PROJECT DETAILS

10. HRMS & Crystal Reports Project

- **Technologies:** C#, ASP.NET MVC, .NET Core MVC, jQuery, JavaScript, HTML, SQL Server.
- **Description:** Developed and implemented key modules including login page, product expiry management, and master data management (Department, Designation, Organization, Employee, Country, State, City).
- Created salary transaction forms and cancellation forms to handle business processes.
- Ensured encryption of sensitive data (e.g., login credentials, product expiry dates) to maintain security and privacy.
- Integrated Crystal Reports (developed in .NET MVC) into .NET Core MVC application, allowing users to download reports via URL.
- Managed transaction and master tables, ensuring data integrity and security across the system.
- **Tools:** Visual Studio 2022, MS SQL Server 2019.
- **Duration:** Dec 2024 – Ongoing.

9. Ashiwini WebApp

- **Technologies:** C#, ASP.NET MVC, jQuery, JavaScript, HTML, SQL Server.
- **Description:** A multilingual feedback system with dashboards showing data such as patient details and department-wise statistics.
- **Tools:** Visual Studio 2022, MS SQL Server 2019.
- **Duration:** May 2024 – Ongoing.

8. Feedback Project (MVC)

- **Technologies:** C#, ASP.NET MVC, SQL Server
- **Description:** Developed a responsive feedback portal with department-wise rating charts and export features.
- **Tools:** Visual Studio 2022, GoDaddy Hosting
- **Duration:** March 2024

7. HIMS Web API

- **Technologies:** C#, .NET Core, SQL Server, Angular
- **Description:** Built master pages and APIs for hospital management with 40+ modules.
- **Tools:** Visual Studio 2022, MS SQL Server 2019
- **Duration:** June 2023 – February 2024.

6. Dashboard Project

- **Technologies:** C#, ASP.NET MVC, SQL Server
- **Description:** Developed dynamic dashboards with graphs (pie, line, bar) and export functionalities.
- **Tools:** Visual Studio 2022
- **Duration:** February – June 2023

5. Feedback Web API

- **Technologies:** C#, .NET Core
- **Description:** Developed web APIs for feedback systems, integrating question-answer modules with SQL Server.
- **Tools:** Visual Studio 2022
- **Duration:** June 2023

4. Clinical App (Doctor Round)

- **Technologies:** C#, ASP.NET MVC
- **Description:** Built modules for patient rounds, appointment management, and discharge summaries.
- **Tools:** Visual Studio 2019
- **Duration:** January – May 2023

3. CRM Hospital Project

- **Technologies:** C#, ASP.NET MVC
- **Description:** Created a CRM for hospital operations, tracking customer feedback and maintenance.
- **Tools:** Visual Studio 2019
- **Duration:** 2 Months

2. CRUD Operations (Stored Procedure)

- **Technologies:** C#, ASP.NET, SQL Server
- **Description:** Implemented CRUD operations using stored procedures for a Windows Form application.

1. Coffee Shop Project

- **Technologies:** C#.NET, ASP.NET (Windows Form Application), MySQL
- **Description:** Developed a small-scale coffee shop management system.
- **Tools:** Visual Studio 2019
- **Duration:** 1 Month
