PROFILE

Mobile Application Developer with industry experience of around 2 years. Experience includes working primarily on mobile application development on cross-platforms and other native Android development. Known for strong problem-solving skills and ability to deliver high-quality, user-friendly applications within deadline and budget constraints. Passionate about staying up-to-date with the latest industry trends and technologies to create cutting-edge mobile solutions.

WORK EXPERIENCE

Associate Software Developer

Techspian Services Pvt Ltd Feb 2022 - Feb 2024

- Project: Hotel Booking Application:** Played a key role in developing the front end of a hotel booking mobile app using Flutter. I seamlessly integrated .NET APIs for efficient data exchange, resulting in a successful launch on the Play Store. Additionally, I contributed to the front end of a comprehensive hotel booking admin portal, utilizing Flutter to integrate .NET APIs. **Techstack: Flutter, Integrated .NET APIs, Firebase.**
- Project E-commerce Application:** Effectively developed and deployed an Organic grocery-selling app using Flutter. I seamlessly integrated Nodejs APIs for efficient data exchange. **Techstack: Flutter, Integrated Nodejs APIs, Firebase.**

Trainee Android Developer

NextGenCoder Pvt Ltd Mar 2021 - Aug 2021

- Project: Toddler's Book:** Developed an engaging educational app designed for toddlers, focusing on fundamental concepts such as ABCs, numbers, shapes, vegetables, colors, animals, body parts, and fruits. The app, featuring a jungle book theme, offers free E-learning activities for kindergarten and preschool children. **Techstack: Java, Firebase, Android Studio**
- Project: Tic-Tac-Toe:** Introducing a classic 3x3 Tic-Tac-Toe game for two players, where turns alternate between marking (X) or (O). The program dynamically updates after each move, checking for a winning combination of three matching markers in a line horizontally, vertically, or diagonally. Experience the timeless fun of Tic-Tac-Toe with this engaging and straightforward game. **Techstack: Java, Android Studio**
