# **Ashish Pawar**

Contact: +91-9096707550 Address: Walhe, Pune 412305.

Email: ashishpaw1234@gmail.com

#### **OBJECTIVE**

Strong foundation in Python programming, along with hands-on experience in **FastAPI**, **PostgreSQL**, **SQL**, **Docker** and **Linux**. Seeking an entry-level Python Developer position to leverage my skills in building scalable applications, developing RESTful APIs, managing databases, and deploying containerized applications in a Linux environment.

#### **EDUCATION**

1. SAVITRIBAI PHULE PUNE UNIVERSITY WAGHIRE COLLEGE SASWAD—

M.SC(Microbiology) 2023 with CGPA: 7.33

2. SAVITRIBAI PHULE PUNE UNIVERSITY WAGHIRE COLLEGE SASWAD—

B.SC(Microbiology) 2021 with 66.94%

3. WAGHIRE COLLEGE SASWAD—

Higher Secondary 2015 with 60.62%

4. Maharshi Valmiki Vidhyalaya

Secondary School 2015 with 73.20%

#### **SKILLS**

• **Programming Languages**: Python

• Web Frameworks: FastAPI

• **Databases**: PostgreSQL

• Version Control: Git, GitHub

• Tools & Technologies: Docker, RESTful APIs, Linux

• Other Skills: Object-Oriented Programming (OOP), Debugging, Vrtual env, ORMs, API Spec Documentation, VS Code, DB Migration

#### **PROJECT**

### Weather App —

The Weather App is a web application that allows users to check the current weather conditions for any city in the world. The app fetches real-time weather data from a weather API and displays it in a user-friendly interface. Users can search for a city, view the current temperature

### **Currency Converter** —

The Currency Converter is a web or console application that allows users to convert an amount from one currency to another using real-time exchange rates. The app fetches the latest exchange rates from an external API and performs the conversion based on user input. The application can support multiple currencies and provide a user-friendly interface for entering and displaying data.

### Number Guessing Game —

The Number Guessing Game is an interactive console-based game where the player tries to guess a randomly generated number within a specified range. The game provides feedback on whether the guessed number is too high, too low, or correct. The game can include features like setting a maximum number of attempts, allowing the player to choose the range, and displaying the number of attempts taken to guess correctly.

### **STRENGTH**

- · Able to work in Team
- · Good communication skills
- Active learning & Critical thinking

## LANGUAGE

- English
- Hindi
- Marathi
