## EDUCATION

### Savitribai Phule Pune University

PG Diploma in Data Science and Artificial Intelligence

Relevant coursework: Statistics, Machine Learning, NLP, Deep Learning

Pune

Oct 2022 – Oct 2023

### Indian Institute of Cost and Management Studies and Research (Indsearch)

Bachelor of Management Studies

Pune

Jun 2019 – Jun 2022

## SKILLS

- **Data Analysis and Visualization:** Power BI, Tableau, Advanced Excel, Jupyter Notebook
- **Languages:** Python, SQL, C(Basics), R, Git
- **Database:** MySQL, MongoDB, Microsoft SQL Server
- **Libraries:** Scikit-Learn, Pandas, NumPy, NLTK, Seaborn, Matplotlib
- **Soft Skills:** Communication and Storytelling skills, Analytical Thinking, Attention to Detail, Business Acumen, Presentation skills

## INTERNSHIP

### HEALIUM.IO

Mumbai

#### Data Analyst Intern

Jul 2022 – Sep 2022

- Automated data consolidation and organization using SQL, Power Query, and Advanced Excel to create actionable datasets, laying the foundation for efficient database creation.
- Employed advanced Power Query and Excel techniques for data cleaning, conversion, and categorization, optimizing the data pipeline process.
- Developed insightful reports and analyses, collaborating closely with the marketing head and digital marketing team to support informed marketing campaign implementation decisions.

## PROJECTS

### SUPPLY CHAIN ANALYSIS DASHBOARD - [POWER BI]

**Dashboard ranked among the top 10 out of 200 contestants.**

- Developed a Power BI dashboard at AtliQ Mart to address client attrition by tracking daily On Time and In Full (OTIF) delivery service levels. Utilized Power Query and DAX for data cleaning, transformation, and interactive visualization.
- Identified critical attention areas with low OTIF levels in Surat, Ahmedabad, and Vadodara, highlighting customers at risk of contract non-renewal. Insights from the dashboard were used to improve customer service and address supply chain challenges.

### SALES INSIGHTS ANALYSIS - [POWER BI AND SQL]

- Created a Power BI dashboard for sales insights, analyzing profitable customers and cities, and identifying areas of financial loss. Utilized MySQL for data sourcing, SQL for ETL and EDA, and Power Query for data cleaning and transformation.
- Generated comprehensive sales measures using DAX, presenting visually appealing yearly and monthly revenue, sales quantity, and profit charts to facilitate data-driven decision-making and corporate analysis.

### AIRBNB PARIS INSIGHTS - [SQL AND PYTHON]

- Conducted SQL analysis and Python word cloud generation on Airbnb listings in Paris. Utilized Python libraries (Pandas, Matplotlib, NLTK, WordCloud) to clean and analyze the dataset, revealing valuable insights on host behaviors and room types.
- Extracted pricing patterns and prominent features from the data, aiding informed decision-making for hosts and travelers using the insights obtained from the analysis.

## ACTIVITIES

- **National Social Service**, engaged in rural camp for social development and organized impactful events like cleanliness drives, blood donation camps, and tree plantations.
- Proficiently hosted and managed college festival during first year of degree.
