PRATIK SACHIN KADAM

(DevOps Engineer)

Pune, India 411 042 | C: +91 9356453732 | pratikkadam1412@gmail.com

SUMMARY

IT professional with knowledge of DevOps methodologies and Automation tools. Skilled in setting up part of DevOps environments with CI/CD pipelines, utilizing Jenkins for Continuous Integration, managing source code with Git/GitHub, and deployment. Proficient in Ansible, Docker, and Good knowledge about Linux, Networking, and troubleshooting. Familiarity with Apache/Tomcat configurations.

PROFILE SUMMARY

- Knowledge of complete **DevOps environment with CI/CD pipelines.**
- Good knowledge of **Jenkins** Continuous Integration tools.
- Knowledge of **GIT**/**GitHub** for source repository management.
- Good knowledge of **AWS** services. (EC2, S3, IAM, VPC, Route53, CloudWatch, CloudFront, SNS, RDS, Lambda)
- Good knowledge of **Ansible** Configuration Management tool.
- Good knowledge of **Docker.**
- Have good exposure on **Linux**, Networking & troubleshooting.
- Knowledge of **Apache/Tomcat** configurations.
- Configuration of **LAMP Server**.
- Knowledge of Public and Private cloud solutions.
- Created a CI/CD pipeline using Jenkins and Docker, reducing deployment times and minimizing human errors.
- Working knowledge of various tools, open-source technologies, and cloud services

HIGHLIGHTS

- Designing and Creation of CI/CD pipelines to ensure smooth delivery of projects.
- Deployment of application to various cloud environments.
- Set up and configure testing environments across multiple platforms and operating systems.
- Good Communication, Problem-solving, Work Ethic and Creativity.
- Strong analytical abilities, excellent communication, teamwork, adaptability, and a continuous learning mindset.

TECHNICAL SKILLS

- **Operating Systems**: Linux, Windows
- **CI and Deployment Tool**: Jenkins
- **Version Control Tools**: GitHub/Git
- **Configuration Management Tool**: Ansible
- **Containerization Tool**: Docker
- **Cloud Technologies**: AWS
- **Application Server**: Apache, Tomcat.
- **Networking Fundamentals:** TCP/IP, DNS, Load Balancing.

WORK EXPERIENCE

AB Software Solution- Software Developer
(3rd Oct 2022 - 15 April 2023)

Motivated and detail-oriented DevOps Engineer with hands-on experience in developing and managing ASP.NET desktop applications such as hotel management systems, billing software, and other management solutions. Proficient in leveraging Microsoft SQL Server, Visual Studio, and SAP Crystal Reports to deliver high-quality software solutions. Adept at creating and managing APIs within the ASP.NET framework and ensuring seamless software deployment through .exe installations. Recognized for exceptional performance with the Best Intern Award at AB Software Solution. Committed to applying DevOps best practices to enhance software development, deployment, and operations.
