EDUCATION

- **JSPM'S Rajarshi Shahu College Of Engineering** Pune,IN
Bachelor of Technology - Mechanical Engineering; GPA: 7.52 Aug '19 - Jul '23

SKILLS SUMMARY

- **Languages:** SQL, Python, R
- **Tools:** PowerBI, Tableau, MS Excel, MS Powerpoint

EXPERIENCE

- **AI Variant** Bangalore, IN
Freelancer Aug '23 - Oct '23
 - **Impact:** Significantly contributed to the company's success by implementing robust data-driven strategies. Through the development and application of advanced risk assessment models, I played a pivotal role in mitigating potential risks and enhancing overall risk management..
 - **Work:** Through my expertise in data analysis and visualization, I enhanced decision-making processes, providing actionable insights to cross-functional teams. I also contributed to operational efficiency by optimizing data processing workflows, leading to reduced turnaround times for critical tasks.
- **CodeCartel LLP** Bhopal, IN
Data Analyst Intern Jan '23 - Jun '23
 - **Impact:** Solved near about 13 consumer and business issues with end-to-end solutions that adapt to today's ever-changing digital landscape.
 - **Work:** Left 0 stone unturned in providing clients with exceptional digital experiences through design and excellent user interface.
- **The Lions Crew** Pune, IN
Freelancer July '22 - Nov '22
 - **Impact:** Created this 2 paged PowerBI dashboard to maintain track of the industries and firms, market share, product volume and sales.
 - **Work:** Freelanced as a Data Analyst and accomplished a task with SQL and tools like PowerBI and Tableau Dashboards for a Senior Pre Sales Manager at a Real Estate Sales Company.

ACADEMIC PROJECTS

- **Tea Company Excel Dashboard:** Developed an Excel dashboard to comprehensively examine the global consumption and sales of tea and coffee for a tea company. The dashboard aggregates data from diverse origins, offering an in-depth analysis of the tea and coffee varieties most favored by consumers on a worldwide scale. It encompasses interactive charts, pivot tables, and slicers to visualize consumption and sales trends, regional disparities, and seasonal fluctuations.
- **Cryptocurrency Dashboard:** The 2 paged Power BI project on cryptocurrencies is a comprehensive and insightful two-page data visualization and analysis endeavor that delves into the world of digital currencies. The project is designed to provide a deep understanding of the cryptocurrency market's trends, performance, and key metrics, making it an invaluable tool for investors, enthusiasts, and analysts alike
- **USA Regional Sales Dashboard:** A Power BI project for analyzing US regional sales was developed, with a focus on 3 main parts, data collection, transformation, and visualization. The project includes a dashboard containing detailed sales performance metrics, geographical mapping, trend analysis, and interactive filters, enabling users to delve into specific regions, time periods, and product categories for a thorough examination of sales trends.
- **IMDB movie ratings:** Created a comprehensive Power BI dashboard focusing on IMDB movie ratings, compiling and visualizing extensive data from IMDB's vast movie database. The dashboard includes interactive visualizations that enable users to explore trends in movie ratings, genres, and release years, allowing for in-depth analysis of the film industry's performance over time.
