PROFESSIONAL EXPERIENCE

KPMG India

Jun 2024 - Present

Analyst – Risk Advisory & Consulting

- ❖ Collaborate closely with managers in Risk Advisory & Consulting to strategize and execute fraud investigations.
- ❖ Conduct comprehensive pre-verification checks and forensic analyses to detect potential fraud and irregularities within client operations.
- ❖ Actively engage in client servicing activities, maintaining clear communication and providing updates throughout the investigation process.
- ❖ Effectively utilize Microsoft Office Suite (Word, Excel, PowerPoint) and forensic software/tools to support investigation activities.

YBI Foundation

May 2024 – June 2024

DataAnalyst Intern

- ❖ Gaining hands-on experience in machine learning models such as linear regression and logistic regression.
- ❖ Utilized Python in Google Colab to develop projects, enhancing proficiency in predictive analytics and machine learning techniques.
- ❖ Developed predictive models for diverse applications including customer churn prediction, movie recommendations, and sales forecasting.

KultureHire

Jan 2024 – Apr 2024

Business Analyst Intern

- ❖ Managed a pivotal project centered on understanding Gen Z career aspirations, which involved analyzing over 90,000 survey responses. Leveraged Advanced Excel for data preprocessing, Power BI for visualization, and SQL for in-depth analysis.
- ❖ Utilizing Advanced Excel, I ensured data consistency and cleanliness, laying the foundation for robust analysis. With Power BI, I created dynamic visualizations to uncover trends and insights, aiding stakeholders in decision-making. Additionally, SQL queries were instrumental in dissecting complex datasets, identifying key patterns, and proposing actionable recommendations.
- ❖ My contributions enabled the organization to gain valuable insights into the career aspirations of Gen Z, informing strategic decisions and enhancing operational efficiency.

MeriSKILL

Dec 2023 – Jan 2024

Data Analyst Intern

- ❖ Cleaned and transformed raw datasets into structured formats for further analysis.
- ❖ Conducted end-to-end analysis to identify gaps and propose solutions.
