EXPERIENCE

Data Science Intern	Jan 2023 - Jun 2023
Itelligence Info Tech Private Ltd	<i>Pune, India</i>

- Understand a basics of Python and libraries like NumPy and Pandas Utilized Python for data analysis and predictive analytics, developing accurate models.
- Completed comprehensive Data Science certification training with Python, mastering essential methodologies.

PROJECT

Car Price Predictor Project :: Machine Learning

Developed a machine learning model for car price prediction, utilizing regression algorithms and a comprehensive dataset of Vehicle features. Implemented feature engineering and selected optimal algorithms to achieve accurate pricing predictions. The Project aimed to provide valuable insights for both buyers and sellers in the automotive market. .

Laptop Price Prediction :: Machine Learning

Created a machine learning model to predict laptop prices based on diverse features, including specifications, brand, and market trends. Regression techniques and fine-tuned the model for optimal accuracy, The project aims to assist consumers and retailers in making informed decisions by forecasting laptop prices in the dynamic technology market

EDUCATION

BE, Instrumentation Engineering , AISSMS IOIT, Pune	2024
