PROFILE

Motivated and detail-oriented B.Sc. IT graduate with a strong foundation in Java, React, JavaScript, and web development. As a fresher, I bring hands-on experience in building responsive applications and e-commerce platforms, focusing on performance and user experience. Proficient in tools like Visual Studio Code and XAMPP, with knowledge of both front-end and back-end development. Actively seeking entry-level opportunities in the software development domain to apply skills, contribute to innovative projects, and grow professionally.

SKILLS

Programming Language : Java, React, Javascript, MongoDB, NodeJs, HTML, CSS

Database Management: My SQL

Tools & Technologies: Visual Studio Code, ASP.NET, XAMPP

Web Development: Responsive Web Design, Front-end & Back-end Development

PROJECT

E-commerce Website (Academic Project)

Created an e-commerce website using **HTML, CSS, JAVA** and **MySQL**. Implemented features like user authentication, product listing, and shopping cart.

Personal project

Built a React app with Vite, utilizing useState for dynamic state management and HMR for seamless updates.

Optimized UI with modular CSS and efficient asset handling, enhancing performance and user engagement.

PROFESSIONAL EXPERIENCE

Fresher
