GitHub:- <https://github.com/Saurabh-2864/>

Objective:-

Quality Assurance Analyst with 2 years' experience testing mobile apps, games, and web applications. Proficient in test case creation, defect documentation, and teamwork. Skilled in performance testing, Selenium with Java, and API testing. Committed to learning new technologies and enhancing testing methods.

Projects:-

1) Whiskey Simulation Game:-

Duration:- 08/2023 to 03/2024

Description:- The aim is to develop a whiskey game which will have a simulation-based gameplay where the player is in control of the whiskey-making process. The game would not have any levels & would go on like a story mode (guided by the in-app advisor) where the user would get an idea about the entire whiskey making process.

Roles and Responsibility: Led the development of a whiskey simulation game focusing on the entire whiskey-making process, utilizing skills in compatibility testing, play testing, regression testing, unit testing, combinatorial testing, bug reporting, functionality testing, and ad hoc testing.

2) Symbol Drive:-

Duration:- 01/2023 to 03/2024

Description:- The user app will allow user to locate rides nearby, scan and start the ride. The radar module will work as booking assistance to book a car within the set radius by the user. The user can set a radius limit from the current location using the slider and turn on the assistance. The user can browse through the list of cars on the visible zone of the map, in the form of a list. Users can browse on the map the zones in which both driving and parking are allowed, those in which only parking is allowed, and those zones in which it is impossible to drive.

Roles and Responsibility: During my tenure with Symbol Drive, I contributed extensively to various aspects of the project, leveraging my skills in Smoke Testing, Regression Testing, API Testing, UI/UX testing, Sanity Testing, Automation testing (Selenium with java), Bug Reporting, and Functionality Testing. My proficiency in these areas ensured the robustness, reliability, and seamless functionality of the application, enhancing the overall user experience and satisfaction

Work Experience:

Sr.No	Company Name	Designation	Duration
1)	Idea Usher	Quality Analyst	09/2022 – 03/2024
2)	Dimakh Consultants Pvt Limited	Software Testing-Intern	06 /2022 – 08 /2022

Education:

Qualification	Board	Name of the college	YOP	Percentage
B.E(Electrical engineering)	SPPU	JSPM's BSIOTR Wagholi, Pune.	2021	65.72

Skills:

1)Manual testing	11)Game Testing
2)Selenium	12)Bug Reporting
3)Java	13) TestNg
4) API Testing (Postman)	14) Aws
5) Performance Testing (Apache Jmeter)	15) DevOps
6)Github	
7)SQL (Mysql Database)	
8)Web/Mobile App Testing	
9) Jenkins (CI/CD)	
10)Jira tool
