## PROFILE

---

An Independent and Self-motivated Graduate with Proven Skills and a Strong Interest in Coding, particularly in Java and Various other Programming languages. I am Eagerly Seeking a Career in the IT Sector as a Software Engineer, where I can Leverage my Skills and Abilities to Contribute Effectively to Projects and Initiatives.

## SKILLS

---

### Languages -

Java , HTML , CSS , MYSQL , JavaScript

### Developer Tools -

Vs-Code , Eclipse ,GitHub , IntelliJ

### Frameworks -

Hibernate , Angular , Spring Boot

## PROJECTS

---

### Notes Application -

- Created a responsive and user-friendly interface using Angular Material and Bootstrap, ensuring compatibility across different devices and screen sizes.
- Designed and implemented a fully functional notes application using Angular, enabling users to create, read, update, and delete (CRUD) notes efficiently.

### Car Rental System -

- Crafting a user-friendly console interface for renting and returning cars.
- Calculating rental prices based on different car types and durations.
- Implementing classes, methods, and encapsulation for organized code.

### Online food Order Application -

- Implemented order history, favorites, and easy reordering features for user convenience.
- Ensured responsive design for accessibility across multiple devices.
- Integrated customer reviews and ratings for engagement and feedback.
