EDUCATION

B.E (AI and Data Science)

AISSMS Institute of Information Technology

2020 - 2024

Course

- AI and Data Science

HSC

Vidyadham Jr. College

2018 - 2020

64 %

WORK EXPERIENCE

Data Science Intern

Automaton AI Infosystem Pvt. Ltd.

02/2023 - 03/2023

Pune, India

Achievements/Tasks

- Data Preprocessing
- Deep Learning Life Cycle
- U-Net architecture

Mentor

Ai Adventures

12/2023 - 02/2024

Pune, India

Achievements/Tasks

- Help students understand fundamental Python, Data Science and Machine Learning concepts, Break down complex ideas into more straightforward concepts, provide examples, and encourage students to ask questions.

SKILLS

Machine Learning

Data Analyst

Python

SQL

Web Scraping

Problem Solving

DSA

PERSONAL PROJECTS

Profit/ Loss prediction for Super Store

- This project involves cleaning, transforming, visualizing and analyzing the data to find patterns and gain insights on the data.
- Implemented various machine learning algorithms to find maximum accuracy for classification.
- View Project. [↗](#)

EDA on Zomato Dataset

- This project involves cleaning, transforming, visualizing and analyzing the data to find patterns and gain insights on the data.
- View Project. [↗](#)

SoccerBase Web Scraping Project

- Developed a Python script utilizing libraries like BeautifulSoup and Requests to scrape data from the SoccerBase website.
- The goal of this project is to develop a web scraping tool that gathers data about soccer matches between different teams from the soccerbase website. The scraped data will include match statistics such as scores, goals, tournament, date, hometeam, away team, and any other relevant information available on the site.
