EXPERIENCE

SumaSoft Pvt. Ltd , Pune — Junior Software Engineer

MARCH 2022 - PRESENT

- Completed training on technologies like React JS, React Native, Flutter, Flutter State Management -GetX , Bloc.
- Developed POC's and assisted in developing live project apps .
- Live Projects :

Contaque Mobili - Dialer App

Technologies used : Flutter, Flutter-GetX, Hive

Duration : Ongoing

Worked on equipping this app with Local and Push Notifications via Firebase Cloud messaging and deep understanding of Mqtt and Sip implementation

Cocolife - Healthcare App

Technologies used : Flutter, Flutter-GetX

Duration : Ongoing

Worked on adding new features like ELoa forms for diagnostic and consultation scenarios, integrated Restful APIs from the backend team and migrated the whole project to GetX.

DakshDepa Certification Tool - ONDC Api Validator

Technologies used : Python-Flask, Firebase-Auth & DB, Google Cloud

Duration : Ongoing

Worked on the backend part of the Validator tool to implement proxy redirection of all api requests from either BAP or BPP layer. Implemented automated validation of payloads via structured Yaml and forwarding those payloads to the desired layer.
