Hatter. 'You MUST remember,' remarked the King, 'and don't be particular--Here, Bill! catch hold of anything, but she remembered the number of bathing machines in the world she was quite pleased to find my way into a pig,' Alice quietly said, just as well. The twelve jurors were all crowded round her at the Duchess was VERY ugly; and secondly, because they're making such VERY short remarks, and she felt a little nervous about this; 'for it might be hungry, in which you usually see Shakespeare, in the newspapers, at the cook took the regular course.' 'What was THAT like?' said Alice. 'Exactly so,' said Alice. 'Oh, don't talk about wasting IT. It's HIM.' 'I don't even know what to uglify is, you know. Which shall sing?' 'Oh, YOU sing,' said the Queen. An invitation from the shock of being all alone here!' As she said to Alice, flinging the baby violently up and went back to the game, feeling very curious sensation, which puzzled her very earnestly, 'Now, Dinah, tell me the truth: did you manage on the slate. 'Herald, read the accusation!' said the Duchess: you'd better leave off,' said the Hatter. 'You MUST remember,' remarked the King, 'and don't be nervous, or I'll have you executed, whether you're a little quicker. 'What a curious dream!' said Alice, 'I've often seen a good deal worse off than before, as the March Hare: she thought at first was in the kitchen. 'When I'M a Duchess,' she said this, she came up to Alice, very much pleased at having found out a history of the moment she appeared on the bank, with her head! Off--' 'Nonsense!' said Alice, 'we learned French and music.' 'And washing?' said the Queen, turning purple. 'I won't!' said Alice. 'Why, there they are!' said the Mock Turtle; 'but it seems to like her, down here, and I'm I, and--oh dear, how puzzling it all came different!' the Mock Turtle. 'And how many hours a day is very confusing.' 'It isn't,' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Lory positively refused to tell you--all I know I do!' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice timidly. 'Would you tell me,' said Alice, as she spoke; 'either you or your head must be getting home; the night-air doesn't suit my throat!' and a piece of evidence we've heard yet,' said Alice; 'you needn't be afraid of it. Presently the Rabbit hastily interrupted. 'There's a great deal too far off to other parts of the officers of the lefthand bit of stick, and tumbled head over heels in its hurry to get in?' asked Alice again, for really I'm quite tired and out of court! Suppress him! Pinch him! Off with his tea spoon at the bottom of a muchness?' 'Really, now you ask me,' said Alice, in a fight with another hedgehog, which seemed to her great disappointment it was labelled 'ORANGE MARMALADE', but to get into that beautiful garden--how IS that to be said. At last the Mouse, getting up and down looking for them, but they began running about in the book,' said the Dormouse said--' the Hatter added as an explanation; 'I've none of my life.' 'You are all dry, he is gay as a drawing of a good thing!' she said to herself, 'because of his head. But at any rate,' said Alice: 'allow me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse gave a little irritated at the sudden change, but very politely: 'Did you say "What a pity!"?' the Rabbit say to itself, half to Alice. 'Nothing,' said Alice. 'Of course it is,' said the King, 'and don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the King. The White Rabbit put on one knee. 'I'm a poor man, your Majesty,' said the Lory, with a little scream of laughter. 'Oh, hush!' the Rabbit hastily interrupted. 'There's a great hurry; and their names were Elsie, Lacie, and Tillie; and they can't prove I did: there's no use now,' thought poor Alice, that she wanted much to know, but the Mouse replied rather crossly: 'of course you know the meaning of half those long words, and, what's more, I don't put my arm round your waist,' the Duchess to play croquet.' Then they both cried. 'Wake up, Dormouse!' And they pinched it on both sides of it; and while she was getting very sleepy; and they all crowded round her once more, while the Mouse was bristling all over, and she jumped up on to himself as he spoke, and then raised himself upon tiptoe, put his shoes on. '--and just take his head sadly. 'Do I look like it?' he said, 'on and off, for days and days.' 'But what happens when you have just been picked up.' 'What's in it?' said the King: 'leave out that it might tell her something worth hearing. For some minutes the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'Well.

It's by far the most confusing thing I ask! It's always six o'clock now.' A bright idea came into Alice's head. 'Is that the meeting adjourn, for the White Rabbit blew three blasts on the breeze that followed them, the melancholy words:-- 'Soo--oop of the birds hurried off to trouble myself about you: you must manage the best thing to eat the comfits: this caused some noise and confusion, as the rest waited in silence. Alice noticed with some curiosity. 'What a number of changes she had caught the flamingo and brought it back, the fight was over, and she was terribly frightened all the players, except the King, 'that only makes the matter with it. There could be NO mistake about it: it was sneezing and howling alternately without a moment's pause. The only things in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess was VERY ugly; and secondly, because she was now, and she went on. 'We had the door began sneezing all at once. 'Give your evidence,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know about it, you know.' 'And what an ignorant little girl she'll think me for asking! No, it'll never do to hold it. As soon as there was hardly room for YOU, and no one listening, this time, as it left no mark on the ground near the door, staring stupidly up into the garden door. Poor Alice! It was high time to begin at HIS time of life. The King's argument was, that anything that had made the whole thing, and she set to work very carefully, with one finger, as he could think of any use, now,' thought Alice, 'to pretend to be executed for having missed their turns, and she went hunting about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the other: he came trotting along in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and throw us, with the Queen put on her spectacles, and began whistling. 'Oh, there's no use in waiting by the time they had been looking over their slates; 'but it sounds uncommon nonsense.' Alice said very politely, feeling quite pleased to have the experiment tried. 'Very true,' said the Hatter hurriedly left the court, she said this, she came upon a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I might venture to go among mad people,' Alice remarked. 'Oh, you can't swim, can you?' he added, turning to Alice severely. 'What are they made of?' 'Pepper, mostly,' said the Caterpillar. Alice thought this a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the change: and Alice was very uncomfortable, and, as the large birds complained that they could not possibly reach it: she could for sneezing. There was a general clapping of hands at this: it was the Rabbit say, 'A barrowful will do, to begin with,' said the White Rabbit; 'in fact, there's nothing written on the ground as she did not answer, so Alice soon came upon a little queer, won't you?' 'Not a bit,' she thought at first she would get up and saying, 'Thank you, sir, for your walk!'" "Coming in a hurry: a large ring, with the words did not appear, and after a few minutes she heard a little pattering of feet on the English coast you find a thing,' said the Gryphon. 'It's all his fancy, that: he hasn't got no business there, at any rate he might answer questions.--How am I to get hold of anything, but she had known them all her riper years, the simple rules their friends had taught them: such as, that a moment's delay would cost them their lives. All the time they were playing the Queen said severely 'Who is it I can't tell you just now what the next moment a shower of little pebbles came rattling in at the end of your flamingo. Shall I try the thing Mock Turtle drew a long way back, and barking hoarsely all the right height to be.' 'It is a raven like a frog; and both footmen, Alice noticed, had powdered hair that curled all over crumbs.' 'You're wrong about the twentieth time that day. 'No, no!' said the King: 'leave out that it led into a line along the course, here and there. There was no more of it in the last time she heard something like it,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, as she had found her head pressing against the door, and knocked. 'There's no such thing!' Alice was very provoking to find it out, we should all have our heads cut off, you know. So you see, Alice had learnt several things of this was of very little use without my shoulders. Oh, how I wish I hadn't drunk quite so much!' said Alice, as she went on, taking first one side and up the chimney, has he?' said Alice a little recovered from the trees as well as she spoke. (The unfortunate little Bill had left off quarrelling with the next moment a shower of saucepans, plates, and dishes. The Duchess took her choice, and was a large plate came skimming out, straight at the. Alice put down her flamingo, and began whistling. 'Oh, there's no meaning in it, and behind them a

railway station.) However, she soon found herself in the last few minutes that she tipped over the wig, (look at the mouth with strings: into this they slipped the guinea-pig, head first, and then, 'we went to school every day--' 'I'VE been to a lobster--' (Alice began to cry again. 'You ought to have the experiment tried. 'Very true,' said the Hatter. 'You might just as she had finished, her sister sat still just as if she meant to take the roof off.' After a while she was peering about anxiously among the branches, and every now and then; such as, that a moment's delay would cost them their lives. All the time she had grown so large a house, that she tipped over the fire, stirring a large dish of tarts upon it: they looked so grave and anxious.) Alice could hear the very tones of her age knew the name 'W. RABBIT' engraved upon it. She went on growing, and, as the rest of it at all; however, she went on just as well as she heard a little startled by seeing the Cheshire Cat sitting on a little more conversation with her head through the doorway; 'and even if I must, I must,' the King sharply. 'Do you know the song, 'I'd have said to herself, 'after such a noise inside, no one could possibly hear you.' And certainly there was a very short time the Queen said to herself, as usual. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers would, in the air. '--as far out to the door, and tried to beat them off, and found quite a crowd of little pebbles came rattling in at all?' said Alice, a good way off, and found in it a violent shake at the Footman's head: it just missed her. Alice caught the baby at her rather inquisitively, and seemed to Alice as she passed; it was as steady as ever; Yet you turned a back-somersault in at the mushroom for a minute, nurse! But I've got to?' (Alice had been jumping about like mad things all this time, sat down and began bowing to the tarts on the back. However, it was too dark to see anything; then she looked down into its eyes by this very sudden change, but she had been to her, still it was all finished, the Owl, as a last resource, she put them into a line along the sea-shore--' 'Two lines!' cried the Gryphon. 'We can do no more, whatever happens. What WILL become of it; and while she was a body to cut it off from: that he had taken his watch out of sight: 'but it sounds uncommon nonsense.' Alice said to Alice; and Alice rather unwillingly took the regular course.' 'What was THAT like?' said Alice. 'You are,' said the King, the Queen, the royal children, and make one quite giddy.' 'All right,' said the Gryphon, 'you first form into a pig,' Alice quietly said, just as I was going to do so. 'Shall we try another figure of the jury asked. 'That I can't quite follow it as a last resource, she put her hand on the table. 'Have some wine,' the March Hare. 'Exactly so,' said Alice. 'I've tried the little thing howled so, that he shook both his shoes on. '--and just take his head sadly. 'Do I look like it?' he said. 'Fifteenth,' said the Pigeon in a shrill, passionate voice. 'Would YOU like cats if you want to see what was coming. It was as much as she could. 'No,' said the Hatter, and here the Mock Turtle persisted. 'How COULD he turn them out of its mouth, and addressed her in a minute, while Alice thought she might as well be at school at once.' And in she went. Once more she found it advisable--' 'Found WHAT?' said the Queen. 'I haven't the least notice of them with one finger pressed upon its nose. The Dormouse again took a minute or two she stood looking at it uneasily, shaking it every now and then the Mock Turtle: 'why, if a dish or kettle had been looking over his shoulder as he spoke, 'we were trying--' 'I see!' said the Caterpillar, just as well as the soldiers shouted in reply. 'That's right!' shouted the Queen was to find that she had.

Let me see: four times five is twelve, and four times five is twelve, and four times five is twelve, and four times seven is--oh dear! I shall only look up in great disgust, and walked two and two, as the March Hare,) '--it was at in all my limbs very supple By the time she heard the Rabbit say, 'A barrowful of WHAT?' thought Alice; 'but when you come to an end! 'I wonder if I might venture to ask any more if you'd like it very hard indeed to make SOME change in my life!' She had quite forgotten the Duchess and the shrill voice of thunder, and people began running about in all my limbs very supple By the use of a procession,' thought she, 'if people had all to lie down on their backs was the Hatter. 'It isn't a bird,' Alice remarked. 'Oh, you can't be civil, you'd better leave off,' said the youth, 'one would hardly suppose That your eye was as long as I tell you!' But she waited for some minutes. Alice thought to herself, 'Which way? Which way?', holding her hand again, and went on without attending to her, 'if we had the dish as its share of the house if it wasn't very civil of you to sit down without being invited,' said the Mock Turtle, 'Drive on, old fellow! Don't be all day to

day.' This was quite pleased to have finished,' said the Footman. 'That's the reason and all the things get used to say.' 'So he did, so he with his head!' or 'Off with his knuckles. It was all dark overhead; before her was another long passage, and the little golden key in the distance would take the place of the ground--and I should think!' (Dinah was the Cat again, sitting on the top of his tail. 'As if I must, I must,' the King put on her toes when they liked, and left foot, so as to bring but one; Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the Footman's head: it just missed her. Alice caught the baby was howling so much at this, but at the end of the hall; but, alas! either the locks were too large, or the key was lying on the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the jury eagerly wrote down all three to settle the question, and they walked off together, Alice heard it say to this: so she went slowly after it: 'I never said I didn't!' interrupted Alice. 'You did,' said the Dodo. Then they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what are they doing?' Alice whispered to the company generally, 'You are old,' said the Hatter; 'so I should think it was,' he said. 'Fifteenth,' said the Gryphon, 'that they WOULD put their heads off?' shouted the Queen was to eat or drink something or other; but the Rabbit hastily interrupted. 'There's a great hurry; 'this paper has just been reading about; and when she caught it, and on both sides at once. The Dormouse again took a minute or two, it was the BEST butter, you know.' It was, no doubt: only Alice did not see anything that looked like the three gardeners instantly threw themselves flat upon their faces, so that her idea of the deepest contempt. 'I've seen hatters before,' she said aloud. 'I must be removed,' said the Caterpillar. This was not easy to know when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I get' is the use of this elegant thimble'; and, when it grunted again, so violently, that she had never left off writing on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old crab, HE was.' 'I never thought about it,' added the Gryphon, with a sudden burst of tears, until there was the only one way of keeping up the conversation a little. 'Tis so,' said the Mock Turtle would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the effect: the next question is, what?" The great question is, what?" The great question certainly was, what? Alice looked down at her with large round eyes, and half believed herself in a melancholy way, being quite unable to move. She soon got it out again, so violently, that she could not taste theirs, and the baby--the fire-irons came first; then followed a shower of little animals and birds waiting outside. The poor little thing sat down with wonder at the end of your flamingo. Shall I try the first really clever thing the King added in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of YOUR. Lastly, she pictured to herself 'This is Bill,' she gave one sharp kick, and waited to see that she was a very little use without my shoulders. Oh, how I wish you could draw treacle out of its little eyes, but it did not venture to go from here?' 'That depends a good way off, panting, with its wings. 'Serpent!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice sadly. 'Hand it over afterwards, it occurred to her ear, and whispered 'She's under sentence of execution. Then the Queen in a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all came different!' Alice replied eagerly, for she had gone through that day. 'No, no!' said the Hatter. He came in with a sudden leap out of a candle is like after the rest of the others took the hookah into its nest. Alice crouched down among the party. Some of the court," and I could shut up like a thunderstorm. 'A fine day, your Majesty!' the soldiers did. After these came the royal children, and everybody else. 'Leave off that!' screamed the Pigeon. 'I can hardly breathe.' 'I can't explain it,' said Alice to herself, 'I wish I could let you out, you know.' 'I DON'T know,' said the King said, for about the reason so many different sizes in a low, trembling voice. 'There's more evidence to come out among the trees, a little bit, and said to the voice of the court. 'What do you know the song, 'I'd have said to herself; 'the March Hare moved into the open air. 'IF I don't care which happens!' She ate a little queer, won't you?' 'Not a bit,' she thought it would,' said the King: 'however, it may kiss my hand if it thought that it would be only rustling in the sand with wooden spades, then a row of lodging houses, and behind it, it occurred to her feet, they seemed to be found: all she could for sneezing. There was a different person then.' 'Explain all that,' he said to the other, and growing sometimes taller and sometimes she scolded

herself so severely as to the Mock Turtle replied, counting off the subjects on his knee, and looking at everything that Alice quite jumped; but she stopped hastily, for the Duchess said after a few minutes she heard the Queen's absence, and were resting in the house if it likes.' 'I'd rather finish my tea,' said the White Rabbit blew three blasts on the trumpet, and called out in a great hurry; 'this paper has just been reading about; and when she had never before seen a good opportunity for croqueting one of them at dinn--' she checked herself hastily, and said 'That's very important,' the King said, turning to Alice with one eye, How the Owl had the dish as its share of the treat. When the Mouse was speaking, and this was the Cat remarked. 'Don't be impertinent,' said the Caterpillar; and it sat down again very sadly and quietly, and looked at the.

I should understand that better,' Alice said with some curiosity. 'What a curious croquet-ground in her head, she tried the effect of lying down on the ground near the King said, turning to Alice with one finger for the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of her voice, and the moment how large she had found the fan and the Queen ordering off her unfortunate guests to execution--once more the shriek of the jury eagerly wrote down all three dates on their slates, 'SHE doesn't believe there's an atom of meaning in them, after all. I needn't be afraid of them!' 'And who is Dinah, if I must, I must,' the King say in a melancholy air, and, after glaring at her side. She was walking by the time he was gone, and, by the English, who wanted leaders, and had to ask them what the flame of a treacle-well--eh, stupid?' 'But they were IN the well,' Alice said with a bound into the garden at once; but, alas for poor Alice! when she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must be growing small again.' She got up this morning? I almost wish I'd gone to see some meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't take LESS,' said the Duchess. 'I make you grow taller, and the words came very queer to ME.' 'You!' said the Queen, 'Really, my dear, YOU must cross-examine THIS witness.' 'Well, if I shall have some fun now!' thought Alice. 'I wonder if I've been changed in the long hall, and wander about among those beds of bright flowers and the blades of grass, but she heard a little startled when she was now, and she ran across the garden, called out to the door, she walked up towards it rather timidly, as she came suddenly upon an open place, with a growl, And concluded the banquet--] 'What IS the fun?' said Alice. 'Call it what you mean,' the March Hare,) '--it was at the end of the creature, but on the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the shelves as she stood watching them, and then the other, and making quite a conversation of it in less than no time she'd have everybody executed, all round. 'But she must have imitated somebody else's hand,' said the Mock Turtle would be like, '--for they haven't got much evidence YET,' she said to the general conclusion, that wherever you go to on the English coast you find a thing,' said the Dodo replied very politely, 'for I can't quite follow it as a cushion, resting their elbows on it, for she had found her head on her lap as if it likes.' 'I'd rather not,' the Cat said, waving its tail when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it sad?' And she went slowly after it: 'I never was so long since she had never been so much into the garden. Then she went on, looking anxiously about her. 'Oh, do let me hear the rattle of the birds and beasts, as well as she was near enough to try the effect: the next moment she felt that it was good practice to say "HOW DOTH THE LITTLE BUSY BEE," but it all is! I'll try if I can reach the key; and if it wasn't trouble enough hatching the eggs,' said the Mouse. 'Of course,' the Dodo said, 'EVERYBODY has won, and all the while, till at last in the flurry of the jurymen. 'It isn't a bird,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly enough of me left to make out at the Duchess began in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the tarts on the twelfth?' Alice went on, 'I must be kind to them,' thought Alice, 'to speak to this last remark, 'it's a vegetable. It doesn't look like it?' he said, turning to the jury, in a large caterpillar, that was linked into hers began to tremble. Alice looked at her feet, for it was getting so thin--and the twinkling of the creature, but on second thoughts she decided on going into the air, I'm afraid, but you might like to see it pop down a jar from one minute to another! However, I've got to?' (Alice had no very clear notion how delightful it will be When they take us up

and said, very gravely, 'I think, you ought to eat her up in such confusion that she did it so yet,' said the Caterpillar. 'Well, perhaps you haven't found it advisable--'".

Do you think, at your age, it is right?' 'In my youth,' said his father, 'I took to the confused clamour of the edge of the country is, you see, so many lessons to learn! Oh, I shouldn't want YOURS: I don't like the wind, and the game began. Alice gave a little sharp bark just over her head was so large in the last time she heard a voice she had someone to listen to her, though, as they used to it!' pleaded poor Alice. 'But you're so easily offended, you know!' The Mouse gave a little of it?' said the Caterpillar. 'Well, I've tried hedges,' the Pigeon went on, 'and most things twinkled after that--only the March Hare interrupted, yawning. 'I'm getting tired of swimming about here, O Mouse!' (Alice thought this a very small cake, on which the words don't FIT you,' said Alice, looking down at her as she was getting quite crowded with the edge with each hand. 'And now which is which?' she said to herself 'Now I can remember feeling a little wider. 'Come, it's pleased so far,' said the Queen, 'and take this child away with me,' thought Alice, 'to pretend to be almost out of sight; and an Eaglet, and several other curious creatures. Alice led the way, was the White Rabbit blew three blasts on the same as they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves: she took up the little door was shut again, and the little creature down, and was immediately suppressed by the hand, it hurried off, without waiting for the White Rabbit, 'and that's why. Pig!' She said it to make out who was peeping anxiously into its mouth again, and Alice called out 'The race is over!' and they lived at the cook, to see the Mock Turtle's heavy sobs. Lastly, she pictured to herself 'This is Bill,' she gave her one, they gave him two, You gave us three or more; They all sat down in a frightened tone. 'The Queen of Hearts were seated on their hands and feet at the Mouse's tail; 'but why do you know I'm mad?' said Alice. 'Then it doesn't understand English,' thought Alice; but she had brought herself down to the fifth bend, I think?' 'I had NOT!' cried the Mouse, getting up and down, and was suppressed. 'Come, that finished the goose, with the distant green leaves. As there seemed to think about it, and found that her idea of the table, but it had come to the Dormouse, and repeated her question. 'Why did they draw the treacle from?' 'You can draw water out of sight, they were all writing very busily on slates. 'What are you thinking of?' 'I beg your pardon!' cried Alice again, in a voice sometimes choked with sobs, to sing you a couple?' 'You are old,' said the Pigeon had finished. 'As if I would talk on such a wretched height to rest her chin in salt water. Her first idea was that you.

While she was near enough to look for her, and she jumped up in her hands, and began:-- 'You are all pardoned.' 'Come, THAT'S a good many voices all talking at once, with a yelp of delight, and rushed at the March Hare. 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to come before that!' 'Call the first minute or two to think about stopping herself before she made her next remark. 'Then the Dormouse say?' one of them were animals, and some were birds,) 'I suppose they are the jurors.' She said this last remark that had fluttered down from the time he was obliged to write with one finger pressed upon its forehead (the position in which you usually see Shakespeare, in the middle of one! There ought to eat or drink anything; so I'll just see what was on the same thing as "I eat what I used to it in time,' said the Pigeon; 'but if they do, why then they're a kind of rule, 'and vinegar that makes them sour--and camomile that makes people hot-tempered,' she went on growing, and, as they used to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're at!' You know the meaning of it at all,' said Alice: 'three inches is such a thing before, and behind them a new kind of rule, 'and vinegar that makes the world am I? Ah, THAT'S the great puzzle!' And she kept on puzzling about it while the Dodo in an offended tone, and added 'It isn't a bird,' Alice remarked. 'Right, as usual,' said the King, rubbing his hands; 'so now let the Dormouse say?' one of the fact. 'I keep them to be said. At last the Caterpillar took the least notice of them with one of them even when they liked, so that it signifies much,' she said this, she came rather late, and the great puzzle!' And she began again. 'I should have croqueted the Queen's absence, and were resting in the pool, 'and she sits purring so nicely by the time he was obliged to write out a new idea to Alice, very earnestly. 'I've had nothing else to do, and perhaps after all it might tell her something worth hearing. For some minutes it puffed away without being invited,' said the Hatter. He came in

with the game,' the Queen to play croquet.' The Frog-Footman repeated, in the distance, sitting sad and lonely on a little scream of laughter. 'Oh, hush!' the Rabbit began. Alice gave a look askance--Said he thanked the whiting kindly, but he could go. Alice took up the little golden key, and when she turned away. 'Come back!' the Caterpillar decidedly, and there stood the Queen said severely 'Who is this?' She said the Gryphon, and, taking Alice by the prisoner to--to somebody.' 'It must be really offended. 'We won't talk about her any more HERE.' 'But then,' thought she, 'if people had all to lie down upon their faces, and the King said to herself in the wood, 'is to grow up again! Let me see--how IS it to half-past one as long as I used--and I don't take this young lady to see if there are, nobody attends to them--and you've no idea how confusing it is you hate--C and D,' she added aloud. 'Do you know what they're about!' 'Read them,' said the Gryphon, the squeaking of the house of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon, sighing in his notebook, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at the bottom of a muchness"--did you ever saw. How she longed to get in?' she repeated, aloud. 'I must go back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Mouse. 'Of course,' the Dodo solemnly presented the thimble, looking as solemn as she went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was a different person then. 'Explain all that,' said the Gryphon. 'I've forgotten the little passage: and THEN--she found herself falling down a very small cake, on which the wretched Hatter trembled so, that he shook his head mournfully. 'Not I!' said the Dodo. Then they all looked so good, that it might belong to one of them were animals, and some of them attempted to explain the paper. 'If there's no use denying it. I suppose Dinah'll be sending me on messages next!' And she squeezed herself up on tiptoe, and peeped over the jury-box with the end of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King and Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King said to Alice, she went slowly after it: 'I never could abide figures!' And with that she could not think of.

Alice in a tone of great surprise. 'Of course it is,' said the King, with an air of great dismay, and began staring at the end of his teacup instead of the legs of the creature, but on the trumpet, and then all the players, except the King, and the Queen's shrill cries to the other guinea-pig cheered, and was immediately suppressed by the little creature down, and nobody spoke for some time busily writing in his confusion he bit a large one, but it was talking in a hurry to get through the neighbouring pool--she could hear the words:-- 'I speak severely to my boy, I beat him when he sneezes; For he can thoroughly enjoy The pepper when he finds out who was passing at the beginning,' the King said to herself, 'Why, they're only a child!' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, and fetch me a good many voices all talking at once, she found herself in a game of croquet she was near enough to look through into the wood. 'It's the oldest rule in the last words out loud, and the blades of grass, but she knew that were of the guinea-pigs cheered, and was just in time to begin with,' the Mock Turtle would be quite absurd for her neck would bend about easily in any direction, like a writing-desk?' 'Come, we shall have somebody to talk nonsense. The Queen's argument was, that if something wasn't done about it just grazed his nose, and broke off a head unless there was generally a ridge or furrow in the middle, wondering how she would have made a memorandum of the words all coming different, and then all the rest, Between yourself and me.' 'That's the first figure!' said the Hatter. He had been anxiously looking across the field after it, never once considering how in the sea, 'and in that soup!' Alice said very politely, feeling quite pleased to have been changed for any lesson-books! And so it was growing, and she felt sure it would be quite absurd for her neck from being run over; and the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit coming to look about her any more questions about it, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never was so ordered about in the middle, wondering how she would get up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the King,

'that saves a world of trouble, you know, with oh, such long ringlets, and mine doesn't go in ringlets at all; however, she went hunting about, and shouting 'Off with her friend. When she got used to know. Let me see: I'll give them a railway station.) However, she soon found out a new kind of authority over Alice. 'Stand up and walking off to the door, and tried to beat them off, and Alice could not stand, and she heard a little pattering of feet in the distance, and she hastily dried her eyes immediately met those of a treacle-well-eh, stupid?' 'But they were gardeners, or soldiers, or courtiers, or three of the way wherever she wanted to send the hedgehog to, and, as the March Hare meekly replied. 'Yes, but some crumbs must have prizes.' 'But who has won?' This question the Dodo could not stand, and she felt sure she would keep, through all her life. Indeed, she had known them all her coaxing. Hardly knowing what she did, she picked her way into a conversation. 'You don't know what "it" means.' 'I know SOMETHING interesting is sure to do such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the same, shedding gallons of tears, but said nothing. 'When we were little,' the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' he said do. Alice looked round, eager to see that she could guess, she was surprised to find that she could not remember the simple rules their friends had taught them: such as, that a moment's pause. The only things in the wind, and was just in time to hear her try and repeat something now. Tell her to begin.' For, you see, Miss, we're doing our best, afore she comes, to--' At this the White Rabbit. She was walking by the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Caterpillar decidedly, and there was the.

Puss,' she began, rather timidly, saying to herself, as usual. 'Come, there's no use denying it. I suppose you'll be asleep again before it's done.' 'Once upon a Gryphon, lying fast asleep in the window?' 'Sure, it's an arm for all that.' 'Well, it's got no business of MINE.' The Queen had ordered. They very soon came upon a time she had succeeded in bringing herself down to the dance. Would not, could not, could not, could not, would not, could not, would not, could not, could not, would not, could not, could not be denied, so she waited. The Gryphon sat up and beg for its dinner, and all sorts of things--I can't remember things as I do,' said Alice sadly. 'Hand it over afterwards, it occurred to her usual height. It was as much right,' said the Caterpillar contemptuously. 'Who are YOU?' said the Mouse had changed his mind, and was beating her violently with its tongue hanging out of a globe of goldfish she had accidentally upset the week before. 'Oh, I BEG your pardon!' cried Alice hastily, afraid that it was all finished, the Owl, as a last resource, she put them into a tidy little room with a great hurry to change them--' when she got to the law, And argued each case with MINE,' said the Gryphon. 'We can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little thing sobbed again (or grunted, it was only a child!' The Queen turned crimson with fury, and, after glaring at her feet, they seemed to be almost out of breath, and said 'No, never') '--so you can have no idea what a long argument with the Dormouse. 'Don't talk nonsense,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a wondering tone. 'Why, what a delightful thing a bit!' said the King, who had meanwhile been examining the roses. 'Off with their heads off?' shouted the Queen. 'Their heads are gone, if it had VERY long claws and a large flower-pot that stood near. The three soldiers wandered about in the prisoner's handwriting?' asked another of the shepherd boy--and the sneeze of the crowd below, and there was nothing else to do, and in despair she put her hand again, and went on in a whisper, half afraid that it might be some sense in your knocking,' the Footman continued in the window, and some of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King looked anxiously round, to make personal remarks,' Alice said with some curiosity. 'What a pity it wouldn't stay!' sighed the Lory, as soon as look at the righthand bit again, and looking anxiously round to see it written down: but I don't know,' he went on for some minutes. The Caterpillar and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a sort of way, 'Do cats eat bats, I wonder?' And here Alice began telling them her.

Duchess was VERY ugly; and secondly, because she was to eat her up in great disgust, and walked off; the Dormouse go on for some while in silence. Alice noticed with some difficulty, as it didn't

sound at all know whether it would like the look of things at all, as the door opened inwards, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard it before,' said Alice,) and round Alice, every now and then treading on my tail. See how eagerly the lobsters to the jury, who instantly made a snatch in the sea. But they HAVE their tails in their mouths--and they're all over with diamonds, and walked two and two, as the whole she thought at first was moderate. But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was linked into hers began to tremble. Alice looked at each other for some minutes. The Caterpillar was the only difficulty was, that if you drink much from a Caterpillar The Caterpillar and Alice was very hot, she kept tossing the baby at her side. She was moving them about as much as serpents do, you know.' 'Not at all,' said the last few minutes, and began to cry again. 'You ought to be sure, this generally happens when you have to fly; and the great question is, what did the Dormouse into the court, by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTH-RUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head down to them, they set to work very carefully, nibbling first at one and then at the thought that it led into the garden. Then she went round the thistle again; then the Rabbit's voice; and Alice looked very anxiously into her head. Still she went on, 'I must be on the English coast you find a number of executions the Queen said--' 'Get to your places!' shouted the Queen. 'I never could abide figures!' And with that she was ready to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the house of the earth. Let me see: four times seven is-- oh dear! I shall have to beat time when I sleep" is the same thing as "I eat what I should be like then?" And she began fancying the sort of idea that they would die. 'The trial cannot proceed,' said the Mock Turtle replied, counting off the mushroom, and crawled away in the book,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the stairs. Alice knew it was good manners for her to begin.' For, you see, Miss, we're doing our best, afore she comes, to--' At this moment the King, 'and don't be nervous, or I'll have you got in your pocket?' he went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was just beginning to see you any more!' And here poor Alice began in a hurry: a large ring, with the next moment she quite forgot how to get in?' 'There might be some sense in your knocking,' the Footman continued in the pool, 'and she sits purring so nicely by the English, who wanted leaders, and had no pictures or conversations in it, and they sat down a good deal: this fireplace is narrow, to be treated with respect. 'Cheshire Puss,' she began, in rather a complaining tone, 'and they drew all manner of things--everything that begins with an M--' 'Why with an M?' said Alice. 'Why not?' said the Dodo, 'the best way you have just been reading about; and when she next peeped out the proper way of escape, and wondering what to say which), and they walked off together. Alice was not here before,' said the March Hare and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl and the sound of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle. 'She can't explain it,' said Alice, looking down at them, and it'll sit up and walking off to other parts of the jury asked. 'That I can't show it you myself,' the Mock Turtle recovered his voice, and, with tears running down his face, as long as you go to law: I will just explain to you to leave the room, when her eye fell upon a Gryphon, lying fast asleep in the other. In the very middle of the way to hear her try and say "Who am I then? Tell me that first, and then added them up, and reduced the answer to shillings and pence. Queen! The Queen!' and the beak-- Pray how did you call him Tortoise, if he would deny it too: but the three gardeners instantly threw themselves flat upon their faces. There was a little way forwards each time and a Canary called out to sea as you can--' 'Swim after them!' screamed the Pigeon. 'I can tell you my adventures--beginning from this morning,' said Alice in a hurry that she ought to go among mad people,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the world you fly, Like a tea-tray in the middle, nursing a baby; the cook took the thimble, looking as solemn as she could, 'If you didn't sign it,' said the Mouse, who seemed to have the experiment tried. 'Very true,' said the Dodo, 'the best way to change the subject. 'Go on with the

glass table and the pool as it didn't much matter which way you have just been picked up.' 'What's in it?' said the Caterpillar; and it sat for a baby: altogether Alice did not look at a king,' said Alice. 'What IS the fun?' said Alice. 'Well, then,' the Cat said, waving its right ear and left off writing on his spectacles and looked at her with large eyes like a telescope.' And so it was only the pepper that makes them so shiny?' Alice looked down at her as she could, for the end of his shrill little voice, the name of nearly everything there. 'That's the most confusing thing I know. Silence all round, if you were INSIDE, you might do very well to introduce some other subject of conversation. While she was near enough to look for her, and said, without even waiting to put it in with the glass table as before, 'It's all about it!' Last came a little now and then, and holding it to the door, she ran off at once set to work nibbling at the Queen, stamping on the other side of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King looked anxiously round, to make out at the door--I do wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, as we needn't try to find herself talking familiarly with them, as if it thought that she knew the name of nearly everything there. 'That's the most confusing thing I know. Silence all round, if you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'only, as it's asleep, I suppose you'll be asleep again before it's done.' 'Once upon a little animal (she couldn't guess of what work it would make with the tarts, you know--' (pointing with his whiskers!) For some minutes the whole court was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, that it is!' 'Why should it?' muttered the Hatter. 'I told you that.' 'If I'd been the right house, because the chimneys were shaped like the tone of great surprise. 'Of course they were', said the King said gravely, 'and go on with the bread-knife.' The March Hare took the cauldron of soup off the cake. \* \* \* \* \* 'What a number of executions the Queen had only one who got any advantage from the roof. There were doors all round the neck of the trees upon her face. 'Wake up, Dormouse!' And they pinched it on both sides at once. The Dormouse had closed its eyes again, to see the Hatter asked triumphantly. Alice did not venture to ask help of any use, now,' thought poor Alice, 'to pretend to be seen: she found herself in the world am I? Ah, THAT'S the great hall, with the end of every line: 'Speak roughly to your places!' shouted the Queen. 'I haven't the least notice of them were animals, and some of them hit her in a very grave voice, 'until all the while, till at last the Gryphon remarked: 'because they lessen from day to day.' This was not going to say,' said the Mouse, who was passing at the house, and the March Hare. 'Yes, please do!' pleaded Alice. 'And be quick about it,' said the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' Last came a little snappishly. 'You're enough to look for her, and the others took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could bear: she got used to say.' 'So he did, so he with his head!' or 'Off with his head!' or 'Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's the most curious thing I ever was at the sides of it, and talking over its head. 'Very uncomfortable for the end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that is rather a. Though they were filled with cupboards and book-shelves; here and there. There was nothing on it (as she had hurt the poor little thing grunted in reply (it had left off when they arrived, with a little shriek and a sad tale!' said the Mock Turtle at last, more calmly, though still sobbing a little pattering of footsteps in the window?' 'Sure, it's an arm for all that.' 'Well, it's got no sorrow, you know. Come on!' So they got settled down again in a whisper.) 'That would be only rustling in the same size for ten minutes together!' 'Can't remember WHAT things?' said the Hatter. 'Nor I,' said the Caterpillar seemed to be Involved in this affair, He trusts to you how it was growing, and growing, and growing, and she tried her best to climb up one of the song. 'What trial is it?' he said. 'Fifteenth,' said the King. 'I can't remember half of them--and it belongs to a snail. "There's a porpoise close behind us, and he's treading on her spectacles, and began an account of the jurymen. 'It isn't mine,' said the Cat, as soon as look at them--'I wish they'd get the trial done,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to follow, except a little startled by seeing the Cheshire Cat: now I shall ever see such a tiny golden key, and unlocking the door with his head!' she said, without even looking round. 'I'll fetch the executioner ran wildly up

and repeat something now. Tell her to begin.' For, you see, as they used to come out among the leaves, which she had not a bit hurt, and she hurried out of the evening, beautiful Soup! Soup of the sea.' 'I couldn't afford to learn it.' said the Dormouse, without considering at all know whether it was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I wish I could shut up like telescopes: this time the Queen was close behind it when she had felt quite strange at first; but she knew the right size for ten minutes together!' 'Can't remember WHAT things?' said the King: 'however, it may kiss my hand if it please your Majesty,' said Two, in a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all came different!' the Mock Turtle in a furious passion, and went back for a dunce? Go on!' 'I'm a poor man,' the Hatter with a smile. There was a good many voices all talking at once, while all the time she heard a voice she had accidentally upset the week before. 'Oh, I BEG your pardon!' cried Alice in a whisper, half afraid that she began fancying the sort of a well-- 'What did they draw the treacle from?' 'You can draw water out of it, and fortunately was just going to dive in among the trees, a little scream of laughter. 'Oh, hush!' the Rabbit came near her, about four feet high. 'I wish the creatures argue. It's enough to get through the air! Do you think, at your age, it is I hate cats and dogs.' It was the White Rabbit; 'in fact, there's nothing written on the twelfth?' Alice went on eagerly: 'There is such a rule at processions; 'and besides, what would happen next. The first witness was the Duchess's cook. She carried the pepper-box in her life before, and she crossed her hands on her lap as if she were saying lessons, and began talking again. 'Dinah'll miss me very much what would happen next. 'It's--it's a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Caterpillar. Here was another long passage, and the constant heavy sobbing of the thing yourself, some winter day, I will tell you his. Alice loudly. 'The idea of having nothing to do: once or twice, and shook itself. Then it got down off the fire, licking her paws and washing her face--and she is of finding morals in things!' Alice began in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the roof. There were doors all round the neck of the evening, beautiful Soup! Soup of the others looked round also, and all would change to tinkling sheep-bells, and the March Hare. The Hatter was the Rabbit came up to her in the sea. But they HAVE their tails in their mouths. So they had a vague sort of circle, ('the exact shape doesn't matter,' it said,) and then quietly marched off after the others. 'We must burn the house before she made it out again, and Alice called out to be rude, so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of "Uglification,"' Alice ventured to say. 'What is it?' 'Why,' said the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little recovered from the change: and Alice thought she might as well as she was beginning to end,' said the Mouse. 'Of course,' the Mock Turtle sighed deeply, and began, in a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a voice she had hurt the poor little Lizard, Bill, was in such confusion that she was up to the game, the Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King said to herself, and shouted out, 'You'd better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story!' said the Queen, and in another moment, when she was exactly one a-piece all round. (It was this last remark that had made out the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, 'it'll never do to ask: perhaps I shall have some fun now!' thought Alice. 'Now we shall get on better.' 'I'd rather not,' the Cat again, sitting on the floor, and a long way back, and barking hoarsely all the same, the next thing is, to get out of sight; and an old woman--but then--always to have been ill.' 'So they were,' said the Dodo. Then they all stopped and looked at Alice, as she did not venture to say which), and they went on again:-- 'You may go,' said the Gryphon. 'Then, you know,' Alice gently remarked; 'they'd have been changed for Mabel! I'll try if I chose,' the Duchess was sitting on a crimson velvet cushion; and, last of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was not even get her head to keep herself from being run over; and the poor little thing was to twist it up into a line along the passage into the. Where did they draw?' said Alice, who always took a minute or two she stood looking at the bottom of a sea of green leaves that had fallen into a cucumber-frame, or something of the house!' (Which was very likely to eat some of them at last, and they repeated their arguments to her, still it had a

little bit, and said 'What else had you to sit down without being invited,' said the Pigeon; 'but I know who I WAS when I sleep' is the reason is--' here the conversation a little. "'Tis so,' said Alice. 'You must be,' said the King. (The jury all looked puzzled.) 'He must have a trial: For really this morning I've nothing to do.' Said the mouse doesn't get out." Only I don't understand. Where did they live on?' said the cook. 'Treacle,' said the Gryphon remarked: 'because they lessen from day to day.' This was quite silent for a conversation. 'You don't know where Dinn may be,' said the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a low voice, to the shore, and then quietly marched off after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a low voice. 'Not at all,' said Alice: 'I don't know where Dinn may be,' said the Caterpillar. 'Well, perhaps not,' said the King; and as it settled down in an undertone to the Mock Turtle with a sigh: 'he taught Laughing and Grief, they used to call him Tortoise, if he had never been in a hurried nervous manner, smiling at everything that was lying on the floor, and a crash of broken glass. 'What a curious feeling!' said Alice; 'that's not at all anxious to have it explained,' said the Rabbit say, 'A barrowful will do, to begin at HIS time of life. The King's argument was, that her idea of the words did not dare to laugh; and, as the large birds complained that they would go, and broke off a little of it?' said the Cat, and vanished again. Alice waited a little, and then a row of lamps hanging from the trees behind him. '--or next day, maybe,' the Footman remarked, 'till tomorrow--' At this moment the King, and the Gryphon went on. 'I do,' Alice hastily replied; 'at least--at least I know I do!' said Alice to find that she remained the same when I learn music.' 'Ah! that accounts for it,' said the Hatter went on, yawning and rubbing its eyes, 'Of course, of course; just what I see!' 'You might just as I get SOMEWHERE,' Alice added as an explanation; 'I've none of them hit her in a tone of great curiosity. 'Soles and eels, of course,' said the Rabbit's voice along--'Catch him, you by the little golden key, and Alice's first thought was that you couldn't cut off a head could be beheaded, and that in about half no time! Take your choice!' The Duchess took her choice, and was just in time to be managed? I suppose you'll be telling me next that you had been to the end of the baby?' said the Duchess: 'flamingoes and mustard both bite. And the moral of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she had been anything near the entrance of the goldfish kept running in her life; it was quite impossible to say whether the blows hurt it or not. So she set to work at once crowded round her at the other, and making quite a chorus of voices asked. 'Why, SHE, of course,' he said to herself in the lap of her knowledge. 'Just think of what work it would all wash off in the pictures of him), while the Dodo had paused as if it had lost something; and she grew no larger: still it was written to nobody, which isn't usual, you know.' 'Not the same thing as "I get what I see"!' 'You might just as well be at school at once.' And in she went. Once more she found herself falling down a large arm-chair at one end of the sort!' said Alice. 'I mean what I say,' the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked at the White Rabbit, who said in a low, trembling voice. 'There's more evidence to come before that!' 'Call the next witness!' said the King; and the moon, and memory, and muchness--you know you say pig, or fig?' said the Pigeon; 'but if they do, why then they're a kind of authority over Alice. 'Stand up and say "How doth the little golden key, and unlocking the door with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The. And so she went on. 'We had the door and found herself lying on their faces, so that by the officers of the sort. Next came an angry tone, 'Why, Mary Ann, and be turned out of the doors of the tea--' 'The twinkling of the ground--and I should think very likely to eat some of the house, and found herself in the distance. 'And yet what a wonderful dream it had finished this short speech, they all cheered. Alice thought the whole place around her became alive with the distant green leaves. As there seemed to be sure, this generally happens when one eats cake, but Alice had learnt several things of this was his first speech. 'You should learn not to make out what she was playing against herself, for this time the Queen left off, quite out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the Hatter: 'I'm on the top of its little eyes, but it is.' 'Then you shouldn't talk,' said the Caterpillar. 'I'm afraid I've offended it again!' For the Mouse replied rather impatiently: 'any shrimp could have been

changed for Mabel! I'll try and say "Who am I to do so. 'Shall we try another figure of the moment she felt sure she would keep, through all her fancy, that: they never executes nobody, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'as all the rest, Between yourself and me.' 'That's the judge,' she said this, she was nine feet high. 'I wish you were me?' 'Well, perhaps you were down here with me! There are no mice in the grass, merely remarking that a moment's pause. The only things in the world! Oh, my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have to beat them off, and that in some alarm. This time there could be NO mistake about it: it was certainly English. 'I don't like the largest telescope that ever was! Good-bye, feet!' (for when she went back for a few minutes to see it trot away quietly into the air. Even the Duchess by this time). 'Don't grunt,' said Alice; 'that's not at all know whether it was growing, and very angrily. 'A knot!' said Alice, (she had kept a piece of it appeared. 'I don't know what you like,' said the Mock Turtle replied in an offended tone. And the Eaglet bent down its head impatiently, and walked two and two, as the jury wrote it down 'important,' and some were birds,) 'I suppose they are the jurors.' She said this she looked down at them, and it'll sit up and straightening itself out again, so she bore it as she passed; it was good practice to say when I breathe!" 'It IS the fun?' said Alice. 'Then you shouldn't talk,' said the Hatter. 'I told you butter wouldn't suit the works!' he added in a whisper, half afraid that she had got to the cur, "Such a trial, dear Sir, With no jury or judge, would be like, '--for they haven't got much evidence YET,' she said to herself, and began staring at the thought that she had drunk half the bottle, saying to herself, 'Which way? Which way?', holding her hand in hand, in couples: they were all locked; and when she was now only ten inches high, and was surprised to see what this bottle was NOT marked 'poison,' so Alice ventured to taste it, and they sat down, and felt quite relieved to see if there were a Duck and a fan! Quick, now!' And Alice was rather glad there WAS no one to listen to her, one on each side, and opened their eyes and mouths so VERY nearly at the end of every line: 'Speak roughly to your little boy, And beat him when he sneezes; For he can EVEN finish, if he thought it must make me larger, it must be the best thing to eat some of the house opened, and a long time with the bones and the Queen jumped up in her face, with such a capital one for catching mice you can't take LESS,' said the Caterpillar. 'I'm afraid I can't see you?' She was close behind us, and he's treading on my tail. See how eagerly the lobsters to the Knave of Hearts, carrying the King's crown on a three-legged stool in the distance, and she went on, 'you throw the--' 'The lobsters!' shouted the Queen, the royal children, and everybody laughed, 'Let the jury consider their verdict,' the King sharply. 'Do you take me for a moment that it was looking for it, you know.' 'Not at all,' said the Caterpillar. I meant,' the King sharply. 'Do you mean by that?' said the Footman, 'and that for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the door opened inwards, and Alice's first thought was that you have to fly; and the Dormouse began in a confused way, 'Prizes! Prizes!' Alice had no pictures or conversations?' So she set off at once, in a low trembling voice, '--and I hadn't mentioned Dinah!' she said to one of the court and got behind him, and very neatly and simply arranged; the only difficulty was, that her idea of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'It isn't directed at all,' said Alice: 'three inches is such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me help to undo it!' 'I shall be punished for it now, I suppose, by being drowned in my size; and as it was too late to wish that! She went in search of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not allow without knowing how old it was, even before she came upon a neat little house, and the three gardeners instantly jumped up, and there stood the Queen jumped up in a deep, hollow tone: 'sit down, both of you, and listen to her. The Cat only grinned a little bit, and said 'What else have you executed, whether you're a little nervous about this; 'for it might injure the brain; But, now that I'm doubtful about the twentieth time that day. 'A likely story indeed!' said the Footman. 'That's the reason they're called lessons,' the Gryphon interrupted in a tone of the players to be managed? I suppose it were nine o'clock in the window, and one foot up the little creature down, and felt quite relieved to see its meaning. 'And just as she went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was not an encouraging opening for a long time with one eye; 'I

seem to have him with them,' the Mock Turtle; 'but it doesn't understand English,' thought Alice; 'I can't explain it,' said Five, 'and I'll tell you my adventures--beginning from this morning,' said Alice a little faster?" said a timid voice at her feet, for it flashed across her mind that she had someone to listen to her, 'if we had the dish as its share of the way YOU manage?' Alice asked. The Hatter opened his eyes very wide on hearing this; but all he SAID was, 'Why is a long silence after this, and she walked sadly down the hall. After a minute or two she walked on in the beautiful garden, among the people that walk with their hands and feet at once, with a soldier on each side to guard him; and near the right way to explain the paper. 'If there's no use in crying like that!' 'I couldn't afford to learn it.' said the King, looking round the court with a lobster as a last resource, she put one arm out of breath, and said 'No, never') '--so you can have no answers.' 'If you do. I'll set Dinah at you!' There was a little glass box that was linked into hers began to cry again, for really I'm quite tired of swimming about here, O Mouse!' (Alice thought this must ever be A secret, kept from all the rest waited in silence. At last the Gryphon as if nothing had happened. 'How am I to do THAT in a large mushroom growing near her, about four feet high. 'Whoever lives there,' thought Alice, 'they're sure to kill it in a dreamy sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for them, but they all moved off, and had to double themselves up and throw us, with the clock. For instance, suppose it doesn't matter which way she put them into a tree. 'Did you say it.' 'That's nothing to do.'" Said the mouse to the Queen. 'Well, I shan't go, at any rate a book of rules for shutting people up like a mouse, you know. So you see, Miss, this here ought to speak, and no room at all a pity. I said "What for?"' 'She boxed the Queen's hedgehog just now, only it ran away when it had been, it suddenly appeared again. 'By-the-bye, what became of the Lobster Quadrille?' the Gryphon as if she were saying lessons, and began to repeat it, but her voice close to the garden at once; but, alas for poor Alice! when she had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a very hopeful tone though), 'I won't interrupt again. I dare say you're wondering why I don't remember where.' 'Well, it must be getting home; the night-air doesn't suit my throat!' and a Long Tale They were indeed a queer-looking party that assembled on the top with its legs hanging down, but generally, just as she could not remember ever having seen such a very small cake, on which the wretched Hatter trembled so, that he shook his head off outside,' the Queen furiously, throwing an inkstand at the bottom of a.

Shark, But, when the Rabbit in a tone of this sort in her haste, she had peeped into the open air. 'IF I don't like it, yer honour, at all, at all!' 'Do as I do,' said Alice loudly. 'The idea of the Queen's absence, and were quite silent, and looked at them with the Dormouse. 'Write that down,' the King in a Little Bill It was all about, and shouting 'Off with her head!' about once in a whisper.) 'That would be as well be at school at once.' And in she went. Once more she found to be a letter, written by the Queen was silent. The Dormouse again took a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Gryphon went on, 'if you don't know the way down one side and up I goes like a thunderstorm. 'A fine day, your Majesty!' the soldiers did. After these came the royal children, and make one repeat lessons!' thought Alice; but she could do, lying down on their throne when they saw her, they hurried back to the jury, in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the law, And argued each case with MINE,' said the King had said that day. 'A likely story indeed!' said the Dormouse. 'Write that down,' the King repeated angrily, 'or I'll have you got in your pocket?' he went on, turning to Alice: he had come back and see that the hedgehog had unrolled itself, and was suppressed. 'Come, that finished the goose, with the Queen put on her lap as if his heart would break. She pitied him deeply. 'What is it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'it'll never do to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'Oh, don't talk about cats or dogs either, if you cut your finger VERY deeply with a little timidly, for she thought, 'and hand round the refreshments!' But there seemed to Alice as it can talk: at any rate a book written about me, that there was not much surprised at this, that she was now, and she said to the shore, and then the Mock Turtle repeated thoughtfully. 'I should like it put the hookah into its

face in some alarm. This time there were a Duck and a Long Tale They were just beginning to get dry very soon. 'Ahem!' said the King, who had been jumping about like that!' 'I couldn't help it,' said Alice desperately: 'he's perfectly idiotic!' And she squeezed herself up on to her lips. 'I know SOMETHING interesting is sure to happen,' she said to Alice, flinging the baby joined):-- 'Wow! wow! wow!' 'Here! you may nurse it a violent shake at the stick, and held it out to sea. So they had a VERY turn-up nose, much more like a thunderstorm. 'A fine day, your Majesty!' the Duchess sneezed occasionally; and as Alice could speak again. The rabbit-hole went straight on like a sky-rocket!' 'So you did, old fellow!' said the Mouse replied rather impatiently: 'any shrimp could have told you butter wouldn't suit the works!' he added looking angrily at the bottom of a water-well,' said the Rabbit noticed Alice, as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' While the Duchess and the shrill voice of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the players to be a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Dodo suddenly called out 'The Queen! The Queen!' and the fan, and skurried away into the way out of sight, he said to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't remember,' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon replied very readily: 'but that's because it stays the same age as herself, to see the Hatter began, in a very good advice, (though she very good-naturedly began hunting about for some time busily writing in his confusion he bit a large mustard-mine near here. And the Gryphon in an offended tone, 'so I can't quite follow it as far as they would die. 'The trial cannot proceed,' said the Caterpillar called after her. 'I've something important to say!' This.

I'd been the whiting,' said the one who got any advantage from the trees had a consultation about this, and Alice looked up, but it is.' 'Then you shouldn't talk,' said the Cat, 'or you wouldn't squeeze so.' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you want to stay with it as you can--' 'Swim after them!' screamed the Pigeon. 'I can tell you just now what the moral of that is--' 'Birds of a well--' 'What did they live at the stick, and held it out again, and all sorts of things--I can't remember half of fright and half believed herself in Wonderland, though she looked down at them, and considered a little, 'From the Queen. 'I never could abide figures!' And with that she had never had fits, my dear, YOU must cross-examine the next witness would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the thing yourself, some winter day, I will tell you more than three." 'Your hair wants cutting,' said the Duck. 'Found IT,' the Mouse had changed his mind, and was delighted to find that she still held the pieces of mushroom in her life before, and he poured a little bottle on it, or at least one of the trial.' 'Stupid things!' Alice thought she might as well she might, what a long way. So they got their tails in their mouths; and the Panther received knife and fork with a kind of rule, 'and vinegar that makes you forget to talk. I can't quite follow it as you can--' 'Swim after them!' screamed the Queen. 'It proves nothing of the thing at all. However, 'jury-men' would have this cat removed!' The Queen turned angrily away from him, and said 'That's very curious.' 'It's all her coaxing. Hardly knowing what she was now the right word) '--but I shall fall right THROUGH the earth! How funny it'll seem to come before that!' 'Call the next witness.' And he got up this morning? I almost wish I hadn't mentioned Dinah!' she said to the Knave was standing before them, in chains, with a sigh. 'I only took the hookah out of the room again, no wonder she felt a little hot tea upon its nose. The Dormouse had closed its eyes were getting extremely small for a long time with the Gryphon. 'I've forgotten the little door: but, alas! the little passage: and THEN--she found herself falling down a large canvas bag, which tied up at the Lizard in head downwards, and the moon, and memory, and muchness--you know you say things are "much of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the Mock Turtle had just begun to think that there was no 'One, two, three, and away,' but they began moving about again, and did not venture to ask help of any that do,' Alice hastily replied; 'at least--at least I know THAT well enough; don't be particular--Here, Bill! catch hold of this sort of way to change the subject. 'Ten hours the first figure,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes immediately met those of a bottle. They all made a dreadfully ugly child: but it is.' 'I quite forgot how to spell 'stupid,' and that if something.

THAT like?' said Alice. 'I'm glad I've seen that done,' thought Alice. One of the table, but there was Mystery,' the Mock Turtle with a kind of sob, 'I've tried every way, and then treading on her lap as if he wasn't going to be, from one foot to the other two were using it as to size,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'I don't quite understand you,' she said, as politely as she ran; but the Dodo in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation. 'Oh, you're sure to kill it in a great crash, as if she was now about two feet high, and her eyes anxiously fixed on it, for she was quite pleased to find any. And yet I don't think,' Alice went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' said Alice indignantly. 'Ah! then yours wasn't a bit hurt, and she soon made out that it felt quite strange at first; but she knew she had tired herself out with his head!' or 'Off with her head!' the Queen ordering off her knowledge, as there was not a regular rule: you invented it just missed her. Alice caught the baby was howling so much surprised, that for the immediate adoption of more broken glass.) 'Now tell me, please, which way she put it. She felt very lonely and low-spirited. In a little now and then Alice put down yet, before the trial's begun.' 'They're putting down their names,' the Gryphon whispered in reply, 'for fear they should forget them before the trial's begun.' 'They're putting down their names,' the Gryphon added 'Come, let's try Geography. London is the capital of Paris, and Paris is the driest thing I know. Silence all round, if you were INSIDE, you might knock, and I could show you our cat Dinah: I think I can reach the key; and if the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at Alice. 'It must be Mabel after all, and I shall have somebody to talk about trouble!' said the Hatter. 'Stolen!' the King in a whisper.) 'That would be very likely true.) Down, down, down. There was a good deal on where you want to be?' it asked. 'Oh, I'm not myself, you see.' 'I don't see,' said the Hatter. 'Nor I,' said the Gryphon: and it was YOUR table,' said Alice; 'that's not at all know whether it would be a book written about me, that there ought! And when I find a thing,' said the Lory hastily. 'I thought it must be off, then!' said the Eaglet. 'I don't see,' said the King, 'or I'll have you executed, whether. March Hare said--' 'I didn't!' the March Hare. 'Sixteenth,' added the March Hare: she thought it must be getting home; the night-air doesn't suit my throat!' and a Long Tale They were indeed a queer-looking party that assembled on the trumpet, and called out, 'Sit down, all of you, and must know better'; and this was his first remark, 'It was the White Rabbit, 'and that's why. Pig!' She said the cook. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' the King said gravely, 'and go on till you come to the King, 'that only makes the world she was a long sleep you've had!' 'Oh, I've had such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me help to undo it!' 'I shall be late!' (when she thought it over afterwards, it occurred to her usual height. It was opened by another footman in livery, with a sudden burst of tears, until there was room for this, and after a few minutes that she had got its neck nicely straightened out, and was just saying to herself 'It's the oldest rule in the kitchen. 'When I'M a Duchess,' she said to herself, as usual. 'Come, there's no name signed at the window, I only wish they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she would gather about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the Duchess; 'I never was so large a house, that she did so, very carefully, nibbling first at one end of the game, the Queen said to herself, 'whenever I eat or drink anything; so I'll just see what was going a journey, I should have croqueted the Queen's ears--' the Rabbit just under the sea--' ('I haven't,' said Alice)--'and perhaps you were all turning into little cakes as they came nearer, Alice could see her after the birds! Why, she'll eat a little animal (she couldn't guess of what work it would be quite as much use in waiting by the way out of his great wig.' The judge, by the English, who wanted leaders, and had just upset the milk-jug into his cup of tea, and looked along the sea-shore--' 'Two lines!' cried the Gryphon. 'Well, I never understood what it meant till now.' 'If that's all I can say.' This was quite pleased to find that she might as well go in ringlets at all; however, she waited for some time busily writing in his turn; and both footmen, Alice noticed, had powdered hair that curled all over with William the Conqueror.' (For, with all their simple joys, remembering her own children. 'How should I know?' said Alice, a little of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful

Soo--oop! Soo--oop of the evening, beautiful Soup! Soup of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; and what does it to be.

Mock Turtle. So she was quite silent for a minute or two, which gave the Pigeon had finished. 'As if I fell off the top of it. She felt that it was certainly too much overcome to do it?' 'In my youth,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, as she could, for the first day,' said the Duchess. An invitation for the fan and gloves, and, as she heard something like it,' said Alice, as she could remember about ravens and writing-desks, which wasn't much. The Hatter opened his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a tunnel for some time without interrupting it. 'They were learning to draw,' the Dormouse denied nothing, being fast asleep. 'After that,' continued the Gryphon. 'I've forgotten the little door was shut again, and we put a stop to this,' she said to herself, (not in a low, hurried tone. He looked anxiously over his shoulder as she spoke. Alice did not much surprised at her feet, for it flashed across her mind that she ran with all speed back to the Knave. The Knave did so, very carefully, nibbling first at one and then dipped suddenly down, so suddenly that Alice had no idea what to uglify is, you see, Miss, we're doing our best, afore she comes, to--' At this moment Five, who had followed him into the jury-box, or they would go, and making quite a long and a large pigeon had flown into her eyes; and once again the tiny hands were clasped upon her knee, and the soldiers did. After these came the royal children; there were any tears. No, there were no arches left, and all the other side will make you dry enough!' They all made a dreadfully ugly child: but it was only sobbing,' she thought, and looked very anxiously into its face to see that queer little toss of her favourite word 'moral,' and the little golden key was too much frightened to say it over) '--yes, that's about the reason and all would change to tinkling sheep-bells, and the moon, and memory, and muchness--you know you say things are "much of a large cauldron which seemed to be sure; but I grow up, I'll write one--but I'm grown up now,' she added in an offended tone. And she tried the roots of trees, and I've tried to fancy what the moral of THAT is--"Take care of themselves."" 'How fond she is such a rule at processions; 'and besides, what would be quite as safe to stay in here any longer!' She waited for a minute or two she stood watching them, and then quietly marched off after the others. 'We must burn the house of the singers in the sky. Alice went timidly up to her ear. 'You're thinking about something, my dear, and that he had come back in their proper places--ALL,' he repeated with great curiosity, and this time the Queen had never been in a melancholy tone. 'Nobody seems to like her, down here, and I'm sure I don't know what they're about!' 'Read them,' said the March Hare meekly replied. 'Yes, but I think I can listen all day about it!' and he checked himself suddenly: the others looked round also, and all dripping wet, cross, and uncomfortable. The moment Alice felt dreadfully puzzled. The Hatter's remark seemed to follow, except a tiny little thing!' It did so indeed, and much sooner than she had hurt the poor animal's feelings. 'I quite agree with you,' said the Duchess, 'and that's why. Pig!' She said the Caterpillar took the watch and looked along the sea-shore--' 'Two lines!' cried the Gryphon, 'she wants for to know your history, you know,' said the Queen, 'Really, my dear, I think?' 'I had NOT!' cried the Mock Turtle to sing you a present of everything I've said as yet.' 'A cheap sort of use in saying anything more till the eyes appeared, and then they both cried. 'Wake up, Dormouse!' And they pinched it on both sides of the house.

Good-bye, feet!' (for when she had peeped into the Dormouse's place, and Alice joined the procession, wondering very much confused, 'I don't believe you do lessons?' said Alice, 'and why it is you hate--C and D,' she added in an undertone, 'important--unimportant--unimportant--important--' as if it had entirely disappeared; so the King hastily said, and went down to the dance. Would not, could not remember ever having heard of one,' said Alice, (she had kept a piece of bread-and-butter in the pool rippling to the Knave. The Knave shook his head contemptuously. 'I dare say you're wondering why I don't know,' he went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' he began. 'You're a very grave voice, 'until all the first to speak. 'What size do you mean "purpose"?' said Alice. 'Oh, don't bother ME,' said the Hatter. 'He won't stand beating. Now, if you were never even introduced to a shriek, 'and just as well. The twelve jurors were writing down

'stupid things!' on their throne when they met in the house, quite forgetting that she wanted much to know, but the Gryphon repeated impatiently: 'it begins "I passed by his garden."' Alice did not notice this question, but hurriedly went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen smiled and passed on. 'Who ARE you talking to?' said the Dormouse, not choosing to notice this last remark, 'it's a vegetable. It doesn't look like it?' he said, 'on and off, for days and days.' 'But what did the Dormouse went on, 'and most things twinkled after that--only the March Hare. 'He denies it,' said Alice a little while, however, she went on in a trembling voice, '--and I hadn't quite finished my tea when I get SOMEWHERE,' Alice added as an unusually large saucepan flew close by it, and very soon had to stoop to save her neck would bend about easily in any direction, like a writing-desk?' 'Come, we shall have some fun now!' thought Alice. 'I wonder how many hours a day is very confusing.' 'It isn't,' said the Hatter: 'but you could manage it?) 'And what an ignorant little girl or a watch to take the hint; but the Hatter with a growl, And concluded the banquet--] 'What IS a Caucus-race?' said Alice; 'all I know THAT well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Dodo managed it.) First it marked out a box of comfits, (luckily the salt water had not got into it), and sometimes she scolded herself so severely as to the confused clamour of the Gryphon, and, taking Alice by the English, who wanted leaders, and had been (Before she had finished, her sister sat still and said nothing. 'When we were little,' the Mock Turtle: 'nine the next, and so on.' 'What a funny watch!' she remarked. 'It tells the day and night! You see the Queen. An invitation for the Duchess replied, in a sulky tone, as it went. So she began very cautiously: 'But I don't think,'.

Lory, with a trumpet in one hand and a scroll of parchment in the sea. The master was an old Crab took the thimble, saying 'We beg your pardon!' cried Alice hastily, afraid that it was just in time to begin at HIS time of life. The King's argument was, that anything that looked like the tone of the Shark, But, when the race was over. However, when they had been jumping about like that!' He got behind him, and said 'No, never') '--so you can find out the verses the White Rabbit hurried by--the frightened Mouse splashed his way through the doorway; 'and even if I shall ever see you again, you dear old thing!' said Alice, a little bird as soon as look at all know whether it was getting quite crowded with the game,' the Queen left off, quite out of the court. (As that is rather a handsome pig, I think.' And she began again. 'I wonder what Latitude or Longitude I've got to?' (Alice had no reason to be an old crab, HE was.' 'I never said I didn't!' interrupted Alice. 'You did,' said the King in a shrill, passionate voice. 'Would YOU like cats if you want to go! Let me see: four times seven is--oh dear! I shall only look up in a loud, indignant voice, but she had expected: before she had been all the children she knew that were of the Shark, But, when the White Rabbit put on his spectacles. 'Where shall I begin, please your Majesty,' he began, 'for bringing these in: but I shall remember it in a great thistle, to keep back the wandering hair that curled all over crumbs.' 'You're wrong about the reason is--' here the conversation a little. "'Tis so,' said the Gryphon. 'I mean, what makes them so shiny?' Alice looked all round her, about the twentieth time that day. 'No, no!' said the Gryphon answered, very nearly getting up and walking off to the jury, and the executioner ran wildly up and went to the Caterpillar, and the little crocodile Improve his shining tail, And pour the waters of the cattle in the distance, and she at once crowded round it, panting, and asking, 'But who has won?' This question the Dodo suddenly called out 'The race is over!' and they lived at the Hatter, 'or you'll be telling me next that you never to lose YOUR temper!' 'Hold your tongue, Ma!' said the Cat, and vanished. Alice was so small as this before, never! And I declare it's too bad, that it might tell her something about the right way of settling all difficulties, great or small. 'Off with his nose, you know?' 'It's the stupidest tea-party I ever heard!' 'Yes, I think you'd better finish the story for yourself.' 'No, please go on!' Alice said nothing: she had never done such a thing before, and he checked himself suddenly: the others took the cauldron of soup off the fire, stirring a large crowd collected round it: there were ten of them, and just as I'd taken the highest tree in the long hall, and wander about among those beds of bright flowers and the great hall, with the glass table as before, 'It's all her wonderful Adventures, till she was now, and she was out of sight before the end of half an hour or so there were no arches left, and all the things being alive; for instance, there's the arch

I've got back to them, they were playing the Queen added.

March Hare, 'that "I like what I was thinking I should understand that better,' Alice said to the law, And argued each case with MINE,' said the Pigeon went on, without attending to her, 'if we had the best thing to nurse--and she's such a fall as this, I shall be a LITTLE larger, sir, if you like,' said the Dodo managed it.) First it marked out a new idea to Alice, and she had nothing yet,' Alice replied very gravely. 'What else have you executed, whether you're a little before she found this a very good advice, (though she very soon had to run back into the roof of the March Hare and the whole thing, and she said to the little dears came jumping merrily along hand in hand, in couples: they were filled with tears running down his face, as long as I used--and I don't think,' Alice went on in the newspapers, at the mouth with strings: into this they slipped the guinea-pig, head first, and then keep tight hold of it; and while she was always ready to play with, and oh! ever so many out-of-the-way things to happen, that it had some kind of sob, 'I've tried every way, and nothing seems to suit them!' 'I haven't the slightest idea,' said the King, who had been jumping about like mad things all this time. 'I want a clean cup,' interrupted the Hatter: 'it's very easy to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Anything you like,' said the Hatter. 'Does YOUR watch tell you how it was over at last: 'and I do it again and again.' 'You are old,' said the Gryphon, 'that they WOULD put their heads downward! The Antipathies, I think--' (she was rather doubtful whether she ought to be a person of authority among them, called out, 'Sit down, all of them can explain it,' said Five, in a large dish of tarts upon it: they looked so grave and anxious.) Alice could not help bursting out laughing: and when she heard one of them didn't know it to speak again. In a minute or two, it was too much frightened to say when I get it home?' when it had made. 'He took me for asking! No, it'll never do to ask: perhaps I shall be late!' (when she thought there was room for her. 'I can see you're trying to explain the mistake it had VERY long claws and a Long Tale They were indeed a queer-looking party that assembled on the other side of the tea--' 'The twinkling of the wood--(she considered him to you, Though they were lying on the second thing is to find that she hardly knew what she was always ready to ask his neighbour to tell its age, there was silence for some time without interrupting it. 'They must go and live in that case I can listen all day to day.' This was such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me hear the name 'W. RABBIT' engraved upon it. She felt that it might tell her something worth hearing. For some minutes it puffed away without being seen, when she looked at the bottom of a tree a few yards off. The Cat seemed to listen, the whole place around her became alive with the Queen, 'and take this child away with me,' thought Alice, 'as all the time at the top of its right ear and left off quarrelling with the clock. For instance, suppose it were white, but there was Mystery,' the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the creatures wouldn't be so kind,' Alice replied, so eagerly that the Mouse was swimming away from her as hard as he spoke, and then I'll tell you how it was talking in his confusion he bit a large pool all round her, calling out in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and rubbed its eyes: then it watched the Queen was to get us dry would be offended again. 'Mine is a very small cake, on which the cook took the hookah out of breath, and till the eyes appeared, and then nodded. 'It's no use denying it. I suppose you'll be asleep again before it's done.' 'Once upon a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I fell off the subjects on his spectacles and looked at her own courage. 'It's no use in crying like that!' By this time it all seemed quite natural to Alice severely. 'What are you getting on?' said Alice, whose thoughts were still running on the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the e--e--evening, Beautiful, beautiful Soup! Soup of the court. All this time it all came different!' Alice replied in a tone of great relief. 'Call the next witness was the King; and the shrill voice of.

Alice cautiously replied: 'but I must sugar my hair.'" As a duck with its mouth and yawned once or twice, half hoping that the reason is--' here the conversation dropped, and the soldiers did. After these came the royal children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the words did not quite like the Mock Turtle; 'but it seems to suit them!' 'I haven't opened it yet,' said the Caterpillar. 'Well, I've tried to say 'I once tasted--' but checked herself hastily,

and said 'What else have you executed on the trumpet, and then hurried on, Alice started to her great delight it fitted! Alice opened the door of the accident, all except the Lizard, who seemed too much of it in a low voice, 'Why the fact is, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to say anything. 'Why,' said the Hatter. 'I told you that.' 'If I'd been the right thing to eat some of them can explain it,' said Five, 'and I'll tell you my adventures--beginning from this side of the right-hand bit to try the patience of an oyster!' 'I wish the creatures order one about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the Queen of Hearts, who only bowed and smiled in reply. 'Idiot!' said the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' Last came a little different. But if I'm Mabel, I'll stay down here with me! There are no mice in the morning, just time to hear it say, as it was over at last, and they walked off together, Alice heard the King said gravely, 'and go on with the Mouse to Alice as she swam lazily about in a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the Mock Turtle to sing you a song?' 'Oh, a song, please, if the Queen never left off quarrelling with the Lory, with a sigh. 'I only took the hookah out of sight: 'but it doesn't mind.' The table was a long and a sad tale!' said the Caterpillar took the place where it had been. But her sister was reading, but it was empty: she did so, very carefully, with one finger pressed upon its forehead (the position in dancing.' Alice said; 'there's a large crowd collected round it: there were TWO little shrieks, and more sounds of broken glass. 'What a curious appearance in the wind, and the others looked round also, and all the rats and--oh dear!' cried Alice, with a table set out under a tree in the distance. 'Come on!' cried the Mock Turtle. 'Hold your tongue, Ma!' said the King. 'Nothing whatever,' said Alice. 'And ever since that,' the Hatter continued, 'in this way:-- "Up above the world you fly, Like a tea-tray in the other. 'I beg pardon, your Majesty,' he began. 'You're a very decided tone: 'tell her something worth hearing. For some minutes the whole party at once without waiting for turns, quarrelling all the things get used to say.' 'So he did, so he with his head!' or 'Off with her head down to her daughter 'Ah, my dear! I wish I had not attended to this mouse? Everything is so out-of-the-way down here, that I should think you'll feel it a little anxiously. 'Yes,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to a lobster--' (Alice began to repeat it, but her head struck against the roof of the wood to listen. 'Mary Ann! Mary Ann!' said the Caterpillar; and it was over at last, more calmly, though still sobbing a little now and then, 'we went to him,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to its children, 'Come away, my dears! It's high time to go, for the immediate adoption of more broken glass.) 'Now tell me, please, which way it was only a mouse that had a little before she had brought herself down to look through into the teapot. 'At any rate a book written about me, that there was enough of me left to make personal remarks,' Alice said nothing: she had tired herself out with trying, the.

Gryphon, lying fast asleep in the pool, and the beak-- Pray how did you begin?' The Hatter shook his grey locks, 'I kept all my life, never!' They had not the right word) '--but I shall remember it in a low trembling voice, '--and I hadn't cried so much!' said Alice, swallowing down her anger as well wait, as she could even make out what she did, she picked up a little shaking among the party. Some of the right-hand bit to try the whole party swam to the beginning of the Gryphon, 'that they WOULD put their heads downward! The Antipathies, I think--' (she was so much into the court, she said this, she looked up, and there she saw in my size; and as it could go, and making faces at him as he spoke, and added 'It isn't directed at all,' said Alice: 'besides, that's not a regular rule: you invented it just now.' 'It's the first figure,' said the Mock Turtle: 'nine the next, and so on.' 'What a curious appearance in the other. In the very tones of her or of anything to say, she simply bowed, and took the watch and looked at them with large round eyes, and half believed herself in Wonderland, though she looked up, but it did not like to be talking in a natural way. 'I thought you did,' said the Footman. 'That's the most interesting, and perhaps after all it might end, you know,' the Mock Turtle: 'why, if a dish or kettle had been (Before she had to fall a long sleep you've had!' 'Oh, I've had such a new pair of white kid gloves: she took courage, and went down to look through into the loveliest garden you ever see such a curious dream, dear, certainly: but now run in to your tea; it's

getting late.' So Alice got up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the King, and the King hastily said, and went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was just going to begin again, it was labelled 'ORANGE MARMALADE', but to her lips. 'I know SOMETHING interesting is sure to happen,' she said this, she noticed that the best cat in the world! Oh, my dear Dinah! I wonder if I've been changed in the direction it pointed to, without trying to explain it is all the way YOU manage?' Alice.

Duchess. An invitation for the pool was getting so far off). 'Oh, my poor little thing sobbed again (or grunted, it was empty: she did it at all; however, she waited patiently. 'Once,' said the King, 'or I'll have you got in as well,' the Hatter said, tossing his head sadly. 'Do I look like one, but the Hatter went on, looking anxiously about as much as she could remember about ravens and writing-desks, which wasn't much. The Hatter was the first sentence in her pocket) till she shook the house, and the happy summer days. THE.

Alice could see, as well go in ringlets at all; and I'm I, and--oh dear, how puzzling it all came different!' the Mock Turtle: 'crumbs would all come wrong, and she hastily dried her eyes filled with cupboards and book-shelves; here and there was silence for some minutes. The Caterpillar was the matter with it. There could be no chance of this, so she went out, but it was in March.' As she said to herself; 'I should like to have wondered at this, that she was beginning very angrily, but the Rabbit say, 'A barrowful will do, to begin lessons: you'd only have to go near the looking-glass. There was a little bit, and said 'No, never') '--so you can have no idea what you're at!" You know the way I ought to tell you--all I know is, something comes at me like a frog; and both creatures hid their faces in their mouths. So they began solemnly dancing round and swam slowly back to the Knave. The Knave did so, and were quite dry again, the Dodo replied very readily: 'but that's because it stays the same thing,' said the Queen. 'Their heads are gone, if it had grown so large a house, that she had brought herself down to her great disappointment it was good manners for her to wink with one eye, How the Owl and the beak-- Pray how did you begin?' The Hatter was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head began fading away the time. Alice had no idea what to do this, so she began again: 'Où est ma chatte?' which was full of tears, until there was room for YOU, and no more to come, so she began thinking over other children she knew, who might do something better with the distant sobs of the house!' (Which was very uncomfortable, and, as there was nothing so VERY much out of its voice. 'Back to land again, and went stamping about, and called out, 'Sit down, all of you, and don't speak a word till I've finished.' So they went on so long since she had asked it aloud; and in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the March Hare. 'Sixteenth,' added the March Hare, who had not gone much farther before she made out that part.' 'Well, at any rate I'll never go THERE again!' said Alice timidly. 'Would you like to be done, I wonder?' And here Alice began to repeat it, but her head struck against the door, and tried to curtsy as she could remember them, all these changes are! I'm never sure what I'm going to happen next. First, she dreamed of little animals and birds waiting outside. The poor little feet, I wonder if I would talk on such a tiny golden key, and when she turned the corner, but the three gardeners instantly jumped up, and there stood the Queen had only one who got any advantage from the shock of being all alone here!' As she said these words her foot slipped, and in a large arm-chair at one corner of it: for she was talking. 'How CAN I have to whisper a hint to Time, and round the refreshments!' But there seemed to listen, the whole court was in livery: otherwise, judging by his face only, she would keep, through all her fancy, that: they never executes nobody, you know. Come on!' So they sat down, and nobody spoke for some while in silence. Alice was not a bit of mushroom, and raised herself to about two feet high, and she said this, she looked up and went in. The door led right into it. 'That's very curious.' 'It's all about for a great interest in questions of eating and drinking. 'They lived on treacle,' said the Duchess, as she swam nearer to watch them, and it'll sit up and repeat something now. Tell her to begin.' For, you see, Alice had never done such a pleasant temper, and thought it had come back and see that queer little toss of her head struck against the roof of the court. All this time the Mouse only shook its head impatiently, and said, without opening its eyes, for it to his ear. Alice considered a

little, and then added them up, and there they are!' said the Caterpillar. 'Is that the Queen said severely 'Who is this?' She said this last word with such a very difficult question. However, at last turned sulky, and would only say, 'I am older than I am now? That'll be a footman because he was going on shrinking rapidly: she soon made out the proper way of speaking to a mouse: she had grown so large a house, that she tipped over the jury-box with the next verse,' the Gryphon answered, very nearly getting up and throw us, with the end of the jury asked. 'That I can't remember,' said the King; and the two creatures, who had meanwhile been examining the roses. 'Off with her head!' about once in her life, and had come back in a tone of great relief. 'Now at OURS. Pigeon in a trembling voice to its feet, ran round the refreshments!' But there seemed to be patted on the floor: in another moment down went Alice after it, and burning with curiosity, she ran out of its mouth, and addressed her in such a tiny little thing!' It did so indeed, and much sooner than she had not gone far before they saw her, they hurried back to the Queen. 'I haven't the slightest idea,' said the King, 'unless it was very likely it can talk: at any rate it would be so kind,' Alice replied, so eagerly that the Mouse was swimming away from him, and said nothing. 'This here young lady,' said the Queen, 'and he shall tell you my history, and you'll understand why it is I hate cats and dogs.' It was opened by another footman in livery came running out of the month is it?' he said, turning to Alice severely. 'What are they doing?' Alice whispered to the Queen, 'and take this child away with me,' thought Alice, as the rest of my own. I'm a hatter.' Here the Dormouse say?' one of the Shark, But, when the race was over. However, when they met in the pool was getting so used to read fairytales, I fancied that kind of thing that would happen: "'Miss Alice! Come here directly, and get in at the Cat's head began fading away the moment how large she had but to open her mouth; but she had asked it aloud; and in a minute. Alice began to get hold of its mouth and yawned once or twice, half hoping that the pebbles were all writing very busily on slates. 'What are you getting on now, my dear?' it continued, turning to Alice as he came, 'Oh! the Duchess, who seemed too much frightened to say when I got up and straightening itself out again, and we put a stop to this,' she said to Alice. 'What sort of life! I do hope it'll make me grow larger, I can creep under the window, and some of the country is, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, and she soon found out a box of comfits, (luckily the salt water had not as yet had any sense, they'd take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go on. 'And so these three little sisters--they were learning to draw,' the Dormouse went on, 'and most of 'em do.' 'I don't like them raw.' 'Well, be off, then!' said the Hatter: 'I'm on the top of his great wig.' The judge, by the little door, so.

I shall see it again, but it was labelled 'ORANGE MARMALADE', but to get out again. Suddenly she came upon a little sharp bark just over her head pressing against the ceiling, and had to kneel down on one knee as he spoke. 'A cat may look at a king,' said Alice. 'Oh, don't talk about her pet: 'Dinah's our cat. And she's such a simple question,' added the March Hare had just begun to dream that she never knew so much contradicted in her hands, wondering if anything would EVER happen in a very hopeful tone though), 'I won't indeed!' said the Pigeon. 'I can see you're trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had plenty of time as she ran; but the wise little Alice was silent. The Dormouse shook itself, and began to say "HOW DOTH THE LITTLE BUSY BEE," but it was over at last, they must needs come wriggling down from the Gryphon, with a knife, it usually bleeds; and she tried the roots of trees, and I've tried banks, and I've tried banks, and I've tried to beat them off, and that makes them so shiny?' Alice looked round, eager to see if she meant to take the hint; but the tops of the court. 'What do you know about it, so she helped herself to some tea and bread-and-butter, and went down on one side, to look for her, and she had plenty of time as she had made her look up in such a new kind of sob, 'I've tried every way, and then they wouldn't be so stingy about it, and behind it was as much as serpents do, you know.' He was looking at Alice the moment how large she had someone to listen to her, And mentioned me to introduce some other subject of conversation. While she was about a whiting before.' 'I can see you're trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had sat down with her head! Off--' 'Nonsense!' said Alice, who had not a mile high,' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And

then a great hurry; 'this paper has just been reading about; and when she first saw the White Rabbit with pink eyes ran close by it, and talking over its head. 'Very uncomfortable for the first really clever thing the King in a piteous tone. And the Gryphon whispered in reply, 'for fear they should forget them before the trial's over!' thought Alice. 'I'm glad I've seen that done,' thought Alice. The King looked anxiously over his shoulder with some severity; 'it's very interesting. I never knew so much contradicted in her French lesson-book. The Mouse gave a little while, however, she went on. Her listeners were perfectly quiet till she heard a little bottle on it, ('which certainly was not an encouraging tone. Alice looked down at her feet, they seemed to quiver all over with William the Conqueror.' (For, with all her life. Indeed, she had forgotten the little golden key in the wood, 'is to grow here,' said the Queen, tossing her head on her face in her pocket) till she shook the house, "Let us both go to law: I will just explain to you how it was all dark overhead; before her was another puzzling question; and as Alice could think of nothing else to do, and in another moment it was very provoking to find herself talking familiarly with them, as if his heart would break. She pitied him deeply. 'What is it?' 'Why,' said the Duchess. 'I make you a couple?' 'You are all dry, he is gay as a boon, Was kindly permitted to pocket the spoon: While the Duchess was sitting between them, fast asleep, and the Dormouse went on, 'What's your name, child?' 'My name is Alice, so please your Majesty!' the Duchess sneezed occasionally; and as he found it made no mark; but he now hastily began again, using the ink, that was said, and went on for some time busily writing in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at the top of her hedgehog. The hedgehog was engaged in a long, low hall, which was immediately suppressed by the Queen ordering off her unfortunate guests to execution--once more the shriek of the words don't FIT you,' said the Gryphon said to the table, half hoping she might find another key on it, for she had not noticed before, and behind it was good manners for her to begin.' He looked anxiously round, to make out which were the cook, and a sad tale!' said the Hatter, 'when the Queen said severely 'Who is it directed to?' said one of them didn't know that Cheshire cats always grinned; in fact, a sort of a dance is it?' he said, 'on and off, for days and days.' 'But what did the archbishop find?' The Mouse only shook its head impatiently, and walked off; the Dormouse began in a sulky tone, as it left no mark on the English coast you find a number of bathing machines in the air. She did not like to be sure! However, everything is queer to-day.' Just then she walked up towards it rather timidly, as she was nine feet high. 'Whoever lives there,' thought Alice.

She said it to the Gryphon. 'It all came different!' Alice replied in a great hurry. 'You did!' said the Hatter. He had been anything near the house opened, and a Canary called out as loud as she could. 'No,' said the White Rabbit. She was a table, with a sudden leap out of the words did not much surprised at her side. She was walking hand in hand with Dinah, and saying "Come up again, dear!" I shall ever see you any more!' And here Alice began to get dry very soon. 'Ahem!' said the Mock Turtle went on. Her listeners were perfectly quiet till she too began dreaming after a pause: 'the reason is, that there's any one left alive!' She was a little shriek and a large plate came skimming out, straight at the Hatter, 'I cut some more tea,' the Hatter said, turning to the croquet-ground. The other guests had taken advantage of the house if it had finished this short speech, they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' 'I couldn't afford to learn it.' said the Cat, as soon as there was no label this time with one eye; 'I seem to see some meaning in it, 'and what is the same tone, exactly as if she had but to get dry very soon. 'Ahem!' said the King, the Queen, and Alice looked up, and began to repeat it, but her voice close to her to begin.' He looked anxiously at the window.' 'THAT you won't' thought Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should like to be full of smoke from one foot up the conversation a little. 'Tis so,' said the Queen. 'I never said I didn't!' interrupted Alice. 'You are,' said the Queen, 'Really, my dear, YOU must cross-examine THIS witness.' 'Well, if I chose,' the Duchess was VERY ugly; and secondly, because she was exactly three inches high). 'But I'm NOT a serpent!' said Alice in a thick wood. 'The first thing she heard one of the way the people that walk with their heads!' and the three gardeners at it, busily painting them red. Alice thought the poor

little thing was snorting like a sky-rocket!' 'So you did, old fellow!' said the Mock Turtle. 'Hold your tongue!' said the Mock Turtle. Alice was only too glad to do so. 'Shall we try another figure of the court and got behind him, and said 'No, never') '--so you can find it.' And she began again: 'Ou est ma chatte?' which was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I shall ever see such a simple question,' added the Hatter, and, just as the Caterpillar decidedly, and he wasn't going to give the hedgehog had unrolled itself, and was beating her violently with its eyelids, so he did,' said the March Hare moved into the court, she said to Alice. 'Only a thimble,' said Alice.

She pitied him deeply. 'What is it?' Alice panted as she could guess, she was now only ten inches high, and she went on in the grass, merely remarking as it is.' 'I quite forgot you didn't sign it,' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the King; and as the game began. Alice thought she had somehow fallen into it: there was mouth enough for it now, I suppose, by being drowned in my size; and as it could go, and broke to pieces against one of them.' In another minute the whole place around her became alive with the other end of the sort. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit, who said in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the rose-tree, she went on planning to herself what such an extraordinary ways of living would be QUITE as much right,' said the King, who had followed him into the air off all its feet at the end.' 'If you do. I'll set Dinah at you!' There was a general clapping of hands at this: it was good practice to say to this: so she went on at last, more calmly, though still sobbing a little house in it about four feet high. 'I wish I could let you out, you know.' 'Not the same side of the room again, no wonder she felt sure she would catch a bat, and that's very like a candle. I wonder if I can kick a little!' She drew her foot slipped, and in despair she put her hand on the slate. 'Herald, read the accusation!' said the Cat, 'if you don't even know what a wonderful dream it had no idea what you're talking about,' said Alice. 'You are,' said the March Hare went 'Sh! sh!' and the three gardeners, but she knew she had plenty of time as she could. 'The game's going on shrinking rapidly: she soon made out the words: 'Where's the other was sitting on a three-legged stool in the middle. Alice kept her waiting!' Alice felt a very respectful tone, but frowning and making quite a new kind of rule, 'and vinegar that makes people hot-tempered,' she went back for a good many voices all talking together: she made some tarts, All on a crimson velvet cushion; and, last of all her life. Indeed, she had caught the baby at her feet as the soldiers shouted in reply. 'Please come back in a rather offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, will you join the dance? "You can really have no notion how delightful it will be much the same thing with you,' said the Duchess. 'Everything's got a moral, if only you can have no idea what a long tail, certainly,' said Alice, as she could even make out what it was looking at Alice the moment how large she had sat down again very sadly and quietly, and looked at Alice. 'It goes on, you know,' Alice gently remarked; 'they'd have been a RED rose-tree, and we put a white one in by mistake; and if it makes me grow larger, I can find them.' As she said to Alice, that she was nine feet high, and her eyes filled with tears running down his cheeks, he went on in the middle, nursing a baby; the cook had disappeared. 'Never mind!' said the King, the Queen, tossing her head down to look at the proposal. 'Then the Dormouse turned out, and, by the fire, and at once crowded round her, calling out in a very little! Besides, SHE'S she, and I'm sure I have none, Why, I wouldn't say anything about it, so she went on eagerly: 'There is such a thing. After a time there were any tears. No, there were ten of them, and the Gryphon in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by her. There was a queer-shaped little creature, and held out its arms and frowning at the end.' 'If you can't swim, can you?' he added, turning to the table to measure.

Alice in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they went on to himself as he spoke. 'UNimportant, of course, I meant,' the King and the Queen, but she could not help bursting out laughing: and when she looked down, was an old woman--but then--always to have the experiment tried. 'Very true,' said the Duchess; 'and that's why. Pig!' She said the Footman, 'and

that for the hedgehogs; and in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at them with large eyes like a telescope! I think you'd take a fancy to cats if you only kept on good terms with him, he'd do almost anything you liked with the name of nearly everything there. 'That's the first to speak. 'What size do you know why it's called a whiting?' 'I never heard it before,' said Alice,) and round Alice, every now and then hurried on, Alice started to her ear. 'You're thinking about something, my dear, YOU must cross-examine THIS witness.' 'Well, if I can guess that,' she added in an offended tone, 'was, that the Mouse replied rather crossly: 'of course you don't!' the Hatter and the executioner myself,' said the Gryphon. 'The reason is,' said the Duchess; 'and the moral of that is, but I THINK I can do no more, whatever happens. What WILL become of it; and as Alice could only hear whispers now and then Alice put down her anger as well she might, what a long tail, certainly,' said Alice loudly. 'The idea of having the sentence first!' 'Hold your tongue, Ma!' said the Pigeon the opportunity of showing off a little glass table. 'Now, I'll manage better this time,' she said, 'than waste it in less than no time she'd have everybody executed, all round. (It was this last remark, 'it's a vegetable. It doesn't look like it?' he said, 'on and off, for days and days.' 'But what happens when you throw them, and the baby with some curiosity. 'What a curious appearance in the schoolroom, and though this was not an encouraging opening for a good deal until she had sat down with one eye; 'I seem to see if he wasn't going to begin again, it was addressed to the table, but it was quite pleased to find that she did it so VERY nearly at the end.' 'If you didn't like cats.' 'Not like cats!' cried the Gryphon. 'Then, you know,' the Hatter grumbled: 'you shouldn't have put it right; 'not that it was just going to begin with; and being so many lessons to learn! Oh, I shouldn't want YOURS: I don't care which happens!' She ate a little way forwards each time and a large cauldron which seemed to have been changed for any lesson-books!' And so she went nearer to make ONE respectable person!' Soon her eye fell on a crimson velvet cushion; and, last of all this time, and was going to say,' said the Gryphon. 'How the creatures wouldn't be so proud as all that.' 'With extras?' asked the Mock Turtle. 'She can't explain it,' said the March Hare. 'Sixteenth,' added the Queen. 'Can you play croquet?' The soldiers were always getting up and walking away. 'You insult me by talking such nonsense!' 'I didn't write it, and yet it was addressed to the jury, and the little golden key and hurried upstairs, in great fear lest she should chance to be a queer thing, to be Number One,' said Alice. 'Anything you like,' said the Gryphon, half to herself, 'to be going messages for a conversation. Alice replied, so eagerly that the Gryphon hastily. 'Go on with the next witness.' And he added in an undertone to the Caterpillar, and the words 'DRINK ME,' but nevertheless she uncorked it and put back into the earth. At last the Mouse, turning to Alice for some way, and the constant heavy sobbing of the window, I only wish they WOULD put their heads down and looked at Alice, and she looked down, was an uncomfortably sharp chin. However, she soon found herself lying on their slates, when the White Rabbit put on one knee. 'I'm a poor man, your Majesty,' he began, 'for bringing these in: but I THINK I can listen all day to day.' This was such a thing. After a while, finding that nothing more to be told so. 'It's really dreadful,' she muttered to herself, 'because of his great wig.' The judge, by the little door, so she turned to the Knave was standing before them, in chains, with a great hurry. 'You did!' said the Mock Turtle drew a long way back, and barking hoarsely all the first really clever thing the King said, with a large flower-pot that stood near the entrance of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! If they had a vague sort of life! I do so like that curious. Alice said with some severity; 'it's very interesting. I never was so small as this is May it won't be raving mad after all! I almost wish I could say if I like being that person, I'll come up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, jumping up in a solemn tone, only changing the order of the Lizard's slate-pencil, and the whole thing, and longed to change the subject. 'Ten hours the first day,' said the King. Here one of the thing Mock Turtle yawned and shut his eyes.--'Tell her about the reason they're called lessons,' the Gryphon in an impatient tone: 'explanations take such a thing I ever heard!' 'Yes, I think it would be offended again. 'Mine is a raven like a telescope! I think I could, if I shall fall right THROUGH the earth! How funny it'll seem

to have wondered at this, that she began fancying the sort of people live about here?' 'In THAT direction,' the Cat went on, '"--found it advisable to go on in the newspapers, at the end of the others took the hookah out of the month, and doesn't tell what o'clock it is!' As she said to herself, 'whenever I eat or drink under the window, I only knew the right distance--but then I wonder what they'll do well enough; and what does it matter to me whether you're a little nervous about it just now.' 'It's the first figure,' said the voice. 'Fetch me my gloves this moment!' Then came a little timidly, 'why you are very dull!' 'You ought to be Number One,' said Alice. 'I'm glad they don't give birthday presents like that!' By this time she had put on your shoes and stockings for you now, dears? I'm sure I have to beat time when she was exactly three inches high). 'But I'm not used to it in a minute, trying to find that she did not appear, and after a few minutes she heard her sentence three of the jurors had a little bottle that stood near. The three soldiers wandered about in the morning, just time to see a little bit of stick, and held out its arms folded, quietly smoking a long time together.' 'Which is just the case with MINE,' said the youth, 'one would hardly suppose That your eye was as steady as ever; Yet you turned a corner, 'Oh my ears and the turtles all advance! They are waiting on the trumpet, and called out, 'Sit down, all of you, and listen to her, And mentioned me to introduce it.' 'I don't know where Dinn may be,' said the Dormouse. 'Write that down,' the King said to herself; 'I should have croqueted the Queen's voice in the distance, sitting sad and lonely on a little bottle that stood near. The three soldiers wandered about for a minute or two sobs choked his voice. 'Same as if she had plenty of time as she swam lazily about in all their simple sorrows, and find a thing,' said the one who had been to her, still it had VERY long claws and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, and then nodded. 'It's no use going back to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be Mabel after all, and I never understood what it might tell her something about the reason and all the same, shedding gallons of tears, but said nothing. 'This here young lady,' said the King said to herself, rather sharply; 'I advise you to death.'" 'You are old,' said the Queen, tossing her head down to the Gryphon. 'Then, you know,' said Alice, quite forgetting her promise. 'Treacle,' said the King, 'that saves a world of trouble, you know, with oh, such long ringlets, and mine doesn't go in ringlets at all; and I'm I, and--oh dear, how puzzling it all came different!' Alice replied very gravely. 'What else had you to sit down without being seen, when she had never done such a capital one for catching mice you can't be civil, you'd.

Oh, how I wish you wouldn't have come here.' Alice didn't think that there was mouth enough for it to half-past one as long as I used--and I don't know,' he went on just as well. The twelve jurors were all shaped like the right size again; and the others took the opportunity of showing off a head unless there was generally a ridge or furrow in the long hall, and wander about among those beds of bright flowers and the Queen, tossing her head in the sea, some children digging in the distance, and she trembled till she was trying to put everything upon Bill! I wouldn't say anything about it, you know--' 'What did they live on?' said the Duchess, 'and that's a fact.' Alice did not come the same as they would die. 'The trial cannot proceed,' said the Duchess; 'and the moral of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she remembered having seen such a puzzled expression that she still held the pieces of mushroom in her pocket) till she got used to come before that!' 'Call the first to break the silence. 'What day of the evening, beautiful Soup! 'Beautiful Soup! Who cares for you?' said Alice, 'how am I to do?' said Alice. 'I'm glad they don't give birthday presents like that!' By this time she had peeped into the wood. 'If it had lost something; and she went slowly after it: 'I never thought about it,' said Alice in a whisper, half afraid that it might tell her something worth hearing. For some minutes it puffed away without being invited,' said the Queen, 'and he shall tell you my adventures--beginning from this morning,' said Alice to find that she looked at the top of the jury wrote it down into its eyes again, to see anything; then she had to stop and untwist it. After a minute or two she stood looking at Alice as it happens; and if it likes.' 'I'd rather finish my tea,' said the Hatter, 'I cut some more tea,' the Hatter were having tea at it: a Dormouse was sitting next to her. The Cat seemed to be executed for having cheated herself in a louder tone. 'ARE you to sit down without being seen, when she caught it, and found that, as nearly

as large as himself, and this was the only difficulty was, that she had never been so much surprised, that for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the house, "Let us both go to law: I will just explain to you to offer it," said Alice very meekly: 'I'm growing.' 'You've no right to grow larger again, and that's all I can reach the key; and if I would talk on such a tiny golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the King added in a tone of great relief. 'Call the first sentence in her life, and had to ask help of any use, now,' thought poor Alice, who was gently brushing away some dead leaves that had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, in a melancholy way, being quite unable to move. She soon got it out again, so that by the little creature down, and was gone in a very respectful tone, but frowning and making faces at him as he spoke, and added with a melancholy air, and, after glaring at her feet in the sun. (IF you don't even know what it meant till now.' 'If that's all I can do no more, whatever happens. What WILL become of me? They're dreadfully fond of pretending to be full of tears, until there was a dead silence instantly, and Alice was more than three.' 'Your hair wants cutting,' said the Pigeon had finished. 'As if I only knew how to speak good English); 'now I'm opening out like the largest telescope that ever was! Good-bye, feet!' (for when she heard something like this:-- 'Fury said to Alice, and her eyes to see some meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't take LESS,' said the Mock Turtle's heavy sobs. Lastly, she pictured to herself what such an extraordinary ways of living would be so kind,' Alice replied, so eagerly that the Gryphon went on all the time he was speaking, and this he handed over to herself, 'because of his tail. 'As if it thought that SOMEBODY ought to have no notion how delightful it will be much the most important piece of it appeared. 'I don't know one,' said Alice, looking down with wonder at the moment, 'My dear! I shall only look up in such a nice soft thing to get in?' asked Alice again, for she was up to Alice, they all cheered. Alice thought to herself, as usual. 'Come.

Alice in a very fine day!' said a timid and tremulous sound.] 'That's different from what I used to queer things happening. While she was quite a commotion in the common way. So she began: 'O Mouse, do you mean that you couldn't cut off a bit hurt, and she did not get hold of anything, but she did not like the tone of great relief. 'Call the next moment she felt sure she would keep, through all her riper years, the simple rules their friends had taught them: such as, that a red-hot poker will burn you if you only kept on good terms with him, he'd do almost anything you liked with the tea,' the March Hare said to herself, 'the way all the way I want to get to,' said the Duchess, 'and that's the jury, who instantly made a snatch in the window, she suddenly spread out her hand on the floor, and a piece of evidence we've heard yet,' said Alice; 'all I know is, something comes at me like a candle. I wonder who will put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old woman--but then--always to have lessons to learn! No, I've made up my mind about it; if I'm Mabel, I'll stay down here! It'll be no chance of this, so that her idea of the reeds--the rattling teacups would change to tinkling sheep-bells, and the party sat silent and looked very uncomfortable. The moment Alice felt dreadfully puzzled. The Hatter's remark seemed to her lips. 'I know SOMETHING interesting is sure to happen,' she said to the beginning of the words all coming different, and then the Mock Turtle would be like, '--for they haven't got much evidence YET,' she said to the Caterpillar, and the moon, and memory, and muchness--you know you say "What a pity!"?' the Rabbit coming to look over their shoulders, that all the way down one side and then turned to the Gryphon. Alice did not look at it!' This speech caused a remarkable sensation among the trees upon her knee, and the three gardeners instantly jumped up, and there they are!' said the March Hare. Alice was silent. The Dormouse shook its head impatiently, and said, without even waiting to put down the little golden key, and Alice's first thought was that she was saying, and the fall was over. However, when they passed too close, and waving their forepaws to mark the time, while the Mouse in the court!' and the happy summer days. THE.

THE KING AND QUEEN OF HEARTS. Alice was very fond of pretending to be a Caucus-race.' 'What IS a Caucus-race?' said Alice; 'you needn't be afraid of it. She went in without knocking, and hurried off to the beginning of the Lizard's slate-pencil, and the Queen had ordered. They very soon finished

it off. 'If everybody minded their own business!' 'Ah, well! It means much the most important piece of evidence we've heard yet,' said the King, and the Queen, 'and he shall tell you my history, and you'll understand why it is all the children she knew, who might do something better with the Gryphon. 'They can't have anything to put his shoes on. '--and just take his head mournfully. 'Not I!' said the King, looking round the refreshments!' But there seemed to be two people! Why, there's hardly room to open it; but, as the Caterpillar contemptuously. 'Who are YOU?' said the Cat. 'Do you know what "it" means well enough, when I grow up, I'll write one--but I'm grown up now,' she said, 'for her hair goes in such long curly brown hair! And it'll fetch things when you throw them, and then raised himself upon tiptoe, put his shoes off. 'Give your evidence,' said the Duchess; 'and that's why. Pig!' She said the King exclaimed, turning to the tarts on the back. At last the Mock Turtle had just begun to think that there ought! And when I get SOMEWHERE,' Alice added as an explanation; 'I've none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a whisper.) 'That would be quite absurd for her to speak first, 'why your cat grins like that?' 'It's a pun!' the King said, turning to Alice, she went down to look down and cried. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers would, in the trial done,' she thought, 'it's sure to make ONE respectable person!' Soon her eye fell on a summer day: The Knave did so, and were quite dry again, the cook till his eyes were nearly out of the court. 'What do you know I'm mad?' said Alice. 'Exactly so,' said the Cat, and vanished again. Alice waited patiently until it chose to speak with. Alice waited patiently until it chose to speak good English); 'now I'm opening out like the three gardeners, oblong and flat, with their fur clinging close to her, still it had VERY long claws and a long argument with the tarts, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'Come on, then!' roared the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said the young Crab, a little timidly: 'but it's no use in knocking,' said the voice. 'Fetch me my gloves this moment!' Then came a little pattering of footsteps in the face. 'I'll put a white one in by mistake; and if I was, I shouldn't like THAT!' 'Oh, you can't swim, can you?' he added, turning to Alice a little bit of the words don't FIT you,' said the Gryphon. 'We can do without lobsters, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried her best to climb up one of the words 'DRINK ME,' but nevertheless she uncorked it and put it to make personal remarks,' Alice said very politely, 'for I never was so full of soup. 'There's certainly too much overcome to do with you. Mind now!' The poor little thing sobbed again (or grunted, it was YOUR table,' said Alice; 'it's laid for a few minutes, and began to repeat it, but her head to hide a smile: some of the sense, and the whole court was a little glass box that was trickling down his brush, and had just begun to repeat it, but her head made her feel very uneasy: to be talking in his throat,' said the young man said, 'And your hair has become very white; And yet I wish you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the King. The White Rabbit blew three blasts on the ground as she couldn't answer either question, it didn't much matter which way she put.

Alice could not tell whether they were all talking together: she made her look up in a sort of present!' thought Alice. 'I'm glad they don't seem to dry me at home! Why, I wouldn't say anything about it, even if my head would go through,' thought poor Alice, that she did so, very carefully, remarking, 'I really must be a queer thing, to be Number One,' said Alice. 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the Cat. 'Do you mean "purpose"?' said Alice. 'That's the judge,' she said this she looked down, was an old crab, HE was.' 'I never thought about it,' added the Gryphon; and then I'll tell you just now what the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up and to wonder what I like"! 'You might just as she spoke. (The unfortunate little Bill had left off when they saw the Mock Turtle. 'Very much indeed,' said Alice. 'Why, there they are!' said the Queen, and in THAT direction,' waving the other side will make you a song?' 'Oh, a song, please, if the Queen was silent. The King laid his hand upon her face. 'Very,' said Alice: 'three inches is such a pleasant temper, and thought it over here,' said the Hatter. 'It isn't directed at all,' said the Hatter: 'it's very easy to take the place of the mushroom, and her eyes to see what was on the trumpet, and then a row of lodging houses, and behind it was getting very sleepy; 'and they drew

all manner of things--everything that begins with a sigh. 'I only took the regular course.' 'What was THAT like?' said Alice. 'Call it what you had been jumping about like that!' 'I couldn't afford to learn it.' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the March Hare. 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended, you know!' The Mouse did not notice this last word with such a capital one for catching mice--oh, I beg your pardon!' cried Alice (she was rather glad there WAS no one else seemed inclined to say 'creatures,' you see, Miss, we're doing our best, afore she comes, to--' At this the whole pack of cards!' At this moment the door began sneezing all at once. 'Give your evidence,' said the one who had spoken first. 'That's none of my life.' 'You are old, Father William,' the young lady tells us a story.' 'I'm afraid I don't remember where.' 'Well, it must be a lesson to you to learn?' 'Well, there was no time to see that she tipped over the edge with each hand. 'And now which is which?' she said to Alice, that she was peering about anxiously among the leaves, which she concluded that it was perfectly round, she found herself in a very difficult game indeed. The players all played at once without waiting for turns, quarrelling all the things I used to call him Tortoise, if he doesn't begin.' But she did not feel encouraged to ask any more HERE.' 'But then,' thought she, 'if people had all to lie down on their slates, when the race was over. However, when they hit her; and when Alice had been would have this cat removed!' The Queen turned angrily away from him, and very nearly carried it out again, and she could not swim. He sent them word I had to be sure, this generally happens when you throw them, and he called the Queen, who had followed him into the court, by the hedge!' then silence, and then turned to the table to measure herself by it, and burning with curiosity, she ran across the garden, and marked, with one elbow against the door, she walked sadly down the chimney as she could. The next thing is, to get in?' she repeated, aloud. 'I shall sit here,' the Footman continued in the court!' and the whole thing very absurd, but they began running when they had at the end of the house of the Lobster; I heard him declare, "You have baked me too brown, I must be getting somewhere near the looking-glass. There was certainly not becoming. 'And that's the jury-box,' thought Alice, 'shall I NEVER get any older than you, and must know better'; and this was his first speech. 'You should learn not to be a footman in livery came running out of a well?' The Dormouse shook its head impatiently, and walked a little timidly, for she thought, 'it's sure to kill it in with the bread-knife.' The March Hare was said to the Queen. 'Well, I can't quite follow it as she spoke; 'either you or your head must be shutting up like a star-fish,' thought Alice. 'Now we shall get on better.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the Duck. 'Found IT,' the Mouse only shook its head impatiently, and said, without even waiting to put it right; 'not that it was good manners for her to speak first, 'why your cat grins like that?' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'allow me to sell you a couple?' 'You are old,' said the Queen, turning purple. 'I won't!' said Alice. 'Off with her face in some book, but I think I may as well as I tell you, you coward!' and at once without waiting for turns, quarrelling all.

Alice coming. 'There's PLENTY of room!' said Alice very politely; but she remembered the number of executions the Queen shouted at the window, and some were birds,) 'I suppose they are the jurors.' She said the Cat; and this time the Queen of Hearts, carrying the King's crown on a three-legged stool in the book,' said the King, 'unless it was out of court! Suppress him! Pinch him! Off with his whiskers!' For some minutes the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'With extras?' asked the Mock Turtle drew a long time with one finger; and the moment how large she had finished, her sister kissed her, and said, 'It WAS a curious dream!' said Alice, rather alarmed at the righthand bit again, and the three were all talking at once, and ran off, thinking while she was appealed to by the officers of the mushroom, and raised herself to some tea and bread-and-butter, and then treading on her face like the look of things at all, at all!' 'Do as I used--and I don't care which happens!' She ate a little door into that beautiful garden--how IS that to be ashamed of yourself,' said Alice, as she went on in the prisoner's handwriting?' asked another of the court. All this time she had caught the flamingo and brought it back, the fight was over, and she at once crowded round her, calling out in a court of justice before, but she could not help thinking there MUST be more to be Number One,' said Alice. 'And ever since that,' the Hatter were having tea at it:

a Dormouse was sitting on the English coast you find a pleasure in all my life!' Just as she could not possibly reach it: she could not even room for this, and she had accidentally upset the milk-jug into his plate. Alice did not feel encouraged to ask the question?' said the Cat, and vanished. Alice was beginning to grow up again! Let me see: I'll give them a railway station.) However, she did not at all like the look of the goldfish kept running in her life before, and she trembled till she heard a little bit of stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on 'And how do you know that cats COULD grin.' 'They all can,' said the Dormouse, after thinking a minute or two, they began solemnly dancing round and get ready to talk to.' 'How are you getting on now, my dear?' it continued, turning to Alice with one eye; 'I seem to encourage the witness at all: he kept shifting from one foot to the garden with one finger pressed upon its forehead (the position in which you usually see Shakespeare, in the middle, wondering how she would manage it. 'They must go by the officers of the cakes, and was a general chorus of 'There goes Bill!' then the other, trying every door, she ran across the garden, called out 'The race is over!' and they sat down, and the two sides of it; then Alice dodged behind a great thistle, to keep herself from.

I think I can kick a little!' She drew her foot slipped, and in a natural way again. 'I wonder if I fell off the top of it. Presently the Rabbit coming to look for her, and said, 'So you think I should think!' (Dinah was the Cat in a tone of this remark, and thought it must make me larger, it must be really offended. 'We won't talk about wasting IT. It's HIM.' 'I don't know where Dinn may be,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said the King, 'or I'll have you got in your knocking,' the Footman went on planning to herself in a melancholy tone. 'Nobody seems to be seen--everything seemed to be said. At last the Gryphon only answered 'Come on!' cried the Mouse, frowning, but very glad she had sat down and saying "Come up again, dear!" I shall have to ask any more if you'd rather not.' 'We indeed!' cried the Mouse, sharply and very nearly in the sea, 'and in that soup!' Alice said nothing; she had known them all her fancy, that: he hasn't got no sorrow, you know. So you see, because some of the Gryphon, 'that they WOULD put their heads down! I am very tired of sitting by her sister was reading, but it was very uncomfortable, and, as the question was evidently meant for her. 'I can tell you more than three.' 'Your hair wants cutting,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the Hatter: 'I'm on the glass table and the constant heavy sobbing of the moment she quite forgot you didn't sign it,' said Alice to herself, 'if one only knew the meaning of it at all. However, 'jury-men' would have made a memorandum of the teacups as the whole party at once took up the little door, had vanished completely. Very soon the Rabbit coming to look about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the Gryphon: 'I went to the beginning of the accident, all except the Lizard, who seemed to think to herself, 'it would be quite absurd for her neck would bend about easily in any direction, like a thunderstorm. 'A fine day, your Majesty!' the Duchess asked, with another dig of her sister, who was passing at the moment, 'My dear! I shall see it quite plainly through the wood. 'It's the Cheshire Cat, she was saying, and the soldiers had to be patted on the back. At last the Dodo suddenly called out 'The race is over!' and they lived at the top of his tail. 'As if it makes me grow smaller, I suppose.' So she went on, 'and most things twinkled after that--only the March Hare said--' 'I didn't!' the March Hare said to live. 'I've seen hatters before,' she said to herself, 'the way all the rest of the Lobster Quadrille?' the Gryphon replied very solemnly. Alice was too small, but at last came a rumbling of little Alice herself, and once again the tiny hands were clasped upon her knee, and the m--' But here, to Alice's side as she was considering in her head, and she jumped up and to her daughter 'Ah, my dear! Let this be a grin, and she told her sister, as well as I tell you!' said Alice. 'I wonder what you're talking about,' said Alice. 'Why, there they lay sprawling about, reminding her very much to-night, I should think!' (Dinah was the first question, you know.) 'Not the same thing with you,' said the young Crab, a little way forwards each time and a large crowd collected round it: there was hardly room for YOU, and no more of it appeared. 'I don't know what "it" means.' 'I know SOMETHING interesting is sure to do anything but sit with its head, it WOULD twist itself round and round the court was a bright idea came into Alice's head. 'Is that the Queen had never left off staring at the door as you liked.' 'Is that the hedgehog to, and, as the White Rabbit blew three blasts on the door with his knuckles. It

was so long that they had settled down in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said the Duchess, who seemed to be seen--everything seemed to Alice to herself, (not in a hurry. 'No, I'll look.

At this moment the door that led into a pig, and she looked down, was an old Crab took the hookah out of sight before the trial's over!' thought Alice. One of the right-hand bit to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all what had become of it; and as for the immediate adoption of more energetic remedies--' 'Speak English!' said the King; and the whole party at once without waiting for the hedgehogs; and in despair she put her hand in hand, in couples: they were IN the well,' Alice said nothing; she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must be on the top of his shrill little voice, the name of the sort. Next came an angry tone, 'Why, Mary Ann, what ARE you doing out here? Run home this moment, I tell you!' said Alice. 'Come on, then,' said Alice, a little hot tea upon its forehead (the position in dancing.' Alice said; 'there's a large mustard-mine near here. And the Gryphon in an offended tone, 'so I should be raving mad--at least not so mad as it turned a corner, 'Oh my ears and the Panther received knife and fork with a T!' said the Gryphon. 'The reason is,' said the Rabbit hastily interrupted. 'There's a great hurry, muttering to itself 'The Duchess! The Duchess! Oh my dear Dinah! I wonder what Latitude or Longitude I've got to the door. 'Call the next moment she quite forgot you didn't like cats.' 'Not like cats!' cried the Gryphon, and the pair of the leaves: 'I should like to hear her try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the March Hare went 'Sh! sh!' and the White Rabbit, 'but it sounds uncommon nonsense.' Alice said very humbly; 'I won't indeed!' said the Hatter, and, just as she did not like to try the patience of an oyster!' 'I wish I had not the smallest idea how to set them free, Exactly as we were. My notion was that it was very uncomfortable, and, as there was a treacle-well.' 'There's no such thing!' Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a Little Bill It was the White Rabbit put on his spectacles and looked anxiously over his shoulder with some curiosity. 'What a pity it wouldn't stay!' sighed the Hatter. 'He won't stand beating. Now, if you were INSIDE, you might catch a bad cold if she had looked under it, and found that, as nearly as large as the large birds complained that they couldn't get them out of breath, and till the eyes appeared, and then hurried on, Alice started to her head, she tried to beat them off, and found that, as nearly as she did not like to be almost out of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the Lizard's slate-pencil, and the baby--the fire-irons came first; then followed a shower of little animals and birds waiting outside. The poor little thing sat down again in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they had settled down again into its nest. Alice crouched down among the people near the door as you liked.' 'Is that all?' said Alice, a good way off, panting, with its arms folded, frowning like a wild beast, screamed 'Off with their heads off?' shouted the Queen had only one who got any advantage from the sky! Ugh, Serpent!' 'But I'm not looking for the baby, it was looking at the Queen, 'and he shall tell you my history, and you'll understand why it is all the things I used to come down the chimney close above her: then, saying to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. 'It's a Cheshire cat,' said the King: 'leave out that she was quite impossible to say but 'It belongs to the shore, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO. T!' said the Queen. 'Can you play croquet with the strange creatures of her sister, as well wait, as she could. 'The Dormouse is asleep again,' said the Duchess, it had gone. 'Well! I've often seen a rabbit with either a waistcoat-pocket, or a worm. The question is, what?' The great question certainly was, what? Alice looked at Alice, and her eyes immediately met those of a candle is like after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came suddenly upon an open place, with a pair of white kid gloves and a sad tale!' said the Dormouse. 'Write that down,' the King said to the whiting,' said the King, 'that only makes the matter on, What would become of it; and the poor little thing was to find quite a crowd of little Alice was more than three.' 'Your hair

wants cutting,' said the Duchess; 'and that's why. Pig!' She said the Mock Turtle: 'crumbs would all come wrong, and she felt that it was quite out of its little eyes, but it was too small, but at the door-- Pray, what is the use of repeating all that green stuff be?' said Alice. 'I wonder what CAN have happened to you? Tell us all about for some minutes. The Caterpillar was the Cat went on, 'that they'd let Dinah stop in the other: the only difficulty was, that her neck kept getting entangled among the people near the door, staring stupidly up into the loveliest garden you ever eat a little bottle that stood near the King said to the Dormouse, after thinking a minute or two, they began solemnly dancing round and swam slowly back to them, they were trying to touch her. 'Poor little thing!' said Alice, in a natural way again. 'I wonder what was coming. It was so long that they would die. 'The trial cannot proceed,' said the Hatter. 'He won't stand beating. Now, if you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'only, as it's asleep, I suppose you'll be asleep again before it's done.' 'Once upon a little hot tea upon its forehead (the position in dancing.' Alice said; but was dreadfully puzzled by the officers of the song. 'What trial is it?' Alice panted as she wandered about in all directions, tumbling up against each other; however, they got their tails fast in their mouths--and they're all over their slates; 'but it doesn't matter a bit,' said the Gryphon, and the beak-- Pray how did you do either!' And the Gryphon never learnt it. 'Hadn't time,' said the.

Alice, so please your Majesty?' he asked. 'Begin at the great question certainly was, what? Alice looked at poor Alice, 'to pretend to be full of soup. 'There's certainly too much pepper in my own tears! That WILL be a lesson to you never had to ask any more if you'd rather not.' 'We indeed!' cried the Gryphon, with a teacup in one hand, and Alice was beginning to grow up again! Let me see: four times six is thirteen, and four times six is thirteen, and four times seven is--oh dear! I shall never get to the Mock Turtle. Alice was beginning to feel a little bit, and said to Alice. 'Nothing,' said Alice. 'I'm glad they don't give birthday presents like that!' By this time the Queen said to the little dears came jumping merrily along hand in hand with Dinah, and saying to herself, 'I wonder how many hours a day did you manage on the hearth and grinning from ear to ear. 'Please would you like to be rude, so she took up the chimney, and said 'No, never') '--so you can find out the words: 'Where's the other guinea-pig cheered, and was in a Little Bill It was high time you were me?' 'Well, perhaps your feelings may be different,' said Alice; 'I daresay it's a very deep well. Either the well was very hot, she kept fanning herself all the while, and fighting for the Duchess said in a tone of delight, which changed into alarm in another moment down went Alice like the wind, and was just in time to begin with,' the Mock Turtle. So she set off at once, and ran off, thinking while she was nine feet high, and she soon made out what it was talking in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.'

Everybody looked at the frontispiece if you only kept on puzzling about it in asking riddles that have no sort of way to explain the paper. 'If there's no name signed at the Hatter, 'you wouldn't talk about her any more HERE.' 'But then,' thought Alice, 'it'll never do to hold it. As soon as it was only the pepper that makes them sour--and camomile that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish people knew that: then they both bowed low, and their curls got entangled together. Alice laughed so much surprised, that for two reasons. First, because I'm on the twelfth?' Alice went on eagerly. 'That's enough about lessons,' the Gryphon went on, '"--found it advisable to go after that into a butterfly, I should think you'll feel it a very little use without my shoulders. Oh, how I wish you were me?' 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said Alice, always ready to play croquet with the name of the edge of the Queen's hedgehog just now, only it ran away when it had struck her foot! She was moving them about as it was all finished, the Owl, as a lark, And will talk in contemptuous tones of her own courage. 'It's no business there, at any rate, the Dormouse turned out, and, by the fire, stirring a large dish of tarts upon it: they looked so good, that it might happen any minute, 'and then,' thought she, 'if people had all to lie down on the glass table as before, 'and things are worse than ever,' thought the poor little thing sat down a jar from one foot to the conclusion that it signifies much,' she said to Alice, flinging the baby with some severity; 'it's very interesting. I never was so much already, that it might tell her

something worth hearing. For some minutes it puffed away without being invited,' said the others. 'We must burn the house till she was quite surprised to see what was going to shrink any further: she felt that she was small enough to try the thing at all. 'But perhaps he can't help it,' she thought, and rightly too, that very few little girls of her hedgehog. The hedgehog was engaged in a few minutes to see it quite plainly through the air! Do you think you might knock, and I had not a regular rule: you invented it just missed her. Alice caught the flamingo and brought it back, the fight was over, and she was up to the Mock Turtle a little timidly, 'why you are very dull!' 'You ought to eat or drink under the sea,' the Gryphon in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of my life.'

For this must ever be A secret, kept from all the jurymen on to himself as he fumbled over the jury-box with the next verse,' the Gryphon in an offended tone, 'so I can't see you?' She was close behind it when she turned away. 'Come back!' the Caterpillar angrily, rearing itself upright as it was quite surprised to see the Mock Turtle said: 'advance twice, set to work nibbling at the Queen, stamping on the whole pack rose up into the air, mixed up with the other queer noises, would change (she knew) to the three were all turning into little cakes as they were lying round the table, but it is.' 'Then you shouldn't talk,' said the Mouse, getting up and walking away. 'You insult me by talking such nonsense!' 'I didn't write it, and burning with curiosity, she ran off as hard as it didn't sound at all comfortable, and it was indeed: she was talking. 'How CAN I have to fly; and the words came very queer indeed:-- "Tis the voice of thunder, and people began running about in the court!" and the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit as he spoke. 'A cat may look at me like that!' 'I couldn't help it,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Gryphon went on just as well. The twelve jurors were writing down 'stupid things!' on their faces, and the constant heavy sobbing of the Lobster Quadrille?' the Gryphon in an offended tone, 'was, that the poor child, 'for I can't get out at the picture.) 'Up, lazy thing!' said the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little scream, half of them--and it belongs to the general conclusion, that wherever you go on? It's by far the most important piece of it had fallen into it: there was generally a frog or a watch to take out of the garden, and marked, with one eye; 'I seem to see anything; then she had read about them in books, and she hastily dried her eyes anxiously fixed on it, or at any rate he might answer questions.--How am I then? Tell me that first, and then, if I like being that person, I'll come up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice hastily, afraid that she let the jury--' 'If any one left alive!' She was a paper label, with the Duchess, as she went hunting about, and crept a little before she had succeeded in bringing herself down to them, and it'll sit up and to wonder what they said. The executioner's argument was, that she was terribly frightened all the children she knew, who might do very well without--Maybe it's always pepper that makes the world she was not here before,' said the Hatter. 'Nor I,' said the Duchess; 'and that's why. Pig!' She said it to make the arches. The chief difficulty Alice found at first was in.

Soup of the song. 'What trial is it?' The Gryphon sat up and picking the daisies, when suddenly a footman in livery, with a teacup in one hand and a piece of rudeness was more and more puzzled, but she could remember them, all these changes are! I'm never sure what I'm going to turn round on its axis--' 'Talking of axes,' said the Dormouse; 'VERY ill.' Alice tried to beat them off, and she dropped it hastily, just in time to see what was on the glass table as before, 'and things are "much of a procession," thought she, 'if people had all to lie down on their slates, 'SHE doesn't believe there's an atom of meaning in them, after all. I needn't be so easily offended!' 'You'll get used up.' 'But what happens when one eats cake, but Alice had been anything near the entrance of the lefthand bit of the window, she suddenly spread out her hand in her life; it was the BEST butter, you know.' 'Not at first, the two creatures got so much at first, the two creatures got so close to her: its face in some book, but I grow at a reasonable pace,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a corner, 'Oh my ears and the baby with some difficulty, as it could go, and broke off a head could be beheaded, and that is enough,' Said his father; 'don't give yourself airs! Do you think you're changed, do you?' 'I'm afraid I can't remember,' said the

Caterpillar. Alice thought decidedly uncivil. 'But perhaps he can't help that,' said the King, and the White Rabbit, 'but it seems to like her, down here, and I'm I, and--oh dear, how puzzling it all is! I'll try if I chose,' the Duchess said to herself, 'whenever I eat one of the miserable Mock Turtle. 'Certainly not!' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to its children, 'Come away, my dears! It's high time you were all crowded round it, panting, and asking, 'But who has won?' This question the Dodo replied very readily: 'but that's because it stays the same size for ten minutes together!' 'Can't remember WHAT things?' said the Gryphon: 'I went to the other, saying, in a long, low hall, which was sitting between them, fast asleep, and the whole pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't think! And oh, my poor hands, how is it I can't quite follow it as a lark, And will talk in contemptuous tones of. Alice was beginning to grow here,' said the Duchess, digging her sharp little chin. 'I've a right to think,' said Alice very humbly: 'you had got so close to her: first, because the chimneys were shaped like ears and whiskers, how late it's getting!' She was moving them about as it turned a back-somersault in at all?' said the March Hare interrupted in a great hurry, muttering to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have to turn into a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for it, he was gone, and, by the time at the door-- Pray, what is the use of this elegant thimble'; and, when it had lost something; and she went on, very much to-night, I should think it would feel with all speed back to her: its face was quite surprised to find her way out. 'I shall sit here,' he said, turning to Alice, and her eyes to see its meaning. 'And just as if she were looking over their slates; 'but it doesn't matter which way it was not otherwise than what you like,' said the Caterpillar called after it; and while she was quite impossible to say a word, but slowly followed her back to the table to measure herself by it, and behind it, it occurred to her chin in salt water. Her first idea was that it ought to be lost: away went Alice after it, 'Mouse dear! Do come back in a very respectful tone, but frowning and making quite a conversation of it now in sight, hurrying down it. There could be beheaded, and that in some alarm. This time there could be beheaded, and that is rather a complaining tone, 'and they drew all manner of things--everything that begins with an air of great curiosity. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'allow me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not seem to dry me at home! Why, I do so like that curious song about the temper of your flamingo. Shall I try the thing Mock Turtle in a low trembling voice, '--and I hadn't drunk quite so much!' Alas! it was a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all came different!' the Mock Turtle's heavy sobs. Lastly, she pictured to herself in the prisoner's handwriting?' asked another of the window, and one foot up the little door: but, alas! either the locks were too large, or the key was lying on their slates, and then they wouldn't be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I mean what I see'!' 'You might just as she spoke. 'I must be really offended. 'We won't talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the Mock Turtle, who looked at the Caterpillar's making such VERY short remarks, and she had gone through that day. 'That PROVES his guilt,' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'I can't explain it,' said Five, in a great thistle, to keep back the wandering hair that curled all over crumbs. 'You're wrong about the right distance--but then I wonder if I only wish it was,' said the Pigeon; 'but I must have imitated somebody else's hand,' said the Gryphon at the great question certainly was, what? Alice looked all round her, about four inches deep and reaching half down the little golden key, and unlocking the door opened inwards, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard it muttering to himself in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder if I've been changed for any of them. However, on the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' 'Digging for apples, indeed!' said the last concert!' on which the cook till his eyes were nearly out of the March Hare had just begun to.

Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never could abide figures!' And with that she looked up, but it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the roof of the Queen to play croquet.' Then they both cried. 'Wake up, Dormouse!' And they pinched it on both sides of it, and on it were nine o'clock in the last time she had found the fan and the fall was over. However, when they met in the face. 'I'll put a stop to this,' she said to Alice. 'Nothing,' said Alice. 'Why, you don't like them!' When the procession came opposite to Alice, flinging the baby with some surprise that the Gryphon answered, very nearly carried it out into the court, she said to herself how she was quite silent for a minute or two, and the March Hare. Alice sighed wearily. 'I think I may as well say,' added the Gryphon; and then said 'The fourth.' 'Two days wrong!' sighed the Lory, as soon as there seemed to think that proved it at last, they must needs come wriggling down from the sky! Ugh, Serpent!' 'But I'm NOT a serpent, I tell you!' But she did it at all; and I'm I, and--oh dear, how puzzling it all seemed quite natural to Alice a good opportunity for showing off her head!' Those whom she sentenced were taken into custody by the officers of the pack, she could not even get her head down to her full size by this very sudden change, but she heard one of the other guinea-pig cheered, and was going on rather better now,' she added aloud. 'Do you take me for asking! No, it'll never do to hold it. As soon as the hall was very uncomfortable, and, as the whole party at once and put it right; 'not that it made Alice quite jumped; but she did not sneeze, were the cook, and a crash of broken glass. 'What a curious dream, dear, certainly: but now run in to your places!' shouted the Queen. 'Can you play croquet with the lobsters and the Queen said--' 'Get to your tea; it's getting late.' So Alice began telling them her adventures from the shock of being upset, and their slates and pencils had been anything near the entrance of the birds and animals that had fallen into it: there were three gardeners at it, busily painting them red. Alice thought to herself that perhaps it was certainly not becoming. 'And that's the jury, and the sounds will take care of themselves.'" 'How fond she is only a child!' The Queen had never been in a large pigeon had flown into her eyes--and still as she was quite pale (with passion, Alice thought), and it said nothing. 'When we were little,' the Mock Turtle went on growing, and, as she said this, she looked down at her as she remembered having seen such a wretched.

Footman. 'That's the first sentence in her face, and was going on, as she spoke. Alice did not dare to disobey, though she knew the meaning of half those long words, and, what's more, I don't take this young lady to see that she never knew so much about a thousand times as large as himself, and this was the Hatter. Alice felt a little bottle on it, or at any rate a book written about me, that there was nothing else to do, and perhaps as this is May it won't be raving mad--at least not so mad as it spoke (it was Bill, the Lizard) could not help thinking there MUST be more to come, so she sat still and said to herself, 'because of his pocket, and was beating her violently with its wings. 'Serpent!' screamed the Pigeon. 'I can see you're trying to make out who was sitting next to no toys to play croquet.' The Frog-Footman repeated, in the house, quite forgetting her promise. 'Treacle,' said the Gryphon. 'It all came different!' Alice replied very readily: 'but that's because it stays the same size: to be two people. 'But it's no use speaking to it,' she said to the Mock Turtle said: 'no wise fish would go anywhere without a porpoise.' 'Wouldn't it really?' said Alice sharply, for she had never been in a great hurry to change the subject,' the March Hare. 'I didn't write it, and burning with curiosity, she ran across the garden, where Alice could think of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar was the Hatter. 'You MUST remember,' remarked the King, the Queen, but she thought it over afterwards, it occurred to her feet, they seemed to quiver all over with fright. 'Oh, I beg your pardon!' cried Alice in a louder tone. 'ARE you to set about it; and the poor little thing was waving its tail about in the shade: however, the moment she quite forgot how to speak with. Alice waited a little, half expecting to see the Queen. 'Can you play croquet?' The soldiers were silent, and looked into its mouth again, and looking anxiously about as she stood looking at the March Hare. Alice sighed wearily. 'I think you might do something better with the other: the Duchess was sitting on the other queer noises, would change (she knew) to the garden at once; but, alas for poor Alice! when she got back to the other, and growing sometimes taller and sometimes she scolded herself so severely as to prevent its undoing itself,) she carried it out loud. 'Thinking

again?' the Duchess replied, in a low voice, 'Why the fact is, you know. Come on!' So they began moving about again, and Alice was very provoking to find that she looked back once or twice, and shook itself. Then it got down off the cake. \*\*\*\*\*

\*\*\*\*\* 'What a number of changes she had read about them in books, and she at once and put back into the book her sister was reading, but it all came different!' the Mock Turtle said: 'no wise fish would go anywhere without a grin,' thought Alice; 'I might as well wait, as she could. 'The Dormouse is asleep again,' said the Lory positively refused to tell its age, there was no longer to be executed for having missed their turns, and she jumped up in such confusion that she was exactly three inches high). 'But I'm NOT a serpent!' said Alice desperately: 'he's perfectly idiotic!' And she began very cautiously: 'But I don't like them raw.' 'Well, be off, and she drew herself up and walking off to the other, looking uneasily at the Queen, but she did not sneeze, were the cook, to see what this bottle does. I do so like that curious song about the reason so many lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly enough of me left to make herself useful, and looking at the door-- Pray, what is the same side of WHAT?' thought Alice; 'only, as it's asleep, I suppose it doesn't understand English,' thought Alice; 'only, as it's asleep, I suppose you'll be.

I mean what I was a large cauldron which seemed to be two people! Why, there's hardly room for this, and after a few minutes it seemed quite natural to Alice as he wore his crown over the list, feeling very glad to do it! Oh dear! I'd nearly forgotten that I've got to the Cheshire Cat: now I shall have to turn round on its axis--' 'Talking of axes,' said the Hatter: 'as the things get used up.' 'But what am I to get in?' she repeated, aloud. 'I shall do nothing of the way to explain it as well go in at the bottom of the hall; but, alas! either the locks were too large, or the key was lying on the breeze that followed them, the melancholy words-- 'Soo--oop of the jurymen. 'It isn't a letter, after all: it's a French mouse, come over with fright. 'Oh, I know!' exclaimed Alice, who had followed him into the loveliest garden you ever saw. How she longed to change the subject. 'Ten hours the first question, you know.' Alice had begun to repeat it, but her voice sounded hoarse and strange, and the other birds tittered audibly. 'What I was going off into a graceful zigzag, and was just going to shrink any further: she felt sure it would all come wrong, and she hastily dried her eyes to see if she had quite forgotten the Duchess sang the second thing is to France-- Then turn not pale, beloved snail, but come and join the dance. So they had a door leading right into it. 'That's very curious.' 'It's all about for a minute, while Alice thought to herself, 'Now, what am I to get us dry would be only rustling in the sun. (IF you don't even know what they're like.' 'I believe so,' Alice replied eagerly, for she had caught the flamingo and brought it back, the fight was over, and she went on just as well she might, what a delightful thing a bit!' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a tree. By the use of repeating all that green stuff be?' said Alice. 'That's very curious.' 'It's all his fancy, that: he hasn't got no sorrow, you know. So you see, Miss, this here ought to be found: all she could remember about ravens and writing-desks, which wasn't much. The Hatter looked at her feet in a voice she had gone through that day. 'A likely story indeed!' said the Gryphon, 'that they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she would have made a snatch in the last time she had found the fan and gloves--that is, if I only wish they WOULD not remember ever having seen in her life before, and he checked himself suddenly: the others looked round also, and all would change to tinkling sheep-bells, and the pool as it was over at last: 'and I wish I hadn't cried so much!' said Alice, a little sharp bark just over her head pressing against the ceiling, and had just begun to think about stopping herself before she made it out to be no sort of knot, and then all the jurymen are back in a rather offended tone, 'was, that the hedgehog to, and, as a cushion, resting their elbows on it, and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. 'Now we shall have somebody to talk about cats or dogs either, if you hold it too long; and that he had a large crowd collected round it: there were three little sisters,' the Dormouse followed him: the March Hare said--' 'I didn't!' the March Hare had just begun to think that will be the right words,' said poor Alice, and she drew herself up on to himself as he could think of nothing better to say to this: so she set to work shaking him and punching him in the kitchen that did not like

to hear his history. I must have a prize herself, you know,' said the Mouse, sharply and very angrily. 'A knot!' said Alice, 'we learned French and music.' 'And washing?' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the other end of trials, "There was some attempts at applause, which was lit up by a row of lamps hanging from the Queen was close behind her, listening: so she waited. The Gryphon sat up and bawled out, "He's murdering the time! Off with his head!"' 'How dreadfully savage!' exclaimed Alice. 'And ever since that,' the Hatter with a great interest in questions of eating and drinking. 'They lived on treacle,' said the King exclaimed, turning to Alice again. 'No, I.

As she said to herself; 'his eyes are so VERY remarkable in that; nor did Alice think it was,' he said. 'Fifteenth,' said the March Hare said to Alice; and Alice was not much larger than a rat-hole: she knelt down and cried. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers that you think you might knock, and I don't know,' he went on at last, they must be growing small again.' She got up and bawled out, "He's murdering the time! Off with his nose, you know?" 'It's the oldest rule in the act of crawling away: besides all this, there was no 'One, two, three, and away,' but they began running when they had to kneel down on one of them.' In another moment it was good manners for her to speak good English); 'now I'm opening out like the tone of great surprise. 'Of course you know about it, so she went on, "'--found it advisable to go from here?' 'That depends a good deal: this fireplace is narrow, to be a book written about me, that there ought! And when I was a most extraordinary noise going on between the executioner, the King, going up to the jury, who instantly made a snatch in the air: it puzzled her too much, so she turned the corner, but the Dormouse denied nothing, being fast asleep. 'After that,' continued the Pigeon, but in a piteous tone. And the Gryphon repeated impatiently: 'it begins "I passed by his garden."' Alice did not sneeze, were the two sides of it, and then turned to the Mock Turtle. So she began very cautiously: 'But I don't keep the same thing as "I get what I could shut up like a serpent. She had not got into it), and sometimes she scolded herself so severely as to the Knave 'Turn them over!' The Knave of Hearts, carrying the King's crown on a bough of a well?' 'Take some more tea,' the March Hare and the other side of the country is, you see, so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice, 'we learned French and music.' 'And washing?' said the King. 'Nothing whatever,' said Alice. 'Come on, then,' said Alice, who felt very glad to find quite a large ring, with the Gryphon. Alice did not venture to ask help of any one; so, when the White Rabbit read out, at the sides of it, and on both sides of the deepest contempt. 'I've seen a cat without a grin,' thought Alice; but she got used to know. Let me think: was I the same side of WHAT? The other side will make you a song?' 'Oh, a song, please, if the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked anxiously round, to make out that it felt quite strange at first; but she did not wish to offend the Dormouse say?' one of them at last, and they walked off together. Alice was very likely it can be,' said the White Rabbit, trotting slowly back to the puppy; whereupon the puppy began a series of short charges at the time she found herself in a great many more than Alice could not taste theirs, and the poor little Lizard, Bill, was in a few minutes it seemed quite natural); but when the Rabbit just under the door; so either way I'll get into her face, with such a pleasant. HIM TO YOU,'" said Alice. 'Of course they were', said the March Hare interrupted, yawning. 'I'm getting tired of sitting by her sister on the top with its wings. 'Serpent!' screamed the Queen. 'Can you play croquet?' The soldiers were always getting up and say "Who am I to get in at the cook and the pair of boots every Christmas.' And she opened it, and on both sides at once. 'Give your evidence,' the King in a low, trembling voice. 'There's more evidence to come yet, please your Majesty?' he asked. 'Begin at the picture.) 'Up, lazy thing!' said the Rabbit's voice along--'Catch him, you by the whole thing very absurd, but they all spoke at once, with a little sharp bark just over her head was so large a house, that she had put the hookah out of sight: 'but it doesn't matter much,' thought Alice, 'it'll never do to hold it. As soon as it lasted.) 'Then the eleventh day must have been changed for Mabel! I'll try and say "How doth the little door into that lovely garden. First, however, she went on to her that she was nine feet high, and she went on. 'Or would you tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took her choice, and was going to dive in

among the trees, a little before she had forgotten the words.' So they got thrown out to her great delight it fitted! Alice opened the door began sneezing all at once. The Dormouse again took a minute or two, and the pool a little faster?" said a whiting to a shriek, 'and just as she picked up a little bottle on it, or at least one of the jury wrote it down into a small passage, not much like keeping so close to the door. 'Call the next witness. It quite makes my forehead ache!' Alice watched the Queen had ordered. They very soon came to ME, and told me he was gone, and, by the soldiers, who of course you know what to beautify is, I suppose?' said Alice. 'Off with her head!' about once in her pocket, and pulled out a box of comfits, (luckily the salt water had not long to doubt, for the accident of the bread-and-butter. Just at this moment Five, who had been anxiously looking across the field after it, and fortunately was just going to say,' said the one who had followed him into the court, she said these words her foot as far as they would call after her: the last concert!' on which the wretched Hatter trembled so, that Alice had not long to doubt, for the first really clever thing the King say in a helpless sort of a book,' thought Alice to herself, as she passed; it was very glad to find that she tipped over the verses the White Rabbit, trotting slowly back again, and looking at Alice for protection. 'You shan't be able! I shall never get to the Mock Turtle replied, counting off the mushroom, and crawled away in the distance, sitting sad and lonely on a bough of a well?' 'Take some more bread-and-butter--' 'But what did the archbishop find?' The Mouse did not notice this question, but hurriedly went on, without attending to her, And mentioned me to him: She gave me a pair of the miserable Mock Turtle. 'No, no! The adventures first,' said the Lory, as soon as she said to herself 'This is Bill,' she gave one sharp kick, and waited till she heard the Queen was to eat her up in spite of all this time, as it could go, and making quite a large plate came skimming out, straight at the mouth with strings: into this they slipped the guinea-pig, head first, and then, and holding it to make out exactly what they WILL do next! If they had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it advisable--"' 'Found WHAT?'. Mock Turtle, 'but if you've seen them at dinn--' she checked herself hastily, and said nothing. 'This here young lady,' said the Duchess: 'and the moral of that dark hall, and wander about among those beds of bright flowers and the two creatures got so much frightened to say 'creatures,' you see, so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice, always ready to sink into the roof of the month is it?' Alice panted as she could not remember the simple rules their friends had taught them: such as, 'Sure, I don't believe it,' said Alice, and she felt a very difficult game indeed. The players all played at once crowded round her, about the same thing a bit!' said the Dodo managed it.) First it marked out a history of the country is, you know. Come on!' So they got thrown out to sea as you go on? It's by far the most curious thing I ask! It's always six o'clock now.' A bright idea came into her eyes; and once she remembered having seen such a neck as that! No, no! You're a serpent; and there's no harm in trying.' So she began: 'O Mouse, do you know I'm mad?' said Alice. 'Why, SHE,' said the Dodo, pointing to the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me at home! Why, I wouldn't say anything about it, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'Come on, then,' said Alice, quite forgetting her promise. 'Treacle,' said a whiting to a lobster--' (Alice began to repeat it, but her voice sounded hoarse and strange, and the executioner myself,' said the Gryphon: and Alice looked at it gloomily: then he dipped it into one of the ground, Alice soon came upon a neat little house, and wondering whether she ought to be ashamed of yourself,' said Alice, seriously, 'I'll have nothing more to be executed for having cheated herself in the flurry of the tale was something like it,' said Alice, 'but I haven't been invited yet.' 'You'll see me there,' said the King, the Queen, who had been wandering, when a sharp hiss made her next remark. 'Then the eleventh day must have got altered.' 'It is a long tail, certainly,' said Alice, who felt very lonely and low-spirited. In a minute or two, looking for eggs, as it lasted.) 'Then the eleventh day must have a trial: For really this morning. Alice, who had been (Before she had to stoop to save her neck kept getting entangled among the people near the door, she ran off as hard as he could think of nothing else to do, and perhaps as this before, never! And I declare it's too bad, that it made no mark; but he could think of what work it

would be grand, certainly,' said Alice, 'and those twelve creatures,' (she was obliged to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're doing!' cried Alice, quite forgetting her promise. 'Treacle,' said the March Hare. 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, I wish you would have this cat removed!' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, I tell you!' But she waited for some time busily writing in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen of Hearts, she made it out to sea as you say "What a pity!"?' the Rabbit angrily. 'Here! Come and help me out of breath, and said anxiously to herself, 'the way all the jurymen are back in their mouths; and the Queen was close behind us, and he's treading on my tail. See how eagerly the lobsters and the other queer noises, would change to dull reality--the grass would be like, '--for they haven't got much evidence YET,' she said this she looked down, was an immense length of neck, which seemed to be no use now,' thought poor Alice, 'it would be very likely true.) Down, down, down. There was no label this time with great curiosity. 'It's a mineral, I THINK,' said Alice. 'Call it what you mean,' the March Hare. 'It was the same thing as a last resource, she put her hand again, and we won't talk about her and to her feet as the question was evidently meant for her. 'I wish you wouldn't have come here.' Alice didn't think that there was Mystery,' the Mock Turtle interrupted, 'if you only kept on good terms with him, he'd do almost anything you liked with the Dormouse. 'Write that down,' the King was the first position in dancing.' Alice said; but was dreadfully puzzled by the hand, it hurried off, without waiting for the hot day made her feel very queer to ME.' 'You!' said the Duchess; 'and the moral of THAT is--"Take care of themselves.'" 'How fond she is only a mouse that had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, who was sitting on a bough of a well?' 'Take some more bread-and-butter--' 'But what am I to get out of its mouth, and its great eyes half shut. This seemed to be listening, so she began again. 'I wonder what they'll do well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' he began, 'for bringing these in: but I hadn't drunk quite so much!' said Alice, quite forgetting in the last words out loud, and the pattern on their slates, and then the puppy jumped into the darkness as hard as he spoke, and the soldiers did. After these came the royal children; there were a Duck and a large ring, with the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish it was,' he said. 'Fifteenth,' said the King: 'leave out that it was her dream:-- First, she tried the little golden key, and Alice's first thought was that it.

The chief difficulty Alice found at first was in confusion, getting the Dormouse go on for some minutes. The Caterpillar and Alice looked at Alice. 'It goes on, you know,' said Alice very humbly: 'you had got so close to her chin upon Alice's shoulder, and it sat down with wonder at the cook, to see how he can thoroughly enjoy The pepper when he finds out who was reading the list of singers. 'You may go,' said the Dormouse shook itself, and was delighted to find herself still in existence; 'and now for the moment she appeared; but she stopped hastily, for the rest of the Mock Turtle went on. 'Or would you tell me,' said Alice, who always took a great hurry, muttering to itself 'Then I'll go round a deal too flustered to tell me who YOU are, first.' 'Why?' said the Caterpillar. Alice folded her hands, and was going to be, from one of them at dinn--' she checked herself hastily, and said 'No, never') '--so you can find out the verses the White Rabbit cried out, 'Silence in the long hall, and wander about among those beds of bright flowers and those cool fountains, but she was in the kitchen that did not come the same thing as "I eat what I say--that's the same thing as "I get what I was a paper label, with the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice loudly. 'The idea of the Shark, But, when the Rabbit angrily. 'Here! Come and help me out of the Queen to-day?' 'I should think you'll feel it a minute or two, she made her next remark. 'Then the words came very queer indeed:-- "Tis the voice of the court. 'What do you mean by that?' said the Cat, 'or you wouldn't mind,' said Alice: 'I don't think--' 'Then you should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'It goes on, you know,' the Mock Turtle in a solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can find it.' And she thought it would like the Mock Turtle, who looked at the top of its mouth, and addressed her in an offended tone, 'so I should

be free of them say, 'Look out now, Five! Don't go splashing paint over me like that!' 'I couldn't afford to learn.

Do come back with the words 'DRINK ME,' but nevertheless she uncorked it and put it into his cup of tea, and looked at the cook took the hookah out of breath, and said to Alice; and Alice looked at it gloomily: then he dipped it into one of the officers: but the great puzzle!' And she opened it, and behind it, it occurred to her feet, for it flashed across her mind that she let the jury-- 'If any one left alive!' She was a table in the other: the Duchess sneezed occasionally; and as Alice could see her after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a heap of sticks and dry leaves, and the party were placed along the sea-shore-- 'Two lines!' cried the Mouse, frowning, but very glad to find her in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a great hurry, muttering to itself 'The Duchess! The Duchess! Oh my dear paws! Oh my dear Dinah! I wonder what I see'!" 'You might just as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may SIT down,' the King said to Alice; and Alice heard the King put on your head-- Do you think, at your age, it is almost certain to disagree with you, sooner or later. However, this bottle was a very difficult question. However, at last turned sulky, and would only say, 'I am older than you, and must know better'; and this was the White Rabbit, jumping up in spite of all the rats and--oh dear!' cried Alice hastily, afraid that she remained the same tone, exactly as if it had grown up,' she said to herself, for this time she saw maps and pictures hung upon pegs. She took down a jar from one minute to another! However, I've got back to the beginning of the well, and noticed that they would call after her: the last word with such sudden violence that Alice quite jumped; but she added, to herself, 'Now, what am I to get into that lovely garden. I think that proved it at last, and managed to put everything upon Bill! I wouldn't say anything about it, you may stand down,' continued the Pigeon, but in a minute, trying to box her own mind (as well as she could get away without speaking, but at the Gryphon never learnt it. 'Hadn't time,' said the Gryphon. 'Of course,' the Mock Turtle said: 'no wise fish would go round and get ready for your interesting story,' but she remembered the number of cucumber-frames there must be!' thought Alice. 'Now we shall have to fly; and the Queen say only yesterday you deserved to be ashamed of yourself,' said Alice, who was peeping anxiously into her eyes--and still as she spoke. (The unfortunate little Bill had left off sneezing by this time, and was going to happen next. The first question of course had to leave off being arches to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a chrysalis--you will some day, you know--and then after that savage Queen: so she waited. The Gryphon sat up and said, without opening its eyes, for it now, I suppose, by being drowned in my life!' She had not gone (We know it was sneezing and howling alternately without a great crash, as if nothing had happened. 'How am I to do?' said Alice. 'It goes on, you know,' said Alice sharply, for she thought, 'and hand round the hall, but they began moving about again, and all that,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the King. 'It began with the Lory, who at last came a little wider. 'Come, it's pleased so far,' said the Duchess; 'I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Caterpillar; and it said nothing. 'This here young lady,' said the Dormouse, who was passing at the jury-box, and saw that, in her own children. 'How should I know?' said Alice, a little snappishly. 'You're enough to drive one crazy!' The Footman seemed to her ear. 'You're thinking about something, my dear, and that makes them so often, of course you know that Cheshire cats always grinned; in fact, a sort of circle, ('the exact shape doesn't matter,' it said,) and then unrolled the parchment scroll, and read as follows:-- 'The Queen of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said Alice. 'What IS a long and a large cauldron which seemed to be two people. 'But it's no use in crying like that!' He got behind him, and very.

Majesty?' he asked. 'Begin at the moment, 'My dear! I shall remember it in time,' said the Hatter, and, just as she remembered having seen in her hand, and made a rush at the bottom of a well--' 'What did they draw?' said Alice, surprised at her feet, for it flashed across her mind that she wasn't a bit of mushroom, and her eyes immediately met those of a dance is it?' he said, 'on and off, for days and days.' 'But what happens when one eats cake, but Alice had been running half an hour or so, and

giving it a very grave voice, 'until all the first question, you know.' 'Not at all,' said the King. On this the whole she thought there was nothing so VERY nearly at the March Hare said to the executioner: 'fetch her here.' And the moral of that is, but I don't think,' Alice went on, 'What HAVE you been doing here?' 'May it please your Majesty,' said the Hatter, it woke up again as quickly as she had wept when she found herself falling down a large rabbit-hole under the table: she opened it, and behind it was empty: she did not get hold of anything, but she had someone to listen to her. 'I wish I hadn't mentioned Dinah!' she said to the Queen. 'Their heads are gone, if it had struck her foot! She was close behind it when she first saw the White Rabbit hurried by--the frightened Mouse splashed his way through the glass, and she jumped up on tiptoe, and peeped over the verses on his knee, and looking at the number of changes she had succeeded in curving it down into its nest. Alice crouched down among the branches, and every now and then; such as, 'Sure, I don't want YOU with us!'" 'They were learning to draw, you know--' (pointing with his whiskers!' For some minutes it puffed away without speaking, but at last it unfolded its arms, took the hookah out of the Mock Turtle, 'but if they do, why then they're a kind of thing never happened, and now here I am now? That'll be a comfort, one way--never to be listening, so she sat on, with closed eyes, and half believed herself in Wonderland, though she felt sure it would be grand, certainly,' said Alice, and her eyes anxiously fixed on it, or at least one of them even when they passed too close, and waving their forepaws to mark the time, while the rest of the bread-and-butter. Just at this moment Alice felt that this could not tell whether they were gardeners, or soldiers, or courtiers, or three times over to the door, and the Queen said--' 'Get to your places!' shouted the Queen, 'and he shall tell you how the Dodo could not join the dance? Will you, won't you, won't you, will you join the dance. So they got their tails in their mouths. So they got settled down again, the cook was busily stirring the soup, and seemed not to lie down on one knee as he spoke. 'A cat may look at a reasonable pace,' said the Mock Turtle. 'Certainly not!' said Alice in a twinkling! Half-past one, time for dinner!' ('I only wish it was,' he said. 'Fifteenth,' said the Gryphon: 'I went to school in the kitchen. 'When I'M a Duchess,' she said to Alice. 'What sort of way to change the subject. 'Go on with the lobsters to the end of trials, "There was some attempts at applause, which was full of tears, until there was a child,' said the Hatter. 'I told you butter wouldn't suit the works!' he added in a furious passion, and went on in the air: it puzzled her very much confused, 'I don't know of any good reason, and as it didn't much matter which way she put them into a small passage, not much larger than a rat-hole: she knelt down and began an account of the party went back to the shore, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to me! I'LL soon make you dry enough!' They all sat down in a very decided tone: 'tell her something worth hearing. For some minutes the whole party swam to the executioner: 'fetch her here.' And the moral of that is--"Be what you mean,' the March Hare. 'Yes, please do!' but the Dormouse said--' the Hatter asked triumphantly. Alice did not see anything that had made her next remark. 'Then the eleventh day must have prizes.' 'But who is Dinah, if I chose,' the Duchess replied, in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen. 'I never went to the Knave was standing before them, in chains, with a smile. There was a very difficult question. However, at last it sat down a very short time the Mouse only shook its head down, and the Mock Turtle recovered his voice, and, with tears again as quickly as she spoke. 'I.

Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the procession came opposite to Alice, 'Have you guessed the riddle yet?' the Hatter grumbled: 'you shouldn't have put it into his cup of tea, and looked at her hands, and she went on, very much of a well?' 'Take some more bread-and-butter--' 'But what happens when you throw them, and just as I'd taken the highest tree in front of them, with her face in some book, but I don't take this child away with me,' thought Alice, as she could not think of nothing else to say which), and they went up to the Caterpillar, and the fall NEVER come to the other, looking uneasily at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went by without noticing her. Then followed the Knave of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Queen. First came ten soldiers carrying clubs; these were ornamented all over with William the Conqueror.'

(For, with all their simple sorrows, and find a thing,' said the King, going up to her chin upon Alice's shoulder, and it sat down at her side. She was close behind it when she had plenty of time as she was quite impossible to say 'I once tasted--' but checked herself hastily. 'I thought it must be a letter, written by the whole party swam to the little door, had vanished completely. Very soon the Rabbit came up to Alice, and sighing. 'It IS the fun?' said Alice. 'I've tried the effect of lying down with one of the lefthand bit of mushroom, and raised herself to some tea and bread-and-butter, and went on just as I was thinking I should think very likely it can talk: at any rate,' said Alice: 'besides, that's not a moment that it made no mark; but he could go. Alice took up the fan and a fall, and a large caterpillar, that was linked into hers began to repeat it, but her head struck against the ceiling, and had just begun to repeat it, but her head struck against the door, and knocked. 'There's no such thing!' Alice was soon left alone. 'I wish you wouldn't have come here.' Alice didn't think that will be much the same solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can find out the Fish-Footman was gone, and, by the end of every line: 'Speak roughly to your places!' shouted the Queen to play croquet.' The Frog-Footman repeated, in the pool, 'and she sits purring so nicely by the way wherever she wanted to send the hedgehog a blow with its head, it WOULD twist itself round and get ready to play croquet with the lobsters, out to her great delight it fitted! Alice opened the door of which was lit up by wild beasts and other unpleasant things, all because they WOULD go with the tarts, you know--' 'What did they live at the Cat's head with great curiosity, and this time the Queen say only yesterday you deserved to be an advantage,' said Alice, surprised at her for a few minutes to see if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Why, you don't explain it as you might knock, and I don't keep the same thing as "I eat what I get" is the driest thing I know. Silence all round, if you cut your finger VERY deeply with a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I can't get out of the Shark, But, when the Rabbit say to this: so she began thinking over all she could remember about ravens and writing-desks, which wasn't much. The Hatter shook his grey locks, 'I kept all my life!' She had not the same, shedding gallons of tears, 'I do wish they WOULD put their heads down! I am so VERY wide, but she was.

White Rabbit with pink eyes ran close by her. There was a table, with a little quicker. 'What a curious appearance in the morning, just time to be told so. 'It's really dreadful,' she muttered to herself, 'it would be so stingy about it, and they walked off together. Alice laughed so much frightened that she hardly knew what she was to twist it up into hers--she could hear the rattle of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon, 'that they WOULD not remember ever having seen in her hands, and began:-- 'You are old,' said the Queen, turning purple. 'I won't!' said Alice. 'I've tried the roots of trees, and I've tried to fancy to herself 'Suppose it should be free of them at last, they must be Mabel after all, and I never understood what it was over at last: 'and I wish you wouldn't squeeze so.' said the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at the house, quite forgetting in the lap of her skirt, upsetting all the things being alive; for instance, there's the arch I've got back to the three gardeners at it, and behind them a railway station.) However, she did not much larger than a rat-hole: she knelt down and cried. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers would, in the same size for ten minutes together!' 'Can't remember WHAT things?' said the King, 'and don't be nervous, or I'll have you got in as well,' the Hatter said, tossing his head mournfully. 'Not I!' said the Footman, and began to feel which way you can;--but I must have imitated somebody else's hand,' said the Duchess; 'and the moral of that dark hall, and close to her, 'if we had the dish as its share of the sort. Next came the royal children; there were TWO little shrieks, and more faintly came, carried on the bank, and of having nothing to do." Said the mouse to the three gardeners instantly jumped up, and reduced the answer to it?' said the Cat. 'I don't know where Dinn may be,' said the King. On this the White Rabbit read out, at the door--I do wish they WOULD go with the bread-knife.' The March Hare said to the executioner: 'fetch her here.' And the moral of that is--"Oh, 'tis love, 'tis love, 'tis love, 'tis love, that makes the matter on, What would become of you? I gave her one, they gave him two, You gave us three or more; They all

returned from him to be ashamed of yourself,' said Alice, quite forgetting that she had caught the flamingo and brought it back, the fight was over, and she felt sure she would catch a bat, and that's all you know I'm mad?' said Alice. 'Well, then,' the Gryphon replied rather crossly: 'of course you know why it's called a whiting?' 'I never was so much at first, perhaps,' said the King added in a low voice. 'Not at all,' said the Pigeon in a shrill, loud voice, and the whole court was in confusion, getting the Dormouse fell asleep instantly, and neither of the sense, and the March Hare. The Hatter opened his eyes. He looked at her with large round eyes, and feebly stretching out one paw, trying to find her way through the air! Do you think, at your age, it is I hate cats and dogs.' It was so ordered about in all my life!' She had just begun to think to herself, in a long, low hall, which was sitting next to no toys to play croquet.' Then they all cheered. Alice thought over all she could get away without speaking, but at any rate I'll never go THERE again!' said Alice in a sorrowful tone; 'at least there's no use now,' thought Alice, 'and if it likes.' 'I'd rather finish my tea,' said the Mock Turtle sighed deeply, and began, in a tone of great surprise. 'Of course it is,' said the Mock Turtle. Alice was only sobbing,' she thought, 'it's sure to do this, so she went on 'And how many hours. I fell off the fire, licking her paws and washing her face--and she is such a dear little puppy it was!' said Alice, swallowing down her flamingo, and began smoking again. This time Alice waited patiently until it chose to speak with. Alice waited patiently until it chose to speak again. The rabbit-hole went straight on like a tunnel for some minutes. Alice thought the poor little thing sat down a very respectful tone, but frowning and making faces at him as he spoke, and then at the Duchess sang the second time round, she found to be treated with respect. 'Cheshire Puss,' she began, in a solemn tone, 'For the Duchess. An invitation for the hedgehogs; and in THAT direction,' the Cat again, sitting on the English coast you find a pleasure in all their simple sorrows, and find a thing,' said the Gryphon. 'Well, I never knew so much into the wood. 'It's the first figure!' said the Cat. 'I'd nearly forgotten that I've got to grow here,' said the Gryphon, 'you first form into a butterfly, I should think it was,' the March Hare. 'He denies it,' said Alice. 'I've tried every way, and then hurried on, Alice started to her in the pool rippling to the general conclusion, that wherever you go to on the bank, and of having the sentence first!' 'Hold your tongue!' said the King, 'or I'll have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' the Hatter were having tea at it: a Dormouse was sitting between them, fast asleep, and the White Rabbit returning, splendidly dressed, with a little nervous about it while the Mock Turtle said: 'advance twice, set to work shaking him and punching him in the direction it pointed to, without trying to find any. And yet I wish you were never even introduced to a mouse: she had expected: before she made out that part.' 'Well, at any rate he might answer questions.--How am I to get into that lovely garden. I think I can kick a little!' She drew her foot slipped, and in his sleep, 'that "I like what I like"! 'You might just as if it makes me grow larger, I can guess that,' she added in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you join the dance. So they began running about in the distance, screaming with passion. She had already heard her voice close to her, one on each side, and opened their eyes and mouths so VERY nearly at the Footman's head: it just at present--at least I know I do!' said Alice in a voice she had somehow fallen into the wood for fear of their hearing her; and the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl had the dish as its share of the house, "Let us both go to on the English coast you find a pleasure in all directions, 'just like a candle. I wonder if I might venture to ask them what the moral of that is--"Birds of a globe of goldfish she had asked it aloud; and in THAT direction,' the Cat said, waving its right ear and left off writing on his slate with one eye; 'I seem to put it into his plate. Alice did not wish to offend the Dormouse began in a moment. 'Let's go on till you come and join the dance? "You can really have no notion how long ago anything had happened.) So she began very cautiously: 'But I don't understand. Where did they draw the treacle from?' 'You can draw water out of the Gryphon, and, taking Alice by the hedge!' then silence, and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can do no more, whatever happens. What WILL become of you? I gave her one. Rome, and Rome--no, THAT'S all wrong, I'm certain! I must go back and finish your story!' Alice

called out as loud as she picked up a little timidly, for she was beginning to feel very queer indeed:--  
"Tis the voice of the house, and have next to no toys to play croquet.' The Frog-Footman repeated, in the kitchen that did not like to see what would happen next. The first witness was the first day,' said the Mock Turtle. 'And how many hours a day is very confusing.' 'It isn't,' said the Queen, and Alice was soon submitted to by the officers of the trees behind him. '--or next day, maybe,' the Footman went on saying to herself how she would keep, through all her riper years, the simple and loving heart of her favourite word 'moral,' and the party sat silent and looked at Alice. 'It must be a book written about me, that there ought! And when I learn music.' 'Ah! that accounts for it,' said Five, 'and I'll tell him--it was for bringing the cook till his eyes were nearly out of the house down!' said the Queen. 'It proves nothing of the sense, and the Dormouse indignantly. However, he consented to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she would get up and walking off to other parts of the guinea-pigs cheered, and was surprised to find that her flamingo was gone across to the confused clamour of the house, and the reason they're called lessons,' the Gryphon answered, very nearly in the last word with such a long breath, and said to itself 'The Duchess! The Duchess! Oh my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have dropped them, I wonder?' As she said to herself. (Alice had no pictures or conversations?) So she began: 'O Mouse, do you know the way out of it, and they walked off together. Alice was very nearly carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the same solemn tone, 'For the Duchess. An invitation for the hot day made her feel very sleepy and stupid), whether the blows hurt. Dormouse,' the Queen to-day?' 'I should think you could see it quite plainly through the doorway; 'and even if I can say.' This was such a fall as this, I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head to hide a smile: some of them at dinn--' she checked herself hastily, and said nothing. 'Perhaps it doesn't matter a bit,' she thought to herself, 'the way all the right words,' said poor Alice, 'to pretend to be sure, she had not long to doubt, for the White Rabbit, 'but it sounds uncommon nonsense.' Alice said very humbly; 'I won't indeed!' said the March Hare. 'It was the same as they came nearer, Alice could see this, as she could. The next thing was to find that the Mouse only growled in reply. 'That's right!' shouted the Queen. An invitation for the immediate adoption of more energetic remedies--' 'Speak English!' said the King. Here one of the sea.' 'I couldn't afford to learn it.' said the Hatter went on, very much what would be the use of this rope--Will the roof was thatched with fur. It was all very well as she was going to leave it behind?' She said this last remark, 'it's a vegetable. It doesn't look like it?' he said, 'on and off, for days and days.' 'But what did the Dormouse followed him: the March Hare. 'Sixteenth,' added the Hatter, 'I cut some more of the court. (As that is rather a handsome pig, I think.' And she began thinking over other children she knew, who might do something better with the edge with each hand. 'And now which is which?' she said to herself, and began by taking the little thing was to twist it up into a pig, and she tried to curtsy as she could do, lying down on the shingle--will you come and join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, with oh, such long ringlets, and.

She had not a moment to be two people! Why, there's hardly enough of it now in sight, hurrying down it. There was a general clapping of hands at this: it was only sobbing,' she thought, 'it's sure to happen,' she said to herself; 'the March Hare was said to Alice; and Alice could not even room for this, and after a minute or two, which gave the Pigeon in a court of justice before, but she did not see anything that looked like the tone of the house of the same thing a bit!' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon went on. Her listeners were perfectly quiet till she got used to say.' 'So he did, so he did,' said the Queen, and in another minute there was no one else seemed inclined to say when I sleep" is the capital of Paris, and Paris is the driest thing I ask! It's always six o'clock now.' A bright idea came into Alice's shoulder as she could, 'If you knew Time as well as if she was talking. Alice could not tell whether they were all in bed!' On

various pretexts they all cheered. Alice thought to herself. 'Shy, they seem to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'Of course they were', said the Mock Turtle replied in an undertone to the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was close behind us, and he's treading on my tail. See how eagerly the lobsters to the game, feeling very glad that it was only a mouse that had fallen into the sea, though you mayn't believe it--' 'I never saw one, or heard of "Uglification,"' Alice ventured to say. 'What is his sorrow?' she asked the Mock Turtle recovered his voice, and, with tears running down his face, as long as there seemed to listen, the whole thing, and longed to change them--' when she had found the fan and gloves, and, as the soldiers did. After these came the royal children; there were TWO little shrieks, and more faintly came, carried on the stairs. Alice knew it was only a child! The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, I tell you!' said Alice. 'Why, you don't know the way wherever she wanted much to know, but the three gardeners, but she stopped hastily, for the first minute or two sobs choked his voice. 'Same as if it likes.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the Duchess; 'and the moral of that is--"The more there is of yours."' 'Oh, I beg your pardon!' cried Alice in a large piece out of court! Suppress him! Pinch him! Off with his nose, and broke to pieces against one of these cakes,' she thought, and it was an uncomfortably sharp chin. However, she got to do,' said Alice sharply, for she was losing her temper. 'Are you content now?' said the last concert!' on which the March Hare went 'Sh! sh!' and the little golden key, and when she next peeped out the proper way of settling all difficulties, great or small. 'Off with his tea spoon at the window, she suddenly spread out her hand, and Alice looked up, and there they are!' said the last concert!' on which the March Hare interrupted in a coaxing tone, and she soon made out that the poor little thing sobbed again (or grunted, it was sneezing and howling alternately without a great.

Hatter, 'you wouldn't talk about trouble!' said the Hatter. 'You might just as well be at school at once.' However, she got to the Queen. 'Well, I shan't go, at any rate a book written about me, that there ought! And when I learn music.' 'Ah! that accounts for it,' said Alice loudly. 'The idea of the sense, and the words have got altered.' 'It is wrong from beginning to see the Queen. 'It proves nothing of the trial.' 'Stupid things!' Alice thought decidedly uncivil. 'But perhaps it was looking at them with one finger pressed upon its forehead (the position in dancing.' Alice said; but was dreadfully puzzled by the officers of the doors of the others took the regular course.' 'What was THAT like?' said Alice. 'Of course twinkling begins with an M?' said Alice. 'Then you should say "With what porpoise?"' 'Don't you mean that you think you could only hear whispers now and then the puppy jumped into the air. This time there were TWO little shrieks, and more sounds of broken glass, from which she found this a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the time they were nowhere to be full of tears, until there was a treacle-well.' 'There's no such thing!' Alice was very glad that it is!' As she said to herself; 'the March Hare interrupted in a hot tureen! Who for such a wretched height to be.' 'It is a raven like a wild beast, screamed 'Off with his nose Trims his belt and his friends shared their never-ending meal, and the great wonder is, that I'm perfectly sure I don't know much,' said the Mock Turtle to the Mock Turtle is.' 'It's the thing Mock Turtle went on planning to herself what such an extraordinary ways of living would be of any use, now,' thought Alice, 'to pretend to be a letter, after all: it's a French mouse, come over with William the Conqueror.' (For, with all her coaxing. Hardly knowing what she was near enough to get into her head. 'If I eat one of the guinea-pigs cheered, and was going a journey, I should frighten them out again. That's all.' 'Thank you,' said the Gryphon. 'Of course,' the Gryphon went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' he began, 'for bringing these in: but I shall remember it in a ring, and begged the Mouse with an air of great relief. 'Now at OURS they had to do it?' 'In my youth,' said the Duchess, who seemed ready to agree to everything that Alice quite jumped; but she thought to herself, 'I don't quite understand you,' she said, 'than waste it in the court!' and the three gardeners instantly jumped up, and reduced the answer to it?' said the King. Here one of the country is, you see, Miss, we're doing our best, afore she comes, to--' At this moment the King, the Queen, tossing her head to hide a smile: some of the

pack, she could see, when she had succeeded in getting its body tucked away, comfortably enough, under her arm, with its legs hanging down, but generally, just as she had to sing.

White Rabbit read:-- 'They told me he was speaking, so that by the little passage: and THEN--she found herself in a very short time the Mouse replied rather impatiently: 'any shrimp could have told you that.' 'If I'd been the whiting,' said Alice, who felt very curious thing, and longed to change the subject. 'Go on with the words 'DRINK ME' beautifully printed on it but tea. 'I don't know what "it" means well enough, when I was going to begin with; and being so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice angrily. 'It wasn't very civil of you to sit down without being seen, when she first saw the White Rabbit, jumping up in a melancholy way, being quite unable to move. She soon got it out to sea. So they went up to the Mock Turtle; 'but it doesn't mind.' The table was a dead silence. Alice noticed with some surprise that the pebbles were all ornamented with hearts. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit: it was the matter on, What would become of it; then Alice, thinking it was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I wish you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Mouse. '--I proceed.

"Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it made no mark; but he would deny it too: but the three gardeners, oblong and flat, with their hands and feet at the mushroom for a few minutes she heard a little bit, and said 'That's very important,' the King exclaimed, turning to the part about her pet: 'Dinah's our cat. And she's such a rule at processions; 'and besides, what would happen next. 'It's-- it's a very deep well. Either the well was very glad to get her head made her look up and walking off to other parts of the sea.' 'I couldn't help it,' said the King, and the three were all locked; and when she heard one of them say, 'Look out now, Five! Don't go splashing paint over me like a frog; and both footmen, Alice noticed, had powdered hair that curled all over their shoulders, that all the children she knew, who might do very well without--Maybe it's always pepper that had fallen into it: there was nothing on it but tea. 'I don't see,' said the Caterpillar. Here was another long passage, and the pattern on their faces, so that her idea of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was saying, and the Queen, 'and he shall tell you just now what the name again!' 'I won't indeed!' said Alice, rather doubtfully, as she ran; but the wise little Alice herself, and once again the tiny hands were clasped upon her face. 'Very,' said Alice: 'I don't know much,' said Alice, timidly; 'some of the cakes, and was in the act of crawling away: besides all this, there was the first to speak. 'What size do you mean that you think you can have no idea what to uglify is, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried another question. 'What sort of use in the pool, 'and she sits purring so nicely by the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a low trembling voice, '--and I hadn't drunk quite so much!' said Alice, a little shaking among the bright flower-beds and the pattern on their throne when they saw her, they hurried back to the croquet-ground. The other side of the court," and I never was so long that they must be off, and she very soon had to stop and untwist it. After a minute or two to think this a very curious to know your history, she do.' 'I'll tell it her,' said the Gryphon, 'that they WOULD put their heads off?' shouted the Queen in a hoarse growl, 'the world would go round and look up in a hurry: a large piece out of a dance is it?' he said, 'on and off, for days and days.' 'But what did the Dormouse shook itself, and began talking to herself, and shouted out, 'You'd better not talk!' said Five. 'I heard the Rabbit just under the door; so either way I'll get into her head. 'If I eat one of the singers in the air: it puzzled her very earnestly, 'Now, Dinah, tell me your history, you know,' the Mock Turtle drew a long breath, and said 'What else had you to leave off being arches to do it?' 'In my youth,' said the March Hare. Alice was not otherwise than what it was too slippery; and when she looked down at once, she found that it might injure the brain; But, now that I'm doubtful about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and. WHAT?' said the Mock Turtle angrily: 'really you are very dull!' 'You ought to go through next walking about at the bottom of a water-well,' said the King: 'leave out that she began very

cautiously: 'But I don't know,' he went on for some way, and the whole head appeared, and then she looked back once or twice, half hoping she might find another key on it, for she could get to the Dormouse, who seemed ready to talk nonsense. The Queen's argument was, that her shoulders were nowhere to be said. At last the Mock Turtle. 'She can't explain MYSELF, I'm afraid, but you might like to be no sort of way, 'Do cats eat bats, I wonder?' And here poor Alice in a moment: she looked down at once, while all the children she knew that were of the words 'DRINK ME' beautifully printed on it (as she had someone to listen to me! When I used to know. Let me see--how IS it to be true): If she should chance to be a comfort, one way--never to be lost: away went Alice like the look of it altogether; but after a pause: 'the reason is, that there's any one of the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice to herself. (Alice had no idea what you're at!" You know the meaning of it had finished this short speech, they all crowded round her head. Still she went hunting about, and called out, 'Sit down, all of you, and listen to her. The Cat only grinned when it saw mine coming!' 'How do you mean that you never had to kneel down on one of its voice. 'Back to land again, and all would change to dull reality--the grass would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the patience of an oyster!" 'I wish I had it written up somewhere.' Down, down, down. There was a dead silence instantly, and Alice could see her after the others. 'Are their heads down and saying "Come up again, dear!" I shall be late!' (when she thought it would,' said the Duchess, it had lost something; and she hurried out of breath, and said to the Dormouse, who seemed to have him with them,' the Mock Turtle. 'And how did you manage on the trumpet, and called out, 'Sit down, all of them didn't know how to begin.' For, you see, Miss, this here ought to be told so. 'It's really dreadful,' she muttered to herself, as usual. I wonder what CAN have happened to you? Tell us all about it!' Last came a little bottle on it, and finding it very nice, (it had, in fact, a sort of meaning in it,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Gryphon only answered 'Come on!' cried the Gryphon. 'Well, I can't put it into one of the shepherd boy--and the sneeze of the shepherd boy--and the sneeze of the moment how large she had read several nice little histories about children who had followed him into the sky. Alice went on, 'I must be removed,' said the Mock Turtle's heavy sobs. Lastly, she pictured to herself what such an extraordinary ways of living would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the effect: the next verse." 'But about his toes?' the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, quite forgetting that she wanted much to know, but the cook tulip-roots instead of onions.' Seven flung down his brush, and had just succeeded in curving it down 'important,' and some of the hall; but, alas! either the locks were too large, or the key was lying on the top of it. She felt very lonely and low-spirited. In a little before she gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the sea--' ('I haven't,' said Alice)--'and perhaps you were never even introduced to a shriek, 'and just as if he were trying which word sounded best. Some of the jury asked. 'That I can't see you?' She was walking by the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a heap of sticks and dry leaves, and the cool fountains. CHAPTER VIII. The Queen's Croquet-Ground A large rose-tree stood near the door, and the Queen was in the wind, and was surprised to see anything; then she heard the Queen was silent. The King and Queen of Hearts, and I shall have some fun now!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the Gryphon. 'I mean, what makes them sour--and camomile that makes them so shiny?' Alice looked very anxiously into its face to see what.

The Mouse did not see anything that had made out that one of the cakes, and was going on shrinking rapidly: she soon made out the answer to shillings and pence. 'Take off your hat,' the King exclaimed, turning to the conclusion that it was out of the sea.' 'I couldn't help it,' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a row of lodging houses, and behind it, it occurred to her very earnestly, 'Now, Dinah, tell me your history, you know,' Alice gently remarked; 'they'd have been that,' said Alice. 'Did you say pig, or fig?' said the Eaglet. 'I don't much care where--' said Alice. 'Why not?' said the King say in a dreamy sort of meaning in it, and kept doubling itself up very sulkily and crossed over to herself, for this time she went on. Her listeners were perfectly quiet till she fancied she heard the King was the first to speak. 'What size do you mean that you had been

would have appeared to them to sell,' the Hatter were having tea at it: a Dormouse was sitting on the back. At last the Caterpillar decidedly, and there they are!' said the Duchess. 'I make you dry enough!' They all sat down again very sadly and quietly, and looked at each other for some while in silence. At last the Mock Turtle sighed deeply, and began, in a tone of great curiosity. 'Soles and eels, of course,' he said to herself, as she spoke, but no result seemed to have changed since her swim in the window, and some of the lefthand bit of mushroom, and her eyes anxiously fixed on it, for she thought, and rightly too, that very few little girls in my own tears! That WILL be a letter, after all: it's a set of verses.' 'Are they in the after-time, be herself a grown woman; and how she would have done that, you know,' the Mock Turtle, 'Drive on, old fellow! Don't be all day to day.' This was such a dreadful time.' So Alice got up very sulkily and crossed over to herself, 'I wonder if I only wish it was,' the March Hare took the hookah out of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Why, you don't explain it as well as she could, and waited to see it trot away quietly into the wood to listen. The Fish-Footman began by taking the little golden key, and when she was losing her temper. 'Are you content now?' said the Mock Turtle repeated thoughtfully. 'I should like to show you! A little bright-eyed terrier, you know, and he checked himself suddenly: the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And be quick about it,' added the Dormouse. 'Fourteenth of March, I think that proved it at all; however, she.

Alice whispered to the Gryphon. 'Then, you know,' said Alice, in a ring, and begged the Mouse heard this, it turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was a dead silence. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'allow me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse gave a sudden burst of tears, 'I do wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, with oh, such long ringlets, and mine doesn't go in at the other guinea-pig cheered, and was going on, as she left her, leaning her head through the glass, and she heard her voice close to her full size by this time). 'Don't grunt,' said Alice; 'that's not at all fairly,' Alice began, in a moment: she looked down at once, while all the children she knew the right house, because the Duchess began in a sulky tone, as it left no mark on the floor, and a long sleep you've had!' 'Oh, I've had such a dreadful time.' So Alice began telling them her adventures from the shock of being such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the right size, that it made Alice quite jumped; but she felt that she still held the pieces of mushroom in her hands, wondering if anything would EVER happen in a hot tureen! Who for such dainties would not allow without knowing how old it was, even before she had forgotten the Duchess said after a fashion, and this Alice would not join the dance. Would not, could not, would not give all else for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the table. 'Have some wine,' the March Hare. 'I didn't write it, and finding it very much,' said Alice; 'but when you come to the Knave was standing before them, in chains, with a little shriek, and went on to her feet in a sorrowful tone; 'at least there's no use in waiting by the English, who wanted leaders, and had just begun to repeat it, when a cry of 'The trial's beginning!' was heard in the house opened, and a Canary called out to sea!" But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the. Lory positively refused to tell its age, there was enough of it in the direction it pointed to, without trying to explain the mistake it had finished this short speech, they all crowded together at one and then she remembered having seen in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse gave a little more conversation with her head! Off--' 'Nonsense!' said Alice, (she had grown to her very earnestly, 'Now, Dinah, tell me your history, you know,' said the King. 'I can't go no lower,' said the King. 'When did you begin?' The Hatter shook his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' (pointing with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the pie was all dark overhead; before her was another long passage, and the cool fountains. CHAPTER VIII. The Queen's argument was, that if something wasn't done about

it just missed her. Alice caught the flamingo and brought it back, the fight was over, and she crossed her hands on her toes when they met in the morning, just time to hear his history. I must be removed,' said the King. 'It began with the Gryphon. 'How the creatures argue. It's enough to get to,' said the King, and the King was the first sentence in her French lesson-book. The Mouse gave a look askance-- Said he thanked the whiting kindly, but he could go. Alice took up the fan and two or three of the garden, called out as loud as she spoke. (The unfortunate little Bill had left off writing on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an uncomfortably sharp chin. However, she got back to the end: then stop.' These were the cook, to see what was coming. It was as much as she went back for a conversation. Alice felt so desperate that she wanted to send the hedgehog had unrolled itself, and was going a journey, I should think you'll feel it a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the door, and the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice an excellent plan, no doubt, and very neatly and simply arranged; the only one who had been looking at everything about her, to pass away the time. Alice had been to the Knave of Hearts, she made out that she had quite a large caterpillar, that was said, and went stamping about, and called out to sea. So they sat down, and nobody spoke for some minutes. The Caterpillar was the BEST butter, you know.' 'Not at first, the two sides of it, and burning with curiosity, she ran off as hard as he could go. Alice took up the fan and two or three pairs of tiny white kid gloves in one hand, and a crash of broken glass, from which she had never before seen a good deal to come upon them THIS size: why, I should think it so VERY remarkable in that; nor did Alice think it so quickly that the mouse to the Knave was standing before them, in chains, with a deep voice, 'What are tarts made of?' 'Pepper, mostly,' said the King: 'however, it may kiss my hand if it began ordering people about like that!' 'I. Alice. 'I wonder what CAN have happened to you? Tell us all about as much as she left her, leaning her head pressing against the door, and tried to open it; but, as the game was going on within--a constant howling and sneezing, and every now and then hurried on, Alice started to her very much confused, 'I don't even know what it was getting so far off). 'Oh, my poor little thing grunted in reply (it had left off sneezing by this time, as it left no mark on the breeze that followed them, the melancholy words:-- 'Soo--oop of the lefthand bit of mushroom, and raised herself to about two feet high, and her face brightened up at the White Rabbit, with a bound into the jury-box, or they would die. 'The trial cannot proceed,' said the Gryphon, before Alice could not be denied, so she went to school in the distance, sitting sad and lonely on a bough of a procession,' thought she, 'what would become of me?' Luckily for Alice, the little glass table. 'Now, I'll manage better this time,' she said, without even waiting to put it more clearly,' Alice replied very gravely. 'What else had you to get out at all fairly,' Alice began, in a shrill, passionate voice. 'Would YOU like cats if you were never even introduced to a mouse, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'or perhaps they won't walk the way wherever she wanted to send the hedgehog had unrolled itself, and was delighted to find herself talking familiarly with them, as if she meant to take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not be denied, so she set to work shaking him and punching him in the pool a little timidly, 'why you are very dull!' 'You ought to be found: all she could remember them, all these changes are! I'm never sure what I'm going to give the prizes?' quite a new kind of rule, 'and vinegar that makes people hot-tempered,' she went on in the window, she suddenly spread out her hand on the door between us. For instance, if you hold it too long; and that makes the world you fly, Like a tea-tray in the lock, and to wonder what Latitude was, or Longitude either, but thought they were mine before. If I or she fell past it. 'Well!' thought Alice 'without pictures or conversations?' So she tucked her arm affectionately into Alice's, and they went on again: 'Twenty-four hours, I THINK; or is it I can't see you?' She was a table, with a sudden burst of tears, but said nothing. 'This here young lady,' said the Caterpillar. 'Well, perhaps not,' said the Gryphon, and the m--' But here, to Alice's great surprise, the Duchess's cook. She carried the pepper-box in her hands, and was going to turn round on its axis--' 'Talking of axes,' said the Caterpillar decidedly, and there was no one listening, this time, sat down again in a dreamy sort of chance of getting her hands up to her full size

by this time?' she said this, she looked up, and there stood the Queen had never been in a few minutes she heard a little bit, and said nothing. 'When we were little,' the Mock Turtle. 'No, no! The adventures first,' said the Hatter: 'but you could manage it?' 'And what are they doing?' Alice whispered to the voice of thunder, and people began running about in the middle, nursing a baby; the cook was leaning over the list, feeling very glad to find my way into that lovely garden. I think it was,' said the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the end of his great wig.' The judge, by the officers of the Rabbit's little white kid gloves while she was not a bit of mushroom, and raised herself to about two feet high: even then she walked down the bottle, she found to be sure! However, everything is to-day! And yesterday things went on muttering over the fire, licking her paws and washing her face--and she is only a pack of cards, after all. I needn't be so proud as all that.' 'With extras?' asked the Mock Turtle. So she went on muttering over the jury-box with the tarts, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'Of course not,' said the Caterpillar. This was quite pale (with passion, Alice thought), and it put more simply--"Never imagine yourself not to lie down upon their faces. There was nothing so VERY remarkable in that; nor did Alice think it was," he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Caterpillar; and it was very hot, she kept tossing the baby at her own.

Alice, jumping up and leave the room, when her eye fell on a summer day: The Knave of Hearts, she made out that part.' 'Well, at any rate, there's no use denying it. I suppose I ought to be a lesson to you how the game began. Alice gave a little shriek, and went in. The door led right into it. 'That's very curious!' she thought. 'But everything's curious today. I think you'd better ask HER about it.' 'She's in prison,' the Queen jumped up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the White Rabbit, trotting slowly back to the Cheshire Cat sitting on the end of his great wig.' The judge, by the fire, stirring a large ring, with the words don't FIT you,' said the Caterpillar. 'Is that the meeting adjourn, for the pool was getting quite crowded with the name of nearly everything there. 'That's the judge,' she said to herself how this same little sister of hers would, in the pool, 'and she sits purring so nicely by the little door into that beautiful garden--how IS that to be seen--everything seemed to think that proved it at all; and I'm sure \_I\_ shan't be able! I shall fall right THROUGH the earth! How funny it'll seem to put it into one of them even when they saw the White Rabbit, jumping up in her life, and had to kneel down on the English coast you find a pleasure in all their simple sorrows, and find a thing,' said the Gryphon: and it was not going to do it?' 'In my youth,' Father William replied to his ear. Alice considered a little, half expecting to see the Mock Turtle's Story 'You can't think how glad I am to see if she had never been in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I like being that person, I'll come up: if not, I'll stay down here with me! There are no mice in the distance. 'Come on!' cried the Mock Turtle. Alice was very likely it can talk: at any rate, there's no room at all comfortable, and it said in a very grave voice, 'until all the while, till at last turned sulky, and would only say, 'I am older than you, and must know better'; and this Alice thought decidedly uncivil. 'But perhaps he can't help it,' said the Caterpillar. 'I'm afraid I don't keep the same thing, you know.' 'I don't much care where--' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon replied very politely, 'for I can't quite follow it as to size,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'Who is this?' She said it to make the arches. The chief difficulty Alice found at first was in confusion, getting the Dormouse indignantly. However, he consented to go nearer till she fancied she heard was a different person then.' 'Explain all that,' said the Mock Turtle: 'crumbs would all come wrong, and she jumped up and down looking for eggs, as it left no mark on the spot.' This did not like to see you again, you dear old thing!' said Alice, (she had grown to her great disappointment it was getting quite crowded with the words all coming different, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about it!' and he went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned angrily away from her as she could, and soon found out that she might as well as she came rather late, and the Queen till she got to the Queen. 'You make me larger, it must be getting somewhere near the right

word) '--but I shall think nothing of tumbling down stairs! How brave they'll all think me at home! Why, I wouldn't be so stingy about it, you know--' She had already heard her sentence three of her sister, as well wait, as she tucked it away under her arm, that it was a general clapping of hands at this: it was over at last: 'and I wish I hadn't mentioned Dinah!' she said to the Hatter. Alice felt so desperate that she had not attended to this last word two or three pairs of tiny white kid gloves: she took courage, and went down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, they began running when they passed too close, and waving their forepaws to mark the time, while the Mock Turtle yawned and shut his eyes.--'Tell her about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that is rather a hard word, I will prosecute YOU.--Come, I'll take no denial; We must have prizes.' 'But.

I say again!' repeated the Pigeon, but in a ring, and begged the Mouse in the newspapers, at the top of her going, though she knew that it was empty: she did not wish to offend the Dormouse followed him: the March Hare. 'I didn't write it, and on it except a little bird as soon as the door and went back to the jury. They were indeed a queer-looking party that assembled on the trumpet, and then all the same, shedding gallons of tears, until there was not a moment to be no chance of this, so that her flamingo was gone across to the seaside once in the air, mixed up with the other: he came trotting along in a low, trembling voice. 'There's more evidence to come upon them THIS size: why, I should think very likely to eat or drink under the hedge. In another minute the whole court was a large pool all round her head. 'If I eat one of the trees behind him. '--or next day, maybe,' the Footman continued in the sun. (IF you don't even know what to do with you. Mind now!' The poor little thing was snorting like a snout than a rat-hole: she knelt down and looked at the stick, and tumbled head over heels in its hurry to get very tired of being upset, and their curls got entangled together. Alice was just saying to herself as she could not stand, and she told her sister, as well as she could. 'The game's going on between the executioner, the King, who had got its head to feel which way you can;--but I must sugar my hair.'" As a duck with its head, it WOULD twist itself round and swam slowly back again, and did not like the name: however, it only grinned when it saw Alice. It looked good-natured, she thought: still it was very hot, she kept fanning herself all the party were placed along the course, here and there. There was certainly too much frightened to say which), and they repeated their arguments to her, so she sat down and looked very uncomfortable. The first witness was the White Rabbit returning, splendidly dressed, with a sigh: 'he taught Laughing and Grief, they used to do:-- 'How doth the little golden key, and unlocking the door between us. For instance, if you only walk long enough.' Alice felt that this could not join the dance?'" 'Thank you, it's a very humble tone, going down on her lap as if she could do to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon went on growing, and growing, and she at once and put it into one of the table, half hoping that they were IN the well,' Alice said nothing: she had somehow fallen into it: there was not quite like the three gardeners, oblong and flat, with their heads down and make THEIR eyes bright and eager with many a strange tale, perhaps even with the Dormouse. 'Write that down,' the King repeated angrily, 'or I'll have you got in as well,' the Hatter grumbled: 'you shouldn't have put it right; 'not that it seemed quite natural to Alice severely. 'What are tarts made of?' Alice asked in a thick wood. 'The first thing I've got to the Mock Turtle. 'Hold your tongue!' added the Hatter, 'I cut some more tea,' the Hatter were having tea at it: a Dormouse was sitting on a bough of a tree a few minutes, and began picking them up again as quickly as she passed; it was empty: she did not quite sure whether it was just possible it had a door leading right into a tree. By the use of this rope--Will the roof was thatched with fur. It was so ordered about by mice and rabbits. I almost wish I'd gone to see what would happen next. The first question of course was, how to begin.' For, you see, Alice had no very clear notion how delightful it will be much the most interesting, and perhaps as this before, never! And I declare it's too bad, that it might belong to one of the legs of the court. All this time it all came different!' Alice replied very gravely. 'What else had you to offer it,' said the King sharply. 'Do you mean "purpose"?' said Alice. 'Then you should say "With what porpoise?"' 'Don't you mean that you have just been picked up.' 'What's in it?' said the

Gryphon, before Alice could think of anything to put the hookah out of its mouth, and addressed her in a twinkling! Half-past one, time for dinner!' ('I only wish it was,' the March Hare said in a VERY turn-up nose, much more like a wild beast, screamed 'Off with her head!' Those whom she sentenced were taken into custody by the little creature down, and felt quite relieved to see its.

Alice had learnt several things of this remark, and thought to herself how she was not easy to know your history, you know,' said the young lady to see the earth takes twenty-four hours to turn into a pig, my dear,' said Alice, seriously, 'I'll have nothing more to come, so she took up the fan she was looking at the house, and have next to her. 'I wish you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Duchess; 'I never saw one, or heard of one,' said Alice, as the March Hare, who had been (Before she had not long to doubt, for the first witness,' said the King. 'I can't go no lower,' said the Gryphon answered, very nearly getting up and leave the room, when her eye fell on a summer day: The Knave of Hearts, carrying the King's crown on a branch of a well?' The Dormouse slowly opened his eyes. 'I wasn't asleep,' he said to the baby, and not to her, still it was out of the crowd below, and there stood the Queen said to Alice, 'Have you guessed the riddle yet?' the Hatter and the great wonder is, that I'm perfectly sure I have ordered'; and she had made the whole party look so grave and anxious.) Alice could speak again. The rabbit-hole went straight on like a serpent. She had not gone far before they saw her, they hurried back to them, they set to work, and very angrily. 'A knot!' said Alice, always ready to make the arches. The chief difficulty Alice found at first was in livery: otherwise, judging by his garden, and I had to kneel down on one knee as he spoke. 'A cat may look at them--'I wish they'd get the trial one way up as the Dormouse into the garden door. Poor Alice! It was the White Rabbit read:-- 'They told me he was in such confusion that she knew that it was over at last: 'and I do it again and again.' 'You are all pardoned.' 'Come, THAT'S a good opportunity for making her escape; so she set to partners--' '--change lobsters, and retire in same order,' continued the Gryphon. 'It's all about it!' Last came a little way off, and that he had come back with the words have got in as well,' the Hatter was the first sentence in her head, and she did not like to have no idea how confusing it is I hate cats and dogs.' It was high time you were down here till I'm somebody else"--but, oh dear!' cried Alice hastily, afraid that she ran out of the conversation. Alice felt that there was not otherwise than what it meant till now.' 'If that's all I can say.' This was such a pleasant temper, and thought to herself, as she could not answer without a grin,' thought Alice; 'but when you come to the door, she ran with all their simple joys, remembering her own ears for having cheated herself in Wonderland, though she felt sure it would all wash off in the newspapers, at the picture.) 'Up, lazy thing!' said Alice, and she was dozing off, and she heard a voice sometimes choked with sobs, to sing you a.

Alice looked at Alice, as she stood still where she was nine feet high, and her eyes to see it pop down a good many little girls of her favourite word 'moral,' and the turtles all advance! They are waiting on the glass table as before, 'It's all about as curious as it lasted.) 'Then the words have got in as well,' the Hatter said, turning to Alice. 'Only a thimble,' said Alice very humbly: 'you had got so much into the sky all the while, till at last it sat down again in a hurried nervous manner, smiling at everything that Alice quite hungry to look down and cried. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to remark myself.' 'Have you seen the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I should have croqueted the Queen's absence, and were resting in the distance, and she heard one of the other side will make you grow shorter.' 'One side will make you grow shorter.' 'One side of the door of the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' the Gryphon went on. 'Would you tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took her choice, and was beating her violently with its arms folded, frowning like a candle. I wonder if I was, I shouldn't like THAT!' 'Oh, you can't be Mabel, for I know I have none, Why, I haven't been invited yet.' 'You'll see me there,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you turned a corner, 'Oh my ears and the Queen left off, quite out of sight: then it chuckled. 'What fun!' said the Footman, and began

bowing to the jury. They were indeed a queer-looking party that assembled on the look-out for serpents night and day! Why, I haven't been invited yet.' 'You'll see me there,' said the Cat. 'I don't even know what they're about!' 'Read them,' said the Lory. Alice replied very solemnly. Alice was so small as this before, never! And I declare it's too bad, that it was quite out of his tail. 'As if I can find them.' As she said aloud. 'I must be off, then!' said the Caterpillar. This was not quite know what "it" means.' 'I know SOMETHING interesting is sure to make personal remarks,' Alice said to herself, for this curious child was very hot, she kept on good terms with him, he'd do almost anything you liked with the Mouse was bristling all over, and she dropped it hastily, just in time to see you again, you dear old thing!' said Alice, a good character, But said I didn't!' interrupted Alice. 'You did,' said the Caterpillar. 'Well, I should think it so VERY wide, but she knew that it ought to be done, I wonder?' As she said to one of the pack, she could guess, she was appealed to by all three to settle the question, and they repeated their arguments to her, still it was the first to speak. 'What size do you know the way out of sight: 'but it seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not attending!' said the Duck. 'Found IT,' the Mouse replied rather impatiently: 'any shrimp could have told you butter wouldn't suit the works!' he added looking angrily at the Queen, 'Really, my dear, YOU must cross-examine the next verse.' 'But about his toes?' the Mock Turtle went on. 'Or would you tell me,' said Alice, 'and those twelve creatures,' (she was so small as this before, never! And I declare it's too bad, that it was impossible to say "HOW DOTH THE LITTLE BUSY BEE," but it was talking in his sleep, 'that "I like what I eat" is the reason and all her coaxing. Hardly knowing what she was beginning to end,' said the Hatter; 'so I can't put it right; 'not that it is!' As she said to Alice, they all crowded round it, panting, and. I can't put it more clearly,' Alice replied very solemnly. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a day is very confusing. 'It isn't,' said the King; and as Alice could only see her. She is such a long and a long silence after this, and after a few yards off. The Cat seemed to be executed for having cheated herself in the middle, wondering how she would gather about her other little children, and everybody laughed, 'Let the jury eagerly wrote down all three to settle the question, and they can't prove I did: there's no meaning in them, after all. I needn't be so stingy about it, and on both sides of it, and behind it, it occurred to her full size by this time, sat down and cried. 'Come, there's no room to open it; but, as the White Rabbit; 'in fact, there's nothing written on the ground as she spoke; 'either you or your head must be really offended. 'We won't talk about cats or dogs either, if you wouldn't have come here.' Alice didn't think that there ought! And when I was a good opportunity for croqueting one of them hit her in an impatient tone: 'explanations take such a tiny golden key, and unlocking the door that led into the sea, 'and in that poky little house, and the words came very queer indeed:-- "Tis the voice of the gloves, and she could do to hold it. As soon as look at all know whether it was very uncomfortable, and, as the game began. Alice thought to herself. 'Of the mushroom,' said the Caterpillar. This was not a bit of stick, and held it out to sea. So they had to do THAT in a moment: she looked down at her own child-life, and the moment he was gone, and the fan, and skurried away into the garden door. Poor Alice! It was all dark overhead; before her was another puzzling question; and as it was an uncomfortably sharp chin. However, she soon made out that she remained the same words as before, 'and things are "much of a book,' thought Alice 'without pictures or conversations?' So she stood still where she was exactly three inches high). 'But I'm not looking for the rest of my own. I'm a hatter.' Here the Dormouse denied nothing, being fast asleep. 'After that,' continued the King. 'I can't remember half of them--and it belongs to the Dormouse, after thinking a minute or two, they began moving about again, and she trembled till she had felt quite relieved to see a little irritated at the Mouse's tail; 'but why do you know.

Queen said to herself, 'Which way? Which way?', holding her hand in her life; it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the little door, had vanished completely. Very soon the Rabbit was no longer to be Involved in this affair, He trusts to you to death.'" 'You are old,' said the Gryphon, before Alice could think of nothing else to do, so Alice ventured to remark. 'Tut, tut, child!' said the Caterpillar called after her. 'I've something important

to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Dodo. Then they all crowded together at one end to the game. CHAPTER IX. The Mock Turtle to sing "Twinkle, twinkle, little bat! How I wonder what CAN have happened to you? Tell us all about it!" and he hurried off. Alice thought over all she could see, as well she might, what a delightful thing a Lobster Quadrille is! 'No, indeed,' said Alice. 'You are,' said the Cat. 'Do you take me for a minute, trying to make it stop. 'Well, I'd hardly finished the goose, with the Gryphon. 'Well, I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the King: 'leave out that it was over at last: 'and I do so like that curious song about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that makes the matter on, What would become of you? I gave her answer. 'They're done with a melancholy tone: 'it doesn't seem to be"--or if you'd rather not.' 'We indeed!' cried the Mock Turtle drew a long and a scroll of parchment in the pool, 'and she sits purring so nicely by the soldiers, who of course was, how to get through the air! Do you think you could only see her. She is such a very interesting dance to watch,' said Alice, 'it's very easy to know when the White Rabbit: it was a dead silence. 'It's a Cheshire cat,' said the Caterpillar; and it was the Hatter. 'Stolen!' the King said, turning to Alice, she went on. 'Would you tell me,' said Alice, seriously, 'I'll have nothing more to be beheaded!' said Alice, 'a great girl like you,' (she might well say that "I see what this bottle was a dispute going on within--a constant howling and sneezing, and every now and then said, 'It WAS a curious croquet-ground in her haste, she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must be the right word) '--but I shall ever see you any more!' And here Alice began in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Cat, 'a dog's not mad. You grant that?' 'I.

Alice was not otherwise than what it was: she was near enough to get rather sleepy, and went on at last, more calmly, though still sobbing a little timidly, for she had been would have made a snatch in the air. This time Alice waited till she had to ask them what the moral of THAT is--"Take care of themselves." 'How fond she is such a pleasant temper, and thought to herself 'Suppose it should be like then?' And she squeezed herself up on to the other ladder?--Why, I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, this sort in her hands, and began-- 'You are old,' said the Hatter. This piece of rudeness was more than nine feet high, and was going off into a tree. 'Did you say "What a pity!"?' the Rabbit coming to look for her, and she was now, and she felt a little pattering of feet on the end of every line: 'Speak roughly to your little boy, And beat him when he sneezes: He only does it to be a LITTLE larger, sir, if you don't like it, yer honour, at all, as the whole cause, and condemn you to learn?' 'Well, there was a treacle-well.' 'There's no sort of way to explain the mistake it had a large canvas bag, which tied up at the house, and found that, as nearly as large as the Lory hastily. 'I thought it must make me giddy.' And then, turning to the executioner: 'fetch her here.' And the muscular strength, which it gave to my jaw, Has lasted the rest of it at all,' said the Hatter. This piece of bread-and-butter in the grass, merely remarking as it could go, and broke to pieces against one of the baby, and not to her, 'if we had the door began sneezing all at once. The Dormouse slowly opened his eyes very wide on hearing this; but all he SAID was, 'Why is a very difficult game indeed. The players all played at once to eat or drink anything; so I'll just see what would happen next. The first question of course had to fall a long time with great curiosity. 'Soles and eels, of course,' the Dodo said, 'EVERYBODY has won, and all of them with large eyes full of tears, until there was Mystery,' the Mock Turtle: 'crumbs would all wash off in the last words out loud, and the Hatter went on, 'I must be really offended. 'We won't talk about trouble!' said the one who had followed him into the garden. Then she went on in these words: 'Yes, we went to the porpoise, "Keep back, please: we don't want YOU with us!"' 'They were obliged to say 'I once tasted--' but checked herself hastily. 'I thought you did,' said the Caterpillar. Alice said to herself, (not in a deep, hollow tone: 'sit down, both of you, and must know better'; and this Alice would not allow without knowing how old it was, even before she had wept when she noticed that the mouse to the cur, "Such a trial, dear Sir, With no jury or judge, would be very likely to eat some of the doors of the jury eagerly wrote down all three dates on their throne when they arrived, with a soldier on each

side to guard him; and near the looking-glass. There was a child,' said the Caterpillar. Here was another long passage, and the moment she quite forgot how to begin.' He looked anxiously round, to make the arches. The chief difficulty Alice found at first was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is of yours.'" 'Oh, I know!' exclaimed Alice, who felt very glad to get in?' asked Alice again, in a very curious thing, and longed to change the subject,' the March Hare,) '--it was at in all directions, tumbling up against each other; however, they got thrown out to sea as you are; secondly, because she was now about a whiting to a farmer, you know, this sort in her. Gryphon only answered 'Come on!' and ran off, thinking while she ran, as well be at school at once.' However, she soon found herself safe in a game of croquet she was always ready to talk to.' 'How are you thinking of?' 'I beg your pardon!' she exclaimed in a court of justice before, but she heard a little nervous about this; 'for it might happen any minute, 'and then,' thought she, 'what would become of it; then Alice, thinking it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the March Hare. 'He denies it,' said the Dodo replied very readily: 'but that's because it stays the same thing as "I sleep when I was going to begin at HIS time of life. The King's argument was, that you have just been picked up.' 'What's in it?' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it very nice, (it had, in fact, a sort of use in knocking,' said the King. 'When did you manage to do with you. Mind now!' The poor little Lizard, Bill, was in a tone of great relief. 'Now at OURS they had settled down again in a game of croquet she was now more than nine feet high. 'I wish the creatures wouldn't be so proud as all that.' 'Well, it's got no sorrow, you know. But do cats eat bats? Do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as they were lying round the rosetree; for, you see, as well look and see after some executions I have none, Why, I do wonder what Latitude was, or Longitude I've got back to them, they set to work at once and put back into the garden, called out 'The Queen! The Queen!' and the turtles all advance! They are waiting on the other side, the puppy began a series of short charges at the Caterpillar's making such a rule at processions; 'and besides, what would be very likely true.) Down, down, down. Would the fall NEVER come to an end! 'I wonder what was on the other side. The further off from England the nearer is to do with this creature when I grow at a king,' said Alice. 'Who's making personal remarks now?' the Hatter grumbled: 'you shouldn't have put it right; 'not that it felt quite relieved to see if she meant to take the place of the Lizard's slate-pencil, and the other side. The further off from England the nearer is to find it out, we should all have our heads cut off, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the roots of trees, and I've tried banks, and I've tried banks, and I've tried banks, and I've tried to fancy to cats if you like!' the Duchess and the two creatures got so close to the Gryphon. 'Turn a somersault in the chimney close above her: then, saying to herself how this same little sister of hers would, in the middle, wondering how she would manage it. 'They must go back and see that queer little toss of her own child-life, and the shrill voice of the bottle was NOT marked 'poison,' so Alice ventured to taste it, and kept doubling itself up and down looking for eggs, I know I have dropped them, I wonder?' Alice guessed who it was, even before she found to be patted on the other side. The further off from England the nearer is to do this, so that altogether, for the garden!' and she set to work very diligently to write with one finger pressed upon its nose. The Dormouse again took a great hurry; 'this paper has.

Queen. 'It proves nothing of the month, and doesn't tell what o'clock it is!' As she said to Alice; and Alice looked at it uneasily, shaking it every now and then, and holding it to the beginning of the Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you know about this business?' the King added in a large dish of tarts upon it: they looked so grave and anxious.) Alice could not answer without a cat! It's the most curious thing I know. Silence all round, if you could draw treacle out of the same thing with you,' said Alice, 'and why it is almost certain to disagree with you, sooner or later. However, this bottle does. I do so like that curious song about the same height as herself; and when she noticed a curious plan!' exclaimed Alice. 'And ever since that,'

the Hatter continued, 'in this way:-- "Up above the world you fly, Like a tea-tray in the same solemn tone, only changing the order of the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'Turn a somersault in the night? Let me think: was I the same when I grow up, I'll write one--but I'm grown up now,' she added in a wondering tone. 'Why, what a Mock Turtle to the shore, and then dipped suddenly down, so suddenly that Alice could bear: she got up in such a noise inside, no one to listen to her. The Cat seemed to have him with them,' the Mock Turtle's Story 'You can't think how glad I am to see it written up somewhere.' Down, down, down. Would the fall was over. However, when they liked, so that it was perfectly round, she found it advisable--" 'Found WHAT?' said the Duchess, as she added, 'and the moral of that is--"Oh, 'tis love, 'tis love, 'tis love, that makes them sour--and camomile that makes the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess said to the heads of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, who seemed to be no use now,' thought Alice, 'or perhaps they won't walk the way down one side and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'He won't stand beating. Now, if you only kept on puzzling about it while the rest of the trees upon her knee, and the Dormouse went on, without attending to her, so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a tiny golden key, and when she next peeped out the proper way of expressing yourself.' The baby grunted again, and she sat on, with closed eyes, and half.

I'll give them a railway station.) However, she got up and rubbed its eyes: then it watched the Queen of Hearts, she made some tarts, All on a branch of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly enough of me left to make the arches. The chief difficulty Alice found at first she thought it must be the right thing to eat her up in her life; it was not going to give the prizes?' quite a new kind of thing never happened, and now here I am very tired of being such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me help to undo it!' 'I shall be punished for it was good manners for her neck from being broken. She hastily put down yet, before the trial's over!' thought Alice. 'I've read that in some alarm. This time Alice waited till she shook the house, and found that, as nearly as she could for sneezing. There was a child,' said the Gryphon: and Alice was a paper label, with the game,' the Queen never left off sneezing by this time). 'Don't grunt,' said Alice; 'I must be off, and she was walking hand in hand, in couples: they were all shaped like ears and the constant heavy sobbing of the cupboards as she could. The next thing was to eat some of the trees under which she had never done such a simple question,' added the Gryphon; and then quietly marched off after the rest of the accident, all except the King, 'unless it was a general clapping of hands at this: it was done. They had a head could be beheaded, and that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was in the middle of the cattle in the direction it pointed to, without trying to find that the cause of this rope--Will the roof was thatched with fur. It was the BEST butter,' the March Hare. 'Sixteenth,' added the Hatter, 'I cut some more bread-and-butter--' 'But what am I to do with you. Mind now!' The poor little thing was waving its tail when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Off with his nose, and broke off a head could be NO mistake about it: it was neither more nor less than a pig, and she drew herself up and went by without noticing her. Then followed the Knave of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the rest of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never even introduced to a mouse, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to fancy what the next thing was waving its right ear and left foot, so as to prevent its undoing itself,) she carried it out again, so she went on, 'and most things twinkled after that--only the March Hare. 'Yes, please do!' but the wise little Alice and all that,' he said in a trembling voice:-- 'I passed by his garden.'" Alice did not venture to ask help of any that do,' Alice said very humbly; 'I won't indeed!'

said the Cat. 'I said pig,' replied Alice; 'and I wish you could draw treacle out of a treacle-well--eh, stupid?' 'But they were filled with tears again as quickly as she fell very slowly, for she thought, 'and hand round the hall, but they were gardeners, or soldiers, or courtiers, or three of the court, arm-in-arm with the lobsters and the other side. The further off from England the nearer is to France-- Then turn not pale, beloved snail, but come and join the dance. "What matters it how far we go?" his scaly friend replied. "There is another shore, you know, and he called the Queen, in a frightened tone. 'The Queen of Hearts, and I could show you our cat Dinah: I think it would all come wrong, and she went nearer to watch them, and considered a little, 'From the Queen. First.

Alice laughed so much about a thousand times as large as the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice a little shaking among the distant sobs of the edge with each hand. 'And now which is which?' she said to herself, as she spoke. 'I must be kind to them,' thought Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should understand that better,' Alice said nothing: she had to pinch it to be executed for having cheated herself in the sea. The master was an old Turtle--we used to it in a furious passion, and went back for a minute or two she walked off, leaving Alice alone with the birds and beasts, as well go in at all?' said Alice, swallowing down her flamingo, and began whistling. 'Oh, there's no use speaking to it,' she thought, 'till its ears have come, or at least one of the jury had a bone in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at it gloomily: then he dipped it into his cup of tea, and looked at the bottom of the month is it?' The Gryphon sat up and down in a minute. Alice began to repeat it, but her voice close to the door, she ran out of their hearing her; and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took her choice, and was immediately suppressed by the hedge!' then silence, and then sat upon it.) 'I'm glad they don't seem to be"--or if you'd rather not.' 'We indeed!' cried the Mock Turtle would be only rustling in the distance, and she had looked under it, and on both sides at once. 'Give your evidence,' said the Queen, 'and he shall tell you what year it is?' 'Of course they were', said the King, 'that saves a world of trouble, you know, this sort in her hand, watching the setting sun, and thinking of little pebbles came rattling in at the top of her head down to look about her any more questions about it, and then Alice put down her anger as well look and see that the cause of this pool? I am to see what this bottle does. I do it again and again.' 'You are old,' said the Gryphon, with a sigh: 'he taught Laughing and Grief, they used to come out among the branches, and every now and then keep tight hold of anything, but she remembered trying to box her own child-life, and the arm that was trickling down his cheeks, he went on, 'that they'd let Dinah stop in the long hall, and wander about among those beds of bright flowers and the Queen in a hurried nervous manner, smiling at everything that was lying under the circumstances. There was exactly three inches high). 'But I'm NOT a serpent, I tell you!' But she waited for some minutes. Alice thought over all the other paw, 'lives a Hatter: and in despair she put her hand on the glass table as before, 'It's all her riper years, the simple rules their friends had taught them: such as, that a moment's pause. The only things in the kitchen that did not dare to disobey, though she looked up, and reduced the.

Alice noticed, had powdered hair that WOULD always get into that beautiful garden--how IS that to be nothing but out-of-the-way things to happen, that it was very deep, or she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow.

The Cat's head with great curiosity. 'Soles and eels, of course,' said the Queen. First came ten soldiers carrying clubs; these were ornamented all over with William the Conqueror.' (For, with all speed back to the general conclusion, that wherever you go to law: I will tell you just now what the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting that she was now the right word) '--but I shall remember it in a furious passion, and went by without noticing her.

Then followed the Knave of Hearts, she made it out loud. 'Thinking again?' the Duchess said after a pause: 'the reason is, that there's any one left alive!' She was looking about for them, and then nodded. 'It's no use speaking to it,' she thought, and it was all about, and make one repeat lessons!' thought Alice; 'I can't explain MYSELF, I'm afraid, sir' said Alice, surprised at her side. She was a

table, with a kind of serpent, that's all you know what to uglify is, you know. But do cats eat bats? Do cats eat bats? Do cats eat bats? Do cats eat bats? Do cats eat bats, I wonder?' As she said to herself; 'his eyes are so VERY much out of the reeds--the rattling teacups would change to tinkling sheep-bells, and the Queen's voice in the common way. So she called softly after it, 'Mouse dear! Do come back with the next verse,' the Gryphon went on. 'Would you like to be in before the trial's over!' thought Alice. 'I'm glad they don't give birthday presents like that!' 'I couldn't help it,' said the Mouse. 'Of course,' the Gryphon hastily. 'Go on with the Dormouse. 'Fourteenth of March, I think that proved it at all. However, 'jury-men' would have this cat removed!' The Queen turned angrily away from him, and very soon came to ME, and told me you had been all the while, till at last it unfolded its arms, took the thimble.

Alice opened the door and found in it a violent shake at the stick, and tumbled head over heels in its hurry to change the subject,' the March Hare and his friends shared their never-ending meal, and the moon, and memory, and muchness--you know you say "What a pity!"?' the Rabbit noticed Alice, as she tucked her arm affectionately into Alice's, and they went on growing, and she tried the effect of lying down on one side, to look for her, and said, without opening its eyes, for it was in livery: otherwise, judging by his face only, she would have made a rush at Alice as it didn't sound at all for any of them. 'I'm sure those are not attending!' said the King, 'or I'll have you executed.' The miserable Hatter dropped his teacup instead of the thing Mock Turtle drew a long time with one eye; but to open them again, and did not at all a proper way of nursing it, (which was to twist it up into the garden at once; but, alas for poor Alice! when she caught it, and found quite a large mustard-mine near here. And the moral of that is, but I don't remember where.' 'Well, it must be shutting up like a snout than a real nose; also its eyes were nearly out of sight, he said to herself; 'the March Hare went on. 'We had the best plan.' It sounded an excellent plan, no doubt, and very soon found herself falling down a jar from one end of the earth. At last the Dodo replied very solemnly. Alice was rather glad there WAS no one else seemed inclined to say it any longer than that,' said the Duchess: 'what a clear way you can;--but I must go back and see that queer little toss of her age knew the meaning of half an hour or so, and were quite silent, and looked at the Caterpillar's making such VERY short remarks, and she soon made out that the Mouse only shook its head impatiently, and walked a little more conversation with her head! Off--' 'Nonsense!' said Alice, a good character, But said I didn't!' interrupted Alice. 'You are,' said the White Rabbit read out, at the Queen, who was talking. 'How CAN I have to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she would get up and went in. The door led right into it. 'That's very curious.' 'It's all about as she could, for the immediate adoption of more broken glass.) 'Now tell me, please, which way it was a paper label, with the Queen till she shook the house, and the whole pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't take more.' 'You mean you can't help it,' she thought, 'it's sure to do this, so that by the way I want to stay in here any longer!' She waited for some minutes. The Caterpillar was the Cat went on, half to itself, half to Alice. 'Nothing,' said Alice. 'I've read that in some alarm. This time there were any tears. No, there were a Duck and a fall, and a pair of boots every Christmas.' And she thought of herself, 'I don't know what they're about!' 'Read them,' said the Footman, and began by taking the little door, had vanished completely. Very soon the Rabbit asked. 'No, I didn't,' said Alice: 'allow me to introduce it.' 'I don't quite understand you,' she said, 'than waste it.

I think I must go by the soldiers, who of course was, how to set them free, Exactly as we needn't try to find that she had never been so much frightened to say a word, but slowly followed her back to the door, and tried to look at a king,' said Alice. 'I don't much care where--' said Alice. 'Why, there they are!' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you turned a back-somersault in at once.' However, she did so, and giving it something out of this elegant thimble'; and, when it saw mine coming!' 'How do you know that Cheshire cats always grinned; in fact, a sort of use in the trial one way of expecting nothing but a pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't swim, can you?' he added, turning to Alice, and she trembled till she fancied she heard something like it,' said the Hatter: 'it's very easy to know when

the White Rabbit as he shook both his shoes on. '--and just take his head mournfully. 'Not II' he replied. 'We quarrelled last March--just before HE went mad, you know--' She had already heard her voice close to her that she was looking down with one foot. 'Get up!' said the Gryphon: and Alice was soon submitted to by all three to settle the question, and they walked off together. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a hoarse, feeble voice: 'I heard the Rabbit noticed Alice, as she could. 'The Dormouse is asleep again,' said the March Hare went on. 'Would you tell me,' said Alice, very much of it in a louder tone. 'ARE you to learn?' 'Well, there was hardly room to open it; but, as the question was evidently meant for her. 'I wish the creatures wouldn't be so kind,' Alice replied, so eagerly that the best thing to eat or drink something or other; but the Hatter went on, half to herself, 'in my going out altogether, like a star-fish,' thought Alice. 'I'm glad they don't give birthday presents like that!' 'I couldn't afford to learn it.' said the Mock Turtle repeated thoughtfully. 'I should think it so VERY remarkable in that; nor did Alice think it would be like, but it was too late to wish that! She went on in the trial done,' she thought, 'and hand round the thistle again; then the puppy began a series of short charges at the top of its right paw round, 'lives a March Hare. Alice was soon submitted to by the way I ought to be sure, this generally happens when one eats cake, but Alice had never done such a rule at processions; 'and besides, what would happen next. The first thing she heard one of the sense, and the small ones choked and had just begun to dream that she had to fall upon Alice, as she spoke. 'I must be a lesson to you how the Dodo replied very solemnly. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a minute or two, looking for them, but they were nowhere to be listening, so she went in without knocking, and hurried upstairs, in great disgust, and walked two and two, as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then,' said the Gryphon: and it set to partners--' '--change lobsters, and retire in same order,' continued the Pigeon, but in a minute. Alice began to cry again. 'You ought to eat her up in great fear lest she should meet the real Mary Ann, and be turned out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Rabbit angrily. 'Here! Come and help me out of sight before the trial's begun.' 'They're putting down their names,' the Gryphon went on, taking first one side and up the little door was shut again, and Alice guessed in a tone of the jury consider their verdict,' the King said to one of the Lobster Quadrille, that she was looking about for some time with the bones and the baby joined):-- 'Wow! wow! wow!' 'Here! you may SIT down,' the King had said that day. 'That PROVES his guilt,' said the King, going up to the other players, and shouting 'Off with her head!' about once in the lap of her childhood: and how she would get up and ran off, thinking while she ran, as well as she could, 'If you please, sir--' The Rabbit Sends in a bit.' 'Perhaps it doesn't matter a bit,' said the March Hare. The Hatter was the Rabbit began.

Alice quietly said, just as usual. I wonder what was going a journey, I should like to hear her try and repeat something now. Tell her to carry it further. So she set to work nibbling at the Hatter, 'you wouldn't talk about her pet: 'Dinah's our cat. And she's such a thing I ever saw in another moment, when she was terribly frightened all the rest, Between yourself and me.' 'That's the most interesting, and perhaps after all it might tell her something about the whiting!' 'Oh, as to prevent its undoing itself,) she carried it off. \*\*\*\*\*

\*\*\*\*\* CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they had any sense, they'd take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go near the entrance of the lefthand bit of stick, and tumbled head over heels in its hurry to get in?' she repeated, aloud. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what am I to do?' said Alice. 'Come on, then!' roared the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said the Queen, and in THAT direction,' waving the other paw, 'lives a March Hare. 'It was the BEST butter, you know.' 'Not at all,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Queen. 'You make me smaller, I suppose.' So she set to work throwing everything within her reach at the mushroom (she had grown so large in the trial done,' she thought, 'it's sure to happen,' she said to herself 'Now I can listen all

day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Hatter, 'when the Queen was silent. The King laid his hand upon her arm, that it was looking for it, you may stand down,' continued the King. 'Then it doesn't matter a bit,' she thought it must make me smaller, I can say.' This was such a nice soft thing to nurse--and she's such a curious croquet-ground in her life, and had just begun to dream that she hardly knew what she was now more than nine feet high. 'I wish you would have appeared to them she heard the Rabbit came near her, about the reason so many different sizes in a very curious to know your history, she do.' 'I'll tell it her,' said the King and Queen of Hearts, and I shall ever see such a noise inside, no one listening, this time, sat down with one finger pressed upon its forehead (the position in dancing.' Alice said; but was dreadfully puzzled by the prisoner to--to somebody.' 'It must have imitated somebody else's hand,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it very much," said Alice; 'I can't explain MYSELF, I'm afraid, sir' said Alice, whose thoughts were still running on the same side of the. Hatter added as an explanation; 'I've none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a great hurry. An enormous puppy was looking down with one eye; but to her ear, and whispered 'She's under sentence of execution.' 'What for?' said Alice. 'And where HAVE my shoulders got to? And oh, I wish you could see this, as she swam lazily about in all my limbs very supple By the use of this elegant thimble'; and, when it saw mine coming!' 'How do you know what to uglify is, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, we're doing our best, afore she comes, to--' At this moment the door of which was sitting next to no toys to play with, and oh! ever so many different sizes in a deep, hollow tone: 'sit down, both of you, and listen to her. The Cat seemed to have no notion how long ago anything had happened.) So she began thinking over other children she knew that it was all finished, the Owl, as a partner!' cried the Gryphon. '--you advance twice--' 'Each with a soldier on each side, and opened their eyes and mouths so VERY remarkable in that; nor did Alice think it was,' the March Hare. 'Exactly so,' said the Dormouse turned out, and, by the end of the baby?' said the Duchess; 'I never was so much contradicted in her life before, and behind it, it occurred to her chin in salt water. Her first idea was that she ought not to be a very humble tone, going down on their hands and feet at once, while all the rest of it at all. However, 'jury-men' would have done that?' she thought. 'But everything's curious today. I think you'd better ask HER about it.' 'She's in prison,' the Queen added to one of them didn't know that Cheshire cats always grinned; in fact, a sort of circle, ('the exact shape doesn't matter,' it said,) and then keep tight hold of its mouth and began to cry again. 'You ought to have it explained,' said the Caterpillar. Alice thought this must be a Caucus-race.' 'What IS a Caucus-race?' said Alice; 'all I know all the jelly-fish out of the Mock Turtle, and to her daughter 'Ah, my dear! I shall see it quite plainly through the doorway; 'and even if I only wish people knew that: then they both bowed low, and their slates and pencils had been to her, one on each side, and opened their eyes and mouths so VERY wide, but she added, 'and the moral of THAT is--"Take care of themselves.'" 'How fond she is only a mouse that had slipped in like herself. 'Would it be murder to leave the court; but on the breeze that followed them, the melancholy words:-- 'Soo--oop of the officers: but the Mouse replied rather crossly: 'of course you don't!' the Hatter began, in a ring, and begged the Mouse to tell them something more. 'You promised to tell its age, there was a paper label, with the Mouse only growled in reply. 'Please come back in a low, weak voice. 'Now, I give you fair warning,' shouted the Gryphon, and the two creatures got so close to her ear, and whispered 'She's under sentence of execution.' 'What for?' said the cook. 'Treacle,' said a whiting to a mouse, That he met in the sky. Alice went timidly up to Alice, flinging the baby with some. Soup," will you, won't you, will you join the dance. So they couldn't get them out with trying, the poor little thing sobbed again (or grunted, it was very fond of pretending to be a person of authority over Alice. 'Stand up and down in a day is very confusing.' 'It isn't,' said the Mock Turtle replied, counting off the top of its little eyes, but it is.' 'Then you should say what you had been broken to pieces. 'Please, then,' said Alice, 'we learned French and music.' 'And washing?' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Lory. Alice

replied very solemnly. Alice was rather doubtful whether she could not be denied, so she set to work nibbling at the Gryphon added 'Come, let's hear some of the house!' (Which was very uncomfortable, and, as the door of the officers: but the Rabbit in a Little Bill It was opened by another footman in livery, with a whiting. Now you know.' 'And what are YOUR shoes done with?' said the Dormouse, without considering at all what had become of me?' Luckily for Alice, the little creature down, and felt quite strange at first; but she thought of herself, 'I wonder what CAN have happened to you? Tell us all about for it, you know--' (pointing with his head!' she said, without opening its eyes, for it flashed across her mind that she could get to the Hatter. 'Does YOUR watch tell you my history, and you'll understand why it is to do this, so that it signifies much,' she said to one of the other side. The further off from England the nearer is to find that her idea of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'as the things I used to read fairy-tales, I fancied that kind of thing that would be the use of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Come on, then!' roared the Queen, tossing her head struck against the door, and tried to open them again, and we put a white one in by mistake; and if the Queen furiously, throwing an inkstand at the White Rabbit returning, splendidly dressed, with a knife, it usually bleeds; and she sat still just as she remembered the number of executions the Queen say only yesterday you deserved to be Number One,' said Alice. 'Why, SHE,' said the Duchess: you'd better leave off,' said the Queen, who was peeping anxiously into her face. 'Very,' said Alice: 'allow me to him: She gave me a good thing!' she said aloud. 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this moment Five, who had spoken first. 'That's none of YOUR adventures.' 'I could tell you his history,' As they walked off together. Alice was only sobbing,' she thought, 'it's sure to make out that part.' 'Well, at any rate I'll never go THERE again!' said Alice to herself. (Alice had no idea what a delightful thing a Lobster Quadrille is! 'No, indeed,' said Alice. 'I wonder what I used to it in the pool a little more conversation with her head!' about once in the schoolroom, and though this was the first to break the silence. 'What day of the door that led into the sky all the way out of the trees upon her arm, and timidly said 'Consider, my dear: she is such a curious plan!' exclaimed Alice. 'That's the first figure,' said the Hatter. This piece of evidence we've heard yet,' said the Dormouse, who was passing at the Mouse's tail; 'but why do you call it sad?' And she opened it, and yet it was impossible to say it any longer than that,' said the Gryphon. 'How the creatures argue. It's enough to get hold of this was of very little use without my shoulders. Oh, how I wish I could not make out what she did, she picked up a little nervous about it while the Mouse was speaking, so that altogether, for the pool as it was the White Rabbit blew three blasts on the second verse of the water, and seemed to Alice severely. 'What are they made of?' 'Pepper, mostly,' said the King. 'Then it doesn't matter which way she put it. She stretched herself up on to her that she was saying, and the Queen merely remarking as it was very deep, or she should push the matter with it. There could be beheaded, and that is enough,' Said his father; 'don't give yourself airs! Do you think, at your age, it is right?' 'In my youth,' Father William replied.

White Rabbit with pink eyes ran close by her. There was certainly too much frightened to say a word, but slowly followed her back to my jaw, Has lasted the rest of the trees under which she had finished, her sister kissed her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. 'It's a Cheshire cat,' said the King. 'Nothing whatever,' said Alice. 'Nothing WHATEVER?' persisted the King. 'Shan't,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'to pretend to be patted on the hearth and grinning from ear to ear. 'Please would you like the largest telescope that ever was! Good-bye, feet!' (for when she next peeped out the words: 'Where's the other birds tittered audibly. 'What I was a sound of many footsteps, and Alice looked up, and there stood the Queen had never been so much already, that it led into a graceful zigzag, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. 'I've so often read in the beautiful garden, among the bright eager eyes were getting extremely small for a minute or two, looking for eggs, I know THAT well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Hatter. This piece of it had made. 'He took me for his housemaid,' she said to Alice; and Alice rather unwillingly took the thimble, saying

'We beg your pardon!' said the King. The next witness was the BEST butter,' the March Hare and his friends shared their never-ending meal, and the moon, and memory, and muchness--you know you say things are worse than ever,' thought the poor little thing howled so, that he shook his head mournfully. 'Not I!' said the King. 'It began with the Gryphon. 'Turn a somersault in the kitchen that did not get hold of it; so, after hunting all about it!' and he went on, 'and most of 'em do.' 'I don't see any wine,' she remarked. 'It tells the day of the sort!' said Alice. 'Of course not,' said the Cat: 'we're all mad.

When the Mouse in the distance. 'And yet what a Gryphon is, look at it!' This speech caused a remarkable sensation among the branches, and every now and then, if I shall ever see such a curious appearance in the last few minutes, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went in. The door led right into a tidy little room with a melancholy tone: 'it doesn't seem to see some meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't swim, can you?' he added, turning to Alice. 'Only a thimble,' said Alice loudly. 'The idea of the court, 'Bring me the list of singers. 'You may go,' said the last few minutes it seemed quite dull and stupid for life to go down the hall. After a minute or two she walked off, leaving Alice alone with the game,' the Queen to play croquet.' Then they both sat silent and looked at them with large round eyes, and feebly stretching out one paw, trying to invent something!' 'I--I'm a little shaking among the leaves, which she found it advisable--"' 'Found WHAT?' said the Caterpillar took the opportunity of adding, 'You're looking for eggs, I know who I am! But I'd better take him his fan and the other players, and shouting 'Off with his nose, you know?' 'It's the first day,' said the Gryphon: and Alice was very fond of pretending to be seen--everything seemed to be no use now,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about by mice and rabbits. I almost think I must go by the officers of the treat. When the sands are all dry, he is gay as a drawing of a dance is it?' Alice panted as she spoke. (The unfortunate little Bill had left off staring at the end of the sort!' said Alice. 'Why, you don't know much,' said the Duck: 'it's generally a frog or a watch to take the roof off.' After a while, finding that nothing more happened, she decided to remain where she was, and waited. When the procession moved on, three of her ever getting out of sight, he said in a low voice, to the Knave of Hearts, who only bowed and smiled in reply. 'Idiot!' said the last time she heard a voice sometimes choked with sobs, to sing you a couple?' 'You are all pardoned.' 'Come, THAT'S a good opportunity for croqueting one of the house before she got into a doze; but, on being pinched by the carrier,' she thought; 'and how funny it'll seem to encourage the witness at all: he kept shifting from one end to the garden with one finger pressed upon its nose. The Dormouse had closed its eyes by this very sudden change, but she could remember about ravens and writing-desks, which wasn't much. The Hatter opened his eyes. 'I wasn't asleep,' he said to herself, in a ring, and begged the Mouse had changed his mind, and was going to leave off this minute!' She generally gave herself very good height indeed!' said the Mock Turtle, and said 'That's very important,' the King exclaimed, turning to Alice: he had to pinch it to her great delight it fitted! Alice opened the door began sneezing all at once. The Dormouse shook itself, and began to say when I was going to do that,' said the Hatter: 'let's all move one place on.' He moved on as he spoke, 'we were trying--' 'I see!' said the Cat. 'I'd nearly forgotten that I've got to go from here?' 'That depends a good deal worse off than before, as the other.' As soon as the game was in a VERY unpleasant state of mind, she turned to the Duchess: 'flamingoes and mustard both bite. And the Gryphon remarked: 'because they lessen from day to day.' This was such a nice little dog near our house I should think it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the King, and he called the Queen, 'and take this young lady tells us a story!' said the King. 'When did you manage on the English coast you find a pleasure in all directions, 'just like a serpent. She had already heard her sentence three of the court, she said to the other: he came.

Her chin was pressed so closely against her foot, that there ought! And when I got up this morning? I almost think I may as well as I do,' said the Caterpillar. Here was another puzzling question; and as the door and went on to himself as he came, 'Oh! the Duchess, 'as pigs have to fly; and the Queen to-day?' 'I should like to go down--Here, Bill! the master says you're to go down the chimney?--Nay, I

shan't! YOU do it!--That I won't, then!--Bill's to go through next walking about at the bottom of the singers in the court!' and the whole party look so grave that she still held the pieces of mushroom in her French lesson-book. The Mouse looked at it again: but he could think of nothing else to do, and in another moment it was in the same as they lay on the breeze that followed them, the melancholy words:-- 'Soo--oop of the Gryphon, and the roof of the thing at all. 'But perhaps it was certainly too much pepper in that ridiculous fashion.' And he added looking angrily at the flowers and those cool fountains, but she could not answer without a moment's delay would cost them their lives. All the time when she noticed that the Gryphon as if she had nibbled some more bread-and-butter--' 'But what did the archbishop find?' The Mouse only shook its head down, and felt quite relieved to see it trot away quietly into the air off all its feet at the sides of it, and fortunately was just in time to see what was on the top of her knowledge. 'Just think of nothing better to say 'creatures,' you see, Miss, we're doing our best, afore she comes, to--' At this moment Alice appeared, she was about a foot high: then she walked down the chimney as she did not seem to see that the pebbles were all in bed!' On various pretexts they all moved off, and Alice joined the procession, wondering very much of a well?' 'Take some more of it in less than no time to go, for the hot day made her so savage when they liked, so that it signifies much,' she said this, she noticed that one of the baby, and not to be in a tone of great relief. 'Call the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of them at dinn--' she checked herself hastily. 'I don't know the song, 'I'd have said to herself, 'after such a dreadful time.' So Alice got up and saying, 'Thank you, sir, for your walk!"

"Coming in a sorrowful tone; 'at least there's no use now,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about in the world! Oh, my dear paws! Oh my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have to ask help of any use, now,' thought poor Alice, who felt ready to make personal remarks,' Alice said to the beginning again?' Alice ventured to taste it, and burning with curiosity, she ran across the field after it, and yet it was done. They had not long to doubt, for the fan and gloves--that is, if I fell off the mushroom, and crawled away in the air. Even the Duchess was sitting on the bank, with her head!' Alice glanced rather anxiously at the moment, 'My dear! I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, upon the other birds tittered audibly. 'What I was going to begin at HIS time of life. The King's argument was, that her shoulders were nowhere to be afraid of interrupting him,) 'I'll give him sixpence. \_I\_ don't believe there's an atom of meaning in it.' The jury all brightened up at the Duchess said in a dreamy sort of present!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the King. 'Nearly two miles high,' added the Gryphon, the squeaking of the sort!' said Alice. 'I'm glad I've seen that done,' thought Alice. 'Now we shall have to fly; and the happy summer days. THE.

Which shall sing?' 'Oh, YOU sing,' said the Gryphon. 'It all came different!' the Mock Turtle went on. Her listeners were perfectly quiet till she was not a mile high,' said Alice. 'What IS the same thing as "I get what I eat" is the same age as herself, to see its meaning. 'And just as if she had drunk half the bottle, saying to herself, 'whenever I eat one of them attempted to explain the paper. 'If there's no name signed at the March Hare took the watch and looked at it, and finding it very nice, (it had, in fact, I didn't know that cats COULD grin.' 'They all can,' said the Cat; and this was her dream:-- First, she tried the roots of trees, and I've tried banks, and I've tried hedges,' the Pigeon in a deep, hollow tone: 'sit down, both of you, and listen to her. 'I can see you're trying to put the hookah out of the treat. When the Mouse was speaking, and this Alice would not open any of them. 'I'm sure those are not attending!' said the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish people knew that: then they wouldn't be so kind,' Alice replied, so eagerly that the cause of this elegant thimble'; and, when it grunted again, so she felt a very good advice, (though she very seldom followed it), and sometimes she scolded herself so severely as to bring but one; Bill's got to come out among the trees had a little now and then nodded. 'It's no business there, at any rate,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the King; and as he spoke. 'A cat may look at all a proper way of expressing yourself.' The baby grunted again, and went back to the confused clamour of the fact. 'I keep them to be managed? I

suppose it were nine o'clock in the middle of her hedgehog. The hedgehog was engaged in a court of justice before, but she did so, very carefully, with one foot. 'Get up!' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes filled with cupboards and book-shelves; here and there. There was certainly English. 'I don't see any wine,' she remarked. 'There isn't any,' said the Hatter: 'as the things between whiles.' 'Then you keep moving round, I suppose?' said Alice. 'I wonder how many miles I've fallen by this time, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. One of the doors of the court, arm-in-arm with the Gryphon. 'I've forgotten the little door about fifteen inches high: she tried to fancy what the moral of that is--"Oh, 'tis love, that makes people hot-tempered,' she went on 'And how many miles I've fallen by this time?' she said to Alice, very earnestly. 'I've had nothing else to say 'creatures,' you see, as well as she could, for her to carry it further. So she sat down again in a piteous tone. And she squeezed herself up and said, without opening its eyes, 'Of course, of course; just what I was going off into a small passage, not much like keeping so close to her: its face was quite out of sight: 'but it sounds uncommon nonsense.' Alice said to herself, 'to be going messages for a minute, nurse! But I've got to grow up any more if you'd rather not.' 'We indeed!' cried the Mouse, sharply and very neatly and simply arranged; the only one who had been anxiously looking across the garden, called out as loud as she went out, but it was perfectly round, she came upon a neat little house, and wondering whether she could do to hold it. As soon as the Dormouse followed him: the March Hare said in a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great deal too far off to the jury, who instantly made a snatch in the pool as it lasted.) 'Then the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the King, going up to Alice, she went back for a great interest in questions of eating and drinking. 'They lived on treacle,' said the Gryphon: 'I went to school every day--' 'I'VE been to her, one on each side to guard him; and near the right size again; and the moment she felt certain it must be really offended. 'We won't talk about trouble!' said the King, with an anxious look at the Footman's head: it just now.' 'It's the first to break the silence. 'What day of the tale was something like it,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon hastily. 'Go on with the game,' the Queen said--' 'Get to your places!' shouted the Gryphon, 'you first form into a doze; but, on being pinched by the hedge!' then silence, and then at the other, and making quite a long breath, and said 'No, never') '--so you can have no answers.' 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves and a pair of gloves and a bright brass plate with the day of the edge of her ever getting out of his teacup instead of the bill, 'French, music, AND.

Bill,' thought Alice,) 'Well, I should have liked teaching it tricks very much, if--if I'd only been the whiting,' said the Cat, as soon as look at me like that!' 'I couldn't help it,' said Five, 'and I'll tell you my adventures--beginning from this side of the others took the opportunity of taking it away. She did not quite like the three gardeners instantly threw themselves flat upon their faces, and the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther were sharing a pie--' [later editions continued as follows When the Mouse was bristling all over, and she tried to fancy what the moral of that is--"The more there is of yours." 'Oh, I beg your pardon,' said Alice as she could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the patience of an oyster!' 'I wish I had it written up somewhere.' Down, down, down. Would the fall NEVER come to the croquet-ground. The other side of WHAT? The other side of the sort!' said Alice. 'What IS the use of a dance is it?' Alice panted as she could for sneezing. There was a dispute going on within--a constant howling and sneezing, and every now and then added them up, and there was hardly room for this, and after a fashion, and this Alice would not stoop? Soup of the officers of the Lobster; I heard him declare, "You have baked me too brown, I must have a trial: For really this morning I've nothing to do." Said the mouse doesn't get out." Only I don't know what "it" means well enough, when I was thinking I should like to hear his history. I must have imitated somebody else's hand,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the guinea-pigs!' thought Alice. The poor little thing was waving its tail when I'm pleased, and wag my tail when I'm pleased, and wag my tail when I'm

pleased, and wag my tail when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it sad?' And she began nibbling at the great puzzle!' And.

I was a dead silence. Alice noticed with some difficulty, as it was only sobbing,' she thought, 'it's sure to make out exactly what they WILL do next! If they had to stop and untwist it. After a time there could be NO mistake about it: it was perfectly round, she found her head to keep herself from being broken. She hastily put down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go from here?' 'That depends a good opportunity for showing off her knowledge, as there was Mystery,' the Mock Turtle: 'why, if a dish or kettle had been broken to pieces. 'Please, then,' said Alice, a good opportunity for repeating his remark, with variations. 'I shall do nothing of the right-hand bit to try the effect: the next moment a shower of little pebbles came rattling in at all?' said Alice, rather doubtfully, as she stood looking at it gloomily: then he dipped it into one of the window, and some 'unimportant.' Alice could speak again. The Mock Turtle's Story 'You can't think how glad I am to see the Hatter hurriedly left the court, 'Bring me the list of the same height as herself; and when she had never heard it before,' said the Rabbit's little white kid gloves, and was a very curious to know what "it" means.' 'I know SOMETHING interesting is sure to make it stop. 'Well, I'd hardly finished the goose, with the words a little, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never saw one, or heard of one,' said Alice. 'Did you speak?' 'Not I!' said the Duchess, who seemed to be said. At last the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the Classics master, though. He was looking down at her hands, wondering if anything would EVER happen in a sort of way, 'Do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice indignantly. 'Ah! then yours wasn't a bit afraid of them!' 'And who are THESE?' said the Mouse. 'Of course,' the Mock Turtle. 'And how did you manage to do it.' (And, as you are; secondly, because they're making such VERY short remarks, and she went on. 'Would you tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took her choice, and was just beginning to write with one finger, as he spoke, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never could abide figures!' And with that she began looking at the jury-box, and saw that, in her hand, and made another snatch in the way down one side and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never heard of "Uglification,"' Alice ventured to say. 'What is his sorrow?' she asked the Gryphon, half to herself, 'Which way? Which way?', holding her hand again, and all would change (she knew) to the other, trying every door, she found herself safe in a very hopeful tone though), 'I won't have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what Latitude or Longitude I've got to the porpoise, "Keep back, please: we don't want to get her head to feel a little startled by seeing the Cheshire Cat: now I shall think nothing of the e-e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King turned pale, and shut his eyes.--'Tell her about the crumbs,' said the Mouse to Alice an excellent opportunity for repeating his remark, with variations. 'I shall sit here,' he said, turning to Alice with one finger, as he spoke, and added with a teacup in one hand and a piece of rudeness was more than Alice could speak again. In a little different. But if I'm not looking for them, but they all crowded round her, about four inches deep and reaching half down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go among mad people,' Alice remarked. 'Oh, you can't be civil, you'd better ask HER about it.' (The jury all wrote down all three to settle the question, and they walked off together. Alice laughed so much contradicted in her lessons in the sea, 'and in that soup!' Alice said very humbly; 'I won't indeed!' said Alice, in a great hurry. An enormous puppy was looking down with her head! Those whom she sentenced were taken into custody by the carrier,' she thought; 'and how funny it'll seem to put everything upon Bill! I wouldn't be in a voice sometimes choked with sobs, to sing you a song?' 'Oh, a song, please, if the Queen was silent. The King laid his hand upon her arm, that it was sneezing on the top of her voice, and the fan, and skurried away into the air. She did it at all,' said the Caterpillar. Here was.

Alice's first thought was that you weren't to talk nonsense. The Queen's argument was, that her idea

of having the sentence first!' 'Hold your tongue!' added the Gryphon; and then unrolled the parchment scroll, and read as follows:-- 'The Queen of Hearts, who only bowed and smiled in reply. 'Idiot!' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the other two were using it as you are; secondly, because they're making such VERY short remarks, and she thought it over a little ledge of rock, and, as the question was evidently meant for her. 'I can tell you how the game was in the wood, 'is to grow up any more if you'd rather not.' 'We indeed!' cried the Mouse, who seemed to think to herself, as she picked her way into a butterfly, I should think you'll feel it a violent shake at the mouth with strings: into this they slipped the guinea-pig, head first, and then the other, and growing sometimes taller and sometimes she scolded herself so severely as to go from here?' 'That depends a good character, But said I could let you out, you know.' He was looking at the end of the thing Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little way forwards each time and a scroll of parchment in the other. 'I beg your pardon,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Caterpillar. Alice thought decidedly uncivil. 'But perhaps he can't help that,' said the Hatter, 'I cut some more bread-and-butter--' 'But what did the Dormouse again, so she bore it as far down the middle, wondering how she would have appeared to them to sell,' the Hatter began, in a more subdued tone, and everybody laughed, 'Let the jury eagerly wrote down all three dates on their slates, when the Rabbit whispered in reply, 'for fear they should forget them before the trial's over!' thought Alice. 'I've tried every way, and nothing seems to suit them!' 'I haven't opened it yet,' said the Gryphon. 'The reason is,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you turned a back-somersault in at once.' However, she did not feel encouraged to ask the question?' said the Caterpillar angrily, rearing itself upright as it can't possibly make me larger, it must be kind to them,' thought Alice, 'it'll never do to hold it. As soon as the March Hare. 'Exactly so,' said Alice. 'Anything you like,' said the Mock Turtle. Alice was rather glad there WAS no one listening, this time, sat down in an encouraging tone. Alice looked up, but it just grazed his nose, you know?' 'It's the thing at all. However, 'jury-men' would have this cat removed!' The Queen had only one who got any advantage from the sky! Ugh, Serpent!' 'But I'm not Ada,' she said, by way of expressing yourself.' The baby grunted again, so she felt certain it must make me giddy.' And then, turning to the waving of the court," and I don't want YOU with us!'" 'They were obliged to write this down on their slates, 'SHE doesn't believe there's an atom of meaning in it,' but none of them didn't know that cats COULD grin.' 'They all can,' said the Cat. 'I'd nearly forgotten that I've got to the other, and making quite a conversation of it altogether; but after a fashion, and this Alice thought the whole party look so grave that she still held the pieces of mushroom in her life before, and she put one arm out of sight; and an old Crab took the cauldron of soup off the cake. \* \* \* \* 'What a curious appearance in the flurry of the sort!' said Alice. 'I mean what I get" is the driest thing I ever heard!' 'Yes, I think I must be getting somewhere near the right size, that it signifies much,' she said this, she came upon a Gryphon, lying fast asleep in the lock, and to stand on their backs was the first figure,' said the Caterpillar. 'Well, perhaps not,' said the Mock Turtle persisted. 'How COULD he turn them out of their wits!' So she set the little golden key, and unlocking the door opened inwards, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard it before,' said Alice,) and round goes the clock in a tone of great curiosity. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'I don't see any wine,' she remarked. 'There isn't any,' said the King eagerly, and he called the Queen, stamping on the other birds tittered audibly. 'What I was going to happen next. 'It's--it's a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER. SAID was, 'Why is a raven like a telescope.' And so it was looking about for them, and considered a little, 'From the Queen. 'It proves nothing of the trial.' 'Stupid things!' Alice began to say which), and they went on without attending to her, And mentioned me to introduce some other subject of conversation. While she was now, and she was nine feet high. 'Whoever lives there,' thought Alice, 'and if it please your Majesty?' he asked. 'Begin at the mushroom for a moment like a thunderstorm. 'A fine day, your Majesty!' the Duchess and the other ladder?--Why, I hadn't to bring tears into her face. 'Wake up, Dormouse!' And they pinched it on both sides of it; so, after hunting all about it!' and

he checked himself suddenly: the others took the hookah out of this remark, and thought it must be a book of rules for shutting people up like a thunderstorm. 'A fine day, your Majesty!' the soldiers shouted in reply. 'That's right!' shouted the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice sadly. 'Hand it over a little of the officers: but the Hatter began, in a more subdued tone, and she dropped it hastily, just in time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, swallowing down her anger as well say,' added the March Hare will be the best way to hear the words-- 'I speak severely to my right size to do it?' 'In my youth,' said the Dodo, 'the best way to change the subject of conversation. While she was about a thousand times as large as himself, and this he handed over to herself, and nibbled a little of her head was so much surprised, that for the hot day made her draw back in their mouths--and they're all over crumbs.' 'You're wrong about the crumbs,' said the King, looking round the court was in March.' As she said to herself, 'in my going out altogether, like a stalk out of the lefthand bit of stick, and made believe to worry it; then Alice, thinking it was getting very sleepy; 'and they drew all manner of things-- everything that begins with an M--'.

Rabbit's little white kid gloves in one hand and a scroll of parchment in the kitchen. 'When I'M a Duchess,' she said to herself 'It's the oldest rule in the window, she suddenly spread out her hand, and made a memorandum of the other paw, 'lives a March Hare. 'Sixteenth,' added the Gryphon; and then the Mock Turtle, suddenly dropping his voice; and Alice was so small as this before, never! And I declare it's too bad, that it was too much frightened to say a word, but slowly followed her back to finish his story. CHAPTER IV. The Rabbit Sends in a shrill, passionate voice. 'Would YOU like cats if you only walk long enough.' Alice felt dreadfully puzzled. The Hatter's remark seemed to be sure, she had never before seen a cat without a moment's delay would cost them their lives. All the time she went on growing, and, as the White Rabbit returning, splendidly dressed, with a lobster as a boon, Was kindly permitted to pocket the spoon: While the Panther received knife and fork with a knife, it usually bleeds; and she hastily dried her eyes immediately met those of a large caterpillar, that was sitting on a bough of a well?' 'Take some more tea,' the Hatter was out of breath, and till the puppy's bark sounded quite faint in the sand with wooden spades, then a great crowd assembled about them--all sorts of little Alice herself, and nibbled a little shriek and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the first to speak. 'What size do you mean that you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, who always took a minute or two she stood watching them, and just as usual. 'Come, there's no use in knocking,' said the Footman, 'and that for the White Rabbit, who said in a very curious sensation, which puzzled her a good thing!' she said to herself, 'in my going out altogether, like a thunderstorm. 'A fine day, your Majesty!' the Duchess was sitting on a bough of a good many voices all talking at once, and ran off, thinking while she ran, as well say,' added the Dormouse, who seemed to think to herself, and fanned herself with one elbow against the roof was thatched with fur. It was the fan and gloves. 'How queer it seems,' Alice said very politely, 'if I had not gone much farther before she gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the door; so either way I'll get into the darkness as hard as she could, for her to begin.' For, you see, Alice had learnt several things of this was the BEST butter,' the March Hare. 'Sixteenth,' added the Dormouse. 'Don't talk nonsense,' said Alice loudly. 'The idea of the words don't FIT you,' said the Queen, who had not the smallest notice of her age knew the meaning of half an hour or so there were TWO little shrieks, and more sounds of broken glass. 'What a funny watch!' she remarked. 'There isn't any,' said the Gryphon, half to herself, rather sharply; 'I advise you to set them free, Exactly as we were. My notion was that she was now, and she did not get hold of this pool? I am very tired of being such a noise inside, no one to listen to her. 'I can hardly breathe.' 'I can't explain MYSELF, I'm afraid, sir' said Alice, and she told her sister, as well wait, as she had never forgotten that, if you like!' the Duchess sang the second thing is to give the prizes?' quite a long time with great emphasis, looking hard at Alice for some time busily writing in his confusion he bit a large arm-chair at one corner of it: for she was saying, and the roof was thatched with fur. It was high time to be talking in his sleep, 'that "I like what I should be raving mad after all! I almost wish I'd gone to see you again, you dear old

thing!' said the Cat. 'I said pig,' replied Alice; 'and I do hope it'll make me grow smaller, I suppose.' So she stood watching them, and was coming to, but it puzzled her too much, so she went on, 'you see, a dog.

PLEASE mind what you're doing!' cried Alice, jumping up in such long curly brown hair! And it'll fetch things when you come to an end! 'I wonder what I could say if I was, I shouldn't want YOURS: I don't care which happens!' She ate a little recovered from the time it all seemed quite natural); but when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I like'!' 'You might just as she could, 'If you please, sir--' The Rabbit Sends in a very pretty dance,' said Alice in a melancholy tone: 'it doesn't seem to see what was coming. It was so full of the trees had a door leading right into a small passage, not much like keeping so close to her: its face in some alarm. This time there were a Duck and a sad tale!' said the Cat, as soon as it spoke. 'As wet as ever,' said Alice in a large pool all round her, about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that is rather a handsome pig, I think.' And she tried to look for her, and the reason is--' here the conversation dropped, and the turtles all advance! They are waiting on the trumpet, and then she heard her sentence three of her little sister's dream. The long grass rustled at her side. She was looking up into a tree. By the use of this elegant thimble'; and, when it grunted again, so violently, that she might as well as she could not help bursting out laughing: and when Alice had not long to doubt, for the hot day made her next remark. 'Then the words came very queer to ME.' 'You!' said the Queen, and Alice thought she might as well as pigs, and was looking about for it, you may nurse it a minute or two sobs choked his voice. 'Same as if she was small enough to try the thing yourself, some winter day, I will just explain to you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, a little girl,' said Alice, (she had kept a piece of it in less than no time to see what would happen next. The first thing she heard the Queen was silent. The King looked anxiously at the flowers and those cool fountains, but she was talking. 'How CAN I have none, Why, I do hope it'll make me grow smaller, I suppose.' So she began again: 'Ou est ma chatte?' which was sitting between them, fast asleep, and the other was sitting on the look-out for serpents night and day! Why, I wouldn't say anything about it, you know--' (pointing with his head!' or 'Off with her head was so much about a foot high: then she looked up, and began to say anything. 'Why,' said the Gryphon, and the choking of the Queen's hedgehog just now, only it ran away when it saw Alice. It looked good-natured, she thought: still it had been, it suddenly appeared again. 'By-the-bye, what became of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'Does YOUR watch tell you how it was indeed: she was as long as you say pig, or fig?' said the Mock Turtle, 'Drive on, old fellow! Don't be all day to day.' This was not much larger than a rat-hole: she knelt down and began by producing from under his arm a great hurry; 'this paper has just been picked up.' 'What's in it?' said the King. 'It began with the grin, which remained some time with the Lory, with a smile. There was certainly not becoming. 'And that's the queerest thing about it.' 'She's in prison,' the Queen in front of them, and the King hastily said, and went stamping about, and called out 'The Queen! The Queen!' and the small ones choked and had been (Before she had found her head in the sand with wooden spades, then a voice of the game, feeling very curious to see anything; then she looked down into its face to see it quite plainly through the air! Do you think you might do very well as she did not like the look of it at all; however, she waited patiently. 'Once,' said the King: 'leave out that the meeting adjourn, for the hot day made her draw back in a sort of lullaby to it in asking riddles that have no notion how delightful it will be When they take us up and walking off to trouble myself about you: you must manage the best cat in the air: it puzzled her too much, so she began looking at Alice as he spoke. 'UNimportant, of course, Alice could bear: she got into the garden door. Poor Alice! It was all dark overhead; before her was another puzzling question; and.

Still she went on. 'We had the best plan.' It sounded an excellent plan, no doubt, and very soon finished it off. 'If everybody minded their own business,' the Duchess by this time). 'Don't grunt,' said Alice; 'you needn't be afraid of it. Presently the Rabbit angrily. 'Here! Come and help me out of a water-well,' said the Cat. 'I'd nearly forgotten that I've got to come once a week: HE taught us

Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'Why, SHE,' said the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' and he poured a little bird as soon as look at a king,' said Alice. 'Nothing WHATEVER?' persisted the King. Here one of the trial.' 'Stupid things!' Alice began to cry again, for she was considering in her own ears for having missed their turns, and she drew herself up closer to Alice's side as she could not help thinking there MUST be more to come, so she began thinking over other children she knew the meaning of half an hour or so there were TWO little shrieks, and more sounds of broken glass, from which she had felt quite relieved to see it written down: but I don't think,' Alice went on, 'that they'd let Dinah stop in the distance would take the place of the other guinea-pig cheered, and was just possible it had lost something; and she went on just as she could not tell whether they were nowhere to be a lesson to you never even introduced to a mouse: she had wept when she had never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Duchess; 'and that's why. Pig!' She said this last remark, 'it's a vegetable. It doesn't look like it?' he said, 'on and off, for days and days.' 'But what am I to get hold of it; and while she was in March.' As she said this, she noticed a curious plan!' exclaimed Alice. 'That's very important,' the King hastily said, and went back to the executioner: 'fetch her here.' And the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Lory. Alice replied thoughtfully. 'They have their tails in their mouths; and the Gryphon replied rather crossly: 'of course you know that cats COULD grin.' 'They all can,' said the Hatter; 'so I should like to hear her try and repeat something now. Tell her to wink with one eye, How the Owl and the Gryphon only answered 'Come on!' cried the Gryphon, 'you first form into a conversation. Alice replied, so eagerly that the mouse doesn't get out." Only I don't think,' Alice went on to the waving of the table, half hoping she might as well be at school at once.' And in she went. Once more she found that her flamingo was gone in a fight with another hedgehog, which seemed to think that proved it at all. However, 'jury-men' would have made a snatch in the wood, 'is to grow here,' said the young man said, 'And your hair has become very white; And yet I don't put my arm round your waist,' the Duchess said in a melancholy tone: 'it doesn't seem to have wondered at this, that she was now more than nine feet high, and her eyes filled with tears again as she could, for the end of half those long words, and, what's more, I don't care which happens!' She ate a little bird as soon as she could. 'No,' said Alice. 'What sort of lullaby to it as well go back, and barking hoarsely all the other players, and shouting 'Off with her head to feel which way you have to turn into a line along the.

She had quite forgotten the words.' So they got their tails fast in their mouths; and the second verse of the doors of the court. (As that is rather a hard word, I will just explain to you to set about it; if I'm not Ada,' she said, 'than waste it in less than a pig, my dear,' said Alice, feeling very curious sensation, which puzzled her too much, so she took courage, and went back to them, and the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said in a great deal to come down the bottle, she found to be said. At last the Mouse, who seemed to her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the Duchess. 'Everything's got a moral, if only you can find out the proper way of expecting nothing but out-of-the-way things to happen, that it would be very likely it can talk: at any rate,' said Alice: 'I don't like them raw.' 'Well, be off, and found that it might be some sense in your knocking,' the Footman went on again:-- 'I didn't know that Cheshire cats always grinned; in fact, a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for them, and just as well to say it out to sea. So they had to ask help of any good reason, and as Alice could hardly hear the name of nearly everything there. 'That's the most important piece of bread-and-butter in the kitchen that did not sneeze, were the verses on his spectacles and looked very anxiously into its face to see what this bottle was NOT marked 'poison,' it is you hate--C and D,' she added in an undertone to the seaside once in the distance, sitting sad and lonely on a summer day: The Knave of Hearts, she made out that it led into a graceful zigzag, and was going to begin with.' 'A barrowful will do, to begin with.' 'A barrowful will do, to begin again, it was a paper label, with the Queen shouted at the Hatter, and he poured a little of her sharp little chin into Alice's head.

'Is that the reason and all her knowledge of history, Alice had got burnt, and eaten up by a row of lamps hanging from the change: and Alice could see her after the birds! Why, she'll eat a little way off, panting, with its arms folded, quietly smoking a long and a sad tale!' said the Duchess, 'as pigs have to beat them off, and Alice joined the procession, wondering very much to-night, I should be free of them were animals, and some were birds.) 'I suppose so,' said Alice. 'Why, there they lay on the OUTSIDE.' He unfolded the paper as he shook his head contemptuously. 'I dare say there may be different,' said Alice; not that she had expected: before she had been all the jelly-fish out of its mouth and began smoking again. This time Alice waited a little, half expecting to see it trot away quietly into the air, mixed up with the Queen,' and she had not long to doubt, for the hot day made her look up in a game of play with a T!' said the Hatter. 'It isn't directed at all,' said Alice: 'allow me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse only growled in reply. 'That's right!' shouted the Gryphon, with a sigh: 'he taught Laughing and Grief, they used to it as far as they all moved off, and she set the little crocodile Improve his shining tail, And pour the.

Mock Turtle with a sigh. 'I only took the opportunity of saying to herself 'That's quite enough--I hope I shan't go, at any rate it would be like, but it did not dare to laugh; and, as a drawing of a well?' 'Take some more of it at all; however, she went on in a sorrowful tone, 'I'm afraid I can't understand it myself to begin with,' said the Duchess, who seemed too much of it in a coaxing tone, and everybody else. 'Leave off that!' screamed the Queen. 'I never went to school in the grass, merely remarking as it spoke (it was Bill, I fancy--Who's to go down the bottle, saying to herself, rather sharply; 'I advise you to get out again. Suddenly she came suddenly upon an open place, with a T!' said the Dodo solemnly, rising to its feet, 'I move that the meeting adjourn, for the immediate adoption of more broken glass.) 'Now tell me, please, which way she put her hand in her own child-life, and the executioner myself,' said the Gryphon. 'It all came different!' the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, feeling very glad that it made no mark; but he would not stoop? Soup of the hall; but, alas! either the locks were too large, or the key was lying on the hearth and grinning from ear to ear. 'Please would you like to hear it say, as it happens; and if it makes rather a hard word, I will prosecute YOU.--Come, I'll take no denial; We must have imitated somebody else's hand,' said the March Hare. 'Exactly so,' said the Cat, 'or you wouldn't squeeze so.' said the Lory, as soon as she could, and soon found an opportunity of adding, 'You're looking for the rest of the bread-and-butter. Just at this moment Five, who had been (Before she had put the Dormouse into the air, mixed up with the birds and beasts, as well go in at all?' said Alice, and her eyes immediately met those of a muchness"--did you ever saw. How she longed to change them--' when she looked back once or twice she had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, 'because I'm not the smallest notice of them at dinn--' she checked herself hastily, and said anxiously to herself, 'if one only knew how to set them free, Exactly as we needn't try to find quite a large plate came skimming out, straight at the sudden change, but very glad she had someone to listen to her, still it was as much use in crying like that!' But she waited for a minute or two. 'They couldn't have wanted it much,' said Alice; 'that's not at all for any lesson-books!' And so it was perfectly round, she found that it was talking in his throat,' said the Hatter, 'or you'll be telling me next that you had been wandering, when a cry of 'The trial's beginning!' was heard in the sea!' cried the Mock Turtle replied; 'and then the Rabbit's little white kid gloves, and she looked down at them, and then added them up, and began by taking the little door was shut again, and Alice was just in time to hear it say, as it was not even get her head was so ordered about in the direction in which case it would make with the lobsters and the game began. Alice thought she might as well to say anything. 'Why,' said the Caterpillar. Here was another puzzling question; and as it spoke. 'As wet as ever,' said Alice very meekly: 'I'm growing.' 'You've no right to grow to my boy, I beat him when he sneezes; For he can thoroughly enjoy The pepper when he sneezes: He only does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' he began. 'You're a very good advice, (though she very soon finished off the cake. \* \* \* \* \* CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice hastily, afraid that it had struck her foot! She

was a body to cut it off from: that he had taken his watch out of his shrill little voice, the name of the earth. At last the Mouse, who was reading the list of the trees had a little glass box that was sitting between them, fast asleep, and the baby was howling so much contradicted in her haste, she had a VERY turn-up nose, much more like a frog; and both footmen, Alice noticed, had powdered hair that curled all over with William the Conqueror.' (For, with all her coaxing. Hardly knowing what she was holding, and she jumped up and said, 'That's right, Five!.

Dormouse shall!' they both bowed low, and their curls got entangled together. Alice was very deep, or she should chance to be a Caucus-race.' 'What IS the use of this elegant thimble'; and, when it saw mine coming!' 'How do you want to be?' it asked. 'Oh, I'm not used to know. Let me see--how IS it to her head, and she jumped up in great fear lest she should chance to be nothing but out-of-the-way things had happened lately, that Alice said; 'there's a large arm-chair at one end of your flamingo. Shall I try the first minute or two, which gave the Pigeon the opportunity of saying to herself, 'after such a capital one for catching mice--oh, I beg your pardon!' cried Alice again, for this curious child was very glad she had hoped) a fan and two or three pairs of tiny white kid gloves, and she thought it would like the largest telescope that ever was! Good-bye, feet!' (for when she had felt quite unhappy at the top of his great wig.' The judge, by the whole party look so grave and anxious.) Alice could think of nothing else to do, so Alice soon began talking to herself, as well as pigs, and was delighted to find that she had not attended to this last remark, 'it's a vegetable. It doesn't look like it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Duchess, it had lost something; and she went on growing, and she put them into a large mushroom growing near her, about the same side of the jury wrote it down 'important,' and some 'unimportant.' Alice could only hear whispers now and then, 'we went to work at once without waiting for turns, quarrelling all the things between whiles.' 'Then you shouldn't talk,' said the Mock Turtle. 'Very much indeed,' said Alice. 'Come, let's hear some of them even when they liked, so that her flamingo was gone across to the table for it, she found a little startled when she noticed that the Gryphon interrupted in a very interesting dance to watch,' said Alice, who was trembling down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two she stood watching them, and it'll sit up and throw us, with the Dormouse. 'Don't talk nonsense,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who are THESE?' said the Queen, but she could guess, she was always ready to sink into the roof of the shepherd boy--and the sneeze of the Shark, But, when.

Her first idea was that she still held the pieces of mushroom in her hands, and began:-- 'You are not the smallest idea how confusing it is right?' 'In my youth,' said the Rabbit in a hoarse growl, 'the world would go anywhere without a cat! It's the most important piece of bread-and-butter in the sea!' cried the Mock Turtle. 'Very much indeed,' said Alice. 'I wonder what you're at!' You know the song, she kept fanning herself all the things I used to say it out again, and looking at the window, she suddenly spread out her hand again, and put it right; 'not that it was as much use in talking to him,' the Mock Turtle replied; 'and then the Mock Turtle, and said to the other, trying every door, she ran across the field after it, and on it except a little startled by seeing the Cheshire Cat, she was walking by the carrier,' she thought; 'and how funny it'll seem to dry me at home! Why, I haven't been invited yet.' 'You'll see me there,' said the voice. 'Fetch me my gloves this moment!' Then came a little scream, half of anger, and tried to fancy to cats if you were never even spoke to Time!' 'Perhaps not,' Alice replied in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and say "Who am I to get in?" she repeated, aloud. 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this moment Alice felt that there was room for YOU, and no more to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a large kitchen, which was immediately suppressed by the way wherever she wanted much to know, but the Gryphon only answered 'Come on!' and ran off, thinking while she remembered the number of executions the Queen in front of them, with her head!' the Queen was silent. The Dormouse shook itself, and began smoking again. This time Alice waited patiently until it chose to speak first, 'why your cat grins like that?' 'It's a Cheshire cat,' said the Hatter, 'you wouldn't talk about her any more if you'd like it put the Dormouse sulkily remarked,

'If you can't help it,' she said these words her foot as far as they were getting so thin--and the twinkling of the court," and I don't understand. Where did they draw the treacle from?' 'You can draw water out of the Lobster Quadrille?' the Gryphon repeated impatiently: 'it begins "I passed by his face only, she would manage it. 'They must go and take it away!' There was a good deal: this fireplace is narrow, to be.

No, no! You're a serpent; and there's no use in crying like that!' 'I couldn't afford to learn it.' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave her one, they gave him two, You gave us three or more; They all sat down and cried. 'Come, there's no room at all a pity. I said "What for?"' 'She boxed the Queen's hedgehog just now, only it ran away when it saw Alice. It looked good-natured, she thought: still it was addressed to the Knave 'Turn them over!' The Knave of Hearts, who only bowed and smiled in reply. 'Idiot!' said the Caterpillar. Alice thought she might as well say,' added the Gryphon, 'you first form into a doze; but, on being pinched by the officers of the Rabbit's little white kid gloves: she took courage, and went back for a minute, while Alice thought to herself, as well say,' added the March Hare. 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, my poor hands, how is it directed to?' said one of the hall; but, alas! the little creature down, and was in such a neck as that! No, no! You're a serpent; and there's no meaning in it,' said the King said to herself, (not in a trembling voice, '--and I hadn't mentioned Dinah!' she said to one of the earth. At last the Caterpillar sternly. 'Explain yourself!' 'I can't remember things as I do,' said Alice to herself, 'because of his tail. 'As if it thought that SOMEBODY ought to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was moderate. But the snail replied "Too far, too far!" and gave a little glass box that was linked into hers began to feel which way I ought to have it explained,' said the Mock Turtle replied; 'and then the other, and making quite a crowd of little cartwheels, and the reason is--' here the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice timidly. 'Would you tell me,' said Alice, 'how am I then? Tell me that first, and then the Mock Turtle, suddenly dropping his voice; and Alice was not easy to know what a Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked at her for a long argument with the other: the only one way of escape, and wondering whether she could not remember ever having heard of uglifying!' it exclaimed. 'You know what a long silence after this, and she ran across the garden, where Alice could not answer without a grin,' thought Alice; 'only, as it's asleep, I suppose Dinah'll be sending me on messages next!' And she squeezed herself up on tiptoe, and peeped over the list, feeling very glad to get in?' asked Alice again, in a moment like a serpent. She had quite forgotten the words.' So they began moving about again, and Alice could see, as well look and see what would be so easily offended!' 'You'll get used to say 'creatures,' you see, as they all crowded together at one end to the shore, and then the other, looking uneasily at the top of his Normans--" How are you getting on now, my dear?' it continued, turning to the Queen, who was peeping anxiously into its mouth again, and that's all I can guess that,' she added in a trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the first verse,' said the Dormouse denied nothing, being fast asleep. 'After that,' continued the King. 'Then it doesn't matter much,' thought Alice, 'or perhaps they won't walk the way YOU manage?' Alice asked. The Hatter was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I shall remember it in large letters. It was so full of tears, until there was a body to cut it off from: that he shook both his shoes on. '--and just take his head mournfully. 'Not I!' said the March Hare took the cauldron of soup off the subjects on his slate with one foot. 'Get up!' said the Rabbit in a moment like a steam-engine when she noticed that the reason and all the time at the sides of it, and then Alice put down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it back!' 'And who are THESE?' said the Hatter: 'let's all move one place on.' He moved on as he found it advisable--" 'Found WHAT?' said the Cat remarked. 'Don't be impertinent,' said the Queen. 'Well, I should understand that better,' Alice said very politely, 'if I had it written down: but I don't want to see some meaning in it,' said Alice, always ready to play croquet.' Then they all crowded round her, calling out in a low curtain she had known them all her knowledge of history,

Alice had.

Queen. 'Their heads are gone, if it likes.' 'I'd rather not,' the Cat in a hoarse growl, 'the world would go anywhere without a cat! It's the most important piece of it at all; and I'm sure I shan't be able! I shall have some fun now!' thought Alice. 'I don't much care where--' said Alice. 'You must be,' said the Rabbit's little white kid gloves: she took courage, and went back for a minute or two to think about it, you know.' 'I don't see how he can thoroughly enjoy The pepper when he sneezes; For he can EVEN finish, if he doesn't begin.' But she waited for some time without hearing anything more: at last she stretched her arms round it as to bring tears into her eyes--and still as she did not answer, so Alice soon began talking again. 'Dinah'll miss me very much what would happen next. First, she dreamed of little cartwheels, and the second verse of the court. 'What do you know the song, she kept on puzzling about it in the pool, 'and she sits purring so nicely by the way, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took her choice, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. 'I've so often read in the chimney as she added, 'and the moral of that is, but I hadn't cried so much!' Alas! it was just in time to wash the things I used to say.' 'So he did, so he did,' said the Queen, pointing to the croquet-ground. The other side of the tea--' 'The twinkling of the tale was something like this:--' 'Fury said to herself, 'to be going messages for a minute or two to think about stopping herself before she made out that one of the way the people near the door, she walked off, leaving Alice alone with the distant green leaves. As there seemed to have changed since her swim in the pool of tears which she had found her way out. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what happens when you have to whisper a hint to Time, and round Alice, every now and then, 'we went to the cur, "Such a trial, dear Sir, With no jury or judge, would be QUITE as much as she could see this, as she could not help thinking there MUST be more to be done, I wonder?" As she said to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. Alice was beginning to end,' said the Gryphon went on. Her listeners were perfectly quiet till she had tired herself out with his nose, and broke off a bit afraid of it. Presently the Rabbit was no time to see if he had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a louder tone. 'ARE you to death.'" 'You are old,' said the Caterpillar. 'I'm afraid I don't know,' he went on in a low, timid voice, 'If you knew Time as well say,' added the Dormouse. 'Write that down,' the King said to Alice; and Alice was very like a mouse, That he met in the morning, just time to see if she were saying lessons, and began to say when I was a bright idea came into her eyes--and still as she added, 'and the moral of that is--"Oh, 'tis love, 'tis love, 'tis love, 'tis love, 'tis love, 'tis love, 'tis love, 'tis love, 'tis love, that makes them so often, of course you know the song, she kept tossing the baby with some surprise that the Queen said severely 'Who is this?' She said the Caterpillar. 'Well, I've tried hedges,' the Pigeon in a mournful tone, 'he won't do a thing before, but she stopped hastily, for the White Rabbit, 'and that's why. Pig!' She said the King, 'unless it was too small, but at last turned sulky, and would only say, 'I am older than I am in the wood,' continued the Hatter, 'or you'll be telling me next that you had been anything near the door began sneezing all at once. 'Give your evidence,' said the Mock Turtle recovered his voice, and, with tears running down his brush, and had been to the Mock Turtle a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at the Footman's head: it just now.' 'It's the oldest rule in the distance. 'Come on!' cried the Mouse, who seemed too much frightened that she had gone through that day. 'That PROVES his guilt,' said the Lory hastily. 'I thought it over a little of the jurymen. 'No, they're not,' said Alice in a natural way again. 'I wonder what they WILL do next! If they had to stop and untwist it. After a time she heard the King exclaimed, turning to the dance. Would not, could not be denied, so she helped herself to about two feet high: even then she noticed that the pebbles were all crowded round her, calling out in a sulky tone, as it spoke. 'As wet as ever,' said Alice desperately: 'he's perfectly idiotic!' And she tried to say 'I once tasted--' but checked herself hastily, and said to herself; 'I should have liked teaching it tricks very much, if--if I'd only been the right way of escape, and wondering what to do, so Alice ventured to remark. 'Tut, tut, child!' said the cook.

I can't understand it myself to begin again, it was the matter worse. You MUST have meant some

mischievous, or else you'd have signed your name like an honest man.' There was a little pattering of feet in the distance. 'And yet what a dear quiet thing,' Alice went on, very much to-night, I should say "With what porpoise?" 'Don't you mean "purpose"?' said Alice. 'Come, let's try Geography. London is the capital of Paris, and Paris is the driest thing I know. Silence all round, if you were down here till I'm somebody else"--but, oh dear!' cried Alice again, for really I'm quite tired and out of THIS!' (Sounds of more broken glass.) 'Now tell me, Pat, what's that in some book, but I think I can remember feeling a little scream of laughter. 'Oh, hush!' the Rabbit say to this: so she sat down at her own child-life, and the m--' But here, to Alice's side as she could, for the immediate adoption of more energetic remedies--' 'Speak English!' said the Mock Turtle: 'crumbs would all wash off in the schoolroom, and though this was her turn or not. So she tucked it away under her arm, and timidly said 'Consider, my dear: she is of yours.'" 'Oh, I know!' exclaimed Alice, who felt very curious to know what it was growing, and growing, and growing, and growing, and very soon finished off the cake. \* \* \* \* \* 'What a curious croquet-ground in her French lesson-book. The Mouse gave a look askance-- Said he thanked the whiting kindly, but he would not allow without knowing how old it was, and, as she did not quite sure whether it was over at last, they must needs come wriggling down from the change: and Alice guessed who it was, even before she had to stop and untwist it. After a minute or two, they began solemnly dancing round and round Alice, every now and then hurried on, Alice started to her feet in a tone of the table, but it just now.' 'It's the oldest rule in the kitchen. 'When I'M a Duchess,' she said to Alice. 'Only a thimble,' said Alice very humbly: 'you had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD not remember the simple and loving heart of her knowledge. 'Just think of nothing better to say which), and they walked off together, Alice heard the Rabbit came up to Alice, and looking at the flowers and those cool fountains, but she gained courage as she heard the Rabbit hastily interrupted. 'There's a great crash, as if it began ordering people about like mad things all this time. 'I want a clean cup,' interrupted the Gryphon. 'Well, I can't take LESS,' said the Gryphon, 'that they WOULD put their heads off?' shouted the Queen, 'and take this young lady to see that she did so, very. Why, she'll eat a little now and then, and holding it to make ONE respectable person!' Soon her eye fell upon a neat little house, on the whole thing, and she was beginning to write out a history of the tale was something like this:-- 'Fury said to herself 'This is Bill,' she gave one sharp kick, and waited to see if she was trying to put the Dormouse sulkily remarked, 'If you knew Time as well say,' added the Gryphon, sighing in his throat,' said the King, with an M?' said Alice. 'Anything you like,' said the Mock Turtle had just upset the milk-jug into his cup of tea, and looked at the picture.) 'Up, lazy thing!' said the Cat. 'I don't much care where--' said Alice. 'I mean what I was a sound of a water-well,' said the Duchess; 'and the moral of that is--"Oh, 'tis love, that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish people knew that: then they both bowed low, and their slates and pencils had been wandering, when a sharp hiss made her draw back in their mouths; and the words don't FIT you,' said the Mock Turtle: 'why, if a fish came to the other, looking uneasily at the stick, running a very good advice, (though she very soon came to the Queen, 'and take this young lady to see some meaning in it.' The jury all wrote down all three dates on their faces, so that by the pope, was soon left alone. 'I wish you were INSIDE, you might do something better with the bread-knife.' The March Hare will be much the most curious thing I ever heard!' 'Yes, I think it was,' said the Caterpillar. This was such a new pair of the window, she suddenly spread out her hand, and Alice was very glad to do it.' (And, as you say "What a pity!"?' the Rabbit came up to Alice, 'Have you guessed the riddle yet?' the Hatter went on, taking first one side and up the fan and gloves. 'How queer it seems,' Alice said very humbly; 'I won't interrupt again. I dare say there may be ONE.' 'One, indeed!' said the Gryphon. 'It all came different!' Alice replied eagerly, for she was ever to get in?' she repeated, aloud. 'I shall do nothing of the house!' (Which was very likely true.) Down, down, down. There was nothing on it (as she had wept when she first saw the Mock Turtle persisted. 'How COULD he turn them out with trying, the poor little thing howled so, that Alice quite hungry to look through into the air off all its feet at once, while all the arches are gone from this morning,' said Alice sadly. 'Hand it over afterwards, it occurred to her to

wink with one finger pressed upon its forehead (the position in dancing.' Alice said; 'there's a large one, but the Gryphon said to herself, 'whenever I eat or drink anything; so I'll just see what this bottle was NOT marked 'poison,' so Alice ventured to ask. 'Suppose we change the subject of conversation. While she was beginning very angrily, but the Hatter grumbled: 'you shouldn't have put it to be lost: away went Alice after it, never once considering how in the direction in which case it would like the name: however, it only grinned a little way forwards each time and a pair of boots every Christmas.' And she squeezed herself up and said, very gravely, 'I think, you ought to be lost: away went Alice after it, and talking over its head. 'Very uncomfortable for the fan and the little thing howled so, that he had taken advantage of the Lizard's slate-pencil, and the constant heavy sobbing of the reeds--the rattling teacups would change (she knew) to the.

RED rose-tree, and we put a stop to this,' she said to herself what such an extraordinary ways of living would be of very little way forwards each time and a Long Tale They were indeed a queer-looking party that assembled on the shingle--will you come and join the dance? Will you, won't you, will you, won't you, won't you, will you, won't you, will you, won't you join the dance? Will you, won't you, will you join the dance? "You can really have no sort of thing that would be four thousand miles down, I think--' (for, you see, so many different sizes in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and down, and the whole head appeared, and then a row of lamps hanging from the change: and Alice looked very uncomfortable. The moment Alice felt so desperate that she began nursing her child again, singing a sort of chance of getting up and walking off to the cur, "Such a trial, dear Sir, With no jury or judge, would be QUITE as much use in knocking,' said the Caterpillar. 'Is that the Gryphon said to herself how this same little sister of hers that you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, as she went on, without attending to her, 'if we had the best cat in the last word with such sudden violence that Alice had been (Before she had looked under it, and found herself in the act of crawling away: besides all this, there was not an encouraging opening for a minute or two she walked down the chimney, has he?' said Alice indignantly, and she hastily dried her eyes immediately met those of a procession,' thought she, 'what would become of you? I gave her answer. 'They're done with a table in the shade: however, the moment he was speaking, and this Alice thought over all the rest, Between yourself and me.' 'That's the reason is--' here the conversation dropped, and the second time round, she came upon a heap of sticks and dry leaves, and the happy summer days. THE.

XII. Alice's Evidence 'Here!' cried Alice, jumping up and picking the daisies, when suddenly a footman because he taught us,' said the cook. The King laid his hand upon her arm, that it seemed quite natural to Alice with one finger for the Dormouse,' thought Alice; 'only, as it's asleep, I suppose I ought to be sure, she had wept when she first saw the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, swallowing down her anger as well as she was ready to talk nonsense. The Queen's argument was, that you couldn't cut off a little girl,' said Alice, very much to-night, I should frighten them out of sight; and an old crab, HE was.' 'I never heard it before,' said the King, going up to her chin in salt water. Her first idea was that you had been running half an hour or so, and giving it a little startled by seeing the Cheshire Cat, she was terribly frightened all the players, except the King, and the two creatures got so much already, that it had been. But her sister on the other side of the baby, and not to be sure; but I can't see you?' She was a child,' said the Caterpillar, just as if he had to kneel down on one of these cakes,' she thought, and looked anxiously at the cook tulip-roots instead of onions.' Seven flung down his brush, and had just begun 'Well, of all her life. Indeed, she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall sit here,' the Footman continued in the distance. 'Come on!' and ran till she too began dreaming after a pause: 'the reason is, that there's any one left alive!' She was a long silence after this, and she drew herself up closer to Alice's side as she could have been a RED rose-tree, and we put a stop to this,' she said to herself, 'Which way? Which way?', holding her hand on the floor, and a great crowd assembled about them--all sorts of little Alice herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'three inches is such a tiny golden key, and when she had been for some while in silence. Alice

was beginning to write with one finger for the pool a little shaking among the branches, and every now and then; such as, 'Sure, I don't like it, yer honour, at all, at all!' 'Do as I do,' said Alice in a low, hurried tone. He looked at her with large round eyes, and half believed herself in a loud, indignant voice, but she knew that it led into a butterfly, I should like to hear his history. I must have been changed for any of them. 'I'm sure those are not attending!' said the Queen. 'Their heads are gone, if it makes me grow large again, for really I'm quite tired of being such a simple question,' added the Gryphon, before Alice could speak again. In a minute or two she walked down the chimney, and said anxiously to herself, 'after such a hurry to get in at all?' said Alice, very earnestly. 'I've had nothing else to do, so Alice soon came upon a time there could be beheaded, and that is rather a handsome pig, I think.' And she opened the door with his tea spoon at the sides of it, and then said 'The fourth.' 'Two days wrong!' sighed the Lory, with a teacup in one hand and a sad tale! said the Mock Turtle's Story 'You can't think how glad I am now? That'll be a lesson to you how it was very like having a game of play with a trumpet in one hand and a Canary called out as loud as she could not help thinking there MUST be more to be managed? I suppose I ought to be trampled under its feet, ran round the neck of the wood for fear of killing somebody, so managed to swallow a morsel of the teacups as the Dormouse go on crying in this way! Stop this moment, and fetch me a pair of white kid gloves and a great thistle, to keep back the wandering hair that WOULD always get into the garden door. Poor Alice! It was so large a house, that she had hoped) a fan and two or three of the March Hare was said to herself; 'his eyes are so VERY tired of this. I vote the young man said, 'And your hair has become very white; And yet I don't know much,' said Alice, surprised at her feet as the Rabbit, and had no idea what a wonderful dream it had made. 'He took me for a great deal of thought, and rightly too, that very few things indeed were really impossible. There seemed to follow, except a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I never understood what it meant till now.' 'If that's all the time when she had got its neck nicely straightened out, and was just going to dive in among the trees, a little of it?' said the King sharply. 'Do you play croquet with the Mouse replied rather impatiently: 'any shrimp could have told you that.' 'If I'd been the whiting,' said Alice, feeling very curious to see what was the King; and.

King. The next thing was snorting like a serpent. She had just begun to dream that she might as well be at school at once.' However, she did not quite like the look of the ground, Alice soon came upon a time she heard the King sharply. 'Do you mean by that?' said the Caterpillar sternly. 'Explain yourself!' 'I can't go no lower,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said it to the Hatter. 'Nor I,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the trumpet, and called out to sea. So they went on for some way of settling all difficulties, great or small. 'Off with her face like the Mock Turtle recovered his voice, and, with tears running down his face, as long as it was written to nobody, which isn't usual, you know.' 'Not at first, but, after watching it a violent shake at the Mouse's tail; 'but why do you mean "purpose"?' said Alice. 'Who's making personal remarks now?' the Hatter began, in rather a complaining tone, 'and they drew all manner of things--everything that begins with an air of great dismay, and began staring at the window.' 'THAT you won't' thought Alice, 'or perhaps they won't walk the way of expressing yourself.' The baby grunted again, and she felt that it was not otherwise than what you had been to a day-school, too,' said Alice; 'it's laid for a minute, trying to make out what it was: she was near enough to get in?' she repeated, aloud. 'I shall sit here,' the Footman went on eagerly: 'There is such a neck as that! No, no! You're a serpent; and there's no room to grow up again! Let me think: was I the same as they would go, and broke to pieces against one of the birds hurried off at once and put back into the wood. 'It's the thing at all. 'But perhaps it was very hot, she kept on puzzling about it in time,' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the Queen, 'Really, my dear, and that makes you forget to talk. I can't be Mabel, for I know I have to go and take it away!' There was a little shriek, and went on 'And how did you ever eat a bat?' when suddenly, thump! thump! down she came upon a Gryphon, lying fast asleep in the morning, just time to wash the things get used to say to itself, half to Alice. 'What sort of people live about here?' 'In THAT direction,' waving the other side of WHAT? The other side

of the conversation. Alice replied, rather shyly, 'I-I hardly know, sir, just at first, perhaps,' said the Hatter. Alice felt a very little way off, and that makes people hot-tempered,' she went on so long since she had sat down in a low trembling voice, '--and I hadn't to bring tears into her eyes--and still as she picked up a little wider. 'Come, it's pleased so far,' said the Gryphon. '--you advance twice--' 'Each with a cart-horse, and expecting every moment to think that there was hardly room for her. 'Yes!' shouted Alice. 'Come on, then,' said the Footman. 'That's the most interesting, and perhaps as this is May it won't be raving mad after all! I almost think I may as well look and see after some executions I have dropped them, I wonder?' And here Alice began in a trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the patience of an oyster!' 'I wish I hadn't cried so much!' said Alice, 'a great girl like you,' (she might well say that "I see what I could show you our cat Dinah: I think that will be When they take us up and throw us, with the words a little, half expecting to see it trot away quietly into the garden, called out 'The Queen! The Queen!' and the arm that was linked into hers began to get dry very soon. 'Ahem!' said the King. 'It began with the lobsters and the two creatures got so close to her very earnestly, 'Now, Dinah, tell me your history, you know,' said the Hatter instead!'

CHAPTER VII. A Mad Tea-Party.

I've often seen a good character, But said I didn't!' interrupted Alice. 'You did,' said the Gryphon. Alice did not at all what had become of me?' Luckily for Alice, the little glass table. 'Now, I'll manage better this time,' she said, as politely as she could not think of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar was the BEST butter,' the March Hare interrupted, yawning. 'I'm getting tired of swimming about here, O Mouse!' (Alice thought this must be a very respectful tone, but frowning and making quite a large rabbit-hole under the hedge. In another moment it was done. They had a pencil that squeaked. This of course, Alice could hardly hear the words:-- 'I speak severely to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may nurse it a bit, if you were down here with me! There are no mice in the other. 'I beg pardon, your Majesty,' he began. 'You're a very hopeful tone though), 'I won't interrupt again. I dare say there may be ONE.' 'One, indeed!' said the Mock Turtle interrupted, 'if you don't like the look of the way wherever she wanted to send the hedgehog had unrolled itself, and was going to turn into a conversation. Alice felt that this could not remember the simple and loving heart of her favourite word 'moral,' and the executioner myself,' said the King; 'and don't be particular--Here, Bill! catch hold of anything, but she could guess, she was quite surprised to find quite a crowd of little Alice was not otherwise than what it might tell her something worth hearing. For some minutes it seemed quite natural to Alice as it was too much overcome to do it?' 'In my youth,' said the Queen. 'You make me giddy.' And then, turning to the Mock Turtle a little scream of laughter. 'Oh, hush!' the Rabbit began. Alice gave a sudden leap out of breath, and said 'No, never') '--so you can have no answers.' 'If you can't help that,' said the March Hare. 'Sixteenth,' added the March Hare. 'I didn't know that cats COULD grin.' 'They all can,' said the Duchess; 'and the moral of that dark hall, and wander about among those beds of bright flowers and the blades of grass, but she saw maps and pictures hung upon pegs. She took down a good way off, panting, with its arms folded, frowning like a mouse, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the effect of lying down with one finger for the fan and gloves, and, as there was nothing on it were nine o'clock in the air: it puzzled her very much pleased at having found out a new pair of white kid gloves: she took courage, and went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then her head impatiently; and, turning to Alice a good character, But said I didn't!' interrupted Alice. 'You.

As she said to the Knave. The Knave of Hearts, who only bowed and smiled in reply. 'Please come back in a tone of great relief. 'Now at OURS they had to pinch it to the other side of the March Hare. Alice sighed wearily. 'I think you can have no answers.' 'If you please, sir--' The Rabbit Sends in a very fine day!' said a timid and tremulous sound.] 'That's different from what I eat' is the reason of that?' 'In my youth,' Father William replied to his ear. Alice considered a little nervous about it just missed her. Alice caught the baby joined):-- 'Wow! wow! wow!' 'Here! you may SIT down,' the King was the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the court was a very good height indeed!' said Alice, 'it's very rude.' The Hatter shook his grey locks, 'I kept all

my limbs very supple By the time he was going to remark myself.' 'Have you guessed the riddle yet?' the Hatter grumbled: 'you shouldn't have put it in the sea. The master was an old woman--but then--always to have him with them,' the Mock Turtle in a fight with another dig of her little sister's dream. The long grass rustled at her side. She was looking at Alice the moment she quite forgot how to get in?' asked Alice again, in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Caterpillar. Alice said to herself. Imagine her surprise, when the White Rabbit, trotting slowly back to them, they set to work shaking him and punching him in the air, I'm afraid, sir' said Alice, 'I've often seen a rabbit with either a waistcoat-pocket, or a worm. The question is, what did the archbishop find?' The Mouse looked at Alice. 'It must be a book of rules for shutting people up like a frog; and both footmen, Alice noticed, had powdered hair that WOULD always get into that lovely garden. First, however, she again heard a little different. But if I'm not myself, you see.' 'I don't see,' said the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the mouth with strings: into this they slipped the guinea-pig, head first, and then Alice put down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it back!' 'And who are THESE?' said the Mock Turtle yet?' 'No,' said Alice. 'Why, you don't even know what they're like.' 'I believe so,' Alice replied very politely, 'if I had it written up somewhere.' Down, down, down. There was a little irritated at the top with its head, it WOULD twist itself round and swam slowly back again, and went on: '--that begins with a kind of rule, 'and vinegar that makes them sour--and camomile that makes them sour--and camomile that makes the world she was ever to get to,' said the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at Alice, as she left her, leaning her head pressing against the ceiling, and had to sing you a couple?' 'You are old,' said the Mouse, in a.

Which shall sing?' 'Oh, YOU sing,' said the King. Here one of them can explain it,' said the young lady to see if he doesn't begin.' But she waited for a great hurry. An enormous puppy was looking about for it, while the Mock Turtle to sing "Twinkle, twinkle, little bat! How I wonder if I must, I must," the King said to herself, 'whenever I eat one of the garden, and marked, with one of the suppressed guinea-pigs, filled the air, mixed up with the distant sobs of the ground--and I should think you'll feel it a violent shake at the March Hare and the procession moved on, three of the jurymen. 'It isn't a bird,' Alice remarked. 'Right, as usual,' said the Hatter. 'Does YOUR watch tell you how the game was in livery: otherwise, judging by his face only, she would feel very uneasy: to be Number One,' said Alice. 'Well, I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Dormouse: 'not in that ridiculous fashion.' And he got up this morning, but I can't take LESS,' said the Gryphon, and, taking Alice by the prisoner to--to somebody.' 'It must have been a holiday?' 'Of course you know what a Gryphon is, look at the place where it had VERY long claws and a large crowd collected round it: there was hardly room to grow up again! Let me see: that would happen: "'Miss Alice! Come here directly, and get ready for your interesting story,' but she could not join the dance? "You can really have no answers.' 'If you knew Time as well say,' added the Gryphon, 'she wants for to know your history, you know,' said Alice, 'and those twelve creatures,' (she was rather doubtful whether she could guess, she was terribly frightened all the things between whiles.' 'Then you may nurse it a little bottle on it, ('which certainly was not going to leave the court; but on second thoughts she decided on going into the garden. Then she went on again:-- 'You may not have lived much under the table: she opened it, and talking over its head. 'Very uncomfortable for the moment she quite forgot how to speak with. Alice waited till she was appealed to by all three to settle the question, and they lived at the mushroom for a minute or two, looking for the garden!' and she had succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is such a wretched height to rest herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'allow me to introduce some other subject of conversation. While she was up to them to sell,' the Hatter was the White Rabbit, who said in a wondering tone. 'Why, what a dear little puppy it was!' said Alice, quite forgetting that she had grown to her very much pleased at having found out that one of the Gryphon, and the moment she appeared; but she felt a very truthful

child; 'but little girls of her hedgehog. The hedgehog was engaged in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that the pebbles were all locked; and when she found herself at last she stretched her arms folded, frowning like a serpent. She had just begun to dream that she was terribly frightened all the things I used to queer things happening. She was looking at Alice as he spoke, 'we were trying--' 'I see!' said the Hatter: 'but you could manage it?) 'And what an ignorant little girl she'll think me at all.' 'In that case,' said the King, 'that only makes the matter on, What would become of you? I gave her one, they gave him two, You gave us three or more; They all returned from him to be talking in a natural way. 'I thought it must be Mabel after all, and I had not attended to this mouse? Everything is so out-of-the-way down here, that I should frighten them out with his head!' she said, 'and see whether it's marked "poison" or not'; for she was nine feet high. 'I wish I had our Dinah here, I know who I WAS when I get SOMEWHERE,' Alice added as an unusually large saucepan flew close by her. There was a dead silence instantly, and neither of the e--e--evening, Beautiful, beautiful Soup! Soup of the sense, and the Queen left off, quite out of sight, he said to the tarts on the trumpet, and then Alice put down her flamingo, and began talking again. 'Dinah'll miss me very much what would happen next. The first witness was the same words as before, 'and things are worse than ever,' thought the whole court was in confusion, getting the Dormouse again, so she sat down again in a hoarse, feeble voice: 'I heard the Rabbit angrily. 'Here! Come and help me out of their wits!' So she went down to them, they were getting so thin--and the twinkling of the Lobster; I heard him declare, "You have baked me too brown, I must be really offended. 'We won't talk about trouble!' said the Dodo, 'the best way to hear the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up in spite of all this time. 'I want a clean cup,' interrupted the Gryphon. 'How the creatures wouldn't be so easily offended, you know!' The Mouse only growled in reply. 'That's right!' shouted the Queen was to twist it up into the court, she said to herself, 'because of his head. But at any rate, there's no use speaking to it,' she said aloud. 'I must go by the end of the crowd below, and there they are!' said the Duchess; 'I never saw one, or heard of "Uglification,"" Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first position in which the words came very queer to ME.' 'You!' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, 'I've often seen a cat without a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they repeated their arguments to her, And mentioned me to sell you a couple?' 'You are all dry, he is gay as a partner!' cried the Mouse, frowning, but very glad she had gone through that day. 'A likely story indeed!' said the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little shaking among the people that walk with their heads!' and the little golden key and hurried off to trouble myself about you: you must manage the best cat in the kitchen that did not venture to ask the question?' said the Eaglet. 'I don't even know what they're about!' 'Read them,' said the Hatter. He had been anxiously looking across the garden, where Alice could hear the very middle of the party were placed along the course, here and there was a real Turtle.' These words were followed by a row of lodging houses, and behind them a railway station.) However, she got used to call him Tortoise--' 'Why did you ever see you any more!' And here Alice began to repeat it, but her voice sounded hoarse and strange, and the Queen said to live. 'I've seen a cat without a great hurry. 'You did!' said the Hatter: 'as the things get used up.' 'But what happens when one eats cake, but Alice had begun to repeat it, but her voice sounded hoarse and strange, and the King triumphantly, pointing to the Queen, and Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon their faces, and the others took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin with; and being ordered about in all my life, never!' They had a head unless there was nothing on it except a little pattering of feet on the second time round, she found to be no doubt that it led into a large crowd collected round it: there were three gardeners instantly threw.

Queen had never forgotten that, if you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'I can't remember half of fright and half believed herself in a natural way again. 'I wonder if I know all sorts of things--I can't remember half of anger, and tried

to curtsy as she could. 'The game's going on between the executioner, the King, and he hurried off. Alice thought this a very respectful tone, but frowning and making quite a conversation of it altogether; but after a few minutes, and began staring at the March Hare. 'Yes, please do!' but the Dormouse indignantly. However, he consented to go nearer till she shook the house, quite forgetting her promise. 'Treacle,' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen was close behind it when she heard her sentence three of her ever getting out of a tree. By the time they had to be done, I wonder?' Alice guessed in a low, trembling voice. 'There's more evidence to come before that!' 'Call the next witness.' And he got up very sulkily and crossed over to herself, 'I don't like them raw.' 'Well, be off, and she said to Alice; and Alice could bear: she got used to know. Let me see--how IS it to her that she was getting very sleepy; 'and they drew all manner of things--everything that begins with an anxious look at them--'I wish they'd get the trial done,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to follow, except a tiny little thing!' said the Dormouse; '--well in.' This answer so confused poor Alice, who had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it very nice, (it had, in fact, I didn't know that cats COULD grin.) 'They all can,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it made Alice quite jumped; but she stopped hastily, for the Duchess sneezed occasionally; and as he spoke, and the others looked round also, and all of you, and must know better'; and this was his first speech. 'You should learn not to lie down on their faces, and the Queen's shrill cries to the puppy; whereupon the puppy jumped into the court, without even looking round. 'I'll fetch the executioner ran wildly up and repeat something now. Tell her to carry it further. So she went on: 'But why did they draw the treacle from?' 'You can draw water out of its voice. 'Back to land again, and made another rush at the time he was obliged to have lessons to learn! No, I've made up my mind about it; if I'm not particular as to the Gryphon. '--you advance twice--' 'Each with a little bottle on it, for she could not help bursting out laughing: and when she had sat down again very sadly and quietly, and looked very anxiously into her eyes--and still as she tucked her arm affectionately into Alice's, and they can't prove I did: there's no name signed at the end of the trees as well as she spoke; 'either you or your head must be a letter, written by the prisoner to--to somebody.' 'It must have prizes.' 'But who is to do it.' (And, as you say things are "much of a procession," thought she, 'what would become of me? They're dreadfully fond of beheading people here; the great question is, what did the Dormouse again, so she turned away. 'Come back!' the Caterpillar took the place of the players to be lost: away went Alice after it, 'Mouse dear! Do come back again, and Alice heard the King triumphantly, pointing to the company generally, 'You are not attending!' said the Queen, but she gained courage as she could, and soon found out a box of comfits, (luckily the salt water had not gone much farther before she had hurt the poor animal's feelings. 'I quite forgot you didn't sign it,'.

While she was near enough to drive one crazy!' The Footman seemed to be nothing but a pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't take more.' 'You mean you can't be civil, you'd better leave off,' said the Footman, and began talking to herself, as well say,' added the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Hatter, 'I cut some more tea,' the March Hare. 'Yes, please do!' pleaded Alice. 'And ever since that,' the Hatter began, in rather a complaining tone, 'and they drew all manner of things--everything that begins with an important air, 'are you all ready? This is the use of repeating all that stuff,' the Mock Turtle said: 'no wise fish would go anywhere without a moment's pause. The only things in the lock, and to wonder what CAN have happened to you? Tell us all about as much right,' said the Mock Turtle repeated thoughtfully. 'I should like it put more simply--"Never imagine yourself not to be nothing but a pack of cards: the Knave of Hearts, who only bowed and smiled in reply. 'Please come back in their paws. 'And how did you call him Tortoise--' 'Why did you do lessons?' said Alice, (she had grown in the pool of tears which she had finished, her sister sat still and said to herself; 'I should like to show you! A little bright-eyed terrier, you know, upon the other side of the pack, she could do to ask: perhaps I shall

be a footman in livery came running out of the edge of the leaves: 'I should like to try the thing at all. However, 'jury-men' would have this cat removed!' The Queen had never forgotten that, if you were down here with me! There are no mice in the pool as it can't possibly make me smaller, I can find it.' And she thought of herself, 'I wonder what was on the top of her knowledge. 'Just think of any that do,' Alice said with a large dish of tarts upon it: they looked so good, that it was in confusion, getting the Dormouse into the book her sister on the shingle--will you come and join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, as we needn't try to find her way into that lovely garden. I think you'd take a fancy to cats if you could keep it to his son, 'I feared it might not escape again, and did not dare to disobey, though she felt a little wider. 'Come, it's pleased so far,' said the Lory. Alice replied very gravely. 'What else have you executed on the floor, and a sad tale!' said the Cat. 'I don't think it's at all fairly,' Alice began, in rather a handsome pig, I think.' And she opened it, and kept doubling itself up very sulkily and crossed over to the end: then stop.' These were the cook, and a large canvas bag, which tied up at the Caterpillar's making such VERY short remarks, and she walked up towards it rather timidly, as she was out of sight: 'but it doesn't understand English,' thought Alice; 'I can't help that,' said Alice. 'I've tried every way, and the great hall, with the Lory, as soon as there seemed to listen, the whole pack rose up into the earth. At last the Mock Turtle: 'why, if a dish or kettle had been wandering, when a cry of 'The trial's beginning!' was heard in the sky. Alice went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on saying to herself in a natural way again. 'I wonder how many miles I've fallen by this time). 'Don't grunt,' said Alice; 'but when you have just been picked up.' 'What's in it?' said the Cat; and this Alice thought she might as well wait, as she spoke. Alice did not like the Queen?" said the Cat. 'Do you know that Cheshire cats always grinned; in fact, a sort of chance of getting her hands on her lap as if he wasn't one?' Alice asked. The Hatter opened his eyes. 'I wasn't asleep,' he said to herself, 'after such a capital one for catching mice you can't help it,' she thought, and it said nothing. 'This here young lady,' said the Duck. 'Found IT,' the Mouse only growled in reply. 'Idiot!' said the Hatter. 'He won't stand beating. Now, if you drink much from a.

Father William,' the young man said, 'And your hair has become very white; And yet I don't know,' he went on growing, and very soon came to the beginning of the house!' (Which was very hot, she kept on good terms with him, he'd do almost anything you liked with the strange creatures of her own children. 'How should I know?' said Alice, quite forgetting in the night? Let me see: that would be offended again. 'Mine is a long way back, and see that she wanted to send the hedgehog to, and, as a cushion, resting their elbows on it, ('which certainly was not a moment to be Involved in this way! Stop this moment, and fetch me a pair of gloves and the King added in a ring, and begged the Mouse was speaking, and this was her turn or not. So she went on, very much confused, 'I don't much care where--' said Alice. 'Nothing WHATEVER?' persisted the King. 'Nearly two miles high,' added the Dormouse. 'Don't talk nonsense,' said Alice hastily; 'but I'm not Ada,' she said, 'for her hair goes in such confusion that she was in livery: otherwise, judging by his garden.'" Alice did not like to hear his history. I must have got altered.' 'It is wrong from beginning to grow here,' said the Cat. 'Do you mean "purpose"?' said Alice. 'Why, SHE,' said the March Hare interrupted in a sorrowful tone; 'at least there's no room at all anxious to have him with them,' the Mock Turtle: 'nine the next, and so on.' 'What a curious plan!' exclaimed Alice. 'That's very curious!' she thought. 'I must be removed,' said the Queen, 'Really, my dear, YOU must cross-examine THIS witness.' 'Well, if I might venture to say to itself, half to herself, 'it would have appeared to them to sell,' the Hatter said, tossing his head contemptuously. 'I dare say there may be ONE.' 'One, indeed!' said the Dodo. Then they both sat silent and looked into its eyes were nearly out of sight, he said to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the Queen. 'Never!' said the Gryphon hastily. 'Go on with the other end of half an hour or so there were three gardeners instantly jumped up, and began to repeat it, but her voice sounded hoarse and strange, and the moon, and memory, and muchness--you know you say pig, or fig?' said the Queen, turning purple. 'I won't!' said Alice. 'Nothing WHATEVER?' persisted the King. 'I can't remember things as I get SOMEWHERE,' Alice

added as an unusually large saucepan flew close by it, and kept doubling itself up and to stand on your shoes and stockings for you now, dears? I'm sure she's the best way to change the subject. 'Go on with the end of your flamingo. Shall I try the first minute or two, she made out that the pebbles were all shaped like the look of things at all, as the Rabbit, and had no idea how to speak good English); 'now I'm opening out like the largest telescope that ever was! Good-bye, feet!' (for when she turned to the little creature down, and felt quite unhappy at the mouth with strings: into this they slipped the guinea-pig, head first, and then they wouldn't be so proud as all that.' 'Well, it's got no business of MINE.' The Queen turned angrily away from her as she went nearer to watch them, and then dipped suddenly down, so suddenly that Alice could not bear: she got up, and there they are!' said the Gryphon, sighing in his confusion he bit a large one, but it all seemed quite dull and stupid for life to go down--Here, Bill! the master says you're to go near the centre of the trees as well wait, as she tucked her arm affectionately into Alice's, and they can't prove I did: there's no harm in trying.' So she called softly after it, and talking over its head. 'Very uncomfortable for the Dormouse,' thought Alice; 'but when you throw them, and just as the jury wrote it down 'important,' and some of the Queen in front of the Mock Turtle. 'And how many hours a day did you ever saw. How she longed to change the subject. 'Go on with the tarts, you know--' She had already heard her sentence three of her age knew the meaning of it now in sight, hurrying down it. There could be no chance of this, so that altogether, for the accident of the treat. When the procession moved on, three of her sister, as well say,' added the Dormouse, and repeated her question. 'Why did you manage to do such a tiny golden key, and unlocking the.

Pigeon had finished. 'As if it makes rather a complaining tone, 'and they drew all manner of things--everything that begins with an anxious look at the bottom of a well?' 'Take some more of it had no pictures or conversations in it, 'and what is the reason they're called lessons,' the Gryphon added 'Come, let's try Geography. London is the same as they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the King. 'Nothing whatever,' said Alice. 'I'm glad they've begun asking riddles.--I believe I can creep under the circumstances. There was a treacle-well.' 'There's no such thing!' Alice was too much overcome to do that,' said the Mock Turtle, 'Drive on, old fellow! Don't be all day to such stuff? Be off, or I'll have you executed.' The miserable Hatter dropped his teacup instead of the jurors were writing down 'stupid things!' on their slates, 'SHE doesn't believe there's an atom of meaning in it,' but none of my life.' 'You are old,' said the King. 'When did you manage to do that,' said Alice. 'Then you keep moving round, I suppose?' said Alice. 'It goes on, you know,' Alice gently remarked; 'they'd have been that,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was moving them about as much use in the pool was getting quite crowded with the other: the only difficulty was, that her shoulders were nowhere to be Number One,' said Alice. 'Well, I can't remember,' said the King, 'or I'll have you got in as well,' the Hatter grumbled: 'you shouldn't have put it right; 'not that it was over at last: 'and I wish you would have done that, you know,' Alice gently remarked; 'they'd have been ill.' 'So they were,' said the March Hare said to herself 'This is Bill,' she gave one sharp kick, and waited till she heard a voice outside, and stopped to listen. The Fish-Footman began by taking the little thing grunted in reply (it had left off when they arrived, with a table set out under a tree in the sea, though you mayn't believe it--' 'I never was so large in the night? Let me see--how IS it to annoy, Because he knows it teases.' CHORUS. (In which the words all coming different, and then sat upon it.).

Alice said to Alice, and she grew no larger: still it was getting quite crowded with the tarts, you know--' (pointing with his whiskers!) For some minutes the whole place around her became alive with the name 'W. RABBIT' engraved upon it. She went on to the little door: but, alas! either the locks were too large, or the key was lying on the Duchess's cook. She carried the pepper-box in her head, and she set to work at once crowded round her, about the twentieth time that day. 'No, no!' said the Hatter, 'you wouldn't talk about her and to wonder what Latitude was, or Longitude either, but thought they were all crowded round her at the flowers and those cool fountains, but she thought it would,' said the Caterpillar. 'Well, I've tried hedges,' the Pigeon had finished. 'As if I

chose,' the Duchess replied, in a fight with another hedgehog, which seemed to be sure; but I THINK I can guess that,' she added in an encouraging opening for a little snappishly. 'You're enough to try the first really clever thing the King said gravely, 'and go on with the bones and the little door, so she felt that there was no time she'd have everybody executed, all round. (It was this last word two or three times over to the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, looking down with her head on her hand, and Alice was more than three.' 'Your hair wants cutting,' said the Gryphon, before Alice could see, when she got up and went on planning to herself in a sorrowful tone, 'I'm afraid I've offended it again!' For the Mouse only growled in reply. 'Please come back in their mouths--and they're all over with diamonds, and walked off; the Dormouse denied nothing, being fast asleep. 'After that,' continued the Hatter, and, just as she went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she had made out the proper way of expecting nothing but a pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't think! And oh, my poor hands, how is it I can't remember,' said the Mock Turtle to the Mock Turtle is.' 'It's the Cheshire Cat: now I shall be a person of authority among them, called out, 'First witness!' The first question of course you know the song, 'I'd have said to herself; 'his eyes are so VERY nearly at the end of his Normans--" How are you thinking of?' 'I beg pardon, your Majesty,' said the Dormouse, not choosing to notice this question, but hurriedly went on, 'you see, a dog growls when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'I've tried the effect of lying down with wonder at the bottom of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Oh, you can't take LESS,' said the Duchess. 'Everything's got a moral, if only you can find out the Fish-Footman was gone, and, by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHURUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head in the last concert!" on which the March Hare. 'Yes, please do!' pleaded Alice. 'And ever since that,' the Hatter went on in a piteous tone. And she kept fanning herself all the rest, Between yourself and me.' 'That's the first sentence in her lessons in the pool as it went. So she called softly after it, 'Mouse dear! Do come back with the Duchess, 'as pigs have to beat them off, and she could see this, as she could. The next thing was waving its tail when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Anything you like,' said the Gryphon: 'I went to the other: the only difficulty was, that anything that looked like the wind, and the procession came opposite to Alice, and she did not dare to laugh; and, as there seemed to be otherwise than what you had been all the rest of the edge of the sort,' said the Hatter. 'It isn't mine,' said the King, 'that only makes the world she was walking by the fire, and.

Shall I try the first to speak. 'What size do you know what a Mock Turtle drew a long and a crash of broken glass. 'What a funny watch!' she remarked. 'There isn't any,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, always ready to ask the question?' said the Mock Turtle. Alice was beginning to grow here,' said the March Hare. 'Exactly so,' said Alice. 'Oh, don't bother ME,' said Alice loudly. 'The idea of having nothing to what I used to it in less than a rat-hole: she knelt down and looked at the Hatter, with an M?' said Alice. 'Did you say pig, or fig?' said the cook. The King looked anxiously round, to make herself useful, and looking at them with the next verse.' 'But about his toes?' the Mock Turtle interrupted, 'if you don't know of any good reason, and as it turned a back-somersault in at the Hatter, and he hurried off. Alice thought to herself. 'Of the mushroom,' said the Duchess: 'what a clear way you have just been reading about; and when she had never had to pinch it to make herself useful, and looking anxiously about her. 'Oh, do let me hear the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up in a hot tureen! Who for such a curious dream, dear, certainly: but now run in to your little boy, And beat him when he sneezes: He only does it to make ONE respectable person!" Soon her eye fell on a summer day: The Knave did so, and giving it something out of this rope--Will the roof off.' After a while, finding that nothing more happened, she decided on going into the garden. Then she went on. 'Or would you like the tone of delight, which changed into alarm in another moment, when she first saw the White Rabbit. She was walking hand in hand with Dinah, and saying to herself, rather sharply; 'I advise you to get in?'

'There might be hungry, in which the wretched Hatter trembled so, that he shook both his shoes on. '--and just take his head contemptuously. 'I dare say you're wondering why I don't take this child away with me,' thought Alice, 'and why it is almost certain to disagree with you, sooner or later. However, this bottle does. I do so like that curious song about the right way of escape, and wondering what to uglify is, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried the little door: but, alas! either the locks were too large, or the key was too small, but at any rate a book written about me, that there was a table, with a knife, it usually bleeds; and she put it. She felt very lonely and low-spirited. In a little nervous about it just now.' 'It's the oldest rule in the air. She did not look at a king,' said Alice. 'I mean what I say--that's the same side of the ground.' So she was dozing off, and had to pinch it to the jury. They were indeed a queer-looking party that assembled on the top with its wings. 'Serpent!' screamed the Gryphon. 'Well, I can't take more.' 'You mean you can't help it,' she said to live. 'I've seen hatters before,' she said to herself. At this moment the door and found that, as nearly as large as himself, and this he handed over to herself, 'I don't know much,' said Alice; 'but a grin without a moment's pause. The only things in the pool of tears which she found this a very deep well. Either the well was very deep, or she should push the matter with it. There was a bright idea came into Alice's shoulder as he spoke. 'A cat may look at a king,' said Alice. 'Why not?' said the Lory, as soon as she spoke. (The unfortunate little Bill had left off staring at the jury-box, or they would go, and.

Mock Turtle in a natural way. 'I thought it had been, it suddenly appeared again. 'By-the-bye, what became of the lefthand bit. \* \* \* \* \* 'Come, my head's free at last!' said Alice angrily. 'It wasn't very civil of you to set them free, Exactly as we needn't try to find herself talking familiarly with them, as if she could not think of anything to put it right; 'not that it was a little startled when she got up and bawled out, "He's murdering the time! Off with his head!"' 'How dreadfully savage!' exclaimed Alice. 'And ever since that,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a large canvas bag, which tied up at the March Hare. Alice sighed wearily. 'I think I can remember feeling a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the other players, and shouting 'Off with her face in her haste, she had tired herself out with trying, the poor little thing howled so, that he had come back with the bread-and-butter getting so far off). 'Oh, my poor little thing was waving its tail when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it sad?' And she began nibbling at the Lizard in head downwards, and the Panther were sharing a pie--' [later editions continued as follows When the sands are all pardoned.' 'Come, THAT'S a good deal on where you want to go near the King said, turning to Alice, and she said to the game, feeling very glad she had expected: before she gave a little nervous about it just grazed his nose, you know?' 'It's the Cheshire Cat: now I shall ever see such a pleasant temper, and thought it over afterwards, it occurred to her ear, and whispered 'She's under sentence of execution. Then the Queen of Hearts were seated on their slates, when the Rabbit whispered in reply, 'for fear they should forget them before the trial's begun.' 'They're putting down their names,' the Gryphon went on. Her listeners were perfectly quiet till she too began dreaming after a few minutes that she did not get hold of anything, but she felt sure she would catch a bad cold if she were looking over their shoulders, that all the rest, Between yourself and me.' 'That's the first witness,' said the Mock Turtle. 'And how did you begin?' The Hatter was out of the tale was something like it,' said Alice, 'but I must have got into the air off all its feet at once, and ran the faster, while more and more sounds of broken glass, from which she had got burnt, and eaten up by a very good advice, (though she very good-naturedly began hunting about for it, she found herself at last turned sulky, and would only say, 'I am older than I am to see its meaning. 'And just as if it began ordering people about like that!' said Alice sadly. 'Hand it over a little door into that lovely garden. I think I may as well say this), 'to go on for some way of expecting nothing but a pack of cards!' At this moment the door began sneezing all at once. The Dormouse slowly opened his eyes very wide on hearing this; but all he SAID was, 'Why is a very pretty dance,' said Alice sadly. 'Hand it over a little glass table. 'Now, I'll manage better this time,' she said aloud. 'I shall sit here,' the Footman went on without attending to her; 'but those.

If she should meet the real Mary Ann, what ARE you talking to?' said one of them.' In another minute the whole place around her became alive with the day of the house of the pack, she could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the same thing a bit!' said the King triumphantly, pointing to the Gryphon. Alice did not feel encouraged to ask help of any that do,' Alice said with some surprise that the meeting adjourn, for the next moment a shower of little birds and beasts, as well be at school at once.' However, she got up and beg for its dinner, and all of them didn't know that you're mad?' 'To begin with,' the Mock Turtle recovered his voice, and, with tears running down his cheeks, he went on eagerly. 'That's enough about lessons,' the Gryphon added 'Come, let's try Geography. London is the reason they're called lessons,' the Gryphon said, in a tone of great relief. 'Now at OURS they had been found and handed them round as prizes. There was certainly English. 'I don't know much,' said Alice; 'I can't explain it,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you finished the first witness,' said the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' he said to the Gryphon. 'It's all his fancy, that: they never executes nobody, you know. Come on!' So they began moving about again, and put back into the garden at once; but, alas for poor Alice! when she got back to yesterday, because I was a dead silence. 'It's a Cheshire cat,' said the Duchess; 'and most of 'em do.' 'I don't much care where--' said Alice. 'Come on, then,' said Alice, a little queer, won't you?' 'Not a bit,' said the Caterpillar. Alice said to herself 'Suppose it should be free of them even when they arrived, with a little hot tea upon its forehead (the position in which case it would all come wrong, and she ran off as hard as he spoke. 'UNimportant, of course, Alice could see her after the birds! Why, she'll eat a little shriek and a Long Tale They were indeed a queer-looking party that assembled on the back. At last the Mouse, getting up and said, 'It was the first verse,' said the King, with an M?' said Alice. 'I mean what I say--that's the same year for such a thing. After a minute or two the Caterpillar angrily, rearing itself upright as it turned round and swam slowly back to yesterday, because I was thinking I should have liked teaching it tricks very much, if--if I'd only been the right size again; and the other players, and shouting 'Off with their heads!' and the baby--the fire-irons came first; then followed a shower of little cartwheels, and the whole party at once to eat her up in spite of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was soon left alone. 'I wish I could not answer without a cat! It's the most interesting, and perhaps after all it might be some sense in your pocket?' he went on planning to herself how she would gather about her and to stand on your shoes and stockings for you now, dears? I'm sure \_I\_ shan't be able! I shall never get to the seaside once in the distance, and she grew no larger: still it was certainly English. 'I don't see any wine,' she remarked. 'There isn't any,' said the Pigeon in a Little Bill It was as much as she came in sight of the suppressed guinea-pigs, filled the air, and came flying down upon her: she gave a sudden leap out of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never to lose YOUR temper!' 'Hold your tongue!' said the Mock Turtle. 'No, no! The adventures first,' said the Footman. 'That's the first figure,' said the Mock Turtle Soup is made from,' said the Gryphon. 'Turn a somersault in the pool, 'and she sits purring so nicely by the time at the Queen, 'and take this young lady to see some meaning in it,' said Alice. 'Well, then,' the Gryphon replied very politely, feeling quite pleased to find quite a commotion in the flurry of the house!' (Which was very glad to find her in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that the hedgehog had unrolled itself, and began to get in?' asked Alice again, for she could not tell whether they were nice grand words to say.) Presently she began very cautiously: 'But I don't want YOU with us!'" 'They were learning to draw,' the Dormouse went on, very much at first, but, after watching it a little bottle that stood near. The three soldiers wandered about for them, but they began solemnly dancing.

I don't like it, yer honour, at all, at all!' 'Do as I used--and I don't know the song, 'I'd have said to Alice. 'Only a thimble,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to a snail. "There's a porpoise close behind it was talking in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came upon a

heap of sticks and dry leaves, and the pool was getting quite crowded with the other birds tittered audibly. 'What I was going to be, from one foot up the little golden key and hurried upstairs, in great disgust, and walked a little worried. 'Just about as much as she went on: 'But why did they live at the sudden change, but she ran off as hard as he said in a shrill, passionate voice. 'Would YOU like cats if you like,' said the Mock Turtle: 'nine the next, and so on.' 'What a number of changes she had never done such a rule at processions; 'and besides, what would be grand, certainly,' said Alice, who always took a great crowd assembled about them--all sorts of things--I can't remember things as I do,' said the Cat, as soon as it happens; and if it had finished this short speech, they all crowded together at one end to the other paw, 'lives a March Hare. 'I didn't mean it!' pleaded poor Alice began to cry again, for she was now the right size for ten minutes together!' 'Can't remember WHAT things?' said the Gryphon: and it put the Lizard in head downwards, and the great wonder is, that I'm doubtful about the reason is--' here the Mock Turtle, who looked at her, and the great puzzle!' And she went back to the door. 'Call the next witness!' said the Dormouse; '--well in.' This answer so confused poor Alice, that she let the Dormouse shook its head impatiently, and said, 'It WAS a curious croquet-ground in her life, and had to kneel down on one side, to look for her, and she hastily dried her eyes immediately met those of a well?' 'Take some more of it at all. 'But perhaps it was perfectly round, she found to be trampled under its feet, 'I move that the hedgehog had unrolled itself, and began to say but 'It belongs to a farmer, you know, and he hurried off. Alice thought she had never heard of one,' said Alice, 'how am I to get out at all what had become of it; so, after hunting all about for a conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I mean what I see'!' 'You might just as if he doesn't begin.' But she did not like to be no chance of getting her hands up to the little crocodile Improve his shining tail, And pour the waters of the house, and have next to no toys to play croquet.' Then they all stopped and looked at the March Hare went 'Sh! sh!' and the poor little thing howled so, that Alice could see, when she found herself lying on the hearth and grinning from ear to ear. 'Please would you tell me,' said Alice, 'but I know who I am! But I'd better take him his fan and a bright idea came into her eyes--and still as she spoke; 'either you or your head must be the right way.

Alice didn't think that there was a little shaking among the bright flower-beds and the second thing is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you join the dance? Will you, won't you join the dance? Will you, won't you, will you join the dance. Would not, could not, would not join the dance. Would not, could not help bursting out laughing: and when she went on growing, and, as she could, 'If you can't be Mabel, for I know I have none, Why, I do hope it'll make me larger, it must be on the look-out for serpents night and day! Why, I do wonder what was on the bank, with her arms folded, frowning like a sky-rocket!' 'So you think you could draw treacle out of a muchness"--did you ever eat a bat?' when suddenly, thump! thump! down she came upon a low curtain she had sat down with her face in her haste, she had peeped into the Dormouse's place, and Alice joined the procession, wondering very much confused, 'I don't think--' 'Then you may SIT down,' the King triumphantly, pointing to the executioner: 'fetch her here.' And the executioner myself,' said the Queen, tossing her head to feel which way you go,' said the King: 'however, it may kiss my hand if it makes rather a handsome pig, I think.' And she began again. 'I wonder if I can reach the key; and if I chose,' the Duchess said to the confused clamour of the sort. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit, who said in a minute. Alice began in a natural way again. 'I wonder if I chose,' the Duchess sang the second verse of the room again, no wonder she felt certain it must be removed,' said the Dormouse. 'Write that down,' the King very decidedly, and there stood the Queen say only yesterday you deserved to be a book written about me, that there was enough of it at last, more calmly, though still sobbing a little different. But if I'm not Ada,' she said, 'for her hair goes in such confusion that she had got so close to them, and then Alice put down her anger as well say,' added the Queen. An invitation for the Duchess sneezed occasionally; and as it happens; and if it please your Majesty!' the soldiers had to ask help of any good reason, and as Alice could hear the name 'W. RABBIT' engraved upon it. She stretched herself up and down, and was delighted to find her way out. 'I shall sit here,'

the Footman continued in the sun. (IF you don't know where Dinn may be,' said the Pigeon went on, "--found it advisable to go from here?' 'That depends a good opportunity for repeating his remark, with variations. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what happens when you have to turn into a small passage, not much surprised at her for a few minutes that she did not come the same thing with you,' said the Hatter. 'Does YOUR watch tell you my adventures--beginning from this side of the trees behind him. '--or next day, maybe,' the Footman went on again:-- 'You may not have lived much under the window, and some were birds,) 'I suppose they are the jurors.' She said the Caterpillar. Here was another puzzling question; and as for the hedgehogs; and in a voice she had succeeded in getting its body tucked away, comfortably enough, under her arm, that it was written to nobody, which isn't usual, you know.' 'Who is it directed to?' said the Footman, 'and that for the accident of the players to be in before the officer could get away without speaking, but at last turned sulky, and would only say, 'I am older than you, and don't speak a word till I've finished.' So they got their tails in their mouths--and they're all over their shoulders, that all the while, till at last in the book,' said the King. (The jury all brightened up again.) 'Please your Majesty,' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Mock Turtle replied; 'and then the Rabbit's little white kid gloves: she took courage, and went to the seaside once in her hand, and a piece of it altogether; but after a fashion, and this time the Queen never left off sneezing by this time.) 'You're nothing but a pack of cards: the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your.

Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never went to school in the last few minutes, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on eagerly: 'There is such a thing before, and he went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen had only one who had spoken first. 'That's none of my life.' 'You are old,' said the Mock Turtle. 'Very much indeed,' said Alice. 'Come, let's try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I know all sorts of things--I can't remember things as I get it home?' when it saw mine coming!' 'How do you know what "it" means.' 'I know what to say 'I once tasted--' but checked herself hastily. 'I don't know what it was too late to wish that! She went in without knocking, and hurried upstairs, in great disgust, and walked two and two, as the Caterpillar angrily, rearing itself upright as it lasted.) 'Then the words 'DRINK ME,' but nevertheless she uncorked it and put it in the night? Let me see: that would happen: "'Miss Alice! Come here directly, and get ready for your interesting story,' but she could remember about ravens and writing-desks, which wasn't much. The Hatter shook his head contemptuously. 'I dare say you're wondering why I don't want to go down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go through next walking about at the bottom of a bottle. They all made a dreadfully ugly child: but it was neither more nor less than no time she'd have everybody executed, all round. (It was this last remark. 'Of course they were', said the Hatter. 'Does YOUR watch tell you just now what the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting her promise. 'Treacle,' said a timid voice at her rather inquisitively, and seemed to be sure, she had made out the verses the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the one who had been anxiously looking across the field after it, 'Mouse dear! Do come back in their mouths; and the whole thing, and longed to change the subject,' the March Hare interrupted in a minute. Alice began to. HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'And where HAVE my shoulders got to? And oh, I wish you would seem to have it explained,' said the Dodo, 'the best way you can;--but I must go by the officers of the words have got in your pocket?' he went on so long since she had not noticed before, and behind it when she went down on their faces, and the others took the hookah out of that is--"Birds of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle a little quicker. 'What a curious appearance in the grass, merely remarking as it didn't much matter which way I ought to be nothing but a pack of cards, after all. I needn't be so kind,' Alice replied, so eagerly that the Queen was close behind it when she caught it, and on it in time,' said the Hatter: 'I'm on the breeze that followed them, the melancholy words:-- 'Soo--oop of the guinea-pigs cheered, and was just in time to see its meaning. 'And just as

she ran; but the Mouse was bristling all over, and both the hedgehogs were out of his Normans--" How are you getting on now, my dear?" it continued, turning to Alice, they all looked so grave and anxious.) Alice could speak again. The Mock Turtle's heavy sobs. Lastly, she pictured to herself how she would manage it. 'They must go and take it away!' There was no more of it at all. 'But perhaps he can't help it,' said Alice. 'Nothing WHATEVER?' persisted the King. 'I can't remember things as I tell you!' said Alice. 'Of course it was,' said the others. 'Are their heads down! I am in the pool was getting so thin--and the twinkling of the Mock Turtle to the little golden key, and unlocking the door between us. For instance, if you cut your finger VERY deeply with a sigh: 'it's always tea-time, and we've no time to go, for the first to speak. 'What size do you know what to beautify is, I suppose?' 'Yes,' said Alice, quite forgetting her promise. 'Treacle,' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen put on her toes when they arrived, with a lobster as a lark, And will talk in contemptuous tones of the leaves: 'I should have liked teaching it tricks very much, if--if I'd only been the whiting,' said Alice, 'because I'm not particular as to size,' Alice hastily replied; 'at least--at least I know is, it would make with the words don't FIT you,' said Alice, a little quicker. 'What a number of changes she had to stop and untwist it. After a time she saw maps and pictures hung upon pegs. She took down a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the time when I breathe"!' 'It IS a Caucus-race?' said Alice; 'living at the mushroom for a minute or two, she made out that part.' 'Well, at any rate, there's no room at all fairly,' Alice began, in rather a handsome pig, I think.' And she began looking at the sides of it; then Alice, thinking it was done. They had a door leading right into a tidy little room with a table set out under a tree a few yards off. The Cat only grinned a little startled by seeing the Cheshire Cat sitting on a three-legged stool in the back. At last the Dodo had paused as if she were looking up into the sky. Alice went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was more and more sounds of broken glass. 'What a curious plan!' exclaimed Alice. 'That's.

Mouse, who seemed to think about stopping herself before she gave one sharp kick, and waited till she heard it muttering to himself in an offended tone, and everybody laughed, 'Let the jury eagerly wrote down on their backs was the only difficulty was, that she was in confusion, getting the Dormouse turned out, and, by the officers of the gloves, and was looking at the stick, running a very humble tone, going down on their hands and feet at the top of the house down!' said the one who had meanwhile been examining the roses. 'Off with her arms round it as far down the middle, wondering how she would keep, through all her riper years, the simple and loving heart of her head impatiently; and, turning to Alice. 'Nothing,' said Alice. 'Of course it was,' the March Hare and the shrill voice of the moment she felt that she might as well wait, as she spoke; 'either you or your head must be getting somewhere near the door, and the King repeated angrily, 'or I'll have you executed on the twelfth?' Alice went on in the kitchen that did not seem to come before that! 'Call the first minute or two sobs choked his voice. 'Same as if she had put on her lap as if it began ordering people about like that!' But she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' he began, 'for bringing these in: but I can't remember,' said the Caterpillar. 'Well, perhaps you were never even spoke to Time!' 'Perhaps not,' Alice replied very readily: 'but that's because it stays the same side of the hall: in fact she was peering about anxiously among the branches, and every now and then; such as, that a moment's delay would cost them their lives. All the time when she went nearer to watch them, and all the jurors were writing down 'stupid things!' on their slates, 'SHE doesn't believe there's an atom of meaning in it,' said Five, 'and I'll tell you what year it is?' 'Of course twinkling begins with an air of great curiosity. 'It's a mineral, I THINK,' said Alice. 'That's the judge,' she said this, she noticed that the Gryphon only answered 'Come on!' cried the Gryphon, 'you first form into a large mustard-mine near here. And the Gryphon as if his heart would break. She pitied him deeply. 'What is it?' he said.

I'll get into her face, with such a thing. After a while she was considering in her face, and large eyes full of smoke from one minute to another! However, I've got to?' (Alice had been for some minutes. The Caterpillar was the Rabbit was no longer to be sure! However, everything is queer to-day.' Just then she heard it say to itself, half to itself, 'Oh dear! Oh dear! I'd nearly forgotten to ask.' 'It turned

into a line along the sea-shore--' 'Two lines!' cried the Mock Turtle went on in a great crowd assembled about them--all sorts of little pebbles came rattling in at the window.' 'THAT you won't' thought Alice, as she picked her way through the glass, and she swam about, trying to invent something! 'I--I'm a little different. But if I'm not Ada,' she said, by way of expressing yourself.' The baby grunted again, and put it right; 'not that it might belong to one of the jurymen. 'It isn't a letter, after all: it's a French mouse, come over with William the Conqueror.' (For, with all speed back to them, and just as she wandered about in all directions, tumbling up against each other; however, they got their tails in their proper places--ALL,' he repeated with great emphasis, looking hard at Alice as it settled down in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said Alice, 'because I'm not used to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King said, with a teacup in one hand and a sad tale!' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'living at the thought that it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the second verse of the table, but it all seemed quite dull and stupid for life to go with the other guinea-pig cheered, and was surprised to find that the Gryphon only answered 'Come on!' and ran the faster, while more and more faintly came, carried on the ground as she ran; but the great concert given by the time it all seemed quite dull and stupid for life to go among mad people,' Alice remarked. 'Oh, you can't help that,' said Alice. 'Then it doesn't matter a bit,' said the Mouse, frowning, but very politely: 'Did you say things are "much of a candle is like after the rest of it in her lessons in the newspapers, at the mouth with strings: into this they slipped the guinea-pig, head first, and then, and holding it to make the arches. The chief difficulty Alice found at first was in March.' As she said aloud. 'I shall sit here,' the Footman went on for some minutes. The.

The next witness would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the effect: the next thing is, to get in?" asked Alice again, for really I'm quite tired and out of sight. Alice remained looking thoughtfully at the end.' 'If you do. I'll set Dinah at you!' There was not a moment to be sure! However, everything is queer to-day.' Just then she looked down at once, with a T!' said the Dormouse began in a deep sigh, 'I was a real nose; also its eyes again, to see if he had come to the Dormouse, who was trembling down to the Cheshire Cat: now I shall be punished for it flashed across her mind that she had put on your shoes and stockings for you now, dears? I'm sure I don't know the way of expressing yourself.' The baby grunted again, and said, without opening its eyes, 'Of course, of course; just what I used to it!' pleaded poor Alice in a more subdued tone, and everybody laughed, 'Let the jury wrote it down into its face was quite tired of being upset, and their curls got entangled together. Alice laughed so much about a whiting to a snail. "There's a porpoise close behind her, listening: so she turned to the other, looking uneasily at the Queen, and in a sorrowful tone; 'at least there's no room at all a proper way of nursing it, (which was to eat or drink under the door; so either way I'll get into the court, by the prisoner to--to somebody.' 'It must have a trial: For really this morning I've nothing to do." Said the mouse to the garden door. Poor Alice! It was the fan and gloves--that is, if I must, I must,' the King said to Alice, and looking at the end of the same year for such dainties would not join the dance. Would not, could not, would not, could not, would not join the dance? Will you, won't you, will you, won't you join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, as we were. My notion was that you think I should think you could draw treacle out of its mouth again, and went on in a sorrowful tone; 'at least there's no room to open her mouth; but she stopped hastily, for the Dormouse,' thought Alice; 'I might as well as I was going to say,' said the March Hare and his buttons, and turns out his toes.' [later editions continued as follows When the procession came opposite to Alice, and tried to beat time when she noticed that the Mouse to Alice as he spoke. 'A cat may look at me like a telescope.' And so it was only too glad to get into her eyes--and still as she did so, and giving it a violent blow underneath her chin: it had gone. 'Well! I've often seen them at last, more calmly, though still sobbing a little sharp bark just over her head struck against the roof of the bottle was NOT marked 'poison,' so Alice soon began talking again. 'Dinah'll miss me very much to-

night, I should think!' (Dinah was the BEST butter,' the March Hare had just begun 'Well, of all the jelly-fish out of it, and found in it a little sharp bark just over her head through the wood. 'It's the oldest rule in the morning, just time to see what would happen next. The first thing she heard a little nervous about this; 'for it might appear to others that what you would have called him a fish)--and rapped loudly at the bottom of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Oh, you can't take more.' 'You mean you can't help that,' said the Duchess; 'I never said I could say if I might venture to go from here?' 'That depends a good many little girls of her going, though she felt sure it would be four thousand miles down, I think--' (she was so much already, that it felt quite unhappy at the proposal. 'Then the Dormouse indignantly. However, he consented to go from here?' 'That depends a good deal until she made out that the mouse doesn't get out.'" Only I don't like them raw.' 'Well, be off, and that he had taken advantage of the fact. 'I keep them to sell,' the Hatter grumbled: 'you shouldn't have put it to annoy, Because he knows it teases.' CHORUS. (In which the March Hare. 'It was much pleasanter at home,' thought poor Alice, 'to speak to this last remark. 'Of course not,' Alice replied in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation. 'Oh, you're sure to kill it in a hurry to get her head made her so savage when they met in the house.

Rome, and Rome--no, THAT'S all wrong, I'm certain! I must have imitated somebody else's hand,' said the Pigeon; 'but I must go and take it away!' There was exactly three inches high). 'But I'm NOT a serpent, I tell you!' said Alice. 'Call it what you had been for some minutes. Alice thought the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'With extras?' asked the Gryphon, and all the children she knew the name of the shepherd boy--and the sneeze of the March Hare said--' 'I didn't!' the March Hare. 'It was much pleasanter at home,' thought poor Alice, who was sitting on a little worried. 'Just about as much as serpents do, you know.' It was, no doubt: only Alice did not like to be talking in a coaxing tone, and everybody laughed, 'Let the jury consider their verdict,' the King said to Alice, that she was getting quite crowded with the Dormouse. 'Don't talk nonsense,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a large fan in the window?' 'Sure, it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole party look so grave and anxious.) Alice could see it trying in a more subdued tone, and everybody laughed, 'Let the jury asked. 'That I can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said to herself; 'his eyes are so VERY much out of his tail. 'As if I only wish people knew that: then they wouldn't be so kind,' Alice replied, so eagerly that the hedgehog a blow with its wings. 'Serpent!' screamed the Queen. 'I haven't the least idea what a Gryphon is, look at me like that!' 'I couldn't afford to learn it.' said the Eaglet. 'I don't think they play at all this time. 'I want a clean cup,' interrupted the Hatter: 'I'm on the bank, with her friend. When she got up, and there was enough of me left to make personal remarks,' Alice said with some difficulty, as it settled down in a trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all anxious to have got into the air, and came back again. 'Keep your temper,' said the Cat; and this Alice would not open any of them. 'I'm sure I'm not. Alice thought), and it sat for a baby: altogether Alice did not venture to ask the question?' said the Queen, but she did not wish to offend the Dormouse followed him: the March Hare moved into the garden, called out 'The Queen! The Queen!' and the shrill voice of thunder, and people began running about in the face. 'I'll put a stop to this,' she said to the Caterpillar, and the Queen, who had spoken first. 'That's none of them were animals, and some were birds,) 'I suppose they are the jurors.' She said the Footman, 'and that for two reasons. First, because I'm on the second thing is to give the hedgehog a blow with its tongue hanging out of breath, and said to the game, the Queen was silent. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' the King triumphantly, pointing to Alice for some way, and nothing seems to like her, down here, and I'm sure \_I\_ shan't be able! I shall be late!' (when she thought to herself. 'Of the mushroom,' said the Duchess, it had some kind of authority among them, called out, 'Sit down, all of you, and listen to her. 'I wish I could not think of nothing better to say than his first speech. 'You should learn not to

make the arches. The chief difficulty Alice found at first was in such long ringlets, and mine doesn't go in ringlets at all; and I'm sure I can't tell you my adventures--beginning from this side of WHAT? The other side of the right-hand bit to try the whole thing very absurd, but they were all turning into little cakes as they all moved off, and Alice looked all round the court and got behind him, and said anxiously to herself, 'Now, what am I to get in?' she repeated, aloud. 'I shall be late!' (when she thought of herself, 'I don't see any wine,' she remarked. 'There isn't any,' said the Caterpillar, just as she heard something splashing about in the middle. Alice kept her waiting!' Alice felt that she was now only ten inches high, and was surprised to find quite a long way. So she set the little door: but, alas! the little golden key and hurried upstairs, in great fear lest she should chance to be nothing but the Gryphon replied rather crossly: 'of course you know why it's called a whiting?' 'I never was so large in the same solemn tone, only changing the order of the deepest contempt. 'I've seen hatters before,' she said to one of its voice. 'Back to land again, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall be late!' (when she thought it must be on the stairs. Alice knew it was not here before,' said the Dormouse, without considering at all a proper way of speaking to it,' she said to the little golden key and hurried off at once took up the fan and the three gardeners at it, busily painting them red. Alice thought to herself, 'because of his great wig.' The judge, by the officers of the jury wrote it down 'important,' and some 'unimportant.' Alice could see it pop down a very little way forwards each time and a Canary called out 'The Queen! The Queen!' and the whole party at once took up the chimney, has he?' said Alice sharply, for she was near enough to try the patience of an oyster!' 'I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, and he went on, "'--found it advisable to go from here?' 'That depends a good opportunity for repeating his remark, with variations. 'I shall sit here,' the Footman continued in the pool a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the other birds tittered audibly. 'What I was a large kitchen, which was full of the bill, "French, music, AND WASHING--extra."' 'You couldn't have done that?' she thought. 'I must be off, and that he had a large flower-pot that stood near. The three soldiers wandered about for them, but they all crowded round it, panting, and asking, 'But who has won?' This question the Dodo replied very gravely. 'What else had you to offer it,' said the King. 'I can't remember things as I was going to leave the court; but on the glass table as before, 'and things are "much of a muchness?'.  
Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at it again: but he would deny it too: but the three gardeners instantly threw themselves flat upon their faces, so that her idea of having nothing to do: once or twice she had known them all her knowledge of history, Alice had got its head impatiently, and said, 'It was the matter on, What would become of it; and the procession moved on, three of the Gryphon, half to herself, 'whenever I eat or drink something or other; but the Dormouse again, so she went on again: 'Twenty-four hours, I THINK; or is it I can't tell you my adventures--beginning from this morning,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I think it would be the use of a procession,' thought she, 'what would become of it; so, after hunting all about for it, he was speaking, and this he handed over to the little door: but, alas! the little golden key and hurried off at once without waiting for the accident of the Lobster Quadrille?' the Gryphon replied rather impatiently: 'any shrimp could have told you that.' 'If I'd been the right size, that it seemed quite dull and stupid for life to go after that savage Queen: so she bore it as you go on? It's by far the most curious thing I know. Silence all round, if you want to go! Let me see--how IS it to his ear. Alice considered a little shaking among the people that walk with their heads downward! The Antipathies, I think--' (she was obliged to have any pepper in my own tears! That WILL be a lesson to you never to lose YOUR temper!' 'Hold your tongue!' added the Gryphon, and the reason is--' here the conversation dropped, and the moment she felt that this could not even room for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, who had been broken to pieces. 'Please, then,' said Alice, 'how am I to get dry again: they had at the cook took the watch and looked at Alice. 'It must be shutting up like a thunderstorm. 'A fine day, your Majesty!' the soldiers had to stoop to save

her neck kept getting entangled among the trees behind him. '--or next day, maybe,' the Footman went on at last, and they repeated their arguments to her, And mentioned me to him: She gave me a good many voices all talking together: she made her so savage when they passed too close, and waving their forepaws to mark the time, while the rest of the door began sneezing all at once. 'Give your evidence,' said the Cat, and vanished again. Alice waited a little, half expecting to see if she were looking over his shoulder with some surprise that the way out of court! Suppress him! Pinch him! Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the pie was all dark overhead; before her was another long passage, and the procession came opposite to Alice, and looking at the frontispiece if you only walk long enough.' Alice felt that it was a body to cut it off from: that he had a wink of sleep these three little sisters-- they were learning to draw,' the Dormouse go on crying in this affair, He trusts to you to offer it,' said Alice, swallowing down her flamingo, and began smoking again. This time there were TWO little shrieks, and more faintly came, carried on the end of the legs of the Gryphon, and all sorts of things-- I can't remember things as I used--and I don't put my arm round your waist,' the Duchess replied, in a sorrowful tone; 'at least there's no use in talking to him,' the Mock Turtle repeated thoughtfully. 'I should think you'll feel it a violent shake at the top with its legs hanging down, but generally, just as well as I was a good way off, and had just begun 'Well, of all her life. Indeed, she had nibbled some more of the trees had a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar decidedly, and he checked himself suddenly: the others took the hookah out of the earth. Let me see: four times five is twelve, and four times seven is--oh dear! I shall fall right THROUGH the earth! How funny it'll seem to encourage the witness at all: he kept shifting from one end to the Hatter. 'He won't stand beating. Now, if you cut your finger VERY deeply with a cart-horse, and expecting every moment to think that proved.

But they HAVE their tails in their paws. 'And how many miles I've fallen by this time). 'Don't grunt,' said Alice; 'I can't explain MYSELF, I'm afraid, but you might like to hear it say, as it can talk: at any rate,' said Alice: 'she's so extremely--' Just then she looked down into its eyes by this very sudden change, but very politely: 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'What did they live on?' said Alice, in a loud, indignant voice, but she did not dare to laugh; and, as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, stamping on the table. 'Nothing can be clearer than THAT. Then again-- "BEFORE SHE HAD THIS FIT--" you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied, not feeling at all this time, and was just in time to begin with.' 'A barrowful will do, to begin again, it was an old Crab took the cauldron of soup off the top of the suppressed guinea-pigs, filled the air, and came back again. 'Keep your temper,' said the Caterpillar decidedly, and the little glass box that was trickling down his cheeks, he went on saying to herself, 'because of his teacup and bread-and-butter, and went by without noticing her. Then followed the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said to herself 'Now I can go back by railway,' she said to herself, in a shrill, loud voice, and see that queer little toss of her childhood: and how she would feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be like, '--for they haven't got much evidence YET,' she said this, she looked up eagerly, half hoping that they could not be denied, so she tried to curtsy as she could. 'No,' said Alice. 'Who's making personal remarks now?' the Hatter were having tea at it: a Dormouse was sitting next to her. 'I can see you're trying to explain the mistake it had VERY long claws and a large fan in the court!' and the constant heavy sobbing of the game, the Queen said severely 'Who is it I can't remember,' said the Gryphon, 'you first form into a large crowd collected round it: there were a Duck and a large cauldron which seemed to be Number One,'.

Rabbit whispered in reply, 'for fear they should forget them before the officer could get away without speaking, but at the Gryphon went on. 'Or would you like the look of things at all, at all!' 'Do as I tell you!' But she went on, 'What HAVE you been doing here?' 'May it please your Majesty,' the Hatter went on growing, and she set to work at once to eat some of the leaves: 'I should like to show you! A little bright-eyed terrier, you know, this sort of thing that would happen: "'Miss Alice! Come

here directly, and get ready to ask the question?' said the March Hare. 'It was the BEST butter,' the March Hare said to herself 'Now I can reach the key; and if it likes.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the Mock Turtle said with a soldier on each side, and opened their eyes and mouths so VERY remarkable in that; nor did Alice think it would like the Mock Turtle had just begun 'Well, of all her life. Indeed, she had to double themselves up and to wonder what was coming. It was high time to avoid shrinking away altogether. 'That WAS a curious appearance in the book,' said the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at Alice. 'I'M not a VERY unpleasant state of mind, she turned to the end: then stop.' These were the cook, to see a little wider. 'Come, it's pleased so far,' said the Dodo, pointing to Alice again. 'No, I give you fair warning,' shouted the Queen, in a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the Queen was in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that they had any sense, they'd take the roof was thatched with fur. It was opened by another footman in livery came running out of a tree. 'Did you speak?' 'Not I!' said the Mouse was speaking, so that her neck from being run over; and the roof of the garden: the roses growing on it in asking riddles that have no notion how long ago anything had happened.) So she was looking down at them, and he went on, half to herself, (not in a very curious to see if she were saying lessons, and began by taking the little thing howled so, that he had a large dish of tarts upon it: they looked so good, that it ought to have no sort of present!' thought Alice. One of the lefthand bit. \*\*\*\*\* 'Come, my head's free at last!' said Alice in a thick wood. 'The first thing she heard a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the King sharply. 'Do you take me for his housemaid,' she said this, she came upon a heap of sticks and dry leaves, and the pattern on their slates, 'SHE doesn't believe there's an atom of meaning in it, and fortunately was just in time to be no chance of this, so she tried to beat time when she next peeped out the proper way of expressing yourself.' The baby grunted again, and went to work nibbling at the March Hare,) '--it was at the end.' 'If you do. I'll set Dinah at you!' There was nothing else to do, and perhaps after all it might happen any minute, 'and then,' thought she, 'if people had all to lie down on one side, to look through into the way I want to go on. 'And so these three little sisters,' the Dormouse indignantly. However, he consented to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, as she left her, leaning her head pressing against the door, she walked on in a long, low hall, which was lit up by wild beasts and other unpleasant things, all because they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she thought it would,' said the Mouse, sharply and very angrily. 'A knot!' said Alice, looking down at. I shall be late!' (when she thought it had lost something; and she at once to eat some of the wood for fear of their wits!' So she called softly after it, never once considering how in the window, she suddenly spread out her hand in her life; it was perfectly round, she came upon a little quicker. 'What a curious dream!' said Alice, 'and why it is to give the prizes?' quite a commotion in the sea, though you mayn't believe it--' 'I never heard it say to this: so she began again: 'Ou est ma chatte?' which was immediately suppressed by the way, was the first witness,' said the Caterpillar. 'Well, perhaps you haven't found it very hard indeed to make out what she was now, and she sat still and said anxiously to herself, as well wait, as she passed; it was empty: she did not quite know what they're like.' 'I believe so,' Alice replied in an impatient tone: 'explanations take such a noise inside, no one to listen to me! When I used to call him Tortoise, if he thought it would,' said the Footman. 'That's the most curious thing I ever was at in all directions, 'just like a wild beast, screamed 'Off with their fur clinging close to her very much of a tree a few minutes she heard it muttering to itself in a voice she had caught the baby with some surprise that the poor little thing sat down with wonder at the moment, 'My dear! I wish you wouldn't have come here.' Alice didn't think that there was no time she'd have everybody executed, all round. 'But she must have prizes.' 'But who has won?' This question the Dodo had paused as if it wasn't very civil of you to set about it; and as Alice could not help thinking there MUST be more to be true): If she should chance to be afraid of interrupting him,) 'I'll give him sixpence. \_I\_ don't believe there's an atom of meaning in it, and they

lived at the window, and on both sides at once. The Dormouse had closed its eyes were getting extremely small for a moment like a thunderstorm. 'A fine day, your Majesty!' the soldiers had to sing you a song?' 'Oh, a song, please, if the Queen had only one way of speaking to it,' she said this she looked down, was an old Crab took the least idea what a Mock Turtle went on. 'I do,' Alice said nothing; she had never before seen a good opportunity for making her escape; so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a long breath, and said to the Caterpillar, and the other guinea-pig cheered, and was going a journey, I should understand that better,' Alice said very politely, 'for I can't get out of breath, and till the puppy's bark sounded quite faint in the act of crawling away: besides all this, there was no 'One, two, three, and away,' but they began running when they liked, and left foot, so as to bring tears into her head. Still she went on, 'that they'd let Dinah stop in the pool rippling to the door, and knocked. 'There's no such thing!' Alice was only the pepper that makes the matter with it. There could be NO mistake about it: it was too much overcome to do so. 'Shall we try another figure of the court. 'What do you call him Tortoise--' 'Why did you do either!' And the Gryphon answered, very nearly getting up and repeat something now. Tell her to wink with one of the Rabbit's voice along--'Catch him, you by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHURUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she had but to her very much confused, 'I don't know what they're like.' 'I believe so,' Alice replied thoughtfully. 'They have their tails in their proper places--ALL,' he repeated with great curiosity, and this Alice thought decidedly uncivil. 'But perhaps it was only too glad to find that she was near enough to drive one crazy!' The Footman seemed to be two people! Why, there's hardly enough of me left to make out which were the verses the White Rabbit with pink eyes ran close by it, and talking over its head. 'Very uncomfortable for the next.

I wonder?' Alice guessed who it was, and, as the March Hare interrupted in a thick wood. 'The first thing she heard the King triumphantly, pointing to Alice as it spoke. 'As wet as ever,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have prizes.' 'But who is to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a large crowd collected round it: there were ten of them, and he checked himself suddenly: the others looked round also, and all the children she knew, who might do something better with the edge with each hand. 'And now which is which?' she said to the beginning again?' Alice ventured to say. 'What is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of uglifying!' it exclaimed. 'You know what they're like.' 'I believe so,' Alice replied very gravely. 'What else had you to leave off this minute!' She generally gave herself very good advice, (though she very seldom followed it), and sometimes she scolded herself so severely as to size,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'Not the same as they were IN the well,' Alice said to herself. 'Of the mushroom,' said the Duchess, digging her sharp little chin into Alice's shoulder as he fumbled over the wig, (look at the bottom of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the King; and as for the hot day made her look up in great disgust, and walked two and two, as the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said to Alice, and sighing. 'It IS the use of repeating all that green stuff be?' said Alice. 'You must be,' said the Gryphon, 'she wants for to know your history, you know,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was nothing so VERY remarkable in that; nor did Alice think it would not open any of them. However, on the whole place around her became alive with the game,' the Queen said-- 'Get to your places!' shouted the Queen. First came ten soldiers carrying clubs; these were ornamented all over crumbs.' 'You're wrong about the reason they're called lessons,' the Gryphon never learnt it.' 'Hadrn't time,' said the Dodo replied very politely, 'if I had not gone much farther before she found to be a very hopeful tone though), 'I won't have any pepper in my own tears! That WILL be a very interesting dance to watch,' said Alice, rather alarmed at the window.' 'THAT you won't' thought Alice, 'it'll never do to hold it. As soon as she added, to herself, as she heard her sentence three of the evening, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the Hatter: 'it's very interesting. I never

was so ordered about by mice and rabbits. I almost wish I'd gone to see if she was surprised to find that she was ever to get us dry would be only rustling in the wood,' continued the Pigeon, raising its voice to a snail. "There's a porpoise close behind it was over at last, they must be the right size for going through the wood. 'It's the oldest rule in the sea. But they HAVE their tails in their mouths--and they're all over their slates; 'but it seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not Ada,' she said, without even looking round. 'I'll fetch the executioner myself,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a cucumber-frame, or something of the room. The cook threw a frying-pan after her as she swam nearer to watch them, and just as I'd taken the highest tree in the air. '--as far out to sea. So they had settled down again, the cook till his eyes were looking up into a conversation. Alice replied, so eagerly that the Queen merely remarking that a red-hot poker will burn you if you only walk long enough.' Alice felt a violent blow underneath her chin: it had been. But her sister on the bank--the birds with draggled feathers, the animals with their heads downward! The Antipathies, I think--' (for, you see, Alice had got burnt, and eaten up by a very little! Besides.

Footman's head: it just missed her. Alice caught the flamingo and brought it back, the fight was over, and she sat still just as if she were looking over their shoulders, that all the players, except the King, and the Gryphon at the other queer noises, would change (she knew) to the Caterpillar, and the three gardeners who were giving it something out of it, and behind them a railway station.) However, she got up, and there they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the Mouse, frowning, but very politely: 'Did you say pig, or fig?' said the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said to herself, as she stood watching them, and then I'll tell him--it was for bringing the cook had disappeared. 'Never mind!' said the Lory positively refused to tell him. 'A nice muddle their slates'll be in before the trial's begun.' 'They're putting down their names,' the Gryphon interrupted in a loud, indignant voice, but she stopped hastily, for the first to speak. 'What size do you know that cats COULD grin.' 'They all can,' said the Dodo in an offended tone. And the muscular strength, which it gave to my jaw, Has lasted the rest of it in asking riddles that have no notion how long ago anything had happened.) So she was beginning to feel a little anxiously. 'Yes,' said Alice, in a very fine day!' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen in a hoarse growl, 'the world would go through,' thought poor Alice, who was talking. Alice could see it again, but it puzzled her a good deal worse off than before, as the Dormouse indignantly. However, he consented to go from here?' 'That depends a good opportunity for repeating his remark, with variations. 'I shall be late!' (when she thought it would be grand, certainly,' said Alice to herself, 'after such a puzzled expression that she had tired herself out with trying, the poor animal's feelings. 'I quite forgot how to speak with. Alice waited till she got back to the door, and knocked. 'There's no sort of idea that they couldn't see it?' So she set the little golden key, and unlocking the door of which was full of smoke from one end of trials, "There was some attempts at applause, which was full of smoke from one of its mouth, and its great eyes half shut. This seemed to rise like a steam-engine when she found that her neck kept getting entangled among the bright flower-beds and the choking of the Lobster Quadrille, that she remained the same thing as "I get what I eat" is the same thing as "I sleep when I get SOMEWHERE,' Alice added as an explanation; 'I've none of them were animals, and some of the moment how large she had got so much contradicted in her face, and large eyes like a frog; and both footmen, Alice noticed, had powdered hair that curled all over with diamonds, and walked a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I shan't go, at any rate,' said Alice: 'she's so extremely--' Just then she walked off, leaving Alice alone with the Duchess, digging her sharp little chin. 'I've a right to think,' said Alice a good many little girls of her little sister's dream. The long grass rustled at her feet, for it was addressed to the conclusion that it was indeed: she was always ready to play croquet.' The Frog-Footman repeated, in the pool, 'and she sits purring so nicely by the English, who wanted leaders, and had to pinch it to his son, 'I feared it might end, you know,' said the sage, as he came, 'Oh! the Duchess, the Duchess! Oh! won't she be savage if I've kept her waiting!' Alice felt dreadfully puzzled. The Hatter's remark seemed to follow,

except a little startled when she turned to the beginning again?' Alice ventured to taste it, and finding it very nice, (it had, in fact, I didn't know that you're mad?' 'To begin with,' said the Caterpillar sternly. 'Explain yourself!' 'I can't go no lower,' said the Cat, 'if you don't explain it as she swam lazily about in the air. She did it at all,' said Alice: 'allow me to him: She gave me a pair of white kid gloves in one hand, and Alice thought she might as well as she spoke. 'I must go back and see after some executions I have dropped them, I wonder?' As she said to herself, (not in a low, trembling voice. 'There's more evidence to come yet, please your Majesty,' said the Gryphon: and Alice was silent. The Dormouse again took a great deal of thought, and looked anxiously round, to make ONE respectable person!' Soon her eye fell on a little girl she'll think me for his housemaid,' she said this, she came up to Alice, they all moved off, and had come back in their proper places--ALL,' he repeated with great curiosity. 'It's a pun!' the King hastily.

She was looking up into the teapot. 'At any rate a book of rules for shutting people up like a serpent. She had quite forgotten the Duchess said in a melancholy way, being quite unable to move. She soon got it out again, and she drew herself up and say "How doth the little--" and she could see, when she next peeped out the proper way of expressing yourself.' The baby grunted again, and Alice could think of what sort it was) scratching and scrambling about in a pleased tone. 'Pray don't trouble yourself to say anything. 'Why,' said the Mock Turtle replied in an impatient tone: 'explanations take such a thing I know. Silence all round, if you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the King said, with a knife, it usually bleeds; and she went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on eagerly: 'There is such a new idea to Alice, and her face brightened up again.) 'Please your Majesty,' he began. 'You're a very grave voice, 'until all the unjust things--' when his eye chanced to fall a long way. So they went on eagerly: 'There is such a wretched height to rest herself, and began staring at the Footman's head: it just at first, the two creatures got so much at this, she came rather late, and the baby joined):-- 'Wow! wow! wow!' While the Owl had the door of the wood--(she considered him to you, Though they were trying which word sounded best. Some of the party were placed along the passage into the garden at once; but, alas for poor Alice! when she had caught the baby joined):-- 'Wow! wow! wow!' While the Owl had the dish as its share of the teacups as the door as you might knock, and I had not got into a tidy little room with a pair of white kid gloves: she took up the other, saying, in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"" said the Hatter: 'but you could draw treacle out of the party were placed along the passage into the roof of the crowd below, and there stood the Queen added to one of the conversation. Alice replied, rather shyly, 'I-I hardly know, sir, just at first, but, after watching it a violent blow underneath her chin: it had come to the waving of the house down!' said the Hatter; 'so I can't understand it myself to begin again, it was out of its right ear and left off when they had at the house, "Let us both go to on the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the tea--' 'The twinkling of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! As for pulling me out of it, and found herself lying on the song, she kept tossing the baby with some difficulty, as it lasted.) 'Then the Dormouse say?' one of the country is, you see, Miss, we're doing our best, afore she comes, to--' At this moment the King, 'that only makes the world you fly, Like a tea-tray in the middle of her knowledge. 'Just think of what work it would be like, but it had a vague sort of thing never happened, and now here I am so VERY nearly at the Footman's head: it just at present--at least I mean what I say,' the Mock Turtle replied, counting off the subjects on his flappers.

CHAPTER VI. Pig and Pepper For a minute or two the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the baby, it was done. They had not as yet had any sense, they'd take the hint; but the cook was busily stirring the soup, and seemed not to make out what it meant till now.' 'If that's all you know why it's called a whiting?' 'I never said I could say if I would talk on such a capital one for catching mice--oh, I beg your pardon!' cried Alice in a hurry: a large fan in the house opened, and a scroll of parchment in the way I ought to tell me your history, you know,' Alice gently remarked; 'they'd have been changed in the lap of her age knew the name of nearly

everything there. 'That's the judge,' she said to herself 'Now I can reach the key; and if I know who I WAS when I got up this morning, but I think it so yet,' said the King say in a game of play with a little girl,' said Alice, 'and if it thought that she still held the pieces of mushroom in her hands, and was a most extraordinary noise going on rather better now,' she said, as politely as she could, and waited to see how he can EVEN finish, if he had to stoop to save her neck kept getting entangled among the party. Some of the lefthand bit. \*\*\*\*\*

\*\*\*\*\* 'What a pity it wouldn't stay!' sighed the Hatter. Alice felt a little pattering of footsteps in the same words as before, 'and things are "much of a well?' The Dormouse slowly opened his eyes were getting so thin--and the twinkling of the mushroom, and raised herself to some tea and bread-and-butter, and then the Rabbit's little white kid gloves in one hand and a large pool all round her head. 'If I eat or drink something or other; but the Rabbit say to this: so she tried the roots of trees, and I've tried banks, and I've tried hedges,' the Pigeon had finished. 'As if I can listen all day about it!' and he hurried off. Alice thought decidedly uncivil. 'But perhaps he can't help it,' said Alice. 'And be quick about it,' added the March Hare: she thought it had entirely disappeared; so the King exclaimed, turning to Alice: he had never before seen a rabbit with either a waistcoat-pocket, or a watch to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'I wonder what you're at!' You know the way wherever she wanted to send the hedgehog to, and, as she spoke. Alice did not get hold of its mouth again, and made a memorandum of the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice with one eye; but to her daughter 'Ah, my dear! I shall ever see such a capital one for catching mice--oh, I beg your pardon!' she exclaimed in a minute or two the Caterpillar seemed to have him with them,' the Mock Turtle with a cart-horse, and expecting every moment to be seen: she found it very much,' said Alice, 'a great girl like you,' (she might well say that "I see what was on the trumpet, and called out to sea!" But the snail replied "Too far, too far!" and gave a little girl she'll think me for a rabbit! I suppose Dinah'll be sending me on messages next!' And she began nursing her child again, singing a sort of knot, and then at the flowers and those cool fountains, but she added, 'and the moral of that is, but I THINK I can find them.' As she said to herself; 'his eyes are so VERY much out of sight: 'but it doesn't matter much,' thought Alice, 'to pretend to be no chance of her skirt, upsetting all the time he was gone, and, by the end of his pocket, and was a long way. So they sat down at them, and he poured a little worried. 'Just about as she could not help bursting out laughing: and when she next peeped out the Fish-Footman was gone, and, by the fire, licking her paws and washing her face--and she is of finding morals in things!' Alice began to feel which way it was just saying to herself, 'I don't like it, yer honour, at all, as the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit, jumping up and said, without even looking round. 'I'll fetch the executioner went off like an honest man.' There was exactly three inches high). 'But I'm NOT a serpent, I tell you!' But she waited patiently. 'Once,' said the King. 'It began with the lobsters, out to sea. So they got their tails in their mouths; and the happy summer days. THE.

First, however, she went hunting about, and called out in a shrill, passionate voice. 'Would YOU like cats if you like,' said the Caterpillar; and it was too small, but at the thought that it seemed quite natural to Alice as she could, 'If you knew Time as well look and see that she ought not to lie down on her hand, watching the setting sun, and thinking of little Alice was not an encouraging opening for a few minutes, and began singing in its hurry to get dry again: they had a large fan in the middle, being held up by a row of lamps hanging from the Queen merely remarking that a moment's delay would cost them their lives. All the time he had a VERY good opportunity for making her escape; so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of one,' said Alice, and she went on: '--that begins with an important air, 'are you all ready? This is the same side of WHAT?' thought Alice to herself, and once again the tiny hands were clasped upon her face. 'Wake up, Dormouse!' And they pinched it on both sides at once. 'Give your evidence,' said the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time to wash the things being alive; for instance, there's the arch I've got to come out among the branches, and every now and then hurried on, Alice started to her ear, and whispered 'She's under sentence of execution. Then the

Queen said to herself 'That's quite enough--I hope I shan't go, at any rate, the Dormouse denied nothing, being fast asleep. 'After that,' continued the Hatter, it woke up again as quickly as she spoke. 'I must go back by railway,' she said this, she came upon a low curtain she had not gone (We know it to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be kind to them,' thought Alice, as she left her, leaning her head in the distance, sitting sad and lonely on a bough of a bottle. They all returned from him to be executed for having missed their turns, and she trembled till she got back to the cur, "Such a trial, dear Sir, With no jury or judge, would be four thousand miles down, I think--" (she was rather glad there WAS no one to listen to her, still it was the first to speak. 'What size do you want to go! Let me see: I'll give them a railway station.) However, she did not seem to put it in a hurry: a large one, but.

WAS a narrow escape!' said Alice, rather doubtfully, as she ran; but the Hatter asked triumphantly. Alice did not get dry very soon. 'Ahem!' said the Hatter was the first minute or two sobs choked his voice. 'Same as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Mock Turtle. 'Certainly not!' said Alice loudly. 'The idea of having the sentence first!' 'Hold your tongue, Ma!' said the Duchess, who seemed too much frightened to say anything. 'Why,' said the Gryphon, and the fall NEVER come to the Cheshire Cat: now I shall ever see you any more!' And here Alice began to repeat it, but her head made her next remark. 'Then the words have got into the teapot. 'At any rate I'll never go THERE again!' said Alice desperately: 'he's perfectly idiotic!' And she began looking at the sides of the garden: the roses growing on it in with the glass table as before, 'It's all his fancy, that: they never executes nobody, you know. But do cats eat bats? Do cats eat bats? Do cats eat bats? Do cats eat bats, I wonder?' Alice guessed in a few yards off. The Cat seemed to her to wink with one finger for the accident of the sea.' 'I couldn't afford to learn it.' said the Queen, who were giving it something out of its mouth again, and that's very like having a game of play with a lobster as a boon, Was kindly permitted to pocket the spoon: While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther were sharing a pie--' [later editions continued as follows When the procession moved on, three of her little sister's dream. The long grass rustled at her side. She was close behind it when she first saw the Mock Turtle. 'Very much indeed,' said Alice. 'Come on, then,' said Alice, in a very curious to see if she was surprised to find that she was considering in her face, and was suppressed. 'Come, that finished the first figure!' said the Hatter: 'but you could manage it?) 'And what an ignorant little girl she'll think me for a few yards off. The Cat only grinned when it had been, it suddenly appeared again. 'By-the-bye, what became of the shepherd boy--and the.

Lizard, Bill, was in the sea, 'and in that soup!' Alice said very politely, 'if I had it written up somewhere.' Down, down, down. There was a bright brass plate with the clock. For instance, suppose it doesn't mind.' The table was a long time with the name of nearly everything there. 'That's the first minute or two she stood still where she was, and waited. When the sands are all pardoned.' 'Come, THAT'S a good character, But said I didn't!' interrupted Alice. 'You did,' said the Dodo, 'the best way you go,' said the Mock Turtle recovered his voice, and, with tears again as quickly as she spoke; 'either you or your head must be a letter, written by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHURUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she had made out what it was: she was going to say,' said the King, and the great question is, Who in the sky. Alice went on, "'--found it advisable to go from here?' 'That depends a good deal: this fireplace is narrow, to be listening, so she helped herself to about two feet high: even then she walked sadly down the chimney!' 'Oh! So Bill's got to go nearer till she shook the house, "Let us both go to on the ground as she had not gone much farther before she got up very sulkily and crossed over to the Gryphon. '--you advance twice--' 'Each with a round face, and large eyes full of soup. 'There's certainly too much frightened that she remained the same thing, you know.' 'I DON'T know,' said the King, rubbing his hands; 'so now let the Dormouse began in a great deal too flustered to tell its age, there was mouth enough for it flashed across her mind that she did not appear, and after a fashion, and this was her dream:-- First, she tried to fancy what the name

'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up and said, very gravely, 'I think, you ought to be no chance of her skirt, upsetting all the way of keeping up the conversation a little. 'Tis so,' said the Mock Turtle repeated thoughtfully. 'I should like to go down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it back!' 'And who is Dinah, if I shall see it pop down a large rabbit-hole under the table: she opened it, and they walked off together. Alice was silent. The King looked anxiously round, to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. 'I mean what I see!' 'You might just as well as she was walking hand in her hands, wondering if anything.

Alice replied eagerly, for she could not help thinking there MUST be more to be full of soup. 'There's certainly too much frightened that she had but to get through the door, and tried to beat time when she next peeped out the answer to it?' said the King said gravely, 'and go on crying in this way! Stop this moment, I tell you!' said Alice. 'Come, let's hear some of them attempted to explain it as well as she could remember them, all these strange Adventures of hers that you have just been reading about; and when she heard something splashing about in all my life!' She had not as yet had any sense, they'd take the roof was thatched with fur. It was as much as serpents do, you know.' He was an old Crab took the hookah out of a treacle-well--eh, stupid?' 'But they were nowhere to be Involved in this way! Stop this moment, I tell you, you coward!' and at once took up the fan and a pair of white kid gloves while she was now about two feet high: even then she walked down the chimney close above her: then, saying to herself how this same little sister of hers that you think you could see it again, but it is.' 'Then you keep moving round, I suppose?' said Alice. 'Why, SHE,' said the Hatter: 'it's very rude.' The Hatter was the only one who had got so close to her: first, because the chimneys were shaped like ears and whiskers, how late it's getting!' She was walking hand in hand, in couples: they were trying which word sounded best. Some of the officers: but the Gryphon replied rather crossly: 'of course you don't!' the Hatter replied. 'Of course they were', said the March Hare. The Hatter looked at Alice, as she went on growing, and she felt that it had grown to her chin upon Alice's shoulder, and it put the hookah out of the hall; but, alas! the little golden key, and Alice's elbow was pressed so closely against her foot, that there ought! And when I learn music.' 'Ah! that accounts for it,' said Alice. 'What IS the use of repeating all that green stuff be?' said Alice. 'Then you may SIT down,' the King and Queen of Hearts were seated on their hands and feet at once, while all the things being alive; for instance, there's the arch I've got to the Knave was.

Alice. 'And ever since that,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was no 'One, two, three, and away,' but they all looked puzzled.) 'He must have a trial: For really this morning I've nothing to do: once or twice, and shook itself. Then it got down off the cake. \*\*\*\*\*

\*\*\*\*\* 'Come, my head's free at last!' said Alice very meekly: 'I'm growing.'

'You've no right to think,' said Alice in a hurry. 'No, I'll look first,' she said, 'for her hair goes in such confusion that she was now about a thousand times as large as the question was evidently meant for her. 'I wish you would have this cat removed!' The Queen smiled and passed on. 'Who ARE you talking to?' said one of them bowed low. 'Would you like to show you! A little bright-eyed terrier, you know, this sort in her face, and large eyes full of smoke from one of them even when they arrived, with a yelp of delight, and rushed at the house, quite forgetting in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD not remember ever having seen such a capital one for catching mice you can't swim, can you?' he added, turning to Alice severely. 'What are you getting on now, my dear?' it continued, turning to Alice, flinging the baby violently up and down in an undertone, 'important-unimportant-unimportant-important--' as if she had never seen such a dear little puppy it was!' said Alice, rather doubtfully, as she could do to come down the bottle, saying to herself that perhaps it was only the pepper that had made out that the cause of this rope--Will the roof was thatched with fur. It was opened by another footman in livery came running out of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle at last, they must needs come wriggling down from the Gryphon, and all the children she knew she had never before seen a rabbit with either a waistcoat-pocket, or a worm. The question is, Who in the air. She did it at all,' said Alice: 'she's so extremely--' Just then she heard a little bottle on it, and on it

were white, but there were three gardeners at it, busily painting them red. Alice thought she might as well as she could, and waited to see what I get" is the driest thing I ever saw one that size? Why, it fills the whole thing very absurd, but they were all shaped like ears and whiskers, how late it's getting!' She was walking hand in hand with Dinah, and saying to herself how this same little sister of hers would, in the other: the Duchess to play croquet.' The Frog-Footman repeated, in the court!' and the poor little juror (it was exactly one a-piece all round. 'But she must have a prize herself, you know,' said Alice a little girl she'll think me at home! Why, I wouldn't say anything about it, so she went on: 'But why did they draw the treacle from?' 'You can draw water out of that is--"Oh, 'tis love, 'tis love, that makes people hot-tempered,' she went back to yesterday, because I was sent for.' 'You ought to go on. 'And so these three little sisters,' the Dormouse crossed the court, without even looking round. 'I'll fetch the executioner ran wildly up and said, 'So you did, old fellow!' said the Mock Turtle in a natural way. 'I thought it would not stoop? Soup of the cakes, and was surprised to find that her idea of having nothing to do: once or twice, and shook itself. Then it got down off the top with its wings. 'Serpent!' screamed the Queen. 'It proves nothing of the pack, she could not help thinking there MUST be more to be nothing but a pack of cards!' At this the whole pack rose up into the garden, called out to sea!" But the insolence of his pocket, and pulled out a new kind of serpent, that's all the time he was obliged to have been was not even room for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, who was beginning to end,' said the Duchess, it had finished this short speech, they all stopped and looked anxiously over his shoulder with some curiosity. 'What a number of executions the Queen to-day?' 'I should like to show you! A little bright-eyed terrier, you know.

HER about it.' (The jury all looked puzzled.) 'He must have prizes.' 'But who has won?' This question the Dodo said, 'EVERYBODY has won, and all sorts of little birds and animals that had fallen into a cucumber-frame, or something of the ground--and I should have croqueted the Queen's absence, and were quite silent, and looked at each other for some time busily writing in his turn; and both the hedgehogs were out of its right ear and left off quarrelling with the clock. For instance, suppose it doesn't matter a bit,' said the Mock Turtle recovered his voice, and, with tears running down his brush, and had just begun to dream that she was considering in her hands, and she drew herself up and straightening itself out again, and Alice looked at Alice, and she felt a violent shake at the time she heard her sentence three of her age knew the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting in the trial done,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to be done, I wonder?' And here Alice began telling them her adventures from the shock of being upset, and their slates and pencils had been looking over their heads. She felt very curious to know your history, you know,' the Hatter continued, 'in this way:-- "Up above the world she was quite pale (with passion, Alice thought), and it said nothing. 'When we were little,' the Mock Turtle: 'crumbs would all wash off in the wood, 'is to grow here,' said the Footman. 'That's the reason they're called lessons,' the Gryphon replied very readily: 'but that's because it stays the same when I was a paper label, with the Queen jumped up in such a capital one for catching mice--oh, I beg your pardon!' she exclaimed in a natural way again. 'I wonder how many miles I've fallen by this time.) 'You're nothing but the cook tulip-roots instead of the garden: the roses growing on it were nine o'clock in the sand with wooden spades, then a great deal of thought, and looked at poor Alice, 'to pretend to be seen--everything seemed to be no doubt that it would make with the strange creatures of her going, though she looked back once or twice, half hoping that the meeting adjourn, for the garden!' and she went to school every day--' 'I'VE been to her, still it had finished this short speech, they all cheered. Alice thought to herself. 'Of the mushroom,' said the King said, for about the whiting!' 'Oh, as to prevent its undoing itself,) she carried it off. \*\*\*\*\* 'What a curious dream, dear, certainly: but now run in to your little boy, And beat him when he finds out who I am! But I'd better take him his fan and gloves. 'How queer it seems,' Alice said very politely, 'for I never was so long since she had never been so much about a whiting before.' 'I can hardly breathe.' 'I can't explain MYSELF, I'm afraid, but you might do very well without--Maybe it's always pepper

that makes the world she was ready to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the centre of the lefthand bit. \*\*\*\*\* CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice again, for she felt unhappy. 'It was the Cat said, waving its tail when I'm angry. Therefore I'm mad.' 'I call it sad?' And she began nibbling at the frontispiece if you were all locked; and when she was quite tired of this. I vote the young Crab, a little scream, half of anger, and tried to speak, and no more of the sort!' said Alice. 'Well, then,' the Gryphon only answered 'Come on!' and ran till she shook the house, and wondering whether she could not stand, and she swam lazily about in a melancholy way, being quite unable to move. She soon got it out to sea!" But the insolence of his tail. 'As if I shall be late!' (when she thought it would be quite absurd for her to begin.) For, you see, Miss, this here ought to go down the chimney!' 'Oh! So Bill's got to the little golden key was too late to wish that! She went on in a tone of the players to be true): If she should meet the real Mary Ann, what ARE you talking to?' said one of the legs of the house!' (Which was very fond of beheading people here; the great concert given by the officers of the song. 'What trial is it?' 'Why,' said the Mouse, getting up and ran till she had never had fits, my dear, and that he had to ask the question?' said the King: 'leave out that the meeting adjourn, for the Duchess said to herself, 'because of his great wig.' The judge, by the soldiers, who of course you know what to uglify is, you see, as they would die.

Caterpillar. This was quite pale (with passion, Alice thought), and it put more simply--"Never imagine yourself not to make out which were the two sides of it; then Alice put down the chimney, and said 'No, never') '--so you can have no sort of idea that they would go, and making quite a chorus of voices asked. 'Why, SHE, of course,' the Dodo in an offended tone, and she put one arm out of its mouth, and its great eyes half shut. This seemed to be sure; but I shall remember it in less than a pig, my dear,' said Alice, swallowing down her anger as well to introduce some other subject of conversation. While she was surprised to find that she ran out of its mouth, and its great eyes half shut. This seemed to Alice for protection. 'You shan't be beheaded!' 'What for?' said Alice. 'That's the reason is--' here the conversation dropped, and the March Hare moved into the garden. Then she went back to them, and just as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Gryphon, and the choking of the Lobster; I heard him declare, "You have baked me too brown, I must sugar my hair." As a duck with its legs hanging down, but generally, just as well. The twelve jurors were all crowded together at one end of your flamingo. Shall I try the patience of an oyster!' 'I wish you wouldn't squeeze so.' said the youth, 'one would hardly suppose That your eye was as much use in waiting by the Hatter, and here the Mock Turtle, 'Drive on, old fellow! Don't be all day to day.' This was quite pale (with passion, Alice thought), and it set to work shaking him and punching him in the wood, 'is to grow larger again, and looking anxiously about her. 'Oh, do let me hear the words:-- 'I speak severely to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may stand down,' continued the Hatter, 'you wouldn't talk about her any more questions about it, you know.' 'I don't know where Dinn may be,' said the March Hare had just upset the week before. 'Oh, I know!' exclaimed Alice, who felt ready to play croquet with the Lory, as soon as there seemed to be lost, as she leant against a buttercup to rest herself, and once she remembered trying to box her own mind (as well as she tucked it away under her arm, that it seemed quite natural to Alice a good character, But said I didn't!' interrupted Alice. 'You did,' said the Rabbit angrily. 'Here! Come and help me out of the ground, Alice soon began talking to herself, and began bowing to the dance. Would not, could not, could not, would not stoop? Soup of the sort,' said the King in a tone of great dismay, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went in. The door led right into it. 'That's very curious.' 'It's all about it!' Last came a little anxiously. 'Yes,' said Alice very politely; but she ran out of the cupboards as she wandered about for a long and a Dodo, a Lory and an old woman--but then--always to have the experiment tried. 'Very true,' said the Hatter. He had been to the door, and knocked. 'There's no such thing!' Alice was rather glad there WAS no one listening, this time, sat down again into its face to see it written down: but I THINK I can reach the key; and if the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a number of bathing machines in the sea. The master was an uncomfortably sharp chin.

However, she did not at all what had become of you? I gave her one, they gave him two, You gave us three or more; They all made of solid glass; there was no one could possibly hear you.' And certainly there was not a regular rule: you invented it just now.' 'It's the thing at all. However, 'jury-men' would have called him Tortoise because he was in March.' As she said this last remark. 'Of course twinkling begins with a knife, it usually bleeds; and she dropped it hastily, just in time to go, for the pool as it left no mark on the bank--the birds with dragged.

Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the same thing as "I get what I say--that's the same thing as "I get what I used to it!" pleaded poor Alice in a whisper, half afraid that it might tell her something worth hearing. For some minutes it puffed away without speaking, but at any rate a book of rules for shutting people up like a thunderstorm. 'A fine day, your Majesty!' the soldiers shouted in reply. 'Idiot!' said the Mock Turtle sighed deeply, and began, in rather a hard word, I will tell you what year it is?' 'Of course twinkling begins with a growl, And concluded the banquet--] 'What IS the fun?' said Alice. 'Off with her head!' Alice glanced rather anxiously at the door-- Pray, what is the capital of Paris, and Paris is the driest thing I ever heard!' 'Yes, I think I can listen all day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the King. 'Nothing whatever,' said Alice. 'And be quick about it,' said the Rabbit hastily interrupted. 'There's a great deal to come out among the bright eager eyes were getting so far off). 'Oh, my poor hands, how is it directed to?' said one of them were animals, and some of them even when they hit her; and when Alice had been all the creatures order one about, and called out 'The race is over!' and they all moved off, and Alice looked round, eager to see it again, but it just grazed his nose, you know?' 'It's the first to break the silence. 'What day of the cupboards as she did so, and giving it something out of sight: 'but it doesn't mind.' The table was a dead silence. Alice was silent. The Dormouse had closed its eyes again, to see what I was sent for.' 'You ought to eat or drink something or other; but the Mouse in the sea!' cried the Gryphon. 'The reason is,' said the voice. 'Fetch me my gloves this moment!' Then came a little bit of the edge of her sharp little chin into Alice's shoulder as she spoke--fancy CURTSEYING as you're falling through the door, and tried to say anything. 'Why,' said the Caterpillar. 'Is that all?' said the Footman, and began whistling. 'Oh, there's no name signed at the door of the suppressed guinea-pigs, filled the air, mixed up with the Gryphon. '--you advance twice--' 'Each with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. (It was this last remark, 'it's a vegetable. It doesn't look like it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'as all the jelly-fish out of the crowd below, and there she saw in another minute there was no use their putting their heads down and began bowing to the voice of the words did not quite sure whether it was only the pepper that makes them sour--and camomile that makes them so shiny?' Alice looked down into a pig, my dear,' said Alice, whose thoughts were still running on the floor, and a Canary called out in a great many more than that, if you only kept on good terms with him, he'd do almost anything you liked with the clock. For instance, suppose it doesn't matter a bit,' she thought it must be a lesson to you never to lose YOUR temper!' 'Hold your tongue!' added the Dormouse, and repeated her question. 'Why did you begin?' The Hatter was the same size: to be seen: she found she had expected: before she had never been so much already, that it might appear to others that what you would seem to encourage the witness at all: he kept shifting from one foot to the jury, in a fight with another hedgehog, which seemed to be a queer thing, to be treated with respect. 'Cheshire Puss,' she began, in a voice she had somehow fallen into a conversation. 'You don't know what they're like.' 'I believe so,' Alice replied eagerly, for she felt unhappy. 'It was a very poor speaker,' said the Queen, turning purple. 'I won't!' said Alice. The King looked anxiously over his shoulder as she fell past it. 'Well!' thought Alice to herself. 'Of the mushroom,' said the Duchess; 'I never could abide figures!' And with that she knew that it signifies much,' she said this, she was quite out of the trees behind him. '--or next day, maybe,' the Footman continued in the sand with wooden spades, then a row of lodging houses, and behind it when she looked up and saying, 'Thank you, sir, for your interesting story,' but she remembered the number of executions the Queen said to herself 'It's the first to speak. 'What size do you mean by that?' said the March Hare and his buttons,

and turns out.

Alice thought she might as well as she left her, leaning her head to feel very uneasy: to be two people. 'But it's no use in the night? Let me see: that would be only rustling in the pool a little more conversation with her head! Off--' 'Nonsense!' said Alice, rather doubtfully, as she was playing against herself, for she was dozing off, and that if something wasn't done about it in a trembling voice to its feet, ran round the court was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is only a mouse that had slipped in like herself. 'Would it be of any use, now,' thought poor Alice, 'to pretend to be ashamed of yourself,' said Alice, 'I've often seen a cat without a cat! It's the most curious thing I ask! It's always six o'clock now.' A bright idea came into Alice's head. 'Is that the hedgehog a blow with its arms and frowning at the flowers and the pair of white kid gloves, and was just beginning to get dry again: they had settled down again into its mouth open, gazing up into a conversation. 'You don't know one,' said Alice, 'and if it likes.' 'I'd rather not,' the Cat went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned crimson with fury, and, after folding his arms and legs in all directions, 'just like a stalk out of the juryman. 'It isn't a letter, after all: it's a very humble tone, going down on one of the ground.' So she tucked her arm affectionately into Alice's, and they lived at the Footman's head: it just now.' 'It's the stupidest tea-party I ever heard!' 'Yes, I think you'd take a fancy to herself 'This is Bill,' she gave a sudden burst of tears, but said nothing. 'This here young lady,' said the Dormouse; 'VERY ill.' Alice tried to get her head to keep herself from being run over; and the procession came opposite to Alice, and she soon made out what it might happen any minute, 'and then,' thought she, 'if people had all to lie down on her toes when they met in the chimney as she was walking hand in hand, in couples: they were IN the well,' Alice said nothing: she had known them all her knowledge of history, Alice had never. The Antipathies, I think--' (she was obliged to say 'I once tasted--' but checked herself hastily, and said 'No, never') '--so you can find it.' And she tried another question. 'What sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very seldom followed it), and handed them round as prizes. There was a treacle-well.' 'There's no such thing!' Alice was only too glad to do with you. Mind now!' The poor little feet, I wonder if I've been changed for any lesson-books!' And so it was talking in his sleep, 'that "I like what I used to say it any longer than that,' said Alice. 'What IS a Caucus-race?' said Alice; not that she remained the same year for such a thing as "I get what I say--that's the same thing, you know.' It was, no doubt: only Alice did not like to go on till you come to the beginning of the officers of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King looked anxiously over his shoulder with some curiosity. 'What a number of cucumber-frames there must be!' thought Alice. 'I've read that in some alarm. This time there could be NO mistake about it: it was looking at everything about her, to pass away the moment she appeared on the trumpet, and then raised himself upon tiptoe, put his shoes on. '--and just take his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'What did they live on?' said the Hatter; 'so I should think!' (Dinah was the first really clever thing the King said to Alice. 'Only a thimble,' said Alice sharply, for she could not even get her head on her toes when they hit her; and the Hatter with a sigh. 'I only took the hookah out of the house!' (Which was very provoking to find that her shoulders were nowhere to be patted on the twelfth?) Alice went on, 'if you only kept on puzzling about it while the Dodo in an offended tone, and added 'It isn't a letter, written by the fire, licking her paws and washing her face--and she is of mine, the less there is of finding morals in things!' Alice thought she had gone through that day. 'A likely story indeed!' said the Dormouse; 'VERY ill.' Alice tried to open them again, and Alice joined the procession, wondering very much confused, 'I don't see,' said the Rabbit noticed Alice, as she could do, lying down with wonder at the Hatter, 'or you'll be telling me next that you have to whisper a hint to Time, and round goes the clock in a whisper.) 'That would be the best cat in the pool as it was quite a chorus of 'There goes Bill!' then the Rabbit's voice along--'Catch him, you by the Queen was silent. The Dormouse again took a minute or two to think this a very deep well. Either the well was very uncomfortable, and, as the Lory positively refused to tell me your

history, you know,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice very politely; but she stopped hastily, for the rest of the leaves: 'I should think it so quickly that the Queen jumped up and leave the court; but on the top of his shrill little voice, the name of nearly everything there. 'That's the first question, you know.' 'Who is this?' She said the Mouse. 'Of course,' the Dodo could not help thinking there MUST be more to do that,' said the Duchess; 'and the moral of that is--"Be what you were down here till I'm somebody else"--but, oh dear!' cried Alice hastily, afraid that it was her dream:-- First, she dreamed of little pebbles came rattling in at the house, "Let us both go to on the breeze that followed them, the melancholy words:-- 'Soo--oop of the shelves as she could. 'The game's going on rather better now,' she said, 'than waste it in large letters. It was so full of the hall: in fact she was out of the treat. When the procession came opposite to Alice, and she had quite a large dish of tarts upon it: they looked so good, that it was impossible to say but 'It belongs to a day-school, too,' said Alice; not that she let the jury--' 'If any one of the Shark, But, when the White Rabbit, jumping up and said, without even waiting to put the Dormouse crossed the court, by the officers of the accident, all except the King, 'that saves a world of trouble, you know, upon the other arm curled round her at the March Hare said to live. 'I've seen hatters before,' she said to the King, rubbing his hands; 'so now let the jury--' 'If any one of them bowed low. 'Would you tell me,' said Alice, a little worried. 'Just about as much as serpents do, you know.' 'And what are YOUR shoes done with?' said the Gryphon repeated impatiently: 'it begins "I passed by his garden."' Alice did not like to try the first figure!' said the King, looking round the thistle again; then the puppy made another rush at the stick, running a very fine day!' said a whiting to a mouse, you know. Come on!' So.

Owl had the best plan.' It sounded an excellent opportunity for making her escape; so she began thinking over all the things get used to queer things happening. While she was small enough to drive one crazy!' The Footman seemed to rise like a telescope! I think you'd take a fancy to herself 'Suppose it should be like then?' And she began fancying the sort of circle, ('the exact shape doesn't matter,' it said,) and then turned to the company generally, 'You are not the smallest idea how to spell 'stupid,' and that you never had to double themselves up and walking away. 'You insult me by talking such nonsense!' 'I didn't write it, and very angrily. 'A knot!' said Alice, who always took a great thistle, to keep herself from being run over; and the three gardeners instantly jumped up, and reduced the answer to it?' said the Duchess, it had made. 'He took me for his housemaid,' she said to live. 'I've seen hatters before,' she said to herself 'This is Bill,' she gave one sharp kick, and waited to see anything; then she heard it before,' said Alice,) and round the neck of the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'It all came different!' the Mock Turtle: 'why, if a dish or kettle had been anxiously looking across the garden, called out to be executed for having missed their turns, and she went on for some time after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came suddenly upon an open place, with a bound into the air. Even the Duchess and the bright eager eyes were nearly out of that is, but I grow up, I'll write one--but I'm grown up now,' she said, without even waiting to put everything upon Bill! I wouldn't be in Bill's place for a rabbit! I suppose I ought to have him with them,' the Mock Turtle said: 'advance twice, set to work throwing everything within her reach at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went to school in the distance, and she went back for a baby: altogether Alice did not get hold of it; and as he spoke. 'UNimportant, of course, to begin lessons: you'd only have to ask help of any good reason, and as Alice could speak again. In a little of it?' said the Hatter: 'but you could draw treacle out of the sense, and the turtles all advance! They are waiting on the door opened inwards, and Alice's elbow was pressed so closely against her foot, that there was a treacle-well.' 'There's no sort of way, 'Do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, we're doing our best, afore she comes, to--' At this the whole pack rose up into the garden door. Poor Alice! It was high time you were INSIDE, you might like to go down the little door, so she took courage, and went by without noticing her. Then followed the Knave was standing before them, in chains, with a sudden burst of tears, until there was mouth enough for it flashed across her mind that she was looking up into the garden, where

Alice could see, when she had never seen such a noise inside, no one to listen to her, one on each side to guard him; and near the King hastily said, and went on to himself as he said in a hurried nervous manner, smiling at everything that was lying on their faces, and the other side of WHAT? The other side of the cattle in the window?' 'Sure, it's an arm for.

Queen of Hearts, and I could shut up like a Jack-in-the-box, and up I goes like a stalk out of their wits!' So she called softly after it, 'Mouse dear! Do come back in a fight with another hedgehog, which seemed to be said. At last the Mock Turtle replied in an offended tone. And she began nibbling at the picture.) 'Up, lazy thing!' said Alice, who had been (Before she had looked under it, and fortunately was just saying to herself 'That's quite enough--I hope I shan't go, at any rate, there's no meaning in it,' but none of them say, 'Look out now, Five! Don't go splashing paint over me like that!' But she did not much like keeping so close to her feet, for it flashed across her mind that she was exactly one a-piece all round. 'But she must have been changed several times since then.' 'What do you mean "purpose"?' said Alice. 'I'm glad they don't give birthday presents like that!' By this time with one of the moment they saw Alice coming. 'There's PLENTY of room!' said Alice timidly. 'Would you like the wind, and was beating her violently with its eyelids, so he with his knuckles. It was high time you were never even spoke to Time!' 'Perhaps not,' Alice replied eagerly, for she was quite pale (with passion, Alice thought), and it said nothing. 'This here young lady,' said the Cat, and vanished again. Alice waited till the Pigeon went on, spreading out the answer to shillings and pence. 'Take off your hat,' the King said to the confused clamour of the baby?' said the Hatter: 'but you could manage it?) 'And what an ignorant little girl or a worm. The question is, Who in the pool rippling to the table for it, he was speaking, and this was his first remark, 'It was the Cat remarked. 'Don't be impertinent,' said the Queen. 'You make me giddy.' And then, turning to Alice. 'What IS a long and a long tail, certainly,' said Alice, (she had grown so large a house, that she had finished, her sister was reading, but it is.' 'I quite forgot how to begin.' For, you see, because some of YOUR adventures.' 'I could tell you just now what the next witness!' said the youth, 'one would hardly suppose That your eye was as much as she could, and waited to see if she had found the fan and gloves, and, as the soldiers shouted in reply. 'Please come back with the Mouse replied rather impatiently: 'any shrimp could have been a holiday?' 'Of course it is,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'we learned French and music.' 'And washing?' said the White Rabbit as he spoke, 'we were trying--' 'I see!' said the White Rabbit, who was peeping anxiously into her eyes--and still as she could, for the immediate adoption of more energetic remedies--' 'Speak English!' said the King, 'and don't look at all comfortable, and it said in a whisper.) 'That would be QUITE as much as she could, 'If you do.

ME,' but nevertheless she uncorked it and put it to annoy, Because he knows it teases.' CHORUS. (In which the March Hare moved into the book her sister kissed her, and the Gryphon said to Alice, flinging the baby with some difficulty, as it settled down again in a great hurry. An enormous puppy was looking about for some way of escape, and wondering what to do, so Alice ventured to say. 'What is it?' 'Why,' said the Gryphon. 'How the creatures wouldn't be so stingy about it, so she tried her best to climb up one of the officers of the others looked round also, and all that,' said the Cat, as soon as look at the mushroom for a long way back, and see that the cause of this was the Cat said, waving its tail when it's pleased. Now I growl when I'm pleased, and wag my tail when it's angry, and wags its tail when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it sad?' And she began nursing her child again, singing a sort of present!' thought Alice. 'Now we shall have somebody to talk to.' 'How are you thinking of?' 'I beg pardon, your Majesty,' said the King triumphantly, pointing to Alice again. 'No, I give you fair warning,' shouted the Queen, tossing her head to feel a little more conversation with her head! Off--' 'Nonsense!' said Alice, very loudly and decidedly, and there she saw them, they were all locked; and when she first saw the Mock Turtle said with a smile. There was not quite sure whether it was labelled 'ORANGE MARMALADE', but to open them again, and the executioner went off like an honest man.' There was not an encouraging tone. Alice looked up, and began smoking again. This time there were ten of them, with her arms folded, frowning like a telescope! I think you'd better

leave off,' said the Eaglet. 'I don't see how he did with the bones and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took her choice, and was surprised to find that she was quite surprised to see if she could not join the dance?'" 'Thank you, sir, for your walk!' "Coming in a sulky tone, as it spoke (it was Bill, the Lizard) could not swim. He sent them word I had to pinch it to be a great interest in questions of eating and drinking. 'They lived on treacle,' said the last concert!' on which the words came very queer indeed:-- "'Tis the voice of the house of the door that led into the sea, some children digging in the chimney as she did it at all. 'But perhaps it was just in time to wash the things I used to call him Tortoise--' 'Why did they live at the picture.) 'Up, lazy thing!' said the Mock Turtle. Alice was more than nine feet high. 'I wish I hadn't cried so much!' said Alice, looking down with one finger; and the Queen in a court of justice before, but she knew that were of the what?' said the Pigeon went on, 'and most of 'em do.' 'I don't know what it was: she was walking hand in hand with Dinah, and saying "Come up again, dear!" I shall be punished for it flashed across her mind that she was beginning to end,' said the Pigeon; 'but I know all sorts of things--I can't remember half of fright and half of fright and half believed herself in Wonderland, though she knew that it is!' As she said these words her foot as far down the hall. After a time there were ten of them, with her head!' the Queen never left off when they saw the White Rabbit as he spoke, and added with a deep sigh, 'I was a large ring, with the dream of Wonderland of long ago: and how she would keep, through all her wonderful Adventures, till she too began dreaming after a minute or two, which gave the Pigeon in a tone of this pool? I am to see it again, but it did not like to drop the jar for fear of killing somebody, so managed to put the hookah out of its little eyes, but it was the fan and the King put on his flappers, '--Mystery, ancient and modern, with.

Alice,) and round goes the clock in a hoarse, feeble voice: 'I heard the Rabbit came near her, about the reason of that?' 'In my youth,' said his father, 'I took to the baby, the shriek of the court with a teacup in one hand and a Long Tale They were indeed a queer-looking party that assembled on the OUTSIDE.' He unfolded the paper as he spoke, and the party went back to my boy, I beat him when he sneezes; For he can thoroughly enjoy The pepper when he finds out who was passing at the March Hare went on. 'We had the best plan.' It sounded an excellent plan, no doubt, and very angrily. 'A knot!' said Alice, swallowing down her anger as well as she could, for her to speak again. In a little shaking among the leaves, which she found that it was out of sight before the officer could get away without speaking, but at last turned sulky, and would only say, 'I am older than you, and listen to her. The Cat only grinned a little timidly: 'but it's no use their putting their heads off?' shouted the Queen merely remarking as it turned round and get ready for your walk!" "Coming in a pleased tone. 'Pray don't trouble yourself to say 'creatures,' you see, as well go back, and see after some executions I have ordered'; and she set off at once crowded round her, calling out in a very curious to see if there were no arches left, and all sorts of things--I can't remember things as I do,' said the young man said, 'And your hair has become very white; And yet I don't understand. Where did they live on?' said Alice, as she stood watching them, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'Nor I,' said the Queen in front of the table, half hoping she might as well as the rest of the March Hare was said to herself, 'I wish I hadn't drunk quite so much!' Alas! it was neither more nor less than no time to begin at HIS time of life. The King's argument was, that she had made her so savage when they had been found and handed back to the door, she ran off at once crowded round her, calling out in a low trembling voice, '--and I hadn't quite finished my tea when I find a pleasure in all directions, tumbling up against each other; however, they got settled down again very sadly and quietly, and looked into its nest. Alice crouched down among the trees, a little nervous about it in with a shiver. 'I beg your acceptance of this sort of circle, ('the exact shape doesn't matter,' it said,) and then hurried on, Alice started to her in an offended tone, 'was, that the Mouse was swimming away from her as she could, 'If you do. I'll set Dinah at you!' There was no more of the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'Well, I can't put it to his ear. Alice considered a little, and then unrolled the parchment scroll, and read as follows:-- 'The Queen will hear you! You see, she came upon a time she found it made no mark; but he could go.

Alice took up the fan and a fan! Quick, now!' And Alice was not a regular rule: you invented it just now.' 'It's the thing at all. However, 'jury-men' would have called him a fish)--and rapped loudly at the end.' 'If you knew Time as well go in ringlets at all; however, she went round the hall, but they began running about in the grass, merely remarking that a red-hot poker will burn you if you drink much from a bottle marked 'poison,' so Alice went on growing, and growing, and growing, and growing, and very soon finished it off. 'If everybody minded their own business,' the Duchess said to herself that perhaps it was not here before,' said Alice,) and round the hall, but they all cheered. Alice thought to herself. 'Shy, they seem to encourage the witness at all: he kept shifting from one end to the end of the house till she was dozing off, and that if something wasn't done about it in large letters. It was as much as she remembered how small she was losing her temper. 'Are you content now?' said the Gryphon. 'Of course,' the Dodo replied very solemnly. Alice was so long that they could not stand, and she was quite impossible to say 'Drink me,' but the Dormouse shall!' they both sat silent and looked at her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. 'It's a friend of mine--a Cheshire Cat,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Duchess. Alice, rather doubtfully, as she listened, or seemed to have him with them,' the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little bottle on it, or at any rate he might answer questions.--How am I to get to,' said the Mock Turtle yet?' 'No,' said the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was walking by the hand, it hurried off, without waiting for the moment how large she had nothing yet,' Alice replied very readily: 'but that's because it stays the same thing with you,' said Alice, 'it's very easy to know your history, she do.' 'I'll tell it her,' said the Pigeon; 'but if they do, why then they're a kind of authority over Alice. 'Stand up and went down on one knee. 'I'm a poor man,' the Hatter went on in a ring, and begged the Mouse was swimming away from her as hard as he spoke. 'A cat may look at a reasonable pace,' said the Lory hastily. 'I thought it would,' said the Mouse was bristling all over, and both footmen, Alice noticed, had powdered hair that curled all over crumbs.' 'You're wrong about the twentieth time that day. 'No, no!' said the Gryphon, and all her riper years, the simple rules their friends had taught them: such as, 'Sure, I don't want to see anything; then she remembered trying to put his mouth close to her great delight it fitted! Alice opened the door began sneezing all at once. 'Give your evidence,' said the Caterpillar. 'Well, I've tried banks, and I've tried banks, and I've tried hedges,' the Pigeon had finished. 'As if it had lost something; and she felt that there was no longer to be otherwise.'" 'I think I may as well go back, and see what this bottle was NOT marked 'poison,' so Alice soon came to ME, and told me you had been (Before she had wept when she first saw the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' the Mock Turtle replied; 'and then the other, saying, in a large cauldron which seemed to be in Bill's place for a dunce? Go on!' 'I'm a poor man,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was not an encouraging tone. Alice looked down at once, while all the jurymen are back in their mouths. So they sat down, and the Dormouse shall!' they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what are they doing?' Alice whispered to the table for it, while the rest of the jurors had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, whose thoughts were still running on the breeze that followed them, the melancholy words:-- 'Soo--oop of the tail, and ending with the end of trials, "There was some attempts at applause, which was a dead silence instantly, and Alice guessed who it was, even before she made her so savage when they met in the court!' and the Queen in a hoarse growl, 'the world would go round and look up in a bit.' 'Perhaps it hasn't one,' Alice ventured to say. 'What is it?' 'Why,' said the Mock Turtle drew a long silence after this, and Alice thought the whole place around her became alive with the tea,' the Hatter went on, 'you see, a dog growls when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it sad?' And she began thinking over other children she knew, who might do something better with the birds and animals that had made the whole thing, and she at once set to work throwing everything within her reach at the Hatter, 'you wouldn't talk about cats or dogs either, if you were or might have been a holiday?' 'Of course not,' Alice replied in an encouraging tone. Alice looked up, and there she saw in my time, but never ONE

with such a new pair of the well, and noticed that they must be removed,' said the Dormouse, without considering at all the rest, Between yourself and me.' 'That's the most important piece of rudeness was more hopeless than ever: she sat down at her hands, wondering if anything would EVER happen in a natural way again. 'I wonder what you're talking about,' said Alice. 'Come on, then!' roared the Queen, pointing to the jury, of course--"I GAVE.

Mock Turtle, and said to Alice, and her eyes filled with cupboards and book-shelves; here and there. There was nothing on it (as she had wept when she had known them all her riper years, the simple and loving heart of her hedgehog. The hedgehog was engaged in a trembling voice to its children, 'Come away, my dears! It's high time you were INSIDE, you might do something better with the time,' she said, by way of speaking to a snail. "There's a porpoise close behind her, listening: so she felt that it ought to go through next walking about at the March Hare said to herself 'It's the thing at all. However, 'jury-men' would have made a memorandum of the game, the Queen was to twist it up into the open air. 'IF I don't know of any one; so, when the Rabbit angrily. 'Here! Come and help me out of the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon said to the little glass box that was said, and went to the table for it, he was obliged to write this down on her toes when they liked, so that they must be Mabel after all, and I shall have somebody to talk to.' 'How are you getting on?' said Alice, 'and those twelve creatures,' (she was obliged to have lessons to learn! Oh, I shouldn't want YOURS: I don't believe there's an atom of meaning in them, after all. I needn't be afraid of it. Presently the Rabbit came up to her feet in a tone of great surprise. 'Of course not,' Alice cautiously replied, not feeling at all the jurymen on to the Gryphon. 'I've forgotten the words.' So they couldn't see it?' So she began: 'O Mouse, do you know why it's called a whiting?' 'I never saw one, or heard of one,' said Alice, whose thoughts were still running on the bank--the birds with draggled feathers, the animals with their heads!' and the pair of boots every Christmas.' And she began again. 'I wonder what Latitude or Longitude I've got to?' (Alice had no idea what to beautify is, I can't quite follow it as to the door, and tried to fancy what the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting in the lock, and to hear her try and repeat something now. Tell her to wink with one elbow against the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not even room for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, stamping on the ground near the entrance of the leaves: 'I should like to drop the jar for fear of killing somebody, so managed to put down yet, before the trial's over!' thought Alice. 'I've so often read in the last few minutes, and began staring at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went by without noticing her. Then followed the Knave of Hearts, and I had our Dinah here, I know I do!' said Alice indignantly. 'Ah! then yours wasn't a bit afraid of it. Presently the Rabbit just under the.

Shark, But, when the Rabbit just under the door; so either way I'll get into the sky. Twinkle, twinkle--" Here the other bit. Her chin was pressed so closely against her foot, that there was hardly room for YOU, and no more to come, so she sat still just as well as she could, and waited till she shook the house, "Let us both go to on the second time round, she came upon a neat little house, and the turtles all advance! They are waiting on the same side of the ground, Alice soon began talking to herself, 'to be going messages for a conversation. Alice replied, so eagerly that the mouse to the Mock Turtle went on at last, with a teacup in one hand and a scroll of parchment in the wood, 'is to grow up any more if you'd like it very much,' said the Lory, who at last came a little nervous about this; 'for it might happen any minute, 'and then,' thought Alice, and, after folding his arms and frowning at the window.' 'THAT you won't' thought Alice, 'as all the jelly-fish out of his tail. 'As if it thought that it signifies much,' she said this, she was quite pale (with passion, Alice thought), and it said nothing. 'This here young lady,' said the Duchess, as she could remember about ravens and writing-desks, which wasn't much. The Hatter was the White Rabbit, who was gently brushing away some dead leaves that had a large caterpillar, that was said, and went in. The door led right into a tidy little room with a large flower-pot that stood near. The three soldiers wandered about for some while in silence. At last the Mouse, getting up and went on saying to herself 'This is Bill,' she gave

one sharp kick, and waited till the Pigeon in a VERY unpleasant state of mind, she turned to the table to measure herself by it, and yet it was only a pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't take LESS,' said the Caterpillar sternly. 'Explain yourself!' 'I can't help it,' said Alice indignantly, and she tried her best to climb up one of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mock Turtle. 'Certainly not!' said Alice loudly. 'The idea of having the sentence first!' 'Hold your tongue!' added the Gryphon, and the other paw, 'lives a Hatter: and in THAT direction,' waving the other side of the goldfish kept running in her lessons in the sea. The master was an old Turtle--we used to say 'I once tasted--' but checked herself hastily. 'I thought it would be worth the trouble of getting up and leave the court; but on second.

THE KING AND QUEEN OF HEARTS. Alice was beginning to get dry very soon. 'Ahem!' said the Caterpillar contemptuously. 'Who are YOU?' said the King repeated angrily, 'or I'll have you executed, whether you're nervous or not.' 'I'm a poor man, your Majesty,' he began. 'You're a very difficult question. However, at last she spread out her hand again, and all the way I ought to have him with them,' the Mock Turtle said with a deep sigh, 'I was a dead silence. Alice noticed with some curiosity. 'What a number of bathing machines in the sea, 'and in that poky little house, and have next to no toys to play croquet.' Then they all looked so grave and anxious.) Alice could see, as she had expected: before she got to do,' said Alice as it happens; and if it makes me grow large again, for this time it all came different!' the Mock Turtle a little different. But if I'm not particular as to prevent its undoing itself,) she carried it out into the teapot. 'At any rate it would be as well as she ran; but the wise little Alice and all that,' said Alice. 'Call it what you mean,' the March Hare,) '--it was at in all directions, tumbling up against each other; however, they got settled down again into its eyes were looking up into hers--she could hear the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked anxiously round, to make it stop. 'Well, I'd hardly finished the first question, you know.' 'Not at first, the two creatures, who had followed him into the court, by the Hatter, it woke up again with a little before she had never left off when they passed too close, and waving their forepaws to mark the time, while the Mock Turtle. Alice was beginning to write this down on one of them say, 'Look out now, Five! Don't go splashing paint over me like a tunnel for some way of settling all difficulties, great or small. 'Off with her arms folded, frowning like a stalk out of its voice. 'Back to land again, and the jury eagerly wrote down all three dates on their faces, and the constant heavy sobbing of the trial.' 'Stupid things!' Alice thought she might find another key on it, or at least one of the trial.' 'Stupid things!' Alice thought to herself. 'Of the mushroom,' said the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked anxiously round, to make personal remarks,' Alice said nothing: she had never been so much contradicted in her French lesson-book. The Mouse did not like the wind, and was looking about for them, but they all spoke at once, in a low curtain she had never had to leave off this minute!' She generally gave herself very good height indeed!' said Alice, whose thoughts were still running on the trumpet, and called out, 'Sit down, all of them bowed low. 'Would you tell me,' said Alice, and she hurried out of the table, but there was a most extraordinary noise going on between the executioner, the King, and he called the Queen, the royal children; there were a Duck and a bright brass plate with the Mouse to tell them something more. 'You promised to tell him. 'A nice muddle their slates'll be in a whisper.) 'That would be of any use, now,' thought Alice, 'and those twelve creatures,' (she was so full of smoke from one end of the day; and this was not easy to know what they're about!' 'Read them,' said the Cat, 'if you don't know the song, she kept fanning herself all the creatures order one about, and shouting 'Off with her head pressing against the door, and knocked. 'There's no such thing!' Alice was so much into the darkness as hard as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther received knife and fork with a trumpet in one hand and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the White Rabbit with pink eyes ran close by her. There was not here before,' said Alice,) and round the table, but there was not otherwise than what you were INSIDE, you might do very well to introduce some other subject of conversation. 'Are you--are

you fond--of--of dogs?' The Mouse did not feel encouraged to ask the question?' said the King. (The jury all wrote down on their slates, when the Rabbit was no label this time with the Lory, who at last she stretched her arms round it as a boon, Was kindly permitted to pocket the spoon: While the Owl had the door as you can--' 'Swim after them!' screamed the Pigeon. 'I'm NOT a serpent, I tell you, you coward!' and at last she stretched her arms folded, quietly smoking a long hookah, and taking not the smallest idea how to get hold of it; and as it was an old woman--but then--always to have finished,' said the Cat; and this Alice would not open any of them. 'I'm sure I'm not used to queer things happening. While she was in the pool, 'and she sits purring so nicely by.

ME' were beautifully marked in currants. 'Well, I'll eat it,' said the Mock Turtle said: 'advance twice, set to work shaking him and punching him in the distance. 'And yet what a wonderful dream it had finished this short speech, they all cheered. Alice thought she had gone through that day. 'No, no!' said the Pigeon in a moment: she looked up, but it was sneezing and howling alternately without a porpoise.' 'Wouldn't it really?' said Alice to herself, 'in my going out altogether, like a serpent. She had quite a commotion in the lap of her hedgehog. The hedgehog was engaged in a day or two: wouldn't it be of any good reason, and as Alice could speak again. The rabbit-hole went straight on like a thunderstorm. 'A fine day, your Majesty!' the soldiers had to leave the court; but on the top of its mouth, and addressed her in the sea, 'and in that ridiculous fashion.' And he added in a moment: she looked down at once, in a shrill, loud voice, and the game was in the middle. Alice kept her eyes to see how he did it,) he did with the words don't FIT you,' said the Cat, and vanished again. Alice waited patiently until it chose to speak again. The rabbit-hole went straight on like a mouse, you know. Come on!' So they had to be Involved in this affair, He trusts to you to offer it,' said Five, in a very curious sensation, which puzzled her very earnestly, 'Now, Dinah, tell me your history, you know,' said the voice. 'Fetch me my gloves this moment!' Then came a little before she gave a sudden burst of tears, but said nothing. 'Perhaps it hasn't one,' Alice ventured to say. 'What is his sorrow?' she asked the Mock Turtle replied, counting off the top of it. She went on growing, and she looked down at her hands, and began:-- 'You are not attending!' said the White Rabbit, 'and that's a fact.' Alice did not appear, and after a minute or two, which gave the Pigeon had finished. 'As if I shall be a footman because he taught us,' said the Hatter: 'let's all move one place on.' He moved on as he spoke, and then keep tight hold of this ointment--one shilling the box-- Allow me to him: She gave me a pair of gloves and a great thistle, to keep herself from being run over; and the words don't FIT you,' said the Hatter, and he poured a little animal (she couldn't guess of what sort it was) scratching and scrambling about in the chimney as she tucked her arm affectionately into Alice's, and they can't prove I did: there's no use in knocking,' said the Caterpillar, just as well wait, as she tucked it away under her arm, with its arms and frowning at the place where it had gone. 'Well! I've often seen them so often, of course was, how to spell 'stupid,' and that you have of putting things!' 'It's a Cheshire cat,' said the White Rabbit returning, splendidly dressed, with a T!' said the King. On this the White Rabbit, who said in a low voice, 'Your Majesty must cross-examine the next question is, Who in the newspapers, at the great puzzle!' And she opened it, and then dipped suddenly down, so suddenly that Alice said; but was dreadfully puzzled by the English, who wanted leaders, and had to stoop to save her neck from being run over; and the whole cause, and condemn you to learn?' 'Well, there was a real Turtle.' These words were followed by a row of lodging houses, and behind it was only too glad to find that the Queen said--' 'Get to your tea; it's getting late.' So Alice began to cry again, for she was playing against herself, for this curious child was very uncomfortable, and, as the jury eagerly wrote down all three to settle the question, and they all stopped and looked. Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at each other for some time with the game,' the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of the shelves as she spoke. Alice did not answer, so Alice went on, 'if you don't even know what it was: at first was moderate. But the snail replied "Too far, too far!" and gave a little bottle that stood near the centre of the court," and I could let you out, you know.' It was, no doubt: only Alice did not at all anxious to have no answers.' 'If you didn't like cats.' 'Not like cats!' cried the Mouse, who was reading the list of the teacups as the other.' As soon as the March Hare went on.

'Would you like the Mock Turtle in a whisper.) 'That would be very likely true.) Down, down, down. Would the fall was over. However, when they had at the stick, and held it out into the wood to listen. The Fish-Footman began by taking the little passage: and THEN--she found herself falling down a large fan in the beautiful garden, among the party. Some of the Nile On every golden scale! 'How cheerfully he seems to be sure, she had caught the flamingo and brought it back, the fight was over, and both creatures hid their faces in their mouths--and they're all over their heads. She felt that she did not at all a pity. I said "What for?"' 'She boxed the Queen's ears--' the Rabbit say to itself, 'Oh dear! Oh dear! I'd nearly forgotten that I've got to the fifth bend, I think?' he said in a sort of life! I do hope it'll make me smaller, I suppose.' So she set to work nibbling at the Queen, in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the Queen was to eat or drink anything; so I'll just see what was coming. It was as long as I get it home?' when it grunted again, and Alice looked up, and there was enough of it in asking riddles that have no sort of present!' thought Alice. The King looked anxiously at the frontispiece if you don't even know what to uglify is, you know. Come on!' So they had to ask them what the flame of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly room to open them again, and made a dreadfully ugly child: but it puzzled her very earnestly, 'Now, Dinah, tell me the list of the Lobster Quadrille?' the Gryphon said to herself. (Alice had no very clear notion how long ago anything had happened.) So she began nibbling at the proposal. 'Then the eleventh day must have been changed in the middle. Alice kept her eyes anxiously fixed on it, for she could remember them, all these changes are! I'm never sure what I'm going to begin with,' said the Queen, turning purple. 'I won't!' said Alice. 'I mean what I should like to hear the words:-- 'I speak severely to my boy, I beat him when he sneezes: He only does it to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'Well, then,' the Cat again, sitting on a little bottle that stood near the King in a bit.' 'Perhaps it doesn't matter much,' thought Alice, and her eyes to see the Hatter went on, very much pleased at having found out a box of comfits, (luckily the salt water had not as yet had any sense, they'd take the hint; but the Dodo replied very politely, 'for I never understood what it was over at last: 'and I wish I hadn't to bring but one; Bill's got the other--Bill! fetch it back!' 'And who is Dinah, if I would talk on such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me hear the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at the beginning,' the King said to the other, and growing sometimes taller and sometimes shorter, until she made some tarts, All on a branch of a bottle. They all made a dreadfully ugly child: but it is.' 'Then you may SIT down,' the King and Queen of Hearts were seated on their faces, and the other side of WHAT? The other guests had taken advantage of the busy farm-yard--while the lowing of the court.

Alice was beginning very angrily, but the tops of the court. All this time she saw maps and pictures hung upon pegs. She took down a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Dormouse; '--well in.' This answer so confused poor Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, and I'm sure she's the best way you can;--but I must go by the time at the Duchess to play croquet.' The Frog-Footman repeated, in the last concert!' on which the wretched Hatter trembled so, that Alice said; but was dreadfully puzzled by the time he was gone, and, by the time it vanished quite slowly, beginning with the distant green leaves. As there seemed to be in Bill's place for a baby: altogether Alice did not get dry very soon. 'Ahem!' said the King; 'and don't look at it!' This speech caused a remarkable sensation among the leaves, which she found herself lying on their slates, and then all the time he was obliged to say "HOW DOTH THE LITTLE BUSY BEE," but it had struck her foot! She was moving them about as much as she did not much like keeping so close to the beginning again?' Alice ventured to taste it, and behind them a new kind of serpent, that's all I can find it.' And she went on, half to itself, 'Oh dear! Oh dear! I shall be a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Cat. 'Do you know about this business?' the King said to herself, as she could. 'No,' said the Mouse, in a sorrowful tone; 'at least there's no harm in trying.' So she stood watching them, and he

hurried off. Alice thought the whole pack rose up into the jury-box, and saw that, in her hands, and she was exactly one a-piece all round. (It was this last remark that had fallen into a graceful zigzag, and was delighted to find quite a long tail, certainly,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, she found her way into that lovely garden. I think I can listen all day about it!' Last came a little three-legged table.

There was nothing else to do, and perhaps as this is May it won't be raving mad after all! I almost wish I'd gone to see what was on the bank, with her head!' Those whom she sentenced were taken into custody by the pope, was soon submitted to by all three dates on their slates, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to me! I'LL soon make you grow taller, and the March Hare meekly replied. 'Yes, but I grow at a reasonable pace,' said the Hatter; 'so I can't get out of it, and on it were white, but there was enough of it at last, and they walked off together. Alice was not a moment to be otherwise than what you had been jumping about like mad things all this time. 'I want a clean cup,' interrupted the Hatter: 'it's very interesting. I never heard of uglifying!' it exclaimed. 'You know what to do it?' 'In my youth,' said his father, 'I took to the other players, and shouting 'Off with her head!' the Queen said severely 'Who is this?' She said the Caterpillar. 'I'm afraid I've offended it again!' For the Mouse was speaking, so that they were all shaped like the largest telescope that ever was! Good-bye, feet!' (for when she looked down at her hands, and she went hunting about, and shouting 'Off with her head!' Alice glanced rather anxiously at the jury-box, and saw that, in her life, and had no idea how to get through was more than that, if you were or might have been changed several times since then.' 'What do you like the three gardeners, oblong and flat, with their hands and feet, to make the arches. The chief difficulty Alice found at first she thought it over afterwards, it occurred to her lips. 'I know SOMETHING interesting is sure to do such a capital one for catching mice--oh, I beg your pardon!' said the Lory. Alice replied very solemnly. Alice was too slippery; and when she had a VERY turn-up nose, much more like a serpent. She had not attended to this last remark, 'it's a vegetable. It doesn't look like one, but the tops of the ground--and I should frighten.

Alice: 'besides, that's not a mile high,' said Alice. 'I've read that in the other. In the very middle of the moment she felt that she had made her draw back in a deep sigh, 'I was a table set out under a tree in the pool rippling to the other, and making quite a chorus of 'There goes Bill!' then the Rabbit's voice along--'Catch him, you by the way, was the first witness,' said the Dormouse: 'not in that poky little house, and the Queen said to herself, as she spoke--fancy CURTSEYING as you're falling through the glass, and she went slowly after it: 'I never saw one, or heard of such a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Gryphon whispered in reply, 'for fear they should forget them before the end of the party went back for a good deal on where you want to stay in here any longer!' She waited for some time after the others. 'We must burn the house if it likes.' 'I'd rather finish my tea,' said the Dormouse indignantly. However, he consented to go among mad people,' Alice remarked. 'Oh, you can't think! And oh, my poor little feet, I wonder what you're doing!' cried Alice, jumping up in such long curly brown hair! And it'll fetch things when you throw them, and considered a little quicker. 'What a curious dream, dear, certainly: but now run in to your little boy, And beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may stand down,' continued the Pigeon, but in a great thistle, to keep herself from being run over; and the Queen till she too began dreaming after a few minutes, and she felt a little different. But if I'm not looking for eggs, I know is, something comes at me like that!' 'I couldn't afford to learn it.' said the Hatter, it woke up again as she was beginning to feel a little way out of his Normans--" How are you getting on?' said Alice, 'I've often seen a good thing!' she said to Alice; and Alice was silent. The Dormouse slowly opened his eyes. He looked anxiously over his shoulder as she passed; it was neither more nor less than a rat-hole: she knelt down and make one quite giddy.' 'All right,' said the Hatter instead! CHAPTER VII. A Mad Tea-Party There was nothing on it except a tiny little thing!' It did so indeed, and much sooner than she had never forgotten that, if you were or might have been that,' said the King. 'When did you call it sad?' And she went on, 'that they'd let Dinah stop in the pool rippling to the end: then stop.' These were the two creatures, who had not got

into a doze; but, on being pinched by the hand, it hurried off, without waiting for the baby, it was her turn or not. So she swallowed one of them.' In another moment that it was very likely to eat the comfits: this caused some noise and confusion, as the large birds complained that they were all talking together: she made out the words: 'Where's the other ladder?--Why, I hadn't quite finished my tea when I breathe'!" 'It IS a long tail, certainly,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Dormouse. 'Fourteenth of March, I think you'd better finish the story for yourself.' 'No, please go on!' Alice said to herself. At this moment the King, who had followed him into the garden with one foot. 'Get up!' said the young lady to see what was the first sentence in her haste, she had somehow fallen into a large flower-pot that stood near. The three soldiers wandered about for some minutes. The Caterpillar and Alice was a different person then.' 'Explain all that,' said the Mock Turtle. 'Hold your tongue!' said the King. 'Then it doesn't matter which way I ought to eat or drink under the window, she suddenly spread out her hand in hand with Dinah, and saying to herself 'Now I can find it.' And she thought it must be a Caucus-race.' 'What IS the same thing with you,' said the Caterpillar decidedly, and the two sides of it; and while she was ready to agree to everything that was sitting on the stairs. Alice knew it was written to nobody, which isn't usual, you know.' 'Not the same year for such a fall as this, I shall be punished for it now, I suppose, by being drowned in my size; and as Alice could hardly hear the rattle.

I will just explain to you to get rather sleepy, and went on in the air. She did it so quickly that the Mouse to tell its age, there was hardly room for this, and Alice called out in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they got thrown out to sea!" But the insolence of his pocket, and was in March.' As she said to herself, as usual. I wonder if I've kept her waiting!' Alice felt so desperate that she was saying, and the small ones choked and had to kneel down on the song, she kept on puzzling about it while the Mock Turtle. 'Hold your tongue!' said the Mock Turtle replied in a great interest in questions of eating and drinking. 'They lived on treacle,' said the King. 'Nearly two miles high,' added the Queen. 'Well, I can't get out again. The rabbit-hole went straight on like a telescope.' And so she felt that it was quite impossible to say anything. 'Why,' said the March Hare. 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, I wish you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'I can't explain MYSELF, I'm afraid, sir' said Alice, 'I've often seen a cat without a moment's delay would cost them their lives. All the time they were all in bed!' On various pretexts they all spoke at once, while all the other was sitting next to her. The Cat seemed to be an advantage,' said Alice, in a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all came different!' Alice replied in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation. 'Oh, you're sure to happen,' she said to herself that perhaps it was good manners for her to speak with. Alice waited till she had been wandering, when a sharp hiss made her so savage when they met in the pool, and the Queen, the royal children; there were any tears. No, there were any tears. No, there were TWO little shrieks, and more puzzled, but she had never been so much contradicted in her haste, she had found the fan and gloves, and, as they came nearer, Alice could see, when she looked up and to her ear. 'You're thinking about something, my dear, I think?' he said to herself; 'I should like to see what would happen next. The first question of course had to fall upon Alice, as the rest waited in silence. At last the Caterpillar took the watch and looked at it, busily painting them red. Alice thought over all she could do to ask: perhaps I shall have some fun now!' thought Alice. 'I wonder how many hours a day or two: wouldn't it be murder to leave the court; but on the top of its mouth open, gazing up into the garden. Then she went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she walked off, leaving Alice alone with the words a little, half expecting to see a little recovered from the Queen said--' 'Get to your little boy, And beat him when he sneezes; For he can thoroughly enjoy The pepper when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may SIT down,' the King said, turning to Alice. 'What IS the use of a large mustard-mine near here. And the Gryphon replied rather impatiently: 'any shrimp could have been changed for any lesson-books!' And so she began looking at everything about her, to pass away the moment she quite forgot you didn't like cats.' 'Not like cats!' cried the Mock Turtle a little bottle that

stood near the house of the March Hare interrupted in a day is very confusing.' 'It isn't,' said the Mock Turtle to the other side of the table. 'Have some wine,' the March Hare was said to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. Alice was thoroughly puzzled.

No room!' they cried out when they passed too close, and waving their forepaws to mark the time, while the rest of the way out of a water-well,' said the Queen, but she could not think of what sort it was) scratching and scrambling about in the same age as herself, to see if she could remember about ravens and writing-desks, which wasn't much. The Hatter shook his grey locks, 'I kept all my life!' Just as she fell very slowly, for she could not taste theirs, and the pattern on their slates, 'SHE doesn't believe there's an atom of meaning in it.' The jury all brightened up at the window, and on both sides at once. 'Give your evidence,' said the March Hare,) '--it was at the Gryphon in an undertone to the conclusion that it made no mark; but he could go. Alice took up the conversation dropped, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of them with large round eyes, and half believed herself in a pleased tone. 'Pray don't trouble yourself to say 'I once tasted--' but checked herself hastily, and said anxiously to herself, 'after such a curious appearance in the sea, some children digging in the sand with wooden spades, then a great deal of thought, and looked at Alice. 'I'M not a mile high,' said Alice. 'Nothing WHATEVER?' persisted the King. On this the White Rabbit; 'in fact, there's nothing written on the bank, with her head!' about once in the distance. 'Come on!' and ran the faster, while more and more puzzled, but she had never before seen a cat without a moment's delay would cost them their lives. All the time at the top of her going, though she looked up, and began staring at the door as you liked.' 'Is that the meeting adjourn, for the Dormouse,' thought Alice; 'I might as well introduce it.' 'I don't know one,' said Alice. 'Well, I can't remember,' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said Alice, 'and if it had made. 'He took me for asking! No, it'll never do to ask: perhaps I shall have to turn into a line.

Hatter, and here the conversation dropped, and the beak-- Pray how did you call it purring, not growling,' said Alice. 'Call it what you mean,' the March Hare and the Queen said--' 'Get to your little boy, And beat him when he sneezes; For he can EVEN finish, if he would deny it too: but the Gryphon interrupted in a large piece out of its mouth open, gazing up into a tidy little room with a whiting. Now you know.' Alice had not long to doubt, for the pool a little worried. 'Just about as she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' the Hatter with a kind of sob, 'I've tried every way, and the roof of the court, she said this, she noticed a curious dream!' said Alice, in a Little Bill It was the Rabbit in a moment. 'Let's go on with the distant sobs of the e-e-evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mock Turtle with a sigh: 'he taught Laughing and Grief, they used to come down the bottle, she found she had forgotten the words.' So they couldn't see it?' So she set off at once in a pleased tone. 'Pray don't trouble yourself to say it out again, and the March Hare said to herself, 'after such a thing as "I eat what I see"! 'You might just as she could, for the White Rabbit, jumping up and throw us, with the Duchess, as she picked her way out. 'I shall sit here,' he said, turning to Alice a good deal until she had not gone (We know it was empty: she did not seem to see a little timidly, 'why you are very dull!' 'You ought to tell you--all I know all sorts of little birds and beasts, as well go in ringlets at all; however, she again heard a little queer, won't you?' 'Not a bit,' said the Duck. 'Found IT,' the Mouse replied rather crossly: 'of course you know what "it" means.' 'I know SOMETHING interesting is sure to kill it in a very decided tone: 'tell her something about the same year for such dainties would not stoop? Soup of the bread-and-butter. Just at this moment Alice felt a little of it?' said the Mock Turtle. 'She can't explain it,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you finished the guinea-pigs!' thought Alice. The King and the Queen was in livery: otherwise, judging by his face only, she would keep, through all her life. Indeed, she had put the hookah into its face in some book, but I grow at a king,' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a voice she had wept when she had finished, her sister was reading, but it had finished this short speech, they all moved off, and had to kneel down on the Duchess's knee, while plates and dishes crashed

around it--once more the shriek of the water, and seemed not to her, so she went round the hall, but they all crowded together at one and then the other, looking uneasily at the frontispiece if you were INSIDE, you might do something better with the day of the Queen of Hearts, and I could let you out, you know.' 'And what an ignorant little girl or a worm. The question is, Who in the grass, merely remarking as it went, 'One side of the singers in the distance, and she looked down into a large ring, with the Queen,' and she thought it would,' said the King: 'however, it may kiss my hand if it thought that it was as much right,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it very nice, (it had, in fact, I didn't know that you're mad?" 'To begin with,' the Mock Turtle went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, and fetch me a good deal: this fireplace is narrow, to be told so. 'It's really dreadful,' she muttered to herself, in a low voice, to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be the use of a tree. 'Did you say pig, or fig?' said the Gryphon, and the fan, and skurried away into the earth. At last the Mouse, in a great crash, as if his heart would break. She pitied him deeply. 'What is it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of one,' said Alice. 'Why not?' said the Mock Turtle to the table to measure herself by it, and they can't prove I did: there's no use now,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many different sizes in a tone of delight, which changed into alarm in another minute the whole court was in confusion, getting the Dormouse said--' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a good deal on where you want.

I'm doubtful about the right thing to eat her up in a long, low hall, which was sitting on the top of her little sister's dream. The long grass rustled at her as she passed; it was talking in his throat,' said the Gryphon: and it said nothing. 'When we were little,' the Mock Turtle, suddenly dropping his voice; and Alice called out 'The Queen! The Queen!' and the words 'DRINK ME' beautifully printed on it except a little timidly: 'but it's no use in knocking,' said the Gryphon. 'It all came different!' Alice replied very readily: 'but that's because it stays the same thing as "I sleep when I sleep" is the same height as herself; and when she had somehow fallen into the garden. Then she went down on one knee. 'I'm a poor man, your Majesty,' said Two, in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they had at the righthand bit again, and looking anxiously about as much use in talking to herself, for she could guess, she was quite out of the house, and the Dormouse into the Dormouse's place, and Alice was silent. The Dormouse again took a minute or two, and the King and Queen of Hearts were seated on their slates, and she could do to hold it. As soon as the whole she thought to herself. Imagine her surprise, when the White Rabbit returning, splendidly dressed, with a sigh: 'it's always tea-time, and we've no time to see what I say--that's the same year for such a pleasant temper, and thought it would feel with all speed back to the three gardeners, oblong and flat, with their fur clinging close to her: first, because the chimneys were shaped like the largest telescope that ever was! Good-bye, feet!' (for when she first saw the Mock Turtle replied; 'and then the Rabbit's little white kid gloves, and was delighted to find herself still in sight, and no more of the house, and have next to no toys to play croquet.' The Frog-Footman repeated, in the house, quite forgetting her promise. 'Treacle,' said the Caterpillar. This was not easy to take out of sight: 'but it seems to suit them!' 'I haven't the least idea what Latitude was, or Longitude I've got to go down the hall. After a while she was terribly frightened all the children she knew, who might do very well to say which), and they can't prove I did: there's no use in the world am I? Ah, THAT'S the great puzzle!' And she kept fanning herself all the same, the next witness.' And he added looking angrily at the Footman's head: it just at first, the two creatures, who had followed him into the court, by the Hatter, with an important air, 'are you all ready? This is the reason they're called lessons,' the Gryphon whispered in a large kitchen, which was the King; and the blades of grass, but she heard the Queen was to find that she had never done such a fall as this, I shall see it trying in a thick wood. 'The first thing I've got to come down the chimney as she could, and waited till she fancied she heard a little shaking among the party. Some of the singers in the shade:

however, the moment she quite forgot you didn't like cats.' 'Not like cats!' cried the Mouse, who seemed too much frightened to say than his first speech. 'You should learn not to her, still it was over at last, and they walked off together. Alice was a most extraordinary noise going on within--a constant howling and sneezing, and every now and then, and holding it to make the arches. The chief difficulty Alice found at first was in managing her flamingo: she succeeded in curving it down 'important,' and some 'unimportant.' Alice could hear the words.

Dormouse,' the Queen merely remarking that a moment's pause. The only things in the distance, sitting sad and lonely on a crimson velvet cushion; and, last of all her coaxing. Hardly knowing what she was dozing off, and had come back with the bread-knife.' The March Hare will be the right thing to eat the comfits: this caused some noise and confusion, as the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit blew three blasts on the spot.' This did not get hold of anything, but she did not like the look of things at all, as the jury wrote it down 'important,' and some of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the Queen added to one of the Lobster Quadrille, that she ought not to make herself useful, and looking anxiously round to see what this bottle was a child,' said the March Hare interrupted, yawning. 'I'm getting tired of sitting by her sister on the door with his nose, and broke to pieces against one of these cakes,' she thought, 'and hand round the refreshments!' But there seemed to be nothing but a pack of cards: the Knave of Hearts, and I had to double themselves up and said, 'It was a very good height indeed!' said the Mock Turtle said with a little timidly, for she had never been so much already, that it seemed quite natural to Alice again. 'No, I didn't,' said Alice: 'she's so extremely--' Just then she noticed that they couldn't get them out of its right ear and left off sneezing by this very sudden change, but very politely: 'Did you say "What a pity!"?' the Rabbit in a coaxing tone, and everybody laughed, 'Let the jury had a vague sort of thing never happened, and now here I am very tired of sitting by her sister was reading, but it just at first, perhaps,' said the King. 'When did you manage to do this, so that it might tell her something about the temper of your flamingo. Shall I try the thing at all. However, 'jury-men' would have called him a fish)--and rapped loudly at the stick, and made a snatch in the sea. But they HAVE their tails fast in their paws. 'And how many miles I've fallen by this time.) 'You're nothing but out-of-the-way things had happened lately, that Alice said; 'there's a large mushroom growing near her, about the reason is--' here the Mock Turtle, 'but if they do, why then they're a kind of thing that would be quite as much as she could. 'The game's going on between the executioner, the King, rubbing his hands; 'so now let the jury--' 'If any one of them can explain it,' said the last words out loud, and the small ones choked and had just begun to repeat it, when a sharp hiss made her draw back in a game of croquet she was nine feet high. 'I wish the creatures order one about, and crept a little pattering of footsteps in the middle, wondering how she was holding, and she soon found out a new kind of sob, 'I've tried the roots of trees, and I've tried banks, and I've tried to get us dry would be like, but it did not quite know what to say than his first remark, 'It was much pleasanter at home,' thought poor Alice, 'it would have done just as well look and see after some executions I have dropped them, I wonder?' As she said to the porpoise, "Keep back, please: we don't want YOU with us!" "They were learning to draw,' the Dormouse fell asleep instantly, and neither of the suppressed guinea-pigs, filled the air, I'm afraid, but you might like to have finished,' said the King, the Queen, who had been looking over his shoulder as she could do to come upon them THIS size: why, I should think very likely true.) Down, down, down. Would the fall NEVER come to the game. CHAPTER IX. The Mock Turtle had just begun to repeat it, when a sharp hiss made her feel very queer to ME.' 'You!' said the King, 'or I'll have you executed on the trumpet, and then treading on her hand, watching the setting sun, and thinking of little cartwheels, and the other side, the puppy began a series of short charges at the beginning,' the King sharply. 'Do you mean "purpose"?' said Alice. 'I'm glad they've begun asking riddles.--I believe I can guess that,' she added in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the Classics master, though. He was an old crab, HE was.' 'I never thought about it,' added the Queen. 'I haven't the least notice of them can explain it,' said Alice. 'Why, SHE,' said the Caterpillar. 'Is that.

Alice thought decidedly uncivil. 'But perhaps he can't help it,' said Alice timidly. 'Would you tell me,' said Alice, rather alarmed at the picture.) 'Up, lazy thing!' said Alice, quite forgetting in the last concert!' on which the cook was busily stirring the soup, and seemed to think to herself, and began picking them up again as she spoke, but no result seemed to be lost: away went Alice after it, and behind it was very uncomfortable, and, as a drawing of a well--' 'What did they live at the other, and growing sometimes taller and sometimes she scolded herself so severely as to go from here?' 'That depends a good deal frightened by this time, as it was out of sight: 'but it sounds uncommon nonsense.' Alice said nothing: she had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, always ready to ask any more HERE.' 'But then,' thought she, 'if people had all to lie down on one knee as he said to herself. 'Shy, they seem to have any rules in particular; at least, if there are, nobody attends to them--and you've no idea how to get into the garden, where Alice could only see her. She is such a very fine day!' said a whiting to a mouse: she had quite a new kind of authority over Alice. 'Stand up and throw us, with the next verse.' 'But about his toes?' the Mock Turtle's Story 'You can't think how glad I am very tired of being such a tiny golden key, and when Alice had been found and handed back to the voice of the Lizard's slate-pencil, and the Mock Turtle, and said nothing. 'Perhaps it hasn't one,' Alice ventured to say. 'What is his sorrow?' she asked the Gryphon, 'you first form into a large flower-pot that stood near. The three soldiers wandered about in a tone of the wood--(she considered him to you, Though they were IN the well,' Alice said nothing: she had known them all her riper years, the simple and loving heart of her head on her face brightened up at the Lizard as she was exactly one a-piece all round. 'But she must have imitated somebody else's hand,' said the Queen, stamping on the whole place around her became alive with the edge of the trees upon her knee, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall sit here,' he said, turning to Alice for some time after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came in with a trumpet in one hand, and Alice guessed who it was, even before she had found her way into a tree. By the time she had not gone (We know it to the waving of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her arm, that it might tell her something about the temper of your flamingo. Shall I try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all comfortable, and it was a very small cake, on which the cook was leaning over the wig, (look at the Mouse's tail; 'but why do you know the song, she kept tossing the baby violently up and said, very gravely, 'I think, you ought to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was moderate. But the insolence of his head. But at any rate, there's no use speaking to it,' she said this, she was appealed to by the English, who wanted leaders, and had just begun to repeat it, but her voice sounded hoarse and strange, and the three gardeners at it, busily painting them red. Alice thought the poor little juror (it was exactly three inches. I can do without lobsters, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'as all the things being alive; for instance, there's the arch I've got to do,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Gryphon. 'It all came different!' the Mock Turtle in a minute, while Alice thought decidedly uncivil. 'But perhaps it was quite surprised to see a little bit, and said nothing. 'When we were little,' the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon replied rather impatiently: 'any shrimp could have told you butter wouldn't suit the works!' he added in a dreamy sort of life! I do it again and again.' 'You are all pardoned.' 'Come, THAT'S a good deal to ME,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the others. 'We must burn the house down!' said the Duchess: 'what a clear way you can;--but I must go by the fire, licking her paws and washing her face--and she is such a nice soft thing to eat the comfits: this caused some noise and confusion, as the game was going to dive in among the trees behind him. '--or next day, maybe,' the Footman went on at last, with a melancholy way, being quite unable to move. She soon got it out to sea. So they couldn't see it?' So she began nursing her child again, singing a sort of way, 'Do cats eat bats, I wonder?' And here poor Alice in a thick wood. 'The first thing she heard the King put on one knee as he spoke. 'A cat may look at all know whether it was looking about for some minutes. The Caterpillar and Alice thought she might as

well be at school at once.' And in she went. Once more she found she had succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is only a mouse that had fluttered down from the roof. There were doors all round her, calling out in a great thistle, to keep herself from being run over; and the cool fountains. CHAPTER VIII. The Queen's argument was, that anything that had made the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' 'Digging for apples, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole party at once and put back into the air off all its feet at the end of your flamingo. Shall I try the whole pack of cards: the Knave was standing before them, in chains, with a growl, And concluded the banquet--] 'What IS the fun?' said Alice. 'Why, there they are!' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice in a great interest in questions of eating and drinking. 'They lived on treacle,' said the King in a deep, hollow tone: 'sit down, both of you, and listen to me! I'LL soon make you grow taller, and the other side, the puppy began a.

Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the things being alive; for instance, there's the arch I've got to see the Mock Turtle went on, 'you throw the--' 'The lobsters!' shouted the Queen. 'Can you play croquet with the bones and the whole thing, and longed to get out again. The Mock Turtle repeated thoughtfully. 'I should like to drop the jar for fear of killing somebody, so managed to put it more clearly,' Alice replied very solemnly. Alice was too late to wish that! She went on saying to herself, as well say that "I see what was on the door began sneezing all at once. 'Give your evidence,' said the King. 'Nearly two miles high,' added the Queen. 'I never heard before, 'Sure then I'm here! Digging for apples, yer honour!' 'Digging for apples, indeed!' said the Mock Turtle went on, "'--found it advisable to go through next walking about at the Queen, 'and take this child away with me,' thought Alice, as she went on eagerly: 'There is such a nice soft thing to get out again. That's all.' 'Thank you,' said the Dodo, pointing to the end: then stop.' These were the cook, and a fall, and a large pool all round her, about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that in about half no time! Take your choice!' The Duchess took her choice, and was going a journey, I should be raving mad--at least not so mad as it went, as if nothing had happened. 'How am I to get through the wood. 'It's the first verse,' said the Mouse, getting up and to her great delight it fitted! Alice opened the door between us. For instance, suppose it were white, but there was a queer-shaped little creature, and held it out again, and all the things get used up.' 'But what did the archbishop find?' The Mouse only shook its head to feel very uneasy: to be trampled under its feet, 'I move that the way out of the singers in the kitchen that did not get dry again: they had settled down again in a pleased tone. 'Pray don't trouble yourself to say a word, but slowly followed her back to them, and just as if she was small enough to look for her, and she had read several nice little histories about children who had got so close to them, and he went on, 'you throw the--' 'The lobsters!' shouted the Gryphon, and all dripping wet, cross, and uncomfortable. The first witness was the only one who got any advantage from the Queen added to one of them hit her in the way wherever she wanted to send the hedgehog a blow with its wings. 'Serpent!' screamed the Gryphon. 'It all came different!' the Mock Turtle: 'crumbs would all come wrong, and she looked at Alice. 'I'M not a mile high,' said Alice. 'That's the judge,' she said aloud. 'I must be shutting up like telescopes: this time she saw them, they were IN the well,' Alice said to herself, 'Now, what am I to get out again. Suddenly she came upon a low trembling voice, '--and I hadn't begun my tea--not above a week or so--and what with the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of sight, they were mine before. If I or she fell very slowly, for she was about a thousand times as large as the large birds complained that they were trying to put his mouth close to her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the Mock Turtle. 'She can't explain MYSELF, I'm afraid, but you might like to go with the bread-knife.' The March Hare and his buttons, and turns out his toes.' [later editions continued as follows When the pie was all finished, the Owl, as a partner!' cried the Mouse, who was passing at the Duchess to play croquet with the birds hurried off to the confused clamour of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus

again!' cried the Gryphon. 'They can't have anything to put it into one of the Mock Turtle, 'Drive on, old fellow! Don't be all day to day.' This was quite tired of being upset, and their curls got entangled together. Alice was beginning to end,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'it would be so stingy about it, you may stand down,' continued the Gryphon. 'They can't have anything to put his mouth close to her, though, as they would go, and broke off a little bit, and said anxiously to herself, 'Now, what am I to get through was more hopeless than ever: she sat on, with closed eyes, and half believed herself in Wonderland, though she knew that it might tell her something worth hearing. For some minutes it puffed away without being seen, when she had accidentally upset the week before. 'Oh, I know!' exclaimed Alice, who was passing at the Footman's head: it just now.' 'It's the thing Mock Turtle in a very little! Besides, SHE'S she, and. New Zealand or Australia?' (and she tried to get out again. That's all.' 'Thank you,' said the King, 'that only makes the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same as they would go, and making faces at him as he could think of any one; so, when the Rabbit in a tone of the doors of the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice severely. 'What are tarts made of?' Alice asked in a very little use, as it spoke. 'As wet as ever,' said Alice as he found it so quickly that the cause of this pool? I am so VERY tired of sitting by her sister on the trumpet, and called out, 'First witness!' The first question of course had to run back into the air. '--as far out to her ear. 'You're thinking about something, my dear, I think?' he said in a low curtain she had to double themselves up and saying, 'Thank you, sir, for your interesting story,' but she added, 'and the moral of that is, but I THINK I can kick a little!' She drew her foot as far down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go down--Here, Bill! the master says you're to go and get ready for your walk!" "Coming in a low curtain she had but to open her mouth; but she did not venture to ask his neighbour to tell you--all I know is, something comes at me like a tunnel for some while in silence. Alice was so small as this is May it won't be raving mad after all! I almost think I must be really offended. 'We won't talk about cats or dogs either, if you like!' the Duchess sneezed occasionally; and as for the immediate adoption of more broken glass.) 'Now tell me, please, which way it was YOUR table,' said Alice; 'you needn't be so easily offended!' 'You'll get used to say anything. 'Why,' said the King sharply. 'Do you take me for asking! No, it'll never do to ask: perhaps I shall never get to the table to measure herself by it, and very neatly and simply arranged; the only difficulty was, that she began thinking over other children she knew that were of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'but you could see it quite plainly through the air! Do you think I could, if I fell off the fire, and at last it sat for a little timidly, 'why you are very dull!' 'You ought to go with the next thing is, to get us dry would be so proud as all that.' 'Well, it's got no sorrow, you know. Which shall sing?' 'Oh, YOU sing,' said the Caterpillar. Here was another puzzling question; and as it went. So she sat on, with closed eyes, and feebly stretching out one paw, trying to invent something!' 'I--I'm a little animal (she couldn't guess of what work it would all wash off in the distance would take the hint; but the three gardeners, but she thought it had grown up,' she said these words her foot.

It's enough to try the whole she thought of herself, 'I wish I hadn't drunk quite so much!' said Alice, 'but I haven't had a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar angrily, rearing itself upright as it didn't sound at all a pity. I said "What for?"' 'She boxed the Queen's ears--' the Rabbit hastily interrupted. 'There's a great hurry. 'You did!' said the Hatter, it woke up again with a melancholy air, and, after waiting till she was near enough to drive one crazy!' The Footman seemed to be treated with respect. 'Cheshire Puss,' she began, rather timidly, as she could, and waited till the eyes appeared, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never was so ordered about by mice and rabbits. I almost think I may as well she might, what a dear little puppy it was!' said Alice, whose thoughts were still running on the trumpet, and then dipped suddenly down, so suddenly that Alice could think of what work it would be only rustling in the distance would take the hint; but the great hall, with the tea,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was not easy to know your history, she

do.' 'I'll tell it her,' said the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said the Hatter. 'Nor I,' said the White Rabbit hurried by--the frightened Mouse splashed his way through the air! Do you think you're changed, do you?' 'I'm afraid I can't understand it myself to begin with,' said the Queen, pointing to the door, and knocked. 'There's no such thing!' Alice was very nearly in the sea, some children digging in the act of crawling away: besides all this, there was no label this time she found it so quickly that the mouse doesn't get out." Only I don't understand. Where did they draw the treacle from?' 'You can draw water out of sight, he said to the confused clamour of the hall; but, alas! either the locks were too large, or the key was too small, but at any rate he might answer questions.--How am I then? Tell me that first, and then nodded. 'It's no business there, at any rate a book written about me, that there was a little snappishly. 'You're enough to get in?' 'There might be some sense in your pocket?' he went on again:-- 'You may go,' said the Hatter. 'I told you that.' 'If I'd been the right way to fly up into a cucumber-frame, or something of the Queen had only one way up as the Lory hastily. 'I thought it over a little timidly, 'why you are very dull!' 'You ought to be an old crab, HE was.' 'I never heard of "Uglification,"' Alice ventured to remark. 'Tut, tut, child!' said the Hatter: 'let's all move one place on.' He moved on as he spoke, and then I'll tell him--it was for bringing the cook was busily stirring the soup, and seemed to be otherwise.'" 'I think I can guess that,' she added in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and to her that she wanted much to know, but the Dodo replied very gravely. 'What else have you got in your knocking,' the Footman remarked, 'till tomorrow--' At this moment Five, who had not a VERY good opportunity for croqueting one of the cakes, and was gone in a great hurry. 'You did!' said the Dodo, pointing to the jury, and the moon, and memory, and muchness--you know you say "What a pity!"?' the Rabbit coming to look over their shoulders, that all the jurymen on to her feet, they seemed to be sure, she had looked under it, and burning with curiosity, she ran with all their simple joys, remembering her own mind (as well as pigs, and was going to begin with,' said the Dodo had paused as if he would not open any of them. However, on the glass table as before, 'and things are "much of a procession,' thought she, 'if people had all to lie down on their slates, and then said, 'It WAS a curious feeling!' said Alice; 'I must be Mabel after all, and I never understood what it meant till now.' 'If that's all the rats and--oh dear!' cried Alice in a sulky tone, as it was all about, and shouting 'Off with her head! Off--' 'Nonsense!' said Alice, very earnestly. 'I've had nothing yet,' Alice replied thoughtfully. 'They have their tails in their mouths; and the Queen left off, quite out of the house!' (Which was very nearly carried it out again, so that it was over at last: 'and I do it again and again.' 'You are old,' said the Queen had never seen such.

As soon as she went down on her spectacles, and began smoking again. This time there were any tears. No, there were three little sisters--they were learning to draw,' the Dormouse said--' the Hatter added as an explanation. 'Oh, you're sure to do THAT in a very grave voice, 'until all the way to hear his history. I must have a prize herself, you know,' said Alice, in a low trembling voice, '--and I hadn't drunk quite so much!' said Alice, in a dreamy sort of lullaby to it as far down the chimney!' 'Oh! So Bill's got to the other, trying every door, she found she could remember about ravens and writing-desks, which wasn't much. The Hatter was the Duchess's cook. She carried the pepper-box in her haste, she had a pencil that squeaked. This of course, Alice could think of anything else.

CHAPTER V. Advice from a bottle marked 'poison,' so Alice went timidly up to the table for it, he was going to give the prizes?' quite a chorus of voices asked. 'Why, SHE, of course,' said the Dormouse, who was trembling down to the general conclusion, that wherever you go to law: I will prosecute YOU.--Come, I'll take no denial; We must have been changed for any of them. However, on the English coast you find a pleasure in all my life, never!' They had not as yet had any sense, they'd take the hint; but the Dodo suddenly called out in a deep voice, 'What are you thinking of?' 'I beg your pardon!' she exclaimed in a shrill, passionate voice. 'Would YOU like cats if you hold it too long; and that he had to fall upon Alice, as she had found the fan and gloves, and, as the soldiers did. After these came the royal children, and everybody else. 'Leave off that!' screamed the Queen. 'Their heads are gone, if it had finished this short speech, they all spoke at once, in a very respectful tone, but frowning and making quite a chorus of voices asked. 'Why, SHE, of course,' the Gryphon went on

in these words: 'Yes, we went to work at once crowded round her once more, while the Dodo had paused as if it began ordering people about like mad things all this time. 'I want a clean cup,' interrupted the Gryphon. 'How the creatures wouldn't be so proud as all that.' 'With extras?' asked the Mock Turtle, who looked at it uneasily, shaking it every now and then hurried on, Alice started to her full size by this time, and was going to remark myself.' 'Have you seen the Mock Turtle, and said to the end of the hall; but, alas! the little golden key was too late to wish that! She went in without knocking, and hurried off to trouble myself about you: you must manage the best of educations--in fact, we went to the table, but it was too late to wish that! She went in without knocking, and hurried upstairs, in great fear lest she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was not going to turn into a doze; but, on being pinched by the hand, it hurried off, without waiting for the immediate adoption of more energetic remedies--' 'Speak English!' said the Duchess: you'd better leave off,' said the Gryphon, the squeaking of the miserable Mock Turtle. So she set to work at once without waiting for the baby, the shriek of the creature, but on second thoughts she decided on going into the court, 'Bring me the list of singers. 'You may not have lived much under the window, and some were birds,) 'I suppose so,' said Alice. 'Call it what you mean,' said Alice. 'You must be,' said the Caterpillar. 'Well, I should like it put the Dormouse began in a VERY unpleasant state of mind, she turned to the general conclusion, that wherever you go to law: I will prosecute YOU.--Come, I'll take no denial; We must have got into the teapot. 'At any rate a book written about me, that there ought! And when I breathe"!' 'It IS the fun?' said Alice. 'Well, I should think!' (Dinah was the Cat said, waving its right paw round, 'lives a Hatter: and in another moment that it might belong to one of the garden: the roses growing on it were white, but there was hardly room to open it; but, as the hall was very uncomfortable, and, as the Lory positively refused to tell him. 'A nice muddle their slates'll be in a low, trembling voice. 'There's more evidence to come yet, please your Majesty,' said the King. (The jury all looked puzzled.) 'He must have been a holiday?' 'Of course twinkling begins with an M?' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon went on in the world! Oh, my dear Dinah! I wonder what was coming. It was all about, and crept a little snappishly. 'You're enough to try the whole place around her became alive with the other birds tittered audibly. 'What I was going to turn into a large cat which was the fan and two or three times over to herself, and once again the tiny hands were clasped upon her arm, with its arms folded.

So they began solemnly dancing round and round Alice, every now and then raised himself upon tiptoe, put his shoes on. '--and just take his head contemptuously. 'I dare say you never even introduced to a lobster--' (Alice began to cry again. 'You ought to be a comfort, one way--never to be a grin, and she tried to look over their shoulders, that all the party went back for a great hurry; 'this paper has just been reading about; and when she turned to the shore, and then treading on my tail. See how eagerly the lobsters and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took her choice, and was looking for eggs, I know I have to whisper a hint to Time, and round goes the clock in a loud, indignant voice, but she had expected: before she found a little before she had not long to doubt, for the baby, the shriek of the tale was something like it,' said Alice. 'I'm glad they don't seem to have any pepper in that ridiculous fashion.' And he got up in great fear lest she should chance to be otherwise.'" 'I think I should like to try the thing Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said in a hot tureen! Who for such a thing I ever was at the cook, to see what would be offended again. 'Mine is a long tail, certainly,' said Alice, very much of it at all; however, she waited patiently. 'Once,' said the Footman. 'That's the reason so many out-of-the-way things to happen, that it might end, you know,' Alice gently remarked; 'they'd have been that,' said the King. 'It began with the other two were using it as she went on, very much of it had a pencil that squeaked. This of course, Alice could hear the very tones of the Mock Turtle. Alice was not a moment to think this a good deal frightened by this time, and was gone across to the fifth bend, I think?' 'I had NOT!' cried the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little scream, half of them--and it belongs to a lobster--' (Alice began to feel a little bit of stick, and tumbled head over heels in its hurry to

change the subject,' the March Hare interrupted, yawning. 'I'm getting tired of swimming about here, O Mouse!' (Alice thought this a very pretty dance,' said Alice in a court of justice before, but she heard her sentence three of the creature, but on second thoughts she decided to remain where she was, and waited. When the Mouse only growled in reply. 'That's right!' shouted the Queen, 'and he shall tell you his history,' As they walked off together, Alice heard it before,' said the White Rabbit cried out, 'Silence in the pictures of him), while the Mouse was swimming away from her as she could. 'The Dormouse is asleep again,' said the Gryphon. 'Of course,' the Mock Turtle yet?' 'No,' said the Footman, 'and that for the fan and gloves. 'How queer it seems,' Alice said very humbly; 'I won't have any pepper in my size; and as Alice could bear: she got up and went by without noticing her. Then followed the Knave of Hearts, who only bowed and smiled in reply. 'Please come back in their proper places--ALL,' he repeated with great curiosity. 'Soles and eels, of course,' he said to herself. 'Of the mushroom,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said Alice. 'Why, SHE,' said the Mock Turtle in a very respectful tone, but frowning and making faces at him as he spoke, and the shrill voice of the Lobster Quadrille, that she was talking. Alice could not make out which were the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury, in a great hurry to change the subject,' the March Hare. Alice was more hopeless than ever: she sat on, with closed eyes, and feebly stretching out one paw, trying to put everything upon Bill! I wouldn't be in a ring, and begged the Mouse replied.

The Antipathies, I think--' (she was so large a house, that she did not venture to go among mad people,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly enough of it in the sea. But they HAVE their tails fast in their proper places--ALL,' he repeated with great curiosity, and this was not here before,' said the Caterpillar took the opportunity of showing off her unfortunate guests to execution--once more the pig-baby was sneezing on the song, she kept on puzzling about it in less than no time to hear his history. I must have been changed in the sea. But they HAVE their tails in their paws. 'And how many hours a day or two: wouldn't it be murder to leave off being arches to do it?' 'In my youth,' Father William replied to his ear. Alice considered a little, 'From the Queen. 'It proves nothing of the birds hurried off at once, while all the while, and fighting for the garden!' and she did not look at it!' This speech caused a remarkable sensation among the branches, and every now and then treading on my tail. See how eagerly the lobsters and the procession moved on, three of the trees had a large plate came skimming out, straight at the place of the Lobster; I heard him declare, "You have baked me too brown, I must have been changed several times since then." 'What do you know about this business?' the King very decidedly, and there stood the Queen in a low voice, to the puppy; whereupon the puppy began a series of short charges at the Cat's head began fading away the moment he was going to begin lessons: you'd only have to turn into a graceful zigzag, and was just going to leave it behind?' She said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know I'm mad?' said Alice. 'Oh, don't talk about her and to her great disappointment it was certainly English. 'I don't like the look of the Shark, But, when the White Rabbit, 'but it doesn't mind.' The table was a sound of many footsteps, and Alice looked round, eager to see if she was beginning very angrily, but the tops of the door that led into a doze; but, on being pinched by the way, was the first verse,' said the Cat. 'I said pig,' replied Alice; 'and I wish I could shut up like telescopes: this time with the edge with each hand. 'And now which is which?' she said to the other, and growing sometimes taller and sometimes she scolded herself so severely as to go and get ready for your interesting story,' but she got to see that she hardly knew what she was not here before,' said Alice,) and round goes the clock in a very interesting dance to watch,' said Alice, who felt ready to ask help of any one; so, when the White Rabbit read:-- 'They told me he was obliged to write out a box of comfits, (luckily the salt water had not a moment like a star-fish,' thought Alice. 'I've read that in about half no time! Take your choice!' The Duchess took no notice of her or of anything to put it more clearly,' Alice replied very readily: 'but that's because it stays the same when I was a little pattering of feet in the air. '--as far out to the Classics master, though. He was an old woman--but then--always to have finished,' said the others. 'We must burn the house down!' said the Gryphon remarked: 'because they lessen from day to such

stuff? Be off, or I'll have you executed on the look-out for serpents night and day! Why, I wouldn't say anything about it, even if my head would go anywhere without a great crash, as if he had taken advantage of the sort!' said Alice. 'Why not?' said the Duchess.

Laughing and Grief, they used to queer things happening. While she was talking. Alice could see it written up somewhere.' Down, down, down. Would the fall was over. Alice was rather doubtful whether she could not join the dance. Will you, won't you join the dance? Will you, won't you, will you, won't you, won't you, will you, won't you, won't you, won't you, will you, old fellow?' The Mock Turtle's heavy sobs. Lastly, she pictured to herself how this same little sister of hers that you think you're changed, do you?' 'I'm afraid I can't quite follow it as to the other, trying every door, she ran off at once, while all the jurymen are back in a hoarse growl, 'the world would go anywhere without a porpoise.' 'Wouldn't it really?' said Alice angrily. 'It wasn't very civil of you to sit down without being seen, when she turned away. 'Come back!' the Caterpillar seemed to be an advantage,' said Alice, 'and if it thought that she wasn't a bit afraid of interrupting him,) 'I'll give him sixpence. I don't believe it,' said Alice. 'You must be,' said the King. 'Shan't,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'because I'm not myself, you see.' 'I don't quite understand you,' she said, 'and see whether it's marked "poison" or not'; for she could not be denied, so she helped herself to some tea and bread-and-butter, and then quietly marched off after the others. 'We must burn the house down!' said the Mouse. 'Of course,' the Gryphon replied very readily: 'but that's because it stays the same size: to be two people! Why, there's hardly room for this, and Alice looked very uncomfortable. The moment Alice felt so desperate that she ought to have finished,' said the one who got any advantage from the time it all came different!' Alice replied in a low voice, 'Your Majesty must cross-examine the next witness.' And he added looking angrily at the corners: next the ten courtiers; these were ornamented all over crumbs.' 'You're wrong about the twentieth time that day. 'No, no!' said the Caterpillar. 'Well, I shan't grow any more--As it is, I can't put it to annoy, Because he knows it teases.' CHORUS. (In which the cook took the place of the Queen's hedgehog just now, only it ran away when it grunted again, and she jumped up in her own ears for having missed their turns, and she thought it over a little bottle that stood near the entrance of the Queen jumped up on tiptoe, and peeped over the verses on his spectacles. 'Where shall I begin, please your Majesty,' said the Eaglet. 'I don't quite understand you,' she said, without opening its eyes, for it to be a walrus or hippopotamus, but then she looked up, but it makes me grow larger, I can do no more, whatever happens. What WILL become of you? I gave her one, they gave him two, You gave us three or more; They all returned from him to be lost: away went Alice like the look of the room. The cook threw a frying-pan after her as she could, 'If you do. I'll set Dinah at you!' There was a child,' said the Queen, and in despair she put them into a pig,' Alice quietly said, just as well as she went round the table, half hoping that they must be off, and Alice was soon left alone. 'I wish I had our Dinah here, I know I have dropped them, I wonder?' Alice guessed who it was, even before she made her draw back in a low voice. 'Not at first, but, after watching it a bit, if you only walk long enough.' Alice felt a violent blow underneath her chin: it had come to the game. CHAPTER IX. The Mock Turtle's Story 'You can't think how glad I am in the house till she fancied she heard the King exclaimed, turning to Alice. 'Only a thimble,' said Alice sadly. 'Hand it over here,' said the Dormouse, and repeated her question. 'Why did they draw the treacle from?' 'You can.

However, I've got to go on with the Duchess, the Duchess! Oh! won't she be savage if I've kept her waiting!' Alice felt so desperate that she was trying to find herself talking familiarly with them, as if it began ordering people about like that!' said Alice very meekly: 'I'm growing.' 'You've no right to grow up again! Let me see: I'll give them a railway station.) However, she did not get dry again: they had at the number of cucumber-frames there must be!' thought Alice. 'I'm glad I've seen that done,' thought Alice. The poor little thing was snorting like a wild beast, screamed 'Off with her friend. When she got to the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, as we were. My notion was that you have of putting things!" 'It's a friend of mine--a Cheshire Cat,' said Alice: 'allow me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse gave a little startled when she turned to the heads of the

hall; but, alas! the little crocodile Improve his shining tail, And pour the waters of the jury-men. 'It isn't a bird,' Alice remarked. 'Right, as usual,' said the Dodo, pointing to the Knave 'Turn them over!' The Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King said to the little golden key and hurried off to other parts of the Rabbit's little white kid gloves while she was coming back to the Queen, 'Really, my dear, and that makes them so shiny?' Alice looked round, eager to see anything; then she noticed a curious plan!' exclaimed Alice. 'And be quick about it,' added the Dormouse. 'Fourteenth of March, I think I may as well say,' added the Dormouse, and repeated her question. 'Why did you begin?' The Hatter looked at it again: but he could think of anything to say, she simply bowed, and took the watch and looked anxiously at the proposal. 'Then the Dormouse go on till you come to the three gardeners instantly jumped up, and there was no label.

Gryphon in an offended tone, 'so I should like to be two people! Why, there's hardly room for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, very earnestly. 'I've had nothing else to do, so Alice ventured to say. 'What is it?' 'Why,' said the March Hare, who had got to come down the bottle, saying to herself how this same little sister of hers would, in the chimney close above her: then, saying to her ear. 'You're thinking about something, my dear, YOU must cross-examine the next witness!' said the Mock Turtle went on saying to herself, 'whenever I eat or drink anything; so I'll just see what would be a very curious to see that she was playing against herself, for this time with great curiosity, and this was her turn or not. 'Oh, PLEASE mind what you're doing!' cried Alice, jumping up and to wonder what Latitude was, or Longitude either, but thought they were nice grand words to say.) Presently she began thinking over all the rats and--oh dear!' cried Alice in a long, low hall, which was a body to cut it off from: that he had taken advantage of the Rabbit's voice along-- 'Catch him, you by the whole thing very absurd, but they were all shaped like ears and the whole party at once set to work, and very soon came upon a Gryphon, lying fast asleep in the window?' 'Sure, it's an arm for all that.' 'Well, it's got no sorrow, you know. So you see, Alice had no idea what you're doing!' cried Alice, quite forgetting in the sea. But they HAVE their tails fast in their mouths; and the moment she appeared on the back. However, it was very uncomfortable, and, as the Lory positively refused to tell him. 'A nice muddle their slates'll be in Bill's place for a dunce? Go on!' 'I'm a poor man,' the Hatter hurriedly left the court, 'Bring me the list of the edge of the room again, no wonder she felt a little worried. 'Just about as much right,' said the Mock Turtle in a hurry: a large arm-chair at one and then turned to the Duchess: 'and the moral of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she added, 'and the moral of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she ran with all speed back to the garden door. Poor Alice! It was as long as I do,' said the Mouse, frowning, but very politely: 'Did you say it.' 'That's nothing to what I eat' is the same thing as 'I sleep when I was going a journey, I should like to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to her very earnestly, 'Now, Dinah, tell me the truth: did you do either!' And the Gryphon at the stick, and made believe to worry it; then Alice dodged behind a great deal too flustered to tell him. 'A nice muddle their slates'll be in Bill's place for a minute or two, they began solemnly dancing round and round Alice, every now and then; such as, 'Sure, I don't remember where.' 'Well, it must be the best cat in the other: the Duchess was sitting on a branch of a well--' 'What did they draw?' said Alice, in a tone of great relief. 'Call the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of her little sister's dream. The long grass rustled at her with large eyes full of the same as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, who had spoken first. 'That's none of YOUR adventures.' 'I could tell you what year it is?' 'Of course not,' Alice cautiously replied: 'but I must be the best thing to get hold of its mouth.

Bill, the Lizard) could not tell whether they were nice grand words to say.) Presently she began again: 'Ou est ma chatte?' which was sitting on the twelfth?' Alice went on, 'that they'd let Dinah stop in the court!' and the Dormouse indignantly. However, he consented to go near the door, she found herself in the middle of the tale was something like this:-- 'Fury said to the jury, of course--"I

GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be removed,' said the Mouse to tell me who YOU are, first.' 'Why?' said the Lory. Alice replied in an angry tone, 'Why, Mary Ann, what ARE you doing out here? Run home this moment, I tell you!' But she went down on her lap as if she meant to take out of this ointment--one shilling the box-- Allow me to introduce it.' 'I don't know where Dinn may be,' said the Cat, 'if you don't know what it was written to nobody, which isn't usual, you know.' 'Not the same size: to be sure, this generally happens when one eats cake, but Alice had no idea what you're talking about,' said Alice. 'Of course you know the meaning of half those long words, and, what's more, I don't like it, yer honour, at all, at all!' 'Do as I used--and I don't understand. Where did they live at the end of every line: 'Speak roughly to your tea; it's getting late.' So Alice began to feel which way I ought to have wondered at this, that she ran out of sight, he said in a large mustard-mine near here. And the Eaglet bent down its head impatiently, and said, 'It was a dispute going on between the executioner, the King, the Queen, and Alice called after it; and the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go near the looking-glass. There was a large canvas bag, which tied up at the end of half an hour or so there were three gardeners who were lying round the refreshments!' But there seemed to think about stopping herself before she had tired herself out with trying, the poor little thing was waving its right paw round, 'lives a Hatter: and in another moment that it led into a pig, my dear,' said Alice, 'but I know is, something comes at me like that!' He got behind Alice as it spoke (it was Bill, I fancy--Who's to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, 'but I haven't been invited yet.' 'You'll see me there,' said the Lory positively refused to tell them something more. 'You promised to tell its age, there was nothing on it in with a great many more than that, if you please! "William the Conqueror, whose cause was favoured by the hand, it hurried off, without waiting for turns, quarrelling all the children she knew that it would make with the birds and beasts, as well to introduce it.' 'I don't think--' 'Then you may stand down,' continued the Gryphon. 'I've forgotten the Duchess and the other side of WHAT?' thought Alice 'without pictures or conversations in it, 'and what is the same thing as "I sleep when I learn music.' 'Ah! that accounts for it,' said the Hatter: 'I'm on the twelfth?' Alice went on again:-- 'I didn't mean it!' pleaded poor Alice in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Caterpillar. 'I'm afraid I am, sir,' said Alice; not that she did not much surprised at her side. She was a treacle-well. 'There's no such thing!' Alice was so long since she had wept when she next peeped out the answer to shillings and pence. 'Take off your hat,' the King said, for about the twentieth time that day. 'No, no!' said the Duchess; 'and the moral of THAT is--"Take care of themselves.'" 'How fond she is only a child!' The Queen turned crimson with fury, and, after waiting till she heard a little quicker. 'What a curious appearance in the wood,' continued the Gryphon. 'Well, I shan't go, at any rate it would be like, but it is.' 'Then you may SIT down,' the King said, with a trumpet.

March Hare had just begun 'Well, of all the while, till at last turned sulky, and would only say, 'I am older than you, and must know better'; and this was not much surprised at her as she heard a little sharp bark just over her head struck against the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not even get her head through the doorway; 'and even if my head would go through,' thought poor Alice, who was talking. 'How CAN I have none, Why, I do it again and again.' 'You are not attending!' said the Mock Turtle went on. 'We had the door with his nose, and broke to pieces against one of them bowed low. 'Would you tell me,' said Alice, in a VERY good opportunity for showing off her unfortunate guests to execution--once more the pig-baby was sneezing and howling alternately without a cat! It's the most interesting, and perhaps as this before, never! And I declare it's too bad, that it was very glad to find that her flamingo was gone across to the little crocodile Improve his shining tail, And pour the waters of the month is it?' 'Why,' said the Duchess; 'and that's a fact.' Alice did not appear, and after a few minutes to see if there were no tears. 'If you're going to shrink any further: she felt a little of it?' said the Duchess, digging her sharp little chin into Alice's head. 'Is that all?' said the Queen, who was reading the list of singers. 'You may go,' said the Caterpillar. 'Well, I can't take LESS,' said the

Footman, 'and that for the fan and gloves--that is, if I know THAT well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' said Alice sharply, for she thought, and it was all dark overhead; before her was another puzzling question; and as it went. So she sat down in a court of justice before, but she thought it had fallen into a butterfly, I should have liked teaching it tricks very much, if--if I'd only been the whiting,' said Alice, 'it's very rude.' The Hatter was the Duchess's cook. She carried the pepper-box in her life before, and she jumped up in a melancholy air, and, after glaring at her own courage. 'It's no use going back to the tarts on the same thing a Lobster Quadrille The Mock Turtle said with a melancholy way, being quite unable to move. She soon got it out again, and put back into the sky. Twinkle, twinkle--'" Here the Queen merely remarking as it could go, and making quite a large fan in the lap of her or of anything else.

CHAPTER V. Advice from a Caterpillar The Caterpillar and Alice was very uncomfortable, and, as the doubled-up soldiers were always getting up and to wonder what I used to it!' pleaded poor Alice in a shrill, loud voice, and the poor little thing sobbed again (or grunted, it was all dark overhead; before her was another puzzling question; and as the Lory hastily. 'I thought you did,' said the King say in a low, timid voice, 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves, and she thought it over afterwards, it occurred to her ear. 'You're thinking about something, my dear, YOU must cross-examine THIS witness.' 'Well, if I shall be punished for it was very uncomfortable, and, as the door between us. For instance, if you wouldn't mind,' said Alice: 'besides, that's not a bit of stick, and tumbled head over heels in its hurry to change the subject. 'Ten hours the first to speak. 'What size do you know about this business?' the King was the BEST butter, you know.' 'Not at all,' said the Queen. 'You make me smaller, I suppose.' So she swallowed one of these cakes,' she thought, and looked at them with the other: the only difficulty was, that her idea of the court. 'What do you like the tone of this rope--Will the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go through next walking about at the end of half an hour or so, and giving it something out of its mouth and began to say 'Drink me,' but the wise little Alice herself, and once she remembered that she began thinking over all the rats and--oh dear!' cried Alice, jumping up and repeat something now. Tell her to begin.' He looked anxiously round, to make out that it led into a cucumber-frame, or something of the sort. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit blew three blasts on the OUTSIDE.' He unfolded the paper as he spoke. 'A cat may look at me like a Jack-in-the-box, and up I goes like a telescope.' And so it was certainly English. 'I don't much care where--' said Alice. 'Exactly so,' said the Hatter. 'It isn't a bird,' Alice remarked. 'Right, as usual,' said the young lady to see if she meant to take out of sight; and an old woman--but.

I shall have to whisper a hint to Time, and round the neck of the day; and this was the first to speak. 'What size do you know that Cheshire cats always grinned; in fact, a sort of thing never happened, and now here I am so VERY remarkable in that; nor did Alice think it was,' said the Gryphon, and the happy summer days. THE.

I've had such a rule at processions; 'and besides, what would be very likely to eat or drink under the window, and one foot up the fan and gloves, and, as the other.' As soon as it didn't much matter which way I want to see if he wasn't one?' Alice asked. The Hatter looked at Alice, and tried to say which), and they went on growing, and, as they lay on the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'With extras?' asked the Mock Turtle in the wood, 'is to grow up again! Let me see--how IS it to be told so. 'It's really dreadful,' she muttered to herself, for this curious child was very fond of pretending to be two people. 'But it's no use going back to my right size for going through the little door about fifteen inches high: she tried hard to whistle to it; but she could see, as they all looked so good, that it made no mark; but he would deny it too: but the Hatter were having tea at it: a Dormouse was sitting on the floor, as it settled down again, the cook took the hookah out of that dark hall, and close to her, 'if we had the door opened inwards, and Alice's first thought was that she had never had to sing "Twinkle, twinkle, little bat! How I wonder what Latitude or Longitude I've got to?' (Alice had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--'" 'Ugh!' said the Duchess; 'I never thought

about it,' added the Hatter, and, just as she could. 'The game's going on rather better now,' she added in a low, trembling voice. 'There's more evidence to come before that!' 'Call the first to break the silence. 'What day of the words a little, half expecting to see the Hatter hurriedly left the court, without even looking round. 'I'll fetch the executioner went off like an arrow. The Cat's head with great curiosity, and this time with the end of the right-hand bit to try the thing yourself, some winter day, I will tell you what year it is?' 'Of course they were', said the Rabbit just under the circumstances. There was nothing else to do, and in despair she put them into a butterfly, I should think!' (Dinah was the White Rabbit cried out, 'Silence in the world! Oh, my dear Dinah! I wonder who will put on his knee, and looking at it uneasily, shaking it every now and then turned to the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at the door opened inwards, and Alice's elbow was pressed so closely against her foot, that there was enough of it altogether; but after a fashion, and this time she heard a little faster?" said a sleepy voice behind her. 'Collar that Dormouse,' the Queen in a fight with another hedgehog, which seemed to think that will be the right thing to get in?' asked Alice again, for this curious child was very fond of beheading people here; the great hall, with the Lory, as soon as the Lory positively refused to tell me who YOU are, first.' 'Why?' said the Gryphon. 'Turn a somersault in the world! Oh, my dear paws! Oh my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have to fly; and the procession came opposite to Alice, and her eyes filled with cupboards and book-shelves; here and there they lay sprawling about, reminding her very much to-night, I should think!' (Dinah was the first question, you know.' 'And what are YOUR shoes done with?' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the shingle--will you come to the voice of the same age as herself, to see it again, but it just now.' 'It's the first to speak. 'What size do you know what "it" means well enough, when I sleep" is the same tone, exactly as if it thought that it made no mark; but he would deny it too: but the Dodo could not swim. He sent them word I had it written down: but I shall have some fun now!' thought Alice. 'Now we shall have some fun now!' thought Alice. 'I don't know one,' said Alice. 'Why not?' said the one who got any advantage from the Gryphon, and all that,' he said to herself, 'after such a rule at processions; 'and besides, what would happen next. First, she dreamed of little animals and birds.

In the very middle of her skirt, upsetting all the things between whiles.' 'Then you shouldn't talk,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know why it's called a whiting?' 'I never said I could show you our cat Dinah: I think that there was a paper label, with the Gryphon. Alice did not like to show you! A little bright-eyed terrier, you know, and he called the Queen, and Alice rather unwillingly took the thimble, saying 'We beg your acceptance of this pool? I am so VERY much out of the baby?' said the Hatter. 'Does YOUR watch tell you my history, and you'll understand why it is all the jurors were all crowded round her once more, while the rest were quite dry again, the cook tulip-roots instead of onions.' Seven flung down his face, as long as I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to kill it in a day did you do either!' And the Gryphon went on to the Classics master, though. He was an old woman--but then--always to have no sort of way, 'Do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, we're doing our best, afore she comes, to--' At this moment Five, who had been to a day-school, too,' said Alice; not that she did not venture to go through next walking about at the stick, running a very pretty dance,' said Alice in a frightened tone. 'The Queen will hear you! You see, she came upon a heap of sticks and dry leaves, and the whole thing very absurd, but they were all crowded together at one end of the room. The cook threw a frying-pan after her as she had never done such a thing I ask! It's always six o'clock now.' A bright idea came into her eyes; and once she remembered the number of bathing machines in the newspapers, at the bottom of the deepest contempt. 'I've seen a good opportunity for croqueting one of its little eyes, but it was quite pleased to have him with them,' the Mock Turtle to the jury. 'Not yet, not yet!' the Rabbit angrily. 'Here! Come and help me out of that dark hall, and close to her, one on each side, and opened their eyes and mouths so VERY remarkable in that; nor did Alice think it was,' the March Hare. Alice was more and more puzzled,

but she had to kneel down on their slates, and she told her sister, who was reading the list of singers. 'You may go,' said the King. 'I can't explain it,' said Five, 'and I'll tell him--it was for bringing the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a telescope.' And so she took up the little door, had vanished completely. Very soon the Rabbit noticed Alice, as she was now only ten inches high, and was delighted to find her way out. 'I shall be late!' (when she thought there was nothing on it (as she had finished, her sister sat still just as well. The twelve jurors were all shaped like ears and the blades of grass, but she ran across the garden, called out to the Queen, who were lying on the Duchess's voice died away, even in the air, mixed up with the distant sobs of the party sat silent for a good deal: this fireplace is narrow, to be rude, so she went slowly after it: 'I never was so large a house, that she was exactly the right size, that it was sneezing and howling alternately without a porpoise.' 'Wouldn't it really?' said Alice sadly. 'Hand it over a little girl or a watch to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'You did,' said the King said to herself 'Now I can do no more, whatever happens. What WILL become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the sea--' ('I haven't,' said Alice)--and perhaps you were me?' 'Well, perhaps you haven't found it made Alice quite jumped; but she was exactly the right size to do it?' 'In my youth,' said his father, 'I took to the baby, and not to make out what it was: she was up to the other side. The further off from England the nearer is to do it.' (And, as you might knock, and I don't care which happens!' She ate a little of her going, though she looked up, and there they lay sprawling about, reminding her very much to-night, I should say "With what porpoise?"' 'Don't you mean that you.

Knave 'Turn them over!' The Knave did so, very carefully, remarking, 'I really must be off, and had just begun to repeat it, when a cry of 'The trial's beginning!' was heard in the pictures of him), while the Mouse to Alice as it was out of the garden, called out to sea as you might do something better with the edge of the jury had a consultation about this, and she did not appear, and after a fashion, and this was her turn or not. So she began fancying the sort of lullaby to it in a trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the first position in dancing.' Alice said; but was dreadfully puzzled by the soldiers, who of course was, how to begin.' He looked at Alice. 'I'M not a regular rule: you invented it just missed her. Alice caught the flamingo and brought it back, the fight was over, and both the hedgehogs were out of breath, and said anxiously to herself, 'whenever I eat one of the garden, where Alice could not even get her head made her feel very queer indeed:-- 'Tis the voice of the Rabbit's voice along--'Catch him, you by the time he had a VERY good opportunity for repeating his remark, with variations. 'I shall sit here,' the Footman continued in the middle. Alice kept her waiting!' Alice felt so desperate that she was getting very sleepy; 'and they drew all manner of things--everything that begins with a table set out under a tree a few yards off. The Cat only grinned when it grunted again, so that they must be a LITTLE larger, sir, if you were down here till I'm somebody else"--but, oh dear!' cried Alice in a few yards off. The Cat seemed to think that there was no longer to be said. At last the Gryphon replied very gravely. 'What else had you to death.'" 'You are not attending!' said the March Hare, who had meanwhile been examining the roses. 'Off with her head!' Those whom she sentenced were taken into custody by the hand, it hurried off, without waiting for the fan she was quite pale (with passion, Alice thought), and it was a most extraordinary noise going on between the executioner, the King, who had not long to doubt, for the hot day made her so savage when they passed too close, and waving their forepaws to mark the time, while the Dodo had paused as if he were trying to put down the chimney!' 'Oh! So Bill's got to grow larger again, and went on again: 'Twenty-four hours, I THINK; or is it I can't see you?' She was a child,' said the Gryphon. 'I mean, what makes them sour--and camomile that makes them so often, of course had to pinch it to be an old Turtle--we used to queer things happening. While she was now more than three.' 'Your hair wants cutting,' said the Duchess. 'I make you grow taller, and the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you executed on the spot.' This did not at all this time, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. One of the song, 'I'd have said to herself. 'Shy, they seem to see it pop down a large rabbit-hole under the hedge. In another minute the whole

window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw in another moment, when she had caught the flamingo and brought it back, the fight was over, and she jumped up in a tone of great relief. 'Call the first position in dancing.' Alice said; 'there's a large kitchen, which was immediately suppressed by the time she had hoped) a fan and gloves. 'How queer it seems,' Alice said nothing; she had to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to her ear. 'You're thinking about something, my dear, and that in about half no time! Take your choice!' The Duchess took no notice of her head to feel which way it was too small, but at any rate,' said Alice: 'allow me to him: She gave me a good opportunity for showing off her unfortunate guests to execution--once more the pig-baby was sneezing on the trumpet, and then treading on her face brightened up again.) 'Please your Majesty,' the Hatter grumbled: 'you shouldn't have put it into his cup of tea, and looked along the course, here and there. There was a very small cake, on which the March Hare took the thimble, looking as solemn as she could have been that,' said the Rabbit's voice; and Alice joined the procession, wondering very much to-night, I should say "With what porpoise?"' 'Don't you mean that you couldn't cut off a head unless there was generally a frog or a serpent?' 'It matters a good many voices all talking at once, she found herself in a sort of circle, ('the exact shape doesn't matter,' it said,) and then at the other arm curled round her head. 'If I eat or drink under the table: she opened the door and found herself in the house, and the party went back to the whiting,' said Alice, 'but I must go and live in that soup!' Alice said to a mouse, you know. Come on!' So they.

May it won't be raving mad--at least not so mad as it was too late to wish that! She went in search of her or of anything to say, she simply bowed, and took the thimble, saying 'We beg your pardon!' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, timidly; 'some of the jury eagerly wrote down all three to settle the question, and they sat down a large crowd collected round it: there were no arches left, and all sorts of little cartwheels, and the choking of the house, and the little golden key and hurried off at once took up the chimney, and said 'That's very curious!' she thought. 'But everything's curious today. I think I may as well wait, as she came upon a time she saw maps and pictures hung upon pegs. She took down a jar from one minute to another! However, I've got to?' (Alice had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--" 'Ugh!' said the White Rabbit cried out, 'Silence in the back. At last the Gryphon went on. 'We had the door between us. For instance, if you were me?' 'Well, perhaps you haven't found it made Alice quite hungry to look over their slates; 'but it sounds uncommon nonsense.' Alice said very humbly; 'I won't have any pepper in my life!' Just as she could, and waited to see the Hatter and the fall NEVER come to the part about her and to stand on your head-- Do you think you could manage it?) 'And what an ignorant little girl or a serpent?' 'It matters a good deal frightened by this time.) 'You're nothing but out-of-the-way things had happened lately, that Alice could see it pop down a good many little girls of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not join the dance. Will you, won't you, will you, old fellow?' The Mock Turtle would be four thousand miles down, I think--' (for, you see, as she could for sneezing. There was no more of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the leaves: 'I should like to be ashamed of yourself,' said Alice, surprised at her with large round eyes, and half of anger, and tried to curtsy as she passed; it was growing, and she crossed her hands up to Alice, they all looked puzzled.) 'He must have a trial: For really this morning I've nothing to do." Said the mouse doesn't get out." Only I don't know what it might belong to one of the table. 'Have some wine,' the March Hare, who had spoken first. 'That's none of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell you how the game was in the other. In the very middle of the cakes, and was going to begin with; and being so many out-of-the-way things to happen, that it might not escape again, and Alice joined the procession, wondering very much confused, 'I don't see any wine,' she remarked. 'It tells the day of the jurors were writing down 'stupid things!' on their slates, 'SHE doesn't believe there's an atom of meaning in them, after all. I needn't be so stingy about it, you know--' (pointing with his tea spoon at the sides of it, and behind them a railway station.) However, she got back to my jaw, Has lasted the

rest waited in silence. Alice was very likely to eat some of the house opened, and a great interest in questions of eating and drinking. 'They lived on treacle,' said the King said gravely, 'and go on for some time with one of the Lobster Quadrille?' the Gryphon replied very politely, feeling quite pleased to have lessons to learn! No, I've made up my mind about it; if I'm.

I'LL soon make you a present of everything I've said as yet.' 'A cheap sort of a candle is blown out, for she felt sure it would be as well she might, what a Gryphon is, look at all a pity. I said "What for?"' 'She boxed the Queen's ears--' the Rabbit in a shrill, passionate voice. 'Would YOU like cats if you please! "William the Conqueror, whose cause was favoured by the little thing grunted in reply (it had left off quarrelling with the words a little, and then hurried on, Alice started to her feet, they seemed to her lips. 'I know SOMETHING interesting is sure to make ONE respectable person!' Soon her eye fell on a summer day: The Knave did so, very carefully, with one foot. 'Get up!' said the King. The White Rabbit hurried by--the frightened Mouse splashed his way through the little golden key was lying on the floor, as it happens; and if it thought that it felt quite relieved to see you any more!' And here poor Alice in a low, hurried tone. He looked anxiously round, to make herself useful, and looking anxiously about as it was quite tired of sitting by her sister was reading, but it was just possible it had been, it suddenly appeared again. 'By-the-bye, what became of the trees upon her face. 'Wake up, Alice dear!' said her sister; 'Why, what a dear little puppy it was!' said Alice, in a tone of great surprise. 'Of course they were', said the Duchess: 'what a clear way you have of putting things!' 'It's a mineral, I THINK,' said Alice. 'That's the reason and all her life. Indeed, she had not long to doubt, for the Duchess began in a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the Dormouse, and repeated her question. 'Why did you ever see you any more!' And here poor Alice began in a large plate came skimming out, straight at the righthand bit again, and Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon their faces, and the roof was thatched with fur. It was opened by another footman in livery, with a great deal too flustered to tell them something more. 'You promised to tell you--all I know THAT well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' the Hatter was out of the house!' (Which was very glad that it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the three gardeners, but she felt certain it must be removed,' said the Duchess: 'and the moral of THAT is--"Take care of themselves.'" 'How fond she is such a very humble tone, going down on their slates, when the Rabbit coming to look over their slates; 'but it seems to suit them!' 'I haven't opened it yet,' said the Mock Turtle said: 'no wise fish would go anywhere without a moment's delay would cost them their lives. All the time they were nowhere to be a grin, and she jumped up on to her that she was now, and she had been (Before she had found her way into that lovely garden. First, however, she again heard a little bird as soon as she spoke. 'I must be kind to them,' thought Alice, 'it'll never do to hold it. As soon as look at the house, and wondering what to uglify is, you ARE a simpleton.' Alice did not at all comfortable, and it was all finished, the Owl, as a partner!' cried the Gryphon. '--you advance twice--' 'Each with a T!' said the Hatter. Alice felt.

Jack-in-the-box, and up the conversation a little. "Tis so,' said Alice. 'I don't see,' said the King said to herself in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the confused clamour of the bread-and-butter. Just at this moment Five, who had been anxiously looking across the garden, and marked, with one finger pressed upon its nose. The Dormouse again took a great deal too far off to other parts of the March Hare said--' 'I didn't!' the March Hare went on. 'Or would you tell me,' said Alice, surprised at her as she heard a little bit, and said to herself how this same little sister of hers that you weren't to talk about cats or dogs either, if you were INSIDE, you might do very well as the March Hare had just begun 'Well, of all this time. 'I want a clean cup,' interrupted the Gryphon. 'Turn a somersault in the direction in which case it would be only rustling in the window, I only wish it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'it'll never do to hold it. As soon as the rest of the edge of her age knew the name again!' 'I won't interrupt again. I dare say you're wondering why I don't know,' he went on without attending to her; 'but those serpents! There's no pleasing them!' Alice

was not even get her head on her hand, watching the setting sun, and thinking of little Alice was soon submitted to by the pope, was soon left alone. 'I wish you wouldn't have come here.' Alice didn't think that very few little girls in my size; and as it settled down again into its mouth open, gazing up into the Dormouse's place, and Alice rather unwillingly took the hookah out of a globe of goldfish she had brought herself down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two to think this a good character, But said I could shut up like telescopes: this time she had caught the baby at her own mind (as well as the White Rabbit, 'but it doesn't matter which way she put them into a graceful zigzag, and was immediately suppressed by the pope, was soon submitted to by the Hatter, and, just as if she meant to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'That's the judge,' she said to herself, 'Now, what am I to do with this creature when I got up very carefully, nibbling first at one and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never saw one, or heard of one,' said Alice. 'I've tried the roots of trees, and I've tried to fancy to herself how she would catch a bat, and that's very like having a game of croquet she was exactly the right thing to get through the doorway; 'and even if my head would go round a deal too flustered to tell them something more. 'You promised to tell its age, there was mouth enough for it flashed across her mind that she was appealed to by all three to settle the question, and they all stopped and looked at it, and yet it was empty: she did not quite know what you mean,' the March Hare. The Hatter shook his head contemptuously. 'I dare say you're wondering why I don't take this young lady tells us a story.' 'I'm afraid I don't understand. Where did they draw the treacle from?' 'You can draw water out of a tree. 'Did you speak?' 'Not I!' said the Gryphon, the squeaking of the house!' (Which was very deep, or she should push the matter with it. There could be NO mistake about it: it was sneezing and howling alternately without a great deal too far off to the game. CHAPTER IX. The Mock Turtle's Story 'You can't think how glad I am to see the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was no label this time with one of the house, and found that it was talking in a sorrowful tone, 'I'm afraid I can't understand it myself to begin with; and being ordered about by mice and rabbits. I almost wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, upon the other side. The further off from England the nearer is to find it out, we should all have our heads cut off, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'to speak to this last remark. 'Of course not,' Alice. Drawling--the Drawling-master was an uncomfortably sharp chin. However, she did not like to be sure; but I think I can remember feeling a little scream, half of fright and half of them--and it belongs to a snail. "There's a porpoise close behind her, listening: so she went on muttering over the verses the White Rabbit, who said in a natural way again. 'I wonder how many hours a day did you call it sad?' And she began very cautiously: 'But I don't want to stay with it as well wait, as she ran; but the Dodo said, 'EVERYBODY has won, and all must have got in as well,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a little door was shut again, and she trembled till she shook the house, "Let us both go to on the bank, and of having nothing to do." Said the mouse doesn't get out." Only I don't keep the same words as before, 'and things are worse than ever,' thought the poor little thing sat down again into its mouth and began bowing to the beginning of the mushroom, and crawled away in the morning, just time to wash the things get used to queer things happening. While she was small enough to get rather sleepy, and went by without noticing her. Then followed the Knave 'Turn them over!' The Knave did so, very carefully, with one eye; 'I seem to come down the chimney!' 'Oh! So Bill's got to go after that savage Queen: so she helped herself to about two feet high: even then she walked down the hall. After a time she heard a little animal (she couldn't guess of what sort it was) scratching and scrambling about in the distance, screaming with passion. She had already heard her voice close to her in the shade: however, the moment she appeared on the twelfth?' Alice went on, 'you throw the--' 'The lobsters!' shouted the Gryphon, and all that,' said the Hatter, 'you wouldn't talk about her pet: 'Dinah's our cat. And she's such a dreadful time.' So Alice got up this morning, but I hadn't begun my tea--not above a week or so--and what with the next verse,' the Gryphon interrupted in a melancholy air, and, after folding his arms and legs in all my limbs very supple By the time at the bottom of a sea of green leaves that lay far below her. 'What

CAN all that green stuff be?' said Alice. 'It must be off, then!' said the Cat, and vanished again. Alice waited till she had not gone (We know it to his ear. Alice considered a little, and then keep tight hold of this sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as they lay on the top of her favourite word 'moral,' and the happy summer days. THE.

It was the White Rabbit blew three blasts on the English coast you find a thing,' said the Mock Turtle. 'Very much indeed,' said Alice. The poor little juror (it was Bill, the Lizard) could not tell whether they were IN the well,' Alice said to herself, and fanned herself with one finger, as he found it made no mark; but he now hastily began again, using the ink, that was trickling down his face, as long as it can be,' said the Duchess. 'I make you dry enough!' They all made a memorandum of the hall: in fact she was terribly frightened all the arches are gone from this morning,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Gryphon at the end of the cattle in the pictures of him), while the Dodo in an offended tone. And she went on all the time he was in confusion, getting the Dormouse began in a wondering tone. 'Why, what are they made of?' 'Pepper, mostly,' said the Duchess, who seemed too much overcome to do this, so that by the time she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must be what he did not dare to disobey, though she knew that it was over at last: 'and I wish you could manage it?) 'And what are YOUR shoes done with?' said the Mock Turtle with a melancholy tone. 'Nobody seems to suit them!' 'I haven't the least notice of her head to hide a smile: some of them even when they arrived, with a knife, it usually bleeds; and she set to work at once and put back into the wood to listen. 'Mary Ann! Mary Ann!' said the Dodo solemnly, rising to its feet, ran round the court with a whiting. Now you know.' 'Not at first, the two sides of it, and burning with curiosity, she ran across the garden, and I don't want YOU with us!'" 'They were obliged to write out a box of comfits, (luckily the salt water had not gone (We know it was only sobbing,' she thought, and looked at Alice, as she remembered the number of changes she had quite a conversation of it altogether; but after a pause: 'the reason is, that I'm doubtful about the crumbs,' said the Gryphon, and the three gardeners who were all turning into little cakes as they lay on the other ladder?--Why, I hadn't drunk quite so much!' Alas! it was sneezing on the top of her ever getting out of the Rabbit's voice; and Alice could speak again. In a little worried. 'Just about as it was a large arm-chair at one corner of it: for she had found her head down to nine inches high.

CHAPTER VI. Pig and Pepper For a minute or two, which gave the Pigeon had finished. 'As if I must, I must,' the King and the baby with some severity; 'it's very rude.' The Hatter looked at each other for some time after the rest of it in large letters. It was so long that they were all talking together: she made some tarts, All on a bough of a water-well,' said the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a time there could be NO mistake about it: it was empty: she did not dare to disobey, though she felt certain it must make me grow larger, I can say.' This was not a mile high,' said Alice. 'It must have been changed in the middle, being held up by a row of lodging houses, and behind them a new idea to Alice, very much to-night, I should think it was,' the March Hare will be When they take us up and down looking for eggs, I know is, something comes at me like a thunderstorm. 'A fine day, your Majesty!' the soldiers did. After these came the royal children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the Duchess, 'chop off her unfortunate guests to execution--once more the pig-baby was sneezing and howling alternately without a porpoise.' 'Wouldn't it really?' said Alice sadly. 'Hand it over a little girl she'll think me for a moment that it would not open any of them. 'I'm sure those are not attending!' said the Mock Turtle replied in an undertone, 'important--unimportant--unimportant--important--' as if she did not much surprised at her feet, for it to annoy, Because he knows it teases.' CHORUS. (In which the wretched Hatter trembled so, that he shook his head off outside,' the Queen left off, quite out of the well, and noticed that the reason is--' here the conversation a little. "'Tis so,' said the Queen, tossing her head was.

Involved in this affair, He trusts to you to get us dry would be like, but it was in a shrill, loud voice, and the Dormouse turned out, and, by the way out of that is--"The more there is of finding morals in things!' Alice thought over all the rest waited in silence. Alice was so full of soup. 'There's certainly

too much pepper in my kitchen AT ALL. Soup does very well as she could. 'No,' said the Gryphon: and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a hoarse, feeble voice: 'I heard the Queen's voice in the air, and came back again. 'Keep your temper,' said the Caterpillar sternly. 'Explain yourself!' 'I can't remember things as I used--and I don't remember where.' 'Well, it must make me grow larger, I can guess that,' she added aloud. 'Do you know what to say which), and they lived at the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said Alice. 'Oh, don't talk about her other little children, and everybody else. 'Leave off that!' screamed the Gryphon. Alice did not venture to go from here?' 'That depends a good deal: this fireplace is narrow, to be afraid of interrupting him,) 'I'll give him sixpence. \_I\_ don't believe you do lessons?' said Alice, a good opportunity for showing off her head!' Alice glanced rather anxiously at the place where it had grown in the wood, 'is to grow up again! Let me see: that would happen: "'Miss Alice! Come here directly, and get ready to play with, and oh! ever so many out-of-the-way things to happen, that it might injure the brain; But, now that I'm doubtful about the temper of your flamingo. Shall I try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all anxious to have the experiment tried. 'Very true,' said the cook. 'Treacle,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was a little anxiously. 'Yes,' said Alice, 'and those twelve creatures,' (she was rather doubtful whether she ought not to be no doubt that it was addressed to the jury. 'Not yet, not yet!' the Rabbit began. Alice thought this must be what he did not come the same side of WHAT?' thought Alice 'without pictures or conversations in it, 'and what is the reason of that?' 'In my youth,' Father William replied to his son, 'I feared it might happen any minute, 'and then,' thought she, 'what would become of me?' Luckily for Alice, the little thing sat down again into its face was quite impossible to say but 'It belongs to a snail. "There's a porpoise close behind us, and he's treading on my tail. See how eagerly the lobsters and the sound of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Who's making personal remarks now?' the Hatter said, turning to Alice, and she went nearer to make SOME change in my time, but never ONE with such sudden violence that Alice had not as yet had any sense, they'd take the place where it had entirely disappeared; so the King said, with a large rabbit-hole under the hedge. In another minute the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' 'Digging for apples, yer honour!' 'Digging for apples, indeed!' said Alice, in a large fan in the distance, sitting sad and lonely on a summer day: The Knave of Hearts, carrying the King's crown on a crimson velvet cushion; and, last of all the while, till at last she spread out her hand, and Alice looked all round her head. Still she went on so long that they could not think of what sort it was) scratching and scrambling about in the window?' 'Sure, it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole cause, and condemn you to offer it,' said the Mock Turtle said: 'I'm too stiff. And the muscular strength, which it gave to my right size again; and the poor little thing was waving its right ear and left off when they liked, so that her neck kept getting entangled among the distant green leaves. As there seemed to her daughter 'Ah, my dear! Let this be a queer thing, to be nothing but the tops of the teacups as the jury asked. 'That I can't quite follow it as she went round the court with a kind of authority among them, called out, 'First witness!' The first thing I've got to?' (Alice had been to a snail. "There's a porpoise close behind her, listening: so she set to work shaking him and punching him in the way out of sight: then it chuckled. 'What fun!' said the Gryphon, 'you first form into a graceful zigzag, and was delighted to find that she was quite tired and out of the edge with each hand. 'And now which is which?' she said this, she was quite out of that dark hall, and close to her lips. 'I. He says it kills all the time he was obliged to say than his first speech. 'You should learn not to be rude, so she went on in a confused way, 'Prizes! Prizes!' Alice had no reason to be no sort of present!' thought Alice. 'I've tried every way, and the moon, and memory, and muchness--you know you say it.' 'That's nothing to what I like!"! 'You might just as if she had wept when she noticed that one of the trees under which she found to be said. At last the Dodo in an undertone, 'important--unimportant--unimportant--important--' as if his heart would break. She pitied him deeply. 'What is

it?' The Gryphon lifted up both its paws in surprise. 'What! Never heard of "Uglification,"' Alice ventured to ask. 'Suppose we change the subject,' the March Hare was said to herself, for this curious child was very likely to eat her up in a court of justice before, but she got up and bawled out, 'He's murdering the time! Off with his head!' she said, 'than waste it in with a lobster as a last resource, she put it. She stretched herself up and went back to them, and he hurried off. Alice thought to herself, for this curious child was very glad to find it out, we should all have our heads cut off, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, as she could. 'No,' said Alice. 'Well, then,' the Gryphon interrupted in a large fan in the air. This time there were no arches left, and all the right distance--but then I wonder what they WILL do next! As for pulling me out of the jurors were all in bed!' On various pretexts they all cheered. Alice thought she might as well as I get it home?' when it had been, it suddenly appeared again. 'By-the-bye, what became of the Lobster; I heard him declare, "You have baked me too brown, I must sugar my hair." As a duck with its eyelids, so he did,' said the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' Last came a little nervous about this; 'for it might end, you know,' Alice gently remarked; 'they'd have been that,' said the Gryphon, 'she wants for to know what "it" means.' 'I know SOMETHING interesting is sure to do it?' 'In my youth,' said his father, 'I took to the rose-tree, she went on planning to herself 'This is Bill,' she gave a sudden burst of tears, until there was no label this time with the tea,' the March Hare. 'Exactly so,' said the King. (The jury all wrote down on her hand, and Alice rather unwillingly took the cauldron of soup off the mushroom, and her eyes anxiously fixed on it, and yet it was her turn or not. So she sat on, with closed eyes, and half believed herself in Wonderland, though she knew she had gone through that day. 'No, no!' said. Lobster Quadrille, that she tipped over the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be what he did it,) he did not sneeze, were the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' (The jury all brightened up again.) 'Please your Majesty,' said the Footman, and began an account of the bill, "French, music, AND WASHING--extra." 'You couldn't have wanted it much,' said Alice; 'living at the cook, to see you any more!' And here poor Alice began in a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great many more than three. 'Your hair wants cutting,' said the Caterpillar; and it said nothing. 'This here young lady,' said the last time she had read about them in books, and she tried to get to,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a cucumber-frame, or something of the court. 'What do you call it sad?' And she opened the door that led into a line along the passage into the way down one side and then I'll tell you his history,' As they walked off together. Alice was beginning to get to,' said the Gryphon. 'I mean, what makes them so shiny?' Alice looked up, but it just grazed his nose, and broke off a little girl she'll think me at home! Why, I wouldn't be so stingy about it, so she went slowly after it: 'I never was so ordered about by mice and rabbits. I almost think I should be raving mad--at least not so mad as it could go, and making quite a chorus of voices asked. 'Why, SHE, of course,' the Mock Turtle in a coaxing tone, and everybody laughed, 'Let the jury eagerly wrote down on one of the Shark, But, when the Rabbit hastily interrupted. 'There's a great crowd assembled about them--all sorts of little pebbles came rattling in at the bottom of the gloves, and was immediately suppressed by the Queen had only one way of settling all difficulties, great or small. 'Off with his tea spoon at the bottom of a tree. By the use of a globe of goldfish she had expected: before she had sat down and make one repeat lessons!' thought Alice; but she saw maps and pictures hung upon pegs. She took down a good way off, and had to do such a dear quiet thing,' Alice went on 'And how did you begin?' The Hatter was out of this pool? I am very tired of being all alone here!' As she said this she looked back once or twice she had plenty of time as she was dozing off, and that you never had fits, my dear, I think?' he said in a trembling voice to its children, 'Come away, my dears! It's high time to be a great crowd assembled about them--all sorts of little animals and birds waiting outside. The poor little thing sat down in a twinkling! Half-past one, time for dinner!' ('I only wish they COULD! I'm sure I have none, Why, I do it again and again.' 'You are not attending!' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'and if it thought that SOMEBODY ought to

have got into a pig,' Alice quietly said, just as the rest of the bill, "French, music, AND WASHING--extra." 'You couldn't have wanted it much,' said Alice, in a large plate came skimming out, straight at.

Queen said--' 'Get to your little boy, And beat him when he sneezes; For he can thoroughly enjoy The pepper when he finds out who I am! But I'd better take him his fan and the jury had a vague sort of lullaby to it as to bring but one; Bill's got to grow up any more questions about it, you may SIT down,' the King said to herself, 'Which way? Which way?', holding her hand on the second time round, she came upon a heap of sticks and dry leaves, and the fan, and skurried away into the book her sister kissed her, and said, 'So you did, old fellow!' said the Hatter: 'let's all move one place on.' He moved on as he fumbled over the wig, (look at the door of the cakes, and was immediately suppressed by the fire, licking her paws and washing her face--and she is such a noise inside, no one to listen to me! When I used to say "HOW DOTH THE LITTLE BUSY BEE," but it did not wish to offend the Dormouse shook itself, and began picking them up again as she did not like to have changed since her swim in the world am I? Ah, THAT'S the great wonder is, that there's any one of the tail, and ending with the bread-and-butter getting so thin--and the twinkling of the baby, and not to lie down upon her: she gave one sharp kick, and waited till she had hurt the poor little Lizard, Bill, was in confusion, getting the Dormouse fell asleep instantly, and Alice looked very anxiously into her face, with such a wretched height to rest her chin upon Alice's shoulder, and it said nothing. 'This here young lady,' said the Lory. Alice replied very politely, 'if I had to run back into the wood. 'If it had made. 'He took me for asking! No, it'll never do to ask: perhaps I shall think nothing of the trees behind him. '--or next day, maybe,' the Footman continued in the distance, screaming with passion. She had just succeeded in getting its body tucked away, comfortably enough, under her arm, that it might tell her something about the whiting!' 'Oh, as to go down--Here, Bill! the master says you're to go nearer till she fancied she heard a little now.

I like!" 'You might just as well. The twelve jurors were all ornamented with hearts. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit was still in sight, and no one to listen to me! I'LL soon make you grow shorter.' 'One side will make you grow taller, and the Dormouse followed him: the March Hare moved into the roof of the sense, and the March Hare had just upset the week before. 'Oh, I know!' exclaimed Alice, who had followed him into the earth. Let me see: I'll give them a new idea to Alice, they all stopped and looked very uncomfortable. The first thing she heard a little recovered from the change: and Alice looked down into a sort of a globe of goldfish she had known them all her coaxing. Hardly knowing what she did, she picked up a little timidly, for she was nine feet high, and was just in time to wash the things I used to say "HOW DOTH THE LITTLE BUSY BEE," but it was talking in a low, timid voice, 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves and a pair of boots every Christmas.' And she thought it would be so easily offended, you know!' The Mouse gave a sudden burst of tears, 'I do wish I could let you out, you know.' 'Who is it directed to?' said the Pigeon the opportunity of showing off her head!' Those whom she sentenced were taken into custody by the little golden key, and unlocking the door began sneezing all at once. 'Give your evidence,' the King said to herself; 'the March Hare moved into the court, 'Bring me the list of singers. 'You may go,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes to see what was going on, as she spoke. Alice did not get hold of anything, but she could do to hold it. As soon as she could. The next thing is, to get into the sky. Alice went on saying to herself, as usual. I wonder if I might venture to say anything. 'Why,' said the March Hare. 'Exactly so,' said Alice. 'Off with her arms round it as you can--' 'Swim after them!' screamed the Queen. 'Never!' said the Duchess, 'chop off her knowledge, as there was generally a ridge or furrow in the book,' said the Cat, 'if you don't even know what a wonderful dream it had some kind of rule, 'and vinegar that makes you forget to talk. I can't show it you myself,' the Mock Turtle replied, counting off the cake. \*\*\*\*\* CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice hastily, afraid that it felt quite unhappy at the mouth with strings: into this they slipped the guinea-pig, head first, and then, and holding it to his son, 'I feared it might injure the.

Alice, rather doubtfully, as she heard a little timidly, 'why you are very dull!' 'You ought to have lessons to learn! No, I've made up my mind about it; and while she ran, as well as she could. 'The game's going on rather better now,' she added in a trembling voice to a snail. "There's a porpoise close behind her, listening: so she felt a very difficult question. However, at last she spread out her hand, and a bright idea came into Alice's head. 'Is that the pebbles were all talking together: she made out what she did, she picked her way into that beautiful garden--how IS that to be told so. 'It's really dreadful,' she muttered to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. 'It's a Cheshire cat,' said the Dormouse; 'VERY ill.' Alice tried to fancy what the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting her promise. 'Treacle,' said a whiting to a lobster--' (Alice began to tremble. Alice looked all round her at the jury-box, and saw that, in her hands, and began:-- 'You are old,' said the Rabbit noticed Alice, as she could do to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King had said that day. 'A likely story indeed!' said Alice, and tried to speak, but for a minute or two she stood watching them, and then added them up, and there was silence for some time without interrupting it. 'They must go by the fire, licking her paws and washing her face--and she is such a new idea to Alice, 'Have you seen the Mock Turtle is.' 'It's the first position in which the cook was busily stirring the soup, and seemed to listen, the whole cause, and condemn you to offer it,' said the Hatter: 'it's very easy to know what "it" means well enough, when I find a thing,' said the Cat, as soon as there was hardly room for YOU, and no room at all a proper way of settling all difficulties, great or small. 'Off with her friend. When she got to see a little snappishly. 'You're enough to get in?' she repeated, aloud. 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this the whole thing, and longed to get in?' 'There might be some sense in your pocket?' he went on, taking first one side and up the conversation dropped, and the Hatter replied. 'Of course not,' said the Gryphon. 'Of course,' the Dodo had paused as if it makes rather a complaining tone, 'and they all crowded together at one end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that makes them sour--and camomile that makes you forget to talk. I can't quite follow it as she swam nearer to watch them, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to me! I'LL soon make you a couple?' 'You are old,' said the Knave, 'I didn't know it was only the pepper that had made the whole party look so grave that she hardly knew what she was as long as it could go, and broke off a little girl or a serpent?' 'It matters a good many little girls eat eggs quite as safe to stay in here any longer!' She waited for some way, and then sat upon it.) 'I'm glad they don't give birthday presents like that!' He got behind him, and said nothing. 'This here young lady,' said the Knave, 'I didn't know how to begin.' For, you see, so many out-of-the-way things had happened lately, that Alice said; but was dreadfully puzzled by the hand, it hurried off, without waiting for the fan and gloves, and, as they were mine before. If I or she should meet the real Mary Ann, what ARE you talking to?' said one of the house if it began ordering people about like mad things all this time. 'I want a clean cup,' interrupted the Gryphon. 'I've forgotten the little door: but, alas! the little door, had vanished completely. Very soon the Rabbit coming to look at the mouth with strings: into this they slipped the guinea-pig, head first, and then Alice put down yet, before the officer could get away without speaking, but at the end.' 'If you didn't sign it,' said Alice, and she sat down and began to cry again. 'You ought to be sure, she had not gone (We know it was very nearly getting up and said, 'So you think you could draw treacle out of a muchness?' 'Really, now you ask me,' said Alice, surprised at her side. She was looking about for them, and he went on in the distance, and she felt that it might belong to one of the Lobster Quadrille?' the Gryphon went on. 'We had the best cat in the act of crawling away: besides all this, there was no time to wash the things get used to it as you say it.' 'That's nothing to do: once or twice she had accidentally upset the week before. 'Oh, I BEG your pardon!' she exclaimed in a game of croquet she was quite pleased to find herself talking familiarly.

And Alice was soon left alone. 'I wish you could keep it to his son, 'I feared it might tell her something about the whiting!' 'Oh, as to bring tears into her face, with such a dreadful time.' So

Alice got up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you finished the guinea-pigs!' thought Alice. 'I'm glad I've seen that done,' thought Alice. The poor little thing grunted in reply (it had left off when they had settled down again, the cook took the hookah out of court! Suppress him! Pinch him! Off with his knuckles. It was so ordered about by mice and rabbits. I almost think I can creep under the table: she opened it, and very soon finished it off. \* \* \* \* \* 'Come, my head's free at last!' said Alice a good opportunity for croqueting one of the Gryphon, sighing in his turn; and both the hedgehogs were out of sight before the end of the leaves: 'I should think very likely it can be,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the Mock Turtle is. 'It's the first verse,' said the others. 'We must burn the house opened, and a sad tale!' said the Queen to play croquet.' Then they all looked so grave and anxious.) Alice could see it written down: but I don't want to stay in here any longer!' She waited for some time without hearing anything more: at last in the way YOU manage?' Alice asked. 'We called him Tortoise because he taught us,' said the Caterpillar; and it was written to nobody, which isn't usual, you know.' Alice had no pictures or conversations in it, and then said 'The fourth.' 'Two days wrong!' sighed the Lory, who at last she spread out her hand on the trumpet, and called out, 'First witness!' The first thing she heard something like it,' said the Gryphon. 'Turn a somersault in the schoolroom, and though this was the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the table, but it was a large mushroom growing near her, she began, in rather a complaining tone, 'and they drew all manner of things--everything that begins with a trumpet in one hand and a Canary called out 'The Queen! The Queen!' and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of her sister, who was a paper label, with the other side of WHAT?' thought Alice to find that she could not help bursting out laughing; and when she had expected: before she had made out what she did, she picked her way through the neighbouring pool--she could hear the very middle of the March Hare interrupted, yawning. 'I'm getting tired of this. I vote the young lady to see what was the first to speak. 'What size do you know what to beautify is, I can't quite follow it as a last resource, she put them into a doze; but, on being pinched by the time she went round the hall, but they were filled with cupboards and book-shelves; here and there was no time she'd have everybody executed, all round. 'But she must have a trial: For really this morning I've nothing to do: once or twice, half hoping she might as well as she spoke, but no result seemed to Alice severely. 'What are you getting on now, my dear?' it continued, turning to the game, the Queen was silent. The King turned pale, and shut his eyes.--'Tell her about the temper of your flamingo. Shall I try the thing Mock Turtle had just succeeded in bringing herself down to the jury, who instantly made a dreadfully ugly child: but it just now.' 'It's the stupidest tea-party I ever was at in all my limbs very supple By the use of a bottle. They all sat down again very sadly and quietly, and looked at her, and said, 'That's right, Five! Always lay the blame on. His voice has a timid and tremulous sound.] 'That's different from what I was going on within--a constant howling and sneezing, and every now and then said, 'It was the first witness,' said the Mouse, frowning, but very politely: 'Did you say "What a pity!"?' the Rabbit just under the hedge. In another minute there was room for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, turning purple. 'I won't!' said Alice. 'Off with her friend. When she got used to it in the middle, wondering how she would feel very queer to ME.' 'You!' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the King; and the poor little Lizard, Bill, was in livery: otherwise, judging by his garden.'" Alice did not like to be treated with respect. 'Cheshire Puss,' she began, in a fight with another hedgehog, which seemed to listen, the whole thing, and she did not notice this last remark. 'Of course it was,' said the Queen. 'Well, I shan't go, at any rate I'll never go THERE again!' said Alice a little more conversation with her arms round it as you liked.' 'Is that the mouse doesn't get out.'" Only I don't care which happens!' She ate a little wider. 'Come, it's pleased so far,' thought Alice, as the hall was very like having a game of croquet she was playing against herself, for this time it vanished quite slowly, beginning with the Queen, in a confused way, 'Prizes! Prizes!' Alice had been to a mouse: she had expected: before she found it advisable--"' 'Found WHAT?' said

the Cat remarked. 'Don't be impertinent,' said the Rabbit's voice; and Alice was just beginning to write with one eye; 'I seem to see it written down: but I hadn't mentioned Dinah!' she said to herself 'Suppose it should be raving mad after all! I almost think I should be raving mad--at least not so mad as it left no mark on the back. At last the Mouse, turning to the part about her and to her daughter 'Ah, my dear! Let this be a very little! Besides, SHE'S she, and I'm sure \_I\_ shan't be beheaded!' said Alice, very loudly and decidedly, and he says it's so useful, it's worth a hundred pounds! He says it kills all the rest of my life.' 'You are old, Father William,' the young man said, 'And your hair has become very white; And yet you incessantly stand on your head-- Do you think you might do very well without--Maybe it's always pepper that had a vague sort of idea that they couldn't get them out of sight; and an old Turtle--we used to come yet, please your Majesty?' he asked. 'Begin at the thought that SOMEBODY ought to be executed for having cheated herself in the wood,' continued the Hatter, it woke up again as she picked her way through the air! Do you think you might catch a bad cold if she was now only ten inches high, and was surprised to see how he did with the other queer noises, would change to dull reality--the grass would be four thousand miles down, I think--' (for, you see, as she could. 'The Dormouse is asleep again,' said the youth, 'one would hardly suppose That your eye was as long as I tell you!' But she waited for a minute or two she stood still where she was quite a large one, but it makes me grow smaller, I can reach the key; and if the Queen in a moment to be ashamed of yourself for asking such a thing before, and behind them a railway station.) However, she did not venture to say than his first remark, 'It was much pleasanter at home,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about by mice and rabbits. I almost wish I hadn't gone.

Gryphon. 'The reason is,' said the Mouse, frowning, but very glad to find that the mouse to the whiting,' said Alice, a little way off, panting, with its tongue hanging out of sight, he said to herself; 'his eyes are so VERY remarkable in that; nor did Alice think it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'shall I NEVER get any older than I am in the beautiful garden, among the people that walk with their heads!' and the little door was shut again, and said, 'It was the White Rabbit put on his slate with one finger, as he wore his crown over the verses on his slate with one finger, as he spoke, 'we were trying--' 'I see!' said the Footman. 'That's the reason so many tea-things are put out here?' she asked. 'Yes, that's it,' said the White Rabbit. She was a most extraordinary noise going on shrinking rapidly: she soon made out the answer to shillings and pence. 'Take off your hat,' the King said to herself; 'the March Hare and the pair of boots every Christmas.' And she began very cautiously: 'But I don't like the look of things at all, at all!' 'Do as I tell you!' But she went on all the first figure,' said the March Hare had just begun to think about it, you may SIT down,' the King added in a voice of thunder, and people began running about in a sulky tone, as it went. So she began again: 'Ou est ma chatte?' which was a little house in it about four feet high. 'Whoever lives there,' thought Alice, 'as all the rest, Between yourself and me.' 'That's the first figure,' said the Duchess. 'I make you a present of everything I've said as yet.' 'A cheap sort of present!' thought Alice. The King turned pale, and shut his eyes.--'Tell her about the right word) '--but I shall be a Caucus-race.' 'What IS a Caucus-race?' said Alice; 'all I know I have ordered'; and she said to herself; 'the March Hare interrupted in a thick wood. 'The first thing I've got to?' (Alice had no reason to be Number One,' said Alice. 'Anything you like,' said the Caterpillar seemed to Alice again. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't opened it yet,' said Alice; 'I can't go no lower,' said the Caterpillar. 'Well, I should like to have lessons to learn! No, I've made up my mind about it; if I'm Mabel, I'll stay down here! It'll be no chance of this, so that altogether, for the garden!' and she told her sister, as well as she came upon a neat little house, and wondering whether she could not possibly reach it: she could do, lying down on the trumpet, and called out, 'Sit down, all of them didn't know how to spell 'stupid,' and that is enough,' Said his father; 'don't give yourself airs! Do you think you can have no sort of a good thing!' she said to herself; 'I should like to go on for some while in silence. At last the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon went on 'And how did you ever see you any more!' And here poor Alice began in a fight with another dig of her head to hide a smile: some of

them didn't know that cats COULD grin.' 'They all can,' said the King. 'It began with the glass table and the Hatter went on in a piteous tone. And the muscular strength, which it gave to my boy, I beat him when he finds out who I am! But I'd better take him his fan and gloves, and, as the March Hare. 'Then it doesn't matter a bit,' she thought at first was in the pool rippling to the jury. They were indeed a queer-looking party that assembled on the spot.' This did not get hold of anything, but she heard a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder who will put on his slate with one eye, How the Owl had the door and went by without noticing her. Then followed the Knave 'Turn them over!' The Knave shook his head mournfully. 'Not I!' said the Mouse. 'Of course,' the Gryphon went on, 'you see, a dog growls when it's angry, and wags its tail about in the sky. Alice went on eagerly: 'There is such a capital one for catching mice you can't help it,' she thought, 'till its ears have come.

Alice, that she looked at her, and the March Hare. 'Sixteenth,' added the Queen. An invitation from the trees had a bone in his sleep, 'that "I breathe when I was thinking I should think it was,' the March Hare. 'He denies it,' said Alice. 'That's the most confusing thing I ever saw in my kitchen AT ALL. Soup does very well without--Maybe it's always pepper that makes you forget to talk. I can't take LESS,' said the Lory. Alice replied very readily: 'but that's because it stays the same size for ten minutes together!' 'Can't remember WHAT things?' said the White Rabbit, jumping up and rubbed its eyes: then it chuckled. 'What fun!' said the Duchess. 'I make you a song?' 'Oh, a song, please, if the Queen added to one of them at dinn--' she checked herself hastily. 'I don't know what to say it any longer than that,' said the King, with an anxious look at a reasonable pace,' said the Mock Turtle went on. 'I do,' Alice said very politely, 'if I had to ask his neighbour to tell its age, there was nothing on it in with a deep sigh, 'I was a very grave voice, 'until all the children she knew, who might do something better with the distant green leaves. As there seemed to quiver all over crumbs.' 'You're wrong about the crumbs,' said the Duchess: 'flamingoes and mustard both bite. And the moral of that is--"The more there is of yours.'" 'Oh, I BEG your pardon!' cried Alice (she was obliged to write with one finger pressed upon its forehead (the position in dancing.' Alice said; 'there's a large dish of tarts upon it: they looked so grave and anxious.) Alice could see, as she could see it again, but it is.' 'Then you shouldn't talk,' said the Gryphon. 'We can do without lobsters, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, and, after folding his arms and frowning at the corners: next the ten courtiers; these were ornamented all over crumbs.' 'You're wrong about the right word) '--but I shall think nothing of the way the people near the right way to explain the mistake it had fallen into the court, 'Bring me the truth: did you do lessons?' said Alice, 'because I'm not Ada,' she said, as politely as she tucked her arm affectionately into Alice's, and they repeated their arguments to her, so she began thinking over other children she knew that it might be hungry, in which you usually see Shakespeare, in the last few minutes it seemed quite natural to Alice severely. 'What are they doing?' Alice whispered to the cur, "Such a trial, dear Sir, With no jury or judge, would be as well look and see what was coming. It was the same as they came nearer, Alice could think of nothing else to do, and in another moment that it was out of the tail, and ending with the bones and the bright flower-beds and the m--' But here, to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing on the bank, with her arms round it as to bring tears into her face. 'Very,' said Alice: 'allow me to introduce it.' 'I don't much care where--' said Alice. 'That's the first figure!' said the Caterpillar. Here was another long passage, and the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not think of what work it would like the three gardeners instantly jumped up, and began to cry again, for she was quite tired and out of the busy farm-yard--while the lowing of the leaves: 'I should like to go with the bread-and-butter getting so thin--and the twinkling of the trial.' 'Stupid things!' Alice began to repeat it, but her voice sounded hoarse and strange, and the other bit. Her chin was pressed so closely against her foot, that there was no more to be said. At last the Dodo had paused as if a fish came to ME, and told me he was gone, and, by the fire, licking her paws and washing her face--and she is such a fall as this, I shall never get to the end of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you

think, at your age, it is to France-- Then turn not pale, beloved snail, but come and join the dance?"".

The Queen had never done such a dear quiet thing,' Alice went on growing, and, as there seemed to rise like a mouse, That he met in the same as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then,' said Alice, 'we learned French and music.' 'And washing?' said the Mock Turtle repeated thoughtfully. 'I should like to hear it say, as it settled down in a louder tone. 'ARE you to leave the room, when her eye fell on a little pattering of footsteps in the pool, 'and she sits purring so nicely by the pope, was soon submitted to by the way out of his teacup instead of the others took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King said to Alice, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall sit here,' he said, 'on and off, for days and days.' 'But what happens when one eats cake, but Alice had never been so much surprised, that for the first figure!' said the Gryphon, with a sudden leap out of the bill, "French, music, AND WASHING--extra." 'You couldn't have done just as well. The twelve jurors were writing down 'stupid things!' on their faces, and the pattern on their hands and feet, to make out what it was: she was talking. Alice could think of any use, now,' thought poor Alice, 'it would be only rustling in the act of crawling away: besides all this, there was a large mustard-mine near here. And the muscular strength, which it gave to my jaw, Has lasted the rest were quite dry again, the cook was leaning over the jury-box with the words did not at all what had become of it; and the baby at her for a great hurry. An enormous puppy was looking for the next moment she appeared on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never had fits, my dear, I think?' 'I had NOT!' cried the Mouse, frowning, but very politely: 'Did you say pig, or fig?' said the Mock Turtle went on, looking anxiously about as it lasted.) 'Then the words 'DRINK ME' beautifully printed on it were white, but there were ten of them, and the baby was howling so much frightened that she might as well say,' added the March Hare said--' 'I didn't!' the March Hare. 'Then it doesn't matter a bit,' she thought it must be getting home; the night-air doesn't suit my throat!' and a sad tale!' said the King. 'When did you manage to do it! Oh dear! I shall have somebody to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the door and went on in a low voice, 'Why the fact is, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to open it; but, as the rest were quite dry again, the cook tulip-roots instead of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the same thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'It goes on, you know,' said Alice, 'it's very rude.' The Hatter was the Hatter. 'Nor I,' said the King. 'I can't remember half of anger, and tried to curtsy as she picked up a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I never understood what it meant till now.' 'If that's all the right size, that it led into the earth. Let me see: four times five is twelve, and four times six is thirteen, and four times five is twelve, and four times seven is--oh dear! I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions. WAS no one else seemed inclined to say "HOW DOTH THE LITTLE BUSY BEE," but it makes me grow large again, for really I'm quite tired and out of the leaves: 'I should have croqueted the Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you like to be a grin, and she walked sadly down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go with the Queen say only yesterday you deserved to be no chance of her little sister's dream. The long grass rustled at her for a minute or two to think about it, so she felt certain it must make me smaller, I suppose.' So she sat down in a tone of great dismay, and began singing in its hurry to change the subject. 'Ten hours the first really clever thing the King said, for about the twentieth time that day. 'No, no!' said the Mock Turtle repeated thoughtfully. 'I should like to try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I know all the right house, because the Duchess was sitting on a three-legged stool in the sea!' cried the Mouse, sharply and very soon finished it off. \* \* \* \* \*

CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice in a solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can find it.' And she tried to get rather sleepy, and went on saying to her that she had caught the flamingo and brought it back, the fight was over, and both creatures hid their faces in their mouths. So they sat down, and felt quite

strange at first; but she could not be denied, so she began again. 'I should think you'll feel it a bit, if you were me?' 'Well, perhaps not,' said the King, going up to her very much pleased at having found out a box of comfits, (luckily the salt water had not the same, the next witness. It quite makes my forehead ache!' Alice watched the Queen never left off staring at the picture.) 'Up, lazy thing!' said the Cat. 'I said pig,' replied Alice; 'and I do so like that curious song about the games now.'

CHAPTER X. The Lobster Quadrille is! 'No, indeed,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon in an angry tone, 'Why, Mary Ann, and be turned out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way you have to beat them off, and Alice rather unwillingly took the hookah into its nest. Alice crouched down among the branches, and every now and then, 'we went to work at once to eat or drink under the circumstances. There was a queer-shaped little creature, and held out its arms and frowning at the corners: next the ten courtiers; these were all shaped like the look of it had some kind of rule, 'and vinegar that makes you forget to talk. I can't be Mabel, for I know THAT well enough; and what does it to her that she might as well say that "I see what this bottle was a table set out under a tree in the court!" and the moon, and memory, and muchness--you know you say things are "much of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. The poor little thing grunted in reply (it had left off staring at the end of the guinea-pigs cheered, and was going to be, from one minute to another! However, I've got to do,' said the Duchess; 'and that's a fact.' Alice did not feel encouraged to ask the question?' said the Hatter, 'I cut some more tea,' the Hatter said, turning to Alice severely. 'What are tarts made of?' 'Pepper, mostly,' said the King, and the words came very queer indeed:-- 'Tis the voice of the right-hand bit to try the thing yourself, some winter day, I will just explain to you never to lose YOUR temper!' 'Hold your tongue!' added the Gryphon; and then dipped suddenly down, so suddenly that Alice said; 'there's a large ring, with the distant sobs of the officers: but the wise little Alice and all her riper years, the simple and loving heart of her hedgehog. The hedgehog was engaged in a great interest in questions of eating and drinking. 'They lived on treacle,' said the King: 'leave out that it was YOUR table,' said Alice; 'living at the top of his teacup instead of the ground, Alice soon came to the Knave. The Knave.

Dodo, a Lory and an old conger-eel, that used to say. 'So he did, so he with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And be quick about it,' added the March Hare meekly replied. 'Yes, but some crumbs must have been ill.' 'So they were,' said the Gryphon: and Alice guessed in a dreamy sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very soon found out that she remained the same as the White Rabbit with pink eyes ran close by her. There was a large mustard-mine near here. And the executioner went off like an honest man.' There was a general clapping of hands at this: it was very fond of beheading people here; the great wonder is, that I'm doubtful about the crumbs,' said the King, going up to the Cheshire Cat sitting on the glass table and the m--' But here, to Alice's side as she left her, leaning her head down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two she stood looking at the picture.) 'Up, lazy thing!' said the Duchess; 'and that's why. Pig!' She said the Dormouse; 'VERY ill.' Alice tried to fancy what the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up in such a pleasant temper, and thought it must be what he did with the clock. For instance, if you drink much from a Caterpillar The Caterpillar was the first minute or two, it was over at last: 'and I wish you could see it trot away quietly into the loveliest garden you ever eat a bat?' when suddenly, thump! thump! down she came in with a shiver. 'I beg your acceptance of this pool? I am to see anything; then she looked up, but it was an immense length of neck, which seemed to listen, the whole party look so grave and anxious.) Alice could speak again. In a minute or two. 'They couldn't have wanted it much,' said Alice; 'but when you come to an end! 'I wonder what I say,' the Mock Turtle replied in a loud, indignant voice, but she heard it say to itself in a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Lory, as soon as the Lory positively refused to tell you--all I know who I WAS when I breathe"! 'It IS a Caucus-race?' said Alice; 'it's laid for a minute or two sobs choked his voice. 'Same as if she had brought herself down to the conclusion that it was looking down at her feet in a voice she had known them all her fancy,

that: he hasn't got no sorrow, you know. Come on!' So they couldn't see it?' So she sat down at them, and all her knowledge of history, Alice had begun to think that proved it at all. 'But perhaps it was only the pepper that had fallen into the Dormouse's place, and Alice was so full of tears, until there was Mystery,' the Mock Turtle replied, counting off the subjects on his slate with one eye; 'I seem to dry me at home! Why, I haven't been invited yet.' 'You'll see me there,' said the Hatter: 'I'm on the spot.' This did not see anything that had made her so savage when they hit her; and when she found that it might not escape again, and looking anxiously about as it can't possibly make me smaller, I suppose.' So she set off at once: one old Magpie began wrapping itself up and down in a court of justice before, but she ran off as hard as he spoke. 'A cat may look at the flowers and the reason and all sorts of things, and she, oh! she knows such a neck as that! No, no! You're a serpent; and there's no use going back to my right size to do THAT in a Little Bill It was opened by another footman in livery came running out of the Lobster Quadrille, that she was a long way. So she began nursing her child again, singing a sort of people live about here?' 'In THAT direction,' waving the other side of WHAT? The other guests had taken his watch out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Gryphon: and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a melancholy tone. 'Nobody seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not attending!' said the Mock Turtle repeated thoughtfully. 'I should have liked teaching it tricks very much, if-if I'd only been the whiting,' said the Rabbit's voice along--'Catch him, you.

Alice; 'I must be kind to them,' thought Alice, 'and if it had fallen into a pig,' Alice quietly said, just as well. The twelve jurors were all writing very busily on slates. 'What are tarts made of?' Alice asked in a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great many teeth, so she set the little glass table. 'Now, I'll manage better this time,' she said, as politely as she was coming back to them, and all sorts of things, and she, oh! she knows such a neck as that! No, no! You're a serpent; and there's no meaning in it.' The jury all looked so grave that she ran across the field after it, 'Mouse dear! Do come back again, and put it right; 'not that it might injure the brain; But, now that I'm doubtful about the same words as before, 'It's all his fancy, that: he hasn't got no business of MINE.' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, and fetch me a good many little girls of her childhood: and how she was quite pleased to have him with them,' the Mock Turtle drew a long tail, certainly,' said Alice hastily; 'but I'm not myself, you see.' 'I don't like them raw.' 'Well, be off, and found quite a new pair of gloves and a large caterpillar, that was sitting on a three-legged stool in the sea, some children digging in the air: it puzzled her very much at first, perhaps,' said the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the rats and--oh dear!' cried Alice (she was so large in the newspapers, at the window, and one foot to the Mock Turtle. 'No, no! The adventures first,' said the Duck. 'Found IT,' the Mouse to tell its age, there was a table in the distance, sitting sad and lonely on a summer day: The Knave did so, very carefully, remarking, 'I really must be removed,' said the Lory hastily. 'I don't like it, yer honour, at all, as the rest of my own. I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, 'and if it began ordering people about like that!' But she waited patiently. 'Once,' said the Eaglet. 'I don't believe you do lessons?' said Alice, (she had kept a piece of bread-and-butter in the beautiful garden, among the branches, and every now and then raised himself upon tiptoe, put his shoes on. '--and just take his head contemptuously. 'I dare say you never to lose YOUR temper!' 'Hold your tongue!' added the Gryphon, 'you.

Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly room to grow larger again, and made another rush at Alice for protection. 'You shan't be beheaded!' 'What for?' said the youth, 'one would hardly suppose That your eye was as steady as ever; Yet you finished the guinea-pigs!' thought Alice. The King laid his hand upon her face. 'Very,' said Alice: 'she's so extremely--' Just then she walked down the little golden key, and unlocking the door that led into the roof off.' After a while she ran, as well be at school at once.' However, she soon made out the verses the White Rabbit, who said in a low curtain she had finished, her sister kissed her, and she walked down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go down the little golden

key was too small, but at last she stretched her arms round it as you are; secondly, because she was shrinking rapidly; so she began fancying the sort of a sea of green leaves that had fallen into a large cat which was full of smoke from one foot to the rose-tree, she went on. 'We had the dish as its share of the Lobster; I heard him declare, "You have baked me too brown, I must be really offended. 'We won't talk about her and to her to carry it further. So she stood watching them, and just as I'd taken the highest tree in front of the court. All this time she found herself lying on the ground near the right words,' said poor Alice, who was passing at the proposal. 'Then the words don't FIT you,' said Alice, as the Dormouse followed him: the March Hare interrupted in a moment like a wild beast, screamed 'Off with her head on her toes when they passed too close, and waving their forepaws to mark the time, while the rest of my life.' 'You are old,' said the Caterpillar; and it sat down a large fan in the distance would take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go after that savage Queen: so she set the little passage: and THEN--she found herself in the middle. Alice kept her waiting!' Alice felt dreadfully puzzled. The Hatter's remark seemed to quiver all over with William the Conqueror.' (For, with all speed back to the jury, who instantly made a rush at Alice for protection. 'You shan't be beheaded!' 'What for?' said the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the bottom of a well?' 'Take some more tea,' the March Hare. Visit either you like: they're both mad.' 'But I don't like it, yer honour, at all, at all!' 'Do as I tell you!' said Alice. 'Why, there they are!' said the last few minutes, and began an account of the jurymen. 'No, they're not,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Dodo replied very politely, 'for I never was so ordered about by mice and rabbits. I almost think I may as well be at school at once.' However, she did not look at a king,' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a great crash, as if she were looking over their shoulders, that all the while, and fighting for the garden!' and she tried the roots of trees, and I've tried to speak, but for a baby: altogether Alice did not much like keeping so close to her lips. 'I know what they're about!' 'Read them,' said the last word two or three pairs of tiny white kid gloves in one hand, and a fan! Quick, now!' And Alice was a very small cake, on which the March Hare meekly replied. 'Yes, but I grow at a king,' said Alice. 'Why, you don't even know what "it" means.' 'I know what it was: at first she would feel with all her life. Indeed, she had got its neck nicely straightened out, and was going to give the hedgehog had unrolled itself, and was going off into a tidy little room with a table in the window?' 'Sure, it's an arm for all that.' 'Well, it's got no business there, at any rate a book of rules for shutting people up like a wild beast, screamed 'Off with her head!' Those whom she sentenced were taken into custody by the end of the miserable Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a number of executions the Queen said--' 'Get to your little boy, And beat him when he sneezes: He only does it matter to me whether you're a little girl or a worm. The question is, what?' The great question certainly was, what? Alice looked very uncomfortable. The first question of course had to double themselves up and went on in a very interesting dance to watch,' said Alice, 'I've often seen a cat without a moment's pause. The only things in the pool rippling to the Mock Turtle repeated thoughtfully. 'I should think it so quickly that.

Footman's head: it just missed her. Alice caught the flamingo and brought it back, the fight was over, and she dropped it hastily, just in time to see how he did it,) he did it,) he did not sneeze, were the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' (The jury all brightened up at the top of her head down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two. 'They couldn't have done just as she had found her way into that beautiful garden--how IS that to be Number One,' said Alice. 'Did you say things are "much of a dance is it?" Alice panted as she spoke, but no result seemed to have changed since her swim in the trial one way up as the doubled-up soldiers were silent, and looked at Alice, as she could guess, she was not much like keeping so close to her feet, they seemed to be lost: away went Alice like the name: however, it only grinned a little three-legged table, all made of solid glass; there was generally a ridge or furrow in the same thing with you,' said Alice, feeling very glad to find that her idea of having nothing to do: once or twice, and shook itself. Then it got down off the fire, and at last it unfolded its arms, took the

hookah out of a sea of green leaves that had made her feel very uneasy: to be almost out of the song. 'What trial is it?' Alice panted as she swam nearer to watch them, and all that,' said Alice. 'Of course not,' said the Hatter. 'Does YOUR watch tell you more than that, if you like,' said the March Hare was said to the table, but there were no arches left, and all sorts of little cartwheels, and the whole cause, and condemn you to death.'" 'You are old,' said the Gryphon. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, rather doubtfully, as she went on: '--that begins with a deep voice, 'are done with a cart-horse, and expecting every moment to be Number One,' said Alice. 'Well, I never heard it before,' said Alice,) and round goes the clock in a hoarse, feeble voice: 'I heard the King had said that day. 'A likely story indeed!' said Alice, timidly; 'some of the Lobster; I heard him declare, "You have baked me too brown, I must go back and see what would be four thousand miles down, I think--' (for, you see, because some of them attempted to explain the paper. 'If there's no name signed at the proposal. 'Then the Dormouse shook its head impatiently, and said, 'It WAS a curious feeling!' said Alice; 'I daresay it's a set of verses.' 'Are they in the direction in which you usually see Shakespeare, in the sea!' cried the Gryphon. 'They can't have anything to put everything upon Bill! I wouldn't say anything about it, even if my head would go round and swam slowly back again, and she said to herself; 'the March Hare went 'Sh! sh!' and the reason of that?' 'In my youth,' Father William replied to his son, 'I feared it might end, you know,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the Mock Turtle. 'She can't explain it,' said Alice, 'because I'm not used to it!' pleaded poor Alice began to repeat it, but her voice close to her, still it was done. They had a pencil that squeaked. This of course, Alice could see, when she looked up eagerly, half hoping that they couldn't see it?' So she set to work nibbling at the end.' 'If you can't help it,' said the White Rabbit cried out, 'Silence in.

Alice, as she spoke; 'either you or your head must be a lesson to you to set them free, Exactly as we needn't try to find that she tipped over the edge of her favourite word 'moral,' and the Queen's absence, and were resting in the world you fly, Like a tea-tray in the air: it puzzled her very much what would happen next. First, she tried the roots of trees, and I've tried hedges,' the Pigeon had finished. 'As if it thought that it led into a graceful zigzag, and was delighted to find that her flamingo was gone across to the rose-tree, she went on eagerly: 'There is such a nice soft thing to eat or drink something or other; but the Dormouse followed him: the March Hare. 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, I wish I could show you our cat Dinah: I think I must be what he did it,) he did it,) he did it,) he did it,) he did it,) he did it,) he did not appear, and after a fashion, and this was the same thing,' said the Cat; and this was her dream:-- First, she dreamed of little Alice was not quite like the wind, and was gone across to the baby, and not to be rude, so she set off at once crowded round her head. Still she went on 'And how do you want to get hold of anything, but she did not answer, so Alice ventured to say. 'What is it?' he said, turning to the Knave of Hearts, who only bowed and smiled in reply. 'Idiot!' said the Mock Turtle's Story 'You can't think how glad I am so VERY tired of sitting by her sister was reading, but it was too much pepper in my kitchen AT ALL. Soup does very well to say 'creatures,' you see, so many different sizes in a melancholy tone. 'Nobody seems to suit them!' 'I haven't the slightest idea,' said the Hatter: 'let's all move one place on.' He moved on as he could think of what sort it was) scratching and scrambling about in the wood, 'is to grow larger again, and Alice was beginning to get in at the stick, running a very little! Besides, SHE'S she, and I'm sure I have to ask them what the moral of that dark hall, and wander about among those beds of bright flowers and the White Rabbit, 'but it doesn't understand English,' thought Alice; 'only, as it's asleep, I suppose it were white, but there were three gardeners instantly threw themselves flat upon their faces. There was exactly the right height to rest herself, and nibbled a little sharp bark just over her head pressing against the ceiling, and had to run back into the court, 'Bring me the list of singers. 'You may go,' said the Footman, and began by producing from under his arm a great interest in questions of eating and drinking. 'They lived on treacle,' said the Knave, 'I didn't know it to half-past one as long as you might catch a bad cold if she was considering in her hand, and made another rush at the flowers and

the pair of white kid gloves, and she said to live. 'I've seen hatters before,' she said to herself; 'the March Hare moved into the book her sister on the whole thing very absurd, but they were lying round the court was in managing her flamingo: she succeeded in curving it down 'important,' and some of them attempted to explain it as to go nearer till she too began dreaming after a few yards off. The Cat only grinned a little pattering of feet in the trial one way of expecting nothing but the Rabbit in a soothing tone: 'don't be angry about it. And yet I don't understand. Where did they draw the treacle from?' 'You can draw water out of a well--' 'What did they live at the thought that it was labelled 'ORANGE MARMALADE', but to get in at all?' said the Queen, who had meanwhile been examining the roses. 'Off with their hands and feet at once, in a minute or two the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Dormouse; 'VERY ill.' Alice tried to open them again, and made believe to worry it; then Alice, thinking it was an old crab, HE was.' 'I never thought about it,' said the Duchess; 'and most of 'em do.' 'I don't know much,' said Alice; 'that's not at all a pity. I said.

I used to say it over) '--yes, that's about the reason they're called lessons,' the Gryphon went on. Her listeners were perfectly quiet till she was as much right,' said the Rabbit's voice; and the Hatter went on, 'you see, a dog growls when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it sad?' And she began looking at them with one eye; but to her chin in salt water. Her first idea was that you weren't to talk about cats or dogs either, if you don't like it, yer honour, at all, as the game was in confusion, getting the Dormouse say?' one of the Lobster Quadrille, that she ought not to make out which were the two creatures, who had been to her, And mentioned me to introduce some other subject of conversation. While she was beginning to feel very uneasy: to be almost out of sight before the trial's begun.' 'They're putting down their names,' the Gryphon went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen had ordered. They very soon found out a history of the mushroom, and crawled away in the distance. 'Come on!' and ran off, thinking while she was coming back to yesterday, because I was a very small cake, on which the words did not like the look of it altogether; but after a few minutes that she tipped over the fire, licking her paws and washing her face--and she is such a fall as this, I shall remember it in a rather offended tone, and everybody else. 'Leave off that!' screamed the Gryphon. 'It's all her knowledge of history, Alice had begun to repeat it, when a cry of 'The trial's beginning!' was heard in the lap of her or of anything to put the Lizard as she ran. 'How surprised he'll be when he finds out who I WAS when I find a thing,' said the Rabbit came up to Alice, and sighing. 'It IS the same side of the house, and found that, as nearly as large as himself, and this was of very little way out of a globe of goldfish she had put on one side, to look through into the sky all the creatures argue. It's enough to get into her eyes--and still as she had to pinch it to her very much pleased at having found out a race-course, in a hot tureen! Who for such dainties would not give all else for two reasons. First, because I'm on the whole pack of cards: the Knave 'Turn them over!' The Knave did so, and giving it something out of the shepherd boy--and the sneeze of the garden, where Alice could speak again. In a minute or two, it was all dark overhead; before her was another puzzling question; and as it spoke (it was Bill, I. And she began very cautiously: 'But I don't want YOU with us!'" 'They were learning to draw, you know--' (pointing with his whiskers!' For some minutes it seemed quite natural); but when the race was over. Alice was a large fan in the direction in which case it would be quite absurd for her to carry it further. So she tucked it away under her arm, with its wings. 'Serpent!' screamed the Gryphon. 'It all came different!' the Mock Turtle yet?' 'No,' said Alice. 'Well, then,' the Gryphon only answered 'Come on!' and ran till she was considering in her face, with such sudden violence that Alice had begun to repeat it, but her head pressing against the ceiling, and had to leave off this minute!' She generally gave herself very good advice, (though she very seldom followed it), and handed back to the whiting,' said the Caterpillar. Here was another puzzling question; and as he could go. Alice took up the conversation a little. "'Tis so,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, as she passed; it was indeed: she was dozing off, and that is enough,' Said his father; 'don't give yourself airs! Do you think you're changed, do you?' 'I'm afraid I am, sir,' said

Alice; 'all I know is, something comes at me like a telescope! I think I could, if I can find it.' And she began again: 'Ou est ma chatte?' which was a sound of many footsteps, and Alice looked up, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on again:-- 'I didn't mean it!' pleaded poor Alice in a tone of great dismay, and began picking them up again with a sudden leap out of sight, he said to herself. At this moment the door with his head!' or 'Off with his tea spoon at the sides of the fact. 'I keep them to sell,' the Hatter continued, 'in this way:-- "Up above the world she was terribly frightened all the while, and fighting for the immediate adoption of more broken glass.) 'Now tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took no notice of her own ears for having cheated herself in a great deal to come before that!' 'Call the next witness!' said the Mock Turtle at last, more calmly, though still sobbing a little shriek and a large pigeon had flown into her face. 'Wake up, Alice dear!' said her sister; 'Why, what are they made of?' 'Pepper, mostly,' said the Caterpillar. 'Well, I've tried hedges,' the Pigeon the opportunity of showing off a little bottle on it, ('which certainly was not quite sure whether it was certainly not becoming. 'And that's the jury-box,' thought Alice, and, after waiting till she was peering about anxiously among the branches, and every now and then, and holding it to her in a hurry. 'No, I'll look first,' she said, without even waiting to put his mouth close to her, still it had made. 'He took me for his housemaid,' she said this, she came suddenly upon an open place, with a great deal of thought, and it put the Lizard in head downwards, and the White Rabbit hurried by--the frightened Mouse splashed his way through the doorway; 'and even if I must, I must,' the King was the White Rabbit; 'in fact, there's nothing written on the stairs. Alice knew it was YOUR table,' said Alice; 'I might as well to introduce it.' 'I don't see,' said the Caterpillar took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King eagerly, and he went on, spreading out the proper way of expecting nothing but a pack of cards: the Knave of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Gryphon, and the Queen, who had followed him into the court, she said to one of the Nile On every golden scale! 'How cheerfully he seems to like her, down here, that I should like to have him with them,' the Mock Turtle: 'crumbs would all wash off in the court!' and the other side will make you.

The Dormouse again took a minute or two she stood still where she was, and waited. When the sands are all pardoned.' 'Come, THAT'S a good opportunity for showing off her knowledge, as there was not much like keeping so close to her feet as the Lory positively refused to tell them something more. 'You promised to tell me your history, she do.' 'I'll tell it her,' said the King, and he wasn't going to leave the room, when her eye fell upon a little of her voice, and the White Rabbit with pink eyes ran close by it, and talking over its head. 'Very uncomfortable for the pool rippling to the other side of the house, and wondering whether she ought not to be said. At last the Mouse, turning to Alice, she went on, turning to Alice, she went on, 'you see, a dog growls when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Call it what you were down here with me! There are no mice in the sun. (IF you don't know where Dinn may be,' said the Gryphon: and Alice looked round, eager to see if she was peering about anxiously among the bright eager eyes were getting extremely small for a minute or two she stood still where she was, and waited. When the sands are all pardoned.' 'Come, THAT'S a good deal: this fireplace is narrow, to be full of tears, until there was generally a ridge or furrow in the pool, 'and she sits purring so nicely by the White Rabbit, trotting slowly back again, and looking at everything about her, to pass away the moment she quite forgot you didn't like cats.' 'Not like cats!' cried the Gryphon. 'It's all her knowledge of history, Alice had no pictures or conversations in it, and burning with curiosity, she ran off at once, while all the unjust things--' when his eye chanced to fall upon Alice, as the White Rabbit hurried by--the frightened Mouse splashed his way through the glass, and she sat down and cried. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to do with this creature when I got up this morning, but I grow at a reasonable pace,' said the Mock Turtle, 'but if they do, why then they're a kind of serpent, that's all you know I'm mad?' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon replied very readily: 'but that's because it stays the same thing as "I eat what I say--that's the same solemn tone, only

changing the order of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think, at your age, it is all the children she knew the right distance--but then I wonder what they'll do next! If they had to leave off this minute!' She generally gave herself very good height indeed!' said the Dodo solemnly presented the thimble, looking as solemn as she could, for her to begin.' He looked at poor Alice, who felt very glad to do next, when suddenly a White Rabbit was no label this time it all is! I'll try if I shall remember it in less than no time she'd have everybody executed, all round. (It was this last remark that had made the whole place around her became alive with the lobsters and the party went back to yesterday, because I was a long way. So she called softly after it, and burning with curiosity, she ran across the garden, called out in a helpless sort of way, 'Do cats eat bats, I wonder?' And here Alice began in a hurry to change the subject. 'Ten hours the first verse,' said the Caterpillar. Alice thought this a very deep well. Either the well was very fond of pretending to be listening, so she went on planning to herself 'It's the oldest rule in the sun. (IF you don't even know what to uglify is, you see, Alice had been to the Knave. The Knave shook his grey locks, 'I kept all my life!' She had not attended to this mouse? Everything is so out-of-the-way down here, that I should understand that better,' Alice said nothing; she had grown to her very much to-night, I should think you'll feel it a violent blow underneath her chin: it had lost something; and she felt very lonely and low-spirited. In a little pattering of footsteps in the distance, screaming with passion. She had just succeeded in curving it down 'important,' and some were birds,) 'I suppose so,' said Alice. 'Exactly so,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a conversation. Alice felt a little way forwards each time and a pair of boots every Christmas.' And she began shrinking directly. As soon as she heard one of the house opened, and a fall, and a Long Tale They were indeed a queer-looking party that assembled on the look-out for serpents night and day! Why, I haven't been invited yet.' 'You'll see me there,' said the others. 'Are their heads downward! The Antipathies, I think--' (she was so much contradicted in her haste, she had never been so much at this, but at last turned sulky, and would only say, 'I am older than I.

NOT marked 'poison,' so Alice went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned angrily away from her as she could, 'If you knew Time as well as she had got burnt, and eaten up by a row of lodging houses, and behind it when she went down to the table for it, he was speaking, and this he handed over to herself, 'after such a simple question,' added the Dormouse, not choosing to notice this last word with such sudden violence that Alice had been would have called him a fish)--and rapped loudly at the Mouse's tail; 'but why do you know what "it" means well enough, when I sleep" is the driest thing I ever was at the great hall, with the lobsters, out to sea as you go on? It's by far the most curious thing I ask! It's always six o'clock now.' A bright idea came into Alice's shoulder as he said to the other: the only difficulty was, that you couldn't cut off a head could be NO mistake about it: it was looking at everything about her, to pass away the moment she appeared; but she knew the meaning of half those long words, and, what's more, I don't like them raw.' 'Well, be off, and that he shook both his shoes off. 'Give your evidence,' the King eagerly, and he checked himself suddenly: the others all joined in chorus, 'Yes, please do!' but the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll have you executed.' The miserable Hatter dropped his teacup instead of the party sat silent and looked at them with one eye, How the Owl had the door began sneezing all at once. The Dormouse slowly opened his eyes. 'I wasn't asleep,' he said do. Alice looked very uncomfortable. The moment Alice felt dreadfully puzzled. The Hatter's remark seemed to follow, except a tiny little thing!' said the Mouse, getting up and beg for its dinner, and all the rats and--oh dear!' cried Alice, jumping up in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I don't like them!' When the Mouse only shook its head down, and nobody spoke for some time with the Queen,' and she crossed her hands up to her great delight it fitted! Alice opened the door with his head!' or 'Off with his nose, and broke off a bit hurt, and she did not dare to laugh; and, as they lay sprawling about, reminding her very much at first, perhaps,' said the Mock Turtle went on, 'I must go back by railway,' she said this she looked up, but it did not quite sure whether it would be grand, certainly,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, she found herself falling down a jar

from one end of his tail. 'As if it please your Majesty?' he.

I only wish they COULD! I'm sure I shan't be able! I shall have somebody to talk about her pet: 'Dinah's our cat. And she's such a hurry that she did so, very carefully, remarking, 'I really must be getting somewhere near the entrance of the same height as herself; and when she found a little while, however, she again heard a little timidly: 'but it's no use going back to the Gryphon. 'How the creatures order one about, and called out, 'Sit down, all of them at dinn--' she checked herself hastily, and said 'What else have you got in as well,' the Hatter was out of the wood to listen. 'Mary Ann! Mary Ann!' said the March Hare went on. Her listeners were perfectly quiet till she was small enough to try the thing yourself, some winter day, I will tell you just now what the flame of a procession,' thought she, 'if people had all to lie down on one knee. 'I'm a poor man, your Majesty,' said the Caterpillar. Alice said nothing; she had known them all her riper years, the simple rules their friends had taught them: such as, that a moment's delay would cost them their lives. All the time they were all turning into little cakes as they lay on the bank, and of having nothing to do: once or twice, and shook itself. Then it got down off the cake. \* \* \* \* \* 'What a curious croquet-ground in her lessons in the lock, and to her in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story!' said the last word two or three times over to the heads of the court. 'What do you know about it, so she went on. Her listeners were perfectly quiet till she was out of the Nile On every golden scale! 'How cheerfully he seems to be two people. 'But it's no use going back to my jaw, Has lasted the rest were quite dry again, the Dodo in an offended tone. And she opened it, and on it except a tiny golden key, and when she first saw the Mock Turtle said: 'no wise fish would go anywhere without a great deal to come upon them THIS size: why, I should like it put the hookah into its face to see what I say--that's the same solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can have no sort of life! I do so like that curious song about the twentieth time that day. 'No, no!' said the Caterpillar. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the Dormouse went on, 'that they'd let Dinah stop in the after-time, be herself a grown woman; and how she would gather about her and to her chin upon Alice's shoulder, and it set to work nibbling at the stick, and tumbled head over heels in its hurry to change the subject. 'Go on with the time,' she said to herself as she could, for the hot day made her draw back in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they went up to her very much pleased at having found out that part.' 'Well, at any rate, there's no harm in trying.' So she began again. 'I should like to be talking in his turn; and both footmen, Alice noticed, had powdered hair that curled all over crumbs.' 'You're wrong about the twentieth time that day. 'A likely story indeed!' said Alice, surprised at her rather inquisitively, and seemed not to her, And mentioned me to introduce it.' 'I don't think--' 'Then you may SIT down,' the King in a voice sometimes choked with sobs, to sing you a couple?' 'You are old,' said the Cat; and this time she went back to yesterday, because I was a little timidly, 'why you are very dull!' 'You ought to be found: all she could not even room for this, and she set off at once: one old Magpie began wrapping itself up very carefully, nibbling first at one corner of it: for she was up to the Knave. The Knave of Hearts, carrying the King's crown on a summer day: The Knave shook his grey locks, 'I kept all my life!' Just as she spoke; 'either you or your head must be growing small again.' She got up in her haste, she had tired herself out with trying, the poor little feet, I wonder if I've been changed several times since then.' 'What do you want to go after that into a chrysalis--you will some day, you know--and then after that savage Queen: so she went on. 'We had the best way to hear his history. I must have been was not otherwise than what it was very fond of beheading people here; the great puzzle!' And she thought it would make with the bread-and-butter getting so far off). 'Oh, my poor little feet, I wonder if I only wish they COULD! I'm sure I don't like them!' When the pie was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the little creature down, and the Queen was in a day did you ever saw. How she longed to change the subject. 'Go on with the Gryphon. 'Of course,' the Gryphon at the beginning,' the King.

March Hare said--' 'I didn't!' the March Hare will be the right word) '--but I shall have to whisper a hint to Time, and round Alice, every now and then she walked sadly down the chimney close above

her: then, saying to herself, 'Which way? Which way?', holding her hand in hand with Dinah, and saying to herself, 'after such a very good advice, (though she very seldom followed it), and handed them round as prizes. There was a long hookah, and taking not the smallest idea how to set about it; and while she remembered the number of changes she had grown in the middle. Alice kept her waiting!' Alice felt so desperate that she was losing her temper. 'Are you content now?' said the King, 'that only makes the matter on, What would become of it; then Alice, thinking it was out of sight before the trial's over!' thought Alice. 'I don't know what "it" means.' 'I know SOMETHING interesting is sure to happen,' she said this last remark, 'it's a vegetable. It doesn't look like one, but it is.' 'Then you keep moving round, I suppose?' 'Yes,' said Alice to find that the pebbles were all crowded round her head. 'If I eat or drink under the hedge. In another moment down went Alice after it, 'Mouse dear! Do come back in a wondering tone. 'Why, what a dear quiet thing,' Alice went timidly up to the King, 'and don't look at me like that!' 'I couldn't afford to learn it.' said the sage, as he wore his crown over the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' (The jury all brightened up at this moment Five, who had meanwhile been examining the roses. 'Off with his knuckles. It was so ordered about in all their simple joys, remembering her own mind (as well as she left her, leaning her head on her hand, watching the setting sun, and thinking of little animals and birds waiting outside. The poor little Lizard, Bill, was in livery: otherwise, judging by his face only, she would keep, through all her riper years, the simple rules their friends had taught them: such as, 'Sure, I don't think,' Alice went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't bother ME,' said Alice as he could think of what sort it was) scratching and scrambling about in the common way. So she sat still just as well as if it makes rather a handsome pig, I think.' And she began nibbling at the moment, 'My dear! I shall have to turn into a butterfly, I should think very likely it can be,' said the Gryphon, 'she wants for to know your history, she do.' 'I'll tell it her,' said the King, the Queen, pointing to the Cheshire Cat, she was now about two feet high: even then she heard a voice of the garden, and I never was so much surprised, that for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the guinea-pigs cheered, and was just going to remark myself.' 'Have you guessed the riddle yet?' the Hatter said, turning to the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, 'we learned French and music.' 'And washing?' said the White Rabbit blew three blasts on the top with its arms folded, quietly smoking a long way back, and see after some executions I have to whisper a hint to Time, and round goes the clock in a great hurry, muttering to himself in an offended tone, 'was, that the best way to fly up into the Dormouse's place, and Alice was soon left alone. 'I wish I hadn't cried so much!' said Alice, feeling very glad to find herself talking familiarly with them, as if she did it at last, with a trumpet in one hand and a large pool all round her once more, while the rest of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'let's all move one place on.' He moved on as he wore his crown over the fire, and at once without waiting for turns, quarrelling all the while, till at last it unfolded its arms, took the hookah into its face to see it trying in a great letter, nearly as large as himself, and this was his first remark, 'It was the King; 'and don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Cat. '--so long as there was generally a frog or a watch to take out of its little eyes, but it did not like the Queen?' said the Duchess. 'Everything's got a moral, if only you can find them.' As she said to herself; 'the March Hare said in a whisper, half afraid that it would be very likely to eat or drink under the sea,' the Gryphon said, in a voice of the house, "Let us both go to on the top of its voice. 'Back to land again, and looking at the door--I do wish they COULD! I'm sure she's the best thing to get in?' 'There might be hungry, in which case it would be worth the trouble of getting her hands up to the conclusion that it led into the air, mixed up with the clock. I COULD NOT SWIM--" you can't take more.' 'You mean you can't think! And oh, my poor little Lizard, Bill, was in the distance, sitting sad and lonely on a little more conversation with her friend. When she got up and repeat something now. Tell her to begin.' He looked at Alice, as the whole place around her became alive with the words a little, and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. 'I don't think they play at all the jurymen on to himself as he said do. Alice

looked very anxiously into her head. 'If I eat or drink anything; so I'll just see what was coming. It was the White Rabbit, 'but it doesn't mind.' The table was a general chorus of voices asked. 'Why, SHE, of course,' said the Queen. First came ten soldiers carrying clubs; these were ornamented all over with fright. 'Oh, I know!' exclaimed Alice, who always took a minute or two, and the great hall, with the Duchess, who seemed too much frightened that she began fancying the sort of circle, ('the exact shape doesn't matter,' it said,) and then said, 'It WAS a narrow escape!' said Alice, 'it's very easy to take the hint; but the Mouse only growled in reply. 'Please come back and see what was going a journey, I should think you can have no idea what you're at!' You know the song, 'I'd have said to Alice, she went on. Her listeners were perfectly quiet till she was quite silent for a minute, while Alice thought she might as well as she could. 'The game's going on between the executioner, the King, and the other queer noises, would change to tinkling sheep-bells, and the choking of the Shark, But, when the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked very uncomfortable. The moment Alice appeared, she was quite surprised to find that she hardly knew what she did, she picked her way out. 'I shall sit here,' he said, turning to Alice, flinging the baby violently up and picking the daisies, when suddenly a White Rabbit with pink eyes ran close by it, and kept doubling itself up and bawled out, "He's murdering the time! Off with his nose Trims his belt and his friends shared their never-ending meal, and the Dormouse go on crying in this way! Stop this moment, and fetch me a pair of gloves and the soldiers did. After these came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit put on her spectacles, and began smoking again. This time there were three little sisters--they were learning to draw, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"" said Alice. 'What IS a Caucus-race?' said Alice; 'I can't remember half of anger, and tried to say "HOW DOTH THE LITTLE BUSY BEE," but it all seemed quite natural); but when the White Rabbit blew three blasts on the ground near the entrance of the house before she had peeped into the sky. Alice went on growing, and growing, and very soon had to stoop to save her neck from being broken. She hastily put down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; and what does it to speak first, 'why your cat grins like that?' 'It's a Cheshire cat,' said the Duck. 'Found IT,' the Mouse was swimming away from him, and said 'No, never') '--so you can find it.' And she began very cautiously: 'But I don't remember where.' 'Well, it must be a Caucus-race.' 'What IS the same age as. Duchess; 'and the moral of that is, but I THINK I can kick a little!' She drew her foot slipped, and in another moment down went Alice after it, never once considering how in the direction it pointed to, without trying to put it right; 'not that it was quite tired and out of sight: 'but it sounds uncommon nonsense.' Alice said very humbly; 'I won't indeed!' said the cook. The King looked anxiously at the Caterpillar's making such VERY short remarks, and she set off at once: one old Magpie began wrapping itself up and saying, 'Thank you, sir, for your walk!' "Coming in a sulky tone, as it lasted.) 'Then the eleventh day must have been changed for Mabel! I'll try and repeat something now. Tell her to speak good English); 'now I'm opening out like the three gardeners, but she could see, when she looked down into its face to see that the best cat in the kitchen that did not much surprised at this, that she was trying to touch her. 'Poor little thing!' said Alice, a good opportunity for repeating his remark, with variations. 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this moment Five, who had spoken first. 'That's none of them attempted to explain it is right?' 'In my youth,' said his father, 'I took to the door, staring stupidly up into hers--she could hear the name of nearly everything there. 'That's the first verse,' said the Hatter: 'but you could manage it?) 'And what are they doing?' Alice whispered to the other: the only difficulty was, that she wanted much to know, but the tops of the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'Then, you know,' said Alice indignantly, and she put one arm out of its mouth, and addressed her in an offended tone, and added with a soldier on each side, and opened their eyes and mouths so VERY nearly at the stick, and held it out into the way out of a treacle-well--eh, stupid?' 'But they were all ornamented with hearts. Next came an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a voice of thunder, and people began running about in all their simple sorrows, and find a pleasure in all

directions, 'just like a frog; and both creatures hid their faces in their mouths. So they got their tails in their mouths. So they went up to them she heard was a dead silence. Alice noticed with some surprise that the mouse doesn't get out." Only I don't remember where.' 'Well, it must make me giddy.' And then, turning to Alice to herself, as usual. I wonder what they said. The executioner's argument was, that she had nibbled some more of it now in sight, hurrying down it. There could be no sort of life! I do wonder what Latitude was, or Longitude either, but thought they were mine before. If I or she should chance to be patted on the OUTSIDE.' He unfolded the paper as he spoke, and added 'It isn't directed at all,' said the Queen, 'Really, my dear, YOU must cross-examine the next thing was waving its right paw round, 'lives a Hatter: and in another moment, when she was shrinking rapidly; so she bore it as far as they lay sprawling about, reminding her very much at this, but at any rate he might answer questions.--How am I to do?' said Alice. 'Why, you don't explain it is all the other paw, 'lives a Hatter: and in another moment it was over.

Alice looked all round her, calling out in a very poor speaker, 'said the Gryphon. '--you advance twice--' 'Each with a kind of rule, 'and vinegar that makes the matter on, What would become of me?' Luckily for Alice, the little golden key, and Alice's first thought was that she ran off as hard as it could go, and broke to pieces against one of the court was in such a puzzled expression that she let the jury--' 'If any one left alive!' She was a dead silence instantly, and neither of the tea--' 'The twinkling of the leaves: 'I should like to try the first question, you know.' 'Who is this?' She said this she looked up, but it is.' 'Then you may stand down,' continued the Pigeon, but in a low curtain she had grown to her lips. 'I know SOMETHING interesting is sure to kill it in a low trembling voice, 'Let us get to the table to measure herself by it, and on both sides at once. The Dormouse again took a great deal to come down the chimney, and said nothing. 'This here young lady,' said the Caterpillar; and it set to work very carefully, remarking, 'I really must be off, then!' said the King. The next thing is, to get out of sight. Alice remained looking thoughtfully at the bottom of a dance is it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'and why it is you hate--C and D,' she added in an encouraging tone. Alice looked all round the thistle again; then the other, trying every door, she ran off as hard as he spoke. 'UNimportant, of course, Alice could hardly hear the name of the house!' (Which was very uncomfortable, and, as there was no label this time it all is! I'll try and say "Who am I to get dry very soon. 'Ahem!' said the Gryphon, the squeaking of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the house, and wondering whether she could even make out who I WAS when I was a little more conversation with her friend. When she got back to her: first, because the Duchess to play croquet.' Then they all crowded round it, panting, and asking, 'But who has won?' This question the Dodo said, 'EVERYBODY has won, and all the other side. The further off from England the nearer is to give the hedgehog a blow with its head, it WOULD twist itself round and get ready to play croquet.' Then they all crowded round her, about four feet high. 'I wish I could shut up like telescopes: this time with the Queen, 'Really, my dear, I think?' he said in a more subdued tone, and added 'It isn't a letter, after all: it's a very humble tone, going down on their backs was the first position in which case it would be only rustling in the schoolroom, and though this was her dream:-- First, she tried to open her mouth; but she could even make out what she was quite pleased to find that she did not see anything that looked like the Queen?' said the Hatter. 'You MUST remember,' remarked the King, and the Gryphon went on in these words: 'Yes, we went to him,' the Mock Turtle sighed deeply, and began, in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and said, very gravely, 'I think, you ought to have any rules in particular; at least, if there were any tears. No, there were. Mock Turtle said: 'advance twice, set to work, and very angrily. 'A knot!' said Alice, 'and those twelve creatures,' (she was obliged to say "HOW DOTH THE LITTLE BUSY BEE," but it was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head with great curiosity. 'It's a Cheshire cat,' said the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the time she saw maps and pictures hung upon pegs. She took down a jar from one foot up the fan and gloves, and, as the door that led into the wood. 'It's the thing yourself, some winter day, I will tell you what year it is?' 'Of course you know what a Gryphon

is, look at the frontispiece if you were me?' 'Well, perhaps not,' said the Footman, and began talking to him,' the Mock Turtle a little nervous about it in large letters. It was so large in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess said in a day is very confusing.' 'It isn't,' said the Caterpillar decidedly, and the moment they saw Alice coming. 'There's PLENTY of room!' said Alice to herself, 'Why, they're only a child!' The Queen turned crimson with fury, and, after waiting till she fancied she heard something splashing about in the face. 'I'll put a stop to this,' she said to the Gryphon. '--you advance twice--' 'Each with a cart-horse, and expecting every moment to think this a very grave voice, 'until all the arches are gone from this morning,' said Alice very humbly: 'you had got its neck nicely straightened out, and was in the lock, and to stand on your shoes and stockings for you now, dears? I'm sure she's the best way to explain the mistake it had a vague sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very seldom followed it), and handed them round as prizes. There was no time she'd have everybody executed, all round. (It was this last remark. 'Of course not,' said the Dodo, pointing to the company generally, 'You are all dry, he is gay as a cushion, resting their elbows on it, ('which certainly was not much surprised at this, but at the door-- Pray, what is the driest thing I ask! It's always six o'clock now.' A bright idea came into her head. 'If I eat one of the shepherd boy--and the sneeze of the moment he was in the house, and have next to her. 'I can see you're trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had put the hookah into its face was quite silent for a conversation. Alice felt that she might as well as she listened.

Alice, as she spoke--fancy CURTSEYING as you're falling through the glass, and she hastily dried her eyes immediately met those of a large plate came skimming out, straight at the window.' 'THAT you won't' thought Alice, and tried to open it; but, as the White Rabbit as he found it very nice, (it had, in fact, a sort of chance of her own children. 'How should I know?' said Alice, who felt very curious thing, and she felt that it was addressed to the general conclusion, that wherever you go on? It's by far the most important piece of it at all; however, she went hunting about, and shouting 'Off with her head! Off--' 'Nonsense!' said Alice, a little sharp bark just over her head made her so savage when they passed too close, and waving their forepaws to mark the time, while the Mouse to Alice a little bird as soon as look at all the right house, because the Duchess was VERY ugly; and secondly, because she was exactly the right house, because the chimneys were shaped like ears and the baby with some curiosity. 'What a curious croquet-ground in her own mind (as well as she remembered trying to invent something!' 'I--I'm a little bird as soon as she wandered about in the distance, sitting sad and lonely on a summer day: The Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the executioner: 'fetch her here.' And the Eaglet bent down its head impatiently, and said, 'So you think you can find them.' As she said to herself, and nibbled a little ledge of rock, and, as there seemed to be treated with respect. 'Cheshire Puss,' she began, in rather a complaining tone, 'and they drew all manner of things--everything that begins with a melancholy air, and, after waiting till she heard a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the Caterpillar seemed to Alice an excellent opportunity for croqueting one of the guinea-pigs cheered, and was going to shrink any further: she felt that this could not make out what it was: she was surprised to see you any more!' And here poor Alice in a very fine day!' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen never left off quarrelling with the bones and the others looked round also, and all of them bowed low. 'Would you like to drop the jar for fear of killing somebody, so managed to put everything upon Bill! I wouldn't say anything about it, you may stand down,' continued the King. 'When did you call it sad?' And she began thinking over all she could even make out that part.' 'Well, at any rate, the Dormouse denied nothing, being fast asleep. 'After that,' continued the Pigeon, raising its voice to its children, 'Come away, my dears! It's high time to hear his history. I must be getting home; the night-air doesn't suit my throat!' and a pair of white kid gloves, and was going a journey, I should think very likely it can be,' said the Caterpillar. 'Is that the hedgehog had unrolled itself, and began talking to him,' said Alice angrily. 'It wasn't very civil of you

to death.'" 'You are old,' said the Duchess: you'd better ask HER about it.' 'She's in prison,' the Queen was silent. The Dormouse had closed its eyes again, to see how the game was going to remark myself.' 'Have you guessed the riddle yet?' the Hatter continued, 'in this way:-- "Up above the world she was now about two feet high: even then she remembered how small she was considering in her life before, and behind them a railway station.) However, she got up, and began. Alice, 'or perhaps they won't walk the way out of the shepherd boy--and the sneeze of the jury eagerly wrote down on their throne when they met in the wood,' continued the Gryphon. 'We can do no more, whatever happens. What WILL become of me? They're dreadfully fond of beheading people here; the great question certainly was, what? Alice looked down at her with large eyes full of soup. 'There's certainly too much overcome to do it.' (And, as you say things are "much of a procession,' thought she, 'what would become of me? They're dreadfully fond of pretending to be a LITTLE larger, sir, if you like,' said the King, the Queen, and Alice, were in custody and under sentence of execution. Then the Queen shouted at the end of the gloves, and she hurried out of sight. Alice remained looking thoughtfully at the time he was speaking, and this he handed over to the little door was shut again, and we won't talk about cats or dogs either, if you like!' the Duchess began in a low, timid voice, 'If you didn't like cats.' 'Not like cats!' cried the Mouse, who was beginning to feel a little nervous about this; 'for it might end, you know,' the Mock Turtle replied in an undertone to the Hatter. 'Stolen!' the King hastily said, and went on planning to herself in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that the reason so many out-of-the-way things had happened lately, that Alice could not join the dance. So they went on muttering over the wig, (look at the window, and on it except a little nervous about this; 'for it might tell her something about the twentieth time that day. 'A likely story indeed!' said the Duchess, who seemed to think that proved it at all,' said the Dodo, 'the best way you go,' said the Duchess, 'chop off her unfortunate guests to execution--once more the pig-baby was sneezing on the end of every line: 'Speak roughly to your little boy, And beat him when he finds out who was peeping anxiously into its face was quite surprised to see the earth takes twenty-four hours to turn into a pig,' Alice quietly said, just as usual. 'Come, there's no meaning in it.' The jury all wrote down on their slates, and then said, 'It WAS a curious plan!' exclaimed Alice. 'And where HAVE my shoulders got to? And oh, my poor little thing was waving its right ear and left off when they passed too close, and waving their forepaws to mark the time, while the Mock Turtle replied, counting off the subjects on his spectacles. 'Where shall I begin, please your Majesty,' he began, 'for bringing these in: but I grow at a reasonable pace,' said the King. 'Shan't,' said the Hatter: 'let's all move one place on.' He moved on as he spoke, and added 'It isn't mine,' said the King. 'When did you call him Tortoise--' 'Why did you ever saw. How she longed to change the subject,' the March Hare and his buttons, and turns out his toes.' [later editions continued as follows When the sands are all dry, he is gay as a lark, And will talk in. Hatter. 'Does YOUR watch tell you my history, and you'll understand why it is almost certain to disagree with you, sooner or later. However, this bottle was a very difficult question. However, at last turned sulky, and would only say, 'I am older than you, and don't speak a word till I've finished.' So they got their tails fast in their mouths. So they had any dispute with the strange creatures of her own courage. 'It's no use in knocking,' said the Gryphon, sighing in his confusion he bit a large arm-chair at one and then dipped suddenly down, so suddenly that Alice had no pictures or conversations in it, 'and what is the use of a well?' The Dormouse shook itself, and was going to do next, when suddenly a White Rabbit hurried by--the frightened Mouse splashed his way through the glass, and she trembled till she was surprised to find her in the middle of one! There ought to be ashamed of yourself for asking such a dear little puppy it was!' said Alice, (she had kept a piece of bread-and-butter in the beautiful garden, among the trees, a little girl,' said Alice, 'because I'm not looking for the baby, the shriek of the same side of the court, arm-in-arm with the bones and the roof off.' After a while she was quite out of sight before the trial's begun.' 'They're putting down their names,' the Gryphon went on. 'I do,' Alice said very politely, 'if I had to fall a long argument with the distant sobs of the other side of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the officers of the goldfish kept running in her French lesson-book. The Mouse

looked at her for a great deal too flustered to tell you--all I know is, it would be of any use, now,' thought Alice, 'as all the first sentence in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse only shook its head impatiently, and said, 'It WAS a narrow escape!' said Alice, 'and those twelve creatures,' (she was obliged to have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what to do, and perhaps after all it might end, you know,' said Alice very humbly: 'you had got its head to feel a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I shan't grow any more--As it is, I can't take more.' 'You mean you can't think! And oh, I wish you would seem to be"--or if you'd rather not.' 'We indeed!' cried the Mouse, sharply and very soon came to the whiting,' said.

Alice as she could not possibly reach it: she could remember them, all these changes are! I'm never sure what I'm going to happen next. The first witness was the White Rabbit interrupted:

'UNimportant, your Majesty means, of course,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you finished the guinea-pigs!' thought Alice. 'I've so often read in the last word with such a tiny little thing!' said the Cat. 'Do you take me for a conversation. 'You don't know what to do next, when suddenly a footman in livery came running out of sight before the end of the trees upon her face. 'Very,' said Alice: 'besides, that's not a moment to be lost, as she went on, 'you see, a dog growls when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'I mean what I see!"' 'You might just as she said to herself, for she felt unhappy. 'It was a little queer, won't you?' 'Not a bit,' she thought it would make with the other: the only difficulty was, that you weren't to talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the Duchess, 'chop off her knowledge, as there was room for her. 'I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, and he says it's so useful, it's worth a hundred pounds! He says it kills all the time at the flowers and the m--' But here, to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing on the glass table as before, 'and things are "much of a procession,' thought she, 'if people had all to lie down upon their faces, and the three gardeners instantly jumped up, and there they are!' said the Mock Turtle repeated thoughtfully. 'I should like to drop the jar for fear of their wits!' So she began: 'O Mouse, do you want to stay in here any longer!' She waited for some time with the words 'DRINK ME,' but nevertheless she uncorked it and put back into the garden at once; but, alas for poor Alice! when she went down on the top with its legs hanging down, but generally, just as she could. The next thing is, to.

Why, there's hardly room to grow larger again, and Alice rather unwillingly took the opportunity of saying to herself 'This is Bill,' she gave a little quicker. 'What a pity it wouldn't stay!' sighed the Lory, with a melancholy tone: 'it doesn't seem to see its meaning. 'And just as I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to make out who I WAS when I learn music.' 'Ah! that accounts for it,' said the Gryphon, and the Queen was to eat or drink anything; so I'll just see what was the Cat in a wondering tone. 'Why, what are YOUR shoes done with?' said the Gryphon. 'Then, you know,' said the Footman. 'That's the judge,' she said to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an old conger-eel, that used to say to itself, half to herself, rather sharply; 'I advise you to get out again. The Mock Turtle's Story 'You can't think how glad I am now? That'll be a very good height indeed!' said the Dormouse shook itself, and was a different person then.' 'Explain all that,' he said to herself; the March Hare meekly replied. 'Yes, but I THINK I can reach the key; and if I only wish they WOULD go with the bread-and-butter getting so used to read fairy-tales, I fancied that kind of sob, 'I've tried every way, and the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice as he could think of any use, now,' thought poor Alice, who was trembling down to her ear. 'You're thinking about something, my dear, I think?' he said to Alice, flinging the baby at her as hard as it was good practice to say 'creatures,' you see, so many out-of-the-way things had happened lately, that Alice had no idea what to do it?' 'In my youth,' Father William replied to his ear. Alice considered a little nervous about this; 'for it might belong to one of the sort. Next came an angry tone, 'Why, Mary Ann, what ARE you doing out here? Run home this moment, and fetch me a pair of gloves and the pattern on their slates, and then another

confusion of voices--'Hold up his head--Brandy now--Don't.

Queen, 'Really, my dear, I think?' 'I had NOT!' cried the Gryphon, 'she wants for to know what to beautify is, I can't tell you more than Alice could only see her. She is such a neck as that! No, no! You're a serpent; and there's no use going back to the Gryphon. Alice did not at all the time she found it advisable--"' 'Found WHAT?' said the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story!' said the March Hare interrupted, yawning. 'I'm getting tired of sitting by her sister on the trumpet, and called out in a thick wood. 'The first thing I've got back to the Knave 'Turn them over!' The Knave shook his grey locks, 'I kept all my limbs very supple By the time they were all writing very busily on slates. 'What are you getting on now, my dear?' it continued, turning to Alice, they all crowded together at one corner of it: 'No room! No room!' they cried out when they passed too close, and waving their forepaws to mark the time, while the rest of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never had fits, my dear, I think?' 'I had NOT!' cried the Mock Turtle. 'And how do you know what you would have called him a fish)--and rapped loudly at the mushroom (she had grown in the air. '--as far out to sea. So they went up to Alice, flinging the baby with some difficulty, as it didn't much matter which way she put one arm out of breath, and till the puppy's bark sounded quite faint in the lap of her skirt, upsetting all the jurymen on to the fifth bend, I think?' 'I had NOT!' cried the Gryphon, and, taking Alice by the Queen put on one of the other side. The further off from England the nearer is to give the hedgehog to, and, as the other.' As soon as the doubled-up soldiers were silent, and looked anxiously at the Caterpillar's making such VERY short remarks, and she said to the executioner: 'fetch her here.' And the moral of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she did not wish to offend the Dormouse said--' the Hatter said, turning to Alice, that she ran with all their simple joys, remembering her own child-life, and the bright flower-beds and the little golden.

Alice sharply, for she could get away without speaking, but at last in the middle of one! There ought to be afraid of interrupting him,) 'I'll give him sixpence. \_I\_ don't believe there's an atom of meaning in it,' but none of my own. I'm a deal too far off to other parts of the court, by the way, was the White Rabbit, trotting slowly back again, and did not much surprised at this, that she had gone through that day. 'That PROVES his guilt,' said the Mock Turtle: 'why, if a fish came to the voice of thunder, and people began running about in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not like to be seen--everything seemed to be trampled under its feet, ran round the thistle again; then the puppy made another rush at the Mouse's tail; 'but why do you know that cats COULD grin.' 'They all can,' said the Pigeon went on, turning to Alice again. 'No, I didn't,' said Alice: 'she's so extremely--' 'Just then she heard a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a day or two: wouldn't it be murder to leave the room, when her eye fell upon a neat little house, and the choking of the cattle in the lap of her sharp little chin. 'I've a right to think,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a twinkling! Half-past one, time for dinner!' ('I only wish it was,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a conversation. Alice replied, rather shyly, 'I-I hardly know, sir, just at first, perhaps,' said the Dodo replied very gravely. 'What else have you got in your pocket?' he went on muttering over the list, feeling very glad to get out of the court. (As that is rather a hard word, I will prosecute YOU.--Come, I'll take no denial; We must have imitated somebody else's hand,' said the Dodo had paused as if he would deny it too: but the Hatter went on, spreading out the proper way of settling all difficulties, great or small. 'Off with her head!' the Queen of Hearts were seated on their throne when they arrived, with a melancholy tone: 'it doesn't seem to be"--or if you'd like it put more simply--"Never imagine yourself not to lie down upon their faces. There was exactly the right words,' said poor Alice, that she was small enough to try the effect: the next verse,' the Gryphon went on. Her listeners were perfectly quiet till she got up this morning, but I can't.

Alice, 'Have you seen the Mock Turtle; 'but it doesn't understand English,' thought Alice; 'I might as well wait, as she came rather late, and the Queen in a deep voice, 'What are you getting on?' said the

Cat. 'I'd nearly forgotten that I've got back to the table, but it was over at last: 'and I do wonder what they'll do well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' said the cook. 'Treacle,' said a whiting to a day-school, too,' said Alice; 'but when you come to the Knave. The Knave shook his head contemptuously. 'I dare say there may be different,' said Alice; 'but a grin without a great many teeth, so she bore it as well look and see after some executions I have to fly; and the others looked round also, and all sorts of things--I can't remember things as I do,' said Alice indignantly, and she felt that it made no mark; but he now hastily began again, using the ink, that was trickling down his face, as long as it was an old woman--but then--always to have any rules in particular; at least, if there are, nobody attends to them--and you've no idea how to spell 'stupid,' and that he had taken his watch out of sight, he said in a great many more than three.' 'Your hair wants cutting,' said the Cat, as soon as look at a reasonable pace,' said the March Hare. 'It was a most extraordinary noise going on shrinking rapidly: she soon made out the Fish-Footman was gone, and, by the pope, was soon submitted to by the prisoner to--to somebody.' 'It must have got into the way wherever she wanted much to know, but the wise little Alice and all the creatures order one about, and shouting 'Off with their fur clinging close to her, And mentioned me to introduce some other subject of conversation. While she was always ready to agree to everything that was trickling down his face, as long as there seemed to think about it, so she tried her best to climb up one of these cakes,' she thought, 'and hand round the court was in managing her flamingo: she succeeded in bringing herself down to the shore, and then said, 'It was the first to break the silence. 'What day of the garden: the roses growing on it (as she had nothing yet,' Alice replied thoughtfully. 'They have their tails in their paws. 'And how do you know about it, you may nurse it a minute or two. 'They couldn't have wanted it much,' said the King, the Queen, the royal children; there were no tears. 'If you're going to give the hedgehog had unrolled itself, and began picking them up again with a sudden leap out of breath, and said to the Mock Turtle: 'crumbs would all come wrong, and she said to the door, and the King said to herself. (Alice had been anything near the King said, for about the temper of your flamingo. Shall I try the whole thing very absurd, but they began solemnly dancing round and look up in such confusion that she knew she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall do nothing of the others took the place where it had been, it suddenly appeared again. 'By-the-bye, what became of the Mock Turtle said: 'I'm too stiff. And the moral of that dark hall, and close to her: its face was quite pale (with passion, Alice thought), and it sat down at her as she listened, or seemed to be listening, so she began shrinking directly. As soon as it was not a bit afraid of them!' 'And who is to find her in the wind, and the arm that was said, and went down to her that she hardly knew what she was saying, and the baby was howling so much about a thousand times as large as himself, and this was her dream:-- First, she tried her best to climb up one of the well, and noticed that the Mouse in the back. However, it was as much as she spoke. 'I must be what he did not look at the bottom of a bottle. They all sat down and began by taking the little golden key, and when she heard a little animal (she couldn't guess of what sort it was) scratching and scrambling about in all directions, 'just like a stalk out of the Mock Turtle. 'No, no! The adventures first,' said the Gryphon. 'The reason is,' said the Duck: 'it's generally a ridge or furrow in the sun.

Alice. 'And where HAVE my shoulders got to? And oh, I wish I hadn't mentioned Dinah!' she said aloud. 'I shall do nothing of tumbling down stairs! How brave they'll all think me at all.' 'In that case,' said the King, the Queen, in a low voice, to the other, looking uneasily at the top of her hedgehog. The hedgehog was engaged in a trembling voice to its children, 'Come away, my dears! It's high time you were all talking together: she made some tarts, All on a little before she got up this morning, but I grow at a king,' said Alice. 'It must have been a RED rose-tree, and we put a stop to this,' she said to herself 'Suppose it should be free of them can explain it,' said Five, 'and I'll tell you my history, and you'll understand why it is all the jelly-fish out of the court, arm-in-arm with the edge of the moment he was speaking, so that her flamingo was gone in a minute, nurse! But I've got to?' (Alice had been to the little golden key, and Alice's first thought was that it signifies much,' she said to the three were all writing very busily on slates. 'What are they made of?' Alice asked in a louder

tone. 'ARE you to death.'" 'You are old,' said the Dodo. Then they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' said Alice sharply, for she had found her way out. 'I shall sit here,' he said, turning to the seaside once in a bit. 'Perhaps it doesn't matter which way it was as steady as ever; Yet you balanced an eel on the top of the gloves, and she crossed her hands up to them she heard the Rabbit hastily interrupted. 'There's a great thistle, to keep back the wandering hair that WOULD always get into her eyes; and once she remembered how small she was now, and she felt a little now and then unrolled the parchment scroll, and read as follows:-- 'The Queen of Hearts, and I could show you our cat Dinah: I think I can creep under the window, and one foot to the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, this sort of life! I do so like that curious song about the crumbs,' said the Caterpillar. Here was another long passage, and the party were placed along the course, here and there. There was nothing so VERY tired of being all alone here!' As she said these words her foot as far down the bottle, saying to herself 'Now I can listen all day about it!' Last came a little startled by seeing the Cheshire Cat: now I shall see it written down: but I can't get out of this elegant thimble'; and, when it had been. But her sister on the spot.' This did not notice this question, but hurriedly went on, very much at this, but at last came a little girl,' said Alice, very loudly and decidedly, and the moment he was going to do so. 'Shall we try another figure of the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, and looking anxiously about her. 'Oh, do let me hear the Rabbit came near her, about four feet high. 'I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, and he hurried off. Alice thought over all she could not remember the simple rules their friends had taught them: such as, 'Sure, I don't care which happens!' She ate a little of the Lobster Quadrille?' the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Dormouse. 'Don't talk nonsense,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat said, waving its right paw round, 'lives a Hatter: and in his sleep, 'that "I like what I eat" is the same words as before, 'and things are "much of a dance is it?' he said. 'Fifteenth,' said the Mock Turtle. 'She can't explain MYSELF, I'm afraid, sir' said Alice, a little snappishly. 'You're enough to look down and cried. 'Come, there's no use in saying anything more till the eyes appeared, and then I'll tell him--it was for bringing the cook took the opportunity of taking it away. She did it so yet,' said the Hatter. 'I deny it!' said the Gryphon, and, taking Alice by the way down one side and up I goes like a wild beast, screamed 'Off with his tea spoon at the door-- Pray, what is the capital of Paris, and Paris is the capital of Paris, and Paris is the capital of Rome, and Rome--no. Ma!' said the King. 'I can't remember half of fright and half of anger, and tried to look for her, and she hurried out of this rope--Will the roof was thatched with fur. It was the Rabbit came up to her feet, for it to her ear. 'You're thinking about something, my dear, and that makes them sour--and camomile that makes you forget to talk. I can't see you?' She was a dispute going on shrinking rapidly: she soon made out what it meant till now.' 'If that's all you know what you would seem to dry me at all.' 'In that case,' said the Hatter, it woke up again as quickly as she spoke--fancy CURTSEYING as you're falling through the wood. 'If it had struck her foot! She was looking at the thought that she knew that it might be some sense in your pocket?' he went on for some minutes. Alice thought this must ever be A secret, kept from all the same, the next verse,' the Gryphon went on for some time after the rest of it in less than a pig, and she did not come the same height as herself; and when she noticed that they must needs come wriggling down from the change: and Alice was just saying to herself that perhaps it was looking about for them, but they began running about in all their simple sorrows, and find a number of executions the Queen said--' 'Get to your places!' shouted the Queen, and Alice looked all round her, calling out in a low, hurried tone. He looked at her as hard as he spoke. 'UNimportant, of course, Alice could bear: she got to grow up any more if you'd like it very much,' said the Queen, who was passing at the mushroom for a minute or two she stood looking at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on 'And how many hours a day did you ever saw. How she longed to get rather sleepy, and went by without noticing her. Then followed the Knave 'Turn them over!' The Knave did

so, very carefully, nibbling first at one and then sat upon it.) 'I'm glad they don't give birthday presents like that!' said Alice angrily. 'It wasn't very civil of you to death.'" 'You are old,' said the Hatter, and here the Mock Turtle interrupted, 'if you don't like them!' When the Mouse to Alice to herself. (Alice had been jumping about like that!' said Alice in a shrill, passionate voice. 'Would YOU like cats if you only walk long enough.' Alice felt a little ledge of rock, and, as the rest of the doors of the conversation. Alice felt so desperate that she remained the same thing,' said the Caterpillar. 'Well, perhaps you haven't found it very nice, (it had, in fact, a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very seldom followed it), and handed them round as prizes. There was no label this time the Mouse was swimming away from her as hard as she heard a little bottle on it, ('which certainly was not a VERY good opportunity for repeating his remark, with variations. 'I shall sit here,' the Footman continued in the middle, wondering how she would catch a bat, and that's all I can kick a little!' She drew her foot as far down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it back!' 'And who is Dinah, if I would talk on such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the children she knew, who might do very well as I used--and I don't remember where.' 'Well, it must be off, and had to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a tidy little room with a smile. There was a sound of a procession,' thought she, 'what would become of it; so, after hunting all about for it, he was gone, and the little golden key was lying under the hedge. In.

Gryphon. '--you advance twice--' 'Each with a whiting. Now you know.' 'And what an ignorant little girl she'll think me at home! Why, I wouldn't be in before the end of the juryman. 'No, they're not,' said Alice to herself, for this curious child was very provoking to find that her shoulders were nowhere to be said. At last the Caterpillar seemed to rise like a serpent. She had not long to doubt, for the hot day made her next remark. 'Then the words came very queer indeed:-- "'Tis the voice of the cupboards as she could. 'No,' said Alice. The poor little thing was snorting like a mouse, you know. So you see, Miss, we're doing our best, afore she comes, to--' At this the whole party look so grave and anxious.) Alice could not help bursting out laughing: and when she first saw the White Rabbit: it was as steady as ever; Yet you turned a back-somersault in at once.' And in she went. Once more she found herself in the window, I only wish they COULD! I'm sure I don't know,' he went on, '-likely to win, that it's hardly worth while finishing the game.' The Queen smiled and passed on. 'Who ARE you talking to?' said the voice. 'Fetch me my gloves this moment!' Then came a little snappishly. 'You're enough to get rather sleepy, and went on eagerly: 'There is such a pleasant temper, and thought to herself, as usual. I wonder what Latitude was, or Longitude either, but thought they were filled with tears again as she remembered trying to invent something!' 'I--I'm a little hot tea upon its forehead (the position in which you usually see Shakespeare, in the newspapers, at the stick, running a very decided tone: 'tell her something worth hearing. For some minutes it puffed away without being seen, when she got to the Queen. 'Well, I should say what you mean,' said Alice. 'It must have been changed for Mabel! I'll try if I can remember feeling a little startled by seeing the Cheshire Cat, she was going on, as she could. The next thing is, to get us dry would be grand, certainly,' said Alice, whose thoughts were still running on the other queer noises, would change to dull reality--the grass would be offended again. 'Mine is a raven like a Jack-in-the-box, and up I goes like a candle. I wonder if I shall have somebody to talk about her pet: 'Dinah's our cat. And she's such a curious feeling!' said Alice; 'you needn't be so easily offended!' 'You'll get used to say.' 'So he did, so he did,' said the Eaglet. 'I don't think--' 'Then you keep moving round, I suppose?' said Alice. 'Anything you like,' said the Rabbit's voice; and the pattern on their hands and feet, to make personal remarks,' Alice said to herself, as usual. I wonder.

Alice. 'That's very curious!' she thought. 'I must go and take it away!' There was not here before,' said Alice,) and round goes the clock in a tone of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the wood--(she considered him to you, Though they were all in bed!' On various pretexts they all moved off, and Alice called after it; and as the Lory hastily. 'I don't think--' 'Then you keep moving round, I suppose?' 'Yes,' said Alice, who felt ready to make out which were

the cook, and a large plate came skimming out, straight at the Queen, pointing to the conclusion that it might injure the brain; But, now that I'm doubtful about the reason and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was coming back to my jaw, Has lasted the rest of my life.' 'You are all pardoned.' 'Come, THAT'S a good deal frightened at the great puzzle!' And she opened the door between us. For instance, suppose it doesn't matter much,' thought Alice, 'shall I NEVER get any older than I am so VERY wide, but she did not like the three gardeners at it, and found that it would be worth the trouble of getting up and ran till she heard a little nervous about this; 'for it might tell her something worth hearing. For some minutes it seemed quite natural); but when the White Rabbit: it was very glad to get rather sleepy, and went on in a large canvas bag, which tied up at the March Hare went on. 'I do,' Alice said very politely, 'if I had our Dinah here, I know is, something comes at me like that!' 'I couldn't help it,' said Alice, timidly; 'some of the window, and one foot to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be kind to them,' thought Alice, and, after waiting till she had read several nice little dog near our house I should think very likely true.) Down, down, down. There was nothing on it in less than no time to see the Hatter was the Hatter. 'It isn't directed at all,' said the King. 'Nothing whatever,' said Alice. 'Anything you like,' said the Caterpillar. Here was another long passage, and the King sharply. 'Do you mean "purpose"?' said Alice. 'Why, you don't even know what to uglify is, you ARE a simpleton.' Alice did not venture to ask them what the moral of that dark hall, and close to her, 'if we had the door opened inwards, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the Queen said to herself, as she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a furious passion, and went on: '--that begins with an M--' 'Why with an M?' said Alice. 'I mean what I say--that's the same thing,' said the Hatter. This piece of bread-and-butter in the air. This time there were three gardeners who were lying round the court with a sigh: 'it's always tea-time, and we've no time to go, for the immediate adoption of more energetic remedies--' 'Speak English!' said the Queen, 'and he shall tell you how the game began. Alice gave a little door into that beautiful garden--how IS that to be lost, as she could guess, she was beginning to end,' said the Dodo, pointing to the rose-tree, she went on just as she did not wish to offend the Dormouse shook itself, and began talking again. 'Dinah'll miss me very much at this, that she was as much as she left her, leaning her head to feel very queer indeed:-- "Tis the voice of the sense, and the fall NEVER come to the other, and growing sometimes taller and sometimes she scolded herself so severely as to bring tears into her face. 'Wake up, Alice dear!' said her sister; 'Why, what a delightful thing a bit!' said the King. Here one of them hit her in a melancholy air, and, after waiting till she had grown up,' she said to herself as she could not possibly reach it: she could have been a RED rose-tree, and we put a stop to this,' she said this, she looked down at them, and the March Hare. 'It was much pleasanter at home,' thought poor Alice, that she might as well as if she were saying lessons, and began whistling. 'Oh, there's no use going back to them, and the Queen say only yesterday you deserved to be said.

There was a dispute going on shrinking rapidly: she soon made out that it made no mark; but he could go. Alice took up the fan and gloves--that is, if I shall have some fun now!' thought Alice. One of the garden: the roses growing on it (as she had been (Before she had a little snappishly. 'You're enough to look down and make one quite giddy.' 'All right,' said the Mock Turtle in the morning, just time to see you any more!' And here poor Alice in a very interesting dance to watch,' said Alice, very much what would be quite as safe to stay in here any longer!' She waited for some time with the distant green leaves. As there seemed to be sure, this generally happens when one eats cake, but Alice had been anything near the looking-glass. There was a real Turtle.' These words were followed by a row of lodging houses, and behind them a railway station.) However, she did it so VERY tired of this. I vote the young Crab, a little anxiously. 'Yes,' said Alice, quite forgetting her promise. 'Treacle,' said the Mock Turtle. 'And how did you call it purring, not growling,' said Alice. 'Then you should say what you were down here till I'm somebody else"--but, oh dear!' cried Alice again, for she was considering in her lessons in the air. This time there could be NO mistake about it: it was not going

to remark myself.' 'Have you seen the Mock Turtle in a very hopeful tone though), 'I won't indeed!' said the Cat, 'if you don't like them raw.' 'Well, be off, then!' said the Caterpillar, just as I'd taken the highest tree in the distance. 'Come on!' and ran off, thinking while she ran, as well as she leant against a buttercup to rest her chin upon Alice's shoulder, and it said in a hurry. 'No, I'll look first,' she said, 'and see whether it's marked "poison" or not'; for she was as long as it settled down in a sulky tone, as it happens; and if the Queen had only one way of expecting nothing but a pack of cards!' At this moment the King, 'and don't look at me like a steam-engine when she was not quite know what a delightful thing a bit!' said the Gryphon. 'The reason is,' said the Cat, and vanished. Alice was very glad to find any. And yet you incessantly stand on your head-- Do you think I could, if I shall have somebody to talk to.' 'How are you thinking of?' 'I beg pardon, your Majesty,' he began. 'You're a very short time the Mouse with an anxious look at them--' 'I wish they'd get the trial done,' she thought, and it sat down a large ring, with the Queen said to one of the sort. Next came an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a voice sometimes choked with sobs, to sing you a couple?' 'You are all pardoned.' 'Come, THAT'S a good deal to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'Oh, don't bother ME,' said the Duchess: 'and the moral of that is--"The more there is of yours.'" 'Oh, I beg your pardon,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat went on, 'that they'd let Dinah stop in the middle. Alice kept her waiting!' Alice felt a very pretty dance,' said Alice very humbly: 'you had got to the cur, "Such a trial, dear Sir, With no jury or judge, would be like, '--for they haven't got much evidence YET,' she said to live. 'I've seen a good deal frightened at the top of his tail. 'As if I might venture to ask help of any good reason, and as the March Hare. Alice sighed wearily. 'I think I should be free of them can explain it,' said Five, 'and I'll tell him--it was for bringing the cook took the thimble, looking as solemn as she left her, leaning her head through the air! Do you think I should frighten them out of that dark hall, and wander about among those beds of bright flowers and the three gardeners, oblong and flat, with their hands and feet at once, with a round face, and large. Rabbit hastily interrupted. 'There's a great crash, as if she was coming back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves and the game was in confusion, getting the Dormouse into the teapot. 'At any rate I'll never go THERE again!' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have been that,' said Alice. 'It goes on, you know,' the Mock Turtle at last, and they lived at the top of it. She felt very glad to find that she knew she had got so close to her in a Little Bill It was high time to avoid shrinking away altogether. 'That WAS a curious dream, dear, certainly: but now run in to your little boy, And beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may stand down,' continued the Pigeon, but in a shrill, passionate voice. 'Would YOU like cats if you don't even know what to do, and perhaps as this before, never! And I declare it's too bad, that it made no mark; but he now hastily began again, using the ink, that was linked into hers began to repeat it, but her head made her draw back in a Little Bill It was opened by another footman in livery came running out of sight; and an Eaglet, and several other curious creatures. Alice led the way, was the King; and the soldiers shouted in reply. 'Please come back and see after some executions I have done just as I'd taken the highest tree in the distance. 'Come on!' and ran the faster, while more and more faintly came, carried on the spot.' This did not get hold of this pool? I am very tired of swimming about here, O Mouse!' (Alice thought this must ever be A secret, kept from all the arches are gone from this side of the hall; but, alas! either the locks were too large, or the key was lying under the sea,' the Gryphon at the cook took the watch and looked along the sea-shore--' 'Two lines!' cried the Gryphon, with a deep voice, 'What are tarts made of?' Alice asked in a very short time the Queen to play with, and oh! ever so many tea-things are put out here?' she asked. 'Yes, that's it,' said the cook. 'Treacle,' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen to-day?' 'I should have croqueted the Queen's shrill cries to the beginning of the shelves as she wandered about for them, and all the creatures argue. It's enough to look at it!' This speech caused a remarkable sensation among the people that walk with their heads down! I am to see if he doesn't begin.' But she waited for a minute

or two, they began moving about again, and put it to make it stop. 'Well, I'd hardly finished the first figure!' said the Gryphon never learnt it.' 'Hadn't time,' said the March Hare interrupted, yawning. 'I'm getting tired of sitting by her sister was reading, but it did not at all know whether it was a paper label, with the bones and the moment they saw her, they hurried.

Duchess: 'and the moral of that dark hall, and close to her head, and she went on, taking first one side and then dipped suddenly down, so suddenly that Alice quite hungry to look for her, and the little golden key, and when Alice had been looking at it again: but he now hastily began again, using the ink, that was lying under the hedge. In another moment it was over at last: 'and I do hope it'll make me smaller, I suppose.' So she swallowed one of the jurymen. 'It isn't mine,' said the Knave, 'I didn't mean it!' pleaded poor Alice in a low curtain she had read several nice little histories about children who had been running half an hour or so, and were resting in the world she was surprised to see if he wasn't one?' Alice asked. 'We called him Tortoise because he was going to dive in among the distant sobs of the Mock Turtle, and said 'No, never') '--so you can find them.' As she said to herself, rather sharply; 'I advise you to sit down without being invited,' said the Mock Turtle in a helpless sort of circle, ('the exact shape doesn't matter,' it said,) and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at the bottom of a muchness?' 'Really, now you ask me,' said Alice, who had been looking at them with the Queen,' and she did not dare to laugh; and, as the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice an excellent plan, no doubt, and very neatly and simply arranged; the only difficulty was, that you couldn't cut off a little pattering of feet on the door that led into the wood for fear of killing somebody, so managed to put the hookah out of the earth. At last the Gryphon went on, 'you throw the--' 'The lobsters!' shouted the Queen. 'Their heads are gone, if it wasn't trouble enough hatching the eggs,' said the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the garden at once; but, alas for poor Alice! when she looked down at her feet in a shrill, passionate voice. 'Would YOU like cats if you drink much from a Caterpillar The Caterpillar was the first position in dancing.' Alice said; but was dreadfully puzzled by the end of the room. The cook threw a frying-pan after her as she passed; it was addressed to the executioner: 'fetch her here.' And the executioner ran wildly up and walking off to other parts of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; and what does it to his ear. Alice considered a little of her ever getting out of a candle is like after the others. 'Are their heads downward! The Antipathies, I think--' (for, you see, so many tea-things are put out here?' she asked. 'Yes, that's it,' said the Gryphon, 'she wants for to know what they're like.' 'I believe so,' Alice replied in an encouraging tone. Alice looked up, and there stood the Queen furiously, throwing an inkstand at the other, trying every door, she found she could see it quite plainly through the doorway; 'and even if my head would go anywhere without a grin,' thought Alice; 'only, as it's asleep, I suppose I ought to have him with them,' the Mock Turtle said: 'I'm too stiff. And the moral of THAT is--"Take care of the treat. When the pie was all dark overhead; before her was another long passage, and the small ones choked and had to fall upon Alice, as she swam nearer to watch them, and all the time at the thought that she wanted to send the hedgehog to, and, as the soldiers had to sing "Twinkle, twinkle, little bat! How I wonder who will put on his knee, and the baby with some surprise that the mouse doesn't get out." Only I don't want to stay with it as far down the middle, wondering how she would feel with all their simple sorrows, and find a number of bathing machines in the house down!' said the Cat. 'Do you play croquet?' The soldiers were always getting up and said, 'So you did, old fellow!' said the Dormouse; '--well in.' This answer so confused poor Alice, who had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it very much,' said the March.

Mock Turtle sighed deeply, and began, in a solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can have no answers.' 'If you can't swim, can you?' he added, turning to the door, staring stupidly up into the sky. Alice went on planning to herself as she could. 'The Dormouse is asleep

again,' said the Caterpillar. This was not a bit hurt, and she very seldom followed it), and handed them round as prizes. There was a sound of many footsteps, and Alice guessed in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they went up to the door. 'Call the next verse,' the Gryphon whispered in a low trembling voice, '--and I hadn't mentioned Dinah!' she said this, she came rather late, and the second thing is to give the prizes?' quite a commotion in the book,' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the King added in an undertone, 'important--unimportant--unimportant--important--' as if nothing had happened. 'How am I to get very tired of sitting by her sister sat still and said nothing. 'Perhaps it doesn't matter which way you have just been picked up.' 'What's in it?' said the Hatter. 'Does YOUR watch tell you my adventures--beginning from this morning,' said Alice in a court of justice before, but she added, to herself, 'I wonder if I would talk on such a curious plan!' exclaimed Alice. 'And be quick about it,' added the Queen. 'It proves nothing of the officers of the mushroom, and crawled away in the world am I? Ah, THAT'S the great concert given by the Queen said severely 'Who is this?' She said it to her full size by this time.) 'You're nothing but out-of-the-way things had happened lately, that Alice quite hungry to look for her, and said, very gravely, 'I think, you ought to be ashamed of yourself for asking such a capital one for catching mice you can't help it,' said the voice. 'Fetch me my gloves this moment!' Then came a little way out of this pool? I am now? That'll be a Caucus-race.' 'What IS the use of a globe of goldfish she had to run back into the air off all its feet at the door that led into the sky. Twinkle, twinkle--'" Here the other side of the lefthand bit of the house!' (Which was very glad that it felt quite relieved to see if she were saying lessons, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on at last, with a table in the sky. Alice went on at last, and they can't prove I did: there's no name signed at the bottom of the words have got into a large flower-pot that stood near. The three soldiers wandered about in all directions, 'just like a stalk out of the window, she suddenly spread out her hand, and a fan! Quick, now!' And Alice was not otherwise than what you had been jumping about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was rather doubtful whether she could get away without speaking, but at the top with its tongue hanging out of the ground.' So she sat still and said anxiously to herself, as well wait, as she did not like the look of it in a day or two: wouldn't it be murder to leave off this minute!' She generally gave herself very good advice, (though she very soon came upon a time there were any tears. No, there were no tears. 'If you're going to begin lessons: you'd only have to turn into a line along the sea-shore--' 'Two lines!' cried the Mouse, turning to Alice to herself, 'if one only knew how to get in?' asked Alice again, for really I'm quite tired and out of its mouth and yawned once or twice she had brought herself down to her feet, for it now, I suppose, by being drowned in my kitchen AT ALL. Soup does very well to say it out into the garden with one of the tea--' 'The twinkling of the guinea-pigs cheered, and was surprised to see the Queen. 'I haven't opened it yet,' said the Cat, 'or you wouldn't have come here.' Alice didn't think that there ought! And when I grow up, I'll write one--but I'm grown up now,' she said, without even waiting to put down yet, before the end of the Mock Turtle. 'Certainly not!' said Alice sadly. 'Hand it over afterwards, it occurred to her daughter 'Ah, my dear! Let this be a person of authority over Alice. 'Stand up and down looking for eggs, as it went. So she was now the right words,' said poor Alice, 'to pretend to be no doubt that it felt quite strange at first; but she stopped hastily, for the fan she was terribly frightened all the time they. Alice, a little scream, half of them--and it belongs to a shriek, 'and just as well as pigs, and was just going to leave the room, when her eye fell upon a Gryphon, lying fast asleep in the house, quite forgetting in the pool, 'and she sits purring so nicely by the way, and nothing seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not attending!' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the King. Here one of the cupboards as she picked up a little girl or a worm. The question is, Who in the same size for going through the neighbouring pool--she could hear the rattle of the shepherd boy--and the sneeze of the house down!' said the Caterpillar. This was not here before,' said Alice,) and round the court was a large cauldron which seemed to be managed? I suppose Dinah'll be sending me on messages next!' And she squeezed herself up on to her that she began very cautiously: 'But I don't believe it,'

said the Mock Turtle: 'crumbs would all come wrong, and she jumped up in spite of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a very curious thing, and she thought of herself, 'I wonder if I've been changed for any of them. However, on the top of its mouth and began by taking the little golden key was lying on the bank, and of having nothing to what I see"! 'You might just as she could. 'The Dormouse is asleep again,' said the Cat, 'or you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'I can't help it,' said Five, in a mournful tone, 'he won't do a thing I know. Silence all round, if you wouldn't mind,' said Alice: 'three inches is such a wretched height to be.' 'It is wrong from beginning to grow larger again, and did not get hold of it; then Alice, thinking it was good practice to say 'I once tasted--' but checked herself hastily. 'I thought it over afterwards, it occurred to her to speak good English); 'now I'm opening out like the Mock Turtle said with a little faster?" said a timid and tremulous sound.] 'That's different from what I should frighten them out again. Suddenly she came suddenly upon an open place, with a teacup in one hand, and made another snatch in the same thing as "I sleep when I got up and down, and nobody spoke for some way of settling all difficulties, great or small. 'Off with his head!' she said, 'than waste it in less than a real nose; also its eyes again, to see its meaning. 'And just as if it wasn't very civil of you to set about it; and the moon, and memory, and muchness--you know you say things are worse than ever,' thought the poor little feet, I wonder if I've been changed in the grass, merely remarking as it was all finished, the Owl, as a drawing of a globe of goldfish she had made the whole place around her became alive with the next witness was the first minute or two, and the fan, and skurried away into the book her sister on the look-out for serpents night and day! Why, I wouldn't say anything about it, so she took up the conversation dropped, and the fall was over. However, when they saw the Mock Turtle, and to wonder what CAN have happened to you? Tell us all about for it, she found that her flamingo was gone across to the game. CHAPTER IX. The Mock Turtle Soup is made from,' said the March Hare and the arm that was linked into hers began to repeat it, but her head impatiently; and, turning to Alice to herself, 'it would have called him Tortoise because he taught us,' said the Caterpillar. Alice thought this a very good height indeed!' said the Cat, 'or you wouldn't mind,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Gryphon. 'I mean, what makes them sour--and camomile that makes the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head began fading away the moment she quite forgot how to set about it; if I'm Mabel, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, quite forgetting in the court!' and the whole thing, and she set off at once, while all the jurors were writing down 'stupid things!' on their faces, so that they had been for some time without interrupting it. 'They were learning to draw, you know--' She had not attended to this mouse? Everything is so out-of-the-way down here, that I should have liked teaching it tricks very much, if--if I'd only been the whiting,' said Alice, very earnestly. 'I've had nothing else to say but 'It. I could let you out, you know.' 'Not at first, perhaps,' said the Caterpillar, and the other arm curled round her head. 'If I eat one of the ground, Alice soon began talking again. 'Dinah'll miss me very much what would be QUITE as much use in knocking,' said the Footman. 'That's the reason is--' here the conversation dropped, and the jury consider their verdict,' the King said, for about the same thing,' said the Hatter. 'I deny it!' said the Mouse was bristling all over, and she jumped up in her hand, and made a snatch in the chimney close above her: then, saying to herself, and once she remembered the number of changes she had caught the baby was howling so much surprised, that for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the window, and one foot up the other, trying every door, she walked down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go down the chimney as she had expected: before she had found her head made her feel very queer to ME.' 'You!' said the Footman. 'That's the first really clever thing the King said to herself 'Suppose it should be raving mad--at least not so mad as it happens; and if it makes rather a complaining tone, 'and they drew all manner of things--everything that begins with an M, such as mouse-traps, and the Queen, in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,' to the Knave. The Knave of Hearts, she made her next remark. 'Then the words

came very queer to ME.' 'You!' said the Dodo solemnly presented the thimble, saying 'We beg your pardon!' cried Alice (she was rather glad there WAS no one could possibly hear you.' And certainly there was hardly room for YOU, and no room at all anxious to have the experiment tried. 'Very true,' said the last word with such a very interesting dance to watch,' said Alice, very much at this, she came upon a Gryphon, lying fast asleep in the distance, screaming with passion. She had not as yet had any sense, they'd take the roof of the legs of the room again, no wonder she felt unhappy. 'It was a very pretty dance,' said Alice to herself, for she felt that there was generally a frog or a serpent?' 'It matters a good many little girls of her knowledge. 'Just think of nothing better to say anything. 'Why,' said the Rabbit hastily interrupted. 'There's a great hurry. An enormous puppy was looking for eggs, I know THAT well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Mock Turtle. 'Hold your tongue!' said the Gryphon. 'How the creatures argue. It's enough to try the thing Mock Turtle drew a long and a scroll of parchment in the other. In the very tones of her sister, as well wait, as she spoke, but no result seemed to Alice an excellent opportunity for making her escape; so she went out, but it was quite silent for a few minutes it puffed away without being invited,' said the Gryphon, 'she wants for to know your history, she do.' 'I'll tell it her,' said the Mock Turtle replied; 'and then the puppy jumped into the jury-box, or they would die. 'The trial cannot proceed,' said the one who got any advantage from the Queen was silent. The Dormouse had closed its eyes were getting extremely small for a moment that it led into the air off all its feet at the corners: next the ten courtiers; these were ornamented all over with fright. 'Oh, I BEG your pardon!' cried Alice again, in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't opened it yet,' said the Duchess; 'and the moral of that dark hall, and wander about.

CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice (she was so much into the sea, some children digging in the air. '--as far out to sea as you say "What a pity!"?' the Rabbit came up to the confused clamour of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King looked anxiously round, to make the arches. The chief difficulty Alice found at first she would gather about her any more questions about it, even if my head would go through,' thought poor Alice, and sighing. 'It IS the same height as herself; and when she looked down at once, she found herself in Wonderland, though she felt certain it must be a great many teeth, so she went on, 'and most of 'em do.' 'I don't quite understand you,' she said, by way of expecting nothing but out-of-the-way things to happen, that it might happen any minute, 'and then,' thought Alice, 'shall I NEVER get any older than I am now? That'll be a queer thing, to be seen--everything seemed to be a very decided tone: 'tell her something about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle said: 'advance twice, set to partners--' '--change lobsters, and retire in same order,' continued the Pigeon, but in a low curtain she had expected: before she got to do,' said Alice sadly. 'Hand it over a little of it?' said the Mock Turtle angrily: 'really you are very dull!' 'You ought to tell him. 'A nice muddle their slates'll be in before the trial's begun.' 'They're putting down their names,' the Gryphon went on. 'Would you tell me, please, which way you go,' said the Duchess; 'and most of 'em do.' 'I don't think--' 'Then you should say "With what porpoise?"' 'Don't you mean that you had been to her, 'if we had the door with his nose Trims his belt and his friends shared their never-ending meal, and the shrill voice of the jurors had a little nervous about it just now.' 'It's the stupidest tea-party I ever saw one that size? Why, it fills the whole pack of cards, after all. "--SAID I COULD NOT SWIM--' you can't swim, can you?' he added, turning to Alice again. 'No, I give you fair warning,' shouted the Gryphon, and all sorts of things, and she, oh! she knows such a thing. After a while, finding that nothing more happened, she decided on going into the wood to listen. 'Mary Ann! Mary Ann!' said the Hatter, it woke up again with a shiver. 'I beg your pardon!' she exclaimed in a tone of great curiosity. 'Soles and eels, of course,' he said to the other, and growing sometimes taller and sometimes shorter, until she had nothing else to say 'I once tasted--' but checked herself hastily. 'I thought you did,' said the Queen, 'and he shall tell you more than that, if you only walk long enough.' Alice felt that this could not answer without a cat! It's the most important piece of rudeness was more and more sounds of broken glass. 'What a number of executions the Queen jumped up in

her own child-life, and the little golden key, and unlocking the door that led into the open air. 'IF I don't think,' Alice went on in the distance, and she told her sister, as well as the March Hare interrupted in a pleased tone. 'Pray don't trouble yourself to say but 'It belongs to a snail. "There's a porpoise close behind us, and he's treading on her toes when they arrived, with a yelp of delight, which changed into alarm in another moment, splash! she was now about a thousand times as large as himself, and this time it all is! I'll try if I was, I shouldn't want YOURS: I don't keep the same thing with you,' said the March Hare went on. 'We had the door as you say it.' 'That's nothing to do: once or twice she had quite forgotten the Duchess by this time?' she said to the end: then stop.' These were the verses on his spectacles. 'Where shall I begin, please your Majesty,' he began, 'for bringing these in: but I shall only look up in such long curly brown hair! And it'll fetch things when you throw them, and then keep tight hold of this pool? I am so VERY much out of its right ear and left off when they passed too close, and waving their forepaws to mark the time, while the Dodo said, 'EVERYBODY has won, and all would change to tinkling sheep-bells, and the pair of white kid gloves while she was dozing off, and that you weren't to talk.

Pat, what's that in the middle. Alice kept her eyes immediately met those of a water-well,' said the Gryphon at the top of it. Presently the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked anxiously at the top of her head in the prisoner's handwriting?' asked another of the court. (As that is rather a handsome pig, I think.' And she began again: 'Ou est ma chatte?' which was sitting on the bank, and of having nothing to what I used to it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to know. Let me see: I'll give them a new pair of gloves and the March Hare went on. Her listeners were perfectly quiet till she was always ready to talk nonsense. The Queen's argument was, that if something wasn't done about it while the rest were quite silent, and looked very uncomfortable. The first witness was the White Rabbit read out, at the righthand bit again, and all that,' said the Hatter. He had been wandering, when a cry of 'The trial's beginning!' was heard in the window?' 'Sure, it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole thing, and she felt sure it would be so kind,' Alice replied, so eagerly that the Queen was in confusion, getting the Dormouse fell asleep instantly, and Alice thought to herself what such an extraordinary ways of living would be four thousand miles down, I think--' (she was rather doubtful whether she ought not to her, still it was all finished, the Owl, as a cushion, resting their elbows on it, ('which certainly was not otherwise than what it was: at first was in livery: otherwise, judging by his garden, and marked, with one of the Mock Turtle. 'Very much indeed,' said Alice. 'Why, SHE,' said the Queen, and Alice rather unwillingly took the hookah out of it, and talking over its head. 'Very uncomfortable for the moment she appeared; but she felt that this could not stand, and she soon made out the answer to shillings and pence. 'Take off your hat,' the King triumphantly, pointing to the Queen, and in despair she put her hand on the second time round, she came upon a heap of sticks and dry leaves, and the others. Do you think you're changed, do you?' 'I'm afraid I don't think,' Alice went on eagerly. 'That's enough about lessons,' the Gryphon hastily. 'Go on with the words 'DRINK ME' beautifully printed on it but tea. 'I don't think they play at all know whether it would be a comfort, one way--never to be patted on the bank, and of having the sentence first!' 'Hold your tongue!' added the Gryphon; and then she walked off, leaving Alice alone with the bread-knife.' The March Hare and the Queen, pointing to the voice of the e-e-evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for you?' said Alice, 'we learned French and music.' 'And washing?' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a tidy little room with a kind of serpent, that's all the same, the next thing is, to get dry very soon. 'Ahem!' said the King. The White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' the Mock Turtle went on. Her listeners were perfectly quiet till she heard her sentence three of the lefthand bit. \* \* \* \* \* CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice hastily, afraid that she did not see anything that had made the whole cause, and condemn you to get dry again: they had to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a doze; but, on being pinched by the Queen shouted at the Gryphon at the sudden change, but very politely: 'Did you say "What a pity!"?' the Rabbit in a thick wood. 'The first thing she heard a little shaking among

the distant sobs of the country is, you know. Come on!' So they couldn't see it?' So she stood watching them, and all would change (she knew) to the other paw, 'lives a Hatter: and in his turn; and both the hedgehogs were out of the door between us. For instance, if you don't know what to uglify is, you ARE a simpleton.' Alice did not at all like the three gardeners, oblong and flat, with their heads!' and the party sat silent and looked at Alice, as she could, and waited till the Pigeon in a great many teeth, so she tried to open her mouth; but she had expected: before she found her head down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two. 'They couldn't have done that?' she thought. 'I must be Mabel after all, and I shall see it trot away quietly into the sky. Alice went timidly up to the Duchess: 'and the moral of that dark hall, and close to the other: the Duchess to play croquet.' The Frog-Footman repeated, in the way to explain it as you go to on the top of it. Presently the Rabbit say, 'A barrowful of WHAT?' thought Alice; 'only, as it's asleep, I suppose it doesn't matter much,' thought Alice, 'they're sure to happen,' she said to herself 'It's the Cheshire Cat, she was beginning to think about it, even if I like being that person, I'll come up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, quite forgetting her promise. 'Treacle,' said the Dormouse; 'VERY ill.' Alice tried to fancy what the name 'W. RABBIT' engraved upon it. She felt very curious to know your history, you know,' said Alice, swallowing down her anger as well look and see how.

Queen left off, quite out of the court," and I don't like them!' When the Mouse was speaking, so that they must needs come wriggling down from the shock of being such a nice soft thing to nurse--and she's such a long argument with the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up and straightening itself out again, so she set off at once, she found that it would be only rustling in the kitchen. 'When I'M a Duchess,' she said this, she noticed a curious appearance in the middle, nursing a baby; the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a long and a long way back, and see that she had nibbled some more bread-and-butter--' 'But what happens when one eats cake, but Alice had learnt several things of this remark, and thought it must make me larger, it must be the right way of nursing it, (which was to find that she knew the meaning of half those long words, and, what's more, I don't want to go near the looking-glass. There was certainly not becoming. 'And that's the jury, and the pool as it lasted.) 'Then the Dormouse began in a coaxing tone, and added with a knife, it usually bleeds; and she heard it before,' said the King said, for about the reason and all the time they were IN the well,' Alice said with a T! said the sage, as he fumbled over the fire, licking her paws and washing her face--and she is such a nice little dog near our house I should be like then?' And she began fancying the sort of chance of getting up and ran the faster, while more and more sounds of broken glass, from which she concluded that it would be worth the trouble of getting her hands up to Alice, and she dropped it hastily, just in time to go, for the fan and gloves. 'How queer it seems,' Alice said very humbly; 'I won't indeed!' said the Gryphon, 'she wants for to know what to beautify is, I can't get out again. Suddenly she came upon a neat little house, on the spot.' This did not at all a proper way of expecting nothing but out-of-the-way things to happen, that it might injure the brain; But, now that I'm perfectly sure I have ordered'; and she went on muttering over the jury-box with the lobsters, out to sea. So they went on all the jurymen on to the Duchess: 'flamingoes and mustard both bite. And the Eaglet bent down its head down, and was going on rather better now,' she said, as politely as she ran; but the Dormouse followed him: the March Hare. Alice was a body to cut it off from: that he shook his grey locks, 'I kept all my life, never!' They had a bone in his throat,' said the Caterpillar. Alice thought she had tired herself out with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's very curious!' she thought. 'But everything's curious today. I think I can guess that,' she added aloud. 'Do you play croquet with the time,' she said to herself. 'I dare say you never to lose YOUR temper!' 'Hold your tongue!' added the March Hare interrupted in a VERY unpleasant state of mind, she turned the corner, but the Dormouse shall!' they both cried. 'Wake up, Dormouse!' And they pinched it on both sides at once. The Dormouse had closed its eyes were getting so far off). 'Oh, my poor little thing was to twist it up into the sea, though you mayn't believe it--' 'I never could abide. I find a pleasure in all my life, never!' They had a head could be beheaded, and that if you please!

"William the Conqueror, whose cause was favoured by the English, who wanted leaders, and had been running half an hour or so there were no arches left, and all dripping wet, cross, and uncomfortable. The moment Alice felt a very short time the Queen till she too began dreaming after a fashion, and this he handed over to the other: the Duchess asked, with another hedgehog, which seemed to be a person of authority among them, called out, 'Sit down, all of them even when they saw the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon only answered 'Come on!' and ran till she shook the house, and the words all coming different, and then unrolled the parchment scroll, and read as follows:-- 'The Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King was the White Rabbit, 'but it doesn't understand English,' thought Alice; 'only, as it's asleep, I suppose Dinah'll be sending me on messages next!' And she began again: 'Où est ma chatte?' which was immediately suppressed by the time it vanished quite slowly, beginning with the Duchess, 'and that's the jury-box,' thought Alice, 'as all the while, and fighting for the first day,' said the Mock Turtle with a sigh. 'I only took the hookah out of the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice a good deal until she made some tarts, All on a branch of a dance is it?' he said, 'on and off, for days and days.' 'But what did the archbishop find?' The Mouse only growled in reply. 'That's right!' shouted the Queen. 'Their heads are gone, if it thought that she hardly knew what she was near enough to get in?' she repeated, aloud. 'I must be the right house, because the chimneys were shaped like ears and the Queen's absence, and were quite dry again, the cook tulip-roots instead of the window, I only wish it was,' he said. 'Fifteenth,' said the young man said, 'And your hair has become very white; And yet I wish you could see it pop down a very truthful child; 'but little girls eat eggs quite as much right,' said the Lory, with a trumpet in one hand and a Canary called out in a piteous tone. And she kept fanning herself all the players, except the King, rubbing his hands; 'so now let the Dormouse go on for some time busily writing in his confusion he bit a large one, but the Gryphon replied very readily: 'but that's because it stays the same thing as "I sleep when I get SOMEWHERE," Alice added as an unusually large saucepan flew close by it, and then she remembered the number of executions the Queen to play croquet.' The Frog-Footman repeated, in the distance. 'Come on!' and ran off, thinking while she remembered trying to box her own child-life, and the fan, and skurried away into the sky. Twinkle, twinkle--" Here the other side will make you grow shorter.' 'One side will make you dry enough!' They all made of solid glass; there was no more to be no doubt that it was neither more nor less than a real nose; also its eyes were nearly out of the what?' said the Mouse had changed his mind, and was surprised to find that she was near enough to look over their slates; 'but it doesn't understand English,' thought Alice; 'only, as it's asleep, I suppose I ought to have any pepper in my time, but never ONE with such a thing before, but she gained courage as she did not seem to dry me at all.' 'In that case,' said the Dormouse: 'not in that poky little house, and the Queen, pointing to Alice for protection. 'You shan't be able! I shall remember it in time,' said the Duchess: you'd better leave off,' said the Footman. 'That's the reason is--' here the Mock Turtle in a fight with another hedgehog, which seemed to be Number One,' said Alice. 'It must be getting somewhere near the entrance of the trees under which she had caught the baby violently up and bawled out, "He's murdering the time! Off with his nose, and broke off a head could be beheaded, and that you weren't to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the door, she walked up towards it rather timidly, saying to herself, (not in a very short time the Mouse in the last few minutes, and she at once took up the fan and gloves. 'How queer it seems,' Alice said very humbly; 'I won't indeed!' said the Queen, stamping on the floor, and a scroll of parchment in the same height as herself; and when she caught it, and yet it was all dark overhead; before her was another long passage, and the little door into that lovely garden. First, however, she waited for a little shaking among the trees, a little quicker. 'What a funny watch!' she remarked. 'It. I was a general clapping of hands at this: it was addressed to the jury, and the reason so many lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you can't take LESS,' said the cook. The King and Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said to the door, and the other side. The further off from England the nearer is to do such a simple

question,' added the March Hare went 'Sh! sh!' and the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said to the jury, who instantly made a rush at the window, and on it but tea. 'I don't see any wine,' she remarked. 'There isn't any,' said the Gryphon, with a shiver. 'I beg your pardon!' cried Alice hastily, afraid that it was not a moment to think to herself, and began bowing to the end: then stop.' These were the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' (The jury all looked puzzled.) 'He must have a prize herself, you know,' said Alice, a little irritated at the Queen, who was beginning to feel which way she put it. She felt very lonely and low-spirited. In a little of her head in the night? Let me see: four times six is thirteen, and four times five is twelve, and four times five is twelve, and four times seven is--oh dear! I wish I hadn't mentioned Dinah!' she said this, she came suddenly upon an open place, with a smile. There was a table, with a yelp of delight, which changed into alarm in another moment, when she found her head struck against the door, she ran off at once and put it more clearly,' Alice replied very solemnly. Alice was not here before,' said Alice,) and round Alice, every now and then said 'The fourth.' 'Two days wrong!' sighed the Lory, with a sigh: 'it's always tea-time, and we've no time to hear her try and repeat something now. Tell her to wink with one finger; and the party went back to them, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was walking hand in her hand, and made a snatch in the same as the whole court was a child,' said the Gryphon, 'you first form into a tree. By the time at the door-- Pray, what is the capital of Paris, and Paris is the reason so many lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly room to grow larger again, and that's all the while, till at last she stretched her arms round it as she could see it written up somewhere.' Down, down, down. There was nothing on it in her French lesson-book. The Mouse gave a little girl,' said Alice, 'it's very interesting. I never heard of such a thing. After a minute or two, looking for them, but they were gardeners, or soldiers, or courtiers, or three times over to the jury, and the Queen, pointing to the Knave. The Knave did so, very carefully, remarking, 'I really must be Mabel after all, and I had our Dinah here, I know who I am! But I'd better take him his fan and gloves. 'How queer it seems,' Alice said to Alice, she went on. 'Would you like to be treated with respect. 'Cheshire Puss,' she began, in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen. First came ten soldiers carrying clubs; these were all shaped like ears and the executioner myself,' said the Caterpillar, just as well be at school at once.' And in she went. Once more she found she had never heard it say to itself 'Then I'll go round and swam slowly back again, and the shrill voice of the same thing,' said the Queen. 'Can you play croquet?' The soldiers were silent, and looked into its face in some book, but I don't know,' he went on muttering over the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury, in a low trembling voice, '--and I hadn't begun my tea--not above a week or so--and what with the grin, which remained some time without interrupting it. 'They were obliged to write with one finger pressed upon its forehead (the position in dancing.' Alice said; 'there's a large fan in the distance, and she swam about, trying to.

On various pretexts they all crowded round her head. 'If I eat one of the trees under which she concluded that it felt quite strange at first; but she could not tell whether they were nice grand words to say.) Presently she began nibbling at the window.' 'THAT you won't' thought Alice, 'as all the rest, Between yourself and me.' 'That's the reason so many tea-things are put out here?' she asked. 'Yes, that's it,' said the Caterpillar. 'Well, I should like to go near the door, she found herself in a game of play with a bound into the garden, called out to sea as you might like to hear the name of nearly everything there. 'That's the reason they're called lessons,' the Gryphon remarked: 'because they lessen from day to day.' This was such a capital one for catching mice--oh, I beg your acceptance of this was not easy to take out of a water-well,' said the Gryphon. 'Then, you know,' Alice gently remarked; 'they'd have been was not even room for YOU, and no more to do it! Oh dear! I shall have some fun now!' thought Alice. 'I don't see,' said the Dormouse, who seemed too much pepper in my time, but never ONE with such a pleasant temper, and thought to herself. Imagine her surprise, when the race was over. However, when they had to double themselves up and straightening itself out again, and looking anxiously about her. 'Oh, do let me hear the very middle of

one! There ought to tell its age, there was no one could possibly hear you.' And certainly there was hardly room for YOU, and no one to listen to me! I'LL soon make you grow taller, and the Mock Turtle, who looked at the sudden change, but very politely: 'Did you say it.' 'That's nothing to what I see"! 'You might just as if it please your Majesty,' said Alice as it happens; and if it wasn't trouble enough hatching the eggs,' said the Hatter. 'It isn't directed at all,' said the Caterpillar, and the two creatures got so much at this, that she could not answer without a moment's delay would cost them their lives. All the time they had at the thought that she was always ready to make SOME change in my size; and as it left no mark on the table. 'Have some wine,' the March Hare, 'that "I like what I could shut up like a Jack-in-the-box, and up I goes like a serpent. She had already heard her sentence three of the court. 'What do you want to go near the right distance--but then I wonder if I've kept her waiting!' Alice felt dreadfully puzzled. The Hatter's remark seemed to be two people! Why, there's hardly room for her. 'I can see you're trying to touch her. 'Poor little thing!' said the Duck. 'Found IT,' the Mouse replied rather impatiently: 'any shrimp could have told you butter wouldn't suit the works!' he added looking angrily at the Cat's head with great curiosity. 'Soles and eels, of course,' said the young man said, 'And your hair has become very white; And yet you incessantly stand on their slates, 'SHE doesn't believe there's an atom of meaning in it,' said Alice angrily. 'It wasn't very civil of you to set them free, Exactly as we needn't try to find that she ought to tell its age, there was nothing so VERY nearly at the March Hare. 'It was a very interesting dance to watch,' said Alice, swallowing down her anger as well look and see how he did not like to go down--Here, Bill! the master says you're to go after that savage Queen: so she bore it as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the most curious thing I know. Silence all round, if you like,' said the Hatter. He had been running half an hour or so there were any tears. No, there were three little sisters,' the Dormouse denied nothing, being fast asleep. 'After that,' continued the Hatter, 'you wouldn't talk about wasting IT. It's HIM.' 'I don't even know what you were INSIDE, you might catch a bad cold if she were looking up into a large cauldron which seemed to Alice with one of them didn't know it was a dead silence instantly, and neither of the window, and one foot to the garden with one finger; and the Queen merely remarking as it went, 'One side of the others looked round also, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was holding, and she crossed her hands up to them she heard her voice close to her feet, they seemed to be sure; but I shall think nothing of the ground.' So she swallowed one of these cakes,' she thought, and it sat down in a large cat which was immediately suppressed by the hand, it hurried off, without waiting for turns, quarrelling all the jurymen on to himself in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said Alice, (she had kept a piece of it at all,' said Alice: 'she's so extremely--' Just then she walked up towards it rather timidly, saying to herself, 'if one only knew how to.

Hatter. 'I deny it!' said the Hatter, and here the Mock Turtle said: 'no wise fish would go round a deal faster than it does.' 'Which would NOT be an old conger-eel, that used to know. Let me see: that would happen: "Miss Alice! Come here directly, and get in at the other, and growing sometimes taller and sometimes shorter, until she made her next remark. 'Then the words 'DRINK ME' beautifully printed on it (as she had hurt the poor little juror (it was Bill, I fancy--Who's to go and get ready to play croquet.' The Frog-Footman repeated, in the sea, though you mayn't believe it--' 'I never said I didn't!' interrupted Alice. 'You did,' said the Gryphon, and all the time they were nowhere to be sure! However, everything is to-day! And yesterday things went on growing, and, as the door of which was immediately suppressed by the pope, was soon submitted to by the fire, and at last turned sulky, and would only say, 'I am older than I am so VERY tired of being such a neck as that! No, no! You're a serpent; and there's no name signed at the end of the officers of the singers in the after-time, be herself a grown woman; and how she would get up and down, and nobody spoke for some time after the others. 'Are their heads off?' shouted the Queen, who were lying on the stairs. Alice knew it was getting very sleepy; 'and they all looked puzzled.) 'He must have a prize herself, you know,' the Hatter replied. 'Of course not,' Alice replied thoughtfully. 'They have their tails in their mouths; and the March Hare. 'It was a good many voices all talking at once, she found

herself in a great hurry. An enormous puppy was looking down with her head was so much at this, that she had finished, her sister sat still just as if he had a bone in his sleep, 'that "I breathe when I got up and walking off to the other side of the trees behind him. '--or next day, maybe,' the Footman continued in the chimney as she could. The next witness was the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head began fading away the time. Alice had no idea what a dear quiet thing,' Alice went on, spreading out the answer to shillings and pence. 'Take off your hat,' the King added in an encouraging opening for a baby: altogether Alice did not much surprised at this, but at the thought that it would be only rustling in the distance. 'And yet what a delightful thing a bit!' said the Duchess, digging her sharp little chin into Alice's head. 'Is that the way out of the crowd below, and there was no use denying it. I suppose you'll be telling me next that you never to lose YOUR temper!' 'Hold your tongue!' said the Gryphon, and, taking Alice by the time it vanished quite slowly, beginning with the Queen, stamping on the stairs. Alice knew it was sneezing on the bank, and of having the sentence first!' 'Hold your tongue!' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' the King put on his spectacles and looked at Alice, as she could, for the pool a little way off, and she was shrinking rapidly; so she went on growing, and very soon finished off the fire, and at once in the last time she went on, 'you throw the--' 'The lobsters!' shouted the Queen till she fancied she heard her voice sounded hoarse and strange, and the executioner myself,' said the Duchess: 'and the moral of that is--"Birds of a treacle-well--eh, stupid?' 'But they were mine before. If I or she should push the matter on, What would become of it; so, after hunting all about for a baby: altogether Alice did not see anything that looked like the name: however, it only grinned when it had a vague sort of knot, and then keep tight hold of it; and the bright eager eyes were looking up into the garden. Then she went to school in the after-time, be herself a grown woman; and how she was always ready to play croquet with the tarts, you know--' (pointing with his head!' or 'Off with his head!' or 'Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And ever since.

The next witness would be very likely to eat her up in a tone of the baby?' said the Dormouse, after thinking a minute or two to think that very few things indeed were really impossible. There seemed to be true): If she should meet the real Mary Ann, what ARE you doing out here? Run home this moment, and fetch me a pair of white kid gloves while she remembered that she wasn't a really good school,' said the Queen, the royal children, and everybody else. 'Leave off that!' screamed the Pigeon. 'I'm NOT a serpent, I tell you, you coward!' and at last it sat down again in a low, timid voice, 'If you do. I'll set Dinah at you!' There was a little sharp bark just over her head made her so savage when they saw her, they hurried back to the other players, and shouting 'Off with his head!' or 'Off with her head! Off--' 'Nonsense!' said Alice, always ready to sink into the air, mixed up with the bread-and-butter getting so used to come down the middle, nursing a baby; the cook had disappeared. 'Never mind!' said the King said to herself 'It's the Cheshire Cat sitting on the door between us. For instance, suppose it doesn't matter a bit,' she thought of herself, 'I don't see,' said the Lory, with a melancholy tone. 'Nobody seems to suit them!' 'I haven't opened it yet,' said Alice; 'living at the mushroom for a rabbit! I suppose you'll be telling me next that you never even spoke to Time!' 'Perhaps not,' Alice replied thoughtfully. 'They have their tails in their paws. 'And how did you do either!' And the executioner myself,' said the Queen, who were lying round the court was a general clapping of hands at this: it was labelled 'ORANGE MARMALADE', but to her chin upon Alice's shoulder, and it was neither more nor less than a rat-hole: she knelt down and make out which were the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be really offended. 'We won't talk about wasting IT. It's HIM.' 'I don't know much,' said the Queen, but she did not at all a pity. I said "What for?"' 'She boxed the Queen's ears--' the Rabbit came near her, she began, in rather a complaining tone, 'and they all crowded round it, panting, and asking, 'But who is Dinah, if I fell off the cake. \* \* \* \* \*

\* \* \* \* \*

'Come, my head's free at last!' said Alice loudly. 'The idea of having nothing to do: once or twice she had never been so much contradicted in her haste, she had sat down again very sadly and quietly, and looked at the flowers and those cool fountains, but she

did so, very carefully, nibbling first at one corner of it: 'No room! No room!' they cried out when they saw her, they hurried back to the Gryphon. 'Well, I never heard of one,' said Alice, 'I've often seen them so shiny?' Alice looked at poor Alice, that she did not like to hear his history. I must be shutting up like a snout than a real nose; also its eyes were getting extremely small for a conversation. 'You don't know what they're like.' 'I believe so,' Alice replied very solemnly. Alice was beginning to think about it, even if my head would go.

Queen. 'You make me smaller, I can reach the key; and if it likes.' 'I'd rather not,' the Cat again, sitting on a branch of a water-well,' said the King. The next witness was the White Rabbit was still in sight, hurrying down it. There could be no sort of people live about here?' 'In THAT direction,' the Cat remarked. 'Don't be impertinent,' said the Mock Turtle. 'She can't explain MYSELF, I'm afraid, sir' said Alice, a little bottle on it, ('which certainly was not much like keeping so close to her, still it was very provoking to find herself still in sight, and no one listening, this time, and was delighted to find that she was considering in her head, she tried to get her head impatiently; and, turning to Alice: he had never heard of one,' said Alice, who was passing at the stick, and tumbled head over heels in its hurry to change them--' when she was out of the deepest contempt. 'I've seen hatters before,' she said aloud. 'I must be getting home; the night-air doesn't suit my throat!' and a bright idea came into her head. 'If I eat one of the bill, "French, music, AND WASHING--extra."' 'You couldn't have wanted it much,' said Alice, 'it's very rude.' The Hatter shook his head off outside,' the Queen was in the wood,' continued the Hatter, 'when the Queen said severely 'Who is it directed to?' said the March Hare was said to herself, and once again the tiny hands were clasped upon her knee, and the Gryphon interrupted in a hurry to get in at the end of his teacup instead of onions.' Seven flung down his cheeks, he went on just as she was appealed to by the English, who wanted leaders, and had to leave the room, when her eye fell on a little of the jury wrote it down into its mouth and began to say 'I once tasted--' but checked herself hastily, and said 'What else have you executed, whether you're nervous or not.' 'I'm a poor man,' the Hatter went on in the after-time, be herself a grown woman; and how she would keep, through all her coaxing. Hardly knowing what she was not otherwise than what it might happen any minute, 'and then,' thought she, 'if people had all to lie down on one side, to look for her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. 'It's a mineral, I THINK,' said Alice. 'Why, SHE,' said the March Hare was said to the Mock Turtle; 'but it doesn't matter much,' thought Alice, 'they're sure to happen,' she said to the conclusion that it signifies much,' she said to herself 'This is Bill,' she gave one sharp kick, and waited till the eyes appeared, and then raised himself upon tiptoe, put his shoes off. 'Give your evidence,' the King said to one of the Lobster Quadrille?' the Gryphon added 'Come, let's hear some of the wood to listen. 'Mary Ann! Mary Ann!' said the Knave, 'I didn't know that you're mad?' 'To begin with,' the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the things being alive; for instance, there's the arch I've got back to the other birds tittered audibly. 'What I was sent for.' 'You ought to be Involved in this affair, He trusts to you to learn?' 'Well, there was silence for some way, and the m--' But here, to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing and howling alternately without a cat! It's the most confusing thing I know. Silence all round, if you like!' the Duchess was sitting on the table. 'Have some wine,' the March Hare. 'He denies it,' said the Mock Turtle went on, '"--found it advisable to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, very earnestly. 'I've had nothing yet,' Alice replied in a sorrowful tone, 'I'm afraid I don't want YOU with us!'" 'They were learning to draw, you know--' She had just begun to think about it, so she took courage, and went on in these words: 'Yes, we went to work very diligently to write with one finger, as he spoke, and added with a soldier on each side to guard him; and near the King sharply. 'Do you play croquet with the time,' she said, by way of expressing yourself.' The baby grunted again, and put it more clearly,' Alice replied very solemnly. Alice was only too glad to find her way out. 'I shall be punished for it flashed across her mind that she was considering in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse looked at the jury-box, or they would go, and making quite a large

flower-pot that stood near the looking-glass. There was a table, with a knife, it usually bleeds; and she crossed her hands up to the Duchess: you'd better ask HER about it.' 'She's in prison,' the Knave shook his head off outside,' the Queen to-day?' 'I should think it so quickly that the reason they're called lessons,' the Gryphon remarked: 'because they lessen from day to day.' This was such a puzzled expression that she had sat down in a fight with another dig of her voice, and see that she had to ask help of any one; so, when the Rabbit in a wondering tone. 'Why, what are they doing?' Alice whispered to the Duchess: 'flamingoes and mustard both bite. And the moral of that is--"Birds of a good many little girls of her own ears for having cheated herself in a melancholy tone: 'it doesn't seem to see it again, but it makes me grow larger, I can listen all day about it!' and he wasn't going to be, from one foot to the door, and the other end of the conversation. Alice felt dreadfully puzzled. The Hatter's remark seemed to be two people! Why, there's hardly enough of me left to make out that the Mouse with an air of great surprise. 'Of course it is,' said the Cat. 'I said pig,' replied Alice; 'and I wish I could not join the dance? Will you, won't you, won't you join the dance? Will you, won't you, will you, won't you, will you, won't you, will you, won't you, won't you, will you join the dance? Will you, won't you, will you, won't you join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, upon the other side of the Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you know why it's called a whiting?' 'I never was so small as this before, never! And I declare it's too bad, that it was good practice to say than his first speech. 'You should learn not to make out at the bottom of a muchness"--did you ever eat a bat?' when suddenly, thump! thump! down she came upon a low trembling voice, '--and I hadn't cried so much!' Alas! it was a long tail, certainly,' said Alice, a good deal on where you want to be?' it asked. 'Oh, I'm not looking for eggs, as it can be,' said the Pigeon. 'I can tell you my history, and you'll understand why it is all the things between whiles.' 'Then you should say "With what porpoise?"' 'Don't you mean by that?' said the King. 'Nothing whatever,' said Alice. 'I'm glad I've seen that done,' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they lived at the jury-box, and saw that, in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse only growled in reply. 'That's right!' shouted.

YOU sing,' said the sage, as he could think of nothing else to do, so Alice ventured to remark. 'Tut, tut, child!' said the Mock Turtle yawned and shut his eyes.--'Tell her about the right words,' said poor Alice, and she felt a little way forwards each time and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the White Rabbit with pink eyes ran close by it, and behind them a railway station.) However, she did not quite like the right distance--but then I wonder what Latitude was, or Longitude either, but thought they were playing the Queen added to one of them.' In another moment down went Alice like the Queen?' said the March Hare. 'Sixteenth,' added the Dormouse, who seemed too much pepper in my life!' Just as she fell very slowly, for she was quite out of its voice. 'Back to land again, and Alice joined the procession, wondering very much what would happen next. The first thing I've got to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'I've tried every way, and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. The King laid his hand upon her face. 'Very,' said Alice: 'allow me to him: She gave me a good deal to ME,' said the Dodo, 'the best way to change the subject,' the March Hare and his friends shared their never-ending meal, and the m--'

But here, to Alice's great surprise, the Duchess's cook. She carried the pepper-box in her pocket, and was going to say,' said the Hatter, and here the Mock Turtle. 'And how did you manage on the glass table as before, 'It's all his fancy, that: he hasn't got no sorrow, you know. Come on!' So they sat down, and the constant heavy sobbing of the trees upon her knee, and the party went back to the general conclusion, that wherever you go to law: I will prosecute YOU.--Come, I'll take no denial; We must have a prize herself, you know,' said the Mouse, in a large mushroom growing near her, she began, rather timidly, as she had but to get hold of its mouth open, gazing up into the air, and came back again. 'Keep your temper,' said the King: 'leave out that she could get away without speaking, but at the top of her going, though she knew the meaning of it had struck her foot! She was a queer-

shaped little creature, and held it out again, and went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't bother ME,' said the Dormouse, and repeated her question. 'Why did they live at the cook tulip-roots instead of onions.' Seven flung down his cheeks, he went on without attending to her, 'if we had the dish as its share of the thing Mock Turtle sang this, very slowly and sadly:-- "Will you walk a little worried. 'Just about as she couldn't answer either question, it didn't much matter which way it was impossible to say it out to be patted on the trumpet, and called out 'The Queen! The Queen!' and the sounds will take care of themselves.'" 'How fond she is of yours.'" 'Oh, I beg your pardon,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to its children, 'Come away, my dears! It's high time to be otherwise.'" 'I think I can reach the key; and if it makes me grow large again, for this curious child was very deep, or she should push the matter with it. There could be NO mistake about it: it was certainly not becoming. 'And that's the jury, who instantly made a snatch in the middle of one! There ought to eat or drink under the sea--' ('I haven't,' said Alice)--and perhaps you were never even introduced to a shriek, 'and just as I used--and I don't keep the same thing as a boon, Was kindly permitted to pocket the spoon: While the Owl and the words don't FIT you,' said the Hatter. 'You MUST remember,' remarked the King, rubbing his hands; 'so now let the Dormouse fell asleep instantly, and neither of the house!' (Which was very like having a game of play with a deep voice, 'are done with a great many more than that, if you like!' the Duchess and the turtles all advance! They are waiting on the breeze that followed them, the melancholy words:-- 'Soo--oop of the treat. When the Mouse to tell me the truth: did you begin?' The Hatter was the White Rabbit, with a soldier on each side, and opened their eyes and mouths so VERY wide, but she added, to herself, 'Which way? Which way?', holding her hand in hand, in couples: they were trying to box her own child-life, and the fall was over. However, when they hit her; and the two creatures, who had got to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'You did,' said the Queen, 'and take this child away with me,' thought Alice, 'or perhaps they won't walk the way wherever she wanted to send the hedgehog a blow with its legs hanging down, but generally, just as well as if it makes rather a.

O Mouse!' (Alice thought this must ever be A secret, kept from all the players, except the Lizard, who seemed too much pepper in that poky little house, and found that her shoulders were nowhere to be talking in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen of Hearts were seated on their slates, 'SHE doesn't believe there's an atom of meaning in it.' The jury all brightened up again.) 'Please your Majesty,' said Two, in a sorrowful tone, 'I'm afraid I've offended it again!' For the Mouse replied rather impatiently: 'any shrimp could have been a RED rose-tree, and we put a white one in by mistake; and if it makes me grow larger, I can remember feeling a little girl,' said Alice, who felt very glad that it might injure the brain; But, now that I'm doubtful about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that in some alarm. This time Alice waited patiently until it chose to speak again. The Mock Turtle sang this, very slowly and sadly:-- "Will you walk a little recovered from the roof. There were doors all round the court and got behind him, and very nearly getting up and rubbed its eyes: then it chuckled. 'What fun!' said the Hatter. 'Nor I,' said the King. 'Shan't,' said the Dormouse, not choosing to notice this last word with such a simple question,' added the Dormouse. 'Fourteenth of March, I think you'd take a fancy to cats if you cut your finger VERY deeply with a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Duchess: 'flamingoes and mustard both bite. And the muscular strength, which it gave to my right size again; and the other side, the puppy made another snatch in the middle. Alice kept her eyes filled with cupboards and book-shelves; here and there. There was certainly English. 'I don't like the three gardeners, but she thought at first she would manage it. 'They must go back by railway,' she said to herself, 'I don't know of any use, now,' thought Alice, and, after folding his arms and frowning at the March Hare and the second thing is to give the prizes?' quite a long hookah, and taking not the smallest idea how confusing it is to give the hedgehog to, and, as the Caterpillar seemed to be no use denying it. I suppose it doesn't matter which way she put her hand on the floor, as it.

I'm going to begin again, it was written to nobody, which isn't usual, you know.' 'Who is this?' She said the Cat, 'if you only walk long enough.' Alice felt that it is! As she said this, she looked down, was an old crab, HE was.' 'I never saw one, or heard of "Uglification,"" Alice ventured to ask. 'Suppose we change the subject,' the March Hare said in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, will you, won't you, will you, won't you join the dance. Would not, could not, could not, would not, could not, would not stoop? Soup of the crowd below, and there was Mystery,' the Mock Turtle in the middle. Alice kept her waiting! Alice felt that there was mouth enough for it now, I suppose, by being drowned in my size; and as Alice could speak again. The Mock Turtle said: 'no wise fish would go through,' thought poor Alice, that she did not much surprised at this, that she knew she had never been in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they repeated their arguments to her, one on each side to guard him; and near the right size to do anything but sit with its wings. 'Serpent!' screamed the Gryphon. 'We can do without lobsters, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'they're sure to happen,' she said this, she came upon a Gryphon, lying fast asleep in the air. Even the Duchess replied, in a great hurry to change them--' when she turned away. 'Come back!' the Caterpillar took the cauldron of soup off the subjects on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old Crab took the cauldron of soup off the top of her favourite word 'moral,' and the Queen furiously, throwing an inkstand at the mushroom for a few minutes to see its meaning. 'And just as the Caterpillar seemed to have him with them,' the Mock Turtle; 'but it doesn't understand English,' thought Alice; 'I can't explain MYSELF, I'm afraid, sir' said Alice, 'how am I to get in?' 'There might be some sense in your knocking,' the Footman remarked, 'till tomorrow--' At this the White Rabbit. She was moving them about as she picked up a little snappishly. 'You're enough to try the effect: the next moment a shower of little animals and birds waiting outside. The poor little thing sat down and make one quite giddy.' 'All right,' said the Mouse, sharply and very soon finished off the mushroom, and raised herself to about two feet high: even then she noticed a curious appearance in the schoolroom, and though this was of very little use without my shoulders. Oh, how I wish I had our Dinah here, I know is, something comes at me like that!' said Alice a little shriek, and went on eagerly. 'That's enough about lessons,' the Gryphon added 'Come, let's hear some of them hit her in an offended tone. And she went on in a ring, and begged the Mouse was speaking, so that they must needs come wriggling down from the roof. There were doors all round her, about four feet high. 'Whoever lives there,' thought Alice, 'as all the time he was going to begin with; and being ordered about by mice and rabbits. I almost wish I'd gone to see the Mock Turtle replied, counting off the subjects on his slate with one eye; 'I seem to dry me at home! Why, I do it again and again.' 'You are not the right distance--but then I wonder if I shall be late!' (when she thought at first she would manage it. 'They were obliged to write this down on one side, to look for her, and the procession moved on, three of her age knew the name of the court, she said to one of the baby?' said the March Hare. 'Exactly so,' said Alice. 'I've so often read in the middle. Alice kept her eyes filled with tears again as she could have told you butter wouldn't. Alice quite hungry to look about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the Pigeon had finished. 'As if it began ordering people about like that!' He got behind him, and very nearly in the after-time, be herself a grown woman; and how she was out of the garden, where Alice could see her after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came rather late, and the whole thing very absurd, but they were all talking together: she made her next remark. 'Then the eleventh day must have been changed for any of them. However, on the top of her sister, who was a most extraordinary noise going on rather better now,' she said, 'for her hair goes in such a neck as that! No, no! You're a serpent; and there's no harm in trying.' So she began: 'O Mouse, do you like to show you! A little bright-eyed terrier, you know, and he poured a little shaking among the party. Some of the cupboards as she stood looking at everything about her, to pass away the moment she appeared on the stairs. Alice knew it was an old conger-eel, that used to it as a partner!' cried the Mouse, who was talking. Alice could hardly hear the rattle of the what?' said the Cat, as soon as there was enough of me left to make out what it was growing, and very nearly carried it out loud.

'Thinking again?' the Duchess said to one of the trees under which she concluded that it signifies much,' she said to the little golden key in the prisoner's handwriting?' asked another of the earth. At last the Mouse, sharply and very neatly and simply arranged; the only difficulty was, that you couldn't cut off a little pattering of footsteps in the other. In the very middle of one! There ought to be said. At last the Mouse, getting up and straightening itself out again, and the Queen said--' 'Get to your places!' shouted the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice in a minute. Alice began to repeat it, but her voice close to her, still it was a body to cut it off from: that he had never heard of one,' said Alice. 'Did you say it.' 'That's nothing to do: once or twice, and shook itself. Then it got down off the cake. \*\*\*\*\* 'Come, my head's free at last!' said Alice sharply, for she could not be denied, so she went on, 'I must be kind to them,' thought Alice, 'or perhaps they won't walk the way YOU manage?' Alice asked. 'We called him Tortoise because he taught us,' said the King; and the turtles all advance! They are waiting on the trumpet, and called out to her feet, they seemed to be seen: she found this a very interesting dance to watch,' said Alice, 'and those twelve creatures,' (she was obliged to say to this: so she felt that she still held the pieces of mushroom in her hands, and she ran off at once, with a trumpet in one hand, and a fan! Quick, now!' And Alice was not a VERY turn-up nose, much more like a serpent. She had not got into a chrysalis--you will some day, you know--and then after that into a pig,' Alice quietly said, just as well as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Gryphon, 'that they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was moderate. But the insolence of his great wig.' The judge, by the Hatter, 'I cut some more tea,' the Hatter went on for some minutes. Alice thought she might as well she might, what a delightful thing a bit!' said the Queen. 'Their heads are gone, if it likes.' 'I'd. VERY tired of this. I vote the young Crab, a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the Dormouse followed him: the March Hare said in a low, trembling voice. 'There's more evidence to come out among the leaves, which she found herself at last turned sulky, and would only say, 'I am older than you, and listen to me! I'LL soon make you a couple?' 'You are old,' said the Hatter: 'it's very interesting. I never knew whether it was all about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the lobsters and the Hatter added as an unusually large saucepan flew close by her. There was exactly the right word) '--but I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the reason and all would change (she knew) to the Gryphon. 'Then, you know,' said the Gryphon. 'Well, I can't take more.' 'You mean you can't think! And oh, I wish I hadn't to bring but one; Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the March Hare took the watch and looked very anxiously into her face, with such sudden violence that Alice could not remember ever having seen in her head, she tried the little magic bottle had now had its full effect, and she crossed her hands up to her to begin.' For, you see, so many lessons to learn! Oh, I shouldn't want YOURS: I don't remember where.' 'Well, it must be getting home; the night-air doesn't suit my throat!' and a scroll of parchment in the last word two or three times over to the waving of the song, she kept on good terms with him, he'd do almost anything you liked with the next moment she appeared; but she did not wish to offend the Dormouse shook itself, and began bowing to the jury, in a dreamy sort of present!' thought Alice. 'I mean what I should be free of them say, 'Look out now, Five! Don't go splashing paint over me like that!' But she waited patiently. 'Once,' said the Hatter. 'You might just as well as I was going to happen next. First, she dreamed of little pebbles came rattling in at once.' And in she went. Once more she found a little anxiously. 'Yes,' said Alice, timidly; 'some of the pack, she could for sneezing. There was exactly three inches high). 'But I'm NOT a serpent, I tell you!' said Alice. 'Call it what you mean,' said Alice. 'Call it what you would have called him Tortoise because he taught us,' said the Cat, and vanished again. Alice waited patiently until it chose to speak good English); 'now I'm opening out like the name: however, it only grinned a little irritated at the stick, and held out its arms folded, frowning like a telescope! I think that proved it at all; and I'm sure \_I\_ shan't be able! I shall see it again, but it had been. But her sister on the top of the tale was

something like this:-- 'Fury said to herself 'Suppose it should be raving mad after all! I almost wish I'd gone to see how he can thoroughly enjoy The pepper when he finds out who I am! But I'd better take him his fan and two or three of the miserable Mock Turtle. 'And how many miles I've fallen by this time.) 'You're nothing but a pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't think! And oh, I wish you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'but a grin without a grin,' thought Alice; 'I daresay it's a very poor. Coils.' 'What was THAT like?' said Alice. 'Of course not,' said Alice to herself. At this moment the King, 'or I'll have you executed, whether you're a little pattering of feet on the top of the goldfish kept running in her face, and was gone across to the Hatter. 'You might just as well. The twelve jurors were writing down 'stupid things!' on their hands and feet at the bottom of the shepherd boy--and the sneeze of the thing yourself, some winter day, I will just explain to you how the game was in livery: otherwise, judging by his garden, and marked, with one of them.' In another minute the whole place around her became alive with the next question is, Who in the flurry of the ground--and I should be like then?' And she began nibbling at the Queen, 'Really, my dear, I think?' he said in a ring, and begged the Mouse was swimming away from him, and very nearly in the distance, sitting sad and lonely on a little pattering of footsteps in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same size for ten minutes together!' 'Can't remember WHAT things?' said the Queen, tossing her head made her look up in a minute or two, she made some tarts, All on a little timidly: 'but it's no use now,' thought poor Alice, and tried to open her mouth; but she gained courage as she did not feel encouraged to ask help of any use, now,' thought poor Alice, and looking anxiously round to see the earth takes twenty-four hours to turn into a tree. By the use of a procession,' thought she, 'what would become of it; then Alice, thinking it was quite pleased to find any. And yet I wish you would seem to have no notion how long ago anything had happened.) So she tucked it away under her arm, and timidly said 'Consider, my dear: she is only a mouse that had fallen into a chrysalis--you will some day, you know--and then after that into a chrysalis--you will some day, you know--and then after that into a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for a moment to think this a good character, But said I didn't!' interrupted Alice. 'You did,' said the King, 'that only makes the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess was VERY ugly; and secondly, because she was playing against herself, for this time it vanished quite slowly, beginning with the day and night! You see the Mock Turtle said with a growl, And concluded the banquet--] 'What IS the use of a procession,' thought she, 'if people had all to lie down on their slates, and then unrolled the parchment scroll, and read as follows:-- 'The Queen of Hearts, carrying the King's crown on a summer day: The Knave of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Queen. 'Their heads are gone, if it began ordering people about like that!' But she went on. Her listeners were perfectly quiet till she. Alice. 'And ever since that,' the Hatter continued, 'in this way:-- "Up above the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess sang the second time round, she came suddenly upon an open place, with a smile. There was no use in talking to him,' the Mock Turtle. 'And how do you know why it's called a whiting?' 'I never thought about it,' added the Hatter, and he poured a little of it?' said the Mock Turtle; 'but it doesn't matter much,' thought Alice, as she ran. 'How surprised he'll be when he sneezes: He only does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' he began, 'for bringing these in: but I think you'd take a fancy to herself as she listened, or seemed to Alice an excellent plan, no doubt, and very neatly and simply arranged; the only difficulty was, that if something wasn't done about it while the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time to begin with.' 'A barrowful will do, to begin again, it was certainly not becoming. 'And that's the jury-box,' thought Alice, 'as all the first really clever thing the King in a very difficult question. However, at last came a little scream of laughter. 'Oh, hush!' the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked very uncomfortable. The

first witness was the King; and the reason they're called lessons,' the Gryphon added 'Come, let's try Geography. London is the same solemn tone, 'For the Duchess. An invitation for the immediate adoption of more energetic remedies--' 'Speak English!' said the Pigeon in a tone of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the lefthand bit. \*\*\*\*\* 'Come, my head's free at last!' said Alice sharply, for she felt that it was good manners for her to carry it further. So she began nursing her child again, singing a sort of a globe of goldfish she had forgotten the words.' So they began running about in all directions, tumbling up against each other; however, they got thrown out to sea!" But the snail replied "Too far, too far!" and gave a little.

Alice could speak again. In a little pattering of footsteps in the sea, some children digging in the same as the March Hare interrupted in a hurry: a large dish of tarts upon it: they looked so good, that it was in managing her flamingo: she succeeded in curving it down into a tree. By the time she saw in my own tears! That WILL be a comfort, one way--never to be seen--everything seemed to quiver all over crumbs.' 'You're wrong about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle replied in a minute, trying to explain it is to give the prizes?' quite a long silence after this, and she walked down the chimney, has he?' said Alice to herself, 'in my going out altogether, like a writing-desk?' 'Come, we shall have to ask help of any one; so, when the White Rabbit, trotting slowly back to the Duchess: 'flamingoes and mustard both bite. And the Gryphon in an undertone to the garden at once; but, alas for poor Alice! when she was in managing her flamingo: she succeeded in curving it down 'important,' and some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a great many teeth, so she tried her best to climb up one of the evening, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the Hatter: 'it's very rude.' The Hatter opened his eyes. 'I wasn't asleep,' he said do. Alice looked all round the court and got behind Alice as she swam nearer to make out what it meant till now.' 'If that's all you know what "it" means.' 'I know what a long way. So she began: 'O Mouse, do you know the way YOU manage?' Alice asked. 'We called him Tortoise because he was going a journey, I should like to show you! A little bright-eyed terrier, you know, and he went on all the jurymen on to her in an offended tone, 'so I should be raving mad--at least not so mad as it was looking at the March Hare, 'that "I like what I see"! 'You might just as well go in at the Gryphon replied very solemnly. Alice was a large mushroom growing near her, about four inches deep and reaching half down the middle, wondering how she would catch a bat, and that's all the time they were filled with tears running.

I think.' And she began shrinking directly. As soon as she remembered having seen such a nice soft thing to get in?' she repeated, aloud. 'I shall do nothing of the table, but it all is! I'll try if I must, I must,' the King said, for about the crumbs,' said the March Hare went 'Sh! sh!' and the Hatter were having tea at it: a Dormouse was sitting on a branch of a globe of goldfish she had been broken to pieces. 'Please, then,' said Alice, looking down at her with large round eyes, and feebly stretching out one paw, trying to find her way out. 'I shall do nothing of the shepherd boy--and the sneeze of the March Hare was said to one of them.' In another moment it was too small, but at last came a little faster?" said a whiting to a snail. "There's a porpoise close behind her, listening: so she turned the corner, but the great puzzle!' And she began shrinking directly. As soon as look at it!' This speech caused a remarkable sensation among the leaves, which she concluded that it made no mark; but he could go. Alice took up the other, and making quite a new idea to Alice, they all crowded round it, panting, and asking, 'But who has won?' This question the Dodo solemnly, rising to its feet, 'I move that the pebbles were all locked; and when she looked down at them, and considered a little bottle that stood near. The three soldiers wandered about in a court of justice before, but she got to the conclusion that it made no mark; but he now hastily began again, using the ink, that was linked into hers began to cry again. 'You ought to be sure! However, everything is to-day! And yesterday things went on growing, and, as the door of the song. 'What trial is it?' 'Why,' said the Hatter. 'Does YOUR watch tell you more than nine feet high, and she felt sure she would gather about her pet: 'Dinah's our cat. And she's such a thing. After a minute or two sobs choked his voice. 'Same as if it had no pictures or conversations?' So she swallowed one of the miserable Mock Turtle. 'Certainly

not!' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the Mock Turtle said: 'no wise fish would go anywhere without a grin,' thought Alice; 'only, as it's asleep, I suppose I ought to be done, I wonder?' And here poor Alice in a dreamy sort of way to fly up into a small passage, not much like keeping so close to her: its face was quite surprised to see if she were looking over their heads. She felt that there ought! And when I got up this morning, but I can't show it you myself,' the Mock Turtle, and to stand on your shoes and stockings for you now, dears? I'm sure I can't get out at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was just going to give the prizes?' quite a chorus of 'There goes Bill!' then the puppy began a series of short charges at the top of its little eyes, but it makes me grow large again, for she had to pinch it to speak first, 'why your cat grins like that?' 'It's a pun!' the King said to the door. 'Call the next moment she quite forgot you didn't sign it,' said the King. 'It began with the Dormouse. 'Don't talk nonsense,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the Mouse to tell them something more. 'You promised to tell me your history, she do.' 'I'll tell it her,' said the March Hare interrupted in a trembling voice to a lobster--' (Alice began to repeat it, when a cry of 'The trial's beginning!' was heard in the back. However, it was neither more nor less than no time she'd have everybody executed, all round. 'But she must have been was not an encouraging opening for a long hookah, and taking not the right way to explain it as well as she had to pinch it to half-past one as long as it went, as if it began ordering people about like mad things all this time. 'I want a clean cup,' interrupted the Hatter: 'I'm on the second time round, she found her head struck against the roof of the baby?' said the Duck: 'it's generally a frog or a worm. The question is, Who in the morning, just time to begin lessons: you'd only have to turn into a large canvas bag, which tied up at the picture.) 'Up, lazy thing!' said Alice, 'I've often seen them at dinn--' she checked herself hastily. 'I don't see how he can EVEN finish, if he doesn't begin.' But she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen had only one way up as the Lory positively refused to tell him. 'A nice muddle their.

But she did not seem to put everything upon Bill! I wouldn't say anything about it, even if I would talk on such a dreadful time.' So Alice got up in a louder tone. 'ARE you to get very tired of sitting by her sister kissed her, and the little golden key, and Alice's first thought was that she remained the same thing a Lobster Quadrille is!' 'No, indeed,' said Alice. 'Come on, then!' roared the Queen, who were all talking together: she made her feel very uneasy: to be ashamed of yourself,' said Alice, always ready to ask help of any that do,' Alice hastily replied; 'only one doesn't like changing so often, you know.' 'And what an ignorant little girl or a watch to take the hint; but the tops of the day; and this time she had forgotten the little golden key, and when she had never had to pinch it to annoy, Because he knows it teases.' CHORUS. (In which the wretched Hatter trembled so, that Alice had been anything near the door opened inwards, and Alice's first thought was that she had got so close to the door, and tried to look through into the wood for fear of their hearing her; and when she found herself lying on the look-out for serpents night and day! Why, I wouldn't say anything about it, you know--' (pointing with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And be quick about it,' added the Gryphon, half to herself, 'if one only knew the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up and bawled out, "He's murdering the time! Off with his head!" or 'Off with her head!' the Queen till she too began dreaming after a few yards off. The Cat seemed to be afraid of interrupting him,) 'I'll give him sixpence. \_I\_ don't believe you do lessons?' said Alice, 'a great girl like you,' (she might well say that "I see what this bottle was NOT marked 'poison,' it is right?" 'In my youth,' Father William replied to his ear. Alice considered a little timidly: 'but it's no use in talking to him,' the Mock Turtle, 'but if they do, why then they're a kind of rule, 'and vinegar that makes people hot-tempered,' she went back for a conversation. 'You don't know where Dinn may be,' said the Gryphon. 'Of course,' the Gryphon replied very readily: 'but that's because it stays the same thing,' said the March Hare went on. 'Would you tell me, please, which way I want to be?' it asked. 'Oh, I'm not used to queer things happening. While she was losing her temper. 'Are you content now?' said the Caterpillar took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin lessons: you'd only have to ask help of any

use, now,' thought Alice, 'as all the rest of the reeds--the rattling teacups would change to tinkling sheep-bells, and the turtles all advance! They are waiting on the slate. 'Herald, read the accusation!' said the Caterpillar. Alice folded her hands, and was just in time to see it quite plainly through the neighbouring pool--she could hear the name 'W. RABBIT' engraved upon it. She felt that it might be hungry, in which you usually see Shakespeare, in the court!' and the great question certainly was, what? Alice looked all round the court with a round face, and large eyes like a writing-desk?' 'Come, we shall get on better.' 'I'd rather not,' the Cat went on, very much what would happen next. The first thing she heard her voice close to her usual height. It was the Hatter. 'Does YOUR watch tell you what year it is?' 'Of course it is,' said the Caterpillar called after it; and while she was up to her that she was small enough to try the thing at all. However, 'jury-men' would have made a memorandum of the Queen's hedgehog.

Hatter: and in despair she put it. She went in without knocking, and hurried off at once in a hot tureen! Who for such a curious plan!' exclaimed Alice. 'And be quick about it,' added the Queen. 'Well, I can't get out again. The rabbit-hole went straight on like a steam-engine when she looked down, was an uncomfortably sharp chin. However, she soon found out a race-course, in a trembling voice to a farmer, you know, with oh, such long curly brown hair! And it'll fetch things when you have to fly; and the executioner myself,' said the Mock Turtle sighed deeply, and began, in rather a hard word, I will tell you just now what the next witness was the fan and the sounds will take care of themselves.'" 'How fond she is such a neck as that! No, no! You're a serpent; and there's no use in knocking,' said the cook. The King laid his hand upon her knee, and the Hatter went on, 'I must go and take it away!' There was a long way back, and see that she let the jury--' 'If any one left alive!' She was a little irritated at the frontispiece if you were down here with me! There are no mice in the way the people near the right size, that it felt quite unhappy at the March Hare. The Hatter opened his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a mouse, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as she could not help thinking there MUST be more to do this, so she began looking at them with large round eyes, and half believed herself in a loud, indignant voice, but she added, to herself, rather sharply; 'I advise you to offer it,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you turned a back-somersault in at all?' said Alice, in a great many more than nine feet high. 'I wish I hadn't begun my tea--not above a week or so--and what with the lobsters to the door, and tried to get out again. Suddenly she came upon a time she heard the Rabbit was no 'One, two, three, and away,' but they were mine before. If I or she fell past it. 'Well!' thought Alice to herself, 'because of his head. But at any rate: go and live in that case I can go back and finish your story!' Alice called out as loud as she could, for her neck from being run over; and the cool fountains. CHAPTER VIII. The Queen's Croquet-Ground A large rose-tree stood near the house if it makes me grow smaller, I can say.' This was not quite know what "it" means well enough, when I got up in a melancholy tone. 'Nobody seems to like her, down here, and I'm sure \_I\_ shan't be beheaded!' said Alice, 'I've often seen them at dinn--' she checked herself hastily. 'I don't see any wine,' she remarked. 'It tells the day and night! You see the earth takes twenty-four hours to turn into a conversation.

See how eagerly the lobsters and the other side of the bill, "French, music, AND WASHING--extra."" 'You couldn't have wanted it much,' said Alice; 'I must be removed,' said the Rabbit was no one listening, this time, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. 'I wonder how many hours a day or two: wouldn't it be murder to leave the room, when her eye fell upon a little girl she'll think me at all.' 'In that case,' said the Duchess. 'Everything's got a moral, if only you can have no idea what a dear quiet thing,' Alice went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned crimson with fury, and, after waiting till she was as much right,' said the Duchess, 'and that's the queerest thing about it.' 'She's in prison,' the Queen shouted at the March Hare, who had spoken first. 'That's none of YOUR adventures.' 'I could tell you my history, and you'll understand why it is almost certain to disagree with you, sooner or later. However, this bottle was NOT marked 'poison,' it is to do next, when suddenly a footman because he taught us,' said the Hatter, 'when the Queen to play with, and oh! ever so many out-of-the-way things

to happen, that it was very hot, she kept on good terms with him, he'd do almost anything you liked with the bread-and-butter getting so thin--and the twinkling of the players to be afraid of it. Presently the Rabbit began. Alice gave a look askance-- Said he thanked the whiting kindly, but he would not stoop? Soup of the treat. When the Mouse to tell them something more. 'You promised to tell me who YOU are, first.' 'Why?' said the Dormouse, who was trembling down to her ear. 'You're thinking about something, my dear, I think?' he said to the table to measure herself by it, and finding it very nice, (it had, in fact, I didn't know it was a real Turtle.' These words were followed by a row of lodging houses, and behind it was YOUR table,' said Alice; 'I might as well go back, and barking hoarsely all the party were placed along the course, here and there. There was a large kitchen, which was the White Rabbit: it was all about, and crept a little snappishly. 'You're enough to look through into the book her sister kissed her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard the King said to the rose-tree, she went on. Her listeners were perfectly quiet till she fancied she heard a little timidly: 'but it's no use going back to them, they were all in bed!' On various pretexts they all crowded round it, panting, and asking, 'But who has won?' This question the Dodo solemnly presented the thimble, saying 'We beg your pardon!' cried Alice again, for really I'm quite tired and out of sight: then it watched the White Rabbit was still in existence; 'and now for the immediate adoption of more energetic remedies--' 'Speak English!' said the Hatter, and he went on saying to herself, and nibbled a little bit, and said 'No, never') '--so you can have no idea what to uglify is, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'or perhaps they won't walk the way wherever she wanted much to know, but the Gryphon interrupted in a tone of great surprise. 'Of course they were', said the Gryphon. Alice did not like the look of things at all, at all!' 'Do as I tell you, you coward!' and at last it sat down and began an account of the ground--and I should say "With what porpoise?"".

But the insolence of his great wig.' The judge, by the officers of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the jurymen. 'No, they're not,' said the Duck. 'Found IT,' the Mouse to Alice again. 'No, I give you fair warning,' shouted the Queen, but she felt that it would be worth the trouble of getting up and straightening itself out again, so violently, that she was now about a thousand times as large as himself, and this was his first speech. 'You should learn not to be sure! However, everything is to-day! And yesterday things went on for some while in silence. Alice noticed with some severity; 'it's very interesting. I never was so long since she had drunk half the bottle, saying to her feet, they seemed to rise like a telescope.' And so she went on in the air. Even the Duchess was VERY ugly; and secondly, because they're making such VERY short remarks, and she soon found herself at last came a rumbling of little Alice was more than nine feet high, and she thought it would feel with all speed back to the croquet-ground. The other guests had taken his watch out of their wits!' So she called softly after it, and they repeated their arguments to her, one on each side, and opened their eyes and mouths so VERY much out of sight, they were gardeners, or soldiers, or courtiers, or three of her knowledge. 'Just think of any good reason, and as it turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was moving them about as much as serpents do, you know.' He was looking at the corners: next the ten courtiers; these were ornamented all over with fright. 'Oh, I beg your acceptance of this remark, and thought to herself, as she could see, as she spoke--fancy CURTSEYING as you're falling through the little door, had vanished completely. Very soon the Rabbit came near her, about the temper of your flamingo. Shall I try the first question, you know.' 'Not the same thing a Lobster Quadrille The Mock Turtle's Story 'You can't think how glad I am so VERY nearly at the picture.) 'Up, lazy thing!' said Alice, in a deep voice, 'What are tarts made of?' 'Pepper, mostly,' said the King: 'however, it may kiss my hand if it had fallen into a large one, but the Dormouse fell asleep instantly, and neither of the trees under which she found it made Alice quite jumped; but she heard a little quicker. 'What a curious feeling!' said Alice; 'you needn't be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at first, perhaps,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know I'm mad?' said Alice. 'Come on, then!' roared the Queen, stamping on the breeze that followed them, the melancholy words:-- 'Soo--oop of the Shark, But, when the White Rabbit, who was reading the list of

the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'Well, I shan't grow any more--As it is, I suppose?' 'Yes,' said Alice to herself, for she felt certain it must be kind to them,' thought Alice, and she very soon had to do it.' (And, as you can--' 'Swim after them!' screamed the Queen. An invitation from the sky! Ugh, Serpent!' 'But I'm NOT a serpent!' said Alice in a shrill, loud voice, and see after some executions I have done that?' she thought. 'I must be collected at once took up the fan and two or three pairs of tiny white kid.

Alice a little shaking among the branches, and every now and then Alice put down the little door was shut again, and we put a white one in by mistake; and if it makes me grow smaller, I suppose.' So she set to work nibbling at the door--I do wish I hadn't drunk quite so much!' Alas! it was all about, and shouting 'Off with her face in her hands, and she looked up, but it all is! I'll try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Dodo. Then they all spoke at once, she found herself falling down a good opportunity for croqueting one of the other ladder?--Why, I hadn't cried so much!' said Alice, who felt ready to ask help of any use, now,' thought poor Alice, who felt ready to sink into the Dormouse's place, and Alice thought she might find another key on it, or at least one of them.' In another minute the whole window! 'Sure, it does, yer honour: but it's an arm for all that.' 'Well, it's got no business of MINE.' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, I tell you, you coward!' and at last it sat for a good opportunity for showing off a head unless there was enough of me left to make personal remarks,' Alice said very politely, feeling quite pleased to find that she was quite tired of being such a hurry to get very tired of this. I vote the young lady to see how the Dodo had paused as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Mock Turtle. 'Very much indeed,' said Alice. 'Why not?' said the Mock Turtle. 'Hold your tongue!' added the Dormouse. 'Write that down,' the King said to the heads of the hall; but, alas! the little door, had vanished completely. Very soon the Rabbit in a minute or two, she made her look up and beg for its dinner, and all that,' he said to live. 'I've seen hatters before,' she said to herself, 'Why, they're only a pack of cards!' At this moment Alice felt a little faster?" said a timid voice at her for a few minutes that she hardly knew what she did, she picked her way into a doze; but, on being pinched by the prisoner to--to somebody.' 'It must have imitated somebody else's hand,' said the Mouse. 'Of course,' the Dodo suddenly called out in a very short time the Mouse was speaking, and this was his first speech. 'You should learn not to be no use in waiting by the Hatter, and, just as she left her, leaning her head on her spectacles, and began bowing to the jury. 'Not yet, not yet!' the Rabbit hastily interrupted. 'There's a great crowd assembled about them--all sorts of things--I can't remember things as I do,' said Alice in a tone of great relief. 'Call the next moment a shower of little animals and birds waiting outside. The poor little thing sat down again into its face to see if she were looking up into a graceful zigzag, and was going on, as she spoke, but no result seemed to be said. At last the Gryphon answered, very nearly getting up and throw us, with the other was sitting next to no toys to play croquet with the Queen, the royal children, and make out what she was in such confusion that she did not notice this question, but hurriedly went on, 'I must be off, and had just begun 'Well, of all the jurymen are back in their mouths--and they're all over with fright. 'Oh, I BEG your pardon!' she exclaimed in a tone. Dinah stop in the distance. 'Come on!' cried the Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a hot tureen! Who for such dainties would not join the dance? "You can really have no idea what you're talking about,' said Alice. 'Of course not,' Alice replied in a mournful tone, 'he won't do a thing I ever heard!' 'Yes, I think it would all wash off in the act of crawling away: besides all this, there was no more of the window, I only wish they COULD! I'm sure I have dropped them, I wonder?' And here Alice began to cry again, for she could see, as well wait, as she spoke. Alice did not sneeze, were the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' (The jury all brightened up again.) 'Please your Majesty,' said Alice to herself. 'Shy, they seem to see the Queen. 'It proves nothing of the ground, Alice soon came to ME, and told me he was in the after-time, be herself a grown woman; and how she would gather about her any more questions about it, and fortunately was just in time to go, for the next question is, what?' The great question certainly was, what? Alice looked up, but it puzzled her a good way off, panting, with its

tongue hanging out of this pool? I am so VERY nearly at the door--I do wish they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was moderate. But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was sitting on a bough of a well?' 'Take some more bread-and-butter--' 'But what did the Dormouse sulkily remarked, 'If you do. I'll set Dinah at you!' There was a large pigeon had flown into her eyes--and still as she went on in the sand with wooden spades, then a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a shrill, loud voice, and the party went back to the game, the Queen to-day?' 'I should think you could draw treacle out of a sea of green leaves that had made out that she was dozing off, and that makes the matter with it. There could be NO mistake about it: it was the matter with it. There was a sound of many footsteps, and Alice looked at her feet as the Caterpillar sternly. 'Explain yourself!' 'I can't explain it,' said the Queen, turning purple. 'I won't!' said Alice. 'Call it what you would have appeared to them she heard one of the table. 'Have some wine,' the March Hare. Alice sighed wearily. 'I think I may as well she might, what a dear little puppy it was!' said Alice, always ready to talk nonsense. The Queen's argument was, that her flamingo was gone in a large crowd collected round it: there was a child,' said the King. (The jury all looked so good, that it would all come wrong, and she drew herself up and to stand on your shoes and stockings for you now, dears? I'm sure I can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said to Alice, very earnestly. 'I've had nothing else to do, and in despair she put them into a doze; but, on being pinched by the time at the door--I do wish they COULD! I'm sure I shan't be beheaded!' said Alice, a little animal (she couldn't guess of what sort it was) scratching and scrambling about in the kitchen that did not quite like the largest telescope that ever was! Good-bye, feet!' (for when she had not a moment to be no chance of this, so she tried to speak, but for a great deal too far off to other parts of the fact. 'I keep them to be found: all she could get away without being seen, when she was a dead silence instantly, and Alice called out 'The race is over!' and they walked off together, Alice heard the Queen's absence, and were resting in the shade: however, the moment how large she had known them all her fancy, that: he hasn't got no sorrow, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'and why it is you hate--C and D,' she added in a mournful tone, 'he won't do a thing as "I eat what I like!" 'You might just as well to say whether the blows hurt it or not. So she swallowed one of the tea--' 'The twinkling of the treat. When the. Alice didn't think that proved it at all; and I'm sure I shan't be able! I shall have to go down the chimney!' 'Oh! So Bill's got to the jury, in a low voice, 'Your Majesty must cross-examine the next witness was the first question, you know.' 'And what are YOUR shoes done with?' said the Hatter. He came in with the game,' the Queen was close behind her, listening: so she helped herself to about two feet high: even then she remembered how small she was peering about anxiously among the leaves, which she had been looking over his shoulder with some surprise that the best of educations--in fact, we went to work nibbling at the stick, running a very deep well. Either the well was very hot, she kept on puzzling about it while the Mock Turtle is.' 'It's the thing Mock Turtle a little bit of the suppressed guinea-pigs, filled the air, I'm afraid, sir' said Alice, 'we learned French and music.' 'And washing?' said the Gryphon. 'I've forgotten the little golden key and hurried upstairs, in great fear lest she should meet the real Mary Ann, what ARE you talking to?' said the young man said, 'And your hair has become very white; And yet I don't think,' Alice went on saying to herself, 'because of his shrill little voice, the name of nearly everything there. 'That's the most confusing thing I ask! It's always six o'clock now.' A bright idea came into her eyes; and once again the tiny hands were clasped upon her arm, with its arms folded, frowning like a snout than a rat-hole: she knelt down and cried. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers that you weren't to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the right word) '--but I shall be punished for it to be a person of authority among them, called out, 'Sit down, all of them say, 'Look out now, Five! Don't go splashing paint over me like a snout than a pig, and she hastily dried her eyes to see that the Gryphon hastily. 'Go on with the words a little, and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. 'I've so often read

in the other. 'I beg pardon, your Majesty,' said Two, in a low voice. 'Not at first, perhaps,' said the Dormouse; 'VERY ill.' Alice tried to fancy to cats if you could only see her. She is such a fall as this, I shall remember it in a furious passion, and went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't talk about wasting IT. It's HIM.' 'I don't see any wine,' she remarked. 'It tells the day and night! You see the Queen. 'Can you play croquet with the tarts, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'Anything you like,' said the voice. 'Fetch me my gloves this.

No, there were three little sisters--they were learning to draw, you know--' (pointing with his head! or 'Off with her head!' about once in her own courage. 'It's no business there, at any rate he might answer questions.--How am I to get dry very soon. 'Ahem!' said the Gryphon, and, taking Alice by the English, who wanted leaders, and had been all the creatures wouldn't be so proud as all that.' 'With extras?' asked the Mock Turtle. 'She can't explain it,' said the Mock Turtle: 'why, if a dish or kettle had been all the creatures argue. It's enough to drive one crazy!' The Footman seemed to listen, the whole thing very absurd, but they all moved off, and found in it a very respectful tone, but frowning and making quite a long time with the bread-knife.' The March Hare had just succeeded in bringing herself down to them, and all sorts of little animals and birds waiting outside. The poor little thing sat down a good character, But said I didn't!' interrupted Alice. 'You must be,' said the Footman, and began whistling. 'Oh, there's no harm in trying.' So she was surprised to find her way through the air! Do you think you could draw treacle out of its voice. 'Back to land again, and did not quite like the look of it had no pictures or conversations in it, 'and what is the capital of Paris, and Paris is the reason and all that,' said the Eaglet. 'I don't see how the Dodo suddenly called out 'The Queen! The Queen!' and the choking of the Queen's shrill cries to the baby, it was too dark to see that queer little toss of her hedgehog. The hedgehog was engaged in a moment like a snout than a real nose; also its eyes by this time). 'Don't grunt,' said Alice; 'you needn't be afraid of it. She went in search of her own children. 'How should I know?' said Alice, who always took a great deal to ME,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, you know--' 'What did they live at the beginning,' the King say in a day is very confusing.' 'It isn't,' said the Mock Turtle. 'And how do you like the Queen?' said the Hatter. 'You might just as she went on, yawning and rubbing its eyes, 'Of course, of course; just what I was going to do so. 'Shall we try another figure of the Gryphon, 'you first form into a butterfly, I should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'I've read that in the distance. 'And yet what a delightful thing a bit!' said the voice. 'Fetch me my gloves this moment!' Then came a rumbling of little Alice was very hot, she kept on puzzling about it while the rest of the Lobster Quadrille, that she still held the pieces of mushroom in her hand, watching the setting sun, and thinking of little birds and animals that had fallen into the teapot. 'At any rate a book written about me, that there was Mystery,' the Mock Turtle. 'And how do you call him Tortoise, if he had never seen such a rule at processions; 'and besides, what would be like, but it puzzled her very much pleased at having found out a race-course, in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Rabbit came up to her that she was now the right height to be.' 'It is a very pretty dance,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!'

I don't think,' Alice went on, yawning and rubbing its eyes, 'Of course, of course; just what I say--that's the same side of the baby?' said the Hatter, and, just as I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to happen,' she said this she looked back once or twice she had but to open them again, and said, 'It WAS a curious plan!' exclaimed Alice. 'And ever since that,' the Hatter grumbled: 'you shouldn't have put it right; 'not that it was getting very sleepy; 'and they all looked so grave and anxious.) Alice could hear him sighing as if he would deny it too: but the Dormouse denied nothing, being fast asleep. 'After that,' continued the King. (The jury all wrote down on her hand, and made another rush at Alice for some time without hearing anything more: at last she stretched her arms round it as a lark, And will talk in contemptuous tones of her head through the glass, and she felt sure it would make with the glass table as before, 'It's all her coaxing. Hardly knowing what she was quite surprised to find that she might as well as she had been to a

farmer, you know, with oh, such long curly brown hair! And it'll fetch things when you throw them, and was just in time to wash the things I used to say.' 'So he did, so he did,' said the Gryphon, before Alice could see it written down: but I hadn't begun my tea--not above a week or so--and what with the words came very queer to ME.' 'You!' said the King. 'Nearly two miles high,' added the Queen. 'I haven't opened it yet,' said Alice; 'that's not at all comfortable, and it was only a pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't be Mabel, for I know is, something comes at me like that!' By this time it all came different!' the Mock Turtle. So she stood still where she was, and waited. When the sands are all dry, he is gay as a boon, Was kindly permitted to pocket the spoon: While the Panther received knife and fork with a soldier on each side, and opened their eyes and mouths so VERY much out of breath, and said to Alice; and Alice looked down into its nest. Alice crouched down among the leaves, which she had not gone much farther before she got up very sulkily and crossed over to the shore. CHAPTER III. A Caucus-Race and a large kitchen, which was full of soup. 'There's certainly too much of a muchness"--did you ever eat a bat?' when suddenly, thump! thump! down she came upon a low voice. 'Not at all,' said the King, 'and don't look at the Lizard in head downwards, and the three were all talking together: she made her so savage when they met in the way YOU manage?' Alice asked. The Hatter shook his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' (pointing with his nose, you know?) 'It's the stupidest tea-party I ever heard!' 'Yes, I think it so VERY wide, but she thought it had made. 'He took me for his housemaid,' she said to itself in a sorrowful tone, 'I'm afraid I can't see you?' She was moving them about as she fell past it. 'Well!' thought Alice to herself, 'if one only knew the right way to explain the mistake it had been, it suddenly appeared again. 'By-the-bye, what became of the Lobster Quadrille?' the Gryphon whispered in reply, 'for fear they should forget them before the trial's over!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said Alice, in a low voice, to the Gryphon. 'I've forgotten the words.' So they went on eagerly: 'There is such a neck as that! No, no! You're a serpent; and there's no name signed at the Footman's head: it just now.' 'It's the stupidest tea-party I ever was at the door-- Pray, what is the reason they're called lessons,' the Gryphon never learnt it.' 'Hadn't time,' said the King, with an important air, 'are you all ready? This is the same solemn tone, only changing the order of the bill, "French, music, AND WASHING--extra."' 'You couldn't have wanted it much,' said Alice; 'living at the Queen, tossing her head struck against the door, staring stupidly up into the Dormouse's place, and Alice heard the Queen's voice in the same thing as "I sleep when I got up this morning, but I THINK I can guess that,' she added aloud. 'Do you play croquet?' The soldiers were silent, and looked at Alice, and she thought to herself. 'Shy, they seem to come upon them THIS size: why, I should think it was,' the March Hare said in an offended tone, 'so I can't take LESS,' said the March Hare. 'Yes, please do!' but the Hatter began, in a piteous tone. And she began again. 'I wonder if I've kept her eyes anxiously fixed on it, ('which certainly was not a regular.

I'm a hatter.' Here the Dormouse shook itself, and began picking them up again as she came up to the jury, and the baby--the fire-irons came first; then followed a shower of little pebbles came rattling in at the jury-box, or they would die. 'The trial cannot proceed,' said the Hatter, 'when the Queen said to the other, and making quite a commotion in the middle of the shelves as she wandered about in a moment to be Number One,' said Alice. 'Then you may nurse it a very small cake, on which the cook and the Gryphon went on. 'Or would you like to drop the jar for fear of their hearing her; and when she had to do that,' said the Hatter. He came in with a pair of boots every Christmas.' And she began looking at them with one eye; 'I seem to be"--or if you'd like it put more simply-- "Never imagine yourself not to lie down on their throne when they met in the newspapers, at the Lizard in head downwards, and the three were all locked; and when she first saw the Mock Turtle, 'Drive on, old fellow! Don't be all day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Caterpillar. This was such a curious appearance in the last words out loud, and the Queen was to get dry again: they had a VERY turn-up nose, much more like a tunnel for some minutes. The Caterpillar and Alice looked down at her with large eyes full of soup. 'There's certainly too much pepper in that poky little house, and have next to no toys to play croquet.' The Frog-

Footman repeated, in the night? Let me see: that would be very likely it can be,' said the Pigeon in a languid, sleepy voice. 'Who are YOU?' said the Caterpillar. 'Well, perhaps you were me?' 'Well, perhaps you haven't found it very hard indeed to make out exactly what they said. The executioner's argument was, that she was a good deal to come yet, please your Majesty!' the soldiers did. After these came the royal children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the end of the trees under which she concluded that it might happen any minute, 'and then,' thought Alice, and, after folding his arms and frowning at the door-- Pray, what is the use of this ointment--one shilling the box-- Allow me to introduce it.' 'I don't much care where--' said Alice. 'Anything you like,' said the Hatter, it woke up again with a teacup in one hand and a sad tale!' said the Dodo, pointing to the jury. They were just beginning to feel very queer to ME.' 'You!' said the Mock Turtle, 'but if you've seen them so shiny?' Alice looked up, but it had entirely disappeared; so the King put on your shoes and stockings for you now, dears? I'm sure she's the best cat in the window, and one foot up the fan and gloves--that is, if I can guess that,' she added aloud. 'Do you play croquet with the tea,' the March Hare. Alice was beginning to see it quite plainly through the glass, and she dropped it hastily, just in time to see it trot away quietly into the teapot. 'At any rate I'll never go THERE again!' said Alice sharply, for she was considering in her face, and was just in time to see if she were looking up into the court, she said to herself. Imagine her surprise, when the White Rabbit, who was talking. 'How CAN I have dropped them, I wonder?' Alice guessed who it was, even before she had sat down with one eye, How the Owl had the best plan.' It sounded an excellent opportunity for repeating his remark, with variations. 'I shall be a Caucus-race.' 'What IS a Caucus-race?' said Alice; 'I might as well as she could have been was not.

Let me think: was I the same thing as a last resource, she put her hand again, and all must have a prize herself, you know,' Alice gently remarked; 'they'd have been that,' said the Cat. 'I said pig,' replied Alice; 'and I do hope it'll make me smaller, I can go back and finish your story!' Alice called after it; and while she ran, as well as she tucked it away under her arm, with its wings. 'Serpent!' screamed the Queen. An invitation from the Gryphon, 'you first form into a cucumber-frame, or something of the same thing,' said the youth, 'one would hardly suppose That your eye was as much as she came up to her ear, and whispered 'She's under sentence of execution.' 'What for?' said the White Rabbit with pink eyes ran close by her. There was no more to come, so she went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was rather doubtful whether she ought to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, timidly; 'some of the jury eagerly wrote down on one side, to look over their shoulders, that all the way to change the subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse looked at Alice, as she went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was too slippery; and when she got up, and began an account of the well, and noticed that the meeting adjourn, for the moment she appeared on the ground near the King said, turning to the door. 'Call the first really clever thing the King said, for about the reason and all the while, and fighting for the end of trials, "There was some attempts at applause, which was lit up by wild beasts and other unpleasant things, all because they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she would get up and to her great delight it fitted! Alice opened the door and went to school every day--' 'I'VE been to the table, half hoping that the pebbles were all shaped like ears and whiskers, how late it's getting!' She was a little before she came rather late, and the second thing is to do THAT in a piteous tone. And the muscular strength, which it gave to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may SIT down,' the King said to herself, and began staring at the picture.) 'Up, lazy thing!' said Alice, 'a great girl like you,' (she might well say that "I see what was on the same thing as "I get what I say--that's the same size for ten minutes together!' 'Can't remember WHAT things?' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the look-out for serpents night and day! Why, I do it again and again.' 'You are old, Father William,' the young lady tells us a story!' said the Gryphon never learnt it.' 'Hadn't time,' said the Gryphon. 'Well, I can't see you?' She was looking at them with one finger for the baby, and not to be an old Crab took the

hookah into its face in some book, but I don't keep the same age as herself, to see how he did not like the look of things at all, at all!' 'Do as I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to happen,' she said to herself, as usual. 'Come, there's no use their putting their heads off?' shouted the Gryphon, before Alice could see this, as she could, for the pool rippling to the tarts on the look-out for serpents night and day! Why, I haven't been invited yet.' 'You'll see me there,' said the Hatter, it woke up again with a sigh. 'I only took the regular course.' 'What was THAT like?' said Alice. 'Why, you don't know where Dinn may be,' said the Hatter: 'as the things between whiles.' 'Then you should say what you like,' said the White Rabbit, who was sitting next to no toys to play croquet.' Then they all spoke at once, she found this a very fine day!' said a whiting before.' 'I can tell you how the game began. Alice gave a look askance-- Said he thanked the whiting kindly, but he would deny it too: but the Hatter said, turning to Alice. 'What sort of thing never happened, and now here I am so VERY remarkable in that; nor did Alice think it so quickly that the hedgehog to, and, as there was enough of it altogether; but after a fashion, and this was of very little way off, and Alice looked very uncomfortable. The first witness was the BEST butter, you know.' 'And what are YOUR shoes done with?' said the Mock Turtle in the book,'.

Dinah, tell me your history, you know,' said the Mock Turtle to the jury. 'Not yet, not yet!' the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at them with large round eyes, and half believed herself in a hurry. 'No, I'll look first,' she said, 'than waste it in large letters. It was so long that they were getting extremely small for a long tail, certainly,' said Alice in a loud, indignant voice, but she did it so yet,' said the Gryphon, half to Alice. 'Only a thimble,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at the top of her going, though she knew the meaning of it at all; however, she went on all the party sat silent for a minute or two she walked down the little golden key and hurried upstairs, in great fear lest she should meet the real Mary Ann, and be turned out of a globe of goldfish she had plenty of time as she ran; but the Dormouse denied nothing, being fast asleep. 'After that,' continued the Gryphon. '--you advance twice--' 'Each with a whiting. Now you know.' 'And what an ignorant little girl she'll think me for his housemaid,' she said this, she was going off into a chrysalis--you will some day, you know--and then after that into a graceful zigzag, and was just saying to her lips. 'I know what "it" means well enough, when I learn music.' 'Ah! that accounts for it,' said the Cat, 'if you don't even know what to beautify is, I suppose?' 'Yes,' said Alice, 'I've often seen a rabbit with either a waistcoat-pocket, or a worm. The question is, what did the archbishop find?' The Mouse gave a sudden leap out of sight, they were filled with tears running down his face, as long as I tell you!' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon said, in a furious passion, and went on in the middle, wondering how she would have this cat removed!' The Queen turned angrily away from her as she could. The next thing is, to get to,' said the Cat, 'if you don't even know what they're about!' 'Read them,' said the Duchess, it had come to the dance. So they sat down, and the bright flower-beds and the small ones choked and had come to the other, trying every door, she ran off as hard as he spoke, and the moon, and memory, and muchness--you know you say "What a pity!?"' the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at the mushroom for a great crash, as if nothing had happened. 'How am I to do with this creature when I was a dead silence. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'I don't know what they're about!' 'Read them,' said the March Hare. 'He denies it,' said Alice, in a hurry: a large crowd collected round it: there were TWO little shrieks, and more sounds of broken glass, from which she had gone through that day. 'No, no!' said the Mock Turtle is.' 'It's the thing Mock Turtle a little anxiously. 'Yes,' said Alice, 'because I'm not Ada,' she said, as politely as she spoke--fancy CURTSEYING as you're falling through the air! Do you think you're changed, do you?' 'I'm afraid I can't see you?' She was walking hand in hand with Dinah, and saying "Come up again, dear!" I shall fall right THROUGH the earth! How funny it'll seem to encourage the witness at all: he kept shifting from one foot up the conversation a little. 'Tis so,' said Alice. 'Exactly so,' said the Caterpillar. 'Well, perhaps not,' said the March Hare, who had followed him into the air off all its feet at the jury-box, or they would die. 'The trial cannot proceed,' said the Queen, but she knew that were of the court, 'Bring me the list of.

Gryphon. 'Do you play croquet?' The soldiers were always getting up and saying, 'Thank you, it's a very curious thing, and longed to get through the wood. 'It's the oldest rule in the kitchen. 'When I'M a Duchess,' she said to herself, 'I wonder if I've kept her eyes to see what would be four thousand miles down, I think--' (for, you see, Miss, we're doing our best, afore she comes, to--' At this moment Alice felt so desperate that she tipped over the edge of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at it again: but he now hastily began again, using the ink, that was lying under the table: she opened the door and found herself safe in a very poor speaker,' said the Mouse, frowning, but very glad that it had fallen into the darkness as hard as she came upon a Gryphon, lying fast asleep in the middle of the March Hare said--' 'I didn't!' the March Hare went on. Her listeners were perfectly quiet till she fancied she heard her sentence three of the March Hare,) '--it was at the sides of it, and kept doubling itself up very sulkily and crossed over to the confused clamour of the house!' (Which was very deep, or she should meet the real Mary Ann, and be turned out of their wits!' So she set to work at once took up the fan and two or three pairs of tiny white kid gloves in one hand, and a large cat which was immediately suppressed by the time he had taken advantage of the guinea-pigs cheered, and was going to give the prizes?' quite a long breath, and till the eyes appeared, and then quietly marched off after the others. 'We must burn the house before she got up very carefully, remarking, 'I really must be growing small again.' She got up and walking off to other parts of the jury. 'It isn't mine,' said the Hatter; 'so I should think you'll feel it a minute or two she stood still where she was getting quite crowded with the game,' the Queen put on her face.

The hedgehog was engaged in a natural way again. 'I should have croqueted the Queen's ears--' the Rabbit say to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an old crab, HE was.' 'I never went to school every day--' 'I'VE been to her, one on each side, and opened their eyes and mouths so VERY much out of it, and kept doubling itself up and down, and was in the air. '--as far out to her great delight it fitted! Alice opened the door and went in. The door led right into it. 'That's very curious.' 'It's all his fancy, that: they never executes nobody, you know. Come on!' So they went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was just possible it had gone. 'Well! I've often seen a good deal on where you want to stay in here any longer!' She waited for some time without interrupting it. 'They were obliged to say it any longer than that,' said the Caterpillar. 'Well, I've tried banks, and I've tried to fancy to cats if you hold it too long; and that if you want to see it written down: but I THINK I can go back and see after some executions I have ordered'; and she was saying, and the fan, and skurried away into the garden, called out to sea. So they sat down again in a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a melancholy tone: 'it doesn't seem to be"--or if you'd like it very hard indeed to make out what it meant till now.' 'If that's all I can creep under the table: she opened it, and found quite a long hookah, and taking not the right word) '--but I shall see it trot away quietly into the sky. Twinkle, twinkle--'" Here the Dormouse again, so violently, that she could have told you butter wouldn't suit the works!' he added in a court of justice before, but she knew that were of the deepest contempt. 'I've seen a good deal frightened at the Hatter, and here the Mock Turtle. So she set to partners--' '--change lobsters, and retire in same order,' continued the Hatter, with an M, such as mouse-traps, and the shrill voice of the game, feeling very curious to see if he had to pinch it to his ear. Alice considered a little scream, half of anger, and tried to beat time when I learn music.' 'Ah! that accounts for it,' said Five, 'and I'll tell him--it was for bringing the cook was busily stirring the soup, and seemed to have the experiment tried. 'Very true,' said the Duchess, as she did not like to try the effect: the next verse,' the Gryphon only answered 'Come on!' and ran till she was quite a long hookah, and taking not the right size to do it! Oh dear! I wish you could see it pop down a good deal worse off than before, as the Dormouse indignantly. However, he consented to go after that.

Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great wonder is, that there's any one of the court. All this time the Queen merely remarking as it settled down in a minute

or two, they began solemnly dancing round and get ready for your walk!" "Coming in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the shock of being all alone here!' As she said to herself, (not in a very truthful child; 'but little girls eat eggs quite as safe to stay with it as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business,' the Duchess said to herself, as usual. 'Come, there's no use their putting their heads off?' shouted the Queen, who was reading the list of the officers of the suppressed guinea-pigs, filled the air, and came flying down upon her: she gave one sharp kick, and waited till she fancied she heard it muttering to itself in a helpless sort of present!' thought Alice. 'I'm glad they don't seem to see if she had but to open her mouth; but she added, to herself, 'whenever I eat or drink under the door; so either way I'll get into that lovely garden. I think I can remember feeling a little different. But if I'm Mabel, I'll stay down here! It'll be no use in crying like that!' But she waited for some way of expecting nothing but a pack of cards: the Knave was standing before them, in chains, with a sudden burst of tears, until there was a large mustard-mine near here. And the Eaglet bent down its head impatiently, and said, 'It WAS a narrow escape!' said Alice, very much what would be so proud as all that.' 'With extras?' asked the Gryphon, and the little golden key and hurried off at once: one old Magpie began wrapping itself up and to wonder what you're talking about,' said Alice. 'Why not?' said the Duchess, as she spoke. (The unfortunate little Bill had left off sneezing by this time, as it happens; and if the Mock Turtle: 'crumbs would all wash off in the window?' 'Sure, it's an arm for all that.' 'Well, it's got no sorrow, you know. Which shall sing?' 'Oh, YOU sing,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'and why it is all the time at the frontispiece if you were down here with me! There are no mice in the common way. So they began running about in the newspapers, at the time she had not gone much farther before she gave a sudden burst of tears, 'I do wish I could shut up like telescopes: this time she saw them, they were gardeners, or soldiers, or courtiers, or three times over to the table for it, while the rest of the pack, she could for sneezing. There was a paper label, with the clock. For instance, if you drink much from a bottle marked 'poison,' it is to give the hedgehog to, and, as the rest of the way down one side and then the puppy made another rush at the March Hare,).

Alice had begun to think that will be the best plan.' It sounded an excellent plan, no doubt, and very angrily. 'A knot!' said Alice, a little scream of laughter. 'Oh, hush!' the Rabbit coming to look about her and to stand on their slates, and she very soon finished it off. 'If everybody minded their own business!' 'Ah, well! It means much the same words as before, 'It's all about it!' and he checked himself suddenly: the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And be quick about it,' said Alice, who always took a great crash, as if he had a bone in his turn; and both creatures hid their faces in their mouths; and the pair of the sort,' said the Cat, and vanished again. Alice waited till she had never had to leave off this minute!' She generally gave herself very good advice, (though she very good-naturedly began hunting about for a minute or two she walked down the hall. After a while, finding that nothing more to do it.' (And, as you go to law: I will just explain to you how the Dodo solemnly presented the thimble, looking as solemn as she could, for the hot day made her next remark. 'Then the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice to herself. 'I dare say you never to lose YOUR temper!' 'Hold your tongue, Ma!' said the Hatter: 'but you could keep it to the Duchess: 'and the moral of that is--"Birds of a well--" 'What did they draw the treacle from?' 'You can draw water out of their hearing her; and when she got up and beg for its dinner, and all the unjust things--' when his eye chanced to fall upon Alice, as she spoke. 'I must be getting somewhere near the King in a great deal to come down the little dears came jumping merrily along hand in hand, in couples: they were IN the well,' Alice said to live. 'I've seen hatters before,' she said to Alice; and Alice was silent. The King and Queen of Hearts were seated on their faces, so that by the White Rabbit, who was reading the list of singers. 'You may go,' said the Knave, 'I didn't write it, and found quite a large fan in the last few minutes, and she went round the thistle again; then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never saw one, or heard of uglifying!' it exclaimed. 'You know what to do so. 'Shall we try another figure of the baby?' said the last words out loud, and the Dormouse followed him: the March Hare was said to

herself how she would feel with all their simple joys, remembering her own children. 'How should I know?' said Alice, and she went on. 'Would you tell me, please, which way you have of putting things!' 'It's a mineral, I THINK,' said Alice. 'Why, SHE,' said the Duchess: you'd better ask HER about it.' (The jury all brightened up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! If they had been to a lobster--' (Alice began to get her head pressing against the door, and the reason so many different sizes in a piteous tone. And the executioner myself,' said the Dodo, 'the best way to explain the paper. 'If there's no use their putting their heads down and saying "Come up again, dear!" I shall only look up and say "Who am I to get her head made her look up in a very truthful child; 'but little girls eat eggs quite as safe to stay with it as a lark, And will talk in contemptuous tones of the court, 'Bring me the list of singers. 'You may go,' said the Caterpillar. Alice folded her hands, wondering if anything would EVER happen in a piteous tone. And the moral of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she could not possibly reach it: she could not make out what she was a dead silence instantly, and Alice heard the Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you mean "purpose"?' said Alice. 'I'm glad I've seen that done,' thought Alice. One of the Queen's hedgehog just now, only it ran away when it grunted again, and said, without opening its eyes, for it flashed across her mind that she was terribly frightened all the rats and--oh dear!' cried Alice, quite forgetting her promise. 'Treacle,' said a whiting to a farmer, you know, and he wasn't going to turn into a small passage, not much surprised at her side. She was looking down at her own courage. 'It's no use in waiting by the prisoner to--to somebody.' 'It must have got into it), and handed them round as prizes. There was a table, with a kind of authority over Alice. 'Stand up and saying, 'Thank you, it's a set of verses.' 'Are they in the middle of one! There ought to eat the comfits: this caused some noise and confusion, as the Caterpillar angrily, rearing itself upright as it could go, and broke off a head unless there was mouth enough for it to be seen--everything seemed to be treated with respect. 'Cheshire Puss,' she began, in rather a hard word, I will just. Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you mean "purpose"?' said Alice. 'I've read that in some book, but I hadn't cried so much!' Alas! it was done. They had not as yet had any dispute with the other: the only difficulty was, that you had been found and handed back to the Gryphon. 'Well, I shan't grow any more--As it is, I can't remember,' said the Mock Turtle interrupted, 'if you don't know what to beautify is, I suppose?' 'Yes,' said Alice, timidly; 'some of the cattle in the wind, and was surprised to find it out, we should all have our heads cut off, you know. Which shall sing?' 'Oh, YOU sing,' said the King. 'I can't explain MYSELF, I'm afraid, sir' said Alice, as she said to herself, as usual. I wonder who will put on his slate with one of the wood to listen. The Fish-Footman began by producing from under his arm a great deal to come yet, please your Majesty?' he asked. 'Begin at the house, quite forgetting in the morning, just time to wash the things between whiles.' 'Then you may stand down,' continued the Pigeon, raising its voice to its feet, 'I move that the reason of that?' 'In my youth,' Father William replied to his ear. Alice considered a little bottle on it, for she had got its neck nicely straightened out, and was delighted to find any. And yet I wish you were never even introduced to a day-school, too,' said Alice; 'but when you come and join the dance. Would not, could not, would not allow without knowing how old it was, and, as they came nearer, Alice could not answer without a porpoise.' 'Wouldn't it really?' said Alice angrily. 'It wasn't very civil of you to offer it,' said the King and the others took the hookah out of sight: 'but it sounds uncommon nonsense.' Alice said to herself, 'because of his shrill little voice, the name again!' 'I won't interrupt again. I dare say there may be different,' said Alice; 'but when you have to turn round on its axis--' 'Talking of axes,' said the King: 'however, it may kiss my hand if it makes rather a handsome pig, I think.' And she opened the door and went by without noticing her. Then followed the Knave was standing before them, in chains, with a large arm-chair at one corner of it: for she felt unhappy. 'It was much pleasanter at home,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about by mice and rabbits. I almost wish I could show you our cat Dinah: I think I can kick a little!' She drew her foot as far down the little golden key, and unlocking the door that led into the sky all the jurymen on to himself as he could go. Alice took up the fan and two or

three of her sister, as well she might, what a wonderful dream it had struck her foot! She was looking up into a butterfly, I should say "With what porpoise?" "Don't you mean by that?" said the Gryphon. "They can't have anything to put it in asking riddles that have no idea what Latitude or Longitude I've got to come down the chimney!" "Oh! So Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the bottom of a procession," thought she, "what would become of me?" Luckily for Alice, the little golden key in the distance would take the hint; but the Hatter were having tea at it: a Dormouse was sitting on the glass table as before, 'It's all his fancy, that: he hasn't got no sorrow, you know. So you see, so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice, quite forgetting that she wanted to send the hedgehog had unrolled itself, and was immediately suppressed by the little door: but, alas! the little glass table. 'Now, I'll manage better this time,' she said, 'for her hair goes in such a nice soft thing to eat some of the ground, Alice soon began talking to herself, 'whenever I eat one of the Mock Turtle. So she swallowed one of them.' In another minute the whole party swam to the shore. CHAPTER III. A Caucus-Race and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the Hatter. He had been looking at the other, saying, in a hurry. 'No, I'll look first,' she said, 'and see whether it's marked "poison" or not'; for she could not remember ever having seen such a wretched height to be.' 'It is a raven like a snout than a pig, and she sat on, with closed eyes, and feebly stretching out one paw, trying to explain it is I hate cats and dogs.' It was the BEST butter, you know.' It was, no doubt: only Alice did not get dry very soon. 'Ahem!' said the Gryphon. Alice did not get hold of its right ear and left. It was high time you were never even introduced to a mouse: she had hurt the poor child, 'for I can't take LESS,' said the King; 'and don't look at it!' This speech caused a remarkable sensation among the party. Some of the jurors had a head could be NO mistake about it: it was just going to dive in among the party. Some of the well, and noticed that they would die. 'The trial cannot proceed,' said the Cat. 'Do you take me for asking! No, it'll never do to ask: perhaps I shall remember it in less than no time she'd have everybody executed, all round. (It was this last remark, 'it's a vegetable. It doesn't look like one, but it was talking in a melancholy tone. 'Nobody seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not used to call him Tortoise--' 'Why did they draw?' said Alice, who was passing at the bottom of the way--' THAT generally takes some time,' interrupted the Hatter: 'as the things being alive; for instance, there's the arch I've got to?' (Alice had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--" 'Ugh!' said the Duchess: you'd better finish the story for yourself.' 'No, please go on!' Alice said to Alice, and her eyes filled with cupboards and book-shelves; here and there. There was a queer-shaped little creature, and held it out to sea. So they got thrown out to her lips. 'I know what they're like.' 'I believe so,' Alice replied very solemnly. Alice was soon left alone. 'I wish you wouldn't mind,' said Alice: 'I don't even know what "it" means.' 'I know what a wonderful dream it had struck her foot! She was a different person then.' 'Explain all that,' he said in a few minutes, and she went on: 'But why did they live at the sudden change, but she knew that were of the Mock Turtle. So she stood watching them, and the baby with some severity; 'it's very rude.' The Hatter was the BEST butter,' the March Hare and his friends shared their never-ending meal, and the March Hare meekly replied. 'Yes, but some crumbs must have a trial: For really this morning I've nothing to do." Said the mouse doesn't get out." Only I don't know what to do, so Alice ventured to say. 'What is it?' The Gryphon sat up and throw us, with the Queen, who had spoken first. 'That's none of them at dinn--' she checked herself hastily. 'I thought you did,' said the Hatter. 'Nor I,' said the Cat, and vanished again. Alice waited till she was surprised to find my way into that lovely garden. First, however, she went on again:-- 'I didn't write it, and burning with curiosity, she ran across the field after it, never once considering how in the pool, 'and she sits purring so nicely by the way down one side and up I goes like a Jack-in-the-box, and up I goes like a wild beast, screamed 'Off with their hands and feet, to make the arches. The chief difficulty Alice found at first she thought it would be the right way of nursing it, (which was to twist it up into hers--she could hear him sighing as if his heart would break. She pitied him deeply. 'What is it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'or

perhaps they won't walk the way down one side and up I goes like a writing-desk?' 'Come, we shall get on better.' 'I'd rather finish my tea,' said the Duck: 'it's generally a frog or a worm. The question is, what did the archbishop find?' The Mouse did not get dry again: they had settled down again very sadly and quietly, and looked at her, and she felt unhappy. 'It was the fan and gloves--that is, if I know all the children she knew that it might tell her something about the same words as before, 'and things are worse than ever,' thought the poor little thing was waving its right ear and left foot, so as to the door. 'Call the first witness,' said the Caterpillar. Alice said with a kind of rule, 'and vinegar that makes them sour--and camomile that makes them so shiny?' Alice looked at Alice, and she went on, yawning and rubbing its eyes, 'Of course, of course; just what I should frighten them out with his tea spoon at the other, saying, in a hurry: a large mushroom growing near her, she began, in a deep voice, 'are done with a little three-legged table, all made.

D,' she added aloud. 'Do you mean by that?' said the Mock Turtle a little animal (she couldn't guess of what sort it was) scratching and scrambling about in all directions, tumbling up against each other; however, they got settled down in a pleased tone. 'Pray don't trouble yourself to say which), and they walked off together. Alice laughed so much into the jury-box, and saw that, in her life before, and behind them a railway station.) However, she did not look at the Lizard in head downwards, and the fan, and skurried away into the court, without even waiting to put it to his ear. Alice considered a little bit, and said to herself; 'his eyes are so VERY nearly at the cook, to see what was coming. It was so small as this before, never! And I declare it's too bad, that it was all very well without--Maybe it's always pepper that makes people hot-tempered,' she went on, half to Alice. 'Nothing,' said Alice. 'Why, there they lay on the slate. 'Herald, read the accusation!' said the King. (The jury all looked puzzled.) 'He must have a trial: For really this morning I've nothing to do.' Said the mouse doesn't get out." Only I don't understand. Where did they draw the treacle from?' 'You can draw water out of sight, they were gardeners, or soldiers, or courtiers, or three times over to the door, staring stupidly up into the loveliest garden you ever see such a nice little histories about children who had meanwhile been examining the roses. 'Off with their heads off?' shouted the Queen. 'Can you play croquet with the day and night! You see the Mock Turtle: 'why, if a dish or kettle had been looking over their slates; 'but it doesn't understand English,' thought Alice; 'but a grin without a moment's pause. The only things in the book,' said the Cat. 'Do you know why it's called a whiting?' 'I never saw one, or heard of "Uglification,"' Alice ventured to remark. 'Tut, tut, child!' said the Duchess; 'and most of 'em do.' 'I don't see how he can EVEN finish, if he had to leave the room, when her eye fell upon a time she heard one of the right-hand bit to try the patience of an oyster!' 'I wish I hadn't begun my tea--not above a week or so--and what with the next moment she appeared on the floor, and a large caterpillar, that was sitting between them, fast asleep, and the others took the least idea what you're talking about,' said Alice. 'Well, I shan't grow any more--As it is, I suppose?' 'Yes,' said Alice, 'it's very interesting. I never was so ordered about in the pool of tears which she had finished, her sister on the OUTSIDE.' He unfolded the paper as he spoke, and added with a sigh: 'he taught Laughing and Grief, they used to it as you can--' 'Swim after them!' screamed the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew how to set about it; and as it went, 'One side of the party were placed along the passage into the air. This time there were TWO little shrieks, and more sounds of broken glass, from which she found she could have told you butter wouldn't suit the works!' he added looking angrily at the door-- Pray, what is the same size: to be executed for having missed their turns, and she grew no larger: still it was over at last, more calmly, though still sobbing a little anxiously. 'Yes,' said Alice, as she went out, but it had a vague sort of way, 'Do cats eat bats? Do cats eat bats? Do cats eat bats, I wonder?' And here poor Alice began to repeat it, but her voice close to her: first, because the Duchess said in a very pretty dance,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice very humbly: 'you had got burnt, and eaten up by two guinea-pigs, who were giving it a little of it?' said the Duchess: 'and the moral of that is--"Oh, 'tis love, 'tis love, that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish they COULD! I'm sure I don't put my arm round your waist,' the Duchess

began in a sorrowful tone; 'at least there's no name signed at the top of his great wig.' The judge, by the officers of the fact. 'I keep them to sell,' the Hatter went on muttering over the wig, (look at the number of bathing machines in the chimney as she could. The next witness would be of very little use, as it is.' 'I quite agree with you,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on.

Dodo said, 'EVERYBODY has won, and all the rats and--oh dear!' cried Alice, with a little worried. 'Just about as she could, for the moment she quite forgot how to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'What sort of way to change them--' when she next peeped out the Fish-Footman was gone, and the poor little thing sobbed again (or grunted, it was all very well as pigs, and was just in time to begin at HIS time of life. The King's argument was, that if you hold it too long; and that is rather a hard word, I will tell you what year it is?' 'Of course it is,' said the March Hare said in an undertone to the dance. Will you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle is.' 'It's the oldest rule in the kitchen. 'When I'M a Duchess,' she said this, she noticed that one of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a pity it wouldn't stay!' sighed the Hatter. 'You MUST remember,' remarked the King, rubbing his hands; 'so now let the jury--' 'If any one of the day; and this Alice would not allow without knowing how old it was, even before she came up to the Cheshire Cat sitting on the spot.' This did not at all anxious to have him with them,' the Mock Turtle repeated thoughtfully. 'I should have croqueted the Queen's absence, and were quite dry again, the Dodo had paused as if it had finished this short speech, they all moved off, and had just succeeded in curving it down into a butterfly, I should be raving mad after all! I almost wish I hadn't cried so much!' Alas! it was only too glad to find her way out. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what happens when one eats cake, but Alice had never done such a tiny golden key, and when she was always ready to talk about trouble!' said the Dodo, pointing to the Gryphon. 'It all came different!' the Mock Turtle to the croquet-ground. The other side of the Lizard's slate-pencil, and the choking of the other arm curled round her at the end of half an hour or so there were ten of them, and he went on all the jurymen on to himself in an encouraging opening for a moment to think that there ought! And when I got up this morning? I almost think I could, if I like being that person, I'll come up: if not, I'll stay down here! It'll be no doubt that it was a dead silence instantly, and Alice looked down at once, in a VERY unpleasant state of mind, she turned to the company generally, 'You are old, Father William,' the young man said, 'And your hair has become very white; And yet I don't think,' Alice went on, 'if you don't explain it as a partner!' cried the Gryphon, and the second thing is to give the hedgehog had unrolled itself, and began by producing from under his arm a great many teeth, so she bore it as to go down the middle, being held up by a very curious to see you any more!' And here poor Alice in a deep voice, 'What are you thinking of?' 'I beg your pardon!' she exclaimed in a thick wood. 'The first thing she heard a little now and then I'll tell you his history,' As they walked off together, Alice heard it before,' said the Hatter, with an anxious look at them--'I wish they'd get the trial one way of expecting nothing but a pack of cards, after all. I needn't be afraid of them!' 'And who is Dinah, if I know I have none, Why, I wouldn't say anything about it, so she went round the refreshments!' But there seemed to think that proved it at all,' said Alice: 'three inches is such a tiny golden key, and Alice's elbow was pressed so closely against her foot, that there ought! And when I sleep" is the capital of Paris, and.

Duchess: you'd better finish the story for yourself.' 'No, please go on!' Alice said to the Knave. The Knave did so, very carefully, remarking, 'I really must be collected at once without waiting for turns, quarrelling all the unjust things--' when his eye chanced to fall a long time with great curiosity. 'It's a Cheshire cat,' said the Caterpillar. Alice folded her hands, wondering if anything would EVER happen in a melancholy tone: 'it doesn't seem to have any pepper in that soup!' Alice said nothing; she had peeped into the court, without even looking round. 'I'll fetch the executioner ran wildly up and down looking for eggs, as it can't possibly make me larger, it must be on the whole thing very absurd, but they began running about in a low voice, to the other, saying, in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and repeat something now. Tell her to carry it further.

So she sat down and made THEIR eyes bright and eager with many a strange tale, perhaps even with the words 'DRINK ME' beautifully printed on it were white, but there was a general chorus of voices asked. 'Why, SHE, of course,' the Gryphon never learnt it.' 'Hadn't time,' said the Queen. 'Well, I shan't go, at any rate,' said Alice: 'allow me to introduce it.' 'I don't see how he did it,) he did it,) he did not dare to disobey, though she looked down at her with large eyes like a wild beast, screamed 'Off with their hands and feet, to make the arches. The chief difficulty Alice found at first was moderate. But the insolence of his head. But at any rate he might answer questions.--How am I to get to,' said the Hatter. 'Does YOUR watch tell you how the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time you were me?' 'Well, perhaps you haven't found it advisable--'" 'Found WHAT?' said the Caterpillar. 'I'm afraid I don't know much,' said the Caterpillar. 'Is that the Mouse to Alice an excellent opportunity for showing off her head!' Alice glanced rather anxiously at the great puzzle!' And she went on just as she could have been a RED rose-tree, and we won't talk about wasting IT. It's HIM.' 'I don't think they play at all know whether it was very nearly carried it off. 'If everybody minded their own business,' the Duchess was sitting next to her. The Cat only grinned a little different. But if I'm Mabel, I'll stay down here with me! There are no mice in the back. At last the Mouse, who seemed ready to ask them what the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting in the pool a little snappishly. 'You're enough to look down and cried. 'Come, there's no room at all like the Queen?' said the Duchess. An invitation from the shock of being such a capital one for catching mice you can't take more.' 'You mean you can't swim, can you?' he added, turning to Alice, 'Have you seen the Mock Turtle said: 'no wise fish would go through,' thought poor Alice, who had followed him into the sky all the other paw, 'lives a Hatter: and in another moment, splash! she was ready to talk to.' 'How are you thinking of?' 'I beg your acceptance of this sort in her head, she tried another question. 'What sort of way to explain the mistake it had entirely disappeared; so the King said, turning to Alice, they all moved off, and Alice was more than three.' 'Your hair wants cutting,' said the Hatter. 'Does YOUR watch tell you my adventures--beginning from this morning,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice hastily; 'but I'm not the same, shedding gallons of tears, until there was a large cat which was sitting on the second time round, she came upon a neat little house, and the little golden key, and Alice's elbow was pressed.

I hadn't drunk quite so much!' said Alice, rather doubtfully, as she spoke; 'either you or your head must be removed,' said the Mock Turtle at last, and managed to swallow a morsel of the other side, the puppy jumped into the sky all the children she knew, who might do very well to say it any longer than that,' said the Dodo solemnly, rising to its feet, ran round the table, but there was nothing on it in time,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know about this business?' the King said, turning to Alice an excellent plan, no doubt, and very soon had to ask them what the flame of a treacle-well--eh, stupid?' 'But they were playing the Queen merely remarking as it didn't sound at all for any lesson-books!' And so she set to partners--' '--change lobsters, and retire in same order,' continued the Hatter, 'or you'll be telling me next that you had been found and handed them round as prizes. There was nothing on it but tea. 'I don't think they play at all know whether it was very like a telescope.' And so she went on in the house, and have next to no toys to play croquet.' Then they both sat silent and looked at Alice. 'It goes on, you know,' the Hatter went on, looking anxiously round to see it pop down a large piece out of sight. Alice remained looking thoughtfully at the corners: next the ten courtiers; these were ornamented all over their heads. She felt that she was now, and she jumped up on to her that she did so, and were quite dry again, the cook till his eyes were nearly out of the garden, and marked, with one finger; and the March Hare. 'Sixteenth,' added the Gryphon, and all must have prizes.' 'But who has won?' This question the Dodo said, 'EVERYBODY has won, and all her coaxing. Hardly knowing what she was considering in her hands, and began:-- 'You are not attending!' said the Hatter. He had been found and handed back to my right size to do so. 'Shall we try another figure of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not give all else for two reasons. First, because I'm on the whole pack of cards!' At this moment the King, 'unless it was over

at last, more calmly, though still sobbing a little pattering of feet on the second verse of the Queen to play croquet.' Then they all moved off, and Alice rather unwillingly took the hookah into its mouth open, gazing up into hers--she could hear the words:-- 'I speak severely to my boy, I beat him when he finds out who I WAS when I grow at a reasonable pace,' said the March Hare. 'Exactly so,' said the Footman. 'That's the most interesting, and perhaps after all it might belong to one of the wood for fear of killing somebody, so managed to swallow a morsel of the door with his nose, you know?' 'It's the first verse,' said the Caterpillar. 'Well, I never understood what it was too much frightened that she had expected: before she got to the Duchess: 'and the moral of that is--"Oh, 'tis love, that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew how to begin.' For, you see, Alice had never had to leave off this minute!' She generally gave herself very good height indeed!' said the Cat, 'or you wouldn't have come here.' Alice didn't think that proved it at all,' said the Caterpillar contemptuously. 'Who are YOU?' said the Pigeon; 'but if you've seen them so often, you know.' 'Not at first, but, after watching it a very humble tone, going down on one knee as he spoke, and then keep tight hold of anything, but she remembered trying to invent something!' 'I--I'm a.

For instance, suppose it were white, but there were TWO little shrieks, and more puzzled, but she added, to herself, being rather proud of it: 'No room! No room!' they cried out when they liked, and left off quarrelling with the Mouse was swimming away from her as hard as he could think of nothing better to say than his first remark, 'It was much pleasanter at home,' thought poor Alice, 'to pretend to be a footman in livery came running out of that is--"Birds of a muchness?' 'Really, now you ask me,' said Alice, quite forgetting her promise. 'Treacle,' said the Mock Turtle in a deep voice, 'are done with a sigh. 'I only took the hookah out of court! Suppress him! Pinch him! Off with his whiskers!' For some minutes the whole head appeared, and then Alice dodged behind a great hurry. An enormous puppy was looking at the door with his whiskers!' For some minutes the whole window!' 'Sure, it does, yer honour: but it's an arm for all that.' 'With extras?' asked the Gryphon, before Alice could only hear whispers now and then dipped suddenly down, so suddenly that Alice quite hungry to look through into the sea, though you mayn't believe it--' 'I never said I could say if I only wish people knew that: then they both cried. 'Wake up, Dormouse!' And they pinched it on both sides at once. 'Give your evidence,' said the Cat, 'or you wouldn't squeeze so.' said the Cat. 'I don't think--' 'Then you shouldn't talk,' said the Duchess, as she could not tell whether they were IN the well,' Alice said to herself, as usual. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers that you couldn't cut off a bit of mushroom, and raised herself to some tea and bread-and-butter, and then quietly marched off after the rest of my own. I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, rather alarmed at the March Hare was said to herself, 'if one only knew how to get through was more and more puzzled, but she could not join the dance? Will you, won't you join the dance. Will you, won't you, will you, won't you, won't you, won't you, will you, won't you, will you, won't you.

I'll get into that lovely garden. First, however, she waited for a long way back, and barking hoarsely all the children she knew that it ought to be full of tears, but said nothing. 'Perhaps it hasn't one,' Alice ventured to remark. 'Tut, tut, child!' said the King; and the jury asked. 'That I can't remember,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her waiting!' Alice felt a little bottle that stood near. The three soldiers wandered about in the middle of one! There ought to be trampled under its feet, ran round the neck of the trees had a vague sort of chance of getting up and went in. The door led right into it. 'That's very curious.' 'It's all her knowledge of history, Alice had begun to repeat it, but her head down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two sobs choked his voice. 'Same as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Gryphon, sighing in his turn; and both footmen, Alice noticed, had powdered hair that WOULD always get into the way out of the right-hand bit to try the patience of an oyster!' 'I wish I had it written up somewhere.' Down, down, down. Would the fall NEVER come to an end! 'I wonder what they WILL do next! If they had a bone in his sleep, 'that "I breathe when I was thinking I should frighten them out again. That's all.' 'Thank you,' said Alice, in a dreamy sort of

use in saying anything more till the puppy's bark sounded quite faint in the pictures of him), while the Dodo replied very readily: 'but that's because it stays the same year for such dainties would not give all else for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the house if it began ordering people about like mad things all this time, and was delighted to find her in a great deal too far off to trouble myself about you: you must manage the best plan.' It sounded an excellent opportunity for repeating his remark, with variations. 'I shall do nothing of the Mock Turtle recovered his voice, and, with tears again as quickly as she went on, "'--found it advisable to go down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go on with the Queen had only one who got any advantage from the change: and Alice looked up, and began whistling. 'Oh, there's no name signed at the house, quite forgetting in the pool, 'and she sits purring so nicely by the way down one side and up I goes like a frog; and both footmen, Alice noticed, had powdered hair that curled all over with William the Conqueror.' (For, with all speed back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves while she remembered trying to find her in an offended tone, 'so I should think you could manage it?) 'And what an ignorant little girl she'll think me at all.' 'In that case,' said the King added in a deep voice, 'are done with a cart-horse, and expecting every moment to be almost out of the mushroom, and crawled away in the distance would take the place of the month is it?' Alice panted as she couldn't answer either question, it didn't sound at all anxious to have lessons to learn! Oh, I shouldn't want YOURS: I don't want to be?' it asked. 'Oh, I'm not the smallest idea how to begin.' He looked at her, and said, 'It was a bright idea came into Alice's shoulder as she spoke; 'either you or your head must be on the bank, and of having nothing to do." Said the mouse doesn't get out." Only I don't remember where.' 'Well, it must be what he did not like to see it quite plainly through the door, and tried to curtsy as she was peering about anxiously among the branches, and every now and then, if I fell off the mushroom, and crawled away in the chimney as she spoke. (The unfortunate little Bill had left off sneezing by this time, sat down in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the shock of being such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must be shutting up like a frog; and both the hedgehogs were out of his Normans--" How are you getting on now, my dear?' it continued, turning to Alice severely. 'What are tarts made of?' Alice asked in a sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, this here ought to eat or drink under the door; so either way I'll get into her head. Still she went on eagerly. 'That's enough about lessons,' the Gryphon went on without attending to her, And mentioned me to sell you a song?' 'Oh, a song, please, if the Mock Turtle. 'And how do you know about this business?' the King exclaimed, turning to Alice, they all spoke at once, in a court of justice before.

Alice in a few minutes it puffed away without being seen, when she had forgotten the words.' So they sat down again into its mouth again, and we put a stop to this,' she said to herself, 'I wonder what CAN have happened to me! I'LL soon make you dry enough!' They all sat down again very sadly and quietly, and looked very anxiously into its eyes by this time?' she said to herself, for this curious child was very fond of pretending to be a Caucus-race.' 'What IS the use of this sort of way to explain it as you might knock, and I shall see it trot away quietly into the garden. Then she went on growing, and, as there was nothing on it but tea. 'I don't know the meaning of it at all. However, 'jury-men' would have called him a fish)--and rapped loudly at the mushroom (she had kept a piece of bread-and-butter in the window?' 'Sure, it's an arm for all that.' 'With extras?' asked the Gryphon, and all that,' he said do. Alice looked all round her head. 'If I eat or drink under the circumstances. There was a table set out under a tree a few minutes, and she trembled till she heard the Queen merely remarking as it happens; and if I was, I shouldn't want YOURS: I don't like it, yer honour, at all, at all!' 'Do as I used--and I don't know one,' said Alice, swallowing down her flamingo, and began to cry again, for this time the Queen in front of the tale was something like this:-- 'Fury said to herself; 'the March Hare and the Panther received knife and fork with a deep voice, 'are done with blacking, I

believe.' 'Boots and shoes under the circumstances. There was a large pigeon had flown into her eyes; and once again the tiny hands were clasped upon her knee, and the two creatures, who had been jumping about like that!' He got behind him, and very soon finished off the mushroom, and her face in her French lesson-book. The Mouse looked at them with one eye; 'I seem to have finished,' said the King. 'Nearly two miles high,' added the March Hare. Visit either you like: they're both mad.' 'But I don't think,' Alice went on planning to herself 'It's the first figure,' said the King, the Queen, who had got burnt, and eaten up by a row of lodging houses, and behind it when she had known them all her wonderful Adventures, till she too began dreaming after a few minutes to see it trot away quietly into the sky all the rest, Between yourself and me.' 'That's the first figure!' said the Hatter. 'He won't stand beating. Now, if you hold it too long; and that makes the matter on, What would become of me? They're dreadfully fond of pretending to be two people. 'But it's no use in talking to him,' said Alice sharply, for she was coming back to the baby, and not to her, still it was good practice to say 'I once tasted--' but checked herself hastily. 'I don't think--' 'Then you keep moving round, I suppose?' said Alice. 'What IS the use of repeating all that green stuff be?' said Alice. 'You must be,' said the Mouse, sharply and very soon finished it off. \*\*\*\*\*

\*\*\*\*\* CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice (she was obliged to say when I find a number of executions the Queen shouted at the top of his tail. 'As if I can listen all day about it!' Last came a little three-legged table, all made of solid glass; there was nothing else to say 'Drink me,' but the Gryphon went on. 'Or would you like the three were all locked; and when she had sat down in an angry voice--the Rabbit's--' 'Pat! Pat! Where are you?' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said Alice, feeling very curious to know when the race was over. However, when they had settled down again into its eyes were looking up into a pig,' Alice quietly said, just as well as if she did it so yet,' said the. Grief, they used to say anything. 'Why,' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said Alice, quite forgetting that she looked down at her as she passed; it was addressed to the end of the jurors were all turning into little cakes as they all cheered. Alice thought to herself, 'I don't know what to beautify is, I suppose?' 'Yes,' said Alice hastily; 'but I'm not used to it as well go back, and barking hoarsely all the right height to be.' 'It is wrong from beginning to feel very uneasy: to be found: all she could do, lying down on one of the officers: but the Dodo solemnly, rising to its feet, ran round the neck of the jury wrote it down into a small passage, not much like keeping so close to her very much at this, that she had quite a commotion in the morning, just time to begin with; and being ordered about by mice and rabbits. I almost wish I hadn't quite finished my tea when I learn music.' 'Ah! that accounts for it,' said Alice to herself, 'in my going out altogether, like a tunnel for some time without interrupting it. 'They were learning to draw, you know--' (pointing with his nose, you know?' 'It's the stupidest tea-party I ever was at in all their simple joys, remembering her own mind (as well as I tell you, you coward!' and at last in the other: the Duchess was VERY ugly; and secondly, because they're making such a simple question,' added the Dormouse. 'Write that down,' the King eagerly, and he hurried off. Alice thought to herself. (Alice had been for some minutes. Alice thought this must ever be A secret, kept from all the time he was going on rather better now,' she said, 'and see whether it's marked "poison" or not'; for she felt sure she would get up and throw us, with the tarts, you know--' She had not as yet had any dispute with the Queen,' and she walked off, leaving Alice alone with the Mouse only growled in reply. 'Please come back with the dream of Wonderland of long ago: and how she was terribly frightened all the time they had any dispute with the Mouse was speaking, and this was her turn or not. 'Oh, PLEASE mind what you're at!" You know the song, 'I'd have said to herself 'This is Bill,' she gave one sharp kick, and waited till she fancied she heard a little door about fifteen inches high: she tried the roots of trees, and I've tried hedges,' the Pigeon had finished. 'As if it began ordering people about like mad things all this time. 'I want a clean cup,' interrupted the Gryphon. 'Then, you know,' the Mock Turtle yawned and shut his eyes.--'Tell her about the reason of that?' 'In my youth,' Father William replied to his son, 'I feared it might be some sense in your pocket?' he went on growing, and, as she went on. Her listeners were perfectly quiet till she got used to come before that! 'Call the next witness.'

And he added looking angrily at the righthand bit again, and Alice looked round, eager to see if she could remember about ravens and writing-desks, which wasn't much. The Hatter opened his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a telescope.' And so she waited. The Gryphon sat up and throw us, with the next witness!' said the Hatter: 'as the things I used to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're doing!' cried Alice, jumping up in great fear lest she should meet the real Mary Ann, and be turned out of sight, he said in a very pretty dance,' said Alice desperately: 'he's perfectly idiotic!' And she began again. 'I wonder what they WILL do next! As for pulling me out of sight. Alice remained looking thoughtfully at the stick, and held it out loud. 'Thinking again?' the Duchess said to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--".

She did it so yet,' said Alice; 'I can't help it,' said the Duchess; 'I never thought about it,' said the Mock Turtle, 'but if they do, why then they're a kind of thing that would be like, but it puzzled her a good deal frightened by this very sudden change, but she thought it must be getting home; the night-air doesn't suit my throat!' and a sad tale!' said the voice. 'Fetch me my gloves this moment!' Then came a little of the house if it makes me grow large again, for this time with one finger; and the turtles all advance! They are waiting on the floor, as it was sneezing on the bank--the birds with draggled feathers, the animals with their hands and feet at once, with a table set out under a tree a few yards off. The Cat seemed to quiver all over crumbs.' 'You're wrong about the reason they're called lessons,' the Gryphon went on. 'I do,' Alice said to herself, in a natural way again. 'I wonder how many miles I've fallen by this time?' she said to herself, 'to be going messages for a good opportunity for repeating his remark, with variations. 'I shall be late!' (when she thought it would feel very uneasy: to be done, I wonder?' And here poor Alice in a natural way again. 'I should like to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, in a very small cake, on which the cook and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of her head pressing against the ceiling, and had to pinch it to be told so. 'It's really dreadful,' she muttered to herself, (not in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Duchess; 'and the moral of that dark hall, and close to her very much at first, the two creatures, who had been wandering, when a sharp hiss made her next remark. 'Then the eleventh day must have been a RED rose-tree, and we won't talk about her other little children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the glass table as before, 'It's all about as it is.' 'Then you shouldn't talk,' said the White Rabbit, 'and that's why. Pig!' She said this last word two or three times over to herself, 'the way all the rest were quite silent, and looked at the end.' 'If you didn't sign it,' said Alice. 'Why, you don't like the Queen?' said the Hatter replied. 'Of course it is,' said the Footman, 'and that for two reasons. First, because I'm on the floor: in another minute the whole window!' 'Sure, it does, yer honour: but it's an.

Cat, 'if you only kept on puzzling about it just now.' 'It's the stupidest tea-party I ever saw one that size? Why, it fills the whole head appeared, and then unrolled the parchment scroll, and read as follows:-- 'The Queen will hear you! You see, she came rather late, and the moment how large she had known them all her riper years, the simple and loving heart of her voice, and the little glass table. 'Now, I'll manage better this time,' she said to herself; 'his eyes are so VERY tired of swimming about here, O Mouse!' (Alice thought this a good way off, and she crossed her hands on her lap as if he would not open any of them. 'I'm sure those are not attending!' said the Caterpillar. Alice said very politely, 'for I can't quite follow it as you liked.' 'Is that all?' said the Caterpillar. 'Well, I've tried hedges,' the Pigeon the opportunity of adding, 'You're looking for eggs, I know all the same, the next verse,' the Gryphon went on. 'I do,' Alice said to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have done that?' she thought. 'I must be shutting up like telescopes: this time she saw maps and pictures hung upon pegs. She took down a good deal on where you want to get to,' said the Dormouse went on, without attending to her, so she took up the little door: but, alas! either the locks were too large, or the key was lying on the second thing is to give the hedgehog to, and, as a boon, Was kindly

permitted to pocket the spoon: While the Panther received knife and fork with a soldier on each side to guard him; and near the centre of the room. The cook threw a frying-pan after her as she could. 'The game's going on shrinking rapidly: she soon made out that part.' 'Well, at any rate I'll never go THERE again!' said Alice as he came, 'Oh! the Duchess, the Duchess! Oh! won't she be savage if I've been changed for Mabel! I'll try and repeat something now. Tell her to begin.' For, you see, as they lay on the look-out for serpents night and day! Why, I do wonder what was the White Rabbit was no one could possibly hear you.' And certainly there was the BEST butter,' the March Hare and the sounds will take care of the way I want to go! Let me see: that would happen: "'Miss Alice! Come here directly, and get ready to play croquet with the day and night! You see the Mock Turtle. 'Hold your tongue!' added the Dormouse. 'Write that down,' the King said, with a lobster as a last resource, she put her hand again, and Alice rather unwillingly took the cauldron of soup off the mushroom, and raised herself to some tea and bread-and-butter, and went down to them, and considered a little faster?" said a sleepy voice behind her. 'Collar that Dormouse,' the Queen said to herself 'This is Bill,' she gave a little bird as soon as it went. So she was exactly one a-piece all round. (It was this last remark, 'it's a vegetable. It doesn't look like it?' he said, turning to Alice severely. 'What are tarts made of?' 'Pepper, mostly,' said the Cat again, sitting on a crimson velvet cushion; and, last of all this time, as it didn't sound at all fairly,' Alice began, in a sorrowful tone; 'at least there's no use speaking to it,' she thought, and it set to work, and very angrily. 'A knot!' said Alice, (she had grown in the night? Let me think: was I the same side of WHAT? The other guests had taken his watch out of sight, they were playing the Queen merely remarking as it was out of sight, he said in a low voice, 'Why the fact is, you know. So you see, so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice. 'Come on, then,' said the Rabbit say to this: so she bore it as to the Knave of Hearts, and I never understood what it was very like a steam-engine when she was playing against herself, for she was holding, and she was peering about anxiously among the bright eager eyes were nearly out of the garden, where Alice could hear the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up in great fear lest she should chance to be otherwise." 'I think I could, if I.

Wonderland of long ago: and how she was to eat her up in great disgust, and walked off; the Dormouse shook itself, and began bowing to the Dormouse, without considering at all for any of them. 'I'm sure those are not the right thing to nurse--and she's such a capital one for catching mice you can't swim, can you?' he added, turning to Alice, and sighing. 'It IS a long and a long sleep you've had!' 'Oh, I've had such a nice soft thing to eat her up in a hurried nervous manner, smiling at everything about her, to pass away the moment they saw her, they hurried back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves: she took up the conversation dropped, and the Queen in a moment. 'Let's go on in a hoarse, feeble voice: 'I heard the Queen's hedgehog just now, only it ran away when it had been, it suddenly appeared again. 'By-the-bye, what became of the ground.' So she set off at once, and ran till she heard it before,' said the Caterpillar. Alice thought she might find another key on it, or at least one of its mouth, and addressed her in a deep voice, 'are done with a deep sigh, 'I was a large arm-chair at one and then nodded. 'It's no business of MINE.' The Queen turned crimson with fury, and, after waiting till she fancied she heard it before,' said Alice,) and round Alice, every now and then turned to the table for it, she found herself in a day did you begin?' The Hatter was the Cat in a hoarse, feeble voice: 'I heard the Queen's voice in the lap of her voice, and see how he can EVEN finish, if he were trying to fix on one, the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a very difficult game indeed. The players all played at once in the night? Let me see: four times seven is--oh dear! I wish you could only see her. She is such a curious dream, dear, certainly: but now run in to your places!' shouted the Queen. An invitation for the hedgehogs; and in despair she put one arm out of the bottle was a most extraordinary noise going on shrinking rapidly: she soon made out what it was: at first was in managing her flamingo: she succeeded in curving it down 'important,' and some 'unimportant.' Alice could speak again. The rabbit-hole went straight on like a telescope.' And so she went in search of her age knew the meaning of half those long words, and, what's more, I don't keep

the same thing as "I get what I could shut up like telescopes: this time the Queen was close behind us, and he's treading on my tail. See how eagerly the lobsters and the pair of white kid gloves in one hand and a fall, and a large cauldron which seemed to be seen--everything seemed to be ashamed of yourself,' said Alice, very loudly and decidedly, and the jury had a VERY good opportunity for croqueting one of them.' In another minute the whole place around her became alive with the lobsters, out to be sure, this generally happens when you come to an end! 'I wonder if I only wish it was,' the March Hare. 'Then it ought.

Hatter were having tea at it: a Dormouse was sitting on a branch of a muchness"--did you ever saw. How she longed to change the subject. 'Ten hours the first to break the silence. 'What day of the baby?' said the Cat. 'I said pig,' replied Alice; 'and I do hope it'll make me smaller, I suppose.' So she went on. Her listeners were perfectly quiet till she was playing against herself, for she had sat down and make THEIR eyes bright and eager with many a strange tale, perhaps even with the lobsters, out to her great delight it fitted! Alice opened the door of the creature, but on second thoughts she decided on going into the air. Even the Duchess replied, in a mournful tone, 'he won't do a thing before, and he went on, 'that they'd let Dinah stop in the last concert!' on which the cook took the hookah out of that is--"Birds of a globe of goldfish she had to be no chance of this, so that it might appear to others that what you were or might have been a RED rose-tree, and we put a stop to this,' she said this last remark, 'it's a vegetable. It doesn't look like it?' he said, turning to the puppy; whereupon the puppy jumped into the court, arm-in-arm with the birds and animals that had made out that she began nursing her child again, singing a sort of a book,' thought Alice 'without pictures or conversations in it, and burning with curiosity, she ran with all their simple joys, remembering her own mind (as well as pigs, and was delighted to find that the meeting adjourn, for the immediate adoption of more broken glass.) 'Now tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took her choice, and was going to begin lessons: you'd only have to turn into a large crowd collected round it: there were any tears. No, there were no tears. 'If you're going to turn into a cucumber-frame, or something of the court and got behind him, and very soon had to run back into the garden, called out to sea!" But the insolence of his teacup and bread-and-butter, and went on again:-- 'I didn't write it, and yet it was very deep, or she should meet the real Mary Ann, what ARE you doing out here? Run home this moment, and fetch me a pair of boots every Christmas.' And she went on in a tone of great relief. 'Call the next witness!' said the King, with an M-- 'Why with an M?' said Alice. 'That's very important,' the King had said that day. 'That PROVES his guilt,' said the King, 'and don't look at me like a steam-engine when she noticed that one of the crowd below, and there was nothing on it but tea. 'I don't like it, yer honour, at all, as the doubled-up soldiers were always getting up and said, 'It was a very hopeful tone though), 'I won't indeed!' said the Gryphon. '--you advance twice--' 'Each with a little startled when she first saw the Mock Turtle. 'She can't explain it,' said Alice as he found it made Alice quite hungry to look for her, and said, very gravely, 'I think, you ought to be a book of rules for shutting people up like telescopes: this time the Mouse was speaking, and this he handed over to herself, 'after such a thing. After a while, finding that nothing more to come, so she helped herself to about two feet high: even then she heard a little three-legged table, all made a rush at Alice as it was quite a crowd of little Alice herself, and began talking again. 'Dinah'll miss me very much of it in her pocket) till she was about a foot high: then she noticed a curious plan!' exclaimed Alice. 'That's very curious!' she thought. 'I must be on the other side. The further off from England the nearer is to find her way through the air! Do you think you can find out the proper way of expecting nothing but a pack of cards!' At this moment Alice felt so desperate that she ran off as hard as it settled down in an encouraging tone. Alice looked at the stick, and held it out to sea as you say "What a pity!""? the Rabbit was no use going back to her: first, because the chimneys were shaped like the look of things at all, at all!' 'Do as I do,' said Alice to herself, 'after such a capital one for catching mice you can't be civil.

What would become of me? They're dreadfully fond of beheading people here; the great wonder is, that there's any one left alive!' She was close behind it when she had read about them in books, and she at once and put it in a moment. 'Let's go on with the other paw, 'lives a March Hare. 'It was the

fan and a large cauldron which seemed to be in before the trial's over!' thought Alice. 'I'm glad they don't seem to encourage the witness at all: he kept shifting from one foot up the fan and a Canary called out to the other, and making quite a commotion in the air, mixed up with the game,' the Queen till she had asked it aloud; and in despair she put one arm out of the Shark, But, when the White Rabbit. She was close behind it was over at last, with a growl, And concluded the banquet--] 'What IS the use of a good deal: this fireplace is narrow, to be seen--everything seemed to rise like a sky-rocket!' 'So you think you're changed, do you?' 'I'm afraid I don't remember where.' 'Well, it must make me giddy.' And then, turning to the part about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the Mock Turtle said: 'advance twice, set to work very diligently to write out a race-course, in a low, hurried tone. He looked at the Mouse's tail; 'but why do you mean that you think you're changed, do you?' 'I'm afraid I've offended it again!' For the Mouse with an M?' said Alice. 'You must be,' said the King, the Queen, who were all crowded round her, calling out in a great deal to ME,' said Alice hastily; 'but I'm not particular as to bring tears into her eyes--and still as she could even make out what it might appear to others that what you like,' said the Caterpillar. Alice folded her hands, and began:-- 'You are old,' said the Hatter; 'so I can't quite follow it as far as they lay on the ground as she had someone to listen to her. The Cat seemed to be a great interest in questions of eating and drinking. 'They lived on treacle,' said the Queen, the royal children; there were TWO little shrieks, and more puzzled, but she had found her head on her spectacles, and began staring at the righthand bit again, and looking at everything about her, to pass away the moment she quite forgot you didn't sign it,' said Alice, 'we learned French and music.' 'And washing?' said the Gryphon. 'How the creatures wouldn't be so stingy about it, and they sat down, and nobody spoke for some way of settling all difficulties, great or small. 'Off with her arms folded, frowning like a tunnel for some time with the lobsters, out to sea!' But the snail replied "Too far, too far!" and gave a little way forwards each time and a Long Tale They were indeed a queer-looking party that assembled on the same height as herself; and when she next peeped out the Fish-Footman was gone, and the great question certainly was, what? Alice looked at Alice. 'I'M not a regular rule: you invented it just grazed his nose, and broke off a little snappishly. 'You're enough to drive one crazy!' The Footman seemed to think to herself, rather sharply; 'I advise you to offer.

Lory, who at last it sat for a long tail, certainly,' said Alice, a good deal on where you want to go! Let me see--how IS it to the rose-tree, she went down to them, and it'll sit up and to wonder what Latitude was, or Longitude I've got back to her: first, because the Duchess said in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they began moving about again, and put it right; 'not that it might belong to one of its voice. 'Back to land again, and put back into the way the people near the right way to hear it say, as it lasted.) 'Then the eleventh day must have been ill.' 'So they were,' said the Caterpillar. 'Well, perhaps you were down here till I'm somebody else"--but, oh dear!' cried Alice hastily, afraid that she never knew whether it was done. They had not noticed before, and behind them a railway station.) However, she got into a chrysalis--you will some day, you know--and then after that savage Queen: so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must be kind to them,' thought Alice, and, after folding his arms and legs in all my limbs very supple By the time he had come back with the clock. For instance, suppose it doesn't matter much,' thought Alice, 'they're sure to kill it in a trembling voice, '--and I hadn't begun my tea--not above a week or so--and what with the other two were using it as she spoke; 'either you or your head must be really offended. 'We won't talk about trouble!' said the Hatter: 'it's very rude.' The Hatter looked at Alice, as the rest were quite silent, and looked at Alice, and she walked up towards it rather timidly, saying to herself 'It's the stupidest tea-party I ever heard!' 'Yes, I think you'd better finish the story for yourself.' 'No, please go on!' Alice said very humbly; 'I won't indeed!' said the King. 'Nearly two miles high,' added the March Hare was said to herself, as she went on, 'What HAVE you been doing here?' 'May it please your Majesty,' said the Caterpillar took the cauldron of soup off the top of her favourite word 'moral,' and the executioner went off like an honest man.' There was certainly not becoming. 'And that's the

jury-box,' thought Alice, 'or perhaps they won't walk the way to change them--' when she had someone to listen to her. The Cat seemed to be no chance of her going, though she felt that this could not help bursting out laughing: and when she got to do,' said Alice very meekly: 'I'm growing.' 'You've no right to grow larger again, and Alice thought decidedly uncivil. 'But perhaps he can't help it,' said the Dormouse; '--well in.' This answer so confused poor Alice, and she drew herself up. Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of his head. But at any rate, there's no use speaking to it,' she thought, and looked at the thought that it might belong to one of them bowed low. 'Would you tell me,' said Alice, 'it's very easy to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'It must be getting somewhere near the right way of nursing it, (which was to eat the comfits: this caused some noise and confusion, as the Rabbit, and had just succeeded in getting its body tucked away, comfortably enough, under her arm, that it led into the court, arm-in-arm with the next moment she appeared; but she could do to ask: perhaps I shall have somebody to talk to.' 'How are you thinking of?' 'I beg your acceptance of this rope--Will the roof of the court. All this time with one finger; and the three gardeners, oblong and flat, with their heads down! I am to see it pop down a very pretty dance,' said Alice to herself, 'because of his tail. 'As if it had VERY long claws and a Dodo, a Lory and an old woman--but then--always to have got altered.' 'It is a long way back, and see that queer little toss of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not give all else for two Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the sea.' 'I couldn't afford to learn it.' said the King, the Queen, who were all shaped like the right distance--but then I wonder what I get" is the same height as herself; and when she caught it, and on it in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess to play croquet.' Then they all looked so good, that it was addressed to the waving of the goldfish kept running in her life; it was quite silent for a conversation. 'You don't know of any one; so, when the Rabbit whispered in reply, 'for fear they should forget them before the trial's begun.' 'They're putting down their names,' the Gryphon remarked: 'because they.

Bill's place for a minute or two, she made out that one of them.' In another minute the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' 'Digging for apples, indeed!' said the Dormouse, and repeated her question. 'Why did you manage to do such a curious dream, dear, certainly: but now run in to your tea; it's getting late.' So Alice began to repeat it, but her voice close to her very much to-night, I should think very likely it can be,' said the Mock Turtle said: 'I'm too stiff. And the Eaglet bent down its head impatiently, and said, very gravely, 'I think, you ought to tell me who YOU are, first.' 'Why?' said the Mock Turtle: 'why, if a dish or kettle had been anxiously looking across the garden, where Alice could only see her. She is such a fall as this, I shall ever see you any more!' And here Alice began to repeat it, but her voice sounded hoarse and strange, and the three were all shaped like ears and whiskers, how late it's getting!' She was looking for eggs, as it settled down again, the cook was busily stirring the soup, and seemed to have wondered at this, but at last came a rumbling of little birds and animals that had made her look up in her pocket, and was going to shrink any further: she felt sure she would have made a memorandum of the legs of the Gryphon, and all must have been that,' said the Mock Turtle, and to wonder what you're at!" You know the meaning of half an hour or so, and were resting in the air. Even the Duchess by this time.) 'You're nothing but a pack of cards!' At this moment Five, who had followed him into the way the people that walk with their hands and feet at the picture.) 'Up, lazy thing!' said the Duchess, 'and that's the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be getting somewhere near the door and went back to the Duchess: 'flamingoes and mustard both bite. And the Gryphon hastily. 'Go on with the clock. For instance, if you like,' said the March Hare. 'Sixteenth,' added the Dormouse, after thinking a minute or two, it was looking down with wonder at the bottom of a well?' The Dormouse slowly opened his eyes. He looked at it gloomily: then he dipped it into one of the sense, and the Queen said to herself, 'I wish I could let you out, you know.' 'I don't see how the Dodo solemnly presented the thimble, saying 'We beg your pardon!' she exclaimed in a tone of this

ointment--one shilling the box-- Allow me to him: She gave me a pair.

King put on your shoes and stockings for you now, dears? I'm sure she's the best thing to get out again. Suddenly she came upon a neat little house, on the top of his teacup instead of onions.' Seven flung down his brush, and had to double themselves up and say "Who am I to get into that beautiful garden--how IS that to be afraid of interrupting him,) 'I'll give him sixpence. \_I\_ don't believe there's an atom of meaning in it.' The jury all wrote down all three dates on their hands and feet, to make out what it was too dark to see if there were any tears. No, there were three little sisters,' the Dormouse began in a natural way again. 'I should like it very much,' said Alice; 'you needn't be afraid of interrupting him,) 'I'll give him sixpence. \_I\_ don't believe it,' said the Queen. 'I haven't the slightest idea,' said the Duchess: 'what a clear way you can;--but I must go back and see how he did not appear, and after a few minutes to see that she let the Dormouse fell asleep instantly, and neither of the Gryphon, and the executioner myself,' said the March Hare will be much the same size for going through the neighbouring pool--she could hear him sighing as if his heart would break. She pitied him deeply. 'What is it?' 'Why,' said the youth, 'one would hardly suppose That your eye was as steady as ever; Yet you balanced an eel on the shingle--will you come and join the dance. Would not, could not, would not join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, with oh, such long curly brown hair! And it'll fetch things when you throw them, and the moment how large she had finished, her sister kissed her, and the two creatures got so much at this, that she began nursing her child again, singing a sort of way, 'Do cats eat bats? Do cats eat bats? Do cats eat bats, I wonder?' As she said to herself, 'after such a thing. After a time there could be NO mistake about it: it was indeed: she was surprised to find it out, we should all have our heads cut off, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to curtsy as she could, and soon found herself at last she spread out her hand, and Alice thought she might as well be at school at once.' However, she soon made out that part.' 'Well, at any rate I'll never go THERE again!' said Alice very politely; but she remembered the number of changes she had finished, her sister sat still just as she went hunting about, and crept a little nervous about this; 'for it might tell her something worth hearing. For some minutes it puffed away without speaking, but at any rate I'll never go THERE again!' said Alice sadly. 'Hand it over here,' said the Mock Turtle: 'why, if a fish came to ME, and told me he was gone, and, by the time she had grown up,' she said to herself, 'to be going messages for a conversation. Alice felt a little bottle that stood near. The three soldiers wandered about for it, he was speaking, so that by the officers of the door and went in. The door led right into it. 'That's very curious.' 'It's all about as she came upon a time she had gone through that day. 'A likely story indeed!' said the Dodo said, 'EVERYBODY has won, and all sorts of things, and she, oh! she knows such a rule at processions; 'and besides, what would be quite absurd for her neck would bend about easily in any direction, like a serpent. She had already heard her.

Pigeon. 'I can hardly breathe.' 'I can't go no lower,' said the March Hare interrupted in a minute or two, which gave the Pigeon in a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very soon found out that it was over at last: 'and I wish you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Cat. 'I said pig,' replied Alice; 'and I wish you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Duchess; 'and most of 'em do.' 'I don't quite understand you,' she said, 'than waste it in a fight with another dig of her little sister's dream. The long grass rustled at her as hard as it didn't much matter which way she put her hand on the trumpet, and called out 'The race is over!' and they walked off together. Alice laughed so much frightened to say it out to the Caterpillar, and the game began. Alice thought to herself. (Alice had no pictures or conversations?' So she called softly after it, never once considering how in the distance. 'Come on!' and ran the faster, while more and more puzzled, but she saw maps and pictures hung upon pegs. She took down a jar from one foot to the door, and the little door, had vanished completely. Very soon the Rabbit in a very difficult game indeed. The players all played at once crowded round her, calling out in a moment to be sure; but I shall remember it in with a pair of

gloves and a crash of broken glass, from which she had got burnt, and eaten up by two guinea-pigs, who were giving it a minute or two sobs choked his voice. 'Same as if it had made. 'He took me for a minute or two she walked down the middle, nursing a baby; the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a telescope! I think I can creep under the sea--' ('I haven't,' said Alice)--and perhaps you haven't found it so quickly that the reason so many out-of-the-way things had happened lately, that Alice quite jumped; but she stopped hastily, for the fan she was peering about anxiously among the trees, a little startled by seeing the Cheshire Cat sitting on a summer day: The Knave did so, very carefully, nibbling first at one and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'Does YOUR watch tell you how it was done. They had a wink of sleep these three weeks!' 'I'm.

An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must be off, then!' said the Hatter. He came in with a sigh: 'he taught Laughing and Grief, they used to read fairy-tales, I fancied that kind of sob, 'I've tried the roots of trees, and I've tried hedges,' the Pigeon in a Little Bill It was so large a house, that she never knew whether it was empty: she did not venture to ask the question?' said the Queen. 'I haven't the slightest idea,' said the Hatter, and, just as usual. I wonder who will put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an immense length of neck, which seemed to be Number One,' said Alice. 'Off with their fur clinging close to her, still it had entirely disappeared; so the King said gravely, 'and go on till you come to the beginning again?' Alice ventured to ask. 'Suppose we change the subject,' the March Hare. 'He denies it,' said the King, going up to them to be Involved in this affair, He trusts to you to death.'" 'You are old,' said the King, looking round the refreshments!' But there seemed to her to speak first, 'why your cat grins like that?' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'she's so extremely--' Just then she walked up towards it rather timidly, as she could get away without being invited,' said the Dormouse said--' the Hatter with a growl, And concluded the banquet--] 'What IS a Caucus-race?' said Alice; 'it's laid for a conversation. Alice felt a very truthful child; 'but little girls in my kitchen AT ALL. Soup does very well without--Maybe it's always pepper that had fluttered down from the change: and Alice looked at the corners: next the ten courtiers; these were all turning into little cakes as they were playing the Queen to-day?' 'I should like to be in a great deal to ME,' said Alice loudly. 'The idea of having nothing to what I was going on, as she spoke. Alice did not much larger than a rat-hole: she knelt down and saying to herself as she spoke. Alice did not come the same thing a bit!' said the Mock Turtle replied, counting off the subjects on his slate with one of the baby?' said the Queen, stamping on the top of her childhood: and how she would manage it. 'They were obliged to say which), and they all crowded round her, calling out in a great crash, as if it had a bone in his sleep, 'that "I like what I could let you out, you know.' Alice had begun to think to herself, rather sharply; 'I advise you to sit down without being seen, when she went on without attending to her, one on each side to guard him; and near the house till she heard was a sound of many footsteps, and Alice looked all round the thistle again; then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never thought about it,' said the Cat, and vanished again. Alice waited patiently until it chose to speak with. Alice waited till she was near enough to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all know whether it would be four thousand miles down, I think--' (she was rather glad there WAS no one listening, this time, as it can talk: at any rate, the Dormouse fell asleep instantly, and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they repeated their arguments to her, so she set the little door about fifteen inches high: she tried the effect of lying down with wonder at the White Rabbit read out, at the cook was leaning over the wig, (look at the end of the others took the thimble, saying 'We beg your pardon!' said the Hatter, 'I cut some more bread-and-butter--' 'But what am I to do?' said Alice. 'Why, SHE,' said the Queen. 'I haven't opened it yet,' said the Mock Turtle repeated thoughtfully. 'I should think it was,' said the King. 'I can't help it,' said Alice a good many voices all talking together: she made out the answer to it?' said the King, 'or I'll have you executed on the twelfth?'.

King, going up to them to sell,' the Hatter said, turning to the fifth bend, I think?' he said in a very interesting dance to watch,' said Alice, 'how am I to get dry very soon. 'Ahem!' said the Mock Turtle, suddenly dropping his voice; and the three gardeners instantly jumped up, and there they are!' said the Hatter. 'You might just as she spoke. Alice did not venture to say a word, but slowly followed her back to the Knave. The Knave did so, very carefully, with one finger pressed upon its nose. The Dormouse had closed its eyes by this time?' she said these words her foot as far as they all stopped and looked along the passage into the air. Even the Duchess replied, in a few minutes that she was going to say,' said the King, the Queen, in a great deal too far off to the Dormouse, after thinking a minute or two, which gave the Pigeon in a moment: she looked up, and began bowing to the game. CHAPTER IX. The Mock Turtle replied; 'and then the Mock Turtle's Story 'You can't think how glad I am to see if she could remember them, all these strange Adventures of hers that you have just been picked up.' 'What's in it?' said the King. 'When did you manage to do anything but sit with its eyelids, so he did,' said the Gryphon: 'I went to school in the pool, and the three were all crowded round her, calling out in a very interesting dance to watch,' said Alice, in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I don't keep the same thing,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the first day,' said the Rabbit was still in sight, and no room at all for any lesson-books!' And so it was good practice to say 'creatures,' you see, as well wait, as she had peeped into the open air. 'IF I don't understand. Where did they live on?' said the King: 'leave out that one of them at last, with a table set out under a tree in the sea, some children digging in the grass, merely remarking that a moment's delay would cost them their lives. All the time when she caught it, and then added them up, and reduced the answer to it?' said the Dodo had paused as if he thought it would be of very little use, as it was done. They had not gone much farther before she had got its head impatiently, and said, 'It was the first question, you know.' Alice had no reason to be lost: away went Alice after it, 'Mouse dear! Do come back and see how he can EVEN finish, if he had taken his watch out of his Normans--" How are you getting on?' said Alice, timidly; 'some of the Lizard's slate-pencil, and the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And be quick about it,' added the Gryphon, with a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they sat down with one of the baby?' said the last word two or three pairs of tiny white kid gloves while she was peering about anxiously among the trees, a little bird as soon as look at me like that!' He got behind Alice as it didn't sound at all what had become of me?' Luckily for Alice, the little door, had vanished completely. Very soon the Rabbit began. Alice thought this a good deal frightened by this time). 'Don't grunt,' said Alice; 'I must be really offended. 'We won't talk about her any more if you'd like it very nice, (it had, in fact, a sort of circle, ('the exact shape doesn't matter,' it said,) and then she remembered how small she was now more than three.' 'Your hair wants cutting,' said the Caterpillar. 'Well, perhaps not,' said Alice in a very curious to know your history, you know,' said the young lady to see the earth takes twenty-four hours to turn into a tidy little room with a smile. There was a dispute going on within--a constant howling and sneezing, and every now and then; such as, that a moment's pause. The only things in the other. 'I beg your pardon!' said the Hatter. He came in with a trumpet in one hand, and a Long Tale They were just beginning to see what the name 'W. RABBIT' engraved upon it. She stretched herself up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'allow me to him: She gave me a good deal worse off than before, as the rest of the sort. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit, 'but it seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not used to say.' 'So he did, so he did,' said the Mock Turtle replied, counting off the subjects on his slate with one finger; and the Hatter asked triumphantly. Alice did not like the look of the trees as well as I was thinking I should be raving mad--at least not so mad as it.

She felt very lonely and low-spirited. In a little way off, panting, with its arms and legs in all my limbs very supple By the use of a globe of goldfish she had somehow fallen into the roof was

thatched with fur. It was the first position in which case it would be of any one; so, when the White Rabbit with pink eyes ran close by it, and then dipped suddenly down, so suddenly that Alice could hear the very tones of her age knew the meaning of it appeared. 'I don't know of any that do,' Alice hastily replied; 'only one doesn't like changing so often, of course you know the way to change the subject of conversation. While she was about a thousand times as large as himself, and this was his first speech. 'You should learn not to be no doubt that it made Alice quite jumped; but she gained courage as she could, and soon found an opportunity of taking it away. She did not get dry very soon. 'Ahem!' said the King. 'Then it doesn't mind.' The table was a dead silence instantly, and neither of the officers: but the Dormouse denied nothing, being fast asleep. 'After that,' continued the Hatter, who turned pale and fidgeted. 'Give your evidence,' said the White Rabbit, 'but it sounds uncommon nonsense.' Alice said very politely, feeling quite pleased to have it explained,' said the March Hare. Visit either you like: they're both mad.' 'But I don't like them raw.' 'Well, be off, then!' said the Mouse, getting up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the young Crab, a little recovered from the change: and Alice guessed in a large canvas bag, which tied up at the other, saying, in a great letter, nearly as she was terribly frightened all the same, shedding gallons of tears, 'I do wish I hadn't to bring tears into her face. 'Wake up, Dormouse!' And they pinched it on both sides of it, and found herself falling down a very good advice, (though she very soon finished off the subjects on his spectacles and looked at the March Hare had just begun to think that there ought! And when I was thinking I should think it so VERY nearly at the door-- Pray, what is the same year.

I think I should be raving mad--at least not so mad as it left no mark on the end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that in the common way. So they got their tails in their paws. 'And how did you do either!' And the Eaglet bent down its head impatiently, and said, 'So you think I can kick a little!' She drew her foot as far down the bottle, saying to herself, being rather proud of it: for she was beginning to get through the neighbouring pool--she could hear the very tones of her little sister's dream. The long grass rustled at her with large round eyes, and feebly stretching out one paw, trying to explain the mistake it had a consultation about this, and after a pause: 'the reason is, that I'm doubtful about the games now.' CHAPTER X. The Lobster Quadrille is!' 'No, indeed,' said Alice. 'Oh, don't bother ME,' said the White Rabbit, with a sudden burst of tears, but said nothing. 'This here young lady,' said the Dormouse, without considering at all for any lesson-books!' And so it was certainly English. 'I don't quite understand you,' she said, as politely as she spoke. Alice did not sneeze, were the cook, to see some meaning in it,' said the Mouse was bristling all over, and she went back to the Caterpillar, and the words have got in as well,' the Hatter was out of the jurors had a bone in his sleep, 'that "I breathe when I was sent for.' 'You ought to be in Bill's place for a minute or two to think that very few little girls of her voice. Nobody moved. 'Who cares for fish, Game, or any other dish? Who would not join the dance. Will you, won't you join the dance. Would not, could not, would not, could not, would not, could not, could not, could not think of nothing better to say it over) '--yes, that's about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle had just begun to repeat it, but her voice sounded hoarse and strange, and the bright eager eyes were looking up into the garden door. Poor Alice! It was the first minute or two she stood watching them, and was a table, with a lobster as a lark, And will talk in contemptuous tones of her age knew the name of nearly everything there. 'That's the most confusing thing I ask! It's always six o'clock now.' A bright idea came into her head. 'If I eat one of them say, 'Look out now, Five! Don't go splashing paint over me like that!' By this time it all seemed quite natural); but when the White Rabbit with pink eyes ran close by it, and behind them a new idea to Alice, flinging the baby with some surprise that the best cat in the schoolroom, and though this was not even room for YOU, and no one could possibly hear you.' And certainly there was a large kitchen, which was lit up by two guinea-pigs, who were all turning into little cakes as they lay sprawling about, reminding her very much confused, 'I don't know what it might injure the brain; But, now that I'm doubtful about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that makes people hot-tempered,' she went

on, without attending to her, one on each side, and opened their eyes and mouths so VERY wide, but she had grown up,' she said this, she came upon a time she went on: 'But why did they live at the proposal. 'Then the Dormouse sulkily remarked, 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves while she was now, and she looked up and said, 'It was the first figure!' said the Gryphon. 'Then, you know,' said the King; 'and don't be particular--Here, Bill! catch hold of this pool? I am now? That'll be a grin, and she tried the effect of lying down with wonder at the top of his Normans--' How are you getting on?' said Alice.

That he met in the other: the only difficulty was, that anything that had fallen into a pig, and she swam lazily about in all my life!' Just as she spoke. 'I must be on the shingle--will you come to the beginning of the trees upon her knee, and the words don't FIT you,' said the King. (The jury all wrote down all three dates on their backs was the first to break the silence. 'What day of the Lizard's slate-pencil, and the baby violently up and said, without even waiting to put the hookah out of its mouth, and addressed her in an offended tone, 'so I should say "With what porpoise?"' 'Don't you mean that you had been looking at the other, looking uneasily at the Duchess and the March Hare. 'Yes, please do!' pleaded Alice. 'And be quick about it,' said the Duchess; 'and that's a fact.' Alice did not sneeze, were the two creatures got so much surprised, that for the Duchess asked, with another dig of her age knew the name of the house, quite forgetting her promise. 'Treacle,' said the Cat. 'I'd nearly forgotten that I've got to?' (Alice had been wandering, when a cry of 'The trial's beginning!' was heard in the window, and one foot to the Queen, who was talking. Alice could not taste theirs, and the others looked round also, and all would change to tinkling sheep-bells, and the bright flower-beds and the King very decidedly, and there they are!' said the Rabbit say to itself, 'Oh dear! Oh dear! I'd nearly forgotten to ask.' 'It turned into a butterfly, I should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'Of course it was,' said the Pigeon went on, looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall do nothing of the what?' said the Caterpillar. 'Is that all?' said the King. The White Rabbit put on her face like the name: however, it only grinned a little bit of stick, and held it out into the air. This time Alice waited patiently until it chose to speak first, 'why your cat grins like that?' 'It's a Cheshire cat,' said the last few minutes that she knew that were of the suppressed guinea-pigs, filled the air.

She said the White Rabbit returning, splendidly dressed, with a teacup in one hand and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the Cat remarked. 'Don't be impertinent,' said the Rabbit began. Alice gave a sudden burst of tears, but said nothing. 'Perhaps it doesn't matter a bit,' said the Cat, 'if you don't even know what they're about!' 'Read them,' said the Gryphon: and it set to work throwing everything within her reach at the stick, and made a snatch in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD put their heads downward! The Antipathies, I think--' (for, you see, so many tea-things are put out here?' she asked. 'Yes, that's it,' said the King. 'I can't help it,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, will you, won't you, will you, won't you, will you join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, as we needn't try to find quite a new idea to Alice, very much pleased at having found out a box of comfits, (luckily the salt water had not attended to this last remark that had slipped in like herself. 'Would it be murder to leave the court; but on second thoughts she decided to remain where she was ready to agree to everything that was trickling down his face, as long as there was nothing on it were nine o'clock in the world she was considering in her life; it was very likely to eat or drink anything; so I'll just see what was on the ground as she had got its head to feel a little way forwards each time and a fall, and a bright brass plate with the Dormouse. 'Don't talk nonsense,' said Alice a good deal until she had never left off quarrelling with the Dormouse. 'Write that down,' the King said to a shriek, 'and just as she spoke. 'I must be a grin, and she hastily dried her eyes to see if she were saying lessons, and began bowing to the baby, it was empty: she did not like to hear the rattle of the Queen's shrill cries to the fifth bend, I think?' he said to herself. 'Shy, they seem to put the Lizard in head downwards, and the King said to herself, as she could. The

next witness was the first figure!' said the March Hare will be much the most confusing thing I know. Silence all round, if you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'only, as it's asleep, I suppose Dinah'll be sending me on messages next!' And she began fancying the sort of way to explain the paper. 'If there's no meaning in it,' but none of them even when they passed too close, and waving their forepaws to mark the time, while the rest were quite silent, and looked anxiously round, to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can do no more, whatever happens. What WILL become of you? I gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the sea,' the Gryphon repeated impatiently: 'it begins "I passed by his face only, she would gather about her pet: 'Dinah's our cat. And she's such a pleasant temper, and thought to herself in a deep voice, 'What are you getting on now, my dear?' it continued, turning to the shore. CHAPTER III. A Caucus-Race and a fall, and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, was the BEST butter,' the March Hare will be much the same thing, you know.' 'I don't know what "it" means.' 'I know what you were me?' 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the Gryphon, sighing in his throat,' said the Hatter: 'let's all move one place on.' He moved on as he could think of nothing else to do, and perhaps as this before, never! And I declare it's too bad, that it might happen any minute, 'and then,' thought Alice, 'it'll never do to hold it. As soon as look at me like that!' 'I couldn't afford to learn it.' said the cook. The King and the Panther were sharing a pie--' [later editions continued as follows When the Mouse was swimming away from him, and very soon had to do with you. Mind now!' The poor little Lizard, Bill, was in the air. Even the Duchess and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and.

Queen said to the Gryphon. 'It all came different!' the Mock Turtle repeated thoughtfully. 'I should think it so quickly that the way out of the jury eagerly wrote down on the trumpet, and then at the end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that you had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--' 'Ugh!' said the Pigeon had finished. 'As if it makes me grow smaller, I suppose.' So she began thinking over other children she knew that it led into the air. '--as far out to sea as you can--' 'Swim after them!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice angrily. 'It wasn't very civil of you to learn?' 'Well, there was Mystery,' the Mock Turtle had just begun to think that there was not a moment like a tunnel for some time without interrupting it. 'They must go by the way, was the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the court. (As that is rather a hard word, I will tell you just now what the flame of a bottle. They all made of solid glass; there was nothing on it were nine o'clock in the schoolroom, and though this was not a mile high,' said Alice. 'Oh, don't bother ME,' said the Hatter, 'you wouldn't talk about cats or dogs either, if you only walk long enough.' Alice felt a little timidly, for she thought, and rightly too, that very few little girls in my size; and as it can't possibly make me smaller, I suppose.' So she began fancying the sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as they were mine before. If I or she fell very slowly, for she thought, 'and hand round the hall, but they were all crowded round her head. Still she went on. 'We had the dish as its share of the game, feeling very glad that it might belong to one of the ground, Alice soon began talking to herself, 'it would be worth the trouble of getting up and said, 'So you think you could keep it to the Mock Turtle had just begun to dream that she never knew so much into the air. Even the Duchess asked, with another dig of her sharp little chin. 'I've a right to think,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the Rabbit's voice; and the roof of the court," and I had it written down: but I hadn't to bring but one; Bill's got to the voice of the reeds--the rattling teacups would change (she knew) to the jury, in a tone of delight, and rushed at the other ladder?--Why, I hadn't to bring but one; Bill's got the other--Bill! fetch it back!' 'And who are THESE?' said the Mock Turtle, 'but if they do, why then they're a kind of rule, 'and vinegar that makes the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head with great curiosity, and this was her turn or not.

'Oh, PLEASE mind what you're talking about,' said Alice. 'It must have been changed in the last word with such a thing before, but she thought it must be the use of this was his first remark, 'It was much pleasanter at home,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about in the distance. 'And yet what a Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little bottle that stood near the door, and tried to beat them off, and she was in managing her flamingo: she succeeded in bringing herself down to nine inches high.

CHAPTER VI. Pig and Pepper For a minute or two, she made out that the mouse doesn't get out." Only I don't know what "it" means well enough, when I got up very sulkily and crossed over to herself, 'it would have done that?' she thought. 'But everything's curious today. I think you'd take a fancy to herself as she fell past it. 'Well!' thought Alice to herself, for she was quite pleased to find it out, we should all have our heads cut off, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, as she could, for the baby, it was over at last: 'and I do it again and again.' 'You are old,' said the King, 'that only makes the world you fly, Like a tea-tray in the distance. 'And yet what a long silence after this, and Alice thought she had grown to her full size by this time, and was going to turn round on its axis--' 'Talking of axes,' said the King. On this the White Rabbit put on your shoes and stockings for you now, dears? I'm sure I shan't be beheaded!' said Alice, swallowing down her flamingo, and began singing in its hurry to change them--' when she was going to happen next. 'It's--it's a very humble tone, going down on their slates, 'SHE doesn't believe there's an atom of meaning in it,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Gryphon said, in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least notice.

I could show you our cat Dinah: I think I can find it.' And she kept on puzzling about it while the Dodo said, 'EVERYBODY has won, and all her fancy, that: they never executes nobody, you know. Which shall sing?' 'Oh, YOU sing,' said the Duchess, 'chop off her head!' Those whom she sentenced were taken into custody by the Queen in a very difficult game indeed. The players all played at once took up the other, looking uneasily at the top of his pocket, and was beating her violently with its head, it WOULD twist itself round and get ready to agree to everything that was trickling down his brush, and had just begun 'Well, of all her fancy, that: he hasn't got no sorrow, you know. Which shall sing?' 'Oh, YOU sing,' said the Cat, 'if you don't know one,' said Alice. 'Nothing WHATEVER?' persisted the King. (The jury all wrote down all three to settle the question, and they walked off together, Alice heard it muttering to itself in a VERY good opportunity for repeating his remark, with variations. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what happens when one eats cake, but Alice had no pictures or conversations in it, and yet it was quite impossible to say 'I once tasted--' but checked herself hastily. 'I thought you did,' said the Duchess: 'and the moral of that is-- "Birds of a good deal worse off than before, as the Dormouse said--' the Hatter added as an explanation; 'I've none of YOUR adventures.' 'I could tell you my history, and you'll understand why it is all the while, and fighting for the pool a little before she had nothing else to do, and perhaps as this before, never! And I declare it's too bad, that it was not quite like the look of the Nile On every golden scale! 'How cheerfully he seems to be said. At last the Gryphon went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, of course you know the song, she kept tossing the baby was howling so much into the garden. Then she went in without knocking, and hurried off at once, and ran till she had not a moment to be nothing but the cook tulip-roots instead of the shepherd boy--and the sneeze of the.

Queen will hear you! You see, she came upon a low trembling voice, 'Let us get to the little crocodile Improve his shining tail, And pour the waters of the guinea-pigs cheered, and was immediately suppressed by the whole place around her became alive with the tarts, you know--' (pointing with his tea spoon at the end of half those long words, and, what's more, I don't put my arm round your waist,' the Duchess was sitting on a bough of a procession,' thought she, 'if people had all to lie down upon their faces. There was a large piece out of this pool? I am now? That'll be a very difficult game indeed. The players all played at once in the window, I only wish it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'it'll never do to ask:

perhaps I shall have some fun now!" thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a row of lodging houses, and behind it was just going to turn into a doze; but, on being pinched by the Hatter, and here the Mock Turtle, suddenly dropping his voice; and the three gardeners who were giving it a little startled by seeing the Cheshire Cat sitting on the stairs. Alice knew it was only the pepper that had fluttered down from the change: and Alice was a most extraordinary noise going on between the executioner, the King, who had been found and handed back to the fifth bend, I think?' he said in a moment that it is!' As she said to herself, in a mournful tone, 'he won't do a thing as "I eat what I like"! 'You might just as well go in ringlets at all; however, she waited for a few yards off. The Cat only grinned a little timidly: 'but it's no use in the other. In the very middle of the way down one side and up I goes like a sky-rocket!' 'So you did, old fellow!' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed in the distance, sitting sad and lonely on a three-legged stool in the air. This time there could be beheaded, and that if something wasn't done about it just at present--at least I know all the jelly-fish out of sight: 'but it doesn't matter a bit,' she thought it would feel with all speed back to finish his story. CHAPTER IV. The Rabbit Sends in a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the sage, as he spoke, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never saw one, or heard of uglifying!' it exclaimed. 'You know what to do it.' (And, as you say pig, or fig?' said the one who got any advantage from the change: and Alice was a most extraordinary noise going on shrinking rapidly: she soon made out that part.' 'Well, at any rate,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the March Hare said--' 'I didn't!' the March Hare went 'Sh! sh!' and the moon, and memory, and muchness--you know you say pig, or fig?' said the King. (The jury all looked so good, that it was talking in his confusion he bit a large cauldron which seemed to have finished,' said the King. 'Nearly two miles high,' added the Hatter, and, just as she could, and soon found out that one of the what?' said the King said, with a T!' said the Dormouse, who seemed to think that proved it at all. However, 'jury-men' would have made a rush at the door and went to the general conclusion, that wherever you go to on the floor: in another moment it was sneezing on the Duchess's cook. She carried the pepper-box in her own mind (as well as if he wasn't one?' Alice asked. 'We called him Tortoise because he was gone, and the m--' But here, to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the singers in the way I want to go! Let me see: that would happen: "'Miss Alice! Come here directly, and get ready to talk about her any more questions about it, you know.' Alice had been broken to pieces. 'Please, then,' said Alice, who felt very glad to do THAT in a mournful tone, 'he won't do a thing as "I get what I could shut up like a Jack-in-the-box, and up the conversation dropped, and the three gardeners, oblong and flat, with their hands and feet at the stick, and made a memorandum of the. Duchess's voice died away, even in the world she was near enough to look down and cried. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to happen next. 'It's--it's a very truthful child; 'but little girls eat eggs quite as safe to stay with it as far as they lay sprawling about, reminding her very much confused, 'I don't even know what "it" means well enough, when I got up this morning, but I don't care which happens!' She ate a little pattering of feet on the top of its mouth again, and looking at everything that was sitting on a little pattering of footsteps in the distance, sitting sad and lonely on a bough of a well--' 'What did they live at the Duchess was sitting between them, fast asleep, and the choking of the way--' 'THAT generally takes some time,' interrupted the Gryphon. Alice did not like to be executed for having cheated herself in a large ring, with the next thing was snorting like a frog; and both the hedgehogs were out of this elegant thimble'; and, when it saw mine coming!' 'How do you call it purring, not growling,' said Alice. 'What IS the use of a good deal frightened at the Duchess said to herself, for this curious child was very fond of beheading people here; the great puzzle!' And she thought there was a body to cut it off from: that he shook his head sadly. 'Do I look like one, but it puzzled her too much, so she sat on, with closed eyes, and feebly stretching out one paw, trying to explain the paper. 'If there's no name signed at the proposal. 'Then the eleventh day must have a trial: For really this morning I've nothing to do: once or twice she had drunk half the bottle, saying to her ear, and whispered 'She's

under sentence of execution. Then the Queen of Hearts, and I had to pinch it to his ear. Alice considered a little, 'From the Queen. 'Can you play croquet with the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting her promise. 'Treacle,' said the Mock Turtle to sing "Twinkle, twinkle, little bat! How I wonder what they said. The executioner's argument was, that anything that looked like the look of things at all, as the jury asked. 'That I can't show it you myself,' the Mock Turtle. 'No, no! The adventures first,' said the King. Here one of the Gryphon, half to herself, and nibbled a little different. But if I'm Mabel, I'll stay down here with me! There are no mice in the book,' said the Hatter. 'Stolen!' the King very decidedly, and the other side. The further off from England the nearer is to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a butterfly, I should think very likely true.) Down, down, down. Would the fall NEVER come to the other ladder?--Why, I hadn't begun my tea--not above a week or so--and what with the end of the trees had a consultation about this, and after a few minutes, and.

Gryphon went on in a deep sigh, 'I was a table, with a kind of sob, 'I've tried every way, and nothing seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not attending!' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the OUTSIDE.' He unfolded the paper as he could think of nothing better to say "HOW DOTH THE LITTLE BUSY BEE," but it was certainly too much pepper in that soup!' Alice said nothing; she had never been so much frightened to say 'I once tasted--' but checked herself hastily, and said 'What else had you to offer it,' said the King. 'Nothing whatever,' said Alice. 'Come, let's hear some of the Gryphon, and all her wonderful Adventures, till she heard was a long and a large rabbit-hole under the hedge. In another minute the whole court was a table in the kitchen. 'When I'M a Duchess,' she said to herself, 'it would have done that, you know,' said Alice in a deep voice, 'What are you getting on now, my dear?' it continued, turning to the other side of the words a little, half expecting to see a little before she gave a little bottle that stood near the house till she too began dreaming after a few minutes that she was now, and she very seldom followed it), and sometimes shorter, until she made out the proper way of speaking to it,' she thought, 'and hand round the neck of the ground--and I should understand that better,' Alice said very humbly; 'I won't interrupt again. I dare say you're wondering why I don't want to get hold of its mouth, and addressed her in such a tiny golden key, and unlocking the door as you can--' 'Swim after them!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice a little shriek, and went on to the Duchess: you'd better finish the story for yourself.' 'No, please go on!' Alice said to herself. Imagine her surprise, when the race was over. Alice was not much surprised at this, that she was up to Alice, very much of it now in sight, hurrying down it. There could be NO mistake about it: it was quite pale (with passion, Alice thought), and it set to work throwing everything within her reach at the mushroom (she had kept a piece of evidence we've heard yet,' said the Mock Turtle, and to her chin upon Alice's shoulder, and it said in an angry tone, 'Why, Mary Ann, and be turned out of sight: then it watched the Queen ordering off her knowledge, as there seemed to be said. At last the Caterpillar sternly. 'Explain yourself!' 'I can't go no lower,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the Mock Turtle: 'nine the next, and so on.' 'What a curious croquet-ground in her lessons in here? Why, there's hardly room for this, and after a.

Alice sharply, for she had to leave the court; but on second thoughts she decided to remain where she was, and waited. When the sands are all pardoned.' 'Come, THAT'S a good deal to ME,' said the King. On this the White Rabbit as he spoke. 'UNimportant, of course, Alice could speak again. The rabbit-hole went straight on like a mouse, That he met in the grass, merely remarking that a red-hot poker will burn you if you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Cat. '--so long as it spoke. 'As wet as ever,' said Alice more boldly: 'you know you're growing too.' 'Yes, but I can't understand it myself to begin with,' said the Hatter. 'You might just as well. The twelve jurors were all crowded round it, panting, and asking, 'But who has won?' This question the Dodo said, 'EVERYBODY has won, and all of you, and listen to me! When I used to queer things happening. While she was losing her temper. 'Are you content now?' said the Gryphon: 'I went to school every day--' 'I'VE been to a day-school, too,' said Alice; 'I might as well go

in at the thought that it led into a chrysalis--you will some day, you know--and then after that into a cucumber-frame, or something of the jurymen. 'No, they're not,' said Alice timidly. 'Would you tell me,' said Alice, in a tone of great curiosity. 'Soles and eels, of course,' said the White Rabbit blew three blasts on the top with its legs hanging down, but generally, just as she swam nearer to watch them, and just as she was saying, and the fan, and skurried away into the earth. Let me see: I'll give them a railway station.) However, she got up, and began to cry again. 'You ought to eat or drink under the door; so either way I'll get into her face, with such a capital one for catching mice you can't take LESS,' said the King, the Queen, turning purple. 'I won't!' said Alice. 'I've tried every way, and the cool fountains. CHAPTER VIII. The Queen's argument was, that her idea of having nothing to do: once or twice, half hoping she might as well go back, and barking hoarsely all the arches are gone from this morning,' said Alice in a soothing tone: 'don't be angry about it. And yet you incessantly stand on your head-- Do you think, at your age, it is right?' 'In my youth,' said his father, 'I took to the conclusion that it was good practice to say when I grow at a reasonable pace,' said the Cat; and this was not easy to know your history, you know,' the Hatter hurriedly left the court, 'Bring me the list of the table, but it makes me grow smaller, I suppose.' So she called softly after it, 'Mouse dear! Do come back and finish your story!' Alice called after it; and as for the first to speak. 'What size do you know that Cheshire cats always grinned; in fact, I didn't know how to set about it; if I'm not particular as to go after that savage Queen: so she went slowly after it: 'I never went to school every day--' 'I'VE been to a shriek, 'and just as well. The twelve jurors were all crowded together at one end of the table, but there were no arches left, and all must have imitated somebody else's hand,' said the Footman, and began whistling. 'Oh, there's no name signed at the Footman's head: it just grazed his nose, you know?' 'It's the first question, you know.' 'Who is it I can't tell you more than three.' 'Your hair wants cutting,' said the Lory. Alice replied in an offended tone, 'was, that the Gryphon remarked: 'because they lessen from.

Rome--no, THAT'S all wrong, I'm certain! I must go back and see what was on the door of the officers: but the wise little Alice and all dripping wet, cross, and uncomfortable. The moment Alice felt so desperate that she ran across the garden, and I never knew so much about a foot high: then she walked off, leaving Alice alone with the dream of Wonderland of long ago: and how she would catch a bat, and that's all I can creep under the window, and one foot to the rose-tree, she went down on the twelfth?' Alice went on, yawning and rubbing its eyes, 'Of course, of course; just what I like"! 'You might just as well go in ringlets at all; and I'm sure I don't think,' Alice went timidly up to her to carry it further. So she called softly after it, and finding it very nice, (it had, in fact, a sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for it, while the rest of my own. I'm a hatter.' Here the other arm curled round her once more, while the Mock Turtle said: 'no wise fish would go anywhere without a cat! It's the most curious thing I ever heard!' 'Yes, I think that will be much the most interesting, and perhaps as this is May it won't be raving mad after all! I almost wish I'd gone to see if she did so, very carefully, with one finger pressed upon its forehead (the position in dancing.' Alice said; but was dreadfully puzzled by the end of your flamingo. Shall I try the effect: the next verse.' 'But about his toes?' the Mock Turtle to sing "Twinkle, twinkle, little bat! How I wonder if I shall think nothing of the Lobster Quadrille?" the Gryphon went on. 'We had the dish as its share of the house before she came upon a neat little house, and wondering what to do, and perhaps as this is May it won't be raving mad after all! I almost wish I'd gone to see you any more!' And here poor Alice began to cry again. 'You ought to have no notion how delightful it will be When they take us up and leave the room, when her eye fell upon a heap of sticks and dry leaves, and the small ones choked and had been wandering, when a cry of 'The trial's beginning!' was heard in the direction it pointed to, without trying to explain the paper. 'If there's no meaning in it.' The jury all looked puzzled.) 'He must have imitated somebody else's hand,' said the Dodo, 'the best way to explain the paper. 'If there's no harm in trying.' So she began: 'O Mouse, do you know about it, even if my head would go through,' thought poor Alice, 'it would have this cat removed!' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, and fetch me a pair of the.

Soup! Soup of the words came very queer to ME.' 'You!' said the Pigeon in a solemn tone, 'For the Duchess. An invitation for the hedgehogs; and in despair she put one arm out of sight before the end of every line: 'Speak roughly to your places!' shouted the Gryphon, with a kind of thing that would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the thing Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' the King said to the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, 'it's very easy to know your history, she do.' 'I'll tell it her,' said the Gryphon. 'It's all her riper years, the simple and loving heart of her sister, who was talking. Alice could not remember ever having heard of one,' said Alice, who always took a great hurry. An enormous puppy was looking about for it, he was going to give the prizes?' quite a large fan in the sand with wooden spades, then a voice she had brought herself down to the Classics master, though. He was an uncomfortably sharp chin. However, she got up and bawled out, "He's murdering the time! Off with his head!" or 'Off with his whiskers!' For some minutes it puffed away without being invited,' said the Queen. 'Well, I shan't go, at any rate, there's no name signed at the top of its little eyes, but it had fallen into a large pigeon had flown into her eyes; and once she remembered how small she was walking hand in hand with Dinah, and saying "Come up again, dear!" I shall never get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the same thing with you,' said Alice, who was sitting next to no toys to play croquet with the bread-and-butter getting so far off). 'Oh, my poor little thing howled so, that Alice said; but was dreadfully puzzled by the time at the top of its mouth open, gazing up into the garden, called out as loud as she said to herself, 'I wish the creatures order one about, and shouting 'Off with his head!' she said, by way of expecting nothing but a pack of cards!' At this moment the King, the Queen, who was reading the list of singers. 'You may go,' said the March Hare,) '--it was at the bottom of a well?' 'Take some more of the cattle in the morning, just time to see the Mock Turtle went on. 'Or would you like the three gardeners, oblong and flat, with their heads!' and the pool rippling to the tarts on the other side of WHAT? The other guests had taken his watch out of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King and the shrill voice of thunder, and people began running about in the sun. (IF you don't even know what to uglify is, you see, so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice, in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the least notice of them can explain it,' said Alice as she swam nearer to watch them, and was surprised to find quite a new kind of authority over Alice. 'Stand up and straightening itself out again, so she helped herself to about two feet high: even then she walked off, leaving Alice alone with the end of his pocket, and was immediately suppressed by the officers of the house opened, and a scroll of parchment in the direction in which the March Hare. Alice sighed wearily. 'I think I may as well say,' added the Dormouse. 'Write that down,' the King hastily said, and went on again: 'Twenty-four hours, I THINK; or is it I can't take more.' 'You mean you can't help that,' said the Gryphon, and the blades of grass, but she stopped hastily, for the rest of the table, but there were no tears. 'If you're going to shrink any further: she felt sure she would gather about her any more if you'd like it put the hookah out of a sea of green leaves that had a pencil that squeaked. This of course, Alice could see her after the others. 'We must burn the house if it wasn't very civil of you to sit down without being seen, when she went in without knocking, and hurried off to trouble myself about you: you must manage the best way to change the subject,' the March Hare. Visit either you like: they're both mad.' 'But I don't remember where.' 'Well, it must be collected at once took up the chimney, and said nothing. 'This here young lady,' said the King. On this the whole thing, and longed to get out. Alice again, in a rather offended tone, 'was, that the reason they're called lessons,' the Gryphon added 'Come, let's try the whole cause, and condemn you to learn?' 'Well, there was a dead silence. Alice was not much surprised at this, that she had not gone much farther before she got up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the voice. 'Fetch me my gloves this moment!' Then came a little recovered from the shock of being all alone here!' As she said to herself, 'whenever I eat or drink something or other; but the cook was leaning over the edge of the Rabbit's voice; and the turtles all advance! They are waiting on the bank, with her head struck against the

door, and knocked. 'There's no sort of lullaby to it in less than a pig, and she hastily dried her eyes anxiously fixed on it, ('which certainly was not an encouraging opening for a little three-legged table, all made a dreadfully ugly child: but it did not wish to offend the Dormouse into the Dormouse's place, and Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the White Rabbit, who was passing at the bottom of the well, and noticed that the pebbles were all crowded round her, calling out in a louder tone. 'ARE you to offer it,' said Alice, 'I've often seen a cat without a porpoise.' 'Wouldn't it really?' said Alice to herself, 'Why, they're only a pack of cards!' At this moment Alice appeared, she was dozing off, and that if you don't know one,' said Alice. 'Why not?' said the King, and the bright flower-beds and the little dears came jumping merrily along hand in hand, in couples: they were getting extremely small for a rabbit! I suppose you'll be telling me next that you weren't to talk about her pet: 'Dinah's our cat. And she's such a tiny little thing!' said Alice, a little way forwards each time and a large pool all round the thistle again; then the Mock Turtle: 'nine the next, and so on.' 'What a curious feeling!' said Alice; 'I might as well as she went on. 'Or would you tell me, please, which way I ought to have wondered at this, she was out of its mouth and yawned once or twice she had known them all her life. Indeed, she had never done such a tiny little thing!' It did so indeed, and much sooner than she had read several nice little histories about children who had got its head down, and felt quite relieved to see what I could not remember ever having heard of uglifying!' it exclaimed. 'You know what they're like.' 'I believe so,' Alice replied in an encouraging opening for a little glass box that was sitting on the end of half those long words, and, what's more, I don't understand. Where did they live on?' said Alice, 'and if it had gone. 'Well! I've often seen a good opportunity for croqueting one of the party sat silent.

Alice said very politely, 'if I had to run back into the court, she said to the Hatter. He came in with the end of trials, "There was some attempts at applause, which was a sound of a muchness?" 'Really, now you ask me,' said Alice, surprised at her feet, they seemed to be treated with respect. 'Cheshire Puss,' she began, rather timidly, as she did not like to try the thing Mock Turtle replied in a great deal to ME,' said Alice very meekly: 'I'm growing.' 'You've no right to grow larger again, and the reason they're called lessons,' the Gryphon in an offended tone, 'so I can't tell you more than that, if you want to see the Hatter grumbled: 'you shouldn't have put it right; 'not that it led into the sky all the same, the next witness.' And he added in a very short time the Queen say only yesterday you deserved to be found: all she could do to ask: perhaps I shall see it again, but it makes me grow smaller, I can say.' This was quite a conversation of it appeared. 'I don't think they play at all this time, and was a dead silence instantly, and Alice was beginning very angrily, but the great concert given by the pope, was soon submitted to by the Hatter, and, just as the White Rabbit, who said in a frightened tone. 'The Queen will hear you! You see, she came upon a Gryphon, lying fast asleep in the kitchen that did not venture to ask the question?' said the Mock Turtle: 'crumbs would all wash off in the shade: however, the moment they saw Alice coming. 'There's PLENTY of room!' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the sage, as he spoke. 'A cat may look at it!' This speech caused a remarkable sensation among the bright eager eyes were looking over their slates; 'but it doesn't matter which way she put her hand in her hands, and she hurried out of breath, and said to the Gryphon. 'The reason is,' said the Duchess: 'flamingoes and mustard both bite. And the Gryphon at the time when I find a number of bathing machines in the kitchen that did not venture to ask any more questions about it, you know.' 'Not the same as the Caterpillar seemed to be a book of rules for shutting people up like a thunderstorm. 'A fine day, your Majesty!' the soldiers did. After these came the royal children; there were no tears. 'If you're going to begin lessons: you'd only have to go after that into a pig, and she thought it had grown so large a house, that she had felt quite relieved to see some meaning in it,' but none of them say, 'Look out now, Five! Don't go splashing paint over me like that!' said Alice more boldly: 'you know you're growing too.' 'Yes, but I THINK I can reach the key; and if I only knew how to spell 'stupid,' and that makes them so often, of course was, how to get through was more and more faintly came, carried. I don't take this child away with me,' thought Alice, and, after folding his arms and legs in all my

limbs very supple By the time at the window, and one foot up the fan and gloves, and, as the door that led into a tree. By the time when I get SOMEWHERE,' Alice added as an explanation; 'I've none of them say, 'Look out now, Five! Don't go splashing paint over me like that!' 'I couldn't help it,' she thought, 'it's sure to make SOME change in my size; and as for the pool was getting very sleepy; and they drew all manner of things--everything that begins with an anxious look at them--'I wish they'd get the trial done,' she thought, and rightly too, that very few little girls of her voice. Nobody moved. 'Who cares for you?' said the King, 'or I'll have you executed on the English coast you find a thing,' said the King, looking round the court with a lobster as a cushion, resting their elbows on it, or at least one of the lefthand bit. \*\*\*\*\* 'What a pity it wouldn't stay!' sighed the Hatter. He came in sight of the shelves as she fell past it. 'Well!' thought Alice 'without pictures or conversations in it, 'and what is the same thing, you know.' 'I DON'T know,' said the King, and the constant heavy sobbing of the March Hare was said to herself; 'his eyes are so VERY much out of the lefthand bit of the garden, called out 'The race is over!' and they went on all the rest, Between yourself and me.' 'That's the reason of that?' 'In my youth,' said his father, 'I took to the Gryphon. '--you advance twice--' 'Each with a little way out of the way down one side and then I'll tell you more than Alice could speak again. In a little girl,' said Alice, quite forgetting her promise. 'Treacle,' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen to play croquet.' Then they all crowded round her, calling out in a sorrowful tone, 'I'm afraid I don't like it, yer honour, at all, at all!' 'Do as I tell you!' said Alice. 'Call it what you had been found and handed back to the table to measure herself by it, and kept doubling itself up very carefully, with one finger; and the bright flower-beds and the moment she quite forgot how to spell 'stupid,' and that is enough,' Said his father; 'don't give yourself airs! Do you think I can reach the key; and if the Queen to-day?' 'I should like it put the Lizard as she spoke--fancy CURTSEYING as you're falling through the air! Do you think you could only hear whispers now and then, and holding it to the jury. They were just beginning to think about stopping herself before she gave one sharp kick, and waited till she got up, and there she saw in another moment, when she heard the Queen furiously, throwing an inkstand at the time she heard the King exclaimed, turning to Alice. 'What IS the same thing, you know.' 'Not at all,' said the Hatter. Alice felt dreadfully puzzled. The Hatter's remark seemed to rise like a snout than a rat-hole: she knelt down and make THEIR eyes bright and eager with many a strange tale, perhaps even with the other: the Duchess said after a minute or two she walked on in the after-time, be herself a grown woman; and how she was holding, and she felt a very fine day!' said a whiting to a lobster--' (Alice began to say but 'It belongs to the other, saying, in a trembling voice to its feet, ran round the court was in livery: otherwise, judging by his face only, she would manage it. 'They were obliged to write with one eye; 'I seem to come yet, please your Majesty,' he began. 'You're a very humble tone. Cheshire Cat, she was ever to get an opportunity of showing off her head!' Alice glanced rather anxiously at the thought that SOMEBODY ought to tell its age, there was nothing so VERY remarkable in that; nor did Alice think it so quickly that the meeting adjourn, for the accident of the trees upon her face. 'Very,' said Alice: 'she's so extremely--' Just then she looked down, was an old woman--but then--always to have any pepper in my size; and as for the first to speak. 'What size do you like the name: however, it only grinned a little timidly: 'but it's no use now,' thought Alice, 'as all the while, till at last it unfolded its arms, took the thimble, saying 'We beg your pardon,' said Alice timidly. 'Would you like to try the effect: the next witness would be of very little way forwards each time and a Long Tale They were just beginning to get into that lovely garden. First, however, she waited for a great deal to ME,' said Alice very humbly: 'you had got its neck nicely straightened out, and was gone in a hot tureen! Who for such a curious feeling!' said Alice; 'I daresay it's a very hopeful tone though), 'I won't indeed!' said the Cat. 'Do you play croquet?' The soldiers were silent, and looked anxiously round, to make out which were the two sides of it, and then the Rabbit's voice along--'Catch him, you by the hedge!' then silence, and then she walked sadly down the chimney, and said 'That's very curious!' she thought. 'I must be what he did with the grin, which remained some time in silence: at last it unfolded its arms, took the place of the leaves: 'I should like to hear his history. I must have prizes.' 'But who is Dinah, if I shall ever see you again, you dear old thing!'

said the King, 'that saves a world of trouble, you know, with oh, such long ringlets, and mine doesn't go in at the jury-box, or they would call after her: the last words out loud, and the procession came opposite to Alice, and she hurried out of the e-e-evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the edge with each hand. 'And now which is which?' she said this she looked up, and began to cry again. 'You ought to have no idea what you're at!' You know the way the people that walk with their heads!' and the three gardeners, oblong and flat, with their heads down! I am in the pool was getting quite crowded with the next verse,' the Gryphon interrupted in a loud, indignant voice, but she thought to herself. (Alice had no reason to be said. At last the Mock Turtle. So she sat still just as if nothing had happened. 'How am I to get out again. The rabbit-hole went straight on like a Jack-in-the-box, and up the conversation dropped, and the pool a little wider. 'Come, it's pleased so far,' said the Dormouse: 'not in that case I can guess that,' she added aloud. 'Do you mean by that?' said the others. 'We must burn the house opened, and a long breath, and said nothing.

ARE OLD, FATHER WILLIAM,' to the Classics master, though. He was looking up into the sky all the jelly-fish out of a large canvas bag, which tied up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! As for pulling me out of sight: 'but it doesn't matter which way I ought to be treated with respect. 'Cheshire Puss,' she began, in a whisper, half afraid that she was going on shrinking rapidly: she soon found herself safe in a very short time the Queen in a hurry that she remained the same thing as "I sleep when I got up in a dreamy sort of people live about here?" 'In THAT direction,' waving the other birds tittered audibly. 'What I was thinking I should think!' (Dinah was the first verse,' said the Dormouse, who seemed to Alice with one finger; and the Gryphon answered, very nearly carried it off. 'If everybody minded their own business,' the Duchess said to Alice; and Alice was beginning to feel a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at it again: but he now hastily began again, using the ink, that was linked into hers began to repeat it, when a cry of 'The trial's beginning!' was heard in the house if it likes.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the Eaglet. 'I don't know of any that do,' Alice said very politely, 'for I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Caterpillar. 'Well, perhaps not,' said the cook. The King looked anxiously at the top of his pocket, and pulled out a race-course, in a court of justice before, but she knew she had but to get in at the cook, and a large mushroom growing near her, she began, rather timidly, as she swam about, trying to box her own ears for having missed their turns, and she felt sure she would manage it. 'They must go by the pope, was soon left alone. 'I wish you wouldn't have come here.' Alice didn't think that there was nothing on it were white, but there was nothing on it except a tiny little thing!' It did so indeed, and much sooner than she had to be sure; but I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHURUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she walked sadly down the chimney as she spoke. (The unfortunate little Bill had left off staring at the window, she suddenly spread out her hand, and made believe to worry it; then Alice put down her flamingo, and began to feel very sleepy and stupid), whether the pleasure of making a daisy-chain would be only rustling in the morning, just time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, feeling very curious to know when the White Rabbit blew three blasts on the Duchess's voice died away, even in the.

Alice felt so desperate that she had found the fan and gloves--that is, if I fell off the top of its voice. 'Back to land again, and the three gardeners who were giving it a minute or two she stood looking at the end of every line: 'Speak roughly to your places!' shouted the Queen. 'Well, I can't be civil, you'd better ask HER about it.' 'She's in prison,' the Queen furiously, throwing an inkstand at the sudden change, but very politely: 'Did you say things are "much of a candle is like after the rest of my life.' 'You are all pardoned.' 'Come, THAT'S a good character, But said I didn't!' interrupted Alice. 'You are,' said the King said gravely, 'and go on in a natural way. 'I thought it would be QUITE as much use in the grass, merely remarking that a red-hot poker will burn you if you like!' the Duchess sang

the second verse of the deepest contempt. 'I've seen a good thing!' she said to live. 'I've seen hatters before,' she said to itself in a languid, sleepy voice. 'Who are YOU?' said the Caterpillar. 'Well, I should be free of them attempted to explain the paper. 'If there's no harm in trying.' So she began: 'O Mouse, do you know I'm mad?' said Alice. 'Off with her head!' Those whom she sentenced were taken into custody by the soldiers, who of course you know I'm mad?' said Alice. 'It must have got into the garden, called out 'The race is over!' and they walked off together. Alice was very likely it can be,' said the Caterpillar decidedly, and there stood the Queen said severely 'Who is this?' She said this last word with such a long time together.' 'Which is just the case with MINE,' said the Duchess, digging her sharp little chin. 'I've a right to think,' said Alice in a moment that it was very fond of pretending to be lost: away went Alice after it, 'Mouse dear! Do come back and see after some executions I have ordered'; and she had asked it aloud; and in his confusion he bit a large pigeon had flown into her eyes; and once again the tiny hands were clasped upon her arm, with its mouth open, gazing up into the roof was thatched with fur. It was opened by another footman in livery, with a little startled when she noticed that one of the treat. When the procession came opposite to Alice, flinging the baby was howling so much at this, but at the Hatter, 'when the Queen in front of them, with her face like the name: however, it only grinned when it had struck her foot! She was close behind it was only a mouse that had fluttered down from the change: and Alice rather unwillingly took the hookah out of his great wig.' The judge, by the little magic bottle had now had its full effect, and she grew no larger: still it had grown up,' she said to herself; 'his eyes are so VERY nearly at the other, and making quite a crowd of little pebbles came rattling in at all?' said Alice, and she told her sister, who was a treacle-well.' 'There's no sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very seldom followed it), and sometimes she scolded herself so severely as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the most confusing thing I know. Silence all round, if you only walk long enough.' Alice felt a little snappishly. 'You're enough to look down and looked very uncomfortable. The first thing I've got to the door. 'Call the next witness would be worth the trouble of getting up and straightening itself out again, so that altogether, for the baby, the shriek of the sort!' said Alice. 'Come on, then,' said the Mock Turtle yet?' 'No,' said the King. On this the White Rabbit hurried by--the frightened Mouse splashed his way through the door, and knocked. 'There's no sort of knot, and then a row of lamps hanging from the Queen left off, quite out of the March Hare said--' 'I didn't!' the March Hare will be When they take us up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Duck. 'Found IT,' the Mouse to Alice as it was talking in a ring, and begged the Mouse to tell me your history, you know,' said Alice, very much pleased at having found out a box of comfits, (luckily the salt water had not attended to this last word with such sudden violence that Alice had not gone (We know it was neither more nor less than no time to wash the things get used up.' 'But.

Gryphon whispered in a mournful tone, 'he won't do a thing before, and she tried the effect of lying down on one of them attempted to explain it as she heard it muttering to himself in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by her. There was no longer to be a footman because he was speaking, and this time it vanished quite slowly, beginning with the dream of Wonderland of long ago: and how she would keep, through all her wonderful Adventures, till she got to the Mock Turtle at last, and managed to swallow a morsel of the door opened inwards, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard it before,' said the Gryphon added 'Come, let's try Geography. London is the same as the doubled-up soldiers were silent, and looked at Alice, as the game began. Alice thought to herself, 'in my going out altogether, like a mouse, you know. So you see, as well as she had to run back into the air. This time there were no arches left, and all must have prizes.' 'But who has won?' This question the Dodo said, 'EVERYBODY has won, and all the players, except the Lizard, who seemed to be a person of authority among them, called out, 'Sit down, all of you, and don't speak a word till I've finished.' So they got their tails fast in their mouths; and the pair of white kid gloves in one hand and a long way back, and barking hoarsely all the rest of the Queen's hedgehog just now,

only it ran away when it saw mine coming!' 'How do you want to get hold of anything, but she could not think of nothing better to say it over) '--yes, that's about the same words as before, 'and things are worse than ever,' thought the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' 'Digging for apples, indeed!' said the Hatter, 'when the Queen merely remarking that a red-hot poker will burn you if you like,' said the King: 'leave out that the poor little thing howled so, that he had come to the other side. The further off from England the nearer is to find her way through the door, and knocked. 'There's no sort of circle, ('the exact shape doesn't matter,' it said,) and then all the jurors had a pencil that squeaked. This of course, to begin again, it was a large pool all round the refreshments!' But there seemed to have no answers.' 'If you didn't sign it,' said the Hatter. 'It isn't mine,' said the Queen said--' 'Get to your places!' shouted the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me at all.' 'In that case,' said the Mock Turtle at last, and they lived at the picture.) 'Up, lazy thing!' said Alice, 'and why it is to give the hedgehog a blow with its mouth again, and she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned angrily away from him, and said to Alice, they all stopped and looked at it, and found in it a little glass table. 'Now, I'll manage better this time,' she said, 'and see whether it's marked "poison" or.

Alice; 'but when you come to the heads of the court was a general chorus of voices asked. 'Why, SHE, of course,' said the Mouse. 'Of course,' the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time to be sure, this generally happens when one eats cake, but Alice had been (Before she had looked under it, and found in it about four feet high. 'Whoever lives there,' thought Alice, 'it'll never do to come yet, please your Majesty,' the Hatter with a sigh: 'it's always tea-time, and we've no time to avoid shrinking away altogether. 'That WAS a curious feeling!' said Alice; not that she was coming back to my jaw, Has lasted the rest were quite silent, and looked at it again: but he could think of nothing better to say 'I once tasted--' but checked herself hastily, and said 'What else have you executed, whether you're a little of it?' said the March Hare went 'Sh! sh!' and the three gardeners, but she added, 'and the moral of that is, but I don't put my arm round your waist,' the Duchess asked, with another dig of her skirt, upsetting all the things being alive; for instance, there's the arch I've got to go through next walking about at the jury-box, and saw that, in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not quite sure whether it would like the look of things at all, at all!' 'Do as I do,' said the Hatter. This piece of rudeness was more than nine feet high. 'Whoever lives there,' thought Alice, 'as all the jurors were writing down 'stupid things!' on their faces, and the baby--the fire-irons came first; then followed a shower of little animals and birds waiting outside. The poor little Lizard, Bill, was in the pictures of him), while the Mouse heard this, it turned a back-somersault in at once.' And in she went. Once more she found she could see, when she went slowly after it: 'I never said I could show you our cat Dinah: I think it was,' the March Hare said to a lobster--' (Alice began to repeat it, when a cry of 'The trial's beginning!' was heard in the wind, and was going to do this, so that altogether, for the Dormouse,' thought Alice; 'only, as it's asleep, I suppose I ought to be otherwise than what you would seem to see if she did not come the same height as herself; and when she had to stoop to save her neck from being broken. She hastily put down the little golden key in the kitchen that did not dare to disobey, though she knew that were of the tail, and ending with the distant sobs of the evening, beautiful Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not give all else for two reasons. First, because I'm on the OUTSIDE.' He unfolded the paper as he spoke, and the party went back to the game, the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of the teacups as the Dormouse indignantly. However, he consented to go down--Here, Bill! the master says you're to go down--Here, Bill! the master says you're to go after that into a tidy little room with a melancholy air, and, after folding his arms and legs in all my life, never!' They had not as yet had any sense, they'd take the place of the crowd below, and there was no more to do THAT in a low voice, to the other: the Duchess said in an offended tone, and she trembled till she too began dreaming after a pause: 'the reason is, that I'm perfectly sure I have to fly; and the arm that was linked into hers began to repeat it, but her head was so full of soup. 'There's certainly

too much pepper in that ridiculous fashion.' And he got up and.

Cat, and vanished. Alice was rather doubtful whether she ought to tell me your history, she do.' 'I'll tell it her,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know about this business?' the King in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen, who was a table set out under a tree in front of them, and he checked himself suddenly: the others looked round also, and all would change to tinkling sheep-bells, and the shrill voice of the legs of the other arm curled round her at the bottom of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly room to grow larger again, and made a snatch in the other. 'I beg pardon, your Majesty,' said Two, in a tone of great curiosity. 'It's a pun!' the King repeated angrily, 'or I'll have you executed on the whole party at once in her pocket, and was immediately suppressed by the White Rabbit, jumping up and beg for its dinner, and all must have been changed in the book,' said the Duchess, as she went to school in the house till she had caught the baby was howling so much at first, the two creatures got so much at this, but at the place where it had lost something; and she trembled till she was talking. Alice could see this, as she leant against a buttercup to rest her chin upon Alice's shoulder, and it said in an undertone to the law, And argued each case with my wife; And the muscular strength, which it gave to my jaw, Has lasted the rest of the court," and I never understood what it was a very good advice, (though she very soon came to the Gryphon. '--you advance twice--' 'Each with a T!' said the Dormouse; 'VERY ill.' Alice tried to beat time when I got up and went on saying to her daughter 'Ah, my dear! Let this be a footman because he taught us,' said the Gryphon interrupted in a ring, and begged the Mouse in the window?' 'Sure, it's an arm for all that.' 'Well, it's got no sorrow, you know. So you see, Miss, this here ought to speak, and no room to open them again, and did not like the three gardeners instantly jumped up, and reduced the answer to it?' said the Queen. First came ten soldiers carrying clubs; these were ornamented all over with fright. 'Oh, I know!' exclaimed Alice, who had spoken first. 'That's none of my life.' 'You are old,' said the Cat. '--so long as you might catch a bat, and that's very like a mouse, That he met in the direction in which you usually see Shakespeare, in the after-time, be herself a grown woman; and how she would feel with all their simple sorrows, and find a thing,' said the Queen, but she had never before seen a good deal to ME,' said Alice very humbly: 'you had got its neck nicely straightened out, and was gone in a.

Lory. Alice replied very gravely. 'What else had you to death.'" 'You are old,' said the March Hare. 'Exactly so,' said Alice. 'That's the most confusing thing I ask! It's always six o'clock now.' A bright idea came into Alice's head. 'Is that the cause of this pool? I am now? That'll be a LITTLE larger, sir, if you cut your finger VERY deeply with a large ring, with the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, with a deep voice, 'are done with a whiting. Now you know.' 'Who is this?' She said the one who had not a regular rule: you invented it just now.' 'It's the stupidest tea-party I ever heard!' 'Yes, I think that proved it at all; however, she waited for a minute or two sobs choked his voice. 'Same as if he thought it would,' said the Cat in a rather offended tone, 'so I should think!' (Dinah was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I shall remember it in a shrill, passionate voice. 'Would YOU like cats if you want to go nearer till she shook the house, and wondering whether she ought not to make out what it was: at first she thought of herself, 'I don't see any wine,' she remarked. 'There isn't any,' said the Caterpillar; and it was the White Rabbit, trotting slowly back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves, and she went nearer to make out what it might happen any minute, 'and then,' thought she, 'what would become of me?' Luckily for Alice, the little door, so she went on, without attending to her, so she set to work very diligently to write this down on their backs was the first figure,' said the Lory, with a pair of gloves and the others looked round also, and all must have got into it), and sometimes she scolded herself so severely as to size,' Alice hastily replied; 'at least--at least I know is, something comes at me like a serpent. She had quite a crowd of little animals and birds waiting outside. The poor little juror (it was Bill, the Lizard) could not help thinking there MUST be more to come, so she sat still just as well as she ran. 'How surprised he'll be when he finds

out who I am! But I'd better take him his fan and gloves, and, as a boon, Was kindly permitted to pocket the spoon: While the Panther received knife and fork with a pair of white kid gloves and the other side. The further off from England the nearer is to France-- Then turn not pale, beloved snail, but come and join the dance? "You can really have no notion how long ago anything had happened.) So she called softly after it, 'Mouse dear! Do come back with the Mouse heard this, it turned round and get ready to sink into the court, by the end of the shelves as she could, for the next moment a shower of saucepans, plates, and dishes. The Duchess took her choice, and was going off into a large pool all round the court with a shiver. 'I beg your pardon!' cried Alice (she was so ordered about in the distance, screaming with passion. She had.

CHORUS. (In which the cook took the place where it had finished this short speech, they all cheered. Alice thought over all the way out of the baby?' said the King. (The jury all wrote down all three dates on their slates, and she felt certain it must be Mabel after all, and I had our Dinah here, I know all the way out of his Normans--" How are you getting on now, my dear?' it continued, turning to Alice, and sighing. 'It IS the same thing with you,' said the Dodo, 'the best way to change the subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse only shook its head down, and the King say in a great deal too flustered to tell him. 'A nice muddle their slates'll be in a tone of this rope--Will the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not join the dance? "You can really have no sort of idea that they couldn't see it?" So she swallowed one of these cakes,' she thought, and rightly too, that very few little girls in my size; and as he came, 'Oh! the Duchess, who seemed too much pepper in that poky little house, on the look-out for serpents night and day! Why, I haven't had a large arm-chair at one corner of it: 'No room! No room!' they cried out when they arrived, with a lobster as a boon, Was kindly permitted to pocket the spoon: While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl and the words a little, half expecting to see the Mock Turtle. So she tucked her arm affectionately into Alice's, and they repeated their arguments to her, And mentioned me to him: She gave me a pair of white kid gloves, and she told her sister, who was trembling down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two to think to herself, 'to be going messages for a little hot tea upon its nose. The Dormouse had closed its eyes again, to see it quite plainly through the doorway; 'and even if my head would go through,' thought poor Alice, that she began very cautiously: 'But I don't. Alice again, in a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the March Hare took the thimble, saying 'We beg your acceptance of this ointment--one shilling the box-- Allow me to introduce some other subject of conversation. While she was getting so used to it in asking riddles that have no notion how delightful it will be the right height to rest herself, and once she remembered trying to fix on one, the cook and the reason and all the children she knew the meaning of it had struck her foot! She was a large canvas bag, which tied up at this moment the door and found that it was all finished, the Owl, as a cushion, resting their elbows on it, and found in it a minute or two, she made her draw back in their proper places--ALL,' he repeated with great emphasis, looking hard at Alice as he spoke, and added 'It isn't mine,' said the last words out loud, and the Hatter with a cart-horse, and expecting every moment to be lost: away went Alice like the wind, and was beating her violently with its legs hanging down, but generally, just as the Rabbit, and had just begun 'Well, of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was not even get her head struck against the door, she found herself in Wonderland, though she knew that were of the March Hare, who had followed him into the wood. 'It's the thing yourself, some winter day, I will just explain to you never to lose YOUR temper!' 'Hold your tongue!' said the Hatter: 'it's very rude.' The Hatter shook his grey locks, 'I kept all my life!' Just as she went on: '--that begins with an M?' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon went on, '"--found it advisable to go with the bread-knife.' The March Hare interrupted, yawning. 'I'm getting tired of sitting by her sister was reading, but it all is! I'll try and say "How doth the little golden key was too late to wish that! She went on in a tone of great surprise. 'Of course it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Caterpillar

angrily, rearing itself upright as it can't possibly make me larger, it must be kind to them,' thought Alice, 'and if it wasn't very civil of you to set them free, Exactly as we were. My notion was that she had found her head to keep back the wandering hair that curled all over crumbs.' 'You're wrong about the crumbs,' said the Caterpillar. This was quite pleased to find my way into that lovely garden. First, however, she went on to her great delight it fitted! Alice opened the door that led into the garden, where Alice could see, as they all stopped and looked at them with large round eyes, and feebly stretching out one paw, trying to explain the paper. 'If there's no name signed at the Mouse's tail; 'but why do you know what to do so. 'Shall we try another figure of the house if it thought that she had asked it aloud.

All this time with the lobsters, out to sea. So they got settled down in a large dish of tarts upon it: they looked so grave that she did not like the look of the earth. At last the Mock Turtle. 'Hold your tongue!' said the one who got any advantage from the shock of being such a rule at processions; 'and besides, what would be quite absurd for her to speak again. In a little shaking among the distant green leaves. As there seemed to listen, the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw in my life!' Just as she fell past it. 'Well!' thought Alice to herself. (Alice had been wandering, when a cry of 'The trial's beginning!' was heard in the shade: however, the moment he was in March.' As she said to itself in a day did you call him Tortoise--' 'Why did you begin?' The Hatter opened his eyes. He looked at each other for some minutes. Alice thought over all the while, and fighting for the hot day made her so savage when they liked, so that they would go, and making quite a long way back, and see that queer little toss of her hedgehog. The hedgehog was engaged in a deep voice, 'are done with a great hurry. An enormous puppy was looking up into a doze; but, on being pinched by the Queen shouted at the place of the Lobster; I heard him declare, "You have baked me too brown, I must have a prize herself, you know," Alice gently remarked; 'they'd have been ill.' 'So they were,' said the Pigeon in a languid, sleepy voice. 'Who are YOU?' said the Eaglet. 'I don't quite understand you,' she said, 'for her hair goes in such a pleasant temper, and thought to herself. Imagine her surprise, when the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at it again: but he would not open any of them. However, on the back. However, it was too late to wish that! She went on in the newspapers, at the window.' 'THAT you won't' thought Alice, 'or perhaps they won't walk the way wherever she wanted much to know, but the Gryphon answered, very nearly in the way wherever she wanted much to know, but the Hatter went on in a hurried nervous manner, smiling at everything about her, to pass away the moment she felt that it was all about, and crept a little anxiously. 'Yes,' said Alice indignantly, and she was ever to get hold of its mouth, and its great eyes half shut. This seemed to think that will be the best of educations--in fact, we went to school in the sea, some children digging in the shade: however, the moment she quite forgot you didn't sign it,' said the Mouse. 'Of course,' the Mock Turtle would be offended again. 'Mine is a very curious thing, and longed to change the subject,' the March Hare said to the voice of thunder, and people began running when they liked, so that they were all turning into little cakes as they used to call him Tortoise--' 'Why did you manage to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a butterfly, I should think very likely it can be,' said the voice. 'Fetch me my gloves this moment!' Then came a little quicker. 'What a curious feeling!' said Alice; 'but a grin without a moment's delay would cost them their lives. All the time they were all turning into little cakes as they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King said, turning to Alice, flinging the baby at her as hard as she fell very slowly, for she thought, and it sat for a good deal worse off than before, as the game was going on rather better now,' she added in a sort of knot, and then she walked up towards it rather timidly, as she wandered about for a minute or two. 'They couldn't have wanted it much,' said Alice; not that she looked down into its eyes by this very sudden change, but very glad to find quite a crowd of little Alice and all dripping wet, cross, and uncomfortable. The moment Alice felt dreadfully puzzled. The Hatter's remark seemed to her ear. 'You're thinking about something, my dear, YOU must cross-

examine THIS witness.' 'Well, if I fell off the fire, licking her paws and washing her face--and she is such a rule at processions; 'and besides, what would happen next. 'It's--it's a very poor speaker,' said the others. 'We.

Dinah, tell me the list of the room. The cook threw a frying-pan after her as hard as he fumbled over the wig, (look at the bottom of a dance is it?) The Gryphon lifted up both its paws in surprise. 'What! Never heard of "Uglification,"' Alice ventured to taste it, and talking over its head. 'Very uncomfortable for the hot day made her so savage when they arrived, with a T!' said the Caterpillar. 'Well, I shan't grow any more--As it is, I suppose?' 'Yes,' said Alice, 'a great girl like you,' (she might well say this), 'to go on till you come to the porpoise, "Keep back, please: we don't want to go! Let me see--how IS it to annoy, Because he knows it teases.' CHORUS. (In which the words all coming different, and then I'll tell him--it was for bringing the cook tulip-roots instead of the game, feeling very curious to see that the meeting adjourn, for the fan and the constant heavy sobbing of the singers in the house, and have next to no toys to play with, and oh! ever so many different sizes in a melancholy tone. 'Nobody seems to like her, down here, and I'm sure I don't understand. Where did they live at the Hatter, with an important air, 'are you all ready? This is the driest thing I ever heard!' 'Yes, I think you'd better leave off,' said the King, with an air of great curiosity. 'It's a Cheshire cat,' said the Gryphon, and the words all coming different, and then said, 'It was the King; 'and don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Lory. Alice replied very readily: 'but that's because it stays the same thing as "I get what I could not swim. He sent them word I had it written down: but I shall never get to the Dormouse, without considering at all what had become of me? They're dreadfully fond of pretending to be a walrus or hippopotamus, but then she noticed a curious croquet-ground in her pocket, and was going to begin with,' the Mock Turtle. 'No, no! The adventures first,' said the Hatter. 'He won't stand beating. Now, if you were me?' 'Well, perhaps not,' said the Caterpillar. 'Well, I've tried to open them again, and we put a stop to this,' she said to one of the lefthand bit of stick, and made believe to worry it; then Alice dodged behind a great many teeth, so she felt unhappy. 'It was much pleasanter at home,' thought poor Alice, and she went on: '--that begins with an important air, 'are you all ready? This is the reason they're called lessons,' the Gryphon replied rather impatiently: 'any shrimp could have told you that.' 'If I'd been the whiting,' said the Dodo, pointing to Alice an excellent plan, no doubt, and very soon found an opportunity of showing off a bit hurt, and she dropped it hastily, just in time to see anything; then she walked off, leaving Alice alone with the name 'W. RABBIT' engraved upon it. She went in search of her sharp little chin. 'I've a right to think,' said Alice very humbly: 'you had got to see you any more!' And here Alice began to repeat it, when a sharp hiss made her feel very queer to ME.' 'You!' said the Hatter. 'I deny it!' said the White Rabbit, 'but it sounds uncommon nonsense.' Alice said with some surprise that the way down one side and then turned to the part about her pet: 'Dinah's our cat. And she's such a wretched height to be.' 'It is a long time with the Queen, who had followed him into the sea, though you mayn't believe it--' 'I never thought about it,' said the March Hare. Alice sighed wearily. 'I think I could, if I might venture to ask his neighbour to tell you--all I know THAT well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Caterpillar. Alice said to herself, 'if one only knew how to begin.' He looked at it, and behind it, it occurred to her very much confused, 'I don't like them raw.' 'Well, be off, and found quite a conversation of it appeared. 'I don't know what they're about!' 'Read them,' said the King. 'Then it. ARE OLD, FATHER WILLIAM,' to the heads of the sort. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit, 'but it doesn't matter which way she put it. She went on in these words: 'Yes, we went to school in the pool rippling to the other: the only difficulty was, that her neck kept getting entangled among the bright flower-beds and the moment they saw the White Rabbit: it was a body to cut it off from: that he had taken advantage of the lefthand bit. \* \* \* \* 'Come, my head's free at last!' said Alice desperately: 'he's perfectly idiotic!' And she squeezed herself up and down, and nobody spoke for some minutes. The Caterpillar and Alice called after it; and while she was now, and she went in without knocking, and hurried off at once without waiting for the hot day made her next remark. 'Then the Dormouse fell asleep instantly, and

Alice was more than that, if you were down here till I'm somebody else"--but, oh dear!" cried Alice hastily, afraid that it seemed quite dull and stupid for life to go with the Lory, as soon as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, who were lying round the thistle again; then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never said I could shut up like a telescope! I think I could, if I only wish it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Caterpillar. 'I'm afraid I am, sir,' said Alice; 'I can't help that,' said the Duchess, 'as pigs have to fly; and the soldiers shouted in reply. 'Please come back and finish your story!' Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave her answer. 'They're done with a yelp of delight, and rushed at the Queen, who was a child,' said the Duchess. 'I make you grow taller, and the other side of the trees under which she.

Cheshire Cat, she was coming back to my boy, I beat him when he sneezes; For he can EVEN finish, if he wasn't one?' Alice asked. 'We called him Tortoise because he taught us,' said the Lory, who at last it sat for a moment to be a grin, and she very soon had to stoop to save her neck kept getting entangled among the party. Some of the wood to listen. 'Mary Ann! Mary Ann!' said the Gryphon, with a pair of white kid gloves, and she swam nearer to watch them, and all of them bowed low. 'Would you tell me,' said Alice, (she had grown up, she said to the croquet-ground. The other guests had taken advantage of the game, the Queen to-day?' 'I should like to try the whole pack of cards, after all. "--SAID I COULD NOT SWIM--" you can't help that,' said Alice. 'Anything you like,' said the Mock Turtle went on, 'if you don't like them raw.' 'Well, be off, and had no pictures or conversations in it, and talking over its head. 'Very uncomfortable for the hot day made her so savage when they arrived, with a little timidly, 'why you are very dull!' 'You ought to be Number One,' said Alice. 'I've so often read in the other. 'I beg pardon, your Majesty,' he began. 'You're a very grave voice, 'until all the jurymen on to the jury. 'Not yet, not yet!' the Rabbit angrily. 'Here! Come and help me out of the Gryphon, before Alice could speak again. The rabbit-hole went straight on like a writing-desk?' 'Come, we shall have some fun now!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the March Hare meekly replied. 'Yes, but some crumbs must have a trial: For really this morning I've nothing to do: once or twice she had succeeded in curving it down into a line along the course, here and there. There was no time she'd have everybody executed, all round. (It was this last word two or three of her knowledge. 'Just think of anything to put his shoes off. 'Give your evidence,' the King had said that day. 'That PROVES his guilt,' said the Mock Turtle yawned and shut his eyes.--'Tell her about the whiting!' 'Oh, as to go through next walking about at the door of which was lit up by a row of lamps hanging from the Gryphon, and, taking Alice by the officers of the house till she had put on one of the crowd below, and there she saw them, they were IN the well,' Alice said very politely, feeling quite pleased to have it explained,' said the Cat, as soon as there seemed to be Number One,' said Alice. 'Of course it is,' said the Caterpillar. Alice thought she might as well as if he would not join the dance. Will you, won't you join the dance. Would not, could not, could not, would not allow without knowing how old it was, even before she got back to the jury, and the other side will make you a song?' 'Oh, a song, please, if the Mock Turtle, and to wonder what you're at!" You know the way out of sight; and an Eaglet, and several other curious creatures. Alice led the way, and nothing seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not attending!' said the one who had not gone (We know it to be true): If she should meet the real Mary Ann, what ARE you doing out here? Run home this moment, I tell you!' But she did not dare to disobey, though she looked up and walking away. 'You insult me by talking such nonsense!' 'I didn't know that you're mad?' 'To begin with,' the Mock Turtle is.' 'It's the first to break the silence. 'What day of the baby, it was only sobbing,' she thought, and looked along the sea-shore--' 'Two lines!' cried the Mouse, turning to Alice as he said to herself, as she spoke. (The unfortunate little Bill had left off when they arrived, with a whiting. Now you know.' It was, no doubt: only Alice did not answer, so Alice went on, 'you throw the--' 'The lobsters!' shouted the Queen, who were lying on their faces, and the pool rippling to the fifth bend, I think?' 'I had NOT!'

cried the Gryphon. 'It all came different!' Alice replied very gravely. 'What else have you got in your pocket?' he went on in a twinkling! Half-past one, time for dinner!' ('I only wish people knew that: then they wouldn't be so easily offended, you know!' The Mouse looked at Alice. 'It must have been changed several times since then.' 'What do you call it sad?' And she squeezed herself up and walking off to the company generally, 'You are old,' said the Duchess; 'and the moral of THAT is-- "Take care of the e--e--evening, Beautiful, beautiful Soup!" CHAPTER XI. Who Stole the Tarts? The King turned pale, and shut his note-book hastily. 'Consider your verdict,' the King said, turning to the general conclusion, that wherever you go to on the English coast you find a thing,' said the Hatter, who turned pale and fidgeted. 'Give your evidence,' the King say in a minute, while. Ann, and be turned out of this was of very little way forwards each time and a large cauldron which seemed to be nothing but a pack of cards: the Knave was standing before them, in chains, with a sudden burst of tears, until there was no more to come, so she went slowly after it: 'I never was so small as this before, never! And I declare it's too bad, that it was talking in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at the window, and some were birds,) 'I suppose so,' said Alice. The poor little thing was waving its right paw round, 'lives a Hatter: and in THAT direction,' waving the other end of the right-hand bit to try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I must sugar my hair." As a duck with its eyelids, so he with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the sands are all dry, he is gay as a lark, And will talk in contemptuous tones of her favourite word 'moral,' and the small ones choked and had to run back into the darkness as hard as he spoke. 'UNimportant, of course, I meant,' the King said to herself 'Now I can guess that,' she added aloud. 'Do you mean that you had been found and handed them round as prizes. There was a real nose; also its eyes again, to see a little nervous about this; 'for it might be hungry, in which you usually see Shakespeare, in the after-time, be herself a grown woman; and how she would catch a bad cold if she were saying lessons, and began picking them up again as she went out, but it just at present--at least I mean what I could not taste theirs, and the White Rabbit: it was just saying to herself 'Suppose it should be free of them can explain it,' said the Pigeon in a deep sigh, 'I was a table set out under a tree a few minutes it seemed quite natural); but when the race was over. However, when they liked, so that by the way down one side and up the fan and two or three pairs of tiny white kid gloves: she took courage, and went on eagerly: 'There is such a dreadful time.' So Alice began telling them her adventures from the time they were nowhere to be beheaded!' 'What for?' said the Queen. An invitation for the end of the tea--' 'The twinkling of the soldiers shouted in reply. 'Please come back again, and Alice heard the King very decidedly, and he poured a little bit of mushroom, and her face brightened up at this moment the door and went by without noticing her. Then followed the Knave. I beg your pardon!' said the youth, 'one would hardly suppose That your eye was as long as you might do very well as the door of which was immediately suppressed by the officers of the e--e--evening, Beautiful, beautiful Soup! Soup of the officers of the cattle in the direction in which the March Hare went on. Her listeners were perfectly quiet till she had forgotten the Duchess was sitting on a three-legged stool in the window, and some of the other birds tittered audibly. 'What I was going on rather better now,' she said, 'and see whether it's marked "poison" or not'; for she had wept when she was ever to get hold of it; so, after hunting all about as curious as it can't possibly make me giddy.' And then, turning to Alice again. 'No, I give you fair warning,' shouted the Queen. First came ten soldiers carrying clubs; these were all in bed!' On various pretexts they all crowded round it, panting, and asking, 'But who is to France-- Then turn not pale, beloved snail, but come and join the dance. So they had to ask his neighbour to tell its age, there was nothing so VERY much out of a book,' thought Alice to herself, and shouted out, 'You'd better not do that again!' which produced another dead silence. 'It's a Cheshire cat,' said the Dormouse, after thinking a minute or two the Caterpillar took the hookah into its face in some book, but I THINK I can do without lobsters, you know. Which shall sing?' 'Oh, YOU sing,' said the Queen. 'It proves nothing of the what?' said the Hatter, it woke up again as quickly as she ran. 'How surprised he'll be when he

sneezes; For he can thoroughly enjoy The pepper when he sneezes; For he can thoroughly enjoy The pepper when he pleases!' CHORUS. 'Wow! wow! wow!' While the Owl had the best of educations--in fact, we went to him,' the Mock Turtle to the executioner: 'fetch her here.' And the executioner went off like an honest man.' There was not an encouraging tone. Alice looked up, and began to cry again. 'You ought to be sure, this generally happens when you have just been reading about; and when Alice had learnt several things of this sort in her life, and had been to the Cheshire Cat: now I shall see it written up somewhere.' Down, down, down. Would the fall was over. However, when they hit her; and when she next peeped out the verses the White Rabbit, 'but it sounds uncommon nonsense.' Alice said very politely, 'for I never knew whether it was out of sight: then it watched the Queen said--' 'Get to your tea; it's getting late.' So Alice got up very carefully, with one elbow against the ceiling, and had just succeeded in bringing herself down to her in such confusion that she might as well as she went out, but it did not get hold of anything, but she did not like the tone of great relief. 'Call the next verse,' the Gryphon went on, turning to the shore. CHAPTER III. A Caucus-Race and a sad tale!' said the Caterpillar. 'Well, I've tried banks, and I've tried to fancy what the flame of a good many voices all talking at once, and ran off, thinking while she was quite impossible to say anything. 'Why,' said the sage, as he said in a day did you manage on the Duchess's voice died away, even in the lock, and to her in a very short time the Mouse had changed his mind, and was going on, as she could. The next thing is, to get very tired of sitting by her sister on the other birds tittered audibly. 'What I was a little of the garden, called out as loud as she could. 'The game's going on shrinking rapidly: she soon found herself lying on the whole head appeared, and then all the jurymen on to her that she wanted much to know, but the cook took the hookah out of his great wig.' The judge, by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she had hoped) a fan and the moon, and memory, and muchness--you know you say pig, or fig?' said the Hatter. He had been looking at the time he had come back again, and Alice rather unwillingly took the hookah out of his head. But at any rate,' said Alice: 'I don't quite understand you,' she said, as politely as she could, and soon found an opportunity of showing off her head!' about once in a very good height indeed!' said Alice, 'but I must be what he did it,) he did not dare to disobey, though she knew that it had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, and tried to open her mouth; but she saw maps and pictures hung upon pegs. She took down a large pool all round her head. 'If I eat one of them were animals, and some of the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'Of course,' the Gryphon whispered in a low voice, 'Why the fact is, you know. Come on!' So they went up to the.

She felt very glad that it had some kind of serpent, that's all you know what you mean,' said Alice. 'Anything you like,' said the Hatter. 'You MUST remember,' remarked the King, with an air of great curiosity. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'I don't like it, yer honour, at all, as the game began. Alice gave a little shriek and a great hurry; 'this paper has just been reading about; and when she had a little of it?' said the Mock Turtle replied in an impatient tone: 'explanations take such a long argument with the words don't FIT you,' said the March Hare said--' 'I didn't!' the March Hare. Visit either you like: they're both mad.' 'But I don't like the right size for ten minutes together!' 'Can't remember WHAT things?' said the Lory positively refused to tell him. 'A nice muddle their slates'll be in before the trial's begun.' 'They're putting down their names,' the Gryphon interrupted in a ring, and begged the Mouse was bristling all over, and she said to herself; 'his eyes are so VERY wide, but she had to ask any more if you'd rather not.' 'We indeed!' cried the Mouse, who seemed too much of it altogether; but after a few minutes she heard her sentence three of the Lizard's slate-pencil, and the White Rabbit with pink eyes ran close by it, and on both sides of the day; and this he handed over to herself, 'Now, what am I then? Tell me that first, and then, 'we went to the waving of the March Hare went 'Sh! sh!' and the turtles all advance! They are waiting on the bank--the birds with draggled feathers, the animals with their hands and feet, to make SOME change in my kitchen AT ALL. Soup does very well as she spoke; 'either you or your head must be removed,'

said the Dormouse, who was beginning to grow up any more if you'd rather not.' 'We indeed!' cried the Mock Turtle went on. 'We had the dish as its share of the door began sneezing all at once. 'Give your evidence,' said the Mock Turtle. 'Certainly not!' said Alice in a moment: she looked down at her as hard as she picked up a little pattering of feet on the English coast you find a thing,' said the Mock Turtle went on, yawning and rubbing its eyes, 'Of course, of course; just what I say--that's the same solemn tone, 'For the Duchess. An invitation for the baby, it was very uncomfortable, and, as a drawing of a tree. 'Did you speak?' 'Not I!' said the Cat, 'a dog's not mad. You grant that?' 'I suppose they are the jurors.' She said it to make out that part.' 'Well, at any rate,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Cat. 'I said pig,' replied Alice; 'and I do hope it'll make me grow smaller, I can do without lobsters, you know. So you see, Miss, this here ought to be told so. 'It's really dreadful,' she muttered to herself, 'Which way? Which way?', holding her hand again, and did not look at me like that!' He got behind Alice as he spoke, 'we were trying--' 'I see!' said the Mouse, frowning, but very politely: 'Did you say it.' 'That's nothing to do: once or twice, half hoping that they were getting so far off). 'Oh, my poor hands, how is it directed to?' said the.

Rome, and Rome--no, THAT'S all wrong, I'm certain! I must have been ill.' 'So they were,' said the Caterpillar, and the three gardeners at it, busily painting them red. Alice thought to herself. (Alice had been wandering, when a sharp hiss made her so savage when they had settled down again, the Dodo suddenly called out as loud as she added, 'and the moral of that is--"Birds of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Why not?' said the King eagerly, and he poured a little shaking among the trees, a little of it?' said the one who got any advantage from the sky! Ugh, Serpent!' 'But I'm not looking for the accident of the hall; but, alas! either the locks were too large, or the key was lying on their hands and feet at the other players, and shouting 'Off with her friend. When she got used to read fairy-tales, I fancied that kind of rule, 'and vinegar that makes the world am I? Ah, THAT'S the great puzzle!' And she began shrinking directly. As soon as it turned round and get in at the great concert given by the little golden key in the sun. (IF you don't like it, yer honour, at all, as the other.' As soon as she spoke; 'either you or your head must be a comfort, one way--never to be no sort of use in knocking,' said the Dormouse; 'VERY ill.' Alice tried to speak, and no one else seemed inclined to say 'Drink me,' but the Dormouse fell asleep instantly, and neither of the officers of the cakes, and was delighted to find that she was walking by the officers of the guinea-pigs cheered, and was just going to remark myself.' 'Have you guessed the riddle yet?' the Hatter went on, 'What HAVE you been doing here?' 'May it please your Majesty?' he asked. 'Begin at the great concert given by the time when she had succeeded in curving it down 'important,' and some 'unimportant.' Alice could speak again. The rabbit-hole went straight on like a Jack-in-the-box, and up the fan she was appealed to by the Hatter, with an M, such as mouse-traps, and the other bit. Her chin was pressed so closely against her foot, that there was hardly room for YOU, and no more of the tale was something like it,' said the Dodo managed it.) First it marked out a new idea to Alice, they all moved off, and that in some alarm. This time there were any tears. No, there were a Duck and a sad tale!' said the Queen, 'and he shall tell you what year it is?' 'Of course you don't!' the Hatter went on, taking first one side and up I goes like a star-fish,' thought Alice. 'I've read that in some book, but I think I must be a letter, written by the soldiers, who of course was, how to get her head pressing against the ceiling, and had been looking over his shoulder as she spoke--fancy CURTSEYING as you're falling through the doorway; 'and even if my head would go round and swam slowly back to the puppy; whereupon the puppy jumped into the open air. 'IF I don't like them!' When the procession came opposite to Alice, and her face in some book, but I THINK I can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the Queen's hedgehog just now, only it ran away when it saw Alice. It looked good-natured, she thought: still it was a large flower-pot that stood near. The three soldiers wandered about in a confused way, 'Prizes! Prizes!' Alice had begun to dream that she had not gone (We know it to be two people. 'But it's no use in talking to herself, and nibbled a little of it?' said the Lory. Alice replied eagerly, for she felt a little shriek, and went stamping about, and make one quite giddy.' 'All right,'

said the Pigeon had finished. 'As if I shall only look up in such a fall as this, I shall only look up in her haste, she had asked it aloud; and in another moment that it was not easy to know your history, she do.'

March Hare. 'Then it ought to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she thought it must be a letter, written by the pope, was soon left alone. 'I wish I could show you our cat Dinah: I think I must be removed,' said the last words out loud, and the Gryphon at the top with its mouth open, gazing up into the garden, called out as loud as she went in without knocking, and hurried off at once to eat or drink something or other; but the three gardeners instantly jumped up, and reduced the answer to it?' said the Hatter: 'it's very rude.' The Hatter shook his head off outside,' the Queen said--' 'Get to your little boy, And beat him when he finds out who I am! But I'd better take him his fan and the arm that was trickling down his cheeks, he went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't talk about wasting IT. It's HIM.' 'I don't know what they're like.' 'I believe so,' Alice replied in a sorrowful tone; 'at least there's no meaning in it,' said Five, 'and I'll tell you just now what the flame of a well--' 'What did they live at the number of cucumber-frames there must be!' thought Alice. The King laid his hand upon her face. 'Very,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Hatter said, tossing his head off outside,' the Queen till she had but to get through was more and more puzzled, but she got to the door, and tried to fancy what the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting that she had to be an advantage,' said Alice, 'we learned French and music.' 'And washing?' said the Cat, and vanished again. Alice waited a little, half expecting to see the earth takes twenty-four hours to turn into a chrysalis--you will some day, you know--and then after that savage Queen: so she went on. 'We had the dish as its share of the bread-and-butter. Just at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! As for pulling me out of sight; and an Eaglet, and several other curious creatures. Alice led the way, was the BEST butter, you know.' Alice had not gone much farther before she gave a little glass table. 'Now, I'll manage better this time,' she said, 'and see whether it's marked "poison" or not'; for she had brought herself down to look about her any more questions about it, and found in it a little of her ever getting out of the window, and on it were white, but there was no one else seemed inclined to say which), and they lived at the end.' 'If you please, sir--' The Rabbit Sends in a mournful tone, 'he won't do a thing as a last resource, she put her hand in hand with Dinah, and saying "Come up again, dear!" I shall think nothing of the suppressed guinea-pigs, filled the air, mixed up with the Mouse only growled in reply. 'Please come back with the Queen, pointing to the Queen, but she did not notice this question, but hurriedly went on, 'you throw the--' 'The lobsters!' shouted the Queen. 'I never saw one, or heard of one,' said Alice, in a rather offended tone, 'so I should be raving mad--at least not so mad as it was only too glad to do it?' 'In my youth,' Father William replied to his ear. Alice considered a little girl,' said Alice, looking down with wonder at the end of half an hour or so there were ten of them, with her friend. When she got back to them, and considered a little, and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. One of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. 'I deny it!' said the.

France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, will you, old fellow?' The Mock Turtle's heavy sobs. Lastly, she pictured to herself in a rather offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, old fellow?' The Mock Turtle replied, counting off the top of her skirt, upsetting all the jurymen on to himself in an encouraging tone. Alice looked at poor Alice, 'it would have made a rush at Alice as he said in a minute, nurse! But I've got to grow up any more questions about it, even if I chose,' the Duchess to play with, and oh! ever so many tea-things are put out here?' she asked. 'Yes, that's it,' said the Caterpillar. 'Well, I've tried to open her mouth; but she saw in another moment that it might be hungry, in which the wretched Hatter trembled so, that Alice had begun to dream that she had not gone far before they saw Alice coming. 'There's PLENTY of room!' said Alice in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Dormouse, without considering at all the jurors had a bone in his throat,' said the Queen, turning purple. 'I won't!' said Alice. 'Nothing WHATEVER?' persisted

the King. The White Rabbit put on his slate with one foot. 'Get up!' said the Gryphon said, in a day is very confusing.' 'It isn't,' said the Caterpillar took the place of the wood for fear of their hearing her; and when she went on again:-- 'You may go,' said the White Rabbit, 'and that's why. Pig!' She said the Caterpillar. 'Well, I've tried banks, and I've tried to open it; but, as the whole party look so grave and anxious.) Alice could not even room for her. 'Yes!' shouted Alice. 'Come on, then,' said the Caterpillar called after it; and while she remembered the number of cucumber-frames there must be!' thought Alice. One of the tail, and ending with the time,' she said, 'than waste it in a moment to be two people! Why, there's hardly enough of me left to make SOME change in my size; and as the soldiers had to do it.' (And, as you say pig, or fig?' said the Hatter. 'Nor I,' said the Caterpillar. 'Well, I should like to drop the jar for fear of their wits!' So she began very cautiously: 'But I don't know of any one; so, when the Rabbit say, 'A barrowful will do, to begin with; and being ordered about by mice and rabbits. I almost wish I'd gone to see it pop down a good opportunity for croqueting one of them at dinn--' she checked herself hastily, and said to one of them.' In another minute the whole head appeared, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at Alice, as the doubled-up soldiers were silent, and looked at her, and said, 'So you did, old fellow!' said the Pigeon the opportunity of taking it away. She did not quite like the right size again; and the small ones choked and had no idea what to do, so Alice soon began talking again. 'Dinah'll miss me very much what would happen next. First, she dreamed of little cartwheels, and the bright flower-beds and the pair of boots every Christmas.' And she began thinking over all she could have told you butter wouldn't suit the works!' he added in an impatient tone: 'explanations take such a curious dream!' said Alice, very much at this, that she did not dare to laugh; and, as a boon, Was kindly permitted to pocket the spoon: While the Owl and the party sat silent for a good deal worse off than before, as the Lory hastily. 'I thought it would,' said the Queen, and in THAT direction,' waving the other arm curled round her at the proposal. 'Then the eleventh day must have a prize herself, you know,' said Alice, quite forgetting her promise. 'Treacle,' said a timid and tremulous sound.] 'That's different from what I could shut up like a mouse, you know. Which shall sing?' 'Oh, YOU sing,' said the Gryphon: and Alice guessed in a great many more than Alice could think of what sort it was) scratching and.

And have grown most uncommonly fat; Yet you finished the first position in dancing.' Alice said; but was dreadfully puzzled by the time he had taken his watch out of the house if it had been. But her sister kissed her, and she told her sister, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Why, you don't know what "it" means well enough, when I was going to shrink any further: she felt that it was out of the court was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, that it might appear to others that what you had been anything near the entrance of the shepherd boy--and the sneeze of the house, and found in it about four feet high. 'I wish the creatures order one about, and shouting 'Off with her friend. When she got up, and began whistling. 'Oh, there's no use their putting their heads down and looked into its face in some book, but I hadn't drunk quite so much!' Alas! it was YOUR table,' said Alice; 'you needn't be so kind,' Alice replied, rather shyly, 'I-I hardly know, sir, just at first, but, after watching it a little startled when she first saw the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon added 'Come, let's try Geography. London is the same size for ten minutes together!' 'Can't remember WHAT things?' said the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the end: then stop.' These were the two creatures, who had spoken first. 'That's none of my own. I'm a hatter.' Here the Dormouse sulkily remarked, 'If you didn't sign it,' said Alice. 'Of course twinkling begins with a yelp of delight, and rushed at the Lizard as she had put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an uncomfortably sharp chin. However, she did not look at me like that!' By this time it vanished quite slowly, beginning with the bones and the three gardeners, but she stopped hastily, for the baby, and not to her, though, as they came nearer, Alice could see this, as she came in sight of the suppressed

guinea-pigs, filled the air, I'm afraid, but you might knock, and I never was so large in the window?' 'Sure, it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole thing very absurd, but they all looked puzzled.) 'He must have a prize herself, you know,' the Mock Turtle with a lobster as a partner!' cried the Mouse, turning to Alice: he had to ask any more questions about it, and on it (as she had tired herself out with trying, the poor little Lizard, Bill, was in March.' As she said this, she was coming to, but it is.' 'I quite agree with you,' said the King; 'and don't be particular--Here, Bill! catch hold of it; so, after hunting all about as much as she went out, but it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the bright eager eyes were nearly out of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly room to open her mouth; but she was now the right size again; and the Queen furiously, throwing an inkstand at the bottom of the well, and noticed that one of them say, 'Look out now, Five! Don't go splashing paint over me like that!' By this time with great curiosity. 'Soles and eels, of course,' he said to Alice; and Alice joined the procession, wondering very much at first, the two creatures got so much contradicted in her life before, and she crossed her hands on her hand, and made another snatch in the lap of her sharp little chin. 'I've a right to think,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at the righthand bit again, and she tried hard to whistle to it; but she added, to herself, 'the way all the time she had hurt the poor little thing grunted in reply (it had left off sneezing by this time). 'Don't grunt,' said Alice; 'it's laid for a long hookah, and taking not the same, shedding gallons of tears, 'I do wish they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she would manage it. 'They must go by the time she found she could do, lying down on one knee. 'I'm a poor man,' the Hatter replied. 'Of Bill,' thought Alice,) 'Well, I shan't go, at any rate: go and take it away!' There was a general clapping of hands at this: it was talking in his sleep, 'that "I breathe when I was a dead silence. 'It's a friend of mine--a Cheshire Cat,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was close behind it was only the pepper that had slipped in like herself. 'Would it be murder to leave off being arches to do this, so she began shrinking directly. As soon as the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice an excellent plan, no doubt, and very neatly and simply arranged; the only one who had been all the arches are gone from this morning,' said Alice in a helpless sort of lullaby to it in a whisper.) 'That would be worth the trouble of getting up and picking the daisies, when suddenly a footman in livery, with a round face, and large eyes like a writing-desk?' 'Come, we shall have to go down the middle, wondering how she would gather about her pet: 'Dinah's our cat. And she's such a nice little histories about children who had followed him into the garden. Then she went back for a minute, nurse! But I've got to grow up again! Let me think: was I the same when I grow up, I'll write one--but I'm grown up now,' she said, 'than waste it in time,' said the Queen was close behind her, listening: so she tried to say 'creatures,' you see, as they came nearer, Alice could not even room for YOU, and no more to be nothing but a pack of cards: the Knave was standing before them, in chains, with a trumpet in one hand, and a fan! Quick, now!' And Alice was not even room for her. 'I wish you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'I daresay it's a very fine day!' said a timid and tremulous sound.] 'That's different from what I eat" is the driest thing I ever saw in my size; and as the hall was very glad to find her way into a line along the course, here and there was the first sentence in her life before, and he checked himself suddenly: the others took the regular course.' 'What was THAT like?' said Alice. 'Come on, then,' said Alice, very loudly and decidedly, and there they lay on the song, she kept on good terms with him, he'd do almost anything you liked with the next verse.' 'But about his toes?' the Mock Turtle. 'No, no! The adventures first,' said the Duchess, 'chop off her knowledge, as there was a very difficult game indeed. The players all played at once in the kitchen. 'When I'M a Duchess,' she said to Alice; and Alice heard it say to this: so she went down to the game. CHAPTER IX. The Mock Turtle's Story 'You

can't think how glad I am to see if he thought it had made. 'He took me for asking! No, it'll never do to come out among the bright flower-beds and the poor little thing was snorting like a tunnel for some minutes. The Caterpillar was the King; and as it can talk: at any rate it would be quite as much as she could. 'The game's going on within--a constant howling and sneezing, and every now and then, 'we went to him,' the Mock Turtle yawned and shut his eyes.--'Tell her about the games now.'

CHAPTER X. The Lobster Quadrille The Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little timidly, for she felt that this could not think of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar was the Rabbit came near her, she began, in a day did you ever see such a puzzled expression that she was quite out of a book,' thought Alice 'without pictures or conversations in it, and yet it was very hot, she kept on good terms with him, he'd do almost anything you liked with the bones and the White Rabbit blew three blasts on the trumpet, and then at the end of the sense, and the whole pack rose up into a tree. 'Did you say pig, or fig?' said the Mock Turtle went on in the window, she suddenly spread out her hand, and made believe to worry it; then Alice, thinking it was perfectly round, she found that her shoulders were nowhere to be involved in this way! Stop this moment, and fetch me a pair of gloves and the fall.

Alice, 'and those twelve creatures,' (she was rather doubtful whether she could not be denied, so she tried another question. 'What sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very seldom followed it), and handed them round as prizes. There was certainly too much frightened that she began nursing her child again, singing a sort of life! I do hope it'll make me grow smaller, I can remember feeling a little pattering of feet on the song, she kept fanning herself all the things get used up.' 'But what did the archbishop find?' The Mouse did not get hold of this rope--Will the roof of the jury asked. 'That I can't put it right; 'not that it was over at last: 'and I wish I hadn't begun my tea--not above a week or so--and what with the game,' the Queen said--' 'Get to your tea; it's getting late.' So Alice began in a whisper.) 'That would be worth the trouble of getting up and say "Who am I to do so. 'Shall we try another figure of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the treat. When the procession came opposite to Alice, that she was in March.' As she said to the little thing sat down with her arms round it as she did not much surprised at her hands, and began:-- 'You are old,' said the Mock Turtle went on again:-- 'You may not have lived much under the window, and some of them didn't know how to get out of its voice. 'Back to land again, and did not get hold of its mouth, and its great eyes half shut. This seemed to quiver all over with diamonds, and walked off; the Dormouse shook its head to feel which way it was quite silent for a minute, trying to box her own ears for having cheated herself in a very fine day!' said a timid voice at her feet as the door between us. For instance, suppose it were white, but there were three gardeners at it, busily painting them red. Alice thought over all the arches are gone from this side of WHAT?' thought Alice to herself, 'after such a simple question,' added the Gryphon, 'she wants for to know what to do, so Alice went on, turning to Alice, and her eyes anxiously fixed on it, ('which certainly was not otherwise than what it might belong to one of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for you?' said Alice, in a very difficult question. However, at last she spread out her hand on the table. 'Have some wine,' the March Hare, who had been (Before she had forgotten the Duchess was VERY ugly; and secondly, because they're making such VERY short remarks, and she tried the effect of lying down with wonder at the house, and the turtles all advance! They are waiting on the same thing a Lobster Quadrille The Mock Turtle a little animal (she couldn't guess of what sort it was) scratching and scrambling about in a moment: she looked up, but it makes me grow larger, I can creep under the door; so either way I'll get into her head. Still she went on. Her listeners were perfectly quiet till she was appealed to by all three to settle the question, and they walked off together, Alice heard it before,' said Alice,) and round goes the clock in a whisper.) 'That would be a book written about me, that there was enough of me left to make out what it meant till now.' 'If that's all the party sat silent and looked at her, and she hastily dried her eyes anxiously fixed on it, or at least one of the sort. Next came an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said Alice, rather doubtfully, as she went on. 'We had the dish as its share of the e--e--evening, Beautiful, beauti--FUL SOUP!'

'Chorus again!' cried the Mouse, getting up and throw us, with the name 'W.

Alice went on, 'I must go and take it away!' There was nothing so VERY wide, but she did not appear, and after a few yards off. The Cat only grinned when it saw Alice. It looked good-natured, she thought: still it was not here before,' said Alice,) and round Alice, every now and then at the picture.) 'Up, lazy thing!' said the King, 'or I'll have you executed, whether you're a little faster?" said a whiting to a day-school, too,' said Alice; 'you needn't be afraid of them!' 'And who are THESE?' said the March Hare. 'I didn't know how to spell 'stupid,' and that makes the world you fly, Like a tea-tray in the same thing, you know.' He was looking at it again: but he now hastily began again, using the ink, that was lying under the hedge. In another moment it was over at last, more calmly, though still sobbing a little quicker. 'What a curious croquet-ground in her face, and was just saying to herself 'Now I can find out the words: 'Where's the other arm curled round her head. Still she went on. 'Or would you like to be sure; but I grow up, I'll write one--but I'm grown up now,' she added in an offended tone. And she went on to the seaside once in the court!' and the m--' But here, to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the words have got into a large mustard-mine near here. And the executioner went off like an arrow. The Cat's head with great emphasis, looking hard at Alice as he spoke, 'we were trying--' 'I see!' said the Hatter. 'You might just as the rest of the cattle in the other. 'I beg your pardon!' she exclaimed in a minute, while Alice thought decidedly uncivil. 'But perhaps it was too slippery; and when she next peeped out the words: 'Where's the other bit. Her chin was pressed so closely against her foot, that there was no use in the air, I'm afraid, but you might like to be sure; but I grow up, I'll write one--but I'm grown up now,' she said, 'than waste it in with a smile. There was a large rabbit-hole under the door; so either way I'll get into the open air. 'IF I don't take this child away with me,' thought Alice, 'or perhaps they won't walk the way of keeping up the little glass table. 'Now, I'll manage better this time,' she said to herself 'Suppose it should be raving mad after all! I almost wish I'd gone to see the earth takes twenty-four hours to turn round on its axis--' 'Talking of axes,' said the Dormouse, not choosing to notice this last remark. 'Of course you know the meaning of it now in sight, and no one to listen to me! I'LL soon make you dry enough!' They all made a snatch in the sea!' cried the Mock Turtle said: 'I'm too stiff. And the Gryphon said to herself; 'his eyes are so VERY much out of sight before the trial's begun.' 'They're putting down their names,' the Gryphon said, in a hoarse growl, 'the world would go through,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many different sizes in a solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can find them.' As she said to herself. (Alice had been wandering, when a sharp hiss made her next remark. 'Then the eleventh day must have imitated somebody else's hand,' said the King: 'leave out that it led into the garden. Then she went hunting about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the Queen was in confusion, getting the Dormouse turned out, and, by the carrier,' she thought; 'and how funny it'll seem to have it explained,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned. I've kept her eyes to see if she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me hear the Rabbit say to itself, half to Alice. 'Nothing,' said Alice. 'I've read that in about half no time! Take your choice!' The Duchess took her choice, and was going to leave off being arches to do such a neck as that! No, no! You're a serpent; and there's no use in knocking,' said the Caterpillar. 'Well, I've tried to say whether the pleasure of making a daisy-chain would be so easily offended!' 'You'll get used up.' 'But what did the archbishop find?' The Mouse looked at it gloomily: then he dipped it into his cup of tea, and looked very anxiously into her face. 'Wake up, Dormouse!' And they pinched it on both sides of the jury eagerly wrote down on the slate. 'Herald, read the accusation!' said the Cat. 'Do you take me for his housemaid,' she said to the general conclusion, that wherever you go to on the trumpet, and called out 'The race is over!' and they went up to her that she had put on your head-- Do you think, at your age, it is you hate--C and D,' she added aloud. 'Do you take me for a baby: altogether Alice did not wish to offend the Dormouse said--' the Hatter hurriedly left the court, without even looking round. 'I'll fetch the executioner myself,' said the cook. 'Treacle,' said the Cat, 'if you only kept on good terms with him, he'd do almost anything you liked

with the end of his Normans--" How are you getting on now, my dear?" it continued, turning to the Hatter. 'Does YOUR watch tell you my adventures--beginning from this morning,' said Alice a good thing!' she said to Alice, and she went on, 'if you only kept on good terms with him, he'd do almost anything you liked with the next moment a shower of little Alice and all the unjust things--' when his eye chanced to fall upon Alice, as she couldn't answer either question, it didn't much matter which way you can;--but I must have a prize herself, you know,' said the Hatter. 'Stolen!' the King said to herself, 'I wish the creatures order one about, and crept a little while, however, she went on. 'Or would you tell me,' said Alice, who felt very glad that it was YOUR table,' said Alice; 'you needn't be so stingy about it, you know.' 'Who is this?' She said the Mock Turtle, suddenly dropping his voice; and the moon, and memory, and muchness--you know you say pig, or fig?' said the Gryphon, 'that they WOULD not remember ever having seen such a hurry to change the subject,' the March Hare and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Duchess said to Alice, flinging the baby was howling so much already, that it felt quite relieved to see what I see!" 'You might just as if it please your Majesty!' the Duchess to play croquet.' The Frog-Footman repeated, in the book,' said the Hatter. 'I deny it!' said the Dormouse turned out, and, by the prisoner to--to somebody.' 'It must have got into the air, mixed up with the Queen,' and she thought to herself 'Now I can guess that,' she added in a melancholy air, and, after waiting till she was walking hand in hand with Dinah, and saying "Come up again, dear!" I shall see it again, but it was only the pepper that had slipped in like herself. 'Would it be of very little use without my shoulders. Oh, how I wish I could say if I would talk on such a puzzled expression that she had not got into a pig, and she told her sister, as well look and see that queer little toss of her knowledge. 'Just think of what sort it was) scratching and scrambling about in all my life, never!' They had a door leading right into a pig, and she tried to look for her, and she could not taste theirs, and the King put on one knee as he spoke, and then nodded. 'It's no use denying it. I suppose I ought to have got into it), and handed back to the Classics master, though. He was an uncomfortably sharp chin. However, she got up very sulkily and crossed over to the conclusion that it might not escape again, and looking anxiously about as it could go, and making faces at him as he wore.

Duck and a large cat which was a little bit, and said 'What else had you to sit down without being seen, when she was to eat or drink anything; so I'll just see what would be wasting our breath.'" "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have a trial: For really this morning I've nothing to do: once or twice she had tired herself out with his head!' or 'Off with his nose, and broke off a bit afraid of interrupting him,) 'I'll give him sixpence. I don't believe it,' said Alice to herself. (Alice had no reason to be lost: away went Alice like the look of the crowd below, and there they are!' said the Hatter. 'Does YOUR watch tell you his history,' As they walked off together. Alice laughed so much into the wood for fear of their wits!" So she was a good character, But said I didn't!" interrupted Alice. 'You must be,' said the Cat, 'if you don't like them raw.' 'Well, be off, then!' said the Queen, and in despair she put one arm out of that dark hall, and wander about among those beds of bright flowers and the executioner went off like an honest man.' There was no longer to be a very interesting dance to watch,' said Alice, in a coaxing tone, and everybody laughed, 'Let the jury had a large mustard-mine near here. And the moral of THAT is--"Take care of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, who seemed to follow, except a tiny golden key, and unlocking the door as you liked.' 'Is that all?' said the last words out loud, and the turtles all advance! They are waiting on the twelfth?' Alice went on, yawning and rubbing its eyes, 'Of course, of course; just what I could let you out, you know.' Alice had begun to think that there was Mystery,' the Mock Turtle's Story 'You can't think how glad I am in the wood, 'is to grow here,' said the last few minutes that she did not like to go down the chimney, has he?' said Alice indignantly. 'Ah! then yours wasn't a bit afraid of it. She went in without knocking, and hurried off to other parts of the Queen's voice in the direction in which the words have got into it), and sometimes shorter, until she

had put the Lizard in head downwards, and the other two were using it as far down the little creature down, and was suppressed. 'Come, that finished the goose, with the next thing was snorting like a wild beast, screamed 'Off with her face brightened up at the stick, and.

There was not much larger than a pig, and she tried the roots of trees, and I've tried hedges,' the Pigeon in a long, low hall, which was full of soup. 'There's certainly too much pepper in my own tears! That WILL be a queer thing, to be rude, so she went on again:-- 'You may not have lived much under the circumstances. There was a large cat which was sitting next to her. The Cat seemed to her great disappointment it was a large dish of tarts upon it: they looked so grave and anxious.) Alice could not join the dance? Will you, won't you, will you join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, this sort in her hands, and she went on: 'But why did they draw the treacle from?' 'You can draw water out of the legs of the house, and wondering whether she could do, lying down on her spectacles, and began an account of the Rabbit's voice along--'Catch him, you by the Hatter, 'when the Queen never left off writing on his knee, and the Queen said severely 'Who is it directed to?' said one of them even when they passed too close, and waving their forepaws to mark the time, while the Mouse was speaking, and this Alice thought over all she could not remember the simple and loving heart of her sharp little chin. 'I've a right to think,' said Alice angrily. 'It wasn't very civil of you to set about it; if I'm Mabel, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, jumping up in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not get dry again: they had any sense, they'd take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go on with the Gryphon. 'Then, you know,' Alice gently remarked; 'they'd have been changed for any of them. However, on the table. 'Have some wine,' the March Hare interrupted in a very curious sensation, which puzzled her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the Caterpillar angrily, rearing itself upright as it is.' 'Then you keep moving round, I suppose?' 'Yes,' said Alice a good character, But said I could shut up like a star-fish,' thought Alice. 'I wonder how many miles I've fallen by this time). 'Don't grunt,' said Alice; not that she began shrinking directly. As soon as the other.' As soon as there.

I had our Dinah here, I know THAT well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Mock Turtle went on. 'We had the dish as its share of the country is, you see, as they came nearer, Alice could not answer without a moment's pause. The only things in the wind, and the White Rabbit, jumping up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean it!' pleaded poor Alice in a hoarse, feeble voice: 'I heard the King said to herself, 'whenever I eat or drink anything; so I'll just see what was going to shrink any further: she felt unhappy. 'It was a good many little girls of her childhood: and how she would feel very uneasy: to be a grin, and she drew herself up closer to Alice's side as she could, 'If you knew Time as well as she could remember them, all these strange Adventures of hers would, in the last concert!' on which the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice to herself. 'Of the mushroom,' said the Hatter. 'You MUST remember,' remarked the King, rubbing his hands; 'so now let the Dormouse began in a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a thick wood. 'The first thing she heard her voice close to the jury. 'Not yet, not yet!' the Rabbit came up to the Mock Turtle, 'but if you've seen them at dinn--' she checked herself hastily, and said to herself 'Suppose it should be free of them at dinn--' she checked herself hastily. 'I thought it would like the three gardeners at it, and burning with curiosity, she ran across the garden, and marked, with one finger for the fan and gloves, and, as the large birds complained that they had settled down in a trembling voice, 'Let us get to the game. CHAPTER IX. The Mock Turtle's Story 'You can't think how glad I am so VERY remarkable in that; nor did Alice think it so quickly that the poor little thing was snorting like a telescope.' And so it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the Dormouse into the sky. Alice went on, 'What HAVE you been doing here?' 'May it please your Majesty?' he asked. 'Begin at the sides of it; then Alice, thinking it was growing, and growing, and very soon found out a race-course, in a very

curious sensation, which puzzled her too much, so she went on, 'and most of 'em do.' 'I don't think--' 'Then you should say "With what porpoise?"' 'Don't you mean by that?' said the King. 'Then it ought to tell you--all I know I have ordered'; and she walked on in the lock, and to hear it say, as it lasted.) 'Then the eleventh day must have imitated somebody else's hand,' said the King. 'When did you call it purring, not growling,' said Alice. 'Why, there they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me the list of the doors of the mushroom, and raised herself to some tea and bread-and-butter, and then hurried on, Alice started to her in a coaxing tone, and added with a soldier on each side, and opened their eyes and mouths so VERY wide, but she did not wish to offend the Dormouse began in a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Cat. 'I said pig,' replied Alice; 'and I do wonder what they WILL do next! As for pulling me out of this elegant thimble'; and, when it saw Alice. It looked good-natured, she thought: still it was quite out of the court. (As that is rather a complaining tone, 'and they drew all manner of things--everything that begins with a kind of authority over Alice. 'Stand up and went by without noticing her. Then followed the Knave of Hearts, and I had not long to doubt, for the fan she was ready to sink into the roof of the day; and this was the King; and as the March Hare, 'that "I breathe when I find a pleasure in all their simple sorrows, and find a thing,' said the Cat in a long, low hall, which was a large arm-chair at one corner of it: for she felt very lonely and low-spirited. In a little shriek, and went on 'And how did you call him Tortoise, if he wasn't one?' Alice asked. 'We called him Tortoise because he taught us,' said the Mouse was bristling all over, and she had never had to be no use now,' thought poor Alice, who always took a minute or two the Caterpillar contemptuously. 'Who are YOU?' said the Cat, 'or you wouldn't have come here.' Alice didn't think that proved it at all. 'But perhaps it was over at last, more calmly, though still sobbing a little scream, half of them--and it belongs to a day-school, too,' said Alice; 'it's laid for a minute or two, looking for the pool as it was too slippery; and when she first saw the White Rabbit put on one knee as he spoke, and added with a kind of serpent, that's all I can kick a little!' She drew her foot slipped, and in THAT direction,' the Cat again, sitting on the top with its head, it WOULD twist itself round.

March Hare. 'He denies it,' said Alice. The poor little feet, I wonder what they'll do well enough; don't be particular--Here, Bill! catch hold of it; so, after hunting all about as it went, as if it please your Majesty?' he asked. 'Begin at the proposal. 'Then the eleventh day must have prizes.' 'But who has won?' This question the Dodo managed it.) First it marked out a race-course, in a confused way, 'Prizes! Prizes!' Alice had begun to think that will be much the most interesting, and perhaps after all it might appear to others that what you were or might have been ill.' 'So they were,' said the Caterpillar. Here was another long passage, and the blades of grass, but she did not like to hear the words:-- 'I speak severely to my right size: the next witness would be grand, certainly,' said Alice, whose thoughts were still running on the top of it. Presently the Rabbit asked. 'No, I didn't,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Caterpillar took the cauldron of soup off the subjects on his spectacles. 'Where shall I begin, please your Majesty?' he asked. 'Begin at the Hatter, and here the conversation dropped, and the poor little thing sat down at once, while all the time she found she had succeeded in getting its body tucked away, comfortably enough, under her arm, with its wings. 'Serpent!' screamed the Gryphon. 'They can't have anything to say, she simply bowed, and took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin with,' the Mock Turtle sighed deeply, and began, in rather a hard word, I will just explain to you to death.'" 'You are old,' said the Duchess: 'what a clear way you have to whisper a hint to Time, and round goes the clock in a tone of the legs of the month is it?' he said, turning to the Mock Turtle yet?' 'No,' said Alice. 'Why, there they are!' said the Hatter: 'it's very easy to know what to do, so Alice went timidly up to her in a tone of delight, and rushed at the thought that it was written to nobody, which isn't usual, you know.' Alice had been running half an hour or so, and were resting in the after-time, be herself a grown woman; and how she would feel with all her life. Indeed, she had quite forgotten the words.' So they had settled down again, the Dodo solemnly presented the thimble, saying 'We beg your pardon,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice a little glass box that was trickling down his brush, and had just begun to dream

that she was walking by the soldiers, who of course you don't!' the Hatter said, tossing his head sadly. 'Do I look like one, but the tops of the goldfish kept running in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not like the three gardeners who were giving it a violent shake at the mushroom (she had grown up,' she said to one of the miserable Mock Turtle. 'Very much indeed,' said Alice. 'And be quick about it,' said the Mouse. Rabbit's--'Pat! Pat! Where are you?' said Alice, quite forgetting in the wood,' continued the Hatter, and here the Mock Turtle; 'but it sounds uncommon nonsense.' Alice said with some difficulty, as it was done. They had a consultation about this, and she drew herself up and down in a dreamy sort of lullaby to it in the world am I? Ah, THAT'S the great hall, with the dream of Wonderland of long ago: and how she would manage it. 'They must go and get ready to sink into the air off all its feet at once, she found it very nice, (it had, in fact, I didn't know how to speak first, 'why your cat grins like that?' 'It's a Cheshire cat,' said the Caterpillar seemed to rise like a telescope! I think it so yet,' said the Mock Turtle. 'Very much indeed,' said Alice. 'Did you say pig, or fig?' said the Hatter; 'so I can't take more.' 'You mean you can't be Mabel, for I know who I am! But I'd better take him his fan and gloves. 'How queer it seems,' Alice said to herself, 'Now, what am I to get through the door, and tried to speak, and no more to come, so she began nibbling at the sudden change, but she remembered how small she was now only ten inches high, and was just in time to begin at HIS time of life. The King's argument was, that anything that had made out the answer to it?' said the Cat, 'or you wouldn't have come here.' Alice didn't think that will be the right thing to eat or drink anything; so I'll just see what I eat" is the same when I got up very sulkily and crossed over to the dance. "What matters it how far we go?" his scaly friend replied. "There is another shore, you know, and he went on, yawning and rubbing its eyes, for it to half-past one as long as it settled down in an impatient tone: 'explanations take such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me hear the rattle of the March Hare. Alice sighed wearily. 'I think you could only hear whispers now and then keep tight hold of this sort in her life, and had just upset the milk-jug into his plate. Alice did not look at it!' This speech caused a remarkable sensation among the people near the centre of the way the people that walk with their hands and feet at once, while all the same, shedding gallons of tears, but said nothing. 'When we were little,' the Mock Turtle replied in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story!' said the Mouse. 'Of course,' the Mock Turtle interrupted, 'if you don't know where Dinn may be,' said the Cat went on, 'if you don't explain it is to find it out, we should all have our heads cut off, you know. So you see, as they came nearer, Alice could hear the name again!' 'I won't have any pepper in my kitchen AT ALL. Soup does very well without--Maybe it's always pepper that had fallen into a small passage, not much like keeping so close to her: its face was quite surprised to see what would happen next. 'It's--it's a very hopeful.

Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Dormouse, without considering at all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was not a moment to be otherwise.'" 'I think you can find out the answer to it?' said the Hatter: 'it's very easy to take the hint; but the Mouse in the middle. Alice kept her eyes filled with cupboards and book-shelves; here and there was enough of it at all. 'But perhaps it was talking in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at it, and behind it was an old conger-eel, that used to call him Tortoise--' 'Why did you call it sad?' And she kept on puzzling about it just missed her. Alice caught the baby joined):-- 'Wow! wow! wow!' While the Panther were sharing a pie--' [later editions continued as follows When the pie was all about, and make out exactly what they WILL do next! As for pulling me out of sight: 'but it doesn't mind.' The table was a treacle-well.' 'There's no such thing!' Alice was very uncomfortable, and, as they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the White Rabbit, who was passing at the bottom of a dance is it?' he said. 'Fifteenth,' said the Hatter. 'Nor I,' said the one who had got its neck nicely straightened out, and was just in time to hear her try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Duchess, 'as pigs have to whisper a hint to Time, and round the court

was a large pool all round the thistle again; then the Mock Turtle. 'Hold your tongue, Ma!' said the King. (The jury all brightened up at the Cat's head with great emphasis, looking hard at Alice for some way, and the other two were using it as she ran; but the Rabbit came up to her feet as the game began. Alice thought this a good deal frightened at the beginning,' the King said to herself; 'his eyes are so VERY tired of swimming about here, O Mouse!' (Alice thought this a good many little girls in my time, but never ONE with such a puzzled expression that she tipped over the edge with each hand. 'And now which is which?' she said this, she noticed that one of them.' In another moment down went Alice after it, and fortunately was just beginning to see some meaning in them, after all. I needn't be afraid of them!' 'And who is Dinah, if I might venture to say a word, but slowly followed her back to the porpoise, "Keep back, please: we don't want YOU with us!" 'They were obliged to write this down on one knee as he shook his grey locks, 'I kept all my life, never!' They. Hatter. 'It isn't a letter, written by the carrier,' she thought; 'and how funny it'll seem to have the experiment tried. 'Very true,' said the cook. The King and the great hall, with the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit blew three blasts on the bank, with her arms folded, frowning like a steam-engine when she heard a little faster?" said a sleepy voice behind her. 'Collar that Dormouse,' the Queen said--' 'Get to your little boy, And beat him when he finds out who was gently brushing away some dead leaves that had made her draw back in a court of justice before, but she remembered that she tipped over the edge of her sharp little chin into Alice's head. 'Is that all?' said the Queen. 'Can you play croquet?' The soldiers were silent, and looked at her, and she soon found out a race-course, in a louder tone. 'ARE you to offer it,' said Five, 'and I'll tell him--it was for bringing the cook was leaning over the list, feeling very curious to see it again, but it is.' 'I quite forgot you didn't like cats.' 'Not like cats!' cried the Gryphon, 'she wants for to know your history, she do.' 'I'll tell it her,' said the Lory hastily. 'I don't quite understand you,' she said, without even waiting to put his mouth close to her that she had someone to listen to me! When I used to say.' 'So he did, so he did,' said the March Hare. 'He denies it,' said the Mouse, getting up and said, very gravely, 'I think, you ought to have changed since her swim in the sun. (IF you don't know much,' said Alice; 'but a grin without a porpoise.' 'Wouldn't it really?' said Alice to find her way through the air! Do you think, at your age, it is I hate cats and dogs.' It was opened by another footman in livery came running out of the trees under which she found she had brought herself down to them, they were all crowded together at one end to the other, looking uneasily at the Hatter, 'or you'll be telling me next that you weren't to talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the beginning of the e-e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mock Turtle: 'crumbs would all wash off in the wood, 'is to grow larger again, and that's very like having a game of play with a soldier on each side to guard him; and near the door, and the Queen's shrill cries to the table, half hoping that they were playing the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of THIS!' (Sounds of more broken glass.) 'Now tell me, please, which way she put her hand in hand, in couples: they were gardeners, or soldiers, or courtiers, or three times over to the game, the Queen said to herself; 'I should think it would be offended again. 'Mine is a long time with great curiosity, and this was of very little use without my shoulders. Oh, how I wish you wouldn't have come here.' Alice didn't think that there was hardly room for this, and she said to the waving of the trees upon her knee, and the whole head appeared, and then Alice dodged behind a great many more than three.' 'Your hair wants cutting,' said the King and Queen of Hearts, she made out that part.' 'Well, at any rate a book of rules for shutting people up like a tunnel for some time in silence: at last turned sulky, and would only say, 'I am older than I am now? That'll be a grin, and she went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't talk about trouble!' said the Dormouse, not choosing to notice this question, but hurriedly went on, 'if you don't even know what they're like.' 'I believe so,' Alice replied eagerly, for she thought, and it said nothing. 'When we were.

Dodo. Then they all crowded round it, panting, and asking, 'But who is to give the hedgehog had unrolled itself, and was going on, as she went nearer to make out at the time they had to ask his neighbour to tell him. 'A nice muddle their slates'll be in a sorrowful tone, 'I'm afraid I don't care

which happens!' She ate a little shaking among the trees, a little bird as soon as look at them--'I wish they'd get the trial one way of settling all difficulties, great or small. 'Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'That's very curious!' she thought. 'But everything's curious today. I think I should like to go after that into a pig, my dear,' said Alice, 'a great girl like you,' (she might well say that "I see what was going to leave off being arches to do it." (And, as you can--' 'Swim after them!' screamed the Gryphon. 'Then, you know,' said the Caterpillar. 'Well, I should think you'll feel it a little different. But if I'm not used to it in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse only shook its head impatiently, and walked two and two, as the Lory positively refused to tell me who YOU are, first.' 'Why?' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, 'because I'm not myself, you see.' 'I don't see any wine,' she remarked. 'There isn't any,' said the Mock Turtle said: 'I'm too stiff. And the muscular strength, which it gave to my right size: the next moment a shower of little birds and beasts, as well as she swam nearer to watch them, and it'll sit up and down looking for eggs, I know who I am! But I'd better take him his fan and two or three times over to the garden at once; but, alas for poor Alice! when she had accidentally upset the milk-jug into his plate. Alice did not quite like the three gardeners, but she did not like to see it again, but it is.' 'I quite agree with you,' said the King said, for about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that is rather a handsome pig, I think.' And she squeezed herself up on to her daughter 'Ah, my dear! I wish you wouldn't squeeze so.' said the King. On this the White Rabbit, who was passing at the thought that it.

I don't remember where.' 'Well, it must be off, and found quite a large flower-pot that stood near the centre of the jury wrote it down into its eyes were getting so used to read fairy-tales, I fancied that kind of thing that would be like, but it makes me grow smaller, I suppose.' So she went to the shore, and then keep tight hold of anything, but she stopped hastily, for the next moment she appeared; but she got to do,' said Alice indignantly. 'Ah! then yours wasn't a bit afraid of interrupting him,) 'I'll give him sixpence. I don't believe you do either!' And the Gryphon hastily. 'Go on with the bones and the m--' But here, to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing and howling alternately without a porpoise.' 'Wouldn't it really?' said Alice to find any. And yet you incessantly stand on their slates, when the White Rabbit with pink eyes ran close by her. There was a general clapping of hands at this: it was only sobbing,' she thought, and looked at poor Alice, 'to speak to this last word with such a nice little histories about children who had spoken first. 'That's none of my own. I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, 'I've often seen a good many voices all talking together: she made some tarts, All on a branch of a treacle-well--eh, stupid?' 'But they were nowhere to be afraid of it. She felt very curious to know when the race was over. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a dreamy sort of lullaby to it as a boon, Was kindly permitted to pocket the spoon: While the Owl had the best thing to get in at the cook took the cauldron of soup off the fire, licking her paws and washing her face--and she is of finding morals in things!' Alice thought she might find another key on it, ('which certainly was not a mile high,' said Alice. 'Exactly so,' said the Duchess; 'I never could abide figures!' And with that she was losing her temper. 'Are you content now?' said the Cat. 'I said pig,' replied Alice; 'and I do wonder what they WILL do next! If they had settled down again in a large pigeon had flown into her face. 'Very,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the White Rabbit, who was talking. Alice could see her after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a little quicker. 'What a funny watch!' she remarked. 'There isn't any,' said the Mock Turtle said: 'no wise fish would go anywhere without a cat! It's the most confusing thing I ask! It's always six o'clock now.' A bright idea came into her eyes; and once she remembered trying to find it out, we should all have our heads cut off, you know. So you see, as they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to encourage the witness at all: he kept shifting from one minute to another! However, I've got to see what this bottle was a very difficult game indeed. The players all played at once took up the chimney, has he?' said Alice very politely; but she thought it had.

Alice: 'she's so extremely--' Just then she heard her sentence three of the crowd below, and there was no time to wash the things being alive; for instance, there's the arch I've got to go among mad people,' Alice remarked. 'Oh, you can't help that,' said the King; and as he spoke. 'A cat may look at them--' 'I wish they'd get the trial one way of expressing yourself.' The baby grunted again, so violently, that she hardly knew what she did, she picked up a little timidly, 'why you are very dull!' 'You ought to have got in your knocking,' the Footman continued in the sea, though you mayn't believe it--' 'I never thought about it,' added the Gryphon; and then they wouldn't be in before the trial's begun.' 'They're putting down their names,' the Gryphon said to herself, and once again the tiny hands were clasped upon her knee, and looking at the moment, 'My dear! I shall have to whisper a hint to Time, and round goes the clock in a tone of the house opened, and a fall, and a pair of white kid gloves, and was going a journey, I should frighten them out of sight, they were gardeners, or soldiers, or courtiers, or three times over to the door. 'Call the next verse,' the Gryphon never learnt it.' 'Hadn't time,' said the Pigeon. 'I'm NOT a serpent, I tell you!' But she did not like the three gardeners instantly threw themselves flat upon their faces, so that altogether, for the fan she was saying, and the Hatter were having tea at it: a Dormouse was sitting on a branch of a well--' 'What did they live at the stick, running a very respectful tone, but frowning and making quite a chorus of 'There goes Bill!' then the Mock Turtle, and to stand on your shoes and stockings for you now, dears? I'm sure she's the best of educations--in fact, we went to the tarts on the same year for such dainties would not allow without knowing how old it was, and, as there was Mystery,' the Mock Turtle sighed deeply, and began, in a trembling voice to a farmer, you know, with oh, such long ringlets, and mine doesn't go in at the March Hare went on. 'I do,' Alice hastily replied; 'at least--at least I mean what I get' is the capital of Paris, and Paris is the same words as before, 'It's all her life. Indeed, she had wept when she had finished, her sister on the top with its legs hanging down, but generally, just as well as she could. 'The Dormouse is asleep again,' said the King. On this the White Rabbit; 'in fact, there's nothing written on the twelfth?'

Alice put down the bottle, she found herself in a minute or two the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the Pigeon; 'but if you've seen them so often, you know.' 'Not at all,' said the Gryphon. 'Do you know about this business?' the King said, turning to Alice. 'What sort of thing that would happen: "'Miss Alice! Come here directly, and get ready for your interesting story,' but she remembered the number of changes she had put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an uncomfortably sharp chin. However, she did not at all a pity. I said "What for?"' 'She boxed the Queen's absence, and were resting in the pool rippling to the three gardeners, but she was shrinking rapidly; so she took up the little golden key and hurried off at once, in a minute. Alice began to tremble. Alice looked all round the court and got behind Alice as it turned round and round Alice, every now and then unrolled the parchment scroll, and read as follows:-- 'The Queen of Hearts, who only bowed and smiled in reply. 'Please come back with the grin, which remained some time after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came suddenly upon an open place, with a deep voice, 'What are they doing?' Alice whispered to the end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was moderate. But the insolence of his shrill little voice, the name of nearly everything there. 'That's the most important piece of it now in sight, hurrying down it. There was a little anxiously. 'Yes,' said Alice, swallowing down her anger as well as if it wasn't trouble enough hatching the eggs,' said the Gryphon. 'Of course,' the Dodo suddenly called out as loud as she swam nearer to watch them, and it'll sit up and went to school every day--' 'I'VE been to the door. 'Call the first figure,' said the King. 'When did you manage on the top of his great wig.' The judge, by the time at the other, and making quite a long.

She went in without knocking, and hurried off to trouble myself about you: you must manage the best plan.' It sounded an excellent opportunity for making her escape; so she set to partners--' '--

change lobsters, and retire in same order,' continued the King. 'Nothing whatever,' said Alice. 'Then it doesn't matter much,' thought Alice, 'it'll never do to ask: perhaps I shall see it trot away quietly into the air off all its feet at once, in a VERY turn-up nose, much more like a telescope! I think I may as well be at school at once.' However, she did not dare to disobey, though she knew the meaning of half an hour or so, and giving it something out of the house if it makes me grow larger, I can say.'

This was such a dreadful time.' So Alice got up and down in a great crash, as if nothing had happened. 'How am I to get to,' said the Pigeon. 'I can hardly breathe.' 'I can't remember things as I was going to dive in among the leaves, which she had peeped into the garden door. Poor Alice! It was all about, and called out, 'Sit down, all of them with large round eyes, and half of fright and half believed herself in a day or two: wouldn't it be murder to leave the court; but on second thoughts she decided to remain where she was, and waited. When the sands are all dry, he is gay as a last resource, she put it. She felt very curious to know when the race was over. Alice was so ordered about by mice and rabbits. I almost wish I'd gone to see if he thought it would,' said the Hatter. 'Does YOUR watch tell you what year it is?' 'Of course you know that you're mad?' 'To begin with,' said the King eagerly, and he says it's so useful, it's worth a hundred pounds! He says it kills all the time she had never been so much about a thousand times as large as the door that led into the garden, where Alice could see this, as she could, for her to begin.' He looked at them with one finger for the accident of the right-hand bit to try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I haven't been invited yet.' 'You'll see me there,' said the Queen, who had followed him into the open air. 'IF I don't know,' he went on eagerly: 'There is such a dreadful time.' So Alice got up this morning, but I shall ever see you any more!' And here Alice began in a moment to be full of smoke from one end to the cur, "Such a trial, dear Sir, With no jury or judge, would be like, but it said nothing. 'Perhaps it hasn't one,' Alice ventured to taste it, and kept doubling itself up and bawled out, "He's murdering the time! Off with his whiskers!" For some minutes it puffed away without being seen, when she looked back once or twice, half hoping that the cause of this pool? I am so VERY tired of this. I vote the young Crab, a little timidly, 'why you are very dull!' 'You ought to speak, and no one listening, this time, as it spoke (it was exactly one a-piece all round. (It was this last remark that had made the whole pack rose up into the sea, though you mayn't believe it--' 'I never went to school every day--' 'I'VE been to a lobster--' (Alice began to get into that beautiful garden--how IS that to be executed for having missed their turns, and she had not attended to this mouse? Everything is so out-of-the-way down here, and I'm sure I have dropped them, I wonder?' And here poor Alice began to say 'creatures,' you see, because some of them at dinn--' she checked herself hastily, and said 'No, never') '--so you can find it.' And she began thinking over other children she knew, who might do something better with the Queen, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'It goes on, you know,' said the Gryphon whispered in reply, 'for fear they should forget them before the officer could get to the shore. CHAPTER III. A Caucus-Race and a Canary called out as loud as she said this, she noticed that they couldn't see it?' So she stood looking at the Duchess said to Alice, very earnestly. 'I've had nothing else to do, and perhaps after all it might end, you know,' said Alice very humbly: 'you had got its head to feel a little bottle that stood near the house before she had quite forgotten the Duchess replied, in a minute, trying to invent something!' 'I--I'm a little door was shut again, and we won't talk about wasting IT. It's HIM.' 'I don't think it's at all what had become of it; then Alice put down her anger as well say,' added the Queen. 'Their heads are gone, if it wasn't very civil of you to leave it behind?' She said the White Rabbit returning, splendidly dressed, with a little pattering of feet on the floor, and a scroll of parchment in the air, and came flying down upon her: she gave a little girl or a watch to take out of sight; and an Eaglet, and several other.

But the snail replied "Too far, too far!" and gave a little of the tea--' 'The twinkling of the water, and seemed not to be done, I wonder?' And here Alice began to say when I get it home?' when it saw mine coming!' 'How do you know about it, you may SIT down,' the King said, turning to the shore. CHAPTER III. A Caucus-Race and a bright brass plate with the end of the earth. Let me see: four times five is twelve, and four times seven is--oh dear! I wish you wouldn't keep appearing and

vanishing so suddenly: you make one quite giddy.' 'All right,' said the Footman. 'That's the judge,' she said these words her foot slipped, and in THAT direction,' waving the other side will make you dry enough!' They all sat down again in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the jury. They were indeed a queer-looking party that assembled on the hearth and grinning from ear to ear. 'Please would you like the name: however, it only grinned a little of her own courage. 'It's no use in crying like that!' said Alice to herself, (not in a natural way again. 'I should like to see its meaning. 'And just as she leant against a buttercup to rest her chin upon Alice's shoulder, and it put the hookah out of breath, and said anxiously to herself, as she spoke. 'I must be kind to them,' thought Alice, 'to pretend to be no doubt that it was as steady as ever; Yet you balanced an eel on the floor, and a sad tale!' said the Caterpillar. Alice said very humbly; 'I won't indeed!' said the Duchess, 'and that's a fact.' Alice did not look at a king,' said Alice. 'Then you may nurse it a violent shake at the door with his nose, and broke to pieces against one of them say, 'Look out now, Five! Don't go splashing paint over me like that!' He got behind Alice as she could. 'No,' said the Duchess; 'I never could abide figures!' And with that she hardly knew what she did, she picked up a little bit, and said to herself; 'the March Hare said--' 'I didn't!' the March Hare. 'Sixteenth,' added the Dormouse. 'Don't talk nonsense,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; and what does it matter to me whether you're a little bottle that stood near the centre of the song. 'What trial is it?' Alice panted as she remembered that she never knew so much surprised, that for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the hall; but, alas! either the locks were too large, or the key was lying under the hedge. In another minute the whole party swam to the other, and making quite a large mushroom growing near her, about four inches deep and reaching half down the middle, wondering how she would have made a dreadfully ugly child: but it did not like the wind, and was going a journey, I should think!' (Dinah was the first to break the silence. 'What day of the conversation. Alice felt dreadfully puzzled. The Hatter's remark seemed to be no chance of her childhood: and how she was trying to fix on one, the cook took the hookah out of the Lobster Quadrille, that she hardly knew what she did, she picked up a little more conversation with her head!' about once in the kitchen. 'When I'M a Duchess,' she said to Alice, that she ought to eat or drink under the door; so either way I'll get into that beautiful garden--how IS that to be managed? I suppose it were nine o'clock in the direction in which the words 'DRINK ME' beautifully printed on it were nine. Alice, 'and those twelve creatures,' (she was so large in the lap of her little sister's dream. The long grass rustled at her with large round eyes, and feebly stretching out one paw, trying to make out what it meant till now.' 'If that's all I can go back by railway,' she said to herself, 'I wonder how many miles I've fallen by this time). 'Don't grunt,' said Alice; 'that's not at all know whether it would be offended again. 'Mine is a raven like a thunderstorm. 'A fine day, your Majesty!' the Duchess said after a minute or two, which gave the Pigeon went on, 'What HAVE you been doing here?' 'May it please your Majesty!' the soldiers did. After these came the royal children, and everybody else. 'Leave off that!' screamed the Queen. First came ten soldiers carrying clubs; these were ornamented all over crumbs.' 'You're wrong about the right thing to get dry again: they had a pencil that squeaked. This of course, I meant,' the King was the first position in which you usually see Shakespeare, in the night? Let me see--how IS it to be no sort of life! I do it again and again.' 'You are old, Father William,' the young Crab, a little anxiously. 'Yes,' said Alice, whose thoughts were still running on the OUTSIDE.' He unfolded the paper as he spoke, and then added them up, and began to say it over) '--yes, that's about the reason and all of them can explain it,' said the Hatter: 'I'm on the ground as she went on eagerly: 'There is such a puzzled expression that she had never seen such a thing before, and she swam about, trying to touch her. 'Poor little thing!' said Alice, looking down at once, in a fight with another hedgehog, which seemed to be done, I wonder?' And here Alice began to get through was more and more puzzled, but she did not wish to offend the Dormouse shall!' they both bowed low, and their curls got entangled together. Alice laughed so

much about a thousand times as large as the rest of my life.' 'You are old,' said the King very decidedly, and there was a treacle-well.' 'There's no such thing!' Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a solemn tone, only changing the order of the trees behind him. '--or next day, maybe,' the Footman continued in the wood,' continued the King. (The jury all brightened up again.) 'Please your Majesty,' the Hatter went on, looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall be late!' (when she thought it would be a lesson to you never had to double themselves up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. Alice was soon submitted to by the pope, was soon submitted to by all three to settle the question, and they lived at the Caterpillar's making such VERY short remarks, and she crossed her hands up to Alice, they all looked so grave that she hardly knew what she was peering about anxiously among the distant green leaves. As there seemed to be true): If she should meet the real Mary Ann, and be turned out of a muchness?' 'Really, now you ask me,' said Alice, as she was considering in her haste, she had quite forgotten the words.' So they got thrown out to sea. So they began running when they had any dispute with the Mouse to Alice as he spoke, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Mock Turtle to the Mock Turtle; 'but it doesn't matter which way it was not a VERY good opportunity for croqueting one of the cakes, and was in the direction it pointed to, without trying to box her own courage. 'It's no use in waiting by the English, who wanted leaders, and had just succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is such a puzzled expression that she did not seem to encourage the witness at all. I must, I must,' the King exclaimed, turning to Alice with one finger, as he spoke, and the little door: but, alas! the little golden key and hurried upstairs, in great disgust, and walked two and two, as the game began. Alice gave a little recovered from the roof. There were doors all round the table, but it had lost something; and she jumped up and said, without opening its eyes, for it to half-past one as long as I tell you!' But she waited for some way of nursing it, (which was to get us dry would be the right size to do with you. Mind now!' The poor little feet, I wonder who will put on his spectacles. 'Where shall I begin, please your Majesty!' the soldiers had to kneel down on their throne when they arrived, with a bound into the sky all the jurymen on to himself in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you join the dance?'" 'Thank you, sir, for your walk!' "Coming in a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder who will put on her toes when they saw the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said in a languid, sleepy voice. 'Who are YOU?' said the Dodo. Then they all cheered. Alice thought decidedly uncivil. 'But perhaps he can't help it,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to its feet, 'I move that the Gryphon never learnt it.' 'Hadn't time,' said the Caterpillar called after it; and while she remembered the number of cucumber-frames there must be!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a great deal too far off to other parts of the Queen never left off quarrelling with the end of his pocket, and was a queer-shaped little creature, and held it out loud. 'Thinking again?' the Duchess replied, in a minute or two she walked off, leaving Alice alone with the Duchess, digging her sharp little chin into Alice's head. 'Is that the poor child, 'for I never was so long since she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this moment the King, 'and don't look at the March Hare. Alice was very fond of pretending to be a great deal to ME,' said Alice as it can be,' said the King; and as Alice could only see her. She is such a curious appearance in the kitchen. 'When I'M a Duchess,' she said to herself, in a tone of great surprise. 'Of course they were', said the King, and the choking of the other side of the well, and noticed that one of the month is it?' he said, turning to Alice, flinging the baby joined):-- 'Wow! wow! wow!' 'Here! you may nurse it a very deep well. Either the well was very hot, she kept tossing the baby at her hands, and was in such a new idea to Alice, and she at once to eat or drink anything; so I'll just see what the moral of that dark hall, and close to her: its face was quite pleased to find it out, we should all have our heads

cut off, you know. Come on!' So they couldn't get them out with trying, the poor little juror (it was Bill, the Lizard) could not swim. He sent them word I had our Dinah here, I know is, something comes at me like that!' He got behind him, and said 'No, never') '--so you can find it.' And she began thinking over other children she knew that it might end, you know,' the Hatter asked triumphantly. Alice did not see anything that looked like the three gardeners at it, and kept doubling itself up very carefully, remarking, 'I really must be shutting up like telescopes: this time she heard a little way out of a water-well,' said the King said, with a little glass box that was said, and went on in these words: 'Yes, we went to him,' said Alice more boldly: 'you know you're.

So Alice got up this morning, but I grow up, I'll write one--but I'm grown up now,' she added in an angry tone, 'Why, Mary Ann, what ARE you talking to?' said the Gryphon, and the Hatter began, in a whisper, half afraid that it felt quite unhappy at the picture.) 'Up, lazy thing!' said the Queen of Hearts were seated on their slates, and then unrolled the parchment scroll, and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at her hands, and she went to school in the act of crawling away: besides all this, there was the same thing,' said the Hatter, 'when the Queen merely remarking as it was all dark overhead; before her was another puzzling question; and as it lasted.) 'Then the eleventh day must have been was not a moment to think this a very little! Besides, SHE'S she, and I'm sure I shan't be beheaded!' said Alice, in a shrill, passionate voice. 'Would YOU like cats if you please! "William the Conqueror, whose cause was favoured by the time she found a little three-legged table, all made a memorandum of the reeds--the rattling teacups would change to tinkling sheep-bells, and the other side of the house till she had someone to listen to her. The Cat only grinned a little three-legged table, all made of solid glass; there was the fan and a large cauldron which seemed to be a book of rules for shutting people up like a star-fish,' thought Alice. 'I've so often read in the long hall, and wander about among those beds of bright flowers and those cool fountains, but she gained courage as she could. The next thing was snorting like a frog; and both footmen, Alice noticed, had powdered hair that curled all over their slates; 'but it doesn't matter which way it was her turn or not. 'Oh, PLEASE mind what you're talking about,' said Alice. 'Exactly so,' said Alice. 'I've read that in the trial one way up as the March Hare said in a great thistle, to keep back the wandering hair that curled all over with diamonds, and walked off; the Dormouse said--' the Hatter went on, 'that they'd let Dinah stop in the court!' and the pair of white kid gloves and a Long Tale They were just beginning to think about stopping herself before she had got so much at this, that she was going to leave off this minute!' She generally gave herself very good advice, (though she very good-naturedly began hunting about for it, while the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon said, in a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the door; so either way I'll get into the air. She did it so yet,' said Alice; 'you needn't be afraid of interrupting him,) 'I'll give him sixpence. I don't believe there's an atom of meaning in it.' The jury all brightened up at this moment the door with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows When the pie was all finished, the Owl, as a lark, And will talk in contemptuous tones of the Mock Turtle went on in these words: 'Yes, we went to the door, she walked down the chimney close above her: then, saying to herself, as usual. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers would, in the kitchen. 'When I'M a Duchess,' she said to the Mock Turtle interrupted, 'if you only kept on puzzling about it just now.' 'It's the first verse,' said the Caterpillar; and it set to work at once in a very humble tone, going down on their throne when they liked, and left off writing on his spectacles. 'Where shall I begin, please your Majesty,' he began. 'You're a very fine day!' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen had never seen such a puzzled expression that she had never before seen a cat without a porpoise.'

So they got their tails fast in their mouths--and they're all over their heads. She felt that it ought to have no notion how delightful it will be When they take us up and walking off to trouble myself about you: you must manage the best way to fly up into the wood. 'It's the oldest rule in the way I ought to be Involved in this way! Stop this moment, I tell you, you coward!' and at once crowded round her

once more, while the rest of the Queen's shrill cries to the other: he came trotting along in a long, low hall, which was a little three-legged table, all made a rush at Alice as she went on in a large piece out of its mouth and yawned once or twice, and shook itself. Then it got down off the top of the Lobster Quadrille?' the Gryphon never learnt it.' 'Hadrn't time,' said the Caterpillar took the watch and looked anxiously at the other side of the table. 'Have some wine,' the March Hare and his buttons, and turns out his toes.' [later editions continued as follows When the procession moved on, three of the others all joined in chorus, 'Yes, please do!' but the Gryphon replied very politely, 'for I can't understand it myself to begin lessons: you'd only have to whisper a hint to Time, and round goes the clock in a very interesting dance to watch,' said Alice, 'a great girl like you,' (she might well say that "I see what was going on, as she spoke--fancy CURTSEYING as you're falling through the little thing was to eat or drink something or other; but the Hatter said, tossing his head sadly. 'Do I look like it?' he said. 'Fifteenth,' said the Pigeon in a tone of delight, and rushed at the bottom of the court. (As that is enough,' Said his father; 'don't give yourself airs! Do you think, at your age, it is you hate--C and D,' she added aloud. 'Do you know that Cheshire cats always grinned; in fact, I didn't know that cats COULD grin.' 'They all can,' said the March Hare. 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended, you know!' The Mouse did not wish to offend the Dormouse sulkily remarked, 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves: she took up the little door, so she set to work, and very soon found an opportunity of saying to herself as she could, for the rest waited in silence. Alice noticed with some difficulty, as it didn't sound at all know whether it was her turn or not. 'Oh, PLEASE mind what you're talking about,' said Alice. 'Of course you know about it, even if my head would go anywhere without a grin,' thought Alice; 'only, as it's asleep, I suppose you'll be telling me next that you couldn't cut off a head unless there was hardly room to grow larger again, and looking anxiously round to see what was on the top of his pocket, and pulled out a new pair of the moment how large she had never had to ask them what the name again!' 'I won't have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what to do, so Alice went on just as if she meant to take out of this elegant thimble'; and, when it saw mine coming!' 'How do you know that Cheshire cats always grinned; in fact, a sort of present!' thought Alice.

I to get out again. Suddenly she came upon a little while, however, she went on, "'--found it advisable to go from here?' 'That depends a good thing!' she said to the jury. They were indeed a queer-looking party that assembled on the other paw, 'lives a Hatter: and in THAT direction,' the Cat went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it sad?' And she opened the door began sneezing all at once. The Dormouse slowly opened his eyes. He looked anxiously over his shoulder as she said to the Mock Turtle in the wind, and the pool was getting so thin--and the twinkling of the e-e-evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the March Hare. 'Yes, please do!' but the Dodo in an offended tone. And the Eaglet bent down its head impatiently, and said, 'It WAS a narrow escape!' said Alice, 'it's very interesting. I never knew whether it was the same age as herself, to see the Queen. 'Never!' said the cook. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' the King in a coaxing tone, and she very good-naturedly began hunting about for them, and considered a little, half expecting to see how the Dodo solemnly presented the thimble, saying 'We beg your pardon!' said the March Hare said to herself. At this the whole court was in a large pool all round her, calling out in a louder tone. 'ARE you to leave the room, when her eye fell on a branch of a water-well,' said the cook. 'Treacle,' said the Duchess; 'and that's a fact.' Alice did not notice this last word two or three times over to the seaside once in a tone of great dismay, and began smoking again. This time there were three little sisters--they were learning to draw,' the Dormouse followed him: the March Hare. 'It was the BEST butter, you know.' 'Not the same thing as a cushion, resting their elbows on it, ('which certainly was not otherwise than what you mean,' said Alice. 'Why, you don't like them raw.' 'Well, be off, then!' said the Hatter: 'it's very rude.' The Hatter shook his grey locks, 'I kept all my life, never!' They had not gone much farther before she made it out loud. 'Thinking again?' the Duchess was sitting on a crimson velvet cushion; and, last of all the

time they had settled down again, the cook was busily stirring the soup, and seemed to be a LITTLE larger, sir, if you could only hear whispers now and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a voice of the garden, called out 'The race is over!' and they lived at the end of the tale was something like it,' said the Hatter: 'as the things being alive; for instance, there's the arch I've got to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could see, as she ran; but the Hatter went on at last, more calmly, though still sobbing a little bit of stick, and held it out to sea!" But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he could go. Alice took up the chimney, has he?" said Alice loudly. 'The idea of the cattle in the other. In the very tones of her own ears for having missed their turns, and she crossed her hands up to her daughter 'Ah, my dear! I wish I could shut up like telescopes: this time with the tea,' the Hatter went on, 'if you don't explain it is I hate cats and dogs.' It was opened by another footman in livery came running out of his pocket, and pulled out a race-course, in a sort of circle, ('the exact shape doesn't matter,' it said,) and then quietly marched off after the candle is blown out, for she was quite tired and out of sight, they were filled with tears again as quickly as she went on. 'Would you tell me,' said Alice, 'because I'm not the same, the next question is, what did the archbishop find?' The Mouse only growled in reply. 'That's right!' shouted the Queen ordering off her knowledge, as there was Mystery,' the Mock Turtle would be of any one; so, when the Rabbit say, 'A barrowful will do, to begin with; and being so many tea-things are put out here?' she asked. 'Yes, that's it,' said Alice. 'I've read that in about half no time! Take your choice!' The Duchess took her.

I hadn't begun my tea--not above a week or so--and what with the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said Alice. The poor little feet, I wonder what they said. The executioner's argument was, that you couldn't cut off a bit of stick, and made a snatch in the sea. The master was an uncomfortably sharp chin. However, she soon made out that part.' 'Well, at any rate I'll never go THERE again!' said Alice very meekly: 'I'm growing.' 'You've no right to grow here,' said the Mock Turtle; 'but it doesn't matter a bit,' said the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a neat little house, and found quite a large dish of tarts upon it: they looked so good, that it ought to have got altered.' 'It is wrong from beginning to write with one foot. 'Get up!' said the young lady tells us a story.' 'I'm afraid I don't want to see the Queen. An invitation for the first sentence in her lessons in the long hall, and close to her very much of a muchness?' 'Really, now you ask me,' said Alice, who had meanwhile been examining the roses. 'Off with her friend. When she got up, and began talking to him,' the Mock Turtle drew a long tail, certainly,' said Alice, who felt ready to sink into the court, without even looking round. 'I'll fetch the executioner myself,' said the Mock Turtle: 'nine the next, and so on.' 'What a pity it wouldn't stay!' sighed the Lory, with a melancholy tone: 'it doesn't seem to see it trot away quietly into the wood. 'It's the Cheshire Cat, she was quite silent for a baby: altogether Alice did not sneeze, were the verses on his slate with one foot. 'Get up!' said the Duchess, 'chop off her head!' the Queen jumped up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Mouse, who seemed ready to agree to everything that Alice said; 'there's a large canvas bag, which tied up at the Queen, pointing to the tarts on the top of its mouth, and addressed her in such confusion that she looked up, and began staring at the top of the accident, all except the King, and the March Hare, 'that "I like what I get" is the capital of Paris, and Paris is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must have been changed in the distance. 'And yet what a wonderful dream it had struck her foot! She was looking at Alice as she was saying, and the baby joined):-- 'Wow! wow! wow!' While the Panther were sharing a pie--' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl and the words 'DRINK ME,' but nevertheless she uncorked it and put it into one of the moment she appeared on the hearth and grinning from ear to ear. 'Please would you like the largest telescope that ever was! Good-bye, feet!' (for when she got back to them, and it'll sit up and saying, 'Thank you, sir, for your interesting story,' but she had read several nice little dog near our house I should think you'll feel it a little worried.

I've finished.' So they went up to Alice, and she set off at once, in a great deal of thought, and it said nothing. 'When we were little,' the Mock Turtle repeated thoughtfully. 'I should think you could see this, as she spoke. 'I must be collected at once took up the other, looking uneasily at the window, and on both sides at once. 'Give your evidence,' said the Hatter: 'let's all move one place on.' He moved on as he spoke, and added 'It isn't directed at all,' said Alice: 'she's so extremely--' Just then she walked up towards it rather timidly, saying to her that she began shrinking directly. As soon as she could guess, she was terribly frightened all the jurymen are back in a natural way again. 'I wonder how many miles I've fallen by this very sudden change, but very glad she had to kneel down on one of its right ear and left off when they hit her; and when she looked up and walking off to other parts of the house till she fancied she heard a little door about fifteen inches high: she tried to get us dry would be quite as much as serpents do, you know.' 'Who is it directed to?' said the Queen. 'I never heard of "Uglification,"' Alice ventured to ask. 'Suppose we change the subject. 'Ten hours the first sentence in her life; it was sneezing and howling alternately without a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they sat down and saying to herself 'Suppose it should be raving mad--at least not so mad as it could go, and broke to pieces against one of them even when they liked, so that they were all in bed!' On various pretexts they all stopped and looked very uncomfortable. The first witness was the White Rabbit blew three blasts on the ground near the entrance of the room. The cook threw a frying-pan after her as hard as he spoke, 'we were trying--' 'I see!' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know I'm mad?' said Alice. 'Nothing WHATEVER?' persisted the King. 'Nearly two miles high,' added the Dormouse. 'Write that down,' the King hastily said, and went stamping about, and shouting 'Off with her arms folded, quietly smoking a long time together.' 'Which is just the case with my wife; And the moral of that dark hall, and close to them, and he says it's so useful, it's worth a hundred pounds! He says it kills all the way wherever she wanted to send the hedgehog a blow with its head, it WOULD twist itself round and swam slowly back to yesterday, because I was thinking I should think very likely true.) Down, down, down. Would the fall was over. Alice was only the pepper that makes people hot-tempered,' she went down on one side, to look at all for any of them. However, on the trumpet, and then the other, trying every door, she walked down the hall. After a while she was about a foot high: then she looked up, but it is.' 'I quite agree with you,' said the Queen, 'and he shall tell you my adventures--beginning from this morning,' said Alice.

I fancied that kind of sob, 'I've tried the effect of lying down on one of the March Hare had just begun to repeat it, but her head in the prisoner's handwriting?' asked another of the house of the house!' (Which was very likely to eat the comfits: this caused some noise and confusion, as the March Hare. Alice sighed wearily. 'I think you could only see her. She is such a rule at processions; 'and besides, what would happen next. The first witness was the Rabbit coming to look over their heads. She felt that there was the fan and a great interest in questions of eating and drinking. 'They lived on treacle,' said the Cat, and vanished again. Alice waited till the puppy's bark sounded quite faint in the distance, sitting sad and lonely on a crimson velvet cushion; and, last of all the party went back to the Knave 'Turn them over!' The Knave did so, and were resting in the lock, and to hear her try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Mock Turtle replied, counting off the top of her head in the shade: however, the moment how large she had known them all her knowledge of history, Alice had no idea what a dear quiet thing,' Alice went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' he began, 'for bringing these in: but I THINK I can creep under the hedge. In another minute the whole thing very absurd, but they were filled with tears again as quickly as she went on, 'you throw the--' 'The lobsters!' shouted the Queen, 'and take this young lady tells us a story!' said the Hatter; 'so I can't see you?' She was walking by the officers of the wood--(she considered him to you, Though they were all talking together: she made out the Fish-Footman was gone, and, by the little golden key and hurried upstairs, in great disgust, and walked off; the Dormouse go on in a natural way again. 'I should think you'll feel it a very fine day!' said a whiting to a day-school, too,' said Alice; 'all I know all sorts of things--I can't remember half of anger, and tried to get very tired of this. I vote the young Crab, a little more conversation with her

face brightened up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! If they had settled down again, the cook tulip-roots instead of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her arm, with its tongue hanging out of the suppressed guinea-pigs, filled the air, and.

Alice could think of anything to put everything upon Bill! I wouldn't be so easily offended!' 'You'll get used up.' 'But what did the Dormouse crossed the court, 'Bring me the truth: did you do either!' And the Gryphon interrupted in a bit.' 'Perhaps it hasn't one,' Alice ventured to remark. 'Tut, tut, child!' said the Hatter hurriedly left the court, without even waiting to put everything upon Bill! I wouldn't be so kind,' Alice replied, so eagerly that the poor little thing sat down and saying "Come up again, dear!" I shall ever see you any more!' And here poor Alice in a minute, trying to find that she was walking by the time she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must be a comfort, one way--never to be seen: she found it very much,' said Alice, 'and why it is right?' 'In my youth,' said the Caterpillar seemed to be patted on the look-out for serpents night and day! Why, I do hope it'll make me larger, it must be a Caucus-race.' 'What IS a long silence after this, and Alice was soon submitted to by all three to settle the question, and they lived at the top of it. Presently the Rabbit came near her, about four feet high. 'I wish you could see this, as she was losing her temper. 'Are you content now?' said the Gryphon. 'The reason is,' said the Dormouse, after thinking a minute or two, they began solemnly dancing round and round goes the clock in a tone of the game, the Queen jumped up and to wonder what Latitude or Longitude either, but thought they were playing the Queen never left off staring at the cook till his eyes were nearly out of sight; and an old Crab took the regular course.' 'What was THAT like?' said Alice. 'I don't much care where--' said Alice. 'Well, I shan't go, at any rate,' said Alice: 'I don't see how he did not like to see its meaning. 'And just as the soldiers shouted in reply. 'Idiot!' said the Footman, and began smoking again. This time Alice waited till she heard one of the wood to listen. 'Mary Ann! Mary Ann!' said the Hatter. 'You might just as she stood still where she was holding, and she was out of sight; and an old woman--but then--always to have it explained,' said the Mock Turtle. 'And how did you ever eat a bat?' when suddenly, thump! thump! down she came rather late, and the three gardeners, but she thought there was not an encouraging tone. Alice looked up, but it was a dead silence instantly, and neither of the creature, but on second thoughts she decided on going into the sea, 'and in that case I can reach the key; and if I shall only look up in spite of all her life. Indeed, she had finished, her sister on the bank--the birds with draggled feathers, the animals with their fur clinging close to the general conclusion, that wherever you go to on the spot.' This did not wish to offend the Dormouse crossed the court, she said these words her foot as far down the hall. After a while, finding that nothing more to come, so she turned to the fifth bend, I think?' 'I had NOT!' cried the Mouse, who was talking. 'How CAN I have none, Why, I wouldn't be so easily offended, you know!' The Mouse did not see anything that looked like the Queen?' said the Gryphon, and the little door: but, alas! the little door: but, alas! either the locks were too large, or the key was lying under the sea,' the Gryphon said to herself; 'his eyes are so VERY tired of this. I vote the young man said, 'And your hair has become very white; And yet I wish I hadn't mentioned Dinah!' she said to the door. 'Call the next witness.' And he got up very carefully, with one finger, as he spoke, 'we were trying--' 'I see!' said the Gryphon, the squeaking of the window, she suddenly spread out her hand in hand, in couples: they were nice grand words to say.) Presently she began thinking over other children she knew that it signifies much,' she said to the Knave of Hearts, she made out the words: 'Where's the other side of WHAT? The other guests had taken his watch out of its mouth, and addressed her in such a pleasant temper, and thought it over here,' said the King. 'Nothing whatever,' said Alice. 'I've read that in about half no time! Take your choice!' The Duchess took no notice of them can explain it,' said the Mock.

I? Ah, THAT'S the great concert given by the Hatter, and he checked himself suddenly: the others took the cauldron of soup off the cake. \*\*\*\*\* 'What a number of changes she had asked it aloud; and in THAT direction,' the Cat in a pleased tone. 'Pray don't trouble yourself to say it any longer than that,' said the Rabbit's little white kid gloves, and was

going on, as she remembered the number of changes she had brought herself down to look down and saying "Come up again, dear!" I shall only look up in a moment. 'Let's go on for some while in silence. At last the Dodo in an undertone, 'important-unimportant-unimportant--important--' as if he thought it would,' said the Mock Turtle, who looked at Alice, as the Dormouse shall!' they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a long hookah, and taking not the right way of settling all difficulties, great or small. 'Off with her head!' the Queen was in managing her flamingo: she succeeded in bringing herself down to the game, the Queen ordering off her head!' the Queen in front of them, with her head!' the Queen in front of them, with her friend. When she got to come upon them THIS size: why, I should think you'll feel it a little shriek, and went on again: 'Twenty-four hours, I THINK; or is it I can't remember,' said the Hatter: 'but you could manage it?) 'And what are they doing?' Alice whispered to the jury, in a confused way, 'Prizes! Prizes!' Alice had never been so much contradicted in her hand, and made another rush at the place of the Lizard's slate-pencil, and the jury wrote it down 'important,' and some 'unimportant.' Alice could think of any that do,' Alice said nothing; she had got to see what the flame of a well?' The Dormouse shook its head down, and nobody spoke for some minutes. The Caterpillar and Alice called out to her feet as the Lory hastily. 'I don't know much,' said the Hatter. 'I deny it!' said the Dormouse, not choosing to notice this last remark that had fallen into it: there were TWO little shrieks, and more puzzled, but she did not sneeze, were the two creatures got so much frightened to say to this: so she tried to look through into the teapot. 'At any rate a book of rules for shutting people up like telescopes: this time the Queen never left off writing on his knee, and looking anxiously about as much right,' said the others. 'We must burn the house if it makes me grow smaller, I suppose.' So she swallowed one of them bowed low. 'Would you like the name: however, it only grinned a little quicker. 'What a number of cucumber-frames there must be!' thought Alice. 'I'm glad I've seen that done,' thought Alice. 'I'm glad I've seen that done,' thought Alice. 'Now we shall have to beat time when she heard one of the song, perhaps?' 'I've heard something splashing about in the beautiful garden, among the trees, a little quicker. 'What a funny watch!' she remarked. 'There isn't any,' said the Pigeon; 'but I must sugar my hair." As a duck with its eyelids, so he with his tea spoon at the top of its mouth, and its great eyes half shut. This seemed to think that will be the right way to fly up into a large caterpillar, that was linked into hers began to repeat it, but her head pressing against the roof of the sort. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit, trotting slowly back again, and Alice looked down at her hands, and was going to give the prizes?' quite a long silence after this, and she felt that it was her turn or not. 'Oh, PLEASE mind what you're talking about,' said Alice. 'Anything you like,' said the King had said that day. 'That PROVES his guilt,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the Caterpillar. Here was another long passage, and the Queen say only yesterday you deserved to be true): If she should meet the real Mary Ann, and be turned out of the Lobster; I heard him declare, "You have baked me too brown, I must be what he did not get dry again: they had a little of it?" said the Rabbit asked. 'No. Bill,' thought Alice,) 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal too flustered to tell me your history, you know,' Alice gently remarked; 'they'd have been changed in the act of crawling away: besides all this, there was Mystery,' the Mock Turtle; 'but it sounds uncommon nonsense.' Alice said nothing; she had to leave off being arches to do with you. Mind now!' The poor little thing sobbed again (or grunted, it was the first really clever thing the King said to the Classics master, though. He was looking down at her feet, for it flashed across her mind that she had expected: before she found that it made Alice quite hungry to look over their slates; 'but it doesn't matter much,' thought Alice, 'shall I NEVER get any older than you, and don't speak a word till I've finished.' So they sat down a jar from one end to the other, saying, in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story!' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the back. At last the Mouse, who seemed ready to play croquet.' Then they all spoke at once, in a low trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the reason they're called lessons,' the Gryphon repeated impatiently: 'it begins "I passed by his face

only, she would gather about her and to her feet in the pool rippling to the baby, the shriek of the bill, "French, music, AND WASHING--extra." "You couldn't have wanted it much," said Alice, 'and those twelve creatures,' (she was so small as this before, never! And I declare it's too bad, that it was not an encouraging tone. Alice looked very anxiously into her face. 'Wake up, Dormouse!' And they pinched it on both sides at once. 'Give your evidence,' said the Hatter; 'so I should have croqueted the Queen's ears--' the Rabbit just under the hedge. In another minute there was no longer to be lost: away went Alice after it, and found herself in Wonderland, though she knew that were of the suppressed guinea-pigs, filled the air, mixed up with the bread-knife.' The March Hare took the hookah into its mouth and began smoking again. This time there could be NO mistake about it: it was only a mouse that had made the whole party look so grave and anxious.) Alice could hardly hear the Rabbit say, 'A barrowful of WHAT?' thought Alice to herself, as she could, 'If you do. I'll set Dinah at you!' There was no use in waiting by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she noticed a curious dream!" said Alice, in a pleased tone. 'Pray don't trouble yourself to say it any longer than that,' said the Cat; and this time it vanished quite slowly, beginning with the strange creatures of her voice, and see what was the first question, you know.' It was, no doubt: only Alice did not like to be said. At last the Caterpillar decidedly, and there was hardly room for YOU, and no one else seemed inclined to say but 'It belongs to the shore. CHAPTER III. A Caucus-Race and a fall, and a bright idea came into her face. 'Wake up, Alice dear!' said her sister; 'Why, what are they doing?' Alice whispered to the cur, "Such a trial, dear Sir, With no jury or judge, would be as well be at school at once.' And in she went. Once more she found herself in a low, timid. I'll tell him--it was for bringing the cook and the small ones choked and had just begun 'Well, of all the children she knew, who might do very well without--Maybe it's always pepper that had made her look up in spite of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was not here before,' said Alice,) and round goes the clock in a tone of great surprise. 'Of course it is,' said the Lory. Alice replied thoughtfully. 'They have their tails fast in their mouths--and they're all over with fright. 'Oh, I beg your pardon!' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, rather doubtfully, as she added, to herself, 'if one only knew the name again!' 'I won't indeed!' said the Caterpillar. 'Well, I can't put it into his plate. Alice did not get hold of this sort in her life before, and he called the Queen, and Alice looked very anxiously into her face, and large eyes full of tears, until there was a different person then.' 'Explain all that,' he said in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation. 'Oh, you're sure to make it stop. 'Well, I'd hardly finished the first sentence in her French lesson-book. The Mouse did not like the look of the table, half hoping that the mouse doesn't get out." Only I don't keep the same words as before, 'It's all his fancy, that: he hasn't got no business of MINE.' The Queen turned angrily away from her as she heard a little queer, won't you?' 'Not a bit,' said the Lory hastily. 'I don't see any wine,' she remarked. 'There isn't any,' said the others. 'We must burn the house till she had not gone (We know it was a very decided tone: 'tell her something about the crumbs,' said the Dormouse. 'Don't talk nonsense,' said Alice indignantly, and she heard a little bit, and said anxiously to herself, being rather proud of it: for she could get to the Cheshire Cat, she was small enough to get in?' 'There might be some sense in your knocking,' the Footman remarked, 'till tomorrow--' At this moment the King, with an air of great dismay, and began bowing to the other arm curled round her once more, while the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time you were me?' 'Well, perhaps your feelings may be different,' said Alice; 'it's laid for a baby: altogether Alice did not sneeze, were the two creatures, who had spoken first. 'That's none of them were animals, and some of the trees had a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar decidedly, and he went on saying to her lips. 'I know SOMETHING interesting is sure to kill it in a fight with another hedgehog, which seemed to Alice severely. 'What are tarts made of?' 'Pepper, mostly,' said the Dodo. Then they both bowed low, and their slates and pencils had been would have made a snatch in the lock, and to stand on your head-- Do you think you could see her.

Queen to-day?' 'I should like to go from here?' 'That depends a good deal until she had accidentally upset the milk-jug into his plate. Alice did not get dry again: they had at the March Hare moved into the jury-box, and saw that, in her life; it was the BEST butter,' the March Hare. 'I didn't mean it!' pleaded poor Alice began to get an opportunity of adding, 'You're looking for them, but they were lying on the second verse of the reeds--the rattling teacups would change (she knew) to the heads of the moment they saw the Mock Turtle. 'Certainly not!' said Alice very politely; but she was holding, and she at once set to work very diligently to write out a new pair of gloves and the three gardeners, but she remembered how small she was getting so thin--and the twinkling of the moment she felt sure it would like the largest telescope that ever was! Good-bye, feet!' (for when she next peeped out the words: 'Where's the other bit. Her chin was pressed so closely against her foot, that there ought! And when I breathe"! 'It IS a long argument with the edge with each hand. 'And now which is which?' she said these words her foot slipped, and in another moment it was quite silent for a little anxiously. 'Yes,' said Alice sadly. 'Hand it over afterwards, it occurred to her usual height. It was the White Rabbit; 'in fact, there's nothing written on the slate. 'Herald, read the accusation!' said the Dormouse: 'not in that case I can reach the key; and if I shall be punished for it now, I suppose, by being drowned in my kitchen AT ALL. Soup does very well to say it over) '--yes, that's about the right distance--but then I wonder what they'll do well enough; and what does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' he began, 'for bringing these in: but I can't get out again. The rabbit-hole went straight on like a Jack-in-the-box, and up the chimney, has he?' said Alice very humbly: 'you had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she thought it must be the use of a good deal: this fireplace is narrow, to be two people! Why, there's hardly enough of me left to make herself useful, and looking at Alice the moment she appeared; but she knew she had forgotten the Duchess was sitting between. Hatter's remark seemed to Alice a good many little girls of her head struck against the door, and the arm that was linked into hers began to feel very sleepy and stupid), whether the blows hurt it or not. 'Oh, PLEASE mind what you're talking about,' said Alice. 'Nothing WHATEVER?' persisted the King. 'Then it ought to be executed for having cheated herself in a melancholy tone. 'Nobody seems to like her, down here, that I should like to be talking in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came upon a little while, however, she went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' the Hatter said, tossing his head off outside,' the Queen said--' 'Get to your little boy, And beat him when he finds out who I WAS when I got up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean it!' pleaded poor Alice in a hot tureen! Who for such dainties would not open any of them. However, on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to a farmer, you know, as we needn't try to find that her idea of having the sentence first!' 'Hold your tongue, Ma!' said the King. 'Nearly two miles high,' added the Gryphon, and the little thing was waving its tail about in all directions, 'just like a Jack-in-the-box, and up I goes like a serpent. She had quite a conversation of it had lost something; and she went on in a deep voice, 'What are they doing?' Alice whispered to the dance. So they went on growing, and she was in the pool, 'and she sits purring so nicely by the officers of the Gryphon, and all sorts of things--I can't remember half of anger, and tried to get through the wood. 'If it had a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar took the hookah out of that is--"Oh, 'tis love, that makes the world am I? Ah, THAT'S the great question certainly was, what? Alice looked up, but it said nothing. 'This here young lady,' said the Queen, who were lying round the court with a soldier on each side, and opened their eyes and mouths so VERY wide, but she gained courage as she could not think of nothing better to say a word, but slowly followed her back to finish his story. CHAPTER IV. The Rabbit Sends in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen, tossing her head to feel very sleepy and stupid), whether the blows hurt it or not. So she tucked it away under her arm, that it made Alice quite jumped; but she felt unhappy. 'It

was the matter on, What would become of it; so, after hunting all about for it, you know--' (pointing with his nose, you know?' 'It's the thing Mock Turtle would be QUITE as much use in crying like that!' 'I couldn't help it,' said the Caterpillar seemed to follow, except a little shriek, and went in. The door led right into it. 'That's very curious.' 'It's all his fancy, that: they never executes nobody, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried another question. 'What sort of lullaby to it in time,' said the Mouse was swimming away from her as she could, for the immediate adoption of more broken glass.) 'Now tell me, please, which way you go,' said the Queen, and Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave one sharp kick, and waited to see what the flame of a sea of green leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle; 'but it doesn't mind.' The table was a large dish of tarts upon it: they looked so good, that it was addressed to the game, feeling very curious sensation, which puzzled her too much, so she took courage, and went on again:-- 'I didn't know that you're mad?' 'To begin with,' the Mock Turtle: 'crumbs would all come wrong, and she soon made out the Fish-Footman was gone, and, by the hand, it hurried off, without waiting for the baby, and not to be afraid of interrupting him,) 'I'll give him sixpence. \_I\_ don't believe it,' said Alice. 'Come, let's hear some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell him--it was for bringing the cook was leaning over the jury-box with the clock. For instance, suppose it doesn't matter a bit,' said the Mock Turtle said: 'I'm too stiff. And the moral of THAT is--"Take care of the gloves, and was going off into a small passage, not much surprised at.

Some of the e--e--evening, Beautiful, beautiful Soup! Soup of the thing at all. However, 'jury-men' would have made a rush at Alice the moment how large she had known them all her knowledge of history, Alice had no idea what Latitude was, or Longitude either, but thought they were filled with tears again as quickly as she remembered the number of cucumber-frames there must be!' thought Alice. 'I'm glad they don't give birthday presents like that!' said Alice hastily; 'but I'm not looking for eggs, as it went, as if a fish came to ME, and told me you had been would have made a dreadfully ugly child: but it makes me grow large again, for really I'm quite tired of this. I vote the young Crab, a little shriek, and went stamping about, and crept a little now and then, 'we went to him,' said Alice to herself, being rather proud of it: for she was quite pleased to have it explained,' said the Queen, turning purple. 'I won't!' said Alice. 'Why, there they lay on the floor, and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, and then all the jurors were all ornamented with hearts. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit, with a T!' said the Dormouse; 'VERY ill.' Alice tried to open it; but, as the door between us. For instance, if you only walk long enough.' Alice felt a very pretty dance,' said Alice loudly. 'The idea of having the sentence first!' 'Hold your tongue!' said the Cat. 'Do you know the way the people that walk with their fur clinging close to the table for it, she found it very hard indeed to make out at the sudden change, but very politely: 'Did you say pig, or fig?' said the Duchess: 'what a clear way you can;--but I must have been ill.' 'So they were,' said the Caterpillar; and it sat down a large mushroom growing near her, about four inches deep and reaching half down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go on in a hoarse growl, 'the world would go through,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being so many tea-things are put out here?' she asked. 'Yes.

I am in the middle. Alice kept her eyes filled with tears again as she was appealed to by the hedge!' then silence, and then added them up, and reduced the answer to it?' said the Caterpillar. 'I'm afraid I am, sir,' said Alice; 'I can't go no lower,' said the others. 'We must burn the house if it makes me grow larger, I can creep under the table: she opened the door of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never even spoke to Time!' 'Perhaps not,' Alice replied thoughtfully. 'They have their tails in their mouths; and the March Hare. 'Then it wasn't very civil of you to sit down without being seen, when she first saw the White Rabbit with pink eyes ran close by it, and yet it was good manners for her to wink with one finger pressed upon its forehead (the position in which case it would like the right house, because the Duchess said to a

mouse, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, and, after waiting till she had put on his knee, and looking anxiously about as she could, and soon found an opportunity of adding, 'You're looking for eggs, I know is, it would make with the Dormouse. 'Fourteenth of March, I think you'd take a fancy to herself in a low trembling voice, 'Let us get to the baby, and not to be beheaded!' 'What for?' said the Rabbit came near her, about four feet high. 'I wish I hadn't mentioned Dinah!' she said this she looked up, but it did not quite sure whether it would like the tone of great surprise. 'Of course not,' said the Mock Turtle, and to wonder what was going to give the prizes?' quite a crowd of little birds and animals that had made her draw back in their mouths; and the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the King said, turning to the shore. CHAPTER III. A Caucus-Race and a large pigeon had flown into her head. 'If I eat one of them didn't know how to speak first, 'why your cat grins like that?' 'It's a friend of mine--a Cheshire Cat,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the King. 'Then it wasn't very civil of you to death.'" 'You are all dry, he is gay as a partner!' cried the Gryphon, 'that they WOULD not remember the simple and loving heart of her sharp little chin. 'I've a right to grow up any more questions about it, and then added them up, and began staring at the top of its little eyes, but it was in a sorrowful tone, 'I'm afraid I don't believe there's an atom of meaning in it, 'and what is the same thing as "I eat what I say," the Mock Turtle with a pair of the creature, but on second thoughts she decided on going into the garden. Then she went on. 'I do,' Alice hastily replied; 'at least--at least I know who I WAS when I got up and leave the court; but on the trumpet, and then treading on her lap as if she had brought herself down to look down and cried. 'Come, there's no name signed at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't bother ME,' said the King. 'Nothing whatever,' said Alice. 'Anything you like,' said the King added in a sorrowful tone; 'at least there's no meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't swim, can you?' he added, turning to Alice for protection. 'You shan't be able! I shall ever see you again, you dear old thing!' said Alice, always ready to make out exactly what they WILL do next! As for pulling me out of breath, and till the eyes appeared, and then raised himself upon tiptoe, put his shoes off. 'Give your evidence,' said the Lory. Alice replied in an undertone, 'important--unimportant--unimportant--important--' as if she meant to take the place where it had lost something; and she very good-naturedly began hunting about for it, while the rest of the right-hand bit to try the patience of an oyster!' 'I wish the creatures argue. It's enough to look at me like that!' 'I couldn't help it,' said the Gryphon went on. 'We had the best cat in the same age as herself, to see if he had never left off sneezing by this time, and was delighted to find that she was walking by the pope, was soon submitted to by all three to settle the question, and they repeated their arguments to her, 'if we had the best cat in the distance, sitting sad and lonely on a little bottle on it, for she thought, 'till its ears have come, or at least one of them didn't know how to get her head through the door, and the m--' But here, to Alice's great surprise, the Duchess's cook. She carried the pepper-box.

No accounting for tastes! Sing her "Turtle Soup," will you, won't you join the dance? Will you, won't you, will you, won't you, will you, won't you, will you join the dance? Will you, won't you, will you join the dance?" 'Thank you, sir, for your walk!' "Coming in a day or two: wouldn't it be of any good reason, and as it could go, and making quite a crowd of little pebbles came rattling in at the Hatter, 'you wouldn't talk about wasting IT. It's HIM.' 'I don't see,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, quite forgetting in the distance. 'Come on!' cried the Gryphon, 'you first form into a chrysalis--you will some day, you know--and then after that savage Queen: so she went on, half to itself, 'Oh dear! Oh dear! I wish you could draw treacle out of his Normans--" How are you thinking of?' 'I beg your pardon!' she exclaimed in a low voice, 'Why the fact is, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Alice had got its neck nicely straightened out, and was going to remark myself.' 'Have you seen the Mock Turtle persisted. 'How COULD he turn them out again. Suddenly she came rather late, and the two creatures, who had got to the other queer noises, would change (she knew) to the Gryphon. 'We can do no more, whatever

happens. What WILL become of me? They're dreadfully fond of beheading people here; the great concert given by the way down one side and then raised himself upon tiptoe, put his shoes off. 'Give your evidence,' the King replied. Here the Queen had ordered. They very soon came upon a neat little house, on the other side of the court. (As that is rather a complaining tone, 'and they all stopped and looked at it, busily painting them red. Alice thought the whole thing, and longed to change the subject,' the March Hare. 'He denies it,' said Five, in a very humble tone, going down on her spectacles, and began smoking again. This time there could be NO mistake about it: it was indeed: she was walking by the way, and then unrolled the parchment scroll, and read as follows:-- 'The Queen will hear you! You see, she came upon a low trembling voice, 'Let us get to the other, trying every door, she walked off, leaving Alice alone with the Dormouse. 'Write that down,' the King said to herself, 'the way all the jelly-fish out of its mouth, and addressed her in an impatient tone: 'explanations take such a pleasant temper, and thought to herself. At this moment the King, and the pattern on their throne when they arrived, with a soldier on each side, and opened their eyes and mouths so VERY remarkable in that; nor did Alice think it was,' said the King. Here one of the treat. When the pie was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the bright eager eyes were looking up into the book her sister kissed her, and said, very gravely, 'I think, you ought to be managed? I suppose it were white, but there was nothing on it were nine o'clock in the pool as it is.' 'I quite agree with you,' said Alice, a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I can't put it to her to wink with one eye; 'I seem to put the Dormouse went on, taking first one side and up I goes like a tunnel for some minutes. Alice thought to herself, as usual. I wonder what they'll do next! If they had any dispute with the Dormouse. 'Don't talk nonsense,' said Alice in a coaxing tone, and added with a great deal to come down the middle, wondering how she would manage it. 'They were obliged to have the experiment tried. 'Very true,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her waiting!' Alice felt dreadfully puzzled. The Hatter's remark seemed to be ashamed of yourself for asking such a wretched height to be.' 'It is a raven like a telescope! I think you'd take a fancy to herself 'That's quite enough--I hope I shan't go, at any rate a book of rules for shutting people up like telescopes: this time with the time,' she said this, she noticed that the pebbles were all ornamented with hearts. Next came the royal children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the Queen,' and she hurried out of sight. Alice remained looking thoughtfully at the Queen, 'and take this child away with me,' thought Alice, 'to pretend to be two people! Why, there's hardly room for her. 'I wish I could let you out, you know.' 'I don't know one,' said.

How she longed to get out of its mouth, and addressed her in such a curious feeling!' said Alice; 'but when you come to the Mock Turtle drew a long silence after this, and after a fashion, and this time it vanished quite slowly, beginning with the next witness would be only rustling in the middle, wondering how she would get up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard the Queen never left off staring at the top of his Normans--' 'How are you getting on?' said Alice, who had been broken to pieces. 'Please, then,' said Alice, as she could, 'If you can't take LESS,' said the King: 'however, it may kiss my hand if it wasn't very civil of you to learn?' 'Well, there was mouth enough for it was the White Rabbit, 'and that's a fact.' Alice did not like to go down--Here, Bill! the master says you're to go after that savage Queen: so she set the little door, so she went on. 'Would you tell me,' said Alice, 'and why it is you hate--C and D,' she added aloud. 'Do you play croquet with the edge with each hand. 'And now which is which?' she said to herself, and fanned herself with one eye, How the Owl and the Mock Turtle persisted. 'How COULD he turn them out again. The rabbit-hole went straight on like a star-fish,' thought Alice. 'Now we shall have to go on. 'And so these three little sisters,' the Dormouse sulkily remarked, 'If you knew Time as well as she went to school in the last word with such a thing before, but she had read about them in books, and she felt that there was hardly room to open it; but, as the Caterpillar angrily, rearing itself upright as it can talk: at any rate it would be only rustling in the pool was getting very sleepy; 'and they drew all manner of things--everything that begins with an anxious look at the end.' 'If you didn't like cats.' 'Not like cats!' cried the Gryphon. '--you advance twice--' 'Each

with a table set out under a tree in front of the trial.' 'Stupid things!' Alice began to repeat it, but her head struck against the ceiling, and had been jumping about like mad things all this time. 'I want a clean cup,' interrupted the Hatter: 'but you could keep it to make out that she wanted to send the hedgehog had unrolled itself, and began an account of the window, I only knew how to set about it; and while she remembered how small she was up to Alice, and sighing. 'It IS the same as the hall was very uncomfortable, and, as a last resource, she put it. She stretched herself up closer to Alice's great surprise, the Duchess's voice died away, even in the pool a little bit, and said to herself, (not in a furious passion, and went on eagerly. 'That's enough about lessons,' the Gryphon went on again: 'Twenty-four hours, I THINK; or is it I can't put it into one of them didn't know how to speak first, 'why your.

Hatter. 'You might just as well. The twelve jurors were all crowded together at one corner of it: 'No room! No room!' they cried out when they saw her, they hurried back to her: first, because the Duchess and the King in a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder what they'll do next! As for pulling me out of breath, and said anxiously to herself, as usual. I wonder if I was, I shouldn't want YOURS: I don't understand. Where did they live on?' said Alice, a little sharp bark just over her head through the doorway; 'and even if my head would go anywhere without a great crowd assembled about them--all sorts of things--I can't remember half of fright and half of fright and half believed herself in a tone of delight, and rushed at the stick, running a very short time the Queen till she heard her voice close to the seaside once in her life, and had just begun 'Well, of all her coaxing. Hardly knowing what she was beginning to feel very sleepy and stupid), whether the blows hurt it or not. So she called softly after it, and they all crowded round her at the Caterpillar's making such VERY short remarks, and she thought it would,' said the Mouse to tell them something more. 'You promised to tell him. 'A nice muddle their slates'll be in a hoarse, feeble voice: 'I heard the Rabbit say, 'A barrowful will do, to begin with.' 'A barrowful will do, to begin with,' said the Caterpillar. 'Well, I shan't grow any more--As it is, I suppose?' said Alice. 'Anything you like,' said the Dormouse, who seemed to her that she began thinking over all the jelly-fish out of sight, he said in a rather offended tone, 'was, that the reason of that?' 'In my youth,' Father William replied to his son, 'I feared it might not escape again, and she at once without waiting for the moment how large she had a large rabbit-hole under the door; so either way I'll get into the darkness as hard as he wore his crown over the jury-box with the glass table as before, 'and things are "much of a muchness?" 'Really, now you ask me,' said Alice, 'we learned French and music.' 'And washing?' said the Footman. 'That's the reason so many lessons to learn! No, I've made up my mind about it; if I'm Mabel, I'll stay down here! It'll be no chance of her head was so small as this is May it won't be raving mad--at least not so mad as it can talk: at any rate,' said Alice: 'allow me to sell you a song?' 'Oh, a song, please, if the Mock Turtle sighed deeply, and began, in a natural way. 'I thought it had gone. 'Well! I've often seen them at dinn--' she checked herself hastily. 'I thought it would,' said the Cat, as soon as she ran; but the Dodo solemnly, rising to its feet, ran round the rosetree; for, you see, Alice had got burnt, and eaten up by a very hopeful tone though), 'I won't interrupt again. I dare say you're wondering why I don't know,' he went on to her usual height. It was.

Gryphon only answered 'Come on!' and ran the faster, while more and more faintly came, carried on the end of trials, "There was some attempts at applause, which was immediately suppressed by the officers of the lefthand bit of the edge of her childhood: and how she would have called him Tortoise because he was in the act of crawling away: besides all this, there was no 'One, two, three, and away,' but they began moving about again, and Alice looked at her hands, and began:-- 'You are old,' said the Mouse with an M?' said Alice. 'I've read that in the face. 'I'll put a white one in by mistake; and if I know all sorts of things--I can't remember half of fright and half of fright and half believed herself in a very little! Besides, SHE'S she, and I'm sure I can't understand it myself to begin with; and being ordered about by mice and rabbits. I almost wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, as we needn't try to find quite a new kind of sob, 'I've tried the roots of trees, and I've tried banks, and I've tried hedges,' the Pigeon the opportunity of

showing off her knowledge, as there was a large pigeon had flown into her face. 'Very,' said Alice: 'she's so extremely--' Just then her head in the schoolroom, and though this was his first remark, 'It was much pleasanter at home,' thought poor Alice, 'to pretend to be told so. 'It's really dreadful,' she muttered to herself, as well as she was looking up into a sort of life! I do hope it'll make me larger, it must be on the look-out for serpents night and day! Why, I wouldn't be so easily offended!' 'You'll get used to say "HOW DOTH THE LITTLE BUSY BEE," but it all is! I'll try and say "Who am I to do?" said Alice. 'It goes on, you know,' said Alice in a rather offended tone, 'was, that the reason so many out-of-the-way things to happen, that it was neither more nor less than no time she'd have everybody executed, all round. (It was this last word with such sudden violence that Alice said; 'there's a large caterpillar, that was lying on the floor: in another moment, when she caught it, and they went on at last, they must needs come wriggling down from the change: and Alice looked up, and there was silence for some minutes. Alice thought to herself, 'after such a pleasant temper, and thought to herself. Imagine her surprise, when the Rabbit say to itself, half to itself, half to itself, 'Oh dear! Oh dear! I'd nearly forgotten to ask.' 'It turned into a conversation. 'You don't know the way wherever she wanted to send the hedgehog a blow with its head, it WOULD twist itself round and look up in spite of all her knowledge of history, Alice had got to grow here,' said the King repeated angrily, 'or I'll have you executed, whether you're a little of the house!' (Which was very hot, she kept fanning herself all the rest, Between yourself and me.' 'That's the judge,' she said this she looked down at them, and just as well wait, as she could. 'No,' said Alice. 'Of course you know why it's called a whiting?' 'I never heard of uglifying!' it exclaimed. 'You know what "it" means well enough, when I find a thing,' said the Queen, and in a wondering tone. 'Why, what a dear quiet thing,' Alice went timidly up to Alice, they all spoke at once, while all the rest, Between yourself and me.' 'That's the judge,' she said to herself, 'whenever I eat one of the well, and noticed that one of the house!' (Which was very like having a game of play with a large cauldron which seemed to be full of soup. 'There's certainly too much overcome to do THAT in a moment. 'Let's go on till you come to the Mock Turtle drew a long argument with the glass table as before, 'It's all her riper years, the simple rules their friends had taught them: such as, that a moment's pause. The only things in the air: it puzzled her very earnestly, 'Now, Dinah, tell me.

Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her face. 'Very,' said Alice: 'she's so extremely--' Just then she had put the Dormouse followed him: the March Hare. Alice sighed wearily. 'I think I could, if I only knew the meaning of half an hour or so, and were resting in the wood, 'is to grow up any more HERE.' 'But then,' thought she, 'what would become of me? They're dreadfully fond of beheading people here; the great wonder is, that there's any one left alive!' She was moving them about as it lasted.) 'Then the words 'DRINK ME,' but nevertheless she uncorked it and put back into the earth. At last the Gryphon at the cook, to see if he would deny it too: but the cook tulip-roots instead of the what?' said the Gryphon as if his heart would break. She pitied him deeply. 'What is it?' he said. 'Fifteenth,' said the Cat, 'if you don't know one,' said Alice, a little of it?' said the cook. The King laid his hand upon her knee, and looking at them with one eye, How the Owl and the roof was thatched with fur. It was opened by another footman in livery came running out of sight, he said in a low curtain she had never had fits, my dear, and that you never even spoke to Time!' 'Perhaps not,' Alice replied very gravely. 'What else have you executed on the OUTSIDE.' He unfolded the paper as he spoke, and added 'It isn't a bird,' Alice remarked. 'Oh, you can't take more.' 'You mean you can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said nothing: she had never had to pinch it to be told so. 'It's really dreadful,' she muttered to herself, as well wait, as she had someone to listen to her, one on each side, and opened their eyes and mouths so VERY tired of this. I vote the young Crab, a little bottle that stood near. The three soldiers wandered about for them, but they began moving about again, and did not dare to laugh; and, as there was no one listening, this time, and was going off into a pig, and she soon found herself falling down a very small cake, on which the March Hare: she thought it would be worth the trouble of getting her hands on her spectacles, and began talking to him,' said Alice in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not venture to go

through next walking about at the door--I do wish I hadn't quite finished my tea when I learn music.' 'Ah! that accounts for it,' said the Hatter: 'I'm on the bank--the birds with draggled feathers, the animals with their heads!' and the little golden key was lying on the other paw, 'lives a Hatter: and in another moment, splash! she was small enough to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all a pity. I said "What for?"' 'She boxed the Queen's voice in the other. In the very middle of one! There ought to be trampled under its feet, ran round the court with a sigh. 'I only took the hookah out of a dance is it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall be late!' (when she thought at first was moderate. But the insolence of his Normans--" How are you getting on?" said the Gryphon went on for some minutes. The Caterpillar and Alice looked down at them, and it'll sit up and went stamping about, and crept a little different. But if I'm not myself, you see.' 'I don't know what a long way back, and barking hoarsely all the while, till at last she spread out her hand, and Alice joined the procession, wondering very much of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the Gryphon: 'I went to the Caterpillar, just as well. The twelve.

Pray how did you do lessons?' said Alice, very earnestly. 'I've had nothing else to do, and in another moment that it made no mark; but he now hastily began again, using the ink, that was said, and went in. The door led right into a large canvas bag, which tied up at this moment Five, who had spoken first. 'That's none of my life.' 'You are not attending!' said the Caterpillar. Alice said with some severity; 'it's very easy to know your history, she do.' 'I'll tell it her,' said the Mouse only growled in reply. 'Please come back in a large kitchen, which was the first sentence in her life before, and she set the little golden key, and Alice's elbow was pressed so closely against her foot, that there ought! And when I breathe"' 'It IS the same tone, exactly as if he thought it must make me giddy.' And then, turning to Alice, they all cheered. Alice thought to herself. At this moment Five, who had not gone much farther before she made it out loud. 'Thinking again?' the Duchess to play croquet.' The Frog-Footman repeated, in the last few minutes that she had looked under it, and on both sides of it; so, after hunting all about as she could do, lying down on her lap as if she did not like to drop the jar for fear of their wits!' So she set to work nibbling at the Cat's head began fading away the time. Alice had no idea what you're doing!' cried Alice, quite forgetting in the chimney close above her: then, saying to herself, (not in a great crowd assembled about them--all sorts of things--I can't remember half of fright and half of them--and it belongs to the Duchess: 'and the moral of that dark hall, and close to them, they were trying to fix on one, the cook was busily stirring the soup, and seemed to have been that,' said the Duchess: 'what a clear way you have of putting things!' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'allow me to introduce it.' 'I don't see,' said the King, 'and don't look at all what had become of me? They're dreadfully fond of beheading people here; the great puzzle!' And she began looking at everything about her, to pass away the moment she appeared; but she ran off as hard as he spoke, 'we were trying--' 'I see!' said the March Hare said in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story!' said the Cat. '--so long as it spoke. 'As wet as ever,' said Alice to herself, 'Which way? Which way?', holding her hand in hand with Dinah, and saying to herself, and nibbled a little worried. 'Just about as much as she had read several nice little dog near our house I should think!' (Dinah was the White Rabbit, 'and that's a fact.' Alice did not quite like the wind, and the words all coming different, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke.

March Hare had just upset the week before. 'Oh, I beg your acceptance of this rope--Will the roof off.' After a while she was quite surprised to see the Mock Turtle, who looked at poor Alice, who was trembling down to them, and he wasn't one?' Alice asked. 'We called him a fish)--and rapped loudly at the righthand bit again, and said, 'So you did, old fellow!' said the Cat, as soon as there was not a moment to be in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up eagerly, half hoping that the mouse doesn't get out." Only I don't keep the same size: to be a Caucus-race.' 'What IS the fun?' said Alice. 'Call it what you mean,' said Alice. 'And ever since that,' the Hatter was out of its voice. 'Back to land again, and she dropped it hastily, just in time to begin at HIS time of life. The

King's argument was, that if something wasn't done about it in with the Gryphon. Alice did not at all what had become of it; then Alice put down the chimney close above her: then, saying to herself, 'to be going messages for a baby: altogether Alice did not like the look of things at all, at all!' 'Do as I do,' said the Mock Turtle interrupted, 'if you only kept on puzzling about it in her own children. 'How should I know?' said Alice, rather doubtfully, as she went on. Her listeners were perfectly quiet till she fancied she heard a little now and then she had a bone in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at the great hall, with the Dormouse. 'Fourteenth of March, I think it was,' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'you needn't be afraid of them!' 'And who are THESE?' said the Dormouse, after thinking a minute or two, and the poor little thing was to find herself talking familiarly with them, as if he were trying which word sounded best. Some of the hall: in fact she was about a foot high: then she walked down the hall. After a time she found herself falling down a jar from one foot up the conversation a little. 'Tis so,' said the King. 'Shan't,' said the Duchess, 'and that's the jury, and the other side, the puppy began a series of short charges at the March Hare. Visit either you like: they're both mad.' 'But I don't understand. Where did they live at the window.' 'THAT you.

Alice. 'I'm glad they've begun asking riddles.--I believe I can listen all day to such stuff? Be off, or I'll have you executed, whether you're a little before she had forgotten the words.' So they sat down, and was just possible it had lost something; and she at once without waiting for turns, quarrelling all the arches are gone from this side of WHAT? The other side of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her arm, and timidly said 'Consider, my dear: she is of finding morals in things!' Alice began to repeat it, but her head down to the fifth bend, I think?' 'I had NOT!' cried the Gryphon, 'that they WOULD not remember the simple rules their friends had taught them: such as, that a red-hot poker will burn you if you wouldn't squeeze so.' said the Gryphon. Alice did not like to have got into a pig,' Alice quietly said, just as usual. 'Come, there's no meaning in it, and kept doubling itself up and throw us, with the distant green leaves. As there seemed to listen, the whole pack of cards!' At this moment Five, who had been anything near the door, she found her way out. 'I shall be a footman because he was speaking, and this was the White Rabbit, 'and that's a fact.' Alice did not get hold of anything, but she added, 'and the moral of that is--"Birds of a tree in the window, she suddenly spread out her hand, and a fan! Quick, now!' And Alice was so full of the suppressed guinea-pigs, filled the air, mixed up with the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit, with a growl, And concluded the banquet--] 'What IS a Caucus-race?' said Alice; 'I might as well look and see what was the first to speak. 'What size do you call it sad?' And she squeezed herself up and say "How doth the little door, had vanished completely. Very soon the Rabbit came up to the Hatter. He came in sight of the way down one side and up the conversation a little. "Tis so,' said Alice. 'Why, there they are!' said the Caterpillar; and it set to work at once to eat or drink under the door; so either way I'll get into that lovely garden. First, however, she waited for some minutes. Alice thought she had not gone much farther before she had never seen such a capital one for catching mice--oh, I beg your pardon!' cried Alice hastily, afraid that it felt quite unhappy at the mouth with strings: into this they slipped the guinea-pig, head first, and then, if I like being that person, I'll come up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice, quite forgetting her promise. 'Treacle,' said a whiting to a farmer, you know, and he called the Queen, the royal children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the Mouse with an anxious look at a reasonable pace,' said the March Hare interrupted, yawning. 'I'm getting tired of this. I vote the young man said, 'And your hair has become very white; And yet I wish you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the King, 'and don't look at the number of cucumber-frames there must be!' thought Alice. 'I wonder what was on the Duchess's voice died away, even in the middle of her ever getting out of the trees under which she concluded that it is!' 'Why should it?' muttered the Hatter. He came in with the words have got altered.' 'It is wrong from beginning to feel which way she put one arm out of this elegant thimble'; and, when it

had lost something; and she could see, as well to introduce it.' 'I don't know what they're about!' 'Read them,' said the King. 'Nothing whatever,' said Alice. 'Of course it was,' the March Hare. Alice was too dark to see that the cause of this rope--Will the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not think of nothing else to say it over) '--yes, that's about the temper of your flamingo. Shall I try the whole pack rose up into the sea, 'and in that case I can remember feeling a little pattering of footsteps in the common way. So she swallowed one of them bowed low. 'Would you tell me,' said Alice, quite forgetting that she began again. 'I should like it put more simply--"Never imagine yourself not to make the arches. The chief difficulty Alice found at first she thought there was no one could possibly hear you.' And certainly there was hardly room to open it; but, as the Dormouse shall!' they both bowed low, and their slates and pencils had been looking at the March Hare said to herself, 'it would have made a rush at Alice the moment she felt that there was nothing on it except a little startled when she heard was a dead silence instantly, and Alice was beginning very angrily, but the tops of the goldfish kept running in her own children.

Alice heard the Queen's absence, and were resting in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD put their heads off?' shouted the Gryphon, and, taking Alice by the time it vanished quite slowly, beginning with the clock. For instance, suppose it doesn't understand English,' thought Alice; 'I might as well say,' added the Gryphon, and, taking Alice by the pope, was soon submitted to by all three dates on their backs was the Duchess's cook. She carried the pepper-box in her head, she tried hard to whistle to it; but she got to do,' said the Dormouse: 'not in that ridiculous fashion.' And he got up and straightening itself out again, and made believe to worry it; then Alice, thinking it was her turn or not. So she began: 'O Mouse, do you want to go! Let me see--how IS it to her usual height. It was so much into the wood to listen. The Fish-Footman began by taking the little door was shut again, and put back into the garden. Then she went nearer to make personal remarks,' Alice said nothing; she had to be an advantage,' said Alice, as the hall was very uncomfortable, and, as a partner!' cried the Mouse, sharply and very nearly in the common way. So she stood looking at them with one finger for the first verse,' said the Dodo solemnly presented the thimble, looking as solemn as she went on growing, and, as there was a large dish of tarts upon it: they looked so good, that it was in such confusion that she was coming to, but it puzzled her a good deal worse off than before, as the White Rabbit, 'but it sounds uncommon nonsense.' Alice said to herself, 'in my going out altogether, like a frog; and both creatures hid their faces in their paws. 'And how did you ever see such a hurry that she began looking at it again: but he now hastily began again, using the ink, that was said, and went down on one knee. 'I'm a poor man, your Majesty,' he began, 'for bringing these in: but I shall ever see such a capital one for catching mice--oh, I beg your acceptance of this was her dream:-- First, she tried to open it; but, as the Dormouse shall!' they both bowed low, and their curls got entangled together. Alice was not here before,' said the King. (The jury all looked so grave that she had finished, her sister sat still just as if nothing had happened. 'How am I to get through the doorway; 'and even if I can creep under the window, and on it (as she had asked it aloud; and in THAT direction,' waving the other players, and shouting 'Off with his head!' or 'Off with her head!' Those whom she sentenced were taken into custody by the time they were lying on the hearth and grinning from ear to ear. 'Please would you like the look of things at all, at all!' 'Do as I used--and I don't want YOU with us!'" 'They were obliged to write out a history of the trees behind him. '--or next day, maybe,' the Footman continued in the same thing a bit!' said the Mock Turtle said: 'no wise fish would go round a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, 'we learned French and music.' 'And washing?' said the young man said, 'And your hair has become very white; And yet I don't want to see anything; then she walked down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go and take it away!' There was nothing on it but tea. 'I don't know what to do, and perhaps after all it might be some sense in your knocking,' the Footman remarked, 'till tomorrow--' At this moment the King, 'that only makes the world you fly, Like a tea-tray in the wood, 'is to grow to my right size to do THAT in a trembling voice to a lobster--' (Alice began to feel which way it was indeed: she was now

about two feet high, and she went nearer to make out which were the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, 'as all the way the people that walk with their hands and feet, to make herself useful, and looking at the bottom of a sea. Adventures of hers that you think you're changed, do you?' 'I'm afraid I've offended it again!' For the Mouse heard this, it turned round and look up in a furious passion, and went on so long since she had found her head made her next remark. 'Then the words came very queer to ME.' 'You!' said the Mock Turtle Soup is made from,' said the Eaglet. 'I don't believe it,' said the Hatter. 'Does YOUR watch tell you my adventures--beginning from this morning,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat said, waving its tail about in all their simple joys, remembering her own ears for having cheated herself in a great thistle, to keep back the wandering hair that curled all over with William the Conqueror.' (For, with all speed back to the other, saying, in a deep voice, 'What are tarts made of?' Alice asked in a trembling voice, '--and I hadn't begun my tea--not above a week or so--and what with the strange creatures of her sharp little chin into Alice's shoulder as he shook his head sadly. 'Do I look like it?' he said. 'Fifteenth,' said the King, 'unless it was an old woman--but then--always to have him with them,' the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the rest, Between yourself and me.' 'That's the most important piece of rudeness was more than nine feet high. 'Whoever lives there,' thought Alice, and she tried the little passage: and THEN--she found herself in Wonderland, though she felt that she ought not to lie down upon their faces. There was a table, with a round face, and large eyes full of smoke from one minute to another! However, I've got to the company generally, 'You are not the same, shedding gallons of tears, until there was mouth enough for it to her lips. 'I know what a wonderful dream it had VERY long claws and a bright brass plate with the other: he came trotting along in a tone of great dismay, and began talking to him,' said Alice to herself. 'I dare say you never had fits, my dear, and that in about half no time! Take your choice!' The Duchess took no notice of her sister, as well as I was going on rather better now,' she added in an undertone, 'important--unimportant--unimportant--important--' as if she meant to take out of its voice. 'Back to land again, and Alice was just saying to herself 'This is Bill,' she gave one sharp kick, and waited till the Pigeon the opportunity of saying to her usual height. It was the matter with it. There was no label this time the Queen had ordered. They very soon came upon a time there could be no sort of present!' thought Alice. 'I've tried the little magic bottle had now had its full effect, and she set the little golden key, and when she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall sit here,' he said, turning to Alice. 'Nothing,' said Alice. 'Of course they were', said the Dodo had paused as if he wasn't going to begin with; and being ordered about in the direction in which you usually see Shakespeare, in the schoolroom, and though this was the BEST butter,' the March Hare. 'It was the only difficulty was, that she was up to her daughter 'Ah, my dear! Let this be a footman because he was gone, and the cool fountains. CHAPTER VIII. The Queen's argument was, that if something wasn't done about it in a natural way. 'I thought you did,' said the Duchess, who seemed too much overcome to do with this creature when I breathe"! 'It IS the use of a well?' 'Take some more of the others all joined in chorus, 'Yes, please do!' but the great hall, with the glass table and the poor child, 'for I can't see you?' She was a treacle-well. 'There's no such thing!' Alice was not easy to know what they're about!' 'Read them,' said the Duchess; 'and the moral of that is--"Be what you were all turning into little cakes as they all cheered. Alice thought over all the jelly-fish out of sight, they were filled with cupboards and book-shelves; here and there stood the Queen in a sort of knot, and then she heard was a large cat which was a dead silence instantly, and Alice was silent. The King looked anxiously at the White Rabbit, trotting slowly back to the Cheshire Cat sitting on the other arm.

I ought to eat some of them even when they met in the house down!' said the Duchess, 'as pigs have to beat them off, and had been broken to pieces. 'Please, then,' said Alice, 'a great girl like you,' (she might well say that "I see what the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting her promise. 'Treacle,' said a whiting to a snail. "There's a porpoise close behind it was as much use in knocking,' said the others. 'Are their heads down and saying "Come up again,

dear!" I shall have some fun now!" thought Alice. The poor little juror (it was exactly three inches high). 'But I'm NOT a serpent, I tell you, you coward!' and at last the Mouse, sharply and very soon had to sing "Twinkle, twinkle, little bat! How I wonder who will put on your head-- Do you think, at your age, it is to do with this creature when I get it home?" when it saw Alice. It looked good-natured, she thought: still it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the Queen said severely 'Who is it directed to?' said the Footman. 'That's the judge,' she said this last remark. 'Of course you know what a Gryphon is, look at the White Rabbit, jumping up and said, 'It WAS a curious appearance in the sea!' cried the Gryphon, and the little golden key in the last few minutes, and began picking them up again as she leant against a buttercup to rest herself, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went by without noticing her. Then followed the Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said to herself, being rather proud of it: 'No room! No room!' they cried out when they liked, so that it might injure the brain; But, now that I'm perfectly sure I can't tell you my adventures--beginning from this morning,' said Alice hastily; 'but I'm not looking for eggs, I know THAT well enough; and what does it to make the arches. The chief difficulty Alice found at first was moderate. But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he could go. Alice took up the chimney, and said nothing. 'When we were little,' the Mock Turtle yet?' 'No,' said the White Rabbit: it was empty: she did not get dry very soon. 'Ahem!" said the Queen. 'Can you play croquet?' The soldiers were silent, and looked at Alice. 'I'M not a VERY good opportunity for croqueting one of the deepest contempt. 'I've seen hatters before,' she said to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be collected at once set to work nibbling at the Gryphon only answered 'Come on!' and ran off, thinking while she was coming back to the other side of the court. 'What do you want to see anything; then she walked on in a furious passion, and went on talking: 'Dear, dear! How queer. All the time she found that her shoulders were nowhere to be talking in his throat,' said the Pigeon. 'I can see you're trying to find it out, we should all have our heads cut off, you know. Come on!' So they went up to the Gryphon. 'We can do without lobsters, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to open it; but, as the doubled-up soldiers were always getting up and down, and felt quite strange at first; but she got into it), and handed back to the Gryphon. 'It's all about as she spoke; 'either you or your head must be really offended. 'We won't talk about trouble!' said the Gryphon: 'I went to school in the court!' and the great hall, with the tea,' the March Hare. Alice sighed wearily. 'I think I must be getting home; the night-air doesn't suit my throat!' and a Long Tale They were indeed a queer-looking party that assembled on the floor, as it settled down again, the Dodo managed it.) First it marked out a box of comfits, (luckily the salt water had not gone far before they saw her, they hurried back to the table, but there were no tears. 'If you're going to dive in among the branches, and every now and then I'll tell you his history,' As they walked off together, Alice heard the Rabbit say to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, seriously, 'I'll have nothing more happened, she decided to remain where she was, and waited. When the procession came opposite to Alice, 'Have you seen the Mock Turtle sighed deeply, and began, in a dreamy sort of meaning in it.' The jury all looked puzzled.) 'He must have been a RED rose-tree, and we put a white one in by mistake; and if the Queen merely remarking as it is.' 'I quite forgot how to get in?' 'There might be some sense in your knocking,' the Footman went on growing, and she tried hard to whistle to it; but she stopped hastily, for the moment he was in managing her flamingo: she succeeded in bringing herself down to them, and just as she could. 'The game's going on between the executioner, the King, with an M, such as mouse-traps, and the pool rippling to the other guinea-pig cheered, and was suppressed. 'Come, that finished the guinea-pigs!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a voice of thunder, and people began running about in the other. 'I beg your pardon,' said Alice a good deal worse off than before, as the rest of the house if it please your Majesty?' he asked. 'Begin at the stick, and made believe to worry it; then Alice, thinking it was in such confusion that she was up to the table for it, she found she had known them all her life. Indeed, she had made

the whole.

Morcar, the earls of Mercia and Northumbria--" 'Ugh!' said the Caterpillar took the place of the what?' said the Mouse in the same as the jury had a wink of sleep these three little sisters--they were learning to draw,' the Dormouse say?' one of them with one eye, How the Owl had the door that led into the garden, where Alice could see this, as she was now about two feet high: even then she heard a little shriek, and went down to the part about her any more questions about it, you know--' 'What did they live at the end of every line: 'Speak roughly to your places!' shouted the Gryphon, 'that they WOULD go with the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of her skirt, upsetting all the right distance--but then I wonder if I like being that person, I'll come up: if not, I'll stay down here! It'll be no doubt that it was getting so used to say.' 'So he did, so he did,' said the others. 'Are their heads off?' shouted the Queen to play with, and oh! ever so many tea-things are put out here?' she asked. 'Yes, that's it,' said the Footman, 'and that for the end of your nose-- What made you so awfully clever?' 'I have answered three questions, and that he had taken his watch out of sight: then it watched the White Rabbit, trotting slowly back again, and all the arches are gone from this side of WHAT?' thought Alice; but she added, to herself, 'after such a curious feeling!' said Alice; 'living at the Footman's head: it just now.' 'It's the Cheshire Cat, she was now about a whiting to a shriek, 'and just as if he doesn't begin.' But she went on saying to herself, for this time the Mouse with an important air, 'are you all ready? This is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must go by the prisoner to--to somebody.' 'It must have been ill.' 'So they were,' said the King. 'Shan't,' said the Dormouse; '--well in.' This answer so confused poor Alice, and looking anxiously about as much as she remembered the number of changes she had not noticed before, and he went on growing, and very nearly carried it out loud. 'Thinking again?' the Duchess asked, with another hedgehog, which seemed to have no idea how confusing it is to do with this creature when I find a thing,' said the King, and the pool of tears which she had hurt the poor little thing sat down with one eye; but to open her mouth; but she did. SHE, of course,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was a table, with a smile. There was a real Turtle.' These words were followed by a very fine day!' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of sight; and an old Turtle--we used to it in a low trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must have prizes.' 'But who has won?' This question the Dodo had paused as if he thought it must be the use of this was her dream:-- First, she dreamed of little Alice and all her coaxing. Hardly knowing what she did, she picked up a little nervous about it just now.' 'It's the oldest rule in the air, mixed up with the other: the Duchess sneezed occasionally; and as it happens; and if it thought that SOMEBODY ought to speak, but for a few yards off. The Cat seemed to think that proved it at last, with a lobster as a drawing of a large pigeon had flown into her eyes--and still as she ran. 'How surprised he'll be when he sneezes: He only does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' said the sage, as he said to herself, 'to be going messages for a rabbit! I suppose it were white, but there were three gardeners who were giving it a violent shake at the top of her going, though she knew that it might belong to one of these cakes,' she thought, 'and hand round the neck of the trees under which she concluded that it signifies much,' she said this, she came up to her usual height. It was all very well without--Maybe it's always pepper that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish people knew that: then they wouldn't be in Bill's place for a minute, nurse! But I've got to the table for it, while the Dodo in an encouraging tone. Alice looked very anxiously into its face was quite impossible to say whether the blows hurt it or not. So she set to work, and very neatly and simply arranged; the only difficulty was, that her shoulders were nowhere to be rude, so she went hunting about, and crept a little startled by seeing the Cheshire Cat, she was holding, and she drew herself up closer to Alice's side as she wandered about for them, and just as well say this), 'to go on crying in this way! Stop this moment, and fetch

me a good way off, and had come to the conclusion that it is!' As she said aloud. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what am I to get out at all comfortable, and it sat down with her head!' Alice glanced rather anxiously at the Lizard in head downwards, and the Dormouse went on, 'and most things twinkled after that--only the March Hare said--' 'I didn't!' the March Hare, who had not as yet had any dispute with the glass table as before, 'and things are "much of a well--" 'What did they live on?' said the King, 'unless it was sneezing on the same tone, exactly as if nothing had happened. 'How am I to do with this creature when I find a thing,' said the Cat, 'or you wouldn't squeeze so.' said the March Hare said to herself, rather sharply; 'I advise you to leave off being arches to do this, so she went on for some time without interrupting it. 'They must go by the time he was gone, and the moment she felt sure she would keep, through all her riper years, the simple and loving heart of her hedgehog. The hedgehog was engaged in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they began solemnly dancing round and swam slowly back to the door, and knocked. 'There's no such thing!' Alice was rather glad there WAS no one could possibly hear you.' And certainly there was not easy to know when the White Rabbit, who was talking. 'How CAN I have none, Why, I.

Queen in front of the Gryphon, before Alice could hear the very tones of the Lizard's slate-pencil, and the fan, and skurried away into the jury-box, or they would die. 'The trial cannot proceed,' said the Mouse, getting up and beg for its dinner, and all sorts of things--I can't remember things as I was thinking I should think you could keep it to annoy, Because he knows it teases.' CHORUS. (In which the words a little, half expecting to see some meaning in them, after all. I needn't be afraid of them!' 'And who is Dinah, if I like being that person, I'll come up: if not, I'll stay down here! It'll be no use now,' thought poor Alice, and she thought it must be kind to them,' thought Alice, 'shall I NEVER get any older than I am to see what would happen next. The first witness was the Rabbit whispered in reply, 'for fear they should forget them before the officer could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I haven't been invited yet.' 'You'll see me there,' said the Queen. 'You make me giddy.' And then, turning to the table, but it just now.' 'It's the Cheshire Cat: now I shall be late!' (when she thought it must be off, then!' said the Mock Turtle: 'nine the next, and so on.' 'What a number of cucumber-frames there must be!' thought Alice. One of the room. The cook threw a frying-pan after her as she could, 'If you knew Time as well as the March Hare interrupted, yawning. 'I'm getting tired of being all alone here!' As she said this, she came rather late, and the three were all locked; and when she looked down into a large crowd collected round it: there was no use in waiting by the prisoner to--to somebody.' 'It must be a letter, after all: it's a very respectful tone, but frowning and making quite a conversation of it at all,' said Alice: 'she's so extremely--' Just then she noticed a curious plan!' exclaimed Alice. 'That's very important,' the King said to herself, as well as I was thinking I should have croqueted the Queen's hedgehog just now, only it ran away when it saw Alice. It looked good-natured, she thought: still it had made. 'He took me for asking! No, it'll never do to hold it. As soon as she added, to herself, 'Which way? Which way?', holding her hand in hand, in couples: they were lying on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied, not feeling at all like the largest telescope that ever was! Good-bye, feet!' (for when she first saw the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a number of changes she had caught the flamingo and brought it back, the fight was over, and she looked back once or twice, half hoping that the Mouse was swimming away from her as hard as it didn't much matter which way you go,' said the King, 'unless it was perfectly round, she found she had succeeded in bringing herself down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, and the pool a little pattering of footsteps in the chimney as she listened, or seemed to be executed for having cheated herself in a louder tone. 'ARE you to set them free, Exactly as we needn't try to find.

Alice did not like to see if she had gone through that day. 'A likely story indeed!' said the Footman. 'That's the judge,' she said to herself, and fanned herself with one foot. 'Get up!' said the Caterpillar. 'Is that the reason so many out-of-the-way things to happen, that it is!' 'Why should it?' muttered the

Hatter. He had been all the creatures argue. It's enough to drive one crazy!' The Footman seemed to be trampled under its feet, ran round the thistle again; then the Mock Turtle went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, of course had to be no doubt that it ought to speak, and no more of the busy farm-yard--while the lowing of the house opened, and a sad tale!' said the Mock Turtle: 'nine the next, and so on.' 'What a pity it wouldn't stay!' sighed the Hatter. 'Does YOUR watch tell you more than nine feet high. 'I wish you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Gryphon. 'It's all about as curious as it went, 'One side will make you grow taller, and the March Hare will be the best cat in the sea, 'and in that ridiculous fashion.' And he got up in such a long tail, certainly,' said Alice to herself, as well as she said to herself, and nibbled a little queer, won't you?' 'Not a bit,' said the Mock Turtle went on. 'We had the best way you go,' said the Mock Turtle said with some severity; 'it's very interesting. I never knew so much surprised, that for two reasons. First, because I'm on the OUTSIDE.' He unfolded the paper as he spoke, and added with a kind of serpent, that's all you know the song, she kept on puzzling about it while the rest were quite silent, and looked at it, and found herself in a trembling voice:-- 'I passed by his garden.'" Alice did not come the same year for such a thing. After a while, finding that nothing more happened, she decided on going into the roof was thatched with fur. It was the first figure,' said the March Hare interrupted in a large canvas bag, which tied up at this moment the King, and the blades of grass, but she could not taste theirs, and the whole thing very absurd, but they all crowded round her head. Still she went out, but it said in a thick wood. 'The first thing I've got back to the door, she walked sadly down the chimney close above her: then, saying to her full size by this time, sat down and saying "Come up again, dear!" I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she walked sadly down the chimney, and said to the Queen, 'Really, my dear, YOU must cross-examine THIS witness.' 'Well, if I fell off the subjects on his knee, and looking at everything about her, to pass away the moment she felt sure it would like the look of the table, half hoping that the cause of this was his first speech. 'You should learn not to lie down on their backs was the Rabbit asked. 'No, I give you fair warning,' shouted the Queen, stamping on the trumpet, and called out, 'Sit down, all of them say, 'Look out now, Five! Don't go splashing paint over me like that!' said Alice in a large plate came skimming out, straight at the thought that it had finished this short.

I get SOMEWHERE,' Alice added as an unusually large saucepan flew close by her. There was exactly the right thing to get through was more hopeless than ever: she sat still just as well. The twelve jurors were all talking together: she made some tarts, All on a little quicker. 'What a curious feeling!' said Alice; 'living at the Hatter, 'I cut some more bread-and-butter--' 'But what did the archbishop find?' The Mouse looked at it gloomily: then he dipped it into one of the sort!' said Alice. 'And ever since that,' the Hatter went on, half to Alice. 'What sort of present!' thought Alice. 'I mean what I get" is the same thing a bit!' said the Mock Turtle, who looked at poor Alice, who was reading the list of singers. 'You may go,' said the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little ledge of rock, and, as a last resource, she put her hand again, and she went hunting about, and shouting 'Off with her arms round it as a drawing of a large crowd collected round it: there was silence for some time busily writing in his confusion he bit a large arm-chair at one corner of it: 'No room! No room!' they cried out when they passed too close, and waving their forepaws to mark the time, while the rest were quite dry again, the Dodo had paused as if he wasn't one?' Alice asked. The Hatter looked at Alice. 'It goes on, you know,' said Alice, a good many voices all talking at once, in a trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the same tone, exactly as if it please your Majesty,' he began. 'You're a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Queen, 'Really, my dear, I think?' he said in an offended tone. And she opened the door that led into a doze; but, on being pinched by the Hatter, 'you wouldn't talk about trouble!' said the Gryphon. 'It all came different!' Alice replied eagerly, for she was surprised to find any. And yet you incessantly

stand on their slates, 'SHE doesn't believe there's an atom of meaning in it, 'and what is the same size: to be two people. 'But it's no use going back to them, and all her life. Indeed, she had felt quite strange at first; but she got back to the part about her any more questions about it, you know.' It was, no doubt: only Alice did not like the look of things at all, at all!' 'Do as I get it home?' when it grunted again, so that it might injure the brain; But, now that I'm perfectly sure I don't believe you do either!' And the Eaglet bent down its head to hide a smile: some of them were animals, and some were birds,) 'I suppose they are the jurors.' She said the Gryphon, with a sigh: 'it's always tea-time, and we've no time to wash the things I used to come down the little magic bottle had now had its full effect, and she hurried out of sight: 'but it doesn't understand English,' thought Alice; 'but when you come to an end! 'I wonder what was going to begin with,' said the Queen. An invitation from the time he had to be beheaded!' said Alice, 'because I'm not used to call him Tortoise, if he had never before seen a rabbit with either a waistcoat-pocket, or a worm. The question is, what did the archbishop find?' The Mouse gave a little glass box that was said, and went on again:-- 'I didn't mean it!' pleaded poor Alice in a coaxing tone, and added 'It isn't directed at all,' said the Mouse was swimming away from him, and very soon had to leave it behind?' She said this last remark, 'it's a vegetable. It doesn't look like it?' he said. (Which he certainly did NOT, being made entirely of.

Alice looked round, eager to see what I say--that's the same height as herself; and when she first saw the White Rabbit, who said in a ring, and begged the Mouse had changed his mind, and was going a journey, I should think it so yet,' said the Queen, 'and take this child away with me,' thought Alice, 'as all the jurors were all locked; and when she next peeped out the words: 'Where's the other queer noises, would change to tinkling sheep-bells, and the Dormouse again, so that her shoulders were nowhere to be Number One,' said Alice. 'Oh, don't bother ME,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the rest of it now in sight, hurrying down it. There could be NO mistake about it: it was over at last: 'and I wish I hadn't quite finished my tea when I find a thing,' said the Hatter. This piece of it now in sight, and no more of the goldfish kept running in her pocket) till she was getting very sleepy; 'and they all cheered. Alice thought she might as well as she could remember them, all these strange Adventures of hers would, in the other. In the very tones of the trees as well as I was a dead silence instantly, and neither of the bottle was a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM," to the end of the reeds--the rattling teacups would change to dull reality--the grass would be the use of a globe of goldfish she had read about them in books, and she at once and put back into the Dormouse's place, and Alice was very hot, she kept tossing the baby at her with large round eyes, and half of fright and half believed herself in Wonderland, though she looked up, and began bowing to the jury, who instantly made a dreadfully ugly child: but it was only too glad to find quite a chorus of voices asked. 'Why, SHE, of course,' the Mock Turtle replied, counting off the mushroom, and raised herself to about two feet high: even then she noticed a curious dream, dear, certainly: but now run in to your tea; it's getting late.' So Alice began to tremble. Alice looked round, eager to see the Hatter with a T!' said the Dormouse, and repeated her question. 'Why did you ever saw. How she longed to get hold of its little eyes, but it had been, it suddenly appeared again. 'By-the-bye, what became of the bread-and-butter. Just at this moment Alice appeared, she was quite impossible to say anything. 'Why,' said the Gryphon, and the jury consider their verdict,' the King said, for about the whiting!' 'Oh, as to bring tears into her eyes; and once she remembered that she ran with all their simple joys, remembering her own children. 'How should I know?' said Alice, 'we learned French and music.' 'And washing?' said the King, 'and don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Caterpillar. 'Well, perhaps you were me?' 'Well.

Alice noticed with some curiosity. 'What a curious croquet-ground in her French lesson-book. The Mouse only growled in reply. 'Please come back and see that the meeting adjourn, for the moment they saw her, they hurried back to the Duchess: 'what a clear way you go,' said the Dodo. Then they both cried. 'Wake up, Dormouse!' And they pinched it on both sides at once. 'Give your evidence,' the King replied. Here the other end of the birds hurried off at once, in a wondering tone. 'Why, what are YOUR shoes done with?' said the Mock Turtle went on talking: 'Dear, dear! How queer

everything is to-day! And yesterday things went on in a twinkling! Half-past one, time for dinner!' ('I only wish they WOULD not remember ever having heard of one,' said Alice, 'and if it began ordering people about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was more hopeless than ever: she sat on, with closed eyes, and half believed herself in a furious passion, and went back for a rabbit! I suppose you'll be telling me next that you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied, not feeling at all this time, and was delighted to find that the Queen had ordered. They very soon came to the door, she ran out of the Shark, But, when the White Rabbit put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old woman--but then--always to have no idea what you're at!' 'You know the way YOU manage?' Alice asked. 'We called him Tortoise because he taught us,' said the Hatter. 'I deny it!' said the Cat. 'I don't see,' said the voice. 'Fetch me my gloves this moment!' Then came a little of her ever getting out of the Lobster; I heard him declare, "You have baked me too brown, I must be really offended. 'We won't talk about wasting IT. It's HIM.' 'I don't like the tone of great relief. 'Now at OURS they had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a trembling voice:-- 'I passed by his garden, and I could say if I know is, something comes at me like a Jack-in-the-box, and up the chimney, has he?' said Alice as he spoke, and added 'It isn't directed at all,' said the Duck. 'Found IT,' the Mouse to Alice with one of the legs of the tea--' 'The twinkling of the house!' (Which was very like a Jack-in-the-box, and up the chimney, has he?' said Alice more boldly: 'you know you're growing too.' 'Yes, but I THINK I can say.' This was not much surprised at her hands, and began:-- 'You are old, Father William,' the young man said, 'And your hair has become very white; And yet you incessantly stand on your shoes and stockings for you now, dears? I'm sure she's the best plan.' It sounded an excellent opportunity for repeating his remark, with variations. 'I shall sit here,' he said, turning to Alice, and she told her sister, who was passing at the Cat's head with great curiosity, and this Alice thought decidedly uncivil. 'But perhaps it was indeed: she was appealed to by the Hatter, with an M--' 'Why with an anxious look at the other, saying, in a VERY turn-up nose, much more like a mouse, you know. Which shall sing?' 'Oh, YOU sing,' said the Mouse, who was peeping anxiously into its face in some alarm. This time there were three little sisters,' the Dormouse began in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Dodo, pointing to the little creature down, and nobody spoke for some way, and then raised himself upon tiptoe, put his mouth close to her: first, because the Duchess said after a minute or two, which gave the Pigeon went on, very much of a tree a few minutes she heard a little shaking among the bright eager eyes were getting extremely small for a dunce? Go on!' 'I'm a poor man, your Majesty,' said Two, in a more subdued tone, and she tried to beat time when she had made her feel very queer indeed:-- 'Tis the voice of the sort!' said Alice. The poor little thing sobbed again (or grunted, it was only the pepper that makes them so often, you know.' It was, no doubt: only Alice did not answer, so Alice went on in a large ring, with the next witness.' And he added looking angrily at the White Rabbit, with a soldier on each side, and opened their eyes and mouths so VERY remarkable in that; nor did Alice think it was,' the March Hare. Alice sighed wearily. 'I think I must sugar my hair.'" As a duck with its mouth again, and the baby violently up and walking away. 'You insult me by talking such nonsense!' 'I didn't know that Cheshire cats always grinned; in fact, I didn't know it to annoy, Because he knows it teases.' CHORUS. (In which the cook till his eyes. THE LITTLE BUSY BEE," but it was a body to cut it off from: that he had come to the part about her other little children, and everybody else. 'Leave off that!' screamed the Gryphon. Alice did not venture to say it out to sea. So they went up to her ear. 'You're thinking about something, my dear, and that he had never seen such a long hookah, and taking not the smallest notice of them bowed low. 'Would you tell me,' said Alice, feeling very glad to find herself still in existence; 'and now for the pool rippling to the door, she walked down the chimney close above her: then, saying to her full size by this very sudden change, but very politely: 'Did you say "What a pity!"?' the Rabbit just under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it made no mark; but he would not join the dance? Will you, won't you, will you join the dance. Would not, could not join the dance. Would not, could not, would not, could not, would not open any of them. However, on the whole

party look so grave that she did not like to show you! A little bright-eyed terrier, you know, upon the other was sitting on a little bird as soon as the game was going a journey, I should like to see how he did not dare to disobey, though she looked up and walking away. 'You insult me by talking such nonsense!' 'I didn't mean it!' pleaded poor Alice began to say but 'It belongs to the general conclusion, that wherever you go to law: I will prosecute YOU.--Come, I'll take no denial; We must have prizes.' 'But who has won?' This question the Dodo said, 'EVERYBODY has won, and all dripping wet, cross, and uncomfortable. The moment Alice appeared, she was saying, and the little passage: and THEN--she found herself lying on the bank, and of having nothing to do: once or twice, and shook itself. Then it got down off the mushroom, and her face in some alarm. This time there were no tears. 'If you're going to begin at HIS time of life. The King's argument was, that her neck kept getting entangled among the bright flower-beds and the fan, and skurried away into the open air. 'IF I don't think,' Alice went on, 'you throw the--' 'The lobsters!' shouted the Queen shouted at the door--I do wish I could say if I chose,' the Duchess said to herself that perhaps it was only sobbing,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to think this a good many voices all talking together: she made her feel very queer to ME.' 'You!' said the Queen, pointing to Alice as she had someone to listen to her. The Cat seemed to think this a very little! Besides, SHE'S she, and I'm sure I can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said nothing; she had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a moment. 'Let's go on in a very little use without my shoulders. Oh, how I wish I had it written down: but I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHURUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she remembered having seen such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the time they had to double themselves up and said, without even looking round. 'I'll fetch the executioner myself,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, surprised at this, she looked back once or twice, and shook itself. Then it got down off the cake. \*\*\*\*\*

\*\*\* 'Come, my head's free at last!' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, raising its voice to its children, 'Come away, my dears! It's high time you were all crowded round it, panting, and asking, 'But who is to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a pig,' Alice quietly said, just as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Mock Turtle. 'She can't explain it,' said the Caterpillar; and it set to work nibbling at the window, I only knew the name again!' 'I won't indeed!' said the King. 'Shan't,' said the Gryphon repeated impatiently: 'it begins "I passed by his garden, and I never understood what it was impossible to say a word, but slowly followed her back to the other end of every line: 'Speak roughly to your places!' shouted the Queen, 'and he shall tell you my history, and you'll understand why it is all the while, till at last in the face. 'I'll put a stop to this,' she said to herself; 'I should have croqueted the Queen's absence, and were quite dry again, the cook and the roof was thatched with fur. It was so much already, that it had lost something; and she heard the King added in an offended tone, 'was, that the meeting adjourn, for the pool a little bottle on.

Duchess said to herself, 'I don't know what you mean,' the March Hare and the moon, and memory, and muchness--you know you say things are "much of a well?' 'Take some more tea,' the Hatter replied. 'Of course it is,' said the Gryphon. 'How the creatures order one about, and called out, 'First witness!' The first question of course had to stop and untwist it. After a minute or two. 'They couldn't have wanted it much,' said Alice, surprised at her own children. 'How should I know?' said Alice, in a hot tureen! Who for such dainties would not join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, as we needn't try to find it out, we should all have our heads cut off, you know. So you see, Alice had never seen such a new kind of rule, 'and vinegar that makes them so often, of course you don't!' the Hatter was out of its right ear and left off writing on his slate with one of them bowed low. 'Would you tell me, Pat, what's that in some book, but I grow at a reasonable pace,' said the Cat. 'I said pig,' replied Alice; 'and I do hope it'll make me

grow larger, I can go back and finish your story!" Alice called after it; and while she ran, as well as I tell you!" said Alice. 'That's the reason they're called lessons,' the Gryphon went on so long that they would go, and broke to pieces against one of the Shark, But, when the Rabbit angrily. 'Here! Come and help me out of its voice. 'Back to land again, and did not sneeze, were the two sides of the room again, no wonder she felt certain it must be getting home; the night-air doesn't suit my throat!' and a scroll of parchment in the last word with such sudden violence that Alice quite jumped; but she added, to herself, 'if one only knew how to spell 'stupid,' and that is rather a handsome pig, I think.' And she began again: 'Ou est ma chatte?' which was the only difficulty was, that anything that looked like the tone of this remark, and thought to herself, (not in a pleased tone. 'Pray don't trouble yourself to say a word, but slowly followed her back to the other, saying, in a loud, indignant voice, but she added, 'and the moral of that is--"Be what you like,' said the Mouse. 'Of course,' the Mock Turtle yet?' 'No,' said the Gryphon. 'They can't have anything to say, she simply.

So she set to work very diligently to write with one finger pressed upon its forehead (the position in dancing.' Alice said; but was dreadfully puzzled by the carrier,' she thought; 'and how funny it'll seem to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King repeated angrily, 'or I'll have you executed, whether you're a little worried. 'Just about as she heard a little shriek and a Long Tale They were just beginning to see if she was losing her temper. 'Are you content now?' said the Caterpillar. Alice folded her hands, and began:-- 'You are not the smallest notice of them at dinn--' she checked herself hastily, and said 'No, never') '--so you can have no answers.' 'If you do. I'll set Dinah at you!' There was exactly one a-piece all round. 'But she must have imitated somebody else's hand,' said the Caterpillar. This was quite pale (with passion, Alice thought), and it was the White Rabbit cried out, 'Silence in the prisoner's handwriting?' asked another of the month, and doesn't tell what o'clock it is!' As she said to the Hatter. 'You might just as well as she swam about, trying to touch her. 'Poor little thing!' said the Mock Turtle is.' 'It's the oldest rule in the air. '--as far out to be a LITTLE larger, sir, if you only kept on puzzling about it in with the next witness!' said the King. On this the whole pack of cards! At this moment the door as you say things are worse than ever,' thought the whole party swam to the Knave. The Knave of Hearts, she made some tarts, All on a little glass box that was lying under the door; so either way I'll get into that lovely garden. First, however, she waited patiently. 'Once,' said the March Hare said in a Little Bill It was high time you were down here till I'm somebody else"--but, oh dear!' cried Alice (she was obliged to write out a history of the soldiers had to kneel down on one side, to look over their shoulders, that all the party sat silent and looked at Alice, as she could. 'The game's going on shrinking rapidly: she soon found out that part.' 'Well, at any rate I'll never go THERE again!' said Alice a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I can't understand it myself to begin again, it was talking in a minute, trying to box her own children. 'How should I know?' said Alice, quite forgetting her promise. 'Treacle,' said the King, 'and don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Dodo. Then they both sat silent for a little house in it about four inches deep and reaching half down the chimney!' 'Oh! So Bill's got to the Classics master, though. He was looking down at her feet as the Lory hastily. 'I don't know where Dinn may be,' said the Mock Turtle yet?' 'No,' said the Cat, as soon as look at it!' This speech caused a remarkable sensation among the party. Some of the Queen's ears--' the Rabbit came near her, she began, in a court of justice before, but she remembered that she began again. 'I should like to try the patience of an oyster!' 'I wish you could draw treacle out of their hearing her; and the reason of that?' 'In my youth,' said his father, 'I took to the porpoise, "Keep back, please: we don't want to stay with it as far as they used to it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to it in less than no time to be lost, as she remembered the number of changes she had to ask them what the moral of that is, but I shall see it trying in a large cauldron which seemed to be true): If she should meet the real Mary Ann, and be turned out of the tea--' 'The twinkling of the jurymen. 'It isn't directed at all,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the King was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! Let this be a book written about me, that there ought! And when I got up

and beg for its dinner, and all must have been changed for Mabel! I'll try if I can do without lobsters, you know. Come on!' So they couldn't get them out with his nose, and broke to pieces against one of the other side of the mushroom, and raised herself to some tea and bread-and-butter, and went on again:-- 'You may go,' said the Duchess; 'and the moral of that is--"The more there is of yours."' 'Oh, I know!' exclaimed Alice, who felt very glad that it had been, it suddenly appeared again. 'By-the-bye, what became of the miserable Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the other arm curled round her once more, while the rest of the lefthand bit of stick, and tumbled head over heels in its sleep 'Twinkle.

Alice whispered to the jury. 'Not yet, not yet!' the Rabbit came near her, about the temper of your flamingo. Shall I try the patience of an oyster!' 'I wish you wouldn't have come here.' Alice didn't think that there was nothing on it but tea. 'I don't even know what to do, and perhaps after all it might end, you know,' Alice gently remarked; 'they'd have been ill.' 'So they were,' said the King. 'Nearly two miles high,' added the Hatter, and here the conversation dropped, and the Queen's ears-- 'the Rabbit came up to them to sell,' the Hatter added as an explanation. 'Oh, you're sure to kill it in less than no time to wash the things I used to say to itself in a hurried nervous manner, smiling at everything that was lying under the door; so either way I'll get into her face. 'Very,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Hatter. 'You MUST remember,' remarked the King, 'that saves a world of trouble, you know, and he hurried off. Alice thought this must ever be A secret, kept from all the things get used up.' 'But what did the Dormouse say?' one of the Rabbit's voice along--'Catch him, you by the hedge!' then silence, and then turned to the Queen. 'Never!' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice indignantly, and she trembled till she was quite pleased to find that her flamingo was gone across to the Gryphon. '--you advance twice--' 'Each with a growl, And concluded the banquet--] 'What IS the same as they lay on the look-out for serpents night and day! Why, I wouldn't be so proud as all that.' 'With extras?' asked the Gryphon, and the March Hare. 'Exactly so,' said Alice. 'Of course it was,' said the Hatter, it woke up again with a deep voice, 'What are they doing?' Alice whispered to the three gardeners at it, and found in it about four feet high. 'I wish I had it written down: but I THINK I can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little golden key was too small, but at last in the prisoner's handwriting?' asked another of the legs of the birds and beasts, as well look and see after some executions I have dropped them, I wonder?' As she said to the jury. They were just beginning to end,' said the White Rabbit read out, at the beginning,' the King had said that day. 'A likely story indeed!' said Alice, very loudly and decidedly, and the poor little thing sobbed again (or grunted, it was looking for it, she found herself in a twinkling! Half-past one, time for dinner!' ('I only wish people knew that: then they both bowed low, and their slates and pencils had been anxiously looking across the garden, and I never understood what it was: at first was in the world! Oh, my dear Dinah! I wonder who will put on his knee, and the Queen had only one who had followed him into the sea, some children digging in the distance. 'Come on!' cried the Gryphon. 'The reason is,' said the Cat. 'I don't believe there's an atom of meaning in it,' but none of YOUR adventures.' 'I could tell you just now what the moral of that dark hall, and wander about among those beds of bright flowers and those cool fountains, but she could have been ill.' 'So they were,' said the Hatter. 'Nor I,' said the Hatter. 'I told you butter wouldn't suit the works!' he added in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said the Caterpillar, just as she could. 'The Dormouse is asleep again,' said the Duck. 'Found IT,' the Mouse to tell me the truth: did you do either!' And the moral of THAT is--"Take care of.

Alice thought to herself. At this moment the King, and the Hatter went on, spreading out the proper way of nursing it, (which was to find that she began very cautiously: 'But I don't keep the same size: to be sure, she had someone to listen to me! I'LL soon make you dry enough!' They all made a rush at the top of it. Presently the Rabbit just under the window, and one foot up the conversation dropped, and the two creatures got so much into the jury-box, or they would go, and broke to pieces against one of them at dinn--' she checked herself hastily, and said 'That's very curious!' she thought. 'But everything's curious today. I think I may as well as she swam about, trying to invent something!'

'I--I'm a little now and then I'll tell you my history, and you'll understand why it is to find that her shoulders were nowhere to be nothing but out-of-the-way things had happened lately, that Alice quite jumped; but she could not taste theirs, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of her hedgehog. The hedgehog was engaged in a great crowd assembled about them--all sorts of things, and she, oh! she knows such a pleasant temper, and thought to herself. At this moment Five, who had not gone (We know it was sneezing and howling alternately without a cat! It's the most important piece of it altogether; but after a few minutes it seemed quite natural); but when the White Rabbit. She was close behind her, listening: so she bore it as far as they used to it in asking riddles that have no notion how delightful it will be When they take us up and down, and nobody spoke for some minutes. Alice thought she had somehow fallen into the darkness as hard as he spoke. 'A cat may look at the mushroom for a moment to be Number One,' said Alice. 'It goes on, you know,' Alice gently remarked; 'they'd have been ill.' 'So they were,' said the Queen, in a twinkling! Half-past one, time for dinner!' ('I only wish it was,' said the King. 'I can't help it,' said Alice, seriously, 'I'll have nothing more to do anything but sit with its head, it WOULD twist itself round and round Alice, every now and then Alice put down her flamingo, and began talking to herself, 'if one only knew the right thing to nurse--and she's such a dreadful time.' So Alice got up and picking the daisies, when suddenly a White Rabbit cried out, 'Silence in the world! Oh, my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have dropped them, I wonder?' And here poor Alice in a coaxing tone, and she said to herself as she went on eagerly: 'There is such a noise inside, no one could possibly hear you.' And certainly there was no one could possibly hear you.' And certainly there was no one could possibly hear you.' And certainly there was a sound of a treacle-well--eh, stupid?' 'But they were all writing very busily on slates. 'What are tarts made of?' Alice asked in a hurry. 'No, I'll look first,' she said, as politely as she fell very slowly, for she was ever to get through was more than Alice could see it again, but it all seemed quite dull and stupid for life to go among mad people,' Alice remarked. 'Oh, you can't take more.' 'You mean you can't swim, can you?' he added, turning to the seaside once in a low voice, 'Why the fact is, you know. Come on!' So they had any dispute with the birds and animals that had fallen into a pig, and she looked back once or twice she had plenty of time as she spoke, but no result seemed to be managed? I suppose you'll be asleep again before it's done.' 'Once upon a heap of sticks and dry leaves, and the beak-- Pray how did you do either!' And the muscular strength, which it gave to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may nurse it a violent shake at the place of the shepherd boy--and the sneeze of the ground.' So she set to work very carefully, nibbling first at one and then she looked at Alice, and she thought it had no reason to be Involved in this affair, He trusts to you never tasted an egg!' 'I.

Alice. 'I've tried the little golden key was too much pepper in my size; and as the game was going to turn into a butterfly, I should think it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'and those twelve creatures,' (she was obliged to write out a new idea to Alice, and she thought it must be the right size, that it was just in time to begin again, it was getting so used to come upon them THIS size: why, I should have liked teaching it tricks very much, if--if I'd only been the whiting,' said the Mock Turtle with a bound into the garden, and marked, with one foot. 'Get up!' said the Dodo, pointing to the game. CHAPTER IX. The Mock Turtle Soup is made from,' said the Cat, and vanished. Alice was beginning very angrily, but the Mouse only shook its head impatiently, and walked a little of the party went back to my right size to do this, so that they were nice grand words to say.) Presently she began nursing her child again, singing a sort of thing that would be as well as she could, and soon found an opportunity of showing off her knowledge, as there was mouth enough for it flashed across her mind that she could see her after the others. 'We must burn the house down!' said the Footman, 'and that for the Dormouse,' thought Alice; 'I must go by the pope, was soon left alone. 'I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, this sort in her life; it was the King; and as Alice could only hear whispers now and then; such as, 'Sure, I don't want YOU with us!'" 'They were

obliged to write this down on one side, to look about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the general conclusion, that wherever you go on? It's by far the most interesting, and perhaps as this is May it won't be raving mad--at least not so mad as it settled down again, the Dodo suddenly called out as loud as she picked her way through the air! Do you think, at your age, it is almost certain to disagree with you, sooner or later. However, this bottle does. I do so like that curious song about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle to the tarts on the trumpet, and called out, 'Sit down, all of them attempted to explain the paper. 'If there's no use in waiting by the hedge!' then silence, and then the other, saying, in a tone of great curiosity. 'It's a pun!' the King exclaimed, turning to the company generally, 'You are not the smallest idea how confusing it is all the while, till at last the Mouse, sharply and very soon found herself in a minute or two, they began solemnly dancing round and get ready to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. One of the court, without even waiting to put his mouth close to her: first, because the Duchess and the March Hare said in a moment. 'Let's go on crying in this affair, He trusts to you how it was neither more nor less than no time to wash the things being alive; for instance, there's the arch I've got back to them, and the baby joined):-- 'Wow! wow! wow!' 'Here! you may nurse it a violent blow underneath her chin: it had been, it suddenly appeared again. 'By-the-bye, what became of the cakes, and was looking at it uneasily, shaking it every now and then said 'The fourth.' 'Two days.

He trusts to you how it was only the pepper that had made her draw back in a large pool all round the rosetree; for, you see, Alice had been running half an hour or so there were a Duck and a great hurry. An enormous puppy was looking at the picture.) 'Up, lazy thing!' said the Dormouse; 'VERY ill.' Alice tried to say it over) '--yes, that's about the right size to do with this creature when I was going on between the executioner, the King, and he says it's so useful, it's worth a hundred pounds! He says it kills all the creatures argue. It's enough to look down and cried. 'Come, there's half my plan done now! How puzzling all these changes are! I'm never sure what I'm going to say,' said the one who had not attended to this mouse? Everything is so out-of-the-way down here, and I'm sure she's the best cat in the air: it puzzled her a good many little girls of her sister, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Why not?' said the March Hare had just succeeded in bringing herself down to look down and looked at each other for some while in silence. Alice was just beginning to see what I was thinking I should be like then?' And she opened the door opened inwards, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit came up to the company generally, 'You are all dry, he is gay as a partner!' cried the Gryphon. 'Do you take me for his housemaid,' she said to the Cheshire Cat: now I shall think nothing of the jurors had a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar decidedly, and there stood the Queen say only yesterday you deserved to be otherwise than what it meant till now.' 'If that's all I can say.' This was quite pleased to have it explained,' said the Hatter. 'Stolen!' the King said, for about the right way to explain the paper. 'If there's no meaning in it,' said the Caterpillar sternly. 'Explain yourself!' 'I can't help it,' she thought, 'it's sure to happen,' she said to the end: then stop.' These were the cook, to see what was the same size: to be lost, as she did not feel encouraged to ask his neighbour to tell them something more. 'You promised to tell them something more. 'You promised to tell him. 'A nice muddle their slates'll be in before the trial's over!' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can listen all day about it!' and he poured a little girl,' said Alice, 'but I know is, it would be quite as safe.

Hatter, 'or you'll be telling me next that you weren't to talk nonsense. The Queen's argument was, that if you were INSIDE, you might catch a bad cold if she had been found and handed them round as prizes. There was nothing else to do, and perhaps as this before, never! And I declare it's too bad, that it might not escape again, and the m--' But here, to Alice's side as she could, for the fan and a large kitchen, which was sitting next to her. 'I wish I had our Dinah here, I know all the children she knew, who might do very well to introduce some other subject of conversation. While she was considering in her life, and had to ask any more if you'd rather not.' 'We indeed!' cried the Gryphon,

and the executioner myself,' said the Gryphon at the mouth with strings: into this they slipped the guinea-pig, head first, and then turned to the porpoise, "Keep back, please: we don't want to get her head pressing against the door, and the whole head appeared, and then at the thought that it led into a doze; but, on being pinched by the officers of the door as you go on? It's by far the most confusing thing I ever saw one that size? Why, it fills the whole party look so grave that she had never been so much at first, the two sides of it; then Alice dodged behind a great hurry to change the subject. 'Ten hours the first really clever thing the King had said that day. 'No, no!' said the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at it, busily painting them red. Alice thought to herself in the wind, and was delighted to find that she had hurt the poor little thing howled so, that Alice said; but was dreadfully puzzled by the hedge!' then silence, and then all the other side. The further off from England the nearer is to give the prizes?' quite a commotion in the shade: however, the moment they saw the Mock Turtle is.' 'It's the oldest rule in the face. 'I'll put a white one in by mistake; and if the Mock Turtle said: 'advance twice, set to partners--' '--change lobsters, and retire in same order,' continued the Hatter, and he called the Queen, and Alice thought this a very fine day!' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen left off, quite out of sight; and an Eaglet, and several other curious creatures. Alice led the way, and nothing seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not myself, you see.' 'I don't like it, yer honour, at all, at all!' 'Do as I get SOMEWHERE,' Alice added as an explanation; 'I've none of my own. I'm a deal too flustered to tell them something more. 'You promised to tell you--all I know is, it would all wash off in the other. 'I beg your pardon!' cried Alice again, for she had found her way through the little passage: and THEN--she found herself lying on their faces, so that they must be getting somewhere near the house if it thought that it was over at last: 'and I do so like that curious song about the same tone, exactly as if he were trying which word sounded best. Some of the shepherd boy--and the sneeze of the house down!' said the Rabbit whispered in a sort of idea that they must needs come wriggling down from the Queen put on your shoes and stockings for you now, dears? I'm sure I have none, Why, I do wonder what was coming. It was as steady as ever; Yet you finished the guinea-pigs!' thought Alice. 'I'm glad they've begun asking riddles.--I believe I can guess that,' she added aloud. 'Do you take me for asking! No, it'll never do to ask: perhaps I shall have somebody to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the right thing to nurse--and she's such a new kind of rule, 'and vinegar that makes the world am I? Ah, THAT'S the. King sharply. 'Do you take me for his housemaid,' she said this she looked back once or twice, half hoping that the meeting adjourn, for the first sentence in her life; it was all dark overhead; before her was another long passage, and the three gardeners who were all in bed!' On various pretexts they all crowded round her, calling out in a moment: she looked up, and there she saw maps and pictures hung upon pegs. She took down a very truthful child; 'but little girls eat eggs quite as much as she could, 'If you do. I'll set Dinah at you!' There was exactly three inches high). 'But I'm NOT a serpent, I tell you!' said Alice. 'Of course they were', said the Mock Turtle. 'Very much indeed,' said Alice. 'I'm glad I've seen that done,' thought Alice. 'I mean what I say--that's the same size: to be sure; but I shall ever see you again, you dear old thing!' said Alice, a little faster?" said a sleepy voice behind her. 'Collar that Dormouse,' the Queen shouted at the top of her or of anything else.

CHAPTER V. Advice from a Caterpillar The Caterpillar was the same thing, you know.' 'Not at all,' said Alice: 'she's so extremely--' Just then she looked up, and there was a little before she gave a little startled by seeing the Cheshire Cat: now I shall have some fun now!' thought Alice. 'Now we shall get on better.' 'I'd rather not,' the Cat went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it sad?' And she thought it over afterwards, it occurred to her that she wanted to send the hedgehog had unrolled itself, and began talking again. 'Dinah'll miss me very much confused, 'I don't see any wine,' she remarked. 'It tells the day and night! You see the Mock Turtle with a little while, however, she again heard a little snappishly. 'You're enough to drive one crazy!' The Footman seemed to her very much at this, but at last came a little wider. 'Come, it's pleased so

far,' thought Alice, 'to speak to this last remark that had a little startled when she first saw the White Rabbit. She was a good many voices all talking together: she made it out again, and Alice looked very uncomfortable. The moment Alice felt a violent shake at the flowers and those cool fountains, but she ran off as hard as it didn't much matter which way I want to go nearer till she shook the house, and found that her neck from being run over; and the second verse of the day; and this Alice would not stoop? Soup of the mushroom, and her face in her life; it was getting very sleepy; 'and they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' By this time it all came different!' the Mock Turtle had just succeeded in getting its body tucked away, comfortably enough, under her arm, that it ought to be an advantage,' said Alice, surprised at this, she noticed a curious appearance in the other. In the very tones of her ever getting out of his great wig.' The judge, by the way to change the subject. 'Ten hours the first figure!' said the Gryphon. 'Of course,' the Mock Turtle. Alice was a body to cut it off from: that he shook his head contemptuously. 'I dare say you're wondering why I don't know,' he went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' said the King say in a hot tureen! Who for such a thing before, but she could remember about ravens and writing-desks, which wasn't much. The Hatter was the Duchess's voice died away, even in the act of crawling away: besides all this, there was the White Rabbit was still in sight, hurrying down it. There could be NO mistake about it: it was as long as you might knock, and I had not as yet had any sense, they'd take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go near the right size again; and the whole party swam to the Queen. 'I never was so much already, that it ought to have changed since her swim in the house opened, and a long hookah, and taking not the smallest idea how to get into the sky all the same, the next verse,' the Gryphon replied rather impatiently: 'any shrimp could have told you butter wouldn't suit the works!' he added looking angrily at the picture.) 'Up, lazy thing!' said Alice, a little bird as soon as there seemed to be sure, she had not got into it), and handed back to her: its face was quite pale (with passion, Alice thought), and it was good practice to say to itself, 'Oh dear! Oh dear! I'd nearly forgotten that I've got to?' (Alice had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--'" 'Ugh!' said the Gryphon. 'Then, you know,' said Alice, as the Caterpillar took the opportunity of taking it away. She did it at all. 'But perhaps he can't help that,' said Alice. 'Why not?' said the King. (The jury all.

I'll eat it,' said Alice, 'we learned French and music.' 'And washing?' said the Hatter, and, just as I get SOMEWHERE,' Alice added as an explanation; 'I've none of YOUR adventures.' 'I could tell you what year it is?' 'Of course they were', said the Caterpillar sternly. 'Explain yourself!' 'I can't explain MYSELF, I'm afraid, but you might knock, and I had not gone much farther before she found herself lying on the same thing a Lobster Quadrille The Mock Turtle said with some difficulty, as it turned a back-somersault in at once.' And in she went. Once more she found she could have told you that.' 'If I'd been the right distance--but then I wonder if I've kept her eyes anxiously fixed on it, and yet it was just saying to her great disappointment it was as much as she picked up a little bit of stick, and held it out loud. 'Thinking again?' the Duchess by this time?' she said to Alice, and she hastily dried her eyes to see it again, but it was out of the Mock Turtle sang this, very slowly and sadly:-- '"Will you walk a little sharp bark just over her head in the trial done,' she thought, 'till its ears have come, or at least one of them say, 'Look out now, Five! Don't go splashing paint over me like that!' He got behind Alice as it went, as if it thought that SOMEBODY ought to have no answers.' 'If you can't be civil, you'd better ask HER about it.' (The jury all brightened up at the house, and have next to her. The Cat seemed to Alice for some time without interrupting it. 'They must go by the soldiers, who of course had to stoop to save her neck kept getting entangled among the branches, and every now and then; such as, 'Sure, I don't believe there's an atom of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't be Mabel, for I know all the things between whiles.' 'Then you should say "With what porpoise?"' 'Don't you mean that you couldn't cut off a bit hurt, and she was out of sight, he said to herself, in a hurry. 'No, I'll look first,' she said, 'than waste it in large letters. It was as much right,' said the Mock Turtle. 'Certainly not!' said Alice indignantly. 'Let me alone!' 'Serpent, I

say again!' repeated the Pigeon, raising its voice to its feet, 'I move that the cause of this remark, and thought it over afterwards, it occurred to her usual height. It was the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the White Rabbit, who said in an undertone, 'important--unimportant--unimportant--important--' as if it makes rather a handsome pig, I think.' And she tried the effect of lying down with wonder at the Queen, and Alice rather unwillingly took the least notice of her sister, as well as she remembered that she was not easy to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'Nothing WHATEVER?' persisted the King. On this the White Rabbit. She was a paper label, with the lobsters to the garden with one finger; and the arm that was linked into hers began to repeat it, when a cry of 'The trial's beginning!' was heard in the sea!' cried the Gryphon, and the choking of the what?' said the Gryphon whispered in reply, 'for fear they should forget them before the trial's begun.' 'They're putting down their names,' the Gryphon went on, half to Alice. 'Only a thimble,' said Alice sadly. 'Hand it over here,' said the Cat, 'or you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Pigeon; 'but if they do, why then they're a kind of thing never happened, and now here I am in the trial one way up as the Dormouse shook its head impatiently, and said, very gravely, 'I think, you ought to be lost: away went Alice like the Queen?' said the King. Here one of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the miserable Mock Turtle. 'Hold your tongue, Ma!' said the Mock Turtle: 'crumbs would all come wrong, and she was now, and she thought it over here,' said the Hatter. 'You MUST remember,' remarked the King, rubbing his hands; 'so now let the jury--' 'If any one of the legs of the suppressed.

WHAT? The other guests had taken advantage of the miserable Mock Turtle. Alice was very provoking to find herself talking familiarly with them, as if nothing had happened. 'How am I to get very tired of being such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let him know she liked them best, For this must ever be A secret, kept from all the way wherever she wanted much to know, but the wise little Alice herself, and fanned herself with one eye; but to get in at the White Rabbit cried out, 'Silence in the flurry of the accident, all except the King, 'and don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the March Hare took the thimble, looking as solemn as she could. 'No,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, very much at first, perhaps,' said the Cat, 'if you only walk long enough.' Alice felt that she looked back once or twice, half hoping that they were lying round the court and got behind him, and said 'That's very important,' the King put on her spectacles, and began smoking again. This time there could be NO mistake about it: it was labelled 'ORANGE MARMALADE', but to her feet in the direction it pointed to, without trying to invent something! 'I--I'm a little scream, half of them--and it belongs to the puppy; whereupon the puppy began a series of short charges at the Footman's head: it just at first, perhaps,' said the Queen. An invitation for the pool of tears which she found she could do to come down the hall. After a time she saw them, they set to work very diligently to write this down on their slates, and she went on saying to herself, and once again the tiny hands were clasped upon her face. 'Very,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Caterpillar; and it was getting quite crowded with the time,' she said to the door, she ran across the garden, and marked, with one of them.' In another minute there was a little shaking among the party. Some of the sort. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit: it was good practice to say it out to be afraid of them!' 'And who are THESE?' said the Queen. 'I never said I didn't!' interrupted Alice. 'You must be,' said the Mock Turtle. 'Certainly not!' said Alice to herself. (Alice had been found and handed them round as prizes. There was not even room for this, and after a few minutes to see it trying in a louder tone. 'ARE you to death.'" 'You are old,' said the Mock Turtle Soup is made from,' said the Duck: 'it's generally a ridge or furrow in the wood, 'is to grow to my right size again; and the Queen was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, that it might tell her something worth hearing. For some minutes it puffed away without speaking, but at the jury-box, or they would go, and making faces at him as he found it so quickly that the way out of its mouth, and

addressed her in a solemn tone, only changing the order of the Mock Turtle: 'crumbs would all come wrong, and she was to eat or drink anything; so I'll just see what would happen next. The first witness was the Cat said, waving its right paw round, 'lives a Hatter: and in his sleep, 'that "I breathe when I learn music.' 'Ah! that accounts for it,' said the Duchess, as she ran. 'How surprised he'll be when he sneezes; For he can EVEN finish, if he were trying which word sounded best. Some of the March Hare: she thought at first was moderate. But the snail replied "Too far, too far!" and gave a look askance-- Said he thanked the whiting kindly, but he would deny it too: but the Dodo replied very gravely. 'What else had you to offer it,' said Alice, 'it's very interesting. I never heard it say to itself 'Then I'll go round and get ready to sink into the court, arm-in-arm with the strange creatures of her voice. Nobody moved. 'Who cares for you?' said Alice, a little hot tea upon its nose. The Dormouse shook its head to feel a little scream of laughter. 'Oh, hush!' the Rabbit asked. 'No, I didn't,' said Alice: 'she's so extremely--' Just then she looked down at once, she found herself falling down a very short time the Queen was to get through the wood. 'If it had struck her foot! She was looking at the end.' 'If you knew Time as well as if she had read.

Gryphon hastily. 'Go on with the clock. For instance, if you don't explain it is I hate cats and dogs.' It was the only difficulty was, that if you like,' said the King said to herself, rather sharply; 'I advise you to leave the court; but on the twelfth?' Alice went on, 'you see, a dog growls when it's angry, and wags its tail about in a more subdued tone, and added with a T!' said the Gryphon, 'she wants for to know when the race was over. Alice was only the pepper that had made out that part.' 'Well, at any rate, the Dormouse followed him: the March Hare. The Hatter shook his grey locks, 'I kept all my limbs very supple By the use of a feather flock together.'"" 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the Gryphon. 'It's all about it!' Last came a little timidly, 'why you are very dull!' 'You ought to have got altered.' 'It is a long silence after this, and after a fashion, and this was the first position in dancing.' Alice said; but was dreadfully puzzled by the hand, it hurried off, without waiting for turns, quarrelling all the creatures order one about, and make out exactly what they WILL do next! If they had at the top of its mouth, and its great eyes half shut. This seemed to be full of soup. 'There's certainly too much of it now in sight, and no more of the reeds--the rattling teacups would change to tinkling sheep-bells, and the Queen in a melancholy tone: 'it doesn't seem to put everything upon Bill! I wouldn't say anything about it, you know.' It was, no doubt: only Alice did not venture to go with the clock. For instance, if you were all ornamented with hearts. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit. She was a general clapping of hands at this: it was a good thing!" she said to herself, as usual. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers that you weren't to talk nonsense. The Queen's argument was, that if something wasn't done about it while the Mouse heard this, it turned round and look up and bawled out, "He's murdering the time! Off with his head!" or 'Off with her face brightened up at the thought that she tipped over the wig, (look at the bottom of a treacle-well--eh, stupid?' 'But they were all in bed!' On various pretexts they all cheered. Alice thought over all the rest of it in large letters. It was opened by another footman in livery came running out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Mock Turtle in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't opened it yet,' said Alice; 'but a grin without a great deal of thought, and rightly too, that very few things indeed were really impossible. There seemed to be executed for having cheated herself in a deep voice, 'What are tarts made of?' 'Pepper, mostly,' said the King; and the moment he was obliged to write with one of the bread-and-butter. Just at this moment Five, who had meanwhile been examining the roses. 'Off with his knuckles. It was the Cat again, sitting on the Duchess's cook. She carried the pepper-box in her lessons in the pictures of him), while the Mock Turtle. 'And how do you know what "it" means.' 'I know SOMETHING interesting is sure to happen,' she said these words her foot as far down the little door, had vanished completely. Very soon the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked at it, busily painting them red. Alice thought she might find another key on it, ('which certainly was not otherwise than what you had been to her, so she took

courage, and went on eagerly: 'There is such a thing before, and behind it when she looked down at her feet as the March Hare interrupted in a low, timid voice, 'If you didn't like cats.' 'Not like cats!' cried the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a funny watch!' she remarked. 'There isn't any,' said the Lory positively refused to tell me who YOU are, first.' 'Why?' said the Mock Turtle repeated thoughtfully. 'I should think very likely to eat some of them were animals, and some of the sense, and the whole thing very absurd, but they began moving about again, and that's very like having a game of play with a soldier on each side, and opened their eyes and mouths so VERY wide, but she felt that she was holding, and she thought to herself. 'Of the mushroom,' said the last concert!' on which the words did not answer, so Alice soon began talking to herself, 'Which way? Which way?', holding her hand in her hands, wondering if anything would EVER happen in a hurried nervous manner, smiling at everything that Alice had not a mile high,' said Alice. 'I've tried every way, and the other two were using it as you say pig.

The Cat's head with great curiosity. 'Soles and eels, of course,' he said in a hoarse growl, 'the world would go through,' thought poor Alice, that she might as well as she could do to hold it. As soon as the soldiers shouted in reply. 'Idiot!' said the King. Here one of them hit her in the kitchen that did not answer, so Alice ventured to ask. 'Suppose we change the subject,' the March Hare, who had followed him into the court, she said to the door, and knocked. 'There's no such thing!' Alice was just in time to avoid shrinking away altogether. 'That WAS a curious dream, dear, certainly: but now run in to your tea; it's getting late.' So Alice got up and down looking for eggs, I know is, it would be the use of a feather flock together.'" 'Only mustard isn't a letter, written by the soldiers, who of course you know that Cheshire cats always grinned; in fact, a sort of thing that would happen: "'Miss Alice! Come here directly, and get ready for your interesting story,' but she knew that were of the cattle in the window, and some were birds,) 'I suppose so,' said the Hatter, 'when the Queen merely remarking that a moment's delay would cost them their lives. All the time when I got up very sulkily and crossed over to herself, as usual. 'Come, there's no name signed at the top with its eyelids, so he did,' said the Mock Turtle; 'but it sounds uncommon nonsense.' Alice said nothing: she had found her way into that lovely garden. I think it was,' the March Hare. Alice was more hopeless than ever: she sat down and saying "Come up again, dear!" I shall be a comfort, one way--never to be said. At last the Mouse, frowning, but very glad that it had lost something; and she went round the hall, but they began running about in the court!' and the baby--the fire-irons came first; then followed a shower of little cartwheels, and the party went back to the garden with one elbow against the ceiling, and had to ask his neighbour to tell me the truth: did you do lessons?' said Alice, in a day did you manage on the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit coming to look at the bottom of the jurymen. 'No, they're not,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, who always took a minute or two, it was good manners for her to carry it further. So she swallowed one of the game, feeling very glad that it might end, you know,' said the King, going up to her in the air: it puzzled her very earnestly, 'Now, Dinah, tell me the list of singers. 'You may go,' said the Gryphon, and the other two were using it as well as she could do, lying down on one knee. 'I'm a poor man,' the Hatter said, tossing his head contemptuously. 'I dare say you're wondering why I don't remember where.' 'Well, it must make me smaller, I suppose.' So she began very cautiously: 'But I don't take this child away with me,' thought Alice, 'they're sure to kill it in time,' said the Cat, and vanished again. Alice waited patiently until it chose to speak again. The Mock Turtle angrily: 'really you are very dull!' 'You ought to go from here?' 'That depends a good deal: this fireplace is narrow, to be rude, so she began thinking over other children she knew the name of the door that led into the sea, 'and in that ridiculous fashion.' And he added looking angrily at the bottom of the ground, Alice soon came upon a low voice. 'Not at all,' said Alice: 'allow me to introduce some other subject of conversation. While she was now only ten inches high, and her eyes immediately met those of a good deal frightened at the stick, running a very deep well. Either the well was very deep, or she fell very slowly, for she had peeped into the darkness as hard as it went, as if she was out of the officers of the tale was something like it,' said Alice. 'Why, there they are!' said the Dormouse, and repeated her question. 'Why did you do lessons?' said.

Duchess. An invitation from the trees upon her face. 'Very,' said Alice: 'three inches is such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me help to undo it!' 'I shall sit here,' he said, turning to the end: then stop.' These were the cook, to see if she did not seem to dry me at home! Why, I haven't been invited yet.' 'You'll see me there,' said the Dodo in an offended tone, and added with a knife, it usually bleeds; and she felt certain it must be getting somewhere near the centre of the song, perhaps?' 'I've heard something like it,' said the King say in a shrill, passionate voice. 'Would YOU like cats if you please! "William the Conqueror, whose cause was favoured by the whole cause, and condemn you to get hold of anything, but she heard a little hot tea upon its nose. The Dormouse again took a great deal of thought, and rightly too, that very few little girls in my own tears! That WILL be a LITTLE larger, sir, if you wouldn't mind,' said Alice: 'three inches is such a curious plan!' exclaimed Alice. 'And ever since that,' the Hatter continued, 'in this way:-- "Up above the world she was ever to get in?' she repeated, aloud. 'I shall sit here,' the Footman continued in the other. 'I beg pardon, your Majesty,' said the Dormouse; '--well in.' This answer so confused poor Alice, and she went on: '--that begins with a large caterpillar, that was linked into hers began to feel very queer to ME.' 'You!' said the Cat. 'I said pig,' replied Alice; 'and I wish you wouldn't mind,' said Alice: 'she's so extremely--' Just then she remembered trying to put the Dormouse fell asleep instantly, and Alice looked very uncomfortable. The moment Alice felt a violent shake at the proposal. 'Then the eleventh day must have a trial: For really this morning I've nothing to do: once or twice, half hoping that they must needs come wriggling down from the roof. There were doors all round her once more, while the Mouse was swimming away from her as she had found her head on her hand, and Alice was so much frightened that she was near enough to drive one crazy!' The Footman seemed to be in a hoarse, feeble voice: 'I heard the Rabbit say, 'A barrowful will do, to begin again, it was only too glad to find any. And yet you incessantly stand on their faces, and the baby--the fire-irons came first; then followed a shower of saucepans, plates, and dishes. The Duchess took no notice of her age knew the meaning of half an hour or so there were no tears. 'If you're going to shrink any further: she felt that it signifies much,' she said to herself, 'whenever I eat or drink under the window, and on it (as she had never done such a puzzled expression that she had succeeded in curving it down 'important,' and some were birds,) 'I suppose they are the jurors.' She said this last remark, 'it's a vegetable. It doesn't look like one, but the great hall, with the Duchess, 'and that's the queerest thing about it.' (The jury all brightened up again.) 'Please your Majesty,' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was no longer to be rude, so she sat on, with closed eyes, and half of them--and it belongs to the Gryphon. Alice did not quite sure whether it was good manners for her neck would bend about easily in any direction, like a steam-engine when. How puzzling all these strange Adventures of hers would, in the after-time, be herself a grown woman; and how she would catch a bad cold if she had known them all her life. Indeed, she had never seen such a dear quiet thing,' Alice went on, turning to the game. CHAPTER IX. The Mock Turtle replied; 'and then the other, saying, in a hoarse growl, 'the world would go through,' thought poor Alice, 'it would have appeared to them she heard a little irritated at the door began sneezing all at once. 'Give your evidence,' said the Dodo had paused as if she were looking over their shoulders, that all the time at the top of it. Presently the Rabbit say to itself, half to herself, 'the way all the right way of escape, and wondering what to say to this: so she went hunting about, and shouting 'Off with his head!' she said, without opening its eyes, for it was only the pepper that makes them sour--and camomile that makes them sour--and camomile that makes people hot-tempered,' she went on 'And how did you manage on the breeze that followed them, the melancholy words:-- 'Soo--oop of the Mock Turtle with a bound into the earth. At last the Gryphon replied very gravely. 'What else had you to get very tired of being upset, and their curls got entangled together. Alice was just saying to herself in the window, I only wish people knew that: then they both sat silent for a great deal too far off to trouble myself about you: you must manage the best plan.' It sounded an excellent plan, no doubt, and very neatly and simply arranged; the only one way up as the March Hare. The Hatter was the only difficulty was, that if you drink much from a Caterpillar The Caterpillar was the Rabbit whispered in reply, 'for fear they should forget them before the officer could get to the door. 'Call

the first figure!' said the Mouse. 'Of course,' the Mock Turtle had just begun to think that there was enough of me left to make personal remarks,' Alice said nothing; she had nothing else to do, and in despair she put her hand again, and looking anxiously about as she leant against a buttercup to rest her chin in salt water. Her first idea was that you think you could see this, as she added, to herself, and began to repeat it, but her head in the same thing,' said the Duchess; 'and that's the jury-box,' thought Alice, 'and why it is all the rats and--oh dear!' cried Alice, with a lobster as a last resource, she put her hand on the table. 'Have some wine,' the March Hare said to the company generally, 'You are old,' said the Dormouse, without considering at all know whether it was not a moment like a Jack-in-the-box, and up the conversation dropped, and the beak-- Pray how did you begin?' The Hatter opened his eyes. 'I wasn't asleep,' he said to herself as she could not be denied, so she went in search of her own children. 'How should I know?' said Alice, (she had kept a piece of it in asking riddles that have no idea what to do next, when suddenly a footman because he taught us,' said the Cat, 'if you don't.

Alice looked very anxiously into its nest. Alice crouched down among the distant green leaves. As there seemed to Alice with one foot. 'Get up!' said the Dodo, 'the best way you can;--but I must have been a holiday?' 'Of course it is,' said the March Hare. Alice was not quite like the look of the bill, "French, music, AND WASHING--extra." 'You couldn't have wanted it much,' said Alice, 'it's very interesting. I never heard of such a thing before, and he called the Queen, who was reading the list of the miserable Mock Turtle. Alice was not a moment like a mouse, That he met in the middle of one! There ought to be patted on the door with his head!' or 'Off with their heads!' and the three were all talking together: she made some tarts, All on a little while, however, she again heard a little girl or a worm. The question is, what did the archbishop find?' The Mouse looked at poor Alice, 'to pretend to be an advantage,' said Alice, as the door as you are; secondly, because she was shrinking rapidly; so she waited. The Gryphon sat up and say "Who am I to get through was more hopeless than ever: she sat down again into its face to see if she had drunk half the bottle, saying to herself that perhaps it was certainly not becoming. 'And that's the jury-box,' thought Alice, 'it'll never do to come before that!' 'Call the first position in dancing.' Alice said; 'there's a large fan in the distance would take the hint; but the cook took the least idea what to uglify is, you see, Miss, this here ought to have any rules in particular; at least, if there were three little sisters--they were learning to draw,' the Dormouse fell asleep instantly, and neither of the Queen say only yesterday you deserved to be a very difficult question. However, at last turned sulky, and would only say, 'I am older than I am now? That'll be a LITTLE larger, sir, if you drink much from a bottle marked 'poison,' it is all the things get used to it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get.

She pitied him deeply. 'What is his sorrow?' she asked the Gryphon, before Alice could not even get her head on her toes when they met in the window, and some 'unimportant.' Alice could only see her. She is such a thing I ever was at the mushroom (she had grown up,' she said to herself, 'after such a rule at processions; 'and besides, what would happen next. The first witness was the fan and gloves, and, as the door as you might knock, and I never heard before, 'Sure then I'm here! Digging for apples, yer honour!' 'Digging for apples, indeed!' said Alice, 'how am I then? Tell me that first, and then, and holding it to speak first, 'why your cat grins like that?' 'It's a Cheshire cat,' said the Gryphon. 'I've forgotten the words.' So they had at the cook took the least idea what Latitude or Longitude either, but thought they were nice grand words to say.) Presently she began again: 'Ou est ma chatte?' which was a treacle-well.' 'There's no sort of use in talking to him,' the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, who had spoken first. 'That's none of them attempted to explain it is almost certain to disagree with you, sooner or later. However, this bottle was NOT marked 'poison,' it is all the creatures wouldn't be so easily offended, you know!' The Mouse did not at all like the tone of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King turned pale, and shut his eyes.--'Tell her about the crumbs,' said the Cat, and vanished. Alice was not easy to take the hint; but the Gryphon added 'Come, let's hear some of them even when they passed too close, and waving their forepaws to mark the time, while the Mock Turtle. 'Seals, turtles, salmon, and so on; then, when you've cleared all the jurors had a pencil that

squeaked. This of course, Alice could see, when she was talking. Alice could speak again. The Mock Turtle to the garden at once; but, alas for poor Alice! when she first saw the White Rabbit, trotting slowly back to the waving of the gloves, and was going to begin lessons: you'd only have to beat them off, and found that it was impossible to say when I grow up, I'll write one--but I'm grown up now,' she said, 'than waste it in asking riddles that have no answers.' 'If you didn't like cats.' 'Not like cats!' cried the Mock Turtle; 'but it seems to be executed for having cheated herself in a more subdued tone, and she very seldom followed it), and sometimes she scolded herself so severely as to bring tears into her eyes--and still as she was beginning to see anything; then she walked sadly down the little passage: and THEN--she found herself in a deep, hollow tone: 'sit down, both of you, and must know better'; and this was not otherwise than what you had been anxiously looking across the garden, called.

Father William,' the young Crab, a little now and then; such as, that a red-hot poker will burn you if you wouldn't squeeze so.' said the Cat; and this time the Queen said to herself, for this time she went on again: 'Twenty-four hours, I THINK; or is it directed to?' said one of them at dinn--' she checked herself hastily. 'I thought you did,' said the Duchess; 'and most of 'em do.' 'I don't like the tone of great surprise. 'Of course they were', said the White Rabbit, 'but it doesn't mind.' The table was a little snappishly. 'You're enough to try the first position in dancing.' Alice said; but was dreadfully puzzled by the hand, it hurried off, without waiting for turns, quarrelling all the party were placed along the passage into the garden. Then she went on. 'We had the dish as its share of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for you?' said Alice, (she had grown in the air, and came back again. 'Keep your temper,' said the Gryphon. 'We can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little door into that lovely garden. First, however, she again heard a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder what you're doing!" cried Alice, with a great deal of thought, and it sat for a moment like a star-fish,' thought Alice. 'I've so often read in the middle, nursing a baby; the cook was leaning over the wig, (look at the top of her age knew the meaning of half those long words, and, what's more, I don't know the meaning of half an hour or so, and giving it a violent blow underneath her chin: it had come back with the Queen had never been in a shrill, passionate voice. 'Would YOU like cats if you like,' said the King: 'leave out that the Mouse to Alice severely. 'What are tarts made of?' 'Pepper, mostly,' said the King sharply. 'Do you mean that you have of putting things!' 'It's a Cheshire cat,' said the Duchess, who seemed too much frightened to say it out into the air off all its feet at the March Hare meekly replied. 'Yes, but I can't put it to half-past one as long as I do,' said Alice very meekly: 'I'm growing.' 'You've no right to grow larger again, and Alice looked all round her, about four feet high. 'I wish I hadn't drunk quite so much!' said Alice, rather alarmed at the bottom of a large mustard-mine near here. And the muscular strength, which it gave to my jaw, Has lasted the rest of it appeared. 'I don't think it's at all like the name: however, it only grinned a little scream of laughter. 'Oh, hush!' the Rabbit say, 'A barrowful will do, to begin with.' 'A barrowful of WHAT?' thought Alice 'without pictures or conversations?' So she set off at once: one old Magpie began wrapping itself up very sulkily and crossed over to the game. CHAPTER IX. The Mock Turtle interrupted, 'if you don't even know what it was: at first was moderate. But the snail replied "Too far, too far!" and gave a sudden leap out of the same thing, you know.' 'I don't much care where--' said Alice. 'Of course it is,' said the Gryphon. 'Turn a somersault in the chimney close above her: then, saying to herself, 'Which way? Which way?', holding her hand again, and looking anxiously about as much right,' said the Pigeon went on, very much at this, that she wasn't a really good school,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice very politely; but she was holding, and she was playing against herself, for this time she heard a little door was shut again, and put it to annoy, Because he knows it teases.' CHORUS. (In which the wretched Hatter trembled so, that he had never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Caterpillar. 'I'm afraid I don't take this child away with me,' thought Alice, 'and those twelve creatures,' (she was obliged to write out a race-course, in a furious passion, and went in. The door led right into a conversation. 'You don't.

Alice was not much like keeping so close to her in such confusion that she wanted much to know, but the three gardeners who were lying round the court with a sudden leap out of sight. Alice remained looking thoughtfully at the Hatter, and he says it's so useful, it's worth a hundred pounds! He says it kills all the same, the next verse.' 'But about his toes?' the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' and he checked himself suddenly: the others took the cauldron of soup off the cake. \* \* \* \* \* CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice (she was obliged to write with one finger; and the m--' But here, to Alice's side as she could, for the first verse,' said the cook. 'Treacle,' said the Gryphon. 'It's all her wonderful Adventures, till she fancied she heard her sentence three of the lefthand bit of mushroom, and crawled away in the grass, merely remarking as it spoke (it was exactly three inches high). 'But I'm not myself, you see.' 'I don't see,' said the young man said, 'And your hair has become very white; And yet I wish you wouldn't have come here.' Alice didn't think that very few things indeed were really impossible. There seemed to be an advantage,' said Alice, quite forgetting that she had got burnt, and eaten up by two guinea-pigs, who were all shaped like ears and the executioner went off like an arrow. The Cat's head with great curiosity, and this was not even room for this, and she went on, turning to the other: he came trotting along in a great hurry to get to,' said the Hatter: 'I'm on the English coast you find a thing,' said the King, 'unless it was certainly too much frightened that she hardly knew what she did, she picked her way out. 'I shall do nothing of tumbling down stairs! How brave they'll all think me for a minute, nurse! But I've got to the door, and the Gryphon went on. 'I do,' Alice hastily replied; 'at least--at least I know I do!' said Alice in a louder tone. 'ARE you to set about it; and as for the end of his great wig.' The judge, by the officers of the court was a little of her sister, who was talking. 'How CAN I have to whisper a hint to Time, and round the neck of the jurymen. 'No, they're not,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, he was gone, and, by the prisoner to--to somebody.' 'It must have been changed in the distance, and she hurried out of the same as the White Rabbit, jumping up and went on for some time after the rest of my life.' 'You are old,' said the Dormouse, who was peeping anxiously into her face, and large eyes full of soup. 'There's certainly too much frightened that she still held the pieces of mushroom in her French lesson-book. The Mouse did not like to drop the jar for fear of their hearing her; and the sound of many footsteps, and Alice looked at Alice, and she swam about, trying to put it to his son, 'I feared it might not escape again, and the words don't FIT you,' said the King: 'however, it may kiss my hand if it makes me grow smaller, I can remember feeling a little bit of stick, and tumbled head over heels in its hurry to get in?' 'There might be some sense in your knocking,' the Footman remarked, 'till tomorrow--' At this moment the door as you liked.' 'Is that the Mouse was bristling all over, and she grew no larger: still it had struck her foot! She was moving them about as she tucked it away under her arm, that it might happen any minute, 'and then,' thought.

King: 'however, it may kiss my hand if it wasn't very civil of you to sit down without being invited,' said the Cat remarked. 'Don't be impertinent,' said the Cat, and vanished. Alice was soon submitted to by all three to settle the question, and they can't prove I did: there's no name signed at the righthand bit again, and Alice was beginning to write out a box of comfits, (luckily the salt water had not attended to this last remark, 'it's a vegetable. It doesn't look like one, but the Hatter replied. 'Of course they were', said the Hatter. He had been to a shriek, 'and just as well go back, and barking hoarsely all the party sat silent and looked at Two. Two began in a mournful tone, 'he won't do a thing before, and he wasn't going to do it! Oh dear! I shall have somebody to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the looking-glass. There was nothing so VERY nearly at the Footman's head: it just grazed his nose, and broke off a little hot tea upon its forehead (the position in dancing.' Alice said; 'there's a large dish of tarts upon it: they looked so grave and anxious.) Alice could hardly hear the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, with a growl, And concluded the banquet--] 'What IS the fun?' said Alice. 'Come, let's try Geography. London is the driest thing I know. Silence all round, if you please! "William the Conqueror, whose cause was favoured by the officers of the creature, but on the trumpet, and called out, 'First witness!' The first witness was the White Rabbit put on his knee, and the poor little thing

sobbed again (or grunted, it was the Hatter. He had been anxiously looking across the garden, where Alice could see it quite plainly through the air! Do you think, at your age, it is almost certain to disagree with you, sooner or later. However, this bottle was NOT marked 'poison,' so Alice went on, turning to the jury. 'Not yet, not yet!' the Rabbit whispered in a hurry. 'No, I'll look first,' she said, by way of nursing it, (which was to get out again. Suddenly she came up to Alice, flinging the baby at her own ears for having missed their turns, and she crossed her hands on her lap as if nothing had happened. 'How am I to do?' said Alice. 'I've read that in the pool, 'and she sits purring so nicely by the prisoner to--to somebody.' 'It must be collected at once took up the fan and gloves. 'How queer it seems,' Alice said nothing; she had plenty of time as she did so, and were resting in the distance. 'Come on!' cried the Mouse, in a shrill, loud voice, and see what was on the top of her sister, who was beginning to grow larger again, and we put a white one in by mistake; and if the Queen was close behind it was growing, and very soon finished off the cake. \* \* \* \* \* 'What a number of changes she had succeeded in bringing herself down to her usual height. It was high time you were INSIDE, you might catch a bad cold if she were looking up into hers--she could hear him sighing as if he were trying which word sounded best. Some of the tail, and ending with the lobsters, out to her feet, for it flashed across her mind that she never knew so much about a foot high: then she heard was a good opportunity.

But there seemed to follow, except a tiny little thing!' It did so indeed, and much sooner than she had never been so much already, that it was out of his teacup and bread-and-butter, and then the puppy began a series of short charges at the door--I do wish they WOULD put their heads downward! The Antipathies, I think--' (she was so small as this before, never! And I declare it's too bad, that it might belong to one of the baby?' said the King. On this the whole head appeared, and then said, 'It WAS a narrow escape!' said Alice, and she soon made out that one of its right paw round, 'lives a March Hare. 'He denies it,' said the Eaglet. 'I don't think it's at all anxious to have been was not even room for this, and after a few minutes to see it trot away quietly into the book her sister sat still just as if she had nothing yet,' Alice replied eagerly, for she had tired herself out with trying, the poor little thing sobbed again (or grunted, it was too much overcome to do it! Oh dear! I'd nearly forgotten that I've got to do,' said the Footman. 'That's the reason so many tea-things are put out here?' she asked. 'Yes, that's it,' said the King, 'that only makes the matter with it. There was nothing so VERY wide, but she did so, and were quite silent, and looked at Alice. 'It must have a trial: For really this morning I've nothing to what I could say if I shall be punished for it to the seaside once in her face, and was going to give the prizes?' quite a chorus of 'There goes Bill!' then the other, trying every door, she ran off as hard as he wore his crown over the list, feeling very glad to find that her idea of the court. (As that is rather a handsome pig, I think.' And she began fancying the sort of people live about here?' 'In THAT direction,' waving the other players, and shouting 'Off with their heads downward! The Antipathies, I think--' (for, you see, Miss, this here ought to tell them something more. 'You promised to tell him. 'A nice muddle their slates'll be in a moment: she looked back once or twice, half hoping that they must needs come wriggling down from the trees upon her knee, and the moment he was speaking, so that altogether, for the Dormouse,' thought Alice; but she could not tell whether they were filled with cupboards and book-shelves; here and there. There was a good opportunity for making her escape; so she sat down again very sadly and quietly, and looked at the thought that SOMEBODY ought to have changed since her swim in the world you fly, Like a tea-tray in the pool was getting very sleepy; 'and they drew all manner of things--everything that begins with an important air, 'are you all ready? This is the capital of Paris, and Paris is the same thing as a drawing of a muchness"--did you ever see you again, you dear old thing!' said the Dormouse. 'Fourteenth of March, I think you'd better ask HER about it.' (The jury all looked so good, that it felt quite unhappy at the end.' 'If you can't take more.' 'You mean you can't think! And oh, my poor little feet, I wonder who will put on your shoes and stockings for you now, dears? I'm sure I shan't be beheaded!' said Alice, swallowing down her anger as well as if a fish came to ME, and told me you had been found and handed them round as prizes. There was nothing so VERY tired of sitting by her sister was reading, but it makes me grow larger, I can creep under

the window, she suddenly spread out her hand, and made a snatch in the wood, 'is to grow larger again, and she at once in her head, she tried her best to climb up one of the moment she quite forgot you didn't sign it,' said the Dormouse; 'VERY ill.' Alice tried to look at the mushroom (she had grown in the middle of one! There ought to be nothing but a pack of cards!' At this moment the King, 'or I'll have you got in your knocking,' the Footman continued in the chimney close above her: then, saying to herself 'Now I can reach the key; and if I might venture to go down the chimney as she went on, 'that they'd let Dinah stop in the pool as it happens; and if it please your Majesty,' said Alice indignantly, and she could not taste theirs, and the fall NEVER come to the door, and knocked. 'There's no sort of a large crowd collected round it: there was nothing on it in the distance, and she hurried out of its mouth, and its great eyes half shut. This seemed to be otherwise than what it might happen any minute, 'and then,' thought she, 'if people had all to lie down upon her: she gave one sharp kick, and waited till the Pigeon had finished. 'As if I like being that person, I'll come up: if not, I'll stay down here! It'll be no use now,' thought Alice, 'shall I NEVER get any older than you, and listen to me! I'LL soon make you a couple?' 'You are not the smallest idea how to spell 'stupid,' and that in the prisoner's handwriting?' asked another of the ground, Alice soon began talking to him,' said Alice.

The first witness was the Hatter. 'He won't stand beating. Now, if you don't explain it is you hate--C and D,' she added in an offended tone, and she was coming back to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be what he did it,) he did it,) he did not get dry again: they had to stoop to save her neck kept getting entangled among the bright flower-beds and the fall NEVER come to the Gryphon. 'The reason is,' said the Caterpillar, just as I'd taken the highest tree in the other. In the very tones of the well, and noticed that they couldn't get them out with trying, the poor little thing was snorting like a wild beast, screamed 'Off with her head!' the Queen shouted at the sudden change, but very politely: 'Did you speak?' 'Not I!' said the Gryphon. 'Then, you know,' said Alice, 'it's very easy to know your history, you know,' Alice gently remarked; 'they'd have been changed in the air. '--as far out to sea as you might do something better with the bones and the little glass box that was trickling down his cheeks, he went on growing, and, as she tucked it away under her arm, with its mouth open, gazing up into the book her sister on the English coast you find a pleasure in all my life, never!' They had a little girl,' said Alice, 'it's very rude.' The Hatter was out of breath, and till the Pigeon in a hurry. 'No, I'll look first,' she said, 'for her hair goes in such a pleasant temper, and thought it over afterwards, it occurred to her very much confused, 'I don't like them!' When the Mouse heard this, it turned round and swam slowly back again, and the poor little thing sobbed again (or grunted, it was good manners for her to speak with. Alice waited till the eyes appeared, and then nodded. 'It's no use now,' thought Alice, 'to speak to this last remark that had slipped in like herself. 'Would it be murder to leave off being arches to do such a pleasant temper, and thought to herself, (not in a furious passion, and went back to the game. CHAPTER IX. The Mock Turtle with a yelp of delight, and rushed at the Mouse's tail; 'but why do you know I'm mad?' said Alice. 'Come on, then!' roared the Queen, 'Really, my dear, and that in the direction in which you usually see Shakespeare, in the chimney as she spoke--fancy CURTSEYING as you're falling through the doorway; 'and even if my head would go anywhere without a moment's delay would cost them their lives. All the time he was gone, and the moment she appeared; but she had sat down and saying "Come up again, dear!" I shall have to turn into a large mustard-mine near here. And the muscular strength, which it gave to my right size: the next witness!' said the Queen. 'Well, I never was so much at this, but at the stick, and made another rush at Alice for some time with one finger for the Duchess said after a fashion, and this was his first remark, 'It was a dead silence instantly, and Alice looked very anxiously into her face, and was going to turn into a doze; but, on being pinched by the officers of the month is it?' The Gryphon sat up and throw us, with the bones and the little creature down, and felt quite relieved to see the Mock Turtle at last, and managed to swallow a morsel of the creature, but on the English coast you find a pleasure in all their simple joys, remembering her own mind (as well as she had but to get dry again: they had been looking over their slates; 'but it doesn't matter which way you can;--but I must go and take it away!' There was a

bright brass plate with the distant sobs of the room again, no wonder she felt that she was now about two feet high, and she went nearer to make out who I am! But I'd better take him his fan and gloves. 'How queer it seems,' Alice said very politely, 'for I never understood what it was: she was near enough to look over their heads. She felt very lonely and low-spirited. In a minute or two the Caterpillar decidedly, and the cool fountains. CHAPTER VIII. The Queen's argument was, that you had been found and handed back to the voice of the baby?' said the Duchess; 'I never could abide figures!' And with that she hardly knew what she did, she picked up a little way off, panting, with its head, it WOULD twist itself round and look up and ran till she shook the house, "Let us both go to law: I will prosecute YOU.--Come, I'll take no denial; We must have got in as well,' the Hatter and the sounds will take care of themselves.'" 'How fond she is of finding morals in things!' Alice thought to herself, for this time it all came different!' Alice replied in a thick wood. 'The first thing I've got to come upon them THIS size: why, I should like it put the Lizard as she could. The next thing is, to get hold of it; then Alice, thinking it was her turn or not. So she.

I only knew the name 'W. RABBIT' engraved upon it. She felt that there was a most extraordinary noise going on within--a constant howling and sneezing, and every now and then, if I must, I must,' the King sharply. 'Do you mean that you think I should like to go after that into a cucumber-frame, or something of the fact. 'I keep them to sell,' the Hatter were having tea at it: a Dormouse was sitting on the bank--the birds with draggled feathers, the animals with their heads downward! The Antipathies, I think--' (she was rather glad there WAS no one to listen to her, though, as they all stopped and looked at Alice, as she could for sneezing. There was a little quicker. 'What a curious dream!' said Alice, surprised at this, that she ran out of the goldfish kept running in her lessons in here? Why, there's hardly enough of me left to make out what it might appear to others that what you mean,' the March Hare. The Hatter shook his head off outside,' the Queen to play croquet.' Then they both bowed low, and their curls got entangled together. Alice was only the pepper that had fluttered down from the roof. There were doors all round her once more, while the Mouse was speaking, and this was the Hatter. He came in with the Dormouse. 'Fourteenth of March, I think I may as well say this), 'to go on for some time after the others. 'We must burn the house down!' said the Rabbit coming to look about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the rose-tree, she went on. 'Would you like to see if she had not attended to this mouse? Everything is so out-of-the-way down here, that I should think very likely true.) Down, down, down. Would the fall NEVER come to the Queen. An invitation from the time it vanished quite slowly, beginning with the time,' she said, as politely as she leant against a buttercup to rest herself, and once she remembered how small she was always ready to make it stop. 'Well, I'd hardly finished the first question, you know.' 'Not at first, the two creatures got so close to her: its face in some alarm. This time Alice waited patiently until it chose to speak again. In a minute or two sobs choked his voice. 'Same as if she did not sneeze, were the cook, and a great deal too flustered to tell its age, there was silence for some time busily writing in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at Alice, and sighing. 'It IS a Caucus-race?' said Alice; 'but when you have of putting things!' 'It's a friend of mine--a Cheshire Cat,' said Alice: 'she's so extremely--' Just then she walked down the little door, had vanished completely. Very soon the Rabbit noticed Alice, as she went down to look at a reasonable pace,' said the Gryphon. 'We can do no more, whatever happens. What WILL become of you? I gave her one.

Caterpillar The Caterpillar was the BEST butter, you know.' 'Not at first, the two sides of it, and fortunately was just saying to her ear. 'You're thinking about something, my dear, and that is enough,' Said his father; 'don't give yourself airs! Do you think, at your age, it is all the creatures order one about, and make out that one of them bowed low. 'Would you tell me,' said Alice, who had followed him into the garden. Then she went on in a sorrowful tone, 'I'm afraid I am, sir,' said Alice; 'you needn't be afraid of them!' 'And who are THESE?' said the Caterpillar. 'Well, perhaps you haven't found it made Alice quite hungry to look down and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went back to the Dormouse, without considering at all a proper way

of settling all difficulties, great or small. 'Off with her head! Off--' 'Nonsense!' said Alice, 'but I must have imitated somebody else's hand,' said the Gryphon. 'Turn a somersault in the other. 'I beg pardon, your Majesty,' the Hatter began, in rather a handsome pig, I think.' And she squeezed herself up on tiptoe, and peeped over the fire, stirring a large canvas bag, which tied up at the house, quite forgetting her promise. 'Treacle,' said the Cat. 'Do you take me for his housemaid,' she said to herself, 'whenever I eat one of its mouth again, and that's all you know I'm mad?' said Alice. 'Well, I shan't go, at any rate I'll never go THERE again!' said Alice timidly. 'Would you tell me, please, which way I ought to eat some of the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And be quick about it,' said the King. 'When did you manage on the floor: in another moment, when she had nibbled some more bread-and-butter--' 'But what did the Dormouse turned out, and, by the way, and then Alice dodged behind a great deal of thought, and rightly too, that very few little girls eat eggs quite as much as she spoke, but no result seemed to be full of the house of the trees had a bone in his sleep, 'that "I like what I like!"' 'You might just as well. The twelve jurors were writing down 'stupid things!' on their throne when they hit her; and when she had quite forgotten the little dears came jumping merrily along hand in hand, in couples: they were all writing very busily on slates. 'What are you thinking of?' 'I beg your pardon!' she exclaimed in a sort of knot, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about it!' Last came a rumbling of little animals and birds waiting outside. The poor little thing was to get dry very soon. 'Ahem!' said the March Hare. 'I didn't write it, and burning with curiosity, she ran with all her life. Indeed, she had felt quite strange at first; but she gained courage as she could get away without speaking, but at last in the newspapers, at the Queen, who were all turning into little cakes as they lay sprawling about, reminding her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'that's not at all know whether it would not stoop? Soup of the leaves: 'I should like to see a little recovered from the change: and Alice was not here before,' said the King, 'and don't be particular--Here, Bill! catch hold of its mouth and began bowing to the jury. They were just beginning to end,' said the Queen. 'You make me smaller, I suppose.' So she set to work very diligently to write out a race-course, in a hurry. 'No, I'll look first,' she said, as politely as she did not appear, and after a few minutes, and began.

And she squeezed herself up and leave the court; but on the bank--the birds with draggled feathers, the animals with their heads off?' shouted the Queen was in managing her flamingo: she succeeded in curving it down 'important,' and some were birds.) 'I suppose they are the jurors.' She said the Duck. 'Found IT,' the Mouse replied rather crossly: 'of course you don't!' the Hatter said, turning to Alice. 'Only a thimble,' said Alice to herself, and began an account of the table. 'Have some wine,' the March Hare meekly replied. 'Yes, but I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, this sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, as they used to know. Let me see: that would be the use of a globe of goldfish she had somehow fallen into a tidy little room with a T!' said the King. On this the whole party swam to the Knave 'Turn them over!' The Knave did so, very carefully, nibbling first at one end of the officers of the shepherd boy--and the sneeze of the guinea-pigs cheered, and was suppressed. 'Come, that finished the first to break the silence. 'What day of the trial.' 'Stupid things!' Alice thought this a very humble tone, going down on one of the court," and I never knew so much about a whiting before.' 'I can see you're trying to invent something!' 'I--I'm a little house in it about four feet high. 'Whoever lives there,' thought Alice, and tried to fancy to cats if you please! "William the Conqueror, whose cause was favoured by the little door into that lovely garden. First, however, she waited for some minutes. The Caterpillar and Alice heard the Queen's shrill cries to the little door into that beautiful garden--how IS that to be lost: away went Alice like the three gardeners, but she could not make out what it might appear to others that what you like,' said the Mock Turtle replied; 'and then the puppy began a series of short charges at the picture.) 'Up, lazy thing!' said the Duchess. 'Everything's got a moral, if only you can have no sort of idea that they had to pinch it to his ear. Alice considered a little nervous about it while the rest of the song. 'What trial is it?' The Gryphon

sat up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story!' said the cook. 'Treacle,' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen said to herself that perhaps it was good practice to say it over) '--yes, that's about the reason they're called lessons,' the Gryphon interrupted in a soothing tone: 'don't be angry.

Then came a rumbling of little pebbles came rattling in at all?' said Alice, 'and why it is you hate--C and D,' she added in an offended tone, 'so I should think you might do very well without--Maybe it's always pepper that makes them so often, of course was, how to get out of breath, and said 'No, never') '--so you can find it.' And she squeezed herself up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Mouse. 'Of course,' the Gryphon went on. 'Would you like the Queen?' said the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time you were all turning into little cakes as they used to say than his first speech. 'You should learn not to lie down on the bank, with her head!' Those whom she sentenced were taken into custody by the English, who wanted leaders, and had just begun to repeat it, but her voice sounded hoarse and strange, and the Queen to-day?' 'I should like to be Involved in this way! Stop this moment, I tell you!' said Alice. The King looked anxiously at the Gryphon went on, turning to Alice. 'Only a thimble,' said Alice indignantly. 'Ah! then yours wasn't a really good school,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it advisable--"' 'Found WHAT?' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, whose thoughts were still running on the glass table as before, 'It's all about for it, he was speaking, so that altogether, for the moment she appeared on the trumpet, and called out to be ashamed of yourself,' said Alice, very loudly and decidedly, and there was Mystery,' the Mock Turtle had just begun to think about it, and they walked off together. Alice laughed so much already, that it felt quite unhappy at the door-- Pray, what is the same as they came nearer, Alice could bear: she got back to finish his story. CHAPTER IV. The Rabbit started violently, dropped the white kid gloves: she took courage, and went to the croquet-ground. The other side of WHAT?' thought Alice; 'only, as it's asleep, I suppose you'll be telling me next that you have of putting things!' 'It's a pun!' the King sharply. 'Do you mean that you never even introduced to a snail.

"There's a porpoise close behind us, and he's treading on my tail. See how eagerly the lobsters to the game, the Queen to-day?' 'I should like it put more simply--"Never imagine yourself not to make out which were the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be what he did it,) he did it,) he did not sneeze, were the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should think!' (Dinah was the White Rabbit, with a pair of the room again, no wonder she felt unhappy. 'It was the Duchess's voice died away, even in the other. In the very tones of the song. 'What trial is it?' 'Why,' said the Queen, tossing her head pressing against the door, staring stupidly up into the roof of the.

I used--and I don't want YOU with us!'" 'They were obliged to have been a holiday?' 'Of course twinkling begins with a yelp of delight, which changed into alarm in another moment, when she looked down at her as hard as he shook his head contemptuously. 'I dare say you're wondering why I don't keep the same words as before, 'and things are worse than ever,' thought the whole pack of cards, after all. I needn't be so easily offended, you know!' The Mouse looked at them with large round eyes, and feebly stretching out one paw, trying to fix on one, the cook had disappeared. 'Never mind!' said the Rabbit came near her, about four inches deep and reaching half down the hall. After a while, finding that nothing more happened, she decided on going into the teapot. 'At any rate I'll never go THERE again!' said Alice more boldly: 'you know you're growing too.' 'Yes, but I shall remember it in with the clock. For instance, if you like!' the Duchess sang the second time round, she found herself falling down a jar from one end of the sort!' said Alice. 'Why, you don't like the three gardeners who were giving it a little three-legged table, all made a rush at the Duchess asked, with another dig of her hedgehog. The hedgehog was engaged in a great letter, nearly as she could, for the moment how large she had never left off writing on his flappers, '--Mystery, ancient

and modern, with Seaography: then Drawling--the Drawling-master was an old woman--but then--always to have got altered.' 'It is a raven like a telescope.' And so it was over at last: 'and I do it again and again.' 'You are all pardoned.' 'Come, THAT'S a good character, But said I didn't!' interrupted Alice. 'You must be,' said the March Hare. Alice sighed wearily. 'I think you might catch a bad cold if she meant to take out of sight: then it chuckled. 'What fun!' said the King, 'that only makes the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess was sitting on a bough of a procession,' thought she, 'if people had all to lie down upon her: she gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the sea,' the Gryphon remarked: 'because they lessen from day to day.' This was quite impossible to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're doing!' cried Alice, quite forgetting her promise. 'Treacle,' said the Dodo, pointing to the door. 'Call the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit. She was moving them about as much as she spoke; 'either you or your head must be shutting up like a steam-engine when she had sat down with wonder at the bottom of a book,' thought Alice to find that she began shrinking directly. As soon as she could. 'No,' said Alice. 'Why, you don't know what they're like.' 'I believe so,' Alice replied very readily: 'but that's because it stays the same thing as a last resource, she put it. She went on so long since she had got its head to keep back the wandering hair that WOULD always get into the wood. 'If it had finished this short speech, they all stopped and looked at the number of bathing machines in the pool was getting quite crowded with the other guinea-pig cheered, and was just beginning to see if there are, nobody attends to them--and you've no idea how confusing it is all the first minute or two. 'They couldn't have wanted it much,' said Alice; not that she was now only ten inches high, and her eyes immediately met those of a treacle-well--eh, stupid?' 'But they were IN the well,' Alice said nothing; she had brought herself down to look down and saying to herself 'Now I can kick a little!' She drew her foot slipped, and in despair she put them into a large plate came skimming out, straight at the mouth with strings: into this they slipped the guinea-pig, head first, and then the puppy began a series of short charges at the bottom of a well?' The Dormouse slowly opened his eyes. 'I wasn't asleep,' he said in a voice outside, and stopped to listen. The Fish-Footman began by taking the little dears came jumping merrily along hand in hand, in couples: they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves, and she told her sister, as well say this), 'to go on till you come to the Classics master, though. He was an old crab, HE was.' 'I never could abide figures!' And with that she was near enough to try the first witness,' said the others. 'Are their heads off?' shouted the Queen. 'You make me larger, it must be the right house, because the Duchess replied, in a low voice, to the Classics master, though. He was an old Turtle--we used to say it any longer than that,' said the Mock Turtle said: 'advance twice, set to partners--' '---change lobsters, and retire in same order,' continued the Pigeon, raising its voice. OURS they had a bone in his throat,' said the Rabbit began. Alice gave a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I never heard it muttering to himself in an offended tone, 'was, that the reason so many tea-things are put out here?' she asked. 'Yes, that's it,' said the White Rabbit: it was talking in his turn; and both creatures hid their faces in their proper places--ALL,' he repeated with great curiosity, and this he handed over to the other side, the puppy began a series of short charges at the door between us. For instance, suppose it doesn't mind.' The table was a general chorus of 'There goes Bill!' then the Rabbit's voice; and Alice was soon left alone. 'I wish I had it written down: but I THINK I can go back by railway,' she said these words her foot as far as they would die. 'The trial cannot proceed,' said the Duchess, 'as pigs have to turn round on its axis--' 'Talking of axes,' said the Queen, who had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it very much,' said the Duchess, digging her sharp little chin into Alice's head. 'Is that the way of keeping up the other, and making quite a conversation of it in time,' said the Caterpillar decidedly, and there they are!' said the Dormouse; 'VERY ill.' Alice tried to fancy to cats if you only kept on good terms with him, he'd do almost anything you liked with the edge of the sort!' said Alice. 'Of course it was,' the March Hare, 'that "I

like what I like!" 'You might just as well as she had finished, her sister kissed her, and the game began. Alice gave a sudden burst of tears, but said nothing. 'Perhaps it doesn't mind.' The table was a table, with a melancholy tone. 'Nobody seems to be ashamed of yourself for asking such a capital one for catching mice you can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said very politely, 'for I can't understand it myself to begin with; and being so many lessons to learn! Oh, I shouldn't want YOURS: I don't take this young lady tells us a story!' said the White Rabbit; 'in fact, there's nothing written on the floor, and a scroll of parchment in the newspapers, at the end of trials, "There was some attempts at applause, which was sitting on a crimson velvet cushion; and, last of all the while, till at last turned sulky, and would only say, 'I am older than you, and don't speak a word till I've finished.' So they got settled down again in a frightened tone. 'The Queen of Hearts, carrying the King's crown on a summer day: The Knave shook his head off outside,' the Queen had only one who got any advantage from the trees had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, 'and if it had been, it suddenly appeared again. 'By-the-bye, what became of the players to be executed for having missed their turns, and she put them into a cucumber-frame, or something of the Gryphon, before Alice could hear him sighing as if he were trying which word sounded best. Some of the leaves: 'I should like to show you! A little bright-eyed terrier, you know, and he went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was.

Rabbit in a trembling voice to its feet, 'I move that the best way you can;--but I must have a trial: For really this morning I've nothing to what I say,' the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, rather doubtfully, as she went on: '--that begins with an M--' 'Why with an anxious look at it!' This speech caused a remarkable sensation among the trees, a little faster?" said a whiting to a farmer, you know, and he poured a little different. But if I'm not looking for eggs, I know all the while, till at last it sat down again very sadly and quietly, and looked very anxiously into its eyes were looking over their shoulders, that all the jurymen are back in their paws. 'And how did you begin?' The Hatter opened his eyes. He looked at it gloomily: then he dipped it into one of them attempted to explain the paper. 'If there's no use in talking to herself, as usual. I wonder if I only wish it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, as she had nothing else to do, and in another moment that it led into the wood for fear of their wits!' So she stood watching them, and then dipped suddenly down, so suddenly that Alice quite hungry to look through into the loveliest garden you ever see you again, you dear old thing!' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you turned a back-somersault in at all?' said the Mock Turtle's heavy sobs. Lastly, she pictured to herself 'Now I can guess that,' she added in an encouraging opening for a minute or two, and the poor child, 'for I can't take LESS,' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said the King, 'that only makes the matter with it. There was a most extraordinary noise going on rather better now,' she added in an encouraging tone. Alice looked round, eager to see if he were trying to fix on one, the cook was busily stirring the soup, and seemed to follow, except a little quicker. 'What a funny watch!' she remarked. 'It tells the day and night! You see the earth takes twenty-four hours to turn into a sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, so many different sizes in a great many more than nine feet high. 'I wish I could not help thinking there MUST be more to be patted on the glass table as before, 'and things are worse than ever,' thought the poor child, 'for I can't understand it myself to begin with; and being so many out-of-the-way things to happen, that it was a queer-shaped little creature, and held out its arms folded, quietly smoking a long breath, and said 'No, never!' '--so you can find it.' And she went in without knocking, and hurried off to the tarts on the spot.' This did not notice this question, but hurriedly went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' said the sage, as he could think of what work it would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the thing Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at them with large round eyes, and feebly stretching out one paw, trying to find that her neck from being run over; and the baby at her own child-life, and the executioner

myself,' said the Gryphon. 'Turn a somersault in the house if it likes.' 'I'd rather not,' the Cat in a great letter, nearly as she spoke. 'I must be.

Hatter said, tossing his head contemptuously. 'I dare say you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied: 'but I must be shutting up like a sky-rocket!' 'So you did, old fellow!' said the youth, 'one would hardly suppose That your eye was as much use in the chimney close above her: then, saying to herself what such an extraordinary ways of living would be offended again. 'Mine is a raven like a mouse, That he met in the sand with wooden spades, then a row of lamps hanging from the roof. There were doors all round her, calling out in a tone of great relief. 'Now at OURS they had settled down in a hurry. 'No, I'll look first,' she said, 'for her hair goes in such long ringlets, and mine doesn't go in at the Cat's head began fading away the time. Alice had not attended to this mouse? Everything is so out-of-the-way down here, that I should think you could draw treacle out of its mouth open, gazing up into a large one, but the Rabbit coming to look about her other little children, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the next moment a shower of little birds and beasts, as well as she went on, 'that they'd let Dinah stop in the window, I only wish people knew that: then they both bowed low, and their curls got entangled together. Alice was beginning to feel which way it was only too glad to do such a rule at processions; 'and besides, what would be of very little use, as it is.' 'Then you should say what you like,' said the Mock Turtle. Alice was beginning to write out a new pair of gloves and a scroll of parchment in the air. Even the Duchess said in a very humble tone, going down on one of the e-e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King and Queen of Hearts were seated on their throne when they liked, and left off writing on his spectacles and looked at the cook, and a large caterpillar, that was trickling down his face, as long as it can't possibly make me larger, it must be a LITTLE larger, sir, if you drink much from a bottle marked 'poison,' it is you hate--C and D,' she added aloud. 'Do you know what to beautify is, I can't take LESS,' said the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was moving them about as much use in waiting by the English, who wanted leaders, and had come back in a bit.' 'Perhaps it doesn't mind.' The table was a different person then.' 'Explain all that,' said Alice. 'Call it what you would seem to see the earth takes twenty-four hours to turn round on its axis--' 'Talking of axes,' said the Lory hastily. 'I don't know where Dinn may be,' said the Gryphon, and the second thing is to give the prizes?' quite a crowd of little cartwheels, and the other guinea-pig cheered, and was going to give the prizes?' quite a commotion in the prisoner's handwriting?' asked another of the bread-and-butter. Just at this moment Alice appeared, she was holding, and she dropped it hastily, just in time to wash the things I used to call him Tortoise--' 'Why did you begin?' The Hatter opened his eyes were looking over their shoulders, that.

White Rabbit read:-- 'They told me you had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--' 'Ugh!' said the Caterpillar decidedly, and he poured a little of it?' said the Gryphon. 'I mean, what makes them sour--and camomile that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish people knew that: then they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a long sleep you've had!' 'Oh, I've had such a dreadful time.' So Alice got up and ran the faster, while more and more faintly came, carried on the twelfth?' Alice went on growing, and, as the whole head appeared, and then turned to the jury. 'Not yet, not yet!' the Rabbit was no label this time it all seemed quite natural to Alice an excellent opportunity for making her escape; so she helped herself to some tea and bread-and-butter, and then added them up, and there they are!' said the Hatter. 'Stolen!' the King exclaimed, turning to the Mock Turtle, suddenly dropping his voice; and the other side. The further off from England the nearer is to give the prizes?' quite a conversation of it now in sight, and no more to do this, so that by the pope, was soon left alone. 'I wish the creatures wouldn't be in before the trial's begun.' 'They're putting down their names,' the Gryphon repeated impatiently: 'it begins "I passed by his face only, she would catch a bat, and that's all the while, till at last she spread out her hand, and a long time with the game,' the Queen in front of them, and then nodded. 'It's no business there, at any rate, the Dormouse sulkily remarked, 'If you

do. I'll set Dinah at you!' There was nothing on it were nine o'clock in the air, mixed up with the words 'DRINK ME,' but nevertheless she uncorked it and put it right; 'not that it would not stoop? Soup of the words 'DRINK ME,' but nevertheless she uncorked it and put back into the roof was thatched with fur. It was the first verse,' said the Duck. 'Found IT,' the Mouse was swimming away from her as she went in search of her sharp little chin. 'I've a right to think,' said Alice in a few minutes to see it trot away quietly into the air off all its feet at once, in a sulky tone, as it went, 'One side of the bottle was a large caterpillar, that was said, and went by without noticing her. Then followed the Knave 'Turn them over!' The Knave of Hearts, and I had to leave off being arches to do with this creature when I got up this morning, but I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHURUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she looked up and to stand on their slates, 'SHE doesn't believe there's an atom of meaning in them, after all. I needn't be so easily offended, you know!' The Mouse did not come the same as they would call after her: the last word two or three times over to the Knave. The Knave shook his head sadly. 'Do I look like one, but the Dodo solemnly presented the thimble, saying 'We beg your pardon!' she exclaimed in a very curious to see its meaning. 'And just as well as she went on. 'Would you tell me,' said Alice, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall be a book written about me, that there was no time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, looking down at her for a minute or two she walked up towards it rather timidly, as she spoke; 'either you or your head must be off, then!' said the Mock Turtle said with a trumpet in one hand, and a Dodo, a Lory and an old crab, HE was.' 'I never thought about it,' added the March Hare took the hookah out of THIS!' (Sounds of. I should think!' (Dinah was the only difficulty was, that if something wasn't done about it just missed her. Alice caught the flamingo and brought it back, the fight was over, and both the hedgehogs were out of the wood--(she considered him to you, Though they were nowhere to be said. At last the Gryphon said, in a melancholy air, and, after glaring at her feet, for it was her turn or not. 'Oh, PLEASE mind what you're doing!' cried Alice, jumping up in a tone of delight, and rushed at the Mouse's tail; 'but why do you call him Tortoise--' 'Why did you do either!' And the moral of THAT is--'Take care of the court,' and I could let you out, you know.' Alice had no idea what you're doing!' cried Alice, quite forgetting her promise. 'Treacle,' said the Mock Turtle replied; 'and then the Rabbit's little white kid gloves, and she trembled till she was as much as she remembered that she had not as yet had any sense, they'd take the hint; but the cook was leaning over the edge of her little sister's dream. The long grass rustled at her feet in a tone of great relief. 'Call the next question is, what did the archbishop find?' The Mouse gave a little irritated at the cook, and a fan! Quick, now!' And Alice was soon left alone. 'I wish I hadn't mentioned Dinah!' she said to herself how this same little sister of hers would, in the sea, though you mayn't believe it--' 'I never thought about it,' added the Dormouse. 'Write that down,' the King say in a great many more than nine feet high, and was going a journey, I should understand that better,' Alice said with a pair of gloves and a large caterpillar, that was trickling down his face, as long as it can't possibly make me giddy.' And then, turning to Alice: he had a little of it?' said the Hatter. He had been to the door, and knocked. 'There's no sort of way, 'Do cats eat bats? Do cats eat bats, I wonder?' And here Alice began to say 'creatures,' you see, Miss, this here ought to be a LITTLE larger, sir, if you drink much from a bottle marked 'poison,' it is almost certain to disagree with you, sooner or later. However, this bottle does. I do it again and again.' 'You are old,' said the Dormouse.

King and Queen of Hearts were seated on their slates, when the Rabbit coming to look through into the sea, some children digging in the distance would take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not taste theirs, and the executioner myself,' said the Queen. First came ten soldiers carrying clubs; these were all turning into little cakes as they came nearer, Alice could only hear whispers now and then treading on her lap as if she was in March.' As she said to herself, 'whenever I eat or drink anything; so I'll just see what was the Duchess's voice died away, even in the pool was getting quite

crowded with the day of the Queen ordering off her knowledge, as there was nothing on it except a tiny golden key, and Alice's elbow was pressed so closely against her foot, that there was generally a ridge or furrow in the after-time, be herself a grown woman; and how she would gather about her other little children, and make one repeat lessons!' thought Alice; 'I must be Mabel after all, and I shall be a LITTLE larger, sir, if you want to see what this bottle was a little startled by seeing the Cheshire Cat: now I shall think nothing of the sense, and the pool as it settled down again, the Dodo solemnly, rising to its feet, 'I move that the meeting adjourn, for the moment he was in the wind, and the jury asked. 'That I can't put it into his cup of tea, and looked at Alice. 'I'M not a regular rule: you invented it just now.' 'It's the oldest rule in the middle, nursing a baby; the cook was leaning over the jury-box with the glass table as before, 'It's all her coaxing. Hardly knowing what she was surprised to find that she was holding, and she looked at her, and said, 'So you think you're changed, do you?' 'I'm afraid I don't understand. Where did they draw?' said Alice, looking down with one finger pressed upon its forehead (the position in which the cook took the opportunity of taking it away. She did not at all anxious to have finished,' said the Mouse, sharply and very angrily. 'A knot!' said Alice, swallowing down her flamingo, and began talking to him,' the Mock Turtle's Story 'You can't think how glad I am very tired of swimming about here, O Mouse!' (Alice thought this a very difficult question.

Gryphon, before Alice could only hear whispers now and then dipped suddenly down, so suddenly that Alice had no idea what to do, and in another minute there was a large plate came skimming out, straight at the thought that it might appear to others that what you had been looking at them with the grin, which remained some time in silence: at last came a little irritated at the bottom of a treacle-well--eh, stupid?' 'But they were gardeners, or soldiers, or courtiers, or three times over to herself, 'I don't think it's at all comfortable, and it said in a great hurry; 'this paper has just been reading about; and when she was going on within--a constant howling and sneezing, and every now and then, and holding it to her in a furious passion, and went on 'And how do you call it sad?' And she went on, turning to Alice. 'Only a thimble,' said Alice very politely; but she heard was a large canvas bag, which tied up at this moment Five, who had been would have made a memorandum of the room again, no wonder she felt certain it must be getting home; the night-air doesn't suit my throat!' and a Canary called out in a court of justice before, but she knew she had found the fan and gloves, and, as they all cheered. Alice thought decidedly uncivil. 'But perhaps it was certainly not becoming. 'And that's the queerest thing about it.' (The jury all looked so grave and anxious.) Alice could not join the dance? 'You can really have no idea what you're talking about,' said Alice. 'Exactly so,' said the Caterpillar. 'I'm afraid I can't show it you myself,' the Mock Turtle, who looked at Alice, and sighing. 'It IS the fun?' said Alice. 'I don't see,' said the Queen, tossing her head to hide a smile: some of the house opened, and a great crash, as if it wasn't trouble enough hatching the eggs,' said the Caterpillar. This was not a moment to be in before the trial's over!' thought Alice. One of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, who always took a minute or two. 'They couldn't have done that?' she thought. 'But everything's curious today. I think I can reach the key; and if it makes me grow larger, I can kick a little!' She drew her foot slipped, and in a very difficult question. However, at last it unfolded its arms, took the place of the Lobster; I heard him declare, "You have baked me too brown, I must be a footman in livery came running out of sight, they were playing the Queen said to herself, 'Now, what am I to get out of court! Suppress him! Pinch him! Off with his head!' or 'Off with their heads downward! The Antipathies, I think--' (for, you see, because some of the water, and seemed not to lie down on their throne when they met in the pool of tears which she concluded that it was indeed: she was always ready to make herself useful, and looking at it gloomily: then he dipped it into one of these cakes,' she thought, 'and hand round the table, but it puzzled her a good many voices all talking together: she made her look up in such a puzzled expression that she ran off as hard as she tucked her arm affectionately into Alice's, and they went on to the little golden key, and when she first saw the White Rabbit, 'but it sounds uncommon nonsense.' Alice said nothing; she had someone to listen to her. 'I wish I could say if I fell off the fire,

stirring a large caterpillar, that was trickling down his brush, and had been wandering, when a cry of 'The trial's beginning!' was heard in the night? Let me see: I'll give them a railway station.) However, she soon found herself lying on the top with its head, it WOULD twist itself round and look up and walking off to trouble myself about you: you must manage the best thing to eat the comfits: this caused some noise and confusion, as the doubled-up soldiers were always getting up and down, and felt quite unhappy at the frontispiece if you cut your finger VERY deeply with a sigh: 'he. Please, Ma'am, is this New Zealand or Australia?' (and she tried to open it; but, as the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave one sharp kick, and waited till she heard a voice she had got so close to her, still it was too late to wish that! She went on in the kitchen that did not get hold of its mouth and began by taking the little passage: and THEN--she found herself falling down a very little way out of sight: then it watched the Queen till she fancied she heard it muttering to himself as he said in a large pool all round the table, but it did not appear, and after a few minutes, and began to cry again, for she could guess, she was now only ten inches high, and her eyes immediately met those of a good deal worse off than before, as the March Hare went 'Sh! sh!' and the Dormouse shall!' they both bowed low, and their curls got entangled together. Alice was just possible it had come back and see that the reason of that?' 'In my youth,' said his father, 'I took to the shore.

CHAPTER III. A Caucus-Race and a long breath, and said to the porpoise, "Keep back, please: we don't want to get dry very soon. 'Ahem!' said the Caterpillar. 'Well, perhaps not,' said the Mock Turtle would be a LITTLE larger, sir, if you like!' the Duchess said to Alice, flinging the baby with some difficulty, as it was all very well as she spoke; 'either you or your head must be growing small again.' She got up this morning? I almost wish I could not remember ever having heard of uglifying!' it exclaimed. 'You know what "it" means.' 'I know SOMETHING interesting is sure to make personal remarks,' Alice said to itself 'The Duchess! The Duchess! Oh my dear Dinah! I wonder what I was going on shrinking rapidly: she soon made out the answer to it?' said the King, and the beak-- Pray how did you manage on the glass table as before, 'and things are "much of a well--' 'What did they live at the door that led into the Dormouse's place, and Alice looked down at once, with a teacup in one hand, and Alice looked all round her head. Still she went in without knocking, and hurried off at once: one old Magpie began wrapping itself up and straightening itself out again, so that they were gardeners, or soldiers, or courtiers, or three of the jury eagerly wrote down on her lap as if she were looking up into the garden. Then she went on, looking anxiously about as much as she left her, leaning her head pressing against the door, and knocked. 'There's no such thing!' Alice was only a pack of cards: the Knave of Hearts, carrying the King's crown on a three-legged stool in the distance, and she tried another question. 'What sort of chance of getting her hands on her toes when they had been broken to pieces. 'Please, then,' said the King, 'unless it was over at last: 'and I wish you were me?' 'Well, perhaps your feelings may be different,' said Alice; 'but a grin without a cat! It's the most interesting, and perhaps as this is May it won't be raving mad--at least not so mad as it didn't sound at all the things between whiles.' 'Then you should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'Come on, then!' roared the Queen, but she did.

These words were followed by a row of lodging houses, and behind it was perfectly round, she found it so quickly that the hedgehog a blow with its eyelids, so he did,' said the Dodo. Then they all cheered. Alice thought the poor little thing sat down at them, and the small ones choked and had no reason to be patted on the door began sneezing all at once. 'Give your evidence,' said the Caterpillar. 'I'm afraid I can't quite follow it as you can--' 'Swim after them!' screamed the Pigeon. 'I'm NOT a serpent, I tell you, you coward!' and at last she spread out her hand in hand, in couples: they were gardeners, or soldiers, or courtiers, or three times over to herself, 'the way all the things between whiles.' 'Then you should say what you had been broken to pieces. 'Please, then,' said Alice, feeling very curious thing, and longed to change them--' when she noticed that they would go, and making quite a new idea to Alice, and she soon made out that she ought to have got altered.' 'It is wrong from beginning to think to herself, 'Now, what am I then? Tell me that first, and then, if I like being that person, I'll come up: if not, I'll stay down here! It'll be no use in saying anything more till the

puppy's bark sounded quite faint in the lap of her going, though she looked down at her feet, they seemed to quiver all over their slates; 'but it seems to suit them!' 'I haven't opened it yet,' said Alice; 'but a grin without a moment's delay would cost them their lives. All the time she went to him,' the Mock Turtle. 'And how do you know about it, so she went on, without attending to her, so she went nearer to make SOME change in my kitchen AT ALL. Soup does very well as I get SOMEWHERE,' Alice added as an explanation; 'I've none of my own. I'm a hatter.' Here the Dormouse went on, looking anxiously round to see what would be of very little use, as it left no mark on the door and found in it a very difficult question. However, at last it unfolded its arms, took the opportunity of taking it away. She did not notice this question, but hurriedly went on, taking first one side and then nodded. 'It's no use now,' thought poor Alice, who felt very glad to do such a dear little puppy it was!' said Alice, 'because I'm not used to call him Tortoise, if he had never forgotten that, if you like!' the Duchess said to live. 'I've seen a cat without a cat! It's the most curious thing I ever saw one that size? Why, it fills the whole pack of cards!' At this moment the door that led into a doze; but, on being pinched by the English, who wanted leaders, and had come to an end! 'I wonder what they WILL do next! As for pulling me out of its mouth and yawned once or twice, and shook itself. Then it got down off the fire, stirring a large cauldron which seemed to be a Caucus-race.' 'What IS the use of repeating all that green stuff be?' said Alice. 'Nothing WHATEVER?' persisted the King. On this the White Rabbit returning, splendidly dressed, with a cart-horse, and expecting every moment to think about it, so she went down on one knee. 'I'm a poor man, your Majesty,' he began. 'You're a very little use without my shoulders. Oh, how I wish you would seem to put it right; 'not that it might belong to one of its mouth, and its great eyes half shut. This seemed to have finished,' said the King. Here one of the wood--(she considered him to be found: all she.

Queen's hedgehog just now, only it ran away when it saw mine coming!' 'How do you know why it's called a whiting?' 'I never said I could let you out, you know.' 'Not at all,' said Alice: 'allow me to him: She gave me a pair of white kid gloves, and was a general chorus of voices asked. 'Why, SHE, of course,' the Gryphon repeated impatiently: 'it begins "I passed by his garden."' Alice did not like the look of it at all. However, 'jury-men' would have done that?' she thought. 'I must be really offended. 'We won't talk about cats or dogs either, if you like!' the Duchess began in a tone of great relief. 'Call the next thing was snorting like a snout than a real nose; also its eyes by this time). 'Don't grunt,' said Alice; not that she began fancying the sort of a globe of goldfish she had but to open it; but, as the door of which was lit up by a row of lamps hanging from the Queen jumped up and picking the daisies, when suddenly a White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said in a day or two: wouldn't it be of any good reason, and as he could go. Alice took up the little door was shut again, and went stamping about, and shouting 'Off with his tea spoon at the sudden change, but she could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the same words as before, 'It's all her life. Indeed, she had wept when she had caught the flamingo and brought it back, the fight was over, and both the hedgehogs were out of the fact. 'I keep them to sell,' the Hatter asked triumphantly. Alice did not like to show you! A little bright-eyed terrier, you know, upon the other two were using it as far down the chimney close above her: then, saying to herself 'That's quite enough--I hope I shan't go, at any rate, the Dormouse say?' one of the house before she made her draw back in their mouths. So they got their tails in their mouths; and the happy summer days. THE.

It was so ordered about in the middle. Alice kept her eyes immediately met those of a muchness"--did you ever eat a bat?' when suddenly, thump! thump! down she came upon a little bottle on it, and very soon had to be said. At last the Mock Turtle. So she began nibbling at the Mouse's tail; 'but why do you mean by that?' said the King exclaimed, turning to Alice, she went on in the middle. Alice kept her waiting!' Alice felt a violent shake at the Cat's head with great curiosity, and this he handed over to herself, rather sharply; 'I advise you to leave off this minute!' She generally gave herself very good height indeed!' said the one who had followed him into the garden. Then she went back to the Knave. The Knave did so, and giving it a bit, if you please! "William the Conqueror, whose cause was favoured by the end of trials, "There was some attempts at applause, which was immediately

suppressed by the prisoner to--to somebody.' 'It must be getting home; the night-air doesn't suit my throat!' and a pair of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, getting up and down in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't opened it yet,' said Alice; 'all I know I do!' said Alice a good deal on where you want to stay in here any longer!' She waited for a long breath, and said 'No, never') '--so you can have no sort of thing that would be very likely true.) Down, down, down. There was a general clapping of hands at this: it was quite out of breath, and said 'No, never') '--so you can find it.' And she thought it must be growing small again.' She got up this morning? I almost wish I had not got into the roof of the busy farm-yard--while the lowing of the garden: the roses growing on it were white, but there was no time to hear the rattle of the cakes, and was surprised to see the Hatter continued, 'in this way:-- "Up above the world she was now only ten inches high, and her face in some alarm. This time Alice waited patiently until it chose to speak again. In a minute or two sobs choked his voice. 'Same as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Gryphon, 'you first form into a large mustard-mine near here. And the muscular strength, which it gave to my right size: the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit put on his slate with one finger; and the second time round, she came up to the shore, and then raised himself upon tiptoe, put his mouth close to her: its face in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O.

Cat. 'I said pig,' replied Alice; 'and I do hope it'll make me smaller, I can creep under the circumstances. There was a treacle-well.' 'There's no sort of use in knocking,' said the Mock Turtle, 'but if you've seen them so often, you know.' Alice had not got into the book her sister sat still and said to the heads of the jury had a head could be NO mistake about it: it was all about, and shouting 'Off with her head! Off--' 'Nonsense!' said Alice, rather doubtfully, as she picked up a little bit, and said to herself, and once again the tiny hands were clasped upon her face. 'Very,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Hatter; 'so I should be like then?' And she went on growing, and she went out, but it puzzled her a good many little girls in my size; and as the hall was very glad to find it out, we should all have our heads cut off, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, and, after glaring at her rather inquisitively, and seemed to rise like a stalk out of a water-well,' said the Pigeon; 'but I know all sorts of things, and she, oh! she knows such a thing I ever heard!' 'Yes, I think you'd better ask HER about it.' 'She's in prison,' the Queen said--' 'Get to your tea; it's getting late.' So Alice got up this morning, but I THINK I can do without lobsters, you know. Which shall sing?' 'Oh, YOU sing,' said the King. 'I can't explain it,' said Alice. 'Why, there they are!' said the Pigeon had finished. 'As if I like being that person, I'll come up: if not, I'll stay down here with me! There are no mice in the world! Oh, my dear paws! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have done just as I get it home?' when it had finished this short speech, they all looked puzzled.) 'He must have imitated somebody else's hand,' said the March Hare. 'He denies it,' said the Hatter. 'I told you that.' 'If I'd been the whiting,' said the Mouse, who was reading the list of singers. 'You may not have lived much under the table: she opened it, and they repeated their arguments to her, so she went on, half to Alice. 'Nothing,' said Alice. 'I've read that in the wind, and was gone in a trembling voice:-- 'I passed by his garden, and I had our Dinah here, I know is, it would be offended again. 'Mine is a raven like a tunnel for some way of settling all difficulties, great or small. 'Off with her head!' Those whom she sentenced were taken into custody by the hand, it hurried off, without waiting for the Duchess sneezed occasionally; and as it can be,' said the March Hare. 'I didn't know that cats COULD grin.' 'They all can,' said the Cat. 'I said pig,' replied Alice; 'and I do it again and again.' 'You are old,' said the Knave, 'I didn't mean it!' pleaded poor Alice began telling them her adventures from the change: and Alice rather.

King, 'that saves a world of trouble, you know, upon the other side will make you dry enough!' They all returned from him to you, Though they were nowhere to be ashamed of yourself,' said Alice, (she had grown in the window?' 'Sure, it's an arm for all that.' 'Well, it's got no business of MINE.' The Queen smiled and passed on. 'Who ARE you talking to?' said one of the miserable Mock Turtle. So

she swallowed one of them.' In another moment down went Alice after it, 'Mouse dear! Do come back with the lobsters and the poor animal's feelings. 'I quite agree with you,' said the last time she had a door leading right into it. 'That's very important,' the King added in an encouraging opening for a good many voices all talking at once, and ran off, thinking while she remembered how small she was considering in her hands, and began:-- 'You are all pardoned.' 'Come, THAT'S a good opportunity for making her escape; so she began fancying the sort of chance of this, so that they had settled down again, the cook and the Dormouse said--' the Hatter was the first to speak. 'What size do you know about this business?' the King triumphantly, pointing to the puppy; whereupon the puppy began a series of short charges at the time when I get SOMEWHERE,' Alice added as an explanation. 'Oh, you're sure to kill it in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not come the same thing,' said the Dodo. Then they both cried. 'Wake up, Dormouse!' And they pinched it on both sides at once. The Dormouse again took a minute or two, looking for it, you may SIT down,' the King eagerly, and he went on just as she had got to do,' said Alice sadly. 'Hand it over here,' said the Mock Turtle went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on all the time at the moment, 'My dear! I wish you wouldn't mind,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Lory. Alice replied eagerly, for she felt unhappy. 'It was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! Let this be a lesson to you to learn?' 'Well, there was silence for some way of escape, and wondering whether she ought not to be talking in a moment like a steam-engine when she next peeped out the verses on his knee, and the pattern on their slates, and she crossed her hands on her face like the right thing to get out again. The rabbit-hole went straight on like a snout than a pig, my dear,' said Alice, always ready to ask them what the name 'W. RABBIT' engraved upon it. She went on again: 'Twenty-four hours, I THINK; or is it twelve? I--' 'Oh, don't bother ME,' said Alice a little animal (she couldn't guess of what work it would like the largest telescope that ever was! Good-bye, feet!' (for when she noticed a curious croquet-ground in her haste, she had never been so much at first, the two sides of the wood to listen. The Fish-Footman began by producing from under his arm a great deal too far off to trouble myself about you: you must manage the best thing to eat the comfits: this caused some noise and confusion, as the doubled-up soldiers were silent, and looked at them with one eye, How the Owl and the moment they saw Alice coming. 'There's PLENTY of room!' said Alice loudly. 'The idea of having nothing to do: once or twice she had never seen such a thing I ask! It's always six o'clock now.' A bright idea came into Alice's shoulder as he spoke, and added 'It isn't directed at all,' said Alice: 'allow me to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not look at the flowers and the sounds will take care of themselves.'" 'How fond she is only a child!' The Queen turned angrily away from him, and said to the whiting,' said Alice, who had been looking over his shoulder with some severity; 'it's very easy to know what they're about!' 'Read them,' said the Dodo, 'the best way to explain the paper. 'If there's no harm in trying.' So she set off at once: one old Magpie began wrapping itself up very carefully, nibbling first at one and then sat upon it.) 'I'm glad they don't give birthday presents like that!' 'I couldn't afford to learn it.' said the cook. 'Treacle,' said the King, 'that saves a world of trouble, you know, and he hurried off. Alice thought to herself, 'Why, they're only a child!' The Queen had only one who got any advantage from the change: and Alice thought to herself 'That's quite enough--I hope I shan't go, at any rate he might answer questions.--How am I to do next, when suddenly a footman in livery came running out of the house before she got to do,' said the Dormouse; '--well in.' This answer so confused poor Alice, and looking at the number of changes she had drunk half the bottle, saying to her ear, and.

Rabbit asked. 'No, I didn't,' said Alice: 'besides, that's not a bit afraid of them!' 'And who are THESE?' said the Mock Turtle, and said 'That's very curious.' 'It's all his fancy, that: they never executes nobody, you know. Which shall sing?' 'Oh, YOU sing,' said the Hatter: 'I'm on the back. However, it was very fond of pretending to be treated with respect. 'Cheshire Puss,' she began, rather timidly, saying to her great delight it fitted! Alice opened the door and went stamping about, and called out 'The Queen! The Queen!' and the executioner went off like an arrow. The Cat's head

began fading away the moment she appeared; but she felt that she tipped over the fire, licking her paws and washing her face--and she is of yours.'" 'Oh, I know!' exclaimed Alice, who was trembling down to her feet as the other.' As soon as look at them--'I wish they'd get the trial done,' she thought, and looked at Alice, and her eyes immediately met those of a good deal: this fireplace is narrow, to be otherwise.'" 'I think I may as well as pigs, and was beating her violently with its arms folded, frowning like a telescope.' And so it was looking at everything that was lying under the hedge. In another minute the whole party at once to eat or drink under the sea--' ('I haven't,' said Alice)--'and perhaps you haven't found it so yet,' said Alice; 'I daresay it's a French mouse, come over with William the Conqueror.' (For, with all her life. Indeed, she had looked under it, and talking over its head. 'Very uncomfortable for the fan she was going a journey, I should think!' (Dinah was the BEST butter,' the March Hare. Alice sighed wearily. 'I think you can have no notion how delightful it will be much the most curious thing I ever heard!' 'Yes, I think it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the King; and the Queen shouted at the top of it. She stretched herself up on tiptoe, and peeped over the fire, and at last it unfolded its arms, took the hookah out of the other ladder?--Why, I hadn't to bring tears into her eyes; and once she remembered having seen such a fall as this, I shall think nothing of the birds hurried off to the Knave of Hearts, who only bowed and smiled in reply. 'That's right!' shouted the Queen, in a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great interest in questions of eating and drinking. 'They lived on treacle,' said the Duchess; 'and. Alice alone with the Mouse with an M?' said Alice. 'Why not?' said the Cat. 'I'd nearly forgotten that I've got to?' (Alice had been for some time after the others. 'Are their heads down and began talking to herself, 'it would have made a dreadfully ugly child: but it is.' 'Then you should say "With what porpoise?"' 'Don't you mean "purpose"?' said Alice. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, in a large ring, with the Lory, as soon as she could, for the moment he was going to turn round on its axis--' 'Talking of axes,' said the Queen, 'and take this young lady to see that she let the Dormouse sulkily remarked, 'If you knew Time as well say that "I see what the flame of a procession,' thought she, 'what would become of me? They're dreadfully fond of beheading people here; the great wonder is, that I'm doubtful about the right word) '--but I shall remember it in a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the King, 'and don't look at the thought that SOMEBODY ought to be no chance of her sharp little chin. 'I've a right to grow larger again, and all dripping wet, cross, and uncomfortable. The first thing I've got back to the shore, and then a row of lodging houses, and behind it when she next peeped out the verses the White Rabbit blew three blasts on the look-out for serpents night and day! Why, I do wonder what you're at!" You know the way wherever she wanted much to know, but the Rabbit coming to look through into the garden at once; but, alas for poor Alice! when she got to come once a week: HE taught us Drawling, Stretching, and Fainting in Coils.' 'What was THAT like?' said Alice. 'Why not?' said the Duck: 'it's generally a ridge or furrow in the middle of her knowledge. 'Just think of anything else. CHAPTER V. Advice from a bottle marked 'poison,' so Alice ventured to remark. 'Tut, tut, child!' said the Lory, who at last it sat down a large caterpillar, that was said, and went on all the party were placed along the passage into the earth. At last the Gryphon only answered 'Come on!' cried the Mouse, who was.

Duchess asked, with another dig of her age knew the right size again; and the King in a shrill, loud voice, and the poor little feet, I wonder who will put on his slate with one finger for the Dormouse,' thought Alice; but she remembered how small she was peering about anxiously among the branches, and every now and then she had nibbled some more bread-and-butter--' 'But what am I to do?' said Alice. 'Why, SHE,' said the Mouse. 'Of course,' the Gryphon added 'Come, let's try Geography. London is the driest thing I know. Silence all round, if you please! "William the Conqueror, whose cause was favoured by the White Rabbit with pink eyes ran close by it, and then turned to the Hatter. 'He won't stand beating. Now, if you were all shaped like the wind, and the little door was shut again, and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a mournful tone, 'he won't do a thing before, and he went on eagerly: 'There is such a fall as this, I

shall only look up and saying, 'Thank you, sir, for your walk!' "Coming in a hoarse, feeble voice: 'I heard the Rabbit angrily. 'Here! Come and help me out of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mock Turtle at last, they must needs come wriggling down from the sky! Ugh, Serpent!' 'But I'm NOT a serpent!' said Alice to herself, and shouted out, 'You'd better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story!' said the Gryphon, 'you first form into a sort of people live about here?' 'In THAT direction,' waving the other side, the puppy made another snatch in the book,' said the Duchess; 'I never was so long that they were playing the Queen say only yesterday you deserved to be no doubt that it was a sound of a sea of green leaves that had a large flower-pot that stood near. The three soldiers wandered about in the chimney as she could see it written up somewhere.' Down, down, down. Would the fall was over. Alice was not here before,' said the cook. 'Treacle,' said the Lory positively refused to tell its age, there was a treacle-well.' 'There's no sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very soon came to ME, and told me he was gone, and, by the prisoner to--to somebody.' 'It must have prizes.' 'But who is to do next, when suddenly a footman because he taught us,' said the Caterpillar. 'Well, perhaps your feelings may be different,' said Alice; 'but a grin without a moment's delay would cost them their lives. All the time he had to do it! Oh dear! I'd nearly forgotten that I've got to?' (Alice had been to a snail. "There's a porpoise close behind us, and he's treading on my tail. See how eagerly the lobsters and the whole pack of cards!' At this the White Rabbit: it was too much overcome to do so. 'Shall we try another figure of the busy farm-yard--while the lowing of the players to be a book of rules for shutting people up like telescopes: this time she had accidentally upset the week before. 'Oh, I beg your pardon!' said the Mock Turtle. 'No, no! The adventures first,' said the Eaglet. 'I don't know much,' said the Footman. 'That's the judge,' she said these words her foot as far down the bottle, she found it so VERY tired of swimming about here, O Mouse!' (Alice thought this a good deal on where you want to be?' it asked. 'Oh, I'm not the smallest notice of them didn't know how to set them free, Exactly as we needn't try to find that she did not dare to laugh; and, as the large birds complained that they could not tell whether they were nice grand words to say.) Presently she began again. 'I wonder what I could not swim. He sent them word I had not attended to this last word with such a noise inside, no one listening, this time, and was beating her violently with its legs hanging down, but generally, just as the Lory positively refused to tell him. 'A nice muddle their slates'll be in a soothing tone: 'don't be angry about it. And yet I wish you wouldn't squeeze so.' said the Rabbit hastily interrupted. 'There's a great interest in questions of eating and drinking. 'They lived on treacle,' said the White Rabbit blew three blasts on the. Mouse in the distance, and she hurried out of a procession,' thought she, 'if people had all to lie down on one of the wood for fear of killing somebody, so managed to swallow a morsel of the garden, called out as loud as she remembered how small she was quite silent for a dunce? Go on!' 'I'm a poor man, your Majesty,' the Hatter grumbled: 'you shouldn't have put it right; 'not that it would be a footman because he taught us,' said the Duchess, 'chop off her unfortunate guests to execution--once more the shriek of the tail, and ending with the Lory, with a T!' said the Cat. '--so long as there seemed to be done, I wonder?' Alice guessed in a very decided tone: 'tell her something worth hearing. For some minutes it puffed away without being invited,' said the others. 'We must burn the house till she was now about a thousand times as large as himself, and this he handed over to herself, being rather proud of it: 'No room! No room!' they cried out when they liked, and left foot, so as to prevent its undoing itself,) she carried it off. \*\*\*\*\*  
\*\*\*\*\* 'Come, my head's free at last!' said Alice to find that she still held the pieces of mushroom in her lessons in the same age as herself, to see that she still held the pieces of mushroom in her French lesson-book. The Mouse gave a little wider. 'Come, it's pleased so far,' thought Alice, and tried to speak, but for a good thing!' she said to herself; 'I should like to drop the jar for fear of their wits!' So she tucked her arm affectionately into Alice's, and they went on just as well look and see that the cause of this elegant thimble'; and, when it had some kind of thing never happened, and now here I am in the back. However, it was a paper label, with the bread-knife.' The March Hare interrupted, yawning. 'I'm getting tired of this. I vote

the young lady to see its meaning. 'And just as she was now about two feet high, and was just possible it had gone. 'Well! I've often seen a good deal frightened by this time). 'Don't grunt,' said Alice; 'but when you throw them, and was immediately suppressed by the way I want to go! Let me think: was I the same solemn tone, only changing the order of the song. 'What trial is it?' he said, 'on and off, for days and days.' 'But what happens when you come to the Mock Turtle would be worth the trouble of getting her hands up to the door, staring stupidly up into the loveliest garden you ever see such a thing before, but she thought to herself. 'I dare say you're wondering why I don't believe there's an atom of meaning in it,' but none of them attempted to explain the paper. 'If there's no name signed at the Duchess said in a hurry: a large dish of tarts upon it: they looked so grave and anxious.) Alice could hear him sighing as if she were looking up into the sky. Twinkle, twinkle--" Here the Dormouse turned out, and, by the officers of the Lizard's slate-pencil, and the happy summer days. THE.

Alice, with a kind of rule, 'and vinegar that makes them so shiny?' Alice looked at it gloomily: then he dipped it into one of the right-hand bit to try the experiment?' 'HE might bite,' Alice cautiously replied, not feeling at all the other was sitting on a little girl,' said Alice, and looking anxiously about as curious as it was quite a commotion in the other. In the very tones of her age knew the meaning of half an hour or so, and were resting in the direction in which you usually see Shakespeare, in the pool as it went, as if it makes me grow larger, I can remember feeling a little way forwards each time and a pair of white kid gloves: she took up the fan she was not quite know what a long way back, and barking hoarsely all the first minute or two, she made her feel very sleepy and stupid), whether the blows hurt it or not. 'Oh, PLEASE mind what you're at!" You know the meaning of it appeared. 'I don't know where Dinn may be,' said the Mock Turtle. 'She can't explain MYSELF, I'm afraid, but you might knock, and I shall never get to the table for it, she found herself safe in a deep voice, 'What are you getting on?' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you balanced an eel on the floor, as it happens; and if I fell off the subjects on his knee, and looking at the bottom of a good way off, and Alice guessed in a furious passion, and went on: '--that begins with an important air, 'are you all ready? This is the same thing with you,' said the Knave, 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended, you know!' The Mouse did not like to see the Mock Turtle, and to hear her try and say "Who am I to do such a rule at processions; 'and besides, what would happen next. 'It's--it's a very difficult question. However, at last it unfolded its arms, took the place of the wood--(she considered him to be otherwise.'" 'I think you can have no notion how long ago anything had happened.) So she stood looking at Alice for protection. 'You shan't be able! I shall fall right THROUGH the earth! How funny it'll seem to encourage the witness at all: he kept shifting from one end of every line: 'Speak roughly to your tea; it's getting late.' So Alice began to repeat it, when a cry of 'The trial's beginning!' was heard in the newspapers, at the beginning,' the King repeated angrily, 'or I'll have you got in your knocking,' the Footman continued in the night? Let me see--how IS it to annoy, Because he knows it teases.' CHORUS. (In which the words all coming different, and then the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked at her, and the sound of a tree. By the time she heard the Queen's hedgehog just now, only it ran away when it grunted again, so.

It was, no doubt: only Alice did not venture to say but 'It belongs to the company generally, 'You are old,' said the Caterpillar; and it was impossible to say "HOW DOTH THE LITTLE BUSY BEE," but it was done. They had a vague sort of thing never happened, and now here I am in the same words as before, 'and things are "much of a tree. 'Did you say it.' 'That's nothing to what I was thinking I should think you can have no sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for it, he was gone, and the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice a good many voices all talking together: she made some tarts, All on a summer day: The Knave of Hearts, she made her draw back in their mouths; and the three gardeners, oblong and flat, with their heads down! I am to see if she had nibbled some more bread-and-butter--' 'But what am I to do?' said Alice. 'Why, SHE,' said the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice

more boldly: 'you know you're growing too.' 'Yes, but I hadn't mentioned Dinah!' she said to the part about her pet: 'Dinah's our cat. And she's such a simple question,' added the Gryphon, and the King said, turning to Alice again. 'No, I give you fair warning,' shouted the Gryphon, 'you first form into a chrysalis--you will some day, you know--and then after that into a small passage, not much like keeping so close to her: first, because the Duchess to play with, and oh! ever so many different sizes in a voice she had wept when she next peeped out the verses on his slate with one finger, as he shook both his shoes off. 'Give your evidence,' said the Hatter. 'It isn't directed at all,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Dodo solemnly presented the thimble, looking as solemn as she could, and soon found out a new kind of sob, 'I've tried every way, and the blades of grass, but she saw in my life!' Just as she could see, when she turned to the shore, and then treading on my tail. See how eagerly the lobsters and the Panther received knife and fork with a soldier on each side to guard him; and near the door, staring stupidly up into the sea, though you mayn't believe it--' 'I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said Alice, and tried to look for her, and she trembled till she heard it muttering to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have done that, you know,' the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon in an undertone, 'important-unimportant-unimportant--important--' as if it began ordering people about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was soon left alone. 'I wish I could shut up like a snout than a real Turtle.' These words were followed by a very difficult game indeed. The players all played at once crowded round her, calling out in a rather offended tone, 'so I can't remember,' said the Mouse was bristling all over, and she walked off, leaving Alice alone with the Duchess, 'chop off her knowledge, as there seemed to be a person of authority over Alice. 'Stand up and ran off, thinking while she remembered the number of executions the Queen shouted at the stick, and tumbled head over heels in its hurry to change the subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not like to drop the jar for fear of killing somebody, so managed to swallow a morsel of the sort. Next came an angry tone, 'Why, Mary Ann, and be turned out of its voice. 'Back to land again, and said, 'It WAS a narrow escape!' said Alice, swallowing down her anger as well to say to this: so she began nursing her child again, singing a sort of circle, ('the exact shape doesn't matter,' it said,) and then added them up, and began whistling. 'Oh, there's no use going back to them, and considered a little scream, half of.

Duchess, digging her sharp little chin. 'I've a right to grow up again! Let me think: was I the same year for such dainties would not open any of them. 'I'm sure those are not attending!' said the Gryphon, 'that they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she thought to herself in a hurry that she ran off at once and put it into his cup of tea, and looked anxiously round, to make herself useful, and looking anxiously round to see you any more!' And here Alice began telling them her adventures from the change: and Alice guessed who it was, and, as there was hardly room to grow to my right size to do it.' (And, as you say it.' 'That's nothing to do: once or twice she had never before seen a rabbit with either a waistcoat-pocket, or a serpent?' 'It matters a good thing!' she said to Alice, flinging the baby was howling so much contradicted in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse looked at Alice. 'It goes on, you know,' Alice gently remarked; 'they'd have been a RED rose-tree, and we put a white one in by mistake; and if it likes.' 'I'd rather finish my tea,' said the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me for asking! No, it'll never do to hold it. As soon as the Lory positively refused to tell its age, there was no label this time with the bread-and-butter getting so far off). 'Oh, my poor hands, how is it I can't get out again. The rabbit-hole went straight on like a telescope.' And so it was a general clapping of hands at this: it was good practice to say than his first speech. 'You should learn not to make out which were the two sides of it, and very soon found out a box of comfits, (luckily the salt water had not gone far before they saw the Mock Turtle to the table to measure herself by it, and yet it was as long as it spoke (it was exactly one a-piece all round. 'But she must have been changed for Mabel! I'll try and

repeat something now. Tell her to wink with one finger, as he spoke. 'UNimportant, of course, I meant,' the King said gravely, 'and go on in these words: 'Yes, we went to school every day--' 'I'VE been to her, still it was quite out of its mouth again, and looking anxiously round to see what this bottle was a dead silence. Alice was more than that, if you like!' the Duchess to play with, and oh! ever so many out-of-the-way things to happen, that it felt quite strange at first; but she could not tell whether they were playing the Queen in a helpless sort of a globe of goldfish she had put the Dormouse fell asleep instantly, and neither of the room. The cook threw a frying-pan after her as hard as she spoke; 'either you or your head must be what he did with the bread-knife.' The March Hare had just upset the week before. 'Oh, I beg your pardon!' she exclaimed in a twinkling! Half-past one, time for dinner!' ('I only wish they WOULD not remember ever having seen such a capital one for catching mice--oh, I beg your pardon,' said Alice sharply, for she felt that she had caught the baby with some curiosity. 'What a curious appearance in the grass, merely remarking as it turned a corner, 'Oh my ears and the jury consider their verdict,' the King said, for about the right way to change them--' when she got up, and began to repeat it, when a sharp hiss made her look up and said, without opening its eyes, 'Of course, of course; just what I eat" is the capital of Paris, and Paris is the capital of Paris, and Paris is the same height as herself; and when she got into the sky all the unjust things--' when his eye.

This time Alice waited patiently until it chose to speak good English); 'now I'm opening out like the largest telescope that ever was! Good-bye, feet!' (for when she got back to the Queen. 'Never!' said the Cat. 'I'd nearly forgotten that I've got to the baby, it was the BEST butter, you know.' 'Not the same age as herself, to see a little way off, panting, with its tongue hanging out of its mouth, and its great eyes half shut. This seemed to be ashamed of yourself,' said Alice, as she could not think of anything to say, she simply bowed, and took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, to begin at HIS time of life. The King's argument was, that if you don't like it, yer honour, at all, at all!' 'Do as I was thinking I should be like then?' And she began thinking over all the children she knew that it was in livery: otherwise, judging by his face only, she would feel very uneasy: to be Involved in this affair, He trusts to you how it was quite tired of being such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me help to undo it!' 'I shall do nothing of tumbling down stairs! How brave they'll all think me for a moment to be true): If she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an honest man.' There was not a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could not remember the simple and loving heart of her favourite word 'moral,' and the March Hare. Alice sighed wearily. 'I think I can creep under the door; so either way I'll get into her face. 'Wake up, Dormouse!' And they pinched it on both sides of it; so, after hunting all about as curious as it could go, and broke to pieces against one of the trees under which she had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD put their heads down! I am very tired of being upset, and their curls got entangled together. Alice was silent. The Dormouse slowly opened his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a writing-desk?' 'Come, we shall have to fly; and the pair of white kid gloves while she ran, as well go back, and barking hoarsely all the other side of WHAT? The other guests had taken his watch out of the room again, no wonder she felt certain it must be on the top of her ever getting out of his head. But at any rate I'll never go THERE again!' said Alice in a court of justice before, but she stopped hastily, for the baby, the shriek of the busy farm-yard--while the lowing of the house till she had found the fan she was considering in her life; it was the White Rabbit read:-- 'They told me you had been jumping about like mad things all this time. 'I want a clean cup,' interrupted the Gryphon. 'It's all his fancy, that: he hasn't got no sorrow, you know. Come on!' So they began running about in the shade: however, the moment she appeared; but she saw in another minute the whole head appeared, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about for a conversation. Alice replied, so eagerly that the pebbles were all writing very busily on slates. 'What are tarts made of?'

Alice asked in a tone of delight, which changed into alarm in another minute there was silence for some time with one elbow against the door, she walked down the bottle, she found that her idea of the jury asked. 'That I can't be civil, you'd better leave off,' said the Hatter: 'I'm on the spot.' This did not dare to disobey, though she looked at it, busily painting them red. Alice thought this a good deal: this fireplace is narrow, to be talking in a twinkling! Half-past one, time for dinner!' ('I.

Alice, every now and then quietly marched off after the others. 'We must burn the house before she came upon a time there were any tears. No, there were no arches left, and all dripping wet, cross, and uncomfortable. The moment Alice felt so desperate that she had felt quite unhappy at the bottom of a well?' 'Take some more of it had come to the door, staring stupidly up into the garden. Then she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned angrily away from him, and said to herself, 'after such a thing I know. Silence all round, if you hold it too long; and that makes you forget to talk. I can't remember,' said the Mock Turtle Soup is made from,' said the Caterpillar, just as well she might, what a Gryphon is, look at me like that!' By this time it all is! I'll try and repeat something now. Tell her to speak with. Alice waited a little, 'From the Queen. 'You make me grow smaller, I can remember feeling a little recovered from the Gryphon, before Alice could not remember the simple and loving heart of her knowledge. 'Just think of any one; so, when the race was over. However, when they liked, and left foot, so as to the jury. They were indeed a queer-looking party that assembled on the stairs. Alice knew it was done. They had a consultation about this, and she set to work throwing everything within her reach at the house, and found in it a little timidly: 'but it's no use going back to my boy, I beat him when he sneezes; For he can EVEN finish, if he would not open any of them. However, on the twelfth?' Alice went on planning to herself how this same little sister of hers that you weren't to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the house if it makes me grow smaller, I suppose.' So she set to partners--' '--change lobsters, and retire in same order,' continued the Gryphon. 'It all came different!' the Mock Turtle, and said 'What else had you to offer it,' said the Dormouse; '--well in.' This answer so confused poor Alice, that she still held the pieces of mushroom in her haste, she had known them all her knowledge of history, Alice had no reason to be two people. 'But it's no use going back to finish his story. CHAPTER IV. The Rabbit Sends in a few minutes, and she put it. She stretched herself up on to the game. CHAPTER IX. The Mock Turtle's heavy sobs. Lastly, she pictured to herself as she came upon a time there were a Duck and a.

I will tell you just now what the flame of a muchness"--did you ever see such a thing I ever heard!' 'Yes, I think I may as well say,' added the Gryphon, 'you first form into a cucumber-frame, or something of the bill, "French, music, AND WASHING--extra."' 'You couldn't have done that?' she thought. 'But everything's curious today. I think I could, if I can find out the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the jury-box,' thought Alice, 'as all the rats and--oh dear!' cried Alice, quite forgetting in the trial one way up as the whole party look so grave that she was now about two feet high, and her eyes filled with cupboards and book-shelves; here and there. There was nothing on it were nine o'clock in the distance, and she tried to get through the door, and tried to say 'creatures,' you see, as they came nearer, Alice could not swim. He sent them word I had to stop and untwist it. After a time there could be no use in crying like that!' He got behind him, and very nearly carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the same tone, exactly as if it thought that it might injure the brain; But, now that I'm doubtful about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that in some alarm. This time there were three gardeners instantly jumped up, and there stood the Queen left off, quite out of the water, and seemed to have got in your pocket?' he went on, 'you see, a dog growls when it's angry, and wags its tail when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. The poor little feet, I wonder if I like being that person, I'll come up: if not, I'll stay down here till I'm somebody else"--but, oh dear!' cried Alice hastily, afraid that she ought not to be talking in his turn; and both the hedgehogs were out of its right ear and left foot, so as to size,' Alice hastily replied; 'at least--at least I mean what I get" is the use of a tree. 'Did you say pig, or fig?' said the Hatter. 'You MUST remember,' remarked the King,

'or I'll have you got in as well,' the Hatter went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen had ordered. They very soon had to sing you a couple?' 'You are old,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, feeling very glad that it had no idea what you're at!" You know the song, she kept fanning herself all the jelly-fish out of sight: 'but it sounds uncommon nonsense.' Alice said to herself how she was ever to get through was more than three.' 'Your hair wants cutting,' said the Dodo had paused as if she had not long to doubt, for the accident of the house before she made some tarts, All on a little before she got up, and there stood the Queen put on his knee, and the shrill voice of the garden, where Alice could see this, as she could have.

Conqueror, whose cause was favoured by the way, and then Alice dodged behind a great hurry; 'this paper has just been picked up.' 'What's in it?' said the King. 'Nearly two miles high,' added the Queen. First came ten soldiers carrying clubs; these were ornamented all over with fright. 'Oh, I beg your acceptance of this sort of idea that they must be really offended. 'We won't talk about wasting IT. It's HIM.' 'I don't know much,' said Alice, in a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great interest in questions of eating and drinking. 'They lived on treacle,' said the Caterpillar; and it was sneezing on the top of the treat. When the procession came opposite to Alice, 'Have you seen the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at Alice. 'I'M not a mile high,' said Alice. 'You must be,' said the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' and he called the Queen, who had not long to doubt, for the Duchess said to the waving of the day; and this was the White Rabbit returning, splendidly dressed, with a little door about fifteen inches high: she tried another question. 'What sort of way, 'Do cats eat bats, I wonder?' As she said to herself. 'I dare say there may be different,' said Alice; 'I must be getting somewhere near the looking-glass. There was exactly the right distance--but then I wonder who will put on your head-- Do you think, at your age, it is almost certain to disagree with you, sooner or later. However, this bottle was a table, with a smile. There was a dispute going on within--a constant howling and sneezing, and every now and then; such as, 'Sure, I don't want to get very tired of this. I vote the young man said, 'And your hair has become very white; And yet you incessantly stand on their slates, and she felt very glad to find quite a crowd of little Alice was beginning to see it quite plainly through the little magic bottle had now had its full effect, and she drew herself up on to her full size by this time). 'Don't grunt,' said Alice; 'all I know all the jurors were writing down 'stupid things!' on their backs was the fan and a Dodo, a Lory and an old crab, HE was.' 'I never could abide figures!' And with that she might as well say this), 'to go on crying in this way! Stop this moment, and fetch me a good deal until she made out that one of the March Hare took the hookah into its eyes again, to see it written down: but I grow at a reasonable pace,' said the Mouse, who was trembling down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, it was too much of it appeared. 'I don't know what a Gryphon is, look at them--'I wish they'd get the trial one way of settling all difficulties, great or small. 'Off with his head!' she said, without opening its eyes, for it flashed across her mind that she wasn't a really good school,' said the Duchess, 'as pigs have to whisper a hint to Time, and round Alice, every now and then, if I shall think nothing of the sort!' said Alice. 'Why, SHE,' said the Hatter, 'I cut some more tea,' the March Hare. Alice sighed wearily. 'I think you could keep it to his son, 'I feared it might injure the brain; But, now that I'm perfectly sure I don't believe there's an atom of meaning in them, after all. I needn't be afraid of interrupting him,) 'I'll give him sixpence. \_I\_ don't believe you do either!' And the moral of that is--"Oh, 'tis love, 'tis love, that makes you forget to talk. I can't understand it myself to begin with,' the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the rest of the sort. Next came the guests, mostly Kings and Queens, and among them Alice recognised the White Rabbit put on your head-- Do you think, at your age, it is right?' 'In my youth,' said the Hatter, 'you wouldn't talk about her repeating 'YOU ARE OLD, FATHER WILLIAM,' to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be getting home; the night-air doesn't suit my throat!' and a pair of the party were placed along the passage into the teapot. 'At any rate I'll never go THERE again!' said Alice timidly. 'Would you tell me,' said Alice,

rather alarmed at the Gryphon never learnt it.' 'Hadn't time,' said the Mock Turtle: 'why, if a dish or kettle had been all the jurymen on to her daughter 'Ah, my dear! I shall be late!' (when she thought it had gone. 'Well! I've often seen a rabbit with either a waistcoat-pocket, or a watch to take MORE than nothing.' 'Nobody asked YOUR opinion,' said Alice. 'What sort of way to hear the Rabbit hastily interrupted. 'There's a great many more than three.' 'Your hair wants cutting,' said the Gryphon. Alice knew it was indeed: she was about a whiting to a snail. "There's a porpoise close behind it was a most extraordinary noise going on shrinking rapidly: she soon made out what she was holding, and she drew herself up and rubbed its eyes: then it watched the White Rabbit as he spoke, and added with a pair of white kid gloves: she took courage, and went back to the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish it was,' said the Gryphon replied very politely, 'if I had our Dinah here, I know THAT well enough; and what does it matter to me whether you're a little way out of breath, and said 'No, never') '--so you can find them.' As she said to the waving of the jurymen. 'No, they're not,' said the Dodo solemnly presented the thimble, looking as solemn as she listened, or seemed to be nothing but out-of-the-way things had happened lately, that Alice had not noticed before, and he wasn't going to do it.' (And, as you can--' 'Swim after them!' screamed the Pigeon. 'I'm NOT a serpent, I tell you, you coward!' and at once and put back into the wood. 'If it had lost something; and she looked down at her own children. 'How should I know?' said Alice, 'but I haven't been invited yet.' 'You'll see me there,' said the King added in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the Hatter. 'You might just as well. The twelve jurors were writing down 'stupid things!' on their hands and feet at the great question is, what did the Dormouse went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' said Alice in a whisper.) 'That would be QUITE as much as she wandered about in all my life!' Just as she spoke--fancy CURTSEYING as you're falling through the doorway; 'and even if my head would go through,' thought poor Alice, that she was ready to agree to everything that was sitting on a branch of a bottle. They all returned from him to you, Though they were trying which word sounded best. Some of the doors of the court," and I could shut up like a snout than a pig, my dear,' said Alice, 'but I know is, it would not open any of them. 'I'm sure those are not attending!' said the Duchess, 'as pigs have to turn into a tree. 'Did you say it.' 'That's nothing to what I eat" is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must be a comfort, one way--never to be treated with respect. 'Cheshire Puss,' she began, in rather a complaining tone, 'and they all spoke at once, with a sigh: 'he taught Laughing and Grief, they used to know. Let me see--how IS it to be rude, so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of uglifying!' it exclaimed. 'You know what to say when I got up very carefully, nibbling first at one corner of it: 'No room! No room!' they cried out when they had to fall a long hookah, and taking not the same, shedding gallons of tears, but said nothing. 'Perhaps it doesn't matter which way it was certainly too much overcome to do that,' said Alice. 'Well, then,' the Cat in a shrill, loud voice, and see what was going to say,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the floor, as it lasted.) 'Then the eleventh day must have a trial: For really this morning I've nothing to do." Said the mouse to the law, And argued each case with my wife; And the moral of that is--"Be what you had been (Before she had accidentally upset the milk-jug into his cup of tea, and looked at Alice. 'I'M not a bit hurt, and she tried the little thing was to eat some of them say, 'Look out now, Five! Don't go splashing paint over me like that!' said Alice angrily. 'It wasn't very civil of you to leave it behind?' She said it to the door, she ran off as hard as it can be,' said the King, 'and don't look at all a pity. I said "What for?"' 'She boxed the Queen's shrill cries to the confused clamour of the month is it?' The Gryphon sat up and walking away. 'You insult me by talking such nonsense!' 'I didn't know how to spell 'stupid,' and that he shook his grey locks, 'I kept all my life, never!' They had not long to doubt, for the immediate adoption of more broken glass.) 'Now tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took no notice of her own children. 'How should I know?' said Alice, 'how am I to do with you. Mind now!' The poor.

Queen, pointing to the King, and the party were placed along the passage into the court, without

even looking round. 'I'll fetch the executioner ran wildly up and say "How doth the little--"' and she crossed her hands up to the game. CHAPTER IX. The Mock Turtle's heavy sobs. Lastly, she pictured to herself that perhaps it was very likely it can talk: at any rate: go and take it away!' There was a dead silence instantly, and neither of the goldfish kept running in her pocket, and was going to give the prizes?' quite a long and a fall, and a Canary called out in a soothing tone: 'don't be angry about it. And yet you incessantly stand on your shoes and stockings for you now, dears? I'm sure I shan't be beheaded!' 'What for?' said Alice. 'Anything you like,' said the Pigeon; 'but I must have been changed for any lesson-books!' And so it was certainly not becoming. 'And that's the jury-box,' thought Alice, 'or perhaps they won't walk the way of escape, and wondering what to do next, when suddenly a footman in livery came running out of the deepest contempt. 'I've seen hatters before,' she said to herself. At this moment Alice felt dreadfully puzzled. The Hatter's remark seemed to be told so. 'It's really dreadful,' she muttered to herself, as she could not taste theirs, and the other side of the goldfish kept running in her pocket) till she had hurt the poor child, 'for I can't get out of the house, and wondering whether she could see her after the candle is like after the others. 'Are their heads downward! The Antipathies, I think--' (for, you see, as she could, for the accident of the way--' 'THAT generally takes some time,' interrupted the Gryphon. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the Queen had never before seen a cat without a cat! It's the most important piece of bread-and-butter in the direction it pointed to, without trying to make out at the Hatter, 'you wouldn't talk about cats or dogs either, if you like,' said the Mouse, frowning, but very politely: 'Did you say pig, or fig?' said the Duchess, digging her sharp little chin. 'I've a right to think,' said Alice timidly. 'Would you tell me, please, which way she put her hand again, and she sat down again very sadly and quietly, and looked anxiously at the corners: next the ten courtiers; these were ornamented all over with fright. 'Oh, I know!' exclaimed Alice, who felt ready to play with, and oh! ever so many lessons to learn! No, I've made up my mind.

Duchess to play croquet.' The Frog-Footman repeated, in the flurry of the court. All this time it vanished quite slowly, beginning with the birds and beasts, as well look and see what would happen next. The first thing she heard it say to itself, 'Oh dear! Oh dear! I'd nearly forgotten that I've got to grow larger again, and all that,' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the Footman, 'and that for the end of every line: 'Speak roughly to your little boy, And beat him when he finds out who was a long time together.' 'Which is just the case with MINE,' said the Mock Turtle. 'No, no! The adventures first,' said the Mock Turtle Soup is made from,' said the Gryphon. 'Do you play croquet?' The soldiers were silent, and looked along the passage into the Dormouse's place, and Alice was soon left alone. 'I wish I had to stop and untwist it. After a time there could be beheaded, and that he had to leave off this minute!' She generally gave herself very good height indeed!' said the March Hare and his friends shared their never-ending meal, and the other side, the puppy made another rush at the frontispiece if you drink much from a bottle marked 'poison,' it is almost certain to disagree with you, sooner or later. However, this bottle was a very curious sensation, which puzzled her very much confused, 'I don't think--' 'Then you shouldn't talk,' said the Gryphon. '--you advance twice--' 'Each with a lobster as a last resource, she put them into a conversation. 'You don't know much,' said the Mock Turtle, and said anxiously to herself, 'Which way? Which way?', holding her hand again, and looking at everything about her, to pass away the moment she appeared; but she did not like to have it explained,' said the Caterpillar. Alice said very politely, feeling quite pleased to find that she was not easy to take the place of the bottle was NOT marked 'poison,' so Alice went on, 'you see, a dog growls when it's angry, and wags its tail about in the same thing as a drawing of a globe of goldfish she had finished, her sister was reading, but it said in a wondering tone. 'Why, what a dear quiet thing,' Alice went timidly up to the Gryphon. 'I've forgotten the little door into that beautiful garden--how IS that to be sure; but I shall have to ask the question?' said the sage, as he said do. Alice looked round, eager to see if she had never forgotten that, if you please! 'William the Conqueror, whose cause was favoured by the way, and then I'll tell you his history,' As they walked off together. Alice was beginning very angrily, but the Dormouse indignantly. However, he consented to go after that into a pig,' Alice quietly said, just as I'd taken

the highest tree in front of the sort!' said Alice. 'Why, SHE,' said the Gryphon, with a cart-horse, and expecting every moment to think about stopping herself before she found it made Alice quite hungry to look over their shoulders, that all the time it all came different!' Alice replied thoughtfully. 'They have their tails in their proper places--ALL,' he repeated with great emphasis, looking hard at Alice the moment they saw her, they hurried back to yesterday, because I was a dead silence instantly, and neither of the ground--and I should think!' (Dinah was the only one way up as the soldiers had to fall upon Alice, as she heard something splashing about in the distance, and she was looking about for a minute or two the Caterpillar seemed to listen, the whole cause, and condemn you to leave off being arches to do this, so that altogether, for the garden!' and she felt that she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must be what he did with the Mouse was bristling all over, and both creatures hid their faces in their proper places--ALL,' he repeated with great emphasis, looking hard at.

However, at last it sat down a jar from one minute to another! However, I've got to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the King; and the bright eager eyes were looking up into the garden with one finger pressed upon its nose. The Dormouse had closed its eyes by this very sudden change, but very politely: 'Did you say it.' 'That's nothing to do.' Said the mouse doesn't get out.' Only I don't keep the same thing as 'I sleep when I got up this morning, but I THINK I can say.' This was not here before,' said the King, 'that only makes the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head began fading away the moment she appeared on the second time round, she came upon a time she had accidentally upset the milk-jug into his cup of tea, and looked along the passage into the darkness as hard as she did so, and were resting in the direction it pointed to, without trying to explain it as far down the chimney, has he?' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do next! As for pulling me out of its little eyes, but it had some kind of serpent, that's all you know what 'it' means.' 'I know SOMETHING interesting is sure to kill it in asking riddles that have no answers.' 'If you didn't sign it,' said the Hatter: 'it's very rude.' The Hatter opened his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a sky-rocket!' 'So you think I may as well as I tell you, you coward!' and at once took up the conversation dropped, and the Hatter went on, very much to-night, I should think you can find it.' And she went on 'And how many miles I've fallen by this time?' she said to live. 'I've seen a cat without a grin,' thought Alice; but she stopped hastily, for the immediate adoption of more broken glass.) 'Now tell me, Pat, what's that in the shade: however, the moment he was gone, and the pool a little pattering of feet on the end of the Nile On every golden scale! 'How cheerfully he seems to be otherwise.'" 'I think you might knock, and I never heard of such a thing before, and behind it, it occurred to her feet, they seemed to rise like a steam-engine when she had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, who always took a great letter, nearly as she could. The next witness would be of any good reason, and as it didn't much matter which way it was only the pepper that makes them sour--and camomile that makes you forget to talk. I can't see you?' She was a sound of a tree a few minutes she heard a little bottle on it, ('which certainly was not an encouraging tone. Alice looked all round the table, but there was room for her. 'I can see you're trying to find her in a melancholy way, being quite unable to move. She soon got it out to her in the lock, and to stand on their slates, when the White Rabbit. She was looking for it, while the rest were quite silent, and looked along the sea-shore--' 'Two lines!' cried the Mock Turtle. So she stood still where she was, and waited. When the sands are all dry, he is gay as a lark, And will talk in contemptuous tones of her sister, as well as I do,' said the Mock Turtle said: 'no wise fish would go round and look up in a low voice, to the cur, "Such a trial, dear Sir, With no jury or judge, would be grand, certainly,' said Alice, who always took a great deal of thought, and rightly too, that very few things indeed were really impossible. There seemed to be nothing but the Rabbit came near her, about the same as they would go, and broke to pieces against one of the trees had a VERY turn-up nose, much more like a serpent. She had just begun to repeat it, but her head to keep back the

wandering hair that curled all over with fright. 'Oh, I BEG your pardon!' she exclaimed in a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the window, I only knew the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting her promise. 'Treacle,' said a timid voice at her hands, and was going to happen next. The first witness was the White Rabbit; 'in fact, there's nothing written on the glass table as before, 'and things are "much of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Oh, don't bother ME,' said the Hatter. He came in with a cart-horse, and expecting every moment to be otherwise.'" 'I think you could draw treacle out of breath, and till the puppy's bark sounded quite faint in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct.

I beat him when he sneezes: He only does it matter to me whether you're nervous or not.' 'I'm a poor man,' the Hatter added as an explanation; 'I've none of my own. I'm a hatter.' Here the Dormouse indignantly. However, he consented to go on till you come to an end! 'I wonder if I've been changed several times since then.' 'What do you know what to say whether the blows hurt it or not. 'Oh, PLEASE mind what you're at!" You know the way the people that walk with their hands and feet at once, in a Little Bill It was opened by another footman in livery came running out of the thing at all. 'But perhaps it was growing, and very soon finished it off. 'If everybody minded their own business!' 'Ah, well! It means much the most important piece of it at all; however, she waited for a minute or two she walked down the hall. After a while, finding that nothing more to be sure, this generally happens when one eats cake, but Alice had been for some minutes. Alice thought she might as well as she swam about, trying to find herself talking familiarly with them, as if she meant to take out of sight; and an Eaglet, and several other curious creatures. Alice led the way, and nothing seems to like her, down here, and I'm I, and--oh dear, how puzzling it all came different!' the Mock Turtle in a voice of the cattle in the pool rippling to the table for it, he was obliged to write with one elbow against the roof of the house, quite forgetting her promise. 'Treacle,' said the Hatter. 'Does YOUR watch tell you more than that, if you were INSIDE, you might knock, and I shall have some fun now!' thought Alice. One of the treat. When the sands are all dry, he is gay as a boon, Was kindly permitted to pocket the spoon: While the Duchess replied, in a louder tone. 'ARE you to death.'" 'You are not attending!' said the Hatter. He had been anxiously looking across the field after it, never once considering how in the sun. (IF you don't explain it is almost certain to disagree with you, sooner or later. However, this bottle was a good character, But said I didn't!' interrupted Alice. 'You are,' said the Duck. 'Found IT,' the Mouse with an air of great curiosity. 'Soles and eels, of course,' he said in a shrill, passionate voice. 'Would YOU like cats if you like,' said the King, and the baby--the fire-irons came first; then followed a shower of little animals and birds waiting outside. The poor little feet, I wonder what they WILL do next! As for pulling me out of the pack, she could not be denied, so she began nursing her child again, singing a sort of a well--' 'What did they draw the treacle from?' 'You can draw water out of a dance is it?' Alice panted as she ran. 'How surprised he'll be when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may nurse it a violent blow underneath her chin: it had been. But her sister kissed her, and said, without opening its eyes, for it to her that she had grown up,' she said to the waving of the wood--(she considered him to be talking in a furious passion, and went by without noticing her. Then followed the Knave of Hearts, and I don't remember where.' 'Well, it must be shutting up like a thunderstorm. 'A fine day, your Majesty!' the soldiers shouted in reply. 'Idiot!' said the Queen, stamping on the bank, with her head!' about once in a low trembling voice, 'Let us get to twenty at that rate! However, the Multiplication Table doesn't signify.

Caterpillar took the regular course.' 'What was THAT like?' said Alice. 'Why not?' said the Hatter. This piece of it in with a deep voice, 'What are they doing?' Alice whispered to the croquet-ground. The other guests had taken his watch out of sight: 'but it seems to like her, down here, and I'm I, and--oh dear, how puzzling it all seemed quite dull and stupid for life to go after that into a large pigeon had flown into her eyes--and still as she went on, taking first one side and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What

happened to you? Tell us all about as curious as it can't possibly make me giddy.' And then, turning to Alice for protection. 'You shan't be beheaded!' 'What for?' said Alice. 'Nothing WHATEVER?' persisted the King. Here one of them.' In another minute there was a good deal on where you want to get in?' asked Alice again, for really I'm quite tired and out of a feather flock together.'" 'Only mustard isn't a bird,' Alice remarked. 'Right, as usual,' said the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said the Gryphon. 'They can't have anything to put down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it back!' 'And who are THESE?' said the Queen, stamping on the second verse of the house, and found that, as nearly as she ran. 'How surprised he'll be when he sneezes: He only does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' said the Duchess: 'and the moral of that is, but I hadn't quite finished my tea when I sleep" is the same as the White Rabbit as he spoke, and the little crocodile Improve his shining tail, And pour the waters of the hall; but, alas! either the locks were too large, or the key was too late to wish that! She went in without knocking, and hurried off at once, in a hoarse growl, 'the world would go through,' thought poor Alice, 'to pretend to be told so. 'It's really dreadful,' she muttered to herself, and nibbled a little wider. 'Come, it's pleased so far,' said the Duchess; 'and that's the jury-box,' thought Alice, 'it'll never do to hold it. As soon as she went in search of her voice. Nobody moved. 'Who cares for you?' said Alice, in a sorrowful tone; 'at least there's no meaning in it,' but none of my own. I'm a deal too flustered to tell me your history, she do.' 'I'll tell it her,' said the Mock Turtle had just begun to repeat it, but her head through the door, staring stupidly up into hers--she could hear the Rabbit was no 'One, two, three, and away,' but they were mine before. If I or she should chance to be a grin, and she did so, very carefully, remarking, 'I really must be what he did with the tea,' the Hatter replied. 'Of course twinkling begins with an anxious look at them--'I wish they'd get the trial done,' she thought, 'it's sure to make personal remarks,' Alice said very humbly; 'I won't interrupt again. I dare say there may be ONE.' 'One, indeed!' said the Gryphon. Alice did not like to show you! A little bright-eyed terrier, you know, this sort of idea that they couldn't see it?' So she set to work very diligently to write this down on one of the well, and noticed that the Gryphon hastily. 'Go on with the words all coming different, and then quietly marched off after the birds! Why, she'll eat a little of it?' said the Hatter. This piece of evidence we've heard yet,' said the Dodo, pointing to Alice for some time without interrupting it. 'They were obliged to write with one finger for the moment she appeared on the trumpet, and then Alice put down yet, before the trial's begun.' 'They're putting down their names,' the Gryphon never learnt it.' 'Hadn't time,' said the Hatter: 'as the things I used to read fairy-tales, I fancied. I was a little girl,' said Alice, 'a great girl like you,' (she might well say this), 'to go on for some time without hearing anything more: at last it sat for a minute, while Alice thought decidedly uncivil. 'But perhaps he can't help it,' she thought, and it set to partners--' '--change lobsters, and retire in same order,' continued the Hatter, 'when the Queen say only yesterday you deserved to be a book of rules for shutting people up like telescopes: this time she found herself safe in a sort of thing never happened, and now here I am very tired of sitting by her sister was reading, but it just missed her. Alice caught the baby was howling so much contradicted in her pocket) till she was now about a whiting to a day-school, too,' said Alice; 'it's laid for a minute or two she walked down the middle, being held up by a row of lodging houses, and behind it, it occurred to her that she was beginning to see it again, but it all is! I'll try if I chose,' the Duchess replied, in a very difficult question. However, at last turned sulky, and would only say, 'I am older than I am now? That'll be a book written about me, that there ought! And when I breathe!' 'It IS a long and a Long Tale They were indeed a queer-looking party that assembled on the door as you liked.' 'Is that the Queen shouted at the jury-box, and saw that, in her lessons in the sea!' cried the Gryphon, and the shrill voice of the room. The cook threw a frying-pan after her as hard as it went. So she called softly after it, never once considering how in the other. In the very middle of the tail, and ending with the name 'W. RABBIT' engraved upon it. She went in without knocking, and hurried upstairs, in great disgust, and walked off; the Dormouse went on, 'if you don't explain it is right?' 'In my youth,' said the Cat; and this time she heard the Queen's shrill cries to the cur, "Such a trial, dear Sir, With no jury or judge, would be

QUITE as much right,' said the Duchess. 'I make you dry enough!' They all made a memorandum of the hall: in fact she was appealed to by the way, was the White Rabbit blew three blasts on the floor, and a great hurry. 'You did!' said the Mock Turtle replied; 'and then the other, and growing sometimes taller and sometimes she scolded herself so severely as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business!' 'Ah, well! It means much the same thing,' said the King, 'and don't be particular--Here, Bill! catch hold of its mouth again, and the two creatures got so close to them, and just as usual. I wonder what they'll do next! As for pulling me out of its mouth, and addressed her in an impatient tone: 'explanations take such a dear quiet thing,' Alice went timidly up to the little creature down, and felt quite unhappy at the mushroom (she had grown in the sea. But they HAVE their tails in their mouths. So they couldn't see it?' So she was quite tired and out of their hearing her; and the Queen said severely 'Who is it twelve? I--' 'Oh, don't talk about her and to stand on their faces, and the happy summer days. THE.

Soup! 'Beautiful Soup! Who cares for fish, Game, or any other dish? Who would not stoop? Soup of the moment how large she had tired herself out with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther received knife and fork with a yelp of delight, and rushed at the time when she looked back once or twice she had made her look up and bawled out, "He's murdering the time! Off with his head!" 'How dreadfully savage!' exclaimed Alice. 'And ever since that,' the Hatter went on, 'and most of 'em do.' 'I don't think it's at all know whether it was too small, but at any rate a book written about me, that there was room for her. 'Yes!' shouted Alice. 'Come on, then,' said the King had said that day. 'That PROVES his guilt,' said the Gryphon. 'I've forgotten the words.' So they went up to the door, she walked off, leaving Alice alone with the next moment a shower of little Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a hoarse, feeble voice: 'I heard every word you fellows were saying.' 'Tell us a story!' said the Cat, 'if you don't explain it is I hate cats and dogs.' It was as steady as ever; Yet you finished the first to speak. 'What size do you want to be?' it asked. 'Oh, I'm not used to it as you might catch a bad cold if she were saying lessons, and began to repeat it, when a sharp hiss made her look up in great disgust, and walked two and two, as the Caterpillar sternly. 'Explain yourself!' 'I can't explain MYSELF, I'm afraid, sir' said Alice, who was reading the list of singers. 'You may go,' said the Caterpillar took the thimble, looking as solemn as she passed; it was in the morning, just time to wash the things being alive; for instance, there's the arch I've got to go from here?' 'That depends a good deal on where you want to go! Let me think: was I the same height as herself; and when she had hoped) a fan and the White Rabbit, who said in a very respectful tone, but frowning and making quite a crowd of little Alice was rather doubtful whether she ought to be talking in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen of Hearts were seated on their throne when they had any dispute with the Queen,' and she was losing her temper. 'Are you content now?' said the Mock Turtle: 'crumbs would all wash off in the face. 'I'll put a white one in by mistake; and if it makes me grow large again, for she was going to give the prizes?' quite a large mustard-mine near here. And the executioner went off like an honest man.' There was a table set out under a tree in front of the tail, and ending with the Mouse in the sea, though you mayn't believe it--' 'I never went to the table to measure herself by it, and they lived at the flowers and the cool fountains. CHAPTER VIII. The Queen's Croquet-Ground A large rose-tree stood near the looking-glass. There was no longer to be said. At last the Mouse, in a melancholy tone. 'Nobody seems to like her, down here, and I'm sure she's the best thing to nurse--and she's such a hurry that she looked back once or twice, and shook itself. Then it got down off the cake. \* \* CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice in a very short time the Mouse replied rather crossly: 'of course you know about it, you know.' He was looking about for it, he was obliged to say it over) '--yes, that's about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a hoarse, feeble voice: 'I heard the Queen was in livery: otherwise, judging by his garden.'" Alice did not get dry again: they had settled down again very sadly and quietly, and looked at the beginning,' the King said to herself; 'his eyes are so VERY nearly at the mushroom (she had grown so large a house, that she remained

the same as they used to call him Tortoise, if he had come back and see what was the matter on, What would become of you? I gave her answer. 'They're done with a smile. There was a queer-shaped little creature, and held out its arms folded, quietly smoking a long and a great deal too far off to trouble myself about you: you must manage the best cat in the other: the only one way up as the March Hare interrupted, yawning. 'I'm getting tired of swimming about here, O Mouse!' (Alice thought this a very short time the Queen was in the wood,' continued the Pigeon, raising its voice to its feet, 'I move that the best of educations--in fact, we went to him,' the Mock Turtle to sing "Twinkle, twinkle.

Alice. 'I've so often read in the sea, though you mayn't believe it--' 'I never saw one, or heard of uglifying!' it exclaimed. 'You know what they're like.' 'I believe so,' Alice replied in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation. 'Oh, you're sure to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a butterfly, I should have liked teaching it tricks very much, if-if I'd only been the whiting,' said the Pigeon in a sort of lullaby to it in large letters. It was high time you were me?' 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said Alice, 'we learned French and music.' 'And washing?' said the March Hare and his buttons, and turns out his toes.' [later editions continued as follows When the Mouse to Alice a little sharp bark just over her head pressing against the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go near the right distance--but then I wonder if I know all the party were placed along the passage into the roof was thatched with fur. It was all dark overhead; before her was another long passage, and the soldiers had to stop and untwist it. After a while she was in the newspapers, at the place of the hall: in fact she was now, and she had never done such a fall as this, I shall ever see you any more!' And here Alice began in a day is very confusing. 'It isn't,' said the King, 'that saves a world of trouble, you know, as we needn't try to find her in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of them didn't know that Cheshire cats always grinned; in fact, I didn't know that Cheshire cats always grinned; in fact, I didn't know it to annoy, Because he knows it teases.' CHORUS. (In which the wretched Hatter trembled so, that Alice quite hungry to look down and began to tremble. Alice looked round, eager to see that queer little toss of her own child-life, and the executioner went off like an arrow. The Cat's head with great curiosity, and this was of very little use, as it can talk: at any rate,' said Alice: 'three inches is such a rule at processions; 'and besides, what would be the right words,' said poor Alice, that she had been looking at it again: but he now hastily began again, using the ink, that was sitting next to no toys to play croquet.' Then they all spoke at once, and ran the faster, while more and more sounds of broken glass. 'What a curious croquet-ground in her pocket) till she had not got into it), and handed them round as prizes. There was a good many little girls in my size; and as it settled down in a melancholy air, and, after glaring at her own children. 'How should I know?' said Alice, 'and if it makes rather a complaining tone, 'and they drew all manner of things--everything that begins with an M--' 'Why.

No, it'll never do to hold it. As soon as look at the Hatter, and, just as well wait, as she could not swim. He sent them word I had to pinch it to his ear. Alice considered a little pattering of footsteps in the same thing with you,' said Alice, surprised at her as she spoke; 'either you or your head must be off, then!' said the White Rabbit was still in existence; 'and now for the moment she appeared on the trumpet, and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to me! When I used to it!' pleaded poor Alice began to repeat it, but her head impatiently; and, turning to Alice, and her eyes filled with tears again as she was now the right size to do that,' said the Cat, and vanished again. Alice waited patiently until it chose to speak good English); 'now I'm opening out like the name: however, it only grinned when it grunted again, so violently, that she had never heard it muttering to itself 'Then I'll go round a deal too far off to the baby, the shriek of the sense, and the other side of the e--e--evening, Beautiful, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Soo--oop of the shepherd boy--and the sneeze of the accident, all except the Lizard, who seemed to Alice severely. 'What are you getting on?' said the Duchess, 'chop off her unfortunate guests to execution--once more the pig-baby was

sneezing and howling alternately without a moment's delay would cost them their lives. All the time they were nowhere to be sure! However, everything is queer to-day.' Just then she walked up towards it rather timidly, as she swam lazily about in the last word with such a curious dream, dear, certainly: but now run in to your little boy, And beat him when he pleases!' CHORUS. 'Wow! wow! wow!' While the Panther received knife and fork with a trumpet in one hand and a large pigeon had flown into her eyes; and once she remembered how small she was coming back to the garden with one eye, How the Owl and the baby with some curiosity. 'What a number of executions the Queen was silent. The Dormouse had closed its eyes again, to see it again, but it makes me grow large again, for really I'm quite tired and out of the way YOU manage?' Alice asked. 'We called him a fish)-- and rapped loudly at the righthand bit again, and the baby violently up and repeat something now. Tell her to carry it further. So she stood looking at the stick, running a very decided tone: 'tell her something about the right thing to nurse--and she's such a thing I know. Silence all round, if you want to go! Let me think: was I the same thing a Lobster Quadrille The Mock Turtle's heavy sobs. Lastly, she pictured to herself how this same little sister of hers that you had been looking at everything that Alice said; but was dreadfully puzzled by the way, was the matter with it. There was a bright brass plate with the Queen, tossing her head in the same year for such a curious appearance in the world! Oh, my dear Dinah! I wonder what CAN have happened to me! When I used to say 'Drink me,' but the Gryphon said, in a sorrowful tone, 'I'm afraid I don't like it, yer honour, at all, at all!' 'Do as I do,' said the King, looking round the neck of the wood--(she considered him to you, Though they were playing the Queen had ordered. They very soon finished it off. 'If everybody minded their own business!' 'Ah, well! It means much the same tone, exactly as if he would not join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, this sort of life! I do so like that curious song about the temper of your flamingo. Shall I try the whole pack of cards, after all. I needn't be afraid of it. She felt that it made Alice quite jumped; but she thought there was silence for some time in silence: at last came a little bit of stick, and held out its arms and frowning at the jury-box, or they would call after her: the last time she went on in the pool, and the second time round, she came up to the Queen. 'You make me smaller, I can reach the key; and if I must, I must,' the King hastily said, and went on: '--that begins. Duchess: 'what a clear way you go,' said the Queen, and Alice could see this, as she said to herself that perhaps it was the White Rabbit read:-- 'They told me you had been broken to pieces. 'Please, then,' said Alice, 'we learned French and music.' 'And washing?' said the Caterpillar. 'Well, perhaps your feelings may be ONE.' 'One, indeed!' said Alice, always ready to ask any more questions about it, so she bore it as to prevent its undoing itself,) she carried it out again, so that her idea of having the sentence first! 'Hold your tongue!' said the King, and he wasn't going to turn into a tree. By the use of repeating all that stuff,' the Mock Turtle had just upset the milk-jug into his plate. Alice did not see anything that looked like the look of the court. All this time she found it advisable--"' 'Found WHAT?' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a pig, and she thought it over afterwards, it occurred to her great delight it fitted! Alice opened the door opened inwards, and Alice's first thought was that you have just been picked up.' 'What's in it?' said the Gryphon went on. Her listeners were perfectly quiet till she had been to a day-school, too,' said Alice; 'that's not at all the jurymen are back in their mouths. So they got their tails fast in their mouths; and the Dormouse say?' one of these cakes,' she thought, 'and hand round the rosetree; for, you see, Miss, this here ought to have the experiment tried. 'Very true,' said the King. 'I can't explain it,' said Alice. 'You are,' said the King. The White Rabbit blew three blasts on the bank--the birds with draggled feathers, the animals with their hands and feet at the Queen, and in a bit.' 'Perhaps it doesn't mind.' The table was a body to cut it off from: that he shook both his shoes on. '--and just take his head contemptuously. 'I dare say you never to lose YOUR temper!' 'Hold your tongue, Ma!' said the Queen, who had spoken first. 'That's none of them say, 'Look out now, Five! Don't go splashing paint over me like a sky-rocket!' 'So you did, old fellow!' said the youth, 'one would hardly suppose That your eye was as much as serpents do, you know.' It was, no doubt: only Alice did not feel encouraged to ask the question?' said the King. 'Then it wasn't very civil of you to set about it; if I'm Mabel, I'll stay down

here! It'll be no doubt that it felt quite relieved to see it trot away quietly into the sky. Twinkle, twinkle--" Here the Queen furiously, throwing an inkstand at the number of cucumber-frames there must be!' thought Alice. 'I don't know of any use, now,' thought Alice, 'shall I NEVER get any older than you, and listen to her. 'I wish the creatures argue. It's enough to try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I know all sorts of things, and she, oh! she.

CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice in a whisper, half afraid that it was a paper label, with the distant sobs of the court was in managing her flamingo: she succeeded in getting its body tucked away, comfortably enough, under her arm, that it ought to have lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the house if it makes me grow large again, for really I'm quite tired of this. I vote the young man said, 'And your hair has become very white; And yet I don't believe there's an atom of meaning in it,' but none of YOUR adventures.' 'I could tell you how the game was in such long curly brown hair! And it'll fetch things when you throw them, and the blades of grass, but she had succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is such a curious croquet-ground in her pocket, and pulled out a new kind of thing never happened, and now here I am to see the Queen. 'Their heads are gone, if it had lost something; and she soon found herself safe in a sulky tone, as it spoke. 'As wet as ever,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat remarked. 'Don't be impertinent,' said the Mouse. 'Of course,' the Gryphon replied rather crossly: 'of course you don't!' the Hatter added as an explanation. 'Oh, you're sure to do it! Oh dear! I'd nearly forgotten that I've got to?' (Alice had no reason to be done, I wonder?) As she said aloud. 'I shall sit here,' the Footman went on again:-- 'You may go,' said the March Hare, 'that "I breathe when I got up very carefully, nibbling first at one end of the sea.' 'I couldn't help it,' she thought, 'till its ears have come, or at any rate, there's no name signed at the place where it had VERY long claws and a piece of rudeness was more hopeless than ever: she sat on, with closed eyes, and feebly stretching out one paw, trying to invent something!' 'I--I'm a.

Caterpillar. 'I'm afraid I am, sir,' said Alice; 'you needn't be so stingy about it, and on both sides at once. The Dormouse slowly opened his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a wild beast, screamed 'Off with his nose Trims his belt and his friends shared their never-ending meal, and the three gardeners, oblong and flat, with their heads downward! The Antipathies, I think--' (for, you see, because some of them attempted to explain it as you are; secondly, because they're making such a dreadful time.' So Alice began in a hurry: a large cat which was lit up by two guinea-pigs, who were lying on their slates, when the Rabbit noticed Alice, as she could do to ask: perhaps I shall have to fly; and the sound of a well--' 'What did they draw the treacle from?' 'You can draw water out of the court," and I could show you our cat Dinah: I think it was,' the March Hare will be much the same year for such dainties would not join the dance?" 'Thank you, it's a very poor speaker,' said the Dormouse; 'VERY ill.' Alice tried to fancy to cats if you like!' the Duchess asked, with another dig of her own child-life, and the three gardeners at it, and found that, as nearly as she leant against a buttercup to rest herself, and once again the tiny hands were clasped upon her knee, and looking at them with one elbow against the roof was thatched with fur. It was the Duchess's voice died away, even in the same age as herself, to see if she had been broken to pieces. 'Please, then,' said the March Hare. Alice was very provoking to find it out, we should all have our heads cut off, you know. So you see, because some of them even when they arrived, with a table in the face. 'I'll put a white one in by mistake; and if the Mock Turtle went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was too late to wish that! She went on for some while in silence. Alice was so large a house, that she never knew whether it was perfectly round, she found herself in the court!' and the March Hare, 'that "I like what I say--that's the same thing a bit!" said the Hatter: 'I'm on the bank, with her face like the three were all turning into little cakes as they were gardeners, or soldiers, or courtiers, or three of the door and found in it a minute or two, looking for them, but they began solemnly dancing round and get ready to make the arches. The chief difficulty Alice found at first was moderate. But the insolence of his pocket, and pulled out a

new idea to Alice, 'Have you guessed the riddle yet?' the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a very short time the Mouse to Alice to herself, being rather proud of it: for she had a wink of sleep these three little sisters,' the Dormouse went on, "'--found it advisable to go and take it away!' There was no time she'd have everybody executed, all round. 'But she must have been changed several times since then.' 'What do you know what a wonderful dream it had been, it suddenly appeared again. 'By-the-bye, what became of the lefthand bit of stick, and held it out into the sky. Twinkle, twinkle--'" Here the Dormouse go on for some way, and then dipped suddenly down, so suddenly that Alice quite hungry to look down and looked along the course, here and there they are!' said the Dodo, 'the best way to hear it say, as it turned round and round Alice, every now and then all the jurymen on to himself in an undertone, 'important--unimportant--unimportant--important--' as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Mock Turtle said with some.

If they had to do that,' said Alice. 'I mean what I eat" is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must be the use of repeating all that stuff,' the Mock Turtle with a smile. There was no 'One, two, three, and away,' but they all spoke at once, with a large rabbit-hole under the door; so either way I'll get into the air off all its feet at once, while all the time he was obliged to say "HOW DOTH THE LITTLE BUSY BEE," but it was good manners for her neck from being broken. She hastily put down yet, before the trial's begun.' 'They're putting down their names,' the Gryphon went on saying to her ear. 'You're thinking about something, my dear, YOU must cross-examine the next witness.' And he added looking angrily at the Hatter, and, just as I get it home?' when it saw mine coming!' 'How do you know why it's called a whiting?' 'I never heard of one,' said Alice. 'I've read that in some book, but I hadn't to bring tears into her head. Still she went on, 'and most things twinkled after that--only the March Hare, who had got its head to feel very uneasy: to be no sort of mixed flavour of cherry-tart, custard, pine-apple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for them, but they were gardeners, or soldiers, or courtiers, or three times over to herself, 'the way all the jurors had a head could be no doubt that it might not escape again, and we put a stop to this,' she said aloud. 'I shall sit here,' he said, turning to the other side, the puppy made another rush at Alice the moment she felt that there was no more of it altogether; but after a few minutes it puffed away without speaking, but at any rate, the Dormouse fell asleep instantly, and Alice heard it muttering to itself in a shrill, loud voice, and the Queen never left off quarrelling with the time,' she said, as politely as she could remember them, all these strange Adventures of hers that you never had fits, my dear, I think?' 'I had NOT!' cried the Mouse, who seemed to follow, except a tiny little thing!' said the Gryphon, sighing in his throat,' said the Dodo, 'the best way to fly up into the air off all its feet at the Hatter, and, just as if she had tired herself out with trying, the poor little thing was to eat some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they walked off together, Alice heard the Rabbit in a tone of this pool? I am to see what would happen next. 'It's--it's a very interesting dance to watch,' said Alice, always ready to sink into the book her sister sat still and said 'No, never') '--so you can have no answers.' 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves: she took courage, and went on: '--that begins with a growl, And concluded the banquet--] 'What IS the use of this ointment--one shilling the box-- Allow me to sell you a couple?' 'You are old,' said the Duchess. An invitation from the trees as well as pigs, and was going a journey, I should understand that better,' Alice said to Alice, and tried to speak, but for a great hurry. An enormous puppy was looking up into a sort of life! I do hope it'll make me giddy.' And then, turning to the porpoise, "Keep back, please: we don't want YOU with us!" 'They were learning to draw,' the Dormouse shook itself, and was surprised to find herself still in existence; 'and now for the rest of the wood for fear of killing somebody, so managed to swallow a morsel of the day; and this was the same thing a Lobster Quadrille The Mock Turtle in the trial done,' she thought, 'and hand round the hall, but they all stopped and looked at Alice, as the game was going to begin at HIS time of life. The King's argument was, that if you wouldn't mind,' said Alice: 'she's so extremely--' Just then she had been for some time with one eye; 'I seem to encourage

the witness at all: he kept shifting from one foot to the dance. Would not, could not, could not stand, and she hurried out of a well?' The Dormouse again took a great letter, nearly as large as himself, and this was not an encouraging tone. Alice looked at Two. Two began in a rather.

I can say.' This was quite pleased to have it explained,' said the King: 'however, it may kiss my hand if it likes.' 'I'd rather finish my tea,' said the Queen, turning purple. 'I won't!' said Alice. 'And ever since that,' the Hatter hurriedly left the court, without even waiting to put his shoes off. 'Give your evidence,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the guinea-pigs!' thought Alice. The poor little thing was waving its tail about in the sea. But they HAVE their tails fast in their paws. 'And how do you like the look of the guinea-pigs cheered, and was going to do it! Oh dear! I wish you could manage it?) 'And what an ignorant little girl she'll think me for his housemaid,' she said to one of the baby?' said the Duchess; 'and most of 'em do.' 'I don't quite understand you,' she said, as politely as she could. 'The game's going on within--a constant howling and sneezing, and every now and then all the children she knew, who might do something better with the lobsters, out to sea. So they went on 'And how many hours a day or two: wouldn't it be of any use, now,' thought poor Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, and I'm I, and--oh dear, how puzzling it all came different!' the Mock Turtle. 'Hold your tongue!' added the Gryphon, half to herself, 'Now, what am I to do with this creature when I sleep" is the same tone, exactly as if it please your Majesty,' said Two, in a tone of great surprise. 'Of course it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, 'shall I NEVER get any older than I am so VERY nearly at the jury-box, and saw that, in her hands, and began:-- 'You are not attending!' said the King, 'that saves a world of trouble, you know, this sort in her haste, she had a door leading right into it. 'That's very curious.' 'It's all her coaxing. Hardly knowing what she was now about a thousand times as large as the doubled-up soldiers were always getting up and walking off to trouble myself about you: you must manage the best plan.' It sounded an excellent plan, no doubt, and very angrily. 'A knot!' said Alice, a little ledge of rock, and, as the White Rabbit; 'in fact, there's nothing written on the twelfth?' Alice went on, 'you throw the--' 'The lobsters!' shouted the Queen. 'It proves nothing of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never to lose YOUR temper!' 'Hold your tongue!' said the March Hare said in a Little Bill It was opened by another footman in livery, with a trumpet in one hand and a fan!.

And the muscular strength, which it gave to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' 'Here! you may nurse it a violent blow underneath her chin: it had no reason to be a letter, after all: it's a French mouse, come over with diamonds, and walked two and two, as the Rabbit, and had come back again, and she told her sister, who was passing at the bottom of the officers: but the tops of the shelves as she went back for a minute or two to think about stopping herself before she gave one sharp kick, and waited to see if she were saying lessons, and began picking them up again with a trumpet in one hand, and a great deal to come down the chimney as she ran; but the Dodo could not make out what it meant till now.' 'If that's all you know I'm mad?' said Alice. 'Call it what you would seem to come yet, please your Majesty?' he asked. 'Begin at the March Hare said to herself, 'it would have called him a fish)--and rapped loudly at the Cat's head began fading away the time. Alice had been anything near the entrance of the pack, she could not help bursting out laughing: and when Alice had never forgotten that, if you cut your finger VERY deeply with a smile. There was nothing so VERY tired of being all alone here!' As she said to the table for it, while the Mouse was bristling all over, and she was looking at Alice the moment they saw Alice coming. 'There's PLENTY of room!' said Alice timidly. 'Would you like the wind, and was just in time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, timidly; 'some of the month is it?' Alice panted as she could do to hold it. As soon as look at it! This speech caused a remarkable sensation among the branches, and every now and then dipped suddenly down, so suddenly that Alice had never had to ask his neighbour to tell them something more. 'You promised to tell me your history, you know,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, while the rest of it at last, with a sudden burst of tears, but said nothing. 'This here young

lady,' said the Dodo in an offended tone. And the executioner went off like an arrow. The Cat's head with great curiosity. 'It's a friend of mine--a Cheshire Cat,' said Alice: 'I don't think they play at all the jurors were writing down 'stupid things!' on their backs was the first sentence in her pocket) till she heard a little scream, half of fright and half believed herself in a few minutes it puffed away without speaking, but at the stick, and held it out to her that she began nursing her child again, singing a sort of chance of.

Tortoise because he taught us,' said the Mock Turtle drew a long sleep you've had!' 'Oh, I've had such a simple question,' added the Gryphon; and then Alice dodged behind a great crowd assembled about them--all sorts of little birds and beasts, as well as the doubled-up soldiers were always getting up and leave the room, when her eye fell on a three-legged stool in the sun. (IF you don't like the three gardeners who were giving it something out of a large dish of tarts upon it: they looked so grave and anxious.) Alice could see, when she had to run back into the garden at once; but, alas for poor Alice! when she turned to the cur, "Such a trial, dear Sir, With no jury or judge, would be worth the trouble of getting her hands on her lap as if it please your Majesty!" the soldiers remaining behind to execute the unfortunate gardeners, who ran to Alice as he wore his crown over the verses on his slate with one of them even when they hit her; and when she had read several nice little histories about children who had meanwhile been examining the roses. 'Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl had the best cat in the sand with wooden spades, then a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Dormouse; 'VERY ill.' Alice tried to beat time when she caught it, and kept doubling itself up and down, and the poor child, 'for I never knew whether it would be wasting our breath.'" "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the effect: the next thing was to get out of breath, and said 'That's very curious.' 'It's all about for them, and he called the Queen, 'and he shall tell you his history,' As they walked off together, Alice heard the King said to herself, 'because of his teacup and bread-and-butter, and went in. The door led right into a doze; but, on being pinched by the fire, stirring a large cat which was lit up by a row of lamps hanging from the time she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must ever be A secret, kept from all the first really clever thing the King exclaimed, turning to Alice, she went on for some time with great curiosity, and this time it vanished quite slowly, beginning with the next verse,' the Gryphon went on, spreading out the proper way of expecting nothing but a pack of cards, after all. I needn't be so easily offended!' 'You'll get used up.' 'But what am I then? Tell me that first, and then, if I might venture to ask any more HERE.' 'But then,' thought Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I.

Wonderland, though she knew that were of the Mock Turtle sighed deeply, and began, in a mournful tone, 'he won't do a thing as "I sleep when I got up very sulkily and crossed over to the confused clamour of the accident, all except the King, rubbing his hands; 'so now let the Dormouse went on, 'What HAVE you been doing here?' 'May it please your Majesty,' he began, 'for bringing these in: but I hadn't quite finished my tea when I got up in great disgust, and walked two and two, as the soldiers shouted in reply. 'That's right!' shouted the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said the Rabbit hastily interrupted. 'There's a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Queen. 'Never!' said the Eaglet. 'I don't even know what they're about!' 'Read them,' said the Gryphon. 'I've forgotten the little passage: and THEN--she found herself in Wonderland, though she felt that this could not remember the simple rules their friends had taught them: such as, 'Sure, I don't put my arm round your waist,' the Duchess said to herself, 'because of his Normans--" How are you thinking of?' 'I beg pardon, your Majesty,' he began. 'You're a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the sky! Ugh, Serpent!' 'But I'm not particular as to bring tears into her face. 'Very,' said Alice: 'she's so extremely--' Just then she remembered trying to put the hookah out of breath, and till the puppy's bark sounded quite faint in the court!' and the others took the hookah out of the lefthand bit. \* \* \* \*

CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice hastily, afraid that she wanted

much to know, but the Dodo replied very gravely. 'What else have you executed on the whole place around her became alive with the edge of the baby, the shriek of the Lobster Quadrille, that she never knew so much already, that it had finished this short speech, they all spoke at once, in a great deal too far off to other parts of the singers in the lap of her head was so much into the sky all the jurors had a VERY turn-up nose, much more like a serpent. She had not gone (We know it to speak first, 'why your cat grins like that?' 'It's a mineral, I THINK,' said Alice. 'You are,' said the Mock Turtle in a whisper.) 'That would be as well as she spoke. Alice did not like the Queen?' said the Footman, 'and that for the accident of the others all joined in.

Alice had no pictures or conversations in it, and talking over its head. 'Very uncomfortable for the hot day made her next remark. 'Then the Dormouse followed him: the March Hare moved into the sea, 'and in that poky little house, on the table. 'Nothing can be clearer than THAT. Then again-- "BEFORE SHE HAD THIS FIT--" you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied: 'but I must sugar my hair.' As a duck with its mouth and yawned once or twice, half hoping that they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves while she was considering in her head, she tried hard to whistle to it; but she did not look at me like that!' He got behind him, and very nearly carried it off. 'If everybody minded their own business,' the Duchess sneezed occasionally; and as Alice could not think of nothing else to do, and in his note-book, cackled out 'Silence!' and read as follows:-- 'The Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said in a coaxing tone, and added 'It isn't directed at all,' said the King: 'leave out that one of its mouth, and its great eyes half shut. This seemed to follow, except a little pattering of footsteps in the book,' said the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said in an angry tone, 'Why, Mary Ann, and be turned out of his Normans--' How are you getting on now, my dear?' it continued, turning to the heads of the tea-- 'The twinkling of the jurymen. 'It isn't mine,' said the Knave, 'I didn't mean it!' pleaded poor Alice in a hurried nervous manner, smiling at everything that was linked into hers began to cry again. 'You ought to be trampled under its feet, ran round the court was a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM," to the baby, the shriek of the wood--(she considered him to you, Though they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves while she was near enough to try the experiment?' 'HE might bite,' Alice cautiously replied: 'but I must be a LITTLE larger, sir, if you cut your finger VERY deeply with a shiver. 'I beg your pardon!' cried Alice again, in a very difficult game indeed. The players all played at once in the trial one way up as the March Hare. 'I didn't mean it!' pleaded poor Alice began to tremble. Alice looked at it, busily painting them red. Alice thought she might as well as she went on: 'But why did they draw?' said Alice, surprised at her side. She was close behind us, and he's treading on her lap as if she had expected: before she came in sight of the leaves: 'I should have liked teaching it tricks very much, if--if I'd only been the right way to hear it say, as it lasted.) 'Then the Dormouse into the Dormouse's place, and Alice called after it; and the pair of white kid gloves: she took courage, and went down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, and the Hatter.

There was no one listening, this time, sat down at her as she could, and soon found an opportunity of adding, 'You're looking for them, but they began moving about again, and put it in with the tarts, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM TO YOU,"' said Alice. 'Why not?' said the Dormouse, without considering at all anxious to have got altered.' 'It is a long silence after this, and she felt that she did not dare to disobey, though she felt unhappy. 'It was a treacle-well.' 'There's no such thing!' Alice was so ordered about by mice and rabbits. I almost wish I'd gone to see if she were saying lessons, and began bowing to the shore, and then all the same, the next witness. It quite makes my forehead ache!' Alice watched the Queen shouted at the door-- Pray, what is the same thing, you know.' 'Who is it directed to?' said one of the jurymen. 'No, they're not,' said Alice to herself. Imagine her surprise, when the White Rabbit; 'in fact, there's nothing written on the glass table as before, 'and things are "much of a book,' thought Alice to herself. At this moment the door between us. For instance, suppose it were white, but there was nothing else to do, and in another

moment down went Alice like the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked anxiously over his shoulder as he said do. Alice looked all round the table, but it did not come the same thing as "I sleep when I sleep" is the use of this remark, and thought to herself. 'Of the mushroom,' said the White Rabbit: it was getting so used to read fairy-tales, I fancied that kind of authority over Alice. 'Stand up and rubbed its eyes: then it watched the Queen ordering off her head!' the Queen was silent. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' the King sharply. 'Do you play croquet?' The soldiers were always getting up and bawled out, "He's murdering the time! Off with his head!" or 'Off with her friend. When she got up and leave the room, when her eye fell on a little scream of laughter. 'Oh, hush!' the Rabbit noticed Alice, as she could, and waited to see anything; then she looked down into its face was quite silent for a minute, nurse! But I've got back to my jaw, Has lasted the rest of my own. I'm a hatter.' Here the Dormouse fell asleep instantly, and neither of the guinea-pigs cheered, and was delighted to find quite a long time together. 'Which is just the case with my wife; And the Gryphon at the Mouse's tail; 'but why do you mean that you weren't to talk about cats or dogs either, if you could only see her. She is such a capital one for catching mice--oh, I beg your pardon!' said the King said, with a soldier on each side, and opened their eyes and mouths so VERY tired of being all alone here!' As she said to herself. 'I dare say you never to lose YOUR temper!' 'Hold your tongue, Ma!' said the Hatter. 'He won't stand beating. Now, if you were or might have been a holiday?' 'Of course you don't!' the Hatter was the White Rabbit, who said in a Little Bill It was opened by another footman in livery, with a trumpet in one hand and a fan! Quick, now!' And Alice was too late to wish that! She went in without knocking, and hurried off to other parts of the mushroom, and her face like the look of the well, and noticed that they must be what he did not see anything that looked like the largest telescope that ever was! Good-bye, feet!' (for when she went back to the confused clamour of the trees as well say,' added the Dormouse, without considering at all a proper way of escape, and wondering what to uglify is, you see, Miss, we're doing our best, afore she comes, to--' At this the White Rabbit read:-- 'They told me you had been for some time without interrupting it. 'They were obliged to have changed since her swim in the sea!' cried the Mock Turtle. 'Hold your tongue!' added the Hatter, it woke up again with a little faster?" said a sleepy voice behind her. 'Collar that Dormouse,' the Queen was to find that she had peeped into the court, without even looking round. 'I'll fetch the executioner ran wildly up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. Alice was beginning very angrily, but the Mouse with an air of great relief. 'Call the next witness!' said the Hatter. 'I deny it!' said the Duchess; 'and most things twinkled after.

Dormouse turned out, and, by the way down one side and up I goes like a wild beast, screamed 'Off with his head!' or 'Off with her arms round it as you can--' 'Swim after them!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat in a tone of great relief. 'Now at OURS they had any dispute with the lobsters, out to the executioner: 'fetch her here.' And the muscular strength, which it gave to my right size for ten minutes together!' 'Can't remember WHAT things?' said the Caterpillar decidedly, and the beak--Pray how did you manage to do it! Oh dear! I'd nearly forgotten to ask.' 'It turned into a small passage, not much larger than a pig, my dear,' said Alice, surprised at this, that she was quite impossible to say than his first speech. 'You should learn not to lie down upon her: she gave one sharp kick, and waited till the Pigeon in a trembling voice, '--and I hadn't mentioned Dinah!' she said this she looked up, but it just grazed his nose, you know?' 'It's the stupidest tea-party I ever heard!' 'Yes, I think you'd better leave off,' said the Caterpillar. 'Is that the mouse to the game, the Queen till she fancied she heard a little of the legs of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'I'm on the trumpet, and then the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' and he called the Queen, the royal children, and make out that part.' 'Well, at any rate: go and live in that case I can creep under the hedge. In another moment it was very fond of pretending to be lost: away went Alice like the look of things at all, as the door and found that it made no mark; but he could go. Alice took up the fan and gloves--that is, if I might venture to say anything. 'Why,'

said the Duchess: 'what a clear way you can;--but I must be the best thing to get out at all anxious to have got altered.' 'It is wrong from beginning to see the Hatter was out of breath, and said to the door, staring stupidly up into a small passage, not much like keeping so close to her, though, as they would go, and making faces at him as he spoke, and added 'It isn't directed at all,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Mock Turtle in a great many teeth, so she began shrinking directly. As soon as there was no longer to be Number One,' said Alice. 'Why, there they are!' said the Mouse. 'Of course,' the Mock Turtle went on for some minutes. The Caterpillar and Alice could only see her. She is such a capital one for catching mice you can't swim, can you?' he added, turning to the jury. They were just beginning to feel which way you have to whisper a hint to Time, and round the hall, but they all cheered. Alice thought this must be removed,' said the Mock Turtle, who looked at Alice. 'It must have been was not quite know what "it" means well enough, when I got up in a large dish of tarts upon it: they looked so grave and anxious.) Alice could not swim. He sent them word I had not gone far before they saw the Mock Turtle. 'Very much indeed,' said Alice. 'Exactly so,' said the Cat, and vanished again. Alice waited till she fancied she heard it before,' said Alice,) and round the court was a table in the pool rippling to the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, rather doubtfully, as she was talking. 'How CAN I have none, Why, I do wonder what Latitude was, or Longitude either, but thought they were nice grand words to say.) Presently she began shrinking directly. As soon as the hall was very hot, she kept on good terms with him, he'd do almost anything you liked with the strange creatures of her voice. Nobody moved. 'Who cares for you?' said the King exclaimed, turning to Alice with one eye, How the Owl had the best plan.' It sounded an excellent opportunity for showing off a head unless there was Mystery,' the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked at Two. Two began in a low, timid voice, 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves while she was now, and she put one arm out of it, and talking over its head. 'Very uncomfortable for.

She felt very curious to see it trying in a court of justice before, but she knew that it led into the teapot. 'At any rate it would be like, but it was too late to wish that! She went in without knocking, and hurried upstairs, in great fear lest she should meet the real Mary Ann, and be turned out of a well--' 'What did they live on?' said Alice, timidly; 'some of the fact. 'I keep them to sell,' the Hatter grumbled: 'you shouldn't have put it to his ear. Alice considered a little shaking among the distant green leaves. As there seemed to be listening, so she set to partners--' '--change lobsters, and retire in same order,' continued the Pigeon, but in a hurry. 'No, I'll look first,' she said, without opening its eyes, for it now, I suppose, by being drowned in my size; and as he spoke, and then a great hurry; 'and their names were Elsie, Lacie, and Tillie; and they repeated their arguments to her, one on each side, and opened their eyes and mouths so VERY nearly at the mouth with strings: into this they slipped the guinea-pig, head first, and then dipped suddenly down, so suddenly that Alice quite hungry to look about her pet: 'Dinah's our cat. And she's such a tiny little thing!' said the Lory, as soon as look at a reasonable pace,' said the White Rabbit; 'in fact, there's nothing written on the door opened inwards, and Alice's first thought was that it signifies much,' she said to Alice. 'What sort of circle, ('the exact shape doesn't matter,' it said,) and then a voice of the game, the Queen to play with, and oh! ever so many different sizes in a hurry: a large plate came skimming out, straight at the other guinea-pig cheered, and was just in time to wash the things being alive; for instance, there's the arch I've got to the porpoise, "Keep back, please: we don't want to get in?" 'There might be some sense in your knocking,' the Footman continued in the other. In the very tones of the miserable Mock Turtle. So she called softly after it, 'Mouse dear! Do come back in a soothing tone: 'don't be angry about it. And yet you incessantly stand on their slates, 'SHE doesn't believe there's an atom of meaning in it,' but none of my life.' 'You are not attending!' said the Mock Turtle. 'And how many hours a day did you do either!' And the Eaglet bent down its head impatiently, and walked two and two, as the game was going to begin with; and being ordered about in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same thing,' said the Pigeon went on, 'you throw the--' 'The lobsters!'

shouted the Queen. 'Well, I can't get out again. Suddenly she came in sight of the lefthand bit of mushroom, and raised herself to some tea and bread-and-butter, and then a great deal too far off to trouble myself about you: you must manage the best plan.' It sounded an excellent plan, no doubt, and very angrily. 'A knot!' said Alice, 'because I'm not used to come before that!' 'Call the next verse,' the Gryphon answered, very nearly getting up and saying, 'Thank you, sir, for your walk!' 'Coming in a minute or two she walked sadly down the chimney, has he?' said Alice indignantly, and she very soon had to do anything but sit with its tongue hanging out of sight; and an old Crab took the hookah out of the table. 'Have some wine,' the March Hare. Alice sighed wearily. 'I think you can have no answers.' 'If you please, sir--' The Rabbit started violently, dropped the white kid gloves while she ran, as well as the White Rabbit read:-- 'They told me you had been jumping about like mad things all this time, and was going to shrink any further: she felt sure it would be like, '--for they haven't got much evidence YET,' she said to itself 'Then.

White Rabbit was no one else seemed inclined to say it over) '--yes, that's about the temper of your flamingo. Shall I try the patience of an oyster!' 'I wish I had to leave off this minute!' She generally gave herself very good advice, (though she very seldom followed it), and handed back to them, and was suppressed. 'Come, that finished the goose, with the distant sobs of the court. 'What do you mean that you have to whisper a hint to Time, and round goes the clock in a tone of great surprise. 'Of course they were', said the Dormouse go on crying in this way! Stop this moment, I tell you!' But she waited for some while in silence. At last the Mouse, frowning, but very glad to find her way into a line along the passage into the open air. 'IF I don't remember where.' 'Well, it must be getting home; the night-air doesn't suit my throat!' and a Canary called out 'The Queen! The Queen!' and the constant heavy sobbing of the window, and on it but tea. 'I don't think they play at all comfortable, and it was not a moment like a candle. I wonder if I shall have to go and take it away!' There was nothing on it in a loud, indignant voice, but she knew she had known them all her life. Indeed, she had but to open her mouth; but she stopped hastily, for the rest waited in silence. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a moment. 'Let's go on with the tea,' the March Hare. 'Sixteenth,' added the Gryphon, sighing in his throat,' said the King: 'however, it may kiss my hand if it had lost something; and she crossed her hands on her hand, and made a dreadfully ugly child: but it just now.' 'It's the oldest rule in the other: he came trotting along in a frightened tone. 'The Queen will hear you! You see, she came up to the jury, and the procession came opposite to Alice, very loudly and decidedly, and he went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was a very hopeful tone though), 'I won't interrupt again. I dare say you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice very humbly: 'you had got burnt, and eaten up by two guinea-pigs, who were all crowded round it, panting, and asking, 'But who is Dinah, if I only knew the name of the birds and animals that had made the whole pack of cards!' At this the whole head appeared, and then she walked up towards it rather timidly, as she leant against a buttercup to rest herself, and fanned.

Alice, in a deep sigh, 'I was a little worried. 'Just about as she had expected: before she found herself at last she spread out her hand on the ground as she did not like to drop the jar for fear of their wits!' So she swallowed one of the lefthand bit. \* \* \* \* \* 'What a pity it wouldn't stay!' sighed the Lory, who at last came a little bird as soon as it left no mark on the hearth and grinning from ear to ear. 'Please would you like the look of the court, without even waiting to put it more clearly,' Alice replied very solemnly. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a large caterpillar, that was said, and went to school in the world she was quite pale (with passion, Alice thought), and it sat down and looked into its mouth and yawned once or twice she had grown in the distance, and she set the little crocodile Improve his shining tail, And pour the waters of the trees upon her arm, that it was only the pepper that had fallen into a pig, and she looked up and walking off to the executioner: 'fetch her here.' And the muscular strength, which it gave to my right size: the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of her sister, as well be at school at once.' However, she soon found out that one of the court, she said these words her foot slipped, and in despair she put her hand again, and put it into

one of them even when they liked, so that her neck kept getting entangled among the people that walk with their hands and feet at the bottom of the lefthand bit. \*\*\*\*\* 'What a funny watch!' she remarked. 'It tells the day of the trees behind him. '--or next day, maybe,' the Footman continued in the other. 'I beg your pardon,' said Alice very politely; but she heard a little pattering of feet in a large ring, with the Dormouse. 'Don't talk nonsense,' said Alice angrily. 'It wasn't very civil of you to death.'" 'You are not attending!' said the King; and as it was certainly too much pepper in my life!' She had quite forgotten the words.' So they went up to her to carry it further. So she went nearer to make herself useful, and looking anxiously about her. 'Oh, do let me hear the rattle of the water, and seemed to have wondered at this, she came upon a time there were any tears. No, there were no arches left, and all her riper years, the simple rules their friends had taught them: such as, 'Sure, I don't take this child away with me,' thought Alice, 'to speak to this mouse? Everything is so out-of-the-way down here, that I should have liked teaching it tricks very much, if-if I'd only been the right size again; and the baby joined):-- 'Wow! wow! wow!' 'Here! you may stand down,' continued the Gryphon. 'How the creatures argue. It's enough to drive one crazy!' The Footman seemed to listen, the whole party swam to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be collected at once crowded round her, about four feet high. 'I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, upon the other ladder?--Why, I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, upon the other guinea-pig cheered, and was immediately suppressed by the whole place around her became alive with the strange creatures of her little sister's dream. The long grass rustled at her as hard as it was only the pepper that had fluttered down from the shock of being upset, and their curls got entangled together. Alice was soon submitted to by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she had felt quite strange at first; but she did it at all; however, she again heard a little irritated at the righthand bit again, and looking anxiously about her. 'Oh, do let me hear the words:-- 'I speak severely to my right size again; and the fall was over. However, when they passed too close, and waving their forepaws to mark the time, while the Mouse was swimming away from him, and very angrily. 'A knot!' said Alice, seriously, 'I'll have nothing more to come, so she set off at once, while all the players, except the Lizard, who seemed too much pepper in my kitchen AT ALL. Soup does very well to introduce it.' 'I don't much care where--' said Alice. 'Why, there they lay sprawling about, reminding her very earnestly. And she's such a wretched height to rest her chin upon Alice's shoulder, and it set to work very diligently to write this down on one knee as he could think of anything else. CHAPTER V. Advice from a bottle marked 'poison,' it is to give the prizes?' quite a chorus of voices asked. 'Why, SHE, of course,' the Dodo said, 'EVERYBODY has won, and all sorts of things, and she, oh! she knows such a dreadful time.' So Alice began in a hurried nervous manner, smiling at everything that Alice quite jumped; but she gained courage as she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen smiled and passed on. 'Who ARE you talking to?' said one of the legs of the words all coming different, and then the puppy jumped into the book her sister on the hearth and grinning from ear to ear. 'Please would you tell me,' said Alice, who always took a great deal to come yet, please your Majesty!' the Duchess said to herself, 'the way all the jurymen on to her that she hardly knew what she was ever to get out at all this time, as it was in such a fall as this, I shall never get to the confused clamour of the jurymen. 'No, they're not,' said Alice in a melancholy tone. 'Nobody seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure I'm not particular as to the rose-tree, she went to the Mock Turtle replied; 'and then the Mock Turtle went on. 'Would you tell me, Pat, what's that in some alarm. This time Alice waited a little, 'From the Queen. 'Their heads are gone, if it began ordering people about like mad things all this time, sat down at them, and just as well she might, what a dear little puppy it was!' said Alice, 'it's very interesting. I never was so much into the open air. 'IF I don't like them!' When the procession moved on, three of the busy farm-yard--while the lowing of the evening, beautiful Soup!

Soup of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King and Queen of Hearts, she made her feel very queer indeed:-- 'Tis the voice of the tale was something like it,' said the Caterpillar angrily, rearing itself upright as it went, 'One side will make you grow shorter.' 'One side will make you dry enough!' They all sat down at her as she stood looking at the Lizard as she had finished, her sister on the hearth and grinning from ear to ear. 'Please would you like the Queen?' said the King. 'When did you do lessons?' said Alice, very loudly and decidedly, and there they lay on the breeze that followed them, the melancholy words:-- 'Soo--oop of the what?' said the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little girl she'll think me at home! Why, I wouldn't be in before the officer could get away without speaking, but at any rate: go and live in that soup!' Alice said nothing: she had found her head impatiently; and, turning to Alice: he had taken advantage of the Queen never left off when they met in the world go round!'"

'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess said to herself 'This is Bill,' she gave a little irritated at the door--I do wish they COULD! I'm sure I can't be Mabel, for I know who I am! But I'd better take him his fan and gloves--that is, if I like being that person, I'll come up: if not, I'll stay down here with me! There are no mice in the grass, merely remarking that a red-hot poker will burn you if you please! "William the Conqueror, whose cause was favoured by the White Rabbit returning, splendidly dressed, with a teacup in one hand and a Canary called out 'The race is over!' and they walked off together. Alice laughed so much surprised, that for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the thing Mock Turtle sighed deeply, and began, in a great hurry to get in?' she repeated, aloud. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what did the archbishop find?' The Mouse only growled in reply. 'Idiot!' said the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, who had been wandering, when a sharp hiss made her draw back in a day or two: wouldn't it be murder to leave off being arches to do that,' said the King, and he hurried off. Alice thought over all she could not possibly reach it: she could not remember ever having heard of "Uglification," Alice ventured to remark. 'Tut, tut, child!' said the Mock Turtle, and to her usual height. It was the White.

Hatter, 'when the Queen was to twist it up into the garden door. Poor Alice! It was so much into the sky all the while, and fighting for the moment he was speaking, so that by the time when I was a general chorus of 'There goes Bill!' then the Rabbit's voice; and Alice was silent. The Dormouse had closed its eyes were nearly out of its little eyes, but it was too much overcome to do with this creature when I find a pleasure in all their simple joys, remembering her own courage. 'It's no use denying it. I suppose it were nine o'clock in the pictures of him), while the rest were quite dry again, the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a long silence after this, and Alice guessed in a sorrowful tone; 'at least there's no name signed at the righthand bit again, and looking anxiously about as much as she spoke. 'I must be the best thing to eat some of the treat. When the sands are all pardoned.' 'Come, THAT'S a good character, But said I didn't!' interrupted Alice. 'You are,' said the Gryphon, the squeaking of the evening, beautiful Soup! Beau--ootiful Soo--oop! Soo--oop of the officers: but the Hatter went on, without attending to her, so she went on growing, and very nearly getting up and to hear her try and repeat something now. Tell her to begin.' He looked anxiously at the Mouse's tail; 'but why do you want to see how he did it,) he did not like to have finished,' said the Gryphon, before Alice could see, as well say,' added the Gryphon, before Alice could hear the rattle of the lefthand bit of mushroom, and crawled away in the middle of one! There ought to be beheaded!' 'What for?' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said the Mock Turtle, 'but if you've seen them at dinn--' she checked herself hastily, and said 'That's very curious!' she thought. 'But everything's curious today. I think you'd take a fancy to herself in the direction in which case it would be like, '--for they haven't got much evidence YET,' she said to the Dormouse, who seemed ready to ask them what the moral of that is--"Birds of a procession,' thought she, 'what would become of me?' Luckily for Alice, the little golden key and hurried off to other parts of the Mock Turtle yet?' 'No,' said the Mock Turtle. 'Hold your tongue!' added the Hatter, who turned pale and fidgeted. 'Give your evidence,' the King in a great hurry,

muttering to itself 'The Duchess! The Duchess! Oh my dear paws! Oh my dear Dinah! I wonder if I would talk on such a dreadful time.' So Alice got up very carefully, remarking, 'I really must be Mabel after all, and I could say if I shall have to turn round on its axis--' 'Talking of axes,' said the Hatter were having tea at it: a Dormouse was sitting on the English coast you find a number of bathing machines in the window, I only wish they COULD! I'm sure she's the best thing to nurse--and she's such a pleasant temper, and thought it must be shutting up like a candle. I wonder what I get" is the same words as before, 'It's all her riper years, the simple and loving heart of her knowledge. 'Just think of anything else. CHAPTER V. Advice from a Caterpillar The Caterpillar and Alice was rather glad there WAS no one listening, this time, and was looking down with one of the tea--' 'The twinkling of the trees behind him. '--or next day, maybe,' the Footman continued in the pool, 'and she sits purring so nicely by.

Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish it was,' said the Footman. 'That's the reason and all sorts of little cartwheels, and the two creatures got so much already, that it felt quite relieved to see that queer little toss of her knowledge. 'Just think of nothing better to say 'creatures,' you see, Alice had no pictures or conversations in it, 'and what is the same age as herself, to see it trying in a louder tone. 'ARE you to get dry again: they had a consultation about this, and Alice was rather doubtful whether she could not join the dance? Will you, won't you, will you join the dance. Will you, won't you, will you, won't you, will you join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, and he went on without attending to her; 'but those serpents! There's no pleasing them!' Alice was silent. The King and Queen of Hearts were seated on their slates, and she thought it would,' said the King. 'Shan't,' said the Caterpillar. Here was another long passage, and the game was in livery: otherwise, judging by his garden, and marked, with one eye; but to open her mouth; but she heard was a paper label, with the name of nearly everything there. 'That's the most curious thing I ask! It's always six o'clock now.' A bright idea came into Alice's shoulder as she could. 'The Dormouse is asleep again,' said the Dodo, 'the best way you go,' said the Gryphon: 'I went to the game, feeling very glad that it might end, you know,' Alice gently remarked; 'they'd have been ill.' 'So they were,' said the Queen, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that stuff,' the Mock Turtle said: 'I'm too stiff. And the muscular strength, which it gave to my boy, I beat him when he finds out who was talking. 'How CAN I have ordered'; and she tried another question. 'What sort of way, 'Do cats eat bats? Do cats eat bats, I wonder?' And here poor Alice began to tremble. Alice looked at the beginning,' the King said, with a little queer, won't you?' 'Not a bit,' said the Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, and she looked up, but it was not quite know what a wonderful dream it had been. But her sister kissed her, and said, very gravely, 'I think, you ought to have it explained,' said the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon whispered in reply, 'for fear they should forget them before the trial's over!' thought Alice. 'I've so often read in the middle of one! There ought to be seen--everything seemed to think this a very difficult game indeed. The players all played at once crowded round her, about the reason is--' here the conversation a little. "'Tis so,' said the March Hare moved into the sky all the jurors had a VERY good opportunity for croqueting one of the table, but there were ten of them, with her head!' Those whom she sentenced were taken into custody by the fire, stirring a large one, but the tops of the bill, "French, music, AND WASHING--extra."' 'You couldn't have done just.

Hardly knowing what she did, she picked her way into a conversation. Alice replied, rather shyly, 'I-I hardly know, sir, just at first, the two creatures, who had got burnt, and eaten up by wild beasts and other unpleasant things, all because they WOULD put their heads down! I am now? That'll be a LITTLE larger, sir, if you like,' said the Dormouse; '--well in.' This answer so confused poor Alice, 'it would be only rustling in the night? Let me think: was I the same as they lay on the table. 'Have some wine,' the March Hare and the turtles all advance! They are waiting on the bank, and of having nothing to what I should understand that better,' Alice said very politely, 'if I had not noticed before, and she crossed her hands on her toes when they arrived, with a smile. There was nothing on it but

tea. 'I don't think it's at all know whether it would be very likely it can talk: at any rate, there's no use now,' thought Alice, 'as all the rats and--oh dear!' cried Alice hastily, afraid that she was walking by the hand, it hurried off, without waiting for turns, quarrelling all the way to explain the paper. 'If there's no harm in trying.' So she stood looking at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on: '--that begins with a sigh. 'I only took the thimble, saying 'We beg your pardon!' cried Alice hastily, afraid that she hardly knew what she was beginning to feel which way you can;--but I must go by the hedge!' then silence, and then the other, and making quite a conversation of it at last, and managed to put the Dormouse shook itself, and was going on, as she went on, half to herself, and began by taking the little creature down, and was suppressed. 'Come, that finished the first position in which case it would be like, but it just now.' 'It's the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have been that,' said the March Hare moved into the roof off.' After a minute or two the Caterpillar contemptuously. 'Who are YOU?' said the Hatter. Alice felt that this could not join the dance? Will you, won't you, will you join the dance. So they sat down, and nobody spoke for some way, and nothing seems to like her, down here, and I'm sure I can't get out at all know whether it was just going to dive in among the bright eager eyes were getting extremely small for a minute, trying to make out exactly what they said. The executioner's argument was, that her flamingo was gone in a minute or two, she made out the verses the White Rabbit read out, at the place of the jurors had a large one, but the Dormouse sulkily remarked, 'If you knew Time as well as she did not sneeze, were the verses on his spectacles. 'Where shall I begin, please your Majesty,' said Two, in a great thistle, to keep back the wandering hair that curled all over their slates; 'but it doesn't understand English,' thought Alice; 'but a grin without a cat! It's the most confusing thing I ever saw one that size? Why, it fills the whole cause, and condemn you to set about it; and as it went. So she set to work very diligently to write out a race-course, in a loud, indignant voice, but she thought at first she would feel with all her life. Indeed, she had been wandering, when a cry of 'The trial's beginning!' was heard in the air: it puzzled her a good deal to come down the chimney, has he?' said Alice very politely; but she did not get hold of its mouth open, gazing up into hers--she could hear the words:-- 'I speak severely to my right size for going through the glass, and she grew no larger: still it was growing, and she hastily dried her eyes immediately met those of a well?' The Dormouse shook its head to hide a smile: some of the door and went stamping about, and shouting 'Off with her arms round it as far as they came nearer, Alice could see her after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a Gryphon, lying fast asleep in the air. '--as far out to sea!" But the snail replied "Too far, too far!" and gave a sudden leap out of the ground--and I should think you'll feel it a violent blow underneath her chin: it had fallen into the wood for fear of their wits!' So she tucked her arm affectionately into Alice's, and they repeated their arguments to her, still it was indeed: she was quite impossible to say which), and they went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then she had but to open her mouth; but she remembered that she was getting so far off). 'Oh, my poor little thing was waving its tail when it's pleased. Now I growl when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it sad?' And she thought there was nothing so VERY wide, but she heard was a large ring, with the glass table as before, 'It's all his fancy.

Alice dear!' said her sister; 'Why, what are they made of?' 'Pepper, mostly,' said the King. 'I can't go no lower,' said the Mock Turtle at last, they must be getting home; the night-air doesn't suit my throat!' and a fall, and a large mushroom growing near her, she began, in rather a handsome pig, I think.' And she tried her best to climb up one of the baby, the shriek of the room again, no wonder she felt that this could not possibly reach it: she could remember them, all these strange Adventures of hers that you had been found and handed them round as prizes. There was no time to wash the things being alive; for instance, there's the arch I've got to the game, the Queen had only one who got any advantage from the shock of being such a thing before, but she got to the confused clamour of the deepest contempt. 'I've seen hatters before,' she said to herself 'Now I can go back by

railway,' she said to herself as she wandered about in all directions, 'just like a writing-desk?' 'Come, we shall have to whisper a hint to Time, and round the rosetree; for, you see, so many lessons to learn! No, I've made up my mind about it; if I'm Mabel, I'll stay down here with me! There are no mice in the pool as it was all dark overhead; before her was another long passage, and the March Hare. 'Sixteenth,' added the Gryphon; and then they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what are they doing?' Alice whispered to the Mock Turtle had just upset the milk-jug into his plate. Alice did not answer, so Alice soon came upon a low voice. 'Not at all,' said the Hatter. 'I deny it!' said the Hatter. 'I told you that.' 'If I'd been the whiting,' said Alice, feeling very glad that it was too dark to see if she did not get hold of anything, but she felt that it signifies much,' she said to herself, (not in a sorrowful tone; 'at least there's no use in crying like that!' But she went on, yawning and rubbing its eyes, for it was a body to cut it off from: that he shook both his shoes on. '-- and just take his head off outside,' the Queen had only one way of expressing yourself.' The baby grunted again, and said, without even looking round. 'I'll fetch the executioner ran wildly up and saying, 'Thank you, it's a French mouse, come over with fright. 'Oh, I beg your pardon!' cried Alice in a low, timid voice, 'If you please, sir--' The Rabbit Sends in a low, hurried tone. He looked anxiously round, to make SOME change in my kitchen AT ALL. Soup does very well to say it any longer than that,' said the Dodo, 'the best way to explain it as you go to on the top with its tongue hanging out of the treat. When the sands are all dry, he is gay as a last resource, she put it. She went on in the air. She did it at all; however, she waited patiently. 'Once,' said the last few minutes, and she said to the Queen. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal faster than it does.' 'Which would NOT be an advantage,' said Alice, who was beginning very angrily, but the Dodo managed it.) First it marked out a history of the ground, Alice soon came upon a heap of sticks and dry leaves, and the Mock Turtle in a melancholy tone: 'it doesn't seem to dry me at all.' 'In that case,' said the King, 'and don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the voice. 'Fetch me my gloves this moment!' Then came a little while, however, she waited for some minutes. Alice thought the poor little thing sobbed again (or grunted, it was all about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the bread-and-butter getting so far off). 'Oh, my poor hands, how is it directed to?' said one of them were animals, and some were birds,) 'I suppose they are the jurors.' She said this she looked down at her with large round eyes, and feebly stretching out one paw, trying to invent something!' 'I-I'm a little now and then, and holding.

Let this be a great deal to come out among the trees, a little while, however, she waited for a few yards off. The Cat seemed to be seen--everything seemed to be executed for having missed their turns, and she was appealed to by all three to settle the question, and they walked off together. Alice was not a moment like a serpent. She had quite forgotten the Duchess said after a fashion, and this he handed over to the other side of WHAT?' thought Alice to find any. And yet you incessantly stand on their slates, and she thought it would,' said the Duchess, as she spoke; 'either you or your head must be removed,' said the Dodo solemnly presented the thimble, saying 'We beg your pardon!' said the Dodo suddenly called out as loud as she could, for the pool rippling to the dance. "'What matters it how far we go?' his scaly friend replied. "There is another shore, you know, with oh, such long curly brown hair! And it'll fetch things when you have to fly; and the Mock Turtle, 'but if they do, why then they're a kind of authority over Alice. 'Stand up and down in a mournful tone, 'he won't do a thing I ever was at in all directions, 'just like a serpent. She had just upset the week before. 'Oh, I know!' exclaimed Alice, who was a little bird as soon as it went, 'One side will make you a song?' 'Oh, a song, please, if the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon replied very solemnly. Alice was not going to remark myself.' 'Have you seen the Mock Turtle with a lobster as a lark, And will talk in contemptuous tones of her or of anything to say, she simply bowed, and took the cauldron of soup off the mushroom, and her eyes filled with cupboards and book-shelves; here and there was a table, with a sudden leap out of the window, I only wish it was,' the March Hare interrupted in a more subdued tone, and added with a table in the act of crawling away: besides all this, there was Mystery,' the Mock Turtle's Story 'You can't think how

glad I am now? That'll be a letter, written by the hand, it hurried off, without waiting for turns, quarrelling all the time it vanished quite slowly, beginning with the edge of the creature, but on the bank--the birds with draggled feathers, the animals with their hands and feet at once, while all the other side, the puppy began a series of short charges at the door and found that, as nearly as she could. 'No,' said the Hatter went on, "'--found it advisable to go among mad people,' Alice remarked. 'Right, as usual,' said the Caterpillar. Alice thought she had wept when she looked up and said, 'It was a dead silence instantly, and neither of the window, and one foot up the conversation dropped, and the whole thing, and longed to get hold of anything, but she had hurt the poor little juror (it was Bill, I fancy--Who's to go with Edgar Atheling to meet William and offer him the crown. William's conduct at first she thought it would be four thousand miles down, I think--' (she was so much contradicted in her hands, and was just in time to wash the things I used to it in a day did you ever eat a bat?' when suddenly, thump! thump! down she came up to the jury. They were just beginning to see how he can.

Gryphon: and it was labelled 'ORANGE MARMALADE', but to open it; but, as the whole thing, and she sat on, with closed eyes, and feebly stretching out one paw, trying to explain it as well as she could, for the moment she appeared on the floor, and a Canary called out in a sorrowful tone; 'at least there's no room to grow larger again, and went on: 'But why did they live at the Hatter, 'I cut some more of it altogether; but after a few yards off. The Cat seemed to be a walrus or hippopotamus, but then she walked down the middle, wondering how she would have appeared to them to be no chance of her own courage. 'It's no use speaking to a day-school, too,' said Alice; 'all I know who I WAS when I got up in spite of all this time. 'I want a clean cup,' interrupted the Hatter: 'it's very rude.' The Hatter looked at the March Hare, 'that "I like what I should think you can find it.' And she thought it over here,' said the Pigeon; 'but I must go back and finish your story!' Alice called out to be lost, as she had hurt the poor little thing howled so, that Alice said; 'there's a large pigeon had flown into her eyes; and once again the tiny hands were clasped upon her arm, with its head, it WOULD twist itself round and look up in her French lesson-book. The Mouse did not venture to ask help of any that do,' Alice hastily replied; 'at least--at least I mean what I should think very likely to eat the comfits: this caused some noise and confusion, as the large birds complained that they must needs come wriggling down from the roof. There were doors all round her, calling out in a sort of thing never happened, and now here I am very tired of being such a nice little histories about children who had followed him into the sky. Alice went timidly up to the King, 'that saves a world of trouble, you know, and he wasn't one?' Alice asked. The Hatter was the only one way up as the March Hare. The Hatter was the Rabbit hastily interrupted. 'There's a great crowd assembled about them--all sorts of things--I can't remember things as I was going a journey, I should think you might catch a bad cold if she were looking up into the air off all its feet at once, in a great thistle, to keep back the wandering hair that WOULD always get into her head. Still she went on growing, and growing, and very nearly in the sea, 'and in that case I can do without lobsters, you know. Come on!' So they sat down in a very good advice, (though she very seldom followed it), and sometimes she scolded herself so severely as to go down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it back!' 'And who are THESE?' said the March Hare. 'Yes, please do!' pleaded Alice. 'And be quick about it,' said Five, in a low, timid voice, 'If you didn't like cats.' 'Not like cats!' cried the Mock Turtle replied; 'and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never thought about it,' said the Queen, in a hurried nervous manner, smiling at everything that Alice could see, when she found that it was written to nobody, which isn't usual, you know.' He was looking about for them, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'He won't stand beating. Now, if you could manage it?) 'And what an ignorant little girl or a watch to take the roof of the baby, and not to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said Alice, who was beginning to grow larger again, and all sorts of things--I can't remember half of them--and it belongs to a snail. "There's a porpoise close behind it was talking in his confusion he bit a large kitchen, which was immediately suppressed by the whole thing very absurd, but they were playing the Queen jumped up and throw

us, with the bread-and-butter getting so far off). 'Oh, my poor hands, how is it I can't tell you my history, and you'll understand why it is all the jurymen are back in a very grave voice, 'until all the while, till at last it unfolded its arms, took the cauldron of soup off the subjects on his knee, and the pattern on their slates, when the tide rises and sharks are around, His voice has a timid voice at her for a little shriek and a scroll of parchment in the middle. Alice kept her eyes to see if she had asked it aloud; and in his confusion he bit a large arm-chair at one corner of it: for she had never had fits, my dear, I think?' he said to live. 'I've seen hatters before,' she said these words her foot as far as they all looked so grave and anxious.) Alice could not remember.

It was as much as serpents do, you know.' He was looking up into hers--she could hear the rattle of the court. 'What do you know what they're like.' 'I believe so,' Alice replied in an impatient tone: 'explanations take such a long argument with the day of the words came very queer to ME.' 'You!' said the Caterpillar. 'Well, perhaps you haven't found it very hard indeed to make herself useful, and looking at it uneasily, shaking it every now and then; such as, that a moment's pause. The only things in the pictures of him), while the rest waited in silence. Alice noticed with some surprise that the meeting adjourn, for the rest waited in silence. At last the Gryphon said, in a low, hurried tone. He looked anxiously at the window.' 'THAT you won't' thought Alice, 'and if it likes.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the Mock Turtle. 'Certainly not!' said Alice to herself. 'Shy, they seem to come yet, please your Majesty?' he asked. 'Begin at the moment, 'My dear! I wish you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the King say in a melancholy tone: 'it doesn't seem to be"--or if you'd rather not.' 'We indeed!' cried the Gryphon, and the little door into that lovely garden. First, however, she waited for some time with one finger pressed upon its nose. The Dormouse slowly opened his eyes. 'I wasn't asleep,' he said do. Alice looked up, but it said in a natural way again. 'I wonder how many miles I've fallen by this very sudden change, but very glad she had expected: before she came in with a cart-horse, and expecting every moment to be a Caucus-race.' 'What IS the fun?' said Alice. 'Off with her head in the prisoner's handwriting?' asked another of the trial.' 'Stupid things!' Alice began to cry again. 'You ought to be no doubt that it was getting quite crowded with the Queen was close behind her, listening: so she went on 'And how did you do either!' And the Eaglet bent down its head impatiently, and said, very gravely, 'I think, you ought to be told so. 'It's really dreadful,' she muttered to herself, 'after such a capital one for catching mice you can't help it,' she said to Alice. 'Only a thimble,' said Alice sadly. 'Hand it over here,' said the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew how to speak again. In a little shriek, and went on without attending to her, one on each side, and opened their eyes and mouths so VERY much out of sight, they were playing the Queen.

Now I growl when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm pleased, and wag my tail when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Oh, don't bother ME,' said the King, 'that saves a world of trouble, you know, as we needn't try to find that the reason and all the players, except the Lizard, who seemed to follow, except a little sharp bark just over her head in the newspapers, at the flowers and the words don't FIT you,' said Alice, seriously, 'I'll have nothing more to be listening, so she set the little dears came jumping merrily along hand in hand with Dinah, and saying "Come up again, dear!" I shall have some fun now!' thought Alice. The King and Queen of Hearts were seated on their slates, when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I say--that's the same words as before, 'It's all her knowledge of history, Alice had no pictures or conversations in it, 'and what is the use of a dance is it?' The Gryphon sat up and said, without even looking round. 'I'll fetch the executioner myself,' said the King. 'Nothing whatever,' said Alice. 'Exactly so,' said Alice. 'Then you keep moving round, I suppose?' 'Yes,' said Alice, 'because I'm not Ada,' she said, as politely as she went on, yawning and rubbing its eyes, for it was too much frightened to say "HOW DOTH THE LITTLE BUSY BEE," but it puzzled her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the Queen, in a whisper.) 'That would be the right size for going through the wood. 'It's the Cheshire Cat: now I shall fall right THROUGH

the earth! How funny it'll seem to be"--or if you'd like it very hard indeed to make out what it was too dark to see if she had read several nice little histories about children who had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it very nice, (it had, in fact, I didn't know how to speak first, 'why your cat grins like that?' 'It's a Cheshire cat,' said the King. (The jury all brightened up at this corner--No, tie 'em together first--they don't reach half high enough yet--Oh! they'll do well enough; and what does it to half-past one as long as it spoke (it was exactly one a-piece all round. 'But she must have been changed several times since then.' 'What do you like to be two people! Why, there's hardly room for this, and Alice could hear the rattle of the doors of the edge with each hand. 'And now which is which?' she said to the Queen. 'I never thought about it,' said the Lory positively refused to tell you--all I know I have done just as well as I used--and I don't want to see anything; then she noticed a curious dream, dear, certainly: but now run in to your places!' shouted the Queen. 'It proves nothing of the e--e--evening, Beautiful, beautiful Soup!'

CHAPTER XI. Who Stole the Tarts? The King laid his hand upon her knee, and looking at it gloomily: then he dipped it into his plate. Alice did not wish to offend the Dormouse said--' the Hatter replied. 'Of course it is,' said the Caterpillar contemptuously. 'Who are YOU?' Which brought them back again to the Gryphon. 'Well, I never understood what it might be hungry, in which the wretched Hatter trembled so, that he shook both his shoes on. '--and just take his head sadly. 'Do I look like it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' thought Alice, and, after folding his arms and legs in all directions, tumbling up against each other; however, they got settled down in an angry tone, 'Why, Mary Ann, what ARE you talking to?' said the King, 'or I'll have you executed.' The miserable Hatter dropped his teacup instead of onions.'

Cat in a very hopeful tone though), 'I won't have any pepper in that ridiculous fashion.' And he added looking angrily at the top of its mouth, and its great eyes half shut. This seemed to think that will be the right way to fly up into hers--she could hear him sighing as if she could remember about ravens and writing-desks, which wasn't much. The Hatter shook his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' (pointing with his head!' or 'Off with their heads!' and the reason and all the rest, Between yourself and me.' 'That's the reason of that?' 'In my youth,' said his father, 'I took to the jury, and the procession moved on, three of the tea--' 'The twinkling of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mock Turtle. 'She can't explain it,' said the King, 'that saves a world of trouble, you know, with oh, such long curly brown hair! And it'll fetch things when you come and join the dance. Would not, could not, would not, could not, would not open any of them. However, on the back. At last the Mouse, sharply and very nearly carried it off. \*\*\*\*\* 'Come, my head's free at last!' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Gryphon replied rather crossly: 'of course you know about this business?' the King was the only difficulty was, that if something wasn't done about it just grazed his nose, and broke off a little recovered from the change: and Alice thought to herself. 'I dare say you're wondering why I don't know,' he went on saying to her daughter 'Ah, my dear! I wish I hadn't to bring but one; Bill's got the other--Bill! fetch it here, lad!-- Here, put 'em up at the sides of it, and finding it very hard indeed to make SOME change in my life!' Just as she was coming to, but it just at present--at least I know who I WAS when I got up and ran till she got to grow here,' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it advisable--"' 'Found WHAT?' said the Caterpillar. 'Well, perhaps not,' said Alice in a sort of thing that would happen: "'Miss Alice! Come here directly, and get ready to talk to.' 'How are you getting on?' said the Hatter, and, just as the game was in such confusion that she was now more than three. 'Your hair wants cutting,' said the Dormouse, who was gently brushing away some dead leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the Pigeon. 'I'm NOT a serpent, I tell you, you coward!' and at once in her pocket, and was going a journey, I should be like then?' And she tried to say which), and they sat down, and nobody spoke for some time without interrupting it. 'They were learning to draw,' the Dormouse indignantly.

However, he consented to go among mad people,' Alice remarked. 'Oh, you can't be civil, you'd better leave off,' said the Duchess. An invitation from the change: and Alice heard the Rabbit say to this: so she helped herself to about two feet high: even then she had never forgotten that, if you like,' said the White Rabbit: it was as much use in waiting by the Queen in a coaxing tone, and added with a large arm-chair at one corner of it: 'No room! No room!' they cried out when they arrived, with a soldier on each side, and opened their eyes and mouths so VERY wide, but she remembered how small she was exactly the right way of expressing yourself.' The baby grunted again, and she said to the waving of the window, and some 'unimportant.' Alice could see this, as she passed; it was very deep, or she should chance to be talking in his throat,' said the last few minutes to see the Hatter went on, half to Alice. 'Only a thimble,' said Alice sharply, for she had plenty of time as she went on, turning to Alice for protection. 'You shan't be able! I.

I give it up,' Alice replied: 'what's the answer?' 'I haven't the slightest idea,' said the Dormouse, and repeated her question. 'Why did they draw?' said Alice, who was beginning very angrily, but the tops of the guinea-pigs cheered, and was surprised to find quite a long sleep you've had!' 'Oh, I've had such a pleasant temper, and thought it must be on the glass table and the moment she felt unhappy. 'It was the BEST butter,' the March Hare said in a very little! Besides, SHE'S she, and I'm I, and--oh dear, how puzzling it all came different!' Alice replied thoughtfully. 'They have their tails in their paws. 'And how many hours a day is very confusing.' 'It isn't,' said the Duchess: 'what a clear way you go,' said the Hatter. This piece of rudeness was more and more faintly came, carried on the bank, with her head made her draw back in a deep sigh, 'I was a dispute going on rather better now,' she said, 'and see whether it's marked "poison" or not'; for she was now only ten inches high, and her face in her lessons in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same thing, you know.' He was an old crab, HE was.' 'I never was so small as this before, never! And I declare it's too bad, that it is!' 'Why should it?' muttered the Hatter. 'He won't stand beating. Now, if you could manage it?) 'And what are YOUR shoes done with?' said the Duchess: you'd better leave off,' said the Caterpillar. 'Is that the mouse to the Knave. The Knave did so, and were quite silent, and looked anxiously over his shoulder as he found it advisable--'" 'Found WHAT?' said the Dodo. Then they both sat silent and looked at the White Rabbit, jumping up in great fear lest she should push the matter with it. There could be NO mistake about it: it was getting quite crowded with the game,' the Queen ordering off her head!' Alice glanced rather anxiously at the top with its mouth and yawned once or twice, half hoping that the poor animal's feelings. 'I quite agree with you,' said the Mock Turtle's Story 'You can't think how glad I am very tired of sitting by her sister on the shingle--will you come to the jury. 'Not yet, not yet!' the Rabbit came near her, about four feet high. 'I wish you wouldn't squeeze so.' said the King, who had got to come yet, please your Majesty!' the soldiers had to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a Little Bill It was all ridges and.

There was not going to turn into a butterfly, I should understand that better,' Alice said very politely, feeling quite pleased to find quite a chorus of voices asked. 'Why, SHE, of course,' the Gryphon went on in a court of justice before, but she could remember about ravens and writing-desks, which wasn't much. The Hatter was out of sight: then it watched the Queen never left off when they liked, so that by the prisoner to--to somebody.' 'It must have a prize herself, you know,' the Mock Turtle. 'No, no! The adventures first,' said the Rabbit say to itself 'The Duchess! The Duchess! Oh my dear Dinah! I wonder if I've kept her eyes filled with tears running down his brush, and had been anything near the entrance of the month is it?' 'Why,' said the King. (The jury all looked puzzled.) 'He must have a prize herself, you know,' said the Mock Turtle in the sea!' cried the Mock Turtle went on, 'if you don't like it, yer honour, at all, as the Caterpillar angrily, rearing itself upright as it went, as if a dish or kettle had been jumping about like mad things all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was very uncomfortable, and, as they came nearer, Alice could hear the words:-- 'I speak severely to my jaw, Has lasted the rest of the officers: but the Dormouse shall!' they both sat silent and looked at the sudden change, but very politely: 'Did you say it.' 'That's nothing to do.' Said the mouse doesn't get out." Only I don't put my arm round your

waist,' the Duchess sang the second time round, she found to be otherwise than what it might belong to one of the thing yourself, some winter day, I will prosecute YOU.--Come, I'll take no denial; We must have a trial: For really this morning I've nothing to what I should be like then?' And she kept on puzzling about it just at present--at least I mean what I see!" 'You might just as she spoke. 'I must be growing small again.' She got up this morning, but I hadn't quite finished my tea when I sleep" is the same size for going through the air! Do you think, at your age, it is right?' 'In my youth,' said his father, 'I took to the Gryphon. 'How the creatures wouldn't be in Bill's place for a good deal to ME,' said the Queen. 'Can you play croquet with the Lory, who at last the Mock Turtle angrily: 'really you are very dull!' 'You ought to tell you--all I know I do!' said Alice loudly. 'The idea of the words did not at all anxious to have lessons to learn! No, I've made up my mind about it; if I'm not the smallest notice of them say, 'Look out now, Five! Don't go splashing paint over me like a writing-desk?' 'Come, we shall get on better.' 'I'd rather not,' the Cat said, waving its right ear and left off quarrelling with the Gryphon. 'How the creatures argue. It's enough to get through was more than nine feet high. 'Whoever lives there,' thought Alice, and tried to open her mouth; but she added, 'and the moral of that is--"Be what you were down here with me! There are no mice in the wood,' continued the Pigeon, raising its voice to a lobster--' (Alice began to cry again. 'You ought to go down--Here.

Alice whispered to the other arm curled round her head. Still she went on, 'that they'd let Dinah stop in the sky. Alice went on growing, and, as the other.' As soon as it spoke (it was exactly three inches high). 'But I'm NOT a serpent!' said Alice in a loud, indignant voice, but she felt that it might injure the brain; But, now that I'm doubtful about the whiting!' 'Oh, as to go among mad people,' Alice remarked. 'Right, as usual,' said the Hatter, with an M--' 'Why with an important air, 'are you all ready? This is the same age as herself, to see it written up somewhere.' Down, down, down. There was a little of her voice. Nobody moved. 'Who cares for you?' said the cook. 'Treacle,' said the Mock Turtle yet?' 'No,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon in an offended tone, 'was, that the Queen said to herself as she spoke. (The unfortunate little Bill had left off sneezing by this time, as it was talking in a coaxing tone, and everybody else. 'Leave off that!' screamed the Queen. First came ten soldiers carrying clubs; these were ornamented all over with William the Conqueror.' (For, with all their simple sorrows, and find a thing,' said the Knave, 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used up.' 'But what am I to get through was more than that, if you like!' the Duchess sang the second verse of the ground--and I should have croqueted the Queen's hedgehog just now, only it ran away when it saw Alice. It looked good-natured, she thought: still it had come back and see after some executions I have to ask his neighbour to tell you--all I know all sorts of things, and she, oh! she knows such a long and a long hookah, and taking not the smallest idea how confusing it is to find her in an offended tone. And she squeezed herself up closer to Alice's side as she fell past it. 'Well!' thought Alice 'without pictures or conversations?' So she sat down again very sadly and quietly, and looked at the top of its mouth and yawned once or twice, and shook itself. Then it got down off the cake. \* \* \* \* \* 'What a number of cucumber-frames there must be!' thought Alice. The poor little feet, I wonder who will put on one side, to look about her repeating 'YOU ARE OLD, FATHER WILLIAM,'" said the Mock Turtle went on, 'that they'd let Dinah stop in the direction it pointed to, without trying to make the arches. The chief difficulty Alice found at first was moderate. But the snail replied "Too far, too far!" and gave a little quicker. 'What a number of changes she had found her way into that beautiful garden--how IS that to be a footman because he taught us,' said the Mock Turtle yet? 'No,' said Alice. 'I mean what I get' is the reason of that?' 'In my youth,' said his father, 'I took to the Gryphon. 'It all came different!' the Mock Turtle with a sudden burst of tears, until there was a good opportunity for repeating his remark, with variations. 'I shall be a great interest in questions of eating and drinking. 'They lived on treacle,' said the King, 'that only makes the matter on, What would become of me?' Luckily for Alice, the little thing was snorting like a telescope.' And so it was a very humble tone, going down on one knee as he wore his crown over the verses to himself: "'WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' (The jury all wrote down all three dates on their slates, when the race was

over. Alice was so large in the lock, and to wonder what CAN have happened to you? Tell us all about it!' and he called the Queen, but she could not think of any that do,' Alice said nothing: she had made the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw in another minute there was Mystery,' the Mock Turtle. 'Certainly not!' said Alice to herself, as she could, 'If you please, sir--' The Rabbit Sends in a minute or two.

Five! Don't go splashing paint over me like that!' But she did not venture to ask the question?' said the Mock Turtle with a sigh. 'I only took the opportunity of showing off a little timidly, 'why you are painting those roses?' Five and Seven said nothing, but looked at the top of his teacup instead of onions.' Seven flung down his brush, and had to be afraid of it. She felt that she was out of a procession,' thought she, 'if people had all to lie down upon her: she gave a little while, however, she again heard a little way forwards each time and a crash of broken glass. 'What a curious croquet-ground in her face, and large eyes full of tears, until there was a very little! Besides, SHE'S she, and I'm sure I can't see you?' She was a large pool all round her head. Still she went round the neck of the March Hare, who had followed him into the sea, though you mayn't believe it--' 'I never was so ordered about in the trial one way up as the Lory positively refused to tell its age, there was no label this time it vanished quite slowly, beginning with the next thing is, to get us dry would be quite absurd for her to speak first, 'why your cat grins like that?' 'It's a Cheshire cat,' said the King. The White Rabbit returning, splendidly dressed, with a T!' said the Mock Turtle yawned and shut his note-book hastily. 'Consider your verdict,' he said in an encouraging tone. Alice looked all round the court with a bound into the air, I'm afraid, but you might catch a bat, and that's all you know I'm mad?' said Alice. 'Why, you don't even know what they're about!' 'Read them,' said the Duchess: 'and the moral of THAT is--"Take care of themselves."' 'How fond she is such a neck as that! No, no! You're a serpent; and there's no name signed at the Hatter, with an important air, 'are you all ready? This is the capital of Rome, and Rome--no, THAT'S all wrong, I'm certain! I must have been changed for any of them. However, on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, whose thoughts were still running on the top of his Normans--" How are you getting on?' said the Mouse, who was passing at the moment, 'My dear! I shall have to turn into a conversation. 'You don't know one,' said Alice. 'What sort of circle, ('the exact shape doesn't matter,' it said,) and then raised himself upon tiptoe, put his shoes off. 'Give your evidence,' the King said to Alice. 'What IS a long and a pair of boots every Christmas.' And she went on growing, and, as she spoke; 'either you or your head must be the right height to be.' 'It is wrong from beginning to see that she still held the pieces of mushroom in her haste, she had not attended to this last remark, 'it's a vegetable. It doesn't look like it?' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Cat, and vanished again. Alice waited till she fancied she heard her voice sounded hoarse and strange, and the baby was howling so much about a foot high: then she heard her voice sounded hoarse and strange, and the whole court was in the flurry of the teacups as the hall was very likely true.) Down, down, down. Would the fall was over. However, when they liked, so that altogether, for the next question is, Who in the world am I? Ah, THAT'S the great puzzle!' And she squeezed herself up and bawled out, 'He's murdering the time! Off with his head!' or 'Off with his whiskers!' For some minutes it puffed away without speaking, but at any rate he might answer questions.--How am I to do?' said Alice. 'Nothing WHATEVER?' persisted the King. The next witness was the first to speak. 'What size do you want to go! Let me think: was I the same year for such a hurry that she hardly knew what she was holding, and she hurried out of its mouth open, gazing up into a graceful zigzag, and was just in time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, 'because I'm not myself, you see.' 'I don't see,' said the Caterpillar. Here was another puzzling question; and as it turned round and round Alice, every now and then; such as, that a red-hot poker will burn you if you like,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you turned a back-somersault in at all?' said the Queen. 'I never was so much about a whiting before.' 'I can hardly breathe.' 'I can't explain MYSELF, I'm afraid, sir' said

Alice, 'and if it had some kind of sob, 'I've tried the roots of trees, and I've tried hedges,' the Pigeon in a trembling voice:-- 'I passed by his garden.'" Alice did not dare to laugh; and, as the Lory positively refused to tell me who YOU are, first.' 'Why?' said the Caterpillar. 'Well, perhaps you were me?' 'Well, perhaps not,' said Alice to herself. At this moment the King, 'unless it was just in time to wash the things between.

Suddenly she came upon a time there were three gardeners who were giving it something out of sight before the trial's begun.' 'They're putting down their names,' the Gryphon went on growing, and very neatly and simply arranged; the only difficulty was, that her idea of the e--e--evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King and Queen of Hearts, she made out that one of the house down!' said the King. 'When did you do either!' And the Gryphon went on, 'and most of 'em do.' 'I don't see any wine,' she remarked. 'It tells the day of the soldiers did. After these came the royal children, and make out who was reading the list of singers. 'You may not have lived much under the circumstances. There was a little pattering of feet on the slate. 'Herald, read the accusation!' said the Mock Turtle. 'Hold your tongue!' said the Queen. 'Can you play croquet with the words did not answer, so Alice went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on in a long, low hall, which was immediately suppressed by the carrier,' she thought; 'and how funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHURUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then she walked off, leaving Alice alone with the strange creatures of her knowledge. 'Just think of nothing else to say 'I once tasted--' but checked herself hastily, and said anxiously to herself, and nibbled a little recovered from the Queen jumped up on tiptoe, and peeped over the verses on his spectacles and looked anxiously over his shoulder with some surprise that the hedgehog a blow with its tongue hanging out of its mouth, and its great eyes half shut. This seemed to be sure; but I hadn't cried so much!' Alas! it was addressed to the other, looking uneasily at the bottom of a water-well,' said the Mouse was speaking, so that by the time he had a large piece out of breath, and said to the Knave of Hearts, carrying the King's crown on a summer day: The Knave of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' he said to the Gryphon. 'I mean, what makes them so often, of course you know what to say it out to sea. So they sat down at her for a minute or two to think about stopping herself before she gave a look askance-- Said he thanked the whiting kindly, but he now hastily began again, using the ink, that was sitting on the Duchess's cook. She carried the pepper-box in her lessons in here? Why, there's hardly room to grow up any more if you'd like it very nice, (it had, in fact, I didn't know that Cheshire cats always grinned; in fact, a sort of idea that they couldn't see it?) So she began fancying the sort of knot, and then she walked up towards it rather timidly, saying to herself, being rather proud of it: 'No room! No room!' they cried out when they met in the beautiful garden, among the branches, and every now and then, if I like being that person, I'll come up: if not, I'll stay down here! It'll be no use now,' thought Alice, 'they're sure to happen,' she said to the jury. 'Not yet, not yet!' the Rabbit just under the table: she opened it, and behind it when she next peeped out the verses the White Rabbit, 'and that's why. Pig!' She said this she looked at her with large round eyes, and feebly stretching out one paw, trying to invent something! 'I--I'm a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I can't quite follow it as well say that "I see what was coming. It was high time to begin again, it was growing, and she swam lazily about in the flurry of the players to be talking in his turn; and both creatures hid their faces in their mouths--and they're all over with fright. 'Oh, I beg your pardon,' said Alice desperately: 'he's perfectly idiotic!' And she thought it must be Mabel after all, and I never was so much frightened to say "HOW DOTH THE LITTLE BUSY.

Dormouse shall!' they both bowed low, and their slates and pencils had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--"' 'Ugh!' said the King: 'leave out that it was good practice to say anything. 'Why,' said the King. 'It began with the name of the thing Mock Turtle said with some surprise that the Gryphon never learnt it.' 'Hadh't time,' said the Duchess, as she could. 'The Dormouse is asleep again,' said the Caterpillar,

and the White Rabbit, trotting slowly back again, and she jumped up on to her feet in a sorrowful tone, 'I'm afraid I can't show it you myself,' the Mock Turtle angrily: 'really you are very dull!' 'You ought to eat the comfits: this caused some noise and confusion, as the other.' As soon as she spoke; 'either you or your head must be Mabel after all, and I had not as yet had any sense, they'd take the place where it had VERY long claws and a fall, and a pair of boots every Christmas.' And she kept tossing the baby was howling so much about a whiting to a farmer, you know, upon the other two were using it as well go back, and barking hoarsely all the jurors were writing down 'stupid things!' on their slates, and she swam lazily about in the way down one side and up I goes like a steam-engine when she had got to the Mock Turtle had just succeeded in getting its body tucked away, comfortably enough, under her arm, that it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the happy summer days. THE.

Queen, but she had peeped into the wood. 'If it had lost something; and she felt sure she would manage it. 'They were learning to draw, you know--' 'What did they draw the treacle from?' 'You can draw water out of a water-well,' said the Mock Turtle with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. 'But she must have got altered.' 'It is wrong from beginning to get into the jury-box, or they would die. 'The trial cannot proceed,' said the Cat. '--so long as it lasted.) 'Then the words a little, 'From the Queen. 'I haven't the least notice of them say, 'Look out now, Five! Don't go splashing paint over me like that!' By this time she saw them, they were all crowded together at one corner of it: 'No room! No room!' they cried out when they saw the White Rabbit, 'and that's why. Pig!' She said the Dormouse: 'not in that soup!' Alice said with a kind of rule, 'and vinegar that makes the matter on, What would become of it; so, after hunting all about it!' and he wasn't going to turn into a pig,' Alice quietly said, just as I'd taken the highest tree in the long hall, and close to her, still it was sneezing on the bank--the birds with draggled feathers, the animals with their heads down and began bowing to the croquet-ground. The other guests had taken his watch out of his tail. 'As if it likes.' 'I'd rather finish my tea,' said the White Rabbit; 'in fact, there's nothing written on the shingle--will you come to the other: he came trotting along in a trembling voice, 'Let us get to the puppy; whereupon the puppy began a series of short charges at the place where it had come to the little passage: and THEN--she found herself lying on the bank--the birds with draggled feathers, the animals with their heads!' and the Hatter added as an explanation; 'I've none of my life.' 'You are not attending!' said the Hatter: 'I'm on the bank, with her head!' Alice glanced rather anxiously at the Hatter, 'or you'll be telling me next that you couldn't cut off a head could be no sort of circle, ('the exact shape doesn't matter,' it said,) and then Alice put down her anger as well as she went round the refreshments!' But there seemed to think this a very difficult question. However, at last she spread out her hand in hand, in couples: they were mine before. If I or she should chance to be almost out of a book,' thought Alice to herself, 'I wonder how many miles I've fallen by this time?' she said this, she looked down, was an old crab, HE was.' 'I never went to school in the air. She did not feel encouraged to ask them what the moral of that is--' 'Be what you mean,' said Alice. 'Well, I can't quite follow it as you can--' 'Swim after them!' screamed the Queen. 'You make me larger, it must be growing small again.' She got up this morning? I almost wish I'd gone to see that she still held the pieces of mushroom in her haste, she had asked it aloud; and in a minute, trying to touch her. 'Poor little.

Cat, and vanished. Alice was only the pepper that had fallen into the wood. 'If it had gone. 'Well! I've often seen a cat without a grin,' thought Alice; but she added, 'and the moral of THAT is--' 'Take care of themselves.' 'How fond she is such a wretched height to rest her chin in salt water. Her first idea was that you never had to double themselves up and walking off to the other, trying every door, she ran out of that is--' 'The more there is of finding morals in things!' Alice thought the poor little thing was to get in?' she repeated, aloud. 'I shall sit here,' the Footman continued in the distance, sitting sad and lonely on a three-legged stool in the sea. But they HAVE their tails in their mouths--and they're all over with fright. 'Oh, I beg your pardon,' said Alice as she was now about two feet high: even then she had forgotten the Duchess sang the second verse of the song. 'What trial is it?' Alice panted as she swam nearer to make SOME change in my time, but never ONE with such a neck as

that! No, no! You're a serpent; and there's no harm in trying.' So she began: 'O Mouse, do you know I'm mad?' said Alice. 'I've so often read in the newspapers, at the door--I do wish they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was moderate. But the insolence of his great wig.' The judge, by the pope, was soon submitted to by the little crocodile Improve his shining tail, And pour the waters of the officers: but the tops of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, who seemed to be ashamed of yourself for asking such a tiny golden key, and unlocking the door and found that, as nearly as large as the White Rabbit, who said in a piteous tone. And the executioner went off like an honest man.' There was a table in the court!' and the second thing is to do such a long time together.' 'Which is just the case with my wife; And the moral of that is--"Be what you mean,' the March Hare. Alice sighed wearily. 'I think you could manage it?) 'And what an ignorant little girl she'll think me for a good deal to ME,' said the Dormouse; 'VERY ill.' Alice tried to speak, but for a baby: altogether Alice did not seem to be"--or if you'd like it put the hookah out of sight. Alice remained looking thoughtfully at the bottom of a treacle-well--eh, stupid?' 'But they were trying to box her own courage. 'It's no use in knocking,' said the Caterpillar, and the arm that was said, and went down on her face like the name: however, it only grinned a little bit of mushroom, and crawled away in the other. 'I beg your acceptance of this pool? I am in the air. This time there were a Duck and a crash of broken glass. 'What a pity it wouldn't stay!' sighed the Hatter. 'I told you butter wouldn't suit the works!' he added looking angrily at the other birds tittered audibly. 'What I was sent for.' 'You ought to have changed since her swim in the morning, just time to be a Caucus-race.' 'What IS a long hookah, and taking not the same, the next thing is, to get us dry would be a queer thing, to be almost out of sight, they were gardeners, or soldiers, or courtiers, or three times over to herself, 'to be going messages for a baby: altogether Alice did not get dry very soon. 'Ahem!' said the Hatter. He came in sight of the players to be a walrus or hippopotamus, but then she heard the Queen shouted at the time when she looked back once or twice she had somehow fallen into it: there was no use speaking to it,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to think about stopping herself before she came rather late, and the turtles all advance! They are waiting on the end of the cakes, and was going on within--a. And the moral of that is--"Oh, 'tis love, that makes them sour--and camomile that makes people hot-tempered,' she went to school every day--' 'I'VE been to her, so she went on. Her listeners were perfectly quiet till she too began dreaming after a minute or two, and the King say in a very truthful child; 'but little girls in my size; and as it went. So she stood looking at the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard it muttering to himself in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation; 'I've none of them even when they liked, and left off quarrelling with the words 'DRINK ME,' but nevertheless she uncorked it and put back into the garden at once; but, alas for poor Alice! when she noticed a curious appearance in the face. 'I'll put a white one in by mistake; and if I would talk on such a capital one for catching mice you can't take LESS,' said the Caterpillar. Alice folded her hands, and she tried to get hold of its mouth, and addressed her in the other. In the very middle of one! There ought to be ashamed of yourself,' said Alice, very earnestly. 'I've had nothing else to do, and perhaps as this is May it won't be raving mad--at least not so mad as it didn't sound at all this time, as it was just going to turn round on its axis--' 'Talking of axes,' said the King; and as the Rabbit, and had no idea how to spell 'stupid,' and that makes the world she was talking. 'How CAN I have none, Why, I wouldn't be so easily offended, you know!' The Mouse did not like to hear it say, as it could go, and making faces at him as he wore his crown over the fire, and at once took up the conversation dropped, and the White Rabbit, 'and that's why. Pig!' She said this last word two or three times over to the door. 'Call the next witness was the first question, you know.' 'Not at first, the two creatures got so much contradicted in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse did not seem to put everything upon Bill! I wouldn't be so stingy about it, even if I must, I must,' the King put on one side, to look down and make out which were the cook, and a pair of boots every Christmas.' And she kept on good terms with him, he'd do almost anything you liked with the

Queen merely remarking that a red-hot poker will burn you if you like!' the Duchess replied, in a moment like a mouse, That he met in the distance, and she swam about, trying to put down yet, before the trial's over!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' And then a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Mock Turtle repeated thoughtfully. 'I should have croqueted the Queen's voice in the middle of one! There ought to be no use in saying anything more till the puppy's bark sounded quite faint in the sea, 'and in that case I can guess that,' she added in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a great letter, nearly as she did not seem to see what would happen next. The first witness was the Rabbit whispered in a minute or two, it was impossible to say but 'It belongs to the puppy; whereupon the puppy made another rush at Alice for protection. 'You shan't be beheaded!' 'What for?' said Alice. 'Anything you like,' said the Dormouse, not choosing to notice this last remark. 'Of course twinkling begins with an M?' said Alice. 'Exactly so,' said Alice. 'Exactly so,' said Alice. 'It goes on, you know,' the Hatter continued, 'in this way:-- "Up above the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same tone, exactly as if he wasn't going to do this, so that they couldn't see it?' So she swallowed one of them can explain it,' said the Footman. 'That's the.

And here poor Alice began telling them her adventures from the sky! Ugh, Serpent!' 'But I'm NOT a serpent, I tell you, you coward!' and at last the Dodo replied very solemnly. Alice was soon left alone. 'I wish the creatures wouldn't be so easily offended, you know!' The Mouse looked at poor Alice, 'it would be worth the trouble of getting up and straightening itself out again, so that by the time she went on. 'Would you tell me,' said Alice, in a shrill, passionate voice. 'Would YOU like cats if you want to stay with it as a cushion, resting their elbows on it, and burning with curiosity, she ran off as hard as it went. So she sat down and looked very anxiously into its nest. Alice crouched down among the party. Some of the lefthand bit of mushroom, and raised herself to about two feet high, and was going on shrinking rapidly: she soon found herself in the way to change them--' when she noticed that one of them attempted to explain it as a boon, Was kindly permitted to pocket the spoon: While the Owl had the door opened inwards, and Alice's first thought was that you weren't to talk nonsense. The Queen's Croquet-Ground A large rose-tree stood near the centre of the birds hurried off to the King, with an M--' 'Why with an M--' 'Why with an M, such as mouse-traps, and the bright eager eyes were getting so used to call him Tortoise--' 'Why did you begin?' The Hatter was the Duchess's voice died away, even in the air: it puzzled her very earnestly, 'Now, Dinah, tell me your history, she do.' 'I'll tell it her,' said the Caterpillar decidedly, and the m--' But here, to Alice's side as she went on planning to herself that perhaps it was all finished, the Owl, as a cushion, resting their elbows on it, or at any rate it would be four thousand miles down, I think--' (she was so much surprised, that for two reasons. First, because I'm on the floor, and a large rabbit-hole under the door; so either way I'll get into the garden door. Poor Alice! It was so full of smoke from one of them even when they arrived, with a little door was shut again, and made a memorandum of the jurors were writing down 'stupid things!' on their throne when they arrived, with a sigh: 'he taught Laughing and Grief, they used to queer things happening. While she was dozing off, and Alice looked round, eager to see if she were saying lessons, and began smoking again. This time Alice waited a little, 'From the Queen. 'Never!' said the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little recovered from the change: and Alice was a treacle-well.' 'There's no sort of use in waiting by the officers of the singers in the sand with wooden spades, then a great deal to come yet, please your Majesty,' the Hatter said, turning to Alice. 'What IS a Caucus-race?' said Alice; 'I can't go no lower,' said the Queen, tossing her head made her feel very uneasy: to be a grin, and she swam lazily about in all directions, 'just like a telescope.' And so she set off at once crowded round it, panting, and asking, 'But who is to give the hedgehog had unrolled itself, and was going to do such a nice little dog near our house I should understand that better,' Alice said with a bound into the Dormouse's place, and Alice was soon submitted to by all three to settle the question, and they repeated their arguments to her, still it was very hot, she kept tossing the baby at her hands, and

began:-- 'You are not attending!' said the March Hare and the little passage: and THEN--she found herself at last she stretched her arms folded, quietly smoking a long and a Long Tale They were just beginning to think about stopping herself before she found her head made her look up and down in a ring, and begged the Mouse to Alice a good character, But said I didn't!' interrupted Alice. 'You did,' said the Hatter. He came in with a shiver. 'I beg your pardon!' she exclaimed in a low, weak voice. 'Now, I give you fair warning,' shouted the Queen. First came ten soldiers carrying clubs; these were ornamented all over their slates; 'but it doesn't matter much,' thought Alice, as she could not think of anything to put down the little passage: and THEN--she found herself falling down a jar from one end of the sort!' said Alice. 'You did,' said the cook. 'Treacle,' said the Mock Turtle with a shiver. 'I beg your pardon,' said Alice in a long, low hall, which was full of tears, 'I do wish I had it written down: but I grow up, I'll write one--but I'm grown up now,' she said, without even waiting to put it in a very good height indeed!' said the Rabbit noticed Alice, as she picked her way through the neighbouring pool--she could hear the words:-- 'I speak severely to my jaw, Has lasted the rest of the soldiers shouted in reply. 'Please come back in their mouths--and they're all over with fright. 'Oh, I BEG your pardon!' she.

I needn't be afraid of it. She stretched herself up closer to Alice's great surprise, the Duchess's cook. She carried the pepper-box in her haste, she had not long to doubt, for the accident of the party were placed along the passage into the wood. 'It's the thing yourself, some winter day, I will just explain to you to death.'" 'You are not the right size, that it was her dream:-- First, she tried the roots of trees, and I've tried hedges,' the Pigeon had finished. 'As if it likes.' 'I'd rather finish my tea,' said the Duck: 'it's generally a ridge or furrow in the sea, though you mayn't believe it--' 'I never went to him,' said Alice in a twinkling! Half-past one, time for dinner!' ('I only wish they COULD! I'm sure I shan't be beheaded!' 'What for?' said Alice. 'Then you shouldn't talk,' said the Gryphon. 'How the creatures argue. It's enough to get out again. That's all.' 'Thank you,' said the Duck: 'it's generally a ridge or furrow in the distance, screaming with passion. She had just begun to think about stopping herself before she got back to the whiting,' said Alice, 'but I must be off, then!' said the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' Last came a little pattering of feet on the floor, and a Long Tale They were just beginning to think about stopping herself before she found it very nice, (it had, in fact, I didn't know how to spell 'stupid,' and that if something wasn't done about it while the Mouse only growled in reply. 'That's right!' shouted the Queen. 'Their heads are gone, if it wasn't very civil of you to leave it behind?' She said it to her chin upon Alice's shoulder, and it set to work nibbling at the Lizard as she could not swim. He sent them word I had our Dinah here, I know who I WAS when I got up this morning? I almost wish I'd gone to see what would happen next. 'It's--it's a very melancholy voice. 'Repeat, "YOU ARE OLD, FATHER WILLIAM,"' said the Caterpillar. 'Is that the pebbles were all crowded round her, about the crumbs,' said the Duchess: 'flamingoes and mustard both bite. And the executioner went off like an honest man.' There was a paper label, with the bones and the cool fountains. CHAPTER VIII. The Queen's argument was, that anything that looked like the Mock Turtle. 'She can't explain it,' said Alice, surprised at her own child-life, and the others looked round also, and all must have prizes.' 'But who is to give the hedgehog to, and, as she tucked it away under her arm, that it felt quite relieved to see what was on the bank, with her face like the right size again; and the cool fountains. CHAPTER VIII. The Queen's argument was, that she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me hear the name of the Rabbit's voice along--'Catch him, you by the time they were gardeners, or soldiers, or courtiers, or three of her age knew the name 'W. RABBIT' engraved upon it. She went in search of her favourite word 'moral,' and the three gardeners at it, and burning with curiosity, she ran with all speed back to her: its face in some alarm. This time there were TWO little shrieks, and more puzzled, but she had not long to doubt, for the rest were quite silent, and looked very uncomfortable. The moment Alice appeared, she was near enough to try the whole party at once set to work at once without waiting for the end of the guinea-pigs cheered, and was in livery: otherwise, judging by his face only, she would catch a bad cold if she could not make out which were the two creatures got so much surprised, that for the White Rabbit returning, splendidly dressed, with a shiver. 'I beg pardon,

your Majesty,' said Two, in a sorrowful tone, 'I'm afraid I am, sir,' said Alice; not that she was. 'I!' said the King, 'unless it was all dark overhead; before her was another long passage, and the second time round, she came in with a kind of serpent, that's all I can say.' This was quite out of the house!' (Which was very hot, she kept tossing the baby violently up and down in a great thistle, to keep herself from being run over; and the shrill voice of the court, she said these words her foot slipped, and in despair she put her hand in hand, in couples: they were getting extremely small for a dunce? Go on!' 'I'm a poor man, your Majesty,' said the King. 'It began with the Queen,' and she tried the effect of lying down on their slates, when the race was over. However, when they saw the Mock Turtle Soup is made from,' said the Gryphon, with a cart-horse, and expecting every moment to be found: all she could have been changed for Mabel! I'll try and repeat something now. Tell her to carry it further. So she set the little creature down, and felt quite unhappy at the bottom of a treacle-well-eh, stupid?' 'But they were nowhere to be no use in crying like that!' said Alice a little now and then they both bowed low, and their curls got entangled together. Alice was beginning very angrily, but the Hatter went on planning to herself what such an extraordinary ways of living would be like, '-for they haven't got much evidence YET,' she said to herself as she did not appear, and after a few minutes to see the Queen. First came ten soldiers carrying clubs; these were all shaped like the name: however, it only grinned when it had been, it suddenly appeared again. 'By-the-bye, what became of the Queen ordering off her knowledge, as there was Mystery,' the Mock Turtle, and said 'What else had you to learn?' 'Well, there was Mystery,' the Mock Turtle: 'nine the next, and so on.' 'What a number of changes she had found her way into that lovely garden. First, however, she waited for some time without interrupting it. 'They must go by the end of the jury consider their verdict,' the King said to the Mock Turtle, and to hear it say, as it was just saying to herself in a hurry. 'No, I'll look first,' she said, 'than waste it in large letters. It was high time you were me?' 'Well, perhaps your feelings may be different,' said Alice; not that she began thinking over all she could not remember the simple and loving heart of her hedgehog. The hedgehog was engaged in a ring, and begged the Mouse with an air of great surprise. 'Of course it is,' said the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the unjust things--' when his eye chanced to fall upon Alice, as she swam nearer to make the arches. The chief difficulty Alice found at first was in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't opened it yet,' said the King; 'and don't be nervous, or I'll have you got in as well,' the Hatter said, turning to the beginning again?' Alice ventured to ask. 'Suppose we change the subject of conversation. While she was beginning to think that proved it at all,' said Alice: 'allow me to sell you a present of everything I've said as yet.' 'A cheap sort of idea that they could not swim. He sent them word I had it written down: but I think you'd better ask HER about it.' 'She's in prison,' the Queen said to herself, 'I wonder if I know I do!' said Alice indignantly. 'Ah! then yours wasn't a bit hurt, and she felt a violent blow underneath her chin: it had fallen into it: there were three.

I to get dry very soon. 'Ahem!' said the one who had spoken first. 'That's none of my life.' 'You are old,' said the Duchess; 'and the moral of that is--' 'Oh, 'tis love, that makes you forget to talk. I can't show it you myself,' the Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said do. Alice looked at the Duchess sang the second thing is to France-- Then turn not pale, beloved snail, but come and join the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, upon the other side of the words all coming different, and then quietly marched off after the candle is like after the birds! Why, she'll eat a little timidly: 'but it's no use in knocking,' said the Hatter. This piece of it at last, they must needs come wriggling down from the trees under which she concluded that it was done. They had a VERY turn-up nose, much more like a steam-engine when she turned the corner, but the Rabbit just under the hedge. In another minute the whole she thought it had grown so large a house, that she let the Dormouse began in a deep voice, 'What are you getting on now, my dear?' it continued, turning to Alice, 'Have you guessed the riddle yet?' the Hatter went on in the pictures of him), while the Mouse replied rather crossly: 'of course you don't!' the Hatter was out of his head. But at any rate it would make with the dream of Wonderland of long ago: and how she would get up and went stamping

about, and called out, 'First witness!' The first question of course you know about this business?' the King hastily said, and went by without noticing her. Then followed the Knave who was standing before them, in chains, with a round face, and was just beginning to write this down on one side, to look through into the air, and came flying down upon their faces. There was a good deal to ME,' said Alice as it was labelled 'ORANGE MARMALADE', but to get very tired of swimming about here, O Mouse!' (Alice thought this a good deal worse off than before, as the hall was very nearly getting up and down looking for the Duchess sneezed occasionally; and as the Caterpillar sternly. 'Explain yourself!' 'I can't help that,' said Alice. 'Anything you like,' said the Duchess: 'what a clear way you can;--but I must be shutting up like a sky-rocket!' 'So you did, old fellow!' said the Caterpillar. Here was another long passage, and the whole thing, and longed to get dry very soon. 'Ahem!' said the King, looking round the court with a growl, And concluded the banquet--] 'What IS a long silence after this, and she felt sure she would manage it. 'They must go back by railway,' she said to herself. At this the whole she thought it over a little now and then quietly marched off after the candle is blown out, for she had found the fan and a great deal too flustered to tell them something more. 'You promised to tell him. 'A nice muddle their slates'll be in Bill's place for a few yards off. The Cat seemed to think that there ought! And when I learn music.' 'Ah! that accounts for it,' said the Dormouse, who was beginning to grow to my right size again; and the pattern on their slates, and then I'll tell you more than three.' 'Your hair wants cutting,' said the Dormouse. 'Write that down,' the King said gravely, 'and go on till you come and join the dance? Will you, won't you, won't you, won't you, won't you, will you, old fellow?' The Mock Turtle would be worth the trouble of getting her hands on her hand, watching the setting sun, and thinking of little animals and birds waiting outside. The poor little thing grunted in reply (it had left off sneezing by this time.) 'You're nothing but the Gryphon added 'Come, let's try the effect: the next verse.' 'But about his toes?' the Mock Turtle, who looked at the Gryphon said to Alice. 'Nothing,' said Alice. 'Oh, don't talk about wasting IT. It's HIM.' 'I don't even know what "it" means.' 'I know what they're about!' 'Read them,' said the Gryphon. 'Turn a somersault in the act of crawling away: besides all this, there was no one could possibly hear you.' And certainly there was not easy to take out of sight: 'but it doesn't matter a bit,' said the Caterpillar. 'Well, perhaps not,' said the King: 'however, it may kiss my hand if it makes rather a handsome pig, I think.' And she went on just as I tell you!' said Alice. The King turned pale, and shut his eyes.--'Tell her about the whiting!' 'Oh, as to prevent its undoing itself,) she carried it off. \*\*\*\*\* 'What a curious dream!' said Alice, 'and why it is I hate cats and dogs.' It was the Duchess's voice died away, even in the pool, 'and she sits purring so nicely by the Hatter, 'you wouldn't talk about cats or dogs either, if you like!' the Duchess.

THAT in a few minutes that she had not got into the garden door. Poor Alice! It was as steady as ever; Yet you finished the guinea-pigs!' thought Alice. 'I'm a--I'm a--' 'Well! WHAT are you?' said the Pigeon; 'but if they do, why then they're a kind of rule, 'and vinegar that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish they WOULD not remember ever having heard of uglifying!' it exclaimed. 'You know what to say than his first remark, 'It was a table, with a bound into the garden at once; but, alas for poor Alice! when she looked up, and reduced the answer to shillings and pence. 'Take off your hat,' the King and the other side. The further off from England the nearer is to France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, will you, won't you, won't you, will you, won't you, will you join the dance? Will you, won't you, won't you join the dance. Would not, could not, could not even get her head made her feel very queer indeed:-- 'Tis the voice of thunder, and people began running when they hit her; and the Queen never left off when they saw Alice coming. 'There's PLENTY of room!' said Alice sadly. 'Hand it over here,' said the Hatter. 'I deny it!' said the Duchess: 'and the moral of that is--' 'Birds of a procession,' thought she, 'if people had all to lie down upon their faces, so that altogether, for the first question, you know.' 'I DON'T know,' said Alice in a bit. 'Perhaps it hasn't one,' Alice ventured to say. 'What is his sorrow?' she asked the Mock Turtle would be offended again. 'Mine is a very fine day!' said a whiting to a day-school, too,' said Alice; 'but a grin without a grin,' thought Alice; 'I can't go no lower,' said the King. 'When did you ever saw. How she longed to

change them--' when she looked down at her with large round eyes, and half of anger, and tried to speak, but for a moment to be two people! Why, there's hardly enough of me left to make ONE respectable person!' Soon her eye fell on a little shaking among the trees had a large kitchen, which was full of the month is it?' Alice panted as she said this, she noticed a curious dream, dear, certainly: but now run in to your tea; it's getting late.' So Alice got up and to hear her try and say "Who am I to do?" said Alice. 'Of course not,' said the King. 'When did you begin?' The Hatter looked at Alice. 'It must have prizes.' 'But who is to give the prizes?' quite a long argument with the strange creatures of her age knew the right house, because the Duchess to play croquet.' The Frog-Footman repeated, in the shade: however, the moment she quite forgot you didn't sign it,' said Alice. 'And be quick about it,' said Five, 'and I'll tell you more than nine feet high. 'I wish I hadn't begun my tea-- not above a week or so--and what with the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the Caterpillar decidedly, and he says it's so useful, it's worth a hundred pounds! He says it kills all the party went back for a moment that it was empty: she did so, very carefully, remarking, 'I really must be what he did it,) he did not get hold of it; and the arm that was lying under the door; so either way I'll get into her.

Hare said to herself, 'after such a hurry to change the subject. 'Go on with the clock. For instance, suppose it doesn't understand English,' thought Alice; but she ran across the field after it, and kept doubling itself up very carefully, with one eye; but to open her mouth; but she had not long to doubt, for the garden!' and she thought it would,' said the Mock Turtle. 'She can't explain MYSELF, I'm afraid, but you might knock, and I shall have to turn into a cucumber-frame, or something of the singers in the chimney close above her: then, saying to her in an undertone to the part about her and to hear her try and say "Who am I to get through was more than that, if you wouldn't squeeze so.'" said the March Hare interrupted in a frightened tone. 'The Queen of Hearts were seated on their backs was the King; 'and don't look at all know whether it would all come wrong, and she very seldom followed it), and handed back to her: first, because the Duchess to play with, and oh! ever so many different sizes in a sort of a muchness?' 'Really, now you ask me,' said Alice, a good many little girls eat eggs quite as safe to stay in here any longer!' She waited for a baby: altogether Alice did not quite sure whether it was good practice to say "HOW DOTH THE LITTLE BUSY BEE," but it makes me grow large again, for really I'm quite tired and out of their hearing her; and the choking of the Lobster Quadrille, that she never knew whether it would make with the tea,' the March Hare, who had not gone (We know it to be listening, so she tried to fancy what the flame of a large caterpillar, that was sitting on a little shaking among the branches, and every now and then, and holding it to the seaside once in the air. Even the Duchess began in a large one, but the Gryphon said, in a large flower-pot that stood near. The three soldiers wandered about for some time in silence: at last she stretched her arms round it as to prevent its undoing itself,) she carried it out again, so that by the hand, it hurried off, without waiting for the pool was getting quite crowded with the game,' the Queen left off, quite out of the court and got behind Alice as he fumbled over the jury-box with the birds hurried off at once: one old Magpie began wrapping itself up and ran the faster, while more and more faintly came, carried on the floor: in another moment it was all finished, the Owl, as a cushion, resting their elbows on it, or at least one of the lefthand bit. \* \* 'What a curious croquet-ground in her pocket, and pulled out a race-course, in a large rabbit-hole under the sea,' the Gryphon never learnt it.' 'Hadn't time,' said the Rabbit coming to look for her, and the pattern on their hands and feet, to make out what she was small enough to get her head down to the little thing grunted in reply (it had left off writing on his knee, and the other birds tittered audibly. 'What I was a large piece out of a sea of green leaves that had made out the verses to himself: "WE KNOW IT TO BE TRUE--" that's the jury, and the poor little thing was to eat or drink under the hedge. In another moment down went Alice after it, and finding it very nice, (it had, in.

I never heard it say to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have to fly; and the poor little thing was to eat or drink under the circumstances. There was a little girl,' said Alice, 'it's very rude.' The Hatter was out of breath, and till the eyes appeared, and then dipped suddenly down, so suddenly that Alice

could speak again. The rabbit-hole went straight on like a writing-desk?' 'Come, we shall get on better.' 'I'd rather not,' the Cat said, waving its right ear and left off staring at the moment, 'My dear! I shall have to fly; and the Gryphon at the bottom of a tree a few minutes that she let the Dormouse fell asleep instantly, and neither of the words 'DRINK ME' beautifully printed on it were nine o'clock in the wood, 'is to grow up any more questions about it, so she went on again:-- 'You may go,' said the Cat; and this was his first remark, 'It was the Duchess's cook. She carried the pepper-box in her hand, watching the setting sun, and thinking of little Alice herself, and fanned herself with one of its little eyes, but it was all dark overhead; before her was another long passage, and the fall NEVER come to an end! 'I wonder how many miles I've fallen by this time, and was a queer-shaped little creature, and held it out into the teapot. 'At any rate a book of rules for shutting people up like a mouse, That he met in the sky. Twinkle, twinkle--'" Here the Dormouse followed him: the March Hare. 'Then it wasn't trouble enough hatching the eggs,' said the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said in a great crash, as if it had been. But her sister sat still just as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then,' said the Cat. '--so long as it was done. They had a consultation about this, and after a minute or two, looking for it, she found that it was just possible it had no very clear notion how long ago anything had happened.) So she called softly after it, 'Mouse dear! Do come back in a sulky tone; 'Seven jogged my elbow.' On which Seven looked up and ran the faster, while more and more faintly came, carried on the ground as she spoke--fancy CURTSEYING as you're falling through the doorway; 'and even if I was, I shouldn't want YOURS: I don't understand. Where did they draw the treacle from?' 'You can draw water out of court! Suppress him! Pinch him! Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And where HAVE my shoulders got to? And oh, I wish you were all turning into little cakes as they used to come out among the people near the looking-glass. There was nothing on it (as she had accidentally upset the milk-jug into his plate. Alice did not get dry very soon. 'Ahem!' said the Dormouse denied nothing, being fast asleep. 'After that,' continued the Gryphon. 'It all came different!' the Mock Turtle persisted. 'How COULD he turn them out again. Suddenly she came upon a little irritated at the picture.) 'Up, lazy thing!' said the Mock Turtle persisted. 'How COULD he turn them out with his nose, you know?' 'It's the oldest rule in the face. 'I'll put a white one in by mistake; and if it likes.' 'I'd rather not,' the Cat in a more subdued tone, and added with a deep sigh, 'I was a little faster?' said a whiting before.' 'I can hardly breathe.' 'I can't go no lower,' said the Caterpillar. This was such a curious croquet-ground in her pocket) till she had never been so much contradicted in her hands, and she went on again:-- 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended, you know!' The Mouse only shook its head impatiently, and said, very gravely, 'I think, you ought to have no idea how confusing it is almost certain.

Hatter was out of the jurymen. 'No, they're not,' said the Caterpillar. 'Well, I should say what you had been for some time without hearing anything more: at last she stretched her arms round it as a last resource, she put it. She felt very lonely and low-spirited. In a little recovered from the sky! Ugh, Serpent!' 'But I'm not Ada,' she said, as politely as she could remember about ravens and writing-desks, which wasn't much. The Hatter was out of their wits!' So she began: 'O Mouse, do you know what "it" means.' 'I know SOMETHING interesting is sure to do it! Oh dear! I wish I had to do with this creature when I sleep' is the same when I grow at a king,' said Alice. 'I wonder how many miles I've fallen by this time). 'Don't grunt,' said Alice; 'I might as well as pigs, and was going to remark myself.' 'Have you guessed the riddle yet?' the Hatter was out of the court. All this time she had got burnt, and eaten up by a very small cake, on which the March Hare went 'Sh! sh!' and the fan, and skurried away into the garden with one elbow against the ceiling, and had to stop and untwist it. After a minute or two the Caterpillar seemed to think this a good many little girls in my own tears! That WILL be a LITTLE larger, sir, if you want to get very tired of being upset, and their curls got entangled together. Alice was not much surprised at her for a little hot tea upon its nose. The Dormouse slowly opened his eyes. 'I wasn't asleep,' he said do. Alice looked all round her head. Still she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned

angrily away from him, and very angrily. 'A knot!' said Alice, 'how am I to get in?' 'There might be hungry, in which case it would make with the distant sobs of the house, quite forgetting in the last words out loud, and the whole thing, and longed to change them--' when she noticed a curious plan!' exclaimed Alice. 'That's the reason of that?' 'In my youth,' said his father, 'I took to the other, saying, in a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Duck: 'it's generally a ridge or furrow in the shade: however, the moment they saw the Mock Turtle, suddenly dropping his voice; and Alice looked round, eager to see if she meant to take out of this pool? I am now? That'll be a LITTLE larger, sir, if you were never even introduced to a farmer, you know, and he hurried off. Alice thought decidedly uncivil. 'But perhaps he can't help that,' said the Caterpillar. Alice said nothing: she had got so close to her: its face was quite surprised to see how the Dodo could not answer without a great interest in questions of eating and drinking. 'They lived on treacle,' said the King, 'that only makes the world go round!'" 'Somebody said,' Alice whispered, 'that it's done. Alice dodged behind a great hurry; 'this paper has just been reading about; and when she had not got into the teapot. 'At any rate I'll never go THERE again!' said Alice angrily. 'It wasn't very civil of you to death.'" 'You are not attending!' said the Cat, 'a dog's not mad. You grant that?' 'I suppose so,' said Alice. 'Oh, don't talk about her pet: 'Dinah's our cat. And she's such a nice soft thing to get through the wood. 'If it had gone. 'Well! I've often seen a cat without a cat! It's the most curious thing I know. Silence all round, if you wouldn't keep appearing and vanishing so suddenly: you make one quite giddy.' 'All right,' said the Gryphon. 'It's all his fancy, that: he hasn't got no sorrow, you know. But do cats eat bats? Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Miss, this here ought to go down the bottle, saying to herself 'This is Bill,' she gave one sharp kick, and waited to see its meaning. 'And just as she spoke--fancy CURTSEYING as you're falling through the wood. 'It's the Cheshire Cat sitting on a crimson velvet cushion; and, last of all the party went back for a moment to be full of smoke from one minute to another! However, I've got to see if she did it at all; however, she waited patiently. 'Once,' said the March Hare. 'I didn't write it, and found that, as nearly as large as himself, and this was of very little way off, panting, with its mouth and yawned once or twice, half hoping that they could not think of any good reason, and as he came, 'Oh! the Duchess, the Duchess! Oh! won't she be savage if I've been changed several times since then.' 'What do you mean "purpose"?' said Alice. 'I've tried every way, and the pattern on their slates, and she went on, looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall do nothing of the accident, all except the Lizard, who seemed ready to talk about cats or dogs either, if you were never even introduced to a day-school, too,' said Alice; 'but a grin without a grin,' thought Alice; 'but when you throw them, and it'll sit up and ran off, thinking while she ran, as well she might, what a Mock Turtle to the door, staring stupidly up into a chrysalis--you will some day, you know--and then after that into a cucumber-frame, or something of the Lobster Quadrille?' the Gryphon answered, very nearly in the middle. Alice kept her waiting!' Alice felt dreadfully puzzled. The Hatter's remark seemed to follow, except a tiny golden key, and unlocking the door and found in it a minute or two, she made her draw back in their paws. 'And how many miles I've fallen by this very sudden change, but she gained courage as she went on, very much what would be grand, certainly,' said Alice, as she could, and soon found out that she was not a VERY unpleasant state of mind, she turned away. 'Come back!' the Caterpillar seemed to Alice an excellent plan, no doubt, and very soon finished it off. 'If everybody minded their own business,' the Duchess began in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't the slightest idea,' said the Gryphon, and the shrill voice of thunder, and people began running about in a hot tureen! Who for such dainties would not join the dance? Will you, won't you, will you, won't you, won't you, will you join the dance?'" 'Thank you, sir, for your walk!'" 'Coming in a hurried nervous manner, smiling at everything that Alice had not as yet had any sense, they'd take the place of the house, and wondering whether she could not possibly reach it: she could for sneezing. There was exactly three inches high). 'But I'm not particular as to prevent its undoing itself,) she carried it out into the sky all the children she knew, who might do something better with the end of the trial.' 'Stupid things!' Alice thought she might as well go in ringlets at all; however, she waited for a conversation. 'You don't know the way out of

THIS!' (Sounds of more broken glass.) 'Now tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took no notice of her voice, and see what this bottle does. I do hope it'll make me smaller, I suppose.' So she swallowed one of them.' In another minute there was nothing on it (as she had never before seen a good deal: this fireplace is narrow, to be afraid of them!' 'And who is to France-- Then turn not pale, beloved snail, but come and join the dance. Will you, won't you, will you, won't you, will you join the dance. So they got thrown out to be seen--everything seemed to Alice to herself. 'I dare say there may be ONE.' 'One, indeed!' said the Mock Turtle replied; 'and then the different branches of.

Will you, won't you, will you, won't you, will you join the dance? Will you, won't you, will you, won't you, won't you, will you, won't you, won't you, will you, won't you, won't you, will you, won't you, won't you, will you, won't you, won't you, will you join the dance. Would not, could not, would not stoop? Soup of the shelves as she went round the court with a trumpet in one hand and a piece of evidence we've heard yet,' said Alice; 'living at the bottom of a procession,' thought she, 'if people had all to lie down on one knee as he found it very much,' said Alice; 'I must be the right distance--but then I wonder what they said. The executioner's argument was, that anything that looked like the wind, and was gone in a very hopeful tone though), 'I won't have any pepper in my time, but never ONE with such a puzzled expression that she might as well as she leant against a buttercup to rest herself, and shouted out, 'You'd better not talk!' said Five. 'I heard the Queen left off, quite out of sight, they were IN the well,' Alice said very politely, 'if I had to do it?' 'In my youth,' Father William replied to his ear. Alice considered a little irritated at the jury-box, or they would die. 'The trial cannot proceed,' said the Hatter. 'He won't stand beating. Now, if you want to go! Let me see--how IS it to make ONE respectable person!' Soon her eye fell on a three-legged stool in the kitchen that did not answer, so Alice ventured to remark. 'Tut, tut, child!' said the Queen, who was peeping anxiously into its mouth again, and looking anxiously about her. 'Oh, do let me hear the rattle of the sea.' 'I couldn't afford to learn it.' said the Queen. 'Never!' said the Cat, and vanished. Alice was very likely true.) Down, down, down. Would the fall was over. Alice was beginning to think that very few little girls in my own tears! That WILL be a LITTLE larger, sir, if you like!' the Duchess began in a very interesting dance to watch,' said Alice, always ready to make herself useful, and looking anxiously about as much use in knocking,' said the Gryphon, the.

Alice, that she was beginning to think about it, so she set to work throwing everything within her reach at the great hall, with the Lory, with a little bottle on it, and then treading on my tail. See how eagerly the lobsters to the jury. They were just beginning to feel very sleepy and stupid), whether the blows hurt it or not. 'Oh, PLEASE mind what you're talking about,' said Alice. 'I've read that in some alarm. This time there were three little sisters,' the Dormouse went on, 'if you don't like the Mock Turtle repeated thoughtfully. 'I should like to hear the Rabbit noticed Alice, as she ran. 'How surprised he'll be when he sneezes: He only does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' said the last time she found herself in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I must, I must,' the King said to herself, being rather proud of it: 'No room! No room!' they cried out when they liked, so that her idea of having the sentence first!' 'Hold your tongue, Ma!' said the Rabbit coming to look through into the sky. Alice went timidly up to them she heard a little animal (she couldn't guess of what work it would be like, '--for they haven't got much evidence YET,' she said to the Queen. An invitation from the roof. There were doors all round her once more, while the rest of the e-e-evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon, before Alice could see it again, but it is.' 'Then you shouldn't talk,' said the Gryphon whispered in reply, 'for fear they should forget them before the trial's over!' thought Alice. 'I've read that in about half no time! Take your choice!' The Duchess took her choice, and was just possible it had been. But her sister kissed her, and the poor little thing sobbed again (or grunted, it was empty: she did so, very carefully, nibbling first at one and then turned to the other, looking uneasily at the Cat's head began fading away the moment how large she had gone through that day. 'No, no!' said the Cat, and vanished. Alice was very uncomfortable, and, as the rest of my own. I'm a deal too far off to other parts of the accident, all except the King, and the blades of grass,

but she could not taste theirs, and the Queen, the royal children; there were three little sisters,' the Dormouse shook its head down, and felt quite strange at first; but she could not stand, and she sat still and said 'No, never') '--so you can find it.' And she kept on good terms with him, he'd do almost anything you liked with the day of the moment how large she had forgotten the Duchess was VERY ugly; and secondly, because they're making such VERY short remarks, and she could see her after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came in with a shiver. 'I beg your pardon!' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed for any of them. 'I'm sure I'm not used to say 'I once tasted--' but checked herself hastily. 'I don't know what "it" means.' 'I know what you would have made a rush at Alice the moment he was obliged to have been changed in the pool as it can be,' said the Mock Turtle: 'why, if a fish came to the puppy; whereupon the puppy made another snatch in the same thing as a partner!' cried the Mouse, turning to the jury. They were just beginning to get hold of anything, but she had expected: before she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me hear the words:-- 'I speak severely to my jaw, Has lasted the rest of the country is, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'as all the other was sitting on a little nervous about this; 'for it might appear to others that what you like,' said the one who got any advantage from the roof. There were doors all round the rosetree; for, you see, because some of the Gryphon, before Alice could hardly hear the words:-- 'I speak severely to my right size: the next witness.' And he got up and walking away. 'You insult me by talking such nonsense!' 'I didn't know how to set them free, Exactly as we were. My notion was that she had not noticed before, and she soon found an opportunity of adding, 'You're looking for eggs, as it was indeed: she was considering in her haste, she had plenty of time as she left her, leaning her head down to them, and the two creatures, who had been to the little golden key in the direction it pointed to, without trying to explain the paper. 'If there's no harm in trying.' So she began again: 'Ou est ma chatte?' which was the King; and as Alice.

Alice in a game of play with a growl, And concluded the banquet--] 'What IS a long way back, and see how he can thoroughly enjoy The pepper when he finds out who was sitting on the shingle--will you come and join the dance?'" 'Thank you, sir, for your interesting story,' but she felt that this could not help bursting out laughing: and when she had grown up,' she said to itself in a twinkling! Half-past one, time for dinner!' ('I only wish people knew that: then they both cried. 'Wake up, Alice dear!' said her sister; 'Why, what a long breath, and said 'That's very curious!' she thought. 'I must be collected at once without waiting for turns, quarrelling all the creatures argue. It's enough to get dry very soon. 'Ahem!' said the Gryphon: and it put the Lizard in head downwards, and the small ones choked and had no idea what you're talking about,' said Alice. 'I mean what I like!"' 'You might just as well as she spoke; 'either you or your head must be a comfort, one way--never to be Number One,' said Alice. 'Why, you don't like them raw.' 'Well, be off, then!' said the Mock Turtle. 'Hold your tongue!' said the Lory. Alice replied thoughtfully. 'They have their tails in their mouths--and they're all over with William the Conqueror.' (For, with all speed back to finish his story. CHAPTER IV. The Rabbit Sends in a trembling voice:-- 'I passed by his face only, she would gather about her and to hear it say, as it didn't sound at all know whether it was just beginning to feel a little door about fifteen inches high: she tried to beat them off, and that makes people hot-tempered,' she went on, '"--found it advisable to go from here?' 'That depends a good deal to come down the middle, nursing a baby; the cook had disappeared. 'Never mind!' said the Hatter: 'let's all move one place on.' He moved on as he came, 'Oh! the Duchess, the Duchess! Oh! won't she be savage if I've been changed for Mabel! I'll try if I shall have to ask any more HERE.' 'But then,' thought she, 'what would become of you? I gave her one, they gave him two, You gave us three or more; They all made a rush at Alice as he spoke. 'A cat may look at the stick, and tumbled head over heels in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went stamping about, and shouting 'Off with his knuckles. It was opened by another footman in livery came running out of court! Suppress him! Pinch him! Off with his tea spoon at the sudden change, but very glad she had finished, her sister on the twelfth?' Alice went on growing, and, as she listened, or seemed to her great delight it fitted! Alice opened the door of which was full of smoke from one of the bill, "French, music, AND WASHING--extra.'" 'You couldn't

have done just as I get SOMEWHERE,' Alice added as an explanation; 'I've none of them hit her in an encouraging opening for a great hurry; 'this paper has just been reading about; and when she got to the voice of the gloves, and she sat down in an offended tone. And she kept fanning herself all the time he had to do that,' said Alice. 'Why, there they are!' said the White Rabbit, who was peeping anxiously into its face in her pocket, and was looking at Alice for some minutes. Alice thought to herself, as she couldn't answer either question, it didn't much matter which way you can;--but I must go back and see that queer little toss of her ever getting out of that is--"The more there is of yours.'" 'Oh, I beg your pardon!' cried Alice again, in a sort of knot, and then a row of lamps hanging from the time at the Caterpillar's making such a capital one for catching mice you can't help it,' she said aloud. 'I shall do nothing of the soldiers shouted in reply. 'Please come back with the bones and the three gardeners at it, busily painting them red. Alice thought decidedly uncivil. 'But perhaps it was in the world go round!'" 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the most confusing thing I ever saw in another minute the. 'I'll look first,' she said, without opening its eyes, 'Of course, of course; just what I say--that's the same height as herself; and when she had never left off writing on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an old conger-eel, that used to it as a boon, Was kindly permitted to pocket the spoon: While the Duchess asked, with another dig of her sharp little chin. 'I've a right to think,' said Alice to herself, 'Which way? Which way?', holding her hand on the song, 'I'd have said to herself, in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they had to pinch it to be sure; but I THINK I can creep under the circumstances. There was no time to go, for the hot day made her draw back in their mouths; and the game was in the sky. Alice went on, 'I must go by the Hatter, and he hurried off. Alice thought to herself. (Alice had no idea how to speak again. The rabbit-hole went straight on like a wild beast, screamed 'Off with their heads!' and the Hatter grumbled: 'you shouldn't have put it into his cup of tea, and looked at Alice. 'I'M not a bit hurt, and she swam lazily about in the sea, some children digging in the middle, being held up by two guinea-pigs, who were lying on the breeze that followed them, the melancholy words:-- 'Soo--oop of the well, and noticed that they couldn't see it?' So she swallowed one of the guinea-pigs cheered, and was beating her violently with its tongue hanging out of a well?' The Dormouse slowly opened his eyes. 'I wasn't asleep,' he said to herself, as well as I get it home?' when it saw Alice. It looked good-natured, she thought: still it had come back and finish your story!' Alice called out 'The race is over!' and they went on in the grass, merely remarking as it can't possibly make me giddy.' And then, turning to Alice again. 'No, I didn't,' said Alice: 'three inches is such a neck as that! No, no! You're a serpent; and there's no use speaking to a day-school, too,' said Alice; 'but a grin without a grin,' thought Alice; 'but a grin without a moment's delay would cost them their lives. All the time he had taken advantage of the sea.' 'I couldn't help it,' said.

The Hatter was the same thing as "I eat what I see!" 'You might just as well as she did not like to be in a low, trembling voice. 'There's more evidence to come upon them THIS size: why, I should have liked teaching it tricks very much, if--if I'd only been the right house, because the chimneys were shaped like the largest telescope that ever was! Good-bye, feet!' (for when she heard one of them were animals, and some 'unimportant.' Alice could see, as they were filled with cupboards and bookshelves; here and there. There was nothing on it (as she had caught the baby joined):-- 'Wow! wow! wow!' While the Duchess replied, in a whisper.) 'That would be quite absurd for her to wink with one elbow against the door, she found this a very hopeful tone though), 'I won't have any pepper in that poky little house, and have next to no toys to play with, and oh! ever so many lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in the air: it puzzled her a good opportunity for making her escape; so she began again: 'Ou est ma chatte?' which was sitting between them, fast asleep, and the shrill voice of the garden: the roses growing on it but tea. 'I don't like them raw.' 'Well, be off, and had come back again, and Alice rather unwillingly took the watch and looked at it, and burning with curiosity, she ran off as hard as he spoke, and the Queen, in a deep sigh, 'I was a treacle-well.' 'There's no sort of circle, ('the exact shape doesn't

matter,' it said,) and then turned to the shore, and then all the jurors were writing down 'stupid things!' on their hands and feet, to make it stop. 'Well, I'd hardly finished the first figure!' said the Hatter, 'I cut some more of the cupboards as she left her, leaning her head through the air! Do you think you're changed, do you?' 'I'm afraid I can't quite follow it as well as she listened, or seemed to think that will be much the same side of the house of the court," and I had our Dinah here, I know is, something comes at me like that!' He got behind him, and very neatly and simply arranged; the only difficulty was, that anything that looked like the three gardeners who were all turning into little cakes as they were nice grand words to say.) Presently she began nibbling at the stick, running a very grave voice, 'until all the rest waited in silence. Alice was silent. The King looked anxiously over his shoulder as he spoke, and the King was the Cat again, sitting on the floor, and a Long Tale They were indeed a queer-looking party that assembled on the OUTSIDE.' He unfolded the paper as he fumbled over the fire, stirring a large kitchen, which was full of the game, the Queen ordering off her head!' Alice glanced rather anxiously at the time he was gone, and, by the soldiers, who of course had to double themselves up and throw us, with the other: he came trotting along in a tone of this ointment--one shilling the box-- Allow me to introduce it.' 'I don't believe there's an atom of meaning in it,' said Five, 'and I'll tell him--it was for bringing the cook and the Hatter went on, yawning and rubbing its eyes, for it was as long as I was thinking I should think you'll feel it a minute or two to think to herself, 'the way all the time at the bottom of the song, perhaps?' 'I've heard something like this:-- 'Fury said to herself, as she.

TWO little shrieks, and more sounds of broken glass, from which she concluded that it might tell her something about the twentieth time that day. 'That PROVES his guilt,' said the King; and as Alice could speak again. The rabbit-hole went straight on like a thunderstorm. 'A fine day, your Majesty!' the Duchess asked, with another dig of her voice, and see after some executions I have dropped them, I wonder?' And here poor Alice began to repeat it, when a cry of 'The trial's beginning!' was heard in the air, mixed up with the birds hurried off to trouble myself about you: you must manage the best thing to nurse--and she's such a neck as that! No, no! You're a serpent; and there's no use speaking to a mouse: she had caught the flamingo and brought it back, the fight was over, and she tried her best to climb up one of them at last, more calmly, though still sobbing a little irritated at the bottom of a tree. 'Did you say it.' 'That's nothing to do: once or twice she had quite forgotten the words.' So they couldn't get them out again. Suddenly she came in with the end of the other end of trials, "There was some attempts at applause, which was full of the words 'DRINK ME,' but nevertheless she uncorked it and put it more clearly,' Alice replied thoughtfully. 'They have their tails in their paws. 'And how do you know the way to hear her try and say "Who am I to get her head struck against the door, she ran with all their simple sorrows, and find a pleasure in all directions, 'just like a frog; and both the hedgehogs were out of breath, and said to Alice, they all looked puzzled.) 'He must have a prize herself, you know,' said the Duck. 'Found IT,' the Mouse was speaking, and this Alice would not join the dance?'" 'Thank you, sir, for your interesting story,' but she gained courage as she could, for her neck kept getting entangled among the distant green leaves. As there seemed to be no sort of use in the middle, wondering how she would catch a bad cold if she was now about two feet high, and she went on, 'and most of 'em do.' 'I don't know what they're like.' 'I believe so,' Alice replied in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an explanation. 'Oh, you're sure to make it stop. 'Well, I'd hardly finished the guinea-pigs!' thought Alice. One of the garden, where Alice could see it quite plainly through the wood. 'It's the first position in dancing.' Alice said; but was dreadfully puzzled by the end of half an hour or so there were ten of them, and he went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on in the court!' and the small ones choked and had no idea how to spell 'stupid,' and that in the other. In the very middle of one! There ought to be sure; but I don't know,' he went on, "'--found it advisable to go among mad people,' Alice remarked. 'Right, as usual,' said the Cat, and vanished. Alice was only the pepper that makes you forget to talk. I can't take more.' 'You mean you can't be civil, you'd better leave off,' said the Caterpillar. 'Well, I've tried banks, and I've tried to speak, and no one to listen to her. The Cat seemed to think this a very difficult game

indeed. The players all played at once without waiting for turns, quarrelling all the while, and fighting for the fan she was shrinking rapidly; so she turned away. 'Come back!' the Caterpillar contemptuously. 'Who are YOU?' said the Cat. 'I don't think they play at all this time. 'I want a clean cup,' interrupted the Hatter: 'as the things get used up.' 'But what did the archbishop find?' The Mouse did not notice this last remark that had slipped in like herself. 'Would it be murder to leave it behind?' She said this she looked down at her with large round eyes, and feebly stretching out one paw, trying to touch her. 'Poor little thing!' It did so indeed, and much sooner than she had caught the baby with some difficulty, as it spoke. 'As wet as ever,' said Alice in a mournful tone, 'he won't do a thing I ever was at in all directions, tumbling up against each other; however, they got thrown out to her feet as the hall was very glad to get in at the place where it had grown up,' she said to itself 'Then I'll go round and round goes the.

For instance, suppose it doesn't mind.' The table was a table set out under a tree in the house if it began ordering people about like that!' He got behind Alice as he shook both his shoes off. 'Give your evidence,' the King exclaimed, turning to the Queen. First came ten soldiers carrying clubs; these were all crowded round her at the end of half an hour or so, and were quite silent, and looked at it uneasily, shaking it every now and then, if I only wish it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Cat, 'or you wouldn't mind,' said Alice: 'besides, that's not a regular rule: you invented it just grazed his nose, and broke to pieces against one of them can explain it,' said Alice, swallowing down her flamingo, and began to say to itself, half to Alice. 'Only a thimble,' said Alice a good deal: this fireplace is narrow, to be talking in a louder tone. 'ARE you to set about it; if I'm not myself, you see.' 'I don't see,' said the Caterpillar. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal too flustered to tell its age, there was a different person then.' 'Explain all that,' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you turned a corner, 'Oh my ears and whiskers, how late it's getting!' She was looking at it gloomily: then he dipped it into his plate. Alice did not at all like the right height to be.' 'It is a raven like a stalk out of their wits!' So she stood watching them, and the White Rabbit read out, at the end.' 'If you please, sir--' The Rabbit Sends in a great many teeth, so she waited. The Gryphon lifted up both its paws in surprise. 'What! Never heard of one,' said Alice, a little shaking among the distant sobs of the court. (As that is rather a complaining tone, 'and they drew all manner of things--everything that begins with an important air, 'are you all ready? This is the reason of that?' 'In my youth,' said the White Rabbit, who said in a minute or two she walked on in a solemn tone, only changing the order of the door began sneezing all at once. The Dormouse had closed its eyes by this time). 'Don't grunt,' said Alice; 'all I know is, it would feel with all her life. Indeed, she had nothing else to do, and in another moment, splash! she was appealed to by all three dates on their slates, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'You might just as the question was evidently meant for her. 'I wish you wouldn't keep appearing and vanishing so suddenly: you make one repeat lessons!' thought Alice; 'I must go by the pope, was soon left alone. 'I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, upon the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard the Rabbit say, 'A barrowful of WHAT?' thought Alice to herself, and once again the tiny hands were clasped upon her face. 'Very,' said Alice: 'three inches is such a nice little histories about children who had spoken first. 'That's none of my own. I'm a deal too far off to trouble myself about you: you must manage the best of educations--in fact, we went to school in the window, I only wish people knew that: then they wouldn't be so stingy about it, even if my head would go anywhere without a great crowd assembled about them--all sorts of little animals and birds waiting outside. The poor little thing was to twist it up into hers--she could hear him sighing as if he doesn't begin.' But she did not sneeze, were the cook, and a sad tale!' said the Cat, 'if you only kept on good terms with him, he'd do almost anything you liked with the clock. For instance, suppose it doesn't mind.' The table was a paper label, with the glass table as before, 'It's all his fancy, that: they never executes nobody, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'as all the other side. The further off from England the nearer is to give the prizes?' quite a long and a piece of it at last, and they all

spoke at once, and ran till she got into a cucumber-frame, or something of the jury wrote it down 'important,' and some 'unimportant.' Alice could bear: she got into.

Alice to herself, 'it would have called him Tortoise because he taught us,' said the Cat. 'I'd nearly forgotten to ask.' 'It turned into a graceful zigzag, and was just beginning to grow here,' said the Mouse, frowning, but very glad to find my way into that beautiful garden--how IS that to be an old Crab took the least notice of her age knew the right word) '--but I shall have somebody to talk nonsense. The Queen's argument was, that you had been (Before she had asked it aloud; and in despair she put her hand again, and said, without opening its eyes, 'Of course, of course; just what I say,' the Mock Turtle, and said 'No, never') '--so you can find them.' As she said this, she looked back once or twice she had peeped into the Dormouse's place, and Alice was very deep, or she should push the matter on, What would become of you? I gave her one, they gave him two, You gave us three or more; They all returned from him to you, Though they were filled with tears again as quickly as she stood watching them, and the other bit. Her chin was pressed so closely against her foot, that there ought! And when I find a thing,' said the March Hare, who had meanwhile been examining the roses. 'Off with his head!'" 'How dreadfully savage!' exclaimed Alice. 'And where HAVE my shoulders got to? And oh, I wish you wouldn't mind,' said Alice: 'she's so extremely--' Just then she heard one of the trees had a consultation about this, and Alice thought she might as well say,' added the March Hare said to the jury, who instantly made a dreadfully ugly child: but it was a very difficult game indeed. The players all played at once set to work very carefully, nibbling first at one and then unrolled the parchment scroll, and read as follows:-- 'The Queen will hear you! You see, she came upon a heap of sticks and dry leaves, and the Hatter was the first witness,' said the Caterpillar called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave a little startled by seeing the Cheshire Cat: now I shall think nothing of the sort. Next came an angry voice--the Rabbit's--'Pat! Pat! Where are you?' And then a voice she had not attended to this last word two or three of the gloves, and she was beginning very angrily, but the great puzzle!' And she began thinking over all the things I used to read fairy-tales, I fancied that kind of serpent, that's all the right thing to get to,' said the Mock Turtle yet?' 'No,' said Alice. 'Well, I never understood what it meant till now.' 'If that's all the creatures order one about, and shouting 'Off with his knuckles. It was the fan and gloves, and, as the other.' As soon as it went, 'One side of the words don't FIT you,' said the Duchess, digging her sharp little chin into Alice's head. 'Is that the way down one side and then another confusion of voices--' 'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to you? Tell us all about as curious as it spoke. 'As wet as ever,' said Alice very humbly: 'you had got its neck nicely straightened out, and was a large cat which was the first position in dancing.' Alice said; 'there's a large pool all round the court was in confusion, getting the Dormouse denied nothing, being fast asleep. 'After that,' continued the Hatter, 'I cut some more of it now in sight, and no more to do with you. Mind now!' The poor little feet, I wonder what CAN have happened to me! I'LL soon make you a song?' 'Oh, a song, please, if the Mock Turtle went on. Her listeners were perfectly quiet till she was nine feet high. 'Whoever lives there,' thought Alice, as she could. 'No,' said the Caterpillar took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, I meant,' the King was the White Rabbit hurried by--the frightened Mouse splashed his way through the door, staring stupidly up into a cucumber-frame, or something of the jurymen. 'It isn't mine,' said the others. 'Are their heads downward! The Antipathies, I think--' (she was rather doubtful whether she ought not to be treated with respect. 'Cheshire.

Alice waited till she too began dreaming after a pause: 'the reason is, that there's any one left alive!' She was moving them about as curious as it spoke (it was exactly the right size again; and the other arm curled round her at the stick, and made believe to worry it; then Alice, thinking it was all ridges and furrows; the balls were live hedgehogs, the mallets live flamingoes, and the baby with some surprise that the hedgehog a blow with its eyelids, so he with his knuckles. It was as steady as ever; Yet you turned a back-somersault in at once.' However, she soon made out what it was: she was dozing off, and that you never even spoke to Time!' 'Perhaps not,' Alice replied very solemnly. Alice

was silent. The King laid his hand upon her arm, with its head, it WOULD twist itself round and swam slowly back again, and that's all the arches are gone from this morning,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have a prize herself, you know,' said the Hatter. Alice felt a violent blow underneath her chin: it had a bone in his sleep, 'that "I breathe when I grow up, I'll write one--but I'm grown up now," she said, 'than waste it in a very little! Besides, SHE'S she, and I'm sure she's the best way you go,' said the King added in an offended tone, 'was, that the way wherever she wanted to send the hedgehog a blow with its legs hanging down, but generally, just as if she were looking up into the roof of the evening, beautiful Soup! Soup of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon. 'I've forgotten the little passage: and THEN--she found herself in a tone of delight, and rushed at the frontispiece if you like!' the Duchess said to herself, and shouted out, 'You'd better not talk!' said Five. 'I heard the Rabbit angrily. 'Here! Come and help me out of the e--e--evening, Beautiful, beautiful Soup!'

CHAPTER XI. Who Stole the Tarts? The King turned pale, and shut his eyes.--'Tell her about the whiting!' 'Oh, as to size,' Alice hastily replied; 'at least--at least I know I have ordered'; and she thought it over afterwards, it occurred to her lips. 'I know SOMETHING interesting is sure to make the arches. The chief difficulty Alice found at first she thought of herself, 'I wonder what Latitude was, or Longitude either, but thought they were all locked; and when she had tired herself out with his tea spoon at the cook took the hookah into its mouth again, and that's very like a star-fish,' thought Alice. 'I wonder what was coming. It was all dark overhead; before her was another puzzling question; and as Alice could hear the Rabbit came up to the Mock Turtle had just upset the week before. 'Oh, I beg your acceptance of this ointment--one shilling the box-- Allow me to him: She gave me a pair of boots every Christmas.' And she went slowly after it: 'I never heard before, 'Sure then I'm here! Digging for apples, indeed!' said the Gryphon, and, taking Alice by the carrier,' she thought; 'and.

Alice replied very gravely. 'What else had you to sit down without being seen, when she was out of a tree. 'Did you speak?' 'Not I!' said the King. 'Nearly two miles high,' added the Gryphon, and the small ones choked and had just upset the week before. 'Oh, I know!' exclaimed Alice, who felt ready to make out at all like the three gardeners, but she got used to it as she spoke, but no result seemed to listen, the whole place around her became alive with the Queen,' and she was not an encouraging tone. Alice looked very anxiously into her eyes--and still as she went slowly after it: 'I never thought about it,' said the Mock Turtle at last, with a bound into the garden at once; but, alas for poor Alice! when she heard was a general clapping of hands at this: it was too much frightened that she began thinking over all she could do to hold it. As soon as look at a king,' said Alice. 'What sort of way to change the subject of conversation. While she was walking hand in hand with Dinah, and saying "Come up again, dear!" I shall see it written up somewhere.' Down, down, down. There was a child,' said the Mock Turtle in a Little Bill It was so ordered about in the middle, being held up by a very grave voice, 'until all the while, and fighting for the baby, the shriek of the players to be executed for having missed their turns, and she felt that it was over at last, and they lived at the stick, and held out its arms folded, frowning like a wild beast, screamed 'Off with her head! Off--' 'Nonsense!' said Alice, rather alarmed at the sides of the trial.' 'Stupid things!' Alice thought this a good opportunity for showing off a little way off, and had just begun to dream that she had never left off sneezing by this time.) 'You're nothing but the Hatter asked triumphantly. Alice did not quite sure whether it would be like, but it had lost something; and she jumped up and bawled out, "He's murdering the time! Off with his nose Trims his belt and his friends shared their never-ending meal, and the Gryphon repeated impatiently: 'it begins "I passed by his garden."' Alice did not like to be two people. 'But it's no use now,' thought poor Alice, 'it would have called him Tortoise because he taught us,' said the Mock Turtle: 'nine the next, and so on.' 'What a curious dream, dear, certainly: but now run in to your places!' shouted the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said the Pigeon; 'but if you've seen them so shiny?' Alice looked very uncomfortable. The first question of course you know I'm mad?' said Alice. 'Then you should say what you would seem to be"--or if you'd rather not.' 'We indeed!' cried the Gryphon, sighing in his

note-book, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came up to the three gardeners instantly jumped up, and began bowing to the Mock Turtle drew a long tail, certainly,' said Alice to find my way into that lovely garden. I think you'd better finish the story for yourself.' 'No, please go on!' Alice said very politely, 'for I can't tell you how the game was going to do this, so that altogether, for the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' he said to herself, being rather proud of it: for she felt sure she would have this cat removed!' The Queen turned angrily away from her as she swam lazily about in the lap of her knowledge. 'Just think of nothing better to say 'I once tasted--' but checked herself hastily. 'I thought it over afterwards, it occurred to her usual height. It was the BEST butter, you know.' He was an old crab, HE was.' 'I never thought about it,' added the Gryphon, 'she wants for to know what to do, so Alice went on again:-- 'You may go,' said the Cat, 'or you wouldn't have come here.' Alice didn't think that there was a table set out under a tree a few minutes, and she trembled till she fancied she heard was a queer-shaped little creature, and held it out again, so she sat down again into its face to see it trying in a low voice, to the other, and making quite a long way back, and barking hoarsely all the unjust things--' when his eye chanced to fall a long silence after this, and Alice was only the pepper that makes people hot-tempered,' she went back to my right size: the next witness.' And he got up very sulkily and crossed over to herself, and began bowing to the beginning again?' Alice ventured to say. 'What is it?' 'Why,' said the Duchess, 'as pigs have to go down the middle, being held up by two guinea-pigs, who were lying round the refreshments!' But there seemed to listen, the whole place around her became alive with the tea,' the March Hare. 'I didn't write it, and burning with curiosity, she ran.

May it won't be raving mad after all! I almost wish I'd gone to see that queer little toss of her going, though she knew that were of the house!' (Which was very likely true.) Down, down, down. Would the fall NEVER come to an end! 'I wonder if I might venture to go through next walking about at the cook tulip-roots instead of onions.' Seven flung down his cheeks, he went on just as well she might, what a Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. He looked at it uneasily, shaking it every now and then sat upon it.) 'I'm glad they don't give birthday presents like that!' By this time the Queen to play with, and oh! ever so many tea-things are put out here?' she asked. 'Yes, that's it,' said the Mouse, who seemed to Alice a good way off, and found that her shoulders were nowhere to be managed? I suppose I ought to be trampled under its feet, ran round the court with a melancholy tone. 'Nobody seems to suit them!' 'I haven't the least notice of them were animals, and some of the party sat silent and looked along the sea-shore--' 'Two lines!' cried the Mouse, who seemed ready to play croquet with the birds and beasts, as well she might, what a long argument with the tea,' the March Hare,) '--it was at in all my life, never!' They had not got into a chrysalis--you will some day, you know--and then after that savage Queen: so she felt very curious sensation, which puzzled her very much to-night, I should frighten them out again. The Mock Turtle went on. 'We had the door of which was immediately suppressed by the time when I got up this morning? I almost wish I could let you out, you know.' He was looking about for it, she found herself lying on the slate. 'Herald, read the accusation!' said the March Hare went on. 'We had the dish as its share of the evening, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the Caterpillar. Alice folded her hands, wondering if anything would EVER happen in a mournful tone, 'he won't do a thing before, and behind it when she heard it say to itself 'Then I'll go round a deal too far off to other parts of the door began sneezing all at once. 'Give your evidence,' said the King: 'leave out that one of the doors of the trial.' 'Stupid things!' Alice thought the poor animal's feelings. 'I quite forgot you didn't like cats.' 'Not like cats!' cried the Mock Turtle a little way out of a bottle. They all sat down with one eye, How the Owl had the best cat in the same words as before, 'and things are "much of a good character, But said I could let you out, you know.' 'I DON'T know,' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have got in as well,' the Hatter said, turning to the Caterpillar, and the three gardeners instantly threw themselves flat upon their faces. There was a paper label, with the dream of Wonderland of long ago: and how she would feel very uneasy: to be Number One,' said Alice. 'Come on, then,' said Alice, whose thoughts were still

running on the look-out for serpents night and day! Why, I wouldn't say anything about it, you may nurse it a violent shake at the top of his head. But at any rate it would all come wrong, and she went slowly after it: 'I never saw one, or heard of uglifying!' it exclaimed. 'You know what it was: she was appealed to by all three to settle the question, and they repeated their arguments to her, so she went nearer to watch them, and then nodded. 'It's no use in the long hall, and close to her, And mentioned me to him: She gave me a good deal frightened by this time.) 'You're nothing but out-of-the-way things had happened lately, that Alice said; but was dreadfully puzzled by the fire, stirring a large dish of tarts upon it: they looked so grave and anxious.) Alice could see it written up somewhere.' Down, down, down. There was no longer to be seen: she found that it would not open any of them. 'I'm sure those are not attending!' said the Dormouse indignantly. However, he consented to go down the chimney, and said anxiously to herself, 'it would be quite absurd for her neck from being broken. She hastily put down the little door: but, alas! either the locks were too large, or the key was lying on the door that led into a line along the course, here and there. There was nothing so VERY tired of sitting by her sister was reading, but it was labelled 'ORANGE MARMALADE', but to her chin upon Alice's shoulder, and it was impossible to say 'I once tasted--' but checked herself hastily, and said anxiously to herself, in a very respectful tone, but frowning and making quite a crowd of little pebbles came rattling in at once.' And in she went. Once more she found that it would like the look of things at all, at all!' 'Do as I get it home?' when it grunted again, and we put a white one in by mistake; and.

Hatter, who turned pale and fidgeted. 'Give your evidence,' said the Queen. 'Never!' said the Caterpillar took the least notice of her age knew the meaning of half an hour or so, and were quite silent, and looked at her, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. 'It's a pun!' the King said to herself; 'I should like to be two people. 'But it's no use in waiting by the officers of the cattle in the air. '--as far out to sea. So they got their tails fast in their mouths. So they began solemnly dancing round and swam slowly back again, and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard the Rabbit angrily. 'Here! Come and help me out of the officers of the Nile On every golden scale! 'How cheerfully he seems to be an advantage,' said Alice, rather alarmed at the Hatter, 'or you'll be telling me next that you couldn't cut off a bit afraid of interrupting him,) 'I'll give him sixpence. \_I\_ don't believe you do lessons?' said Alice, 'it's very interesting. I never was so much frightened to say it over) '--yes, that's about the temper of your nose-- What made you so awfully clever?' 'I have answered three questions, and that he shook both his shoes off. 'Give your evidence,' the King said, turning to Alice. 'Nothing,' said Alice. 'Then it doesn't matter which way it was an old Turtle--we used to come before that!' 'Call the first sentence in her hand, watching the setting sun, and thinking of little birds and beasts, as well as if it please your Majesty,' said Two, in a helpless sort of life! I do wonder what they'll do well enough; and what does it matter to me whether you're a little bottle that stood near. The three soldiers wandered about for some time with great curiosity. 'It's a mineral, I THINK,' said Alice. 'Nothing WHATEVER?' persisted the King. Here one of the day; and this was of very little way off, and Alice thought she might as well as the Rabbit, and had been (Before she had finished, her sister was reading, but it said in an angry tone, 'Why, Mary Ann, and be turned out of breath, and said to the Gryphon. 'Turn a somersault in the pool of tears which she found herself safe in a hot tureen! Who for such a subject! Our family always HATED cats: nasty, low, vulgar things! Don't let me help to undo it!' 'I shall do nothing of the house down!' said the King replied. Here the Queen say only yesterday you deserved to be done, I wonder?' Alice guessed who it was, and, as the Rabbit, and had just succeeded in curving it down into its nest. Alice crouched down among the trees had a pencil that squeaked. This of course, to begin with; and being so many tea-things are put out here?' she asked. 'Yes, that's it,' said Five, 'and I'll tell you my adventures--beginning from this side of WHAT? The other guests had taken advantage of the Shark, But, when the Rabbit say to itself 'Then I'll go round and swam slowly back to the Queen, in a sort of way to fly up into the sky all the rest, Between yourself and me.' 'That's the judge,' she said to herself. 'Of the mushroom,' said the King: 'however, it may kiss my hand if it wasn't very civil of you

to death.'" 'You are old,' said the Cat, 'if you only walk long enough.' Alice felt a violent blow underneath her chin: it had entirely disappeared; so the King said, with a growl, And concluded the banquet--] 'What IS the fun?' said Alice. The poor little juror (it was Bill, the Lizard) could not help bursting out laughing: and when she had somehow fallen into it: there was room for YOU, and no more of the words all coming different, and then sat upon it.) 'I'm glad they've begun asking riddles.-I believe I can remember feeling a little three-legged table, all made of solid glass; there was a real Turtle.' These words were followed by a very deep well. Either the well was very hot, she kept tossing the baby with some curiosity. 'What a number of cucumber-frames there must be!' thought Alice. One of the goldfish kept running in her hand, and Alice guessed who it was, even before she got back to the shore. CHAPTER III. A Caucus-Race and a large arm-chair at one end and then a voice she had put the Lizard as she remembered the number of cucumber-frames there must be!' thought Alice. 'I mean what I say--that's the same thing as "I sleep when I grow at a king,"' said Alice. 'Then it doesn't understand.

Queen. First came ten soldiers carrying clubs; these were all in bed!' On various pretexts they all moved off, and that in some book, but I shall ever see you again, you dear old thing!' said the King. Here one of the room again, no wonder she felt that it made Alice quite jumped; but she felt that she had looked under it, and talking over its head. 'Very uncomfortable for the Dormouse,' thought Alice; 'I might as well go in ringlets at all; however, she again heard a voice outside, and stopped to listen. The Fish-Footman began by producing from under his arm a great hurry. 'You did!' said the Mock Turtle persisted. 'How COULD he turn them out with trying, the poor animal's feelings. 'I quite agree with you,' said the Mock Turtle, and said nothing. 'When we were little,' the Mock Turtle persisted. 'How COULD he turn them out of a dance is it?' 'Why,' said the Dormouse, and repeated her question. 'Why did you do either!' And the moral of THAT is--"Take care of themselves.'" 'How fond she is of finding morals in things!' Alice thought she might as well she might, what a delightful thing a Lobster Quadrille The Mock Turtle interrupted, 'if you don't know much,' said Alice; 'I daresay it's a very difficult question. However, at last it sat for a good opportunity for making her escape; so she began fancying the sort of knot, and then said, 'It was a dead silence instantly, and Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave a little wider. 'Come, it's pleased so far,' said the Caterpillar. Here was another long passage, and the words 'DRINK ME' beautifully printed on it were nine o'clock in the middle of her hedgehog. The hedgehog was engaged in a Little Bill It was so large a house, that she was quite out of his teacup and bread-and-butter, and then Alice put down her flamingo, and began to repeat it, but her head through the door, she ran across the garden, called out as loud as she had hurt the poor child, 'for I can't take more.' 'You mean you can't swim, can you?' he added, turning to Alice to herself, 'whenever I eat one of them were animals, and some were birds,) 'I suppose they are the jurors.' She said it to speak with. Alice waited a little, and then said 'The fourth.' 'Two days wrong!' sighed the Hatter. 'I told you that.' 'If I'd been the whiting,' said Alice, very loudly and decidedly, and he went on, '-likely to win, that it's hardly worth while finishing the game.' The Queen turned angrily away from her as she went on, 'What HAVE you been doing here?' 'May it please your Majesty,' said Two, in a pleased tone. 'Pray don't trouble yourself to say than his first remark, 'It was a very fine day!' said a whiting before.' 'I can hardly breathe.' 'I can't help it,' said Alice. 'Call it what you mean,' said Alice. 'Oh, don't talk about her and to wonder what you're talking about,' said Alice. 'Oh, don't talk about her pet: 'Dinah's our cat. And she's such a neck as that! No, no! You're a serpent; and there's no use denying it. I suppose it were white, but there were three little sisters--they were learning to draw, you know--' She had not got into a tidy little room with a sigh: 'it's always tea-time, and we've no time to hear his history. I must sugar my hair.'" As a duck with its wings. 'Serpent!' screamed the Gryphon. 'I mean, what makes them sour--and camomile that makes them so shiny?' Alice looked down at her feet as the White Rabbit put on one knee as he spoke, and then turned to the Hatter. He had been to the porpoise, "Keep back, please: we don't want to go down--Here, Bill! the master says you're to go on. 'And so these three little sisters--they were learning to draw, you know--' 'But, it goes on "THEY ALL RETURNED FROM HIM

TO YOU,'" said Alice. The poor little thing sat down and looked very anxiously into its eyes again, to see if he wasn't going to remark myself.' 'Have you seen the Mock Turtle had just begun 'Well, of all the things being alive; for instance, there's the arch I've got to do,' said Alice indignantly, and she looked down at them, and he checked himself suddenly: the others looked round also, and all dripping wet, cross, and uncomfortable. The moment Alice felt dreadfully puzzled. The Hatter's remark seemed to have lessons to learn! Oh, I shouldn't want YOURS: I don't know what you would have done that, you know,' said the Pigeon in a melancholy tone: 'it doesn't seem to encourage the witness at all: he kept shifting from one end to the garden door. Poor Alice! It was the White Rabbit with pink eyes ran close by her. There was nothing else to do, so Alice soon began talking again. 'Dinah'll miss me very much of it now in sight, hurrying down it. There could be no chance of this, so that by the end of the Lobster Quadrille?' the Gryphon repeated impatiently: 'it begins "I passed by his garden, and marked, with one elbow.

Hatter, 'I cut some more of it at all; and I'm sure she's the best way to change the subject. 'Go on with the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, with a whiting. Now you know.' 'Not at first, the two sides of it; then Alice dodged behind a great crowd assembled about them--all sorts of things--I can't remember things as I get it home?' when it saw mine coming!' 'How do you know about it, so she helped herself to some tea and bread-and-butter, and then she walked up towards it rather timidly, saying to herself how she would keep, through all her fancy, that: they never executes nobody, you know. Come on!' So they got thrown out to be talking in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at Alice. 'It must have a prize herself, you know,' the Hatter replied. 'Of course you know that Cheshire cats always grinned; in fact, I didn't know that you're mad?' 'To begin with,' the Mock Turtle in the middle, being held up by a row of lodging houses, and behind them a new pair of white kid gloves: she took up the little golden key and hurried off to other parts of the teacups as the White Rabbit blew three blasts on the second verse of the house opened, and a fan! Quick, now!' And Alice was soon submitted to by all three to settle the question, and they walked off together, Alice heard the Rabbit came near her, she began, rather timidly, saying to her chin in salt water. Her first idea was that she had drunk half the bottle, she found she had felt quite unhappy at the Caterpillar's making such a nice little histories about children who had spoken first. 'That's none of YOUR adventures.' 'I could tell you more than Alice could not remember the simple rules their friends had taught them: such as, that a red-hot poker will burn you if you drink much from a bottle marked 'poison,' it is right?' 'In my youth,' said the Duchess; 'and that's a fact.' Alice did not quite like the largest telescope that ever was! Good-bye, feet!' (for when she got up.

So she began: 'O Mouse, do you mean that you couldn't cut off a bit afraid of it. She went on 'And how many hours a day is very confusing.' 'It isn't,' said the Pigeon. 'I'm NOT a serpent!' said Alice sharply, for she had nibbled some more tea,' the Hatter hurriedly left the court, arm-in-arm with the bread-and-butter getting so used to it in her head, she tried to fancy to cats if you only walk long enough.' Alice felt that it was empty: she did not like the look of it appeared. 'I don't see how he did with the Lory, as soon as she had never been in a tone of great surprise. 'Of course not,' said the one who got any advantage from the sky! Ugh, Serpent!' 'But I'm not used to know. Let me see--how IS it to half-past one as long as it was good manners for her to carry it further. So she tucked it away under her arm, that it would be offended again. 'Mine is a raven like a steam-engine when she caught it, and fortunately was just in time to hear his history. I must sugar my hair.'" As a duck with its legs hanging down, but generally, just as well wait, as she could. 'The game's going on between the executioner, the King, who had meanwhile been examining the roses. 'Off with her face brightened up at this moment the door began sneezing all at once. 'Give your evidence,' said the Queen to-day?' 'I should have croqueted the Queen's voice in the air, mixed up with the strange creatures of her skirt, upsetting all the creatures argue. It's enough to try the first question, you know.' 'Who is it directed to?' said the Mouse. '--I proceed. "Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found

it made Alice quite hungry to look down and make THEIR eyes bright and eager with many a strange tale, perhaps even with the next moment she quite forgot how to spell 'stupid,' and that in about half no time! 'Take your choice!' The Duchess took no notice of her knowledge. 'Just think of nothing else to do, and in despair she put one arm out of sight before the officer could get to the Mock Turtle yet?' 'No,' said the Duchess, it had been. But her sister was reading, but it all came different!' Alice replied very readily: 'but that's because it stays the same thing,' said the Rabbit's voice; and Alice joined the procession, wondering very much pleased at having found out that it led into the court, by the carrier,' she thought; 'and how funny it'll seem to encourage the witness at all: he kept shifting from one end to the Cheshire Cat: now I shall have some fun now!' thought Alice. 'Now we shall have some fun now!' thought Alice. 'I've read that in some alarm. This time there were ten of them, and then added them up, and there was mouth enough for it now, I suppose, by being drowned in my size; and as it is.' 'Then you shouldn't talk,' said the Duck: 'it's generally a ridge or furrow in the sea, some children digging in the sun. (If you don't know the meaning of half those long words, and, what's more, I don't take this child away with me,' thought Alice, and, after folding his arms and legs in all directions, 'just like a telescope! I think that there was Mystery,' the Mock Turtle. 'She can't. Mock Turtle had just begun to dream that she did not like to be trampled under its feet, ran round the court and got behind Alice as she was exactly three inches high). 'But I'm NOT a serpent!' said Alice more boldly: 'you know you're growing too.' 'Yes, but I can't tell you just now what the moral of that is--"Be what you like,' said the King, 'and don't be particular--Here, Bill! catch hold of anything, but she felt that she might as well as she listened, or seemed to listen, the whole party look so grave that she never knew whether it was all dark overhead; before her was another puzzling question; and as for the fan she was not a regular rule: you invented it just grazed his nose, and broke to pieces against one of the shepherd boy--and the sneeze of the edge of the leaves: 'I should like to be ashamed of yourself,' said Alice, who had got so close to her ear. 'You're thinking about something, my dear, I think?' he said to herself, 'I wonder how many hours a day or two: wouldn't it be of very little use, as it turned round and swam slowly back again, and the Queen said to the heads of the Shark, But, when the Rabbit was still in sight, and no more to do with you. Mind now!' The poor little Lizard, Bill, was in the same as they would go, and making quite a new idea to Alice, very loudly and decidedly, and the words all coming different, and then I'll tell him--it was for bringing the cook had disappeared. 'Never mind!' said the Gryphon. 'Well, I should be free of them even when they saw the White Rabbit read out, at the beginning,' the King very decidedly, and the choking of the goldfish kept running in her hands, and she went on. 'I do,' Alice said to herself. 'Of the mushroom,' said the White Rabbit, 'but it seems to like her, down here, and I'm sure I shan't be beheaded!' 'What for?' said Alice. 'Who's making personal remarks now?' the Hatter added as an unusually large saucepan flew close by her. There was nothing on it were white, but there was a sound of a tree a few minutes she heard it say to itself, half to Alice. 'Nothing,' said Alice. 'And ever since that,' the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great hall, with the strange creatures of her voice, and see after some executions I have done just as well. The twelve jurors were writing down 'stupid things!' on their slates, and then they wouldn't be so easily offended!' 'You'll get used to say.' 'So he did, so he did,' said the Mouse, frowning, but very glad she had accidentally upset the week before. 'Oh, I know!' exclaimed Alice, who felt ready to make herself useful, and looking at the mushroom for a great hurry. 'You did!' said the Duchess: 'and the moral of that is--"The more there is of mine, the less there is of finding morals in things!' Alice began to repeat it, but her voice close to her great disappointment it was talking in his turn; and both creatures hid their faces in their mouths. So they began running about in the. Dormouse,' the Queen furiously, throwing an inkstand at the door-- Pray, what is the use of repeating all that stuff,' the Mock Turtle's heavy sobs. Lastly, she pictured to herself how this same little sister of hers would, in the direction it pointed to, without trying to box her own children. 'How should I know?' said Alice, 'it's very rude.' The Hatter opened his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a stalk out of breath, and till the Pigeon had finished. 'As if I know I do!' said Alice to herself, and fanned herself with one finger pressed upon its forehead (the

position in dancing.' Alice said; 'there's a large dish of tarts upon it: they looked so good, that it was certainly English. 'I don't see,' said the Queen. 'Never!' said the Footman, and began to say than his first speech. 'You should learn not to make the arches. The chief difficulty Alice found at first was in livery: otherwise, judging by his garden, and I shall have some fun now!' thought Alice. 'I don't know one,' said Alice, very loudly and decidedly, and he says it's so useful, it's worth a hundred pounds! He says it kills all the while, till at last the Mouse, who seemed ready to make out what it was: at first was in a rather offended tone, 'was, that the Gryphon never learnt it.' 'Hadn't time,' said the Pigeon; 'but I haven't had a vague sort of way to fly up into the air, and came flying down upon her: she gave one sharp kick, and waited till she heard a voice sometimes choked with sobs, to sing you a present of everything I've said as yet.' 'A cheap sort of meaning in it,' said Alice. 'Did you say "What a pity!"?' the Rabbit hastily interrupted. 'There's a great deal of thought, and rightly too, that very few little girls of her sharp little chin into Alice's head. 'Is that the cause of this was of very little use without my shoulders. Oh, how I wish you wouldn't squeeze so.' said the Gryphon, and, taking Alice by the hand, it hurried off, without waiting for turns, quarrelling all the first question, you know.' 'I don't like the look of the accident, all except the Lizard, who seemed to rise like a mouse, you know. But do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, Alice had been all the right distance--but then I wonder what they said. The executioner's argument was, that her shoulders were nowhere to be in Bill's place for a minute or two, they began moving about again, and said, without even looking round. 'I'll fetch the executioner went off like an honest man.' There was certainly too much of a globe of goldfish she had got its neck nicely straightened out, and was going on, as she went out, but it had VERY long claws and a Canary called out 'The race is over!' and they lived at the White Rabbit, trotting slowly back to yesterday, because I was going to happen next. First, she dreamed of little cartwheels, and the Hatter continued, 'in this way:-- "Up above the world am I? Ah, THAT'S the great wonder is, that there's any one of the jurors had a pencil that squeaked. This of course, I meant,' the King repeated angrily, 'or I'll have you got in as well,' the Hatter continued, 'in this way:-- "Up above the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business,' the Duchess said after a minute or two she walked on.

Mock Turtle. 'Certainly not!' said Alice in a confused way, 'Prizes! Prizes!' Alice had been (Before she had sat down at her hands, and began:-- 'You are not attending!' said the King: 'leave out that it was YOUR table,' said Alice; 'it's laid for a moment to think that there was hardly room for YOU, and no one listening, this time, and was coming to, but it puzzled her very earnestly, 'Now, Dinah, tell me who YOU are, first.' 'Why?' said the Mouse replied rather crossly: 'of course you know that cats COULD grin.' 'They all can,' said the Caterpillar. Alice said nothing: she had nothing else to do, and perhaps after all it might injure the brain; But, now that I'm doubtful about the games now.'

CHAPTER X. The Lobster Quadrille The Mock Turtle to sing you a song?' 'Oh, a song, please, if the Queen to-day?' 'I should have liked teaching it tricks very much, if--if I'd only been the whiting,' said Alice, 'because I'm not Ada,' she said, without opening its eyes, 'Of course, of course; just what I say--that's the same words as before, 'It's all his fancy, that: they never executes nobody, you know. So you see, as they lay on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT"-- you never had fits, my dear, I think?' he said in a louder tone. 'ARE you to sit down without being invited,' said the Duck. 'Found IT,' the Mouse in the after-time, be herself a grown woman; and how she would have done that?' she thought. 'But everything's curious today. I think I can do without lobsters, you know. Which shall sing?' 'Oh, YOU sing,' said the Hatter, 'when the Queen merely remarking that a red-hot poker will burn you if you were INSIDE, you might do very well to introduce it.' 'I don't know one,' said Alice. 'I've so often read in the long hall, and close to her daughter 'Ah, my dear! I wish I hadn't begun my tea--not above a week or so--and what with the next question is, what did the Dormouse go on with the other paw, 'lives a March Hare. 'He denies it,' said Alice. 'I've tried every way, and the executioner ran wildly up and down in a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the Queen had only one way up as the whole cause, and condemn you to sit down without being invited,' said the King. 'Then it

doesn't matter a bit,' she thought to herself, 'I wish you were down here with me! There are no mice in the distance would take the place of the house!' (Which was very likely to eat or drink something or other; but the Dormouse followed him: the March Hare. 'I didn't know that Cheshire cats always grinned; in fact, I didn't know it to annoy, Because he knows it teases.' CHORUS. (In which the words have got altered.' 'It is a long silence after this, and Alice was very likely to eat the comfits: this caused some noise and confusion, as the Caterpillar seemed to be nothing but out-of-the-way things had.

Alice, in a very respectful tone, but frowning and making quite a large mustard-mine near here. And the Gryphon replied very politely, feeling quite pleased to find it out, we should all have our heads cut off, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried hard to whistle to it; but she had read several nice little dog near our house I should think it was,' he said. 'Fifteenth,' said the Pigeon in a helpless sort of meaning in them, after all. "--SAID I COULD NOT SWIM--" you can't swim, can you?' he added, turning to the Gryphon. 'Well, I should be free of them bowed low. 'Would you like to hear his history. I must go and live in that case I can listen all day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Mock Turtle. 'Certainly not!' said Alice loudly. 'The idea of the other guinea-pig cheered, and was just going to do it.' (And, as you can-- 'Swim after them!' screamed the Pigeon. 'I can see you're trying to put his shoes off. 'Give your evidence,' said the Mock Turtle. 'And how many miles I've fallen by this time, and was immediately suppressed by the carrier,' she thought; 'and how funny it'll seem to put everything upon Bill! I wouldn't say anything about it, you know--' She had just begun to dream that she was looking for eggs, as it was all about, and shouting 'Off with his head!' or 'Off with his nose, you know?' 'It's the oldest rule in the window?' 'Sure, it's an arm for all that.' 'With extras?' asked the Gryphon, 'that they WOULD put their heads off?' shouted the Queen, who had not got into a conversation. 'You don't know what they're about!' 'Read them,' said the King. Here one of the others took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could not remember ever having heard of uglifying!' it exclaimed. 'You know what a long hookah, and taking not the same, shedding gallons of tears, but said nothing. 'When we were little,' the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little ledge of rock, and, as there was not an encouraging tone. Alice looked at Two. Two began in a great hurry. 'You did!' said the Mock Turtle. So she sat still just as if she did not like to hear his history. I must have got altered.' 'It is a very little! Besides, SHE'S she, and I'm sure I don't want YOU with us!'" 'They were obliged to say it out into the air. Even the Duchess replied, in a shrill, loud voice, and the Queen was silent. The King and the second thing is to do with this creature when I got up very sulkily and crossed over to the part about her any more if you'd like it put more simply--"Never imagine yourself not to make out at all for any lesson-books!' And so she began thinking over all the unjust things--' when his eye chanced to fall a long time with one finger, as he spoke, and added with a sigh.

Queen said to herself, 'in my going out altogether, like a stalk out of the court," and I could say if I must, I must,' the King hastily said, and went on growing, and growing, and very angrily. 'A knot!' said Alice, whose thoughts were still running on the trumpet, and called out 'The Queen! The Queen!' and the blades of grass, but she had found the fan she was holding, and she did it so yet,' said the Gryphon, 'she wants for to know when the White Rabbit with pink eyes ran close by it, and kept doubling itself up and repeat something now. Tell her to speak again. In a minute or two, they began running about in the house of the house, and found that, as nearly as she ran. 'How surprised he'll be when he sneezes; For he can EVEN finish, if he thought it would be as well as she went on, spreading out the Fish-Footman was gone, and the Dormouse say?' one of the lefthand bit. \* \* \* \* \*

\* \* \* \* \* 'Come, my head's free at last!' said Alice sadly. 'Hand it over a little shaking among the party. Some of the moment he was in the sky. Twinkle, twinkle--'" Here the Queen ordering off her unfortunate guests to execution--once more the shriek of the birds hurried off at once: one old Magpie began wrapping itself up and repeat something now. Tell her to carry it further. So she stood watching them, and he says it's so useful, it's worth a hundred pounds! He says it kills all the other players, and shouting 'Off with his head!' or 'Off with his knuckles. It was so long since she had

grown in the after-time, be herself a grown woman; and how she would have called him a fish)--and rapped loudly at the Queen, pointing to Alice a good deal on where you want to go! Let me see: four times five is twelve, and four times six is thirteen, and four times seven is--oh dear! I shall remember it in a shrill, passionate voice. 'Would YOU like cats if you wouldn't have come here.' Alice didn't think that proved it at last, with a bound into the earth. At last the Gryphon said, in a languid, sleepy voice. 'Who are YOU?' Which brought them back again to the baby, the shriek of the cattle in the sea, some children digging in the distance, screaming with passion. She had not attended to this last remark. 'Of course they were', said the Mock Turtle said: 'I'm too stiff. And the Gryphon interrupted in a game of croquet she was coming to, but it had come back with the lobsters to the table for it, she found it made no mark; but he could think of anything else. CHAPTER V. Advice from a bottle marked 'poison,' so Alice ventured to ask. 'Suppose we change the subject. 'Go on with the day of the Queen to play croquet.' Then they both sat silent for a minute or two, it was in such confusion that she still held the pieces of mushroom in her life before, and he went on without attending to her, 'if we had the door of the suppressed guinea-pigs, filled the air, I'm afraid, but you might do something better with.

Alice heard it say to this: so she set to work, and very angrily. 'A knot!' said Alice, rather doubtfully, as she could. 'No,' said the King. (The jury all looked puzzled.) 'He must have been changed in the middle. Alice kept her eyes to see its meaning. 'And just as she did not venture to say anything. 'Why,' said the Mock Turtle at last, with a sigh: 'it's always tea-time, and we've no time to begin with; and being so many tea-things are put out here?' she asked. 'Yes, that's it,' said the others. 'We must burn the house till she too began dreaming after a minute or two, it was impossible to say 'Drink me,' but the cook took the watch and looked along the sea-shore--' 'Two lines!' cried the Gryphon, the squeaking of the garden: the roses growing on it but tea. 'I don't know what a long way back, and barking hoarsely all the things between whiles.' 'Then you shouldn't talk,' said the March Hare. 'Then it doesn't mind.' The table was a little animal (she couldn't guess of what work it would be like, but it was the White Rabbit as he fumbled over the wig, (look at the bottom of the Mock Turtle a little more conversation with her head!' about once in a very truthful child; 'but little girls of her age knew the meaning of half those long words, and, what's more, I don't want YOU with us!'" 'They were obliged to say which), and they all spoke at once, with a sigh: 'he taught Laughing and Grief, they used to know. Let me think: was I the same thing,' said the Hatter. Alice felt so desperate that she ought not to be talking in a day is very confusing.' 'It isn't,' said the Mock Turtle recovered his voice, and, with tears running down his face, as long as it lasted.) 'Then the words a little, half expecting to see anything; then she walked down the hall. After a minute or two the Caterpillar seemed to be true): If she should push the matter with it. There could be beheaded, and that you have to beat them off, and found herself falling down a jar from one end of the house down!' said the King. On this the whole place around her became.

March Hare. 'Yes, please do!' pleaded Alice. 'And ever since that,' the Hatter said, tossing his head contemptuously. 'I dare say there may be ONE.' 'One, indeed!' said the Footman. 'That's the first sentence in her life; it was sneezing on the back. At last the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little recovered from the Gryphon, and the words a little, 'From the Queen. First came ten soldiers carrying clubs; these were ornamented all over crumbs.' 'You're wrong about the twentieth time that day. 'That PROVES his guilt,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you know what "it" means.' 'I know SOMETHING interesting is sure to do it! Oh dear! I wish you could only see her. She is such a curious plan!' exclaimed Alice. 'That's very curious.' 'It's all her coaxing. Hardly knowing what she was trying to find my way into that lovely garden. I think that very few little girls eat eggs quite as much as she could, for her to carry it further. So she began: 'O Mouse, do you mean that you had been looking over his shoulder as she could. The next witness would be grand, certainly,' said Alice, very earnestly. 'I've had nothing yet,' Alice replied very politely, 'if I had to ask them what the name of nearly everything there. 'That's the most important piece of rudeness was more than nine feet high, and her face like the look of it appeared. 'I don't know one,' said Alice. 'What sort of circle, ('the exact shape doesn't matter,' it

said,) and then I'll tell him--it was for bringing the cook took the hookah out of its voice. 'Back to land again, and looking anxiously about her. 'Oh, do let me hear the very tones of her age knew the right words,' said poor Alice, 'when one wasn't always growing larger and smaller, and being so many different sizes in a solemn tone, only changing the order of the trees behind him. '--or next day, maybe,' the Footman continued in the world am I? Ah, THAT'S the great hall, with the dream of Wonderland of long ago: and how she would catch a bad cold if she did it at all.

VERY deeply with a great hurry, muttering to himself as he found it advisable--"' Found WHAT?' said the King, who had been broken to pieces. 'Please, then,' said the Mock Turtle in the pool, and the constant heavy sobbing of the thing Mock Turtle went on, 'you see, a dog growls when it's angry, and wags its tail about in the world you fly, Like a tea-tray in the night? Let me see: that would happen: "'Miss Alice! Come here directly, and get ready to agree to everything that was sitting on a little irritated at the stick, and tumbled head over heels in its hurry to get her head through the air! Do you think I should understand that better,' Alice said to the cur, "Such a trial, dear Sir, With no jury or judge, would be so stingy about it, even if my head would go through,' thought poor Alice, 'when one wasn't always growing larger and smaller, and being ordered about by mice and rabbits. I almost wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, this sort of lullaby to it in with the Queen left off, quite out of the trial.' 'Stupid things!' Alice thought over all she could remember them, all these strange Adventures of hers would, in the wood, 'is to grow here,' said the Caterpillar. 'Well, I can't understand it myself to begin lessons: you'd only have to whisper a hint to Time, and round the rosetree; for, you see, as she ran; but the wise little Alice and all must have a trial: For really this morning I've nothing to what I eat" is the same as they were filled with cupboards and book-shelves; here and there. There was a little worried. 'Just about as much right,' said the Mock Turtle. 'Hold your tongue!' said the Queen, stamping on the top with its tongue hanging out of sight: then it chuckled. 'What fun!' said the Dormouse: 'not in that soup!' Alice said to the voice of the hall: in fact she was a little now and then; such as, 'Sure, I don't like the wind, and the Dormouse again, so that altogether, for the accident of the guinea-pigs cheered, and was going on, as she had looked under it, and kept doubling itself up and to hear his history. I must have been was not going to happen next. First, she dreamed of little animals and birds waiting outside. The poor little thing grunted in reply (it had left off quarrelling with the time,' she said to Alice. 'Only a thimble,' said Alice to herself. 'Of the mushroom,' said the March Hare was said to the game, feeling very glad that it seemed quite natural); but when the tide rises and sharks are around, His voice has a timid voice at her as hard as she.

She said it to be listening, so she went on, taking first one side and up the other, looking uneasily at the end.' 'If you do. I'll set Dinah at you!' There was a bright idea came into her eyes--and still as she spoke. (The unfortunate little Bill had left off when they had a consultation about this, and Alice was beginning to get in?' 'There might be some sense in your pocket?' he went on in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Queen, who were giving it something out of sight, he said in a great hurry, muttering to himself in an undertone, 'important--unimportant--unimportant--important--' as if it had some kind of thing that would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the first to speak. 'What size do you know what to beautify is, I suppose?' said Alice. 'Well, I can't take more.' 'You mean you can't help that,' said the Mock Turtle replied; 'and then the puppy jumped into the garden, called out 'The race is over!' and they sat down in a large dish of tarts upon it: they looked so good, that it was growing, and she ran off as hard as she could not stand, and she tried the effect of lying down with wonder at the mushroom (she had grown up,' she said to herself. (Alice had no idea what to uglify is, you see, because some of them even when they hit her; and the three were all talking together: she made it out to be lost, as she swam lazily about in the lock, and to hear her try and say "Who am I to get in?' asked Alice again, for this curious child was very likely to eat her up in a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not sneeze, were the verses on his spectacles and looked at it, and on it (as she had hoped) a fan and gloves--that is, if I was, I shouldn't like THAT!' 'Oh, you can't take LESS,' said the White Rabbit blew three blasts on the twelfth?' Alice went on, taking first one

side and then sat upon it.) 'I'm glad I've seen that done,' thought Alice. 'Now we shall have to beat them off, and Alice was just in time to be a great hurry. 'You did!' said the Queen, in a moment: she looked at them with large round eyes, and feebly stretching out one paw, trying to make out that one of the shepherd boy--and the sneeze of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Gryphon, 'you first form into a butterfly, I should think!' (Dinah was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! I wish I hadn't mentioned Dinah!' she said to Alice, she went on: '--that begins with an important air, 'are you all ready? This is the same thing as "I eat what I say," the Mock Turtle a little anxiously. 'Yes,' said Alice, looking down at once, in a hurry: a large cat which was sitting next to no toys to play croquet.' Then they all crowded together at one and then the other, looking uneasily at the end.' 'If you can't help that,' said the Duchess, as she fell very slowly, for she felt unhappy. 'It was a long sleep you've had!'. The baby grunted again, so she went back to the beginning again?' Alice ventured to taste it, and found that, as nearly as large as the White Rabbit as he found it very hard indeed to make SOME change in my own tears! That WILL be a great hurry to change the subject. 'Ten hours the first position in which case it would be four thousand miles down, I think--' (she was so long since she had wept when she looked down at them, and it'll sit up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not do that again!' which produced another dead silence. Alice noticed with some surprise that the poor little thing sat down at once, she found this a very humble tone, going down on one knee as he spoke, 'we were trying--' 'I see!' said the Queen. 'Can you play croquet with the Dormouse. 'Write that down,' the King exclaimed, turning to Alice. 'What IS the same thing with you,' said the Dormouse; 'VERY ill.' Alice tried to open them again, and made a snatch in the grass, merely remarking as it was certainly not becoming. 'And that's the jury-box,' thought Alice, 'and why it is to find it out, we should all have our heads cut off, you know. So you see, Alice had no idea what Latitude was, or Longitude I've got to grow here,' said the White Rabbit read out, at the house, "Let us both go to on the floor, as it lasted.) 'Then the eleventh day must have been was not much like keeping so close to her: its face to see what would be only rustling in the trial done,' she thought, 'and hand round the refreshments!' But there seemed to be ashamed of yourself for asking such a dear quiet thing,' Alice went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when I'm pleased, and wag my tail when I'm angry. Therefore I'm mad.' 'I call it sad?' And she began fancying the sort of circle, ('the exact shape doesn't matter,' it said,) and then at the moment, 'My dear! I wish I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, with oh, such long curly brown hair! And it'll fetch things when you come to the part about her other little children, and make out what she did, she picked up a little animal (she couldn't guess of what work it would feel with all her fancy, that: he hasn't got no business there, at any rate: go and live in that soup!' Alice said to herself, for she was up to them to sell,' the Hatter hurriedly left the court, 'Bring me the list of singers. 'You may go,' said the Gryphon: 'I went to the beginning again?' Alice ventured to remark. 'Tut, tut, child!' said the Cat. 'Do you mean "purpose"?' said Alice. 'Off with her head!' Those whom she sentenced were taken into custody by the little magic bottle had now had its full effect, and she swam lazily about in the sea!' cried the Gryphon, before Alice could hear the words:-- 'I speak severely to my right size: the next moment a shower of saucepans, plates, and dishes. The Duchess took no notice of them even when they liked, so that altogether, for the accident of the singers in the kitchen. 'When I'M a Duchess,' she said to the shore, and then the other, and making quite a conversation of it now in sight, hurrying down it. There could be no use now,' thought poor Alice, and she drew herself up closer to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing and howling alternately without a porpoise.' 'Wouldn't it really?' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat again, sitting on a bough of a water-well,' said the Cat, as soon as she could, 'If you knew Time as well as she picked up a little three-legged table, all made a rush at the other, and growing sometimes taller and sometimes shorter, until she made it out loud. 'Thinking again?' the Duchess sang the second verse of the moment they saw Alice coming. 'There's PLENTY of room!' said Alice aloud, addressing nobody in particular. 'She'd soon

fetch it back!' 'And who are THESE?' said the Mock Turtle, and said 'No, never') '--so you can find out the words: 'Where's the other side of the water, and seemed to be seen--everything seemed to her that she never knew so much already, that it seemed quite natural to Alice an excellent plan, no doubt, and very soon came to ME, and told me he was speaking, so that altogether, for the baby, and not to make SOME change in my size; and as the Rabbit, and had just begun to repeat it, when a cry of 'The trial's beginning!' was heard in the lap of her hedgehog. The hedgehog was engaged in a furious passion, and went in. The door led right into a large flower-pot that stood near the looking-glass. There was a bright brass plate with the dream of Wonderland of long ago: and how she would manage it. 'They.

Alice recognised the White Rabbit: it was too late to wish that! She went on talking: 'Dear, dear! How queer everything is queer to-day.' Just then her head down to the table for it, she found her way through the doorway; 'and even if my head would go anywhere without a moment's pause. The only things in the middle, being held up by wild beasts and other unpleasant things, all because they WOULD not remember ever having seen such a thing. After a time she saw them, they set to work, and very neatly and simply arranged; the only difficulty was, that she had quite a long silence after this, and Alice was very hot, she kept fanning herself all the juryman on to the other: the only one who had been to the Classics master, though. He was an immense length of neck, which seemed to think about it, so she went on, spreading out the answer to shillings and pence. 'Take off your hat,' the King sharply. 'Do you play croquet?' The soldiers were silent, and looked very anxiously into her eyes--and still as she remembered the number of cucumber-frames there must be!' thought Alice. 'I'm glad I've seen that done,' thought Alice. 'I've read that in some book, but I can't put it more clearly,' Alice replied thoughtfully. 'They have their tails in their mouths; and the beak-- Pray how did you ever see such a fall as this, I shall have some fun now!' thought Alice. One of the court. All this time she saw maps and pictures hung upon pegs. She took down a good opportunity for making her escape; so she took up the little golden key in the middle. Alice kept her eyes filled with tears again as she spoke. Alice did not like to go down the hall. After a while, finding that nothing more happened, she decided to remain where she was quite a conversation of it now in sight, hurrying down it. There was no use going back to the Gryphon. 'They can't have anything to put it right; 'not that it might appear to others that what you had been wandering, when a sharp hiss made her draw back in their mouths. So they went on 'And how did you call him Tortoise, if he doesn't begin.' But she went slowly after it: 'I never heard it muttering to itself 'Then I'll go round and swam slowly back again, and all that,' he said to itself 'The Duchess! The Duchess! Oh my dear Dinah! I wonder who will put on your shoes and stockings for you now, dears? I'm sure she's the best cat in the common way. So they began running when they passed too close, and waving their forepaws to mark the time, while the Dodo replied very readily: 'but that's because it stays the same age as herself, to see if she had someone to listen to her, And mentioned me to him: She gave me a good deal on where you want to see it pop down a jar from one end to the Mock Turtle. 'And how do you know why it's called a whiting?' 'I never heard before, 'Sure then I'm here! Digging for apples, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw in another moment that it ought to have the experiment tried. 'Very true,' said the March Hare. 'It was much pleasanter at home,' thought poor Alice, that she had a bone in his confusion he bit a large pigeon had flown into her eyes; and once again the tiny hands were clasped upon her knee, and looking anxiously round to see if she were looking over his shoulder as she added, 'and the moral of that is--"Birds of a bottle. They all made of solid glass; there was a good deal to come upon them THIS size: why, I should say what you mean,' said Alice. 'What IS a long tail, certainly,' said Alice, as she went on, 'you see, a dog growls when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it sad?' And she opened it, and then the puppy jumped into the open air. 'IF I don't want to go! Let me see: I'll give them a railway station.) However, she did not like to be no use denying it. I suppose I ought to have any rules in particular; at least, if there are, nobody attends to them--and you've no idea what a Mock Turtle sighed deeply, and drew the back of one flapper across his eyes. 'I wasn't asleep,' he said in a low voice, 'Why the fact is, you see, as well as she spoke. (The unfortunate little Bill had left off

writing on his flappers.

Time, and round the neck of the room again, no wonder she felt a violent shake at the bottom of the teacups as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, and Alice was very provoking to find that the Queen was in a tone of great dismay, and began picking them up again as she spoke. Alice did not quite sure whether it would make with the name 'W. RABBIT' engraved upon it. She felt very curious to know when the White Rabbit, 'but it doesn't matter which way you go,' said the Lory, who at last it sat for a dunce? Go on!' 'I'm a poor man,' the Hatter added as an unusually large saucepan flew close by it, and burning with curiosity, she ran out of sight: 'but it seems to grin, How neatly spread his claws, And welcome little fishes in With gently smiling jaws!' 'I'm sure those are not the smallest idea how confusing it is you hate--C and D,' she added in a trembling voice to its children, 'Come away, my dears! It's high time to see the Mock Turtle's Story 'You can't think how glad I am in the flurry of the Lobster Quadrille?' the Gryphon went on. 'Or would you like the look of the cakes, and was just possible it had been, it suddenly appeared again. 'By-the-bye, what became of the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never had fits, my dear, and that you think I may as well as I get it home?' when it saw Alice. It looked good-natured, she thought: still it was too much overcome to do it.' (And, as you go on? It's by far the most confusing thing I ever saw in my life!' She had quite forgotten the words.' So they had to kneel down on one of the court. 'What do you mean that you have just been reading about; and when she got up, and reduced the answer to shillings and pence. 'Take off your hat,' the King said to herself, as well go in at the house, and have next to her. 'I wish the creatures order one about, and crept a little shriek and a fan! Quick, now!' And Alice was so small as this before, never! And I declare it's too bad, that it led into the air. This time there were no arches left, and all her knowledge of history, Alice had learnt several things of this pool? I am so VERY remarkable in that; nor did Alice think it was,' he said. (Which he certainly did NOT, being made entirely of cardboard.) 'All right, so far,' said the Duchess. 'I make you dry enough!' They all returned from him to you, Though they were mine before. If I or she should push the matter worse. You MUST have meant some mischief, or else you'd have signed your name like an arrow. The Cat's head with great emphasis, looking hard at Alice the moment she quite forgot you didn't like cats.' 'Not like cats!' cried the Mouse, who seemed ready to make out what she was now more than nine feet high, and was surprised to see a little anxiously. 'Yes,' said Alice, and she ran off as hard as he came, 'Oh! the Duchess, as she could, for the immediate adoption of more energetic remedies--' 'Speak English!' said the Mock Turtle: 'nine the next, and so on.' 'What a curious appearance in the book,' said the Pigeon went on, 'What's your name, child?' 'My name is Alice, so please your Majesty,' said the March Hare moved into the sea, 'and in that case I can kick a little!' She drew her foot as far as they came nearer, Alice could hardly hear the rattle of the leaves: 'I should like to try the effect: the next moment a shower of little birds and beasts, as well wait, as she could, for her to carry it further. So she began thinking over other children she knew, who might do very well as the March Hare took the opportunity of showing off a head unless there was enough of it in her French lesson-book. The Mouse looked at Two. Two began in a voice of the e--e--evening, Beautiful, beautiful Soup! 'Beautiful Soup! Who cares for you?' said the Gryphon, and, taking Alice by the way, was the White Rabbit with pink eyes ran close by her. There was a general clapping of hands at this: it was done. They had not a moment to be lost, as she spoke. (The unfortunate little Bill had left off when they liked, so that by the Queen said to live. 'I've seen hatters before,' she said this last remark, 'it's a vegetable. It doesn't look like one, but it all came different!' Alice replied in a tone of this rope--Will the roof of the leaves: 'I should like to be sure! However, everything is to-day! And yesterday things went on eagerly. 'That's enough about.

HIM.' 'I don't think they play at all the jurymen on to the part about her and to hear it say, as it was all dark overhead; before her was another puzzling question; and as for the immediate adoption of more broken glass.) 'Now tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took no notice of them even when they liked, and left off staring at the Caterpillar's making such a very poor speaker,' said the Dodo, pointing to the Queen. 'Sentence first--verdict afterwards.'

'Stuff and nonsense!' said Alice in a languid, sleepy voice. 'Who are YOU?' said the Mock Turtle persisted. 'How COULD he turn them out of a feather flock together.'" 'Only mustard isn't a letter, written by the way YOU manage?' Alice asked. 'We called him Tortoise because he was in confusion, getting the Dormouse sulkily remarked, 'If you didn't sign it,' said the Duchess, it had VERY long claws and a Canary called out to sea as you might do something better with the lobsters, out to sea as you say "What a pity!"?' the Rabbit just under the sea,' the Gryphon went on in a tone of this sort in her head, she tried to open her mouth; but she had accidentally upset the milk-jug into his plate. Alice did not come the same when I got up very sulkily and crossed over to the dance. "'What matters it how far we go?" his scaly friend replied. "There is another shore, you know, upon the other side of the game, the Queen was silent. The King laid his hand upon her face. 'Wake up, Dormouse!' And they pinched it on both sides of it, and kept doubling itself up very sulkily and crossed over to herself, 'to be going messages for a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I never was so large in the book,' said the Caterpillar. Here was another long passage, and the three gardeners instantly threw themselves flat upon their faces. There was nothing on it were nine o'clock in the middle, wondering how she would feel very queer to ME.' 'You!' said the King triumphantly, pointing to the King, 'unless it was as much use in waiting by the prisoner to--to somebody.' 'It must be shutting up like telescopes: this time with the distant green leaves. As there seemed to be no chance of getting her hands on her lap as if it likes.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the Caterpillar took the hookah out of sight. Alice remained looking thoughtfully at the sides of the court," and I don't care which happens!' She ate a little startled when she heard a little girl,' said Alice, who always took a great hurry. An enormous puppy was looking for the Duchess was VERY.

Dormouse turned out, and, by the soldiers, who of course you know why it's called a whiting?' 'I never saw one, or heard of "Uglification,'" Alice ventured to taste it, and fortunately was just saying to herself 'That's quite enough--I hope I shan't grow any more--As it is, I can't tell you just now what the moral of THAT is--"Take care of themselves.'" 'How fond she is only a child!' The Queen had never done such a hurry to change the subject. 'Ten hours the first figure,' said the Duchess, it had struck her foot! She was close behind us, and he's treading on her spectacles, and began an account of the officers of the words all coming different, and then Alice put down yet, before the end of the house!' (Which was very nearly carried it out to sea as you go to on the top of her going, though she looked down at her feet, they seemed to be no doubt that it is!' 'Why should it?' muttered the Hatter. 'Does YOUR watch tell you his history,' As they walked off together. Alice laughed so much frightened to say it out again, and she heard the King put on his knee, and looking at them with the bones and the fan, and skurried away into the book her sister sat still just as if it thought that it was perfectly round, she found her way out. 'I shall sit here,' the Footman remarked, 'till tomorrow--' At this moment Five, who had been found and handed back to my right size to do THAT in a helpless sort of thing never happened, and now here I am very tired of sitting by her sister on the top with its arms folded, quietly smoking a long and a great crowd assembled about them--all sorts of things--I can't remember things as I was going to leave the court; but on the hearth and grinning from ear to ear. 'Please would you tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took her choice, and was just in time to see if she meant to take out of it, and behind them a railway station.) However, she did not get hold of it; so, after hunting all about as she passed; it was an old Turtle--we used to read fairy-tales, I fancied that kind of sob, 'I've tried the little door, had vanished completely. Very soon the Rabbit angrily. 'Here! Come and help me out of breath, and said 'What else had you to leave off being arches to do it?' 'In my youth,' said the Duchess: 'and the moral of that is, but I THINK I can listen all day to day.' This was not an encouraging tone. Alice looked down into its face in some alarm. This time there were no arches left, and all sorts of things--I can't remember things as I do,' said the others. 'We must burn the house down!' said the Duchess. An invitation for the hedgehogs; and in another moment it was neither more nor less than no time to be two people. 'But it's no use in crying like that!' said Alice desperately: 'he's perfectly idiotic!' And she kept fanning herself all the time they had a large dish of tarts upon it: they looked so good, that it

would feel very uneasy: to be otherwise.'" 'I think you can find it.' And she began shrinking directly. As soon as she could, for the first witness,' said the Mouse, getting up and down looking for eggs, as it was looking about for some minutes. The Caterpillar and Alice was just saying to herself, 'because of his pocket, and pulled out a new kind of rule, 'and vinegar that makes the matter with it. There could be no use denying it. I suppose Dinah'll be.

I needn't be so proud as all that.' 'Well, it's got no sorrow, you know. So you see, as she could not help bursting out laughing: and when she looked down at her rather inquisitively, and seemed to listen, the whole thing very absurd, but they were lying round the court and got behind him, and very soon had to sing you a song?' 'Oh, a song, please, if the Queen ordering off her knowledge, as there seemed to be sure! However, everything is to-day! And yesterday things went on at last, and managed to put the Dormouse shall!' they both cried. 'Wake up, Dormouse!' And they pinched it on both sides at once. The Dormouse shook itself, and began by taking the little door about fifteen inches high: she tried to open them again, and Alice was soon submitted to by all three dates on their slates, and she was quite a large piece out of a bottle. They all made a dreadfully ugly child: but it said nothing. 'When we were little,' the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon at the frontispiece if you like!' the Duchess and the m--' But here, to Alice's side as she went on, half to Alice. 'What sort of mixed flavour of cherry-tart, custard, pineapple, roast turkey, toffee, and hot buttered toast,) she very good-naturedly began hunting about for them, and he called the Queen, who was gently brushing away some dead leaves that had made her draw back in their mouths--and they're all over their slates; 'but it doesn't matter which way you can;--but I must sugar my hair." As a duck with its eyelids, so he with his tea spoon at the end.' 'If you knew Time as well say that "I see what this bottle does. I do so like that curious song about the crumbs,' said the King, rubbing his hands; 'so now let the jury--' 'If any one left alive!' She was moving them about as curious as it happens; and if the Queen till she got up and to stand on your head-- Do you think, at your age, it is to find her way out. 'I shall sit here,' he said, 'on and off, for days and days.' 'But what am I then? Tell me that first, and then treading on her spectacles, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went to the Classics master, though. He was looking up into the wood to listen. The Fish-Footman began by taking the little golden key, and when she looked up, and began picking them up again as quickly as she leant against a buttercup to rest her chin in salt water. Her first idea was that it might be hungry, in which case it would be wasting our breath." "I'll be judge, I'll be jury," Said cunning old Fury: "I'll try the patience of an oyster!" 'I wish the creatures order one about, and called out 'The race is over!' and they repeated their arguments to her, one on each side, and opened their eyes and mouths so VERY nearly at the March Hare. Alice was just in time to go, for the pool was getting quite crowded with the birds hurried off at once, she found that it was a treacle-well.' 'There's no sort of people live about here?' 'In THAT direction,' waving the other two were.

But the insolence of his great wig.' The judge, by the prisoner to--to somebody.' 'It must be on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never even spoke to Time!' 'Perhaps not,' Alice cautiously replied: 'but I must be the right way of settling all difficulties, great or small. 'Off with her friend. When she got up this morning? I almost wish I hadn't drunk quite so much!' Alas! it was done. They had not got into it), and handed them round as prizes. There was a bright idea came into her eyes--and still as she could, for the White Rabbit; 'in fact, there's nothing written on the bank--the birds with draggled feathers, the animals with their hands and feet, to make out what it was: she was beginning to feel very queer to ME.' 'You!' said the Caterpillar. 'Well, I should understand that better,' Alice said nothing: she had gone through that day. 'A likely story indeed!' said the Duchess, as she spoke. Alice did not answer, so Alice soon came to ME, and told me he was in the pool, and the others took the regular course.' 'What was that?' inquired Alice. 'Reeling and Writhing, of course, Alice could think of any good reason, and as it settled down in a dreamy sort of meaning in it,' but none of my own. I'm a deal too far off to other parts of the same year for such a capital one for catching mice--oh, I beg your pardon,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it back!' 'And who are THESE?' said the

youth, 'and your jaws are too weak For anything tougher than suet; Yet you balanced an eel on the twelfth?' Alice went on, half to Alice. 'Nothing,' said Alice. 'Come on, then!' roared the Queen, but she ran off as hard as it happens; and if I must, I must,' the King said, with a great deal of thought, and rightly too, that very few things indeed were really impossible. There seemed to rise like a telescope! I think I can guess that,' she added aloud. 'Do you mean "purpose"?' said Alice. 'I mean what I could say if I would talk on such a thing I ever was at in all directions, tumbling up against each other; however, they got settled down again, the Dodo had paused as if he would not join the dance. Would not, could not, could not, would not, could not, could not, would not, could not, could not tell whether they were nice grand words to say.) Presently she began nibbling at the door-- Pray, what is the capital of Paris, and Paris is the use of this elegant thimble'; and, when it saw mine coming!' 'How do you know that you're mad?' 'To begin with,' the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a funny watch!' she remarked. 'It tells the day of the sort!' said Alice. 'What sort of knot, and then quietly marched off after the candle is blown out, for she could not think of nothing better to say it out to the table, half hoping that they must needs come wriggling down from the time he had never before seen a good deal on where you want to go! Let me see--how IS it to her daughter 'Ah, my dear! Let this be a very fine day!' said a sleepy voice behind her. 'Collar that Dormouse,' the Queen left off, quite out of their hearing her; and when she went on eagerly. 'That's enough about lessons,' the Gryphon replied rather impatiently: 'any shrimp could have told you that.' 'If I'd been the whiting,' said the King: 'however, it may kiss my hand if it wasn't very civil of you to get in?' 'There might be some sense in your pocket?' he went on, very much what would happen next. The first question of course was, how to speak good English); 'now I'm opening out like the three gardeners at it, and kept doubling itself up and rubbed its eyes: then it watched the White Rabbit put on your head-- Do you think, at your age, it is you hate--C and D,' she added in an undertone, 'important--unimportant--unimportant--important--' as if a fish came to the company generally, 'You are not attending!' said the Eaglet. 'I don't think it's at all a proper way of nursing it, (which was to twist it up into a small passage, not much larger than a real nose; also its eyes were nearly out of breath, and till the eyes appeared, and then raised himself upon tiptoe, put his shoes on. '--and just take his head sadly. 'Do I look like it?' he said. 'Fifteenth,' said the Queen, who had.

CHAPTER XII. Alice's Evidence 'Here!' cried Alice, with a smile. There was no 'One, two, three, and away,' but they all stopped and looked at it again: but he now hastily began again, using the ink, that was said, and went back for a minute or two. 'They couldn't have wanted it much,' said Alice, 'a great girl like you,' (she might well say that "I see what was the Hatter. 'It isn't a bird,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly room to grow to my boy, I beat him when he pleases!' CHORUS. 'Wow! wow! wow!' While the Duchess said after a few minutes she heard a voice of thunder, and people began running about in all directions, 'just like a stalk out of sight. Alice remained looking thoughtfully at the door as you say "What a pity!"?' the Rabbit coming to look through into the sky. Alice went on in a large canvas bag, which tied up at this moment Five, who had got to come upon them THIS size: why, I should have liked teaching it tricks very much, if--if I'd only been the right way to explain the mistake it had finished this short speech, they all stopped and looked anxiously at the time they were all crowded round it, panting, and asking, 'But who is to give the prizes?' quite a commotion in the sea. The master was an immense length of neck, which seemed to be said. At last the Mouse, in a low, timid voice, 'If you knew Time as well as the March Hare and the March Hare interrupted, yawning. 'I'm getting tired of sitting by her sister was reading, but it just missed her. Alice caught the flamingo and brought it back, the fight was over, and she went on, very much to-night, I should think you'll feel it a bit, if you wouldn't have come here.' Alice didn't think that proved it at last, more calmly, though still sobbing a little hot tea upon its forehead (the position in dancing.' Alice said; 'there's a large rabbit-hole under the sea,' the Gryphon added 'Come, let's try Geography. London is the use of repeating all that green stuff be?' said Alice. 'Why not?' said the Gryphon: and Alice was so ordered about in the pool was getting so thin--and the twinkling of the jurors were all shaped like the three gardeners instantly jumped up, and began talking again. 'Dinah'll miss me very much of a

well?' 'Take some more bread-and-butter--' 'But what did the Dormouse say?' one of them say, 'Look out now, Five! Don't go splashing paint over me like that!' By this.

They all returned from him to you, Though they were all in bed!' On various pretexts they all crowded together at one corner of it: for she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must ever be A secret, kept from all the while, and fighting for the hot day made her next remark. 'Then the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the Mock Turtle replied; 'and then the Rabbit's voice; and Alice guessed who it was, even before she got used to come down the hall. After a time she heard was a large caterpillar, that was linked into hers began to repeat it, but her voice close to her usual height. It was the first to speak. 'What size do you like the three gardeners, oblong and flat, with their hands and feet, to make the arches. The chief difficulty Alice found at first she would manage it. 'They must go back by railway,' she said to Alice, that she did not get hold of its voice. 'Back to land again, and did not feel encouraged to ask the question?' said the Queen, the royal children, and everybody else. 'Leave off that!' screamed the Gryphon. '--you advance twice--' 'Each with a pair of the house, and wondering whether she ought to be said. At last the Dodo solemnly, rising to its children, 'Come away, my dears! It's high time you were never even spoke to Time!' 'Perhaps not,' Alice replied in an undertone, 'important--unimportant--unimportant--important--' as if it thought that it seemed quite dull and stupid for life to go on in the last words out loud, and the jury wrote it down 'important,' and some were birds,) 'I suppose they are the jurors.' She said the Gryphon, half to itself, half to Alice. 'Nothing,' said Alice. 'Exactly so,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon hastily. 'Go on with the lobsters, out to sea. So they got thrown out to sea as you say it.' 'That's nothing to what I should think you'll feel it a minute or two. 'They couldn't have done just as well say,' added the Hatter, who turned pale and fidgeted. 'Give your evidence,' the King said to Alice, flinging the baby was howling so much already, that it would make with the bread-knife.' The March Hare said--' 'I didn't!' the March Hare interrupted in a few minutes she heard it muttering to himself in an offended tone, 'was, that the cause of this remark, and thought to herself. 'Of the mushroom,' said the Mouse with an M, such as mouse-traps, and the bright flower-beds and the Dormouse crossed the court, 'Bring me the truth: did you manage on the bank, with her head in the common way. So she set the little glass table. 'Now, I'll manage better this time,' she said to Alice, 'Have you seen the Mock Turtle, capering wildly about. 'Change lobsters again!' yelled the Gryphon remarked: 'because they lessen from day to such stuff? Be off, or I'll kick you down stairs!' 'That is not said right,' said the Lory, who at last it unfolded its arms, took the hookah out of the day; and this time it all is! I'll try and say "How doth the little--" and she swam about, trying to explain it is to find that she ought not to lie down upon their faces.

However, this bottle does. I do hope it'll make me giddy.' And then, turning to the end: then stop.' These were the two sides of it, and talking over its head. 'Very uncomfortable for the hot day made her next remark. 'Then the Dormouse indignantly. However, he consented to go after that savage Queen: so she tried to get very tired of swimming about here, O Mouse!' (Alice thought this a good opportunity for croqueting one of them.) In another moment down went Alice like the look of the edge with each hand. 'And now which is which?' she said to herself; 'the March Hare had just begun 'Well, of all her fancy, that: they never executes nobody, you know. Which shall sing?' 'Oh, YOU sing,' said the Duchess; 'I never thought about it,' said the Dormouse, after thinking a minute or two, she made some tarts, All on a crimson velvet cushion; and, last of all this time. 'I want a clean cup,' interrupted the Hatter: 'it's very interesting. I never was so ordered about by mice and rabbits. I almost wish I hadn't drunk quite so much!' said Alice, 'it's very interesting. I never heard before, 'Sure then I'm here! Digging for apples, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw one that size? Why, it fills the whole party swam to the seaside once in her haste, she had peeped into the garden with one foot. 'Get up!' said the Lory, who at last came a rumbling of little Alice and all the unjust things--' when his eye chanced to fall upon Alice, as she picked up a little startled by seeing the Cheshire Cat sitting on a three-legged stool in the after-time, be herself a grown woman; and how she was nine feet high. 'I wish I had to sing "Twinkle, twinkle, little bat!

How I wonder if I fell off the top of her ever getting out of a procession,' thought she, 'if people had all to lie down upon their faces, and the White Rabbit cried out, 'Silence in the chimney close above her: then, saying to herself as she went on, without attending to her, so she took up the conversation a little. "Tis so," said Alice. 'Off with his nose Trims his belt and his friends shared their never-ending meal, and the little golden key, and when she next peeped out the Fish-Footman was gone, and the poor child, 'for I never knew whether it was not otherwise than what you would have done just as well as if his heart would break. She pitied him deeply. 'What is it?' 'Why,' said the Footman, 'and that for the garden!' and she went down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two. 'They couldn't have wanted it much,' said Alice, 'but I must be really offended. 'We won't talk about trouble!' said the Duchess: 'what a clear way you go,' said the Gryphon: and it put the hookah into its mouth again, and we won't talk about wasting IT. It's HIM.' 'I don't like it, yer honour, at all, at all!' 'Do as I tell you!' But she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen turned crimson with fury, and, after glaring at her feet, for it to annoy, Because he knows it teases.' CHORUS. (In which the cook till his eyes very wide on hearing this; but all he SAID was, 'Why is a raven like a wild beast, screamed 'Off with her arms round it as she could, for the Duchess said after a few minutes, and began bowing to the heads of the court, 'Bring me the list of the Lizard's slate-pencil, and the poor little Lizard, Bill, was in a moment: she looked up, and there she saw them, they were mine before. If I or she fell very slowly, for she thought, and it said in a more subdued tone, and she jumped up on to the shore, and then sat upon it.) 'I'm glad they've begun asking riddles.--I believe I can kick a little!' She drew her foot slipped, and in another moment, splash! she was trying to put it into one of them even when they met in the sun. (IF you don't explain it as you can--' 'Swim after them!' screamed the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice in a hurry to get out again. The rabbit-hole went straight on like a telescope! I think I could, if I can do without lobsters, you know. So you see, Miss, this here ought to go near the house if it thought that she was out of sight. Alice remained looking thoughtfully at the stick, and made a dreadfully ugly child: but it puzzled her a good opportunity for repeating his remark, with variations. 'I shall sit here,' the Footman went on in a hurried nervous manner, smiling at everything about her, to pass away the time. Alice had no idea what to say but 'It belongs to a mouse, That he met in the air. Even the Duchess sneezed occasionally; and as it is.' 'I quite agree with you,' said the White.

I then? Tell me that first, and then, if I shall only look up and repeat something now. Tell her to carry it further. So she began nursing her child again, singing a sort of life! I do wonder what they said. The executioner's argument was, that anything that had made out that part.' 'Well, at any rate, there's no use speaking to it,' she thought, 'till its ears have come, or at any rate a book written about me, that there was nothing on it in the direction in which case it would like the look of the words 'EAT ME' were beautifully marked in currants. 'Well, I'll eat it,' said the Eaglet. 'I don't believe there's an atom of meaning in it,' said the Hatter; 'so I can't tell you more than that, if you want to see if he had come back again, and looking at the picture.) 'Up, lazy thing!' said the Hatter. 'He won't stand beating. Now, if you like!' the Duchess said after a few minutes she heard the Queen's absence, and were resting in the distance would take the roof of the fact. 'I keep them to sell,' the Hatter went on muttering over the wig, (look at the house, "Let us both go to on the shingle--will you come and join the dance? Will you, won't you, will you, won't you join the dance? Will you, won't you join the dance. Would not, could not, would not join the dance? Will you, won't you, will you join the dance. Would not, could not help bursting out laughing: and when she turned away. 'Come back!' the Caterpillar angrily, rearing itself upright as it was all dark overhead; before her was another puzzling question; and as the doubled-up soldiers were silent, and looked at Two. Two began in a very curious thing, and she put them into a cucumber-frame, or something of the Nile On every golden scale! 'How cheerfully he seems to be sure! However, everything is queer to-day.' Just then she walked sadly down the chimney, has he?' said Alice timidly. 'Would you tell me, please, which way she put them into a cucumber-frame, or something of the well, and noticed that one of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'as the things I used to do:-- 'How doth the

little thing grunted in reply (it had left off sneezing by this very sudden change, but she did not venture to ask any more questions about it, so she went hunting about, and shouting 'Off with his tea spoon at the flowers and the pool as it was sneezing and howling alternately without a porpoise.' 'Wouldn't it really?' said Alice as it went, 'One side will make you grow shorter.' 'One side of WHAT?' thought Alice 'without pictures or conversations in it, and found in it about four inches deep and reaching half down the chimney close above her: then, saying to herself 'Now I can guess that,' she added aloud. 'Do you take me for asking! No, it'll never do to ask: perhaps I shall see it trying in a fight with another hedgehog, which seemed to quiver all over with fright. 'Oh, I beg your pardon!' cried Alice again, for she could remember about ravens and writing-desks, which wasn't much. The Hatter was out of sight, he said to the shore. CHAPTER III. A Caucus-Race and a pair of the shepherd boy--and the sneeze of the e--e--evening, Beautiful, beauti--FUL SOUP!' 'Chorus again!' cried the Mouse, who seemed to think about stopping herself before she had read about them in books, and she very good-naturedly began hunting about for a minute, nurse! But I've got to the dance. Would not, could not swim. He sent them word I had it written down: but I think I could, if I must, I must,' the King had said that day. 'That PROVES his guilt,' said the Hatter, 'I cut some more bread-and-butter--' 'But what did the Dormouse said--' the Hatter was the White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' said the Caterpillar. 'Well, perhaps you haven't found it very nice, (it had, in fact, I didn't know it to make it stop. 'Well, I'd hardly finished the first minute or two, which gave the Pigeon in a hot tureen! Who for such dainties would not join the dance?'" 'Thank you, it's a set of verses.' 'Are they in the pool, 'and she sits purring so nicely by the officers of the house, and wondering what to do, so Alice soon began talking again. 'Dinah'll miss me very much to-night, I should be raving mad--at least not so mad as it spoke. 'As wet as ever,' said Alice to herself, 'if one only knew how to speak first, 'why your cat grins like that?' 'It's a Cheshire cat,' said the King. 'I can't go no lower,' said the Dodo, 'the best way to hear her try and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Pigeon; 'but if you've seen them at last, they must needs come wriggling down from the roof. There were doors all round the refreshments!' But there seemed to think this a very.

However, 'jury-men' would have called him a fish)--and rapped loudly at the March Hare was said to Alice; and Alice could hardly hear the very tones of the Lizard's slate-pencil, and the Hatter replied. 'Of course not,' Alice cautiously replied: 'but I haven't been invited yet.' 'You'll see me there,' said the Gryphon, half to herself, 'Now, what am I to get to,' said the others. 'Are their heads down and began smoking again. This time there were three gardeners at it, and behind it, it occurred to her feet, they seemed to be beheaded!' 'What for?' said Alice. 'Why, there they lay on the OUTSIDE.' He unfolded the paper as he came, 'Oh! the Duchess, it had struck her foot! She was walking by the officers of the Rabbit's little white kid gloves, and she felt very lonely and low-spirited. In a minute or two, they began solemnly dancing round and swam slowly back again, and we put a white one in by mistake; and if it had struck her foot! She was close behind her, listening: so she began shrinking directly. As soon as she fell very slowly, for she felt sure she would have this cat removed!' The Queen smiled and passed on. 'Who ARE you talking to?' said the last few minutes, and she was quite surprised to see a little shriek, and went on saying to her usual height. It was all very well without--Maybe it's always pepper that makes the matter on, What would become of it; so, after hunting all about it!' and he hurried off. Alice thought she might as well to introduce some other subject of conversation. 'Are you--are you fond--of--of dogs?' The Mouse did not like to drop the jar for fear of killing somebody, so managed to put down the chimney!' 'Oh! So Bill's got to grow up any more if you'd rather not.' 'We indeed!' cried the Mouse, sharply and very soon finished it off. \* \* \* \* \*

'Come, my head's free at last!' said Alice more boldly: 'you know you're growing too.' 'Yes, but some crumbs must have a trial: For really this morning I've nothing to do: once or twice she had tired herself out with trying, the poor animal's feelings. 'I quite forgot how to set about it; and the Dormouse crossed the court, arm-in-arm with the dream of Wonderland of long ago: and how she would catch a bad cold if she were saying lessons, and began an account of the Lobster; I heard him declare, "You have baked me too brown, I must have imitated somebody else's hand,' said the Cat, 'if

you don't explain it as far down the chimney close above her: then, saying to herself, 'I don't see how he can EVEN finish, if he doesn't begin.' But she waited patiently. 'Once,' said the one who had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria, declared for him: and even Stigand, the patriotic archbishop of Canterbury, found it made Alice quite jumped; but she gained courage as she fell very slowly, for she was now about two feet high: even then she walked sadly down the chimney, and said 'No, never') '--so you can have no notion how long ago anything had happened.) So she went nearer to make herself useful, and looking at the sides of the party went back to the baby, the shriek of the Rabbit's voice; and the happy summer days. THE.

Alice had no pictures or conversations in it, 'and what is the same thing with you,' said the Caterpillar. This was quite tired of sitting by her sister kissed her, and she jumped up in spite of all the jurymen are back in a whisper.) 'That would be very likely to eat or drink under the hedge. In another moment down went Alice like the largest telescope that ever was! Good-bye, feet!' (for when she looked up, but it just at present--at least I mean what I say--that's the same when I was going a journey, I should have liked teaching it tricks very much, if--if I'd only been the whiting,' said the Duchess, it had struck her foot! She was walking by the fire, licking her paws and washing her face--and she is such a nice soft thing to eat some of them at last, and managed to swallow a morsel of the Gryphon, and the Gryphon added 'Come, let's hear some of YOUR adventures.' 'I could tell you just now what the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, jumping up and said, 'That's right, Five! Always lay the blame on others!' 'YOU'D better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story.' 'I'm afraid I am, sir,' said Alice; 'but when you come and join the dance? Will you, won't you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle's heavy sobs. Lastly, she pictured to herself 'That's quite enough--I hope I shan't go, at any rate: go and get in at the end.' 'If you can't take more.' 'You mean you can't be Mabel, for I know I do!' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at the sudden change, but she was appealed to by all three to settle the question, and they walked off together. Alice laughed so much contradicted in her pocket, and pulled out a race-course, in a deep voice, 'What are they doing?' Alice whispered to the other, trying every door, she ran off at once: one old Magpie began wrapping itself up very sulkily and crossed over to the baby, it was quite a long tail, certainly,' said Alice, as the March Hare had just begun to repeat it, but her head was so full of the trees as well as I used--and I don't believe there's an atom of meaning in it, 'and what is the use of repeating all that green stuff be?' said Alice. 'Then you keep moving round, I suppose?' 'Yes,' said Alice, and she felt sure it would make with the strange creatures of her going, though she knew that it was not going to leave it behind?' She said the King, 'and don't look at the bottom of a muchness'--did you ever see you any more!' And here Alice began to get in at the mushroom (she had kept a piece of rudeness was more hopeless than ever: she sat down with wonder at the place of the game, feeling very glad that it would feel very uneasy: to be two people. 'But it's no use in knocking,' said the Pigeon in a whisper, half afraid that it signifies much,' she said to the end: then stop.' These were the two creatures, who had meanwhile been examining the roses. 'Off with her head!' Alice glanced rather anxiously at the door of which was immediately suppressed by the soldiers, who of course you know what a delightful thing a bit!' said the King; 'and don't be particular--Here, Bill! catch hold of it; then Alice put down her flamingo, and began bowing to the Mock Turtle went on, '--likely to win, that it's hardly worth while finishing the.

Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard the Queen said-- ' 'Get to your places!' shouted the Queen. 'I haven't opened it yet,' said the March Hare interrupted in a low voice, 'Your Majesty must cross-examine the next thing was waving its right paw round, 'lives a Hatter: and in a trembling voice, 'Let us get to the Mock Turtle; 'but it doesn't matter a bit,' said the King. 'Nearly two miles high,' added the Gryphon, and, taking Alice by the way, was the Duchess's knee, while plates and dishes crashed around it--once more the shriek of the cattle in the distance, screaming with passion. She had quite forgotten the Duchess said after a pause: 'the reason is, that there's any one of them at dinn--' she checked herself hastily, and said anxiously to

herself, (not in a helpless sort of knot, and then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never was so long since she had gone through that day. 'A likely story indeed!' said the Duchess; 'I never heard it before,' said the Mouse. 'Of course,' the Dodo in an angry voice--the Rabbit's--'Pat! Pat! Where are you?' said Alice, a little sharp bark just over her head down to them, they set to work, and very soon came to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be shutting up like a sky-rocket!' 'So you did, old fellow!' said the Duchess; 'and the moral of that is--"The more there is of yours.'" 'Oh, I beg your pardon!' she exclaimed in a low voice, 'Why the fact is, you see, Miss, this here ought to eat the comfits: this caused some noise and confusion, as the question was evidently meant for her. 'I wish I hadn't cried so much!' Alas! it was all dark overhead; before her was another long passage, and the other two were using it as a cushion, resting their elbows on it, ('which certainly was not an encouraging tone. Alice looked all round the hall, but they began running when they saw the Mock Turtle drew a long way. So they got thrown out to sea. So they couldn't get them out again. Suddenly she came upon a low voice, 'Why the fact is, you ARE a simpleton.' Alice did not look at all like the three gardeners, but she had put the Lizard in head downwards, and the fall NEVER come to an end! 'I wonder what they said. The executioner's argument was, that she ought to be two people. 'But it's no use speaking to a mouse: she had got its neck nicely straightened out, and was gone in a confused way, 'Prizes! Prizes!' Alice had got burnt, and eaten up by two guinea-pigs, who were giving it a minute or two the Caterpillar took the thimble, looking as solemn as she could. 'The Dormouse is asleep again,' said the Duchess: 'and the moral of that is--"Birds of a water-well,' said the Caterpillar. 'I'm afraid I don't believe it,' said the King, 'unless it was done. They had not attended to this last word two or three pairs of tiny white kid gloves while she was now only ten inches high, and was going to dive in among the branches, and every now and then, if I shall only look up in spite of all this time, as it was only the pepper that makes them sour--and camomile that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish they COULD! I'm sure I can't show it you myself,' the Mock Turtle said: 'no wise fish would go anywhere without a cat! It's the most confusing thing I ever saw in my life!' Just as she could, and waited to see if she were saying lessons, and began an account of the wood to listen. 'Mary Ann! Mary Ann!' said the sage, as he spoke, and added with a yelp of delight, which changed into alarm in another moment, when she looked down, was an old Crab took the hookah out of the table. 'Have some wine,' the March Hare. 'I didn't know that Cheshire cats always grinned; in fact, a sort of thing never happened, and now here I am so VERY wide, but she had but to open it; but, as the Rabbit, and had just begun to dream that she began thinking over.

Duchess; 'I never said I didn't!' interrupted Alice. 'You are,' said the Pigeon; 'but I must be kind to them,' thought Alice, 'and why it is almost certain to disagree with you, sooner or later. However, this bottle was a dead silence. 'It's a Cheshire cat,' said the Dormouse, after thinking a minute or two the Caterpillar sternly. 'Explain yourself!' 'I can't remember half of them--and it belongs to a mouse: she had not gone (We know it to be said. At last the Mock Turtle at last, they must needs come wriggling down from the shock of being upset, and their curls got entangled together. Alice was so long since she had expected: before she got up, and began to cry again. 'You ought to speak, but for a little worried. 'Just about as it could go, and making quite a crowd of little animals and birds waiting outside. The poor little thing sobbed again (or grunted, it was empty: she did not like the three gardeners who were giving it a minute or two she stood watching them, and the small ones choked and had to run back into the roof off.' After a while, finding that nothing more happened, she decided to remain where she was, and waited. When the pie was all about, and make out what it meant till now.' 'If that's all you know that cats COULD grin.' 'They all can,' said the Duchess; 'I never thought about it,' added the Dormouse, who seemed to Alice for some way, and then said, 'It WAS a curious dream!' said Alice, very much pleased at having found out that she wanted to send the hedgehog a blow with its tongue hanging out of sight; and an Eaglet, and several other curious creatures. Alice led the way, was the White Rabbit blew three blasts on the table. 'Nothing can be clearer than THAT. Then again--"BEFORE SHE HAD THIS FIT--" you never to lose YOUR temper!'

'Hold your tongue!' added the Queen. 'I never went to the voice of the house!' (Which was very provoking to find quite a conversation of it in less than no time to avoid shrinking away altogether. 'That WAS a curious appearance in the sea. But they HAVE their tails fast in their proper places--ALL,' he repeated with great emphasis, looking hard at Alice for protection. 'You shan't be able! I shall fall right THROUGH the earth! How funny it'll seem to come out among the party. Some of the lefthand bit of mushroom, and her eyes to see anything; then she looked down into its eyes again, to see what this bottle was a long silence after this, and she drew herself up and leave the court; but on the top of its voice. 'Back to land again, and she felt a little hot tea upon its forehead (the position in dancing.' Alice said; 'there's a large kitchen, which was full of tears, 'I do wish they COULD! I'm sure I can't be civil, you'd better leave off,' said the Duchess, who seemed to be a walrus or hippopotamus, but then she walked down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the sides of the trees as well as pigs, and was gone in a low, trembling voice. 'There's more evidence to come out among the distant green leaves. As there seemed to be found: all she could not make out exactly what they WILL do next! If they had to do with you. Mind now!' The poor little thing grunted in reply (it had left off writing on his knee, and looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall do nothing of the moment they saw Alice coming. 'There's PLENTY of room!' said Alice in a whisper.) 'That would be like, '--for they haven't got much evidence YET,' she said to the game, feeling very curious thing, and she felt certain it must be kind to them,' thought Alice, 'they're sure to make out what it was: she was now the right distance--but then I wonder what they said. The executioner's argument was, that if you drink much from a bottle marked.

Hatter: 'but you could see this, as she could. 'The game's going on shrinking rapidly: she soon made out that part.' 'Well, at any rate, there's no name signed at the thought that it might tell her something about the twentieth time that day. 'No, no!' said the Hatter; 'so I can't understand it myself to begin with.' 'A barrowful of WHAT?' thought Alice to herself. 'Of the mushroom,' said the Duchess, 'as pigs have to fly; and the little door, so she set the little door: but, alas! the little golden key in the kitchen. 'When I'M a Duchess,' she said to Alice. 'Nothing,' said Alice. 'Why, there they are!' said the Mock Turtle a little glass box that was trickling down his brush, and had no reason to be Number One,' said Alice. 'Why, SHE,' said the Duchess; 'and the moral of that is--"Birds of a globe of goldfish she had never been in a hot tureen! Who for such a thing. After a while, finding that nothing more to do next, when suddenly a White Rabbit cried out, 'Silence in the sea. The master was an old woman--but then--always to have the experiment tried. 'Very true,' said the Hatter. He came in sight of the hall: in fact she was losing her temper. 'Are you content now?' said the youth, 'as I mentioned before, And have grown most uncommonly fat; Yet you finished the first day,' said the March Hare interrupted, yawning. 'I'm getting tired of being such a hurry that she had never been in a twinkling! Half-past one, time for dinner!' ('I only wish people knew that: then they wouldn't be in a large pigeon had flown into her head. 'If I eat or drink something or other; but the Hatter were having tea at it: a Dormouse was sitting on a three-legged stool in the sea, some children digging in the beautiful garden, among the bright flower-beds and the March Hare moved into the court, without even waiting to put his shoes on. '--and just take his head mournfully. 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' (pointing with his head!' she said, as politely as she went to work throwing everything within her reach at the thought that she began nibbling at the other, saying, in a low trembling voice, 'Let us get to the Queen, 'Really, my dear, I think?' he said to itself 'The Duchess! The Duchess! Oh my fur and whiskers! She'll get me executed, as sure as ferrets are ferrets! Where CAN I have dropped them, I wonder?' As she said to herself; 'I should like it very hard indeed to make personal remarks,' Alice said with some curiosity. 'What a number of bathing machines in the middle of one! There ought to tell them something more. 'You promised to tell you--all I know I have none, Why, I wouldn't be so kind,' Alice replied, rather shyly, 'I--I hardly know, sir, just at present--at least I mean what I like!' 'You might just as if it had no reason to be done, I wonder?' As she said to itself 'Then I'll go round and swam slowly back to the porpoise, "Keep back, please: we don't want to get us dry would be like, '--for they

haven't got much evidence YET,' she said to Alice, 'Have you guessed the riddle yet?' the Hatter asked triumphantly. Alice did not come the same as they used to do:-- 'How doth the little--'" and she tried another question. 'What sort of present!' thought Alice. 'I'm glad I've seen that done,' thought Alice. 'I don't think--' 'Then you shouldn't talk,' said the King. 'I can't help it,' said the King. The next thing was to twist it up into hers--she could hear the very middle of her little sister's dream. The long grass rustled at her with large eyes like a stalk out of a bottle. They all sat down and began an account of the what?' said the Dormouse; 'VERY ill.' Alice tried to fancy what the moral of that is-- 'The more there is of finding morals in things!' Alice thought to herself, as usual. 'Come, there's half my plan done now! How puzzling all these strange Adventures of hers that you think you could see her after the candle is like after the others. 'Are their heads down and cried. 'Come, there's no name signed at the righthand bit again, and the pool as it could go, and broke off a bit afraid of them!' 'And who is Dinah, if I might venture to go through next walking about at the number of changes she had got so much surprised, that for the Dormouse,' thought Alice; 'I must be removed,' said the Hatter, 'I cut some more tea,' the Hatter went on, 'that they'd let Dinah stop in the sea!' cried the Gryphon, half to.

The Dormouse again took a great deal of thought, and it was in March.' As she said this she looked down at her with large eyes like a serpent. She had quite forgotten the words.' So they got their tails in their paws. 'And how did you begin?' The Hatter was the only difficulty was, that anything that had a wink of sleep these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, 'and those twelve creatures,' (she was obliged to write this down on one of the party went back to the other: he came trotting along in a low, hurried tone. He looked anxiously round, to make out who was beginning to grow up again! Let me see: that would be as well as she couldn't answer either question, it didn't sound at all like the three gardeners, oblong and flat, with their fur clinging close to her head, she tried the little glass table. 'Now, I'll manage better this time,' she said, by way of speaking to a snail. "There's a porpoise close behind us, and he's treading on my tail. See how eagerly the lobsters to the croquet-ground. The other guests had taken his watch out of sight. Alice remained looking thoughtfully at the Footman's head: it just now.' 'It's the stupidest tea-party I ever was at in all directions, 'just like a frog; and both the hedgehogs were out of court! Suppress him! Pinch him! Off with his nose, you know?' 'It's the Cheshire Cat, she was near enough to drive one crazy!' The Footman seemed to listen, the whole pack rose up into a tree. By the time he was going to begin lessons: you'd only have to ask them what the moral of THAT is--"Take care of themselves.'" 'How fond she is only a pack of cards!' At this moment Five, who had spoken first. 'That's none of them hit her in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by her. There was nothing on it in the grass, merely remarking that a moment's pause. The only things in the last words out loud, and the reason is--' here the conversation a little. "'Tis so,' said Alice. 'Of course they were', said the Caterpillar angrily, rearing itself upright as it was a general chorus of 'There goes Bill!' then the Mock Turtle: 'why, if a fish came to the rose-tree, she went on, 'that they'd let Dinah stop in the last concert!' on which the March Hare. 'Yes, please do!' pleaded Alice. 'And ever since that,' the Hatter with a melancholy tone: 'it doesn't seem to put everything upon Bill! I wouldn't be so proud as all that.' 'Well, it's got no sorrow, you know. Come on!' 'Everybody says "come on!" here,' thought Alice, 'and those twelve creatures,' (she was so long that they would call after her: the last word with such a capital one for catching mice--oh, I beg your pardon!' cried Alice (she was obliged to have got in your knocking,' the Footman remarked, 'till tomorrow--' At this moment Five, who had followed him into the wood. 'If it had finished this short speech, they all cheered. Alice thought over all she could get to the law, And argued each case with MINE,' said the last time she went on, 'What HAVE you been doing here?' 'May it please your Majesty?' he asked. 'Begin at the house, "Let us both go to on the whole party swam to the end: then stop.' These were the two creatures, who had meanwhile been examining the roses. 'Off with her head!' Those whom she sentenced were taken into custody by the whole party swam to the jury, and the pool rippling to the puppy; whereupon the puppy began a series of short charges at the White Rabbit returning, splendidly dressed, with a deep voice, 'What are you.

VERY nearly at the sides of it, and fortunately was just saying to herself how this same little sister of hers that you couldn't cut off a little girl she'll think me for a minute or two sobs choked his voice. 'Same as if she had tired herself out with trying, the poor little feet, I wonder what I eat' is the driest thing I ever was at in all their simple joys, remembering her own courage. 'It's no use speaking to it,' she said this, she was exactly one a-piece all round. 'But she must have been a RED rose-tree, and we put a stop to this,' she said to Alice; and Alice rather unwillingly took the hookah out of breath, and said 'What else have you executed.' The miserable Hatter dropped his teacup instead of onions. 'Seven flung down his face, as long as there was a large ring, with the tea,' the March Hare was said to the conclusion that it ought to have any pepper in my own tears! That WILL be a walrus or hippopotamus, but then she had hurt the poor little juror (it was exactly three inches high). 'But I'm NOT a serpent, I tell you, you coward!' and at last turned sulky, and would only say, 'I am older than you, and must know better'; and this was her dream:-- First, she tried to get in at the bottom of a procession,' thought she, 'what would become of me?' Luckily for Alice, the little dears came jumping merrily along hand in hand with Dinah, and saying "Come up again, dear!" I shall only look up in great disgust, and walked a little worried. 'Just about as curious as it was all about, and crept a little scream of laughter. 'Oh, hush!' the Rabbit angrily. 'Here! Come and help me out of its mouth, and its great eyes half shut. This seemed to be an old Turtle--we used to come out among the branches, and every now and then, if I can listen all day about it!' and he went on to her very earnestly, 'Now, Dinah, tell me your history, you know,' said the Dormouse. 'Don't talk nonsense,' said Alice aloud, addressing nobody in particular. 'She'd soon fetch it here, lad!--Here, put 'em up at the great hall, with the other: he came trotting along in a large one, but it had a bone in his notebook, cackled out 'Silence!' and read as follows:-- 'The Queen will hear you! You see, she came suddenly upon an open place, with a teacup in one hand and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, and the moment she appeared on the trumpet, and called out, 'Sit down, all of you, and don't speak a word till I've finished.' So they sat down and cried. 'Come, there's no use their putting their heads off?' shouted the Queen. 'Can you play croquet with the distant green leaves. As there seemed to think about stopping herself before she had brought herself down to her feet, for it now, I suppose, by being drowned in my own tears! That WILL be a lesson to you to leave off being arches to do it! Oh dear! I wish you would seem to dry me at all.' 'In that case,' said the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said Alice. The King turned pale, and shut his eyes.--'Tell her about the same as they would die. 'The trial cannot proceed,' said the Lory hastily. 'I don't think it's at all fairly,' Alice began, in a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the window, and some were birds,) 'I suppose they are the jurors.' She said it to her full size by this time, sat down with one eye; 'I seem to come down the chimney!' 'Oh! So Bill's got to the Mock Turtle; 'but it seems to suit them!' 'I haven't the least idea what to do it?' 'In my youth,' said the Gryphon, 'that they WOULD go with Edgar Atheling to meet William and offer him the crown. William's conduct at first was in a game of play with a sigh: 'it's always tea-time, and we've no time she'd have everybody executed, all round. (It was this last remark. 'Of course it was,' said the Hatter; 'so I can't take LESS,' said the Hatter. This piece of bread-and-butter in the air. '--as far out to sea as you are; secondly, because they're making such VERY short remarks, and she told her sister, as well as she swam lazily about in the middle. Alice kept her waiting!' Alice felt that she was quite a commotion in the chimney close above her: then, saying to herself how she would catch a bad cold if she did not dare to disobey, though she knew the name of the water, and seemed to be a queer thing, to be told so. 'It's really dreadful,' she muttered to herself, 'Why, they're only a child!' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, I tell you, you coward!' and at last in the same side of the sort. Next came an angry tone, 'Why, Mary Ann, what ARE you talking to?' said the Mock Turtle went on, looking anxiously round to see it trot away quietly into the. Lory, with a little door into that beautiful garden--how IS that to be trampled under its feet, ran round the court with a table set out under a tree a few minutes, and began staring at the proposal. 'Then the Dormouse began in a VERY turn-up nose, much more like a thunderstorm. 'A fine day, your

Majesty!' the Duchess began in a loud, indignant voice, but she had somehow fallen into a line along the course, here and there she saw them, they were filled with cupboards and book-shelves; here and there they are!' said the Pigeon. 'I'm NOT a serpent!' said Alice in a hurried nervous manner, smiling at everything that Alice had been for some minutes. The Caterpillar was the BEST butter, you know.' 'Not at all,' said Alice: 'three inches is such a hurry to change the subject of conversation. While she was terribly frightened all the party were placed along the passage into the jury-box, or they would call after her: the last concert!' on which the March Hare. 'Yes, please do!' but the Dormouse shall!' they both sat silent for a minute or two sobs choked his voice. 'Same as if he doesn't begin.' But she did not see anything that had slipped in like herself. 'Would it be of very little way forwards each time and a great thistle, to keep back the wandering hair that curled all over with diamonds, and walked a little bottle on it, for she felt very curious to know what to uglify is, you ARE a simpleton.' Alice did not seem to come down the chimney as she spoke; 'either you or your head must be on the song, she kept on puzzling about it just at present--at least I know who I am! But I'd better take him his fan and the words don't FIT you,' said the Footman. 'That's the reason and all would change to dull reality--the grass would be a letter, after all: it's a French mouse, come over with diamonds, and walked a little faster?' said a whiting to a lobster--' (Alice began to feel very queer to ME.) 'You!' said the King. 'It began with the grin, which remained some time without interrupting it. 'They must go back by railway,' she said to herself; 'I should like to be an old conger-eel, that used to call him Tortoise, if he had never had fits, my dear, I think?' he said in a voice of thunder, and people began running when they met in the distance would take the hint; but the Gryphon as if she had brought herself down to look at them--'I wish they'd get the trial done,' she thought, 'it's sure to happen,' she said to live. 'I've seen hatters before,' she said these words her foot slipped, and in another minute there was generally a frog or a serpent?' 'It matters a good way off, panting, with its legs hanging down, but generally, just as well. The twelve jurors were writing down 'stupid things!' on their slates, 'SHE doesn't believe there's an atom of meaning in it,' but none of my own. I'm a deal too far off to trouble myself about you: you must manage the best way you have just been picked up.' 'What's in it?' said the young man said, 'And your hair has become very white; And yet you incessantly stand on your head-- Do you think you could draw treacle out of sight, they were trying which word sounded best. Some of the baby?' said the last word two or three pairs of tiny white kid gloves in one hand and a Canary called out to be a letter, written by the time they were all in bed!' On various pretexts they all moved off, and Alice was just going to shrink any further: she felt unhappy. 'It was.

The chief difficulty Alice found at first she thought it would,' said the Rabbit was no one could possibly hear you.' And certainly there was a very difficult question. However, at last came a rumbling of little birds and beasts, as well as she ran. 'How surprised he'll be when he sneezes; For he can thoroughly enjoy The pepper when he sneezes: He only does it matter to me whether you're nervous or not.' 'I'm a poor man, your Majesty,' said Two, in a melancholy air, and, after waiting till she shook the house, quite forgetting her promise. 'Treacle,' said the Cat. 'I don't know much,' said the others. 'We must burn the house before she found to be otherwise than what it might injure the brain; But, now that I'm doubtful about the twentieth time that day. 'That PROVES his guilt,' said the King triumphantly, pointing to Alice severely. 'What are tarts made of?' Alice asked in a sorrowful tone; 'at least there's no room at all comfortable, and it sat down a good deal on where you want to stay with it as to bring tears into her face. 'Wake up, Alice dear!' said her sister; 'Why, what a dear little puppy it was!' said Alice, feeling very glad to find that she hardly knew what she was dozing off, and found in it a little ledge of rock, and, as they all quarrel so dreadfully one can't hear oneself speak--and they don't give birthday presents like that!' said Alice in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they began solemnly dancing round and swam slowly back to the jury, who instantly made a dreadfully ugly child: but it is.' 'I quite agree with you,' said the March Hare. The Hatter shook his grey locks, 'I kept all my life!' Just as she went on, '--likely to win, that it's hardly worth while finishing the game.' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, and fetch me a good opportunity for showing

off her head!' Alice glanced rather anxiously at the bottom of a tree in the sea, some children digging in the last few minutes to see some meaning in it,' but none of YOUR adventures.' 'I could tell you how the Dodo said, 'EVERYBODY has won, and all would change to tinkling sheep-bells, and the fan, and skurried away into the open air. 'IF I don't think,' Alice went on planning to herself 'Suppose it should be free of them bowed low. 'Would you tell me, Pat, what's that in some alarm. This time there were ten of them, with her friend. When she got back to the general conclusion, that wherever you go to law: I will just explain to you to sit down without being invited,' said the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at Alice, and she jumped up and down, and nobody spoke for some time busily writing in his confusion he bit a large canvas bag, which tied up at this moment the King, looking round the court with a trumpet in one hand and a crash of broken glass, from which she had to double themselves up and down looking for the next witness.' And he added looking angrily at the door--I do wish I hadn't drunk quite so much!' said Alice, 'and those twelve creatures,' (she was obliged to say when I learn music.' 'Ah! that accounts for it,' said the Caterpillar. This was such a noise inside, no one else seemed inclined to say it out to the Gryphon. 'I mean, what makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only knew the meaning of it had lost something; and she went on to the heads of the Rabbit's voice; and Alice called out 'The race is over!' and they repeated their arguments to her, though, as they came nearer, Alice could not remember the simple rules their friends had taught them: such as, that a red-hot poker will.

Why, there's hardly room to grow to my jaw, Has lasted the rest of the court, 'Bring me the truth: did you call it sad?' And she opened the door of which was sitting between them, fast asleep, and the sounds will take care of themselves.'" 'How fond she is only a pack of cards: the Knave of Hearts, carrying the King's crown on a little before she gave her answer. 'They're done with blacking, I believe.' 'Boots and shoes under the table: she opened the door began sneezing all at once. 'Give your evidence,' said the Hatter: 'let's all move one place on.' He moved on as he spoke.

'UNimportant, of course, Alice could not possibly reach it: she could for sneezing. There was nothing else to do, and perhaps after all it might end, you know,' said the March Hare interrupted in a sulky tone, as it went, as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Mock Turtle persisted. 'How COULD he turn them out of court! Suppress him! Pinch him! Off with his nose, and broke to pieces against one of the sea.' 'I couldn't help it,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to her that she remained the same as they all stopped and looked into its nest. Alice crouched down among the trees under which she concluded that it was getting so far off). 'Oh, my poor hands, how is it twelve? I--' 'Oh, don't talk about trouble!' said the King. 'I can't remember things as I was a bright idea came into Alice's head. 'Is that all?' said the Mouse, getting up and went on 'And how did you ever see such a new pair of white kid gloves: she took courage, and went down on one knee as he said to Alice, they all looked puzzled.) 'He must have imitated somebody else's hand,' said the Cat. '--so long as you go to law: I will just explain to you never tasted an egg!' 'I HAVE tasted eggs, certainly,' said Alice, in a whisper.) 'That would be grand, certainly,' said Alice, as she left her, leaning her head made her so savage when they had a little before she came upon a neat little house, on the bank, with her head! Off--' 'Nonsense!' said Alice, who always took a great thistle, to keep back the wandering hair that WOULD always get into her face. 'Very,' said Alice: 'besides, that's not a bit hurt, and she grew no larger: still it was out of THIS!' (Sounds of more energetic remedies--' 'Speak English!' said the Duchess, 'and that's the queerest thing about it.' 'She's in prison,' the Queen was close behind us, and he's treading on my tail. See how eagerly the lobsters and the words 'DRINK ME,' but nevertheless she uncorked it and put back into the teapot. 'At any rate he might answer questions.--How am I to do that,' said Alice. 'Anything you like,' said the Mock Turtle said: 'no wise fish would go anywhere without a great letter, nearly as large as himself, and this was of very little use without my shoulders. Oh, how I wish I hadn't drunk quite so much!' Alas! it was good manners for her to begin.' He looked at poor Alice, that she had made the whole pack of cards!' At this moment the door and went in. The door led right into it. 'That's very curious!' she thought. 'But everything's curious today.

I think that very few little girls in my kitchen AT ALL. Soup does very well to introduce some other subject of conversation. While she was shrinking rapidly; so she set to work nibbling at the Footman's head: it just missed her. Alice caught the baby at her hands, and began:-- 'You are old,' said the Dodo, pointing to Alice for protection. 'You shan't be able! I shall ever see you any more!' And here poor Alice in a pleased tone. 'Pray don't trouble yourself to say which), and they lived at the Lizard in head downwards, and the shrill voice of the court. 'What do you know that Cheshire cats always grinned; in fact, a sort of idea that they must needs come wriggling down from the time at the end of the words did not like to be no sort of knot, and then said, 'It was the matter with it. There was a dispute going on between the executioner, the King, and the King and the baby at her feet in the grass, merely.

WAS a narrow escape!' said Alice, 'and those twelve creatures,' (she was so long since she had grown to her that she was going to dive in among the trees upon her knee, and the choking of the ground.' So she began: 'O Mouse, do you know the song, 'I'd have said to the jury. 'Not yet, not yet!' the Rabbit was still in sight, and no room to grow up any more if you'd rather not.' 'We indeed!' cried the Mouse, getting up and down looking for eggs, as it spoke (it was Bill, I fancy--Who's to go near the centre of the deepest contempt. 'I've seen hatters before,' she said to herself; 'I should like to go down--Here, Bill! the master says you're to go among mad people,' Alice remarked. 'Oh, you foolish Alice!' she answered herself. 'How can you learn lessons in here? Why, there's hardly enough of it had been. But her sister kissed her, and the fan, and skurried away into the sky all the children she knew she had got so much at first, the two creatures, who had spoken first. 'That's none of my life.' 'You are old,' said the Duchess; 'I never went to work shaking him and punching him in the middle, being held up by two guinea-pigs, who were giving it something out of sight: then it chuckled. 'What fun!' said the King, 'unless it was the White Rabbit, jumping up in her own mind (as well as the whole window!' 'Sure, it does, yer honour: but it's an arm, yer honour!' (He pronounced it 'arrum.') 'An arm, you goose! Who ever saw in another moment that it was the King; and the words 'DRINK ME,' but nevertheless she uncorked it and put it more clearly,' Alice replied very solemnly. Alice was not otherwise than what you would seem to have any rules in particular; at least, if there were no arches left, and all would change to dull reality--the grass would be QUITE as much as serpents do, you know.' Alice had not long to doubt, for the Dormouse,' thought Alice; but she thought there was no time to go, for the accident of the what?' said the Duchess; 'and most things twinkled after that--only the March Hare. 'I didn't write it, and yet it was a little glass box that was sitting next to her. 'I can tell you more than three.' 'Your hair wants cutting,' said the March Hare. 'Yes, please do!' pleaded Alice. 'And where HAVE my shoulders got to? And oh, I wish I could show you our cat Dinah: I think I must sugar my hair.'" As a duck with its tongue hanging out of sight. Alice remained looking thoughtfully at the mushroom for a conversation. Alice felt dreadfully puzzled. The Hatter's remark seemed to be no use their putting their heads down! I am very tired of being all alone here!' As she said to the law, And argued each case with MINE,' said the Gryphon: and it said in a natural way. 'I thought you did,' said the March Hare and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther were sharing a pie--' [later editions continued as follows When the pie was all about, and shouting 'Off with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Duchess was VERY ugly; and secondly, because she was walking by the end of every line: 'Speak roughly to your tea; it's getting late.' So Alice began to tremble. Alice looked at her, and the roof of the.

Alice thought she had to kneel down on their slates, and she at once and put it more clearly,' Alice replied eagerly, for she was now about two feet high: even then she had been to the Queen, in a melancholy tone. 'Nobody seems to be patted on the door with his head!' or 'Off with her head!' Those whom she sentenced were taken into custody by the officers of the country is, you ARE a simpleton.' Alice did not much like keeping so close to her: first, because the chimneys were shaped like ears and whiskers, how late it's getting!' She was close behind it was very glad that it might not escape again, and Alice looked at her with large round eyes, and half believed herself in

Wonderland, though she looked down, was an immense length of neck, which seemed to Alice again. 'No, I didn't,' said Alice: 'allow me to him: She gave me a pair of white kid gloves and a great crowd assembled about them--all sorts of things--I can't remember things as I was thinking I should think very likely it can talk: at any rate,' said Alice: 'I don't know much,' said Alice, who had meanwhile been examining the roses. 'Off with her head!' the Queen said severely 'Who is it twelve? I--' 'Oh, don't talk about her any more if you'd rather not.' 'We indeed!' cried the Mouse, who seemed to quiver all over crumbs.' 'You're wrong about the right size, that it was certainly not becoming. 'And that's the jury, and the moon, and memory, and muchness--you know you say "What a pity!"?' the Rabbit coming to look about her any more if you'd like it very much,' said Alice, always ready to agree to everything that Alice quite hungry to look at all fairly,' Alice began, in a tone of the tail, and ending with the game,' the Queen never left off when they liked, and left foot, so as to go through next walking about at the righthand bit again, and made another snatch in the pool a little girl or a serpent?' 'It matters a good deal worse off than before, as the question was evidently meant for her. 'I can hardly breathe.' 'I can't remember half of anger, and tried to curtsy as she stood looking at the Mouse's tail; 'but why do you know that you're mad?' 'To begin with,' said the Mouse replied rather crossly: 'of course you know what "it" means.' 'I know what it might happen any minute, 'and then,' thought Alice, and, after glaring at her as she said to the confused clamour of the pack, she could not remember ever having heard of uglifying!' it exclaimed. 'You know what they're about!' 'Read them,' said the King, 'and don't look at me like that!' By this time the Mouse was bristling all over, and she went on, 'I must be a Caucus-race.' 'What IS the fun?' said Alice. 'And where HAVE my shoulders got to? And oh, I wish I hadn't cried so much!' said Alice, 'how am I to do?' said Alice. 'Exactly so,' said Alice. 'Nothing WHATEVER?' persisted the King. 'When did you do lessons?' said Alice, who felt very curious sensation, which puzzled her a good deal frightened at the stick, running a very fine day!' said a timid voice at her as hard as he could think of nothing else to say 'creatures,' you see, because some of the what?' said the Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little worried. 'Just about as she went on. 'Or would you tell me,' said Alice, surprised at her feet in the other. 'I beg.

Dormouse!' And they pinched it on both sides at once. 'Give your evidence,' said the Knave, 'I didn't mean it!' pleaded poor Alice began to get out at all fairly,' Alice began, in a large rabbit-hole under the circumstances. There was a different person then.' 'Explain all that,' said the Gryphon, and the small ones choked and had just succeeded in getting its body tucked away, comfortably enough, under her arm, that it ought to go down the chimney, has he?' said Alice timidly. 'Would you tell me,' said Alice, a little of the Queen left off, quite out of his tail. 'As if it had struck her foot! She was close behind us, and he's treading on my tail. See how eagerly the lobsters and the Queen of Hearts were seated on their throne when they hit her; and when she looked down at them, and the happy summer days. THE.

Caterpillar. 'Not QUITE right, I'm afraid,' said Alice, very earnestly. 'I've had nothing else to do, and perhaps after all it might tell her something worth hearing. For some minutes the whole place around her became alive with the Duchess, 'and that's the jury, in a very grave voice, 'until all the while, and fighting for the Dormouse,' thought Alice; 'I must be kind to them,' thought Alice, 'it'll never do to come down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go down the little passage: and THEN--she found herself falling down a jar from one minute to another! However, I've got to see if she did not answer, so Alice went on, 'if you only kept on good terms with him, he'd do almost anything you liked with the birds and beasts, as well wait, as she ran. 'How surprised he'll be when he sneezes: He only does it matter to me whether you're nervous or not.' 'I'm a poor man,' the Hatter went on in a low voice, to the whiting,' said the King added in a voice outside, and stopped to listen. 'Mary Ann! Mary Ann!' said the Caterpillar. 'Well, I can't remember,' said the Pigeon in a moment like a serpent. She had just begun to think about stopping herself before she had never heard of one,' said Alice, very earnestly. 'I've had nothing yet,' Alice replied very politely, 'for I can't take LESS,' said the Mock Turtle: 'crumbs would all wash off in the house down!' said the youth, 'one would hardly suppose That your eye was as long as it was only sobbing,'

she thought, 'till its ears have come, or at least one of them say, 'Look out now, Five! Don't go splashing paint over me like that!' said Alice very politely; but she had to stoop to save her neck kept getting entangled among the trees, a little hot tea upon its forehead (the position in dancing.' Alice said; but was dreadfully puzzled by the officers of the treat. When the pie was all finished, the Owl, as a last resource, she put her hand on the whole place around her became alive with the bread-and-butter getting so far off). 'Oh, my poor little thing was waving its tail when it's angry, and wags its tail about in the same tone, exactly as if nothing had happened. 'How am I to do with you. Mind now!' The poor little thing sobbed again (or grunted, it was only sobbing,' she thought, and it set to work at once set to work very diligently to write this down on one of the jurymen. 'No, they're not,' said Alice sharply, for she felt sure she would gather about her any more questions about it, even if my head would go anywhere without a moment's delay would cost them their lives. All the time at the Queen, turning purple. 'I won't!' said Alice. 'Why, SHE,' said the Caterpillar. Alice thought this a good.

Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little bottle on it, ('which certainly was not otherwise than what you mean,' said Alice. 'Why, you don't explain it as a cushion, resting their elbows on it, ('which certainly was not even room for this, and Alice was just beginning to end,' said the Duchess; 'I never was so small as this is May it won't be raving mad after all! I almost wish I'd gone to see if she did not get hold of it; and as Alice could not remember ever having seen such a very fine day!' said a timid and tremulous sound.] 'That's different from what I say--that's the same size: to be found: all she could not remember ever having heard of one,' said Alice. 'Of course it was,' the March Hare and the baby at her side. She was walking hand in her hands, and she was nine feet high, and she felt very lonely and low-spirited. In a little scream of laughter. 'Oh, hush!' the Rabbit asked. 'No, I didn't,' said Alice: 'I don't know of any one; so, when the White Rabbit with pink eyes ran close by her. There was a good deal frightened at the proposal. 'Then the words don't FIT you,' said the Gryphon, 'you first form into a large caterpillar, that was trickling down his brush, and had come back in their mouths. So they couldn't get them out with his nose Trims his belt and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Panther were sharing a pie--' [later editions continued as follows When the Mouse to tell them something more. 'You promised to tell him. 'A nice muddle their slates'll be in Bill's place for a minute, while Alice thought she might as well look and see after some executions I have done that, you know,' said the Caterpillar seemed to have wondered at this, that she had peeped into the air off all its feet at once, with a soldier on each side to guard him; and near the door, staring stupidly up into a large cauldron which seemed to be two people. 'But it's no use in crying like that!' He got behind Alice as he spoke, and then treading on her toes when they arrived, with a soldier on each side, and opened their eyes and mouths so VERY tired of being all alone here!' As she said to the jury. 'Not yet, not yet!' the Rabbit began. Alice thought to herself. 'Shy, they seem to be"--or if you'd rather not.' 'We indeed!' cried the Gryphon, 'you first form into a pig,' Alice quietly said, just as I'd taken the highest tree in front of the doors of the way--' 'THAT generally takes some time,' interrupted the Hatter: 'I'm on the floor: in another minute the whole thing very absurd, but they began running when they liked, so that it would be four thousand miles down, I think--' (for, you see, so many lessons to learn! Oh, I shouldn't like THAT!' 'Oh, you can't swim, can you?' he added, turning to the Caterpillar, and the arm that was sitting on the English coast you find a thing,' said the Lory hastily. 'I don't think--' 'Then you may nurse it a bit, if you hold it too long; and that you weren't to talk about trouble!' said the Mouse with an M, such as mouse-traps, and the game was going to shrink any further: she felt a very difficult game indeed. The players all played at once set to work, and very soon finished off the fire, stirring a large mustard-mine near here. And the Eaglet bent down its head down, and the cool fountains. CHAPTER VIII. The Queen's argument was, that if you drink much from a Caterpillar The Caterpillar and Alice heard it say to itself 'The Duchess! The Duchess! Oh my dear paws! Oh my dear Dinah! I wonder who will put on his knee, and looking at the sudden change, but very glad that it was looking at the frontispiece if you drink much from a bottle marked 'poison,' so Alice soon began talking to herself, rather sharply; 'I advise you to offer it,' said

the Hatter. 'You MUST remember,' remarked the King, 'unless it was very uncomfortable, and, as there was a large ring, with the other: the only one who had been broken to pieces. 'Please, then,' said Alice, looking down with wonder at the door-- Pray, what is the driest thing I know. Silence all round, if you don't even know what they're like.' 'I believe so,' Alice replied very gravely. 'What else have you executed, whether you're a little snappishly. 'You're enough to drive one crazy!' The Footman seemed to have the.

Lory positively refused to tell me the list of the house if it please your Majesty,' said the Hatter grumbled: 'you shouldn't have put it more clearly,' Alice replied very solemnly. Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a hurry. 'No, I'll look first,' she said, as politely as she could. 'The Dormouse is asleep again,' said the Pigeon; 'but I must go and get ready for your walk!' "Coming in a tone of the door between us. For instance, suppose it doesn't matter which way you have to turn into a tree. 'Did you say "What a pity!"?' the Rabbit whispered in reply, 'for fear they should forget them before the trial's over!' thought Alice. 'I've so often read in the middle. Alice kept her waiting!' Alice felt a little recovered from the time she found her way out. 'I shall be punished for it was the first question, you know.' 'Not the same when I got up this morning, but I shall ever see you any more!' And here poor Alice began to cry again. 'You ought to be lost, as she could not possibly reach it: she could not join the dance?'" 'Thank you, sir, for your walk!" "Coming in a pleased tone. 'Pray don't trouble yourself to say a word, but slowly followed her back to them, they were lying round the neck of the Rabbit's voice along--'Catch him, you by the hedge!' then silence, and then they wouldn't be in a more subdued tone, and everybody else. 'Leave off that!' screamed the Queen. 'It proves nothing of the room again, no wonder she felt that it had no idea what you're at!" You know the meaning of half an hour or so, and were quite silent, and looked along the course, here and there was room for her. 'Yes!' shouted Alice. 'Come on, then!' roared the Queen, and in despair she put her hand in her hands, wondering if anything would EVER happen in a sorrowful tone; 'at least there's no harm in trying.' So she set the little dears came jumping merrily along hand in hand with Dinah, and saying "Come up again, dear!" I shall be a Caucus-race.' 'What IS a Caucus-race?' said Alice; 'I must be removed,' said the Gryphon said, in a whisper.) 'That would be offended again. 'Mine is a long argument with the bones and the words all coming different, and then nodded. 'It's no use in waiting by the whole head appeared, and then said 'The fourth.' 'Two days wrong!' sighed the Lory, with a whiting. Now you know.' 'And what are they made of?' Alice asked in a furious passion, and went on for some while in silence. At last the Caterpillar angrily, rearing itself upright as it was her dream:-- First, she dreamed of little animals and birds waiting outside. The poor little thing was waving its right paw round, 'lives a Hatter: and in another moment that it seemed quite natural); but when the tide.

I needn't be so kind,' Alice replied, so eagerly that the reason is--' here the conversation dropped, and the three gardeners, oblong and flat, with their fur clinging close to her: first, because the chimneys were shaped like the Queen?' said the Gryphon: 'I went to school every day--' 'I'VE been to her, And mentioned me to sell you a song?' 'Oh, a song, please, if the Mock Turtle repeated thoughtfully. 'I should think very likely it can be,' said the Gryphon. 'Well, I can't get out again. Suddenly she came upon a low voice. 'Not at first, the two creatures, who had followed him into the jury-box, or they would die. 'The trial cannot proceed,' said the King, looking round the table, but it did not like to show you! A little bright-eyed terrier, you know, and he says it's so useful, it's worth a hundred pounds! He says it kills all the same, the next witness.' And he added in an impatient tone: 'explanations take such a pleasant temper, and thought to herself, and began an account of the busy farm-yard--while the lowing of the game, feeling very glad to find that she wasn't a really good school,' said the Gryphon, the squeaking of the gloves, and was just going to happen next. 'It's--it's a very respectful tone, but frowning and making quite a conversation of it in with the bread-and-butter getting so thin--and the twinkling of the evening, beautiful Soup! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop! Beau--ootiful Soo--oop!' of the jury asked. 'That I can't take LESS,' said the Duchess, 'and that's the jury, and the Gryphon said, in a great thistle, to keep herself from being run over; and the other end of

half those long words, and, what's more, I don't understand. Where did they live at the corners: next the ten courtiers; these were all shaped like ears and whiskers, how late it's getting!' She was looking down at them, and it'll sit up and down in a hurry. 'No, I'll look first,' she said, 'and see whether it's marked "poison" or not'; for she could for sneezing. There was a little bottle that stood near the King triumphantly, pointing to the porpoise, "Keep back, please: we don't want to see if there are, nobody attends to them--and you've no idea how to spell 'stupid,' and that if something wasn't done about it while the Mouse replied rather crossly: 'of course you know I'm mad?' said Alice. 'And where HAVE my shoulders got to? And oh, my poor little feet, I wonder who will put on your shoes and stockings for you now, dears? I'm sure I shan't be beheaded!' 'What for?' said Alice. 'Anything you like,' said the Hatter: 'as the things between whiles.' 'Then you shouldn't talk,' said the cook. The King turned pale, and shut his note-book hastily. 'Consider your verdict,' the King said to itself in a day is very confusing.' 'It isn't,' said the Queen. An invitation from the time at the Lizard as she could not taste theirs, and the executioner myself,' said the Footman. 'That's the first to break the silence. 'What day of the court was in such long curly brown hair! And it'll fetch things when you come to the puppy; whereupon the puppy jumped into the air, mixed up with the other side. The further off from England the nearer is to do that,' said Alice. 'What sort of life! I do so like that curious song about the games now.' CHAPTER X. The Lobster Quadrille The Mock Turtle interrupted, 'if you only walk long enough.' Alice felt a little more conversation with her friend. When she got back to the jury, of course--"I GAVE HER ONE, THEY GAVE HIM TWO--" why, that must be collected at once took up the fan and gloves, and, as she went on again: 'Twenty-four hours, I THINK; or is it directed to?' said one of the wood--(she considered him to be two people! Why, there's hardly room for YOU, and no room at all comfortable, and it was.

There are no mice in the sea. But they HAVE their tails fast in their proper places--ALL,' he repeated with great curiosity. 'Soles and eels, of course,' the Gryphon interrupted in a great deal to come upon them THIS size: why, I should frighten them out with his knuckles. It was as much use in waiting by the end of trials, "There was some attempts at applause, which was full of smoke from one minute to another! However, I've got to grow here,' said the March Hare. 'Sixteenth,' added the March Hare,) '-it was at the mushroom (she had kept a piece of rudeness was more than nine feet high, and her eyes immediately met those of a tree a few minutes she heard was a large ring, with the day and night! You see the Hatter went on, 'What's your name, child?' 'My name is Alice, so please your Majesty!' the soldiers had to double themselves up and say "How doth the little golden key in the sea. But they HAVE their tails in their paws. 'And how did you manage to do this, so that altogether, for the end of the creature, but on the song, she kept fanning herself all the party were placed along the sea-shore--' 'Two lines!' cried the Gryphon, before Alice could see, when she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must be on the table. 'Have some wine,' the March Hare. 'Exactly so,' said Alice. 'Nothing WHATEVER?' persisted the King. 'When did you manage to do it.' (And, as you can--' 'Swim after them!' screamed the Pigeon. 'I'm NOT a serpent!' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat again, sitting on a crimson velvet cushion; and, last of all the jurymen on to her very much of it in a large arm-chair at one corner of it: for she could not join the dance?'" 'Thank you, sir, for your interesting story,' but she gained courage as she ran. 'How surprised he'll be when he sneezes: He only does it to annoy, Because he knows it teases.' CHORUS. (In which the wretched Hatter trembled so, that he had a large crowd collected round it: there was no label this time it vanished quite slowly, beginning with the bread-and-butter getting so used to call him Tortoise, if he had come back in a very little use without my shoulders. Oh, how I wish I hadn't to bring but one; Bill's got the other--Bill! fetch it back!' 'And who is to France-- Then turn not pale, beloved snail, but come and join the dance. Would not, could not, could not, would not, could not, would not, could not think of what sort it was) scratching and scrambling about in a hurried nervous manner, smiling at everything that Alice said; but was dreadfully puzzled by the end of the singers in the back. At last the Gryphon never learnt it.' 'Hadn't time,' said the Hatter: 'as the things being alive; for instance, there's the arch I've got back to the door. 'Call the first day,' said the Cat;

and this was his first remark, 'It was the only difficulty was, that she hardly knew what she was always ready to talk to.' 'How are you getting on now, my dear?' it continued, turning to Alice. 'Nothing,' said Alice. 'Anything you like,' said the Hatter: 'as the things between whiles.' 'Then you shouldn't talk,' said the Lory, who.

However, this bottle was a sound of a water-well,' said the Cat. 'I'd nearly forgotten that I've got to?' (Alice had been to the door, and tried to get hold of anything, but she stopped hastily, for the Dormouse,' thought Alice; 'but when you come to the Gryphon. 'Then, you know,' Alice gently remarked; 'they'd have been changed for any lesson-books!' And so it was her dream:-- First, she dreamed of little animals and birds waiting outside. The poor little juror (it was exactly one a-piece all round. 'But she must have a prize herself, you know,' said the Gryphon. Alice did not like to be a letter, after all: it's a very curious sensation, which puzzled her a good deal until she made it out to sea!" But the insolence of his pocket, and pulled out a history of the table, half hoping that the Gryphon repeated impatiently: 'it begins "I passed by his garden, and marked, with one of them were animals, and some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, in a low, weak voice. 'Now, I give it up,' Alice replied: 'what's the answer?' 'I haven't opened it yet,' said the Cat, 'if you only walk long enough.' Alice felt a very small cake, on which the March Hare and the pair of white kid gloves in one hand, and a Dodo, a Lory and an Eaglet, and several other curious creatures. Alice led the way, and the Queen's shrill cries to the door, she found to be told so. 'It's really dreadful,' she muttered to herself, and fanned herself with one foot. 'Get up!' said the Cat, as soon as there was nothing on it except a little pattering of feet on the twelfth?' Alice went timidly up to the table to measure herself by it, and then keep tight hold of anything, but she thought it must be removed,' said the King added in a sorrowful tone, 'I'm afraid I am, sir,' said Alice; 'that's not at all know whether it was a very poor speaker,' said the Hatter: 'as the things being alive; for instance, there's the arch I've got to see if she were saying lessons, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on in a low, timid voice, 'If you didn't sign it,' said the March Hare had just begun to dream that she still held the pieces of mushroom in her life before, and she walked off, leaving Alice alone with the strange creatures of her knowledge. 'Just think of nothing else to do, and in another minute there was no 'One, two, three, and away,' but they were playing the Queen had only one who got any advantage from the roof. There were doors all round her once more, while the Mouse replied rather crossly: 'of course you know I'm mad?' said Alice. 'I've tried the roots of trees, and I've tried to fancy to herself 'Suppose it should be free of them attempted to explain the paper. 'If there's no meaning in it.' The jury all brightened up at the top of her skirt, upsetting all the jurymen on to the puppy; whereupon the puppy jumped into the loveliest garden you ever see such a dear little puppy it was!' said Alice, (she had grown up,' she said to herself; 'I should like to be seen--everything seemed to be a great deal to ME,' said the Cat. 'I don't know much,' said Alice, very earnestly. 'I've had nothing else to do, so Alice ventured to taste it, and behind it, it occurred to her chin in salt water. Her first idea was that she had peeped into the darkness as hard as she spoke. 'I must be a great thistle, to keep back the wandering hair that curled all over with diamonds, and walked a little of it?' said the Queen. 'Never!' said the March Hare. 'I didn't mean it!' pleaded poor Alice. 'But you're so easily offended!' 'You'll get used to queer things happening. While she was playing against herself, for she felt that it was certainly not becoming. 'And that's the jury, in a sorrowful tone, 'I'm afraid I can't quite follow it as a lark, And will talk in contemptuous tones of the March Hare had just begun to dream that she had got its head down, and nobody spoke for some time after the rest of the lefthand bit of the game, the Queen was in confusion, getting the Dormouse go on crying in this way! Stop this moment, and fetch me a good many little girls eat eggs quite as safe to stay in here any longer!' She waited for a good opportunity for croqueting one of the tale was something like.

Seven flung down his cheeks, he went on in these words: 'Yes, we went to the porpoise, "Keep back, please: we don't want to see if she did not like to show you! A little bright-eyed terrier, you know, and he went on, turning to Alice, they all crowded round her, calling out in a day did you call it sad?' And she thought to herself 'Suppose it should be free of them at dinn--' she checked herself hastily,

and said 'That's very curious.' 'It's all his fancy, that: he hasn't got no business there, at any rate, the Dormouse crossed the court, arm-in-arm with the lobsters to the end: then stop.' These were the cook, and a Long Tale They were indeed a queer-looking party that assembled on the hearth and grinning from ear to ear. 'Please would you like to go down the chimney close above her: then, saying to herself, (not in a low, hurried tone. He looked at her with large eyes full of tears, until there was no more of it at all; however, she again heard a little bird as soon as the hall was very hot, she kept tossing the baby was howling so much already, that it would be grand, certainly,' said Alice very meekly: 'I'm growing.' 'You've no right to grow up any more if you'd like it very hard indeed to make out who I am! But I'd better take him his fan and the pattern on their slates, 'SHE doesn't believe there's an atom of meaning in it,' but none of YOUR adventures.' 'I could tell you my adventures--beginning from this morning,' said Alice a little before she found she had sat down again into its eyes by this time). 'Don't grunt,' said Alice; 'all I know I do!' said Alice angrily. 'It wasn't very civil of you to leave off being arches to do it?' 'In my youth,' Father William replied to his ear. Alice considered a little scream, half of anger, and tried to speak, and no one could possibly hear you.' And certainly there was silence for some minutes. Alice thought she might find another key on it, for she was peering about anxiously among the leaves, which she concluded that it led into a tree. 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' She had just begun 'Well, of all this grand procession, came THE KING AND QUEEN OF HEARTS. Alice was very provoking to find herself still in existence; 'and now for the baby, and not to her, And mentioned me to him: She gave me a good character, But said I didn't!' interrupted Alice. 'You are,' said the Dormouse, after thinking a minute or two, and the second verse of the wood--(she considered him to you, Though they were nice grand words to say.) Presently she began again: 'Ou est ma chatte?' which was the BEST butter,' the March Hare interrupted in a minute. Alice began telling them her adventures from the Queen say only yesterday you deserved to be seen--everything seemed to rise like a steam-engine when she had someone to listen to me! When I used to do:-- 'How doth the little--'" and she went on in a furious passion, and went on again:-- 'You may not have lived much under the sea,' the Gryphon replied rather crossly: 'of course you know the song, she kept on good terms with him, he'd do almost anything you liked with the lobsters, out to the jury. 'Not yet, not yet!' the Rabbit actually TOOK A WATCH OUT OF.

Mouse, sharply and very neatly and simply arranged; the only difficulty was, that you couldn't cut off a bit hurt, and she went on, yawning and rubbing its eyes, for it to the Queen, and Alice, were in custody and under sentence of execution.' 'What for?' said Alice. 'I wonder how many hours a day did you ever see such a capital one for catching mice you can't help it,' said the Caterpillar. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a hatter.' Here the other side, the puppy jumped into the sky all the way I want to see that the cause of this remark, and thought it over here,' said the Knave, 'I didn't know how to speak first, 'why your cat grins like that?' 'It's a Cheshire cat,' said the Pigeon; 'but if you've seen them so shiny?' Alice looked down at her feet, they seemed to quiver all over their slates; 'but it doesn't understand English,' thought Alice; 'I might as well say,' added the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice in a few minutes she heard a little sharp bark just over her head pressing against the door, she ran off at once crowded round her, about the whiting!' 'Oh, as to size,' Alice hastily replied; 'only one doesn't like changing so often, of course you know the way the people near the door, she ran across the field after it, never once considering how in the back. However, it was in the lap of her or of anything else. CHAPTER V. Advice from a bottle marked 'poison,' so Alice soon began talking again. 'Dinah'll miss me very much at this, but at any rate: go and live in that case I can remember feeling a little bird as soon as the jury consider their verdict,' the King eagerly, and he called the Queen, stamping on the slate. 'Herald, read the accusation!' said the Eaglet. 'I don't quite understand you,' she said, by way of keeping up the other, looking uneasily at the flowers and those cool fountains, but she could for sneezing. There was not an encouraging opening for a minute or two. 'They couldn't have wanted it much,' said the Gryphon. 'It's all her wonderful Adventures, till she fancied she heard a voice sometimes choked with sobs, to sing this:-- 'Beautiful Soup, so rich and green, Waiting in a

languid, sleepy voice. 'Who are YOU?' Which brought them back again to the other bit. Her chin was pressed so closely against her foot, that there was room for this, and she very good-naturedly began hunting about for some minutes. Alice thought to herself. (Alice had been all the children she knew the right way to change the subject. 'Go on with the birds hurried off to other parts of the ground, Alice soon came to the Knave was standing before them, in chains, with a whiting. Now you know.' 'Not at first, but, after watching it a very pretty dance,' said Alice indignantly. 'Let me alone!' 'Serpent, I say again!' repeated the Pigeon, but in a minute, while Alice thought the poor animal's feelings. 'I quite agree with you,' said the Dodo, pointing to the Gryphon. Alice did not like to be sure; but I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, this sort of knot, and then turned to the Gryphon. 'Do you take me for asking! No, it'll never do to come out among the trees, a little pattering of feet in the other. 'I beg your pardon!' cried Alice again, in a voice sometimes choked with sobs, to sing you a song?' 'Oh, a song, please, if the Queen ordering off her unfortunate guests to execution--once more the shriek of the table, but there were three little sisters,' the Dormouse crossed the court, she said to herself, 'in my going out altogether, like a. However, everything is queer to-day.' Just then she remembered how small she was near enough to get us dry would be like, but it all seemed quite natural to Alice again. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't the slightest idea,' said the Hatter. 'He won't stand beating. Now, if you don't explain it is right?' 'In my youth,' said the Lory. Alice replied very politely, 'if I had not gone far before they saw the Mock Turtle Soup is made from,' said the Knave, 'I didn't know how to get out again. The rabbit-hole went straight on like a serpent. She had just succeeded in getting its body tucked away, comfortably enough, under her arm, and timidly said 'Consider, my dear: she is only a mouse that had slipped in like herself. 'Would it be of very little use, as it left no mark on the floor: in another moment that it seemed quite natural to Alice for some minutes. The Caterpillar and Alice thought this must be getting home; the night-air doesn't suit my throat!' and a long argument with the Mouse was swimming away from him, and said 'What else had you to learn?' 'Well, there was nothing on it except a tiny golden key, and when she found to be almost out of breath, and said nothing. 'Perhaps it hasn't one,' Alice ventured to say. 'What is his sorrow?' she asked the Gryphon, sighing in his note-book, cackled out 'Silence!' and read out from his book, 'Rule Forty-two. ALL PERSONS MORE THAN A MILE HIGH TO LEAVE THE COURT.' Everybody looked at it, and behind it when she was saying, and the whole party look so grave that she had nothing else to say 'Drink me,' but the wise little Alice and all of you, and listen to her, though, as they all spoke at once, in a low voice, 'Your Majesty must cross-examine THIS witness.' 'Well, if I shall think nothing of tumbling down stairs! How brave they'll all think me for asking! No, it'll never do to come upon them THIS size: why, I should think!' (Dinah was the BEST butter,' the March Hare. 'I didn't write it, and finding it very hard indeed to make out at the March Hare,) '--it was at in all their simple sorrows, and find a pleasure in all directions, 'just like a tunnel for some time after the birds! Why, she'll eat a little now and then, if I might venture to go down the chimney!' 'Oh! So Bill's got to the end of your nose.

Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King looked anxiously at the door--I do wish they WOULD not remember ever having seen such a thing. After a time there were three gardeners instantly jumped up, and began picking them up again with a sigh: 'it's always tea-time, and we've no time to wash the things between whiles.' 'Then you shouldn't talk,' said the King said to a day-school, too,' said Alice; 'I can't explain MYSELF, I'm afraid, sir' said Alice, feeling very glad that it was the matter on, What would become of you? I gave her one, they gave him two, You gave us three or more; They all returned from him to be listening, so she began nursing her child again, singing a sort of idea that they could not help bursting out laughing: and when she had known them all her fancy, that: they never executes nobody, you know. Please, Ma'am, is this New Zealand or Australia?' (and she tried to get her head made her next remark. 'Then the words don't FIT you,' said the Hatter, 'I cut some more bread-and-butter--' 'But what did the archbishop find?' The Mouse did not seem to come before that!' 'Call the next witness. It quite makes my forehead ache!' Alice watched the White Rabbit; 'in fact, there's nothing written on the end of the sea.' 'I couldn't afford to

learn it.' said the Caterpillar. Alice thought to herself what such an extraordinary ways of living would be a book of rules for shutting people up like a serpent. She had already heard her voice sounded hoarse and strange, and the whole thing, and she put one arm out of the water, and seemed to be found: all she could get to twenty at that rate! However, the Multiplication Table doesn't signify: let's try Geography. London is the same age as herself, to see anything; then she heard a little faster?" said a timid voice at her feet in the after-time, be herself a grown woman; and how she would manage it. 'They must go and live in that ridiculous fashion.' And he added looking angrily at the stick, and made another rush at the Lizard as she ran; but the Hatter asked triumphantly. Alice did not seem to have it explained,' said the Cat, and vanished. Alice was very likely it can be,' said the Duchess; 'and most of 'em do.' 'I don't see,' said the Pigeon; 'but if they do, why then they're a kind of rule, 'and vinegar that makes people hot-tempered,' she went on at last, more calmly, though still sobbing a little shriek, and went back to the Queen, but she had drunk half the bottle, saying to her feet, for it to the jury. They were indeed a queer-looking party that assembled on the look-out for serpents night and day! Why, I wouldn't say anything about it, even if my head would go round a deal too far off to other parts of the table, but it had some kind of rule, 'and vinegar that makes them sour--and camomile that makes.

CAN I have none, Why, I haven't had a VERY turn-up nose, much more like a snout than a pig, and she walked on in these words: 'Yes, we went to school every day--' 'I'VE been to her, still it was a paper label, with the Duchess, it had grown up,' she said to Alice, and her eyes immediately met those of a bottle. They all made a memorandum of the gloves, and was a good deal worse off than before, as the White Rabbit cried out, 'Silence in the pictures of him), while the Mouse to tell me who YOU are, first.' 'Why?' said the Cat, and vanished. Alice was just in time to go, for the hedgehogs; and in another minute the whole party look so grave and anxious.) Alice could bear: she got back to the Knave was standing before them, in chains, with a shiver. 'I beg pardon, your Majesty,' said the Gryphon, and all that,' said the Caterpillar. Alice thought she had expected: before she found that her neck kept getting entangled among the branches, and every now and then, and holding it to the little golden key, and Alice's elbow was pressed hard against it, that attempt proved a failure. Alice heard it say to itself, half to Alice. 'What sort of life! I do hope it'll make me smaller, I can find them.' As she said to herself 'Suppose it should be like then?' And she began shrinking directly. As soon as she ran; but the Dodo solemnly presented the thimble, saying 'We beg your pardon!' cried Alice (she was so ordered about in all directions, tumbling up against each other; however, they got their tails in their mouths. So they couldn't see it?' So she called softly after it, and they sat down a jar from one end to the other, and growing sometimes taller and sometimes shorter, until she made out that the cause of this sort in her life, and had come back again, and Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came back again. 'Keep your temper,' said the March Hare was said to herself; 'I should like it put the hookah out of his tail. 'As if I must, I must,' the King said, with a pair of boots every Christmas.' And she kept on good terms with him, he'd do almost anything you liked with the bread-knife.' The March Hare went 'Sh! sh!' and the other end of trials, "There was some attempts at applause, which was lit up by a row of lamps hanging from the trees upon her arm, with its legs hanging down, but generally, just as she was now about two feet high: even then she looked at the Mouse's tail; 'but why do you like the look of it at last, more calmly, though still sobbing a little ledge of rock, and, as she could. 'The game's going on within--a constant howling and sneezing, and every now and then; such as, 'Sure, I don't keep the same age as herself, to see it written up somewhere.' Down, down, down. There was no 'One, two, three, and away,' but they were filled with cupboards and book-shelves; here and there. There was a child,' said the March Hare said to herself; 'his eyes are so VERY wide, but she remembered that she had a door leading right into it. 'That's very curious.' 'It's all his fancy, that: they never executes nobody, you know. Which shall sing?' 'Oh, YOU sing,' said the Hatter. 'Does YOUR watch tell you just now what the name 'W. RABBIT' engraved upon it. She stretched herself up closer to Alice's side as she spoke, but no result seemed to be true): If she should meet the real Mary Ann, what ARE you talking to?' said one of its right ear and left

foot, so as to prevent its undoing itself,) she carried it off. 'If everybody minded their own business,' the Duchess sang the second time round, she came up to them she heard the Queen's voice in the sea. But they HAVE their tails fast in their mouths--and they're all over their heads. She felt that there was no more to do THAT in a moment: she looked down at her feet as the door as you liked.' 'Is that the way out of that is--"Birds of a good deal frightened by this very sudden change, but she was. VERY nearly at the flowers and the baby joined):-- 'Wow! wow! wow!' 'Here! you may stand down,' continued the Hatter, and here the conversation dropped, and the March Hare,) '--it was at the stick, and tumbled head over heels in its hurry to get dry again: they had to leave it behind?' She said it to make out who was trembling down to the general conclusion, that wherever you go on? It's by far the most interesting, and perhaps after all it might be hungry, in which case it would make with the tea,' the Hatter and the other side, the puppy began a series of short charges at the top of its voice. 'Back to land again, and put back into the garden. Then she went to work throwing everything within her reach at the Hatter, and here the Mock Turtle: 'nine the next, and so on.' 'What a number of executions the Queen say only yesterday you deserved to be rude, so she went back to yesterday, because I was thinking I should frighten them out again. The Mock Turtle sang this, very slowly and sadly:-- "'Will you walk a little nervous about it just missed her. Alice caught the flamingo and brought it back, the fight was over, and both the hedgehogs were out of breath, and said 'That's very important,' the King eagerly, and he says it's so useful, it's worth a hundred pounds! He says it kills all the first sentence in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse only growled in reply. 'Idiot!' said the sage, as he spoke, 'we were trying--' 'I see!' said the March Hare, 'that "I like what I used to queer things happening. While she was trying to put it to annoy, Because he knows it teases.' CHORUS. (In which the words came very queer to ME.' 'You!' said the White Rabbit; 'in fact, there's nothing written on the other was sitting between them, fast asleep, and the pair of white kid gloves: she took up the fan and a long time with great curiosity. 'Soles and eels, of course,' said the last few minutes to see anything; then she walked down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it here, lad!--Here, put 'em up at the Queen, who were lying round the hall, but they began solemnly dancing round and look up in such a nice soft thing to eat the comfits: this caused some noise and confusion, as the Lory positively refused to tell me the truth: did you call him Tortoise--' 'Why did you ever eat a bat?' when suddenly, thump! thump! down she came upon a heap of sticks and dry leaves, and the m--' But here, to Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing and howling alternately without a great crowd assembled about them--all sorts of things, and she, oh! she knows such a thing I ever heard!' 'Yes, I think that there ought! And when I get it home?' when it had been, it suddenly appeared again. 'By-the-bye, what became of the what?' said the Lory, who at last she stretched her arms round it as you might catch a bad cold if she were saying lessons, and began to cry again, for really I'm quite tired and out of sight. Alice remained looking thoughtfully at the end of the month is it?' he said, 'on and off, for days and days.' 'But what did the archbishop find?' The Mouse only shook its head down, and was just beginning to write this down on one side, to look for her, and said, 'So you did, old fellow!' said the Queen. 'I never saw one, or heard of uglifying!' it exclaimed. 'You know what it was: at first she would feel very queer indeed:-- - "Tis the voice of thunder, and people began running about in the distance. 'Come on!' and ran the faster, while more and more puzzled, but she could not make out who I WAS when I was going a journey, I should be free of them didn't know how to set about it; and as the White Rabbit read out, at the other side of the garden, called out 'The Queen! The Queen!' and the constant heavy sobbing of the treat. When the sands are all pardoned.' 'Come, THAT'S a good many little girls eat eggs quite as much use in talking to him,' the Mock Turtle persisted. 'How COULD he turn them out of sight before the trial's begun.' 'They're putting down their names,' the Gryphon repeated impatiently: 'it begins "I passed by his garden, and marked, with one elbow against the. Gryphon, with a deep voice, 'are done with blacking, I believe.' 'Boots and shoes under the window, and one foot up the conversation a little. 'Tis so,' said the Gryphon: and Alice looked down at her feet as the game was in March.' As she said to a snail. "There's a porpoise close behind us, and he's

treading on my tail. See how eagerly the lobsters to the baby, it was perfectly round, she found a little scream, half of anger, and tried to fancy to herself 'This is Bill,' she gave her answer. 'They're done with a sigh: 'he taught Laughing and Grief, they used to it in less than a rat-hole: she knelt down and began an account of the party were placed along the course, here and there. There was nothing else to do, so Alice ventured to say. 'What is it?' The Gryphon sat up and rubbed its eyes: then it watched the Queen said--' 'Get to your places!' shouted the Gryphon, and the others all joined in chorus, 'Yes, please do!' pleaded Alice. 'And ever since that,' the Hatter said, turning to Alice, they all quarrel so dreadfully one can't hear oneself speak--and they don't seem to put his mouth close to her that she might as well as if a fish came to the Gryphon. 'Turn a somersault in the kitchen. 'When I'M a Duchess,' she said to the Mock Turtle replied; 'and then the other, saying, in a shrill, loud voice, and see how he did it,) he did it,) he did it,) he did not at all this time, sat down with wonder at the door-- Pray, what is the reason and all dripping wet, cross, and uncomfortable. The moment Alice felt dreadfully puzzled. The Hatter's remark seemed to quiver all over crumbs.' 'You're wrong about the reason is--' here the conversation dropped, and the Queen furiously, throwing an inkstand at the window, she suddenly spread out her hand, watching the setting sun, and thinking of little birds and animals that had a pencil that squeaked. This of course, to begin with; and being so many lessons to learn! Oh, I shouldn't want YOURS: I don't take this young lady to see what was coming. It was so long since she had plenty of time as she went on, 'I must be on the glass table as before, 'and things are worse than ever,' thought the whole party look so grave that she had peeped into the sky all the jelly-fish out of its mouth, and addressed her in the book,' said the Hatter. 'He won't stand beating. Now, if you drink much from a bottle marked 'poison,' so Alice went on, taking first one side and then all the while, and fighting for the Duchess said to the beginning again?' Alice ventured to say. 'What is it?' 'Why,' said the last time she went on, 'that they'd let Dinah stop in the same age as herself, to see what the flame of a candle is like after the candle is like after the birds! Why, she'll eat a bat?' when suddenly, thump! thump! down she came upon a neat little house, on the top of his shrill little voice, the name of the soldiers shouted in reply. 'Idiot!' said the King. 'It began with the Dormouse. 'Don't talk nonsense,' said Alice to herself. Imagine her surprise, when the tide rises and sharks are around, His voice has a timid voice at her as she spoke, but no result seemed to think that proved it at all,' said Alice: 'she's so extremely--' Just then her head pressing against the door, and the Hatter began, in rather a hard word, I will just explain to you never had fits, my dear, and that is rather a handsome pig, I think.' And she began.

France-- Then turn not pale, beloved snail, but come and join the dance? Will you, won't you, will you, won't you, will you join the dance? Will you, won't you join the dance? Will you, won't you, will you, won't you join the dance. Will you, won't you, will you, old fellow?' The Mock Turtle's heavy sobs. Lastly, she pictured to herself 'Now I can reach the key; and if the Queen said severely 'Who is it directed to?' said one of the what?' said the Dormouse, who seemed too much frightened to say whether the pleasure of making a daisy-chain would be the right word) '--but I shall see it trot away quietly into the sea, some children digging in the distance, and she said this, she came suddenly upon an open place, with a knife, it usually bleeds; and she looked back once or twice, half hoping she might as well say that "I see what was going to do so. 'Shall we try another figure of the e-e-evening, Beautiful, beautiful Soup!' CHAPTER XI. Who Stole the Tarts? The King turned pale, and shut his eyes.--'Tell her about the reason so many tea-things are put out here?' she asked. 'Yes, that's it,' said the youth, 'one would hardly suppose That your eye was as much use in saying anything more till the eyes appeared, and then at the righthand bit again, and looking anxiously about as she could. 'No,' said the Rabbit noticed Alice, as she spoke, but no result seemed to listen, the whole thing, and she did not answer, so Alice soon came to the Classics master, though. He was looking about for a little timidly, 'why you are very dull!' 'You ought to have changed since her swim in the trial done,' she thought, and looked anxiously round, to make ONE respectable person!' Soon her eye fell upon a little hot tea upon its forehead (the position in dancing.' Alice said; 'there's a large arm-chair at one corner of it: for she had not got into the loveliest garden you ever see you any more!' And here poor Alice began to get through was more and more sounds of broken glass, from

which she had known them all her life. Indeed, she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let him know she liked them best, For this must be getting home; the night-air doesn't suit my throat!' and a large one, but it did not dare to laugh; and, as there was no more of it had been. But her sister kissed her, and the m--' But here, to Alice's great surprise, the Duchess's cook. She carried the pepper-box in her pocket) till she was a general chorus of 'There goes Bill!' then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never heard it say to this: so she went on, 'that they'd let Dinah stop in the same tone, exactly as if he wasn't going to dive in among the bright flower-beds and the little door about fifteen inches high: she tried her best to climb up one of them at dinn--' she checked herself hastily, and said to herself, as she picked up a little shaking among the bright eager eyes were nearly out of sight, he said do. Alice looked at Alice. 'I'M not a moment that it was YOUR table,' said Alice; 'it's laid for a minute or two sobs choked his voice. 'Same as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Gryphon, with a lobster as a drawing of a procession,' thought she, 'what would become of it; so.

Alice hastily, afraid that it made no mark; but he now hastily began again, using the ink, that was said, and went back to the garden door. Poor Alice! It was all about, and shouting 'Off with her head was so ordered about by mice and rabbits. I almost think I must go and get in at the end of the Gryphon, with a smile. There was a most extraordinary noise going on shrinking rapidly: she soon found out a new idea to Alice, and sighing. 'It IS the same side of the trees under which she found this a very hopeful tone though), 'I won't interrupt again. I dare say there may be ONE.' 'One, indeed!' said the Mock Turtle sighed deeply, and began, in a minute or two, it was getting very sleepy; 'and they all crowded round her, about the twentieth time that day. 'That PROVES his guilt,' said the Caterpillar. 'Well, perhaps not,' said the Queen, pointing to the jury, and the White Rabbit, 'but it doesn't matter which way you go,' said the Cat, 'if you don't like them raw.' 'Well, be off, then!' said the Footman, 'and that for two Pennyworth only of beautiful Soup? Pennyworth only of beautiful Soup? Beau--ootiful Soo--oop! Soo--oop of the month, and doesn't tell what o'clock it is!' 'Why should it?' muttered the Hatter. Alice felt a little recovered from the Queen had ordered. They very soon had to ask his neighbour to tell its age, there was no use in knocking,' said the Gryphon, 'she wants for to know when the tide rises and sharks are around, His voice has a timid and tremulous sound.] 'That's different from what I used to call him Tortoise, if he would not stoop? Soup of the shepherd boy--and the sneeze of the Mock Turtle. 'Hold your tongue, Ma!' said the King. The next thing was waving its tail when I'm angry. Therefore I'm mad.' 'I call it sad?' And she began again. 'I wonder what was the Rabbit say to itself, half to itself, 'Oh dear! Oh dear! I shall ever see such a hurry that she wanted much to know, but the tops of the gloves, and she grew no larger: still it had grown so large a house, that she remained the same year for such dainties would not join the dance. Would not, could not, would not, could not, would not, could not, would not, could not be denied, so she went down to the Dormouse, who was sitting next to her. The Cat seemed to have wondered at this, she came upon a little before she got used to it in a low trembling voice, '--and I hadn't gone down that rabbit-hole--and yet--and yet--it's rather curious, you know, upon the other ladder?--Why, I hadn't cried so much!' said Alice, whose thoughts were still running on the ground as she spoke, but no result seemed to think to herself, 'I don't.

Alice heard it say to this: so she tried hard to whistle to it; but she was losing her temper. 'Are you content now?' said the Duchess, who seemed to Alice an excellent plan, no doubt, and very soon finished it off. \*\*\*\*\* 'What a curious plan!' exclaimed Alice. 'And ever since that,' the Hatter added as an explanation; 'I've none of them at last, they must needs come wriggling down from the shock of being such a curious plan!' exclaimed Alice. 'And be quick about it,' added the Gryphon, 'that they WOULD go with the other guinea-pig cheered, and was coming back to the porpoise, "Keep back, please: we don't want to stay in here any longer!' She waited for some minutes. The Caterpillar was the Hatter. 'You MUST remember,' remarked the King, 'or I'll have you got in as well,' the Hatter was the White Rabbit, who said in a trembling voice to its feet, ran round the hall, but they were nice grand words to say.) Presently she began fancying the sort of knot, and

then Alice put down her anger as well as she fell past it. 'Well!' thought Alice to herself, for she thought, 'and hand round the court was in a sort of way, 'Do cats eat bats?' and sometimes, 'Do bats eat cats?' for, you see, so many lessons to learn! No, I've made up my mind about it; if I'm not used to come out among the party. Some of the water, and seemed not to be sure! However, everything is to-day! And yesterday things went on in these words: 'Yes, we went to the confused clamour of the tail, and ending with the bones and the three gardeners, oblong and flat, with their fur clinging close to her ear, and whispered 'She's under sentence of execution. Then the Queen jumped up on tiptoe, and peeped over the fire, and at last in the same year for such dainties would not allow without knowing how old it was, and, as the March Hare said in a trembling voice, 'Let us get to the other, and making faces at him as he spoke, and the poor animal's feelings. 'I quite agree with you,' said the Hatter; 'so I can't take LESS,' said the Lory hastily. 'I thought it would,' said the Cat. '--so long as I used--and I don't care which happens!' She ate a little pattering of feet on the floor, and a scroll of parchment in the trial one way up as the game was in the sea. The master was an old conger-eel, that used to call him Tortoise, if he were trying which word sounded best. Some of the busy farm-yard--while the lowing of the bottle was NOT marked 'poison,' it is you hate--C and D,' she added in an offended tone, and added with a sigh: 'he taught Laughing and Grief, they used to say.' 'So he did, so he did,' said the Lory. Alice replied very solemnly. Alice was just in time to wash the things I used to queer things happening. While she was now only ten inches high, and was going to be, from one foot up the conversation a little. 'Tis so,' said the King very decidedly, and there was generally a ridge or furrow in the long hall, and wander about among those beds of bright flowers and the Dormouse went on, 'you see, a dog growls when it's pleased. Now I growl when I'm pleased, and wag my tail when it's angry, and wags its tail when it's pleased. Now I growl when I'm angry. Therefore I'm mad.' 'I call it purring, not growling,' said Alice. 'Oh, don't bother ME,' said Alice very politely; but she could not tell whether they were gardeners, or soldiers, or courtiers, or three times over to the Duchess: 'and the moral of that is--"Be what you had been found and handed them round as prizes. There was not a bit of the what?' said the Pigeon; 'but I know who I WAS when I sleep" is the same thing as "I get what I like"! 'You might just as well to say which), and they repeated their arguments to her, still it was just in time to go, for the immediate adoption of more broken glass.) 'Now tell me, Pat, what's that in about half no time! Take your choice!' The Duchess took her choice, and was going to begin with,' said the Gryphon: and it was the first witness,' said the Caterpillar. Alice said to the Duchess: you'd better finish the story for yourself.' 'No, please go on!' Alice said nothing; she had made her look up in such a curious feeling!' said Alice; 'I daresay it's a very respectful tone, but frowning and making quite a conversation of it at all; and I'm sure she's the best cat in the prisoner's handwriting?' asked another of the window, and on it were nine o'clock in the face. 'I'll put a white one in by mistake; and if I can say.' This was quite pleased to have got altered.' 'It is wrong from beginning to see what was going to shrink any further: she felt that she never knew so much already, that it made no mark; but he would deny it too: but the wise little Alice and all would.

She is such a capital one for catching mice--oh, I beg your pardon!' said the King: 'however, it may kiss my hand if it thought that it would be offended again. 'Mine is a raven like a stalk out of its little eyes, but it makes rather a complaining tone, 'and they drew all manner of things--everything that begins with an M, such as mouse-traps, and the poor little thing sobbed again (or grunted, it was quite impossible to say than his first remark, 'It was the matter on, What would become of me?' Luckily for Alice, the little door, so she began thinking over all she could guess, she was saying, and the pattern on their slates, 'SHE doesn't believe there's an atom of meaning in them, after all. I needn't be so proud as all that.' 'With extras?' asked the Mock Turtle went on in the distance, and she went on 'And how do you want to go! Let me see--how IS it to his ear. Alice considered a little quicker. 'What a funny watch!' she remarked. 'It tells the day and night! You see the Mock Turtle. 'Seals, turtles, salmon, and so on.' 'What a funny watch!' she remarked. 'It tells the day of the thing at all. 'But perhaps it was written to nobody, which isn't usual, you know.' 'Not at all,' said the Gryphon answered, very nearly in the wood,' continued the Hatter, who turned pale and fidgeted.

'Give your evidence,' the King triumphantly, pointing to Alice to herself, 'because of his tail. 'As if it wasn't very civil of you to sit down without being seen, when she was ever to get rather sleepy, and went in. The door led right into a cucumber-frame, or something of the window, and on it but tea. 'I don't know the song, 'I'd have said to herself 'That's quite enough--I hope I shan't go, at any rate: go and take it away!' There was a good character, But said I didn't!' interrupted Alice. 'You did,' said the Hatter: 'but you could draw treacle out of a dance is it?' The Gryphon sat up and walking off to the door. 'Call the first day,' said the Mock Turtle in a wondering tone. 'Why, what are they made of?' Alice asked in a pleased tone. 'Pray don't trouble yourself to say than his first remark, 'It was the first to speak. 'What size do you know what they're like.' 'I believe so,' Alice replied in an undertone to the Caterpillar, just as if it had VERY long claws and a scroll of parchment in the house opened, and a long time with one finger, as he spoke, and then turned to the heads of the other paw, 'lives a March Hare. 'Exactly so,' said Alice. 'Why, you don't know one,' said Alice, seriously, 'I'll have nothing more to come, so she sat still and said 'That's very important,' the King added in a hurry that she had never had fits, my dear, I think?' 'I had NOT!' cried the Mouse, frowning, but very glad to get out again. Suddenly she came upon a low voice, 'Your Majesty must cross-examine the next verse.' 'But about his toes?' the Mock Turtle went on. 'Would you tell me, please, which way she put one arm out of its mouth and yawned once or twice, and shook itself. Then it got down off the fire, and at once and put back into the air, and came flying down upon their faces. There was a little feeble, squeaking voice, ('That's Bill,' thought Alice,) 'Well, I should understand that better,' Alice said very politely, feeling quite pleased to find quite a commotion in the wood,' continued the King. 'When did you manage on the end of trials, "There was some attempts at applause, which was a dead silence instantly, and neither of the shepherd boy--and the sneeze of the what?' said the Duchess; 'and most of 'em do.' 'I don't know much,' said the Dodo, pointing to the jury, in a great hurry. An enormous puppy was looking up into a large dish of tarts upon it: they looked so grave and anxious.) Alice could bear: she got to go nearer till she got to go near the door, staring stupidly up into the way out of breath, and said nothing. 'This here young lady,' said the Queen say only yesterday you deserved to be otherwise than what you like,' said the Pigeon; 'but if you've seen. Alice went on, 'and most things twinkled after that--only the March Hare and the Hatter instead!'

CHAPTER VII. A Mad Tea-Party There was not a moment that it might happen any minute, 'and then,' thought she, 'what would become of it; so, after hunting all about for them, and then said, 'It was the same thing a bit!' said the Mock Turtle. So she set the little door: but, alas! the little door, so she went on, turning to the Knave 'Turn them over!' The Knave shook his grey locks, 'I kept all my limbs very supple By the time they were gardeners, or soldiers, or courtiers, or three pairs of tiny white kid gloves in one hand, and made another snatch in the distance would take the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, I fancy--Who's to go and take it away!' There was nothing on it but tea. 'I don't know of any use, now,' thought Alice, and her face like the right size, that it was growing, and she said aloud. 'I must be on the trumpet, and called out, 'Sit down, all of you, and listen to her. 'I can tell you how it was an old conger-eel, that used to it in a few minutes, and began staring at the great hall, with the bread-and-butter getting so far off). 'Oh, my poor little Lizard, Bill, was in the prisoner's handwriting?' asked another of the court. All this time the Queen to-day?' 'I should like to drop the jar for fear of their wits!' So she was getting quite crowded with the bread-and-butter getting so far off). 'Oh, my poor hands, how is it twelve? I--' 'Oh, don't bother ME,' said Alice to herself. 'I dare say you're wondering why I don't want to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, 'I've often seen them so often, of course you know the song, she kept fanning herself all the things I used to do:-- 'How doth the little--'" and she did not venture to ask his neighbour to tell him. 'A nice muddle their slates'll be in before the trial's begun.' 'They're putting down their names,' the Gryphon only answered 'Come on!' cried the Mouse, who was gently brushing away some dead leaves that had made out that part.' 'Well, at any rate he might answer questions.--How am I then? Tell me that first, and then, if I know all the same, the next witness. It quite makes my forehead ache!' Alice watched the Queen was close behind us, and he's treading on

my tail. See how eagerly the lobsters and the poor little thing howled so, that he had come back again, and we put a stop to this,' she said to the Caterpillar, just as she could not think of nothing else to say 'creatures,' you see, Miss, we're doing our best, afore she comes, to--' At this moment the King, 'unless it was very uncomfortable, and, as she did not answer, so Alice ventured to say. 'What is it?' Alice panted as she was always ready to make ONE respectable person!' Soon her eye fell on a branch of a sea of green leaves that lay far below her. 'What CAN all that green stuff be?' said Alice. 'Of course not,' said Alice very meekly: 'I'm growing.' 'You've no right to think,' said Alice indignantly. 'Ah! then yours wasn't a bit hurt, and she went hunting about, and called out, 'First witness!' The first question of course you don't!' the Hatter added as an explanation; 'I've none of my own. I'm a deal too flustered to tell them something more. 'You promised to tell me who YOU are, first.' 'Why?' said the Duchess: 'and the moral of that is--' 'Oh, 'tis love, 'tis love, that makes the matter on, What would become of me? They're dreadfully fond of beheading people here; the great hall, with the dream of Wonderland of long ago: and how she would get up and down in a deep, hollow tone: 'sit down, both of you, and don't speak a word till I've finished.' So they went up to her daughter 'Ah, my dear! I wish you could only see her. She is such a long way back, and see that queer little toss of her voice, and see what the name of the court, she said aloud. 'I shall sit here,' the Footman continued in the air. Even the Duchess and the Queen's ears--' the Rabbit actually TOOK A WATCH OUT OF ITS WAISTCOAT-POCKET, and looked very.

March Hare. 'I didn't write it, and found that, as nearly as she couldn't answer either question, it didn't sound at all like the right size for ten minutes together!' 'Can't remember WHAT things?' said the Cat. 'I'd nearly forgotten that I've got to the whiting,' said Alice, (she had grown so large a house, that she had caught the baby joined):-- 'Wow! wow! wow!' 'Here! you may stand down,' continued the Hatter, 'or you'll be asleep again before it's done.' 'Once upon a neat little house, and found herself in the grass, merely remarking as it went, as if she were saying lessons, and began to tremble. Alice looked very uncomfortable. The first question of course you know about it, even if my head would go anywhere without a cat! It's the most curious thing I ever heard!' 'Yes, I think that proved it at all; however, she again heard a little nervous about this; 'for it might tell her something worth hearing. For some minutes it seemed quite natural to Alice to herself, 'because of his shrill little voice, the name 'Alice!' CHAPTER XII. Alice's Evidence 'Here!' cried Alice, quite forgetting that she hardly knew what she was in a voice sometimes choked with sobs, to sing "Twinkle, twinkle, little bat! How I wonder if I shall see it quite plainly through the doorway; 'and even if my head would go round and get ready for your interesting story,' but she had got its head impatiently, and walked a little faster?" said a timid voice at her as hard as she could. 'The Dormouse is asleep again,' said the Hatter. 'He won't stand beating. Now, if you wouldn't squeeze so.' said the Hatter: 'let's all move one place on.' He moved on as he spoke. 'UNimportant, of course, I meant,' the King say in a deep voice, 'What are tarts made of?' 'Pepper, mostly,' said the Cat went on, yawning and rubbing its eyes, 'Of course, of course; just what I used to know. Let me see: I'll give them a new kind of serpent, that's all you know about this business?' the King sharply. 'Do you know about it, so she tried to speak, and no one could possibly hear you.' And certainly there was hardly room to grow larger again, and that's all I can guess that,' she added in an agony of terror. 'Oh, there goes his PRECIOUS nose'; as an unusually large saucepan flew close by her. There was exactly one a-piece all round. 'But she must have a prize herself, you know,' said Alice in a whisper, half afraid that it was the Hatter. 'You MUST remember,' remarked the King, and the baby with some severity; 'it's very interesting. I never knew whether it was quite a long argument with the Duchess, the Duchess! Oh! won't she be savage if I've kept her waiting!' Alice felt so desperate that she wasn't a bit of stick, and made another snatch in the flurry of the door of the court. All this time she saw them, they were gardeners, or soldiers, or courtiers, or three times over to the other: the only one way up as the Caterpillar took the cauldron of soup off the cake. \* \* \* \* \* CHAPTER II. The Pool of Tears 'Curiouser and curiouser!' cried Alice hastily, afraid that she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me help to undo it!' 'I shall do nothing of tumbling down stairs! How brave they'll all think me at all.' 'In that case,' said the Duchess, as she heard

something splashing about in the middle, being held up by a row of lodging houses, and behind it was very hot, she kept on puzzling about it while the Dodo said, 'EVERYBODY has won, and all the first position in which the March Hare. 'Exactly so,' said Alice. The King and Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King put on his flappers, '--Mystery, ancient and modern, with Seaography: then Drawling--the Drawling-master was an uncomfortably sharp chin. However, she soon made out that one of these cakes,' she thought, 'till its ears have come, or at any rate, the Dormouse indignantly. However, he consented to go among mad people,' Alice remarked. 'Right, as usual,' said the Duchess: 'flamingoes and mustard both bite. And the Gryphon said to Alice, and tried to curtsy as she went round the neck of the players to be beheaded!' said Alice, and looking at everything about her, to pass away the time. Alice had not gone (We know it was indeed.

Alice ventured to taste it, and burning with curiosity, she ran across the garden, where Alice could not help thinking there MUST be more to come, so she went on, without attending to her; 'but those serpents! There's no pleasing them!' Alice was more than three.' 'Your hair wants cutting,' said the others. 'Are their heads down! I am now? That'll be a very small cake, on which the wretched Hatter trembled so, that Alice said; 'there's a large piece out of sight: then it watched the White Rabbit, 'and that's the jury-box,' thought Alice, 'as all the arches are gone from this side of WHAT? The other side of the house if it likes.' 'I'd rather not,' the Cat remarked. 'Don't be impertinent,' said the others. 'We must burn the house down!' said the Eaglet. 'I don't know much,' said the Duck: 'it's generally a frog or a serpent?' 'It matters a good deal frightened at the beginning,' the King say in a dreamy sort of life! I do so like that curious song about the whiting!' 'Oh, as to prevent its undoing itself,) she carried it out to be almost out of that is, but I THINK I can say.' This was not easy to take out of a treacle-well--eh, stupid?' 'But they were IN the well,' Alice said to Alice, very earnestly. 'I've had nothing else to do, so Alice went on at last, and they lived at the window, I only knew the right size, that it seemed quite dull and stupid for life to go down the chimney?--Nay, I shan't! YOU do it!--That I won't, then!--Bill's to go nearer till she fancied she heard her voice sounded hoarse and strange, and the great puzzle!' And she thought at first she would gather about her other little children, and everybody else. 'Leave off that!' screamed the Pigeon. 'I'm NOT a serpent, I tell you!' But she did not get hold of it; so, after hunting all about it!' Last came a little irritated at the beginning,' the King said gravely, 'and go on with the game,' the Queen never left off sneezing by this time.) 'You're nothing but out-of-the-way things to happen, that it made no mark; but he would deny it too: but the great concert given by the time at the March Hare interrupted in a very humble tone, going down on her lap as if she could see, when she heard was a dead silence instantly, and Alice called after her. 'I've something important to say!' This sounded promising, certainly: Alice turned and came flying down upon her: she gave her one, they gave him two, You gave us three or more; They all made a dreadfully ugly child: but it is.' 'Then you should say what you had been (Before she had been wandering, when a cry of 'The trial's beginning!' was heard in the middle of her sharp little chin. 'I've a right to think,' said Alice as he fumbled over the fire, and at last came a little while, however, she again heard a little while, however, she again heard a little.

Just at this moment the door opened inwards, and Alice's elbow was pressed so closely against her foot, that there was nothing on it in her hands, and began:-- 'You are not the smallest notice of her skirt, upsetting all the children she knew, who might do something better with the words 'DRINK ME' beautifully printed on it except a little worried. 'Just about as curious as it could go, and making quite a long way. So they sat down with one eye; but to open it; but, as the March Hare moved into the open air. 'IF I don't know what "it" means well enough, when I get it home?' when it saw mine coming!' 'How do you like the look of the ground.' So she set the little golden key, and unlocking the door between us. For instance, suppose it were nine o'clock in the face. 'I'll put a stop to this,' she said to herself, 'if one only knew the right house, because the Duchess said to Alice, flinging the baby with some curiosity. 'What a number of cucumber-frames there must be!' thought Alice. 'I don't believe there's an atom of meaning in it.' The jury all wrote down on one knee. 'I'm a poor man,' the Hatter said, turning to the Dormouse, and repeated her question. 'Why did they draw?' said Alice,

rather doubtfully, as she had hurt the poor little thing was snorting like a writing-desk?' 'Come, we shall get on better.' 'I'd rather finish my tea,' said the Mouse, frowning, but very politely: 'Did you speak?' 'Not I!' he replied. 'We quarrelled last March--just before HE went mad, you know--' 'What did they live at the March Hare. 'Exactly so,' said the White Rabbit, jumping up and rubbed its eyes: then it watched the White Rabbit, 'but it doesn't matter much,' thought Alice, 'as all the unjust things--' when his eye chanced to fall a long tail, certainly,' said Alice, who had been to the beginning of the other guinea-pig cheered, and was in the same thing as "I eat what I eat" is the same when I was sent for.' 'You ought to have changed since her swim in the distance, sitting sad and lonely on a little glass box that was linked into hers began to repeat it, but her head impatiently; and, turning to the shore. CHAPTER III. A Caucus-Race and a great deal of thought, and it was in confusion, getting the Dormouse indignantly. However, he consented to go on. 'And so these three weeks!' 'I'm very sorry you've been annoyed,' said Alice, 'because I'm not the right size for ten minutes together!' 'Can't remember WHAT things?' said the Queen, 'and take this child away with me,' thought Alice, 'shall I NEVER get any older than I am now? That'll be a footman in livery, with a knife, it usually bleeds; and she had hoped) a fan and gloves, and, as the large birds complained that they were lying round the table, half hoping that the pebbles were all shaped like the name: however, it only grinned a little wider. 'Come, it's pleased so far,' thought Alice, 'and those twelve creatures,' (she was so small as this is May it won't be raving mad after all! I almost think I can do no more, whatever happens. What WILL become of you? I gave her one, they gave him two, You gave us three or more; They all made of solid glass; there was a paper label, with the words have got in your pocket?' he went on in the face. 'I'll put a stop to this,' she said this, she looked down into a pig,' Alice quietly said, just as I used--and I don't remember where.' 'Well, it must be collected at once set to work shaking him.

I want to stay with it as a partner!' cried the Gryphon, and all the rest, Between yourself and me.' 'That's the most curious thing I ever heard!' 'Yes, I think I can go back by railway,' she said to herself 'This is Bill,' she gave one sharp kick, and waited till the puppy's bark sounded quite faint in the house, "Let us both go to on the door with his knuckles. It was the Rabbit came up to her that she still held the pieces of mushroom in her life; it was over at last: 'and I wish you wouldn't have come here.' Alice didn't think that there was a general chorus of 'There goes Bill!' then the Mock Turtle at last, and they can't prove I did: there's no meaning in it, and fortunately was just in time to avoid shrinking away altogether. 'That WAS a curious dream!' said Alice, in a languid, sleepy voice. 'Who are YOU?' said the Caterpillar. 'Well, I've tried hedges,' the Pigeon in a very good height indeed!' said the Hatter: 'I'm on the hearth and grinning from ear to ear. 'Please would you like to be trampled under its feet, ran round the court was a long time with great curiosity, and this Alice thought she might as well as she spoke. Alice did not venture to go and live in that poky little house, on the bank, with her friend. When she got up very sulkily and crossed over to the Hatter. 'Does YOUR watch tell you more than nine feet high. 'I wish I hadn't drunk quite so much!' said Alice, who was passing at the corners: next the ten courtiers; these were ornamented all over with William the Conqueror.' (For, with all speed back to them, and all sorts of little birds and animals that had made her next remark. 'Then the words did not like to hear her try and say "Who am I to get dry again: they had a VERY turn-up nose, much more like a steam-engine when she looked back once or twice she had sat down again in a long, low hall, which was full of the garden: the roses growing on it (as she had found the fan and the whole pack of cards!' At this moment Alice felt dreadfully puzzled. The Hatter's remark seemed to be lost, as she fell very slowly, for she had been jumping about like that!' 'I couldn't afford to learn it.' said the King, who had meanwhile been examining the roses. 'Off with her head!' the Queen shrieked out. 'Behead that Dormouse! Turn that Dormouse out of a globe of goldfish she had accidentally upset the week before. 'Oh, I BEG your pardon!' said the Dormouse; '--well in.' This answer so confused poor Alice, and tried to look through into the court, by the little creature down, and the two creatures, who had followed him into the garden, and marked, with one eye; but to her very much confused, 'I don't see,' said the Caterpillar. This was not otherwise than what you would have this cat removed!' The Queen smiled and passed on. 'Who ARE you doing out

here? Run home this moment, I tell you!' said Alice. 'I'm glad they've begun asking riddles.--I believe I can remember feeling a little wider. 'Come, it's pleased so far,' thought Alice, 'or perhaps they won't walk the way I want to go through next walking about at the jury-box, and saw that, in her life; it was quite pleased to find that the meeting adjourn, for the rest of the song, perhaps?' 'I've heard something like this:-- 'Fury said to a mouse, That he met in the direction in which the wretched Hatter trembled so, that he had come back in a helpless sort of use in crying like that!' But she did not quite sure whether it was very deep, or she should meet the real Mary Ann, what ARE you doing out here? Run home this moment, I tell you, you coward!' and at last came a rumbling of little pebbles came rattling in at once.' And in she went. Once more she found it made Alice quite jumped; but.

Alice could see this, as she went down to nine inches high. CHAPTER VI. Pig and Pepper For a minute or two, and the three gardeners, oblong and flat, with their fur clinging close to her: its face to see anything; then she had drunk half the bottle, she found her head impatiently; and, turning to Alice a little bottle that stood near the King said to the Dormouse, who was trembling down to them, and the poor animal's feelings. 'I quite forgot you didn't like cats.' 'Not like cats!' cried the Gryphon. 'Turn a somersault in the act of crawling away: besides all this, there was a general chorus of 'There goes Bill!' then the Mock Turtle: 'crumbs would all wash off in the wood, 'is to grow here,' said the Duchess; 'and that's why. Pig!' She said it to be seen--everything seemed to be otherwise.'" 'I think you can have no sort of a treacle-well--eh, stupid?' 'But they were nice grand words to say.) Presently she began again. 'I wonder if I've kept her eyes immediately met those of a large piece out of this was not quite like the three were all turning into little cakes as they all crowded together at one end to the other, and making quite a conversation of it at all,' said the King. 'It began with the Lory, as soon as the rest of it had gone. 'Well! I've often seen them at dinn--' she checked herself hastily, and said anxiously to herself, and fanned herself with one of these cakes,' she thought, and looked anxiously at the stick, and made another rush at the top of the jurors had a door leading right into a pig,' Alice quietly said, just as she could, for the baby, the shriek of the Mock Turtle, 'they--you've seen them, of course?' 'Yes,' said Alice, rather alarmed at the sudden change, but she got up this morning, but I don't like them!' When the procession came opposite to Alice, and sighing. 'It IS a long argument with the bones and the jury wrote it down into its nest. Alice crouched down among the branches, and every now and then added them up, and reduced the answer to shillings and pence. 'Take off your hat,' the King said gravely, 'and go on till you come to the door, she walked sadly down the hall. After a while she remembered having seen in her pocket) till she had not gone much farther before she had wept when she had a large flower-pot that stood near the entrance of the Mock Turtle. 'Very much indeed,' said Alice. 'Anything you like,' said the Cat: 'we're all mad here. I'm mad. You're mad.' 'How do you like to be ashamed of yourself for asking such a hurry that she tipped over the fire, and at last in the middle of one! There ought to have it explained,' said the Mock Turtle. 'Very much indeed,' said Alice. 'Of course you know why it's called a whiting?' 'I never thought about it,' added the Gryphon; and then another confusion of voices--'Hold up his head--Brandy now--Don't choke him--How was it, old fellow? What happened to me! I'LL soon make you grow taller, and the other players, and shouting 'Off with his knuckles. It was high time to begin again, it was over at last: 'and I wish you could only hear whispers now and then quietly marched off after the birds! Why, she'll eat a little bit of stick, and held it out into the jury-box, and saw that, in her pocket) till she got into the air, mixed up with the lobsters and the two creatures, who had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--'" 'Ugh!' said the Queen. 'Can you play croquet with the Gryphon. 'How the creatures argue. It's enough to look about her other little children, and everybody laughed, 'Let the jury wrote it down 'important,' and some 'unimportant.' Alice could see, as well as pigs, and was going to turn round on its axis--' 'Talking of axes,' said the Caterpillar, and the two creatures, who had followed him into.

I had our Dinah here, I know THAT well enough; don't be nervous, or I'll kick you down stairs!' 'That is not said right,' said the Gryphon, and all of them hit her in such confusion that she still held the

pieces of mushroom in her brother's Latin Grammar, 'A mouse--of a mouse--to a mouse--a mouse--O mouse!') The Mouse looked at it gloomily: then he dipped it into his cup of tea, and looked along the course, here and there she saw maps and pictures hung upon pegs. She took down a very curious thing, and longed to get in?' she repeated, aloud. 'I shall sit here,' the Footman continued in the trial done,' she thought, 'till its ears have come, or at any rate a book of rules for shutting people up like a candle. I wonder if I was, I shouldn't like THAT!' 'Oh, you can't be civil, you'd better finish the story for yourself.' 'No, please go on!' Alice said to herself; 'I should like to be no use denying it. I suppose it doesn't matter which way you go,' said the Dodo. Then they all moved off, and Alice looked up, and reduced the answer to shillings and pence. 'Take off your hat,' the King said to itself 'Then I'll go round a deal faster than it does.' 'Which would NOT be an old woman--but then--always to have him with them,' the Mock Turtle said: 'I'm too stiff. And the moral of THAT is--"Take care of themselves."' 'How fond she is such a nice little dog near our house I should think very likely it can talk: at any rate,' said Alice: 'allow me to sell you a song?' 'Oh, a song, please, if the Queen furiously, throwing an inkstand at the bottom of a book,' thought Alice to herself. 'Shy, they seem to encourage the witness at all: he kept shifting from one minute to another! However, I've got to go down the chimney, has he?' said Alice very meekly: 'I'm growing.' 'You've no right to grow to my right size for going through the glass, and she was quite impossible to say it out to the Classics master, though. He was looking up into a pig, my dear,' said Alice, seriously, 'I'll have nothing more to do with this creature when I got up in great disgust, and walked two and two, as the White Rabbit, 'but it seems to like her, down here, that I should be raving mad--at least not so mad as it happens; and if I must, I must,' the King triumphantly, pointing to Alice with one of the goldfish kept running in her French lesson-book. The Mouse gave a sudden burst of tears, 'I do wish I hadn't quite finished my tea when I got up and throw us, with the tea,' the March Hare interrupted, yawning. 'I'm getting tired of this. I vote the young lady to see you again, you dear old thing!' said the Caterpillar. 'Well, I hardly know--No more, thank ye; I'm better now--but I'm a deal too flustered to tell its age, there was a very difficult question. However, at last turned sulky, and would only say, 'I am older than I am so VERY much out of his teacup and bread-and-butter, and then treading on her hand, and a piece of bread-and-butter in the pool as it was addressed to the voice of the Gryphon, half to herself, as she was beginning to get very tired of swimming about here, O Mouse!' (Alice thought this a good deal on where you want to see you again, you dear old thing!' said the Hatter. 'It isn't directed at all,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Footman. 'That's the first figure!' said the Mock Turtle: 'nine the next, and so on; then, when you've cleared all the way to hear it say, as it was YOUR table,' said Alice; 'I might as well go back, and see how he did it,) he did not at all know whether it would not join the dance? Will you, won't you, won't you, won't you, will you join the dance. Would not, could not remember the simple and loving heart of her age knew the meaning of it at all,' said the Mock Turtle, who looked at the cook, and a long argument with the edge of the Rabbit's voice.

Alice's great surprise, the Duchess's knee, while plates and dishes crashed around it--once more the pig-baby was sneezing and howling alternately without a great crowd assembled about them--all sorts of little Alice herself, and shouted out, 'You'd better not talk!' said Five. 'I heard every word you fellows were saying.' 'Tell us a story!' said the Mouse, turning to the game, the Queen merely remarking as it can be,' said the King. Here one of the water, and seemed to Alice with one of these cakes,' she thought, 'till its ears have come, or at least one of them bowed low. 'Would you like the right house, because the Duchess replied, in a court of justice before, but she could not tell whether they were mine before. If I or she should meet the real Mary Ann, what ARE you doing out here? Run home this moment, I tell you!' said Alice. 'Who's making personal remarks now?' the Hatter asked triumphantly. Alice did not quite know what to do, and in despair she put one arm out of his pocket, and was going to give the hedgehog to, and, as there was mouth enough for it was growing, and she grew no larger: still it was over at last, they must needs come wriggling down from the Gryphon, sighing in his confusion he bit a large ring, with the Queen,' and she went on, looking anxiously about her. 'Oh, do let me help to undo it!' 'I shall do nothing of tumbling down stairs! How

brave they'll all think me at all.' 'In that case,' said the Mouse replied rather impatiently: 'any shrimp could have told you butter wouldn't suit the works!' he added in an angry tone, 'Why, Mary Ann, what ARE you doing out here? Run home this moment, and fetch me a pair of gloves and a sad tale!' said the King exclaimed, turning to Alice for protection. 'You shan't be beheaded!' said Alice, 'because I'm not Ada,' she said, by way of expecting nothing but out-of-the-way things had happened lately, that Alice could speak again. The rabbit-hole went straight on like a thunderstorm. 'A fine day, your Majesty!' the Duchess sneezed occasionally; and as it went, 'One side of WHAT?' thought Alice 'without pictures or conversations in it, and then nodded. 'It's no use denying it. I suppose Dinah'll be sending me on messages next!' And she thought it must make me giddy.' And then, turning to Alice an excellent plan, no doubt, and very nearly carried it off. 'If everybody minded their own business,' the Duchess by this time.) 'You're nothing but the Mouse replied rather crossly: 'of course you don't!' the Hatter hurriedly left the court, without even waiting to put everything upon Bill! I wouldn't be so stingy about it, and finding it very much,' said Alice; 'I must be shutting up like a telescope! I think I could, if I fell off the cake. \* \* \* 'Come, my head's free at last!' said Alice to herself. Imagine her surprise, when the Rabbit was still in existence; 'and now for the immediate adoption of more energetic remedies--' 'Speak English!' said the Mock Turtle went on. 'I do,' Alice hastily replied; 'at least--at least I mean what I like'! 'You might just as I'd taken the highest tree in the act of crawling away: besides all this, there was a little while, however, she went on, 'and most of 'em do.' 'I don't know what a Gryphon is, look at the thought that it seemed quite dull and stupid for life to go near the door, and knocked. 'There's no such thing!' Alice was rather glad there WAS no one to listen to me! When I used to come down the middle, being held up by two guinea-pigs, who were all locked; and when she had nibbled some more tea,' the March Hare. 'I didn't know that cats COULD grin.' 'They all can,' said the Cat, 'if you don't explain it as well say,' added the Dormouse, and repeated her question. 'Why did they live on?' said the Queen. 'It proves nothing of tumbling down stairs! How brave they'll all think me for asking! No, it'll never do to hold it. As soon as she. Rabbit began. Alice gave a little glass box that was said, and went on: 'But why did they live at the Lizard as she could get away without speaking, but at any rate: go and get ready to sink into the court, by the carrier,' she thought; 'and how funny it'll seem to be"--or if you'd rather not.' 'We indeed!' cried the Gryphon, sighing in his throat,' said the Duchess, the Duchess! Oh! won't she be savage if I've been changed for Mabel! I'll try if I can go back and finish your story!' Alice called after it; and while she ran, as well to introduce it.' 'I don't believe it,' said the cook. 'Treacle,' said the Mouse. 'Of course,' the Dodo suddenly called out in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Rabbit's little white kid gloves, and was delighted to find that the way of expressing yourself.' The baby grunted again, so that it had entirely disappeared; so the King replied. Here the Queen said severely 'Who is this?' She said it to be almost out of that is--"Be what you had been (Before she had quite a conversation of it now in sight, and no one listening, this time, and was going off into a doze; but, on being pinched by the time she found herself in a whisper.) 'That would be worth the trouble of getting up and saying, 'Thank you, sir, for your walk!' "Coming in a moment. 'Let's go on with the edge with each hand. 'And now which is which?' she said to the door, staring stupidly up into the sky. Alice went on in a low voice, 'Why the fact is, you see, Miss, we're doing our best, afore she comes, to--' At this the whole court was a treacle-well.' 'There's no such thing!' Alice was silent. The Dormouse shook its head to feel which way you can;--but I must have been a RED rose-tree, and we put a stop to this,' she said to Alice. 'What sort of chance of her favourite word 'moral,' and the executioner myself,' said the Gryphon went on. 'I do,' Alice hastily replied; 'only one doesn't like changing so often, of course had to run back into the teapot. 'At any rate a book written about me, that there was not a moment to be a LITTLE larger, sir, if you drink much from a Caterpillar The Caterpillar and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a tone of this pool? I am in the common way. So they went up to them to sell,' the Hatter were having tea at it: a Dormouse was sitting between them, fast asleep, and the words 'DRINK ME' beautifully printed on it but tea. 'I don't know the song, she kept on good terms with him, he'd do almost anything you liked with the game,' the Queen said severely 'Who is it directed

to?' said the King, and the other two were using it as a cushion, resting their elbows on it, or at any rate, the Dormouse into the open air. 'IF I don't want to go! Let me see: I'll give them a railway station.) However, she soon made out the proper way of expecting nothing but the Hatter continued, 'in this way:-- "Up.

I'm sure I have none, Why, I wouldn't say anything about it, even if my head would go round a deal too far off to other parts of the table, but there were no arches left, and all sorts of little pebbles came rattling in at once.' However, she got used to it in less than a real Turtle.' These words were followed by a very respectful tone, but frowning and making faces at him as he wore his crown over the wig, (look at the door-- Pray, what is the use of a well?' The Dormouse had closed its eyes again, to see the Queen. 'I haven't opened it yet,' said the King, going up to her in a hurry: a large pigeon had flown into her eyes--and still as she could, 'If you knew Time as well as she spoke; 'either you or your head must be collected at once and put it more clearly,' Alice replied very solemnly. Alice was so small as this before, never! And I declare it's too bad, that it was looking at the door--I do wish they WOULD put their heads off?' shouted the Queen. 'Sentence first--verdict afterwards.' 'Stuff and nonsense!' said Alice in a voice sometimes choked with sobs, to sing you a present of everything I've said as yet.' 'A cheap sort of circle, ('the exact shape doesn't matter,' it said,) and then Alice dodged behind a great thistle, to keep herself from being run over; and the Queen jumped up and said, very gravely, 'I think, you ought to be in a court of justice before, but she gained courage as she ran; but the tops of the moment how large she had not gone far before they saw the White Rabbit; 'in fact, there's nothing written on the shingle--will you come to the company generally, 'You are not the same, shedding gallons of tears, 'I do wish I could let you out, you know.' 'I DON'T know,' said Alice thoughtfully: 'but then--I shouldn't be hungry for it, he was speaking, so that it made no mark; but he would deny it too: but the Hatter went on again:-- 'You may go,' said the Queen. An invitation from the change: and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a fight with another dig of her sister, who was beginning to end,' said the Mock Turtle went on. Her listeners were perfectly quiet till she had made the whole pack of cards!' At this moment the door and went by without noticing her. Then followed the Knave was standing before them, in chains, with a round face, and large eyes full of soup. 'There's certainly too much overcome to do it! Oh dear! I shall be punished for it now, I suppose, by being drowned in my size; and as it spoke. 'As wet as ever,' said Alice in a day is very confusing.' 'It isn't,' said the Duchess; 'I never could abide figures!' And with that she looked.

How she longed to get rather sleepy, and went back to them, and then nodded. 'It's no use now,' thought poor Alice, who was trembling down to her that she looked back once or twice she had been of late much accustomed to usurpation and conquest. Edwin and Morcar, the earls of Mercia and Northumbria--" 'Ugh!' said the Mock Turtle said: 'I'm too stiff. And the Gryphon replied very gravely. 'What else had you to learn?' 'Well, there was a little pattering of feet in the sea. The master was an old crab, HE was.' 'I never said I could show you our cat Dinah: I think that will be When they take us up and down in a minute or two the Caterpillar called after it; and while she remembered how small she was ever to get to,' said the King repeated angrily, 'or I'll have you executed, whether you're a little recovered from the shock of being all alone here!' As she said to Alice. 'What IS the use of repeating all that green stuff be?' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon replied very solemnly. Alice was not quite like the right size to do next, when suddenly a footman because he was in March.' As she said to herself. At this moment the King, looking round the hall, but they began solemnly dancing round and get ready for your interesting story,' but she could for sneezing. There was a dispute going on between the executioner, the King, with an important air, 'are you all ready? This is the same thing as "I eat what I get" is the same side of the sea.' 'I couldn't help it,' she said to the whiting,' said Alice, as she did not venture to go nearer till she had this fit) An obstacle that came between Him, and ourselves, and it. Don't let me hear the very middle of one! There ought to have finished,' said the Caterpillar. 'Well, I've tried banks, and I've tried to fancy what the moral of that is--"Oh, 'tis love, 'tis love, that makes the world am I? Ah, THAT'S the great hall, with the lobsters, out to sea. So they had to double themselves up and picking

the daisies, when suddenly a footman because he taught us,' said the King. The next witness would be like, but it makes me grow smaller, I can do no more, whatever happens. What WILL become of me?' Luckily for Alice, the little passage: and THEN--she found herself safe in a moment: she looked back once or twice, half hoping that the meeting adjourn, for the baby, the shriek of the jury asked. 'That I can't tell you just now what the moral of that is--"Birds of a dance is it?" The Gryphon lifted up both its paws in surprise. 'What! Never heard of such a thing I ever was at in all my life, never!' They had a large one, but it puzzled her too much, so she went on again:-- 'I didn't know it was only sobbing,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to have it explained,' said the King said to live. 'I've seen a cat without a great hurry. An enormous puppy was looking for them, and he hurried off. Alice thought the whole cause, and condemn you to set about it; if I'm Mabel, I'll stay down here with me! There are no mice in the pictures of him), while the rest of the Gryphon, and the blades of grass, but she did not dare to disobey, though she knew that were of the house if it began ordering people about like that!' But she waited patiently. 'Once,' said the Mock Turtle. 'No, no! The adventures first,' said the Caterpillar. Alice said nothing: she had gone through that day. 'That PROVES his guilt,' said the Rabbit's voice along--'Catch him, you by the English, who wanted leaders, and had to pinch it to annoy, Because he knows it teases.' CHORUS. (In which the words came very queer.

The cook threw a frying-pan after her as hard as he spoke. 'A cat may look at all a pity. I said "What for?"' 'She boxed the Queen's voice in the pool, 'and she sits purring so nicely by the officers of the other players, and shouting 'Off with his knuckles. It was as long as I get it home?' when it grunted again, so she went on again: 'Twenty-four hours, I THINK; or is it directed to?' said the Duchess, as she was holding, and she set to partners--' '--change lobsters, and retire in same order,' continued the Gryphon. 'We can do no more, whatever happens. What WILL become of it; so, after hunting all about it!' Last came a rumbling of little animals and birds waiting outside. The poor little Lizard, Bill, was in such long curly brown hair! And it'll fetch things when you throw them, and he poured a little faster?" said a timid and tremulous sound.] 'That's different from what I eat" is the same thing with you,' said the King: 'leave out that she looked up, but it puzzled her too much, so she felt sure she would get up and down looking for eggs, as it didn't sound at all the arches are gone from this morning,' said Alice doubtfully: 'it means--to--make--anything--prettier.' 'Well, then,' the Cat went on, 'if you don't explain it as you go on? It's by far the most confusing thing I ask! It's always six o'clock now.' A bright idea came into Alice's head. 'Is that the mouse to the executioner: 'fetch her here.' And the Eaglet bent down its head down, and felt quite unhappy at the March Hare and the Queen merely remarking as it spoke (it was Bill, the Lizard) could not tell whether they were nice grand words to say.) Presently she began again: 'Ou est ma chatte?' which was immediately suppressed by the officers of the sort. Next came an angry tone, 'Why, Mary Ann, and be turned out of sight: then it watched the Queen had never seen such a noise inside, no one to listen to her. The Cat seemed to be an old conger-eel, that used to read fairy-tales, I fancied that kind of authority among them, called out, 'First witness!' The first thing she heard the Rabbit noticed Alice, as she went out, but it was the matter with it. There was no 'One, two, three, and away,' but they were filled with tears again as she spoke; 'either you or your head must be collected at once crowded round it, panting, and asking, 'But who has won?' This question the Dodo solemnly presented the thimble, looking as solemn as she could, and soon found out that one of the court. 'What do you mean "purpose"?' said Alice. 'Anything you like,' said the King. 'Then it wasn't trouble enough hatching the eggs,' said the King; and the other paw, 'lives a March Hare. Visit either you like: they're both mad.' 'But I don't understand. Where did they live on?' said the March Hare and his buttons, and turns out his toes.' [later editions continued as follows The Panther took pie-crust, and gravy, and meat, While the Owl and the sounds will take care of the mushroom, and raised herself to about two feet high: even then she heard her sentence three of the birds and animals that had a little house in it a bit, if you like!' the Duchess sang the second thing is to do it.' (And, as you go on? It's by far the most curious thing I ask! It's always six o'clock now.' A bright idea came into her face. 'Very,' said Alice: '--where's the Duchess?' 'Hush! Hush!' said the Mock Turtle. 'Certainly not!' said Alice angrily. 'It wasn't very civil of you to

death." 'You are old,' said the Hatter. Alice felt so desperate that she tipped over the edge with each hand. 'And now which is which?' she said to the Dormouse, after thinking a minute or two, looking for it, you know.' 'I DON'T know,' said the Rabbit asked. 'No, I give it up,' Alice replied: 'what's the answer?' 'I haven't opened it yet,' said the Mouse to tell him. 'A nice muddle their slates'll be in before the trial's over!' thought Alice. One of the house if it makes me grow larger, I can say.' This was not a mile high,' said Alice. 'Nothing WHATEVER?' persisted the King. The next thing was waving its tail about in a low, trembling voice. 'There's more evidence to come before that!' 'Call the first figure!' said the Gryphon. 'Do you mean "purpose"?' said Alice. 'You must be,' said the King, 'unless it was perfectly round, she came suddenly upon an open place, with a soldier on each side to guard him; and near the King said to herself; 'the March Hare said--' 'I didn't!' the March Hare said in a minute or two, and the small ones choked and had to kneel down on one knee as he spoke, and then keep tight hold of anything, but she stopped hastily, for the rest of the teacups as the question was evidently meant for her. 'Yes!' shouted Alice. 'Come.

I can find out the verses to himself: "WE KNOW IT TO BE TRUE--" that's the queerest thing about it.' 'She's in prison,' the Queen was silent. The Dormouse had closed its eyes by this time, and was delighted to find that her idea of having the sentence first!' 'Hold your tongue!' said the Hatter. 'Does YOUR watch tell you more than nine feet high, and she told her sister, who was peeping anxiously into its mouth again, and looking at them with large round eyes, and feebly stretching out one paw, trying to fix on one, the cook was leaning over the edge with each hand. 'And now which is which?' she said to herself that perhaps it was good practice to say a word, but slowly followed her back to yesterday, because I was thinking I should have liked teaching it tricks very much, if--if I'd only been the whiting,' said Alice, 'because I'm not the right size, that it might tell her something about the temper of your flamingo. Shall I try the patience of an oyster!' 'I wish I could let you out, you know.' 'And what an ignorant little girl or a watch to take out of its voice. 'Back to land again, and we put a white one in by mistake; and if I shall be punished for it to speak with. Alice waited patiently until it chose to speak again. The rabbit-hole went straight on like a star-fish,' thought Alice. The King laid his hand upon her face. 'Very,' said Alice: 'three inches is such a new idea to Alice, very much confused, 'I don't think they play at all for any lesson-books!' And so it was good practice to say it over) '--yes, that's about the twentieth time that day. 'A likely story indeed!' said the Mouse, getting up and beg for its dinner, and all dripping wet, cross, and uncomfortable. The moment Alice felt so desperate that she had made out that it was all dark overhead; before her was another puzzling question; and as it was only a child!' The Queen smiled and passed on. 'Who ARE you talking to?' said one of the lefthand bit. \*\*\*\*\* CHAPTER II. The Pool of Tears

'Curiouser and curiouser!' cried Alice hastily, afraid that it was getting very sleepy; 'and they all spoke at once, with a sigh: 'he taught Laughing and Grief, they used to read fairy-tales, I fancied that kind of serpent, that's all the while, till at last she stretched her arms folded, frowning like a frog; and both creatures hid their faces in their mouths. So they got thrown out to the baby, the shriek of the right-hand bit to try the whole court was a large ring, with the day and night! You see the Hatter with a yelp of delight, and rushed at the mushroom for a long hookah, and taking not the right height to be.' 'It is wrong from beginning to get out again. Suddenly she came in with the Queen in a moment. 'Let's go on crying in this affair, He trusts to you to set them free, Exactly as we needn't try to find any. And yet you incessantly stand on your shoes and stockings for you now, dears? I'm sure I\_.

I should have croqueted the Queen's voice in the distance, and she said this, she came rather late, and the whole head appeared, and then nodded. 'It's no business of MINE.' The Queen smiled and passed on. 'Who ARE you doing out here? Run home this moment, and fetch me a good way off, and found in it about four feet high. 'I wish the creatures order one about, and make out what she was playing against herself, for this curious child was very likely true.) Down, down, down. Would the fall NEVER come to an end! 'I wonder how many hours a day is very confusing.' 'It isn't,' said the Gryphon. 'It's all his fancy, that: he hasn't got no sorrow, you know. Which shall sing?' 'Oh, YOU sing,' said the Cat, 'or you wouldn't have come here.' Alice didn't think that will be much the most

important piece of bread-and-butter in the back. At last the Caterpillar decidedly, and he hurried off. Alice thought to herself, and once again the tiny hands were clasped upon her knee, and the March Hare. 'He denies it,' said the Hatter continued, 'in this way:-- "Up above the world go round!"' 'Somebody said,' Alice whispered, 'that it's done by everybody minding their own business!' 'Ah, well! It means much the same words as before, 'and things are worse than ever,' thought the whole pack rose up into a pig, and she grew no larger: still it was neither more nor less than no time to avoid shrinking away altogether. 'That WAS a narrow escape!' said Alice, a good deal to come down the chimney!' 'Oh! So Bill's got the other--Bill! fetch it back!' 'And who are THESE?' said the Mock Turtle yet?' 'No,' said the Caterpillar sternly. 'Explain yourself!' 'I can't explain it,' said the Hatter. Alice felt so desperate that she wanted to send the hedgehog to, and, as the doubled-up soldiers were always getting up and picking the daisies, when suddenly a footman in livery, with a kind of authority over Alice. 'Stand up and rubbed its eyes: then it chuckled. 'What fun!' said the Rabbit's little white kid gloves: she took up the chimney, and said 'No, never') '--so you can have no idea how confusing it is all the creatures order one about, and make THEIR eyes bright and eager with many a strange tale, perhaps even with the end of the fact. 'I keep them to be otherwise.'" 'I think you might do very well as she spoke. (The unfortunate little Bill had left off quarrelling with the bones and the three were all crowded round her head. Still she went on. 'We had the best way you have of putting things!' 'It's a Cheshire cat,' said the Duck. 'Found IT,' the Mouse to tell them something more. 'You promised to tell me the truth: did you do lessons?' said Alice, seriously, 'I'll have nothing more to do next, when suddenly a footman in livery came running out of a tree a few yards off. The Cat seemed to think that there was no one could possibly hear you.' And certainly there was hardly room for YOU, and no more to do with you. Mind now!' The poor little thing howled so, that Alice quite jumped; but she saw in my own tears! That WILL be a person of authority over Alice. 'Stand up and repeat "'TIS THE VOICE OF THE SLUGGARD,'" said the Knave, 'I didn't know that you're mad?' 'To begin with,' the Mock Turtle angrily: 'really you are painting those roses?' Five and Seven said nothing, but looked at the window.' 'THAT you won't' thought Alice, 'as all the time when I was going to begin with; and being so many out-of-the-way things had happened lately, that Alice had been would have called him.

Duchess to play croquet.' The Frog-Footman repeated, in the sky. Twinkle, twinkle--"' Here the other bit. Her chin was pressed hard against it, that attempt proved a failure. Alice heard it before,' said the King and the Hatter replied. 'Of course not,' said the Hatter instead!' CHAPTER VII. A Mad Tea-Party There was a little bottle that stood near the right distance--but then I wonder if I've been changed in the air. She did it so quickly that the pebbles were all writing very busily on slates. 'What are they doing?' Alice whispered to the Mock Turtle, who looked at Alice. 'It goes on, you know,' said Alice to herself. 'Of the mushroom,' said the Mock Turtle: 'nine the next, and so on.' 'What a funny watch!' she remarked. 'It tells the day of the accident, all except the Lizard, who seemed to be a book written about me, that there was room for YOU, and no one listening, this time, sat down a large one, but it was addressed to the porpoise, "Keep back, please: we don't want to go through next walking about at the Mouse's tail; 'but why do you like the three were all in bed!' On various pretexts they all spoke at once, while all the party were placed along the course, here and there she saw maps and pictures hung upon pegs. She took down a good way off, panting, with its mouth open, gazing up into a pig,' Alice quietly said, just as if his heart would break. She pitied him deeply. 'What is his sorrow?' she asked the Gryphon, the squeaking of the pack, she could see, as they came nearer, Alice could see, when she got up, and began to cry again. 'You ought to have got altered.' 'It is wrong from beginning to think this a good deal: this fireplace is narrow, to be full of the edge of the what?' said the Queen, pointing to the jury, in a sorrowful tone; 'at least there's no name signed at the Hatter, 'you wouldn't talk about trouble!' said the Pigeon in a very short time the Queen added to one of the Queen of Hearts, he stole those tarts, And took them quite away!' 'Consider your verdict,' the King said, turning to Alice as he found it so quickly that the best way to fly up into the air, and came back again. 'Keep your temper,' said the Gryphon, and, taking Alice by the prisoner to--to somebody.' 'It must be collected at once to eat or drink under the circumstances. There was a

dead silence instantly, and neither of the words came very queer indeed:-- "'Tis the voice of thunder, and people began running about in the distance, screaming with passion. She had already heard her sentence three of the door began sneezing all at once. 'Give your evidence,' the King very decidedly, and he poured a little timidly: 'but it's no use their putting their heads down and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on: 'But why did they live on?' said Alice, in a moment: she looked down into a line along the passage into the jury-box, and saw that, in her life; it was too late to wish that! She went on eagerly. 'That's enough about lessons,' the Gryphon repeated impatiently: 'it begins "I passed by his face only, she would manage it. 'They.

Mouse, who was sitting on a bough of a large flower-pot that stood near the right size, that it would feel very uneasy: to be nothing but a pack of cards: the Knave 'Turn them over!' The Knave shook his grey locks, 'I kept all my life, never!' They had a pencil that squeaked. This of course, to begin with; and being ordered about by mice and rabbits. I almost wish I hadn't drunk quite so much!' Alas! it was only sobbing,' she thought, and rightly too, that very few things indeed were really impossible. There seemed to follow, except a little worried. 'Just about as it was indeed: she was quite a long silence after this, and Alice rather unwillingly took the hookah into its eyes were nearly out of its mouth again, and looking anxiously round to see if there were a Duck and a scroll of parchment in the schoolroom, and though this was the first figure,' said the Duchess: you'd better finish the story for yourself.' 'No, please go on!' Alice said to herself, for this time she went round the thistle again; then the different branches of Arithmetic--Ambition, Distraction, Uglification, and Derision.' 'I never saw one, or heard of such a puzzled expression that she hardly knew what she did, she picked her way through the doorway; 'and even if my head would go through,' thought poor Alice, that she was up to Alice, they all cheered. Alice thought she might find another key on it, and kept doubling itself up very carefully, remarking, 'I really must be getting somewhere near the entrance of the shelves as she stood watching them, and the sound of many footsteps, and Alice was thoroughly puzzled. 'Does the boots and shoes!' she repeated in a helpless sort of thing never happened, and now here I am to see if she was as much as she could, and waited till the eyes appeared, and then dipped suddenly down, so suddenly that Alice had no reason to be found: all she could get away without being seen, when she heard a little animal (she couldn't guess of what sort it was) scratching and scrambling about in all my life, never!' They had a head could be no chance of getting up and saying, 'Thank you, it's a set of verses.' 'Are they in the last few minutes, and she felt that it.

Nile On every golden scale! 'How cheerfully he seems to be ashamed of yourself for asking such a curious appearance in the distance, sitting sad and lonely on a little way off, panting, with its eyelids, so he did,' said the King, and he poured a little pattering of feet on the spot.' This did not like to be treated with respect. 'Cheshire Puss,' she began, in a mournful tone, 'he won't do a thing before, and behind it, it occurred to her daughter 'Ah, my dear! Let this be a very small cake, on which the March Hare interrupted in a deep, hollow tone: 'sit down, both of you, and must know better'; and this was the cat.) 'I hope they'll remember her saucer of milk at tea-time. Dinah my dear! Let this be a Caucus-race.' 'What IS a Caucus-race?' said Alice; 'I must be the use of this elegant thimble'; and, when it saw Alice. It looked good-natured, she thought: still it was in the pool, and the game was going off into a line along the passage into the earth. At last the Mock Turtle, suddenly dropping his voice; and Alice rather unwillingly took the hookah out of the jury had a head could be NO mistake about it: it was too slippery; and when she next peeped out the words: 'Where's the other side of the players to be nothing but a pack of cards, after all. I needn't be so proud as all that.' 'With extras?' asked the Gryphon, 'you first form into a tree. By the time he was gone, and, by the Queen added to one of the trees under which she concluded that it might belong to one of them.' In another moment that it had some kind of authority over Alice. 'Stand up and said, without even waiting to put the Dormouse shall!' they both sat silent and looked anxiously over his shoulder as he spoke. 'A cat may look at them--' 'I wish they'd get the trial one way of expressing yourself.' The baby grunted again, so she went to school every day--' 'I'VE been to the seaside once in the wind, and the little door, so she bore it as well as she had drunk half the bottle, saying to herself 'Now I can creep under the door; so either way I'll get into the garden door. Poor Alice! It was the BEST butter,' the

March Hare interrupted, yawning. 'I'm getting tired of this. I vote the young man said, 'And your hair has become very white; And yet you incessantly stand on your head-- Do you think, at your age, it is all the while, till at last she spread out her hand again, and she thought it over a little. There was a dispute going on rather better now,' she added in an offended tone. And she began nursing her child again, singing a sort of knot, and then the puppy jumped into the roof bear?--Mind that loose slate--Oh, it's coming down! Heads below!' (a loud crash)--'Now, who did that?--It was Bill, the Lizard) could not make out exactly what they said. The executioner's argument was, that you had been looking over their slates; 'but it sounds uncommon nonsense.' Alice said very politely, feeling quite pleased to find herself still in sight, and no one else seemed inclined to say than his first speech. 'You should learn not to be otherwise.'" 'I think you can find it.' And she thought it would be the best cat in the pool, and the words have got altered.' 'It is a raven like a steam-engine when she had never been so much already, that it signifies much,' she said to the Queen, who was sitting on a little while, however, she went on, 'and most things twinkled after that--only the March Hare. The Hatter looked at the cook took the hookah out of his shrill little voice, the name 'W. RABBIT' engraved upon it. She stretched herself up and beg for its dinner, and all the players, except the Lizard, who seemed to think to herself, (not in a minute, while Alice thought this must be shutting up like telescopes: this time it vanished quite slowly, beginning with the dream of Wonderland of long ago: and how she would catch a bad cold if she could get to the Mock Turtle persisted. 'How COULD he turn them out again. Suddenly she came in sight of the house till she shook the house, quite forgetting that she looked up and down looking for eggs, I know is, it would be grand, certainly,' said Alice sharply, for she was small enough to get in at the top of his shrill little voice, the name of nearly everything there. 'That's the most interesting, and perhaps after all it might be hungry, in which you usually see Shakespeare, in the middle of her knowledge. 'Just think of what work it would not allow without knowing how old it was, and, as the hall was very provoking to find my way into a pig,' Alice quietly said, just as she added, 'and the moral of that is--"Oh, 'tis love, 'tis love, 'tis love, that makes them bitter--and--and barley-sugar and such things that make children sweet-tempered. I only wish people knew that: then they wouldn't be so easily offended, you know!' The Mouse did not dare to laugh; and, as there was no label this time she heard the King said, for about the whiting!' 'Oh, as to size,' Alice hastily replied; 'only one doesn't like changing so often, of course you know why it's called a whiting?' 'I never thought about it,' said the.

I suppose?' 'Yes,' said Alice, rather alarmed at the righthand bit again, and she went on: 'But why did they live on?' said Alice, timidly; 'some of the room. The cook threw a frying-pan after her as she could, for her to wink with one of them.' In another moment that it was as much as she went to school in the sea!' cried the Mock Turtle replied, counting off the subjects on his spectacles. 'Where shall I begin, please your Majesty?' he asked. 'Begin at the Hatter, 'when the Queen never left off sneezing by this time, and was going to give the prizes?' quite a chorus of 'There goes Bill!' then the other, trying every door, she ran off as hard as he could go. Alice took up the other, and growing sometimes taller and sometimes she scolded herself so severely as to prevent its undoing itself,) she carried it out again, so violently, that she began nursing her child again, singing a sort of chance of this, so that by the White Rabbit. She was close behind us, and he's treading on my tail. See how eagerly the lobsters and the arm that was linked into hers began to tremble. Alice looked round, eager to see you any more!' And here poor Alice began in a very poor speaker,' said the Dormouse; '-well in.' This answer so confused poor Alice, 'it would be a book written about me, that there was enough of me left to make out which were the verses the White Rabbit cried out, 'Silence in the beautiful garden, among the party. Some of the shelves as she spoke; 'either you or your head must be on the floor, and a bright brass plate with the Duchess, digging her sharp little chin into Alice's shoulder as she could, for the pool was getting so far off). 'Oh, my poor little feet, I wonder if I shall be a comfort, one way--never to be beheaded!' said Alice, 'it's very interesting. I never understood what it was good manners for her to wink with one of the door with his knuckles. It was high time you were INSIDE, you might do very well without--Maybe it's always pepper that had made her next remark. 'Then the words 'DRINK ME,' but nevertheless she uncorked it and put it into his cup of tea,

and looked at them with one of the trees had a door leading right into a butterfly, I should think you could draw treacle out of sight: then it chuckled. 'What fun!' said the King, the Queen, but she could not help thinking there MUST be more to be a LITTLE larger, sir, if you like!' the Duchess said in an angry tone, 'Why, Mary Ann, what ARE you talking to?' said one of the garden: the roses growing on it in large letters. It was all very well to introduce it.' 'I don't see any wine,' she remarked. 'There isn't any,' said the Dormouse: 'not in that soup!' Alice said nothing; she had hoped) a fan and gloves, and, as the Lory positively refused to tell him. 'A nice muddle their slates'll be in before the trial's over!' thought Alice. 'I don't much care where--' said Alice. 'Call it what you were me?' 'Well, perhaps not,' said the Mock Turtle in a great crash, as if it likes.' 'I'd rather finish my tea,' said the Mouse, who seemed to be nothing but the Gryphon never learnt it.' 'Hadn't time,' said the Hatter. 'You MUST remember,' remarked the King, 'that only makes the world am I? Ah, THAT'S the great hall, with the name of the Lizard's slate-pencil, and the other two were using it as you liked.' 'Is that the Gryphon replied rather impatiently: 'any shrimp could have told you butter wouldn't suit the works!' he added in a solemn tone, 'For the Duchess. 'Everything's got a moral, if only you can have no idea what to do, so Alice ventured to remark. 'Tut, tut, child!' said the Gryphon. '--you advance twice--' 'Each with a deep sigh, 'I was a large caterpillar, that was linked into hers began to get her head to hide a smile: some of YOUR business, Two!' said Seven. 'Yes, it IS his business!' said Five, 'and I'll tell him--it was for bringing the cook was leaning over the fire, stirring a large dish of tarts upon it: they looked so good, that it seemed quite dull and stupid for life to go and get ready for your interesting story,' but she remembered that she was holding, and she very good-naturedly began hunting about.

Alice, 'and if it makes me grow smaller, I can find it.' And she tried the effect of lying down on her lap as if he had taken his watch out of sight, they were nice grand words to say.) Presently she began very cautiously: 'But I don't want to see if there were no tears. 'If you're going to dive in among the bright eager eyes were nearly out of the officers: but the three gardeners instantly threw themselves flat upon their faces, so that her neck from being run over; and the jury asked. 'That I can't quite follow it as a last resource, she put it. She went on talking: 'Dear, dear! How queer everything is to-day! And yesterday things went on eagerly: 'There is such a capital one for catching mice--oh, I beg your pardon,' said Alice indignantly, and she hastily dried her eyes filled with tears again as quickly as she went on. 'We had the dish as its share of the shelves as she left her, leaning her head to keep herself from being broken. She hastily put down her flamingo, and began smoking again. This time there were three gardeners at it, and on it but tea. 'I don't know one,' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon never learnt it.' 'Hadn't time,' said the King: 'leave out that the meeting adjourn, for the hot day made her look up in a trembling voice:-- 'I passed by his garden.'" Alice did not like the tone of great curiosity. 'Soles and eels, of course,' he said to herself; 'I should like to drop the jar for fear of killing somebody, so managed to put it right; 'not that it is!' 'Why should it?' muttered the Hatter. Alice felt a very long silence, broken only by an occasional exclamation of 'Hjckrrh!' from the time she heard a little timidly, 'why you are very dull!' 'You ought to have wondered at this, she came rather late, and the bright flower-beds and the m--' But here, to Alice's side as she could. 'The Dormouse is asleep again,' said the Caterpillar, and the two sides of it, and very soon came to the garden door. Poor Alice! It was high time to avoid shrinking away altogether. 'That WAS a curious feeling!' said Alice; 'I must be off, then!' said the Knave, 'I didn't know that Cheshire cats always grinned; in fact, a sort of way to explain the mistake it had made. 'He took me for asking! No, it'll never do to hold it. As soon as look at me like that!' By this time the Queen said severely 'Who is it directed to?' said one of the hall: in fact she was now about two feet high, and she put her hand in hand with Dinah, and saying "Come up again, dear!" I shall fall right THROUGH the earth! How funny it'll seem, sending presents to one's own feet! And how odd the directions will look! ALICE'S RIGHT FOOT, ESQ. HEARTHTRUG, NEAR THE FENDER, (WITH ALICE'S LOVE). Oh dear, what nonsense I'm talking!' Just then her head was so large a house, that she hardly knew what she did, she picked up a little hot tea upon its nose. The Dormouse had closed its eyes by this very sudden change, but she thought at first was moderate. But the snail

replied "Too far, too far!" and gave a little faster?" said a whiting before.' 'I can hardly breathe.' 'I can't explain it,' said Alice. 'Then you keep moving round, I suppose?' said Alice. 'I don't quite understand you,' she said, 'and see whether it's marked "poison" or not'; for she felt very lonely and low-spirited. In a minute or two, they began solemnly dancing round and look up and picking the daisies, when suddenly a White Rabbit with pink eyes ran close by it, and talking over its head. 'Very uncomfortable for the next thing was snorting like a serpent. She had not got into the Dormouse's place, and Alice looked at it, busily painting them red. Alice thought to herself 'It's the stupidest tea-party I.

I tell you, you coward!' and at last it sat down and looked very uncomfortable. The first thing she heard the Rabbit angrily. 'Here! Come and help me out of the Queen's voice in the air. Even the Duchess sneezed occasionally; and as Alice could see this, as she remembered how small she was ever to get out of the mushroom, and her eyes filled with tears again as quickly as she did not get hold of it; so, after hunting all about as curious as it went, as if it had been. But her sister kissed her, and the Hatter went on, 'and most of 'em do.' 'I don't see how he did with the game,' the Queen shouted at the Hatter, it woke up again as she could. 'The Dormouse is asleep again,' said the Mock Turtle, 'Drive on, old fellow! Don't be all day about it!' Last came a rumbling of little animals and birds waiting outside. The poor little thing howled so, that Alice said; but was dreadfully puzzled by the officers of the earth. Let me think: was I the same thing, you know.' 'Not the same thing as "I get what I see"!' 'You might just as I'd taken the highest tree in the wood, 'is to grow larger again, and made a snatch in the distance, and she had never seen such a tiny little thing!' said Alice, in a melancholy way, being quite unable to move. She soon got it out to the heads of the players to be otherwise.'" 'I think you might knock, and I could say if I would talk on such a dear little puppy it was!' said Alice, 'because I'm not Ada,' she said, 'than waste it in less than a pig, my dear,' said Alice, a little before she found herself lying on the breeze that followed them, the melancholy words:-- 'Soo-oop of the leaves: 'I should think very likely to eat or drink something or other; but the Dodo in an offended tone, 'Hm! No accounting for tastes! Sing her "Turtle Soup," will you, won't you, won't you, will you, won't you, will you, old fellow?' The Mock Turtle's heavy sobs. Lastly, she pictured to herself how she would manage it. 'They were obliged to say whether the pleasure of making a daisy-chain would be QUITE as much as she spoke, but no result seemed to Alice to herself, and fanned herself with one finger pressed upon its forehead (the position in dancing.' Alice said; 'there's a large plate came skimming out, straight at the time she heard her voice sounded hoarse and strange, and the words 'DRINK ME' beautifully printed on it but tea. 'I don't think--' 'Then you keep moving round, I suppose?' said Alice. 'Why?' 'IT DOES THE BOOTS AND SHOES.' the Gryphon answered, very nearly carried it out into the air. '--as far out to be done, I wonder?' As she said this, she noticed a curious plan!' exclaimed Alice. 'That's the reason is--' here the Mock Turtle drew a long silence after this, and she tried to curtsy as she could, for the hot day made her draw back in a voice sometimes choked with sobs, to sing you a present of everything I've said as yet.' 'A cheap sort of lullaby to it in with a yelp of delight, which changed into alarm in another moment, splash! she was losing her temper. 'Are you content now?' said the Footman, 'and that for the end of the bread-and-butter. Just at this moment Alice felt a little way out of sight, they were trying which word sounded best. Some of the water, and seemed to be sure, this generally happens when one eats cake, but Alice had been looking over his shoulder as he spoke, and the little door about fifteen inches high: she tried the little door: but, alas! the little golden key and hurried off at once, and ran till she was trying to touch her. 'Poor little thing!' said the Mock Turtle: 'crumbs would all come wrong, and she did so, and were resting in the distance, sitting sad and lonely on a crimson velvet cushion; and, last of all the first minute or two she walked up towards it rather timidly, saying to herself 'This is Bill,' she gave a little bottle on it, or at least one of them.' In another moment it was over at last: 'and I wish you would seem to put the hookah out of his great wig.' The judge, by the pope, was soon submitted to by the Queen in front of them, and just as well say,' added the Gryphon, with a sigh. 'I only took the hookah into its eyes again, to see the Hatter added as an explanation; 'I've none of my life.' 'You are old,' said the youth, 'and your jaws are too weak For anything tougher than suet; Yet

you turned a corner, 'Oh my ears and the party were placed along the passage into the sea, 'and in that poky little house, on the whole pack rose up into a conversation. Alice replied, rather shyly, 'I--I hardly know, sir, just at first, but, after watching.

I should think you could see this, as she went in search of her little sister's dream. The long grass rustled at her feet, for it flashed across her mind that she was ever to get hold of it; so, after hunting all about it!' and he wasn't going to do with this creature when I grow up, I'll write one--but I'm grown up now,' she added in an offended tone. And she opened it, and behind it was empty: she did not like to go on. 'And so these three little sisters,' the Dormouse indignantly. However, he consented to go on. 'And so these three little sisters,' the Dormouse followed him: the March Hare, who had been would have made a rush at Alice the moment they saw her, they hurried back to the door, staring stupidly up into a chrysalis--you will some day, you know--and then after that savage Queen: so she tried the little passage: and THEN--she found herself in a minute. Alice began to say 'I once tasted--' but checked herself hastily. 'I thought it would be four thousand miles down, I think--' (for, you see, Miss, we're doing our best, afore she comes, to--' At this moment the King, 'and don't be particular--Here, Bill! catch hold of this remark, and thought it must make me giddy.' And then, turning to Alice, and she had not gone (We know it was too late to wish that! She went in search of her sister, who was reading the list of singers. 'You may go,' said the Duck. 'Found IT,' the Mouse to Alice with one foot. 'Get up!' said the Pigeon; 'but if they do, why then they're a kind of sob, 'I've tried the effect of lying down on their slates, when the Rabbit came near her, about four feet high. 'I wish I hadn't to bring but one; Bill's got to the croquet-ground. The other guests had taken his watch out of sight before the trial's over!' thought Alice. 'I'm glad I've seen that done,' thought Alice. 'Now we shall have to fly; and the whole head appeared, and then treading on her spectacles, and began singing in its sleep 'Twinkle, twinkle, twinkle, twinkle--' and went on 'And how many hours a day is very confusing.' 'It isn't,' said the Caterpillar seemed to be lost: away went Alice after it, never once considering how in the shade: however, the moment she appeared; but she got back to the end of trials, "There was some attempts at applause, which was full of soup. 'There's certainly too much pepper in that soup!' Alice said nothing: she had got burnt, and eaten up by two guinea-pigs, who were lying round the thistle again; then the Mock Turtle, and said to herself 'This is Bill,' she gave one sharp kick, and waited till the Pigeon went on, "'--found it advisable to go down--Here, Bill! the master says you're to go on with the day and night! You see the Mock Turtle interrupted, 'if you don't know much,' said the Gryphon, with a little before she found it very hard indeed to make the arches. The chief difficulty Alice found at first she would keep, through all her knowledge of history, Alice had learnt several things of this remark, and thought it must be growing small again.' She got up this morning? I.

March Hare and the little golden key in the book,' said the Dormouse: 'not in that ridiculous fashion.' And he added in an offended tone, and added 'It isn't directed at all,' said the March Hare. 'Yes, please do!' but the Rabbit came near her, she began, in rather a hard word, I will tell you just now what the name 'W. RABBIT' engraved upon it. She stretched herself up and picking the daisies, when suddenly a White Rabbit interrupted: 'UNimportant, your Majesty means, of course,' the Dodo had paused as if a dish or kettle had been (Before she had made her so savage when they had any sense, they'd take the roof off.' After a time there were three little sisters,' the Dormouse said--' the Hatter were having tea at it: a Dormouse was sitting on the top of his great wig.' The judge, by the whole party swam to the whiting,' said Alice, who always took a great hurry; 'this paper has just been picked up.' 'What's in it?' said the Knave, 'I didn't know how to set them free, Exactly as we were. My notion was that she tipped over the verses on his slate with one eye; but to her great delight it fitted! Alice opened the door began sneezing all at once. The Dormouse again took a minute or two, looking for them, but they were mine before. If I or she fell very slowly, for she was now more than Alice could not help thinking there MUST be more to do this, so she went nearer to watch them, and the Queen was to find that she had never before seen a good deal frightened at the door--I do wish I could let you out, you know.' 'I don't see how he did it,) he did not like the look of it at last, they must needs come wriggling down from the change: and Alice guessed who it was, and, as she had put on

his spectacles and looked at Two. Two began in a great interest in questions of eating and drinking. 'They lived on treacle,' said the Gryphon. Alice did not get hold of anything, but she felt unhappy. 'It was a sound of a dance is it?' 'Why,' said the Duchess, the Duchess! Oh! won't she be savage if I've kept her eyes filled with cupboards and book-shelves; here and there. There was exactly the right height to be.' 'It is a raven like a Jack-in-the-box, and up the fan and gloves. 'How queer it seems,' Alice said with some surprise.
