Career Objective

To utilize my potential in designing new software and technology with latest requirement and advancements in the field of technology, thereby adding up to the reputation of the organization.

Technical Skills

Languages: C#, SQL, JavaScript

Technologies: .NET, ADO.NET, LINQ, DevExpress, Microsoft SQL Server

Education

RMD Sinhgad School of Engineering Warje, Pune, BE in Computer Engineering Sept 2019 – May 2023

- CGPA: 8.26/10.0

Experience

Jr .NET Developer, Raintree Computing Pvt. Ltd, Baramati Oct 2023 – Present

- Collaborated with the development team to design, develop, and maintain web and desktop applications using .NET technologies.
- Wrote clean, scalable, and efficient code, ensuring compliance with project requirements and timelines.
- Supported software deployment and post-release maintenance by addressing issues promptly.

Website Developer, Bit World Solution, Baramati Jan 2023 - Sept 2023

- Designed, developed, and maintained responsive websites using [technologies/tools like HTML, CSS, JavaScript etc.]

Projects

Customer Complaint Portal

- Designed and developed a system to manage user concerns, feedback, and suggestions related to delivered products. The system streamlines the entire process, from complaint registration to root cause analysis, with the primary goal of minimizing recurring issues and optimizing cost efficiency.
- Tools Used: C#, .NET, SQL, XML, HTML

Vendor Portal

- Worked on a software solution for registering and managing vendors providing services to the company. The system included vendor verification and finalization processes. My primary responsibility was designing and implementing the contractor registration workflow, specifically for contractors offering seasonal services
- Tools Used: C#, .NET, SQL

Intrests

- Playing outdoor Sports
- Travelling
- Farming

Activities

- Attended 7 days National Service Scheme(NSS) Camp organized by the University.
- Participated in google cloud faciliator program and won swags.
