Committed to continuous learning and delivering high-quality results.

PROJECTS

- Real Time Tracking And Analysis of Student Learning's Outcomes And Their Academics ProgressJAN 2023

Creating Website Using Python and Django

- Tools : PYCHARM
- Skills : Language: Python ,Frontend: HTML,CSS,JavaScript, Backend: DJANGO, Database: MYSQL

- REPORT AND DASHBOARD CREATION ON HEALTHCARE ANALYSIS DEC 2023

Dataset visualisation and Analysis Using PowerBI

- Tools & technologies used: PowerBI Query Editor, PowerBI Desktop , PowerBI Service
- Skills: DAX,Calculated Measures and Columns,Functions,Visuals,Parameters, Sorting,Filtering.

- Heart Disease Prediction JAN 2024

Heart Disease prediction Using Classification

- Tools : Jupyter Notebook
- Skills : Supervised Learning,SVM,KNN,Logistic Regression,Decision Tree

Algorithm

- Ecommerce Sales Analysis May 2024

Dataset visualisation and Analysis Using PowerBI

- Tools & technologies used: PowerBI Query Editor, PowerBI Desktop , PowerBI Service
- Skills: DAX,Calculated Measures and Columns,Functions,Visuals,Parameters, Sorting,Filtering.

TECHNICAL SKILLS

Languages:-Python, SQL

Tools:-Advance Excel, PowerBI, Powerpoint, MSWord

Software:-Heidi SQL, Jupiter Notebook, Google Colab,

PY Libraries:-NumPy, Pandas, Matplotlib, Seaborn, Scikit Learn

Machine Learning:-EDA(Exploratory Data Analysis), Supervised Learning
