PROJECTS

SkillSphere- Freelancing Website (Full Stack)   Dec 2023 — Mar 2024
- Collaboratively designed a website as part of a college project with a team of two members, utilizing HTML, CSS, and JavaScript.
- Implemented essential features including PHP-based login/signup functionality for users, JavaScript-driven buyer/seller options to facilitate transactions, and a Node.js-powered chat feature enabling seamless communication between buyers and sellers.
- Designed a React.js-based user-friendly interface for enhanced usability.
- Developed pages dedicated to managing orders, gigs, and other aspects of the platform, showcasing proficiency in web development, teamwork, and project management through successful completion of the project.

UniDwell | Flat mate Finder Website   Aug 2023 — Oct 2023
- Led a team of 8 to develop a practical website addressing real-life challenges for flat mates, enhancing communication and coordination.
- Implemented secure login and signup features using MySQL for database management, ensuring robust data privacy and security.
- Utilized HTML, CSS, Bootstrap, and JavaScript to create an intuitive and responsive user interface, enhancing user experience.
- Employed agile methodologies such as Scrum for efficient project management and timely delivery.
- Received commendation from the chief guest for the website's practicality and user-centric design.
- Proposed the publication of the website as a viable solution for individuals seeking shared living arrangements, demonstrating foresight and initiative.
