Objective:

A motivated .NET Developer with 1 year of experience at EaseWork Consultancy Services. Specialized in building and maintaining software applications using ASP.NET, C#, and SQL Server. Strong experience in developing CRM solutions with a focus on inquiries, quotations, invoices, and reporting. Looking to leverage my skills in a challenging development role.

Experience:

EaseWork Consultancy Services, Pune, Maharashtra   February 2024 – Present
.NET Developer

During my time at EaseWork, I worked on a key project: **Pre-Sales Management Application (CRM)**. Here's a snapshot of my contributions:

- Designed, developed, and maintained a Pre-Sales Management Application (CRM) to streamline business processes for inquiries, quotations, invoices, reports, and dashboards.
- Worked on both front-end (web interface) and back-end (API development) using ASP.NET, C#, and SQL Server.
- Developed and integrated RESTful APIs to ensure seamless communication between the client-side and server-side.
- Utilized Microsoft MAUI to create cross-platform applications for mobile and desktop devices, enhancing the user experience.
- Participated in troubleshooting and debugging to ensure the smooth operation of the application.
- Applied Agile methodologies, attending daily stand-up meetings and delivering code in sprints.

Technical Skills

- **Languages & Frameworks:** C#, ASP.NET, .NET Core, MVC, Web API, MAUI

- **Database Management:** Microsoft SQL Server, Entity Framework, LINQ

- **Web Technologies:** HTML, CSS, JavaScript

- **Tools:** Visual Studio, SourceTree, Git, Jira, Postman, IIS

- **Other Skills:** Object-Oriented Programming, RESTful Services

Education

Savitribai Phule Pune University– Pune, Maharashtra   **[2017 - 2022]**
Bachelor of Engineering in Electrical Engineering   **CGPA: 7.78 | Aggregate 70.30**

Projects

Pre-Sales Management Application (CRM)

Contributed to the development of Upsales, a simplified CRM tool designed to meet the needs of small businesses. Worked on both the web application and MAUI aspects of the tool. The CRM focuses on enhancing customer relationship management by providing an intuitive interface for tracking customer interactions, managing sales pipelines, and improving overall operational efficiency.

- Developed a CRM solution that transformed how clients managed pre-sales activities, enabling better organization of inquiries, quotations, and invoicing.
- Employed ASP.NET, C#, SQL Server, and MAUI to create a robust, user-friendly application.
- Developed and consumed APIs to handle data synchronization between the front-end and back-end, improving application performance and scalability.
- Integrated reporting features allowing users to generate detailed reports on sales inquiries, quotations, and financial performance.
- Organized and optimized data sorting processes based on specific requirements.
- Implemented PDF generation for quotations and invoices using HTML and CSS, enhancing user documentation and reporting capabilities.
- Work on the services in client application to fetch the data from server side.
- Successfully deployed the application on **IIS**, ensuring optimal configuration for performance and security**.**
- Integrated **"Remember Me"** functionality for login and implemented a **password visibility toggle** (eye icon) to improve user experience.
- Implemented full CRUD (Create, Read, Update, Delete) operations for inquiries, quotations, and invoices, allowing users to efficiently manage their data within both the web and mobile interfaces.
- Managed the database on a local device, maintaining data integrity and optimizing performance.

Certifications & Courses

- Backend Development using ASP.Net - Coursera
- Version Control with Git - Coursera
- C# for .Net Developers - Coursera
- MATLAB Onramp Certificate - MathWorks

Personal Traits

- A proactive problem-solver who enjoys tackling challenges head-on.

- Strong communicator and team player, skilled in collaboration to achieve project goals.

- Quick learner, always eager to expand my knowledge and keep up with industry trends.
