EXPERIENCE

INFOSYS LTD. | Technology Analyst (Nov. 2019 - Present)

- Developed and maintained data pipelines for ingesting data from various third-party stakeholders, including Redslim and market data sources.
- Utilized Azure Blob Storage for efficient and secure data management and accessibility.
- Employed Azure Data Factory to orchestrate data pipelines, automating workflows and scheduling tasks for seamless data integration.
- Transformed data using Databricks notebooks, implementing data cleaning, column renaming, and calculation of key business metrics like Promo/Non-promo trade investment, net/gross profit, and sales.
- Designed and implemented complex data transformations, including handling null values, creating views, and curated tables for comprehensive data analysis and reporting.
- Developed interactive dashboards and reports using Power BI Desktop, aligning with business/client requirements to enhance data visualization capabilities.
- Implemented DAX calculations and advanced visualization techniques, including custom visuals and drill-through capabilities, to present insights and trends effectively.
- Created automated data refresh mechanisms for dashboards, reducing manual effort and ensuring access to the most recent data.
- Maintained Row-Level Security (RLS) for data privacy, managed system uptime, and optimized dashboard performance.
- Ensured data quality and integrity through validation checks and error handling mechanisms.
- Enabled business intelligence by providing stakeholders with actionable insights and interactive dashboards via Power BI.
- Collaborated with cross-functional teams to gather requirements, understand business objectives, and develop tailored data solutions.
- Coordinated with business users, team members, and technical resources to ensure seamless operations and resolve issues within Power BI.
- Regularly reviewed and updated existing dashboards to reflect changing business requirements and ensure data integrity.
- Optimized data workflows to improve performance and reduce processing time, enhancing overall data operations efficiency.

EDUCATION

- D.Y. PATIL INSTITUTE OF MANAGEMENT & RESEARCH, PUNE 2023
Master of Business Administration (Business Analytics)
- SANDIP INSTITUTE OF ENGINEERING AND MANAGEMENT, NASHIK 2019
Bachelor of Engineering (Mechanical)
- H.P.T. ARTS AND R.Y.K SCIENCE COLLEGE, NASHIK 2015
Higher Secondary Education (Science)
- SYMBIOSIS SCHOOL, NASHIK 2013
Secondary Education

INTERNSHIPS

- **Power BI Job Simulation (PwC & Forage):** Analyzed call center trends, customer retention, and diversity & inclusion metrics using Power BI.
- **Data Analyst (MeriSkill Virtual Internship):** Developed proficiency in Power BI and SQL, gaining hands-on experience in data analysis and visualization.
- **Data Analytics (Pantech Solutions Ltd.):** Acquired skills in Python for data science, advanced Excel, NoSQL, MongoDB, and machine learning.
- **Data Analytics Virtual Internship (KPMG & Forage):** Enhanced expertise in Excel and Tableau for data analysis and visualization.

SKILLS

- **Data Visualization:** Power BI (Desktop and Services), Advanced DAX Calculations
- **Data Engineering:** ETL Processes, Databricks, Azure Blob Storage, Azure Data Factory, SQL (HackerRank Gold Badge)
- **Data Analysis Tools:** Excel (Advanced functions like VLOOKUP, Pivot Tables), Python (Matplotlib, Numpy, Pandas)
- **Analytical & Problem-Solving:** Strong Analytical Skills, Problem-Solving for Data Insights
- **Communication & Collaboration:** Excellent Communication, Cross-functional Team Collaboration, Client Engagement

CERTIFICATIONS & COURSES

- Microsoft PL-300: Microsoft Power BI Data Analyst
- Infosys Certified Database and SQL professional
- Infosys Certified Microsoft Power BI Developer
- Foundations: Data, Data, everywhere (Coursera)
- Master Microsoft Power BI (Alison)
- Infosys Certified MySQL Associate
