University Projects

- **An online learning platform with intelligent tutoring system using AI components** JAN-2024
 - Developed an e-learning platform concept utilizing AI for intelligent tutoring
 - Using libraries are Pandas, Opensource computer vision library, Scikit learn, Natural Language toolkit.
 - Implemented Machine Learning algorithms to personalize learning paths for students.
 - An interactive learning environment with AI-powered features.
 - Championed a project that promotes accessible and effective education through AI.
- **Portfolio Site using Front End web languages** JULY- 2023
 - Utilizes front-end web languages like HTML, CSS, JavaScript, and Bootstrap for an engaging portfolio.
 - Clear agenda with specific sections and a navigation bar for easy access and interaction
 - Incorporates visual elements and attractive styling to enhancement content comprehension
 - Utilizes responsive design and interactive features to provide an optimal user experience.

Internships

- **Data science in Skill Dzure** APRIL-2024
 - I learned languages like Python & SQL. It makes expertise in tools like Pandas, NumPy.
 - It also helps to gain knowledge on machine learning algorithms & statistical methods.
- **Front End Development in IBM Skills Build** JULY-2023
 - The main aim of this design is to analyze and understand performance of front web languages like HTML, CSS. It helps to build own portfolio site.

Certifications

- Front End Web Development – IBM Skills Build JUNE- 2023
- Data Science –Skill Dzure
- Cloud Computing - NPTEL

Hobbies

- Regularly Interested to learning new technologies
- Craft designing

Awards & Achievements

- I received the offer letter from Agumentic.
- I participated in Code Tantra program
- I participated CRT (campus Recruitment Training)
