## SUMMARY

Data-driven Software Developer with over 2 years of experience in software development. Skilled in leveraging data analysis and visualization to address complex business challenges in the Finance sectors. Proficient in Power BI Desktop, SQL, DAX, and , transforming raw data into actionable insights. Experienced in troubleshooting, testing data processes, and ensuring data quality and accuracy. Strong problem-solving abilities and adept at documentation. Eager to apply skills in a dynamic role that promotes continuous learning and collaboration.

## SKILLS

**Database Management:** SQL Server

**Data Analysis & Visualization:** Power BI Desktop, Power BI Services, DAX, Data Management, Power BI Gateway

**Scripting & Programming:** SQL, JavaScript , Java

**Soft Skills:** Problem-solving abilities, Collaboration and communication, Continuous learning mindset Teamwork

## PROFESSIONAL EXPERIENCE

Software Developer (Data), Birlasoft

### Roles and Responsibilities

- **Designed and developed 10+ Power BI reports** and interactive visuals from scratch.
- **Created and modified visualizations** in Power BI reports and dashboards based on client requests.
- **Utilized DAX queries** to build calculated measures and columns for complex data analysis.
- **Enabled Drill Down and Drill Through** functionalities to allow users to explore data in more detail.
- **Implemented Row-Level Security (RLS)** to control data visibility for different user groups.
- **Configured and managed Power BI Gateway** to facilitate secure and reliable connections to on-premises data sources, enabling real-time data analysis
- **Optimized data refresh schedules** and monitored performance through **Power BI Gateway** to ensure efficient data processing and reporting
- **Created and maintained Dataflows** in Power BI to automate data ingestion, transformation, and loading (ETL) processes, enhancing data quality and consistency
- **Played a key role in data analysis and visualization projects**, helping to translate complex data sets into actionable insights through interactive dashboards

### Retail Domain Project ( Jan 2023-Nov 2023)

- **I worked on a project focused on the retail domain. The goal was to help a retail business leverage its data for better decision-making and strategic planning by using Power BI for analysis and reporting.**
- **Roles and Responsibilities**
- Created Power BI Reports and Dashboard
- Data modelling and DAX Calculations
- Data Analysis and Insights
- Data Sharing and Collaboration
- Scheduled Refresh and Security

## EDUCATION

**Bachelor of Engineering (Computer Technology) CGPA :8.24**

KJ College of Engineering & management Research

**Diploma in Information Technology ( MSBTE ) Percentage : 72%**

Puranmal govt polytechnic Latur

**2019 – 2022**  
Pune

**2017 - 2019**  
Latur
