PROJECTS

PICTURE SQUE :

Html | React.js | Javascript | Redux | MongoDB

It is a web development project created by a team of five, offering photographers a platform to register, upload, and showcase their photos. Users can create profiles, manage their galleries, and interact with a community of Photography enthusiasts. The platform features a responsive design and robust security, utilizing technologies like React.js,Node.js and MongoDB.

RESUME BUILDER CHATBOT :

It was an NLP- based Project that can build the resume for the user when he/she enters his/her details by using Natural Language Processing techniques like Text summarization, Tokenization, Speech recognition, Text-to-speech, and Tagging that will help to improve the efficiency of the performance and we also used Web technologies like HTML and CSS for better User Experience.

TSUNAMI IMPACT ASSESSMENT:

Collaborated in a team of three to predict regions impacted by tsunamis using GIS, historical data, and predictive modeling. Conducted geospatial analysis, risk assessments, and developed mitigation strategies, enhancing technical skills and teamwork in addressing environmental challenges.

ACHIEVEMENTS

- JEE MAINS with 84.2 %.
- C programming certification with 98 percent.

STRENGTHS

I can describe some of my soft skills as my Strengths. Being optimistic and having a good level of patience can help me to be organized and consistent. I have the ability to stay calm under pressure and collaborating with others can help me to interact and work together to gain more meaningful insights and productive outcomes at my workplace.
