- MS Word
- Power Point
- SQL
- HTML
- CSS basics
- Python
- Data structures
- Operating systems
- R language

WORK EXPERIENCE

Data visualization -Intern
May 2023 – June 2023

Analyze large and complex datasets to identify patterns, trends, and insights. Design and create interactive visualizations, dashboards, and reports using industry-standard tools. Present data visualizations and findings to internal teams, clients, or stakeholders in a clear and concise manner. Collaborate with cross-functional teams to gather feedback and refine visualizations to improve data storytelling and user experience. Assist in data cleansing, preparation, and validation to ensure accuracy and reliability of visualizations. Stay updated with the latest trends and best practices in data visualization techniques and tools. Support ad-hoc data analysis and reporting requests from various departments as needed.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Application
Data Science
Ajeenkya D Y Patil University | **2021 - 2024**

Certifications
Google Data analytics(Coursera)
Python Programming(IIT Kanpur)
Introduction to H20 using python(Infosys Spring board)
