Projects

• A MERN Stack Gym Management System

Frontend:- Html, CSS, Javascript

Framework:- PHP

Backend:- Mongo DB, Node JS

Explanation:- GymHub is a comprehensive gym management system designed to streamline and enhance the operational efficiency of fitness centers. Leveraging the power of the MERN (MongoDB, Express.js, React.js, Node.js) stack, GymHub offers a seamless integration of frontend and backend technologies, providing a robust platform for gym owners, trainers, and members to manage their fitness routines and administrative tasks.

Internship

• Data Science And Buisness Analytics Intern At The Spark Foundation

In this Internship Prediction using supervised ML (Level-Beginner) we Predict the percentage of marks of and students based on the number of study hours. I have successfully completed this 1 month's internship At the Spark Foundation. I have Successfully completed my task 1 as Data science and Business analytics intern at The Spark Foundation.

Certifications

- Front End Development: HTML
- Front End Development: PHP
- Python 101 for Data Science
- Data Science Tools
- Machine Learning With Python

Workshops

- Add On Course of MATLAB
- Participated in Smart India Hackathon 2023

Achievements & Awards

- Got Prize for the Best NSS volunteer of 2023-2024

Languages

- English
- Marathi
- Hindi

Interests

- Travelling
- Solving Complex Problems
- Handelling Events
- Coordinating with Peoples

Co-Curricular Activities

- Nss volunteer
- Event Head Coordinator In SCIFARI 2.0
- Event Head Coordinator In MATHLETICS 2023-2024
- Event Head Coordinator In Library Week 2023-2024
