## Professional Experience

### Front End Developer

February 2023 – present | banglore

*Technoboost services*

- Developed over 10 static websites and 2 dynamic projects during 1.2 years tenure at TechnoBoost, showcasing proficiency in HTML, CSS, JavaScript, jQuery, Bootstrap, and Tailwind.
- Spearheaded the front-end development of various projects, ensuring pixel-perfect design implementation and seamless user experience.
- Collaborated closely with design and back-end teams to translate wireframes and mockups into fully functional websites, adhering to project deadlines and requirements.
- Leveraged advanced CSS techniques and frameworks such as Bootstrap and Tailwind to streamline development processes and enhance website responsiveness across different devices.
- Implemented interactive features and animations using JavaScript and jQuery to enhance user engagement and functionality.
- Contributed to the optimization of website performance and loading times through efficient coding practices and resource optimization techniques.
- Actively participated in code reviews and provided constructive feedback to team members, fostering a culture of continuous learning and improvement.
- Stayed updated with the latest front-end development trends and technologies, incorporating best practices and innovative solutions into projects to maintain competitiveness in the industry.
