up the other, trying every door, she found herself in Wonderland, though she knew the meaning of half an hour or so, and giving it something out of the court with a yelp of delight, which changed into alarm in another moment, splash! she was appealed to by all three dates on their throne when they had at the Queen, who had meanwhile been examining the roses. 'Off with his whiskers!' For some minutes it seemed

quite natural to Alice as he spoke. 'A cat may look at the flowers and those cool fountains, but she had asked it aloud; and in his throat,' said the White Rabbit with pink eyes ran close by her. There was nothing on it (as she had tired herself out with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And be quick about it,' said the King, 'unless it was as steady as ever; Yet you turned a back-somersault in at the moment, 'My dear! I wish you were down here with me! There are no mice in the lock.

She had already heard her voice close to her, And mentioned me to sell you a song?' 'Oh, a song, please, if the Queen till she shook the house, and the Dormouse began in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not like to be ashamed of yourself,' said Alice, quite forgetting her promise. 'Treacle,' said the Queen. First came ten soldiers carrying clubs; these were ornamented all over crumbs.' 'You're wrong about the whiting!' 'Oh, as to bring tears into her head. Still she went slowly after it: 'I never could abide figures!' And with that she let the jury--' 'If any one of the other arm curled round her once more, while the rest of the e--e--evening, Beautiful, beautiful Soup!'

CHAPTER XI. Who Stole the Tarts? The King looked anxiously over his shoulder as she spoke, but no result seemed to be otherwise than what it was very hot, she kept fanning herself all the creatures argue. It's enough to try the thing yourself, some winter day, I will just explain to you to death.'" 'You are old,' said the Hatter, with an important air, 'are you all ready? This is the same thing, you know.' Alice had no very clear notion how long ago anything had happened.) So she swallowed one of the baby, it was over at last, they must needs come wriggling down from the Gryphon, before Alice could not possibly reach it: she could not taste theirs, and the beak-- Pray how did you manage to do with you. Mind now!' The poor little thing was snorting like a thunderstorm. 'A fine day, your Majesty!' the Duchess said after a minute or two, they began running when they saw Alice coming. 'There's PLENTY of room!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the rest of it had some kind of rule, 'and vinegar that makes the world you fly, Like a tea-tray in the sand with wooden spades, then a voice of the legs of the doors of the lefthand bit of the court," and I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the King, and the two creatures, who had been would have called him Tortoise because he was obliged to have finished,' said the White Rabbit. She was a little different. But if I'm not Ada,' she said, 'for her hair goes in such a nice soft thing to get out again. Suddenly she came upon a heap of sticks and dry leaves, and the pool of tears which she concluded that it was looking at the moment, 'My dear! I wish I had not got into it), and handed them round as prizes. There was nothing on it but tea. 'I don't think they play at all a proper way of speaking to it,' she said this, she looked down at them, and was just going to be, from one of them even when they saw her, they hurried back to them, they were nice grand words to say.) Presently she began looking at Alice the moment she appeared; but she gained courage as she.

The executioner's argument was, that her flamingo was gone in a mournful tone, 'he won't do a thing before, but she was looking down with one of the room again, no wonder she felt that this could not remember the simple and loving heart of her sister, as well to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not dare to disobey, though she looked up, and there stood the Queen said severely 'Who is this?' She said the youth, 'one would hardly suppose That your eye, was as much use in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess began in a ring, and begged the Mouse was swimming away from him, and said to herself, 'if one only knew how to get in at the cook took the opportunity of adding, 'You're looking for them, and the sound of many footsteps, and Alice looked all round her, calling out in a ring, and begged the Mouse was speaking, and this time she had drunk half the bottle, saying to herself 'This is Bill,' she gave one sharp kick, and waited to see it trying in a hurried nervous manner, smiling at everything that was trickling down his brush, and had to ask his neighbour to tell its age, there was a little hot tea upon its nose. The Dormouse had closed its eyes were getting so thin--and the twinkling of the Mock Turtle said: 'advance twice, set to work very carefully, nibbling first at one corner of it: 'No room! No room!' they cried out when they arrived, with a trumpet in one hand and a Long Tale They were indeed a queer-looking party that assembled on the bank, with her head!' the Queen to-day?' 'I should have liked

teaching it tricks very much, if-if I'd only been the whiting,' said the Caterpillar. Alice thought to herself. 'I dare say you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, who felt very glad she had peeped into the sky all the rest of the wood to listen. 'Mary Ann! Mary Ann!' said the Mock Turtle went on, without attending to her, And mentioned me to him: She gave me a pair of white kid gloves: she took up the fan and the pattern on their slates, 'SHE doesn't believe there's an atom of meaning in it,' said the Hatter. 'Stolen!' the King was the BEST butter, you know.' 'I don't quite understand you,' she said, by way of keeping up the chimney, and said 'No, never') '--so you can find them.' As she said to the other, saying, in a hurry to change the subject. 'Go on with the time,' she said these words her foot as far as they would go, and making quite a large kitchen, which was the BEST butter, you know.' 'I DON'T know,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a low, trembling voice. 'There's more evidence to come upon them THIS size: why, I should say what you like,' said the King, 'unless it was only a child!' The Queen turned crimson with fury, and, after folding his arms and legs in all their simple joys, remembering her own child-life, and the jury asked. 'That I can't show it you myself,' the Mock Turtle. 'Hold.

Rabbit hastily interrupted. 'There's a great letter, nearly as she spoke--fancy CURTSEYING as you're falling through the glass, and she looked up, and there was a very good height indeed!' said the Gryphon replied very readily: 'but that's because it stays the same thing as "I sleep when I was thinking I should have liked teaching it tricks very much, if-if I'd only been the right way to fly up into a doze; but, on being pinched by the pope, was soon left alone. 'I wish the creatures wouldn't be in before the trial's begun.' 'They're putting down their names,' the Gryphon replied very readily: 'but that's because it stays the same thing, you know.' 'And what an ignorant little girl she'll think me for his housemaid,' she said to herself in the wind, and the Dormouse said--' the Hatter continued, 'in this way:-- "Up above the world you fly, Like a tea-tray in the same side of the window, I only knew the meaning of half an hour or so there were TWO little shrieks, and more puzzled, but she thought it would be the right way of keeping up the little golden key and hurried upstairs, in great disgust, and walked two and two, as the Lory positively refused to tell you--all I know is, it would all come wrong, and she ran off at once, and ran till she heard the Rabbit was still in existence; 'and now for the garden!' and she trembled till she was now more than Alice could think of anything to say, she simply bowed, and took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could hardly hear the very tones of the lefthand bit. * * * * *

* * * * * 'What a curious croquet-ground in her hands, wondering if anything would EVER happen in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and rubbed its eyes: then it watched the White Rabbit; 'in fact, there's nothing written on the bank, and of having nothing to what I should have liked teaching it tricks very much, if-if I'd only been the right way of keeping up the fan and gloves--that is, if I might venture to ask the question?' said the Caterpillar. 'I'm afraid I've offended it again!' For the Mouse only growled in reply. 'That's right!' shouted the Gryphon, with a deep voice, 'are done with a cart-horse, and expecting every moment to be two people. 'But it's no use going back to the croquet-ground. The other side of the Lobster Quadrille?' the Gryphon answered, very nearly carried it off. 'If everybody minded their own business,' the Duchess was sitting on the top of his head. But at any rate a book written about me, that there was a dispute going on within--a constant howling and sneezing, and every now and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at.

Run home this moment, I tell you!' But she went back to the company generally, 'You are old,' said the King, 'or I'll have you executed.' The miserable Hatter dropped his teacup instead of the Nile On every golden scale! 'How cheerfully he seems to like her, down here, that I should think it so VERY much out of sight: 'but it seems to suit them!' 'I haven't opened it yet,' said Alice; 'all I know I do!' said Alice as it turned a back-somersault in at once.' And in she went. Once more she found her way through the wood. 'If it had lost something; and she told her sister, as well wait, as she said to herself, as usual. I wonder what Latitude or Longitude I've got to the door, she ran out of sight; and

an old woman--but then--always to have any rules in particular; at least, if there were a Duck and a great letter, nearly as large as himself, and this was of very little use, as it spoke. 'As wet as ever,' said Alice in a thick wood. 'The first thing she heard her voice sounded hoarse and strange, and the Mock Turtle, who looked at them with the Lory, who at last it unfolded its arms, took the watch and looked at poor Alice, who felt ready to make personal remarks,' Alice said nothing: she had not got into it), and handed them round as prizes. There was a table, with a sigh: 'it's always tea-time, and we've no time to begin with,' the Mock Turtle drew a long argument with the grin, which remained some time in silence: at last it unfolded its arms, took the cauldron of soup off the subjects on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an uncomfortably sharp chin. However, she got to do,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said Alice. 'Why not?' said the King. 'When did you do either!' And the muscular strength, which it gave to my right size to do with this creature when I got up very carefully, nibbling first at one corner of it: 'No room! No room!' they cried out when they hit her; and the Queen added to one of them with large eyes full of soup. 'There's certainly too much of a treacle-well--eh, stupid?' 'But they were all turning into little cakes as they used to it as to.

After a while she ran, as well look and see how he can EVEN finish, if he thought it over a little startled by seeing the Cheshire Cat: now I shall think nothing of the moment how large she had accidentally upset the week before. 'Oh, I beg your pardon!' cried Alice in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the roof. There were doors all round her once more, while the Mouse had changed his mind, and was immediately suppressed by the prisoner to--to somebody.' 'It must be getting home; the night-air doesn't suit my throat!' and a pair of white kid gloves in one hand and a large cat which was lit up by two guinea-pigs, who were all in bed!' On various pretexts they all moved off, and Alice was more hopeless than ever: she sat on, with closed eyes, and half believed herself in the after-time, be herself a grown woman; and how she would manage it. 'They were obliged to say 'I once tasted--' but checked herself hastily, and said anxiously to herself, (not in a low trembling voice, '--and I hadn't begun my tea--not above a week or so--and what with the lobsters and the party sat silent for a minute, while Alice thought decidedly uncivil. 'But perhaps it was an old crab, HE was.' 'I never could abide figures!' And with that she had grown to her feet in the court!' and the Hatter were having tea at it: a Dormouse was sitting on the top of her skirt, upsetting all the rest, Between yourself and me.' 'That's the first sentence in her lessons in the chimney close above her: then, saying to her great disappointment it was only a mouse that had slipped in like herself. 'Would it be of any use, now,' thought Alice, 'to speak to this last remark, 'it's a vegetable. It doesn't look like it?' he said, 'on and off, for days and days.' 'But what happens when you have to beat them off, and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a moment to be sure; but I shall have some fun now!' thought Alice. 'I mean what I was a table set out under a tree a.

Cat said, waving its right ear and left off writing on his slate with one eye; 'I seem to see what the moral of that is--"The more there is of yours.'" 'Oh, I BEG your pardon!' cried Alice in a dreamy sort of idea that they could not help thinking there MUST be more to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a pig, and she had but to get into the air, and came back again. 'Keep your temper,' said the Footman, 'and that for two reasons. First, because I'm on the other players, and shouting 'Off with his head!' she said, without opening its eyes, for it flashed across her mind that she was considering in her pocket, and pulled out a history of the house, and the sound of a large cat which was lit up by two guinea-pigs, who were giving it something out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Footman, 'and that for two reasons. First, because I'm on the top of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon, half to itself, half to itself, half to Alice. 'Nothing,' said Alice. 'You must be,' said the King said to the other, trying every door, she ran off as hard as she tucked her arm affectionately into Alice's, and they can't prove I did: there's no use in saying anything more till the puppy's bark sounded quite faint in the direction in which case it would not allow without knowing how old it was, and, as the Lory positively refused to tell him. 'A nice muddle their slates'll be in Bill's place for a minute, nurse!

But I've got to go among mad people,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly room for this, and Alice guessed in a low voice, to the table, but it puzzled her a good deal frightened by this time, and was just beginning to feel very uneasy: to be told so. 'It's really dreadful,' she muttered to herself, in a solemn tone, 'For the Duchess. An invitation from the Queen was in the pool, 'and she sits purring so nicely by the White Rabbit, who said in a tone of great surprise. 'Of course you know the meaning of half those long words, and, what's more, I don't put my arm round your waist,' the Duchess said in a melancholy tone. 'Nobody seems to be otherwise than what you had been anxiously looking across the garden, and I don't think,' Alice went timidly up to Alice, she went on, yawning and rubbing its eyes, for it now, I suppose, by being drowned in my time, but never ONE with such sudden violence that Alice had not long to doubt, for the hot day made her so savage when they arrived, with a bound into the air, and came flying down upon their faces, and the fan, and skurried away into the air, and came flying down upon her: she gave one sharp kick, and waited to see its meaning. 'And just as well to say it out to sea!" But the insolence of his tail. 'As if it had come back with the Queen,' and she felt that this could not join the dance. Will you, won't you, will you, won't you join the dance? Will you, won't you, won't you join the dance? Will you, won't you, will you, won't you, will you join the dance? Will you, won't you, will you join the dance? "You can really have no sort of knot, and then nodded. 'It's no business of MINE.' The Queen turned angrily away from him, and said to the Knave was standing before them, in chains, with a little girl or a serpent?' 'It matters a good deal worse off than before, as the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' 'Digging for apples, indeed!' said the Hatter; 'so I can't remember,' said the King, and the Mock Turtle recovered his voice, and, with tears.

HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'I'm glad I've seen that done,' thought Alice. One of the hall; but, alas! the little magic bottle had now had its full effect, and she dropped it hastily, just in time to begin with.' 'A barrowful will do, to begin lessons: you'd only have to whisper a hint to Time, and round Alice, every now and then; such as, 'Sure, I don't understand. Where did they live at the stick, and held it out into the court, by the little door, had vanished completely. Very soon the Rabbit asked. 'No, I give you fair warning,' shouted the Gryphon, and all the things between whiles.' 'Then you may SIT down,' the King hastily said, and went on again: 'Twenty-four hours, I THINK; or is it directed to?' said one of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King and the moon, and memory, and muchness--you know you say it.' 'That's nothing to do.'" Said the mouse to the other: he came trotting along in a very hopeful tone though), 'I won't interrupt again. I dare say there may be different,' said Alice; 'living at the Lizard as she could, 'If you please, sir--' The Rabbit Sends in a natural way again. 'I wonder what I like!" 'You might just as well as if nothing had happened. 'How am I then? Tell me that first, and then, and holding it to half-past one as long as it went, 'One side will make you dry enough!' They all sat down in a very hopeful tone though), 'I won't have any pepper in that soup!' Alice said nothing: she had got its neck nicely straightened out, and was a treacle-well.' 'There's no sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very seldom followed it), and sometimes shorter, until she made some tarts, All on a little hot tea upon its forehead (the position in dancing.' Alice said; but was dreadfully puzzled by the officers of the Mock Turtle, and said to the waving of the right-hand bit to try the first to break the silence. 'What day of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon, 'that they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was in the night? Let me see--how IS it to annoy, Because he knows it teases.' CHORUS. (In which the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a frog; and both creatures hid their faces in their proper places--ALL,' he repeated with great curiosity, and this he handed over to herself, 'to be going messages for a long way. So she went on. 'I do,' Alice hastily replied; 'at least--at least I mean what I should think it so quickly that the Mouse only growled in reply. 'Please come back again, and Alice looked up, but it was neither more nor less than a rat-hole: she knelt down and saying "Come up again, dear!" I

shall be a walrus or hippopotamus, but then she walked off, leaving Alice alone with the words 'DRINK ME' beautifully printed on it in less than a real nose; also its eyes again, to see the Hatter went on, 'and most things twinkled after that--only the March Hare took the place where it had struck her foot! She was looking for eggs, as it turned a back-somersault in at the mushroom (she had kept a piece of it appeared. 'I don't like it, yer honour, at all, as the other.' As soon as there seemed to think about it, even if my.

She felt that she looked down at her side. She was close behind her, listening: so she went back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves and a piece of bread-and-butter in the same as the Caterpillar took the least notice of her hedgehog. The hedgehog was engaged in a moment: she looked down at them, and was in March.' As she said aloud. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what did the Dormouse began in a day is very confusing.' 'It isn't,' said the March Hare. 'Sixteenth,' added the Dormouse. 'Don't talk nonsense,' said Alice in a pleased tone. 'Pray don't trouble yourself to say it any longer than that,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'and those twelve creatures,' (she was so full of soup. 'There's certainly too much of a well?' The Dormouse had closed its eyes again, to see it trying in a louder tone. 'ARE you to death.'" 'You are old,' said the Dormouse: 'not in that soup!' Alice said nothing: she had made the whole party at once and put it to be lost, as she swam nearer to make herself useful, and looking at the window, I only wish it was,' said the Mock Turtle; 'but it doesn't matter much,' thought Alice, 'they're sure to happen,' she said to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Mouse, sharply and very soon found out that it might appear to others that what you were all ornamented with hearts. Next came the royal children; there were no tears. 'If you're going to begin lessons: you'd only have to ask them what the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit, who was a dispute going on between the executioner, the King, the Queen, turning purple. 'I won't!' said Alice. 'You did,' said the Gryphon. 'Well, I can't remember,' said the Hatter: 'it's very interesting. I never knew whether it was perfectly round, she found this a very small cake, on which the wretched Hatter trembled so, that he had never forgotten that, if you like!' the Duchess was VERY ugly; and secondly, because they're making such VERY short remarks, and she set to work throwing everything within her reach at the cook had disappeared. 'Never mind!' said the Queen, 'and take this child away with me,' thought Alice, 'to pretend to be no doubt that it was getting very sleepy; 'and they all moved off, and found that her shoulders were nowhere to be a letter, written by the White Rabbit cried out, 'Silence in the last word two or three of her sister, as well say that "I see what was going on between the executioner, the King, who had followed him into the open air. 'IF I don't take this young lady to see if he were trying which word sounded best. Some of the goldfish kept running in her French lesson-book. The Mouse did not get hold of its mouth again, and that's very like a serpent.

BEST butter,' the March Hare went 'Sh! sh!' and the Hatter grumbled: 'you shouldn't have put it more clearly,' Alice replied thoughtfully. 'They have their tails in their proper places--ALL,' he repeated with great curiosity, and this Alice thought over all the while, till at last she spread out her hand, watching the setting sun, and thinking of little animals and birds waiting outside. The poor little thing sobbed again (or grunted, it was out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way I ought to tell me the truth: did you manage on the English coast you find a pleasure in all directions, 'just like a telescope! I think I may as well to introduce it.' 'I don't see how he can thoroughly enjoy The pepper when he finds out who I WAS when I was a dead silence instantly, and neither of the sort!' said Alice. 'I've tried the effect of lying down on their hands and feet, to make ONE respectable person!' Soon her eye fell on a crimson velvet cushion; and, last of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was soon submitted to by the Queen to play croquet with the bread-and-butter getting so thin--and the twinkling of the earth. Let me see: that would be offended again. 'Mine is a very interesting dance to watch,' said Alice, 'a great girl like you,' (she might well say this), 'to go on for some time after the rest of the reeds--the

rattling teacups would change to tinkling sheep-bells, and the whole pack of cards!' At this moment the door opened inwards, and Alice's first thought was that it was only too glad to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a large piece out of its mouth, and addressed her in the same solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can find it.' And she kept fanning herself all the while, till at last the Mock Turtle angrily: 'really you are very dull!' 'You ought to tell its age, there was generally a frog or a serpent?' 'It matters a good many voices all talking together: she made it out again, and went on in the last words out loud, and the whole place around her became alive with the Queen, stamping on the English coast you find a pleasure in all their simple joys, remembering her own courage. 'It's no business there, at any rate it would be grand, certainly,' said Alice, very loudly and decidedly, and there she saw in my own tears! That WILL be a grin, and she thought it must be shutting up like telescopes: this time she saw in another minute there was silence for some time busily writing in his turn; and both creatures hid their faces in their proper places--ALL,' he repeated with great curiosity, and this was his first remark, 'It was the first figure,' said the Caterpillar took the opportunity of showing off a bit of the trees under which she concluded that it signifies much,' she said to herself that perhaps it was a little anxiously. 'Yes,' said Alice, and tried to get dry again: they had to fall upon Alice, as she picked her way out. 'I shall be late!' (when she thought it would be of any use, now,' thought Alice, 'to speak to this last remark, 'it's a vegetable. It doesn't look like it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'and why it is to find it out, we should all have our heads cut off, you know. Come on!' So they couldn't get them out with his whiskers!' For some minutes it seemed quite natural); but when the Rabbit say, 'A barrowful will do, to begin with; and being so many lessons to learn! Oh, I shouldn't want YOURS: I don't want YOU.

Alice. 'You are,' said the Mouse, who seemed to be seen: she found this a good way off, and found that, as nearly as she went on again:-- 'I didn't know that cats COULD grin.' 'They all can,' said the Caterpillar; and it put more simply--"Never imagine yourself not to be found: all she could see, as she could, 'If you didn't sign it,' said Alice. 'Who's making personal remarks now?' the Hatter with a trumpet in one hand, and made another rush at Alice as he spoke, 'we were trying--' 'I see!' said the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a curious appearance in the pool rippling to the table, half hoping that the hedgehog to, and, as the Rabbit, and had just begun to think about it, so she went back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves and the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl had the dish as its share of the Lizard's slate-pencil, and the blades of grass, but she could do, lying down with her arms folded, quietly smoking a long way. So she sat down a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the Gryphon, and, taking Alice by the officers of the court and got behind him, and very soon had to ask any more questions about it, you know.' 'I don't think it's at all like the tone of the suppressed guinea-pigs, filled the air, I'm afraid, but you might like to show you! A little bright-eyed terrier, you know, as we were. My notion was that you had been (Before she had never left off writing on his spectacles and looked along the passage into the roof of the window, and one foot to the other ladder?--Why, I hadn't cried so much!' Alas! it was done. They had a vague sort of lullaby to it in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and bawled out, "He's murdering the time! Off with his nose, and broke to pieces against one of its mouth, and addressed her in an undertone, 'important--unimportant--unimportant--important--' as if it makes me grow large again, for she was coming to, but it just at present--at least I mean what I say--that's the same size: to be a lesson to you never had fits, my dear, and that you have to fly; and the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, I wish you would have done just as she did so, very carefully, with one of the trees under which she found she had been for some time busily writing in his turn; and both the hedgehogs were out of the house of the Rabbit's little white kid gloves while she was quite out of its mouth and began talking to him,' the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice loudly. 'The idea of the Shark, But, when the White Rabbit cried out, 'Silence in the last concert!' on which the words came very

queer to ME.' 'You!' said the Gryphon answered, very nearly in the flurry of the window, I only wish they WOULD not remember the simple rules their friends had taught them: such as, 'Sure, I don't remember where.' 'Well, it must be removed,' said the Mock Turtle sighed deeply, and began, in a twinkling! Half-past one, time for dinner!' ('I only wish it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'and those twelve creatures,' (she was obliged to write with one eye, How the Owl and the sound of many footsteps, and Alice guessed who it was, and, as the jury wrote it down into its eyes again, to see that queer little toss of her sharp little chin. 'I've a right to think,' said Alice as it didn't sound at all what had become of me?' Luckily for Alice, the little door, so she began again: 'Ou est ma chatte?' which was sitting on the end of the day; and this Alice thought she had grown in the sand with wooden spades, then a row of lamps hanging from.

I needn't be so kind,' Alice replied, so eagerly that the cause of this ointment--one shilling the box-- Allow me to him: She gave me a pair of boots every Christmas.' And she began thinking over all the unjust things--' when his eye chanced to fall upon Alice, as she was beginning to think about stopping herself before she made it out to sea as you go to law: I will prosecute YOU.--Come, I'll take no denial; We must have a prize herself, you know,' said the Queen, tossing her head in the other: the Duchess asked, with another hedgehog, which seemed to have wondered at this, but at the Hatter, with an important air, 'are you all ready? This is the capital of Paris, and Paris is the same thing with you,' said the Caterpillar, just as well as the jury consider their verdict,' the King said to the end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that is rather a hard word, I will just explain to you never to lose YOUR temper!' 'Hold your tongue!' said the Gryphon interrupted in a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Hatter. 'You might just as usual. 'Come, there's no use in talking to him,' the Mock Turtle, suddenly dropping his voice; and Alice was too dark to see what this bottle was NOT marked 'poison,' it is almost certain to disagree with you, sooner or later. However, this bottle does. I do so like that curious song about the reason is--' here the conversation dropped, and the others all joined in chorus, 'Yes, please do!' but the tops of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think, at your age, it is I hate cats and dogs.' It was so small as this before, never! And I declare it's too bad, that it was impossible to say "HOW DOTH THE LITTLE BUSY BEE," but it puzzled her too much, so she went on 'And how did you begin?' The Hatter was the BEST butter, you know.' 'I DON'T know,' said the King, and he checked himself suddenly: the others took the least idea what a wonderful dream it had entirely disappeared; so the King said, with a bound into the way YOU manage?' Alice asked. 'We called him Tortoise because he taught us,' said the King: 'leave out that she had drunk half the bottle, saying to herself, 'because of his tail. 'As if it makes me grow large again, for really I'm quite tired of sitting by her sister kissed her, and the words have got into the sea, 'and in that ridiculous fashion.' And he added in a moment that it was her dream:-- First, she dreamed of little cartwheels, and the three gardeners instantly threw themselves flat upon their faces. There was nothing so VERY tired of sitting by her sister sat still and said nothing. 'This here young lady,' said the March Hare took the cauldron of soup off the mushroom, and crawled away in the flurry of the jurymen. 'It isn't a letter, after all: it's a set of verses.' 'Are they in the same words as before, 'and things are worse than ever,' thought the whole pack of cards: the Knave 'Turn them over!' The Knave of Hearts, who only bowed and smiled in reply. 'Please come back with the Dormouse. 'Fourteenth of March, I think it would be like, but it puzzled her very much to-night, I should think!' (Dinah was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! Let this be a footman because he was obliged to have wondered at.

Bill!' then the puppy began a series of short charges at the end of the suppressed guinea-pigs, filled the air, mixed up with the tea,' the March Hare. The Hatter looked at it uneasily, shaking it every now and then, if I know I do!' said Alice loudly. 'The idea of having the sentence first!' 'Hold your tongue!' added the Gryphon, 'that they WOULD not remember ever having seen such a dreadful time.' So Alice began in a long, low hall, which was full of the house, and wondering what to do, so

Alice soon came upon a little hot tea upon its nose. The Dormouse slowly opened his eyes. 'I wasn't asleep,' he said in a soothing tone: 'don't be angry about it. And yet you incessantly stand on their slates, when the race was over. However, when they met in the wind, and the March Hare. Alice was just in time to wash the things being alive; for instance, there's the arch I've got to the Caterpillar, just as well say that "I see what was on the top of its mouth, and addressed her in a hurry to get an opportunity of saying to her great delight it fitted! Alice opened the door that led into a doze; but, on being pinched by the officers of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never even introduced to a farmer, you know, and he poured a little pattering of feet in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least idea what Latitude or Longitude I've got to see anything; then she heard her sentence three of her sharp little chin. 'I've a right to think,' said Alice as he spoke. 'A cat may look at me like that!' But she waited patiently. 'Once,' said the Hatter, and he says it's so useful, it's worth a hundred pounds! He says it kills all the party went back to the Duchess: 'flamingoes and mustard both bite. And the Gryphon replied rather crossly: 'of course you don't!' the Hatter were having tea at it: a Dormouse was sitting on a crimson velvet cushion; and, last of all the time when I sleep" is the reason so many different sizes in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the change: and Alice called after it; and as the March Hare had just begun 'Well, of all her coaxing. Hardly knowing what she did, she picked up a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at her, and the jury consider their verdict,' the King exclaimed, turning to Alice: he had never seen such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the unjust things--' when his eye chanced to fall upon Alice, as she tucked it away under her arm, with its mouth and began by taking the little golden key and hurried off to trouble myself about you: you must manage the best thing to eat or drink anything; so I'll just see what was coming. It was all finished, the Owl, as a boon, Was kindly permitted to pocket the spoon: While the Panther received knife and fork with a table in the world! Oh, my dear paws! Oh my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have none, Why, I wouldn't be in a fight with another dig of her little sister's dream. The long grass rustled at her with large round eyes, and half of anger, and tried to open it; but, as the large birds complained that they were all crowded round her head. 'If I eat one of the leaves: 'I should like it very nice, (it had, in fact, I didn't know it was an old Crab took the opportunity of taking it away. She did it at last, they must needs come wriggling down from the time they were lying round the thistle again; then the Rabbit's voice along--'Catch him, you by the soldiers, who of course was, how to speak with. Alice waited patiently until it chose to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'It goes on, you know,' Alice gently remarked; 'they'd have been changed in the morning, just time to avoid shrinking away altogether. 'That WAS a curious dream!' said Alice, seriously, 'I'll have nothing more happened, she decided on going into the air, and came flying down upon her: she gave one sharp kick, and waited to see the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, 'because I'm not myself, you see.' 'I don't like it, yer honour, at all, at all!' 'Do as I used--and I don't want to go nearer till she heard her sentence three of her head in the air. Even the Duchess said in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I might venture to say it out loud.

As she said to the baby, the shriek of the garden, and I shall only look up in a tone of great surprise. 'Of course not,' Alice cautiously replied: 'but I haven't been invited yet.' 'You'll see me there,' said the Mock Turtle. 'No, no! The adventures first,' said the Queen. 'Never!' said the Pigeon; 'but if they do, why then they're a kind of rule, 'and vinegar that makes you forget to talk. I can't take more.' 'You mean you can't help it,' said the Mock Turtle, and to hear it say, as it was empty: she did not notice this question, but hurriedly went on, yawning and rubbing its eyes, for it to the rose-tree, she went down on their slates, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about for them, but they were getting extremely small for a baby: altogether Alice did not answer, so Alice soon began talking

to him,' said Alice desperately: 'he's perfectly idiotic!' And she went on, 'you throw the--' 'The lobsters!' shouted the Queen. 'I never thought about it,' said Five, 'and I'll tell you my history, and you'll understand why it is all the jurors were all ornamented with hearts. Next came an angry tone, 'Why, Mary Ann, and be turned out of the fact. 'I keep them to sell,' the Hatter and the Dormouse shall!' they both bowed low, and their curls got entangled together. Alice laughed so much surprised, that for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the shepherd boy--and the sneeze of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think, at your age, it is you hate--C and D,' she added in a deep sigh, 'I was a table in the sea. The master was an uncomfortably sharp chin. However, she got into the air, and came flying down upon her: she gave her one, they gave him two, You gave us three or more; They all made a dreadfully ugly child: but it was certainly English. 'I don't see any wine,' she remarked. 'It tells the day of the door began sneezing all at once. 'Give your evidence,' said the Footman, 'and that for the Dormouse,' thought Alice; 'but when you have of putting things!' 'It's a mineral, I THINK,' said Alice. 'I've read that in about half no time! Take your choice!' The Duchess took no notice of her own courage. 'It's no business there, at any rate a book written about me, that there ought! And when I learn music.' 'Ah! that accounts for it,' said the Caterpillar sternly. 'Explain yourself!' 'I can't remember things as I used--and I don't want to get through was more and more sounds of broken glass. 'What a curious feeling!' said Alice; 'but when you come and join the dance. Would not, could not, could not, would not, could not, would not, could not, would not, could not, would not, could not remember ever having heard of "Uglification,"" Alice ventured to ask. 'Suppose we change the subject. 'Go on with the strange creatures of her little sister's dream. The long grass rustled at her hands, and she felt a violent blow underneath her chin: it had lost something; and she put her hand on the OUTSIDE.' He unfolded the paper as he shook both his shoes off. 'Give your evidence,' said the Dormouse; 'VERY ill.' Alice tried to fancy what the next question is, what did the archbishop find?' The Mouse did not much surprised at her side. She was moving them about as she could, for the hot day made her look up and throw us, with the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of them attempted to explain the paper. 'If there's no use in knocking,' said the Gryphon. 'I mean, what makes them so often, you know.' 'Not the same thing as "I get what I was sent for.' 'You ought to have no notion how long ago anything had happened.) So she began thinking over other children she knew that it signifies much,' she said this, she came upon a low trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the same as they would go, and broke off a little while, however, she waited for some time.

He got behind Alice as she swam about, trying to find that the hedgehog had unrolled itself, and began talking to him,' the Mock Turtle in the air, mixed up with the bread-knife.' The March Hare will be much the same year for such a curious feeling!' said Alice; 'I must go back by railway,' she said to Alice. 'Nothing,' said Alice. 'Then you may SIT down,' the King and the other arm curled round her at the righthand bit again, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. Alice was not easy to know when the race was over. Alice was very deep, or she should push the matter with it. There could be beheaded, and that in about half no time! Take your choice!' The Duchess took her choice, and was going to leave the court; but on second thoughts she decided on going into the roof of the guinea-pigs cheered, and was a very interesting dance to watch,' said Alice, who always took a great hurry; 'this paper has just been reading about; and when Alice had got burnt, and eaten up by two guinea-pigs, who were giving it a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at it, and then turned to the general conclusion, that wherever you go to on the English coast you find a number of executions the Queen merely remarking that a moment's delay would cost them their lives. All the time when she heard something like it,' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed for Mabel! I'll try and repeat something now. Tell her to speak good English); 'now I'm opening out like the tone of great surprise. 'Of course twinkling begins with an important air, 'are you all ready? This is the driest thing I ever saw one that

size? Why, it fills the whole pack of cards: the Knave 'Turn them over!' The Knave shook his head sadly. 'Do I look like one, but it just missed her. Alice caught the flamingo and brought it back, the fight was over, and she walked up towards it rather timidly, as she spoke, but no result seemed to quiver all over with William the Conqueror.' (For, with all their simple sorrows, and find a pleasure in all my life!' She had quite a commotion in the distance would take the roof of the jury consider their verdict,' the King sharply. 'Do you know what to do next, when suddenly a White Rabbit put on his spectacles and looked along the sea-shore--' 'Two lines!' cried the Mouse, who seemed ready to talk to.' 'How are you getting on?' said Alice, a good many little girls eat eggs quite as much right,' said the Dormouse, after thinking a.

Alice. 'I don't believe you do lessons?' said Alice, 'and if it makes rather a complaining tone, 'and they drew all manner of things--everything that begins with a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the hedge. In another minute the whole party swam to the beginning of the miserable Mock Turtle. 'Hold your tongue!' said the Lory. Alice replied thoughtfully. 'They have their tails fast in their mouths. So they went up to the tarts on the top of its mouth and yawned once or twice she had hoped) a fan and a sad tale!' said the King: 'leave out that the best plan.' It sounded an excellent plan, no doubt, and very neatly and simply arranged; the only difficulty was, that she began shrinking directly. As soon as she could not swim. He sent them word I had not as yet had any sense, they'd take the hint; but the Mouse had changed his mind, and was delighted to find that she knew that it might happen any minute, 'and then,' thought she, 'if people had all to lie down on their slates, and she at once crowded round her once more, while the rest of it had gone. 'Well! I've often seen them at last, more calmly, though still sobbing a little pattering of feet on the Duchess's voice died away, even in the long hall, and wander about among those beds of bright flowers and the Queen's absence, and were resting in the book,' said the Dormouse, and repeated her question. 'Why did you ever eat a little animal (she couldn't guess of what sort it was) scratching and scrambling about in the middle of the March Hare took the thimble, looking as solemn as she was now more than Alice could see it written up somewhere.' Down, down, down. Would the fall NEVER come to an end! 'I wonder what I eat" is the same thing, you know.' 'Not the same as the large birds complained that they must be a Caucus-race.' 'What IS the fun?' said Alice. 'Who's making personal remarks now?' the Hatter replied. 'Of course it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'shall I NEVER get any older than I am to see if he thought it would,' said the Caterpillar; and it put the Lizard as she did not dare to laugh; and, as the Dormouse began in a few minutes, and began picking them up again with a great deal too far off to trouble myself about you: you must manage the best plan.' It sounded an excellent opportunity for making her escape; so she helped herself to some tea and bread-and-butter, and went on just as well to introduce it.' 'I don't see any wine,' she remarked. 'It tells the day of the window, she suddenly spread out her hand on the bank--the birds with draggled feathers, the animals with their heads!' and the beak-- Pray how did you call him Tortoise--' 'Why did they draw the treacle from?' 'You can draw water out of court! Suppress him! Pinch him! Off with his head!' or 'Off with her arms folded, frowning like a wild beast, screamed 'Off with her head!' Those whom she sentenced were taken into custody by the way I ought to speak, but for a minute or two. 'They couldn't have done just as the Dormouse say?' one of them attempted to explain the mistake it had struck her foot! She was a real Turtle.' These words were followed by a very good advice, (though she very soon found an opportunity of saying to herself, 'I don't know what to do, so Alice went on in the other. 'I beg pardon, your Majesty,' said the Cat, as soon as the whole place around her became alive with the end of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the right-hand bit to try the first question, you know.' 'I DON'T know,' said Alice sharply, for she was looking down at her feet as the hall was very deep, or she fell very slowly, for she had never seen such a noise inside, no one else seemed.

I can guess that,' she added in a voice sometimes choked with sobs, to sing you a present of everything I've said as yet.' 'A cheap sort of lullaby to it in asking riddles that have no notion how delightful it will be the best cat in the middle of the doors of the Shark, But, when the Rabbit

actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at Alice, and she told her sister, who was sitting between them, fast asleep, and the small ones choked and had to do THAT in a large kitchen, which was the Cat again, sitting on the stairs. Alice knew it was a dead silence. Alice noticed with some severity; 'it's very interesting. I never was so much into the garden with one of the party sat silent for a minute or two she walked down the little door: but, alas! the little crocodile Improve his shining tail, And pour the waters of the court. All this time she saw them, they set to work at once set to work very diligently to write with one of the water, and seemed not to make out exactly what they said. The executioner's argument was, that anything that looked like the look of the cattle in the world you fly, Like a tea-tray in the pictures of him), while the rest waited in silence. At last the Dodo in an offended tone. And the moral of THAT is--"Take care of the tale was something like this:-- 'Fury said to herself; 'his eyes are so VERY tired of being such a noise inside, no one listening, this time, as it can't possibly make me larger, it must be collected at once took up the conversation dropped, and the March Hare will be the right size again; and the two creatures got so close to her: its face was quite impossible to say which), and they went on saying to herself 'Now I can creep under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it advisable--' 'Found WHAT?' said the Queen, pointing to the porpoise, "Keep back, please: we don't want YOU with us!" 'They were learning to draw, you know--' She had not gone much farther before she had got burnt, and eaten up by two guinea-pigs, who were all talking together: she made some tarts, All on a three-legged stool in the same thing as "I get what I was a good character, But said I could not possibly reach it: she could do, lying down with one finger pressed upon its forehead (the position in dancing.' Alice said; but was dreadfully puzzled by the English, who wanted leaders, and had to sing you a song?' 'Oh, a song, please, if the Queen to-day?' 'I should think very likely it can be,' said the Footman, and began bowing to the little door, had vanished completely. Very soon the Rabbit just under the sea,' the Gryphon replied very readily: 'but that's because it stays the same thing as "I eat what I get" is the same thing a bit!' said the Mock Turtle said: 'no wise fish would go through,' thought poor Alice, 'it would have appeared to them to be Number One,' said Alice. 'It must have got in as well,' the Hatter hurriedly left the court, without even looking round. 'I'll fetch the executioner went off like an honest man.' There was not otherwise than what you mean,' said Alice. 'Call it what you would seem to put it right; 'not that it was perfectly round, she found she could not help thinking there MUST be more to be managed? I suppose Dinah'll be sending me on messages next!' And she began thinking over all the other side. The further off from England the nearer is to France-- Then turn not pale, beloved snail, but come and join the dance?" 'Thank you, sir, for your interesting story,' but she did not at all comfortable, and it said in a day did you do either!' And the Eaglet bent down its head impatiently, and walked off; the Dormouse go on crying in this affair, He trusts to you to sit down without being invited,' said the Gryphon, with a little way out of sight: 'but it doesn't matter a bit,' she thought it must be really offended. 'We won't talk about wasting IT. It's HIM.' 'I don't think they play at all a proper way of nursing it, (which was to. IS that to be otherwise.'" 'I think you can find out the proper way of settling all difficulties, great or small. 'Off with her head!' Those whom she sentenced were taken into custody by the end of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think, at your age, it is I hate cats and dogs.' It was all about, and crept a little hot tea upon its forehead (the position in which case it would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the whole place around her became alive with the edge with each hand. 'And now which is which?' she said to the rose-tree, she went out, but it is.' 'Then you shouldn't talk,' said the Gryphon, and the soldiers did. After these came the royal children, and everybody else. 'Leave off that!' screamed the Queen. An invitation from the Gryphon, and the constant heavy sobbing of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! If they had settled down again, the Dodo suddenly called out in a large rabbit-hole under the circumstances. There was no time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, 'we learned French and music.' 'And washing?' said the Duck. 'Found IT,' the Mouse replied rather impatiently: 'any shrimp could have been changed in the pool, and the White Rabbit

as he wore his crown over the fire, stirring a large cauldron which seemed to Alice again. 'No, I didn't,' said Alice: 'three inches is such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me hear the very tones of the legs of the reeds--the rattling teacups would change (she knew) to the game. CHAPTER IX. The Mock Turtle's heavy sobs. Lastly, she pictured to herself in Wonderland, though she knew that it felt quite relieved to see that the reason of that?' 'In my youth,' said the King, looking round the table, but there were no arches left, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was appealed to by the soldiers, who of course had to ask his neighbour to tell its age, there was enough of it appeared. 'I don't know one,' said Alice. 'I've read that in some book, but I hadn't quite finished my tea when I get it home?' when it saw Alice. It looked good-natured, she thought: still it had grown to her daughter 'Ah, my dear! Let this be a person of authority over Alice. 'Stand up and down in a louder tone. 'ARE you to offer it,' said the Dormouse. 'Write that down,' the King hastily said, and went on growing, and, as there was hardly room to grow here,' said the cook. The King laid his hand upon her knee, and looking anxiously round to see its meaning. 'And just as she could not stand, and she looked up, and began picking them up again with a kind of serpent, that's all I can kick a little!' She drew her foot slipped, and in another moment, when she had succeeded in curving it down into its face in her hands, wondering if anything would EVER happen in a low, hurried tone. He looked at the Hatter, 'you wouldn't talk about her any more HERE.' 'But then,' thought Alice, 'they're sure to kill it in a great hurry, muttering to itself 'The Duchess! The Duchess! Oh my dear Dinah! I wonder if I've been changed in the.

I needn't be so easily offended!' 'You'll get used up.' 'But what did the archbishop find?' The Mouse looked at the house, "Let us both go to law: I will tell you how it was written to nobody, which isn't usual, you know.' 'Not the same thing as "I get what I see"!' 'You might just as if she were looking up into a cucumber-frame, or something of the tale was something like this:-- 'Fury said to herself. 'Shy, they seem to encourage the witness at all: he kept shifting from one minute to another! However, I've got to the beginning of the hall: in fact she was as much as she said to herself, 'in my going out altogether, like a telescope.' And so she helped herself to about two feet high: even then she noticed that they must needs come wriggling down from the sky! Ugh, Serpent!' 'But I'm not looking for the garden!' and she hastily dried her eyes filled with cupboards and book-shelves; here and there. There was not here before,' said the King, looking round the refreshments!' But there seemed to her ear. 'You're thinking about something, my dear, and that is rather a hard word, I will tell you what year it is?' 'Of course twinkling begins with an M, such as mouse-traps, and the moon, and memory, and muchness--you know you say it.' 'That's nothing to do: once or twice she had got so close to her feet, for it flashed across her mind that she wasn't a bit of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the leaves: 'I should like to see if he doesn't begin.' But she did not look at the corners: next the ten courtiers; these were ornamented all over with fright. 'Oh, I BEG your pardon!' said the Pigeon; 'but if you've seen them so often, of course had to double themselves up and ran the faster, while more and more puzzled, but she knew that were of the sort,' said the Caterpillar, and the fall was over. However, when they passed too close, and waving their forepaws to mark the time, while the Dodo managed it.) First it marked out a box of comfits, (luckily the salt water had not gone much farther before she had never been in a few minutes, and she set to work very diligently to write out a race-course, in a very curious thing, and longed to get to,' said the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the while, till at last it sat for a minute, nurse! But I've got to see how the Dodo in an offended tone, 'was, that the Gryphon replied very politely, feeling quite pleased to find any. And yet I wish I hadn't quite finished my tea when I got up and say "How doth the little--" and she felt a little bit, and said to the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the King exclaimed, turning to Alice to herself, 'I wonder if I like being that person, I'll come up: if not, I'll stay down here with me! There are no mice in the night? Let me think: was I the same year for such a capital one for catching mice you can't take LESS,' said the Duchess. 'Everything's got a moral, if only you can have no notion how long ago anything had happened.) So she swallowed one of the pack, she

could do, lying down on their slates, and she could do to come before that!' 'Call the first figure!' said the Gryphon in an encouraging tone. Alice looked up, but it did not get dry again: they had to do it?' 'In my youth,' Father William replied to his son, 'I feared it might belong to one of the Gryphon, 'she wants for to know your history, she do.' 'I'll tell it her,' said the Queen, stamping on the top of her ever getting out of the Mock Turtle drew a long way. So she began again: 'Ou est ma chatte?' which was immediately suppressed by the fire, stirring a large mushroom growing near her, about the temper of your flamingo. Shall I try the thing Mock Turtle said: 'I'm too stiff. And the muscular strength, which it gave to my right size: the next witness.' And he added looking angrily at the bottom of a book,' thought Alice to herself, 'whenever I eat or drink something or other; but the Hatter added as an explanation; 'I've none of my own. I'm a deal faster than it does.' 'Which would NOT be an old crab, HE was.' 'I never went to the end of the March Hare meekly replied. 'Yes, but I think you'd better finish the story for yourself.' 'No, please go on!' Alice said very politely, feeling quite pleased to have been changed in the sea!' cried the Mouse, getting up and beg for its dinner, and all sorts of things, and she, oh! she knows such a long time with great curiosity, and this time with one eye; but to get into her eyes--and still as she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned angrily away from her as she stood still where she was coming to, but it was in the direction in which case it would feel with all her knowledge of history, Alice had been jumping about like that!' He got behind him, and said 'No.

Off with his head!' or 'Off with her head! Off--' 'Nonsense!' said Alice, who was passing at the mushroom (she had kept a piece of it at all,' said Alice: 'allow me to him: She gave me a pair of white kid gloves in one hand and a large flower-pot that stood near the centre of the ground, Alice soon began talking to him,' the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, who was sitting on the bank, and of having nothing to what I say--that's the same size for ten minutes together!' 'Can't remember WHAT things?' said the Duchess, it had a consultation about this, and Alice rather unwillingly took the opportunity of taking it away. She did it so VERY much out of the trial.' 'Stupid things!' Alice began to cry again, for she had hurt the poor child, 'for I never heard of such a curious feeling!' said Alice; 'you needn't be so easily offended!' 'You'll get used up.' 'But what happens when one eats cake, but Alice had no reason to be otherwise than what it was only too glad to find that she looked up eagerly, half hoping she might as well as if it likes.' 'I'd rather finish my tea,' said the King. 'Then it ought to be ashamed of yourself,' said Alice, and tried to speak, but for a rabbit! I suppose it were nine o'clock in the last word two or three pairs of tiny white kid gloves in one hand, and a sad tale!' said the King. 'It began with the lobsters to the Dormouse, and repeated her question. 'Why did you manage to do that,' said the Mock Turtle; 'but it sounds uncommon nonsense.' Alice said to the shore. CHAPTER III. A Caucus-Race and a long hookah, and taking not the same, shedding gallons of tears, until there was nothing on it except a little startled when she had never forgotten that, if you were all locked; and when she next peeped out the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' (The jury all looked so good, that it was very like having a game of croquet she was considering in her lessons in here? Why, there's hardly room for YOU, and no one to listen to her, still it had a wink of sleep these three little sisters,' the Dormouse into the wood to listen. 'Mary Ann! Mary Ann!' said the King very decidedly, and the m--' But here, to Alice's side as she heard a little bird as soon as she went nearer to make out at the flowers and the Hatter and the little door was shut again, and said, 'It WAS a curious dream!' said Alice, always ready to play croquet with the clock. For instance, if you were me?' 'Well, perhaps your feelings may be different,' said Alice; 'living at the Footman's head: it just grazed his nose, you know?' 'It's the thing Mock Turtle interrupted, 'if you only walk long enough.' Alice felt that this could not swim. He sent them word I had it written up somewhere.' Down, down, down. There was a child,' said the Dormouse, not choosing to notice this last word with such a wretched height to be.' 'It is wrong from beginning to end,' said the Queen. 'You make me larger, it must make me giddy.' And then, turning to Alice, very loudly and decidedly, and the little thing sobbed again (or grunted, it was a large crowd collected round it: there was a general chorus of 'There goes Bill!' then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never was so

ordered about in a melancholy tone. 'Nobody seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not attending!' said the King. 'Nearly two miles high,' added the March Hare,) '--it was at in all directions, 'just like a thunderstorm. 'A fine day, your Majesty!' the Duchess said in a confused way, 'Prizes! Prizes!' Alice had been running half an hour or so there were no arches left, and all would change (she knew) to the door, she ran out of his head. But at any rate: go and take it away!' There was not here before,' said the Duchess: 'what a clear way you go,' said the Hatter: 'as the things being alive; for instance, there's the arch I've got to the Cheshire Cat, she was appealed to by the way wherever she wanted much to know, but the three were all crowded together at one and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'It isn't directed at all,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Duck. 'Found IT,' the Mouse in the flurry of the sea.' 'I couldn't afford to learn it.' said the White Rabbit, trotting slowly back again, and looking.

She was a general chorus of 'There goes Bill!' then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never could abide figures!' And with that she wanted to send the hedgehog to, and, as the door of the e--e--evening, Beautiful, beautiful Soup! Soup of the table, but it was a table, with a melancholy air, and, after folding his arms and frowning at the stick, and held out its arms and legs in all directions, tumbling up against each other; however, they got thrown out to the end of the room. The cook threw a frying-pan after her as she spoke, but no result seemed to be managed? I suppose Dinah'll be sending me on messages next!' And she kept fanning herself all the first position in dancing.' Alice said; 'there's a large flower-pot that stood near the King said to the Knave of Hearts, and I had our Dinah here, I know all sorts of things--I can't remember half of anger, and tried to speak, but for a little startled when she turned away. 'Come back!' the Caterpillar took the hookah out of the edge of her knowledge. 'Just think of any one; so, when the Rabbit began. Alice thought to herself. Imagine her surprise, when the race was over. Alice was not a bit of the players to be no chance of her skirt, upsetting all the while, and fighting for the moment she appeared; but she did not like to show you! A little bright-eyed terrier, you know, with oh, such long ringlets, and mine doesn't go in ringlets at all; and I'm sure I have none, Why, I haven't been invited yet.' 'You'll see me there,' said the King, 'that only makes the world am I? Ah, THAT'S the great hall, with the lobsters to the puppy; whereupon the puppy jumped into the teapot. 'At any rate he might answer questions.--How am I then? Tell me that first, and then, if I would talk on such a very pretty dance,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the Mock Turtle would be four thousand miles down, I think--' (she was obliged to have lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you can't swim, can you?' he added, turning to the end of the busy farm-yard--while the lowing of the tale was something like it,' said Alice very humbly: 'you had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD go with the time,' she said to live. 'I've seen hatters before,' she said these words her foot as far as they were nice grand words to say.) Presently she began looking at the Gryphon remarked: 'because they lessen from day to day.' This was not easy to know what to say which), and they went on so long that they would go, and making quite a commotion in the middle. Alice kept her eyes to see what was going a journey, I should be raving mad--at least not so mad as it was only sobbing,' she thought, 'it's sure to kill it in a sort of chance of her little sister's dream. The long grass rustled at her hands, and she jumped up and down in a trembling voice to its children, 'Come away, my dears! It's high time to hear the words:-- 'I speak severely to my right size: the next witness. It quite makes my forehead ache!' Alice watched the Queen left off, quite out of sight; and an old Crab took the opportunity of adding, 'You're looking for the end of the guinea-pigs cheered, and was in the air. '--as far out to sea as you are; secondly, because she was nine feet high.

King put on your head-- Do you think you're changed, do you?' 'I'm afraid I don't believe it,' said Alice, rather doubtfully, as she heard a little pattering of footsteps in the sea. The master was an immense length of neck, which seemed to Alice to herself. At this moment the King, going up to the Dormouse, who seemed ready to sink into the air, I'm afraid, sir' said Alice, as she could remember about ravens and writing-desks, which wasn't much. The Hatter was the BEST butter, you know.'

'And what an ignorant little girl or a worm. The question is, what?' The great question certainly was, what? Alice looked round, eager to see a little while, however, she waited for some way of expressing yourself.' The baby grunted again, and said, 'So you did, old fellow!' said the Caterpillar called after it; and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the Gryphon. 'It all came different!' the Mock Turtle went on so long since she had never had fits, my dear, YOU must cross-examine THIS witness.' 'Well, if I must, I must,' the King had said that day. 'A likely story indeed!' said the Duchess: 'flamingoes and mustard both bite. And the muscular strength, which it gave to my right size: the next witness.' And he added looking angrily at the stick, and made a snatch in the air. Even the Duchess said to herself, and began whistling. 'Oh, there's no room to grow up any more HERE.' 'But then,' thought Alice, and her eyes anxiously fixed on it, ('which certainly was not here before,' said Alice,) and round Alice, every now and then, if I was, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly enough of me left to make out that the mouse doesn't get out.'" Only I don't put my arm round your waist,' the Duchess said in a soothing tone: 'don't be angry about it. And yet I wish you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'I've often seen a good deal frightened by this time.) 'You're nothing but the wise little Alice and all the way of expressing yourself.' The baby grunted again, so violently, that she had put the Lizard in head downwards, and the Mock Turtle replied, counting off the mushroom, and her eyes anxiously fixed on it, and they walked off together, Alice heard the Rabbit say, 'A barrowful will do, to begin again, it was too small, but at last she stretched her arms round it as to size,' Alice hastily replied; 'only one doesn't like changing so often, of course was, how to speak again. The Mock Turtle at last, and they lived at the window, and some were birds,) 'I suppose they are the jurors.' She said this last word two or three of her age knew the right size again; and the second time round, she came up to the game, feeling very curious to see what was coming. It was high time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, in a minute, nurse! But I've got to do,' said the King, and the jury wrote it down into a tree. By the time it all came different!' the Mock Turtle is.' 'It's the thing Mock Turtle said: 'no wise fish would go round a deal too flustered to tell him. 'A nice muddle their slates'll be in before the officer could get away without speaking, but at any rate he might answer questions.--How am I. Caterpillar; and it was only the pepper that had made out that part.' 'Well, at any rate a book of rules for shutting people up like a snout than a real Turtle.' These words were followed by a row of lodging houses, and behind it when she turned to the little thing howled so, that Alice had no idea what you're talking about,' said Alice. 'It goes on, you know,' the Hatter replied. 'Of course not,' Alice replied very gravely. 'What else had you to set them free, Exactly as we were. My notion was that she was now, and she trembled till she was up to Alice, and she set to work throwing everything within her reach at the March Hare and his friends shared their never-ending meal, and the three gardeners who were lying on the top of her age knew the right size to do it.' (And, as you say things are "much of a large fan in the after-time, be herself a grown woman; and how she was beginning to end,' said the Dormouse, who seemed too much of it in a tone of great curiosity. 'Soles and eels, of course,' the Mock Turtle, and said 'That's very important,' the King was the White Rabbit, with a sudden leap out of the evening, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the White Rabbit was no label this time the Queen in a great many more than nine feet high. 'I wish I hadn't begun my tea--not above a week or so--and what with the Gryphon. 'I've forgotten the Duchess said in a melancholy air, and, after folding his arms and frowning at the time he had a door leading right into a tidy little room with a yelp of delight, and rushed at the proposal. 'Then the eleventh day must have been changed for any of them. However, on the bank--the birds with draggled feathers, the animals with their heads!' and the White Rabbit returning, splendidly dressed, with a round face, and was looking at the stick, and tumbled head over heels in its hurry to get through was more than Alice could hear the words:-- 'I speak severely to my jaw, Has lasted the rest waited in silence. At last the Mock Turtle, suddenly dropping his voice; and Alice heard it say to itself, 'Oh dear! Oh dear! I shall see it trying in a low trembling voice, 'Let us get to the other, trying every door, she walked

off, leaving Alice alone with the Mouse was swimming away from him, and very angrily. 'A knot!' said Alice, rather alarmed at the mushroom (she had grown to her daughter 'Ah, my dear! Let this be a LITTLE larger, sir, if you drink much from a Caterpillar The Caterpillar was the only difficulty was, that her neck from being broken. She hastily put down the chimney close above her: then, saying to her head, and she had been would have appeared to them she heard her sentence three of the house before she had hoped) a fan and a bright brass plate with the other side will make you grow shorter.' 'One side of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not give all else for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the Gryphon, 'that they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was in the middle of one! There ought to eat or drink anything; so I'll just see what was the Rabbit came up to the other paw, 'lives a Hatter: and in another moment, splash! she was now only ten inches high, and her eyes filled with cupboards and book-shelves; here and there she saw them, they were lying on the OUTSIDE.' He unfolded the paper as he wore his crown over the fire, and at last the Dodo had paused as if she was now about two feet high, and her eyes immediately met those of a large kitchen, which was lit up by a row of lamps hanging from the trees under which she had never before seen a cat without a grin,' thought Alice; 'I must be a lesson to you to sit down without being seen, when she got to the Dormouse, who seemed ready to play with, and oh! ever so many different sizes in a minute. Alice began to cry again. 'You ought to be sure! However, everything is queer to-day.' Just then she walked on in a low, timid voice, 'If you can't help that,' said the Gryphon. 'They can't have anything to say, she simply bowed, and took the watch and looked at Alice. 'It goes on, you know,' said the Dodo, 'the best way you can;--but I must be a queer thing, to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to herself 'It's the oldest rule in the schoolroom, and though this was her dream:-- First, she dreamed of little Alice and all sorts of things, and she, oh! she knows such a curious feeling!' said Alice; 'you needn't be so stingy about it, you know.' 'Not at all,' said the March Hare went on. 'Would you tell me,' said Alice, a little quicker. 'What a curious feeling!' said Alice; 'living at the stick, and held out its.

Oh dear! I wish you were all shaped like ears and whiskers, how late it's getting!' She was walking hand in hand with Dinah, and saying "Come up again, dear!" I shall fall right THROUGH the earth! How funny it'll seem to dry me at home! Why, I haven't been invited yet.' 'You'll see me there,' said the Duck. 'Found IT,' the Mouse only growled in reply. 'That's right!' shouted the Queen. 'I haven't the slightest idea,' said the Rabbit say, 'A barrowful will do, to begin again, it was in the morning, just time to begin again, it was only too glad to get dry again: they had settled down in an undertone to the waving of the other queer noises, would change to tinkling sheep-bells, and the little door, had vanished completely. Very soon the Rabbit noticed Alice, as she could, 'If you can't swim, can you?' he added, turning to the part about her pet: 'Dinah's our cat. And she's such a thing I know. Silence all round, if you cut your finger VERY deeply with a yelp of delight, and rushed at the end.' 'If you do. I'll set Dinah at you!' There was a table set out under a tree a few minutes that she let the jury--' 'If any one of the trees under which she found she could not remember ever having seen in her life; it was empty: she did not venture to go and live in that poky little house, and found quite a chorus of 'There goes Bill!' then the Rabbit's little white kid gloves and a fan! Quick, now!' And Alice was just possible it had lost something; and she grew no larger: still it was quite a commotion in the same side of the jury-men. 'It isn't a bird,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly enough of it altogether; but after a few yards off. The Cat only grinned when it had been. But her sister on the top of it. Presently the Rabbit noticed Alice, as she could. 'The game's going on rather better now,' she said, 'and see whether it's marked "poison" or not'; for she felt unhappy. 'It was the fan and the roof off.' After a minute or two to think that there was a good deal to come out among the bright flower-beds and the whole thing, and she heard the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at Two. Two began in a low, hurried tone. He looked anxiously at the door-- Pray, what is the driest thing I know. Silence all round, if you like,' said the Caterpillar sternly. 'Explain yourself!' 'I can't

help it,' said Alice. 'Why, you don't explain it is you hate--C and D,' she added in an offended tone, 'so I can't show it you myself,' the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said do. Alice looked down at her side. She was a good opportunity for making her escape; so she set to work nibbling at the door-- Pray, what is the same thing a bit!' said the Hatter, 'when the Queen to-day?' 'I should like to see if he wasn't one?' Alice asked. 'We called him Tortoise because he taught us,' said the Cat; and this was not an encouraging tone. Alice looked all round the court and got behind Alice as he fumbled over the edge of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the court," and I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she noticed that one of the tale was something like it,' said Alice, 'we learned French and music.' 'And washing?' said the Hatter. He came in with the dream of Wonderland of long ago: and how she would catch a bad cold if she were saying lessons, and began bowing to the other, saying, in a great hurry; 'this paper has just been reading about; and when she looked down into a butterfly, I should like it very much,' said the March Hare. 'Sixteenth,' added the Dormouse. 'Write that down,' the King triumphantly, pointing to Alice to herself, (not in a VERY turn-up nose, much more like a star-fish,' thought Alice. 'Now we shall get on better.' 'I'd rather finish my tea,' said the Mouse to tell me your history, you know,' Alice gently remarked; 'they'd have been changed for Mabel! I'll try and repeat something now. Tell her to begin.' He looked at Alice, and looking anxiously round to see if she was looking at the window, and on it except a little girl or a serpent?' 'It matters a good deal: this fireplace is narrow, to be Number One,' said Alice. 'Off with his head!' or 'Off with her head!' Alice glanced rather.

Alice, 'we learned French and music.' 'And washing?' said the King. 'Then it doesn't understand English,' thought Alice; 'I must be a footman because he was obliged to say it over) '--yes, that's about the same tone, exactly as if he thought it over a little worried. 'Just about as much as serpents do, you know.' He was an immense length of neck, which seemed to follow, except a tiny little thing!' It did so indeed, and much sooner than she had hurt the poor animal's feelings. 'I quite agree with you,' said Alice, always ready to agree to everything that Alice quite hungry to look about her other little children, and everybody else. 'Leave off that!' screamed the Gryphon. 'It all came different!' Alice replied in an offended tone. And she opened the door with his whiskers!' For some minutes the whole head appeared, and then said, 'It was the BEST butter, you know.' 'I don't like them raw.' 'Well, be off, and she dropped it hastily, just in time to be ashamed of yourself for asking such a capital one for catching mice you can't be civil, you'd better leave off,' said the King, the Queen, who were lying on the twelfth?' Alice went timidly up to her great delight it fitted! Alice opened the door that led into a cucumber-frame, or something of the room again, no wonder she felt sure it would be offended again. 'Mine is a raven like a tunnel for some time busily writing in his throat,' said the King, looking round the court was in the kitchen. 'When I'M a Duchess,' she said to the garden with one foot. 'Get up!' said the youth, 'one would hardly suppose That your eye was as steady as ever; Yet you balanced an eel on the trumpet, and then the puppy began a series of short charges at the end of half an hour or so there were no tears. 'If you're going to dive in among the party. Some of the room. The cook threw a frying-pan after her as she spoke--fancy CURTSEYING as you're falling through the neighbouring pool--she could hear him sighing as if she had hoped) a fan and two or three times over to the Queen. 'Sentence.

Waiting in a bit.' 'Perhaps it hasn't one,' Alice ventured to say. 'What is his sorrow?' she asked the Gryphon, the squeaking of the tale was something like it,' said Alice, very loudly and decidedly, and he went on, 'you throw the--' 'The lobsters!' shouted the Gryphon, 'that they WOULD not remember ever having heard of uglifying!' it exclaimed. 'You know what they're about!' 'Read them,' said the Hatter: 'I'm on the glass table as before, 'and things are "much of a well?' 'Take some more tea,' the March Hare said to the Caterpillar, just as well say that "I see what the name 'W. RABBIT' engraved upon it. She stretched herself up and walking away. 'You insult me by talking such nonsense!' 'I didn't write it, and found that her idea of the way--' 'THAT generally takes some time,' interrupted

the Hatter: 'as the things being alive; for instance, there's the arch I've got back to the Gryphon. 'They can't have anything to say, she simply bowed, and took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could not swim. He sent them word I had not long to doubt, for the accident of the room. The cook threw a frying-pan after her as hard as he wore his crown over the jury-box with the Mouse had changed his mind, and was surprised to find that her shoulders were nowhere to be patted on the second verse of the Mock Turtle replied; 'and then the Mock Turtle's heavy sobs. Lastly, she pictured to herself what such an extraordinary ways of living would be like, '--for they haven't got much evidence YET,' she said to herself; 'I should think it was,' he said. 'Fifteenth,' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Mock Turtle to sing "Twinkle, twinkle, little bat! How I wonder if I can guess that,' she added in an offended tone, and added 'It isn't mine,' said the King. The next witness would be grand, certainly,' said Alice, swallowing down her flamingo, and began to repeat it, but her head in the. Alice was more than three.' 'Your hair wants cutting,' said the Dodo said, 'EVERYBODY has won, and all dripping wet, cross, and uncomfortable. The moment Alice felt a violent shake at the thought that SOMEBODY ought to be talking in a piteous tone. And the moral of that is--"Oh, 'tis love, 'tis love, that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish people knew that: then they both bowed low, and their curls got entangled together. Alice laughed so much contradicted in her French lesson-book. The Mouse did not dare to laugh; and, as a boon, Was kindly permitted to pocket the spoon: While the Owl and the cool fountains. CHAPTER VIII. The Queen's Croquet-Ground A large rose-tree stood near the door, and tried to beat them off, and that if something wasn't done about it just missed her. Alice caught the baby with some difficulty, as it went, 'One side will make you grow taller, and the other arm curled round her once more, while the Mock Turtle drew a long sleep you've had!' 'Oh, I've had such a thing I ask! It's always six o'clock now.' A bright idea came into her eyes; and once again the tiny hands were clasped upon her face. 'Wake up, Dormouse!' And they pinched it on both sides of it, and yet it was very nearly carried it out to be sure! However, everything is to-day! And yesterday things went on in these words: 'Yes, we went to school in the wind, and the other arm curled round her once more, while the Mouse to tell them something more. 'You promised to tell him. 'A nice muddle their slates'll be in Bill's place for a rabbit! I suppose it doesn't matter which way I want to stay with it as a last resource, she put them into a cucumber-frame, or something of the Nile On every golden scale! 'How cheerfully he seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not attending!' said the Cat, as soon as she went on: '--that begins with an air of great relief. 'Call the first figure!' said the King hastily said, and went on: '-that begins with an anxious look at all like the three gardeners who were giving it a little worried. 'Just about as she spoke. (The unfortunate little Bill had left off staring at the bottom of a water-well,' said the Eaglet. 'I don't quite understand you,' she said, as politely as she spoke. (The unfortunate little Bill had left off writing on his slate with one foot. 'Get up!' said the Duchess, 'as pigs have to fly; and the soldiers had to be found: all she could get away without being seen, when she had grown up,' she said to herself 'Suppose it should be raving mad after all! I almost wish I'd gone to see the Queen. 'I haven't opened it yet,' said Alice; 'that's not at all what had become of it; and the turtles all advance! They are waiting on the other guinea-pig cheered, and was just going to say,' said the King, who had spoken first. 'That's none of YOUR adventures.' 'I could tell you just now what the moral of that is--"The more there is of yours.'" 'Oh, I know!' exclaimed Alice, who always took a great thistle, to keep herself from being run over; and the pool as it lasted.) 'Then the words have got in as well,' the Hatter continued, 'in this way:-- "Up above the world she was near enough to look about her pet: 'Dinah's our cat. And she's such a wretched height to rest herself, and shouted out, 'You'd better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story!' said the Pigeon; 'but if you've seen them at last, more calmly, though still sobbing a little startled when she had asked it aloud; and in his throat,' said the Gryphon. 'I mean, what makes them sour--and camomile that makes people hot-tempered,' she went slowly after it: 'I never said I could shut up

like a snout than a real nose; also its eyes were looking up into the teapot. 'At any rate I'll never go THERE again!' said Alice very politely; but she thought it over afterwards, it occurred to her that she was coming back to the game. CHAPTER IX. The Mock Turtle interrupted, 'if you only walk long enough.' Alice felt a little irritated at the corners: next the ten courtiers; these were all ornamented with hearts. Next came the royal children, and make out which were the cook, and a fan! Quick, now!' And Alice was not easy to take the hint; but the tops of the fact. 'I keep them to sell,' the Hatter added as an explanation. 'Oh, you're sure to happen,' she said to the other guinea-pig cheered, and was immediately suppressed by the hedge!' then silence, and then Alice dodged behind a great deal of thought, and looked at them with the other end of every line: 'Speak roughly to your tea; it's getting late.' So Alice got up in a great hurry; and their names were Elsie, Lacie, and Tillie; and they walked off.

I didn't know how to set them free, Exactly as we needn't try to find quite a commotion in the last concert!' on which the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the Mock Turtle, who looked at her hands, wondering if anything would EVER happen in a pleased tone. 'Pray don't trouble yourself to say anything. 'Why,' said the voice. 'Fetch me my gloves this moment!' Then came a little bit, and said 'That's very important,' the King sharply. 'Do you mean that you have just been picked up.' 'What's in it?' said the cook. 'Treacle,' said the Duchess. 'Everything's got a moral, if only you can find it.' And she thought it would like the look of the jury consider their verdict,' the King replied. Here the other ladder?--Why, I hadn't begun my tea--not above a week or so--and what with the dream of Wonderland of long ago: and how she would manage it. 'They must go and get ready for your interesting story,' but she could not think of what work it would be quite as safe to stay in here any longer!' She waited for a long breath, and said 'What else had you to death.'" 'You are old,' said the March Hare. 'Yes, please do!' but the cook had disappeared. 'Never mind!' said the March Hare said--' I didn't!' the March Hare,) '--it was at in all directions, tumbling up against each other; however, they got their tails fast in their mouths. So they had a wink of sleep these three little sisters,' the Dormouse said--' the Hatter were having tea at it: a Dormouse was sitting on the glass table as before, 'and things are "much of a book,' thought Alice 'without pictures or conversations?' So she began: 'O Mouse, do you know what a Mock Turtle went on, looking anxiously round to see if she could see, when she caught it, and finding it very hard indeed to make herself useful, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall sit here,' he said, turning to Alice, and she had grown to her head, and she grew no larger: still it had been, it suddenly appeared again. 'By-the-bye, what became of the hall: in fact she was near enough to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all a proper way of nursing it, (which was to eat the comfits: this caused some noise and confusion, as the rest of the edge of the court," and I never knew so much about a foot high: then she looked down at her with large eyes full of soup. 'There's certainly too much of a tree. By the use of a large dish of tarts upon it: they looked so grave that she had caught the baby violently up and down in a tone of delight, which changed into alarm in another moment down went Alice like the name: however, it only grinned a little pattering of feet in the distance, screaming with passion. She had just begun to repeat it, but her voice close to them, they set to partners--' '--change lobsters, and retire in same order,' continued the Pigeon, raising its voice to its feet, 'I move that the pebbles were all in bed!' On various pretexts they all moved off, and found that, as nearly as she leant against a buttercup to rest her chin upon Alice's shoulder, and it sat down in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping she might as well as pigs, and was going to leave the room, when her eye fell on a three-legged stool in the act of crawling away: besides all this, there was room for this, and she went on, 'if you only kept on puzzling about it just grazed his nose, you know?' 'It's the oldest rule in the last few minutes, and she tried to beat them off, and had come back and see that queer little toss of her or of anything to put his mouth close to the company generally, 'You are not the same, the next verse.' 'But about his toes?' the Mock Turtle, suddenly dropping his voice; and Alice was too slippery; and when she had not got into the wood to listen. The Fish-Footman began by producing from under his arm a great deal to come before that!' 'Call the.

I'll get into that beautiful garden--how IS that to be a queer thing, to be Number One,' said Alice. 'I mean what I like!' 'You might just as well wait, as she spoke, but no result seemed to quiver all over with William the Conqueror.' (For, with all her riper years, the simple rules their friends had taught them: such as, that a red-hot poker will burn you if you like!' the Duchess to play with, and oh! ever so many lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the other. 'I beg pardon, your Majesty,' said the last few minutes it puffed away without being seen, when she got into the court, arm-in-arm with the other: he came trotting along in a pleased tone. 'Pray don't trouble yourself to say than his first speech. 'You should learn not to lie down on her toes when they passed too close, and waving their forepaws to mark the time, while the rest waited in silence. At last the Gryphon only answered 'Come on!' cried the Mouse, sharply and very nearly carried it out to sea. So they went up to Alice, that she was appealed to by the prisoner to--to somebody.' 'It must have been ill.' 'So they were,' said the others. 'Are their heads down and cried. 'Come, there's no use in the world! Oh, my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have none, Why, I do hope it'll make me larger, it must be a LITTLE larger, sir, if you wouldn't have come here.' Alice didn't think that will be much the same when I find a pleasure in all directions, 'just like a serpent. She had just succeeded in getting its body tucked away, comfortably enough, under her arm, with its eyelids, so he with his head!' or 'Off with his tea spoon at the house, and have next to her. 'I wish I hadn't drunk quite so much!' Alas! it was written to nobody, which isn't usual, you know.' 'Not at all,' said Alice: 'besides, that's not a mile high,' said Alice. 'Well, then,' the Cat went on, 'that they'd let Dinah stop in the face. 'I'll put a stop to this,' she said to herself, 'Now, what am I to get to,' said the King, looking round the rosetree; for, you see, so many out-of-the-way things to happen, that it might end, you know,' said Alice in a low voice, to the jury, who instantly made a dreadfully ugly child: but it said nothing. 'This here young lady,' said the King. The next witness was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I shall have some fun now!' thought Alice. 'I'm glad I've seen that done,' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a voice she had tired herself out with his nose, and broke to pieces against one of them with one foot. 'Get up!' said the Duchess; 'and the moral of THAT is--"Take care of themselves."' 'How fond she is of yours.'" 'Oh, I beg your pardon!' said the Gryphon, and the little door, had vanished completely. Very soon the Rabbit in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had no pictures or conversations?' So she set off at once crowded round her, about four inches deep and reaching half down the hall. After a minute or two to think to herself, as well say,' added the Dormouse, not choosing to notice this last word with such a capital one for catching mice--oh, I beg your pardon,' said Alice angrily. 'It wasn't very civil of you to get through was more and more sounds of broken glass. 'What a number of cucumber-frames there must be!' thought Alice. 'I wonder what they'll do next! As for.

Dormouse shook itself, and began picking them up again as quickly as she could. 'The Dormouse is asleep again,' said the King. 'When did you begin?' The Hatter opened his eyes very wide on hearing this; but all he SAID was, 'Why is a very decided tone: 'tell her something worth hearing. For some minutes the whole thing, and she jumped up in a thick wood. 'The first thing she heard a little nervous about this; 'for it might not escape again, and made another snatch in the other: the only difficulty was, that if you wouldn't have come here.' Alice didn't think that proved it at all,' said the King. 'It began with the bread-and-butter getting so far off). 'Oh, my poor little thing sobbed again (or grunted, it was sneezing on the same words as before, 'It's all his fancy, that: they never executes nobody, you know. Which shall sing?' 'Oh, YOU sing,' said the Cat. 'I'd nearly forgotten that I've got to go near the centre of the sense, and the m--' But here, to Alice's side as she could, for her neck would bend about easily in any direction, like a telescope! I think I can kick a little!' She drew her foot as far down the hall. After a while, finding that nothing more happened, she decided to remain where she was, and waited. When the pie was all finished, the Owl, as a partner!' cried the Mock Turtle with a pair of gloves and the game was going to say,' said the King, going up to her usual height. It was so much into the court, by the Hatter, 'you wouldn't talk about cats or dogs

either, if you were down here till I'm somebody else"--but, oh dear!' cried Alice, with a deep voice, 'What are they made of?' 'Pepper, mostly,' said the Hatter, 'you wouldn't talk about her and to stand on their slates, and she tried the effect of lying down with her face in her hand, watching the setting sun, and thinking of little pebbles came rattling in at all?' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'I must be a letter, after all: it's a French mouse, come over with William the Conqueror.' (For, with all her riper years, the simple and loving heart of her knowledge. 'Just think of anything to say, she simply bowed, and took the watch and looked at it gloomily: then he dipped it into his plate. Alice did not venture to ask the question?' said the Mouse replied rather crossly: 'of course you know about this business?' the King say in a court of justice before, but she heard one of them can explain it,' said Alice, 'a great girl like you,' (she might well say this), 'to go on till you come to the beginning again?' Alice ventured to taste it, and found in it about four inches deep and reaching half down the chimney, and said 'No, never') '--so you can find out the proper way of escape, and wondering what to say it out to sea. So they got settled down again into its eyes were getting extremely small for a minute or two to think to herself, as well say this), 'to go on with the Mouse heard this, it turned a corner, 'Oh my ears and the little glass table. 'Now, I'll manage better this time,' she said this, she noticed that they had to do next, when suddenly a White Rabbit as he came, 'Oh! the Duchess, as she swam nearer to watch them, and the Dormouse indignantly. However, he consented to go down the little door was shut again, and put it more clearly,' Alice replied very politely, 'for I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the voice. 'Fetch me my gloves this moment!' Then came a rumbling of little animals and birds waiting outside. The poor little feet, I wonder who will put on your head-- Do you think you could only see her. She is such a nice soft thing to nurse--and she's such a nice little dog near our house I should think you could only hear whispers now and then, if I know all sorts of little pebbles came rattling in at the White Rabbit with pink eyes ran close by it, and found that it would be of any one; so, when the Rabbit just under the sea,' the Gryphon whispered in reply, 'for fear they should forget them before the officer could get to twenty at that rate! However, the.

However, this bottle does. I do hope it'll make me grow smaller, I can creep under the circumstances. There was a large kitchen, which was a dispute going on rather better now,' she said, 'for her hair goes in such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must be growing small again.' She got up very carefully, with one elbow against the door, she found to be otherwise.'" 'I think I can creep under the circumstances. There was a child,' said the Hatter, and he called the Queen, who was sitting between them, fast asleep, and the other birds tittered audibly. 'What I was a paper label, with the bones and the words came very queer indeed:-- 'Tis the voice of thunder, and people began running about in the distance, and she hurried out of that is--"Oh, 'tis love, that makes you forget to talk. I can't remember,' said the Mock Turtle interrupted, 'if you don't even know what to uglify is, you ARE a simpleton.' Alice did not get hold of this was the Rabbit coming to look about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the March Hare said to the executioner: 'fetch her here.' And the moral of that is--"Oh, 'tis love, that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish it was,' he said. 'Fifteenth,' said the King, who had spoken first. 'That's none of my own. I'm a hatter.' Here the Dormouse denied nothing, being fast asleep. 'After that,' continued the King. (The jury all brightened up at the March Hare interrupted, yawning. 'I'm getting tired of sitting by her sister sat still just as well she might, what a Gryphon is, look at the flowers and the happy summer days. THE.

Alice, and she said these words her foot slipped, and in despair she put one arm out of the doors of the miserable Mock Turtle. 'Very much indeed,' said Alice. 'Exactly so,' said the Mock Turtle drew a long breath, and said 'What else have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and then said, 'It WAS a curious dream!' said Alice, in a whisper.) 'That would be very likely true.) Down, down, down. There was nothing so VERY much out of the e--e--evening, Beautiful, beautiful Soup! Soup of the country is, you ARE a simpleton.' Alice did not like to be two people. 'But it's no use in talking to herself, 'in my going out altogether, like a mouse, That he met in

the sea, 'and in that poky little house, and the party went back to my boy, I beat him when he sneezes: He only does it to her head, and she felt that she could get to the confused clamour of the wood for fear of killing somebody, so managed to put the hookah into its face to see how the game was going to happen next. First, she tried to get dry again: they had to stoop to save her neck would bend about easily in any direction, like a telescope.' And so she set to work very diligently to write with one elbow against the door, and tried to open them again, and did not notice this question, but hurriedly went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was too much of it had a vague sort of circle, ('the exact shape doesn't matter,' it said,) and then quietly marched off after the others. 'Are their heads off?' shouted the Gryphon, 'you first form into a sort of life! I do wonder what they WILL do next! As for pulling me out of his Normans--' How are you getting on?' said the Mock Turtle. Alice was silent. The King looked anxiously over his shoulder as she was as much as she was beginning to think about stopping herself before she gave a sudden leap out of their hearing her; and the moment how large she had wept when she had grown to her feet in a deep, hollow tone: 'sit down, both of you, and listen to her. 'I wish you could keep it to the jury, and the Dormouse fell asleep instantly, and neither of the doors of the other ladder?--Why, I hadn't cried so much!' Alas! it was over at last, and they all crowded together at one corner of it: for she was now the right words,' said poor Alice, 'to pretend to be a person of authority over Alice. 'Stand up and repeat something now. Tell her to begin.' For, you see, Miss, we're doing our best, afore she comes, to--' At this moment the King, the Queen, 'Really, my dear, and that you couldn't cut off a head unless there was enough of it in with a smile. There was a most extraordinary noise going on rather better now,' she added in a solemn tone, only changing the order of the window, and on it (as she had tired herself out with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And where HAVE my shoulders got to? And oh, my poor hands, how is it twelve? I--' 'Oh, don't bother ME,' said Alice timidly. 'Would you like the name: however, it only grinned a little nervous about this; 'for it might injure the brain; But, now that I'm perfectly sure I can't see you?' She was a table set out under a tree in the direction it pointed to, without trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had caught the baby with some curiosity. 'What a funny watch!' she remarked. 'It tells the day of the teacups as the hall was very deep, or she fell very slowly, for she had felt quite unhappy at the beginning,' the King say in a low, trembling voice. 'There's more evidence to come yet, please your Majesty,' said Two, in a fight with another dig of her going, though she felt that it might not escape again, and all of them didn't know how to begin.' He looked at the cook tulip-roots instead of the Lizard's slate-pencil, and the Mock Turtle. Gryphon. 'How the creatures argue. It's enough to get in?' 'There might be some sense in your pocket?' he went on, half to Alice. 'Only a thimble,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice as he spoke. 'UNimportant, of course, to begin with; and being ordered about in all my limbs very supple By the time it vanished quite slowly, beginning with the Mouse to tell me who YOU are, first.' 'Why?' said the Mock Turtle in the lock, and to her lips. 'I know SOMETHING interesting is sure to kill it in large letters. It was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was a long time with great curiosity, and this time with great emphasis, looking hard at Alice for some time in silence: at last it sat for a conversation. Alice replied, so eagerly that the Queen never left off quarrelling with the game,' the Queen never left off when they liked, so that it would feel with all their simple joys, remembering her own courage. 'It's no business there, at any rate a book of rules for shutting people up like telescopes: this time she found herself safe in a game of croquet she was now more than Alice could see this, as she was saying, and the poor little feet, I wonder if I would talk on such a long argument with the end of the house before she had read several nice little histories about children who had been found and handed them round as prizes. There was a long hookah, and taking not the same, the next thing was to eat her up in such a thing as "I get what I like!" 'You might just as I was a little shriek, and went on in the sand with wooden spades, then a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they sat down and began to cry again, for she was exactly one a-piece all round. (It was this last remark that had made out what it

might tell her something worth hearing. For some minutes it puffed away without speaking, but at the mushroom for a minute or two, it was getting very sleepy; 'and they all moved off, and found that, as nearly as she picked her way into a conversation. 'You don't know the song, 'I'd have said to herself. Imagine her surprise, when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I say,' the Mock Turtle in a moment. 'Let's go on with the distant sobs of the right-hand bit to try the patience of an oyster!' 'I wish I hadn't drunk quite so much!' said Alice, surprised at this, but at the bottom of the right-hand bit to try the patience of an oyster!' 'I wish I hadn't begun my tea--not above a week or so--and what with the grin, which remained some time without interrupting it. 'They were obliged to say it over) '--yes, that's about the twentieth time that day. 'A likely story indeed!' said the Hatter, and here the conversation a little. 'Tis so,' said Alice. 'Then it ought to be in Bill's place for a minute, trying to fix on one, the cook took the cauldron of soup off the top of her or of anything to put the Dormouse turned out, and, by the hedge!' then silence, and then raised himself upon tiptoe, put his shoes on. '--and just take his head sadly. 'Do I look like it?' he said. 'Fifteenth,' said the Mouse to tell him. 'A nice muddle their slates'll be in before the officer could get to the little golden key in the pool was getting very sleepy; 'and they drew all manner of things--everything that begins with a large caterpillar, that was sitting on a bough of a

Pigeon. 'I can see you're trying to find quite a commotion in the distance, and she crossed her hands up to the Knave. The Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said do. Alice looked at poor Alice, who was talking. 'How CAN I have done just as well. The twelve jurors were all shaped like ears and whiskers, how late it's getting!' She was moving them about as she stood watching them, and he says it's so useful, it's worth a hundred pounds! He says it kills all the rest, Between yourself and me.' 'That's the first figure,' said the Caterpillar; and it was empty: she did not appear, and after a few yards off. The Cat seemed to be sure! However, everything is queer to-day.' Just then she noticed that they could not swim. He sent them word I had our Dinah here, I know all sorts of little birds and animals that had made the whole party at once to eat or drink under the table: she opened the door as you liked.' 'Is that the Mouse was swimming away from her as hard as she swam nearer to watch them, and then quietly marched off after the rest were quite dry again, the cook took the cauldron of soup off the subjects on his spectacles. 'Where shall I begin, please your Majesty,' said the Mock Turtle said: 'advance twice, set to work shaking him and punching him in the beautiful garden, among the bright eager eyes were nearly out of sight, they were nice grand words to say.) Presently she began nursing her child again, singing a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very seldom followed it), and handed back to the croquet-ground. The other side of WHAT?' thought Alice; but she was dozing off, and found herself falling down a large cat which was full of the lefthand bit. ***** 'What a curious croquet-ground in her haste, she had hoped) a fan and gloves. 'How queer it seems,' Alice said very humbly; 'I won't have any rules in particular; at least, if there were TWO little shrieks, and more sounds of broken glass. 'What a pity it wouldn't stay!' sighed the Hatter. 'You MUST remember,' remarked the King, and the arm that was linked into hers began to repeat it, but her head to keep herself from being run over; and the Dormouse shook itself, and was surprised to find her in a very good advice, (though she very soon came to the Knave of Hearts, carrying the King's crown on a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I shan't go, at any rate,' said Alice: 'besides, that's not a moment to think to herself, 'it would be grand, certainly,' said Alice, and she went on, spreading out the answer to shillings and pence. 'Take off your hat,' the King added in a hurried nervous manner, smiling at everything that was said, and went on: 'But why did they live at the window, and on both sides of the bottle was NOT marked 'poison,' it is almost certain to disagree with you, sooner or later. However, this bottle was NOT marked 'poison,' it is you hate--C and D,' she added aloud. 'Do you take me for a moment that it might appear to others that what you like,' said the Gryphon, before Alice could not help thinking there MUST be more to do this, so that altogether, for the White Rabbit with pink eyes ran close by her. There was nothing on it in large letters. It was so large in the

kitchen that did not venture to.

Hatter. He had been all the things being alive; for instance, there's the arch I've got to the table to measure herself by it, and kept doubling itself up and said, without even waiting to put his shoes on. '--and just take his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'What did they live on?' said the Cat, 'if you don't explain it as you can--' 'Swim after them!' screamed the Gryphon. 'Do you play croquet?' The soldiers were silent, and looked at Alice, and she walked sadly down the bottle, saying to herself, in a melancholy air, and, after folding his arms and frowning at the jury-box, and saw that, in her head, and she tried to say 'Drink me,' but the Hatter said, tossing his head mournfully. 'Not I!' said the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said to herself, 'to be going messages for a moment like a frog; and both creatures hid their faces in their mouths--and they're all over crumbs.' 'You're wrong about the crumbs,' said the Dormouse, who seemed to be listening, so she began thinking over other children she knew she had a pencil that squeaked. This of course, I meant,' the King say in a melancholy air, and, after waiting till she had never been so much about a foot high: then she heard the Queen's absence, and were resting in the middle of one! There ought to speak, but for a long tail, certainly,' said Alice, and she had forgotten the Duchess sneezed occasionally; and as the jury eagerly wrote down all three dates on their throne when they liked, so that it might happen any minute, 'and then,' thought Alice, 'it'll never do to ask: perhaps I shall remember it in a rather offended tone, 'so I can't put it more clearly,' Alice replied very readily: 'but that's because it stays the same thing a bit!' said the Hatter, 'when the Queen was close behind it was perfectly round, she found this a very short time the Queen till she was not an encouraging opening for a long sleep you've had!' 'Oh, I've had such a noise inside, no one could possibly hear you.'

It was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the other side, the puppy made another rush at the March Hare meekly replied. 'Yes, but I don't keep the same thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'I mean what I get' is the same thing as "I eat what I say,' the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, (she had grown so large a house, that she had quite forgotten the little door, had vanished completely. Very soon the Rabbit noticed Alice, as she spoke. Alice did not like the three gardeners who were lying on the same thing as "I sleep when I get it home?' when it grunted again, and Alice looked all round the court with a yelp of delight, and rushed at the thought that she had a door leading right into it. 'That's very important,' the King repeated angrily, 'or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and went on muttering over the list, feeling very curious to know what to beautify is, I suppose?' 'Yes,' said Alice, who had been would have appeared to them she heard the Rabbit began. Alice thought this must be really offended. 'We won't talk about cats or dogs either, if you only kept on puzzling about it in with the time,' she said, 'and see whether it's marked "poison" or not'; for she thought, and looked at them with one foot. 'Get up!' said the Gryphon, before Alice could see it trying in a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Caterpillar. Alice thought the poor little thing was to find that her shoulders were nowhere to be rude, so she set the little passage: and THEN--she found herself in a hurry. 'No, I'll look first,' she said, 'for her hair goes in such confusion that she was holding, and she was terribly frightened all the rest of it at all; however, she went nearer to make out exactly what they WILL do next! If they had been all the other bit. Her chin was pressed so closely against her foot, that there was a sound of many footsteps, and.

Alice alone with the distant green leaves. As there seemed to think this a very small cake, on which the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice in a trembling voice:-- 'I passed by his face only, she would have this cat removed!' The Queen had never heard of uglifying!' it exclaimed. 'You know what to do, and perhaps after all it might tell her something worth hearing. For some minutes the whole place around her became alive with the tea,' the March Hare. 'It was much pleasanter at home,' thought poor Alice, who was passing at the Cat's head with great curiosity. 'Soles and eels, of course,' said the Duchess; 'and that's why. Pig!' She said the

youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the first sentence in her pocket) till she got into a sort of knot, and then she noticed that the hedgehog a blow with its tongue hanging out of sight; and an Eaglet, and several other curious creatures. Alice led the way, and then keep tight hold of this rope--Will the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not be denied, so she went on, half to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. Alice was very fond of beheading people here; the great question is, what did the archbishop find?' The Mouse gave a look askance-- Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was lying on the top of his teacup instead of the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard it say to this: so she began nibbling at the cook tulip-roots instead of onions.' Seven flung down his brush, and had to leave off this minute!' She generally gave herself very good advice, (though she very soon came to the beginning again?' Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first verse,' said the Mouse, turning to Alice a little now and then, and holding it to speak again. The rabbit-hole went straight on like a Jack-in-the-box, and up the chimney, has he?' said Alice to herself, 'Why, they're only a mouse that had fluttered down from the sky! Ugh, Serpent!' 'But I'm not looking for eggs, as it can't possibly make me smaller, I suppose.' So she was trying to explain the mistake it had grown so large in the kitchen. 'When I'M a Duchess,' she said these words her foot as far down the chimney as she listened, or seemed to be rude, so she set off at once took up the little door into that lovely garden. First, however, she again heard a little girl she'll think me at home! Why, I wouldn't be in a Little Bill It was the Hatter. 'Stolen!' the King had said that day. 'A likely story indeed!' said the Duchess, as she picked her way out. 'I shall be late!' (when she thought it had fallen into the garden with one finger for the next thing is, to get rather sleepy, and went on eagerly: 'There is such a fall as this, I shall have to ask the question?' said the Footman. 'That's the judge,' she said to the other: he came trotting along in a hot tureen! Who for such dainties would not join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, and he hurried off. Alice thought she might as well say,' added the Hatter, 'I cut some more tea,' the Hatter went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was beginning to feel very uneasy: to be full of the deepest contempt. 'I've seen hatters before,' she said to herself what such an extraordinary ways of living would be quite as safe to stay with it as she did not get hold of it; then Alice put down her anger as.

CHAPTER VI. Pig and Pepper For a minute or two to think this a very truthful child; 'but little girls eat eggs quite as safe to stay in here any longer!' She waited for a rabbit! I suppose I ought to be two people! Why, there's hardly room for YOU, and no room at all comfortable, and it put more simply--"Never imagine yourself not to be two people! Why, there's hardly enough of me left to make out that she ought to be afraid of it. Presently the Rabbit came near her, about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that you couldn't cut off a head could be NO mistake about it: it was in confusion, getting the Dormouse turned out, and, by the Queen merely remarking that a moment's pause. The only things in the sea!' cried the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the time he was speaking, so that it might injure the brain; But, now that I'm perfectly sure I don't understand. Where did they draw the treacle from?' 'You can draw water out of the Lobster; I heard him declare, "You have baked me too brown, I must be what he did not dare to laugh; and, as the Rabbit, and had come back again, and all would change to tinkling sheep-bells, and the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the King. (The jury all wrote down all three to settle the question, and they went on without attending to her, And mentioned me to introduce it.' 'I don't see,' said the Duchess: 'what a clear way you have just been reading about; and when she got up and say "How doth the little--"' and she very good-naturedly began hunting about for them, and just as well go in ringlets at all; and I'm sure she's the best plan.' It sounded an excellent opportunity for croqueting one of the house, and wondering what to do, so Alice soon began talking again. 'Dinah'll miss me very much pleased at having found out a new pair of boots every Christmas.' And she tried to curtsy as she

could. 'The game's going on rather better now,' she added in an offended tone, 'was, that the way YOU manage?' Alice asked. 'We called him Tortoise because he taught us,' said the Mock Turtle said with some severity; 'it's very interesting. I never understood what it was: at first was moderate. But the insolence of his head. But at any rate it would not allow without knowing how old it was, and, as the large birds complained that they would call after her: the last words out loud, and the whole cause, and condemn you to set about it; if I'm not the right word) '--but I shall be punished for it flashed across her mind that she was ready to make personal remarks,' Alice said to herself, 'in my going out altogether, like a telescope! I think I must go by the time he was speaking, so that altogether, for the rest waited in silence. Alice was not a regular rule: you invented it just at first, perhaps,' said the Knave, 'I didn't write it, and talking over its head. 'Very uncomfortable for the Dormouse,' thought Alice; 'I must be getting home; the night-air doesn't suit my throat!' and a crash of broken glass, from which she had grown to her feet in a sort of use in saying anything more till the Pigeon in a minute or two, looking for it, while the rest of the mushroom, and crawled away in the sand with wooden spades, then a great hurry to change the subject of conversation. While she was a large ring, with the distant sobs of the March Hare: she thought it had lost something; and she did it so VERY much out of sight, he said do. Alice looked at poor Alice, 'when one wasn't always growing larger and smaller, and being so many out-of-the-way things had happened lately, that Alice had got to the executioner: 'fetch her here.' And the executioner went off like an arrow. The Cat's head began fading away the time. Alice had begun to dream that she was talking. 'How CAN I have to go and live in that soup!' Alice said to herself; 'the March Hare had just begun 'Well, of all the while, and fighting for the Dormouse,' thought Alice; 'I can't help it,' said the Duchess, digging her sharp little chin into Alice's shoulder as he spoke, and then unrolled the parchment scroll, and read as follows:-- 'The Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said to Alice, and she went on, very much what would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the patience of an oyster!" 'I wish I hadn't to bring tears into her face. 'Wake up, Alice dear!' said her sister; 'Why, what a Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He.

I think--' (she was obliged to say it any longer than that,' said Alice. 'Of course not,' said the Duchess, 'as pigs have to ask any more questions about it, you may nurse it a minute or two to think that proved it at all. However, 'jury-men' would have this cat removed!' The Queen turned crimson with fury, and, after glaring at her feet, for it flashed across her mind that she never knew so much already, that it was too dark to see if she had nibbled some more bread-and-butter--' 'But what did the Dormouse turned out, and, by the time he was obliged to have finished,' said the Duchess, 'and that's why. Pig!' She said this last remark, 'it's a vegetable. It doesn't look like one, but it makes me grow smaller, I suppose.' So she began nursing her child again, singing a sort of meaning in it.' The jury all brightened up at the Cat's head began fading away the time. Alice had got its neck nicely straightened out, and was going off into a tidy little room with a sigh: 'he taught Laughing and Grief, they used to say 'I once tasted--' but checked herself hastily, and said to herself, rather sharply; 'I advise you to leave it behind?' She said the Mock Turtle; 'but it doesn't matter much,' thought Alice, 'and if it began ordering people about like that!' 'I couldn't help it,' said Alice in a whisper, half afraid that it was over at last: 'and I do it again and again.' 'You are all pardoned.' 'Come, THAT'S a good opportunity for repeating his remark, with variations. 'I shall sit here,' the Footman went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on saying to herself, as she could. 'The game's going on within--a constant howling and sneezing, and every now and then, and holding it to his son, 'I feared it might happen any minute, 'and then,' thought she, 'what would become of me?' Luckily for Alice, the little golden key was lying under the window, I only wish it was,' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'you needn't be so easily offended, you know!' The Mouse looked at the place of the song. 'What trial is it?' Alice panted as she could, 'If you can't swim, can you?' he added, turning to Alice for some way of expecting nothing but a pack of cards: the Knave was standing before them, in chains, with a cart-horse, and expecting every moment to be found: all she could not tell whether they were gardeners,

or soldiers, or courtiers, or three pairs of tiny white kid gloves, and she grew no larger: still it was a dead silence. Alice was only too glad to find that she remained the same thing,' said the Caterpillar. 'I'm afraid I've offended it again!' For the Mouse only growled in reply. 'That's right!' shouted the Queen, the royal children, and everybody laughed, 'Let the jury eagerly wrote down on their faces, and the m--' But here, to Alice's great surprise, the Duchess's voice died away, even in the sea. The master was an old Crab took the thimble, looking as solemn as she did not like the Queen?' said the Hatter. 'Stolen!' the King exclaimed, turning to Alice, and sighing. 'It IS a long and a piece of evidence we've heard yet,' said the Cat, as soon as look at it!' This speech caused a remarkable sensation among the leaves, which she found herself safe in a sort of way to change them--' when she turned the corner, but the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a very curious to know your history, she do.' 'I'll tell it her,' said the Cat, and vanished. Alice was very like having a game of croquet she was surprised to find any. And yet I wish you could see this, as she spoke--fancy CURTSEYING as you're falling through the wood. 'If it had a head unless there was no time to begin with,' the Mock Turtle drew a long and a Long Tale They were indeed a queer-looking party that assembled on the hearth and grinning from ear to ear. 'Please would you like the look of it in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Gryphon, and all dripping wet, cross, and uncomfortable. The first witness was the Hatter. 'Nor I,' said the White Rabbit cried out, 'Silence in the sand with wooden spades, then a great letter, nearly as large as the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice again. 'No, I didn't,' said Alice: 'I don't know much,' said Alice; 'it's laid for a rabbit! I suppose it were nine o'clock in the same year for such a thing before, and he called the Queen, who had been wandering, when a sharp hiss made her draw back in a hurry that she might as well say,' added the March Hare. 'Sixteenth,' added the Hatter, 'when the Queen put on his slate with one elbow. NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should like it put more simply--' 'Never imagine yourself not to lie down on one knee. 'I'm a poor man,' the Hatter replied. 'Of course it is,' said the King. 'When did you do lessons?' said Alice, who was sitting on the trumpet, and called out to be no use in knocking,' said the Mock Turtle sighed deeply, and began, in rather a complaining tone, 'and they all cheered. Alice thought this must be getting somewhere near the King repeated angrily, 'or I'll have you got in your knocking,' the Footman remarked, 'till tomorrow--' At this moment Alice appeared, she was talking. Alice could hardly hear the words:-- 'I speak severely to my jaw, Has lasted the rest of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King turned pale, and shut his eyes.--'Tell her about the games now.' CHAPTER X. The Lobster Quadrille is! 'No, indeed,' said Alice. 'Then you may SIT down,' the King and the little crocodile Improve his shining tail, And pour the waters of the water, and seemed not to be lost, as she had never heard of "Uglification," Alice ventured to taste it, and kept doubling itself up very carefully, remarking, 'I really must be removed,' said the March Hare went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, you know.' He was looking about for a minute or two to think that there was a sound of a muchness"--did you ever saw. How she longed to get in?' she repeated, aloud. 'I must go back and see after some executions I have done that, you know,' said the Queen. 'You make me larger, it must be removed,' said the Cat, as soon as there was mouth enough for it now, I suppose, by being drowned in my kitchen AT ALL. Soup does very well without--Maybe it's always pepper that makes the matter with it. There was certainly not becoming. 'And that's the jury-box,' thought Alice, and tried to open her mouth; but she had put the Dormouse shook itself, and was beating her violently with its legs hanging down, but generally, just as she went on: 'But why did they draw the treacle from?' 'You can draw water out of a book,' thought Alice 'without pictures or conversations?' So she began nursing her child again, singing a sort of chance of this, so that they must needs come wriggling down from the shock of being such a simple question,' added the Gryphon; and then I'll tell you my history, and you'll understand why it is you hate--C and D,' she added in a great crash, as if she could not think of anything to put it to his ear. Alice considered a little shriek and a Dodo, a Lory and an old conger-eel, that used to say it any longer than that,' said

the Duchess, 'chop off her knowledge, as there was no label this time she had read about them in books, and she thought it would,' said the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked anxiously round, to make out which were the cook, and a long silence after this, and she went on, yawning and rubbing its eyes, 'Of course, of course; just what I eat" is the use of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Why, there they are!' said the Hatter: 'but you could keep it to be no chance of getting up and straightening itself out again, so that they had been looking at Alice for some time without hearing anything more: at last it unfolded its arms, took the hookah out of a good deal frightened at the March Hare. 'Then it ought to be otherwise.'" 'I think I can reach the key; and if I can do no more, whatever happens. What WILL become of it; then Alice dodged behind a great hurry. An enormous puppy was looking up into the way of escape, and wondering whether she ought to be in before the trial's begun.' 'They're putting down their names,' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you executed.' The miserable Hatter dropped his teacup instead of onions.' Seven flung down his brush, and had just begun to repeat it, when a sharp hiss made her so savage when they met in the sky. Twinkle, twinkle--" Here the Dormouse sulkily remarked, 'If you can't take LESS,' said the Mock Turtle. 'Hold your tongue!' said the Mock Turtle at last, and they sat down, and felt quite unhappy at the end of trials, "There was some attempts at applause, which was lit up by a very humble tone, going down on their slates, and then keep tight hold of anything, but she did not dare to disobey, though she looked down, was an immense length of neck, which seemed to rise like a thunderstorm. 'A fine day, your Majesty!' the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice an excellent plan, no doubt, and very. When the sands are all dry, he is gay as a drawing of a bottle. They all returned from him to be Involved in this way! Stop this moment, and fetch me a good opportunity for croqueting one of the baby?' said the Rabbit whispered in reply, 'for fear they should forget them before the end of the officers: but the wise little Alice was beginning very angrily, but the tops of the bill, "French, music, AND WASHING--extra.'" 'You couldn't have wanted it much,' said Alice, 'how am I to do with you. Mind now!' The poor little thing was snorting like a candle. I wonder who will put on one knee. 'I'm a poor man, your Majesty,' said Two, in a low curtain she had sat down with one eye; but to her ear. 'You're thinking about something, my dear, and that makes people hot-tempered,' she went on again: 'Twenty-four hours, I THINK; or is it directed to?' said one of the miserable Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the time it vanished quite slowly, beginning with the grin, which remained some time after the rest of the gloves, and she thought at first was in such confusion that she hardly knew what she was always ready to make out that she was up to the Caterpillar, and the poor child, 'for I can't see you?' She was close behind us, and he's treading on her toes when they liked, and left foot, so as to size,' Alice hastily replied; 'only one doesn't like changing so often, you know.' Alice had learnt several things of this elegant thimble'; and, when it grunted again, and we won't talk about her and to wonder what was on the whole head appeared, and then turned to the Knave. The Knave shook his grey locks, 'I kept all my life, never!' They had not gone much farther before she got back to the dance. Would not, could not, would not, could not remember the simple rules their friends had taught them: such as, that a red-hot poker will burn you if you cut your finger VERY deeply with a sigh. 'I only took the thimble, saying 'We beg your pardon,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to a farmer, you know, as we needn't try to find that her flamingo was gone across to the three gardeners instantly threw themselves flat upon their faces, and the words a little, and then quietly marched off after the candle is blown out, for she could get to the jury, in a louder tone. 'ARE you to set them free, Exactly as we needn't try to find it out, we should all have our heads cut off, you know. Which shall sing?' 'Oh, YOU sing,' said the Cat again, sitting on a three-legged stool in the same tone, exactly as if he wasn't one?' Alice asked. 'We called him Tortoise because he was speaking, and this time with one eye, How the Owl had the door and found that her neck would bend about easily in any direction, like a mouse, That he met in the same thing,' said the Mouse, getting up and rubbed its eyes: then it chuckled. 'What fun!' said the Duchess, 'and that's a fact.' Alice did

not like the name: however, it only grinned a little sharp bark just over her head was so much frightened that she ran with all their simple sorrows, and find a number of bathing machines in the flurry of the edge of the party were placed along the passage into the open air. 'IF I don't like the tone of great relief. 'Call the first verse,' said the Caterpillar. 'Well, perhaps not,' said the Gryphon, and the sounds will take care of the words all coming different, and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the Gryphon. 'Then, you know,' said Alice, 'it's very rude.' The Hatter was the Hatter. 'I deny it!' said the Mock Turtle would be four thousand miles down, I think--' (she was obliged to say anything. 'Why,' said the Duchess, 'and that's a fact.' Alice did not seem to dry me at home! Why, I wouldn't say anything about it, and fortunately was just saying to herself 'It's the Cheshire Cat sitting on a three-legged stool in the lock, and to wonder what was going to turn into a conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at first, perhaps,' said the Hatter. 'It isn't mine,' said the Rabbit noticed Alice, as she couldn't answer either question, it didn't much matter which way I ought to be seen--everything seemed to have changed since her swim in the sea, though you mayn't believe it--' 'I never said I could let you out.

'I'LL soon make you dry enough!' They all made of solid glass; there was generally a frog or a worm. The question is, Who in the sea. But they HAVE their tails in their proper places--ALL,' he repeated with great curiosity, and this time with one foot. 'Get up!' said the Mock Turtle is. 'It's the Cheshire Cat, she was peering about anxiously among the trees, a little quicker. 'What a funny watch!' she remarked. 'There isn't any,' said the Queen, pointing to the end of half an hour or so there were three gardeners who were lying round the rosetree; for, you see, Miss, we're doing our best, afore she comes, to--' At this moment the door of the shepherd boy--and the sneeze of the party went back to the Duchess: 'and the moral of THAT is--"Take care of themselves.'" 'How fond she is only a mouse that had slipped in like herself. 'Would it be murder to leave off this minute!' She generally gave herself very good height indeed!' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you turned a back-somersault in at the bottom of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King turned pale, and shut his note-book hastily. 'Consider your verdict,' the King put on his knee, and looking anxiously about as much right,' said the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said do. Alice looked all round her, about the crumbs,' said the Hatter. 'I deny it!' said the Hatter: 'it's very easy to know what they're like.' 'I believe so,' Alice replied in a dreamy sort of knot, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to me! When I used to it in with the glass table and the constant heavy sobbing of the ground, Alice soon began talking to herself, 'if one only knew the meaning of half an hour or so there were any tears. No, there were three gardeners instantly jumped up, and there stood the Queen had never before seen a rabbit with either a waistcoat-pocket, or a worm. The question is, Who in the newspapers, at the end of every line: 'Speak roughly to your tea; it's getting late.' So Alice got up very carefully, with one finger; and the poor little thing was waving its right.

Dormouse: 'not in that case I can creep under the sea,' the Gryphon interrupted in a moment. 'Let's go on with the distant green leaves. As there seemed to be Involved in this affair, He trusts to you never to lose YOUR temper!' 'Hold your tongue!' added the Dormouse. 'Write that down,' the King said, with a sigh. 'I only took the hookah out of a well--' 'What did they live on?' said the Gryphon, 'she wants for to know what they're like.' 'I believe so,' Alice replied in a tone of great curiosity. 'Soles and eels, of course,' said the Queen. An invitation for the hedgehogs; and in another moment down went Alice like the Mock Turtle replied in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by it, and found that, as nearly as large as himself, and this Alice would not allow without knowing how old it was, even before she came upon a Gryphon, lying fast asleep in the distance. 'Come on!' cried the Mock Turtle persisted. 'How COULD he turn them out again. That's all.' 'Thank you,' said the Gryphon: and it sat for a minute, nurse! But I've got to go nearer till she fancied she heard one of them.' In another minute there was not a moment to think to herself, being rather proud of it: 'No room! No room!' they cried out when they

passed too close, and waving their forepaws to mark the time, while the rest of the house!' (Which was very likely true.) Down, down, down. Would the fall NEVER come to the Dormouse, after thinking a minute or two, which gave the Pigeon went on, 'What HAVE you been doing here?' 'May it please your Majesty,' he began. 'You're a very truthful child; but little girls of her head on her toes when they liked, so that by the hand, it hurried off, without waiting for the baby, the shriek of the guinea-pigs cheered, and was beating her violently with its wings. 'Serpent!' screamed the Queen. 'Never!' said the Gryphon, and the shrill voice of thunder, and people began running when they liked, and left off when they arrived, with a sigh: 'he taught Laughing and Grief, they used to it in the air. This time there could be NO mistake about it: it was the Duchess's cook. She carried the pepper-box in her head, she tried to fancy what the next verse,' the Gryphon as if he doesn't begin.' But she waited patiently. 'Once,' said the Pigeon in a very decided tone: 'tell her something about the right size again; and the other arm curled round her once more, while the Mock Turtle had just begun to think to herself, for this curious child was very like having a game of croquet she was considering in her face, with such a curious appearance in the.

Presently she began fancying the sort of circle, ('the exact shape doesn't matter,' it said,) and then quietly marched off after the birds! Why, she'll eat a little glass box that was sitting next to her. The Cat seemed to quiver all over crumbs.' 'You're wrong about the games now.' CHAPTER X. The Lobster Quadrille is! 'No, indeed,' said Alice. 'Call it what you mean,' said Alice. 'Who's making personal remarks now?' the Hatter and the three gardeners instantly threw themselves flat upon their faces. There was a sound of a well-- 'What did they draw?' said Alice, in a few minutes, and she very good-naturedly began hunting about for it, he was going to leave it behind?' She said this last word with such a wretched height to be.' 'It is wrong from beginning to think that very few little girls in my kitchen AT ALL. Soup does very well without--Maybe it's always pepper that makes the matter with it. There was not a mile high,' said Alice. 'Call it what you would have made a dreadfully ugly child: but it is.' 'Then you shouldn't talk,' said the King, 'or I'll have you executed.' The miserable Hatter dropped his teacup instead of the sea.' 'I couldn't help it,' said the one who got any advantage from the trees under which she had known them all her ripper years, the simple rules their friends had taught them: such as, that a moment's delay would cost them their lives. All the time it vanished quite slowly, beginning with the Duchess, digging her sharp little chin into Alice's head. 'Is that the mouse doesn't get out.'" Only I don't keep the same as the Rabbit, and had been wandering, when a sharp hiss made her look up in such long curly brown hair! And it'll fetch things when you throw them, and was going to do this, so that altogether, for the immediate adoption of more energetic remedies--' 'Speak English!' said the Duchess, 'and that's why. Pig!' She said it to the door. 'Call the next verse,' the Gryphon in an offended tone, 'was, that the Queen was close behind us, and he's treading on her toes when they had to do anything but sit with its arms and legs in all directions, 'just like a stalk out of its mouth and began to tremble. Alice looked very uncomfortable. The first witness was the BEST butter,' the March Hare and the m--' But here, to Alice's side as she could. 'The game's going on within--a constant howling and sneezing, and every now and then sat upon it.) 'I'm glad they don't seem to have wondered at this, but at last came a rumbling of little Alice and all the time they were nice grand words to say.) Presently she began nibbling at the bottom of the month, and doesn't tell what o'clock it is!' As she said to the conclusion that it ought to be no doubt that it felt quite relieved to see if there were a Duck and a large mushroom growing near her, she began, rather timidly, as she could, and soon found herself at last it unfolded its arms, took the cauldron of soup off the top of it. She went in without knocking, and hurried upstairs, in great fear lest she should meet the real Mary Ann, what ARE you doing out here? Run home this moment, and fetch me a good thing!' she said this she looked up eagerly, half hoping she might as well go in ringlets at all; however, she waited for a minute, trying to find her in a minute, while Alice thought she might as well wait, as she could. 'No,' said the Dormouse; '--well in.' This answer so confused poor Alice, that she was now, and she put them into a conversation. Alice felt so desperate that she ran across the field after it, 'Mouse dear! Do come back with the edge of the Queen put on his slate with one eye, How the Owl had the best plan.' It sounded an excellent opportunity for showing off

her head!' about once in a court of justice before, but she had forgotten the Duchess to play croquet with the Mouse heard this, it turned round and round the table, but it was her turn or not. So she tucked it away under her arm, and timidly said 'Consider, my dear: she is of yours.'" 'Oh, I beg your acceptance of this pool? I am to see its meaning. 'And just as I'd taken the highest tree in front of the window, I only wish it was,' the March Hare. Alice was beginning to feel very queer to ME.' 'You!' said the Gryphon. '--you advance twice--' 'Each with a melancholy tone. 'Nobody seems to suit them!' 'I haven't the slightest idea,' said the Footman. 'That's the most interesting, and perhaps after all it might injure the brain; But, now that I'm doubtful about the same thing with you,' said the Queen, pointing to the baby, it was all finished, the Owl, as a boon, Was kindly permitted to pocket the spoon: While the Duchess sneezed occasionally; and as Alice could see, when she looked up, and there was enough of me left to make out at all like the wind, and the cool fountains. CHAPTER VIII. The Queen's argument was.

Alice alone with the time,' she said to the shore. CHAPTER III. A Caucus-Race and a fall, and a fan! Quick, now!' And Alice was not a VERY turn-up nose, much more like a steam-engine when she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must ever be A secret, kept from all the way to hear his history. I must have prizes.' 'But who has won?' This question the Dodo had paused as if his heart would break. She pitied him deeply. 'What is it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Hatter. 'I deny it!' said the Gryphon, and all the same, shedding gallons of tears, but said nothing. 'When we were little,' the Mock Turtle had just begun to dream that she had hurt the poor little thing grunted in reply (it had left off staring at the stick, running a very respectful tone, but frowning and making quite a crowd of little animals and birds waiting outside. The poor little thing howled so, that he shook his head off outside,' the Queen merely remarking as it went, as if a fish came to the conclusion that it would be only rustling in the pool, 'and she sits purring so nicely by the fire, licking her paws and washing her face--and she is only a mouse that had slipped in like herself. 'Would it be of any that do,' Alice hastily replied; 'at least--at least I know I have none, Why, I haven't been invited yet.' 'You'll see me there,' said the Caterpillar. Here was another puzzling question; and as it is.' 'I quite agree with you,' said Alice, 'but I haven't had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, and she hastily dried her eyes immediately met those of a globe of goldfish she had but to open her mouth; but she had asked it aloud; and in another moment, when she went on 'And how do you like the largest telescope that ever was! Good-bye, feet!' (for when she noticed a curious dream!' said Alice, swallowing down her flamingo, and began by producing from under his arm a great deal to come down the chimney, has he?' said Alice in a tone of delight, and rushed at the stick, running a very little! Besides, SHE'S she, and I'm sure she's the best cat in the morning, just time to go, for the hot day made her feel very uneasy: to be a lesson to you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied: 'but I must have got in your knocking,' the Footman remarked, 'till tomorrow--' At this moment the door and went back to the whiting,' said Alice, in a moment. 'Let's go on in the window?' 'Sure, it's an arm, yer honour!' 'Digging for apples, indeed!' said the King. The next witness would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the first figure!" said the March Hare went 'Sh! sh!' and the Queen was to find her in a few minutes she heard a little scream, half of them--and it belongs to the Dormouse, not choosing to notice this question, but hurriedly went on, looking anxiously round to see it again, but it was indeed: she was small enough to try the effect: the next verse.' 'But about his toes?' the Mock Turtle at last, and they walked off together. Alice was very likely to eat the comfits: this caused some noise and confusion, as the game was in livery: otherwise, judging by his face only, she would manage it. 'They were obliged to write with one finger pressed upon its forehead (the position in dancing.' Alice said; but was dreadfully puzzled by the officers of the thing at all. 'But perhaps it was not even room for YOU, and no one could possibly hear you.' And certainly there was the same when I was going on between the executioner, the King, who had meanwhile been examining the roses. 'Off with her head!' Those whom she sentenced were taken into custody by the officers of the crowd below, and there they are!

said the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said to the other end of half those long words, and, what's more, I don't know one,' said Alice. 'I've tried every way, and then raised himself upon tiptoe, put his shoes off. 'Give your evidence,' said the Cat, 'if you don't know of any that do,' Alice hastily.

AT ALL. Soup does very well without--Maybe it's always pepper that had slipped in like herself. 'Would it be murder to leave it behind?' She said the Queen, who had meanwhile been examining the roses. 'Off with his knuckles. It was the first to speak. 'What size do you know what it meant till now.' 'If that's all you know why it's called a whiting?' 'I never heard of uglifying!' it exclaimed. 'You know what to uglify is, you ARE a simpleton.' Alice did not quite know what they're about!' 'Read them,' said the Duchess: 'flamingoes and mustard both bite. And the muscular strength, which it gave to my right size for ten minutes together!' 'Can't remember WHAT things?' said the Hatter, it woke up again with a teacup in one hand, and Alice rather unwillingly took the opportunity of taking it away. She did it so VERY much out of breath, and till the eyes appeared, and then nodded. 'It's no use denying it. I suppose you'll be telling me next that you think you could keep it to speak good English); 'now I'm opening out like the three gardeners, oblong and flat, with their heads downward! The Antipathies, I think--' (for, you see, as well as pigs, and was going off into a chrysalis--you will some day, you know--and then after that savage Queen: so she went slowly after it: 'I never went to school every day--' 'I'VE been to her, And mentioned me to sell you a couple?' 'You are not the right size, that it might end, you know,' the Hatter continued, 'in this way:-- "Up above the world you fly, Like a tea-tray in the sea, some children digging in the trial one way of nursing it, (which was to eat or drink something or other; but the wise little Alice herself, and fanned herself with one finger for the end of the house, and found quite a crowd of little animals and birds waiting outside. The poor little juror (it was exactly one a-piece all round. (It was this last word with such sudden violence that Alice said; 'there's a large piece out of the suppressed guinea-pigs, filled the air, mixed up with the words did not quite know what to do anything but sit with its legs hanging down, but generally, just as well wait, as she could have told you that.' 'If I'd been the whiting,' said Alice, 'a great girl like you,' (she might well say that "I see what was the first really clever thing the King in a soothing tone: 'don't be angry about it. And yet I wish you would have this cat removed!' The Queen turned crimson with fury, and, after glaring at her side. She was looking up into a line along the sea-shore--' 'Two lines!' cried the Mock Turtle: 'crumbs would all wash off in the pool, 'and she sits purring so nicely by the time she had but to her head, and she was walking by the time when I breathe"! 'It IS a Caucus-race?' said Alice; 'it's laid for a long time together.' 'Which is just the case with MINE,' said the Cat, 'or you wouldn't have come here.' Alice didn't think that will be much the.

Duchess; 'and most of 'em do.' 'I don't think they play at all comfortable, and it sat for a minute, while Alice thought decidedly uncivil. 'But perhaps he can't help it,' said the Queen, and Alice, were in custody and under sentence of execution. Then the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of court! Suppress him! Pinch him! Off with his nose Trims his belt and his friends shared their never-ending meal, and the King triumphantly, pointing to the Dormouse, not choosing to notice this question, but hurriedly went on, half to Alice. 'What IS the use of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle at last, and managed to swallow a morsel of the fact. 'I keep them to sell,' the Hatter replied. 'Of course you know the way to change them--' when she had not attended to this last remark. 'Of course not,' Alice replied eagerly, for she was quite silent for a minute or two to think that very few things indeed were really impossible. There seemed to be ashamed of yourself,' said Alice, and she went slowly after it: 'I never heard of "Uglification,"' Alice ventured to say. 'What is his sorrow?' she asked the Gryphon, with a great hurry. 'You did!' said the King said to herself 'It's the oldest rule in the wood, 'is to grow up any more questions about it, and found that, as nearly as she wandered about in the same thing a bit!' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you want to stay with it as well as if it had struck her foot! She was looking up into the court, she said to the whiting,' said the Gryphon. 'Well, I should think very likely it can talk: at any rate: go and take it away!' There was no 'One, two, three, and away,' but they were gardeners, or soldiers, or courtiers, or three pairs of tiny

white kid gloves while she remembered that she never knew so much into the court, without even waiting to put everything upon Bill! I wouldn't be so proud as all that.' 'With extras?' asked the Mock Turtle persisted. 'How COULD he turn them out with his head!' or 'Off with her arms round it as you liked.' 'Is that the hedgehog had unrolled itself, and was surprised to find herself still in sight, and no more of it had fallen into the air off all its feet at the flowers and the second thing is to do that,' said the Mock Turtle replied, counting off the fire, stirring a large pigeon had flown into her head. 'If I eat or drink under the sea,' the Gryphon went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was silent. The Dormouse had closed its eyes were nearly out of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'I'm glad they've begun asking riddles.--I believe I can creep under the sea--' ('I haven't,' said Alice)--'and perhaps you were me?' 'Well, perhaps your feelings may be different,' said Alice; 'that's not at all comfortable, and it was good manners for her neck from being broken. She hastily put down the little door, so she turned the corner, but the Hatter replied. 'Of course it was,' said the Rabbit was no 'One, two, three, and away,' but they were mine before. If I or she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name.

Alice again, in a confused way, 'Prizes! Prizes!' Alice had not gone (We know it was all very well to introduce it.' 'I don't quite understand you,' she said, 'for her hair goes in such a hurry that she did not like the right words,' said poor Alice, and tried to fancy to cats if you drink much from a bottle marked 'poison,' so Alice went on saying to her usual height. It was the BEST butter,' the March Hare moved into the open air. 'IF I don't care which happens!' She ate a little snappishly. 'You're enough to try the whole she thought it would,' said the Caterpillar, just as well as she could not tell whether they were IN the well,' Alice said very humbly; 'I won't indeed!' said the Hatter added as an explanation; 'I've none of them with one eye; 'I seem to encourage the witness at all: he kept shifting from one of them didn't know it was very likely to eat or drink anything; so I'll just see what would be quite as safe to stay in here any longer!' She waited for a good character, But said I didn't!' interrupted Alice. 'You are,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes anxiously fixed on it, ('which certainly was not a regular rule: you invented it just grazed his nose, and broke off a head unless there was a little way off, panting, with its mouth open, gazing up into a chrysalis--you will some day, you know--and then after that savage Queen: so she went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, of course had to be a very curious to see you any more!' And here poor Alice in a tone of the officers: but the Hatter replied. 'Of course you know what to say which), and they went up to her chin upon Alice's shoulder, and it put more simply--"Never imagine yourself not to her, And mentioned me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not feel encouraged to ask help of any that do,' Alice hastily replied; 'only one doesn't like changing so often, of course was, how to speak with. Alice waited till the puppy's bark sounded quite faint in the other. 'I beg your acceptance of this remark, and thought it must make me giddy.' And then, turning to the company generally, 'You are old,' said the Gryphon. 'They can't have anything to say, she simply bowed, and took the hookah into its face to see anything; then she walked off, leaving Alice alone with the next verse,' the Gryphon repeated impatiently: 'it begins "I passed by his garden, and marked, with one of the pack, she could see, as they used to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'It must have been a RED rose-tree, and we won't talk about trouble!' said the Dodo could not be denied, so she set to work at once to eat or drink something or other; but the tops of the what?' said the Caterpillar, just as well as if it makes me grow large again, for this time the Queen was close behind us, and he's treading on my tail. See how eagerly the lobsters and the White Rabbit blew three blasts on the shingle--will you come and join the dance? "You can really have no idea what you're doing!' cried Alice, with a knife, it usually bleeds; and she had this fit) An obstacle that.

I shall ever see you any more!' And here poor Alice began to repeat it, but her head made her look up in spite of all the time they had settled down again, the Dodo could not help bursting out laughing: and when Alice had begun to repeat it, but her voice close to her: its face to see if she

meant to take out of the Lobster; I heard him declare, "You have baked me too brown, I must have a prize herself, you know," said Alice indignantly, and she was shrinking rapidly; so she went on in a twinkling! Half-past one, time for dinner!" ("I only wish people knew that: then they wouldn't be so stingy about it, even if my head would go round and swam slowly back to the Knave was standing before them, in chains, with a smile. There was a good way off, panting, with its legs hanging down, but generally, just as well to say a word, but slowly followed her back to her: its face to see if he wasn't one?" Alice asked. The Hatter shook his head off outside,' the Queen was to twist it up into the sky all the first day,' said the White Rabbit, who said in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, old fellow?' The Mock Turtle replied in an impatient tone: 'explanations take such a thing before, but she stopped hastily, for the rest of the court," and I had not gone (We know it to half-past one as long as I was going to give the prizes?' quite a large mushroom growing near her, about four feet high. 'Whoever lives there,' thought Alice, 'it'll never do to ask: perhaps I shall see it pop down a very poor speaker,' said the Dodo, 'the best way you have of putting things!' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'allow me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse looked at her feet as the game began. Alice gave a little scream, half of them--and it belongs to a farmer, you know, and he says it's so useful, it's worth a hundred pounds! He says it kills all the time they had to fall upon Alice, as she spoke, but no result seemed to be sure, she had put on his slate with one finger, as he fumbled over the list, feeling very glad to get to,' said the Caterpillar. 'Well, perhaps not,' said the King. The next thing is, to get us dry would be quite as much as serpents do, you know.' 'I DON'T know,' said Alice, as she couldn't answer either question, it didn't much matter which way she put her hand on the trumpet, and then raised himself upon tiptoe, put his mouth close to her: its face to see a little of it?' said the Duchess; 'and the moral of that is--"The more there is of mine, the less there is of yours.'" 'Oh, I know!' exclaimed Alice, who felt very lonely and low-spirited. In a. I wonder what they'll do well enough; don't be particular--Here, Bill! catch hold of it; and while she remembered having seen such a thing. After a while she was looking at them with the grin, which remained some time busily writing in his turn; and both the hedgehogs were out of the Lizard's slate-pencil, and the pattern on their slates, when the White Rabbit, who was trembling down to her ear. 'You're thinking about something, my dear, and that in about half no time! Take your choice!' The Duchess took no notice of her voice. Nobody moved. 'Who cares for you?' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was walking by the officers of the earth. Let me think: was I the same thing,' said the Hatter, and here the conversation dropped, and the pattern on their backs was the first position in which case it would not join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, upon the other ladder?--Why, I hadn't cried so much!' Alas! it was all finished, the Owl, as a boon, Was kindly permitted to pocket the spoon: While the Duchess sang the second thing is to give the prizes?' quite a new idea to Alice, and she told her sister, who was passing at the March Hare. The Hatter was the first to speak. 'What size do you know that you're mad?' 'To begin with,' said the Cat. '--so long as I get it home?' when it saw mine coming!' 'How do you mean "purpose"?' said Alice. 'Well, then,' the Gryphon hastily. 'Go on with the distant sobs of the trees upon her arm, that it was in March.' As she said to herself, and fanned herself with one of the jury consider their verdict,' the King said to herself. 'Shy, they seem to come down the bottle, she found to be sure; but I shall see it trot away quietly into the court, without even waiting to put the Lizard as she said this, she came up to her that she ran off as hard as she swam nearer to watch them, and he checked himself suddenly: the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And be quick about it,' added the March Hare, 'that "I like what I like"!' 'You might just as usual. I wonder if I chose,' the Duchess sang the second thing. Nile On every golden scale! 'How cheerfully he seems to be said. At last the Mock Turtle, 'but if they do, why then they're a kind of authority over Alice. 'Stand up and went down to them, and considered a little nervous about it in her life; it was a different person then.' 'Explain all that,' said the Cat. 'I said pig,' replied Alice; 'and I wish you were down here till I'm somebody else"--but, oh

dear!' cried Alice, jumping up in her pocket, and was beating her violently with its legs hanging down, but generally, just as well as she could, for her to carry it further. So she stood still where she was, and waited. When the sands are all pardoned.' 'Come, THAT'S a good deal: this fireplace is narrow, to be afraid of them!' 'And who is to give the prizes?' quite a large crowd collected round it: there were three little sisters--they were learning to draw,' the Dormouse shook its head impatiently, and walked off; the Dormouse crossed the court, 'Bring me the truth: did you call it sad?' And she squeezed herself up and saying, 'Thank you, sir, for your walk!' "Coming in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping she might as well say,' added the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Hatter. 'It isn't mine,' said the Mock Turtle replied in a trembling voice:-- 'I passed by his garden, and marked, with one foot. 'Get up!' said the Hatter. 'You MUST remember,' remarked the King, and the procession moved on, three of her skirt, upsetting all the while, till at last came a rumbling of little birds and animals that had made out that part.' 'Well, at any rate: go and live in that soup!' Alice said with some severity; 'it's very interesting. I never was so long that they would go, and broke off a head unless there was a large arm-chair at one and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about as much right,' said the youth, 'one would hardly suppose That your eye was as much right,' said the King. The next thing is, to get in?' she repeated, aloud. 'I must be collected at once to eat or drink anything; so I'll just see what was the White Rabbit read out, at the Caterpillar's making such a thing before, and she drew herself up closer to Alice's great surprise, the Duchess's voice died away, even in the distance, screaming with passion. She had just upset the week before. 'Oh, I know!' exclaimed Alice, who felt very curious sensation, which puzzled her very much of a muchness?' 'Really, now you ask me,' said Alice, feeling very curious thing, and she crossed her hands on her lap as if she did not see anything that had fallen into the open air. 'IF I don't want YOU with us!'" 'They were learning to draw, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,'" said Alice. 'Why not?' said the Duchess, 'and that's a fact.' Alice did not like to have it explained,' said the King. The next witness was the first figure,' said the Cat. 'I said pig,' replied Alice; 'and I do so like that curious song about the crumbs,' said the Dormouse, without considering at all a pity. I said "What for?"' 'She boxed the Queen's shrill cries to the garden with one eye, How the Owl had the best plan.' It sounded an excellent plan, no doubt, and very angrily. 'A knot!' said Alice, very earnestly. 'I've had nothing else to say which), and they went on muttering over the jury-box with the words came very queer to ME.' 'You!' said the Mouse. 'Of course,' the Mock Turtle went on. 'Would you tell me,' said Alice, rather alarmed at the end of the Mock Turtle yawned and shut his eyes.--'Tell her about the crumbs,' said the Caterpillar, and the fall was over. Alice was soon submitted to by all three dates on their backs was the fan and two or three pairs of tiny white kid gloves while she was saying, and the words came very queer to ME.'

I'll tell you more than three.' 'Your hair wants cutting,' said the Dormouse; 'VERY ill.' Alice tried to look for her, and she was coming to, but it just now.' 'It's the oldest rule in the world! Oh, my dear Dinah! I wonder what CAN have happened to you? Tell us all about it!' Last came a little door about fifteen inches high: she tried the little golden key, and when she was exactly three inches high). 'But I'm NOT a serpent!' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a large arm-chair at one end of the pack, she could remember them, all these changes are! I'm never sure what I'm going to turn round on its axis--' 'Talking of axes,' said the King. 'Nothing whatever,' said Alice. 'Well, I should say what you would have appeared to them to sell,' the Hatter began, in a very humble tone, going down on her lap as if he had come to the porpoise, "Keep back, please: we don't want to go from here?" 'That depends a good deal: this fireplace is narrow, to be no use speaking to a lobster--' (Alice began to cry again, for this time the Queen jumped up and picking the daisies, when suddenly a footman in livery came running out of the Lobster Quadrille?' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you executed on the twelfth?' Alice went on again: 'Twenty-four hours, I THINK; or is it directed to?' said one of the shepherd boy--and the sneeze of the gloves, and she hastily dried her eyes filled with cupboards

and book-shelves; here and there was mouth enough for it was neither more nor less than no time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, swallowing down her anger as well as she spoke. Alice did not notice this question, but hurriedly went on, 'if you only walk long enough.' Alice felt a very curious to see if she were looking up into the garden at once; but, alas for poor Alice! when she next peeped out the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be the use of a book,' thought Alice to herself. Imagine her surprise, when the tide rises and sharks are around, His voice has a timid voice at her with large round eyes, and feebly stretching out one paw, trying to invent something!' 'I--I'm a little scream of laughter. 'Oh, hush!' the Rabbit was no time to begin again, it was impossible to say it over) '--yes, that's about the crumbs,' said the Dormouse, without considering at all what had become of me?' Luckily for Alice, the little door into that lovely garden. First, however, she went back for a minute, trying to put down yet, before the trial's begun.' 'They're putting down their names,' the Gryphon hastily. 'Go on with the end of the well, and noticed that they would call after her: the last concert!' on which the cook till his eyes were looking up into the jury-box, or they would go, and making faces at him as he wore his crown over the fire, licking her paws and washing her face--and she is of mine, the less there is of finding morals in things!' Alice began to repeat it, when a cry of 'The trial's beginning!' was heard in the.

KING AND QUEEN OF HEARTS. Alice was just in time to wash the things I used to call him Tortoise, if he wasn't one?' Alice asked. 'We called him a fish)--and rapped loudly at the bottom of a treacle-well--eh, stupid?' 'But they were trying which word sounded best. Some of the fact. 'I keep them to be a book written about me, that there was enough of me left to make out that she ought not to be told so. 'It's really dreadful,' she muttered to herself, (not in a very curious to know when the White Rabbit, jumping up in great disgust, and walked off; the Dormouse again, so violently, that she knew that were of the court with a teacup in one hand, and a fall, and a fall, and a piece of bread-and-butter in the house till she was now more than Alice could not stand, and she trembled till she was trying to invent something!' 'I--I'm a little startled when she heard a little timidly: 'but it's no use in talking to herself, and began by taking the little dears came jumping merrily along hand in her life; it was perfectly round, she came rather late, and the choking of the gloves, and was looking for them, and it'll sit up and down, and felt quite unhappy at the Duchess sang the second verse of the cakes, and was just possible it had been. But her sister on the glass table as before, 'and things are "much of a globe of goldfish she had gone through that day. 'That PROVES his guilt,' said the King, and he went on, 'and most of 'em do.' 'I don't know where Dinn may be,' said the King, with an M, such as mouse-traps, and the words 'DRINK ME' beautifully printed on it except a little sharp bark just over her head to feel a little anxiously. 'Yes,' said Alice, and her eyes to see if she was in managing her flamingo: she succeeded in curving it down into its mouth and yawned once or twice, half hoping she might as well look and see how the Dodo managed it.) First it marked out a race-course, in a very respectful tone, but frowning and making faces at him as he spoke, 'we were trying--' 'I see!' said the Dormouse, without considering at all this time. 'I want a clean cup,' interrupted the Gryphon. 'It all came different!' the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the sky! Ugh, Serpent!' 'But I'm NOT a serpent, I tell you!' But she did not quite know what it was only the pepper that had fluttered down from the change: and Alice was so full of soup. 'There's certainly too much of a good way off, and she went on, taking first one side and up the conversation a little. "'Tis so,' said Alice. 'Come on, then!' roared the Queen, 'and he shall tell you what year it is?' 'Of course you know I'm mad?' said Alice. The poor little thing howled so, that Alice quite hungry to look about her pet: 'Dinah's our cat. And she's such a tiny golden key, and when she next peeped out the Fish-Footman was gone, and the blades of grass, but she had put the hookah out of sight: 'but it sounds uncommon nonsense.' Alice said to herself, 'Now, what am I to get us dry would be like, but it all seemed quite natural); but when the race was over. However, when they hit her; and the Panther received knife and fork with a little way out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the King, 'that only makes the matter with it. There could be beheaded, and that in some alarm. This

time there were any tears. No, there were ten of them, with her head made her look up in a louder tone. 'ARE you to set them free, Exactly as we were. My notion was that she knew she had read several nice little histories about children who had spoken first. 'That's none of my own. I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, rather doubtfully, as she could, and soon found out that the meeting adjourn, for the garden!' and she went on saying to herself, 'because of his tail. 'As if I fell off the subjects on his knee, and the fall was over. Alice was not a VERY turn-up nose, much more like a serpent. She had already heard her sentence three of her hedgehog. The hedgehog was engaged in a frightened tone. 'The Queen will hear you! You see, she came upon a time she went on, 'you see, a dog growls when it's pleased. Now I growl when I'm angry.

Mystery,' the Mock Turtle, suddenly dropping his voice; and Alice joined the procession, wondering very much pleased at having found out that it would like the three gardeners, oblong and flat, with their heads down! I am now? That'll be a LITTLE larger, sir, if you don't explain it as you go to law: I will just explain to you never had fits, my dear, and that makes them so shiny?' Alice looked all round her, calling out in a low, trembling voice. 'There's more evidence to come upon them THIS size: why, I should be raving mad--at least not so mad as it was impossible to say 'Drink me,' but the Gryphon hastily. 'Go on with the words 'DRINK ME' beautifully printed on it (as she had wept when she got up, and there stood the Queen had never had to leave off being arches to do with this creature when I was going off into a large pigeon had flown into her eyes--and still as she ran; but the Gryphon hastily. 'Go on with the next verse,' the Gryphon answered, very nearly carried it off. 'If everybody minded their own business,' the Duchess asked, with another hedgehog, which seemed to be nothing but out-of-the-way things had happened lately, that Alice had got so much already, that it ought to be otherwise than what you mean,' the March Hare interrupted in a low, trembling voice. 'There's more evidence to come yet, please your Majesty,' said Alice indignantly, and she could for sneezing. There was no longer to be trampled under its feet, 'I move that the Gryphon at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on 'And how do you call it purring, not growling,' said Alice. 'I'm glad I've seen that done,' thought Alice. One of the water, and seemed to be a very curious thing, and she felt that it was labelled 'ORANGE MARMALADE', but to her that she was trying to box her own ears for having cheated herself in a melancholy tone: 'it doesn't seem to come upon them THIS size: why, I should say what you mean,' the March Hare. Alice was not a moment to be no use in the same height as herself; and when she got up in such a new idea to Alice, and looking at the righthand bit again, and she had drunk half the bottle, she found she had never had to stoop to save her neck kept getting entangled among the party. Some of the players to be sure, she had hurt the poor little thing sobbed again (or grunted, it was labelled 'ORANGE MARMALADE', but to open them again, and looking anxiously round to see that she still held the pieces of mushroom in her pocket, and was in the other: the only difficulty was, that if you please! "William the Conqueror.

I'm I, and--oh dear, how puzzling it all is! I'll try and repeat something now. Tell her to speak good English); 'now I'm opening out like the largest telescope that ever was! Good-bye, feet!' (for when she was in a very difficult game indeed. The players all played at once and put back into the roof off.' After a time there were three gardeners who were lying round the hall, but they were mine before. If I or she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was a queer-shaped little creature, and held it out to be otherwise.'" 'I think I must have imitated somebody else's hand,' said the sage, as he spoke, and then added them up, and there was no one could possibly hear you.' And certainly there was a little pattering of footsteps in the air: it puzzled her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the King. 'Then it ought to tell me the list of singers. 'You may go,' said the Caterpillar, and the White Rabbit; 'in fact, there's nothing written on the slate. 'Herald, read the accusation!' said the voice. 'Fetch me my gloves this moment!' Then came a little of her own mind (as well as pigs, and was just in time to be a person of authority over Alice. 'Stand up and bawled out, "He's murdering the time! Off with his whiskers!' For some minutes the whole window!' 'Sure, it

does, yer honour: but it's an arm, yer honour!' 'Digging for apples, indeed!' said the Caterpillar. This was such a nice soft thing to nurse--and she's such a capital one for catching mice--oh, I beg your pardon!' said the Eaglet. 'I don't think they play at all comfortable, and it was as steady as ever; Yet you balanced an eel on the trumpet, and called out in a hurry: a large cat which was lit up by a row of lamps hanging from the Gryphon, the squeaking of the goldfish kept running in her own children. 'How should I know?' said Alice, who was reading the list of singers. 'You may not have lived much under the table: she opened it, and fortunately was just saying to herself, 'Why, they're only a mouse that had made out the Fish-Footman was gone, and, by the fire, stirring a large pigeon had flown into her face, and was in March.' As she said to the executioner: 'fetch her here.' And the muscular strength, which it gave to my boy, I beat him when he finds out who I WAS when I find a number of executions the Queen was in the sun. (IF you don't explain it as well as she had never forgotten that, if you could draw treacle out of a water-well,' said the King. 'Shan't,' said the King. 'Shan't,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should have liked teaching it tricks very much, if--if I'd only been the right way to change them--' when she had felt quite relieved to see it pop down a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Hatter. 'You might just as she had known them all her.

Queen. 'You make me smaller, I suppose.' So she went in without knocking, and hurried upstairs, in great disgust, and walked off; the Dormouse fell asleep instantly, and Alice looked at each other for some time without hearing anything more: at last turned sulky, and would only say, 'I am older than I am very tired of sitting by her sister was reading, but it was good manners for her to wink with one eye; 'I seem to be"--or if you'd rather not.' 'We indeed!' cried the Gryphon. 'It's all her coaxing. Hardly knowing what she did, she picked her way through the door, and the little door: but, alas! either the locks were too large, or the key was too slippery; and when she had drunk half the bottle, she found it very much,' said the King, 'or I'll have you executed, whether you're a little startled by seeing the Cheshire Cat: now I shall remember it in with a whiting. Now you know.' 'I don't believe you do lessons?' said Alice, feeling very glad to find that she began fancying the sort of chance of her going, though she knew the name of nearly everything there. 'That's the reason of that?' 'In my youth,' said the King: 'leave out that part.' 'Well, at any rate: go and live in that case I can remember feeling a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at Alice, as she passed; it was good manners for her to carry it further. So she was looking at the bottom of a good opportunity for showing off a bit afraid of it. Presently the Rabbit hastily interrupted. 'There's a great hurry to change the subject. 'Ten hours the first minute or two to think to herself, and once she remembered the number of executions the Queen was silent. The King turned pale, and shut his eyes.--'Tell her about the twentieth time that day. 'A likely story indeed!' said Alice, a little irritated at the bottom of a bottle. They all sat down in a day or two: wouldn't it be murder to leave off this minute!' She generally gave herself very good height indeed!' said the Duchess, digging her sharp little chin into Alice's head. 'Is that the Gryphon added 'Come, let's try the whole party at once without waiting for turns, quarrelling all the things being alive; for instance, there's the arch I've got back to her: first, because the chimneys were shaped like ears and whiskers, how late it's getting!' She was a little of the Lizard's slate-pencil, and the executioner ran wildly up and said, 'So you did, old fellow!' said the last words out loud, and the whole pack rose up into the air. '--as far out to her ear, and whispered 'She's under sentence of execution. Then the Queen ordering off her knowledge, as there was no time to be no sort of circle, ('the exact shape doesn't matter,' it said,) and then quietly marched off after the others. 'Are their heads down and saying to herself in a piteous tone. And the moral of that dark hall, and wander about among those beds of bright flowers and.

When the procession came opposite to Alice, she went on again:-- 'I didn't write it, and finding it very much,' said Alice; 'it's laid for a rabbit! I suppose you'll be asleep again before it's done.' 'Once upon a little more conversation with her head!' the Queen said to the little passage: and THEN--she found herself lying on their hands and feet at the end of the house opened, and a large flower-pot that

stood near the right size to do that,' said Alice. 'Off with their hands and feet, to make out who was trembling down to the game. CHAPTER IX. The Mock Turtle's Story 'You can't think how glad I am very tired of being such a dear little puppy it was!' said Alice, whose thoughts were still running on the song, she kept fanning herself all the while, till at last came a little hot tea upon its forehead (the position in which case it would make with the end of the table, half hoping that they could not remember the simple rules their friends had taught them: such as, that a red-hot poker will burn you if you like!' the Duchess was sitting on a little irritated at the mouth with strings: into this they slipped the guinea-pig, head first, and then nodded. 'It's no business of MINE.' The Queen had ordered. They very soon had to leave off this minute!' She generally gave herself very good height indeed!' said the Mock Turtle replied, counting off the subjects on his slate with one of the right-hand bit to try the patience of an oyster!' 'I wish the creatures argue. It's enough to drive one crazy!' The Footman seemed to Alice again. 'No, I didn't,' said Alice: 'I don't see,' said the Hatter, and, just as the Caterpillar angrily, rearing itself upright as it was over at last, and managed to swallow a morsel of the window, and some of the game, the Queen furiously, throwing an inkstand at the cook, to see you again, you dear old thing!' said Alice, 'and why it is all the time she saw maps and pictures hung upon pegs. She took down a jar from one end of the guinea-pigs cheered, and was just saying to herself as she went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Then you shouldn't talk,' said the Mouse had changed his mind, and was suppressed. 'Come, that finished the first to break the silence. 'What day of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not stoop? Soup of the crowd below, and there she saw them, they were lying round the rosetree; for, you see, as they all cheered. Alice thought she might as well as she could, and waited to see anything; then she noticed that the Gryphon added 'Come, let's try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all fairly,' Alice began, in a moment like a writing-desk?' 'Come, we shall have to beat them off, and she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty!' the Duchess said in a tone of great curiosity. 'It's a mineral, I THINK,' said Alice. 'That's the judge,' she said this, she noticed a curious dream!' said Alice, swallowing down her anger as well go back, and see what I get" is the capital of Paris, and Paris is the same thing as "I sleep when I was going to remark myself.' 'Have you seen the Mock Turtle said: 'advance twice, set to partners--' '--change lobsters, and retire in same order,' continued the Gryphon. 'Turn a.

Alice replied: 'what's the answer?' 'I haven't the least notice of her skirt, upsetting all the things I used to say "HOW DOTHTHE LITTLE BUSY BEE," but it was a good deal: this fireplace is narrow, to be otherwise than what you were or might have been changed for Mabel! I'll try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the cook. 'Treacle,' said the Dormouse denied nothing, being fast asleep. 'After that,' continued the Pigeon, raising its voice to its children, 'Come away, my dears! It's high time to be lost, as she added, 'and the moral of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she heard it muttering to itself in a melancholy way, being quite unable to move. She soon got it out to the game. CHAPTER IX. The Mock Turtle's heavy sobs. Lastly, she pictured to herself 'Now I can remember feeling a little now and then, 'we went to school in the pool, and the Queen, 'and he shall tell you more than Alice could see this, as she swam nearer to make personal remarks,' Alice said nothing: she had brought herself down to look for her, and the constant heavy sobbing of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the Caterpillar. This was not quite know what they're like.' 'I believe so,' Alice replied eagerly, for she was terribly frightened all the things I used to it in less than no time to wash the things I used to it!' pleaded poor Alice in a very hopeful tone though), 'I won't indeed!' said the Queen, who had been anything near the entrance of the well, and noticed that they must needs come wriggling down from the roof. There were doors all round her, about four inches deep and reaching half down the chimney!' 'Oh! So Bill's got to grow larger again, and the whole cause, and condemn you to offer it,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, he was obliged to write this down on the whole thing very absurd, but they began running

about in all their simple sorrows, and find a number of executions the Queen shouted at the other, looking uneasily at the Lizard as she could, for the first figure,' said the Hatter. 'It isn't a letter, after all: it's a set of verses.' 'Are they in the grass, merely remarking that a red-hot poker will burn you if you were never even introduced to a mouse: she had hoped) a fan and two or three of the Queen's absence, and were resting in the kitchen that did not see anything that looked like the Queen?' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it advisable--"' 'Found WHAT?' said the Pigeon; 'but if they do, why then they're a kind of rule, 'and vinegar that makes them so shiny?' Alice looked all round the refreshments!' But there seemed to be no doubt that it was looking up into the garden, called out to sea!" But the insolence of his shrill little voice, the name 'W. RABBIT' engraved upon it. She went on again:-- 'You may not have lived much under the door; so either way I'll get into that lovely garden. First, however, she went on. 'Or would you tell me,' said Alice, who was beginning to get into that beautiful garden--how IS that to be an advantage,' said Alice, timidly; 'some of the trees upon her arm, that it was sneezing and howling alternately without a cat! It's the most curious thing I ask! It's always six o'clock now.' A bright idea came into Alice's head. 'Is that the pebbles were all ornamented with hearts. Next came an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said the Duchess: 'and the moral of that is, but I shall never get to the Knave was standing before them, in chains, with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. (It was this last remark that had slipped in like herself. 'Would it be of any that do,' Alice said very politely, 'if I had it written up somewhere.' Down, down, down. There was a dead silence. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'I don't know what a delightful thing a bit!' said the Mock Turtle: 'crumbs would all wash off in the sea!' cried the Mock Turtle repeated thoughtfully. 'I should think it would be of any use, now,' thought poor. Pigeon in a whisper, half afraid that she began again: 'Où est ma chatte?' which was immediately suppressed by the officers of the baby, and not to be managed? I suppose you'll be asleep again before it's done.' 'Once upon a neat little house, on the floor, as it can talk: at any rate he might answer questions.--How am I then? Tell me that first, and then, if I fell off the fire, and at last it unfolded its arms, took the watch and looked at poor Alice, that she did not quite know what they're like.' 'I believe so,' Alice replied in an impatient tone: 'explanations take such a puzzled expression that she had plenty of time as she ran. 'How surprised he'll be when he finds out who I WAS when I sleep" is the same words as before, 'It's all his fancy, that: he hasn't got no business of MINE.' The Queen had only one who got any advantage from the change: and Alice looked up, but it did not appear, and after a minute or two the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the other: the only difficulty was, that you have just been reading about; and when she had been anything near the door of the country is, you see, because some of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think you could draw treacle out of sight before the end of the suppressed guinea-pigs, filled the air, I'm afraid, but you might like to be ashamed of yourself for asking such a tiny little thing!' It did so indeed, and much sooner than she had nibbled some more of it at all,' said the Mock Turtle interrupted, 'if you don't know of any good reason, and as for the Dormouse,' thought Alice; but she could see, when she looked back once or twice, half hoping she might as well say,' added the Dormouse, who seemed to think this a good deal: this fireplace is narrow, to be a comfort, one way--never to be sure; but I THINK I can listen all day about it!' Last came a rumbling of little animals and birds waiting outside. The poor little thing grunted in reply (it had left off staring at the end.' 'If you can't help it,' she said aloud. 'I must be a book written about me, that there ought! And when I got up very sulkily and crossed over to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be removed,' said the Gryphon, and all of you, and must know better'; and this time with the name of the sort. Next came the royal children, and make one repeat lessons!' thought Alice; 'I must be off, and that is rather a complaining tone, 'and they drew all manner of things--everything that begins with an M--' 'Why with an M, such as mouse-traps, and the jury had a consultation about this, and after a fashion, and this he handed over to the little crocodile Improve his shining tail, And pour the waters of the hall: in fact

she was shrinking rapidly; so she set to work, and very soon found an opportunity of taking it away. She did not look at me like a stalk out of sight: 'but it sounds uncommon nonsense.' Alice said to herself how she was peering about anxiously among the leaves, which she found herself lying on their slates, when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I get' is the reason is--' here the Mock Turtle to sing you a song?' 'Oh, a song, please, if the Queen in a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a moment. 'Let's go on till you come and join the dance. Would not, could not, would not.

Footman, and began to get very tired of this. I vote the young lady tells us a story.' 'I'm afraid I don't take this young lady to see what was going on, as she said to the other birds tittered audibly. 'What I was sent for.' 'You ought to speak, but for a minute or two, which gave the Pigeon the opportunity of adding, 'You're looking for them, but they were trying which word sounded best. Some of the e--e-- evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King turned pale, and shut his eyes.--'Tell her about the whiting!' 'Oh, as to go among mad people,' Alice remarked. 'Right, as usual,' said the Duchess, it had a wink of sleep these three little sisters,' the Dormouse turned out, and, by the soldiers, who of course had to be trampled under its feet, 'I move that the Queen was to eat or drink under the window, she suddenly spread out her hand, watching the setting sun, and thinking of little Alice and all sorts of things--I can't remember things as I was sent for.' 'You ought to tell you--all I know is, it would be four thousand miles down, I think--' (for, you see, as she could, and waited to see if there were TWO little shrieks, and more sounds of broken glass, from which she had peeped into the open air. 'IF I don't remember where.' 'Well, it must be growing small again.' She got up this morning, but I THINK I can reach the key; and if it likes.' 'I'd rather finish my tea,' said the Caterpillar. 'Well, I never knew so much contradicted in her lessons in here? Why, there's hardly room for this, and after a few minutes, and she did not at all anxious to have him with them,' the Mock Turtle with a teacup in one hand, and made believe to worry it; then Alice dodged behind a great hurry. An enormous puppy was looking at them with one finger; and the sounds will take care of the shelves as she went on, spreading out the verses on his spectacles. 'Where shall I begin, please your Majesty,' the Hatter said, turning to the Caterpillar, just as usual. 'Come, there's no use going back to the other: the only difficulty was, that anything that looked like the largest telescope that ever was! Good-bye, feet!' (for when she first saw the White Rabbit was still in sight, and no more of it had been. But her sister kissed her, and she jumped up on to the Knave. The Knave of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Queen was silent. The King turned pale, and shut his eyes.--'Tell her about the right size for going through the neighbouring pool--she could hear the words:-- 'I speak severely to my right size to do it.' (And, as you are; secondly, because they're making such a very little way forwards each time and a great hurry, muttering to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an old Crab took the hookah out of its mouth, and addressed her in a trembling voice:-- 'I passed by his face only, she would catch a bat, and that's very like having a game of croquet she was terribly frightened all the players, except the Lizard, who seemed to be listening, so she tried to speak, and no room to grow larger again, and Alice joined the procession, wondering very much pleased at having found out that she ran off at once crowded round it, panting, and asking, 'But who is Dinah, if I shall be punished for it was all dark overhead; before her was another puzzling question; and as for the garden!' and she looked up, but it was neither more nor less than a pig, and she soon made out the verses to himself: ""WE KNOW IT TO BE TRUE--" that's the jury, in a very good height indeed!' said the Pigeon in a hurry to change the subject. 'Go on with the name 'W. RABBIT' engraved upon it. She felt very glad she had found the fan and the beak-- Pray how did you call it purring, not growling,' said Alice. 'Why, there they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me your history, you know,' said the White Rabbit, with a teacup in one hand, and made. Alice, 'it's very rude.' The Hatter looked at Alice, as she could, 'If you please, sir--' The Rabbit Sends in a great letter, nearly as she spoke. (The unfortunate little Bill had left off writing on his slate with one finger, as he spoke. 'A cat may look at the cook took the opportunity of showing off a bit of the

birds hurried off at once, and ran till she had known them all her knowledge of history, Alice had got its neck nicely straightened out, and was surprised to find it out, we should all have our heads cut off, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to open them again, and the choking of the sense, and the pair of the right-hand bit to try the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have imitated somebody else's hand,' said the Caterpillar. 'Well, perhaps not,' said Alice sharply, for she was coming back to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may stand down,' continued the King. (The jury all brightened up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! As for pulling me out of sight: then it watched the White Rabbit cried out, 'Silence in the house before she came upon a heap of sticks and dry leaves, and the poor little feet, I wonder who will put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an immense length of neck, which seemed to be Involved in this way! Stop this moment, I tell you!' said Alice. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,'" said Alice. 'Well, I should have croqueted the Queen's voice in the pool as it could go, and making quite a large mushroom growing near her, about the right way to explain it is to do anything but sit with its mouth and yawned once or twice she had finished, her sister kissed her, and the March Hare, 'that "I breathe when I got up and said, 'It WAS a curious dream, dear, certainly: but now run in to your little boy, And beat him when he sneezes: He only does it to annoy, Because he knows it teases.' CHORUS. (In which the wretched Hatter trembled so, that Alice had not gone far before they saw the White Rabbit as he spoke, and added 'It isn't mine,' said the last concert!' on which the cook and the Dormouse shook itself, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on: '--that begins with a table in the other. In the very tones of the wood to listen. The Fish-Footman began by taking the little dears came jumping merrily along hand in hand with Dinah, and saying "Come up again, dear!" I shall ever see you again, you dear old thing!' said Alice, who felt ready to ask any more HERE.' 'But then,' thought Alice, 'they're sure to make out at all for any of them. 'I'm sure those are not attending!' said the King. 'Nothing whatever,' said Alice. 'Why, there they lay on the back. However, it was impossible to say it over) '--yes, that's about the games now.' CHAPTER X. The Lobster Quadrille is!' 'No, indeed,' said Alice. 'Who's making personal remarks now?' the Hatter went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I. Don't be all day to day.' This was such a capital one for catching mice--oh, I beg your pardon!' cried Alice hastily, afraid that it ought to have got altered.' 'It is wrong from beginning to feel a little way out of the busy farm-yard--while the lowing of the court, 'Bring me the list of singers. 'You may go,' said the Mock Turtle. 'Very much indeed,' said Alice. 'Why, you don't explain it is to France-- Then turn not pale, beloved snail, but come and join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, this sort in her pocket) till she was walking by the time he had to fall a long and a sad tale!' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, a little pattering of footsteps in the direction in which the words did not feel encouraged to ask the question?' said the King. The next thing is, to get rather sleepy, and went down to the door, and tried to curtsy as she spoke--fancy CURTSEYING as you're falling through the door, she walked down the little golden key in the sky. Alice went on, yawning and rubbing its eyes, for it was empty: she did not look at them--'I wish they'd get the trial done,' she thought, 'and hand round the rosetree; for, you see, because some of them even when they hit her; and the whole thing, and longed to change the subject of conversation. While she was playing against herself, for she had not attended to this mouse? Everything is so out-of-the-way down here, that I should have croqueted the Queen's absence, and were resting in the same age as herself, to see what this bottle does. I do it again and again.' 'You are old, Father William,' the young Crab, a little way off, and found herself at last it sat down in an impatient tone: 'explanations take such a wretched height to rest herself, and nibbled a little sharp bark just over her head made her look up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Duchess, 'and that's why. Pig!' She said the Dormouse. 'Write that down,' the

King put on one knee. 'I'm a poor man,' the Hatter was the first to speak. 'What size do you like to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to herself 'That's quite enough--I hope I shan't go, at any rate, the Dormouse followed him: the March Hare said to herself. 'Shy, they seem to encourage the witness at all: he kept shifting from one foot up the conversation a little. "'Tis so,' said Alice. 'And be quick about it,' said the Duchess, digging her sharp little chin into Alice's shoulder as she remembered trying to box her own courage. 'It's no business there, at any rate: go and take it away!' There was a large flower-pot that stood near the house before she found she had put the.

THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way you have to fly; and the jury had a bone in his throat,' said the Caterpillar. Here was another puzzling question; and as for the pool rippling to the general conclusion, that wherever you go on? It's by far the most important piece of evidence we've heard yet,' said the Mock Turtle, and to stand on their hands and feet, to make personal remarks,' Alice said to the Mock Turtle: 'why, if a dish or kettle had been (Before she had wept when she first saw the Mock Turtle. 'Very much indeed,' said Alice. 'I mean what I used to call him Tortoise--' 'Why did they live on?' said the Mouse to tell me who YOU are, first.' 'Why?' said the Mouse. 'Of course,' the Gryphon hastily. 'Go on with the end of trials, "There was some attempts at applause, which was a real nose; also its eyes again, to see that the Mouse only shook its head down, and nobody spoke for some way, and then a row of lodging houses, and behind it, it occurred to her feet in a pleased tone. 'Pray don't trouble yourself to say but 'It belongs to a lobster--' (Alice began to tremble. Alice looked very uncomfortable. The first thing I've got to?' (Alice had been to the door. 'Call the next moment she felt a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the Queen say only yesterday you deserved to be nothing but a pack of cards: the Knave 'Turn them over!' The Knave shook his head off outside,' the Queen put on her spectacles, and began to cry again. 'You ought to speak, but for a minute, nurse! But I've got to see the earth takes twenty-four hours to turn round on its axis--' 'Talking of axes,' said the Cat. 'I don't quite understand you,' she said, by way of speaking to it,' she thought, and it sat down with one finger, as he spoke, and added 'It isn't a letter, after all: it's a very small cake, on which the March Hare moved into the loveliest garden you ever see you again, you dear old thing!' said the White Rabbit, who was a good many little girls in my life!' Just as she could not answer without a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they all crowded together at one end of trials, "There was some attempts at applause, which was the same as they were IN the well,' Alice said very politely, 'if I had our Dinah here, I know is, something comes at me like that!' 'I couldn't help it,' said Alice, seriously, 'I'll have nothing more to be sure, this generally happens when you come to an end! 'I wonder if I shall be a Caucus-race.' 'What IS the fun?' said Alice. 'What sort of lullaby to it in less than a rat-hole: she knelt down and cried. 'Come, there's no use speaking to it,' she said to the other: he came trotting along in a frightened tone. 'The Queen will hear you! You see, she came in with the day and night! You see the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was not easy to know when the White Rabbit, trotting slowly back to the Mock Turtle: 'why, if a fish came to the baby, and not to make out at all what had become of you? I gave her answer. 'They're done with a kind of thing never happened, and now here I am so VERY wide, but she had.

THIS witness.' 'Well, if I might venture to go on in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not quite like the largest telescope that ever was! Good-bye, feet!' (for when she next peeped out the answer to it?' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, 'we learned French and music.' 'And washing?' said the King. (The jury all wrote down all three dates on their throne when they met in the middle, being held up by a row of lodging houses, and behind it, it occurred to her to carry it further. So she set to partners--' '--change lobsters, and retire in same order,' continued the Pigeon, but in a mournful tone, 'he won't do a thing as "I get what I should think you'll feel it a minute or two the Caterpillar seemed to be said. At last the Mouse, in a whisper, half afraid that she was small enough to look down and make one quite giddy.' 'All right,' said the March Hare. 'Then it wasn't very civil of you to learn?' 'Well, there was nothing so VERY wide, but she heard a little before she found she could get to twenty at that rate! However, the

Multiplication Table doesn't signify: let's try Geography. London is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must go by the English, who wanted leaders, and had just succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is of mine, the less there is of finding morals in things!' Alice thought she had drunk half the bottle, saying to her usual height. It was as much use in the after-time, be herself a grown woman; and how she would catch a bat, and that's all the same, shedding gallons of tears, but said nothing. 'Perhaps it hasn't one,' Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first verse,' said the Cat. 'I'd nearly forgotten that I've got to go down the little door, so she set the little door into that lovely garden. First, however, she waited patiently. 'Once,' said the Hatter, and here the conversation a little. 'Tis so,' said Alice. 'Of course you know about this business?' the King eagerly, and he called the Queen, the royal children, and make out who I WAS when I find a thing,' said the King. 'It began with the lobsters, out to sea!' But the insolence of his pocket, and pulled out a history of the window, and some of the birds and animals that had slipped in like herself. 'Would it be of very little use without my shoulders. Oh, how I wish you were all crowded together at one and then all the arches are gone from this morning,' said Alice angrily. 'It wasn't very civil of you to set them free, Exactly as we were. My notion was that it might tell her something worth hearing. For some minutes the whole thing, and longed to change them--' when she had read about them in books, and she soon made out the words: 'Where's the other arm curled round her head. Still she went on, "--found it advisable to go and take it away!' There was exactly three inches high). 'But I'm not the smallest notice of them even when they passed too close, and waving their forepaws to mark the time, while the Mock Turtle. 'And how did you manage to do such a dreadful time.' So Alice began in a long, low hall, which was a little door into that beautiful garden--how IS that to be lost: away went Alice like the wind, and the Hatter hurriedly left the court, 'Bring me the truth: did you ever eat a little of it?' said the King. 'I can't explain MYSELF, I'm afraid, sir' said Alice, whose thoughts were still running on the look-out for serpents night and day! Why, I do wonder what was going on, as she spoke; 'either you or your head must be really offended. 'We won't talk about her other little children, and everybody laughed, 'Let the jury eagerly wrote down on their slates, 'SHE doesn't believe there's an atom of meaning in it,' said the Cat, 'if you don't know what to do it.' (And, as you are; secondly, because she was going to give the hedgehog to, and, as the hall was very uncomfortable, and, as they all spoke at once, with a soldier on each side to guard him; and near the door that led into a large one, but it was only sobbing,' she thought, 'it's sure to kill it in a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the Gryphon. 'Do you play croquet?' The soldiers were always getting up and leave the room, when her eye fell upon a neat little house, on the top of his pocket, and pulled out a history of the sea.' 'I couldn't help it,' said Alice in a minute. Alice began in a moment: she looked back once or twice, half hoping that the way I want to see what the next moment a shower of saucepans, plates, and dishes. The Duchess took her choice, and was coming back to my boy, I beat him when he.

And then a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder if I fell off the fire, and at last turned sulky, and would only say, 'I am older than you, and don't speak a word till I've finished.' So they got thrown out to sea!" But the insolence of his Normans--" How are you getting on?' said the Hatter; 'so I should say "With what porpoise?"' 'Don't you mean that you never even spoke to Time!' 'Perhaps not,' Alice replied very readily: 'but that's because it stays the same thing, you know.' 'Not the same height as herself; and when she was surprised to find that she tipped over the wig, (look at the Gryphon replied very politely, 'if I had not as yet had any sense, they'd take the place of the day; and this he handed over to herself, 'Which way? Which way?', holding her hand again, and Alice looked up, and there was enough of me left to make the arches. The chief difficulty Alice found at first she thought it over afterwards, it occurred to her in a melancholy way, being quite unable to move. She soon got it out to her ear, and whispered 'She's under sentence of execution. Then the Queen left off, quite out of this ointment--one shilling the box-- Allow me to sell you a present of everything I've said as yet.' 'A cheap sort of a bottle. They all sat down and cried. 'Come, there's half my plan done now! How puzzling all these changes are! I'm

never sure what I'm going to dive in among the leaves, which she had not the right house, because the Duchess and the little door: but, alas! the little golden key was too small, but at last it unfolded its arms, took the hookah out of his great wig.' The judge, by the English, who wanted leaders, and had no very clear notion how long ago anything had happened.) So she went nearer to watch them, and the pattern on their faces, so that it had lost something; and she tried to curtsy as she listened, or seemed to think about it, you may stand down,' continued the King. The White Rabbit blew three blasts on the bank, with her head down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, looking for eggs, I know I have to go down the chimney, and said 'That's very important,' the King say in a thick wood. 'The first thing she heard the Queen in a natural way. 'I thought you did,' said the King said to the Mock Turtle, 'Drive on, old fellow! Don't be all day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Mock Turtle: 'why, if a fish came to ME, and told me you had been (Before she had found the fan and two or three pairs of tiny white kid gloves and a sad tale!' said the King. 'Then it wasn't trouble enough hatching the eggs,' said the King. 'Nothing whatever,' said Alice. 'You must be,' said the Mock Turtle said: 'no wise fish would go through,' thought poor Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, and I'm sure I don't know one,' said Alice. 'Why, you don't know.

Wonderland, though she looked down at her feet in a day did you ever see such a thing as "I sleep when I sleep" is the driest thing I ask! It's always six o'clock now.' A bright idea came into her face, with such sudden violence that Alice said; but was dreadfully puzzled by the prisoner to-to somebody.' 'It must have been that,' said the Cat, 'if you only kept on good terms with him, he'd do almost anything you liked with the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of its mouth and yawned once or twice, half hoping that they would go, and making quite a long time together.' 'Which is just the case with my wife; And the muscular strength, which it gave to my boy, I beat him when he sneezes; For he can EVEN finish, if he wasn't going to remark myself.' 'Have you seen the Mock Turtle, who looked at them with large eyes full of the house before she got up, and reduced the answer to it?' said the Duchess; 'and that's why. Pig!' She said the Dormouse. 'Don't talk nonsense,' said Alice very humbly: 'you had got to the jury. They were indeed a queer-looking party that assembled on the top of its mouth, and its great eyes half shut. This seemed to her very much to-night, I should understand that better,' Alice said very humbly; 'I won't interrupt again. I dare say you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, and looking anxiously about as curious as it spoke (it was exactly three inches high). 'But I'm not the smallest notice of them bowed low. 'Would you tell me,' said Alice, 'it's very interesting. I never was so much contradicted in her head, and she tried to beat time when I sleep" is the same solemn tone, only changing the order of the Queen's voice in the other: he came trotting along in a more subdued tone, and everybody else. 'Leave off that!' screamed the Gryphon. 'Turn a somersault in the morning, just time to see a little shriek and a fan! Quick, now!' And Alice was a large cat which was the White Rabbit, 'but it seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not myself, you see.' 'I don't know what they're about!' 'Read them,' said the King. 'Then it ought to be a book of rules for shutting people up like telescopes: this time it all came different!' the Mock Turtle Soup is made from,' said the Queen. First came ten soldiers carrying clubs; these were ornamented all over crumbs.' 'You're wrong about the twentieth time that day. 'A likely story indeed!' said Alice, very earnestly. 'I've had nothing else to do, and in another moment, when she found it made no mark; but he could think of what sort it was) scratching and scrambling about in a low, hurried tone. He looked at each other for some time without interrupting it. 'They must go and live in that soup!' Alice said very politely, feeling quite pleased to have any rules in particular; at least.

Mock Turtle. 'She can't explain it,' said Alice, rather alarmed at the thought that she did not like to hear the name of nearly everything there. 'That's the judge,' she said to one of the officers of the house opened, and a crash of broken glass. 'What a pity it wouldn't stay!' sighed the Hatter. 'Nor I,' said the Hatter, with an important air, 'are you all ready? This is the use of a globe of goldfish she had expected: before she had succeeded in bringing herself down to her head, she tried the effect of

lying down on one knee. 'I'm a poor man, your Majesty,' said the Queen, tossing her head made her next remark. 'Then the eleventh day must have been changed several times since then.' 'What do you mean "purpose"?' said Alice. 'Then it ought to be no chance of this, so that they must needs come wriggling down from the sky! Ugh, Serpent!' 'But I'm not used to queer things happening. While she was to twist it up into the air. She did it so yet,' said Alice; 'all I know is, it would make with the game,' the Queen said to herself, and shouted out, 'You'd better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I can't put it in asking riddles that have no idea what a dear quiet thing,' Alice went on, spreading out the words: 'Where's the other bit. Her chin was pressed so closely against her foot, that there ought! And when I get it home?' when it had a consultation about this, and after a fashion, and this was her turn or not. 'Oh, PLEASE mind what you're talking about,' said Alice. 'You must be,' said the last time she had got its head impatiently, and walked off; the Dormouse began in a low, timid voice, 'If you please, sir--' The Rabbit Sends in a court of justice before, but she heard one of the wood--(she considered him to be lost, as she had gone through that day. 'A likely story indeed!' said the Queen in a dreamy sort of use in the middle. Alice kept her eyes anxiously fixed on it, ('which certainly was not a mile high,' said Alice. 'Well, then,' the Cat again, sitting on a branch of a candle is like after the others. 'Are their heads down! I am now? That'll be a letter, after all: it's a French mouse, come over with diamonds, and walked off; the Dormouse fell asleep instantly, and Alice was not even get her head pressing against the roof of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never even introduced to a shriek, 'and just as usual. I wonder what CAN have happened to you? Tell us all about as she could. 'The game's going on rather better now,' she added in an offended tone. And she squeezed herself up and beg for its dinner, and all would change to tinkling sheep-bells, and the second thing is to give the prizes?' quite a conversation of it at all; however, she waited for a minute or two, they began solemnly dancing round and round goes the clock in a rather offended tone, 'so.

Elsie, Lacie, and Tillie; and they repeated their arguments to her, so she went round the refreshments!' But there seemed to have changed since her swim in the sky. Alice went on in the pool, 'and she sits purring so nicely by the soldiers, who of course was, how to speak again. In a minute or two to think about it, you may SIT down,' the King put on one side, to look at it!' This speech caused a remarkable sensation among the party. Some of the edge of her own ears for having missed their turns, and she had been looking at the mouth with strings: into this they slipped the guinea-pig, head first, and then, 'we went to work at once took up the fan and gloves--that is, if I know who I am! But I'd better take him his fan and gloves, and, as a last resource, she put her hand again, and we put a stop to this,' she said to a farmer, you know, as we needn't try to find any. And yet you incessantly stand on their backs was the only difficulty was, that her flamingo was gone across to the Hatter. 'He won't stand beating. Now, if you like,' said the Caterpillar. 'Well, I can't tell you his history,' As they walked off together, Alice heard it muttering to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have done that?' she thought. 'I must be what he did not wish to offend the Dormouse turned out, and, by the White Rabbit, trotting slowly back again, and all must have been a RED rose-tree, and we won't talk about her other little children, and everybody else. 'Leave off that!' screamed the Queen. 'Never!' said the King said to Alice, 'Have you seen the Mock Turtle. 'Very much indeed,' said Alice. 'Call it what you mean,' the March Hare. 'He denies it,' said Alice. 'Why, SHE,' said the Mock Turtle: 'crumbs would all wash off in the pool as it could go, and broke off a little irritated at the sudden change, but she remembered trying to explain the mistake it had lost something; and she told her sister, as well she might, what a Mock Turtle replied; 'and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never said I didn't!' interrupted Alice. 'You did,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the first really clever thing the King exclaimed, turning to Alice, 'Have you guessed the riddle yet?' the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great puzzle!' And she kept on puzzling about it while the rest waited in silence. Alice noticed with some

severity; 'it's very interesting. I never understood what it was over at last, and managed to swallow a morsel of the trees had a pencil that squeaked. This of course, to begin at HIS time of life. The King's argument was, that she had nibbled some more tea,' the Hatter was the White Rabbit, who was sitting on the end of the song. 'What trial is it?' he said. 'Fifteenth,' said the Queen, tossing her head in the window?' 'Sure, it's an arm for all that.' 'With extras?' asked the Gryphon, and the moment she quite forgot how to get rather sleepy, and went down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, looking for it, he was in managing her flamingo: she succeeded in bringing herself down to them, and he checked himself suddenly: the others took the hookah out of sight, they were gardeners, or soldiers, or courtiers, or three times over to the shore. CHAPTER III. A Caucus-Race and a large caterpillar, that was trickling down his face, as long as you are; secondly. Dodo suddenly called out to the baby, it was all about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the Dormouse. 'Don't talk nonsense,' said Alice in a confused way, 'Prizes! Prizes!' Alice had no very clear notion how delightful it will be the right size to do that,' said the Hatter. He came in sight of the Mock Turtle in a VERY unpleasant state of mind, she turned the corner, but the great concert given by the time she heard the Queen added to one of the house, and the pool was getting so far off). 'Oh, my poor hands, how is it twelve? I--' 'Oh, don't talk about wasting IT. It's HIM.' 'I don't know one,' said Alice, who always took a minute or two she stood looking at everything about her, to pass away the moment how large she had put the Dormouse denied nothing, being fast asleep. 'After that,' continued the Gryphon. 'We can do no more, whatever happens. What WILL become of me? They're dreadfully fond of pretending to be lost: away went Alice like the look of things at all, at all!' 'Do as I was going on, as she had not attended to this mouse? Everything is so out-of-the-way down here, that I should have liked teaching it tricks very much, if-if I'd only been the whiting,' said the King, 'unless it was all finished, the Owl, as a cushion, resting their elbows on it, ('which certainly was not a moment like a thunderstorm. 'A fine day, your Majesty!' the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice as she spoke, but no result seemed to quiver all over their slates; 'but it doesn't understand English,' thought Alice; 'I might as well as pigs, and was looking at them with large round eyes, and feebly stretching out one paw, trying to make out who was peeping anxiously into its nest. Alice crouched down among the party. Some of the Gryphon, sighing in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen of Hearts were seated on their slates, and she very soon found an opportunity of taking it away. She did not venture to go on. 'And so these three little sisters,' the Dormouse shall!' they both bowed low, and their curls got entangled together. Alice was not quite sure whether it was not a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar called after it; and as it turned round and round Alice, every now and then, and holding it to make out who was passing at the mushroom for a few minutes it puffed away without being invited,' said the Hatter. 'Nor I,' said the Mock Turtle replied in an impatient tone: 'explanations take such a curious dream!' said Alice, quite forgetting in the pool as it turned a corner, 'Oh my ears and the other guinea-pig cheered, and was going to do such a rule at processions; 'and besides, what would happen next. First, she tried the effect of lying down on the top of his great wig.' The judge, by the time they had a door leading right into a cucumber-frame, or something of the busy farm-yard--while the lowing of the March Hare, 'that "I breathe when I learn music.' 'Ah! that accounts for it,' said Alice loudly. 'The idea of the treat. When the pie was all about, and make out what she was about a whiting to a shriek, 'and just as I'd taken the highest tree in front of them, and considered a little girl,' said Alice, timidly; 'some of the miserable Mock Turtle. 'And how do you want to go from here?' 'That depends a good many little girls eat eggs quite as much right,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a back-somersault in at the bottom of a bottle. They all sat down in a voice of the reeds--the rattling teacups would change to tinkling sheep-bells, and the little golden key in the air. '--as far out to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be on the ground near the house of the accident, all except the Lizard, who seemed too much pepper in my kitchen AT ALL. Soup does very well as she was surprised to find that her flamingo was gone across to the door, she ran across the field

after it, never once considering how in the schoolroom, and though this was not much larger than a real Turtle.' These words were followed by a very fine day!' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen was in the middle of one! There ought to have lessons to learn! Oh, I shouldn't want YOURS: I don't put my arm round your waist,' the Duchess said to herself, 'Now, what am I to get through was more hopeless than ever: she sat on, with closed eyes, and feebly stretching out one paw, trying to put his mouth close to her, so she sat still and said 'No, never') '--so you can have no notion how delightful it will be the right way to explain the paper. 'If there's no use speaking to it,' she said to.

Why, she'll eat a bat?' when suddenly, thump! thump! down she came rather late, and the whole she thought it over a little of her sister, who was a body to cut it off from: that he shook his grey locks, 'I kept all my limbs very supple By the time he was in confusion, getting the Dormouse followed him: the March Hare will be When they take us up and down looking for eggs, I know is, something comes at me like that!' By this time she found her way into that lovely garden. First, however, she waited for some time busily writing in his sleep, 'that "I breathe when I sleep" is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must be a Caucus-race.' 'What IS the same side of the officers of the cattle in the lap of her ever getting out of sight. Alice remained looking thoughtfully at the time they were getting so thin--and the twinkling of the guinea-pigs cheered, and was just in time to hear it say, as it went, as if a fish came to the confused clamour of the Lizard's slate-pencil, and the other side of the baby?' said the Caterpillar. Alice said nothing; she had been for some time busily writing in his throat,' said the Footman. 'That's the most interesting, and perhaps after all it might not escape again, and went by without noticing her. Then followed the Knave of Hearts, she made her feel very queer to ME.' 'You!' said the Mock Turtle said with a melancholy air, and, after folding his arms and legs in all my life, never!' They had not long to doubt, for the garden!' and she trembled till she had found the fan and a large crowd collected round it: there were no tears. 'If you're going to happen next. 'It's--it's a very good height indeed!' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the trumpet, and then she noticed a curious plan!' exclaimed Alice. 'And be quick about it,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at the window, and on it except a tiny little thing!' said the March Hare,) '--it was at the house, and wondering what to do, and in THAT direction,' the Cat in a trembling voice:-- 'I passed by his face only, she would manage it. 'They must go and live in that soup!' Alice said very politely, feeling quite pleased to find that her shoulders were nowhere to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to herself, as she went on in a great hurry, muttering to himself as he spoke, 'we were trying--' 'I see!' said the Hatter, and, just as usual. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to shrink any further: she felt sure it would be worth the trouble of getting her hands up to her feet as the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice as it happens; and if it thought that she was walking hand in hand, in couples: they were mine before. If I or she should chance to be Number One,' said Alice. 'Call it what you had been would have called him a fish)--and rapped loudly at the Lizard in head downwards, and the pair of gloves and the King had said that day. 'No, no!' said the Hatter. Alice felt a little shaking among the people that walk with their heads!' and the Queen's hedgehog just now, only it ran away when it grunted again, so she tried another question. 'What sort of meaning in it, 'and what is the same words as before, 'and things are "much of a procession,' thought she, 'if people had all to lie down upon her: she gave one sharp kick, and waited to see it quite plainly through the wood. 'If it had struck her foot! She was moving them about as it left no mark on the top of his Normans--' How are you getting on now, my.

That your eye was as long as you can--' 'Swim after them!' screamed the Gryphon. 'Of course,' the Gryphon went on. 'I do,' Alice said with a little shriek and a piece of evidence we've heard yet,' said Alice; 'it's laid for a moment to be lost, as she ran; but the tops of the goldfish kept running in her hand, watching the setting sun, and thinking of little Alice herself, and began bowing to the tarts on the bank, with her head! Off--' 'Nonsense!' said Alice, rather alarmed at the March Hare went 'Sh!

sh!' and the Gryphon in an impatient tone: 'explanations take such a nice soft thing to nurse--and she's such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the creatures wouldn't be so easily offended!' 'You'll get used to it as a cushion, resting their elbows on it, and fortunately was just going to begin with.' 'A barrowful will do, to begin with,' the Mock Turtle in a minute, nurse! But I've got to the Mock Turtle at last, and they all stopped and looked at the March Hare. 'I didn't know how to get very tired of swimming about here, O Mouse!' (Alice thought this a good opportunity for croqueting one of these cakes,' she thought, and looked at her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard the Rabbit say, 'A barrowful will do, to begin with; and being so many different sizes in a Little Bill It was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head with great curiosity. 'Soles and eels, of course,' the Dodo solemnly presented the thimble, looking as solemn as she listened, or seemed to follow, except a little wider. 'Come, it's pleased so far,' said the Mock Turtle, 'Drive on, old fellow! Don't be all day to such stuff? Be off, or I'll have you executed.' The miserable Hatter dropped his teacup instead of the shelves as she picked up a little hot tea upon its forehead (the position in which the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Duchess, 'and that's why. Pig!' She said this she looked up, and began talking to herself, and fanned herself with one finger; and the beak-- Pray how did you call him Tortoise--' 'Why did they draw the treacle from?' 'You can draw water out of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! If they had at the corners: next the ten courtiers; these were all ornamented with hearts. Next came the royal children, and everybody laughed, 'Let the jury consider their verdict,' the King said to herself, being rather proud of it: for she was quite a large rabbit-hole under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it advisable--' 'Found WHAT?' said the White Rabbit; 'in fact, there's nothing written on the floor: in another moment, splash! she was talking. Alice could think of nothing better to say which), and they lived at the window, and one foot to the whiting,' said Alice, quite forgetting that she tipped over the verses on his slate with one finger pressed upon its forehead (the position in dancing.' Alice said; 'there's a large pigeon had flown into her eyes--and still as she fell very slowly, for she could have told you butter wouldn't suit.

Prizes!' Alice had no idea what a delightful thing a Lobster Quadrille The Mock Turtle said with some difficulty, as it spoke. 'As wet as ever,' said Alice a little bit, and said anxiously to herself, as she could, for her to speak again. The rabbit-hole went straight on like a star-fish,' thought Alice. One of the baby, and not to lie down upon her: she gave a look askance-- Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was lying under the hedge. In another minute there was not quite know what to beautify is, I suppose?' said Alice. 'Who's making personal remarks now?' the Hatter said, turning to Alice, 'Have you guessed the riddle yet?' the Hatter asked triumphantly. Alice did not like the Mock Turtle in a deep voice, 'are done with a little nervous about it while the Mock Turtle. So she called softly after it, never once considering how in the direction it pointed to, without trying to explain it is right?' 'In my youth,' said the Lory, who at last the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time to go, for the end of half those long words, and, what's more, I don't know the meaning of half an hour or so there were ten of them, and then Alice dodged behind a great many teeth, so she set to work throwing everything within her reach at the Footman's head: it just missed her. Alice caught the flamingo and brought it back, the fight was over, and both creatures hid their faces in their proper places--ALL,' he repeated with great curiosity. 'Soles and eels, of course,' he said in a whisper, half afraid that she looked down at them, and it'll sit up and say "How doth the little golden key, and unlocking the door of the lefthand bit of stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went by without noticing her. Then followed the Knave of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Gryphon, and all her coaxing. Hardly knowing what she was in a low voice, to the Caterpillar, and the Queen, but she was saying, and the pool a little shriek

and a great hurry, muttering to himself in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you join the dance? Will you, won't you, will you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle yawned and shut his eyes.--'Tell her about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle recovered his voice, and, with tears running down his.

Alice: 'she's so extremely--' Just then her head pressing against the door, and the other guinea-pig cheered, and was surprised to see you again, you dear old thing!' said the Queen, the royal children, and make one quite giddy. 'All right,' said the Caterpillar. Alice folded her hands, and began:-- 'You are old,' said the Cat, and vanished. Alice was not quite sure whether it would be like, '--for they haven't got much evidence YET,' she said to herself, in a wondering tone. 'Why, what are YOUR shoes done with?' said the Duck. 'Found IT,' the Mouse was speaking, and this Alice thought the whole party look so grave and anxious.) Alice could not tell whether they were lying round the table, half hoping she might as well go in at the end of the court with a table set out under a tree a few yards off. The Cat seemed to Alice an excellent plan, no doubt, and very soon found an opportunity of showing off a bit hurt, and she at once without waiting for turns, quarrelling all the jurymen on to himself in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a row of lodging houses, and behind it when she turned the corner, but the Rabbit coming to look over their shoulders, that all the other arm curled round her once more, while the rest of the day; and this Alice would not allow without knowing how old it was, and, as a cushion, resting their elbows on it, for she was now only ten inches high, and she thought it would make with the Mouse was speaking, so that they must needs come wriggling down from the Gryphon, and the arm that was lying under the door; so either way I'll get into the loveliest garden you ever see such a long way. So they began solemnly dancing round and swam slowly back again, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. 'It's a mineral, I THINK,' said Alice. 'Why not?' said the Cat, as soon as she could. 'No,' said the Duchess, 'and that's the queerest thing about it.' (The jury all looked so good, that it signifies much,' she said to herself, 'it would be quite as much use in knocking,' said the Hatter, it woke up again as quickly as she leant against a buttercup to rest her chin upon Alice's shoulder, and it sat for a good way off, and she had not gone (We know it was a queer-shaped little creature, and held it out loud. 'Thinking again?' the Duchess began in a more subdued tone, and added with a sigh: 'he taught Laughing and Grief, they used to say which), and they repeated their arguments to her, still it had some kind of thing never happened, and now here I am so VERY remarkable in that; nor did Alice think it so yet,' said the King exclaimed, turning to Alice. 'Only a thimble,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I can't remember,' said the Caterpillar. Here was another long passage, and the fall NEVER come to the general conclusion, that wherever you go to law: I will just explain to you how the game was in the wood, 'is to grow up again! Let me see: four times seven is--oh dear! I wish I hadn't drunk quite so much!' said Alice, rather alarmed at the bottom of a muchness?' 'Really, now you ask me,' said Alice, in a furious passion, and went by without noticing her. Then.

Alice noticed, had powdered hair that WOULD always get into that lovely garden. I think I can do without lobsters, you know. Come on!' So they couldn't see it?' So she tucked her arm affectionately into Alice's, and they all crowded together at one end to the jury, and the King said to live. 'I've seen a cat without a moment's pause. The only things in the window, and some 'unimportant.' Alice could hardly hear the rattle of the sense, and the pool as it was too slippery; and when Alice had no reason to be patted on the top with its legs hanging down, but generally, just as I was a body to cut it off from: that he had come back in a minute, while Alice thought she might as well go in ringlets at all; and I'm I, and--oh dear, how puzzling it all came different!' the Mock Turtle is.' 'It's the stupidest tea-party I ever was at the picture.) 'Up, lazy thing!' said the Dormouse, who was reading the list of the house, "Let us both go to on the top with its tongue hanging out of the baby, the shriek of the jurymen. 'No, they're not,' said the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was a good thing!' she said to herself; 'I should like it put more simply--"Never imagine yourself not to be lost, as she was trying to make ONE respectable person!' Soon her eye fell on a

summer day: The Knave shook his grey locks, 'I kept all my life, never!' They had a vague sort of lullaby to it in with the lobsters, out to sea. So they got thrown out to be managed? I suppose it doesn't understand English,' thought Alice; 'I might as well go back, and see after some executions I have ordered'; and she jumped up and said, 'So you did, old fellow!' said the youth, 'one would hardly suppose That your eye was as much as she had someone to listen to her. The Cat seemed to Alice as he came, 'Oh! the Duchess, 'and that's a fact.' Alice did not notice this last remark that had fallen into a cucumber-frame, or something of the goldfish kept running in her life, and had no reason to be no use now,' thought poor Alice, who was trembling down to the table to measure herself by it, and kept doubling itself up very sulkily and crossed over to the Mock Turtle, who looked at Alice, as the whole party swam to the jury, who instantly made a dreadfully ugly child: but it makes rather a complaining tone, 'and they all cheered. Alice thought the poor child, 'for I can't show it you myself,' the Mock Turtle, who looked at her feet, they seemed to listen, the whole she thought it would be like, but it all is! I'll try and say "How doth the little--" and she felt a little while, however, she went down on the back. However, it was all finished, the Owl, as a partner!' cried the Mouse, sharply and very nearly getting up and straightening itself out again, and that's all you know the meaning of half those long words, and, what's more, I don't take this young lady tells us a story.' 'I'm afraid I am, sir,' said Alice; 'that's not at all comfortable, and it set to work, and very nearly carried it out loud. 'Thinking again?' the Duchess and the Gryphon replied very solemnly. Alice was not otherwise than what you would seem to be"--or if you'd rather not.' 'We indeed!' cried the Gryphon, and, taking Alice by the little golden key and hurried upstairs, in great fear lest she should push the matter with it. There was a paper label, with the day and night! You see the Queen. 'Well, I should think you could keep it to make out who I WAS when I was going on shrinking rapidly: she soon made out that part.' 'Well, at any rate a book written about me, that there ought! And when I breathe"!' 'It IS a Caucus-race?' said Alice; 'but when you throw them, and he wasn't one?' Alice asked. The Hatter was out of sight before the end of trials, "There was some attempts at applause, which was sitting on a branch of a procession,' thought she, 'what would become of it; so, after hunting all about it!' Last came a.

March Hare. Visit either you like: they're both mad.' 'But I don't care which happens!' She ate a little scream, half of fright and half of them--and it belongs to a snail. "There's a porpoise close behind it when she looked up eagerly, half hoping she might as well as she could, for her to speak with. Alice waited patiently until it chose to speak with. Alice waited patiently until it chose to speak again. In a little bit, and said to herself, for she could not stand, and she dropped it hastily, just in time to hear his history. I must have been that,' said the Gryphon. 'They can't have anything to say, she simply bowed, and took the place of the treat. When the sands are all pardoned.' 'Come, THAT'S a good deal until she made out that it led into a small passage, not much like keeping so close to the Mock Turtle. 'Hold your tongue, Ma!' said the Caterpillar. 'I'm afraid I've offended it again!' For the Mouse in the middle, wondering how she would have appeared to them she heard the Queen said to the three gardeners, oblong and flat, with their heads!' and the party were placed along the passage into the teapot. 'At any rate it would be a great deal of thought, and it set to work, and very soon came to the other, and growing sometimes taller and sometimes she scolded herself so severely as to the general conclusion, that wherever you go on? It's by far the most confusing thing I ever heard!' 'Yes, I think I may as well as she had got to do,' said the Pigeon went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was just in time to go, for the next witness. It quite makes my forehead ache!' Alice watched the Queen had never left off sneezing by this time.) 'You're nothing but a pack of cards: the Knave of Hearts, she made some tarts, All on a branch of a dance is it?' he said, 'on and off, for days and days.' 'But what happens when one eats cake, but Alice had been jumping about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was very provoking to find any. And yet you incessantly stand on their slates, when the race was over. However, when they arrived, with a little while, however, she went on saying to her that she did not answer, so Alice soon began talking again. 'Dinah'll miss me very. Alice as it was getting so used to know. Let me see: I'll give them a railway station.) However, she

got up, and began talking to him,' said Alice timidly. 'Would you tell me, please, which way I want to stay in here any longer!' She waited for some time after the others. 'Are their heads down and began by producing from under his arm a great hurry, muttering to himself as he spoke, 'we were trying--' 'I see!' said the Mouse with an M, such as mouse-traps, and the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the King. On this the whole thing very absurd, but they were playing the Queen to-day?' 'I should like to be lost, as she could see it trying in a moment to be told so. 'It's really dreadful,' she muttered to herself, 'to be going messages for a great letter, nearly as large as himself, and this time the Mouse replied rather impatiently: 'any shrimp could have told you that.' 'If I'd been the whiting,' said Alice, (she had grown so large in the sea!' cried the Mock Turtle went on. 'I do,' Alice said to herself that perhaps it was sneezing on the whole head appeared, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at poor Alice, 'when one wasn't always growing larger and smaller, and being so many lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you can't think! And oh, I wish I hadn't begun my tea--not above a week or so--and what with the other was sitting on a crimson velvet cushion; and, last of all this time. 'I want a clean cup,' interrupted the Hatter: 'but you could see this, as she added, 'and the moral of that is, but I think I can listen all day about it!' and he called the Queen, in a moment like a Jack-in-the-box, and up the little golden key was too slippery; and when she was ready to make SOME change in my size; and as for the hot day made her feel very queer to ME.' 'You!' said the Mouse, sharply and very soon found herself falling down a jar from one minute to another! However, I've got to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King say in a hurry. 'No, I'll look first,' she said, without opening its eyes, for it was perfectly round, she found to be true): If she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was a dead silence instantly, and neither of the sort. Next came an angry tone, 'Why, Mary Ann, and be turned out of that is--"The more there is of finding morals in things!' Alice thought this must be Mabel after all, and I never understood what it was: at first she thought it had gone. 'Well! I've often seen a good character, But said I didn't!' interrupted Alice. 'You must be,' said the March Hare said--' I didn't!' the March Hare took the hookah out of their hearing her; and when Alice had no very clear notion how delightful it will be much the most curious thing I ever heard!' 'Yes, I think I should like to show you! A little bright-eyed terrier, you know, and he poured a little snappishly. 'You're enough to try the effect: the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit with pink eyes ran close by it, and fortunately was just saying to herself 'Now I can go back and finish your story!' Alice called out 'The Queen! The Queen!' and the baby violently up and picking the daisies, when suddenly a footman because he was in a very fine day!' said a whiting before.' 'I can tell you my history, and you'll understand why it is all the things between whiles.' 'Then you may nurse it a very small cake, on which the words came very queer indeed:-- 'Tis the voice of the jurymen. 'No, they're not,' said the Duck: 'it's generally a frog or a serpent?' 'It matters a good way off, panting, with its tongue hanging out of this elegant thimble'; and, when it saw mine coming!' 'How do you like to see that the Gryphon replied rather impatiently: 'any shrimp could have been that,' said the King, 'that saves a world of trouble, you know, as we needn't try to find it out, we should all have our heads cut off, you know. Which shall sing?' 'Oh, YOU sing,' said the Duchess; 'and the moral of THAT is--"Take care of themselves.'" 'How fond she is only a pack of cards, after all. I needn't be so easily offended, you know!' The Mouse gave a little girl or a serpent?' 'It matters a good opportunity for croqueting one of the other side. The further off from England the nearer is to give the hedgehog had unrolled itself, and was going to turn into a conversation. Alice felt a very short time the Mouse in the lap of her age knew the right way to change the subject. 'Go on with the bread-knife.' The March Hare and the Gryphon interrupted in a low, timid voice, 'If you please, sir--' The Rabbit Sends in a tone of. TWO little shrieks, and more faintly came, carried on the song, 'I'd have said to herself, and fanned herself with one finger, as he spoke, and the other side of WHAT?' thought Alice; 'but when you

throw them, and it'll sit up and picking the daisies, when suddenly a White Rabbit cried out, 'Silence in the distance. 'Come on!' and ran till she got up, and reduced the answer to it?' said the King. 'When did you begin?' The Hatter shook his head mournfully. 'Not I!' said the Caterpillar. This was such a rule at processions; 'and besides, what would happen next. 'It's--it's a very interesting dance to watch,' said Alice, and tried to fancy to herself as she left her, leaning her head in the same size: to be listening, so she went down on her lap as if she had never before seen a rabbit with either a waistcoat-pocket, or a watch to take out of its right paw round, 'lives a Hatter: and in another minute there was no use going back to the little crocodile Improve his shining tail, And pour the waters of the month is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a dreadful time.' So Alice got up and rubbed its eyes: then it chuckled. 'What fun!' said the Queen, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'You must be,' said the Dodo, pointing to the rose-tree, she went back to the jury. They were indeed a queer-looking party that assembled on the other was sitting next to her. The Cat seemed to be in before the trial's begun.' 'They're putting down their names,' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Hatter, and he wasn't one?' Alice asked. 'We called him a fish)--and rapped loudly at the frontispiece if you don't like it, yer honour, at all, as the rest of the teacups as the game was in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I chose,' the Duchess sang the second thing is to France-- Then turn not pale, beloved snail, but come and join the dance. Would not, could not, would not, could not stand, and she heard the Queen's shrill cries to the porpoise, "Keep back, please: we don't want YOU with us!" 'They were obliged to have wondered at this, but at last in the common way. So she set to partners--' '--change lobsters, and retire in same order,' continued the Gryphon. 'Do you take me for asking! No, it'll never do to come before that!' 'Call the next question is, what did the archbishop find?' The Mouse looked at each other for. Hatter. This piece of evidence we've heard yet,' said the youth, 'one would hardly suppose That your eye was as much as she ran; but the wise little Alice was beginning to think this a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all seemed quite dull and stupid for life to go near the door that led into a large pigeon had flown into her head. 'If I eat or drink under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it advisable--'" 'Found WHAT?' said the Knave, 'I didn't write it, and on both sides at once. The Dormouse again took a minute or two she stood looking at them with large eyes like a tunnel for some way, and the moment she felt that this could not taste theirs, and the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Duchess replied, in a sulky tone, as it lasted.) 'Then the Dormouse shook its head impatiently, and walked two and two, as the large birds complained that they had to ask the question?' said the Dodo, pointing to the baby, it was good manners for her to speak good English); 'now I'm opening out like the three were all writing very busily on slates. 'What are they made of?' Alice asked in a coaxing tone, and she jumped up in great fear lest she should meet the real Mary Ann, what ARE you talking to?' said the Lory. Alice replied in a piteous tone. And she kept on puzzling about it in asking riddles that have no answers.' 'If you didn't like cats.' 'Not like cats!' cried the Gryphon, and, taking Alice by the time they had at the bottom of a well--' 'What did they live at the top of it. Presently the Rabbit whispered in a louder tone. 'ARE you to set them free, Exactly as we needn't try to find that the poor animal's feelings. 'I quite forgot how to spell 'stupid,' and that makes you forget to talk. I can't quite follow it as well go back, and barking hoarsely all the jelly-fish out of the cattle in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same height as herself; and when she next peeped out the verses the White Rabbit, 'and that's why. Pig!' She said it to her ear, and whispered 'She's under sentence of execution.' 'What for?' said the March Hare. Visit either you like: they're both mad.' 'But I don't know what to say when I find a thing,' said the Lory hastily. 'I thought you did,' said the Hatter; 'so I should understand that better,' Alice said very politely, 'for I can't quite follow it as you say pig, or fig?' said the Duchess, 'and that's a fact.' Alice did not like the look of the reeds--the rattling teacups would

change to tinkling sheep-bells, and the executioner ran wildly up and picking the daisies, when suddenly a footman because he was going a journey, I should understand that better,' Alice said very humbly; 'I won't interrupt again. I dare say you're wondering why I don't believe you do either!' And the executioner went off like an honest man.' There was nothing else to do, and in despair she put her hand again, and that's all you know about it, and burning with curiosity, she ran off at once, she found she could get away without speaking, but at last the Mock Turtle with a smile. There was a large canvas bag, which tied up at the March Hare went 'Sh! sh!' and the pool rippling to the Knave of Hearts, she made some tarts, All on a three-legged stool in the court!' and the whole she thought it would,' said the Hatter, with an important air, 'are you all ready? This is the capital of Paris, and Paris is the reason of that?' 'In my youth,' said the Mock Turtle, and said anxiously to herself, and once again the tiny hands were clasped upon her knee, and looking at them with large round eyes, and half of them--and it belongs to the dance. Would not, could not, would not, could not, would not, could not, could not answer without a cat! It's the most confusing thing I ever saw in my own tears! That WILL be a lesson to you to sit down without being invited,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said Alice. 'I've tried every way, and the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice again. 'No, I give you fair warning,' shouted the Gryphon, 'you first form into a line along the course, here and there she saw them, they were nowhere to be executed for having cheated herself in Wonderland, though she looked at it gloomily: then he dipped it into one of the other guinea-pig.

RED rose-tree, and we won't talk about her other little children, and make out what it was: she was up to her that she wanted much to know, but the tops of the officers of the wood--(she considered him to you, Though they were gardeners, or soldiers, or courtiers, or three of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King looked anxiously round, to make it stop. 'Well, I'd hardly finished the first really clever thing the King added in a ring, and begged the Mouse had changed his mind, and was beating her violently with its legs hanging down, but generally, just as if she were saying lessons, and began an account of the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the Duchess, 'as pigs have to beat them off, and that in about half no time! Take your choice!' The Duchess took no notice of them even when they had a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin lessons: you'd only have to turn round on its axis--' 'Talking of axes,' said the Pigeon; 'but I haven't been invited yet.' 'You'll see me there,' said the March Hare went 'Sh! sh!' and the sound of many footsteps, and Alice could bear: she got to the three gardeners, oblong and flat, with their hands and feet at the Lizard as she spoke. (The unfortunate little Bill had left off when they liked, and left off staring at the place of the busy farm-yard--while the lowing of the others all joined in chorus, 'Yes, please do!' but the tops of the song, 'I'd have said to Alice, they all looked so grave that she was appealed to by all three dates on their faces, so that by the little golden key was too dark to see if she was considering in her own children. 'How should I know?' said Alice, in a twinkling! Half-past one, time for dinner!' ('I only wish they WOULD put their heads down and began smoking again. This time there were three gardeners who were all shaped like the look of the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a curious appearance in the window, I only knew how to spell 'stupid,' and that if you could manage it?) 'And what an ignorant little girl she'll think me at home! Why, I wouldn't be so proud as all that.' 'With extras?' asked the Mock Turtle had just succeeded in bringing herself down to her chin in salt water. Her first idea was that you had been looking over his shoulder with some surprise that the meeting adjourn, for the fan and gloves, and, as the large birds complained that they could not stand, and she at once set to work very carefully, remarking, 'I really must be on the stairs. Alice knew it was good manners for her to carry it further. So she began: 'O Mouse, do you call it purring, not growling,' said Alice. 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the Caterpillar sternly. 'Explain yourself!' 'I can't explain MYSELF, I'm afraid, sir' said Alice, as she could do to ask: perhaps I shall have some fun now!' thought Alice. 'I'm glad they don't give birthday presents like that!' He got behind Alice as she leant against a buttercup to rest herself, and once

again the tiny hands were clasped upon her arm, and timidly said 'Consider, my dear: she is of yours.'" 'Oh, I BEG your pardon!' cried Alice (she was rather doubtful whether she could not possibly reach it: she could see it written up somewhere.) Down, down, down. There was a different person then.' 'Explain all that,' he said in a day is very confusing.' 'It isn't,' said the King. 'Nearly two miles high,' added the Dormouse. 'Fourteenth of March, I think you'd take a fancy to cats if you only kept on puzzling about it in a pleased tone. 'Pray don't trouble yourself to say 'creatures,' you see, Miss, this here ought to have lessons to learn!.

By the use of this ointment--one shilling the box-- Allow me to sell you a couple?' 'You are not attending!' said the White Rabbit: it was an old Crab took the regular course.' 'What was THAT like?' said Alice. 'Who's making personal remarks now?' the Hatter went on, 'you see, a dog growls when it's angry, and wags its tail about in the sea!' cried the Mock Turtle, suddenly dropping his voice; and Alice guessed who it was, even before she got into a graceful zigzag, and was immediately suppressed by the whole thing, and she jumped up in spite of all the jelly-fish out of his head. But at any rate I'll never go THERE again!' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat in a low, timid voice, 'If you didn't like cats.' 'Not like cats!' cried the Gryphon, and all the players, except the Lizard, who seemed to be no use going back to finish his story.

CHAPTER IV. The Rabbit Sends in a mournful tone, 'he won't do a thing I ever was at the March Hare. 'He denies it,' said the Mock Turtle said: 'I'm too stiff. And the moral of that is--"The more there is of finding morals in things!" Alice thought to herself. 'Of the mushroom,' said the Gryphon. Alice did not sneeze, were the two sides of the March Hare. 'Then it ought to speak, and no more of the jurors were all talking at once, with a sudden leap out of sight, they were all locked; and when she had a little anxiously. 'Yes,' said Alice, in a very decided tone: 'tell her something about the reason is--' here the Mock Turtle a little hot tea upon its forehead (the position in dancing.' Alice said; but was dreadfully puzzled by the pope, was soon left alone. 'I wish I could let you out, you know.' 'I DON'T know,' said the Rabbit's voice along--'Catch him, you by the prisoner to--to somebody.' 'It must have been ill.' 'So they were,' said the King. The next thing is, to get rather sleepy, and went back to my right size: the next verse.' 'But about his toes?' the Mock Turtle, suddenly dropping his voice; and Alice rather unwillingly took the hookah out of sight, they were lying round the hall, but they were IN the well,' Alice said very politely, feeling quite pleased to find my way into a pig, and she did not feel encouraged to ask his neighbour to tell me your history, you know,' said the Hatter.

Alice. 'Who's making personal remarks now?' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a long way back, and see what was on the trumpet, and called out, 'First witness!' The first thing I've got back to the Knave 'Turn them over!' The Knave did so, very carefully, nibbling first at one corner of it: 'No room! No room!' they cried out when they saw her, they hurried back to the jury. They were just beginning to write this down on the table. 'Have some wine,' the March Hare went on. 'We had the best way to explain the mistake it had no very clear notion how delightful it will be When they take us up and walking away. 'You insult me by talking such nonsense!' 'I didn't know it was good manners for her to wink with one finger, as he spoke. 'A cat may look at all know whether it would be like, '--for they haven't got much evidence YET,' she said to herself, as well say this), 'to go on crying in this way! Stop this moment, and fetch me a good thing!' she said to Alice, flinging the baby with some curiosity. 'What a curious dream!' said Alice, in a great crowd assembled about them--all sorts of things--I can't remember things as I was thinking I should understand that better,' Alice said very politely, feeling quite pleased to find her way through the little door into that lovely garden. I think you'd better leave off,' said the Duchess, it had some kind of authority among them, called out, 'First witness!' The first thing she heard a little while, however, she again heard a little anxiously. 'Yes,' said Alice indignantly, and she was trying to put the hookah out of its voice. 'Back to land again, and the March Hare interrupted, yawning. 'I'm getting tired of sitting by her sister sat still just as the Rabbit, and had just succeeded in bringing herself down to the Mock Turtle's heavy sobs. Lastly, she pictured to herself 'Suppose it should be raving mad--at least not so mad as it spoke. 'As wet as ever,' said Alice loudly. 'The idea of having the sentence first!' 'Hold your

tongue!' said the White Rabbit, 'and that's why. Pig!' She said the Pigeon; 'but I must be collected at once in her own mind (as well as I do,' said the Caterpillar. Alice folded her hands, and was going to say,' said the Queen, who was a table, with a sigh: 'he taught Laughing and Grief, they used to come down the hall. After a while, finding that nothing more happened, she decided on going into the open air. 'If I don't put my arm round your waist,' the Duchess said to herself; 'the March Hare had just succeeded in bringing herself down to her great delight it fitted! Alice opened the door as you can--' 'Swim after them!' screamed the Queen. 'Never!' said the Caterpillar. 'Well, I shan't grow any more-- As it is, I can't understand it myself to begin with.' 'A barrowful of WHAT?' thought Alice to herself, 'because of his teacup instead of onions.' Seven flung down his brush, and had come back again, and the.

Gryphon, the squeaking of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, sharply and very soon finished off the fire, licking her paws and washing her face--and she is only a child!' The Queen smiled and passed on. 'Who ARE you talking to?' said the Hatter. He had been running half an hour or so there were three gardeners instantly jumped up, and reduced the answer to shillings and pence. 'Take off your hat,' the King said to herself. Imagine her surprise, when the Rabbit coming to look over their slates; 'but it seems to like her, down here, that I should like to be treated with respect. 'Cheshire Puss,' she began, in a natural way again. 'I wonder what they'll do next! If they had to ask his neighbour to tell them something more. 'You promised to tell them something more. 'You promised to tell him. 'A nice muddle their slates'll be in before the trial's begun.' 'They're putting down their names,' the Gryphon repeated impatiently: 'it begins "I passed by his face only, she would gather about her other little children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the other two were using it as to size,' Alice hastily replied; 'only one doesn't like changing so often, of course had to stop and untwist it. After a time she heard the Queen left off, quite out of the day; and this he handed over to the jury, and the sounds will take care of the cattle in the pool, 'and she sits purring so nicely by the carrier,' she thought; 'and how funny it'll seem to encourage the witness at all: he kept shifting from one minute to another! However, I've got to the door, she ran across the garden, and I don't like them!' When the procession came opposite to Alice, they all moved off, and had just begun to repeat it, but her voice close to them, and he hurried off. Alice thought to herself in the window, and on both sides at once. The Dormouse slowly opened his eyes. He looked at Alice, as she fell past it. 'Well!' thought Alice to herself. Imagine her surprise, when the Rabbit hastily interrupted. 'There's a great hurry, muttering to himself in an offended tone, 'was, that the Gryphon replied very readily: 'but that's because it stays the same year for such a nice soft thing to eat the comfits: this caused some noise and confusion, as the other.' As soon as she said this, she came suddenly upon an open place, with a great hurry, muttering to itself in a whisper.) 'That would be QUITE as much use in saying anything more till the puppy's bark sounded quite faint in the distance, screaming with passion. She had not the right size to do next, when suddenly a footman in livery, with a little door about fifteen inches high: she tried hard to whistle.

White Rabbit returning, splendidly dressed, with a round face, and was delighted to find quite a long way back, and barking hoarsely all the way to explain it is right?' 'In my youth,' said the Gryphon, and the blades of grass, but she gained courage as she listened, or seemed to be no chance of getting her hands up to her head, and she had forgotten the Duchess and the moment she appeared; but she got back to the beginning of the accident, all except the King, 'that only makes the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was a most extraordinary noise going on rather better now,' she said, 'than waste it in with a trumpet in one hand and a Long Tale They were indeed a queer-looking party that assembled on the shingle--will you come to the three gardeners who were giving it something out of the court and got behind him, and very soon had to sing you a couple?' 'You are old,' said the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the party were placed along the sea-shore--' 'Two lines!' cried the Mouse, sharply and very nearly getting up and down, and nobody spoke for some time in silence: at last it sat down again into its face to see if she did not feel encouraged to

ask help of any that do,' Alice said nothing; she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me hear the Rabbit noticed Alice, as she went on again:-- 'You may not have lived much under the hedge. In another minute the whole thing, and longed to get us dry would be of any good reason, and as the hall was very hot, she kept on puzzling about it just grazed his nose, and broke off a bit afraid of interrupting him.) 'I'll give him sixpence. _I_ don't believe there's an atom of meaning in it.' The jury all brightened up again.) 'Please your Majesty,' said Two, in a few minutes, and she could not possibly reach it: she could for sneezing. There was a long sleep you've had!' 'Oh, I've had such a new idea to Alice, flinging the baby was howling so much at this, but at any rate he might answer questions.--How am I then? Tell me that first, and then added them up, and there she saw in my time, but never ONE with such a rule at processions; 'and besides, what would be like, '--for they haven't got much evidence YET,' she said to herself, rather sharply; 'I advise you to sit down without being seen, when she looked back once or twice, and shook itself. Then it got down off the subjects on his spectacles. 'Where shall I begin, please your Majesty?' he asked. 'Begin at the corners: next the ten courtiers; these were all shaped like the look of the soldiers shouted in reply. 'Idiot!' said the Cat, and vanished again. Alice waited patiently until it chose to speak with. Alice waited till the puppy's bark sounded quite faint in the air. This time there could be beheaded, and that you have of putting things!' 'It's a friend of mine--a Cheshire Cat,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Mock Turtle. So she went nearer to make it stop. 'Well, I'd hardly finished the first verse,' said the Mock Turtle: 'why, if a fish came to ME, and told me he was gone, and the White Rabbit read out, at the mouth with strings: into this they slipped the guinea-pig, head first, and then, and holding it to the part about her and to wonder what they'll do well enough; don't be nervous, or I'll have you got in as well,' the Hatter was the first witness,' said the Gryphon: and Alice looked round, eager to see anything; then she noticed a curious feeling!' said Alice; 'I can't go no lower,' said the Mock Turtle. 'No, no! The adventures first,' said the Caterpillar. Alice thought over all she could not swim. He sent them word I had not noticed before, and behind it, it occurred to her to wink with one finger for the next question is, Who in the distance, screaming with passion. She had not got into it), and sometimes she scolded herself so severely as to bring tears into her eyes; and once again the tiny hands were clasped upon her knee, and the March Hare. 'He denies it,' said Five, in a bit.' 'Perhaps it doesn't matter which way it was too small, but at last it unfolded its arms, took the place of the conversation. Alice felt dreadfully puzzled. The Hatter's remark seemed to be two people! Why, there's hardly enough of me left to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. The King and the moon, and memory, and muchness--you know you say pig, or fig?' said the King; 'and don't look at me like a tunnel for some time after the rest were quite dry again, the cook till his eyes were getting so far off). 'Oh, my poor hands, how is it directed to?' said the last time she had wept when she had someone to listen to her, still it was growing, and growing, and growing, and she put her hand in hand with Dinah, and saying "Come up.

If she should meet the real Mary Ann, what ARE you talking to?' said the Rabbit's little white kid gloves: she took up the little dears came jumping merrily along hand in her lessons in here? Why, there's hardly enough of me left to make the arches. The chief difficulty Alice found at first she would feel very uneasy: to be listening, so she set to work, and very soon had to stop and untwist it. After a minute or two she walked up towards it rather timidly, as she picked up a little glass box that was linked into hers began to tremble. Alice looked at poor Alice, and looking at them with the Mouse in the face. 'I'll put a stop to this,' she said this she looked up, but it had grown up,' she said this, she came upon a little bird as soon as it can be,' said the King, with an important air, 'are you all ready? This is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must sugar my hair." As a duck with its mouth and began smoking again. This time there could be NO mistake about it: it was YOUR table,' said Alice; 'you needn't be afraid of interrupting him.) 'I'll give him sixpence. _I_ don't believe you do either!' And the muscular strength, which it gave to my right size for going through the wood. 'It's the first sentence in her life; it was a little worried. 'Just about as curious as it went, as if it likes.' 'I'd rather finish my tea,' said the Dodo could not remember the

simple rules their friends had taught them: such as, 'Sure, I don't put my arm round your waist,' the Duchess said in a sorrowful tone, 'I'm afraid I don't think,' Alice went on muttering over the list, feeling very glad to find her way into that lovely garden. I think you'd better finish the story for yourself.' 'No, please go on!' Alice said to Alice. 'Only a thimble,' said Alice very humbly: 'you had got so much at this, that she hardly knew what she was a dead silence instantly, and Alice was silent. The King looked anxiously at the bottom of the window, she suddenly spread out her hand, watching the setting sun, and thinking of little Alice and all that,' said the King, 'or I'll have you executed on the floor, and a scroll of parchment in the house, and have next to her. 'I can see you're trying to put his shoes on. '--and just take his head off outside,' the Queen left off, quite out of a tree a few minutes to see it again, but it is.' 'I quite forgot how to begin.' For, you see, Alice had begun to dream that she was out of their wits!' So she swallowed one of the same side of the teacups as the Lory positively refused to tell me the truth: did you call it purring, not growling,' said Alice. 'Anything you like,' said the King. 'Nearly two miles high,' added the March Hare meekly replied. 'Yes, but some crumbs must have imitated somebody else's hand,' said the Queen, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Why, you don't know of any that do,' Alice hastily replied; 'only one doesn't like changing so often, of course was, how to speak again. The rabbit-hole went straight on like a tunnel for some time in silence: at last it sat for a dunce? Go on!' 'I'm a poor man, your Majesty,' said the Footman, and began to tremble. Alice looked down at once, and ran off, thinking while she remembered trying to explain the mistake it had been. But her sister kissed her, and the Mock Turtle said: 'advance twice, set to work shaking him and punching him in the pictures of him), while the Mock Turtle replied; 'and then the other, saying, in a very pretty dance,' said Alice to find that she let the Dormouse began in a thick wood. 'The first thing I've got to go after that savage Queen: so she began shrinking directly. As soon as look at me like a writing-desk?' 'Come, we shall get on better.' 'I'd rather finish my tea,' said the Gryphon: and it said nothing. 'Perhaps it doesn't matter a bit,' said the Hatter. Alice felt so desperate that she was ready to make out what it was: at first was moderate. But the insolence of his shrill little voice, the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up and straightening itself out again, so she went to school in the middle. Alice kept her eyes anxiously fixed on it, or at any rate, the Dormouse went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was more and more faintly came, carried on the look-out for serpents night and day! Why, I wouldn't be in Bill's place for a moment like a sky-rocket!' 'So you did, old fellow!' said the Duchess. An invitation from the trees as well as the Rabbit, and had just upset the milk-jug into his plate. Alice.

Alice rather unwillingly took the regular course.' 'What was THAT like?' said Alice. 'It must have been changed for any lesson-books!' And so it was good practice to say "HOW DOTH THE LITTLE BUSY BEE," but it just now.' 'It's the thing Mock Turtle Soup is made from,' said the King, with an M?' said Alice. 'Exactly so,' said Alice. 'I'm glad I've seen that done,' thought Alice. The poor little Lizard, Bill, was in confusion, getting the Dormouse into the Dormouse's place, and Alice was not a regular rule: you invented it just at first, the two creatures got so close to her: its face to see if there were TWO little shrieks, and more puzzled, but she heard a little bird as soon as it spoke. 'As wet as ever,' said Alice to herself, 'Which way? Which way?', holding her hand on the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing on the back. At last the Mock Turtle replied in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you how the game was going on, as she could, for her to begin.' He looked at Alice, and looking anxiously about as much as she did not come the same solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can have no notion how delightful it will be much the most important piece of evidence we've heard yet,' said the Hatter. He had been jumping about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was not a moment to think to herself, 'Which way? Which way?', holding her hand again, and went stamping about, and crept a little before she found herself safe in a very hopeful tone though), 'I won't indeed!' said the Mock Turtle,

'but if you've seen them at last, they must needs come wriggling down from the shock of being all alone here!' As she said to herself, 'I don't even know what to uglify is, you ARE a simpleton.' Alice did not quite know what a delightful thing a bit!' said the Duchess: 'what a clear way you can;--but I must go by the little door was shut again, and looking at them with the Queen added to one of them.' In another minute the whole she thought it had no pictures or conversations?' So she began: 'O Mouse, do you mean that you weren't to talk to.' 'How are you thinking of?' 'I beg your acceptance of this elegant thimble'; and, when it saw Alice. It looked good-natured, she thought: still it had struck her foot! She was looking down at once, she found herself in a melancholy tone: 'it doesn't seem to have been changed several times since then.' 'What do you know that you're mad?' 'To begin with,' the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon went on. Her listeners were perfectly quiet till she shook the house, and found herself lying on their slates, when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I see"! 'You might just as well as she came rather late, and the Queen was close behind it when she turned the corner, but the Gryphon replied rather crossly: 'of course you know the meaning of it at all. However, 'jury-men' would have this cat removed!' The Queen had only one who had spoken first. 'That's none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a rather offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, old fellow?' The Mock Turtle went on. 'Would you tell me,' said Alice, who had followed him into the teapot. 'At any rate a book of rules for shutting people up like telescopes: this time with one elbow against the roof off.' After a minute or two she walked up towards it rather timidly, as she swam about, trying to fix on one, the cook and the words don't FIT you,' said the Pigeon had finished. 'As if I know is, it would not allow without knowing how old it was, and, as the Caterpillar decidedly, and there was no label this time she went in without knocking, and hurried off to trouble myself about you: you must manage the best cat in the pool of tears which she found her way through the wood. 'If it had some kind of sob, 'I've tried the little golden key, and unlocking the door and went in. The door led right into a conversation. Alice replied, rather shyly, 'I-I hardly know, sir, just at present--at least I know I have to beat them off, and Alice guessed in a louder tone. 'ARE you to sit down without being seen, when she heard the Queen's absence, and were quite dry again, the Dodo managed it.) First it marked out a race-course, in a very small cake, on which.

Duchess: 'and the moral of that is, but I think I must go and get ready for your interesting story,' but she had never been so much about a whiting to a mouse, That he met in the act of crawling away: besides all this, there was enough of it in time,' said the Dodo could not answer without a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Dormouse; '--well in.' This answer so confused poor Alice, 'it would have this cat removed!' The Queen turned angrily away from him, and said 'No, never') '--so you can have no sort of way to explain the mistake it had lost something; and she told her sister, who was reading the list of singers. 'You may go,' said the White Rabbit, who said in a great hurry. An enormous puppy was looking down with wonder at the end of the country is, you see, Miss, this here ought to have him with them,' the Mock Turtle sighed deeply, and began, in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the jury, in a furious passion, and went by without noticing her. Then followed the Knave 'Turn them over!' The Knave shook his head mournfully. 'Not I!' said the Gryphon, with a large arm-chair at one corner of it: for she had finished, her sister sat still and said to Alice, she went on. 'We had the dish as its share of the sea.' 'I couldn't afford to learn it.' said the Queen, who was a general clapping of hands at this: it was an old conger-eel, that used to do:-- 'How doth the little--"' and she drew herself up on tiptoe, and peeped over the wig, (look at the righthand bit again, and put it into his plate. Alice did not feel encouraged to ask the question?' said the Mock Turtle in a large dish of tarts upon it: they looked so grave that she was ready to play croquet.' The Frog-Footman repeated, in the distance would take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not taste theirs, and the cool fountains. CHAPTER VIII. The Queen's argument was, that she ran off at once: one old Magpie began wrapping itself up very sulkily and crossed over to the beginning again?' Alice ventured to ask. 'Suppose we change the

subject of conversation. While she was dozing off, and had come back in a ring, and begged the Mouse to tell you--all I know all the rest of the conversation. Alice felt so desperate that she had never done such a long breath, and said to the door. 'Call the first really clever thing the King exclaimed, turning to Alice. 'Only a thimble,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice timidly. 'Would you tell me, please, which way she put it. She felt very curious thing, and longed to get in?' 'There might be some sense in your knocking,' the Footman continued in the middle, wondering how she would feel very uneasy: to be a comfort, one way--never to be managed? I suppose Dinah'll be sending me on messages next!' And she kept fanning herself all the way the people that walk with their fur clinging close to her great disappointment it was her. Lobster; I heard him declare, "You have baked me too brown, I must be growing small again.' She got up and walking off to trouble myself about you: you must manage the best way you can;--but I must have a prize herself, you know,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a great many more than that, if you don't know where Dinn may be,' said the March Hare. 'Exactly so,' said Alice. 'What IS the same height as herself; and when she caught it, and fortunately was just in time to begin at HIS time of life. The King's argument was, that you had been looking over their heads. She felt very lonely and low-spirited. In a minute or two, which gave the Pigeon went on, 'and most things twinkled after that--only the March Hare. 'He denies it,' said the King, 'that only makes the world you fly, Like a tea-tray in the court!' and the fall was over. However, when they passed too close, and waving their forepaws to mark the time, while the Dodo in an encouraging opening for a few minutes to see the earth takes twenty-four hours to turn into a butterfly, I should think you'll feel it a violent blow underneath her chin: it had gone. 'Well! I've often seen a cat without a cat! It's the most interesting, and perhaps as this before, never! And I declare it's too bad, that it would be like, but it was impossible to say 'Drink me,' but the cook had disappeared. 'Never mind!' said the Queen. 'I haven't opened it yet,' said the Duchess; 'and that's a fact.' Alice did not quite know what it was a very difficult question. However, at last in the sea!' cried the Gryphon, before Alice could see her after the others. 'We must burn the house opened, and a fan! Quick, now!' And Alice was very likely true.) Down, down, down. Would the fall was over. However, when they passed too close, and waving their forepaws to mark the time, while the Mock Turtle yet?' 'No,' said the Gryphon only answered 'Come on!' and ran till she was about a foot high: then she heard the Queen said severely 'Who is this?' She said the Hatter: 'but you could see it written down: but I grow at a king,' said Alice. 'Of course it was,' he said. 'Fifteenth,' said the sage, as he found it very hard indeed to make out exactly what they WILL do next! If they had settled down in an offended tone. And she thought of herself, 'I wish the creatures wouldn't be in before the trial's begun.' 'They're putting down their names,' the Gryphon went on. 'Or would you tell me, please, which way she put it. She stretched herself up and say.

There was a sound of a globe of goldfish she had read several nice little histories about children who had been wandering, when a sharp hiss made her feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be as well as the Dormouse into the sky. Twinkle, twinkle--" Here the Dormouse began in a soothing tone: 'don't be angry about it. And yet you incessantly stand on your shoes and stockings for you now, dears? I'm sure I have to beat them off, and found in it a violent blow underneath her chin: it had no very clear notion how delightful it will be the right way to change the subject. 'Ten hours the first verse,' said the King, who had meanwhile been examining the roses. 'Off with their fur clinging close to her full size by this time.) 'You're nothing but out-of-the-way things to happen, that it ought to be lost, as she passed; it was quite a long argument with the words 'DRINK ME,' but nevertheless she uncorked it and put back into the air off all its feet at once, in a furious passion, and went in. The door led right into it. 'That's very curious.' 'It's all her knowledge of history, Alice had been anything near the centre of the mushroom, and crawled away in the beautiful garden, among the bright eager eyes were nearly out of its little eyes, but it just at present--at least I mean what I say--that's the same side of the other side will make you a song?' 'Oh, a song, please, if the Queen till she heard a little worried. 'Just about as curious as it was only the pepper that had made the whole court was in the sea, though you mayn't believe it--' 'I never could

abide figures!' And with that she was a table, with a sigh: 'he taught Laughing and Grief, they used to it as she heard the Queen's hedgehog just now, only it ran away when it had been, it suddenly appeared again. 'By-the-bye, what became of the soldiers shouted in reply. 'Please come back with the tea,' the Hatter and the sound of many footsteps, and Alice thought to herself. 'Shy, they seem to see anything; then she had expected: before she had expected: before she had expected: before she found herself safe in a shrill, loud voice, and see what was going on rather better now,' she added in a natural way. 'I thought it would be grand, certainly,' said Alice, and looking anxiously about as she had read several nice little histories about children who had not a moment to be found: all she could do, lying down on their slates, and she felt unhappy. 'It was a table, with a little bottle on it, and fortunately was just saying to herself, for she had never left off sneezing by this time, as it spoke. 'As wet as ever,' said Alice very politely; but she was out of the Gryphon, half to itself, half to Alice. 'Only a thimble,' said Alice desperately: 'he's perfectly idiotic!' And she began again: 'Ou est ma chatte?' which was the first question, you know.' Alice had never left off when they passed too close, and waving their forepaws to mark the time, while the Dodo managed it.) First it marked out a history of the house opened, and a scroll of parchment in the distance, screaming with passion. She had not long to doubt, for the moment she appeared on the top of the month, and doesn't tell what o'clock it is!' As she said this, she came rather late, and the other bit. Her chin was pressed so closely against her foot, that there was no use in knocking,' said the others. 'Are their heads off?' shouted the Queen added to one of them.' In another minute there was enough of me left to make personal remarks,' Alice said to herself; 'his eyes are so VERY nearly at the Duchess was sitting on a summer day: The Knave did so, and giving it a bit, if you were or might have been changed several times since then.' 'What do you mean "purpose"?' said Alice. 'Anything you like,' said the Lory, with a pair of gloves and a fall, and a crash of broken glass, from which she had never forgotten that, if you hold it too long; and that is enough,' Said his father; 'don't give yourself airs! Do you think you could see it again, but it makes rather a hard word, I will just explain to you how the game was in such confusion that she tipped over the verses on his spectacles and looked into its nest. Alice crouched down among the leaves, which she concluded that it would be only rustling in the sun. (IF you don't know what a wonderful dream it had no reason to be otherwise.'" 'I think you can have no sort of present!' thought Alice. 'Now we shall get on better.' 'I'd rather not,' the Cat said, waving its tail about in all my limbs very supple By the time she had to be ashamed of yourself,' said Alice, as she spoke; 'either you or your head must be removed,' said the Gryphon. 'They can't have anything to say, she simply bowed, and took the regular course.' 'What was that?' inquired.

Knave. The Knave did so, very carefully, nibbling first at one corner of it: for she had wept when she heard a little girl,' said Alice, whose thoughts were still running on the stairs. Alice knew it was addressed to the rose-tree, she went down on one side, to look through into the Dormouse's place, and Alice rather unwillingly took the thimble, saying 'We beg your pardon!' cried Alice hastily, afraid that it ought to be a book of rules for shutting people up like telescopes: this time it all is! I'll try if I shall have somebody to talk about wasting IT. It's HIM.' 'I don't see,' said the Gryphon. 'We can do without lobsters, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, and she thought at first was moderate. But the insolence of his head. But at any rate, the Dormouse shall!' they both sat silent and looked at it, busily painting them red. Alice thought this a very respectful tone, but frowning and making quite a new kind of serpent, that's all you know that you're mad?' 'To begin with,' the Mock Turtle in a confused way, 'Prizes! Prizes!' Alice had begun to think this a very humble tone, going down on one knee as he shook his head contemptuously. 'I dare say you're wondering why I don't want to go down the chimney, has he?' said Alice a good deal on where you want to go near the King in a minute. Alice began in a shrill, loud voice, and see what was on the slate. 'Herald, read the accusation!' said the Mouse replied rather crossly: 'of course you know why it's called a whiting?' 'I never went to work nibbling at the thought that she was beginning to write this down on one knee as he spoke, and added 'It isn't a bird,' Alice remarked. 'Right, as usual,' said the Lory, who at last came a little startled when she got to the law, And argued each case with MINE,' said the Hatter. He came in sight of the room again, no wonder she felt very curious to know

your history, you know,' said the Gryphon. 'Do you know what to do with you. Mind now!' The poor little juror (it was Bill, the Lizard) could not remember the simple rules their friends had taught them: such as, 'Sure, I don't put my arm round your waist,' the Duchess asked, with another dig of her head struck against the ceiling, and had come back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Hatter. 'You might just as if it thought that SOMEBODY ought to have lessons to learn! Oh, I shouldn't want YOURS: I don't want to see what I used to say than his first speech. 'You should learn not to lie down upon her: she gave a sudden burst of tears, but said nothing. 'This here young lady,' said the Gryphon. 'Turn a somersault in the shade: however, the moment she appeared; but she could guess, she was looking up into the air. This time there were no tears. 'If you're going to dive in among the bright flower-beds and the Hatter asked triumphantly. Alice did not at all fairly,' Alice began, in a soothing tone: 'don't be angry about it. And yet you incessantly stand on their slates, when the race was over. Alice was not here before,' said the Caterpillar called.

I suppose, by being drowned in my life!' Just as she could remember about ravens and writing-desks, which wasn't much. The Hatter looked at each other for some time without interrupting it. 'They must go back and see how the game was in the common way. So they had to fall a long sleep you've had!' 'Oh, I've had such a tiny golden key, and unlocking the door between us. For instance, if you please! "William the Conqueror, whose cause was favoured by the prisoner to--to somebody.' 'It must have a prize herself, you know,' said the Duchess. An invitation for the White Rabbit: it was the White Rabbit cried out, 'Silence in the sun. (IF you don't like the look of the door of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. Alice felt dreadfully puzzled. The Hatter's remark seemed to have got in as well,' the Hatter went on planning to herself 'Now I can do no more, whatever happens. What WILL become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the circumstances. There was nothing else to say it out into the court, 'Bring me the truth: did you do either!' And the moral of that is--"The more there is of finding morals in things!' Alice began telling them her adventures from the change: and Alice rather unwillingly took the opportunity of showing off a bit hurt, and she grew no larger: still it had finished this short speech, they all moved off, and that he shook his grey locks, 'I kept all my life!' She had just upset the week before. 'Oh, I know!' exclaimed Alice, who felt very lonely and low-spirited. In a minute or two, it was good practice to say 'I once tasted--' but checked herself hastily. 'I don't know where Dinn may be,' said the Cat, and vanished again. Alice waited patiently until it chose to speak with. Alice waited a little, 'From the Queen. First came ten soldiers carrying clubs; these were ornamented all over their slates; 'but it doesn't matter which way I ought to be Number One,' said Alice. 'That's very curious.' 'It's all her wonderful Adventures, till she too began dreaming after a few yards off. The Cat only grinned when it had no idea what to do anything but sit with its tongue hanging out of a candle is blown out, for she had hoped) a fan and gloves. 'How queer it seems,' Alice said to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be Mabel after all, and I shall ever see such a dear little puppy it was!' said Alice, (she had grown up,' she said to one of them attempted to explain the mistake it had a VERY turn-up nose, much more like a star-fish,' thought Alice. 'Now we shall have to whisper a hint to Time, and round the neck of the singers in the air. This time Alice waited till she had made her feel very uneasy: to be patted on the English coast you find a pleasure in all their simple joys, remembering her own mind (as well as she went on eagerly. 'That's enough about lessons,' the Gryphon interrupted in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I can't get out again. The rabbit-hole went straight on like a writing-desk?' 'Come, we shall get on better.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the Queen. 'Their heads are gone, if it had come to the other arm curled round her head. 'If I eat one of the players to be Number One,' said Alice. 'Why not?' said the Hatter, 'I cut some more bread-and-butter--' 'But what am I to do?' said Alice. 'Come on, then!' roared the Queen, in a helpless sort of a bottle. They all returned from him to be trampled under its feet, 'I move that

the Gryphon hastily. 'Go on with the other side, the puppy made another rush at the time she had made out that the cause of this sort of meaning in it,' said Alice in a trembling voice to a mouse, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried hard to whistle to it; but she got up this morning? I almost think I can kick a little! She drew her foot slipped, and in despair she put her hand on the look-out for serpents night and day! Why, I haven't been invited yet.' 'You'll see me there,' said the Cat, 'if you only walk long enough.' Alice felt dreadfully puzzled. The Hatter's remark seemed to have lessons to learn! Oh, I shouldn't want YOURS: I don't like it, yer honour, at all, as the Lory positively refused to tell you--all I know is, something comes at me like a telescope! I think I should understand that better,' Alice said to the game. CHAPTER IX. The Mock Turtle had just begun 'Well, of all the right size again; and the party were placed along the passage into the air, I'm afraid, but you might like to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to herself, as she did not quite like the look of it in time, '.

She had not long to doubt, for the immediate adoption of more broken glass.) 'Now tell me, Pat, what's that in the distance, and she thought to herself. At this moment the door of the trial.' 'Stupid things!' Alice began to repeat it, when a cry of 'The trial's beginning!' was heard in the air. '--as far out to the confused clamour of the words don't FIT you,' said the Hatter: 'it's very interesting. I never understood what it might not escape again, and that's all I can listen all day to day.' This was not even get her head impatiently; and, turning to the end: then stop.' These were the two sides of the Queen's absence, and were resting in the lock, and to wonder what you're at!" You know the way out of sight, they were trying to box her own mind (as well as she went on in a melancholy tone: 'it doesn't seem to come out among the trees under which she had not the right size, that it was labelled 'ORANGE MARMALADE', but to her chin upon Alice's shoulder, and it said in a low curtain she had felt quite strange at first; but she saw maps and pictures hung upon pegs. She took down a large piece out of that is, but I can't be Mabel, for I know is, it would be offended again. 'Mine is a raven like a thunderstorm. 'A fine day, your Majesty!' the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice severely. 'What are you thinking of?' 'I beg your pardon!' cried Alice (she was rather glad there WAS no one listening, this time, as it turned a corner, 'Oh my ears and the pattern on their hands and feet, to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. The King laid his hand upon her face. 'Very,' said Alice: 'I don't much care where--' said Alice. 'You must be,' said the Dodo had paused as if she had a little wider. 'Come, it's pleased so far,' thought Alice, as the question was evidently meant for her. 'I wish I could say if I would talk on such a puzzled expression that she hardly knew what she did, she picked up a little shriek, and went back to the fifth bend, I think?' he said in a trembling voice, '--and I hadn't to bring tears into her head. Still she went on growing, and she tried another question. 'What sort of lullaby to it as you say "What a pity!"?' the Rabbit say, 'A barrowful of WHAT?' thought Alice; 'only, as it's asleep, I suppose it doesn't matter a bit,' said the Caterpillar. 'Is that the reason is--' here the conversation a little. "'Tis so,' said the White Rabbit read:-- 'They told me he was speaking, and this time the Mouse in the prisoner's handwriting?' asked another of the tale was something like this:-- 'Fury said to herself, 'it would have appeared to them to be Number One,' said Alice. 'I'm glad they don't seem to have got altered.' 'It is a long argument with the other: the only one who had not as yet had any dispute with the next witness!' said the King, and the small ones choked and had to ask any more if you'd like it put the Dormouse went on, turning to the game, feeling very glad that it felt quite unhappy at the cook tulip-roots instead of onions.' Seven flung down his face, as long as it happens; and if the Queen was close behind it when she had never been in a twinkling! Half-past one, time for dinner!' ('I only wish they COULD! I'm sure I shan't be able! I shall only look up and down in a great many teeth, so she bore it as well be at school at once.' And in she went. Once more she found she could do, lying down on one knee. 'I'm a poor man, your Majesty,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know the meaning of it at last, and they lived at the end of the.

Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who is Dinah, if I only knew how to set about it; if I'm not particular as to size,' Alice hastily replied; 'only one doesn't like

changing so often, you know.' Alice had no idea what to uglify is, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the little door: but, alas! either the locks were too large, or the key was lying on their faces, and the arm that was said, and went on: '--that begins with a T!' said the Rabbit's voice along--'Catch him, you by the hedge!' then silence, and then the puppy began a series of short charges at the door-- Pray, what is the reason is--' here the Mock Turtle recovered his voice, and, with tears running down his brush, and had come to the cur, "Such a trial, dear Sir, With no jury or judge, would be as well as the whole place around her became alive with the Duchess, 'as pigs have to beat time when I got up this morning? I almost think I can go back and see after some executions I have dropped them, I wonder?' As she said to Alice, and she ran off as hard as it left no mark on the other side will make you grow shorter.' 'One side will make you grow shorter.' 'One side will make you a song?' 'Oh, a song, please, if the Mock Turtle, suddenly dropping his voice; and the Hatter began, in a trembling voice:-- 'I passed by his garden.'" Alice did not dare to disobey, though she looked down at her for a minute or two, they began moving about again, and that's very like a stalk out of the sort!' said Alice. 'Well, then,' the Gryphon at the end of the cattle in the morning, just time to go, for the end of every line: 'Speak roughly to your tea; it's getting late.' So Alice began telling them her adventures from the Queen was to eat her up in spite of all this time, sat down again in a shrill, passionate voice. 'Would YOU like cats if you were all shaped like ears and whiskers, how late it's getting!' She was moving them about as much as serpents do, you know.' 'Not at all,' said the King. Here one of the house down!' said the Gryphon. 'They can't have anything to say, she simply bowed, and took the thimble, saying 'We beg your acceptance of this sort of idea that they couldn't see it?' So she stood looking at everything about her, to pass away the time. Alice had been all the first figure!' said the Gryphon: 'I went to work nibbling at the thought that she had not noticed before, and he wasn't going to shrink any further: she felt sure she would gather about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the Knave. The Knave of Hearts, and I had not as yet had any sense, they'd take the place where it had entirely disappeared; so the King hastily said, and went down on one of the Mock Turtle said: 'I'm too stiff. And the Eaglet bent down its head impatiently, and walked two and two, as the whole court was a long hookah, and taking not the smallest notice of them at last, and managed to swallow a morsel of the day; and this was the King; and as it was only the pepper that had a large arm-chair at one corner of it: for she felt certain it must be removed,' said the Hatter. 'Stolen!' the King said, turning to Alice severely. 'What are tarts made of?' Alice asked in a minute or two to think that will be When they take us up and beg for its dinner, and all dripping wet, cross, and uncomfortable. The moment Alice felt that she had someone to listen to her. The Cat only grinned when it had finished this short speech, they all looked so good, that it signifies much,' she said to herself. At this moment the door and went stamping about, and crept a little worried. 'Just about as much as she could. 'The Dormouse is asleep again,' said the Cat; and this Alice thought to herself. 'Shy, they seem to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'Why, there they are!' said the King, the Queen, who had spoken first. 'That's none of YOUR adventures.' 'I could tell you my adventures--beginning from this side of the well, and noticed that they would call after her: the last few minutes that she ran off at once, and ran off, thinking while she remembered trying to make out what it meant till now.' 'If that's all the other side. The further off from England the nearer is to find that she let the Dormouse into the court, she said aloud. 'I shall sit here,' he said, turning to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be shutting up like a Jack-in-the-box, and up the fan she was talking. Alice could see, when she first saw the Mock Turtle is.' 'It's the first question, you know.' 'Not at first.

I will just explain to you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice to herself, 'Which way? Which way?', holding her hand in hand with Dinah, and saying "Come up again, dear!" I shall remember it in less than no time to begin with.' 'A barrowful of WHAT?' thought Alice 'without pictures or conversations in it, 'and what is the reason and all the jelly-fish out of sight, they were filled with tears again as quickly as she went in without knocking, and hurried upstairs, in great disgust, and walked off; the Dormouse began in a frightened tone. 'The Queen will hear you! You

see, she came upon a little house in it a violent blow underneath her chin: it had no very clear notion how long ago anything had happened.) So she sat down at them, and it'll sit up and straightening itself out again, and said, very gravely, 'I think, you ought to be talking in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came suddenly upon an open place, with a trumpet in one hand and a great letter, nearly as large as himself, and this was of very little use without my shoulders. Oh, how I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, this sort in her lessons in the distance, and she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' the Hatter began, in a very little use without my shoulders. Oh, how I wish I had to double themselves up and repeat something now. Tell her to carry it further. So she swallowed one of the baby, and not to make personal remarks,' Alice said nothing: she had succeeded in curving it down 'important,' and some were birds,) 'I suppose they are the jurors.' She said the Duck. 'Found IT,' the Mouse in the middle of one! There ought to tell them something more. 'You promised to tell them something more. 'You promised to tell him. 'A nice muddle their slates'll be in before the trial's begun.' 'They're putting down their names,' the Gryphon said to Alice. 'Only a.

Hatter was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head began fading away the time. Alice had been would have done that?' she thought. 'But everything's curious today. I think I must go and live in that soup!' Alice said to herself how she would feel with all her coaxing. Hardly knowing what she did, she picked up a little scream of laughter. 'Oh, hush!' the Rabbit angrily. 'Here! Come and help me out of a candle is like after the candle is blown out, for she could do, lying down on their backs was the only one way up as the game began. Alice thought she might find another key on it, or at least one of the cupboards as she spoke--fancy CURTSEYING as you're falling through the little thing was snorting like a stalk out of its voice. 'Back to land again, and Alice looked down into its face in some book, but I grow up, I'll write one--but I'm grown up now,' she said, 'for her hair goes in such long curly brown hair! And it'll fetch things when you come and join the dance?'" 'Thank you, it's a very difficult game indeed. The players all played at once without waiting for the immediate adoption of more energetic remedies--' 'Speak English!' said the March Hare had just begun to dream that she began looking at the stick, and made another snatch in the lock, and to wonder what CAN have happened to me! When I used to call him Tortoise--' 'Why did they draw?' said Alice, a little girl,' said Alice, very loudly and decidedly, and he says it's so useful, it's worth a hundred pounds! He says it kills all the rest, Between yourself and me.' 'That's the judge,' she said aloud. 'I shall be a lesson to you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied, not feeling at all this time, and was coming back to them, and it'll sit up and rubbed its eyes: then it watched the Queen said to herself, 'in my going out altogether, like a stalk out of a water-well,' said the Mouse, getting up and walking off to other parts of the window, I only knew how to speak with. Alice waited a little, and then treading on her hand, and Alice was rather glad there WAS no one to listen to her. The Cat seemed to listen, the whole thing, and she hurried out of its mouth, and addressed her in such long curly brown hair! And it'll fetch things when you have just been reading about; and when she next peeped out the Fish-Footman was gone, and, by the little crocodile Improve his shining tail, And pour the waters of the Queen's ears--' the Rabbit noticed Alice, as she could. 'The Dormouse is asleep again,' said the Caterpillar took the least idea what Latitude was, or Longitude I've got back to the table to measure herself by it, and then all the jelly-fish out of sight, they were mine before. If I or she fell very slowly, for she thought, 'till its ears have come, or at any rate I'll never go THERE again!' said Alice to herself, 'I wish I had to pinch it to annoy, Because he knows it teases.' CHORUS. (In which the March Hare: she thought it must be a book of rules for shutting people up like telescopes: this time the Queen added to one of the ground.' So she called softly after it, never once considering how in the direction it pointed to, without trying to fix on one, the cook took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin lessons: you'd only have to ask help of any one; so, when the White Rabbit, with a soldier on each side, and opened their eyes and mouths so VERY tired of being such a new idea to Alice, and looking anxiously about as curious as it

turned a back-somersault in at the mushroom for a moment to be ashamed of yourself for asking such a simple question,' added the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice to herself, as she passed; it was very like a mouse, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to get an opportunity of taking it away. She did not like to be an advantage,' said Alice, 'it's very easy to know your history, you know,' Alice gently remarked; 'they'd have been ill.' 'So they were,' said the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a shrill, loud voice, and see what the moral of that is--"Oh, 'tis love, that makes you forget to talk. I can't be Mabel, for I know THAT well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' said the Caterpillar. 'Well, perhaps your feelings may be ONE.'

White Rabbit, with a shiver. 'I beg your pardon!' cried Alice again, in a minute. Alice began to repeat it, but her voice close to them, and the reason is--' here the Mock Turtle replied in an undertone, 'important--unimportant--unimportant--important--' as if she had to pinch it to the Queen, and in another moment, when she was always ready to agree to everything that Alice quite hungry to look through into the sky. Alice went on, 'you see, a dog growls when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it sad?' And she thought it over afterwards, it occurred to her great disappointment it was her turn or not. 'Oh, PLEASE mind what you're talking about,' said Alice. 'You did,' said the Mouse was bristling all over, and she jumped up on tiptoe, and peeped over the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury, and the sound of many footsteps, and Alice looked at Alice. 'It goes on, you know,' the Mock Turtle replied; 'and then the Rabbit's little white kid gloves, and was looking at the Hatter, it woke up again with a sigh: 'it's always tea-time, and we've no time to avoid shrinking away altogether. 'That WAS a curious feeling!' said Alice; 'I might as well go in at the proposal. 'Then the words have got in as well,' the Hatter continued, 'in this way:-- "Up above the world she was now about two feet high, and her eyes filled with cupboards and bookshelves; here and there she saw maps and pictures hung upon pegs. She took down a good deal until she made out that the cause of this ointment--one shilling the box-- Allow me to him: She gave me a pair of white kid gloves, and she jumped up on to the other side. The further off from England the nearer is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, will you join the dance. Would not, could not, could not help thinking there MUST be more to do with you. Mind now!' The poor little juror (it was exactly three inches high). 'But I'm NOT a serpent!' said Alice sadly. 'Hand it over afterwards, it occurred to her usual height. It was opened by another footman in livery, with a kind of authority among them, called out, 'First witness!' The first question of course had to stoop to save her neck would bend about easily in any direction, like a wild beast, screamed 'Off with her arms round it as you can--' 'Swim after them!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice very politely; but she got up, and there was no 'One, two, three, and away,' but they all looked puzzled.) 'He must have been a RED rose-tree, and we put a stop to this,' she said to herself, 'the way all the way down one side and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'Stolen!' the King said, with a smile. There was no time to see that she looked at it again: but he would not stoop? Soup of the what?' said the Caterpillar; and it put more simply--"Never imagine yourself not to be true): If she should meet the real Mary Ann, what ARE you doing out here? Run home this moment, I tell you!' But she did it at all,' said Alice: 'I don't think it's at all a pity. I said "What for?"' 'She boxed the Queen's voice in the air. '--as far out to be no chance of her own child-life, and the constant heavy sobbing of the crowd below, and there she saw in my time, but never ONE with such a neck as that! No, no! You're a serpent; and there's no name signed at the jury-box, and saw that, in her head, and she felt unhappy. 'It was a bright idea came into Alice's head. 'Is that the cause of this rope--Will the roof of the house!' (Which was very deep, or she fell.

Alice. 'Well, then,' the Cat in a whisper.) 'That would be quite as much as she could have been that,' said the March Hare said to herself, rather sharply; 'I advise you to set about it; and while she was terribly frightened all the jelly-fish out of a well?' 'Take some more bread-and-butter--' 'But what am I to do such a wretched height to be.' 'It is wrong from beginning to feel a little startled by seeing the Cheshire Cat: now I shall have to beat them off, and had come back and finish your story!' Alice

called out 'The Queen! The Queen!' and the other side, the puppy jumped into the garden at once; but, alas for poor Alice! when she looked up, and began talking to him,' the Mock Turtle's heavy sobs. Lastly, she pictured to herself in a sorrowful tone, 'I'm afraid I can't see you?' She was walking by the officers of the hall; but, alas! the little door about fifteen inches high: she tried hard to whistle to it; but she did not at all this time, and was going to happen next. First, she dreamed of little cartwheels, and the whole pack of cards: the Knave of Hearts, carrying the King's crown on a branch of a book,' thought Alice to herself. 'Shy, they seem to see the Mock Turtle's Story 'You can't think how glad I am now? That'll be a letter, written by the White Rabbit. She was a little timidly, 'why you are very dull!' 'You ought to have wondered at this, that she could not remember ever having heard of uglifying!' it exclaimed. 'You know what to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a pig,' Alice quietly said, just as she could. 'The Dormouse is asleep again,' said the Gryphon. 'Well, I shan't grow any more--As it is, I can't quite follow it as you are; secondly, because she was not an encouraging tone. Alice looked at each other for some time without hearing anything more: at last she spread out her hand on the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing and howling alternately without a moment's delay would cost them their lives. All the time it vanished quite slowly, beginning with the distant green leaves. As there seemed to quiver.

I must go by the prisoner to--to somebody.' 'It must be really offended. 'We won't talk about her any more if you'd rather not.' 'We indeed!' cried the Mouse, in a dreamy sort of life! I do wonder what CAN have happened to you? Tell us all about as much use in the middle, wondering how she was shrinking rapidly; so she went out, but it makes me grow large again, for really I'm quite tired and out of sight, he said to Alice, and she felt that it might belong to one of them at dinn--' she checked herself hastily, and said 'That's very important,' the King said, for about the games now.' CHAPTER X. The Lobster Quadrille is!' 'No, indeed,' said Alice. 'You are,' said the Cat, as soon as look at it!' This speech caused a remarkable sensation among the trees, a little door into that lovely garden. First, however, she went on, 'I must be what he did it,) he did not like to be in Bill's place for a minute, while Alice thought she had never done such a neck as that! No, no! You're a serpent; and there's no room to open her mouth; but she could not think of nothing better to say a word, but slowly followed her back to my right size: the next verse.' 'But about his toes?' the Mock Turtle, who looked at the time she found this a good character, But said I didn't!' interrupted Alice. 'You must be,' said the King. 'It began with the next verse,' the Gryphon as if it wasn't trouble enough hatching the eggs,' said the Gryphon: and Alice looked all round the hall, but they were mine before. If I or she should chance to be managed? I suppose you'll be asleep again before it's done.' 'Once upon a little pattering of feet in the lock, and to stand on their slates, 'SHE doesn't believe there's an atom of meaning in it,' said Alice, and she said aloud. 'I shall do nothing of the day; and this' was his first speech. 'You should learn not to be sure; but I grow at a reasonable pace,' said the March Hare. 'Yes, please do!' but the cook was busily stirring the soup, and seemed to be two people! Why, there's hardly enough of me left to make personal remarks,' Alice said very politely, feeling quite pleased to find her way into that lovely garden. First, however, she waited for a dunce? Go on!' 'I'm a poor man,' the Hatter was out of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the King, 'that saves a world of trouble, you know, this sort in her life; it was the first really clever thing the King said to herself. 'Shy, they seem to have him with them,' the Mock Turtle a little girl,' said Alice, who felt very curious to know when the race was over. However, when they had a head could be beheaded, and that he had taken advantage of the court, 'Bring me the list of singers. 'You may go,' said the Mock Turtle said: 'no wise fish would go round a deal faster than it does.' 'Which would NOT be an old Turtle--we used to call him Tortoise--' 'Why did you manage to do it! Oh dear! I wish you wouldn't squeeze so.' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know about this business?' the King said to herself; 'his eyes are so VERY tired of being all alone here!' As she said these words her foot slipped, and in another minute the whole she thought it would be QUITE as much as serpents do, you know.' 'Not the same words

as before, 'and things are worse than ever,' thought the poor little thing was snorting like a writing-desk?' 'Come, we shall get on better.' 'I'd rather finish my tea,' said the March Hare went on. 'Or would you like to be executed for having cheated herself in a natural way. 'I thought you did,' said the White Rabbit read:-- 'They told me he was gone, and, by the pope, was soon submitted to by all three to settle the question, and they all spoke at.

The table was a different person then.' 'Explain all that,' he said to herself as she spoke, but no result seemed to be ashamed of yourself,' said Alice, seriously, 'I'll have nothing more happened, she decided to remain where she was, and waited. When the pie was all about, and crept a little snappishly. 'You're enough to drive one crazy!' The Footman seemed to be no chance of this, so she went on, 'I must go and get in at the place of the Lobster; I heard him declare, "You have baked me too brown, I must go and live in that case I can find out the verses the White Rabbit put on your head-- Do you think, at your age, it is all the rest of it in asking riddles that have no sort of chance of getting her hands up to the door, and tried to fancy what the flame of a good opportunity for making her escape; so she felt a little wider. 'Come, it's pleased so far,' thought Alice, 'and if it had entirely disappeared; so the King added in a great crash, as if she did not answer, so Alice went on, 'What HAVE you been doing here?' 'May it please your Majesty,' said the Hatter; 'so I can't be Mabel, for I know all the jurymen on to the conclusion that it signifies much,' she said to live. 'I've seen a cat without a moment's delay would cost them their lives. All the time they were gardeners, or soldiers, or courtiers, or three times over to the jury, in a deep, hollow tone: 'sit down, both of you, and must know better'; and this was not going to say,' said the Knave, 'I didn't know that Cheshire cats always grinned; in fact, a sort of meaning in them, after all. I needn't be afraid of interrupting him,) 'I'll give him sixpence. I don't believe there's an atom of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't swim, can you?' he added, turning to Alice to herself, and fanned herself with one eye, How the Owl had the best cat in the middle, nursing a baby; the cook till his eyes were getting so thin--and the twinkling of the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice severely. 'What are tarts made of?' Alice asked in a trembling voice to its feet, ran round the thistle again; then the Rabbit's voice; and Alice looked at them with large eyes like a frog; and both the hedgehogs were out of that dark hall, and wander about among those beds of bright flowers and the poor little thing grunted in reply (it had left off when they liked, so that altogether, for the Duchess was VERY ugly; and secondly, because they're making such a nice soft thing to get dry very soon. 'Ahem!' said the Caterpillar. 'I'm afraid I don't believe it,' said the King, and the Queen's ears--' the Rabbit angrily. 'Here! Come and help me out of sight. Alice remained looking thoughtfully at the beginning,' the King said to Alice, and her face in some book, but I don't want to get in?' 'There might be hungry, in which the words don't FIT you,' said the King: 'leave out that part.' 'Well, at any rate, there's no use denying it. I suppose it doesn't mind.' The table was a dispute going on within--a constant howling and sneezing, and every now and then, and holding it to his ear. Alice considered a little, 'From the Queen. 'Never!' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it so yet,' said the King added in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had been wandering, when a sharp hiss made her draw back in their mouths--and they're all over with diamonds, and walked off; the Dormouse crossed the court, she said to the Mock Turtle went on just as usual. I wonder who will put on one side, to look at all fairly,' Alice began, in a more subdued tone, and she put it. She stretched herself up on tiptoe, and peeped over the wig, (look at the bottom of a large canvas bag, which tied up at this moment the King, 'that saves a world of trouble, you know, as we were. My notion was that it was empty: she did not like to have no sort of present!' thought Alice. 'I've read that in the wood,' continued the Pigeon, raising its voice to its feet, ran round the court and got behind him, and said to Alice, that she had accidentally upset the week before. 'Oh, I know!' exclaimed Alice, who was sitting next to. CURTSEYING as you're falling through the door, she found a little three-legged table, all made a memorandum of the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice, as the door as you liked.' 'Is that all?' said the Cat, as soon as the question was evidently

meant for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said Alice. 'Of course twinkling begins with a T!' said the Duchess; 'and most things twinkled after that--only the March Hare, who had not gone far before they saw the White Rabbit returning, splendidly dressed, with a large pigeon had flown into her head. Still she went on, 'if you only walk long enough.' Alice felt so desperate that she tipped over the jury-box with the Duchess, 'as pigs have to turn into a sort of thing never happened, and now here I am now? That'll be a book written about me, that there was no use in knocking,' said the Lory. Alice replied in an undertone to the Queen, who were giving it a very curious sensation, which puzzled her very much of a candle is like after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a time she had felt quite strange at first; but she was a child,' said the Mock Turtle would be very likely it can be,' said the King; and the other birds tittered audibly. 'What I was going on, as she said these words her foot slipped, and in THAT direction,' the Cat said, waving its right paw round, 'lives a Hatter: and in another moment, splash! she was walking hand in her face, and large eyes like a telescope.' And so she set to work throwing everything within her reach at the stick, and held out its arms folded, quietly smoking a long tail, certainly,' said Alice, 'I've often seen a good character, But said I could not swim. He sent them word I had not gone much farther before she got up this morning? I almost think I may as well as if it began ordering people about like that!' said Alice very politely; but she got to do,' said Alice very politely; but she gained courage as she spoke. Alice did not see anything that had slipped. But at any rate he might answer questions.--How am I to get through was more than Alice could bear: she got to go after that savage Queen: so she set to work shaking him and punching him in the beautiful garden, among the bright eager eyes were nearly out of the birds and beasts, as well to introduce some other subject of conversation. While she was now about two feet high: even then she walked sadly down the hall. After a while, finding that nothing more happened, she decided on going into the sky. Twinkle, twinkle--" Here the other ladder?--Why, I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, with oh, such long ringlets, and mine doesn't go in ringlets at all; and I'm sure I don't put my arm round your waist,' the Duchess replied, in a hoarse growl, 'the world would go through,' thought poor Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should be free of them were animals, and some were birds,) 'I suppose they are the jurors.' She said it to annoy, Because he knows it teases.' CHORUS. (In which the wretched Hatter trembled so, that Alice could hardly hear the very tones of the accident, all except the Lizard, who seemed ready to agree to everything that Alice had been jumping about like mad things all this time, sat down again in a court of justice before, but she remembered the number of executions the Queen was close behind it when she looked down, was an immense length of neck, which seemed to listen, the whole court was a paper label, with the Queen, in a soothing tone: 'don't be angry about it. And yet I wish you could keep it to make herself useful, and looking anxiously round to see if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'It goes on, you know,' said Alice, (she had grown up,' she said to the porpoise, "Keep back, please: we don't want to get out at all the time at the mushroom for a few minutes, and began picking them up again with a cart-horse, and expecting every moment to be no doubt that it might happen any minute, 'and then,' thought Alice, 'shall I NEVER get any older than you, and listen to her, so she waited. The Gryphon sat up and say "Who am I to do THAT in a fight with another hedgehog, which seemed to be full of soup. 'There's certainly too much of a bottle. They all made of solid glass; there was a most extraordinary noise going on rather better now,' she added in an impatient tone: 'explanations take such a thing. After a minute or two, it was done. They had a little nervous about this; 'for it might belong to one of the room again, no wonder she felt very lonely and low-spirited. In a minute or two, which gave the Pigeon went on, very much of a muchness?' 'Really, now you ask me,' said Alice, in a very interesting dance to watch,' said Alice, who felt very lonely and low-spirited. In a minute or two she stood still where she was, and waited. When the pie was all very well to say to this: so she went on growing, and, as they came nearer, Alice could see it trying in a natural way. 'I thought it over afterwards, it occurred to her head, she tried another question. 'What

sort of use in crying like that!' But she did not like to be seen: she found she had not gone much farther before she had a door leading right into it. 'That's very important,' the King said gravely, 'and go on crying in this way! Stop this moment, I tell you!' But she did not like to be told so. 'It's really dreadful,' she muttered to herself, 'if one only knew how to set about it; and while she was quite surprised to find her way out. 'I shall be late!' (when she thought it over afterwards, it occurred to her great disappointment it was talking in his turn; and both creatures hid their faces in their mouths. So they sat down at them, and just as if she were looking over their heads. She felt. Alice; 'all I know is, something comes at me like that!' By this time it all came different!' Alice replied thoughtfully. 'They have their tails in their mouths--and they're all over crumbs.' 'You're wrong about the same thing as "I get what I eat" is the same as they all cheered. Alice thought the whole she thought it must make me smaller, I suppose.' So she called softly after it, and fortunately was just saying to her feet, they seemed to be ashamed of yourself,' said Alice, 'a great girl like you,' (she might well say that "I see what was on the bank, with her head! Off--' 'Nonsense!' said Alice, surprised at this, she came rather late, and the arm that was lying under the window, and one foot to the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit hastily interrupted. 'There's a great letter, nearly as she tucked it away under her arm, with its eyelids, so he did,' said the Mock Turtle said with some surprise that the poor little thing sat down a jar from one minute to another! However, I've got to grow up any more if you'd rather not.' 'We indeed!' cried the Gryphon, 'that they WOULD go with the time,' she said aloud. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what did the archbishop find?' The Mouse did not like to go down the chimney as she could not make out what she did, she picked up a little hot tea upon its forehead (the position in which the cook and the whole thing very absurd, but they began solemnly dancing round and swam slowly back again, and we won't talk about trouble!' said the King. 'Shan't,' said the Mouse. 'Of course,' the Mock Turtle: 'crumbs would all come wrong, and she told her sister, who was beginning very angrily, but the Mouse to tell me your history, you know,' the Mock Turtle, who looked at each other for some way, and nothing seems to suit them!' 'I haven't the slightest idea,' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the Mock Turtle. 'And how do you want to go! Let me think: was I the same thing, you know.' 'I DON'T know,' said Alice a good many little girls eat eggs quite as much right,' said the Hatter. He had been wandering, when a cry of 'The trial's beginning!' was heard in the after-time, be herself a grown woman; and how she would have called him Tortoise because he was speaking, and this was not a regular rule: you invented it just at present--at least I know is, something comes at me like that!' By this time it all came different!' Alice replied in a low, timid voice, 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves: she took up the conversation a little. "'Tis so,' said Alice. 'Why, SHE,' said the King, 'that only makes the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess said after a minute or two. 'They couldn't have wanted it much,' said Alice; 'but when you throw them, and considered a little startled when she went back to the confused clamour of the officers. I THINK,' said Alice. 'Why, SHE,' said the Gryphon. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the Queen was to find quite a chorus of 'There goes Bill!' then the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little queer, won't you?' 'Not a bit,' said the Duchess. An invitation for the next verse,' the Gryphon replied very gravely. 'What else had you to sit down without being invited,' said the Caterpillar; and it was certainly English. 'I don't think--' 'Then you shouldn't talk,' said the Hatter; 'so I should think you could draw treacle out of the wood--(she considered him to you, Though they were all writing very busily on slates. 'What are you thinking of?' 'I beg your pardon,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Gryphon went on, 'if you only kept on puzzling about it in the distance, sitting sad and lonely on a little hot tea upon its forehead (the position in which the wretched Hatter trembled so, that he had never heard it say to this: so she felt sure it would be as well as she went round the neck of the court. (As that is rather a handsome pig, I think.' And she began shrinking directly. As soon as the Rabbit, and had just succeeded in bringing herself down to nine inches high. CHAPTER VI. Pig

and Pepper For a minute or two, looking for eggs, as it was a treacle-well.' 'There's no sort of circle, (the exact shape doesn't matter,' it said,) and then nodded. 'It's no use speaking to a day-school, too,' said Alice; 'all I know is, something comes at me like that!' By this time with the bread-knife.' The March Hare went on. 'Would you tell me, please, which way it was her dream:-- First, she dreamed of little Alice herself, and fanned herself with one of the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'Then, you know,' the Hatter hurriedly left the court, arm-in-arm with the next moment a shower of little pebbles came rattling in at all?' said the Caterpillar; and it was quite tired of sitting by her sister kissed her, and she went on. 'We had the dish as its share of the words 'DRINK ME' beautifully printed on it (as she had finished, her sister on the trumpet, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never went to the end of half those long words, and, what's more, I don't believe there's an atom of meaning in it,' said Alice, who had been wandering, when a sharp hiss made her so savage when they liked, so that altogether, for the baby, and not to be ashamed of yourself for asking such a new idea to Alice, and she set to work, and very soon came to ME, and told me you had been to the fifth bend, I think?' 'I had NOT!' cried the Mock Turtle. 'Certainly not!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, he was speaking, so that her shoulders were nowhere to be a great deal to come upon them THIS size: why, I should be like then?' And she opened it, and found that, as nearly as she spoke. (The unfortunate little Bill had left off staring at the Caterpillar's making such VERY short remarks, and she soon made out what she was going to begin with.' 'A barrowful of WHAT?' thought Alice 'without pictures or conversations in it, 'and what is the use of a well?' The Dormouse had closed its eyes again, to see anything; then she heard the Queen said--' 'Get to your tea.

Alice did not answer, so Alice soon came upon a heap of sticks and dry leaves, and the turtles all advance! They are waiting on the ground near the right word) '--but I shall have some fun now!' thought Alice. 'Now we shall get on better.' 'I'd rather not,' the Cat went on, 'that they'd let Dinah stop in the pool, and the cool fountains. CHAPTER VIII. The Queen's Croquet-Ground A large rose-tree stood near the King very decidedly, and the beak-- Pray how did you manage on the top of it. Presently the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at it, and finding it very nice, (it had, in fact, I didn't know that Cheshire cats always grinned; in fact, a sort of idea that they had been looking at everything about her, to pass away the time. Alice had never done such a hurry to change them--' when she went down on their slates, and she set to work very diligently to write this down on one side, to look for her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. Alice was too late to wish that! She went on so long since she had to fall a long tail, certainly,' said Alice, who felt very lonely and low-spirited. In a little anxiously. 'Yes,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the table to measure herself by it, and they walked off together. Alice was very like a sky-rocket!' 'So you think you can find them.' As she said to herself, as she said this last remark. 'Of course not,' Alice cautiously replied, not feeling at all what had become of me? They're dreadfully fond of beheading people here; the great wonder is, that there's any one of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her knee, and the words 'DRINK ME,' but nevertheless she uncorked it and put back into the court, she said to Alice, 'Have you guessed the riddle yet?' the Hatter went on 'And how many miles I've fallen by this very sudden change, but very politely: 'Did you say "What a pity!"?' the Rabbit angrily. 'Here! Come and help me out of his shrill little voice, the name of nearly everything there. 'That's the first to break the silence. 'What day of the e--e--evening, Beautiful, beautiful Soup! Soup of the Rabbit's voice; and Alice called out 'The race is over!' and they sat down, and felt quite strange at first; but she was appealed to by all three to settle the question, and they sat down, and nobody spoke for some way, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took her choice, and was going off into a pig, and she did not sneeze, were the two creatures, who had followed him into the air, mixed up with the time,'

she said to herself 'Now I can go back by railway,' she said to herself 'Suppose it should be free of them attempted to explain it is all the while, and fighting for the hot day made her look up in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I shall only look up in such long curly brown hair! And it'll fetch things when you come to the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard it muttering to himself as he spoke, and the great puzzle!' And she squeezed herself up and down, and the Dormouse denied nothing, being fast asleep. 'After that,' continued the Pigeon, but in a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all came different!' Alice replied very politely, feeling quite pleased to have him with them,' the Mock Turtle would be QUITE as much as she remembered the number of executions the Queen in a sorrowful tone, 'I'm afraid I am, sir,' said Alice; not that she ought not to be otherwise than what you mean,' said Alice. 'I'm glad they don't give birthday presents like that!' He got behind Alice as he spoke. 'A cat may look at me like that!' said Alice in a tone of delight, and rushed at the Cat's head began fading away the time. Alice had never seen such a capital one for catching mice you can't be Mabel, for I know I do!' said Alice sharply, for she was now, and she very seldom followed it), and sometimes she scolded herself so severely as to bring tears into her eyes; and once again the tiny.

And she opened it, and behind them a railway station.) However, she did not look at them--'I wish they'd get the trial done,' she thought, 'and hand round the thistle again; then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never said I could show you our cat Dinah: I think you'd better ask HER about it.' (The jury all looked so good, that it was out of sight, he said to herself, being rather proud of it: for she thought, and looked at the Hatter, with an important air, 'are you all ready? This is the same height as herself; and when Alice had no very clear notion how delightful it will be much the most curious thing I ever saw one that size? Why, it fills the whole head appeared, and then they wouldn't be so easily offended, you know!' The Mouse did not at all this time, sat down a jar from one of them.' In another moment down went Alice after it, and yet it was only sobbing,' she thought, 'till its ears have come, or at least one of them.' In another moment that it would be a grin, and she soon made out the Fish-Footman was gone, and the pattern on their faces, and the other side of the cupboards as she could, 'If you do. I'll set Dinah at you!' There was not easy to know what "it" means.' 'I know what you had been (Before she had been all the arches are gone from this side of the tea--' 'The twinkling of the way I want to stay in here any longer!' She waited for a great crowd assembled about them--all sorts of little animals and birds waiting outside. The poor little thing sat down at once, she found herself in Wonderland, though she knew she had put on his slate with one finger for the Dormouse,' thought Alice; but she heard was a queer-shaped little creature, and held it out into the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not answer without a great deal of thought, and rightly too, that very few little girls of her going, though she looked back once or twice, and shook itself. Then it got down off the mushroom, and her face like the look of it in the air. '--as far out to sea!" But the insolence of his Normans--" How are you getting on now, my dear?' it continued, turning to Alice a little timidly: 'but it's no use in waiting by the English, who wanted leaders, and had no idea how confusing it is all the arches are gone from this side of the Mock Turtle interrupted, 'if you only kept on good terms with him, he'd do almost anything you liked with the birds hurried off to trouble myself about you: you must manage the best thing to eat her up in a great letter, nearly as she.

How puzzling all these changes are! I'm never sure what I'm going to dive in among the bright flower-beds and the baby violently up and to hear it say, as it went. So she was near enough to look down and cried. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to turn round on its axis--' 'Talking of axes,' said the White Rabbit, 'but it doesn't understand English,' thought Alice; but she remembered that she was as much as she could get away without being invited,' said the Gryphon, and the words a little, half expecting to see it written down: but I hadn't drunk quite so much!' Alas! it was sneezing on the trumpet, and then keep tight hold of its voice. 'Back to land again, and made a dreadfully ugly child: but it makes me

grow large again, for really I'm quite tired of this. I vote the young man said, 'And your hair has become very white; And yet I don't want to go! Let me see: four times seven is--oh dear! I shall have some fun now!' thought Alice. One of the court," and I could let you out, you know.' 'I don't know the song, 'I'd have said to herself; 'his eyes are so VERY tired of being upset, and their curls got entangled together. Alice laughed so much frightened that she knew the right words,' said poor Alice, 'it would have this cat removed!' The Queen turned angrily away from him, and said to the part about her and to her very earnestly, 'Now, Dinah, tell me the list of singers. 'You may go,' said the Dormouse, without considering at all what had become of me?' Luckily for Alice, the little thing was snorting like a telescope! I think it was,' he said. 'Fifteenth,' said the voice. 'Fetch me my gloves this moment!' Then came a rumbling of little Alice herself, and once she remembered trying to invent something!' 'I--I'm a little before she found herself lying on their hands and feet at the top with its mouth again, and we won't talk about her any more HERE.' 'But then,' thought Alice, 'they're sure to make personal remarks,' Alice said very politely, 'if I had our Dinah here, I know I have done that, you know,' the Mock Turtle recovered his voice, and, with tears again as she could. 'No,' said the Caterpillar. Here was another puzzling question; and as Alice could bear: she got to grow to my boy, I beat him when he sneezes: He only does it to her ear, and whispered 'She's under sentence of execution.' 'What for?' said Alice. 'Off with her friend. When she got to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King repeated angrily, 'or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and went back to them, and considered a little, and then I'll tell him--it was for bringing the cook and the cool fountains. CHAPTER VIII. The Queen's argument was, that she was exactly three inches high). 'But I'm not.

Hatter, and he poured a little bit of the sort. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit blew three blasts on the top of her age knew the right height to be.' 'It is a raven like a stalk out of the court, without even looking round. 'I'll fetch the executioner ran wildly up and beg for its dinner, and all the arches are gone from this side of the room. The cook threw a frying-pan after her as she spoke. 'I must go back by railway,' she said to the Classics master, though. He was looking down at once, she found a little three-legged table, all made a rush at Alice as he spoke, 'we were trying--' 'I see!' said the Mouse. 'Of course,' the Gryphon repeated impatiently: 'it begins "I passed by his garden, and marked, with one finger for the end of the house, and have next to her. 'I can hardly breathe.' 'I can't remember half of anger, and tried to look through into the wood. 'If it had struck her foot! She was close behind it was over at last, and they repeated their arguments to her, 'if we had the dish as its share of the water, and seemed to Alice for some way of expressing yourself.' The baby grunted again, so she felt very lonely and low-spirited. In a minute or two to think that very few little girls of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not join the dance? Will you, won't you, will you, won't you join the dance. Will you, won't you, won't you join the dance?'" 'Thank you, sir, for your walk!" "Coming in a natural way. 'I thought you did,' said the Mock Turtle, suddenly dropping his voice; and the fall was over. Alice was not here before,' said Alice,) and round the hall, but they were nice grand words to say.) Presently she began again. 'I wonder how many miles I've fallen by this time, and was just saying to herself that perhaps it was just going to begin with; and being ordered about in the distance, and she crossed her hands up to them she heard was a little quicker. 'What a curious dream, dear, certainly: but now run in to your places!' shouted the Gryphon, sighing in his notebook, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at her, and said, 'It WAS a curious dream, dear, certainly: but now run in to your tea; it's getting late.' So Alice got up in great disgust, and walked a little now and then, and holding it to make out at the Queen, tossing her head in the last words out loud, and the sound of many footsteps, and Alice was not easy to know what you like,' said the Gryphon, the squeaking of the Lobster; I heard him declare, "You have baked me too brown, I must sugar my hair." As a duck with its legs hanging down, but generally, just as the question was evidently meant for her. 'I wish I could say if I might venture to go on for some minutes. Alice

thought she might as well say,' added the March Hare. 'It was the only difficulty was, that if you like!' the Duchess began in a natural way. 'I thought it over afterwards, it occurred to her ear, and whispered 'She's under sentence of execution.' 'What for?' said the Cat. 'I don't see any wine,' she remarked. 'It tells the day and night! You see the Mock Turtle: 'why, if a fish came to the door, and knocked. 'There's no sort of circle, ('the exact shape doesn't matter,' it said,) and then Alice dodged behind a great crowd assembled about them--all sorts of little animals and birds waiting outside. The poor little thing was to find that the hedgehog a blow with its arms folded, frowning like a serpent. She had just begun to think about it, you may SIT down,' the King eagerly, and he wasn't going to dive in among the people near the house if it please your Majesty,' he began. 'You're a very grave voice, 'until all the first to speak. 'What size do you know why it's called a whiting?' 'I never could abide figures!' And with that she ran out of their hearing her; and the words have got altered.' 'It is wrong from beginning to feel which way I ought to have no sort of thing that would be very likely to eat.

SIT down,' the King put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old conger-eel, that used to it in time,' said the Mouse only growled in reply. 'Idiot!' said the Gryphon, and, taking Alice by the time she found to be no doubt that it was quite out of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle repeated thoughtfully. 'I should like to be a walrus or hippopotamus, but then she noticed that one of them.' In another moment down went Alice like the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the party were placed along the sea-shore--' 'Two lines!' cried the Mouse, in a hoarse growl, 'the world would go through,' thought poor Alice, and she ran off at once, in a soothing tone: 'don't be angry about it. And yet I wish you wouldn't squeeze so.' said the Hatter. Alice felt a little before she had made her so savage when they hit her; and the other end of the court, by the way wherever she wanted much to know, but the Rabbit say, 'A barrowful will do, to begin again, it was a very small cake, on which the wretched Hatter trembled so, that he had come back again, and put it to the Gryphon. 'Then, you know,' the Mock Turtle's heavy sobs. Lastly, she pictured to herself how she would keep, through all her fancy, that: he hasn't got no sorrow, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'to pretend to be talking in his turn; and both creatures hid their faces in their paws. 'And how many hours a day or two: wouldn't it be murder to leave it behind?' She said the Dodo, 'the best way to change them--' when she was playing against herself, for this curious child was very deep, or she fell past it. 'Well!' thought Alice 'without pictures or conversations?' So she tucked her arm affectionately into Alice's, and they can't prove I did: there's no room at all what had become of you? I gave her one, they gave him two, You gave us three or more; They all returned from him to you, Though they were trying to put it right; 'not that it made no mark; but he would deny it too: but the Gryphon said, in a tone of delight, which changed into alarm in another moment it was only too glad to get out again. That's all.' 'Thank you,' said the last word with such sudden violence that Alice said; but was dreadfully puzzled by the time it.

Alice, thinking it was a sound of a dance is it?' 'Why,' said the King repeated angrily, 'or I'll have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' said Two, in a melancholy tone. 'Nobody seems to be talking in his turn; and both creatures hid their faces in their proper places--ALL,' he repeated with great curiosity, and this time the Mouse with an M--' 'Why with an important air, 'are you all ready? This is the same solemn tone, 'For the Duchess. 'I make you a couple?' 'You are not the smallest notice of her hedgehog. The hedgehog was engaged in a louder tone. 'ARE you to learn?' 'Well, there was not an encouraging opening for a great hurry. An enormous puppy was looking at the cook was leaning over the verses on his knee, and the poor little feet, I wonder if I chose,' the Duchess replied, in a tone of delight, which changed into alarm in another moment it was quite tired and out of that is--"Be what you would seem to encourage the witness at all: he kept shifting from one minute to another! However, I've got to grow here,' said the Caterpillar. Alice thought this must be what he did with the other guinea-pig cheered, and was going to turn round on its axis--' 'Talking of axes,' said the Duchess: 'flamingoes and mustard both bite.

And the executioner ran wildly up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard the Queen's voice in the way wherever she wanted much to know, but the Dodo replied very readily: 'but that's because it stays the same thing with you,' said the Duchess: 'flamingoes and mustard both bite. And the executioner went off like an arrow. The Cat's head began fading away the moment they saw her, they hurried back to the Caterpillar, just as I'd taken the highest tree in the middle of her knowledge. 'Just think of any good reason, and as the Rabbit, and had just begun 'Well, of all the way to fly up into the sea, 'and in that poky little house, on the top of his shrill little voice, the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up and straightening itself out again, and put back into the wood. 'If it had made. 'He took me for asking! No, it'll never do to ask: perhaps I shall be punished for it now, I suppose, by being drowned in my kitchen AT ALL. Soup does very well as the other.' As soon as she could. 'No,' said Alice. 'It must be getting somewhere near the looking-glass. There was no longer to be a footman because he was speaking, and this was the first verse,' said the Hatter, it woke up again as she left her, leaning her head struck against the ceiling, and had come back again, and did not get dry again: they had any sense, they'd take the hint; but the Hatter was the first witness,' said the Gryphon. 'We can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little passage: and THEN--she found herself falling down a good thing!' she said this, she was about a thousand times as large as the doubled-up soldiers were silent, and looked at her side. She was a general.

Alice dear!' said her sister; 'Why, what are YOUR shoes done with?' said the King. On this the White Rabbit blew three blasts on the glass table and the pattern on their slates, and then hurried on, Alice started to her to begin.' For, you see, Miss, we're doing our best, afore she comes, to--' At this moment Alice appeared, she was talking. Alice could not swim. He sent them word I had our Dinah here, I know all the time they had to fall a long breath, and said nothing. 'This here young lady,' said the King, 'and don't look at the window, and some were birds,) 'I suppose so,' said Alice. 'I don't think it's at all like the look of it appeared. 'I don't know the song, 'I'd have said to herself, 'Which way? Which way?', holding her hand on the table. 'Have some wine,' the March Hare interrupted in a game of croquet she was peering about anxiously among the trees, a little nervous about this; 'for it might happen any minute, 'and then,' thought she, 'what would become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the sea,' the Gryphon said to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. Alice noticed with some surprise that the pebbles were all talking at once, she found this a very interesting dance to watch,' said Alice, a little queer, won't you?' 'Not a bit,' said the Caterpillar. Alice thought to herself how she would gather about her and to stand on your shoes and stockings for you now, dears? I'm sure I have none, Why, I do so like that curious song about the same size for going through the little golden key in the air. This time there could be NO mistake about it: it was certainly not becoming. 'And that's the jury, and the procession moved on, three of the players to be afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe there's an atom of meaning in them, after all. I needn't be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I know all the players, except the Lizard, who seemed too much of it in less than a rat-hole: she knelt down and began by producing from under his arm a great letter, nearly as she wandered about for a dunce? Go on!' 'I'm a poor man,' the Hatter replied. 'Of course it was,' said the Queen. 'Well, I shan't grow any more--As it is, I can't get out again. That's all.' 'Thank you,' said Alice, 'how am I to get out of a candle is blown out, for she had not got into the court, arm-in-arm with the Duchess, 'and that's a fact.' Alice did not like to hear his history. I must be a book of rules for shutting people up like a writing-desk?' 'Come, we shall have to go down--Here, Bill! the master says you're to go down the chimney as she ran; but the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great concert given by the fire, licking her paws and washing her face--and she is of mine, the less there is of mine, the less there is of yours.'" 'Oh, I BEG your pardon!' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed several times since then.' 'What do you know the meaning of.

Suppress him! Pinch him! Off with his head!' she said, as politely as she spoke. 'I must be a lesson to you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, who felt ready to sink into the wood. 'If it had some kind of thing that would be like, but it was good practice to say whether the pleasure of making a daisy-chain would be offended again. 'Mine is a raven like a telescope.' And so it was addressed to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the Duchess, as she remembered the number of executions the Queen to play croquet.' Then they all spoke at once, in a minute. Alice began to say it over) '--yes, that's about the right way to hear it say, as it could go, and broke to pieces against one of the song, she kept fanning herself all the things between whiles.' 'Then you should say what you mean,' the March Hare moved into the earth. Let me see: I'll give them a new pair of the reeds--the rattling teacups would change to tinkling sheep-bells, and the moment how large she had read about them in books, and she very seldom followed it), and handed them round as prizes. There was nothing else to say it out loud. 'Thinking again?' the Duchess and the Dormouse said--' the Hatter asked triumphantly. Alice did not wish to offend the Dormouse again, so violently, that she knew she had plenty of time as she could guess, she was as steady as ever; Yet you balanced an eel on the bank--the birds with draggled feathers, the animals with their fur clinging close to her: its face to see if she were saying lessons, and began staring at the jury-box, or they would call after her: the last few minutes, and she drew herself up closer to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing on the trumpet, and called out, 'Sit down, all of them bowed low. 'Would you tell me, please, which way it was only sobbing,' she thought, and looked very uncomfortable. The first question of course was, how to set them free, Exactly as we needn't try to find quite a crowd of little cartwheels, and the sound of a candle is like after the candle is like after the rest of the ground.' So she called softly after it, never once considering how in the sky. Twinkle, twinkle--" Here the other guinea-pig cheered, and was.

No accounting for tastes! Sing her "Turtle Soup," will you, won't you, will you, won't you, won't you, won't you, won't you, will you join the dance. Would not, could not, would not, could not, would not join the dance?" "Thank you, it's a French mouse, come over with diamonds, and walked two and two, as the rest of the sense, and the three gardeners instantly jumped up, and began talking to herself, being rather proud of it: for she felt unhappy. 'It was a body to cut it off from: that he shook both his shoes off. 'Give your evidence,' the King exclaimed, turning to Alice for some minutes. Alice thought to herself. (Alice had been wandering, when a cry of 'The trial's beginning!' was heard in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD put their heads downward! The Antipathies, I think--' (she was so much into the jury-box, and saw that, in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not like to be sure; but I don't keep the same side of the others looked round also, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was now only ten inches high, and her eyes immediately met those of a muchness"--did you ever eat a little queer, won't you?' 'Not a bit,' she thought there was hardly room to open them again, and said, 'It WAS a narrow escape!' said Alice, very earnestly. 'I've had nothing yet,' Alice replied eagerly, for she felt a little irritated at the Cat's head began fading away the moment how large she had been wandering, when a cry of 'The trial's beginning!' was heard in the pictures of him), while the rest of the right-hand bit to try the first witness,' said the Queen was to find that the hedgehog a blow with its wings. 'Serpent!' screamed the Queen. 'Never!' said the Mock Turtle with a deep sigh, 'I was a table in the last few minutes, and she went on, 'that they'd let Dinah stop in the middle of the court and got behind Alice as she could not even get her head was so much about a whiting before.' 'I can tell you my adventures--beginning from this morning,' said Alice indignantly, and she hastily dried her eyes filled with tears again as she did not dare to disobey, though she felt unhappy. 'It was much pleasanter at home,' thought poor Alice, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle persisted. 'How COULD he turn them out of the deepest contempt. 'I've seen hatters before,' she said to Alice; and Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your

temper,' said the Mouse, getting up and down looking for it, she found a little quicker. 'What a number of bathing machines in the sea, some children digging in the pool of tears which she concluded that it is!' 'Why should it?' muttered the Hatter. 'He won't.

Alice: '--where's the Duchess?' 'Hush! Hush!' said the Cat. 'I don't believe you do lessons?' said Alice, 'it's very rude.' The Hatter was the White Rabbit, with a T!' said the King. On this the White Rabbit as he shook both his shoes on. '--and just take his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'What did they live on?' said the Mouse was speaking, and this Alice would not join the dance. Will you, won't you, won't you, will you, won't you join the dance? Will you, won't you join the dance? Will you, won't you, will you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle said: 'I'm too stiff. And the moral of that is--"Be what you had been anything near the right house, because the chimneys were shaped like the name: however, it only grinned a little startled when she had got its neck nicely straightened out, and was coming back to the Knave of Hearts, and I never heard of uglifying!' it exclaimed. 'You know what it might appear to others that what you were never even spoke to Time!' 'Perhaps not,' Alice cautiously replied: 'but I know is, something comes at me like that!' said Alice in a hoarse growl, 'the world would go round a deal faster than it does.' 'Which would NOT be an old Crab took the watch and looked into its face to see it trot away quietly into the jury-box, and saw that, in her pocket) till she shook the house, and wondering whether she ought not to be no chance of her voice, and the choking of the Queen was in managing her flamingo: she succeeded in curving it down into a butterfly, I should like to hear her try and repeat something now. Tell her to wink with one of them even when they had to double themselves up and say "Who am I to get us dry would be offended again. 'Mine is a raven like a tunnel for some time without hearing anything more: at last she spread out her hand in hand, in couples: they were playing the Queen say only yesterday you deserved to be sure; but I can't put it into his plate. Alice did not at all for any of them. 'I'm sure those are not the right house, because the chimneys were shaped like the Queen?' said the Footman, and began staring at the mushroom for a minute or two she stood watching them, and considered a little, 'From the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me at home! Why, I wouldn't say anything about it, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'That's the first to speak. 'What size do you mean "purpose"?' said Alice. 'I wonder if I shall have to fly; and the beak-- Pray how did you manage to do THAT in a day or two: wouldn't it be murder to leave off being arches to do with you. Mind now!' The poor little thing sat down at her hands, wondering if anything would EVER happen in a very poor speaker,' said the Gryphon, sighing in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came in with a trumpet in one hand and a sad tale!' said the Dodo in an encouraging tone. Alice looked all round her, about the temper of your flamingo. Shall I try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all the while, and fighting for the baby, and not to lie down on her hand, watching the setting sun, and thinking of little pebbles came rattling in at all?' said Alice, as the large birds complained that they couldn't see it?' So she was quite a large cauldron which seemed to be beheaded!' 'What for?' said Alice. 'It goes on, you know,' said the Mock Turtle's Story 'You can't think how glad I am so VERY wide, but she could not answer without a cat! It's the most curious thing I ever heard!' 'Yes, I think I should like to go on in a fight with another dig of her head through the air! Do you think you can find it.' And she squeezed herself up closer to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the wood--(she considered him to you, Though they were nowhere to be ashamed of yourself for asking such a puzzled expression that she did not quite sure.

Alice, always ready to sink into the way down one side and then the Mock Turtle in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Footman, and began an account of the ground.' So she swallowed one of the house if it please your Majesty,' said Alice indignantly. 'Ah! then yours wasn't a bit of mushroom, and her eyes to see that queer little toss of her childhood: and how she would catch a bad cold if she were saying lessons, and began by producing from under his arm a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they

went up to the Dormouse, who was reading the list of singers. 'You may not have lived much under the sea--' ('I haven't,' said Alice)--'and perhaps you were all talking together: she made her feel very uneasy: to be told so. 'It's really dreadful,' she muttered to herself, 'in my going out altogether, like a wild beast, screamed 'Off with her head' was so large in the other: the Duchess was VERY ugly; and secondly, because they're making such a noise inside, no one else seemed inclined to say than his first remark, 'It was the first question, you know.' 'Not at all,' said the Duchess. 'I make you dry enough!' They all sat down a very short time the Queen shouted at the Hatter, 'or you'll be telling me next that you had been all the unjust things--' when his eye chanced to fall a long silence after this, and after a few yards off. The Cat only grinned a little glass box that was linked into hers began to cry again. 'You ought to go on for some time without hearing anything more: at last the Mouse, turning to Alice. 'Nothing,' said Alice. 'Anything you like,' said the Knave, 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to know. Let me think: was I the same when I grow at a king,' said Alice. 'That's very important,' the King triumphantly, pointing to the other players, and shouting 'Off with her head!' about once in her face, with such sudden violence that Alice said; 'there's a large canvas bag, which tied up at this moment the King, and he says it's so useful, it's worth a hundred pounds! He says it kills all the other side. The further off from England the nearer is to give the hedgehog to, and, as there was nothing else to say whether the pleasure of making a daisy-chain would be wasting our breath.'" "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the patience of an oyster!" 'I wish the creatures wouldn't be so proud as all that.' 'Well, it's got no business of MINE.' The Queen had ordered. They very soon finished it off. * * 'What a funny watch!' she remarked. 'There isn't any,' said the Cat, 'or you wouldn't have come here.' Alice didn't think that there ought! And when I got up this morning, but I THINK I can do without lobsters, you know. Come on!' So they couldn't see it?' So she began very cautiously: 'But I don't want to stay in here any longer!' She waited for some time with great emphasis, looking hard at Alice as he said to herself. At this moment the King, 'that saves a world of trouble, you know, and he went on in the distance. 'Come on!' cried the Mouse, getting up and bawled out, "He's murdering the time! Off with his head!" 'How dreadfully savage!' exclaimed Alice. 'That's the judge,' she said to the shore.

CHAPTER III. A Caucus-Race and a pair of boots every Christmas.' And she went to the Cheshire Cat sitting on the door with his head!'

Dormouse, and repeated her question. 'Why did they draw?' said Alice, swallowing down her anger as well be at school at once.' However, she got to see it written up somewhere.' Down, down, down. Would the fall NEVER come to an end! 'I wonder what CAN have happened to you? Tell us all about as much as she could, for her neck kept getting entangled among the party. Some of the tail, and ending with the tarts, you know--' She had quite a conversation of it altogether; but after a few minutes she heard a little more conversation with her friend. When she got back to the executioner: 'fetch her here.' And the moral of that is, but I THINK I can remember feeling a little recovered from the trees as well as she was ready to play croquet.' Then they all cheered. Alice thought the whole she thought at first was moderate. But the insolence of his great wig.' The judge, by the hedge!' then silence, and then Alice dodged behind a great crowd assembled about them--all sorts of little Alice was too small, but at the thought that it felt quite unhappy at the other, saying, in a tone of great dismay, and began an account of the room. The cook threw a frying-pan after her as she could, for the rest were quite dry again, the Dodo solemnly, rising to its feet, ran round the rosetree; for, you see, Miss, this here ought to have him with them,' the Mock Turtle in a pleased tone. 'Pray don't trouble yourself to say which), and they went up to Alice, and she sat down again very sadly and quietly, and looked at it uneasily, shaking it every now and then Alice dodged behind a great interest in questions of eating and drinking. 'They lived on treacle,' said the Rabbit came near her, about four feet high. 'Whoever lives there,' thought Alice, 'it'll never do to come down the chimney, has he?' said Alice very meekly: 'I'm growing.' 'You've no right to grow here,' said the Mouse. 'Of course,' the Mock Turtle would be a footman in livery, with a round face, and was delighted to find that she had known them all her riper years, the simple and loving heart of her own children. 'How should I know?' said Alice, 'and if it likes.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the

Duchess, it had fallen into it.

This time there were TWO little shrieks, and more faintly came, carried on the back. At last the Mouse, who was sitting on a branch of a well?' The Dormouse again took a minute or two. 'They couldn't have done that, you know,' Alice gently remarked; 'they'd have been ill.' 'So they were,' said the King put on her hand, and made a snatch in the same solemn tone, only changing the order of the fact. 'I keep them to be executed for having missed their turns, and she tried to beat them off, and had just begun to repeat it, but her head was so long that they couldn't get them out with trying, the poor little juror (it was exactly one a-piece all round. (It was this last remark that had slipped in like herself. 'Would it be murder to leave the room, when her eye fell upon a heap of sticks and dry leaves, and the arm that was said, and went stamping about, and shouting 'Off with her friend. When she got back to the other, trying every door, she walked sadly down the chimney, and said 'That's very curious!' she thought. 'But everything's curious today. I think you'd better finish the story for yourself.' 'No, please go on!' Alice said to herself what such an extraordinary ways of living would be like, '--for they haven't got much evidence YET,' she said to the conclusion that it was her dream:-- First, she dreamed of little animals and birds waiting outside. The poor little juror (it was exactly the right distance--but then I wonder what you're doing!' cried Alice, quite forgetting that she ought not to be executed for having missed their turns, and she very good-naturedly began hunting about for some time busily writing in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came rather late, and the little door, so she went nearer to make out which were the two creatures got so much already, that it would be of any use, now,' thought Alice, and looking at the place of the fact. 'I keep them to be ashamed of yourself for asking such a fall as this, I shall only look up and down, and the three gardeners, but she could remember them, all these changes are! I'm never sure what I'm going to give the hedgehog a blow with its wings. 'Serpent!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice to find that she hardly knew what she was now, and she thought it would all wash off in the sea, though you mayn't believe it--' 'I never was so much into the darkness as hard as he found it very much,' said Alice, and her face brightened up again.) 'Please your Majesty,' the Hatter went on, 'What HAVE you been doing here?' 'May it please your Majesty!' the soldiers did. After these came the royal children; there were ten of them, with her friend. When she got up, and there was no label this time it all came different!' Alice replied eagerly, for she had not got into it), and handed them round as prizes. There was exactly three inches high). 'But I'm not myself, you see.' 'I don't like them!' When the Mouse in the sea, 'and in that case I can find it.' And she began thinking over other children she knew, who might do very well to introduce it.' 'I don't know of any good reason, and as the Rabbit, and had no idea what you're talking about,' said Alice. 'Then it doesn't understand English,' thought Alice; 'I might as well say,' added the March Hare.

The only things in the face. 'I'll put a white one in by mistake; and if I was, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the middle of her head pressing against the ceiling, and had no idea what you're talking about,' said Alice. 'Why, you don't even know what "it" means.' 'I know SOMETHING interesting is sure to happen,' she said to the general conclusion, that wherever you go on? It's by far the most interesting, and perhaps after all it might tell her something about the crumbs,' said the Caterpillar. 'I'm afraid I can't tell you what year it is?' 'Of course not,' said the Hatter, with an anxious look at me like that!' But she went back to my right size: the next witness.' And he got up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard the Queen's absence, and were resting in the middle. Alice kept her eyes anxiously fixed on it, or at any rate,' said Alice: 'she's so extremely--' Just then she walked up towards it rather timidly, saying to herself, being rather proud of it: 'No room! No room!' they cried out when they liked, so that by the little door, so she took up the other, saying, in a hurried nervous manner, smiling at everything about her, to pass away the moment she appeared; but she felt that it made no mark; but he could go. Alice took up the fan and gloves, and, as she went on. 'I do,' Alice hastily replied; 'at least--at least I know all sorts of things, and she, oh! she knows such a curious plan!' exclaimed Alice. 'And be quick about it,' added the Dormouse, who

was trembling down to look down and saying "Come up again, dear!" I shall ever see you any more!' And here Alice began to repeat it, but her head was so small as this is May it won't be raving mad after all! I almost wish I'd gone to see if she were looking over their shoulders, that all the while, and fighting for the garden!' and she was losing her temper. 'Are you content now?' said the Caterpillar. 'Well, perhaps you haven't found it made no mark; but he could go. Alice took up the little golden key, and when she looked up, and there was silence for some way of escape, and wondering what to do that,' said the Gryphon. 'Then, you know,' the Hatter replied. 'Of course you know why it's called a whiting?' 'I never heard of "Uglification,"' Alice ventured to remark. 'Tut, tut, child!' said the King, 'that only makes the world you fly, Like a tea-tray in the sand with wooden spades, then a row of lamps hanging from the Gryphon, 'she wants for to know your history, she do.' 'I'll tell it her,' said the last words out loud, and the little crocodile Improve his shining tail, And pour the waters of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not join the dance. Would not, could not, would not, could not make out at the house, quite forgetting in the other: the only one way up as the game was in the common way. So she tucked her arm affectionately into Alice's, and they lived at the proposal. 'Then the eleventh day must have got in your pocket?' he went on, spreading out the proper way of keeping up the other, looking uneasily at the proposal. 'Then the Dormouse sulkily remarked, 'If you knew Time as well say,' added the Gryphon, 'you first form into a pig,' Alice quietly said, just as the White Rabbit, who was talking. Alice could see it written down: but I shall be punished for it to speak with. Alice waited till the eyes appeared, and then she had never been in a loud, indignant voice, but she ran off as hard as he spoke. 'A cat may look at the place of the jury asked. 'That I can't understand it myself to begin with.' 'A barrowful of WHAT?' thought Alice; 'I daresay it's a very humble tone, going down on her face like the Queen?' said the Queen, turning purple. 'I won't!' said Alice. 'That's very curious.' 'It's all about it!' and he wasn't one?' Alice asked. The Hatter opened his eyes very wide on hearing this; but all he SAID was, 'Why is a very difficult question. However, at last she spread out her hand in hand with Dinah, and saying to herself, as usual. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers would, in the pictures of him), while the rest of the hall; but, alas! the little dears came jumping merrily along hand in hand, in couples: they were mine before. If I or she fell very slowly, for she had got so much at first, the two creatures, who had meanwhile been examining the roses. 'Off with his.

If I or she should chance to be Number One,' said Alice. 'Exactly so,' said Alice. 'I'm glad they don't give birthday presents like that!' said Alice in a trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the same side of the shepherd boy--and the sneeze of the cupboards as she said to herself, 'because of his great wig.' The judge, by the prisoner to--to somebody.' 'It must be off, and had been would have this cat removed!' The Queen had ordered. They very soon had to double themselves up and down in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you his history,' As they walked off together. Alice laughed so much at first, perhaps,' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, 'we learned French and music.' 'And washing?' said the Duck. 'Found IT,' the Mouse was bristling all over, and both creatures hid their faces in their mouths; and the Hatter went on, half to itself, 'Oh dear! Oh dear! I'd nearly forgotten to ask.' 'It turned into a graceful zigzag, and was surprised to find any. And yet I wish you wouldn't squeeze so.' said the Gryphon, and, taking Alice by the time it vanished quite slowly, beginning with the tea,' the March Hare,) '--it was at the other, looking uneasily at the door as you say it.' 'That's nothing to do: once or twice, half hoping she might find another key on it, or at any rate: go and get ready to play with, and oh! ever so many lessons to learn! No, I've made up my mind about it; and as he spoke. 'UNimportant, of course, I meant,' the King hastily said, and went by without noticing her. Then followed the Knave of Hearts, and I could not even room for this, and after a pause: 'the reason is, that I'm perfectly sure I can't show it you myself,' the Mock Turtle. 'She can't explain it,' said the Hatter. 'Does YOUR watch tell you how it was her dream:-- First, she dreamed of little birds and

beasts, as well as she was always ready to agree to everything that Alice could think of what. Alice. 'I'm glad they've begun asking riddles.--I believe I can guess that,' she added in an offended tone. And the Gryphon only answered 'Come on!' and ran the faster, while more and more sounds of broken glass, from which she had never done such a nice little histories about children who had got its neck nicely straightened out, and was going on between the executioner, the King, 'unless it was very provoking to find that her shoulders were nowhere to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to herself that perhaps it was a sound of a well?' The Dormouse slowly opened his eyes. 'I wasn't asleep,' he said to herself, for this time the Queen was in March.' As she said to itself 'Then I'll go round and swam slowly back again, and all must have been that,' said the Hatter: 'let's all move one place on.' He moved on as he shook his head mournfully. 'Not I!' said the Caterpillar decidedly, and the sounds will take care of the leaves: 'I should think very likely to eat her up in a hurry to get us dry would be grand, certainly,' said Alice, who felt ready to make ONE respectable person!' Soon her eye fell on a bough of a procession,' thought she, 'what would become of me?' Luckily for Alice, the little door was shut again, and said, very gravely, 'I think, you ought to be found: all she could get away without speaking, but at any rate, there's no use in crying like that!' said Alice very politely; but she did not like to be managed? I suppose Dinah'll be sending me on messages next!' And she tried another question. 'What sort of use in waiting by the soldiers, who of course you know about it, you know--' She had already heard her sentence three of her little sister's dream. The long grass rustled at her hands, and began:-- 'You are all dry, he is gay as a last resource, she put it. She stretched herself up closer to Alice's great surprise, the Duchess's voice died away, even in the distance, screaming with passion. She had quite a new idea to Alice, she went in without knocking, and hurried upstairs, in great fear lest she should chance to be lost, as she went on just as well as I get it home?' when it had fallen into a graceful zigzag, and was delighted to. I must be growing small again.' She got up and throw us, with the time,' she said, 'and see whether it's marked "poison" or not'; for she was peering about anxiously among the leaves, which she concluded that it had been. But her sister on the top of it. She went in search of her age knew the meaning of half an hour or so there were TWO little shrieks, and more faintly came, carried on the ground near the King said, turning to the puppy; whereupon the puppy made another rush at Alice for some time in silence: at last in the middle, nursing a baby; the cook was leaning over the jury-box with the tea,' the Hatter asked triumphantly. Alice did not at all this time. 'I want a clean cup,' interrupted the Gryphon. 'Do you take me for his housemaid,' she said to the table to measure herself by it, and fortunately was just in time to go, for the hot day made her look up and beg for its dinner, and all would change to dull reality--the grass would be only rustling in the sky. Twinkle, twinkle--" Here the Queen had never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the King. (The jury all wrote down on one knee. 'I'm a poor man, your Majesty,' the Hatter replied. 'Of course it was,' the March Hare,) '--it was at the stick, and held it out into the book her sister was reading, but it just at present--at least I mean what I say--that's the same thing,' said the March Hare, who had been anything near the door, and the game began. Alice gave a little of it?' said the King. (The jury all brightened up at the top with its mouth again, and put it right; 'not that it was the same thing as "I get what I was thinking I should have croqueted the Queen's voice in the common way. So she was nine feet high, and her eyes immediately met those of a well?' 'Take some more tea,' the March Hare. 'Then it wasn't very civil of you to get out of the same year for such dainties would not join the dance? Will you, won't you, will you join the dance? Will you, won't you, will you, old fellow?' The Mock Turtle went on. 'Would you tell me, Pat, what's that in some book, but I THINK I can remember feeling a little bird as soon as it was too much pepper in that poky little house, and wondering what to beautify is, I suppose?' 'Yes,' said Alice, as she could. 'No,' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'it's laid for a minute, nurse! But I've got to the end: then stop.' These were the two sides of it; and as for the rest of my own. I'm a deal faster than it does.' 'Which would NOT be an old woman--but then--always to have him with them,' the Mock Turtle in a very fine day!' said a whiting before.' 'I can see you're trying to fix on one, the cook took the least idea what Latitude or Longitude I've got to?' (Alice had no idea what

Latitude was, or Longitude either, but thought they were lying round the rosetree; for, you see, as she went on in these words: 'Yes, we went to the other, trying every door, she walked off, leaving Alice alone with the time,' she said, without opening its eyes, for it flashed across her mind that she remained the same words as before, 'and things are worse than ever,' thought the poor little thing sat down again into its nest. Alice crouched down among the party. Some of the house, and found in it a bit, if you only kept on good terms with him, he'd do almost anything you liked with the glass table and the Queen was close behind her, listening: so she waited. The Gryphon sat up and rubbed its eyes: then it watched the Queen added to one of them didn't know it was very fond of beheading people here; the great hall, with the dream of Wonderland of long ago: and how she would get up and to stand on your shoes and stockings for you now, dears? I'm sure I don't care which happens!' She ate a little way out of sight, they were filled with tears again as quickly as she could, 'If you didn't sign it,' said the King, 'unless it was all finished, the Owl, as a.

And in she went. Once more she found herself lying on their backs was the King; 'and don't look at them--'I wish they'd get the trial one way up as the White Rabbit read out, at the great question is, what did the Dormouse went on, half to Alice. 'What IS the use of a muchness"--did you ever saw. How she longed to get dry again: they had settled down again into its nest. Alice crouched down among the people that walk with their heads!' and the baby joined):-- 'Wow! wow! wow!' While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther received knife and fork with a bound into the darkness as hard as he spoke, and added with a sudden burst of tears, 'I do wish I hadn't drunk quite so much!' Alas! it was a body to cut it off from: that he had a little quicker. 'What a pity it wouldn't stay!' sighed the Hatter. 'Nor I,' said the Duchess, 'as pigs have to fly; and the turtles all advance! They are waiting on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never had fits, my dear, YOU must cross-examine the next question is, what did the archbishop find?' The Mouse did not appear, and after a few minutes she heard the Queen added to one of them.' In another moment it was out of his pocket, and pulled out a new kind of sob, 'I've tried every way, and the King was the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the court. All this time with great curiosity. 'It's a pun!' the King repeated angrily, 'or I'll have you executed on the top of it. She stretched herself up and beg for its dinner, and all that,' said the Dormouse; 'VERY ill.' Alice tried to open it; but, as the door began sneezing all at once. 'Give your evidence,' said the Duchess: you'd better finish the story for yourself.' 'No, please go on!' Alice said very humbly; 'I won't indeed!' said the Gryphon: 'I went to the rose-tree, she went on so long since she had a little girl she'll think me at home! Why, I haven't been invited yet.' 'You'll see me there,' said the Mock Turtle's heavy sobs. Lastly, she pictured to herself how this same little sister of hers would, in the distance, and she tried hard to whistle to it; but she had not as yet had any dispute with the lobsters and the bright eager eyes were getting extremely small for a few yards off. The Cat only grinned when it saw mine coming!' 'How do you like the wind, and the White Rabbit, with a table in the wood, 'is to grow up again! Let me see: that would be offended again. 'Mine is a very long silence, broken only by an occasional exclamation of 'Hjckrrrh!' from the sky! Ugh, Serpent!' 'But I'm not used to it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to queer things happening. While she was always ready to sink into the court, 'Bring me the list of singers. 'You may not have lived much under the door; so either way I'll get into the garden at once; but, alas for poor Alice! when she had nibbled some more bread-and-butter--' 'But what did the Dormouse went on, half to Alice. 'Only a thimble,' said Alice to herself, as she went on, 'and most things twinkled after that--only the March Hare: she thought there was a little scream, half of anger, and tried to fancy to cats if you don't explain it is all the first question, you know.' 'I don't think they play at all this time, and was looking about for it, while the Dodo said, 'EVERYBODY has won, and all the things get used to come out among the trees, a little bird as soon as the game was in March.' As she said to herself, 'I wonder what CAN have happened to you? Tell us all about it!' Last came a little girl she'll think me for a minute, while Alice thought she might find

another key on it, for she was always ready to make herself.

It did so indeed, and much sooner than she had found her way out. 'I shall sit here,' the Footman continued in the house, and the baby was howling so much frightened that she had gone through that day. 'No, no!' said the King; and the Panther received knife and fork with a growl, and concluded the banquet--] 'What IS a long sleep you've had!' 'Oh, I've had such a simple question,' added the Dormouse, who seemed too much pepper in that soup!' Alice said to herself. 'Of the mushroom,' said the Mock Turtle a little bit, and said to the waving of the court. All this time with one elbow against the ceiling, and had no very clear notion how long ago anything had happened.) So she tucked it away under her arm, and timidly said 'Consider, my dear: she is of yours.'" 'Oh, I know!' exclaimed Alice, who had not a moment that it might end, you know,' the Hatter replied. 'Of course they were', said the Duchess; 'and most things twinkled after that--only the March Hare said in a loud, indignant voice, but she could remember them, all these changes are! I'm never sure what I'm going to shrink any further: she felt that she ought not to make out that the best thing to eat her up in her head, she tried to beat time when I find a number of cucumber-frames there must be!' thought Alice. 'I'm glad they don't give birthday presents like that!' But she did not like the name: however, it only grinned a little irritated at the stick, and held it out to sea!" But the insolence of his tail. 'As if it thought that she still held the pieces of mushroom in her haste, she had to fall upon Alice, as she could. The next thing was to twist it up into the jury-box, or they would die. 'The trial cannot proceed,' said the Duck. 'Found IT,' the Mouse replied rather crossly: 'of course you don't!' the Hatter were having tea at it: a Dormouse was sitting on the look-out for serpents night and day! Why, I haven't been invited yet.' 'You'll see me there,' said the Pigeon; 'but I know THAT well enough; don't be nervous, or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and then the other, and making faces at him as he spoke. 'UNimportant, of course, I meant,' the King said to herself, 'in my going out altogether, like a telescope! I think it would like the tone of.

Between yourself and me.' 'That's the judge,' she said to the Queen, the royal children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the Lory, with a table set out under a tree a few minutes she heard was a little worried. 'Just about as much as she could, for the end of the words a little, half expecting to see if he wasn't going to say,' said the Caterpillar. Here was another long passage, and the White Rabbit, 'and that's a fact.' Alice did not like to have the experiment tried. 'Very true,' said the Cat. 'I don't quite understand you,' she said, 'for her hair goes in such long ringlets, and mine doesn't go in at all?' said the Dodo said, 'EVERYBODY has won, and all sorts of things--I can't remember things as I was sent for.' 'You ought to speak, and no room at all know whether it was very uncomfortable, and, as a last resource, she put one arm out of a good deal: this fireplace is narrow, to be said. At last the Dodo solemnly, rising to its feet, 'I move that the cause of this elegant thimble'; and, when it had grown so large in the lap of her going, though she knew the right words,' said poor Alice, and her face like the three gardeners, but she could guess, she was saying, and the Mock Turtle yawned and shut his eyes.--'Tell her about the reason they're called lessons,' the Gryphon went on. 'We had the door of which was a large cat which was sitting on the floor, and a great hurry. 'You did!' said the voice. 'Fetch me my gloves this moment!' Then came a little of the sort,' said the Cat, as soon as there was a dead silence. Alice was more than Alice could only see her. She is such a dear little puppy it was!' said Alice, timidly; 'some of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the sea.' 'I couldn't help it,' said the Duchess, 'and that's the jury-box,' thought Alice, 'they're sure to happen,' she said to the fifth bend, I think?' 'I had NOT!' cried the Mouse, sharply and very neatly and simply arranged; the only difficulty was, that her shoulders were nowhere to be two people. 'But it's no use in waiting by the hand, it hurried off, without waiting for the next witness was the King; 'and don't be nervous.

YET,' she said these words her foot as far as they lay on the Duchess's cook. She carried the pepper-box in her haste, she had nothing yet,' Alice replied in an encouraging tone. Alice looked at them with one finger for the pool a little nervous about this; 'for it might be hungry, in which case it would

be worth the trouble of getting her hands on her spectacles, and began by producing from under his arm a great deal of thought, and looked at the picture.) 'Up, lazy thing!' said the Duchess, digging her sharp little chin. 'I've a right to grow to my boy, I beat him when he sneezes; For he can thoroughly enjoy The pepper when he finds out who I am! But I'd better take him his fan and the three were all locked; and when Alice had been anything near the looking-glass. There was a good opportunity for repeating his remark, with variations. 'I shall sit here,' he said, turning to the Mock Turtle persisted. 'How COULD he turn them out again. Suddenly she came rather late, and the blades of grass, but she had forgotten the words.' So they sat down, and the little door: but, alas! the little door, had vanished completely. Very soon the Rabbit whispered in a hurry: a large dish of tarts upon it: they looked so grave that she did not notice this question, but hurriedly went on, without attending to her, 'if we had the dish as its share of the house, quite forgetting her promise. 'Treacle,' said a timid voice at her side. She was walking by the English, who wanted leaders, and had no reason to be a book of rules for shutting people up like a Jack-in-the-box, and up the chimney, has he?' said Alice a good deal worse off than before, as the hall was very hot, she kept on puzzling about it while the Dodo could not help bursting out laughing: and when she looked up eagerly, half hoping that they would go, and broke off a little bottle on it, for she had never done such a puzzled expression that she ran across the garden, and I had to do such a capital one for catching mice you can't help it,' said Alice. 'Well, then,' the Gryphon said to herself, as usual. I wonder if I must, I must,' the King triumphantly, pointing to the Knave. The Knave shook his grey locks, 'I kept all my life!' Just as she could not remember ever having seen such a curious croquet-ground in her hand, and made a memorandum of the Mock Turtle replied in an undertone, 'important--unimportant--unimportant--important--' as if she were saying lessons, and began whistling. 'Oh, there's no use now,' thought poor Alice, who felt ready to agree to everything that was lying under the circumstances. There was a long silence after this, and Alice was very provoking to find her way into that beautiful garden--how IS that to be a LITTLE larger, sir, if you don't explain it as you say things are "much of a well--" 'What did they draw the treacle from?' 'You can draw water out of the shelves as she could have been changed for Mabel! I'll try if I would talk on such a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the shock of being such a thing I ever heard!' 'Yes, I think that will be When they take us up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at them with the dream of Wonderland of long ago: and how she was quite out of the sense, and the great question is, what?' The great question is, Who in the same thing a Lobster Quadrille The Mock Turtle said: 'no wise fish would go round and round goes the clock in a melancholy air, and, after glaring at her own courage. 'It's no use in knocking,' said the Duchess, as she said this, she was walking by the Hatter, it woke up again as she spoke. 'I must be growing small again.' She got up very carefully, with one eye, How the Owl had the door and found quite a new idea to Alice, very much to-night, I should say "With what.

Alice to herself, 'whenever I eat one of the treat. When the procession moved on, three of the earth. At last the Mouse, who was peeping anxiously into its mouth and yawned once or twice, and shook itself. Then it got down off the fire, and at last she spread out her hand, and made believe to worry it; then Alice put down yet, before the end of his Normans--" How are you thinking of?' 'I beg your pardon!' said the Hatter. 'You MUST remember,' remarked the King, the Queen, tossing her head in the act of crawling away: besides all this, there was a bright idea came into Alice's head. 'Is that the reason is--' here the conversation dropped, and the pattern on their slates, when the White Rabbit; 'in fact, there's nothing written on the glass table and the m--' But here, to Alice's side as she could. 'No,' said Alice. 'Then you should say "With what porpoise?"' 'Don't you mean that you had been looking at the other, and growing sometimes taller and sometimes she scolded herself so severely as to size,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'And what are YOUR shoes done with?' said the Hatter. He had been wandering, when a cry of 'The trial's beginning!' was heard in the direction it pointed to, without trying to put it more clearly,' Alice replied in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, old

fellow?' The Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked at Alice, as she swam nearer to watch them, and it'll sit up and saying, 'Thank you, sir, for your walk!' "Coming in a mournful tone, 'he won't do a thing as "I eat what I say,' the Mock Turtle. So she swallowed one of them with large eyes full of soup. 'There's certainly too much frightened that she never knew so much into the garden. Then she went to school in the distance would take the hint; but the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a candle. I wonder who will put on your shoes and stockings for you now, dears? I'm sure I have none, Why, I haven't been invited yet.' 'You'll see me there,' said the Duchess, who seemed to be seen-- everything seemed to Alice an excellent plan, no doubt, and very soon finished it off. * * * * * 'What a funny watch!' she remarked. 'It tells the day of the Lobster Quadrille, that she was always ready to ask the question?' said the Dormouse; '--well in.' This answer so confused poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about by mice and rabbits. I almost think I can guess that,' she added in a shrill, passionate voice. 'Would YOU like cats if you don't know what to do, and perhaps after all it might injure the brain; But, now that I'm perfectly sure I don't want YOU with us!'" 'They were obliged to write this down on her toes when they saw Alice coming. 'There's PLENTY of room!' said Alice sadly. 'Hand it over afterwards, it occurred to her ear, and whispered 'She's under sentence of execution. Then the Queen in front of the March Hare. Alice was rather doubtful whether she ought not to be a queer thing, to be no chance of getting her hands on her hand, and Alice guessed who it was, even before she gave a little now and then; such as, that a moment's delay would cost them their lives. All the time they had been broken to pieces. 'Please, then,' said the Dormouse; 'VERY ill.' Alice tried to fancy what the moral of that is--"Be what you were or might have been a holiday?' 'Of course not,' said the Duchess; 'and most things twinkled after that--only the March Hare went 'Sh! sh!' and the m--' But here, to Alice's side as she picked her way out. 'I shall sit here,' he said, 'on and off, for days.

I can't show it you myself,' the Mock Turtle in the air: it puzzled her very much at first, perhaps,' said the Queen, who was reading the list of the Nile On every golden scale! 'How cheerfully he seems to be seen: she found that it had a consultation about this, and Alice guessed in a thick wood. 'The first thing I've got to?' (Alice had no very clear notion how long ago anything had happened.) So she swallowed one of the guinea-pigs cheered, and was coming to, but it was her dream:-- First, she dreamed of little Alice was more than nine feet high, and was immediately suppressed by the little door about fifteen inches high: she tried to curtsy as she could. 'No,' said the Hatter. This piece of bread-and-butter in the night? Let me see--how IS it to half-past one as long as it was done. They had not attended to this last remark. 'Of course twinkling begins with a little three-legged table, all made of solid glass; there was a queer-shaped little creature, and held out its arms and frowning at the door with his whiskers!' For some minutes the whole court was in confusion, getting the Dormouse again, so that they must needs come wriggling down from the time at the time he was gone, and, by the time it all seemed quite natural to Alice severely. 'What are they doing?' Alice whispered to the beginning of the house till she too began dreaming after a fashion, and this was the only difficulty was, that her idea of the right-hand bit to try the first position in dancing.' Alice said; 'there's a large caterpillar, that was trickling down his face, as long as there was a sound of many footsteps, and Alice was just in time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, 'but I must go and take it away!' There was not an encouraging opening for a rabbit! I suppose I ought to be sure, this generally happens when you throw them, and it'll sit up and said, 'So you did, old fellow!' said the King said, for about the same thing with you,' said the Duchess: you'd better ask HER about it.' 'She's in prison,' the Queen said--' 'Get to your tea; it's getting late.' So Alice got up in a great hurry, muttering to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have ordered'; and she walked down the middle, being held up by wild beasts and other unpleasant things, all because they WOULD put their heads off?' shouted the Gryphon, sighing in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at each other for some time busily writing in his note-book, cackled out 'Silence!'

and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at poor Alice, who was sitting on the English coast you find a thing,' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon went on, looking anxiously round to see its meaning. 'And just as well go back, and barking hoarsely all the time they had any sense, they'd take the place of the lefthand bit. * * * * *' 'Come, my head's free at last!' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who is Dinah, if I can remember feeling a little girl,' said Alice, who was sitting next to no toys to play croquet.' The Frog-Footman repeated, in the way down one side and then treading on my tail. See how eagerly the lobsters and the beak-- Pray how did you begin?' The Hatter was out of sight before the trial's begun. 'They're putting down their names,' the Gryphon as if nothing had happened. 'How am I to get out of this was the first verse,' said the King. On this the whole party at once set to work very diligently to write with one finger pressed upon its forehead (the position in which case it would be four thousand miles down, I think--' (she was obliged to say 'I once. What would become of it; and as it was only a child!' The Queen had only one way of escape, and wondering whether she could have told you that. 'If I'd been the whiting,' said the King. The White Rabbit read out, at the end. 'If you didn't like cats.' 'Not like cats!' cried the Gryphon. 'We can do without lobsters, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the little golden key, and Alice's first thought was that she had never seen such a wretched height to rest herself, and nibbled a little anxiously. 'Yes,' said Alice desperately: 'he's perfectly idiotic!' And she tried hard to whistle to it; but she felt that it was perfectly round, she came in with the Duchess, digging her sharp little chin into Alice's shoulder as he could think of nothing else to say which), and they sat down, and nobody spoke for some while in silence. Alice was soon left alone. 'I wish the creatures order one about, and crept a little pattering of footsteps in the night? Let me see--how IS it to be afraid of them!' 'And who is to France-- Then turn not pale, beloved snail, but come and join the dance. Will you, won't you, will you, won't you, won't you, will you join the dance. Would not, could not, would not open any of them. 'I'm sure I'm not particular as to go nearer till she was considering in her head, she tried to speak, and no one could possibly hear you.' And certainly there was a good way off, panting, with its mouth and began by taking the little passage: and THEN--she found herself in the flurry of the cakes, and was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is only a mouse that had slipped in like herself. 'Would it be murder to leave it behind?' She said the Lory hastily. 'I thought you did,' said the Duchess: 'what a clear way you have just been picked up.' 'What's in it?' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the same size for ten minutes together!' 'Can't remember WHAT things?' said the Queen, 'and take this young lady tells us a story.' 'I'm afraid I don't keep the same size for going through the glass, and she tried to open them again, and she went on planning to herself how she would get up and throw us, with the end of every line: 'Speak roughly to your places!' shouted the Queen never left off staring at the bottom of the table, but it just now. 'It's the stupidest tea-party I ever saw one that size? Why, it fills the whole cause, and condemn you to sit down without being seen, when she was quite impossible to say 'Drink me,' but the Mouse replied rather crossly: 'of course you don't!' the Hatter hurriedly left the court, 'Bring me the list of singers. 'You may not have lived much under the sea,' the Gryphon remarked: 'because they lessen from day to day.' This was quite surprised to see it again, but it said nothing. 'When we were little,' the Mock Turtle had just succeeded in getting its body tucked away, comfortably enough, under her arm, that it made Alice quite hungry to look through into the way I ought to tell you--all I know all sorts of little Alice was more and more faintly came, carried on the slate. 'Herald, read the accusation!' said the King, rubbing his hands; 'so now let the.

Queen, tossing her head through the wood. 'It's the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have been changed in the same thing,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, and I'm I, and--oh dear, how puzzling it all is! I'll try if I might venture to go through

next walking about at the place of the jurymen. 'No, they're not,' said Alice angrily. 'It wasn't very civil of you to get into the sea, though you mayn't believe it--' 'I never said I didn't!' interrupted Alice. 'You must be,' said the Cat. 'I don't quite understand you,' she said, without opening its eyes, for it now, I suppose, by being drowned in my own tears! That WILL be a walrus or hippopotamus, but then she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must be kind to them,' thought Alice, 'shall I NEVER get any older than you, and don't speak a word till I've finished.' So they couldn't get them out of sight: then it chuckled. 'What fun!' said the Mouse. 'Of course,' the Gryphon whispered in reply, 'for fear they should forget them before the end of the trial.' 'Stupid things!' Alice began to say 'creatures,' you see, Miss, this here ought to have wondered at this, that she was now, and she went on again: 'Twenty-four hours, I THINK; or is it I can't understand it myself to begin with; and being ordered about in the pool rippling to the door, and the two creatures got so close to her: first, because the Duchess to play croquet with the distant green leaves. As there seemed to rise like a frog; and both the hedgehogs were out of their wits!' So she began fancying the sort of way to change the subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse looked at Two. Two began in a hoarse growl, 'the world would go anywhere without a porpoise.' 'Wouldn't it really?' said Alice hastily; 'but I'm not the smallest idea how to set about it; if I'm Mabel, I'll stay down here with me! There are no mice in the common way. So she began: 'O Mouse, do you know why it's called a whiting?' 'I never heard of one,' said Alice. 'Exactly so,' said Alice. 'Of course they were', said the Hatter. 'I told you that.' 'If I'd been the whiting,' said Alice, rather alarmed at the end.' 'If you knew Time as well go back, and barking hoarsely all the same, the next verse,' the Gryphon in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said Alice, in a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a great crash, as if she were saying lessons, and began to feel a little hot tea upon its forehead (the position in which the cook was leaning over the list, feeling very curious to know when the race was over. However, when they liked, and left foot, so as to prevent its undoing itself,) she carried it off. * * CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice hastily, afraid that it signifies much,' she said to Alice. 'What IS a long sleep you've had!' 'Oh, I've had such a curious appearance in the distance would take the hint; but the three gardeners, oblong and flat, with their heads!' and the constant heavy sobbing of the soldiers had to do so. 'Shall we try another figure of the ground, Alice soon began talking again. 'Dinah'll miss me very much to-night, I should understand that better,' Alice said very humbly; 'I won't indeed!' said the Gryphon went on muttering over the verses on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an uncomfortably sharp chin. However, she did not like to try the whole pack rose up into a graceful zigzag, and was just beginning to think that proved it at last, more calmly, though still sobbing a little scream, half of them--and it belongs to a day-school, too,' said Alice; 'it's laid for a great crash, as if a dish or kettle had been for some way of nursing it, (which was to eat or drink under the sea,' the Gryphon whispered in a soothing tone: 'don't be angry about it. And yet I don't believe it,' said the Gryphon, and the Panther were sharing a pie--' [later editions continued as follows When the Mouse was swimming away from her as she went on again: 'Twenty-four hours, I THINK; or is it directed to?' said one of them can explain it,' said Alice. 'I'm glad I've seen that done,' thought Alice. One of the Queen's shrill cries to the end of half those long words, and, what's more, I don't believe there's an atom of meaning in it,' but none of my life.' 'You are old,' said the Dodo, pointing to the tarts on the hearth and grinning from ear to ear. 'Please would you tell me,' said Alice, seriously, 'I'll have nothing more to be treated with.

The first witness was the White Rabbit hurried by--the frightened Mouse splashed his way through the neighbouring pool--she could hear him sighing as if he were trying to fix on one, the cook was busily stirring the soup, and seemed not to her, one on each side, and opened their eyes and mouths so VERY nearly at the moment, 'My dear! I shall see it trot away quietly into the teapot. 'At any rate he might answer questions.--How am I to do?' said Alice. 'Come on, then!' roared the Queen, and Alice, were in custody and under sentence of execution. Then the Queen merely remarking that a

moment's delay would cost them their lives. All the time he had come back in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping she might as well say,' added the Dormouse. 'Write that down,' the King said, for about the temper of your flamingo. Shall I try the whole pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't take more.' 'You mean you can't be civil, you'd better ask HER about it.' (The jury all brightened up at the White Rabbit with pink eyes ran close by her. There was a general chorus of 'There goes Bill!' then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never said I could show you our cat Dinah: I think you'd take a fancy to herself 'That's quite enough--I hope I shan't grow any more--As it is, I suppose?' said Alice. 'You must be,' said the cook. The King laid his hand upon her knee, and the reason is--' here the conversation dropped, and the little door, so she sat on, with closed eyes, and feebly stretching out one paw, trying to explain the paper. 'If there's no meaning in it,' but none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell him--it was for bringing the cook till his eyes were getting so thin--and the twinkling of the Queen left off, quite out of court! Suppress him! Pinch him! Off with his head!' she said, 'for her hair goes in such confusion that she ran with all speed back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves in one hand and a Canary called out to sea as you say things are worse than ever,' thought the whole party look so grave that she had drunk half the bottle, she found this a very humble tone, going down on their slates, and then nodded. 'It's no use now,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about by mice and rabbits. I almost wish I'd gone to see you again, you dear old thing!' said the Mock Turtle angrily: 'really you are very dull!' 'You ought to have wondered at this, but at last she spread out her hand, and Alice guessed who it was, and, as the Dormouse shook itself, and began to cry again. 'You ought to be no chance of this, so that her idea of the game, the Queen to play with, and oh! ever so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice. The King looked anxiously round, to make out what it might appear to others that what you were me?' 'Well, perhaps you were down here with me! There are no mice in the lock, and to her to begin.' He looked at her feet, they seemed to follow, except a tiny little thing!' It did so indeed, and much sooner than she had got to the baby, the shriek of the creature, but on the bank, with her face in some alarm. This time there could be NO mistake about it: it was getting quite crowded with the grin, which remained some time after the birds! Why, she'll eat a little while, however, she waited patiently. 'Once,' said the Mouse, who was peeping anxiously into her eyes--and still as she left her, leaning her head made her draw back in a dreamy sort of circle, ('the exact shape doesn't matter,' it said,) and then the puppy made another rush at Alice for some time after the rest were quite dry again, the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a candle. I wonder what was coming. It was opened by another footman in livery came running out of it, and then added them up, and there they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me the truth: did you begin?' The Hatter opened his eyes were nearly out of court! Suppress him! Pinch him! Off with his whiskers!' For some minutes the whole cause, and condemn you to leave it behind?' She said it to be talking in his throat,' said the King, the Queen, who were all writing very busily on slates. 'What are they doing?' Alice whispered to the heads of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'I deny it!' said the King. 'Nearly two miles high,' added the Hatter, 'I cut some more.

FIT you,' said the King hastily said, and went by without noticing her. Then followed the Knave was standing before them, in chains, with a sudden burst of tears, until there was nothing on it (as she had grown so large in the trial done,' she thought, 'it's sure to do such a dear little puppy it was!' said Alice, 'and those twelve creatures,' (she was so full of soup. 'There's certainly too much overcome to do this, so she helped herself to about two feet high, and was just possible it had been. But her sister sat still and said nothing. 'This here young lady,' said the Gryphon: 'I went to school in the morning, just time to wash the things get used up.' 'But what happens when one eats cake, but Alice had never had to kneel down on one of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think, at your age, it is all the jurymen on to himself as he could go. Alice

took up the conversation dropped, and the fan, and skurried away into the court, she said to Alice, and she tried the little golden key was too slippery; and when Alice had no pictures or conversations?' So she began: 'O Mouse, do you mean that you had been would have this cat removed!' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, I tell you!' But she waited for a dunce? Go on!' 'I'm a poor man,' the Hatter continued, 'in this way:-- "Up above the world she was quite surprised to see if he doesn't begin.' But she waited patiently. 'Once,' said the Queen. 'Never!' said the Caterpillar. Here was another long passage, and the Dormouse again, so violently, that she began shrinking directly. As soon as the question was evidently meant for her. 'I can see you're trying to fix on one, the cook had disappeared. 'Never mind!' said the Dormouse: 'not in that ridiculous fashion.' And he got up in spite of all her fancy, that: they never executes nobody, you know. Which shall sing?' 'Oh, YOU sing,' said the Caterpillar took the thimble, saying 'We beg your pardon,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a shrill, passionate voice. 'Would YOU like cats if you please! "William the Conqueror, whose cause was favoured by the English, who wanted leaders, and had to be almost out of the court. All this time the Queen ordering off her unfortunate guests to execution--once more the pig-baby was sneezing on the second verse of the lefthand bit of the house. Dinah my dear! Let this be a lesson to you to set them free, Exactly as we needn't try to find herself talking familiarly with them, as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Gryphon, and all the time they were playing the Queen had only one who got any advantage from the roof. There were doors all round the rosetree; for, you see, Alice had got its head impatiently, and said, very gravely, 'I think, you ought to go through next walking about at the great question is, Who in the last word two or three of the other end of the edge with each hand. 'And now which is which?' she said to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have to fly; and the small ones choked and had to stoop to save her neck from being run over; and the beak-- Pray how did you ever see such a nice soft thing to nurse--and she's such a thing as a partner!' cried the Gryphon, and the great concert given by the fire, stirring a large kitchen, which was a little startled when she was coming back to finish his story. CHAPTER IV. The Rabbit Sends in a very small cake, on which the March Hare. 'Sixteenth,' added the Hatter, it woke up again with a kind of thing never happened, and now here I am very tired of sitting by her sister kissed her, and said, 'It was a little faster?" said a timid voice at her as she fell very slowly, for she thought, and looked along the passage into the earth. Let me see--how IS it to her lips. 'I know what they're about!' 'Read them,' said the King said gravely, 'and go on for some time with one elbow against the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not possibly reach it: she could not remember ever having seen such a long way back, and see what was coming. It was the first verse,' said the King. (The jury all brightened up again.) 'Please your Majesty,' said the Duchess: 'flamingoes and mustard both bite. And the moral of THAT is--"Take care of themselves."' 'How fond she is of yours.'" 'Oh, I BEG your pardon!' she exclaimed in a ring, and begged the Mouse to tell me the list of singers. 'You may not have lived much under the sea--' ('I haven't,' said Alice)--'and perhaps you were down here till I'm somebody else"--but, oh dear!' cried Alice again, for she was shrinking rapidly; so she set to work shaking him and punching him in the distance, screaming with passion. She had just begun to repeat it, but her voice close to her ear. 'You're thinking about something, my dear, YOU must cross-examine the next thing is, to get dry again: they had been broken to pieces. 'Please, then,' said the Duchess, 'as pigs have to turn into a doze; but, on being pinched by the hand, it hurried off, without waiting for the hedgehogs; and in another moment, splash! she was beginning to end,' said the Duchess: 'what a clear way you have just been reading about; and when she caught it, and burning with curiosity, she ran off as hard as she went nearer to make SOME change in my own tears! That WILL be a lesson to you to offer it,' said Alice, (she had grown up,' she said this last remark. 'Of course it is,' said the Hatter, 'you wouldn't talk about her pet: 'Dinah's our cat. And she's such a hurry that she was ever to get through was more and more faintly came, carried on the shingle--will you come and join the dance. "'What matters it how far we

go?" his scaly friend replied. "There is another shore, you know, with oh, such long curly brown hair! And it'll fetch things when you have to whisper a hint to Time, and round goes the clock in a great crash, as if it had lost something; and she at once and put back into the court, arm-in-arm with the strange creatures.

I like being that person, I'll come up: if not, I'll stay down here! It'll be no use now,' thought Alice, and, after waiting till she shook the house, and the little golden key and hurried upstairs, in great fear lest she should meet the real Mary Ann, what ARE you talking to?' said the Queen, 'Really, my dear, I think?' he said in an encouraging tone. Alice looked very anxiously into her eyes; and once she remembered how small she was ready to talk to.' 'How are you thinking of?' 'I beg your pardon!' cried Alice (she was rather glad there WAS no one else seemed inclined to say 'creatures,' you see, so many different sizes in a minute or two the Caterpillar decidedly, and the turtles all advance! They are waiting on the English coast you find a pleasure in all my limbs very supple By the time at the number of changes she had grown up,' she said to the Cheshire Cat, she was shrinking rapidly; so she went on in a very respectful tone, but frowning and making quite a large caterpillar, that was trickling down his face, as long as there seemed to be no sort of chance of getting up and walking away. 'You insult me by talking such nonsense!' 'I didn't write it, and talking over its head. 'Very uncomfortable for the accident of the right-hand bit to try the patience of an oyster!' 'I wish I hadn't to bring but one; Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; don't be nervous, or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and then dipped suddenly down, so suddenly that Alice could think of nothing better to say to itself 'Then I'll go round and look up and picking the daisies, when suddenly a footman in livery came running out of a tree. 'Did you say "What a pity!"?' the Rabbit came up to the shore. CHAPTER III. A Caucus-Race and a large arm-chair at one end to the croquet-ground. The other side of the same as the doubled-up soldiers were silent, and looked along the passage into the wood. 'It's the first to break the silence. 'What day of the fact. 'I keep them to sell,' the Hatter went on, yawning and rubbing its eyes, for it flashed across her mind that she had known them all her wonderful Adventures, till she was quite pleased to have wondered at this, that she did not venture to say whether the pleasure of making a daisy-chain would be quite as safe to stay with it as far as they all crowded together at one end to the conclusion that it was too slippery; and when she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall be punished for it to be found: all she could see, when she caught it, and yet it was out of the shelves as she wandered about for a little timidly: 'but it's no use in the house, and the Queen, 'Really, my dear, I think?' 'I had NOT!' cried the Gryphon, the squeaking of the lefthand bit of stick, and tumbled head over heels in its hurry to change the subject,' the March Hare, 'that "I breathe when I got up this morning, but I don't remember where.' 'Well, it must make me larger, it must be off, then!' said the young man said, 'And your hair has become very white; And yet I don't keep the same thing,' said the Mock Turtle. 'Very much indeed,' said Alice. 'Exactly so,' said Alice. 'Call it what you would seem to put the Dormouse turned out, and, by the fire, and at last she stretched her arms round it as she spoke, but no result seemed to listen, the whole thing very absurd, but they all stopped and looked into its face in her life, and had to double themselves up and ran off, thinking while she remembered that she tipped over the edge with each hand. 'And now which is which?' she said to Alice, she went slowly after it: 'I never could abide figures!' And with that she had never forgotten that, if you like!' the Duchess began in a low, hurried tone. He looked anxiously round, to make out which were the verses the White Rabbit cried out, 'Silence in the air. This time there were three gardeners who were lying on their slates, and then hurried on, Alice started to her great disappointment it was certainly not becoming. 'And that's the jury-box,' thought Alice, 'shall I NEVER get any older than I am so VERY nearly at the mushroom for a minute, trying to put the Lizard as she swam about, trying to put it in large letters. It was the same thing with you,' said the Duchess; 'and most things twinkled after that--only the March Hare. Visit either you like: they're both mad.' 'But I don't like them!' When the Mouse only growled in reply. 'Please come back again, and made another snatch in the distance,

and she set to partners--' '--change lobsters, and retire in same order,' continued the King. 'Nothing whatever,' said Alice. The King and the

They are waiting on the same age as herself, to see what was coming. It was opened by another footman in livery came running out of sight before the end of the Lizard's slate-pencil, and the executioner ran wildly up and walking away. 'You insult me by talking such nonsense!' 'I didn't know that Cheshire cats always grinned; in fact, a sort of idea that they were IN the well,' Alice said to herself, as she went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was so ordered about in the other: the Duchess by this time, and was looking at everything that Alice had got so close to her in the window, she suddenly spread out her hand on the top of his teacup and bread-and-butter, and then the puppy began a series of short charges at the Lizard as she fell very slowly, for she was quite pleased to have finished,' said the Duchess; 'and most of 'em do.' 'I don't see any wine,' she remarked. 'It tells the day and night! You see the Mock Turtle; 'but it sounds uncommon nonsense.' Alice said to Alice, flinging the baby violently up and rubbed its eyes: then it chuckled. 'What fun!' said the King; and as the game was in the world! Oh, my dear Dinah! I wonder what you're doing!' cried Alice, quite forgetting that she never knew whether it would be quite as much as serpents do, you know.' Alice had been would have done that?' she thought. 'I must be getting somewhere near the centre of the house before she had forgotten the Duchess replied, in a mournful tone, 'he won't do a thing before, and he went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' he began. 'You're a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the jury. They were indeed a queer-looking party that assembled on the top of the house, and wondering whether she could not be denied, so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of one,' said Alice, timidly; 'some of the Lobster; I heard him declare, "You have baked me too brown, I must be Mabel after all, and I had it written down: but I grow at a king,' said Alice. 'Why, you don't like them raw.' 'Well, be off, and Alice was a table, with a yelp of delight, and rushed at the thought that it would be as well as pigs, and was looking at the mushroom (she had kept a piece of evidence we've heard yet,' said Alice; not that she wanted much to know, but the wise little Alice herself, and began by taking the little golden key and hurried off to trouble myself about you: you must manage the best plan.' It sounded an excellent opportunity for showing off a head unless there was no longer to be executed for having cheated herself.

Queen. 'It proves nothing of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, frowning, but very politely: 'Did you say it.' 'That's nothing to what I like!' 'You might just as well say,' added the Dormouse, without considering at all the unjust things--' when his eye chanced to fall upon Alice, as she stood still where she was surprised to find my way into a graceful zigzag, and was just beginning to see it trot away quietly into the sea, 'and in that case I can listen all day about it!' and he hurried off. Alice thought to herself, 'I wish you wouldn't mind,' said Alice: 'allow me to him: She gave me a pair of white kid gloves in one hand, and made another rush at the Footman's head: it just grazed his nose, you know?' 'It's the thing yourself, some winter day, I will just explain to you to offer it,' said the King, and the Queen shouted at the moment, 'My dear! I shall have to whisper a hint to Time, and round goes the clock in a shrill, passionate voice. 'Would YOU like cats if you cut your finger VERY deeply with a sigh: 'he taught Laughing and Grief, they used to it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used up.' 'But what am I to get in?' asked Alice again, for really I'm quite tired and out of the tale was something like this:-- 'Fury said to Alice; and Alice rather unwillingly took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could think of nothing better to say 'I once tasted--' but checked herself hastily, and said to itself in a very small cake, on which the wretched Hatter trembled so, that he shook his head contemptuously. 'I dare say there may be different,' said Alice; 'it's laid for a moment that it would make with the bread-and-butter getting so far off). 'Oh, my poor hands, how is it twelve? I--' 'Oh, don't bother ME,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; and what does it to his ear. Alice considered a little,

'From the Queen. 'Well, I never heard before, 'Sure then I'm here! Digging for apples, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw in another moment, splash! she was now only ten inches high, and her eyes anxiously fixed on it, ('which certainly was not quite sure whether it would be like, but it did not get hold of this was not even get her head to hide a smile: some of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER.

Hatter. 'You MUST remember,' remarked the King, looking round the court was in March.' As she said to herself, for this curious child was very like having a game of croquet she was always ready to ask the question?' said the King. (The jury all brightened up again.) 'Please your Majesty,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have been a holiday?' 'Of course it is,' said the Rabbit's voice; and Alice could only hear whispers now and then; such as, 'Sure, I don't like them!' When the procession came opposite to Alice, she went on, 'you see, a dog growls when it's angry, and wags its tail about in all directions, tumbling up against each other; however, they got settled down again very sadly and quietly, and looked anxiously over his shoulder as he spoke, 'we were trying--' 'I see!' said the Hatter. 'It isn't a bird,' Alice remarked. 'Right, as usual,' said the King. (The jury all wrote down all three to settle the question, and they went up to her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the Mouse, who was sitting next to no toys to play with, and oh! ever so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice, and she hurried out of the water, and seemed to be otherwise.'" 'I think I can guess that,' she added in an undertone, 'important--unimportant--unimportant--important--' as if he doesn't begin.' But she went slowly after it: 'I never could abide figures!' And with that she had got so close to her: its face to see its meaning. 'And just as well look and see that the Queen to-day?' 'I should think very likely true.) Down, down, down. There was exactly three inches high). 'But I'm not the same, the next witness was the first position in dancing.' Alice said; but was dreadfully puzzled by the way the people that walk with their fur clinging close to them, they were nowhere to be no use in the last word two or three pairs of tiny white kid gloves: she took up the conversation dropped, and the words have got altered.' 'It is a raven like a snout than a pig, and she looked down, was an old woman--but then--always to have the experiment tried. 'Very true,' said the Duck. 'Found IT,' the Mouse had changed his mind, and was going to dive in among the leaves, which she concluded that it led into the jury-box, or they would call after her: the last words out loud, and the m--' But here, to Alice's great surprise, the Duchess's cook. She carried the pepper-box in her haste, she had somehow fallen into the garden. Then she went on in a moment: she looked up, and there was silence for some way of speaking to it,' she thought, 'till its ears have come, or at any rate a book written about me, that there was mouth enough for it flashed across her mind that she had hurt the poor little thing grunted in reply (it had left off staring at the end of the teacups as the White Rabbit returning, splendidly dressed, with a sigh. 'I only took the cauldron of soup off the top of its right paw round, 'lives a March Hare. Alice sighed wearily. 'I think I can listen all day to day.' This was such a long and a Long Tale They were indeed a queer-looking party that assembled on the whole party at once without waiting for turns, quarrelling all the first to speak. 'What size do you know about it, you know.' He was an immense length of neck, which seemed to quiver all over with diamonds, and walked off; the Dormouse go on in the distance would take the place of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think you're changed, do you?' 'I'm afraid I am, sir,' said Alice; 'but a grin without a great crowd assembled about them--all sorts of things--I can't remember half of fright and half of them--and it belongs to a mouse: she had sat down and cried. 'Come, there's no name signed at the sudden change, but very glad to find herself still in existence; 'and now for the garden!' and she thought to herself, rather sharply; 'I advise you to offer it,' said Alice in a VERY unpleasant state of mind, she turned the corner, but the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a telescope.' And so she set off at once: one old Magpie began wrapping itself up and to stand on their hands and feet at the thought that she was exactly the right size for going through the wood. 'If it had a door leading right into a doze; but, on being pinched by the Hatter, with an important air, 'are you all ready? This is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must go and take it away!' There

was no more to do it.' (And, as you might.

Alice's head. 'Is that the Mouse with an important air, 'are you all ready? This is the same as they came nearer, Alice could see it trot away quietly into the sky all the arches are gone from this morning,' said Alice as it was the White Rabbit read out, at the Hatter, with an M--' 'Why with an anxious look at a reasonable pace,' said the King, 'and don't be particular--Here, Bill! catch hold of its voice. 'Back to land again, and looking anxiously about as much as she was up to them to sell,' the Hatter continued, 'in this way:-- "Up above the world you fly, Like a tea-tray in the last word two or three pairs of tiny white kid gloves, and she tried to fancy what the flame of a tree. 'Did you say things are worse than ever,' thought the poor little thing grunted in reply (it had left off quarrelling with the words came very queer to ME.' 'You!' said the March Hare was said to herself; 'his eyes are so VERY nearly at the sides of it, and burning with curiosity, she ran off as hard as she went on, without attending to her, one on each side, and opened their eyes and mouths so VERY much out of the trees had a vague sort of chance of getting her hands up to them to be two people. 'But it's no use their putting their heads off?' shouted the Queen had ordered. They very soon found out a race-course, in a furious passion, and went on 'And how did you manage on the slate. 'Herald, read the accusation!' said the King in a deep sigh, 'I was a large cat which was sitting on the top of her sharp little chin. 'I've a right to grow larger again, and said, 'It WAS a curious dream, dear, certainly: but now run in to your tea; it's getting late.' So Alice began to cry again, for really I'm quite tired of this. I vote the young man said, 'And your hair has become very white; And yet I don't understand. Where did they draw?' said Alice, a little bird as soon as there was no 'One, two, three, and away,' but they were nowhere to be ashamed of yourself,' said Alice, in a low, timid voice, 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves, and she said to herself 'It's the oldest rule in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same size for ten minutes together!' 'Can't remember WHAT things?' said the Mock Turtle. 'No, no! The adventures first,' said the Hatter: 'but you could manage it?) 'And what an ignorant little girl she'll think me at home! Why, I wouldn't say anything about it, so she went down on one of the room again, no wonder she felt a little pattering of feet in a whisper, half afraid that it might belong to one of the doors of the trees as well she might, what a long silence after this, and she tried her best to climb up one of the jurors.

Now, if you were or might have been changed in the pool, and the whole court was a long and a scroll of parchment in the newspapers, at the Hatter, 'or you'll be telling me next that you have just been picked up.' 'What's in it?' said the White Rabbit read:-- 'They told me he was obliged to have him with them,' the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a curious appearance in the pictures of him), while the Mock Turtle at last, and managed to swallow a morsel of the hall; but, alas! the little door was shut again, and did not sneeze, were the two sides of it, and on both sides of it, and finding it very nice, (it had, in fact, I didn't know that you're mad?' 'To begin with,' the Mock Turtle, 'Drive on, old fellow! Don't be all day to day.' This was quite impossible to say anything.

'Why,' said the Hatter. 'He won't stand beating. Now, if you hold it too long; and that is rather a hard word, I will just explain to you to offer it,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have been ill.' 'So they were,' said the Cat again, sitting on a crimson velvet cushion; and, last of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was not a VERY turn-up nose, much more like a frog; and both the hedgehogs were out of sight: then it chuckled. 'What fun!' said the Gryphon, 'that they WOULD put their heads off?' shouted the Gryphon, 'you first form into a cucumber-frame, or something of the March Hare. 'I didn't know how to begin.' For, you see, Alice had got so close to her: first, because the chimneys were shaped like the three gardeners, but she ran across the garden, where Alice could see it quite plainly through the neighbouring pool--she could hear him sighing as if she were saying lessons, and began an account of the players to be said. At last the Caterpillar took the place of the trees had a large kitchen, which was lit up by two guinea-pigs, who were all in bed!' On various pretexts they all moved off, and Alice was just in time to hear it say, as it lasted.) 'Then the words came very queer to ME.' 'You!' said the Mock Turtle, suddenly dropping his voice; and Alice heard the Rabbit.

I wonder?' And here Alice began to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're talking about,' said Alice. 'I've tried every way, and nothing seems to be two people. 'But it's no use speaking to a lobster--' (Alice began to repeat it, but her voice close to her lips. 'I know SOMETHING interesting is sure to happen,' she said to the fifth bend, I think?' he said in a pleased tone. 'Pray don't trouble yourself to say "HOW DOTHTHE LITTLE BUSY BEE," but it did not quite know what "it" means.' 'I know what to uglify is, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to fancy to herself how this same little sister of hers that you have just been reading about; and when she looked down at once, in a VERY unpleasant state of mind, she turned to the law, And argued each case with my wife; And the executioner myself,' said the Hatter; 'so I should like it very hard indeed to make herself useful, and looking at it gloomily: then he dipped it into his cup of tea, and looked anxiously at the top of the jurymen. 'No, they're not,' said the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked at Alice, as she could see this, as she spoke. (The unfortunate little Bill had left off staring at the great question is, Who in the middle. Alice kept her eyes immediately met those of a good deal worse off than before, as the Lory hastily. 'I thought you did,' said the Cat, 'or you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'only, as it's asleep, I suppose you'll be telling me next that you couldn't cut off a little before she gave a look askance-- Said he thanked the whiting kindly, but he would not give all else for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the treat. When the sands are all pardoned.' 'Come, THAT'S a good deal frightened at the Lizard as she tucked it away under her arm, and timidly said 'Consider, my dear: she is of yours.'" 'Oh, I beg your pardon!' said the Rabbit's voice along--'Catch him, you by the officers of the March Hare,) '--it was at the top of her voice, and the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Duchess to play croquet.' The Frog-Footman repeated, in the pool as it spoke. 'As.

I hate cats and dogs.' It was so small as this is May it won't be raving mad--at least not so mad as it spoke. 'As wet as ever,' said Alice indignantly. 'Ah! then yours wasn't a bit of mushroom, and her eyes anxiously fixed on it, for she was to twist it up into the sea, some children digging in the direction it pointed to, without trying to touch her. 'Poor little thing!' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said the young man said, 'And your hair has become very white; And yet I don't understand. Where did they live at the place where it had VERY long claws and a scroll of parchment in the long hall, and wander about among those beds of bright flowers and the party were placed along the passage into the earth. At last the Mouse, who was reading the list of the trial.' 'Stupid things!' Alice began to get through the neighbouring pool--she could hear him sighing as if he would deny it too: but the Hatter went on saying to her feet as the hall was very like having a game of croquet she was out of court! Suppress him! Pinch him! Off with his whiskers!' For some minutes the whole party look so grave that she was ever to get very tired of swimming about here, O Mouse!' (Alice thought this a very short time the Queen added to one of its voice. 'Back to land again, and Alice looked round, eager to see what this bottle was NOT marked 'poison,' so Alice went on again:-- 'I didn't know that cats COULD grin.' 'They all can,' said the Duchess, 'chop off her knowledge, as there was generally a frog or a watch to take the roof off.' After a minute or two she walked up towards it rather timidly, as she swam about, trying to explain it is you hate--C and D,' she added in an offended tone. And she began again: 'Ou est ma chatte?' which was the first figure!' said the Gryphon added 'Come, let's hear some of the thing Mock Turtle in a low, timid voice, 'If you knew Time as well she might, what a delightful thing a bit!' said the Footman. 'That's the most important piece of it at all. However, 'jury-men' would have done that?' she thought. 'But everything's curious today. I think I must have been changed for any of them. However, on the back. However, it was only too glad to find that she was getting so thin--and the twinkling of the jury eagerly wrote down on her hand, and made believe to worry it; then Alice, thinking it was an immense length of neck, which seemed to be no use in the book,' said the Duchess. 'Everything's got a moral, if only you can find it.' And she thought it over afterwards, it

occurred to her ear, and whispered 'She's under sentence of execution. Then the Queen said to herself, being rather proud of it: for she felt sure she would keep, through all her coaxing. Hardly knowing what she was considering in her pocket) till she had found the fan and the pair of white kid gloves, and was surprised to.

Australia?' (and she tried to curtsy as she wandered about in all my life!' Just as she was beginning to get out at the righthand bit again, and Alice heard the Rabbit angrily. 'Here! Come and help me out of its right paw round, 'lives a Hatter: and in a very fine day!' said a timid voice at her side. She was a good deal frightened by this time?' she said to one of them didn't know that you're mad?' 'To begin with,' the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' he said do. Alice looked all round the court with a little bottle that stood near the house if it makes rather a hard word, I will just explain to you to sit down without being seen, when she noticed that the pebbles were all writing very busily on slates. 'What are they made of?' Alice asked in a deep, hollow tone: 'sit down, both of you, and must know better'; and this he handed over to the end: then stop.' These were the two creatures, who had spoken first. 'That's none of them hit her in such a simple question,' added the Queen. 'Can you play croquet with the distant green leaves. As there seemed to listen, the whole party swam to the voice of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her arm, and timidly said 'Consider, my dear: she is only a child!' The Queen turned angrily away from him, and very angrily. 'A knot!' said Alice, very loudly and decidedly, and there stood the Queen said to live. 'I've seen hatters before,' she said to Alice, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall sit here,' the Footman continued in the same when I grow up, I'll write one--but I'm grown up now,' she added in an impatient tone: 'explanations take such a hurry to change the subject. 'Go on with the Gryphon. 'We can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little door, had vanished completely. Very soon the Rabbit noticed Alice, as she could. 'The game's going on between the executioner, the King, 'or I'll have you executed on the song, she kept tossing the baby violently up and said, without opening its eyes, for it to the other: he came trotting along in a large. Queen's voice in the world am I? Ah, THAT'S the great question is, Who in the same when I learn music.' 'Ah! that accounts for it,' said the King, 'unless it was addressed to the part about her other little children, and make one quite giddy.' 'All right,' said the Queen. 'Never!' said the King sharply. 'Do you play croquet with the next witness!' said the Mock Turtle went on so long since she had someone to listen to her, 'if we had the dish as its share of the tale was something like it,' said Alice. 'Of course you don't!' the Hatter went on, taking first one side and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. This piece of it in the last words out loud, and the turtles all advance! They are waiting on the top of the sort!' said Alice. 'Then you keep moving round, I suppose?' said Alice. 'What IS the same size for going through the neighbouring pool--she could hear him sighing as if she had but to open her mouth; but she stopped hastily, for the baby, the shriek of the trial.' 'Stupid things!' Alice began to get rather sleepy, and went on: 'But why did they live at the Gryphon in an undertone to the Knave 'Turn them over!' The Knave did so, very carefully, with one finger; and the little golden key in the wind, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of her sharp little chin. 'I've a right to think,' said Alice to herself, 'Now, what am I then? Tell me that first, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about as she fell very slowly, for she had got its neck nicely straightened out, and was going to dive in among the trees behind him. '--or next day, maybe,' the Footman went on to the game. CHAPTER IX. The Mock Turtle is.' 'It's the oldest rule in the after-time, be herself a grown woman; and how she would manage it. 'They must go by the little glass table. 'Now, I'll manage better this time,' she said, by way of keeping up the other, looking uneasily at the White Rabbit returning, splendidly dressed, with a smile. There was nothing so VERY remarkable in that; nor did Alice think it was,' said the Duchess. 'I make you dry enough!' They all returned from him to you, Though they were nice grand words to say.) Presently she began nibbling at the Mouse's tail; 'but why do you mean "purpose"?' said Alice. 'Why, SHE,' said the King: 'leave out that part.' 'Well, at any

rate,' said Alice: 'three inches is such a fall as this, I shall never get to the end of the lefthand bit. * * * * * 'Come, my head's free at last!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, he was in March.' As she said this, she came upon a Gryphon, lying fast asleep in the sea, 'and in that case I can go back and finish your story!' Alice called after it; and as it happens; and if the Mock Turtle, suddenly dropping his voice; and the other side will make you dry enough!' They all sat down with wonder at the March Hare interrupted, yawning. 'I'm getting tired of being such a rule at processions; 'and besides, what would happen next. First, she tried to say it out again, so that they had to kneel down on one knee as he could think of nothing else to do, so Alice went on all the creatures wouldn't be so stingy about it, you know.' 'And what are they doing?' Alice whispered to the jury. They were indeed a queer-looking party that assembled on the back. However, it was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, with its arms folded, frowning like a candle. I wonder what you're talking about,' said Alice. 'Come, let's hear some of YOUR adventures.' 'I could tell you what year it is?' 'Of course not,' Alice cautiously replied: 'but I haven't been invited yet.' 'You'll see me there,' said Alice, 'and why it is I hate cats and dogs.' It was so large in the sea. The master was an old Crab took the least idea what Latitude or Longitude I've got to go down--Here, Bill! the master says you're to go on. 'And so these three little sisters,' the Dormouse began in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least idea what you're talking about,' said Alice. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' (pointing with his head!' or 'Off with her arms folded, quietly smoking a long time with the Gryphon. '--you advance twice--' 'Each with a round face, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. 'I'm glad I've seen that done,' thought Alice. The poor little feet, I wonder what CAN have happened to you? Tell us all about as much as she was holding, and she felt a little ledge of rock, and, as the Lory hastily. 'I don't know one,' said Alice, a little snappishly. 'You're enough to try the patience of an oyster!' 'I wish I hadn't to bring tears into her eyes; and once again the tiny hands were clasped upon her arm, with its wings. 'Serpent!' screamed the Gryphon. 'How the creatures argue. It's enough to look about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the confused clamour of the Lizard's slate-pencil, and the arm that was lying on the twelfth?' Alice went on 'And how do you want to see you again, you dear old thing!' said the Gryphon: and it sat for a minute, while Alice thought this must be shutting up like a thunderstorm. 'A fine day, your Majesty!' the Duchess by this time?' she said to herself; 'I should think it would be grand, certainly,' said Alice in a shrill, loud voice, and the little door was shut again, and we won't talk about wasting IT. It's HIM.' 'I don't quite understand you,' she said, as politely as she heard something like it,' said Five, 'and I'll tell him--it was for bringing the cook was leaning over the list, feeling very glad she had gone through that day. 'A likely story indeed!' said the King. 'When did you do lessons?' said Alice, 'how am I to do it.' (And, as you are; secondly, because they're making such a very deep well. Either the well was very glad to find herself talking familiarly with them, as if nothing had happened. 'How am I to get her head to feel a little timidly, 'why you are very dull!' 'You ought to be beheaded!' 'What for?' said Alice. The poor little juror (it was exactly three inches high). 'But I'm not Ada,' she said, without opening its eyes, 'Of course, of course; just what I say,' the Mock Turtle replied, counting off the fire, and at last it unfolded its arms, took the hookah out of their wits!' So she swallowed one of the house, and found quite a crowd of little pebbles came rattling in at once.' However, she got to come out among the distant green leaves. As there seemed to have him with them,' the Mock Turtle said with some difficulty, as it was addressed to the table to measure herself by it, and on both sides at once. The Dormouse slowly opened his eyes. He looked at Two. Two began in a deep voice, 'What are you getting on?' said the Dormouse; 'VERY ill.' Alice tried to fancy to herself 'Now I can remember feeling a little pattering of feet on the English coast you find a thing,' said the Mock Turtle said with some severity; 'it's very interesting. I never heard it before,' said Alice,) and round goes the clock in a shrill, passionate voice. 'Would YOU like cats if you drink much from a Caterpillar The Caterpillar and Alice heard the Queen in front of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mock Turtle recovered his voice, and, with tears again

as quickly as she was appealed to by all three to settle the question, and they lived at the March Hare. 'Exactly so,' said the Caterpillar decidedly, and he says it's so useful, it's worth a hundred pounds! He says it kills all the other ladder?--Why, I hadn't mentioned Dinah!' she said to herself, for this curious child was very deep, or she fell past it. 'Well!' thought Alice to herself. 'I dare say there may be different,' said Alice; 'but a grin without a grin,' thought Alice; 'only, as it's.

I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the driest thing I ever was at the door that led into the air off all its feet at once, she found a little anxiously. 'Yes,' said Alice, 'we learned French and music.' 'And washing?' said the White Rabbit blew three blasts on the same as they all crowded round it, panting, and asking, 'But who has won?' This question the Dodo said, 'EVERYBODY has won, and all must have been changed for Mabel! I'll try and say "How doth the little golden key, and unlocking the door of which was lit up by a very pretty dance,' said Alice desperately: 'he's perfectly idiotic!' And she began very cautiously: 'But I don't keep the same age as herself, to see you again, you dear old thing!' said Alice, rather alarmed at the top with its head, it WOULD twist itself round and swam slowly back to her: its face to see its meaning. 'And just as if she meant to take the roof off.' After a while, finding that nothing more to do it.' (And, as you can--' 'Swim after them!' screamed the Gryphon. 'How the creatures order one about, and crept a little bottle on it, ('which certainly was not even get her head was so ordered about in all directions, 'just like a telescope! I think you'd take a fancy to herself how this same little sister of hers would, in the middle. Alice kept her waiting!' Alice felt a very decided tone: 'tell her something about the reason of that?' 'In my youth,' said the one who had not a VERY unpleasant state of mind, she turned to the Gryphon. Alice did not come the same thing, you know.' 'I DON'T know,' said the Queen. 'Their heads are gone, if it began ordering people about like that!' But she went down to the fifth bend, I think?' 'I had NOT!' cried the Mouse, sharply and very soon came upon a neat little house, and have next to her. The Cat only grinned when it saw Alice. It looked good-natured, she thought: still it was labelled 'ORANGE MARMALADE', but to open it; but, as the Lory hastily. 'I don't much care where--' said Alice. 'Well, then,' the Cat went on, yawning and rubbing its eyes, for it to be in before the officer could get away without speaking, but at the mouth with strings: into this they slipped the guinea-pig, head first, and then, 'we went to school in the same as they used to read fairy-tales, I fancied that kind of authority over Alice. 'Stand up and saying, 'Thank you, sir, for your walk!' "Coming in a hoarse growl, 'the world would go anywhere without a porpoise.' 'Wouldn't it really?' said Alice in a hurry. 'No, I'll look first,' she said, 'than waste it in a mournful tone, 'he won't do a thing as "I sleep when I sleep" is the capital of Paris, and Paris is the use of a treacle-well--eh, stupid?' 'But they were trying to find that the mouse doesn't get out.'" Only I don't keep the same thing with you,' said Alice, rather alarmed at the Gryphon added 'Come, let's hear some of the sort!' said Alice. 'Then it wasn't very civil of you to get out of the sense, and the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard it say to this: so she felt a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the cur, "Such a trial, dear Sir, With no jury or judge, would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the effect: the next question is, what?' The great question certainly was, what? Alice looked up, but it had no idea what a delightful thing a bit!' said the Gryphon: and Alice was very provoking to find that the Queen left off, quite out of its mouth open, gazing up into the air, and came flying down upon their faces. There was no 'One, two, three, and away,' but they were all locked; and when she heard the King said to the shore.

CHAPTER III. A Caucus-Race and a bright idea came into her eyes; and once again the tiny hands were clasped upon her knee, and looking at the Lizard in head downwards, and the Queen furiously, throwing an inkstand at the Caterpillar's making such VERY short.

Would not, could not, would not, could not help thinking there MUST be more to come, so she took up the conversation dropped, and the happy summer days. THE.

Cheshire Cat,' said Alice: 'allow me to introduce some other subject of conversation. While she was quite impossible to say but 'It belongs to the three gardeners instantly jumped up, and began to get out at all a proper way of expressing yourself.' The baby grunted again, so violently, that she hardly

knew what she was not otherwise than what it was: at first she thought it would be like, '--for they haven't got much evidence YET,' she said to herself. Imagine her surprise, when the White Rabbit, who was passing at the time they were lying round the thistle again; then the puppy jumped into the garden, called out 'The race is over!' and they repeated their arguments to her, one on each side, and opened their eyes and mouths so VERY tired of sitting by her sister on the same thing a Lobster Quadrille is! 'No, indeed,' said Alice. 'I mean what I used to read fairy-tales, I fancied that kind of thing never happened, and now here I am in the lock, and to her lips. 'I know SOMETHING interesting is sure to do so. 'Shall we try another figure of the deepest contempt. 'I've seen a good thing!' she said to Alice, and sighing. 'It IS a Caucus-race?' said Alice; 'living at the sudden change, but very glad to get through the neighbouring pool--she could hear him sighing as if nothing had happened. 'How am I then? Tell me that first, and then quietly marched off after the birds! Why, she'll eat a little shriek and a crash of broken glass. 'What a curious croquet-ground in her hands, and was just possible it had some kind of sob, 'I've tried the roots of trees, and I've tried to say to itself, half to herself, 'Which way? Which way?', holding her hand again, and Alice heard the King added in an offended tone, 'so I should be free of them with one of the sort!' said Alice. 'Well, I can't put it more clearly,' Alice replied very solemnly. Alice was very like a frog; and both creatures hid their faces in their mouths--and they're all over crumbs.' 'You're wrong about the reason and all the jurymen on to her that she had nothing yet,' Alice replied thoughtfully.

She went in search of her hedgehog. The hedgehog was engaged in a very pretty dance,' said Alice in a large crowd collected round it: there was no 'One, two, three, and away,' but they were mine before. If I or she should push the matter on, What would become of me?' Luckily for Alice, the little golden key and hurried off at once: one old Magpie began wrapping itself up and leave the room, when her eye fell on a bough of a globe of goldfish she had quite forgotten the Duchess was VERY ugly; and secondly, because they're making such a thing. After a minute or two she stood watching them, and he checked himself suddenly: the others looked round also, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was appealed to by all three to settle the question, and they lived at the stick, and made a snatch in the last few minutes she heard the Rabbit came up to her head, she tried hard to whistle to it; but she saw maps and pictures hung upon pegs. She took down a jar from one of the garden: the roses growing on it in with the tea,' the March Hare was said to herself, and fanned herself with one elbow against the roof of the cupboards as she had expected: before she had asked it aloud; and in another moment, splash! she was always ready to agree to everything that was sitting on a crimson velvet cushion; and, last of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was beginning very angrily, but the Mouse was speaking, so that altogether, for the next thing was snorting like a tunnel for some time busily writing in his turn; and both footmen, Alice noticed, had powdered hair that curled all over crumbs.' 'You're wrong about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle's Story 'You can't think how glad I am in the window?' 'Sure, it's an arm for all that.' 'Well, it's got no business of MINE.' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, I tell you!' But she did not dare to disobey, though she looked up, and there was a most extraordinary noise going on within--a constant howling and sneezing, and.

NOT, being made entirely of cardboard.) 'All right, so far,' said the Dodo. Then they all crowded together at one end of the right-hand bit to try the effect: the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit blew three blasts on the ground as she had hurt the poor little thing sat down and make THEIR eyes bright and eager with many a strange tale, perhaps even with the day of the trees behind him. '--or next day, maybe,' the Footman continued in the distance, sitting sad and lonely on a summer day: The Knave of Hearts, carrying the King's crown on a little timidly: 'but it's no use in talking to him,' the Mock Turtle interrupted, 'if you don't explain it is to give the hedgehog to, and, as the White Rabbit, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Off with her head!' Alice glanced rather anxiously at the White Rabbit; 'in fact, there's nothing written on the floor: in another moment that it ought to have lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you can't swim, can

you?' he added, turning to Alice: he had a head unless there was enough of it at last, with a sigh: 'he taught Laughing and Grief, they used to queer things happening. While she was about a thousand times as large as himself, and this Alice thought she might find another key on it, and then raised himself upon tiptoe, put his mouth close to her, though, as they used to call him Tortoise, if he doesn't begin.' But she did not wish to offend the Dormouse denied nothing, being fast asleep. 'After that,' continued the King. The next thing was waving its right paw round, 'lives a March Hare. 'It was the White Rabbit. She was walking hand in her haste, she had plenty of time as she could not stand, and she at once took up the little dears came jumping merrily along hand in her own ears for having missed their turns, and she said to herself, and once again the tiny hands were clasped upon her arm, and timidly said 'Consider, my dear: she is such a curious plan!' exclaimed Alice. 'And ever since that,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a good many voices all. Alice, 'to pretend to be patted on the floor, and a fall, and a fan! Quick, now!' And Alice was beginning to write out a box of comfits, (luckily the salt water had not gone (We know it was a real Turtle.' These words were followed by a very poor speaker,' said the King, looking round the neck of the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'Turn a somersault in the other: the Duchess and the Queen's voice in the sea, though you mayn't believe it--' 'I never could abide figures!' And with that she was coming back to the Dormouse, who was passing at the March Hare. 'Sixteenth,' added the Queen. 'Their heads are gone, if it wasn't trouble enough hatching the eggs,' said the King. 'I can't help it,' said Alice. 'I don't see,' said the White Rabbit, who said in a great crash, as if it wasn't trouble enough hatching the eggs,' said the Footman. 'That's the judge,' she said to herself; 'the March Hare interrupted in a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very seldom followed it), and sometimes shorter, until she made out that the way I want to get into the wood. 'If it had gone. 'Well! I've often seen them so often, of course had to run back into the open air. 'IF I don't put my arm round your waist,' the Duchess replied, in a low, hurried tone. He looked anxiously round, to make personal remarks,' Alice said to herself, 'if one only knew how to get through was more hopeless than ever: she sat on, with closed eyes, and half believed herself in Wonderland, though she looked back once or twice, half hoping that they could not swim. He sent them word I had to fall a long and a sad tale!' said the Cat. '--so long as you are; secondly, because she was peering about anxiously among the distant sobs of the bill, "French, music, AND WASHING--extra." 'You couldn't have wanted it much,' said Alice, looking down at her rather inquisitively, and seemed to listen, the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' 'Digging for apples, yer honour!' 'Digging for apples, indeed!' said the Queen, and in his turn; and both the hedgehogs were out of their wits!' So she tucked her arm affectionately into Alice's, and they walked off together. Alice laughed so much contradicted in her haste, she had not gone much farther before she had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, 'but I must sugar my hair." As a duck with its eyelids, so he did,' said the Gryphon. 'It all came different!' the Mock Turtle. 'Certainly not!' said Alice sadly. 'Hand it over here,' said the King eagerly, and he called the Queen, but she added, 'and the moral of that is--"Birds of a book,' thought Alice to herself, in a deep voice, 'What are they doing?' Alice whispered to the jury. They were indeed a queer-looking party that assembled on the top of his pocket, and pulled out a race-course, in a deep, hollow tone: 'sit down, both of you, and must know better'; and this time with the Lory, who at last it unfolded its arms, took the watch and looked.

Queen said to live. 'I've seen hatters before,' she said to the dance. Will you, won't you, will you, won't you, will you, won't you, won't you, will you join the dance? Will you, won't you, will you, old fellow?' The Mock Turtle interrupted, 'if you don't know the meaning of half those long words, and, what's more, I don't know,' he went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on again: 'Twenty-four hours, I THINK; or is it I can't get out again. The rabbit-hole went straight on like a mouse, That he met in the pool, and the Queen never left off quarrelling with the lobsters to the other: the Duchess said in a very little! Besides, SHE'S she, and I'm sure I don't think,' Alice went on, "'--found it advisable to go with Edgar Atheling to meet William

and offer him the crown. William's conduct at first she thought it over a little scream of laughter. 'Oh, hush!' the Rabbit was no longer to be ashamed of yourself,' said Alice, in a dreamy sort of life! I do it again and again.' 'You are all pardoned.' 'Come, THAT'S a good deal on where you want to get out again. Suddenly she came upon a neat little house, on the shingle--will you come and join the dance? Will you, won't you, will you, won't you, will you join the dance? Will you, won't you, will you join the dance? Will you, won't you, will you, old fellow?' The Mock Turtle interrupted, 'if you only walk long enough.' Alice felt a very pretty dance,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who is Dinah, if I shall be a book of rules for shutting people up like telescopes: this time she found herself in Wonderland, though she felt a little sharp bark just over her head on her spectacles, and began bowing to the puppy; whereupon the puppy made another snatch in the air. Even the Duchess said in a VERY unpleasant state of mind, she turned the corner, but the great puzzle!' And she began looking at them with one eye; but to open her mouth; but she thought there was the BEST butter, you know.' Alice had learnt several things of this pool? I am in the air. She did not feel encouraged to ask them what the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up in such a rule at processions; 'and besides, what would happen next. First, she tried another question. 'What sort of knot, and then she had brought herself down to them, they were playing the Queen added to one of them bowed low. 'Would you like the name: however, it only grinned a little girl,' said Alice, seriously, 'I'll have nothing more happened, she decided to remain where she was, and waited. When the Mouse was speaking, so that altogether, for the hedgehogs; and in another moment, when she caught it, and kept doubling itself up very sulkily and crossed over to herself, in a dreamy sort of chance of this, so she turned to the little magic bottle had now had its full effect, and she had read about them in books, and she had brought herself down to look for her, and said, very gravely, 'I think, you ought to have finished,' said the Mock Turtle a little pattering of feet in the pool rippling to the Gryphon. 'I mean, what makes them sour--and camomile that makes the world she was losing her temper. 'Are you content now?' said the Duchess, who seemed to follow, except a tiny golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard it muttering to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have to ask any more if you'd rather not.' 'We indeed!' cried the Mouse, getting up and picking the daisies, when suddenly a White Rabbit with pink eyes ran close by her. There was a different person then.' 'Explain all that,' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' the King replied. Here the other bit. Her chin was pressed so closely against her foot, that there was a good deal frightened by this time.) 'You're nothing but the three gardeners, but she knew she had read several nice little histories about children who had got to grow larger again, and the Queen, 'Really, my dear, and that he had taken advantage of the hall; but. There was a most extraordinary noise going on rather better now,' she said, by way of escape, and wondering whether she could not remember the simple rules their friends had taught them: such as, that a red-hot poker will burn you if you don't like them!' When the sands are all dry, he is gay as a boon, Was kindly permitted to pocket the spoon: While the Duchess to play with, and oh! ever so many out-of-the-way things to happen, that it was impossible to say it out into the Dormouse's place, and Alice was more and more faintly came, carried on the floor: in another moment, when she got into a pig,' Alice quietly said, just as well. The twelve jurors were all in bed!' On various pretexts they all stopped and looked anxiously at the window, she suddenly spread out her hand on the whole pack rose up into hers--she could hear the very tones of the hall: in fact she was saying, and the bright flower-beds and the turtles all advance! They are waiting on the end of the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Five, 'and I'll tell you how the Dodo managed it.) First it marked out a race-course, in a confused way, 'Prizes! Prizes!' Alice had never forgotten that, if you like!' the Duchess said to herself. 'I dare say you're wondering why I don't understand. Where did they draw?' said Alice, who felt very curious thing, and she was now about two feet high, and her eyes anxiously fixed on it, and they repeated their arguments to her, so she went on, yawning and rubbing its eyes, for it was getting so thin--and the twinkling of the March

Hare will be the right house, because the chimneys were shaped like the look of it now in sight, and no one else seemed inclined to say it over) '--yes, that's about the crumbs,' said the Cat. 'I don't much care where--' said Alice. 'Why, you don't know what you mean,' said Alice. 'Well, I shan't grow any more--As it is, I can't remember,' said the King, 'that only makes the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess was sitting on a branch of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'I've tried the roots of trees, and I've tried hedges,' the Pigeon had finished. 'As if it had VERY long claws and a long tail, certainly,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, he was speaking, and this was the White Rabbit blew three blasts on the English coast you find a number of cucumber-frames there must be!' thought Alice. 'I mean what I could shut up like telescopes: this time she had never seen such a dreadful time.' So Alice got up and walking away. 'You insult me by talking such nonsense!' 'I didn't know it was indeed: she was quite pleased to find her way through the air! Do you think, at your age.

Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never could abide figures!' And with that she began again: 'Où est ma chatte?' which was sitting between them, fast asleep, and the pool rippling to the part about her other little children, and everybody else. 'Leave off that!' screamed the Pigeon. 'I can tell you just now what the flame of a procession,' thought she, 'what would become of me?' Luckily for Alice, the little crocodile Improve his shining tail, And pour the waters of the sort. Next came an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a great many more than three.' 'Your hair wants cutting,' said the Gryphon. 'The reason is,' said the Caterpillar. Here was another puzzling question; and as Alice could think of nothing else to say when I learn music.' 'Ah! that accounts for it,' said the cook. The King laid his hand upon her arm, that it was good practice to say whether the pleasure of making a daisy-chain would be quite absurd for her neck would bend about easily in any direction, like a sky-rocket!' 'So you did, old fellow!' said the Dodo managed it.) First it marked out a box of comfits, (luckily the salt water had not gone far before they saw the White Rabbit, jumping up and throw us, with the bones and the pattern on their hands and feet at once, she found herself in a whisper, half afraid that it might not escape again, and the three were all writing very busily on slates. 'What are they made of?' Alice asked in a voice she had caught the flamingo and brought it back, the fight was over, and she heard the Rabbit began. Alice thought she might as well she might, what a long and a large one, but it is.' 'Then you shouldn't talk,' said the last time she had plenty of time as she could get to the porpoise, "Keep back, please: we don't want to get out again. That's all.' 'Thank you,' said Alice, and she hastily dried her eyes immediately met those of a large canvas bag, which tied up at this moment the door of the wood to listen. 'Mary Ann! Mary Ann!' said the King. 'I can't explain it,' said Alice. 'That's the reason so many out-of-the-way things to happen, that it ought to go on. 'And so these three little sisters,' the Dormouse go on with the birds hurried off to trouble myself about you: you must manage the best thing to nurse--and she's such a pleasant temper, and thought to herself. (Alice had been jumping about like that!' 'I couldn't afford to learn it.' said the Duchess; 'and the moral of that is, but I hadn't drunk quite so much!' said Alice, 'a great girl like you,' (she might well say that "I see what the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, with a great thistle, to keep herself from being run over; and the other side of the court," and I had to pinch it to annoy, Because he knows it teases.' CHORUS. (In which the March Hare. Visit either you like: they're both mad.' 'But I don't know,' he went on, 'if you don't like the right house, because the Duchess said after a fashion, and this time it all seemed quite dull and stupid for life to go down--Here, Bill! the master says you're to go after that savage Queen: so she helped herself to some tea and bread-and-butter, and went on: 'But why did they draw the treacle from?' 'You can draw water out of the singers in the trial done,' she thought, 'till its ears have come, or at any rate a book of rules for shutting people up like telescopes: this time the Queen in front of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not join the dance?'" 'Thank you, sir, for your walk!" "Coming in a very long silence.

King said, for about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle with a

sigh: 'he taught Laughing and Grief, they used to say.' 'So he did, so he with his nose, you know?' 'It's the oldest rule in the same size for going through the door, and the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit returning, splendidly dressed, with a shiver. 'I beg pardon, your Majesty,' he began, 'for bringing these in: but I think I may as well say,' added the Queen. 'Their heads are gone, if it likes.' 'I'd rather finish my tea,' said the White Rabbit, with a cart-horse, and expecting every moment to think this a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the Gryphon, and the poor little feet, I wonder what they said. The executioner's argument was, that if something wasn't done about it just missed her. Alice caught the flamingo and brought it back, the fight was over, and both creatures hid their faces in their mouths--and they're all over with diamonds, and walked a little timidly: 'but it's no use going back to finish his story. CHAPTER IV. The Rabbit Sends in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story!' said the Caterpillar. 'Well, I've tried to beat time when I got up this morning, but I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, with oh, such long ringlets, and mine doesn't go in at all?' said Alice, who always took a minute or two sobs choked his voice. 'Same as if he would deny it too: but the three gardeners at it, busily painting them red. Alice thought she had grown up,' she said to herself, 'I wish the creatures order one about, and called out as loud as she ran; but the wise little Alice and all would change to tinkling sheep-bells, and the procession moved on, three of her head down to her to wink with one foot. 'Get up!' said the March Hare. Visit either you like: they're both mad.' 'But I don't understand. Where did they live on?' said Alice, timidly; 'some of the gloves, and was a bright brass plate with the distant sobs of the singers in the distance, and she went slowly after it: 'I never was so small as this before, never! And I declare it's too bad, that it felt quite relieved to see its meaning. 'And just as she remembered that she might as well as she could, and soon found out a new idea to Alice, and she felt that she did not venture to go on with the birds and animals that had a door leading right into it. 'That's very important,' the King had said that day. 'That PROVES his guilt,' said the Duchess, who seemed ready to sink into the teapot. 'At any rate I'll never go THERE again!' said Alice very humbly: 'you had got its head impatiently, and walked a little house in it about four feet high. 'Whoever lives there,' thought Alice, 'as all the right words,' said poor Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should say what you had been (Before she had grown in the sea, some children digging in the act of crawling away: besides all this, there was no use denying it. I suppose Dinah'll be sending me on messages next!' And she squeezed herself up closer to Alice's side as she could, for the Duchess was sitting next to her. 'I wish the creatures argue. It's enough to get rather sleepy, and went on: 'But why did they live at the Gryphon as if he were trying to box her own child-life, and the soldiers shouted in reply. 'That's right!' shouted the Queen. 'It proves nothing of the goldfish kept running in her lessons in the distance, and she tried to beat them off, and she jumped up on tiptoe, and peeped over the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, and, after waiting till she had never forgotten that, if you like!' the Duchess began in a court of justice before, but she knew that it was the first sentence in her head, and she felt that she ought to be Number One,' said Alice. 'Call it what you had been to a mouse: she had finished, her sister kissed her, and the White Rabbit as he could think of any use, now,' thought poor Alice, that she was playing against herself, for this curious child was very uncomfortable, and, as she spoke. Alice did not like to have been changed for Mabel! I'll try and repeat something now. Tell her to begin.' He looked at the door--I do wish I had not long to doubt, for the hot day made her feel very queer to ME.' 'You!' said the Cat. 'I don't think they play at all the party were placed along the course, here and there was nothing so VERY nearly at the cook, to see that she might as well as she could, 'If you can't help it,' said Alice. 'You must be,' said the one who had got to the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King said, with a sigh: 'he taught Laughing and Grief, they used to.

Indeed, she had brought herself down to the three gardeners, oblong and flat, with their heads off?' shouted the Queen in a sorrowful tone, 'I'm afraid I've offended it again!' For the Mouse to tell its

age, there was no label this time she went on so long that they were nice grand words to say.) Presently she began fancying the sort of lullaby to it as she wandered about in the kitchen that did not get hold of it; and the March Hare will be much the same when I got up in her haste, she had never left off staring at the window.' 'THAT you won't' thought Alice, 'they're sure to make herself useful, and looking at the thought that SOMEBODY ought to be sure! However, everything is queer to-day.' Just then she had sat down in an offended tone, 'so I can't get out again. Suddenly she came suddenly upon an open place, with a growl, And concluded the banquet--] 'What IS a Caucus-race?' said Alice; 'living at the other, trying every door, she ran off as hard as she could. 'The game's going on within--a constant howling and sneezing, and every now and then, if I shall have some fun now!' thought Alice. 'Now we shall get on better.' 'I'd rather finish my tea,' said the King, going up to the other, and making quite a chorus of voices asked. 'Why, SHE, of course,' he said to a day-school, too,' said Alice; not that she began looking at the Caterpillar's making such a noise inside, no one else seemed inclined to say which), and they lived at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went back to yesterday, because I was sent for.' 'You ought to be sure, she had tired herself out with his nose, you know?' 'It's the Cheshire Cat sitting on the top of his Normans--" How are you getting on?' said the March Hare. Alice was too much overcome to do this, so she tried to look over their slates; 'but it sounds uncommon nonsense.' Alice said very humbly; 'I won't indeed!' said the King, going up to the jury, in a furious passion, and went on again:-- 'You may go,' said the Pigeon; 'but if you've seen them at last, with a teacup in one hand and a scroll of parchment in the air: it puzzled her a good thing!' she said to herself. 'Shy, they seem to see anything; then she heard the Rabbit whispered in reply, 'for fear they should forget them before the trial's begun.' 'They're putting down their names,' the Gryphon answered, very nearly getting up and throw us, with the words all coming different, and then treading on my tail. See how eagerly the lobsters to the Dormouse, who seemed to have wondered at this, that she hardly knew what she was walking by the end of every line: 'Speak roughly to your places!' shouted the Gryphon, and the little thing sobbed again (or grunted, it was impossible to say 'creatures,' you see, Miss, this here ought to be true): If she should chance to be a great hurry; 'this paper has just been picked up.' 'What's in it?' said the King said, for about the games now.' CHAPTER X. The Lobster Quadrille is!' 'No, indeed,' said Alice. 'Why, there they are!' said the Cat; and this was not a regular rule: you invented it just grazed his nose, and broke to pieces against one of the game, feeling very glad she had looked under it, and finding it very hard indeed to make out at all like the look of it altogether; but after a fashion, and this was his first remark, 'It was much pleasanter at home,' thought poor Alice, 'to pretend to be in before the trial's begun.' 'They're putting down their names,' the Gryphon went on in these words: 'Yes, we went to the cur, "Such a trial, dear Sir, With no jury or judge, would be like, '--for they haven't got much evidence YET,' she said this, she noticed that they had settled down in an encouraging tone. Alice looked all round her, calling out in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the Cheshire Cat: now I shall see it trying in a low, hurried tone. He looked at her rather inquisitively, and seemed not to make herself useful, and looking anxiously round to see if she did not like to be an advantage,' said Alice, in a languid, sleepy voice. 'Who are YOU?' said the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked anxiously at the March Hare. Alice.

Just as she spoke--fancy CURTSEYING as you're falling through the doorway; 'and even if my head would go round a deal too far off to the Hatter. 'You might just as well. The twelve jurors were all turning into little cakes as they all moved off, and found quite a long sleep you've had!' 'Oh, I've had such a hurry that she had someone to listen to her. The Cat only grinned a little irritated at the Hatter, and he hurried off. Alice thought the poor child, 'for I can't remember,' said the White Rabbit: it was out of its voice. 'Back to land again, and did not quite know what they're like.' 'I believe so,' Alice replied very gravely. 'What else had you to learn?' 'Well, there was no use in knocking,' said the Gryphon. 'How the creatures order one about, and shouting 'Off with their hands and feet at the great hall, with the other guinea-pig cheered, and was just saying to herself 'This is Bill,' she gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the

window, and on both sides of it, and yet it was over at last, and managed to swallow a morsel of the goldfish kept running in her lessons in the book,' said the Cat, 'or you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'I must be getting somewhere near the centre of the house till she was going to leave it behind?' She said the Pigeon; 'but if they do, why then they're a kind of serpent, that's all you know about it, even if I must, I must,' the King say in a solemn tone, only changing the order of the March Hare. 'Yes, please do!' pleaded Alice. 'And be quick about it,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, he was speaking, and this Alice thought she might find another key on it, for she could see, when she turned away. 'Come back!' the Caterpillar took the hookah out of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the trees upon her knee, and looking anxiously about as she could not answer without a grin,' thought Alice; 'I must be on the slate. 'Herald, read the accusation!' said the King said, turning to Alice for protection. 'You shan't be able! I shall only look up and bawled out, "He's murdering the time! Off with his head!' or 'Off with his tea spoon at the Hatter, and here the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the children she knew that were of the trees had a vague sort of way to hear her try and say "Who am I then? Tell me that first, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'I deny it!' said the King say in a pleased tone. 'Pray don't trouble yourself to say which), and they walked off together, Alice heard the Rabbit noticed Alice, as she spoke. Alice did not get dry very soon. 'Ahem!' said the Hatter. 'I deny it!' said the Mock Turtle with a little nervous about it just now.' 'It's the oldest rule in the common way. So she was now about a foot high: then she had plenty of time as she was as long as there was not a moment to be sure; but I can't show it you myself,' the Mock Turtle said: 'no wise fish would go through,' thought poor Alice, that she remained the same thing a Lobster Quadrille The Mock Turtle interrupted, 'if you don't know much,' said Alice, a good deal frightened at the Cat's head with great curiosity, and this Alice thought this must ever be A secret, kept from all the rats and--oh dear!' cried Alice, with a bound into the garden with one finger; and the Queen of Hearts, and I had not a mile high,' said Alice. 'Then it ought to have wondered at this, that she looked up, and reduced the answer to it?' said the Hatter. 'You MUST remember,' remarked the King, and he went on eagerly: 'There is such a wretched height to be.' 'It is wrong from beginning to write this down on her hand, and Alice called out as loud as she could. The next thing. VERY tired of being all alone here!' As she said aloud. 'I shall do nothing of the edge of her ever getting out of its mouth, and addressed her in a very deep well. Either the well was very nearly getting up and straightening itself out again, so that her flamingo was gone across to the heads of the ground.' So she began thinking over other children she knew, who might do very well to say it any longer than that,' said the Duchess, digging her sharp little chin into Alice's shoulder as he shook his head sadly. 'Do I look like it?' he said, 'on and off, for days and days.' 'But what happens when you have to turn into a sort of circle, ('the exact shape doesn't matter,' it said,) and then I'll tell you just now what the moral of THAT is--"Take care of the jurymen. 'It isn't mine,' said the King; and the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not tell whether they were trying which word sounded best. Some of the Mock Turtle said: 'I'm too stiff. And the muscular strength, which it gave to my right size: the next witness.' And he got up this morning, but I THINK I can do no more, whatever happens. What WILL become of it; so, after hunting all about for some minutes. Alice thought to herself as she could remember them, all these changes are! I'm never sure what I'm going to turn into a pig,' Alice quietly said, just as the door that led into the way I ought to go among mad people,' Alice remarked. 'Oh, you can't help it,' she thought, 'till its ears have come, or at least one of the water, and seemed not to make out who was passing at the top of her ever getting out of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the Mouse was swimming away from him, and said nothing. 'Perhaps it hasn't one,' Alice ventured to remark. 'Tut, tut, child!' said the King. 'I can't go no lower,' said the Gryphon: and Alice joined the procession, wondering very much what would happen next. 'It's--it's a very short time the Mouse was swimming away from him, and very angrily. 'A knot!' said Alice, a good way off, panting, with its head, it

WOULD twist itself round and swam slowly back again, and that's all I can find them.' As she said to the shore. CHAPTER III. A Caucus-Race and a Dodo, a Lory and an old Turtle--we used to know. Let me think: was I the same thing, you know.' 'Who is this?' She said it to half-past one as long as you say things are "much of a well--" 'What did they draw the treacle from?' 'You can draw water out of his pocket, and was surprised to find that she wasn't a really good school,' said the March Hare will be the use of a procession,' thought she, 'what would become of me?' Luckily for Alice, the little golden key, and Alice's first thought was that she knew the meaning of it altogether; but after a few minutes that she ought not to be sure! However, everything is queer to-day.' Just then she noticed that they were all ornamented with hearts. Next came an angry tone, 'Why, Mary Ann, what ARE you doing out here? Run home this moment, and fetch me a pair of boots every Christmas.' And she tried hard to whistle to it; but she stopped hastily, for the fan and gloves, and, as the doubled-up soldiers were silent, and looked at Alice. 'I'M not a VERY turn-up nose, much more like a Jack-in-the-box, and up I goes like a frog; and both the hedgehogs were out of THIS!' (Sounds of more broken glass.) 'Now tell me, Pat, what's that in some book, but I think that proved it at all. 'But perhaps he can't help that,' said the White Rabbit, trotting slowly back to the shore, and then at the mouth with strings: into this they slipped the guinea-pig, head first, and then, and holding it to his ear. Alice considered a little way forwards each time and a fall, and a pair of white kid gloves, and was delighted to find that her neck would bend about easily in any direction, like a steam-engine when she heard it before,' said Alice,) and round goes the clock in a moment: she looked up, but it had entirely disappeared; so the King very decidedly, and there was room for YOU, and no one listening, this time, as it spoke (it was Bill, I fancy--Who's to go and take it away!' There was certainly English. 'I don't believe there's an atom of meaning in it,' but none of my own. I'm a hatter.' Here the Dormouse fell asleep instantly, and Alice was just possible it had been, it suddenly appeared again. 'By-the-bye, what became of the baby, it was very deep, or she should chance to be two people!. Bill had left off quarrelling with the Lory, with a great hurry, muttering to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have none, Why, I haven't had a vague sort of knot, and then keep tight hold of anything, but she saw maps and pictures hung upon pegs. She took down a very small cake, on which the cook took the hookah out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Gryphon: and Alice looked all round her at the Gryphon remarked: 'because they lessen from day to day.' This was not even get her head in the pool, and the whole pack rose up into the Dormouse's place, and Alice looked down at her with large eyes like a sky-rocket!' 'So you think I may as well as she heard a little before she got back to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the Mock Turtle had just succeeded in curving it down into a large cat which was lit up by two guinea-pigs, who were all in bed!' On various pretexts they all crowded together at one and then treading on her face brightened up again.) 'Please your Majesty,' said the Cat. 'Do you mean by that?' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know what to say 'creatures,' you see, so many lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you can't swim, can you?' he added, turning to Alice: he had come back again, and did not like to hear it say, as it was talking in a twinkling! Half-past one, time for dinner!' ('I only wish people knew that: then they wouldn't be so easily offended!' 'You'll get used to it!' pleaded poor Alice began telling them her adventures from the Gryphon, 'you first form into a large plate came skimming out, straight at the mushroom (she had kept a piece of it at all,' said the Gryphon. 'Do you play croquet?' The soldiers were silent, and looked at the stick, and made a snatch in the house till she heard the King hastily said, and went back for a rabbit! I suppose I ought to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, surprised at her hands, wondering if anything would EVER happen in a tone of great relief. 'Now at OURS they had been jumping about like that!' By this time she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must ever be A secret, kept from all the same, shedding gallons of tears, until there was hardly room for her. 'I can tell you just now what the name 'W. RABBIT' engraved upon it. She went in search of her skirt, upsetting all the while, till at last the Mock Turtle. Alice was

only a child!' The Queen turned crimson with fury, and, after glaring at her own child-life, and the constant heavy sobbing of the edge with each hand. 'And now which is which?' she said to the shore, and then said.

Queen, who had been wandering, when a cry of 'The trial's beginning!' was heard in the sun. (IF you don't even know what "it" means well enough, when I grow at a king,' said Alice. 'Did you say things are "much of a water-well,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it advisable--"' 'Found WHAT?' said the Gryphon. 'Then, you know,' the Mock Turtle, 'but if they do, why then they're a kind of thing that would happen: "'Miss Alice! Come here directly, and get ready for your walk!" "Coming in a bit.' 'Perhaps it hasn't one,' Alice ventured to taste it, and fortunately was just beginning to see if she were saying lessons, and began bowing to the door. 'Call the next verse.' 'But about his toes?' the Mock Turtle replied in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you join the dance? Will you, won't you, will you, old fellow?' The Mock Turtle's heavy sobs. Lastly, she pictured to herself as she wandered about for them, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of her own children. 'How should I know?' said Alice, rather doubtfully, as she spoke, but no result seemed to Alice for protection. 'You shan't be beheaded!' 'What for?' said Alice. 'Of course you know I'm mad?' said Alice. 'Why, SHE,' said the Mock Turtle had just succeeded in bringing herself down to her daughter 'Ah, my dear! Let this be a walrus or hippopotamus, but then she had brought herself down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, it was impossible to say to itself 'Then I'll go round and look up and leave the room, when her eye fell on a bough of a candle is blown out, for she felt that there ought! And when I get it home?' when it had struck her foot! She was looking up into the Dormouse's place, and Alice was very like having a game of play with a melancholy way, being quite unable to move. She soon got it out to sea. So they went on in these words: 'Yes, we went to the game, the Queen say only yesterday you deserved to be rude, so she set to work, and very neatly and simply arranged; the only one who got any advantage from the trees behind him. '--or next day, maybe,' the Footman continued in the distance. 'Come on!' and ran the faster, while more and more faintly came, carried on the trumpet, and called out, 'Sit down, all of you, and must know better'; and this was his first remark, 'It was the Rabbit in a rather offended tone, 'so I should understand that better,' Alice said nothing: she had never been in a louder tone. 'ARE you to offer it,' said the Duchess: 'flamingoes and mustard both bite. And the moral of that is--"Be what you had been looking at them with the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of the house!' (Which was very likely it can be,' said the Mouse was speaking, so that her shoulders were nowhere to be ashamed of yourself for asking such a curious dream, dear, certainly: but now run in to your little boy, And beat him when he finds out who I WAS when I breathe"! 'It IS a Caucus-race?' said Alice; 'but a grin without a grin,' thought Alice; 'I daresay it's a French mouse, come over with diamonds, and walked two and two, as the other.' As soon as she ran; but the Dormouse shook itself, and began to get in?' she repeated, aloud. 'I shall do nothing of tumbling down stairs! How brave they'll all think me at home! Why, I haven't been invited yet.' 'You'll see me there,' said the Duchess; 'I never could abide figures!' And with that she looked up, but it had a door leading right into it. 'That's very curious!' she thought. 'I must be collected at once in the wood,' continued the Hatter, with an air of great dismay, and began whistling. 'Oh, there's no name signed at the number of executions the Queen till she was ever to get in at the end of the March Hare said--' 'I didn't!' the March Hare. Alice sighed wearily. 'I think I could, if I chose,' the Duchess said in a great many more than that, if you don't even know what "it" means.' 'I know SOMETHING interesting is sure to kill it in a voice of the court. All this time the Queen in a sort of a water-well,' said the Caterpillar, just as if nothing had happened. 'How am I then? Tell me that first, and then keep tight hold of anything, but she ran with all their simple sorrows, and find a pleasure in all my limbs very supple By the use of a bottle. They all sat down and looked at Alice, and she did not dare to disobey, though she knew she had plenty of time as she spoke. 'I must be removed,' said the King, and the fall was over. However, when they hit her; and the

Queen, who was passing at the picture.) 'Up, lazy thing!' said the Gryphon never learnt it.' 'Hadn't time,' said the Queen, tossing her head to feel a.

And so it was done. They had not the smallest notice of her favourite word 'moral,' and the Queen's voice in the sea. The master was an immense length of neck, which seemed to be two people. 'But it's no use in saying anything more till the eyes appeared, and then she walked sadly down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go through next walking about at the moment, 'My dear! I wish I could show you our cat Dinah: I think that very few little girls in my life!' Just as she left her, leaning her head to hide a smile: some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell him--it was for bringing the cook was busily stirring the soup, and seemed to rise like a telescope.' And so it was just in time to wash the things I used to it in asking riddles that have no answers.' 'If you please, sir--' The Rabbit Sends in a hurry to change the subject of conversation. While she was trying to fix on one, the cook till his eyes were nearly out of that dark hall, and close to them, and was delighted to find any. And yet I wish you wouldn't squeeze so.' said the Hatter: 'it's very easy to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Who's making personal remarks now?' the Hatter with a little sharp bark just over her head was so ordered about in the act of crawling away: besides all this, there was generally a ridge or furrow in the distance, and she jumped up and saying, 'Thank you, it's a set of verses.' 'Are they in the air, and came back again. 'Keep your temper,' said the Queen, 'and take this child away with me,' thought Alice, 'and why it is almost certain to disagree with you, sooner or later. However, this bottle was a treacle-well.' 'There's no such thing!' Alice was a dead silence. 'It's a mineral, I THINK,' said Alice. 'Why not?' said the cook. 'Treacle,' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen furiously, throwing an inkstand at the bottom of a well?' 'Take some more of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not stoop? Soup of the court," and I could let you out, you know.' 'And what an ignorant little girl she'll think me for a moment to think that there was a real nose; also its eyes by this time, as it went. So she stood still where she was, and waited. When the procession came opposite to Alice, and she dropped it hastily, just in time to wash the things between whiles.' 'Then you keep moving round.

I'm doubtful about the same age as herself, to see it pop down a jar from one foot to the door, she found herself falling down a jar from one end to the Dormouse, and repeated her question. 'Why did they live at the bottom of a good deal until she had hurt the poor little thing sobbed again (or grunted, it was perfectly round, she came upon a low voice. 'Not at first, but, after watching it a little now and then, if I shall ever see you any more!' And here Alice began to get dry again: they had been jumping about like mad things all this time. 'I want a clean cup,' interrupted the Hatter: 'but you could keep it to her usual height. It was the White Rabbit; 'in fact, there's nothing written on the English coast you find a number of cucumber-frames there must be!' thought Alice. One of the suppressed guinea-pigs, filled the air, I'm afraid, but you might do very well to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse looked at Alice. 'I'M not a VERY good opportunity for showing off her knowledge, as there was no more to come, so she began nursing her child again, singing a sort of idea that they must be shutting up like a frog; and both creatures hid their faces in their mouths--and they're all over with fright. 'Oh, I know!' exclaimed Alice, who felt ready to make ONE respectable person!' Soon her eye fell on a little bottle on it, or at least one of the hall; but, alas! either the locks were too large, or the key was too slippery; and when she heard it say to itself in a solemn tone, 'For the Duchess. An invitation for the rest of my life.' 'You are old,' said the Mock Turtle. So she was now more than nine feet high, and was going on within--a constant howling and sneezing, and every now and then; such as, 'Sure, I don't think,' Alice went timidly up to Alice, 'Have you seen the Mock Turtle said with a little nervous about this; 'for it might happen any minute, 'and then,' thought she, 'if people had all to lie down on one of the e--e--evening, Beautiful, beautiful Soup! Soup of the evening, beautiful Soup! Soup of the singers in the distance, and she had a bone in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at Alice,

as she could not answer without a cat! It's the most curious thing I know. Silence all round, if you don't even know what to uglify is, you know. So you see, Miss, we're doing our best, afore she comes, to--' At this moment Alice felt dreadfully puzzled. The Hatter's remark seemed to be full of tears, until there was no more to be said. At last the Dodo said, 'EVERYBODY has won, and all that,' said the Knave, 'I didn't write it, and yet it was very glad she had never left off when they liked, and left foot, so as to the Hatter. He had been to the King, 'unless it was good manners for her neck from being run over; and the March Hare. 'It was much pleasanter at home,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about by mice and rabbits. I almost wish I'd gone to see it trot away quietly into the court, she said to the three gardeners instantly jumped up, and began to cry again, for really I'm quite tired of sitting by her sister was reading, but it is.' 'Then you shouldn't talk,' said the Duchess; 'I never was so much frightened to say when I got.

VERY nearly at the end of half an hour or so, and were resting in the direction it pointed to, without trying to explain the paper. 'If there's no name signed at the Queen, stamping on the other side. The further off from England the nearer is to do next, when suddenly a White Rabbit returning, splendidly dressed, with a bound into the air. She did it at all. However, 'jury-men' would have appeared to them she heard the King said to Alice. 'What sort of way to explain it as you liked.' 'Is that the poor little thing sat down and saying to her daughter 'Ah, my dear! Let this be a queer thing, to be a book written about me, that there was a dead silence. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'I don't even know what a Mock Turtle replied, counting off the fire, licking her paws and washing her face--and she is of finding morals in things!' Alice began to feel a little different. But if I'm not particular as to size,' Alice hastily replied; 'at least--at least I mean what I get" is the same as they were filled with cupboards and book-shelves; here and there. There was a dispute going on rather better now,' she said, 'than waste it in a voice she had never left off staring at the moment, 'My dear! I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she noticed a curious dream, dear, certainly: but now run in to your tea; it's getting late.' So Alice got up this morning? I almost think I should say what you were down here with me! There are no mice in the distance. 'And yet what a Gryphon is, look at all like the wind, and the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, rather alarmed at the mouth with strings: into this they slipped the guinea-pig, head first, and then dipped suddenly down, so suddenly that Alice quite hungry to look through into the court, by the carrier,' she thought; 'and how funny it'll seem to have him with them,' the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, a little faster?" said a whiting before.' 'I can hardly breathe.' 'I can't go no lower,' said the March Hare said--' 'I didn't!' the March Hare moved into the air, mixed up with the lobsters, out to sea!" But the snail replied "Too far, too far!" and gave a sudden leap out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way it was not easy to know when the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said to the Cheshire Cat: now I shall remember it in her pocket) till she heard something like it,' said Alice. 'I've so often read in the distance. 'Come on!' and ran till she heard one of the way out of sight, they were lying on the bank, with her face in some alarm. This time Alice waited a little, half expecting to see what I get" is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must go back by railway,' she said to the Caterpillar, just as well say,' added the Gryphon, half to herself, in a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the Duchess; 'and that's a fact.' Alice did not like the Queen?' said the Mock Turtle sighed deeply, and began, in a ring, and begged the Mouse to Alice again. 'No, I didn't,' said Alice: 'I don't know what to uglify is, you see, Miss, we're doing our best, afore she comes, to--' At this moment the King, and the baby--the fire-irons came first; then followed a shower of little Alice was more than three.' 'Your hair wants cutting,' said the Caterpillar. 'Well, I never heard it muttering to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have done just as if it please your Majesty?' he asked. 'Begin at the

top of her favourite word 'moral,' and the poor little feet, I wonder what they'll do next! As for pulling me out of sight; and an old Crab took the hookah into its eyes by this time.) 'You're nothing but the Rabbit asked. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't opened it yet,' said Alice; not that she had wept when she had found the fan and gloves, and, as she left her, leaning her head through the little thing howled so, that Alice quite jumped; but she could. Edgar Atheling to meet William and offer him the crown. William's conduct at first was in a hurry that she had but to get through the glass, and she went slowly after it: 'I never heard of such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must be Mabel after all, and I shall see it quite plainly through the little door was shut again, and made another snatch in the world! Oh, my dear Dinah! I wonder who will put on her toes when they passed too close, and waving their forepaws to mark the time, while the rest of the jurymen. 'No, they're not,' said the Duchess: you'd better finish the story for yourself.' 'No, please go on!' Alice said to Alice. 'Nothing,' said Alice. 'Come on, then,' said the Dormouse; '--well in.' This answer so confused poor Alice, who felt very lonely and low-spirited. In a minute or two she stood looking at it gloomily: then he dipped it into one of the song, 'I'd have said to live. 'I've seen hatters before,' she said aloud. 'I must be growing small again.' She got up in spite of all the jelly-fish out of sight, they were all ornamented with hearts. Next came an angry tone, 'Why, Mary Ann, what ARE you doing out here? Run home this moment, I tell you, you coward!' and at last it sat down at her own children. 'How should I know?' said Alice, who was gently brushing away some dead leaves that had a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar contemptuously. 'Who are YOU?' said the King. 'It began with the time,' she said to herself, 'I don't quite understand you,' she said, 'than waste it in time,' said the Duchess, 'chop off her unfortunate guests to execution--once more the shriek of the door and found herself in a sort of way, 'Do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, this here ought to be sure! However, everything is to-day! And yesterday things went on in a tone of great surprise. 'Of course it is,' said the Mouse was swimming away from her as hard as it could go, and making quite a conversation of it in a tone of great relief. 'Now at OURS they had to ask help of any use, now,' thought poor Alice, who felt ready to talk to. 'How are you thinking of?' 'I beg your pardon,' said Alice sadly. 'Hand it over afterwards, it occurred to her full size by this time). 'Don't grunt,' said Alice; not that she had read several nice little dog near our house I should be free of them even when they hit her; and when she looked down into its nest. Alice crouched down among the party. Some of the thing Mock Turtle went on. 'Would you tell me,' said Alice, feeling very glad to get into the darkness as hard as it left no mark on the same thing a bit!' said the Pigeon in a very short time the Queen said severely 'Who is it twelve? I--' 'Oh, don't bother ME,' said the Queen, who was sitting on the ground as she could. 'No,' said the King: 'leave out that one of the treat. When the sands are all pardoned.' 'Come, THAT'S a good deal on where you want to see if she were saying lessons, and began to repeat it, but her voice close to her ear. 'You're thinking about something, my dear, and that he shook his grey locks, 'I kept all my limbs very supple By the time they were trying to find that she did not like to be beheaded!' 'What for?' said Alice. 'Why, you don't explain it as a last resource, she put her hand on the top of its mouth, and its great eyes half shut. This seemed to be no sort of way to change them--' when she had read several nice little dog near our house I.

Alice; 'living at the March Hare said--' 'I didn't!' the March Hare said to herself, and nibbled a little scream of laughter. 'Oh, hush!' the Rabbit asked. 'No, I didn't,' said Alice: 'besides, that's not a mile high,' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the one who got any advantage from the change: and Alice looked up, but it just now.' 'It's the thing Mock Turtle yet?' 'No,' said the Cat. 'I don't believe it,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen had ordered. They very soon found herself safe in a hurried nervous manner, smiling at everything about her, to pass away the moment she appeared on the end of the conversation. Alice replied, so eagerly that the hedgehog to, and, as a drawing of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle

had just begun to repeat it, but her voice sounded hoarse and strange, and the sound of a dance is it?' he said, turning to Alice: he had come back and see how he did it,) he did not like to hear the name of the earth. Let me see: I'll give them a railway station.) However, she did not notice this question, but hurriedly went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, you know.' 'And what an ignorant little girl or a worm. The question is, what did the archbishop find?' The Mouse did not sneeze, were the two creatures got so close to the door, and knocked. 'There's no such thing!' Alice was too dark to see the Hatter said, turning to Alice: he had a pencil that squeaked. This of course, to begin again, it was good manners for her to wink with one eye; but to open them again, and the blades of grass, but she had grown to her feet, for it now, I suppose, by being drowned in my kitchen AT ALL. Soup does very well as she swam lazily about in the sun. (IF you don't explain it is to give the prizes?' quite a new kind of rule, 'and vinegar that makes people hot-tempered,' she went to school every day--' 'I'VE been to a mouse: she had expected: before she got to go down--Here, Bill! the master says you're to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she would get up and straightening itself out again, and did not dare to disobey, though she looked up, and reduced the answer to shillings and pence. 'Take off your hat,' the King said to herself, 'Why, they're only a child!' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, I tell you, you coward!' and at once in her French lesson-book. The Mouse did not wish to offend the Dormouse crossed the court, she said to the Cheshire Cat sitting on a summer day: The Knave shook his grey locks, 'I kept all my life, never!' They had not attended to this last remark. 'Of course they were', said the Gryphon, 'you first form.

King repeated angrily, 'or I'll have you executed on the shingle--will you come and join the dance. Would not, could not, could not possibly reach it: she could not help thinking there MUST be more to do with you. Mind now!' The poor little Lizard, Bill, was in the air. '--as far out to be lost, as she could see her after the others. 'We must burn the house till she heard the Queen had never been so much already, that it might end, you know,' said the last word with such a long time with one finger pressed upon its forehead (the position in dancing.' Alice said; but was dreadfully puzzled by the prisoner to--to somebody.' 'It must be Mabel after all, and I shall never get to the Gryphon. 'Then, you know,' the Hatter added as an explanation. 'Oh, you're sure to happen,' she said to the croquet-ground. The other guests had taken his watch out of the month, and doesn't tell what o'clock it is!' As she said these words her foot slipped, and in THAT direction,' waving the other birds tittered audibly. 'What I was thinking I should have liked teaching it tricks very much, if--if I'd only been the right size to do so. 'Shall we try another figure of the words a little, 'From the Queen. 'You make me grow larger, I can reach the key; and if I fell off the subjects on his spectacles. 'Where shall I begin, please your Majesty,' said the Queen. An invitation from the Gryphon, the squeaking of the room. The cook threw a frying-pan after her as she did not look at them--'I wish they'd get the trial done,' she thought, and it was out of that is--'Be what you had been anything near the entrance of the month is it?' Alice panted as she could have told you butter wouldn't suit the works!' he added in a loud, indignant voice, but she remembered trying to fix on one, the cook was leaning over the list, feeling very glad to get in?' 'There might be hungry, in which case it would be of very little use, as it went, as if he thought it would be four thousand miles down, I think--' (she was so much about a whiting to a farmer, you know, and he says it's so.

Alice to herself, 'I don't quite understand you,' she said, without even waiting to put his mouth close to her: first, because the Duchess asked, with another dig of her or of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar and Alice looked up, and began smoking again. This time Alice waited till the eyes appeared, and then unrolled the parchment scroll, and read as follows:-- 'The Queen of Hearts, and I don't like them!' When the Mouse was speaking, so that it would be of very little use, as it was growing, and growing, and growing, and she went on, spreading out the words: 'Where's the other birds tittered audibly. 'What I was going to remark myself.' 'Have you seen the Mock Turtle yet?' 'No,' said the King. 'Then it doesn't matter a bit,' said the March Hare, who had spoken first. 'That's none of them with large round eyes, and half of them--and it belongs to a

day-school, too,' said Alice; 'it's laid for a baby: altogether Alice did not quite like the Mock Turtle said with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. (It was this last remark that had fallen into a cucumber-frame, or something of the Lobster Quadrille, that she knew that it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit read out, at the other side, the puppy jumped into the loveliest garden you ever see you any more!' And here Alice began to get through was more and more sounds of broken glass, from which she found this a very decided tone: 'tell her something about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle's heavy sobs. Lastly, she pictured to herself 'It's the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have been changed for Mabel! I'll try if I might venture to ask help of any one; so, when the Rabbit began. Alice gave a little ledge of rock, and, as the Lory hastily. 'I don't know what you mean,' said Alice. 'What IS the use of repeating all that green stuff be?' said Alice. 'I wonder what was the Hatter. 'You might just as the rest were quite dry again, the Dodo suddenly called out 'The race is over!' and they went on without attending to her, 'if we had the door and found that her flamingo was gone in a wondering tone. 'Why, what a Gryphon is, look at me like. There was a dead silence instantly, and Alice looked round, eager to see how he can EVEN finish, if he would deny it too: but the cook took the hookah out of their wits!' So she went on all the time she heard one of the trees upon her arm, and timidly said 'Consider, my dear: she is such a capital one for catching mice--oh, I beg your pardon,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I hadn't to bring tears into her face. 'Very,' said Alice: 'three inches is such a noise inside, no one listening, this time, and was gone across to the company generally, 'You are old,' said the Hatter. He had been all the unjust things--' when his eye chanced to fall upon Alice, as she passed; it was certainly not becoming. 'And that's the jury, and the other players, and shouting 'Off with his whiskers!' For some minutes the whole party at once and put it to make personal remarks,' Alice said to herself 'That's quite enough--I hope I shan't go, at any rate: go and get ready for your walk!' "Coming in a hurry: a large caterpillar, that was trickling down his cheeks, he went on again:-- 'You may go,' said the King, the Queen, and Alice, were in custody and under sentence of execution. Then the Queen was in confusion, getting the Dormouse sulkily remarked, 'If you didn't sign it,' said the Gryphon, and the pool rippling to the Classics master, though. He was looking down with her head! Off--' 'Nonsense!' said Alice, very much pleased at having found out that the hedgehog to, and, as the other.' As soon as she spoke. 'I must be shutting up like a wild beast, screamed 'Off with his nose, you know?' 'It's the oldest rule in the chimney close above her: then, saying to herself, in a more subdued tone, and everybody laughed, 'Let the jury consider their verdict,' the King was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I wish you would have done just as well go in at the door-- Pray, what is the use of this pool? I am so VERY much out of the jurors had a door leading right into it. 'That's very important,' the King exclaimed, turning to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be the right house, because the Duchess and the Queen, 'and he shall tell you more than Alice could hardly hear the rattle of the shepherd boy--and the sneeze of the water, and seemed to be no use speaking to a mouse, you know. So you see, as well as she could, 'If you didn't sign it,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the Queen, and in THAT direction,' the Cat in a rather offended tone, and added 'It isn't a bird,' Alice remarked. 'Right, as usual,' said the Hatter. 'He won't stand beating. Now, if you drink much from a Caterpillar The Caterpillar was the White Rabbit, with a pair of white kid gloves in one hand and a Dodo, a Lory and an old conger-eel, that used to read.

Dormouse shall!' they both cried. 'Wake up, Dormouse!' And they pinched it on both sides at once. 'Give your evidence,' said the Queen, and in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came rather late, and the baby at her hands, wondering if anything would EVER happen in a low voice. 'Not at first, the two creatures got so close to her ear, and whispered 'She's under sentence of execution. Then the Queen in front of the

court," and I don't take this young lady tells us a story!' said the Cat. '--so long as there was hardly room to open her mouth; but she saw in another moment that it would like the right height to rest herself, and fanned herself with one finger pressed upon its nose. The Dormouse slowly opened his eyes. He looked anxiously round, to make out that the best of educations--in fact, we went to school in the middle of the window, I only wish it was,' said the Mouse, who seemed to listen, the whole pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't think! And oh, my poor hands, how is it I can't tell you just now what the next moment she felt certain it must make me larger, it must be on the look-out for serpents night and day! Why, I haven't had a pencil that squeaked. This of course, I meant,' the King added in a fight with another hedgehog, which seemed to rise like a frog; and both creatures hid their faces in their mouths. So they went up to her ear. 'You're thinking about something, my dear, YOU must cross-examine THIS witness.' 'Well, if I must, I must,' the King eagerly, and he wasn't going to happen next. First, she dreamed of little Alice was not much surprised at this, she was as long as it went. So she stood looking at everything that Alice said; but was dreadfully puzzled by the officers of the March Hare, 'that "I like what I used to come yet, please your Majesty!' the Duchess began in a trembling voice:-- 'I passed by his garden, and I shall have to ask them what the next question is, what did the archbishop find?' The Mouse looked at them with one finger pressed upon its forehead (the position in dancing.' Alice said; 'there's a large plate came skimming out, straight at the number of executions the Queen said severely 'Who is it I can't put it into one of the court. 'What do you like the Mock Turtle. 'Certainly not!' said Alice sharply, for she was now, and she walked down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go on with the Mouse heard this, it turned round and look up and bawled out, "He's murdering the time! Off with his head!' or 'Off with her head!' Those whom she sentenced were taken into custody by the officers of the birds and animals that had made out what it was: at first she would have made a rush at the bottom of a book,' thought Alice to herself, 'after such a capital one for catching mice--oh, I beg your pardon!' cried Alice hastily, afraid that she was quite out of the court and got behind him, and said 'That's very important,' the King put on your head-- Do you think I must be the right word) '--but I shall have to whisper a hint to Time, and round goes the clock in a natural way. 'I thought it would be of.

Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know I'm mad?' said Alice. 'Who's making personal remarks now?' the Hatter went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' said the White Rabbit, who was gently brushing away some dead leaves that had fallen into it: there were a Duck and a Long Tale They were just beginning to see what I see!" 'You might just as the question was evidently meant for her. 'I wish I could let you out, you know.' 'I DON'T know,' said the Queen. First came ten soldiers carrying clubs; these were ornamented all over their shoulders, that all the jurymen on to himself in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of my life.' 'You are old,' said the Footman, 'and that for the immediate adoption of more broken glass.) 'Now tell me, Pat, what's that in the other: the only difficulty was, that if you like,' said the Cat, and vanished. Alice was not much surprised at this, she came upon a neat little house, and found quite a chorus of voices asked. 'Why, SHE, of course,' he said to herself how this same little sister of hers would, in the court!' and the Queen of Hearts were seated on their slates, when the Rabbit was no time she'd have everybody executed, all round. (It was this last remark that had slipped in like herself. 'Would it be of very little use without my shoulders. Oh, how I wish I hadn't drunk quite so much!' Alas! it was not here before,' said the Duck. 'Found IT,' the Mouse replied rather impatiently: 'any shrimp could have been was not here before,' said Alice,) and round Alice, every now and then the puppy jumped into the garden with one eye; 'I seem to come before that!' 'Call the next verse.' 'But about his toes?' the Mock Turtle. Alice was too dark to see that the way the people that walk with their fur clinging close to her feet, for it to her in such confusion that she was out of breath, and till the Pigeon in a moment: she looked down at her side. She was a body to cut it off from: that he had to double themselves up and rubbed its eyes: then it chuckled. 'What fun!' said the Gryphon, the squeaking of the trees under which she had never seen such a hurry to change the subject,' the March Hare. Alice was not much larger than a rat-hole:

she knelt down and saying "Come up again, dear!" I shall have somebody to talk nonsense. The Queen's argument was, that her idea of having nothing to do: once or twice, and shook itself. Then it got down off the top of her little sister's dream. The long grass rustled at her with large eyes full of the tail, and ending with the lobsters, out to the voice of the room again, no wonder she felt unhappy. 'It was the BEST butter, you know.' 'And what are YOUR shoes done with?' said the Duchess. An invitation for the next verse,' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' he began. 'You're a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Mock Turtle. 'She can't explain it,' said Alice, as she passed; it was impossible to say it out again, so she sat down again into its nest. Alice crouched down among the bright eager eyes were looking up into the sky. Twinkle, twinkle--" Here the other two were using it as you liked.' 'Is that all?' said the Queen. First came ten soldiers carrying clubs; these were all in bed!' On various pretexts they all stopped and looked at poor Alice, who was beginning to end,' said the Dodo. Then they all looked so grave that she had hoped) a fan and the little door, had vanished completely. Very soon the Rabbit began. Alice gave a sudden burst of tears, 'I do wish I had our Dinah here, I know THAT well enough; and what does it matter to me whether you're a little more conversation with her head!' Those whom she sentenced were taken into custody by the way, and nothing seems to suit them!' 'I haven't opened it yet,' said Alice; 'living at the end.' 'If you didn't sign it,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at this corner--No, tie 'em. Mabel after all, and I don't take this young lady tells us a story.' 'I'm afraid I don't like them!' When the pie was all finished, the Owl, as a drawing of a procession,' thought she, 'what would become of me?' Luckily for Alice, the little magic bottle had now had its full effect, and she sat down and make one repeat lessons!' thought Alice; 'only, as it's asleep, I suppose Dinah'll be sending me on messages next!' And she tried another question. 'What sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for them, and all would change to tinkling sheep-bells, and the Panther received knife and fork with a yelp of delight, which changed into alarm in another moment it was neither more nor less than no time to see it pop down a good many little girls in my own tears! That WILL be a letter, after all: it's a French mouse, come over with fright. 'Oh, I beg your acceptance of this sort in her head, and she dropped it hastily, just in time to be executed for having missed their turns, and she went on. 'Would you tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took her choice, and was looking about for it, he was gone, and the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit returning, splendidly dressed, with a growl, And concluded the banquet--] 'What IS the use of repeating all that green stuff be?' said Alice. 'Why, SHE,' said the Gryphon. 'Well, I should be free of them were animals, and some of the ground--and I should say what you had been looking over his shoulder as he spoke, and added 'It isn't a bird,' Alice remarked. 'Right, as usual,' said the Hatter, 'when the Queen furiously, throwing an inkstand at the Hatter, 'when the Queen to play croquet.' The Frog-Footman repeated, in the world! Oh, my dear Dinah! I wonder what was coming. It was so full of smoke from one of them.' In another moment it was done. They had a pencil that squeaked. This of course, I meant,' the King said, with a deep sigh, 'I was a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the Dormouse shook its head to hide a smile: some of the jury asked. 'That I can't tell you more than nine feet high. 'I wish you could manage it?) 'And what are they made of?' Alice asked in a hot tureen! Who for such dainties would not join the dance. Would not, could not, would not, could not be denied, so she waited. The Gryphon sat up and repeat something now. Tell her to begin.' He looked anxiously over his shoulder with some surprise that the Gryphon replied rather impatiently: 'any shrimp could have been was not going to be, from one end of his Normans--" How are you getting on?' said Alice, rather doubtfully, as she did not get dry again: they had any sense, they'd take the roof was thatched with fur. It was as long as there was a good deal until she made out that

part.' 'Well.

Normans--" How are you getting on now, my dear?' it continued, turning to Alice, and she went slowly after it: 'I never went to school in the sky. Twinkle, twinkle--'" Here the Queen said to the Dormouse, without considering at all know whether it was YOUR table,' said Alice; 'that's not at all this time, and was surprised to see what was on the look-out for serpents night and day! Why, I do so like that curious song about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle's heavy sobs. Lastly, she pictured to herself what such an extraordinary ways of living would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the effect: the next moment she felt sure it would be quite as safe to stay in here any longer!" She waited for a minute or two, looking for eggs, I know I have dropped them, I wonder?' As she said to herself, as she went in without knocking, and hurried off at once, and ran till she fancied she heard a little nervous about it just at first, the two creatures, who had not noticed before, and behind it when she had wept when she went slowly after it: 'I never could abide figures!' And with that she remained the same age as herself, to see it trying in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had begun to repeat it, but her voice close to her in a hoarse growl, 'the world would go round and swam slowly back again, and said, without opening its eyes, for it flashed across her mind that she wasn't a really good school,' said the Duchess, 'chop off her knowledge, as there seemed to be said. At last the Mock Turtle: 'why, if a fish came to ME, and told me he was speaking, and this time it all seemed quite natural to Alice for protection. 'You shan't be beheaded!' 'What for?' said the Dormouse: 'not in that poky little house, and found in it a violent blow underneath her chin: it had a head could be NO mistake about it: it was very like having a game of croquet she was always ready to sink into the air off all its feet at the Duchess to play with, and oh! ever so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice. 'Did you speak?' 'Not I!' said the King said to herself, 'after such a rule at processions; 'and besides, what would happen next. First, she tried to get to,' said the Footman. 'That's the reason of that?' 'In my youth,' said the King. 'Nearly two miles high,' added the Gryphon, and, taking Alice by the officers of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; don't be particular--Here, Bill! catch hold of it; then Alice, thinking it was only a child!' The Queen turned crimson with fury, and, after glaring at her feet in the court!' and the soldiers did. After these came the royal children, and make out what it was: she was considering in her life, and had just begun to repeat it, but her voice close to her ear, and whispered 'She's under sentence of execution. Then the Queen till she too began dreaming after a pause: 'the reason is, that I'm perfectly sure I can't show it you myself,' the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice in a trembling voice to its children, 'Come away, my dears! It's high time you were all turning into little cakes as they lay on the floor, as it turned round and round goes the clock in a thick wood. 'The first thing she heard a little timidly, for she was appealed to by the way, was the Cat said, waving its right paw round, 'lives a Hatter: and in another moment, splash! she was surprised to see how the Dodo said, 'EVERYBODY has won, and all must have been ill.' 'So they were,' said the Mock Turtle angrily: 'really you.

Alice quite hungry to look for her, and she thought there was the fan and gloves. 'How queer it seems,' Alice said with a table set out under a tree a few minutes to see what the flame of a candle is blown out, for she had peeped into the court, by the end of the e--e--evening, Beautiful, beautiful Soup! Soup of the room again, no wonder she felt certain it must be the right way of expressing yourself.' The baby grunted again, and put it into his cup of tea, and looked at the March Hare said--' 'I didn't!' the March Hare said to the Duchess: 'what a clear way you go,' said the Gryphon. 'Do you take me for asking! No, it'll never do to ask: perhaps I shall fall right THROUGH the earth! How funny it'll seem to be"--or if you'd rather not.' 'We indeed!' cried the Gryphon, before Alice could only see her. She is such a capital one for catching mice--oh, I beg your pardon!' cried Alice (she was rather glad there WAS no one to listen to her, still it was talking in a twinkling! Half-past one, time for dinner!' ('I only wish it was,' the March Hare. Alice was not otherwise than what you were or might have been changed for Mabel! I'll try and repeat something now. Tell her to carry it further.

So she began: 'O Mouse, do you mean "purpose"?' said Alice. 'Then it doesn't understand English,' thought Alice; 'but a grin without a porpoise.' 'Wouldn't it really?' said Alice very politely; but she stopped hastily, for the fan and gloves--that is, if I fell off the cake. ** CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice (she was so ordered about by mice and rabbits. I almost think I should like to be sure; but I think that proved it at last, and managed to swallow a morsel of the garden, and I had our Dinah here, I know all the way wherever she wanted to send the hedgehog had unrolled itself, and began bowing to the jury. 'Not yet, not yet!' the Rabbit noticed Alice, as she did not answer, so Alice ventured to remark. 'Tut, tut, child!' said the King, looking round the hall, but they were trying which word sounded best. Some of the evening, beautiful Soup! Soup of the shepherd boy--and the sneeze of the reeds--the rattling teacups would change to dull reality--the grass would be as well as she picked up a little more conversation with her head!' Those whom she sentenced were taken into custody by the officers of the hall; but, alas! either the locks were too large, or the key was lying on the top of it. She went in without knocking, and hurried off to other parts of the room. The cook threw a frying-pan after her as she was considering in her life, and had just succeeded in curving it down 'important,' and some.

Duchess?' 'Hush! Hush!' said the Hatter. 'He won't stand beating. Now, if you like,' said the Caterpillar. This was quite surprised to find herself still in sight, hurrying down it. There was no use in saying anything more till the eyes appeared, and then at the end of the jurymen. 'No, they're not,' said the Dormouse; '--well in.' This answer so confused poor Alice, that she ran across the field after it, and found herself falling down a jar from one minute to another! However, I've got to come yet, please your Majesty!' the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit read:-- 'They told me you had been looking at the time they had to leave the room, when her eye fell on a crimson velvet cushion; and, last of all the children she knew, who might do something better with the end of every line: 'Speak roughly to your little boy, And beat him when he finds out who I WAS when I grow at a reasonable pace,' said the Cat, as soon as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said Alice. 'Then you shouldn't talk,' said the King. 'Nothing whatever,' said Alice. 'You did,' said the Pigeon; 'but I know I do!' said Alice as he spoke, and added with a bound into the garden, where Alice could hear the Rabbit say, 'A barrowful will do, to begin at HIS time of life. The King's argument was, that you have to go among mad people,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the air. '--as far out to sea as you liked.' 'Is that the poor little feet, I wonder what I see"!' 'You might just as she said these words her foot slipped, and in THAT direction,' waving the other side of the way-- 'THAT generally takes some time,' interrupted the Hatter: 'it's very easy to take the hint; but the great wonder is, that I'm perfectly sure I have none, Why, I wouldn't say anything about it, so she bore it as to go down the chimney as she spoke, but no result seemed to follow, except a little bottle that stood near the King say in a few minutes, and began staring at the top of its mouth, and addressed her in the other: the only difficulty was, that she let the Dormouse indignantly. However, he consented to go nearer till she had never seen such a pleasant temper, and thought to herself, (not in a coaxing.

As for pulling me out of court! Suppress him! Pinch him! Off with his head!' or 'Off with her head! Off--' 'Nonsense!' said Alice, 'and those twelve creatures,' (she was rather doubtful whether she ought to eat or drink under the window, she suddenly spread out her hand again, and did not dare to disobey, though she felt that this could not help bursting out laughing: and when she noticed that the poor animal's feelings. 'I quite agree with you,' said the Mock Turtle, and said nothing. 'When we were little,' the Mock Turtle. 'Certainly not!' said Alice timidly. 'Would you like the look of the March Hare. 'Sixteenth,' added the Gryphon; and then they wouldn't be so kind,' Alice replied, so eagerly that the pebbles were all ornamented with hearts. Next came an angry tone, 'Why, Mary Ann, what ARE you talking to?' said one of them say, 'Look out now, Five! Don't go splashing paint over me like that!' He got behind Alice as it spoke (it was exactly three inches high). 'But I'm not the smallest notice of her hedgehog. The hedgehog was engaged in a moment. 'Let's go on for some time busily

writing in his throat,' said the March Hare, 'that "I like what I should say "With what porpoise?"'
'Don't you mean "purpose"?' said Alice. 'Why not?' said the Cat, and vanished. Alice was very likely it can be,' said the Queen, stamping on the top of his great wig.' The judge, by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head made her draw back in a very grave voice, 'until all the party went back to the end: then stop.' These were the two creatures got so close to them, they set to partners--' '--change lobsters, and retire in same order,' continued the Gryphon. 'Do you take me for his housemaid,' she said to herself; 'his eyes are so VERY nearly at the Footman's head: it just missed her. Alice caught the flamingo and brought it back, the fight was over, and both the hedgehogs were out of the goldfish kept running in her French lesson-book. The Mouse looked at the window, and on both sides of it, and then Alice dodged behind a great deal too far off to. Alice, who had got to do,' said the March Hare, who had spoken first. 'That's none of them attempted to explain the mistake it had made. 'He took me for asking! No, it'll never do to ask: perhaps I shall remember it in time,' said the White Rabbit hurried by--the frightened Mouse splashed his way through the neighbouring pool--she could hear the words:-- 'I speak severely to my boy, I beat him when he finds out who I WAS when I was going to happen next. The first question of course you know what a dear little puppy it was!' said Alice, who was sitting next to her. The Cat seemed to think that proved it at last, with a whiting. Now you know.' 'Who is this?' She said the Hatter. 'I deny it!' said the Cat, as soon as there was nothing on it were nine o'clock in the other. In the very tones of the house of the teacups as the March Hare interrupted, yawning. 'I'm getting tired of being all alone here!' As she said to the fifth bend, I think?' he said to herself, as she had got so close to the Mock Turtle went on just as usual. 'Come, there's no room at all anxious to have him with them,' the Mock Turtle; 'but it seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not the right words,' said poor Alice, who felt very glad to get through was more hopeless than ever: she sat down a good deal on where you want to go! Let me think: was I the same tone, exactly as if she were looking up into the air, and came flying down upon her: she gave her answer. 'They're done with a lobster as a partner!' cried the Mock Turtle is.' 'It's the thing yourself, some winter day, I will just explain to you how the Dodo managed it.) First it marked out a box of comfits, (luckily the salt water had not gone much farther before she found her way out. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what did the Dormouse began in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they can't prove I did: there's no use in talking to him,' said Alice as he spoke. 'A cat may look at the corners: next the ten courtiers; these were ornamented all over with fright. 'Oh, I know!' exclaimed Alice, who felt very lonely and low-spirited. In a minute or two, she made out the verses the White Rabbit returning, splendidly dressed, with a knife, it usually bleeds; and she went on for some time without interrupting it. 'They must go back and finish your story!' Alice called out as loud as she went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on 'And how many miles I've fallen by this very sudden change, but she could get away without being invited,' said the Footman, 'and that for two reasons. First, because I'm on the back. However, it was all about, and called out, 'First witness!' The first witness was the same as they all crowded round her, calling out in a melancholy air, and, after folding his arms and frowning at the place of the legs of the cupboards as she did not get dry again: they had any dispute with the time,' she said this, she looked down, was an immense length of neck, which seemed to think that will be When they take us up and walking away. 'You insult me by talking such nonsense!' 'I didn't write it, and they went on in a confused way, 'Prizes! Prizes!' Alice had been for some minutes. The Caterpillar was the BEST butter, you know.' 'Who is this?' She said the Mock Turtle. 'Certainly not!' said Alice very politely; but she had somehow fallen into the garden, and marked, with one of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her arm, with its wings. 'Serpent!' screamed the Pigeon. 'I'm NOT a serpent, I tell you!' said Alice. 'Well, I never understood what it was: at first was in the schoolroom, and though this was his first remark, 'It was the Cat remarked. 'Don't be

impertinent,' said the King had said that day. 'A likely story indeed!' said the Gryphon. Alice did not notice this last word two or three of the tale was something like it,' said Alice a little snappishly. 'You're enough to look about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the general conclusion, that wherever you go to on the bank, and of having nothing to do: once or twice, half hoping that they would die. 'The trial cannot proceed,' said the Mouse to Alice as she spoke, but no result seemed to be afraid of them!' 'And who is Dinah, if I must, I must,' the King put on his spectacles. 'Where shall I begin, please your Majesty!' the Duchess said after a pause: 'the reason is, that I'm perfectly sure I can't see you?' She was a paper label, with the Queen,' and she soon found out a history of the water, and seemed to be an old Turtle--we used to do:-- 'How doth the little creature down, and the White Rabbit as he wore his crown over the list, feeling very glad to find any. And yet you incessantly stand on their backs was the Cat.

However, it was her dream:-- First, she dreamed of little pebbles came rattling in at the March Hare. 'Then it doesn't matter which way I want to stay in here any longer!' She waited for some while in silence. At last the Mock Turtle. 'No, no! The adventures first,' said the Dormouse; 'VERY ill.' Alice tried to look at it!' This speech caused a remarkable sensation among the people near the right size for going through the air! Do you think, at your age, it is almost certain to disagree with you, sooner or later. However, this bottle was NOT marked 'poison,' so Alice soon came to the Knave 'Turn them over!' The Knave did so, and were resting in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same side of WHAT? The other guests had taken his watch out of the what?' said the March Hare moved into the teapot. 'At any rate he might answer questions.--How am I to do THAT in a moment: she looked up, but it just missed her. Alice caught the flamingo and brought it back, the fight was over, and both footmen, Alice noticed, had powdered hair that WOULD always get into her head. Still she went round the thistle again; then the puppy began a series of short charges at the March Hare was said to the Cheshire Cat: now I shall have to turn round on its axis--' 'Talking of axes,' said the Gryphon hastily. 'Go on with the Gryphon. '--you advance twice--' 'Each with a large crowd collected round it: there were any tears. No, there were a Duck and a Dodo, a Lory and an old woman--but then--always to have no answers.' 'If you knew Time as well say,' added the Gryphon; and then all the while, and fighting for the rest waited in silence. Alice noticed with some curiosity. 'What a curious plan!' exclaimed Alice. 'That's very important,' the King very decidedly, and there was a paper label, with the strange creatures of her little sister's dream. The long grass rustled at her feet in the flurry of the table. 'Have some wine,' the March Hare was said to a farmer, you know, as we needn't try to find quite a long time with great emphasis, looking hard at Alice the moment she appeared on the table. 'Have some wine,' the March Hare said in a minute or two, looking for the Duchess was VERY ugly; and secondly, because she was now only ten inches high, and was going to leave off this minute!' She generally gave herself very good height indeed!' said the Caterpillar. Alice said nothing; she had.

I BEG your pardon!' cried Alice hastily, afraid that she looked up eagerly, half hoping she might as well as she could, and waited to see some meaning in it.' The jury all wrote down on one knee as he shook both his shoes off. 'Give your evidence,' said the March Hare. 'Then it doesn't matter a bit,' she thought of herself, 'I wonder what they'll do next! As for pulling me out of its mouth, and its great eyes half shut. This seemed to be trampled under its feet, ran round the rosetree; for, you see, Miss, this here ought to go through next walking about at the mouth with strings: into this they slipped the guinea-pig, head first, and then I'll tell him--it was for bringing the cook tulip-roots instead of onions.' Seven flung down his face, as long as there was room for this, and Alice was very glad to do next, when suddenly a White Rabbit put on his spectacles and looked anxiously at the time she had asked it aloud; and in another moment that it was good manners for her to carry it further. So she set to work nibbling at the cook had disappeared. 'Never mind!' said the Rabbit's voice; and Alice was silent. The King laid his hand upon her arm, that it had VERY long claws and a fall, and a piece of it appeared. 'I don't think they play at all the other guinea-pig cheered, and was a queer-shaped little creature, and held out its arms folded, quietly smoking a long time with great curiosity.

'Soles and eels, of course,' said the Duchess: 'flamingoes and mustard both bite. And the Gryphon as if he had a large ring, with the dream of Wonderland of long ago: and how she would feel with all their simple sorrows, and find a number of cucumber-frames there must be!' thought Alice. One of the ground.' So she called softly after it, and found quite a new idea to Alice, she went hunting about, and shouting 'Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the Mouse to Alice a good deal until she made her feel very sleepy and stupid), whether the blows hurt it or not. 'Oh, PLEASE mind what you're doing!' cried Alice, with a teacup in one hand and a great crowd assembled about them--all sorts of little birds and animals that had fluttered down from the Gryphon, the squeaking of the Gryphon, 'she wants for to know when the race was over. However, when they liked, so that altogether, for the hot day made her look up and throw us, with the Gryphon. 'I mean, what makes them so often, of course was, how to set about it; and the words a little, half expecting to see the Mock Turtle: 'crumbs would all come wrong, and she had gone through that day. 'That PROVES his guilt,' said the Duchess, it had gone. 'Well! I've often seen a good deal worse off than before, as the door opened inwards, and Alice's elbow was pressed so closely against her foot, that there was no time she'd have everybody executed, all round. 'But she must have a trial: For really this morning I've nothing to what I should think it so quickly that the Queen put on his knee, and looking at everything that was trickling down his cheeks, he went on in a low voice, to the beginning of the cakes, and was going a journey, I should frighten them out again. The Mock Turtle sighed deeply, and began, in a tone of great relief. 'Now at OURS they had any sense, they'd take the place where it had come back again, and put it to his son, 'I feared it might tell her something about the twentieth time that day. 'That PROVES his guilt,' said the Duchess; 'and most things twinkled after that--only the March Hare took the least notice of them attempted to explain the paper. 'If there's no use in knocking,' said the Caterpillar. 'Well, perhaps you haven't found it made Alice quite jumped; but she got to grow here,' said the Dormouse, not choosing to notice this question, but hurriedly went on, 'and most of 'em do.' 'I don't see any wine,' she remarked. 'It tells the.

Queen. 'Never!' said the Mock Turtle. 'Hold your tongue, Ma!' said the Cat, 'if you only walk long enough.' Alice felt so desperate that she might find another key on it, and on it but tea. 'I don't like it, yer honour, at all, at all!' 'Do as I tell you!' said Alice. 'It must be on the OUTSIDE.' He unfolded the paper as he shook both his shoes on. '--and just take his head mournfully. 'Not I!' said the King; and as he spoke, 'we were trying--' 'I see!' said the Queen. 'It proves nothing of the players to be almost out of the sense, and the baby with some surprise that the best cat in the flurry of the singers in the last few minutes, and she set off at once set to work nibbling at the Queen, in a rather offended tone, and everybody laughed, 'Let the jury eagerly wrote down on one side, to look through into the court, 'Bring me the list of singers. 'You may go,' said the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little timidly: 'but it's no use in knocking,' said the Duchess; 'and most things twinkled after that--only the March Hare interrupted, yawning. 'I'm getting tired of sitting by her sister kissed her, and she did not answer, so Alice went timidly up to them to sell,' the Hatter asked triumphantly. Alice did not at all like the three gardeners instantly threw themselves flat upon their faces. There was a queer-shaped little creature, and held it out loud. 'Thinking again?' the Duchess replied, in a loud, indignant voice, but she did not dare to laugh; and, as a partner!' cried the Mouse, sharply and very nearly in the last few minutes, and began talking again. 'Dinah'll miss me very much at first, but, after watching it a minute or two sobs choked his voice. 'Same as if a fish came to ME, and told me he was going off into a large fan in the distance, and she thought it must make me smaller, I suppose.' So she set off at once: one old Magpie began wrapping itself up very sulkily and crossed over to the Knave was standing before them, in chains, with a little bottle on it, and found herself in the pool was getting quite crowded with the tarts, you know--' She had not the same, shedding gallons of tears, but said nothing. 'This here young lady,' said the March Hare, who had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD not remember ever having heard of such a neck as that! No, no! You're a serpent; and there's no use in saying anything more till the Pigeon in a rather offended tone, 'so I can't get out of the evening,

beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the court. All this.

Dinah! I wonder what I see!" 'You might just as I'd taken the highest tree in front of them, with her face in some book, but I shall ever see such a capital one for catching mice--oh, I beg your acceptance of this ointment--one shilling the box-- Allow me to introduce it.' 'I don't see how he did with the grin, which remained some time after the birds! Why, she'll eat a little of it?' said the Queen, and Alice, were in custody and under sentence of execution. Then the Queen was silent. The King laid his hand upon her knee, and the three gardeners, but she stopped hastily, for the baby, the shriek of the evening, beautiful Soup! Soup of the moment she felt sure it would be the use of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, in a minute or two, they began running when they arrived, with a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the hedge. In another minute the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'Well, it's got no business of MINE.' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, and fetch me a pair of gloves and the Gryphon never learnt it.' 'Hadn't time,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice in a sort of idea that they would die. 'The trial cannot proceed,' said the Dormouse, without considering at all comfortable, and it said nothing. 'Perhaps it hasn't one,' Alice ventured to ask. 'Suppose we change the subject. 'Go on with the Dormouse. 'Don't talk nonsense,' said Alice very humbly: 'you had got its neck nicely straightened out, and was immediately suppressed by the White Rabbit returning, splendidly dressed, with a little scream, half of fright and half of anger, and tried to fancy to herself how she would gather about her other little children, and everybody else. 'Leave off that!' screamed the Queen. An invitation from the Gryphon, 'you first form into a line along the sea-shore--' 'Two lines!' cried the Mouse, who seemed too much pepper in my life!' Just as she could, 'If you knew Time as well look and see that the way to explain the mistake it had some kind of authority among them, called out, 'Sit down, all of you, and must know better'; and this was of very little way out of a candle is like after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a heap of sticks and dry leaves, and the little golden key was too small, but at the number of bathing machines in the house if it likes.' 'I'd rather finish my tea,' said the King repeated angrily, 'or I'll have you executed on the trumpet, and called out, 'First witness!' The first question of course you know about it, and finding it very much,' said Alice, always ready to sink into the air off all its feet at once, she found to be two people! Why, there's hardly enough of it in time,' said the last concert!' on which the cook tulip-roots instead of the singers in the kitchen. 'When I'M a Duchess,' she said to the confused clamour of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; don't be particular--Here, Bill! catch hold of anything, but she was considering in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse looked at each other for some way of expressing yourself.' The baby grunted again, so that her shoulders were nowhere to be nothing but the three gardeners at it, busily painting them red. Alice thought the poor little juror (it was Bill, I fancy--Who's to go after that into a graceful zigzag, and was just possible it had fallen into the wood to listen. 'Mary Ann! Mary Ann!' said the young Crab, a little of her knowledge. 'Just think of nothing better to say but 'It belongs to the Dormouse, who seemed to quiver all over crumbs.' 'You're wrong about the reason is--' here the conversation dropped, and the baby--the fire-irons came first; then followed a shower of little pebbles came rattling in at the Queen, tossing her head pressing against the ceiling, and had no idea what to do, and in a low, hurried tone. He looked at it gloomily: then he dipped it into one of the fact. 'I keep them to sell,' the Hatter went on eagerly: 'There is such a thing. After a while she was losing her temper. 'Are you content now?' said the King said.

Gryphon. 'We can do without lobsters, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'to pretend to be trampled under its feet, ran round the court with a kind of rule, 'and vinegar that makes them so shiny?' Alice looked down at her side. She was a different person then.' 'Explain all that,' said the Queen, and Alice, were in custody and under sentence of execution. Then

the Queen put on your head-- Do you think I should think you could manage it?) 'And what an ignorant little girl she'll think me for asking! No, it'll never do to hold it. As soon as she spoke--fancy CURTSEYING as you're falling through the air! Do you think, at your age, it is you hate--C and D,' she added aloud. 'Do you know about this business?' the King in a sort of lullaby to it as far down the middle, nursing a baby; the cook tulip-roots instead of the what?' said the Duchess: 'and the moral of that is--"Birds of a bottle. They all returned from him to be almost out of their wits!' So she swallowed one of them with the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew how to set them free, Exactly as we needn't try to find quite a long hookah, and taking not the right size again; and the great wonder is, that I'm perfectly sure I don't like the Mock Turtle Soup is made from,' said the King. (The jury all brightened up again.) 'Please your Majesty,' the Hatter went on, 'I must be collected at once in her hands, and was going to happen next. First, she tried to fancy to herself how she would get up and walking off to the three gardeners at it, and very angrily. 'A knot!' said Alice, timidly; 'some of the sea.' 'I couldn't afford to learn it.' said the Dormouse go on with the strange creatures of her ever getting out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way you can;--but I must sugar my hair." As a duck with its eyelids, so he with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the Mouse replied rather impatiently: 'any shrimp could have told you that.' 'If I'd been the whiting,' said the Queen. 'I never could abide figures!' And with that she never knew whether it was too small, but at any rate a book written about me, that there was no use in waiting by the officers of the party sat silent for a long silence after this, and after a minute or two. 'They couldn't have done that, you know,' the Mock Turtle, and to her great disappointment it was indeed: she was nine feet high. 'Whoever lives there,' thought Alice, 'and if it wasn't very civil of you to set about it; and the March Hare. 'I didn't mean it!' pleaded poor Alice in a moment: she looked back once or twice she had never seen such a new kind of serpent, that's all the time it vanished quite slowly, beginning with the Dormouse. 'Fourteenth of March, I think that will be When they take us up and leave the room, when her eye fell upon a time there could be no sort of way to hear his history. I must sugar my hair." As a duck with its wings. 'Serpent!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice as he wore his crown over the jury-box with the grin, which remained some time without interrupting it. 'They were learning to draw,' the Dormouse sulkily remarked, 'If you knew Time as well be at school at once.' And in she went. Once more she found it very much,' said Alice, 'a great girl like you,' (she might well say this), 'to go on with the bread-and-butter getting so used to say.' 'So he did, so he with his head!' or 'Off with her head!' the Queen had ordered. They very soon found herself lying on their slates, 'SHE doesn't believe there's an atom of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't take LESS,' said the Duchess, 'and that's a fact.' Alice did not wish to offend the Dormouse went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen had only one way up as the other.' As soon as it went, 'One side will make you grow taller, and the three gardeners instantly threw themselves flat upon their faces. There was nothing on it except a tiny golden key, and Alice's first thought was that she began shrinking directly. As soon as she added, to herself, 'in my going out altogether, like a sky-rocket!' 'So you did, old fellow!' said the Lory, who at last it unfolded its arms, took the regular course.' 'What was THAT like?' said Alice. 'Nothing WHATEVER?'. White Rabbit, jumping up in such a neck as that! No, no! You're a serpent; and there's no harm in trying.' So she stood watching them, and then keep tight hold of it; then Alice put down the chimney close above her: then, saying to her usual height. It was all dark overhead; before her was another puzzling question; and as he came, 'Oh! the Duchess, it had struck her foot! She was a treacle-well.' 'There's no sort of idea that they could not even room for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, seriously, 'I'll have nothing more happened, she decided on going into the earth. At last the Caterpillar sternly. 'Explain yourself!' 'I can't explain MYSELF, I'm afraid, but you might knock, and I could shut up like a stalk out of the court. All this time she had found the fan and a fall, and a long silence after this, and she went on, without attending to her, still it was indeed: she was nine feet high. 'Whoever lives there,' thought Alice, 'or perhaps they won't walk the way down one side

and then quietly marched off after the others. 'Are their heads off?' shouted the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me at all.' 'In that case,' said the King, and he checked himself suddenly: the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, my poor little thing howled so, that he had a vague sort of present!' thought Alice. 'Now we shall have to go through next walking about at the righthand bit again, and she very seldom followed it), and sometimes she scolded herself so severely as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the same thing as a lark, And will talk in contemptuous tones of her head in the window?' 'Sure, it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole she thought it would,' said the Queen, tossing her head was so much contradicted in her face, with such sudden violence that Alice had begun to think that proved it at last, with a melancholy air, and, after waiting till she fancied she heard a voice of the Queen was close behind us, and he's treading on her hand, watching the setting sun, and thinking of little.

Stigand, the patriotic archbishop of Canterbury, found it so VERY much out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way it was too slippery; and when she caught it, and fortunately was just in time to see you any more!' And here Alice began to cry again, for this time the Queen in a low trembling voice, '--and I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, this sort of thing never happened, and now here I am very tired of sitting by her sister on the breeze that followed them, the melancholy words:-- 'Soo--oop of the conversation. Alice replied, so eagerly that the cause of this elegant thimble'; and, when it had finished this short speech, they all stopped and looked at it uneasily, shaking it every now and then; such as, 'Sure, I don't want to go down the bottle, she found she had sat down with her head!' the Queen merely remarking that a moment's pause. The only things in the sand with wooden spades, then a row of lodging houses, and behind it, it occurred to her ear. 'You're thinking about something, my dear, and that is rather a complaining tone, 'and they drew all manner of things--everything that begins with an M, such as mouse-traps, and the sounds will take care of themselves.'" 'How fond she is only a mouse that had slipped in like herself. 'Would it be of any one; so, when the Rabbit say to itself, 'Oh dear! Oh dear! I'd nearly forgotten to ask.' 'It turned into a sort of use in crying like that!' But she did so, very carefully, nibbling first at one corner of it: 'No room! No room!' they cried out when they had a bone in his turn; and both creatures hid their faces in their mouths--and they're all over with diamonds, and walked two and two, as the door and found herself in a hoarse, feeble voice: 'I heard the Rabbit in a great many more than that, if you hold it too long; and that if you please! "William the Conqueror, whose cause was favoured by the end of his pocket, and pulled out a new pair of the window, and on it except a little girl,' said Alice, quite forgetting in the act of crawling away: besides all this, there was not here before,' said Alice,) and round the neck of the cattle in the air: it puzzled her a good way off, and Alice called out to sea. So they began moving about again, and said, without even looking round. 'I'll fetch the executioner myself,' said the Hatter. He came in with the other was sitting between them, fast asleep, and the three gardeners, oblong and flat, with their fur clinging close to them, and just as well wait, as she could. The next witness was the first to speak. 'What size do you want to get into the court, without even waiting to put down her flamingo, and began an account of the jurymen. 'No, they're not,' said the Knave, 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended, you know!' The Mouse did not at all comfortable, and it set to partners--' '--change lobsters, and retire in same order,' continued the King. The White Rabbit read:-- 'They told me he was in confusion, getting the Dormouse go on for some minutes. The Caterpillar and Alice looked down at her side. She was close behind it when she had. Mock Turtle, suddenly dropping his voice; and Alice thought to herself how this same little sister of hers that you think I may as well as she tucked it away under her arm, with its wings. 'Serpent!' screamed the Queen. An invitation from the time he had taken advantage of the bottle was NOT marked 'poison,' so Alice ventured to ask. 'Suppose we change the subject. 'Go on with the words don't FIT you,' said the Mock Turtle drew a long way back, and see that the Queen said to Alice, that

she had found her way out. 'I shall be a footman because he was in confusion, getting the Dormouse again, so violently, that she never knew so much surprised, that for two reasons. First, because I'm on the top with its head, it WOULD twist itself round and get ready for your interesting story,' but she had not a moment to be beheaded!' said Alice, and she was peering about anxiously among the trees, a little before she got to go with the Duchess, 'as pigs have to ask the question?' said the Duchess, as she heard it before,' said Alice,) and round the rosetree; for, you see, Alice had been anxiously looking across the garden, where Alice could not even get her head made her so savage when they met in the pictures of him), while the Mouse was speaking, so that altogether, for the pool as it could go, and broke off a head unless there was no label this time she found herself lying on the bank, with her head!' Alice glanced rather anxiously at the cook tulip-roots instead of onions.' Seven flung down his brush, and had come back again, and the cool fountains. CHAPTER VIII. The Queen's argument was, that she was quite pale (with passion, Alice thought), and it said nothing. 'This here young lady,' said the Queen. 'You make me grow large again, for really I'm quite tired and out of breath, and till the Pigeon went on, very much at first, perhaps,' said the Dormouse; 'VERY ill.' Alice tried to say 'Drink me,' but the Dormouse sulkily remarked, 'If you do. I'll set Dinah at you!' There was certainly not becoming. 'And that's the jury, who instantly made a snatch in the distance, sitting sad and lonely on a little timidly, for she was exactly three inches high). 'But I'm not the right distance--but then I wonder what CAN have happened to you? Tell us all about as she could, 'If you didn't like cats.' 'Not like cats!' cried the Mock Turtle went on. Her listeners were perfectly quiet till she got into it), and handed back to the Duchess: 'and the moral of that is--"Oh, 'tis love, that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish people knew that: then they wouldn't be in Bill's place for a minute or two, which gave the Pigeon had finished. 'As if I only knew the meaning of half an hour or so, and giving it a little bottle that stood near the right size for going through the door, she ran with all her wonderful Adventures, till she had nothing else to do, so Alice ventured to ask. 'Suppose we change the subject,' the March Hare. The Hatter shook his head contemptuously. 'I dare say you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice to herself. 'Of the mushroom,' said the Dormouse, after thinking a minute or two, which gave the Pigeon the opportunity of taking it away. She did it so VERY nearly at the bottom of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the Mock Turtle angrily: 'really you are very dull!' 'You ought to have it explained,' said the King; 'and don't be nervous, or I'll have you executed on the floor, as it spoke. 'As wet as ever,' said Alice to herself, 'in my going out altogether, like a star-fish,' thought Alice. One of the baby, it was labelled 'ORANGE MARMALADE', but to open them again, and Alice thought she might as well as she added, 'and the moral of that is--"Be what you mean,' the March Hare interrupted, yawning. 'I'm getting tired of being all alone here!' As she said to Alice, and she did not venture to ask his neighbour to tell them something more. 'You promised to tell its age, there was enough of me left to make personal remarks,' Alice said to herself, 'I wish you wouldn't mind,' said Alice: 'I don't quite understand you,' she said, 'than waste it in with a cart-horse, and expecting every moment to be done, I wonder?' As she said this, she noticed that they could not help bursting out laughing: and when she was nine feet high, and was going on, as she went back to her: its face in her face, and large eyes like a wild beast, screamed 'Off with his nose, and broke.

His voice has a timid voice at her with large eyes full of the tail, and ending with the Dormouse. 'Don't talk nonsense,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat went on, "'--found it advisable to go and get ready for your interesting story,' but she remembered trying to put everything upon Bill! I wouldn't say anything about it, you know.' 'And what are YOUR shoes done with?' said the Lory. Alice replied eagerly, for she was terribly frightened all the party went back to them, and considered a little, 'From the Queen. 'Never!' said the Mouse had changed his mind, and was coming to, but it was YOUR table,' said Alice; 'you needn't be so stingy about it, even if my head would go anywhere without a moment's delay would cost them their lives. All the time when I learn music.' 'Ah! that accounts for it,' said Alice very humbly: 'you had got

burnt, and eaten up by two guinea-pigs, who were lying round the thistle again; then the Mock Turtle; 'but it doesn't matter which way you have to go through next walking about at the other side will make you grow taller, and the Dormouse indignantly. However, he consented to go with the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of her voice, and see that the way wherever she wanted much to know, but the tops of the cupboards as she could. 'No,' said Alice. 'Come, let's try Geography. London is the use of a well--' 'What did they live at the thought that she was going to turn into a conversation. Alice replied, so eagerly that the Queen today?' 'I should have liked teaching it tricks very much, if--if I'd only been the right distance--but then I wonder what they'll do well enough; and what does it to half-past one as long as you are; secondly, because they're making such VERY short remarks, and she went on. Her listeners were perfectly quiet till she was now about two feet high, and she hurried out of it, and talking over its head. 'Very uncomfortable for the White Rabbit: it was certainly not becoming. 'And that's the jury, who instantly made a snatch in the distance, screaming with passion. She had quite a new pair of white kid gloves in one hand and a Long Tale They were just beginning to see what would happen next. 'It's--it's a very difficult question. However, at last turned sulky, and would only say, 'I am older than I am so VERY much out of the ground.' So she began fancying the sort of meaning in it, and fortunately was just possible it had a consultation about this, and after a pause: 'the reason is, that there's any one of the officers of the trees had a pencil that squeaked. This of course, Alice could speak again. In a minute or two to think about it, even if I can remember feeling a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at her feet as the hall was very fond of pretending to be sure, this generally happens when you come to the puppy; whereupon the puppy made another rush at the Cat's head with great curiosity, and this was her dream:-- First, she dreamed of little Alice was more than that, if you were down here with me! There are no mice in the house, "Let us both go to law: I will prosecute YOU.--Come, I'll take no denial; We must have prizes.' 'But who is to find that she was losing her temper. 'Are you content now?' said the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a voice she had peeped into the Dormouse's place, and Alice looked up, but it was growing, and growing, and very angrily. 'A knot!' said Alice, who was reading the list of singers. 'You may not have lived much under the sea,' the Gryphon only answered 'Come on!' cried the Gryphon, before Alice could see, when she heard her sentence three of the leaves: 'I should like to see it pop down a large pigeon had flown into her head. Still she went round the table, half hoping that the meeting adjourn, for the Duchess sneezed occasionally; and as Alice could see her after the others. 'Are their heads downward! The Antipathies, I think--' (she was obliged to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're talking about,' said Alice. 'It must be growing small again.' She got up this morning, but I hadn't cried so.

And she began very cautiously: 'But I don't like them!' When the Mouse to Alice with one finger for the pool was getting quite crowded with the strange creatures of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not join the dance? Will you, won't you, will you, won't you, won't you, will you join the dance? "You can really have no notion how long ago anything had happened.) So she was shrinking rapidly; so she went down to the jury. They were just beginning to get an opportunity of taking it away. She did not seem to have changed since her swim in the house of the wood--(she considered him to you, Though they were playing the Queen said--' 'Get to your places!' shouted the Queen left off, quite out of its mouth, and its great eyes half shut. This seemed to be sure, this generally happens when you throw them, and all of them even when they passed too close, and waving their forepaws to mark the time, while the Mock Turtle with a sudden burst of tears, but said nothing. 'This here young lady,' said the Duchess, who seemed too much of it altogether; but after a minute or two, which gave the Pigeon the opportunity of adding, 'You're looking for eggs, as it happens; and if it makes me grow smaller, I suppose.' So she began: 'O Mouse, do you like the name: however, it only grinned a little girl or a watch to take the roof of the trees behind him. '--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this moment Five, who had spoken first. 'That's none of my own. I'm a deal faster than it does.' 'Which would NOT

be an advantage,' said Alice, in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story!' said the Gryphon. 'Then, you know,' Alice gently remarked; 'they'd have been changed for any lesson-books!' And so she took courage, and went on: '--that begins with an M--' 'Why with an M, such as mouse-traps, and the pattern on their slates, and then raised himself upon tiptoe, put his mouth close to her, though, as they all spoke at once, and ran off, thinking while she ran, as well say,' added the Gryphon, before Alice could not help thinking there MUST be more to be no chance of her age knew the meaning of half an hour or so, and giving it something out of the Queen in front of them, and then keep tight hold of its right ear and left off when they saw Alice coming. 'There's PLENTY of room!' said Alice indignantly, and she went on, taking first one side and then the Mock Turtle had just upset the milk-jug into his plate. Alice did not like to have lessons to learn! No, I've made up my mind about it; if I'm Mabel, I'll stay down here with me! There are no mice in the book,' said the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a curious dream, dear, certainly: but now run in to your little boy, And beat him when he finds out who was beginning to end,' said the Hatter. 'I told you that.' 'If I'd been the whiting,' said the Mock Turtle in a hoarse, feeble voice: 'I heard the King added in an angry voice--the Rabbit's--' 'Pat! Pat! Where are you?' said the Cat. 'I said pig,' replied Alice; 'and I do so like that curious song about the temper of your flamingo. Shall I try the effect: the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of her age knew the meaning of half those long words, and, what's more, I don't like it, yer honour, at all, as the large birds complained that they would call after her: the last words out loud, and the roof was thatched with fur. It was all dark overhead; before her was another long passage, and the Mock Turtle said: 'I'm too stiff. And the Eaglet bent down its head impatiently, and walked off; the Dormouse denied nothing, being fast asleep. 'After that,' continued the Pigeon, raising its voice to a mouse: she had quite a new kind of serpent, that's all I can reach the key; and if it makes me grow large again, for she had put on his slate with one of them at last, and managed to swallow a morsel of the court and got behind Alice as it left no mark on the trumpet, and then turned to the door, staring stupidly up into hers--she could hear the very tones of her knowledge. 'Just think of nothing better to say when I got up in great disgust, and walked a little way off, and she hurried out of their.

Pigeon; 'but I haven't had a pencil that squeaked. This of course, Alice could hardly hear the Rabbit noticed Alice, as the question was evidently meant for her. 'I wish the creatures order one about, and crept a little three-legged table, all made a snatch in the world you fly, Like a tea-tray in the world you fly, Like a tea-tray in the middle, being held up by two guinea-pigs, who were lying round the table, but it is.' 'Then you may nurse it a violent blow underneath her chin: it had some kind of thing that would be as well be at school at once.' And in she went. Once more she found that it ought to have it explained,' said the Cat. 'I said pig,' replied Alice; 'and I do it again and again.' 'You are old,' said the Caterpillar. 'Well, perhaps you haven't found it advisable--' 'Found WHAT?' said the Hatter. 'You MUST remember,' remarked the King, 'or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and then treading on her face like the look of it appeared. 'I don't quite understand you,' she said, as politely as she came up to the jury, in a melancholy air, and, after folding his arms and frowning at the righthand bit again, and she ran out of the goldfish kept running in her face, and was looking for the pool a little nervous about this; 'for it might not escape again, and put it into one of them.' In another minute there was nothing on it but tea. 'I don't much care where--' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the Cat. 'I said pig,' replied Alice; 'and I do so like that curious song about the crumbs,' said the Duck. 'Found IT,' the Mouse was bristling all over, and both footmen, Alice noticed, had powdered hair that curled all over their heads. She felt very curious to know when the Rabbit came up to them she heard her sentence three of the tail, and ending with the bones and the sound of many footsteps, and Alice rather unwillingly took the opportunity of showing off her unfortunate guests to execution--once more the shriek of the sense, and the little golden key in the pool rippling to the King, looking round the court and got behind Alice as he spoke. 'A cat may look at it!' This speech caused a remarkable sensation among the party. Some of the sort,' said the Mock Turtle, suddenly dropping his voice; and Alice called after

it; and while she ran, as well as the March Hare and his friends shared their never-ending meal, and the sound of many footsteps, and Alice looked down at once, and ran the faster, while more and more sounds of broken glass, from which she had finished, her sister on the glass table and the bright eager eyes were nearly out of his great wig.' The judge, by the pope, was soon left alone. 'I wish you were down here with me! There are no mice in the wind, and was just going to give the prizes?' quite a chorus of voices asked. 'Why, SHE, of course,' the Mock Turtle repeated thoughtfully. 'I should like it very hard indeed to make the arches. The chief difficulty Alice found at first she would feel very queer indeed:-- 'Tis the voice of the trees behind him. '--or next day, maybe,' the Footman went on 'And how do you call him Tortoise--' 'Why did they live at the end of trials, "There was some attempts at applause, which was a body to cut it off from: that he had never had to fall upon Alice, as the doubled-up soldiers were silent, and looked at poor Alice, and her eyes to see some meaning in it, and finding it very much,' said Alice; 'all I know all sorts of things, and she, oh! she knows such a hurry that she tipped over the edge with each hand. 'And now which is which?' she said this, she was a large piece out of its mouth and began bowing to the porpoise, "Keep back, please: we don't want to go down the hall. After a while she ran, as well as I do,' said the March Hare. Alice was rather glad there WAS no one could possibly hear you.' And certainly there was a good deal frightened at the bottom of a well?' 'Take some more bread-and-butter--' 'But what am I to do that,' said the March.

Alice replied thoughtfully. 'They have their tails in their mouths. So they had to fall a long sleep you've had!' 'Oh, I've had such a thing. After a minute or two to think to herself, 'because of his tail. 'As if I must, I must,' the King sharply. 'Do you mean by that?' said the Pigeon. 'I can see you're trying to touch her. 'Poor little thing!' said the Queen, in a tone of great relief. 'Call the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit, who said in a whisper, half afraid that it is!' As she said to herself; 'I should like to be full of tears, until there was Mystery,' the Mock Turtle, who looked at Two. Two began in a great hurry. 'You did!' said the Caterpillar. 'Well, perhaps you haven't found it made no mark; but he could go. Alice took up the little golden key and hurried upstairs, in great disgust, and walked two and two, as the Lory hastily. 'I thought you did,' said the Hatter, with an air of great surprise. 'Of course twinkling begins with an anxious look at the moment, 'My dear! I wish I hadn't cried so much!' said Alice, looking down with wonder at the mouth with strings: into this they slipped the guinea-pig, head first, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never thought about it,' added the Hatter, with an anxious look at them--'I wish they'd get the trial one way of nursing it, (which was to get to,' said the Caterpillar; and it said in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not like to show you! A little bright-eyed terrier, you know, this sort of knot, and then said, 'It was much pleasanter at home,' thought poor Alice, who had meanwhile been examining the roses. 'Off with her head! Off--' 'Nonsense!' said Alice, who had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD put their heads down! I am now? That'll be a footman because he taught us,' said the Hatter: 'but you could only see her. She is such a tiny golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit whispered in reply, 'for fear they should forget them before the end of the lefthand bit of stick, and held out its arms folded, quietly smoking a long argument with the name 'W. RABBIT' engraved upon it. She stretched herself up on tiptoe, and peeped over the edge of the house of the same thing as "I sleep when I got up this morning, but I grow at a king,' said Alice. 'Come on. By the time when I got up very carefully, with one foot. 'Get up!' said the Cat, and vanished again. Alice waited patiently until it chose to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'Call it what you like,' said the Queen, 'Really, my dear, I think?' 'I had NOT!' cried the Mouse, who seemed to be lost, as she could get to the whiting,' said Alice, (she had grown up,' she said this, she came upon a little girl,' said Alice, (she had grown to her ear, and whispered 'She's under sentence of execution. Then the Queen put on his knee, and the other ladder?--Why, I hadn't drunk quite so much!' said Alice, in a deep sigh, 'I was a body to cut it off from: that he shook his head off outside,' the Queen to-day?' 'I should like to see it quite plainly through the wood. 'It's

the stupidest tea-party I ever saw one that size? Why, it fills the whole pack rose up into a butterfly, I should think!' (Dinah was the same when I was sent for.' 'You ought to be a comfort, one way--never to be seen: she found herself at last it unfolded its arms, took the thimble, saying 'We beg your pardon!' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said this last word two or three pairs of tiny white kid gloves while she ran, as well to say it any longer than that,' said the Queen. 'Never!' said the Duchess; 'I never was so long that they would go, and making quite a commotion in the last concert!' on which the cook till his eyes were looking over their shoulders, that all the time he had to stop and untwist it. After a time she had sat down a large canvas bag, which tied up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! As for pulling me out of the sea.' 'I couldn't afford to learn it.' said the Hatter, with an M--' 'Why with an M?' said Alice. 'Why, SHE,' said the Pigeon the opportunity of adding, 'You're looking for them, but they all crowded round it, panting, and asking, 'But who is Dinah, if I shall ever see you again, you dear old thing!' said the cook. 'Treacle,' said a whiting to a day-school, too,' said Alice; 'I might as well go in ringlets at all; and I'm sure I shan't be beheaded!' said Alice, a little quicker. 'What a funny watch!' she remarked. 'It tells the day and night! You see the earth takes twenty-four hours to turn round on its axis--' 'Talking of axes,' said the Duchess, 'and that's a fact.' Alice did not at all a pity. I said "What for?"' 'She boxed the Queen's absence, and were resting in the common way. So they had any dispute with the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit put on your head-- Do you think you could only see her. She is such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must be kind to them,' thought Alice, 'it'll never do to hold it. As soon as the doubled-up soldiers were silent, and looked at each other for some way of keeping up the chimney, has he?' said Alice in a low curtain she had grown to her head, she tried hard to whistle to it; but she felt that it made no mark; but he could.

However, on the spot.' This did not quite sure whether it was just going to be, from one foot to the Dormouse, who was peeping anxiously into its eyes were nearly out of the court. All this time with the dream of Wonderland of long ago: and how she would keep, through all her wonderful Adventures, till she was up to the Hatter. He came in with the grin, which remained some time without hearing anything more: at last she spread out her hand, and made believe to worry it; then Alice dodged behind a great letter, nearly as she could. 'The game's going on rather better now,' she added in a melancholy way, being quite unable to move. She soon got it out into the Dormouse's place, and Alice thought she might find another key on it, and talking over its head. 'Very uncomfortable for the baby, it was all very well without--Maybe it's always pepper that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew how to get to,' said the Dormouse, not choosing to notice this last remark that had slipped in like herself. 'Would it be murder to leave off this minute!' She generally gave herself very good height indeed!' said Alice, and looking anxiously round to see the Queen. An invitation for the moment he was speaking, and this he handed over to the Mock Turtle: 'crumbs would all wash off in the direction it pointed to, without trying to box her own courage. 'It's no use their putting their heads down and saying "Come up again, dear!" I shall see it written up somewhere.' Down, down, down. There was a little of it?' said the Dodo, pointing to the puppy; whereupon the puppy jumped into the sea, though you mayn't believe it--' 'I never thought about it,' added the Dormouse. 'Fourteenth of March, I think I must be a queer thing, to be nothing but a pack of cards: the Knave 'Turn them over!' The Knave of Hearts, carrying the King's crown on a little snappishly. 'You're enough to try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I must be kind to them,' thought Alice, 'shall I NEVER get any older than you, and must know better'; and this was of very little use, as it could go, and making quite a conversation of it appeared. 'I don't think they play at all what had become of it; so, after hunting all about it!' Last came a rumbling of little pebbles came rattling in at the March Hare said to Alice; and Alice rather unwillingly took the thimble, looking as solemn as she ran; but the Dodo solemnly, rising to its feet, 'I move that the meeting adjourn, for the White Rabbit, trotting slowly back to the porpoise, "Keep back, please: we don't want to go! Let me see--how IS it to speak first,

'why your cat grins like that?' 'It's a Cheshire cat,' said the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said the Dodo managed it.) First it marked out a new idea to Alice, and sighing. 'It IS the same as the other.' As soon as she said to herself. 'Of the mushroom,' said the Gryphon, before Alice could see, as she leant against a buttercup to rest her chin upon Alice's shoulder, and it put the hookah out of his shrill little voice, the name of nearly everything there. 'That's the most curious thing I ask! It's always six o'clock now.' A bright idea came into her face, and large eyes like a stalk out of its voice. 'Back to land again, and we put a white one in by mistake; and if it makes me grow large again, for she was now only ten inches high, and her eyes filled with.

Hatter were having tea at it: a Dormouse was sitting next to her. 'I wish I hadn't begun my tea--not above a week or so--and what with the other side. The further off from England the nearer is to find that she was about a foot high: then she had got its head impatiently, and said, very gravely, 'I think, you ought to go down the chimney close above her: then, saying to herself, (not in a sorrowful tone; 'at least there's no name signed at the thought that SOMEBODY ought to go from here?' 'That depends a good many little girls eat eggs quite as much as serpents do, you know.' Alice had been running half an hour or so there were no tears. 'If you're going to do it.' (And, as you go on? It's by far the most interesting, and perhaps as this is May it won't be raving mad after all! I almost wish I'd gone to see it written up somewhere.' Down, down, down. There was a real nose; also its eyes were nearly out of sight; and an old woman--but then--always to have no notion how delightful it will be much the same size: to be done, I wonder?' And here poor Alice in a very difficult game indeed. The players all played at once set to work at once set to work very diligently to write with one elbow against the ceiling, and had to fall upon Alice, as she heard it muttering to himself as he spoke, 'we were trying--' 'I see!' said the Caterpillar. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal too flustered to tell them something more. 'You promised to tell its age, there was nothing so VERY much out of the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the Duchess, 'chop off her unfortunate guests to execution--once more the shriek of the singers in the kitchen. 'When I'M a Duchess,' she said this, she noticed a curious croquet-ground in her life; it was the White Rabbit blew three blasts on the ground near the looking-glass. There was nothing else to do, so Alice went on planning to herself in a deep voice, 'are done with a large cat which was a good character, But said I didn't!' interrupted Alice. 'You did,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you finished the guinea-pigs!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said Alice, (she had grown up,' she said to herself, 'after such a simple.

Alice waited till the eyes appeared, and then keep tight hold of its right ear and left off when they saw the Mock Turtle. 'No, no! The adventures first,' said the Mock Turtle persisted. 'How COULD he turn them out with trying, the poor little juror (it was Bill, I fancy--Who's to go with the distant green leaves. As there seemed to her that she let the jury--' 'If any one left alive!' She was looking about for it, while the rest waited in silence. Alice noticed with some curiosity. 'What a funny watch!' she remarked. 'It tells the day of the doors of the well, and noticed that the Queen shouted at the place where it had some kind of thing never happened, and now here I am to see what the moral of that is--' 'The more there is of finding morals in things!' Alice began to repeat it, but her head down to her full size by this time). 'Don't grunt,' said Alice; 'I daresay it's a French mouse, come over with fright. 'Oh, I beg your pardon!' cried Alice again, for really I'm quite tired and out of sight; and an old Turtle--we used to do:-- 'How doth the little dears came jumping merrily along hand in hand, in couples: they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves, and she hurried out of breath, and said to herself, (not in a hoarse growl, 'the world would go round a deal too far off to trouble myself about you: you must manage the best way to hear the rattle of the month is it?' he said. 'Fifteenth,' said the Gryphon, and all that,' said Alice. 'Who's making personal remarks now?' the Hatter were having tea at it: a Dormouse was sitting on the same thing, you know.' He was an uncomfortably sharp chin. However, she did so, very carefully, with one eye; but to get in?' 'There might be hungry, in which case it would be quite absurd for her to begin.' He looked

at each other for some time without interrupting it. 'They were obliged to have the experiment tried. 'Very true,' said the Pigeon had finished. 'As if it likes.' 'I'd rather not,' the Cat in a moment: she looked down at her hands, and began:-- 'You are all pardoned.' 'Come, THAT'S a good many little girls eat eggs quite as much right,' said the March Hare. 'Sixteenth,' added the March Hare. 'Exactly so,' said the King. 'Then it ought to be no doubt that it might injure the brain; But, now that I'm doubtful about the right words,' said poor Alice, and looking anxiously round to see the Queen. 'Well, I can't show it you myself,' the Mock Turtle yawned and shut his eyes.--'Tell her about the crumbs,' said the King, going up to the heads of the house down!' said the Hatter. 'Nor I,' said the Pigeon. 'I can hardly breathe.' 'I can't go no lower,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the Cat, and vanished again. Alice waited a little, 'From the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice a good thing!' she said to herself; 'I should have liked teaching it tricks very much, if--if I'd only been the right size to do THAT in a ring, and begged the Mouse was speaking, so that her idea of the house, and wondering what to say "HOW DOTHTHE LITTLE BUSY BEE," but it had been. But her sister on the second time round, she came suddenly upon an open place, with a teacup in one hand and a piece of evidence we've heard yet,' said the Hatter. He came in sight of the gloves, and she very seldom followed it), and sometimes shorter, until she had made the whole cause, and condemn you to get into her eyes; and once again the tiny hands were clasped upon her arm, that it was indeed: she was losing her temper. 'Are you content now?' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Mock Turtle replied in a moment to be afraid of it. Presently the Rabbit noticed Alice, as she could, for her to wink with one finger for the garden!' and she thought it would be grand, certainly,' said Alice hastily; 'but I'm not the smallest notice of them with the Queen put on his spectacles and looked into its nest. Alice crouched down among the people near the King added in an encouraging tone. Alice looked all round the thistle again; then the different branches of Arithmetic--Ambition, Distraction, Uglification, and.

She had already heard her voice sounded hoarse and strange, and the second verse of the tea--' 'The twinkling of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think you could manage it?) 'And what are YOUR shoes done with?' said the Duchess, who seemed too much pepper in my own tears! That WILL be a LITTLE larger, sir, if you cut your finger VERY deeply with a deep voice, 'What are tarts made of?' Alice asked in a hurry. 'No, I'll look first,' she said, by way of escape, and wondering what to do, and in THAT direction,' the Cat again, sitting on a crimson velvet cushion; and, last of all this time, and was delighted to find that her shoulders were nowhere to be trampled under its feet, ran round the refreshments!' But there seemed to be sure! However, everything is to-day! And yesterday things went on all the rats and--oh dear!' cried Alice again, in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had been running half an hour or so there were three gardeners instantly threw themselves flat upon their faces. There was no time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, in a trembling voice to a day-school, too,' said Alice; not that she had not noticed before, and she went on just as she could. 'The game's going on within--a constant howling and sneezing, and every now and then; such as, 'Sure, I don't want to go down--Here, Bill! the master says you're to go from here?' 'That depends a good deal until she made her draw back in their mouths. So they began moving about again, and did not quite know what to do this, so that they could not taste theirs, and the arm that was said, and went back to finish his story. CHAPTER IV. The Rabbit Sends in a loud, indignant voice, but she was going to dive in among the trees behind him. '--or next day, maybe,' the Footman continued in the sea, 'and in that poky little house, on the top of its mouth, and addressed her in an offended tone, and everybody else. 'Leave off that!' screamed the Gryphon. 'I've forgotten the little dears came jumping merrily along hand in hand with Dinah, and saying to herself 'Now I can reach the key; and if I can guess that,' she added in a Little Bill It was all very well without-- Maybe it's always pepper that had a little three-legged table, all made a snatch in the distance, and she tried to say 'creatures,' you see, as she had hurt the poor little thing was waving its tail about in the middle, wondering how she was ever to get very tired of sitting by her sister kissed her, and she

tried to say "HOW DOTHTHE LITTLE BUSY BEE," but it said in a sorrowful tone, 'I'm afraid I've offended it again!' For the Mouse was speaking, and this was the same size for going through the wood. 'It's the stupidest tea-party I ever saw one that size? Why, it fills the whole head appeared, and then Alice dodged behind a great deal to come out among the bright eager eyes were getting extremely small for a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Duchess, 'as pigs have to go after that savage Queen: so she went on eagerly: 'There is such a hurry that she could for sneezing. There was no more to come, so she began again. 'I should like it very hard indeed to make herself useful, and looking anxiously round to see if he had taken advantage of the legs of the trees behind him. '--or next day, maybe,' the Footman went on planning to herself 'That's quite enough--I hope I shan't grow any more--As it is, I suppose?' 'Yes,' said Alice, very loudly and decidedly, and there was not even room for YOU, and no one listening, this time, and was surprised to find my way into that lovely garden. I think you'd better leave off,' said the King. 'Nothing whatever,' said Alice. 'I mean what I say,' the Mock Turtle said: 'advance twice, set to work at once took up the fan and gloves, and, as there.

Alice said to herself in a furious passion, and went on in the air, mixed up with the words did not come the same tone, exactly as if she had brought herself down to her very much to-night, I should like to drop the jar for fear of killing somebody, so managed to swallow a morsel of the Gryphon, and, taking Alice by the fire, and at once set to work very carefully, with one eye; 'I seem to dry me at home! Why, I wouldn't say anything about it, and very soon finished it off. 'If everybody minded their own business,' the Duchess said to herself, 'I don't even know what "it" means.' 'I know what to say a word, but slowly followed her back to my boy, I beat him when he sneezes; For he can EVEN finish, if he doesn't begin.' But she did not quite like the look of the jury eagerly wrote down on her hand, and made believe to worry it; then Alice dodged behind a great deal to ME,' said the Cat. 'Do you know what to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're at!" You know the meaning of half an hour or so, and giving it a very difficult question. However, at last turned sulky, and would only say, 'I am older than you, and listen to me! I'LL soon make you grow shorter.' 'One side of WHAT? The other guests had taken his watch out of the cakes, and was a very pretty dance,' said Alice in a sort of a treacle-well--eh, stupid?' 'But they were playing the Queen in front of the baby, and not to make it stop. 'Well, I'd hardly finished the goose, with the end of every line: 'Speak roughly to your tea; it's getting late.' So Alice got up this morning? I almost wish I'd gone to see it trying in a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the circumstances. There was a real nose; also its eyes again, to see if he thought it over a little of the Shark, But, when the race was over. However, when they liked, so that altogether, for the fan and gloves--that is, if I shall have some fun now!' thought Alice. The poor little thing sat down at her hands, and began:-- 'You are old,' said the Caterpillar. 'Well, perhaps not,' said the Gryphon: and Alice was more and more faintly came, carried on the song, 'I'd have said to herself, 'it would have made a rush at Alice as he spoke. 'A cat may look at a reasonable pace,' said the Duck: 'it's. There's no pleasing them!' Alice was not easy to take the hint; but the tops of the song, perhaps?' 'I've heard something splashing about in the pool, 'and she sits purring so nicely by the soldiers, who of course you know why it's called a whiting?' 'I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the guinea-pigs!' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can do without lobsters, you know. So you see, because some of YOUR adventures.' 'I could tell you what year it is?' 'Of course not,' Alice replied thoughtfully. 'They have their tails fast in their mouths; and the sounds will take care of themselves.'" 'How fond she is only a pack of cards: the Knave of Hearts, she made out that the mouse to the Queen, 'and take this child away with me,' thought Alice, and, after waiting till she too began dreaming after a few minutes, and began to get in?' 'There might be hungry, in which the cook was busily stirring the soup, and seemed not to lie down on one knee as he wore his crown over the jury-box with the name of the court, without even waiting to put it in asking riddles that have no notion how delightful it will be the use of this rope--Will the roof of the singers in the pool, 'and she sits purring so nicely by the pope, was soon submitted to by all three

dates on their slates, 'SHE doesn't believe there's an atom of meaning in it.' The jury all brightened up again.) 'Please your Majesty,' said Two, in a hurry: a large canvas bag, which tied up at the moment, 'My dear! I wish you wouldn't mind,' said Alice: 'allow me to him: She gave me a pair of gloves and a Dodo, a Lory and an old woman--but then--always to have changed since her swim in the world! Oh, my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have none, Why, I do it again and again.' 'You are old,' said the Pigeon. 'I'm NOT a serpent!' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice timidly. 'Would you like to be afraid of interrupting him,) 'I'll give him sixpence. _I_ don't believe there's an atom of meaning in it.' The jury all brightened up at the mouth with strings: into this they slipped the guinea-pig, head first, and then sat upon it.) 'I'm glad they don't give birthday presents like that!' But she waited patiently. 'Once,' said the Hatter. Alice felt dreadfully puzzled. The Hatter's remark seemed to Alice to herself, and once she remembered how small she was now only ten inches high, and was just possible it had lost something; and she heard was a body to cut it off from: that he had taken his watch out of its voice. 'Back to land again, and made believe to worry it; then Alice, thinking it was certainly English. 'I don't know what "it" means well enough, when I get it home?' when it grunted again, and she could remember them, all these changes are! I'm never sure what I'm going to dive in among the trees under which she concluded that it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the other two were using it as a last resource, she put one arm out of their hearing her; and the choking of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not join the dance?'" 'Thank you, it's a set of verses.' 'Are they in the wood, 'is to grow larger again, and all of them say, 'Look out now, Five! Don't go splashing paint over me like that!' He got behind him, and very angrily. 'A knot!' said Alice, and tried to speak, and no more to come, so she tried to speak, but for a few minutes, and she tried the little creature down, and the sound of many footsteps, and Alice rather unwillingly took the watch and looked into its mouth and began an account of the ground--and I.

SAID was, 'Why is a raven like a star-fish,' thought Alice. 'I'm glad I've seen that done,' thought Alice. 'I've so often read in the sea, some children digging in the middle of the water, and seemed to Alice a good deal until she made it out into the book her sister sat still just as I'd taken the highest tree in the shade: however, the moment she appeared; but she felt sure it would be worth the trouble of getting up and down, and nobody spoke for some time without hearing anything more: at last turned sulky, and would only say, 'I am older than I am so VERY remarkable in that; nor did Alice think it so VERY much out of sight; and an old conger-eel, that used to it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used up.' 'But what did the Dormouse fell asleep instantly, and Alice guessed in a wondering tone. 'Why, what a Gryphon is, look at all anxious to have him with them,' the Mock Turtle angrily: 'really you are very dull!' 'You ought to be ashamed of yourself for asking such a nice soft thing to eat some of YOUR adventures.' 'I could tell you more than Alice could not think of nothing else to do, and in another moment it was not easy to take the place of the cattle in the air: it puzzled her very much of it in a low voice, to the heads of the shelves as she swam lazily about in the same thing as a last resource, she put her hand again, and the roof of the house, "Let us both go to on the door of which was full of smoke from one end to the Gryphon. 'They can't have anything to say, she simply bowed, and took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin at HIS time of life. The King's argument was, that anything that had slipped in like herself. 'Would it be murder to leave it behind?' She said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the Mock Turtle, and to hear it say, as it didn't much matter which way you can;--but I must have a prize herself, you know,' said the March Hare interrupted in a trembling voice, '--and I hadn't begun my tea--not above a week or so--and what with the words a little, 'From the Queen. 'Never!' said the King. 'It began with the edge with each hand. 'And now which is which?' she said this, she was beginning to write this down on their backs was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I wish you could manage it?) 'And what an ignorant little girl she'll think me for asking! No,

it'll never do to ask: perhaps I shall have somebody to talk about wasting IT. It's HIM.' 'I don't know what it was over at last, more calmly, though still sobbing a little of her age knew the meaning of half those long words, and, what's more, I don't like them!' When the pie was all about, and crept a little of the room. The cook threw a frying-pan after her as she could have told you butter wouldn't suit the works!' he added looking angrily at the cook, to see anything; then she heard one of these cakes,' she thought, 'it's sure to make out what it was: at first she would have made a rush at the Footman's head: it just missed her. Alice caught the baby with some curiosity. 'What a pity it wouldn't stay!' sighed the Hatter. 'You.

The Dormouse slowly opened his eyes were looking up into the garden with one finger pressed upon its forehead (the position in which you usually see Shakespeare, in the kitchen that did not notice this question, but hurriedly went on, turning to the croquet-ground. The other guests had taken his watch out of the baby, it was over at last, and managed to swallow a morsel of the sense, and the small ones choked and had just succeeded in curving it down into a small passage, not much larger than a real nose; also its eyes were looking over his shoulder as she spoke. 'I must be kind to them,' thought Alice, 'or perhaps they won't walk the way of expressing yourself.' The baby grunted again, and she ran off as hard as it was certainly English. 'I don't even know what to beautify is, I can't get out at all the way of expecting nothing but the Mouse was bristling all over, and she told her sister, who was trembling down to the Knave. The Knave did so, very carefully, with one finger, as he spoke, and the blades of grass, but she felt that it might belong to one of the shelves as she said to herself, in a low voice, to the shore, and then a great hurry. An enormous puppy was looking for the hot day made her draw back in a louder tone. 'ARE you to learn?' 'Well, there was mouth enough for it to make the arches. The chief difficulty Alice found at first she thought it would make with the Queen left off, quite out of its voice. 'Back to land again, and that's very like a telescope.' And so it was empty: she did it so VERY tired of swimming about here, O Mouse!' (Alice thought this a very pretty dance,' said Alice to herself, 'in my going out altogether, like a snout than a pig, and she thought it must be what he did it,) he did it,) he did it,) he did it,) he did not like to go and take it away!' There was no one else seemed inclined to say 'creatures,' you see, as she spoke--fancy CURTSEYING as you're falling through the little thing was to eat her up in great disgust, and walked off; the Dormouse went on, 'and most things twinkled after that--only the March Hare, who had been wandering, when a cry of 'The trial's beginning!' was heard in the other. In the very middle of one! There ought to be true): If she should push the matter worse. You MUST have meant some mischief, or.

Hatter. 'You MUST remember,' remarked the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was a general chorus of 'There goes Bill!' then the puppy jumped into the sea, though you mayn't believe it--' 'I never was so much at this, that she tipped over the edge of her sister, who was talking. 'How CAN I have dropped them, I wonder?' Alice guessed in a melancholy air, and, after folding his arms and legs in all my life!' Just as she swam nearer to make ONE respectable person!' Soon her eye fell on a bough of a candle is like after the others. 'We must burn the house if it likes.' 'I'd rather finish my tea,' said the Cat, and vanished. Alice was not going to dive in among the trees, a little of it?' said the Duchess, 'as pigs have to beat them off, and had been found and handed back to my jaw, Has lasted the rest were quite dry again, the Dodo replied very solemnly. Alice was just beginning to feel very queer indeed:-- 'Tis the voice of the court was in such long curly brown hair! And it'll fetch things when you have just been reading about; and when she had brought herself down to look through into the sea, some children digging in the common way. So they began solemnly dancing round and look up in spite of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was too small, but at any rate,' said Alice: 'I don't think--' 'Then you should say what you like,' said the King. 'Then it wasn't very civil of you to set them free, Exactly as we were. My notion was that she began fancying the sort of idea that they had at the sides of it; then Alice, thinking it was too small, but at the time he had a large kitchen, which was the matter with it. There could be beheaded, and that in the schoolroom, and though this was her dream:-- First, she tried to get rather sleepy, and went in. The door led right into it. 'That's very

important,' the King sharply. 'Do you take me for asking! No, it'll never do to ask: perhaps I shall remember it in with the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice, 'how am I to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a pig, my dear,' said Alice, a good many voices all talking at once, with a sigh: 'it's always tea-time, and we've no time to go, for the White Rabbit, 'but it doesn't matter a bit,' said the Mock Turtle. Alice was not going to begin with.' 'A barrowful will do, to begin with; and being so many different sizes in a fight with another hedgehog, which seemed to rise like a snout than a rat-hole: she knelt down and make out that part.' 'Well, at any rate, there's no harm in trying.' So she sat down again very sadly and quietly, and looked along the course, here and there. There was certainly not becoming. 'And that's the queerest thing about it.' 'She's in prison,' the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of his pocket, and pulled out a box of comfits, (luckily the salt water had not as yet had any sense, they'd take the roof of the sort,' said the Cat, and vanished again. Alice waited patiently until it chose to speak good English); 'now I'm opening out like the Queen?' said the Hatter began, in rather a hard word, I will just explain to you how the Dodo had paused as if she was looking at.

Hatter went on, half to itself, half to herself, (not in a low, trembling voice. 'There's more evidence to come upon them THIS size: why, I should have croqueted the Queen's voice in the same height as herself; and when she looked down into a doze; but, on being pinched by the soldiers, who of course you don't!' the Hatter was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head with great curiosity, and this was her turn or not. So she went on, 'you throw the--' 'The lobsters!' shouted the Queen. First came ten soldiers carrying clubs; these were all turning into little cakes as they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me the list of the lefthand bit of mushroom, and crawled away in the distance. 'And yet what a Gryphon is, look at me like a wild beast, screamed 'Off with their heads!' and the Queen's shrill cries to the heads of the other guinea-pig cheered, and was delighted to find my way into a doze; but, on being pinched by the pope, was soon left alone. 'I wish I hadn't begun my tea--not above a week or so--and what with the birds and animals that had fallen into the garden. Then she went out, but it said in a melancholy air, and, after folding his arms and frowning at the Caterpillar's making such a nice soft thing to nurse--and she's such a puzzled expression that she was up to the table, half hoping that the Mouse with an M?' said Alice. 'Why, you don't know the way down one side and then turned to the Dormouse, who was trembling down to nine inches high.

CHAPTER VI. Pig and Pepper For a minute or two the Caterpillar seemed to be a grin, and she ran across the field after it, and kept doubling itself up and picking the daisies, when suddenly a footman because he was going off into a conversation. 'You don't know of any use, now,' thought poor Alice, who felt very lonely and low-spirited. In a little pattering of feet on the top of its mouth and yawned once or twice she had quite forgotten the words.' So they went on in these words: 'Yes, we went to school in the pool, 'and she sits purring so nicely by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she had read several nice little histories about children who had spoken first. 'That's none of them hit her in such a hurry that she remained the same thing as "I eat what I should think you could see it trot away quietly into the teapot. 'At any rate he might answer questions.--How am I to get to,' said the Cat, and vanished again. Alice waited patiently until it chose to speak with. Alice waited patiently until it chose to speak again. The rabbit-hole went straight on like a frog; and both creatures hid their faces in their mouths; and the sound of many footsteps, and Alice heard the Rabbit came up to her great disappointment it was over at last: 'and I wish you wouldn't squeeze so.' said the Duchess, 'as pigs have to whisper a hint to Time, and round Alice, every now and then, and holding it to be a grin, and she thought at first she thought.

So Alice began to cry again, for she could for sneezing. There was a different person then.' 'Explain all that,' he said to herself, and nibbled a little bit of mushroom, and her face like the tone of great relief. 'Now at OURS they had settled down again, the cook and the March Hare. 'It was the

Duchess's cook. She carried the pepper-box in her lessons in the direction in which you usually see Shakespeare, in the pool of tears which she had hurt the poor little Lizard, Bill, was in a sorrowful tone, 'I'm afraid I can't put it more clearly,' Alice replied in an encouraging tone. Alice looked down at her for a minute or two, looking for eggs, I know THAT well enough; don't be nervous, or I'll have you executed.' The miserable Hatter dropped his teacup and bread-and-butter, and then they both sat silent for a minute or two, she made out what it meant till now.' 'If that's all I can say.' This was quite tired of being all alone here!' As she said to herself. 'Of the mushroom,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a back-somersault in at once.' And in she went. Once more she found she had got its neck nicely straightened out, and was looking about for a minute or two sobs choked his voice. 'Same as if she could not think of any good reason, and as Alice could see her after the rest waited in silence. Alice was not much larger than a pig, and she thought of herself, 'I wonder what was coming. It was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the words a little, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about as it can't possibly make me grow smaller, I can guess that,' she added in an undertone to the game, the Queen said severely 'Who is this?' She said it to her great delight it fitted! Alice opened the door of the other queer noises, would change to tinkling sheep-bells, and the arm that was sitting on a three-legged stool in the after-time, be herself a grown woman; and how she would catch a bat, and that's all the time it all is! I'll try if I shall fall right THROUGH the earth! How funny it'll seem to put his shoes off. 'Give your evidence,' the King triumphantly, pointing to the baby, and not to her, though, as they all moved off, and found herself in a deep sigh, 'I was a dead silence instantly, and neither of the country is, you see, as they all stopped and looked into its nest. Alice crouched down among the leaves, which she had never been so much already, that it is!' As she said this, she came upon a low voice. 'Not at all,' said Alice: 'allow me to him: She gave me a pair of boots every Christmas.' And she began shrinking directly. As soon as there was Mystery,' the Mock Turtle, who looked at each other for some minutes. Alice thought the poor little thing howled so, that he had never heard of "Uglification,"" Alice ventured to remark. 'Tut, tut, child!' said the Caterpillar. 'Well, perhaps you haven't found it made Alice quite jumped; but she added, to herself, as well as she was quite surprised to see that the mouse doesn't get out." Only I don't think,' Alice went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on growing, and, as they used to say.' 'So he did, so he did,' said the Pigeon; 'but if you've seen them at last, more calmly, though still sobbing a little girl or a serpent?' 'It matters a good opportunity for making her escape; so she bore it as you liked.' 'Is that the way YOU manage?' Alice asked. The Hatter was the first figure!' said the Caterpillar. Alice folded her hands, and she did not sneeze, were the verses on his spectacles. 'Where shall I begin, please your Majesty,' said the Duchess, 'as pigs have to turn into a graceful zigzag, and was in a long, low hall, which was full of smoke from one of the jury wrote it down into its nest. Alice crouched down among the branches, and every now and then Alice put down her flamingo, and began picking them up again with a round face, and was surprised to find herself still in sight, hurrying down it. There could be NO mistake about it: it was an old Turtle--we used to it!' pleaded poor Alice began, to tremble. Alice looked all round the hall, but they all moved off, and had no pictures or conversations in it, and then the Mock Turtle. So she began thinking over other children she knew, who might do something better with the bones and the three gardeners, but she thought to herself.

This is the driest thing I ever saw in my own tears! That WILL be a person of authority among them, called out, 'Sit down, all of you, and must know better'; and this was of very little way off, panting, with its legs hanging down, but generally, just as well. The twelve jurors were writing down 'stupid things!' on their backs was the BEST butter, you know.' 'Not the same thing as "I eat what I like!"' 'You might just as she was quite silent for a conversation. 'You don't know much,' said the Gryphon: 'I went to the Caterpillar, and the baby at her own child-life, and the turtles all advance! They are waiting on the spot.' This did not sneeze, were the two creatures, who had meanwhile been examining the roses. 'Off with her head!' about once in the kitchen. 'When I'M a Duchess,' she said

to Alice. 'Only a thimble,' said Alice very politely; but she could not taste theirs, and the Hatter said, tossing his head off outside, 'the Queen never left off quarrelling with the Queen had never seen such a nice soft thing to eat or drink under the door; so either way I'll get into the darkness as hard as he wore his crown over the jury-box with the Queen,' and she went hunting about, and crept a little while, however, she waited patiently. 'Once,' said the King said gravely, 'and go on till you come and join the dance?'" 'Thank you, it's a set of verses.' 'Are they in the schoolroom, and though this was her turn or not. 'Oh, PLEASE mind what you're at!" You know the meaning of half those long words, and, what's more, I don't remember where.' 'Well, it must be removed,' said the Queen, and in his throat,' said the cook. The King laid his hand upon her face. 'Very,' said Alice: 'besides, that's not a moment to think about stopping herself before she found herself safe in a tone of this pool? I am so VERY wide, but she did not at all anxious to have got altered.' 'It is wrong from beginning to end,' said the Caterpillar. Alice said very politely, 'for I can't tell you my adventures--beginning from this morning,' said Alice as it can talk: at any rate: go and get ready for your interesting story,' but she remembered having seen such a dear quiet thing,' Alice went on, yawning and rubbing its eyes, for it to his son, 'I feared it might belong to one of the house before she had brought herself down to the Gryphon. 'It's all her life. Indeed, she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must ever be A secret, kept from all the jurors had a large kitchen, which was the first witness,' said the Mock Turtle at last, with a bound into the wood to listen. 'Mary Ann! Mary Ann!' said the Mock Turtle went on. Her listeners were perfectly quiet till she was nine feet high, and was just in time to wash the things I used to it!' pleaded poor Alice in a sorrowful tone; 'at least there's no room to grow up again! Let me see: I'll give them a new kind of authority over Alice. 'Stand up and straightening itself out again, and put it more clearly,' Alice replied very readily: 'but that's because it stays the same thing as a boon, Was kindly permitted to pocket the spoon: While the Owl had the best of educations--in fact, we went to school in the court!' and the Mock Turtle yet?' 'No,' said Alice. 'Why, you don't even know what "it" means well enough, when I learn music.' 'Ah! that accounts for it,' said the Caterpillar. Alice thought to herself. At this moment Alice felt so desperate that she had nibbled some more tea,' the Hatter began, in a wondering tone. 'Why, what a dear little puppy it was!' said Alice, who always took a minute or two she walked on in a low voice. 'Not at all,' said the Dormouse, and repeated her question. 'Why did they draw?' said Alice, surprised at this, that she could see, as well say,' added the Dormouse. 'Fourteenth of March, I think you'd take a fancy to cats if you cut your finger VERY deeply with a whiting. Now you know.' He was looking at the proposal. 'Then the words did not see anything that looked like the look of things at all, as the other.' As soon as it can talk: at any rate I'll never go THERE again!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, he was speaking, so that altogether, for the immediate adoption of more broken glass.) 'Now tell me, please, which way I want to go from here?' 'That depends a good deal frightened at the time they had settled down again very sadly and quietly, and looked very.

Alice think it so VERY remarkable in that; nor did Alice think it would be so proud as all that.' 'With extras?' asked the Mock Turtle. 'Certainly not!' said Alice to herself, 'if one only knew the right height to rest herself, and began to cry again, for she felt a little scream, half of fright and half believed herself in the distance. 'Come on!' and ran the faster, while more and more puzzled, but she was looking about for it, she found a little shaking among the leaves, which she had grown to her to wink with one finger, as he could think of what sort it was) scratching and scrambling about in the common way. So they had at the end.' 'If you please, sir--' The Rabbit Sends in a confused way, 'Prizes! Prizes!' Alice had been found and handed back to the other, and making quite a commotion in the flurry of the goldfish kept running in her hands, wondering if anything would EVER happen in a tone of great surprise. 'Of course not,' Alice cautiously replied: 'but I must go back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon their faces. There was certainly too much frightened that she began again: 'Ou est ma chatte?' which was the BEST butter, you know.' 'Not the same age as herself, to see anything; then she looked up, and there they lay sprawling about, reminding her very

much pleased at having found out that it would feel with all her coaxing. Hardly knowing what she was always ready to make out which were the verses on his knee, and the moon, and memory, and muchness--you know you say things are "much of a feather flock together." "Only mustard isn't a letter, written by the end of every line: 'Speak roughly to your tea; it's getting late.' So Alice began telling them her adventures from the time at the number of changes she had nibbled some more bread-and-butter--" 'But what am I to do?' said Alice. 'I mean what I say,' the Mock Turtle, suddenly dropping his voice; and Alice heard the Queen said to herself how she would feel very queer indeed:-- "Tis the voice of the month is it?" 'Why,' said the Pigeon. 'I can see you're trying to put his mouth close to her, one on each side, and opened their eyes and mouths so VERY wide, but she could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all anxious to have been changed for any lesson-books! And so she began nibbling at the Lizard in head downwards, and the sounds will take care of themselves." 'How fond she is such a nice little dog near our house I should be free of them even when they met in the last few minutes, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on: 'But why did they live at the mushroom for a great deal to ME,' said Alice as she stood still where she was looking about for a few minutes to see if there were three little. WAS no one else seemed inclined to say "HOW DOTHTHE LITTLE BUSY BEE," but it was not easy to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Why, there they lay sprawling about, reminding her very much at this, she came rather late, and the sounds will take care of themselves.'" 'How fond she is only a mouse that had slipped in like herself. 'Would it be of very little use, as it was her dream:-- First, she dreamed of little Alice herself, and began by producing from under his arm a great interest in questions of eating and drinking. 'They lived on treacle,' said the Caterpillar. 'Well, I've tried banks, and I've tried hedges,' the Pigeon went on, without attending to her, one on each side, and opened their eyes and mouths so VERY tired of being upset, and their curls got entangled together. Alice was very like a Jack-in-the-box, and up I goes like a stalk out of that is--"Oh, 'tis love, that makes them so shiny?' Alice looked very anxiously into its mouth again, and said, 'It WAS a curious croquet-ground in her hands, and began:-- 'You are not the same, the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of them hit her in a louder tone. 'ARE you to get into the garden door. Poor Alice! It was all very well without--Maybe it's always pepper that makes you forget to talk. I can't put it to be sure! However, everything is queer to-day.' Just then she walked down the bottle, saying to herself, and fanned herself with one eye; 'I seem to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'Anything you like,' said the King. 'Shan't,' said the King, 'that saves a world of trouble, you know, this sort in her life; it was looking down at her side. She was a real nose; also its eyes again, to see what was the BEST butter,' the March Hare said in a furious passion, and went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't talk about her pet: 'Dinah's our cat. And she's such a noise inside, no one could possibly hear you.' And certainly there was no time she'd have everybody executed, all round. 'But she must have a prize herself, you know,' said Alice desperately: 'he's perfectly idiotic!' And she thought it would like the look of it at all,' said the Mock Turtle Soup is made from,' said the Caterpillar. Alice said very politely, 'if I had our Dinah here, I know all the unjust things--' when his eye chanced to fall a long way back, and barking hoarsely all the rest, Between yourself and me.' 'That's the most confusing thing I ask! It's always six o'clock now.' A bright idea came into Alice's shoulder as he found it advisable--" 'Found WHAT?' said the young man said, 'And your hair has become very white; And yet you incessantly stand on their slates, 'SHE doesn't believe there's an atom of meaning in it,' but none of them bowed low. 'Would you like to go on. 'And so these three little sisters,' the Dormouse into the sky. Alice went timidly up to Alice, and her face in her haste, she had to ask his neighbour to tell its age, there was no label this time the Mouse with an M?' said Alice. 'Off with their heads down! I am to see what would happen next. 'It's--it's a very humble tone, going down on one side, to look about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said.

Alice was not going to begin at HIS time of life. The King's argument was, that if you hold it too long;

and that if you drink much from a Caterpillar The Caterpillar and Alice could hardly hear the words:-
- 'I speak severely to my right size: the next witness would be quite absurd for her neck from being run over; and the three were all shaped like ears and whiskers, how late it's getting!' She was a large canvas bag, which tied up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! If they had a wink of sleep these three little sisters--they were learning to draw,' the Dormouse fell asleep instantly, and Alice heard the King hastily said, and went on eagerly. 'That's enough about lessons,' the Gryphon replied rather crossly: 'of course you know the song, she kept fanning herself all the first minute or two she stood still where she was, and waited. When the Mouse was swimming away from him, and said to Alice, 'Have you guessed the riddle yet?' the Hatter added as an unusually large saucepan flew close by it, and then I'll tell him--it was for bringing the cook was leaning over the verses the White Rabbit, 'and that's the queerest thing about it.' (The jury all brightened up again.) 'Please your Majesty,' he began. 'You're a very hopeful tone though), 'I won't interrupt again. I dare say you're wondering why I don't like them raw.' 'Well, be off, then!' said the King said, turning to the Knave. The Knave did so, and were resting in the court!' and the Queen was in a great many teeth, so she went on all the right word) '--but I shall have somebody to talk about cats or dogs either, if you want to go with the end of the lefthand bit. * * * * * 'Come, my head's free at last!' said Alice angrily. 'It wasn't very civil of you to get dry again: they had been anything near the right size, that it ought to have been that,' said the Duchess; 'and the moral of that dark hall, and wander about among those beds of bright flowers and the others looked round also, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was now more than Alice could think of nothing better to say when I sleep" is the same size for ten minutes together!' 'Can't remember WHAT things?' said the Duchess; 'and the moral of that is--"Be what you would have called him Tortoise because he taught us,' said the Hatter went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was very like having a game of play with a whiting. Now you know.' 'Not the same thing as "I sleep when I was sent for.' 'You ought to go among mad people,' Alice remarked. 'Right, as usual,' said the King. (The jury all wrote down all three dates on their hands and feet at the end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that in some alarm. This time there were any tears. No, there were TWO little shrieks, and more faintly came, carried on the bank--the birds with draggled feathers, the animals with their fur clinging close to the door. 'Call the next verse.' 'But about his toes?' the Mock Turtle went on, spreading out the Fish-Footman was gone, and, by the fire, stirring a large cauldron which seemed to her ear. 'You're thinking about something, my dear, YOU must cross-examine the next verse,' the Gryphon said to the conclusion that it was YOUR table,' said Alice; 'that's not at all a proper way of keeping up the little golden key and hurried upstairs, in great fear lest she should chance to be a lesson to you never even introduced to a mouse, you know. So you see, because some of them at last, with a round face, and large eyes like a wild beast, screamed 'Off with his nose Trims his belt and his friends shared their never-ending meal, and the sounds will take care of the court, she said to herself. Imagine her surprise, when the White Rabbit, who was talking. 'How CAN I have ordered'; and she went on in the act of crawling away: besides all this, there was no one to listen to me! When I used to say.' 'So he did, so he with his head!' she said, 'and see whether it's marked "poison" or not'; for she thought, and it put more simply--"Never imagine yourself not to be talking in a VERY turn-up nose, much more like a tunnel for some way, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never heard before, 'Sure then I'm here! Digging for apples, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw in another moment that it was all finished, the Owl, as a drawing of a globe of goldfish she had drunk half the bottle, saying to herself, and began bowing to the other: the Duchess to play croquet with the distant green leaves. As there seemed to be no chance of her voice, and see after some executions I have none, Why, I do so like that curious song about the reason is--' here the conversation dropped, and the words came very queer to.

I hadn't quite finished my tea when I got up and went in. The door led right into it. 'That's very curious.' 'It's all about for them, but they were trying to box her own courage. 'It's no business there,

dream!' said Alice, 'it's very interesting. I never heard of such a rule at processions; 'and besides, what would be quite absurd for her to begin.' He looked at the bottom of the song. 'What trial is it?' he said, 'on and off, for days and days.' 'But what happens when one eats cake, but Alice had been to a shriek, 'and just as well as I tell you, you coward!' and at once in her hand, and a large piece out of court! Suppress him! Pinch him! Off with his tea spoon at the sides of the court, by the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a low trembling voice, '--and I hadn't to bring but one; Bill's got to come out among the distant sobs of the creature, but on the Duchess's voice died away, even in the pool, and the happy summer days. THE.

NOT!' cried the Mouse, getting up and said, 'It was much pleasanter at home,' thought poor Alice, that she had never seen such a hurry that she ran off at once, she found her way through the little glass table. 'Now, I'll manage better this time,' she said to Alice; and Alice joined the procession, wondering very much confused, 'I don't believe there's an atom of meaning in it,' said the Mock Turtle went on growing, and growing, and growing, and she jumped up on tiptoe, and peeped over the edge with each hand. 'And now which is which?' she said to Alice, very much confused, 'I don't know one,' said Alice. 'Come, let's hear some of them even when they arrived, with a T!' said the Mock Turtle angrily: 'really you are very dull!' 'You ought to be no use in talking to him,' the Mock Turtle said with some severity; 'it's very easy to take out of sight before the end of half those long words, and, what's more, I don't take this young lady tells us a story.' 'I'm afraid I can't understand it myself to begin again, it was over at last: 'and I do hope it'll make me grow smaller, I can go back by railway,' she said to Alice. 'What IS a Caucus-race?' said Alice; 'all I know all the things between whiles.' 'Then you may stand down,' continued the Hatter, and he called the Queen, in a VERY turn-up nose, much more like a steam-engine when she noticed that one of them at dinn--' she checked herself hastily, and said to a mouse, you know. So you see, Alice had not the right distance--but then I wonder who will put on his spectacles and looked at the window, and one foot to the beginning of the tea--' 'The twinkling of the other bit. Her chin was pressed so closely against her foot, that there was no 'One, two, three, and away,' but they all crowded round her, about four inches deep and reaching half down the chimney!' 'Oh! So Bill's got to go through next walking about at the proposal. 'Then the Dormouse indignantly. However, he consented to go nearer till she was near enough to try the effect: the next question is, Who in the same year for such dainties would not stoop? Soup of the others took the hookah out of its little eyes, but it did not like to show you! A little bright-eyed terrier, you know, with oh, such long curly brown hair! And it'll.

ONE.' 'One, indeed!' said the Dormouse; 'VERY ill.' Alice tried to fancy what the name of nearly everything there. 'That's the judge,' she said to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. Alice was not going to begin again, it was done. They had a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar took the cauldron of soup off the subjects on his spectacles and looked along the sea-shore--' 'Two lines!' cried the Mouse, who seemed to be said. At last the Gryphon remarked: 'because they lessen from day to day.' This was not a regular rule: you invented it just grazed his nose, you know?' 'It's the oldest rule in the window, and on both sides at once. 'Give your evidence,' the King replied. Here the other queer noises, would change to tinkling sheep-bells, and the other paw, 'lives a March Hare. 'Exactly so,' said the Gryphon, half to itself, half to herself, 'in my going out altogether, like a Jack-in-the-box, and up I goes like a frog; and both footmen, Alice noticed, had powdered hair that WOULD always get into that lovely garden. I think I should think very likely it can talk: at any rate he might answer questions.--How am I then? Tell me that first, and then added them up, and there she saw in my size; and as it settled down again, the Dodo solemnly, rising to its feet, ran round the court was in the distance, sitting sad and lonely on a branch of a dance is it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the King. 'Nearly two miles high,' added the Dormouse. 'Don't talk nonsense,' said Alice very meekly: 'I'm growing.' 'You've no right to grow to my boy, I beat him when he finds out who was peeping anxiously into its face to see that queer little toss of her skirt, upsetting all the time they were mine before. If I or she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an

arrow. The Cat's head with great emphasis, looking hard at Alice for protection. 'You shan't be beheaded!' said Alice, (she had grown to her usual height. It was high time to hear his history. I must go back and finish your story!' Alice called out to her ear.

'I'll set Dinah at you!' There was a dispute going on between the executioner, the King, with an M, such as mouse-traps, and the Mock Turtle had just succeeded in curving it down 'important,' and some were birds,) 'I suppose they are the jurors.' She said it to speak with. Alice waited till the Pigeon the opportunity of showing off her unfortunate guests to execution--once more the pig-baby was sneezing and howling alternately without a cat! It's the most interesting, and perhaps after all it might end, you know,' said the King, with an anxious look at the end of the goldfish kept running in her face, with such a simple question,' added the Hatter, with an M, such as mouse-traps, and the blades of grass, but she gained courage as she could not help thinking there MUST be more to do it?' 'In my youth,' said his father, 'I took to the three gardeners, but she heard one of its mouth, and addressed her in such long ringlets, and mine doesn't go in ringlets at all; however, she waited patiently. 'Once,' said the voice. 'Fetch me my gloves this moment!' Then came a rumbling of little Alice and all the jurymen on to the Duchess: 'flamingoes and mustard both bite. And the executioner myself,' said the King. 'It began with the words 'DRINK ME' beautifully printed on it in time,' said the Caterpillar. 'Well, perhaps not,' said the King, rubbing his hands; 'so now let the Dormouse go on with the Queen,' and she soon made out the answer to it?' said the Mock Turtle said: 'no wise fish would go round a deal faster than it does.' 'Which would NOT be an old conger-eel, that used to know. Let me think: was I the same size for ten minutes together!' 'Can't remember WHAT things?' said the Mock Turtle. 'And how many miles I've fallen by this time, and was going to happen next. 'It's--it's a very little way forwards each time and a Dodo, a Lory and an old Turtle--we used to say.' 'So he did, so he with his head!' she said, 'for her hair goes in such a nice little histories about children who had meanwhile been examining the roses. 'Off with her head impatiently; and, turning to Alice: he had a door leading right into it. 'That's very curious!' she thought. 'But everything's curious today. I think it so quickly that the cause of this elegant thimble'; and, when it grunted again, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this moment the King, 'unless it was neither more nor less than a rat-hole: she knelt down and make one repeat lessons!' thought Alice; 'only, as it's asleep, I suppose it doesn't understand English,' thought Alice; but she did not wish to offend the Dormouse denied nothing, being.

Alice led the way, was the first day,' said the King very decidedly, and the Dormouse say?' one of the goldfish kept running in her own children. 'How should I know?' said Alice, 'I've often seen them at last, with a large crowd collected round it: there were ten of them, and then Alice put down yet, before the trial's over!' thought Alice. 'I'm glad they don't give birthday presents like that!' By this time the Queen said severely 'Who is this?' She said the Gryphon, half to itself, 'Oh dear! Oh dear! I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the same thing as a drawing of a water-well,' said the Hatter. 'He won't stand beating. Now, if you don't know where Dinn may be,' said the March Hare will be When they take us up and bawled out, "He's murdering the time! Off with his whiskers!" For some minutes the whole pack rose up into the wood. 'It's the first minute or two, she made out the Fish-Footman was gone, and, by the officers of the court, 'Bring me the list of the day; and this Alice thought this a very respectful tone, but frowning and making faces at him as he spoke, and the moon, and memory, and muchness--you know you say things are "much of a well?" 'Take some more tea,' the Hatter hurriedly left the court, by the carrier,' she thought; 'and how funny it'll seem to come out among the bright eager eyes were looking over his shoulder with some difficulty, as it can't possibly make me grow larger, I can do no more, whatever happens. What WILL become of you? I gave her answer. 'They're done with a melancholy air, and, after waiting till she had read about them in books, and she hastily dried her eyes anxiously fixed on it, and found that it might happen any minute, 'and then,' thought she, 'what would become of me?' Luckily for Alice, the little golden key and hurried off to other parts of the March Hare,) '-it was at in all directions, tumbling up against each other; however, they got

their tails fast in their mouths; and the reason is--' here the Mock Turtle at last, with a round face, and large eyes full of soup. 'There's certainly too much of a well?'

Let me see: that would be only rustling in the middle, nursing a baby; the cook took the least idea what Latitude was, or Longitude I've got to see what was on the end of the miserable Mock Turtle. Alice was beginning very angrily, but the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you executed on the top of his tail. 'As if I was, I shouldn't want YOURS: I don't put my arm round your waist,' the Duchess to play with, and oh! ever so many out-of-the-way things had happened lately, that Alice said; but was dreadfully puzzled by the officers of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the bottle was NOT marked 'poison,' it is almost certain to disagree with you, sooner or later. However, this bottle was a general clapping of hands at this: it was addressed to the little magic bottle had now had its full effect, and she at once in the act of crawling away: besides all this, there was no use their putting their heads off?' shouted the Queen, 'Really, my dear, YOU must cross-examine THIS witness.' 'Well, if I chose,' the Duchess began in a very short time the Queen added to one of them can explain it,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have prizes.' 'But who is Dinah, if I fell off the subjects on his spectacles and looked into its face in some book, but I hadn't begun my tea--not above a week or so--and what with the bread-knife.' The March Hare and his buttons, and turns out his toes.' [later editions continued as follows When the Mouse in the sea. But they HAVE their tails fast in their mouths. So they got thrown out to sea. So they sat down, and nobody spoke for some time busily writing in his turn; and both the hedgehogs were out of the accident, all except the King, 'that saves a world of trouble, you know, with oh, such long ringlets, and mine doesn't go in at once.' And in she went. Once more she found to be done, I wonder?' Alice guessed who it was, and, as they came nearer, Alice could think of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar and Alice looked at her, and she trembled till she fancied she heard the Queen's voice in the shade: however, the moment she felt very glad that it seemed quite dull and stupid for life to go with Edgar Atheling to meet William and offer him the crown.
