FULL-STACK DEVELOPER (.NET)

Excelled as a Software Developer at ELINK SOFTWARE TECHNOLOGY PVT LTD, honing expertise in diverse technologies and contributing to codebase enhancements. Proactively drove quality improvements through rigorous testing, debugging, and upgrading of software solutions. Demonstrated proficiency in software design and coding, actively participating in collaborative development efforts to enhance overall product functionality.

► PROFESSIONAL EXPERIENCE (2.6 years)

Software Developer | ELINK SOFTWARE TECHNOLOGY PVT LTD. Bandra, Mumbai, Maharashtra | May 2022 – Currently Working

Domain: Billing.

Technologies Used:

.Net Framework, .Net Core, MVC, Azure, Web API's For MVC, C#, Entity Framework, Python, JavaScript, J Query, Crystal Reports, RDLC Reports, MSSQL, Oracle.

Projects:

- ♦ Maharashtra Jeevan Pradhikaran (MJP) (Water management and Billing Software).
- ♦ Thane Municipal Corporation (Water Billing Software).
- ♦ TUCO (NIDAR UTILITIES PANVEL Power Distribution - Hiranandani Fortune City, Panvel (Power Billing Software).)
- ♦ SUEZ(water management and billing)
- ♦ Eco-deliver System.

Additional Skills:

- ❖ Successfully implemented daily, monthly, quarterly collection reports.
- ❖ Developed tool to migrate and compare data From TMC to Oracle which reduced hassle.
- ❖ Worked on Client Side Services and Manage and work on client requirements
- ❖ Responding to requests from the development team
- ❖ Writing and maintaining code. Developed new functionalities, ensuring that client's vision and requirements
- ❖ Develop interface for online payment using QR code.
- ❖ Worked on multiple modules of Thane Municipal Corporation (Water Billing Software) and TUCO (Design and create new interface, Manage payment receipt, upload new consumers in bulk format, resolve clients compliant
- ❖ Data Import Normalization Extract, Export data. Migrate data
- ❖ Developed API's of TMC for consumer communication and Integrated Multiple API's with Finacle through TMC.
- ❖ Work the Development Team with all aspects of software design and coding.
- ❖ Attending and contributing to company development meetings
- ❖ Working closely with developers to improve product's functionality
- ❖ Developed Data Migration and authentication System with .net policy and role based authentication.

Software Developer Intern |Techsid Software Solution . Karad, Saidapur, Maharashtra | Dec 2021 to May 2022

Projects:

- ♦ Ravindra Collection (Shopping Mall Website)

Technologies Used:

ASP.Net, C#, JavaScript, J Query, Web API's, HTML Crystal Reports, MSSQL Server.

▷ TECHNOLOGY SUMMARY:

- **Languages:**.NET, C#, Python, HTML, CSS3,
- **IDE:** Visual Studio, VS code editor, Oracle ,PyCharm, SSMS,
- **Systems/Framework:** .Net Core, .Net MVC, .Net Framework, Django, Fast API
- **Databases:** ORACLE ,MSSQL Server, MySQL.
- **S/W Versioning Tool:** GitHub, TFS.

▷ PROFILE SYNOPSIS

- Led the development of critical billing solutions for Maharashtra Jeevan Pradhikaran, Thane Municipal Corporation, TUCO (NIDAR UTILITIES PANVEL LLP), SUEZ, and Eco-deliver System, showcasing project management and leadership skills.
- Excelled in utilizing a diverse range of technologies including .NET Framework, .NET Core, MVC, C#, Entity Framework, Python, JavaScript, Crystal Reports, RDLC Reports, MSSQL, and Oracle to create efficient and scalable software solutions.
- Specialized in data import, normalization, extraction, and export, ensuring meticulous handling and organization of large datasets.
- Played a pivotal role in enhancing modules for Thane Municipal Corporation and TUCO, focusing on new interface design, payment receipt management, bulk consumer uploads, and client complaint resolution
- Actively collaborated with development teams, contributing to software design, coding, and participating in company development meetings to improve overall product functionality.
- Developed a secure Data Migration and Authentication System with .NET policy and role-based authentication, ensuring the integrity and confidentiality of sensitive information.
- Applied innovative problem-solving skills to manage bulk uploads of new consumers in various formats, showcasing adaptability and a solution-oriented approach.

▷ CORE COMPETENCIES

- | | | |
|-----------------------------|-------------------------------|-----------------------------|
| • Web Development | • Module Enhancement | • Project Management |
| • Software Development | • Security and Authentication | • Code Review |
| • ASP.NET MVC | • Collaborative Development | • Debugging |
| • Technological Proficiency | • Problem-Solving Skills | • Version Control (Git,tfs) |
| • Data Management | • Testing | |

▷ NOTEWORTHY HIGHLIGHTS

- **Project Expertise:** Led the development of Water Billing Software for Maharashtra Jeevan Pradhikaran (MJP) and Thane Municipal Corporation, showcasing proficiency in billing systems.
- **Power Billing Mastery:** Spearheaded the creation of a Power Billing Software for TUCO (NIDAR UTILITIES PANVEL LLP) in the Power Distribution sector, contributing to the Hiranandani Fortune City, Panvel project.
- **Industry-Compliant Solutions:** Developed billing solutions for SUEZ, specializing in water management and billing, ensuring compliance with industry standards and regulations.
- **Technological Prowess:** Demonstrated expertise in a wide array of technologies, including .NET Framework, .NET Core, MVC, C#, Entity Framework, JavaScript, Crystal Reports, RDLC Reports, MSSQL, and Oracle.
- **Data Management Excellence:** Specialized in data import, normalization, extraction, and export, showcasing a comprehensive understanding of data management practices.
- **Module Enhancement:** Worked extensively on multiple modules of Thane Municipal Corporation and TUCO, contributing to the design and creation of new interfaces, managing payment receipts, and resolving client complaints.
- **Collaborative Development Approach:** Collaborated closely with development teams, actively participating in software design, coding, and contributing to company development meetings.
- **Security and Authentication Systems:** Developed a robust Data Migration and Authentication System with .NET policy and role-based authentication, ensuring the security of sensitive information.
- **Innovative Problem-Solving:** Applied innovative problem-solving skills to manage bulk uploads of new consumers in various formats, demonstrating adaptability and solution-oriented thinking.

▷ ACADEMIC CREDENTIALS

- **M.Sc. Computer Science (88.87%)** | Sadguru Gadage Maharaj College, Karad | 2022

Technical Purview: Web Development, Asp.Net MVC ,Frontend and Backend Development.

Certifications:

- Junior Software Developer.
- Java programing through the great learning academy.
- APLL training certificate
- Ethical Hacking Essentials (EHE)
- Cyber Security internship certificate
