Work Experience

Technical Support Engineer at Tecsys Solutions Pvt. Ltd.

1st Sep 2023 Present

- I have hands-on experience with AWS core services, including EC2, S3, ELB, VPC, IAM, and Route 53.
- Understanding the customer query and requirements and providing the best solutions. for Linux and Windows shared hosting, virtual private servers (VPS), and dedicated server environments.
- Handled and configured Webservers such as Apache Server, Linux tasks such as virtual hosts, Cronjobs, Partitions, File Permissions, Users and Group Administration, Disk Management, configuring Logical Volume Manager (LVM), etc.
- Handled system administration tasks, including SSH user management, FTP troubleshooting, phpMyAdmin, MySQL, MSSQL, WordPress support, SSL management, and server package installation and troubleshooting.
- Performed database management tasks, including MySQL dump backups and restorations, ensuring data integrity and availability. Restored domain data from local backups and managed file transfers securely using the SCP command.
- Deployed and managed AWS EC2 instances, EBS volumes, AMIs, and snapshots, including the creation and management of key pairs.
- Troubleshooting skills with network protocols such as DNS and TCP/IP.

- Managed Amazon S3, including creating buckets, uploading/downloading data, controlling access, and setting up lifecycle policies.
- Created and configured IAM roles with custom policies to securely manage permissions for AWS resources.
- Configured VPCs with subnets, route tables, and security groups to ensure secure network architecture, and performed VPC peering tasks for seamless connectivity.
- Monitored server performance using tools like Zabbix and Grafana to ensure optimal health and efficiency.
- I have experience using C-Panel, Direct-Admin, Plesk Panel, CWP Panel, and WHM tools for server and website management, along with expertise in WordPress administration and troubleshooting.
