FRAMEWORKS - ReactJS, NodeJS, ExpressJS, Angular, NextJS, Spring, Springboot

DATABASES – Firebase, MongoDB, PostgreSQL, MySQL, Oracle

Version-Control – Git, GitHub, SVN

Other - Apache Camel, iReport, Apache Maven, MyBatis, Liquibase, DSA, Vercel, Tableau, AWS, Figma, Canva, Excel

Soft Skills - Communication, Critical Thinking, Googling, Adaptability, Team work, Collaboration, Leadership

## EXPERIENCE

Project Trainee Intern

**Omniscient Software Pvt. Ltd**

Pune, Maharashtra

01/01/2024 – 31/05/2024

- Developed and contributed to the payment and account applications within the FS APP framework.
- Within the account's application, facilitated the processing of diverse file formats, including ICORE, to generate comprehensive account statement reports and meticulously track all transactions.
- Within the payment's application, managed the conversion of client files, received in various PAIN formats, into bank-specific formats, streamlining integration processes.

## PROJECTS

**ShadowUI: (NextJS, ReactJS, Firebase, Next Auth, Tailwind CSS, JavaScript, Deployed on Vercel)**

- ShadowUI, an innovative open-source platform, streamlines UI development, boasting a user-friendly code editor that enables developers to create, collaborate, and contribute seamlessly. With over 10,000 active users, it fosters effortless innovation within a secure environment while offering engaging challenges that cultivate a vibrant community. ([Try it here](#))

**Quest.io: (NextJS, ReactJS, Firebase, OpenAI API, Tailwind CSS, JavaScript, Deployed on Vercel)**

- Quest.io, a developer-centric platform, automates tasks and simplifies complex processes to bolster code efficiency, eradicate bugs, and enhance existing codebases. Leveraging advanced algorithms, it streamlines operations, resulting in a significant reduction of up to 80% in development time while ensuring higher code quality and reliability. ([Try it here](#))

**evSpace: (NextJS, ReactJS, Firebase, Google Map API, Stripe API, Tailwind CSS, Deployed on Vercel)**

- evSpace, a user-friendly platform, facilitates the advance booking of electric vehicle charging slots. It incorporates modern features and an efficient admin panel for streamlined management. With seamless integration of Google Sign-in functionality, it ensures easy user access, resulting in a significant increase of up to 50% in user engagement and retention rates. ([Try it here](#))

**HMBiz: (VueJS, Firebase, Razorpay API, CSS, JavaScript)**

- HMBiz operates a food delivery platform facilitating over 10,000 orders monthly, offering a diverse selection of over 500 food items. With a robust database system, HMBiz ensures seamless communication and order processing, managing over 100,000 transactions annually.
